# THE DIGBY COURIER

# CIGAT come to the

100th Birthday

The hundredth anniversary of the Digby Weekly Cower has brought to mind some fond memories at cytained in the following historical chapter of the other. But first, I wish to congratulate the current shows a finer of the Courier, Mrs. J.M. (Edith) Wallis, for a job wall done over the years and still being well done. According to any record. I have at hand, the Digby Courier, in one hundred years of publication, was controlled under the same family management of Wallis Print Limited. The late J.J. Wallis became didner of The Courier, the second time, in 1929, and at the same time of Courier the second time, in 1929, and at the same time of Courier the second time, in 1929, and at the same time of Courier the second time, in 1929, and at the same time of Credits spanes. which he had been running in and which became With between 1929 and 1931

I well remember the last year the last year I well remember the last year when I well and and father all was or early 1923, the late J.M. Courier. Sometime in 1925 or early 1923, the late J.M. Courier. Sometime in 1925 or early 1923, the late J.M. Wallis (Mac), son of "J.J." engaged me to work Wallis (Mac), son of "J.J." engaged me to work was always day after school hours. Saturdays, and for some every day after seh months after fin. in the building. So of the present in the building. J. Wallis then Digby town hall on First Avenue. J.J. Wallis then Digby town hall on First Avenue. J.J. Wallis then worked occasionally at the print shop but mostly, worked occasionally at the print shop but mostly worked occasionally at the print shop but mostly across the street at the Courier office which was then across the street at the Courier office which was then

We worked ten-hour days, six days a week.

J.L. and "Mac" sometimes worked overtime. I worked only the regular hours being paid a weekly wage which was comporatively good for those times and my lack of experience. I received four or five dollars a week for working after school hours to six o clock and on Saturday all day, and nine dollars a week for full weeks after finishing school. A two or three follar a week raise was offered to me in the fall of 1925 for me to stay on at printing, but, I had made up my mind to enter a branch of the Royal Bank of Canada, starting salary of \$500. The bank salary ingred out about the same per hour as for the printing job. Nevertheless, the congenial atmosphere of the printing plant those days, and, experience however short, were belpful and appreciated by me We worked ten-hour days, six days a week me printing plant those days, and, experience however short, were belyful and appreciated by me

bowever short, were belpful and appreciated by me
"J.J" was very jovial in his occasional trip to the
Job Print and did considerable kidding all in good fun.
Mac" was a witty person who mixed in a good
natured sarcasm now and then for one reason or
another Eva most always had good answers to all
the kidding she was called upon to take, and,
generally held her own in a quiet sort of way, always
hary setting type. We four all got along very well
meled. However. I do remember that some days
ful agent long and seary because of the monotony of
longer repetitious jobs. e repetitious jobs

In spite of the great demand for printing those ast boom days of the twenties, business generally being brisk, it looked to me that people had to work long and hard to make any decent profit. There was NOVA SCOTIA

construction

(noe of the jobs I had to do, being the passor and printers devil on the staff, was a 1.1 8 channes sow and their One day not long after I wand my sob at the printing plant. I decided to them to floor that apparently hadn't been cleaned to some con-

"I.J" came along and said. "how are parmaking out Vince". I assured him that I thought I was beginning to see the floor. "I.J." I aughed very beartily, he thought the remark pretty good and emable. Sometimes the gasoline engine a piece of machinery would reliase to work and that "Moc" the fix-it man had patiently worked for a origin long the fix-it man had patiently worked for a origin long the fix-it man had patiently worked for a origin longth of time to get it going again, without sents. "Mac" would then stand back and class quie streamounly, then he would immediately start working. See "he would say," all it needed was a bit of chaing. On other occasions when some sadget refused.

then he would immediately start worms. "See" he would say, "all it needed was a bit of classing. On other occasions when some galget refused duty for me and, seemed to be broken "Mac would say," "use a little oil" and sure enough sitten that is all it took. How often since, have I bought of the value of that remark and the actual need of "oil" in many life situations, applied at the right time right place and, in the right way.

