The Town Plot is situated at the east of the township just within the entrance to Annapolis Basin, and twenty miles from Annapolis Town, and six miles across land from the head of St. Mary's Bay. This laid out from the water's edge, partly on level ground and partly on the declivity of a modern hill, dry and pleasant, and having with an eastern aspect a view of the Annapolis Basin and its cultivated shores for twenty miles in where it terminates with the Fort and River's mouth of that name. It was settled by Loyalists from New York in 1763, the most of whom went early to farms, or, moving to other countries, left the whole

There was a taste of trying to sell job printing outside the plant. Work was a little slack one early fall day and so "Mac" said to me, "how about trying your hand at taking orders for printed personalized Christmas cards?" I tried it, made several calls around town, spent most of the time at one particular (small) town, spent much time and got an order, but...

The first wireless telegraph coastal run in the District was the one between Dighy and the mainland. The equipment was installed and was seen in use on her trip to the mainland on December 22, 1914.

The new lightship for the island was put into service on January 15, 1914. It was a 100-ton vessel, with a 12-foot lighthouse on the mast and a 10-foot lighthouse on the bow.

Passage and along the coast of the island.

Loss of the schooner "W. Coombs" is a tragedy. The schooner, of Jamaica, was wrecked on the ship struck the rocks in Cuba Bay some 10 miles from the shore, and was carrying a cargo of iron. All the crew were rescued, but the vessel was shipped. The schooner was estimated at \$10,000.

This project was made possible with assistance from the Nova Scotia Department of Tourism, Culture and Heritage through its Strategic Development Initiative. This initiative supports projects aimed at enhancing the self-sufficiency of the heritage sector throughout the province.

The Municipality of the District of Digby is the lead organization to spearhead this project. The Digital Courier is part of the municipal initiative to preserve the past and develop the future; Council is honoured to be part of the preservation of these significant historical documents.

1800's

- (1810) the first elections were held in the County.
- (1837) the County of Annapolis was divided to include the County of Digby.
- Old Post Road and rural school system improved.
- Weymouth Trading Post established.
- Ship Building is a major industry in the area.
- (1879) the District of Digby was incorporated.
- (1891) the railway (the missing link) between Annapolis and Digby was completed.
- Joshua Slocum sails around the world alone.
- Temperance Movement.
- Summer Tourism Industry develops.
- I.M. Singer invents the sewing machine.
- Canadian Confederation (1867)
- Klondike Gold Rush
- The Supreme Court of Canada is established
- Florence Nightingale takes London nurses to the battlefields of the Crimean War

1900's

- Poor Farm in operation
- Isaiah Wilson's Geography and History of the County of Digby Published.
- Prime Minister Sir Wilfred Laurier visits Digby.
- Marconi transmits wireless message across the Atlantic
- Queen Victoria dies
- The Boxer Rebellion breaks out in China.
- The Boer War in Southern Africa ends

1910's

- (1912) last race of the Brattain Cup in the Annapolis Basin.
- First motorized vehicle in the area.
- Communities collect cloths and money for the war effort.
- Spanish Flue kills many in the area.
- First Calgary Stampede
- Women in Canada get the vote
- Halifax explosion
- WW1
- The Titanic Disaster
- Norwegian Roald Amundsen becomes the first to reach the South Pole.

1920's

- Motorized vehicles becoming more common.
- Last wooden ship built in Bear River.
- Electric lights installed in villages.
- Motorized vehicles becoming more common
- Canadian Schooner "Bluenose" wins the International Fisherman's Trophy
- Agatha Christie launches her career as a mystery writer.
- George Carnarvon and Howard Carter unearth King Tutankhamen's tomb

1930's

- Economic Depression.
- Rural electric lines being installed.
- Electric lights installed in villages.
- Highway paving projects underway.
- First crossing of the Princess Helene Ferry.
- Rum running along the coast.
- Rum running in its heyday
- Dionne quintts born in Ontario
- Movie "King Kong" released starring Canadian Fay Wray
- WW II begins

1940's

- Digby home to WWII submarine base.
- CFB Cornwallis largest training base in the Commonwealth.
- Scallop Industry expands.
- Hog farming expands.
- Population decline in rural communities.
- Newfoundland enters confederation
- UN Formed
- U.S. planes drop atomic bombs on Hiroshima and Nagasaki
- Orson Welles' film Citizen Kane, premieres

1950's

- Bus service along the Digby Neck.
- Population in villages continue to decline. NORAD formed with USA
- National Ballet of Canada founded
- Bear River Power Plant built
- Korean War
- Smoking linked to lung cancer
- Sputnik launched
- Castro takes over power in Cuba
- Elizabeth II coronation - Queen of England

1960's

- Sissiboo Power Plant built.
- Kejimikujik Park established.
- Conners Brothers Fish Cannery Plant closes in Freeport.
- Fish Meal Plant opens in Mink Cove.
- Weymouth Industries closure.
- Bear River Village Fire.
- Canada celebrates 100th birthday
- Pierre Trudeau sworn in as Prime Minister
- Bay of Pigs invasion
- Thalidomide deformities revealed
- Cuban Missile Crisis
- John F. Kennedy assassinated
- Demonstrations against Vietnam War

1970's

- Evangeline Mall built.
- New CN Ferry Terminal built.
- Ground Hog Day Storm.
- Municipal Airport opens.
- Hwy 101 completed to Digby.
- First Computer used.
- Jones Bottling Plant burns in Weymouth
- War Measures Act invoked
- Pierre Laporte murdered
- Canada-Soviet Summit Series in hockey begins
- Quebec language legislation (Bill 101) passes
- Munich massacre at the Olympics
- Rock stars Jimi Hendrix and Janis Joplin die.
- At Kent State University in Ohio, protesting students are killed by National Guardsmen

Vol. XLVII No. 24

APRIL FIRST IN TOM'S DIARY

Made believe I'd
Hane from school
Killed a toad—
April fool.
Fished two hours
In the pool.
Nodded 'hello'
April fool.
Tried to whistle
Through a spoon.
Hurt my cracked lip—
April fool.
Swiped my daddy's
Two-foot rule.
Punctured my finger—
April fool.
Used stove lighter
For a tool.
Hit the wrong rail—
April fool.
Went to see my
Sweetheart, Julie.
Got the mitten—
April fool.
Signed of Summer.
Turned round.
All the stoves down—
April fool.
Tried high diving
From a stool.
Bumped my oooo—
April fool.
Saw me right for
Missus school.
Boy, you said it—
April fool.

ASSESSMENT REDUCED TO \$2.75

The fourth Monday of the month falling on a statutory holiday caused the ordinary meeting of this Council to be held on the third Monday, the 21st inst., when there were present the Mayor H. T. Warne and Councillors W. F. Read, S. A. Keen, George Keen, F. L. Anderson, T. E. G. Lynch and W. S. Troop.

The minutes of the previous meeting and special meetings of the council were read and adopted, also the following report from the Superintendent of Streets and Water:

I beg to submit the following report. The principal work done on the streets this month was clearing drains of ice and snow and repairing wash outs that were caused by heavy rains.

Three service systems were taken up and repaired, and one gate repaired at the Racquette.

G. A. VYE.

Applications were read from F. W. Robinson and Harry Ripley for the position of superintendent of streets and water, and discussed, but the matter was deferred until later. Meanwhile Mr. Vye was re-

appointed for a month, and one member of the Council proffered to accompany the superintendent around some of the streets and obtain accurate information relative to the exact positions of the various service stations, so as to have the necessary details on file.

Boyd Bishop was again appointed Police Officer and C. T. A. Inspector for a month.

The following bills were ordered to be paid:

Canadian Municipal Journal	12.00
Letsony S. A. Foot	12.24
Holdsforth W. L. Joint	28.50
VanBlarcom W. E. Town hall	132.14
Straley A. L. M. Special services	81.00
VanTassel Benedict-Rent Lake	20.00
Streets & Water Pay roll	180.25
T. McAvity & Sons	61.31
Fraser Milne A. Office Sals	1.25
Telephone, Town Hall and Police	6.95
Dakin Bros. Street and Office	5.50
Holdsforth W. L. Streets and Water	4.00
Union of Municipalities	10.05

Reference was made to the apparent excessive prices charged by T. McAvity for pig lead and the clerk was directed to write them for an adjusted account before paying the bill.

The clerk was appointed purchasing agent for all supplies needed for the committees, requisitions for such to be sanctioned by the various chairmen.

Filing cabinets and office requirements were authorized, and the clerk was to ask for quotations for typewriters.

An adjournment till Wednesday the 23rd was moved at 10:30 p. m.

ORIGIN OF "APRIL FOOL"

Bulletin of the Bureau of Geographic Information of the National Geographic Society.

"Even in these times of turmoil and contention, there is still one day when a man may not only play the fool, but his friends are privileged to give him a headlong push down 'fools' hill."

"The origin of the custom of playing practical jokes on friends and neighbors on this 'All Fool's Day' is variously explained. Some of the explanations may interest those who have eaten cotton pie and bean 'chocolates,' says a bulletin from the National Geographic Society.

"Some writers trace the custom back to the days of the miracle plays given in England. One of the most popular tableaux satirized Annas, Caiaphas, Pilate, and Herod. In the decadent days of these dramas actors played largely for the amusement and applause of the groundlings, until Herod, in out-bidding himself and Pilate, in the performance of his obnoxious, literally made fools of themselves.

"A Feast of Fools' was held in the early spring by the Romans, and the Hindus, since time immemorial, have celebrated as a Saturnalia the vernal equinox, or Feast of Holi. During these festivities, the chief amusement seems to have been that of fooling people and sending them on fruitless errands.

"Many students trace the origin back as far as France, in the sixteenth century. At any rate, the custom seems to have radiated from France to England as well as to Germany, if we are to believe what Grimm says about it. France was the first nation to adopt the reform of calendar which decreed that the year should begin on the first of January. Consequently those who objected to sending out their New Year's gifts and felicitations upon the newly chosen date instead of April 1, as they had done previously, subjected themselves to endless taunts for being old fogies by going on visits that then had no meaning. The French call the victim of a prank on April 1, 'un poisson d'avril,' or 'an April fish,' of which our American saying, 'you poor fish is good for nothing' is a translation. The origin of the expression used in this connection probably arose in the obvious comparison between the person who 'bites' unwittingly and the April fish, which is a young fish and there fore easily caught.

"In Scotland 'April Fool's day' is observed, but under a slightly different name—the day for 'hunting the gowk or cuckoo. Some few of us who, in our unsophisticated days, have gone 'snipe hunting' in this country, know how the fellow feels who hunts the gowk, and realize that to be called an 'April-Cuckoo,' is not a compliment, that bird being a by-word of contempt in almost every land."

BAKER ESTATE AGAIN

City and State Officials Pestered by Would-Be Millionaires—The Old Humbug as Active as Ever.

By George Nox McCain in Philadelphia Public Ledger, March 12.

Some days ago I referred to that perennial and monumental fake, the Baker estate.

As a result there have come a number of letters making things about it and the facts of its development.

The most interesting feature of the publication is that the Department of Internal Affairs at Harrisburg, the Mayor's office in Philadelphia, and several other departments have been freshly besieged by anxious Bakers claiming heirship and visioning easy money in the not far distant future.

Briefly recapitulating, the story goes that Colonel Baker and his wife, who were according to the whim or wish of the swindler or dupe, an officer in the army of the Revolution, leased a tract of land in the heart of what is now the business centre of Philadelphia early in the last century.

The lease was to run for a period of ninety-nine years.

The transfer was lost sight of until within the last twenty-five years or so. In the meantime, the value of the land had increased until it was valued at \$200,000,000, or \$200,000,000,000.

The mythical Colonel Baker is alleged to have originally hailed from Somerset or some other western county.

He must have been the father of a numerous progeny, for his alleged descendants have multiplied prodigiously. From their letters they cover the entire United States and a large part of central and western Canada.

It would be an inexcusable waste of valuable time to attempt to determine the exact date when the fake was first foisted upon the public.

One might as well endeavor to get a chronological grip on his sister swindle, the prisoner in Spain and his buried treasure.

About fifteen years ago the persistence of certain western attorneys in seeking to obtain documentary evidence in this city of the existence of some such lease led to considerable uneasiness among property owners in the vicinity of South Penn square and the region round about.

But they had their fears for their pains.

Durrell Shuster, private secretary to Mayor Moore, together with Robert D. Harper, chief clerk to the Mayor, have taken measure been the largest recipients of anxious inquiries on the subject.

Recorder of Deeds, James M. Hazlett, has also been pestered by innumerable inquiries to a great extent. Not a week goes by that some willing-to-be-millionaire does not write for information.

There is not a department of the city, county or state government that has not, I presume, received inquiries about the mythical, colonial and the lease.

Early this Mayor's office has been turning these over to Director Hassick, of the Bureau of Legal Aid, to dispose of as he sees fit.

By long odds the best story concerning the humbug came to light following my reference to the matter a short time ago.

It was last week when a gentleman appeared in the office of Secretary of the Commonwealth Woodward, in Harrisburg, to obtain whatever facts were available.

He was a Canadian, and in some remote fashion was related to one of the supposed Baker heirs residing in Toronto.

There is quite a colony of the fictitious colonel's heirs presumptive residing in the vicinity of Toronto. So many of them, in fact, that they are said to have a large association whose principal business it is to contribute regular sums to a fund for investigation and legal aid.

Secretary Woodward's visitor was furnished with all the information concerning the Philadelphia lease and the supposed fortune of \$300,000,000.

Which was nothing at all.

As stated in my previous article, there is absolutely nothing, directly or indirectly, of record in any of the state departments relating to any such thing as the Baker lease.

The Canadian visitor confessed he was not surprised. He had always looked upon the thing as a hunt for a chimera.

The Toronto Bakers and the others interested had, he said, an attorney retained at a fee of \$100,000 to assist on prosecuting their supposed claim. They had been fed up with the idea that the millions were shortly to be distributed, and it was now only a question of time until each of them would be lolling in his

CHILDREN'S HEALTH UP TO PARENTS

Doctor Tells Where Mistakes Cause Great Harm.

"That death certificates of many children should be signed 'not properly trained by parents,' instead of long medical names, was one of the points brought out in an address by Dr. John Lovett Morse of the Harvard Medical School at Boston, in Trinity Church, Newton Centre. His subject was 'A Talk to Parents About Children.'"

"Children are not to blame for being brought into the world," he began. "They should be neither accidents nor incidents. The responsibility of the parents lies in two directions, physical and moral well-being. The greatest fault of the child today, is the lack of obedience and the lack of reverence for authority. Cruelty is not necessary in training a child, nor is deceit. Money is given too freely to children. Bad candy and ice cream are sure to result in illness. Parents cannot bring up children as they would care for an automobile. The auto can be scrapped, but the child cannot. The auto can be taken apart, and examined. A child cannot be taken apart, but he can be examined. Be sure that he is examined, especially his teeth, which should be looked after at least once a year up to the age of five years and more often after that age."

"The child of today gets too much sugar. Sugar is not necessary for a child's well-being. Take the Eskimos—they never get any sugar and yet they are one of the healthiest peoples on the earth. Sleep is essential for good health. The child of today stays up too late. Every child up to the age of eight years ought to be in bed at 7 o'clock, and up to the age of 15 years at 8 o'clock. If a child refuses to go to bed early he is in a bad way. I am sure one treatment would be enough."

"I recall the case of one of my patients, a girl. She is obliged to get up early in the morning to practice music. She takes an auto into town to school. In the afternoon her time is given up to social affairs, gymnasium and the dressmaker three times a week. Evenings she is taken up with social affairs. Saturday at the dentist's and the following day Sunday school. In fact, so much of her time is taken up that I wonder when she sleeps. Yet this girl wonders why she is a near physical wreck."

THE LIFE OF ANIMALS

Very few people realize how long the various insects, reptiles and animals they are familiar with live, if allowed to live out their natural span of life. The following table may be worth keeping in your scrap book:

	Years
Bee	4
Beaver	50
Beetle	1 to 4
Birds	3 to 30
Camel	50 to 60
Canary	100 to 150
Cat	18
Cow	20
Crocodile	100
Crows	100
Deer	20
Donkey	25 to 30
Dog	23 to 30
Eagle	100
Elephant	150 to 200
Fox	15
Fowl	10
Goose	50
Hart	7 to 8
Heron	60 to 80
Hog	20
Horse	25 to 30
Lark	16 to 18
Lion	60
Monkey	16 to 18
Ox	20
Parrot	100
Peacock	20
Pelican	40 to 50
Pigeon	20
Pike	100
Rabbit	8 to 9
Raven	100
Rhinoceros	20
Salmon	10
Sheep	10
Sparrow Hawk	40
Spider	1
Squirrel	50
Stag	100
Sugar	25
Tiger and Leopard	25
Toad	20 to 30
Tortoise over	100
Viper	6 to 7
Wolf	20
Wren	2 to 3

A Cleveland Bicycle

will take you to those out of the way places you have been wanting to explore, with the smallest amount of energy in bicycle riding. There is lots of fun in a bicycle picnic. The specially reinforced frame, copper, then nickel plated trimmings, perfectly lined sprockets and crank bearings make up a wheel that wears, holds its finish and runs as easy as it is possible, and easier than the majority. The main driving sprocket is set well in so that the side throw strain is reduced to a minimum. For 1921 we are getting the wheel on a small commission basis direct from warehouse. Get our prices first.

Filing cabinets and office requirements were authorized, and the clerk was to ask for quotations for typewriters.

An adjournment till Wednesday the 23rd was moved at 10:30 p. m.

On Wednesday all the members of the Council were again present, and on motion the bills of Daley's Electric Light for Streets \$6.66 and \$4.67 for Town Hall were ordered paid.

F. W. Robinson was appointed temporary assistant for Roads and Water for two months at a salary of \$75.00, and W. Franklin was engaged with two teams to work under the direction of the streets at a salary of \$16.00 with the proviso also that the money during the forthcoming spring or summer be paid at the rate of \$1.00 per hour for self and team.

A letter was read from the Universal Garage suggesting the purchase of a Ford truck for town use, and the estimate was referred to the Streets Committee.

The estimates for the year were then discussed, and after very mature deliberation a rate of \$2.75 per hundred dollars was ordered to be laid for the ensuing year.

In the estimates provision has been made for the sum of one thousand dollars to be set aside for Waterworks Sinking Fund.

The attention of the council was called to the prevalence of children in the streets after curfew, and also the roving of youths and others in streets and on the school playground, and the Chief of Police was directed to bring offenders before the Stipendiary.

"A Feast of Fools' was held in the early spring by the Romans, and the Hindus, since time immemorial, have celebrated as a Saturnalia the vernal equinox, or Feast of Holi. During these festivities, the chief amusement seems to have been that of fooling people and sending them on fruitless errands.

WHAT A PACK OF CARDS TELLS

A private soldier was taken before the magistrate of Glasgow, Scotland, charged with playing cards during church service. In reply to the charge the defendant pleaded his purity of intention as follows: "I have been about six weeks on the march. I have nothing except a pack of cards, and I hope to satisfy your worship of the purity of my intention." He then informed the court that the ace reminded him of one God; the deuce of the Father and the Son; the three of the Father, Son and Holy Ghost; the four of the four evangelists, Matthew, Mark, Luke and John; the five of the five virgins who trimmed their lamps; the six of the six days in making heaven and earth; the seven of the seventh day of rest; the eight of the eight righteous persons saved in the ark; the nine of the lepers cleansed by the Saviour; the ten of the Ten Commandments; the king of the great King of Heaven; the queen of the Queen of Sheba; a wise woman; the jack of the constable who incarcerated him. The soldier also informed the magistrate that a deck of cards could serve the purpose of almanac. The total number of spots on all the cards amounts to 365, as many days as there are in a year, and the total number of cards is 52 one for each week of the year.

The Seventh National Exposition of Chemical Industries will be held in New York city next September.

CREOPHOS

There's Magic in the name.

There's healing in the bottle.

It fortifies the system enabling weak constitutions to successfully combat the insidious disease germs, gives appetite, increases flesh and improves the general condition.

And remember, no fancy price is asked, just the good old time charge of one dollar per bottle.

What is wrong with the schools?

To the Editor of the Courier:

SIR: Our present mayor and town council deserve praise for the interest they are taking in their public duties, and for the attempt they are making to combine efficiency with economy. I fear, however, that they are not doing enough.

In the matter of education Digby is in a backward state. This is not owing to lack of expenditure, but to other causes. We are heavily taxed for the support of our schools. In the present year about seven thousand dollars will be spent for that purpose in this small town. We have sufficient teachers, who, it may be presumed, are properly qualified and capable. Why, it is then, that we have such poor results?

Our High School, which is the County Academy, includes Grades Nine, Ten, and Eleven. I am told that only four boys belonging to the town are enrolled, and only five boys in all. In Grades Nine and Eleven there is not even one boy. It is with yearly expenditure of Seven Thousand dollars only four boys in three years reach the Ninth Grade. There must be something radically wrong with our school system. Our boys at least are not being properly educated. That is not the worst of it. It is a fact that a considerable number of children of school age in the Town are not receiving any education. These are the boys who are growing up in ignorance and all that ignorance implies. There are young men, and perhaps young women too, walking our streets, who can neither read nor write. This is a deplorable state of affairs, but there is no need to disfigure the truth. Those faults are, and what is the remedy? I am not saying that it is wholly or even chiefly the fault of the School Board, but it is certainly up to them to study the question and endeavor to find a remedy.

DIGBYTITE.

THE Y-SERVICE

Grant Hall and several other C. P. R. officials, accompanied by George E. Brown, the manager of the L. A. R. Co., passed through Digby on Tuesday. While in Yarmouth Mr. Hall was asked regarding the Y-Service, and he replied that he knew that ship was for her annual re-arranging, etc. of the Digby St. John route. He replied that so far as he knew the ship had yet been obtained to relieve the Empress. He stated that efforts to secure a ship were being made, but owing to the fact that the short period, about ten days, that the Empress would be in port, it was most difficult to find a ship to do the work of the Empress.

Mr. Hall was also asked as to what was being done by the C. P. R. regarding the ferry between St. John and Digby and if he thought it would be established. Mr. Hall replied that he did not believe the C. P. R. would ever undertake to establish a ferry. It had been talked about for some time and had brought Capt. J. W. Troupe, a marine superintendent in their Pacific Coast Division, who was familiar with such ferry services, to make a survey of the St. John-Digby proposition. Capt. Troupe spent considerable time on the work and when he had completed his investigation, he strongly advised that it would be inadvisable to establish a ferry between the two ports. The principal objection was the terrible tides and currents with which the navigators of the Bay have to contend and also the uncertain weather conditions during a greater part of the year.

Local and General

A meeting of all the representatives of the different clubs in the Maritime Provinces has been called for April 5th, at Yarmouth, N.S. This meeting is to go over the different rules affecting amateur sports, so that any rule that is not quite clear may be explained, and that any and every club may have the opportunity of knowing fully the rules that govern amateur sport.

Stillman Henshaw, of Deep Brook, has just made his daughter, Sylvia Henshaw, a very nice birthday present of a fur coat made of sixty muskrat skins picked from a lot of five hundred skins of the same kind, but of different sizes. The coat is made of the skins of the oldest hoppers in Annapolis County. It has bought furs in every county in Nova Scotia, New Brunswick, Province of Quebec and Vermont. Robertson & Co., of Montreal, say that these muskrat skins are a little larger in size and well matched for color. The coat is worth two hundred and fifty dollars at current prices.

A rare treat is in store for the citizens of Digby on Friday evening, April 15, for on that date the Rev. J. H. MacDonald of Wolfville will deliver his most interesting lecture of David Lloyd George, the head of the British Empire. Dr. MacDonald is a member of one of Nova Scotia's most eloquent speakers, and his lecture on David Lloyd George is said to be one of the very best. The ladies of the Canadian Club, under whose auspices the lecture will be held, are to be congratulated on bringing to the town a talented speaker to Digby. Tickets will be on sale next week and it is to be hoped that they will meet with a trade sale.

Those who availed themselves of the opportunity of hearing Capt. Tom Best at the Methodist and Baptist churches on Sunday and Wednesday evening of this week enjoyed a rare treat. His lecture on Canadianism was a brilliant and interesting one. His talks were full of incidents and experiences which were illustrated by striking anecdotes and flashes of native wit. Capt. Best has made many friends in Digby and they are all anxious to hear him again. He will be in town again on Thursday and Friday of next week and it is to be hoped that they will meet with a trade sale.

Local and General

Sometimes its like spring and sometimes it is like autumn.

The schooner Rose Anne Belliveau is loaded and ready for sea.

John Joseph Talbot, of Hecate, N.S., has been granted a justice of the Peace for the County of Bay View.

We sympathize with some who strenuously object to being tagged "April Fool." The great mass of the population, however, will hang out clothes on Wednesday, breaking a bone in one of her ankles.

The Easter concert at Bay View held last Saturday evening, was a success and quite a sum was realized for the church and school.

The lifeboat came to town Wednesday last and was overhauled by Frank C. Robinson. She left for home about 6 o'clock, under sail.

A J. Trohon built and installed a large windmill for furnishing power for his drills and grinding wheels. It works well and is giving good satisfaction.

The biggest fool of all the fools is he who doesn't want to be an April Fool.

Following the investigation with the loss of the steamer City of Columbia held in St. John this week, the certificate of Capt. Robert MacArthur was suspended for three months from March 29.

The taxi boys debating team from Bridgeport, which won the boys' team night at James R. MacArthur's, was defeated by the team of the St. John's team. The whole of the team will likely accompany them, so the postcard to the taxi boys.

Please get your contribution ready for the party sale of the local branch of the Victoria Order of Nurses to be held on Saturday, April 16th. Read the next issue of the Courier and it will tell you where to send your contribution.

The concert given under the auspices of the Woman's Missionary Aid Society of the Methodist church, held last Monday evening, was a great success. The younger members of the Sunday school furnished the programme, and the hall was filled.

The Methodist church will be open for the worship of God, at the usual hour on Sunday. The subjects for discourse and meditation will be in line with the school instruction for that day, "Christian Ideals of Life and Conduct."—Preacher, Rev. A. Hocking.

Capt. Harry Ross, of Digby, who has been sailing the schooner Morning Star out of Gloucester for several years, has been named as the new captain of the Morning Star.

Mrs. George Reppeol, of Westport, met with a painful accident while about her usual household duties last Thursday. In doing so she suffered a severe fall and in doing so so seriously injured one of her legs that she will not be able to be definitely settled if it was fractured or not.

The auxiliary schooner George Lee, Capt. Ralph Welch, of Westport, arrived in Yarmouth on Thursday afternoon with a cargo of 200 quintals of dry pollock for the Yarmouth Trading Co., Limited. The schooner was chartered by the Yarmouth Trading Co., Limited.

Thirty horses arrived on the Empress on Tuesday, twenty for Weymouth and ten for Yarmouth. The horses were from Saskatchewan and the latter from Ontario. The animals were in splendid condition.

The tennis dance held last Monday evening, was not the success it was hoped for. The promoters had hoped, (Spicer's orchestra, from Yarmouth, consisting of Charles Dowling, clarinet; Thomas Cummings, violin; Douglas Smith, drums; Henry DeVille, piano; M. Penn Spicer, cornet and leader, furnished the music. The chaparrone were the married members of the Tennis Club.

The contract for floating the steamer City of Columbia, has been awarded to the Atlantic Wrecking Company, of Halifax. The wrecked vessel is in a good position and has sustained no damage since that sustained when she went ashore. It is the opinion of the captain of a wrecking steamer which has been at the scene this week that the vessel can be floated after the larger part of her cargo has been taken out.

With what an overdose of spleen. Who hates the innocent delight That comes with youth's first.

Obituary

The death occurred on Wednesday morning, March 23rd, of Jessie Viola, little daughter of Mr. and Mrs. Ralph Nesbitt, Rosway, at the age of 22 months.

Interment took place in the Baptist cemetery, Rosway.

Many will sympathize with Mr. and Mrs. Peter Hum in the death of their little daughter. The little one had been in ill health ever since its birth over six months ago. The remains were taken to Halifax for interment.

MRS. GEORGE H. RUSSELL. The death occurred on Good Friday, at the Salem Hospital, Eugene, Ore., of George H. Russell, of Salem, Mass. The deceased was the second daughter of the late John C. Russell, of Bay View, and was the wife of George H. Russell, of Salem, Mass.

MRS. ROBERT MACARTHUR. The death occurred on Wednesday morning, March 23rd, of Robert MacArthur, of Westport, N.S. The deceased was the son of Robert MacArthur, of Westport, N.S.

MRS. O. S. JOHNSON. On Thursday, March 17th, Mrs. George S. Johnson passed peacefully away at the home of her daughter, Mrs. A. W. Clouston, of Rosway, N.S. She was well known throughout the Province, having during her life been a member of the Baptist Church, and was a devoted mother and a good friend.

Mrs. Johnson was born in the County of Kent, England, and came to Canada with her husband, Mr. George S. Johnson, who was a member of the Baptist Church, and was a devoted mother and a good friend.

Wedding Bells

ELLIS-NOAKES.

On Wednesday at the home of Mr. and Mrs. E. G. Allan, 289 City Road, St. John, Miss Violet Gertrude Ellis, formerly of Port Wade, was united in marriage to Harry Lawrence Noakes, of that city.

The ceremony was performed by Rev. A. Lawrence Tedford and Mr. and Mrs. Allan were in attendance. Mr. and Mrs. Noakes will reside in St. John.

TAYLOR-MITCHELL.

Frederic R. Hull, of Ipswich, Massachusetts, announces the marriage of his daughter, Gertrude, to Mitchell Taylor, of Port Wade, N.S., on Thursday, March 17th.

The wedding took place at the home of the bride's father, and was very quiet owing to the recent death of the bride's mother. The ceremony was performed by Rev. F. Ward, pastor of the Baptist Church, of which both young people are members.

Mr. Taylor having been recently appointed as deacon, Miss Elsie Schmitt was bridesmaid and Arthur Hull, brother of the bride, was best man. The other guests were Mrs. J. F. Ward, and Mrs. A. S. Gaudin, aunt of the bride. Both young people are very happy.

Mr. Taylor being an interested church worker, and a fine musician. The bride's going away gift was a brooch of white silk, Ramona cloth coat, also brown hat to match. The young couple enter their new life with the best wishes of their friends.

Frederic R. Hull, of Ipswich, and the late wife of the late Mr. Hull, of Presport, Digby Co., N.S.

HALF-SISTERS BRIDES AT DOUBLE WEDDING.

Miss Constance Emily Syer and her half sister, Miss Lillian Rosina Boucher, were brides recently at a double wedding at the home of their mother, Mrs. Rosina Boucher, 19 Hancock st., Winchester, Mass.

Miss Syer was married to James E. Marshall of Marshall, N.S., and Miss Boucher to Mr. James A. W. Clouston, of Rosway, N.S.

Both brides were members of the Baptist Church, and were very happy. The ceremony was performed by Rev. Ernest M. Gaudin, pastor of St. James Episcopal Church, Cambridge, officiated at the ceremony.

Another Viewpoint.

Clara—I overheard Mr. Blimberly say to a friend the other evening that I was a pretty young lady. Maude—Well, you are pretty young, but, of course, you are growing older each day.—Chicago News.

He Lumped It.
"My coffee is not quite sweet enough," remarked a man.
"Well, if you don't like it I suppose you'll have to lump it," said she, with a smile, passing the loaf sugar his way.

Loyal.
"I have no patience with Dublin. He sneers at Velasquez."
"Well, I don't care much for foreigners myself, but if Velasquez is a friend of yours I don't blame you for getting sore."

The Price of Love.
Says an advertisement in the London Express: "Mary—Waited three hours at appointed spot until questioned by suspicious policeman. It is the price of love it is too heavy a one for me to pay. Farewell, Pats."

Flinty.
"What a hard face Mr. Squiggins has!"
"He certainly has. A barber would have to use a pick to give him a facial massage."—St. Louis Post-Dispatch.

Slow to Learn.
"This newly made millionaire is an uncouth fellow."
"So he is. Yet he frequents the most fashionable restaurants."
"That's why I think it strange that he is so backward in acquiring a polish. The mere contemplation of a faintest head waiter ought to give him some idea of deportment."—Birmingham Age-Herald.

The Light in the Window.
The transport had entered New York harbor. On board was one lone cold soldier, among the boneward bound. As the ship passed the statue of liberty there was absolute silence, which suddenly the dusky doughboy broke the quiet by exclaiming: "Put your light down, honey, I see home."—The American Legion Weekly.

SANDY COVE

March 24th.

Sorry to report little Greta Dakin on the sick list.

Mrs. E. D. Morehouse, was called to Centerville on Monday, on account of the illness of her mother, Mrs. Rachel Morehouse.

A number of men from this village visited the wreck at Tar Cove, on Monday.

Glad to report Mrs. Chipman Saunders who has been seriously ill slowly improving in health.

E. D. Morehouse made a business trip to Weymouth on Friday.

Mrs. George Morrell, who has been the guest of her husband in St. John, returned on Wednesday.

Dr. and Mrs. F. E. Rice, accompanied by Mrs. Ingram Saunders, motored to Digby on Saturday.

A number from this village attended the concert at Little River on Saturday evening.

Miss Violet Ross, accompanied by Mrs. D. G. Dakin, went to St. John, on Monday for medical treatment.

Mrs. H. E. Jones, of Digby, spent several days of last week the guest of her mother, Mrs. Ingram Saunders.

FREEPORT.

The Men's Bible Class decided last Sunday to hold a library for their own use and resolved to have a special offering on the first Sunday afternoon in each month for the library fund. The first collection will be taken next Sunday. Meanwhile any former members of the Freeport Church who would care to assist in laying the foundation of the library by the donation of good books of fiction, travel, adventure or geography which they have in possession, or longer require for personal use, will be rendering a most valuable service to the uplift of the mental and moral life of the community. The membership of the class is 115 the attendance last Sunday was 78. Our program aims at an average of 100 per Sunday. New members are encouraged to attend the afternoon at 2. Our watchword is "The Manhood of Freeport for the Kingdom of God." Bible Study and Gospel Music and Brotherly Love are our agencies for the accomplishment thereof.

GRANVILLE FERRY

Grant returned home from Windsor on Friday.

General J. H. and friend Miss Irene Gage, of Halifax, spent the week end at the home of Mr. and Mrs. LeBaron Mill.

The members of the Methodist Sunday school held an Easter Concert in the vestry of the Church on Monday evening. Proceeds amounting to \$16.00.

George Amberson, who has been spending the winter months in Maiden, Mass., returned home Friday.

Mrs. Baber and children and sister, Miss Nina Apt, of Boston, are spending a few weeks with their parents Mr. and Mrs. William Apt.

We are glad to report Mrs. Phoebe Knowlton very much improved in health.

NAVY LIBRARY WORTH VISIT

Apartment in States, War and Navy Building at Washington, Should Appeal to Tourists.

The navy library, in the state, war and navy building, is a lovely place to visit. It is a large and comfortable building, with a fine collection of books, and a very attractive interior. The building is situated in the heart of the city, and is easily accessible by public transport. The library is open to the public, and is a very interesting place to visit for anyone interested in the navy or in the history of the United States.

The center of the large room, lined with shelves of heavy books, on naval matters, there is a large and important collection of books. Around this table sat the strategic board of the Spanish-American war. Here also the naval advisory board for the great war made its plans, and here the experiments of Edson, Mahan, and many others conferred over it, with the windows carefully darkened and a guard before the door.

There is a quietude to the library. A little white-haired lady can be seen any time, fitting about the shelves of dark, heavy books, or cutting and pasting busily in her corner by the window. This is Miss Mason, daughter of a former secretary of the navy. She has been in the library 29 years. If you happen in near noon she may give you a cup of tea on one corner of her desk.

And of all charming places to have an unexpected cup of tea, with a sweet little lady, this quiet nook among the books is recommended.

TWO TRAVELERS CAME BACK

According to Army Captain, Mules Returned From That Dim and Undiscovered Shore.

The regimental morning report is a four-column document. On it appear all the changes in status of men and animals for each preceding 24 hours. It happened in an Ohio regiment once that two mules fell ill one night. The veterinarian gave his verdict of hopelessness, and the captain of the supply company accordingly made the proper entry on the morning report: "Two mules, from duty, to dead."

But under the care of the grizzled old stable sergeant the mules recovered and next morning the captain found the two mules still kicking in their stalls. The next morning's report carried the startling entry: "Two mules, from dead to duty."

Shrub May Prove Valuable.

Two years before the war, the story of a certain shrub was reported.

Applied for permission to experiment with the plant life on a great island in the central Mexico. Their request was granted, and the shrub was found to be of great value.

The shrub was found to be of great value in the treatment of certain diseases, and it was found that it was a very valuable plant.

Fertilizers-(“Made at Windsor, N.S.”)

During the past month we have had numerous requests from the farmers and fruit growers in the Annapolis Valley for the address of our nearest local agent, where they can get the “Made at Windsor, N.S.” fertilizers. This request as a rule came from those who have used our fertilizer exclusively the past several years and have had such good results from the use of it they do not want to make any change. Others are from those who have not been using our fertilizer but from year to year we are adding new customers not only in the Annapolis Valley but in all sections where our brands are offered.

Most of those writing to us are interested particularly this year in buying fertilizer made in Canada and more especially fertilizer made here. They do not feel that they should go outside for anything that they can buy which is made here and they know they can depend upon getting from us the best of materials in good shape and delivery when they want it.

The Canadian Reconstruction Association which was organized immediately at the close of the war for the purpose of doing what it could to get things back to normal conditions in its recent issue calls particular attention to the necessity of everyone spending his money at home and not going outside for anything he can buy here. The latest pamphlet issued by them refers particularly to the importance not only of supporting the industries that are already here but attracting foreign capital to develop to the full possibilities all branches of industrial activities.

Everyone has read in the daily papers during the last year that an immense amount of money is sent out of the country for imported articles. This is due to two reasons. One, a more or less tendency to feel that there is something in the word “Imported” and the other to the fact that there are so many things which it is necessary to import because they are not made in Canada.

Along the same line and for the same purpose the Canadian Manufacturers Association says that now

is the time above all others that every man should examine everything he purchases and find out whether or not it is made in Canada and if there is any reason why it should not be a Made in Canada product when he can get it on equally advantageous terms.

The early part of March we mailed to all the customers on our books and to a large number of users of fertilizer a poster showing our complete plant. This was mailed at the beginning of our 9th year of operation, to give our customers and others an idea of the size of the works of the “Made at Windsor, N.S.” fertilizers. This plant is the largest plant in Canada for the manufacture of complete fertilizers. It gives employment to from 50 to 100 men and has been continuously in operation since starting. We maintain a travelling and office force and spend for wages in all departments together with local supplies in the way of coal, barrel stock and materials of all kinds necessary to conduct a business of this size upwards of \$100,000.00 yearly.

It is industries like this that the Canadian Reconstruction Association and the Canadian Manufacturers Association call the material life of the country and which they ask the people to support. It is only by buying “Made in Canada” goods that further industrial developments can take place and indeed will it be possible to continue present industries or at least to run them to anything like their full capacity.

Under the present industrial conditions the most serious difficulty is that of re-employment. Every person who buys a “Made in Canada” product assists in reducing unemployment while every purchase of imported goods adds to that difficulty.

We have arranged to have the “Made at Windsor, N.S.” fertilizer on sale at most of the principal centres in the Annapolis Valley. The price will be as low as you can buy similar goods from anyone else and the terms will be as advantageous. We believe that our goods will be in better mechanical condition, packages in better shape and it will be in every particular superior to that which you can buy from anywhere else.

Soldiers Wear Whiskers.

There are signs that whiskers are being cultivated again. It is a remarkable thing that, although both King George and his father, King Edward, were bearded, very few of their subjects followed their lead.

In fact, from the days of the later Stuarts to the Crimean War, all Europe was clean-shaven as well as bearded. The bearded warriors of the Crimean brought home the fashion, and for forty years society occupied itself in devising new fashions in whiskers.

Sothern, the actor, made the Dundreary style the rage, and a dude of the sixties was hardly complete without side-tambs. From France and Napoleon the Third came the Imperial, a little tuft on the chin. The same period also saw the rise of the mutton chop side whiskers, which were worn both with and without the moustache, while Hodge compromised between beard and no beard by shaving his chin and jaw and upper lip and leaving a fringe round the throat as a sort of natural oufler.

The twentieth century had largely returned to the clean shave, but the war brought back the military moustache, reduced, in most cases, to the smallest dimensions.—Answers.

“Beating the Bounds” by Air.

Port Melbourne has improved on the ancient British custom of “beating the bounds” of a municipality. Instead of a solemn peregrination, the mayor, Councilor Page, and a police constable flew over Port Melbourne in an airplane and then visited South Melbourne. Whether this airy way of performing a solemn duty will be the cause of civic revolution has yet to be determined and the fact that the inspection was made on a Sunday may bring down more wrath. There is of course a distinct advantage in viewing ruddy rumps from the air, but Port Melbourne has no reason to fear a more minute inspection of her highways and byways.

Ready Explanation.

“Waiter, it seems to me the portions have grown smaller than when I was in here last summer.”

“That is only by comparison, sir; we have enlarged the place.”—Boston Transcript.

Real Luxury.

“Did the bride receive many handsome presents?”

“I should say so. One the detective at the house never took this egg off was a case of eggs.”

Tree-Spraying Apparatus.

One of the developments of the fight against tree pests is a mobile power sprayer that is touring the middle west, working in certain localities only so long as the services are demanded, then moving to another field. A solution containing arsenate of lead is used in the sprayer, in warm weather, and one made with lime and sulphur in cold weather.—Popular Science Monthly.

Investure at Buckingham Palace, London. The King conferred the honor of Knighthood on Knights Bachelor designate at Buckingham Palace. Sir Harry and Lady Lauder leaving the palace after the investure.

CREOPHOS

There's Magic in the name.

There's Healing in the bottle.

It fortifies the system enabling weak constitutions to successfully combat the inroad of disease germs, gives appetite, increases flesh and improves the general condition.

And remember, no fancy price is asked, just the good old time charge of one dollar per bottle.

EUROPE TAKES TO TYPEWRITERS

Business Men There Are Gradually Laying Aside Steel Pen and Using Modern Methods.

Without a typewriter an American office would not be an office, but a relic of a past age. But Europe has been writing with pen and ink, and is now waking up to the typewriter, remarks the Golden Age. In France the courts are working on the problem whether a document such as a deed or a mortgage is legal if written on a typewriter.

The world war taught Europe many things, among others to value the typewriter. Prior to the conflict the proportion of the American writing machine output that was exported was 25 per cent to 40 per cent, now it is 60 per cent. The machine would be going over the water much faster if Europe could get the credits necessary to correct the unfavorable equilibrium of exchange. Wiley, the great dealer that are expected have been made, the situation will be improved and a much greater volume of typewriter exports is looked for as a result of the conflict.

Europe needs among other things modern office methods. This will be helped in effecting this transformation because the prices of writing machines have not increased heavily as much as those of other products, partly because the prices were unduly high before the war. Employment is, in the order of the day, and the typewriter will become ever more marked as the golden age comes on.

NEED OF SPECIAL TRAINING

Youth Starting in Life Must Remember That This is an Age of Specialists.

We are living today in the age of specialists in almost all lines, and the young man who wishes to earn his own living is distinctly handicapped in some one line. His chances of advancement are negligible. It is true that he can turn his hand to a great number of things, but he is not an expert in any one of them and can hope for a few of the advancements, but unless he is himself by training, experience and study, for something better he will soon find he is in a blind alley.

A boy does not always realize that school life becomes hindrance to the lad bubbling over with fun and energy, and for him to sit on a bench, with a book in his hands, studying what seems to be uninteresting facts, impresses him as a real hardship when he longs to be out in the world taking a place among comrades who have proved themselves independent.

This is the place where the mother has of the parent is necessary. The boy must be made to understand that the training he is receiving now is sharpening him for future opportunity. It is likely to be responsible if his parents have realized his value, and if they can show him that in dollars and cents he will be the winner by continuing in school.—Emma Gary Wallace in Canadian Magazine.

- (7) Irish Cadets in lorry, looking for suspicious characters.
- (8 and 9) The state opening of the British Parliament. Their Majesties the King and Queen photographed in the Robing Room of the House of Lords.

Kaslo on the Kootenay in British Columbia

It is an old story now how the pioneers who first went to California and Alaska in search of gold were disappointed and angry that the limited nuggets were not everywhere to hand. Yet men have since found in both these places nature held in her hand a far bigger, even if a different reward than any they had "blacked out" for themselves. Opportunity is everywhere. But it is undeniably true that at the present moment Canada, in the full-section on nature's world-map, offering the largest and most obvious opportunities to settler and investor. A horn of plenty is Kaslo on Kootenay in British Columbia. In pioneer days and afterwards to Alaska possessed with but one idea and that to mine. Nature cognizant of her many cards of opportunity smiled indulgently upon them and banded out the Kaslo-Slocan, admittedly one of the richest mineral regions in all Canada. To-day a score of mining companies, some of them with fanciful and romantic names: "Blat," "Lucky Jim," "Queen Bee," "Ramblin' Cariboo," etc., attest the quantity and richness of the ore. Soon after this nature began to unfold her own plans. She walked into every timber shack with her world-map and a revolving globe, and began to point out and emphasize Kaslo and Kaslo opportunities other than mining. The town was built and incorporated in 1893. The first incorporated city in the Kootenays.

A beautiful spot is Kaslo. All who know Switzerland are struck by its resemblance to picturesque Lucerne. Indeed even the guide-books now call Kaslo "The Lucerne of America." And is there good fishing in the lake? An afternoon of trouting at the mouth of Campbell's Creek is an afternoon to remember. Especially if you build a fire of driftwood on the beach over which to fry your trout and hang your camp-bottle for tea.

In winter a town for this section nature very well understood was

Halifax

The Roads are Getting Fine!

During the next eight or nine months you should take advantage of the fine weather and get out in the country. We would strongly urge that you buy a new car, but we know that in some cases this is impossible, and a good

Second-Hand Car

would serve the purpose just as well. We have some bargains in this class of car and following is a list of some we have.

McLaughlin LIGHT SIX, thoroughly overhauled, newly painted, good tires. This car is in splendid condition and is a good buy at the price we have on it.

Dodge in good repair, with a spare tire. Requires no attention and can be run right out of the garage.

Willys-Knight Requires a little work to be done on it, but nothing expensive; has a set of good tires and can be got ready to run in a few hours. A little money would make this into a first class car, for all practical purposes, as good as new.

Chevrolet 1917 MODEL, in good shape, but it should be overhauled and cleaned before it is taken out of the shop. Will be sold cheap and will make a splendid car for some man.

Chevrolet 1919 MODEL. This car has had the best of care and is in first class order, ready to run.

Fords from 1914 to 1921 models. Some are in good shape and some not so good, but a Ford can always be depended upon to run no matter what condition it's in. Prices of second-hand Fords from \$250. up. If you would rather have a new Ford—and it's only a question for yourself to decide—we have them.

We have a new

Fordson Tractor

in stock ready for delivery, and in a few days will give a demonstration in ploughing at any time or place on short notice.

VIMY

Mercurial cannonade, bayonet and bomb Rolled back the Huns, from the banks of the Somme. Broken, bewildered, in headlong retreat. Nothing could save them from dire defeat But Vimy.

Stretching from Arras clear through to the Coast. Nature's own barrier, Hindenburg's boast. Stormed by the French at a terrible cost. Won by the English, but won to be lost. Frowned Vimy.

Where are the troops with the courage and might. Needed to take this invincible height? "My brave Canucks," said Sir Julian Byng. "We'll stay here all winter and then, in the spring, Take Vimy."

Daily they planted and sprung their great mines. Raided and bombed all the enemy's lines. Wading through mud in the cold rain and snow. Under the eye of a tireless foe On Vimy.

Dashed April ninth, and a myriad guns. Hurled avalanches of steel on the Huns; Then, at five thirty, forth surged the Canadian Corps, rushing up the steep side Of Vimy.

Thundered the guns of the foe from the crest. Streamed death forth from the machine gunners' nests. "Count not the cost," is the Hun's stern command. "By all you love in the dear Fatherland, Hold Vimy!"

Vain the command, "Kamerade!" Here As Canada's mighty avengers sweep by. Up to La Folle and Telegraph Hill. Driving the terrified Prussians at will From Vimy.

Dashed April twelfth, from "The Pimple," alone. The flag of the great German army is down. "Forward once more ye Canadians bold! Forward they rush, and that evening they fall On Vimy."

Broken the hinge of the Hindenburg Line. Broken, O Tyrant, that proud crest of thine. When you ponder the wreck of your joys You'll not forget Byng's Canadian Boys, And Vimy.

Honor the heroes who still live to tell Tales of those days on the borders of Hell. Honor the heroes who ever will keep Guard o'er our freedom where they lie asleep At Vimy.

There in the land of our Noble Ally. Stood the white crosses beneath the blue sky. Here in the land which they died to keep free. High, where their brothers forever shall see, Write, "Vimy."

Let not the spirit of Vimy be quenched. Heights from before us wider and less entrenched. Gallant and stubborn, up, men, and attack! Nothing can keep our Canadians back Since Vimy.

D. E. HATT.
Digby, N. S., April 9, 1921.

A CHANGE IN MILEAGE BOOKS

One of the practical advantages of co-ordination of Canadian National and Grand Trunk lines of railway, is shown by a recent order which enables the use of mileage books issued by one road on the trains of the other company if desired.

Previously, if a business man were travelling from Toronto to Ottawa for example, his Canadian National "book" would be valid to that point. But if he wished to continue his journey to Montreal over the Grand Trunk, it would not have been good on the G. T. R. train.

The order just issued wipes out the distinction, in a mileage-book sense, between C. N. R. and G. T. R. Books issued by the Grand Trunk are good over all eastern lines of the Canadian National and, likewise, those issued by the C. N. R. are valid on the trains of the G. T. R. One capital outlay takes the place of two which should be a matter of satisfaction to the travelling public.

THE LOST ART OF NEIGHBORING

"I have never been inside of that house except to attend a funeral." Have you ever heard a remark like that? Of course, you have, and not once, but scores of times. And the pity of it is to allow the years to pass by with never the friendly visit, and then when death claims a member of the household, the neighbours gather from far and near to pay the last tribute of respect to the departed. Surely it is right to perform this duty, but why wait until such occasions arise? Why not go when people are in health, and are ready to enjoy and appreciate human companionship?

The telephone comes in for a large share of blame for the modern way of staying away from one's neighbours, and to a certain extent this accusation may be true. But all the telephone conversations in the world cannot take the place of the friendly call in the home, when croquet patterns, dress patterns or any kind of patterns may be exchanged together, with helpful advice as to the use of them. The sight of a cheerful face on a dark gloomy day is like a beam of sunlight to one who longs for human companionship. People dwelling apart, not mingling in any way, grow suspicious of one another, and the little differences grow to big ones. There is no better way of eradicating these differences than to meet together in a social way and pass the hours in games, in discussing affairs of state, singing songs and telling jokes. A neighbourhood feud will soon be a thing of the past when such things are brought about.

"Get acquainted with your neighbours," you might think. "I have been well said, but when strangers move in and do not return the calls to the older residents, what are you going to do about it? This often happens, and the feelings of the would-be neighbours can well be imagined. But one woman bravely said: "Never mind; I'll go once; then if the call is not returned, I'll never go again. My duty is done."

The city dweller has been known to boast of the fact that he does not know his next-door neighbor. There is a little excuse there, as that person, no doubt, has a circle of friends of his own, and can have many diversions besides. But in the country it is different, and there is no doubt that the growth in difference, selfishness and apathy of the rural residents are driving people to the city faster than anything else. For many years now we have had drives of all kinds, special days and weeks for everything. Why not inaugurate a sociability drive, and thus encourage neighborly, friendliness, which is fast becoming a lost art?—A. B. C.

Frank Reder, an ex-officer, who shot and killed his fiancée, at Vienna, Tuesday, has been sentenced to seven years' hard labor. During this period on each anniversary of his crime he will have to endure twenty-four hours of darkness and total silence.

A KICK AT THE VEHICLE LAW

To the Editor of the Courier:

SIR.—Here are a few of the rumblings one hears, now that the sunny days have become more regular in their appearance the public is awakening to Spring time responsibilities. "House-cleaning," and "Car Painting." House-cleaning may not have to be registered or licensed but with the High cost of things needful, there are a great many problems in connection.

The car problem seems a very real affair to the owner. He finds himself wondering, why his car is licensed according to Horse Power. If it is rated high his license costs more than for a low horse-power car. He may not exceed a speed limit easily within the limit of the lowest horse-power Touring Cars. In all fairness, the average rate of speed in the best interests and for the welfare of the Public in general. Suppose the car owner wants good roads and is anxious to see them established and not destroyed. If the rate of speed does not destroy them, it must be the heavy cars and their loads that do, for they seem to need repairs badly most of the time. Perhaps it is not Patriotic in him to cast an eye at the affairs of our sister Province (New Brunswick) but we will say, He only wants to see how things are done, so that we may take advantage of the best legislation to our profit. There they recognized that the weight, of heavy loads does the most damage and so license accordingly, that is, the fee is fixed at so much per hundred weight, and are able to raise their revenue for considerable less cost than we are in this province. Then he gets his license for the year and finds he may not drive on any of the highways from March 20th, until May 1st, of that year without permit.

Now about this permit. It seems some are able to procure one while others, not possessing the sufficient influence are not. Again he looks around to see how it is done elsewhere. He hears they use a bulletin service in some places and the superintendent of highways declare a road open or closed to auto traffic daily, by use of phone and by other methods. It might seem like copy but others if we should adopt something similar, but the things that make for peace and harmony in our

IS CANADA TO BAR THE DOOR

Under the above title the Employers Association of Manitoba has issued in pamphlet form a small folder dealing with the restriction that the Canadian Government has placed on immigration, pointing out that many access to employment at the present time is due to the fact that the public stopped buying goods made dear by too high a cost of production in which labor largely figures, and that Canada needs new people, but only on the farms, but in all kinds of industrial activity where it is not so most impossible to get them to do the great amount of necessary rough labor to keep the wheels of industry moving.

"What would Canada have done in pre-war years without immigration? Where will Canada be if the resolution now before the Ottawa House that all immigration be suspended until a normal condition of affairs is established, is considered? Lobbyists have been busy at Ottawa for some time, picturing before the members, the fearful results that will likely follow if Canada does not bar the door to immigration. There is abundance of work in Canada and there will be plenty for everybody to do. Immigrants and all—for years to come. Industry that has taken labor and capital will not gamble on the high cost of production, and therefore, it is not the scarcity of work that is causing the trouble, but the scarcity of capital.

"The propaganda that labor leaders have been spreading in the Labor Press is of an entirely selfish and class distinction. The place of the immigration question considered by us, 'how will immigration affect labor supply or the wages of any one class.' Labor leaders speak of possible immigration aggregating that will likely flood Canada, but they never eliminate the 30 to 40 per cent of women, school children and under, included in immigration totals, that do not enter the labor market. Statistics show that of every twenty male immigrants over 21 years of age, the average is about three skilled laborers, ten unskilled workers, and the remainder of professional and miscellaneous occupations.

There is a general impression that the only immigrants Canada needs are those going directly on the farms. That may be province, he feels, should be the things we are after. This permit business has caused a great many jealousies. The law which permits permit to prosecute his business while another not so fortunate, may have to sit by and watch the problem of how to get an income out of idleness, so that he may pay the grocer and keep the home fire burning.

This may seem only to effect the Taxi man, but the public require all auto-service and their business will not admit of slow coaches. Every body has to travel, and so if the lucky one cannot supply the demand he can sit by and feel his wheels while he speculates as to whether they will do some of the road work this spring or whether he will have to drive over the work next fall. Sometimes he has the matter discussed and often it is not encouraging. The public protect is not always an optimist and has been known to declare it will be fifty years before some of the work commencing is finished at the present rate of procedure.

LOCAL LISTENING POST

But, will the immigrant coming to Canada go directly to the farm? W. S. Bennett, member of the United States Immigration Commission, who worked two and a half years investigating the question of immigration abroad, challenges any statement that the cities are the wrong place for the immigrant, as far as the immigrant is concerned. "Mr. Bennett goes on to say that the Immigration Commission found the fact to be that 98 per cent of the immigrants in a general way and sometimes very specifically, know what employment they are going into before they leave their homes, their wives and other dependents. He has an opportunity in the first few months, to gain a wider knowledge of Canadian conditions from people of his own birth who are always to be found in the cities and towns. If when the immigrant first lands he is not trained or even equipped to go out on the prairies to settle down and get a living from the soil, what is the use of sending him out there to become disgruntled and dissatisfied? Immigration is a problem of great consequence to the people of Canada today. Immigration has a great influence on industry, and on our prosperity which is the basis of revenue for the government. The public generally should seriously protest against any governmental action which would prevent the entry of desirable immigration into Canada. A constructive policy of selective immigration is needed, and it is up to Canada to establish a constructive policy based on a careful examination of conditions here and abroad, to the end that it may safeguard our interests and promote the general welfare, regardless of any one class.

Certainly there are people who should not be permitted to come into the country, because in the very nature of things their admittance means conflict and radical social disturbance in our midst. Canada already has its share of this class.

BE CAREFUL OF LOBSTER SHIPMENTS

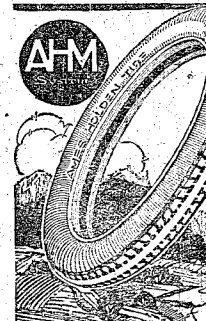

G. E. Torrie, Digby, N. S.

SIR.—In a recent issue of the Gloucester Times was received that the Massachusetts Fisheries Authorities are arranging for a very direct inspection of shipments of live lobsters from the Maritime Provinces, so as to assure no under-sized lobsters being passed. It is stated that it is anticipated that the Massachusetts fishermen will profit in no small measure by such rigid inspection for short lobsters, and that the lobsters seized will be distributed carefully along the Massachusetts shore.

It would be well for you to make these facts known to our fishermen who are interested, to as large an extent as you reasonably can. It would appear a good course for you to adopt, would be to secure publication as a news item in the newspapers of your district.

Yours truly,
H. H. MARSHALL, Inspector.

A reduction of new cases of insanity in New York State for 1920 is attributed to Prohibition, in spite of the recognized fact that so many have been crazy for a drink.

"Auto-Shoes" Mean Mileage

The mileage given by the best tire you ever used would just about approximate the average given by Ames Holden "Auto-Shoes" year after year.

Ames Holden "Auto-Shoes" are miles better than ordinary tires. This name "Auto-Shoes" is a good reminder that—to make it easy for you to get the best mileage you can buy.

Digby, April 15, 1921

An Infernal Outrage

A Digby citizen who recently returned from a British steamer, returned on Tuesday and complains bitterly of his treatment on board the steamer Prince Arthur. He says he was informed the steerage were all taken up, although there was but a single passenger. The captain of the officers were willing to give up their steerage for \$10.00—some graft, he says—but he finally got a poor room below. It was not supplied with water and repeated ringings of the bell failed to bring help. Then at Yarmouth, after the ship was tied up, he got breakfast. On going to pay for it he was charged fifteen per cent extra charge. Just think of it! A British ship, flying the British flag, commanded by a British captain, tied up at a dock in a British port, and yet Canadian money was not worth its face value in paying for a meal on board. Its high time that some one was told plainly where he could get off at.

Perhaps the good thing because it doesn't seem quite worth while, under the circumstances, to keep on living.

The Times, The Morals

An American contemporary wonders about the responsibility of the press for the morals of the country. It says that printed text as well as illustrations are conducive to a large extent to much that is injurious to society. The publication of scandal and of crime, the picturing of women in scant costumes provide subjects for thought and discussion of not very elevating character to say the least. The fact that "all the newspapers do it" is no excuse for any newspaper to do it. Our contemporary may be wholly right.

When newspapers and magazines enter the home they are presupposed to need no parental censorship. As a rule they do not need it, yet frequently contain matters published without the least consideration of young readers. These are the opening wedges for young minds, creating thoughts that are harmful and finally breeding a familiarity with wrong that is debasing. To combat such influences, the public schools and the church must reinforce parental admonition and correction which, too frequently, are not as effective as they might be.

The Courier has always believed that "freedom of the press" did not mean liberty to disregard every consideration for the moral and spiritual welfare of its readers. It has consistently preached what it has preached, preferring a "clean" paper to any other kind. The press is largely responsible for good citizenship.

To him that knocketh, it shall be opened—the door to the chalice that leads out, down, and elsewhere.

TIMELY HINT TO LETTER WRITERS

To the Editor of the Courier:

SIR:—I suppose every citizen considers it his privilege to criticize the administration of town's affairs, and members of local governing bodies must always be subject to attacks, some more unkindly than others. Some speak in a forward manner and others valued to a more dignified in the local press.

While a criticism of a matter calculated to improve matters must always have a certain weight, and should be welcome from whatever source it comes, I think discretion should rule the method of presenting such criticism.

The meetings of the Town Council and School Board are at all times open to the public, and any citizen would be gladly afforded an opportunity of bringing any matter of interest before either of these bodies, particularly if he had expressed a wish to do so to any member.

The method of rushing into print to "air" matters that are presumed to be of interest, but which have been too much in vogue recently, and it is within my certain knowledge that statements have appeared in the "Courier" which were absolutely without truth. However much these may matter the truth, and enable them to "chuckle" at the thought that it was hitting something or somebody, they may also do an amount of harm in connection with the method of doing so.

I wish to draw the attention of "Digby" and "the Courier" to the fact that to take pen in hand and "put a letter in the paper" is not advised of a person so interested in education that he would be able to afford that body would be expected to be so candid as such satisfaction as far as results can be obtained by a personal visit to the Board's meetings as by the method of doing so.

I am not interested in replying to "Digby," in fact, a person without friendly does not merit attention, but if the result of this letter is a cessation of such injudicious letters in your paper, the writer will feel satisfied.

Thinking you, Mr. Editor, for the courtesy of allowing space.

Town Hall, Digby, April 15, 1921.

Local and General

That man is idle who does less than his lot.

Japan leads the world in proportion of divorces to marriage. Famous words of famous women: "You made a million dollars, yet you're not rich." The one big objection that we have to motorizing is that we can't afford to buy a car.

Judging from some of the advanced styles in women's waists, it looks like another very open winter next year. The Courier appreciates letters for publication and means of improving the town. Don't forget to sign your name.

The receipts from the Pantry Sale, held on Saturday afternoon, by the Digby Branch of the Victorian Order of Nurses, were \$15.00.

Roll Call services will be held in the Digby Baptist Church on Wednesday, May 25th, and in the Hill Grove Church on Thursday, May 26th.

Dr. Henry Van Dyke says jazz music was invented by demons for the torture of unfortunates. But a good many of the unfortunates appear to enjoy it.

"Turn back," St. Peter said, "and take the elevator down. You made a million dollars, yet you're not rich." The world's highest peak lies in Tibet north of the British Indian border and no European has ever ascended nearer than 60,000 miles from his so far as is known.

Scotts filled with a gallon of oil and fired at angry waves will calm a turbulent sea according to tests made by United States life guards of Colchester, Mass.

The Rosalie Belliveau, formerly a Weymouth resident, arrived at St. John's, Nfld., April 5, with suit from Cadiz. She was in harbor at Placentia a month because of ice conditions.

Postages are selling for eighteen cents a hundred in Michigan. The lowest price reached in many years. It is due to the receipt of thousands of bushels of grain which have been holding for higher prices since last fall.

The Salvation Army self-denial drive is being put over this week but we have heard they are making out. They are trying to raise \$200 here and a committee of business men was formed to help them out.

A shell from one of Admiral Dewey's guns after lying for twenty-two years in a vault in Manila, exploded when it was picked it up and hurled it against a rock. The concussion knocked three toes to the ground and painfully injured them.

Owing to the weather the attendance at the quarterly meeting of the Board of Trade on Monday was small and it was decided to postpone it until next Monday evening at 8 o'clock. A large attendance is requested as several matters of importance are to be considered.

The death is announced of B. E. Wallace of Peru (Ind.) one of the pioneer circus men of the United States. He was a member of the first controlling the Wallace-Hagenbeck Shows, which showed in Digby in 1919, and also of Robinson Bros. circus which showed here last year.

Rev. Dr. Casey in the Canadian Freeman: "Why should you search frantically for a dime when the electric man plant is in your pocket? How many times did you spend on smokes and the movies during the week? How many trashy magazines and papers did you invest in? Pay your way when you go to church."

"Who owns us?" is the challenging question of an editorial in the Oken Sound Sun Times. The editor, Sam Pearce, was married only a few months ago, and evidently has needed this state of uncertainty which all men experience before the first year of wedded bliss is ended.

There have been fifty assignments of individuals and corporations in Nova Scotia since the bankruptcy act came into effect in July last. These include thirty-one in Halifax, six in Pictou county, two in Kings county, four in Lunenburg, two in Antigonish county, two in Queens county and one each in Cumberland, Inverness, Richmond and Victoria counties.

Next Sunday in the Baptist church the pastor will preach at eleven o'clock on a Little Maid who Rendered a Great Service. In the evening a special Taxis Boys' Service will be held. There will be special music and several short addresses will be given.

Taxis Boys will usher. A cordial invitation is extended to all who do not worship elsewhere.

The Yarmouth schooner, Eldie James, Capt. A. S. Shaw, has arrived at Yarmouth with her first trip of fish, halibut for the season. She hauled in a fare of 3,000 pounds of halibut and 3,000 of cod which was purchased by H. A. Amiro, of the Yarmouth Fish Company.

While at the Yarmouth Fish Company, the main boom, which compelled her to return to port. A new boom was fitted and the schooner was ready for sea again early this week.

Large quantities of wood pulp have been forwarded this week from Yarmouth by the Siscoch Pulp Power Co. to Halifax for shipment by one of the U. M. liners now loading at that port for England. Several long trains of about seventeen cars each were used for the shipments and were run to Annapolis Royal, where they were made into one train, double headed by two of the D. A. R.'s largest locomotives and taken direct to the loading terminals at Halifax.

April 17 to 24 is "Boys' Week." The Maritime Boys' Work Boards, under which the work for boys has been reorganized, will appeal for funds to finance its budget. The whole amount asked is \$1,700 of which sum Digby is asked to contribute. The Taxis Boys' work for their friends and the friends of Boys' work during the week. The canvass for funds will take the form of a sale of "pre-ferred stock" certificates, dividends to be paid in a cleaner Canadian Citizenship. The certificates will be issued to all who contribute twenty-five cents and upwards to this worthy object. Help in this work which means so much for the future of Canada.

In the Baptist Church last Sunday evening special reference was made to the anniversary of Vimy Ridge. The past gave a brief account of the battle and was followed on Roy Wymouth to sing Henry's "Farewell" as an illustration of the role of spirit of Canada's troops on that occasion. Mr. Wymouth in splendid voice sang with excellent expression. Hatt read a poem prepared for the occasion, which, by request, appears upon our front page. Guy Macdonald and Hattie Dakin sang, "No Night There," in memory of those whose white crosses consecrate the ground on which this great and decisive battle was fought, when Canada's troops showed themselves at least the equal of the finest troops in the world. A large audience gave rapt attention to each of the above matters.

Coming Events

To-night—Lecture by Dr. MacDonald under the auspices of Women's Canadian Club.

To-night—St. George Lodge, I. O. O. F.

To-night—Rehearsal for Oddfellows Minstrel.

To-night—Weekly service in Holy Trinity Church.

Sunday—Divine service at 8 o'clock at All Saints Church, Rossburg.

Sunday—Regular services in the churches.

Monday—Adjourned quarterly meeting Digby Branch of Trade in Town Hall at 8 p. m.

Monday—Dance in Bijou Dream at 8 o'clock.

AN ACKNOWLEDGEMENT.

