## Welcome to the Digital DIGBY COURIER

1877-1978

### 100th Birthday

The hundredth anniversary of the Digby Weekly Courier has brought to mind some fond memories as contained in the following historical chapter of the writer. But first, I wish to congratulate the current editor of the Courier, Mrs. J.M. (Edith) Wallis, for a job well done over the years and still being well done, good service rendered with great fortitude.

According to any record, I have at hand, the Digby Courier, in one hundred years of publication, was controlled under the same family management for 42 years, 1931 to 1973, under the control of Wallis Print Limited. The late J.J. Wallis became editor of The Courier the second time, in 1929, and at the same time of the business, which he had been running for some time previously and which became Wallis Print Limited sometime between 1929 and 1931.

I well remember the last year of the twenties when I worked in the office of the son with the husband and father of the late J.J. Wallis, the Courier. Sometime in 1928 or early 1929, the late J.J. Wallis (Mac), son of "J.J." engaged me to work every day after school hours, Saturdays, and for some months after finishing school. The place of work was in the building of the present Digby town hall on First Avenue. J.J. Wallis then worked occasionally at the print shop but mostly across the street at the Courier office which was then located on land in the general area where The Royal Bank of Canada is now.

Wallis Job Print operated in 1929 with a staff of four consisting of J.J. Wallis, J.M. Wallis, Miss Eva Haynes, who later became Mrs. George Kicup, and myself. I was engaged as a printer in the left

Eva's job was to run the printing plant but mostly at the Courier office. "Mac" worked nearly full time at all the different jobs at the Job Print, and I worked at various duties, most of the time being spent at operating printing presses.

We worked ten-hour days, six days a week. "J.J." and "Mac" sometimes worked overtime. I worked only the regular hours being paid a weekly wage which was comparatively good for those times and my lack of experience. I received four or five dollars a week for working after school hours to six o'clock and on Saturday all day, and nine dollars a week for full weeks after finishing school. A two or three dollar a week raise was offered to me in the fall of 1929 for me to stay on at printing, but I had made up my mind to enter a branch of the Royal Bank of Canada, starting salary of \$300. The bank salary figured out about the same per hour as for the printing job. Nevertheless, the congenial atmosphere of the printing plant those days, and, experience however short, were helpful and appreciated by me.

"J.J." was very jovial in his occasional trip to the Job Print and did considerable kidding all in good fun. "Mac" was a witty person who mixed in a good natured sarcasm now and then for one reason or another. Eva most always had good answers to all the kidding she was called upon to take, and, generally held her own in a quiet sort of way, always busy setting type. We four all got along very well indeed. However, I do remember that some days did seem long and weary because of the monotony of some repetitious jobs.

In spite of the great demand for printing those last boom days of the twenties, business generally being brisk, it looked to me that people had to work long and hard to make any decent profit. There was

including treatment of the hands. However, nails and finger ends were used and I was soon back to work.

Now and then a printing job had a dose on parchment paper which required a special kind of printers' ink which smelled very bad those days. I always dreaded it when "Mac" would do that job on the largest press, in spite of the fact that we always opened an outside door to lessen the effects on the constitution.

One of the jobs I had to do, being the junior and printers' devil on the staff, was to clean out and then, one day not long after I started my job at the printing plant, I decided to clean the floor that apparently hadn't been cleaned in some considerable time.

"J.J." came along and said, "how are you making out Vince?" I assured him that I thought I was beginning to see the floor. "J.J." laughed very heartily, he thought the remark pretty good and suitable.

Sometimes the gasoline engine or a piece of machinery would refuse to work, and after "Mac" the fix-it man had patiently worked for a certain length of time to get it going again, without results, "Mac" would then stand back and cuss quite strenuously, then he would immediately start working. "See," he would say, "all it needed was a bit of cussing."

On other occasions when some gadget refused duty for me and, seemed to be broken, "Mac" would say, "use a little oil," and sure enough, often that is all it took. How often since, have I thought of the value of that remark and the actual need of "oil" in many life situations, applied at the right time, right place and, in the right way.

