Welcome to the Duke of Connaught. Welcome, O Duke, to the Isle of the sea! Welcome, O Duke, to the land of the foe!

Home of Canadians, happy and brave. Men who would die for their great Empire. Men who would die for their Queen of the sea.

Dot's "Nice Man."

James Gordon was a misanthrope. For five years he had lived alone in his flat in Hope Mansions, and during that time he had not exchanged half a dozen words with his neighbors.

She was quite alone when first she met James Gordon. He had just made his solitary way up the stairs when he almost fell over a wee girl busily drawing wonderful chalk pictures on the floor.

'Nice man make picture,' she sang fast persuasively. With both her fat little hands she seized his wrist, and pains takingly guided it over the dusty floor.

'Nice man make pictures better' Dot, she announced gleefully. 'Make some more, nice man.'

After that Dot got into the habit of writing on the stairs for the return of her 'nice man' every evening. She was always ready to be amused, and Gordon grew oddly fond of the little mite who had claimed his friendship.

suit, and he was glad he had done so when Mrs. Willett carried Dot down resplendent in a white silk dress.

He became anxious when, on the next night again, she was not there. The child had taken such a fancy to him, he felt she would not willingly misa coming to see him.

'What is the matter?' he asked, faintly. 'Is it Dot?' Mrs. Willett nodded.

'Unless what?' Gordon asked. 'Mrs. Willett, if there is any way I could help, any way at all, it would be a charity to let me do it. Perhaps a nurse—'

Then one evening he missed the doctor. For an hour he waited with his door open, listening for his foot steps, until he could stand the suspense no longer.

He was half way up the stairs when he almost ran into a tall, slender girl in nurse's uniform.

'Marian!' he exclaimed impulsively, then he drew back. 'I beg your pardon, Miss Baines, I forgot myself,' he said.

'My darling, I am not married,' he said, as he kissed her. 'But I soon will be.'

Dot gave a weak cry of recognition when she saw him. Her glance travelled to Nurse Marian.

FREDERICK TAMS RETURNS FROM NORTHERN CRUISE IN WHICH HE MET TROUBLED VESSELS. After an extended cruise on board the steam yacht Ituna, which called at many points of interest along the coast of Maine and Nova Scotia, where strangers are seldom seen, J. Frederick Tams, a member of the New York Yacht Club and senior member of the firm of Tams, Lennox & Crane, naval architects, of No. 52 Pine Street, has returned to his home in Taxedo Park.

Mr. Tams said he believed the most unusual incident of the cruise was in the little bay on the coast of Maine known as Tenant's Harbor, into which the Ituna put on September 4 to get out of a dense fog.

It was in the Coronet that the Holy Ghost and U.S. Society made, under the leadership of the Rev. Frank W. Sandford, a voyage in May, 1911, to the coast of Africa, where the Coronet's consort, the Kingdom Come, was wrecked.

Dispite the experience of the society's members during that trip the Coronet was refitted in South Brooklyn by the Holy Ghost and U.S. Society, headquarters of which are at Shiloh, Me., and the organization also purchased and fitted up the Barraqueta. Both vessels left South Brooklyn early in December of last year, their destination being given as Halifax, N. S.

When seen by Mr. Tams, in Tenant's Harbor, the Barraqueta was not ready for sea. Her bottom was red with rust. The only signs of life that could be made out on board her that morning were two men wearing caps and a woman and two negroes. The Coronet was a forlorn looking craft, and the only sign of life aboard her was what looked like a head above the main companionway.

What could have caused the weird looking craft to enter Tenant's Harbor was a matter of considerable speculation to Mr. Tams. Tenant's Harbor is a deserted place, though a snug little haven. There are only a few scattered houses along its shores and the ruins of several sheds. One vessel is practically all that is ever seen in the harbor, and it is dilapidated, abandoned old schooner. There is running into the group of several buildings, called the village, the remains of what was once a railway, but which has not been used in ten years.

Electricity From Sunshine.

A sensation has been caused by the announcement of a French inventor that he has succeeded in producing a battery by which sunshine can be stored and transformed into electricity.

The inventor in question, though a Frenchman, has an English name, Charles Winter. His battery consists of two thin platinum plates, one of which dips into a solution of perchloride of iron, the other being in contact with a mercury salt.

A Wonderful Discovery.

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zan-Buk. Just think! As soon as a single thin layer of Zan-Buk is applied to a wound or a sore, such injury is insured against blood poisoning! Not one species of microbe has been found that Zan-Buk does not kill!

Then again, 'As soon as Zan-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zan-Buk. They care nothing for the science of the thing. All they know is that Zan-Buk stops their pain. Mothers should never forget this.'

Again, 'As soon as Zan-Buk is applied to the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zan-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue above it. This is why Zan-Buk cures are permanent. Only the other day Mr. Marsh, of 101 Delorimier Ave., Montreal, called upon the Zan-Buk Company and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zan-Buk was introduced to him, and in a few months it cured him. Today—over three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema!

All druggists sell Zan-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 1c. stamp (to pay return postage). Address Zan-Buk Co., Toronto.

To Find Position of Ships in a Fog.

A successful demonstration has been made in Liverpool, England, of an invention for the use of ships particularly in time of fog, to show the direction of sounds, such as those of sirens of other ships.

The apparatus, which is the invention of two brothers named Hodgkinson, consists of a drum to receive the sound waves and an indicator. The drum, which measures nine feet by five feet, is placed aloft where it cannot be affected by sounds on deck, and is connected electrically with indicator which is placed in such a position that it can readily be seen by the ship's officer on duty. The receiver consists of a number of units, each of which receives sound waves from a particular direction. Though sensitive to sound waves they are not affected by ordinary mechanical vibrations.

By means of the electrical device a sound wave from a particular direction causes an electric lamp in a particular position to the indicator to be lighted. The position of the lighted lamp, shows the position the ship whose siren is sounding, occupies with regard to the ship which carries the apparatus.

What the Local Paper Does.

What the late Hon. David Davis once said: 'Each year every local paper gives from \$100 to \$500 in free lines for the benefit of the community in which it is located. No other agency can do this. The local editor in proportion to his means, does more for his town than any other ten men, and in fairness, man with man, he ought to be supported not because you like him or admire his writings, but because a local paper is the best investment a community can make. It may not be crowded with great thoughts, but financially it is more of a benefit to the community than a preacher or a teacher. Understand us now, we do not mean morally or intellectually, but financially, and yet on the moral question you will find the majority of local papers are on the right side of the question. Today the editors of local papers do the most work for the least money of any people living.'

Direct Testimony.

Judge Ankum, presiding in the police court of the city of Washington, not long ago had a witness before him a man who stammered, the allicton being a sort of intermittent affair. The witness would stammer frightfully through two or three sentences, and then would sail through two or three more without hesitation. This interested the judge greatly, and finally he asked the witness: 'My good man, when do you stammer most?' Well, Your Honor, replied the afflicted man, I do it most when I'm t-t-talking.

An Aged Lady

MRS. SIMPSON HIGGINS, OF MIDDLEBURY, VERMONT, MORE THAN 100 YEARS OLD.

We have much pleasure this week in presenting a photo-cut of Mrs. Simpson Higgins, of Middlebury, Vt., who celebrated her 100th anniversary of her birth on July 5th, 1912. She was one hundred and one month old when the snapshot from which this cut was engraved was taken. She is still hale and hearty and an interested reader of The Westway.

This much estimated centenarian is the mother of 12 children, ten of whom are living, the youngest being 55 years of age. She has 68 grand children, 87 great grand children and 4 great great grand-children. The Rev. A. B. Higgins, B. A., of St. George's, Bermuda, is a grandson, being a son of John Higgins, Esq., of Middlebury, Vermont. Her eighty-fourth birthday anniversary was celebrated on July 5th. There were present, a son and grand daughter from California; one grand daughter and great grand son from Winnipeg; four grand daughters from Boston, and her children and grand-children of the Massachusetts valley; one sister, Mrs. Wm. Cox, of Newbury, and her son, Kenner. One who called to offer congratulations was Mrs. Bates, who attended the wedding of Mrs. Higgins seventy-eight years ago.

Mrs. Higgins is very bright and intelligent, remembers distinctly from her childhood up to date, and joins heartily in conversation on almost any subject. She lately enjoyed an automobile ride of 21 miles with her son, James, on a visit from California, to visit her daughter, Mrs. William Horton, Upper Massachusetts.

Street Lights in Lunenburg.

FISHERMEN BACK FROM THE BANKS MAKE THEMSELVES LIVELY IN THE GLOUCESTER OF NOVA SCOTIA. LUNenburg, September 22—The vessels of the fishing fleet are returning from the banks and a great many men are ashore. The catch has been on the whole below the average. A few of the vessels have full catches, but many of them have not more than half.

There has been the usual trouble on the streets when big crowds of men are about. A 17-bermen was summoned to appear in court tomorrow on a charge of resisting the police.

Another Lunenburg correspondent says that policemen and constables were unable to quell the mob they fought in front of the stately magistrate's office, and altho he was among the constables, no heed was paid to his authority. One man was compelled to take refuge in his office.

Not Pressed to Sing.

A young man at a social party was asked to sing a song. He replied that he would first tell a story, and if they still persisted in their demand he would endeavor to sing.

Fiscal.

One peck of green tomatoes, one cupful of salt, six onions, four green peppers, all-pice, cloves and mustard seed, vinegar. Wipe clean, cut into small pieces, sprinkle over a cupful of salt and let stand over night.

Richard Moore, a farmer living near St. Thomas, Ont., possesses a freak colt with the unusual number of seven feet. An eighth foot, which was only connected by a small ligament, fell off a few days after birth. The extra feet are attached to each leg immediately behind the regular foot and growing out of the fetlock. The supplementary feet are slightly smaller than the others. The colt is a handsome young specimen and the owner refused \$1,000 for his curiosity.

A FOREST RANGER HERO.
 Tragic Incident of the Forest Fire in 1910 in Idaho.

Overton W. Price, vice president of the National Conservation Association, in his book "The Land We Live In" tells this story of a heroic forest ranger:

"The summer of 1910 by reason of great drought and unusually high winds was the worst for forest fires that the west has ever known. In Montana, Idaho and Oregon the danger was greatest.

"On the Coueur d'Alene national forest, in northern Idaho, Ranger Pulaski had under him forty men, who after many hours of hard work had got a big fire practically under control. Suddenly the wind strengthened until it blew a gale. It immediately became a question of saving the lives of the men. The fire fighters were in a deep forest many miles from a railroad and far from any clearing.

"Pulaski remembered that within a mile of where they were working there was an abandoned mine shaft running back about forty feet into the hillside. He rushed his men to the shaft as quickly as possible and told them as they passed through their camp to catch up their blankets as they ran. The shaft reached, Pulaski hurried his men into it and, packed like sardines, they fled it up. Pulaski placed himself at the opening, across which he stretched a blanket.

"Within a few minutes after the men were in the shaft the fire came. The blanket at the opening caught, and Pulaski jerked it away and hung up another, which caught in its turn. The blanket caught again and again, and each time Pulaski replaced it until toward the last he held the blanket across the opening with his bare hands.

"The shaft grew hotter and hotter, and the smoke and fumes grew thicker and thicker until the men's sufferings were almost beyond human endurance. They began to break for the opening. Pulaski, whose strength was great, like his courage, for awhile forced them back. Seeing that he would soon be overpowered and that his men would rush to their certain death, he drew his revolver and said that he would kill the first man who broke away.

"In perhaps twenty minutes the worst of the fire passed by. Five of the men in the shaft were dead from suffocation; the thirty-five others were alive. Pulaski was blinded and seriously burned upon the face and arms. It was three months before his sight was partly restored. Had not his heroism and presence of mind been what they were he would have lost all of his men instead of five. That is the kind of men there are in the forest service."

"Unexpected" Company.
 How one husband and wife managed the "unexpected company" annoyance—that is, the unexpected company that the husband wanted to bring home to dinner—is told in the woman's Home Companion. They agreed on Wednesday evening as "unexpected company" night. On that evening the wife regularly prepared for two extra at dinner in the little flat where they lived, should they appear. The husband then picked up a couple of extra people on Wednesday and took them along home, if he wanted to.

"I always chuckled inwardly as my placid smile and well set table met the approving gaze of some Wednesday guest whom Tom had perhaps invited at the door of the office less than twenty minutes before."

Unique Church Sign.
 A large sign on the Second Avenue Baptist church in New York city bears notices of services in seven languages. Six foreign congregations—Slovak, Chinese, Magyar, Italian, Polish and Greek—attend services at this church, and each nationality has its own pastor. Besides these, five services are held for English speaking people. On the sign, which is said to be about the largest church sign in the city, the time of each service is denoted by a clock at the left of the notice, while to the right of the notice is the flag of the country in whose language the notice is printed.

Different Sort of Mystery.
 "I wish I knew where my husband was," remarked a lady whose spouse was irregular in his homecoming.

"You mean, I presume," responded her precise friend, "that you wish you knew where your husband is?"

"No, I don't," was the retort. "I know where he is. He's up in his room sleeping off a headache. I want to know where he was."—London Stray Stories.

Dinner Was Costly.
 Howitt—When I took her out to dinner she said that she hadn't any more appetite than a canary bird. Jowett—Didn't cost you much, then? Howitt—You haven't any idea what a difference there is in birds.—New York Press.

In His Dreams.
 Howitt—When I was on the boat the other night I had a lower berth, but I dreamed I was sleeping in the upper berth. Jowett—Bort of overlept yourself, eh?—Exchange.

The Old Man Was Willing.
 He—I told your father I could not live without you. She—And what did he say? He—Oh, he offered to pay my funeral expenses.—Boston Transcript.

SUFFERED AGONY FROM DYSPEPSIA
 "Fruit-a-tives" Makes Wonderful Cure

N. C. STIRLING, Esq.

GLANCOE, ONT., Aug. 15th, 1911.

"So much has been said and written about 'Fruit-a-tives' that it might seem unnecessary for me to add my experience.

"I am glad to be able to say to you that although in the past I suffered excruciating agony with Dyspepsia, I am now in perfect health.

"'Fruit-a-tives' accomplished the desired result and I have to thank them for my very favorable and satisfactory state of health."

 GIN PILLS Brought Relief

Larder Lake, Ont., March 26th.

"I had been suffering for some time with my Kidneys and Urine. I was constantly passing water, which was very scanty, sometimes as many as thirty times a day. Each time the pain was something awful, and no rest at night.

I heard of your GIN PILLS and decided to give them a trial at once. I sent my chum 50 miles to get them and I am pleased to inform you that in less than six hours, I felt relief.

In two days, the pain had left me entirely. I took about half a box and today I feel as well as ever and my kidneys are acting quite natural again."

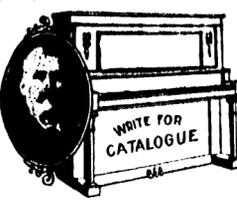

SID CASTLEMAN.

GIN PILLS soothe the irritated bladder—heat the sick, weak, painful kidneys—and strengthen both these vital organs. Money back if they fail.

A WOMAN'S WISDOM.

The worried mother wakes up to hear her baby's heavy breathing—a little cough—perhaps the croup or whooping cough. She does not want to send for the doctor when perhaps the trouble does not amount to much. Finally she thinks of that medical book her father gave her, The Common Sense Medical Adviser, by Dr. V. Pierce, M. D. She says "just the thing to find out what is the matter with the little dear."

"My desire is to write a few lines to let you know that your valuable medicine has done for me," writes Mrs. M. J. Zwickert, of 223 S. Hamilton Street, Baltimore, Md. "Before the doctor came to our house I was a very sick woman. I wrote you for advice which was kindly given, and which made me a different woman in a short time. For taking the first bottle of 'Favorite Prescription' I feel an improving so that I hardly know I was in such a condition. I did my own housework, washing and ironing, cooking, sewing, and the worst of all nursed three children who had whooping cough. I hardly know of the advent of my illness before—so easy was it. The baby is as fat as a butter ball. Dr. Pierce's Favorite Prescription is the best medicine for any woman to take when in this condition. I recommend it to all my friends."

Wanna's Going to Interfere. The curly-haired little sprite of the house came running to her father in the study and, throwing her arms about his neck, whispered confidentially in his ear. "Oh, papa it's raining!" Papa was writing on a subject that occupied his mind to the exclusion of matters outside, so he said rather sharply: "Well, let it rain."

Antiquity of Shorthand. According to Professor C. M. Coburn, of Alleghany College, Meadville, Penn., an explorer of ancient ruins, who lectured in Cleveland, "The Sermon on the Mount," was taken down in shorthand. Professor Coburn also said that it was stenography which preserved to the world the great facts and sayings contained in the Bible, and that probably some stenographic method was in fairly general use in Christ's time on earth.

Influence of Clothes. He—Did you ever observe what a difference clothes make on one's mind? Now, when I am in my riding togs I'm all horse; when I have on my business suit my mind's full of business; when I get into my evening dress my mind takes a purely social turn.

