1877- 1978

1877-1977

Now and then a printing job had a save in parchment paper which required a special kind of printers' ink which smelled very bad some days. I always dreaded it when "Mac" would take you to the largest press in spite of the fact he always opened an outside door to lessen the odors on the room itself.

One of the jobs I had to do, besides putting and
graders' devil on the staff, was to... I cleaned one
and then... One day not long after I started to get to
the grating plant. I decided to climb the floor that
apparently hadn't been cleaned for some con-
siderable time.

"J.J." came along and said, "how are you making out Vince?" I assured him that I thought I was beginning to see the floor. "J.J." laughed very heartily. He thought the remark pretty good and whole.

Sometimes the gasoline engine, a piece of machinery would refuse to work, and the "Man" fix-it man had patiently worked for a certain length of time to get it going again, without results. Man would then stand back and come out dramatically then he would immediately start working. "See," he would say, "all it needed was a bit of coaxing."

On other occasions when some group refused duty for the dead, seemed to be brokenhearted, I would say, "use a little oil" and sure enough, after that is said, "use a little oil" and sure enough, after that is said, it took. They often since, have I heard of the value of that remark and the actual need of oil in many life situations, applied at the right time, right place and in the right way.

place and, in the right way.

Other things that sort of stick in my memory and come to mind now and then are, like the time I told "Mac" of four teenage boys who in the spring season of 1918 got together just before dark one evening and decided to mutilate the newly built outdoor Pease Hotel swimming pool which had just been filled with water. Clothes were taken off near the road just out of the pool, nobody else seemed to be around except the four boys, no thought or time for bathing suits, so in the pool they went. They stood on the edge of the pool and looked at the chilly water, one soon jumped in. The rest quickly followed and across the pool they swam. "Mac" listened to the story and hardly said anything, but the next "Digby Courier" had a good story on the episode. The heading of the story was something like, "Four Boy Swims Officially Open Pease Hotel Swimming Pool." Who were the four? Many years later they are known as: the late Dr. Carl H. Anderson, veteran of two wars, second world war and Korea; was awarded the Victoria Cross; Sidney L. Smith, now prominent draughtsman for many years in Digby; Clayton D. Snow, Digby wholesale apothecary, and myself.

As a young treasurer I used to like doing some writing about different events interesting to myself and mostly for myself. One day "Mac" said to me how about writing your version of the story told about "The Marooning of Jerome". I did it and read it aloud to two somewhat different groups of the men who was found marooned on a French Island some place on the French Shore of St. Mary's Bay, Duffy County. When I read this man's tongue had been cut out and his legs quite freshly amputated, were surgically well dressed and bound. He was presumably left by some vessel before dawn one morning, all for some mysterious reason.

Jerome appeared to have been a man of considerable social standing and, possibly, of considerable wealth. However, the only thing I could or would ever say after being asked and probed by some family in the Forest was that something that sounded like the name before either, could not, or would not, apply to the man who he was or why he was left there. I was, and is, one of Dugby County, and I am sure, different ideas have been put forward in the past concerning this man. However, "Mia" was, I felt so sure he was, that I was different about this man. The only thing I have been very well explained to me.

A black and white photograph of a wide river flowing through a valley. The river is calm, reflecting the sky. The banks are covered with dense vegetation and trees. In the background, there are rolling hills or mountains under a cloudy sky.

The Town Plot is situated at the east of the township just within the entrance to Annapolis Bay, and twenty miles from Annapolis Town, and six miles distant from the head of H. Mary's Bay. This land, and not from the water's edge, partly is level ground, and partly on the declivity of a modern hill, dry and pleasant, and having with an eastern aspect a view of the Annapolis Bay, and its cultivated shores for twenty miles in extent, it terminates with the Fort and River's mouth at that name. It was secured by Leyden's tract, New York in 1683, the grant of which went nearly to fashion, as, moving to other countries, left the whole

There was a taste of trying to sell job printing outside the plant. Work was a little slack one early fall day and so Mac said to me, "How about trying your hand at taking orders for printed personalized Christmas cards?" I tried it. I made several calls, spent most of the time at one particular house, and got an order, but

Domination Day in Digby

BASEBALL GAME—YACHTING—PICNICS
AND OTHER FORMS OF AMUSEMENT

The big down pour of rain Tuesday morning greatly interfered with plans for Domination Day in Digby. The weather cleared at noon and the remainder of the day was one of the pleasantest of the season, but the events taking place in the afternoon were not the success they would have been had the weather been fine during the forenoon.

The baseball game on the Athletic grounds between Yarmouth and Digby was witnessed by about 300 people. The score was 14 to 10 in favor of Yarmouth. A short game of five innings was played after supper, which resulted in a score of 14 to 0, also in favor of the visiting team.

At 3 o'clock several boats belonging to the Western Nova Scotia Yacht Club sailed for Goat Island on their first official cruise of the season. The trip both ways and the lunch on the island proved a pleasant outing which will long be remembered by those who were fortunate enough to be present.

Several private picnics were held at Bay View and elsewhere, all of which were a success, considering the disagreeable weather in the early part of the day which considerably cut down the attendance.

In the evening the Victoria Rink and Bijou Dream theatre were the principal attractions, both of which were well patronized.

Death of William Dunbar

Mr. William Dunbar, of the firm of Dunbar Bros., lumber dealers, Weymouth, died Wednesday morning, aged 55 years. The deceased was one of Weymouth's best known citizens and had a large circle of friends, who will regret to learn of his death. He leaves a widow, but no family. Mr. Dunbar was a son of the late George Dunbar, and is survived by two brothers and three sisters; James, who was his business partner, and Joseph in the United States; Mrs. Mary E. Dakin, of Pugswash, Arctha and Annie, both at home.

The funeral takes place at 1.30 this afternoon with interment in St. Peter's cemetery. The services will be conducted by the rector, Rev. Mr. Taylor. The deceased was a member of King Solomon Lodge, A. F. & A. M., Digby; Court Sissiboo, I. O. F., Weymouth, and was at one time a member of St. George Lodge, I. O. F., Digby. The Courtenay extends its deepest sympathy to the bereaved relatives and friends.

Lost Everything by Fire

We regret to state that Mr. and Mrs. David Sibley lost their house and contents by fire Thursday night, June 28th. The house was situated on the cross road leading from Marshalltown to Digby Neck, Mr. and Mrs. Sibley being absent at the time of the fire. Their eldest daughter was home looking after the children and before assistance reached them the entire property was destroyed, including some \$1800 in cash in Mr. Sibley's pocketbook. The family is a large one and are left without clothing. There was no insurance. We have been requested to publish the following: "Donations of clothing, bedding, etc., are earnestly solicited for Mrs. David Sibley, who lost house and everything in it by fire last Thursday night. Children's clothing sorely needed. Please leave all donations with Mrs. Richard Thorne, Montague street."

Mr. Cripps Visits Pictou

ANOTHER ADDITION TO THE BIJOU DREAM THEATRE CIRCUIT.

Mr. J. F. Cripps left here Monday for Pictou, returning Wednesday afternoon. While in that town he and W. H. McFarren leased the New Curlers' Rink and expect to have it fitted for a motion picture theatre and open next Thursday, July 10th. It is the intention of Mr. Cripps to give the public of Pictou the same class of pictures and entertainments put on in Digby, which should soon work up a large business in our sister town. Mr. Cripps handles only one kind of entertainments and that the best and every one of his theatres in the entire circuit is giving his patrons excellent satisfaction.

The St. Croix Courier, of St. Stephen, N. B., of last Thursday contains a half-ton of out Rev. W. C. Goucher, D. Pastors were present from other congregations and the whole affair was a pleasant one.

Great Benefit to Fishermen.

WILL BE INFORMED DAILY OF BAIT CONDITIONS AND OTHER MATTERS OF INTEREST.

In conversation with Mr. G. E. Torrie, Digby county's fishery officer, the Courtenay learned that arrangements are being made to give the fishermen daily telephone or telegraphic reports regarding the bait conditions in Digby and Annapolis counties.

At nine o'clock a. m. daily messages will be sent from Digby to Halifax, Lunenburg, Shelburne, Lockeport and important fishing villages on the Neck and Islands, such as Westport, Freeport, Tiverton, Little River and Centerville, indicating what waters have been successful and about how much bait is available.

This great convenience to the fishermen has been brought about through the efforts of Mr. Jameson, M. P., and Mayor Short, of the Fisheries Board, and will be handled by Mr. Torrie, the fishery officer for Digby county, who evidently takes a deep interest in matters appertaining to his office.

A Tribute to the Fishermen.

Frederick W. Wallace, writing in Outlook, describes the Atlantic coast fishermen as follows: "The men are of a reckless, daring class and probably the finest seamen left in this latter day age of steam. No men can carry sail longer or in the pursuit of their vocation endure more risks and hardships than these same fishermen of the American coast. Canadian and Newfoundlander, the majority of them are all from hardy British stock—Devon Englishmen, Highland Scotch and West Coast Irish, who emigrated to Newfoundland, Nova Scotia and the New England states years ago and gave birth to a second generation of farmers and fishermen of a type bolder and more daring than their pioneer progenitors. There is also a sprinkling of Dutch, Scandinavian and Portuguese from the Azores to be found among them, and all, irrespective of their parent nationality, are distinctive as a class of seafarers who for hardiness, intelligence, resourcefulness and daring are unequalled. Brave seafarers and great shipmates all, they are men whom the highest in the land might be proud to know and name as friends."

"ORANGE LILY SAVED MY LIFE"

These words or expressions have long been a source of comfort to hundreds of the letters I have received during the past year. Many were from women who had suffered agonies from falling of womb; others from women who had escaped dangerous surgical operations, as the tumors and ulcers had been removed by the action of Orange Lily; and others who had suffered from rheumatism, painful periods, etc. For all these and the other troubles known in general as Women's Disorders, Orange Lily furnishes a positive scientific, never-failing cure. It is applied direct to the suffering organs, and its operation is certain and beneficial. As a trial actually proves its merit, I hereby offer to send, absolutely free, a hot water bottle, sufficient for ten days' treatment, to every suffering woman who will write for it. CANADIAN TRAILS.

They Are the Most Delightful Roads in the Dominion.

Canada is a land of trails—trails over hills and mountains, over prairies and through forests, by the banks of rivers and across country, says Frank Yeigh in an interesting article in The Saturday Globe.

Wayward, erratic courses they often are, violating all the laws of more dignified highways, and each a law unto itself, but all the more attractive because of their vagaries of direction and their defiance of the compass.

The trail traveler feels a charm in the very atmosphere of the way, for the chances are it was once an Indian way, made by the good roads commissioners of the primitive days. The imagination easily re-creates the ancient path with the fleet and quiet-footed wanderers flitting from hunting lodge to wigwam, from council-house to the wilderness where the big game roamed, or, fired with the lust, turning the forest path into a warpath and staining the borders with the blood of their victims.

Out on the western plains the trail is often the forerunner of the highway, and more often the only way for many a long league. Little it matters if it is honeycombed with gopher holes that are so many danger holes for the horses' feet, for the winding trail of the Manitoban or Saskatchewan country is a course of delight for the city tenderfoot. Astraddle a well-intentioned pony, who has a sense of honor as to his responsibilities, and with a saddle not too much of a misfit, or seated in a spacious buckboard behind a span of speedy horses, the hitting of a prairie trail is a rare experience. Rounding off the miles in endless and miles easily run into leagues will yield higher dividends of health and pleasure than aught else one can suggest.

But let us hasten westward to the foothills and the mountains, where the real trails are found. Where are these trails of the hills? Thanks to the enterprise of the Dominion Government and the Canadian Pacific Railway, there are miles and miles of trails, and the trail traveler, the pioneer, the explorer, the surveyor who laid out the railway trails that are still in use.

Take for example the Yoho trail of today. One doubts if there is such another scenic paradise in any mountain country. For two days the path leads the lucky traveler through an Alpine world of rarest beauty and sublimity. Starting from Field, where the little houses and men cluster, like toy houses, and the trail begins by a steep climb to the top of Mount Stephen, the trail leads to a forest of rarest beauty and sublimity. Starting from Field, where the little houses and men cluster, like toy houses, and the trail begins by a steep climb to the top of Mount Stephen, the trail leads to a forest of rarest beauty and sublimity.

No less wonderful is the trail from Lake Louise to the twin wooded valleys of Paradise and the Ten Peaks, with towering peaks bearing on their crests dazzling sheets of snow and shedding from their awful cliffs the avalanches whose echoes form one of the most impressive sounds nature can produce. This is also a wonder trail, with such revelations of scenic glory as the eye has never seen or the mind attempted to comprehend.

And finally there are the trails of the farther north, the lonely pathways in the Canadian Arctic circle, the rough-hewn ways of the Yukon and the Mackenzie. And along these trails, the traveler will find the most wonderful sights of the north, the great ice fields, the great glaciers, the great mountains, the great lakes, the great rivers, the great forests, the great plains, the great prairies, the great deserts, the great oceans, the great world.

Why Export Raw Gypsum? The gypsum production countries are Canada, the United States, France and Great Britain. Until 1906 France led, but for a few years previous to that France had been decreasing her production, and in that year the United States took the lead and has kept the lead since. Canada, in the last nine years, has increased her production 169 per cent., whereas the United States had in the same time increased 250 per cent.; yet the Canadian deposits are so extensive that that country might supply almost unlimited quantities. The gypsum exported from Canada is usually in the crude state, and is largely sent to the United States. It is somewhat curious that Canadians should export the raw product, for there are great coal deposits in proximity to some of the gypsum deposits, which would seem to make it feasible to refine the gypsum on the ground. It is a fact, however, that our import of gypsum increased from \$7,610 in 1900 to \$105,882 in 1909, and the importation was chiefly in the form of plaster of Paris, from the United States. The amount of crude gypsum mined in the States was in 1900, 90,000 short tons; in 1909, 1,721,820 short tons.—Montreal Standard.

A Statue to Lord Selkirk. Lieut. Governor Cameron, Sir William Whyte, and others of the most prominent men in Manitoba held a luncheon party the other day in Winnipeg, to discuss a memorial for Lord Selkirk. They decided to erect a monument. It will cost \$75,000, and will be located in all probability at that well-known Winnipeg corner, where Portage avenue and Main street meet.

During the discussion of the matter, Mr. J. A. M. Atkins, K.C., M.P., said a poignant thing, when he urged the ordering of a statue on the ground that what it would personally, would be a patriotic example to the thousands of foreigners in Winnipeg. He called attention to the fact that whereas in Eastern Canada every big city has its statue to great Canadians, Western Canadian cities are conspicuous by the absence of such statues.

HANDLING IMMIGRANTS.

How Canada Deals With Incoming Citizens.

The Dominion Government has divided its immigration into three classes—British, foreign European and American. The Government bureau dealing with the work makes no difference between the three classes, unless they enter under different conditions.

In Canada, about 250,000 immigrants enter annually. Each homestead is of 160 acres and in some sections of the country a man may pre-empt an additional 160 acres by paying the Government \$3 per acre for it, with the payments spread over ten years. In return for this homestead or homestead and pre-emption the settler pays \$10 entry fee and undertakes to perform certain homestead duties, notably to reside on the homestead six months every year for three years, and cultivate the homestead to the extent of 16 acres every year for three years, and build upon the homestead a habitable house.

In the case of a man coming in who is not prepared to take up land, the immigration department finds him employment at agricultural work in almost any part of the country. With a one-year contract and a card of introduction he is sent to the agent of the Government in the district in which he proposes to work, and by that agent is taken to the employer or employment to which he has been specifically sent.

If upon his arrival in the country an immigrant doesn't care to take up his quarters in a hotel—and it goes without saying, there are plenty of them who do not—there are in Winnipeg and west of Winnipeg about 40 Government-owned boarding buildings. In these halls he is at liberty to make his home during the period in which he is deciding as to his destination or arranging for employment. Here are provided beds, light, bedrooms and bedding, and each man is entitled to two weeks' residence without cost; and if it is found that settlement has not been decided upon at the end of that time, and that the delay is in no way due to the settler himself, a further and indefinite period of residence in the hall is permitted.

In case of sickness and, on that account, inability on the part of the settler to perform the required duties, his homestead is protected—that is to say, an extension period is granted him by the Department of the Interior, so that, instead of performing all his duties in three years, he may be permitted four or five, as the case may be. In any event no advantage is taken of the sickness to deprive him of the homestead upon which he has placed his labor and perhaps his capital.

In case of sickness in his family and consequent destitution, due either to insufficient capital or to extra expenditure for medicines and medical help, the new homesteader has the right to appeal to the immigration department of the Interior. Inquiry is made into the situation and if it is found that the settler through no fault of his own is lacking in food, fuel or clothing, that is provided by the department and a loan taken upon the homestead for the amount advanced to the homesteader, with six per cent. interest added, the homesteader understanding that he cannot become possessed of his final title until he has met and liquidated all the advances of the Government.

There are cases, luck not being with any of us all the time, where the homesteader suffers through hail, fire or other untoward circumstances the partial or total failure of his crop and where he is still upon the land for which he has not received his patent. What happens to him? Is he turned down cold, so to speak, and told to go on his way—that the Government has done all it could for him? No, indeed. Nothing like that in Canada's immigrant code. Immediately the department of the Interior advances him a reasonable quantity of seed wheat and seed oats and he is enabled to get upon his feet again and proceed with his spring sowing. The amount of this grain, the actual cost of the grain itself plus transportation only, is made a charge upon the homesteader.

No charge is made by the department of the Interior for service of any kind rendered to the immigrant. Where persons from another country have become destitute through sickness or lack of employment in the old country within a year after their arrival, the department of the Interior either finds sufficient employment, or in the case of sickness food and medical comforts for the destitute newcomer. The same conditions prevail in the country districts, except that there the period during which the immigrant is a charge upon the department of the Interior is three years, as against one year in the city and urban centres.

A Historic Spot. The blast of the Grand Trunk Pacific Railway contractors is echoing against the rocky walls of Tete Jaune Cache. It is a different kind of blast, the shrill echoes of the locomotive whistle later on.

Going westward from Edmonton along the Grand Trunk Pacific route the traveler sees the progress already strongly marked. At present the Grand Trunk Pacific steel is beyond the great divide, and over the summit of the Yellowhead Pass.

Historically, Tete Jaune is a centre of interest in Western Canada, as this point was the site of one of the Hudson Bay posts one hundred years ago when the route from the Pine, the Peace and the Fraser Rivers brought the furs and merchandise through this gateway. At the present time there is only a band of Shuswap Indians camped on the south side of the Fraser, and, as soon as the steel reaches this locality and civilization with its kodaks and pocket books will effect the establishment of a permanent order of things.

St. John, the Exporter. St. John is becoming the big exporter. Half a million dollars worth of goods more than went out of the New Brunswick port last year, have been shipped this year. Fully half the shipments from St. John are American goods, dumped into the Canadian city for transportation across the Atlantic.

HE NOW BELIEVES IN "FRUIT-A-TIVES"

Because He No Longer
Suffers With Headaches

TAYLORVILLE, ONT. "I was a sufferer from fearful headaches for over two years. Sometimes, they were so bad that I was unable to work for days at a time. I took all kinds of medicine, was treated by physicians, but yet the headaches persisted. A short time ago, I was advised to try "Fruit-a-tives" and I did so, with instant success, very little faith. But after I had taken them for three days, my headaches were easier and in a week they left me.

After I had taken a box of these tablets, my headaches were quite cured. My appetite was always poor and my stomach bad—and now my appetite is splendid and my digestion excellent.

I had become thin and weak from the constant headaches but now not only have I been cured of all these awful headaches, but my strength is growing up once more and I feel like a new man."

Cricket in Weymouth

The weather prevented the regular schedule for Dominion Day from being carried out to the letter, but the cricket match between Hebron and Weymouth attracted quite a large crowd in the afternoon. The Hebron eleven put up a game fight and successfully withstood the Weymouth attack for some time. Weymouth eventually winning by 58 runs. Homeon, Digby and Kenting proved the stars of the visiting team and Doctors Hallett and Hogan, together with H. Hollowell were unplayable, especially the 2nd innings. The Hebron side did a few stunts with the ball. These four bowlers ought to make things lively for the other league teams when we meet them this summer. It was a source of great pleasure to see our "tail" wiggling with such force. Keep it up boys. The fielding was fair, but open for lots of improvement, the batting, taking it all around, was weak. Boys Digby has a strong team and it's up to you.

Hot in Boston.

MANY RESIDENTS SEEK RELIEF AT SUMMER RESORTS.

Boston, July 2.—Hot weather and slackness in industrial centres are causing rapidly increasing travel to Nova Scotia. The temperature continued in the nineties today and there were several fatalities due to heat and a score of prostrations.

Thirty-five mills of the American Woolen Company in New England will shut down for two weeks during the month. The corporation employs 40,000 when all its machinery is in operation but many of its plants have been running from 20 to 30 per cent capacity only. It is stated on authority that at least 15,000 operatives are idle in Lawrence alone.

The Lawrence situation measures as well as any the present situation of the big woolen and worsted mills of the country. Without exception they are running on short time. The combination of garment workers, strikers early in the year, the tariff agitation and proposed overhauling of schedule K have upset what was developing last winter into one of the biggest trade booms the woolen business had ever experienced.

Graduated With Honors.

At the graduation exercises of the Brunswick High School, Brooklyn, N. Y., held in their large auditorium on Thursday evening, June 20th, two hundred and seventy-five young men and women having passed successful examinations, received their diplomas from Supt. John H. Hannan, L. L. D., of Board of Education. Among the number was Victor H. Porter, son of Capt. L. H. Porter, of the United Fruit Co. As the course covers four years and this young man entered the school in December 1910, graduating with honors, his record is a source of great gratification to his many friends. We understand that he enters at once the employ of the New York Central Railway. The graduating exercises were attended by over fifteen hundred people and were of a very interesting character.

Yachting Trophy

A HANDSOME SILVER CUP TO BE PRESENTED TO WINNER OF RACES AT DIGBY, NOVA SCOTIA, BY PROF. AND MRS. ALEXANDER GRAHAM HILL, OF WASHINGTON, D. C.

A handsome silver trophy, which is to be presented by Prof. and Mrs. Alexander Graham Hill, of Washington, D. C., to the winner of the yacht races which are to be held next month at Digby, N. S., has been designed and made by John A. Cranston, a graduate of the Rhode Island School of Design, assisted by Oscar Allebaugh, another student of the same institution. The young men have turned out a trophy of unique design and workmanship, and one which is causing considerable favorable comment in yachting circles. The design is that of an old Viking ship with turned prow, and a facing of shields, which run the full length of the deck. It is of solid silver and stands 10 inches high and measures 10 inches across.

Mr. Cranston is a silversmith, who spent five years' apprenticeship at the works of the Gorham Manufacturing Company. He was graduated from the Rhode Island School of Design in 1910, and during the past winter has had charge of the silversmithing and jewelry department in the Washington School of Art and Crafts. Mr. Allebaugh is also a silversmith and served his apprenticeship with Gorham Co. where he is at present employed. He is a student at the School of Design and holds the medal given by the manufacturing jewelers of this city for design and chasing in the class of 1912. It was while in Washington Mr. Cranston got the opportunity to design the yachting trophy for Prof. Hill, and it is said that his work met with the unqualified approval of his patron.

[We reprint the above from the Providence Journal of June 25th. We think, however, it is an error, as far as Digby is concerned, for we are unable to find any yachtsman who knows anything about a race being scheduled here for July in which a trophy like the above is offered. —Ed.]

Another Board of Trade.

At a public meeting held in the hall at Barton last Saturday evening a Board of Trade was organized to be known as the "Union Board of Trade" located at Barton, which takes in the villages of Brighton, Barton and Plympton, or in other words, a St. Mary's Bay Board. The following officers were elected: Bernard McNeill, President; Harford VanBlarcom, First Vice President; R. P. Parnell, Secty; Dr. W. C. Harris, Treasurer. The secretary pro tem during the evening was Rev. Mr. McLeod.

One of the important subjects before the Board which will be taken up at their next meeting is the matter of better transportation along St. Mary's Bay, either by electric tramway from Yarmouth to Digby and Bear River or by the removal of the D. A. R. division of the C. P. R. from through the woods, two miles distant, to the shore of the Bay, thus passing through thickly populated villages the entire distance from Yarmouth to Digby.

But Not Literally.

A small boy was seated in the parlor with his sister's young man. Being of an inquiring mind, he asked, Mr. Gaysmith, 'Do you weigh very much?' 'About 150 pounds, my little man,' the hopeful lover responded. 'Do you think sister could lift you, the boy continued. 'Oh, goodness, no,' said the young man, blushing at the mere thought, 'but why do you ask?' 'I don't believe she can, either, but I heard her tell me this morning that she was going to throw you over as soon as she could.'

Training an Oriental.

A British Columbia woman wanted to show her Chinese servant the correct way to announce visitors, and one afternoon went outside her front door, rang the bell, and made the man usher her into the drawing room.

The following afternoon the bell rang, and not hearing him answer it, she went to the door herself. To her surprise, he was standing waiting outside.

'Why, Sing,' she asked, 'what are you doing here?' 'You fool me yesterday. I fooled you today,' was his reply.

Not So Many Then.

The school teacher was striving to teach Johnny to remember the names of the presidents of the United States in proper order from Washington to Wilson.

'Why, Johnny,' she said, 'when I was your size I could say the presidents' names forward and backward and begin in the middle and go either way.'

The teacher was considerably taken aback by the prompt reply: 'Yes, but when you were at school there wasn't near so many presidents.'

Lizzie Was Particular.

'I would not drink out of that cup,' said Willie to the well-dressed young man who had come to court Willie's eldest sister, 'that's Lizzie's cup and she is very particular who drinks out of it.'

'Ah,' said the young man, as he drained the cup dry, 'I feel honored to drink out of that cup. Lizzie is your youngest sister, isn't she?' 'No,' explained Willie, 'Lizzie is my dog.'

A Sad Accident.

Bennie, aged four, met Henry, aged five, and the following conversation ensued:

'Whasamatter your head?' 'Bumped it on a ceiling.'

'Ona stepladder?' 'No, I was playin' 'ith my papa on a floor an' I was sitting on his tummy.'

'An' nen what?' 'Papa sneezed.'

Too Literal.

Four-year old Ruth pronounced her words distinctly, but frequently she approached the breakfast table with the information that she was hungry for supper, her mother said:

'Now, Ruth, this is ridiculous. When you have been asleep, all night, get up and dress, then come downstairs, what meal do you have then?' 'Oatmeal, mamma,' was the innocent reply.

His Nose Came Unblew.

The other day a little chap was suffering from a cold in the head. His mother applied the handy handkerchief, but this article was needed even oftener than she suspected. The child ran out to her saying: 'Where's the hanker, mamma? My nose has come unblew again!'

Making It Truthful.

Hub (after a night out)—I feel like the two spot. I wish you'd telephone to the office that I'm in bed with the grip.

Wife—That would be a lie. Hub—How particular you women are! Fetch over that grip and lay it on the bed near my feet. There! Now will you telephone?

His Intentions.

'Young man,' said Major Blackbrow, with a lowering glance at Chollie. 'I happened to see you last night with your arm about my daughter's waist. May I inquire your intentions, sir?' 'Why, sure, major,' replied the blooming Chollie. 'I intend to put it there every chance I get.'

A Little Oversight.

Minister (approaching the baptismal font)—The candidate for baptism will now be presented.

Mother of Intended Candidate (in horrified undertone to husband)—There, I knew we would forget something. You run home as quick as you can and fetch the baby!

Not Visible.

The sad looking man entered the editor's sanctum.

'Did you see those jokes I left with your assistant last week?' he asked.

'No,' said the editor, handing him an envelope. 'I read them, but I couldn't see them.'

The Chinese Angels, of Course.

Mabel—Mamma, are the angels in heaven dressed in white?

Her Mother—We are told so, dear. Mabel—Well, who does all the laundry work?

Balkan War.

1,000 KILLED AND WOUNDED IN TEN DAYS' FIGHTING.

LONDON, July 6.—After ten days of fighting, more severe and deadly in character than anything in the last Balkan war, a little light begins to break upon the hitherto obscure operations. In the first place, the Serbians have lost more men than in the whole previous conflict, and official statements issued at Belgrade have the appearance of an intention to prepare the public for news of a disaster.

Desperate fighting, with fluctuating fortunes, is proceeding along the Vardar and Bragalevits Rivers, which seem to be in favor of the Bulgarians. Important news has been received of the Bulgarian invasion of Serbia's most important fortified town.

No indication is given of the strength of the Bulgarian column, at this point, but the Bulgarians claim to have defeated the Serbians and captured five guns and a quantity of other war material, and by the occupation of the passes, to have opened the road to Nish.

There was heavy fighting also between the Serbians and Bulgarians to the south of Isip, and in the neighborhood of Kotevina. About two hundred thousand men were engaged and the losses on both sides appear to be terrible.

Bulgaria's strategy appears to be to hold the Greeks in check, probably with comparatively small forces, while she deals with Serbia. This assumption, if correct, would explain the victorious advance in the Greek army. Unconfirmed reports credit the Bulgarians with victories near Kopriv, giving them the key to Uskup, and with an outflanking movement from the south Tabin Lake, which would cut off the Greek retreat.

Kinney After Secretary of State.

(Boston Globe.)

Representative William S. Kinney of Ward 13, a young lawyer, serving his second term in the House, will announce at a dinner to be given in his honor tonight at the American House, that he will be a candidate for the Republican nomination for secretary of State. Many fellow Republicans in the Legislature have promised to attend, and they will send forth a boom that will be heard in every corner of the State. He is Boston born and bred, a graduate of English High and of the Boston University Law School. In 1909 he made his first splash in politics when he was elected to the Common Council. He went to the House in 1912 and speedily associated himself with the younger group of up-and-doing Republicans. He is now chairman of members, also of the committee on the committee on taxation and a constitutional amendments. Kinney is the man who won the hearts of the suffragists in the notable debate last March over the proposed constitutional amendment granting the women the vote. At that time he delivered what the suffragist leaders called the best speech on the cause which had ever been delivered in the Legislature.

Mr. W. S. Kinney, above referred to, is a son of Mr. Alfred F. Kinney, builder and contractor, Boston, formerly of Weymouth North, and a grandchild of the late John Kinney, Esq., of the same village. He is also a nephew of Mr. H. R. Kinney, of Bear River, and Mrs. Jacob Wyman, of Digby.

Schr. Foundered in Heavy Gale.

THE CREW OF THE MAUD CARTER REACHED ANTIGONISH SAFELY.

ANTIGONISH, July 7.—While running with bare poles before a heavy gale, the schooner Maud Carter, 12 tons register, coal barge, and bound from Louisbourg to Charlottetown, foundered about four miles off Cape George, Antigonish County, about 1.30 o'clock this morning. The captain and crew launched a dory with great difficulty and reached the shore safely. The schooner caught a heavy breeze off Cape Jack and soon the crew were compelled to take in all canvas. Heavy rain and pitch darkness made the situation even more trying for the crew.

The immediate cause of the sinking of the schooner was the breaking away of the watch tackle of the main boom. The swaying vessel then got into the trough of the sea and soon the stern was pounded to pieces. The vessel was owned by Captain Venable, of Louisbourg, and others, and was partly insured in Lloyd's. The crew are Thomas Cook, Isaac Harbor, Jas. McPherson, Louisbourg, and William J. Morgan, Newfoundland. They all left here for their respective homes today.

King Impressed by Ready-Made Farm.

HIS MAJESTY CAREFULLY INSPECTED MODEL AT BRISTOL.

LONDON, July 5.—King George never fails to take the keenest interest in anything Canadian. Visiting the Royal Agricultural Show at Bristol, this afternoon, which is a great annual gathering place of British farmers, he paid special attention to an exact model of a C. P. R. ready-made farm. He went through the building, asking many questions about the character of the accommodation, cost, etc. He also inspected the model kitchen and vegetable garden attached.

His verdict was: "Really excellent. Very good indeed."

Another visitor remarked: "I hope Your Majesty will soon be able to revisit Canada and see for yourself the vast changes made since your last tour."

"Ah," replied the King, smiling, "that would be delightful."

Montreal Church Destroyed by Fire

MONTREAL, July 5.—The St. Charles Roman Catholic Church in this city was destroyed by fire this morning, the loss amounting to \$200,000 covered by insurance. Two firemen were slightly injured by a falling ladder. The blaze originated in the organ loft either from defective electric wiring or from the carelessness of workmen who have been engaged on interior repairs. St. Gabriel's Church on the neighboring property, was saved, but the Presbytery was damaged when the steeple of St. Charles Church fell, portions of the heavy masonry and the heavy walls crashing through the roof.

The Leanders Won.

HENLEY, Eng., July 6.—The Leander boat club today won the Grand Challenge Cup for eight-oared crews by beating Jesus College, Cambridge. Leander's time was 27 minutes 11 seconds. This is the last day of the Royal regatta.

PARALYSED AND COULD NOT WALK

"Fruit-a-tives" Completely Restored New Brunswick Merchant To Health.

MR. ALVA PHILLIPS

BRISTOL, N. B., July 25th, 1911. "I am unable to say enough in favor of 'Fruit-a-tives' as it saved my life and restored me to health, when I had given up all hope and when the doctors had failed to do anything more for me. I had a stroke of Paralysis in March, 1910, and this left me unable to walk or help myself, and the Constipation of the bowels was terrible. Nothing did me any good and I was wretched in every way. Finally, I took 'Fruit-a-tives' for the Constipation, and it not only cured me of that trouble but gradually this fruit medicine toned up the nerves and actually cured the paralysis. Under the use of 'Fruit-a-tives', I grew stronger and stronger until all the palsy and weakness left me. I am now well again and attend my store every day and all day."

A quiet wedding took place on Wednesday, June 26th, at noon, at St. Peter's church, Sherbrook, when Miss Ethel Shreve, eldest daughter of the Rev. Canon Shreve, D. D., rector of the parish, was married to Mr. Ralph L. Hayes, of Philadelphia, Pa. The church was beautifully decorated with quantities of feathers, ferns and white flowers, massed against the rose screen, the chancel, choir seats and pulpit. White poodles were on the altar, and huge knots of flowers and greenery marked the seats reserved for the guests.

The bride, who was given away by her father, Rev. Canon Shreve, wore a costume of grey cord silk, trimmed with white lace, and hat of grey straw, with grey and white plume. Her carriage bouquet was of pink roses. The maid of honor, Miss Florence Shreve, sister of the bride, was dressed in white dotted muslin, with Olney lace graniture, and wore a white hat with ostrich quill. She carried a bouquet of pink sweet peas. The best man was Mr. Edward Allen, of Burlington, Vt. The ceremony was performed by the Right Rev. the Lord Bishop of Quebec, assisted by the Rev. E. A. Dunn, who acted as chaplain. The church was well filled with interested friends, and the bridal march from Lohengrin was rendered by Mr. J. W. Hearder, F. R. C. Jameson, of Digby.

Motor Boats Like Yachts.

GOVERNMENT WILL TAKE ACCOUNT OF EXPERIENCE IN THEIR USE.

A Washington dispatch says: Motor boats have been placed in the same class as ocean-going and coastwise steam yachts by the steamboat inspection service of the Department of Commerce. A new regulation just adopted permits practical experience on a motor boat to count in an application for a license or a raise of grade on ocean-going or coastwise steam vessels. Formerly this only applied to steam yachts.

A new regulation in regard to lifeboat equipment on motor boats under fifty tons permits them to travel with a lifeboat capacity of only 100 cubic feet when navigating in daylight and when equipped with air tanks under deck sufficient to sustain the vessel afloat when full of water and with a full complement of passengers on board, or with bulkheads so that the vessel will remain afloat with her full complement of passengers with any two compartments open to the sea.

Make Us Prove It

We dare not exaggerate to you. We are dependent upon your patronage. To get it we must have your trust and confidence. We make the following statements with a full understanding of what they mean to us. You are safe when you believe in these statements.

For the Bowels

If you only know as much as we and those who have used them know about Rexall Orderlies, you would be as enthusiastic about recommending them as we are. They taste just like candy. They act so easily and so pleasantly that the taking of them is a pleasure.

Even children like Rexall Orderlies, and you know that if a medicine appeals to a child, it will appeal to grown-ups.

Rexall Orderlies

help chase gloom, dispel blues and make you feel happy by their pleasant taste, cleansing and strengthening effect upon the bowels. They act to free the system—keep it free—from the distress and ill feeling that naturally results from irregular and inactive bowels.

Rexall Orderlies do this quietly, without griping or causing nausea, purging or excessive looseness. They act to overcome and remove the cause

of bowel ill and in a short time usually make unnecessary the continued use of physics and purgatives, thus tending to stop such unhealthy habits as may have been formed.

Make us Prove This

We do not ask you to take our word for this. We want you to make us prove it, and at no cost to you.

Buy a box of Rexall Orderlies at our store. Use them once, or use up the whole box. Then, if you are not thoroughly satisfied, just come back empty handed and tell us. Without obligating you or questioning you we will return the money you paid us for them.

