CIGAT come to the

100th Birthday

The hundredth anniversary of the Digby Weekly Cower has brought to mind some fond memories at cytained in the following historical chapter of the other. But first, I wish to congratulate the current shows a finer of the Courier, Mrs. J.M. (Edith) Wallis, for a job wall done over the years and still being well done. According to any record. I have at hand, the Digby Courier, in one hundred years of publication, was controlled under the same family management of Wallis Print Limited. The late J.J. Wallis became didner of The Courier, the second time, in 1929, and at the same time of Courier the second time, in 1929, and at the same time of Courier the second time, in 1929, and at the same time of Courier the second time, in 1929, and at the same time of Credits spanes. which he had been running in and which became With between 1929 and 1931

J.L. and "Mac" sometimes worked overtime. I worked only the regular hours being paid a weekly wage which was comporatively good for those times and my lack of experience. I received four or five dollars a week for working after school hours to six o clock and on Saturday all day, and nine dollars a week for full weeks after finishing school. A two or three follar a week raise was offered to me in the fall of 1925 for me to stay on at printing, but, I had made up my mind to enter a branch of the Royal Bank of Canada, starting salary of \$500. The bank salary ingred out about the same per hour as for the printing job. This laid out from the water's edge, partie on level of that name. It was settled by Loyalists from New York in 1783, the most of whom went early to farms, or, moving to older countries, left the whole

free trade with the U.S.A., especially with the New England States. The question was then debated by some Digby High School students one of which was a J.J.'s' daughter. Florence (now Mes. Melvin O. Tibert, Freeport, Digby Co.) Some days after the debate a man from some part of Nova Scotia came to the printing shop looking for Florence, one of the successful debaters; I had the impression that his man was interested politically but, maybe I was wrong.

Well. I felt that I had learned considerable from my short experience at "The Wallis Job Print" I was learning to do beginner jobs, receiving some learning to do beginner jobs, receiving some learning eabout things like embossing, stapling, perforating, counting, cutting and trimming paper slock, mixing inks for certain desired colors, and so forth, but, the only experience I had at setting type was just enough to make a "pi", the printers name for a confused mess.

the great advantage we have in buying of manufacturers in England, we again wish to show you the position we are in Mr. Tetlon, the representative of Ryland & Son's, "the largest concern in the world," assures as that we pay the same price for our goods which the largest Dry Goods concerns in Canada

tor our goods which the argest by Goods concerns a Gunda pay. One concern in this country buys Half-Million dollars worth of goods of this same concern, so with our small expense of doing business we can compete with any. You need not be suprised at the following which occurred in the Sample room while we were buying our English Fall Goods: Sample room which we were laying our Lagrast are Woods; A young man, clerk in one of the largest stores in Canada, being present saw some Dress Trimmings and remarked that they sold it for 90c, per yd., while we only paid 50c, per yd. You will naturelly say, "Oh, that is only one article" Ves, we grant you that we do not claim that all the English goods we buy, show that difference in price, but we do claim that all the goods are very much cheaper, and we are prepared to compare prices with any—remember any concern in Canada.

the great advantage we have in buying of manufacturers in England we again wish to show you the position we are in England, we again wish to show you the position we are in-Mr. Tetlew, the representative of Ryland & Son's, "the largest concern in the world," assures us that we pay the same price for our goods which the largest Dry Goods concerns in Canada pay. One concern in this country buys Half-Million dollars worth of goods of this same concern, so with our small ex-pense of doing business we can compete with any. You need not be surprised at the following which occured in the Sample room while we were buying our English Fall Goods: Sample room while we were buying our Lugisis Fait Goods: A young man, clerk in one of the largest stores in Canada, be-ing present saw some Dress Trinmings and remarked that they sold it for 90c per yd., while we only paid 50c per yd. You will naturelly say, "Oh, that is only one article" Yes, we grant you that we do not claim that all the Laglish goods we buy show that difference in price, but we do claim that all the goods are very much cheaper, and we are prepared to co prices with any—remember any concern in Canada.

the great advantage we have in buying of manufacturers in England, we again wish to show you the position we are in Mr. Tetlow, the representative of Ryland & Son's, "the largest concern in the world," assures us that we pay the same price for our goods which the largest Dry Goods concerns in Canada pay. One concern in this country buys Half-Million dollars worth of goods of this same concern, so with our small expense of doing business we can compete with any. You need not be surprised at the following which occured in the Sample room while, we were buying our English Fall Goods: A young man, clerk in one of the largest stores in Canada, be A young han, elevan one of the largest stores in chang, we impresent saw, some Dress Trimmings and remarked that they sold it for 10c, per yd., while we only paid 50c, per yd. Yo will acturelly say, "Oh, that is only one article" Yes, we grant you that we do not claim that all the English goods we buy show that difference in price, but we do claim that all the goods are very much cheaper, and we are prepared to compare prices with any—remember any concern in Canada.

WE WOULD ASK ALL.

we would ask all who get catalogues, prices or samples of Dress Goods, Siks, etc., any concern in the Dominion of Canada (we care not from what part) to compare oursh Goods with them, and if our prices are not better or equally as good we will make present of the article. This, no doubt, will seem very strong language to those who ta acquainted with the fact; but we have had comparisons made and we knew that concerns buy of the same house in England that we do, and pay exactly same price, expenses being very much less we are safe in making such a statement. Now our sh Goods are coming to hand, and some of the most beautiful new Dress Goods which eye has ever rested upon, are already open. Call and see.

WOULD ASK ALL.

We would ask all who get catalogues, prices or samples of Dress Goods, Silks, etc., from any concern in the Dominion of Canada (we care not from what pairt) to compare our English Goods with them, and if our prices are not better or equally as good we will make you a present of the article. This, no doubt, will seem very strong language to those who are not acquainted with the fact; but we have had comparisons made and we know that these concerns buy of the same house in England that we do, and pay exactly same price. Our expenses being very much less we are safe in making such a statement. Now our English Goods are coming to hand, and some of the most beautiful new Dress Goods which ever rested upon, are already open. Call and see

WOULD ASK ALL.

We would ask all who get catalogues, prices or samples of Dress Goods, Silks from any concern in the Dominion of Canada (we care not from what part) to compate English Goods with them, and if our prices are not better or equally as good we will you a present of the article. This, no doubt, will seem very strong language to thos are not acquainted with the fact; but we have had comparisons made and we know these conserns buy of the same house in England that we do, and pay exactly same Our expeases being very much less we are safe in making such a statement. We have a lot of broken lines in all styles of Men's, Ladies' and Children's Footwear—not damaged goods by any means but the balance of some lines not yet sold.

These must be got out of the way. We have large stock of goods coming for the spring and we want all our room for them.

Therefore we offer a special sale until this stock is gone. Genuine bargains. You can get your fit in Boots or Shoes in half a dozen different styles during this month at prices away down. We don't give things away but this is an honest, downright sweep in prices.