Other things that sort of stick in my memory and come to mind now and then are, like the time I told "Mac" of four teenage boys who in the spring season of 1929 got together just before dark one evening and decided to initiate the newly built outdoor Pines Hotel swimming pool which had just been filled with water. Clothes were taken off near the road just east of the pool; nobody else seemed to be around except the four boys; no thought or time for bathing suits up to the pool they went. They stood on the edge of the pool and looked at the chilly water, one soon jumped in, the rest quickly followed and across the pool they swam. "Mac" listened to the story and hardly said anything, but the next "Digby Courier" had a good story on the episode. The heading of the story went something like, "Four Boy Scouts Officially Open Pines Hotel Swimming Pool." Who were the four? Many years later they are known as: the late Dr. Earl H. Anderson, veteran of two wars (second world and Korean), was awarded the Victoria Cross; Sidney L. Smith, now prominent druggist for many years in Digby; Clayton D. Snow, Digby wholesale lobster king merchant; and myself.

As a young teenager I used to like doing some writing about different events interesting to myself and mostly for myself. One day "Mac" said to me "how about writing your version of the story told about 'The Marooning of Jerome'." I had heard and read at least two somewhat different stories about the man who was found marooned on a beach at some point on the French Shore of St. Mary's Bay, Digby County. When found this man's tongue had been cut out and his legs quite freshly amputated, were surgically well dressed and bound. He was presumably left by some vessel before dawn one morning, all for some mysterious reason.

"Jerome" appeared to have been a man of some considerable social standing and possibly of some considerable wealth. However the only thing the man could or would ever say after being found and cared for by some family in the French shore was, something that sounded like the word "Jerome". He either could not, or, would not, write anything about who he was or why he was left the way he was. Well, it was, and is, one of Digby County's mystery stories, and, different ideas have been expressed over the years concerning this man. However my response to "Mac" was, I felt no urge to write anything more or different about this man. The mystery seemed to have been very well explored in the mind of many people, and, he was a sort of curiosity for many people who visited where he lived for many years.

Three years later I was quite a bit older and was working in the street that I loved back and forth, led a boat clanking noise, powered by a small engine, and I remember it as "Jerome", and as I remember it as "Jerome". "J.J." was noted for his sense of humor and his ability to make people laugh. In 1928 during the time Mr. Wallis was editor of the Scott Act (Prohibition Law) he was about and advocated by some people, and I attended a boys' conference in the town of Digby.

### Digby 172 Years Ago

Compiled by David Sanford

From the files of the Courier of January 23, 1867, the following account has been copied concerning Digby in 1800.

"Among a number of old newspapers kindly sent to us by friends is a copy of the Saint John Gazette of May, 1802, says the Telegraph and among other advertisements contained in the issue before us is one describing the town and township of Digby, and offering for sale certain lots in the town. In this area we are told the township of Digby extends from the Gulf of Annapolis westward to the extremity of the province of Nova Scotia, and contains about 130,000 acres." The town plot is thus described:

"The Town Plot is situated at the east of the township just within the entrance to Annapolis Basin, and twenty miles from Annapolis Town, and six miles across land from the head of St. Mary's Bay. This laid out from the water's edge, partly on level ground and partly on the declivity of a modern hill, dry and pleasant, and having with an eastern aspect, a view of the Annapolis Basin and its cultivated shores for twenty miles in where it terminates with the Fort and River's mouth of that name. It was settled by Loyalists from New York in 1783, the most of whom went early to farms, or, moving to older countries, left the whole

side to be bought proved by about who now reside detached, built dwellings with orchards, and some fishery and. It has communal parts of the common provisions in a cheap, built readily to be from many circumstances, probability of place of some shipbuilding, the West India a cheap and of residence.

free trade with the U.S.A., especially with the New England States. The question was then debated by some Digby High School students one of which was some Digby's daughter, Florence (now Mrs. Melvin O. Tibert, Freeport, Digby Co.) Some days after the debate a man from some part of Nova Scotia came to the printing shop looking for Florence, one of the successful debaters; I had the impression that this man was interested politically but, maybe I was wrong.