Don't let that indicate that Rexall Orderlies are at least worthy of trial? Don't it prove our faith in them? Don't it merit your confidence? Could any offer be more fair to you?

We particularly recommend Rexall Orderlies for children, delicate and aged persons. Rexall Orderlies come in convenient vest-pocket size tin boxes. 12 tablets, 10c; 30 tablets, 25c; 60 tablets, 50c.

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all drug stores. You can buy Rexall Orderlies only at the Rexall Stores. You can buy Rexall Orderlies in this community only at our store:

What This Sectional Fire-pot Means to You

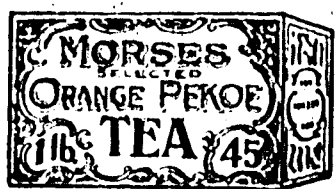

These are some of the advantages of the Sunshine Furnace. Our agent will be pleased to show you others, or write for booklet.

The "Sunshine" has a straight-sided semi-steel firepot, extra heavily ribbed and made in two sections. The two sections allow for contraction and expansion—which prevents cracking. The heavy ribs and semi-steel give extra strength and added radiating surface. Ashes cannot adhere to the straight sides which assures an all-over clear fire. This means the greatest heat from the fuel consumed.

12 Tumors Removed Without An Operation

Dear Mrs. Currah—I am enjoying better health than I have for eight years, and I think I am entirely cured. I have none of the old symptoms. I am very grateful for my present health, and think Orange Lily is the greatest treatment for women of the world known. Its use in my case caused 12 tumors or growths of some sort to be expelled. Some were as large as a hen's egg, and others smaller, down to the size of a walnut. You may use my case in your advertisement, for it is the solid truth, and you cannot describe all the good it has done for me. Mrs. Louise E. Holte-ridge.

This letter gives an indication of the positive benefits that always follow the use of Orange Lily. It is an applied treatment and comes in direct contact with the suffering organs. It produces results from the start in all cases of women's disorders, including painful periods, falling of womb, irregularities, leucorrhoea, etc.

I will send a sample box containing 10 days' treatment absolutely free to any suffering woman who has not yet tried it if she will send me her address. Enclose stamps and address MRB. FRANCES E. CURRAH, Windsor, Ont.

Alive and Well.

QUEBEC MAN WHO DISAPPEARED TWO YEARS AGO, LOCATED IN TEXAS.

MONTREAL, July 2.—The mysterious disappearance some two years ago of Wilfrid F. Pope, a well known merchant, of Bromptonville, Quebec, was cleared up today. The disappearance of Pope created quite a sensation, for it was generally supposed that he had been murdered. Word, however, was received today by Chief McCaskill that Pope was well and residing in Texas.

Pope's horse was found one winter morning two years ago lying dead on the snow and there being a long trail of blood it was supposed that Pope had met with foul play, as he had drawn money on that day. The detectives could find no trace of the man's body, and the case remained a mystery until this morning when the wire stated that the supposed murdered man was alive and living in Texas.

Rejected Offer of Friedmann.

BERLIN MEDICAL SOCIETY REFUSES TO TEST HIS CURE.

BERLIN, July 2.—The Berlin Medical Society, at its regular meeting today, rejected by an overwhelming majority the request of Professor Ludwig Schleich, the associate of Dr. Friedrich F. Friedmann, that the society appoint a committee of four to test the Friedmann vaccine for tuberculosis in any way which might appear to it most advisable.

The decision of the society was received with relief by "Bravo." The president of the society, speaking informally after the denial of the request, declared that if Dr. Friedmann really desired a test he could have it by placing his remedy at the disposal of the different hospitals. This statement was applauded.

Another Aviation Tragedy.

EPERNEY, FRANCE, July 2.—Capt. Rey, of the French army, was killed and his companion, a private of the engineer corps probably fatally injured when the military biplane in which they were flying above the village of Bethon, capsized today and crashed to the ground.

Fatal Accident in Newfoundland.

ST. JOHN'S, Nfld., July 2.—Five men were killed and a girl was seriously injured when a boiler in a new mill at the Alexandre Bay Lumbering Company's station exploded today. The station is located in a remote spot on the railroad in the interior of the island.

Saved.

A traveller who believed himself to be sole survivor of a shipwreck upon a cannibal island hid for three days, in terror of his life. Driven out by hunger, he discovered a thin wisp of smoke rising from a clump of bushes inland, and crawled carefully to study the type of savages about it. Just as he reached the clump he heard a voice say: "Why in hell did you play that card?" He dropped on his knees and, devoutly raising his hands, cried: "Thank God, they are Christians."

Bunco by Mail.

"I suppose you go to the city at least once a year," said the summer boarder. "I used to," replied the old farmer, "but I ain't been there for nigh onto three years. Since we got rural free delivery, I can get buncoed just as well by mail, b'gosh."

Patch—"To write fiction, I suppose the first requisite is imagination."

A Real Diplomat.

"Has Smythe any qualifications for service in the diplomatic corps?"

"Yes; he can interfere in a quarrel between friends and still retain the good will of both."

Is That All?

"Why don't you try to be more popular?"

"Aw, what does a popular man get out of life except a bigger crowd at his funeral?"

Foolish Question.

"Did your watch stop when it dropped on the floor?" asked one man of his friend.

"Sure," was the answer. "Did you think it would go through?"

Bad Drowning Accident.

ERNEST ROSS, of CULLEDEN, fell from a scow in St. John Harbor.

Mr. Ernest Ross, aged 23 years, son of Alex. Ross, of Culleden, was drowned at the mouth of Courtney Bay last Monday. As the accident occurred at night, it is thought the body drifted out to sea and may never be recovered. Mr. Ross was on a Norton Griffiths scow which had been towed from the dredge McMartin to the dumping ground by the tug Muscalonge and without an assistant he was dumping the mud.

On the return, the signal was given to cast off the line when the scow was near and Ross had lifted the tow line clear when he toppled off the carrier and fell into the water. The unfortunate man came to the surface three times but he was unable to keep afloat as he was weighed down by heavy rubber boots and he went under for the last time before those on the towboat and dredge could reach him.

The deceased was married in Yarmouth on June 27th to Miss Birdie, daughter of Hugh J. Sweeney, of that town. His bride is prostrated with grief. She was a passenger to Digby Tuesday, accompanied by Mr. Percy Ross, Mrs. J. E. Johnson and Mrs. J. A. Johnson, returning Wednesday with the exception of Mr. Ross. The deceased, who was a general favorite and much respected by all who knew him, is survived by his parents, six brothers and eight sisters, all of whom have the deepest sympathy in their sad bereavement.

Victoria Rink.

On account of the bad night the masquerade carnival at Victoria Rink was not as big a success as it might have been. However, the attendance was 135 with about 50 in costume. The costumes were all good. The following took the prizes:

Miss Lena Sproule, Dutch Girl, 1st Lady's.

Married at Barton.

An interesting event occurred at the Baptist paragon, Barton, Sunday evening, when Rev. A. H. McLeod united in marriage Harold S. son of Samuel Davis, and Miss Mildred, daughter of Mr. and Mrs. Bernard Parker, all of Bear River. The bride was one of the operators in the Western Union telegraph office, Digby. The happy couple left via Monday afternoon's express on a honeymoon trip accompanied by the best wishes of a large circle of friends. The wedding was a very quiet one and it is said that even the bride's associates in the telegraph office were not aware of the marriage until twenty-four hours after the pleasant event. Their courtship began when they were schoolmates.

A Good Play.

Brewster's Millions, which was presented in the Bijou Dream theatre Monday night was considered by the majority of those present as being the best play ever witnessed in Digby. The story is a good one and the acting was excellent, the entire company being stars. The scenery and stage fittings were magnificent. Manager Cripps deserves a lot of credit for bringing a class of shows like Brewster's Millions to our town. This show was largely patronized by our tourists, but we regret to state there was lots of room for more of our own townspeople.

A Narrow Escape.

Ronald Douglas, the two-and-a-half year old son of Capt. and Mrs. Robert Russell, fell in an old well near their barn Tuesday and had a narrow escape from drowning. His father was absent at the time. The mother notified the neighbors and Mr. Wm. Common succeeded in rescuing him from the well and Mrs. S. M. Raymond also rendered valuable assistance in saving the little fellow's life. Dr. DuVernet deserves a great deal of credit for the rapid manner in which he attended the call, his auto making excellent time on the important errand.

Another Yacht in Port.

The aux. sloop Hope, of Boston, belonging to the Cohasset and Savelin Hill yacht club, arrived here Tuesday night, sailing again early yesterday morning. The owner, Mr. Auburn J. Horton had on board with him the following guests: V. C. Lawrence, R. E. Scripture, M. C. Baker, A. E. Hodgson and Lawrence Baxter. The Hope, which was nicely furnished, had as an aux. power, a 7 1/2 h. p. single cylinder, Mianus, which like all engines of that make, is giving excellent satisfaction.

Death of Mary J. DuVernet.

Great sympathy is extended to Dr. and Mrs. E. DuVernet, in the death of their only daughter, Mary Josie DuVernet, aged 12 years, which occurred at their residence, Queen street, at two o'clock yesterday morning after several months' illness. The funeral takes place tomorrow afternoon at 2:30, with interment in the Episcopal cemetery. Services will be conducted by the rector, Rev. Wm. Driffield.

Victoria Rink.

The Victoria rink is being largely patronized this week. The vaudeville attractions on Tuesday and Wednesday evenings were the Torleys, trick bicycle riders. These were by far the best performances of their kind ever seen in our town. Manager Walker keeps extra good order at the rink and it is certainly a good place to spend a pleasant evening.

The Swampscott Dory Race.

The first of a series of races in the Swampscott Dory class of the Western Nova Scotia Yacht Club was sailed over a triangular course off the Club House last Saturday afternoon. This class consists of six dories of one design owned by the members of the Harbor View Racing Association. Owing to the late arrival of the dories of these trim little boats (all of whom are summer tourists), only two were in the race, No. 5, owned and sailed by Mr. R. G. Shipman, and No. 6, owned and sailed by Mr. Charles Chase, Jr. The preparatory signal was hoisted on the yacht Oakeshott at 3:11 and the starting gun fired at 3:19. It was blowing a fresh breeze from the south west which gradually moderated. No. 5 carried full sail and No. 6 a whole job with single-reefed mainsail. They were sent away with a run to leeward, a beat to the Jaggar Point buoy and a close haul to the finish. The boats turned the buoys as follows:

	No. 5	No. 6
1st buoy	1:07.00	1:08.00
2nd buoy	1:49.10	1:52.00
Finish	2:57.15	3:04.15
Elapsed time	1:08.15	1:15.15

No. 5 therefore won the race by seven minutes and thirty seconds. These races are being run on the point system which gives Mr. Shipman 1 point and Mr. Chase 2.

Another race takes place next Saturday afternoon at 2:30, when it is hoped more boats will take part.

A Freepoint Boy's Success.

Mr. Blair Finigan, son of Mr. and Mrs. George Finigan, formerly of Freepoint, but now of St. Andrews, has been appointed manager of the Canadian Pacific School of Telegraphy at O'Regan building, St. John. Mr. Finigan is now a busy man. He has over twenty students under him and is also running a night school. He will also install wireless in a short time, and expects to get some of Digby county's young men in the school as students. Mr. Finigan successfully passed examinations with four different telegraph companies, before receiving his appointment as manager of this school. We heartily recommend him as a capable instructor and wish him continued success.

A Pleasant Outing For Visitors.

The ladies of the Brighton and Barton Methodist church intend holding a tea meeting at Union Hall, Barton, next Thursday afternoon and evening, July 24th. There will be lots of ice cream, home made candy, etc. A drive to Barton at this season of the year is one of the best outings that we can recommend and is a benefit for this church in a worthy object, we trust that many of our summer visitors as well as our townspeople will make a point to be there.

Towing St. George Across Atlantic

UNIQUE PRECAUTION TAKEN IN RIGGING NEW STEAMER HERE FOR DIGBY ROUTE.

(Canada, London, England.)

A very interesting story of navigation, says the Liverpool Journal of Commerce, has arisen in the case of the triple-screw turbine steamer St. George, which has recently been acquired from the Great Western Railway by the Canadian Pacific Railway for their trade in the Bay of Fundy.

The St. George is a shelter deck boat of 2,150 tons, built in 1906, and has since then been running in the service between Fishguard and Rosslare. It appears, however, that it is not possible to bunker her sufficiently for the trip across the Atlantic from the Mersey to Halifax and St. John. Accordingly arrangements have been made for the Liverpool tug Blackrock to tow her to Halifax, but the St. George will have her crew on board, and will be fully loaded. This precaution is, of course, taken in case the St. George may get adrift from the tug in bad weather; but it will be something new to tow across the Atlantic a fully powered and large steamer which is not disabled in any way.

The Canadian Pacific Railway is insuring the St. George for the voyage across on a valuation of £20,000.

Thursday, 17th inst., as Messrs. Inos and Jesse C. Doveau went out fishing in their gasoline boat about two miles from the shore, they perceived a huge object swimming about. Being at a loss as to what it could be they made for the spot, when they found out it was a huge moose. Being completely exhausted from their long swim, they took it in tow, but before they reached the land the animal was drowned. They took it above the bridge and the Game Warden, from Port Maitland, was telephoned for. In due time he arrived with several other gentlemen, and after examining the animal he saw it had come to its death by drowning. So he gave orders to have it dressed. The animal was a huge moose and weighed, after being dressed, 100 lbs. It had crossed the main road at Woodvale just below Edw. Donce's homestead and had made for the shore just below Black Point, where it had taken to the water. It seems that these kind of animals have a sort of liking for the salt water, as about two weeks ago, a deer came out and after having remained several hours with Mr. Frank P. Deveau's cow, it took a stroll to the very end of the breakwater and then made again for the woods.

Causes Much Disease
Advice about Stomach Troubles and how to relieve them.

Don't neglect indigestion, for it may lead to all sorts of ills and complications. An eminent physician once said that ninety-five per cent of all ills have their origin in a disordered stomach.

Our experience with Rexall Dyspepsia Tablets leads us to believe them to be one of the most dependable remedies known for indigestion and chronic dyspepsia. Their ingredients are soothing to the inflamed membranes of the stomach. Rich in Pepsin and Bismuth, two of the greatest digestive aids known to medicine, the relief they afford is very prompt. Used persistently and regularly for a short time, they tend to relieve pains caused by stomach disorders.

Rexall Dyspepsia Tablets help insure healthy appetite, aid digestion, and prevent acid eructation. An evidence of our faith in them, we ask you to try them at our risk. If they do not give entire satisfaction, we will return the money you paid us without question or formality. Three sizes, 25 cents, 50 cents, and \$1.00. You can buy Rexall Dyspepsia Tablets in this community only at our store:

Big Fox Shipments.

LIVE FOXES ARE GOING DOWN IN VALUE
BUT ARE STILL BRINGING
GOOD PRICES.

EDMONTON, Alta., July 10.—Two hundred and nineteen live foxes, ranging from black silver to red crosses, valued at \$330,000, have been shipped from Edmonton to points in the provinces of Nova Scotia, Prince Edward Island, Alberta, New York and Pennsylvania since the opening of the season. The most valuable consignment, which went forward yesterday, consisted of ten pure black puppies, for which Kane Brothers of Brooklyn, N. Y., paid \$30,000. The animals were sent to Ogden, Penn., for propagation purposes.

Frederic M. Lee, president of the Western Fur Company, who recently shipped 34 foxes, valued at \$30,000, to breeders in Prince Edward Island, announces that he will not dispose of any more animals to eastern ranchers, having decided to establish a fox farm at Tees, Alta., where 40 foxes are now domiciled. He said:

"Advice from eastern Canada are that prices of live foxes have decreased from 25 to 50 per cent during the last 30 days. This slump is accounted for by large shipments through Edmonton from all over the northern country, between the Yukon and the province of Saskatchewan. There will be a reaction next fall, when prices will be higher than they have been during the last few months.

"Fur trappers in the north are reaping a veritable harvest now, as the foxes are easily obtained by digging the pups out of the holes before they have left the nests. After this month the young foxes will leave their dams and can only be caught singly in traps. This means fewer animals and higher prices."

Reception to Bridal Couple at the Rangely Lakes.

Mr. and Mrs. Ernest E. Hunt (nee Miss Doris Oliver, of Granville, N. S.) who were just recently married at St. Stephen's church, Lynn, Mass., were given a very pretty reception at Rangely, where they spent their honeymoon, by Mrs. Hunt's aunt, Mrs. Eugene S. Soule. The young bride's closest friends were given charge and a very pleasant time was enjoyed by all. Miss Marion Quimby received the guests at the door, who also presided over the gift table. The ushers were Messrs. Mason Russell and Hayden Huntoon.

The young couple were assisted in receiving by Mr. Howard Herrick and Miss Eugene Easley. Miss Sadie Pickens presided at the piano, rendering soft, sweet music. A musical program was arranged, consisting of selections by Miss Bertha Russell, Harwood Childs and songs by Miss Allie Childs. Delicious refreshments were served by Eugene Easley, Hildred Robertson and Mason Russell. Many beautiful gifts were received. Among those present were Rev. and Mrs. H. A. Childs, Harwood and Miss Allie Childs, Mrs. E. I. Herrick and Howard Herrick, Mr. and Mrs. W. F. Oakes, Mr. and Mrs. Eben Hannen and Ray Hannen, Mrs. Teyphena Neal and Maxwell Neal, Mrs. G. L. Kempton, Mrs. Ira Hoar, Bertha Russell, Florence Barker, Hildred Robertson, Sadie Pickens, Marion Quimby, Josephine Rowe, Mr. Mason Russell and Hayden Huntoon.

Rangely friends with whom Mrs. Hunt spent her school days and happy girlhood wish them much happiness.

Diana Sails for the Arctic.

THE CROCKER LAND EXPEDITION OFF FOR THE FAR NORTH.

SYDNEY, N. S., July 12.—The Crocker Land Arctic expedition sailed from Ingham's wharf, in the Newfoundland sealing steamer Diana at ten o'clock on Saturday evening, and the vessel passing down the harbor anchored off North Sydney until this evening when she finally began her journey to the far North Land. All Saturday afternoon and for several hours of the evening the crew of the ship and the members of the scientific corps, comprising the exploration party, worked strenuously upon the loading of about seventeen tons in small wooden packages of Sprat's dog biscuit, and when this, the final component of the cargo to be carried by the Arctic was on board, the total volume of all stores summed up to about 1,000 tons, and the steamer was down in the water fairly to the scuppers.

At Battle Harbor, about twenty of the finest and best trained Esquimaux dogs will be shipped as well as other necessities, such as furs, skins, etc., and the needful complement of fifty Esquimaux for dog team driving. The vessel will sail upon her final run of 1,700 miles not later than on Thursday next, but if everything goes so smoothly as expected, the party will get away from Battle Harbor by Wednesday afternoon.

Air Ship Line for the West.

EDMONTON, ALTA., July 17.—L. S. Lockwood and R. G. McLean, of San Francisco, are in Edmonton to establish an airship line between this city and Alhambra, 95 miles, and Edmonton and Fort George, B. C., more than 100 miles. The hydroplane, capable of carrying 2,000 pounds, will be used. The company, backed by California and local capital, also plans to erect a large factory in this city. Mr. McLean said that, while it will be years before the air line can compete with the railroads for passenger and freight traffic, the day is not distant when the mail service, especially in this part of the country, will be handled by air ships. He said also that within two years a machine will be perfected to carry mail from the Atlantic ocean to the Pacific in less than two days, as against four to five days now required.

Guides' Association Sports at South Milford.

The annual sports of the Annapolis County Guides' Association will take place at South Milford on Friday, the 25th of July, the 200 yds. shooting beginning at 9:30 a. m. There will be fly-casting for distance and for accuracy, canoe-wrestling, single and double canoe-races, etc., and the grand finale will consist of a flagjack race, which last summer was the most enjoyed feature of the games, being sidesplitting in its comicality.

Those wishing to take dinner had better communicate with the proprietor of the Milford House beforehand, as a goodly assemblage, including the M. P. for the County, will be present.

The guests at the hotel will provide a vaudeville performance in the evening.

The Junior Branch of the Woman's Auxiliary will serve ice cream, homemade candy, tea, etc., every Saturday afternoon during July and August, in the Parish Hall, adjoining Holy Trinity Church, instead of a garden party, as in the past, for several years, held on the band stand.

There will also be a table of useful articles for sale, such as dusters, cup towels, dollies, etc. also cakes and delicious candy in dainty boxes made by the children. A new departure will be a book registration for strangers, who are members of the Anglican Church, or of any church. On this table will stand one of our thank offering boxes, where they may make an offering for services received and a safe journey. It is quite unnecessary for us to explain W. A. methods to an American church auxiliary, the United States is the home of this wonderful, and useful organization. However, for the benefit of those who do not know, I will give a little information concerning the work that has been done by this Branch during the eight years of its existence. We pay to the Bishop's fund, for opening up new work in our own diocese thirty dollars a year beside our foreign appeals and Canadian pledges for work in the north-west. Our thank offering goes toward the maintenance of a cot in the hospital for little children in Jerusalem. We give towards the educational fund for missionaries children also the Diocesan fund for King's College, Windsor. For our own parish we give towards the appointment, have always assisted in providing prayer books and hymnals for the use of visitors, also bought and paid for the piano now in use in the Parish Hall, (with the exception of eighty dollars previously raised by the children of the Junior Branch) for the King's College, Windsor. "ORANGE LILY SAVED MY LIFE"

These words, or expressions having in hundreds of letters I have received during the past year. Many were from women who had suffered agonies from falling of womb; others from women who had escaped dangerous surgical operations, as the tumors and uterus had been removed by the action of Orange Lily and others who had suffered from suppressed menstruation, leucorrhoea, painful periods, etc. For all these and the other troubles known in general as Women's Disorders, Orange Lily furnishes a positive scientific, never-failing cure. It is a trial actually proves its merit. I hereby offer to send, absolutely free, a box worth \$50, sufficient for ten days' treatment, to every suffering woman who will write for it. Terrible Storms in Italy.

IN MANY PLACES THE COUNTRY HAS BEEN DEVASTED AND THE CROPS DESTROYED.

ROME, July 11.—A terrible storm is raging throughout Italy and in many places the country has been devastated and the crops destroyed. It is accompanied by remarkably cold weather for this time of the year, the temperature in Rome at noon today falling below 60 degrees Fahrenheit.

Such weather in the middle of July, has not been recorded in Italy since the year 1316, and superstitious people attribute it to the repetition of the number 13.

NAPLES, Italy, July 11.—Extraordinary falls of rain and hail have flooded the country for the past two days. Torrents of water mixed with mud and ashes from Vesuvius have inundated the villages along the Gulf of Tauria. Owing to a strong cold wind from the north, accompanied by hurricanes, the temperature was today almost to the freezing point. Snow is reported to have fallen in the Alps.

MESSINA, July 11.—A violent tempest in the vicinity of the Straits of Messina accompanied by a heavy fall of rain has caused enormous damage in this region. Crops have been destroyed and floods have compelled the population to leave the huts in which they have been living since the great earthquake a few years ago.

COZKENIA, Italy, July 11.—Hurricanes accompanied by slight shocks of earthquake and underground rumblings have terrified the peasants in this region for the past two days.

This is more especially the case in the isolated villages where the people are still suffering from the fright caused by the earthquake which occurred at the end of July.

To Stamp Out Opium Trade.

WASHINGTON, July 16.—All the twenty-four nations except Germany and Great Britain, represented by delegates at the opium conference just closed at The Hague, have agreed to deposit ratifications of the convention prohibiting trade in habit-forming drugs.

State department advisers say the German and British governments are sympathetic toward the anti-opium movement, and probably would ratify the convention if the signatures of Australia, Switzerland and Peru, not represented at the conference, were assured. Austria is said to be well inclined towards the treaty, but Peru hesitates because of apprehension of injury to her important cocoa trade. The Swiss position is not known here.

If any important nation finally refuses to join the movement it is the purpose of the others to proceed without them in the adoption of the restrictive measures, relying upon import and export regulations to bring the minority into line.

Seized in the Bay.

LIVERPOOL, N. S., July 11.—The Gloucester schooner Rex, Captain Baker, was seized today in the Bay of Fundy by the fishery cruiser Petrel for an infraction of the Customs laws at Canoe. The charge is landing men at Canoe on June 10th last. The vessel is held awaiting instructions from Ottawa, and a guard from the Petrel has been placed on board.

Later in the day the schooner was released on payment of a fifty dollar fine. Last June while homeward bound with a good wind and a fair trip, two of the crew requested to be set ashore at Canoe, which the Captain did without reporting, thus breaking the customs regulations.

G. P. R. Stock.

MONTREAL, July 9.—President Shaughnessy, of the Canadian Pacific, was shown a press despatch relating to contemplated issue of new stock and was asked if there was any truth in the statement. He replied:

"No new issues of common stock is contemplated, because the proceeds of any such issue could not be utilized to advantage, ample provision having already been made for the company's money requirements for a long time to come."

Royal Bank Messengers Robbed.

VANCOUVER, July 11.—Two thieves who held up and robbed two Royal Bank messengers of \$10,000 at Cumberland, Vancouver Island, a week ago, last night came into conflict with a Sheriff and a party of Deputies at Orea Island, in the Gulf of Georgia, a hundred miles from the scene of the crime. A gun fight ensued but the men escaped in their flight, dropping a purse containing their published description.

Notice the Contrast.

Jenkins—What would you do if you had a son like mine?

Digby—I'd work hard to get to be a millionaire.

"What, so you could indulge his tastes?"

"No, so that he'd feel it when I die, inherited him."

Smallpox Spreading.

SYDNEY, N. S. W., July 16.—Smallpox which has been prevalent here for some time is spreading. Fifty thousand persons have been vaccinated, and there are sixty-one cases in quarantine.

CORRESPONDENCE.

To the Editor of the Courier

DEAR SIR.—If you will allow me space in your valuable paper I would like to say a word concerning the Eastern people coming West. I have had several letters from young men in Digby county of late, wanting to know what the conditions were like out here and what the chances were for work, so I thought the best way to answer all these questions was to send this excuse of a letter to the Courier. Van—, as everybody knows, is a lovely city and growing very fast and has a great future but at the present time is very quiet. The money market is so tight it has practically tied up all the work and there are thousands of men unemployed. My advice to all who are thinking of coming West (if you have three squares in sight every day), why stay home and wait until the money loosens up a bit. But if you have no trade or profession never leave Nova Scotia as all the labor work is done by Orientals and Italians, which is very cheap labor. If you understand farming don't come West of Alberta as all the good land in B. C. is taken up years ago. The local real estate grafters are trying to boom different parts of B. C., but take it from one who knows, anything these "grafters" have to sell you couldn't raise an umbrella on. Now here is another pointer for anyone coming out here—keep clear of those real estate "grafters" as they have "the promised land" all subdivided and will sell you lots that never did exist and believe me they have smooth tongues. Concerning the trades and wages this summer of 1911, carpenters were getting \$4.50 for eight hours, they struck for \$5.00 and lost. At the present time they are getting anything from \$3.00 to \$4.25, much depends on the man, and you have to go some. I have seen a house started here in the morning and the tenants have been turned out at night for back rent. "Aint that going some?" Blacksmiths get \$100.00 per month. The machinists went on strike a few years ago and lost and there has been an open shop ever since. Men are working for \$3.00 a day. Engineers earn from \$80.00 to \$150.00 per month, according to the grade of certificate. All other trades are in a healthy condition. I think that is enough of the labor question. Some of the boys wanted to know if there was any of young ladies out here and if they were nice looking and proud, etc. Now, boys, any of them that are not blest with a good complexion they simply go to the nearest drug store and buy a dandy complexion and bust so one can never tell if they are sixteen or sixty, and if you are coming out here for the sake of a good time, my advice to you is to stay in N. S., as the boys have been ruined out here through wine, women and song, which are well represented and have a good following. Concerning the styles, well, if "kay pence" has anything on Van—, you will have to show me. Next comes the climate. Oh, yes, we have lots of late, lots of good climate going to waste. Victoria and Vancouver have a good climate, but oh, you Prince Rupert. I was up there seven weeks one summer and during that summer there were fifteen great long minutes that it didn't rain, so that summer went down in history as the longest summer they ever had. Just imagine a fifteen minute summer. Speaking of fresh climate I was up in the Rocky mountains one summer, working in a power house and the town that I was at was so hot that everybody had to take to the river to escape sun stroke, while eighteen miles from there everybody was wearing their fur coats and were out skating on the same river the people were bathing in eighteen miles distant. Oh, yes, we have lots of late, lots of good climate, ship laying at the docks here with one side of her all ice and the other side so hot the crew had to keep the hose going in order to walk on it. Now, Mr. Editor, that will be enough climate, etc., for this time. Hope you find room in your valuable paper. Just put it in any old corner as it will save me from writing about fifty letters. Thanking you in advance I will just sign my name

Freeport Wedding.

A very pretty marriage service was that which was performed in the Freeport Baptist church, on Wednesday morning, July 24th, at 7 o'clock, when Miss Josephine Wyman became the wife of Mr. Wayland Hankinson, of Liverpool, England. Rev. F. H. Eaton, the officiating clergyman, used the double ring service. The bride was charming in a tailored suit of white serge with white picture hat. They were attended at the altar by Dr. and Mrs. Arthur Harding, of Dorchester, Mass., special friends of the bride.

After the ceremony, the young couple left immediately by auto for Digby, thence to Yarmouth county, to visit friends, before going to their new home in Quincy, Mass. Miss Wyman, who has been one of Freeport's most popular young ladies, carries with her the best wishes of many friends, who greatly regret her permanent departure from Freeport.

Westport Base Ball Notes.

A Westport correspondent writes: About five weeks ago a young Dalhousie student, Charles Piper, a former resident of Westport, came to spend his vacation. While here he interested the boys in base ball, cricket, and finally organized a club. He energetically set to work and secured enough funds from the townspeople to purchase a "base ball outfit." Since then, they have been practising, and were ambitious enough to venture on Saturday afternoon to play against a Freeport team which has been organized some time. Freeport won 19-5. This will only stimulate the Westport boys for further practice. The team is composed of the following:
Right field, F. Swift.
Centre, R. Gower.
Left field, Wm. Moore.
Short stop, R. V. Watkins.
1st base, Jean Pugh.
2nd " Austin Garton.
3rd " Walter Titus.

Women's disorders always yield from the very beginning of the treatment to the mild, but effective, action of Orange Lily. Within two or three days after commencing its use the improvement becomes noticeable, and this improvement continues until the patient is completely cured. Orange Lily is an applied or local treatment, and acts directly on the woman's organs, removing the congestion, toning and strengthening the nerves, and restoring perfect circulation in the blood.

Sir Rufus Isaacs Chief Justice.

PREMIER ASQUITH NEVER HAD ANY INTENTION OF TAKING THE POSITION.

LONDON, July 18.—The Daily Express states that Sir Rufus Isaacs's appointment as Lord Chief Justice is officially announced to take effect before Michaelmas sittings next October. Lord Alverstone, the present holder, owing to illness was compelled to obtain long leave of absence. This will expire at the end of the present sittings of the law courts, and it is certain that he will then place his resignation in the hands of the Lord Chancellor.

Recent reports in some American papers about Mr. Asquith taking the Lord Chief Justiceship never had the slightest foundation. Sir Rufus Isaacs was slated for the post when Lord Alverstone fell ill, and even when the Marconi campaign was at its height the Premier never hesitated in his intention of offering it to the Attorney General, though the expediency of announcing it at such a time was debated.

Contract Awarded for Welland Canal.

DOMINION DREDGE CO. TO BUILD FIRST SECTION FOR \$3,500,000.

OTTAWA, July 18.—Construction of the first section on the enlarged Welland Canal has been provided for. The government has accepted the offer of the Dominion Dredging Company of Ottawa to build the first section. The firm offered to do the work for \$3,500,000. This was the lowest tender. It provides for the construction of the first few miles of the Canal from the Lake Ontario end. Tenders for other sections of the Canal, which is to have a depth of 34 feet, will be called shortly. It will, when completed, allow the largest lake boats to reach the St. Lawrence with full cargo from the west.

Would Be Others.

A teacher in one of the primary grades of the public schools had noticed a striking platonic friendship that existed between Tommy and little Mary, two of her pupils.

Tommy was a bright enough youngster, but he wasn't disposed to prosecute his studies with much energy, and his teacher said that unless he stirred himself before the end of the year he wouldn't be promoted.

'You must study harder,' she told him, 'or you won't pass. How would you like to stay back in this class another year and have little Mary go ahead of you?'

'Aw,' said Tommy, 'I guess there'll be other little Marys.'

No Match for Langford.

SAN FRANCISCO, July 18.—Sam Langford, the negro pugilist, arrived here today from Australia after an absence of nearly two years. Matches were hard for him to find when he left and they look no more plentiful now. Arthur Polkoy, the last recruit among the white hopes, announced a few hours before the ship was in sight that he had drawn the color line. Jess Willard will not meet a negro. No other white man, heavy or clever enough to give Langford a creditable workout, is in sight this side of the Rocky Mountains.

Big Four Passenger Train Wrecked

CLEVELAND, July 18.—Big Four passenger train No. 11, plowed into the Lake Shore and Michigan Southern passenger train due in Cleveland at 4:25 a.m., between Berry and Madison, east of here early today, while the Lake Shore train was held up by a freight stalled ahead of it. It split the dining car to pieces, and telescoped the next car, a Pullman injuring twelve persons.

Steamer Victoria Ashore.

SAULT STE MARIE, Ont., July 18.—The steamer Victoria is ashore at Iroquois Point after over-riding her anchor, and there is an ugly hole in her starboard side. One compartment is filled with water, and the vessel is heavily listed. The lighter Reliance and the tug Boynton have gone to her assistance.

Man Scalded to Death.

ST. THOMAS, Ont., July 18.—Wm. Gilbert, 35, single, formerly of St. Thomas, was scalded to death this morning while about two miles out in Lake Erie on the fish tug Onajag. The accident was caused by the bursting of a steam pipe.

Killed By Lightning.

POWASSON, Ont., July 18.—During an electrical storm here this afternoon, Thomas Stiller, a farmer, was killed. He was sitting in his home with a baby on his knee when the fatal bolt came. The child was uninjured.

Fire in Halifax

HALIFAX, July 18.—The interior of John White & Company's store on Water street was gutted by fire tonight. The damage to the building was not great, but the loss on the stock, which suffered by water, will be heavy.

The Easy Laxative

In justice to yourself you should try Rexall Orderlies, — your money back if you don't like them. They are a candy confection that really do give easy relief from constipation.

Good health is largely dependent upon the bowels. When they become sluggish the waste material that is thrown off by the system accumulates. This condition generates poisons which circulate throughout the body, tending to create coated tongue, bad breath, headache, dull brain action, nervousness, biliousness and other annoyances.

Avoid harsh cathartics and physics. They give but temporary relief. They often aggravate the real trouble. They are particularly bad for children, delicate or aged persons.

Rexall Orderlies

Come in tablet form; taste just like candy and are noted for their easy, soothing action upon the bowels. They don't purge, gripe, cause nausea, looseness, nor the inconvenient attendant upon the use of purgatives. Their action is so pleasant that the taking of Rexall Orderlies almost becomes a desire instead of a duty.

Children like Rexall Orderlies. They are ideal for aged or delicate persons as well as for the most robust.

They act toward relieving constipation, and also to overcome its cause and to make unnecessary the frequent use of laxatives. They serve to tone and strengthen the nerves and muscles of the bowels and associated organs or glands.

Make Us Prove It

We guarantee to refund every penny paid us for Rexall Orderlies if they do not give entire satisfaction. We ask no promise and we in no way obligate you. Your mere word is sufficient for us to promptly and cheerfully refund the money.

Doesn't that prove that Rexall Orderlies must be right? You must know we would not dare make such a promise unless we were positively certain that Rexall Orderlies will do all we claim for them. There is no money risk attached to a trial of Rexall Orderlies, and in justice to yourself, you should not hesitate to test them.

Rexall Orderlies come in convenient vest-pocket size tin boxes. 12 tablets, 10c; 30 tablets, 25c; 60 tablets, 50c.

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all drug stores. You can buy Rexall Orderlies only at the Rexall Stores. You can buy Rexall Orderlies in this community only at our store:

BETTER ROADS

We understand that several local automobile owners have volunteered to place a number of men on the road to make repairs to the bad places before the endurance race, in which 25 automobiles have entered to make the run from Halifax to Digby via the Valley towns to Yarmouth, returning via South Shore, takes place. These motorists leave Halifax Monday morning, Aug. 4th. The Digby people will have to move quickly. We would suggest that a meeting of those interested be held in the town hall this afternoon at 4 o'clock and a move be made in the matter at once. This is not only of interest to automobile owners but to the general public. We must have better roads and it's the people who can get them if they show sufficient interest. All members of the Digby County Automobile Association should be present at the meeting.

