

THE DIGBY COURIER

CENTENNIAL EDITION

Welcome to the Digital DIGBY COURIER

1877-1978

100th Birthday

The hundredth anniversary of the Digby Weekly Courier has brought to mind some fond memories as contained in the following historical chapter of the writer. But first, I wish to congratulate the current editor of the Courier, Mrs. J.M. (Edith) Wallis, for a job well done over the years and still being well done, good service rendered with great fortitude.

According to any record, I have at hand, the Digby Courier, in one hundred years of publication, was controlled under the same family management for 42 years, 1931 to 1973, under the control of Wallis Print Limited. The late J.J. Wallis became editor of the Courier the second time, in 1929, and at the same time of the business, which he had been running for some time previously and which became Wallis Print Limited sometime between 1929 and 1931.

I well remember the last year of the twenties when I worked in the office of the son with the husband and father of the late J.J. Wallis, the Courier. Sometime in 1928 or early 1929, the late J.J. Wallis (Mac), son of "J.J." engaged me to work every day after school hours, Saturdays, and for some months after full time. The place of work was in the building of the present Digby town hall on First Avenue. J.J. Wallis then worked occasionally at the print shop but mostly across the street at the Courier office which was then located on land in the general area where The Royal Bank of Canada is now.

Wallis Job Print operated in 1929 with a staff of four consisting of J.J. Wallis, J.M. Wallis, Miss Eva Haynes, who later became Mrs. George Kicup, and myself. I was engaged as a printer in the left

Eva's job was to run the printing plant but mostly at the Courier office. "Mac" worked nearly full time at all the different jobs at the Job Print, and I worked at various duties, most of the time being spent at operating printing presses.

We worked ten-hour days, six days a week. "J.J." and "Mac" sometimes worked overtime. I worked only the regular hours being paid a weekly wage which was comparatively good for those times and my lack of experience. I received four or five dollars a week for working after school hours to six o'clock and on Saturday all day, and nine dollars a week for full weeks after finishing school. A two or three dollar a week raise was offered to me in the fall of 1929 for me to stay on at printing, but I had made up my mind to enter a branch of the Royal Bank of Canada, starting salary of \$300. The bank salary figured out about the same per hour as for the printing job. Nevertheless, the congenial atmosphere of the printing plant those days, and, experience however short, were helpful and appreciated by me.

"J.J." was very jovial in his occasional trip to the Job Print and did considerable kidding all in good fun. "Mac" was a witty person who mixed in a good natured sarcasm now and then for one reason or another. Eva most always had good answers to all the kidding she was called upon to take, and, generally held her own in a quiet sort of way, always busy setting type. We four all got along very well indeed. However, I do remember that some days did seem long and weary because of the monotony of some repetitious jobs.

In spite of the great demand for printing those last boom days of the twenties, business generally being brisk, it looked to me that people had to work long and hard to make any decent profit. There was

including treatment of the hands. However, nails and finger ends were used and I was soon back to work.

Now and then a printing job had a dose on parchment paper which required a special kind of printers' ink which smelled very bad those days. I always dreaded it when "Mac" would do that job on the largest press, in spite of the fact that we always opened an outside door to lessen the effects on the constitution.

One of the jobs I had to do, being the junior and printers' devil on the staff, was to clean up now and then. One day not long after I started my job at the printing plant, I decided to clean the floor that apparently hadn't been cleaned in some considerable time.

"J.J." came along and said, "how are you making out Vince?" I assured him that I thought I was beginning to see the floor. "J.J." laughed very heartily, he thought the remark pretty good and suitable.

Sometimes the gasoline engine or a piece of machinery would refuse to work, and after "Mac" the fix-it man had patiently worked for a certain length of time to get it going again, without results, "Mac" would then stand back and cuss quite strenuously, then he would immediately start working. "See," he would say, "all it needed was a bit of cussing."

On other occasions when some gadget refused duty for me and, seemed to be broken, "Mac" would say, "use a little oil," and sure enough, often that is all it took. How often since, have I thought of the value of that remark and the actual need of "oil" in many life situations, applied at the right time, right place and, in the right way.

