

1877- 1978

1877-1977

One of the jobs I had to do, besides putting and printers devil on the staff, was to... I cleaned one and then... (one day not long after I started to get to the printing plant, I decided to clean the floor that apparently hadn't been cleaned for some considerable time.)

"J.J." came along and said, "how are you making out Vince?" I assured him that I thought I was beginning to see the floor. "J.J." laughed very heartily. He thought the remark pretty good and said:

Sometimes the gasoline engine stopped a piece of machinery would refuse to work, and the "Man" if fix-it man had patiently worked for a certain length of time to get it going again, without results, Man would then stand back and come over dramatically then he would immediately start working. "See," he would say, "all it needed was a bit of coaxing."

On other occasions when some papers refused duty for me and seemed to be broken, I would say, "use a little oil" and note remark after that all it took. Now often since have I heard of the value of that remark and the actual need of oil in many life situations, applied at the right time, right place and in the right way.

Other things that sort of stick in my memory and come to mind now and then are, like the time I told "Mac" of four teenage boys who in the spring season of 1928 got together just before dark one evening and decided to initiate the newly built outdoor Penn Hotel swimming pool which had just been filled with water. Clothes were taken off near the road just east of the pool; nobody else seemed to be around except the four boys, no thought or time for bathing suits, so in the pool they went. They stood on the edge of the pool and looked at the chilly water, one soon jumped in. The rest quickly followed and across the pool the swim-

"Mac" listened to the story and hardly said anything, but the next "Digby Courier" had a good story on the episode. The heading of the story went something like, "Four Boy Scouts Officially Open Pines Hotel Swimming Pool." Who were the boys? Many years later they are known as: the late Dr. Earl H. Kierman, veteran of two wars, second world and Korean, was awarded the Victoria Cross; Sidney L. Smith, now prominent druggist for many years in Digby; Clayton D. Snow, Digby wholesale importer and myself.

As a young teenager I used to like doing some writing about different events interesting to myself and mostly for myself. One day I was asked to contribute about writing your version of the story told about "The Marooning of Jerome" at St. Mary's and read at least two somewhat different versions of the man who was found marooned on a beach at some point on the French Shore of St. Mary's Bay, Duffy County. When I read this man's name I had been cut out and his legs quite freshly amputated, were surgically well dressed and bound. He was presumably left by some vessel before dawn one morning, all for some mysterious reason.

"Jimmie" appeared to have been a man of some considerable social standing and, possibly, of some considerable wealth. However the subject of the man could or would ever say after being found and cured for by some family in the French Alps. He said something that sounded like the name of a town, but neither would not, or would not, or would not, or who he was or why he was left there. He was, and is, one of Digby County, New Brunswick, and different ideas have been put forward about the man's whereabouts this time. However, "Mae" was, I felt so sure, was a different man. The man who had been found and cured was not the same man who had been found and cured.

1967.

Having a number of old newspapers handy and to be found is a copy of the *Grand John Gazette* of May, 1922, says the Trillium and among other advertisements contained in the issue before us is one for selling the town and township of Dupuy, and offering for sale certain lots in the town. In this area we are told, the township of Dupuy "mirrored from the feet of Annapolis upward to the extremity of the province of Nova Scotia, and contains about 120,000 acres." The town plot is shown above.

The Town Plot is situated at the east of the township just within the entrance to Annapolis Bay, and twenty miles from Annapolis Town, and six miles S.W. of 14-5° from the head of H. Mary's Bay. This laid out from the water's edge, partly on level ground, and partly on the declivity of a modern hill, dry and pleasant, and having with an eastern aspect, a view of the Annapolis Bay, and its cultivated shores for twenty miles in extent. It terminates with the Fort and River's mouth at that name. It was secured by Loyalists from New York in 1782, the most of whom went early to Britain, or, moving to other countries, left the whole

free trade with the U.S.A., especially with the New England States. The question was then debated in some Digby High School students one of which was Miss Digby's daughter, Florence (now Mrs. Moberg of the Thet. Proctor, Digby Co.). Some days after the debate a man from some part of Nova Scotia came to the printing shop looking for Florence, one of the successful debaters. I had the impression that this man was interested politically but, maybe I was wrong.

Well, I felt that I had learned considerable from my short experience at "The Wallis Job Print." I was learning to do beginner jobs: receiving some knowledge about things like embossing, stapling, perforating, counting, cutting and crumpling paper stock, mixing inks for certain desired values, and so forth. But, the only experience I had at setting type was just enough to make a "top," the printer's name for a finished line.

There was a taste of trying to sell plants outside the plant. Work was a little slack one early fall day and so "Mac" said to me, "how about trying your hand at taking orders for pre-cut personalized Christmas cards?" I tried to make several calls over the next few days, but I was not very successful. I was not used to making sales calls and I was not used to making sales calls.

DIGBY COUNTY NEWS

Supplement to THE DIGBY WEEKLY COURIER

DIGBY, FRIDAY, OCTOBER 6, 1911

Notes From Hillcote Farm.

ANOTHER BUDGET OF NEWS FROM SANDY COVE'S POPULAR SUMMER RESORT.

During the past week the gracious hostess of Hillcote Farm, having learned of the approaching birthday of one of the guests, immediately set about planning a surprise for the occasion, which was successfully carried out with the willing assistance of the other guests. At the appointed hour the guest of honor was approached by Mr. Eldridge, who asked for the pleasure of escorting her to the dining room, where to her astonishment a transformation had taken place since noon. A birthday cake with its candles and filled with silver coins rested on a bed of spruce in the center of the table which was a symphony in yellow and green. The color scheme was ably carried out in food, decorations and favors, even the men were in harmony by wearing khaki trousers. Joy and happiness reigned at the festivities and that evening will ever be a bright jewel in the caset of memory to the happy surprised one.

It was with regret that good-bye was said to Miss Smith and Miss Hughson who departed on Monday. They had added much to the pleasure of the Hillcote Farm family.

On Tuesday morning two more of the family left Sandy Cove for pastures new, it being the intention of Miss McIntosh and Miss Laskey to visit other points of interest in Nova Scotia before returning home. Wednesday found the fishermen of the family again in their element under the guidance of Mr. Eldridge. A few large cod were caught but the pollock tantalized the fishermen by jumping all around within a few feet of the boat, refusing to be caught, but, nothing daunted, plans were made to rise 5:30 the following morning for high tide fishing. Haddock and pollock were the rewards for the brave early risers. The stay at homes were equally well rewarded by having baked haddock served for dinner, prepared by the skillful hands of Mrs. Eldridge. After a stay of three months Miss Hogan, of Lowell, Mass. took her departure on Thursday morning much to the regret of her friends as well as to herself. The longer one is fortunate enough to stay in Sandy Cove the harder is the leave taking. The rocks and rills, the hills and vales are so alluring and call upon one to come and stay. Fortunately is he who has cast his lot on the rock bound coast of Nova Scotia where nature in all its varied moods can be enjoyed to the fullest.

Thursday, Sept. 21st, dawned bright and clear. It was election day, and the guests from Hillcote Farm were upon the scene early, before any votes had been cast. Much interest was manifested, the judge and his assistant kindly explaining methods and allowing one of the visitors to keep a specimen ballot for his scrap book. One of the points of the law was brought to our notice by one of the magistrates because, in our enthusiasm we had walked into the village with a flying flag, which is not permissible in any part of the Dominion on election day. How dampening to our spirits, nevertheless it was all in the chapter of experiences and we were glad we transgressed for the lesson learned.

On the evening after election we again walked down to the village hoping to see nearly every house illuminated, which, we, the visitors and strangers had been told would be worth

seeing. Much to our disappointment the party with few adherents in Sandy Cove had been victorious. So keen was our disappointment when only a few houses celebrated by placing candles before each pane of glass in every window in the house, making them appear from a distance like huge Christmas trees all aglow. What a sane and sensible way of expressing joy over a victory won. Had all the village celebrated it would have been a sight worth walking some distance to see.

The days are passing too rapidly, but such a lot of pleasure we do crowd into each one, building rustic seats in favorite nooks, making pinoche and good things, climbing to David's Mount, hunting with the camera and other like pleasures, filling in the time between fishing trips.

We were delighted to renew the acquaintance of Courtney Brown who accompanied the fishermen on one of their trips.

Hillcote is to enjoy the genial presence of Mr. Wilfred Bradbury, a student of Kings College, for another week. His ever present smile cheers us all along the way. May his shadow never grow less. Miss Hitchings, who has been here since June 1st, plans to stay throughout September. Needless to say what charms Sandy Cove has for her.

Mr. and Mrs. Witting will probably remain until the last of the month.

Mrs. Eldridge is expecting new arrivals for October. The season at Hillcote has been very successful. Forty-three (43) guests have been entertained.

But soon, only too soon all of us will be homeward bound, filled with happy memories of days gone by and all hopes realized; but, with determination to come again and live over every one of them.

Wild Storm in the Bay

As stated in our shipping column the dredge, New Brunswick and three scows sailed from Digby for St. John at 7:30 Wednesday morning in tow of tug, A. R. Capt. Knudsen, and Daniel, Capt. Fred S. Robinson. The glass was low and the weather threatening, although there was no wind when the dredge started, and had not been for several hours.

When a short distance out of Digby Gut, the tug tug, George L. Capt. Allan, bound to St. John for repairs, appeared in sight and was called to assist in the tow.

Shortly after twelve o'clock, a storm had attained great violence and with the waters pouring over the docks, the position of the men on the dredge became more perilous each minute. Finally seeing that to maintain longer aboard was an impossibility, a blast was sounded by the whistle of the dredge, and in accordance with signal the men jumped between the captains of the craft, the captain of the tug, George L. drew up to the dredge and after encountering some difficulty in approaching, took the men off. That the action was timely became evident later for as the storm increased, the men on the dredge, side during the rest of the tow became an impossibility.

A half hour later the three scows, trailing in the wake of the dredge, snapped their hawsers and drifted away from the tow and out of reach. From then until three o'clock the tug to remain a hold on the dredge was a hard one, and as the storm continued unabated the dredge strained at the tow lines while the wind and waves tossed her about. The tug, however, made frantic efforts to wrench her away from the grip of the tug.

At 3 o'clock when almost three miles off Cape Sprole, one of the dredge's no longer able to beat the strain, broke with a whizzing sound and the work of keeping the dredge afloat devolved on the tug remaining in tow. Only a few moments later this too snapped and with a heave the New Brunswick swept away and became the prey of the wind and the waves.

With the seas running high and the wind at its height, to get in close enough to attach another line was an impossible task, and the tug had to stand on the dredge and make for St. John.

The Daniel arrived in port first, bringing the news of the accident. The tug, George L., carrying the dredge crew of the New Brunswick, decked about half past five. The New Brunswick was a light dip dredge, built at Fredericton for work on the St. John river. She was remodeled two years ago, and did very effective work since that time. She is the property of the Dominion government, and is worth about \$25,000. She had been doing some work in the Bay of Fundy for several days. She was having favorable weather to make the start to St. John.

Yesterday morning the dredge was ashore on the New Brunswick wharf and when sighted by the Captain and officers of the S. S. P. R. (Rupert), a tug was standing by to tow the dredge a chance to get a line to the wreck.

B., be authorized to offer to the lowest bidder a new air furnace with hot and cold water fixtures, complete and ready for the fire, for the sum of six hundred dollars (\$600.00) provided that he guarantees that the work will be done to the satisfaction of the School Board and that the furnace will be installed within six days of the date of the contract, and that the furnace will be placed on trial for four months from Nov. 1st, 1911. On the completion of which time, if it gives satisfaction to the School Board, payment shall then be made.

The Latest War News
The latest despatches from Rome state that the Italian battleships, bombarded Tripoli at 3 o'clock Tuesday afternoon. They steamed up to within five miles of the city and shelled the fortifications and the governor's palace, reducing them to ruins. The Turks removed their guns to the heights beyond the city, but were driven by a shell from the Italian fleet and compelled to flee in all directions. It is reported that the fire from the Turks was absolutely harmless, none of their shots reaching the ships.

Saw Mill Burned
Blackadar's steam saw mill, situated on the Weymouth river near Gate's bridge and about two miles from Weymouth Bridge, was destroyed by fire Wednesday night. The flames bursting out at 8:30. Awful Disaster in Pennsylvania

Twenty-four known dead and eighty-six missing is latest summary.
AUSTIN, Pa., Oct. 2.—Twenty four known dead, 86 missing and believed to be buried beneath the debris, is the official census tonight of Austin's loss of life in the St. Lawrence. It is conceded, however, that several, if not indeed many, visitors and strangers were in town that day and undoubtedly perished. Including them and allowing for inevitable errors in compilation, the total of dead will probably reach 150.

The dam of the Bayless Pulp and Paper Company burst one mile and a half north of Austin Saturday afternoon, and 500,000 gallons of water rushed upon the town. Exploding natural gas mains fired the wreckage. The dam was 330 feet long, 40 feet high and 22 feet thick at the base. For the first time since its construction, two years ago, the water was running over the top Saturday and many persons went out from Austin, a mile and a half away, to see the unusual sight. They were horrified when a section about twenty feet wide gave away on the west side. A great volume of water poured through the hole and the dam was quickly sounded. People ran for their lives to the hills nearby, but some were caught in the flood and whirled down the valley. At the moment another break occurred, this time on the east side. It was much greater and poured the bulk of the mass of water behind it to rush in a mighty volume towards the lowlands.

Harry Davis, a locomotive engineer for the Pennsylvania, reached a telephone and notified the town of the exchange. She called as many persons as possible, but the time was short. The flood came without the slightest warning. The people of the street of Austin were overwhelmed quicker than it takes to tell of it. The rushing waters filled the valley from side to side. The fury of the flood was terrific. Houses were torn to pieces and carried away on the crest of the waves. Wreckage was hurled high into the air and the water was built of logs. It was located between two hills above the town, in such a position the rushing waters could not but sweep over practically the entire community. Some of the houses on the hillside escaped serious damage. The central part of the town, however, was literally wiped out. The need for help is most urgent.

The dam was located on the Sinnamoning creek. The water caught a number of freight cars near the station and they were carried down the valley with the wreckage of the railroad buildings. The hotels in the town were destroyed, and as they were located directly in the path of the torrent, no one is thought to have escaped from them. The five or six churches in the town are all gone, the only public institutions left standing being the hospital and the school house. They were above the flood line.

The flood passed quickly, leaving devastation in its wake. Houses had been crushed and tossed about like tops, while the bodies of men and women were carried down to the crest of the surging torrent. Before the water had passed on its terrible course through the town, a dozen fires were burning in its many places, and the cries of injured and imprisoned persons joined in the terrific thunder of the flood.

Twenty-five cities reached Austin today and one hundred more ordered by wire are expected tomorrow. Burial for the dead is being as rapidly as identification proceeds. Out going trains carried several bodies to nearby towns today, but most of the victims will be laid away in Austin's burial ground, which was untouched by the flood.

Relief workers today found one woman with five small children whose clothing was worth less than two garments. Three men carried suitcases of garments to the house, where little ones were cared for.

Metropolitan Life Insurance Men in St. John.
One of the pleasantest affairs in the history of life insurance men occurred in St. John this week when a large number of the officers and agents of the Metropolitan Life met there for the mutual benefit of all concerned. They were elaborately entertained by the city officials, banqueted, driven around the city, etc. Among the company's representatives present from Nova Scotia were H. G. Smith, Sept., at Yarmouth; S. H. Simms and Howard Macdonald, Yarmouth, and Dennis Lyons, Barrington. Mr. Simms, who has been very successful since he entered the life insurance business, is a son of Capt. A. J. Simms, the popular commander of the S. S. Boston.

\$3,600
in Cash Prizes for Farmers
Your Photograph May Win a Prize

AMONG the prizes we are offering in our big Photo Contest is one of \$3,600 (Prize "C") for the farmer in each Province who furnishes us with a photograph showing the best of any particular kind of work done on his farm during 1911 with "CANADA" Cement. For this prize, proof of every description is included.
Now just as soon as you finish that new silo, feed house or dairy, that you're busy thinking of building, why not photograph it and send the picture to us? The photograph doesn't necessarily have to be taken by a professional or an expert. In fact, your son or your daughter's camera will do nicely. Or, failing this, you might use the kodak of your neighbor's son nearby. In any event, don't let the idea of having a photograph made deter you from entering the competition. Particularly as we have requested your local dealer to help in cases where it is not convenient for the farmer to procure a camera in the neighborhood. By this means you are placed on an equal footing with every other contestant. Get the idea, and he'll give you one if you just ask for it. Or if you prefer, you can use the attached coupon—or a postcard will do—send it to us and you'll receive the complete details of the contest by return mail.

If you haven't received your copy of "What the Farmer Can Do With Concrete," write for that, too. It's a finely illustrated book of 160 pages full of useful and practical information of the uses of concrete.
Write us to-night, and you'll receive the book and the circular promptly.
Do not delay—get right down—take your pen or pencil, and fill out the coupon NOW.

There is a firm opening at this port for a saw and pump mill. There are some men and capital here who, with some outside assistance, would enter into a business of that nature. Who has a portable saw mill idle?

The fishing industry is not very flourishing at this time on account of very rough weather and the presence of dogfish in abundance. It is now hoped as the fishermen have been denied the whole market for their products, that something will be done by the new government in the way of handling and disposing of the dogfish at a profit.

East Ferry.

Sorry to report Miss Gladys Harris on the sick list.

Mr. Omer Gidney has remodelled the ell on his house and is laying 500 ft. of pipe to convey spring water to be used in bathroom and for all general purposes. This is a move in the right direction, and if more would do this there would be less fever from drinking out of wells situated near barns and outbuildings and less backache among women from carrying pails of water several hundred feet.

The breakwater at Little River is now finished. Mink Cove parties shipped and landed the first freight, E. A. Gidney shipped 20 bags, hake sounds and Omer Gidney landed over 1 thousand feet lumber and sheathing there last Saturday, which shows how much one is needed at this place. Every week there is freight to be shipped and landed here and it has either to be boated off the shore or hauled two miles to Little River.

Mr. Herado Gidney moved in his new house on Thursday last. The site of this pretty cottage on a bluff overlooking the cove, gives its occupants a fine view of St. Mary's Bay and the opposite shore from Weymouth to Cape St. Mary's. It contains ten rooms all neatly finished and reflects much credit on the builder, Mr. Herbert Forest. This is the first new house built in Mink Cove in thirty years. There seems to be no inducement for the young men to stay at home.

Lower Hamilton, P. E. I. March 17, '11

DEAR SIR:—The six horsepower engine that I got from you in Sept. 1908 has given perfect satisfaction, always ready to go in all kinds of weather. Just at ready to start with the thermometer 10 below zero as she is in the middle of summer. I have done as much work with her now, as an ordinary farmer would do during his lifetime, and still she runs as well as when I got her, the only expense being one coat of spring oiling. I had to buy one tomorrow I would buy a Woodstock in preference to any other kind that I have seen working.

Yours truly, HOWARD RAMSAY.

Quite True

Don't hate the man who skins you. With more than passing vim; Somewhere, somehow, surely Is busy skinning him.

And while we're on the subject, Consider this much too: You're probably skinning someone. While someone else skins you.

A Modern Child.

A proud father, in the presence of a visitor, asked his 4-year old boy: "How old are you?" "I am 4 years old and you know it," the lad replied. "Now for the Lord's sake don't ask me that again."

Helpful Hints on Hair Health.

SCALP AND HAIR TROUBLES GENERALLY CAUSED BY CARELESSNESS.