Saturday's Dory Race

The second race for the W. N. S. Y. Cup for the one design class of Swanpocket sailing dories was held over the regular course last Saturday afternoon and was watched with a lot of interest by many along the water front. The wind was blowing a strong breeze from the south west, kicking up considerable sea around the off shore buoys for these little boats. The preparatory signal was hoisted at 3:30 and the starting gun fired at 3:40. There were three boats in the race, all of which made a good start under reefed mainsails and jib. The following boats started: No. 5, owned and sailed by Mr. R. G. Shipman; No. 6, owned and sailed by Mr. Charles Chase, Jr.; No. 8, owned by Mr. Chas. Chase, Jr. and sailed by Mr. J. Outram. The run was made in less than quick time, the boats turning the island buoy within 30 seconds of each other as follows:

No. 5, Shipman, 3:50.30	Elapsed Time
No. 8, Chase, Jr., 4:00.30	1:10.00
No. 6, Chase, Jr., 4:10.30	1:20.00

This gives Mr. Shipman 8 points, Mr. Chase 3 points and Mr. Chas. 2 points towards the cup.

Death of James H. Mullen

There occurred at Bear River, Monday, July 29th, the death of James H. Mullen, at the age of 69 years and 10 months. After a long sickness with cancer as a great ailment, he was born in Weymouth, Oct. 1844. During the early part of his life he was a sea-faring man. He married Susan, daughter of the late Franklin Rice, and came to Bear River to live. Here he became engaged in the mill business at which occupation he met many people who sided as well as in the village and amongst whom he had many friends. Beside a wife he leaves three daughters, Mrs. Janie Ray, Mrs. R. A. Harris and Miss Lina at home. Mrs. E. Task, of Yarmouth, is a sister of the deceased, and Charlot Mullen, Digby, a brother. The funeral was held from his late residence Wednesday afternoon and largely attended. Interment took place in Mt. Hope cemetery.

Mr. William Hazelton Resolves a Pension

Mr. William Hazelton, who has been draw tender on the D. A. R. bridge at the mouth of Bear River for twenty-nine years, is in receipt of a letter stating that the C. P. R. pension department has authorized the granting of a pension to take effect as soon as he retires from the service, which we think was yesterday. Mr. Hazelton will be succeeded by Mr. Edward Winchester, who is also keeper of the traffic bridge. The bridge and building master in a letter to Mr. Hazelton, says: "I regret to see you leave this service but I trust that you will find the new arrangement to work out to your advantage."

A Very Successful Affair

Mrs. Edward Weeks and Mrs. W. F. Read gave a very successful and pleasant social event in the Victoria Rink Wednesday evening. Invitations were issued to one hundred and fifty, nearly all of whom were present. Dancing and cards were enjoyed, refreshments were served and the evening was delighted with the whole affair. The rink was beautifully trimmed with flags and green boughs and certainly presented a handsome appearance when lighted by the numerous electric lamps. Music was furnished by the Pines orchestra and Mr. Walker's military band organ.

The Bijou Dream

The Bijou Dream theatre has been well filled every night this week. The pictures have been excellent and the vaudeville attractions have also been good. Monday and Tuesday nights, "The Girls Behind the Guns," Clinton and Beatrice, gave a novel exhibition of sharp-shooting. To-night the high class musical comedy, "Sore Hams," New York promises to be the best play of the season. Seats are going rapidly. Plan of hall is at Holdsworth's Drug Store and reserved tickets should be secured at once.

Digby Yacht Changes Owners

Mr. C. W. Mulise has sold his cabin cruising yacht, Lizzie M. to Mr. P. E. Tupper, of Bear River. The new owner took possession Monday night and sailed at 8 o'clock for Bear River. We understand it is his intention to change the boat's name and in the future she will be known as the "Frances." She will continue to fly the W. N. S. Y. C. burgee as Mr. Tupper will also be a member of the club.

OF A LOCAL NATURE

—Mr. W. W. Haydon has purchased a new automobile which will be used in connection with his livery, First Avenue.

—Rev. Denton Nolly, of Gloucester, Mass., will preach in the Digby Baptist church next Sunday morning and evening.

—Mr. Wm. Caines is opening a boot and shoe repair shop in the basement of Dakin's Grocery, next door to Dent's restaurant.

—An inquiry is being made concerning the death of the late Ernest R. de Colindien, who was drowned from a scow in Courtney Bay, July 14th.

—The ladies of the Smith's Cove Baptist church will hold a tea meeting next Wednesday, August 7th. A pleasant outing is promised all who attend.

—There will be special music in Grace Methodist Church next Sunday evening. Miss Wright and Miss Williams, of Austin, Texas, will play a violin duet.

—Mr. C. D. Arthur, of East Maryland, has our thanks for a copy of the Eastern Star Democrat containing full particulars of the 27th annual Regatta of the Chesapeake Bay Yacht Club.

—An alarm Saturday afternoon was for a small fire in the grass near the D. A. R. tracks at the south end of the town. A prompt response from the fire department soon extinguished it.

—A joint meeting of the management committee of the Fishermen's Regatta and the Guides' Association will be held in the Western Nova Scotia Yacht Club rooms today at 1:30.

—Deer are becoming quite plentiful in this vicinity and appear to be very tame. Mr. Ernest Ellis saw two on the shore of the lake recently, just west of Point Prim, and Mr. Alex. MacDonald has seen several near his home in the Racquette.

—We wish to call particular attention to the receptacles for rubbish which are on our main street through the business portion of the town and caution people about throwing papers, peelings, etc., on the sidewalks and in the street. If this practice is continued prosecution will certainly follow.

Town Council

The Town Council met at 8 p. m., July 29th, 1913. Present: His Worship the Mayor and Councillors Worne, Rice and Jordan.

The minutes of the last meeting of the Council were read. The Mayor called attention to an error in the resolution passed at the last meeting which stated that Mr. H. T. Worne was to have "free" water for a mill about to be erected by him in the town. The resolution should read "that H. T. Worne be given a supply of water for his mill for ten years at the rate of \$10.00 per year." The minutes were corrected in that respect and were approved.

Report of G. A. Vye, supt. of streets and water, was read as follows:

Digby, N. S., July 29th, 1913

To His Worship the Mayor and Council:

GENTLEMEN:—I wish to submit the following report to you regarding the water system and streets of Digby. Since the last report I have been engaged in repairing the water system and streets and have been successful in completing the same. A fallen tree had to be removed from the street in front of Hotel G. A. Vye. The water system was replaced by a new one. The water system at G. A. Vye's store and Mr. Fred McNeill's store was replaced by a new one. Six leaky service systems were repaired. Two six inch gates on Main line which were leaking were repaired. Grass and bushes were cut at reservoir.

(Signed) G. A. Vye.

On motion the report was received and adopted.

The following letters were read: Letter of Arthur Roberts, Sec. of Union of N. S. Municipalities, re Convention of the Union at Bridgewater on August 27th next; Letter of Committee of the next Century asking for a contribution to the fund, and letters of J. C. Giffert, town clerk, Weymouth; Hiram Goudy, town clerk, Yarmouth; J. Carroll, town clerk, Kentville; Fred W. Harris, town clerk, Annapolis; H. Ruggles, town clerk, Bridgetown, and William Black, town clerk, Wolfville, giving rates charged for water to engines to the D. A. R. in these different towns.

St. John's, Nfld., Free Press, July 22nd: Not in many years has codfish been so plentiful on the local grounds, and last week, some thousands of quintals were taken by trap men. One of the fishermen said there was a "wall" of fish from Torbay Head to beyond Petty Harbor Head and all the traps in that section were doing extra well. Hook and liners, however, are doing poorly, the fish being glutted and refusing to take bait.

Friday's Yarmouth Times: The small pilley schooner Venite, owned by Captain James Crosby, South End, went ashore near the "Churn" early yesterday morning and will probably be a total loss. The vessel was on a fishing trip and Captain Crosby on Wednesday night in near the Overton trap and anchored for the purpose of obtaining some bait, intending to get away again early next morning. Through the night the anchors became unshackled and before anything could be done the craft was ashore. Efforts were made yesterday to float her but were unsuccessful and she was stripped. The Venite was built in Mavillotte, Digby County, in 1897 and registered 24 tons.

The following vessels have reported at the Digby customs house since July 24th: Inward, July 26th, S. S. Madeline A., LeBlanc, Bridgetown; 28th, schr. Cora Gertie, Crocker, Freeport, N. Portland Argus: Two British schooners arrived Sunday from provincial ports laden with lumber for local consumption. One of them, the Laura E. Melanson, came from Meteghan River, N. S., with her cargo of hardwood boards. The other vessel was the B. B. Hardwick, from Plympton, N. S., she having a large consignment of oak and other lumber for the Portland Shipbuilding Company, part of which will enter into the construction of the new steamer just started at that yard for the Cape Breton Electric Company, of Sydney, C. B. After discharging the lumber the schooner will proceed to Boston, where the balance of her cargo, consisting of pilings, will be taken on. The Hardwick, it will be remembered, was ashore some six months ago at Small Point and was afterwards towed here and repaired at the marine railway, being later sold at U. S. marshal sale, and finally coming back into the hands of her original captain and owner, the various features of the case furnishing much copy for the newspapers.

Canadian Rifleman Won the King's Prize

LANDED THE COVERED TROPHY BY ONE POINT WITH SCORE OF 380.

BIRLEY CAMP, July 25—Private Hawkins, of Canada, today won the King's Prize for rifle shooting, carrying with him the National Rifle Association gold medal and gold badge and \$1,250 in cash. Private Hawkins' aggregate was 380 points out of a possible of 385. Sergeant Ommundsen, a Scottish territorial, was the winner of both the silver and bronze medals. He won the King's prize in 1901 and the silver medal in 1902.

The scene on the ranges was highly diverting. Blessed with a fine afternoon, a large company had assembled on the ranges. During the early part of the last stage the main body of the crowd gathered round Ommundsen. His two misses in the early portion of the score caused his supporters to look on with some anxiety as he came along that lower down the range a Canadian had settled down to plaster the target with bullets.

The crowd quickly shifted its position and assembled round Hawkins. The excitement was intense, when he wanted a bull on his last shot to make himself secure, a great cheer arose directly the indicator appeared in the bottom right hand corner.

Directly he had got the shot Hawkins pulled out his pipe. He was heartily congratulated by Lord Chylesmore, General Sir Douglas Haig, commander at Aldershot, and Earl Waldegrave. The famous chair was at hand, with Hawkins in the seat of honor. With a sprig of maple round his rifle and borne by his fellow Canadians, the march to the council office was begun.

The band of the Royal Sussex played Sea the Conquering Hero Comes, and subsequently continued to the Canadian band with Color-Sergeant Duff Street, Major Ommundsen and Major Birdwhistell at the head. The prizes were subsequently distributed in the umbrella tent by the Duchess of Wellington.

Non-Militants Invaded London.

SUFFRAGETTES, AFTER LONG MARCH, MADE TRIUMPHAL ENTRY INTO THE CITY.

LONDON, July 26—Many thousands of non-militant suffragettes were on the streets of London this morning in preparation to attend a great service in St. Paul's Cathedral, and a subsequent demonstration in Hyde Park. They had turned out to greet at the Cathedral, the marching columns which arrived from all parts of the Kingdom yesterday, whence they had converged on the Capital along the five great roads leading to London, which ends at the Mansion House, the centre of the British world.

Every constituency in the country sent a delegation to join the various columns during their progress, and the small detachments of suffragettes who originally started from Lands End and John O'Groats, the two uttermost limits of the Island, were augmented on the way until they formed great columns.

The women started out on June 18 and were therefore on the way for five weeks. They were cordially received in all parts of the country, clergymen, college professors, business men and noted women greeting them and speaking at all their meetings along the route. At Bedford the trade unionists gave proof of their chivalry and loyalty to the women by insisting upon forming an escort for a speaker to explain the suffrage cause to an audience which had previously shown hostility to its advocates.

Drowned in New Brunswick.

THREE YOUNG MEN LOST THEIR LIVES WHILE BATHING.

ST. JOHN, N. B., July 27—At Fredrickton today a young Greek, Nikolas Arhaliotis, employed in railway construction, was drowned while bathing. He could not swim.

ST. JOHN, N. B., July 27—George Akery, a young workman of this city, while crazed by liquor on Saturday, jumped into the Marsh creek and was drowned.

MONCTON, July 27—Henry C. LeBlanc, aged 37, son of Cyrille LeBlanc, of St. Mary's, Kent County, was drowned this morning in the new City Reservoir, about four miles out the McLaughlin road. LeBlanc and two companions went into the reservoir bathing, neither being able to swim. The water was not deep and the men were simply wading around when LeBlanc fell into a deep hole made by the removal of a stump, and sank. Timely assistance might have saved the man, but it was not forthcoming as the men with LeBlanc were unable to swim. The deceased was employed with the McManus Company, in the construction of the dam. The body was recovered and will be sent to his home in St. Mary's tomorrow for burial. No inquest was held.

Binghamton Fire.

BINGHAMTON, N. Y., July 26—A new trend may be given the inquiry into the cause of the fatal fire in the factory of the Binghamton Clothing Company, by the evidence that will be offered by Mrs. William Whittey of Washington Street, one of the employees who declares she called attention to the unusual heat in the building at one o'clock and smelled smoke, at two o'clock, and called attention of the girls to it. The flames were discovered at 2:30. This would sustain the theory that the fire started in a large number of rags stored in the basement.

The search for the bodies has ended, the last being found outside the ruins beneath a fallen wall-crushed and burned so as to be unrecognizable.

The insurance companies have agreed to pay life policies without demanding identification of the victims, and the Binghamton Clothing Company announces it will resume work at once.

Thousands Reported Massacred.

PARIS, July 27—A telegram from Saloniki printed in the Paris edition of the New York Herald, says that the Greek army occupied Xanthi on Saturday, and that all the inhabitants, including Americans and Englishmen, are believed to have been massacred by the Bulgarians. Seventy foreigners are said to have been put to death. Twenty thousand Greeks and many Mussulmans and Jews are reported to have perished in the town, which afterwards was pillaged by the retreating Bulgarians.

No confirmation of the reported massacre has evolved from any other sources.

A MESSAGE FROM A WOMAN TO WOMEN

"Every Woman Should Take 'Fruit-a-lives'"

LAKELT, ONT., MAY 12th, 1911

"Kindly publish this letter of mine if you think it will benefit other women who might be afflicted with the diseases I have had in the past, but am now, thanks to 'Fruit-a-lives', completely cured of. It is my firm belief that every woman should take 'Fruit-a-lives' if she wants to keep herself in good health.

Before taking 'Fruit-a-lives', I was constantly troubled with what is commonly known as 'Nerves' or severe Nervousness. This Nervousness brought on the most violent attacks of Sick Headache, for which I was constantly taking doctors' medicine without any permanent relief. Constipation was also a source of great trouble to me and for which the Doctors said 'I would have to take medicine all my life', but 'Fruit-a-lives' banished all these troubles and now I am a well woman."

Mrs. FRED. GADKIN, 502 a box, 6 for \$2.50—trial size, 25c. At dealers or sent prepaid on receipt of price by Fruit-a-lives Limited, Ottawa.

Tourist Party Here.

One of the first and best of the American parties to come to the city this season is that of George E. Marlette, which came into the city this morning and registered at the Victoria.

St. John is the first point at which they are staying on their tour of the maritime provinces. Today they are spending on the river on an excursion on the steamer Victoria. After leaving St. John they will go to Digby and other places in Nova Scotia. Their tour will last about ten days at the end of which time they will return to Boston by boat. There are twenty-six in the party under the conductor, Herbert L. Morse.

DIGBY BEATS ST. JOHN

First Game of the Bay Fundy League Played Yesterday

THE HOME TEAM WINS FROM ST. JOHN BY NEARLY AN INNINGS—FRANK ANDERSON, W. WEIR AND H. DAKIN MADE THE HIGHEST SCORES.

The first game of cricket of the Bay of Fundy Cricket League was played at Digby D. A. A. grounds yesterday, St. John being opposed to Digby.

St. John team: J. McNeill, Johnson, Burrows, Sollows, Fairweather, Crawford, Callan, Kinsman, R. E. Dakin, S. W. Dakin, Muise.

Digby team: F. Rice, W. Weir, Geo. Gorman, H. Dakin, M. Raymond, Drummond, W. Cahoon, F. Anderson, E. Barr, A. Dillon, G. Vieta.

Digby won the toss and put St. John to bat. Johnson and Burrows were first men to bat, being opposed by Weir and H. Dakin.

Johnson was soon bowled and caught Weir for a duck. Sollows followed and runs came fast. Sollows had a life through muffed by cover point. Burrows was out, bowled Dakin, middle stump for 2. Fairweather followed.

Sollows was run out. Crawford then took up the task. Fairweather was out from a beautiful catch by Weir as leg after a useful and carefully played six. Crawford was almost immediately bowled by Weir with a long ball ball. Kinsman then went in and was bowled Dakin for 4. Callan was stumped out. McNeill was next, going in 8th man. With the score at 27, S. Dakin was bowled by Weir for two. Muise was then out, first ball bowled. McNeill, a 14 year old boy, batted a very pretty innings (not out) for 6.

Digby's first innings

Digby had only 39 runs to face when they commenced their innings at 10 minutes to 3. Weir and Rice faced the bowling of Johnson and Sollows. Rice was out 2nd ball bowled by Johnson, for a goose egg. Gorman who followed was bowled next ball. H. Dakin taking his place. Runs began to come at once with boundary hits frequently. McNeill went on to bowl in place of Sollows with the score at 37. H. Dakin was then clean bowled by Johnson for a priceless well batted 20.

Weir was caught in the long field off McNeill for a nicely played 17. McNeill then bowled Raymond, and with the next ball also bowled Cohoon. Drummond came next, Anderson at once cutting Johnson to the boundary. Johnson then bowled Drummond, F. Barr taking his place but was also out by a shooter from the same bowler. Anderson hit the bowling to all parts of the field, being caught in the long field off Sollows for a brilliant 31.

Viets was left without scoring. All out for 80.

ST. JOHN'S SECOND INNINGS

McNeill and Burrows started for St. John's second innings. McNeill playing prettily for 5 before being caught out. Burrows was clean bowled by H. Dakin, after scoring 11. Johnson and Fairweather were then partners, finding the bowling very difficult, but by careful correct cricket made a good stand. Fairweather was bowled by Weir for a well earned 6.

Crawford followed and was caught without scoring. Callan was clean bowled by H. Dakin's first ball.

Johnson was run out after scoring ten without a chance. Kinsman cut Dakin for 2. Dakin was bowled by H. Dakin. Kinsman was caught off a terrific cut by Drummond. Cousins the last man in, made quite a stand, being left where Muise was bowled by German, who replaced Weir. Score 16.

Digby's second innings.

With only 3 to tie and 1 to win, Rice and Viets hit off the necessary runs without the loss of a wicket. Digby thus winning by an innings, less three runs.

St. John plays the Weymouth club at Weymouth today.

Three Drowned.

St. John, July 30.—Three young women were drowned at six o'clock tonight by the capsizing of a row boat in Lake Louisa, a few miles from this city. Three others, a young woman and two men were saved after clinging to the overturned boat for two hours. The drowned are:—

Miss Tilly J. Davis, Miss Matilda Brown, and Miss Eliza Darling, all of this city.

The rescued were Miss Georgina Paterson, Joseph I. Noble and John Stanton of this city.

Only meager details of the tragedy had reached the city at midnight, but it seems the party were fishing in the upper part of the lake, when a squall struck the craft, which was overloaded and it filled.

The survivors arrived in the city at 1.30 o'clock this morning.

They say the disaster was caused by the young women becoming frightened at the boat tipping a little when the men changed seats and their leaning to one side overturned the loaded craft. The three who were drowned never rose to the surface, but the others managed to get the boat bottom up and got on top, where they remained two and a half hours before their cries brought a boat to their rescue.

S. S. Yarmouth.

(Yarmouth Times.)

The O. P. R. steamer S. S. Yarmouth which has been here at the New Dorell-Johnson Iron Company's wharf for the past six weeks is now ready for sea and sails in a day or two either for Boston or Halifax to go into dry dock. During the time she has been here she has been fitted with a new funnel and overhauled from keel to truck. Now, clean and bright, she is a credit to the O. P. R. and the travelling public will no doubt be delighted with the provisions made for their comfort.

New linoleums and carpets have been laid throughout the ship and paint has been laid on with a lavish hand. Much of the woodwork which was formerly white has been stained and grained in attractive shades and the change is very pleasing. Of course a large portion of the woodwork still remains white but there is enough of the grain work to relieve the monotony of an all-white ship and it makes a great improvement.

The main entrance, at the head of the grand staircase, has been rebuilt in mahogany and it is really a beautiful apartment. The smoking room is finished in burley, painted an attractive shade of green, on which will appear the company's emblem when finished.

These improvements have not merely been made in the portions of the ship reserved for the public, but they extend throughout. The "duncheon," so-called, the "glory-holes," kitchen, pantry, etc., have all received their share of attention and are models of neatness and cleanliness.

All the work of painting has been in the hands of James E. Murphy, which is equivalent to saying that it could not be done any better.

The ship will be officered as follows: Captain—A. MacDonald.

Chief Officer—A. H. Sweeney.

Second Officer—A. H. Hoar.

Quartermasters—Messrs. Card and Smith.

Steward—John Hanson.

Second Steward—Percy Parks.

Stewardess—Miss Haycock.

Chief Engineer—Donald Kingston.

Second Engineer—Wm. Harding.

Third Engineer—Geo. Harding.

The Yarmouth will be in connection with the St. George on the St. John Digby route, the Prince Rupert being taken off.

The Digby Fund.

TO THE EDITOR OF THE COURIER.

DEAR SIR: I am enclosing five dollars towards the Digby fund. Where are the townsmen of Digby? I notice a few names of one or two dollars. Where are your five and ten dollar subscriptions? Why, the man should have had five hundred dollars before this, and the number on the place for another tenement before winter comes along. If the man is worthy of being helped, do it at once. If not, why ask for help? There have been losses of two very fine cows this season at Westport. There was money collected at once to make the loss good. Let us see a long list next week of fives and tens.

E. C. BOWERS.

We report, July 28, 1913.

Major H. B. Short, Digby, N. S.

DEAR SIR: I saw the appeal in the Digby Courier for funds to build a house for Mr. Sibley. I am sure I cannot spend five dollars in a better way, so if you will hand this to the proper party I shall appreciate it. I am a King's county boy, but that makes no difference.

Yours sincerely,

The Death of Edward Farnell.

HAS THIS MAN RELATIVES RESIDING IN DIGBY COUNTY?

A letter received from the Prince Albert office, of the Royal Northwest Mounted Police, states that Edward Farnell was drowned near LePas, Man., about 8 p. m., on the 17th day of June. The department has for some time been endeavoring to locate the unfortunate man's relatives and friends and is in receipt of a letter from a friend of the deceased, named O. E. Howard, of Lander, Mann. He says that he knew the deceased for three and a half months last winter, at Theo. A. Burrows' Camp No. 3, at Birch River, Man. Howard states that Farnell was from Digby county, Nova Scotia, but never learned the name of his town. The Courier would be pleased to forward any information regarding the man's relatives.

Deputy Minister a Hero.

JUMPED INTO LAKE AT BANFF AND SAVED BOY FROM DROWNING

OTTAWA, July 30.—A private letter received at the naval department here from British Columbia disclosed the fact that the deputy minister of naval affairs, J. G. Desbarats, who is now on the Pacific coast with Hon. J. D. Hazen, was the hero of an exciting rescue from drowning at Banff a few days ago. Mr. Desbarats plunged into a lake there and rescued a 15-year-old boy who was sinking in deep water. The rescuer, who was strolling in the vicinity at the time, heard the boy's shouts and without waiting to throw off even his coat, plunged into the lake and after great difficulty brought the youth to land.

Mr. Desbarats will probably be recommended for a Royal Society Humane Medal.

Mount Desert Bars Autos.

BAR HARBOR, Me., July 30.—The town of Mount Desert at a special meeting yesterday decided by a vote of 252 to 18 to bar automobiles from the corporate limits.

President Emeritus Elliot, of Harvard University; John D. Rockefeller, Jr., and John Melcher represented the cottagers in opposing automobiles. Mr. Rockefeller said he took his family to Mount Desert to get away from the city. Mr. Melcher also opposed them.

The township of Mount Desert includes Northeast Harbor, Somerville, Otter Creek and Seal Harbor. The town of Mount Desert is the only one on the island that bars automobiles.

The Fishermen's Regatta.

MR. A. D. DALEY, COLLECTOR, MEETING WITH BIG SUCCESS.

The following is a list of the subscribers towards the fishermen's regatta. Mr. Daley is certainly meeting with good success. He says, however, that those who receive direct benefit from the regatta are not always the largest contributors. In fact some of them give nothing. We will make no comment but let the tourists, fishermen and general public judge for themselves who are most interested in this enterprise:

The St. John-Digby Service.

(Yarmouth Times.)

The St. George, the new C. P. R. steamer for the St. John-Digby service, left Yarmouth for St. John, N. B., in tow, on July 12 and is due there any moment. The ship is being towed by the powerful tug Black Cock, which is one of three tugs which are used for long distance tows. They are the Black Cock, the Game Cock, and the Storm Cock. When the St. George goes on the route she will leave St. John for Digby at 12.30, or after the arrival of the C. P. R. train from Montreal and will make the run from wharf to wharf in two hours. Returning she will leave Digby at 3 p. m., in ample time to connect with the night trains for Montreal and Boston.

If the above schedule is correct, and The Times is informed that it is, the Bluebonnet from Yarmouth will have left Digby for Halifax before the St. George arrives. It may be, however, that the intention of the railway management to run a fast train from Digby to Halifax. On this point The Times has no information.

The S. S. Yarmouth, which will be placed in commission in a few days, will make daily trips, leaving St. John in the morning and returning the same afternoon.

The Prince Rupert will be permanently withdrawn from the service and will probably leave provincial waters.

Twenty-Five Years Ago.

(From the Yarmouth Times Files.)

A number of gentlemen in Digby were taking steps with a view to stocking the lakes in the county with salmon trout.

The American yacht Fleu de Lie, Captain Boreman, with a party of six, left for the Cambridgeport Yacht Club on board, was in Digby this week. The captain of the club, Mr. Roop, was born at Little's Cove, Annapolis county.

A lad named William White, aged 9 years, was drowned at Weymouth on Friday while trying to swim across a creek with some other boys.

Burned Her Employer's Barn.

WOODSTOCK, Ont., July 30.—Flora Riley, a 16-year-old English girl, this morning played a game of firing a gun on the farm owned by James Hartley of this city, and tenanted by Frank Scott. The fire took place Saturday, when the Scotts were away, and four valuable horses, several calves, farm implements and the crop of hay were destroyed.

The girl was a servant with Mrs. Scott and the only reason given for the act was "she wanted to see a fire."

Another Visiting Yacht

Since the organization of the Western Nova Scotia Yacht Club, Digby has been visited by many pleasure boats belonging to various clubs along the coast. Monday night the handsome furnished Nova York yawl Polly arrived here, remaining in port until Wednesday afternoon. The Polly was designed by A. Carey Smith and was built by W. W. Sweet in Tampa, Florida, in 1890. She is 10 ft. over all, 43 ft. water line, 10 ft. beam with a draft of six feet. In 1907 a 20 h. p. Lathrop motor was installed which sends the yacht along at about six knots in calm weather. Mr. Kendrick and Mr. Stone are residents of New Rochelle, N. Y., and belong to several clubs. The Polly was flying the Larchmont burgee while at Digby. Mr. Stone was very much interested in Digby's fishermen's regatta and his magazine will probably have a representative here on Tuesday, August 10th.

Church Notes.

The Saturday's tea, and sale of fancy articles, candy, ice cream, etc., held in Holy Trinity Hall under the auspices of the Junior's Auxiliary of the M. S. C. C. proved quite a success. We hope to have a larger attendance tomorrow. The tea room is cool, and a pleasant place to spend an hour in social intercourse. We have over a hundred dollars to make up this year, and ask for the support of all those interested in missionary work. We hope to be able to donate a lot of the money of the pupils in the west in loving memory of the late Mary DuVerney who at an early age has been called to higher service. We want to do this for her, who showed an interest in the work of the Branch to the end. Gifts of flowers, whole cakes and candy will be gratefully received by the committees in charge at the hall.

At The Christian Church.

Evangelist Wright reports good meetings Sunday. Last week he was at Loch Broom, a local summer resort, this afternoon in a drowning accident. Chase, with other pleasure-seekers from Westville and vicinity, had gone to Loch Broom to spend the day, and at

Married in Lynn

KIMBALL LEWIS.

In the presence of their immediate families, Miss Ethel M. Lewis, daughter of Mr. and Mrs. William A. Lewis, of 483 Eastern avenue, and Leonard G. Kimball, of 44 Clark street, were married Wednesday evening at the residence of the bride's parents, Rev. Arthur E. Harriman, pastor of the East Baptist church, performed the ceremony. The couple were attended by Mrs. Frank E. Ginnell of Campbell, sister of the bride, as bridesmaid, and the best man was Vernon F. Smith.

The ceremony was performed in the parlor, which was embellished for the occasion with streamers of blue, white and purple paper and cut flowers. As the bride party entered the room, a sister of the groom, Mrs. Herbert E. Martson, rendered Lohengrin's wedding march on the piano. The bride was attired in ivory satin and messaline, trimmed with pearl lace and she carried a bouquet of bride's roses, while the bridesmaid wore gown in old rose and carried white carnations.

After the ceremony, which was performed at 8 o'clock, the newlyweds and their relatives present enjoyed a wedding supper. Numerous presents were received by both the contracting parties. The bride is a member of the T. O. F. and Myrtle Girls' clubs, she being the second member of the former club to become a bride within one month's time.

Another Lynn paper contains the following:
The wedding reception of Mr. and Mrs. Leonard G. Kimball, who were married last week, was held last evening at the home of the bride's parents, Mr. and Mrs. William A. Lewis, 483 Eastern avenue, and was attended by 100 relatives and friends. The house was beautifully decorated for the reception with potted plants, ferns and cut flowers and the ushers for the evening were Harold A. Lewis, Vernon F. Smith and Reginald R. Fleet. In the receiving line were the newly married couple and the parents of both, who helped them in receiving. Guests were present from Brockton, Campbell, Boston, Charlottetown, Malden, Salem, Danvers, Peabody and Milton, N. H. The guest book was in charge of Joseph Stewart, while the gift room was in charge of Mrs. Joseph Stewart. The presents were numerous, among them being a Glen wood range from the groom's father, and gas lamp from the members of the T. O. F. club, of which the bride is a member.

Other gifts consisting of china, cut glass and silver were also among the many presents. During the evening Rev. Arthur E. Harriman, pastor of the East Baptist church, who married the couple, was present for the occasion. An entertainment was given at which Mrs. Herbert Martson and Miss Beatrice Crosby rendered piano selections.

Refreshments were served by Mr. and Mrs. Joseph Clifford of Charlottetown, Mrs. F. A. Grinnell, Mrs. Herbert Martson, Miss Marjorie K. Lewis and Miss Francis Crosby. After Monday Mr. and Mrs. Kimball will be at home at 47 Coburn street.

[The bride is a native of Digby, attended the public schools here and has many friends who will extend best wishes.]

Rich Strawberry Short Cake.
Mix and sift twice two cups flour, one fourth cup sugar, four teaspoons baking powder, half a teaspoon salt and a few grains nutmeg. Work into this a third of a cup butter and one and one fourth tablespoons lard very thoroughly. Then add one egg well beaten with one third cup milk (These measurements are all level; flour sifted before measuring.) Toss and roll on floured board as for biscuit. Cut dough with top of a one pound baking powder can. Bake in a quick oven and when done split, spread with cream sauce and crushed strawberries, sprinkled with sugar, again with sauce and cover with the upper layer. These are individual shortcakes and are very attractive.

Mix with half cup breadcrumbs and two or three slices of bacon or dry, fat, salt pork which has been chopped well. Moisten mixture with olive oil and a little butter. Why should any other cereal be called "just as good" as

Kellogg's CORN FLAKES

Because Kellogg's is known to be the best and most nutritious cereal on the market—

Because the sale of Kellogg's Corn Flakes is enormous as trade returns will show—

Because another large modern factory, the best and most sanitary in Canada had to be built to take care of our constantly increasing trade—

Because the imitator, knowing these facts and having few selling arguments for his own product thinks to create a market for it by comparing it to Kellogg's:

But---the flavor and the sustaining qualities of Kellogg's Corn Flakes cannot be counterfeited. Sold in big packages at 10c. Look for the signature.

SUFFERED EVERYTHING

For Years, Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Canadian women are continually writing us such letters as the following, which are heartfelt expressions of gratitude for restored health:

Glanford Station, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and never found any medicine to compare with it. I had ulcers and falling of womb and doctors did me no good. I suffered dreadfully for years until I began taking your medicine. I do so recommend it for nervousness and indigestion."—Mrs. HENRY CLARK, Glanford Station, Ont.

Chesterville, Ont.—"I heard your medicines highly praised, and a year ago I began taking them for falling of womb and ovarian trouble.

"My left side pained me all the time and just before my periods which were irregular and painful it would be worse. To sit down caused me pain and suffering and I would be so nervous sometimes that I could not bear to see any one or hear any one speak. Little specks would float before my eyes and I was always constipated.

"I cannot say too much for Lydia E. Pinkham's Vegetable Compound and Liver Pills, for there are no medicines like them. I have taken them and I recommend them to all women. You may publish this testimonial."—Mrs. STEPHEN J. MARTIN, Chesterville, Ontario, Canada.

The Fellow That Makes Us Laugh

We crown the great artists with laurel
And sing to them in praise of pranks;
We banquet the makers of merriment
And lift them to fame in our lays.
But I want to pay one little tribute—
Love's gaudy thin as earnest by half—
And I want to send my wreath of roses
To the fellow that makes us laugh!

You know how it is to have labored,
And worried and fretted, all day,
To meet with, in person or away,
The fellow who laughs it away;
Who takes us when least we expect it
And turns us from sorrow to cheer.
With a twist of his thoughts that's so funny
Our troubles at once disappear.

Tell you, he's worth all the ages
Can give him of praise and of love
Who has helped us to look out of trouble
To the peace of the blue skies above
And to feel that no matter what happens
We'll do all we can to go on
With our hope and our faith on the promise
Of a better day surely to dawn.

He may not put pen in our purses,
Nor help us grow wealthy and grand,
But he teaches us all our reverses
Are lessons to help us to stand
In the face of the blight and the battle
And go forth again to the fray
With a spirit of sunshine and laughter
That will chase every trouble away.

Oh, here's to the king and the captain,
And here's to the soldier in line;
And here's to the man in the paper—
I think I can see his eyes shine—
The actor, the artist, the genius,
Whoever he is, with his cheer,
I want to send my wreath of roses
To the fellow that makes us laugh!

Motor Cycle Kills Seven.

CINCINNATI, Ohio, July 31.—The list of dead as the result of the motor cycle accident at the Ludlow (Ky.) Lagoon Motorhome, last night, when the gasoline tank on the racing machine of Olin Johnson exploded and scattered the burning fluid over the spectators, was increased to seven early today.

The revised list of dead follows:
Olin Johnson, Salt Lake City, captain motor cycle race.

Henry Andrews, aged 15 years, Cincinnati.

Wm. Davis, aged five years, Ludlow, Mo.

Mrs. Wm. Michaels, aged 30 years, Ludlow.

Miss Ethel Buchanan, aged 20 years, Covington (Ky.).

James Carter, aged 39 years, Cincinnati.

William Patterson, aged 39 years, Cincinnati.

Olin Johnson, of Salt Lake City, captain of the Cincinnati team which was contesting at the motorhome, for some reason that will probably remain unknown, drove his cycle to the extreme top of the circular track, crashed into an electric pole, broke it off, and the contact of the live wire with his machine exploded the gasoline throwing the burning fluid over a score of spectators.

NOT ON THE CHART.

The rain fell in long, slanting sheets and drummed against Joel Webster's olivine with a noise that muffled the throbs of his engine. The motorboat rose on the crest of big waves and then dived down into pitchy blackness, for it was night. He had lost his bearings an hour ago, when he had left Madden harbor for the short trip down the coast after a catboat which had gone adrift, and now he was trying to find the harbor's mouth once more.

He tried to discern the familiar light that would set him on the right course, but the lighthouse seemed blotted out in the storm.

"I ought to be somewhere near the harbor's mouth by this time," he panted after he had recovered from a drenching wave. He bent forward and peered ahead as if to pierce the blackness with his keen eyes.

"Seems as if I kept to see the ledge light unless—unless something's happened to Peter Langdon!" He inclined his ear, and close at hand he heard the roar of waves breaking on ragged rocks. "Good Lord, if it isn't the ledge, and no light!"

The wheel spun round in his strong hands, and the motorboat put about until she was headed straight for the booming waves. If Joel Webster had not known the ledge like a book he might have gone straight to destruction on the bristling rocks that encompassed the lighthouse. But his ear was trained to the voice of the sea, and at just the right moment he swung his little craft around into the narrow opening that gave upon comparatively quiet water.

It was a matter of considerable skill to make a landing in the storm, but at last he moored the boat safely and crawled along the platform until he came to the narrow iron stairway that led to a door above the highest water mark.

