The Largest Fraternal Body.

SOME STRIKING STATISTICS PRESENTED AT THE ANNUAL MEETING OF THE ASSOCIATION OF GREAT BRITAIN AND IRELAND.

The following statistics are taken from the reports of the grand officers presented at the annual session of the Sovereign Grand Lodge, I. O. O. F., that recently met in San Francisco, Cal., and are indicative of the marvelous growth of this well known order, and show it to be the largest fraternal body in existence. The figures presented are for the year ending December 31st, 1903.

Total membership of order December 31st, 1903:

Total membership of order December 31st, 1902:

The net increase of membership in subordinate lodges for the year ending December 31st, 1903, was 113,739 brothers, and 5,065 widowed families were relieved.

It must be borne in mind that the work of this order is done voluntarily, there being no paid organizers employed.

In the jurisdiction of Tennessee he holds the honors for largest increase both in total amount and per cent, net increase being 7,304 or nearly 50 per cent advance.

Total membership in Canada December 31st, 1903, was 49,821, an increase of 3,105.

Officers of Sovereign Grand Lodge are elected for two years. This was election year.

Washington, D. C., was selected as place for next annual session. Montreal was among the places placed in nomination.

A New Zealand contemporary stated that a motor torpedo boat was captured by Mr. J. J. Lane, of Milton, at the mouth of the Tokoroa River.

On putting the fish on the scales the register showed 35 pounds, and some idea of its size may be gathered when it is mentioned that, from snout to tail, the fish measured 2ft. 11 1/2 in., largest circumference 29 in., and depth 11 in. No scales to be seen, this specimen eclipses even the "fishy" of speckled beauties taken from the river. Had it not been for assistance it is used that doubtful whether Mr. Lane could have successfully landed the prize. A north of Ireland angler declares that this man-made boat was a powerful engine, the huge "boiler" captured from Lough Neagh exactly a century ago.

A Motor Torpedo Boat.

The British Admiralty has decided upon having a motor torpedo boat built. The vessel will be 130 ft. long and carry on her deck a tube that can be trained all round. It is proposed that the motor should be placed below the water line, and covered with a protective deck. One advantage the motor boat possesses over the steam propelled one is that it has no funnel and makes no smoke. This renders it more difficult to detect at night and of course more effective for use in an attack made under cover of darkness.

A Well's Wonderful Cure.

A wonderful cure has just been effected by the waters of St. Winifred's, in the little Welsh town of Holywell, the father of which dates back hundreds of years. The patient is James Plunkett, a builder's laborer, of Manchester, who became almost helpless, crippled, after falling from a scaffolding. He was dropped in the well and given a course of baths and was soon able to discard his crutches. He now walks with the aid of a stick, having only just the suspicion of a limp.

They Go Together.

"And what are you going to do when you're a man?" asked the visitor. "I've been thinking," replied the bright boy, "of starting an elephant farm in Virginia."

"An elephant farm?"

"Certainly. Why not? They raise peanuts there."

His Bravery.

"Oh, George," sighed the romantic girl, "I wish you were like the old time knights. I wish you'd do some thing brave to show you live for me."

"Gracious," cried her fiance, "haven't I agreed to marry you, and use only getting \$20 a week?"

General Jane.

Jane—After looking at me for a minute or two Harry said, "Do you know, Jane, that a vet improves you greatly?" Carrie—Not very much, my dear Harry. Jane—No, but what I liked me was the fact he employed an impertinent unpleasant thought.

What Damp Feet Mean.

Nine tenths of the more tiresome physical troubles women bring on themselves are due to no more terrible cause than damp feet. Men, for once in a way, are amenable in this respect. They do not habitually tramp around in their slippers, or wear thin slippers of leather which are as good a protection against damp as a bit of blotting-paper. One half the boots and shoes worn in our streets ought to be used exclusively for indoor wear. Outside, and with a climate like ours, they are a source of trouble. The damp feet people go about literally hunting for a sharp attack of illness. It is perfectly meet and right that the modern shoe should take a pride in her look. Well shod, and with a dainty military, and not high, French heel to her boot, it is proper she should be conscious of the charms of youth and complexion. But this chattering "upper" never make a foot look well. At best they are flimsy hearthstone wear. Shoes are even more treacherous. A fairly heavy shower of rain, the spray heating up from the decaying debris, the wet stockings through, laying the foundation of any one of a dozen obnoxious complaints.

Neat, Well Dressed, Nice Looking.

IS THE WAY ENGLISH INVESTIGATOR DESCRIBES CANADIAN GIRLS.

Mrs. Vernon, who visited Canada recently on behalf of the British Women's Emigration Association, for the object of inquiring into conditions here for employment of women and girls, expresses herself enthusiastically on the subject in the September number of the Imperial Colonist, the organ of the association.

The writer states that she visited nine Canadian cities and towns and found in them all good openings for factory girls. The surroundings for working in were clean and comfortable, the apartments being large and well ventilated. The rate of wages she learned to be higher than in Britain, and the general position of the girls, the apartments being large and well ventilated. The rate of wages she learned to be higher than in Britain, and the general position of the girls, the apartments being large and well ventilated.

Mrs. Vernon evidently had in mind the criticisms of an "English woman" regarded Canadian girls, whom she heard of her way to allude to as "neat, well-dressed and nice looking."

Slight Sprains Grow Worse.

Unless promptly treated. The great trouble with sprains is that they are not treated properly. A sprain of the wrist, which is a common one, is often treated with a bandage, and the patient is told to rest. But this is a mistake. The wrist should be kept in motion, and the bandage should be removed as soon as the pain subsides.

Not Down to That.

The late Phil May spent several years when a very young man in Australia. There he met his first success as a comic artist, but not until he had experienced his share of ups and downs.

Six months after he left England a London friend, who has since achieved fame as a dramatic critic, also went out to Australia to seek his fortune.

He, too, soon encountered ups and downs, and during one of the latter he happened upon a cheap restaurant in an obscure street of Sydney to order a frugal meal.

After studying the bill of fare he earnestly looked up at the waiter and said: "I recognize in this person my friend May."