Mrs. W. R. Read, Secretary.

Navy League of Canada.

Digby, N. S.

DEAR MRS. READ:—On behalf of the Nova Scotia Council Navy League of Canada, I wish to thank you and your co-workers for the magnificent sum of \$20 which you forwarded to us, and which will be used for the furnishing of a room in our practically completed building.

It is our intention when this room of yours is completed to place a plate bearing the name of your branch, over the door.

R. WOOLF, Secretary.

A Member of the Staff of This Bank.

Who Gave His Life in the Great War 1914-1918.

The 1920 values of Canada's far-farm industries is placed at \$1,968,591.

Are you building up good will for your business that will stand by you in time of need, or do you only advertise occasionally when you have something special? Some good housewife or business man may look for your ad. and find the other fellow's.

Toronto workers out of work want an unemployment allowance of \$20 a week for each married man, with \$2 a week for each child, and \$14 or \$15 a week for single men. Why work at all?

Among the persons arrested in Washington D. C., during the past year were two diplomats, one Congressman, one hundred reporters, eighteen editors, one professor, 248 army officers, forty-one ministers and forty-eight policemen.

The members of St. George Lodge and Zelma Rebekah Lodge, I.O.O.F., will put on a:

YARMOUTH, N. S.

TABLET UNVEILED.

A very pleasing yet impressive ceremony took place in the Royal Bank on Monday afternoon when a tablet erected by the Bank to the memory of G. Archer Turnbull, was unveiled. Rev. Wm. Driffield, conducting appropriate religious services. A large number of the Royal Bank staff in Canada, under the supreme guidance and the bank is honoring their memories in this manner, a tablet being erected to every branch from whose staff a member has gone. They are of bronze, and handsomely designed. The inscription on the one in Digby is as follows:

In Memory of G. Archer Turnbull.

A Member of the Staff of This Bank.

Who Gave His Life in the Great War 1914-1918.

The 1920 values of Canada's far-farm industries is placed at \$1,968,591.

Are you building up good will for your business that will stand by you in time of need, or do you only advertise occasionally when you have something special? Some good housewife or business man may look for your ad. and find the other fellow's.

Toronto workers out of work want an unemployment allowance of \$20 a week for each married man, with \$2 a week for each child, and \$14 or \$15 a week for single men. Why work at all?

Among the persons arrested in Washington D. C., during the past year were two diplomats, one Congressman, one hundred reporters, eighteen editors, one professor, 248 army officers, forty-one ministers and forty-eight policemen.

The members of St. George Lodge and Zelma Rebekah Lodge, I.O.O.F., will put on a:

Minstrel Show and Farce

ON

Thurs., April 21

at 8 15 o'clock p. m., in the

Bijou Dream Theatre

An Odd Programme by

Odd Ladies and Odd Gentlemen

Odd End Ladies and Odd End Men

will keep every odd minute, lively with odd local hits. Odd choruses, odd solos, and odd duets with odd specialties. Before the programme starts you will have a chance to speed your

More lotteries were taken and more cash was received during the month of March by the fishermen using the waters of Digby Municipality than during the two months of March and April last year. During March the cash receipts were \$572.60 and the total receipts for the whole season last year were about \$61,000.

The first mackerel of the season was caught on Monday at the end of the coveage Yarmouth, according to news reaching the Boston fish pier. Another was also taken Tuesday. The fishing netting fleets in the south should be encountering schools of the fish any day now. Last year, the mackerel were taken on March 31. Schr. Silletto, Capt. Ralph Webster, was the first to catch a year ago, 2000 pounds being landed at Cape May on April 14.

THE FAIRCE

"Two of A Kind"

will follow the minstrel show.

Specialties will consist of Step Dancing, Ladies Quartette, Humorous Solo, etc.

Get Ready for Spring Housecleaning

Figure It Out For Yourself

Honestly now! Could you get for 60c, any other prescription which would give the same all-around service and satisfaction that a box of Zani-Buk does? Zani-Buk is a combination of powerful healing, herbal extracts, so refined and compounded that wherever there is any kind of soreness, of the flesh, or diseased or abnormal condition (such as inflammation, festering or blood-poisoning) it almost immediately settles and heals. It stops bleeding. It is highly antiseptic for the hardest skin of the worker or the tender sensitive skin of a child.

Zani-Buk is 100% pure herbal medicine. It contains no alcohol, fat nor mineral impurities. It cannot go rancid, and seven years have used Zani-Buk in our home" writes L. B. Anderson, of 1407, E. 22nd St., Minneapolis. "We simply could not get along without it. Whenever any of the children, my wife or I, happen an accident, we promptly apply Zani-Buk. It saves many a doctor's bill."

WATERFORD.

Whooping cough is quite prevalent in this community.

Mrs. Perce Raymond arrived home on April 2 from the St. John Infirmary where she had been successfully operated on for appendicitis. During her stay St. John she was accompanied by her aunt, Mrs. Herford Raymond.

Mrs. Lena Weecott and friend George Wright, of Rosway, spent Sunday last the guests of the former's parents, Mr. and Mrs. Hadden Weecott.

Mrs. Mary Stinson who has been visiting relatives at Central Grove, returned home March 31.

Mrs. Harold Fellows and little daughter Gladys of Rosway, spent Sunday last the guests of the former's parents, Mr. and Mrs. Wallace Raymond.

Mrs. Florence Weecott attended the Surprise Party at Rosway, April 3, given in honor of Llewellyn Cornewall's birthday.

Freeman DeLapoy, of Precept, spent a few days last week the guest at the home of Archibald Sanderson.

Congratulations to Mr. and Mrs. F. C. Raymond on the arrival of twin boys April 6.

Mrs. Israel Shortliffe and Miss Thelma Johnson, of Waltham, Mass., arrived home Friday and are the guests of their parents Mr. and Mrs. Geo. Johnson.

News of Weymouth

Joseph LeBlanc arrived from Montreal, on Tuesday, after an absence of several months.

E. R. Gaudet went to Port Clyde on Tuesday on official business in connection with the pulp Co. returning on Monday.

Weymouth was visited on Monday by a sleet and snow storm which later turned to rain caused by gales.

Jim Dahlgreen returned from Mink Co. on Friday where he was visiting his sisters, Mrs. Rodney and Wilfred Glines.

Mrs. Marguerite Dovesse left on Friday for Lynn, Mass., where she will attend her sister, Miss Cole, who has been seriously ill.

The condition of Mrs. Wm. Henry Langford, who is a patient at V. G. Hospital, Halifax, not improved. Late reports say she is suffering from diabetes and her recovery is doubtful.

Miss Katherine Wilson was a passenger to Boston on Friday.

Mrs. (Dr.) F. J. McGrath, who has been ill at the residence of her brother-in-law, Dr. J. J. Foubler, for the past two weeks has sufficiently recovered and left for her home in Kentville on Thursday.

The Forty Hours Devotion held at St. Joseph's Church from Sunday till Tuesday was very largely attended. Rev. F. Thibault acted as the Pastor, Fr. P. N. Dion, with the services.

WEYMOUTH NORTH

Jacob Sweeney, of Yarmouth, returned home Monday after a short visit with his son, F. B. Sweeney.

Mrs. Charles Haynes returned to Halifax Monday.

Sidney Jones, of Hantsport, has been a recent guest of Mrs. St. Clair Jones.

Rev. M. Taylor attended the deanery meeting at Miramichi.

Rev. Mr. Porter delivered a very interesting Lecture in the Riverside Baptist Church Thursday evening on the British Empire. The lecture was given by William Lent.

H. L. Jones, Sidney Jones, Mrs. Stacey and others, friends of the late Lila Jones, at Barton, Sunday.

Mrs. W. W. Jones, and sister who have been spending the winter in Annapolis are expected home this week.

SANDY COVE

Glad to report Thornton Dakin who has been confined to the house with pneumonia slowly improving in health.

Our teacher, Thomas Croome, spent Easter holidays at his home in Rosville.

Miss Hilda Rice and Outier Crowell arrived home from the United States on Saturday.

Neta Pine spent several days of last week at her home in Centreville.

Mrs. Bessie Crowell, of Rosville, spent several days of last week the guest of Mr. and Mrs. Ingram Saunders.

Carlton Morehouse, who has been employed in St. John for the winter months arrived home on Tuesday.

An Easter concert was given in the Baptist Church on Sunday evening under the management of Mrs. Floyd Jeffry and Mrs. Outier Snow.

George Holmes, of Centreville, spent Easter the guest of his daughter Mrs. Floyd Jeffry.

AN APPRECIATION

To the Editor of the Courier:

SIR:—Yesterday I was pleased to find in my mail copy of the last issue of your interesting paper. This is the first that I have had the pleasure of reading carefully.

Several interesting things caught my attention but allow me to emphasize my interest in the splendid service rendered by the talented pastor of the Digby Baptist Church. I have always been a member of this congregation and will surely help to keep him fresh in my memory.

I left Bro. Hatt he was suffering from a bad cold and as the verses were apparently written April 21, that I, the sake of the rest of us, may not seem ingratitude to wish he may have several attacks every year if each one releases corresponding genius and that he may live long enough to fill volumes before he dies.

It is not fun to have such men in our midst and we may cheer their efforts by our hearty appreciation of their words.

Perhaps I am not the only one who is fond of fine fiction and robust expression for I have in mind also, those who are engaged in the study of the Bible and who are recently with Bridgetown.

Your remarks of the loss of the debate were in a frank and generous manner but this loss only further accentuated the splendid qualities of the young men who proved themselves to be such good losers and as this loss reflects honor on their organization.

I cannot close without referring to the splendid hospitality the visitors received from your kind-hearted citizens.

Thanking you for the space and wishing you all the best success in your various spheres of life and labor I am, Sir, Very truly, Yrs.,

REV. H. B. BALCOM
Paradise, April 1921

TRURO CONTEST NOTES.

Pen. No. 19 Light Brambas, owned by Mrs. Nat Dobry of Halifax, lead all others for the week's egg production, their total for the seven days being 29 eggs. This is the highest figure yet reached by any of the contestants. It is worthy of note, especially so, coming from the heaviest breed in the thirty pens of the contest.

The number of eggs produced by the thirty pens this week is 79. Last week it was 61—a gain of 73 eggs. This week is also the highest week's production yet.

The five leading pens to date are as follows:

1st—White Wyandottes, owned by Edison Eagles, Windsor, 423 eggs.

2nd—Barred Plymouth Rocks, owned by John M. Collins, Truro, 359 eggs.

3rd—S. C. White Leghorns, owned by Corbett and Hough, Deep Brook, 356 eggs.

4th—Barred Plymouth Rocks, owned by F. E. Jackson, North Sydney, 352 eggs.

5th—Barred Plymouth Rocks, owned by A. J. Roberts, East Earltona N. S., 346 eggs.

TRANS-CANADA LIMITED.

The Canadian Pacific Railway announces that the Trans-Canada Limited will run daily on and after Sunday, May 22nd. This train carries sleeping cars only, making the quickest time across the Continent—eighty-eight hours each way between Toronto and Vancouver; and ninety-two hours between Montreal and the Coast.

Trains leave Windsor Station, Montreal, at 5:00 P. M. Eastern time, and leave Toronto at 9:00 P. M. Complete information concerning this can be procured from local agent, or by addressing Mr. N. R. DeBrisay, District Passenger Agent.

Wedding Bells

SYMPHER-MANZER

At the Main street parsonage St. John, last Friday evening, Scott Sypher, of St. John, formerly of Sandy Cove, was united in marriage to Miss Mary Sypher, of Weymouth. The marriage was performed by Rev. Dr. David Hutchison. Mr. and Mrs. Sypher will reside in St. John.

FREEMONT.

S. S. Francis Boulton, Capt. Charles Teed, went from this place Monday to resume their summer route. Selling from St. John to various places on the St. Mary's Bay system.

Mr. and Mrs. Dalton Stevens and daughter Alta, who have been in St. John for the past winter, have returned home.

George Teed, who has been in this place for a few days, has returned to Montreal.

Mrs. Arthur Campbell entertained a number of her friends on evening this week.

Master Theodore Teed celebrated his twelfth birthday Tuesday evening, when about twenty of his playmates were present. After playing games, refreshments were served, consisting of fudge, cake and cocoa.

Hooking mats and cleaning house is the order of the day.

Llanfairpwllgwyngyllgogerychwyrndrobllanllwlllogoch is the name of a small town in Wales.

Titan Battery Service Station

Send your battery to me for winter storage and I will pay express charge both ways. Phone me, if in town and I will remove battery and replace it in spring for the regular fee at \$5.00. Six months written guarantee will be given on any repair work.

The ladies of the Good Cheer Sewing Circle, intend to hold their supper at the home of Mrs. N. Chas. on Wednesday evening. Proceeds for church purposes.

NOTICE

IN THE MATTER of an application under the Mines Act by Augustus Harris made the 29th day of March, 1921, in the office of the Commissioner of Public Works and Mines at Halifax, N. S., to lease to him, Augustus Harris, an area or tract of land at Little River and Tidcliffe in the County of Digby, described as follows:

Beginning—"A section of Digby Neck between Bay of Fundy on the north, west, side and St. Mary's Bay on the southeast side a distance of two and one half miles between two lines running north-west and south-east across the neck, the north easterly line being a distance of one third of a mile in a south westerly direction from the bridge of Little River corner where the Digby Neck post road meets the main road running through the village of Little River."

AND IN THE MATTER of the Crown Lands Act as amended by Chapter 32 of the Acts of 1920.

NOTICE is hereby given to all whom it may concern that the undersigned Augustus Harris, Long Beach, Digby County, N. S., has made the above mentioned application and that any application by or on behalf of any person or persons claiming a license or lease by reason of having prior to the 17th day of May, 1919, developed any mineral in said area or tract of land or expended money for or in connection with such mineral must be made within 30 days after the last publication of this notice and that no notice will be published once in each week for four consecutive weeks after the date hereof in The Digby Courier, a newspaper circulating in the said County of Digby.

AUGUSTUS HARRIS.
March 31st, 1921. 35-4.

NOTICE

IN THE MATTER of an application under the Mines Act by Harry Harris and Augustus Harris made the 15th day of January, 1920, in the office of the Commissioner of Public Works and Mines at Halifax, N. S., to lease to them, Harry Harris and Augustus Harris, an area or tract of land at or near Petrie Passage in the County of Digby described as follows:

Beginning at the most southerly angle of an area held under license to search by Edith Wightman, dated Oct. 31, 1919; thence north westerly along the south westerly line of said area and line continuing two miles; thence south thirty five degrees west, two and one half miles to a point thence south easterly parallel to the first described line two miles; thence in a straight line north easterly to the place of beginning.

AND IN THE MATTER of the Crown Lands Act as amended by Chapter 32 of the Acts of 1920.

NOTICE is hereby given to all whom it may concern that the undersigned Harry Harris, East Ferry, Digby County, and Augustus Harris, Long Beach, Digby County, have made the above mentioned application and that any application by or on behalf of any person or persons claiming a license or lease by reason of having prior to the 17th day of May, 1919, developed any mineral in said area or tract of land or expended money for or in connection with such mineral must be made within 30 days after the last publication of this notice and that no notice will be published once in each week for four consecutive weeks after the date hereof in The Digby Courier, a newspaper circulating in the said County of Digby.

HARRY HARRIS.
AUGUSTUS HARRIS.
March 31st day of March, 1921. 35-4.

HOW WOMEN AVOID SURGICAL OPERATIONS

Some Are Extremely Necessary, Others May Not Be

Every Woman Should Give Lydia E. Pinkham's Vegetable Compound a Trial First

Chicago, Ill.—"I was in bed with a female trouble and inflammation, and had four doctors but none of them did me any good. They all said I would have to have an operation. A druggist's wife told me to take Lydia E. Pinkham's Vegetable Compound and I took 22 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occasion to take it again as I have been so well. I have a six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the gospel truth and I will write to any one who wants a personal letter."—Mrs. C. H. HAYWOOD, 6324 St. Lawrence Ave., Chicago, Ill.

A Vermont woman adds her testimony to the long line of those fortunate women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after it had been decided an operation was necessary:

Burlington, Vt.—"I suffered with female trouble, and had a number of doctors who said that I would never be any better until I had an operation. I was so bad I could hardly walk across the floor and could not do a thing. My sister-in-law induced me to try Lydia E. Pinkham's Vegetable Compound and it certainly has helped me wonderfully. I keep notes and do my work and have a small child. I have recommended the Compound to a number of my friends and you may publish my testimonial."—Mrs. H. R. SHAW, Apple Tree Point Farm, Burlington, Vt.

In hospitals are many women who are there for surgical operations and there is nothing a woman dreads more than the thought of an operation, and the long weary months of recovery and restoration to strength if it is successful. It is very true that female troubles may through neglect reach a stage where an operation is the only resource, but most of the common ailments of women are not the surgical ones; they are not caused by serious displacements, tumors or growths, although the symptoms may appear the same. When disturbing ailments first appear take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. In fact, many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

WHO'S WHO IN THE NEW LEGISLATURE

Dr. A. R. Melanson, Member for Yarmouth.

A sturdy young representative of the Acadia people is Dr. A. R. Melanson, member for Yarmouth, in the new Legislature. The Doctor was born near Digby in November 1882, where his father, Raymond Melanson, owned a farm. His mother was a member of the LeBlanc family. He was educated in the public schools and afterwards was graduated a Bachelor of Arts from St. Ann's College, Dalhousie University granted him the degree of M. D. C. M. in 1906 and since that time he has practised his profession at El Brook, Yarmouth County.

In 1910 Dr. Melanson married Miss Julie Hemelin, a young French-Canadian lady from Quebec. He has a family of five children, four boys and one girl. His religion is a Catholic and in politics a Liberal.

The Doctor is a thorough going Acadian both by birth and sentiment. He is keenly interested in the race from which he has sprung, and the safe-guarding of his native tongue and the free exercise of his religion are matters very near to his heart. He has always been interested in public affairs and was elected for the first time to the Legislature in 1920.

I hope that the Good Roads programme as originally planned will be carried out," says the Doctor. "My work brings me into close touch with all rural problems, and one of the chief of these is the question of transportation. We can never fully prosper here in Nova Scotia until our highways are improved, and this can be done with the means at our disposal provided the money is expended in a judicious manner."

"I should like to see concerted action taken to change the lobster fishing season for Yarmouth, from the Spring to the Fall months. The American market is then bare of lobster and the Nova Scotia product would be taken readily at good prices. I hope to be of assistance in remedying this defect in the fisheries regulations so as to aid the hard-working and industrious population in obtaining a decent livelihood."—Halifax Herald.

WESTPORT

Mrs. Leslie Finlayson and daughter Lily, of Westport, spent the week-end with Capt. St. Clair Cunn and family. Master Wilfred, son of Mr. and Mrs. Albert Cunn, entertained some thirty-five guests on Friday evening. The boys, the occasion being his birthday. The hosts and girls all report having a happy and pleasant evening. Mrs. Cunn and her husband served ice cream and cake.

Some of the young people of Tiverton spent the week-end here with friends and relatives.

Capt. St. Clair Cunn left for St. John on the 14th by the St. John's Star.

Mrs. Fred Coggins, Jr., and children, who have been here for a short time, left on Monday for St. John.

Arrived from Yarmouth on the 14th, Mrs. James Morrell and Mrs. Fred Gower. Mr. and Mrs. Ernest Bailey, and family, are home from St. John for the summer.

Franklin Southern, of the C. N. R. Offices of Moncton, and his twin brother, Reginald, of the T. Eaton staff, Moncton, are guests of Mr. and Mrs. Charles H. Gower.

Capt. Charles Hicks, schooner Alton and family, arrived from Yarmouth with a cargo of salt on the 14th.

The three masted schooner Westport, Capt. Brown, is being loaded with a cargo of salt for E. C. Bowers and Company, Ltd.

Frank H. Piper, of West Yarmouth, Mass., and Mrs. Lois B. Sather, of Moncton, were married at the home of Mr. and Mrs. W. C. Brown, St. John, by the Rev. Mr. Brindley, of one of the Baptist churches, on Wednesday, the 6th of April.

Mr. and Mrs. Piper, arrived at Westport on April the 7th, where they will spend a week at the home of Mr. and Mrs. Charles H. Gower. On April the 15th, they will leave for Yarmouth where they will spend a week en route to their home at West Yarmouth, Mass. Mr. Piper has been master of the Moncton City Hospital for the past six years, and received many beautiful gifts of cut glass and silver in appreciation of his services.

why wait-

—If you are Nervous, have Headaches and Attacks of Indigestion, why wait and hope to get better and still suffer, when you can get sure relief by taking

Dr. Wilson's HERBINE BITTERS

A tonic made from the curative principles of Dandelion, Mandarin, Burdock and other purifying herbs.

Perfectly harmless, but very invigorating. It purifies the blood, cleanses the complexion and removes all those nasty pimples and blotches.

Try a bottle—At most stores.

HE CAN NOW EAT PORK AND BEANS

J. Murphy, Age 76 Says: He Knows From Experience Tanlac is Good for Old Folks Too.

"You can tell them that Tanlac is the right medicine for old folks, too, for I have tried it and it has done me more good than everything else I ever took combined," said John Murphy, of 46 Charlotte St., Halifax N. S. Mr. Murphy is now seventy six years of age and a life long resident of Halifax. He is employed as night watchman by the Halifax Tram Co.

"For a long time I have been troubled with indigestion and took a great deal of medicine. Everything I disagreed with me. Food felt like a lump in the pit of my stomach and caused me to bloat all up with gas and I felt sick at my stomach nearly all the time. I had no appetite and the more nourishing foods like beans, fat meat and things cooked in grease I could not eat at all."

"I also suffered with severe pains in the small of my back. I had frequent headaches and was terribly nervous all the time and could never sleep well. Last August a friend of mine told me of the fine results he had gotten from Tanlac, so I started taking it myself, and it has done me a world of good."

"It gave me a great appetite and fixed my stomach up so I can eat three good meals a day, including pork and beans, and fatty foods that I would not dare eat before. I am no longer troubled with the pain in my back and I sleep very much better. I have taken the last few tablets of Tanlac and have been helped wonderfully in every way. I am still taking a dose or two a day and it keeps me in good trim. Tanlac will always get a good word from me."

U. S. railroad wages for 1920 amounted to \$3,733,816,186.

The United States reduced its total debt \$71,530,330 in March.

Texas has a law forbidding the use of cracked dishes in restaurants.

The working hours in the C. N. R. shops at Moncton will be reduced shortly to three days a week.

"Remember that in these days of psychoanalysis it is dangerous to tell your dreams," says the Somerset, Mass. Journal.

About \$150,000 is left for charitable, religious and educational purposes in Canada and the United States out of an estate of \$5,000,000, disposed of in the will of the late J. Harrington Walker, of Detroit, President of the Hiram Walker and Sons, distillers, of Walkerville, Ontario.

At Bingham, Ala. Tuesday, death by suicide was the verdict from the City Health Officer when a dog, Rover, was drowned. The large mastiff incurred the wrath of his master who locked him up in the bathroom. The dog whined piteously for a while, then he was quiet. He was found in the over-flowing bath-tub, dead.

KARSIALE

The Karsiale Union Bible Class met on the evening of the 13th, inst., at the home of the president, E. H. Porter. The attendance was very large. Rev. Mr. Heister read a very excellent paper on the subject of the lesson. A most interesting discussion followed. After this Miss Winifred Shaffer, handed a parcel to Rev. Mr. Heister to present to the president, in behalf of the class. The parcel was in very appropriate terms. Mr. Porter responded by saying that it was a genuine heart he thanked the class for their recognition of his services by this splendid gift. He regretted that he had not been able to serve them better, but for their recognition of his services by this splendid gift. He regretted that he had not been able to serve them better, but for their recognition of his services by this splendid gift. He regretted that he had not been able to serve them better, but for their recognition of his services by this splendid gift.

Capt. L. H. Porter, sailed from New York on the 14th, for Buenos Ayres, touching at Rio Janeiro in command of the S. S. Aelos, and is due back the last of May. The Aelos is a German liner taken by the United States and is being operated by the Manton Steamship Line of New York.

PLEMONT

On Monday we were visited with a real old fashioned North East snow storm—a perfect blizzard which lasted all day, turning to hail at night.

Edward Swayze of Yarmouth, is visiting his nephew, W. H. Swayze.

Mrs. Arthur Powell and two little sons are visiting her sister, Mrs. Jos. Potter.

Mrs. Lottie Potter and daughter Gertrude, were passengers from Malden, Mass., last Tuesday.

Roy E. and Willie R. Melanson, both of whom were ill with measles, are very much better, and able to be about again.

Forrest Wright, of Pictouville, spent the week end with his son, Lloyd Wright, who is gradually recovering from an attack of measles, but we are sorry to report Mrs. Wright, and little son Alfred, are ill with the same.

The bandwork of Mrs. Dora Thomas is getting completion, under the workmanship of Chas. B. Dunham. Mrs. Thomas is expected to arrive before the end of the present month and occupy it.

REV. FATHER COSMAN PRESENTED WITH PURSE

A popular tribute to the sterling worth of the Rev. Father Cosman, P. P. of Blairmore Alta., and a mark of the great esteem in which he is held by his parishioners, was manifested on his return home, on Good Friday, from the Holy Cross hospital, Calgary, where he has been lying in a precarious condition since his serious operation on Jan. 13.

In the afternoon a committee of his parishioners waited upon him and welcomed his home-coming with a purse of \$3.00 for which the Rev. Father, thanked them in a few well chosen words, and showed his pleasure of being with his people for a short while again.

Father Cosman leaves in the near future for his home in Weymouth, Nova Scotia, where he will spend the summer, and all hope and wish that he will be able to return to his parish in the fall in good health.

Llanfairpwllgwyngyllghegynoddrbilandisiliogogoch is the name of a small town in Wales.

In the mining villages near Hazelton, B.C., it is the Easter custom for each sex to duck the other. On Easter Monday the women throw water on the men, while on Tuesday friendly revenge is in order.

The largest pipe organ in the world costing \$75,000, which was built in North Tonawanda, N. Y., is being shipped to a theatre in St. Louis on 10 freight cars. It took one year to complete and the largest pipe is 33 feet long.

Probably the choicest and most valuable beads in the world are those possessed by the natives of Borneo. In many cases they are very old and have been kept for centuries in one family. A rich chief may possess a collection of old beads worth many thousands of dollars.

MYSTERIES OF THE SEA

Phantom Ships That Flit Over Ocean as Messengers of Disaster—The Flying Dutchman and the Ghostly Ship of Sir Ralph the Rover.

Nearly every country has its stories and traditions of the sea. England, where the love of the sea is almost bred in the bone of its sons, holds many such stories. On the east coast of England there is a story of a phantom ship that is seen off the Yorkshire coast at times. This phantom ship is quite a modern vessel, but its sails, hull and rigging are encrusted with ice, and long icicles hang from its rigging. And always it is seen apparently making its way through a maze of ice floes with snow and sleet falling about it.

Perhaps the best-known of all the stories concerning phantom ships is that of the Flying Dutchman. This ship is supposed to have been seen many times in the Pacific Ocean, and a few times in the Southern Atlantic. Every English sailor, from Land's End to John O'Gaats, knows the story by heart and the stoutest among them quail at the dread of seeing the specter.

THE FLYING DUTCHMAN.

Away back in the sixteenth century a Dutch captain, notorious for his profanity, swore during a terrible gale that he would round Cape Horn in spite of all that the powers of good or evil could do to prevent him, even if it took him until judgment day. His crew implored him to give up his mad project, which enraged him all the more. Hot words passed between them, ending with the burly captain seizing the first mate and throwing him overboard. But a few minutes later a terrible flash of lightning struck the ship, killing the captain instantly, and damaging the vessel so much that in a few minutes it sank with all on board. But the vow that the captain made, still holds good, and forever he and ship are doomed to sail the waters, continuing ever the hopeless struggle of trying to round the cape in the face of a terrific gale.

All sailors who claim to have seen this phantom ship agree as to certain details. Wherever the Flying Dutchman is seen, it is always rolling and pitching as though a terrific gale were blowing, while all around it the ocean may be calm and still. The ship is of wooden construction. On its decks the phantom crew, dressed as were the sailors of that period in striped jerseys and red woolen caps, are seen hurrying hither and thither, seemingly trying to carry out the orders of their captain.

During the late war this phantom ship was seen by the entire crew of a British ship about a hundred miles east of the cape. It was at the close of a beautiful day, with a perfectly calm sea all around, when just as the evening shadows were falling, there appeared suddenly, not far away a large wooden ship, a build of a bygone age. And the strangest thing about it was that in a perfectly calm sea the ship appeared to be tossing like it was in the throes of a terrible storm, seemingly straining every timber to gain headway. The crew were running in frantic haste around its decks, while a big man, evidently the captain, seemed to be giving orders. Suddenly a vivid lightning flash seemed to play about the vessel, and in a moment it disappeared. The next day the British ship that had seen the phantom was torpedoed and

most of the crew drowned. There are many other accounts of the phantom ship being seen, and always, as in this instance, it foretells disaster to those who behold it.

SIR RALPH THE ROVER.

But the most weird and unusual of all the phantom ships that have been seen, is one which at times appears off the coast of Scotland. It is a vessel of the old type, made of wood, with the hindmost part of its hull very high. It sails slowly along with the slightest divergence from its track, and should there be any vessels in its way it seems to glide right through them. And the most uncanny thing about it, is that its sails and rigging are a deep black color. Like the Flying Dutchman, seeing it foretells disaster.

Another phantom ship seen off the coast of Scotland, near the Inchcape Rock, is the vessel that was manned by Sir Ralph, the Rover, and a notorious pirate of the past, and his crew. Almost any old seaman in the British Isles can tell you the story of this pirate ship. The Inchcape Rock, at that time, was a source of great danger to vessels, lying as it did not far from the coast. For that reason, the Abbot of Aberbrothock, a worthy man, had placed a large bell upon this rock, which was fastened to a buoy in the ocean and which was rung by every movement of the ever-restless waves. And many was the ship's warning tones saved from a grave in the depths of the ocean. One sunny morning Sir Ralph, the Rover, stood on the deck of his ship casting his eyes over the water his gaze fell upon the Inchcape Rock, from which he could hear the faint tolling of a bell. Having nothing to do that morning, the thought came to him what a joke it would be on the old Abbot if he would cut the rope that held the bell. He called his men and a small boat was lowered, and they rowed him to the rock. With a heavy knife that he carried he cut the rope and the heavy bell that for years had tolled its warning note of danger over the waters, sank into the depths with a gurgling, swirling sound. A poem in an old English reader tells us the rest of the story.

Sir Ralph the Rover sailed away. He scoured the seas for many days, And now grows rich with plundered store. He steers his course to Scotland's shores, So thick a mist o'erspread the sky They cannot see the sun on high— 'Till the vessel strikes with a shivering shock— On Christ! it is the Inchcape Rock.

And Sir Ralph and his pirate crew were dashed to death against the very rock, from which a few short years before he, in a spirit of devilry cut the warning bell. And now, when his phantom ship is seen on the waters, there is always heard the faint, mournful tolling of a bell.

And it is these phantoms and mysteries of the sea and the stories that have been handed down from father to son, that have made the sailor brave and fearless as he is in all else, one of the most superstitious of mortals.

New York Detectives from Headquarters, sent to Coney Island to watch for violations of the State Prohibition law, upon entering a restaurant there noticed a man hastily snatch a bottle from the table and place it in his hip pocket. An officer accosted him and removed the bottle. It contained tomato catsup.

FOR INDIGESTION

Capt. Ellery Thompson, of the power boat Grace and Lucy, while trawl fishing a half-mile south of Southwest Ledge Lighthouse, Connecticut, on Tuesday, caught a torpedo in his net. The projectile was taken up to the submarine base. Capt. Thompson will receive the usual reward of \$50 for his find. The torpedo is believed to have been lost from submarine T-1 nearly two years ago.

Gen. Lew Wallace's "Ben Hur" has been a great money producer, both as a book and as a play. The total sales of the book have not been announced, but the total gross receipts from the play it is said, have been nearly \$10,000,000. Now the motion picture rights have been sold, it is also said, for \$1,000,000. Milton got only 25 pounds for "Ben Hur" last year, which was never dramatized and has never been pictured on the film.

GRASS BURNING IN SPRINGTIME

(From the Ottawa Citizen.)

It is customary, at this season of the year to burn over fields and large areas of grass, under the impression that this is beneficial to the soil and tends to a better growth of sword afterwards. In the suburban areas of the Capital this practice is common. But Mr. P. V. Ricker, Secretary of the American Wild Flower Preservation Society, unhesitatingly condemns the practice. "Millions of flowers that would develop food for insect killing birds are destroyed by the custom of burning over fields and woodlands in the spring," asserts this authority. The general impression that grass fires and slow ground fires in wooded areas are beneficial on account of the fertilizing value or content of the resultant ash is erroneous, and large economic loss results from this practice. Necessary organic matter, or the humus of the soil, which would be increased by decay of the ground cover, is destroyed. Because of this destruction of the wealth of the soil, the same authority maintains that the soil reaction would be changed. Instead of the normal growth of flowers and grasses of the ground cover, rank weeds will spring up, flourish and scatter their seeds. This replacement by weeds is characteristic of poor soil. Says Mr. Ricker: "Frequent burning will cause the ground cover to disappear entirely and leave the roots of trees exposed. Thus the stage of deforestation begins. Fire after fire has been the history of the deforestation and erosion of many wooded areas in this country." The advice comes at a particularly appropriate time. It is undoubtedly that fire clean up lawns and other grassed spaces quickly and effectively, and with no expenditure of labor. Naturally, it is a popular method. But if conditions are as this expert says, it might be a better plan to resort to the old method of raking. In any event our own horticulture experts might express an opinion on the matter by which we could be guided.

Joseph Florio, arrested in Leominster, told the police that he had travelled all over the world. He said that he bought his shoes in Jerusalem, his hat in New York, his collar in Denver, Colo., his shirt in Chattanooga, Tenn.; his coat in North Dakota, his waistcoat in Wheeling, W. V., his trousers in Pennsylvania, and his socks in Sacramento, Calif.

"Goodness me—"

I've forgotten the name of that medicine—for the wife.

"What is it for, Sir?"

"It's to build up the system."

"I knew what you meant, I've seen it."

The Brayley Drug Co., Limited, St. John, N.B.

HAS HAD TURBULENT HISTORY

City of Cork Through More Than 1,000 Years Has Often Been Reduced to Ruin—Sacked by Danes.

For more than 1,000 centuries the history of the city of Cork, recently the scene of arson, looting and slaying, has been marked by disasters that have been among the greatest of record—disasters which have reduced the city almost to ruin and scattered widely its inhabitants. After each tragedy Cork has risen from the depths, and taken its place among the chief cities of the United Kingdom.

A city of about 75,000 inhabitants, one of the most important harbors to be found in the British Isles, Cork's perpetual boasts have been its substantial industries, its historic schools, its magnificent hotels and churches. Its ready accessibility from the Irish Sea early made it a mark for the invaders from the east. History shows that in the ninth century the town was frequently pillaged by the Northmen, those adventurous warriors from the northern extremity of Europe who for nearly two centuries made the Hibernian Isle the object of frequent attacks and who usually began their onslaughts by sacking Cork first.

One of the earliest destructions of Cork dates back to the year 321, when the city was simultaneously fired on four sides. In the early part of the 11th century the city was again burned by the invading forces of Denmark, and during the constant wars between the ancient kingdom of Ireland and England, Cork was frequently the scene of military attack, pillage and massacre.

Cork is 165 miles southwest of Dublin, and for many decades ranked second to that city in commercial importance among the cities of Ireland. In the last half of the 19th century, however, Belfast, forged ahead of the support to the south. The city is situated at the magnificent inlet of Cork harbor on the river Lee, and is the centre of a railroad system with branches to all points in Ireland. Vessels plying from Cork carry much of Ireland's commerce with Fishguard, Liverpool, Glasgow and other ports of England and Scotland.

Approximately 85 per cent in Cork's population is of the Roman Catholic faith and that denomination has numerous magnificent churches edifices throughout the city. The Roman Catholic Cathedral is dedicated to St. Finbar and dates from 1803. It holds a conspicuous position in the northern part of the city. Other famous churches of the Roman Catholic faith are St. Mary's, St. Peter and Paul's, St. Patrick's, Holy Trinity and the Church of St. Vincent de Paul.

The city's most notable educational establishment is the University College, founded as Queen's College in 1849. The building is in Tudor style, and Macaulay declared it "worthy to stand in the High Street of Oxford." The college has a large library well furnished laboratory and a museum.

The Crawford College of Science, founded in 1855, and the Munster dairy and agricultural school are institutions of which Corkmen are proud, and besides parochial and industrial schools, several of the religious orders of the Catholic faith devote themselves to education.

The harbor of Cork is by far the most important on the south coast of Ireland. The imports in normal times have exceeded \$5,000,000 in value and included large quantities of wheat and corn. The exports, consisting chiefly of cattle, poultry,

THE RARE THORN OF CHRIST

In the grounds of the Episcopal Cathedral of St. Albans, which is being built on a commanding height overlooking America's capital city of Washington, there is a curious plant known as the Glastonbury thorn or Christ thorn. This plant has a rare history, for the tradition, as told by a writer in the Pathfinder, is that it was this kind of thorn from which the crown was made. In some cases the thorn is poisonous. Some of the wild tribes of Africa have used it to poison the tips of their arrows.

The name Glastonbury comes from old Glastonbury Abbey, near Bath, England. It was to Glastonbury, according to the legend, that Joseph of Arimathea came as a missionary to found the first Christian Church in England, and it was there that he brought the holy grail, or golden cup used by Christ at the last supper.

It is related that Joseph on reaching Glastonbury, thrust his stick into the ground. This stick was from the Christ thorn and he had brought it from the Holy Land as a sacred memento. It took root, and since then, sprouts from it have been taken to many different countries.

A fanatic during the religious troubles cut down the original thorn at Glastonbury, but it sprang up again afterwards and visitors to Glastonbury ruins can still see it.

The old story is that the Glastonbury thorn blossoms miraculously at Christmas, and at no other time of the year—unless some one with royal blood in his veins pays a visit of homage to it. It is even told that when the young Prince of Wales in November, 1919, was in Washington and paid a visit to the St. Albans Cathedral site, the Glastonbury thorn put a blossom which was presented to him, in accordance with the ancient custom.

The modern world is skeptical, and it does not believe that there is anything peculiarly holy in a thorn. Other famous churches of the Roman Catholic faith are St. Mary's, St. Peter and Paul's, St. Patrick's, Holy Trinity and the Church of St. Vincent de Paul.

The city's most notable educational establishment is the University College, founded as Queen's College in 1849. The building is in Tudor style, and Macaulay declared it "worthy to stand in the High Street of Oxford." The college has a large library well furnished laboratory and a museum.

The Crawford College of Science, founded in 1855, and the Munster dairy and agricultural school are institutions of which Corkmen are proud, and besides parochial and industrial schools, several of the religious orders of the Catholic faith devote themselves to education.

The harbor of Cork is by far the most important on the south coast of Ireland. The imports in normal times have exceeded \$5,000,000 in value and included large quantities of wheat and corn. The exports, consisting chiefly of cattle, poultry,

ions, butter and fish, were valued at \$15,000,000 annually in normal times. Cork's principal industries consist of distilleries, breweries, tanneries, iron foundries, plants devoted to the manufacturing of wooden and leather goods, tweeds, friezes, gloves and chemical manures.

"If you don't go out on your way to do something for someone else or for your community," says an engaging "you don't amount to much even though you pay your debts and lead a moral life. If all citizens were like that the town would soon drop and die. Get interested in someone or something outside your self."

High Average Mileage

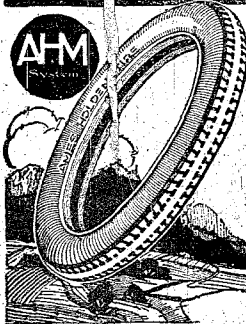

Sometimes you find a tire that gives extraordinary mileage—one in a dozen perhaps. Whereas the average of mileage given by a dozen—or a hundred—Ames Holden "Auto-Shoes" will be as high as that given by the exceptional ordinary tire. It's the high average that counts—that cuts the cost of miles—that makes it worth while to get Ames Holden "Auto-Shoes" instead of ordinary tires.

Fertilizer--for results.

In our advertising which we have issued from time to time during the past year, we have shown the results from various experiments in the use of fertilizer.

Our object in repeating these experiments is to show the farmers how conclusively they prove the only fertilizer to be depended upon to contain the three elements of plant food.

The next most important result of these experiments is that a varied source of Ammonia, Phosphoric Acid and Potash is the most satisfactory.

These experiments we emphasize again because of the tendency of farmers to buy unmixed fertilizer chemicals, more particularly Nitrate of Soda and Acid Phosphate. If the experiments we have reported prove one thing more than another, it is the uncertain returns to be expected from the use of that kind of fertilizer materials.

One of the most complete experiments recently reported is that of a twenty-five year rotation on potatoes, wheat and clover in Ohio. The five best results, that is the gain in dollars and cents per acre was from the use of complete fertilizers. The poorest result was from the use of Nitrate of Soda showing an actual loss of \$1.21 per acre covering the entire period of twenty-five years.

In the complete fertilizer those made exclusively from Nitrate of Soda, Acid Phosphate and Muriate of Potash (with a small quantity of Dried Blood), showed the smallest returns in actual money, while the three highest returns were from complete fertilizers where the plant food was from more varied sources.

Further experiments in Ohio cover a five-year period in an apple orchard. These tests were made on a cultivated orchard and a similar series on a grass mulch plot. On the cultivated plot the complete fertilizer gave a yield of 15 per cent. greater than those plots using Acid Phosphate and Nitrate of Soda. On the grass mulch plot the largest yield was on the complete fertilizer, but on another plot where no Potash was included

there was a high yield but not equal to the complete fertilizer. It is interesting that on the latter experiments the plots where Nitrate of Soda alone was used the yield for the whole period of five years was 25 per cent. less than that on the complete fertilizers.

A two years experiment in an apple orchard showed a yield of 22 barrels without fertilizer and 95 barrels where a complete fertilizer was used. This test was on the same number of trees in each plot.

It is from these and similar results that we recommend the farmers not to experiment with unmixed fertilizer chemicals, but to buy in all cases complete fertilizers such as the "Made at Windsor, N. S." brands.

Particularly do we recommend complete fertilizers when there has been such a lack of Potash for the past several years, and particularly we recommend the "Made at Windsor, N. S." fertilizers this year rather than those from any other source.

There is a country-wide campaign for the use of "Made in Canada" goods. The matter of unemployment is one of the most serious problems, and employment is not given to home workers in buying goods made at any other point.

How far this is being urged is shown by the daily papers. In Ottawa, Toronto, Welland, and in several other places in Ontario, organizations of consumers are pledging themselves to buy exclusively "Made in Canada" goods. They realize every dollar spent out of the country gives employment out of the country, and every dollar spent on goods made here gives employment to men here.

There are some things which it is almost necessary to buy outside of the country, but fertilizer is not one of them. There is no better fertilizer made than the "Made at Windsor, N. S." fertilizers and it can always be bought at as reasonable a price and on as reasonable terms as any other fertilizer on the same conditions of purchase.

Shells Still Flying.
Residents of the devastated districts of France are still fleeing from bursts of shell and shrapnel.
The new menace is caused by the small grass and swamp fires, which frequently set off the shells that have been piled up to be hauled away and exploded in some safe place.
Maj. H. C. Greene of Boston had a thrilling ride and narrowly escaped a hail of shrapnel on his way from St. Quentin to Laon as a result of one of these fires. A French woman working in a field near Bouconville was gassed and considerable damage has been done.
In the vast, desolate fields, thousands of unexploded shells have been picked up by German prisoners, and though there are details hauling them away and exploding them in remote valleys every day, there are still long ranks of them everywhere. Sparks from locomotives and from small fires where scattered rubbish is being burned occasionally set fire to patches of dry weeds, and the accidental bursts are numerous.

Immigrant Literary Test.
Immigrants subject to the literary test at Ellis Island now have to read thirty or forty words from the Psalms, in any language they prefer. Immigration inspectors are equipped with cards in all languages, with verses from the Psalms printed on them. All types of script are represented—German, Arabic, Hebrew, Japanese, Russian and so on, except Chinese, for that nationality is not permitted to immigrate. Last year also learn parrotlike the verse of the Psalm that a friend in this country had to read, the inspectors have at least forty different verses in each language, one verse to a card.

HOW HALIFAX SOLVED ITS GREAT HOUSING PROBLEM

Three years ago, Halifax, "Canada's Nova Scotia Gateway," was dealt the most devastating blow suffered by any city outside the war zone when the "Imo" rammed the French munition ship "Mont Blanc," killed 2,000 people and wrecked an area of two square miles. To-day Halifax is a bigger, better and more beautiful city than it was before the T.V.T. blast because the great housing problem has been solved successfully and because the new is ever better than the old. As a wounded war veteran Halifax received a bonus of about \$200,000 from Canada, Great Britain and the United States for relief work and a commission with full power to deal with the subject was appointed. Fully 5,000 people were comfortably housed in temporary barracks resembling a war-time camp, 8,000 homes were repaired and 1,000 homes accommodating 6,000 people have been built by the commission which has practically finished its titanic task. In one new group of 322 dwellings built of hydro-stone, or concrete blocks, there are 37 buildings containing four dwellings each and the remainder contain from two to six families. Each row faces a park and in the rear is a service lane. Each building has all modern improvements and is exceedingly attractive. Halifax is the chief city of Nova Scotia, the "Land of Evangeline," and has one of the finest as well as one of the most beautiful harbors in the world. Overlooking the city is the old Citadel with its stone walls, moats, dungeons and frowning cannon.

New Hydro Stone House

non. All manner of water sports are on its summer program and there is strong rivalry between the racing fishermen of Nova Scotia and New England whose forebears have followed the sea for generations. Not far from Halifax is the Annapolis Valley, famous because of its wonderful apple-blossom time and because it was the home of the Acadians, whose expulsion in 1755 furnished the theme of Longfellow's "Evangeline."

Sightseeing in Pictures—Rich Farmers Retire

- (1) Wolfe anniversary dinner, at Westernman, Kent, Eng.—Many Canadians attended the anniversary dinner given in memory of General Wolfe, whose forces captured Quebec from the French.
- (2) The three American naval balloons who were lost for days in Northern Canada, were given a great reception when they arrived home.
- (3) Benny Leonard and Ritchie Mitchell, posing for picture before the battle in Madison Square Gardens, N.Y.
- (4) Rev. John Clifford, M.A., D.D., London, England, who has been appointed a member of the Order of Companions of Honour.
- (5) British Labor Party National Conference in London. Special session on unemployment and conditions in Ireland.
- (6) Robert Lester Craigie, temporary British ambassador to the United States in the absence of Sir Auckland Geddes, who has left to confer with Lloyd George.
- (7) Tattooing a Burmese boy, a custom which is universal. When he reaches manhood the legs and arms are done in various animal designs. The operation is painful.
- (8) New warning signs for road traffic in England.

PROFITABLE FARMING

(1) Farmers breaking new ground in western Canada.

(2) Threshing contractors at work in Namaka, Alta.

The Premier Producing Seed.

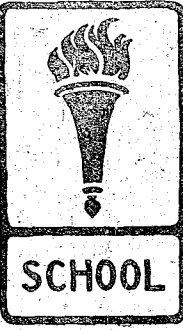

Three years ago, Mr. Hopkins, a zealous student of scientific farming, and a stern advocate of selective seed, purchased Red-Tails seed from Seager Wheeler, the wheat wizard of world renown, who has carefully followed in the footsteps of his model until the result of this year's crop, he found himself in a position to retire, make a world tour, and settle with his family at Nias, Southern France.

Coming from across the line, William Hopkins commenced farming at Kinoh, an elevator rising in Saskatchewan, on the Goose Lake Line, in 1905, and, in the course of his operations, acquired 1750 acres which he cultivated, summer following 500 acres each summer. It speaks well for the country that in all these years he never experienced a crop failure, and in the only poor year recorded, that of 1919, the yield of the farm, cleared all expenses, yielded 45 bushels to the acre and 420 acres of Kitchener, which reaped 40 bushels from every acre. In contrast, 480 acres sown to Marquis, which owing to circumstances it was found necessary to subdivide, gave a yield of 15 bushels to the acre.

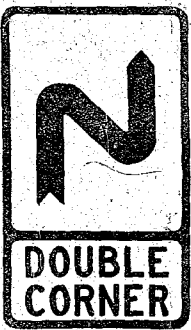

This year, after threshing, having operated his land for fifteen years, Mr. Hopkins said out to George Leonard, who had managed it for him for a number of years, the price of exchange was \$50 per acre or a total of \$100,000. His fifteen years' work has given him independence as well as a profitable income yearly. All for him and his family are over. This fall Mr. Hopkins and his family start out on a tour of Canada and the United States, the Mediterranean and other lands, and then will settle in the beautiful parks of the Riviera.

A. B. Calder, Promoted.

A. B. Calder, formerly assistant general passenger agent, has been promoted to the executive staff of the Canadian Pacific Railway.

It will be remembered that Mr. Calder accompanied the Prince of Wales' train across Canada as representative of the president, the arrangements for which he supervised, and that he also was in charge of the Canadian Pacific train for the Imperial Press Conference in a similar capacity. Mr. Calder joined the C. P. R. originally in the construction days when the railway was being pushed out west of Winnipeg. He is the son of Alexander Calder, the railway and steamship agent of Winnipeg.

LETTER FROM MRS. WAKELIN

Tells Remarkable Story of
Sickness and Recovery.

Toronto, Ont.,—"I suffered greatly from weakness, seemed to be tired all the time, and had no ambition to do anything or go any place. My nerves were in bad shape, I could not sleep at night, and then came a breakdown. I read of Lydia E. Pinkham's Vegetable Compound in the newspapers and several of my friends advised me to use it, and I would strongly advise every suffering woman to give Lydia E. Pinkham's Vegetable Compound a trial. I, Mrs. CHARLES WAKELIN, 272 Christie St., Toronto, Ont.,

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for more than forty years.

If there are any communications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

Arrived from Yarmouth on the 18th, Mrs. Edward Dukeshire to visit relatives and friends.

Mrs. E. H. Collins, of Digby is in town.

It was stated of a woman of 30, on whom an inquest was held at Sheffield, C. B., that she had been married three times. Her first husband was killed in a coal pit, and her second in the war.

TORTURED BY TERRIBLE ECZEMA

Suffered Three Years Until She Tried
"FRUIT-A-LIVES"

DAME PETER LAMARRE

"I think it my duty to tell you how much your medicine has done for me. I suffered for three years with terrible Eczema. I consulted several doctors and they did not do me any good.

Then, I used one box of 'Sootha-Salva' and two boxes of 'Fruit-a-Lives' and my hands are now clear. The pain is gone and there has been no return. I think it is a marvelous cure because no other medicine did me any good and I tried all the remedies I ever heard of, without benefit until I used 'Sootha-Salva' and 'Fruit-a-Lives'.

'Fruit-a-Lives' cooled the blood and removed the cause of the disease, and 'Sootha-Salva' completed the cure."

Dame PETER LAMARRE (file). 50c. a box, 3 for \$1.50, trial size 25c. At all dealers or sent post paid by Fruit-a-Lives Limited, Ottawa, Ont.

PREPORT

A. R. Westcott made a business trip to St. John Monday, returning Thursday.

Mr. and Mrs. Charlie Stevens have returned home after spending the winter months in Cambridge, Mass.

Miss Marion Varnum of Boston, Mass., is the guest of Mr. and Mrs. C. A. Haines.

Mr. Gibson who has been visiting his friend Miss Dorothy Hains has returned to his home in Halifax.

Long Perry, from Perry, made a trip to Meteghan last week.

Byron Murphy has returned home after spending the winter in St. John.

Leslie McEwen has returned home from St. John.

A surprise party was given Mr. and Mrs. William Stevens on Tuesday evening, it being the anniversary of Mrs. Stevens birthday. The evening passed very pleasantly with games, music and social chats, after which refreshments were served.

The concert given in the Temperance Hall on Thursday evening was a decided success. The proceeds are for church repairs.

Dr. Weir entertained a large number of friends at his home on Thursday evening.

The annual sermon to the Chipewaga Lodge of Oddfellows, will be given next Sunday morning at 11 o'clock, at the Baptist church, by the Rev. G. Whitfield Brooker, B. Th. The theme of the sermon will be 'Godliness is profitable in every way.' Special altitudes will be provided by the choir. The central side of the church will be reserved for the Oddfellows, the gallery and side aisles are open to the public. The members of the order will wear full regalia and march from the hall to the church. Every member of the Lodge is specially requested to be present.

BELLIVEAU'S COVE

Nelson Hall of Boston, in company with his father, is buying lumber here for the Boston market.

Daniel LeBlanc after an illness of over a year of Bronchitis Disease, passed away quite suddenly on the 12th inst at the age of 64 years. Funeral took place at St. Bernard's.

Rev. Father Melanson after an absence of three months at the Sanatorium, in Belleville, has again taken charge of his parish at St. Bernard's.

A meeting of the parishioners of St. Bernard's was held Sunday to consider what means will be taken to further continue the work on the church.

The output of lumber at the mills in the vicinity of Belliveau's Cove is quite large with prospects of much lower prices than last season.

The schooner Levis Capt. Seth is taking planks for St. Andrews.

Schooner Laura and Marion, Capt. Trahan will load Lumber for Boston.

Steam Ship Frances Bonville has returned here on her way with freight from St. John.

F. D. Theriault has gone to Quebec.

A. A. Theriault, is buying twelve inch boards for export.

FILMSTON

We are very much pleased to have with us again Mrs. Dania Thomas for the summer months. She arrived last Friday from Montreal, New Jersey, and will occupy her new bungalow, just completed by Chas. B. Dunham.

Frederic to report Mrs. A. W. Warner who has been ill and confined to her room, very much better, and able to be out again.

Several new cases of measles have made their appearance in our community.

Mr. and Mrs. C. B. Dunham who were occupants of "Willow Cottage" during the winter, have removed to their home in Barton.

CULLODEN

Handford Daler and daughter Ruby, of Marshalltown, have been spending a week with relatives in this place.

Mr. and Mrs. George Bain, of Digby, are spending a few weeks in this village. Wallace Tidd and brother, of Gulliver's Cove, were the guests of their aunt, Mrs. W. E. Handspiker on Sunday.

Alexander Adams, of Bay View, spent one day recently with his sister, Mrs. Henrietta Handspiker.

PORT WADE

The family of Mr. and Mrs. Roy West-har was made happy Saturday evening by the birth of a son, naming him a fine baby girl.

Mr. and Mrs. Howard Burke spent the week end in Port Wade at the home of Mr. and Mrs. John Manning.

Mrs. Vandra, White and daughter Theda, are home from Yarmouth for a stay of some weeks.

On Tuesday evening last the W. M. A. S. of the United Baptist Church held a 15 cent tea at the home of Mr. and Mrs. Robert Burke, realizing the sum of \$14.

Mr. and Mrs. Percy Amoro have moved away to Lynn, Mass.

Messrs. J. H. Jones and Ernest Reid are each building substantial out buildings, this spring.

The years fire risk is now being tackled in a war in households of this vicinity.

Lobsters are reported being very scarce now, and lower in price.

Boats on the Basin are still raking in the scuttles.

Ray, Isaac Brindley of St. John visited this place last week.

DEEP BROOM

Miss Clara M. Suits who has been Matron at the Grand Hotel in Yarmouth is spending a few weeks at her home here before going to Harbour View for the summer.

Mrs. Lottie Sillis has returned from a "vacation" trip of five days to the guest of her sister Mrs. B. C. Clarke.

Mrs. Hing Fowler, of Wexford, who has been the guest of Mrs. J. D. Spurr for a few weeks, returned home on Saturday.

Mr. and Mrs. John Henshaw, after spending the winter with their children in New England returned home on Friday of last week. They were accompanied by their daughter and her husband, Mr. and Mrs. Hiss of Turner's Falls, Mass.

Mrs. Carey Morgan, of Lunenburg, has been a guest of Mrs. Avard Burrill for a few days.

Miss Margaret Jones, of New York, is a guest of Mrs. L. F. Sherman for a few weeks. She expects to move in her new bungalow by June 1st.

Albert Spurr was a week and guest of his parents, Mr. and Mrs. S. A. Spurr. He expects to sail on Thursday for London, England, in the interest of his business.

The pie sale which was given on Tuesday evening by the Dorcas Society was a splendid success.

For years I have never considered my stock of household necessities complete unless a bottle of Minard's Liniment was included. For burns, bruises, sprains, rheumatism, sore muscles, and all who have a herd of cows, large or small, I know of no better remedy for a severe cold in the head, or that will give more immediate relief than to inhale from the bottle through the nasal organ.

And as to my supply of veterinary remedies it is essential, as I have in very many instances, proven its value. A recent experience in reclaiming what was supposed to be a lost cow, a valuable cow, under has again demonstrated its great work and prompts me to recommend it in the kindest terms to all who have a herd of cows, large or small. I take it safe in saying among all the remedies I have used, and none that covers as large a field of usefulness as does Minard's Liniment. A real truest good for man or beast.

CHAS. K. ROBBINS
Chebogue Point, N. S.

SANDE COVE

Mrs. Harry Jensen and little grand-daughter, Clara Gundry, who have been spending the winter in Sande Cove, arrived home on Tuesday.

Mrs. Florence Holmes, of Centerville, who has been the guest of her sister Mrs. Floyd Coffey.

A. J. Mitchell spent several days of last week in Digby.

LaMer Dyer, who has been employed in Angus, Ontario, arrived home on Friday.

Mrs. Margaret Saunders, accompanied by her son, Mrs. Saunders, returned from Fall River on Wednesday.

Mrs. Lisa Dakin, who has been the guest of her mother, the winter months, returned to St. John on Monday.

Winston Morehouse left on Tuesday for St. John where he is the guest of his brother in that city.

Ingram Saunders went to Bear River Saturday for medical treatment.

Capt. George Morley, of St. John, spent the weekend at his home here.

TIVERTON

D. C. Outhouse, has returned from a business trip to Boston, Mass.

Sydney Morehouse, of Westport, visited relatives here last week.

Dr. Chondish, dentist, left for Westport on Saturday.

We are sorry to report William Smith and Edward McCormack very ill.

Mr. and Mrs. John Tyme have gone to Black's Harbour to take charge of a new hotel there.

Mr. and Mrs. Alwood Outhouse and Clarence Outhouse spent a few days last week at Port Maitland.

We are pleased to report Mrs. Margaret Saunders improving after an operation for tumor at the St. John Infirmary.

Mrs. Arthur Powell, has returned home for a few months.

We are sorry to report Stephen Outhouse not improving in health.

NORTH RANGE

Mrs. Jane Andrews has gone to Boston to spend the summer.

Mr. and Mrs. Frank Andrews, of Sande Cove, spent the week end the guest of his parents, Mr. and Mrs. John A. Andrews.

We are sorry to say John A. Andrews is on the sick list.

The Roads are Getting Fine!

During the next eight or nine months you should take advantage of the fine weather, and get out in the country. We would strongly urge that you buy a new car, but we know that in some cases this is impossible, and a good

Second-Hand Car

would serve the purpose just as well. We have some bargains in this class of car and following is a list of some we have.

McLaughlin 1917 817 cc. thoroughly overhauled, newly painted, good tires. This car is in splendid condition and is a good buy at the price we have on it.

Willys-Knight Requires a little work to be done on it, but nothing expensive. Has a set of good tires and can be got ready to run in a few hours. A little money would make this a first class car, for all practical purposes, as good as new.

Chevrolet 1917 MODEL, in good shape, but it should be overhauled and cleaned before it is taken out of the shop. Will be sold cheap and will make a splendid car for some man.

Chevrolet 1919 MODEL. This car has had the best of care and is in first class order, ready to run.

Fords from 1913 to 1921 models. Some are in good shape and some not so good, but a Ford can always be depended upon to run no matter what condition it's in. Prices of second-hand Fords from \$250. up. If you would rather have a new Ford—and it's only a question for yourself to decide—we have them.

We have a new **Fordson Tractor** in stock ready for delivery, and in a few days will give a demonstration by ploughing at any time or place on short notice.

Grandmother came to this House a Bride

SHE came into it perhaps 60 years ago, she enriched it with all the romance of youth, the experience of maturity and, thanks to its wonderful preservation, she was permitted to spend the evening of her life amid the old familiar walls.

And to-day it still stands—a trifle old-fashioned in architecture perhaps—but in every essential, a home rich in memories and a silent tribute to the wisdom of protection against decay.

How Zam-Buk Banished MY PILES

"I suffered severely from piles," writes Mr. James Ruddy, of Kilmalee, Ont., "the pain at times was unbearable. I had tried one after another of the so-called 'pile-cures,' but continued every bit as bad as ever until I commenced the Zam-Buk treatment. To my joy this herbal healing balm speedily relieved the burning irritation. Perseverance banished the piles completely."

For piles apply Zam-Buk at night and let it act while you sleep. Zam-Buk's refined herbal essences speedily soothe and heal the inflamed tissues—take away the burning pain and avoid itching like nothing else can. Zam-Buk is also the finest possible remedy for eczema, ulcers, ringworm, poison ivy, burns, scalds, and boils, rashes and other spring skin troubles. 50c. box for \$1.35. All dealers or from Zam-Buk Co., Toronto.

Facts About the Barbados

BARBADOS lies on the eastern edge of the Caribbean Sea. It is with pride that a Barbadian will tell you that since his coral island home became a British possession many years after it had been discovered by Portuguese mariners—who simply named it Los Barbados and passed by, evidently not being impressed with the low-lying land—it has remained British.

In many respects Barbados occupies a unique position. Within her borders, 166 square miles, there are at least 200,000 persons who makes the island one of the most thickly populated places in the world; the development of industry is carried out on the most scientific lines possible; the system of taxation is scientific—the means, and not the necessities, of life being taxed; the matter of experiments in the production of the best kind of sugar cane she is without a rival. The Barbadian is a traveler; he is an observer; and despite the fact that the struggle for existence among the peasant class must of necessity be keen, it is safe to say that there is no more contented lot of people in the West Indies than the natives of Barbados. Doubtless the spirit of self-determination to work out the colony's salvation has been fostered by the privilege she has enjoyed since the Union Jack was hoisted there in 1806. She has adhered steadily to Representative Government, and she has done well. Many of the early settlers were men and women of high literary attainments, who brought with them aspirations that helped to make British great, and in Barbados they planted seeds which have produced a people who are known for their industry, intelligence, and community of interests. She possesses a House of Assembly, which each of the 11 or 12 electoral districts sends two representatives. There is a Legislative Council which is to the Barbadian what the House of Lords is to the man in the Homeland. Then there is a Governor-Executive Committee, with an equal number of the people's representatives and officials, to advise the chief executive in the preparation of estimates. Barbados has her Speaker in the House of Assembly, and her Mayor.

Barbados is essentially an agricultural centre. In the production of foodstuffs, cane, and cotton, she is ahead of any area of her size in the West Indies. Every square yard of close upon 80,000 acres of land available for agriculture is cultivated. There are upwards of 400 sugar estates; the majority of them are, it is true, very small, but in her worst years Barbados has been able to produce not less than 50,000 tons of sugar, besides molasses and rum. Barbados has for more than twenty years been the headquarters of the Imperial Department of Agriculture in the West Indies—an institution which came into being when the Caribbean islands were passing through a period of economic depression through the gradual decline of cane sugar, the mainstay of every island of the group. Barbados was the first place in which a variety of sugar cane which gives 45 tons to the acre was propagated, as against 25 tons obtained elsewhere by other varieties. To-day Barbados seedling canes are being cultivated in the other colonies. Barbados was many years ago the home of cotton production, but it was abandoned, to be revived, however, thanks to the efforts of the Government, the Imperial Department of Agriculture, and the Cotton Growers' Association of Manchester. To-day cotton is produced and ginned in the island. When the colony was passing through a period of industrial stagnation, the Imperial Government, in addition to establishing the headquarters of the newly-created Department of Agriculture in the West Indies there, made a grant of \$50,000 to the Government to assist agriculture. This amount was used to form the nucleus of an agricultural bank, from which advances are made to planters.

The colony is known for its yams, potatoes, and other articles of foodstuffs. Thousands of her exports are graded to Panama during the construction of the canal; in fact, Barbados are to be found in almost every quarter of the globe; but the Government has so conserved the interests of the people that very few persons from other lands are seen there. Chinese or Assyrians are not permitted to land to engage in business as is the case with Jamaica and British Guiana; East Indian laborers are not to be found on the sugar plantations. It is the Barbadian first and last.

Barbados is regarded as a good place for petroleum. An English company is there prospecting for oil. A railway service is operated by the Electric Light and Power Co. of Barbados. The island is about to give way to electric trams. Barbados was the first West Indian colony to produce a newspaper. It is about to give point trading agents in England; she was one of the first colonies of the group to sign a treaty with Canada, by which she has been able to find a steady market for her sugar, molasses and other products. Barbados is anxious for improved shipping facilities with Canada and the Mother Country and also better arrangements to supply ships with water and fuel at Carlisle Bay—her principal shipping port and the one in favor of a Federated West Indies—London Times.

The first all-brake patent was taken out by Westinghouse in 1872.

"Some of the Moncton girls," says the Transcript, "are so pretty that when they get on a street car advertisements are a trial loss."

"HASN'T ANY EQUAL" SAYS MRS. LEWIS

St. John Woman Tells Of Good Tanlac Did Her For The Benefit Of Others.

"For the sake of others who may be suffering from the after effects of influenza, I am glad to tell of my experience with Tanlac," said Mrs. Lewis Gilliland, of 96 Sea Street, St. John N. B.

"Ever since I had the influenza year before last, I had been in a badly run down condition. I had no appetite, never dared eat rich foods of any kind and no matter what I ate, I suffered terribly from indigestion. I also suffered from constipation, had bleeding headaches and almost unbearable pains in my back.

"The noises of the children playing almost set me wild, and my nervousness kept me awake so much every night that I felt as tired in the mornings as if I hadn't gone to bed at all. To add to my misery, I was badly crippled up with rheumatism, which caused me intense suffering.

"Well, I have only taken two bottles of Tanlac so far, but I haven't had a headache since I began taking it and I believe my rheumatism is gone completely, for I never feel a touch of it. My appetite is just splendid and I can eat anything I want and never suffer any afterwards. My constipation and nervousness has left me, and I just feel fine all the time. For those who suffer as I did, I don't believe there is anything in the world equal to Tanlac."

The following sign is painted on a fence in the neighborhood of Rochester, N. Y.: "Kaiser paid for little calves not mourn to daze old."

Every bill collector has heard a similar tale to the one Germany is now telling the world.

Writing over the pen name "Parliamentarian," a contributor to Toronto Saturday Night says scurrilously that "in parts of Nova Scotia they still refer to Quebec and Ontario as Canada." "And in Ontario they think of Ontario as Canada," says the Sydney Record.

Mrs. Edna Miller, of Mt. Taber, Md., has a home-made linen tablecloth 103 years old. The initials "E. S." of her grandmother, Mrs. Snyder, and the date, "1818," are in needlework in the corner of the cloth.

F. E. Putnam, of Lowell, Mass., had a concrete sidewalk laid in 1919 and, so inadvertently covered a peony bush, he says that the plant is now in the sunlight again, having forced its way through a layer of tarred cobblestones and more than an inch of solid concrete.

The U. S. Weather Bureau says that Miles City, Mont., has the greatest recorded range of temperatures in the United States. The maximum heat was 112 degrees and the greatest cold was 65 below. The dry air tempers the cold and a fine breeze soothes the heat a little, so that they are endurable.