His repeated battering brought quick light steps across the floor and the sound of a frightened voice from within.

"Oh, is anybody there?" called the girl.

"Yes!" he shouted back, but the wind tore the words away, and he had to repeat his cry again and again before she understood that his voice was not the cry of frightened gulls or the scream of the raging wind.

The door opened outward, and he staggered within the warm cozy shelter of the sitting room. The girl was busy locking the door and so she did not look at him until he had removed his dripping sou'wester and pushed back the tangled hair from his wet forehead.

"Oh, it's you, Joel!" she faltered, with a little backward step of alarm.

"Yes, it's me," said Joel Webster crisply. "I was out in the storm, and I noticed the lamp wasn't lighted."

"It's none of your business what's the matter!" called an angry voice from the adjoining room. "Dora, is that fresh Webster boy in there?"

"Yes," he repeated Joel for the second time. He drew near the communicating door and looked in on the recumbent form of a large, old man, who appeared to be suffering great pain. "What's the matter—hurt yourself?" asked Joel bluntly.

"Broke my leg," growled Peter Langdon ungraciously.

"Where's Marshall?"

"Went ashore this morning and hasn't come back. Drunk as a lord, I reckon!" growled the lighthouse keeper. "Dora here tried to get the lamp going, but she couldn't bless her heart!"

"I'm going to light the lamp for you, and when it's going good I'll come back and make you comfortable," announced Joel in a matter of fact tone.

Peter Langdon half raised himself in bed and shook his fist at the young man. "Don't you dare touch my lamp, Joel Webster! Didn't I warn you off these here premises a week ago? Didn't I say I wouldn't have you around here?"

Joel folded his arms and looked the traitor keeper in the eye. "Yes, you told me all that, Mr. Langdon, but that hasn't got anything to do with lighting the lamp tonight."

"It hasn't, eh? Why not?"

"Because what you said to me then has got to do with Dora. The only reason I came tonight was because I saw the light was out and I thought you were in trouble." Joel spoke firmly and without one backward glance at the girl who stood behind him.

"You leave that lamp alone!" commanded Peter wrathfully. "You needn't try to play the good Samaritan with me!"

"You mean you're going to turn me out in the storm again?" asked Joel quietly.

"If you could get here you can get away," growled the keeper.

"Oh, father," cried the girl, "please don't speak like that!"

"You must hate me a lot, Mr. Langdon," said Joel slowly. "If I knew the reason why I'd be better satisfied."

He turned abruptly away and opened the door that led to the spiral stairway. "I'm going to light the lamp," he said over his shoulder, and, without waiting for Peter Langdon's snarling remonstrance, he closed the

door and ascended to the lamp room. In a few moments the four burners were sending long red rays through the driving storm. A fog horn blared dully from the distance. It was very cold and very lonely up there, and Joel longed to go down to the cheery warmth of the room below, but he hesitated.

Peter Langdon needed him sorely. Some one must relieve the injured man of the agonizing pain of his broken limb. Joel thrust prejudice aside and returned to the lower room and approached the bedroom door.

"You won't be blamed because your light's not burning," he announced cheerfully. "Now, Mr. Langdon, if you'll let me, I think I can fix that leg of yours so you'll be comfortable till a doctor gets out here in the morning. You know I've been quite handy about helping set broken limbs, and—"

"Get along with you!" ordered Peter fiercely. "I don't want you to come near me."

"Then I'll go ashore and fetch a doctor tonight," and Joel picked up his hat and shrugged into his oilskins. In an instant he had opened and closed the outer door and was gone into the stormy night.

Dora Langdon sank down beside the bed and hid her face in the blankets. "Oh, father," she cried, "why did you let him go? Perhaps he will be drowned!"

"What if he is?" demanded the man fiercely. "Would you care?"

There was a little silence while the girl's shoulders heaved with emotion. "Of course I'd care," she said in a muffled tone.

A look of pain wrinkled Peter's harsh features. "Then—then you must like him a lot," he said hoarsely.

"I do, father," she sobbed.

"I thought—maybe you'd be satisfied with just me," he said in a low tone. "I lost your mother when you were born, and I set store by you, Dora, thinking maybe you'd care enough about me to stay with me, but I've got to give you up to him. I hate the young jackanapes!"

"Oh, father, dear, don't think I shall love you any less!" cried Dora, throwing her arms around his neck.

"Don't you understand how anybody can care for more than one person at a time? When you loved my mother, couldn't you love your own mother too?"

Peter Langdon swallowed a lump in his throat and muttered under his breath. Dora could not hear what he said, but she felt that his mood was softening. "Don't worry about Joel, father," she pleaded. "You know he said the other day that he would never marry me without your consent, so you see you can keep me a prisoner here in your tower all my life if you wish."

"Would you be happy and contented to stay with me alone?" asked her father.

"I might not be entirely happy, father, but I would try to be contented," she said steadily.

There was silence between the two after that which lasted well into the night. The waves roared on the rocks at the base of the tower, and the wind screamed wildly as it chased the flying rain. Father and daughter were thinking of the brave young form with face set toward Madden harbor. The older man's fierce jealousy had driven Joel forth into the wildest storm of the season. Would he reach the shore alive?

If he did not, how could Peter Langdon make up the loss to his daughter? He asked himself this question over and over as the long hours passed. Dora arose after a while, and with white, set face she attended to little household duties that she might not be distracted by the neediness of her anxiety. Now and then she administered a cordial to the suffering man on the bed, but after a while he lay very quiet with closed eyes, and she thought he was asleep.

The sitting room clock was chiming 3 when there came a beating at the outer door. Dora flew to open it with trembling fingers, and two storm swept men entered the room. The girl ran to and fro, helping the doctor and Joel Webster to shed their oilskins and bringing them steaming bowls of ginger tea.

"Sensible little girl," approved Dr. Brown as he set the bowl on the table. "Now for your father, Dora."

Joel sat in the background, white and worn with the strain of his night's work. At least he could keep out of Peter Langdon's way until that man of wrath had been made comfortable. Perhaps then there might be a spare bed. Joel nodded gently off to sleep sitting bolt upright on his chair.

"I want Joel to help," said Peter.

"You mean you're going to turn me out in the storm again?" asked Joel quietly.

"If you could get here you can get away," growled the keeper.

"Oh, father," cried the girl, "please don't speak like that!"

The Bay Service

S. S. Yarmouth, Capt. MacDonald, arrived here Saturday night with a full cargo of freight from St. John. She has been thoroughly overhauled and never looked better than at the present time. A list of her officers appeared in our last issue. The Yarmouth sailed again at five o'clock Monday morning returning to Digby the same evening. She did not cross the bay Wednesday but arrived here yesterday morning on her regular schedule.

The S. S. Prince Rupert made her last trip across the bay Wednesday, the S. S. St. George taking her place yesterday. A full description of this beautiful steamer appears on our fourth page, reprinted from the Halifax Chronicle.

Two new ships are under command of Capt. Cardiff, who has with him Capt. Angus, Captain of the Prince Rupert as pilot and the following officers: Chief officer, George A. Saunders; second officer, W. The officers and members of the Western Nova Scotia Yacht Club appreciate this gift very much and the sailing committee will be asked to arrange a special series of races for this handsome trophy to take place during the season of 1914, as the present yachting season is now well advanced.

A Pleasant Trip

The Yacht Comfort, under the command of Capt. Edgar McDormand, left Westport in the heavy breeze of last Friday for Grand Manan and Passamaquoddy Bay. Besides Capt. Edgar, there were Councilor Bowers, Customs Officer Pugh, Calvin I. Fox, a retired merchant of Houlton, Maine, now here on his vacation, and engineer Gerald Strickland. They are, with the exception of Councilor Bowers, all strangers to that part of the maritime provinces and no doubt their little trip will be full of joyful surprises for them. They have a good boat, a jolly crew, and we bespeak for them a happy vacation and real picnic. They will only be absent a few days.

Mr. Gaudet was thrown from the wagon about five feet, landing on his face. He was very much bruised about the face, but fortunately no bones were broken. His many friends wish him a speedy recovery.

Saturday's Dory Race

MIL CHARD WON—MR. SHIPMAN LEAD IN ON POINTS.

Saturday's Swainscott Dory Race sailed under the auspices of the Western Nova Scotia Yacht Club was the best of the series. The weather indicated rain, but it did not come until the last boat had crossed the line. The preparatory signal was hoisted at 3:31 and the starting gun at 3:30. Four boats crossed the line: No. 3, owned and sailed by Mr. Weatherbe, Commodore of the Smith's Cove Racing Association; No. 5, owned and sailed by R. G. Shipman; No. 4, owned and sailed by Charles Chase, Jr.; and No. 8, owned by Mr. Chard and sailed by John W. Hayden.

The run to leeward was made in extra good time, considering the light wind. The island buoy was turned as follows:

No.	Time	Elapsed Time
3	1:26:10	1:26:10
5	1:30:45	1:25:45
4	1:32:45	1:28:45
8	1:38:15	1:38:15

The boat to the Point buoy proved the most interesting part of the race, and was watched by many people who accompanied the racers in sail and power boats, as well as by many on shore, especially our visitors.

No. 8, in charge of Capt. Hayden, made a hitch in back of the fish weir off Smith's Cove which proved a good move. He returned the Point buoy at 4:37:30 and, with a good breeze on the Joggins, kept the sailing committee's boat hustling to return to the home moorings to get his official time at the finish. The boats crossed the finishing line as follows:

No.	Time	Elapsed Time
3	1:26:10	1:26:10
5	1:30:45	1:25:45
4	1:32:45	1:28:45
8	1:38:15	1:38:15

A Pleasant Trip.

A summer tourist writes:—On Wednesday afternoon this week a party of ten tourists from the Trefry House went to Annapolis on Capt. Ernest Ellis' launch Corrine. There was a 30 knot gale blowing at the time and most of the Digby sailormen thought the trip would be hazardous, but Capt. Ellis had a bright scheme to try out, and when the party embarked at Annapolis for the return trip, found the boat converted into practically a cabin launch. Much rough water was encountered but the party arrived at Digby dry and happy.

Renall Orderlies

Our experience with them and the many reports we have received from those who have used them prove that they are really the most pleasing and satisfactory bowel remedy we know of.

Renall Orderlies taste like candy. They are soothing and easy in action. They don't cause griping, nausea, purging or excessive looseness, as do the usual physio or laxative. Renall Orderlies seem to act as a tonic, strengthening upon the nerves and muscles of the bowels. They prompt-

ly relieve constipation. They act to overcome the cause of constipation. They tend to eliminate the cause of sick headache, indigestion, bad breath, nervousness and other ailments attendant upon inactive bowels.

Make Us Prove This

We want you to come to our store and get a package of Renall Orderlies. Use a few or use up the entire box. Then, if you are not entirely satisfied, come back and tell us and we will promptly return the money you paid us for them.

THE BAY SERVICE.

The New Steamer St. George is a Palatial Liner.

THE NEW VESSEL IS SPLENDIDLY EQUIPPED THROUGHOUT, AND HAS ACCOMMODATION FOR 1100 PASSENGERS—WILL MAKE RUN FROM ST. JOHN TO DIGBY UNDER TWO HOURS—THE BLACKCOCK A POWERFUL TUG.

[Monday's Halifax Chronicle.]

People subject to seasickness will soon have no qualms in crossing the Bay of Fundy when the steamer St. George starts on this service in a few days now she will almost cover the run from St. John to Digby before her passengers become afflicted with mal-de-mer. The St. George is an important link in the new rapid service the G. N. E. are preparing between Halifax and St. John and she arrived in port on Saturday night under convey of the noted Liverpool tug Blackcock which has the reputation of being able to tow rings around anything equipped with bow, bridge or bitts on the seven seas.

With accommodation for eleven hundred people, triple turbines giving a speed of twenty-four knots and appointments superior to many of the first class Transatlantic liners running to this port, the St. George is easily the finest ship of her tonnage and class ever seen here, and the general opinion of everyone who visited her yesterday was that she was entirely too fine a boat for her proposed service even if she would make the run in something under two hours.

A UNIQUE VOYAGE.

The voyage of the St. George and the Blackcock is somewhat unique in the marine annals of this port, although it was a very ordinary event for the big Liverpool tug boat. Combining great engine power and large passenger capacity with luxurious appointments, the St. George, which has been engaged in the Irish Sea service of the Great Western Railway, a run of under sixty miles, naturally has somewhat limited bunker space. The turbine could stow enough coal to make the Atlantic passage under ordinary conditions, but it was found to be a better insurance proposition to charter the Blackcock as a coxey, the reduction in underwriting premium being sufficient to pay the tug hire. As it turned out, the arrangement was very fortunate, for both Capt. Cardiff, of the St. George, and Capt. Weir, the Blackcock's commander, declared that they never met more continuous bad weather in all their crossings of the Atlantic. From the time they left Liverpool on July 14th until arriving here, continuous W. S. W. gales were encountered and with fires banked, the St. George was slowly towed against heavy seas. Arriving 100 miles east of St. John's the Blackcock's coal was getting low and Capt. Weir run into St. John's to replenish bunkers. The St. George then proceeded upon her own steam to St. John's and made the trip from that port to Halifax with very little assistance from her escort. After bunkering today, the St. George will proceed to St. John while the Blackcock, which in addition to some of the heaviest towing ever known around the British Isles, has already logged some thirty thousand miles of deep sea work since the beginning of 1913, will coal up in anticipation of a little jaunt down to Rio Janeiro to tow a disabled steamer back to Britain.

A FINE STRAINER.

With her two big funnels painted the familiar blacktopped yellow, and her graceful, sweeping lines, the St. George attracted a lot of attention as she lay at anchor in the harbor yesterday, and an inspection of her interior increased the favorable impression formed on first appearance. She is a product of Cammell Laird and Co.'s yards and is one of the speediest mercantile ships ever turned out at Birkenhead. On a displacement of 2150 tons, the St. George is engaged to show 10,000 h. p. under natural draught and somewhere over 20,000 h. p. if the funnels go. She has been running in the Irish Sea service ever since her launch and her schedule called for doing the fifty four miles between Fishguard and Rosslare in two hours and twenty-six minutes. She did it too, day in and day out, although this required an average speed of 23 1/2 knots with some rather choppy channels to navigate. "Dead slow" on the St. George's telegraph means a mere fourteen knots, which is the slowest speed at which her turbines will work, and the crew of the Blackcock, who have seen Capt. Cardiff swinging his racer into a place at a clip which would scare a landman blue, anticipate some fun the first few times the new boat docks on her St. John Digby run.

SPLENDIDLY EQUIPPED.

As a stimulant to the tourist traffic of Nova Scotia, the St. George would be ideal. Running from New York or Boston to Halifax or Digby she would be a huge success, but on her present route, passengers will hardly have had time to examine the spacious drawing room, with its large bay window, steel engravings inset in the wall and comfortable blue plush upholstered settees; the handsomely equipped main dining room, the cosy smoking room and bar, which are finished in fumed oak, the music room, and the ladies' room on the main deck, the sixty-eight comfortable first class cabins and the general excellence of the appointments before their journey is over. The third class, so called, cabin and lounge rooms are superior to many of the first cabin equipments on transatlantic steamers running here while for any superior mortals who desire to be entirely aloof from the common herd for the hour and forty-six minutes the St. George will occupy from dock to dock, there are eight royal state rooms on the upper deck in which they can remain in elegant seclusion. These state rooms have nearly all been sacred to various members of the nobility, crossing from Ireland to England. For example, state room "B" was always reserved for the Duke of Devonshire and "D" for the Duchess. The Lord Lieutenant of Ireland positively never made the trip unless he could do so in Cabin A while a long list of lesser dainties including the Duke of Manchester, the Duke and Duchess of Argyll, Lord Kitchener, the Marquis of Ormonde and Lord Donnamore took turns in occupying some of the other state rooms. The most of these, however, were directors of the Great Western and consequently the company never derived any great revenue from this source. On occasion, however, more tourists were permitted to oc-

FIRST TIME HERE.

Capt. Cardiff, he's an Irishman despite his name, had never been in Halifax before Saturday, but in getting back to St. John he says he will be meeting old friends again. For many years he ran out of that port in the Thomson ships and he also sailed in many of the old Nova Scotian square riggers. He was mate under Capt. Charlie Fry, on the Celeste Burrell, the last of the famous Burrell fleet of Yarmouth on her final voyage when she was dismantled in the China Sea en route from Manila to Puget Sound, and towed into Hong Kong to be declared a total loss and many of his other old skippers are now living in retirement at Yarmouth.

A POWERFUL TUG.

Comparatively few of the visitors to the St. George paid any attention to the sturdy tug berthed on the north side of the Foreness pier, but the Blackcock is far more widely known among shipping men all over the world than the ship she just conveyed. Built originally over twenty-five years ago, the records of her achievements in deep water towage embraces some of the most interesting of recent marine annals. At present she is the most powerful tug under the design and ownership of the Liverpool Steam Tugage Association, have a world wide reputation as tow masters. They have built some more powerful tugs than the Blackcock but as soon as they get them afloat, according to Capt. Weir, the Admiralty buys them up for naval purposes. "We built three 'Stormcocks,' and one after the other, the Admiralty bought them up," said Capt. Weir, who reluctantly admitted that perhaps the last "Stormcock" with engines giving nearly two thousand horsepower was a more powerful boat than the Blackcock, which on 243 tons displacement gets 1250 h. p. from her triple expansions.

As far back as 1888 the Blackcock established her reputation as champion deep water towboat of the world when she towed the Northern Castle, a 5000 tons vessel, some 4800 miles. Another of her notable tows was the German mail steamer Adolph Woermann from Akassa, on the west coast of Africa, to Hamburg, which she accomplished in 1891 in 31 days.

A LONG TOW.

While towing the German ship Ostara from Barbados to Hamburg, the Blackcock set up an interesting record by towing 2000 miles to Fayal without a stop for coaling and reaching there with six days' coal left. In fact, about any kind of craft that will float has been dragged around at the end of the Blackcock's hawser. Easily the record tow, so far as bulk is concerned, was accomplished by Capt. Weir a few months ago when, with a couple of other Liverpool tugs, he brought the forty-five thousand ton floating dock Birkenhead to Portsmouth. Every man on the Blackcock readily admitted yesterday that the Dutch tugs made a good job in bringing the Duke of Cornwall dock out to Montreal, but in defense of British seamanship they pointed out that this dock was just about one-third of the newest Admiralty leviathan and with much picturesque emphasis, they declared that once the Portsmouth wonder, several high power searchlights would be necessary to find it. One of the prized possessions aboard the tug is a photograph of this monster dock, ending its journey at the end of the Blackcock's tow rope.

GOT VALUABLE ASSISTANCE.

How a Visitor to New York Got His Money Back.

A VISITOR at a New York hotel, having a dread of pickpockets, went to the clerk and handed him a hundred dollar bill to be put in the safe. Asking for it next day, he was thunderstruck when the functionary to whom he had given the money coolly denied any recollection of the matter. Thereupon the countryman went to a lawyer.

"Get another hundred dollar bill," said the lawyer, "and go, accompanied by a friend, back to the hotel; apologize to the clerk for your mistake; say it was a defect of memory; attribute it to drink or absent-mindedness; deposit the second hundred in the presence of your friend and come back to me."

The mystified client obeyed his instructions to the very letter.

"Now," said the lawyer, "go back alone to the clerk and ask him for the \$100. Knowing that your friend saw him receive it, he will give back the second hundred dollar bill. Then take your friend with you the next day, approach the clerk, ask him boldly for that \$100, and, as there was no witness to your receipt of the second bill, he will be forced to return the first also."

The ruse proved completely successful.

The lawyer sent his bill the next day. It was for a fee of \$100.—Exchange.

The Same, Only Different.

They were newly married and on a honeymoon trip. They put up at a skyscraper hotel. The bridegroom felt indisposed, and the bride said she would slip out and do a little shopping. In due time she returned and tripped blithely up to her room, a little awed by the number of doors that looked all alike. But she was sure of her own and tapped gently on the panel.

"I'm back, honey; let me in," she whispered.

No answer.

"Honey, honey, let me in!" she called again, rapping louder. Still no answer.

"Honey, honey, it's Mabel. Let me in."

There was silence for several seconds; then a man's voice, cold and full of dignity, came from the other side of the door:

"Madam, this is not a beehive; it's a bathroom."—Philadelphia Record.

A plain looking elderly maiden, having noticed a marriage advertisement in the paper, entered into correspondence with the advertiser and arranged to meet him at the railway station.

As a token of recognition she sent him a small cutting of the dress she would wear on the occasion and departed by an early train to the place of meeting. Here she waited for all the trains, but in vain, and returned home, bitterly disappointed. Next day she read in the paper:

"I liked the pattern well enough, but didn't care for the piece."—New York American.

"Go get a reputation, young man," said the sage. "My name is Elijah."—Cincinnati Enquirer.

The Other Way Round.

The mother continued her way to the door with the remark: "Oh, he ain't, ain't he? But you're a disturber of 'im!"—London Farm and Home.

DIGBY WEEKLY COURIER

Digby, August 15, 1913

New Steamboat Service.

YARMOUTH AND ST. JOHN VIA WESTPORT, FREEPORT, AND TIVERTON.

A new item in one of the daily papers gives the St. John Board of Trade credit for the new steamboat service which began this week between Yarmouth and St. John, calling at Westport, Freeport and Tiverton each way. The new line is being operated by Hugh Conn & Son, of Yarmouth.

The new Brunswick government, which it was hoped would give \$2,000, only pays \$1430, and the new service therefore depended upon the Dominion subsidy of \$3,000, the vote for which was obtained by Mr. O. J. Jameson, the energetic member for Digby county. The negotiations between the contractors and the Dominion government, as well as the St. John end, were carried on through him. The contract calls for forty trips between now and March, with two trips per week during September and October. This additional steamboat service is much appreciated by the business men and all the residents of Long and Brier Island as well as by the people of St. John and Yarmouth. Last year Mr. Jameson made the first step in this direction by getting the S. S. Amelia to call at Westport. This year this steamer is not being operated on this line, as the owners claim it did not pay, but this more convenient service has now been obtained.

The Fishermen's Regatta.

A meeting was held in the Town building Wednesday evening to complete arrangements for the fishermen's regatta, which will be held in Digby next Tuesday, August 19th. The programme appears on our fourth page. Mayor Short occupied the chair and a lot of business was transacted. One of the most interesting events on the programme will be the "bang and go" race for pleasure boats which takes place at 11.30 and which promises to be an exciting finish. The trophy for this event is certainly a handsome shield worth winning by any yachtsman. Mayor Short wishes to state that he requests all the merchants, hotel keepers and citizens in general to display as much bunting as possible on the 19th and 20th, decorating their places of business in a similar manner as last year. The guides' sports, which also take place on the above dates, are attractive events and if the weather is favorable a big crowd of people will be in Digby next week.

Special Attraction on the Athletic Grounds.

As will be seen by our advertising columns, the great LeVasseur will give an exhibition on the Digby Athletic grounds next Monday evening, and Tuesday and Wednesday afternoon and evening. In referring to this strong man the Yarmouth Herald says: "At Lakeside Park last evening the great LeVasseur surprised the local crowd by holding Mr. Bain's automobile and a pair of grey horses belonging to Mr. Phillips. This evening as a special feature he will endeavor to hold a pair of oxen against a team of horses. His tug of war against 30 men created a good deal of amusement. He also held 14 men weighing 2330 lbs. on his back. LeVasseur in tumbling specialities is very graceful and neat in his act."

Moving Pictures in the Bay.

Mr. Charles H. Coburn, manager of the General Film Co. St. John, spent a few hours in Digby yesterday. Mr. Coburn destroys the used films, and instead of burning them, throws them overboard from the S. S. Yarmouth about mid bay between St. John and Digby. Yesterday he threw over 200,000 feet of film and a short time ago in the same manner he destroyed 200,000 ft. of Partridge Island. His company supplies 1500 reels of film every week and releases 48 new ones which have never been used. Mr. J. F. Cripps, proprietor of the Bijou Dream, is the only man in Digby who has put out by Mr. Coburn and it is in this way he gives his patrons such excellent satisfaction.

Good Train Service.

By the change in the Annapolis Train Service of D. A. Ry. from Tuesday and Thursday to Tuesday and Saturday evenings an opportunity is given those travelling by Owl Train from Halifax to connect with the Board of Trade Special for Digby on Saturday evenings. One can leave Halifax on Saturday afternoon at 4 p. m. and spend Sunday along the shores of the Annapolis Basin, returning home by Monday's regular train or they can auto to Annapolis on Sunday evening to catch the morning train, leaving at 3.45 a. m. and be back at business at 9.30 a. m. Monday morning.

Bluenoses Picnic at Red Deer.

About 200 former residents of maritime provinces now living in Calgary held a very successful picnic at Red Deer recently. We notice that Mr. A. H. Holdsworth, formerly of Digby, was manager of the Calgary vs. Red Deer base ball game and that he was also a member of the management committee.

Mr. Holdsworth expects to visit Digby during the latter part of this month or the first of September.

A Handsome Window Display.

One of the most attractive displays of prizes ever seen in Digby is on exhibition in Mr. O. A. Lindstrom's new jewelry store, Water Street. These are trophies contributed for the Guides' sports which will be held in Digby next Tuesday and Wednesday, August 19th and 20th. There are also several shields on exhibition which will be awarded as prizes in the fishermen's regatta to be sailed at Digby next Tuesday, the 19th.

A Painful Accident.

An Englishman named Frederick Clegg, who had been wounded several times in the Boer war, had his leg badly crushed Wednesday afternoon while working on a construction train near the south end of the town. He was removed to Dr. Read's office where his injuries were attended to and afterwards taken to Joseph Raymond's at the Racquette. It is thought he will recover.

Won First Prize.

Karl Hunt, who was recently one of the crew of the steamship Westport, Westport, Nova Scotia, won first prize at the boat race at the picnic of the church of the Blessed Sacrament held at Lily Pond, Saugus, Mass. The prize was a handsome watch fob.

Another Visiting Yacht.

The American steam yacht Ituna, N. Y. Y. C., anchored in port on Tuesday evening. She is one of George L. Watson's designs and was built in Glasgow. She has crossed the ocean several times and has the appearance and reputation of a remarkably able sea boat. The Ituna is commanded by Capt. Netland and carries a crew of seventeen men. She is under charter to Dr. Frederick Terry, of Newport, Rhode Island, who has with him as guests Mr. Harold Godwin, Miss Frances Godwin, Miss Hyde and Mr. Henry Marquand.

During a cruise of about a month the Ituna has visited various ports on the Nova Scotia coast, Yarmouth, Shelburne, Lunenburg, Halifax and Isaac's Harbour. The subject of the cruise is a visit to the Bras d'Or Lakes of Cape Breton. These marvelous waters are too little known to American yachtsmen and present every attraction of scenic charm, delightful climate and sport. Nothing could surpass the loveliness of the mail from St. Peter's Canal through the Bras d'Or, to Baddeck and Sydney. By securing the service of Capt. N. S. McKinnon, of Yarmouth, as pilot, the Ituna was able to explore such time-savers as Schooner Passage and Barrington Passage, east of Yarmouth, which cut off sixty miles of rough sea, and also Petite Passage leading from St. Mary's Bay to the Bay of Fundy.

In all these ports the courtesies of local yachtsmen have been extended and Dr. Terry says thanks are due to the Western Nova Scotia Yacht Club for its friendly greetings and use of its landing stage. The Ituna sailed from Digby Wednesday morning.

"I ATTRIBUTE MY CURE SOLELY

And Entirely To Taking "Fruit-a-lives"

HULL, QUE., Dec. 24th, 1909
"For the past twelve years, I had painful attacks of Dyspepsia. I could not digest my food and everything caused the most agonizing pain in my stomach. I also had a fearful attack of Constipation and at times I had no movement of the bowels for two weeks.

Three doctors attended me for two years and gave me all kinds of medicine but did me no good. My weight came to only 80 pounds and everyone thought I was going to die. Finally, I had the good fortune to try "Fruit-a-lives" and as soon as I began to take them, I felt better. I persisted in the treatment and to my great joy, I steadily improved.

Now I feel very well, weigh 115 pounds, and this is more than I ever weighed even before my illness.

I attribute my cure solely and entirely to "Fruit-a-lives" and can never praise them too much for saving my life. To all who suffer from Dyspepsia and Constipation, I recommend "Fruit-a-lives" as a miraculous remedy."

Grand Lodge I. O. O. F.

THE SESSION AT CHATHAM, N. B., A BIG SUCCESS—THE TOWN CROWDED WITH VISITORS.

CHATHAM, N. B., Aug. 13.—The town today was crowded with Old Fellows and accommodations are at premium. The hotels are overcrowded and hundreds are lodged in private houses. The Grand Lodge opened at ten o'clock sharp. The grand officers were escorted from the headquarters to the meeting place by Canton La-Tour of St. John and Canton Halifax. Grand Master Dugald Stewart quickly got the Grand Lodge down to business. Several of the committees were ready with their reports. The number of lodges is 117, two being added during the year. The number of members is 10,748, an increase of 425. The total amount paid for relief was \$18,033.53. The receipts from all sources were \$60,952 and the total disbursements \$47,680.24. This leaves a balance of \$13,271.80.

At the session of the Rebekahs this morning reports were given by the president, Mrs. Annie T. Grant; vice president, Olive E. Lindow; secretary, Mrs. Melville McKean; and treasurer, Janie McGowan, of Moncton. All these were satisfactory and showed good progress. The treasurer reported a balance of \$605 on hand.

Two Cape Breton Vessels Lost.

BOTH WRECKED ON P. E. ISLAND COAST BUT CREWS SAVED.

NORTH SYDNEY, Aug. 10.—Telegrams received here yesterday that the schooner Miletus and Irene, owned in Sydney and North Sydney respectively, have been wrecked on the Prince Edward Island coast within the last two days.

The Miletus, the first of the two vessels to meet with disaster, was on her way to Bathurst (N. B.), with a cargo of coal, from this port and went ashore at Cape Breton on Friday and became a total loss. The crew reached shore safely. The Miletus was owned and commanded by Capt. A. E. Dean, of Sydney. She was about twenty years old and registered 85 tons. The cargo was insured, but there was none on the vessel.

The schooner Irene, which was owned and commanded by Capt. George Moulton, of this town, was on her way to Sydney, with a cargo of lumber for Chappel Brothers when she went ashore at Wellington (P. E. I.), yesterday and became a total loss. The crew are reported safe. There was no insurance on either vessel or cargo. The Irene was about 65 tons register.

Venetian Evening.

AN INTERESTING ENTERTAINMENT AT BEAR RIVER.

A large number of Digby people attended the "Venetian Evening" at Bear River Wednesday night. The majority of whom went by S. S. Moto, commercial boats and private yachts. This enjoyable affair was under the auspices of the Episcopal church of that town. The grounds of Mr. L. V. Harris were beautifully lighted. The gondolas illuminated on the river presented an attractive appearance, while the people on the grounds were pleasantly served by young ladies in Venetian costumes. The feature of the evening were vocal solos by Signor and Mme. Berlin, the celebrated musicians who are summering at Bear River. The Bear River brass band was in attendance and rendered good music. The proceeds amounted to \$150.00.

Death of Joseph McGill.

Joseph McGill, the well known vessel builder, died at his home in Shelburne, N. B., on Saturday night. By his death Shelburne loses one of its most valuable citizens and his death will be keenly felt throughout the maritime provinces. Many of the fastest and staunchest coasting steamers and schooners which have ploughed the waters of the Atlantic coast, have been the products of his yard, and he gained such a reputation as a builder that it was found impossible to handle anywhere near the business that he offered. In addition to the shipbuilding and blacksmith work, he conducted a large lumber and provision business.

At the Christian Church.

Song service and bible reading at 10:30; communion and preaching at 11:00; bible school at 12:00; preaching in the evening at 7:30. Subject for Sunday evening: "A Trip Through the Wilderness." The evening sermon will be illustrated by a large chart.

A Valuable Book.

SUPPLEMENT TO THE HISTORY OF ANNOPOLE COUNTY.

The COURIER has received a copy of the supplement to the history of Annapolis county, from its author, Judge Savary, of Annapolis. Some years ago Mr. Savary took in hand the publication of many manuscripts from the pen of Mr. W. A. Calneek, deceased, which he put in tabulated form and with additions of his own, had them beautifully printed in book form entitled "History of the County of Annapolis." This book, like all similar volumes, gives details relative to the setting of the various places in the county which otherwise would have been lost, and created an unusual interest in the recital of the many facts chronicled therein.

But the work was not completed to Mr. Savary's satisfaction and so he kept at it with undiminished zeal, until the latest volume was completed. The present work is dedicated to the memory of the Hon. Jas. W. Johnston to whose masterly ability Canada owes the preservation of her rights in her Bay fisheries and Nova Scotia the possession of her mineral resources. Much space is devoted to the correction of geographical errors in the former work and several new ones are added. There are some splendid articles on the deportation and exile of the Acadians. Few know that the County of Annapolis was the scene of an important part of that transaction.

The volume is further embellished by many interesting and valuable illustrations, such as Johnston, Adams, Colclough, and Sir William Winniet, Maps, too, are provided which aid materially in following the course of the history of this county. Perhaps one of the most useful portions of the work is the general index and the reader can instantly by means of this discover the information of which he is in search. Judge Savary has already made a name for himself in the department of historical research. His frequent contributions to the leading magazines and his unflinching interest in his native province have brought him to the foremost place as an authority on matters historical in Nova Scotia. By the publication of this latest volume, the esteemed Judge has increased the debt that students of history everywhere owe him. The mechanical get up is good and is the work of William Briggs, Toronto. The supplement sells at \$2.50, or both volumes for \$3.75 when sold by the author, postpaid.

This book should not only be in the hands of every resident of Annapolis and adjoining counties, but would prove a valuable addition to the library of every summer tourist who visits Nova Scotia, for it contains just such information as they are continually seeking to impart to their friends on their return to their various homes.

A Lone Voyager.

(Yarmouth Herald)

The sloop yacht Nereis, William W. Nutting, master and owner, arrived here on Friday and anchored in the channel opposite the piers of the new Channel Johnson Iron Co. She is on the voyage from New York to Battle Harbor, Labrador, in the interest of the publications for which Mr. Nutting is a contributor. He is a lone voyager, not having even a dog or cat for a companion. He is fitted out with cameras and other instruments, and will take many "shots" of the different localities he will visit, and reproduce them in the publications with his descriptions. As this is the scene of Dr. Jernell's mission the articles will be timely and will be read with much interest.

Death of Mrs. James B. McGivern.

St. John Globe: Many friends in this city and in Nova Scotia will regret to hear of the death of Mrs. James B. McGivern, which took place on Wednesday afternoon at her residence, 50 Duke street, after an illness of two years. Mrs. McGivern's illness did not take a serious turn until June and since then she has sunk gradually. She was a daughter of the late Rev. W. H. Snyder, formerly of Weymouth and Mahone Bay, N. S., but had been a resident of this city for many years. Besides her husband she leaves three children: Mrs. J. D. McKenna, of Sussex; Miss Annie of this city, and Richard J. of Vancouver.

A Pleasant Entertainment.

(Roche's N. H. Courier.)

An entertainment was given Wednesday evening of last week at the residence of John W. Gregg, in honor of the birthday of Miss Ethel M. Whitman, who is spending her vacation with her uncle, J. Fred Whitman, of Blue Hill avenue. Guests were present from Bates college, Lewiston, Me., from St. John, N. B., from Nova Scotia, from Massachusetts and other places. Supper was served by Mrs. Gregg in her usual efficient and charming manner as hostess.

[Mrs. Gregg was formerly Mrs. Helen M. Morgan, of Burton, Digby county.]

St. Peter's correspondents to the Richmond county Review says: H. Price Webber, the great theatrical performer, with a troupe of actors, performed last evening a week. The town hall was filled every night, and he always draws a large crowd.

CORRESPONDENCE.

To the Editor of the Courier

DEAR SIR: I feel thanks are due you in keeping this list of the Sibley fund open, and giving it so much space. I know you will be glad to hear the goal is in sight and I hope your patience will hold out until we get the required amount. The house and land can be purchased for three hundred and fifty dollars. I would like fifty dollars in repairs and necessary articles of furniture as everything they possessed was burnt. One thing has impressed me very much and that is the distance the good old Canadian travels and the response of kind people who read it. I think them all for helping along this worthy object and shall keep on looking on the list with much pleasure always.

Again thanking you I am, dear sir, Very truly yours,

M. MERIKEL.

"The Elms," Digby, Aug. 13.

The Sibley House Fund.

