

THE DIGBY COURIER

CENTENNIAL EDITION

SEPTEMBER 18, 1974

Welcome to the Digital DIGBY COURIER

1877-1978

100th Birthday

The hundredth anniversary of the Digby Weekly Courier has brought to mind some fond memories as contained in the following historical chapter of the writer. But first, I wish to congratulate the current editor of the Courier, Mrs. J.M. (Edith) Wallis, for a job well done over the years and still being well done, good service rendered with great fortitude.

According to any record, I have at hand, the Digby Courier, in one hundred years of publication, was controlled under the same family management for 42 years, 1931 to 1973, under the control of Wallis Print Limited. The late J.J. Wallis became editor of the Courier the second time, in 1929, and at the same time of the business, which he had been running for some time previously and which became Wallis Print Limited sometime between 1929 and 1931.

I well remember the last year of the twenties when I worked in the office of the son with the husband and father of the late J.J. Wallis, the Courier. Sometime in 1928 or early 1929, the late J.M. Wallis (Mac), son of "J.J." engaged me to work every day after school hours, Saturdays, and for some months after finishing school. The place of work was in the building of the present Digby town hall on First Avenue. J.J. Wallis then worked occasionally at the print shop but mostly across the street at the Courier office which was then located on land in the general area where The Royal Bank of Canada is now.

Wallis Job Print operated in 1929 with a staff of four consisting of J.J. Wallis, J.M. Wallis, Miss Eva Haynes, who later became Mrs. George Kicup, and myself. I was engaged as a printer in the left

Eva's job was to run the printing plant but mostly at the Courier office. "Mac" worked nearly full time at all the different jobs at the Job Print, and I worked at various duties, most of the time being spent at operating printing presses.

We worked ten-hour days, six days a week. "J.J." and "Mac" sometimes worked overtime. I worked only the regular hours being paid a weekly wage which was comparatively good for those times and my lack of experience. I received four or five dollars a week for working after school hours to six o'clock and on Saturday all day, and nine dollars a week for full weeks after finishing school. A two or three dollar a week raise was offered to me in the fall of 1929 for me to stay on at printing, but I had made up my mind to enter a branch of the Royal Bank of Canada, starting salary of \$300. The bank salary figured out about the same per hour as for the printing job. Nevertheless, the congenial atmosphere of the printing plant those days, and, experience however short, were helpful and appreciated by me.

"J.J." was very jovial in his occasional trip to the Job Print and did considerable kidding all in good fun. "Mac" was a witty person who mixed in a good natured sarcasm now and then for one reason or another. Eva most always had good answers to all the kidding she was called upon to take, and, generally held her own in a quiet sort of way, always busy setting type. We four all got along very well indeed. However, I do remember that some days did seem long and weary because of the monotony of some repetitious jobs.

In spite of the great demand for printing those last boom days of the twenties, business generally being brisk, it looked to me that people had to work long and hard to make any decent profit. There was

including treatment of the hands. However, nails and finger ends were used and I was soon back to work.

Now and then a printing job had a dose on parchment paper which required a special kind of printers' ink which smelled very bad those days. I always dreaded it when "Mac" would do that job on the largest press, in spite of the fact that we always opened an outside door to lessen the effects on the constitution.

One of the jobs I had to do, being the junior and printers' devil on the staff, was to clean up now and then. One day not long after I started my job at the printing plant, I decided to clean the floor that apparently hadn't been cleaned in some considerable time.

"J.J." came along and said, "how are you making out Vince?" I assured him that I thought I was beginning to see the floor. "J.J." laughed very heartily, he thought the remark pretty good and suitable.

Sometimes the gasoline engine or a piece of machinery would refuse to work, and after "Mac" the fix-it man had patiently worked for a certain length of time to get it going again, without results, "Mac" would then stand back and cuss quite strenuously, then he would immediately start working. "See," he would say, "all it needed was a bit of cussing."

On other occasions when some gadget refused duty for me and, seemed to be broken, "Mac" would say, "use a little oil," and sure enough, often that is all it took. How often since, have I thought of the value of that remark and the actual need of "oil" in many life situations, applied at the right time, right place and, in the right way.