"Phil," he said solemnly, "it is possible that you work here?"

"Yes," answered May, drawing himself up with great dignity and throwing his napkin over his arm, "it is possible that I work here. I do work here. But I don't have you understand that, but I don't have you understand that."

Consumption is Booming Canada.

Year by year the White Plague steadily gains headway, and why? Because careless people let their colds run into consumption. The only way to avoid this is to take care of your colds as soon as they appear.

The great Duke, says *The Birmingham Post*, was especially punctilious in his utterance of the comfort or convenience of his subjects.

During the Peninsular War, hearing that there were many wounded English in an adjacent village, sent forth with his assistance, and all the time Charles Napier was a prisoner he was treated as an honored guest, particularly by Baron Cluett. Ney's aide-de-camp, when the British Government sent to ascertain what had become of Napier. Ney learning for the first time that his gallant opponent had a wife and widow mother, said: "Let him go and tell her himself that he is alive."

Dirty Headaches Are Caused.

Nine times out of ten but constipation can be cured quickly by Dr. Hamilton's Pills. These pills are the only ones that cleanse the bowels and liver without any harm.

An Editor's Woes.

Editing a newspaper is a nice thing if we publish jokes people say we are rattled. If we don't we are fossils. If we publish original matter they say we don't get them enough selections. If we give them selections they say we're too lazy to write.

If we don't get them enough selections they say we're too lazy to write. If we give them selections they say we're too lazy to write. If we don't get them enough selections they say we're too lazy to write.

A Dilemma Compliment.

Father—Why, marry my daughter? Why, she's only a child. Spooner—Yes, sir, I thought I would come early to avoid the truth.</

THE DOCTOR'S RIDE.
It had snowed from early morning in the little northern town of Taunton. Toward midday the wind rose, and all the afternoon it blew a steady gale, which whirled the loose snow in blinding drifts and filled the country roads to overflowing. At dark the storm broke to a lull, but the wind still blustered at nine o'clock, when Dr. John Graham plunged out through the banks in his stable-yard for a good night look at his horse.
"Good night, Frank, old lad," said he, with a parting pat to the shining, outstretched neck of his pet saddle horse. "We're in for a good rest to-night. No calls for us before morning."

Frank, glad to be out after his long day's housework, struck an eager path through the snow. He was a big, burly fellow, and he was dressed in a heavy coat, with a fur collar, and a pair of heavy boots. He was riding a fine horse, and he was holding the reins loosely in his right hand. He was looking back over his shoulder at the house, and he was smiling at the thought of the good rest he was about to have.

THE NEW SIGNAL.
The Submarine Bell, a valuable Warning to Mariners.
ITS CONSTRUCTION AND OPERATION, DESCRIBED BY THE INVENTOR, DR. J. H. B. BELL, IN A PAMPHLET, "THE SUBMARINE BELL," WHICH MAY BE OBTAINED FROM THE PUBLISHERS, J. H. B. BELL & CO., 10, ABchurch Lane, London, E.C. 4.
The unreliability of the transmission of sound signals produced in the air, especially in fog, has long been a matter of great concern to mariners, and many of them can testify that they have seen the exhaust steam issuing from a steam whistle and yet heard nothing. The Submarine Bell, however, has reached the ears of mariners several miles off. This undesirable fact applies to our fog alarms and automatic whistles, and has been advanced in regard to this phenomenon. The eminent scientist, Professor Tyndall, asserts that sound produced in the air is caught up by the exhaust steam, and carried along in some upper strata of air until it is liberated again at some distance from the source.

On the other hand, sound produced in the water, which is a natural conductor, extends in sound waves in all directions, and is not absorbed to the limit of its capacity, according to the power or intensity of the sound produced. The knowledge of these facts, and the application of them to the navigation of ships, has been the subject of many experiments, and has resulted in the invention of the Submarine Bell. This bell, which is a small, cylindrical vessel, is attached to the ship by a long, flexible tube, and is capable of producing a sound which can be heard by other ships at a distance of several miles. The bell is operated by a small, hand-pumped cylinder, which is attached to the ship by a long, flexible tube. Curious Calendars

Ancient timekeeping has received new light from two remarkable stones lately unearthed by the German explorers on the site of the old Ionic port of Samos in the Aegean Sea. They were found by streams of water running down the trenches from the reservoir. Her show of plate fruits and in acids is most varied and commending. Minors are the most common. They are in rich variety and volume leads the States. Her Wall River apples measure 21 inches in circumference and weigh 2½ lbs.

The exhibits of New York and Michigan brought us nearer home. Here were the Baldwins, Spices, Kings, and more, carefully splashed in bright reds, oranges and yellows. The building is much like that of New York and I found a feeling of pardonable pride in her display. In color and quality, equal to the best of the markets she has greater bulk. For future seasons, the display of Michigan Nootka fruits are merged in Canada's show. The exhibit of plums by Canada and New York in color, size and quality, equal the best at the Worldville fair, but on no letter.

The bounty of the grounds and public ways by grading and planting trees and shrubs, and the cost of appropriation was \$109,000. The work was divided into two landscape gardens, one under control of the grounds and planting department, including the waterways, cascades and fountains. The natsdaristic process of laying out the gardens, and was almost exclusively used. The effect generally, was graceful and beautiful. The design of the gardens, four acres, modeled them like Kensington Gardens. Trees and hedges were the end-features. The elevations, sunken gardens, and the

may be saved. The Russian people are not so easily won over as the Chinese and the Japanese are, nor are the Russians; that the "commissars" can wear each other's tails and can throw bombs, or even stones, from one pile to another, does not make any difference. They were hushed about and interdicted by tradition, while the broad verandas and gardens contained cat-bushes in the shape of a dragon, a lion, a snake, serpents, chairs, tables, dogs, etc. making a picture of wondrous beauty. But it was Italy and France we had the formal and Italian style used exclusively in fruit and vegetable gardening. The beauty of the buildings is greatly augmented by the formal garden and the rich display of formal dispersed thicket and metairie in every pebbled walk.

The points where nature and art unite to produce its loveliest note is in the grove of the Japanese garden in the evening of the day around the grand basin. Across the basin on the hillside stands Festival hall in the center of the garden.