Through the kindness of Mrs. Powells, Montserrat, who opened her home on Monday evening to over fifty people, the proceeds to provide a home for this unfortunate family, have been greatly augmented. Mrs. Short, Mrs. Read, Mrs. Brown and the Misses Byrne assisting. If we can raise four hundred dollars, Mrs. Sibley will be in a little home of her own by the middle of September. Think what that means to her, this tired, overworked, mother. The prospect is much brighter now. Three of the older boys have found homes in the country. This means nine little ones to feed instead of twelve. Next week I would like to see the names of all the school children on the list. If they each only gave ten cents it would help, not only the Sibleys, but the children who give as well. I do hope some kind child will start this and let us see what the children of Digby and county can do. This is a matter which concerns every citizen. In it means making a family self-respecting and thrifty instead of expecting help, when winter comes, from the town. A few more gifts of five or ten cents will soon give us the required amount to purchase the little home now under consideration. Several pledges of bedding and bits of furniture, have been made by the kind hearted as soon as they have a place to put them in. An additional donation from Mayor Short is a pair of boots all round. A box of clothes has already been sent by Mrs. T. G. Lynch. Also dishes promised. A complete list of all parcels sent in will be given the Committee later as the people have been most kind in this way.

Sibley Fire Fund.

The Bridge and "SOF" Party held at the residence of Mrs. C. M. Power on Tuesday evening was a grand success and the sum of \$28 was added to the fund. Much credit is due the ladies of the Committee who had charge of the affair; they were Mrs. Short, Mrs. Brown and Mrs. W. F. Read, who were assisted by Mrs. Power and the Misses Byrne. There were 13 tables, a prize for each table being contributed by visitors to the town. Refreshments were also contributed and the hostess kindly loaned by Mrs. Power, so there were no expenses of any kind. Every body present voted it a very pleasant evening. Mr. E. R. Mowbray, treasurer, acknowledges with thanks the following subscriptions since last issue.

An Investment Market Has Arrived

When you carefully examine the prices quoted in our August "Investment Offerings" (now ready for mailing) we think that you will realize the force of our contention that this is a very good time to buy.

Municipal Debentures especially are listed on an attractive price basis—thirteen of the highest class being offered at yields varying up to 5 1/2 p.c.

Ten representative Industrial and Public Service Bonds are included, yielding up to 6.75 p.c. Eleven stocks of prosperous industrial and public service corporations are listed with yields as high as 7 p.c.—two with bonuses of common stock.

Competent judges of present-day financial conditions express the opinion in the leading journals that "an investment market has arrived." They accordingly advise the man with surplus funds to buy NOW. We cannot completely with such sound advice.

If you intended buying a high class article would you buy something that you felt was all that it should be from a house little known, or would you prefer buying something about which you were not very well informed from a house in which you have the greatest confidence? Every careful buyer would prefer the latter instance of course. In the first instance if the article were worth while it would have been taken up by the big house, the house of experience, the house that has a high standing in the particular line in which the article is sold would not take it up unless it measured up fully to its high standard.

Now there is hardly a household in Eastern Canada that does not know the J. A. MacDonald Piano & Music Company, which has stores in Halifax, St. John, Moncton, Amherst, Sydney, New Glasgow and Glace Bay, and wherever that name is known it is associated with the best that there is in the musicware way.

That's the reason why music lovers have so much confidence in

Amherst Pianos and Amherst Player Pianos

they are backed by the house just mentioned. In other words here are new instruments built by men of wide experience, backed by a house that has the confidence of buyers. It's worth while finding out all about these instruments.

A splendid exhibit of these instruments will be shown at the Exhibition at Halifax this year.

12 Tumors Removed Without An Operation

Dear Mrs. Currah—I am enjoying better health than I have for eight years, and I think I am entirely cured. I have none of the old symptoms. I am very grateful for my present health, and think Orange Lily is the greatest treatment for women the world knows. Its use in my case caused 12 tumors or growths of some sort to be expelled. Some were as large as a hen's egg, and others smaller, down to the size of a walnut. You may use my case in your advertisement, for it is the solid truth, and you cannot describe all the good it has done for me. Mrs. Louisa B. Bolter, Ridge.

This letter gives an indication of the positive benefits that always follow the use of Orange Lily. It is an applied treatment and comes in direct contact with the suffering organs. It produces results from the start in all cases of women's disorders, including painful periods, falling of womb, irregularities, leucorrhoea, etc.

I will send a sample box containing 10 days' treatment absolutely free to any suffering woman who has not yet tried it if she will send me her address. Enclose stamps and address Mrs. FRANCES E. CURRAH, Windsor, Ont.

Auto Owners Making Headway in P. E. Island.

CHARLOTTETOWN, P. E. I., August 2.—The automobile owners have driven the wedge in a little further. First they secured permission from the Government to run cars Mondays, Wednesdays and Thursdays in Charlottetown and St. John's, the territory covering an irregular circle within a five-mile radius.

On Monday of this week more territory was thrown open, the road from Charlottetown to the Cliff Hotel, Stanhope, the principal summer hotel in this Province, and situated on the north shore, close to the sounding breakers.

To get this privilege the autoists canvassed the farmers along the road and got signatures for the petition upon which the Government took action. A counter petition was sent in by farmers in this territory opposed to the auto, and the autoists claim that the other signatures were secured by purchasing butter milk at fantastic prices and adopting other means which the "other fellows" always use at elections.

Price Webber at Lyceum.

[Sydney Daily Post.]

"A Queen for a Day," proved a treat for the audience at the Lyceum last evening for Mr. Webber has a fine company and gave an excellent performance of the interesting comedy drama, "Edwina Gray," as the heroine, was admirable, and she made a marked success in the dual character of the Queen and the American girl. Mr. Webber was certainly a clever Ripley, and his local references provoked roars of laughter. Misses Lewis, Campbell, and Shaw, and Messrs. Seneca Palazzo, Brown and Courtenay gave adequate support, and the orchestra of the company rendered good music between the acts.

Mr. Webber's speech, thanking the audience for the patronage he had always received in Sydney, was a gem, and was deservedly applauded.

The company will appear in North Sydney tonight.

[Price Webber and his well known London Comedy Company will appear in the Bijou Dream theatre during their annual tour in this part of the province.]

To Get Rural Telephones.

The Provincial Government has engaged the service of Mr. A. B. McMillan, Warden of Antigonish County to assist in putting into operation the Rural Telephone Act passed at the last session of the Legislature.

This act provides that any community, now without telephone connection, may organize in a very simple manner, and obtain connection with the nearest central exchange of the Maritime Telephone Company, by a payment of a switching rate of five cents per message. The government will assist the enterprise by a bonus to the amount of twenty dollars per mile.

Mr. McMillan has had a considerable experience in telephone affairs, having been for some years the Manager of the Antigonish and Sherbrooke line. He will visit any locality where his service may be demanded, and help the farmers to organize and take advantage of the new Act.

Nova Scotia Bank Clerk Drowned

WINNIPEG, August 4.—J. V. Hiltz, accountant of the Royal Bank at Bethune, Sask., was drowned at Regina Beach on Sunday afternoon. He was twenty-seven years of age, and a native of Lockport, N. B. He formerly worked for the Royal Bank here. The body was recovered this morning and will be sent to his old home for interment.

Mr. Hiltz had been working in Halifax, although he had never worked in the bank there. He was a son of Kenneth Hiltz, of Lockport, and was transferred to Winnipeg some years ago from the Digby branch of the Royal Bank. He is survived by his parents and one brother.

Twenty-Five Years Ago.

[From the Yarmouth Times Files.]

A group of burglars who have been operating in New Brunswick were very busy in Digby. They broke into Rice's clothing shop and procured tools there, valued at \$5. They then went to a store and carried off \$150 worth of jewelry; broke into Edward Annan's shop, broke three holes in the top of the safe; in these holes something in the nature of giant powder was exploded and the door of the safe blown off. They found the safe empty. It is supposed the burglars arrived and departed by boat.

DIGBY WEEKLY COURIER

Digby, August 22, 1913

Death of W. T. Ford.

A FORMER EDITOR OF THE COURIER DIES IN HIS WEST.

Mr. W. T. Ford, who was editor of the *Courier* from 1891 to 1894, and who afterwards resided in Wolfville and other parts of the province, died in Vancouver on the 19th inst., aged 58 years. A few years ago he moved to Western Canada, taking up his residence in Calgary where he became interested in real estate and later in coal mining. His family also accompanied him west with the exception of his son Ernest who left here Wednesday for Calgary. When Mr. Ford became ill he went to the Pacific coast, but did not recover. He leaves a wife, two sons and one daughter: Harry, Ernest, I. and Maye. He is also survived by several brothers and sisters in the United States. The funeral took place last Sunday with interment in Calgary.

Williams' Freight Left the Rails.

Conductor Williams' westbound freight and accommodation train left the rails Monday morning at the points at the east end of Sault Ste. Marie. The engine passed the points all right but five freight cars were not so fortunate. A wrecking train was sent from Sault Ste. Marie to clear the line. Both Bluebonnet and westbound express were late arriving at Yarmouth. Very little damage occurred, the train having reduced speed for the purpose of stopping at Sault Ste. Marie station. Several of the passengers on the east-bound Bluebonnet returned to Yarmouth in the evening, fearing that they would miss the connection at Digby with the S. S. St. George for St. John. The S. S. St. George waited at Yarmouth for all the trains.

Victoria Rink.

TUESDAY NIGHT'S CARNIVAL LARGELY ATTENDED.

Nearly 800 people attended the masquerade carnival at Victoria Rink Tuesday evening. Only twenty-five, however, were in costume. The prizes were awarded as follows: Ladies' first, Billiard girl, Rona Torrie; said to be the best costume ever seen in the rink. Gentlemen's first, Uncle Sam, Freeman Raymond. Gents' comic, first, colored lady, Lee Devoe. Children's, fairy, Gladys Muise. Among the others in costume were: Soldier Boy, Josephine Buxton, Digby Courier, Minnie Torrie, Suffragette, Miss Wright.

The racing men over twenty was won by Arthur McNish, for boys by Lester Alcorn.

The ladies did not care to compete.

South End Lawn Tennis and Quoit Club.

The opening day of the Tennis Club last Thursday afternoon was a great success socially, and was the means of adding over \$10 to the funds of the Club. Quite a number of visitors at the different hotels attended, playing the game apparently to their enjoyment. At five-thirty o'clock tea was served by the ladies, after which play was resumed and continued until evening. It was proposed to have a match with the Bear River Club next Sunday afternoon, but a number of their players could not arrange to come down to Digby that day, so we will have to meet them at a later date.

The Bijou Dream Theatre.

Manager Cripps, of the Bijou Dream theatre, is certainly giving his Digby patrons good value for their money, having some specialty on nearly every night, and he also appreciates the big houses which greet his performers. Tomorrow night this theatre puts on the best show of the season, for besides the well known play entitled, "The Girl of Eagle Ranch," he will give the public three reels of pictures. We would advise both the tourists and the permanent residents of our town to secure their tickets to day at H. H. Hildworth's drug store, because "standing room only" will probably be announced by the time the show commences.

Died in the West.

A telegram received on Tuesday announced the death of E. V. Marshall, which occurred at Edmonton on Monday. The deceased, who was twenty-five years of age, was a son of Mr. Richard Marshall, of Hill Grove. He went west seven years ago, locating in Edmonton where he had made many friends and was highly respected by all who knew him. He leaves besides his aged mother, two brothers and one sister: H. H. Marshall, M. P. of Digby; L. B. of Hill Grove, and Annie in Digby. The remains will be brought home for interment in the Hill Grove Baptist cemetery.

The New Fast Service.

With the fast 22 knot boat St. George on the Bay route, passengers can now be landed in Halifax nearly two hours ahead of previous time made by the C. P. R. trains over the I. C. R. system. This means that 25 hours are leaving Montreal when we are safe in Halifax, after enjoying the finest runs on the continent. Montreal people are turning their attention to the Land of Evangeline as a summer resort.

Death of Capt. Ambrose S. Comeau.

Capt. Ambrose S. Comeau, one of Digby County's master mariners, died at his home in Yarmouth on Monday, 18th inst., aged sixty-one years and seven months. He is survived by a widow, four sons and one daughter and a large circle of relatives and friends. The funeral took place on Tuesday with interment in the St. Croix, R. C. cemetery.

At the Christian Church.

Mr. Wright is not going to the annual convention at Latete, N. B., as there will be preaching both morning and evening at the Christian church on Sunday.

Song service and Bible reading at 10:30. Communion service and preaching at 11:00. Evening service begins at 7:30. Cordial welcome to all.

Brought Home For Interment.

The remains of P. C. Horner (a brother of Principal Horner, of the Yarmouth Academy), who died in Albany, New York, on Sunday the 19th, arrived in Yarmouth Thursday morning and were interred in Mountain cemetery, Rev. C. T. Clark of Temple Baptist church, officiated.

The Toronto Exhibition.

A DIGBY FIRM SENDS A VALUABLE EXHIBIT.

The Digby branch of the Maritime Fish Corporation, sent a handsome exhibit yesterday to the Toronto exhibition. Besides having on display samples of the various kinds of fish which this company catch and prepare for market, they have sent to Toronto a miniature fishing dory, complete in every detail. This is the most beautiful 8 feet long, built by John Williams, of Shelburne, and is in proportion to a large trawl dory, used daily in the fishing business. It is fitted with miniature roller, trawl, anchors, warps and buoys. The two pairs of oars are 1 ft. 9 in. with three pins in proportion. The fitting of the gear for this boat was the work of Capt. Fred Prime and Mr. Angus Campbell. The trawl anchors, which weigh 14 lbs. were manufactured by Mr. B. A. Rooney. The whole equipment was under the supervision of Capt. Howard Anderson and when the captain pronounced her ready for shipment we can assure our readers that nothing was omitted from this piece of marine architecture which will attract so much attention in the city of Toronto or wherever it may be exhibited.

Another exhibit which the company is sending to the exhibition is a model of a modern fishing schooner of 130 tons. This was designed by Mr. McManus, of Boston, and built by the late Joseph McGill, of Shelburne, whose death occurred last week. Mr. McGill built four vessels from this model, all of which have proved very satisfactory.

She is 500 feet long, 9000 tons and carries a crew, including officers, of 135. She cost over a million dollars and is most expensively fitted up. She starts on her regular route to Jamaica, Colon and Port Limon tomorrow, Aug. 23rd.

On Friday the S. S. Manzanilla, of the Canada line and the Trans-Canada, of the French line, came into the port of New York after an exciting race across the ocean. The Canadian pushed Ambrose channel lightship just twelve minutes ahead of her famous French rival—pretty close sailing.

New Glasgow paper: Messrs. Fred White and W. Wetmore returned on Saturday last from an automobile trip along the Southern shore and through the Annapolis Valley, and report the outing as one of the most enjoyable of their lives. They did not have the slightest accident the whole way, not even a puncture and had beautiful weather. They found the best roads in Yarmouth and Digby counties, especially in Yarmouth County, and the worst piece of road was the first fifteen miles out of Halifax. The worst town street was the main street in Pictou. In Yarmouth and Digby Counties signs told the road and at the entrance to each town signs gave the legal rate of speed while there were also signs to warn of danger spots.

Bear River.

A PLEASANT TRIP TO BEAR ISLAND ON THE HARRY C.

(Written for the Courier.)

Nature has done much for Nova Scotia in the bestowal of magnificent scenery, but perhaps no spot appeals with so distinctive a charm, to the lover of nature as the town of Bear River. Well and aptly has it been named the Switzerland of Nova Scotia. It has a unique location, being built on hills, which slope in natural terraces to either side of the river whose name it bears. These terraces are adorned with an abundance of ornamental and fruit trees, through which the houses peep in a most entrancing way. From the hill on the Annapolis side, at night one is charmed with a most picturesque illumination. The lights gleaming through the foliage on the Swiss like terraces are duplicated in the still waters of the river, leaving a picture in the mind not easily forgotten. Varied and beautiful are the views one gets from different points in this lovely locality. The river itself is very beautiful, and affords much enjoyment to the pleasure seeker.

The writer remembers with keen delight the trips in Commodore Chute's commodious motor boat, when with the early tide, before the morning freshness had left the hill sides, we watched the churches, school, stores and wharves, swiftly and noiselessly left behind us, while we glide on to ship under the bridges and the long Digby Basin, on our way to Bear Island, a peerless place for picnics. A slip extending into the sea affords an easy and comfortable landing. That one is hard to please indeed who cannot spend a day of unrivalled pleasure in this ideal spot, a whole island at one's disposal to roam over shady retreats, tho' the summer sun shine never so brightly, yet no need to hurry, one can rest and read or meditate, gently sloping benches, affording good facilities for bathing, and last but not least, abundance of clams awaiting the digger, and who that has ever enjoyed a clam bake or chowder, on Bear Island Beach can ever forget it? Truly this place is the picknickers' Vallhalla.

Still further charms await us, tho' when the slanting rays of the western sun declare the hour for embarkation and home. If the sail in the morning sunshine was delightful, the return in the early twilight is sublime. Our boat glides over the smooth water, with the current between the piers of the great bridges, which guard the entrance to the river and look so sombre in the gathering dusk. Then out into the river where the reflection of the hills with their leafy foliage is flung far out, on either side, into the water, making, as it were, a pathway between, for our boat, which is hurrying on to meet the lights of the town and the rising moon, whose bright reflection in the river, brings vividly to one's mind the fancy of the poet, "Like a golden goblet falling and sinking into the sea." May the genial commodore carry many such parties to this lovely spot, one of the many in and around beautiful Bear River.

"ORANGE LILY SAVED MY LIFE"

These words or expressions having the same meaning are contained in hundreds of the letters I have received during the past year. Many were from women who had suffered agonies from falling of womb; others from women who had escaped dangerous surgical operations as the tumors and ulcers had been removed by the action of Orange Lily and others who had suffered from suppressed menstruation, leucorrhoea, painful periods, etc. For all these and the other troubles known in general as Women's Disorders, Orange Lily furnishes a positive scientific, never-failing cure. It is applied direct to the suffering organs, and its operation is certain and beneficial. A trial actually proves its merit. I hereby offer to send absolutely free a box worth \$1.00, sufficient for ten days' treatment, to every suffering woman who will write for it. Enclose 3 stamps. MRS. FRANCES E. CURRAH, Windsor, Ont.

KANSAS CITY, Aug. 10.—A bandit who boarded a Pullman car of the St. Louis and San Francisco passenger train known as the Meteor, at the Union Station here tonight, held up four of the passengers on the car soon after the train had left the Oklahoma and Texas. The robber escaped by jumping from the train.

The bandit had purchased railroad and Pullman tickets and entered the train as a regular passenger. The train had passed scarcely beyond the limits of the city, when suddenly the man stood up and flourishing a pistol, demanded that the other passengers on the car give him their money and valuables.

The passengers in compliance with his demand held up their hands and four men readily surrendered their pocket books containing \$100. The man evidently intended to rob all the passengers in the car, and probably had planned to enter other coaches, but he became startled when he discovered that one of the passengers at the end of the car had disappeared while his attention was concentrated on pocketing the money he had received.

Evidently believing that the train crew would rush in on him in a moment, the bandit backed out of the coach and hurrying through another car to the platform jumped to the ground.

The bandit, who was unmasked, was about five feet eight inches in height. He was well dressed in a blue serge suit and a new straw hat. There was a scar on the left side of his face which appeared to have been made recently. The bandit fired one shot in the air before he swung from the train.

Timely Discovery Prevented Wreck.

DORCHESTER, N. B., Aug. 10.—There was a narrow escape from being another wreck at Palmer's Pond here this morning. About ten o'clock Mr. Jerry Holland and Ralph Hewson, who were scouring the country for the escaped jail birds discovered that the railway bridge at Palmer's Pond was on fire.

The wind was blowing a gale and fanning the flames around the hard pine supports under the rails, destroying the sleepers. They got buckets as rapidly as possible and fortunately were able to extinguish the fire before any trains crossed the bridge. Several sleepers were considerably damaged. Mr. Holland reports that in a few minutes longer the top of the bridge would have been destroyed.

After using three packages, I felt relieved and continued until I had used five packages when a complete cure was the result after years of doctoring failed. GEORGE H. FLOOD, Agent, Dept. Marine & Fisheries, St. John, N. B.

If you intended buying a high class article would you buy something that you felt was all that it should be from a house little known, or would you prefer buying something about which you were not very well informed from a house in which you have the greatest confidence? Every careful buyer would prefer the latter instance of course. In the first instance if the article were worth while it would have been taken up by the big house, the house of experience, the house that has a high standing in the particular line in which the article is sold would not take it up unless it measured up fully to its high standard.

Now there is hardly a household in Eastern Canada that does not know the J. A. MacDonald Piano & Music Company, which has stores in Halifax, St. John, Moncton, Amherst, Sydney, New Glasgow and Glace Bay, and wherever that name is known it is associated with the best that there is in the musicware way.

That's the reason why music lovers have so much confidence in

Amherst Pianos and Amherst Player Pianos

they are backed by the house just mentioned. In other words here are new instruments built by men of wide experience, backed by a house that has the confidence of buyers. It's worth while finding out all about these instruments.

A splendid exhibit of these instruments will be shown at the Exhibition at Halifax this year.

To Our Friends and Neighbors

You know us. You know we would not — that we could not afford to — go back on our word. Nor can you afford to ignore this money-back-if-not-satisfied offer on this splendid laxative.

We honestly believe we have the best bowel remedy ever made — the most pleasant to take, most permanently beneficial, and free from the miseries and dangers arising from constipation.

We wouldn't say this if we didn't believe it to be true. We wouldn't risk our reputation by making such statements did we not feel sure you would find them true.

Our faith is built both on the knowledge of what **Regal** Orderlies are made of and on observation of very many severe cases in which they have proven their merit.

Try them at Our Risk

If they do not instantly prove their merit with you — if you are not entirely satisfied with them — we will refund your money — and we will do that on your mere say-so. We don't ask you to risk a penny. Isn't that fair?

Just let the bowels fail in properly doing their work — just let their action be delayed and incomplete and the entire system and every other organ suffers. Wastes that

should have been dispelled remain to poison the system.

Headaches, biliousness, nervousness and other tormenting and seriously are common when the bowels fail to act daily as nature intended. All this may be avoided, if you will accept our advice.

Regal Orderlies

taste just like candy. They are soothing and easy in action. They do not cause griping, nausea, purging or excessive looseness. They tend to tone and strengthen intestinal nerves and muscles. They promptly relieve constipation, and help to permanently overcome it.

Regal Orderlies promote better spirits and better health. In all of these things they are vastly superior to old-fashioned, harsh salts and other purgatives, which are not only unpleasant to take but which usually leave the bowels in worse condition than before. We particularly recommend Regal Orderlies for children, aged and delicate persons.

Regal Orderlies come in vegetable tin boxes, 12 tablets, 10c; 36 tablets, 25c; 80 tablets, 50c.

CAUTION: Please bear in mind that Regal Orderlies are not sold by all drug stores. You can buy Regal Orderlies only at the Regal Stores.

What This Sectional Firepot Means to You

The "Sunshine" has a straight-sided semi-steel firepot, extra heavily ribbed and made in two sections. The two sections allow for contraction and expansion — which prevents cracking. The heavy ribs and semi-steel give extra strength and added radiating surface. Ashes cannot adhere to the straight sides which assures an all-over clear fire. This means the greatest heat from the fuel consumed.

These are some of the advantages of the Sunshine Furnace. Our agent will be pleased to show you others, or write for booklet.

BANKS FOR POOR MEN

CREDIT SOCIETIES MOVEMENT GROWING IN QUEBEC.

Founder and Prophet of the People's Banking System on This Continent is H. Alphonse Desjardins of Quebec, Who Has Labored For Years in Behalf of His Pet Idea — is a Well-Known Journalist.

A most interesting and important movement for the benefit of the working class of every form of occupation has been going on for over ten years in the Province of Quebec, and is now making its influence felt not only within that province but in other parts of Canada and in the United States as well. This is the movement for the establishment of co-operative credit societies which began with the founding of "La Caisse Populaire," or People's Bank, of Levis. The movement is an adaptation to Canadian conditions of one form of the credit societies which have done more than almost any other one thing to save the common people of a number of countries of continental Europe from bankruptcy and despair.

The basis of credit in these institutions is the same as in well-conducted banks — personal character and an understanding that the money loaned shall be put to good, profitable use. The societies are absolutely co-operative in character, and to preserve that quality in its purity they are made closely and exclusively local. Each society is, in reality, a group of neighbors who know one another's character and affairs. The smallest savings — down to a five-cent piece — are accepted by the society, and loans are made of any sum down to a dollar. The borrower satisfies the society's committee on his good faith in the use of the money and his ability to repay the loan with interest, and the loan is made. So wisely has the movement been guided thus far that these co-operative institutions are able to boast that not one dollar of principal or interest has ever been lost. Their effect in promoting habits of thrift and industry among the people is beyond calculation.

The Levis institution, as the result of its twelve years of operation, has accumulated assets of \$200,000. Its loans represent a total of \$1,050,000. Public incredulity on the subject of this new system of banking was so general at first that it was not until the Levis bank was an assured success that others were willing to copy its plans. But now the movement is spreading with great rapidity, and especially so as economists and statesmen in America generally have noted this work in Europe and look to the Quebec exemplars of it to guide them in framing laws under which the system may be made to flourish generally on this side of the Atlantic. There are now 105 of these societies in Quebec, a number in Ontario. These societies this year will collect great sums in five and ten cent pieces, and will loan to their members probably as much as \$10,000,000 for use in productive industry in small ways.

The founder and prophet of this movement in America is Mr. H. Alphonse Desjardins of Quebec. Mr. Desjardins is now one of the official reporters of the House of Commons at Ottawa. He is a native of Levis and has lived there all his life, still maintaining his house there, though his duties keep him in Ottawa during the session. Beginning his career as a journalist, Mr. Desjardins filled responsible positions on leading newspapers of Quebec city, of which Levis is a trans-Atlantic suburb. For a number of years he was a colleague of the late J. Israel Tarte, recognized as one of the greatest journalists Quebec has ever produced. In graduating from journalism into "Hansard," Mr. Desjardins has made a step which nearly all his colleagues on the official reporting staff have made.

Over twenty years ago Mr. Desjardins took up the study of "People's Banks," and not only mastered the literature of the subject of "People's Banks," but he also corresponded extensively with the leaders of the movement in every part of Europe. Being assured by those best able to judge that he had acquired a complete knowledge of the theory, he called his neighbors together to set about the work of practical experiment. The result was "La Caisse Populaire de Levis," an extremely small and unassuming concern, but now flourishing, as just shown, and the parent of a great and growing brood. The "Caisse" opened its doors for business on the 23rd of January, 1901. The record of the institution shows steady progress, since at first, but now going on with a good swing. Mr. Desjardins was manager, and, by common consent of his associates, practically dictator in the business. His careful preliminary study had given him knowledge of the difficulties that were to be met and how to meet them. There has not been one serious hitch in the work of the society, and there has never been a time when Mr. Desjardins' associates were not perfectly confident that his management would prove successful.

From the first Mr. Desjardins has served without pay of any kind, and he has resisted even to the extent of threatening to resign — many attempts on the part of his colleagues to make some substantial acknowledgment of his services to the society. The detail work has been placed in the hands of a paid assistant, but Mr. Desjardins remains as manager without pay. At first, and for some years, he and his fellow-directors had to bear individually the responsibility for the society's money and the direction of its affairs, but a few years ago a law was passed by the Quebec Legislature under which these and other co-operative societies may be incorporated, thus relieving the officers of general responsibility.

Swat The Fly.

(Written for the Courier.)

Every almost known to science, Swat that fly!

Has been bought in bold defiance By the fly.

Then get busy with your swatter, Every mother's son and daughter And begin a wholesale slaughter Of the fly.

Are you spending your vacation? Swat the fly.

Or in need of recreation? Swat the fly.

When you're at break of dawn Ask no questions nor care, But before your clothes you don Swat the fly.

Whether filled with hate or love Swat the fly.

Though you're harmless as a dove Swat the fly.

If you care for home or nation, Save them from degradation, And with loud-voiced condemnation Swat the fly.

Whether you are old or young Swat the fly.

Whether you have brains or tongue Swat the fly.

Whether in the day or night, If you're blind or have your sight, Whether using left or right Swat the fly.

Strike him fair between the eyes, Knock the fly.

Then lamb to him till he dies, Kill the fly.

And lay him out upon the floor And leave him weltering in his gore, While you go out in search of more, Hunt the fly.

When Noah's ark was grounded, High and dry, Was Mrs. Noah hounded By the fly?

Yes, I think she must have fought him, But I wish that she had caught him, And had drowned or hanged or shot him, Shoot the fly.

AN IDEAL PERSONAGE.

I grow up under the influence of tales of western life. The desperado of the plains was to me a fascinating person, and the wicked he was the more I admired him. It is a curious psychological fact that wickedness is attractive because it is wicked. I question if young persons who enter upon a life of crime do not often do so from this motive.

As I grow older I began to lay plans for getting out to the wild west, not to make a desperado of myself, but to gratify my curiosity as to what the life out there really was, and after finishing my education I concluded to go to one of the territories, look about me and, if I found a place to suit me, settle and grow up with the country.

I selected Arizona, which has since furnished the scene of many novels and plays of western life.

I brought up in Cocconino county at a small town from which I proposed to make an observation tour through the surrounding country. I found the region much as it has been depicted in theatricals, barring the stage of feet. I got into a little play of my own, and it came very near being a tragedy.

I was riding through the country one day when I met a man on horseback, of whom I asked the way. He was a quiet, looking, quiet spoken young fellow and cheerfully gave me the directions I asked for. We were about to part when I noticed him looking at me critically. He seemed to be taking note of my height, weight, the color of my hair and eyes and the shape of my face.

"You look like me," he said. "Do I?"

"Except the clothes."

"I haven't got any Arizona outfit yet. If I stay here I'll probably adopt the costume of the country."

"I reckon we'll swap."

"Swap what?"

"Well, we'll trade hats first."

There was something in that cold gray eye of his as he spoke the last words that ended any enforcement of them unnecessary. Though they were a command, he did not even put his hand to his pistol. He carried also a pair of revolvers in holsters slung across his saddlebow, either of which he could have grasped and used long before I could have got my own revolver out of its case, cocked it and brought it to bear upon him. I understood that I was to change hats with him and taking off mine, handed it to him. Then I took off my coat and gave him that and such other articles of clothing as he demanded. Lastly, he called for my belt and pistol and gave me all his extensive armament in return. The exchange having been finished, he rode on.

Never in my life have I felt so contentible. I had submitted to his will without resistance, and now I was riding away armed to the teeth, while he possessed one small pistol that I had brought from the east and considered a plaything in Arizona without making any attempt to regain my own. Was it my being unused to the ways of the region I was in, or the domination of a superior will, or a feeling that my man would kill me as quick with my tiny revolver as with all the various weapons he had transferred to me? I don't know myself, but I suspect I was deterred from putting up a fight by all these reasons.

I rode on as mild mannered a man as the one I had met, but with weapons innumerable. What the fellow wanted with my clothes, why he had given me his arms, was to me an insoluble mystery. But it didn't require a long time to find out. After awhile I met several men riding on the road together. They were chatting and paid no attention to me till I came very near them. Then one of them looked at me and started. We made the usual salute of strangers meeting in a new country, and I thought no more of the encounter. But I had not gone fifty feet before I heard a sharp command from behind:

"Hands up!"

I put my hands above my head and waited. The men who had passed me returned and relieved me of my armament.

"Dead easy, wasn't it?" said one of them to the others.

"You bet. I never thought he'd be taken without blood spilling."

"My friends," said I, "will you kindly inform me what all this means?"

"And will you kindly inform us what you mean by being thus taken unawares?"

"I wonder if you don't think I'm some one else?"

"We don't think you're anyone. We know you're Jimmy the Kid," one of the most notorious desperados in Arizona, and we'll see that you don't do any more murders. What do you say, boys? Shall we string him up right here or take him in and let the sheriff do the job?"

I told them of the man I had met and how he had forced me to change clothes and arms with him. The story effected one of the three, but the other two laughed at it. Nevertheless since one of them doubted my identity the other two gave in and consented to turn me over to the sheriff.

Within an hour I was lodged in jail in a small town built on the bank of a

stream. The sheriff told my captors that I—or, rather, the man I had been mistaken for—was full of tricks and was doubtless now engaged in playing one of them. He would call the vigilance committee together and have me tried and hanged as soon as it could be reached. Meanwhile he thought I'd be safe in the stone jail back of his house. If I tried to escape he would save the committee the trouble. I heard him say this. Indeed, he intended that I should.

He soon left the place, and I gave myself over to thoughts of no pleasant character. If I made no effort to get out and away when the committee arrived I had every chance of being hanged, and yet I was appalled by his threat, but not so much so as to prevent my looking about for a loophole.

The jail was an old stone smoke-house, with a door made of iron bars. It was getting dusk when I saw a girl somewhere between fifteen and seventeen years old come out of the back door of the jailer's house and take up an armful of firewood. I called to her. She dropped the wood and came to the door of the jail.

"What d'ye want?" she asked.

"Have you any feeling?" I asked.

Instead of replying she stood looking at me, silent, and I went on. I told her my story as I have told it here and asked her if she could and would find a way to aid me to escape, assuring her that if she did not I would be sure hanged by mistake. I saw sympathy welling up in her eyes and had hope.

"I can't. Pop's gone to get the corn mitter, and maw she's gone over to Aunt Sarah's. Pop he's got the key of this door with him."

"How long will they be gone?"

"Maw she told me to get supper and have it ready at 8 o'clock. Reckon she and pop'll be home by then."

"Is there any one else in the house?"

"No."

There was a good hour in which to act. I asked the girl if there was a crowbar in the house. She didn't remember any such implement, but she thought one of the bars intended for the door of the jail was in the wood house. I asked her to get it for me. She started to do so, and it occurred to me that she would suffer by aiding me, and I called her back to ask her what they would do with her if they knew she had helped me to escape. She said she didn't know, but she wasn't afraid of her pop, though everybody else was. He wouldn't hurt her. Then she went on and brought me the bar.

I worked half an hour with it, prying and bending the bars of the gate near the lock, and at last succeeded in loosening the bolt from the catch. There was also a chain as an auxiliary, but with a thick bar six feet long I got a big leverage on it and broke it. Then I was free. The next question was what I should do to get away from the locality. Of course I would be followed.

"Got any horses here?" I asked the girl.

"Yes."

"A horse won't do. I would have to keep on open ground, where I would be seen and his hoofs would leave tracks."

"There's a boat. You might drop down the creek. Pop keeps a bloodhound in the barn to track folks with; he can't get the scent if you go by water."

"The very thing. No, that won't do either. The boat would be missed. But I'll take to the creek. How can I get out of here and do it without leaving tracks or scent?"

"I can carry you."

I looked at her. She was of good size and seemed strong. "If you can you will probably save my life," I said.

She turned her back to me, I put my arms around her neck, lifted my feet from the ground, and taking hold of my legs, she staggered with me to the creek, a distance of several hundred feet. There she set me down in the water.

"Goodby!" I said.

"Goodby!"

I drew her to me and kissed her.

"How would you like to go east to a school and grow up a lady?" I asked her.

Her face lighted up. "Can I go now with you?"

"No, but if I get out of this alive and the mistake is rectified I will write your father a proposition to do something for you to reward you for what you have done for me."

I held her hand and felt it turn in mine, indicating the emotion she felt but did not put in words. It was some time in releasing it, then waded down the creek, turning before coming to a bend to look back and throw her

a kiss. Her eyes were fixed on me when I disappeared.

I learned afterward that the jailer was completely baffled at the direction I had taken, since there was no indication of it whatever. I got back to where I was known and my recent jailer was notified that he had held the wrong person. "Jimmy the Kid," as the real desperado was called, was never captured, but he was shot when not suspecting an enemy was near.

My brief experience in the west with my previously admired desperado served to satisfy me, and I left by the first train for the east. The girl who I am almost sure saved me from a hasty execution is now at school in New England. She has been there two years, and you should see the change in her from the wild thing she was

Another Visiting Yacht.

The handsome and well kept power cruising yacht Shada arrived here Monday night with her owner, Mr. Daniel R. Sortwell, on board, and remained in port until Wednesday. The Shada is 30 ft. over all with a beam of 15 and has a draft of five feet. She was designed by Arthur Blinning, and built by Lawley & Son, of Boston in 1908. Her power equipment consists of Standard gasoline motors and she is fitted with all modern equipment. Her port of registry is Wiscasset, Maine. Mr. Sortwell is a member of several yacht clubs. The Shada was flying the Eastern burgee while in this port. Her owner and captain, and also a chief engineer, expressed their thanks for the use of the W. N. S. Y. C. house and landing slip while in Digby. This is their first visit here and they evidently do not plan for it to be their last. We can assure them that the officers and members of the local club will always be pleased to greet them along with the many other visiting yachts which have been in Digby since the organization of the W. N. S. Y. C. The Shada visited Annapolis Tuesday, being piloted up the river by Capt. Roland Wormell.

Driving Accident Sunday Night.

Mr. Douglas Russell's automobile collided with a team from Hayden's livery near Mr. Oscar Morgan's residence, Smith's Cove, about eleven o'clock Sunday night. The livery automobile were both badly damaged and the horse severely injured. Fortunately the occupants of both rigs were not slightly hurt but certainly had a narrow escape. The automobile was only partially lighted and the team had no lights. We have on several occasions caught our collars, warned autos and teams going without lights and also boats both running and anchored, on our Basin without lights. This has been the first serious accident on land in this vicinity and one on the harbor may be expected almost any dark night.