Well, I felt that I had learned considerable from my short experience at "The Wallis Job Print". I was learning to do beginner jobs, receiving some knowledge about things like: embossing, stapling, perforating, counting, cutting and trimming paper stock, mixing inks for certain desired colors, and so forth, but, the only experience I had at setting type was just enough to make a "pi", the printers name for a confused mess.

There was a taste of trying to sell job printing outside the plant. Work was a little slack one early fall day and so "Mac" said to me, "how about trying your hand at taking orders for printed personalized Christmas cards?" I tried it, made several calls around town, spent most of the time at one particular house, and got an order, but, it was much time and got an order, but,

Years and experiments with. The last time I saw of personal interest, after one day when he sent and talked with him was, after one day when he had a week he wanted me to visit him at his home. ## Uses of Adversity

Miss Gertrude came down stairs one morning with red eyes, a swollen nose and a generally distressed appearance. "What is the matter, Gertrude?" asked her mother.

"I am very sorry" said her sympathizing parent.

"I was when I got up," cheerfully rejoined the young miss, "but I'm not now. I can get that French nasal sound exactly. Tray be-ong. Bong zhoor. How's that?"

**A Close Shave.**

A circus paid a flying visit to a

small country town, and the price of admission was sixpence, children under 10 years of age half price. It was Edith's tenth birthday, and her brother Tom, aged 13, took her in the afternoon to see the show. Arriving at the door, he put down ninepence and asked for two front seats. "How old is the little girl?" asked the money-taker. "Ten," said Edith. "—Well," replied Master Tom, "this is her tenth birthday, but she was not born until rather late in the afternoon."

The money-taker accepted the statement and handed him the tickets. But it was a close shave.

**Unwanted Glory.**

The Plimleys entertained their pedro club a few evenings ago, and after tea Mr. Plimley put on a dress suit.

Little Percy eyed him suspiciously while he was dressing and finally said: "Papa, you thaid you wath going to thtay home thth evening."

**Wanted His Money’s Worth.**

“Have you any choice as to the wedding march?” asked the church organist.

“The wedding march?” asked the father of the bride.

“Yes; the march that is played when the bridal procession moves

down the aisle. Which would you prefer—Mendelssohn's or the march from *Lohengrin*?"

"Any difference in the expense?"

"Oh, no!"

"Then play the one that's the longest."

Papa—You saw that big boy whipping the little one, and you didn't interfere. Suppose you had been that little boy!

Robbie—I did think of that and was going to part 'em, but then I happened to think 'pose I was the big boy! So I left 'em alone.

"James, if anybody inquires for me to day, tell them I am not in."

"Yes, sir."

"There might possibly be one who would not have a bill," muttered the young man, "but I'll not risk it."

**New Life, Strength and Long Years**

AVELL'S & RICHARDSON, CO.,  
DEAR SIR:—I consider it my duty

to write to you regarding the benefit derived by my daughter and myself from the use of your Paines' Celery Compound. For several months I was afflicted with rheumatism and nervousness, was treated by doctors, and tried many remedies. Fortunately, a friend of mine advised me to try Paines' Celery Compound. I did so and after using four or five bottles, I found myself stronger and better than I had been for many years. My daughter was cured of kidney disease after suffering for twelve years, by using a few bottles of the compound. I can advise all suffering from rheumatism,

Yours sincerely,  
MRS. LOUIS LEFAVE.

THE DIGBY WEEKLY COURIER.

Digby, January 27, 1899.

In recent years great changes have taken place in the treatment of many diseases, brought about by a more thorough knowledge of their origin and mode of propagation. This is especially true of consumption, which has hitherto been such a scourge in many communities. It is known now that this disease spreads only by infection and is not inherited as was once supposed. The special germ or bacillus which causes consumption is transmitted from the sufferer only by means of the sputum. Knowing this, it seems possible to restrain its ravages and save the lives of thousands thereby. Water and milk, which we have always looked upon as the most innocent and harmless articles of diet, are found to be vehicles which most frequently convey infectious germs. The strong and vigorous excel them. Indeed, we should inhale the air of the open air, draw a breath, and swallow microbes by the thousand with every meal. Occasional microbes are absorbed in eating, and many have been found in the milk of cows. Only, they find an entrance within the stomach. Usually no harm results because in order to develop they need a suitable resting place. There are many persons whose vitality from some cause, either inherited or otherwise acquired, is below the mark, and in the lungs of such persons the germs which produce the disease, enter and begin its deadly work.