A Warm Store A Cold Draft

The man or woman behind the counter is in constant danger of contracting colds.

An overheated store, and the drafts from the constantly opening doors—that's what causes it.

SHARP'S BALSAM

of Horsebalm and Anise Seed—a winter health preserver for indoor workers—is the most reliable remedy for all such conditions.

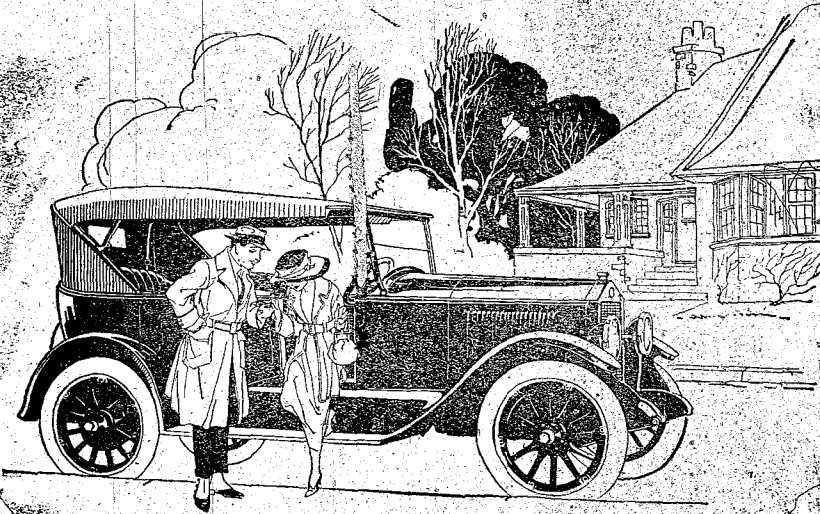

It almost instantly remedies incipient colds, and affords quick and grateful relief in more chronic cases, finally completely correcting the condition.

The popular cold remedy for 70 years. At all drug and general stores, 25c. The Canadian Drug Co., Limited, ST. JOHN, N. B.

Wood's Great Peppermint Cure. The Great English Remedy. It cures all the winter troubles, colds, coughs, whooping cough, makes you breathe freely, relieves all the chest troubles, and drives out the mucus. It is a great remedy for all the winter troubles. Price 25c. per bottle. It is a great remedy for all the winter troubles. Price 25c. per bottle. It is a great remedy for all the winter troubles. Price 25c. per bottle.

GRAY-DORT

Unusual Value Throughout This Car

It seems to be generally accepted now that anyone who is interested in a motor car must consider the Gray-Dort.

More and more men are coming to regard the Gray-Dort as the best light car and the biggest value at any price.

This intensely favorable attitude to the Gray-Dort is the result of the complete value of this car—low price, gasoline and tire economy, unusual good looks, power, speed, comfort and long trouble-free life. Not one feature is sacrificed.

Naturally, such value makes it difficult to supply the demand. Gray-Dort dealers are able to make early deliveries to a few owners. See your dealer now.

NOTICE

IN THE MATTER of an application under the Mines Act by Harry Harris, Esq., of Digby, N.S., for a license to search for Distinctive Earth over an area or tract of land at or near Petite Passage in the County of Digby, described as follows:—

Beginning at the most southerly corner of an area held under license to search by Edith Wightman, dated Oct. 31, 1919, thence north westerly along the south western line of said area and its continuation, two miles; thence south, thirty-five degrees west, one and one-half miles to the first described line two miles; thence in a straight line easterly parallel to the place of beginning.

AND IN THE MATTER of the Crown Lands Act as amended by Chapter 32 of the Acts of 1920.

NOTICE is hereby given to all who may be concerned that the undersigned Harry Harris, Esq., of Digby, N.S., has made the above mentioned application and that any application for or on behalf of any person or persons claiming a license or lease by having prior to the first day of May 1921, developed any mineral in said area or tract of land or expended money for or in connection with such mineral must be made within 30 days after the date of publication of this notice and that this notice will be published once in each week for four consecutive weeks after the date hereof in The Digby Courier, a newspaper circulating in the County of Digby.

HARRY HARRIS, Esq.
Dated the 1st day of March, 1921.

NOTICE

IN THE MATTER of an application under the Mines Act by Augustus Harris, Esq., of Digby, N.S., for a license to search for Distinctive Earth over an area or tract of land at Little River and Tidville in the County of Digby, described as follows:—

Beginning at a section of Digby Neck between the Bay of Fundy on the north-west side and St. Mary's Bay, on the south-east side, a distance of two and one-half miles; between two lines running north-west and south-east across the neck, the north easterly line being a distance of one-third of a mile in a south westerly direction from the bridge of Little River corner where the Digby Neck post road meets the main road running through the village of Little River.

AND IN THE MATTER of the Crown Lands Act as amended by Chapter 32 of the Acts of 1920.

NOTICE is hereby given to all whom it may concern that the undersigned Augustus Harris, Esq., of Digby, N.S., has made the above mentioned application and that any application for or on behalf of any person or persons claiming a license or lease by having prior to the first day of May 1921, developed any mineral in said area or tract of land or expended money for or in connection with such mineral must be made within 30 days after the date hereof in The Digby Courier, a newspaper circulating in the County of Digby.

AUGUSTUS HARRIS, Esq.
Dated the 31st day of March, 1921.

Sale - THURSDAY, FRIDAY and SATURDAY - Sale

This ONE CENT SALE Plan was originated by the United Drug Company for the Rexall Drug Stores. The United Drug Company are the largest manufacturers and buyers of Toilet Articles, Remedies, Chocolates, Perfumes, Rubber Goods, Stationery and Drug Sundries in the world, and this is an advertising plan pure and simple, of which they bear most of the expense. Instead of spending money in the regular way, such as Free Samples, etc., it is their desire that we place full size packages, or articles, in your hands, giving you an opportunity to judge the real value of these goods, the cost of which they charge to advertising. We will only be permitted to run this sale occasionally. Beware of imitations in other stores, and take advantage of this exceptional opportunity. We can not afford to charge or deliver goods during this sale. Come in and see the display of all New Merchandise.

WOMEN OF MIDDLE AGE

May Pass the Critical Period Safely and Comfortably by Taking Lydia E. Pinkham's Vegetable Compound.

Regina, Sask.—"I was going through Change of Life and suffered for two years with headache, nervousness, sleepless nights and general weakness. Some days I felt tired and unfit to do my work. I gave Lydia E. Pinkham's Vegetable Compound a trial and found good results, and I also find it a very helpful spring tonic and useful for constipation from which I suffer much. I have recommended Vegetable Compound to several friends, and am willing you should publish this."—Mrs. MARTHA W. LUNDY, 210 Robinson St., Regina, Sask.

If you have warning symptoms such as a sense of suffocation, hot flashes, headache, backache, dizziness, or any of the eye, irregularities, constipation, variable appetite, weakness, inquietude, and dizziness, get a bottle of Lydia E. Pinkham's Vegetable Compound and begin taking the medicine at once. We know it will help you as it did Mrs. Lundy.

NURSING

WANTED—Nurses, men and women, 20 to 30 years, learn without leaving home. Descriptive booklet sent free. ROYAL COLLEGE OF NURSING, 100 Queen St. W., Toronto, Canada.

THE BEGINNING OF PASSOVER

Great Jewish Holiday, ushered in Friday Evening.

The setting of the sun Friday evening ushered in one of the most strictly observed of all Jewish holidays, known as Passover, or Jewish Easter. It is the spring festival of the Jewish people, and in ancient times was the first of the three great pilgrim feasts, when the people of Israel gathered from the remotest sections of the Holy Land and went up to Jerusalem to offer their thank offerings at the Temple.

The festival begins on the fourteenth day of the month of Nisan, the first month of the secular year of the Hebrews, and was ordained to commemorate the redemption of the children of Israel from their bondage in the land of Egypt, where they had been held as slaves for more than 400 years.

The festival is observed throughout the world by orthodox and reformed alike by the change in the daily diet. Everything leavened is removed and only unleavened food is consumed. The holiday is observed during one entire week, and during that time "matzos" take the place of bread, and all pastry is made from matzos and potato flour.

Many thousands of barrels of flour are used in New York alone in making "matzos" to be eaten during the Passover holidays. It is considered of the utmost importance that grain intended for ceremonial use be kept from rain or moisture from the time the wheat stalks are severed in the harvest field until the "matzos" touches the lips of the consumer, with the exception of what is absolutely essential to the mixing of the dough. Consequently the wheat is grown under contract between the bakers and the farmers, and is harvested, threshed, stored, shipped and manufactured into flour under the direct supervision of the rabbi or his representative. The flour is manufactured in a modern roller process flour mill and is stored in grades, until stored in orthodox bakeries, and when the time for baking arrives, the rabbi or his delegate watches the mixing of the dough, the emergence of the "matzos" from the ovens, and their packing and sealing in properly prepared boxes.

The flour and water are mixed by machinery; the dough is rolled mechanically into thin sheets, cut by means of dies into eight-inch squares or twelve-inch discs and placed upon a moving wire drum, which passes through a very hot oven, baked ready for packing in boxes.

During Passover week all the synagogues were open the first two and last two days, and the reformed temples will only observe the first and last days. All social functions ceased during the observance of the holiday, and no affairs of a social nature were observed until the celebration of Pentecost, with but one exception that day being the 36th of Omer, which comes three weeks after the holiday.

Family reunions are among the pleasant features of the holiday, and members who may be absent from home during the entire year appear at the family fireside during the celebration. The poor are also given special attention, and every family which is unable to obtain the necessary food is furnished with enough for their wants by some one of the many charitable organizations.

THE PLANTING OF FRUIT TREES

(Experimental Farm Notes)

This is the season for setting out young fruit trees, and it should be done just as early as possible. As soon as the ground is in condition to work, preparations should be made for the planting of the young orchard. A good deep ploughing, if the land was not fall ploughed, should be given, followed by a thorough discing.

After the land has been worked into good condition, proceed to lay out the orchard. As it is desirable to get the trees lined up in all directions, this laying out should be done with care.

Start at one corner of the field and plant a stake. Then run a straight line parallel to a fence, or in the desired direction. Having established this line, it is now necessary to run another line at right angles to it.

Go back to the first stake planted with a stout cord measure off eight feet on this line and make a mark at that point; now shorten your line to six feet and by holding one end of the cord at the first stake plant, draw a circle on the ground. Having this done lengthen the cord to ten feet and hold one end of it at the point you marked off eight feet from the first stake, and draw another circle. Where this circle cuts the first circle, plant a stake. The line made by this stake and the first one planted is at right angles to the line first run.

After having run this second line as far as desired the same procedure can be used to complete the orchard. The line made by the stake at the end of the square and so on until there is a complete square around the field.

Now decide upon the distances apart your trees are to be placed. For apples it is generally 30 feet by 30 feet, or 35 feet by 35 feet. For

SHE COULD HARDLY WALK ACROSS ROOM

St. John Woman Says Her Life Was A Burden—Restored to Health By Tanlac.

"Before I took Tanlac I was so weak I could hardly walk across the room, but now I can do all my housework with ease," said Mrs. Robert Clayton, of 25 Hanover St., St. John, N.B.

"For three or four years I suffered terribly from indigestion, which finally got so bad I had to live on a special light diet. My appetite was so poor I could scarcely eat anything, and every morning I got up with a sickening sensation that I could hardly endure. Just as soon as I ate anything gas would form on my stomach and cause such terrible pains around my heart it seemed that I was troubled with a heart ailment. I was finally forced to turn almost deathly sick after meals, sometimes couldn't retain my food and would just have to give up and lie down. At times I had such severe headaches I had to go to bed and I was troubled a lot with pain in my shoulders, neck and back. All the time I felt so tired and drowsy I could hardly stay up, and just to walk a few steps would tire me out completely.

Finally I got to the point where life was a burden to me, but I happened to learn about Tanlac, and before I finished my first bottle I could see a wonderful change in my condition. I have taken three bottles now and my appetite is splendid, and although I am eating just anything I want, nothing hurts me the least bit. I never feel tired and drowsy and my housework is a pleasure. Tanlac is the grandest medicine I ever heard of, for it certainly has made life worth living for me.

plums 20 feet by 20 feet.

If the thirty-foot distance is chosen, mark off thirty-foot distances on all four sides of the square and plant a stake at each place.

To fill in the centre of the square three persons are required, one to hold stakes and the other two to sight. One sighter lines up the stake holder for one direction and the other sighter lines him up for the other direction. When in line in both directions he plants the stake and then proceeds to the next point, and so on. Where it is impossible to obtain the services of three people two persons may use the following alternative method. After lining up all sides of the square a wire may be stretched from one side of the field to the other and drawn taut and the proper distances measured off and stakes planted. The rest of the procedure is the same in both cases.

After all stakes are planted, bring into use the planting board. This is a board about six or eight feet long with a notch at either end and one directly in the centre.

Its use is very simple. Place the centre notch over one of the stakes which is located where a tree will be eventually planted, drive a peg through each of the notches at the ends of the board. The board and the stake may now be removed and the hole for the tree dug.

After the hole is dug it is easy to get the tree in the same place as the stake was by bringing back the board and fitting it over the two end pegs. The tree, if then placed in the centre notch, will be in position.

In planting young trees a few precautions must be observed. The trees should not be allowed to become dry at anytime before planting, but should be taken to the field wet.

The hole should be large enough to accommodate the roots without jamming. All broken parts of roots should be trimmed off neatly.

When planting the tree, the surface soil is generally put in first and the soil should be continually tramped or rammed as the planting proceeds. Rough handling in this manner can do no harm, but will do good. After the trees are set, the top should be cut back about one-third, or one-half, and constant cultivation given until mid-summer when a cover crop or weeds may be permitted to grow.

At a public sale of personal property held in Little Britain township, Penn., a carpet that had seen 40 years of hard service sold for 90 cents a yard. The original cost was \$1 per yard.

In recognition of 50 years' work as a priest in South London, C. B. Canon William Murnane, rector of the Catholic Church, Camberwell, was presented at Lambeth Palace with a cheque for £1,000 and a guinea. Canon Murnane was ordained priest on March 12, 1871, and has served under five Catholic Bishops of Southwark. He was the chief supporter of the late Cardinal Manning in the latter's great temperance crusade.

NOVA SCOTIA TO CELEBRATE TER-CENTENARY

Thousands of Nova Scotians Are Interested in the Event.

"The province of Nova Scotia will celebrate this year, its three hundredth anniversary," says the Calgary Herald. "Thousands of Nova Scotians scattered over the Dominion will be deeply interested in this historic event. The prairie provinces have fortunately attracted large number of people from the beautiful provinces on the Atlantic. We say fortunately, because the native born of Nova Scotia come of good stock. They are most desirable citizens."

It is now 423 years since the little ship Matthew "some time stayed" on her course by schools of cod, carried John Cabot to hoist the Royal Standard on Cape Breton Island. The early Scottish colonization of Nova Scotia was undertaken under the direction of King James VI, of Scotland before he became James I, of England. For a century the land was French. It was finally surrendered to the British when Admiral Boscawen and Wolfe captured Louisbourg. The American Revolutionary War sent 28,000 United Empire Loyalists to Nova Scotia, and thousands of disbanded soldiers and sailors settled there following the Napoleonic War.

Every man is justified in believing that the place of his birth is the most beautiful in the world, but the people of Nova Scotia can well say that they come from a province which yields in point of beauty to none. It has not the grandeur of scenery which marks British Columbia, but it has a serene and park-like loveliness of woodland, lake and protective plain. It would be strange indeed were the people of a province so rich in historic and natural interest not bound to it by ties of the profoundest attachment.

Nova Scotia has become prosperous through her mines, forests and fisheries, but the natural products that have given her real fame have been Statestmen and University Professors. From Joseph Howe down to the Tupper and the Borden, the little Province by the Sea has been prominent in the history of Canada. It has been said that one could go into any part in the world and into any ship standing there and call down the word "Acadia" and a Scott would emerge from the engine room. In the same way one could go into any university in America and call for a "Bluenose" and answers would come from the presidents down to the youngest Ph.D.

All Canadians will watch with interest the celebration of the tercentenary of the first British Province that had representative Government in the Empire overseas.

More than 40,000 disabled ex-service men are not employed in various offices of the British government.

To wind up one's watch is a matter of fifteen seconds or so. But if a man of fifty has had a watch since he was fifteen years old he will have spent more than three full days in winding it up.

The London Zoological Society occupies ground in Regent's Park measuring thirty four acres, for which it pays a little more than \$1,500 per year. The estimated value of the land commercially is over \$500,000 per year.

NOTICE

IN THE MATTER of an application under the Mines Act by Augustus Harris made the 29th day of March 1920, in the office of the Commissioner of Public Works and Mines at Halifax, N.S., for License to Search for Infusorial Earth over an area or tract of land at Little River, in the county of Digby, described as follows—

Beginning—"A section of Digby Neck between the Bay of Fundy on the north-west side and St. Mary's Bay on the south-east side, a distance of two and one-half miles between two lines running north-west and south-east across the neck, the north-easterly line being a distance of one-third of a mile in a south westerly direction from the bridge of Little River corner where the Digby Neck road meets the main road running through the village of Little River."

AND IN THE MATTER of the Crown Lands Act as amended by Chapter 32 of the Acts of 1920.

NOTICE is hereby given to all whom it may concern that the undersigned Augustus Harris, Long Beach, Digby County, N.S., has made the above mentioned application and that any application by or on behalf of any person or persons claiming the same by reason of having prior to the 17th day of May, 1919, developed any mineral in said area or tract of land or expended money for or in connection with such mineral must be made within 30 days after the last publication of this notice and that such notices will be published once in each week for four consecutive weeks after the date hereof in the Digby Courier, a newspaper circulating in the said County of Digby.

AUGUSTUS HARRIS.
March 31st, 1921. 34-4.

Tools for Auto Drivers and Mechanics

The need of many a useful tool is often greater than the price of the same. We stock only tools of standard make and high quality. The Auto Kit requires a careful looking over so that the tools you need will be in the car when you want them. The mechanic who neglects to fill in the vacancies in his tool kit is going to be slow on the job.

We stock Spark Plug, Hub, Two, Rear Bearing and Brake Wrenches; Pipe Wrenches, Monkey Wrenches, 6 to 12 inch Double End Wrenches, 1-4 inch, Bolt Socket Set, Regular Socket Set, Wrench Sockets, 13-32 to 1 inch Adjustable End Wrenches, 6 and 8 inch Magneto Wrench, Side Cuts, Gas, Combination and Ratchet, Pliers, Slotted, Flat, and Valve Tools, Files, Rasps, Chain Pliers, Cold Chisel, Screwdrivers, Calipers, Finches, Valve Lifters, and many other small tools too numerous to mention.

DIGBY SCHOOL REPORT

The statement is frequently made, and with truth, that people are not so efficiently familiar with the work accomplished in their schools. Where this condition exists, the responsibility will very probably be found resting as much with public indifference as with school officials. It is not the purpose of this report, however to determine responsibility, but to begin a movement having for its object the bringing of our citizens into more intimate relation with the school. The members of this Board very firmly believe, that for the attainment of the highest educational efficiency in our town, it is essential that the closest co-operation should exist between the citizens, the teaching staff, the School Board and the local Press. It is mainly with the above mentioned object in view, that the Board proposes to publish along with some school matters of general interest, a brief account of the progress made in the Digby Academy during the past year.

PROVINCIAL HIGH SCHOOL EXAMINATIONS

The High School Department of the Digby Academy made an exceedingly good record at the 1920 Provincial High School Examinations. Of the 26 students who wrote these examinations, 22 obtained the certificates for which they applied, two obtained certificates of a lower grade, while two failed, although in each case making above the minimum aggregate of 300. All of those students, who bettered their records at this year's quarterly examinations, and were recommended by the principal were very light, one student obtained 603 marks and another 592. For purposes of comparison, it may be of interest to note that during the N. S., 1919 Provincial High School Examinations there were 5250 applicants in Grades IX, X and XI, and of this number, 2924 obtained certificates for which they applied.

CADET CORPS

The Cadet Corps was reorganized last year, and at the annual inspection in June had made sufficient progress to be awarded one of the Strathcona prizes. The corps is well equipped with uniforms, head gear, belts, great coats and rifles, both for drilling and target practice. The Cadet Movement in Canada is receiving increasing attention both from educational and military authorities, not only because of its physical and disciplinary value to the boy, but for its future national possibilities.

HIGH SCHOOL LITERARY SOCIETY

Four years ago the Literary Society was organized. It has proved very popular and highly beneficial to the High School students. Its main aims are to develop thought and expression along literary lines, to develop readiness of speech through debates and discussion of topics, and through its business sessions to afford practical training for the conducting of public meeting and transaction of business. The Literary Society does not overlook the social side of school life. "At Homes" are annual events, and are so uniformly successful as to reflect much credit upon the High School.

COMMENCEMENT EXERCISES AND PRIZES

Commencement Exercises were

begun in Digby two years ago and have since been held on both occasions. The Bijou Theatre has been packed to the doors. Prizes to the value of \$140 have been presented at these exercises and have undoubtedly stimulated interest in school work. Some extra money is often necessary to call forth the best efforts of boys and girls, and the prize system is a valuable factor in bringing this about. The prizes donated by our business and professional men, in addition to stimulating interest in study, tend to increase the donors' interest in the schools.

The formal presentation of certificates to all pupils, who had successfully passed the grading examinations, was a prominent feature of the exercises.

EXAMINATIONS

Examinations are held quarterly and a neat and comprehensive Report is sent to parents or guardians at the end of each quarter. The Report form, which was adopted four years ago is of cardboard in the standard set by the Principal and staff is held, especially in English and Arithmetic. Notwithstanding this, 85 per cent. of the pupils were successful in passing the grading examinations last year. Even better results were expected this year, but the handicap of the building and over crowded class rooms, a number of pupils are completing the work of two grades in one year.

HEALTH

Three years ago the Board adopted the present method used in our schools. Health Report forms are in the hands of the principal. When a pupil is suspected of having contagious or other disease, the teacher of the pupil is instructed to fill in Health Report forms in triplicate. The Health Officer, who completes the forms by stating the disease, prescribing the remedy. He keeps one form, another goes to the parent of the child, while the third is placed on file in the school.

It is a source of satisfaction to every one to know that 100 per cent of the pupils have now complied with the school regulations regarding vaccination.

PHYSICAL AND CHEMICAL APPARATUS AND MAPS

During this year \$150 has been expended on physical and chemical apparatus and maps. The departments are now fairly well equipped with maps, all on portable boards with spring rollers.

In order that Chemistry and Physics might receive practical teaching, apparatus has been procured until the High School Department now possesses much of the essential equipment for the effective teaching of Science.

FIRE DRILLS

The installation of a system of fire alarms in the Academy three years ago, has enabled the principal to hold Fire Drills at frequent intervals.

LIBRARY AND READING TABLE

Provision is now made in the estimates for an annual grant of \$50 for the purpose of enlarging the School Library.

It is assuming very respectable proportions for a School Library and is fairly comprehensive. The books are placed where pupil may have ready access to them at any time, and are made use of by the pupils and teachers of every department in the Academy.

G. I. LETTENY

Two felt covered reading tables which have lately been provided are much appreciated by students and teachers.

It is estimated there are 1,000 air-raft now in commercial use in the United States and Canada.

Enough liquor prescriptions have been issued in San Francisco in twelve months to give every man, woman and child in the city half a pint of whiskey.

An insect known as the Giant Sawfly, which is common in wood coming from Scandinavia, bores through the inside of the timber until it is practically hollow.

It is said to be possible in London alone to worship every Sunday for more than five years in a church belonging to a different sect or professing a different faith.

A favorite holiday pastime among the schoolboys of Naples is to collect lumps of lava from Vesuvius, still warm and soft, and to stick coins in the centre of them before they harden.

TOWN COUNCIL

The regular meeting of the town council was held in the town hall on Monday evening, April 25th, 1921.

The Mayor H. T. Warner, Councillors W. F. Mack, J. E. G. Lynch, and W. S. Troob and J. F. Jones, were present.

The minutes of previous meetings were read and approved, and then the Mayor afforded an opportunity to the citizens present to bring forward any matter of interest to the town.

The Mayor vacated the chair which was then occupied by Councillor W. F. Mack, and further urged the citizens of the district north, stating that she would be available for all cases, rich and poor alike for the who school district.

A number of citizens had already guaranteed her salary, so that there was no doubt about the success of such a project, and he strongly supported the idea and trusted the Council would soon be in a position to place a tax for the convenience of residents there, and the Mayor was referred to the water committee.

On the recommendation of the Water Committee, Walter Wright was appointed water tender at the government pier, and \$10 was voted him for service during 1921.

The report of the Superintendent of streets and water was read and accepted, and a proposal from Mr. Vye to continue the salary of \$80 per month until 31 August, 1921, was also accepted. Mr. Vye giving an undertaking to instruct his successor as far as possible to matters pertaining to the water system.

Objection was taken by one councillor to retaining the services of two superintendents at the same time as it was an unequalled expense, but it was pointed out by the members of the Water Committee that it was impossible to obtain the knowledge of gates, etc. or do the pen work of the water system.

Boyd Bishop was appointed chief of police, Scott Act Inspector, front officer of the police, and the number of the year at his present salary.

On the motion of the chairman of the Finance Committee the rate book was approved.

It was decided that the building belonging to R. P. Thomson on Water Street was a menace to the neighborhood and the Clerk was instructed to write the owner, stating that the Council had ordered the building to be torn down.

The following bills were passed for payment:
A. A. Short, 4.10
Maritime Fish Corporation, 4.10
Telephones, 2.50
Scott's Soap, 78.15
Bell Telephone, 27.25
Sergeant and Discharge children, 20.00

F. B. B. B., 2.15
Water Works, 48.50
B. B. B., 6.54
A. L. B. B., 30.00
Turnbull, Milberry and Young, 30.00
A. B. B., 30.00
Johnston and T. B. O. Lynch, 10.00

The question of making a side walk along 1st Avenue from Sydney to Prince William Street, was referred to the discretion of the street committee.

The matter of making a dumping ground for the town was referred to the Police Committee.

The second week in May was chosen as "Clean Up Week", and the citizens are urged to co-operate with the Mayor, Council, and Medical officer in making the town as clean and sanitary as possible.

It was decided to build a slip on Town property near the Band Stand, and a Committee was elected to carry out the work.

This closed the business of the Council.

The Roads are Getting Fine!

During the next eight or nine months you should take advantage of the fine weather and get out in the country. We would strongly urge that you buy a new car, but we know that in some cases this is impossible, and a good

Second-Hand Car

would serve the purpose just as well. We have some bargains in this class of car and following is a list of some we have.

McLaughlin LIGHT SIX, thoroughly overhauled, newly painted, good tires. This car is in splendid condition and is a good buy at the price we have on it.

Willys-Knight Requires a little work to be done on it, but nothing expensive. Has a set of good tires and can be got ready to run in a few hours. A little money would make this into a first class car for all practical purposes, as good as new.

Chevrolet 1917 MODEL, in good shape, but it should be overhauled and cleaned before it is taken out of the shop. Will be sold cheap and will make a splendid car for some man.

Chevrolet 1919 MODEL. This car has had the best of care and is in first class order, ready to run.

Fords from 1914 to 1921 models. Some are in good shape and some not so good, but a Ford can always be depended upon to run no matter what condition it is in. Prices of second-hand Fords from \$250. up. If you would rather have a new Ford—and it's only a question for yourself to decide—we have them.

Fordson Tractor

in stock ready for delivery, and in a few days will give a demonstration in ploughing at any time or place on short notice.

A GOOD WORD FOR THE MENNONITES

To the Editor of the Courier:

SIR:—I have noted at different times, letters and articles in numerous papers and magazines scattered all over the Dominion, containing criticisms on a religious sect, that for the last few years has been settling in our Western Provinces, namely the Mennonites. But search as much as I possibly can, I nowhere find the people viewed in a favorable light, and for that reason, (knowing the Mennonites as I do) I credit the critics of this class as ignorant of the subject which they comment on in their letters and articles.

This may appear to some of you as a lengthy statement, but kindly allow me to show you a small part of the character of this class.

I arrived in this small Western town some months back, with my contract drawn up to engage for a few months in a state of warfare as a teacher in a Mennonite colony. For at that time I had the common idea in my head that the community I was about to enter, bordered on barbarism. While driving out to the colony with a couple of these men, I was surprised to find that they could not have a worse of them than I could make you understand. It was about six p.m. when we arrived at the colony, and to my amazement, instead of these people throwing stones at my car, they came out and all to shake the "paw" of the "teacher."

Needless to say I was rather weary after a day's travel and look, enter into any lengthy conversations with my future friends. But on the following day I had my eyes opened to a great extent, and I am now judged the Mennonites from an entirely different point.

Somewhere I have read that the Mennonites are adverse to their children learning the English language, so you can imagine my astonishment when informed by a Mennonite that they always try to do the best they can for a teacher who is trying to instruct their children as far as possible.

I also find that these people are ready enough to make life as comfortable as they can to a stranger in their midst. I have my own residence here, and there have been but very few evenings when at least ten of the colony have not given me a "visit."

The colony all collect in one room for their meals and they each all share alike, from the greatest unto the least. It happens very frequently that their cook prepares something unusual for them, and of course at such times, some little "shaver" must take some of it.

A kinder people I have never been in touch with. They are industrious to the extreme. Each man has his own line of work; among them you will find a carpenter, blacksmith, shoemaker, teacher and head cook. They have their own sawmills and latheries, but it is but very little that they require from the "outside" for their daily life.

About the only time that they engage in festivity is when the principle actors should weep, that is when matrimonial cords are fastened upon them, and some fortunate. It is this time that they all look forward to for then it is that "we hab de feen."

One more, as a Clergyman would say, "lastly"—they do that which a common man forgets to do, namely pray. This occupies about an hour a day, when they all gather in the school house, at 6 p.m. and pour out their troubles to their Creator. Now, dear editor and weary reader, kind and pour out your mind that in this right path, that the adverse critic is himself.

A SON OF DIGBY CO.
Magrath, Alta.

For years I have never considered my stock of household remedies complete unless a bottle of Minard's Liniment was included. For burns, bruises, sprains, frostbites or chilblains it excels, and I know of no better remedy for a severe cold in the head, or that will give more immediate relief, than to inhale from the bottle through the nasal organ.

And as to my supply of veterinary remedies it is essential, as it has in very many instances, proven its value. A recent experience in reclaiming what was supposed to be a lost section of a valuable cow's udder has again demonstrated its great work and prompts me to recommend it in the highest terms to all who have a herd of cows, large or small. I shall be safe in saying among all the patent medicines there is none that covers as large a field of usefulness as does Minard's Liniment. A real training good for man or beast.

THE HOUSE CAT

By Dr. A. K. Fisher U. S.
Bureau of Biological
Survey.

Owner's Recollection, N. S.

Many an innocent hawk, skunk, owl and weasel has been shot for the deeds of that sleek highwayman, the house cat. It is safe to say that the creature, which enjoys all the comforts and protection of a home, in the more thickly populated districts destroys in the aggregate more wild birds and young poultry than all the native natural enemies combined. A cat has been known to kill a whole brood of chickens in a day; a feat unequalled by any predaceous animals with the possible exception of the mink. Others in the course of a season have practically destroyed whole coveys of quail or grouse, or nests full of young songsters. A "well-known" naturalist estimates that in the New England States alone one and one-half millions of birds are destroyed annually by cats.

The offender is not so often the well-fed household pet as it is the abandoned and neglected outcast known as the wood cat or "wild cat." In 1905 the Society for the Prevention of Cruelty to Animals in New York City killed monthly an average of six thousand sick, injured, or homeless cats—a total for the year of over seventy thousand. A considerable proportion of these were pets abandoned by people who had gone to the country for summer. Moreover, summer visitors to the mountains or seashore sometimes take with them their cats which, on their return home are too often left behind to swell the local overflow and make serious inroads on the birds of the region. It is safe to assume that in the rest of the State outside of New York City as many cats follow a nomadic life as in the city, and if we assume that each cat kills one bird a week, we have a grand total of over three and one-half millions of birds destroyed annually. In the milder parts of our country, as in the chaparral region of California where bird life is abundant, cats often revert to a geniviviparous state and never revisit their old home except for plunder. Sportsmen and bird lovers should be ever watchful and whenever possible remove marauding cats from the coverts.

The principal reasons given for keeping cats are their attractiveness as house pets, their usefulness as companions for children, and their alleged value as rat and mouse killers. It is impossible at present to obtain correct figures on the subject, but it is safe to say that few persons during normal lifetime run across more than half a dozen cats which habitually attack rats. Occasionally a hunter cat is found which seems to delight in catching rats, gophers, or ground squirrels. It is a common experience, however, to find premises well supplied with cats overrun with rats and mice. At a certain ranch house in the West a member of the Biological Survey trapped in his bedroom twelve mice in a week, although eight cats had access to the place.

Lovers of the cat should be content with one or at the most two, of these pets and should see to it that outcasts do not run at large on their premises. Now that cats are known to carry in their fur the germs not only of ringworm, but also of such dreaded diseases as tuberculosis, diphtheria, scarlet fever and smallpox, and fleas and ticks which transmit typhus, plague and spotted fever, the presence in the household of Tabby is not without its dangers.

IN THE MATTER of an application under the Mines Act by Harry Harris and Augustus Harris made the fifteenth day of January, 1920, in the office of the Commissioner of Public Works and Mines at Halifax, N. S., for license to search for Diatomaceous Earth over an area or tract of land at or near Point Passage in the County of Digby described as follows:—

Beginning at the most southerly angle of an area held under license to search by Edith Wightman, dated Oct. 1, 1919, thence north westerly along the south western line of said area and its continuation two miles, thence south thirty-five degrees west, two and one half miles to a point on the eastern boundary of the first described line two miles, thence in a straight line two miles easterly to the place of beginning.

AND IN THE MATTER of the Crown Lands Act as amended by Chapter 52 of the Acts of 1920.

NOTICE is hereby given to all whom it may concern that the undersigned Harry Harris, Esq., of Digby County, and Augustus Harris, Esq., of Digby County, have made the above mentioned application and that any application by or on behalf of any person or persons claiming a license or lease by reason of having prior to the 17th day of May 1919 developed any mineral in, on or under a tract of land or expended money for or in connection with such mineral must be made within 30 days after the last publication of this notice and that this notice will be published once in each week for four consecutive weeks after the last publication hereof in The Digby Courier, a newspaper circulating in the said County of Digby.

HARRY HARRIS,

AUGUSTUS HARRIS,

Dated the 31st day of March, 1921.

Touch up Your Furniture and Floors

Furniture that is scratched and scuffed is an eyesore. If the surface is spoiled, the article is considered useless. This is not so. Save the surface and you save all.

Use

WOOD-LAC STAIN

Floors and furniture that are shabby can be made to look like new by using WOOD-LAC STAIN—a durable, beautiful finish for woodwork of all kinds—a combination of high grade varnish and permanent stains. It imparts to common wood surfaces the rich appearance of more expensive woods such as mahogany, rosewood, cherry, etc. Twelve beautiful shades.

Get A Sample

Bring the attached coupon and secure a trial can sufficient to do over a chair or small table. We will give you full instructions how to use it. We want every household to try WOOD-LAC STAIN.

DIGBY, NOVA SCOTIA, FRIDAY, MAY 6, 1921

VOL. XLVII No. 39

THE TEMPERANCE

ACT IMPROVED

Important Amendments to the Temperance Act, submitted to the Government by the Special Service Council, were passed April 28th, by the House of Assembly, Halifax, N. S.

It was quite evident during discussions of the bill, which was introduced by the Attorney General, that the members of almost all the counties were determined to strengthen the Act.

The following provisions are now in the Act:

1. No person directly or indirectly, whether for profit or reward or not shall procure liquor for any other person excepting on a valid prescription or certificate.

2. No person shall have liquor in any place other than in the private residence in which he resides, unless lawfully purchased or obtained.

3. Provision is made for the seizure and destruction of liquor found in possession of or kept by any person, in violation of law.

4. The penalties have been increased for carrying liquor from one Municipality to another, to any person other than those legally entitled to keep liquor for use as the Act provides.

5. No person shall lease or permit the use of any building or premises owned or occupied by him for the storage of liquor.

6. Even Vendor is required to file a bond with two sureties in the sum of five hundred dollars (\$500.00), conditioned in the faithful performance of his duties.

7. In the City of Halifax, as in the other parts of the Province, the Vendor shall be paid a salary.

As the Act now stands, it will be much less difficult than formerly to suppress the business of the boot-legalizer, the runner, and the dive-keeper.

It rests with the Provincial and Local Authorities, to provide that reliable and energetic officers be entrusted with enforcement of the Act.

H. R. GRANT,
General Secretary,
N. S. Social Service Council.

Digby Academy Third Quarterly Examinations

The results of the Third Quarterly Examinations are published in this issue of the Courier. The lists include the names of all pupils having averages above 50%. Reports have been sent to parents and guardians having children in the Academy.

AN AUTO TRIP FROM CLYDE RIVER AND RETURN VIA DIGBY

Published by Request.

Our preliminary trip was to Clyde, the grand, the beautiful River of Clyde, coming down from the north to meet the tide, flowing under the bridges so happy and free, out past the Port, still lost in the sea. We traverse the road that leads to the centre of Clyde, a place of rare beauty, the citizen's pride.

We recall former, but very short visits here, but the remembrance is pleasing, and now, as we see with critical eye or get a more extended view, we are more and more emphatically impressed that this is a splendid centre of industry, agriculture, and a vegetable "beauty spot."

Our penchant for "old burying grounds," takes us (by permission) into that adjoining the Presbyterian church. Such names as Stalker, Sutherland, Geddes, Hamilton, Eyle, (pioneers in the land) are inscribed on the monuments.

"Request" in pace. With a thunder storm in progress, and a dance hall in close proximity, our chances for sleep are not plentiful, but the night wears away mid the lightning's bright flash, the rolling of thunder, the rumbling of cars, as onward the dash, away through the darkness with plentiful jars.

The fiddle has stopped, the dancers have gone, and the tide and "Miles" are left alone with sleep. But not for long. No, not for long, for soon we hear the kettle's song; then breakfast; be very sure there's nothing missed for wives and mothers must be kissed. Then Arthur, Curt, Winkley and me are off. "Strange country for to see, see, see, strange country for to see."

Barrington, and we speed along through the black fog with no chance for a satisfactory sight of such things that please the eye on a bright day.

Doctor's Cove, Atwood, Brook, Shag Harbor, churches, schools, new-mown hay, fog, and lobster pots are blended, as the "Little Old Ford" travels right along.

Wood's Harbor, Lower, Middle, and Upper, where the fishermen ply their hardy trade, where fortunes are lost and others are made.

Pubnico, and we quote from R. R. McLeod's "Markland," to show "that the first white settlers of Yarmouth County were French."

No exact date of their coming, but before the general expulsion of Acadians (1755), small settlements had been made at Chequochee, Chignoggin, Belbrook, Tusket, Pubnico, and Vaughn's Lake.

As a richly fertile share the fate of other Acadians, and their old cellars long remained as grim and yawning monuments of the old days, and their pathetic hardships.

The tragic end of the older occupancy did not deter a number of the "fortunates" from returning, and how well they have succeeded, and what an important element they now are in the country, has, or can be, shown.

All of the tragedy, and paths of their forefathers may not be forgotten. Memory-lingers, but these are but "hazy" scenes, when we add industry as have the type of people who inhabit the place, or places, we are passing through via Pubnico.

The fog is thick, we are shut in the rain comes down as on-we spin over the good roads of Yarmouth County.

Argyle, (perhaps more than once)

"We can tell by a little what a good deal means." Our spirits are not high on a foggy, rainy day, but our imagination supplies what our eyes imperfectly see. Shall we dare to quote from Moore?

There is just in this little world a valley so fresh, as that vale in whose bosom the calm waters meet.

Yes, grand, glorious, sweet Argyle. It frets its not a little, because (tusked with its islands through weather conditions cannot be seen, with any degree of satisfaction.

Acadia, and other places environ Yarmouth. As a stranger, one needs time to "walk around Zion, marking well her bulwarks, counting her palaces, telling her towers thereof." Later we can tell it to others; otherwise go and see for yourselves.

Geographically, we know Yarmouth; topographically, we do not; but whatever she lacked in picturesque, which is a long word or dare we say natural advantages? have been made up by a people with a mind for utility and an eye for beauty.

A glance shows good dwellings, hotels, stores and churches. And in the matter of a cemetery, hedges, and lawns, one cannot say too much.

Pardon a quotation—the first meeting house built 1776; the verse of garbled Scripture runneth in this wise: Unless the Lord doth build the house, it shall tumble down again.

Seven years from start to finish—lack of means, but not of religious affairs. Do we dare to say that the order is now reversed?

Finally, we know Yarmouth by faith and not by sight. Port Maitland, bright, open, breezy, beach and breakwater, fine residences, churches and hotels.

Good place for tourists. Beaver River, on the line between Yarmouth and Digby. The very pleasant and striking contrast in roads, the possibilities and pleasure of travel seem to hurry our car along. Cullison Bros. are doing business here and we regret not looking in on a former acquaintance.

The first Temperance Society in North America was organized at Beaver River; here the people there today are "holding on."

We are entering now the district of Clare, in Digby County, touching Yarmouth County line, extending pretty nearly to Yarmouth, on St. Mary's Bay. Here, for more than thirty miles, are a chain of villages, Meteghan, Salmon River, Church Point, Bellevue's Cove, Comeauville and others, comprising a separate municipality for more than half a century. Fishing, farming, lumbering and shipbuilding are the occupations of the people (mostly French), who after trouble consequent on the expulsion, reached here in 1765.

Like other places, a stranger needs to go over the ground again, and under more favorable conditions, in order to speak as he should; but for the present, the places and people are interesting.

Having courteous permission, we entered the newly-finished church at Meteghan; massive, fine in exterior, but we shall be pardoned if we have not the ability to describe here in 1765.

SUFFERING OF YOUNG WOMEN

This Letter Tells How It May be Overcome—All Mothers Interested.

Toronto, Ont.—"I have suffered since I was a school girl with pain in my left side. I tried several doctors and patent medicines, but was only relieved for a short time. Some of the doctors wanted to perform an operation, but my father objected. Finally I learned of the 'Pinkham's Vegetable Compound' and how thankful I am that I tried it. I am relieved from pain and am enjoying my life as if it has saved my life. You may use my letter to help other women as I am glad to recommend this medicine."—Mrs. H. A. Goodwin, 12 Rockvale Ave., Toronto.

Those who are troubled as Mrs. Goodwin was should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound. Those who need special advice may write to Lydia E. Pinkham Medicine Co. (Confidential), Lynn, Mass. These letters will be offered, read and answered by a woman and held in strict confidence.

Cleaning Up Adjustments

Adjustments on faulty tires rarely satisfy—they are annoying too, and take time. Except in the case of Ames Holden "Auto-Shoes."

Should the necessity for an adjustment arise on any Ames Holden "Auto-Shoe," an obviously honest effort will be made to meet you—frankly and fairly, without quibble or red tape.

REGULAR INSTITUTE MEETING

The regular monthly meeting of the Women's Institute was held in Division Hall, on Monday afternoon, May 2nd at 2 p. m., the president Mrs. Lovett in the chair.

After routine business, the reports of the various standing committees were heard, those of the Publicity Committee, School Visitors and Library Committee appearing in this issue.

Mrs. Celia Rice resigned as convener of the Publicity Committee, which resignation was accepted by a hearty vote of thanks to her for her great assistance during the past six months. Mrs. Arthur Greig was elected in this position.

Mrs. Phiney retires as convener of the Entertainment Committee. Mrs. A. B. Marshall takes her place, with Mrs. V. H. Harvey, Mrs. Clarence Adams and Mrs. O'Keefe.

Mrs. Mansford Campbell and Mrs. Hubbard were appointed school visitors for May. The total proceeds of the lecture were announced amounting to \$52.75.

The Health Committee reported getting in touch with Miss Pearl Chute, the county health nurse, and Miss Chute was present at the meeting.

After this business was concluded, the regular program followed.

The third paper of the hour, was given by Mrs. Reginald Benson, on "The Hygiene and General Care of Infants and Young Children." This paper was listened to with great interest as it treated of a subject dear to every child-lover. It was well thought out and an invaluable assistance to young mothers.

Mrs. Goodwin then gave a piano solo, and Mrs. Worthy Brier a reading, after which the entertainment committee served a most delicious tea. After roll call and "God Save the King" the meeting adjourned.

SPECIAL INSTITUTE MEETING

A special meeting of the Institute will be held in Oakdene Hall on Friday afternoon, May 6th, at 3:30 o'clock to meet Miss Pearl Chute, the public health nurse, and listen to her report on our school, all ladies, whether Institute members or not, are requested to attend, as this is a matter of vital interest to all who have the welfare of their children at heart.

The Library Committee, begs to submit the following report:

The library opened on April 9th, in the Masonic building, all three librarians being present. The bookcase was ready for use, the books all numbered and labeled, and about thirty members called for books.

The library now contains 65 volumes, owned by the Institute, and 27 McGuffey's traveling library consisting of 27 books, making a total of 92 books.

We hope all the members will take advantage of the library as the books are well worth reading. Library hours 3:30 to 5 p. m., every Tuesday. All books must be returned every week or a fine of 25 cents is collected.

Respectfully submitted,
MRS. CUNNINGHAM
in behalf of the Library Committee

THE SCHOOL COMMITTEE

The School Visiting Committee, visited the school on the afternoon of May 27th, and beg to report: Miss Gibson's and most of Mrs. Marshall's pupils had come to school. In Miss Rice's room we listened to a reading lesson. The room presented every attractive appearance, having drawings of birds, animals, flowers, etc., on the walls. The children were learning a patriotic song for Empire Day, the words of which were on the blackboard.

Upon inquiry we learned that only 9 out of 13 pupils had received their first vaccination. We next visited Mr. Thurber's room where an algebra lesson was in progress. In this class the pupils were also vaccinated. We were shown a small patriotic play which the older pupils are preparing to give on Empire Day. Pictures of members of the Royal Family were noticed on the walls.

In Miss Morris' room we noticed one of the new World's Maps, also pictures of Currier, Borden and other prominent men. Miss Corvally's pupils were also vaccinated. The room was very bright and attractive and the words "Be Happy" were noticed on the blackboard.

Miss Marshall told us that 17 out of her 15 pupils had been vaccinated.

The school lavatories were neat and clean, and the ventilation throughout the school was good. The basin in the hall was fairly clean, and the drinking fountain was working well. Mr. Thurber drew attention to the fact that considerable annoyance was caused by the engine in the blacksmith shop, the fumes from the exhaust entering the rooms and the vibration being very noticeable. He stated that it was his intention to prepare a place on the school play ground for basket ball and he also told us that about 50 per cent of the whole school had been vaccinated.

Respectfully submitted,
MRS. BENSON
MRS. GOODDAY.

Get Ready for Spring Farm Work

You will want some, or new tools this season, or if not your old ones will need repairs. I carry all of the celebrated Frost & Wood productions, and just now can make quick delivery of Ploughs, Harrows, Cultivators, etc. Parts furnished for any Frost & Wood machine.

Clarke Brothers' Mills Open This Week

Last Saturday afternoon a large number of citizens took advantage of the invitation of Clarke Bros. Ltd., to be their guests, via the steamer Bear River, on a tour of inspection of their new Kraft Pulp Mills, situated at the mouth of the River, in the immediate vicinity of Victoria Bridge. At 4 o'clock the steamer left the town wharf and soon arrived at her destination, where under the supervision of A. G. MacIntyre, the visitors were divided into parties and placed in the hands of the following members of their staff: Messrs. Brock, Harris, O'Keefe, Allee, Clarke and Clifford. Rice then followed a most interesting trip through all the buildings of this large and important plant. The customers in charge of each party started in pairs in explaining all the numerous details in connection with the manufacture of pulp from start to finish. The feature particularly striking to one seeing such an extensive industry for the first time was the solidarity of the buildings, which are constructed of brick with their immense floorings and mountings of concrete upon which rests the several dynamos and intricate machinery necessary for carrying on the work. Another outstanding feature is the up-to-date electrical equipment with which the plant is furnished.

One of the large furnaces was on operation and demonstrated the use of oil as fuel. Space forbids further particularizing at present. The Mills expect to be in full working order during this week. The return trip was fully enjoyed by all, and refreshments furnished by Clarke Bros. added to the pleasure of the large number who availed themselves of the opportunity of an outing on a beautiful afternoon.

Arriving at the wharf Principal Thurber proposed three cheers for the firm of Clarke Bros. Limited which were heartily given, this showing in a small way the appreciation of the people.

PERSONAL MENTION

A. Block, has gone to live at the Bridges for the summer.

Mrs. William Henshaw, has been quite ill for the last few days.

Mrs. Ida Solow has gone to Millford, Anna Co., on professional duty.

Mr. J. H. Moore, has been in town this week, visiting relatives.

Mrs. A. B. Marshall is another of our townsmen who is at present on the sick list.

Mr. and Mrs. J. P. Warner, of Digby, spent Sunday in town, guests of Mr. and Mrs. S. Sullivan.

Mr. and Mrs. George and son, of Middleton, have been guests this week, of Mr. and Mrs. Harvey Kinney.

Mrs. (Dr.) Reads and son, Willard, of Digby with a party of friends, motored through Bear River last week.

O. P. Goucher and son Harold, of Middleton, were in town Wednesday, the guest of Mrs. H. Moore.

Mrs. L. J. Lovett left on Wednesday for Lockport, where she will be the guest of her daughter, Mrs. W. D. Sullivan.

Augustus Wentzell, who returned from the West in poor health, a few months ago, is not improving we regret to say.

Miss Jean Moore, of Worcester, Mass., arrived here Saturday and will be the guest of Capt. and Mrs. H. W. Moore for a few days.

Mrs. (Dr.) L. H. Moore, who has been spending the winter months with her family in Digby, returned to her home in Digby on Monday.

Mr. and Mrs. George Crossup arrived home Friday from Worcester, Mass., where they have been spending the winter with their niece, Mrs. E. Hatch.

Mrs. Edward F. Powers, of Deep Brook, has returned to her home in Digby, after a pleasant visit in New York and Boston and will shortly open her bungalow for the summer.

Cecil Jones, having finished his sophomore year at Dalhousie University, returned home last week and spent some days in town, the guest of his sister, Mrs. W. M. Rousau.

On Sunday afternoon William Morine unfortunately fell, and twisted his knee, he was taken to the hospital, where he is now recovering from his injury.

Miss Nellie Cassabomb, of Smith's Cove, who recently graduated as a nurse from the Mount Allison Hospital of Mount-Clair, New Jersey, is engaged in professional work at Millford Corner. It is gratifying to know that she has another trained nurse added to the number who are already doing good service in our town.

Augustus Wentzell, who with his wife and daughter, Miss Harriett, returned from the West in the early winter and have the past few months visited their home in Digby, returned to their home in Digby, where they will be the guests of Mr. and Mrs. S. Sullivan.

The following arrivals registered at the Commercial House: W. T. Goodwin, Thoro, F. W. Herman, Windsor, W. Harris, H. H. Moore, H. H. Moore, G. Goucher, J. H. Goucher, Middleton, Harry McDonald, A. Orr, St. John, F. McLeod, T. J. McLeod, L. O. Beaman, Louis H. Swenson, Salem, Mass.

E. C. Miles, Milton; J. L. Belliveau, Windsor; H. H. Moore, W. T. Goodwin, S. Cochran, Alma, R. A. R. Smith, C. E. Colwell, R. A. Butler, St. John; A. Fisher, Kentville; H. H. Moore, H. H. Moore, G. Goucher, J. H. Goucher, Middleton, Harry McDonald, A. Orr, St. John, F. McLeod, T. J. McLeod, L. O. Beaman, Louis H. Swenson, Salem, Mass.

A NEW INDUSTRY

Mr. Dunlop, of Sable River, Shells, Co. the purchaser of the Ray property, has arrived in town, and is already making improvements in his residence.

His proposed vegetable and fruit "Canning Factory" will be the boon to this town, which has such fine advantages of soil and climate for the early and successful ripening of garden crops, and fruits.

Mr. Dunlop is a man of great experience in the canning business, having for over twenty years successfully conducted his business in Shelburne, Ont.

His specialty in the fruit line, will be the canning of glass jars of the famous Bear River cherries, and it is hoped, his business enterprise, to make this product of Bear River, of world wide fame.

The soil in this vicinity is acknowledged to be especially suited to the production of cherries of wonderful flavor, unrivalled even by the cherries of sunny California, and with the probability of successfully canning and preserving this already famous product of our soil, Bear River gains another asset on the "profit" side of her balance sheet.

Every industry encouraged and assisted to a prosperous and flourishing condition, means not only profit to the exploiter of the industry, but an invaluable assistance to the growth, wealth and general financial advancement of our town.

PERSONAL MENTION

Mrs. George Peck returned home from Halifax Monday.

June Schmidt has arrived home for her summer vacation.

Mrs. A. B. Marshall is confined to her home through illness.

The following arrivals registered at the Grand Central Hotel:

Mrs. Pearl Chute, visiting school nurse, is a guest at the Grand Central.

Rev. Mr. and Mrs. Richardson were guests for the week end at the Grand Central.

Mrs. Chitra Rice, is improving from her recent attack of quinsy and will soon be out again.

Mr. and Mrs. George Little, of Annapolis Royal, were over Sunday guests of Capt. and Mrs. H. W. Moore.

WALDECK LINE.
Earle Hubley, purchased an auto the past week.

Mrs. J. M. Graves and little daughter Marion, returned to Halifax Wednesday after spending a week with her mother, Mrs. William Green.

Mrs. Atery Rice and little son Charles, of Colaport, Alberta, arrived here Friday to spend the summer with her mother, Mrs. Wm. Green.

Dr. Hamilton, of Hampton, was in this place the past week, to give medical treatment to Wm. Lavoie, who has been ill all winter. The doctor thinks we will soon see an improvement in his health.

Earle Hubley spent Sunday with relatives at Graywood.

Mrs. and Mrs. Geo. Lamorne, spent Sunday at Prince Dalis, with Mr. and Mrs. W. Wright.

Mr. and Mrs. Austin Harnish, and Mr. and Mrs. Geo. Harnish, of Lepple, spent Sunday with Mr. and Mrs. Dwight Hubley.

Mrs. Dwight Hubley and son Earle, and Mrs. Wm. Green, were guests Thursday of Mrs. Daniel Hubley, Clementville.

MILFORD CORNER
After a lingering sickness, Mrs. Barthelemy passed peacefully away on April 25th, at the home of her son, W. H. Thomas.

We are sorry to report Mrs. Eliza Rice on the sick list is slowly improving.

Mrs. Baben Alcorn who has been on the sick list is slowly improving.

Mrs. Annie Fortier, of Morgantown, is visiting her sister, Mrs. Frank Alcorn.

Mr. and Mrs. Ernest Davis, of Bear River, and Miss Margaret Jones, of New York, called on some friends here on Tuesday last.

Mr. and Mrs. Arch Chute are visiting Mr. Chute's parents, Mr. and Mrs. N. Chute.

Bernard Alcorn has been moving his barn up near the road. The work has been done by Mr. Chute, of Bear River.

OWES HER LIFE TO
"FRUIT-A-TIVES"

After Years of Suffering with Dyspepsia, this Fruit Medicine Gave Relief

Mlle. ANTOINETTE DOUCHER
917 Dorion St., Montreal.

"I am writing to tell you that I owe my life to 'Fruit-a-Tives' for this remedy relieved me when I had abandoned all hope of ever recovering my health."

I suffered terribly with Dyspepsia. I had it for years and all the medicines I took did not do me any good.

I read something about 'Fruit-a-Tives' being good for all Stomach Troubles and Disorders of Digestion so I tried them. After finishing a few boxes, I was entirely relieved of the Dyspepsia and my general health was restored.

I thank the great fruit medicine, 'Fruit-a-Tives', for this wonderful relief.

Mlle. ANTOINETTE DOUCHER.

Pool Canadian Railroads
Into One Big SystemLORD SHAUGHNESSY'S PRACTICAL REMEDY
FOR GRAVE PROBLEM—OPERATION BY
C.P.R. UNDER CONTRACT—DEFICITS
OVERCOME BY ECONOMIES

Lord Shaughnessy has prepared and given to the public his personal view of the railway problem in Canada, prefacing his statement with the following letter addressed to the Prime Minister.

Montreal, April 26, 1921.

Dear Mr. Meighen.—National railway affairs are, I am sure, to you a source of constant anxiety. To my mind the railway question, involving, as it does such an enormous draft on the annual revenue of the country with no prospect of any improvement in the near future, is the most momentous problem before our country at this time.

I fear very much that the Grand Trunk transaction will prove disappointing and expensive, and if it were my case I would go a long way to secure the consent of the Grand Trunk shareholders to the abrogation of the statutory contract.

I am enclosing herewith a long letter in rough outline my opinion as to the only process through which the country can be relieved of this problem, whether they believe it or not, will find in my suggestions a selfish desire on the part of the Canadian Pacific to control the railway situation. The Canadian Pacific has served the country well on occasion in the past, thirty-five years, when schemes were being proposed which threatened the cost to the country.

The Canadian Pacific has no fish fry, and I am not sure that my plan would be met with favor by the executive, the directors or the shareholders. Everybody connected with the company would like to see its status undisturbed, but it is impossible to accept with equanimity a situation which would command on the public treasury of about \$200,000,000 per day, without any compensating advantage, if there are any possibility of improving it.

My memorandum, as you will observe, is very brief, and I have written very much the same lines a similar paper that I prepared about the end of 1917 and sent to Sir Robert Borden. He feared, I imagine, that as my plan would apparently create a Canadian Pacific monopoly, its transportation it would not be acceptable to the country. Even if there were no objection to the plan at that time, the current of events since 1917 may have resulted in a decided change of sentiment.

I am submitting the memorandum to you with the best intentions in the world for your consideration as you may think it desirable.

Yours very truly,
(Signed) LORD SHAUGHNESSY,
Rt. Hon. Arthur Meighen, P.C.,
Premier, Ottawa, Ont.

ONE NATIONAL SYSTEM
Lord Shaughnessy's Plan for
Canadian Railways

In 1917 I prepared a memorandum analyzing the railway situation in Canada as it then existed, suggesting a plan of dealing with it, which I read to our directors and subsequently forwarded to Sir Robert Borden for the consideration of himself and his Cabinet. Evidently my views did not find favor with the Government nor the advisers from whom the Government at that time received its inspiration on railway affairs.

Meantime, conditions have substantially changed. Capital expenditures of considerable amount that might have been avoided have been incurred, and the deficits resulting from the operation of the weaker lines have increased by leaps and bounds. The suggestions contained in the memorandum of 1917 would not now be available.

It was not my purpose then, nor is it now, to discuss the railway policy of successive Governments at the federal and provincial, during the past thirty-five years. In most cases the legislation during the period received the approval of the electorate at the polls, and therefore serious and expensive blunders were made. It is not my purpose to pocket our chairmen and fold the bills with equanimity. We are, however, the Government, and it is our duty to discover and develop plans that may serve to relieve the Canadian people from some of the financial distressing and dangerous financial results now in evidence and which threaten the future.

Canada has now about 40,000 miles of railway lines. Of the lines included in this mileage approximately 37 per cent. earn annually sufficient money to pay all interest charges and to give a return on the share capital; 54 per cent. fail to earn enough to repay their working expenses and are consequently operating at a loss; and 9 per cent. earn interest on some of their major securities, but apply no surplus to the company as dividend on the share capital.

Grand Trunk System.

Included in the last mentioned is the Grand Trunk Railway System which is international in character, operating on both sides of the Atlantic, and is the only one of its kind in the world.

While the transfer of the Grand Trunk to the Dominion Government is a matter of course, the transfer of the Grand Trunk to the Dominion Government is a matter of course, the transfer of the Grand Trunk to the Dominion Government is a matter of course.

out its justification, because when the Dominion Government was framing its policy with reference to the route and character of the proposed line, the obvious dangers of the policy were frequently pointed out to the Government by those who possessed the requisite knowledge of the country and the technical experience to enable them to foresee and avoid the consequences of the policy.

The Canadian Northern System was founded on the assumption that the property and expansion of the company would be maintained indefinitely, and the mileage of the company would be increased by year until the annual interest charges of the company reached a point where it would be impossible to maintain the company in a state of financial equilibrium.

Had the promoters confined themselves to the construction of a single line, the company would have been able to maintain its property and expansion indefinitely, and the mileage of the company would be increased by year until the annual interest charges of the company reached a point where it would be impossible to maintain the company in a state of financial equilibrium.

Had the promoters confined themselves to the construction of a single line, the company would have been able to maintain its property and expansion indefinitely, and the mileage of the company would be increased by year until the annual interest charges of the company reached a point where it would be impossible to maintain the company in a state of financial equilibrium.

Had the promoters confined themselves to the construction of a single line, the company would have been able to maintain its property and expansion indefinitely, and the mileage of the company would be increased by year until the annual interest charges of the company reached a point where it would be impossible to maintain the company in a state of financial equilibrium.

Had the promoters confined themselves to the construction of a single line, the company would have been able to maintain its property and expansion indefinitely, and the mileage of the company would be increased by year until the annual interest charges of the company reached a point where it would be impossible to maintain the company in a state of financial equilibrium.

Had the promoters confined themselves to the construction of a single line, the company would have been able to maintain its property and expansion indefinitely, and the mileage of the company would be increased by year until the annual interest charges of the company reached a point where it would be impossible to maintain the company in a state of financial equilibrium.

ECZEMA!
Defied Doctors
& Specialists

"For three years doctors treated me for a terrible attack of eczema," writes Madame Albion Larivière, 674, Road, St. John, N.B. "I was told that I was incurable. I then went to a specialist who charged \$90 but did not do me any good."

Though one could hardly have been more discouraged at the time when I heard about ZAM-BUK, I decided to try it. I applied dressings of the balm regularly and for bathing purposes used only ZAM-BUK Medicinal Soap. Very soon there was such decided improvement that I was encouraged to continue. The combined use of ZAM-BUK and ZAM-BUK Soap soothed and thoroughly purified my skin. ZAM-BUK!

SKIN-SOOTHING ESSENCES
penetrate to the root of eczema, ulcers, ringworm, poisoned sores, etc. ZAM-BUK is the only clear, odorless, non-irritating, emulsion, like plasters, ointments and rubbers, it literally soothes eczema and cures it. It is the only medicine for the underlying cause.

The first dressing of ZAM-BUK soothes and cures eczema. ZAM-BUK! Then, when it has acted positively, the diseased parts ZAM-BUK promotes the growth of a clear healthy skin. All dealers 25c. box.

ZAM-BUK
Skin Soothing (Obtain a FREE TRIAL BOX by sending in Stamp to ZAM-BUK, Toronto)

Digby, May 6th 1921

Suits \$15.12— Not Here

A tailor-made suit of the finest blue serge for \$15.12 remains the only article of the good old days when the name profiler was scarcely known in these parts. But the above amount is what it actually cost for 800 or more suits last week. Of course it was not in Digby the auction took place. It was in Montreal. The civic heads purchased the suits of blue serge themselves to make suits for its policemen. They then called for tenders for the making of the suits, and when they were delivered—everything was paid for and the suits were proved of—each suit cost the city \$15.12! A similar suit in these parts could not be procured for less than \$50, or \$55. And everybody wonders why!

Next week has been declared by the town council to be Clean-Up week, and the Lord knows the town needs it. But although the town council is strongly urging the desirability of cleaning up the premises on the part of the citizens, they should remember that they, too, have a duty to perform. It is more important from the view point of the visitor that the streets be cleaned up than that backyards should be and we hope to see the town take the initiative and have the dumps levelled off, the lattice work under the barn repaired and the town hall yard straightened up. Then they can say with a good grace "Clean up your backyards."

BOSTON FISH PRICES AND FORECAST.

12lb. to 16 lbs. (selling Wednesday) 15c for medium, 18c for large. Receipts larger the past week for many months. Groundfish of all kinds in very good supply. The market for cod is very good. Codfish selling large for 21-2 to 26, market cod 2 to 26. Large catches of Pollock on the Maine coast, price \$1.50 per hundred. Haddock selling from a low price of 6 lbs on Friday last to 12c Monday. Tuesday. Prospects good prices the coming week. Lobster receipts about the same as previous week, price \$2 to \$3.50 per crate. First receipts of lobsters from east of the Strait, shipment totaling about thirty crates all in very poor order. The market for fish and shell is very good. Receipts at Atlantic City and New York have been light. Sales today 30c per pound in New York, prospects lower prices the coming week. Few sea scallops arriving on this market from local points selling from \$3.50 to \$4.50 per gallon.

ACKNOWLEDGEMENT.

The Tuxis Boys have received a receipt from the executive secretary of the Maritime Boy's Work Association for the money recently contributed by the people of Digby. The receipt was accompanied by the following letter:
Rev. D. E. Hatt,
Digby, N.S.
DEAR MR. HATT: I want to thank you personally for the splendid co-operation you have shown in connection with our Maritime Boy's Work. I would be glad if you would also convey the thanks of the committee of all those who have contributed to this fund and made it possible for Digby to meet its full apportionment.
ARTHUR M. GREGG,
Executive Secretary

Laurier Monument Fund

To date there has been subscribed towards the Laurier Monument Fund the sum of \$34,915.87. This represents the voluntary contributions of the tens of thousands of people, for the largest amount accepted from any one person is \$1,000 in hundreds of cases sums of \$1,000 and less have been sent in without names or addresses. The work is now well under way and anybody desiring to subscribe may do so by forwarding an amount to the Honorary Treasurer, P. C. Larkin, Toronto.

BARTON AND BRIGGTON

Mr. and Mrs. L. S. Barton and daughter Mrs. Barton, who have been residing in Digby, have returned to their home in Westport.

Mr. W. C. Harris, of Yarmouth, was in Digby last week.

Sherman Thayer and family, have moved to North Range.

The Honorable South of Acadiaville, is visiting her father at Brighton.

J. Deaton, has gone to Montreal for an indefinite time.

Mrs. Elizabeth Dyer, has returned from Bermuda, where she spent the winter months. She visited relatives in Boston before returning home.

O. C. Bailey has returned to Westport.

Mr. and Mrs. C. B. Dunham have returned from Plymouth.

Indiana has held the centre of population of the United States for the last thirty years.

Tramways derive their name from Mr. Train, an American, who in 1860 introduced street cars drawn by horses in England.

Farmers in Denmark are required to number and mark their eggs sent to market. If one or two eggs are bad the farmer is fined; if three are bad he is boycotted.

Local and General Local and General

R. R. Russell has been gazetted harbor master for the port of Digby.

The hardest thing to do now is to keep your throat wet and your feet dry. It is funny to see a man in the street to the devil they call him a good fellow. In the general cut of wages, he is noted the wages of sin are not being reduced. Now is the time to start the cleanup campaign about your house and premises. Some folks would get a pretty bad hair if they were thrown on their own resources.

The blue bird brings happiness, but the stork brings a \$300 tax exemption—Kingston Whig.

This spring the man who owns a horse is not asking half the price of the horse for a garden.

The schooner Castle Belle, Cheney, from Riverton for Bear River, was in port last Friday.

The steamer Valinda has made three trips between here and St. John during the past week.

The schooner Hains Brothers, from Freeport to Parrishboro, was in port this week for the first time.

Schooner Neve, Captain R. J. Anthony, was ready to sail from Boston on Saturday for Bear River.

The window at Lattimore's containing goods marked at half price, on Saturday only.

Express rates are so high that the common people can't afford to express a wish that they be lowered.

A reduction of ten cents an hour in wages in most of the building trades is announced throughout Canada.

A girl engaged a young man to stay out late during courtship and then "kicks" because he keeps her waiting.