A number of beautiful hymns were well rendered, the music being far above the average. A vote of thanks was also extended Mr. G. D. Married at Salmon River.

A very pretty wedding occurred at St. Vincent DePaul's church at Salmon River, Tuesday, the 26th inst., when Miss Alice Doucett, daughter of Mr. and Mrs. Albert Doucett, of Mayfield, was united in marriage to Mr. Leo Deveau, son of Mr. and Mrs. Cyril Deveau of the same place. The bride was dressed in white embroidered lawn and wore a picture hat trimmed with white plumes. The bridesmaid was Miss Lizzie Doucett, sister of the bride, while Mr. Stillman Deveau, of Lake Umbagog, was best man. A dance and reception to nearly one hundred guests was held at the home of the bride. Many beautiful presents testified to the esteem in which the young couple were held. We wish them many years of happiness and prosperity.

He says that during a flash of lightning which pierced the intense darkness he could tell that the men were white, but thinks it would be difficult to identify them. He notified Chief Police Bowles yesterday morning, but the men by that time would have travelled considerable distance.

Export Crooks.

ORGANIZED BAND OF CRIMINALS THOUGHT TO BE IN ST. JOHN.

(St. John Telegraph.)

Word has been received here that an organized band of criminals have made their way to the city. Warnings have been received by several banks to be on the lookout. The police, likewise, it is understood, have received the warning. The incoming trains have been carefully watched each day, and the hotels have been under daily scrutiny, in an effort to get in touch with the "slick gentlemen."

Persons who have received the warning and have been following up the matter, feel sure that crooks are here, and for this reason everybody is advised to be on the lookout.

Recently several of the banks received letters in code to the effect that a band of expert crooks were making their way in the maritime provinces. This information, it said, was like wise communicated to the chief of police.

Women's disorders always yield from the very beginning of the treatment to the mild but effective action of Orange Lily. Within two or three days after commencing its use the improvement becomes noticeable, and this improvement continues until the patient is completely cured. Orange Lily is an applied or local treatment, and acts directly on the woman's organs, removing the congestion, toning and strengthening the nerves, and restoring perfect circulation in the diseased parts. In order to convince all suffering women of the value of this remedy, I will send a 25-cent box, enough for ten days' treatment, absolutely FREE to each lady sending me her address. MRS. FRANCES E. Cyclone Out Wide Swath at Sea BIG COAL UNLOADER, CORTING SIXTY THOUSAND DOLLARS, WAS WRECKED.

SAULT STE. MARIE, ONT., Aug. 22.—Struck by the full force of a small cyclone which cut a swath across the country last night and which heralded one of the worst electric storms in years, the new \$60,000 coal unloader, the construction of which had only been completed two hours previously, was blown down at the New Ontario Dock, and this morning is a worthless mass of fantastically twisted steel. By almost a miracle there were no fatalities.

A gang of five men was just about to approach the unloader when the recollection of the way in which the lightning played around the steel work in last week's storm promoted them to remain in the adjacent office until the storm was over. The unloader was of double tramway type and was one of the most up-to-date on the Great Lakes. With its great capacity it would have unloaded an eight thousand ton vessel in one day. Already there are a number of vessels coal laden, enroute from Eastern coal ports with cargoes consigned to the dock. At six o'clock, the construction superintendent said: "Well all you want now is to attach the chains and start work."

At eight o'clock when the first blow was struck, it tottered for a moment, divided in the centre and fell into the lake. The wind rushed over the dock tearing up trees in its way and consigning to the dock. At six o'clock, the construction superintendent said: "Well all you want now is to attach the chains and start work."

Plot to Blow up New York City Hall

THREE STICKS OF DYNAMITE FOUND
NEAR MAYOR GAYNOR'S OFFICE.

NEW YORK, August 20.—A deadly charge of dynamite—three whole ten inch sticks and two halves with a fuse and detonator—were discovered this afternoon near Mayor Gaynor's office windows in the City Hall. The Bureau of Combustibles found that the explosive was 40 per cent. dynamite, the regulation blasting properties, and the amount found, if exploded, would have wrecked the City Hall.

The Mayor was in his office when the dynamite was discovered by a citizen passing through City Hall Park. Mr. Gaynor evinced little interest when told of the explosive's proximity, and remained apparently undisturbed at his desk while police officers hurriedly drew a cordon about the dynamite to keep back an excited crowd.

Close to the explosive were several partially burned matches. The dynamite and fuse were wrapped in a piece of heavy cambric, secured by red and blue twines. The cloth was blue, with red and white figures, and resembled the flannel worn by Italian women of the working class.

The Bureau of Combustibles experts state that the only thing which prevented a disastrous explosion was the presence of a strip of cotton wool wound so tightly about the base of the fuse that a spark could not reach the detonator. An edge of one dynamite stick was slightly scorched.

America Cup Race Assured

NEW YORK YACHT CLUB HAVE SIGNED
ARTICLES FOR A CONTEST.

NEW YORK, Aug. 28.—Contracts between the New York Yacht Club and the Royal Ulster Yacht Club for next year's race for the American cup have been signed, sealed and delivered, and now nothing stands in the way of the contest. Official announcement to this effect will be made within a day or so.

The New York club is going ahead with its plans for the defense of the cup, an announcement will also soon be made as to the size of the boat which will meet Sir Thomas Lipton's seventy five footer, Shamrock IV, as well as the new owners of the boat or boats to be built to meet her.

That Lipton will be met with a yacht of the same size as his own, is believed, to be a certainty, and that there will be at least three yachts striving in trial races for the honor of defending is also practically assured.

"Fruit-a-tives" Cured Him

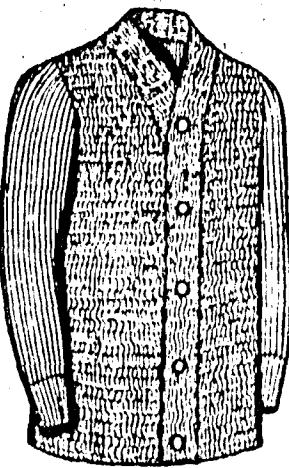

MCMILLAN'S CORNER, ONT.

SPT. 30th, 1910

"Your remedy, 'Fruit-a-tives' is a perfect panacea for Rheumatism. For years, I suffered distressing pain from Sciatica or Sciatic Rheumatism, being laid up several times a year for days at a time. I went to different doctors who told me there was no use doing anything—it would pass away. They gave me mustard plasters and other remedies that did no good. Plasters took no effect on me—except to blister me and make raw spots. I took many advertised remedies without benefit, but fortunately, about two years ago, I got 'Fruit-a-tives' and they cured me."

Since then, I take 'Fruit-a-tives' occasionally and keep free of pain. I am satisfied 'Fruit-a-tives' cured me of Rheumatism and they will cure anyone who takes them as directed. If this letter would be of value to you, publish it." JOHN D. McDONALD.

Banquet at Harbor View.

COMMODORE FRANK B. WITHERBEE, OF THE HARBOR VIEW RACING ASSOCIATION, THE HONORED GUEST.

(Special to the Courier.)

Commodore Frank B. Witherbee, of the Harbor View Racing Association, was given a dinner as a testimonial of good fellowship by twenty three of his associates and friends Friday evening, Aug. 22nd, at the Harbor View House. The covers were laid upon an anchor shaped table in the large new dining room, upon the walls of which was spread the flags of England and America and the Commodore's flag. The table was beautifully decorated with wild flowers. The placing of the flowers and their arrangement was the work of the ladies who occupy cabins beside that of Commodore Witherbee on "The Reservation."

The diners assembled in the hotel reception room at 8 p. m. After many hearty greetings Commodore Witherbee, upon the right of Mr. E. W. Ivins, the toastmaster, was led to the head of the table. Chaplain Brown asked that the food be blessed, and then Bo'sun Fred S. Little called the roster of the members. All answered and Bo'sun Little's announcement that the officers, able seamen and live ballast were on hand and that the dinner was ready to be served, the toastmaster, being in command for the time, replied "Let the dinner be served! Gentlemen, pray be seated," and the joyful evening began in earnest.

As Rear Commodore Cossaboon well knew that sailormen and land lubbers are most easily reached and satisfied by a good dinner, well served, he outdid himself and as chairman of the committee on edibles, provided a menu of most of the good things of the season.

But the real fun began with the coffee and cigars.

In a few words in which he set forth the affection of the association's members for Commodore Witherbee, the Commodore's fine sportsmanship and other mainly qualities, the toastmaster presented to the Commodore a compass as a token of the esteem in which he is held by all his friends. Commodore Witherbee's reply was most felicitous. His happy phrasing of his thanks will be long remembered by those whose good fortune it was to hear them, and by them he but the more endeared himself to all.

Regrets, by wireless, were sent by King George and President Wilson. These were read and then Chaplain Frank A. Brown spoke to the toast. "The Ladies—God's last best gift to man."

"As unto the ship the wheel is, so unto the man is woman—useless each without the other." Chaplain Brown spoke in a most entertaining and humorous strain for many minutes. And altho he did not take his subject any too seriously, all that he said was heartily approved of by the men at the table, and their wives and others for whom a gallery had been provided at one end of the large dining hall.

"The flag upon which the sun never sets" was the next toast. To this Rear Commodore Cossaboon most fittingly responded. His inimitable remarks, characteristic of his fine sense of humor, created great laughter and altho he was peculiar his respect for the flag never wavered for an instant.

Able seaman Neely spoke to the toast "The Joy of Living." The sentiment was—"Is there a man with soul so dead that he never to himself hath said 'Smith's Cove for mine?'"

Mr. Neely depicted the many pleasures of Smith's Cove, and after having told of his trout trip, from which he had returned just in time for the dinner, all were ready to start right back to the woods with him even tho' the hour was late.

Then Bo'sun Little read an historical sketch of the Racing Association's patron saint, one Lee Scuppers, a notorious sailor man who had sailed the seven seas, also the Royal Spanish Main, likewise the Carribees, where he filled his chest with Spanish gold and plate. Lee then returned to London town, married a buxom widow Brown and began a voyage on the sea of matrimony with the newly made Mistress Scuppers at the wheel and Lee before the mast.

The absent members were toasted. "God Save the King," and old "Lang Syne" were sung and the evening then passed into the Land of Happy Memories.

Those who showed their appreciation of Commodore Witherbee in the above manner were Vice Com. Shipman, Rear Com. Cossaboon, Fleet Capt. Lord, Bo'sun Little, Chaplain Brown, Chairman of Regatta Com. Chard, Able seamen Neely, Byrne, Sherbourne, Duggott, Tripp, McKinnick, Dodd, H. Browne, T. Browne, Chase, Cossaboon, Mount, Adams, Morris, Werlick, Howe, Ivins.

A HIGHLY RESPECTED RESIDENT OF TIVERTON PASSED AWAY, AUG. 28TH.

(Special to the Courier.)

"Uncle Wesley" was well known in this county and province and with his good nature, kind hearted way, made many friends. He was a member of the Christian church, being baptized many years ago. He leaves to mourn their loss a widow, two sons, Mr. Hiram Outhouse and Mr. Arthur Outhouse, Tiverton; two sisters, Mrs. Weltha A. McKay and Mrs. Mary E. Big Wheat Crop.

WINDSOR, Aug. 26.—In my judgment the wheat crop of the three prairie provinces will average twenty bushels to the acre all around. Some crops we saw would easily go 25 or 28 and even higher.

"A point I wish particularly to make clear is that the crop will bring more money to the producers than did last year. There has been no damage, the quality will be excellent and the weather is ideal. I look for our wheat to grade high this year, and I am not alone in this opinion."

So says Nicholas Bawlf, of the Bawlf Grain Company.

Mr. Bawlf is the dean of the grain trade. He was one of the founders of the Winnipeg grain exchange and has been some thirty years in the grain business in the city. No man in the West is better able to form a judgment on crop conditions.

Church Badly Damaged.

LANTOR UPSET AN OIL LAMP AND TRIM FLAMES VERY QUICKLY SPREAD.

YARMOUTH, August 25.—The Methodist church at Hebron was badly damaged by fire on Saturday night. The janitor was trimming the lamps about eleven o'clock and accidentally upset a lighted one in the auditorium near the head of the basement steps. The burning oil ran down into the basement and the flames took hold of the dry wood. Only strenuous efforts saved the church. The damage is very serious, but is covered by insurance.

The janitor, Samuel E. Bain, was burned about the hands and his son, John Bain, was seriously burned on the hands and arms. Mr. Long had a hand almost cut in two by a sheet of falling glass.

Forest Fires Raging in the Vicinity of Weymouth.

OBSCURE CARELESSNESS AND DOWNRIGHT STUPIDITY ON THE PART OF A FEW, PLACE THE COUNTY IN A DANGEROUS SITUATION.

On Friday last, a fire was started at what is known as Wagner's Corner, about four miles from Weymouth. This fire was started by a certain party for the purpose of clearing land. By noon the fire had gotten away and travelled one and one half miles long, and about two hundred yards wide. Two homes were saved from complete destruction by a change of wind, which sent the fire roaring away in green timber burning on several parties land. About 4 p. m. word came to Weymouth for help, and a drove up to the scene of the fire with one of the firm of Campbell Lumber Company. To our great surprise we saw on each side of the road, or better known as Wagner's Settlement, that another fire had been started, always with the idea of clearing land.

It seems a pity that such unpardonable carelessness should be left alone in its work of destruction. This last fire was not very bad in its own way, but let a spark fly and away goes the fire taking in Danvers, Riverdale an immense tract of splendid lumber. Mr. Douglas Campbell, jr., who was with me, at once hired some men to attend to the fire and kept it from spreading, and we then started for home. When we reached the old Blacksmith Shop, we were surprised to find that a fire had been started of fixing a cart wheel, had not been put out, and we saw glowing embers scattered in front of the old shop waiting for one puff to start havoc in the neighboring woods.

Now, we have seen the effects. Let us trace up the cause of this and suggest a few remedies. But, before doing so, I must say that there is no another fire, New Tacket, started by the same reason of clearing up land. This fire is the worst one and will do a lot of damage. Now someone is to blame for each of these fires, let them be careful less the law is put in force.

Now I will trace up the cause and suggest some remedies.

1st. Carelessness on the part of the people.

2d. Lack of anyone to enforce the law.

3d. Insufficiency of Fire Rangers, and lack of authority on their part to order a fire out, or to have men to work for them. As far as Forest Fire Rangers, there are not enough of them.

Our own Fire Ranger is at present fighting fire in the woods back of Bent River, so that nobody here seems to know what to do, and a lot don't seem to care.

The remedy to this would be mounted police to patrol the County, and whenever they see a "clearing fire" started, have it put out. Let them have real authority to enforce the law, and it will not be long before this fire danger is disappeared. Lots of people blame the sportsmen and tourists for these fires, but I do not doubt but some are started by them, but in these three cases it is the county people that are to blame. Now for a mounted police, why not have one in this province as well as in the West? We need it just as badly and the fear of the patrol which might turn the corner at any moment, would stop this fire danger very quickly.

The lumbermen pay heavy taxes for useless fire protection. Let this police force have the power of the Fire Ranger and make use of it and everything will go on smoothly.

I see by the daily papers that fires are raging throughout the province. Why will not the attention of the Government be called and see what can be done to remedy the present position. As far as the present fire law is concerned it is absolutely useless. The Fire Rangers work hard and do their part, and our own men here is as good as can be had, but he cannot fight fire in three places at once.

Let the people wake up to this fact, and let responsible men take the lead, and see if they cannot have the Government to organize an efficient police force and put an end to the trouble.

HENRI AD STEELIES, Weymouth, N. S., Aug. 26th, 13.

Militant Suffragettes.

DELIVER IN LONDON THAT THEIR WILL BE PEACE FOR A TIME.

LONDON, August 25.—Rumors which have been current of a truce between the militant suffragettes and the British government seems to find support in a letter written today by Mrs. Emmeline Pankhurst, the suffragette leader, to her followers advising them to take a holiday for the present. She says:

"I am gathering up strength for a renewed battle when the holiday season is over. I hope that every one of you will also take advantage of the present lull in political activity to take the rest and change you have all so richly deserved."

Another indication that an agreement has been reached is the cessation by the authorities of the enforcement of the provisions of the "Cat and Mouse act." Out of forty-three suffragettes sentenced to imprisonment for various offences, only one is now in jail. Most of the rest of them are following their ordinary avocations and no attempt is made to restrict them.

It is widely believed that Mrs. Pankhurst has at last agreed to a truce in order to strengthen the hands of those members of the British cabinet who are working to make the enfranchisement of women a government measure.

Truro Fire.

TRURO, N. S., Aug. 20.—The Truro fire brigade had a stubborn fight this afternoon with a fire which started in the upper part of the section of the old Truro station house occupied by John M. O'Brien, as a restaurant, and living apartments for his employees.

The blaze started near the chimney which ran up through the roof from the kitchen. The fire department turned out quickly and fought the fire with much energy. It took two hours to conquer the outbreak. The result of which is a loss of about \$500 to the building and upwards of \$1,000 dollars to the occupants.

Charged With Fox Stealing.

PORTLAND, Me., Aug. 25.—Lemuel K. Oughlin, who was detained by the police last night at the request of a Prince Edward Island constable, who had a warrant charging the larceny of a pair of breeding black foxes, valued at \$10,000 each, was released today.

In the custody of the chief of police and the county attorney, there was insufficient evidence to warrant holding the prisoner.

\$30,000 FOR FOXES.

Seven Were Caught In Far North by Indians and Sold for \$1,500.

Seven little black fox whelps, with an option over their heads of \$12,000, and with another offer for their purchase of \$30,000, made since the option was filed, were brought into Edmonton the other day and the owner, S. A. Bentley, is watching them like so many nuggets of gold.

These little aristocrats of the fur-bearing tribe, were purchased by Mr. Bentley from a half-breed, who took them from their den at the head of the Loon river which is located north of the Wabshaw lakes and some 340 miles by way of the summer trail northwest of Edmonton.

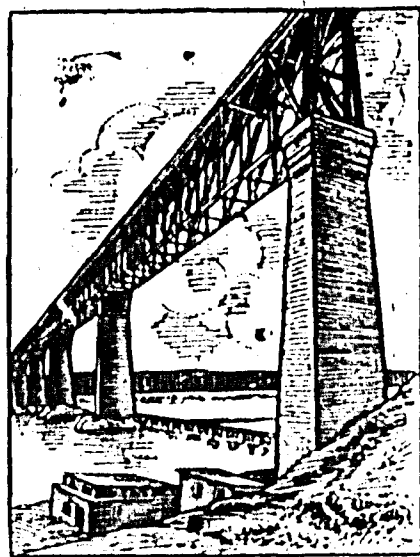

An old-timer of the north, and a man speaking fluently almost every Indian language and especially the Cree, Mr. Bentley is naturally very much acquainted with the Indians of the north, and it was while trading with them that the information that a half-breed had found the den, and that the seven baby foxes were in his possession became known. The time was not long before Mr. Bentley located the man, who, when offered \$1,500 for the little tribe, gladly accepted the sum without further parley.

The litter now takes the form of a party of expensive guests. Expensive indeed to the owner, for the little aristocrats are far from being like the ordinary fox, they must be fed on young spring chickens, costing in the neighborhood of a dollar apiece; no cast-off meat or trimmings are by any means good enough for them.

They are said to be about 60 days old, and each carries a hide approximately one and a half square feet in size, being worth \$1,715. That is at the rate of \$12,000 for which the option was taken, but since then a sum of no less than \$30,000 has been offered by a Prince Edward Island breeder for the little tribe. This offer was made about twenty-four hours after the option had been filed.

The trip down from the north was one, the like of which Mr. Bentley had never experienced before. The foxes in a crate, the food upon which they were to be fed, besides all the other necessary articles of a north country pack he carried upon his back, traveling for the greater part over muskox country. The little animals had at all times to be fed on fresh game, and this no matter how difficult, had to be procured.

It can be well imagined that it was with relief Mr. Bentley arrived in Edmonton.

Clergymen Honored.

At the recent convocation of Victoria University, the degree of D.D. (honoris causa) was conferred on two distinguished clergymen, Rev. Geo. H. Bridgman, M.A., D.D., L.L.D., and Rev. J. J. Ferguson, M.A., B.D.

Dr. Bridgman is a Canadian, who, after his graduation at Victoria in 1864, served the Methodist Church in his own land for nine years, and then transferred his activities to New York State, and was appointed president of the Genesee Wesleyan Seminary at Lima. After ten years in charge of this seminary, he was elected in 1883 president of Hamilton University, St. Paul, Minn. He found this university in a struggling position, and, when he resigned recently, he left it in an assured position.

The other recipient of this degree is the Rev. J. J. Ferguson, B.D., who graduated from Victoria in the faculty of arts in 1886, and in the faculty of theology in 1896. He has been stationed among other places, in Strathville, Davisville, Weston, Bracebridge, Alliston and Orillia, and is now in charge of Epworth Methodist Church, Toronto. He has served as chairman of the district, delegate to general conference. Mr. Ferguson has been pre-eminently a pastor, a man of solid character and trained intellect. His many friends will be pleased by this honor paid him by his own college.

Large Eagle Caught.

The first bald-headed eagle seen in the Bay of Fundy in many years was captured alive the other day on the farm of William Peacock, Louth Township, just west of St. Catharines. Several chickens had been missed of late on the farm, and a trap set with a dead chicken as a bait caught the bird, which weighed sixteen pounds. The eagle's mate was seen when the captured bird was taken from the trap, but it soon disappeared in a southerly direction.

The bird was taken to St. Catharines and was secured by Proprietor Russell of the Ellis House.

Buttermilk Best.

Experiments by the poultry department of the O.A.C. with Buff Orpingtons, Rhode Island Reds and White Leghorns showed that buttermilk produced the most and cheapest eggs, while no animal food in all instances gave the best eggs for hatching.

Death at Ashmore

The death of Mr. Bennett, 14th ult., at the home of his parents, Mr. and Mrs. G. Dexter Davis, Ashmore, after a lingering illness. The deceased was in his 31st year. Ten years ago, while residing near New Brunswick, he suffered a severe accident, from the effects of which he never recovered. During these years he suffered intensely, seeking in vain for medical assistance in hospitals in Massachusetts and Halifax. A year ago last April he returned to his home and had been confined ever since until his demise. He was survived by his parents, three brothers and one sister, in his immediate connection. The funeral services, conducted by Rev. Wm. Nesbitt, were held on Saturday afternoon, from his late residence, and were largely attended. The interment took place in the family lot in the Weymouth North Baptist cemetery.

Wedding Bells at Weymouth North

A very pleasant event took place Tuesday, Aug. 26th, at the home of Mr. and Mrs. Jesse Barr, when Mr. Cecil Saboun, of New Brunswick, and Mr. George Hutchins, of Rossy, were united in marriage by the Rev. H. L. Kinsman. The bride, looking charming in a traveling suit of blue cloth. She was attended by Mrs. Jesse Barr, while Mr. George Davis, of Ashmore, acted as best man. The party was beautifully decorated with the occasion with potted plants and ferns. After the ceremony was performed a bountiful supper was served to a few relatives and friends. After staying a week at Ashmore and Weymouth North, Mr. and Mrs. Hutchins left for their future home, "Rose Cottage," Rossy, Digby county.

Verdict in Ernest Ross Drowning

The inquest held at St. John before Coroner D. E. Barryman, into the death of Ernest Ross, of Digby, who was drowned from a drifting scow in the harbor some weeks ago, was concluded in the court house Friday night when the jury brought in a verdict that the young man came to his death by accidental drowning by falling from a scow owned by the Boston Griffiths Dredging Company. That there was insufficient life saving appliances for the scow. The jury also strongly recommended the scow of two men on these scows when the weather conditions were such as on the day that Ross was drowned.

Valuable to Fishermen

Mr. Torrie, fishery officer in Digby county, is now receiving daily bulletins concerning the bait on the North shore covered by two New Brunswick over-seers from across the Bay. This information is posted in front of the government building in Digby and telephoned to the principal fishing villages, such as Westport, Freeport, Tiverton, Little River and Centerville. This service is greatly appreciated by the boat and vessel fishermen and shows that the government is deeply interested in their welfare.

From the Yarmouth Times News: Repairs to the Digby post were completed. These repairs were of such a nature as to admit the steamer "Secret" and New Brunswick going on at all times of the tide instead of transferring passengers by tug and scow.

An inquiry was held at Antigonish to the loss of the Bear River tug "Lucy C." The board was unable to state if any person was to be held for the loss.

Labour Day passed off very quietly in Digby. It was observed as a general holiday. Many of the yachtsmen enjoyed themselves on the water. Picnic parties were numerous.

Digby experienced, for a few nights and mornings this week, the first dense fog of the season which not only "rattled" but southered the amateur yachtsmen but bothered old-time navigators as well.

Owing to the windy weather which prevailed Saturday afternoon during the month of August, the series of Swampscott dory races under the auspices of the W. N. S. Y. C. was not completed.

Mr. A. J. Westhaver, proprietor of the Digby Meat Market, has installed an oven in his business establishment on Water street and in the future will be able to supply the public with bread.

Mr. Geo. Jacobs, of the construction department of the Maritime Telegraph and Telephone Co. Ltd., with his foreman, Mr. Geo. F. Patrick, and a crew of thirteen men, are making extensive improvements to the company's lines in Digby, more particularly of which will appear later.

The S. S. Yarmouth, of the Bay route, flies the C. P. R. flag instead of the D. A. R., having been taken over officially last Monday. Her officers and crew will soon wear the same kind of uniforms as those on the S. S. St. George. These boats are now managed from Montreal instead of Kentville.

(Yarmouth Times News.)

The Rev. Dr. Bond officiated at the marriage at half past six o'clock last evening in Crafton street Methodist church, of Mildred, daughter of Mr. and Mrs. John D. Fraser, 21 church street, and Harold Blackadar, of the firm of Ryan and Blackadar, druggists, Weymouth.

Miss Fraser, who is an unusually attractive girl, has a host of friends in Digby, and Mr. Blackadar is also well known, so that exceptional interest is felt in the wedding, for which the church had been beautifully decorated with palms and ferns mingled with flowers.

The organist of the church was in attendance.

The bride, who was given away by her brother, Hugh Fraser, was attended by Miss Bertha McKenize as bridesmaid, this young lady's costume being of yellow crepe silk with over dress of pink and white Dresden nixon. Her hair was styled in wavy ringlets with pink trimmings. Her bouquet was of sweet peas.

A winsome little maiden in the person of Miss Margaret Fraser, niece of the bride and daughter of Thomas Fraser, E. Moncton, attended as flower girl, wearing a dainty frock of white with touches of blue and carrying forget-me-nots.

Russell H. Fraser attended as best man.

In performing the ceremony Dr. Bond was assisted by Rev. E. B. Moore. The ushers were the bride's cousins, Gerald E. and J. Earl Fraser.

The ceremony was followed by a reception at the residence of the bride's parents, Mr. and Mrs. Blackadar, leaving by the Plant Line for E. Moncton and New York. The bride's going away gown was of blue cloth, and worn with blue hat with ostrich plume.

The collection of wedding gifts was a large and valuable one, the groom's gift to the bride being a pearl pendant and to the bridesmaid a cameo ring.

Among the out of town guests here for the wedding were the groom's mother and sister, Mrs. Wallace Blackadar and Miss Ruth Blackadar, Weymouth, Mr. and Mrs. W. S. Fraser, New Glasgow, Mr. and Mrs. Glenford Hatfield.

The Bijou Dream

Manager Crispin has secured two excellent programmes of pictures for tonight and Saturday night at the Bijou Dream theatre, Digby, as will be noticed by our advertising columns. Tonight's "Shylock" in two reels is a beautiful set of pictures, also "In Old Quebec" and "Put Yourself in their Place." Saturday night's programme is sufficiently local to draw a big crowd of Digby people. Halifax, Moncton and Quebec views are sure to be a splendid feature and we know that "Bunny's Honeymoon" will alone be worth the price of admission.

For the Bowels

If you only know as much as we and those who have used them know about Rexall Orderlies, you would be as enthusiastic about recommending them as we are. They taste just like candy. They act so easily and so pleasantly that the taking of them is a pleasure.

Even children like Rexall Orderlies, and you know that if a medicine appeals to a child, it will appeal to grown-ups.

Rexall Orderlies

help chase gloom, dispel blues and make you feel happy by their splendid tonic, cleansing and strengthening effect upon the bowels. They act to free the system and keep it free from the distress and ill feeling that naturally results from irregular and inactive bowels.

Rexall Orderlies do this quickly, without griping or causing nausea, purging or excessive looseness. They act to overcome and remove the cause.

CAUTION: Please bear in mind that Rexall Orderlies are not sold by drug stores. You can buy Rexall Orderlies only at the Rexall Stores.

BEAR RIVER, N. S. Telephone Connection

Powerful Wireless Plant.

S. S. TENDONORS OF THE UNITED FRUIT CO. HAVE AN EXTENSIVE EQUIPMENT.

(New York Herald.)

What officials of the United Fruit Company declared was the most complete and up-to-date wireless apparatus ever taken out of this port on board any steamship left here yesterday on board the *Tenadores*, of their line, bound for South American ports. The *Tenadores* under command of Capt. Porter, is making her first trip in the company's service after her arrival from England, where she was built. She is a sister ship to the *Pastores*.

The main set is of two kilowatt power and is supplemented by a one kilowatt set. Both sets can be run either by the ship's dynamo or by storage battery power. This is the first time that any steamship has carried battery power sufficient to work its main set, most of them having but a small spark coil for auxiliary work.

The receiving set, according to representatives of the Wireless Specialty Apparatus Company, of Boston, Mass., who constructed it, is of extreme sensitivity, and is built upon the same lines as the set in the *Herald* wireless station and installed by the same company.

The storage battery on board the *Tenadores* is also powerful enough to run emergency lights in the corridors and over the life boats in case of accident.

The United Fruit Company, unlike many other lines, maintains its own radio service and owns and operates its own plants, not depending on the rented service of a wireless company. The sets are composite, representing the best of several wireless apparatus companies.

The *Tenadores* sets, like those on the other vessels of the line, are constructed with a view to communicating with its own land stations. The high wave length of 3,000 metres enables them to keep in constant communication with their own stations without interfering with other commercial service. Needless to say, the sets can also be run on the regular commercial wave length of 400 metres.

The officials of the line say that no effort has been spared to make their radio service a valuable accessory to their service. Not only do the new sets come up to the requirements of the Department of Commerce and Labor but they exceed the government requirements in all ways. The *Tenadores* sets will have an average range of 1,000 miles.

Sunday School Convention

The annual county Sunday School convention will meet this year at the Baptist church in Burton on Friday, Sept. 12. Services: morning, 10 o'clock; afternoon, 2:30 o'clock p. m.; evening, 7:30 o'clock p. m. Dr. Brown, the local secretary, who has just returned from the world's Sunday School Convention at Zurich, Switzerland, will be present and other ministers from the county. We have never succeeded before in paying our County Apportionment, which is \$70, but this year, thanks to the liberal and prompt offerings of the Sunday Schools, \$85 has been paid. At the district conventions this spring it was seen that some of the work was being neglected or not developing as it should be, so I am asking all officers of the County Sunday School, superintendents and teachers, to be present if possible. It is hoped the convention will be largely attended and an interest shown in the work as the Sunday School is the church's greatest help and hope and we hope this year that Digby will be placed in the list with the banner counties.

COUNTY SECRETARY.

Will Advertise Nova Scotia.

Advertise Spectator I. Paul Yates was in town on Tuesday. Mr. Yates has on hand some work of much interest to all Annapolitans. He has been commissioned by the Department of Education for the State of New York to make views of Annapolis Royal and other historic and beautiful parts of Nova Scotia. The teaching of history, geography and the industries of a country is now done in New York by what is termed visual instruction. The views are made up into slides and the school children are enabled to see the workings of another country in that manner. Mr. Yates is to be congratulated on landing this large order and the people of the province are to be congratulated on this securing so much valuable advertising. While in town Mr. Yates made several pictures for the Nova Scotia Clay Works.

Last of Half Holidays.

Friday closed the half holiday season for the Annapolis merchants, as September ushers in fall trade. The manner in which every merchant has held to the closing agreement is worthy of note. Friday afternoons have been well kept as holidays by all and it is hoped that the summer closing will again be in force next season.

"Yes, Mr. Bulkin," she replied, "but some of the back numbers of yours appear to be missing!"

Centerville.

Several teams from various parts of Digby county have with their teams temporarily taken up their abode in Centerville to haul rocks for the ballasting of the new breakwater. At present there are teams from Sea Wall, Bear River, Roxville, Mink Cove and Waterford expected daily. It is estimated that it will take from twenty to twenty five thousand cubic yards of rocks to complete the ballasting operations. These rocks, if put into a wall four feet high and two feet thick, would extend from Digby to Centerville, or would cover a surface of nearly ten acres three feet thick.

We regret to announce the death of Mrs. Graham, widow of the late David Graham, which occurred at the home of her son Charles on Wednesday last, Aug. 27th, at the advanced age of ninety four years. The deceased lady had been an invalid for the past six or seven years, having broken one of her thighs from which she never recovered. She leaves five sons, Tuttle, Robert, Charles, who reside in Centerville, and Solomon and Delaney, who are in Saskatchewan. The remains were interred in Centerville cemetery on Friday, Aug. 29th. We beg to offer our sincere sympathy to the family of the deceased.

On Wednesday last, Aug. 27th, a very severe thunder storm passed over Centerville which lasted from morn until well into the night. During the storm the barn of Mr. Embrace Morehouse was set on fire by lightning, and with most of the contents, was destroyed. The barn contained several tons of hay, various farm implements and seventy or eighty lobster traps. Much sympathy is felt for Mr. Morehouse whose loss, which is not covered by insurance, amounts to upwards of four hundred dollars. A fund has been organized to recoup Mr. Morehouse and anyone desirous of subscribing should send their subscriptions to Mr. James Cossaboom, Lakeside, Centerville.

Bay of Fundy League.

WYOMOUTH HITS ST. JOHN.

[Saturday's St. John Telegraph.]

A large number of spectators gathered on the Barrack green yesterday to witness the final match in the Bay of Fundy League, when the Weymouth club lined up against the St. John Cricket team. The game was fast from the outset and showed clever playing on both sides. Owing to the length of time taken to play through the first inning, the second inning was eliminated and the score made during the first half recognized as conclusive.

The score at the end of the inning stood 138 to 7 in favor of Weymouth. The game started at 12 o'clock and concluded at 7 in the afternoon. The St. John lost the toss and were forced to bat. The first two batters, Bradbury and Tucker, did splendid work, and in the first wicket tallied 30 scores. The rest of the team were not able effectively to cope with the bowling of Jones and Campbell, of the Weymouth team, and failed to register any considerable counts. The inning ended with a total of 77, Tucker having the highest aggregate of scores with 21.

Weymouth sent Jones to bat who found the ball easily and scored freely. His work was the feature of the game and elicited continued applause. His teammates were always on hand to assist him in his work and contributed much to the winning of the game. The ending was with a total of 138 scores for the Weymouth club.

It is possible that the outcome would have been different had it not been for the loose fielding of the St. John team, who dropped many costly flies at the most critical moments, and showed at times lack of union in play.

The Weymouth men are being congratulated on their splendid showing which gives them the honor of being champions of the league. They have won nine straight games and claim the honor of never falling in defeat since the organization of their club some two years ago. The team lined up as follows: R. Jones (Capt.), Rev. Mr. Taylor, J. Boyd McNeill, J. McNeill, H. Reul, Chas. Oliver, H. Hallowell, Melvin Oliver and Chas. Ruggles.

A New York Letter.

To the Editor of the Courier.

DEAR SIR:—The COURIER reaches me with clock like regularity, and its weekly visits are greatly appreciated. From its columns I gather all the news of local interest to me. I read with pleasure the particulars of every day, but was sorry to learn that the usual contact between the "Lutz" and "Smart" was omitted. Pleased to learn that the new steamer for the St. John Digby route far exceeds expectations. No doubt as the O. P. L. people develop their plans, greatly improved transportation facilities will be in evidence all along the line.

The close of August witnesses the return to this country of thousands who have been spending the summer in various places and with the advent of September the schools open, business takes on a more active form and a general start is made on the fall and winter work. The different teachers and other resorts which have been patronized by hundreds of thousands of people will soon be deserted and pleasure seekers will turn their attention to the theatres and other places of amusement. August has been a very warm month with frequent showers which has in a measure offset the unusually dry weather of the previous months. Prices of all kinds of farm produce are very high, whilst meat has soared to a dizzy attitude. The high cost of living is still the leading question with the American people and how to reduce it seems to be beyond the ability of their greatest statesmen. Congress at Washington is making slow progress with the tariff revision and we have to wait for some time yet to ascertain what relief that will furnish.

The Mexican question created some anxious thought for a period but at this date it seems to be nearing an amiable settlement.