Other things that sort of stick in my mensory and other things that sort of stick in my mensory and "Mac" of four teenage boys who in the spring season of 1929 got together just before dark one evening and decided to initiate the newly built outdoor Paes lided awimming pool which had just been filled with a after. Cothes were taken off near the road just east of the pool nobody else seemed to be around except he four boys, no thought or time for bathing suits up to the pool they went. They stood on the edge of the pool and looked at the chilly water, one soon jumped in, the rest quickly followed and across the pool hey awam. "Mac" listened to the story and hardly had anothing, but the next "Digby Courier" had a good shory on the episode. The heading of the story went samething like, "Four Boy Scouts" officially Opeo Pines Hotel Swimming Pool "Who were the four Many years later they are known as the late Dr. Earl H. Anderson, veteran of two wars (second world and Korean), was awarded the Victoria Cross, Sidney L.

like. "Four Boy Scous"

Smith, now prominent druggist for many years in
Digby: Clayton D. Snow, Digby wholesale jobster
king merchant: and myself.

As a young teenager I used to like doing some
writing about different events interesting to myself,
and mostly for myself. One day "Mac" said to me
"how about writing your version of the story told
about "The Marconing of Jerome" I find heard and
read at least two somewhat different stories about the
man who was found marconed on a beach at some
point on the French Shore of St. Mun's Bay, Digby
County, When found this man's tongue had been cut,
out and his legs quite freshly amputated, were
surgically well dressed and bound. He was
presumably left by some vessel before dawn one
morning, all for some mysterious reason.

"Jerome" appeared to have been a man of some
considerable wealth. However the only thing the man
could or would ever say after being hund and cared
for by some family in the French shore
who he was or why he was left the world lerone
and, different ideas have been calerance and
the years concerning this man. However, and the reserved
different about this man. The mystery and
different about this man. The mystery and
different about this man. The mystery and "Mac" was, I felt no urge to wrate different about this man. The a have been very well explored in people, and, he was a sort of a

# Digby 172 Years Ago

January 28, 1867, the neeting account has been sed concerning Digby in

newspapers kindle send to us by friends in a copy of the Saint John Gazette of May, 1802, says the Telegraph and among a says advertisements to larged in the case before us is one discribing the train and township of Digby, and offering for sale certain lots in the township of Digby extends from the Gut of An-apolis anothered to the exextends from the Gut of An-capella sentuard to the ex-tremity of the province of Nova Scotia, and contains about 130,000 acres." The town plot is thus described.

The Trees Plot is streated at the east of the township just within the entrance to An-rapellis liasts, and beenly miles from Annapellis Town, and ex-mittee act on a land from the lessed of St. Mary's day. This laid out from the water's edge, partie on level of that name. It was settled by Loyalists from New York in 1783, the most of whom went early to farms, or, moving to older countries, left the whole

free trade with the U.S.A., especially with the New England States. The question was then debated by some Digby High School students one of which was a J.J.'s' daughter. Florence (now Mes. Melvin O. Tibert, Freeport, Digby Co.) Some days after the debate a man from some part of Nova Scotia came to the printing shop looking for Florence, one of the successful debaters; I had the impression that his man was interested politically but, maybe I was wrong.

Well. I felt that I had learned considerable from my short experience at "The Wallis Job Print" I was learning to do beginner jobs, receiving some learning to do beginner jobs, receiving some learning eabout things like embossing, stapling, perforating, counting, cutting and trimming paper slock, mixing inks for certain desired colors, and so forth, but, the only experience I had at setting type was just enough to make a "pi", the printers name for a confused mess.

a confused meas

There was a taste of trying to sell job printing outside the plant. Work was a little stack one early outside the plant. Work was a little stack one early fall day and se "Mac" said to me, "how about trying fall day and se "Mac" said to me, "how about trying fall day and se 'how about trying fall day and se 'how about trying fall day and se 'how about trying fall tred it. I tred it. I trad a several calls Christmas cards." I tred it. I trad a one particular around town, spect most of the time at one particular bonne (not).

### Credits

This project was made possible with assistance from the Nova Scotia Department of Tourism, Culture and Heritage through its Strategic Development Initiative. This initiative supports projects aimed at enhancing the self-sufficiency of the heritage sector throughout the province.

The Municipality of the District of Digby is the lead organization to spearhead this project. The Digital Courier is part of the municipal initiative to preserve the past and develop the future; Council is honoured to be part of the preservation of these significant historical documents.