Those fish persons who object to short skirts overlook how handy they are when a woman has to get at her money—Guelph Herald.

In the list of successful pupils published on the first page, the name of Victor Bennett was omitted from Grade II. His average was 63.

Kingston Standard—These high spirits give the ladies a rare opportunity of showing their good taste; they have in other things than skirts.

The ex-Kaiser had something to be thankful for, "he remarks the Philadelphia Ledger." "He is not, lose any of his boys in the great war."

An income tax form was returned recently with the following remark: "I belong to the Progressives and don't wish to join the Income Tax."

During the past week 681 newspapers and periodicals printed in England have raised their subscription prices, owing to the increase in paper.

With the resumption of service by steamer Empress, the departure from St. John will be 7:30 a.m. Atlantic time on Sunday morning.

Will leave Digby at 2:45 p.m. and arrive in St. John 9:45 p.m.

There is a disastrous fire at Stewards' Collector's house, Monday morning. The big hotel, five stories, the Royal Bank building and several dwellings were burned.

Every available man was out fighting the fire. There was no fire fighting apparatus in the town.

Dr. DuVerger, the town medical officer, has made an inspection of the sewerage system this week and has found a lot of repairs and alterations to be made.

A town clerk has sent out a lot of notices as a consequence.

A series of revival services will be held in the above Church next week and the week following. The Pastor will be assisted by Rev. J. H. Copeland, of Yarmouth. A cordial invitation is given to all within reach to attend.

At a banquet given by a large body of educators, the speaker of the occasion was and began his address with the words, "Long live the teachers!" He was interrupted by a tall, slender young man who rose from the rear of the room and in a sepulchral voice enquired, "On what?"

The Digby County Baptist Quarterly meetings will be held at Hill Grove Church on Monday evening of next week and Tuesday morning all afternoon and evening. A fine programme has been prepared. The keynote of all the meetings will be "Revival." The meetings are open to all.

The Courier "Want Ads." offer scores of opportunities for thirty people to buy things at a saving. "Want ads." also place before you the opportunity to sell what you no longer have any use for, thereby turning into dollars what heretofore only took up valuable space. For good service call 100.

Canadian oceanographic regulations have been amended by adding a provision that "no person shall sell, offer, expose or have in possession for sale in Canada any oceanographic bearing on the package or container thereof the trademark or the name of the manufacturer in which are included any of the words 'butter,' 'creamery,' 'dairy,' or the name of any breed of cattle."

Ruth Wheeler, for the past three years an inmate of the Home of Delinquent girls at Truro, and lately taken into the home of Mr. and Mrs. Carl Nichols, Deep Brook, suddenly disappeared last Wednesday night, and although the police have been notified in all directions, no trace of her has been found as yet, and full self destruction is feared by many.

We regret to state that James Fay, son of Mr. and Mrs. F. R. Fay, badly sprained his left wrist while playing basketball engaged in athletic sports. "James" was the leader of the Tuxis boys' debate which is currently being held in the town hall. He also holds several athletic records. He will be greatly missed in local basketball circles while he is recovering, which we hope will be speedily—Bridgeport Monitor.

Next Sunday will be Mother's Day. In the Baptist Church the pastor will number at eleven o'clock. In the evening a special programme of music and readings will be rendered. Girls of the O. Y. C. will give an exercise entitled "mother" and will dress on "The White Flower of a Blameless Life." A special offering will be taken to purchase new hymns for the choir.

Dr. Grant has been in Digby in Halifax by amendments to the N. S. Temperance Act that have been before the House. This occurred on the first of the month. His visit to Digby one week. He will speak in the Baptist Church one week and in the Methodist Church the next evening. His visit will have to do with the repeal of the N. S. Temperance Act. Dr. Grant is very interested in what will visit Cape Breton. He will also complete the reorganization of the Social Service Council.

Obituary

REV. I. M. BAIRD
Rev. I. M. Baird, who is well known in this section of the province, died Wednesday in Yarmouth, where he arrived a few weeks ago hoping that the change would do him good. He was at one time pastor of the Tremaine United Baptist church in that town and was about 50 years old. He leaves a widow.

COLIN ARTHUR LANGFORD
The death of Colin Arthur, the 1 year and 7 months old son of Mr. and Mrs. Colin E. Langford, of Weymouth Falls, was announced yesterday. Colin died Wednesday morning at the Weymouth Hospital. The child was taken to Yarmouth, by Dr. Elkerkin on Tuesday afternoon and taken to the hospital for an operation which was performed that evening. The remains were taken to Weymouth on Wednesday morning.

MRS. J. E. HENSHAW
A very sudden death took place last Friday evening at the home of Mrs. George E. Henshaw, Light House Pond, when her mother, Mrs. Joseph E. Henshaw, died suddenly after illness of but a few minutes. Mr. and Mrs. Henshaw, and son, Mr. and Mrs. Henshaw, were at the home of Mrs. Henshaw, where they had been for the past six years, intending to take up a farm in the neighbourhood of Digby. Mrs. Henshaw was a daughter of the late Mr. and Mrs. Harris Jefferson, of Bear River. She leaves to survive her husband, her two sons, Walter, of Harford, Conn., and Cleveland, at present in Digby; two daughters, Mrs. P. J. Brooks, of Sumner, Mass., and Mrs. George E. Turnbull, of Digby, as well as two sisters, Mrs. Albert Stone, of Boston, and Mrs. William Burnham, of California. The funeral is taking place today, interment at Bear River.

ALFRED BOUTILLIER
The death took place at an early hour Wednesday morning of Alfred Boutillier, of Centerville, the husband of the well known firm of A. Boutillier & Co., after illness of apoplexy of but two hours duration. He was born near Halifax and was 50 years old. As a young man he came to Centerville about forty years ago. Entering the fish business he gradually built up a large trade and the firm founded by him has been a power in the fish trade of Western Nova Scotia for years. They also operated two steamers, the Centerville and Frances Boutillier, in the coastwise trade, principally between the Nova Scotia ports and St. John. He leaves a widow who is a daughter of A. M. Gidley, a justice of the peace in Digby, a late member of the legislature for this county, and two children, Alfred, and Irving, now in King's Cove. The daughter is Lila, now in the West. He also leaves one brother, James, in Centerville, and one sister, Mrs. Thomas Blaney, Halifax. The funeral will take place on the arrival of Walter from Monro and Truro.

PERSONAL MENTION
Mrs. Ella Shortlife and sister, Miss Thelma, returned to Boston Tuesday.

Mrs. G. W. Wightman announces the engagement of her son, Hazel Combs, of Ottawa, Ont., to Mr. F. MacMillan, of Cambridge, Mass. The marriage to take place at Digby early in June. (Yarmouth News, Thursday, May 5th.)

William Hurrell, of Halifax, has arrived to resume his position as housekeeper at the North End Hotel. He has five members of the hotel staff with him.

S. A. Boden spent the week end in Bear River.

F. S. Anderson, leaves Edmonton tomorrow for home.

Mrs. Esther MacLennan, of Boston, is visiting Mr. and Mrs. C. E. Beaton.

H. B. Short, W. E. VanBuren, T. E. Lynch and A. D. Daley are on a fishing trip to Cedar Lodge.

F. L. Anderson, A. J. Dillon, G. H. Peters and R. N. Wynn are spending a few days last week at Burnt Land Lake. They enjoyed good fishing.

P. W. Mayor has arrived home from a trip to New Brunswick.

Mr. and Mrs. Fred C. Graham, of Halifax, have arrived at Smith's Cove for the summer.

Mrs. Egan, of Halifax, is a guest at the Myrtle.

Col. McLennan, of Round Hill, Major Munro, of Halifax, and Capt. Ross, of St. John, were the first to register at the Myrtle House this season. Edna Preston, New York City, and Mrs. E. J. Smith, Halifax, Richard LaSalle, Philadelphia, are also guests there.

Mr. and Mrs. G. B. Flanagan, of St. Andrews, N. B., announce the engagement of their daughter, Elsie Oxtoby, to Guy Donald, son of Mr. and Mrs. J. H. Oxtoby, of Digby.

Rev. S. S. Poole, pastor of the German Street Baptist Church, St. John, was in town Tuesday on his way to Middleton on a fishing trip. He paid the Courier a call while here.

Ernest Handspiker, who has been cooking at Mr. Pease's adwiter, has returned to his home in Culloden.

G. O. Hankinson, of Weymouth, passed through Yarmouth on Tuesday en route to his home in Digby.

Miss Jennie VanHulst of Digby, was the guest of Mr. and Mrs. O. C. Jones, at the Riverside Inn, Bridgetown, this week.

Kenneth Perry, foreman of the Berwick Register, was in town on Monday night.

R. W. W. Purdy, who has been employed at the Mill Pond at Deep Brook, returned to Halifax Monday.

Mrs. Harris, of Westport, who has been at Halifax under medical treatment, was in Kentville for a few days, visiting her sister-in-law, Mrs. Haycock, before returning home.

Mr. and Mrs. C. F. McIlraith spent the week end in Yarmouth.

Mr. and Mrs. Frank Connell were in Weymouth on Friday last, visiting Mr. L. M. Trask, of Yarmouth, passed through Digby yesterday on his way to Newfoundland.

Mrs. Donald Richards, of Sydney, daughter of Mr. and Mrs. James Richardson, recently passed through a severe operation.

O. S. Dunham, publisher of "The Monitor," Bridgeport, was in town on Friday last and visited our office. Mr. Dunham expects to leave for Digby for Vancouver, B. C., where he will attend the Canadian Press Association held there. Mr. Dunham will accompany him.

BASEBALL
A meeting of the baseball fans of the town was held at the Yarmouth Hotel last Friday afternoon. The purpose was to organize the Digby Amateur Athletic Association. The following officers were appointed:
President—Frank L. Anderson
Secretary—J. H. Bowly
Treasurer—J. J. Dillon
Manager—F. L. Anderson
Field Coach—W. E. Wynn
Field Captain—Heddy Dakin

Coming Events

To-night—St. George Lodge No. 33, I. O. O. F. Degree work.

To-night—Weekly service in Holy Trinity Church.

To-night—Service in Mt. Pleasant school house by Rev. D. E. Hatt.

Saturday—Movies.

Sunday—Regular services in the Protestant churches. Mother's Day will be the principal theme.

Monday (evening) and Tuesday—Baptist Quarterly meetings at Hill Grove.

Tuesday—Monthly meeting of the local branch of Y. O. N., in town hall at 8 o'clock.

Tuesday—Young People's meeting in Methodist Church. Educational Committee in charge.

Wednesday—Regular prayer meeting in Methodist church.

Wednesday—Mission Band concert in Baptist church.

Wednesday, Thursday and Friday evenings—Revival services at Hill Grove.

The New Light Six Studebaker

To offer a car of superior beauty is not sufficient with Studebaker engineers. It must also be "mechanically right." These features of the new Light Six insure its unflinching satisfaction: 1. Six cylinder, 40 Horsepower Engine; 3.18 in. x 4.12 in. bore and stroke. 2. Thermostat controlled cooling system. 3. Inclined Valves and the Internal H4 Spot—two original features of the Light Six. 4. Extra long Semi-elliptic springs. 5. 112-inch wheelbase. 6. Eighteen to twenty-two miles average test-per Imperial gallon of petrol (gasoline).

Added to its mechanical qualities for endurance and economical service is the unsurpassed beauty and comfort afforded by the new Light Six. Consider these points: Mohair Velvet Upholstering. Wide, deep seats providing ample roominess for the comfort of five passengers. Ventilation in cowl. Slanting Rain Vision Windshield. Beautiful finish and coachwork. All cord tyres, 32 x 4.

Second Hand Cars—We have a number of excellent bargains on hand.

"Save the surface and you save all." *—Wm. J. Ward*

A Tempting Offer to Sell the Old Home

If well preserved, an old family residence brings possesses an extra valuation over and above its property value. It has something which a new house can never claim, and the man who is fortunate enough to inherit the home of his forefathers, knows full proper surface protection means, ultimately, a net saving.

A comparatively small outlay for paint is repaid many times over in the added value of your home as an investment.

The outstanding record of B-H "English" Paint's available reputation as a surface saver is its guaranteed formula right on the face of every one we meet here.

These important basic ingredients (70% Brandram's Grade B-B, White Lead and 30% Pure White Zinc) give to B-H "English" Paint its remarkable covering capacity and durability—it ensures that your house will be covered with a smaller quantity of paint than you would have to use with a less reliable paint.

RUDYARD KIPLING has rebuked the relatives of British soldiers killed in the war who have been protesting against the action of the Imperial War Graves Commission, of which Kipling is a zealous member, in deciding that the headstones in Britain's war cemeteries must be standardized, and refusing permission to individuals to erect tombstones of their choice. What he has said will be of intense interest to the thousands of Canadians whose loved ones lie in France.

This subject was raised in a formal meeting in connection with a very recent purchase of 44,255,000 shares by the War Office, Commission, Winston Churchill War Memorial, stated that British war cemeteries number 4,000, and that half a million tombstones must be replaced.

"The work will occupy ten years in any event," said Mr. Churchill. "It is a great task, but it must be undertaken if the government permitted, it will take a generation." Sir James Ramsden agreed that there should be limitations with regard to the cost and size of the monuments, but that within these limits, the relative values were clearly entitled to say what type of headstone should be erected. The subject's letter was then read and it is as follows:

"We have no grave to go to. Our boy was missing at Loos," said the ruined beyond all hope of any trace of him being recovered. I wish some people who are making this trouble would realize how more than four million men have been killed and are now in a known cemetery."

Mr. Burdett-Coutts also a member of the Imperial War Graves Commission, expressed his agreement with the speaker and the nation. "I said," he said, "ought not so to act that a mourning woman in cottage or tenement can say to herself, 'My man made the great sacrifice, died that I might live, for the nation, and I should not be able to have as beautiful mourning?'"

Mr. Asquith made a speech in support of standardization and was followed by J. H. Thomas, the Labour leader. The latter told of a visit to a battlefield cemetery where he saw the grave of an unidentified British soldier between those of Raymond Asquith, eldest son of the ex-Premier, and the unknown soldier. He plucked a leaf from the grave after he had mentioned the episode at a public meeting he received a letter from a blind woman in Leicester who said she believed that this grave was that of her son. Mr. Asquith added the melancholy pleasure of sending her the leaf, and an assurance concerning the position of the grave.

At the close of the discussion, a vote of \$4,955,000 was agreed to.

Cats although said to have "nine lives," usually live about twenty years. If they escape the sportsman's ginsolomon outlive the seventh year. The average expectancy of life is about fifteen years and the wolf lasts out to twenty years. Horses and donkeys will live to exceed fifty-five years, though the Ceylonian horse, the Wellington famous steed, lived twenty-seven. Some wild horses, however, are known to live to the age of thirty. Pigs have been known to live to thirty years. Sheep average from ten to fifteen years, but some live to thirty and thrive well. But some extraordinary instances are recorded of sheep living to the age of thirty, thirty-three, while a ewe is mentioned Somerville as having weaned a pair of lambs when shearing and having produced a lamb at the age of thirty afterwards producing single lambs for two years more. Cows average from ten to fifteen years, but some live beyond a score years, and the record has been known to reach twenty-five years. The black dog lived long, but on an average! do not exceed twenty years. Foxes live to the age of fifteen. For those who died in the Tower of London 1750, was nearly an octogenarian in the year 1800. Some dogs are unusually comestive in dogs, and increase so rapidly that by the fourth year they are burdens to their owners. Some people have lived to twenty years of age.

The present wave of crime has on an impetus in Great Britain to train dogs to detect criminals. The training of these dogs calls for a large amount of patience, intelligence and resource, far removed from the old-fashioned idea of a dog being usually to beat the animal meretricious into the obedience of a few set rules. It is of the step by step method that a dog gradually becomes a tracker of criminals by their secret escapings prisoners, discovering the footprints of the fugitives in one concealment. He learns first to follow the scent of a criminal, less to seize and pull down against the will of the owner, but to himself be attacked, and to do it with the least possible damage, causing only a wound when the enemy gives in. It is a long and arduous training, as wild, savage brute, probably proud of the antipathy to his kind in some of the most intelligent public should realize that the very trained dog is at all times firmly under control.

SOME PROMINENT MEMBERS OF THE CANADIAN AUTHORS' ASSOCIATION.

Although only a short time in existence, the Canadian Authors' Association has already proved itself to be a very active organization, and has done substantial work for the benefit of the Canadian writer in literature. The Association grew out of a recent Convention held in Montreal, which was attended by over one hundred Canadian writers, many of whom were new to the group, such as Basil King, Stephen Leacock, Arthur Shepler, Frank L. Packard, Elsie Gammie, Archibald MacMachan, Robert Stead, Madge Macbeth, and others. The Convention met the support of many who could not personally be present, such as, Ralph Connor, L. M. Montgomery, Nellie McClung, J. R. Milne, and others. The Convention elected a group of twelve Ecclesiastics, MacKay, and a host of others whose names are household words in Can-

adian magazines. Librarians were there, such as Dr. George H. Locke, W. S. Wallace and Hector Garneau, as well as many of the Toronto publishers. The French-Canadian authors were present, including M. Lavoie, de Montigny, and Madame Huguenaud, newswriters published under the pen-name of Madeleine, as expected by the people with the French-Canadian population.

The remarkable interest taken in this Association is no doubt also the growing spirit of national pride which has everywhere found its strength in Canadian life, while a strong reason for the Association could be found in the Copyright Bill before the House of Commons, which would mean to endanger the rights of Authors as they had never been in danger before.

A Committee was appointed to study and take action on this third year of the Canadian Authors' Association which was held in a town second which undoubtedly has earned considerable weight with the Government. Other Committees have since been appointed to promote a number of practical programs with the object of increasing the knowledge of book-readers in the various parts of the country. The Canadian literature. Thus, for instance, the publishers have agreed to issue a series of booklets, to be called a Canadian Book Week, for next November when the attention of the book-reading public will be attracted to the Canadian Authors' Association. This is a month in which a great many people get books to read or are given books to read. It is planned also to designate provinces in the West to send books by mail to the book-reading public.

50,000 CHEVROLET "Four-Nineties"

CHEVROLET

THE production schedule of Chevrolet "Four-Ninety" Models for the seven months from January 1st to July 31st, 1921, is fifty thousand cars.

To each retail purchaser of a new Model "Four-Ninety" car at present list prices, we will make the following cash payments—"Four-Ninety", Touring \$26; "Four-Ninety", Roadster \$70; "Four-Ninety", Light Delivery Wagon \$70; "Four-Ninety", Glassie \$70; "Four-Ninety", Coupe \$100; "Four-Ninety", Sedan \$100, provided the Chevrolet Motor Companies manufacture and sell fifty thousand new Chevrolet Model "Four-Ninety" cars between January 1st, 1921, and July 31st, 1921. This offer to be subject to the terms as set forth in full in the refund certificate which will be delivered to each purchaser.

This refund represents savings in material prices under present readjusted conditions, which savings can be made provided Chevrolet factories continue to operate on the estimated average quantity production basis.

It is in keeping with the Chevrolet policy to make the price of its product as low as quality manufacture on a large scale will permit. It is in keeping with the Chevrolet purpose of providing quick, convenient, economical transportation at a cost within reach of those who want an automobile.

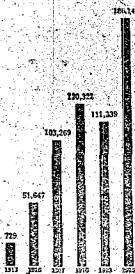

Fifty thousand cars is the additional which Chevrolet Engineers estimate will secure substantial margin in cost of manufacture. These savings will be passed on to the purchasers of these fifty thousand cars.

Each purchaser of a Model "Four-Ninety" will cost a cent less from his dealer or from the Chevrolet retail sales manager. This cent saving will be reflected in his refund certificate which will be returned to him on his face.

The entire plan is a straightforward business proposition presented in a straightforward way. As matter of fact, in the market for a new car doesn't you want to get the best deal? So, buy a new car and see the people who offer to every man or woman business judgment an opportunity to note advantage of the best automobile value obtainable.

Retail purchasers of Model "Four-Ninety" cars since October 1st, 1920, will receive their refund certificate through their local dealer or retail stores on application by them.

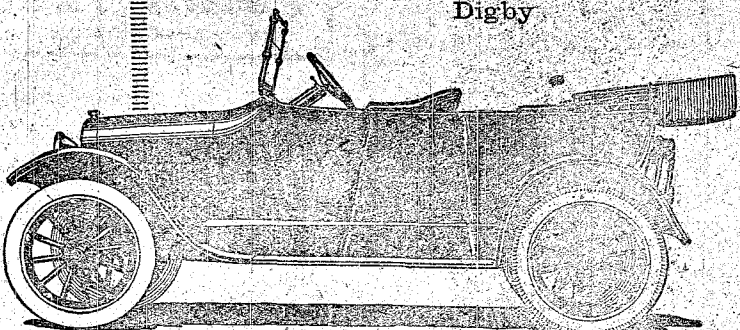

Production results will be announced not later than August 15th, 1921. Certificates will be subject to payment according to their terms, therefore, up to September 15th, 1921.

News of Weymouth

Do not forget the date of the public unveiling of the Soldier's Memorial on May 24th.

Dr. H. H. Allen and friend, Mr. Steele, of Halifax, arrived on the early train Sunday for a visit to Weymouth.

People of Weymouth, don't forget to hang out your flag on May 24th. Every home and shop should display the Union Jack and banner on that day.

May 24th is going to be the banner day of the year for Weymouth.

Mr. (Dr.) H. J. Poirier was a passenger to Halifax on the early train on May 24th. See to it you are there too.

Mr. Esther McNamee arrived from Boston on Friday going to Digby on Saturday. Whilst in town she was the guest of her sister, Mrs. Mary Bingham.

Clifford J. Beator, who spent the winter in Weymouth, returned to Digby on Wednesday.

Geo. O'Hanlon was a passenger to Boston on Tuesday.

The friends of Henry Wilson will be pleased to learn he is recovering from a serious illness.

Frank Ouellette returned on Sunday from a trip to Clyde River and other south western points.

Miss Cynthia Grant arrived from Boston on Friday, having been called home by the serious illness of her mother, Mrs. Mary E. Grant.

Emile Ambrault, of the Canadian Railway Postal service, was in town on Sunday.

Miss Lillian Corbin arrived home from Annapolis on Sunday.

Jean DeSauter went to Yarmouth Sunday morning motoring back with his wife.

Mr. Myrtle Potter was a passenger to Yarmouth on Monday.

Kenn Kilian arrived home on his vacation from Cuba on Friday.

Mr. Molson, of Kentville, was in town on Monday.

Mr. Dalton, of Kentville, was in town on Monday.

Mrs. Annie Melanson arrived home from Boston on Friday.

Miss Myrtle John arrived home from Halifax on Tuesday morning.

Dr. H. J. Poirier spent Sunday at his home at Bel Brook.

In order that the people of outlying districts and surrounding hamlets may be able to see the unveiling of the memorial to our gallant soldier, who fought and fell in the most stupendous conflict the world ever witnessed, it is to take place on May 24th. Weymouth, a pretty country village of less than a thousand souls, and the magnificent number of over three hundred of its bravest and best young men to participate in the world war, is in the front of the spotlight, and the entire population is justly proud of the gallantry and bravery of its sons who, in the name of the Father, have sacrificed their lives for the sake of the return of the soldier boys.

It was suggested a suitable memorial be erected to the memory of the fallen, and was to consist of a bronze monument and was to be placed in the most conspicuous and central part of the village. James Dunbar, to whom a great deal of credit for his generosity in donating the triangular parcel of land in front of the Weymouth House, is due, deserves the greatest praise for his munificent gift, as well as for a generous subscription towards the memorial fund. The memorial monument was purchased by funds subscribed by citizens of the place both here and abroad.

The foundation for the soldiers memorial is completed. The work under the capable direction of Fred Lent is finished and there now remains the erection of the monument before the public unveiling takes place. Mr. Dauphine of Shelburne, the contractor from whom the monument was purchased expects to arrive in Weymouth about the 15th of May to erect the monument and get things in shape for the unveiling on May 24th.

The Memorial Committee are endeavoring to arrange for the Lt. Governor of Nova Scotia to be present on that day. This memorial to our soldiers will be a tangible expression of our devotion and loyalty to them and will serve as a reminder to the rising generation of the glorious part played by the "boys" from Weymouth in the world war 1914-1919.

To the children of today who are the sons of tomorrow it will "speak" as it were of the part their fathers played in the big game. May it always stand as a reminder to those who will gaze at it as they pass by with love of devotion, a greater loyalty to King and Country, and a true conception of honor and heroism. On the day of the unveiling which will be accompanied by suitable ceremonies, and exercises, it is the intention of the Committee to hold a tag day in order to raise sufficient funds to grade and otherwise improve the grounds surrounding the monument.

Citizens of Weymouth and nearby villages make it a special point to attend the unveiling of the Soldiers Memorial on May 24th. Remember the war. Remember the heroes who never came back and who lie in unknown graves in a foreign land. Show by your presence at the public ceremonies of the unveiling that you appreciate the bravery and gallantry of those who fought for the cause of Justice and Right. Remember the date, May 24th.

E. J. MUISE - Prop.

Friday is considered an unlucky day because for centuries it was the day chosen for public executions.

WESTPORT

Mrs. Ethel Davis is visiting friends and relatives in Weymouth.

The tug Wanda, Capt. Branch, was here on the 20th of April for lobster.

Mrs. Fred Coggin and children arrived from St. John last week to spend a few weeks here.

Mr. and Mrs. Lloyd Bailey and daughter Ruth and Mr. Corbin Bailey who have been at Barton for the winter arrived home on the 27th of April.

Terence Robitsek, of Meteghan, was having his floor boat repaired.

We are glad to see J. H. Churchill, who has been in his store again after his illness.

The Rev. Mr. Anderson arrived here on the 26th of April to accept the pastorate of the Baptist Church.

On Monday evening, April 26th a number of the friends of Mrs. Mary Bingham gathered at her home to help celebrate her 70th birthday. A very pleasant evening was spent.

Some poetry which Mr. Bowers had composed for the occasion and Miss George Ollitt also rendered a very humorous reading which all enjoyed.

At 8 o'clock Mrs. Colin Thompson, Mrs. Bingham's daughter, invited the guests to the dining room where a beautiful lunch was served after which Mrs. Bingham in her pleasing manner addressed her friends.

Present and then for their beautiful gifts and their remembering her natal day and for helping to make this a happy and pleasant occasion.

Beautiful flowers decorated the dining table, gifts of Mrs. Bingham's friends. Mayflowers, carnations, roses, pansies and crocuses but the great centre of attraction was a beautiful birthday cake sent by Mrs. W. C. Bingham.

Each of the present guests recited some stanza of poetry. Many and varied were the readings. Also Bailey received a very hearty encore after rendering a short poem in a very pleasing manner.

After the guests retired to the parlor Mrs. S. T. Payson took charge of the music and Mrs. Bingham heard some of her favorite hymns and songs for which she thanked them all especially Mrs. Payson. The gathering broke up about 12 o'clock. We hope Mrs. Bingham may enjoy many more such occasions.

Ernest Sinclair was in town on the 26th.

Mrs. Frances Morrell arrived home from Yarmouth on the 2nd. Mrs. Morrell spent the winter in Yarmouth the guest of Mrs. Charles Sutherland.

Behr, Alice and Jennie, Capt. Charles Hicks, arrived home on the 28th, from Yarmouth.

FREEPORT

Mrs. Fernwick Morrell, of Lynn, Mass., is visiting friends here. Mrs. Morrell is a visiting friend here. Mrs. Morrell is a visiting friend here.

Lincoln, of Freeport, Mass., is the guest of R. E. Morrell.

Mrs. Milton Hains, who has been spending several weeks in Halifax, returned home Saturday.

Hilbert Crowell, who spent the past year in the West is visiting friends here.

Mrs. Charles Morrell, entertained a number of her friends in her home on Saturday evening in honor of Mrs. Fernwick Morrell, of Lynn, Mass.

A pleasing entertainment was given on Friday evening in the Penance Hall when the two-act farce "Mr. Hob" was presented by Freeport Amateurs. It was successful from start to finish.

In addition to the play, several specialties were given by the Jazz Orchestra by Sheldon Miller, Edwin Crocker, Reginald, with May Hains and Cornelia Crocker, piano accompanists. The proceeds amounted to about forty dollars which will be used for church purposes.

One of the outstanding features of the entertainment was the beautiful scenery obtained for the occasion.

PORT WADE

Seeding is progressing very favorably in this vicinity—about one month earlier than usual.

The man who works out by day's work is seeing the hardest time in his life right here now. We need to be optimistic.

Wilfred Kendall and Robert McGrath came home from Auburn Saturday and will be here a few days.

Ralph Ape, wife and child of Kentville are spending a few days with the former's mother here.

Archie Macdonald, wife and child, of Granville Ferry, have moved here for a stay of a few months.

Messrs Hayden and Haynes are building a fish weir at Good Island.

Potatoes are selling up the valley at from 30 cents to 50 cents per bushel.

What is the matter with the retailers? The consumer should watch prices given by the "Thurs. St. John."

New Brunswick is preparing for a referendum, to stop the importation of the stuff. They should also import some honest men to see that the laws are respected.

NEW TUSKET

Mrs. Perry Mullen, of Waltham, Mass., is visiting in New Tusket.

Dr. Alvin Moses, of Lynn, Mass., spent a few days recently with his grandparents, Mr. and Mrs. Shuck Mullen.

Miss Bessie Sabean entertained a number of young people at a party given in honor of Dr. Moses at her home on Tuesday evening, April 26.

Mr. and Mrs. George Coonan, of Danvers, spent Thursday, April 28, with their sister, Mrs. Shuck Mullen.

Shuck Mullen, accompanied by his grandson, Dr. Moses, visited the former's son, William Mullen, of Brighton, and daughter, Mrs. Thomas Abbott, of Marshfield, a few days last week. Dr. Moses returned to Boston on Friday April 29.

Curtis Lewis, of Boston, who was called home by the death of his sister, Lizzie, returned to Boston Friday.

NORTH RANGE

Mr. and Mrs. Sherman Thurber are moving from Barton and going to live in building his former parents, while he is building his home.

Curtis Cook is building a new house. It is framed and being boarded in. Albert Cook is also building.

Mr. and Mrs. Melbourne Bacon and son Leslie, of Barton, spent Sunday the guest of her parents, Mr. and Mrs. Wm. Vanbold.

Miss Lila Height, of Digby, was the guest Sunday of her parents, Mr. and Mrs. Wm. Vanbold.

Mr. Harpham Taylor, of Barton Settlement, is visiting Mr. and Mrs. James Wright.

Miss Height and family of Digby, were the guests Sunday of Mrs. Height's parents, Mr. and Mrs. Frank Foster.

Mrs. James Wright accompanied by Mrs. Wm. Vanbold, the guest Sunday of Mr. and Mrs. Wallace Wright, Barton.

Mr. and Mrs. Watson Height, of Pirmont, were the guests Sunday of their son, Bruce Height.

Miss Laura Vanbold, of Yarmouth, spent the night of the 2nd of her brother, Wm. Vanbold, on her way home to Nictaux Sallow.

CULLODEN

Mrs. Benedict VanTassel, of Miramichi, spent the week with her three daughters in this village.

Miss Violet Middleton and friend, Mr. Raymond, of Gulliver Cove, spent Sunday with her father, Mr. Wm. Stark.

Kenneth Pottery, of Gulliver Cove, spent a few days last week with his sister, Mrs. Wm. Stark.

W. M. Marr, of Esgueville, spent a few days last week with Mr. and Mrs. John Ross.

Mr. and Mrs. Oscar Stark and baby, spent Sunday with relatives in N. Pleasant.

Announcement

The unveiling of the Weymouth Soldiers' Memorial, in honor of those who served in the Great War and in memory of those who gave their lives, will take place on Tuesday afternoon, May 24th, at two o'clock.

All residents of Digby county are invited to the ceremony.

The committee propose to have a Tag Day on the 24th in order to secure sufficient funds, to grade and improve the grounds surrounding the Monument.

Also the committee feel that every man, woman and child of Weymouth would do well to subscribe something to this worthy object, no matter how small the small the subscription may be and as the day is to be closed on May 14th, all those who have not already done so, kindly hand in their subscription to either Dr. A. H. Hogan, Treasurer, or S. L. Hoffman, Secretary, on or before that date.

It is proposed to prepare a list of all subscribers and the amount deposited with the Registrar of Deeds for future reference and also for the future generations.

DIGBY, NOVA SCOTIA, FRIDAY, MAY 13, 1921

Vol. XLVII No. 40

AGRICULTURAL REPORTS FOR THE YEAR 1920

The report of the Nova Scotia Secretary for Agriculture has just been issued and may be had on application to the Secretary.

Here is a mine of useful information, containing reports of all members of the Department, accounts of Experimental work, analyses of soils and fertilizers, indications of the value for fertilizing purposes of limestone and other deposits in the Province, etc.

The reports on Dairying, Women's Institutes, and Farming Organizations are particularly of importance. A good account of the first Nova Scotia Egg Laying Contest is incorporated, with photos of leading performers. Write and secure a copy.

AN AUTO TRIP FROM CLYDE RIVER AND RETURN VIA DIGBY

Under different circumstances, Washington Irving said, "No one can tell, or pen of mine describe." This is too strong, you say. Well, we have dipped our pen in the tea, but we can't tell what we see, or make plain the motion of our immature minds as we travel to Bear River, that beautiful Sabbath morning.

We've not much patience with those who must always be going abroad to "see something." Our friend at Digby, an Englishman, and some years in the country, incorporated, with photos of leading performers. Write and secure a copy.

Running along in haste we've seen of farms, but we've seen them in Yarmouth County, and they are here in Digby and Annapolis. As we have hinted, what a revelation this drive would have been to some of our stay-at-homes. We are looking out through that hole in the wall, through which came French and English ships in days gone by. The peaceful ships of commerce come and go through Digby's wonderful "gap," and away to the eastward stretches that North Mountain sentinel, guarding the peaceful valley.

We're also seeing other things as our road winds by the river. "Loveliest village of the hills, whose varied charms the thoughtful bosom fills."

The river, springing from some far off glacial ice, through the hills its winding course doth take, runs o'er red sands till blending with the tide, that sweeps the Basin round, and on whose waters deep our ships may safely ride.

Yes, as better writers have said, nature has here lavished her scenic attractions; and it requires little showing that when the old square-riggers came here to load they could fairly poke their yards through the cherry orchards, and the piled up hills, with farm and garden on the slopes overlooking all.

As one grows old, it requires both strength and wind to climb the hills. Here we find it, and more especially to be in time for church, where we listened to an impressive sermon, with a fairly good congregation. And heard good singing by a well-conducted choir, with the people joining in. On these occasions, the stranger finds it pleasant to meet a minister, and one gets good impressions, and is encouraged to visit again. Unexpectedly meeting friends from another county, emphatically adds to our pleasure.

We leave this favored spot, where people and cherries, and go to church, and speed over good roads, with farms and orchards pleasing to the eye.

But in this life one meets with surprises and if it did take us half an hour to extricate our Ford from the red mud, what matter. We knew it was better far than our lesson in Sabbath breaking should not be lost!

We pass through Clementsport and other pretty places, and skirting the Basin, reach our objective, viz., Annapolis Royal.

Time is passing; we've a long road to travel; so it must be intelligently and profitably spent where Seigneur de Monts, whose monument stands here, and around which so many legends and associations gather.

On the table, surrounded by the bold figure of that intrepid explorer, we read 1605. All readers know the history, but Annapolis—well, we quote, "Nothing can state the variety of its charms, or detract from the interest of its historic memories. While the world endures, the investing waters, and mountains, and islands, and meadows, and groves, will continue to please the eye with their varied combination, that put on new aspects of beauty with the passing of the seasons, and the hours of the day." The senses are ravished by the eloquence of the writer, and intensified by what we know, and see and feel.

As Champlain paced the outlook that commanded the ample bay, and longed for the return of De Monts, so to-day, we walk the ancient ramparts and look out over those transcendent waters. Our minds travel back to the tragedy, and our eyes now see the beauty, and what is here being preserved, and their memories enshrined in our hearts, let no commercial lust, or spirit of the image breakers, mar or destroy.

We turn, with others deeply interested, to look upon, and handle those objects of an ancient occupation; the invitation is ample, and the objects, when in charge, are as usual, and the stranger visitor sees for the first time these relics of a dead past.

Quoting from an admired writer: "Patrician cognomen and plebeian serf find their place in the visitor's book." Our ancient chronicle goes down for the first time.

Where once death's sickle reaped the field, A harvest-toun was the yield; Today the kindly Arts of Peace Bring from the earth a good increase; And manhood run to brotherhood.

We worked in line with God's good plan. Farewell, Annapolis Royal! The memory of thy blended tragedies and unsurpassed beauties shall not

Our Future Men

The world wide interest in the Boy Scout movement challenges the intelligent understanding of everyone, and yet many people still ask "What is Scouting?"

Scouting is a program of supervised training the aim of which is to form character and develop good citizenship among boys, training them in the habits of observation and obedience, inculcating the spirit of loyalty, and thoughtfulness for others and teaching services useful to the public and handicrafts useful to the Scout himself.

Scouting includes instruction in First Aid, Life Saving, Nature Study, Woodcraft, Campcraft, Honour and Patriotism. The opportunity is afforded for progress in Scouting is always at hand. A boy first becomes a Tenderfoot, then a Second Class Scout and then a First Class Scout. After this the whole sphere of the Scout program is made available by the boy's own application in qualifying himself to pass tests for the various Boy Scout badges some forty in number including such as Pathfinder, Artist, Rescuer, Public Health Man, Engineer, Farmer, Fireman, Photographer, etc.

The moral groundwork for all training is contained in the Scout Promise and the Scout Law which are as follows:

Scout Promise: "On my honour I promise that I will do my best

1. To do my duty to God and the King.

2. To help other people at all times.

3. To obey the Scout Law.

The Scout Law is as follows:

1. A Scout's honour is to be trusted.

2. A Scout is loyal to the King, his officers, his parents, his country and employers and his comrades.

3. A Scout's duty is to be useful and help others.

4. A Scout is a friend to all and a brother to every other Scout.

5. A Scout is courteous.

6. A Scout is a friend to animals.

7. A Scout obeys orders of his parents, patrol leader or Scout-master without question.

8. A Scout smiles and whistles under all difficulties.

9. A Scout is thrifty.

10. A Scout is clean in thought, word and deed.

The whole program is carried on under the supervision of one or more men known as Scout masters and assistant scout masters.

To encourage such a movement is to contribute to the rearing of a clean and wholesome manhood.

The development of our national life has brought with it elements designed through no other purpose than a sordid commercialism to wean the youth away from the paths of moral rectitude to the byways of voluptuousness. At the same time one of the most gratifying features is the attention being paid towards the creation of influences counteracting such elements.

In the Boy Scouts an organization has been established which seeks to bring to the boy an appeal to his loftier nature, to suppress all the effects of original sin and the wanderings after strange gods. His imagination is directed to healthy and constructive thoughts; his sense of honor pointed out; a living ideal is instilled in him; he is taught that no finer qualities than an appreciation of justice, sympathy and loyalty. Deceit and prevarication are unlovely, unnatural and entirely beneath the dignity of a scout.

In various parts of Nova Scotia the good things that Nova Scotia produces. Through forest, o'er hill we speed away cracking our conscience on this Lord's Day; pass through hamlets—the occupants farming, lumbering, orcharding—get glimpses of lakes and streams fit as possible for a disciple of Isaac Walton.

Mailland, if we mistake not, is the principal place on this road, (Continued on page Eight)

MUNICIPAL COUNCIL

The Council in and for the Municipality of Digby met at the Court House, on Tuesday, May 3rd, 1921. Present: The Warden, Councillors Rice, Andrews, Young, Cornwall, Ruggles, Crocker, Fitzgerald, Han- kinson, Cossabough, Gilroy, and

The Warden took the chair and called the Council to Order at 2 o'clock in the afternoon. A letter was read from the Chairman of the Highway Board in answer to a Petition from residents of Little River asking for an extension of road; this Petition was accepted on the understanding that the opening of such will not entail expenditure of any money on account of land damages.

Petition was read from George Post applying for the appointment of Provincial Constable; ordered that this petition lie on the table for further information.

The finance committee, on motion are given leave to sit.

Councillor Andrews paid, in \$18.00, for funeral expense of Jeremiah Wagner.

Finance committee rose to report at a later date.

The Council adjourned till 10 a. m. Wednesday.

Wednesday, May 4th. The Council met at the Court House at 10 a. m. present the Warden and all Councillors except Councillor Marshall.

On motion it was ordered that Mrs. David Condon be allowed two dollars per week for the care of Mrs. McNeill.

The question of the Public Health Nurse and Clinic was then discussed; moved by Councillor Rice, seconded by Councillor Andrews that the Municipality of Digby provide a room for the holding of health clinics, and pay one half of the necessary expenses of the running of such clinics, so long as the Red Cross Society furnish the nurse; the Municipality not being responsible for any doctors or nurses' fees. Upon being voted on the motion carried.

On motion ordered that the correspondence and bill from the Board of Health, Brighton, re: aid to Delbert McLeod be left to the Chairman on Tenders and Public Property, for his decision.

Resolved that the Municipality pay the bills in connection with the funeral expenses of the late Wm. A. Johnson.

The assessor are given leave to sit. On completion of the matters brought before them this committee rose and gave their report, which on motion was received and adopted.

The report of the finance committee was read by the secretary Councillor Hankinson, as follows:—We have examined the finance and public accounts, hereby recommended that the following bill be paid to the several persons mentioned below.

Retainer	
W. W. Wade	No. 2 \$12.00
Geo. L. Marshall	No. 2 14.50

Commonwealth Trust Co. (Nat. Pac. Assn.)	36.53
Albert Marshall, Deputy Fire	
Ranger	101.41
Wm. Hall (Fabrics)	Receiv. Wm. (Johns) 52.00
H. H. Marshall (Revising Jury List)	5.00
Wm. Cossabough	5.00
	\$437.70

Upon motion this report was received and adopted.

The Council then adjourned till 1.30 p. m. Thursday, May 5th. The Council met at the Court House at 1.30 p. m. and proceeded to the Alms House, where they visited the various wards and inspected the buildings and stock, and found everything in good order. The Municipalities of most formality in having Mr. and Mrs. Marshall in charge of this institution, the sick and helpless are so well cared for, had everything about the House spotless, the fresh, full, much labor and unceasing care.

Thursday, May 5th. The Council met at the Court House at 10 a. m. Present the Warden and all the Councillors except Councillor Marshall. Mr. W. A. Gilroy, solicitor for the Municipality, was present to give information on the signing of warrants for unpaid taxes.

Resolved that both Municipal and Highway taxes be due the Municipality on or before June 1st.

Resolved that the Council be authorized to make any changes and additions in the list of officers as passed as follows:—District No. 22. Wm. A. Gilroy to be over-seer of the lands in place of Amedee Lefebvre. District No. 6. To be over-seer of the lands in place of Willis Lovett. District No. 1. To be over-seer of the lands in place of E. R. Gaudet and James Gaudet.

District No. 3. Amedee Lefebvre to be over-seer of the lands in place of Luke F. Melanson. District No. 4. George Gaudet, No. 7.

District No. 2. Over-seer of Highway No. 5, Benjamin "Conrad" Gaudet. District No. 1. Municipal Elections, Bernard Lefebvre.

Resolved that the Committee on Public Property shall be and is hereby instructed to take immediate steps to have necessary repairs made on the buildings of the Municipality.

The Warden thanked the Councillors for their assistance in the carrying out of this business of the Council. The session closed with the singing of the National Anthem.

The Council and Warden directed MARGARET STEWART, Municipal Clerk.

Cardinal McLaughlin has given \$10,000 towards the Boston College \$2,000,000 campaign.

Charles M. Morse, of the Harbours and Marine Company, Chicago, died recently at his winter home at Ocala, Florida. He had been ill for months.

Louis Dreyfus, 87 years, senior of the City Hall at New York, awarded, N. Y. records dated up to the top of a 23-foot lamp-post, on the four storey N. Y. M. B. A. Building, in order to encourage the tallest bachelors.

Capt. Melvin B. Webber, of Rockland, Me., recently brought into port a ball-bat weighing more than 30 pounds, which he caught swinging from a derrick on a heavy cable. He sold the bat for 25 cents a pound, making nearly \$100.

A woman for the first time in the history of the Protestant Episcopal Church in Nova Scotia has been elected to the administrative office in the diocese. Held by a member of the Bishop's Council, to which she was elected by the recent annual diocesan convention at Boston.

"Bredren," said a colored man, stooping down on a plantation, "I've got a five dollar string 'n' I would like to sell it to you. I would like to sell it to you. I would like to sell it to you."

HERE'S TIP ON HOW TO GET EGGS WITHOUT KEEPING HENS

(By Henry Brown.) Well, I had some nice fresh eggs of my own this morning. I remarked a bright looking gentleman, "How come?" enquired a bystander, "I didn't know you kept hens."

"No," replied the gent, "but my neighbors on both sides do."

What then? "Like this. You make a small hole in the fence on either side so the neighbors' hens can conveniently get through. Then you get a barrel and lay it on its side and put a little straw in the bottom. Then you sit back and wait."

It's a well known fact that the average hen would rather go over next door to grab around than stay at home. Being out next door, she frequently takes it into her head to lay an egg.

When she does that, there's the barrel in everything all ready.

The neighbors who own hens complain that it's being done very extensively in the suburbs this season, and the people who don't own hens say it's only fair anyway, on account of the garden-scratching that those visiting chickens have done in past years.

How do you have your eggs—fried or scrambled?

Finland bought only \$211 worth of goods from Canada in January, 1921 according to Finnish trade statistics. Finland sold nothing to the Dominion during that period.

Cardinal McLaughlin has given \$10,000 towards the Boston College \$2,000,000 campaign.

Willard Storage Batteries

We are now the Official Service Station for this country and extend to auto owners, the well known Willard Service. Willards are backing their Rubber Insulated Battery to the limit. The insulating separator used in this battery is made of sheet rubber, perforated by 196,000 little cotton wicks which carry the acid thro. An improvement in this separator has been made by the addition of three vertical rubber ribs to take the strain and chafing of buckled plates. Seeing is believing so come in and see the inside of them.

Free water and testing for all auto drivers

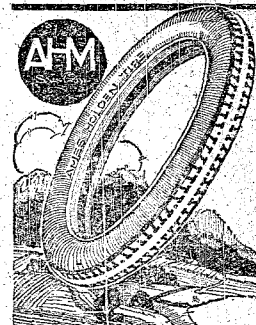

Willard schedule of repair prices is fair to both repair man and customer. To get the benefit of the Willard Ninety Days Guarantee, all owners of new Willard Batteries must register them at the nearest Official Willard Station within five days of purchase.

THE STORY OF
CLARKE BROS.' PULP MILL

It was on Wednesday May 21, 1919 that the first stone was laid for the construction of the Clarke Brothers' Pulp Mill. Two years have elapsed from the launching of this venture until its completion. Perhaps few people realize the extent of the work necessary in order to create a modern industrial plant such as this, yet in this short time there has been accomplished a great deal of work and brains under unexampled natural advantages and advantages.

Before work was actually started various contractors offered their services and pointed out the general character of labor and urged large importation of labor to carry on the work. But the founders of the industry had a different opinion. They claimed that there was a sufficient supply of labor in this and adjoining communities to carry on the work and there was no need to import labor to have the work go more slowly if need be, rather than to have a deluge of foreign laborers dumped on the community. The vision of their decision has been amply demonstrated at various times under the past year and the result is that the men who aided in the construction are now best qualified to operate it.

The first two names to appear on the pay roll were those of Decker M. O'Brien and Thomas Pugsley, and both of these men are among the valued employees of the company today. The first job to be undertaken was the remodeling and erecting of the Company's saw mill as it fit up for a machine and carpenter shop. Twenty feet were added to its length and a back extension five feet wide added throughout its entire length. No building was destroyed which could be utilized in any way. The Company bought a new barn, which stood on the other side of the road, occupied space which was to be utilized for a boiler house and the barn was re-erected and added to and made into a commodious structure on the south side of the road. The building was fitted out to its foundations and moved bodily up the hill and has been utilized since then under the name of the boiler house. This preliminary work had to be done by the few men who could secure building accommodation in the community. No consideration had to be given to provide accommodation and work shops for the additional men and teams which were necessary before the work could be really started.

At about this time Mr. Andrew Block, superintendent, arrived on the scene, and immediately started the preparation of preliminary plans for the general layout. It was at this time when the difficulty to obtain, and more difficult to buy for immediate delivery. Fortunately, numerous material prices had been obtained from the various sources throughout Canada and New England. The Watrous Engine Works, of Montreal, Quebec, supplied the largest builders of pulp machinery in Canada, supplied the major part of the mill equipment. The Clarke Brothers' mill was completed and completed by special machines from various other builders in other parts of the country.

After these were attended to, the ground was staked out and excavation commenced on the Saw Mill building. The Clarke Brothers' mill foundations. Other details such as procuring of railway right of way, sidings and had of course to be completed before any ground was broken.

It was during July that the Messrs. Pugsley Mill near River View, Quebec, machinery had previously been removed from it, but the buildings were practically all standing. They were available for use as an exceptionally good quarry, and it was estimated that the building and chimney contained approximately a million bricks that could be recovered. Herbert Langley was immediately put in charge of the recovery work and spent the summer of 1919 with a gang of men taking down these buildings and shipping them to Bear River, by the way of the river. The value of the material of this purchase was beyond question since about scrap metal alone was returned to pay for the cost of the price of the plants, and at the same time a better grade of lumber had been secured from any other source at that time at any price.

In between times during this first summer other jobs of minor importance were carried on such as the construction of a concrete dam up the Gully brook from the mill and the removal of the large flour warehouse from Bear River by the way of the river. It will thus be seen that great deal of preliminary work had to be done during the first summer in merely getting ready to start work, so that all that was accomplished in a tangible way towards the construction of the pulp mill proper before the snow fall was the underground foundations and a small portion of the mill erected. But it may be thought that no work was being done simply because it was not in evidence here around. The Clarke Brothers' foundations are very essential although very few people know the work they involve. During this summer approximately four thousand cubic yards of earth were weighed in and the mill was excavated and upwards of twenty thousand sacks of cement were used for concrete in order to put everything in shape for an early start in the spring. During the winter of 1919-20 the weather was very severe and the steady construction was possible, but the work was kept busy on woodwork, making windows, doors, etc., and on overhauling equipment. Under the supervision of Elmer McKnight, master mechanic, and William Spurr, his assistant, it was about this time that the double Thompsons were most in evidence. Persons were freely made that no more work was available to complete the plant and active work would not be resumed again in the spring. And as remarkable as it may appear the most of the knowledge came from their own own industry. But it is a matter of fact that the Clarke Brothers' foundation is indeed commendable that opposition develops against many of the part of the native-born to prompt industrial development. The Clarke Brothers' support is frequently given by all outsiders who may come with a few dollars to spend industrial work. Our

Local and General PERSONAL MENTION

Next Sunday Father Mackey will hold a special service here.

Rev. W. J. Wright will continue to hold special services at Kerr's Corner during the evenings of next week.

The Baptist Missionary Aid Society held their regular monthly meeting last Thursday afternoon at the parlance.

Sunday afternoon a few young people of the Baptist Church went to Greenland and Morganville where services were held.

There will be a "Community Sing" in the Baptist vestry on Friday night to take the place of the regular B. Y. P. U. service which was held on Monday evening.

The government list has been improved this week by having a number of maple trees planted. The banks of the town are due to A. B. Marshall, Jos. Warren, who are responsible for this public project.

The ladies of St. John's Guild took this opportunity of extending their hearty thanks to Mrs. H. J. H. for the excellent lunch which she opened their home last Thursday evening on the occasion of the church congregation social.

The ladies of St. John's Guild took this opportunity of extending their hearty thanks to Mrs. H. J. H. for the excellent lunch which she opened their home last Thursday evening on the occasion of the church congregation social.

SPECIAL INSTITUTE MEETING

A special public meeting was held on Friday afternoon in Oakdene Hall, under the auspices of the Institute, when all the members of the Institute and their children were invited to attend.

The meeting was addressed by Miss Pugsley, who gave the school a clear picture of the school's progress.

BOARD OF TRADE

A special meeting of the Bear River Board of Trade was called on the afternoon of May 6th to meet Mr. Chisholm, of the Victoria British Columbia Society, to explain at some length the purpose and interest of the present local Cross activities.

TRAVELogue

A very interesting "Travelogue on Egypt, Palestine and Jerusalem" was given on Monday evening, May 9th, in the Baptist church, under the auspices of the B. Y. P. U. The speaker was Dr. R. H. M. of the University of Toronto, who traveled for four years in the East.

The talk was illustrated by lantern slides and was a most interesting and timely one. It was a most interesting and timely one.

Many Digby and Annapolis county men have found opportunities in this industry to develop and improve their position. Many young men have been particularly adapted. Opportunities in this community were previously confined almost entirely to farming and fishing. Many young men with natural talent in other directions had to seek their future in the United States, or remain here working under unexampled conditions. Practically all the expert work of the pulp mill was done by men who had been trained in the United States, or remain here working under unexampled conditions. Practically all the expert work of the pulp mill was done by men who had been trained in the United States, or remain here working under unexampled conditions.

PERSONAL MENTION

Mrs. J. D. Dinmore is visiting friends in Wolfville.

Mr. Brock spent the week-end at the Grand Central Hotel, Montreal.

F. W. Fraser arrived from St. John on Friday, returning Saturday.

We are sorry to say Miss Rachel Maitland is ill with pneumonia.

H. Cunningham went to Halifax on Tuesday, returning Thursday.

John Buckner, of Greenland, is at present quite ill with pneumonia.

Mrs. L. V. Harris was at home on Thursday afternoon of last week.

Mrs. A. B. Clarke held her "At Home" day on Wednesday of this week.

The many friends of Mrs. Sarah Wade will regret to hear of her critical illness.

Mr. Lemay, has left the Grand Central and has gone to live with Mr. and Mrs. George MacNeil.

Mrs. L. V. Harris, entertained the ladies of St. John's Guild on Thursday afternoon.

MOTHERS DAY

Sunday last was observed in the different churches as "Mother's Day". In the Methodist Church the morning service was wholly devoted to honoring the name so dear to every heart. A large congregation was in attendance and the buttons given at the door for the occasion which bore an exquisite reproduction of a carnation on a unique background showing the Union Jack and the Canadian Flag. Special music was rendered by the choir and Fred Harris sang with great expression and feeling solo entitled "Only One Mother, the Wide World Over."

The Pastor Rev. W. J. Wright, preached an inspiring sermon on the motherhood and spoke of the value of having a day set apart for honoring the name of "mother." He also referred to the fact that we owe its origin to a young girl, Anna Jarvis was named, living in the city of Philadelphia who in the year 1908 suggested in memory of her own mother the day now so universally observed and known as "Mother's Day."

The pulpit platform was decorated with potted plants and flowers, and added to the brightness of the day's service.

In the Baptist Church the day was also festively observed. The choir sang a beautiful hymn to the occasion and the choir rendered appropriate music. A solo, "My Name in Mother's Day," was sung by the choir.

The sermon was preached by Rev. W. J. Wright, pastor of the church, on the subject for the day, taking as his text, "Honor thy father and thy mother." The who's service was much enjoyed by the many who were present.

The Methodist Church was filled with a large congregation on Sunday evening when the members of the Eliza Rebeck Lodge and Friendship Lodge, I. O. O. F., attended their annual anniversary service. The sermon was preached by Rev. W. J. Wright, pastor of the church, on the subject for the day, taking as his text, "Honor thy father and thy mother." The who's service was much enjoyed by the many who were present.

The ladies of St. John's Guild took this opportunity of extending their hearty thanks to Mrs. H. J. H. for the excellent lunch which she opened their home last Thursday evening on the occasion of the church congregation social.

Fertilizer--for profit

In our advertising during the present season we have called the attention of the farmers to several series of fertilizer experiments in connection with the use of complete fertilizers compared with the results from materials which contain but one element of plant food only more particularly Nitrate of Soda and Acid Phosphate.

These experiments have covered a large number of cases and we have laid particular emphasis on a 25 year experiment on a rotation in crops in Ohio.

Experiments of one year and of two and three years are as a rule of very little importance as most soils being reasonably fertile may respond to a certain treatment for a year or two but if this treatment is continued for a series of five, ten or fifteen years the results then may be entirely different.

This is one of the most important considerations in the use of fertilizer as a farm cannot be renewed like a building in a single season and above all it must be used in such a way as to increase its fertility rather than to deplete it.

These experiments are the most comprehensive we can find and all point to the same conclusion which is that the best results on any crop are obtained by the use of a complete fertilizer containing Ammonia, Phosphoric Acid and Potash.

Another series is reported in a bulletin from Pennsylvania covering an apple orchard. These cover six different experiments over a period of five years divided into two groups of three plots each. In the first of the series the largest increase in yield in fertilized plots compared with unfertilized plots was an increase of 78.3 per cent. from complete fertilizers. Where Nitrate of Soda alone was used the increase was 32.5 per cent. being sixty per cent. less than the complete fertilizer. Where Acid Phosphate was used alone there was not only no increase in the yield but there was an actual decrease of over 10 per cent.

We have also reports from West Virginia on a series of experiments carried on in the cultivation of peaches and as the growing of these has received some attention many will be interested in them.

The first cover three plots, one a check plot where no fertilizer was used, the second a combination of Acid Phosphate and Nitrate of Soda and the third a complete fertilizer. On the check plot three pounds of fruit were produced, on the Acid Phosphate and Nitrate of Soda thirty pounds and on the complete fertilizer forty-nine pounds, sixty five per cent. added to the increased yield with complete fertilizers.

These experiments also reported the grading of the fruit as well as the quality. Where Nitrate of Soda and Acid Phosphate were applied exclusively on a definitely sized plot the yield was 46 baskets of culls, 202 baskets of choice and 60 baskets of fancy fruit, indicating that the value of the yield was even much greater by the higher quality than is merely represented by the increased quantity.

A report issued several years ago from the Experimental Farm at Ottawa concluded by a single statement which is almost universally deduced from experiments of this kind. It said, "A fertilizer containing the three elements of plant food has in the majority of cases proved the most profitable."

Our advertisements have emphasized that our fertilizers are "Made at Windsor, N.S." There is now a country-wide effort to promote the use of "Made in Canada" goods rather than those imported which applies to fertilizer as well as anything else. In the last issue of the Family Herald and Weekly Star in the first column of the first page it brings this out in black type.

A buyer often feels the greater part if not the entire benefit from a purchase goes to the seller or at least divided between him and his employees, the buyer paying for both. This is rarely a fact but most purchases and indeed all business relations depend on it working out to the satisfaction of both the buyer and the seller.

Unless there are unusual conditions the buyer will in almost every case get better service and satisfaction by buying at home. The local manufacturer wants your business because his business is built up on good will which is dependent on giving good goods and good service. He does not figure that you will buy from him but once and on that occasion get all the returns he will ever expect to get.

This may not be so when buying from outside, the seller knowing that is only the unusual circumstances makes the sale possible and he will endeavor to unload as large a quantity as he can, not being as particular about the condition and by quoting what appears to be a favorable price makes the terms of payment as exacting as possible. From the local manufacturer you can buy what you want, get it when you want it, delivery will be better and payments more reasonable and as important as any of the others you will not have to carry anything over but your exact requirements will be covered.

Probably the advantage of buying fertilizer from a local manufacturer was never before shown better than last year. At that time there was a heavy advance in the price of all raw materials more especially Nitrate of Soda. The largest consumers of this in Nova Scotia did not buy when the price was low which was followed by a steady rise in the market and the price quoted F.O.B. Boston, New York and Baltimore was as high payable in U.S. funds F.O.B. these points as we sold delivered at the various Nova Scotia points. The users of Nitrate of Soda alone in this territory saved between \$15,000.00 and \$20,000.00 last year by having local manufacturers protect them on a rising market.

There is no better fertilizer than the "Made at Windsor, N.S." fertilizer.

Effect of Freight Rates on Business Exaggerated

Indications are multiplying that efforts of shippers and producers in many parts of the country to bring about the unsatisfactory state of their businesses upon present freight rates are not going to pass unchallenged. The United States railroads are preparing to ask the Senate Committee on Interstate Commerce, when it takes up its inquiry into the railroad situation next month, to lift these statements to the public.

Daniel Willard, president of the Baltimore & Ohio says: "I have personally advised many large manufacturers and shippers of goods what effect it would have upon their shipments at the present time if freight charges were cancelled altogether, and if the railroads would move the tonnage offered free of charge. Invariably the answer has been that it would make practically no difference at all in the volume of business because people were not buying at the present time."

Chairman Clark has recently made public the results of his inquiry into the assertions of Florida fruit and vegetable shippers that freight rates are now so high that they cannot profitably ship their products to market. Mr. Clark found that shipments of Florida fruits and vegetables between November 1, 1920, and February 23, 1921 amounted to \$2,420 carloads, while in the corresponding period of the year before, under the old rates, such shipments had been 26,880 carloads, an increase for the present season of 1,534 carloads.

The Railway Age asserts that on April 16 the average price paid producers for cabbage in Texas was \$7 a ton, the freight rate to Chicago was \$26.30, including refrigerating charges and Federal tax on freight charges, and total cost laid down in Chicago approximately 1,600 miles from the producing fields, was \$33.30 a ton. At the same time cabbage was selling at retail in Chicago at the rate of \$140 a ton. Texas onion growers received \$42 a ton, freight to Chicago was \$23.64 a ton, total cost of onions and freight \$71.64 a ton, retail selling price in Chicago \$200 a ton. For spinach Texas producers were receiving \$5 a ton, freight rate to Chicago was \$20.34 a ton, total of producer's price and freight \$35.36 a ton, retail selling price in Chicago \$300 a ton.

Grain for Export

(National Crop Improvement Service.)
"Duluth is the gateway for a large proportion of Canadian grain," says Mr. C. F. MacDonald, secretary, Duluth Board of Trade, "and at no other point does Canada come into such close contact with the United States."

"Millions of bushels of grain are shipped across the ocean, all of it being hedged to protect the operators as well as the banks. Banks generally refuse to lend money on grain which is not protected by hedging. The shipper does not desire to profit by a rise, but merely wishes to secure his ordinary profit of a few cents per bushel for handling."

"However, it takes time to get his shipment purchased and under way and on the price of the grain may decline enough in the meantime to wipe out all of his profit, he makes a practice when he buys the wheat, from the country, to sell future delivery contracts against it in some grain exchange, thus out offsetting the other."

"This method of eliminating risk is not speculation, in fact it is the very opposite. There is always a speculator who is willing to undertake this contract, but the grain handler who hedges insures himself against any possible loss. The grain dealer, the flour miller and the exporter are not in a position to take chances and that is why they take this kind of insurance."
"I wonder," says he, "whether farmers realize in shipping grain abroad, that they are building up the fertility of European farms instead of their own? It would seem to me that this grain ought to be milled on this side of the water in our own behalf, shipping flour instead of whole grain."

Look's Cotton Root Compound

Look's Cotton Root Compound is a powerful remedy for all kinds of skin diseases, such as eczema, psoriasis, and other eruptions. It is sold in bottles of 25c and 50c. Write for sample and address: THE COTTON ROOT CO., NEW YORK, N.Y.

Digby, May 6th, 1921

BAPTIST QUARTERLY MEETING

The Digby County Baptist Quarterly meeting was held in the Church at Hill Grove on Monday and Tuesday of the week ending May 9th. The Rev. J. H. Wallis, of Hill Grove, preached the opening sermon on Monday evening before a large audience. His subject was "Revival," based on Matt. 23:37. A large number took part in the afternoon meeting which followed. On Tuesday morning, an educational meeting of great interest and the reading of the minutes of last session. Rev. J. H. Wallis, of Hill Grove, presided. The Boys' Scout Association was introduced and gave a very illuminating address on the subject of "The Scout Movement." This address was received most sympathetically. Rev. J. H. Wallis, of Hill Grove, presided. The afternoon session began with a devotion by Rev. J. H. Wallis, of Hill Grove. The election of officers resulted as follows: Pres. Rev. J. H. Wallis, of Hill Grove; Sec. Rev. J. H. Wallis, of Hill Grove; Treas. Rev. J. H. Wallis, of Hill Grove; and a large number of delegates. The church was crowded for the evening service. Cars were parked in front of the church in a way never seen before in Hill Grove. The new minister presided. A resolution of thanks to the entertaining church was adopted. The service was spoken of by Rev. J. H. Wallis, of Hill Grove. The church was crowded for the evening service. Cars were parked in front of the church in a way never seen before in Hill Grove. The new minister presided. A resolution of thanks to the entertaining church was adopted. The service was spoken of by Rev. J. H. Wallis, of Hill Grove.

BOY SCOUTS

Digby is to have the Boy Scouts. This step was decided upon at a meeting held in the town hall on Monday when Rev. J. H. Wallis, of Hill Grove, presided. The following officers were elected: Pres. Rev. J. H. Wallis, of Hill Grove; Sec. Rev. J. H. Wallis, of Hill Grove; Treas. Rev. J. H. Wallis, of Hill Grove; and a large number of delegates. The church was crowded for the evening service. Cars were parked in front of the church in a way never seen before in Hill Grove. The new minister presided. A resolution of thanks to the entertaining church was adopted. The service was spoken of by Rev. J. H. Wallis, of Hill Grove.

HEAR WALTER MERRILL'S LECTURE

A genuine treat is in store for Digby folk. The Canadian Club has secured an engagement with Walter Merrill, the Canadian Orator and Entertainer who is now touring the Maritime provinces. Mr. Merrill has had wide experience in the art of public speaking and has inspired countless audiences all over Canada. His rendition of the poems of Henry Drummond and Robert Service are especially pleasing and his stories of the West Mr. Merrill's evening brings a dollar seat. Digby has the unexpected opportunity at twenty-five cents for adults and fifteen for the school people. If you are Canadian or interested in Canada, if you enjoy public speaking that sends patriotic shivers down your back, if you respond to the humor and pathos of splendid recitation, then the Canadian Club of Digby is your place on Monday evening, May 16th, and if possible secure a seat.

A SURPRISE PARTY AT ASHMORE

The young girls of the Baptist Church gave their Sunday school teacher, Miss Elsworth Kinnear, a surprise party on Saturday afternoon, inviting her to the Ashmoore. The party was a most successful one, the guests being a large number of the young ladies of the church. The party was a most successful one, the guests being a large number of the young ladies of the church. The party was a most successful one, the guests being a large number of the young ladies of the church.

Local and General

Clean up, paint up, hurry up! A girl who sparks isn't always a jewel. Her sparks are great for getting up states. Many a woman's face isn't as bad as it is painted. "We told you not to take them off to soon."

Toronto adopts Daylight Saving beginning Sunday. All Saints, Rossburg, next Sunday at 3 p. m. Auto number plates of last year are now officially in the discard. If you Communism next Sunday at St. Peter's, Marstonburg, next Sunday at 3 p. m.

The Quebec Government makes Daylight Saving time legal from May 1st. Rev. A. Hocking will preach in the school house, St. Peter's, this Friday evening. Special services have been held in the church at Hill Grove all this week and will be continued next week.

The Chautauque committee have received word that the Digby dates for Chautauque will be August 26 to 29. Class will be celebrated at Hill Grove. Church in Bear River on Sunday May 15, and in St. Peter's Church, Digby, May 22nd and 29th.

Going to the high price of paper and other costs, there are now only 99 new papers and periodicals of all classes published in the Dominion of Canada.

In the Baptist church next Sunday morning, the pastor, Rev. E. H. Wallis, will give a musical programme and the pastor will take up an address on "A Self-Defence of the Church."

Word has been received that Rev. M. S. Richardson, of Bridgetown, will accept of the call to the church at Hill Grove. He will take up his new labors on July 1st. He succeeds Rev. J. D. McKenna, of the same church.

