We worked ten-hour days, six days a week. "J.1." and "Mac" sometimes worked overtime I worked only the regular hours being paid a weekly wage which was comporatively good for those times and may lack of experience. I received four or five dollars a week for working after school hours to six o clock and on Saturday all day, and more dollars a week for hall weeks after finishing school. A two or three dollars a week raise was offered to me in the fall of 1025 for me to stay on at printing, but. I had made up my mind to enter a branch of the Royal Bark of Canada, starting salary of \$200. The bank salary mired out about the same per hoar as for the prin-ing job. Nevertheless, the congenial atmosphere of the printing plant those days, and, experience towever short, were belpful and appreciated by me We worked ten hour days, six days a week the printing plant those days, and, experience lowever short, were helpful and appreciated by me