Dandruff is a contagious disease caused by a microbe which also produces baldness. Never use a comb or brush belonging to some one else. No matter how cleanly the owner may be, these articles may be infected with the microbes which will infect your scalp. It is far easier to catch hair microbes than it is to get rid of them, and a single stroke of an infected comb or brush may well lead to baldness. Never try on anybody else's hat. Many a hat-baud is a resting place for microbes.

If you happen to be troubled with dandruff, itching scalp, falling hair or baldness, we have a remedy which we believe will completely relieve these troubles. We are so sure of this that we offer it to you with the understanding that if it does not produce the results we claim, this remedy is called Rexall "93" Hair Tonic. We honestly believe it to be the most scientific remedy for scalp and hair troubles, and we know of nothing else that equals it for effectiveness, because of the results it has produced in thousands of cases.

Rexall "93" Hair Tonic is devised to banish dandruff, restore natural color when its loss has been brought about by disease, and make the hair naturally soft and glossy. It does this because it stimulates the hair follicles, destroys the germ matter, and brings about a free, healthy circulation of blood, which nourishes the hair roots, causing them to tighten and grow new hair. We want everybody who has any trouble with hair or scalp to know that we think that Rexall "93" Hair Tonic is the best hair tonic and restorative in existence, and no one should scoff at or doubt this statement until they have put our claims to a fair test, with the understanding that they pay us nothing for the remedy if it does not give full and complete satisfaction in every particular. Two sizes, 50 cents and \$1.00. Remember, you can obtain Rexall Remedies in Digby County only at our stores—The Rexall Stores, 127 W. Holdsworth, Digby; Ryan & Blackadar, Weymouth.

No Reason For Doubt.

A STATEMENT OF FACTS BACKED BY A STRONG GUARANTEE.

We guarantee complete relief to all sufferers from constipation, or, in every case where we fail, we will supply the medicine free.

Rexall Orderlies are a gentle, effective, dependable, and safe bowel regulator, strengthener, and tonic. They aim to reestablish nature's functions in a quiet, easy way. They do not cause inconvenience, griping, or nausea. They are so pleasant to take and work so easily that they may be taken by any one at any time. They thoroughly tone up the whole system to healthy activity.

Rexall Orderlies are unsurpassable and ideal for the use of children, old folks, and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. Three sizes, 10c, 25c, and 50c. Remember, you can obtain Rexall Remedies in this community only at our stores—The Rexall Stores, P. W. Holdsworth, Digby; Ryan & Blackadar, Weymouth.

An English Chemist Has Discovered How to Grow Hair.

In England the ladies have entirely abandoned wearing hats, which is due entirely to this new discovery.

It has been proven that Henna leaves contain the ingredients that will positively grow hair. That they contain this long looked for article is proven every day.

The Americans are now placing on the market a preparation containing the extract from Henna leaves, which is having a phenomenal sale.

This preparation is called SALVIA, and is being sold with a guarantee to cure Dandruff and to grow hair in abundance. Being daintily perfumed, SALVIA makes a most pleasant hair dressing. H. E. Jones, your druggist, is the first to import this preparation into Digby and a large generous bottle can be purchased for 50c.

DIGBY WEEKLY COURIER

Digby, Oct. 20, 1911.

Sad Death of Mrs. Cutler Snow.

SANDY COVE LADY PASSES AWAY WHILE ABSENT FROM HOME.

The death occurred at East Public on the evening of Oct. 12th of Helen, beloved wife of Capt. Cutler Snow, of Sandy Cove, aged 47 years. On Sept. 25th Mrs. Snow left home for Bridgewater, accompanied by her husband, who was going to visit her sister, the Albert D. Mills, then residing at that place. On Oct. 7th she left Bridgewater for East Public, to visit her sister, Mrs. W. J. Stuart, here returning home. Upon her arrival she complained of feeling ill and medical aid was called. She was considered better but on Thursday suffered a relapse and passed peacefully away that evening. She is survived by her husband, who sailed from Bridgewater for Cuba, on Oct. 18th, and who will not hear the sad news until he arrives a month or so later, two sons, Gordon, chief engineer of tug George L. and Percy, in Beverly, Mass., and two daughters, Lennie, teacher of the primary department of the Sandy Cove school, and Stella, who is at present in very poor health. The deceased also leaves one sister, Mrs. W. J. Stuart, of East Public, and one brother, Mr. John Merritt, of Mink Cove, beside a large circle of relatives and friends, who will mourn the loss of one so respected and beloved. The funeral will be held at 2 o'clock on Saturday at the residence of Mr. H. T. Warner, who has been forwarded to Sandy Cove via Weymouth on Saturday. The funeral was held on Sunday afternoon, Rev. Mr. Irvine, of Centerville, conducting the services. Interment took place in the Sandy Cove Baptist cemetery. Much sympathy is extended to the bereaved ones.

Wedding in Boston.

A very pretty home wedding took place October 14th, in Weymouth, Mass., at the home of Mr. and Mrs. H. T. Warner, when the daughter of Mr. H. T. Warner, Miss Florence E. Tins, daughter of Mr. and Mrs. Howard Tins, of Westport, Digby county, became the bride of Mr. Warren D. McLaren, of East Boston. About two hundred invitations were sent out to friends of the young people. The ceremony was performed by the Rev. C. W. Henry, rector of St. John's Episcopal Church, and about one hundred and fifty people attended the wedding. The bride wore a handsome gown of white satin with pearl trimmings, and carried a shawl bouquet of bridal roses and lilies of the valley. Her maid of honor, Miss E. E. Tins, also of Westport, was gown in pink silk and carried a bouquet of pink Killarney roses and the charming little flower girl, Thelma I. Flores, was also gown in pink and carried a basket of Killarney roses. The best man was Stewart McLaren, brother of the groom. The ushers were Walter Welsh and Arthur Gracie. The house was handsomely decorated with palms, laurel, under which the ceremony was performed. The bride was given in marriage by her brother-in-law, Mr. Joseph A. Flores. After the ceremony a reception was tendered to the bride and groom, the refreshments being served by C. H. Atkinson, a well known caterer of Boston, and the bride and groom, the refreshments being served by C. H. Atkinson, a well known caterer of Boston, and the bride and groom, the refreshments being served by C. H. Atkinson, a well known caterer of Boston.

Death of Miss Charlotte Budd.

There passed away at the home of Mr. and Mrs. T. C. Shreve, Digby, on the 15th inst., Miss Charlotte Wallace Budd, who will be kindly remembered by many of the older residents of Digby. Miss Budd was a daughter of the late Edward J. Budd and had reached the advanced age of nearly eighty-four years, having survived all the other members of her immediate family. She was born in St. John on March 28th, 1828, and for many years resided here and was well known to many of the older residents of Digby. She was the wife of the late Rev. E. E. Nichols, D. D. The last few years of her life were spent in St. John, where she had a wide circle of friends and to whom she greatly endeared herself by her loving disposition. Her last illness was cheered by many attendants from those nearest to her and of her warm personal friends.

The funeral took place on Tuesday afternoon from the residence of her niece, Mrs. T. C. Shreve, Digby, service being held at Holy Trinity church by the Rev. W. Driffield, and the interment being at Forest Hill cemetery.

Death of Mrs. Sweeney.

The Yarmouth Herald says: Mrs. Louis A. Sweeney, wife of Mr. Jacob Sweeney, the well known undertaker, passed away at her home at Milton during Sunday night. She had been afflicted for years with an incurable disease and her sufferings at times were most excruciating, but she bore with complete resignation and with a happy and hopeful disposition. She was the eldest daughter of Mr. Joseph F. Patten, who was born on the 11th December, 1840, and was thus nearly 65 years of age. She was married to Mr. Sweeney on the 1st June, 1883, and leaves five sons and one daughter, viz: Charles C., Carlisle, Fred, E. E. Frederick, Kenneth and Miss Roberta. Mrs. Sweeney was a devoted wife and mother and her death, although unexpected, was not unexpected by all who had the pleasure of her acquaintance. The sympathy of the entire community goes out to the bereaved family. The funeral took place on Wednesday from Wesley church at 2 p. m.

Wedding Bells at Little River.

Our Little River correspondent writes: A pretty wedding took place at the home of Mr. and Mrs. Wilbert Denton, Little River, Tuesday evening, October 10th, when the daughter of Mr. and Mrs. Stella Blanche was united in marriage to George Reginald Trask. Rev. C. H. Martell performed the ceremony, in the presence of one hundred invited guests. At eight o'clock the bridal party entered the parlor to the strains of Lohengrin's bridal chorus, which was rendered by Miss Doreen Cheney. Annexation of Bahamas to Canada.

OTTAWA, Oct. 18.—That the annexation of the Bahamas to the Dominion would result in appreciable benefits to both countries was the gist of an interesting speech made by Hon. Sir W. Wilson, K. C. M. G., Governor of the Bahamas, who arrived in the city today and saw Premier Borden, presumably in regard to the annexation problem.

"I am not in a position to state the exact progress of the negotiations in this connection," said Sir W. Wilson, "but I undoubtedly think that great benefits would accrue to both countries in the event of the agreement being ratified. Our House of Assembly authorized the Government to seek annexation, and its resolution to that effect was adopted by a large majority. The Canadian Government has agreed to consider the matter, and I am sure that the annexation of the Bahamas to Canada would be a great advantage to both countries. The big problem before us now in regard to trade is that the United States is in a position to prohibit the importation of goods from the Bahamas, and this is a great disadvantage to both countries. A well informed revolutionary sympathizer told the Canadian Press today that the rebels probably would leave the capture of Peking and Shanghai to the last because of the danger of foreign complications. He said the utmost confidence seems to prevail among the rebels. It is stated that they have been two years in perfecting their organization and now have members in all the government offices.

His Royal Highness, the Duke of Connaught, Canada's new Governor General

The Census Returns.

OTTAWA, Oct. 17.—The population of Canada on June 1st last was slightly in excess of 7,100,000, an increase of 1,790,000 in round numbers, or 22 per cent, during the decade. The first official census bulletin of the Chief Census Commissioner, Mr. Archibald Blair, was handed over tonight by the Minister of Agriculture, Hon. Martin Burrell. The chief feature of the figures is, of course, the disappointing small total as compared with the general expectation, even in official quarters, that the returns would show a population of approximately eight millions.

Ministerial Bye-Elections Nov 3

OTTAWA, Oct. 16.—The Duke of Connaught paid his first visit to his new office in the east block of the parliament buildings today and administered the oath of office to Hon. Martin Burrell, minister of agriculture. Mr. Burrell just got up this morning from British Columbia.

The new governor general also signed a number of orders in council, among them one changing the ministerial bye-elections from Nov. 1 to Nov. 3. Another provides by governor general's warrant, money for the civil service, which was without funds owing to the exhaustion of supply which the late parliament passed.

Most of the cabinet ministers leave this week for their constituencies to prepare for the bye elections.

New Governor General Arrives.

GIVEN A GREAT RECEPTION AFTER LANDING AT QUEBEC.

QUEBEC, Oct. 13.—The Duke and Duchess of Connaught, who are to preside over Rideau Hall at Ottawa as representatives of King George for the next few years, arrived at Quebec last evening and landed this morning.

They were accorded just such a reception as might be expected, from local Canadians to members of the royal household. The streets were gaily decorated for the occasion and everywhere was manifested the liveliest interest in the reception to the new Governor General.

His Excellency was received by the Deputy Governor General, the members of the Dominion cabinet, the inspector general of militia, the director of naval service, the Lieutenant Governor of the province of Quebec, the Prime Minister of the province and the members of the provincial cabinet. As he stepped from the boat the band broke into the National Anthem and cheers were given by the thousands who had assembled to do honor to the representatives of Great Britain's ruler. A salute of 21 guns was given.

His Royal Highness was escorted to the carriages which were to convey him and his party to the Parliament building. The actual ceremonies of installation took place in the legislative council room and were impressive.

Parliament to Meet Nov. 15th

Gave up work—Could not shave—Relief and cure obtained from DR. CHASE'S OINTMENT.

"I had eczema nearly all over the body," writes Mr. John Gordon Campbell, foreman Holland Grove Lumber Co., Sudbury, Ont., "head, neck and wrists were blistered and itching with it. I could find absolute relief until I obtained Dr. Chase's Ointment. After using this ointment I was almost instantly relieved and soon completely cured." "So bad was the eczema that I had to give up work. Could not shave. I was so bad that they had to take me out of camp in a wagon and send for a new foreman. I cannot recommend Dr. Chase's Ointment too highly." "As a means of soothing raw, flaming, irritated skin no treatment can be compared to Dr. Chase's Ointment. It often heals in a single night. You can see for yourself each day the good it is doing. Sample box free. 10 cts. a box, at all dealers or Edmonson, Bates & Co., Toronto.

THE L. M. TRASK CO., Lower Hamilton, P. E. I. March 17, '11

DEAR SIR:—The six horsepower engine that I got from you in Sept. 1908 has given perfect satisfaction. Always ready to start in all kinds of weather. Just as ready to start with the thermometer below zero as it is in the middle of summer. I have done as much work with her now as any ordinary farmer would do during the lifetime of the engine. It runs today as well as when I got her. The only expense being one contact spring costing 40c. If I had to buy one tomorrow I would buy a Woodpecker in preference to any other kind that I have seen working.

Earthquake in West Indies.

A severe shock of earthquake visited the West Indies islands on Friday morning about 6 o'clock. At Port-au-Prince the inhabitants were much alarmed, many fleeing from their homes.

Turks Island was shaken. But no damage ensued. At Cape Haytien the shocks were heavy and several houses were damaged. The quake was probably worse in Ecuador, but no reports have been received. The tremor plus throughout the States indicated the quakes as "very heavy and destructive."

He Had No Horns. Either.

"How did you lose your husband?" asked the stranger of the woman up north.

"We were out in the woods together," said she, sadly, "and I called him 'dear' and before he could answer me some city fellow shot him by mistake."

A Valuable Souvenir

Mr. Charles Johnson, of Port Wade, has the editor's thanks for a cigar case which was among the souvenirs saved from the Lynn fire in 1880.

Confidence.

WE BACK UP OUR STATEMENTS WITH OUR PERSONAL REPUTATION AND MONEY.

We are so positive that we can relieve constipation, no matter how chronic it may be, that we offer to furnish the medicine free of all cost if we fail.

We think that it is worse than useless to attempt to cure constipation with cathartic drugs. Cathartics may do much harm. They may cause a reaction, irritate and weaken the bowels, and make constipation more chronic.

Constipation is often accompanied and may be caused by weakness of the nerves and muscles of the large intestine or colon. To expect a cure you must therefore tone up and strengthen those parts and restore them to healthier activity.

The discovery of the active principle of our remedy involved the labor of skillful research chemists. This remedy produces results such as are expected from the best of the best-known intestinal tonics, and it is particularly prompt in its results.

We want you to try Rexall Remedies on our guarantee. They are exceedingly pleasant to take and are ideal for children. They apparently act directly on the nerves and muscles of the bowels, having, it would seem, a neutral action on other organs or glands. They do not purge or cause inconvenience. If they do not positively cure chronic or habitual constipation and thus relieve the myriads of associate or dependent chronic ailments, your money will be refunded. Try Rexall Remedies at our risk. Three sizes of packages, 10c, 25c., and 50c. Remember, you can obtain Rexall Remedies in this community only at our stores—The Rexall Stores, P. W. Holdsworth, Digby; Ryan & Blackadar, Weymouth.

A Liberal Offer.

WE GUARANTEE NO RELIEVE DYSPEPSIA. IF WE FAIL THE MEDICINE COSTS NOTHING.

To unquestionably prove to the people that indigestion and dyspepsia can be permanently relieved and that Rexall Dyspepsia Tablets will bring about this result, we will furnish the medicine absolutely free if it fails to give satisfaction to any one using it.

The remarkable success of Rexall Dyspepsia Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their manufacture, whereby the well-known properties of Bismuth Subnitrate and Pepsin have been combined with Carminatives and other agents.

Bismuth Subnitrate and Pepsin are constantly employed and recognized by the entire medical profession as invaluable in the treatment of indigestion and dyspepsia.

The Pepsin used in Rexall Dyspepsia Tablets is carefully prepared so as to develop its greatest efficiency. Pepsin supplies to the digestive apparatus one of the most important elements of the digestive fluid.

Without it the digestion and assimilation of food are impossible.

The Carminatives possess properties which aid in relieving the disturbances and pain caused by undigested food. This combination of these ingredients makes a remedy invaluable for the complete relief of indigestion and dyspepsia.

We are so certain of this that we urge you to try Rexall Dyspepsia Tablets on our own personal guarantee. Three sizes, 25 cents, 50 cents, and \$1.00. Remember, you can obtain the Rexall Remedies at our store—The Rexall Stores, P. W. Holdsworth, Digby; Ryan & Blackadar, Weymouth.

Makes Hair Grow.

H. E. Jones has an invigorator that will grow hair or money back.

The time to take care of your hair is when you have hair to take care of.

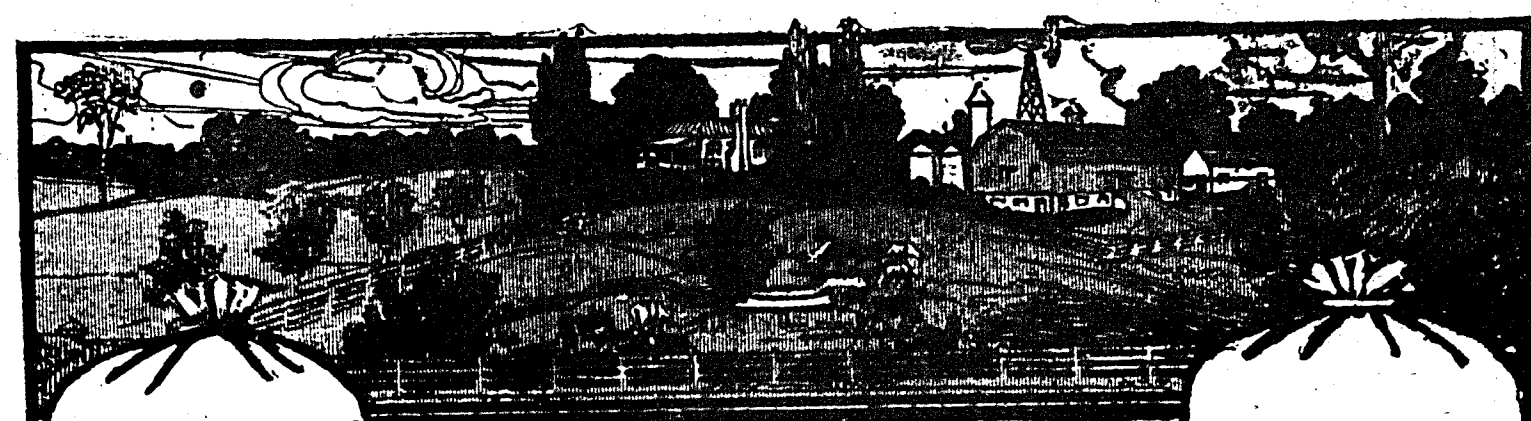

If your hair is getting thin, gradually falling out, it cannot be long before the spot appears.

The greatest remedy to stop the hair from falling is SALVIA, the Great American Hair Grower, first discovered in England. SALVIA furnishes nourishment to the hair roots and acts so quickly that people are amazed.

And remember, it destroys the Dandruff germ, the little pest that saps the life that should go to the hair from the roots.

SALVIA is sold by H. E. Jones under a positive guarantee to cure Dandruff, stop Falling Hair and Itching Scalp in ten days, or money back. A large bottle costs 50c. The word "SALVIA" (Latin for sage) is on every bottle.