Fatal Auto Accident. MR. STEEVES, DOMINION EXPRESS AGENT AT YARMOUTH, INSTANTLY KILLED.

A sad automobile accident occurred Wednesday night between Port Maitland and Yarmouth, when Mr. A. M. Steeves, agent of the Dominion Express Company at the latter town, was instantly killed. In company with Mr. Branscombe, route agent of the Dominion Express, Mr. Steeves had driven to Metchikan by auto Wednesday, inspecting the office along the route. When returning that evening he apparently turned the machine too suddenly, in order to avoid a team, and dived it, with the above fatal result. Mr. Branscombe fortunately escaped uninjured.

Surprise Party at Bloomfield. A correspondent writes: A very pleasant evening was spent at the home of Mr. and Mrs. Charles Marr, Bloomfield, on October 10th, when about thirty of their friends met to celebrate Mr. Marr's sixty-seventh birthday. At 7.30 a sumptuous supper was served, after which the evening was very pleasantly passed in music, both vocal and instrumental.

Opera House Filled For Performance by Old-Time Favorites—Miss Webber's Speech. THE LATE HOSPITAL W. DAKIN, Esq. Digby but from the surrounding towns and villages. The floral tributes were beautiful. The services were conducted by Rev. L. Daniel, pastor of Grace Methodist church, the pall bearers being Curtis Y. Young, George, William and Ernest Turnbull.

Warm Welcome to Price Webber and Edwina Gray. OPERA HOUSE FILLED FOR PERFORMANCE BY OLD-TIME FAVORITES—MISS WEBBER'S SPEECH. (St. John's Telegraph) H. Price Webber and Miss Edwina Gray appeared on the Opera House stage on Saturday for the first time in St. John in ten years, and it is safe to say that they never received a more enthusiastic reception. For thirty-seven years Mr. Webber has been before the public of the maritime provinces and the entire Dominion, and his wife is too well known to need any introduction in the city, especially to the older theatre-goers, who were strongly represented at the performance.

The Boston Comedy Co. E. FRICK WEBBER'S SHOW WELL ATTENDED IN DIGBY. Manager H. Price Webber, with his Boston Comedy Co., put on his well known piece "Under the Gaslight" in the B. J. Dream last Friday evening, to one of the largest houses ever seen in Digby at this season of the year. Edwina Gray, in the leading role, is always most pleasing. Mr. Webber, part, including local hits, keeps the audience laughing and the entire company is well balanced one. Mr. Webber has many friends wherever he goes and Digby is no exception. His return will always be welcome.

Death of Miss Gladys Abbott. A despatch received on Tuesday by relatives conveyed the sad news of the death in Vancouver, B. C., on the previous day, of Gladys Bermuda, fourth daughter of Capt. and Mrs. Jas. W. Abbott, aged 26 years. No particulars have as yet been received but the deceased had been a victim of tuberculosis for several years. Her parents are natives of Burton, Digby county, and though born in the vicinity of Bermuda, Miss Abbott spent her childhood and early youth in Burton, until failing health caused her to go to Calgary, Alta. several years ago, the family later removing there. The deceased spent a winter in Mexico and had visited many places in search of health. This summer her parents removed from Calgary to Vancouver and she planned on spending the coming winter in California. Beside her parents she is survived by one brother, Ralph, in the West, and four sisters, Mrs. (Dr.) Simpson, of Lowell, Mass., Misses Estelle and Hope, of Vancouver, and Fern, at present in Lowell. There are also many relatives in Digby county. Mr. C. A. Abbott, of Digby, being an uncle. In addition to these a large circle of friends will regret to hear of the death of one who was a general favorite wherever she went and much sympathy is extended to the bereaved ones.

Death of Joseph L. Deveau. Mr. Joseph L. Deveau, the attentive and popular driver of the mail coach between Yarmouth and Maville, died at the Yarmouth Hospital on Saturday night, after an illness of about three weeks of typhoid fever. He was 35 years and 5 months of age, and leaves a widow and three children; also a mother, four brothers and two sisters. The remains were taken to his late home at St. Margarets, Digby Co., where the funeral took place Tuesday.

Death of Mrs. Hamilton Bancroft. The death occurred suddenly at the Massachusetts General Hospital, Boston, on Monday, of Ethel, wife of Hamilton H. Bancroft, of Bancrofts Point, Grand Manan. She had undergone an operation and was expected to recover. The deceased was an aunt of the late Mrs. Ross C. Smalley, of Digby, and had friends here who will regret to learn of her death. Mrs. Chas. P. Dunn, of Halifax, and Mrs. Fred Cummings, of Clementevale, are also nieces of the deceased.

Harvest Service. The annual Harvest Service at Grace Methodist church last Sunday evening was very pleasing. The church was tastefully decorated with flowers, fruit and vegetables and an appropriate sermon was delivered by the pastor, Rev. H. Daniel. The choir rendered a special music, including a quartette by Messrs. Wm. and Ralph Warrington, Wm. and Augustus Turnbull and a duet by Misses Minnie and Maude Campbell.

Out of Season. C. H. Purdy, Esq., the popular Warden of the Municipality of Digby, presented the editor Tuesday with a couple of 1011 apples of the Stark variety and a bouquet of Multiflora rose grown in his garden at Bear River. The apples were in excellent condition.

There will be no service at St. Paul's chapel, Marshalltown, on Sunday next. —Kelley's bakery has been removed from the South Road to the store in Mrs. G. M. White's property.

—Next Sunday, in addition to the usual services, there will be a special Children's Service at Holy Trinity church at 2.45 p.m. —Wednesday's train from Yarmouth did not arrive at Digby until after 4 p.m., owing to the lateness of arrival of the Boston boat, due to Tuesday night's gale.

—On Tuesday next, Oct. 22nd, a special service will be held at Holy Trinity church, when the Rev. E. W. Poole, Rector of Westville, will give an address on Missions.

—Messrs H. W. Bowles, W. C. Warrington and R. A. Agasson, whose successful mouse hunting trip we noted last week, have the editor's thanks for an excellent lot of mouse steak.

—A number of improvements are being made on the government wharves in Digby. The entrance to the spur pier and the changes in the entrance to the freight shed were very much needed by the general public.

—The upper part of the house was packed, and the lower sections well filled, the audience being surprisingly large for such an extremely wet night.

—The vehicle was that Protean drama, The Female Detective, with Miss Gray in the title part. The role gave the leading lady ample opportunity to display her versatility, as her detective work called for the change from one disguise to another. She appeared successfully as a fashionable young lady, an English servant, a New England nurse, a gay young man about town and a jolly sailor boy.

—One of the most interesting features of the evening was the curtain speech by Mr. Webber at the end of the second act, when he reviewed his career, referring especially to his early life in St. John and his long experience on the stage.

—The date of meeting of the Dominion Shell Fish Commission have been rearranged to read as follows: Chester, Monday, Oct. 21st; Liverpool, Tuesday morning, Oct. 22nd; Lockeport, Tuesday evening, Oct. 22nd; Clark's Harbor, Wednesday, Oct. 23rd; Yarmouth, Thursday Oct. 24th, and Digby, Friday, Oct. 25th.

A Large Funeral. MANY PAY LAST TRIBUTE TO AN AGRICULTURAL CITIZEN.

The funeral of the late Botsford W. Dakin, Esq., one of Digby's most highly respected citizens, a notice of whose death appeared in our last issue, took place from his late home, Mountain View Farm, Lighthouse Road, Friday afternoon at 1.30 and was very largely attended, showing the high esteem in which he was held by a large circle of relatives and friends, not only from

THIBDITE OF A FRIEND Type of the rugged, hard-working pioneers who made Nova Scotia the prosperous country it is today, the late Botsford W. Dakin was one of the most remarkable men that Digby county has ever produced.

An ardent partisan of the Liberal cause all his life, he had read and posted all the important speeches and statements of Sir Alexander Mackenzie, Sir Wilfrid Laurier and many of the lesser party lights, and his admiration for Gladstone was deep and abiding. From the inception of the movement, he had been an enthusiastic believer in closer trade relations between Canada and the United States, and no one in the entire Dominion felt more keenly disappointed at the recent defeat of the Reciprocity compact. He firmly believed that Reciprocity would have been a great thing for Nova Scotia, and particularly for its farmers, and had often expressed the hope that his life would be spared until this closer commercial relationship between the two countries was consummated.

When Sir Wilfrid Laurier visited Digby, during the memorable election campaign of last fall, another of Mr. Dakin's life ambitions was realized; for he not only saw but was introduced to the distinguished French-Canadian, who, in Mr. Dakin's opinion, was the greatest public man that Canada has ever possessed. Sir Wilfrid, on that occasion, himself appeared to be fully aware that here was an ordinary type of man, for he engaged him in conversation several times during the progress of the reception.

Another thing in which he thoroughly believed, was the value to Digby, and to Nova Scotia generally, of the summer tourist business. He expressed this belief in a very practical way, for he was ever ready to assist on his business day in order to explain the topography or agricultural resources of the district to a passing tourist. Hundreds of these summer visitors, from almost every state in the neighboring republic, had been entertained by Mr. Dakin in this way, and probably no native of Digby ever has been called on to face the camera of a tourist oftener than him.

A tireless worker in field and forest almost to the day of his death, his heart filled with that abundant hospitality toward neighbor and stranger that in the older days, at least, made all Nova Scotians members of one big family; scrupulously honest in all his dealings with others men; fond of fishing, and "with malice toward none, with charity for all," Botsford Dakin, though never in the limelight as a public man, was nevertheless of greater usefulness to his community than many another whose name has been proclaimed by the multitude on an election day.

A Sparkling Comedy. TO BE REPRESENTED AT THE BIJOU DREAM WEDNESDAY, OCT. 23RD. A Comedy of many complications, sparkling with wholesome and unspiced amusement, by a capable company, handsomely gowned and artistically staged is "The Arrival of Kitty," which will be seen on Wednesday, Oct. 23rd, at the Bijou Dream. The fun is due to the fondness of "Old Bell" for Kitty Benders, a vaudeville artist, who for sufficient reasons he dares not introduce to his home-hold, Billy Brown, a college boy in other men's clothing, and "with malice toward none, with charity for all," Botsford Dakin, though never in the limelight as a public man, was nevertheless of greater usefulness to his community than many another whose name has been proclaimed by the multitude on an election day.

The San Jose Scale Situation.

A PUBLIC MEETING WILL BE HELD IN KENTVILLE NEXT THURSDAY.

During the past two years living San Jose scale has been introduced into the southern fruit sections of this province. This pest is one of the most injurious and dreaded insects with which the fruit growers have to contend. It has caused immense damage to nearly all the fruit-producing sections of the United States and within the past ten to twelve years has become firmly established in the southern portion of Ontario. Here the larger Canadian nurseries are located and in shipments of their stock, living scale has been found. This stock is widely distributed over the province, particularly in the western part. During the past season, the Provincial Government has made every effort to locate the infested trees and have them destroyed. It is hoped that this dreaded pest can be eradicated from the province. With this end in view every effort is being made by the Department of Agriculture. In these efforts the Government is strongly supported by the fruit growers of the province, and it is to be hoped that every person will co-operate in the work. Wherever scale of any kind is found, specimens should be sent to the Department of Agriculture at Truro. This will aid greatly in the work that is now being carried on.

At the present moment the most important matter for the consideration of the Government and the fruit growers is that of regulations regarding the shipment of nursery stock into this province from the other provinces of the Dominion. We are protected from foreign shipments by the regulations of the Department of Agriculture at Ottawa. It is now necessary to protect our province from infested stock coming from the other provinces. At recent meetings of interested fruit-growers held at Kentville and Bridgetown, it was strongly urged upon the Government that measures prohibiting the importation of nursery stock from Ontario be passed. It was pointed out, however, that such measures might cause considerable injury to those who desire to plant trees this coming year. This was admitted, but they urged that it would be in the best interests of all concerned to restrict the planting of orchards for a year or so rather than run the risk of a serious infestation from San Jose scale. If prohibitory measures cannot be passed, they suggested the inspection and fumigation at certain ports of entry of all nursery stock coming into the Province from other parts of Canada. This is now the practice in British Columbia and as a result we are informed that very little stock is shipped into the Province from Ontario. It was also pointed out by the fruit growers that if restrictive measures are passed encouragement would thus be given to the building up of local nurseries. In a few years these nurseries would be able to meet all the demands of the fruit-growers of the province.

As a result of the seriousness of the San Jose scale situation the Nova Scotia Fruit Growers' Association at the suggestion of the Government will hold a public meeting at Kentville on Thursday, October 24th, in order to consider what can be done to meet the situation. At this meeting, various members of the Department of Agriculture and representatives of the Government will be present, and regulations regarding the shipment of nursery stock into the Province will be considered. It is to be hoped that there will be a large attendance for this matter is of the utmost importance to the entire fruit industry.

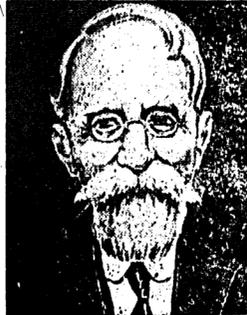

Break From Jail in Charlottetown.

W. L. PHILLIPS GAINS FREEDOM IN THE NIGHT, STEALS A HORSE AND RIDES AWAY.
CHARLOTTETOWN, Oct. 13.—Charlotte-town is excited over the disappearance of W. L. Phillips, who was in the jail here awaiting trial at the supreme court charged with breaking and entering the premises of Davis & Fraser, cold storage plant.
Phillips has had a checkered career. He had been sentenced to eight years in the Connecticut house of correction but was pardoned last June. All this summer he has been in Charlottetown. Last night, when the acting jailer locked up the cells in the usual manner, to all appearance Phillips was in bed with his shoes and stockings lying on the floor alongside. All unconscious of trouble the jailer finished his work and retired.
Phillips had, however, put a dummy in his bed at which the jailer entered and was crept into another and kept ahead of him until he reached the basement. There he succeeded in cutting off the lights and opening a door with a key made from an aluminum comb. In the second door, however, he broke the key but nothing daunted he went into another room, where the stove was kept, and quietly got out of an unbarred window. He then about 11 p.m. walked into Charlottetown, entered the Eldon House, put a lunch prepared for one of the boarders, went to the barn, harnessed the Eldon II one horse and where he now is a mystery which the police are trying to solve.
[It is stated that Phillips passed as a constable looking for the runaway prisoner and was rendered willing assistance until he reached the American line.]

Rapidly Promoted in the West.
The Watrous, Sask., Post of Aug. 29th says: It didn't take Dr. Magee long to make a mark in the West. A year ago he came west and today he received an appointment as Inspector for the Battleford district. While we congratulate Dr. Magee at which him all kinds of success we are mighty sorry to see him leave Watrous. He not only stands in the front rank as an educator, but is a true booster and a fine fellow.
The Signal printed in the same town, contained the following: Dr. Magee, Principal of Watrous Public School, has been offered an important position in Saskatoon, and no doubt he will accept same. He has, however, secured the School Board that he will continue as Principal here until another teacher has been secured to take his place. While regretting the loss the school will sustain, our citizens will congratulate Dr. Magee on his promotion and wish all success in his new sphere of labor. About the same time that the Inspectorship was handed out to Dr. Magee, his daughter, Miss Mabel, was offered and has accepted the vice-principalship of the Swift Current School. [Dr. Magee was principal of the Digby Academy twenty-five years ago and was principal of the Annapolis Royal Academy before going West. His many friends in Nova Scotia join in congratulating him upon his success in Saskatoon.]

DOCTORS COULD NOT HELP MY KIDNEYS

"Fruit-a-lives" Cured Me

MR. GEO. W. HARKLEY

CHESTERVILLE, ONT., JAN. 25th, 1911
"For over twenty years, I have been troubled with Kidney Disease and the doctors told me they could do me no good. They said my case was incurable and I would suffer all my life. I doctored with different medical men and tried many advertised remedies, but there was none that suited my case. Nearly a year ago, I tried 'Fruit-a-lives'. I have been using them nearly all the time since, and am glad to say that I am cured. I have no trouble now with my Kidneys and I give 'Fruit-a-lives' the credit of doing what the doctors said was impossible. I am seventy-six years old and am in first class health."

Lipton Wants Another Chance to Lift the Cup

SIR THOMAS, AT TORONTO, SAYS THE RULES THAT GOVERN THE CONTEST MUST BE CHANGED.

TORONTO, Oct. 21.—"If they will only let me race under their own rules, that is all I want," said Sir Thomas Lipton, the English yachtsman, when interviewed on his arrival here today.

Even under these conditions the Americans would have a slight advantage, but as holders are perhaps entitled to that and certainly I do not wish for any modifications.

But what in my present case is more to the purpose is that with the growth of freakishness in the type of yacht designed for the defence of the America cup it would be impossible for me to find a designer in the old country who would build a challenger to sail on its own bottom to New York, which they would consider to have a fair chance.