Other things that sort of stick in my memory and come to mind now and then are, like the time I told "Mac" of four teenage boys who in the spring season of 1929 got together just before dark one evening and decided to initiate the newly built outdoor Pines Hotel swimming pool which had just been filled with water. Clothes were taken off near the road just east of the pool; nobody else seemed to be around except the four boys; no thought or time for bathing suits up to the pool they went. They stood on the edge of the pool and looked at the chilly water, one soon jumped in, the rest quickly followed and across the pool they swam. "Mac" listened to the story and hardly said anything, but the next "Digby Courier" had a good story on the episode. The heading of the story went something like, "Four Boy Scouts Officially Open Pines Hotel Swimming Pool." Who were the four? Many years later they are known as: the late Dr. Earl H. Anderson, veteran of two wars (second world and Korean), was awarded the Victoria Cross; Sidney L. Smith, now prominent druggist for many years in Digby; Clayton D. Snow, Digby wholesale lobster king merchant; and myself.

As a young teenager I used to like doing some writing about different events interesting to myself and mostly for myself. One day "Mac" said to me "how about writing your version of the story told about 'The Marooning of Jerome'." I had heard and read at least two somewhat different stories about the man who was found marooned on a beach at some point on the French Shore of St. Mary's Bay, Digby County. When found this man's tongue had been cut out and his legs quite freshly amputated, were surgically well dressed and bound. He was presumably left by some vessel before dawn one morning, all for some mysterious reason.

"Jerome" appeared to have been a man of some considerable social standing and possibly of some considerable wealth. However the only thing the man could or would ever say after being found and cared for by some family in the French shore was, something that sounded like the word "Jerome". He either could not, or, would not, write anything about who he was or why he was left the way he was. Well, it was, and is, one of Digby County's mystery stories, and, different ideas have been expressed over the years concerning this man. However my response to "Mac" was, I felt no urge to write anything more or different about this man. The mystery seemed to have been very well explored in the mind of many people, and, he was a sort of curiosity for many people who visited where he lived for many years.

Three years later I was quite a bit older and was in the street that I lived back and forth, I had a boat clanking noise, powered by a small engine, and I was a "plur", and as I remember it, I was a "plur". "J.J." was noted for his sense of humor and his sense of humor.

Digby 172 Years Ago

Compiled by David Sanford

From the files of the Courier of January 23, 1867, the following account has been copied concerning Digby in 1800.

"Among a number of old newspapers kindly sent to us by friends is a copy of the Saint John Gazette of May, 1802, says the Telegraph and among other advertisements contained in the issue before us is one describing the town and township of Digby, and offering for sale certain lots in the town. In this area we are told the township of Digby extends from the Gulf of Annapolis westward to the extremity of the province of Nova Scotia, and contains about 130,000 acres." The town plot is thus described:

"The Town Plot is situated at the east of the township just within the entrance to Annapolis Basin, and twenty miles from Annapolis Town, and six miles across land from the head of St. Mary's Bay. This laid out from the water's edge, partly on level ground and partly on the declivity of a modern hill, dry and pleasant, and having with an eastern aspect, a view of the Annapolis Basin and its cultivated shores for twenty miles in where it terminates with the Fort and River's mouth of that name. It was settled by Loyalists from New York in 1783, the most of whom went early to farms, or, moving to older countries, left the whole

side to be bought proved by about who now reside detached, built dwellings with orchards, and some fishery and. It has communal parts of the common provisions in a cheap, built readily to be from many circumstances, probability of place of some shipbuilding, the West India a cheap and of residence.

This advertisement, dated at Digby, December, 1800, were to be a No. 100.

free trade with the U.S.A., especially with the New England States. The question was then debated by some Digby High School students one of which was "J.J.'s" daughter, Florence (now Mrs. Melvin O. Tibert, Freeport, Digby Co.) Some days after the debate a man from some part of Nova Scotia came to the printing shop looking for Florence, one of the successful debaters; I had the impression that this man was interested politically but, maybe I was wrong.

Well, I felt that I had learned considerable from my short experience at "The Wallis Job Print". I was learning to do beginner jobs, receiving some knowledge about things like: embossing, stapling, perforating, counting, cutting and trimming paper stock, mixing inks for certain desired colors, and so forth, but, the only experience I had at setting type was just enough to make a "pi", the printers name for a confused mess.

There was a taste of trying to sell job printing outside the plant. Work was a little slack one early fall day and so "Mac" said to me, "how about trying your hand at taking orders for printed personalized Christmas cards?" I tried it, made several calls around town, spent most of the time at one particular house, and got an order, but,

A Comfort and a Care

IF YOUR HOME IS BLESSED WITH A BABY YOU WILL APPRECIATE THIS.