Acting in the knowledge which has been gained, a society has been formed in London, the purpose of which is to prevent the spread of consumption by the use of milk from infected sources. It has been also proved that there is no necessity for the sufferer from tuberculosis to make long and expensive trips from home in search of more suitable air. A free and unlimited supply of absolutely pure air, is the important thing, and that can be obtained at home as well as anywhere else.

Toda, the New York electrician, who has shown such wonderful skill in his spreading, depends on the expectation of consumption may be prevented from becoming a source of contagion to others. They are endeavoring to prevent the use of milk from infected sources, and water from infected sources. It has been also proved that there is no necessity for the sufferer from tuberculosis to make long and expensive trips from home in search of more suitable air. A free and unlimited supply of absolutely pure air, is the important thing, and that can be obtained at home as well as anywhere else.

It is becoming a question whether the law and unimpaired power which we boast of as being right the possession of the Anglo-Saxon people, is not very often anything but a blessing to its possessors. How much animosity existing between our people and the defiant tone and incorrect assertions of the newspapers? Very much of the ill-feeling which prevailed between our American neighbors and ourselves a short time ago was due to supercilious remarks on our part followed by defiant intonations on ours. At the present time kinder feelings prevail, and the people are on their best behavior. In the disputes not yet ended between England and France, the tone of the press has intensified the bitterness of the conflict. The French, more sensitive than ourselves, have had their passions inflamed, and their prejudices stirred until almost beside themselves with rage at the cool and calm tone of the English press. It is not long since the interests of Great Britain were seriously jeopardized by the premature and indiscreet publicity given to certain diplomatic questions which the foreign office was especially desirous of keeping quiet. A great deal of the ill-feeling entertained by Germany and Russia against Great Britain is said to be due to the same cause. In all these cases the influence of the most influential portion of the press has not been for the things that make for peace. In political and social matters of the bitterness and animosity that characterizes its contents, is due to the same cause.

In one matter alone, apart from the law governing the press, the influence of the press is said to be due to the same cause. In all these cases the influence of the most influential portion of the press has not been for the things that make for peace. In political and social matters of the bitterness and animosity that characterizes its contents, is due to the same cause.

A Popular Digby Man Weds.

When Mr. E. E. Burnham, proprietor of the Brick Grocery, returned, left for Boston on Thursday, 19th inst., via R. M. S. S. Prince George. It was rumored that he would return with a bride. We can assure our readers that they were correct, for on Monday evening last a wedding took place at the residence of the bride's mother, Mrs. South, Boston, when Rev. J. M. Wilkins, of Boston, the bride was attended by Miss Harriet Bell, of Malden, and the groom was accompanied by his brother, Mr. Fred T. Burnham, of Merimac, Mass. After a short stay in Massachusetts, the happy couple will come to Digby, where they will in future reside. Many telegrams were sent from Digby on Monday evening, conveying to the happy couple congratulations. The *Courier* joins a host of friends in extending to Mr. and Mrs. Burnham best wishes for a long and happy wedded life.

A Bear River Lady Banned.

We regret to state that news has been received from Hattisak, in the northern part of the island of Japan, that the mission house of the general missionary society of the Methodist Episcopal church in that city had been destroyed by fire. Miss Alexander, wife of the Rev. Mr. Alexander, who is in charge of the mission, was burned to death. Her husband, Mr. Alexander, and Miss Howard, who are working under the auspices of the woman's Foreign Missionary Society of the Methodist church, escaped. Mr. and Mrs. Alexander, who have been in Japan for many years, have been with the Hattisak mission only since the fall of 1897. Miss Otto was sent by the Chicago Woman's Missionary Training School. Mrs. Alexander was a daughter of Mr. and Mrs. Isaac Vrooman, of Bear River, as a missionary five years ago. This has cost a ghastly ruin to the town and the church, and sympathy to the bereaved parents, relatives and friends of the deceased.