A WEAK HEART.
The interesting experience of a St. Catharines man.

HAD SUFFERED FOR TWENTY YEARS AND WAS ULTIMATELY CURED THROUGH THE ADVICE OF A FRIEND.

"Twelve years ago," says Mr. Wm. Emery, of Welland Avenue, St. Catharines, "I was living in the town of Ganaronga, and the physicians there told me I had heart disease. From that time and up to four years ago I had often had severe spells of the trouble. The last occasion, which was on a violent palpitation, and at other times I would become dizzy, nervous and frightened and my heart would almost cease to beat. I became reduced in flesh and insomnia followed. I was hopeless of finding a cure for I had been treated by an experienced doctor, and had taken many advertised remedies without getting any benefit. One day a neighbor strongly advised me to try Dr. Williams' Pink Pills and acting on his advice I got a half dozen boxes I soon found much relief through the use of the pills, and after continuing the treatment for a couple of months I was again enjoying perfect health. I have not since had any return of the trouble and I feel safe in saying that the cure is a permanent one, and I can strongly advise the use of Dr. Williams' Pink Pills to all who suffer from similar trouble. The reporter can only add that Mr. Emery is well known in St. Catharines, is a prominent worker in Methodist circles, and has the highest respect of all who know him.

If you have any symptoms of heart trouble, neuralgia, indigestion, rheumatism, anæmia, or any of the numerous troubles caused by poor or watery blood, you will find new health and strength in a fair use of Dr. Williams' Pink Pills. Do not waste money on any other change your health by the use of substitutes—get the genuine pills with the full name "Dr. Williams' Pink Pills for Pale People" on the wrapper around every box. Sold by all medicine dealers or sent by mail on 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams Medicine Co., Brockville Ont.

His Person Sacred.
The person of the Korean emperor is sacred. If human hand touches him it is sacrilege, and the punishment for sacrilege is death. If the emperor is the subject of a subject, he is treated as a subject. The emperor's name must be mentioned only in whispers. His portrait is never painted except after death. Then it is worshipped. Once a foreign ambassador sought to present the emperor with the portrait of his sovereign. But the minister for foreign affairs refused the offer as an outrage, and the portrait was never accepted. The emperor's power is boundless; his word is law, and he owns everything, land and people, without restriction. A simple wish is a command.

—Manners may be learned at dancing schools and in society, but true politeness grows in the home circle only. If missed there, it is seldom found elsewhere.

A Veteran's Story.—George Lewis, of Shamokin, Pa., writes: "I am eighty years of age. I have been troubled with indigestion, flatulency, and in my time have tried a great many catarrh cures, but several years ago I was cured by Dr. Agnew's Catarrhal Powder. One box cured me.—55

—The tempter is apt to think harshly of his victim, not knowing that he himself sinks lower than he causes the tempted one to fall.

To Starve is a Fallacy.—The temptation to stop eating because you have indigestion has long since been exploded. Food is the only solid foundation of health, and the only sure way to get rid of indigestion is to feed a normal diet in the treatment of stomach troubles. It has proved that one may eat his fill of any food he likes.

—Temperaments are but the habits of the soul, which have become unchangeable, and their causes, as habits do, but which have their causes nevertheless less.

Pilem cured in 3 to 6 nights.
—One application gives relief. Dr. Agnew's Ointment is a balm for itching piles. Dr. Willard, *Bleeding Piles*. It relieves quickly and takes away the cause of the complaint without a rival. Thousands of testimonials.

—Failure is evidence.—23

—Failure is to be untrue to the best of your knowledge, and the best of what you know, and you are to do what you stay where you are and do what you can as well as you can.

South American Kidney Cure
is the only kidney treatment that has proved equal to correct all the evils that are likely to arise. Three physical regulators, two

deeds of testimonials to prove the curative effects of this liquid, kidney specific in cases of dropsy, diabetes, jaundice, irritation of the bladder, inflammation, dropsical tenderness, etc.,—**Don't delay.**—22

—He who seeks to rise by intrigue will not enjoy his elevation because he will always be afraid the elevator is going to drop.

Never Worry.—Take them and about your business—they do their worst when you are not thinking of them. Liver Pills are system renovators, blood purifiers and builders; every gland and tissue in the whole anatomy is benefited and stimulated in the use of them.—23

—There is no happiness in having and getting, but only in giving; half the world is on the wrong scent in the pursuit of happiness.

Dead or lunacy seemed the only alternative to the high price of the medicine lately of Wingham, Ont., who has

travelled over two continents in a vain search for a cure for nervous debility and dyspepsia. A friend recommended South American Red Wine. One bottle helped, six bottles cured, and her own written testimony closes the words: It has saved my life.—20.

—Life does best when we are mutually helpful, and paying well for what we get, whether it is service of others or money for our services to others.

Heart relief in half an hour.—A lady in New York State, writing of her cure by Dr. Agnew's Cure for the Heart, says: feel like one brought back from the dead,

—A keen, warm sympathy that makes your brother's need your own—nothing short of that is really charity.

When Rheumatism doubles
man up physician and sufferer alike. I heart and often despair of a cure, but he the exception, Wm. Pegge, of Norwood, O. says: "I was nearly doubled up with rheumatism. I got three bottles of South American rheumatic Cure and they cured me. It's

quickest acting medicine I ever saw,"—18

—Manage as we may, misery suffering will always cleave to the borders of superfluity.

THE DIGBY WEEKLY COURIER.

Digby, December 2, 1904.

EDITORIAL NOTES.

An example of flag courtesy was shown in the United States last week. A despatch to the New York Herald from Connecticut says that Wm. Robinson, an Englishman, employed in a factory, and who was made a citizen of that country a short time ago, had out British and American flags when the Stars and Stripes. They called on the honor of a Republican parade. The affair aroused the indignation of the "patriotic" residents who did not like the Stars and Stripes. They called on Robinson and asked him to refuse the British colors, and upon his refusal, a crowd gathered outside his home, became incensed, and threats of attack were made against Robinson. Finally one business man in the crowd gained an entrance to the building through a back door and going to the roof, laid down the British flag, and cheer from the crowd.

