100th Birthday

The hundredth anniversary of the Digby Weekly Cower has brought to mind some fond memories at cytained in the following historical chapter of the other. But first, I wish to congratulate the current shows a finer of the Courier, Mrs. J.M. (Edith) Wallis, for a job wall done over the years and still being well done. According to any record. I have at hand, the Digby Courier, in one hundred years of publication, was controlled under the same family management of Wallis Print Limited. The late J.J. Wallis became didner of The Courier, the second time, in 1929, and at the same time of Courier the second time, in 1929, and at the same time of Courier the second time, in 1929, and at the same time of Courier the second time, in 1929, and at the same time of Credits spanes. which he had been running in and which became With between 1929 and 1931

J.L. and "Mac" sometimes worked overtime. I worked only the regular hours being paid a weekly wage which was comporatively good for those times and my lack of experience. I received four or five dollars a week for working after school hours to six o clock and on Saturday all day, and nine dollars a week for full weeks after finishing school. A two or three follar a week raise was offered to me in the fall of 1925 for me to stay on at printing, but, I had made up my mind to enter a branch of the Royal Bank of Canada, starting salary of \$500. The bank salary ingred out about the same per hour as for the printing job. The Trees Plot is streated at the east of the township just within the entrance to An-rapellis liasts, and beenly miles from Annapellis Town, and ex-mittee across tax-d from the lessel of St. Mary's day. This laid out from the water's edge, partie on level of that name. It was settled by Loyalists from New York in 1783, the most of whom went early to farms, or, moving to older countries, left the whole

free trade with the U.S.A., especially with the New England States. The question was then debated by some Digby High School students one of which was a J.J.'s' daughter. Florence (now Mes. Melvin O. Tibert, Freeport, Digby Co.) Some days after the debate a man from some part of Nova Scotia came to the printing shop looking for Florence, one of the successful debaters; I had the impression that his man was interested politically but, maybe I was wrong.

Well. I felt that I had learned considerable from my short experience at "The Wallis Job Print" I was learning to do beginner jobs, receiving some learning to do beginner jobs, receiving some learning eabout things like embossing, stapling, perforating, counting, cutting and trimming paper slock, mixing inks for certain desired colors, and so forth, but, the only experience I had at setting type was just enough to make a "pi", the printers name for a confused mess.

There is no part of the present war without strikes the imagination so keenly us that which is now taking place in Didde lands, and, nulses all appearance are described, it looks as though the conquest which was made by the Selpurk-Turks in 750 would terminate in the expulsion of these invades in the year 1917. What our foreitheres failed to do in the days of chivalry with lance and sword, we are haping to accomplish with machine, you and happings. The steady progress of General Mande up the Eugliantse Valley, together with the Eugliantse Valley, together with the Eugliantse Valley, together with the Eugliantse on to join forces with their Firthich Allies, and the startling advance made by the British in the capture of daza and the whole divisional staff to gether with isany prisoners, seems to show how much the Puxilsh Armies have been strengthened. A short advance will bring Jerusaken under the grant of the British, and the vallenda under the grant of the British, and the vallenda under the grant of the British, and the vallenda.

the Tarkish-German forces would respect. By the air of the railway on the eastern side of the Dead. Sea, which has direct connection with Constantinople, rapid advance should be made.

Progress at Saloniki is being made, and the whole aspect on several fronts seems favorable to the Allies. But as has been the case ever since the first contingent left our shores a steady call for recruits is being made, and if only sufficient can be supplied, it looks as though the long-looked-for end of the way might come this year.

Dialty, April 13th, 1917.

The record which the Nova Scotia menhace made in this war is surely one of which we may be 'proud. The incelual courses, resourcedimes, and strength of the menhas been frequently marked, and all the traditions of Nova Scotia and liter defricas piet are being upleted, The death of another one of her brave sons recomplastizes this, and every Nova Scotia who falls hade but another leaf to the hared wreath. Cart. Eric Dennis, who went over with the 4th, and became Captain and Adjutant of that Battalion, refused to stay in England, not without a contract of the course of the hared wreath. Cart. Eric Dennis, who went over with the 4th, and became Captain and Adjutant of that Battalion, refused to stay in England, not with this friend, Lieut. Doane: the fatter was killed in October, just as his fatter was starting overseas as Quartermacter of the 20th his father brother being a Lieutemant in the 10th Siege Battery. Capt. Dennis has been in a number of the way engagements. Three times within forty days he was precommended for the military cross, which was awarded to him, and now the crown of his glory is a small wooden cross in an obscure cemetery Samewhere in France.