\$3,600 in Cash Prizes for Farmers

READ the conditions of the Prize Contest we are conducting for the farmers of Canada. \$400.00 in prizes will be awarded to each Province. These prizes will be divided into four groups, consisting of:

PRIZE "A"—\$100.00 to be given to the farmer in each Province who will win the greatest number of barrels of "CANADA" Cement. PRIZE "B"—\$100.00 to be given to the farmer in each Province who uses "CANADA" Cement for the greatest number of purposes. PRIZE "C"—\$100.00 to be given to the farmer in each Province who submits the best and most complete description of how any particular piece of work (shown by photograph sent in) was done.

Every farmer in Canada is eligible. Therefore, do not be deterred from entering by any feeling that

What's flour gluten, Bud?

"It's what makes your dough rise, Rose."

"Yes"—she encouraged. Added Bud very sagely:

"Makes it rise in the mixer and expand in the oven. It's the elastic part of flour—absorbs all the water and milk—and things."

Rose grew interested. "FIVE ROSES, said Bud, is exceedingly rich in gluten. I s'pose because it's all made from Manitoba wheat. Takes up a lot more water—makes those fat loaves—tastes longer too."

"Saves money, doesn't it?" asked Rose. Bud in a big voice:

"The fat loaf makes the fat pocketbook." Use FIVE ROSES always. And Rose said YES.

WOMEN MAY AVOID OPERATIONS

By taking Lydia E. Pinkham's Vegetable Compound

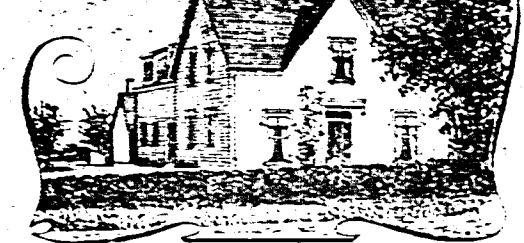

The following letter from Mrs. Orrville Brock will prove how wise it is for women to submit to the dangers of a surgical operation when it may be avoided by taking Lydia E. Pinkham's Vegetable Compound. She was four weeks in the hospital and came home suffering worse than before.

Here is her own statement.

Paw Paw, Mich.—"Two years ago I suffered very severely with a displacement. I could not get on my feet for a long time. My physician treated me for seven months without much relief and at last sent me to Ann Arbor for an operation. I was there four weeks and came home suffering worse than before. My mother advised me to try Lydia E. Pinkham's Vegetable Compound, and I did. Today I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound and advise my friends who are afflicted with any female complaint to try it."—Mrs. ORVILLE BROCK, R. R. No. 5, Paw Paw, Michigan.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

For thirty years it has been the standard remedy for women's ills, and has positively restored the health of thousands of women. Why don't you try it?

Boston, Mass., Oct. 28.—"Sam" Langford, challenger of "Jack" Johnson and of any other pugilist in the world, left yesterday in company with "Joe" Woodman, his manager, and Davis, his trainer, for Vancouver, B. C., where the party will leave, November 1, for Australia to keep a contract Langford has with Hugh D. McIntosh, the Australian promoter for a series of bouts.

Beals C. Wright, of this city, and other tennis players, who are going to Australia for the Davis Cup matches, will be upon the same steamship, "Denny" (Purdy) Flynn of this city, also has a contract with McIntosh, and it originally was intended that Flynn should go along at the same time. Flynn, however, is now in New York, but will start West in two weeks and leave for the antipodes two weeks later than the rest of the party. It is generally understood that Langford before he returns from Australia will have met "Jack" Johnson. "FRUIT-A-TIVES" CURED HIM

TRENTON, Oct. 29th, 1909.

"I was a dreadful sufferer for many years from Stomach and Liver Trouble—but my greatest suffering was from violent headaches. They were so distressing that I almost had to give up my business. I went to Toronto, consulted specialists and wore glasses, but nothing did me any good and the headaches became intolerable.

I was then induced to try 'Fruit-a-tives' and from the beginning, I was better, and in a short time I was quite well again—no more headaches—and I threw my glasses away.

'Fruit-a-tives' not only cured my headaches, but completely cured me of all indigestion, and restored me to perfect health again." W. J. McCOMB.

'Fruit-a-tives' is the greatest cure for headaches in the world and is the only medicine made of fruit juices.

'Fruit-a-tives' will always cure Headaches, Indigestion and All Stomach and Bowel Troubles. See a box, 6 for 25, or trial size, 5c. At all dealers or from Fruit-a-tives Limited, Ottawa.

A revolver was clutched in his hand but none of the chambers had been discharged, showing that his assailants had dropped him before he could fire a shot. There are no clues beyond footprints on the piazza.

The Rosary.

A GOOD PLAY COMING TO DIGBY TOMORROW NIGHT.

We copy the following from the Halifax Herald: No more fully satisfied audience ever left the Academy of Music than that which last night filed out of the building at the conclusion of the first presentation in Halifax of "The Rosary," one of the very strongest plays presented in years at the Academy. The production was well staged, particularly well acted, and intensely absorbing. It was a representative audience which greeted John Meahan and his talented company, an audience which goes to show that empty seats will be an unknown quantity during the stay of the company in this city.

So much has been written of the play that a sketch of the story is unnecessary. The company is a most excellent one, it gives a presentation of the play which brings out in a striking manner all the qualities of the production which have caused it to make it one of the most popular theatrical successes of recent years.

Mr. Meahan, as Rev. Father Brian Kelly, dominates the play from the central figure. He holds the most difficult part to play. His power was shown in the last act in particular, where the towns of the village, which were silenced by the dramatic action of Father Kelly. When the happy denouement follows, Father Kelly is seen at his best. He finishes in the play an example which is not only a model standard for the priesthood, but a selfless and open hearted in his disposition.

David Baker, as Bruce Wilton, took a hard part with great success. His capable and dignified manner, the role of the twin sisters. She is the leading lady in the company and is a talented actress. Her emotional powers were brought into play on different occasions and the response was always satisfying.

Miss Mae Tilton, as Kathleen O'Connor, niece of Father Kelly, was a beautiful Irish maid. She carried the role of Irish birth and indeed all who saw her and heard her.

Acadia University Notes

On Thursday, Nov. 2nd, Acadia defeated the University of New Brunswick in a football game by a score of 5-0. The game was slow throughout, chiefly on account of the wet grounds. A reception was tendered to the U. N. B. football team in the evening. The game, which was much enjoyed by all. The conduct of the visiting team was much to be admired for they showed their ability to take defeat as a true sportsman.

On Monday, Nov. 6th, Acadia defeated King's University by the score of 18-0. Acadia played more in her old form in this game and the ball line was able to demonstrate its power.

Dr. Maibe, from Boston, has been lecturing in the college for the past two weeks on the subject of "Immigration." He took up the different phases of the subject and dealt with them in a very practical manner.

The first inter-collegiate debate of the year took place on Tuesday evening between the seniors and juniors. The subject was "Resolved that homestead should be granted to Ireland under the conditions of the bill in 1873." The seniors were represented by Baker, Bates and Bileau, while the juniors were represented by Dibley, Blackney and Albaby. The juniors upheld the affirmative and were awarded the decision both in argument and delivery.

Salvation Army News.

STAFF CAPTAIN JENNINGS IS GOING TO ENGLAND TO SELECT SETTLERS FOR NOVA SCOTIA.

The Salvation Army Immigration Department will make a special effort to get suitable settlers for Nova Scotia next season.

Staff Captain Jennings has been selected to go to the Old Land, as a special representative for Nova Scotia, to secure these new settlers. The Staff Captain has lived in the Maritime Provinces for nearly thirty years and for the last six years has been in charge of the Salvation Army Immigration Department for the Maritime Provinces, and therefore has a practical knowledge of the kind of people needed.

He will sail for Great Britain about the middle of November and will remain there until the early spring. It is expected that he will be able to select a sufficient number to meet the requirements of the farmers and others next spring. Further particulars may be obtained by writing to the Salvation Army Immigration Department, Box 477, Halifax, N. S.

The Chinese Situation.

THE CITY OF HANKOW DESTROYED BY FIRE AND 400,000 PEOPLE DESTITUTE.

HANKOW, Nov. 6.—The city of Hankow has been destroyed by fire over two-thirds of its extent. The lowest estimate of the loss is \$5,000,000. Four hundred thousand people are destitute. Hundreds of half-burned bodies lie among the ruins. Many of them are the bodies of women and children.

The Customs House, the Post Office and the American Missions have been spared. The city has been looted, the Imperialists taking a hand in the pillage. Imperialist officers tried to check this work and executed a number of the soldiers. Refugees were deprived of their loot on entering the British concession, cart loads of valuable furs, silks, and jewelry being seized. It is suggested that the Red Cross receive the proceeds.

On Friday afternoon the consuls appealed to the Imperialists to cease burning the town. A proclamation which was immediately declared that the rebels were responsible for the fires and ordered that these be checked. The following day new fires started in various quarters.

The David Hill memorial school for the blind, connected with the Wesleyan Mission, has been looted while in contrast all the mission property in Wu Chang which is held by the revolutionaries has been protected.

The Imperialists have hanged men and failed to strangle them, tortured them to death, prodded them with bayonets or cranked them to death with stones. The outrages against women cannot be told. The cross bearers have been killed or wounded. Soldiers on both sides have slaughtered their wounded enemies.

It was ascertained last night that Yuan Shi Kai is in this neighborhood but he is keeping his presence hidden. It is expected that he will lead a British gunboat and it is reported that he has been interviewing republican leaders secretly.

The three revolutionary soldiers from Hu Nsu reached Wu Chang yesterday. At I-Chang and other river ports the republicans are collecting custom duties. A regular revenue of I-Chang and other river ports from King in Sze-Chuen province are bound together. The mola in Kiu Kiang are violent.

The revolutionaries commandeered a British tug which was proceeding up river with two lighters of coal. It was suspected that the coal was destined for Admiral Sui-shan. A British gunboat made a demand for the captured boats which were afterwards restored to the revolutionaries.

Two thousand trained soldiers have arrived from the Pong district. A night of two ago the forts of a fatal accident in PRESBYTERIAN CHURCH AT SYDNEY MINES.

SYDNEY MINES, Nov. 8.—John Muir, Junior of the Presbyterian church of this place, received an electric shock this evening that caused his death. There was to have been a Bible Society meeting in the Presbyterian Church at seven o'clock. A lady, who was in the church, went to turn on the lights and caused a slight shock. Mrs. Muir, who was in the church, was taken to her home and is under the care of Dr. Archibald.

A coroner's jury was empanelled and after hearing some of the evidence adjourned to meet again tomorrow night. Mr. Muir is survived by his wife and eight children.

It is thought that the tragedy is a result of the electric light wires being tangled during the storm on Tuesday night.

Indian Increase in Population.

OTTAWA, Nov. 8.—The report of the Department of Indian affairs issued yesterday for the year ending March 31st, estimates the Indian population of the Dominion as 108,261, of whom 4,690 are Eskimos. The increase of birth over deaths during the year was 346, showing that the prevalent idea that the Indian is gradually disappearing is not sustained by the facts.

The Indian population by Provinces is: Alberta, 3,086; British Columbia, 24,581; Manitoba, 6,111; Nova Scotia, 2,026; New Brunswick, 1,892; Prince Edward Island, 292; Ontario, 22,496; Quebec, 11,482; Saskatchewan, 6,439; Northwest Territory, 12,625; Ungava, 1,246; Yukon, 3,100; Eskimos, 4,690.

Both Dead on Golden Wedding Day

HAMMOND, Ind., Nov. 7.—Grief took the place of joy at the house, until yesterday, occupied by Mr. and Mrs. Alton Aubrey, who were found dead in their bed by the guests who had gathered to assist in the celebration of the golden wedding of the dead couple. Elaborate preparations for the festivities had been made and when a party of guests, among whom was Edward Aubrey, controller of the town of Hammond, went to the house they found no sign of the couple. In a stable room, where they were supposed to be broken down and it was found both had been asphyxiated by gas.

Canadians to Study Military Aviation

OTTAWA, November 8.—The militia department has decided to send to England three Canadian officers for a course of instruction in military aviation work. Following this there is a likelihood that a branch of aerial navigation will be established by the Dominion government. Two officers were recently sent to Atlantic City to attend the United States government aviation test there, but these were defeated, owing to heavy weather.

Governor Foss Re-elected.

BOSTON, Nov. 7.—On the face of the returns from 164 out of 1,070 election districts, the Democrats won the State election today and kept Massachusetts in the party column by continuing Governor Eugene N. Foss in office for a second term. The returns gave Foss, Democrat, 187,553; Frothingham, Republican, 177,074. Last year the same districts gave Foss 201,324, Draper, Republican, 187,407.

N. B. Foss to Aid King's

FREDERICTON, N. B., Nov. 7.—The Diocesan Synod, this afternoon, decided by an unanimous vote to pledge itself to begin an extension campaign on behalf of King's College, Windsor, N. S., and each individual delegate pledged himself to the same resolution to take a personal part in the campaign, which is to begin on Monday, November 12.

The Mary Fund.

LONDON, Nov. 7.—It is announced that Queen Mary will devote the £25,000 subscribed by the Marys of the empire as a coronation gift to the establishment of a seaside home for working girls.

This fund was largely subscribed to by the women of Canada who rejoice in the name of Mary.

Fishery Inspectors Dismissed.

OTTAWA, November 6.—Thirty fishery inspectors in Ontario, appointed by the Laurier government last spring, have been let go by the new minister of marine and fisheries. The salary averaged \$600 per year.

To the Editor of the Courier:

DEAR SIR,—Kindly permit me, through your paper, to thank "Freepoint Subscriber" to explain his (or her) statement in last week's COURIER, (Nov. 3d), to the effect that "a gymnasium club room is contrary to God's rights and laws." I am not a member of the Salvation Army, tho I have some good friends in that institution, including some of the members of the Freepoint corps. It is not, however, in defence of the Army that I seek an explanation of the above statement. I seek it rather as a Freepointer, and as one who has long been deeply interested in the welfare of the young men of my home village. I have long felt that something in the nature of gymnasium exercises in outdoor sports, in season, or a bit of clean and elevating club-life (especially in the winter season) would be a very great improvement over lounging in and about the village stores—an improvement from the physical, the moral, and the intellectual points of view—from the point of view, in a word, of bringing out something of the best that is in the young men and boys of Freepoint. I know by personal experience what the influence of this "shop loafing" is. Hence my desire, during these latter years, to see a counteracting influence of the kind above referred to, and which your correspondent asserts is "contrary to God's rights and laws." I don't know the exact nature of this "club room" establishment in the Army; but if it is simply a "gymnasium club room," as your correspondent calls it, then, in the name of the young men of Freepoint, and in the name of common sense, as well as in the name of the Author of man's physical body and of man's moral and intellectual endowments, I rise to ask your correspondent to explain in what way a gymnasium club room is contrary to God's rights and laws. I ask him to kindly explain those "rights and laws" of God to which a "gymnasium club" is "contrary." I ask him, also, to kindly give his authority, or, at least, his reasons for his view of this matter. I think the question involved is far too big and far too important to be dismissed in the brief and severe manner adopted by your correspondent. In case "Freepoint Subscriber" is willing to admit that "a gymnasium club room" is not of itself "contrary to God's rights and laws," and that it is so in this case only because it is instituted by the Salvation Army, I would beg to suggest that he will need to give some very convincing proof of the soundness of his contention.

Personally, Mr. Editor, I should like to testify to what I hold as a firm conviction, borne in upon me by the experience of the last ten years or more, that I would today be a better man, in every way, if what a young man in Freepoint I had had the privileges which go with what I understand to be a "gymnasium club room." Only ed to learn, through your correspondent, that such an attempt has been made, that it has been made by the Army, and that it is in the interest, I take it of the young men and boys of Freepoint, any injury. I only wish that I could be of some real service in the promotion of such an opportunity and the customary mark of a genuine hope that the beginning made may be only a beginning of a beginning of a larger opportunity for the boys and young men of my own home village. If the Army, as such, is unable, for any reason, to continue and develop that they have apparently had the courage to begin, I only hope that every person in Freepoint who possibly can help along in any way the success of the most people that I know would think such an effort deserves, will gladly and earnestly do so—unless "Freepoint Subscriber" can make it clear to us in the next issue of the Courier that it is contrary to God's rights and laws."

When You Think

Of the pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. Sick women are invited to consult Dr. Pierce by letter, free. All correspondence strictly private and sacredly confidential. Write without fear and without fee to World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

Dear Sirs:—The six horsepower engine that I got from you in Sept. 1908 has given perfect satisfaction, always ready to start at a moment's notice. Just as ready to start with the thermometer 10 below zero as it is in the middle of summer. I have done as much work with her now, as any ordinary farmer would do during his lifetime, and still she runs today as well as when I got her. The only expense being one contract spring costing 40c. Pa's New Hat.

There's nothing about my pa, you bet he's always up to date. To look at him never guess that he is almost forty-eight. Of course, he's pretty nearly bald, and then again he's rather fat. But he won't let on that he's old and now he's brought a fuzzy hat. Ma held her sides from laughing when he came back home the other night. An' she, she had to leave the room, the way she acted was a fright. "Oh, dear," says Ma, "tee-hee tee-hee, good gracious, will you look at that. Come, children, all an' share the fun, your father's got a fuzzy hat."

Of course, it made pa awful mad to have Ma Josiah him that way. An' she would lick me if I should tell the things I heard him say. But he got madder late at night when he was puttin' out the cat. An' he yelled down the stairs to him: "Be sure you don't put out your hat!"

Avoid Harsh Drugs.

MANY CATARRHS TEND TO CAUSE INJURY TO THE BOWELS.

If you are subject to constipation, you should avoid strong drugs and cathartics. They only give temporary relief and their reaction is harmful and sometimes more annoying than constipation. They in no way effect a cure and their tendency is to weaken the already weak organs with which they come in contact.

We honestly believe that we have the best constipation treatment ever devised. Our faith in it is so strong that we sell it on the positive guarantee that it shall not cost the user a cent if it does not give entire satisfaction and completely remedy constipation. This preparation is called Rexal Ordinaries. These are prompt, soothing, and most effective in action. They are made of a recent chemical discovery. Their principal ingredient is odorless, tasteless, and colorless. Combined with other well known ingredients, long established for their usefulness in the treatment of constipation, it forms a tablet which is eaten just like candy. They may be taken at any time, either day or night, with out fear of their causing any inconvenience whatever. They do not gripe, purge, nor cause nausea. They act without causing any pain or excessive looseness of the bowels. They are ideal for children, weak, delicate persons, and aged people, as well as for the most hearty person.

They come in three size packages, 12 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Remember, you can obtain them only at our stores—The Rexal Stores. P. W. Holdsworth, Digby; Ryan & Blackadar, Weymouth.

A Great Discovery.

CERTAIN INGREDIENTS THAT REALLY PROMOTE HAIR GROWTH WHEN PROPERLY COMBINED.

Resorcin is one of the most effective germ destroyers ever discovered by science, and in connection with Beta Naphthol, which is both germicidal and anti-septic, a combination is formed which destroys the germs which rob the hair of its natural nourishment, and so creates a clean, healthy condition of the scalp, which prevents the development of new germs.

Piloecarpia, although not a coloring matter or dye, is a well known ingredient for restoring the hair to its natural color, when the loss of hair has been caused by a disease of the scalp.

These ingredients in proper combination, with alcohol added as a stimulant, and for its well defined nourishing properties, perfect perhaps the most effective remedy that is known for scalp and hair troubles.