"I had had, because I want another try for that cup. Last year I had one of the most successful yachting seasons of my career. I won all kinds of club cups. I beat everything in Germany, and wound up by defeating the German emperor easily.

Death of Clement H. Ford.

ONE OF DIGBY'S WELL KNOWN SUMMER TOURISTS HAS PASSED AWAY. His large number of friends in Digby and Smith's Cove were shocked when they learned that Mr. "Clem" Ford had died suddenly early Monday morning, Oct. 23. Mr. Ford had spent several summers at Argonaut Point, Smith's Cove, and was a general favorite with all who knew him, and his acquaintances were numerous. He always took a deep interest in boating and was one of the first of our summer tourists to join the Western Nova Scotia Yacht Club and his death is the first which has occurred among its members since its organization in February.

When they were ready to return home something went wrong with their power. They were sighted from Point Light Light, the keeper of which telephoned the life saving station and they were soon safely towed in by the life boat Daring.

Mr. John S. Hon, Maritime representative of the Dominion Cartridge Co. gave a free exhibition of fancy shooting on the beach opposite the Columbia House yesterday morning. FOR THE WOMAN WHO THINKS AND FEELS.

Some women complain that they periodically suffer from dull and heavy feelings, or dizziness in the head, nervousness, pain and bearing-down feelings which should not occur to the normal healthy woman. But most every woman is subject to these pains at some time in her life, due to abnormal conditions in life, such as nervous, over-taxed strength, bad air, poor or improper food, wet feet, sluggish liver, etc. A regulator and female tonic made from native medicinal roots with pure glycerin, and without the use of alcohol, called...

BUY A FARM In the West Florida Country, this is not the Florida that you have been reading so much about, but some five hundred miles from the much exploited and advertised country. This West Florida Country is high, dry and healthy, no extreme heat in the summers, nor cold in the winters. Fruit, vegetables, figs and water melons, oranges, fish and oysters are in abundance, eggs and chickens are extremely high, and this good climate to raise them in. This part of the world has never been advertised before for sale, and no extravagant literature is gotten out to show the enormous growths to the public, but the growths are here just the same, with a climate seldom equaled and never exceeded. The land is fertile, and the timber is in such abundance that it is almost impossible to describe it properly. The majority of the natives are too indifferent to cultivate the land, and prefer just enough to eke out an existence upon. We are offering lands in tracts of ten to one hundred acres at twenty dollars per acre. Three dollars per acre down and the balance at the rate of fifteen cents per acre per month. Also we have some small and large improved farms, with all kinds of fruit, bearing oranges, figs, etc., etc. No interest or taxes until entirely paid for, and should you miss a payment for thirty days you do not lose what you have paid in. Particulars may be obtained of the Charter Land Company, Pensacola, Florida.

Liquor From Halifax

Large quantities of liquor are being sold in violation of law, by Halifax liquor dealers to persons living in Scott Act and Nova Scotia Temperance Act counties. The city of Halifax is under the Liquor License Act, but under that Act, dealers are not permitted to send liquor beyond the city limits to any persons in the Province for personal use, or otherwise, excepting to physicians, chemists, druggists and legal vendors. The penalty for violation of this provision is \$50.00 for first offence, \$100.00 for second offence, and \$200.00 for third and subsequent offences. On proof that a licensed dealer has been guilty of a second offence, the city Council must cancel his license. At least, three wholesale dealers have been convicted of a first offence. Names of persons—not physicians, chemists, druggists, or legal vendors—obtaining liquor from Halifax dealers and also the names of the dealers should be sent to the Inspector-in-Chief, J. A. Knight, Esq., Halifax. This statement is issued, in order that temperance workers may use all possible effort to suppress the illicit business carried on throughout the Province by Halifax liquor dealers. We trust that the time is not far distant when by vote of the citizens of Halifax, or by action of our Legislators, in the interests of the people whom they represent, this Halifax trade which is a menace, not only to the city, but to the whole Province, will be destroyed. H. R. GRANT Oct. 29, 1912.

Out of Season. STRAWBERRIES, MAYFLOWERS, OUT-OF-DOOR ROSES AND OTHER PLANTS IN FULL BLOOM IN NOVEMBER. A few days ago the editor of the COURIER called on Mr. Byron Delaney at his home in Central Grove, a pretty little village situated in the centre of Long Island, Digby county. While there he was shown three strawberry fields, one of which was in full bloom, the other contained green berries and the third had many boxes of ripe ones, sufficient to keep the family supplied until the frost completely destroyed the fruit. This is certainly remarkable in Digby county and Mr. Delaney is now wondering how it will affect next year's crop. The berry crop this year was a good one and proved very profitable. Since that date single bunches of blossoms, and berries in half dozen lots have been sent us, also several bouquets of mayflowers and out of door roses. Among the contributors were the following: Mrs. John Ross, Ocean View Farm, Colwood, roses; Mrs. Margaret Cummings, Roseville, Mayflowers; Mrs. Wesley H. Smith, Centreville, Russell Bacon, Hill Grove, and Thomas Woodman, Westville, Digby county; Mrs. Walter R. Harold, Antassell, Mt. Pleasant, strawberry blossoms and green berries. These out of season plants in small quantities this autumn are too common to bother with, being no longer a curiosity.

Crew is Worn Out. BRITISH SCHOONER BOBS ARRIVES IN BOSTON, FOUNDED BY SUCCESSION OF STORMS. BOSTON, Nov. 1.—Worn out by their exertions in bringing their vessel through a series of furious storms, the crew of the little British schooner Bobs were overjoyed when the craft was towed to an anchorage in the harbor to-day. For over three weeks the Bobs had been fighting against the worst storms that Capt. Robinson, her skipper, had ever experienced. The Bobs, loaded with spruce lumber and cord wood, left Clementsport, N. S., Oct. 10. She was hit by a hurricane before she had proceeded 50 miles, and some of her head gear was torn away. The gale came out of the northwest and blew her along, driving the Bobs out of her course and burying her decks with water. The head chains and the bowsprit shrouds were carried away and other damage was received. She was forced to put into Beaver Harbor where repairs were effected before she could proceed. When she left Beaver Harbor she encountered more bad weather, which forced her to seek shelter in St. John harbor, but after leaving there it was the same story of gales and heavy seas. Through all the buffeting the vessel remained tight and she reached here with her deckload of lumber intact.

The New Sardinian Town The new town around the plant of the Canadian Machine Company at Chatham, N. B. will have a varied population. A large number of employees were brought out from Norway, others have moved up from the Maine towns of Eastport and Lubec, others have been brought in from Newfoundland, and to these will be added a large number of French Canadian girls. The company is making ample provision for the comfort and welfare of its employees. A clothing company which opened temporary quarters in the town has found business so good that it has purchased property and will establish a permanent business. Heavy Freights on I. O. R. Not for years has freight traffic been so heavy at the Cape Breton end of the Intercolonial Railway. For instance last week from Sunday to Sunday, the ferry record at the Strait of Canso shows that 291 cars were transferred from Cape Breton side, this count does not include passenger cars. Nothing has been recorded equal to it since the days of the Sydney ferry when machinery and equipment for the steel and coal industries were being rushed eastward.

You may be paid \$50 in Cash for improving your walk like this. 108 Canadian farmers will receive cash prizes (twelve in each Province) in our big 1912 FARMERS' PRIZE CONTEST. WE held a contest last year in which 36 prizes were offered. This year there will be three times as many prizes (108) and therefore three times as many chances for you to win one of them. You do not have to use a large quantity of cement to win a prize. Many of last year's prize-winners used comparatively little cement. THE contest is divided into three classes and to each one of these (Class A, B, C) there will be cash prizes of \$10, \$25, and \$50. It is for doing the best concrete work (the one makes no difference). Class C is for building the best and most decorative concrete walk. IT COSTS NOTHING TO ENTER. There are absolutely no "strings" to this offer. There is no entry fee or tag to bother with. You also do not have to sign any contract. The prizes will be more than worth the cost. We have a book, "What the Farmer Can Do With Concrete," that will give you all the information about the use of concrete you need. It will be sent to you free when you ask for complete particulars of the Prize Contest. Ask for particulars to-day. Just say "Send me, free, your book and full particulars of the 1912 Prize Contest," on a post card and mail to-day. Address: Publicity Manager, Canada Cement Company Limited, 503 Herald Bldg., Montreal.

DIGBY WEEKLY COURIER
Digby, Nov. 22, 1912

An Important Promotion.

CAPT. H. A. HENSHAW, FORMERLY OF BEAR RIVER, SENT TO IRELAND TO COMMAND S. PASTORES.

Capt. H. A. Henshaw, late master of the S. S. Almarante, and commander of the United Fruit Co.'s big fleet of hand-some passenger and freight steamers, passed through Digby Monday from New York for Wolfville to spend a few days with Mrs. Henshaw and family, returning yesterday.

Capt. Henshaw arrives in New York this afternoon and sails tomorrow on board the S. S. Columbia, of the Anchor line, for Londonderry on route to Belfast to take command of the new steamship Pastores, which is nearing completion at that port for the United Fruit Co. in whose employ Capt. Henshaw has been engaged for the past eighteen years.

The S. S. Pastores, Capt. Henshaw's new ship, is the latest addition and the largest ship belonging to the United Fruit Co.'s squadron. She is 490 ft. long, 57 feet wide, about 30 ft. deep, registers 8,000 tons, and is propelled with twin screws, the contract calling for a trial trip of 17 knots, capable of maintaining a regular 16 knot speed at sea throughout an entire trip. She will carry 150 first class passengers, there being no accommodation for second or third class travellers.

Nearly every stateroom has a private bath in connection and all the rooms have iron bedsteads in the place of berths. There are seven cabins with suites. This new vessel, like the Titanic, contains swimming pools, a palm garden and a gymnasium.

The S. S. Pastores will carry a crew of about 120 and will probably make her trial trip about the first of December, sailing from Belfast Dec. 28th, for Boston direct.

After a thorough inspection at that port she will be placed on her regular route between New York and Kingston, Jamaica, Colon, Port Limon and other ports of call. Her freight capacity will admit of her carrying more than 75,000 bunches of bananas on her return trips from the South.

One of the ship's features not mentioned above is her ventilating arrangements which admits of any temperature desired, in her rooms at all times in all latitudes, an innovation very much enjoyed by passengers travelling on the company's vessels now fitted with this great convenience.

The Courier joins Capt. Henshaw's numerous friends in wishing him continued success in his chosen profession in which he has become so efficient and so popular.

B., Tuesday evening, Nov. 12th, 1912, at eight p. m., when her stepson, Frederick Stanley Russell, of South Head, was united in matrimony to Frances Elith Lafolley, of Westport, Nova Scotia. The ceremony was performed by the Rev. J. E. Gosline, B. D., pastor of the United Baptist Church, of G. M., in the presence of a large number of guests.

The bride and groom were dressed in the latest fashion. The bride wore a gown of cream tulle with trimmings of white. The bridesmaid wore white all-over embroidery. After congratulations, refreshments, and a supper of cigars, the remainder of the evening passed all too quickly. They received many valuable and useful gifts of silver, glass, linen and china, etc.

The groom is very popular in his native town, while the bride, although a stranger, has made many friends already and is warmly welcomed to the community. We extend hearty congratulations and wish them many years of happiness and prosperity. Mr. and Mrs. Leonard Benson were among the guests.

Sad and Sudden Death at Richibucto. A telegram received on Saturday announced the sudden death of Mr. E. Pine of Richibucto. Mr. Pine had been in his usual health except a cold. The doctor did not state what caused his death. His wife, Mrs. Loran Adams, and Mrs. Hart Hayden, were on their way to visit their parents when the sad news came and they did not hear of his death until they reached home, which was a great shock. The family of sons and daughters had made great preparations on all being home, on the 18th of December they were to observe their 50th wedding anniversary and the good father looked forward to the happy event. But the Master called him home and he was ready to say "Not my will but thine be done, oh Lord."

JAS. M. KEEN & SON, Jewelers If You Have Rheumatism Read This Offer A 50c Box Sent FREE to All John A. Smith and his Remarkable Rheumatism Remedy Cured Himself First and Now Proposes to Cure the World Cured Many Cases of 30 and 40 Years' Standing

JOHN A. SMITH. rheumatism, tried all the remedies known, and yet utterly failed to find relief. At times he was so helpless that he had to take morphine and after considerable doctoring he gave up in despair. He began studying into the cause of his rheumatism, and after much experimenting, finally found a combination of drugs which completely cured him. The result was so beneficial to his entire system that he called his new found remedy "Gloria Tonic". Those of his friends, relatives and neighbors suffering from rheumatism were next cured and Mr. Smith concluded to offer his remedy to the world. He found the task a difficult one as nearly everybody had tried a hundred or more remedies and they couldn't be made to believe that there was such a thing as a cure for rheumatism. But an old gentleman from Seguin, Texas, U. S., wrote him saying if Mr. Smith would send him a sample

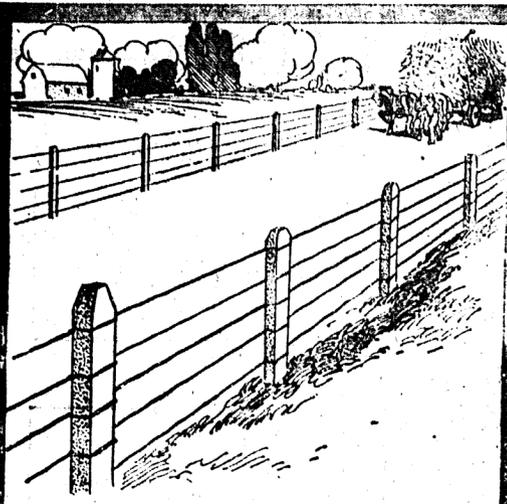

he would try it, but as he had suffered over thirty years and wasted a fortune with doctors and advertised remedies, he wouldn't buy anything more, until he knew it was worth something. The sample was sent, he purchased more and the result was astonishing. He was completely cured. This gave Mr. Smith a new idea and ever since that time he has been sending out free sample boxes to all who apply. At the U. C. College, Toronto, it cured Mrs. J. Whitley, who had suffered excruciatingly. Fred K. McDonald writes from Sunny Brae, N. S., that "Gloria Tonic" has cured him of a case of rheumatism of many years' standing. From Ansonia, Melson, Mr. Nathan River, Digby County, N. S., comes a letter that he has been cured of a severe case. Even the first sample box cured Mrs. H. Brett, at 42 Powell St., Shelburn, Ont. Two boxes left Mrs. Geo. Wright of Goulbourn, Que., well and happy. Mrs. T. Deane, West Plains, Ont., writes that she could scarcely dress herself because of rheumatism, but that "Gloria Tonic" has completely cured her. Mr. George Lees, of Dundas, Ont., says that he tried many different remedies, but found no relief until he tried "Gloria Tonic," while Clarence A. Scott writes from Toronto, N. B., that he feels that he owes his life to this great remedy. A case of 13 years' suffering is reported by James McFarlan, of L'Anse-au-Loup, Ont., but "Gloria Tonic" cured it quickly. Even prominent physicians have to admit that "Gloria Tonic" is a positive success, among them Doctor Quinton of the University of Venezuela, to whom it was recommended by the United States Council. In hundreds of other instances the result has been the same. It cured many cases which defied Hospitals, Drugs and Electricity, among them persons of upwards eighty years of age. Mr. Smith will send a 50c. box FREE also his illustrated book on rheumatism, absolutely free of charge, to any reader of the COURIER, for he is anxious that everybody should profit by his good fortune. Simply treat out this advertisement and send it together with your name address, to JOHN A. SMITH, 1304 Loring Bldg., Windsor, Ont.

How Much of Your Road Money is Spent in Filling Ruts?

If the millions of dollars that have been spent repairing worn-out, washed-out streets and roads had been used to build more miles of good highways, fewer farmers would now be wasting valuable time and money taking "round-about" routes to town.

MARY WITHERS.

THE STRAFORDS' WINDFALL

Straford watched her moodily and a bit wistfully from the depths of the easy chair into which he had settled in an attitude of dependent thought. Taking up the line of conversation he had dropped to watch the light brown ring of his fingers, he went on. "It's hard lines, Ruth. There's the old house on the avenue, and not a soul but us except dad and I, and the help. Here you and your mother are alone. Why can't we join hands, and be happy? You and your mother come up with us, I'm getting hungry for a home and a you."

loneliness that had been shadowing him for weeks.

The house was silent and dark save for a light in his father's study. As he stepped in the hall, he snatched on the vestibule light and pressed all other buttons down the corridor. "I'll light up this place with electricity, if I can't with love," he muttered grimly. Stetson, the butler, who had grown gray in his father's service, came up. "Dinner is served, sir. Mr. Straford said not to bother him, but every thing is cooling. It has been some time."

Salvation Army.

There is considerable activity among Salvationists and friends of the Salvation Army throughout the Dominion in connection with the proposed erection of a Memorial to the life work of General William Booth, the founder of this world-wide movement. If loving devotion to the grand old man and active anxiety towards the accomplishment of this scheme count for anything, the Training Institution, which has been decided upon to take the form of this Memorial, will become an established fact.