"This is the time of year when thin ice is claiming its victims. Many boys and girls are having their young lives brought to an untimely end by reason of their not being careful enough to bear their weight, and many homes are being saddened. These accidents occur every year early in the winter, and timely warnings are the means of saving life. In all households the danger surrounding the habit of going on thin ice should be strongly impressed on the young mind. Many pages of older members of the family, especially if they reside near a body of water, should keep a watchful eye on their children lest they should thoughtlessly attempt to skate or coast on ice before winter has truly set in.

—John D. Rockefeller, supposed to be the richest man in the world, has been unlearning his thoughts about money. "I believe," he says, "is a religious duty to get all the money you can, fairly and honestly; to keep it all you can, and to give away all you can. Who is the poorest man in the world? I tell you the poorest man I know is the man who has nothing but money, nothing else in the world upon which to devote his ambition and thought. That is the sort of a man I consider to be the poorest in the world. Money is good if you know how to use it. Many people would like to know what Mr. Rockefeller intends to do with all the money he has made and is still making.

—Statistics prove the fact that there is an average of 30,000 accidental deaths in the United States every year—enough to wipe out the entire population of a medium sized city. Twenty thousand of these deaths are classed as unavoidable. The others are classed as preventable or doubtful. By far the greatest number of these accidental deaths occur in raiding. Fire is the next most prolific cause, but comparatively few occur on the water. The attention of the authorities is constantly being called for the want of care and liability of accidental deaths in cases where they have jurisdiction, and among which is the rendering safe the halls and electrical buildings through out the country.

—A contractor, who has been constructing railways for the Canadian Pacific Railway Co. in the Canadian west, has been speaking somewhat of the growth of the city of Winnipeg. He says it is growing at a remarkable rate. The Canadian Pacific is building the largest yard in the world at that place. It will contain seventy acres of track. The city is erecting a combination hotel and depot at a cost of \$1,200,000. Winnipeg is growing like the proverbial green bay nettle, and it is no wonder either. There are also fifty fine buildings now in course of construction in the business part of the city.

—The penny bank system is being tried with good results, in some of the Chicago schools. The system is so arranged as to require the children on the part of teachers and principals. One of the schools up to last June, had savings amounting to \$400, the system having been in operation since the twenty-second of May. Many of the immediate and gratifying results of the school of the saving habit, according to the principal, has been the practical abolishment of gum chewing and cigarette smoking. The system might work in some of our provincial schools.

—An American exchange says that hereafter there are to be no more "crisp bank notes." The government bureau of engraving and printing has a patent by which they will treat bank notes with a chemical preparation which renders the paper soft, and velvety, almost like a piece of silk. The chemical preparation acts as an antiseptic and preservative. When applied to old documents it seems to turn the fibre together and prevent further decay.

—Settlers are still flowing into the Canadian West from the United States, and most of these immigrants are well-to-do farmers. Their value is greater than a similar number from the old country. A great number of them are working on the new transcontinental railway is commenced.

—New Glasgow is having a siege of muddy streets. The *Eastern Chronicle*, one of the town's newspapers, recommends the formation of a company to construct canals, and persons can cross its streets without wading, and wading in the mud. Poor New Glasgow, she is to be pitied.

—The Yarmouth Herald says: The bodies of Helen M. Macgregor, of Digby and of Joshua B. Macgregor, of Yarmouth, arrived per steamer Boston on Wednesday and were forwarded by the steamer to the funeral. The latter died on Lynn, Mass., on the 21st Nov. of pulmonary tuberculosis, aged 57 years.

A Pretty Wedding.

We copy the following from the daily Mirror and American, Nov. 17th, published at Manchester, N. H.

The home of Mr. and Mrs. James P. Jones, 224 Sagamore street, was the scene of a very pretty wedding yesterday afternoon at 2 o'clock, when their daughter, Miss Mary Jones, was united in matrimony with Mr. Charles William Todd, of New York City, formerly of Schenectady, N. Y., an esteemed and valued employee of the American Express Co.

The ceremony was performed by the Rev. Mr. J. C. Colby, pastor of the Methodist Episcopal church, and was witnessed by a large number of friends.

The bride was dressed in a beautiful gown of white satin, and wore a large veil. The groom was in a dark suit.

The wedding party consisted of the bride and groom, bridesmaids, groomsmen, and a large number of friends.

The reception was held at the home of the bride's parents, where a large number of guests were entertained.

The wedding was a very pretty and successful one, and was witnessed by a large number of friends.

The bride and groom were both very happy, and the wedding was a very pretty and successful one.

Deserted and Rudderless.

Somewhere in the northern sea the barkentine Quicksilver, waterlogged and rudderless is drifting, a derelict. Her crew of ten men have been landed in St. Francis, N. S.

The Quicksilver's crew were taken from the disabled vessel by the tug, Tampara, owned by Seattle and Tacoma, to San Pedro. When off Gray's Harbor the Tampara was informed that the Quicksilver was in the vicinity of the wrecked vessel of the St. Homer.

Capt. Johnson says the Quicksilver first got trouble Nov. 15, and from that date she had been in a waterlogged condition with the foremast and mainmast washed away, and the vessel opened fore and aft.

The Quicksilver was a barkentine vessel, and was owned by the St. Homer.

Schr. Hazel Glen, Capt. Anderson, is here from P. E. I., selling out potatoes at 36 cts. per bushel. Very good quality.

We had a big snow storm Monday night—12 inches on the level. The fishing fleet arrived in the harbor with very good catches.

Master Howard Piper, son of Frank and Mrs. Piper passed away the 2nd inst, after being confined to the house some weeks, aged 7 years.

Mr. Howard Titus was a passenger from Boston Wednesday, having spent Thanksgiving with his daughters, Mrs. Florist and Miss Florence Titus.

On Tuesday, the 29th ult., there were some snow squalls at Westport and one of our old residents who has been in the habit of looking after the wild animals in our woods, thought he would go back for marks in the snow in order to place his traps in the right place. Darkness overtook him and the night being very dark he went astray. His friends became alarmed and got their lanterns to make a search for him. However, during the evening, he got sight of the light on the signal station and by this means he found his way out home at 8 o'clock in the evening very much tired, but not too bad for a man of his age, 76 years.