### 1800's

- (1810) the first elections were held in the County.
- (1837) the County of Annapolis was divided to include the County of Digby.
- Old Post Road and rural school system improved.
- Weymouth Trading Post established.
- Ship Building is a major industry in the area.
- (1879) the District of Digby was incorporated.
- (1891) the railway (the missing link) between Annapolis and Digby was completed.
- Joshua Slocum sails around the world alone.
- Temperance Movement.
- Summer Tourism Industry develops.
- I.M. Singer invents the sewing machine.
- Canadian Confederation (1867)
- Klondike Gold Rush
- The Supreme Court of Canada is established
- Florence Nightingale takes London nurses to the battlefields of the Crimean War

### Every Two Minutes

Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action becomes irregular the whole body suffers. Poor health follows poor blood; Scott's Emulsion makes the blood pure. One reason why

### **SCOTT'S EMULSION**

is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advanage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just

### Bells

Balls have been employed in association with religious worship since the early days of Egypt. Cymbals and hand helis and small crotals served for the festival of Isia. Aaron and other Jawish high priests wore bels of gold upon their raiment. In camp and gardless the second of their residence of the second property of their melody. Copper and tin, the did composition, is still regarded as the best bell metal. Steel has been rirely but does not make a successful bell. Glass bells are mellow and beautiful in tone, but the material is too fragile. The one metal which is impossible is that which everybody imagines trakes the best bell—silver.

### A Billious Headache

Haddock Marks.

Why do haddocks carry those peculiar black "finger marks" near the head? Some tell us that they are a monaton when he went shall be the head when he went shaling for the tribute money. On the Yorkshire coast of England they say the devil once determined to build a bridge at Filey. P His stancine majesty did not start the bridge for the ouvenience of the people, but for the destruction of ships and salides for the destruction of ships and salides crail. In the progress of his work Old Nick droppets his hammer into the sea. Snatching at it hastlijk, he caught a haddock, and all haddocks carry the imprints of his black fingers to this day.

THE HOW AND WHY OF IT.

"Fruit-a-tives" are the parts of the fruit that do you good. Apples, Oranges, Figs and Prunes are pressed-the juices separated from the tough, woody fibre—and concentrated. Then—(and this is the ted. Then—(and this is the secret of "Fruit-a-tives")—
one more atom of bitter/principle from the orange peels is forced into the concentrated fruit juices. By this process—one of the most remarkable achievements of the age—the juices are made stronger, and many times more active medicinally. Finest tonics and internal antiseptics are added, and the whole evaporated and pressed into tablets. "Fruita-tives" are the greatest tonic, laxative and blood purifying medicine ever discovered.

### 'SAVED MY LIFE"

That's what a prominent druggist said of Scott's Emulsion a short time ago. As a rule we don't use or refer to testimonials in addressing the public, but the above remark and but the above remark and similar expressions are made so often in connection with Scott's Emulsion that they are worthy of occasional note. From infancy to old age Scott's Emulsion offers a reliable Emulsion offers a reliable means of remedying improper and weak development, restoring lost flesh and vitality, and repairing waste. The action of Scott's Emulsion is no composition of the Emulsion itself. What it does the composition of the Emulsion itself. it does through nourishment—the kind of nourishment that cannot be obment that cannot be obtained in ordinary food.
No system is too weak or Emulsion and gather good from it.

Ve will send you a sample from.

The sample from a sample from

### WHAT CAUSES HEADACHES?

### Blood Poisoning, Always!

The blood is poisoned by retained tissue waste, due to defective action of the bowels, kidneys or skin. The tissue waste, or deat cells, circulating in the blood, irritates the ferves and brain, an ehadaches and neurisgin are bound to arise. Headache powders and opiates of any kind do harm, by adding the retention of the blood poison in the system. To circu headaches, purify the blood by opening the bowels, and by stimulating the kildneys and skin to increased action.

### CATARRH The true Cause and the

Catarrh means inflammation.
Ordinary catarrh is inflammation of the nose cavity pening into the throat. This

mation of the nose cavity opening into the throat. This cavity receives all the air going to and from the lings. Food and africk passes through it to the stomach. And the prime cause of catarrh is indigestion. Because indigestion means an irritated stomach. This irritated stomach. This irritation spreads to the throat and nose. Betching gal keeps up the Judgment of the prime and badly nourished. And nine times in ten, there is Constipation and poor skin action.