Don't forget the quarterly ladies' meeting of the Victorian Order of Nurses tomorrow afternoon in the Evangelical church. The ladies are invited to bring with them a contribution to the fund for the relief of the poor.

P. W. Pickles of Annapolis has sold for the owners the tern schooner Peace-haven, built at the shipyard of the same name. The schooner is a fine vessel of 26 tons register, built in 1919 and is now being used for the purpose of carrying mail.

A large quantity of the pulp wood which was piled up in the woods here and Yarmouth has been moved and thousands of cords are piled near Yarmouth. The pulp is being used for the purpose of carrying mail.

Have you ever told a lie to your wife? A poor little insignificant lie, that expanded into a big one, which cost you a good deal of money, and perhaps your wife's health. The lie was multiplied, creating other lies, and the result was a big disaster.

At the regular monthly meeting of the Walford Town Council, Principal R. W. Ford, formerly of Westport, was appointed as clerk to succeed Mr. J. H. Wallis, who resigned after a couple of months ago, but who continued to continue in office until his successor could take his place. The salary was fixed at \$100.

Rev. B. H. Thomas, who has been Protestant Chaplain in the penitentiary at Annapolis, N. B. for nearly sixteen years, has resigned his position. The resignation goes into effect April 30th. Mr. Thomas, who was at one time pastor of the Baptist church in Digby, will re-enter the pastorate preferably to some Baptist church in the Maritime Provinces.

The tax rate for Springhill this year has been fixed by the Town Council at 40, which is an increase of one dollar over the rate last year and makes the double the assessment in 1921. The rate is said to be due to the increased cost of the war, but it is also due to the fact that the town is now a factor in the next election.

The forty-year-old woman's publication, "The Toronto Daily World," has been suspended. This suspension has caused some readers some loss of the strain, inspired upon newspaper publishers in general, and to day. A few years ago, the World was a popular publication in the city. It was the only paper of its kind in the city.

The Mothers' Day programme in the Baptist church last Sunday evening was a great success in every way. A large number of people were present and the numbers consisted of three selections by the choir, two by the Male Quartette, and a solo by Sylvia Bland. Readings or recitations were given by Edna Campbell, Mary H. Hocking, and Miss Anderson. The programme was given in four parts by Willie Westhaver, Margaret Collins, Edna Campbell, and Sylvia Bland. The programme was a most successful one.

Coming Events

Tonight—St. George's Lodge, No. 55, I. O. F. T. M. Regular: weekly meeting in Holy Trinity. Saturday—Pantry Sale under auspices of the Yarmouth Yacht Club. 3 o'clock. Sunday—Services in all the churches. Monday—Dance in Bijou Dream Theatre. Tuesday—Lecture by Walter McFarlane in Court House, under auspices of Woman's Club. Tuesday—Movies. Wednesday—Mrs. Temple's Telegram in Bijou Dream. Wednesday—Prayer meeting in Baptist Church.

Wednesday—Special missionary meeting in Methodist Hall. Thursday—Movies.

PERSONAL MENTION

Mrs. Mary Rodgers arrived home from Moncton on Monday. Mrs. Arnold Morehouse, of Sandy Cove, is in the city. Miss Jeanne Gidney spent the week-end with her parents at St. Peter's. Mr. and Mrs. D. C. Dakin, of Sandy Cove, were the guests of Mr. and Mrs. Guy Morehouse last week.

C. L. Denton spent the week-end with his family at Hill Grove this week. Major Daley went to Yarmouth on Thursday evening to visit his son Harry Daley. Kirk street. They left Friday for Kentville on a fishing trip. He returned home on Wednesday.

Mrs. Ellen Poole, of Yarmouth, is spending the week-end at Digby. Mrs. Charles Peters of Waterford, and Mrs. Gordon Morehouse, of Centerville, were among the delegates to the quarterly meeting held at Hill Grove this week.

The many friends of Wm. Bonafant, of Bellevue Cove, will be pleased to know that he is now located in Kentville as a fisherman. Mr. and Mrs. D. C. Dakin, of Sandy Cove, were the guests of Mr. and Mrs. Guy Morehouse last week.

Mr. and Mrs. J. F. McFarlane arrived home on Friday from their winter trip to California. Miss Edith Green returned to Halifax on Tuesday. T. E. O. Lynch and family have moved back to St. Peter's.

Mr. and Mrs. J. H. Wallis, of Hill Grove, were the guests of Mr. and Mrs. Guy Morehouse last week. Mrs. R. D. Borthen, of Moncton, who has been visiting in Western Canada, returned home by way of Digby, accompanied by Mrs. R. W. Sutherland.

Capt. Fred Robinson and family returned to Yarmouth yesterday. Mr. and Mrs. E. H. Hocking have been spending a few days in town. Mr. and Mrs. J. H. Wallis, of Hill Grove, were the guests of Mr. and Mrs. Guy Morehouse last week.

Mrs. Edward Young is spending a few days with Mr. W. E. VanBlanc. Mrs. Horace Ellis and two sons arrived from Boston on Tuesday and are the guests of Mr. and Mrs. James Ellis. Mr. W. Tipper has returned from a trip to Nova Scotia.

Mrs. J. P. Brooks, of East Somerville, Mass., who has been visiting her sister Mrs. G. E. Turnbull, returned today. Mr. and Mrs. J. H. Wallis, of Hill Grove, were the guests of Mr. and Mrs. Guy Morehouse last week.

Mrs. Agnes Doucette, who spent several weeks with her daughter, Mrs. Adolphus Melanson, in Dorchester, Mass., was a passenger to Yarmouth from Boston Tuesday morning and proceeded to her home in Salmon River.

Miss Katherine Filbert returned on Monday home in a motor car. She had been visiting friends in Yarmouth. Mrs. Margaret Doucette, of Yarmouth, who has been in Lynn, Mass., visiting her aunt, Mrs. A. B. Reid, returned Tuesday to her home in Yarmouth.

Miss Celeste LeBlanc, who has been visiting her aunt Mrs. Beatrice Belliveau in Boston, for three months, returned Tuesday morning to her home in Salmon River.

George W. Dakin with his wife and daughter, were passengers to Yarmouth on Tuesday morning on their return from Bermuda, where they spent their time. They left the same day for their home in Yarmouth.

Mr. and Mrs. L. J. Lamson returned to Digby for the summer and will make their home at the Fenwick House. F. G. J. Concan, general-freight agent of the D. A. R. has been in town this week.

A Kentville party consisting of Laurie Ellis, James McKel, A. B. Chealey, G. W. Chisholm, and R. W. Phinney, recently been on a fishing trip to Cedar Lake.

Local and General

See Lettency's window for some special high price bargains tomorrow. "Fires in Nova Scotia during the month of March caused the death of eleven people and property loss of over fifty thousand dollars."

A friend in need is a friend indeed—so runs the ancient adage. But a friend in a family mixup is not what he is generally cracked up to be. The sagacious Grace & Ruby, Capt. Wiley Reed, arrived from Yarmouth Monday for the Magdalen Islands for bait after which she will go habiting on St. Peter's Bank.

We understand that the wrecking company have failed in their attempts to float the City of Colombo and have abandoned her. She will likely be wrecked as she lies.

Digby is the only town in Nova Scotia to reduce its tax rate this year, which means well for the taxpayers. It is only 2.90 as compared with \$3.50 last year.

Rev. D. M. Farquhar, of Yarmouth, will lecture at the Methodist church next Sunday 13th inst. The hours of worship are 11 a. m. and 7 p. m. Bay View service at 3 o'clock. Not more than 2000.

The Yarmouth sch. Annie L. Spindler, Capt. William Snow, was in Yarmouth for harbor on Sunday and sailed again Monday evening. The schooner, loaded for 5,000 pounds of fish.

Both the Boutiller steamers—the Frances Boutiller and the St. Charles—are now tied up in Digby. The latter has been here all winter and the former arrived during Tuesday night.

Dr. Grant's visit to Digby, has been a very good week by circumstances. A connection with his work in Halifax. He spoke in the Baptist and Methodist churches of Digby one week from Sunday.

When a woman is at her best? She is contented and happy—so we are told—mirthful, a lighter is a sign of a woman's health. If you wish to be at her best, buy her a ticket to Mrs. Temple's Telegram.

The business men, the manufacturer, or the farmer who attempts to cut operations in the way his grandfather did is regarded as a back number. And it is not more so now than it was in the same category. So they should be.

T. J. Yarmouth schooner Lewis H. Smith, Capt. Peter LeBlanc, which landed her fare of fresh fish at her owner's in Yarmouth on Friday, docked at \$21.14 and the crewed about \$10.54. The schooner has sailed for Liverpool for bait and then to St. Peter's Bank.

Nova Scotia's only roller in the mackerel fishery, the Lockport sch. Helen G. McLean, Capt. Fred McLean, is now in the fishery. The schooner has sailed for Liverpool for bait and then to St. Peter's Bank.

A very pretty dance was given in the Bijou Dream on Wednesday evening at which the chaperones were Mrs. H. Williams and Mrs. J. H. Hocking. The orchestra consisted of Mr. and Mrs. H. H. Dakin and Gordon Robinson. A large number of very pretty couples were in evidence.

The good and philanthropic people of Digby, are invited to the Methodist S. Hall on the evening of Wednesday 18th at 8 o'clock, to hear the story of Dr. Grenfell-Laborer Medical Mission, which will be told by Miss Wm. of Ottawa and illustrated with Magic Lantern Slides. A collection for the Mission will be taken.

The board of railway commissioners will meet in Ottawa next Tuesday to hear the application of a number of fruit companies for an order directing the companies to restore the previous arrangements for unloading of carload fruit and vegetables from automobiles onto the points in the Maritime Provinces.

By request of the Maritime Committee of that Society, the Young Peoples League will kindly meet in the Methodist hall on Wednesday instead of Tuesday evening, where they will be privileged to hear an address on The Grenfell Mission, given by one who came straight from the heart of it—Dr. Grenfell's Secretary.

Addition Outlook—Prior to their departure for Little River, Digby Co. Rev. and Mrs. T. F. McWilliams and family were presented with a purse of money by the congregation of Harmony Baptist church. The presentation took place at a social evening given in their honor last week. The Harmony circuit will be closed until arrival of the new pastor.

The monthly meeting of the managing committee of the Digby branch of the Victorian Order of Nurses was held in the town hall on Tuesday afternoon. The reports of the various officers and committees showed that a lot of work had been done. A letter from headquarters conveyed the pleasing intelligence that a nurse would likely be obtained for Digby in a few weeks.

NEW DIOCESE TO BE PROPOSED.

The Synod of the Diocese of Nova Scotia will meet in Halifax May 17. The following resolution will be moved by Archbishop Draper: Whereas, a consideration of the great development of the Maritime Provinces and the growth of the church therein, it is desirable that there should be increased Episcopal supervision.

Resolved, That this Synod request the House of Bishops of the Ecclesiastical Province of Canada to sanction the formation of a new Diocese, consisting of Prince Edward Island and Cape Breton Island and the counties of Cumberland, Colchester, Pictou, Antigonish and Guysborough and that there should be secured toward Episcopal enlargement.

S. P. C. A. Collections made by Miss Edith Shreve: Mrs. Abraham 25, Mrs. Charles Dakin 25, Mrs. DuVeret 25, Miss DuVeret 25, Mrs. Harris 25, Mr. Hocking 25, Mrs. P. W. Haldsworth 25, Mrs. Audrey Haldsworth 1.00, F. W. Nichols 25, F. W. P. Nichols 1.00, M. W. W. 25, Miss Vye 25, Mrs. Whitman 25.

BOSTON FISH PRICES AND FORECAST. The past week has been highly satisfactory for fishing business in Boston, prices have ruled much above normal. Contained some of a fishing and some of a fishing and some of a fishing.

531,633 MORE POUNDS

of "SALADA" TEA were sold in the first three months of this year than in the corresponding period of last year. This is equivalent to an INCREASE of 20 tons a week and a modest estimate of this means that over one hundred million MORE cups of delicious "SALADA" were enjoyed in the homes of the people during these three months than in the same three months of 1920.

This INCREASE confirms the popularity of "SALADA", which was evidenced by the INCREASE of 1,496,236 pounds in "SALADA" sales for 1920 over 1919, and the increase of 1,536,789 pounds in 1919 over 1918.

We publish these figures because we believe everyone is interested in the reward of merit. For 30 years we have been blending and selling an honestly fine quality tea to the public. In all that time "SALADA" has remained matchless in flavour—unapproached by any other tea in cup quality—and as a result has continually increased in sales.

Please remember the above figures represent our INCREASES alone. "SALADA" sales are not only larger than those of any other tea in America, but amount to over

ONE-TENTH OF THE TOTAL IMPORTS OF ALL KINDS OF TEA INTO AMERICA—viz.: Canada and the United States.

"SALADA"

Keeping the Road Open

(National Crop Improvement Service.)

"The isolation of country life is becoming largely a myth. Any man who has an automobile, and every live farm family has one will not ever feel lonely if he can say day in the year travel as many miles as his machine will make both winter and summer.

"Every community is entitled to passable roads at all times," says Mr. R. S. Rider, president Canadian Steel & Wire Co. "The road which is most satisfactory is undoubtedly built of reinforced concrete and one of its great features is that regardless of the weather, these roads can be kept open with the snow plough and the dreaded January thaw or spring breakup will lose their terrors.

"Every town and village ought to have a co-operative arrangement with the farmers to keep the roads open 365 days in the year. Being snow-bound is a relic of the past."

An Indestructible Fence

(National Crop Improvement Service.)

"Two of the greatest enemies to every farm are bugs and weeds, but if you have a properly constructed fence, you can burn out the weeds along the fence lines without damage and rid yourself of both pests. Besides, your fence is grounded wherever a steel post is used and danger to your live stock from lightning is greatly reduced," says Mr. R. S. Rider, president, Canadian Steel & Wire Company.

"The use of steel fence posts has become a general during recent years that there is no longer any question but what they are the solution of the fence post problem.

"While the wooden fence post still has many friends, it is usually not an economy because the labor in making that post and the comparatively short life of the post, makes it much cheaper to buy a steel post of the proper size for the work required of it.

"The steel post when properly made, is heavily galvanized inside and out with an extra heavy coat of rustless zinc below the ground line. There is another economy and that is that you can drive the steel posts without digging the holes, and the bottom of the post automatically spreads, making a wedge-shaped anchor to hold the post firmly in place. The man who wishes to sell his farm would be wise to replace his old rattle-sack fence with a woven wire fabric on steel posts. It will enhance its value several thousand dollars and give it a look of thrift which is worth good money."

HOME MADE POWER UTILIZING FARM WASTES

(National Crop Improvement Service.)

"The demand for gasoline is growing by day and economists are always prophesying that the world's supply will soon become inadequate," says Mr. C. H. Chilton, editor of the County Agent and Farm Bureau.

Science has already taught us, however, that almost every growing plant contains alcohol which can be distilled at a very low price per gallon, and which in many respects is superior in power to gasoline. "There is enough waste on every farm to furnish its heat, light and power. The machinery is all available, and it is time that we should give this matter the most careful consideration. The principal difficulty of this plan will be to accumulate enough farm refuse to make the project profitable. Therefore it would be wise to have the entire ownership of some farmers' organization which will first encourage all farmers to supply a proportionate share in order that there be enough material to make the plan successful."

A girl takes a fellow for better or worse, and then gets mad the very first time he happens to come home a little late.

White Children Cannot Be Reared in West Africa On Account of the Climate

THE life of Englishwoman who follow their husbands—civil servants, officers, merchants—to the British colonies on the West Coast of Africa is described in the London Telegraph by Ethel and Alan Letherbridge. The

outstanding fact of the situation, they say, is that the climate forbids the rearing of white children.

"Only in parts of Northern Nigeria," they write, "is it safe to risk the presence of a young white life, for there fresh milk is obtainable and the heat is not so trying. We have seen one white child in our travels. It was pathetic in its pallor and apathy. Its little legs, which should have been plump and sturdy, were merely scrawny broomsticks. And this in spite of the most devoted and tender care. Truly, the life of a mother on the West Coast is no bed of roses!

"But it must not be thought that existence among the feminine element of the colonies is one of woe. Wives who trek with their husbands into out-of-the-way portions of the districts and who enter into the dangers and perils of the journey with positive zest.

"We recall one athletic, fair-haired girl who thought nothing of rising at four in the morning, slipping into a bush skirt, breeches and field boots, and trudging along by her husband through hunters' paths until the rising sun compelled her to take to her hammock. Her pet monkey and parrot always traveled with her, and were as skilled at making themselves comfortable as she.

"Long practice has made her an adept at what might be called the 'autumn in parvo' type of luggage, and she could always produce a dinner gown and accessories out of a microscopic bag when necessity required. When we asked her if she would not prefer to be in one of the large ports where bridge and dancing were the order of the evening she blurted out that she was fed up with that sort of life and that she preferred to shoot for the pot rather than to chase game, and to sleep the sleep of healthy fatigue in a palm leaf hut in the bush than to laze to a languid death in the early hours of the morning.

"That is one way of helping one's husband to get on in the colonies. It is still another. It consists in doing most of his work for him until he takes on the status of a domestic servant and is known merely as 'Mrs. X's husband.' Masterful women there are in plenty all over the world, but nowhere is it so easy for a masterful woman to grasp the reins in her own hands as on this coast. To take the line of least resistance is an insidious doctrine easy to adopt here, and if the work is done, well, what more can either Mr. or Mrs. X be responsible?

"We have known wives who signed their husbands' official documents, and women who seemed to forget that a woman should not take a military salute, and others who spoke of the soldier in my company. These women, as a rule, are not good housewives. They are short-tempered with their husbands and are too inclined to let their own temper run riot in what is really not their province to pay attention to the duller problems of the home.

"We were told to call at one house of this sort, where six bottles of full fat, warm beer was the only refreshment available, and where our hostess wistfully slapped the head boy for his neglect, though the fault was really her own.

"Black servants are quick to take their cue from their mistress, and if she is lax they become like slaves. Again, there are other women to be found who resent the presence of any increase among their own sex out here. They like to be the only ones in a community of attentive men, even though they may be devoted, and loving wives.

"In their own country, unfortunately, the feminine element predominates, and they enjoy the sensation of being undisputed queens—even though their kingdoms may be small. One such woman known contemptuously to refer to each new arrival as 'one more hussy,' until some one asked her what she meant by the perchance call her. There is also the butterfly wife, who, until she finds her soul through sorrow or illness, dances the hours away as though nature were not waiting to exact the inexorable penalty. For one cannot burn the candle at both ends with impunity on the West Coast, as men and women have both learned. These little tragedies usually realize their mistakes early and settle down into the best wives and mothers.

"Which brings us once more to the problem of children. Hard though it may be in India, it is still more bitter here. No white child must be born in these regions, a wise mother brings out with her a daughter under four or eighteen, or twenty. Therefore, she must make her choice. Shall she leave her children to the care of relatives, sending them from four to six months away, or shall she herself superintend their upbringing and be content with her husband's society only during his leave at home?

"Either way there are strings pulling at her heart. The better way there is anxiety and possible tragedy. The mail steamers are both longed for and dreaded, and sometimes those women a stranger might condemn as frivolous are actually plunging into gayety to provide an antidote against thought.

"Therefore, taking them as a whole, all honor to the women of the West Coast! One must not judge them their small pleasures nor be too severe upon their weaknesses.

DARLING BABY BRIGHTENS HOME

Children's Laughter a Pleasing Sound

Altoona, Pa.—"I am writing to tell you what Lydia E. Pinkham's Vegetable Compound has done for me. We had six children the almost all of them. Every boy and girl was born in a dozen bottles of your Vegetable Compound, and I can say that it is the greatest medicine on earth for this baby is now four months old, and a healthier baby you would not want. I am sending you a picture of her. Every body says 'That is a very healthy looking baby.' I can have my credit to your medicine, and I give all the credit to your medicine, and shall always recommend it highly."

Mrs. Janssen's experience of interest to childless wives. Milston, Wis.—"I want to give you a word of praise for your wonderful medicine. We are fond of children, and for a considerable time after we were married I feared I would not have any. I began taking Lydia E. Pinkham's Vegetable Compound, and it strengthened me so I now have a nice, strong, healthy baby girl. I suffered very little at childbirth, and I give all the credit to your medicine, and shall always recommend it highly."

Mrs. H. B. Janssen, Milston, Wis.

Mrs. H. B. Janssen, Milston, Wis., adds her testimonial for Lydia E. Pinkham's Vegetable Compound. She says:

Marquette, Wis.—"I was in a nervous condition and very irregular. My doctor advised an operation. My husband brought me one of your booklets and asked me to try Lydia E. Pinkham's Vegetable Compound. It overcame my weakness so that I now have a healthy baby girl after having been married nine years. I am glad to recommend your medicine, and I give all the credit to your medicine, and shall always recommend it highly."

Mrs. H. B. Janssen, Milston, Wis.

There are many, many such cases that were once childless, and are now blessed with healthy, happy children because Lydia E. Pinkham's Vegetable Compound has restored the mother to a strong and healthy condition, as it acts as a natural restorative for ailments as indicated by backache, irregularities, displacements, weakness and nervousness.

Women everywhere should remember that most of the common ailments of women are not the surgical ones—they are not caused by serious displacements or growths, although the symptoms may be the same, and that why so many apparently serious ailments readily yield to Lydia E. Pinkham's Vegetable Compound, as it acts as a natural restorative. It can be taken with perfect safety and often prevents serious troubles.

Therefore if you know of any woman who is suffering and has been unable to secure relief and is regretfully looking forward to a childless old age, ask her to try Lydia E. Pinkham's Vegetable Compound, as it has brought health and happiness into so many homes once desolate by illness and despair.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

100% PURE PAINT & VARNISHES

MARBLE-ITE

The Hard-Drying, Long-Wearing Floor Finish

"100% PURE" PAINT The paint for wear and weather.
SENOUR'S FLOOR PAINT It wears and wears and wears.
"VARNOLEUM" beautifies and preserves Oil Cloth and Linoleum.
"WOOD-LAC" STAIN Improves the new—renews the old.
"NEU-TONE" The sanitary, washable Flat Oil Paint for Interior Decoration.

Nothing adds so much to the beauty of a home as floors that are properly cared for; on the one hand, floors that are not protected are ugly and become injured through wear. Don't neglect your floors, beautify them and save them. Save the surface and you save.

MARBLE-ITE Floor Finish is the perfect treatment for floors of all kinds. It is the floor finish that has a money-back guarantee attached to every can.

In 24 hours MARBLE-ITE dries hard with a beautiful finish that will not show heel marks. It has a high gloss, yet is tough enough to stand washed with soap and water and it will not mar nor scratch white.

We invite you to call and discuss the method of beautifying and protecting your floors. We can give you full details regarding this or any other painting or varnishing problem. We have a complete stock of MARTIN-SENOUR Paints and Varnishes. For every purpose—for every surface.

Leg that Wouldn't Heal

"Ever since a boy of fourteen," writes Mr. John McDermott of West Springfield, Que. "I had trouble with a bad leg. I used many remedies. Though some appeared to heal the ulcer for a while, it always broke out again as soon as ever. This last time I suffered continuously for nine years, and the old remedy had absolutely no effect."

The trouble was in an awful state when someone advised me to get Zam-Buk right away. I had only used this famous ointment a few days when I began to see great improvement. So I continued the treatment, for even Zam-Buk could not cure it in a complete cure. However, I am glad to tell you that it was only by the aid of Zam-Buk that the leg was eventually thoroughly healed. Never a sign of the ulcer since."

Only Needed Zam-Buk

See how all dealers.

Fred Holman, of Ingonag, Pa., arrested on a charge of driving an automobile without a rear light during the night. The Magistrate that after purchasing a cow he roped it to the back of a truck and started home. Soon afterwards the animal kicked out the lights, according to the buyer. Ten dollars was added to the cost of the cow when the Magistrate imposed a fine.

S. A. LETTENEY

The New Light Six Studebaker

To offer a car of superior beauty is not sufficient with Studebaker engineers. It must also be "mechanically right." These features of the new Light Six insure its unflinching satisfaction: 1. Six cylinder, 40 Horsepower Engine; 3 1/8 in. x 4 1/2 in., bore and stroke. 2. Thermostat controlled cooling system. 3. Inclined Valves and the Internal Hot Spot—two original features of the Light Six. 4. Extra long Semi-elliptic springs. 5. 112-inch wheelbase. 6. Eighteen to twenty-two miles average test per Imperial gallon of petrol (gasoline).

Added to its mechanical qualities for endurance and economical service is the unsurpassed beauty and comfort afforded by the new Light Six. Consider these points: Mohair Velvet Plush Upholstering. Wide, deep seats providing ample roominess for the comfort of five passengers. Ventilator in cowl. Slanting Rain Vision Windshield. Beautiful finish and coach work. All cord tires, 32 x 4.

Winchester House Garage - Digby, Nova Scotia

Bear River Teacher

(Continued from Bear River Page)

lunate enough to obtain a position as senior teacher on the Stoney Plain staff. His certificate was obtained on Friday and he began teaching on the following Monday. So you see I have not lost any time in putting my normal training to good use.

The school here has five teachers and 140 pupils in Grades VII, 4 in Grade IX and 3 in Grade X, there being in all 21 pupils in my room. The total enrolment of the school is about 140. Of these about 80 come in every morning from Digby. The rest come from half to four miles. One chap rides his pony to school every morning, six miles, and home again after his work for the day is over. I wonder what some of the pupils in Bear River would think if they had to go that far to school? The reason for the pupils having to come so far is due to the fact that Stoney Plain is a Consolidated School District which comprises two smaller districts, which pay less and send their children here.

The people here are practically all of German descent, but must say that I have never seen a brighter set of pupils than I have in Grades IX and X. I have seven of this family going to school and five too young to start for some time. The youngest in this family are triplets six months old. You see this is not a case where the youngest "are" but where the youngest "are."

It is due to this fact, namely, the great number of children in the families and the few families in the district that taxes are so high. A tax of \$10.00 in support of a fair one for a section of 40 square miles. Here it runs as high as \$12.00 for some of the sections. I wonder what some of the people in this district would think if they had to pay \$12.00 for a section of 40 square miles. This district is the most heavily taxed one in Alberta. However we have a good school and an efficient staff of teachers, two of us being from Nova Scotia and the other three from Ontario.

The last week's edition of the Courier arrived this morning and it was because of the too good write up about me that I was prompted to write this. Trusting everybody is enjoying work and thinking the editor for the space this will take up. I will bring this to a speedy close and write again some other time.

Yours truly,
CARL E. CLARKE
Stony Plain, Alberta, April 25, 1921.

JOGGIN BRIDGE

Miss Blanche Woodman, who has been spending a week in Bear River visiting friends, returned home on Sunday.

Mr. and Mrs. Albert Rice and Mrs. Edward Alcorn of Bear River, were at Mrs. H. J. Woodman's on Sunday.

John McGuire is visiting his parents, Mr. and Mrs. John McGuire, of this place, after spending several years in the West.

Mrs. Fred Roop and Miss Violet Cossitt, visited Mrs. Ernest Dakin, Digby, one day recently.

Mr. and Mrs. Frank Baxter, of Digby, called on Mrs. Ellen Cossitt on Monday.

Mr. and Mrs. Leslie Titus and daughter Edie, of Crowville, were the guests of Mr. and Mrs. E. J. Woodman on Sunday.

Mr. and Mrs. O. F. Woodman and family, were at Bear River East on Sunday of last week.

A Quick Relief for Headache

A headache is frequently caused by badly digested food, the gases and acids resulting therefrom are absorbed by the blood which in turn irritates the nerves and causes painful symptoms called headache, neuralgia, rheumatism, etc. 15 to 30 drops of Mother's Relief Syrup will correct faulty digestion and afford relief.

WELCOME RELIEF FROM ECZEMA

Complete Treatment That Gives Gratifying Results

WASING, ONT.
"I had an attack of Weeping Eczema so bad that my clothes would be wet through at times."

Four months ago, I suffered terribly. I could get no relief until I tried "Fruit-a-Lives" and "Sootha-Salva."

Altogether, "I have used three boxes of "Sootha-Salva" and two of "Fruit-a-Lives," and am entirely well."

Both these favorite remedies are sold by dealers at 50c. a box, 6 for \$2.00, or sent on receipt of price by Fruit-a-Lives Limited, Ottawa.

News of Weymouth

Dr. L. W. Harner was a passenger to Yarmouth from Boston Friday morning and was met there by Mr. and Mrs. E. A. Hallett, and daughters, Mrs. Daisy, of Weymouth, and Mrs. (Dr.) Arthur, of Weymouth.

Dr. E. V. Harner arrived from Halifax Sunday morning. In company with his brother, Dr. Fred, and Louis Steinhilber, he left Sunday afternoon for New France on a fishing trip.

The dance held in the Green Lantern last Thursday netted \$15 for the Soldiers' memorial fund.

Mr. and Mrs. Arthur Ambrault, Mrs. Dennis Doucet and Miss Emma Doucet motored to Yarmouth on Wednesday, leaving on the evening train.

Dr. J. H. Rice and friend, Mr. Steele, returned to Halifax on Wednesday.

Mr. and Mrs. C. A. Ryan, arrived on Monday from Digby, having motored all the way. While in town they were the guests of Judge and Mrs. J. A. Grieson.

Dr. E. O. Hallett, Dr. Harner, Judge Grieson, C. E. Ryan and Arthur Banks left on Tuesday for a fishing trip to Lake Wentworth.

Miss Frances Austin who has been visiting her sister, Mrs. A. H. Brown, returned to her home in Smith's Cove, on Monday.

A. G. Harlow, accountant with The Becker Co. of Canada, Halifax, was in town a few days this week on business in connection with the Sillalug Pump and Power Co.

Mrs. Lincoln Downing, who has been visiting her mother, Mrs. Mary E. Grant, has been seriously ill, returned on Tuesday to her home in Malden.

Miss Celeste, Doucette who is recovering from a serious illness, arrived home on Tuesday to the residence of her mother. She was accompanied by her sister Miss Marguerite.

We regret to report James Wade laid up with a sore hand.

Fred McKinnon, of Waterville, Me. arrived on Tuesday and has joined his family, who are residing with Mrs. Helen Wade. Mrs. McKinnon's sister.

Rev. P. N. Dion will celebrate High Mass at Corbierie on Sunday next, weather permitting.

Jesse Cosman died after a lingering illness of several years duration at his late residence on Tuesday. His funeral was held at Danvers on Friday.

Mr. Paige, assistant Post Office Inspector, was in town for a few days this week.

Rice's Ice Cream Parlor and tea room was opened to the public on Wednesday.

Miss Adele Comen arrived on Tuesday to resume her position at Rice's Ice Cream Parlor.

Karl Elderkirk returned home from Boston on Friday.

Rev. P. N. Dion was a passenger to Digby on Saturday returning in the afternoon.

Arthur Hark returned on Friday from a trip to Liverpool, Port Clyde and other Southwestern points.

Miss Lucy Gaudet, left on Monday for Bath, Me., where she has accepted a position for the summer.

Everybody will be in Weymouth May 24th.

Geo. P. Comeau is finishing work on his residence which gives it a better appearance.

Cardinal O'Connell has given \$10,000 towards the Boston College \$2,000,000 campaign.

PRINCEDALE

John and Edgar Miller, of Moragville, visited their family in Princesdale on Sunday. Mr. Miller, we are sorry to report is confined to his bed with an attack of pleurisy.

Annie, Miller, has purchased a nice team horse from Bernard Clark of Bear River.

Quite a large number of relatives and friends from this place attended the funeral of the late Rev. Ira M. Baird at Chathamville on Friday, the 10th.

David Hamilton, with his two sisters from Greywood were Sunday visitors here.

William Hearn who was taken sick at Bear River last some time ago, was able to be moved home Friday. His sister, the nurse who has been caring for him, returned this week to take up her duties again at Crownsville State Hospital.

Edward Reid died Friday night, in his thirty-third year. He took to his bed only a week ago, and leaves a widow, two daughters and one son.

Announcement

The unveiling of the Weymouth Soldiers' Memorial in honor of those who served in the Great War and in memory of those who gave their lives, will take place on Tuesday afternoon, May 24th, at two o'clock.

Efforts are being made to have the Lions Club members of the town to attend to the ceremony.

The committee propose to have a Tag Day on the 24th, in order to secure sufficient funds to grade and improve the grounds surrounding the Monument.

Also the committee feel that every man, woman and child of Weymouth would like to subscribe something to this worthy cause, no matter how small the subscription may be and as the lists are to be closed on May 15th, all those who have not already done kindly hand in their subscription to either Dr. A. F. Hogan, Treasurer, or S. J. Killam, Secretary, on or before that date.

It is proposed to prepare a list of all subscribers to the fund and send same with the Register of Deeds for future reference and also for the future generation.

39-51 Weymouth, N. S., May 2nd, 1921.

DEER IS WITH THE LIONS

Steeplewakes Have Changed Victims in the recent death of a person, it is his cell as the result of a dream was by of pleasure. This dream was the dream of a person. There have been cases where a dream has proved a curse to the dreamer. This dreamer, to one who has dreamed of a person at the time of the dream, says:

Answer was the name of Robert, whose dream he had to his death. He was a man who had dreamed of a person at the time of the dream, says:

After a night's sleep, the dreamer had a dream of a person. He was a man who had dreamed of a person at the time of the dream, says:

After a night's sleep, the dreamer had a dream of a person. He was a man who had dreamed of a person at the time of the dream, says:

After a night's sleep, the dreamer had a dream of a person. He was a man who had dreamed of a person at the time of the dream, says:

THE RELIABLE REMEDY

EGYPTIAN LINIMENT

I have used Douglis' Egyptian Liniment for 2 years and find it gives me great satisfaction for pain and heat. I tried the liniment on 4 cubs during the winter for hump and sore and a simple tooth ache each case in 10 hours. I also find it good for many other rheumatism and lameness. (Signed) Allen Nichols, New Hamburg, Ont.

This Liniment will also stop bleeding at once and prevent blood poisoning.

SOLD BY ALL DEALERS. DOUGLIS & CO., Manufacturers, CANADA.

"The Blood Red Cross of the Brave St. George,
That Shines on a Field of White."

Your Red Cross Calls

Through the four long years of the War the Red Cross stood solidly behind your man in the trenches.

When he was sick it ministered to him. When he was distressed it comforted him. When he fell on the field, it bound up his wounds. When he returned to you, it tried to make his journey pleasant and helped you to bid him welcome.

Now in these days of peace this same Red Cross strives to make the Canada for which he fought, a better country to live in. It stands ready to fight against Disease and Death in Canada, as it fought in Flanders. It looks to you for aid, interest, and cooperation.

Here, in Nova Scotia, the Red Cross wishes to continue the work of Health Ministration and Health Education. It has undertaken broad and effective programmes that will not only lead to better physical well-being, but will in their progress and accomplishment make our communities better places to live in, brighten our lives, improve our national welfare, and help weld the people of our province into a brotherhood of common sympathies.

Its appeal at present is not for endowment funds (except the One Dollar annual fee) but rather for

AUTO TRIP

(Continued from page One)

over which the pioneers travel with ox-teams, drawing their supplies from north or south, which today should be linked up by a railway.

"Our speeding is not yet done, but we are obliged to go painfully slow at times, for it seems somebody had forgotten to connect up with the good piece. It is not, however, all plain sailing and fair dealing on this terrestrial ball. This applies to roads, as to other things.

Kempt Corner, thirty-three miles from Annapolis, and seven from Caledonia, is a familiar spot, and while our travelling companions have accepted the offer of our friend, Mr. K., to occupy his grounds for car and camp, the Scotch is hunting up his relations, and the chances are that he won't be back till morning.

It takes one's heart to know that this consanguinity (otherwise blood) is good. "Blood tells," and in Nova Scotia it tells on the right side, outside of this it is not necessary to be related in order to be housed and fed.

Once again our name goes down in the visitor's book: good-bye, and we are off, to find that the boys had spent another good night under canvas, with good neighbors in attendance. Breakfast, pack up and off. The country looks fine as we pass along; hay-making is in progress, the hum of the mowing machines sounds pleasant.

Harmony and Harmony Mills that grind the buckwheat and barley, reminding us of goodly pan-cakes.

Caledonia, where the hills are so "lovely, magnificent and great." A stop at the Corner for oil, a hasty greeting of a former acquaintance, then Brookfield, three miles away.

Whiz! Crack! Down she goes, with just enough room for that horse and wagon we are coming. Get out the tools and borrow some fence poles. Jack her up, apply the necessary medicine; (it's good to have efficient "car-doctors.")

Brookfield Corner, turn to the left, cross the Medway and up to the Locust Shade Farm. Our unexpected coming makes us no less welcome; there is much to say in a short time, and every fellow takes a hand. South now, through South Brookfield, passing the site of the first house, built in the northern district. Fine stretch of road, lovely views with "Pinchurst" amid the laket, from whose summit we trace the river on its way to Greenfield and the sea.

Twelve pleasant miles to Middlefield and Queens County Poor Farm; hay-making is in progress in this (new to us) seemingly prosperous locality; fair would we have met a former keeper and matron. Strangers are welcomed here, but we unexpectedly meet an acquaintance of Shelburne County moose hunting days. Vicissitudes of life are many; we contemplate this, as we move on toward Milton.

We find room for improvement on the south end of the road. Twelve o'clock, and the good old brook (where men and cattle have many times been refreshed) come right together. Stop—bring out the axe, make up a fire and hang out the pot.

These dry pine chips are all we need, and very soon we'll start to feed upon the good things brought from Clyde, and in the Fort will be the dinner.

Make up your mind indulgent reader that this is the way to live. Excessive civilization kills.

Down through Milton we tour, remembering a remunerative business formerly done; diversified industries now prevail. Manifestation of by-gone prosperity blend with present day activities.

Liverpool, which Haliburton said, was "the best-built town in Nova Scotia." So mote it be. Now, there are fewer minutes for embracing our kith and kin, or a shake with an old friend.

Then—Port Mouton. Pretty good road, pretty steep hills, which in cutting around is like the pot-bailer no longer crying down than it is when standing up. The site of an ancient tannery at Beech Hill brings to remembrance our forefathers tanning rustic shoes of good cowhide, that did with us so long abide. Neville's Canneries, with a Rockland job catering to the hungry workers, is evidently doing business.

Port Joli Station (in the old coaching days), where travelers were well housed and fed. Some of our fellow travelers have passed the last station.

The Bedford Construction Co., with all needful facilities, are making road from Port Joli, on through and west of Granite Village, which, it is expected, will be permanent and desirable.

On the last run, now, fifteen miles home. Then supper, and company leave us speeding to the west, thirty-five miles away.

E. HAYDEN.

Quebec has locked the front door of the bar-room, but the side entrance is still available for Ontario's thirsty souls.

COULD SING FOR JOY, SHE STATES

Sydney Woman Praises Tan-lao For Relieving Her Three Years Suffering.

"It's such a relief to be free from sick headaches and to feel really well that I could sing for joy," said Mrs. John Ross, of 43 Henry street, Sydney, N. S.

"For the past three years I have had so much sickness that I thought I should have to give up altogether. After every meal my food would sour and I would bloat up with gas until I nearly choked. I often had spells of biliousness and terrible headaches that kept me in bed for days at a time. I would toss about for hours at night unable to sleep, and it was often two or three in the morning before I could close my eyes. I became very much depressed about my condition, for although I tried nearly every medicine under the sun I could get no relief.

Then a few months ago I decided to give Tan-lao a trial. The very first bottle started me on the road to recovery and I've been progressing ever since. The depression left me and I began to brighten up. I could notice myself getting stronger every day, and now, after taking four bottles I am a perfectly well woman. My appetite is just splendid and I can eat anything I want and never have a touch of indigestion or biliousness. It is a rare thing for me to have a headache, and I sleep so soundly at night that I get up in the morning feeling as fresh as a daisy."

OLD CUSTOM REVIVED.

Happy Wedded Couple Gets Flitch of Bacon.

The concluding scene of a carnival held recently at lifted, one of the Essex dormitories of London, would have amazed anyone who came upon it by chance. A man and woman, seated in a big, old-fashioned chair, and bashfully smiling, were being carried to the altar, preceded by a brass band and attended by an enormous crowd, cheering and laughing. What would have puzzled the chance spectator most was the huge side of bacon, decorated with ribbons, which hung, suspended above the chair. If, in fact, was reviving the ancient custom so long associated with Dunmow of awarding a flitch of bacon to the happiest married couple that could be found locally.

The ceremony of "chairing" was preceded by a court for the trial of the claimants, and an audience of well over a thousand people extracted a good deal of amusement from the consideration of the question, "Is marriage a failure?" The most conspicuous object in the court was the flitch of bacon, which was to be given to the couple who could prove that they had lived together for a year and a day, and that they were married without wishing themselves unwed.

The married couples who claimed the flitch were seven in number. The husbands being school teacher, police constable, and sign-writer, and the ages between 39 and 40. They sat together in a box to the left of the judge, and gave no sign whatever that, in the language of the old police court reporter, they felt their position acutely. Opposite to them were the jury—six maidens and six youths—who were to decide which of them deserved the bacon. The judge wore the wig, scarlet and ermine, of the High Court of Justice. In the well of the court were the opposing counsel, for the claimants and the flitch, two for each male and female, the men in resplendent professional garb, and the girls in scarlet gowns and caps.

The proceedings gave rise to some excellent footling, the audience greatly appreciated. But perhaps the most remarkable thing that came to light was the question at issue, "Is marriage a failure?" is quite a mediæval antiquity. It was stated that the first record of the award of the Dunmow Flitch was in 1445. That was before the Wars of the Roses. But the custom was established by the tenure of the Manor of Dunmow so long ago as 1244. It did not come out why Dunmow gave up the custom, whether it got tired of it after so many centuries, or what is more likely, was alarmed by the death of bacon in its price.

The cases of the claimants were heard in turn. Written testimonials of friends to their married happiness were first read; they then submitted themselves to examination and cross-examination; and finally there were addresses by counsel to the jury and the summing up of the judge. The jury deliberated in their box, and awarded the flitch to Mr. W. Gray, of East Ham, who had been married for 17 years and have three children. The flitch was used for this purpose at Dunmow from time immemorial, and the following ancient declaration was administered to them by the judge:

You shall state by Custom of Confession,
That you never made nuptial transgression;
Nor since you were married man and wife
By household brawls or contentions
strife.

Or otherwise at bed or at board
Offended each other in deed or word,
Or in Twelvemonth and a Day
Repented not in thought any way,
Or since the parish clerk said Amen
Washed yourselves unmarried again;
But continued true and in desire
As when you joined hand in holy Quire.

They were then chaired round the grounds, which were packed with people.

When the Arsenal Road Bunnies, who were engaged in turning out British war medals at the rate of about seventy thousand a week, had served many other strange purposes since its inauguration just over two hundred years ago. Originally it was a royal rabbit warren, where bunnies were bred for the King's table; and for the first century of its existence it was actually known as "the Warren."

Its official name, however, was the Royal Brass Foundry, and here cannon-balls made from this metal or one of its alloys were cast for the heavy array.

There was not enough of this kind of work, however, to keep it going; and small wonder, seeing that in the beginning 45,000 was all that Parliament would allow for a whole year's output of big guns.

So, in order that the workmen should not remain idle, the works of brass objects and fittings for the public services were made there, including the wheels and kettles for the fleet, and brass buttons of all kinds for the army.

Very large quantities of hempen cordage were also manufactured, and some fluff from this catching fire led, over a century ago, to an outbreak which nearly destroyed the whole arsenal, the damage being estimated at over £200,000.—Pearson's.

Indigo dye was always made from the juice of the indigo plant until the Germans discovered a way of making it synthetically. English manufacturers of serge have recently been testing the natural and the artificial dyes, with the result that the natural gives a depth of color from 5 to 20 per cent. superior to the artificial. H. E. Armstrong, an authority on dyes, says the German process does not make indigo, but only one of the constituents of indigo, called indigotin.

A girl takes a fellow for better or worse, and then gets mad the very first time he attempts to come home a little the worse.

MUSIC AND ITS HISTORY

The relations between music and poetry is a close one, for poetry came from music. Poetry is the rhythm of music put into words. Dance came from music too; the ancients could not resist the rhythm of it, and they swayed their bodies to and fro, because the music was stronger than they were. Their first music was the wind whistling in the trees, and the monotonous, steady roll of the surf on the beach. They tried to imitate those sounds.

At first musical instruments were very crude but they kept improving through the centuries, until now there are great symphony orchestras with every musical instrument in the world lending its music to help bring out a wonderful ensemble. Music is a thing that is with us all our lives but we cannot lose it. One day I found a paragraph on music. I have forgotten where.

"Servant and Master am I, servant of those dead and master of those living. I am the incense upon which prayers float to Heaven. I am the smoke which rests over the fields where men lie dying with on their lips. I am close to the marriage altar and when the grave opens I stand nearby. One I serve as I serve all, and the King I make my slave as easily as I subject his servant. I speak through the birds of the air, the insects of the field, the crash of waters on rocky shores, the sighing of the wind in the trees, and I am even heard by the soul that knows me in the clatter of wheels on city streets. I know no brother, yet all men are my brothers. I am the father of the best that is in them, and they are the fathers of the best that is in me. I am of them and they are of me."

"The music of nature," has the sound but sometimes lacks the rhythm of music. As instrumental music can hold both the sound and the rhythm we think more often of music only as we hear it on an instrument. Yet in six out of ten pieces of music we are trying to imitate the wind or the ocean. In the wind and the water, music begins, and ends there.

When a great artist plays, the

more we can hear what he is trying to give us, the more brilliant a pianist he is considered. When Gaborovich plays the Rabinmannoff Prelude in G minor, we hear the tramp of the great army that the Russian peasants dream of. At first it is far away, coming closer and closer, then it stops suddenly, and a plaintive melody takes up the piece. The song grows wilder, for the peasants become excited; and then softly, far away, comes the march of the army. It comes nearer and nearer—the peasant's dream breaks, for the great army that they dream of will never come to free them, except in their dreams. And this is Music, portraying thought and life itself.

DIATRICE CANTWELL, Senior IV.

AMENDMENT TO DAIRY ACT

Carrying out the unanimous request of the Nova Scotia Dairy-men's Association at its last annual meeting, a Bill has been introduced in the Provincial Legislature to amend the Dairy Legislation hitherto in force. If the amendment is passed it will require all creameries in the Province to grade the cream received and to pay for it according to grade, beginning with the spring of 1922.

Under the present system, although our creamery is the very best and equipped in most cases of high order, the butter production often loses first place in competition through out flavor. This is mainly due to the fact that all kept in cream is delivered at the creameries by farmers. In other words, it is quite impossible to make the best butter without good cream. There is a manifest unfairness in this. The careful farmer who delivers an A-1 grade is penalized indirectly by the careless one who delivers a poor grade.

Some of the creameries have already adopted a sliding scale of prices, paying more per lb. of butter fat for the good than for the poor grades.

The Bill, if passed and put in force, calls for a uniform grade all over the province. The tendency of a considerably higher price for sweet cream will be to induce every patron to do his best to deliver that quality. This would make possible a uniformly first class butter from the whole Province, with an established reputation, which would compete with the best in any market of the world.

STEELE BRIGGS SEED CO. LIMITED, TORONTO, ONTARIO

NOVA SCOTIA CROP PROSPECTS

Returning from a brief business trip through the Western Counties, the Secretary for Agriculture states that whatever the rest of Nova Scotia may do the Annapolis Valley is going in for big production this year.

It is too early to make predictions regarding the apple crop, although conditions are so far so favorable. As an indication of farming intentions along other lines, however, the Secretary states that he is informed by those who know that the shipment of fertilizer into that district is 50 per cent in excess of last year's at the corresponding date. There is no more reliable criterion of the possible production next fall than the amount of fertilizers purchased.

Conditions in other parts of the Province are more difficult to sum up. Activity in the purchase of seeds and fertilizers, however, has become much greater than was anticipated a month or more ago, due to crop and market prospects, there are certain factors which should be kept in mind by Nova Scotia farmers. Recent reports indicate failures in the Southern States' potato crop. The large potato growing districts of New Brunswick and other parts of Canada have already determined to reduce their acreage. These facts would seem to afford good reason for Nova Scotia farmers planting at least the usual amount of this crop.

With respect to grain, it is hardly necessary to state that whatever the Western harvest may be, transportation rates are so high that imported grain feeds are sure to remain at a pretty high level. The wise policy is to produce all possible grain and other feeds.

Peter Denicks, a Denver restaurant man, who died recently, left \$20,000 as a fund with which to provide poor girls in his native province of Greece, with dowries.

FOOD ON A GIANT LINER

When the giant liner Olympic made her trip from Halifax to Liverpool and return with troops during the war with such regularity as to be known as "The Ferry," many thousands of dollars were spent in Halifax purchasing supplies. There were thousands to be fed on board, as for instance, on the trip which she had over 6,000 troops she remained for four days in Bedford Basin until given orders to depart as well as being six days on the voyage. This meant supplies for 10 days, and with her crew practically bringing the total on board to 7,000, which meant 210,000 meals for the voyage. Now that she has been restored to her place as a regular liner, it will be interesting to quote from an article in the New York Times which says: "6,000 pounds of meat are eaten in a single day on a voyage aboard the Olympic in a busy season. The ship carries 3,500 persons on each trip across the ocean, including her crew of 579. This 6,000 pounds does not take into account the consumption of chickens, which averages 500 a day; nor ducks, geese and turkeys; nor 1,000 game birds eaten on each voyage; nor fish, the latter averaging 3,000 pounds a day."

In addition to these staples, the people on board manage to dispose of 4,000 eggs daily and 480 quarts of milk. Every day, however, the ship carries 3,000 pounds of potatoes. Butter is consumed at the rate 200 pounds a day, and 2,700 jars of jam and 1,900 jars of marmalade disappear on the voyage like dew before the rising sun. For each round trip, twenty-five tons of potatoes are taken aboard.

Three tons of carrots, three tons of turnips, 2,500 heads of cabbage, weighing five tons, are also taken aboard for every voyage. A hundred crates of lettuce, a ton of Brussels sprouts, are ordinary items in the ship's victualling list. When apples are ordered, 250 boxes of them come on board. The trip carries some 100 boxes of apples at a time and oranges in 200 box lots.

Included in the meat item of provisions for the voyage are 8,000 pounds of bacon and 2,500 pounds of ham, which are the principal meats carried. Lamb and mutton figure largely in the fresh meat supply, about 300 carcasses being taken aboard.

But the great staple in meat is beef. It may be said that the public when crossing the ocean travels on beef. It demands meat three times a day. Whether the voyager occupies a first, second or third cabin, he must have his meat. It is served on the table as sirloin steak, rib roast or fillet mignon in the first class dining room or as plain roast beef in the second class, or beef stew or baked beef in the third, it is the best quality of beef that money can buy—the complete response to the "hot horse" served on the old-time sea voyages.

The roast beef alone for a single day on the Olympic totals 1,500 pounds. The condition of the food served at sea on the great liner is always prime. Refrigerators that have a capacity for 5,000 tons of food are freshly filled for each voyage, and they keep everything put into them in perfect condition. Milk and cream are kept sweet for a week's voyage without the use of preservatives. Lettuce is as crisp after travelling 3,000 miles as when received on board. Fruit also keeps for long periods. Ice, to supply the refrigerator, is made daily—the amount required being 3,000 pounds every twenty-four hours.

FERTILIZER AFTER PLANTING

The high prices prevailing last winter for commercial fertilizers discouraged many farmers from placing their orders. Now that prices have materially declined, buying has become, quite brisk. It is quite probable, however, the circumstances that would be purchased now will be unable to get delivery before planting or seeding.

The same conditions were true of the United States. Agricultural journals there have lately been advising farmers that if they are unable to secure supplies in time for planting they should go on putting in the crops, because, especially in the case of food crops, such as potatoes and turnips, an application of fertilizer cultivated in between the rows will give as good, and sometimes even better results than if applied before planting.

In the case of grain and grass lands a top dressing of fertilizer will also give good results after seeding. The main point is that it should not be lost in spring planting or seeding for lack of fertilizer, because it can be secured and applied with good effect later on.

FUR FARMING OUTLOOK IN CANADA

What The Commission of Conservation Have to Say Regarding The Raising in Captivity of Various Fur Bearing Animals. General Position of Fur Farming Industry.

As many of our readers in Digby and throughout Digby county are interested in "fox farming," the following article taken from "Conservation," a monthly bulletin published by the Commission of Conservation, Ottawa, will probably prove of interest.

FUR FARMING IN CANADA

THE GENERAL OUTLOOK.—The Commission of Conservation repeatedly in its reports, inquires from correspondents regarding the raising in captivity of various fur-bearing animals. The following words will not be out of place, therefore, on the general position in the fur farming industry.

About 90 per cent of the fur farmers of Canada are fox farmers. To be more precise, there are some 500 odd fox ranches in the Dominion and barely 50 raccoon ranches. It is evident, therefore, that the time, "fox farming," is practically synonymous with fur farming.

The reason for this is, not far to seek. The silver black fox, provided it is of superior quality, is the highest priced fur in the fur market today. Even the famous Russian sable is lower in price per skin and the almost extinct sea mink has not exceeded the highest priced silver fox in value. Although prices have declined considerably since the peak of March, 1920, they are still remunerative and there is a general feeling that they have now reached a stable basis. A single fox skin is worth as much as the skins of, say, 50 to 100 muskrats. The bulk of food and care required by a single skunk is almost as great as that necessary for a fox. So that although the live fox represents a much heavier investment of capital and therefore of overhead charges, it is far better paying proposition to raise fox than to raise skunk or any other low priced peltries.

Fox ranching is now a well established industry. Though practically all pure bred foxes are raised on Island, it is now represented in all the provinces and in the northern States. There is a Canadian Silver Fox Breeders' Association, with headquarters at Summerside, P. E. I., and pure bred foxes are registered. Like any other domestic animals, in the National Live Stock Records, at Ottawa. Last year a large live silver fox exhibition was held at Montreal, a magazine specially devoted to the industry is published in New York, the Health of Animals Branch has its experts investigating vulpine diseases which is known of the fox's needs and habits and good systems of feeding; management of ranching has been worked out to direct and ranching is past the experimental stage and has taken rank as a recognized branch of live stock industry.

The muskrat was the first fur-bearing animal to be raised for its fur on this continent. "Forest and Stream," in 1874, published descriptions of "minkeries" which were in successful operation at that early date. It is rather strange that the muskrat industry has not developed to a greater extent. It is doubtful if there are as many as 20 muskrat ranches in Canada at the present day. Some of these, however, have been in existence long enough to demonstrate the feasibility of raising muskrats both successfully and profitably.

Muskies are not kept in captivity, but some persons own or lease marshes to which they monopolize the trapping privileges. In the care they give the animals to trap their natural enemies and perhaps to supply some extra food in times of emergency or to plant aquatic herbs to increase the natural food supply.

Skunks and raccoons can be easily raised, but they are big eaters and the value of their skins is not high enough to pay for their keep in most cases. The badger skin, which is the skin known as "badger" and can be successfully raised in Canada. A few specimens have been imported from Nebraska and fairly satisfactory crops have been made with long-tongued sheep like the Cotswold, Lincoln, and Leicester breeds. Pure bred badgers are naturally, very difficult to fatten. Martens and fishers are not difficult to keep in confinement but show a decided disinclination to breed. Further experiments may overcome this difficulty. Much

these valuable fur-bearers will, like the silver fox, be added to our domestic animals. The logical way to rear beavers is in game sanctuaries; keeping them in small enclosures is impracticable. Badgers seem to have experimented with others. Rabbits are prolific and easily raised, but do not yield sufficiently valuable fur. It may be stated generally that foxes, though after Karakul sheep are the only fur-bearers now being raised in captivity which are "worth while" from a business point of view.

THE DOUBLE FORCE.

Much has been said of the power of money. Its sway is recognized to move mountains and change rivers. There is another force, however, whose strength may possibly surpass even that of the dollar. This force is public opinion. One sees on all sides evidence of the clamor for its approval and the huge sum to trap its support. It is recognized as a power in commerce, it is known as a spur to production and it is undoubtedly the basis of the present system of politics.

It is evident then that could these two forces be harnessed and used cooperatively there would be no limit to what they might accomplish. Contemplation of such a proposition led the members of the Red Cross of Canada at the present time. The Red Cross faces a national task—that of improving the national health of our country, and it must have a national impetus behind it. Its work in the war the question of popular support never became the question. No one dared criticize the work or aims of the Red Cross and money came in freely in the form of huge endowments for the work of building up the wounds in France and Flanders. To-day, however, the Red Cross would bind up the Canada's own private wounds sustained in daily life, and make impossible their recurrence.

For this reason the present membership campaign is a two-fold affair. Its aim is to interest every man, woman and child from Halifax to Victoria in his own or her own improvement and bettering of living conditions or in other words, the creation of a nation-wide army of Red Cross workers, each fired by the spirit of the first bearer of the symbol, and secondly, by issuing to every citizen a membership in a local organization at a nominal fee, to raise the necessary capital to carry on the projected work.

The Rev. Philetus Beverley of Burlington, Kan., has just been given a renewed license to preach by the local Methodist Conference. The license is 194 years old, but without raises a Sunday in the pulpit.

Warm Store A Cold Draft

The man or woman behind the counter is in constant danger of contracting colds. An overheated store, and the drafts from the continually opening doors—that's what causes it.

SHARP'S BALSAM

of Turbentine and Anise Seed

A winter health preserver for families who are the true, reliable remedy for all such conditions.

It cures instantly remedies influenza, colds, and affords quick and grateful relief in rheumatism, earache, toothache, completely curing the condition.

The popular cold remedy for 70 years. At all drug and general stores, 25c. The Canadian Drug Co., Limited, ST. JOHN, N.B.

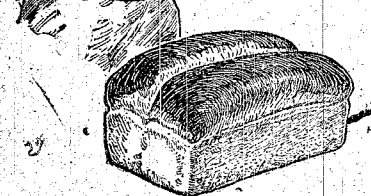

Not Water---Milk!

To mix Dan-Dee with water would be false economy! It would be no so important to bring baby up on this bread alone.

Dan-Dee toast night, lose some of its sweet flavor—and the baby way be degree less tempting—no matter how high milk soars—Dan-Dee will be mixed with milk!

Moir's Ltd. Halifax

Your grocer has it, or can get it. Made by the makers of Moir's Chocolates.

RAINCOATS

This is the season of the year when a raincoat is a necessity. The weather is so changeable, you can never tell when it is safe to go without one. Our spring stock is the best and largest ever seen in this county and we can suit everyone—tall or short, stout or thin—and without making too big a hole in his pocket book.

CATHOLIC.
Father Mackey will hold services in the Chapel the first Sunday in each month.

The first river tunnel constructed in America was completed in Chicago in 1868.

DROVE OVER THE BRIDGE

An accident which might have proved very serious, if not fatal, for Mr. MacFarlane a member of the travelling fraternity with headquarters in St. John, and representing a local Grocery House, caused a little sensation in the peacefulness of our town when on Friday of last week while coming round the head of the tide his automobile (a Ford by the way) by some unfortunate mistake was backed over the embankment, taking away with it part of the railing that served as a safe guard to that part of the town, and fell a distance of about 12 feet turning in its sudden descent almost a somersault. Fortunately for Mr. MacFarlane who was driving the car and who was the sole occupant, the fall was fairly high at the time so he escaped without a bruise, but a bad shaking up. He was wet through with his unexpected dip in the water. The automobile after being hoisted up from out of the water was driven by its own power to the Hotel where the owner was waiting, and resting after his surprising experience whilst his clothes were being dried. Imagine the great surprise when the owner of the car again took charge of his wonderful automobile, and drove it into Digby that same afternoon under its own power. After such an experience who would despise driving a Ford Car on a Friday, the 13th day of the month, certainly luck must have been with our travelling friend after escaping such an accident without practically a scratch to show.

The shortest reign of an English monarch was that of Lady Jane Grey in 1553. She was queen for nine days.

PERSONAL MENTION

Mrs. Goodway was "at home" Wednesday.

Miss Byard, of St. John is visiting Mrs. Goodway here.

Mrs. Wignall is going to Boston for medical treatment.

Viola Wright returned from Yarmouth after visiting her friend, Miss Miller.

W. G. Clarke and A. C. MacIntyre left for Halifax on Tuesday returning Thursday.

John B. Roberts, of Montclair, N. J., arrived from New York on Thursday for a few days stay.

Mrs. and Mrs. Percy Spear arrived home from Boston to spend the summer with his parents.

Mrs. F. W. Fraser and little son arrived from St. John on Monday to spend a week at her home.

Mrs. L. J. Lovett returned on Wednesday from a pleasant visit with her daughter, Mrs. W. D. Sutherland, in Lockport.

Last Thursday afternoon Mrs. Reginald Spear, Mrs. Fred Harris, Miss Blanche Purdy and Miss Alice Rice motored to Annapolis.

Mrs. Reeves, of Port Mulgrave, who has been spending several days in town, the guest of Mrs. R. A. Harris, left for home on Tuesday.

Mrs. Charles Dunn arrived home from Antigonish, N. S., where she spent the winter with her daughter, Mrs. James Brown.

Mr. and Mrs. Theodore Brown and little daughter are expected to arrive from New York today, and will reside for the summer in Capt. Roop's home.

Miss McDougall, Provincial Secretary of the Women's Institute for Nova Scotia, will be present at the next meeting to be held on June 6th.

Karl Schmidt entertained a number of his young friends on Monday evening, the occasion being the celebration of his sixteenth birthday. A very enjoyable time was spent in games and music. Delicious refreshments were served.

The following arrivals registered at the Commercial House: A. C. Bailey, B. D. Singley, St. John, W. H. Mulcahy, Geo. Bowser, Halifax; Mr. and Mrs. Geo. R. Hill, Mr. J. E. Seaman, Miss Emmeline Seaman, Bridgetown; Jos. Birney, Queens; Jack Learmont, Truro; M. B. Cunningham, Lunenburg; Digby; Miss Sue E. Troop, Rupert Troop, Grandville Centre; Clifford Wright, Hamilton; James W. Doherty, Boston.

The following arrivals registered at the Grand Central House: Ross J. Berringer, A. G. Fidler, Thomas Hunt, L. Williams, C. Shields, Halifax; W. B. Major, W. E. Sharpe, Toronto; Geo. F. Hanson, Montreal; Geo. H. Hawkesworth, Annapolis; Capt. D. E. Cheney and wife, Little River; Robert Smith, Lake Jolly; J. B. Roberts, New York; J. M. Cross, Kentville; C. J. Teaton, Hantsport; P. A. Gamble, H. T. Williams, J. Morgan, F. C. Pleysh, H. MacFarlane, P. Smart, J. B. Adams, John B. Colman, Windsor; E. J. Stephenson, Montreal; F. W. Parker, Boston.

Goods Delivered Through Smith's Cove

Local and General

The Vadare is on the docks undergoing repairs.

S. S. Bear River is off the coast this week, undergoing some necessary repairs.

C. W. Phinney has sold his hardware business to John Freeman, of Lansdowne.

The Methodist Ladies Aid Society met on Thursday afternoon at the garage.

The Baptist circle met with Mrs. Oebra Rice on Tuesday evening of this week.

The community song held by the B. Y. P. U. on Friday last, was greatly enjoyed by all present.

Schooner Valdire cleared on Monday for Digby. She will there load lumber for H. A. Wane, to be carried to New York.

An interesting meeting of the Methodist W. M. S. Assembly was held last Friday afternoon, at the home of Mrs. E. E. Tupper.

On Thursday of last week W. G. Clark, A. G. MacIntyre and John B. Roberts, left for a few days fishing trip to the Digby Lake, Miramichi.

The new drive across the river was opened for the first time on Monday, to allow the schooner Nova to pass without having to make a detour.

Monday the Pita Rebekah Lodge held their regular meeting, conferring the degree on two candidates. Members were present from Zeta Lodge at Digby.

The close of the evening social hour was spent when refreshments were served.

The service in the Methodist church last Sunday evening was particularly inspiring. The pastor, Rev. W. J. Wright, preached a very helpful and practical sermon to the young converts, taking as his text, "Learn to do well."

At the conclusion of the service, a social hour was held, and refreshments were served.

On Saturday the first two coals of pulp were put through the digester at the pulp mill. The mill is now ready to run continuously, and the first eight shifts will be employed. Already the large reserves of pulp-wood which have been accumulated during the winter are being ratted down river, and will soon be put on the market in their manufactured state. The total output of the mill has been approximately \$1,500,000, and this figure also represents the value of the annual production.

Catarah
Catarah is a local disease greatly influenced by constitutional conditions. HALL'S CATARH CURE is a Tonic and Blood Purifier. By cleansing the blood and restoring the system, HALL'S CATARH CURE restores normal health. Circulars free. P. J. Cleary & Co., Toledo, Ohio.

BEAR RIVER'S FORWARD CLIMATE

A trip through the Annapolis Valley at this time of the year would lead one to press one into the arms of the climate. Bear River possesses in its climate, perhaps all or parts of the valley.

Perhaps all of our own residents do not realize that our climate is at least two weeks earlier than that of the average community throughout the valley.

Last Saturday in Kentville a citizen seemed quite proud of the fact that he had a cherry tree in blossom. To find that a cherry tree in blossom in Kentville was reached by the same time in Bear River was a matter of course.

Continued to Bridgetown and there only a faintest coloring was apparent, while in our own town there were quantities of trees showing signs of budding. All ready to burst into full bloom.

Not in this forwardness continued by the trees and plants. Some of the gardeners have been producing rhubarb and the open for the past month. For the past two or three weeks.

Local gardeners would take full advantage of the great early season, and in their early planting, there is no doubt but that excellent returns could be secured from the city market.

It is always eager to pay good prices for the "first-of-the-season" products.

Obituary

MRS. THOMAS HATTON

Her many friends in Bear River were pained to hear of the death of Mrs. Thomas Hatton, which took place on Tuesday, May 17th, at her home in Annapolis, after a few months illness.

LOUISE BANCROFT

Mr. and Mrs. Aubrey Bancroft, of Antigonish, were very sorry to hear of the death of their daughter, Louise, which took place last night of spinal meningitis.

MRS. SETH WADDE

Death has again visited our village, taking from it one of our most honoured and esteemed residents. The late Cynthia Wade, widow of the late Seth Wade, passed peacefully to her rest on Monday morning, May 16th, after an illness of five months which she bore with Christian fortitude and with a great longing to depart and be with Christ and the loved ones who have preceded her.

She was the daughter of the late George D. Dyer of this place. She had been a consistent member of the Baptist church for sixty-two years, always a zealous worker for her denomination, united with the church during the pastorate of the late Joshua Cogswell. Her name was known as "Grandma" and was always smiling and cheerful. She leaves to mourn her loss one son, George A. Wade, one daughter, Mrs. C. A. Wade, and grandchildren and ten great-grandchildren. The funeral service which was held at her home on Tuesday morning, May 17th, was held in the presence of a large number of friends. Her good work will follow her to the Bridge-town Monitor please copy.

THE MISERY OF BACKACHE

Removed by Lydia E. Pinkham's Vegetable Compound

Meaford, Ont. "I took Lydia E. Pinkham's Vegetable Compound and it had a female touch. I felt done and nervous, and was without energy. I had to force myself to do my work, and was always tired. I saved a Pinkham's Compound, and my back gradually stopped aching and I felt lighter in spirit. I am recommending the Vegetable Compound with pleasure to all I meet who complain of a 'backache'."—Miriam Brock, Meaford, Ont.