Considerable interest was created when Harry Thaw, who had been an inmate of Matteawan Asylum in New York State for the past seven years in connection with the killing of Stanford White in the Madison Square Roof Garden, was reported to have escaped.

Shortly after, the news of his arrest and detention at Sherbrooke, Quebec, was received, and the contention between the authorities of the two countries over his return to the United States being chiefly followed. Particular interest has turned in the direction of Evelyn Nesbit Thaw, who was Thaw's wife when he was incarcerated. She is now filling an engagement at Hammerstein's Theatre, 123d St. and Broadway, New York City.

A drawing card from the first day, she is much more so now, and on Wednesday last, when your correspondent was in the theatre, she was occupied and hundreds were standing. Evelyn and Jack Clifford came on the stage and gave what was called an exhibition of modern ball room dancing. She is undoubtedly very pretty, and her movements very easy and graceful. It is said that she is very anxious to have Harry returned to his old quarters at Matteawan, considering him to be a dangerous man if liberated.

The conflict between Murphy and Sulzer over the Governorship of New York state is still on, the latest report given out is, that the Sulzer party propose to indict Murphy and some of his friends for corrupt practices in connection with the state lotteries.

The most amusing, and to an outsider the most ridiculous, political complication is developing out of the Mayorality contest in New York City. The Fusionists, representing the best elements of both parties, selected a ticket, naming John P. Mitchell, at present collector of the port of New York, for Mayor, also naming the present District Attorney, Whitman, for the position of city clerk, and two gentlemen McAneny and Prendergast for other offices. Tammany selects Edw. E. McCall for Mayor and endorses Whitman for District Attorney. The Independent Democrats nominate the present Mayor, Gaynor, for Mayor and endorse the nomination of McAneny and Prendergast for the offices assigned to them by the Fusionists.

Whitman has accepted the nomination of Tammany and the other two gentlemen the endorsement of the Gaynor party. As the chief object of the Fusionist party was the overthrow of Tammany power with all its evil practices, and Whitman to be its chief spokesman, it can be readily seen that Tammany built with joy the action of Whitman. And the Gaynor party are equally happy over the course pursued by McAneny and Prendergast. Meanwhile Theodore Roosevelt endorses the Fusion party and deprecates any alliance with Tammany. Whilst Hearst, of the New York Journal is out against McAneny and Prendergast whilst supporting Mitchell. And the largest newspaper list ever known was discovered during the night to be on fire. Why should any other cereal be called "just as good" as

Kellogg's CORN FLAKES

Because Kellogg's is known to be the best and most nutritious cereal on the market—

Because the sale of Kellogg's Corn Flakes is enormous as trade returns will show—

Because another large modern factory, the best and most sanitary in Canada had to be built to take care of our constantly increasing trade—

Because the imitator, knowing these facts and having few selling arguments for his own product thinks to create a market for it by comparing it to Kellogg's:

A BIRTHDAY REVIEW.

Canada Has Just Double Population In 48 Years.

The Dominion of Canada was 40 years old on Tuesday, July 1. In 1873 it consisted of the Provinces of Upper and Lower Canada, New Brunswick and Nova Scotia. Its population was approximately 3,400,000. To-day it embraces the whole of the mainland of British North America and Prince Edward Island, and its population is 7,204,838—an increase of over 100 per cent. in a little over forty years. The Sisterhood of Provinces has been increased, since 1867, by the creation of Manitoba, the admission of British Columbia and Prince Edward Island, and the creation of Alberta and Saskatchewan. The Dominion now consists of nine provinces and several territories, its actual area being 3,729,665 square miles.

When it came into being, its population was made up chiefly of French and English-speaking people, several tribes of Indians and a few small settlements of half-breeds. To-day it is a cosmopolitan household and its population is representative of every nation under the sun. In recent years hundreds of thousands of foreigners—men and women of every race and clime and tongue—have been brought to Canadian shores by a tide of immigration that apparently is yet far from its flood. Happy and contented these one-time aliens now are in their new homes in the "Land of the Maple." They have put their shoulders to the task of nation-building and they are courageously and perseveringly working for the development of their adopted country. Much of Canada's future greatness will no doubt be directly traceable to their earnest, patient efforts.

This year the tide of immigration moving towards Canadian shores is higher than ever. Thousands have already entered the Dominion, thousands are now on the high seas, and thousands more will set sail for Canadian ports before the summer is over. Last year a high-water mark in the matter of immigration was reached, but all records are expected to be broken this season. It is estimated that nearly 400,000 will enter the Dominion during the fiscal year 1913-14.

For the fiscal year 1911-12, March 31 to April 1, the year for which figures are obtainable, there arrived in Canada from foreign countries over 82,406 immigrants; from Great Britain 134,121; and from the United States 133,710—a total of 354,237.

Of the overseas immigrants 95,107 were English, 1,699 were Welsh, 32,988 were Scotch, and 1,450 were Irish. Eighty-six came from South Africa, 266 from Australia, 4,871 from Austria, 143 from Bohemia, 324 from Bukovina, 288 from Croatia, 38 from Dalmatia, 1,694 from Galicia, 424 from Hungary, 13,346 from Rumania, 1,601 from Belgium, 3,294 from Bulgaria, 9,347 from China, 1,077 from Holland, 9,064 from France, 4,960 from Germany, 314 from the West Indies, 9 from Bermuda, 765 from Jamaica, 7,590 from Italy, 765 from Japan, 2,598 from Newfoundland, 61 from New Zealand, 6 from Portugal, 5,060 from Poland, 19 from Persia, 793 from Roumania, 9,605 from Russia, 1,646 from Finland, 191 from Serbia, 629 from Denmark, 205 from Iceland, 2,894 from Sweden, 1,692 from Norway, 632 from Turkey, 60 from Armenia, 144 from Syria, 2 from Arabia, 3 from Hindustan, and 3 from Mexico. In addition to these, 5,222 Hebrews, 24 Doukhobors, and 138 negroes entered the Dominion. From Continental centres 82,406 immigrants were received, an increase of 15,746 over the total of the previous year; from the United States 133,710, an increase of 12,569, and from the British Isles 134,121, an increase of 15,108, a grand total of 354,237 and a grand increase of 43,513 persons. Of the 354,237 immigrants, 211,366 were men, 82,922 were women, and 60,049 were children. 76,512 of the males were general laborers, 19,088 were mechanics, 11,802 were clerks, 4,860 were miners, and 11,879 were not classified. Of the women 10,774 belonged to the farm laboring class, 6,676 to the class of general laborers, and 7,718 to the mechanics' class.

Scriptures in Parliament.

Parliamentarians are not always adept at quoting Scripture. For instance, Hon. W. T. White, in criticizing the Liberal naval policy, described it as being "like the image seen in his dream by Belshazzar, principally brass, but with a touch of clay." "Belshazzar or Nebuchadnezzar?" queried Mr. Archie McCol, of West Kent, who, by the way, is a good Presbyterian.

But the Minister of Finance heard or heeded not. He continued to tell the House about Belshazzar and his dream. One of Mr. White's colleagues, Hon. Robert Rogers, missed a Bible quotation at the next sitting. "My honorable friends opposite," said Mr. Rogers, "should remember the scriptural injunction: 'When I became a man I put away the things of a child.'"

Equally amusing was the comment of Mr. W. F. Carroll, who urged his political opponents to take note of the Biblical words: "To thine own self be true, and it must follow as the night the day, thou canst not then be false to any man."

"What part of the Bible?" enquired Colonel Hugh Clark, another Presbyterian.

Mr. Carroll was not abashed. "Some honorable members of this House," he retorted, "seem to have never read their Bible, and I am afraid never will."—Canadian Courier.

None For Canada.

An Imperial Motor Transport Conference is to be held soon in London under the auspices of the Royal London Automobile Club. One topic of discussion is the problem of military transport in time of need. Hon. Colonel R. Hughes' reply to a question on this matter was to the effect that the Canadian Department of Militia could not ask the manufacturers for a special type of military transport. In time of need a conscription of commercial vehicles would provide a suitable form of transport adapted to the roads and bridges of the country.

Concrete is the best building material

A BROAD statement—Yet literally true. The aim of man from the beginning has been to make his building materials as nearly like natural stone as possible. The great labor required to quarry stone led him to seek various manufactured substitutes. The only reason he ever used wood was that it was easiest to get and most convenient to use. Wood is no longer easy to get. Like most building material, its cost is increasing at an alarming rate. The cost of concrete is decreasing. So, from the standpoint of either service or economy, concrete is the best building material. Canada's farmers are using more concrete, in proportion to their numbers, than the farmers of any other country. Why? Because they are being supplied with

Canada Cement —

a cement of the highest possible quality, which insures the success of their concrete work. The secret of concrete's popularity in Canada lies in the fact that while we have been advertising the use of concrete, we have also been producing, by scientific methods, a cement so uniformly high in quality that the concrete made with it gives the complete satisfaction our advertisements promised. Concrete would not have been in such universal use today, had an inferior grade of cement been supplied. Instead of getting Canada Cement, it is your best assurance of thoroughly satisfactory results from your concrete work. There is a Canada Cement dealer in your neighborhood.

Without this label it is not "Canada" Cement. Write for our Free 100-page book "What The Farmer Can Do With Concrete"—No farmer can afford to be without a copy.

HOW THIS WOMAN FOUND HEALTH

Would not give Lydia E. Pinkham's Vegetable Compound for All Real Medicine in the World.

Utica, Ohio. "I suffered everything from a female weakness after baby came. I had numb spells and was dizzy, had black spots before my eyes, my back ached and I was so weak I could hardly stand up. My face was yellow, even my fingernails were colorless and I had displacement. I took Lydia E. Pinkham's Vegetable Compound and now I am stout, well and healthy. I can do all my own work and can walk to town and back and not get tired. I would not give your Vegetable Compound for all the rest of the medicines in the world. I tried doctor's medicines and they did me no good."—Mrs. MARY EARLEWINE, R.F.D. No. 3, Utica, Ohio.

Another Case.

Nebo, Ill.—"I was bothered for ten years with female troubles and the doctors did not help me. I was so weak and nervous that I could not do my work and every month I had to spend a few days in bed. I read so many letters about Lydia E. Pinkham's Vegetable Compound curing female troubles that I got a bottle of it. It did me more good than anything else I ever took and now it has cured me. I feel better than I have for years and tell everybody what the Compound has done for me. I believe I would not be living to-day but for that."—Mrs. HETTIE GREENSTREET, Nebo, Illinois.

Morgan Concerns Quits New Haven Road.

LINE HAS KILLED 73 IN TWO YEARS.

NEW YORK, Sept. 5.—J. P. Morgan & Company have served notice upon the New York, New Haven & Hartford Railroad Company of their intention to end their connection as fiscal agents of the road. This notice was made public today by the New Haven's executive committee. The committee authorized the president to install, without stint, safety appliances and signals to ensure the safety of passengers.

The wreck of the Bar Harbor express on the New Haven road Tuesday is one of the most disastrous that road has experienced since 1853, when forty six persons lost their lives in one accident. This catastrophe occurred on May 6. An east bound train ran off the drawbridge at Norwalk (Conn.), and the locomotive, two passenger cars and a part of the third were submerged in fifteen feet of water. The draw was open to permit the passage of the steamer Pacific, which had just gone through. The width of the draw was about sixty feet, and the speed of the train was such that the engine nearly leaped the opening, striking against the wall on the opposite side.

Another disastrous wreck on the New Haven road was that of July 12, 1911, when the Federal express took a switch too fast at Bridgeport, killing fourteen persons.

Six Generations at 92.

A remarkable fact has been discovered in connection with the life of the late Mrs. John Calcutt, who passed away in Strathroy, Ontario, recently in her 92nd year. The old lady had the unique distinction of becoming a great great grandmother, her children and grandchildren, extending into the sixth generation. Six generations within a period of ninety-two years is surely a record breaker, and it is doubtful if it can be equalled anywhere in this country.

London, Ont. Rector Dead.

LONDON, ONT., Sept. 5.—Rev. G. B. Ward, rector of the Anglican church, died at Victoria Hospital at noon today. He was in his 61st year and was one of the best known clergymen in the diocese.

"Maw," said the Billyville youngster, "I want to be a legislator like daddy." After a moment's reflection, the mother said: "Better wait awhile, honey, till he makes something like a record."

Two weeks before his father was to return in figuring his profits since the old man's departure, Isaac Mayer noticed that they were \$4,200 more than those of the previous six months. He determined to strain every nerve to make up the remaining \$800.

A few days later a gentleman who, from his appearance might have been an English marquis, stepped into his store and asked to be shown some bracelets. The stranger's daughter was with him. She examined the jewels with her father and it was evident that any purchase he might make would be for her. She wished a bracelet set with a ruby between two large

diamonds, worth \$6,000, but her father was unwilling to spend so much money for her in this way. Mayer heard her appeals and the reply of her father, who told her that if certain securities he had ordered sold in London in case the market price on the Stock exchange should rise to a certain figure had been realized upon it would have given him a profit three times the cost of the bracelet and he would gladly buy it for her. Instead he purchased one she fancied, set with a sapphire, worth \$150. Drawing a check book from his pocket he wrote a check for the amount, saying that he would send some one, in whose knowledge of gems he had confidence, to look at the setting, and if he pronounced the sapphire genuine. Mayer was to send the bracelet to his hotel. The seller would have ample time to discover if the check was good.

The next day a man came into the store, looked at the bracelet, pronounced it genuine, the check was found to be good, and the bracelet was sent to the customer's hotel.

A few days later the stranger's daughter entered the Mayer store, evidently in very high spirits, and told Isaac to send the bracelet she had coveted to her father at his hotel. "The shares have been sold," she exclaimed, bubbling with excitement. "Papa got a cablegram from London this morning."

The girl was very pretty and very charming in her frankness. She couldn't wait till the bracelet had been sent home, but must have a look at it. When it was being shown her she manifested a great deal of trepidation lest the purchase should be delayed pending the sending of funds from London. Another thing that troubled her was that her father had once bought a jewel and an inferior article had been substituted on delivery. She feared there would be a lot of red tape about that. Isaac assured her that all would go satisfactorily if she would be patient, and she departed apparently somewhat comforted.

The same afternoon Isaac took the bracelet himself to the stranger's hotel. He found the gentleman somewhat indisposed, which was given as a reason for not going to his store instead of requiring him to come to his hotel. The man who had pronounced on the sapphire was telephoned for and was sometime coming. Meanwhile Isaac was entertained by the young lady very agreeably. He took occasion to pump her about her father's antecedents, his home and affairs in England and other matters in order to satisfy himself that his customer was a gentleman from whom he had nothing to fear. She ingeniously told him many things that gave him confidence.

When the expert came in, he examined the bracelet with great care, using a microscope for the purpose, and when he had done so said to the Englishman:

"These stones are genuine and worth the price asked for them. But one thing I wish distinctly understood—I am approving them, and them alone. If in this transaction you come into possession of similar stones of less value don't blame me. That is your lookout and not mine."

At this the young lady looked troubled and her father seemed puzzled.

"I was caught that way once," he said, "and will never be so imposed upon again. Let me see." And he appeared to be thinking of some plan by which he might feel sure he would get the article he paid for. "The trouble is two sided," he went on presently. "I don't ask Mr. Mayer to trust me any more than I am willing to trust him. It is a purely business transaction. If I had the price of the bracelet right here in gold coin and could exchange the bracelet for the gold we would both be satisfied. Unfortunately I must wait for funds to be cabled from London, which will require several days. I fear we shall have to go over this inspecting again when my funds arrive."

"I shall not be here to make it for you," said the expert. "I am leaving to-morrow to be gone for some time."

The girl looked ruefully at Isaac as if to say, "I told you so; I shall never get my bracelet."

"I can suggest a way out of the matter," continued the expert. "Seal the bracelet in the box in which it came to you with your seal. Let Mr. Mayer take it back to his store and keep it till you are ready to pay for it. Then break the seal yourself and you may be sure you have the gems I have pronounced upon."

"That's a good idea," said the Englishman. "I will not claim the bracelet till my check for it is pronounced good. Would that satisfy you, Mr. Mayer?"

"Perfectly," said the jeweler, secretly hoping that the funds would arrive and the sale be effected before his father's return. There was \$900 profit in it, and Isaac needed the amount to make up the \$5,000 excess he desired to show during the old man's absence.

Meanwhile the box containing the bracelet had been passing from one to the other of those present. At Isaac Mayer's assent the Englishman took it from his daughter. Mayer, who was keeping an eye on it, glanced at it as it passed from father to daughter and, though they were at some distance from him, saw the lid go on the box containing the bracelet. Wax was produced and the box sealed with a ring the purchaser wore on his little finger. Then it was handed to Mayer, who very happily over the sale, withdrew.

Several days passed, and nothing more was heard of the Englishman or his daughter. Isaac sent a clerk to the hotel to ask after them. He came back with the information that they had left town the day the sale was made. Isaac made a jump for the safe in which he had placed the bracelet, broke the seal, took off the cover, and there nestled inside was the bracelet he had sold for \$150. He had been victimized to the amount of \$5,850.

Less than a week Nathan Mayer arrived from abroad and instead of finding a hearty welcome from his son was received with a lugubrious countenance.

"What's the matter, Isaac?" he asked quickly. "Anything gone wrong?"

Isaac told the story of how he had been victimized with a hanging head.

"Well, my boy," said the old man, "you've learned what I have long known—that it takes a lot of experience in the jewelry business to keep out of the toils of sharpers. You'll make it up some day. Don't worry about it now. I've just got home and have invited some friends I met abroad to dine with us. Don't put a damper on the dinner by mourning over your loss."

This did not comfort Isaac, but he managed to get into dinner dress to help entertain his father's friends.

What was his astonishment when he went from his room down to the drawing room to see the Englishman and his daughter who had swindled him. On a table lay the bracelet they had made away with.

"This is my friend. Mr. Ackerman of London," said Nathan Mayer, "and Miss Ackerman. You've met before, eh? Well, you must forgive your old father for playing a trick on you. I laid the plan myself. We talked it over in London, and they, coming over ahead of me, carried it out beautifully."

Miss Ackerman advanced, smiling, put out her hand to Isaac and grasped his warmly.

"Forgive me," she said.

"If I had to be swindled," he replied, "I would prefer to be swindled by so charming a young lady. I must compliment you on your ability as a deceiver."

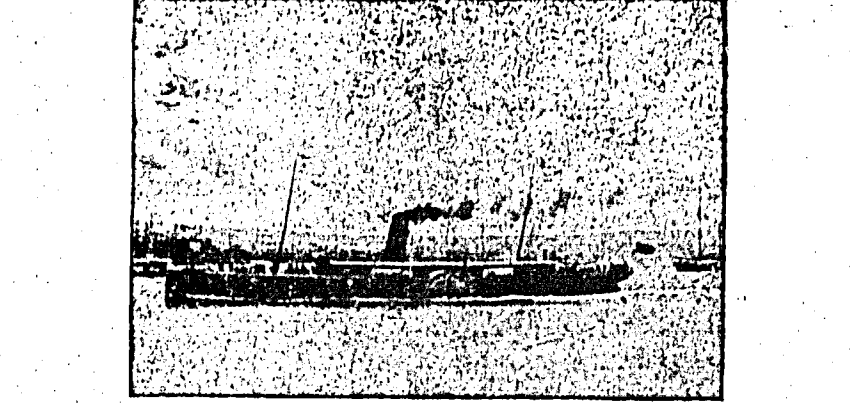

"You mean as an actress," said Mr. Mayer, Sr.

THE PRINCE RUPERT SOLD

Long Time in Bay Service, Will Plough Waters of the West Indies

The steamer Prince Rupert, for some years in the Bay of Fundy service between St. John and Digby, has been sold to West Indies interests. H. C. Groat, of the C. P. R. has received a telegram from D. McNicoll, vice-president of the C. P. R., confirming the sale.

A representative of the purchasing company, Mr. Whigan, of Cuba, has been in St. John looking the steamer over, and he recommended that the purchase be made. The deal was put through Friday in Montreal and it was said in the telegram received by Mr. Groat that the transaction called for immediate delivery.

S. S. PRINCE RUPERT

The Prince Rupert has rendered excellent service during the time she has been on the route, but has given away to the up to date and speedier steamer "St. George." The headquarters of the company making the purchase are at San Diego, and it is the intention to have her engage in local service in the West Indies.

The C. P. R. have completed arrangements as regards the taking of the steamers on the bay service now, and as we reported last week, in addition to the St. George the steamer Yarmouth is flying the company's flag. A McGregor, who has had his headquarters at Yarmouth, will in future direct the affairs of the company in connection with the Fundy service from St. John. He will take up his location in the city at once.

Acquiring Experience

"My son," said Nathan Mayer, a jeweler, "I am getting old and have decided to give up my business to you. I shall leave enough capital with you to enable you to carry the same amount of stock I have always carried. Before turning over the management, however, I desire that you prove yourself fitted to assume it."

Wrecked at Point Prim

SCH. AGNES G. DONAHUE, WKST ASHORE TUESDAY MORNING AND IS A TOTAL LOSS.

Sch. Agnes G. Donahue, Capt. Kalor, with brick from Annapolis for St. John, was wrecked off Digby, got underway at 6:15 Tuesday morning and endeavored to beat out Digby Gut on the first of the ebb tide. She became unmanageable in the big rip caused by the fresh north west breeze which prevailed and after getting safely around Lighthouse Point drifted ashore just west of Point Prim about 4 a. m., where she soon became a total loss, the seas making a clean breach over her during the northerly breeze which continued until yesterday morning.

The officers and crew were soon rescued by the life boat Daring in charge of Capt. John W. Hayden and crew from the Bay View Life Saving Station who made a heroic rescue in the surf.

The hull and cargo were both insured and the underwriters' agent, who arrived here Wednesday from St. John, ordered the vessel stripped and employed a large number of men, on commission who have been working faithfully to save everything possible.

The Agnes G. Donahue is a vessel with a history. She was seized several years ago by the Argentine Republic charged with fishing inside of the limit on the South American coast. Judge Pelton, of Yarmouth, then a barrister, was sent by the Canadian government in the interest of the owners and soon succeeded in obtaining her release. She was built in Lunenburg in 1883 and sailed from that port, although at one time her managing owner was Sprott Balcom, of Victoria, B. C. She was 90 feet long, 21 feet beam, registered 90 tons and was a handsome and well-built two mast schooner.

Birthday Celebration

PREPARED'S MOST AGED RESIDENT PRESENTED WITH A PURSE OF GOLD.

A number of relatives and friends gathered at the home of Mrs. Matilda Haines on the evening of Sept. 2nd, to celebrate Mrs. Haines' ninetieth birthday.

Among the out-of-town guests were her son, Mr. Rowland Haines, and wife of Dorchester, Mass., and her grandsons, Mr. Clarence Haines, and wife of Milton, Mass.

Refreshments were served and the climax of a delightful social evening with the "old home folks" was reached when Mr. Rowland Haines, in the name of loving relatives in Massachusetts, presented his mother with a purse of gold.

Mrs. Haines is a remarkable woman for her age. Except for a slight deafness her faculties are unimpaired and she is quite able to walk for a considerable distance. She enjoys the distinction of being the oldest resident of Freeport. Many friends, not able to meet her on her birthday congratulate her on the attainment of this memorable occasion.

Married in Yarmouth

[Yarmouth Times] At 2:30 on Monday afternoon Providence church was filled to overflowing with interested friends and a large number of invited guests, the occasion being the marriage of Miss Louise Stacy Potts, second daughter of Mrs. J. Furman Ehrigott, to Mr. Rodney Vernon Saunders, of Regina. Long before the hour of the ceremony the church was filled. Messrs. Ormsby and Frank Rogers, Curtis McKay and Ralph Harding ushered the guests to their seats, the dainty frocks and picturesque hats of the ladies together with the black and white garb of the men, making a striking appearance. Charming all brides are, but this bride was charming in every sense of the word. She wore the regulation white satin train, with veil and orange blossoms and carried a huge bouquet of roses. Her girlish beauty was commented on by all. She was given away by Mr. Ehrigott, and her sister, Miss Dorothy Potts, made a very pretty bridemaid wearing pale pink satin trimmed with swansdown and a very fetching mesh cap of pink. Her bouquet was of pink roses. The groom was supported by the bride's brother Joseph Potts, of Chicago. Rev. Mr. Crowell, pastor of Providence church, performed the ceremony and Mrs. Crosby (Miss Mildred Butler) presided at the organ, playing appropriate music throughout the ceremony. The friends of the bride had decorated the church most effectively with arches of golden rod, star flowers and ferns. The young couple stood under a beautiful floral bell. After the ceremony the bride and groom drove to the home of the bride's mother, Mrs. Ehrigott, where a sumptuous collation was served, after which the happy young couple received the congratulations and good wishes of their friends. The popularity of the bride was manifested by the beautiful gifts bestowed upon her. The groom presented her with a valuable ring. To the bridemaid he gave a crescent pearl pin.

Mr. and Mrs. Saunders, accompanied by Mr. and Mrs. Joseph Potts, left last evening for a few days in a summer cottage near Tusket, going thither by automobile. They intend making their future home in Regina and will be followed by the best wishes of a host of friends for every happiness and much prosperity. The out of town guests at the wedding included Mr. and Mrs. Fessenden and daughter, Mount Vernon, and Mrs. L. F. Saunders, the groom's mother from Sandy Cove, Digby Co.

The groom is well and favorably known in this county being a son of the late Capt. L. F. Saunders, of Sandy Cove.

Mr. and Mrs. Saunders will spend a few weeks at his old home prior to their departure for their western home.

—The financial meeting of the Annapolis District of the Methodist Church was held at Clementsport on Tuesday afternoon, Sept. 9th. The chairman of the district, Rev. L. Daniel, presided. The financial statement of the different circuits was carefully considered and arrangements made for an exchange of pulpits in connection with the temperance and moral reform work of the church.

In the evening a public service was held in honor of the fiftieth anniversary of the opening of the Clementsport Church. A good congregation was present. The pastor, Rev. C. W. Porter-Shirley, read several letters of congratulations from former pastors after which eloquent addresses were delivered by Revs. J. A. Smith, of New Brunswick, and Wm. Nightingale, of Weymouth. On Wednesday morning a splendid service was given in the church by the ladies of the congregation, after which some pleasing addresses were made by the ministers and also by W. V. Vroom and W. C. Jones E. Quirke.

There is more Catarrh in this section of the country than all other diseases put together, and the last few years have been unpropitious for its cure. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. "ORANGE LILY SAVED MY LIFE"

These words or expressions having the same meaning are contained in hundreds of the letters I have received during the past year. Many were from women who had suffered from falling of womb, others from women who had escaped dangerous surgical operations, as the tumor and uterus had been removed by the action of Orange Lily and others who had suffered from suppressed menstruation, leucorrhoea, painful periods, etc. For all these and the other troubles known in general as Women's Disorders, Orange Lily supplies a positive and certain never failing cure. It is applied direct to the suffering organ, and its operation is certain and beneficial. As a trial actually proves its merit, I hereby offer to send, absolutely free, a box worth \$2.00, sufficient for ten days' treatment, to every suffering woman who will write for it. CORRESPONDENCE.

A Great Need.

To the Editor of the Courier

SIR:—Permit me a little space in your columns, to enlighten your readers as well as the public in general about a most pressing need that is making itself felt every day. I mean the need of a shore line of railway, if not from Digby, at least from Weymouth to Yarmouth. Times may have been when the present line was, or was supposed to be, all right, but now things have changed. Our forests are all devastated, and the bulk of the trade is carried on the shore route. Here in Clare, all of our rising industries are near the shore. We have a creamery at Saint-John's, another at Meteghan which are doing good work and promise good returns. We have a flour mill at Meteghan Centre that will soon be in operation. Meanwhile our farmers all along the shore are increasing their output and it there were a line of railway near the shore, it would be a great boon to them. We need it in Clare, and the C. P. R. should be urged upon to consider the matter of changing their route, or else have an electric line. We possess water power enough to operate such a line, and moreover we could also light our buildings with electricity. Every leading man should not only talk, but should put his shoulder to the wheel and assist such a patriotic enterprise.

Thanks, Mr. Editor,
CLARE.

Freeport Wedding.

CAMPBELL—HAINES.

On Wednesday afternoon, Sept. 3rd, at 2 p. m., at the Freeport Baptist church, Eunice Winifred, daughter of Mr. Milton Haines, Freeport, N. S., was united in marriage to Andrew Graham Campbell, M. A., formerly on the teaching staff of the University of Chicago. The ceremony was performed by Rev. F. H. Eaton, pastor. The bride was becomingly attired in a gown of ivory satin, draped with broad silk and shadow lace; she wore the customary veil and orange blossoms and carried a bouquet of white roses. She was attended by her cousin, Miss Leah Haines, who wore a pretty gown of pale pink satin, trimmed with lace. Mr. Ralph Haines acted as best man; Miss Evelyn Haines as organist and Messrs. Hilborne Crocker and Bernie Blackford as ushers. The church was beautifully decorated by the young friends of the bride, with evergreens, goldrod, fern and potted plants. After the ceremony about fifty invited guests were present at the reception held at the home of the bride's parents. The happy couple received many useful and handsome gifts of cut glass, silver and linen. A silver tea-service presented by the church and a cut-glass bowl presented by the members of the choir, showed appreciation of service as organist. The gift of the groom's father was a substantial cheque. The groom's present to the bride was a necklace set with pearls to the bridesmaid, a bracelet set with amethyst and pearls to the organist, a bunch of gold and to the best man gold cuff links. After the reception Mr. and Mrs. Campbell went by auto to Digby. The bride's travelling suit was of brown cloth with hat to match. After a few days spent at St. John and Quebec, they will take passage for Liverpool on the S. S. Virginian of the Allan line. They intend spending the winter in Paris and London, making a visit to the home of Mr. Campbell's relatives in the suburbs of London, returning home in June 1914. All join in wishing them a pleasant voyage and a long and happy wedded life.

"Just as Good as Ever"

H. PRICE WEBBER AND COMPANY PLAYERS TO HIS HOUSE.

The New Glasgow Evening News says: "Just as good as ever" was the universal verdict of all those who saw Price Webber and his talented company at the Academy of Music yesterday afternoon and evening. To all appearances "time lies lightly on his brow" and he is just as pleasing today as he was 25 years ago.

In the afternoon "The Hidden Hand" was played to a large audience and in the evening "A Queen for a Day" was greeted by a bumper house. His shows are very clean and all objectionable features are conspicuous by their absence. His comedy is rich and sparkling and all the performances have a good dramatic strain from start to finish.

Before closing last night, Mr. Webber made a speech in which he thanked his audience for their patronage and applause. He then became reminiscent and told of many unique and funny instances during his 38 years on the road. Mr. Webber's every appearance was greeted with applause and he is assured of a crowded house every time he comes this way.

[The above company will appear in the Bijou Theatre, Digby, Monday evening Sept. 22nd.]

Automobile Accident.

JACKSON, Mich., Sept. 5.—Harry Endicott, of Anderson (Ind.), brother of "Farmer Bill" Endicott, the noted automobile racer, and Mary Suratt, of Jackson, a 10-year-old spectator, were killed and three persons injured here this afternoon when Endicott's automobile, hurtling around the track, crashed through a fence after one of the front tires blew up.

The injured are George Benedict, of Los Angeles, who was acting as Endicott's mechanic; Mrs. Mabel Walters, and Francis Hall, thirteen years old, both of Jackson. Benedict's condition is in doubt. Neither Mrs. Walters nor the Hall girl was seriously hurt.

Endicott was driving a 10-horse power Cutting car, preparatory to an exhibition race against Benedict here tomorrow, when the accident occurred.

Canada Has Made a Hit.

OTTAWA, Sept. 5.—Hon. Martin Burrell, minister of agriculture, returned from his Old Country tour today.

Speaking of the Ghent fair, he said Canada undoubtedly had the fairest exhibit there. At its close Commissioner Hutchison will take the exhibit to the Panama Pacific fair.

The minister made a study of extensive farming operations in Belgium. He saw little prospect of lifting its cattle embargo for the benefit of Canada.

The Yarmouth Times says: An interesting event takes place shortly at Digby, the principals being a prominent business man of that town, a popular school teacher, who formerly taught in Yarmouth.

A MESSAGE FROM A WOMAN TO WOMEN

"Every Woman Should Take 'Fruit-a-lives'"

LAKHART, ONT., MAY 12th, 1911

"Kindly publish this letter of mine if you think it will benefit other women who might be afflicted with the disease I have had in the past, but am now, thanks to 'Fruit-a-lives', completely cured of. It is my firm belief that every woman should take 'Fruit-a-lives' if she wants to keep herself in good health.

Before taking 'Fruit-a-lives', I was constantly troubled with what is commonly known as 'Nerves' or 'sovere Nervousness'. This Nervousness brought on the most violent attacks of Sick Headache, for which I was constantly taking doctors' medicine without any permanent relief. Constipation was also a source of great trouble to me and for which the Doctors said 'I would have to take medicine all my life', but 'Fruit-a-lives' banished all these troubles and now I am a well woman!"

WOLFE MEMORIAL CHURCH.

Canon F. G. Scott Wants One Over-looking Plains of Abraham.

The well-known Canadian writer, Canon Frederick George Scott, of Quebec, has interested himself in the erection of a Memorial Church to Gen. Wolfe on a site overlooking the Plains of Abraham, the purchase of which he has already arranged on reasonable terms, if the necessary funds are forthcoming. Canon Scott's appeal is in part as follows:

"Next year we are to celebrate the Peace Centenary. One has been thinking of the best way in which we could mark that event in Quebec, for Quebec must not be left out in this celebration. There is something which churchmen might do which would mark the event in a unique way. James Wolfe was a churchman, and a man of sincere and devout habits. In an age of license, he lived a pure life, and the victory he won was a victory of character.

"On the Avenue des Braves, that magnificent new avenue built by the Battlefields Commission to connect the Plains of Abraham with the battlefield of St. Foye, is a slight rise in the ground. From this eminence, which marks the very spot where Wolfe breathed his last, in another direction, one can see the monument to Lewis and Murray. To the south one catches a glimpse of the great St. Lawrence, and to the north stand 'the everlasting hills.' The little plateau is the highest piece of ground overlooking the Plains. The situation is superb, and as I saw the sunset from it last evening, the grandeur of the hope, which has long been mine, of seeing on that spot an architecturally exquisite church—a true angel of peace—rise to the memory of the great hero whose deathbed that green plain was, possessed me, and I thanked God for the privilege which was ours, if we chose to use it, of coupling the honour of the hero with the hope and worship of the Lord whom he faithfully served. The idea is one which appeals to all those who in their minds know that the truest knight-hood is founded in religion."

A Blind Man's Memory.

The Newmarket, Ont., Industrial Home has a phenomenon. Aged Robert Waterson, an inmate of that institution, is blind, but despite the defect of his sight he can recognize almost any man to whom he has spoken before, as soon as he hears him speak. His remarkable characteristic lies in a wonderfully developed sense of sound.

Recently when the York County Council visited the Home the members agreed, before they arrived, to test "Old Bob's" ability to detect the identity by the voice. Reaching the home they found the old man engaged in one of the buildings and one after the other, twenty-three of the members and men with them approached him and addressed him with "Well, Bob, how are you to-day?" or similar greetings.

Out of twenty-three he failed to recognize only one man. When his memory failed or faltered he asked the speaker to grasp his hand and with the assistance of the occult communication of the hand he would be able to repeat the man's name almost instantly.

Councillor S. R. Goodwin, of Holland Landing, was a new member of the council last year and had only met "Old Bob" on one occasion. When he stepped up in the line and spoke to the blind man, he was greeted with "How do you do? Mr. Goodwin."

Another instance of his astonishing memory was given when Mr. Seneca Baker, councillor for Whitechurch, who was in the council in 1907, and had retired from it then until this year, when he again became a member of it, addressed the old inmate.

"Why, if this isn't Mr. Baker back again," he said, and expressed his delight at hearing him again.

Good Progress on Roads.

The colonization road work of the Ontario Government drives on apace in all parts of the province. Gangs numbering thousands of men in the aggregate, have been organized and the roads and highways in the newer sections show an activity unknown in past years in the spring season. The immense call of the work demands the employment of hundreds of new men every week, and that 1,000 in all will be required for the reason, thus making a new record for the department.

It is confidently hoped that the close of the year's endeavors will witness the completion of the Sault-Sudbury trunk line, which will prove of immense advantage to the settlers who are congregating in the agricultural districts in that vicinity in great numbers. This enterprise was undertaken by the Government in 1907, and has shown steady progress since, although the difficulties have been great.

By the time the summer traffic is at its height, the road will be open from Sudbury to Comond, and from thence work will be pushed with the double shift of men. The whole road is two hundred miles in length. One of the difficulties at the present time to contend with is the swollen condition of the Spanish river which has attained a height almost unprecedented and interferes at points with the constructive work.

Educating Judges.

The Agricultural Department of the Ontario Government is working towards the organization of all judges at fall fair competitions in a uniform standard of competence. Towards this purpose a grant of \$7,000 has this year been set aside in the promulgation of training schools for judging. Although no structures have been erected, gatherings have been arranged in different parts of Ontario where instruction will be given, and in this connection the expenses of all officials will be paid.

