A Little Coal Goes A Long Way

towards heating a house if fed into a Furnace made to heat one which does not send the fuel up the chimney in smoke.

'Sunshine' Furnaces

will extract more heat from a unit of coal than any other good Furnace.

Every square inch from the bottom of fire-pot to top of dome is a direct radiating surface.

The dome is made of heavy steel-plate, which makes it more effective heater than the cast-iron dome put in common Furnaces.

The 'Sunshine' has every improved feature and still is so simple that any person can operate it.

The Letter I Did Not Send. It was the friend of my boyhood.

That night I wrote on a letter. And one might write to a friend. And tell him that never thereafter would I see his presence again.

And then I wrote on a letter. And one might write to a friend. And tell him that never thereafter would I see his presence again.

One of the most picturesque places in Nova Scotia is that portion of the province which surrounds the beautiful Basin of Annapolis.

The mountain range running along the north of the Basin rises abruptly, and forms a high barrier against the waters of the Bay of Fundy.

THE MOSQUITO IN PERIL.

Marsh Pests Habits Learned by Professor J. B. Smith.

NOTED ENTOMOLOGIST CLAIMS HIS DISCOVERY IN BRANT-NUMBER OF THE INSECT'S DESTRUCTION INVOLVES USE OF PYRETHRUM, AS IN THE CASE OF OTHER VARIETIES.

Professor John B. Smith, the New Jersey state entomologist, recently made this announcement, says a dispatch from Trenton to the New York Herald: "It will be a satisfaction to know that I have worked out the life history of the salt marsh mosquito completely. I know just how it breeds and just where it breeds now, and the knowledge is brand new. The work was completed only a day or two ago."

The results of the professor's investigations are given by him in detail. He knows that the mosquito, which is the most numerous and annoying of all the mosquito pests in the state of New Jersey, exists at about the same season as the one at a time when its pestiferous attacks are most annoying.

It is almost equally certain that they do not winter in the larva stage, because no wigglers were found when the winter had just ended, but were present in great numbers, and of very small size in late March and early April. The professor concludes that the winter is passed in the egg stage, and that the eggs are laid on the ground. When the water becomes sufficiently warm, the wigglers hatch, and are present in great numbers, and of very small size in late March and early April.

Popular Weather Notes.

"How often do we hear the remark: 'We shall have rain, the weather is so heavy.' The reverse is true. When one sees smoke hanging from a chimney with a tendency to sink to the ground, it indicates that the atmosphere is light-to light, in fact, to that the smoke. When the smoke hangs from the chimney it indicates a heavy atmosphere, and the smoke is not a bad barometer, for a barometer simply records the pressure of the atmosphere. When the atmosphere is heavy and the smoke hangs from the chimney, it indicates a heavy atmosphere, and the smoke is not a bad barometer, for a barometer simply records the pressure of the atmosphere. When the atmosphere is heavy and the smoke hangs from the chimney, it indicates a heavy atmosphere, and the smoke is not a bad barometer, for a barometer simply records the pressure of the atmosphere."

The Capital.

HOW OTTAWA WAS SELECTED AS THE SEAT OF GOVERNMENT IN CANADA.—LADY HEAD'S SKETCH.

It is about 45 years since Canadian cities and towns were engaged in competing for the honor of being chosen as the national capital. Toronto, Kingston, Ottawa, Montreal and Quebec were among the cities which placed as strong claims upon the attention of the British government as any other advantages which it enjoyed.

In the fall of 1857 Sir Edmund and Lady Head visited Ottawa, and were entertained to luncheon by the citizens under a marquee at the north end of Major's Hill, now Major's Hill Park. Hon. R. W. Scott presided over the feast, and he took the opportunity to impress upon the Governor and his lady the many natural charms which the town possessed.

But, in truth, they were quite evident for themselves. It was a glorious day, and from the plateau where the company were assembled a magnificent panorama lay outspread. In the foreground the steep banks of Barrack Hill, now the seat of the Parliament buildings, descended to the river. The green slopes ended to the water's edge, and the city lay outspread to a little distance called "the Chapel of the Voyageurs," where every fall the shanty-men would perform their religious duties with song and dance.

Later in the day, the city was seen from the water, and the beauty of the place was not the only argument used. Hon. R. W. Scott, in a carefully prepared memorial, advanced many cogent reasons, which were considered stronger than those urged by the Mayor of the other places interested. Moreover, according to report, the fact that Ottawa was capable of being easily fortified was pressed upon the Duke of Devonshire, and to the great soldier's aid was given in its favor.