We are having an epidemic of chicken pox among the children, some of them being quite sick.

We are having a very cold snap, the bay being partly frozen over. Have had very little snow and not any sleighing.

Mr. Joseph Milberry has been quite sick, but glad to know he is improving. He is 87 years old and up until last fall was very smart.

A number of friends met at the home of Mr. Allen Chute Monday evening to celebrate Mrs. Chute's 94th birthday. She is very smart at her advanced age.

Capt. George Mallett arrived home last Saturday from Dorchester, N. B., where he has been under the doctor's care with a broken leg. He is getting along nicely.

Our merchant at the corner reports business brisk and every prospect of a good Xmas trade. I notice the mer-

chants are making their usual display of fancy goods, toys, etc.

Our vessels have all gone into winter quarters. The G. M. Warner, owned by Mr. Joseph Potter, is hauled up at the Government Pier, where her owner intends repairing her this winter. He has Mr. William Smith, boss workman.

The remains of Mrs. Sarah Tivedo who died at the hospital in Halifax, was brought home last Wednesday and interred in the Catholic Cemetery. She was a daughter of Capt. Henry Mallett and leaves a husband and two sons. She was taken to the hospital a year ago.

Mr. Trevoy has been laid up with a sore foot for over three weeks, having cut one of his toes nearly off while chopping wood. Last week a son of John M. Melanson, Plympton Station, cut his foot badly, and another young man, Abner Melanson, accidentally discharged a revolver, the bullet going through his hand; all doing well under care of Dr. McDonald.

Mink Cove.

Coasting seems to be the order of the day.

Rev. Mr. Langille gave us a call on Saturday last.

Mr. Gilbert Merritt made a flying trip to Weymouth last week.

Waterford.

Mrs. Weld Cornwell has been entertaining her niece, Mrs. John Smith, of Smith's Cove.

Mrs. Joseph Potter, of Plympton, is visiting her parents, Mr. and Mrs. Wallace Denton.

Mr. and Mrs. George Farnsworth, of Digby, were here last week the guests of Mr. Jacob Gilliland.

Miss Ida F. Westcott has returned from a very pleasant visit among her friends at Brighton and Digby.

Dame Nature has donned her winter coat and the dazzling white crystals have already afforded us a week's good sleighing.

Mr. and Mrs. J. N. Barnaby, at present residing in Moncton, have been back to visit their old home. We wish for Mr. Barnaby a long continuance of his present prosperity in the mercantile business.

We have noticed some sections of the county reporting heavy weights in the pork line. Mr. Weld Cornwell has killed a spring's pig weighing 367 pounds. In this connection mention might well be made of a pair of heavy four year old steers girting over seven feet. These, were lately sold by their owner, Mr. Geo. E. Johnson, for quite a fancy price.

Rossway

Mrs. John Smith, of Smith's Cove, is visiting friends and relatives here.

Mr. and Mrs. Moane, of Lubec, have moved to Gulliver's Cove for the winter.

The colored jubilee singers of Digby Joggin, gave a very good entertainment in the hall Thursday night.

Mr. and Mrs. Orië Morehouse lately moved from Sandy Cove to Gulliver's Cove, are congratulated on the birth of a son.

Mr. George McNeill had a valuable dog shot about half a mile from his home last week. We hope the treacherous enemy will be severely punished.

The bean supper served in the interests of the Knights of the Maccabees on Wednesday, proved quite successful notwithstanding the stormy weather. The sum of \$25 00 was realized.

We are glad to see the members of the Sons of Temperance joining hand and hand once again. We trust Telephone division will, through the energy of its members, continue its good work.

Mrs. Evelyn Woodworth on Monday received the sad intelligence that her son John was drowned Saturday night in Everett, Mass. We extend our deepest sympathy to the bereaved family.

Central Grove.

Mr. Willie Delaney has gone to Florida to spend the winter.

Mr. Ralph Tibert bought a very nice organ from Mr. James Brooks last week.

Mr. McLain and Mr. Chipman, our popular jewelers, gave us a call last week.

Mr. and Mrs. Wm. Pyne are receiving congratulations on the birth of a little daughter—born Dec. 8th.

Mrs. Frank Delaney spent a few days last week with her parents, Mr. and Mrs. Israel Brooks, at Freeport.

Mrs. Jane Tibert has gone to Westport to spend a few weeks with her daughter, Mrs. James Morrell.

Kempton, Queen's Co.

Mr. Frank Kempton made a short trip to Liverpool last week.

The ladies' sewing circle met at the home of Mrs. R. P. Minard this week.

Mr. Hardy Freeman, of Mount Merritt, is visiting her parents, Mr. and Mrs. Frank Kempton.

Mrs. Fred Kempton, who was with her mother through her last sickness and death, has returned to her home quite ill, but we are glad to report her convalescent.

The Baptist Church, which has been recently dedicated has been presented with a bell by one of our leading merchants, Mr. A. H. Kempton. We heard its chimes for the first on Sabbath morning. We greatly appreciate the gift of the donor and trust he will be richly rewarded.

On Saturday evening a large number gathered at the home of Mr. and Mrs. Elnathan Freeman, for the purpose of giving the pastor, Rev. H. A. Maider, a surprise. When called from his study he was surprised indeed to see so many assembled there. During the evening he was presented with a purse of money by Mr. Charles Allison, for the interest he has taken in the choir. In response to this he very graciously thanked them for their kindness and said it gave him more encouragement to go on with his work. A very bountiful treat was prepared, and all enjoyed the evening.

Barton.

Mrs. Thomas Melanson, of Plympton, is visiting her sister, Miss Grace Melan-

son, at Mrs. C. A. Abbott's this week. Schr. Bessie has gone into winter quarters at Specht's wharf.

Mrs. P. D. Woodworth is the guest of Mrs. Harry Thomas at this place.

Master Price Spechts is suffering from a badly sprained foot, which is keeping him from school.