Woman's Precious Gift

The one which she should most carefully guard is her health, but she neglects to do so in season until some ailment peculiar to her sex has fastened itself upon her. When upon her women may rely upon Lydia E. Pinkham's Vegetable Compound, a remedy that has been wonderfully successful in restoring health to suffering women.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Get Ready for Spring Farm Work

You will want some new tools this season, or, if not your old ones will need repair. I carry all of the celebrated Best & Wood products, and just now can make quick delivery of Ploughs, Harrows, Cultivators, etc.

Parts furnished for any Best & Wood machine.

VETERAN LASTER

C. W. Danforth is nearing 73
And a Crackerjack at
Sorrisia Factory.

(Brooklyn, Mass., Times, April 20)

Standing up to the jack and lasing
shoes that must be lased right by hand
every workday, is a regular thing for
Charles W. Danforth at the A. E. Little
Co's Brooklyn Sorrisia factory. Mr.
Danforth will be 73 Nov. 26 next. May-
be he is the veteran of all lasters in actual
daily employment in Brooklyn factory of the
South Shore in actual work at the
bench. He began lasing shoes more than
half a century ago. He is married and
lives at 26 Spring street. Years ago he
was one of the best known cross-country
riders of the Shoe City Wheelmen and
was captain of the old crew of scorches
of that club several years.

"Cap" Danforth carries his title for
another reason. He is skipper of his own
sloop, the Algon, which is moored down
in Digby, from which port he sails during
summer months of pleasure cruises with
his wife. "Cap," as a young man, was a
member of a lasing team of which his
father, the late Stephen B. Danforth of
Haverhill, was the chief. They lased
Haverhill shoes. In those days there were
no factories. The work was taken home.
Their home then was on Jones street
near Washington square, the center of the
factory district now in Haverhill.

"Cap" also lased shoes in places near
Haverhill, in the Hannon factory in Brook-
lyn, in Cincinnati and Philadelphia years
ago. He was in the navy for years in the
Stacy-Adams Co., lasing "up" by hand.
He was lasing at the R. B. Grover Co.
the morning of the Boston explosion, and
fire March 20, 1905. Of late he has been
with the Little Co. and is lasing special
order shoes by hand. He has two brothers,
Edward and Frank, engaged in shoe-
making in Haverhill, and a sister, Alice
Danforth, is a forewoman in a Haverhill
sitting room. She was employed at
one time by the W. L. Douglas Shoe Co.
"Cap" was born in Groveland, near
Haverhill.

Mrs. Helen Wilson was taken to Hal-
ifax Sunday night by the night train to
undergo an operation at the Victoria
General Hospital. She was accompanied
by Mrs. Reta Sprague who returned on
Wednesday.

Mrs. William Shaw is spending a few
days in Yarmouth.

Mrs. F. E. Anderson arrived home from
Edmonton last Thursday.

L. W. Winchester went to Halifax last
Thursday evening.

Dr. T. H. MacDonald, of New Glasgow,
has been spending a few days with Mr.
and Mrs. C. A. Van.

Mrs. Eber Turnbull is in St. John this
week.

Roy Wynne left today for his home
in Lunenburg to spend a few weeks.

A. S. Hawker, superintendent of the
Bay service, was in town yesterday.

Mrs. and Mrs. H. Short arrived home
on Tuesday.

Mr. and Mrs. F. W. Nichols left on
Monday on a trip to Montreal.

Mrs. J. Morchison went to Sandy
Cove on Wednesday.

Fred McKay, of Rossburg, has been
spending a few days in Annapolis this
week.

Mrs. Robert S. Alexander and Miss
Maud Wallis, with little Sister Alexander,
of Yarmouth, visited their brother, J. J.
Wallis, over the week-end.

W. C. Jones, customs officer at Clen-
tontown, spent Sunday in Bridgetown,
the guest of Mr. and Mrs. W. V. Jones.
He was accompanied by Mrs.
Jones, who had been the guest of her sis-
ter in Bellefleur.

Hon. McCallum Grant, Lieutenant
Governor of Nova Scotia, was born in
Hants county 70 years ago Tuesday.

Middleton Outlook—Frank S. Lent, of
Freepoint, was the guest on Tuesday
and Wednesday last week of his daughter,
Mrs. H. B. Reagh. He was going to
Halifax to attend the closing exercises of
Dalhousie University, at which institution
his son, Frederick H., has graduated in
Dental Surgery.

Chas. B. Dunham, of Barton, spent
the week-end with his brother, O. S.
Dunham, Bridgetown.

Miss Alice McCullough went to Windsor
on Thursday to attend the Kings' Banquet.

Harry Turnbull is visiting his parents,
Mr. and Mrs. John O. Turnbull, Light-
house Road.

Mr. and Mrs. S. S. Aymer are spend-
ing the week in St. John.

Mrs. Edw. Blackford, of Tiverton, was
in town this week on her way to York's
Cove to visit her mother who is teach-
ing there. While here she was the guest
of Mrs. Geo. E. Torrie.

Fred Munn returned home from Water-
town, Mass., on Tuesday.

Miss Lottie Theriault and friend, Miss
Dunlop, spent the week end at
Bloomfield.

George Comeau was a passenger to St.
John on Tuesday.

R. D. Russell, who has been spending
some months in Halifax, returned to Dig-
by this week and has taken a position
with P. W. Holdsworth.

Mr. and Mrs. Frank Sweet, of Mar-
blehead, Mass., have arrived for the summer.
They are for a few days, guests of Mrs.
William Snow before opening up their
summer cottage.

Miss Sadie McLean, of Yarmouth,
spent the week-end with her friend, Miss
Constance Woodman.

Mrs. Samuel Woodman has been visit-
ing Mrs. John Murley, Acadiaville, this
week.

PERSONAL MENTION

Rev. Clyde W. Robbins, a former pastor
of the Digby Baptist Church and now
stationed in Dorchester, Mass., has been
called to Bridgetown to succeed Rev. M.
S. Richardson. His answer has not yet
been received.

Boyd E. Plang, tutor, was a passenger
to Annapolis on Monday, to attend to
some orders in that vicinity. He will be
back to town again to assume his business
there about the 25th.

Mr. and Mrs. H. W. B. Warner and
daughter, were in town on Tuesday.

Jeffrey Veno, of Bear River, was on
Monday a passenger to St. John where he
will be employed.

Mrs. Wallace Handspiker and little
daughter, Gwen, who have been visit-
ing her sister Mrs. Chas. Mount, at
Acadiaville, the past week, returned to
their home in Colwell on Tuesday.

Mrs. Helen Wilson was taken to Hal-
ifax Sunday night by the night train to
undergo an operation at the Victoria
General Hospital. She was accompanied
by Mrs. Reta Sprague who returned on
Wednesday.

Mrs. William Shaw is spending a few
days in Yarmouth.

Mrs. F. E. Anderson arrived home from
Edmonton last Thursday.

L. W. Winchester went to Halifax last
Thursday evening.

Dr. T. H. MacDonald, of New Glasgow,
has been spending a few days with Mr.
and Mrs. C. A. Van.

Mrs. Eber Turnbull is in St. John this
week.

Roy Wynne left today for his home
in Lunenburg to spend a few weeks.

A. S. Hawker, superintendent of the
Bay service, was in town yesterday.

Mrs. and Mrs. H. Short arrived home
on Tuesday.

Mr. and Mrs. F. W. Nichols left on
Monday on a trip to Montreal.

Mrs. J. Morchison went to Sandy
Cove on Wednesday.

Fred McKay, of Rossburg, has been
spending a few days in Annapolis this
week.

Mrs. Robert S. Alexander and Miss
Maud Wallis, with little Sister Alexander,
of Yarmouth, visited their brother, J. J.
Wallis, over the week-end.

W. C. Jones, customs officer at Clen-
tontown, spent Sunday in Bridgetown,
the guest of Mr. and Mrs. W. V. Jones.
He was accompanied by Mrs.
Jones, who had been the guest of her sis-
ter in Bellefleur.

Hon. McCallum Grant, Lieutenant
Governor of Nova Scotia, was born in
Hants county 70 years ago Tuesday.

ing Mrs. John Murley, Acadiaville, this
week.

Mrs. Eber Turnbull is in St. John this
week.

Roy Wynne left today for his home
in Lunenburg to spend a few weeks.

BELLE ISLE

May 12th.
Miss Francis Troop, stenographer, for
Mr. W. Graves and Co., Bridgetown, spent
Sunday with her parents Mr. and Mrs.
Hugh A. Troop.

Dr. and Mrs. Nicholas, of Annapolis,
spent Sunday with Mr. and Mrs. J. J.
Parker.

Mr. and Mrs. H. W. Bent, spent the
week and with friends in Inverurie and
Round Bay.

Capt. A. J. Willett is spending a few
days in Halifax.

Thomas Eason, of Annapolis, was a
Sunday guest at the home of Mr. and Mrs.
J. Parker.

Professor Morse, of Annapolis, Royal
look charge of the music in the Granville
Methodist Church on Sunday afternoon
which was well enjoyed by all present.

Rev. Mr. Miller, of Wolfville, who
came to preach the Oddfellows sermon in
Bridgetown Methodist Church, also took
the afternoon service in the Granville
Methodist Church on May 20th.

Mrs. Morrison (V. V.) who spent the
winter with friends in Boston, returned
home last week. Her friends are indeed
glad to welcome her back.

Mr. and Mrs. Alphon Butler, of Yarmouth, came last week to see Mr.
Butler in town with his children.

Mrs. (Capt.) Munroe, after spending
the winter in Yarmouth with her children,
is spending a few days with her sister, Mrs.
Sylvester Bent, before proceeding to her
home at Young's Cove.

During the winter months I
have printed up

More Than 3,000
beautiful Nova Scotia Views for
sale. Come to the "Little Art
Gallery" and look them over.

GIN PILLS

If you find medicine does not relieve you of kidney trouble, you should benefit by the experience of Alexander LaRue, aged 72. For years, Mr. LaRue suffered with kidney afflictions, and he finally sent for two boxes of Gin Pills. He writes: "They did me more good than all the medicine I had taken." Why suffer longer? Gin Pills are sold by all druggists and dealers. 50c a box.

Remember our guarantee. Satisfaction or your money back. Write for a free sample to National Drug & Chemical Co. of Canada, Ltd., Toronto, Ont. U. S. Address: Na-Dru-Co, Inc., 202 Main St., Buffalo, N.Y.

THE COMING COMET

As far as science has been able to discover, there is nothing to fear from Winnecke's Comet, which is approaching the earth at a terrific speed from out of space, and it is due to pass us some time in June, according to Professor W. J. McGarry, of Fordham University.

"The data on this heavenly body is rather vague as yet," says McGarry, who holds the chair of astronomy at the University, said, "but observations throughout the country have begun to pick it up and shortly will be able to tell us more about it. At any rate, there is no reason to become worried about its effect upon the earth, judging by its former visits."

"Comets he asserts, are more useful to check up the weights of other bodies, than for anything else, and the astronomer to check up his data. For instance, at one return of the comet Haerdul, it was found that the sun was 1,047 times as heavy as Jupiter. Beyond being a source of information in that line, comets teach us little that was not known before."

"At one time," he said, "about one hundred years ago, observers spent quite a lot of their time 'comet chasing.' They were known as 'silly police.' Nowadays they usually confine themselves to one line of research."

It is doubtful if this celestial intruder will be noticeable to the average man, astronomers agree. The tail of the comet, consisting of a cosmic mist, sometimes has been known to produce an amber haze over things terrestrial.

There are no speed laws outside of our own little sphere, evidently. The comet of 1843 travelled at the rate of 360 miles a second, which would make even the average taxi chauffeur take his foot off the accelerator occasionally. It was computed at the time that this 'speedy youngster' travelled half of his orbit in two hours and eleven minutes when he got among the big fellows like the sun and our own little earth, but will speed several hundred years making the other half of the track as he gradually slows down. He had a tail two hundred million miles in length.

The most spectacular comet ever seen visited us in 1811. It takes 3,000 years to make its rounds so one would have time to put in several phone calls while waiting for its next visit. Sighted on March 26, 1811, it was in sight for seven months. Its tail was estimated to have been 100,000,000 miles in length with a breadth of 15,000,000 miles.

Every visit a comet makes approaching near our sun it leaves some of its tail behind, diminishing its volume. As a comet approaches the sun its tail develops and as it leaves the sun the tail shrinks in proportion.

Winnecke, or Pons-Winnecke, as our June visitor is called after two astronomers who discovered it and

"IT'S GRANDEST IN THE WORLD"

St. John's Woman Says Tan-lac Restored Her Health After Four Years of Suffering.

"I suffered for four years before I got Tan-lac, but since this medicine restored my health six months ago I have been feeling just fine," said Mrs. E. Clayton, Walsh's Square, St. John's, New Foundland.

"I had indigestion and dyspepsia, could hardly eat enough to keep me up and what little I did eat would do me no good. My nerves were so shattered, I could scarcely sleep, and just any little noise would upset me completely."

"I had dreadful headaches and always felt so tired I could barely stay up, and just before I got Tan-lac I couldn't even look after my housework. The fact is, I was in such a miserable condition that I was afraid to be left alone even for a few minutes."

"I tried a lot of different medicines but nothing relieved me until I got Tan-lac, but it certainly made me feel like a different person. My appetite is so good now that I am always ready to eat, and I can eat anything I want without the least trouble. My nerves are so quiet I sleep like a child every night and never have a headache or the least worn out feeling. I am certainly in fine condition and I just think Tan-lac is the grandest medicine in the world."

Some tribes in the Sahara Desert have slave farms.

The Peruvian interior is a land of almost daily rainfall.

Flour sprinkled on burning oil will immediately extinguish it.

The first river tunnel constructed in America was completed in Chicago in 1868.

"Reports from Cuba admit of the leading position of the Royal Bank among the financial institutions there," says the Monetary Times. It is safe to say this is not due to a genius or aptitude for foreign business, but to a banking system which makes possible the free movement of reserves in critical times.

re-discovered it on two different occasions, visits every five years and eight months. Compared to the other distant relatives who drop in every thousand years or so Winnecke, one might say, calls in every other day. The last time he passed by and took a quick look at us the great war was in progress. Bolshevism was unknown and wood alcohol was only being used in hair tonics. It is not known yet how close the comet will come this time.

The total value of the table and bed linen in Buckingham Palace is estimated at \$35,000.

A doctor and a parson of the same name lived in the same street in England. The parson died and about the same time the doctor went to Aden to a post there. On his arrival he telegraphed home to his wife, but the wire went to the parson's widow by mistake. It was in the following terms: "Arrived safely, heat terrific."

For Old Men For Young Men For Boys

Just the sharp style in clothes you have been looking for. Well made, fully guaranteed—and much cheaper than for many months past.

MUISE BROS., Digby

"How dear to my heart
Are the scenes of my Childhood"

THE old home where we spent so many happy days—the games we played with dear old father and mother looking on.

The old home itself, mellowed with time is still as well preserved as it was in our childhood days.

Its preservation is due to the surface protection which only good paint can give.

**B-H "ENGLISH" 70% Pure White Lead
(Brandram Genuine B.H.)
30% Pure White Zinc
100% Pure Paint**

Unequalled in covering capacity—no other brand can equal its record for permanence. By using this paint of extreme durability your house is protected for years.

B-H "English" Paint's record for surface saving is the result of its guaranteed formula—70% of its base is Brandram's Genuine B.H. White Lead, the world's standard for almost two hundred years, and 30% pure White Zinc. Paint your family home with B-H "English" Paint and it will remain protected.

Wood's Phosphorine.

The Great English Remedy.

It cures and invigorates the whole system, makes the blood pure, and drives out all the impurities.

It cures Stomach and Brain Worms, Dizziness, Headache, Nervous Prostration, etc.

It cures the memory, and the brain, and the nerves, and the blood, and the whole system, and makes the blood pure, and drives out all the impurities.

It cures the memory, and the brain, and the nerves, and the blood, and the whole system, and makes the blood pure, and drives out all the impurities.

IMPORTANCE OF EARLY ORCHARD CULTIVATION

(Experimental Farms Note.)

If a cover crop has been left over the winter in an orchard it should not, as a rule, be allowed to grow in the spring until there is a good crop to plough under, especially in districts where droughts occur, but the land should be ploughed as soon as it is dry enough to work, not waiting for the plants to grow up. This much moisture which would otherwise be transmitted by the leaves of the plants will be saved and the chance of suffering from drought lessened.

A good setting of fruit depends very much on an ample supply of moisture in the ground at blooming and setting time, and if there should be a drought after a heavy crop of clover or vetch has been ploughed under late in the spring, conditions will not be at all favourable.

After the land has been ploughed, it should be kept well harrowed during the early part of the season to conserve the moisture as it has been found that there is a rapid decrease of moisture unless the surface soil is kept loose. Early cultivation is desirable also because it is important to get the soil warmed up as soon as possible by letting the air in and so making conditions favourable for growth early in the season. The greater activity in growth there is in the early part of the season, the more likely is there to be a good set of fruit, especially on rather old trees where the flow of sap through the fruit spurs is not as free as in younger trees, and if there are drying winds and a drought there may not be sufficient moisture to hold the fruit on the trees. An application of nitrogen on some soils has been found very useful in promoting greater activity of growth in the early part of the season and so better ensuring a setting of fruit.

The shortest reign of an English monarch was that of Lady Jane Grey in 1553. She was queen for nine days.

At one time in England beaver hats were compulsory, and makers were prohibited from using any other material.

GRAY-DORT

Built in Canada by skilled Canadian Workers and Canadian Capital

An Uncommonly Good Investment

To-day, with many good cars on the market, the Gray-Dort stands out as an exceptional car and an uncommonly desirable investment for you.

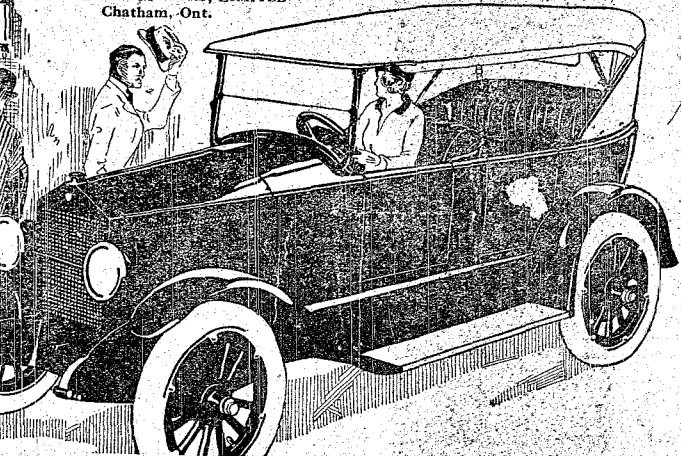

You can buy all the good qualities of the Gray-Dort in other cars if you are willing to pay the price.

But in no other car at anywhere near the Gray-Dort price can you secure the complete combination of desirable features which makes the Gray-Dort the biggest bargain in the motor car field.

Gray-Dort value has created a wide demand for this car. But Gray-Dort dealers are able to make almost immediate deliveries to a few owners. See your dealer to-day.

RAINCOATS

This is the season of the year when a raincoat is a necessity. The weather is so changeable, you can never tell when it is safe to go without one. Our spring stock is the best and largest ever seen in this county and we can suit everyone—tall or short, stout or thin—and without making too big a hole in his pocket book.

ANGUS McPHEE, Tailor and Clothier
Water Street Digby

Hardy Bent

Another sure sign of summer—Hardy Bent made his appearance on his outdoor shoe-shining stand yesterday—News Item in the Digby Courier, April 29.

For fifty years, in fashion neat
He's shined the shoes of Digby's feet.
He's scanned a hundred thousand faces
And sold a million miles of laces.
You'll find him "shining" hard and late
Close by the local Fourth Estate.
The shoes he's brushed, if packed in cars,
Would reach from here clear up to Mars.

He shines for Tories, Grits, and tramps,
And knows a lot concerning "vamps";
Likewise of tongues (of shoes and women)
And "Louis" heels and footie trimmings.
He'll polish up your auto "shoe"
As slick as one of kangaroo.
Of styles and "fash" he knows the vogue,
And kens a brogan from a "brogue."

He's shined the shoes of Howes and Tupper's
And knows when we are "on our uppers."
He's filled with orthopedic knowledge,
And tho' he never went to college
He ranks high as an Oxford "grad"
And makes our summer tourists glad.
He's interested in their "rolls",
But bothers little with their soles.

We hope to meet him by-and-by,
Where living costs are not so high;
But Hardy will outshine us all,
For he'll receive St. Peter's call.
To bury him with celestial fire
The sandals of the Heavenly Choir.
So let us quaff a cheering cup
To Hardy, whilst he shines 'em up.

T. F. ANDERSON.
Boston, May 19, 1921.

INTERNATIONAL DAIRY CONGRESS

There is probably no branch of agriculture in which Canada has made more progress in recent years than dairying. An opportunity will be afforded next year to let the world know how far this is the case, for in the summer is to be held at Chicago, Ill., the Seventh International Dairy Congress at which time representatives from thirty to fifty different countries. At the sixth congress, held at Berne, Switzerland in 1914, Mr. J. A. Ruddick, Dominion Dairy and Cold Storage Commissioner, was Canada's representative, among a total of 800 delegates representing twenty-nine countries or states. The congresses are organized under the auspices of the International Dairy Federation, of which any person interested in dairying, corporation or association can become a member on payment of the annual fee, which at present is twenty francs. Papers are read at the congresses and the reports are published in English, French and two other languages. Already Mr. Ruddick is engaged, by authority of the Dominion Minister of Agriculture, in preparing for Canada's representation at next year's congress in Chicago, and a committee is being formed on which the heads of the dairy branch in every province will be invited to act. This committee will arrange for the questions to be discussed and the papers to be read as far as Canada is concerned. A pamphlet will also be prepared and distributed among the delegates descriptive of the dairy industry in this country. It is further proposed to establish in connection with the congress a bureau of information at which facts will be set forth regarding not only dairying in Canada, but agriculture generally and the manufactures and resources of the country. In addition, leaflets will be circulated suggesting itineraries for delegates who might like to visit Canada before returning home.

"WILL PRAISE IT LONG AS I LIVE"

Farmer's Wife Gains Fifteen Pounds and Looks so Well Friends Hardly Know Her.

"Tanlac has been such a wonderful blessing to my wife that I shall praise it as long as I live," declared Atherton Titus, a well known and prosperous farmer living at Perry's Point, N. B.

"She certainly was in a terrible condition" before taking Tanlac. Why, for ten years her stomach was so bad she didn't dare eat anything like pork or pancakes, and even oatmeal would sour and cause gas to form that bloated her until she was in perfect agony. She fell off in weight till she was a mere shadow of her former self, and she became so weak she could hardly do a thing about the house. Rheumatism set in and the pain in her arms and legs were so awful it kept her awake for hours at night. She tried nearly everything in the way of medicines and treatment, but never got anything more than temporary relief until she tried Tanlac.

"In all my life I've never seen anything to equal the way this medicine got rid of her troubles, and it has built her up to where she is like an entirely different woman. She can now eat anything and is never troubled in the least with sourness or gas. She has gained all of fifteen pounds in weight and has improved in appearance so that her friends hardly know her. The rheumatism has practically disappeared, and she sleeps like a child the whole night through. She works all day without getting tired and feels as well and strong as ever in her life."

WESTPORT
Mrs. Augusta Clouty arrived here on the 5th, to visit her sister, Mrs. T. M. Hilde.

Mrs. Augustus Morehouse spent several days at Westport last week.

Mrs. Hanford Swift and son Russell, left for Centerville on the 4th.

Mrs. Jane Tibert, of Central Grove, who has been the guest of her granddaughter, Mrs. Willard McDermott, left on the 3rd, for her home.

Mrs. Lloyd Denton and children are visiting at her old home, Little River.

Auxiliary schooner Grace Lea, Capt. Ralph Welch, arrived from Rockland, Me., on the 7th, and reports encountering rough weather.

Mrs. Anderson and three daughters, arrived here on the 4th, to join her husband who has recently accepted the call to the Baptist Church.

Mrs. Rupert Sutherland, accompanied by Mrs. Edward Sutherland, left for Moncton, on the 4th, via Moncton.

Francis A. Lent is having a new house built, which is being joined on to his father's home. The masons finished their work on the 7th.

Mrs. Charles Buckman is visiting at St. John.

Passengers from Yarmouth via S. S. Canoe on the 5th, were: M. Ebel Davis, H. F. Bowers, George Clements, Max Miller.

S. T. Payton left for St. John on the 5th, via S. S. Canoe.

France has a Minister for Physical Education and Sport, and he has a seat in the cabinet.

SPRING WORK IN THE FLOWER GARDEN

(Experimental Farm Notes)

No doubt most gardens have been cleaned up by this time, even though nothing has yet been sown in many parts of Canada.

The covering is often left on roses too long in the spring with the result that a disease of the stem sets in and the plants are badly injured. It is desirable to get the stems of roses dry as soon as possible; hence, even if the covering is not removed altogether it should, at least, be loosened up so that air will get through and in our experience it is better to uncover very early rather than to leave it until late.

Among the first seeds to sow in the garden are those of the sweet pea, and the sooner they are sown now the better, many having planted them this year early in April. The object of planting early is to ensure the roots getting down into cooler subsoil before the hot weather sets in, as the sweet pea needs a cool soil for best results. Instead of sowing in a trench as is often recommended, sow seed on the level from one to two inches deep and firm the soil so that seed will get sufficient moisture.

Among other hardy plants, the seed of which can be sown very early in the open ground, are Alyssum, Candytuft, Cosmos, Summer Cypress, Lupine, Zinnia, Snapdragon, Poppy, Phlox Drummondii, Lobelia, Gaillardia, Forget-Me-Not, Pansy, and Cornflower.

The mistake is often made of sowing flower seeds deeply. None of the above seeds should be sown more than half an inch deep, and for most of them one-quarter inch is often too much. If seed is sown too deeply the young shoots will not reach the surface and the seedman is often unjustly blamed.

Although the above mentioned plants are among the hardiest, it will be time almost immediately to sow any other seeds as danger of frost after the seedling are up will soon be over and the grounds will have warmed up soon. Warm soil is just as important for some seeds as prevention of injury from frost, as certain seeds will not germinate in cold soil and if it is moist they will rot instead.

There is often a temptation to put plants which have been growing in the house outside as soon as there are a few fine, warm days. While it will not hurt to set the pots out on such days, if they are taken in at night, the plants should not set in the open ground until the last week of May or early in June. Too often plants which have been nursed all winter are killed or badly injured by spring frosts outside. The geranium is a very popular flower, and too often considerable money is spent for plants for a bed only to have them badly injured, if not destroyed, by a hard frost. In most parts of Canada the last week of May or even the first week of June is the best time to set out bedding plants that are liable to be injured by frost.

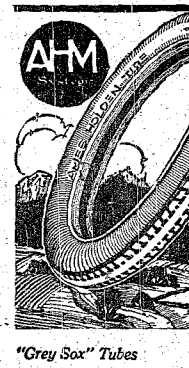

The Catholic cathedral now building in Washington, will cost \$20,000,000. It is designed to accommodate 27,000 people.

A Protestant Episcopal clergyman was walking down a city street wearing the garb of his profession. He was seen by two Irish boys.

Good morning, Father," said one of the boys.

"Huh, he ain't no Father," said the other; he's got a wife and two kids."

ANNUAL WARNING REGARDING FIRES

When You Are Camping or Fishing, or In the Big Woods For Any Purpose, Be Careful With Pipe, Matches Cigarettes and Fires.

Although it is early in the season Nova Scotia people may well consider the annual reminder concerning care to prevent forest fires. Campers, fishermen, prospectors, surveyors, river-drivers, and others who use the woods, cause hundreds of conflagrations in valuable timber by dropping matches or pipe ashes or cigarettes on the dry stuff, or leaving their camp fires only partly extinguished.

In dry weather, the floor of a forest is like the top of a powder barrel. A moment's thoughtlessness may cost a fortune.

Let all of our people who go into the big woods for whatever purpose it may be show that they are good woodsmen and good citizens by being careful of fire.

Nova Scotia has been doing better of late years in the matter of forest fires, and the government regulations have been revised and are being enforced with much energy, but in any dry season the risk of grave loss from extensive forest fires is bound to be very great.

Regulations and good enforcement will accomplish much, but the greatest protection against destructive forest conflagrations is a sense of responsibility on all who go to the woods or engage in clearing land. Many fires are due to a carelessness that is really criminal. In a country like ours where the forests are so important to the prosperity of all, it is a public duty, to preach caution and to keep before the people the thought that carelessness or neglect concerning fire is a shameful thing which at any time may cause very grave destruction to property and even life.

On the 3rd of June, hundreds of camping and fishing parties will be in evidence and the many lakes and streams will be visited by old and young seeking recreation and the

Cut Out-door Slices

Now that the children, practically live out of doors, and the men have an extra daylight hour to roam around the yard—eat Dan-Dee in thick, out-door slices or they'll eat up your grocery bill in costly luxuries!

Better is away down, Dan-Dee too, so the more bread and butter they eat, the better they thrive and the more you save! Have you spoken for your extra loaf?

Get it at your grocer. Made by the makers of Moir's Chocolates.

The Weymouth Courier

Report of Weymouth Baptist Sunday School

On Sunday afternoon May 15th we celebrated the 10th year anniversary of the school. Our pastor Rev. Copeland secured the services of Mr. Macdonald, field secretary of the I. S. S. board. The school of the Anglican church was invited and attended this session in a body.

Our regular Sunday School called the school to order with the usual devotional exercises and Mr. Copeland introduced the speaker Mr. Macdonald. He spoke on the work of Sunday School and how necessary they are to the upbringing of children and to the growth of the church and that to carry on this work we must have efficient leaders. As we have a Telephone lesson once a quarter, this must be well taught and preached on as it is for the good of the world; also missions that schools should have missionary instruction. It is a Christian work and that Christ's last words were to missions as "Ye shall be my witness to the utmost parts of the earth" and "Ye go into all the world and preach the gospel to every creature." He introduced the teacher's training course and any one wishing to take up this study could procure the books from him and that school were open in the month of July and August in Wolfville and Sackville and if any wishing to attend this school it would be very hearty to them. He was glad to hear we had a Cradle Roll and Home Dept. connected with our school as they were necessary in every school. Mr. Macdonald addressed was a very inspiring one and was listened to with much pleasure and great interest. At this session there was a reading entitled "Nature and Purpose of the S. S." by Mrs. F. H. Lent; this was very interesting and helpful to the school.

A solo was nicely rendered by Miss Lillian Fongai, our day school teacher entitled "Morning, Noon and Night." The reports of the different classes of the school were read among them being the Fellowship Class which was organized on July 11th 1919, with twelve members and has increased until it now has membership of 33; it has become independent. Of itself has fitted up a class room, bought an organ and a communion table for the Church, it has an average attendance of fifteen. Through the absence of the secretary, Nelson Sabin, this report was read by Mrs. Arnold Bent.

The report of the Kings Daughters class was read by Miss Josephine Newcombe of this class. This class has an enrolment of twelve and by having socials they have given flower stands to the church and bought linoleum for class room floor. They have a balance of seven dollars and thirty cents in the treasury and their offerings for the past sixteen months amounted to \$22.87. The report from young men's class given

by Deacon Hamilton Muller was encouraging. Their collections the past year have mounted \$29.44; they have a membership of fifteen. The junior class also encouraging reports during the winter months the senior classes amalgamated with Mrs. Robert Newcombe's direction and have an enrolment of seventeen. The boys of this class pledged themselves not to smoke cigarettes and to discourage their use by other small boys. This class has been interested in the Halifax hospital as one of its members attended the hospital during the winter and so at Easter they sent them twelve dollars and a half eggs which were thankfully received by the hospital. This class had an average attendance of nine. The report of a girls class was read by their teacher Mrs. Newcombe.

The Cradle Roll Dept. was started April 19th, 1920 with Mrs. Amy Doty as secretary and Mrs. Edw. Kinney of Ashmore, as assistant. This has an enrolment of 12 members including 20 children. The church has become independent of itself buying its own supplies; each member upon enrollment receives a certificate, ring and bible. The report of the Secretary Treas is as follows:

This school previous to its reorganization had been in a backward condition through ill health and declining years of its former teachers. On May 11th, 1921 the school was organized through our pastor Rev. J. Copeland. Mr. William Lent was appointed Sunday school pastor as assistant when possible. Mrs. Arch Thibault as secretary, and staff of five efficient teachers. The church had given fifteen pairs of which thirty one dollars was made to supply hymnals and supplies. As this fund was small the class organized themselves under the name of Fellowship class, the young ladies also organized under the name of Kings Daughters class. In August of this year a large sum was obtained on the passage grounds at which our pastor, procured the services of Digby band which was greatly enjoyed. A sum of \$160 was made after paying expenses a balance was left of fifty dollars to be used for school purposes.

At Xmas of both years a tree has been provided for the children from the funds of the school each child receiving a gift from old Santa Claus. On April 27th we had Miss Jean Borden a young speaker on S. S. work present with a table showed plainly that the Sunday School was of vital importance to the training of children.

In this year the sum of fifty dollars has been voted to the Church Forward Movement. The second year of the school has been more encouraging than the first; it has increased both in membership and financially. We now have a membership of thirty seven and average collection of two dollars.

Since its organization the school has presented to the church a new desk for the pastor's communion table and flower stands, which greatly adds to its appearance. Since the organization of "Fellowship class" it has become the banner class of the school. In fact all classes have done remarkably well and credit must be given their respective teachers.

Our Church Forward Movement has all been paid except one installment and this school has not missed one session since organized; also our Supr. Mr. Lent has only missed two sessions in the two years and we think he is a good leader an example to follow. Through the untiring efforts of one pastor and wife also Supr. Lent, we feel that God has certainly blessed us as a school and will continue to bless all schools engaged in this work. The financial report of the first year is as follows:

Amount of collections \$109.76
Amt. brought in from other sources \$32.51
Total amt. brought in amount to \$142.27
The amt. paid out \$163.35
The amt. of collections for second year amounts to \$159.50
And from other sources \$29.73
The amt. paid out \$134.00
There is a balance in Treasury \$45.23
Also a deposit in bank of fifty dollars.

Local and General SOLDIERS' MEMORIAL UNVEILED

May 24th, 1921, Victoria Day, will be long remembered by the citizens of Weymouth as an epoch making date in the history of the picturesque village. The day dawned bright and clear, and it being a public holiday accounts for the large concourse of people that began its way to arrive. It was the day appointed for the public unveiling of the Soldiers' Memorial Monument, erected by the people of the community and outlying hamlets to the patriotism and heroism of its gallant soldiers. The monument itself is of Stenburge granite, set upon a concrete foundation. A bronze tablet containing a list of the names of those who died in the cause of justice vaunted adorns the monument proper and on top is placed a captured German gun. The names of four great battles, Ypres, Vimy, Passchendaele, Valenciennes in which the Canadians so bravely and valiantly acquitted themselves are inscribed on the four sides of the base.

At a few minutes before two the following soldiers in uniform under command of Major Gildred Campbell and Sgt. Alex Stone marched from the square house grounds and entered the square enclosed in a roped fence around the monument. The soldiers were led by Capt. R. D. Barkhouse, R. C. Navy; Fletcher Bartlett, Artillery; J. D. Rice, Infantry; William Gavel, 219th Bn. Leo, Gaudet, M. M. 26th Bn.; Leo Belliveau, R. C. Navy. They marched down and took their position; they were followed by the school children in white dresses and Sunday best carrying flags and bouquets of flowers, who took their place on the North side and facing the monument. The unveiling ceremonies opened with the singing of O Canada by the school children. Dr. A. F. Hogan, chairman of the memorial committee, addressed the group, introduced Judge Grosvenor who in the absence of Lt. Governor Gair acted as speaker for the occasion. His Honor recalled the fact that for some present the occasion was one of sorrow paid a glowing tribute to the committee in charge and to the unstinted generosity of the people to whom credit must be given for the handsome memorial erected. He declared the ceremony of unveiling would remain in the hearts and minds of the spectators present the Union Jack that covered the monument was then raised by two soldiers, Capt. R. D. Barkhouse and Leger Comeau. A volley then discharged by the militia and afterwards taps was sounded, the soldiers bowing their heads in respect for those who had fallen. This was followed by the singing of Maple Leaf and God Save the King, ended a day never to be forgotten.

The day had been in conjunction with the unveiling ceremonies noted the good sum of \$150.

The Weymouth baseball team played the Digby team on the W. A. A. ground on May 23rd. The game was a good specimen of base ball. Digby won, the score being 14-3.

The lecture given by Walter MacKay in the Green lantern theatre was largely attended, the speaker making a plain, interesting and convincing appeal to the cause of the soldier. The subject, The Soul of a Nation, was a very interesting one and was well received by the audience.

Some two thousand people were in Weymouth on Victoria day.

WYEMOUTH NORTH
Brenton Jones was a delegate to Synod last week returning on Friday.

Mrs. E. W. Nichol returned from St. John last week, accompanied by her daughter, Mrs. Smith.

Wm. Lent was a passenger to Boston last Tuesday.

I SUFFERED FIVE YEARS

Finally Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Paris, Ont.—"For five years I suffered from pain caused by displacement of my organs and in my back. All of this time I was unfit for work and was taking different medicines that I thought were good. I saw the advertisement in the papers of Lydia E. Pinkham's Vegetable Compound and took it faithfully. I am now in perfect health and do all my own work. I recommend it to others, and give you permission to publish this letter in your little books and in the newspapers as a testimonial."

Mrs. D. C. Mackay, Box 461, Paris, Ont.

Why women will continue to suffer so long is more than we can understand when they can find health in Lydia E. Pinkham's Vegetable Compound!

For forty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacement, inflammation, ulceration, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

A Dangerous Practice

A matter of vital concern to all railway travellers was suggested in a letter that appeared in the recent issue of the "Montreal Star" under the heading of "The Editor's Mail." This letter was as follows:

A DANGEROUS PRACTICE.
The Editor:—There is one thing which I think should be brought to the attention of the big officials of our railway companies. This is the highly dangerous practice of smoking in sleeping cars.

In a train in which I was travelling the other night from Toronto to Montreal, I heard a porter go up to a berth and ask the occupant if he was smoking. There was a very sheepish denial, but as a matter of fact the man was smoking a cigarette—not in the smoking room, remember, but in his berth. Quite apart from the lack of consideration which this showed for the other passengers—amongst whom were several ladies—think of the danger of it, where an accidental little fire might have endangered the lives of some score more. There are surely enough instances on record where men smoking in bed in their own houses have fallen asleep and been burned to death, without having to emphasize the much bigger danger in a bed on a train.

I spoke about this case to the porter in the morning and he told me that one day there would be a big fire, and then people would certainly all up and die. There were the worst offenders, he said, are not the people in the ordinary berths, who can be asked to stop, but the people who occupy compartments, and who can lock their doors and tell the porter who, remonstrates to go to the devil.

I am not an anti-smoking crank, but I am a very frequent traveller, and I once had the misfortune to lose a relative in a railway fire, which started in a way something like this, and I am sure that if the big railway officials realized the seriousness of this they would, in justice to the travelling public, issue strict orders about it. B. L. T.

Interviewed on this matter, a prominent railway official said that the writer of this letter had been misinformed in thinking that the matter had not been drawn to the attention of the railway companies. For it was one that had been drawing their attention for some time. They are taking every precaution possible to prevent fires, but they were hampered by a very great extent by the indifference of many members of the travelling public. He quoted one case that had recently in which the occupant of a compartment had set his bed on fire through smoking in bed. The fire having been prevented only by the vigilance of the porter. Consideration for the safety and comfort of others—if not of themselves—would be the only method of combating this dangerous and reckless practice, which, he added, seems to be growing rapidly in volume.

FREEPORT.

The Freeport Theatrical Club gave a very interesting get together in the Freeport Hall on Thursday evening. The following is a complete cast of characters:

Tom Campbell (Stage manager) engaged to Bert
Antoinette Thurber
Frieda Carter (Newspaper Woman)
engaged to Ralph
Martia Stevens (Cooking Teacher)
engaged to Max
Dorcas Powell
Mary Willing (Bride to be)
engaged to Billy
Annie Perry
Gladys Cashlog (butterfly girl)
engaged to Charlie
Elizabeth Kennedy (Maiden Lady)
unengaged.
Dr. E. T. Simpson (Village physician)
Sadie Leat.
Voice
Sammie Thurber.

Between the Acts choruses were rendered by Mary Teed, Mae Leat, Rena Perry, Gertrude Stevens, Catherine Perry, Sadie Leat and Gladys Cashlog, and interesting duets by Maude Haines and Lou Crocker. One of the most interesting features of the play was the appropriate scenery. Much credit is given to the entire club. The following Thursday the play was repeated at Tiverton, where they were greeted by a full house. (Proceeds were given for church purposes.)

Irvin Hervey who has been spending a few days with his family here has returned to Boston.

Capt. Charles Teed has purchased the solo, Jennie T. from parties in Tiverton and will resume his travelling business, playing between St. John and St. Mary's Bay ports.

Miss Ethel Leat, of Weymouth, is visiting friends in this place.

Misses Gertrude and Cornelia Stevens spent the week end with friends at Westport.

Sorry to report Mitchell Melanson on the sick list.

A large number of our men are confined to their homes, with La Grippe.

We are having lovely summer weather.

A FEW DON'T'S

DON'T buy the cheapest Farming Tools and expect the best service.

DON'T buy the cheapest Fertilizers and expect maximum crops.

DON'T buy a cheap engine and expect the maximum amount of work.

DON'T buy your machine where you cannot get repairs.

DON'T put off ordering repairs until you need them.

MY MOTTO—To handle only the best lines and to sell at the closest possible margin.

Permanent Plastering

(National Crop Improvement Service)

"Building the weather out is fully as important as maintaining a fire in the furnace. In the old days when we scorched our faces and froze our backs at the open fireplace, we went shivering to bed and breathed gelidities on the covered."

"We have learned to plaster our houses inside and out, but in frame construction we have always had difficulty through expansion and contraction of preventing the plaster from cracking and scaling off."

"But the introduction of triangular steel reinforcement and the improvement of outside plaster have corrected this evil and a house now could be tumbled end over end and its plastered walls remain intact," says Mr. B. S. Rider, president, Canadian Steel & Wire Co.

"Another feature is that reinforced stucco never has to be painted, which is something every home owner will appreciate."

Years of Suffering Ended

By "Fruit-a-lives"

112 Hazen St., St. John, N. B.

"It is with pleasure that I write to tell you of the great benefit I received from the use of your medicine."

"Fruit-a-lives" made my fruit juices. I was a great sufferer for many years from Nervous Headaches and Constipation. I tried everything, consulted doctors; but nothing seemed to help me until I tried "Fruit-a-lives."

After taking several boxes, I was completely relieved of these troubles and have been unusually well ever since." Miss ANNIE WARD.

50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

MOUNT PLEASANT

May 15.

Mr. and Mrs. Freeman Rice, of Lunenburg, spent Sunday with Mr. and Mrs. Venning Handspiker.

Miss Edna Dearmont spent Sunday, the 8th, with her cousin, Dorothy Daley.

John Colvin and son, of St. John, are visiting Mr. and Mrs. David Handspiker.

Miss Dorothy Daley and Margaret Vandusen spent Sunday with friends in Caledonia.

Mr. and Mrs. Edmond Fleet have moved to their new house.

Mr. Leo VanNess spent the week end with her parents, Mr. and Mrs. Forman Rice at Millford Corner.

Miss Beattie Handspiker spent the week end with friends at Caledonia.

Freeman Handspiker went to Bear River Monday.

Francis Leat has returned home to Westport, after spending a few days with Mr. and Mrs. Walter Handspiker, leaving Mrs. Leat to visit for some time.

Walter Barnes and family, have moved in this place from Bay View.

LONG BEACH.

May 15th.

Miss Edna McCully and Walter Tidd of Tiddville, called on Ruby Morehouse on Wednesday last.

Mrs. Beecher Morehouse and her daughters, Ruby and Amy, visited Mrs. Morris McCully, Tiddville, Thursday last.

Capt. Chas. Morton arrived again on Friday with forty-three crates of lobsters for the pond.

Arthur and Russell Graham were here one day last week with lobsters for the Pond, also Hermon and Edgar Theriault, of East Ferry.

Arch Horner, of Tiddville, found a raven's nest here on the cliff and Beecher Morehouse who has charge of the lobster pond, succeeded in shooting the bird, which measured five feet from tip to tip.

There was quite an exciting time here on Tuesday last when Eli Stanton, of Tiddville, had his newly painted boat launched. Lester and Victor Stanton are fishing in her from this beach.

C. E. Leat, of Deep Brook, and A. N. Marchant, of Halifax, visited on Thursday and Friday last week. A. N. Marchant gave an interesting Bible talk on Thursday.

CHARACTER TRAINING

By W. H. H. H. H.

Speaking to young people as I am supposed to be, I would ask you a serious question. Indeed, What about your character? Are you intending to train that, as fully as you train your hand to some craft, your brain to study, your ears to catch distant sounds? Do you imagine that your character will be all right without any training, that it is something which merely comes at birth, which is inherited, with which you yourself have nothing to do, as regards its formation and support? Oh, how great a mistake you are making if this is your view! To me it seems that one of the most surprising errors of our educational system today is to believe that we must teach learning and knowledge, that we must guide the brain, and must exercise body with drill and sports, that we must prepare by so many varied means the boy and girl that they may succeed in life, and yet fancy that we need not trouble about any formation of character with them—that it is unwise, or useless, to endeavour to train and mould the character as we would anything else!

Think for one or two moments upon this. A girl will take endless trouble about her looks, about the care of her hair and complexion. She will spend hours studying about what dress, which hat, what boots what attire best suits her figure, or face, or general environment. She will work for years at acquiring knowledge which shall enable her to pass for a doctor, a teacher, or some other skilled worker.

Yet withal she will not contrive to recognize that expression, as created by a quiet mind, a peaceful outlook, a firm, trustworthy, lovable character, is the greatest factor. Nature herself can bring forth towards making a person beautiful in

GRAND LODGE OF FREEMASONS MEETS HERE NEXT WEEK

On Wednesday next the Grand Lodge of Nova Scotia, A. F. and A. M., will begin its annual meeting in the pleasant town of Digby.

Freemasonry is the oldest, largest and most influential of all fraternal societies. It has signs and tokens which are traceable back through the builders' guilds of the Middle Ages to the Comanches, the Roman college of architects, the Dionysian artificers of Greece, the ancient mystery-religions and even to primitive cults.

It is diffused abroad throughout the world and unites men of

the eyes of all sensible folks who

Therefore I may end, as I began. Let the inward and spiritual graces be such that the outward signs may always be a smiling and pleasant countenance and manner. Then I do not think you need fear lest your life shall be unsuccessful in the best of all senses. For these things make for happiness, comfort, peace of mind, nobility of soul, healthiness of body, and worthiness of life. Give me intelligent motherhood and good parental conditions and I have no doubt of the future of this or any other nation.—Rt. Hon. John Burns.

EMBARGO OR EXPORT TAX ON CANADIAN PULPWOOD

Anyone who can travel on our railroads and see the immense amount of pulpwood piled alongside the tracks all through Quebec, Ontario, and New Brunswick, and the shipment out of the country, or who will visit Sherbrooke, Campbellton, or McAdam in the busy seasons and see trainloads after trainloads of pulpwood being shipped away from our Canadian mills, or will visit our seaports and see steamerloads after steamerloads shipped to Portland, Maine, knowing that every trainload and every steamerload is shortening the life of our pulp and paper and lumber industries, and can see this all going on and not lift a hand to help stop the same, is to say the least, not a good Canadian.

The American mills in their activity for the removal of the embargo on the shipment of Crown land wood do not expect to succeed in having any restrictions removed, pounds to their credit.

It is of paramount importance at the present time that if Crown land wood should be given first place on the farm, and furthermore, that both thought and energy should be put into our breeding work, in order that the maximum profit for labour, feed and money invested may be realized.

The grading up experiment at the Experimental Farm, Nappan, has demonstrated the following: First that by using a pure-bred sire from a high-producing dam on the average dairy cows the percentage of daughters superior to dams will be materially increased.

Second that by the use of such a sire you will not only improve the milking qualities of the herd but will establish uniformity and dairy type of the highest order.

Third, that by the combined use of the feed scales, milk scales and Babcock tester you can easily locate the unprofitable cows.

Fourth, that by breeding out the unprofitable ones you can raise your standard of production, which in turn will increase your yearly profit.

Fifth, that by having the heifers freshen at thirty-two months rather than twenty-four to twenty-eight months, as often practised, you get a more profitable cow.

Successful grading up, then, of the average dairy cow can only be accomplished by using a pure bred sire with milking records back of him on the part of both sire and dam, followed by the use of the feed and milk scale together with the Babcock tester which enables you to eliminate the boarders, thus converting a non profitable herd into a profitable herd.

HALIFAX WOMAN GAINS 16 POUNDS

"I will always Bless The Day I Began Taking Tanlac," Says Mrs. Ritchie.

"I will always bless the day I began taking Tanlac," said Mrs. William Ritchie, of 48 Charles St., Halifax, N. S., "and I feel like I want to tell everybody what a wonderful medicine it is."

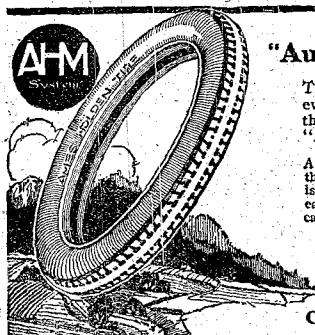

"I have actually gained sixteen pounds since I began taking Tanlac," she said "and never felt better in my life. For five years I suffered with a bad case of chronic indigestion that made life a burden. Gas would form on my stomach after eating and bloated me up something awful. When I lay down at night gas would come in my chest and throat until I felt like my breath would stop. I had no appetite at all, and there were days when I would go all day long with no more nourishment than a cup of tea. I was troubled a lot with severe sick headaches and spells of nausea that left me as weak as a baby. In all the five years I was sick I don't think I got a single good night's sleep, and in the morning I felt as tired as when I went to bed. I lost off twenty-five pounds and was nothing but a shadow of what I used to be."

"I had just about lost hope of ever getting well, when one day a friend advised me to try Tanlac. I found it different from any medicine I had ever taken. I kept getting better until, today I am as well as I have ever been and feeling just fine all the time. My appetite is great. I can eat anything I want and digest everything perfectly and am not bothered with gas on my stomach or with sick headaches. I sleep at night like a child and get up in the morning refreshed and ready for all my duties that may come to hand. All my strength and energy have returned. I am only too glad to recommend Tanlac to anyone suffering as I did."

"The daily life of the Montegregio peasant is full of superstition. He is superstitious about the manner in which he rises in the morning, about what first meets his sight, how he dresses and washes, and whom he meets, of what food he eats and the time and manner of serving throughout the entire day."

Nearly all Chinese babies, for the first three months of life, are unmis- takeable blondes.

The Deputy Grand Master D. Alex Thompson. It is anticipated that under their experienced guidance and with the assistance of the genial Grand Secretary, James C. Jones, the deliberations of the Grand Lodge will be business like, pleasant and profitable.

"Auto-Shoes" Mean Mileage

The mileage given by the best tire you ever used would just about approximate the average given by Ames Holden "Auto-Shoes" year after year.

Ames Holden "Auto-Shoes" is miles better than ordinary tires. The name "Auto-Shoes" is to help you to remember that—to make it easy for you to get the cheapest mileage you can buy.

GRADING UP THE AVERAGE DAIRY HERD

(Experimental Farm Notes)

Dr. J. H. Grisdale, speaking before the Ayrshire breeders in Montreal, said, that the average production today for the average dairy cow was a very little over 3000 pounds per lactation period when it should be at least 5000 pounds to make her a profitable cow; it would be still better were it 6000 per cow.

Results obtained from an experiment in grading up the average dairy cow, being carried on at the Experimental Farm, Nappan, N. S. show that by the use of pure bred sires, from high producing dams, on average cows of dairy breeds, the 6000-pound mark can quite easily be obtained. For instance, the experiment has only been carried on for eight years and eighteen cows have finished their sixth lactation period with an average of 5268 pounds. Ten out of the eighteen gave an average of 6276 pounds. There are some two-year-olds in the herd today that are milking around thirty-five and thirty-seven pounds, others have just completed their year's work with close to 8000

RAINCOATS

This is the season of the year when a raincoat is a necessity. The weather is so changeable, you can never tell when it is safe to go without one. Our spring stock is the best and largest ever seen in this county and we can suit everyone—tall or short, stout or thin—and without making too big a hole in his pocket book.

The oil of which one is most suspicious is another is most often the oil of which it has a pretty fair smattering itself.

The Children's Aid Society.

In view of the campaign being put on next week in aid of the Children's Aid Society, a few words regarding the splendid work being done by that fine organization may be in order. The Children's Aid Society stands for the betterment of the conditions of the child life of the community. Its agent is the friend and protector of neglected, ill-treated children and seeks to provide for them happy homes; and to surround them with influences calculated to develop their minds and make them useful members of society. Many of these without the work of the Children's Aid Society would grow up to lives of uselessness and worse and become a menace to society and a burden upon the community.

The work of the Children's Aid Society is a most important one and deserves the hearty support of every patriotic citizen. It is not only a work of humanity but also a most practical undertaking insofar as it seeks to turn the liabilities of the country into assets. The homes of a nation constitute its real wealth. If founded upon right principles, not in our natural resources, in our wealth of forests or fields or mines, but upon the character of our people and our homes depends the future well-being and prosperity of our country. Many of our homes are far from what they should be, and in many instances are wholly unfit for proper development of child life. The improvement of these homes and the conditions under which the children of the land are reared are their characters formed is the function of the Children's Aid Society. Every citizen has the privilege of assisting in this grand work and your sympathy and support are cordially invited. The Society needs funds to carry on its activities to the best advantage, but most of all it needs the sympathy and interest of the people and their co-operation in the patriotic task of making the world happier and better. It is yours to help in this most laudable undertaking.

We can forgive every fault in our neighbor's person, except his excessive, if justified, self-esteem.

Dr. Grant of the Social Service Council of Nova Scotia has been in the municipality of Clare this week in the interest of the repeal of the Scott Act in favor of the N. S. Temperance Act. He was most cordially received by the Clergy, who are taking immediate steps to secure the necessary number of signatures to bring about the desired change. A final effort to secure names is being made in other parts of the County as well. All returns are to be in by the end of next week and if the requisite number of names have then been secured the necessary formalities will be gone through and the change will soon become effective. Guysboro, the only other county in N. S. under the Scott Act, is also completing arrangements for its repeal.

A pessimist is a person whose mental camera gives him nothing but the negatives of life.

Coming Events

This afternoon—Baseball. Digby vs. Weymouth.
Tonight—Regular meeting St. George Lodge, I. O. O. F.
Tonight—Weekly services in Holy Trinity Church.
Tonight—Roller Skating.
(Saturday)—Movies.
Sunday—Regular services in the Protestant churches, except the Baptist (see local).
Monday—Dance in Bijou Dream.
Monday—Fire Practice at 7 p. m.
Monday—Rev. J. H. Copeland, with music in the Church at Hill Grove at 7:45 p. m.
Monday—Regular meeting Zelma Rebekah Lodge, I. O. O. E.
Tuesday—Annual meeting of the Nova Scotia Royal Arch Masons (morning and afternoon).
Tuesday—Annual meeting Nova Scotia Lodge of Research—Masonic (evening).
Wednesday—Annual church parade.
Grand Lodge of Masons at 11 a. m.
Wednesday—Morning, afternoon and evening. Grand Lodge of Masons.
Wednesday afternoon—Auto drive for wives of visiting Masons to Bear River.
Wednesday—Regular prayer meetings in Baptist and Methodist churches.
Thursday—Masonic Grand Lodge session.
Thursday afternoon—Excursion on the Dan for Masons and their wives.
Thursday evening—Masonic Dance in North House.
Thursday—Prayer meeting at Hill Grove, at 7:45 p. m.

Local and General

The June business meeting of the Women's Canadian Club will be postponed until further notice.

In the police court at Yarmouth on Saturday a Digby County man paid a fine of \$7.50 for vagrancy.

You can't see, you believe it, but fish water will make the hands just as soft as those of a potter.

When a man says he feels like a three-year-old, he shows exactly what he is.

Grain shipped by the Canadian Pacific Railroad through the port of St. John during the season just closed aggregated 9,414,000 bushels.

This is the time for the really thrifty to buy in next winter's wool; start to do this Christmas shopping and begin to save for next year's income tax.

A Bear River man says what makes him mad is that to pay his income tax he has to borrow the money from a man who has no income tax to pay.

The monthly Pastors' Sale of the Local Branch of the Victorian Order of Nurses will be held on Saturday, June 11th, in Mrs. A. Lett's store.

Hereafter the Monday in the week, which November 11th falls will be known as Armistice Day, and Thanksgiving Day will be observed on the same day.

On four sales of less than forty-eight pounds, there is to be a sales tax of three per cent, also on sales of more than 48 pounds, such as bran, chop and shorts.

All the services next Sunday evening—Anglican Baptist and Methodist—will be in the hall at Hill Grove.

Rev. J. H. Copeland has received a call to go to the pastorate of the First Baptist Church of Washington, Maine.

Rev. B. H. Thomas, who recently resigned as Protestant chaplain at the Maritime Penitentiary has received a call to the pastorate of the First Baptist Church of Washington, Maine.

The Sales Tax on lumber is now 2 per cent on Canadian products and 3 per cent on imported lumber. Bran, shorts, oil cake, meal and grain for cattle, poultry, swine and hogs are placed on the free list.

One of the largest shipments of lumber made from Digby for export was a carload that port recently on two schooners for United States ports. The cargoes consisted of 1,419,000 lbs and 375,000 feet of lumber.

The brick plant at Avonport is being enlarged for the manufacture of building bricks and is now being fitted out to increase the capacity of the plant to two million bricks, fifty cars of building and twenty-five cars of drain tile.

Shipments of lumber and its products from the consular district of St. John to the United States during the year ending March 31, according to a statement issued from the United States Consular Agency there.

Rev. J. H. Copeland, of Weymouth, will give a lantern lecture on "The Romance of Gospel Song" in the Church at Hill Grove on Monday evening at 7:45.

Twenty-five and fifteen cents will be accepted as the price of admission.

The story about the contest coming in contact with the earth early in June is a mistake. There may be nothing in it, of course, but it would be a wise precaution to see that your subscription to The Courier is paid up before that date.

D. A. Cameron, member of the Nova Scotia Legislative Council, and W. J. Comeau, member of the House of Assembly for Digby, were sworn in last week as members of the executive council, thus becoming members of the Nova Scotian Government.

Cost money in the Province of Nova Scotia during the year 1920 amounted to \$5,637,970 tons, an increase of 684,213 tons over the preceding year, according to the Commissioner of Maritime Mines, Hon. B. H. Armstrong in his report to the Dominion Legislature.

The "Colonial Arms" at Deep Brook, Annapolis Co., which became so popular as a summer hotel, under the direction of its late proprietor, Capt. J. D. Spar, whose death a few months ago was widely lamented, is being continued by Mrs. Spar and will open for the season on June 15th.

Another large loss is due at St. John with the balance of the salvaged cargo of the wrecked City of Calcutta. The pulp now stored in No. 3 warehouse will probably be shipped to the English market. No disposition has yet been decided on the rest of the cargo, but it is likely that it will be reconditioned and forwarded to its destination.

The revival meetings have continued all this week in the Church at Hillgrove. The choir singing for the series will be held this evening. Rev. Mr. Copeland will continue with the Pastor over Sunday the services being as indicated elsewhere.

Rev. I. D. Harvey of Little River has been secured to supply Mr. Copeland's field for that day.

A movement is on foot in St. John for the establishment of a Maritime Board of Industries and Commerce, with a paid permanent secretary, to be supported jointly by the provinces, the purpose of the board being to study all matters relating to the industrial and commercial interests of the Maritime Provinces, including policies, relating to immigration and agricultural development.

Word has been received from Rev. A. M. Gregg, Boy's Work Secretary for the Maritime Provinces, that the invitation to hold the Boys' Conference for Western Nova Scotia in Digby has been accepted, and that the Conference will be some time where about October first. The exact date will be announced as soon as it is decided upon by the committee having the series of Conference in hand.

The offices of the Soldier's Settlement Board at Halifax were closed last Friday, and the evacuation ships to St. John where the offices for the Maritime Provinces will be centralized. Captain Robert Drouin, superintendent and district agent under the S. S. B. leaves this morning for St. John to take charge of the new offices. Nova Scotia sub-office will be maintained at Trent in charge of Major C. A. Good.

Rev. W. H. VanAllen, S. T. D., rector of the Church of the Advent, Boston, has planned to spend the summer in Europe and will sail from Montreal, on the Marguette, on July 1st, returning in September on the Orpesco, sailing from Southampton for New York. He will divide his time between England and the continent, probably spending some time in Switzerland. Dr. vanAllen, who is a noted writer as well as a clergyman, is a member of the summer colony at Smith's Cove, where he has been a leader in philanthropic and literary movements during the season.

Local and General

Rain is needed badly. Summer visitors are arriving. Aegina Cottage is being painted up.

Repairs are being done to the "spur". The Royal Levee is in port with coal for W. E. VanHallen.

With the average woman news consists of the birth, death and marriage notices, and the advertisements.

The heirs of the author of "The Street Boy and Boy" are estimated to be worth \$55,000 in a case which has been before the courts fifteen years. Perhaps one of the survivors after this delay will be moved to write a companion piece to the famous song.

The 1921 Nova Scotia apple crop will be between one and a half to two million barrels, according to estimates made by A. E. McMahon, general manager, Dominion Fruit Company, of Nova Scotia, Limited, and George E. Sanders, Dominion Entomologist.

The production of wealth in Nova Scotia during the year 1920 was \$207,961,000 compared with \$192,197,300 in 1919 and \$174,893,500 in 1918. Of the 1920 total, manufactured products share was \$99,100,000; mineral and mineral products, \$84,067,500; farm products, \$10,000,000; and other, \$14,893,500.

Fisheries, \$13,890,000; building materials, etc., \$4,787,600; game, etc., \$800,000.

Services will be held in the Baptist Church next Sunday morning but Sunday School will be held at twelve o'clock.

All the party, which consisted of a special service, will be held at Hillgrove at three o'clock.

Rev. J. H. Copeland will preach in the Church at Hillgrove at three o'clock in the evening. The Hillgrove congregation will join with that of Digby in the Baptist Church at seven thirty o'clock, when the pastor will preach and Mr. Copeland will conduct a prayer and testimony meeting. All these services will be open to all who wish to attend, a cordial invitation being extended.

Rev. W. H. Watts, of Wolfville, with Mrs. Watts and little girl, were in an auto accident on Wednesday last week and narrowly escaped serious results.

They were returning to Wolfville from a return being made by Mr. Watts and Mrs. Taylor, and had passed a motor lorry when an auto driven by a Waterville driver, coming from the west, was running the vehicle, pitching Mr. Watts on the pavement, while Mrs. Watts and the little girl slipped in her arms.

Found with their heads near the feet of the horse, which however had stopped. All the party, which consisted of a special service, will be held at Hillgrove at three o'clock.

W. C. T. U.

CULLODEN

Miss Ethel Lent is visiting friends at Resport.

Miss Zilpha Grant is spending this week at Ashmore.

Mr. and Mrs. Aaron Doty are receiving company from the arrival of a little daughter, May 22.

Our regular W. C. T. U. meeting was held with Mrs. P. H. Lent, (Ray Side Farm) on Wednesday, May 25. We were glad to see so large an attendance.

Rev. E. J. Cleveland, A. L. Perry, L. H. Davis, of Westport, Rhode Island, and Wilfred Ward, formerly of Halifax, England, but now of Westport arrived in Weymouth on the 24th and left for Resport on a week's fishing trip. They left for Westport on Tuesday May 31, having enjoyed their trip to Weymouth and vicinity while here they were guests at Bayside Farm where Rev. E. J. and Mrs. Cleveland are regular summer visitors.

WEYMOUTH NORTH

Mrs. H. L. Radford went to Annapolis Wednesday.

Mrs. Blackader arrived from the United States Friday.

Albert Hood, of Yarmouth, motored to Weymouth with his family and Miss Grant on Victoria Day and was guest of Mrs. Johnson Grant until Friday.

Born to Mr. and Mrs. Leslie Ruggles, the 20th daughter, May 25.

Mrs. G. D. Campbell and Mrs. Evelyn Taylor were passengers to Yarmouth Monday.

Mrs. A. Smith who has been visiting her mother Mrs. F. W. Nichol, has returned to St. John.

Mrs. Howard Jones enroute from New Bedford, Mass. in Halifax remained a few days with Mrs. St. Clair Jones.

PLYMOUTH

Alva Macdonald, who has spent the past year at Wolfville, returned last Friday to spend the summer at his home.

John Smith who has recently returned from a deep sea voyage accompanied by Mrs. Smith who has been cooperating at her home in Karsdale, are visiting at Mr. K. Smith's.

Roy Mallett who has been quite ill with tonsillitis, we are pleased to report, is able to be about again.

Quite a number of persons from this place attended the Corpus Christi celebration at Church Point last Sunday.

Rain is very much needed as everything is very dry, a few showers would be very acceptable indeed.

Iceland is nearly five times as large as the State of Massachusetts.

L. V. HARRIS, BEAR RIVER

W. G. BLACKADAR, WEYMOUTH

A well attended meeting of the Women's Christian Union was held on Wednesday, May 25, with Mrs. Lent at Bayside Farm, the subject under consideration being Christian Citizenship. Following the opening exercises and the business the following subjects were presented: "War is Citizenship," "Christian Citizenship, and Law Enforcement." Stress was laid on the following points: (1) A Christian citizen can never separate his citizenship and his Christianity. He must carry his Christianity to the polls and into every action of his civic relationship. Women now share this responsibility. (2) The child of today is the citizen of tomorrow. He is to become a law-abiding citizen, he must grow up respecting law. This can be only if he is accustomed to seeing laws obeyed and enforced.

After distribution of "Law Enforcement" leaflets, all joined heartily in singing the new song which has become the W. C. T. U. slogan in the U. S. "Work for enforcement where you are," and "O Canada."

LAW ENFORCEMENT DECALOGUE

1. Thou shalt not neglect to give forethought to thine obligation as a citizen of Canada.

2. Thou shalt not fail to familiarize thyself with the laws of thine own country.

3. Thou shalt not treat lightly or facetiously the violation of one jot or tittle of the law.

4. Thou shalt make a vow unto thyself to obey the spirit as well as the letter of the law.

5. Thou shalt definitely aim to create in thy community a sentiment favorable to law enforcement.

6. Thou shalt uphold the hands of thy law enforcement officials.

7. Thou shalt persuade the editors of thy local papers that it is their duty to publish those facts and truths that make for the observance of the law.

8. Thou shalt prevail upon thy teachers, thy public school and Sunday school teachers, thy friends and fellow townsmen to talk, think, sing and work for law enforcement.

9. Thou shalt seek to win to enthusiastic co-operation in the law-enforcement campaign all thy fellow citizens, and especially the newly enfranchised women of this acquaintance.

10. Thou shalt keep diligently all these commandments that thy nation may continue to flourish, and be as a great lighthouse that shedseth radiance upon all the world.

BARTON and BRIGHTON

Mrs. Edward Young, has returned home from Digby.

Alvin Hensley, of New York, has arrived at "Journey's End" for the summer, accompanied by her little grand daughter, Elaine Lutz.

Mrs. Penelope Marshall has returned to Digby.

Mrs. Murray Dillon, of Boston, Mass., and Mrs. Stephen Kelly, of Amherst, are visiting their parents, Mr. and Mrs. George Nickerson.

Kenneth A. Perry, has arrived home from Lynn, Mass.