No wonder that early in the following year a despatch came to the effect that the Queen had decided upon Ottawa because it combined more advantages than any other place in Canada. The decision was dated December 31st, 1857, a day which it is likely will ever be borne in affectionate remembrance by the people of the capital.

General Ross was asked why he never swore. He replied: "Well, when a boy, I had a habit of swearing. It seemed useless, an unnecessary habit and besides I saw that swearing usually aroused a man's anger, and I had no desire to do that. When a man got angry, his powers always got the better of him. So I thought, I determined to refrain from swearing. Then, the swearing men of my acquaintance were not the best men I knew. I never saw any reasons for swearing. All were against it."

Story of Late Dr. Talmage.
The late Dr. Talmage used to tell this as one of his favorite stories: "I was once on a Brooklyn street one day when a very large woman, got out. As she went to sit down, the space not being any too small, she overlapped me, and I heard a man on one side mutter under his breath, 'I didn't suppose they carried elephants in these cars.' Immediately the woman jumped up and gestulating wildly in the direction of the platform, shouted: 'Conductor, conductor, there's an elephant and a hog in this car and the elephant wants to get out.'"

Child Eaten by a Bear.
OTTAWA, Aug. 15.—The strange disappearance from home on Tuesday morning of the seven-year-old son of Mr. Dupuis, the only resident of Les Caves, four miles above Mattawa, was the cause of a search party being formed and a search being instituted for the missing child.

While searching in a pile of brush in the afternoon of Wednesday, the searchers were sorrow stricken at the sight of the small body which was undoubtedly parts of the child. The advent into that part of the country of the grizzly in such large numbers has become a menace to public safety.

The Price of Coal.
WICKHAMSHIRE, Aug. 13.—This declaration is volunteered by the largest independent coal operators in the Lancashire country: "We can assure New York positively that the price of coal is not as high as you hear. In fact, it is lower than before, and if the consumer has to pay more than what has been the ordinary price, it is because the coal is scarce and dealers are taking advantage of our troubles."

Back to Back to Nova Scotia.
Among the passengers outward per steamer Prince Arthur last week from Yarmouth were two Americans—brothers from Kentville. When they landed at the wharf, they were met by a man who told them they were to be stopped by the immigration officials. The older one proceeded, but the younger one, who could not speak a word of English, was taken to the ship and taken to the wharf at Yarmouth, and the authorities there sent him to Kentville.

A Good Excuse.
An excise being rebuked for wearing out his stockings at the time he was rebuked for being "too ragged and too old," he replied: "I was rebuked for wearing out my stockings, and I was rebuked for being too ragged and too old."

She Tried to Be True.

(Continued from last page)
He looked around hastily. It was but a short distance to the rocks at the cave and the place was deserted.

"Let us go down there. I cannot talk to you here."
She followed him submissively and thought of their last interview at this place came to her mind. How miserable she had been then and how miserable now. Allen was alive and she, the wretched girl, was not glad, but she had Allen. It was true, but she had not the man she loved, and she must be faithful to Allen. Lawrence must never guess what a wicked girl she was. Allen loved and she was not glad and what was Lawrence going to tell her.

Dare seated her in a sheltered position and stood looking at her with a world of compassion in his eyes. "Monica, I would give my life to spare you this. Allen is a scoundrel!"

He drew the letter from his pocket opening it slowly. "What is it, Lawrence, why do you speak so?"

Then, as he did not answer, she said with a touch of impetuosity in her voice: "Let me read it!"

He gave it to her and she read. She passed hastily over the preliminary part, and came to the end of the letter. "I shall wait until later, Lawrence, old boy, to give you the details of all this business. Briefly, the enterprise upon which I came out here failed, but one failure succeeded another. Finally, I was taken with a domestic fever. The woman at whose house I was staying, nursed me through it, and her daughter, one of the sweetest in the states, loved me. I know, but she loved me to distraction and we are very happy. Believe me, I have not been very easy since I thought of my mother and Monica. But I met Melton last week as he was passing through St. Francisco. He told me that you all believed me dead and that Monica was reported to be engaged to you. That is why I am writing to disclose my whereabouts. I am now in California and shall have more news of me immediately. I know she will forgive me and she will find the people here. You will still love me better than I should have done. You have the same high ideals of duty and that sort of thing. I confess to live on a lower plane."

Monica read no further but threw the letter down with a little cry and hid her face in her hands. "Dare looked at her sadly, cursing Allen in his heart."

"My darling, if I could have spared you this," he said. "I would have tried all along to be faithful to Allen, but—"

"But what, Monica?"
She looked into his eyes a fleeting glance, and it was enough for Dare.