# Revolution TANIZING Demand for LEATHER exceeds the available

supply, making its manufacture the SAFEST and most PROFITABLE business proposition in the world. & & & & &

CANADIAN ELECTRICAL PROCESS COMPANY, Limited.

HAVE YOU LDLE MONEY?

If so, why not get it busy earning 7% in the Manufacture of Leather? This opportunity is one you cannot afford to miss

VER 3,000 years ago the Egyptians were shoes or sandals made of leather and since that date no successful substitute for this materia has been produced. Inventions of far reaching importance have marked the progress of all industries, but in the tanning of leather the methods and processes in use to day differ the stalightly from those used by the Egyptians, The employment of electricity in the varied in dustries of the world in comparatively recent. Tanning of leather has never before enjoyed the aid of this—wanderful industrial agent and the Canadian Electrical Process Company, Limited, has now demonstrated the immension value of the electrical process.

value of the electrical current in treating and tanning an classes of niess skins and pelus.

This Company has power under its charter to Electrically or otherwise unhair, tan, dys, wash, cleanse, bleach and otherwise treat Animal Fars, Hides Skins, Textile and porus substances.

### Sole and Exclusive Rights.

The company owns and controls all patents covering these new meth in Canada, Newfoundland and British West Indies.

in Assaus, Newtonnuano and British West Indies.

The Canadian Electrical Process Company, incorporated at Halifax, shall be the parent of holding Company and encourage the formation of subsidiary Companies throughout, the Dominion of Canada and Newfound land to operate one or more branches of the business which the parent Company under its patents controls.

### Subsidiary Companies.

Those Companies will be licensed to make sole and upper leather; do wool washing; degresse, unhair and tan seal skins; treat cotton and cotton waste; treat hair; occasion time; ramine; flax and-upe; treat fur; sheepskins and wool pelts; righte sold manufacture vegetable and animal oils; for dyein; shrinking and colour setting; for blesching, and so on; each paying a royalty or bonus- in cash and shares for the exclusive right to operate within a given territory under any one or more of said patented methods, arts or processes.

### Up-to-date Electrical Tannery.

The Company will build equip and operate, a thoroughly up-to-date tar or the manufacture of leather by these processes, the advantages of vill be shown in the course of this statement.

### Process Fully Demonstrated

The Company has had in operation at Halifax for some months, a demonstrating plant to illustrate the various processes, methods and inventions
of uphairing, washing, dyeing, tanning and otherwise treating hides, skins and
plate. A number of eather morthants and prominens Nova Sociab soot and
non-manufacturers, visited this plant and placed private marks upon certain
idles, and noted the hour they were placed in the electric danning vats, for
he purpose of verifying the claims of the Company in the matter of time and

labor saving and the quality of leather produced. Their opinions are submitted in affidavits which may be seen on application.

### There is nothing like Leather,

is an old and true statement. The mercantile records for years back: rarely record a failure in the tanning industry. The demand for leather is slwave increasing:

### Easy to Sell Leather.

Leather being a commodity, the uses of which are many and varied, there will always be a ready market for the output of this Company at a good margin of profit. The not carnings of the plant proposed to be erected will greatly exceed the amount required for the interest on the preference shares. This does not include any estimate of profits from subsidiary companies.

### Economies of Electrical Process.

Any ordinary tanning proposition is a good one today. But this one offered by the Canadian Electrical Process Company, Limited, is rendered particularly, good by the amount of time, labor, space, power and interest larges saved by the electrical taning process, field in mention the superior grade of leather which it produces, thus ensuring higher prices for the out-

### Rapid Results of Process.

the process which the Company uses for unhairing and tanning are dis-inventions under separate patents. By this Company's New Electrical as the Lighter Skins are unhaired in from Three to Four Hours, and the

cavers owns in 160 to 1 verve,

The erdinary method of tahning heavy hides by bark or extract tahnago
assumes from three to six months, and for lighter skins, from three to six
edge, By this Coupany's New Electrical Process the Lighter Skins are
anned in those Four to Six Days, and the Heavier Hides in Twenty-four

days or less.