wooden cross in an obscure cema-nowhere in France, en we read of deeds of heroism, is have been displayed by so many Nova Scotia boys, we immediately ience two emotions—one of pride to belong to the same province and the same blood as men of this kind, that we belong to the same province and are of the same blood as men of this kind, and we glory in their brave deeds—the other is a feeling of determination that the cause for which we have given so much shall not be in vain. We are determined that the rase shall be carried to a successful issue, and we know that there are men in Nova Scotia, many of them who will take on the work which these brave men in Nova Scotia, many of them who will take on the work which these brave men have laid down, and help in the struggle nights I russian militarism, which has brought sadness to so many useful men. Trimmed Hats Tailored Hats Untrimmed Hats America's Greatest President said:

POUT I DO KNOW THIS, THAT IF WE BUT GOODS FROM THE FOREIGNER, WE GET THE GOODS AND THE FOREIGNER GETS THE MONEY; WHERE, AS, IF WE BUY THE GOODS AT HOME, WE GET BOTH THE GOODS AND THE MONEY."

That was what good, old, honest and shrewd Abraham Jacobn said, and that is what he would say today. If he were alive and asked to express his opinion regarding the juying of home necessities from the mail-order, house-(

home, but I do know that if you buy from the mallorder houses in Upper Canada, you get the goods and the people of Upper Canada get the money, but if you buy at home, you get both the goods and the money."

Make no mistake about it, when you send your mone away, it goes to swell the money circulation of other Pro-luces and neter returns, but if you spend your money will the merchants of your own town, that money will flo

Rack to you.

Let us suppose you are a farmer. You sell your produce in and about your nearest town; you cannot sell it in Montreal or Toronto, and therefore anything that makes the people of your town wealthlier or more prosperous naturally means more business for you. Is it fair or just that you

And what is true of the farmer is true of you, Mr. Clergyman, of you, Mr. School Teacher, of you, Mr. Carpenter, of you, Madam, and you, and you, and you.

The mall-order bushness is serious in Nova Scotis serious that you have got to face the matter squared see where you are drifting. Do you know that out, small towns of this province, hundreds of dollars are to Moitreal and Toronto and these elties have do their population in the last few years?

They have been built up out of your money. Think its over. You rail at your local shops and say your town is slow and dead. What made them this way? You and the mail-order habit. It is an old snying, but a true one, you cannot have your pudding and ent it. You cannot send thousands of dollars out of your town every year and expect it to be prosperous.

You hear great stories about the department stores in Upper Canada growing bigger and bigger, employing thousands of men and women, paying thousands of deliars of City Taxes, huge sums for light and tuel, and all the rest of it. That is your money that is doing all this. Xes, yours, Don't forget for one moment that every c'ut you send to these mall-order houses helps build up those huge cities, swells the rerenues of these Provinces, and impoverishes your own. Make no mistake about that, "Yes, but the mail-order houses are cheaper," you may any, with hut very few exceptions you can buy as cheaply and more advantageously, from your local merchant. Again, "The mail-order houses have help supplied to the mail-order house has a bitter, range to select from." Our neaver to this la, that if you give your dealer, the slightiest encouragement he will provide you with an ample assortment of goods. In conjunction with this great "BUX-AT-HOME" Campaign many merchants are increasing their variety of numerous lines, so the excuse regarding bigger range will not long hold water." will not long hold water."

This habit of sending money away from home is a serious menace. You have shut your eyes to it in the past. Open them up. Open them wide. Buy at home and you will have more to buy with. Buy at home and watch your town develop. Buy at home and watch your merchants grow. Buy everything at home. This is the "BUY-AT-HOME"

Belleve in your town and spend your money there.

# How to avoid Operations

### These Three Women Tell How They Escaped the Dreadful Ordeal of Surgical Operations.

Hospitals are great and necessary institutions, but they should be the last resort for women who suffer with ills peculiar to their sex. Many letters on file in the Pinkham Laboratory at Lynn, Mass., prove that a great number of women after they have been recommended to submit to an operation have been made well by Lydia E. Pinkham's Vegetable Compound. Here are three such letters. All sick women should read them.

White Lead Behind a Paint Determines

its Quality

Only a very real quality in a White Lead can give successful results in paint-mixing. A worthless compound masquerating as White Lead cannot impart to paint those essential qualities without which it never gives permanent satisfaction.

To avoid risk of failure in mixing your paint, make it a point to use only paint in which the White Lead used is

Brandram's Genuine B.B. White Lead

It is absolutely pure, whiter than others; of great covering capacity and long life. Working under the brush with ease and freedom, it produces a tough, elastic film that does not crack' or peel.

Its real cost is less than that of seemingly cheaper white leads—because it produces a beautiful protective paint that lasts for many years. White Paint of unknown ingredients never looks well and rarely lasts two years.