Mrs. A. J. Rice is slowly improving in health, we hope to soon hear of her complete recovery.

Mr. Balfour P. Spechts arrived home on Saturday from Sandy Cove and remained over Sunday.

Mr. and Mrs. James Warner, of Plympton, were the guests of Mrs. Helen Morgan on Thursday last.

Mr. Joseph Urquhart is engaged in finishing the inside of Mr. Henry White's house at North Range.

Mr. James Farnham spent a couple of days in Digby last week, the guest of Mrs. Hetty Dunn at the Racquette.

Mr. Curtis Spechts is able to be at work again, having been laid up for a few weeks with a carbuncle on his knee.

Messrs. Edgar and Haliburton Jones, Mrs. J. S. McNeill, Mrs. Emily Young, Mrs. B. P. Spechts and Mrs. Lizzie Bingay are among the guests invited to attend the grand reception to be given by the Rev. G. D. Harris and wife at Weymouth on Saturday, the 17th, Dec.

Centreville

Mr. Jacob Swift, who has been ill for some time, is recovering.

Miss Carrie Dakin will give an "At Home" to her class in music at Sandy Cove, Friday evening, Dec. 16th. She

will be assisted by a number of her pupils from that place.

Surprise parties are the order of the day in our village. A number of friends and relatives of Mr. and Mrs. Jacob Dakin surprised them last week and spent a very pleasant evening.

A surprise party was given Mr. and Mrs. Ingram Dakin, Friday evening by a large party of friends who presented them with a handsome extension table and a set of dishes. The evening was passed with songs, recitations, etc.

Gilbert's Cove.

Saturday and Sunday was the two coldest days of the season.

Freeport.

Messrs. D. McLean and T. Chipman, jewellers, are in town.

We are sorry to report Mrs. Albert J. Thurber on the sick list.

Dr. John Miller, of Canning, was in town a few days last week.

Mr. George Thurber returned to his work in Salem, Mass., last week.

Messrs. William Risteen and Mendal Murrell have arrived home from sea.

Schrs. L. M. Ellis, Hains Bros., and Ina B., sailed for St. John on Saturday.

Misses Hazel Thurber and Jessie Brooks have come home from St. John to spend the winter.

Mr. Oswald Prime is spending a few weeks with his parents, Mr. and Mrs. Fred Prime.

Mr. William H. Prime has gone to Westfield, N. B., to spend the winter with his son, L. C. Prime.

The first sleighing of the season began last Tuesday and has continued for a week. Pretty good for Freeport.

Schr. Hazelwood arrived from Halifax on Thursday, Dec. 8th, with four hundred bushels P. E. Island potatoes.

Mr. Oliver Hukins came home last week from Eastport, Maine, where he has been employed during the summer.

Mr. Jim Brooks is doing quite a flourishing business in this town selling organs, having sold four within a week. Messrs. Edward Eaton, Ralph Tibert, Harris

Young and Alonzo Thurber being the purchasers.

Schr. Nina Blanche arrived from St. John Sunday. She continues to make her weekly trips carrying fresh haddock to that port.

Mr. Waitstill Wyman arrived home Sunday from Eastport, Maine, via Digby, remaining at Brighton a few days to visit his parents, Capt. and Mrs. Heman Wyman.

Freeport has been visited by death a great many times during the last three months. It is our sad duty to record two more deaths this week, viz., two young girls, Georgie Thurber and Abbie Hains. Georgie, daughter of Mr. and Mrs. Chipman Thurber, died on Wednesday, Dec. 14th, at the age of fifteen. Her father was drowned while out fishing a few years ago. She had never enjoyed good health and for nearly a year was almost helpless. The funeral took place on Friday. Abbie Hains, daughter of Mr. and Mrs. Wallace Hains, died of consumption on Friday, Dec. 16th. Her mother died when she was a small child and she had been brought up by her grandmother, Mrs. Fanny Hains, who though a very old lady, waited patiently upon her till the last. The deceased was nineteen years of age. Her sister Mata came home from Sandy Cove to attend the funeral. She leaves another sister, Mrs. Garfield Thurber, and one half-brother, Mr. Chas. Hains.

Catharrhal Deafness is Cured

By a thickening of the lining membrane of the middle ear owing to prolonged inflammation from catarrhal germs. The only cure is fragrant, healing Catarrhotone (one which is catarrh by the you can't get it from the market). It enters the ear, and ear; it reaches the source of the trouble and cures deafness per-

manently. Every sufferer from impaired hearing should use Calsinaurone which has effected so many wonderful cures. You simply breathe its healing medicated vapor,—very easy and pleasant. Two months' treatment for \$1.00 at druggists.

War News.

JAP SQUADRON SAILS TO MEET BALTIC FLEET?

LONDON, Dec. 20.—The *Daily Mail's* correspondent at Hong Kong says he has learned on trustworthy authority that a powerful Japanese squadron of battleships and armored cruisers is proceeding south accompanied by fifteen colliers and transports to attack the Russian Baltic squadron.

According to the Shanghai correspondent of the *Daily Telegraph*, it is reported that a Japanese squadron of eight warships and fifteen transports is going south to meet the Russian squadron.

200,000 MORE RUSSIANS TO THE FAR EAST.

ST. PETERSBURG, Dec. 20.—Mobilization of the reserves has been announced in seven military districts. This is the third and most extensive mobilization of the war, and will add about 200,000 men to the army in the far east. It is thought the whole force can be placed in the field by spring, when the problems of food and fuel will be easier met and the transportation of the troops will create less strain upon the trans-Siberian railway. It will bring General Kuropatkin's effective force, roughly estimated, to 680,000.

RUSSIAN AGENTS TAMPERING WITH HULL FISHERMEN.

ST. PETERSBURG, Dec. 20.—The English reports that Russian agents are trying to suborn witnesses belonging to the Hull fishing fleet in connection with the North Sea incident, arouses great indignation here, they being regarded as a wilful misrepresentation of fact. Russia openly offered a reward for information throwing light on the subject.

Sixty Men in Peril.