We have a remedy which is chiefly composed of these ingredients, in combination with other extremely invaluable medical agents. We guarantee it to positively cure dandruff and to grow hair, even though the scalp in spots is bare of hair. If there is any vitality left in the roots, it will positively cure baldness, or we will refund your money. If the scalp has a glazed, shiny appearance, it's an indication that baldness is permanent, but in other instances we believe baldness is curable.

We want every one troubled with scalp disease or loss of hair to try Rexal '93 Hair Tonic. If it does not cure dandruff and grow hair to the satisfaction of the user, we will without question or quibble return every cent paid us for it. We print this guarantee on every bottle. It has effective a positive cure in 93 per cent of cases when put to a practical test.

Rexal '93 Hair Tonic is entirely unlike, and we think in every particular, better than anything else we know of for the purpose for which it is prescribed. We urge you to try this preparation at once, at entire risk. Certainly we know of no better guarantee to give you. Remember you can obtain Rexal Remedies only at our stores—The Rexal Stores. P. W. Holdsworth, Digby; Ryan & Blackadar, Weymouth.

Learn why PURITY FLOUR is unlike any other brand

PURITY FLOUR is unlike any other brand of flour. No two milling companies follow exactly the same process of milling. In fact, no two different brands of flour in the world are exactly alike in quality. And here is another fact worth knowing: Every wheat berry contains both high-grade and low-grade portions.

The process of milling **PURITY FLOUR** costs more than to mill ordinary flour. The low-grade portions are separated and excluded. **PURITY** is an ALL HIGH-GRADE, hard wheat flour. It has greater strength, greater absorption and greater expansion. It is a thirstier, more elastic flour. It drinks more water and expands into more loaves.

Use **PURITY FLOUR** for your next batch of bread. Count the loaves. You'll find you have made "MORE BREAD AND BETTER BREAD" from **PURITY** than when you've used an equal weight of weaker and cheaper flour.

PURITY FLOUR

"More bread and better bread"

IMAGINE, if you can, how much whiter, and more toothsome, and more nutritious, the bread made from such a HIGH-GRADE flour must be.

And can you imagine yourself enjoying the flaky pie-crust and the light, delicate cake?—your reward for using **PURITY FLOUR**

When making pastry, please remember to add more shortening than required with ordinary flour—for on account of its extra strength, **PURITY FLOUR** requires more shortening for best pastry-results.

Yes, **PURITY FLOUR** costs slightly more than ordinary flour. But use it once and you'll say it's worth more—much more—than the difference.

Add **PURITY FLOUR** to your grocery list right now.

Creation Over Again.
BY A. P. HEBBE.
Like the early Springtime thawing Old Nature's icy form.
Melting change every feature.
Thru heat and wind and storm.

And then the All-wise Spirit,
Thru plant and tree and seed,
Rebuilds again old nature,
Supplying every need.

Or like the Summer's vintage
like the Autumn's store,
Rich in beauty, wealth and pleasure,
And then the sleep once more.

Or like the earth upon its orbit,
A spiral course of motion,
Or like the tides that come and go
To purify the ocean.

Or like the circles whirled in space
Beyond our comprehension,
Performed by planets, comets, suns,
Without rest or deviation.

May there not be some cycle
Which these lesser ones embrace,
When what we call creation
May again begin its race.

Two a trillion million years
This cycle should require,
Yet in eternity would be
A spark that leaves the fire.

Mr. Jas. Davey, of 786 Ellice Avenue, Winnipeg, says:—"A few months since I was cured of a poisoned finger through the timely use of Zam-Buk."

"I cut a deep gash across the knuckle on the first finger of my right hand in opening a lobster can. I suffered at the time with the soreness and pain, but had no idea it would become a serious wound. However, in about two days I was greatly relieved; as my whole hand and arm to the elbow became suddenly inflamed, and the finger was much discolored, showing signs of blood poisoning. The pain was dreadful and I was forced to leave off my work and go home."

"The wound on the knuckle had been poisoned by dust and dirt getting into it. I then decided to start the Zam-Buk treatment, and having first bathed the cut, I applied the healing balm. It soothed the pain almost instantly, and by next day there was a great improvement."

"In a week's time, through perseverance with this wonderful preparation, a complete cure was brought about."

Zam-Buk is just as good for eczema, ulcers, scalp sores, abscesses, piles, ringworm, boils, carbuncles, ulcers, running sores, cold sores, chapped hands, etc. It draws all poisonous matter from a wound or sore and then heals. Use it, too, for cuts, burns, bruises and all skin injuries. Zam-Buk Soap should be used in conjunction to the balm for washing wounds and sore places. Excellent too for baby's bath. All druggists and stores sell Zam-Buk at 50c. box and Zam-Buk Soap at 25c. tablet. Post free upon receipt of price from Zam-Buk Co., Toronto.

Masked Robbers Got the Money and Fled
ONE OF THEM, THE SON OF OSWEGO PROFESSOR, WAS CAPTURED
OSWEGO, N. Y., November 8.—Three masked men with drawn revolvers walked into the office of the Oswego Coal and Towing Company here today and demanded that the clerks hand over the money in the safe. The money amounting to several hundred dollars was produced with considerable delay and the robbers fled with it. Two of them succeeded in getting away after a long chase by officers during which several shots were exchanged as the men fled through the woods and escaped by fording the Oswego River, with the water up to their waists. The coming darkness made further pursuit impossible. The third bandit who fled in another direction, was captured while he was trying to get across the Canadian border.

A prompt pursuit was organized, when at the sight of the robbers in the office of John Hannan Jr., son of the Company's President, jumped through a window into the street and told the police.

When the man was overtaken and brought to the jail he gave his name as Henry Rappleyea, 18 years old, of Oswego. He said that on Sunday last he had quarrelled with his father, who is a Professor of Mathematics at the Oswego State Normal School, and had run away from home with Tom Brough and Jack Snider, also known as Jack Wendell, both of Oswego, his alleged pals in the robbery. Most of the stolen money was recovered.

A Gentle Tip.
They were sitting at the bathing beach at the summer resort. He was very bashful, and had let countless opportunities slip by.

"Isn't this wonderful?" he said, after a moment's lull in the conversation.

"Wonderful?" she replied. "And just think, there is so much going to waste when so many people need some in their systems!"

Then he caught on—and caught up.

Which is Your Choice?
Sloppy, leaky wooden troughs, or clean, durable Concrete?

Wooden drinking troughs are about as reliable as the weather.

They are short-lived and require replacing every few years—not to mention continual patching to keep them in repair.

The best of wood cannot withstand, for long, constant dampness and soaking. Its tendency to rapid decay soon shows itself in leaks and stagnant pools of water around trough.

Contrast with this the durability, cleanliness and well-ordered appearance of Concrete.

The Flag in Canada.

A YANKEE COMMENT THAT CANADIANS SHOULD NOTE.

A week or two before the general election, the *Boston American* (one of the Hearst papers) commented upon the use of the "Stars and Stripes" in Canada as follows:

"Outside the French-Canadians, the old English settlers and the purely British people one must not set too much store upon the loyalty of Canadians to the Empire."

The spirit of tolerance which allows the flag of another nation to be paraded through the streets, hung from house-tops and worn in button-holes, which permits the presence of the Stars and Stripes upon hundreds of thousands of moving pictures throughout the country and which even debases its nationality by putting the flag of another nation upon its pleasure boats, menu cards and railway timetables as an inducement to draw a few more dollars, comes perilously near to treachery. For the mercenary object of attracting a few additional cents a Nova Scotia railway prints the Stars and Stripes upon its literature and a steamship company on the St. John river actually flies the American flag."

There are many people in this Dominion, in this Province, in this very City, who should blush upon reading such a Yankee comment as that, because they know they are guilty, and here they have their offense flung into their faces.

We would not have the flag of our neighbors treated with anything but respect. But it is their flag, not ours. Let them use it; but let us use our own, and not by neglect of so using our own lead our neighbors to question our loyalty to it.

If an American citizen living among us boasts his "Stars and Stripes," let it float on the breeze in peace; he is our guest, and we should be courteous. It is true the like courtesy is sometimes refused to our flag in "the States," but their bad manners should not be imitated here.

But for Canadians to fly the "Stars and Stripes" in Canada is quite another thing. The extent to which it is done is a scandal and nuisance, and it is to be hoped such conduct as the "American" will help to abate it. Our neighbors take it as a mark of disloyalty to Britain.

Keeping Ahead.
There is a Southern insane asylum where those inmates whose particular form of insanity is harmless are permitted to participate in dances and other amusements, to which outsiders are invited. At a lawn party at this institution a prominent lawyer, who had been invited, saw a very attractive girl seated under the tree, and engaged her in conversation.

"You are surely not an inmate of this place?" he sympathetically inquired.

"No, yes, I am," she assured him. "But you don't look a bit insane."

"Well, you see, I was put here because I can't keep from swearing. You see that man walking around with a mop?"

"Yes."

"Well, he walks around after me and washes off the swear words that I write on the walls. I'm two bells and a damn ahead of the mop now."

Citizenized and Reassigned Pastorate.
PROVIDENCE, R. I., November 15.—Because of criticism resulting from his marrying Colonel John Jacob Astor and Miss Madeline T. Forbes, at Newport on September 9, Rev. Joseph Lambert has resigned as pastor of the Edmund Temple (Congregational) of this city and will leave the ministry to go into business. Altho the church has not as yet accepted his resignation, Mr. Lambert says that he will insist upon it doing so. His retirement will be considered by the church at a meeting on November 16.

Johnny is all right as an ice cream boy and as a slot machine with which to get chewing gum and bon bons, but when it comes to measuring up in after years with the men who do things, and whose wives make up the budget of satisfied ones, he is down and out before the race starts. Girls, if you must marry, and you must, if you would be happy, be sure and marry a man, or at least what is going to be a man.

Ashore of Yarmouth

YARMOUTH, Nov. 13.—The schooner Reliance, Captain Loomer, from New York with a cargo of coal for L. E. Baker and Company of this town, went ashore today near the Hen and Chickens buoy off the entrance to Yarmouth Harbor. The Reliance was anchored in the sound last evening, and before she could secure a tow into the harbor this morning, she dragged her anchor and went ashore. Although the full extent of the damage to the schooner is not known, she will probably be a total loss. She is practically a new schooner and is owned by George A. Cox of Shelburne. She registers 192 tons and was built in 1900.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

Dr. Pierce's Common Sense Medical Adviser, in Plain English, or, Medicine Simplified, 1008 pages, over 700 illustrations, newly revised up-to-date Edition, paper-bound, sent for 31 one-cent stamps, to cover cost of mailing only. Cloth-bound, 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

DEAR SIRS:—The six horse-power engine that I got from you in Sept. 1908 has given perfect satisfaction, always ready to go in all kinds of weather. Just as ready to start with the thermometer in the zero as in the middle of summer. I have done as much work with her now, as any ordinary farmer would do during his lifetime, and still she runs as well as when I got her. The only expense being one contact spring costing 40c. I had to buy one more, I would buy a Woodpecker in preference to any other kind that I have seen working.

DEAR SIRS:—I have been a sufferer of lung trouble for many years, and have tried all kinds of doctor's medicine, but found no relief. I heard of your "Oliveine Emulsion" and after taking the first bottle felt much better. I am now taking the third bottle and am much improved. Happy Event in Massachusetts.

Mr. and Mrs. Albert F. Humphrey celebrated their 15th wedding anniversary last Saturday night by giving a crystal wedding party to their friends. One hundred and ten invitations were sent to their relatives and Digby friends residing near Boston. The guests gathered early in the evening at the Humphrey home, 34 Rush St., Somerville, and were received by Mrs. Humphrey, dressed in white silk with yellow trimmings and ably assisted by two beautifully costumed ushers, Mrs. Wm. George, dressed in pink messaline, and Miss Georgie McLean, sister of the hostess. Miss McLean, was attired in a becoming light silk dress. The house was lavishly decorated with yellow and white chrysanthemums and paper garlands to match. The Digby people visiting and residing in Massachusetts present, were:—Mrs. David Ellis, Miss Georgie McLean, Mr. and Mrs. Burton Robinson, Mr. John E. Dakin, Mr. Harry Beauman, and Mr. Donald Thurber and Mr. Ernest Ellis. Music was furnished by Mr. Dakin's Ballad Trio and vocal selections were rendered by Mr. Beauman, of Digby, and Mr. Arthur Barcelo, Cambridge's popular baritone. The presents, which consisted of cut glass, were numerous and valuable. Telegrams were received and read from several of their friends from New Hampshire and New York. Refreshments were served from ten till twelve o'clock by the ushers and six assistants, some of whom were members of the Cambridge Riverside Neighborhood Club, in which Mr. and Mrs. Humphrey are very much interested. Before the hour of twelve the orchestra and guests departed, all wishing their host and hostess a long, happy and prosperous wedded life and not a few of them expressed their determination to wait and come again to celebrate their 50th anniversary.

Cause for Alarm.
LOSS OF APPETITE OR DISTRESS AFTER EATING, A SYMPTOM THAT SHOULD NOT BE DISREGARDED.

Appetite is just a natural desire for food. Loss of appetite or stomach distress after eating indicate indigestion or dyspepsia. Overeating is a habit very dangerous to a person's good general health.

It is not what you eat but what you digest and assimilate that does you good. Some of the strongest, heaviest, and healthiest persons are moderate eaters.

There is nothing that will cause more trouble than a disordered stomach, and many people daily contract serious maladies simply through disregard or abuse of the stomach.

We urge all in Digby who suffer from any stomach derangement, indigestion, or dyspepsia, whether acute or chronic, to try Rexall Dyspepsia Tablets, with the distinct understanding that we will refund their money without question or formality, if after reasonable use of this medicine, they are not perfectly satisfied with the results. We recommend them to our customers every day, and have yet to hear of any one who has not been benefited by them. We honestly believe them to be without equal. They give every prompt relief, aiding to neutralize the gastric juices, strengthen the digestive organs, regulate the bowels, and thus to promote perfect nutrition, and eradicate all unhealthy symptoms.

We urge you to try a 25c. box of Rexall Dyspepsia Tablets, which gives 15 days' treatment. At the end of that time, your money will be returned to you if you are not satisfied. Of course, in chronic cases length of treatment varies. For such cases, we have two larger sizes, which sell for 50c. and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our stores—The Rexall Stores, P. W. Holdsworth, Digby; Ryan & Blackader, Weymouth.

Free if it Fails.
YOUR MONEY BACK IF YOU ARE NOT SATISFIED WITH THE MEDICINE WE RECOMMEND.

We are so positive that our remedy will permanently relieve constipation, no matter how chronic it may be, that we offer to furnish the medicine at our expense should it fail to produce satisfactory results.

It is worse than useless to attempt to cure constipation with cathartic drugs. Laxatives or cathartics do much harm. They cause a reaction, irritate, and weaken the bowels and tend to make constipation more chronic. Besides, their use becomes a habit that is dangerous.

Constipation is caused by a weakness of the nerves and muscles of the large intestine or descending colon. To expect permanent relief you must therefore tone up and strengthen these organs and restore them to healthier activity.

We want you to try Rexall Orderlies on our recommendation. They are exceedingly pleasant to take, being eaten like candy, and are ideal for children, delicate persons, and old folk, as well as for the robust. They act directly on the nerves and muscles of the bowels. They apparently have a neutral action on other associate organs or glands. They do not purge, cause excessive looseness, nor create any inconvenience whatever. They may be taken at any time, day or night. They will positively relieve chronic or habitual constipation, if not of surgical variety, and the myriads of associate or dependent chronic ailments, if taken with regularity for a reasonable length of time. 10 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Sold in Digby only at our store—The Rexall Stores, P. W. Holdsworth, Digby; Ryan & Blackader, Weymouth.

Patents Promptly Secured.
We solicit the business of Manufacturers, Engineers and others who realize the advisability of having their Patent business transacted by Experts. Preliminary advice free. Charges moderate. CURIOSITY Prompted Many Women To Try PURITY FLOUR

THEY were curious to see exactly what results would be produced by flour consisting entirely of the high-grade portions of the best Western hard wheat.

They were curious to know more about a flour that contained none of the low-grade portions, which are found in every wheat berry, but which are separated and excluded from the high-grade in the process of milling PURITY FLOUR.

THEY were curious to know whether an ALL HIGH-GRADE hard wheat flour was really superior to a mixed hard and soft wheat flour.

They were curious to see and taste the kind of bread, buns, biscuits, cakes and pies PURITY FLOUR would make.

Curiosity prompts you to seek the knowledge they discovered. It's urging you to try PURITY FLOUR.

REMEMBER: On account of the extra strength and extra quality of PURITY FLOUR it is necessary, for best pastry-results, to add more shortening than you are accustomed to use with an ordinary flour. Add more water when making bread.

Add PURITY FLOUR to your grocery list right now

On Friday morning, Nov. 17th, death again visited our midst and claimed one of our young men, Mr. Reginald Thurber, son of Capt. and Mrs. Nelson Thurber. He had been ill with typhoid for the past three weeks, but every hope was entertained for his recovery, until on Thursday, when taken with hemorrhage and although faithfully attended by Dr. Bishop nothing could be done to save him. During the administration of the Rev. I. B. Colwell, he became a member of the Baptist church and was also a leader in the Y. M. C. A. work. He was a young man who was well liked and will be greatly missed by everybody in the community. The funeral services were conducted by the Rev. F. H. Eaton on Sunday afternoon. Forty young men (Y. M. C. A. members) accompanied by their Sunday School teacher, Mrs. C. Morrell, headed the funeral procession. To-Morrow Night.

PAUL GILMORE AND COMPANY APPEAR AT THE BIJOU DREAM.

Paul Gilmore and company who were booked for Digby last Tuesday evening have changed their date and will appear here to-morrow night at the Bijou Dream (Old-Fashioned Hall) under the management of Mr. F. C. Gimpson. We reprint the following from the Winnipeg Press:

A delightful, refreshing feature of the late Clyde, which is presented at the Walker Theatre, last night by Paul Gilmore and company, is that while it is thoroughly human and based upon the slightest sort of a love plot, it is also thoroughly clean and well sustained in interest from start to finish.

Mr. Fitch, in writing this comedy, used what we are all hoping will be the future ideas of drama and comedies. It might be supposed from the title of the play, and indeed from the opening of the first act, which Mr. Fitch introduced the pretty type writer girl and the afflicting employer, that the play might run on to things tragic, but the author has, in the most skilful manner, avoided any suggestive complications. It is a wholesome, laughable comedy, and, while it is the last, it must be placed in the category of Mr. Fitch's plays as his very best.

It is said to have been written for Mr. Gilmore, and if it was, Mr. Gilmore, with all his clever characteristics, must have been well known by Mr. Fitch. But then Mr. Fitch did not know who were to be the other members of the cast, and to the credit of the Shuberts it must be said that all of the characters were fitted to the respective characters. So it was that last night at the Auditorium we were given a delightful performance, a thousand laughs and sending the audience away in the rarest of good humors. The comedy is not without its sentimental side, and there is just enough of sentiment to keep it from developing into the line of a farce.

The production was appropriately staged, particularly the second act, with its flowered setting and altogether it was an evening of most unusually excellent comedy, played by a superior company, a cause for enjoyable laughter.

Old-Time Sail Rigger Dead.

FORMERLY SAILED BETWEEN DIGBY AND BOSTON IN THE LUMBER TRADE.

Wm. R. Sandison, an old-time sail rigger, died Wednesday at his home, 28 Windsor street, Cambridge, Mass., at the advanced age of 92. He had been in poor health for the past few months, and his death was not unexpected. Mr. Sandison had been a resident of that city for a number of years and enjoyed a well-earned rest.