"I believe," says an old subscriber, "that every time *The Youth's Companion* enters a home it does that home a genuine service." That describes the purpose of the publishers exactly. The paper is not filled with mischievous or idle thoughts to fill an idle hour. It provides healthy pastime, recreation that builds up. It is to the minds of eager and impressionable young people what sound athletics are to their bodies.

There is a craze at present for these graceful bags, and styles range from simple affair of linen for use with next summer's frocks to the most elaborate bags of satin and gold lace, to be carried with opera and theatre costumes.

BALLOONING AS A SPORT.

Flourishing Despite the Vogue of the Flying Machine.

Within five or six years ballooning has found increasing favor in this country as a sport. There are many more in Europe, but in the United States there are now fifty or sixty owners of balloons who own from one to three balloons apiece. The number of owners is increasing despite the vastly increased popularity of the heavier than air flying machine.

Any man who can afford an automobile can afford a balloon. You can buy a one man balloon made of linen and silk, with basket, net and equipment of every sort complete, for \$300. Such a balloon may weigh 120 pounds and deflated occupies a space of about 15 by 20 by 30 inches. It can be put in a trunk, though commonly it is packed for transportation in the basket. A three passenger balloon can be bought for \$300. Balloons may be had of any dimension up to outfits intended to carry fifty persons, but the balloons commonly sold range from the one man carrier up to those designed for eight or ten. Prices depend on the sizes of the balloons and the materials of which they are made. A double walled balloon of rubberized cloth designed to carry eight or ten persons and with all its equipment complete costs about \$5,000.

You can't walk into a balloon manufacturer's establishment and find new balloons of all sizes in stock. Balloons are made only to order. But there are now so many men engaged in the ballooning sport and so many balloons in use—there are now ten times as many private as there are professional balloonists—that you may find second hand balloons. A man starting ballooning is likely to buy a small one, and then as his interest and experience increase he buys a bigger one, and if he wants to he can turn in the old one as part payment for the new one. One can buy second hand balloons with all equipment complete at prices ranging from \$275 up to \$400 for two passenger outfits and up to \$700 for an eight passenger balloon.—New York Sun.

FRENCH THRIFT.

The People, as a Rule, Save One-Fifth of Their Income.

Since the days when the people of France went down into their stockpiles for the five milliards of ransom exacted by Bismarck, the world has pondered as over a mystery the beslike durability of French thrift. Not only has their car of progress been kept in full commission, along with a vast standing army and an enlarging naval force, but at the same time they have poured millions of treasure into the coffers of allies and friends.

Of French thrift apparently there is no end. It is founded on racial habits rooted in industry and intelligence and on a sense of proportion as universal to the Gallic race as its feeling for beauty. After forty years the republic stands firm in the strength of two generations of sons and daughters born under the banner of self government. That fact has excited as much wonder among her neighbors as the irrefragable thrift. Probably the one is a complement of the other, political as well as industrial, France being ruled by intelligence and moderation.

The formula of French thrift is as simple as sunlight: Be industrious, be frugal, give and enjoy in proportion to your means, and always lay by a fifth of your income for capital. Result: A whole nation prosperous, contented and happy.—Century Magazine.

A Watch in a Pearl.

Pearls on watches are commonplace, but a watch in a pearl is surely a novelty. One has just been made by a Paris watchmaker after fifteen months of work by his best mechanics. The pearl weighed forty-five grains and was a perfect flattened sphere. Its diameter was fourteen and a half millimeters or slightly more than half an inch. The watch is eleven and a half millimeters or forty-five one-hundredths of an inch in diameter and has a compensating balance of five-twelfths of an inch caliber. It may seem strange, but the maker says the most difficult part of the work was boring the hole in which the watch was to be inserted in the pearl. This watch mounted in a pearl cost \$6,000.

When Passengers Were Scarc.

The closing of the Invergarry and Fort Augustus railway for lack of custom recalls an incident of the early days of the Callander and Oban line. At the outset local passenger traffic was, like Prince Charlie, "long in coming" and once when an Oban bound train drew up at a wayside station the only person who landed was the guard. The station master and porter were the only people on the platform, and after an exchange of snuff muffs the guard inquired, "Oy passengers fer me the day?" The station master, evidently feeling his position keenly, replied, "Woman the day, but I hear telt of a woman fer next week."—Glasgow Herald.

New York City's Chinese.

The Imperial Chinese board of education in Peking has established in New York a Chinese school. Most of its fifty pupils attend the public schools and also attend both languages. A Chinese high school is promised. About thirty Chinese students are attending high schools and universities, forty in Columbia. There is one Chinese church, on East Thirty-first street. Twenty-one churches have Chinese branches. There are 850 professed Chinese Christians. Confucianism is taught in Mott street by Dr. Hsing Guan Chen.—Chinese Annual.

KEPT TO THE POINT.

Interruptions Didn't Make Blaine Lose His Self Possession.

In his "Yesterday With the Fathers" Dr. William Wiltberforce Newton tells an incident which, fortunately escaping tragedy, serves nevertheless to illustrate the imperturbable self possession of a famous statesman.

Upon one occasion the Hon. James G. Blaine addressed a large concourse of people. There was a great wooden platform, on which were the speakers and the officers and a famous German band. I had been invited to make the opening prayer. After this Mr. Blaine began his address with the following sentence:

"I am opposed to the election of Samuel J. Tilden."
 Just then some one in the crowd called out, "Hurrah for James G. Blaine!" and then a great ovation greeted the Republican leader. At its close Mr. Blaine began again by remarking:
 "As I said a few moments ago, I am opposed to the election of Samuel J. Tilden."
 Just then a terrible grinding, crushing, earthquake-like sensation was felt by all of us who were seated on the platform, and the entire staging went down with a rush. We were tumbled one over another, speakers, officers, German band and all, and for myself I felt as Korah, Dathan and Abiram probably felt when the earth opened and swallowed them up alive in the pit.

Mr. Blaine and I happened to be wound round together, legs and arms in inextricable confusion, and as we were trying to worm ourselves out of the melee he said to me:
 "Mr. Newton, isn't there an article in the Apostolic Creed about the resurrection from the dead?"
 "There is, Mr. Blaine," I replied, "and there is also an article about descending."

When the debris was removed and a place made for the speaker he began again by saying, for the third time:
 "Notwithstanding these many interruptions, I am as opposed as ever to the election of Samuel J. Tilden."

GENIUS OF SCHUBERT.

Whatever the Great Composer Fell Flewed Forth in Music.

Whenever Schubert happened to turn over the leaves of a volume of poetry, verses that pleased him would become clothed in melody. They would sing themselves in his mind with superb accompaniment, noble in rhythm and rich in harmonies. If paper happened to be within reach the song would at once be written down.

One July evening in 1828, after a long walk, the composer strolled into a beer garden and found a friend sitting at a table with a volume of Shakespeare. Schubert picked up the book and read the song in "Cymbeline," "Hark, Hark, the Lark." The beautiful melody, with its accompaniment, as we now have it instantly flashed upon him, and he wrote it down on the spot upon staves hastily scrawled across the back of a bill of fare. In the course of the same evening he set to music the drinking song in "Antony and Cleopatra," and the verses "Who is Sylvia," in "Two Gentlemen of Verona."

And all this exquisiteness came from the son of a cook and poor mechanic, whose chief delight as a baby was to pick out melodies on a rusty old piano in his father's shop and whose acne in human bills was reached when he was taken to a neighboring joiner's to try his infant hands on a fine new instrument. He was a charity pupil in the Imperial School of Music, but neither the orphan asylum atmosphere, the two meals a day nor the ice cold piano with the ice cold instruction dampened the little Franz's ardor. Whatever he felt flowed forth in music.—New York World.

Pockets Make the Man.

Mrs. John Lane, in a volume of essays called "Talk of the Town," takes an ingenious way to prove that mentally women is superior to man:
 Just consider: The most ordinary kind of man has at least a dozen pockets, while a woman of transcendent intellect generally has none, or, if she has one, it is where she can't get at it. Now, try to imagine a man doing his errands with a purse, handkerchief and shopping list in one hand, the tail of his skirt in the other, his umbrella under one arm, meanwhile making an effort to keep his head clear for business problems and at the same time keeping a wary eye out for motors. He couldn't do it! There really is no doubt that man owes his superiority to women entirely to his pockets.

Misleading.

A man once ran for office, and after a very close election the returns showed that he had been elected by a few votes. A friend with whom he had been discussing the matter asked:
 "What makes you think that all the ballots weren't counted?"
 "You see," replied the successful candidate, "I'm judging from the number of fellows who've come around asking for a job on the ground that they voted for me."—New York Times.

His Affliction.

A teacher had told a class of juvenile pupils that Milton, the poet, was blind. The next day she asked if any of them could remember what Milton's great affliction was.
 "Yes'm," replied one little fellow; "he was a poet."—Christian Register.

Death of A. C. Wormwood.

WIDOW IS A DAUGHTER OF THE LATE JAMES GIBBONS OF DIGBY COUNTY.

(From Bradford Vermont paper.)

A. C. Wormwood died at his home in Bradford Nov. 12, 1912, at 11:10 p.m., after an illness of ten days. He was the eldest son of Daniel and Jennett (Cochran) Wormwood, and was born in Ryegate Dec. 2nd, 1838, and lived at home until 1860, when he went to Boston and engaged in teaching and furniture business until 1868, when he formed a partnership with W. A. Abbot under the firm name of Abbot & Co., furniture movers. They conducted a successful business until 1880, when he sold his interest in the company to Mr. Abbot, and removed to Topsham, Vt., where he formed a partnership with J. R. McLain, under the firm name of McLain and Wormwood, general store and undertaking. In 1891 the company was dissolved, Mr. McLain taking the undertaker's part, and Mr. Wormwood the mercantile business, which he conducted until 1907, when he sold his store and goods to G. L. McLain. In the spring of 1908 he removed to Bradford and purchased a farm of 200 acres, which he called the Moose farm, which remained his home until his death. Short funeral services were held at his late home on Friday at 10 a.m., conducted by Rev. P. A. Smith of Bradford, and in the Presbyterian church at Topsham, at one o'clock p.m., conducted by their pastor, Rev. D. M. McKinley, which were largely attended. Burial was in the Topsham cemetery. Mr. Wormwood was married Jan. 10, 1870, to Maria Gibbons of Boston, who survives him. He also leaves to mourn his death an adopted son, George Byron, an aged sister, Mary A. Davis, of Maiden Rock, Wis.; Susan J., wife of J. R. McLain, and Robert, Leonard Paul and wife and three daughters, and a large circle of friends and relatives. Mr. Wormwood was esteemed by all who knew him as a man firm in his belief of what was right, a man who could be fully trusted in all business transactions and a friend to all in their time of need. His presence will be missed by relatives and friends alike, and the influence of his life will long abide for the good of the community where he was so well known. What is his loss to relatives and friends, is to the gain of the one whose departure they have been called upon to mourn. Those from out of town attending the funeral were: John Gibbons, Manchester, N. H.; Asa Spaulding, Leonard Paul and wife and daughter Ethel of Goffstown, N. H.; Nelson Wormwood, Arlington, Mass.; Lizzie Wormwood, Danville, Vt.; Robert Wormwood and wife, of Lunenburg, Vt.; Geo. Cochran, A. A. Miller and wife, J. A. McLain and wife, O. H. Renfrew and wife, C. H. Taplin and J. B. McLain, of Ryegate, Vt.; A. H. Bagg, of Grafton; W. T. Jackson and wife, Charles White and wife, Arthur Brown and wife, Corinth, and Agnes Andrus, of Amesbury, Mass. The floral tributes were beautiful and were presented by the following persons: A pillow from the family; chrysanthemums, Mr. Asa Spaulding, Fred and Flora; carnations and lilies, Mr. and Mrs. J. R. McLain; Mrs. G. L. McLain; Mrs. E. R. Jackson and Mrs. R. H. Wormwood; mixed chrysanthemums, Mr. and Mrs. G. L. McLain; 71 pink and white carnations, Mr. and Mrs. W. T. Jackson; Easter lilies, Nelson Wormwood; spray of carnations and mixed flowers, Mr. and Mrs. Paul and Ethel; and lilies; cut flowers, Mrs. Richardson. The widow of the deceased is a daughter of the late Mr. and Mrs. James Gibbons of Roxville, Digby Neck, and a sister of Mr. Thomas Gibbons, of that village.

Our Market.

The market quotations as furnished by the Digby Farmers' Association have been slightly changed this week. Beans have been advanced to 6 cts. per lb. and eggs to 40 cts. per dozen. The latter will probably lead to importations from outside the county. The farmers of the association are anxious to supply all their customers with beans at any price. Quotations on quinces have been cut out. Meats have been added, both wholesale and retail, and cider has been placed on the retail list. We doubt if the farmers of Digby county will be able to supply the demands for ham and bacon at the prices quoted, or at any figure. We notice that no prices have been reduced since the market quotations first appeared in our columns.

DIGBY WEEKLY COURIER

Digby, Dec. 13, 1912

CANADA AND THE FLAG.

The speech of Rt. Hon. R. L. Borden, Prime Minister, delivered in the House of Commons on Thursday of last week, clearly shows that we are face to face with a serious emergency, to aid in meeting which Canada will add three of the most powerful battle ships to the defensive force of the Empire.

Some points in Mr. Borden's speech may be summarized as follows:

The superiority of the British navy over all probable combinations of other powers is absolutely necessary to preserve the safety of the Empire and the continued progress and prosperity of Canada.

The strength of navies is today measured by the number of powerful modern battle ships, and not of the small or old style war vessels.

The rate at which certain other nations are at present building dreadnoughts is a menace to British supremacy on the high seas. This constitutes a danger to Canada and Canadian interests.

Should the supremacy of Great Britain on the seas pass away, the dismemberment of the Empire and the isolation of Canada would follow as a matter of course.

One of two courses would then be open to this country—either to establish and maintain, at tremendous expense, a naval and military organization, or to enter into partnership with the great American Republic.

The former would take from twenty-five to forty years to accomplish and cost so much annually as to starve the other services of the country, retard its development and, in the meantime, leave Canada in a defenseless condition.

On the other hand; to accept the protection of the United States would, of course, entail the obligation of paying a fair share of the State and Federal expenditure for defensive purposes, which, on a population basis, would amount to over twenty million dollars a year, towards keeping the Stars and Stripes flying, while the Union Jack would pass forever from this continent.

Mr. Borden read a Memorandum from the Admiralty dealing with the whole situation, which clearly proves the existence of an emergency.

The emergency, then, exists. The plain, careful statement of the Admiralty proves it. The desire of Canadians to help meet it has never been questioned. All that remains to be determined is how this desire can take the most effective form—the form which shall afford the speediest and the best assistance.

Here, again, we have a clear and explicit suggestion from the Admiralty itself. "The Admiralty," the memorandum tells us, "disclaims any intention, however indirect, of putting pressure upon Canadian public opinion, or of seeking to influence the Dominion Parliament in a decision which clearly belongs solely to Canada." Nevertheless it continues, "the Prime Minister having inquired in what form any immediate aid Canada might give would be most effective, we have no hesitation in answering, after a prolonged consideration of all the circumstances, that it is desirable that such aid should include the provision of a certain number of the largest and strongest ships of war which science can build or money supply."

In this emergency, Canada will at once provide three of the most powerful battle ships, and place them in the battle line along side of those of Great Britain and New Zealand, at the disposal of His Majesty, the King, for the common defense of the Empire.

Canadian officers and men will give the preference of service upon these ships.

As no such gigantic ships can be built in Canada, they will be constructed and equipped, without delay, in Great Britain, at a cost not to exceed thirty-five million dollars.

Shipbuilding yards for the construction of steel ships will be provided in Canada, and all Canadian government vessels (heretofore generally built abroad) shall then be built in this country.

The British government will also build its smaller war craft and auxiliary ships in Canada, when our ship yards are ready.

The Canadian people will be represented on the Committee of Imperial Defense in London by a Dominion Cabinet Minister.

The three Canadian ships will be maintained and controlled as part of the royal navy, with the assurance that, if at any time in the future it shall be the will of the Canadian people to establish a Canadian unit of the British navy, these vessels may be recalled by the Canadian government to form part of such navy.

Mr. Borden concluded his speech in the following words:

"Bringing the best assistance that we may in the urgency of the moment, we come thus to her aid, in token of our determination to protect and ensure the safety and integrity of this Empire, and of our resolve to defend on sea as well as on land, our flag, our honours and our heritage."

Monday Night's Fire.
Fire was discovered in the interior of Mrs. F. A. Brannan's house, Sydney street, Monday evening, which was soon extinguished by the fire department. The interior of the house and furniture were badly damaged, however, by fire and water. The loss is partially covered by insurance.

Death of Capt. James Outhouse.

ONE OF FREEPORT'S MOST HIGHLY RESPECTED CITIZENS HAS PASSED AWAY.