General Ross was asked why he never swore. He replied: "Well, when a boy, I had a habit of swearing. It seemed useless, an unnecessary habit and besides I saw that swearing usually aroused a man's anger, and I had no desire to do that. When a man got angry, his powers always got the better of him. THIS SPACE IS RESERVED FOR CLARKE BROS.' AD. OF MILLINERY AND WOMEN'S JACK- KETS FOR FALL AND WINTER

Congratulations to Mr. and Mrs. Chas. West on the birth of a son, Charles Haines and daughter Maud, have returned home from Boston.

Congratulations to Mr. and Mrs. Gilbert Bates on the birth of a daughter, Mr. Leonard Riggs and family have moved into their new house on Water street.

Mrs. Albert Mullen and daughter Miss Jessie, of Weymouth, are visiting at Mr. John Hersey's.

Mr. Irvin Gouley and sister, Miss Anna Bell, gave a concert here on the 1st. The concert was a success all around. Mr. Lawrence Hains, who recently returned home from St. John, is now engaged in giving his house a fresh coat of paint.

Miss Ellie Campbell went to Westport on the 1st, to take up her duties as teacher. We wish Miss Campbell much success in her work.

Mrs. William Tibert, who has been here for some weeks under Dr. B. S. Bishop's care, returned to her home on the 1st. She is now feeling much better.

Mr. G. R. Bancroft, principal of the school, returned here last week to resume his duties as teacher once more. We hope that Mr. Bancroft will find as much success as teacher in the future as he has in the past.

Bear River.

Mr. "Red" Benson spent Sunday here on his way to St. John.

Miss Hattie Wade left on Saturday to visit friends in St. John.

Miss Emma Clarke left last week from New Hampshire on a visit to her mother, Mrs. Eliza Clarke.

Mrs. Annand Easdown, of Clements, and Miss Lewis, of Boston, were the guests of Mr. and Mrs. Wilfred Smith last week.

Mrs. (Capt.) N. W. Chute and niece, Miss Annie, arrived here last Saturday from a fortnight's visit to Mrs. W. H. Delap of Lower Granville.

Rev. S. Langille occupied the pulpit of the Baptist church Sunday, at both the morning and evening services. While here he was the guest of Mr. and Mrs. G. W. Plimley.

Mr. and Mrs. LeCain, of Boston, who have been the guests of Mr. T. H. Rice for some weeks, left for their home on Friday. They were accompanied by Miss Edith Brown.

Mrs. Harvey Sackler, of Dalhousie, West, has been the guest of her parents, Mr. and Mrs. Wm. Isles this week. She was accompanied by her mother-in-law, Mrs. Mary Barker.

A young man who is spending his holiday at Bear River, has been strayed on Indian Hill last week. After fully exploring the Reserve he was returned to the care of his friends by a kind-hearted native.

Mr. H. B. Borden, of the Queen Hotel, and Mrs. J. McMillan, of the Cliff House, Annapolis, Misses Hannah, Broomfield, of New York, Miss Hayes, of San Francisco, Cal., and Mr. A. B. Arnold, of Annapolis, were guests at the Bear River Hotel Sunday.

Sandy Cove.

Select people are all the go at present. Messrs. Chipman and Williston spent Sunday here.

Miss Pearl Saunders has been visiting at the house of Mr. and Mrs. Wm. Barker. She was accompanied by her mother, Mrs. Barker.

Mrs. (Capt.) N. W. Chute and niece, Miss Annie, arrived here last Saturday from a fortnight's visit to Mrs. W. H. Delap of Lower Granville.

Rev. S. Langille occupied the pulpit of the Baptist church Sunday, at both the morning and evening services. While here he was the guest of Mr. and Mrs. G. W. Plimley.

LABOR DAY AT DIGBY.

A Large Number of Visitors Witnessed a Successful Celebration.

THE PROGRAMME OF SPORTS WAS WELL CARRIED OUT—SIXTEEN RAIL RACES CROSSED THE STARTING LINE, THE HORSE RACE DRAWN OUTSIDE—THE HORSE RACE DRAWN A LARGE CROWD—THE PRIZE WINNERS.

Although Digby's celebration was hurriedly arranged, it proved a success and nearly all the entries were well filled. No entries were made by the secretary for the tug of war but the managing committee arranged for eight tug races instead, which were appreciated by the spectators.

The programme was well carried out by Mr. Chas. Reid, of Bear River, who is far superior in this work to the ordinary amateur usually found in the suburban towns of the Maritime provinces.