He was born in London, England, in 1819, and came to America in 1840, learning from his father the trade of sail making from home, ivory and tortoise shell. At the age of 16 he entered the British navy, and for four years was an assistant to the flag lieutenant. He later served two years as cabin boy on a coasting trading ship between London and New York. He returned to sail making for a short time, up to 1861, when he came to Boston on a sailing vessel, being there for three months on the passage. This was followed by some thirty years before the mast, most of which was spent in the lumber trade between Boston and Digby, N. S. At various periods during this time he worked at his trade of sail making, in various capacities for Sylvester Tower of Cambridge, and for Cheekings in Boston. His agility and skill in climbing high places brought him into close touch with the late Col. Beane, the old-time lumber king, and he traveled with him all over the country. Early in '92, while engaged as a sail rigger in Wilmington, N. C., he achieved considerable distinction by climbing a 125-foot flagpole unaided, securing a block and sheave at the top, making it possible for the Wilmington secessionists to fly a flag of desecration. Mr. Sandison lived on old Fort Hill, Boston, during the anti-slavery days, and often referred to the Anthony Burns, the runaway slave, who was arrested in Boston and returned to slavery.

Mr. Sandison was an honorary life member of Harvard Lodge, Independent Order of the Sons of St. James, Episcopal church. He leaves a widow, Mrs. Blanche Waugh and Mrs. Charles Wheeler, of Cambridge; Mrs. Mattie Clem, of Portland, Me.; Mrs. L. A. Wright, of Darby; and one son, William Sandison. Funeral services will be held tomorrow afternoon at 2 o'clock. Interment will be at Cambridge cemetery.

Eastport's Unbeaten Boxer.

George Nideff, will box Walter Langford, of Westport, in a six round bout in the Bijou Dream, Digby, on Tuesday night, if Langford cares to meet him. Nideff will also give a wrestling exhibition and pay a dollar for every minute anyone will stay with him.

King's College (Windsor) Notes.

The annual six mile run took place last week. Teams from the Sophomore and Freshman classes alone were entered. Paul Maxwell, of the Sophomore class, followed 2 seconds later by Ken Campbell, of the same class. Geo. Harley, freshman, was 3rd, Gerald Jones, freshman, 4th and Geo. Morrison, sophomore, 5th. These three men gave the cup to the sophomore class.

Football is over. After a pleasant, though not altogether victorious season, we can lay away our togs and get to something else. This season King's will have the best hockey team she ever had. John Harley, who headed the team successfully last year, has again been appointed captain and has kinged hopes to enter the Intercollegiate League this year.

On Monday last week, Archdeacon Benson, representing the M. S. C. C., addressed the students in the College Chapel on missionary problems of the Canadian North West. He referred particularly to work among the Indians, giving most interesting pictures of their domestic life. He was enthusiastic and earnest and his address was a special treat.

The Students' Missionary Society met on Tuesday night to consider mission work in the outlying districts of Windsor. The enlistment of volunteers was arranged for. The society is to be represented at the Men's Missionary Convention, Halifax, by Messrs. Harrison, Dwyer, Holmes and others.

On Tuesday, the Rev. Mr. Hall, representing the R. & F. Sailors' Society, presented "Nelson Shields" to the University and the Collegiate School. In the absence of the President, the Rev. G. H. Martell acted as chairman. Among the presentations were a brooch, made from the copper of Nelson's flag ship Victory, to the Rev. Mr. Martell, another of the same kind to Mrs. Handsomely, a cane with a Victory medal bound to Mr. Handsomely and a watch fob to Mr. P. A. Bockle.

President Powell, who has been giving addresses on King's College in Nova Scotia and New Brunswick for the past six weeks, has returned to his duties at the College. He reports an increasing interest in King's. This interest has evidenced itself in liberal contributions to the forward movement.

Wrecked Barge.

HELEN WYMAN A VICTIM OF SUNDAY'S GALE AND NOTHING HAS BEEN HEARD OF THE CREW.

ROCK ISLAND, R. I., Nov. 19.—Stranded by heavy seas during the gale early today, the three-masted barge Helen Wyman was wrecked about twelve miles southeast of this Island. It is feared that the men comprising the crew of the Wyman were drowned as life-rafts in this vicinity have received no word about them.

Luben Wilford of the Helen A. Wyman was bound for Boston from a south coast wharf with the barge dock in tow of the tug John S. Scully, of New York. During the heavy gale in the morning the barge broke adrift. The shipwreck was later picked up by the Scully and anchored just outside Newport Harbor.

A large amount of wreckage including the top of a small galley, with the word Vermont, in black letters, which was drawn ashore on the west end of the island today, announced the wreck of the barge.

Near Study Point several pieces of wreckage came ashore including a hatch cover and the top of a house by its 15 feet. Close by was found a child's stocking. Carved on a piece of wood which was picked up in the vicinity was the name, H. Newman. The vessel registered 270 tons and sailed from Perth Amboy, N. J., for Providence, R. I., the barge was lost from the tow of the tug Hokendogva yesterday as reported from New London last night and nothing has been heard from her until the wreckage came ashore. She carried a cargo of about 200 tons of coal.

Eleventh Annual Maritime Winter Fair at Amherst.

In less than two weeks the Maritime winter fair at Amherst will be in full swing, opening on Monday, December 4th, and continuing until Thursday evening the 7th inst.

This Educational Institution has been growing by leaps and bounds until, notwithstanding that the original building, it was found necessary to add additional space for the Dairy Cattle this year. This is now complete and the management will have better and bigger quarters for this year's fair.

The numerous enquiries for prize lists from those who have not heretofore exhibited justify the belief that the fair will be bigger than ever.

The Railway has promised the usual low rates, and in addition the management are asking for special trains over the short lines to enable the visitors to come in and return the same day.

St. John Merchant Dead.

St. John, Nov. 21.—O. H. Warwick, one of St. John's leading merchants, died from pneumonia at 1:30 o'clock this morning. He was head of a crockeryware firm.

[The deceased at one time had relatives residing in Digby, after whom Warwick street was named.]

Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. THE ONE REMEDY which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine or known composition. No counterfeits as good as the genuine and the druggist who says something else is "just as good" Dr. Pierce's is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trading with your most precious possession—your health—may be your life itself. See that you get what you ask for.

A New Laxative

It is the best known to modern medicine and the true principle which makes it so much better than ordinary laxatives. While thoroughly effective, they never gripe, purge or cause nausea, and never lose their effectiveness. One of the best of the NA-DRU-CO line. 25c a box. If your druggist has not yet stocked them, send 25c, and we will mail them. 23 National Drug and Chemical Company of Canada, Limited, Montreal.

I have done as much work with them as any other set I have owned. I have had no trouble with them, and still they run as well as when I first bought them. A great advantage of a savings account is that your money is readily available when you need it.
At the same time it is not so easy to spend your money thoughtlessly when it is in the bank as it is when you are carrying it about with you. For one reason you do not want to lose the compound interest.
With your money in a savings account at this Bank, you can command your reserve the moment you need it.

"OLIVEINE EMULSION"

MAKES THE WEAK STRONG!
Tonic, Blood Purifier, Flesh Producer.
Messrs. FRASER THORNTON & CO., Plymouth, N. S., May 9th, 1911
DEAR SIR:—I have been a sufferer of lung trouble for many years, and have tried all kinds of doctor's medicine, but found no relief. I heard of your "Oliveine" and after taking the first bottle I felt much better. I am now taking the third bottle and am much improved. I cannot recommend the "Emulsion" too highly among my friends.
Yours truly
MRS. FRANK J. AMIRO,
Plymouth, Digby Co., N. S.

Two Cheese Sandwiches.

Here are the recipes of two kinds of cheese sandwiches: Cut some thin slices of buttered bread (brown or white) and make them up as sandwiches with a filling of cream cheese mixed with chopped nuts or almonds. So much for recipe number one.
For the second, lightly butter two cracker biscuits. Lay upon one biscuit a very thin layer of yellow cheese and upon this put a split, trimmed sardine, from which the head, tail and spine have been removed. Cover the sardine with the other biscuit.

About Peas.
The acid generally found in apples is rare in peas, but, on the other hand the latter invariably contain more sugar, as well as more vegetable fiber, and are, therefore, less digestible. The softest and most juicy peas contain a mucilage, which, although nourishing, very easily ferments in the stomach and produces flatulence. The "Family Doctor" advises that hard peas should always be eschewed by those in feeble health. The stringent species are constipating, while sweet and soft peas are laxative and may be salutary to certain temperaments.

Had Done Her Best.
A colored woman went to the pastor of her church the other day to complain of the conduct of her husband, who she said, was a low down, worthless, trifling nigger. After listening to a long recital of the delinquencies of her neglected spouse and her efforts to correct them, the minister said: "Have you ever tried heating coals of fire upon his head?"
"No," was the reply, "but I don't tried hot water."

Heas Should Get Busy.
Connecticut is to have an egg laying contest in which 23 states are to be represented. There will also be hens from outside the country. Now, if the hens only enter into the contest with the proper spirit, there will be something doing. Perhaps the price of eggs will go down.

Too Much Rubbing.
Visitor—So your aunt who went to live in New York died from excessive exercise?
Uncle Eben—Yep. She thought she had to run across the room to the window every time anybody went by.

A Bald Headed Woman.
SHOWN OF HER CROWN OF BEAUTY, LIVES IN LOVE AND MARRIAGE.

Hair is certainly most necessary to women. Who could love and marry a bald-headed woman? What charms could one array to offset such a disfigurement?

A woman's goal is usually love and marriage. Her crowning glory is her hair. The loss of her hair mars her beauty, happiness, and success. Yet, right here in Digby, there are thousands of women who are neglecting or injuring their hair to such an extent that it is only a matter of time when it will be utterly ruined.
Many women destroy the beauty of their hair through thoughtlessness or ignorance of certain facts. They use curling irons over heated, or to excess, which destroys the natural oil of the hair, causing it to split, break, and come out. They do not shampoo their hair often enough, or too often. They use soaps or preparations which contain ingredients positively harmful to the scalp and hair.

As a result of such treatment, dandruff is created, the hair loosens, loses color, falls out, and baldness commences, unless proper and prompt precautions are taken in time. Then again, microbes and certain diseases bring about unhealthy scalp and hair conditions.
Almost any woman may rid herself of dandruff and diseased scalp and hair if she will but use the right remedy. We have that remedy, and we will positively guarantee that it will either cure dandruff and baldness or it will not cost the user anything.

That's a pretty broad statement, but we will back it and prove it with our own money. We will return your money if you do not find that Rexall '93 Hair Tonic is an entirely satisfactory remedy that will promote hair growth and overcome scalp and hair troubles; that it will grow hair even on bald heads, unless all life in the hair roots has been extinguished, the follicles closed, and the scalp is glazed and shiny. It gets its name from the fact that it grew hair in 93 out of 100 cases, where it received a thoroughly hard, impartial, and practical test.
We want you to try Rexall '93 Hair Tonic at our risk. You surely cannot lose anything by doing so, while you have everything to gain. You had better think this over, and then come in and see us about this offer. You will be well repaid for your visit to our store. Remember, you can get Rexall Remedies in this community only at our store—The Rexall Stores, P. W. Holdsworth, Digby; Ryan & Blackader, Weymouth.

A Fair Offer.
YOUR MONEY BACK IF YOU'RE NOT SATISFIED.

We pay for all the medicine used during the trial, if our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way, whatever, if you accept our offer. That's a mighty broad statement, but we mean every word of it. Could anything be more fair for you?

A most scientific, common-sense treatment is Rexall Orderlies, which are eaten like candy. Their active principle is a recent scientific discovery that is odorless, colorless, and tasteless; very pronounced, yet gentle and pleasant in action, and particularly agreeable in every way. They do not cause diarrhoea, nausea, flatulence, griping, or any inconvenience whatever. Rexall Orderlies are particularly good for children, aged and delicate persons.
If you suffer from chronic or habitual constipation, or the associate or dependent chronic ailments, we urge you to try Rexall Orderlies at our risk. Remember, you can get them in Digby only at our store. 12 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Sold only at our store. The Rexall Stores—P. W. Holdsworth, Digby; Ryan & Blackader, Weymouth.

And when making bread add more water, and PURITY FLOUR will expand into more loaves than the same weight of ordinary flour can produce, thus making "more bread and better bread."

DOCTORS HAD GIVEN UP ALL HOPE

"Fruit-a-tives" saved my Life

RIVERIA A. PIERRE, Q., May 9, 1910.
"I look upon my recovery as nothing short of a miracle. I was for eleven years, constantly suffering from Chronic Dyspepsia and Indigestion. I was treated by several doctors, but they simply did me no good. During the latter part of my illness, I was so thin that I weighed only 105 pounds, and I vomited everything I ate."

The doctors gave me up to die as the stomach trouble proved beyond remedy. I received the Last Rites of the Church. At this time, a lady strongly urged me to try "Fruit-a-tives." When I had taken one box, I was much better and after three boxes I was practically well again, and had gained 20 pounds. I have taken 13 boxes in all and now weigh 125 pounds and am well. Madame ARTHUR TOURANGEAU, "Fruit-a-tives" is the only medicine in the world made of intensified fruit juices and always cures Indigestion, 50c. a box, 6 for \$2.50, or trial size, 25c. The Good New Time.
You may talk of the time, the good old time. When the world was so honest and true. But give me the time, the good new time. When the world will be made over new.

I'll admit our gold is not so pure. And our silk is more mixed they say. But a something has come that will endure. When the gold and the silk will decay.

That something is wisdom, whose price is untold. With her science, discoveries and art; Her mission to make and to mold. And develop the mind in our hearts.

You may talk of the time, the good old time. When the world was so honest and true. But give me the time, the good new time. When the world will be made over new.

So give me the time, the good new time. When all hearts will be honest and true. When wisdom will banish the era of crime. And the world will be made over new.

As We Sow We Reap.
We ought to try and do our part in bringing about that good new time. "Love to God and love to thy neighbor" are the two great commandments. Love is cultivated by often thinking of the loved one. Our thoughts are the food of the soul. Let us always try to give our minds healthy food to eat. Let us not only study of the wonderful works of God in the earth and the story heavens, but of what He has done to refine and elevate mankind which will eventually give us that true and lasting happiness which we are all hoping some time to find.

Notes From Acadia University
Thursday, Nov. 16th, Rev. Alfred Hall, from South Africa, spoke in College hall. He came as the representative of the British Foreign Affairs Society to present to the college one of the Nelson Shields, which are being given to all educational institutions throughout the Empire. These shields presented to the institutions in Canada are the gift of Lord Strathcona. The purpose of the shields is to foster the study of history and to give to students a clearer conception of imperial unity. After a most interesting address he presented shields to the University, the Academy and Seminary.

On Friday over two hundred students journeyed to Truro to see the play, "The Boy Who Sailed," presented by the students of the University of Truro. The play was a very good one, and the students of the University of Truro were very well received.

After a very hard and exciting game Acadia came off victorious, thus winning the Kings-Richardson football trophy. The class of 1911 was represented at the game by H. Fitch and S. J. Miller. The Science Society has been re-organized and weekly meetings are being held. At the last meeting, Prof. Durkee prepared a very interesting synopsis on the "Engineering Work of the World."

The Acadia *Alumni* was issued on Nov. 18th. The editor in chief, Harvey Reid, deserves a great deal of credit for the excellent start he has made.

Basketball is the next sport on the program and we are looking forward to some interesting class games.

THE ERA OF LIGHT ABOUT TO DAWN FOR MIDDLETON.

(From the Middleton Outlook)
The lighting question in Middleton is almost as old as the town itself. The records of the board of trade show that this subject has been under discussion every few months ever since the organization of the board some sixteen years ago.

Almost every kind of lighting system that has been devised has been tried in our town. The outcome of these many experiments was the conviction among our citizens that there is but one satisfactory lighting system and that is the electric.

At a meeting of the town board of trade held over a year ago the old, old time was again considered and a resolution was passed asking the Town Council to thoroughly investigate the power question with the view to ascertaining the best method of operating an electric plant for Middleton.

Mayor Jones and his associates promptly took up the matter. An examination of the nearby water powers was made with the assistance of Engineers Archibald, of Torbrook, and Gelling, of Bridgewater, and the Town Council became convinced that under present circumstances it was impracticable to utilize any of these for lighting purposes in Middleton; that coal must be the source of power in any lighting scheme at the present time.

Accordingly a plan was submitted to the rate-payers and endorsed by them. At this meeting the rate-payers consented to the installation of an electric lighting plant.

After further investigation the Council decided that a gas producer plant would best suit our conditions. The work of installing such a plant was accordingly undertaken, the Council engaging Mr. Gelling as consulting engineer.

The contract for a power house was given to Mr. Chas. Wright, Jr., who has erected a stonish brick building 40 x 25 feet with a small wooden coal shed attached.

A gas producer outfit of 65 horse power was ordered from the Colonial Engineering Co., of Montreal and Mr. Wright was set to install it. This is the looking machinery which appears to run smoothly.

The generator of 50 kilowatts, exciter, switchboard, transformers, outside wires and street equipment were procured from the Canadian General Electric Co., of Halifax and Montreal.

For the construction of the street plant a crew was borrowed from the Nova Scotia Telephone Co. Mr. George Jacobs, the company's foreman, in cable construction, being in charge of this crew. The best of cedar poles were used and the work thoroughly done.

We are informed by the competent to express an opinion that there is not a better outside line in the province.

The house wiring was done under the supervision of Mr. H. L. Haynes, a careful and pains taking mechanic. The first residence to be fully equipped ready for the "subtle fluid" was that of Councilor Goucher. The house wiring is still going on, but otherwise the installation of the system is nearly complete.

Early next week it is expected that the lights will be turned on and Middleton's era of darkness become a thing of the past.

The system will start with some 40 street lamps of 40 candle power each. These are scattered throughout the town but in several places the distance is so great that the darkness is undisturbed but rather deepened by contrast. It will probably be found necessary to add other lamps before all sections can be said to be lighted.

Meters are being installed in all the houses. The outdoor lamps and the indoor ones with a few exceptions are tungsten.

At the outset the hours will probably be from dusk to 12 o'clock and 3:30 a.m. to dawn. The all night service will follow as soon as the receipts justify such improvement.

While the Mayor and all the Councilors have given of their time to this important work yet a special committee composed of Messrs. Freeman, Jones, Reagh and Pinney has been entrusted with the execution of the plans decided upon by the Council.

Moving Made Easy.

MR. W. A. CHUTE, OF BEAR RIVER, HAS MASTERED THE TASK OF TRANSPORTING BUILDINGS.

(Middleton Outlook.)
Mr. W. A. Chute, of Bear River, has gained considerable notoriety as a mover of buildings. Indeed an edifice which Mr. Chute cannot transplant is an unjoined condition would be a novelty.

Enquiries elicited the following information in reference to Mr. Chute and his work. Mr. Chute grew up in his present business, his father, the late J. B. Chute, of St. John, having raised or moved many buildings. At the time of the building of the old Windsor and Annapolis railway J. B. Chute had the contract for removing 35 buildings in Annapolis Royal. His son remembers this work well, as he assisted his father in carrying out the contract.

W. A. Chute as a boy of 14 commenced this work 44 years ago and has been at it much of the time ever after. He has moved over 1500 buildings to say nothing of those raised, vessels floated and engines and boilers lifted from steamboats. This work has called Mr. Chute to St. John, Halifax and all over the Maritime provinces.</

Maritime Winter Fair.