OF A LOCAL NATURE.

Little Paragraphs Which Tell of the News Round About Town.

NEWS GATHERED DURING THE WEEK

AND RECORDED IN BRIEF FOR THE BENEFIT OF THE PUBLIC.

A cold wave is predicted.

It is expected in a short time.

Sunday was a fine specimen of midwinter weather.

The attendance at the churches was large, considering the many who are suffering with the grip.

It was mild and lovely overhead, but the walking was rather tedious.

Did you ever notice that, at church when one person coughs, others immediately follow suit?

This was particularly noticeable Sunday evening.

Perseus seemed to be a sort of sympathy about it.

It is sure for all she is worth as a summer resort.

The time to come here is now.

The Annual Report of the Mayor of the Corporation with their job printing at once.

It is a mistake to wait until the tourist arrives and then hand him a long pull and a strong pull and a pull all together.

That's the sort of a pull we want in the tourist trade.

Our streets were considerably darkened by the heavy rain of Wednesday morning.

Our correspondence of late has been an increase in the circulation of the *Courier*.

It is said that one of our townsmen who did not receive a recent letter placed a copy in his scrap book to read after the *Courier* is dead.

We understand that Mr. Albert Hayden has sold his farm and milk business to Mr. Curtis Young.

There is a rumor that this young man will receive a large share of the public patronage.

The Annual Report of the Town of Digby is being printed in the *Courier*.

The *Courier* is printing a copy of the Annual Report of the Town of Digby in a few days.

This book is complete in every respect, and is a valuable reference for the town.

This is an interesting and enjoyable report, and is a valuable reference for the town.

On our first page will be found the remainder of the Municipal proceedings.

In consequence of the report of the Mayor, the Council has decided to accept a nomination and has decided to accept a nomination.

Both the *Bridgeport Enterprise* and *Bulletin* have appeared regularly since the 1st of January.

We have not, as yet, received a copy of the *La Haye Gazette*.

The *S. S. Prince Arthur*.

(From the *Yarmouth Times*.)

The *Prince Arthur*, the latest addition to the Dominion Atlantic fleet, is expected to arrive at Yarmouth on Saturday.

As stated in the *Times* a few weeks ago, the *Arthur* made a trial run from Yarmouth to St. John's, and attained a speed which delighted her crew.

A few minor changes in her engine, she is identical in every respect with the *Prince Arthur*.

## THE DIGBY WEEKLY COURIER.

Digby, February 17, 1899.

No one passing along Water street can be pained to see the terrible desolation which the fire of Monday night has caused in our town. The vacant space with its debris of bricks and stones speaks eloquently of the loss and ruin which a few short hours may produce. Elsewhere we give full particulars of the fire and its consequences with a list of the sufferers. There were very few families living in the burning houses, and so many have been turned out of their homes as is usually the case after an extensive conflagration.

Now that the first shock of the disaster has passed away, steps are being taken to make the best of matters, and business is being recommenced although under less favorable conditions.

It is wonderful how a few predatory instincts of many people who seize the opportunity to walk off with everything they can lay their hands on. There is a common belief that at any time there are others who will only steal at a fire, and a few opportunities were afforded on Monday night and Tuesday morning of which they availed themselves to the utmost limit.

It is strange that when a man's property is going up in flames, instead of the aid and sympathy he has a right to expect, he is made to suffer still further by being robbed of what the fire may have spared. If we could have some kind of a salvage or protection corps, as is usual in other towns, to take charge of goods and furniture on such occasions, it would be found of the greatest advantage, and would at the same time have saved many hundreds of dollars worth of property for the owners.

The desirability of having the buildings removed from the lower side of Water Street has often been spoken of. Now a considerable portion of it is vacant and if the town is in a position to avail itself of the opportunity a step might be made in that direction. Bridgegates were somewhat similarly situated, and after the water front was swept by fire, decided not to rebuild that portion of the town, thus adding greatly to the beauty and attractiveness of the place. They decided to move slowly in the matter and only make improvements as the expenditure could be afforded. If we mean to adopt a similar course regarding the water front, we would do well to observe the same caution regarding expenditures. Some several thousand dollars or more of taxable property has been up in smoke, but the amount of taxes will have to be raised yearly. We are by no means a wealthy community and must cut our garments according to our cloth.