A despatch to the COURIER Monday morning announced the death in St. Andrews, N. B., that morning of Capt. James Outhouse, aged 47 years. He had been ill for a few days, evidently suffering with a cold. Last Friday he was stricken with hemorrhage of the brain. He lingered until Monday, the most of the time in an unconscious condition.

Capt. Outhouse was the son of the late Mr. and Mrs. James Outhouse, of Tiverton, about 20 years ago he moved to Freeport, from which place he was a charter member of the Freeport Baptist church, until he returned from these and with his family moved to St. Andrews, N. B., last summer, still retaining his property in Freeport where he had one of the most comfortable homes in Digby county.

Capt. Outhouse was a prominent member of the Freeport Baptist church and took a deep interest in Christian work. He was a charter member of Chippewa Lodge, I. O. O. F., Freeport, was certainly an enthusiastic Odd-fellow, and was for some time chaplain of his home lodge. To gain his acquaintance was to make a new friend, whose true friendship lasted until death. In politics he was a Conservative, but like many master mariners often went away during political campaigns and did not take the active part that some do in affairs of this nature. His death has caused a vacancy that will be difficult to fill and the mourners are many, not only including his affectionate wife and family, whom he so dearly loved, but a large circle of relatives and friends in the several provinces, the U. S. and elsewhere.

He leaves a widow, two daughters and a step-daughter, the Misses Eva and Annie Outhouse, of Freeport, and Mrs. Geo. B. Finigan, of St. Andrews. He is also survived by two brothers, Messrs. Milton and Byron Outhouse, of Tiverton.

The remains passed through Digby Tuesday from St. Andrews for Freeport, via Weymouth, reaching Little River the same night. Wednesday the trip was continued via Digby Neck and Long Island. At East Ferry they were met by Tiverton Oddfellows who continued to Central Grove where they were met by Oddfellows from Freeport. Mrs. Outhouse and three daughters, who accompanied the remains, thought out the entire trip, say that people were very kind to them at St. Andrews, St. John and at every place they have been since the death of their beloved one.

The funeral took place from the Freeport Baptist church yesterday afternoon, the service at the church being conducted by the pastor, Rev. Mr. Eaton, and at the grave by Chippewa Lodge, Odd-fellows. The pall bearers were: Horace Thuber, Leslie Nickerson, James Finigan and Clarence Thibet. Special music was furnished by the Odd-fellows Quartet, Frank F. Leut, M. G. J. A. and George Crocker, Janita Lodge, I. O. O. F. was also present from Westport.

Consecration of Bishop LeBlanc.

MONDAY AND TUESDAY NOTABLE DAYS IN THE HISTORY OF THE CATHOLIC CHURCH IN ST. JOHN.

With imposing ceremonial in the presence of a gathering which filled the cathedral to the doors, with His Excellency Most Rev. P. Stagnu, apostolic delegate, officiating, Right Rev. Edward LeBlanc was elevated to the episcopate as Bishop of St. John Tuesday. It was a memorable event in the history of the Catholic church in the lower provinces and the spectacle presented in the Cathedral was such as few see more than once in the ordinary lifetime.

There were present four Archbishops, eight Bishops, and other church dignitaries, in fact more than 140 clergymen. There was a large attendance from Digby Co., the most of whom returned home Wednesday.

Yesterday His Excellency, the Apostolic Delegate, Mr. Stagnu, accompanied by Bishop LeBlanc, Fathers Young, Molloy and McLaughlin, arrived in Digby from St. John and were met at the S. S. Yarmouth by Father Grace and Mr. Frank Corwell and conveyed to the Cornwell residence on Prince William street where they were entertained at luncheon by Mr. Frank Corwell and his sisters. The house was tastefully decorated with the papal colors, yellow and white. After luncheon they were conveyed to the guest house D. A. R. express, attached to which was Manager Giffin's private car which, through his courtesy, had been sent to Digby and placed at the disposal of His Excellency and party for the trip to Halifax yesterday afternoon. They were accompanied by Father Grace.

Bishop LeBlanc boarded the west bound express for St. Bernards. He expects to return to St. John tomorrow via Digby. Bishop LeBlanc was met at Digby yesterday by a large delegation, who accompanied him to St. Bernards.

Married in Aylesford.

GIBNEY - McLEAN
A happy event took place at the residence of the bride's mother, Mrs. Maria McLean, Aylesford, at 12.30 o'clock Wednesday noon Dec. 10th, when Mr. Samuel Gibney of Mink Cove, proprietor of the Westport & Digby telephone line, was united in marriage to Miss Katharine Ann, second daughter of the late Daniel McLean. The ceremony was performed by Rev. F. E. Forshey. After luncheon the happy couple boarded the east bound express for Halifax en route to Montreal and other Canadian cities. Mr. and Mrs. Gibney will reside in Mink Cove where the groom has a comfortable home and a very valuable property.

Their many friends will join the groom in extending best wishes and heartfelt congratulations.

Rough Weather at Port Wade.

About 12 o'clock Tuesday night the wind blew a gale with as high a sea as was ever witnessed at Port Wade for at least several years. Capt. John W. Snow's schooner, Elmo, dragged her anchor and fouled the ferry boat Port Wade, damaging both vessels, splitting the Port Wade's stem, breaking the Elmo's main boom and badly damaging the latter's stern.

Mr. James Elton's fishing boat, moored near the government pier, completely disappeared during the night, her whereabouts being at present unknown.

An Xmas tree and sale will be held in the hall at Little River Saturday evening, Dec. 21st.

Reached Digby Waterlogged.
SCHR. SALLIE LUDLAM, FROM APPLE RIVER FOR NEW HAVEN, CONN., AT DIGBY IN DISTRESS.
The 20 ton schr. Sallie Ludlam, Capt. I. Sabean, arrived here Saturday night water-logged with her boat and cargo gone and captain and crew suffering from exhaustion. Sunday morning she was docked at D. & O. Sproule's wharf at the Racquette where at low tide the water ran from her seams and strained planking. During the night tide she was docked at one of the Maritime Fish Corporation's wharves. Tuesday the tug Moto towed her out of the government pier and docked her at the government pier.
The Ludlam has a cargo of 280,000 feet of lumber shipped by C. T. White, from Apple River for New Haven, Conn. At St. John her former master, Capt. Frank, left her and Capt. Sabean was shipped. They sailed from there Thursday. The vessel began leaking and off Point Le Francois became unmanageable and the captain anchored until 8 o'clock Friday night, when he again got underway during a north-westerly gale and with an anchor and 45 fathoms of chain dragging from her bow, which the crew could not get in in their exhausted condition, headed the vessel off shore, and after laying to until daylight, run for Digby.
While being driven 3 knots per hour before the gale, the anchor fetched up in the rips of Point Palm, at the entrance to Digby Gut.
At 4 o'clock the same afternoon the crew managed to get the anchor off the bottom and the vessel was sailed in the harbor and anchored off the government pier.
Sunday noon, as stated above, the vessel was docked at the Racquette with assistance rendered by men along the water front.
It is said there is no insurance on the vessel, only on the cargo. The agent of the vessel in St. John is D. J. Purdy. The Ludlam carries a crew of six men, all of whom were glad to get tied up at a dock on Sunday where the vessel would ground long enough to save pumping.

Death of Capt. Wm. O. Warner.

AN AGED MASTER MARINER HAS PASSED AWAY.
Capt. William O. Warner, an aged and highly respected resident of Weymouth, Digby county, died in that village Tuesday morning, 10th inst., aged 85 years. He was a son of the late William Warner, who came to Plympton from Blythe, England, in the days of wood-n shipbuilding. Capt. Warner sailed ships for his father and later built them and sailed them for himself. Many years ago, however, he retired from the sea and after the death of his wife, has resided with his son, Mr. Wm. M. Warner, who with Mrs. Warner has made his years as pleasant as possible, giving him their most careful attention. He leaves two sons and two daughters, Capt. James of Bridge-water; William M. of Plympton; Mrs. Clara Cover, of Malden, Mass., and Mrs. E. Beth Bow, of Aylesford, N. S. He is also survived by three brothers and one sister, Capt. Charles T. Warner and James Warner, of Plympton; Jesse, of Massachusetts, and Mrs. D. N. Messenger, of Malden.

CALENDARS.

Fads may come and fancies may go, but the demand for a pretty Calendar never seems to wane. CLARKE BROS.

Central Grove Mr. and Mrs. Frank Titus moved in Mr. Wm. Shaw's house Thursday, 5th, for the winter. Quite a number from Freeport and Liverton attended the Johnson and Titus wedding Dec. 4th. Mr. Holland Pyne, who has been working in Kingston the past three months, returned home last week. Mr. and Mrs. D. Shortliffe spent Saturday and Sunday at Freeport with her parents, Mr. and Mrs. D. Bushey. Mrs. Pottingille, of N. H., and sister, Mrs. Roberts, of Lawrence, Mass., are spending a few days with their parents, Mr. and Mrs. P. Dolanoy. Mr. Elwood Tibert, who has been working in Barton the past three years, returned home last week with his wife and two children, and are occupying their own house this winter. A very pretty wedding took place on Wednesday evening, Dec. 4th, at 8 o'clock, at the home of the bride's parents, Mr. and Mrs. J. W. Titus, when their fourth daughter, Miss Dorothy Titus, was united in marriage to Mr. Horace Johnson, oldest son of Mr. and Mrs. George Johnson, of Waterford. The bride looked very nice in a gown of white embroidered poplin. Miss Viola Morehouse acted as bridesmaid and Mr. Earle Titus supported the groom. The wedding march was played by Miss Florence Stevens, cousin of the bride. The ceremony was performed by Rev. F. H. Eaton in the presence of about fifty invited guests. They received some very nice wedding gifts, including silverware, china and glassware. After refreshments were served a very pleasant evening was spent in games and music: All join in wishing both bride and groom many years of happy wedded life.

Port Wade An ore steamer is expected very soon, as the pocket is full. Mr. Fred Prime, of Digby, is visiting at the home of Capt. J. W. Snow. Mr. E. H. Porter, Councillor for this ward, was in this village on the 5th. Preaching service at the Baptist church will be at 3 p. m., Pastor Cornwall. Mr. Chester Wood, of Perotte, and Mr. Wm. White, of Boston, are visiting friends here. Capt. J. W. Snow shipped a load of dry fish to Digby last week per schooner Eluor. The fish Co., of Port Wade, Messrs Snow and Nelson, have shipped 75 bbls. of clams the past week. J. F. Morrison is improving his premises here. Having sold his farm at Thorae's Cove, he will move here in the near future. On Tuesday night of last week a social tea party was held at the home of Mr. and Mrs. Ancil Casey, by the ladies of the Baptist church. A very pleasant evening was spent by all, and the collection amounted to \$5.00. The proposition of setting a saw mill at Mill Cove (Budrows) has fallen through, there being no guarantee commensurate with the expense of placing a mill at this point, but we are credibly informed that Mr. F. Mills will place a mill on the river at or near Port Wade.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free. J. CHENEY & CO., Toledo, O. Sold by Druggists. Take Hall's Family Pills for constipation.

Kensdale Mrs. Joseph Croseup, of Lynn, is visiting her son Howard. Frank P. Covert made a short visit at his home here recently. Mr. and Mrs. E. S. McEllinney left Nov. 20th to spend the winter with friends in Lynn. Mr. and Mrs. James Morrison, sr., are visiting their daughter, Mrs. George Anthony, at the Island. Mr. and Mrs. Silas Balcom have gone to visit Mrs. Balcom's daughter, Mrs. Leonard Morrison, of Lynn. Extensive repairs are being made in the interior of the Church of England. There will be no service for a few weeks. Miss Shaffner intends giving a concert for her school, also having a Christmas tree on Friday evening before Xmas.

Centerville Mr. Eldred Boutiller, who has been visiting friends in Sea Bright, near Halifax, arrived home Friday evening. Mrs. Sidney Denton and Miss Evelyn Cornwall, of Little River, spent Sunday with Mrs. Eleanor Dakin. Leonard Hubley, Harold Farnsworth and Rodney Wagner are home from the west where they have been harvesting. Mr. and Mrs. Albert Denton and daughter, Miss Mildred, visited their son and brother, Mr. W. M. B. Denton, who is ill. The ladies of the Methodist church will hold their annual Christmas tree and supper Saturday evening, Dec. 21st. Should the night prove too stormy it will be held the 23rd.

The proposal is endorsed enthusiastically throughout Germany. Whereas each warship is said to be able to carry a vast quantity of explosives, it is believed that the Fatherland, ruling the air, will eventually conquer the sea.

CANADA AND THE FLAG.

Last week we gave the substance of Premier Borden's speech respecting naval matters. This week we give the views expressed by Sir Wilfrid Laurier, Leader of the Opposition, who, on the 12th instant, made what has been regarded as one of the great speeches of his life.

The memorandum of the Admiralty given to the Borden Government in November, 1912, contained nothing which he did not know four years ago before he introduced his naval legislation.

Ships of the British Navy had been gradually withdrawn from distant seas and stationed where they could best guard the heart of the Empire against the growing naval powers of other nations, but the likelihood of war with Germany was not sound belief.

Three Dreadnaught ships in the battle line was not enough for this country to do, Canada should have two fleets, one of the Atlantic and one of the Pacific Coast.

These should be paid for, manned and maintained by Canada. These vessels should be built in Canada, not in Great Britain. If his policy had been carried out four cruisers and six destroyers would now be building at Montreal.

The Canadian Navy should be under the direction of the Canadian Government and not of the Admiralty, and should fight only when authorized by the Government to do so.

He believed that the British flag stood for freedom and peace and that the integrity of the British Empire should be maintained in the interest of the peace of the world.

Sir Wilfrid continued his argument dealing with the question of representation by the over-seas dominions to the Councils of the Empire. "It," he said, "we are to have a discussion of that question this is not the time for it. It is not germane to the question which we have before us today. We have the question of defense to deal with. When we have to deal with the danger of an enemy rushing upon us whom we must stop, are we to fold our arms and do nothing until we have settled the question as to whether or not we shall have a voice in all matters of war and peace?"

Sir Wilfrid concluded by moving an amendment to the effect that Canada should, without delay, enter actively upon a policy of naval defense, and that the ships should be owned, manned and maintained by Canada and as soon as possible constructed in Canada, and that Canada should increase the power of the Imperial Navy by the addition of two fleets to be stationed on the Atlantic and Pacific coasts.

Replying, Mr. Hazen said that existence of an emergency was shown by the fact that the ships of the British navy had to be withdrawn from the distant seas to protect the heart of the Empire, and that Sir Wilfrid's amendment calling for "active and speedy" measures, and great expenditure of money, proved it.

The present leader of the opposition could not, four years ago, have known all the facts and figures in the Admiralty memorandum, as it dealt with the German Fleet laws, which were passed in 1912, covering a period up to 1920. If he had known it, why had he not, when in power, proposed what he proposed now?

Battle ships could not be built in Canada until yards were provided. Japan developed her navy by first building battle ships in Great Britain, and built yards for the construction of merchant ships, before beginning the construction of ships of war.

A permanent naval policy should not be entered upon hastily. The late government did not proceed with their own policy. The tenders for building four cruisers and six destroyers were received on May 1st, 1911, and the Government resigned on 7th October, over five months later, yet they did not even deal with the tenders in all that time.

As to the charge that this government was not doing enough for Great Britain, he recalled that the late government had first said that not a man or gun should go to South Africa, and

only at the demand of the whole country did they permit men to go while they allowed the British government to defray, very largely, the expense.

As to manning the three ships it was intended to provide, it must be remembered that the naval service today is highly scientific, requiring men of five years' training, and it would be impossible to enlist a sufficient number of trained men in this country to man the three Dreadnaughts, which will be ready in three years.

The Minister then went into an analysis of the naval question, generally, as relates to the Empire and Canada, which will be dealt with in another issue.

The naval service does not seem to be popular in Canada. Judging from the report of the department lately presented to parliament, which shows that out of 120 recruits last year 111 deserted from the service, 86 from the Nile and 25 from the Rainbow.

The School Concert.

WEDNESDAY NIGHT'S ENTERTAINMENT A BIG SUCCESS.

Although Wednesday night's school entertainment was not scheduled to commence until 8 o'clock, there was a half full of people on the street, waiting in the rain, to rush in as soon as the doors were open at 7 o'clock. At 7.30 standing room only was announced and even that was difficult to obtain. In other words the crowd extended to the outer doors.

The programme, which was commenced promptly on time, was an excellent one. There were no wails and no hitches—one continual performance. The hall was never as full of people to a paid entertainment since it was built and we feel safe in saying that never such a satisfied audience ever left the hall after the close of a show of any kind.

All the numbers were good, any one of which was well worth the small admission charged—25 cts. It might as well have been more, but the matter in charge evidently wanted everyone to feel that they could afford to go and take their families and a glance at the audience was sufficient to show that the object was accomplished.