On Monday next, December 4th, the Maritime winter fair will open at Amherst, and judging from the entry list in the various classes the success of the fair is assured. While all of the classes are up to the average, those of the Dairy cattle are far larger than any previous year. In this department ninety-two cows are entered in the milk test, comprising exhibits from the best herds in the three Provinces. As in the past lectures will be delivered each evening by expert judges on all subjects pertaining to agriculture and live stock. We would urge the attendance of those who have not in the past availed themselves of this opportunity to visit the fair.

All Records Beaten

In commending the COURIER's enterprise for prompt election news the Middleton Outlook says: Digby is generally the first county to be heard from in a general election, but in the by-election in that county on the 15th, all records were beaten. In 45 minutes from the time the polls closed the full returns had been received in Digby Town.

Canadian Silver Dollars.

OTTAWA, Nov. 28.—It is not unlikely that there will be an issue of the Canadian silver dollar before the New Year. The dies are all ready and everything is in good shape to strike off a bunch of them. "We may be able to have an issue before the New Year," said an official of the mint today. "But if we do this year's issue of the coin will become extremely valuable."

New York Tailoring at Canadian Prices

LAST year we sold a great many New Yorkers and other American tourists Semi-ready Suits in the latest New York style at from \$15.00 to \$20.00 less than they could buy them at home.

The price-saving is obvious. The American tariff on fine woollens is 100 per cent; and yet they must have the best English woollens, for their domestic worsteds are inferior.

A Semi-ready Suit such as we sell for \$20.00 costs \$35.00 in the United States. And no tailor in New York can produce better work than Semi-ready.

How do You Clean Out Your Chimneys?

Don't do it at all you say? When kerosene is put on damp kindling, and the blaze roars up the Chimney, does your brain do mental gymnastics figuring up when your fire policy expires, and how much insurance you are carrying? You can't feel safe when you hear that roar. Day after day, in the daily press, you have read news items of the disastrous fires caused by the soot in Chimneys under process.

Do you burn out your Chimney with salt, zinc, paper or some such method? If so, pause before you attempt that again. Ask any reliable mason how many fires Chimneys ever constructed. This is easily accounted for, when one thinks of the intense heat created by the soot falling to the interior of the Chimney. This heat through the cracks to settle on the woodwork. Result a hurry up pyromaniac procession from your house.

Perhaps you have spent five, ten or fifteen years building up your business through energetic application and careful figuring and have provided up-to-date conveniences and furnishings, but have neglected one item of vital importance, the lack of which may put you back where you started.

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clear, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs.

Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

"Let good digestion wait on appetite, and health on both!"

NA-DRO-CO DYSPEPSIA TABLETS

More zest in your tea-cup!
More smack in its delicious enjoyment!
At last, expensive study of flavor-blending has perfected a fullness, a richness, a smoothness of flavor that was once thought impossible.

Why it was thought impossible one sip of a cup of King Cole Tea will tell you. It is so much nicer, so far more satisfying in the grateful fullness of its flavor than any tea you ever tasted.

King Cole tea is flavor-fuller.

A Gift With a Thought in it

What other Christmas present costs so little and means so much as a subscription to *The Youth's Companion* for \$2.00? It is a gift which benefits not only the one who receives it, but every member of the same household.

With many Christmas presents the sense of novelty wears off by the week's end, but *The Youth's Companion* is as new and sought after the fifty-second week of the year as the first. It is elastic in its adaptability, too, for it does not matter whether the present is for a boy or a girl, young married people, sedate couples, grandparents—there never was one yet who did not set store by *The Youth's Companion*. You cannot make a mistake if you give *The Youth's Companion*—and it is only \$2.00 a year now to Canadian subscribers. On January 1, 1912, the price will be advanced to \$2.25.

The one to whom you give the subscription will receive *The Companion's* Calendar for 1912, lithographed in twelve colors and gold, and you, too, as giver of the subscription, will receive a copy of the Calendar.

THE YOUTH'S COMPANION,
144 Berkeley St., Boston, Mass.

Children Injured.

ORDINARY CATHARTICS AND PILLS AND HARSH PHYSIC CAUSE DISTRESSING COMPLAINTS.

You cannot be over-careful in the selection of medicine for children. Only the very gentlest bowel medicine should ever be given, except in emergency cases. Ordinary pills, cathartics and purgatives are apt to do more harm than good. They may cause griping, nausea and other distressing after-effects that are frequently health-destroying.

We personally recommend and guarantee *Rekall Ordineries* as the safest and most dependable remedy, which we know, for constipation and associate bowel disorders.

We have such absolute faith in the virtues of this remedy that we sell it on our guarantee of money back in every instance where it fails to give entire satisfaction, and we urge all in need of such medicine to try it at our risk.

Rekall Ordineries are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regular coat of the bowels, thus restoring the bowels to more vigorous and healthy activity.

Rekall Ordineries commonly completely relieve constipation, except of course when of a surgical character. They also tend to overcome the necessity of constantly taking laxatives to keep the bowels in normal condition. Three sizes of packages, 10 cents, 25 cents and 50 cents. Remember, you can obtain our *Rekall Ordineries* in Digby, only at our store—The *Rekall Stores*, P. W. Holdsworth, Digby; Ryan & Blackadar, Weymouth.

Can You Ask More?

YOUR MONEY BACK FOR THE ASKING. YOU PROMISE NOTHING.

We are so confident that we can furnish relief for indigestion and dyspepsia that we promise to supply the medicine free of all cost to every one who uses it according to directions who is not perfectly satisfied with the results. We exact no promises and put no one under any obligation whatever. Surely nothing here where you live, and our reputation should be sufficient assurance of the genuineness of our offer.

We want every one who is troubled with indigestion or dyspepsia in any form to come to our store and buy a box of *Rekall Dyspepsia Tablets*. Take them home, and give them a reasonable trial, according to directions. If they don't please you, tell us and we will quickly return your money. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regular coat of the bowels, thus restoring the bowels to more vigorous and healthy activity. Three sizes, 25c, 50c, and \$1.00. Remember, you can obtain *Rekall Remedies* only at our stores—The *Rekall Stores*, P. W. Holdsworth, Digby; Ryan & Blackadar, Weymouth.

Be Fair. Buy a sack or barrel before judging PURITY FLOUR

SOME people have attempted to judge PURITY FLOUR before knowing the facts about it—before using it. So we ask you to be fair and to buy a sack or barrel of PURITY FLOUR and give it a thorough try-out before attempting to arrive at a judgment.

Look at the beauty and loftiness of the golden-crusted, snowy-crumbed loaves, fit for a king. Count them and see how many more of them PURITY yields to the barrel than ordinary flour does.

Taste the creamy, flaky pie crust, and the deliciously light cakes. PURITY FLOUR rewards you with My!

How they make your mouthwater! Such high-class results can only be obtained when using a flour consisting exclusively of the high-grade portions of the best Western hard wheat berries.

And remember, that, on account of its extra strength and extra quality, PURITY FLOUR requires more water when making bread and more shortening when making pastry, than you are accustomed to use with ordinary flour.

Buy a bag or barrel of PURITY FLOUR. Test it for a week. Then pass judgment. Add PURITY FLOUR to the grocery list right now.

They were met by the governor of Bombay and a large gathering of high officials belonging to the civil and military service. They at once proceeded to a huge amphitheatre which had been erected opposite the landing stage, and which was filled to its utmost capacity with many thousands who had come to welcome their majesties.

The scene was a remarkably brilliant one. The handsome levee dress of the officials and the uniforms of the naval and military officers, together with the bright toilettes of the women only served to emphasize the gorgeousness of the ceremonial attire of the Indian chieftains.

Ottawa News.

OTTAWA, Nov. 30—There is a rumor current in the corridor of the house tonight that parliament will adjourn from Dec. 7 to Jan. 12. The report is based on the circumstance that Dec. 8 is a parliamentary holiday and the Ontario elections take place three days later. As many Ontario members desire to take part in the elections it is possible that their desire for an adjournment may be acceded to, although no decision has been arrived at. It is thought that the estimates for the current fiscal year can be put through between now and Dec. 7, and most of the legislation outlined in the speech from the throne at least introduced.

Saturday Night's Show.

H. PRICE WEBBER'S BOSTON COMEDY CO. PLAYED TO A FULL HOUSE.

"The best company here this season," was the expression of many who composed the very large audience which witnessed the excellent performance given by Mr. Webber's troupe in the Bijou Dream last Saturday night. Mr. and Mrs. Webber are known by all the theatre goers and best residents of the towns in the New England States, the maritime provinces and a large portion of Quebec. Mr. Webber is familiar with and not only remembers the names of all the principal people in the town, but knows the names of the surrounding villages as well. In this way his local hits are numerous throughout his plays and are always pleasantly received by his audience. He has been on the road half a century, his company has been noted for their integrity and temperance principles and have a host of friends who are always pleased to meet them. Record Price For Mackerel

A record price for fresh mackerel was made in Gloucester, Mass., on Tuesday of last week. There were four small netting trips in, the catches running from 35 to 250 fish. The first trip did not excite much attention among the buyers and went at 25 cents per fish. The next boat did better, getting quite a raise, but the last two, with the smaller trips, the last of which the dealers bring after their fish, with the result that the price was run up to 35 cents per fish before the trips were sold. It is believed that this is the highest price ever paid for fresh mackerel at that place.

SEVERAL IMPORTANT MATTERS DISCUSSED WEDNESDAY EVENING.

The meeting was called to order by the President, Mr. H. T. Warner, there being a large attendance of members present. The minutes of the last meeting were read and approved. The principal subjects for discussion were: "An improved and all night Electric Light service for the town" and "An all night telephone service for the town." Mr. Short, W. S. Troop, H. T. Warner, C. A. Jordan and Dr. J. E. Jones were made a committee to enquire into the present condition of the electric light system and all night service and interview Mr. Daley, the owner of the plant, with a view to ascertain what he is willing to do to improve the system and under what conditions an all night service can be had, and report to an adjourned meeting of the Board to be held on December 27th inst.

The telephone proposition was then taken up and the possibilities of securing night service. The advertising of the Town by the Board of Trade was then discussed, particularly by Messrs. W. S. Troop and C. A. Jordan. Messrs. George H. Peters, H. C. Denton and W. S. Troop were made a committee to formulate and circulate a petition requesting the Town Council to make an appropriation for advertising and on motion of Mayor H. B. Short and W. S. A High Class Entertainment Not Patronized.

There are a number of people in Digby who are always calling down what is considered a cheap amusement company and are continually asking for a high grade entertainment. Where were these people last Wednesday evening? Mr. Cripps, the enterprising manager of the Bijou Dream, succeeded in arranging a date with Mr. McKeay and Miss Wehring, two of the most talented entertainers in Canada, who have received the patronage of the best people in the hundreds of towns they have visited. Their coming to Digby was advertised fully as well as any other company who have visited this town during the present season, but last Wednesday night less than two dozen people purchased tickets, with the result that the money was refunded to them as Mr. McKeay and Miss Wehring had never before been called upon to appear before such a small audience. It should be mentioned, however, that on Wednesday night the Mayor and Town Council and the majority of the leading business men of the town were attending an important meeting of the Digby Board of Trade.

almost startling suddenness, and we can scarcely realize that another twelve months has passed by. The aim and object of this ad. is to be of some assistance to you in your Christmas shopping, to make suggestions and help you in selecting suitable gifts. People who go shopping without a preconceived notion of what they want rarely come home satisfied. Being fully aware of this fact, we wish to give you helpful hints, before hand, so that you can sit down in the quiet of your home and get some idea of what can be procured before you set out on a shopping expedition. Try this plan, and see how much weariness and perplexity it will save you.

Fancy and Useful.

Every piece in this Department was picked and purchased with some one in view as a prospective buyer. In looking around you will see pretty things in China, Brass, Novelties, Mirrors, Manicure Sets, Ladies' Bags, Photo Frames, Purses, Brush and Comb Sets, Clocks, Jewel Cases, Music Rolls, Ladies' Companions, Atomizers, and numerous other articles that space does not permit us here to name.

BOOKS.

Christmas Books for every member of your family. A good book for the Boys and Girls is the choicest of gifts. At Christmas time you have a chance to cultivate his or her taste for reading by giving good books that are instructive, as well as entertaining. We are offering regular 50c books for 25c each.

BIBLES.

We have made a careful selection from the most reliable publishers, and you will find here just the size type and style you require. Prices 30c to \$2.50 each.

Calendars and Xmas Cards.

We do not need to call attention to the appropriateness of a pretty Calendar as a gift, for there could be nothing nicer. We have Xmas Cards in endless variety, little remembrances of the season, such as everybody is looking for. 12c per doz.

Holiday Stationery.

Correspondence plays no small part in every-day life, therefore Stationery is always acceptable. Our variety for this season is as novel and beautiful as it is useful and good. Prices 15c to \$1.00 per box.

Why not a real good Fountain Pen? But be sure you buy the best, as a poor pen is a poor remembrance. We sell the WATERMAN IDEAL Fountain Pen in Silverware & Cut Glass.

Among the most pretty novelties for Christmas giving there are many dainty things in Silverware and Cut Glass, which not only add attractiveness to the table, but in themselves are serviceable. We invite your inspection when visiting our store.

Dress Patterns.

For years the custom of giving Dress Patterns at Xmas time has been increasing, and with good reason. A Dress Pattern represents a gift always welcomed by any woman or girl. Being given in the material it can be made up whenever the recipient desires, and can be made in any style that she may select, thus relieving the giver of a great deal of anxiety that goes with other presents. We invite you to this Department and allow us to show you our Chiffon Broadcloths, English Worsteds, Scotch Suitings and Serges.

Dress Suit Cases.

A most serviceable article for those who wish to give them as an Xmas Present.

CONFECTIONERY.

Candy is as much a part of Christmas as Santa Claus or the Christmas Tree. In our Candy Dept. we have a full and complete line of "GANONG'S" pure Candies. Notwithstanding the advanced price in sugar, we are selling 2 pounds of Chocolates for 25c; 3 pounds Mixed Candy for 25c; 3 pounds Crystal Creams for 30c.

Fruit, Nuts and Raisins.

We have purchased large quantities of Oranges, Grapes, Figs, Nuts, Raisins, and they will be sold at close margins, which will give long life to your dollar.

Ten Cent Counter.

Grand Opening —OF— Holiday Goods

December 7th
and Following Days

GREETING.

CHRISTMAS AGAIN. Year after year it comes upon us with an almost startling suddenness, and we can scarcely realize that another twelve months has passed by. The aim and object of this ad. is to be of some assistance to you in your Christmas shopping, to make suggestions and help you in selecting suitable gifts. People who go shopping without a preconceived notion of what they want rarely come home satisfied. Being fully aware of this fact, we wish to give you helpful hints, before hand, so that you can sit down in the quiet of your home and get some idea of what can be procured before you set out on a shopping expedition. Try this plan, and see how much weariness and perplexity it will save you.

Fancy and Useful.

In looking around you will see pretty things in China, Brass, Novelties, Mirrors, Mantel Sets, Ladies' Bags, Photo Frames, Purses, Brush and Comb Sets, Clocks, Jewel Cases, Music Rolls, Ladies' Companions, Atomizers, and numerous other articles that space does not permit us here to name.

Holiday Stationery.

Correspondence plays no small part in everyday life, therefore Stationery is always acceptable. Our variety for this season is as novel and beautiful as it is useful and good. Prices 15c to \$1.00 per box.

A BAD DEATH.

Our community was very much shocked and saddened Saturday evening, when the boats got in from trawling and the news was flashed around that Goudy Southern was dead. On the way home he had gone down to bail the boat out as the engine was skipping, and feeling cold, decided to stay down under the covering. In a short time his partner, Milton Gower, called to him to assist about the boat but getting no answer tried to arouse him. He thought he was asleep, but he soon found he had inhaled the gas and was dead. It was nearly an hour from that time before he got home and it so happened that Dr. Bishop and Loran Miller were on the spur. Westport. They took him there and worked faithfully for two hours, but life was extinct, and his lifeless body had to be carried home to his widowed mother, who is heart-broken. Much sympathy is felt for her and his twin brothers, Reginald and Franklyn. Goudy was 18 yrs. and two months of age, a member of the Baptist church and Tyro Division and was a favorite amongst all the young men of this village. CHRISTMAS.

The glad, joyous, festal time draws near, and unnumbered hearts are beating in delightful anticipation. Store

windows are decked in holiday attire. The holly and evergreen hang in festoons and the wonderful Christmas tree is gradually putting in an appearance, cheery voices ring out in rehearsals of song and chorus for celebration night. Merry Christmas will soon be here and Christmas songs are songs of peace, Christmas greetings are greetings of good will. How they soften hardened hearts, purify base desires, sweeten bitter thoughts, and make every deed purer and holier; every wish kind and tender. Let hearts expand, sympathies enlarge, and good will reign. Let benedictions drop from lips, and substantial gifts fall from overflowing hands. Make cheerless homes radiant and hopeless hearts to thrill with unspeakable gladness. Forgive your enemies. Bury the past. Rise above the mean and petty resentments which you may have harbored against those who have not used you well. Be generous. Get ready to start the New Year with more kindly and more noble ambitions. Make the Christmas of this year a day to which you can always look back with pleasure and gratitude. Peace and good will unto you, dear reader, and a Merry, Merry Christmas to all.

Hug killing is the order of the day and puts one in mind of the following story: One old farmer met a neighbour and said: 'Well Si, how much did your hog weigh?' and was answered thus, 'Well, he didn't weigh as much as I thought he would and I didn't think he would either.'

Notice To United States Subscribers.

The extra postage compels us to place our United States list of subscribers on a cash-in-advance basis. We therefore ask all subscribers residing in the United States, whose date label does not show at least 11, to make us a remittance before Dec. 31, 1911, the end of the present year. This, we believe, must be a matter of neglect on their part as none of our Digby county people residing in the United States would have us believe that there was ever a time when they did not have a dollar and a half in their pocket. Send along your remittances at once and we will send receipt by return mail.

GREETING.

CHRISTMAS AGAIN. Year after year it comes upon us with an almost startling suddenness, and we can scarcely realize that another twelve months has passed by. The aim and object of this ad. is to be of some assistance to you in your Christmas shopping, to make suggestions and help you in selecting suitable gifts. People who go shopping without a preconceived notion of what they want rarely come home satisfied. Being fully aware of this fact, we wish to give you helpful hints, before hand, so that you can sit down in the quiet of your home and get some idea of what can be procured before you set out on a shopping expedition. Try this plan, and see how much weariness and perplexity it will save you.

In looking around you will see pretty things in China, Brass Novelties, Mirrors, Manicure Sets, Ladies' Bags, Photo Frames, Purses, Brush and Comb Sets, Clocks, Jewel Cases, Music Rolls, Ladies' Combs, Stomachers, and numerous other articles that space does not permit us here to name.

We invite you to this Department and allow us to show you our Chiffon Broadcloths, English Worsteds, Scotch Suitings and Serges.

The Closing Year.

BY A. J. BEEBE.
The good old year is gone, sincere,
Addressed to you;
Can you say good-bye without a sigh
Or having a short review?
I've run my race, I've filled my place;
What have I been to you?
Oh, speak to me, before we part,
And you greet me happy New Year.
I brought you grief, had then relief,
I brought you shine and shade,
I brought you tears and many tears,
I brought you joys that fade.
That were too sweet to last;
In memories left you've kept them well.
Rich treasures of the past.

Now have you faith in the word which saith
All things work together
For good, to those whose hearts enclose
A love for the Blessed Saviour!
It was not best that you should rest
Where sublimed ever play;
I watched the Jew, you called me cruel,
The good you'll see some day!