Sergeant Roy M. Whypacht, tormerly with the Martime Fish Corporation, Ltd, as Digby, says:

"I note with pleasure that the Canadian fish business is booming; and I am firmly of the opinion that it will continue to boom. Shortly after my arrival in England, I had the pri vatege of taking a jurney along the east crast from London to Edinburgh, and, after spending a few days in visiting the historic places of the two expitole, I decided to run up to Aber deen and have a look at their fluteries. On visiting one of the large plants, I was, as first, surprised to find that they apparently had nothing on some of our Canadian plants; but, after herring an explanation for this state of sffire, I concluded than young Miss Canadawas not yet quite abreast of old John

### THE LOCAL MERCHANT

and you will see that the town merchant is one of the most progressive of your citizens. Rend that ov, r again, for it is a big claim, and it suggests an inference. He is one of the most progressive citizens and it is easily shown. This is not an appeal but a realization of forgotten facts.

In the first place, he is always one of the biggest supporters of the Church which he attends. Run some of them over in your mind and see if it is not correct. When the Church is in financial difficulties, it is invariably one of the merchants who takes hold of things, works out a scheme, and puts it on its feet. When the Church wishes to organof managing such a sale than the merchant? And when the Sunday School wants to embark on its annual plenic, is it not a merchant usually who hires the conveyances, who sends the whole thing off with a swing? He is the man. And he is the man we want to encourage and keep in the friends of ours, and we call them John Smith and James Brown, but for the very reason that being merchants they develop certain progressive, optimistic, executive and efficient qualities which no other profession builds up, and they are qualities which the community needs and must

And when it comes to charity, who is a more sympathetic listener than the merchant? Through his dealing so much with his fellow men the merchant rarely falls to detect the Imposter; but that very insight with human nature enables him to know the needy. And the result is, "Bill, but up a bound of tea, five bounds of sugar, ten pounds of flour, and a bushel of potatoes for old Mrs.

And Bill, the elerk, makes up that parcel at once and sends It right over to the old lady. When Bill gets to be a merchant himself, he will always have before him that xample set by The Boss" and he, too, will order parcels sent to another "Mrs. Brown."

is needed in the community.

Finally, consider the merchant in municipal affairs providing of electric light, water works, good streets and the attracting of reliable citizens to the town. And when bigger idea of the value of the merchant to the community?

Consider the streets. It is the merchant who is alvays aggressive to improve the streets and it is he who first knows of a bad spot on such and such a street.

No man knows the value of advertising better than he. It is the merchant who is enthusiastic over advertising the advantages of the fown, who attracts new citizens and makes the town grow. He is the man who is keen for new enterprises for the town and who organizes the efforts to induce factories to locate in the town.

You see the ld a, do you not? We have been hypnotized by the big catalogs into sending all of our money away. We have forgotten that there is such a thing as not such men as our merchants. Is he not deserving of your loyal support? Assuredly so. Then give the preference

#### Good Work.

PORTS OF THE YOUNG WOMEN'S PAT-To the Editor of the Courier:

Sin: It is a well known fact that nearly all cattle suffer from a pest call of warbles. These great worms are found jest underneath the skin on the backs of cattle and not only are they a source of great annoyance to the beast, but greatly impair the health of the animals as well.

On examination will be found. PRECIATED BY THE BOYS AT THE FRONT.

The following extracts from letters eccived lately by the Y. W. P. A. of this organization is appreciated by the hoys overseas:

animals as well.

On examination, will be found a number of lumps along the back, each lump having an opening at the top. By gently reasing the lump with the thumb and finger, the warbles can be squeezed out.

If all cattle owners would practise this method persistently, it would be the means of getting rid of the nuis ance the boys overteas:

Just a few lines to thank the mem bors of the Y.W. P. A. for the parcel received safely. I am sure the young ladies would feel better repaid if they gould occusionly get a glance of the receiver's face when he opens the parcel, than by receiving his poorly expressed written thanks. Apart from the parcel's value itself, it is nice in deed to know that although in a far country and in a Batvallon unknown to ons's townfolk, he is not forgotten by them. PTE C. B. HUTCHINSON.

To the Editor of the Courier:

Six —I wonder who first gave the name Westville to the locality near Digby that I concerns see, called by that name in year on most Heor she must have been ignorant of the fact thate is a very important town of that name in Pictor County. The other day I read of a soluter in the causity list belonging to Westville and for a moment I thought is was one of our neighbors. Now Gaway was an old name of Digby and it is a great pity for it not to be p-per unted in some of the neighboring wifers or hamles I would advise the people interested to call a meeting and pease resolution that the place he called Course, or if all the residents or the majority of them sign a letter to be published in your columns expressing their wish that the name Coulary be substituted for Westville it would probably be sufficient.