ST. JOHN'S, Nfld., Dec. 19.—Several schooners belonging on this Island and which were driven off by the gale of Sunday, December 11, are still unreported. Their crews number sixty men and it is feared they have been lost. The schooner Klondyke, which went ashore on Cape St. Mary's yesterday, is a total wreck. Her crew is safe.

\$14.00 Per Crate.

Steamer Boston had among her cargo on Saturday night 540 cases of live lobsters. They opened in Boston at \$14 per crate.

Abandoned at Sea.

CAPTAIN, HIS WIFE AND CREW OF EIGHT OF THE NOVA SCOTIA SCHOONER WERE RESCUED.

PHILADELPHIA, Dec. 19.—The Austrian steamer *Tuira*, Captain Tachevich from Trieste, arrived here tonight with Capt. Alery, his wife and crew of the British schooner *Stewiacke*, which was abandoned about three hundred miles south of St. Michaels, December 12.

The *Stewiacke* left Cadiz on November 17 with a cargo of salt for Yarmouth, N. S. The schooner sprang a leak and despite the efforts of the crew at the pumps the water gained so rapidly that the Captain, his wife and crew, ten all told, were compelled to leave the vessel. The signals of distress were hoisted and responded to by the *Tuira*.

The *Stewiacke* was formerly the Norwegian barque *Finn*. She was built at Tonsberg, in 1870, and was 386 tons. She was afterwards sold and her name changed to *Stewiacke*. After running as a barque under this name for two years her rig was changed to that of a three-masted schooner. She was owned by Alfred Dickie of *Stewiacke*.

The Battle Line.

Steamer *Cunaxa*, Capt. Starratt, arrived at Teneriffe on Thursday from Barry.

Steamer *Nemea*, Capt. Shaw, sailed from Montevideo on Saturday for St. Lucia. She will proceed to New York with a cargo of nitrate.

Steamer *Pydna*, Capt. Crossley, sailed from Norfolk on Saturday for Hamburg.

Steamer *Mantineia*, Capt. Pye, sailed from Ponto Del Gada on Saturday for Havana.

Fire in St. John.

A fire in St. John late on Saturday night did from \$10,000 to \$12,000 damage in the five-story brick building, corner of Market Square and Dock street, belonging to the Melick estate. It was occupied by Wilcox Brothers, clothiers, E. Freel & Co., M. Cohen and Joseph Corkery, clothing and dry goods. The insurance will cover the loss.

The Stork is Safe.

LONDON, Dec. 19.—The Hudson's Bay Company's barque *Stork*, for London, has passed Prawle Point. Fifty five to sixty five guineas per cent have been paid. Eighty-five guineas had been paid on the Sicily, which has arrived at St. John's and sixty-five on the *Algerine*, a Newfoundland coasting steamer.

Waiting For Men

The *Shelburne Gazette* says that the schooner *Thistle* is at present laid up at Lockport, as she is not able to get a crew. It looks as if this place will have to import fishermen if the fresh fish business is to be carried on during the winter months.

We wish all the readers of the COURIER
a Merry Xmas.

Mr. H. T. Warne, returned from a
business trip to Yarmouth on Friday last.

Miss Elva Hatt left for Weymouth on
Monday, where she will spend a few days
before proceeding to Boston.

Our Singing School is progressing fav-
orably under the leadership of Mr. Chas.
Barr, of Digby, who has proven himself
to be a very efficient teacher.

Mr. and Mrs. Richard Minard, of
Kempt, Queens Co., are expected here
on Saturday, to spend their Christmas
with her mother, Mrs. W. J. Warne.

Mr. Handley Westcott, of Barton, paid
us a visit last week with a full line of
Xmas essences, perfumes, fancy soaps,
stationary, etc. "Handley" is quite a
favorite among the ladies which accounts
for his ever increasing business.

News has been received here of the
bark A. W. Spies, of Boston, command-
ed by Capt. Alfred Morrell, of this place,
to the effect that they arrived safely at
Rosario, S. A., on Nov. 7th, after an un-
eventful voyage of ninety-seven days.
The genial Capt. wishes all his friends
here a Merry Christmas.

It becomes our pleasant duty to an-
nounce the marriage of Mr. Harry Frank-
lin of this place to Miss Jessie, daughter
of Mr. and Mrs. Chas. Bell, of North
Range. The happy event took place at
the residence of the bride's parents on
Wednesday, Dec. 14th, at 3 p. m., in the
presence of 20 invited guests. The pres-
ents were numerous and costly. We
wish Mr. and Mrs. Franklin many happy
and prosperous years.

Little River

We understand more wedding bells will be heard in this village in the near future.

S. S. Westport called here Monday gathering up lobsters. Fishermen report them scarce in St. Mary's Bay.

On Thursday evening, December 15th, the home of Mr. and Mrs. William B. Denton was the scene of a very pretty wedding when their eldest daughter, Agnes M., was united to Roy W. Trask, of Little River. At eight o'clock the bridal couple entered the parlor to the strains of Mendelsohn's wedding march, and took their stand in the bay window which was prettily decorated for the occasion. The bride looked charming as a bride should, gowned in white with veil and wreath carrying a bouquet of roses. After the ceremony which was conducted by Rev. M. B. Whitman, a collation was served to the ninety guests. The many useful presents testified to the high regard in which the bride is held by her many friends. The groom's gift was a handsome fur. Mr. and Mrs. Trask will be at home at their residence Little River, after Jan. 1st.

Tiverton.

Mr. Ossie Ruggles has returned home. Mrs. Herbert Outhouse is on the sick list.

Miss Chesley, of Bridgetown, was in town last week.

Schr. Blanche, Capt. Chas. Harris, arrived from Digby Saturday night before the gale.

Mrs. Edward Doucette, of East Ferry,

is the guest of her sister, Mrs. William Outhouse.

Mr. Simon L. Outhouse and son Ducher, of Centreville, spent Sunday last with friends here.

Mr. Howard Ossinger and sister Mrs. Lillis Outhouse, made a flying trip to Digby last week.

Death has again visited our village and taken this time an aged lady, Mrs. Caroline Cossaboom, aged 78 years, leaving one son Mr. Amos E. Outhouse, and a large circle of relatives and friends to mourn their loss.