Co-operative Buying.

"The Ontario Vegetable Growers' Association is working out a plan for co-operative buying, and is also experimenting with the production of seeds in New Ontario.

Microbes in Your Scalp.

Authorities say that a microbe causes baldness. If you are losing hair try our remedy at our risk.

Professor Unna, of Germany, and Dr. Sabouraud, the great French Dermatologist, claim that a microbe causes baldness, and their theory has been verified by eminent scientists. This microbe destroys the hair follicles, in time causing the scalp pores to close and the scalp to become shiny. Then, it is believed, nothing will revive the growth. If treated before this occurs, baldness may be overcome.

We know of nothing that has given such universal satisfaction in treating the scalp and hair as Rexall's "93" Hair Tonic. It has been designed for a month's treatment of the scalp and hair, and is not a cosmetic, but a medicine. It is not a cosmetic, but a medicine. It is not a cosmetic, but a medicine.

We want you to make us prove it. We will pay for a month's treatment of Rexall's "93" Hair Tonic used during a trial, if you will use it according to directions, and are not thoroughly satisfied. When we will do this, you surely should not hesitate to at least try it.

Start the treatment today. Your mere request will get your money back if you want it. Two sizes, 50c and \$1.00.

You can buy Rexall's "93" Hair Tonic in this community only at our store:

Zam Buk Proved Best

AMBULANCE BRIGADES ADAPT IT

Zam Buk has now been selected as the balm to be carried by the members of the St. John Ambulance Brigade. This is further proof of its superiority.

Mr. G. W. Pyatt, of 15 Southview Avenue, Toronto, Superintendent of the Riverdale Division of the St. John Ambulance Brigade, writes: "Both in personal use and in first aid work I have proved Zam Buk to be of great value. I have used it for the past five years, and do not believe there is any other balm to come up to it."

Mr. Geo. H. Westmore, of 127 Yonge Street, Toronto, Division Superintendent of the St. John Ambulance Brigade, also writes: "I am pleased to report that the members of this Brigade use Zam Buk when on public duty, and find it very useful. It is a wonderful healer. Personally, I constantly use Zam Buk in my calling as a chiropractor, and find it very helpful in healing sore feet, and as a dressing for corns and bunions after treatment and extraction."

Surely a balm that is worthy of a place in the wallet of an ambulance officer should find a place in your home! You may not require it today or next week, but as accidents don't give warning, be prepared. Zam Buk is compounded on the latest scientific lines. It is at the same time soothing, healing and antiseptic, keeps good. Zam Buk is a sure cure for skin diseases, eczema, piles, and sores, cuts, burns, poisoned wounds, ringworm, abscesses, sprains, scalds, boils, ulcers, blood poison, etc.

Irish Question in England

LONDON, Sept. 11. The presence of two of the most prominent Conservatives of the two houses of parliament at Richmond as the King's guests—Andrew Bonar Law, who is the titular leader of the opposition, and Lord Curzon, of Kedleston, who recently declared in the House of Lords that the Irish question could never be settled except by the consent of both parties, is keeping the discussion of a possible attempt to compromise at a fever heat.

Before going to Richmond Mr. Law had an interview with Lord Lansdowne and Arthur J. Balfour, the former leader of the opposition, is spending the week in Scotland. It is therefore evident that the Conservative leaders are in consultation.

The new papers of both parties in England are evidently anxious for some settlement which will prevent the civil war threatened by the Ulster men if the bill becomes a law. The present manoeuvres have raised public hopes in England, but even if a conference of the parties is arranged any agreement seems hopeless.

A Pleasant Surprise

The home of Mr. and Mrs. J. W. Marshall, Acheriville, was the scene of a pleasant event on the evening of September 11th, the fifteenth anniversary of the birthday of their daughter, Miss Grace. Early in the evening a number of her friends surprised Miss Marshall by calling en masse. After spending a pleasant hour in games, musical refreshments were served, followed by music. Miss Marshall is a very popular, young lady and the many gifts presented by her friends testify to the high esteem in which she is held. The party broke up at a late hour after wishing Miss Marshall many happy returns of the day.

ANOTHER SEASERPENT

Monster Giraffe seen by Allen Line Officer.

SECOND OFFICER OF CORINTHIAN TELLS A WONDERFUL TALE OF SEA MONSTER - HAS LIQUID BLUE EYES.

A Montreal despatch says: A real live, honest-to-goodness sea-serpent is swimming in the Atlantic Ocean off the Grand Banks of Newfoundland.

If the reader does not credit this brief capitulation, let him talk to G. H. Batchelor, second officer of the good ship Corinthian, which reached Montreal last night.

A Star reporter, who heard briefly of the appearance this morning, had recurrent memories of the good old sea-serpent at first, but a look at Mr. Batchelor and the hearing of his tale removed all doubts.

A SEA SERPENT.

"A sea giraffe! This is the nearest I can come to naming what I saw," said Mr. Batchelor, who is, so far as he knows, after sailing the seas for twenty years, the discoverer of a new species.

"One runs across many stories of strange things seen at sea," he said, "but I have never heard of any beast like this."

The officer not only saw the "Thing" appear above the water three times, but he sketched it two hours after its appearance, on the lapel of which period he had his first chance to go below.

It was in the cold grey dawn that the Sea Giraffe showed himself. Mr. Batchelor had not been long on duty. The look-out man had just gone off, and so had the fourth officer, each having just finished his watch. With blue eyes on the coast, the officer picked up an object about a mile ahead. The best conjecture he could make as to its nature was that it was a fishing boat end on.

In the sudden fogs which sweep over the fishing banks, sailors frequently become separated from their schoomers, and many have for days before they are rescued. Mr. Batchelor had such an accident in mind as he watched the object ahead.

When it disappeared beneath the surface he was still unlighted, and thought of a tragedy.

Suddenly, however, after he had meditated a minute upon serious things, something surprising showed about two hundred feet away from the ship. First appearing a great head with long ears and great blue eyes. The eyes were inlaid and liquid, with an indigestion of ferocity.

Following said eyes came a neck, it was a regular neck all right, all of twenty feet in length and reminded the astonished watcher perfectly of a giraffe.

The thing took its time emerging, but it kept emerging so long that Mr. Batchelor wondered what the end would be.

NECK 20 FEET LONG

The neck alone was fully twenty feet long and seemed to rest on a ball bearing, so supple was it and so easily and rhythmically did it sway while the large, liquid blue eyes took in the ship with a surprised, injured and fearful stare.

The creature was well fixed for side arms. Three horns thus surmounted its bony head. At this point of its neck and body it carried two big flaps as flappers, like those of a seal (enlarged size).

In fact the body, which was about the same length as the neck, was very much like that of a monster seal or sea lion with short, water-smoothed fur. The tale was split into two great fins.

Struck by Train

MONCTON, N. B., Sept. 11. Mrs. Geo. Cochrane, of Sunny Brae, while walking along on the I. C. R. track to Moncton Saturday afternoon, was struck by the Ocean Limited from Halifax, and had a shoulder blade and several ribs fractured, besides being otherwise bruised. She was walking with her sister between the double tracks and had a very narrow escape from death. When struck, the woman was knocked down and lay beside the rail under the edge of the cars as the train passed over her. Had she attempted to rise or had her clothes been caught by the wheels she would have been cut to pieces.

Her injuries are not expected to prove fatal. The injured woman is the wife of Captain George Cochrane, at present at sea.

Death of Mrs. Debbi Robicheau

To the bereaved family we offer our most sincere sympathies in their great affliction, for Mrs. Robicheau was a devout Christian, a fond mother and a faithful and loving wife.

Rushing Grain Shipments

PORT WILLIAM, Sept. 11. Efforts are being made to get as much grain shipped east as possible before the rush from the west starts in earnest and boats are loaded at the elevators as quickly as possible. Saturday 110,000 bushels of wheat, 150,000 bushels of oats, 100,000 bushels of barley, and 15,000 bushels of flax were shipped by boat for Montreal. In the harbor the Strathcona and Canadian are loading grain. Most of the wheat shipped was a new cargo.

12 Tumors Removed Without An Operation

Dear Mrs. Currah—I am enjoying better health than I have for eight years, and I think I am entirely cured. I have none of the old symptoms. I am very grateful for my present health, and think Orange Lily is the greatest treatment for women the world knows. In my case it cured 12 tumors or growths of some sort to be expelled. Some were as large as a hen's egg, and others smaller, down to the size of a walnut. You may use my case in your advertisement, for it is the solid truth, and you cannot describe all the good it has done for me. Mrs. Louise B. Holteridge.

This letter gives an indication of the results of the treatment that always follow the use of Orange Lily. It is an applied treatment and comes in direct contact with the suffering organ. It produces results from including painful periods, falling of womb, irregularities, leucorrhoea, etc.

I will send a sample box containing 10 days' treatment absolutely free to any suffering woman who has not yet tried it. It will send me her address. Enclose 2 stamps and address MRS. FRANCES E. CURRAH, Windsor, Ont.

THE ONTARIO INDIAN.

He is the Most Superstitious Creature in North America.

There are no people on the continent today as superstitious as the Indians, says W. W. Fox in The Toronto Globe. The Indians do not talk about their beliefs to whites, and it is only when a white man has done them a kindness or has been so associated with them that they look upon him as a friend that they stoicism thaws. Then one realizes that beneath the red skin there is just as much real human nature, just as much love for a joke or a romp as there is with the "Shyones" (white man).

Here is an illustration of their superstition. One whom I well knew, and one of the most intelligent, for both his wife and he were educated at Moose Factory, bought a magazine rifle. I asked him if he had used it yet. "No," he said, "I first shoot moose with it, then I have good luck all along." Next day he did kill a moose, and after that did not hesitate to shoot rabbits, hares and partridges. He believed he would always have luck.

Another superstition prevalent amongst these Indians is that it is unlucky to live in a teepee or house where one of their number has died. I have known them to fire a shack under such circumstances, and it is no unusual thing for them to burn a teepee even in the depth of winter when death has invaded it.

Last year they had an outbreak of diphtheria amongst them near Elk Lake. They were quarantined after the death of one of their number, and the town supplied them with provisions. But, although they were in receipt of free rations, they would not remain, and so, after the burial, stole away during the night. Now if there is anything an Indian dislikes it is traveling in the night, and he will do so only through superstition or absolute necessity. These Indians returned to Fort Metchewan, but were not allowed to stay there, and so went on to the reservation at Turtle Lake. Here other deaths occurred, and they scattered in every direction through the woods.

Some years ago a party of surveyors got into trouble with the Indians. During the course of their work some of the men came upon an Indian grave. An old gun stood against a tree at the head of the grave, and upon the tree a cross had been carved. Hanging to the same tree were a couple of plugs of tobacco rolled in birch bark, to preserve them from the weather. As they had been out of tobacco for days the men appropriated that at the grave, and in camp that night told of their find. The Indians, of course, heard of it, and going to the chief said they were going to leave. On being pressed for their reason, they told him about the tobacco being taken away. The result was that the chief ordered the whites back to the grave, where they replaced the tobacco. These Indians were a fair sample of the Christianized variety found north of Lake Superior.

With the advance of settlement in New Ontario the Indian, like the moose, is slowly but surely stealing farther back into the great northern forest. The places that knew him once will know him no more forever. Many of the old trails are now so overgrown with brush that they are almost obliterated, and a few years more and they will be completely wiped out.

Joke on Uncle Sam.

Fixing national boundaries is no easy matter, and this very often accounts for the jagged and irregular line denoting the separation of one country from another on maps. On a map of Canada there appears a little "nose" which projects from the extreme northern boundary of Minnesota into this country. This small corner of land which constitutes the northernmost point of the United States has an interesting history.

Under the treaty of 1783 between the United States and British possessions was fixed. A certain point on the Lake of the Woods was mutually agreed to as one starting point, this being considered the headwaters of the St. Lawrence river and Great Lakes system.

At that time it was not known whether this point was north or south of the 49th parallel, but it was known to be close to it. The understanding was that from that point the boundary should go north or south to the 49th parallel as the case might be.

Later and more accurate surveys showed that point was about 25 miles north of the 49th parallel, and so at this place the boundary makes a jog above that line.

The republic thus has a little piece of territory of about 100 square miles in extent north of the general boundary. And the joke of it is that a Yankee has to go by water in order to reach this little piece of territory unless he wants to come through Canada.

British Firms Losing.

Hamilton Wickes, British trade commissioner in Canada, in a report to the Home Government, says opinion in some Canadian business circles is that if British firms had shown half the energy or gone to the expense which Canadian firms annually incur in getting business, the trade of the United Kingdom in Canada would occupy a far more commanding position than it does today.

Wickes is not prepared to confirm this entirely, although admitting few British merchant houses have thought it worth while starting offices in large Canadian centres while the American manufacturer is on the spot. The trade lost to the United Kingdom had been almost entirely absorbed by the United States.

Witness to Disappear?

The Montreal Witness, which rumor says will be replaced soon by The Telegraph, a Liberal evening daily, was established in 1846, by the father of the present proprietor, J. R. Doucette. The paper has been "devoted to the temperance cause, public and private morality and the welfare and betterment of the masses."

September.
There is a haze that hides the meadows and the river from the hills.
There is a wealth of royal purple where the crickets chirp and trill.
There is gold in rich abundance come and gather while you may.
Come and breathe the breath of summer gain a lifetime in a day.
There are hills red and glowing in the marsh-land lying low.
There are tiny asters all astir where soft the breeze blows.
Come and gather, come and gather, of the blossoms red and white.
Learn the lore of field and meadow by the summer's lingering light.
For the sun's heat is all at once, the maple catches fire.
From twig to twig the color runs as high the flames as fire.
Come and breathe the breath of summer—there is a hush in the trees.
That's the going, going, going. Who would lose such days as these?

A MOLAR MYSTERY

Dr. Sharley's office bell tinkled softly as the door opened. The dentist glanced up from his examination of a broken nerve branch, which had snapped under his careful testing; then arose with a professional smile.

"You have about four minutes to straighten me out; I've a train to make."

The stranger removed his hat, hoisted his stout body into the operating chair, yawned as if in anticipation of coming relief, lay back, bracing for the necessary shock, and observed coolly: "Second upper molar, left jaw. Go ahead."

He placed a thick finger tip on the offending tooth, half closing his eyes, as his mouth stretched widely.

"One moment, sir," Sharley never hurried. His mild gray eye peered in, past the sound, white incisors and canines to where the finger lingered, noting a marked absence of the grind.

"A hasty, temporary filling, I see," he observed. "Poor work! Poor work! Nerve insufficiently treated, probably. With time I could save that tooth, sir. It's a pity to lose it. Painful."

"I'm bothered half to death with it. Take the thing out! Come, my time is more important than a piece of bone."

"As you say, of course. It is a large tooth, and solidly set in the jaw. These three fingered fellows hate to say 'good bye.' A little gas, eh?"

"No. I don't mind pain. I never take anything. Grip it carefully, doctor, don't break the rascal. I hate these loose yards."

Sharley smiled. "I rarely do that," he said, selecting a pair of forceps. "Ready?"

A nod, a twist, a short grunt. "Well done! How much said the coal-patcher, sitting up for the neccessary aftermath."

"Fifty cents. Thanks! Few men have your nerve, my friend."

Instrument and tooth lay on the adjustable stand affixed to the dentist's chair.

"I would like to examine that chap," observed the old dentist. "I hated to extract it."

"Another glass of water, doctor. I'm a bit faint."

Sharley ran into his small back room, turned the faucet, and opened a cupboard for the handy whiskey flask.

It took but a few seconds; too long, however, for his impatient visitor. The doctor heard a hasty, "I can't wait," the clang of his door bell, then hurried, departing footfalls.

It's a common description. I know his teeth; that is, they are white and good. Let me see that tooth! If it's of a sort he wouldn't have, this clue is of no use.

"It was so well preserved that I disliked to extract it. To be sure, there was a plaster filling, poorly put in, I observed; there must have been quite a cavity. I'm sorry, my friend, but my patient carried it off; at least, I can find it nowhere."

Savage and dismayed came a round English oath.

Sharley sprang up, touched the switch upon the wall, and the room was flooded with light.

"His companion wore a look of astonished comprehension. 'I'll wager my boots 'twas there he had it,' he grunted."

"Where?" the dentist asked, in wonder at this apparent irrelevancy.

"In that blasted tooth."

"What?" The doctor looked bewildered.

"Lord Lestershire's diamond. That's what! 'Tis a small stone, but the purest in the kingdom, and a family relic. Four thousand pounds they say it's worth."

"Stolen a month since, and passed to Stidwell, the man who has run more than one good stone into this country, and never a trinket found on him."

Dr. Sharley blinked, thinking of the missing molar; of the possibility; of his patient's opening remark. "See of upper molar, left jaw." He had thought it strange at the time; rarely do customers locate their aching grinders with professional terms.

Verily, those large back teeth might have served queer purposes ere their extraction.

"It could be done," he said thoughtfully. "I believe you are right."

Chelton nodded confidently.

"Stidwell is still in the city," I think, said he. "I'll look for a clean shaved man and a woman. One's working with him; it's a big risk they're running, and they know that we know."

"Every fence" is watched. What will they do with the stone? It will be long before they dare chance disposal. All they fear is to carry a suspicious article. They are not fools. The stone will come out of that tooth. The question is, Where can they hide it?"

"In one of the women's teeth," laughed Sharley jokingly. "Now, wouldn't that be a bright idea! But it is the last thing to think of."

"The first, perhaps," said the detective soberly.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a tea-spoonful. It acts directly on the blood and cleanses the surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Price Webber's Visit

THE BOSTON COMEDY CO. PLAYED TO A FULL HOUSE MONDAY EVENING.

Mr. H. Price Webber's Boston Comedy Co. presented "A Queen for a Day" to a full house in the Bijou Dream Theatre Monday evening which appeared to be much appreciated by the audience. Tuesday evening the same company played "The Lancashire Lass or Tempted, Tried and True." The disagreeable weather cut down the size of the house Tuesday evening but the play was a good one and those who were there enjoyed it very much. Mr. Webber's short address to the audience, touching on reminiscences of his previous trips to Digby before the days of railroads in this country, together with some funny stories followed by thanks for the public's patronage and good will extended Mrs. Webber, himself and his company. Many of whom have played before a Digby audience for many years, was loudly applauded. It is reported that Mr. Webber will again visit Digby Monday evening, October 27th, in the interest of Digby's Fire Department. If he does he will be greeted with another full house similar to last Monday night.

Death of Mrs. Sarah Hogg.

A telegram received here Monday morning announced the death of Sarah O. Hogg, widow of the late W. S. Hogg, of Providence, R. I., which occurred in Boston Sunday, the 24th inst. Hogg, died more than four years ago, followed later by the death of their only daughter, Mrs. Hogg, occupier of her summer residence, Montague street this season as usual. Five weeks ago she became ill and it was while in Boston, where she had gone for special treatment that the end came. The funeral was held from her late home, 34 Congdon street, Tuesday with interment in Providence, the services being conducted by the pastor of the Congregational church of which she was a devoted member. The deceased was a very broad minded Christian lady whose many charitable acts will long be remembered.

Mr. Crowe had for many years carried on a store, tinmith and plumbing business and will be greatly missed in the community of which he was a highly respected member. A widow, five daughters and three sons survive him—Mrs. A. M. King, of Annapolis; Mrs. Curtis B. Longmire, of Bridgetown, and the Misses Anne, Beatrice and Bernice at home. He leaves to mourn his loss, his wife and three children of Bear River, his mother and three brothers of St. John, N. B., and one brother residing in Brookfield, N. S. The floral offerings received from Friendship Lodge, I. O. O. F. of which he was a member, and from others, showed the esteem in which he was held by all who knew him. Wedding at Deep Brook.

A Deep Brook correspondent writes: A very interesting event took place at the home of Mr. and Mrs. John C. W. Dumas on Wednesday morning, the 24th inst., at 10 o'clock, when their eldest daughter, Dorothy Mary, was united in holy wedlock to Mr. Garret LeRoy Benson, of Bear River, the ceremony being performed by the Rev. J. Lockward, of Clementsport, in the presence of only the immediate relatives of the contracting parties.

The bride was dressed in a travelling suit of seal brown whipcord and entered the room upon the arm of her father to the strains of the wedding march played by Miss Austin, of Smith's Cove. The room was decorated with an arch trimmed with evergreen. After the ceremony a very generous lunch was served to all present after which the bride and groom, accompanied by the bride's family, left by auto for Digby, where they took the St. George for St. John. The wedding presents were very useful as well as ornamental, among which we will mention a cut glass dish and a \$10 gold piece from the bride's mother; \$5 each from the groom's parents and \$10 from the groom. We extend every good wish for the prosperity of the bride and groom, wishing them a long life of joy and happiness.

The Popular Route

The popular route between Nova Scotia and Boston is via Digby as will be seen by the big travel across the Bay via S. S. St. George. Passengers arriving via Yarmouth line are obliged to travel on the slow trains or wait a half day in Yarmouth. Those returning to Boston via Yarmouth wait a rather unpleasant experience last Saturday night. When the boat on that route became over-crowded they were compelled to remain in Yarmouth until Tuesday as there was no boat out of that port Monday night owing to the heavy gale. Excellent connections are being made at Digby with the P. C. & N. daily service across the Bay. Several passengers returned from Yarmouth to Digby Monday and took advantage of the connection via S. S. St. George.

Appel, pastor of the Douglas Ave. Christian Church, St. John.

The Digby Athletic grounds have been secured for the cattle show in connection with the Digby County Exhibition, which will be held in Victoria Park on Friday, October 10th. Wedding at Mt. Pleasant.

A correspondent writes: A very pretty home wedding took place on Wednesday evening at seven o'clock at the home of the bride's father, Mr. Harry Baine, when his youngest daughter, Miss Joseph Baine, was united in marriage to Oscar Hildyard Barnes. The house was very prettily trimmed with autumn leaves and cut flowers. The bride party stood beneath a floral arch of bells. As the bride entered the room leaning on the arm of her father she looked very handsome indeed, in white silk with coral dress of lace and trimming of nixon and girle of satin. She wore the conventional veil caught with a wreath of orange blossoms and carried a bouquet of sweet peas. Miss Bessie Baine, sister of the bride, acted as bridesmaid. She looked nice in all over embroidery with empire waist and bordered of blue and red. Mr. Martin Baine, brother of the bride, acted as groomsmen. The little Misses Sylvia Baine and Edna Vantassel performed the duties of flower girls, and looked charming in allover embroideries and pink sashes and ribbons. The wedding ceremony was performed by Rev. W. Brohaut, pastor of the Digby Baptist church. Only relatives of the bride and groom were present. After the ceremony was performed and congratulations received, all present retired to the dining room where a sumptuous wedding supper was served. The wedding gifts were numerous and costly, consisting of furniture, silverware, cut glass, china, table linen and checks, showing the highest esteem in which both bride and groom are held. They left yesterday via S. S. St. George for a short wedding trip to St. John. The bride's travelling suit was grey broadcloth with hat to match. They were showered at the boat with rice and confetti. After their return they will reside at the Racquette, and have the best wishes of a host of friends for a long and happy wedded life.

Comfort Your Stomach

We pay for this treatment if it fails to promptly relieve indigestion and dyspepsia.

Reckal Dyspepsia Tablets remedy stomach troubles because they contain the proper proportion of Pepsin and Bismuth and the necessary carminatives that help nature to supply the elements the absence of which in the gastric juices causes indigestion and dyspepsia. They aid the stomach to digest food and to quickly convert it into rich red blood and material necessary for overcoming natural body waste.

Carry a package of Reckal Dyspepsia Tablets in your vest pocket, or keep them in your room. Take one after each heavy meal and prove our assertion that they will keep indigestion from bothering you.

We know what Reckal Dyspepsia Tablets are and what they will do. We guarantee them to relieve indigestion and dyspepsia, or to refund your money, if they fail to do so. Doesn't it stand to reason that we wouldn't assume this money risk were we not certain that Reckal Dyspepsia Tablets will satisfy you? Three sizes, 25 cents, 50 cents, and \$1.00.

You can buy Reckal Dyspepsia Tablets in this community only at our store:

Specialist Could Not Remove Stone in The Bladder

GIN PILLS PASSED IT

"During August last, I went to Montreal to consult a specialist as I had been suffering terribly with Stone in the Bladder. He decided to operate but said the stone was too large to remove and too hard to crush. I returned home and was recommended by a friend to try GIN PILLS.

GIN PILLS relieved the pain. I took two boxes and went back to the specialist. He said the stone was smaller but he could not remove it although he tried for two hours and a half. I returned home and continued to take GIN PILLS, and to my great surprise and joy, I passed the stone.

GIN PILLS are the best medicine in the world and because they did me so much good, I will recommend them all the rest of my life."

MUSCULAR RHEUMATISM.

Muscular rheumatism exists in two forms: Acute and chronic. In acute muscular rheumatism there is first noticed a dull pain in the muscles which gradually increases. This pain often shifts from one muscle to another, and the working of these muscles makes the pain very severe. Muscular rheumatism is a blood disease and should not be neglected. A proper treatment should begin with the first symptoms. Rheumo is recommended by the foremost people everywhere because it drives all uric acid poisons from the blood and enriches it so that the system becomes healthy and free from the tortures of rheumatism. Get a bottle of Rheumo today and rid yourself of rheumatism. Sold in Digby only at H. E. Jones' drug store.

BECAUSE {one cup of this delicious tea calls for another!

These words or expressions having the same meaning are contained in hundreds of the letters I have received during the past year. Many were from women who had suffered agonies from falling of womb; others from women who had escaped dangerous surgical operations, as the tumors and ulcers had been removed by the action of Orange Lily and others who had suffered from suppressed menstruation, leucorrhoea, painful periods, etc. For all these and the other troubles known in general as "Women's Disorders," Orange Lily furnishes a positive, scientific, never-failing cure. It is applied direct to the suffering organs, and its operation is certain and beneficial. As a trial actually proves its merit, I hereby offer to send, absolutely free, a box worth \$5.00, sufficient for ten days' treatment, to every suffering woman who will write for it. SACKVILLE, Sept. 21.—Mayor Gaynor's first wife who procured a divorce from him and is reported to be still living, was a Miss Emma Hyde, daughter of Mr. Hiram Hyde of Truro, N. S., whom elderly people in these provinces will remember as operating in company with Mr. Chas. Archibald of the same place, the stage coach line between Halifax and Annapolis. This lady was years ago a student of the Mt. Allison Ladies' College, and it was her brother, George, an alumnus of the Academy, who was father of the Charles Hyde, whom Mayor Gaynor appointed chamberlain of the City of New York, much to his own discomfort and the disgrace of the appointee. The original Hiram Hyde was himself a native of New York State and in the late office of the last century was a member of the Nova Scotia legislature. He died some fifteen years ago at the age of 83 years.

Canada to Bar Evelyn Thaw From Her Theatrical Dates

OTTAWA, Ont., Sept. 25.—Evelyn Thaw, who has been engaged for theatrical appearances in Toronto and Montreal, may not be allowed to cross the Canadian border. The Canadian authorities have placed the matter in the hands of E. Blake Robertson, Immigration Commissioner, who took an active part in deporting Harry Thaw, and he is considering the advisability of refusing her admission as an undesirable.

The Canadian Immigration law authorizes officials to refuse admission to Canada to those whose mental, moral, financial or general record are under suspicion. The provision is believed to be wide enough to close the door against Evelyn Thaw.

HE NOW BELIEVES IN "FRUIT-A-TIVES"

Because He No Longer
Suffers With Headaches

TAYLORVILLE, ONT.

"I was a sufferer from Fearful Headaches for over two years. Sometimes, they were so bad that I was unable to work for days at a time. I took all kinds of medicine, was treated by physicians, but yet the headaches persisted."

A short time ago, I was advised to try "Fruit-a-tives" and I did so, with almost instant relief. Very little faith. But after I had taken them for three days, my headaches were easier and in a week they left me.

After I had taken a box of these tablets, my headaches were quite cured. My appetite was always poor and my stomach bad—and now my appetite is splendid and my digestion excellent.

I had become thin and weak from the constant headaches but now not only have I been cured of all these awful headaches, but my strength is growing up once more and I feel like a new man!"

For Hair Health

If Rexall "93" Hair Tonic does not improve the health of your scalp and hair, we will pay for what you use during the trial.

We could not so strongly endorse Rexall "93" Hair Tonic and continue to sell it to the same people if it did not do all we claim. Should it not prove entirely satisfactory, our customers would lose faith in us, we would lose their patronage, and our business would suffer.

If your hair is falling out or you suffer any scalp trouble, let Rexall "93" Hair Tonic do more to eradicate the dandruff, give health to the scalp, stimulate new hair growth and prevent premature baldness than any other human agency.

We want you to risk no money whatever. Buy a bottle of Rexall "93" Hair Tonic, use it according to directions for thirty days, then if you are not entirely satisfied, return and tell us and we will promptly hand back the money you paid us for it.

We won't ask you to sign anything, nor even to bring the bottle back. We won't obligate you in any way. We will take your mere word. Could anything be more fair? Could we do anything more to prove our belief in Rexall "93" Hair Tonic, and our honesty of purpose in recommending it to you?

WHAT A GREAT MAN SAID TO THE GREAT CANADIAN PEOPLE

Parisian Sage is a discovery of a celebrated scientist, who spent the best years of his life perfecting this great hair tonic.

In giving his recipe to the Canadian people he said: "Parisian Sage is the most delightful hair dressing in the world." It cures dandruff by killing the germs that infest the roots of the hair; it stops falling hair; it gives vigor and strength to the hair roots. H. E. Jones sells Parisian Sage in a large fifty cent bottle—and guarantees it to do all that is claimed for it, or your money is refunded. It stops falling hair, dandruff, itching scalp and restores life and beauty to dull faded hair in two weeks.

WILL YOU USE

U. M. C. Ammunition?

Why? Because you can shoot it all day and never feel the jar and can get as much game if not more. A dealer says use Dominion because it was practically the only ammunition used at the Guides' Meet here. That is very true, but why? because it was given to them. I shot it at the meet and must say I carried a swelled cheek and a black shoulder for some time.

A dealer saw one of our customers with a box of U. M. C. and said "I say they are a small load." "I say they are all wads."

So for the sake of our customers we got one from Mr. Dealer and compared it with U. M. C. and the result is in our window. Judge for yourself.

We carry Dominion, Kynoch, Eley and U. M. C. Ammunition, but when I want a good day's shoot I use U. M. C.

POSITIVE HAIR GROWER FOUND AT LAST

Greatest discovery of the age SAGEINE—grows hair in thirty days. Costs nothing if it fails. Men and women whose hair is falling, who are growing bald and grey, whose heads are scaly and itchy from dandruff—even those who have been bald for years—have now the opportunity of having lots of hair. SAGEINE is Professor LaFontaine's great discovery of how all can have glorious hair. Mr. H. P. Young, of 312 Bryant Street, Buffalo, writes that SAGEINE has grown a handsome head of hair for him after he had been bald for three years. We have hundreds of letters with just such wonderful proof. If you are troubled with baldness or prematurely grey hair, or lifeless, stringy or matted hair without lustre, if you have dandruff or itchy scalp, try a bottle of SAGEINE at our risk. One bottle will convince. And it costs but 50c for a large treatment in a fine shaker bottle so that it is easily applied. SAGEINE is as dainty as you like it. It makes handsome hair for men and women and brings out a natural rich wave. H. E. Jones sole agent. Other stores don't have SAGEINE.

The accident occurred Monday afternoon about 250 miles east of St. John's. The crew of the steamer say that the whale approached at terrific speed. They could not alter the ship's course in time to prevent the impact. The whale struck the steamer head-on, knocking a four foot hole in the bow.

Thursday's St. John Telegraph says: Sea captains who have been complaining about the inadequacy of the Brier Island light have now been satisfied by the decision of the marine department to install a quadruple flashlight instead of the present stationary light on the island. The matter had been taken up by the board of trade, and pilots and captains, speaking to Mr. Rong about the decision of the department yesterday, gave the opinion that the flashlight would be much more satisfactory than the present system of lighting which is not distinctive enough.

CORRESPONDENCE.

A Great Need.

To the Editor of the Courier.

Sir,—In your last issue, I outlined a rough sketch of a great need felt by the people of Digby, not only I should say of Digby, but all along the bay shore from Digby to Yarmouth. That part of Nova Scotia is one of the most picturesque to be found along the coast. Its charms are many, but few know them. What can the tourist see on his way from Digby to Yarmouth? Nothing but trees and wild barrens. On the contrary the Bay Shore route abounds with places where nature has been prodigal in her charms. The wonderful diversity of scenery, the intensity of scenic interest, the near presence of the sea would make this route attractive to tourists all the year round. By the Bay Shore route the tourist would get the sight and the refreshing breeze of the unhampered ocean, grand, bewitching and graceful. The Bay Shore route would traverse a land filled with the good things of life, attractive houses and villages, fine schools and colleges, magnificent churches, winding roads, woods, fields, rimbles, rocks, sand, beaches, bounding surf, spaces filled with sunlight, enshrouded in fog, clothed with rich harvest.

The tourist will find in Digby, a people, the descendants of the heroes of 1755, the French Acadians, who are in every respect the equals of the other races forming the Dominion of Canada. All along the district of Digby the tourist will see thriving villages, he will hear the suave accent of the French tongue, for the true French Acadian will never fail to speak his own language everywhere and in the presence of any one. The company that first open the Bay Shore route will reap a rich pecuniary harvest. Such a route is needed in Digby as well as in the county of Yarmouth. I would like others to take up the matter and discuss it at full length and throw as much light on the subject as possible, so as to impress on the railway companies the great need of such a route. Let every influential man rise up in this occasion. In the town of Yarmouth there has been started what is called a Boosters' Club. Let us do the same thing in Digby. If we want to accomplish great things let us unite. "United we stand, divided we fall" is a proverb full of sense and meaning. We are striving for the benefit of our people, well here is a scheme that will bring the advancement of the well fare of the counties of Yarmouth and Digby. We need a Bay Shore line, we need it, we will work for it and ultimately we will have it.

Sept. 15th, 1913.

McClelland, of 189 Summer street, Newton Centre, Mass., on Saturday evening, September 6th, at 7:30 o'clock. The couple were united in marriage by Rev. Maurice A. Levy, pastor of the First Baptist church of Newton Centre.

The wedding march was played by Mr. Charles K. North, flutist of the Boston Opera house, and Miss Mary G. Johnston, pianist, and as the well known strains from "Lohengrin" sounded, the bride and groom entered, the bride leaning on the arm of her father, who gave her in marriage.

The bride was attended by Miss Emma M. Lawrence, of Dorchester, maid of honor, who was gowned in yellow satin meteor. The corsage was draped with crinoline lace, and she carried a bouquet of tea roses. The bridesmaids, Miss Grace McClelland, cousin of the bride, and Miss Mildred E. Ireland, sister of the groom, were both attired in pale green cashmere de sole, with corsage of shadow lace, and carried bridesmaid roses. The ribbon bearers were Misses Muriel and Reita McClelland, nieces of the bride. They were both dressed in white crepe with baby frills, ribbons and pink sashes.

The bridegroom was attended by Mr. Oliver D. Powell of Binghamton, New York, classmate of the groom.

The bride was prepossessing in her bridal gown of white charmeuse and point lace. The drapings of white were caught with orange blossoms. Her veil, an heirloom, 150 years old, was held in place by a wreath of orange blossoms. The bride carried a shower bouquet of bride roses.

After the ceremony Mr. and Mrs. Ireland were assisted in receiving by Mr. and Mrs. McClelland and Mr. and Mrs. Irving W. Ireland, parents of the bride and groom. There were about 200 guests present.

The home was artistically decorated with beautiful autumnal flowers and foliage. The arch beneath which the receiving party stood was intertwined with clematis and barked at its base with cut-o'-nine-tails.

The bride was the recipient of many beautiful gifts, among them being many choice pieces of cut glass, French china, silver-ware, blue-argyle, and pictures; also a mahogany dining-room set.

Mr. Ireland is a member of the "Tech class of 1911, and now is scientific manager of a leading manufacturing company of Binghamton, New York.

Mr. and Mrs. Ireland left on an extended honeymoon, and will be at home after the first of November at 29 Cherry avenue, Binghamton, New York.

He Knows Tommy.

A lady school teacher was giving a lesson in addition. Striving to make the matter clear to the class, she said: "Now, Bill, supposing that you had three apples, and Tommy would tell you he would give you two more apples. How many apples would you have then?"

"Just three m'um," muttered Bill.

"No you would have three apples yourself, and the two which Tommy would give you. Now, how many would that be?"

"Three, m'um," uttered Bill again.

"You don't know Tommy as well as I do. He wouldn't give me any."

Why Red Rose is a "Distinctive" Tea

Because it is largely composed of the fine teas of Northern India, which are generous in strength and richness. These, blended with the flavory teas of Ceylon, produce the qualities for which Red Rose is famed.

N.B.—Coffee users will find Red Rose Coffee as generously good as Red Rose Tea.