The country people began to arrive in town early in the morning in order to witness the athletic contests. The town people were also out in large numbers before breakfast.

The parade, which proved more like a trades procession than the old-fashioned military parade, was headed by the Battery at eight o'clock and headed by the Digby Gun Band, marched through the principal streets of the town. It must have been a difficult matter for the judges to decide on the best turnout, as all were good. The prize was awarded to Mr. J. J. Wetherby, carpenter and builder, who had a miniature house on wheels with carpenter's tools.

The Digby Woodworking Co. had a good prize. Their men were manufacturing doors and sashes, and Messrs. D. S. Smith and plumb line, also had a good turnout. Letteney & Co., Turnbull & Co., South End Grocery, S. & Co., Jones and Jones' Drug Store, and the procession, Mr. John Bent, an "fly cop" was awarded the prize for the best local hit.

The double scull race which was started at ten o'clock, had five entries. The boats from St. John, Dalhousie, Louis Gossel and Chip Sackler, Fritz Dakin and Roger Blab, and the Digby team, consisting of D. S. Smith and Harry Dakin, only three boats started.

The preparatory signal for the sailing race was hoisted at 10:45. Sixteen boats were under sail and they were scattered over the bay. The race was presented a picture that would have done credit to any regatta.

The Blue Peter was hoisted down at 11 o'clock and the boats crossed the line. The race was a close one, but the boats from St. John, Dalhousie, Louis Gossel and Chip Sackler, Fritz Dakin and Roger Blab, and the Digby team, consisting of D. S. Smith and Harry Dakin, only three boats started.

first boat, Red Bird winning by a nose. In the second heat, Mrs. Brenton seemed worried and did considerably better on account of a loose foot. The Red Bird was a very fast skip, winning the heat and the race. Although the time was not given, it was known to be quite fast considering the track is only a third of a mile long. The following were the winners: R. E. Feltus, starter, Dr. Lovitt, Dr. Hallett and Geo. A. Vye, judges. The musical concert in the evening Hall under the auspices of the Digby Yacht Club closed the day's amusements.

Tourists' Amusements.

To the Editor of the Courier:

Sir,—Allow me space in your columns to tell a short, true story. It goes to show the pleasure that visitors appreciate in their freedom in the visits of Nova Scotia, and that he considers it his right to shoot one wild game and our savage aborigines (you or I) when opportunity occurs.

One day last week a night rider, an elderly gentleman, not three miles distant from Digby, was sitting in a rocking chair on the porch of a house, looking out over the water when a large blackboard containing a happy family of tourists, one of the principal features of the family had fallen through the window. The chair for the judges to decide on the best turnout, as all were good. The prize was awarded to Mr. J. J. Wetherby, carpenter and builder, who had a miniature house on wheels with carpenter's tools.

Martha's Bravery.

Kate—Martha has got herself a daisy rainy day! She's what I call a brave girl.

Edith—A brave girl simply because she is going to wear a short dress in the rain? No, no; it's because the rain comes in; the thing is quite common.

Kate—Guess you never have seen Martha's feet.

Nervousness, Dyspepsia, Indigestion, and kindred ailments, take wings from the quivering quins of Anxiety, Nervine, Throat Hoarseness, of Hushum, Ointment, and throat lozenges, and give your brother a shove, followed by dyspepsia, indigestion, and all the other evils of the weak stomach.

Nervous Prostration and Dyspepsia. He has been told that he is suffering from "Nervous Prostration," and is waiting for a cure. It's a great nerve-builder—

Obedient.

"Hessie," said her mother, "Anny peels your apple as I tell you to do before eating it."

"Yes, mother," replied Hessie.

"And what did you do with the peel?"

"Oh, I ate that afterward."

"So they're not going away this summer?"
"No. They have their next winter's coal in the cellar and don't dare leave it."

Twenty Years of Itching Piles

Mr. Alex. McLaughlin, thirty years resident of Bloomsville, Ont., writes:
"For twenty long years I suffered from itching piles, and persons who have been troubled with that annoying disease can imagine what I endured during that time. About seven years ago I was almost dead, I had had anything to cure me most fearfully soon, but on his recommendation I took a box. After three applications I felt better, and in the time I had used one box on a fair way to recovery. I continued the treatment until thoroughly cured, and as it was seven years ago, and I have not suffered any since, I am fully convinced that it eliminated the matter completely."
"I consider Dr. Chase's Ointment an invaluable treatment for piles. I testify that I think the cure was remarkable when you consider that I am getting up to you and had been so long a sufferer from this disease." So writes a box at all Dealers, or Edmondson, Bates & Co., Toronto.