This is not the Acid or So-called Chromo Process, by means of which Skins are tawed (not tanned) in a mein shorter time than by bart or root extends but to the detriment of the leather. This Company's methods or processes may, however, be used to hasten the Acid or Chromo process if desired.

### Further Sources of Large Earnings.

The Company also feels assured that owing to the great earning powers of this parent Company through its prospective holdings of shares in the Subsidiary Companies that will be formed throughgit the Dominion of Canada and Newfoundland to operate under the various rights of the Company, and through its own operations, which in time are sure to be extended, it will in

the course of a few years be in receipt of greatly increased earnings from these

### Economy of Proposed Location.

The ports of the Maritine Provinces are well situated for receiving hides and other materials required. Hides are received in quantities from South America and are landed cheaply by water freight. Many of these hides are forwarded to Upper Canadian tesange, who will be at a disadvantage on this point along as compared with this Company, for the reason, that hides loss 50 of 40 per can, weight in the taning provings so that the freight from the section of the West is lower aslication that as hides, giving the products of a factory in the Hagitime Province an initial advantage in Western markets over the products of the tanneries operating right on the spot.

### Business men Interested.

From the above facts investors may feel aire that money may be profitably and safety invested in this enterprise; and also be seared by the name of the men who have undertaken its promotion. They have invested in its after having convinced themselves that the process is all that in claimed for its And, having upwen to a thorough test at the demonstrating plant referred to, are able to recommend it to the public with confidence.

### Personnel of Directorate

Personnel of Directorate.

The President of the Company, Mr. John O. O'Mullin, senior member of O'Mullin, Parsons & Gray, Barristers, is a director in important provincial enterprises. Mr. Edward Steirs, Managing Director, of William Stairs, Son & Morrow, Limited, is treasurer of the Company, and is widely known because of his identity with one of the oldest and largest wholesale hardware firms in the Dominion. Mr. Max! Ungar of Ungar's Lunder; is the pioneer in the Steam Laindry industry in the Maritime Provinces, and from small beginnings hab built up a large buistees in St. John and Halfars, with connection in all parts of the provinces. Mr. W. E. Thompson, Barrister, is experienced in matter is relating to joint stock-company. Barrister, is experienced in matter is relating to joint atook-company. Barrister, is experienced in matter is relating to joint atook-company of Chicago, and in a well known inventor, who has bectured on destrical subject before the Massachustetts Institute of Technology, #Farshin Institute of Philadelphia, and Harvard University. Mr. Frank W. Oifford, of Pairfield, Mikine, was one of the owners of the patent rights.

### The Practical Management.

practical imanagement of the enterprise will be entrupted to man. The Company has made arrangements to obtain the sho has given the tanning industry and electricity as applied this Company's patent the closest saidy and who will also be harcholder in the Company, thus ensuring his very best efforts.

# BSOLUTELY NO COMPETI

# This Company Controls All Basic Patents

### ADVANTAGES OF THE ELECTRICAL TANNING PROCESS.

An Array of Pacts Showing Why It Is Superior to and So Much More Rapid Than Existing

Methods, and Therefore A Great Deal More Profitable.

Capital Stock will be to be the baseline, this Company becomes owner.

Under an agreement with the patentee, this Company becomes owner of the patents above referred to, for Canada, Newfoundtand and the British West Indies, for the sum of \$40,000 in cash and 2,500 shares of the common stock of the Company.

### High Constable of Quebec

After Suffering For 10 Years With Pain In The Back He Was Completely Cured By "Fruit-a-tives."

"Fruit-a-tives" cures diseased and irritated kidneys
when all other treatment fails.

The proof that "Fruit--tives" is the greatest kidney cure known to science is demonstrated by these tablets removing all pain in the back-making the kidneys healthy—and curing chronic constipation.

### St. Hyacinthe, P.O., June 10

Empray. Not long ago

Do you know that every drop of blood in your body
goes to the kidneys to get rid of some of the Impurities?

When the bowels don't move regularly, the blood takes
up poisons in the bowels and carries; them to the kidneys.
Then the kidneys get overworked—inflamed Then conses
the pain in the back—headaches—constant desire to
urinate—nervousness—sletplessness

"Fruit-a-tives-acts directly on the Kidneys—desnis,
heals and strengthen's them—makes the liver give up more
blieto move the bowels regularly—and stimulates the glands
of the skin to increased action. These rid the system of all
poisons and every trace of Kidney Disease desaprages.