Mr. N. W. Hogg, the efficient and painstaking principal of our Academy, together with his faithful staff of teachers, deserve a lot of credit for the hard work they have put into this school entertainment since its first inception and the scholars themselves showed a lot of ability in the performance of the various parts allotted them. We will not attempt to specialize as it would mean a separate write up for every number on the programme. While the principal and teachers might not thank us for the suggestion, we feel sure the public would like to see several of these entertainments every year.

The teachers and members of the school and the public generally, greatly appreciate Mr. J. F. Cripps' kindness in giving them the use of the hall Wednesday night free of charge. The receipts amounted to \$3125.

Quick Work.

The people of that section of the town were alarmed by the ringing of bells and a general fire alarm given on Monday evening, the 9th Dec., when it was discovered that Mrs. F. A. Bamans' house was on fire. Wielding hands soon removed the contents and the firemen with a good supply of water soon put out the fire where it first originated from an over-heated chimney. But sparks had started a second fire on the top flat which was more obstinate and required to be drowned out with plenty of water which did more actual damage than the fire. As the damaged premises were insured in the Fire Insurance Co. of North America, John Daley, agent, the company sent an adjuster. Two appraisers were named, the amounts awarded submitted to the company and checks were filled out on the furniture \$20.00 making \$185.00 which was received here and paid over by the company's agent the 7th day after the fire.

Capt. McDonald Again on Duty.

Capt. Andrew McDonald, who has been in Boston on account of the serious illness of Mrs. McDonald, returned Monday and is again in charge of the Yarmouth. They have the sympathy of a host of friends in the death of their only child, a little son who lived but a few hours after its birth.

The Christmas War Cry.

The local officers of the Salvation Army have our thanks for the Christmas number of the War Cry. This edition is in color, and is one of the best numbers ever issued by the Salvation Army in Canada. Besides a large number of beautiful illustrations, it contains a lot of interesting and useful reading matter. Everyone in Digby should purchase a copy and thus help along the good work in which the Army is engaged. The price is only 10 cts per copy, scarcely enough to cover the cost of production.

VETERAN LIGHT KEEPER DEAD

William E. Ellis, of Point Prim, Passed Away After a Brief Illness.

HIS LAST WORDS WERE "WATCH THE WEATHER AND KEEP THE LIGHT BURNING."

William E. Ellis, the veteran light-house keeper at Point Prim, died at 8 o'clock Saturday morning, aged 75 years. He had not been well for the past year, but had only been seriously ill for a few days. Friday night Dr. McKay, of Halifax, assisted by Dr. Read and DuVernet, of Digby, performed an operation. He came out of the anti-septic about five o'clock Saturday morning and lived three hours. He was conscious long enough to speak to those who were near his bed side. He said God was taking him home. The last order that he gave, for he loved to protect those whose lives are spent on the sea, was "Watch the weather and keep the light burning."

The deceased was a son of the late Mr. and Mrs. Ephraim Ellis, of Digby county, the only survivors of the family of thirteen, being his brothers Gilbert, James and David, shore road, near Green Point. Mr. Ellis, himself, was born in Salisbury, Westmoreland county, N. B. He was for some ten or twelve years a very successful diver, and at the time of his death

THE GENIAL LIGHT KEEPER AT HOME

held the record of diving in the deepest water, staying under the longest and working in the strongest tides.

March 8, 1875, he took charge of Point Prim light and had certainly been a faithful employee of the government for more than 37 years.

Last summer he was granted a temporary leave of absence on full pay with his eldest son, Leo Ellis, in charge. On Dec. 1st, fourteen days before he died, he was superannuated, his eldest son receiving the appointment.

The deceased married Mary Hazelton, daughter of the late Mr. and Mrs. David Hazelton, and had a family of six children when he took charge at Point Prim. Their total family consisted of fifteen, thirteen of whom are still living as follows: Seven sons, Leander, at Point Prim; William, Isaac, James, at Bay View; John and Hartney in Boston, and Richard in Cape Breton; six daughters, Mrs. John Ross, Collioden; Mrs. Norville Turnbull, Point Prim; Mrs. F. A. Robinson, Digby; Mrs. Samuel E. Wilson, Green Point; Mrs. Arthur Sully, Digby, and Mrs. O. L. Bertram, of Dorchester, Mass., all of whom were present at the funeral with the exception of John and Hartney.

He also leaves 33 grandchildren and 3 great grand children.

A sketch of Point Prim Light and a story of the new whistle house appeared in the Courier of May 10th of this year from which we reprint a photo entitled "The Genial Light Keeper at Home."

There is one thing sure Mr. Ellis saved the government enough money annually to pension him off on full pay. He invented the Ellis patent clock system for sounding fog alarms which was attached to the Point Prim plant in 1887 and later became in use all over Canada and the United States. He invented derricks for discharging coal and other supplies at the light.

Point Prim is visited by more people during the summer season (the greater majority of whom are American) than any other light along the coast. The whole plant is noted for its cleanliness, its neatness, etc., and the keeper and his wife and family for their hospitality to strangers. Everybody has a good word for their reception at "the light" and many a pleasant time has been spent there, the visitors seldom realizing the hardships during the winter northwinters and weeks of rough and thick weather and the whole going many days and nights at a time, the keeper and his family sacrificing sleep and comfort for the sake of protecting and comfort for the sailors. He has also been the means of personally saving many lives.

Capt. Ellis was the discoverer of the Ellis comet several years ago, the comet afterwards being officially recorded in his name. The news of the death of Mr. Ellis came as a shock to a large circle of friends,

He was a member of the Methodist church; lived a good Christian life, was a regular attendant at the Bay View Presbyterian church, it being the nearest place of worship. He took a deep interest in public affairs, especially what would prove of the most benefit to those whose duties took them on the sea.

Few pass away with a more honorable record. His large family has the deepest sympathy of the community in their sudden bereavement.

The funeral took place from his late home at 2 o'clock Tuesday afternoon with interment at Bay View, the service at the house and at the Bay View Presbyterian church being conducted by Rev. L. Daniel, Methodist pastor at Digby. The church bell in Digby tolled 75, the number of years the deceased had lived. Mr. Daniel's text for his address was from the Acts of the Apostles 27:44, certainly very appropriate and his remarks throughout the entire discourse were greatly appreciated by the big congregation present. Besides the large circle of relatives many people were there from Digby, including Mayor Short and other public officials.

The pall bearers were the four sons, William, James, Isaac and Richard. The floral tributes were beautiful among the imported ones being a pillow from the widow; pillow from the family; wreaths from the brothers; one from Mr. and Mrs. Arthur Sully; one from Capt. and Mrs. F. A. Robinson; another from the captains of the Digby fishing fleet, in service and retired; wreath from H. T. Warns & Co. and local staff, and a spray from W. D. Rolston, of Yarmouth.

The Alma House Xmas Tree.

Those who desire to contribute towards the Alma House dinner and Xmas tree will please leave their contributions at Maj. Daley's office, opposite COURTNEY building. This is, indeed, a worthy object and we trust that the fund will be large.

CLARKE BROS.

PUSSY AND THE CHRISTMAS TURKEY.

From the moment the kitten knew anything he was aware he was a beauty. His father and mother were lovely, long haired Angoras.

Although so good looking, he was a very spoiled and ill mannered kitten. His mother had foolishly said in his hearing that with his looks he could do as he liked.

One day, when the kitten was about three months old, a telegram came to the house where he lived. It said, 'Send little Angora to Miss Nellie Dale, Fifth Avenue, New York.'

The butler came in with a box, put the unsuspecting kitten in and nailed down the lid.

What followed is too confusing to tell. There was much rattling over rough streets, much jolting over tracks, much shrieking of engines, much bumping against boxes. At last it was over. The box was carried into a warm, softly lighted room. A child's voice was heard exclaiming: 'For me! Why, I wonder what it can be.' A tiny mew soon told her, and in a few minutes the kitten was out of its prison and tightly snuggled in the arms of a little girl. A saucer of milk was soon lapped up, and pussy's life in his new home began.

Nellie named her new pet Blizzard because he was white and soft like drifted snow.

Blizzard thought this name all right but did not for an instant mean to answer to it. He had never learned to mind or do anything else but be a trouble. He stole everything he could get. He broke an expensive vase because he would play tag with himself on the parlor mantel. He climbed up the handsome new curtains at the hall windows with the result that they soon looked like streamers. He cried all the time people were eating, wanting meat and other things not good for kittens.

'Twas the night before Christmas, and the servants were busy preparing for the big dinner tomorrow.

All the relatives were invited, and Dinah, the cook, knew that the only way to have her dinner on time was to get things ready for it the day before.

She had just got the big turkey out and plucked it clean of pinfeathers. She put it in the pantry while she grated bread with which to stuff it.

Company came in, and Dinah did not get her turkey filled as she had hoped. She went to bed, setting her alarm for 5 o'clock, expecting to stuff the turkey before breakfast. When bed time came no Blizzard was to be found.

The household was awakened at 5 in the morning by a scream from Dinah, which brought the family to the kitchen all armed and expecting to see a burglar. They found Dinah in a faint on the floor of the pantry, and beside her was the big turkey. On looking closer and hearing Dinah faintly whisper, 'The cat,' all eyes turned to look for the cat. No one could locate him until a smothered mew sounded from the inside of the turkey. Nellie peered in and saw Blizzard's head sticking out where the stuffing is usually poked in. He was hauled out. His white coat was sticky and dirty, and his stomach stuck out like a wolf's in the fairy tale after he had dined of the ten little pigs.

Dinah looked Blizzard in the laundry and he should thoroughly repent. Another turkey had to be prepared, and Blizzard was forgotten until the day after Christmas. When Nellie went to take him out of his prison Dinah went with her.

'Will you ever do such a naughty thing again, Blizzard?' she asked him. Blizzard looked right at her and said 'Mew.'

'See,' said Ellen; 'he says he never will, Dinah.'

Dinah answered, 'I guess that mew means he will never do such a thing again this Christmas.'

Christmas in Bethlehem.

Christmas in the Holy Land is an interesting experience. Indeed it is one never to be forgotten, and every Christmas thousands of persons from all over the world make a journey to Palestine in order to witness the various ceremonies held there during the festive season. Every one almost puts up at Jerusalem and on Christmas morning makes his way to Bethlehem, which lies almost due south, about six miles away as the crow flies, over a range of hills. No highway the world over presents such a motley crowd as may be seen streaming along this thoroughfare early on Christmas morning.

Anthracite Coal Combine

UNITED STATES TRIBUNAL FINDS THAT MONOPOLY EXISTS, BUT DECIDES THAT GOVERNMENT HAS NOT PROVEN ALL OF ITS CONTENTIONS.

WASHINGTON, Dec. 16.—The supreme court of the United States today cancelled as a violation of the Sherman Anti-Trust Law the contracts by which railroad-owned coal companies in the Pennsylvania-anthracite fields had purchased the output for all time of "independent" mines.

Attorney General Wickersham in a statement tonight expressed the belief that the decision "will so completely destroy the combination which now controls the price of anthracite that it must result in a distinct measure of relief to the public."

The court also ordered the dissolution of railroads' control of the Temple Iron-Company by which the principal railroads and their coal companies were found to have strangled a project to build a competing road into the anthracite fields in 1898 and by which monopolizing schemes could be put into execution in the future.

The government failed, the court said, to show the general combination to be a general combination to put upon the market annually by the various roads. The government's other charges as to a general combination were characterized as "indefinite."

The railroads concerned in the case were the Philadelphia & Reading, the Lehigh Valley and Delaware, Lackawanna & Western, the Central of New Jersey, the Erie, and the Susquehanna & Western.

At the outset of his opinion, Justice Lurton dwelt upon the great factor of the six railroads and their coal companies in anthracite mining. Over ninety per cent of the entire unmined area of anthracite were owned by them, he declared, and over seventy-five per cent of the annual supply put upon the market was theirs. He said the tremendous influence of these companies in this business was due to the liberal policy of the State of Pennsylvania to encourage coal development by authorizing an alliance between the coal producing and the coal transporting companies.

As to the transportation of the coal to tidewater, the great distributing centre, Justice Lurton said that, independent of any agreement or combination, the six railroads were in "undisputed control. The situation is one which invited concerted action," continued the justice, "and makes exceedingly easy the accomplishment of any purpose to dominate the supply and control the prices at the seaboard. The one fourth supply which comes from independent operators has been sold in competition with the large supply of the defendants. If by concert of action that source of competition be removed, the monopoly which the defendants, acting together, may exert over production and sale, will be complete."

FATALITY SHOTS YOUNG WIFE WHO WAS ILL IN BED AND THEN SUICIDES.

BELLEVILLE, Ont., Dec. 15.—E. D. Wellman, a Rawdon township farmer, aged 38, committed suicide Saturday afternoon after attempting to murder his 15 year old bride of a year. The latter is so badly wounded that the doctors say she cannot recover. On Saturday afternoon Wellman borrowed a neighbor's shotgun, saying he wished to shoot some weasels. About 4:30 o'clock he entered the bedroom, where his wife was lying ill, and without warning, fired pointblank at her head. The charge of shot destroyed one eye, carried away a portion of the roof of the mouth and knocked out several teeth.

Wellman then went up stairs, reloaded the gun, tied a string to the trigger and discharged the gun with his foot. Part of his head was torn off and he died instantly. Mrs. Wellman's mother, who heard the shots, rushed to the house and summoned help. Coroner Alger, of Stirling, was notified and to him Mrs. Wellman, although mortally wounded, was able to tell the story of her husband's deed.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by a local application of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever. It is nothing but an inflamed condition of the mucous lining.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

7 Year Old Boy A Hero

LITTLE GEORGE HARTLEN OF MASON'S POINT SAVES THE LIVES OF TWO COMPANIONS.

George Hartlen, the seven year old son of Augustus Hartlen, of Mason's Point, at the head of St. Margaret's Bay, was the hero, on Tuesday last, of the rescue from drowning of two small children who fell through the thin ice on a pond near his home.

The three were going home from school at St. Margaret's Bay. Seeing a pond frozen over they thought to have a slide and the youngest child, Ryan, by name, ran well out on the ice. He fell through and was in danger of going under, the water being well over his head. His brother rushed in to save him, but went too far out and the two children, struggling in the water, screamed for help to George Hartlen, their companion. Little George quickly ran to the mill and picked up a piece of edging which was on the ground. Hurrying back, he plunged into the icy water and by aid of the plank drew the helpless children to safety, one at a time, and the younger boy first.

Some of the neighbors happened to be passing by shortly after and the two Ryan children were taken to the nearest house. The younger child was almost exhausted and had the two not been rescued when they were they would surely have been drowned. They recovered quickly however, and were soon taken to their own home.

Like all true heroes the seven year old George is very modest and on being questioned on his arrival at home as to his wet condition, he would give no reason. Had not some of his neighbors told his father, the boy's parents might not have known of his gallant deed. When asked by his parents why he did not tell them of his action he replied that he was afraid he would have been kept from school. Finally, induced to give his story, he said: "You know, I was going to save the little fellow first" and went on to tell how he had heard his parents reading of the Titanic disaster and the great part played in it by the principle of "women and children first." It was this that led the little fellow to save the youngest child and that a seven year old boy showed such pluck and manhood is worthy of note. George Hartlen deserves a reward for his act. A life saving medal should be coming to him.

Peace Sunday.

Sunday, December 22nd, will be widely observed by the churches of Great Britain and the United States as Peace Sunday.

The Dominion Woman's Christian Temperance Union, through its department of Peace and Arbitration, has, during the past few years, endeavored to promote this observance of Peace Sunday—the Sunday before Christmas—throughout Canada. This effort has met with a sufficient measure of success to encourage its continuance, and the cooperation of the various provincial organizations is again this year requested.

The Nova Scotia W. C. T. U. would therefore call the attention of churches and pastors to this matter and earnestly urge them to make use of the opportunity afforded by the blessed Christmas season to enforce the teaching of the Prince of Peace the anniversary of whose advent we celebrate, and to raise their voices against all that, in any way, tends to promote the warlike spirit.

Murder of Bad Italian.

New York, Dec. 18.—Amelio Prince, said by the police to be the notorious black hand leader, was shot and killed today, in a bakery, in upper New York. According to the story told the police by the employees of the shop, he had just demanded \$100 of Joseph Gallucci, manager, when he was shot by Gallucci's nephew, who escaped.

The police say that Prince has four times been under suspicion of having done murder. In each case, the police found witnesses by whom they expected to send Prince to the electric chair, but when the Grand Jury was ready to hear the evidence, the witnesses were strangely missing, the police believe that several of them were murdered.

Prince's name had long been a by word in the Italian colony. If children were naughty, parents were accustomed to warn them that Prince would be called in.

Hurled Stones at the Army Officers.

VIENNA, Dec. 16.—Serious riots have taken place during the past two days at Pilsen and Koenigsgrate, in Bohemia, on the occasion of the departure of military detachments from the towns.

The angry populace blocked the streets leading to the railway stations in an attempt to prevent the troops entraining and also pelted the army officers with stones.