There is one thing to be considered, whether we are insuring to the extent that we ought reasonably to do? There is not much over thirty thousand dollars insured in our town, but the amount of dollars worth of property in a healthy liable to such an accident as happened this week. We pay out premiums with great reluctance and with little gratification, but when we hear an alarm of fire, the knowledge that our property is protected to a reasonable extent is very comforting. Another thing, the water service is always in an efficient condition, for fire comes when we least expect it.

## Death of Archibald Lampman.

CANADIAN LITERATURE HAS LOST ONE OF ITS BEST CONTRIBUTORS.

The early death of Archibald Lampman, announced by despatch from Ottawa, is an untimely loss to the literary world. It is a pity that the poet, who was only thirty-five years of age, should have died so early.

Mr. Lampman was one of the most original and powerful of our poets. His poetry was full of life and vigor, and his style was simple and direct. He was a true poet, and his work will live for ever.

Mr. Lampman was born in Kent, Ontario, in 1863. He was a graduate of the University of Toronto, and was employed as a clerk in the post office. He began to write poetry in 1885, and his first collection, "The Garden of Fables," was published in 1890.

### A SAD STORY.

Mabel Davidson's Terrible Experience in Denver.

WHERE SHE SOUGHT HEALTH—HER PROPERTY ANNIHILATED IN A FIRE.

MISS DAVIDSON'S STORY.

From the St. John Telegraph.

The very many readers of the Telegraph remember the charming skater, Miss Mabel Davidson, who graced this city a few years ago with her presence at Victoria rink and won the hearts of the thousands who witnessed her many graceful feats on the steel blades.

All who were fortunate enough to see this pretty young lady perform were deeply drawn to her by her death, which occurred last night at St. Paul, Minn.

Miss Mabel Davidson, daughter of Mr. and Mrs. J. H. Davidson, of St. Paul, Minn., was a very ambitious young lady and was very anxious to win success in the skating world.

# ALLAN LINER WRECKED

Disaster Overtakes the big Steamship Castilian.

THE PASSENGERS AND CREW SAVED.

GROUND IN A FOG ON GANGET ROCK NEAR YARMOUTH, ON MONDAY MORNING. TWO COMPARTMENTS WERE IMMEDIATELY FILLED WITH WATER—PASSENGERS TAKEN OFF BY BOATS, BROUGHT TO YARMOUTH AND PASSED THROUGH HIGHLY ON MONDAY FOR HALIFAX.

The Allan liner steamship Castilian, Captain Barrett, from Liverpool, went ashore on Ganget Rock dry-dock at 4:30 o'clock Sunday morning in a dense fog at low tide. Two compartments immediately filled with water.

The two great steamship companies in the Canadian trade have always been considered to be those of the Dominion and the Allan line. Following the loss of the Dominion liner Labrador, on the coast of Scotland, comes the disaster to the magnificent new steamship Castilian, the pioneer of a new fleet for the Allan line. The short career of the Castilian may be given as follows:

January 11, Landed at Belfast, February 2, left for Glasgow.

February 21, Left Liverpool for Halifax.

March 1, Left Portland for Liverpool.

March 12, At daybreak—Ashore at Ganget Rock.

The steamer had therefore not yet completed her voyage to her credit.

At 4:30 o'clock, the steamer was in the water, ready to receive the passengers.

Saturday afternoon the Castilian steamed out of Liverpool with fifty passengers, 800 tons of cargo, and a large cargo of general merchandise.

Before 4 o'clock Sunday morning the ship was ashore at Ganget Rock dry-dock. This is a ledge about twenty feet from the shore, about twelve feet high.

for the discipline that prevailed on board. The men worked as strictly word of command as soldiers on parade. At one time the men on one of the 1200-ton tugs, chained for a crowd of sailors to man a boat and they would be thrown off by the ship, they shouted in return. "We have no orders to man any boat."