Other things that sort of stick in my memory and come to mind now and then are, like the time I told "Mac" of four teenage boys who in the spring season of 1929 got together just before dark one evening and decided to initiate the newly built outdoor Pines Hotel swimming pool which had just been filled with water. Clothes were taken off near the road just east of the pool; nobody else seemed to be around except the four boys; no thought or time for bathing suits up to the pool they went. They stood on the edge of the pool and looked at the chilly water, one soon jumped in, the rest quickly followed and across the pool they swam. "Mac" listened to the story and hardly said anything, but the next "Digby Courier" had a good story on the episode. The heading of the story went something like, "Four Boy Scouts Officially Open Pines Hotel Swimming Pool." Who were the four? Many years later they are known as: the late Dr. Earl H. Anderson, veteran of two wars (second world and Korean), was awarded the Victoria Cross; Sidney L. Smith, now prominent druggist for many years in Digby; Clayton D. Snow, Digby wholesale lobster king merchant; and myself.

As a young teenager I used to like doing some writing about different events interesting to myself and mostly for myself. One day "Mac" said to me "how about writing your version of the story told about 'The Marooning of Jerome'." I had heard and read at least two somewhat different stories about the man who was found marooned on a beach at some point on the French Shore of St. Mary's Bay, Digby County. When found this man's tongue had been cut out and his legs quite freshly amputated, were surgically well dressed and bound. He was presumably left by some vessel before dawn one morning, all for some mysterious reason.

"Jerome" appeared to have been a man of some considerable social standing and possibly of some considerable wealth. However the only thing the man could or would ever say after being found and cared for by some family in the French shore was, something that sounded like the word "Jerome". He either could not, or, would not, write anything about who he was or why he was left the way he was. Well, it was, and is, one of Digby County's mystery stories, and, different ideas have been expressed over the years concerning this man. However my response to "Mac" was, I felt no urge to write anything more or different about this man. The mystery seemed to have been very well explored in the mind of many people, and, he was a sort of curiosity for many people who visited where he lived for many years.

Three years later I was quite a young man in the street that I lived back and forth, led a boat clanking noise, powered by a small engine, and a "plur", and as I remember it, it was a "plur". "J.J." was noted for his sense of humor and his stories. In 1928 during the time Mr. Wallis was editor of the Scott Act (Prohibition Law) was about and advocated by some people, a boys' conference was held in the town hall.

Digby 172 Years Ago

Compiled by David Sanford

From the files of the Courier of January 23, 1867, the following account has been copied concerning Digby in 1800.

"Among a number of old newspapers kindly sent to us by friends is a copy of the Saint John Gazette of May, 1802, says the Telegraph and among other advertisements contained in the issue before us is one describing the town and township of Digby, and offering for sale certain lots in the town. In this area we are told the township of Digby extends from the Gulf of Annapolis westward to the extremity of the province of Nova Scotia, and contains about 130,000 acres." The town plot is thus described:

"The Town Plot is situated at the east of the township just within the entrance to Annapolis Basin, and twenty miles from Annapolis Town, and six miles across land from the head of St. Mary's Bay. This laid out from the water's edge, partly on level ground and partly on the declivity of a modern hill, dry and pleasant, and having with an eastern aspect, a view of the Annapolis Basin and its cultivated shores for twenty miles in where it terminates with the Fort and River's mouth of that name. It was settled by Loyalists from New York in 1783, the most of whom went early to farms, or, moving to older countries, left the whole

side to be bought proved by about who now reside detached, built dwellings with orchards, and some fishery and. It has communal parts of the common provisions in a cheap, built readily to be from many circumstances, probability of place of some shipbuilding, the West India a cheap and of residence.

This advertisement, dated at Digby, December, 1800, were to be a No. 100.

free trade with the U.S.A., especially with the New England States. The question was then debated by some Digby High School students one of which was some Digby's daughter, Florence (now Mrs. Melvin O. Tibert, Freeport, Digby Co.) Some days after the debate a man from some part of Nova Scotia came to the printing shop looking for Florence, one of the successful debaters; I had the impression that this man was interested politically but, maybe I was wrong.

Well, I felt that I had learned considerable from my short experience at "The Wallis Job Print". I was learning to do beginner jobs, receiving some knowledge about things like: embossing, stapling, perforating, counting, cutting and trimming paper stock, mixing inks for certain desired colors, and so forth, but, the only experience I had at setting type was just enough to make a "pi", the printers name for a confused mess.

There was a taste of trying to sell job printing outside the plant. Work was a little slack one early fall day and so "Mac" said to me, "how about trying your hand at taking orders for printed personalized Christmas cards?" I tried it, made several calls around town, spent most of the time at one particular house, and got an order, but, it was much time and got an order, but,

Years and experiments with the last time I saw him of personal interest. The last time I saw him and talked with him was, after one day when he had been wanted to see him at his home. He had been returned from the hospital after a week's absence. I made the visit and brought him back to the plant and got an order, but,

Power Board Plans for First Service on New Year's Eve

Tenders Opened for Construction of Power Line Residents Along Route Should be Ready to Use Service from Date of Turning on of Power

That is what is hoped for by members of the Digby County Power Board which was in session at the office of the chairman, H. H. Marshall, on Tuesday and Wednesday of this week opening tenders for the erection of the main transmission line from the power house at Upper Falls on the Sissiboo River to the Bear River bridge. No decision in respect to acceptance of tender was reached, the Board deciding to call the chief engineer of the Nova Scotia Power Commission into consultation and obtain technical opinion on the various tenders.