Mrs. F. W. Kinney, and son Rico, have returned from Wolfville. The latter has completed his course at Acadia, and was successful in getting his "B. A."

Mrs. Murray Dillon, of Boston, Mrs. Stephen Kelly, of River Hebert, Mr. Smith, of Smith's Cove, and Mr. Curtis Headway, of Deep Brook, and Mr. and Mrs. Thornton, of Smith's Cove, spent Sunday at the home of Mr. and Mrs. George Nickerson.

Mr. and Mrs. H. S. Harris, of Bear River, spent Sunday at Bay View Farm, the home of Mrs. Harris' parents.

The Ladies Aid Society met on Tuesday evening at the home of Mr. and Mrs. John O'Neill.

Several of our local residents are to open their homes for the accommodation of summer guests.

The Ice Cream parlour opens soon.

The results of the examinations at Acadia University, Wolfville, were announced last week. Amongst the graduates we notice the names of Wesley Rice Kinney, son of Frank Kinney, of Barton. Four years ago Rice took his "B" in the Brighton Public School and passed on to Acadia. He now blossoms forth as a full fledged B. Sc. We heartily congratulate him on his success and hope he will gain further scholastic honours. He shares with Miss Grace McKay the distinction of being the only two pupils of Brighton Public School who have graduated from any of the higher schools of learning.

At Brighton School on the afternoon of Empire Day patriotic exercises were given by the pupils of the school.

The following program was presented: Opening Song—"An Imperial Anthem," School.

Reading—"All Hail," Jack Farrell.

"Our Flag" Exercises, Kathleen Smith.

Sarah Specht and Annie Heist.

"Song" For the Glory of the Grand Old Flag, A Quartette.

Reading—"Troubles of A Small Boy," Rex Freeman.

Duet—"Flag of Our Nation," Scott Grant.

Flag Exercises, and Harry Specht.

Essay—"Canada," Ralph Freeman.

Drill—"Canada East and West," Eleven girls.

Song, Ernest Seelye, Doris Teddl.

Oliver Specht.

Reading—"Our Canadian Boys," Kathleen Freeman.

Song—"Our own Canadian Home," School.

GOD SAVE OUR KING.

Call and see me at Smith's Cove (Imbertville Station)
MRS. A. C. BEELER

The Puritans of Old England and New England were unconsciously imitating the Chinese when they called their children Faith, Mercy, Hope, Prudence, Perseverance, Temperance, Charity, Love, Glory and Felicity. All of these names have been used in China for three thousand years.

In China it is a punishable offence for a man to wear a button, an embroidery or a decoration of a rank superior to his own.

"Cold in the Head"

In an acute attack of Nasal Catarrh, there is a frequent "cold in the head" which is the use of HALL'S CATARRH MEDICINE will build up the system, cleanse the blood and render the less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh.

HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surface of the system, thus reducing the inflammation and restoring normal conditions.

BEAR RIVER AND DIGBY DISTRICT MEETING

The district meeting of the Maritime Religious Education Council was held in Bear River on Tuesday afternoon and evening of this week, in the Baptist church.

The organization began its work just fifty years ago, in celebration of which event a "Golden Jubilee" will be held this year.

The speaker in the afternoon was Mr. Ross, travelling secretary of the association, who devoted his remarks to the consideration of the problems set, encountered by Sunday School workers. He showed a standard chart, divided into ten subsections, and asked all schools to compare their standing with this as a goal of perfection.

Under these headings Mr. Ross put particular stress on the "Candle Roll and Prayer Department," on "Teacher Training," and "Teachers' Conferences." His remarks were most helpful.

Out of the ten schools comprised in this district, only three were represented at the afternoon session, and only a small number of the leaders of Mr. Ross.

The evening meeting was held in the auditorium of the Baptist church. In the absence of the President, Rev. R. S. Gregg, pastor presided.

Rev. Mr. Ross spoke a few words to the new members, and the music, after devotionals, exercises the nominating committee report was read and adopted as follows:

Pres.—Rev. D. E. Hurd
Vice Pres.—Ross C. Snellett
Secretary—Rev. N. W. Rockwell
Executive Com.—Rev. R. S. Gregg, C. M. Mack, W. H. Watts, D. E. Hurd, H. C. Clark, George A. Weir, George T. Tupper, Mrs. R. A. Harris, Mrs. W. W. Wade, J. A. H. Nickola.

Rev. Mr. Ross spoke a few words to the new members, and the music, after devotionals, exercises the nominating committee report was read and adopted as follows:

Pres.—Rev. D. E. Hurd
Vice Pres.—Ross C. Snellett
Secretary—Rev. N. W. Rockwell
Executive Com.—Rev. R. S. Gregg, C. M. Mack, W. H. Watts, D. E. Hurd, H. C. Clark, George A. Weir, George T. Tupper, Mrs. R. A. Harris, Mrs. W. W. Wade, J. A. H. Nickola.

Rev. Mr. Ross spoke a few words to the new members, and the music, after devotionals, exercises the nominating committee report was read and adopted as follows:

Local and General

A number of the members of Keith Lodge met on Tuesday evening.

The Bear River Tennis Club held a meeting on June 2nd, in the Bear River Drug Store.

The Divisions of the Sons of Temperance of Bear River and Smith's Cove, are holding a union picnic at Bear Island today.

The Tennis court is being donated by Dr. and Mrs. Lovell, for club use on three days of the week, is now in order and ready for use.

Zeblon Benson, while at work on the scows in the shipyard, on Monday, was unfortunate enough to fall and give himself a severe shaking up.

S. S. Bear River made a special trip to St. John on Monday, leaving on the morning tide, and returning the same evening. She cleared again on Tuesday evening for her usual trip.

Miss McDonald, Provincial Secretary of the Women's Institute of Nova Scotia, will be present at the meeting on June 8th. This meeting will start promptly at three o'clock. All friends are requested to attend, as Miss McDonald will address the meeting.

The Provincial Red Cross Membership Drive on the Digby river work. The funds thus gathered will go to further education along health lines in our province, and be of interest enough to have their dollar membership fee ready for the collectors.

"Black Beauty" will be shown in our local movie hall on Thursday, May 26th, in aid of the "Children's Welfare League of Annapolis County. This picture is appeal to all the kiddies who have read this old story. Come and bring your mothers and daddies, to help other children.

In the Methodist church of Sunday morning Miss Louise Jones of Mt. Allison, Annapolis County, held the first congregation with a very pleasing solo.

At the evening service a solo was rendered by the choir, which was much appreciated by all his old friends.

PRINCEDALE

HAD RHEUMATISM FOR FIVE YEARS

No Return of the Trouble Since Taking "FRUIT-A-TIVES"

MR. JOHN E. GUILDERSON
P. O. Box 123, Parramatta, N.S.
"I suffered much Rheumatism for five years, having it so badly at times I was unable to get up without assistance. I tried different medicines I saw advertised and was treated by doctors in Australia, also in my home town, but the Rheumatism came back. In 1916, I saw in an advertisement that 'Fruit-a-tives' would stop Rheumatism, and took one box and got relief; then I took them right along for about six months and the Rheumatism has all gone and I have never felt it since."

Anyone who would care to write me an inquiry 'Fruit-a-tives' I would be glad to tell them what 'Fruit-a-tives' did for me."

JOHN E. GUILDERSON
Contractor and Mason.

No. 6, Box 6 for \$2.50, trial size 50c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

Old Windmills of the Quebec Roadside

By courtesy of the C.P.R.

Landmarks of the Quebec Roadside. Everywhere hold one with a certain interest in the past, and because as a rule they are such as occur nowhere else this side of the Atlantic.

Shrines, large and small, elaborate and simple, created by communities, or by some Society or by private persons. Large "Crosses" marking off the miles and cross-roads are common along these roads, at somewhat frequent intervals, one happens on possessed of wind-driven sails, or standing like storm-swept ships, when gales have blown away their canvas. The "wheels of time" have in many instances made mere "playthings" out of these old mills erected in old days of the grain harvest.

An especially well-preserved old mill of the "towered windmill" type is to be seen on the Quebec Roadside. It rises on the level meadowlands of the shore of the St. Lawrence, and as naturally as its forbears arise on the landscape back in old Normandy. Many of the old mills have in many instances made mere "playthings" out of these old mills erected in old days of the grain harvest.

G. R. CONDON
 DIGBY

Out of the Present
into the Past

It is interesting to note the excellent preservation of some old mill residences. So well do they "fit into the picture" that except for their architecture one might almost imagine them the product of the present age, yet in reality they stand as silent tributes to the wise precaution against decay and deterioration on the part of a former generation.

Any house that is worth looking should also be worthy of preservation by means of paint. The maximum of protection is found in

B-H PAINT 70% Pure White Lead
 30% Pure White Zinc
 100% Pure Paint

The formula (70% Brandram's Genuine B.H. White Lead and 30% Pure White Zinc) produces a paint with a fine, smooth surface that does not crack, chip or peel and a surface protecting film that will defy the elements.

Crime Wave in England

Has Caused Authorities

To Introduce Flogging

FROM now on British criminals sentenced for crimes which do not call for capital punishment will have to face the possibility of being flogged as well as imprisoned. In technical language, they may get the "cat."

In the last six months or so there have been a number of hysterical newspaper outbursts regarding an alleged "crime wave" in England. These have led to a revival of sentiment—it is impossible to say how numerous are the supporters—in favor of sentencing convicted criminals to a certain amount of flogging, in addition to the usual penalties of fine and imprisonment.

The first case in point arose some week ago, when two men were sentenced for trying to rob a post office, in the course of which attempt they thoroughly terrified the two women clerks on duty at the time. The judge, at the trial, gave them five years' penal servitude, and, in addition, ordered that they receive twenty strokes of the "cat."

The two men appealed from the decision to the Court of Criminal Appeal, which, however, upheld the original sentence, when the Lord Chief Justice, Lord Reading, gave the opinion that:

"The judge who passed the sentence intended to impose an exemplary sentence as a deterrent to others, and more especially imposed the sentence of the 'cat' with the object of deterring persons from committing these very serious offenses. Lord Beverbrook's paper, the London Express, heartily supports the principle of flogging. Referring to the decision in the case the paper says:

"It is a very proper view for the bench to take. Very possibly, as the result of five years of war, during which the value of human life was depreciated and moral standards upset, there are now prevailing upon society a number of desperate criminals who do not hesitate to take life in order to accomplish their ends."

"Only the judges who administer the law can end this state of things. They must make their punishments fit the crime; violence must be met with violence, the bully must be cowed. Mere imprisonment will not serve, the 'cat' must play its part. The marked effect of the too rare application of the 'cat' has proved the proper course of justice."

Who Was Chippendale?

In announcements of the numerous furniture sales which are taken place all over the country one finds prominence given to articles by Chippendale. Who was Chippendale? asks R. B. Ellis.

Almost all the mahogany of the eighteenth century is vaguely ascribed to that illustrious designer, Thomas Chippendale, who, as a matter of fact, was not in the zenith of his vogue until 1760. Chippendale established himself as a house in St. Martin's lane, London, as a cabinetmaker. His style was heavier in technique and less severe in decoration than those who came after him.

He published a volume of designs for furniture in 1754, which he called "The Gentleman and Cabinetmaker's Director." This volume ran to three editions, and at the time it must have been impossible to foresee the coming triumph of Heppelwhite and Sheraton, who superseded him. The latter was born in 1751, and thus was a boy of nine when Chippendale was in his glory. Brought up without regular education, Sheraton taught himself the elements of geometry and drawing.

Like Chippendale, he, too, was a cabinetmaker, but seems to have met with little success in that calling. But as a designer of furniture his influence made itself felt almost immediately. His designs were regarded with extraordinary respect, but, more the less, they proved financial failures, and Sheraton lived and died a poor man.

The word "Chippendale" is constantly on the lips of people who have the very vaguest notions as to whether there ever was such a person in the world as Thomas Chippendale.

In Salisbury's Steps.

The Barnes magistrate who recently fined Mr. Winston Churchill for exceeding the speed limit has complained that the cheque was sent in an unstamped Government envelope. One of the magistrates said that "it was a fine imposed upon a private person," and the envelope should have been stamped.

But Mr. Churchill was merely exercising the privilege of a Minister of the crown. When the right of having correspondence "franked" was withdrawn from British M.P.'s an exception was made in the case of Cabinet Ministers, who can, if they choose, send all their letters unstamped.

The late Lord Salisbury had a remarkably expensive and feudal conception of his office as Prime Minister. His letters were always stamped. But when he committed to pay the railway fare to Hatfield, the Great Northern Railway timidly remonstrated. "I am the Prime Minister," was the simple reply. "See me you cannot," and for years the railways used the railway as if created for his benefit. The story of Mr. Gladstone stopping the Irish express "in the Queen's name" is well known.

Revival of Masonry.

Since the war, Masonry is experiencing a revival in Great Britain and most of the lodges have long waiting lists of candidates.

When Napoleon Bonaparte was made emperor his empire included nearly all of Europe, with the exception of Russia, Turkey and Great Britain.

POETRY ON WINDOWS.

Famous Men Scratched Verses on Glass.

From time to time, rhymes scratched on window panes or written on the walls of houses, so light, says the Edinburgh Scotsman, these are to be found up and down the country in ancient inn or feudal castle, in humble cottage or lordly hall. It would be a pity, in these days when the road has become so popular that at any time since the advent of railways, if some wanderer, stout or ardent, does not take the trouble to collect and preserve them. At odd times, the transcript of one of these rhymes appears in the newspapers, there is a two days wonder in the correspondence column, and then the matter is laid to rest.

The most recent is that discovered at the historic Head Inn of Kirkcubright. In the course of renovations the following lines, written on one of the walls were uncovered, unfortunately partially obliterated in the process.

When January winds are blawin' my child,
 I took my way;
 But mirknight night did me enfauld,
 'Till early day.

—R. Burns.

In one of the ground floor windows of Morison Hall, in Cheahere, there was scratched in Elizabethan characters, the following rhyme:

A diamond and glass—
 For a tale and an ass—

a sentiment which was elaborated by someone into:

When I see a man's name
 Scratched upon the glass
 I know he owns a diamond
 And his father owns an ass.

Poets such as Pope and Burns and great writers such as Swift and Carlyle have not degraded, to use the words of the rhyme, their names nearly always left a sting in his verse. Once, while on his way to Ireland, he called at the Four Crosses Inn (originally the Three Crosses), a few miles from Rugby. Disliking his reception by the hostess, he wrote these lines on the window with his diamond:

You have three crosses at your door,
 Hang up your wife and you'll have four.

And thus the name of the house was changed. It may have been on the same journey that the dean, arriving at Chester, found that none of the cathedral dignitaries responded to his invitation to sup with him. This was an insult that the hostess could not tolerate. He could not retort as he would have wished, so he once more resorted to his diamond and left on the window pane of the Yeast Inn, where he was staying, the following couplet:

Rotten without and mouldering within,
 This place and its clergy are nearly akin.

The following lines of Aaron Hill are well known, beginning:

Tender handed stroke a nettle,
 And it stings you for your pains.

but not one man in a thousand knows that they were written on a window pane by the poet during a tour in Scotland.

It was at the Black Bull at Moffat, in Dumfriesshire, that Burns left his epigrammatic "Apology to Scrumpet Nature" on a window pane. Miss Deborah Davies, a beautiful young English woman of small stature, had ridden past, accompanied by a tall and portly lady. The poet was asked why one was so tall and the other so little, and this was his reply:

Aah why God made the gem so small
 And why so huge the granite,
 Because God meant mankind should set

The higher value on it.

Some years ago there was sold in London a pane of glass from Carlyle's lodgings in Edinburgh, on which the student philosopher had scratched the following stanza:

Little did my mother think,
 That day she cradled me,
 What land I was to travel in,
 Or what death I should see.

Oh, foolish then!

In this connection the following lines are of interest:

While Scotland's sons in every clime
 are found

Bearing the banner of their country's fame,
 So long will "Sartors" laurels be re-

served.

And honest Scots revere his deathless name.

They were written on a pane of the little old-fashioned window of the house at Scotchcraigh, where Carlyle was born.

Modern Methuselah.

A modern Methuselah has been revealed. According to the Amrita Bazar Patrika, great interest has been aroused in the town of Kharagpur by the arrival of the well-known Sadhu Swami as Schachitanda (Beter known in the Himalayas as "Kamabi Babu"). The venerable Mahant is reputed to be over 330 years old, and claims to have been for eleven years the spiritual adviser of the king of Nepal.

People who see him and to hear him speak. Hindu is the medium of intercourse. He is everywhere treated with the greatest respect and affection.

He says he remembers vividly the first battle of Panipat more than 300 years ago and other historical events of three centuries gone are recalled as of to-day.

He is a devotee of the "saint" is Beshanada, his disciple, whom he describes as a mere child of 82 years.

Armies and Typewriters.

As one of the results of the war, it is found that 25,225 typewriting machines are required to operate successfully a force of 500,000 men.

More international conferences have been held at The Hague and more treaties and alliances arranged there than in any other city of the world.

LUMBAGO

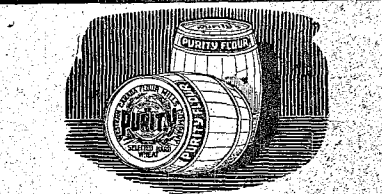

If you feel a touch of lumbago, you can ward off the evils of recurrent attacks, by taking Gips Pills without delay. Learn a lesson from the experience of Mr. H. A. Jukes. After suffering with lumbago for years, and being confined to the house at times, Mr. Jukes began to take Gips Pills. His letter to us reads, in part: "and much to my surprise, I at once felt a change for the better. I have been taking them at intervals, and, up to date, have had no recurrence of my old trouble; in fact, I have not felt better for years."

Don't delay. Buy a box on our money-back guarantee, or write for a free sample. National Drug Chemical Co. of Canada, Limited, Toronto, Ont. U.S. residents should address: Na-Dru-Co., Inc., 292 Main St., Buffalo, N.Y.

CULLING THE FLOCK

(Experimental Farm Note.)

The hatching season should now be over on the well regulated poultry plant and attention directed to culling the flock to make room for the growing youngsters.

In the first place there should be vigorously culled from the flock all birds that show any physical defects such as crooked beaks, backs or breasts, excessively long toe-nails, sunken eyes and long "crow" head, knock-knees or other sign of poor stamina and low vitality.

At this season, if they have not already been discarded, the hens over two years old, unless possessing the characters of extra high production and retained as breeders on this account, should be marketed as soon as they stop laying, show signs of broodiness or moult.

When trap nests are used, this condition is readily noticeable but if not the hens that have stopped laying can be easily distinguished by their shrinking comb and fading of face and wattles, also by the contraction of the pelvic bones.

These bones, slightly protruding on each side of the vent, remain spread to the width of about three fingers placed perpendicularly between them, as long as the hen is laying.

In the poor producer they will be found closed to the width of only one finger and when the latter condition is evident early in the season, when she should be still producing, it is a fairly good indication that the bird has given up too soon and is not the type that makes the high record.

Good, health and high producing qualities are shown by distinctly visible characters and all birds that do not carry these qualities in a marked degree should disappear from the flock.

The high producing characters of primary significance are: full, red comb, bright bulging eye, long keel bone with lots of width between stern extremity and pelvic bones showing depth of body with capacity for feed and room for the producing organs; fine pelvic bones spread well apart and an elastic, velvet texture to the skin of the abdomen.

Hens that moult late in the season and in the yellow-skinned varieties, those individuals that fade out white in the sections that show pigment, namely the skin, beak, shank and earlobe, also indicate the possibility of high production and should be kept in preference to those that do not carry these qualities.

There are more intricate decisive characters that help in the selection of good from poor layers, but the foregoing will be of some use in an elementary way, to the farmer in selecting his breeders to carry over to the next season. If carefully followed, they will eliminate most of the undesirable specimens that are a source of expense without profit and rob the deserving hens of the flock of their creditable record.

SALUTE TO THE TREES

By Henry Van Dyke

Many a tree is found in the wood
And every tree for its use is good.
Some for the strength of the gnarled root,
Some for the sweetness of flower or fruit,
Some for shelter against the storm,
And some to keep the hearth-stone warm.
Some for the roof, and some for beam,
And some for a boat to breast the stream.
In the wealth of the wood, since the world began,
The trees have offered their gifts to man.

But the glory of trees is more than their gifts:
'Tis a beautiful wonder of life that lifts
From a wrinkled seed in an earth-bound clod,
A column, an arch in the temple of God,
A pillar of power, a dome of delight,
A shrine of song, and a joy of sight!

Their roots are the nurses of rivers in birth,
Their leaves are alive with the breath of the earth.
They shelter the dwellings of man, and they bend
O'er his grave with the look of a loving friend.
I have camped in the whispering forest of pines,
And I say no word of approbation
In the hush of an oak, at the foot of a palm.
I have found good rest and slumber's balm.
And now, when the morning glids the boughs
Of the vaulted elm at the door of my house,
I open the window and make salute:
"Good bless thy branches and feed thy root!
Thou hast lived, and thou art here, live after me,
Thou ancient, friendly, faithful tree."

"By permission from Scribner's Magazine for May, 1921,
copyright 1921 by Charles Scribner's Sons."

25 YEARS AGO H. B. HAVEY WAS SCHOOLBOY

(Hilary Hunt)

Twenty-five years ago Harry Bernard Havey mayor of Stewiacke resided at Freeport, N. S. his birthplace, with his parents, Mr. and Mrs. Bernard Havey. In 1899, at the age of fifteen years, he removed with his parents to Bridgetown, Annapolis County, where he received his early education in the High School of that town.

Being of an exceptionally bright intellect and with a keen desire for further study he later entered Acadia University, Wolfville, where he was awarded the degree of B. A., in the year 1906.

With the purpose of making the study of medicine his profession he then entered the University of McGill at Montreal, from which he graduated with honours in 1911 as M. D. C. M. During his stay in the latter city, he served in the General Hospital and the Women's Hospital of all Montreal.

Previous to his locating at Stewiacke in 1912, he spent one year in the public hospital of St. John, N. B. The Havey now holds the office of Coroner and Medical Health Officer.

In February, 1921, he was elected Mayor of Stewiacke by more than two-thirds majority of the electors. In politics, the doctor is a supporter of the Liberal Party.

Trans-Canada Limited

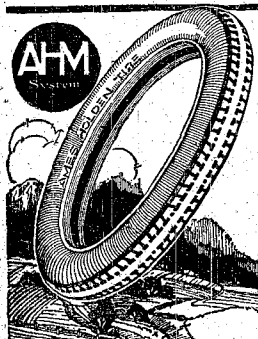

The Trans-Canada Limited—the popular Canadian Pacific train from Montreal and Toronto to Western Canada and Pacific Coast—has been making the fastest time between terminals of any train in America. Reaches Port William in thirty hours—Winnipeg in forty-two hours—Regina in fifty-three hours—Calgary in sixty-seven hours, and Vancouver in ninety-two hours.

Passengers from the Maritime Provinces to St. John, have choice of two train connections, the early train leaving at 3:45 P. M. Eastern time, daily except Sunday, and later train at 6:35 P. M. every day.

The Trans-Canada is an all sleeping car train, carrying sleeping car passengers only, except between Montreal and Ottawa, where a limited amount of parlor accommodation is available. All the equipment used is of the latest type, which includes through sleeping cars, dining car, and compartment observation car.

This train affords the biggest travel fleet that it is possible for a trans-continental trip to contain. Passengers are able to see practically every major point of interest by daylight, including Banff and Rocky Lake, and enjoy the finest business pleasure. This train combines every comfort and convenience possible.

For information and the purchase of sleeping car accommodations, apply to local agent of the Canadian Pacific Railway, or communicate with Mr. R. C. Denbigh, District Passenger Agent at St. John, N. B. 42-104

"CLOVER FOR SEED PRO- DUCTION"

(Experimental Farm Note.)

It is wise to plan for a supply of red clover seed for next spring without having to buy. This can be done by cutting an acre of strong growing clover about the 20th of June and getting the seed from the second crop. There is a tendency to delay, this cutting until the clover has reached its full growth. This may result in the seed which is produced from the second growth not being properly matured before the fall frosts. Failure in getting a good yield of seed of good quality is largely due to this fact, hence the desirability of cutting the clover about the third week in June, in the Maritime Provinces.

The yield of seed will be determined largely by the stand of plants and freedom from grasses; an acre of good growth properly matured should give 200 pounds. The second growth should not be cut too early. The heads should be dead and the seed well matured before cutting. If there is much grass in the clover it is well to allow the cut area to remain in swath a day or two until the grass has dried up. It is necessary to rake it into windrows before the clover dries too much or else the ripe heads will be broken off and the seed lost.

For the same reason it is also to make it the morning when not too dry. The windrows should be light, thus saving dragging too far and facilitating drying. It is usually better, under our conditions, to leave in light windrows until fairly dry and then pile carefully in small piles to cure. Just as soon as the crop can be stored without heating,

place it under cover. Threshing can be done only with a clover huller. If a huller is not available for threshing there is little advantage in growing the seed, as the common threshing mill will not beat out the seed.

The best seed crop from Alsike Clover is obtained from the first crop. This is allowed to ripen thoroughly before harvesting and is handled as stated above. Should the weather be wet at harvesting time, care is necessary to prevent heating and sprouting in the piles. If the seed is matured, the sooner the growth is dried out and placed under cover the better, and if the weather keeps damp for a long period, the only thing to do is to spread the clover thinly to get it dry enough to store.

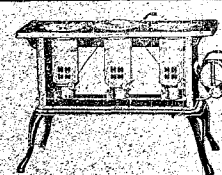

"If you can't—"

—keep sprightly, and full of pep—you just have something the matter with your physical condition. You are probably—much run-down! Try a bottle of

Digby, June 10th 1921

Every Citizen Should Help in the Work.

Are you proud of your town? Do you think it is a fine place in which to live and do business? Do you feel a sense of satisfaction when sightseers from other towns and cities drive past your own home and notice your yard with its shrubbery and flowers and lawn, that make a fitting setting for your attractive, well-kept home? Well, you know that one swallow does not make a summer, one single clean and attractive home will not impress visitors, except to show the hideous contrast of its surrounding neighborhood. It is the whole neighborhood and the whole town which furnish visitors their impressions and estimates of the conditions of the business and property values and prospects of your town. The cleaner you keep your premises the more interested you should be in seeing that the whole town is kept clean to match your own standards. That is not only a proper civic pride, but is your right to expect cleanliness and orderliness all around you for the protection of both your health and your property. Every citizen in Digby should lend his assistance and co-operation in a cleaner and better Digby.

The moment one becomes thoroughly pleased with himself, he has begun doing something foolish.

LUNENBURG NEXT PLACE OF MEETING

Wednesday was a busy day with the Masons. In the morning at 10 o'clock His Worship, Mayor H. T. Wane, gave a most welcome address to the town which was reported by the Grand Master. This was followed by the annual church parade which was one of the largest parades ever seen in Digby. It was headed by the Annapolis Royal band under the leadership of Paul Yates, and the various Holy Trinity church, the scene of so many Masonic gatherings in its long history, was crowded. The sermon was preached by Rev. William DeWitt, Past Grand Chaplain and was assisted in the service by Worshipful Brother Lawrence, Grand Chaplain of New Brunswick. In the afternoon J. D. B. MacKenzie, the Grand Master of New Brunswick, accompanied by his official staff, was received and welcomed being introduced by Past Grand Masters Chas. R. Smith and John Hay.

The Grand Master's address reviewed the work of the year and showed that Masonry was going ahead by leaps and bounds in Nova Scotia. The next year in membership was about 700 and the present membership is nearly 9,000. Reports of the Deputy Grand Masters were received as were also the reports of the Grand Secretary and Grand Treasurer. They all showed tremendous progress in all lines and that the financial condition of the order was eminently satisfactory. The committees on Charity, Benevolence and the Free Masons home also reported. The report of the Grand Historian, Worshipful Brother Edwards of Halifax, showed the splendid work done by the Nova Scotia Lodge of Research during the past few years in the publication of histories of subordinate lodges and the compilation of a digest of Grand Masters' decisions, and the classification of several thousand documents. A vote of thanks was extended to all who had been responsible for the work.

The Grand Lodge decided to hold the next annual communication in the town of Lunenburg.

J. M. LAWSON IS NOW GRAND MASTER

The Grand Lodge closed its sessions yesterday morning. The election of officers started Wednesday night was completed resulting as follows:—
Grand Master—J. M. Lawson, Yarmouth.
Deputy Grand Master—J. R. Murray, New Glasgow.
Senior Grand Warden—Rev. Wm. Driffield, Digby.
Junior Grand Warden—J. M. Anderson, Lunenburg.
Grand Treasurer—John MacLachlan, Halifax.
Grand Secretary—James C. Jones, Halifax.
Grand Historian—J. P. Edwards, Halifax.
Grand Lecturer—H. B. Short, Digby.
Grand Chaplain—Rev. D. M. Matheson, Stettin.
Senior Grand Deacon—Geo. L. Duncan, Trenton.
Junior Grand Deacon—H. T. Muirhead, Springfield.
Supt. of Works—A. E. Theakston, Halifax.
Grand Director of Ceremonies—A. P. Powers, Lunenburg.
Grand Sword Bearer—Wm. Pearce, Dartmouth.
Grand Organist—W. W. Dillon, Sydney.
Grand Pursuivant—Joseph W. Boyd, Yarmouth.
Grand Stewards—Albert H. Hood, Yarmouth; W. D. Smith, Amherst; M. L. New Glasgow; W. H. Perie, S. J. Turvell, W. H. Hayes, Halifax.
Grand Tyler—J. E. Webster, Halifax.
The officers were installed by Past Grand Master, Chas. R. Smith, assisted by Most Worshipful Brother Geo. D. MacDougall.

There will be no service in the Smith's Cove Methodist church Sunday, as the building is being renovated.

Local and General

The Wellville Missionary Summer Conference will be held from July 19 to 26. Rev. H. Leonard Haslam, rector of the place in the world from which automobiles are barred.

Tuesday, Brigadier and Mrs. Walton and Esau Kelly will be at the Salvation Army at 8 o'clock.

The Courier was in error last week in stating that the lobster season would close on June 10th. The date should have been June 20th.

Rev. H. Leonard Haslam, rector of Holy Trinity Yarmouth, has been appointed to the Board of Governors of Kings College.

The regular monthly meeting of the managing committee of the V. O. N. will be in the town hall at 3 o'clock next Tuesday afternoon.

The appointment of Lord Byng of Vimy as Governor General of Canada, a succession to the Duke of Devonshire was announced officially last week.

The steamer Lottia Marguerite is now running her regular trips on St. Mary's Bay on Monday, Wednesday and Saturday of each week, instead of Tuesday and Friday.

The monthly pantry sale under the auspices of the V. O. N. will be held tomorrow at Mrs. Lettens's store. Baked beans and steamed lemons were specially sold. Send in your contributors and everybody buy.

The elections in Saskatchewan were held yesterday. In the 1917 election out of 39 seats the Liberals won 21 seats. The new legislature will have 63 seats.

The Western United Baptist Association will meet at Fredericton, Thursday evening of next week and will continue over Sunday. The most direct and convenient mode of conveyance will be the train to Weymouth and hence direct to Fredericton.

The potato acreage in most sections of Annapolis county is 10 per cent greater than last year, and the prospects appear favorable for a splendid crop.

A summary of conditions as shown by telegraphic reports from the potato growing belt.

Next Sunday will be Children's Day in the Baptist Church. A full program of music with recitations and exercises written for the occasion will be presented. A special sermon will be preached by the pastor at 11 o'clock. The evening service is at 7:30.

In the McGill University Honor List the men were outdone by the women, eighteen of the latter out of the entire class of thirty-eight graduating with first class honors, and eleven men from a class of thirty-eight having achieved a similar distinction.

The Boy Scouts have been organized into patrols and leaders have been appointed. The boys are training hard for their tenting and other work which will be in a couple of weeks. The Scouts are very keen for their work and many good times are in store for them.

Members of the local branches of the Sons of Temperance will leave with regret of the death of Ross Smith, Most Worshipful since 1918, the oldest member of the order in America. He died at Philadelphia on Sunday, May 29th, the funeral being held on the following Tuesday.

At the close of the service in Hillgrove Church last Friday evening Rev. D. E. Hatt was presented with a purse of money to assist in the expenses of repair and operating of his car. Rev. J. H. Copeland made the presentation speech on behalf of the congregation and Mr. Hatt feeling replied.

Benjamin Cann, assistant purser on the steamer Prince Arthur, was fined \$100 by the Federal District Court at Boston following a plea of nolo to an indictment charging him with unlawfully importing into the United States from Yarmouth, on May 3, 30 quarts of liquor valued at \$210, and on May 11, 33 quarts, valued at \$230.

Clarke Brothers Limited new Kraft Pulp Mills were visited last week by E. W. Beatty, president C. P. R. Grand Hall, vice president and George E. Graham, general manager of the D. A. R., who went through on a special train from Digby and called at the pulp mill. These officials went over the property and expressed themselves as delighted with the layout and mill.

The lecture given by Rev. J. H. Copeland of Weymouth in the Baptist Church at Hill Grove on Monday evening was very largely attended and greatly enjoyed. The pictures were reproductions of Dore's great painting from the Life of Christ and a number of hymns and Gospel songs were illustrated as they were sung. Joseph Vincent and Fred Koop assisted Mr. Copeland in the singing.

The former German liner Kronprinzessin Cecilie the vessel that made the spectacular run into Bar Harbor with the large segment of gold following the outbreak of war in 1914, and which later was interned in Boston until the United States went into the war, when she was taken over and renamed Mr. Vernon is soon to have still another new name. She will be the President Andrew Jackson and will be operated out of New York to European ports as a passenger liner under the American flag.

W. G. Clarke of Bear River, is making repairs to his large barn, putting in new sills and new trunks, also making minor repairs on his residence, putting new support posts in place of the wooden ones. W. A. Chute has the work in charge. After completing that Mr. Chute comes to Digby to launch the large yacht built by Evan Dunn for E. J. Morris of New York. From Digby he goes to Grand View to move a number of buildings, the largest being a warehouse, size 125 by 40 feet.

Extra thrills were provided at a performance of the Hagenback-Wallace circus, in Cincinnati, Ohio, when a lion and a horse battled. The lion was jumping on and off the horse's back, falling in a heap, the lion hit the turf. Enraged it tried to leap on to the horse's back again, but failed. In making third leap, it tore the horse's hind leg and lacerated its back. The horse fought back gamely kicking at the lion. All then realized that the fight was real and the trainers drove the animals apart. Attendees said the lion and horse had been on bad terms since the show opened.

The Yarmouth schooner Annis L. Spindler, Capt. Wm. Shaw, arrived at Yarmouth on Saturday morning to load one of her crew, William Robinson, who was ill. The vessel sailed for 17,000 pounds of fresh halibut and 10,000 of black. She did not land and in the afternoon sailed again to complete her trip.

The schooner returned to port Tuesday morning with a fare of 20,000 halibut and 15,000 of black. The schooner, Capt. Ansel Snow, also of the Anro fleet was in Yarmouth the same morning and sailed for about the same fare. Both vessels sold to their owners.

Coming Events

To-night—Movies.

Tonight—Regular meeting St. George's. Rev. J. G. R. Litchford, degree.

Tonight—Regular meeting in Holy Trinity church.

Saturday—Pantry sale in Mrs. Lettens's store.

Saturday—"Black Beauty" at the Bijou Theatre.

Sunday—Regular services in all the Protestant churches.

Tuesday—Special meeting in Salvation Army.

Tuesday—Movies.

Wednesday—Prayer meeting in the Methodist and Baptist churches.

Thursday—Movies.

THE ROYAL ARCH MASONS

The annual session of the Grand Chapter Royal Arch Masons was held in Digby on Tuesday. The chapter not only covers Nova Scotia but also has jurisdiction over the province of Prince Edward Island and the ancient colony of Newfoundland. The attendance was exceptionally large about every chapter being represented. An important piece of legislation was passed by which the jurisdiction of this grand chapter will be divided into six districts, each under a superintendent to be appointed by the Grand High Priest for the term of one year, but to be eligible for re-appointment for the second year. After the second year he gets a past rank and is to be styled Past Grand Superintendent.

The election of officers resulted as follows:—
Grand High Priest—E. N. Clements, Yarmouth.

Grand King—E. T. Carbonell, Charlottetown.

Grand Scribe—F. H. Northrup, Kingsport.

Grand Treasurer—M. McF. Hall, Halifax.

Grand Secretary—B. F. Porter, Truro, (re-elected).

Grand Chaplain—Rev. A. W. Nicholls, North Sydney.

Grand Captain of Host—H. C. Smith, Sydney.

Principal Sojourner—P. J. Otto, Dartmouth.

Royal Arch Captain—Alfred M. Simmons, Halifax.

Grand Master Third Veil—W. H. Bingley, New Glasgow.

Grand Master Second Veil—J. M. Murty, Charlottetown.

Grand Master First Veil—Frank H. Lowe, Liverpool.

Grand Steward—J. H. Potter, Middleton.

Grand Standard Bearer—Fred G. King, St. John's, Nfld.

Grand Tyler—J. E. Webster, Halifax.

Board of General Purposes—M. McF. Hall, Halifax; John Hay, Truro; Geo. D. MacDougall, New Glasgow; W. Logan, Truro; Don P. Fraser, New Glasgow; John W. Logan, Truro; E. T. Carbonell, Charlottetown; F. H. Northrup, Kingston; B. F. Porter, Truro.

A Past Grand High Priest's jewel was presented to the retiring Grand High Priest, W. A. Creelman, of Truro.

On Tuesday night the Order of High Priests met in the Grand Lodge Hall, and ten candidates were initiated.

Spring Wheat
Leader of the World

(National Crop Improvement Service.)

"Repeated baking tests have shown that Marquis wheat makes a loaf of very much finer quality than any other of the wheats; that the Durums will make a loaf fairly large in volume but yellow in color, and coarser in texture."

"As the rust menace spreads, there will be great temptation for Canadian farmers to grow a so-called rust resistant wheat. The worst of these is probably Red Durum, which was introduced in North Dakota at a time when rust was making terrible attacks on the world's wheat. This wheat is rather growing and has a heavy kernel, but should not be used by the farmer because this wheat will not make bread nor macaroni, and its only merit is that it is heavy and may be used in export to improve the weight of light and cheap 'rusty' grain."

"The Canadian Northwest grows the best spring wheat in the world and flour made from it always sells for a superior price. If Canadian farmers will breed quality, and market only their finest wheat, mills will always pay a premium for fancy cars."

(National Crop Improvement Service.)

Canadian oats lead the world for quality and are in great demand for seed in every civilized country, but oats generally receive little attention and are raised in a haphazard sort of way. Very few farmers put in seed plots, although there is no other crop that responds so readily to intelligent selection and treatment.

Careful experiments have proven conclusively that the formaldehyde treatment of the seed for smut frequently increases the yield more than would be naturally expected from simply replacing smutted heads with sound ones.

This is probably due to the fact that the grain is attacked by other seed-borne parasites which are as effectively checked as smut, adding to the general health of the grain.

Seed Grain Fundamentals.

1. Select the variety for your neighborhood and adapt it to soil and climate. If it is decided to put in both an early and late oat, do not get them mixed. It will be fatal to both.

2. Fan and grade your seed until you have removed all shriveled and broken kernels, sticks, and weed seeds.

3. Test your seeds for germination in a wet blotting paper and plant only strong-sprouting seed.

4. Treat your seed grain with formaldehyde to prevent smut and other diseases.

5. Put oats in early.

(National Crop Improvement Service.)

"A hog naturally is as clean as a log or horse. While he loves to wallow when flies are bad and conditions are against him, he also loves to be clean and will bathe in clean water the same as any other animal."

"Any farmer who is in the hog business, knows that it does not pay to be chambermaid to a hog any more than absolutely necessary and that a hog in order to be healthy, should have his own crops."

"So whether pasture of rape or corn is to be utilized, the rational necessity is a fence which will hold the hog where you put him and not allow him to do damage to other crops."

"In every rotation the field should be so fenced that the hogs can do all of the harvesting possible."

"The cafeteria system of hog feeding is the most profitable and 'hogging down fields' is the most economical way to have."

The making of artificial pearls is a considerable industry in France. The French craftsmen obtain fish scales from the Baltic fisheries, and use these shelly scales to give glass beads the lustre of pearls.

CURIOS OF A KING.

George V. Has Strange Memorabilia In His Collection.

Probably few of the thousands who visit Windsor Castle every year have seen the museum near the Equestrian entrance, in which King George treasures his private collection of curios ranging from walking sticks, says Answers.

Here you will see mementoes of every campaign of recent years, including King Theodore's cap and gold seal, presented to Queen Victoria at the conclusion of the Abyssinian war; the scarlet saddle, edged with gold, captured from the late Amir of Afghanistan; and the crimson banner of Wad Bishara, which fell into Lord Kitchener's hands at Firket.

Here, too, is to be seen a wonderful collection of old china, consisting of 10,000 pieces, and valued at three-quarters of a million dollars. One, a beautiful dessert service of Sevres ware, alone represents a value of \$150,000, while a breakfast service given to George V. on his birthday in 1910 by his daughters is worth \$50,000.

Among the furniture are the writing desk given by Henry VIII. to Anne Boleyn on her wedding day, and a Venetian chair, used by the Dukes and dated 1670. There is also a solid silver table of the same period.

The King's collection of feather cloaks is valued at \$50,000. They are composed of gold, black and crimson feathers from the wings of a now extinct species of parrot, and were given to George IV. by the king of the Sandwich Islands in 1824.

Not far away may be found the collection of walking sticks King Edward inherited from his mother, numbering 187 in all, many of them of great value. One, purchased by the Golden State in 1897, is carved to represent Wisdom and Polly, another, of Charles II., while a third, made from the wood of the luckless Alabama.

Not the least interesting feature of the royal museum is the collection of gold keys, presented to King George and his royal predecessors on the occasion of opening buildings, to each of which is attached a brief account of the ceremony with which it is connected.

Malay Prince Against Polygamy.

The Crown Prince Ismail of Johore, who has a strong bias for monogamy, has just left England for his native land, where custom expects him to remain staunch to polygamy.

According to the custom of the crown prince has to take four wives. The first wife is the choice of his father, the Sultan; the other three are chosen by the prince himself.

But the prince, having become a convert to British customs during his stay in this country, does not approve of this custom.

He prefers the English practice, particularly where it concerns the choice of a wife. He is likely to see an interesting discussion on the marriage question when his royal highness reaches his native land.

It is eight years since the crown prince went to Europe to be educated. He has a great regard for English institutions, and would like to see similar institutions adopted in his own country. He is afraid, however, that the population is not sufficiently educated for this to be done.

He has a great reverence for his father, the democratic ruler, and is a summons from his father, who will soon visit England, that necessitated the departure of the prince, who was probably as ruler, giving his father's absence.

Like his father, who has a large racing stud, the crown prince is an enthusiast of the turf. During his stay in England he was frequently in the "race course." He was, however, not an adept at selecting winners.

Prince Wore Right Hat.

The Prince of Wales changed his coat for what the English call a bowler on Flemington racecourse, Melbourne, Australia, when he found the members of the reception committee more ceremoniously than he had anticipated.

Joseph Chamberlain, who had been glad of the opportunity of making a similar change at Durban in 1902. When he reached that city during his South African tour, the Colonial Secretary caused some amusement by giving through the thronged streets wearing a helmet. Durban is not in the tropics, and the majority of Durbanites never wear helmets. Straw hats and soft felt are the usual things seen.

Seeing the light only on very special occasions.

The Colonial Secretary's visit ranked as one of these, so a wonderful collection of antique toppers was displayed in his honor. The Durbanites were trying to pay a compliment to Chamberlain by looking English, and the great man was attempting to look Durbanian in a helmet.

King Pays Penny for Seat.

In the soft sunshine a man entered Hyde Park, London, with a companion, and after a short stroll they sat down in the shade of a tree, and chatted for a while.

"What did you get for a penny?" asked one of them.

"A threepenny bit," replied the other.

"Give you sixpence for a penny?" "So will I," said a photographer. "Give you a shilling for a penny," said the policeman.

"Let's have your bob," replied the man who had paid for his chair was the King of the Belgians.

J. Bull, Shoemaker.

British leather manufacturers made 70,000,000 pairs of army shoes for all the allied armies, including the Americans.

To make larger loaves from the same quantity of flour, and more loaves per barrel, use Purity Flour, the flour with the full strength of Western Canada Wheat.

Just as good for cakes and pastry as it is for bread.

THIS MAN DREADED TO SEE NIGHT COME

Was So Restless He Couldn't Sleep And Daylight Was Always Welcome.

"With the exception of a little milk toast, which I ate my diet for more than eight weeks, could not eat anything," said Capt. Geo. W. Womble, residing at 105 Jennings St. Knoxville, Tenn., a highly respected citizen of that city. "I am now able," continued Captain Womble, "after taking two bottles of Tania, to eat practically anything. I had a bad form of stomach and intestinal trouble for a long time and for months my condition had been such that I suffered agony. I got so I could not eat the simplest food. I tried doctor after doctor and all kinds of medicine but nothing that was prescribed to me seemed to do me any good. I had terrible pain in my breast just over my heart and for weeks and weeks I got no relief.

"I finally got so nervous that I actually dreaded to see night come as I could not sleep and was always so restless that I would rejoice to see daylight come. I was also constipated all of the time. In fact, life seemed a burden and I was so miserable that I was almost on the verge of despair. Several of my neighbors told me about Tania and advised me to try it.

"I am personally acquainted with Mr. Dan M. Chambliss, of the firm of Kuhlman & Chambliss, and when I told him of my condition and how I suffered he advised me to begin taking Tania without delay and that it had relieved hundreds of the best people in Knoxville. I have now taken two bottles of Tania and am giving you this testimonial in the hope that it may induce others to take it. Since taking a medicine I actually feel like I had been made all over again with the youth, energy and ambition of a sixteen year old boy."

TWISTED TERMS!

We Britons are the most shameless robbers and mutilators of words in the world. We take a foreign word, but are not content to use it as taken. We must change and corrupt it. Take "vinegar" as an example. We stole, or borrowed "vin aigre" (sour wine) from the French, and promptly made up, on the phonetic principle, the one word "vinegar". We could not let "gooseberries" alone, but must needs corrupt a respectable and sensible word into "gooseberries". The bush on which this fruit grows is a variety of goose, and so the name held sense. But "gooseberries"!

"We wonder what the 'verdict' will be in a certain case, but where did we get the word? By jumbling the two latin words "ver dictum"—a true saying—into "verdict."

We have behaved worse to sacred words, possibly, than to any others. Many might think that "The Bible" is the name for the Scriptures, was as right and uncorrupted. Not so! We took the Greek name "Ta Biblia," which means "The Books," and twisted it into "The Bible"—one book!

The silliest of all our corruptions is that connected with the word, "German." We have "German measles"—and wish the Him wouldn't send them over here. We may even feel ashamed that we own "German silver." But "German" should be "germane"—like, or akin to. There are no German measles, and no German silver! Hundreds of other examples could we give. Small wonder it is that English is a puzzling language to learn!

WHEN I HAVE TIME.

When I have time so many things I'd do To make life happier and more free For those whose lives are crowded now with care; I'll help to lift them from their low despair.

When I have time! When I have time the friend I love so well Shall know no more those weary, toiling days; I'll lead her feet in pleasant paths always And cheer her heart with words of sweetest praise.

When I have time! When you have time! The friend you hold so dear May be beyond the reach of all your sweet intent, May never know that you so kindly meant To fill her life with sweet content— When you had time!

Now is the time! Ah, friend no longer wait To seek loving smiles and words of cheer To those around whose lives are now so drear— They may not need you in the coming year— Now is the time! —From the Herald and Freeholder.

OLD SONG FAVORITES OF 1880-1890

Those That Were Popular in Days of Sentimental Melody and Poetry.

Sitting today in an old reclining chair by the inglenook, a constant reader of the Forty Year Ago column and considerably frosted on the pumpkin. I have been thumbing over a portfolio of the old songs we used to sing in those good old days, and I am here to tell you that I wouldn't swap the memories they arouse for all the arias and high Cs that distinguished artists ever put over the footlights. I make one exception—that was Patti's "Last Rose of Summer." That always did hit the spot, even though the old girl sang it on compulsion.

Do not misunderstand me. I am far from—both feet. Those higher flights of song have their uses, like Shakespeare and the musical glasses. But the only associations they awaken in my mind are those that are linked with footlights, artificial scenery, sounding brass, bareback performers, ushers and swallow-tail coats. They have no place in those secret chambers of the heart where hang the portraits of the girls we used to love from 16 up to the matrimonial line.

"They have no power to evoke memories of mellow moons, sighing winds, distant daisies, lights gleaming in the sycamores, homesteads by the sea, morning glory vines, mocking birds, home and mother not to mention the gardens of Gambrinus and the tremulous melodies of the homeward serenades.

For these, give us the good old songs that we used to sing in the dear days of youth and heard sung so often by our favorite minstrels of the boards, now alas, sung or heard no more. And none, with a kindred kick have come to take their place.

Do you remember that night—that one bright particular night—that you took your light guitar and went with the boys to her window and sang, "Alice, Where Art Thou?" We do. Alice wasn't her name. None of the names that were attached to those old songs—Arabella, Leonora, Genevieve, Georgiana, Juanita, Kathleen—were ever borne by the sweetest whose face was in our hearts—we sang them.

Our Alice was named Lizzie—she's one of those gray-haired mothers now. That's her boy that's president of the Quality Hill Bank. It seems but yesterday that we lined up, four of us, at 1 a. m. beneath her window and a full August moon, and roused the neighborhood with:

"The birds are sleeping gently, sweetly, by a gleameth bright, Her rays tinge the forest and all seems dead, The winds sighing by me, cooling my fevered brow, The stream flows as ever, but, Alice, where art thou?"

Come to recollect! Alice didn't show up that night, but her father did. He was rather a crusty old fellow, who didn't like to be disturbed.

That quartet went in strong on the sentimental stuff—but, of course, every member of it was in love. "Sweet Marie" was a prime favorite. Have you forgotten it? I've a secret in my heart, Sweet Marie, A tale I would impart, love, to thee, All the world is full of spring, full of warriors on the wing.

And I listen while they sing, Sweet Marie, Every day in the dell knows my secret, knows it well, And yet I dare not tell, Sweet Marie, Come to me, Sweet Marie, Sweet Marie, come to me, Not because your face is fair, love, to me, But that soul so pure and sweet, makes my happiness complete.

"Feeling fine!"

—A few days ago, though, I felt pretty miserable—kind of tired and downy. I must have been very much run down, and someone recommended—**Dr. Wilson's HERBINE BITTERS** An old fashioned, natural preparation made from Dandelion, Magnolia, Sarsaparilla, and other purifying herbs, which tend to relieve Dyspepsia, Jaundice, Liver Complaints and Constipation. It purifies, enriches the blood and builds up the whole system. Try a bottle and get back that pep! feeling you used to have. Price, 25c. Bottles, 50c. and 1.00. Sold by all druggists. The Braxley Drug Co., Limited, St. John, N.S.

Makes me later at your feet, Sweet Marie. Talk about "sweetness and light"—shows us a song of these latter days that can touch "Sweet Marie" for the very essence of saccharine delight! A companion piece—as the book agent would say—was the "Spanish Cavalier" full of romance and with a little moral advice thrown in. Let's see what was the tune? O, yes—A Spanish cavalier stood in his retreat, And on his guitar played a tune, dear, With music so sweet, he'd oftentimes repeat. The blessing of my country and you, dear.

Say, darling, say, when I am far away, Sometimes you may think of me, dear, Bright sunny days will soon fade away, Remember what I say and be true, dear. And true she was, we'll warrant—if not to the finger, to some other fellow who perhaps sang it just as sweetly. Of course, "Juanita" and "Genevieve" ought not to be forgotten, though we fear they are the standbys of the roving quartets of those good old days.

Then there were the parlor melodies—the songs we used to sing late into the nights as we congregated around the piano or the organ. There was one old song, we remember that voiced the very atmosphere of those choral home parties. It was "Maggie Murphy's Home." The chorus went in this fashion: On Sunday nights 'tis my delight and pleasure, don't you see, Meeting all the girls and all the boys that week down with me. There's an organ in the parlor to give the house a tone. And you're welcome every evening at Maggie Murphy's home.

We were mighty strong for the "far-away" songs. "The Banks of the Wabash," "My Old Kentucky Home," "The Blue Alsatian Mountains," "The Yellow Rose of Texas" and "Mid the Green Fields of Virginia"—they were very mellowing to the organ, as Silas Wegg used to say. "Down on the Farm" was a great favorite, though the most of us had never been on one—perhaps that was the reason. But, believe us, it made a fellow hanker for the greenery all right and long yet. It was full of the heart-pulling stuff. Of course you have not forgotten that one.

When a boy I used to dwell in a home I loved so well, Far away among the clover and the bees. Where the morning glory vine round the cabin porch is growing, And the robin redbreast sang among the trees.

Many weary years have passed since I saw the old home last, And memory dear steals o'er me like a charm. Every old familiar place, every kind and loving face, In my boyhood's happy home—down on the farm—

From the seductions of the farm to the glimmers of the city was an easy transition in those days of eternal youth. We went in a good deal for the melancholy stuff—we

were a tender-hearted bunch. "After the Ball" always had a tender appeal for us—it gave us a feeling of having had a society ding and realized the shallowness of it all. The chorus ran: After the ball is over, after the break of morn, After the dancers' leaving, after the stars are gone, Many a heart is aching, if you could see them all, Many the hopes that have vanished after the ball.

And the girl that we loved and lost? We kept her memory green with "Dreamy Eyes That Haunt Me Still": Far away in memory's valley steals my heart in sweet delight, To my little sweetheart Allie, who was once my life and light. She has left me sad and lonely, tears unbidden come at will; She has left me only dreamy eyes and they haunt me still. She has left me sad and lonely wandering down life's rugged hill; She has left me nothing only—dreamy eyes that haunt me still.

With the "dreamy eyes" "No One to Love": No one to love, none to care, Roving alone in the world's wilderness; Sad is my heart, joy is unknown, For to my sorrow I'm weeping alone. No gentle voice, no tender smile Makes me rejoice or my cares beguile.

And now, girls, before we put the old portfolio away, we want to ask you: What's become of the good old "mother" songs? Are there no old gray-haired mothers in these days, or have they been forgotten entirely in the reign of jazz? We sure remember her in those old days and gave her plenty of space—and were none the worse for it, you may believe.

In our day "Mother" was right up to the front with the "Hallies," the "Genevieves," the "Juanitas" and the "Leonoras." Everybody sang about her—the vaudeville artists, the glee clubs, the music hall girls, the quartets and even her wandering boy with his foot upon the rail.

"Boys, Listen to Your Mother," "Be Kind to Mother When I'm Gone," "Just to See Mother's Face Again," "Why Does Mother Say So Long?" "Kiss Me Mother, Kiss Your Darling, Lean Your Head Upon My Breast," "The Boy's Best Friend Is His Mother," "As I Sat upon My Dear Old Mother's Knee"—these and a score of other popular maternal tributes come to mind. In one strain or another they voiced such honorable and tender sentiments as these: I'm not ashamed to call her mother, Even though her hair is turned to gray, I'm not ashamed to call her mother, Here upon the crowded street today. I've come back to cheer her lonely heart, I've come back to make the old place bright, I've come back to back in her sweet smile, I'm going home with her tonight.

Running upstairs instead of walking will increase the work of the heart by one-fourth. A lady was waiting to buy a ticket at the picture show when a stranger bumped her shoulder. She glanced at him, feeling it was done intentionally. "Well," he growled, "don't eat me up. You are in no danger, sir," she said. "I am a Jewess."

The Weymouth Courier

News of Weymouth

We regret to report H. L. Halliwell on the sick list.

Arthur B. Hivon spent the week end at his home in Melville Bay.

Frank Ouellet entertained a few of his friends at Bridge on Friday evening.

Mrs. Annie McNeil returned on Sunday from an extended visit to friends at Halifax.

Mrs. Esther McNeil and Miss Mary Boston returned from Digby on Wednesday.

Miss Mae Melanson of Port Gilbert, was the week end guest of Mrs. Joe Oiver.

Ennie Ambrault, postal clerk, is spending his vacation with Mr. and Mrs. E. R. Gaudet.

Chas. Oliver suffered a severe loss when fire destroyed his camp, and timber at Seabrook Falls.

Mr. and Mrs. E. P. Rice left on Sunday for their camp at Lake Weymouth where they will spend a week.

Miss Elizabeth Campbell went to Meteghan River on Tuesday, and will spend the summer at the Riverside house.

Miss Lillian Corbin spent the week end with her parents, Mr. and Mrs. Raymond Corbin, returning to Annapolis on Monday.

Judith O'Brien, H. P. Fillet, Miss Evelyn O'Brien and Miss Daisy Hallett motored to Yarmouth on Wednesday, returning in the evening.

Miss Jacqueline Stedman returned to her home at Church Point Friday morning, after spending a week with the Misses Ambrault, Cliff Street, Yarmouth.

John J. A. and Mrs. Gieson, accompanied by Mrs. Harrison Jones, motored to Windsor on Friday, where they attended the commencement exercises of Kings Collegiate school.

Mrs. J. A. Goodwin and her daughters, Misses Katharine and Ruth, of Weymouth, who were in Boston and vicinity, returned to Yarmouth Friday morning and proceeded by the D. A. R. to their home.

Miss Amanda Kinney, who for the past two years has been in Massachusetts, arrived in Yarmouth Friday morning and proceeded by the D. A. R. to spend a month's vacation at her home in Weymouth.

Mr. and Mrs. Louis Melanson arrived on Saturday from Macarons, Dominican Republic, and are the guests of Mrs. Melanson's father, J. C. Muise. This is their first visit home since their marriage two years ago.

The concert given by the Seabrook Comedy Club on Thursday last at the Green Lantern Theatre, was a grand success. The participants deserve praise and credit for the remarkable way they acquitted themselves. Special mention however should be made of the vocal duet by the little Misses Pauline and Evelyn Melanson as well as the piano solo by Miss Pauline Melanson. The hall was literally packed, not even standing room available. The proceeds which were for the memorial fund for the recent flood victims, amounted to over one hundred dollars. The following is the programme:

Opening number—Piano duet "Outrigger" by Misses Leanie and Eunice Melanson.

Vocal Solo—Dr. H. J. Pothier "Some-where a voice is calling."

Monologue—Dangerous Dan, N. Gaudet.

Song—When you came into my heart, Misses Pauline and Evelyn Melanson.

Dance—Clog and step, Colin Langford.

Dialogue—Prohibition, by N. Gaudet and P. Belliveau.

Vocal Solo—I'll take you Kathleen, by Fletcher Bartlett.

Monologue—My best girl by R. D. Eustrom.

Piano Solo—Up to date March, Pauline Melanson.

INTERMISSION.
During which ice cream was served to the audience.

PART II.

A Promise that has made good

When KING COLE TEA was in its infancy we associated with it the slogan—"You'll like the flavor." It was a modest statement, yet when you come to think of it, it covers all that you are looking for in the tea of your choice. How well KING COLE has lived up to its promise is proved by the many thousands of users today.

Perfectly packed in bright lead foil and price marked on every package.

"YOU'LL LIKE THE FLAVOR"

ROOSTER WEEK JUNE 20 TO 27

The great loss of eggs due to the presence of the male bird in pens of laying hens after the breeding season, is hard to estimate. Eggs are a very perishable food product. In warm weather fertile eggs develop a partial incubation at any temperature above 65 degrees which results in loss of quality. The loss of the damaged eggs is not the only loss—there is the loss of demand and the resultant slacking of sales of eggs. The poor quality product coming on to the market causes a reduction of demand for eggs, prices fall below production cost and injury is done to an industry which could be avoided. The prompt removal of the male bird from the pen at the end of each breeding season would help to insure quality to eggs placed on the market during the summer months. The infertile eggs are not so subject to the change due to the weather conditions and are better eggs for storage purposes.

The average country dealer who handles eggs does not notice that the eggs are spoiling when placed in the store, or as often the case, in the store window. A piece of meat or butter would show indications of loss of quality in a short time if exposed to the sun and heat. The damaged egg very often passes from one dealer to another until it finally reaches the consumer. The

consumer is discouraged with the poor quality of eggs and readily decides in future to invest in other food products.

The producers of eggs should remove or kill off the cock birds after the breeding season, collect the eggs twice each day and keep eggs for market in a cool dry place until they are sent to the store or customer. The marketing should be done regularly and care should be taken not to expose the eggs to direct sunlight on the way to market.

Let every poultry breeder in Nova Scotia select the week of June 20th to 27th for "Rooster Week" and kill off all the male birds in the flock that are not required for future use. If this one suggestion were carried out properly in Nova Scotia it would save thousands of dollars worth of good eggs and also result in a great increase in the demand for eggs of quality.

Russians from the Black Sea, who are accustomed to bathe naked, have increased the popularity of the beaches in Turkey, especially a fine strip of sand on the Marmara north shore known as Florida. There, without let or hindrance, men, women and children, undress on the open beach and bathe in costumes that seem quite conventional there.

Birmingham, Ala., claims the largest Sunday School attendance in proportion to population of any city in the world.

The Bride and the Birks-Box

The Birks' Year Book pictures many distinctive wedding gifts. If you haven't a copy we will be glad to send you one.

Lowered cost allows us to reduce prices on several lines shown in the Year Book. This saving will be returned to you.

Reduced

Birks

Halifax

QUITE apart from the acceptability of the gift itself the Birks takes an additional pleasure when it comes in a Birks-Box.

Behind that box lies the reputation for high quality built up throughout our forty years of business.

From the standpoint of the giver, too, prices at Birks are always fair and reasonable.

GRAY-DORT

The New Model

Seldom has a car won such immediate and widespread popularity as the Gray-Dort with its new and wonderfully beautiful bodies.

Everyone who has viewed this body design has spoken of the Gray-Dort as the unquestioned style leader of its field. It has been instantly lifted into the class of cars costing at least \$700 more.

From a value standpoint, the new Gray-Dort has not a rival. It is the motor car sensation of 1921.

The new model is now on view. You are urged to see it at once.

DISEASES OF BEANS

(Experimental Farm Note.)

Bean Mosaic is one of the numerous hereditary and infectious plant diseases which have come into prominence during the last few years. It has caused considerable loss in the bean growing districts of Southern Ontario and has been noted in Manitoba, Quebec and the Maritime Provinces.

The leaves of infected plants show irregular mottled and crinkled or puckered areas. The raised or crinkled area is of a normal green and the remainder of the leaf smooth and of a dry yellow-green colour. At first only a small portion may be of the yellow-green colour; this, however, gradually increases until the whole leaf and perhaps all the leaves on the plant assume the same shade and texture. Infected plants are usually small and readily crowded out or hidden by the more vigorous, healthy ones.

Under normal field conditions, the plants set few or no pods at all and the pods produced are usually small. This naturally greatly reduces the yield, depending on the percentage of infected plants in the field. Diseased plants, however, are found producing normal or nearly normal yields. These plants may have been infected late during the growing season. Seed from diseased plants is usually but not invariably infected, and produces diseased plants. Such seed has a low germinating quality and frequently produces weak plants. Sufficient is known concerning the loss which may be caused by this disease to justify every grower in taking precautions to avoid and eliminate it.

It is carried in the seed from year to year and spreads from diseased to healthy plants under field conditions. Just how this transmission takes place is not known. However, it can be transferred by crushing diseased leaves and then rubbing the extruded juice on the leaves of healthy plants. As this can be done quite readily it is possible that it may be spread by pickers, cultivating machinery or possibly by insects.

CONTROL

In view of the fact that diseased plants produce seed carrying the virus, which in turn produces diseased plants, and that the disease spreads in the field under normal conditions, there are certain precautions which should be taken until more satisfactory methods have been discovered. The grower should obtain his seed from fields or stock which was not infected the previous season. If he does not know of a disease free field he should obtain it from exceptionally high yielding fields. Following this, he should go over his seed producing field repeatedly during the summer, removing all diseased or weak plants. He will also gain advantage by selecting his seed from healthy, vigorous, high-yielding plants.

Hand-selection of seed, seed treatment or spraying will not control the disease.

After a month's search for a flat, Paul J. Richards, of Digby, Ia., heard of a six-room flat that could be had for a rental of \$60 a month. He rushed to see the agent but the flat is still vacant. The proposed lease provides that there were to be no children, no dogs, no piano and no phonograph allowed in the flat, while even visitors with children would not be permitted to enter. Also, lessee would meet own heat and light bills.

Province of Nova Scotia County of Digby

In The Court of Probate

In the matter of the Estate of George A. HAVY, late of Norton in the State of Massachusetts, Carpenter, Deceased.

To be Sold at PUBLIC AUCTION on TUESDAY the 28th day of JUNE A. D. 1921, at eleven (11) o'clock in the forenoon, at the COURT HOUSE in Digby, pursuant to an Order for leave to sell, granted herein by the Court of Probate for the said County of Digby, on the 12th day of May, A. D. 1921:

ALL the estate, right, title, interest, claim and demand of the said George A. HAVY at the time of his death, of, in, and to the following lands and premises, situate and being at Acadia Valley in the County of Digby, and bounded as follows: First—That lot commencing at the Brook on the lower side of the Stone Bridge (so called) and running the course of the main road toward the old Valley Mill dam, until it comes to lands formerly owned by Mrs. Maurice Taylor, thence westerly down Mrs. Taylor's line to low water mark, thence easterly down the Channel until it comes in line with the eastern line of the Farm known as the Stephen Warner Grant, thence westerly up the small brook to said Stone Bridge at the place of beginning, containing five acres more or less.

Second—All that lot beginning at the brook at the lower side of the Bridge formerly called Bander's Bridge, thence following the course of the said brook to the Grand Jogin as far as low water mark, thence following the line of the Jogin northwesterly thirty rods to lands belonging to George Smith, thence southerly along the line of said George Smith's land to the Public Highway, thence southwesterly along said Highway to the place of beginning at the said bridge, and containing two acres more or less.

Terms—Ten per cent. deposit at time of sale, balance delivery of Deed.

BERNARD HAVY, Administrator

Administrators Notice

H. T. WARNE - Digby

Madam LaTour, the world's greatest elephant and wild animal trainer, with her three herds of elephants, including the largest and smallest in captivity, now with Sells Floto Circus coming to Digby for 2 shows on Saturday, June 25.

THERE WERE JAZZ TUNES PLAYED THAT DAY

That made the whole crowd sway, made 'em say, "made 'em pray."

When the long trombone began its groan

"The 'chimps' in the cages just to moan"

"Take me back, leader man, to my jungle home,

no more to roam!"

The lion shook his mane so shaggy,

For the music hit the air so raggy,

Oh, so biggy Oh, so draggy Don't trip me Maggie,

Bing! Bang! Don't you leave me alone!"

CHORUS:

See the kangaroos, as they dance by twos,

That sidshow giant will lose his shoes,

Clogging with the music that has killed the blues,

Oh, jazz band man, don't stay your hand!

The big griffin has got sore throat—

"Who'll give him a collar and an overcoat?"

The old goffie drank sarsaparilla—

He's cutting up just like General Villa

Look! Look! There's trouble with the young

chumpunk,

He's stolen the check to the elephant's trunk,

I thought I heard the hip, hippopotamus cough,

Hold on to your seats or we'll all fall off,

While the jazz band plays and the big crowd sways,

The world under canvas and it's in a daze,

If you don't stop that time I'll join in the craze

At the Sells Floto Jazz Band Ball!

Wedding Bells

HAIGHT-HUTCHINS.

An interesting event took place at the Baptist parsonage, Port Maitland, on Saturday evening, June 11th, when Mr. and Mrs. H. H. Haight, of Rossmore, N. S., and Miss M. Hutchins, of Port Maitland, N. S., were united in marriage by Rev. R. S. McEwen. After spending a few days in Port Maitland, Mr. and Mrs. Haight will return to Rossmore where they will reside.