The rioters were dispersed only after the military had charged with fixed bayonets. Several persons on both sides were wounded.

Married in New Brunswick.

A very pretty wedding took place Tuesday afternoon at 3:30 o'clock, in the parsonage of the Fairville Baptist church, when the pastor, Rev. H. R. Bayen, united in marriage Miss Benah M. Outhouse, of Digby Neck, and John W. Parker, a native of England.

Improvement of Highways—

VALLEY MEN WANT THE PERIOD FOR ROAD WORK CHANGED.

ANNAPOLIS ROYAL, Dec. 14—A banquet was tendered the delegates present from the Middleton, Bridgetown and Annapolis Boards of Trade and the Town Councils of the above named places at the Queen Hotel last night, the menu being all that could be desired and got up by Hotel McMullen in his usual good style, when about 42 sat down at the banquet board. Speeches were delivered by Mayor Goucher, E. J. Cox, John Potter, F. E. Bentley and Geo. Freeman of Middleton, Henry Hicks and Fred Bath of Bridgetown; Emerson Reed of Bear River; F. C. Whitman, President of the Annapolis Royal Board of Trade and A. M. King, who proposed the following resolution:

"Whereas the Highway Act sets the time for statute labor, between the first of April and the 31st of July, and in a great many cases the surveys put off doing the road until late in the year; and whereas grants for roads are frequently laid out during the mid-summer, causing the roads in many cases to be almost impassable during the greater travel of the year, and whereas; there should be better supervision over all work done by statute labor and prompt payment for work accomplished.

"Therefore Resolved, That the Government be requested to have such changes made in the Highway Act that the road work in this County must be done between the first day of April and the 15th day of June, also to take into consideration the following recommendations:

"That there should be a more thorough supervision by the Inspector of Highways to see that all work done by statute labor and under special grants is properly executed. That all grants for highways should be available so that the laborers could be paid promptly, for the reason that in order to get good road makers, and owing to the scarcity of laborers, payments put off being made as soon as possible to encourage better work being done on the roads."

This resolution was carried unanimously by the delegates from the Town Councils and Boards of Trade represented, who will bring the matter before their local Boards and the Municipal Council, and if passed by them the Government will be memorialized to make the change, which will lead to better highway improvement which is so desirable by all.

Hundreds Present at the Reception

WIMPOH WAS HELD BY MONSIGNOR STAGNI IN HALIFAX SUNDAY AFTERNOON.

Monsignor Stagni, the papal delegate, celebrated high mass at the Eudist Seminary, Halifax, at 9:30 Sunday morning.

From three to five o'clock in the afternoon, his excellency held a public reception at Archbishop McCarthy's residence, which was attended by hundreds of persons. Both men and women were present, and the affair was a marked success, all those attending receiving the papal blessing.

St. Mary's Cathedral was crowded to the doors Sunday evening when Monsignor Stagni presided during the service of Vespers. The seating accommodation of the Cathedral was taxed to its utmost, many of those present being non-members of the congregation. His excellency delivered a very able and eloquent discourse, which was listened to attentively throughout.

At the 9 o'clock mass at the Cathedral the rector, Rev. Dr. Foley, spoke of the splendid reception that had been accorded to Monsignor Stagni on his arrival in Digby and Halifax, and of how pleased he was. The speaker stated that the Monsignor informed him that he had received no more hearty reception at any place in Canada which he visited than in Nova Scotia.

Egg War in Philadelphia.

HOUSE KEEPERS' LEAGUE INAUGURATE CAMPAIGN TO REDUCE COST OF LIVING.

PHILADELPHIA, Dec. 18—Eggs sold generally throughout this city today for 24 cents a dozen, as a result of the crusade inaugurated on last Wednesday morning. In addition to the 7,000 cases containing 2,520,000 eggs sold under the direction of the Housekeepers' League, retail dealers sold from their own stock at the same price. In some instances an even cheaper rate was charged, one dealer advertising "Suffragette eggs 23 cents a dozen," while many of the eggs sold by the dealers were of as good quality as those sold by the League, cases were reported of retailers selling inferior eggs for the double purpose, it is said, of discrediting the movement and getting rid of their worthless stock. The members of the Housekeepers' League have disposed of 6,180,000 eggs since the campaign to reduce the high price of living began.

"Christmas is Coming"

'Christmas is coming, the children shout; and they are counting the days and their pennies and writing letters to Santa Claus and speculating as to their presents. They know as well as the calendarers do when Christmas will be here, and if a school of children were to tell us the calendar was wrong we would believe the children just as we would believe the children just as we would take the prospective bride's word as to the day of days to her in preference to the calendar.

This is universal joy in the child's world at the coming of Christmas, but we must qualify that statement. There are children to whom the day will bring no joy. They see the Christmas tree from the gaily decorated windows with longing anxious eyes, but they know there will be no Christmas tree for them, in fact no toys. Christmas will be more gloomy to them than other days, for the brightness that shines on happier home than theirs will cast a darker shadow on their poor homes.

The Master wants us to do all in our power to help His poor, especially His little ones, and our Christmas will be all the happier if we do what we can to send happiness to the homes of poverty. There are homes that will be without coal and bread and light if you don't send it to them. Send a little happiness into these homes—please; they are out of happiness about all the time.

'Christmas is coming,' the clerks in our stores are saying, and then for a day at home. Make it as easy for them as you can these busy days that are almost here. You don't know how tired they are, these over-worked girls and young men; if you did you would wonder at their patience and politeness, for you surely tax their over-wrought nerves by your exactions, unreasonable prices, when you are not a purchaser.

Think, something, oh Christian, of the girl and man behind the counter and don't snub and lose your politeness with them. They are not machines. 'Hath not a clerk eyes? Hath not a clerk hands, organs, dimensions, senses, affections, passions? Fed with the same food, hurt with the same weapons?'

'Christmas is coming,' they are saying in offices and schools, and then for home, and they count the days and later the hours that keep them from home.

God grant they may not be disappointed and those at home who smile as they work and say to themselves fifteen, ten, five days—one day more and they will be home.

'Christmas is coming; my last at home, the next I will be with him in my house—in our's,' says many a sweet young girl, with a smile for prospective joys and a sigh and a tear for the coming good bye.

God grant that the wedding bells and Christmas bells may ring out together, 'Peace on earth, good will to men.'

'Christmas is coming,' and they say it with sadness. 'Last Christmas we were all together. I dread the coming of Christmas; it tells me of my loneliness without him—without her.'

'Oh God! be kind and helpful to the many to whom the Christmas-tide will bring no joy, for since last Christmas the bell has been rung softly; there was crape on the door.'

Astraph Terns Killed

LIEUT. PARKE, OF ROYAL NAVY, AND AEROPLANE COMPANY MANAGER KILLED.

LONDON Dec 15.—The fall of an aeroplane today added two more to the list of fatalities of aviation. Lieut. W. Parke, of the Royal Navy, and Mr. Hardwick, the manager of an aeroplane company, were killed when the machine in which they were making a flight from the Hendon aviation grounds to Oxford came down with a crash on the Wembley golf course this afternoon.

The two started in a monoplane in choppy wind. They had proceeded only a few miles at the rate of about fifty miles an hour when the machine turned turtle, and crashed to the earth. The aviators were pinned under the wreckage. Lieut. Parke was one of the leading aviators in the last army manoeuvres.

Easily Remedied

They were on their honeymoon, and were spending it amidst the mountains of Switzerland. Nearly every day they attempted to climb to a fresh height.

Flushed with triumph and with excessive heat, parched, and scant of breath, they had at last gained the summit of a lofty peak. Then they passed.

Partial Loss Only

The editor of a paper in Western Indiana declares it to be a fact that a reporter on an Evansville sheet in describing the murder of a man in an adjacent town, wired his paper as follows:

CORRESPONDENCE.

A Letter From Mr. Bowers.

To the Editor of the Courier: DEAR SIR,—A series of surprises came to me on Sunday morning, Dec. 15th, the anniversary of my birthday, when my wife brought in a tray heaped high with looks, letters and postal cards to the number of one hundred and fifty-five. As it would tax my powers to answer these all privately, with your kind permission, Mr. Editor, I will through the columns of your widely circulated journal tender my heartfelt thanks to all the senders. Being confined to my bed I appreciate the thoughtfulness that prompted so many to help enlighten the gloom that must necessarily encompass one in the sick chamber. While few of us are resigned and willing to be laid aside from life's activities yet we must try and bear as patiently as we can the trials. I am also extremely thankful for the kind ministrations of my neighbors and the public in general who come in daily and bring seasons of sunshine and gladness. May I take this opportunity, Mr. Editor, of wishing all my numerous friends scattered over this continent, as well as yourself, the compliments of the coming festive season, also a Happy New Year.

F. C. BOWERS.

Westport, Dec. 17th, 1912.

Bishop Jagger Died in France.

HAD A SUMMER RESIDENCE AT JAGGAR'S POINT, NEAR DIGBY.

NEW YORK, Dec. 14.—The Rev. Dr. Thomas Augustus Jagger, bishop of the American Protestant Episcopal Church on the continent of Europe, died yesterday at Cannes, France, according to advices received here today.

Dr. Jagger was appointed bishop in February, 1908, and had lived abroad since then. He was born in this city 73 years ago and held rectorships here and in Yonkers and Philadelphia. He was consecrated bishop of southern Ohio in 1875. Later he lived for some time in Boston.

Thomas Augustus Jagger was born in New York July 2nd, 1839, and was educated in the city schools and by private tutors. He first entered business as a bank clerk, but later prepared for the ministry and was ordained as a deacon in 1860.

He was rector of the Episcopal Church at Bergen Point, N. J., from 1861 to 1863, when he was ordained as priest and went to the Anthon Memorial Church in New York, where he remained five years. The next two years he was at St. John's Church, Yonkers, where he established the St. John's Riverside Hospital. In 1870 he went to Holy Trinity Church, Philadelphia, as rector, and remained there five years.

In 1875 he was consecrated bishop of Southern Ohio and retained that post for 30 years when he retired, although he still retained his seat in the House of Bishops with a vote. For three years following he was the morning preacher at St. Paul's Church, Boston, and then went abroad as bishop in charge of the American churches in Europe.

Bishop Jagger was the author of "Bible Lectures," published in 1900, and many other essays and sermons. Dr. Jagger married, on April 22nd, 1862, Anna Louisa, the daughter of Hon. John W. Lawrence, of Fishing, N. J. She died while the bishop was abroad. For his second wife he married in June, 1911, Miss Mary Elizabeth Jellison, the ceremony taking place in St. Luke's Cathedral, Portland. Mr. She survives him, as does a son, Professor Thomas A. Jagger, Jr., who is in Hawaii.

WILL BE BURIED IN BOSTON. CANNES, France, Dec. 15.—Funeral services were held today for the Rev. T. A. Jagger, bishop of the American Protestant Episcopal churches in Europe, who died here Friday. Burial will take place in Boston.

The above despatch will cast a gloom over Bishop Jagger's large circle of friends in Digby county and other parts of Nova Scotia. Bishop Jagger first visited Digby in 1888. He purchased property and built a summer residence at what is now known as Jaggar's Point, near Smith's Cove, which, with the exception of some half dozen summers during the past twenty years, he has occupied. At his bedside when he passed away, besides his wife, were his daughter, Miss Louise Jagger, and sisters, Mrs. Pitkin, of Washington, and Mrs. Kingsolving, of Texas. He also leaves a son, Prof. T. A. Jagger, Jr., who is at present in Honolulu, and he also has a brother, Mr. Elyard Jagger, in Washington. His death was caused by bronchial and heart trouble.

Must Carry Wireless.

A resolution providing that passenger ships shall have wireless apparatus has passed its first reading in the House of Commons. The Bill provides that vessels of Canadian registry licensed to carry fifty or more passengers, and making voyage of 240 miles or more shall carry wireless under penalty of \$5,000 for the vessel, and \$100 for the master. Mr. Pender asked why the minimum was fixed at fifty passengers. He thought that the safety of fewer passengers might be considered. Another member remarked that the distance should be shorter than 240 miles. He said it was only 40 miles between Digby and St. John and that it was one of the roughest places on the coast to the winter time. Some changes were promised by Hon. Mr. Hazen on the second reading.

CORRESPONDENCE

Another Letter From Mr. McPherson

To the Editor of the *Courier*:—
DEAR SIR,—It came to my ears before leaving Digby that one who did not hear me speak either of the forty-five times in as many meetings while I was there, may have misinterpreted from hear-say my teaching. I am pleased that some of the best representatives of every church in Digby, heard me preach and that they expressed their approval of my sermons, while they may have not agreed with me in every thing I stated.

I am glad to state that I can quote with approval statements of some of the great scholarly spiritual men of every large and influential Christian denomination, in support of the plain New Testament planks of the platform of Christian Unity which I urge as a representative of a fast-growing Christian body, or undenominational movement, now numbering nearly two millions of adherents, having the largest Sunday schools, probably, in the world, and some of the largest congregations.

I agree with the great John Wesley when he prays: "Would to God that all our names and unscriptural phrases and forms, which have divided the Christian world, were forgot; and that we might all agree to sit down together, as humble, loving disciples, at the feet of our common Master, to hear His word, to imitate His spirit and to transcribe His life into our own." The Master of men prays for a oneness among His disciples such as is with Himself and the Almighty Father. That oneness does not exist, and not until it does exist, will the Kingdom of Christ be on earth in fullness. And why should we believe our Lord prayed in vain? I do not believe He prayed in vain; and I try to make His plea, my plea, with sincere love for all Christian people of whatever name. As ever I want to be understood, thanking you for this space, I am, with appreciation,
Yours,
LOWELL O. McPHERSON,
Port Williams, N. S., Dec. 10, 1912.

The Commodore Building Moved.

To the Editor of the *Courier*:—
DEAR SIR,—About two weeks ago I was called to Bridgetown to move a building which another man had tackled but could not move it and had to throw up the job. The owner of the building, therefore sent for the "Old Commodore" building mover. I moved it as easy as the steering of a boat in smooth water. I then left for home. Today I was again called to Bridgetown to move another building on which had been employed a man who had tried but could not move it.

It does not pay to be a carpenter, building mover, watchmaker, sawyer, shipbuilder, buckwheat harvester, etc., and then advertise in a "one-horse paper."

I find it pays to advertise in a paper with a "two-horse" circulation. I don't know it all, I am only a "one-horse" mover. I can steer a boat and run an engine, so can you. Mr. Editor, I don't edit a paper, Oh, no, but the public knows that the "Old Building Mover" gets there every time. I am daily receiving calls from Cape Breton to the extreme end of Nova Scotia.

Wishing my friends and patrons a Merry Christmas and prosperous New Year.

I remain,
Yours truly,
W. A. CHUTE,
Bear River, Dec. 6th, 1912.

Our Christmas Advertisers.

Never has the *Courier* put before its readers as many Christmas advertisements as in today's issue, and we doubt if any weekly in the province will contain as many large and attractive advertisements as the enterprising merchants of Digby town and county have furnished our readers today.

Our foreman and ad. setters take great pride in the display of the copy furnished us by our business men, some of whom are excellent ad. writers while others take less interest in this most important branch of their business. The first Christmas ad. to reach us for this issue was that of the River Drug store which arrived several weeks ago. Then on Friday we received Dakin Bros., then several more each day up to our regular time limit. Wednesday noon. Those ads. which came in first were carefully handled and can all be picked out by those accustomed to attractive display. Those which were put in type after Wednesday noon were "hustled" with little or no painstaking.

This is to be regretted for several of our home merchants could just as well hand out their copy a day earlier as at the last moment. Their only excuse in most cases being they forgot it. The mall order houses never forget to send in their Christmas catalogues but we advise our Christmas shoppers to patronize the home merchants and thus purchase good goods at right prices.

Surprise Party at Ashmore.

An Ashmore correspondent writes: A very pleasant event occurred at the home of Mr. and Mrs. George E. Doty, Saturday evening, when a number of friends gathered to celebrate the 46th anniversary of Mr. Doty's birth. After a beautiful repast was served, a pleasant evening was spent at the close of which Mr. Doty was presented with nice gifts, showing the high esteem in which he is held in the community. At the close of the evening, a heartily enjoyed party was offered by the Rev. Mr. Campbell and after singing "God be With You 'Till we Meet Again" the company left for their respective homes wishing Mr. Doty many more happy birthdays.

Won First Prize.

Mr. James Hoop, a prominent farmer in Hill Grove, who puts a lot of study into his business as well as skilled and common labor, won first prize for the best half-acre of potatoes for the province of Nova Scotia in the competition offered by the Department of Agriculture.

The *Coal-Guard*, the organ of the fishermen of Nova Scotia, has absorbed the *Sheburne Gazette*.

NATURE'S LAWS.

Nature's laws are perfect if only we obey them, but disease follows disobedience. Go straight to Nature for the cure, to the forest; there are mysteries there, some of which we can fathom for you. Take the bark of the Wild-cherry tree, with mandrake root, Oregon grape root, stone root, queen's root, bloodroot, and golden seal root, make a scientific, glyceric extract of them, with just the right proportions, and you have

DOCTOR PIERCE'S GOLDEN MEDICAL DISCOVERY.