Tenders were received from upwards of fifteen bidders, located in all parts of the Dominion and Eastern United States.

A stipulation of entering into a contract with the successful tenderer will be available rural to which is completed in time to permit the turning on of the service on New Year's Eve.

With this definite assurance that service will be available rural to which is completed in time to permit the turning on of the service on New Year's Eve.

Death of Mrs. (Capt.) John Bain

On Friday last there passed away at her home at Culloden, Mary Elizabeth, beloved wife of Capt. John Bain, aged eighty-one years and eight months.

She had been in failing health for the past few years, but for two weeks had been confined to her bed suffering from a paralysis stroke.

Mrs. Bain is survived by nine children, Alice and Lena of Malden, Mass., Edith and Lizzie of Salem, Mass., Stella of Dorchester, George of Saint John, Milton of Dartmouth, N. S., Harry of Mount Pleasant and Willis who resided at home, also twenty-two grand children and one great grandchild. Two sisters and four brothers, Mrs. George Stark of Culloden, Mrs. Teresa Ford of Rossburg, Robert of Grand Manan, Walter of Digby and Otis of Culloden.

All those who knew Mrs. Bain know what a great loss the family has suffered, a devoted wife, a kind and affectionate mother.

The funeral service was held on Sunday afternoon from the Culloden Baptist Church with Rev. Gordon Ross officiating, was largely attended. Singing of two favorite hymns, Lead Kindly Light, and Jesus Saviour Pilot. Mr. Me, were exceptionally well rendered by the Digby Male Quartette.

During the address which was listened to by a large gathering with a noticeable silence, the speaker feelingly referred to the ones who had so suddenly been bereaved.

Following the benediction the casket covered with floral tributes was borne from the church by Harry, Willis, George Bain and Otis Middleton, sons and brother of the deceased. The funeral cortege was the largest ever seen in Culloden. The deepest heartfelt sympathy goes out to the sorrowing ones.

O precious one who has gone, A voice we loved is still, A place made vacant in our home, Can never more be filled.

MRS. CAPT. S. R. HICKS

There passed away on Friday at the Yarmouth Hospital, Lena, wife of Capt. S. R. Hicks, of Westport, in the 70th year of her age, following a serious operation. She was of a kind and genial disposition and a devoted member of the United Baptist Church at Westport. She had a host of friends and acquaintances in both Yarmouth and Digby Counties.

Besides her husband she is survived by two daughters, Mrs. Norval Morehouse, of Centerville Digby County, and Miss Blanche Principal of the Westport school at home, to mourn the loss of a kind and devoted wife and mother. The family were all present at her bedside when the end came.

MISS LUCINDA CORD

The death of Miss Lucinda Cord occurred at the home of her nieces, the Misses Dakin, on Monday where she had been for the past year, aged 84 years.

Remains were sent to St. John, where she had lived for 65 years.

IN MEMORIAM

In loving memory of Armida H. Ingersoll, who died on Sept. 29, 1922. Just four years ago, dear mother, Since you left this world of care, Gone to be with your Saviour, And your loved ones over there.

Inserted by her children Sept. 29, 1926

Local and Personal

A very enjoyable evening was spent at the home of Mr. and Mrs. Frank Rogers, of West Rossburg, Mass. on Sept. 24 the occasion being the birthday of Mrs. Rogers. The evening was spent in playing games, music, readings etc. About 20 guests were present, the larger portion being the family and relatives of Mr. and Mrs. Edward Trask, who were present, also Mrs. Ada Denton and Mr. and Mrs. Herbert Sterr. Among the presents to Mr. Rogers was a mahogany smoking stand. Not the least feature of the evening was the excellent buffet lunch, provided by Mrs. Rogers.

In a few well chosen words Mr. Rogers thanked the guests for the pleasure of their company. Mrs. Guy Morgan responded in a fitting manner, which with many kind wishes and much good cheer, good nights were said.

Weddings

HANDSPIKER—HEIGHT

The marriage of Eva Ellen Handspiker to Joshua F. Height was performed Aug. 18th, by Rev. Jabez Appleby at the United Parish. The double ring ceremony was used. Owing to the serious illness of the bride's mother and sister, the marriage was a quiet one.