SUTHERLAND-FINIGAN.

A very pretty wedding took place at St. Andrew's, N. B., on Wednesday afternoon, June 2nd, at 2:30 o'clock at the home of Mr. and Mrs. George B. Finigan, when their eldest daughter, Miss Octavia, was united in marriage with Guy Donald Sutherland of Oxford, N. S. The ceremony was performed by Rev. A. J. Tingley, assisted by Rev. George B. Kyle, of the Presbyterian Church, Oxford, in the presence of only immediate relatives of the contracting parties, beneath an arch of white lilacs. The bride, who was attended, was given away by her father, wore a traveling costume of castor-chiffon broadcloth with marlin tie and hat to match of corded silk with ostrich of face in blue and black and carried a bridal bouquet of Ophelia and sweet peas.

Mendelsohn's wedding march was played by Miss Anna Outhouse, an aunt of the bride. Immediately following the ceremony a dainty luncheon was served in the dining room, which was prettily decorated with white lilacs. Mrs. G. W. Mallory presided at the table, which was centered with a large bouquet of yellow tulips. The bride's table panics and lilacs of the valley decorated the bride's cake. Many beautiful gifts were received of cut glass, china and silver, etc., including a check from the bride's parents, and a check of silver from the groom's parents.

The groom's gift to the bride was a substantial check to the planet's pretty crown and pearl brooch. The happy pair left on the afternoon train, amid showers of confetti, on a honeymoon trip through the Annapolis Valley after which they will reside in Oxford, where the groom, who was at one time on the Bank of Nova Scotia staff in St. Andrews, is secretary-treasurer of the A. A. Sutherland Lumber Company. Many friends will be visiting Mr. and Mrs. Sutherland many years of future happiness, while the young friends of the bride sincerely regret her departure from St. Andrews. The out-of-town guests attending the wedding were: Mr. and Mrs. W. Sutherland, Rev. George R. Kyle, of Oxford, and Miss Ruby Sutherland, of Halifax, sister of the groom.

WINCHESTER-WEBSTER.

The brilliant sunshine of "A day in June" shed its radiance over one of the most beautiful of the seasons in the Annapolis Valley on Wednesday morning, when Miss Jean Margaret Webster, daughter of Mr. and Mrs. William L. Webster, of that town, became Mrs. W. Winchester, of Digby.

The bride, who was attended by her mother, wore a traveling costume of castor-chiffon broadcloth with marlin tie and hat to match of corded silk with ostrich of face in blue and black and carried a bridal bouquet of Ophelia and sweet peas.

COMING! Do Not Miss It!

Shubert Concert Co. Oakdene Hall, Mon., June 20th

Under the auspices of the Choir of Bear River Baptist Church (Curtain at 8.15 p. m.)

Do not fail to hear this Peerless Company of High Class Artists in Vocal and Instrumental Selections, popular and classical.

The troupe includes:

Mr. Webster Fraser, foremost tenor and leader of the Fraser Quartette.

Miss Mary Lusby, Eastern Canada's Premier Violonist and Pianist.

Mr. F. L. Belyea, the powerful deep Bass, whom you all remember thru his church solo work.

Mrs. D. W. Fraser, noted Canadian Pianist, Organist and Composer.

Oakdene Hall, Bear River, N. S., is the place. Monday, June 20th, is the time.

Concert starts at 8.15 p. m. All tickets 50c—one half dollar.

Local and General

Miss M. Sullivan has opened up an Ice Cream parlor in town.

Community service was held Sunday evening at the Baptist church when quite a large number of communicants remained.

A Band meeting was held last Monday evening, when the Band was reorganized.

Mr. R. Purdy was appointed Secretary of the Band.

The Ladies Circle of the Baptist church met Tuesday evening at the home of Mrs. W. D. Clute, when a very pleasant evening was spent and delicious refreshments served.

The first tennis test of the season will be held at the court on Tuesday afternoon of next week. All who have not yet paid their dues, take notice, and get in line for the season.

The timely showers of Saturday night and Sunday were a great blessing to the farmers in this and neighboring communities. The cherry crop will undoubtedly be saved after the rain, and all fruits and vegetables have taken on a new lease of life.

Of course you have heard Webster Fraser, leader of the Fraser Quartet and foremost Tenor. Well he is coming here Monday next with the Shubert Concert Company and will be heard at his best in Solos, Quartets and duets, both popular and classical. Don't miss him at Oakdene Hall Monday evening.

The evening service in the Baptist church next Sunday will be given over to a musical program. Mr. Belyea, well known to all music lovers in Bear River, will be present with a quartette, and a splendid program will be given. The regular choir will also be in attendance. All are welcome at this service of songs.

There was a joint meeting held this week in the G. W. V. A. Club rooms, of Merchants and Members of the G. W. V. A. to discuss the arrangements for the Carnival this year. July the 20th, was selected as the date. A special feature will be that the Merchants will have something special to offer to the public. At a later date this will be given in detail.

Steamer Bear River surpassed her record for trips last week, sailing on Monday, returning on Wednesday, taking the Masonic excursion to Annapolis on Thursday, again sailing for St. John on the same night, and returning to Bear River on Saturday afternoon. Heavy wind and fog forced her to put back into St. John on Friday night, or she would have been one day further ahead.

WALDECK LINE.

Our Pastor Rev. E. O. Steeves, is having special meetings here.

Sydney Klumbeister, of St. John, has recently been visiting at the home of Jeffery.

Mrs. Dwight Hubley went to Annapolis Royal the past week where she expects to remain the summer.

Mr. and Mrs. George McClelland, of Glenora, spent Sunday with Mr. and Mrs. Edgar Robbins.

Mrs. Sillman Henshaw with her son Russell and daughter Alva attended the baptism at Hill Grove Sunday morning June 6th.

Mr. and Mrs. Wm. Gress and George Laromont went to Hampton, Tuesday returning the same day.

Kenneth Apth, of Annapolis Royal, and Harry Apth, of Bear River, spent the week end with their parents, Mr. and Mrs. Samuel Apth.

Miss Jessie Gress spent a few days the past week at the home of her brother Roderick, near Deep Brook.

Mr. Samuel Apth, Mrs. Avery Rice and William Laromont went to Hampton, the past week to remain an indefinite time. They will receive medical treatment from Dr. Hamilton while there.

Henry Ward, of Newton Upper Falls, Mass., is spending a few days with Mrs. Maggie MacNeil.

John Ward after spending a few days here returned to Boston Saturday.

Henry Ward, John Ward, Mrs. Otis Marshall, and little Rachel Marshall enjoyed a ride Wednesday to Upper Granville. They spent the day with Mrs. Marshall's daughter, Mrs. Hugh McGowan.

Mrs. Oscar VanTassel and baby, of Digby, spent Saturday night with her father, Jeffery Veno.

Miss Ada Young, of St. John, spent a few days last week with friends here.

Jeffery Veno and son Ralph made a trip to Bridgewater, Mr. Veno's old home, last week in Ralph Veno's car. They called at Lunenburg, New Germany and Springfield.

PERSONAL MENTION

A. G. MacIntyre went to St. John on Monday.

Mr. and Mrs. A. B. Marshall went to St. John on Tuesday.

Mr. and Mrs. C. E. Colwell are guests at the Grand Central.

Rev. Carl Mack, who is the coming Methodist pastor, was in town for a few days.

Miss Ruth Lewis, of Yarmouth, visiting her school friend, Miss Edith Lovett.

Miss Everett Peach, of Marstonhead, is visiting her mother, Mrs. Ed. Cohoon, for the summer.

Rev. W. J. Wright left Wednesday to attend Methodist Conference, which is being held in Berwick.

Robt. Gair, Jr., and Andrew Muirhead, of New York, left on Digby boat on Monday after a week's trip in the woods.

Robert Smith and son Gilbert motored to California on Saturday to spend the week-end at home, returning Monday morning.

Dr. Colcoe, of Tarrytown, N. Y., who has been a guest at the Grand Central for the last two weeks, left for home on Friday of last week.

Mr. and Mrs. E. F. Powers returned to their summer home at Victoria Bridge on Wednesday of last week. Mr. Powers returned to St. John on Monday.

Prof. Upton Hill, of Acadia College, who has been assisting with some chemical experiments at the new pulp mills, returned to Wolfville this week.

Mrs. L. J. Lovett, Pres. Women's Institute, Mrs. J. H. Cunningham, Vice Pres., and Mrs. W. Wade, Chairman of the Publicity Com., left on Tuesday for the annual Convention to be held at Turo, on Wednesday and Thursday of this week.

A large number of Bear River people attended the Masonic reception and dance given at the Myrtle House in Digby last Thursday night. These included Dr. and Mrs. L. J. Lovett, Mr. and Mrs. L. V. Harris, Mr. and Mrs. J. H. Cunningham, W. R. Belyea, Miss Penelope, et al.

A very pleasant outing was enjoyed on Saturday when Mr. and Mrs. A. G. MacIntyre and family, Mr. and Mrs. J. H. Cunningham, Mr. and Mrs. L. J. Lovett, Misses Edith Lovett and Ruth Lewis, Mr. and Mrs. H. S. Ford, Messrs. Gair, Muirhead, and Jenkins, motored to Sandy Cove for the day.

On Saturday night at the Baseball meeting the Grounds Committee brought in their report and presented it to the meeting. The Committee had investigated the location of all the available grounds and endeavored to find out upon what terms they could be procured. Owing to short time the committee was unable to present a final report but they assured the meeting that they therefore would meet at the strength of this report the meeting decided that organization of a regular club should take place without any further delay and they therefore resolved to meet at the Green Lantern Picture Hall on Friday evening, inviting all local residents who were interested in Baseball to meet with them. A committee was also appointed to look up all the material available for making a team and to report at the meeting. Thanks are due to the management of the Green Lantern for the offer of the use of their Hall for the meeting.

LOWER GRANVILLE

Mrs. F. W. Bishop, of Paradise, with her son, Reginald, motored to this place on Saturday to visit her cousins returning to their home Sunday evening.

Andrew Baxter has bought the cottage lately occupied by the Rev. Mr. McWilliams.

H. H. Anthony opens his Ice Cream business to the public next Saturday evening. May all his customers be ready to test the good quality as in previous seasons.

Capt. J. V. and Mrs. Robie motored with their son Valentine to Kings County on Monday and spent a week with their children.

THE RELIABLE REMEDY

CAKED UDDERS

EGYPTIAN LINIMENT

"I have now used Douglas' Egyptian Liniment for 2 years, and find it gives the best satisfaction for many ailments."

I used the liniment on a cow during the winter for lung trouble. One bottle cured each case in 24 hours. I therefore find it good for rheumatism, sprains and lumbago. (Signed) ALBERT J. ALLEN.

This Liniment will also bleed at once and prevent blood poisoning.

DIGBY NECK AND THE ISLANDS

CENTREVILLE

Congratulations to Mr. and Mrs. C. O. Dakin, on the arrival of a baby boy, Wesley Allen.

Mrs. John K. Thompson and three children, of New Brunswick, arrived here Saturday and are now at the home of Mrs. Emma Thompson.

Rev. Mr. and Mrs. Rockingham, and two children, arrived here on Thursday last. Mr. Rockingham will fill the vacancy left sometime ago by the former Baptist pastor, Rev. W. A. Snelling.

A number from here attended the first Social Dance at the new hall at Watford on Saturday.

Mrs. George Hodsworth, of East Saugus, Mass., is visiting her mother, Mrs. Rachel Hodsworth.

Mrs. Gladys Phenix, and two children, who have been visiting her parents at Truro, returned here this week.

Miss Edith Outhouse, spent the week end with her parents at Truro.

Miss Mae Dakin left Monday afternoon for Deep Brook.

Mr. and Mrs. William Titus and daughter, Rita, arrived here on Saturday. Miss Jennie Shaw, and accompanying her new home, formerly owned by Mrs. Titus.

A. M. Gilbey, of Digby, spent the week end with his daughter, Mrs. Francis Boulton.

Mrs. Grace Murray, of Yarmouth, is the guest of Mr. and Mrs. R. C. Bowyer.

Mrs. Terence Robideau and little daughter, of Medford, are the guests of Mr. and Mrs. Edwin Ellis.

Wiley Poole is the guest of Capt. and Mrs. Fred Barkhouse.

Outdoor week made a flying trip to St. John last week.

Mrs. Harriet Cameron and her daughter, Mrs. Kiliam, arrived from Yarmouth on the 13th, by S. S. Cans.

Frances A. Lent returned from Digby last week with Miss Ida Thompson.

Mrs. Warren McLaren, of East Bedon, Mass., arrived here the 11th to visit her mother Mrs. Howard Titus.

The Twelfth Club held a special in the Baptist church on Thursday evening the 9th which proved to be a success in every way. This Club consists of a number of the young girls in the community as their President. The club presented the Church with \$43 toward furnishing new carpets for last winter.

Master Thomas Hirsig's birthday party on Friday. Some nine or ten boys enjoyed a pleasant evening. Mrs. Hirsig served a beautiful luncheon for the boys which they heartily appreciated. Tommy many more happy birthdays.

Capt. Arthur Porter, who has been to St. John has returned.

Mrs. Margaret Cosson, of Truro, is visiting her daughters here.

Capt. F. B. Lent left for St. John via S. S. Keith Carr.

SAVED FROM LIFELONG MISERY

And a Dangerous Operation, by Taking "FRUIT-A-TIVES"

MRS. M. J. GORSE

"Suffered with all the symptoms of chronic constipation, with chronic Constipation and constant Headaches. I had pains low down in the back and sides of the body. I tried various remedies without relief, and then put myself under a doctor's care and he advised me to have an operation. I refused."

Then, I started taking "Fruit-A-Tives"; and from the outset, I felt better, and this medicine has completely relieved me of all my misery and suffering. My weight was only 145 pounds and now it is 168 pounds. I am free of pain and headaches and the terrible Constipation and what saved me from misery is the splendid fruit medicine, "Fruit-A-Tives!"

MRS. M. J. GORSE

Box a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-A-Tives Limited Ottawa, Ont.

LONG BEACH

Mr. and Mrs. Fred M. Dakin, of Centreville, Mrs. Rachel Morrill, Arnold and Harold McCully, Anthony and Gilpin, of Truro, and Mr. and Mrs. Stark, of White Cove, spent last Thursday evening here with the Boucher-Morehouse family.

Arch Hordern, Truro, took dinner with the Boucher-Morehouse family on Wednesday.

Mrs. Boucher-Morehouse and daughter, Mrs. Veno, visited Mrs. Truham Haywood, Truro, Thursday last.

St. John, his son Lester, Miss Irene Trask, Little River, and Victor St. John, called on us Sunday evening.

The Spell of Quebec's Roadside Oven

By courtesy of the C.P.R.

A Quebec Roadside Oven.

No housewife in America is so independent of the price of coal and oil as the habitant woman of Quebec, who can bake her bread over a hot brick and coal.

These roadside ovens, and no doubt many more, which are scattered all over the province, are the result of the fact that they are made by hand and fit in perfectly with the habits and the habits of life in general obtaining in this province, so pre-eminently the land of the home-made.

In many months of traveling in Quebec we have encountered scores of these ovens. But because they are so common, one is inclined to take them for granted. Each architect builds to suit his own fancy or else to come in line with the possibilities of the material at hand. Leaks are overcome with smudges of plaster and added coats of white wash, but the oven itself remains as it is.

These ovens are along the Quebec roadside for two important factors in our national life. They stand for rural life, for farm life, and for the development of the country. And they stand for family life without which attempts at rural development have proved vain. The women of Quebec are among the most hard working women in Canada, and among the most contented. They have a little home with a curved roof, a tiny balcony and an out-of-door oven by the roadside, and they are happy. Every day they can "bake their bread" for all the cares with which they are surrounded. For, for them, there is an oven of character that can always be stretched to hold another loaf.

YOUR CUP OF TEA

Your cup of Tea means much to you. It is more than an item in the daily fare. It is the one thing that "rounds off"—or spoils—an enjoyable repast. Tea is fortunately so cheap in this country that there are few who cannot afford Choice Tea. The cost per pound is only slightly higher than ordinary Tea, while the increased pleasure you get from every cup you make is worth many times the difference. It is true also, that a FLAVOR-FULL Tea like KING COLE Orange Pekoe will actually spend further—that is, make more cups to the pound. KING COLE Orange Pekoe is prepared particularly for lovers of Choice Tea.

UNUSUAL QUALITY - EXCLUSIVE FLAVOR

Ask your grocer for it by the full name

TIP BURN OF POTATOES

(Experimental Farms Notes)

A trouble which is widely distributed and very prevalent in some seasons, and to which the name "Tip Burn" has been given, is to be found among our potato crops. This trouble takes the form of a gradual burning and drying-up of the leaves of the plants, often commencing at a comparatively early stage in their growth and, in many cases, if allowed to go on unchecked, slowly but surely involving the whole of the plants so that they die down a considerable time before the tubers are fully developed.

The appearance of this trouble in the fields is often mistaken by growers for Late Blight. There is, however, a marked distinction between the two for Late Blight may commence by attacking any part of the plants—leaves and stems alike—has a dark, water-soaked appearance and in its early stages, is damp to the touch, while Tip Burn invariably commences at the margin or tips of the leaves and has a decidedly dry appearance and touch with the exception of after rain. It also appears much earlier in the season than Late Blight has ever been recorded and does not cause the death of the plants so rapidly. Nor has it ever proven so destructive as Late Blight, although evidence has been obtained that in seasons when it is severe and where no effort is made to check, a considerable reduction in the yield of marketable tubers, due to the premature death of the plants from this cause, may result.

Investigators of this trouble are not yet in agreement as to the cause. The observations of some have led to the belief that a period of hot, dry weather during the growing season causes the leaves to throw off moisture more rapidly than it can be furnished by the plant, the result being the appearance of Tip Burn. This theory seems, however, to be disputed by the fact that the trouble is not found in the hot regions of the Western States where the temperature often becomes excessive and the air is especially dry.

More recent investigations lead to the belief that this burning of the leaves probably follows the operations of sucking insects. These investigations are not yet complete, but enough evidence has been produced to serve as a warning to potato growers to keep these insect pests thoroughly under control in an endeavour to avoid Tip Burn.

We have found in our experimental work with potatoes that Bordeaux mixture will to a large extent control this trouble. In 1918, when it was extremely prevalent, we had several plots to which, for the purposes of experiment, Bordeaux mixture was not applied. These plots suffered from a severe attack of Tip Burn and the plants were all killed down by the second week in August, while other plots on the same land, and to which, for the control of Late Blight, Bordeaux mixture was regularly and thoroughly applied, suffered to a very slight extent only, the plants remaining green until frost came. Bordeaux mixture acts as a repellent to the Leaf Hopper, as well as a protection to the plants. Many other cases, in addition to that referred to, have come to our attention, bearing evidence that regular and thorough spraying with this mixture will reduce to a minimum the ravages of Tip Burn.

IMPROVED SEED

The Dominion Department of Agriculture, through the Seed Branch, works in active co-operation with the provinces in the matter of improving grain and field crops. Money is provided to pay prizes in standing field crop competitions, at seed fairs and provincial seed exhibitions, and combined seed crop and cleaned seed competitions. The last named is a recent introduction. It has two distinct phases, the first consisting of a standing field crop competition and the second of threshed and cleaned seed in which the seed sown is judged in the granary of the competitor. The competitions must have at least fifteen entries in each, and the foundation seed must be of approved origin. The minimum quantities of cleaned seed that competitors must be prepared to submit to qualify for awards are: wheat, barley, peas, buckwheat and corn each 100 bushels, oats 200 bushels, field beans 25 bushels, clovers and timothy 15 bushels, and potatoes 150 bushels. The awards, except in the case of potatoes, are made on a basis of 65 per

LENIN—AND BOLSHEVISM

By Maurice E. Balk, Gordon College '24, in The Wage Earner

Vladimir Ilyich Ulianoy was born in 1870. He is, we are told, a nobleman. He was educated at the Simbrask Gymnasium and the Kazan University. He joined a revolutionary party while still a student. Early in his life he was exiled. Then he went abroad (to England) and spent the rest of his mature life outside of Russia. He wrote under the nom de plumes of Ilyin, Tulin and Lenin, almost exclusively in the revolutionary papers which were published in Geneva. At the time of the revolution in 1905 he was in St. Petersburg (now Petrograd,) but had no important part in the events of that period, for the movement then was purely of a proletarian character and the workers regarded it with mistrust and hostility.

He was one of the first to embrace the Marxian theory, and at the very beginning found himself at the extreme left wing of the movement. When the fatal event occurred in the social democratic party, this Ulianoy (now, rather than Nikolai Lenin) became the leader of Bolshevism. The American and British public by this time should be able to form a fairly shrewd estimate of Nikolai Lenin, who dwells in the Kremlin even more closely guarded than the last Czar of Russia, whose autocracy he has usurped and whose whips he has turned into scorpions. We have had carefully drawn portraits of him by H. G. Wells (Russia in the Shadow) and Bertrand Russell—two very skilled exponents of the art of letters and a slighter sketch by a lady sculptor who went to Russia, as Dr. Johnson said, to "chop up" Lenin's head. The lady, doubtless, was chiefly concerned to make an animated bust, but in her written words she gives the impression of a restless and common little man with a friendly smile, who was pleased to unbend to a visitor, who in her turn was quite ready to find him wonderful and to be suitably overcome by the magnitude of his ideas.

The literary portraits, therefore, are by far more valuable. Of the two that are available, it seems to be the more trustworthy, if only because he was content to get a true impression of Lenin without seeking, as I think the other visitor evidently did, to give Lenin a true impression of Mr. Wells. Mr. Russell says in Lenin the slave of a single idea, the pure fanatic of the type which so frequently in the world's history has been associated with a religious proselytising frenzy.

Lenin belongs to the same gallery as Mahomet, Torquemada, and the other religious persecutors—men whose minds are not crossed by a doubt either of their own infallibility or of their having been chosen as special servants of the Lord, to do His bidding without mercy or truth. To burn the Amalike in pieces, or burn heretics at the stake is a congenial duty of men of his temper, who do not realize the cruelty of closing the gates of mercy on mankind and honestly believe—as Cromwell did—that they have a mandate to slay and spare not.

The French Apostles of the Brotherhood of Men preached their gospel with the same words, "Be my brother, or I will kill you." The Marxian Apostles preach their ferocious Communism in just the same spirit. All the burden of Lenin's conversation to Mr. Wells and Mr. Russell was an echo of the old cry "Ye must be born again." And this rebirth as pictured by Lenin is declared to be impossible without social cataclysm, the abject misery of millions, famine and disease, looted stores and shops, and gutted factories; death pits gaping wide, countless heaps of slain, and the ghastly volcanic upheaval and scorching lava flow of the lowest depths of the bottomless social pit.

Lenin's brain, according to both his visitors, is aflame with a gigantic project for supplying Russia with electric transport. He thinks it will take ten years—fifty is probably near the mark—but he sees it all complete in his mind's eye, and so it does not worry him that the existing railways of Russia are in complete and absolute breakdown. But

men have to live in the present and the present is bleak and desperate. His one great cry is that capital must be destroyed, and he has destroyed all private ownership except among the peasants, whom he has confirmed in the possession of the lands which they have seized from the former owners. Could anything be more ironical?

It is beyond my imagination how any one can take the vapourings of this Marxian fanatic as deserving any more attention than the prophesying of some "crazy" victim of acute dementia. It is only the intolerable horrors of the slough, into which Russia has fallen since the Lenin regime possible. This Mr. Wells admits. "Except for the absolute physical exhaustion of the Russian people this man could never have waded through slaughter to his throne. He has a contempt for liberty and a system of demand it. He is pictured to us as an idealist but how can Marxism be susceptible of lofty ideals when it explains everything by the basest materialism?" Or how can a Marxian State be worth living in when Lenin himself has said that the State does not mean a system of law and government, which aims at the reconciliation of the different classes, but that it means and aims at the oppression by one class of the remainder?

The world has bred many monsters, but this embodiment of the godless Marxian theory is as revolting as any. And yet Mr. Wells tells us that Russia can be saved by Lenin alone, and that only the hands which plunged her into these unfathomable horrors can pluck her forth. I do not, can not believe it, Lenin must fall before Russia can rise.

Having been given a wage increase of one dollar a week, the gravediggers employed in the chief cemetery of Dublin has just ended their strike which began last January.

"Milk" manufactured from chopped oats, ground peanuts and a little water, is said to resemble the creamiest product of the cow.

NOTABLE DEVELOPMENT IN POULTRY BREEDING

The Experimental Farms of the Dominion are doing some excellent work in poultry breeding. After four or five years, birds and strains have been produced of exceedingly high productive capacity. At Kentville, eleven breeding pens contain birds that in their pullet year laid an average of 197 eggs, the highest bird laying 270 eggs in 52 weeks. At this station a Barred Rock pullet laid 104 eggs in 104 days.

Sections where a few years ago ten or a dozen eggs a year from a hen were a rarity, there are now hundreds that run from 153 to 250. In the Eastern Townships, Que., 206 eggs have been reached and from 150 to 200 is a common record. In the Prairie Provinces the Experimental Farms have reached high records. At Indian Head, Sask., last year 105 pullets had an average of 183.7 eggs, the highest being 292. At Lethbridge, Alta., the average production has increased from two or three times over what it was ten or ten years ago. New Brunswick has a similar tale to tell, one hen at Fredericton reaching 256 eggs in a year. British Columbia, however, takes the palm. At the Agassiz Experimental Farm, 200 eggs are common and from 250 to 270 are not rare. At the Vancouver Island station 200 pullets gave an average of 195.97, 82 going above 200. The high production of 300 eggs in a year has been reached for one pullet. Hens that cannot lay 200 in twelve months are not wanted and no cocker is retained unless his mother laid 250 eggs in her pullet year. It should be noted that high class breeding stocks and eggs are available to the public from the Experimental Farms. This opportunity is being well taken advantage of, the demand for pedigree cockerels, through which the best egg laying results are obtained, far exceeding the supply.

The real designer of the parachute was Leonardo da Vinci, in 1500 although at the coronation of the Emperor Po Kien, as early as 1206, Chinese acrobats were seen to jump from a high scaffolding with huge parachute umbrellas.

FREEPORT

Mrs. Mallory and son, of St. Andrews, are the guests of Mr. and Mrs. Edwin Haines.

L. C. Prime is in town.

Miss Rebecca McEwen has returned home from St. John.

Mr. and Mrs. John Finigan were passengers to Yarmouth on Tuesday, returning Thursday.

Miss Rita Busby, of St. John, is visiting her parents, Mr. and Mrs. Edward Busby.

Miss Mina Stevens is visiting friends in St. John.

Mrs. Newell and son, of Clark's Harbour, were the week and guests of Mr. and Mrs. Edward Eaton.

Miss Phoebe Hains has returned home after spending the winter months in St. John.

Born—At Horse Butte, Sask., to Mr. and Mrs. J. B. Kennedy (nee Emma Stevely) a son.

Dr. A. F. Weir intends taking two weeks vacation beginning on June 28. Part of this time will be spent at his home in New Glasgow and the rest will be occupied in attending the meeting of the Canadian Medical Association at Halifax, July 1 to 5. Dr. Beaman will substitute during his absence.

Ralph Thurber was a passenger to St. John on Thursday returning Friday.

Mrs. Charles Young, of Windsor, Ont., is visiting her parents, Mr. and Mrs. Nelson Thurber.

Fred Thurber arrived home the 17th after being employed in St. John for some time.

Mrs. Adelbert McKinnon, of Yarmouth, was the guest of Mrs. Fannie Morrell this week.

In Honduras ninety per cent. of the people cannot read or write.

10 Years of Eczema—A Sample Cured Her

Are you reading the weekly Canadian letters, and are you suffering from skin disease and how cure was effected?

Here is part of a letter from Mrs. Henry Hargreaves, Black Lake, Que. Write her if you desire.

"Ten years of eczema on the face. Treated unsavily by the doctor. A sample of D. D. D. cured me, etc."

The proof of the pudding is in the eating. When a prescription for skin disease has letters of cure and endorsement from nearly every city and town in the Dominion, surely it is enough to convince the most skeptical. Brief from sickening torment is immediate. Just try one bottle of D. D. D. today on our positive guarantee. It is a bottle. Try D. D. D. Soap, too.

Local and General

Dr. Kemp returned from Boston on Saturday.

Mrs. Anthony Amblaut arrived from Boston on Tuesday.

The pulp mill is closed indefinitely on account of lack of water.

Cornelius Melanson is erecting a basement store on his premises at Weymouth.

Miss Clute, district nurse, was in town last week with official business.

Mrs. C. J. Beaton and little son, Richard, were guests of Mrs. Mary Beaton on Monday.

Geo. Halliwell returned from Camp Hill hospital on Friday, much improved in health.

Dr. and Mrs. H. J. Pothier spent the week-end at Yarmouth, guests of R. W. E. Landry, K. C.

Mr. and Mrs. E. P. Rice, and several of their friends spent Sunday at Lake Wentworth.

Mr. and Mrs. Joe Oliver attended the funeral of the late James Sullivan at Corberric on Saturday.

Mrs. J. A. G. arrived home Wednesday from Windsor where he was a student at Kings Collegiate School.

Mrs. Rodney Gidney, of Mink Cove, is spending a few days with her parents, Mr. and Mrs. John Dahlgren.

Ralph Smith, of New York, arrived on Tuesday and is spending his vacation with his parents, Mr. and Mrs. Isaiah Smith.

Mrs. Esther McAlona, who has been a guest of her sister, Mrs. W. E. Beaton, is for her home in Boston on Saturday.

Part of the equipment for the 52nd, which has arrived, and been transported to the W. A. C. field where the battery will train.

Edward and Aggie Comeau arrived home on Wednesday from Church Point, where they were students at the St. Anne's College.

Miss Zella Doucette arrived home from Boston on Tuesday and is spending her vacation with her parents, Mr. and Mrs. Zella Doucette.

Miss Lillian Corbin, of Annapolis, and Miss Kathleen Fraser, of Gloucester, were the over Sunday guests of Mr. and Mrs. R. J. Corbin.

A party of young folks held a pleasant excursion to Weymouth Mills on Monday. Luncheon was served, and all enjoyed themselves immensely.

Mr. and Mrs. R. M. D. Barkhouse and children, accompanied by Fletcher Bartlett, were passengers to Westport Saturday returning on Monday.

Alphonse Gaudet was hurriedly called to Bridgetown Friday owing to the very serious illness of his wife who is with her father John Gaudet. Mr. Gaudet returned on Monday.

The social given by the children and held at the Weymouth School House on Friday last was a most pleasant affair. The handsome sum of \$40 was realized, and the proceeds will be used for school purposes.

Dr. and Mrs. J. H. Rice and child, Mr. and Mrs. Malton and son and Miss Gasey, of Halifax, arrived on Saturday to spend the week with the doctor's parents, Mr. and Mrs. E. P. Rice. They returned to Halifax on Wednesday.

The Weymouth ten schooner Nettie C. Capt. Doucet, which was at Metegan for a few weeks undergoing some minor repairs, caulking and painting, has returned to her home port where she has been chartered to load lumber and piling for Boston.

Last Wednesday evening at the Green Lantern theatre some of the hoodlums of this place performed some very disgraceful antics, that call for the harshest condemnation. Not being allowed in to the hall, these boys locked the entrance door and when the people were coming out, force had to be used to open the door. This kind of action should be discontinued, and if a lesson was made of those guilty of the perpetration, there would soon be an end to it.

WEYMOUTH NORTH

Mrs. Stevenson, of Halifax, is a guest at the Rectory.

Rev. J. H. Copeland attended the conference at Freeport, and Hamilton Mullen and Raymond Lent also went as delegates.

Mrs. H. M. Journeay and children spent a few days at Round Hill recently.

Mrs. Harrison Jones attended the closing exercises of Kings College, returning with her son Carmo.

Mrs. John Dart and Mrs. Hibbert Dart and son, are guests at Beechwood.

John D. Campbell, formerly of Weymouth, was married, June 22nd, to Miss Grover of Pomquet, Connecticut.

Miss Muriel Ross is the guest of Miss Florence Campbell.

First summer visitors arrived at Bay-side on the twenty-second.

DOCTOR'S CRUSADE AGAINST THE HOUSE FLY

Eight hundred Bronx physicians recently joined Dr. Arthur J. O'Leary, Health Officer of the Bronx, in a crusade against flies for the elimination of dirt, and other contagious diseases.

VICTORIA BEACH

Mrs. Olivia Everett, is visiting Mrs. George Snow at Parkers Cove.

Mr. George Halliday, of Stony Beach, and Mrs. Ellen Munnis, of Boston, Mass., are visiting Mrs. Stephen Haynes.

Mrs. George Gates and son Carroll, went to Niagara on Monday for treatment.

Mr. and Mrs. G. Shaffer, of Karlsruhe, spent Friday with friends here.

Sorry to report, Boyd Everett and Milford Munro on the sick list at time of writing. Dr. Read, of Digby, is in attendance.

Mrs. Frank Wilson, of Bay View, visited her sister Mrs. Leonard Everett, one day last week.

Mrs. Annie Casey, of Port Wade, spent Sunday with Mrs. Henry Carey.

Stephen Apt and Archie Ellis, went last week up the Bay on a fishing trip.

Mrs. William Ellis and Mrs. Arthur Weir, of Port Wade, spent Sunday with friends in this place.

Quite a number from this place visited Port Wade on Sunday afternoon and witnessed the baptism administered to eighteen converts by Rev. Mr. Heister.

Very sorry to record the death on Monday evening the 6th of Murray Lee Hardy, age one year and two months. The family have the sympathy of the community.

Mrs. Lizette Shepard, of Annapolis, spent Sunday with Mrs. Andrew Ellis.

Scientists say the medical scientists, may be caused by the heat of sitting perched on the edge of a chair.

The loss of population in France due to the war has been estimated at 4,000,000.

OPERATION WAS NOT NECESSARY

"Fruit-a-tives" Restored Her To Perfect Health

133 PAVANAS AVE., MONTREAL.

"For three years, I suffered great pain in the lower part of my body, with swelling or bloating. I saw a specialist who said it must undergo an operation. I refused.

I heard about "Fruit-a-tives" so decided to try it.

The first box gave great relief, and I continued the treatment. Now my health is excellent—I am free of pain—and I give "Fruit-a-tives" my warmest thanks."

Mme. F. GAREAU.

50c. a box, 3 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Tom Clark, an English box with out hands, can draw and paint pictures with such skill, grasping the pen, pencil or brush between the two stumps of his wrists, that at fourteen years of age he won a London County Council Art Scholarship.

Seven million coins are turned out every week by the British Mint. One week's output of coins would, if laid out in a single layer, make a gold, silver and copper carpet ten yards wide and more than a quarter of a mile long.

Nearly one thousand schools in Great Britain have been provided with war shrines in memory of old scholars.

CULLODEN

Miss Pearl Handsbaker, of Mt. Pleasant, is spending this week with Mrs. Oscar Sark.

Miss Ethel Ross spent a few days this week with Miss Leslie Killeen, Light-house Road.

Mr. and Mrs. Valentine Polty, of Mt. Pleasant, spent Sunday with Mr. and Mrs. Emdon Stark.

Mrs. James Handsbaker spent Thursday of last week with Mr. E. C. Van Tassel, Mount Pleasant.

Mr. and Mrs. A. S. Hawker, superintendent of the Bay Service of the R. R., were guests at the Bay of Fundy House this week.

Angus Handsbaker has improved the look of his house by giving it a new coat of paint.

Mr. and Mrs. James Handsbaker spent Sunday with Miss Ross and Crawford Van Tassel, Mount Pleasant.

PORT WADE

Port Wade lumbermen are now rafting timber around into the Basin from Fundy.

Carl E. Keane, Mrs. David Hayden and Miss Bertha Snow attended the Baptist Association at Freeport this week.

Archie J. Kendall arrived home from St. John Hospital Friday. He is now convalescent, but will undergo an operation on the throat next week.

The potato crop is looking well in this vicinity, but the ground has been too dry for garden truck and hay.

Clarence Ryder arrived home from 12th last week where he has been working in the shoe business for many years. He says that business is very slack in that city.

Rev. Mr. Heister attended the Baptist Association at Freeport.

Donald McWhinnie, of the S. S. Express staff, spent Saturday and Sunday with his parents here.

Follock are plentiful in Digby Gut. At every tide a man with boat and hand line can quite easily catch his year's full in one day. Small herring or bait is also quite plentiful in the weir.

The bay crop in this place will not be more than half of last year's crop, and fears have been set well.

"Nothing new." We are still paying the highest price on earth for our groceries.

Giant Prolific Sweet Ensilage Fodder Corn

EMINENT IN LAW

Many readers must have read with interest a few days ago the announcement of an Ottawa paper, says the St. John Globe, that J. A. Ritchie, a resident of Ottawa, is to be appointed a junior judge to the County of Carleton, Ont. New Brunswickers are interested, St. John people particularly, because Mr. Ritchie is a son of the late Sir Wm. J. Ritchie, for many years a very prominent and an honored resident of this city. Sir William, a native of Annapolis, N. S., after a successful legal career here and also a successful political career as a member of the Legislature and of the government, was appointed to the bench, later became Chief Justice of the Province and finally was Chief Justice of the Dominion Supreme Court, dying in 1922. Sir Wm. J. Ritchie was a son of Judge

Thomas Ritchie, Annapolis, N. S., and the late Judge Savary, editor of Colbeck's History of Annapolis, pointed out some years ago as "very remarkable" the number of descendants of the latter who had chosen the legal profession, "many of whom have attained to eminence." The list for the first and second generations, which can be found in "The Judges of New Brunswick and Their Times," is as follows:

- Sons
1. Hon. J. W. Ritchie, Judge in Equity of Nova Scotia Supreme Court.
 2. Sir Wm. J. Ritchie, Chief Justice of Canada.
 3. Rev. James J. Ritchie, barrister for fourteen years before entering the ministry.
 4. Geo. W. Ritchie, barrister who lived at Fredericton.
 5. Hon. J. Norman Ritchie, Judge of N. S. Supreme Court.

GRANDSONS

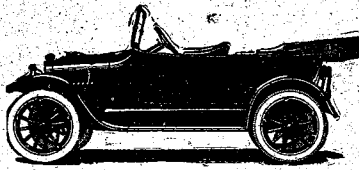

1. Thomas Ritchie, son of Hon. J. W. Ritchie, Halifax.
2. George Ritchie, son of Hon. J. W. Ritchie, Halifax.
3. Robert R. Ritchie, High Sheriff of St. John, son of Sir Wm. J. Ritchie.
4. John Almon Ritchie, son of Sir Wm. J. Ritchie.
5. Owea Ritchie, son of Sir Wm. J. Ritchie.
6. Wm. Pollok Ritchie, son of Sir Wm. J. Ritchie.
7. J. J. Ritchie, K. C., of Annapolis, son of Rev. J. J. Ritchie.
8. W. B. Almon Ritchie, son of Rev. J. J. Ritchie.
9. George W. Ritchie, of Halifax, son of Geo. W. Ritchie.
10. Charles T. MacColl, son of Judge Thomas Ritchie's daughter, Laleah.

In addition to the foregoing list, several members of the family of the next generation have made the profession of law their choice, and it may be safely said that no single

WILSON'S

Kill them all, and the germs too. 10c a packet at Druggists, Grocers and General Stores.

It cost him only \$895, F.O.B. Oshawa, Ontario, equipped with electric starter and lighting, one man top of genuine fabricoid, ventilating windshield, demountable rims, non-glare head lights, Stewart transmission-driven speedometer, Willard rubber threaded battery, oil gauge, four non-skid tires, tire carrier, complete tool equipment and valve-in-head motor.

The dealer proved to him its roading advantages over many cars of similar weight and its ease of operation. He knew from experience of others that with proper adjustment and the famous valve-in-head motor, his gasoline mileage would be equalled by very few cars.

A new tire would cost him only \$23.55 and if he required parts for his motor at any time, he knew the dealer could give him direct service with his factory within twenty-four hours, should the necessary parts be out of stock. He knew the dealer in a town of 1,200 like Digby had to carry a stock of parts at all times.

He knew his entire car, including the motor, was made in Canada, and in buying one of Canada's Standard cars he was aiding in re-establishing the exchange rate.

Should an accident occur to his car, he knew that Chevrolet service could be had anywhere, because in the season of 1920, the Chevrolet car had come to the fore so fast as to eclipse the record of any other firm on the point of production in Canada, and that behind this car was the strongest industrial organization in the motor world, "General Motors."

He had only to look at the car to realize its beauty of construction and its sturdiness. Its baked enamel finish precluded any possibility of the finish of his car becoming shabby within a few weeks. He knew he was buying something "a little better" at the REMARKABLY LOW PRICE OF

\$895.00

He knew that at this price he was buying a car unequalled in power, construction, appearance, convenience, material, economy, dependability, comfort, design and endurance, by few cars anywhere near the price. A car after design of the larger models, not built down to a price, sacrificing quality, and therefore durability. For these and many other reasons he bought a Chevrolet.

C. J. ELDRIDGE

family in Canada has produced so many men of eminence on the bench and on the bar as have this family.

CULLODEN

Mrs. Howard Daley is spending this week at Mrs. Bryant's residence on the Shore Road.

William Handspiker spent a few days last week in St. John.

Judson Hinkley, of the schooner A. W. Bonaparte, spent a few days this week with his brother, W. E. Handspiker, at Newton, N. S.

Mr. Connell of Digby was in this village a few days last week taking the census. While here he was the guest of Mr. and Mrs. William Daley.

FELT LIKE AN IRON BAND AROUND HEAD

Mrs. Osborne Says She Suffers When She Thinks How She Suffered.

"For years," said Mrs. W. B. Osborne, of 118 Lancaster Ave., Lexington, Ky., "I have been in a run down condition; nervous, weak and dizzy. I was actually so nervous that any sudden noise or excitement would produce a palpitation of my heart that frightened me. I absolutely could not climb stairs, for to attempt such would thoroughly exhaust me."

"I had nervous headaches and when they came on it seemed that an iron band was drawn tight around my head. I now suffer when I think of those headaches. My stomach was weak and I could not digest the lightest liquid food. Any food of a solid nature caused nausea and the sickening sensation remained for hours."

"My misery was almost unbearable. My sleep was never and I was worn out all the time. My condition was indeed a very deplorable one. I finally sought treatment in Cincinnati but nothing helped me one particle. I was on the verge of giving up in despair when a neighbor pointed me to the Trylanol. I obtained a bottle of the medicine and began its use. "I began improving at once and soon felt my nervousness and dizziness disappearing. Then my headaches left me and I realized my strength had returned. My appetite and digestion improved and I am now so much better in every way. This Trylanol is a wonderful medicine and the only one that ever really helped me. I hope every poor woman who is suffering as I did will try it."

The myrtle and the leaf are regarded as luck-bringers, and in Wales they say a leek growing on a wall will keep off witches.

It is calculated that 165,000 tons of soft coal on London every year as the result of the combustion of 17,000,000 tons of coal Londoners annually consume.

The matter of next year's census already has appeared in Parliament, and it is a very interesting one. Finding an interest in our doctinal numbering of the people. Had we not been plunged into war we might have had a census in 1918, for there was a strong conviction in many quarters that, as the factors which cause fluctuations in population have greatly increased, a census every five years has become necessary. The chief objection that was urged was the cost, but that does not look so heavy in face of present standards.

The expense of a census in these islands usually works out at about 1d. a head. To be exact, the 1911 census cost £136,000, or 15 8d. 3d. a thousand of the population. We appear to do this thing more cheaply than some of our continental neighbors. In the Netherlands the census cost 1s. 4d. a thousand, in Norway £3 10s. 10d. and in Austria £5 10s. 10d. in America the census is much more costly—about 20 cents a head.

Our first census was taken in 1801, and it may be noted that at that time the total population of Great Britain was found to be 10,942,846.

Story of the Welsh Guards.

In his elaborate tribute to the history of the Welsh Guards, Major Dudley Ward, D.S.O., M.C., tells some amusing stories. Here is one relating to the late General Lord Humphrey Denny.

"He had as servant Dan Evans, a smart, good-looking boy, who was devoted to him. Humphrey Denny's voice would be heard roaring in his billet. 'Evans! Evans!' And at his elbow Evans would say, 'Yes, your honor, sir.'"

"Evans, where have you been? I have been waiting for you for half an hour. Where are my breeches? Evans, where are my breeches? Damn it! You don't care if I live or die!"

"They are on the chair, sir—you are sitting on them."

There were Welsh Guards in Tudor times, notes the author, and the oldest Guards of all were those who formed the King's Bodyguard of the Yeoman of the Guard.

Prince Albert, the second son of King George, promises to become as popular as his elder brother, the Prince of Wales. As a sailor and airman he did his bit in the war, although, to his chagrin, several breakdowns in health interfered with his duties. Recently he has been called on to attend various public functions, and is reported to have made some excellent speeches. He is the humorist of the royal family with a particular penchant for sporting stories.

Quiet the Waves.

According to an Austrian naval officer gas bubbles rising from a depth of 100 fathoms dropped into a stormy sea, quieted the water as effectively as if on would have done.

BRITAIN'S WAR BUMPS

London Times Tells of Waste of Material.

No more palpable example of the waste of public money, says the London Times in a special article attacking the Government, could be found anywhere at the present time than that offered by the Army Ordnance Depot at Chilwell, near Nottingham. During the war, it became known as the "C" factory. Here were piled 10 1/2 million shells or 60 1/2 per cent of all the high explosive shells used by the British army, a task which cost 134 of the employees their lives in the terrible explosion of May, 1918.

It is now a "dump." The site comprises 18 acres and semi-buildings cover 14 acres under a single roof. Soon after the explosion of 60 of full shells lying here when the armistice was declared, were removed, the Government being told that the shells of war material from the various theatres of war until 10-day millions of pounds' worth of stores for rotting and rusting. Vast as the quantities are they cannot accommodate more than a portion of the stuff that has been accumulated, and it is being piled up. Much of the material has been lying in the open for months.

It is a fact that the war broke out again to-morrow these are stores enough at Chilwell to equip an army almost as large as that which we had in the last war. The hostility ceased. As an illustration, the clothing stored here includes 10,000,000 pairs of socks, 6,000,000 pairs of army shirts, thousands of miles of Cardigan jackets, trousers, blankets, Scotch tweed (much of which has never been used), and 100,000 pounds' worth of cord for breeches, and miles of cloth in khaki, blue, and Scotch tartan.

The most wasteful form of waste, however, concerns the vehicles. In several rows are ranged thousands upon thousands of motor cars, for use not merely on gun carriages, but on vehicles of all descriptions. Spoked by the spring, they are now suffering even more damage from the sun, and are deteriorating at an alarming rate. Yet farmers and tradesmen and wheelwrights would gladly pay a fair price for some of these spare wheels. In the "vehicle park" are also thousands of four-wheel wagons and two-wheel carts, which will be ruined if they are not soon rescued.

To look at the horseboxes, one would think that the whole British army was mounted. There are something like six million horseboxes rusting at Chilwell. There are vast quantities of saddles, too, but these would be useless for anything but cavalry. Great care is being taken of the guns, of which there are large numbers, and of the calibres, from Lewis guns to the biggest siege artillery. These are receiving proper attention, and a considerable amount of repair work is in progress.

The "A.N." (ammunition, nitrate) mill is full of scientific instruments for use in the laboratory, and the laboratory is full of watches and clocks. Bicycles are also to be found by the thousand, many of them quite new.

The quantity of barbed wire is incredible. There is more than enough to fence the whole coast of England. Why this should be retained at a time when barbed wire is fetching three guineas a hundred pounds and is not to be had on the land passes comprehension. The thousands upon thousands of tents, camp kitchens, (unably uncovered), and hose pipes, and miles upon miles of rope, hemp and other stores are also to be seen. In addition, there are lying about engines and dynamos of enormous capacity. The switchboard is 90 feet long, the largest of the engines has 1,680 h.p.

Britain's Census Next Year.

The matter of next year's census already has appeared in Parliament, and it is a very interesting one. Finding an interest in our doctinal numbering of the people. Had we not been plunged into war we might have had a census in 1918, for there was a strong conviction in many quarters that, as the factors which cause fluctuations in population have greatly increased, a census every five years has become necessary. The chief objection that was urged was the cost, but that does not look so heavy in face of present standards.

The expense of a census in these islands usually works out at about 1d. a head. To be exact, the 1911 census cost £136,000, or 15 8d. 3d. a thousand of the population. We appear to do this thing more cheaply than some of our continental neighbors. In the Netherlands the census cost 1s. 4d. a thousand, in Norway £3 10s. 10d. and in Austria £5 10s. 10d. in America the census is much more costly—about 20 cents a head.

Our first census was taken in 1801, and it may be noted that at that time the total population of Great Britain was found to be 10,942,846.

Story of the Welsh Guards.

In his elaborate tribute to the history of the Welsh Guards, Major Dudley Ward, D.S.O., M.C., tells some amusing stories. Here is one relating to the late General Lord Humphrey Denny.

"He had as servant Dan Evans, a smart, good-looking boy, who was devoted to him. Humphrey Denny's voice would be heard roaring in his billet. 'Evans! Evans!' And at his elbow Evans would say, 'Yes, your honor, sir.'"

"Evans, where have you been? I have been waiting for you for half an hour. Where are my breeches? Evans, where are my breeches? Damn it! You don't care if I live or die!"

"They are on the chair, sir—you are sitting on them."

There were Welsh Guards in Tudor times, notes the author, and the oldest Guards of all were those who formed the King's Bodyguard of the Yeoman of the Guard.

Prince Albert, the second son of King George, promises to become as popular as his elder brother, the Prince of Wales. As a sailor and airman he did his bit in the war, although, to his chagrin, several breakdowns in health interfered with his duties. Recently he has been called on to attend various public functions, and is reported to have made some excellent speeches. He is the humorist of the royal family with a particular penchant for sporting stories.

Quiet the Waves.

According to an Austrian naval officer gas bubbles rising from a depth of 100 fathoms dropped into a stormy sea, quieted the water as effectively as if on would have done.

MEN WHO STEAL WIVES

English Journal Asks: "Why Should They Do So?"

England to-day is a land strewn with the wreckage of homes, says Pearson's Weekly.

All over the country there are signs of the breaking up of family life upon a scale greater than ever before. The ties of marriage are being treated with contempt by a type of man who stops at nothing in pursuing an attack on another man's home.

The result is that at the present time the divorce courts are working at high pressure dealing with petitions for divorce presented by husbands who on returning from service abroad, have found that advantage has been taken of their absence by the home-wrecker.

Many people think it is a serious flaw in our legal system that so many of these men usually should escape with nothing more than a few cost-barring words from the judge.

The president of the divorce court a short time ago, in considering the hearing of a case, said: "It is much to be regretted that there is not some mode of marking the infamous conduct of such men as the co-respondent who, while the husband was away, took the opportunity to corrupt the wife."

The war was largely responsible for the growth of the evil, but the weakness of our only safeguard to men, but is actually increasing. This is proved by the number of cases that are still being put down for hearing at the divorce courts.

A type of man has been let loose whose sole aim seems to be to rob his wife of her home, and to ruin the life of the fact that is a double-edged sword, sundering untold misery by breaking up their homes.

The fact that there is no legal remedy for the case of affairs has led to the exercise of what is called the "Law of the Jungle" in which the injured person himself sets out to deal with the offender. Several notable examples have occurred during the past few years, resulting in the death of the home-wrecker at the hands of the husband.

To many people this may seem a just way of dealing with the offender, but the majority agree that, however richly the guilty one may deserve such a fate, it is far more desirable that the punishment should be meted out by a judge in a court of law.

Human nature is always liable to err, especially in the heat of passion, and while in some cases the home-wrecker has undoubtedly met a just fate, in others there have been grave doubts.

As the law stands at present, however, there is every encouragement to the husband who has been wronged to exact his own price.

The result is that unless something is done to remedy the evil, the country will be stirred by more crimes of this nature in the future than ever before. The number of men whose lives have been ruined by the home-wrecker is considerable, and some of them are now being put to death as the outcome of their war experience, will stop at nothing to wipe out the injury they have sustained.

In wrecked homes the husband and the wife is often at fault and the blame of a co-respondent is merely an incident in a series of troubles. Yet from cases of this kind there comes one fact, namely, that there exist men who look upon wives as being their natural prey, who are prepared to go almost to any length to gain their own ends.

No Trace of Zeppein Havoc.

"Show us some of the damage done by the Zeppes," is the first demand of the crowd of tourists now swarming the streets of London. The House of Commons, Westminster Abbey, the Tower and the Houses of Parliament offer an inspection of the few remaining vestiges of London's great war terror.

"Why, is that all?" they chorus as they gather in groups around the base of Cleopatra's Needle, on the Thames. Embankment, nap-snap, the splinter-holes on the granite plinth and running their fingers into the slits in the metal statues that were made by flying fragments.

Disappointment is invariably expressed, for the truth is that London shows no trace of the Zeppein and Gotha raids that are worth crossing the street to see. At Lincoln's Inn and Gray's Inn there are small bomb holes now filled with cement, but such "slights" make no appeal to the imagination.

Out in the working-class suburbs, where small houses were blown to bits, the damage was worse, but even that does not tell the story of the nameless horror of the terrible death that hovered nightly over nine million people, and that is why the tourists go on to France convinced that "bomb-shattered" London is a myth.

Another source of disappointment is that there are no genuine souvenirs of the raids to be bought. Only a small trade is being done in the inevitable "fakes," which some of the people living in the bombed districts have collected, with an eye to the American demand.

Prince Albert.

Prince Albert, the second son of King George, promises to become as popular as his elder brother, the Prince of Wales. As a sailor and airman he did his bit in the war, although, to his chagrin, several breakdowns in health interfered with his duties. Recently he has been called on to attend various public functions, and is reported to have made some excellent speeches. He is the humorist of the royal family with a particular penchant for sporting stories.

Quiet the Waves.

According to an Austrian naval officer gas bubbles rising from a depth of 100 fathoms dropped into a stormy sea, quieted the water as effectively as if on would have done.

THE BEAR RIVER WEEKLY COURIER

"For Home and Country"

Edited by the Woman's Institute of Bear River

"For Home and Country"

Music Lessons

Piano and Vocal

During the summer vacation will be given at Bear River, N. S., by

Miss A. Louise Jones

of Mt. Allison Conservatory.

Term begins May 20th, 1921.

Mrs. H. C. Anthony will receive applications

Bear River Steamship

Company, Limited

Owned by Clarke Bros. Limited.

Bear River, Digby

St. John

Weekly Freight Service

Sailing for St. John Mondays.

Arriving from St. John Thursdays.

According to tide.

CAPT. ARTHUR MOORE,

Master

Dressmaking and Sewing

by An Expert

Call and see me at Smith's Cove

(Hartsville Station)

MRS. A. C. BEELER

Bear River and Digby

Electric Light, Heating and Power

Company Limited.

Owned by Clarke Bros. Limited

Bear River, Nova Scotia

Dependable Lighting Service

The Best Thing for the Hay Crop

just now is RAIN. But next to rain the proper tools and machinery are the most necessary. And you ought to be ready now. Do you want any new haying machinery or will a few spare parts put your old ones in condition? In either case see me.

NEW YORK CALLS BEAR RIVER ON LONG DISTANCE

On Friday the Bear River Central had a call from New York asking to be connected with Clarke Brothers' office. The connection was made through the Company's private exchange and the first "Hello" was heard as distinctly as though it had been a call from Digby. A conversation followed lasting several minutes and was carried on with perfect ease and with no line interruption whatever. We understand that this is the first through call to New York from this part of the Maritime Provinces. The telephone Company's territory and the Company is to be congratulated upon placing their lines and equipment in such a condition that conversation can take place over this distance.

CHURCH NOTICES

METHODIST CHURCH.
Rev. W. J. Warren, Pastor.

Preaching at Bear River every Sabbath at 10.30 a. m. and 7 p. m.

Sabbath School at 11.45 a. m.

Prayer Service ending at 7.30 p. m.

Epworth League Friday at 7.30 p. m.

Sabbath afternoon services as follows:

1st Sabbath, Kent Cove; 2nd, Lantzdown; 3rd, Bear River East; 4th, Clements; 5th, Princeside.

BAPTIST CHURCH.
Rev. R. S. GREGG, Pastor.

Sunday morning, 10.30, Preaching by the Pastor.

Sunday school, 11.30 a. m.

Evening 7.30, Preaching by the Pastor.

Wednesday evening 7.30. Prayer meeting.

Friday evening, 7.30. B. Y. P. U.

ST. JOHN'S CHURCH OF ENGLAND

Service Sunday May 15th, 3 p. m.; May 22nd, 10.30 a. m.; May 29th, 7.30 p. m.; June 5th, 7.30 p. m.; June 12th, 3 p. m.; June 19th, 3 p. m.; June 26th, 10.30 p. m.

CATHOLIC.

Father Mackay will hold services in the Chapel the first Sunday in each month.

WALDECK LINE.

Dame rumor says we will soon hear wedding bells.

Garnet Harris went to Boston Saturday for a short visit.

Henry Ward returned to Boston Saturday.

Ralph Veno and sister, Mrs. Ernest Tripp, spent Sunday with friends in Greywood.

DEEP BROOK.

Miss Ruth Hutchinson left here on Friday of last week for the Sanatorium at Kentville for special treatment.

Dr. W. L. Archibald and family left here on Tuesday for Milton, Quebec. They will be away until the first part of July.

DELEGATES RE-TURN HOME

Mrs. Lovett, Mrs. Cunningham and Mrs. Wade, who attended the Annual Convention of the Provincial Women's Institute, which convened at the Science Building of the Agricultural College at Bible Hill, Truro, last week, have returned home. They are very enthusiastic over the success of the Convention, which was said by many to be the best yet held, and was full of interest to the large number of delegates in attendance. Aside from the vast amount of information gained by the interchange of ideas pertaining to the work of the Institutes, the pleasant social environment in such a beautifully situated spot in our native Province as Bible Hill affords, and the success of such Conventions. On Thursday afternoon Miss Baker, Asst. Director Rural Science, gave a demonstration of use of School play grounds at Bible Hill school, where the grounds have been fitted up to date with the latest equipment for testing out this new department of school work. A varied program including volleyball game, physical training, singing and folk games, story telling, climbing the bar, standing broad jump, running high jump, potato race, bundle race, pole vault, maypole dance, relay race and flag salute, was carried out all rain began to fall in earnest, when it was contained in the spacious gymnasium of the Agricultural College. The Science Class of the Normal College gave a delightful exhibition of Folk Games, and the primary department of Bible Hill School several patriotic drills and exercises. All were enthusiastic over the afternoon's program, as the conclusion of which the delegates attended a most enjoyable tea held at the home of Mrs. Cunningham, rain preventing the holding of the garden party which was planned for that afternoon. A full report of the Convention will be given at the monthly meeting of the Women's Institute, which will be held in Temperance Hall on the first Monday of July.

Don't Want to Eat Anything?

Local and General

The Grand Central Hotel is looking fresh in its new coat of paint.

Father Mackay will hold service at 9 o'clock on the first Sunday in July.

A party of young people motored in from Annapolis last Sunday and had supper at the Grand Central.

Tuesday evening the Elia Rebekah Lodge held their regular meeting. The degree was conferred upon one candidate. There was a large attendance, quite a few members of Zeina Lodge, Digby, being present.

Elia Clarke has accepted a position as Power House Engineer at the Pulp Mill at Victoria Bridge. During the past year Mr. Clark has been pursuing his studies in connection with a chemical engineering course at McGill University.

A splendidly compiled and illustrated booklet entitled "Playgrounds of the Maritime Provinces," has recently been issued by the Canadian National Railways, and may be obtained free of charge at any of the offices of the Canadian National Railway throughout the country.

A Sacred Concert was given Sunday evening in the Baptist Church by the Schubert Concert Company, assisted by a choir, which was of very high quality, and much enjoyed by a large congregation. We look forward to again having this enjoyment repeated in the very near future.

The ladies of Elia Rebekah Lodge, I. O. O. F., intend holding a strawberry festival on the site of their new building, opposite the Trading Company's store, next Tuesday afternoon. Proceeds for the building fund. For further particulars see poster. Everybody should patronize this worthy object and help in the speedy building of the proposed new Oddfellows Hall.

PERSONAL MENTION

Miss Olga Schmidt returned from Concord, Mass on Saturday.

We regret to report that Elroy Beck continues seriously ill at his home.

Robert Benson and his son, George, motored to Kentville on Friday last.

Mrs. J. Arthur Rice was "At Home" on Wednesday afternoon of this week.

W. G. Clarke and A. G. MacIntyre, left on Saturday for a week's trip to New York.

Miss Hattie Wade arrived home from West Somerville Saturday on a three week visit.

Rev. W. J. Wright and W. D. Ryerson went to Berwick last week to attend the Annual Conference of the Methodist Church.

Rev. W. J. Wright and family motored on Monday to Lunenburg, where he will officiate at the marriage of his sister, Miss Sadie Wright.

Rev. R. S. Gregg, Mrs. I. J. Dunn, Mrs. Clarence Adams and Capt. Joseph Warren attended the Baptist Association at Freeport last week, returning on Monday.

Mrs. Robert Benson was the delegate from the Methodist W. M. S. Auxiliary to the Annual Branch Meeting at Bridgewater, from which she brought an interesting report.

Voorhes Dittmar, who has lately taken the Pharmacy exams in St. John, passed in all the subjects, which makes him a registered druggist in that province where he now holds a position.

Benjamin Harris who has been visiting his father, Wm. Harris, returned to his home on Saturday accompanied by his son, Lyman, who has been staying with his grandparents, Capt. and Mrs. J. Woodworth.

Pearl Henderson and bride arrived from Fredericton on Wednesday last for a few days visit. A reception was tendered to them at the home of Mrs. Oshlack, Parker on Wednesday evening, at which a large number of friends were present. During the evening Thelbert Rice on behalf of the Active church, presented Mr. Henderson with a purse, which refreshments were served.

Dr. W. L. Archibald and family left here on Tuesday for Milton, Quebec. They will be away until the first part of July.

BASEBALL

An enthusiastic meeting of the Baseball Fans was held in the Green Lantern Theatre on Friday evening. Reports from various clubs were presented, and these were all considered sufficiently favorable to warrant the formation of a club. The following officers were appointed:

Pres.—J. H. Cunningham.

Vice-Pres.—Walter E. Brier.

Secy.—Treas.—Harold Britton.

Executive Committee—Rev. Mr. Gregg, Chairman; A. B. Alexander, H. C. Rice, Murray Harris, Mike Lottin, Percy Speers, Lewis Clark.

Several offers of grounds had been received but none of the offers were accepted and the executive was instructed to appoint a sub-committee to look over all grounds available and bring in a definite recommendation at the next meeting on Wednesday evening.

A membership committee was also appointed to solicit subscriptions for membership. These were divided into two classes; first, the regular annual membership fee of two dollars, and second, a membership and season ticket fee, of five dollars, the latter to include free admission to all grounds at all games during the season.

At the meeting to be held on Wednesday the 27th, will be closed for Ball Grounds and practice will start immediately after.

A vote of thanks was passed to the management of the Green Lantern for the use of their Hall.

TENNIS

The formal opening for the season of the Bear River Tennis Club took place on Tuesday at the Club Grounds. Tea was served by the members of the Club. The Committee, consisting of Messrs. L. J. Lovett, W. M. Romans and J. A. Rice, assisted by Harold Britton, and a large number of members were in attendance. Already forty members have become affiliated with the club this year and judging by the membership considerable interest will be taken in Tennis during the summer. The thanks of the Club have been extended to Dr. and Mrs. L. J. Lovett for providing the use of their grounds during three afternoons of each week for play and practice.

MUSICAL

A very splendid musical was given in Oakdene Hall on Monday evening when the Schubert quartette, consisting of Mrs. Webster, Francis, pianist; Miss Lowly, violinist; Mr. Fraser, tenor; and Mr. Belyea, basso, were heard in a number of delightful selections. The programme consisted of solos, quartettes and duets, all of which were well received and generally enjoyed. We hope our audience have another opportunity of listening to this quartette.

Nova Scotia Western Baptists

(Continued from page five)

Rev. R. S. Gregg in an address on the work of the Young Peoples Society pursued the lines of thought, the task of the church to interpret religion in terms of service, the importance of training young people for Christian work, and the value of the Baptist Young People's Union to the church.

The next speaker was the Rev. W. C. MacIntyre who outlined the programme of Religious Education, and in the course of which he announced a Summer School for Sunday School workers to be held at Wolfville from July 28th to August 4th.

After the evening devotional service an address was given by Rev. R. S. Gregg, Asst. Secretary of the Foreign Mission Board of Toronto.

Rev. A. H. Saunders then spoke on Home Missions. The need in this department is not so much for money but for devoted young men who will take charge of the many Home Mission Fields now pastored.

Miss Flora Clark, returned missionary, next addressed the assembly.

O. T. Goucher submitted the following Resolutions:

Resolved that we urge the Government of Nova Scotia to take immediate steps for the segregation, and training of the feeble-minded of this province.

Resolved that we have heard with pleasure the appointment of the Rev. R. D. Morse as Editor of the Maritime Baptist and we hereby record our confidence in him and pledge our hearty support in his work.

Resolved that we learned with deepest regret of his sad bereavement in the loss of his wife, and hereby proffer our sincerest sympathy.

Resolved that in view of the importance of the annual appeal for the fund in which he may have a direct interest, that we recommend each church to place in its budget a generous and equitable amount for that purpose.

Resolved that this Association express its appreciation to the Maritime Home for Girls at Truro, and assumed its due share of responsibility for its maintenance.

Resolved that we express our appreciation of the local steam boat officials for their courtesy in the re-arranging their schedule to suit our convenience.

Resolved that the thanks of the Association are due the Rev. J. B. Anderson for his very instructive and interesting Association sermon.

Resolved that this Association tender its hearty thanks to the pastor and people of the Freeport Baptist church for their gracious hospitality and to the choir for their valuable assistance.

After prayer by the Moderator the Association adjourned to meet with the Bridgewater Baptist church next year.

CHAS. E. ROCKINGHAM.

The Perfect Wedding Gift

As a Wedding Gift

WHAT a large amount of money is spent on ephemeral things that with the passage of time lose their beauty and are forgotten!

Silver always remains beautiful. Time's only effect is to add to its charm. Beauty and utility—and, above all, durability, these three essentials make it the perfect wedding gift.

This useful, fireproof, guaranteed safe has a plated interior of durable, bright silver plate. \$1.75

Lowered costs allow us to reduce price to \$1.50. See how shown in the Year Book. This saving will be returned to you.

Halifax

Quality maintains economy. You may pay less "per gallon" for other lubricating oils, but you get more lubrication "per dollar" when you buy Imperial Polarine Motor Oils.

Imperial Polarine Motor Oils

CUTS OPERATING COSTS

THE economy of using Imperial Polarine Motor Oils extends over practically every item of motor operation.

The lubrication afforded at every friction point and the gas-tight piston-to-cylinder seal means a big saving in fuel bills and a noticeable increase of power.

Through perfect protection of all motor parts, undue repair bills are avoided and depreciation is greatly reduced. By using Imperial Polarine Motor Oils you can save dollars this year on maintenance alone.

Besides, you realize more profit and greater usefulness from your car.

Always use the grade of Imperial Polarine recommended on our Charts for your type of motor. See Charts at your dealer's or write to 50 Church Street, Toronto, for a copy of our interesting booklet, "Automotive Lubrication," which contains the complete Chart of Recommendations.

IMPERIAL OIL LIMITED

BRANCHES IN ALL CITIES

For a Clean, Efficient Motor