Westport

Schr. Strathcona sailed for Hillsboro Saturday.

There were only three vessels in the harbor Tuesday.

Miss Margaret Morrell has returned from Yarmouth.

Schr. Hazel Glen sailed for Campbell, Monday 19th.

A brigantine passed through to the southward Tuesday.

Schr. J. E. Collins arrived from Yarmouth Saturday in ballast.

Schr. Mildred K., has arrived from St. John with a general cargo.

Bark Favorite was towed out Saturday for Annapolis by tug Marina.

Our haddock fishermen did good work Monday, stocking \$18 to \$20 per dorey.

North east wind and a thick snow storm, the worst of the season, prevailed here Sunday. Str. Westport parted her moorings and went on the sand beach but came off on the flood tide without any damage.

Central House arrivals:—S. C. Mitch-

ell, St. John; J. M. MacDonald, Weymouth; T. B. Chipman, Tupperville; Geo C. King, Annapolis.

Haddock is selling to-day for 9 cts. apiece, lobsters 12 cts; catch very good. The Westport III. arrived Tuesday from Weymouth and took in the lobsters and left for Yarmouth the same evening.

Barton.

Messrs. Fletcher McNeill and Loran Morrell left for St. John on Monday last to join a West India bound vessel.

Mr. Fred Grant was presented with a very handsome Morris chair by the Canadian Foresters on Monday evening last, showing the high esteem in which their brother officer is held by the members of the Court.

Mr. Otto McNeill arrived home on Saturday with his bride. The wedding took place at Newport, R. I., the 12th inst., Miss Minnie Fraser being the happy bride. Mr. McNeill has been in the U. S. Navy for the past four years.

Smith's Cove.

Mr. Byron Davis returned to Boston Saturday.

Miss Stella Austin returned from her visit to Weymouth Saturday.

Miss Annie Bent, of Tupperville, visited Mr. and Mrs. Isaac Smith this week.

Mrs. John Smith and son Oakley have returned from their visit to Digby Neck.

Mrs. Marshall, of Clarence, spent Sunday with her daughter, Miss Jessie Marshall.

Mrs. Cynthia Cossitt, who has been visiting her daughter, Mrs. McGregor, in Boston, arrived home on Saturday.

Saw His Last Christmas Toys.

SURROUNDED BY PRESENTS WHICH HIS MOTHER HAD BROUGHT TO HIM, CHILD PASSES AWAY.

NEW YORK, December 17.—Surrounded by the Christmas gifts his mother had bought for him—a toy drum, a soldier's belt and cap and a toy automobile—three-year-old Valentine Mecca died yesterday in his home, at No. 604 Grand street.

The boy had been severely scalded on Tuesday afternoon and had suffered great agony since the accident. His parents were told that he had no chance to recover. The boy, however, was conscious at intervals to the end, and his eyes rested alternately on his father and mother and his beloved toys.

While her husband was at work Tuesday Mrs. Mecca went out to buy her son the toys that she knew would delight him. During her absence she left him in the care of Mrs. Nora Greene, who lives on the same floor, and who has a boy of Valentine's age. Mrs. Greene was washing and a large tub of boiling water stood in the middle of the kitchen floor. The children played about it and she warned them away, but while her back was turned, Valentine, chased by his playmate in a game of tag, fell into the tub. Mrs. Greene dragged him out as soon as she

could reach him, but not soon enough to save him from terrible scalds.

Just as Mrs. Greene lifted Valentine from the tub, Mrs. Mecca, her arms full of the presents she had bought for her child, entered the apartment. She fainted when she saw what had happened. When the boy's father reached home he was also overcome.

When she realized that her son would never see another Christmas Mrs. Mecca opened the packages and showed the boy the presents that she had brought to him. At intervals the child regained consciousness and smiled his thanks to his mother and father.

First-Class Cruisers For Canada.

VICTORIA, B. C., Dec. 19.—The force at Esquimalt, averaging eighty expert mechanics, who received three months' notice of dismissal on Friday, are now joining energetically in a local agitation for a Canadian Navy. The subject was debated in detail at a meeting of the executive of Esquimalt Liberals, Ralph Smith, M. P., coming from Nanaimo to attend. He made public the announcement that Sir Wilfrid Laurier had given positive assurance that Canada would shortly embark on a naval construction programme, starting with three first-class cruisers to be built in Canada, these being added to training ships on the Atlantic, the Great Lakes and the Pacific.

HOT AIR.

That is the subject under discussion at present and it is not an unseasonable one. Let me give you an estimate of what a Furnace would cost, all set up, ready to use. Following makes carried in stock:

A Song for the New Year.

A song for the new year, its hopes and its fears,
And never a song that is addressed to tears.
A song that shall ring and sing to the years,
A song of a brighter tomorrow!

My Panther Kittens.

A portion of the year 1887 I spent in hunting with Joe Maxim, the veteran guide and trapper, over the plateau of the Squatnot Lakes, close to the New Brunswick border of Quebec Province. Taken altogether, it was a most successful one; but one experience that felt to me as so exciting that it has effectively obscured from me all other details of the expedition.

MARVELOUS SALES OF RED ROSE TEA.

All Canadian Women Interested in Story of its Success.

HOPE H. ESTABROOKS FIRST CAPTURED THE FANCY OF TEA-DRINKERS—THE ENORMOUS QUANTITIES NOW USED.

Canada always likes to learn of her leading enterprises and the men who made them, of their conception, growth and sale, and how they grew. And the COURIER likes to tell its readers about these great enterprises. The following interesting story, as told by Mr. Estabrooks, gives some idea of how he built such a remarkable business in so short a time.

New Year's Breakfast.
IN JAPAN IT IS A RELIGIOUS RITE, AND A SERIOUS MATTER.

To a devout Japanese breakfast on New Year's day is a religious rite rather than a vulgar satisfaction of the appetite. No ordinary dishes are consumed at this meal. The tea must be made with water drawn from the well when the first ray of the sun strikes it, a porcupine of materials specified by law forms the staple dish, while at the finish a nutmeg and pepper cake from a red lacquer cup must be drained by whoever desires happiness during the coming year.