The bride wore a travelling costume of navy kasha cloth with hat of french blue.

The bride is the youngest daughter of Mrs. and Mrs. Walter Handspiker of Mount Pleasant, and has been for several years the popular night operator of the Mar. Tel. & Tel. Co. and received many useful and beautiful gifts. The groom's gift being a cheque.

The groom is a son of Mr. and Mrs. Clayton Height of Barton.

Digby People Hold Party In Rossburg

The third Annual Horticultural Demonstration, or exhibition of the Smith's Cove Women's Institute was held in the Hall at Smith's Cove on Saturday afternoon and evening of last week. It was in many ways a very successful success over the exhibition of former years, especially in point of attendance and variety of exhibits. The exhibition is held as a wind up of the season of gardening and harvesting and at the same time a display of the progress of the school children from seed supplied by the Institute are exhibited, together with examples of the home making crafts. Features of this year's exhibition were an address by Prof. Cunningham, agricultural representative for Digby County and an object lesson on forest preservation. The feature took form of a miniature logging camp scene. On the shore of a miniature lake set in the midst of a miniature forest were seen reproductions of camps and mills of a lumber camp with all the different activities of a logging camp reproduced. Point was given to the lesson on forest preservation by means of notices posted on miniature trees. The whole was excellently done, being the work of the men of Smith's Cove who with artistic care reproduced the idea originated by Miss Thomas.

Both bride and groom are very popular and their many friends wish them every happiness. They will reside in Digby in the residence of Mrs. Myra Cossaboom, King St.

Bay View Life Saving Station To Be Opened

There is a strong probability of the Life Saving Station at Bay View re-opening.

With fifteen or more scallop boats operating out of Digby (Basin), and a number from along the shore and a large number of motor boats engaged in fishing, the likelihood of accident has become very great.

The Life Saving Station, opened and closed for various reasons several times, was built at Bay View in the Fall of 1911, and the Life Boat went into commission shortly after.

Salvation Army Festival

Captain and Mrs. Worthylake, officers in charge of Digby Corps, Salvation Army, and their assistants are making preparations for the holding of the annual Harvest Festival in the Citadel on Monday, October 11th.

The Harvest Festival of the Army is an occasion of joy and thanksgiving and at the offerings of first fruits occupy a prominent place. Patrons of the Army can serve a two fold benefit on the Army and themselves by securing their winter's supplies of vegetables at the Festival. The local corps desires especially, know the Army as a practical institution for themselves and is for another reason that in remembrance of the services rendered by the Army at rest camps and billets in France and England the Army should have a warm place in the hearts of all people.

Mr. and Mrs. Edward Payson and family are moving into winter quarters at Smith's Cove early in the month. Mr. Payson plans on opening a service station at the Cove next Spring.

FRIDAY, OCTOBER 1, 1926.

With the tourist season of 1926 at an end it is time now, before the lessons of the past become forgotten, to consider how best the advantages of Digby and surrounding country may be developed and exploited in order to draw increasing numbers of summer visitors. Much that has been done has been done well and has borne fruit. The experience of past years has proven that expenditures for development and exploitation are money well invested and that further sums, as much as can be gathered together, may be spent to advantage.

In connection with this, however, it is timely to consider whether all that has been spent has given proper return; if allotments in certain directions could not have been more advantageously laid out, and if the allotments for next year should not be reconsidered.

Discussing the tourist business has been the chief occupation of the manager of the Courier since assuming his new duties - and from

recommendation of visitors and residents amplified by personal observation, it would seem that lack of a central organization along the lines of the Tourist Association at Halifax, has been responsible for some duplication of effort and resulting loss of efficiency and, as well, has prevented the utmost to be gotten from resources of cash available. In this regard it would be most useful, if, in the preparations to be made for next year, there be included appropriation for a tourist registration and information bureau.

This bureau should be centrally located, in charge of a competent person, and should have available for inquirers all information respecting entertainment, points of interest and so on that would increase the enjoyment of summer visitors by cutting down the time spent in finding out about the country.

There are other matters that must also be considered and from time to time these will be dealt with in this column. All who are interested in tourist development are at liberty to offer suggestions and advice with a view to obtaining fullest co-operation from all quarters in making the year 1927 greater than ever for Digby.

The most difficult part of publishing a newspaper is to make its news columns of interest to all the readers in its constituency. The day of the scissors and paste pot has gone by. Daily papers, telephone and radio have brought the world to the door yards of country homes and with every innovation adding to progress of modern times the task of the country newspaper has become greater. The old days, the days when all that those living in small towns and country villages learned of world events was learned in the columns of the country weekly have passed forever.