If all your dreams and earthly schemes
And wants were gratified,
For more you'd sigh to please the eye,
You'd not be satisfied.
Say "I go you will bestow
A friendship worth receiving,
"Love scarce is love that never knows
The sweetness of forgiving."

Go greet the New but keep in view
A day is to come,
When talents lent will all be spent,
Your time for labor done,
And now I go and who will know
What I have been to thee;
But one great day alone can
What you have been to me.

HIS DINNER WITH DORSEY

Hawkins, having read his 'Arabian Nights,' was cynically appreciative of the situation.

'Have some more turkey,' insisted Hiram Dorsey. 'Isn't this quite the finest bird you ever put lips to?'

With a quizzical glance at the old man Hawkins silently passed his cup to plate.

'You don't enthuse,' complained the other. 'This bird is of a rare breed—lineal descendant of one of those blessed fowls the pilgrim fathers sacrificed on the first Thanksgiving. I understand. Quite a sacrifice this, serving one on New Year's day.'

John Hawkins favored his garrulous host with a rueful smile and fell to making a most unnecessary noise with his knife and fork, unnecessary because there was absolutely nothing on his plate. The turkey so highly praised by the little gray haired one at the opposite end of the table was conspicuously absent, as was everything else of a food nature.

Hiram Dorsey, manufacturer of Dorsey fliers, that popular car so well and favorably known to followers of the fad, had sent to Grove Bros., his Boston representatives, for a capable young salesman who wished to establish himself with the New York concern.

John Hawkins, after a long talk with the elder Grove, had decided to try out this offer.

'He's a peculiar one,' cautioned Grove. 'Don't cross him in anything and you will find him the best boss in the world. Do otherwise and—well, you will be hunting for another job. Some people say that—Grove tapped his bald head suggestively—Dorsey is a little off. But I don't believe it.'

'He must be,' responded Hawkins, his face a bit gloomy, to insist upon me, a total stranger, taking New Year's dinner while we make business arrangements.'

'Don't cross him,' cautioned Grove again. 'Go, by all means. If he takes a liking to you your fortune is made.'

The tall, pleasant faced youth who handed his card to the pretty maid answering the bell at the Dorsey domicile was unprepared for the effusive greeting vouchsafed him by his stranger host.

'You are prompt,' he enthused, grasping the young man's hand in a clasp. 'I appreciate promptness.'

In the library the conversation touched upon all subjects except the business which had brought Hawkins there. The older man proved to be of keen mental caliber. The appreciative youth smiled at the cautioning words of Grove came back to him, 'Don't cross him.'

The dark eyes of the lad inventoried the tastiness of the place. Dorsey Grove had told him, had one motherless daughter. Hawkins felt that he would like to meet this girl, doubtless the spirit responsible for the clever arrangements of this man's room.

The manufacturer touched a bell. 'You may serve dinner, Corlies.'

This to the snug mental responding, 'We dine alone,' explained the old man, turning to his guest.

The rather small dining room was a

symphony in tastiness. The table was resplendent with polished glass, glistening silver, snowy linen.

They seated themselves. The stolid butler brought a great platter, and, with a picturesque flourish, Dorsey proceeded to carve, his lip curving to many an eulogizing word—'Nothing!'

The platter was empty. So were the various other dishes from which the host heaped imaginary viands to the plate of this hungry guest.

Hawkins, surprised almost to a point of remonstrance, suddenly recalled the words of his late employer. His black eyes took unto themselves a humorous twinkle, and in all seriousness he sat about making a meal from the make believe bird.

As the 'dinner' progressed Hawkins fell firmly into the spirit of the jest. He praised the fowl and extolled the merits of the extraordinary celery. He summoned a compliment for every steaming dish which by precedent should have graced the table—and didn't.

'You certainly are an appreciative youth,' contributed the manufacturer. 'You have made a mistake by leaving Boston to come over to me.'

After invisible dessert, demitasse and cigars as subtle as all that had gone before, the long drawn out dinner was done. Once again the host and his guest sought the library.

A fluttery vision arose, starting, from in front of a heavy mission writing desk.

'I—I wasn't aware that there was any one in the house,' explained the girl confusedly. 'Why, papa, you told me that you were dining out.'

'So I did. So I did,' interrupted the old man hastily. 'Mr. Hawkins, turning to the youth, 'this is my daughter, Miss Alys Dorsey.'

Miss Dorsey had made an instant impression on the youth from Boston. The delicate rose petal flush on the perfect oval of her cheeks, the half frightened light in the great eyes, the dress gowning the slight form of the girl—all these and the alluring gold of her wonderful hair had promptly thrilled the hitherto unsusceptible heart of the Habite.

He acknowledged the introduction with a bit of diffidence in the formality foreign to his usual self confident grasp of things.

'You have had dinner, papa?' asked the girl after the eyes of the young people had met and the telltale color had crept again to the temples of the girl.

'Just left the dining room,' answered her father. 'But how happens it that you are here? I thought you had decided to spend the day with your aunt in Brooklyn.'

'Not at home,' briefly explained Alys Dorsey. 'Now, gentlemen, if you will excuse me, I will see what Corlies has left for me. I am hungry.'

'But, Alys,' suggested her father uneasily, 'wouldn't you rather take dinner at a—er—good restaurant?'

The girl started.

'I should say not,' she answered indignantly. 'I would much rather dine at home.'

'But—er—what is left from dinner is quite apt to be cold by this time.'

'I'll risk it,' assured the girl, with a laugh. With a smile and a nod at the fascinated Hawkins she left the room.

Dorsey was plainly worried.

Hawkins watched him curiously, blowing invisible smoke rings from his imaginary cigar.

'Fine weed this,' he complimented Dorsey scorned.

'Let's put an end to the comedy,' he growled.

The heavy brows of Hawkins raised in polite interrogation.

'Don't do that,' came from the older man testily. 'Can't you see the game is done?'

'It was partly a joke,' continued the manufacturer, and partly a test. I have always been bothered by salesmen who through their quick tempers and surliness lost me thousands of dollars. I decided on this dinner before putting you on. If you could go through with the joke it would indicate three things—tact, tolerance and an ability to adjust yourself to most unusual situations.' The old man sighed ruefully. 'Well, you made good. The joke is on me—doubly so, because Alys has returned. She doesn't think much of practical jokes, and—'

'Papa!'

Dorsey turned a crimson face to the door. His daughter stared at him long and meaningfully.

'Don't you think, papa, that you would better phone the garage and have the big car sent up? I have a mind to dine at the Aldford, and I am sure Mr. Hawkins is hungry.'

'Yes, my dear,' answered Dorsey humbly.

A Cat With a History.

Judging from all the stories that were being told on the water front Monday, Portland has lately been entertaining a cat with a history, says the Portland Press.

This cat came into port on the Gloucester schooner 'Edie Morrissey' Saturday morning and stayed here during Sunday. The feline was a big black Tom with a white breast and he attracted general attention because of his beauty.

But he would have caused still more admiration if the people at the time he was here had known his history. This cat was the pet on board a schooner wrecked between Philadelphia and Bermuda. The cat was picked up by another craft floating on a plank and became the pet of the men on a three master. The tern schooner made port in Nova Scotia and it was in this same port that the Morrissey got the cat. Just how the feline took up quarters on the fisherman is not known. It is supposed he took leave of his old shipmates and wanted to be where he could have all the fish he wanted.

Anyway, the cat was on the little schooner when she came in here and was the object of much attention on the part of those who heard about his history. All the cat did, however was to lick his paws and look wise. He knew he had nine lives at his disposal so did not worry much about having one of them in danger while on the plank. It is thought he may have lost eight of his nine periods of existence and that it was the ninth one that was saved. Perhaps it was so.

Bay of Fundy Steamship Service.

A correspondent writes: Engineers have been busy surveying properties at the head of St. John harbour, along side of that lately acquired and improved by the C. P. R. for warehouse and yard purposes. It is stated that the railway company seeks to secure the properties lately surveyed with the intention of utilizing them in connection with the Bay of Fundy steamship service, which now has its steam berth near the mouth of the harbour.

The Place to Advertise.

'Turn that wrapping paper the other side out,' said a lady in a dry good store recently as the clerk was putting up her purchase in a printed wrapping paper. 'I don't want to be a walking advertisement for your store. I read the local papers as all intelligent people ought to do, and I think in them is the place to advertise.—E.

Rather Mixed.

In a downtown business place there are two telephones. One morning recently the office boy called to the manager and told him his wife wanted to speak to him on the 'phone. 'Starting towards the booths the manager inquired: 'Which one?' 'I can't say, sir,' replied the boy, 'I didn't know you had more than one.'

Practising Economy.

'Nothing lost here but the squeal,' declared the pork packer. 'Are you as economical in conducting your business?'

'Just about,' answered the visitor, 'I'm in the lumber business. We waste nothing but the bark.'

Fishy Contents.

It would seem doubtful whether fish have any sense of taste. Evidence goes to show that they all, from the shark down, swallow things indiscriminately. The schooner 'Oliver

MOVING FOUR TOWNS.

Kansas County Seats Will Be Hauled Several Miles.

WHEN SANTA FE MOVES IT WILL BE A PUBLIC HOLIDAY—ALL THE BUILDINGS WILL BE HAULED BY TRACTION ENGINES—A METHODIST CHURCH HEADS THE PROCESSION.

Four Kansas county seat towns are to be moved bodily. All four towns will be jacked up on rollers and wheels, pulled by steam traction engines distances ranging from six to twenty-five miles and set down on new town sites.

And all because the Atchison, Topeka and Santa Fe Railway Company has decided to build an extension southwest from Dodge City through four southwest Kansas counties hither to railroads.

Santa Fe, county seat of Haskell county, will be missed by the new line by six miles. Already the people of the town are preparing to move south to a new site on the railroad. New Ulysses, county seat of Grant county, will be 25 miles off the railway, and will be moved that distance. Hugo, county seat of Stevens county, will have ten miles to move. Richfield, county seat of Morton county, will move eight miles.

As the surveyors have definitely plotted the route of the new road through Haskell county, and construction work will be completed first on that part of the extension, Santa Fe will be the first to move to the railroad.

'It won't be much of a job to do the moving once the buildings are jacked up and on wheels,' says County Clerk J. L. Brown. 'The real problem will be, however, how to take care of county business while the moving is going on.'

'You know there are a lot of things which the law says must be done at the county seat. When we get the court house moved out three miles from town, it won't be in any county seat. I don't believe any of the business transacted in the court house during the time the building is being moved will be legal.'

'And when the town is moved to the new town site, even though it is the same old town with the same old buildings, the same old name, and the same old people, it won't be the same town site, and I doubt whether it will be a legal county seat until the people take a vote on it.'

Sheriff W. W. Lucas is not worrying much about the moving of the jail. It has been so long since there was a prisoner in Haskell county that the sheriff would hardly know where to find the keys.

Santa Fe has a court house, a town hall, two newspapers, a good school house, a church, a bank, and a lot of good business houses. The county has a population of about 1,000, practically all of whom live in or at the edge of the town.

'We have been wanting a railroad for twenty years,' said J. F. Pearce, editor of the Santa Fe Republican. 'Now that the road is building, if it don't come to us, we'll go to it.'

And Editor Pearce started out to hunt up a traction engine man to hook up onto his printing office, an pull it to the new railway, six miles away.

When Santa Fe moves it will be a public holiday. There are enough traction engines either of steam power or gas motors, in this great farming section to pull the buildings of the town all at the same time.

It is the plan to have every building on wheels ready for moving and then take the whole town over at the same time, in one long spectacular procession, headed, very properly, by the town church, a Methodist edifice, with the Rev. W. H. Stanley, the pastor, riding in front.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it is no longer a tube; it is a closed room. When it is closed, the sound vibrations are absorbed by the mucous and the result is deafness. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by HALL'S CATARRH CURE. Send for circulars, free.

A Stylish Prayer.

There had been a dressmaker in the house and Minnie had listened to long discussions about the very latest fashions. That night when she said her prayers, she added a new petition uttered with unwonted fervency:

'And, dear Lord, please make us all very stylish.'

Rain From Heaven.

While passing along a muddy street the other morning, I heard a little chap say to his sister:

'It don't ever rain in Heaven, does it, May?'

'In course, it does, ye little chump! the girl replied. That's where it's all a comin' from, ain't it?'

Know What He Wanted.

He was an old merchant who had built up a big business by advertising.

'John,' said his wife 'what do you want on your tombstone?'

'Oh,' he answered, 'it isn't very important what the text is so long as it gets good space and is well displayed.'

MOVING PICTURE FILMS

Great Establishment Needed to Make Simplest Shows.

THE PICTURE THEATRES WHICH COST THE PUBLIC MILLIONS PER ANNUM ARE SUPPLIED BY BIG CONCERNS EMPLOYING MANY HIGH SALARIED ARTISTS—NO PICTURE IS PRODUCED UNDER COST OF \$400.

Just what a gigantic business the moving picture drama has become is hard to realize without a minute study. The preliminary steps, before the film is ready for the public, are many. A visit to the plant of a big firm will soon show just what the nickels and dimes of the public make possible. A large square block in one suburb is devoted to the production of pictures and keeps 200 men and women regularly employed and turns out on an average of five finished films a week.

The public has but a faint idea of the wonderful amount of detail that is necessary before a picture or even a sitting is ready.

There are employed over fifty actors and actresses and they are by no means discards of the legitimate theatre. Very clever people only are engaged, whose experience has been varied and thorough. When two p. three receive as much as \$100 a week it may readily be imagined that it is not a question of just posing for a picture.

The claim is made, that no film is turned out at less than \$400 cost, and that big war scenes and like group pictures cost thousands of dollars, before they are ready for the public.

The recent drowning of a leading actor of one of the moving picture companies shows that these actors often have other than a life of ease. It appears that requests for positions are so heavy that the company throws most of them in the waste basket. Those who are accepted fill out blanks that they are healthy, can ride, swim, etc.

To prepare for a picture the company employs a staff of carpenters, papier mache experts, upholsterers, painters, etc., each having a fully equipped shop. When everything is ready for a picture the scene is rehearsed by the company several times before the plate is exposed. It may appear easy to walk around and gesticulate a part without saying a word.

Yet none of the actors can impart the meaning of the picture without audibly speaking their lines. To the extent that every move must perfectly convey the intent is the moving picture actor called upon to be cleverer than the actor who appears in a theatre. He has no words to help him impress his meaning on the audience. Even more than the actor is the moving picture player painted and powdered. He has to be, in order to show his features on the film.

After the scene has been photographed and developed it goes through a half a dozen processes before it is ready for the brokers who sell the rights to the theatre proprietors. It is touched up, retouched, clipped and trimmed before it is finally declared satisfactory. In spite of this, however, the company can turn out five films a week. It is a bustling little city from early morning until very late, often half the night. Men are running around in this or that uniform or regalia. A cowboy may be joking with a Beau Brummel, or a soldier with a bandit.

Scenes are strewn about in profusion. At one end is painted a brick wall of a prison, used to depict the escape of a convict. Across the way is being enacted a barnroom scene, with its culminating shoot. Ten feet from this is a big water tank, so framed as to look like a beautiful lake. The whole forms an everchanging picture book.

Probably the most interesting department is the manuscript section. Hundreds of picture stories are sent to the reader, who pass on them. If accepted they are accredited and reread. Then they are sent to the director. These manuscripts are all written out just as if they were for the legitimate stage. Many of them are from Europe, and are written in all languages. Naturally more than half of the manuscripts are thrown away as useless.

The pictures are sent to all parts of the world, and many films are prepared with this object. Thus there is a sign posted prominently ordering all kissing on the forehead or cheek only, as osculating on the mouth is not publicly exhibited in Spain, Italy and other countries.

At an ordinary establishment everything that is needed is manufactured excepting the film. Even the photographic machines are made

DIGBY WEEKLY COURIER

Digby, Dec. 29, 1911

The COURIER extends to all its patrons a Happy and Prosperous New Year.

Our Enlarged Size.

Our constantly increasing advertising patronage has warranted us in enlarging the COURIER from four to six pages, a feature which will no doubt be appreciated both by our subscribers and advertisers. This will give us more room for foreign news and village notes, the latter being an important feature with more than two thirds of our readers, both in Canada and in the United States. We trust that our efforts will be appreciated and believe that this new venture will be the means of greatly increasing our circulation during the coming year.

Christmas at the Alms House.

ONE OF THE MOST SUCCESSFUL EVENTS IN THE HISTORY OF THE INSTITUTION.

The inmates of the Alms House in Marshallsburg, certainly had a "Merry Christmas" this last Monday and keeper Arthur Marshall and Mrs. Marshall, the matron, deserve a lot of credit for the manner in which the whole programme was arranged and carried out.

At 12 o'clock noon a dinner was served with a full Christmas menu: Geese, vegetables, cranberry sauce, mince pies, etc.

In the evening the Christmas tree, laden with dolls and toys for the young and gifts for the older ones, the pink and orange decorations, etc., presented a handsome and attractive appearance.

Mr. Ralph Marshall, brother of the matron, performed the duties of Santa Claus in proper style.

The citizens of the town of Digby furnished the funds for this occasion. Several special gifts for the inmates were received from various parts of the county and delivered as requested.

Guests were present from Roxville, Weymouth, Digby, Culloden, Gulliver's Cove and elsewhere and the entertainment, which consisted of instrumental and vocal music, games, etc., continued until a late hour.

Mr. and Mrs. Marshall wish to thank all the citizens of the town and elsewhere who contributed or otherwise assisted in making this pleasant affair such a success and to particularly thank the merchants who remembered them personally.

Mr. and Mrs. Marshall are evidently the right people in the right place and are giving the committee who appointed them, and the general public, excellent satisfaction.

The Bridgetown Bout.

GOOD BOXING IN OUR SISTER TOWN LAST FRIDAY NIGHT.

Mr. George Nedeff, "Eastport's unbeaten boxer," gives the COURIER the following story of the Bridgetown bout:

He says a big crowd was present to see him meet Walter Langford, of Weymouth, Sam's brother.

They advertised a ten round bout, but Langford quit in the sixth round, having sprained his wrist.

After the bout with Langford, Nedeff boxed two local men who only lasted one round each.

Nedeff is still looking for more trouble and any person who would like a hook with him is perfectly welcome.

The "strong boy" says he will give Langford another chance for fifteen rounds in Weymouth. If he does not stop him within the fifteen rounds he (Nedeff) will make him a present of \$50.00 and would like to hear from him as soon as possible.

Nedeff intends to go home for New Year's, but will return any time Langford wishes to meet him.

Digby Fishermen Safe.

TWO MEN WHO WENT ASTRAY FROM THE LOREN B. SNOW LANDED ON SEAL ISLAND.

John McWhinnie and Charles Taylor, of Victoria Beach, two of the crew of the Digby fishing schooner, Loren B. Snow, Capt. Howard Sealey, who strayed from their vessel while trawling on Wednesday evening, the 21st inst., off Yarmouth, about 20 miles west by south of the Cape, succeeded in landing on Seal Island after experiencing terrible rough weather and were brought to Yarmouth by a passing tug boat.

In the meantime their vessel, which had about 20,000 lbs. mixed fish on board, after cruising in that vicinity for some time, trying every way possible to sight the missing dory, arrived in Yarmouth the following night. Word reached here Friday morning that the men were missing which caused a lot of anxiety. The news of their safety was welcomed here Saturday afternoon.

Death of Margaret A. Jones.