The work of the captain of the respective boats, their crews and the volunteers who were chained for a crowd of sailors to man a boat and they would be thrown off by the ship, they shouted in return. "We have no orders to man any boat."

COMING TO THEIR RESCUE. The Castilian could not reply, because the water had risen up in her bow. The men on the tugs, chained for a crowd of sailors to man a boat and they would be thrown off by the ship, they shouted in return. "We have no orders to man any boat."

THE PASSENGERS AND CREW SAVED. The Castilian could not reply, because the water had risen up in her bow. The men on the tugs, chained for a crowd of sailors to man a boat and they would be thrown off by the ship, they shouted in return. "We have no orders to man any boat."

GROUND IN A FOG ON GANGET ROCK NEAR YARMOUTH, ON MONDAY MORNING. TWO COMPARTMENTS WERE IMMEDIATELY FILLED WITH WATER—PASSENGERS TAKEN OFF BY BOATS, BROUGHT TO YARMOUTH AND PASSED THROUGH HIGHLY ON MONDAY FOR HALIFAX.

The Allan liner steamship Castilian, Captain Barrett, from Liverpool, went ashore on Ganget Rock dry-dock at 4:30 o'clock Sunday morning in a dense fog at low tide. Two compartments immediately filled with water.

The two great steamship companies in the Canadian trade have always been considered to be those of the Dominion and the Allan line. Following the loss of the Dominion liner Labrador, on the coast of Scotland, comes the disaster to the magnificent new steamship Castilian, the pioneer of a new fleet for the Allan line. The short career of the Castilian may be given as follows:

January 11, Landed at Belfast, February 2, left for Glasgow.

February 21, Left Liverpool for Halifax.

March 1, Left Portland for Liverpool.

March 12, At daybreak—Ashore at Ganget Rock.

The steamer had therefore not yet completed her voyage to her credit.

At 4:30 o'clock, the steamer was in the water, ready to receive the passengers.

Saturday afternoon the Castilian steamed out of Liverpool with fifty passengers, 800 tons of cargo, and a large cargo of general merchandise.

Before 4 o'clock Sunday morning the ship was ashore at Ganget Rock dry-dock. This is a ledge about twenty feet from the shore, about twelve feet high.

At 4:30 o'clock, the ship was in the water, ready to receive the passengers.

## THE DIGBY WEEKLY COURIER.

Digby, March 24, 1899.

**Davenport School Closed.**  
The Rev. John M. Davenport announces with extreme regret that he will not be able to carry on his church school for boys after the end of this (Easter) term.

He has struggled hard, and at heavy loss, for nearly eight years to make the school self-supporting and of permanent benefit to the Diocese, but without success. It is true the school last year was encouraging, when the complement of both House and Day boys was at the first time nearly secured, but all hopes of permanent improvement were crushed when the current year opened with less than half the number required. Sufficient experience, therefore, conclusively proves that, under present circumstances, it is quite impossible to maintain a due succession of pupils to fill vacancies as they occur. The Rev. gentleman wishes to thank all parents and guardians who have entrusted him with their boys. If pupils have passed through the school, including Andrew and James Merket, of Digby, who returned home yesterday.

**Baptist Roll Call at Clementsport.**  
The Clementsport Baptist church held their first annual Roll Call on Tuesday afternoon and evening of this week. Nearly one hundred were present and responded to their names. A fine collection was served by the ladies of the church in the evening. In the evening an audience gathered to test the entire seating capacity of the edifice. A fine choir from Clementsport furnished music for the occasion. Rev. B. H. House delivered an address on "The spiritual constitution of a church" and was most inspiring. Rev. T. Eaton is the popular pastor of this flourishing church.

**Another New Firm.**  
We have another new firm to chronicle this week under an old name. The co-partnership recently formed by Messrs. K. Turnbull and J. T. Welch was dissolved on Monday last by mutual consent. Mr. Arthur Turnbull, for years an employee in Mr. Turnbull's grocery, even at the time it was Turnbull & Welch, has now entered into co-partnership with Mr. Turnbull, and the firm name remains Turnbull & Co.

