100th Birthday

THE DIGBY

The hundrotth anniversary of the Digby Weekly Coorder has brought to mind some tond memories as cotained in the following historical chapter of the Alter Box first, I wish to congratulate the current into of the Courier, Mrs. J.M. (Edith) Wallis, for a physical done over the years and still being well done, to will done over the years and still being well done, to solve over the years and still being well done, to be control of any record. I have at hand, the high Courier, in one hundred years of publication for 42 years. 1931 to 1973, under the control of Wallis Print Limited, the late J.J. Wallis became date of the Courier, the second time, in 1929, and at the same time of Courier the second time, in 1929, and at the same time of **Credits** units, in 1929, and at which he had been running to same starts evicually and which became Wi between 1929 and 1931

We worked ten-hour days, six days a week. "J.1." and "Mac" sometimes worked overtime I worked only the regular hours being paid a weekly wage which was comporatively good for those times and may lack of experience. I received four or five dollars a week for working after school hours to six o clock and on Saturday all day, and more dollars a week for hall weeks after finishing school. A two or three dollars a week raise was offered to me in the fall of 1025 for me to stay on at printing, but. I had made up my mind to enter a branch of the Royal Bark of Canada, starting salary of \$200. The bank salary mired out about the same per hoar as for the prin-ing job. Nevertheless, the congenial atmosphere of the printing plant those days, and, experience towever short, were belpful and appreciated by me We worked ten hour days, six days a week the printing plant those days, and, experience lowever short, were helpful and appreciated by me

AMONG THE AMERICAN TROC CRISIS IN SPAIN.-MINISTRY SIGNED.

To suppose that no one merchant can buy goods, cheaper than another is utter foolishness. It is true, however, there are a few lines of goods for which all must pay alike, but the majority of goods can be bought less than regular prices, by a sharp cash buyer, and there is a great difference where you buy. For instance, to be in a position to buy direct from manufacturers in England is a great advantage, and therefore we claim that buying in the right place at the right time and at the right price, enables us to place before the people the best of goods fresh and new at prices which you must admit are very low. FOOLISHNESS.

To suppose that no one merchant can buy goods cheaper than another is utter foolishness. It is true, however, there are a few lines of goods for which all must pay alike, but the majority of goods can be bought less thrain signal prices, by a sharp cash buyer, and there is a great difference where you buy. For igstance, to be in a position to buy direct from manufacturers in England is a great advantage and therefore we claim that buying in the right place at the right time and at the right price englishes us to place before the people the best of goods fresh and new at prices, which you must admit are very low.

FOOLISHNESS.

To suppose that no one merchant can buy goods, cheaper than another is utter foolishness. It is true, however, there area few binss of goods for which all must pay alike, but the majority of goods can be bought less that regular prices, by a sharp cash buyer, and there is a great difference where you buy. For fistance, to be in a position to buy direct from manufacturers in England is a great advantace and therefore we claim that buying in the right place at the right time and at the right price ensbles us to place before the people

To suppose that no one merchant can buy goods cheaper than another is atter foolishness. It is true, however, there are a few lines of goods for which all must pay alike, but the majority of goods can be boileft less than regular prices, by a sharp cash buyer, and there is a great difference where you buy. For instance, to be in a position to buy direct from manufacturers in England is a great advantage and therefore we claim that buying in the right place at the right time and a 'the right price subfaces us to place before the people the best of goods fresh and new at prices which you must admit are very low. 50N, July 30.—The re-States governme tures for peace was a, the French Ambas of for transmission t erument. FOOLISHNESS.

To suppose that no one merchant can buy goods cheaper than another is utter foolishness. It is true, however, there are a few lines of goods for which all must pay alike, but the majority of goods can be bought less that regular prices, by a sharp cash buyer, and there is a great difference where you buy. For instance, to be in a position to buy direct from manufacturers in England is a great advantage and therefore we claim that buying in the right place at the right time and at the right price eachies us to place before the people the best of goods fresh and new at prices which you must admit are very low.

FOOLISHNESS.

To suppose that no one merchan, can buy goods cheaper than another is utter foolishness. It is true, however, there are a few links of goods for which all must pay alike, but the majority of goods can be boughriess than regular prices, by a sharp cash buyer, and there is a great difference where you buy. For instruct to be in a position to buy direct from manufacturers in England is a great advantage, and therefore we claim that buying in the right place at the right time and at the right price enables us to place before the people the best of goods fresh and new at prices which you must admit are very low.

Pound Patches, 15c. Boye Suits, 31.20; we will sell you cheape than any. Boois and Shoes CHEAP. Ladies' Handkerchiefs, 3 cts. each.