Our obituary of this week contains a notice of the death at Brighton on Christmas night, of Miss Margaret Ann Jones. She was a daughter of the late Robt. Jones, of United Empire Loyalist stock, for many years a highly respected and esteemed resident of that place.

To the very many friends both at home and abroad by whom she was loved and respected, the news of her death will be heard with the deepest regret. She was a member of and an active worker in the Episcopal church. She exemplified in her life that it is possible to live up to its teachings and to regulate one's daily life by its precepts.

The funeral services were conducted by the Rev. Wm. Driffield on Thursday and the remains interred in the family burying ground at Marshallsburg.

CHRISTMAS WEDDINGS OF A LOCAL NATURE

MORRELL—SYPPER.

The marriage took place at the Methodist church, Sandy Cove, on Wednesday, the 27th inst., at 8 p. m. of Miss Josephine Kenney, daughter of Mr. and Mrs. C. Fred Sypper, of that village, to Capt. George Morton Morrell, of St. John, formerly of Freeport. The church was beautifully decorated in white and green, potted plants, arches bearing the words "Sypper" and "Morrell" and bells. The ushers were the bride's brothers, Messrs. Rose and Reginald Sypper. The bridegroom was conveyed to the church by auto. The ceremony was performed by the pastor, Rev. R. M. Browne, and the bride was given away by her father. Mr. H. Franklin Payson presided at the organ, playing Mendelssohn's wedding march at the entrance of the bride couple and "The Voice that Breathed O'er Eden" was rendered by Mrs. D. G. Dakin and Messrs. Guy and Archie Morehouse and Charles Burns. The bride looked charming in a gown of white satin with duchesse lace and crystal trimming and wore a veil and orange blossoms. Her bouquet was of cream, bridal roses and maiden hair fern. The maid of honor was Miss Lizzie O. R. Brown, daughter of the pastor, and wore a dress of cream with picture bonnet of pink silk and rosebuds and carried a muff to match. The bride's mother wore black silk.

After the ceremony over one hundred guests were entertained at the bride's home, among them being Mrs. W. V. Perry, sister of the groom, Capt. and Mrs. Ernest Lewis and Mr. and Mrs. Harris Young, of Freeport; Mrs. S. T. Payson, of Westport; and Mr. and Mrs. C. Miller, of Bear River. The bride's grandfather, Mr. George Crowell, and her brothers, Reginald, of Marbleshead, and Roy, of Montreal, were present. The gifts were numerous and handsome, showing the high esteem in which both bride and groom are held. The groom's gift to the bride was a Heintzman piano and the groom's foreman presented him with a substantial check. The groom's gift to the organist was a pair of gold cuff links and to the maid of honor a dainty pin set with pearls.

After a tour through the provinces Capt. and Mrs. Morrell will be at home to their friends at Sandy Cove on January 10th and 11th and will leave for their future home in St. John on the 13th.

THURBER—ELLIS.

A very pretty wedding took place at the home of Mr. and Mrs. James Ellis, Shore road, Monday evening, when their daughter Georgina Etta was united in marriage to Mr. Donald Hoyt Thurber, of Lynn, Mass., son of Mr. Frank Thurber, formerly of Freeport, but now of Salem, Mass. The ceremony was performed by Rev. L. Daniel, pastor of Grace Methodist church, in the presence of a large number of invited guests. The rooms were artistically decorated for the occasion, the ceremony taking place beneath a beautiful arch of evergreens and flowers. Mendelssohn's wedding march was rendered by Mr. Boyd Ellis, brother of the bride. Mr. Robert Ellis, of Allston, Mass., another brother, acted as best man and the bride was attended by Miss Edrie Truss, of Digby. The bride was beautifully gowned in white chiffon over meshine, with trimmings of fringe, and carried a handsome bouquet of bridal roses and chrysanthemums. The bridesmaid wore a pretty dress of blue silk and carried a similar bouquet. The presents were very numerous and handsome, showing in a high degree the popularity of both bride and groom. After the ceremony refreshments were served and the guests entertained with music, both vocal and instrumental.

Mr. and Mrs. Thurber left Wednesday, via St. John, for their new home at Virginia Terrace, Lynn, Mass., followed by the best wishes of their many friends.

FELLOWS—RAYMOND.

A pleasant event took place at the home of Mr. Wallace Raymond, of Watford, on Wednesday morning, the 27th inst., at 9:30 o'clock, when his daughter Margaret Stella was united in matrimony to Harold Starr Fellows, of Canimung, Kings county. The ceremony was performed by Rev. J. T. Irvine, pastor of the Digby Neck First Baptist church. The bride looked charming in a travelling suit of wine color, trimmed with black velvet. After the ceremony Mr. and Mrs. Fellows drove to Digby and boarded the express for Halifax, where they will spend a short honeymoon before returning to Canimung, where they will reside.

The Board of Trade.

A meeting of the Digby Board of Trade was held Wednesday evening to receive the reports of the electric light committee in reference to all night service; the telephone company also re an all night service and from the Dominion Express Co. in reference to a free delivery for the town of Digby.

The President, Mr. H. T. Warne, was in the chair; Mr. F. V. Nicholls, secretary. A letter was read from Mr. George Freeman, supt. of the Valley Division of the Nova Scotia Telephone Co., which stated that an all night service would be commenced as soon as twenty-five regular subscribers were added to the town list. Mr. Freeman will be asked to send a solicitor here for that purpose and it is thought that the desired number will be quite easily obtained.

A letter from the Express Co. stated that the matter was already under consideration, and that as soon as a person could be obtained at a reasonable cost, suitable for the work, the free delivery would be inaugurated.

Mayor H. B. Short, chairman of the light committee, read a report from Maj. Daley, owner of the light, and also a report from the committee.

What the committee is asking for is an all night service for four months of the year, June, July, August and September, and from dark until one o'clock in the morning during the remaining eight months with 35 candle power lights on the streets instead of 16 as at present.

There is a difference of rates between what Mr. Daley is asking and what the committee thinks should be paid.

Another meeting of the Board will be held in the near future to consider Mr. Daley's reply.

Mixed But Emphatic.

"Since you got married you are late every morning," complained the boss. "Well," explained the breathless clerk, "I have to button up the ashes and shake down a shirtwaist and carry out the furnace every morning."

Death of Mrs. Watt.

Mrs. Henrietta Jane, widow of the late Capt. Wm. Watt, died at the home of Mr. and Mrs. Charles R. VanTassel, Mt. Pleasant, on Saturday, the 23rd inst., at the age of 88 years and two days. She had been an invalid for five years but was always bright and cheerful, until a week before she died. She is survived by two adopted daughters, Mrs. Cereno Purdy, of Bear River, and Mrs. W. W. Parker, of Braintree, Mass.; also one sister, Mrs. Jonas Rice and one brother, Mr. Jeremiah Potter, both of Smith's Cove. The funeral took place on Tuesday, with interment in the Baptist cemetery, the services being conducted by Rev. T. S. Roy, from the Baptist church. We extend our deepest sympathy to the bereaved relatives and friends.

The Editor's Appreciation.

The editor of the COURIER wishes to extend thanks to Maj. Daley, President of the Courier Publishing Co., to the entire staff, to all the merchants in Digby and to his personal friends who so kindly remembered him this holiday season.

Concrete Work in Freezing Weather

UNTIL a few years ago, although concrete had already been generally adopted throughout the country by contractors and farmers for almost all structural work, it was the practice to stop all work on this form of construction as soon as the cold weather set in.

It has been found, however, that concrete work may be carried on in cold weather successfully, and with but very little more trouble than under ordinary circumstances.

This fact is of great benefit to the farmer, as it is in the colder period of the year that he is able to find time for building and making the many articles around the farm to which concrete so readily adapts itself.

With a few simple precautions it has been found that concrete can be used, not only in freezing weather, but when the thermometer has been actually below zero.

If the concrete freezes before it starts to "set" it will not be injured, but if the freezing takes place after the "setting" action has started, the concrete is likely to be damaged. When it thaws, owing to the expansion of the melting water forcing the particles apart and making the concrete crumbly. On the other hand, if the concrete has a chance to become thoroughly "set" before freezing, no harm will be done. To give it this chance you must first of all prepare the materials as described below, and secondly, you must protect the concrete after it has been placed in the "forms".

PREPARATION OF MATERIALS.

Concrete will on its own account, develop a certain amount of heat in

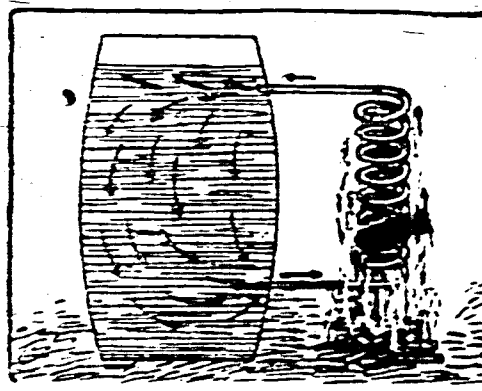

FIG. 1. SHOWING SIMPLE METHOD OF WATER HEATING.

the "setting" process. But in cold weather, some outside assistance, in the form of artificial heat, is necessary. The best way to develop this artificial heat is to warm the materials before mixing. This shortens the time that it takes the concrete to "set" and lengthens the time necessary to bring it to the freezing point. Bear in mind that the less water used, the quicker concrete "sets". Therefore, it is advisable to use as little water as possible in the mixing during cold weather.

HEATING WATER.

A simple and easily-made vessel for heating water is shown in the accompanying drawing. (See Fig. 1.) A coil is made of one-inch pipe with the ends fastened in the barrel and made water-tight. A small fire built under the coil will heat the water rapidly and will keep it in circulation, thus keeping all the water heated.

For this purpose it is wise to use a length of malleable iron gas-pipe, because it is easily bent into the required coil. This is done by taking a log or fence-post about the size of the coil and bending the pipe around it. This method prevents the pipe

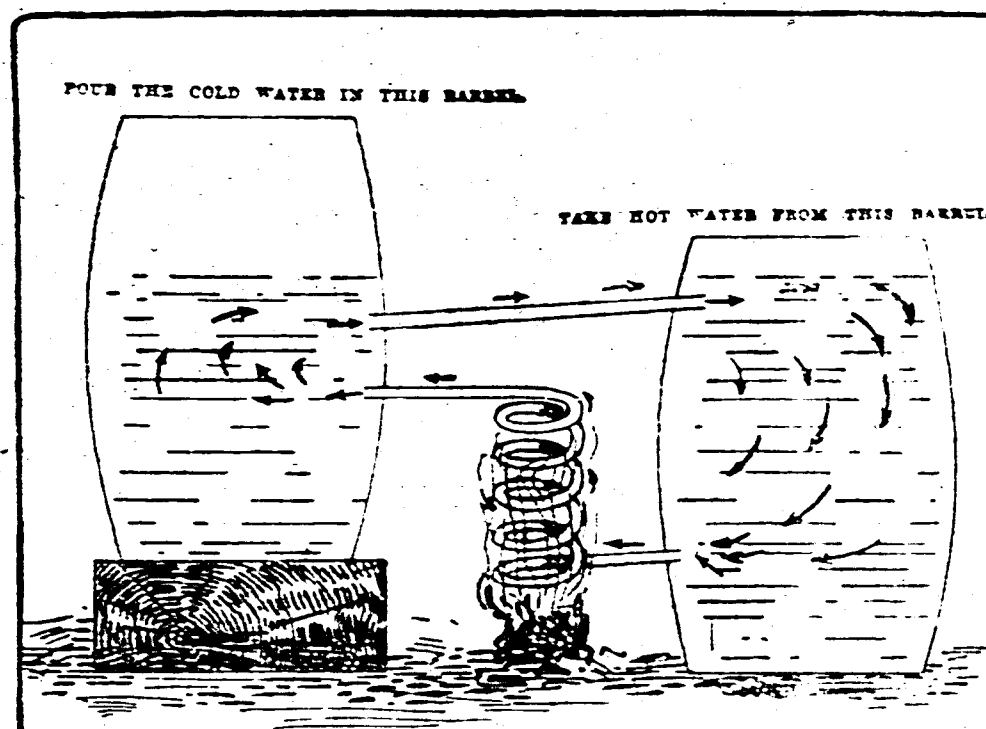

FIG. 2. SHOWING TWO-BARREL METHOD OF HEATING WATER.

from "buckling" and makes the coils more regular in size.

Where concrete work is being done on a large scale, it is advisable to use the two-barrel heater shown in Fig. 2. This allows the water to be constantly replenished without reducing the heat of the water in the barrel from which the hot water is taken.

Most farmers, however, possess large boiling kettles, used during butchering time, or for making soft soap, etc. One of these will do equally well.

FIG. 3. SHOWING HOW MATERIALS MAY BE HEATED BY MEANS OF A FIRE IN AN OLD STOVE-PIPE.

HEATING SAND AND STONE.

Sand and stone may be very easily heated by making use of two pieces of stove pipe, one piece for the sand and the other for the stone. The pipes are laid on the ground in such a position as to allow the wind to make a good draft. The fire is then built in one end. The flames pass through, heating the whole pipe, and as fresh fuel is added, the cinders are pushed along the pipe and gradually work out at the other end. The sand and stone should be piled on top of the stove

pipes, and will soon thaw out and become heated.

In very cold weather, the cement may be heated by laying the bags on top of the sand, but this is not absolutely necessary, as the cement itself must be kept dry until used, whether the weather be hot or cold.

TEMPERATURE REQUIRED.

Materials should not be heated to too high a temperature. A good way to judge the proper amount of heat is to make them just hot enough to be comfortable to touch. Care should be taken not to use any frozen lumps of sand.

PROTECTING CONCRETE IN POSITION.

After the concrete has been placed in "forms" it should be protected so as to keep the heat in as long as possible. This is more essential in thin structures than in massive walls and foundations; for the latter will hold their own heat longer on account of their thickness.

Wooden "forms" are non-conductors, and will retain the heat in the concrete up to a certain point, but the concrete should be protected on top by a covering of canvas or heavy paper, with a layer of ten or twelve inches of manure on top of this. Straw will also answer the purpose. If manure is used, care should be taken to prevent it from coming in contact with the concrete, as it will dissolve it, and possibly even seep through sufficiently to weaken the structure.

PROTECTING THIN STRUCTURES.

In the case of thin walls where extra cold weather calls for addition-

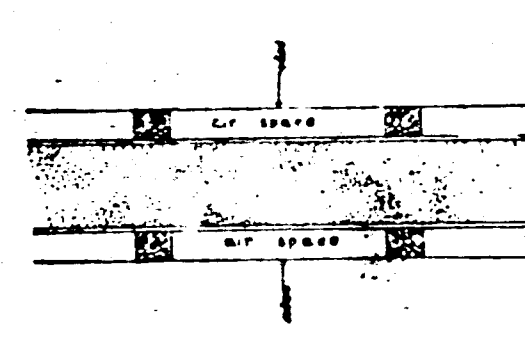

FIG. 4. PAPER TACKED TO WOODEN SUPPORTS TO PROTECT CONCRETE FROM FROST.

al protection, heavy paper should be nailed to the vertical posts of the forms, (see Figure 4.) thus leaving an enclosed air space between each pair of posts. These air spaces will have about fifteen degrees higher temperature than the outside air. The "forms" should always be left on longer in cold weather, as it takes longer for the concrete to harden.

There is no reason why concrete cannot be used with complete success in cold weather if these simple precautions be followed.

Got Paid for His Trouble.

A pastor in Charlestown received a circular from a New York whiskey house asking him to send the names of some friends whom he thought might want some of the beverage. As a joke the preacher sent the names of a dozen men, mostly members of his church. He was astonished a week later to receive a letter enclosing \$6 as his commission on six sales, and expressing the dealer's thanks.

GIFT OF A DYING TOT

Savings of a Little Child Dying of Tubercular Trouble Goes to Help the Consumptive Poor

How true it is in many different walks of life that "a little child shall lead them." We have been shown a copy of a letter written by a lady of St. John, N.B., who only a month ago lost her little child, a girl of nine years, of tubercular trouble. The mother's own words tell the story better than it can be told in any other way. She writes to the Secretary of the Muskoka Free Hospital for Consumptives at Gravenhurst, in these words: "While my loved one was ill, I one night opened some literature from you at her bedside. She asked me what it was. I told her it was a paper asking for subscriptions to the Muskoka Free Hospital for Consumptives, and showed her the pictures in the pamphlet. She asked if she could not give what she had in her little savings bank. I told her 'Yes'—to give it to the doctor and he would send it. But she was too sick when he came again, so I am enclosing an express order for the amount I found in the bank, viz., \$1.70, a small subscription, but trust you will receive it in the spirit in which it was given."

The letter is typical of many that are being constantly received at the head office of the Muskoka Hospital, 347 King St. W., Toronto. These come from all parts of Canada, for patients are received from anywhere in the Dominion.

At the present time there are 158 patients in residence in the Muskoka Free Hospital, 125 of whom are unable to pay a single cent, and the other 28 only nominal sums—much less than actual cost of maintenance. During the nine years that the Muskoka Free Hospital for Consumptives has been opened, not a single patient has ever been refused admission because unable to pay.

Marine Disasters.

VESSEL WRECKED ON THE COAST OF FRANCE AND 24 DROWNED

BORDEAUX, Dec. 23.—The Uruguayan steamer Rafael, from Montevideo, on the west coast of France, at the mouth of the Gironde. The Rafael carried a crew of 24 men. Five bodies have already been washed ashore. The coast continues in the grip of the storm, which has lasted for several days. A score of sailing vessels have been driven on the rocks, the crews being rescued with difficulty. All incoming vessels report damage. Several of them have had men swept overboard by the heavy seas.

The steamer Rafael, built from Montevideo and was built in 1890. She registers 2,341 tons.

A BRAVE RESCUE.

KINGSTON, J.A., Dec. 23.—The British steamer Manzanar arrived here today with the crew of the British schooner Virginia. The Virginia was sighted several days ago flying signals of distress. She had been dismantled on the voyage from Cadiz to Newfoundland. The rescue of the men was effected with great difficulty in tempestuous seas, and the schooner was abandoned.

The schooner Virginia left Cadiz Nov. 12 for St. John, Nfld. She was owned by D. A. Rean of St. John's. She was built in 1905 and measured 125 tons, gross.

WARSHIP DISABLED AT SEA.

NORFOLK, Va., Dec. 23.—The torpedo boat Worden arrived in the roads today and went to the Navy Yard, her machinery having become deranged at sea. She was able to make port under half of the machinery.

The officers report heavy seas and the loss of Chief Arthur W. Wilson, who was washed overboard. Efforts were made to rescue the man, but he failed to come to the surface.

Left Dredge in Nick of Time.

MUD DIGGER WENT DOWN OFF CAROLINA COAST SHORTLY AFTER CREW TOOK TO SMALL BOATS.

SAVANNAH, Ga., Dec. 25.—Menaced by death from violent seas and wind, and wrecked by craft till she pitched and swung like a derelict, Captain E. J. Davis with his crew of eleven men abandoned a dredge in tow off the South Carolina coast Saturday noon. In small boats the sailors made Daufuski Island, and today Captain Davis reached Savannah, after traveling through miles of lonely swamp country. He engaged help and an expedition left here this afternoon to rescue the hungry sailors stranded on Daufuski.

Captain Davis was in command of the International Dredging Company's new dredge, that was in tow of the tug International, from Philadelphia to Galveston. Off Hatteras both craft labored heavily and as the storm grew worse Captain Davis realized the small boats offered more chance than the ponderous dredge. The crew put off in small boats. They had rowed less than a mile when they saw the dredge go down. Some time before the tug had cast loose and was laboring with small headway in a gale.