Mr. H. T. Warne has returned to his place of business, at Hill Grove, and will be in the future, erect a new building where he intends to carry on a more extensive business than he did before. Mr. Warne is now clearing great bargains. See ad.

**Death at Barton.**  
Mr. George Whitney Blaney died at his home in Barton on Thursday of last week, aged 62 years. The deceased was formerly a miller and had at one time been first officer on the L. S. R. purchased the road. Mr. Blaney leaves a widow, who is present in the United States, an aged father and several relatives and friends to mourn their loss. The funeral took place on Saturday from the late residence and the remains were interred in the Baptist cemetery at Barton.

**Yarmouth Heard From.**  
We copy the following from the report of a recent meeting of the Yarmouth Town Council. The Yarmouth Telegram which shows how on "Appeal for Relief" was considered by the city fathers:

"The Mayor stated that he had received a copy of the Yarmouth Telegram, asking for assistance for the sufferers of that town and he was glad to hear that the matter had been considered by the council and that they had decided to make a contribution to the relief fund."

**Our Job Department.**  
We have this week, in our advertising columns, called special attention to our new stock of country stationery, which arrived this week direct from the manufacturers, some of which has been made expressly for us. We guarantee to give satisfaction in our job printing department, and assure our customers that a small order will receive as prompt attention as a large one.

**Death at Acadia Valley.**  
Mr. John Henry Warne, of Acadia Valley, who has for some time suffered with consumption, passed away on Monday morning, aged 41 years. The funeral took place on Wednesday and the remains were interred in the Hill Grove cemetery. The deceased was a member of the Baptist church, and leaves a wife, six children and many friends to mourn their loss.

**Another New Advertiser.**  
We have this week added another advertiser to our list who recognizes the Courier as a fine advertising medium. We refer to Mr. J. A. McNeill, merchant, who yesterday contracted with us for a 5-inch single column ad. Mr. McNeill's business interests will be the subjects of our circulation throughout this county and elsewhere.

**Wrecked Goods Sold.**  
The Yarmouth Daily News, yesterday March 23rd, has published the following: "Yesterday Mr. Caldwell, of the customs department found some cheese, butter and other goods, which were taken from the steamer Castilian at the Yarmouth wharf, and were being shipped to the Yarmouth wharf. He seized them and put them back among the other goods landed by the ship."

**Another Advertising Contract.**  
Mr. S. L. Killam, Weymouth's up-to-date furniture dealer, made us a friendly call on Monday, and placed an order for a 5-inch single column ad. Mr. Killam contracted with us for a 5-inch single column ad, which appears in this issue. He stated that his business was established in 1897 as a profitable investment and considers this journal its first-class advertising medium.

**Concert at Clementsport.**  
On the evening of Easter Monday, April 2nd, there will be held at the Methodist church in Clementsport a Grand Concert. A very elaborate and interesting programme is being prepared and we presume that those who give it their patronage will be amply repaid. The concert will be held at 8 o'clock.

**As Up-to-Date Journal.**  
For some time it has been admitted by all Liberals and Conservatives, that the Halifax Herald is the leading daily newspaper in the Maritimes. It is certainly an up-to-date journal, and its circulation is a credit to the Maritimes. It is a journal of six columns, eight pages to a column, and is published daily.

**Scholar LeRoy Wrecked.**  
Steamer LaTouche, Capt. McKinnon, on Tuesday morning, March 23rd, was wrecked on the rocks off the coast of Nova Scotia. The ship was carrying a large cargo of goods, and the crew were rescued. The ship was a schooner, and was bound for the coast of Nova Scotia.

**Wedding at Roper's Point.**  
Mr. Geo. Winchester, son of Capt. J. Winchester, of Smith's Cove, was united in marriage to Miss Mary Roper, daughter of Mr. Roper, at Roper's Point, on Wednesday evening last. The ceremony was performed by the Rev. J. H. Roper, and was a most interesting affair. The bride was attended by her bridesmaids, and the groom by his best man. The reception was given by the bride's parents.