CLARKE BROTHERS.

### Slaves to Rheumatism

### "Fruit-a-tives"

"Fruit-a-tives" cure Rheu-"Früit-a-tives" cure Rheu-matism and Rheumatic pains by removing the poisons which cause the disease. Rheumatism means poisoned blood. Too-much urea or tissue waste is retained in the blood, owing to defective action of the bowels, kidneys or skin. The retained area becomes uric acid, which inflames nerves and joints and thus rheumatism is produced. Mas 2. B Degram, saut six Marie.

MRS. R. H. DENNIS, Sault Ste. Marie, Ont., writes as follows: "I think Pruit-a-tives' are fine. I am using them for rheumatism, and have not felt it since. I started to take them."

"Fruit-a-tives" cure Rheu-"Fruit-a-tives" cure Rhen-matism by greatly stimulating the action of the liver, kidneys and skin. "Fruit-a-tives" make each of these vital organs do its share of nature's work properly, "Fruit-a-tives" rid the system of excessive urea and urie-acid-and so purify and enrich the blood and build

and enrich the blood and build up the general health, that there can be no rheumatism. "Fruit-a-tives" are fruit juices, concentrated and com-bined by our discovered pro-cess, which makes them much more powerful medicinally. Then tonics and internal anti-septics are added and the whole compressed into tablets.

If your druggist does not have them, don't take substitutes. Sent prepaid on receipt of price—soc. a box or 6 loxes for \$2.50.

# A New Magazine for You

I am bringing out another new magazine that you will come pretty close to liking. I wouldn't be surprised if it hit you harder than anything in the shape of a magazine you have ever seen. There isn't much style to it, but it has the stuff in it that you and everybody else will want to read. It is called

### Something New in Magazine Making

THE SCRAP BOOK is the most elastic thing that ever imprened in the way of magazine—elastic enough to carry anything from a tip whistle to a baffleship. Ever thing that appeals to the human brain and human heric coines within its chimpas—fiction which is the backbone of periodical circulation; biography, review, philosophy, science art, peetry, wit, humor, pathos, satire, the weifed, the mystical—everything that can be classified and everything that cambot be classified and everything that cambot be classified. A paragraph, a fittle bit, a saying an editorial, a joke, a maxim, are pigram.

### Nothing Like It in the World

There isn't anything in the world just like THE SCRAP BOOK. It is an idea which we have been working for several years, and for which we have been gather materials. We have bought hundreds and hundreds of scrap books from all dver country, some of them a century old, and are still hulying them. From these books are gathering and classifying an enormous number of geng, and facts and figures, historical and personal bits that are of rare value. For therefore, we have a corps of ple ransacking libraries, reading all the current publications, the leading daily pap and digging out curious and quaint facts and useful facts and figures from reference be cyclopedia, etc., etc.

dia, etc., etc.

Don't fail to get a copy of this first issue of THE SCRAP

BOOK. It sells at the price at which all our other magazines sell—Ten Cents a Copy and One Dollar by the Year. On all news stands or from the publisher

beautiful white bread-the kind we all like. But white bread is not necessarily pure

because it is white. To be pure it must be made from purified flour. There is only one method of making flour absolutely pure, and that is by elec-tricity. No impurity can withstand the searching, purifying work of this electrical

The electrical method is employed by every big mill in the United States.

In Canada the only flour purified by

electricity is

### Royal Household Flour

therefore it is the only flour that can be considered as absolutely pure.

### Cured her Father's Drunkenness by a Simple Remedy

### Consumption

There is no specific for consumption. Fresh air, exercise, nourishing food and Scott's Emulsion will come pretty near curing it, if there is anything to build on. Milbions of people throughout the world are living; and in good health on one lung.

I From time immemorial the doctors prescribed cod liver oil for consumption. Of course the patient could not take it in its old form, hence it did very little good. They can take

### SCOTT'S **EMULSION**

and tolerate it for a long time. There is no oil, not excepting butter, so easily digested and absorbed by the system as cod liver oil in the form of Scott's Emulsion, and that is the reason it is so helpful in consumption where its use must be continuous.