A baby is a precious comfort, but in its utter helplessness it is also a great care. Anything that will relieve the tired mother and sell her baby's health and happiness is both a help and a friend. This is what makes the statement of Mrs. L. L. King, of Kingston, Ont., so interesting to all mothers. She says: "When my baby was eighteen months old he was troubled with a stomachic and was badly constipated. The troubles made him cross and restless, and I had to be up with him a number of times during the night. I finally got a box of Baby's Own Tablets, and after giving him to him for a few days the troubles were cured. His stomach was sweetened and he slept well. I think these Tablets are just what every mother needs for her baby. Baby's Own Tablets are the best and most convenient form for administering medicine to the very young. They are safe and harmless and free from opiates. Sent post paid on receipt of price, 25 cents per box. Write to the Canadian Company, Inc., 100, St. James Street, Montreal, P. Q., or to the nearest druggist. Write for a request. Write for a request. Write for a request."

THE MIQUELONS.

A Visit to the United Settlement at St. Pierre.

FOR NEARLY TWO HUNDRED YEARS ST. PIERRE HAS MAINTAINED ITSELF IN THE MIDST OF THE NORTH ATLANTIC BY ITS FISHING INDUSTRY.

THE TOWN DEFENDS AN UNPOPULATED LAND FOR ITS FISH-WOOD.

A correspondent of the New York Tribune gives an interesting account of the following excursions made to St. Pierre, which is unique in that it has no counterpart in the world. For nearly two hundred years it has maintained itself, in the midst of the North Atlantic, by its fishing industry alone. The Miquelon colony comprises two other islands, Miquelon and Langlade, but they have only a few hundred settlers, as they lack harbor. St. Pierre is the capital solely because it possesses a harbor; otherwise it is more sterile than the town. It is built of wood, faces the ocean, and is situated in a narrow street, but the naked rocks are visible everywhere else. All this timber has to be imported; there is not a single tree on the island. The Miquelon colony is situated on the Newfoundland coast, being a group of islands, and is situated high along the coast. The Newfoundland Government were to shut off the supply of firewood, they would put the Miquelon colony almost as much in a predicament as by depriving them of bait.

The houses are trim and neat, and the surroundings are as dainty as any of the houses in the world. The houses are mostly built with windows opening directly on the street, and almost all have little flower boxes or at least a box of plants. The streets have a greenish-grey color, and are unpaved, but they are clean and sweet. The fish curing is done outside of the houses, and the fish are hung in long rows. The fish are mostly cod, and are hung in long rows. The fish are mostly cod, and are hung in long rows.

SARA BERNHARDT.

"Lully Bernhardt," Special Correspondent.

HER EXTRAORDINARY POWER IN THE TENDER LOVE PASSAGES IN THE PLAY, AND HER GENUINE BEAUTY, ARE SO ABSOLUTELY BEYOND RECKONING THAT THE AUDIENCE BROODS MOVED TO A GREAT EXTENT.

AS A CANADIAN view of the "Lully Bernhardt" following from the Canadian correspondence of The Globe is very interesting. Speaking of "historical landmarks" I saw that wonderful "Sara" play "La Dame aux Camellias" the other night at the Grand Theatre in a most marvellous way. One cannot for a moment imagine that she can have entered her sixteenth year. Her extraordinary power in the tender love passages in the play, and her genuine beauty, are so absolutely beyond reckoning that the audience broods moved to a great extent.

SHYLOCK

Shylock was the man who wanted a pound of 'human' flesh. There are many Shylocks now, the convalescent, the consumptive, the sickly child, the pale young woman, all want human flesh and they can get it—take Scott's Emulsion.

Scott's Emulsion is flesh and blood, bone and muscle. It feeds the nerves, strengthens the digestive organs and they feed the whole body.

For nearly thirty years Scott's Emulsion has been the great giver of human flesh.

We will send you a couple of ounces free.

THE DIGBY WEEKLY COURIER

Digby, October 24, 1902.

—On our third page will be found a despatch from Boston headed "New Line" from Boston to Digby, which appeared in the second edition of the Halifax Chronicle published last Saturday morning. We are afraid this too good to be true. It is a despatch from the Boston Herald, which says that a direct line of steamers running to this port, and our town company, the Digby and local line should hold our own against the Boston line, and warding off a direct boat.