It took Dr. Pierce, with the assistance of two learned chemists and pharmacists, many months of hard work experimenting to perfect this vegetable alterative and tonic extract of the greatest efficiency.

Mr. C. W. PAWLEY, of Millville, Calif., writes: "I wish to tell you that I have used your 'Golden Medical Discovery' in my family for twenty years. We have had a doctor called in but once during that time. I have a family of ten children, all well and hearty, for which, to a great extent, we owe thanks to you and your 'Golden Medical Discovery' and 'Pellels,' which we use when sick."

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

GOLD DUST

digs deep after germs

Gold Dust not only cleans but sterilizes. Soap merely washes over the surface, leaving a greasy film behind it. Gold Dust "goes to the bottom," and insures absolute purity, and sanitary safety. Why not sanitize your home, as well as clean it? Soap needs muscle help; Gold Dust does all the hard part of the task without your assistance. Gold Dust is a good, honest, vegetable-oil soap, to which are added other purifying materials in just the right proportions to cleanse easily, vigorously, and without harm to fabric, utensils or hand.

Gold Dust is sold in 5c size and large packages. The large package means greater economy.

DIGBY WEEKLY COURIER Digby, Dec. 27, 1912

Notice to Advertisers. Owing to Wednesday being a holiday all copy for advertising must reach us Tuesday noon. If you bring your advertisements in Thursday, they cannot appear until the issue of the following week.

IMPORTANT PUBLIC IMPROVEMENTS OF 1912.

During the past year there have been a large number of improvements effected in public works, and otherwise, in this county, as the result of action taken by Mr. Jamson, the Federal member. The COURIER has obtained a list of some of these, as follows: PUBLIC WORKS.

Simon River, improvements to breakwater. Bear Cove, removal of rock along side breakwater. Meteghan, improvements and extension to public landing.

Church Point, repairs to breakwater. Bellevue's Cove, dock improvements. Weymouth, dredging in river. Digby, dredging and improvements to pier.

Bear River, public landing. Centreville, new breakwater begun. Sandy Cove, new approach and repairs to breakwater.

Little River, removal of rocks from berths and freight shed on wharf. Long Beach, fish hatchery began. Triverton, repairs and improvements to breakwater.

Westport, improvements to public landing. AID TO NAVIGATION. Meteghan Harbor, bell buoy. Little River pier, pole light.

Freepoint, spindle on ledge. Bay View, Life Saving Station. Weymouth River, wreck district established. Bellevue's Cove, harbor defined.

Little River and Freepoint, each, in its locality, being of much local benefit. The life saving station at Bay View has already amply justified its establishment, and Capt. John W. Hayden and crew are always ready and willing to render aid to those requiring it.

The station building will be erected in the spring, temporary provision for the crew and boat having been made for the season. Postal improvements, difficult to obtain, are usually much appreciated, as are those mentioned in the foregoing list.

The re-opening of the customs office at Meteghan and the raising of that at Triverton to a class which affords it the advantages of a port of entry, are of much benefit to the communities concerned.

The establishment of a quarantine station at Digby affords a measure of protection to the tourist business which will be greatly appreciated by those at Digby and all through the valley, who have invested large sums of money in this trade.

This gives assurance that no case of contagious disease which might be caught by an overseas vessel carried to any of the half dozen ports within Digby Basin can get ashore, and so create a panic, which would result in a general exodus of the summer colonies between Digby and Grand Pre.

The tourist trade has been worked up gradually at great expense and much is now involved in it that the action taken by the government in its support will be regarded as a step in the right direction.

Those who are interested in the welfare of Digby County will appreciate the fact that the past year has been an important one in its development and recognize the active interest which Mr. Jamson has taken in all that concerns the progress and prosperity of his constituency.

Death of Lemuel C. Holdsworth. A FORMER DIGBY MAN PASSES AWAY SUDDENLY IN LYON. We reprint the following from the Daily Evening Item, published in Lynn, on Thursday the 19th inst:

Returning about 8:15 a. m. today to his home at 21 Collins street from Cash's store, where he had gone for his morning paper, Lemuel C. Holdsworth, retired contractor and father of Medley T. Holdsworth, fell in the street, in front of the house next his own and was picked up dead by neighbors who ran to the aged man's assistance.

Mr. Holdsworth was 73 years old last July and his death was due to heart failure. He seemed in his usual health this morning when he went out for his paper. It is a stout block to the store, where he is accustomed to get it, and Mr. Holdsworth started home.

OF A LOCAL NATURE

Mrs. H. A. Edgloffter has our thanks for a copy of the Saskatoon Phoenix. There will be a Midnight Service at 11 on New Year's Eve at Holy Trinity church.

Capt. J. W. Dunham of Liverpool, England, has our thanks for a copy of a late paper, from that city. We wish to call particular attention to the advertisement "Tenders for Almshouse Supplies" which appears in today's COURIER.

Mr. G. I. Letteney will address the Epworth League in the Methodist Hall tonight. His subject will be: William Lloyd Garrison. Silver collection.

The ladies of the Methodist church, held a very successful Xmas tree, fancy sale and tea in their hall Friday night, at which the sum of \$140.00 was realized.

There will be service at St. Paul's Chapel, Marshalltown, on Sunday next at 10 o'clock. The Holy Communion will be celebrated on New Year's Day at 11.

The editor of the COURIER wishes to thank the office and mechanical staff, the local merchants and his numerous friends for so many valuable and much appreciated Xmas gifts received this holiday season.

In the Baptist church next Sunday morning, the subject will be "Retrospect and Prospect." In the evening a memorial service will be held for the men lost from the Dorothy M. Smart. The sermon and music will be appropriate to the occasion.

S. S. Yarmouth Delayed in the Bay. S. S. Yarmouth, Capt. Andrew McDonald, which called from Digby for St. John Christmas afternoon, was delayed in the bay nearly four hours owing to an accident to the air pump in the engine room which occurred when she was about four miles off Point Prim light.

The Life Boat Darling, Capt. John W. Hayden, ran off to her from Bay View. Capt. McDonald required no assistance, but sent some telegrams ashore. A fresh north west wind and an ebb tide caused the ship to drift several miles down the Bay. She proceeded shortly after dark reaching St. John about nine o'clock. Repairs were made by chief Engineer Kingston and staff, and she returned to Digby yesterday on time.

Two Convicts Found Dead. LONDON, Dec. 25.—Two convicts, aged 25 and 31 respectively, both of whom were serving life sentences for murder, were found dead in one cell in Maze prison today. CHRISTMAS REVEALS NOBLER NATURE.

Were the brotherly reciprocities of the Christmas time kept alive all the year, were the typical virtues—love of friend and neighbor, generosity and hospitality—kept warm and bright the year long, then indeed would the whole round world be bound in blessedness.

Christmas, the dearest holiday of the heart, is the one day when we do the simple human things—the loving kindnesses which we ought to be doing every day in the year. For one 24 hours at Christmas we live as we pray and practice the tender virtues, the only virtues in which we are to be examined at the last day; we visit the sick, feed the hungry, clothe the naked, comfort the afflicted. We seem to realize for a bright, brief period, that sharing, not hoarding, is the law of life—that joy is a duty, a thing to be lived in one's own life and to be passed on and made possible in other lives.

The ideal Christmas spirit is to give one's self and one's goods for love's sake, to succor the needy or to rejoice the friend. And there is much of this fine generosity. But greed too frequently steps in and pushes love aside. Christmas in some respects seems now to be a commercial scramble rather than a religious festival.

In spite of all imperfections, however, Christmas is the one spot of the year that recalls to us the fact that we have a larger, nobler nature than the selfish nature we live by the rest of the year. Indeed man's truer and higher nature is unselfish. When man shall reach his true manhood, he will live the life of unselfish service—a life immersed in thought and work for others. Then the Golden Rule will be the working principle of life; then it will be Christmas all the year.

For Constipation.

A MEDICINE THAT DOES NOT COST ANY THING UNLESS IT CURES.

The active medicinal ingredient of Rexall Orderlies which is odorless, tasteless and colorless is a comparatively new discovery. Combined with other extremely valuable ingredients, it forms a perfect bowel regulator, intestinal invigorator and strengthener. Rexall Orderlies are eaten like candy and are notable for their agreeableness to the palate and gentleness of action. They do not cause griping or any disagreeable effect or inconvenience.

Unlike other preparations for a like purpose, they do not create a habit, but instead they act to overcome the cause of habit acquired through the use of ordinary laxatives, cathartics and harsh physic and permanently remove the cause of constipation or irregular bowel action.

We will refund your money without argument if they do not do as we say they will. Two sizes, 25c. and 10c. Sold only at our store—The Rexall Store, P. W. Holdsworth, Digby; Ryan & Blackader, Weymouth.

Hold up and Shot Station Agent.

LEADVILLE, Colo., Dec. 18.—A bandit, suspected of being Frank L. Smith, who a week ago, escaped from the Brighton Jail, where he was held for murder, entered the Denver and Rio Grande Station at Pando, twenty miles west of Leadville, last night, held up the station agent C. N. Kinney, and the other men, marched them down the track, struck William Maxfield over the head with his revolver, and then shot him dead. An hour and twenty minutes after the hold up and murder, the bandit was captured by members of a bridge crew. He now is in jail at Red Cliff. He gave his name as Burns, but refused to answer any other questions.

Aged Woman Burned to Death. MRS ANNIE COPP, OF JOLICURE, THE VICTIM - CLOTHING CAUGHT FIRED FROM FIRE IN STOV.

SACKVILLE, N. B., Dec. 15 - Saturday morning Mrs. Annie Copp, widow of Silas Copp was burned to death at her home, Jolicure. Mrs. Copp, who was ninety years old, lived at Aaron Finlay's, Jolicure. There is a stove in her room and early Saturday morning a fire was made in it. Mrs. Copp got up and sat down by the fire to warm herself, as she had been in the bath of being.

She was then left alone for a few minutes and later members of the Finlay household heard a thud as if a body had fallen. They rushed to Mrs. Copp's room and were horrified to find her lying on the floor dead. Her clothing was completely burned off her body.

It is not known just how the fire started but it is supposed that Mrs. Copp's apron, which was of cotton, caught from the stove and that the blaze was inhaled, causing instant death. This view is supported by the fact that the mouth and throat of the victim were badly burned.

Mrs. Copp was formerly Miss Annie Brownell, being a sister of the late Thomas Brownell of Jolicure. She had two sisters, Mrs. Cynthia Davis and Miss Sarah E. Brownell, Northport (N. S.), and two brothers William and Aaron, also of Northport.

SAD DISASTER OFF YARMOUTH

Schr. Dorothy M. Smart Struck by a Squall Several of Her Crew Washed Overboard and Four Drowned.

FRANK DALEY, JESSE HALLIDAY, LORAN McWHINNIE AND STEWART ROBINSON ARE BENEATH THE WATERS OF THE DAY OF YUNDY.

A telephone message to the COURIER from Yarmouth Monday afternoon conveyed the sad news of the drowning of Frank Daley, of Mt. Pleasant; Jesse Halliday of Digby; Loran McWhinnie, of Port Wade, and Stewart Robinson, of Parker's Cove, all of whom had been washed overboard from the schr. Dorothy M. Smart, commanded by Capt. Arthur Longmire.

The message was at once sent to Mayor Short, manager of the Digby branch of the Maritime Fish Corporation of Montreal, who is owner of the vessel. Mr. Short immediately suspended business at the works here, placed the flag at half mast on the company's office building in the Harbour and personally conveyed the news of this sad affliction to the widows and near relatives of the bereaved ones, the worst task our much respected and popular chief magistrate of the town has been called on to perform, but we can assure our readers that although as much stricken with grief as any of the bereaved, he performed his duties in a noble manner and the kind words that he uttered must have sunk deeply into the hearts of those who had so suddenly come to grief just at a time of year when all would like to be happy and when so many were extending best wishes for a Merry Christmas and a prosperous New Year.

The schr. Dorothy M. Smart, Capt. Arthur Longmire, sailed from Yarmouth with the rest of the Digby fleet Sunday night.

The following morning about three o'clock the Smart's crew met their trouble about 10 miles south west of Yarmouth light. They returned to the vessel with their fish and had breakfast.

Between six and seven o'clock the men were in their preparation dressing fish, torches burning, knives in their hands, and all on deck with the exception of the cook, who was in the forecastle galley.

Capt. Longmire noticed that his vessel, which was carrying mackerel, forecast and jumbo (the weather being moderate), was beginning to heel to leeward quite rapidly. He ordered the men to get on the forecastle and he at the same time eased off the main sheet.

Quicker than we can report it, a squall struck in the shape of a whirl-wind or small cyclone. The vessel went down so far that she spilled the wind out of her sails, her cross trees almost touching the water, but being an extra good vessel and in the hands of such an excellent skipper, she again righted, but not until the water had poured in her open hatches and even into her forecastle, making it impossible for the cook to get out.

In the meantime several of her crew were washed overboard, and their torches were put out, their knives carried away, etc. As the vessel righted Joseph Hersey, a member of the crew was seen drifting on a keeler which had washed from the vessel. In less than five minutes a dory had been launched off the deck, quickly manned and Hersey rescued.

But the worst of it all, four men were now missing, Frank Daley, of Mount Pleasant; Jesse Halliday, of Digby; Loran McWhinnie, of Port Wade, and Stewart Robinson, of Parker's Cove.

Dories were manned and rowed all round the scene of the disaster, but the poor fellows had gone down in the darkness. The vessel remained there until long after daylight the hatch pieces and other articles from the deck were picked up, but no signs of the missing men.

Just after daylight another squall of the same type was sighted, both by the Captain and the crew of the Smart and by Capt. John Apte and crew of the schr. Albert J. Lutz. This whirlwind threw the water up in the air for more than a hundred feet, but fortunately did not strike any of the vessels.

The Digby fleet all arrived safely in Yarmouth with more or less loss of gear.

The captains and many members of the crews spent Christmas at their homes in Digby and vicinity, but all had a mournful appearance, their chief topic of conversation being the loss of their comrades, all of whom were general favorites with them all.

Capt. Longmire feels the matter keenly. It must be remembered, however, that only for his careful and skillful handling of the schooner with the able assistance of his crew, the vessel would have filled and gone down with all on board, and nothing would have ever been heard from her. The crew at the time of the disaster consisted of 22 men. Since Saturday 23, but one had left her in Yarmouth the previous Saturday.

As soon as Col. Smart, of Montreal, President of the Maritime Fish Corporation, heard the news the disaster he sent the following telegram to Mayor Short:

H. H. Short, Digby: Your telegram with sad news, just received. Please convey to bereaved families an expression of deepest sympathy on behalf of the company and myself personally. Will be thankful for further particulars.

CHAS. A. STANT.

Frank Daley, of Mt. Pleasant, was a son of the late Capt. Crawford Daley, of Collierville, his mother Mrs. Sarah Daley, still residing in that village. He was aged 45 years and leaves a widow, who is a daughter of Mr. John Post, of Collierville, and five children, three sons and two daughters, his eldest son being with him on the vessel at the time of the disaster.

He is also survived by two brothers and four sisters: Harford and William Daley, Mrs. R. H. Desmond, of Somerville, Mass.; Mrs. Bernard Casabianco, of Digby; Miss Elsie at home, and Mrs. Wm. S. Winchester, of Digby.

Jesse Halliday, who resided on Birch street, Digby, was a son of Mr. and Mrs. Ben) Halliday, of Hillsboro, Annapolis county. He was aged 40. He leaves a widow, daughter of Mr. and Mrs. Wesley

Aged Woman Burned to Death. MRS ANNIE COPP, OF JOLICURE, THE VICTIM - CLOTHING CAUGHT FIRED FROM FIRE IN STOV.

SACKVILLE, N. B., Dec. 15 - Saturday morning Mrs. Annie Copp, widow of Silas Copp was burned to death at her home, Jolicure. Mrs. Copp, who was ninety years old, lived at Aaron Finlay's, Jolicure. There is a stove in her room and early Saturday morning a fire was made in it. Mrs. Copp got up and sat down by the fire to warm herself, as she had been in the bath of being.

She was then left alone for a few minutes and later members of the Finlay household heard a thud as if a body had fallen. They rushed to Mrs. Copp's room and were horrified to find her lying on the floor dead. Her clothing was completely burned off her body.

It is not known just how the fire started but it is supposed that Mrs. Copp's apron, which was of cotton, caught from the stove and that the blaze was inhaled, causing instant death. This view is supported by the fact that the mouth and throat of the victim were badly burned.

Mrs. Copp was formerly Miss Annie Brownell, being a sister of the late Thomas Brownell of Jolicure. She had two sisters, Mrs. Cynthia Davis and Miss Sarah E. Brownell, Northport (N. S.), and two brothers William and Aaron, also of Northport.