INDICATION THE ALGORITHM THE ALGORITHM

NEWOCANESS BAD CONFLIXION

Begin treatment by taking one "Fruit-a-tives" tablet three time a day and two at bedtime—for 3 or 4 days.

Take the tablets twenty ministes before meals, and always drink half a tumblerful of cold water (not iced) with each tablet.

Then take two tablets every night for a week—and then one every night for a month. Be careful about the diet—cat regularly—avoid veal, pork, dark meat fowls, and never drink milk with meals.

Bathe frequently—dress warmly—exercise sensibly—take. "Fruit-a-tives" faithfully—and see how much better you are at the end of the month. better you are at the end of the month. At all druggists.

DEATHS

Mabeld, Craig, aged Si years, ST-At Digby, Feb. 5th, to Mr. and Mrs. Bernard Beat, a daughter. The little child duct on the Eth.

BREAD is never better than the flour it is made of.

B than the flour it is made of.
Officin it is not nearly so
good, but that is the fault of
the bread-maker.
Without good flour, good
bread is impossible, no matter
how skilfully it is handled.
Now, good bread must
be good to eat, as well as
good to see or to taste.
Good-to-eat bread is bread
that nourishes.

In the matter of nutriment,

### Royal Household Flour

is supremed. It represents the best that is in the wheat, ground to a snowy whiteness and purified by electricity.

It produces bread that is light, easy to digest and best of all—nutritious. Oglivie's. Royal Household is to be had at all grocers.

The only nourishment that bread affords is that which the flour contains

Bread baking is merely putting flour in appetising form.

Flour making is merely putting the nutritious part of wheat in shape for bread making.

Good milling is the kind that takes from the wheat all that is nutritious, nothing else.

### Royal Household Flour

is made from earefully selected Manitoha Hard spring wheat.

Every pound is almost a pound of food; clean, white; pure and nurrinous.

It goes farther, does better baking and is more satisfactory in every way than any

other flour.
Your grocer knows he cannot keep store so well without Ogilvie's Royal Household.

Ogilvie Flour Mills Co. Limited.

"Ogilvie's Book for a Cook, "contains pages of excellent recipes, somenever be published. Your grocer can' (all you ho get it FREE.

### The Weakness of Old Age

ion. The tan spoke all his great ver in that one word.

"My daughter tells me," the old necessary of the history of the history necessary of the history of the history compility away and the search The eager over any upon his. You love her, he fairly upon his. You love her, he fairly in the history "Cotter than my lifet." "Cotter than my lifet." "I'll Not—not".

"I'll Not—not".
"Yes slowly surply dring."

Jf and asks tor you.

"Ill! Not—not".

"Yes, slowly, surely dying."

There was a long silence. Then, al most blindly, George Lawson stretch ed forth his hand.

"My father," he said, "wronged."

"We will forget that," was the

quick reply
And the outstretched hand was taken in a firm, strong clasp.
"But I.—I would have stolen your child if I could."

### The Red Rose Flavor and Strength

No Ceylon tea nor Indian tea alone can have the "rich fruity flavor" of Red Rose Tea, because neither variety in itself possesses all the qualities of strength, richness delicacy, and fragrance.

Each has its own geculiar qualities, but each has its weaknesses.

By combining the two in the Red Rose proportions, I reduce a free arths.

I produce a tea with the rich fruity flavor and strength of Red Rose Tea, a flavor and strength found in no brand of Ceylon alone.

THE HOW AND WHY OF IT.

"Fruit-a-tives" are the parts of the fruit that do you good.
Apples, Oranges, Figs and
Prunes are pressed—the jufces
separated from the tough, woody fibre—and concentra-ted. Then—(and this is the secret of "Fruit a-tives")— one more atom of bitter principle from the orange peels is forced into the concentrated fruit juices. By this process —one of the most remarkable one of the most remarkable achievements of the age—the juices are made stronger, and many times more active medicinally. Finest tonics and internal antiseptics are added, and the whole evaporated and pressed into tablets. "Fruit actives" as the great trainage of the strong active trainage of the strong active trainage of the strong active trainage. a-tives" are the greatest tonic, laxative and blood purifying medicine ever discovered.