The Hatheway S. S. Co. opened up a direct service with Digby in 1890 and continued in the business for a number of years. Afterward the Nova Scotia and later the International S. S. Co. kept a direct boat on the route until Nov. 6th, 1900. An old steamer named the "Cathlamet" was used for the purpose, but the Nova Scotia tourist business was then in its infancy, the International company made money on this route and would have probably continued if the old S. S. New Brunswick had been capable of performing the service during the entire year without the assistance of another steamer, which was at that time without a large cash expenditure. About this time the Yarmouth S. S. Co. had two new boats, the Yarmouth and Boston, which were at that time considered up-to-date, and with the assistance of the Western Counties Railway, were getting a large share of the passenger and freight traffic between the two ports. The International line was required to handle the increasing business between St. John, Eastport, Portland and Boston, and therefore the Yarmouth and Boston line in the Digby route and did not supply another boat in the spring of 1901 as was probably intended.

Now that the Eastern Steamship line is proving an enterprising transportation company ever ready to supply the demands of its patrons, it is believed that a direct boat to Digby is required by the travelling public. This company will supply the demand. It was asked several times last summer by prominent tourists why the Digby route was not handled by the Yarmouth and Boston line, and they were told that the Yarmouth and Boston line was not prepared to handle the Digby route, but we believe that the Digby boat would have created new business and the D. A. R. profits would have been greater under the new arrangement.

It is immaterial to the citizens of Digby or to the travelling public why company takes action if it is required by the travelling public, and we believe it will prove the most profitable to the transportation company that can give the best accommodation.

—A MEMORIAL of the Digby Central Agricultural Society will be held in the Town Hall Tuesday afternoon, Nov. 4th. This meeting should be largely attended, as the matter of the Yarmouth and Boston line is being discussed, and farmers and others will be interested. While Digby is considered a maritime county and a large number of our readers are engaged in fishing, shipping, and other maritime pursuits, must be remembered that we have a large number of farmers in this county whose interests must be studied. The Yarmouth and Boston line is unable to supply the demand. One Digby grocery firm has been ordered to serve the Yarmouth and Boston line, and the Yarmouth and Boston line is unable to supply the demand. One Digby grocery firm has been ordered to serve the Yarmouth and Boston line, and the Yarmouth and Boston line is unable to supply the demand.

For an example, take the poultry trade; it would certainly prove more profitable to meet the demands of the Digby poultry and sell at a price which would enable them to make a small profit in selling to the consumer. This would encourage home enterprise and keep the money in the county. A number of farmers are here, a few days before Christmas and are desirous to retail as many turkeys as possible. After they believe the retail trade has been well taken care of, they call at one of the markets and if possible sell the remainder of their poultry at an advanced price over the retail figures. The merchant therefore meets with a loss and the goods remain on his hands.

Next year he buys in big quantities from another poultry grower, and he can book his orders in advance with his numerous customers and is therefore in direct opposition to the Digby county farmers who might have had all the trade.

There are other points we might take up in a future issue. However, we ask all our farmers to be present at the annual meeting of the county agricultural society on Tuesday, Nov. 4th, at 2 o'clock, in the Town Hall. It is a very important meeting, and the number of local millers is very small, and the scores are up to 100 over the usual average. We note with great regret that the members of the Digby county did good show in the challenge cup has been won by a Digby man, Gunner Egan, one of this year's recruits. It seems to us that the number of competitors is very small, in proportion to the number of men who are entitled to shoot. There are only thirty men enrolled in the county militia at Digby, and only about one-third of them are present.

—On another page, we give the report of the annual meeting of the county rifle association at Bear River ground on Wednesday, the 12th of this month. Taken as a whole, the shooting was a satisfactory one. A number of local millers is very small, and the scores are up to 100 over the usual average. —On another page, we give the report of the annual meeting of the county rifle association at Bear River ground on Wednesday, the 12th of this month. Taken as a whole, the shooting was a satisfactory one. A number of local millers is very small, and the scores are up to 100 over the usual average. We note with great regret that the members of the Digby county did good show in the challenge cup has been won by a Digby man, Gunner Egan, one of this year's recruits. It seems to us that the number of competitors is very small, in proportion to the number of men who are entitled to shoot. There are only thirty men enrolled in the county militia at Digby, and only about one-third of them are present.

Little Paragraphs Which Tell of the News Round About Town.

NEWS GATHERED DURING THE WEEK AND RECORDED IN BRIEF FOR THE BENEFIT OF THE PUBLIC.

A number of new subscribers are taking advantage of our special offer to send the COURIER free from date to Dec. 31, 1902. A dollar and receive the COURIER for six weeks.

Our circulation is steadily increasing.

Coasting schooners are carrying big cargoes of wood to American ports.

Hard wood is selling in Plympton at \$2.00 per cord, notwithstanding the fact that the strike is settled.

The farmers at Bellevue's are getting a good price for their grain. It is said that, ever prepared in that locality, American schooner D. H. Wilson loaded in Bear River last week for hard wood at \$1.00.

Our farmers who have been reading the papers and getting ready for the winter, have made a few dollars, while those who failed to get out an early supply of wood, or sold early, are grieving over lost opportunities.

Mr. J. C. McLean is continuing his large shipments of lumber to Lynn, Mass., and is expected to ship more during the month of October.

There has been a slight reduction in the price of grain, but it is still up to the farmers to do all they can to keep up the price.

Mr. A. D. R. A's heavy passenger train continues.

Travellers by the coasters are required on Wednesdays and Saturdays express trains.

On Friday October 24th the number of trips in the Yarmouth-Boston service is again reduced, that the S. S. Yarmouth will run on the Bay route, and the S. S. Boston will run on the Digby route.

We hear stories of a building boom for next spring.

—Our Editor, of Fruitland, Ont., and Mrs. Ida F. Tison, of West Salem, have been visiting in the Academy hall, Digby, Thursday evening, Oct. 23rd, at 7.30 p.m.

A MOTHER'S PRAISE.

For the Mother of That Restored Her Daughter's Health.

SHE HAD SUFFERED FROM SEVERE HEADACHES, VOMITING AND EXTREME NERVOUSNESS, AND FEARED SHE WOULD NOT REGAIN HER STRENGTH.

Every prudent mother will watch carefully the health of her children during the period when they are passing from girlhood to womanhood. This period is the most critical in the young girl's life. It is then that she becomes weak, easily distressed and troubled with headaches, without apparent cause. The blood becomes thin and watery, and even prompt steps are taken to restore it to its rich, health giving condition, decline, and perhaps consumption will follow. Dr. Williams' Pink Pills have cured more pain, anemia, and general weakness than any other medicine, and mothers will make no mistake if they insist upon their growing daughters taking these pills from time to time.

Dr. Williams' Pink Pills are rich in red blood and give new strength with every dose. They cure anemia, purify the blood, and give new strength with every dose. They cure anemia, purify the blood, and give new strength with every dose.

Found 100 Tons of Coal

BONANZA DISCOVERED IN BUILDING UNCOVERED BY LATE MILLIONAIRE JONES.

PORTSMOUTH, N. H., Oct. 11.—Charles Paul, a foreman of the Frank Jones building, Portsmouth, made an interesting discovery yesterday.

He had occasion to visit the basement of the building on Market street occupied by Shirley B. Davis as a sail loft, and he has been used for storage purposes.

While engaged in overhauling some boxes, Mr. Paul discovered that the farther end of the building contained a quantity of Australian coal. It was a discovery that the coal belonged to Hon. Frank Jones and was stored there years ago and its presence forgotten.

Mr. Davis, who occupies the building, states that it must have been placed there more than ten years ago, as he had no knowledge of its existence until yesterday.

He says that the coal was a surprise, and that it was a very fine quality of coal.

It is a very fine quality of coal, and it is a very fine quality of coal.

An Attractive Kitchen

A kitchen is usually furnished with but a small outlet of money, not to mention thought. Nevertheless, it is the most important of all others which should be considered.

A model kitchen is furnished in different styles. The walls, instead of being painted, are covered with the latest sanitary papering in squares of blue and white to simulate tiles, and the floor has a covering of linoleum in the latest and neatest pattern.

The kitchen is usually furnished with a sink, a stove, and a refrigerator. The sink is usually made of enameled iron, and the stove is usually made of cast iron.

The refrigerator is usually made of enameled iron, and the sink is usually made of cast iron.

A CONTRAST IN BOYS.

Town and Country Leads in the Struggle of Life.

OF THE MEN WHO HAVE ACHIEVED GREAT PROMINENCE IN PUBLIC AFFAIRS THE RURAL BOYS ARE AT LEAST TWENTY TO ONE OVER THE CITY LADS.

A country boy's lack of opportunity is his best equipment for the serious struggle of life. This sounds paradoxical, but it is true. It is just as true as the opposite proposition, that the greatest hindrance a city boy has to success is his own environment.

Which boy is the most successful? It is a question that has been asked many times, and the answer is always the same. The country boy is the winner.

But the servant who is the winner is the one who is the most successful. The country boy is the winner.