There is one field that neither radio nor city daily have been able to enter competition with the country weekly and that is the aim of every weekly newspaper editor and only in proportion to the co-operation of its readers can the weekly newspaper come in to its own. As a means of promoting its service to readers the Courier inaugurates a news gathering contest enrolling among its correspondents the pupils of the schools of Digby and Annapolis counties with the hope that its news service may be so developed that it will make the Courier all the editor would like to see. Announcement of this service is contained in a display advertisement in this issue.

Read it carefully. Prizes are offered to the best contributions each week.

The regular meeting of the Ladies Hospital Aid Society will be held at the Court House on Wednesday, Oct. 6th, at 3 p.m.

In Digby This Week

Thomas F. Anderson, Secretary of the New England Shoe and Leather Association, arrived last Saturday to spend a week in his old home town, Digby, and had a most pleasant time. Mr. Anderson is unofficial tourist agent for Digby in Boston and has been the means of sending many from his part of the country to enjoy a summer vacation here. His present visit is to show that he believes in his own medicine and is eager to take the prescription. Mr. Anderson was a caller at the Courier office on Monday, dropping in to welcome the new manager and wish the Courier success. His good wishes and welcome are heartily appreciated, coming as they did in addition to a very pleasant letter which reached the editor a week after his own arrival here.

Mr. Anderson was formerly of the editorial staff of the Boston Globe and for sixteen years has been secretary of the shoe trades organization.

Dr. W. F. Reid left last week on his vacation, which he is spending in Boston, visiting friends and attending clinics. He will be away for a week or two.

A Simple Beauty Secret That Every Woman Should Know

According to the old adage "beauty is only skin deep," but it would be a transient thing indeed if it did not have behind it a strong, healthy body with all the organs functioning properly. Just as warmth is radiated by intense fire so is beauty of face and figure the expression of glowing health. Without good health there can be no lasting beauty. Every woman has an inherent beauty, but so many unconsciously handicap themselves in the effort to look their best! Any physician will tell you that the basis of good health lies in keeping the system free from those poisons that accumulate so quickly if the body does not function naturally every day. Unfortunately, six out of ten women, it is estimated, are risking their good health constantly because of the fact that these toxic poisons do not naturally move out of their system. And the result is that their health is impaired, not to the extent of putting them into a sick bed, but they suffer from headaches, a constant feeling of fatigue, a heaviness that makes them dull and creates a pessimistic attitude toward life and its duties. Their beauty is seriously affected. The color of the skin becomes sallow because of these poisons, circles appear under the eyes, the complexion goes. To overcome such a condition it is imperative to rid the body of the waste material. For over twenty years women have been aided by Sal. Adolph, a gentle cleanser and pleasant laxative which has been highly recommended by leading physicians for this purpose. A spoonful in a glass of water before meals is all that is required. Results are really marvelous. Health is restored, appetite returns, the heavy feeling disappears, the circles under the eyes vanish, complexion becomes natural, and full of vitality mind and one's beauty is recaptured and enhanced.

Older Voter

Editor Digby Courier:

Dear sir, I have just read an article in your paper of a lady from Mink Cove, who at the age of 82 years went to the polls on the 14th inst. and cast her vote for the Conservative party.

That is good, but I am proud to say that Smith's Cove can beat that.

We have a lady living here in the person of Mrs. Charlotte Weir, who went to the polls and walked into the booth and marked off a straight Conservative ballot at the age of 93 years and 2 months and showing much interest in the election as any of the younger ones. Who comes next?

Here and There

Vancouver.—According to statistics prepared by the Vancouver Merchants' Exchange, the foreign trade export of the port has increased 409 per cent. in the past five years, while the import trade has increased 51 per cent.

In a recent report from the Canadian Pacific Agent at Shanghai received at Montreal it is stated that the summer in vicinity of Shanghai has been a trying season of drought. This may have a disastrous effect on the crops. The long and intense heat wave was only recently broken by a typhoon which struck the Coast near Shanghai.

A plan is projected by the Osaka Prefectural Government authorities in Japan for the promotion of a large exposition in commemoration of the tenth anniversary of the restoration of world peace. It is expected that the exposition will be opened in 1929. The plans for the exposition, which will be carried out at tremendous cost, have been approved by the Prime Minister.

So successful on Canadian farms have been young soldiers, who prior to residence in this country were students in agriculture at the Household Salvation Army Schools in Essex, England, that the Army will shortly receive into those institutions their first classes of married men deemed fit to be in the Dominion. The course will be given during six months, and will mean a thorough training in branches of agriculture, particularly adapted to conditions in Canada.

Prospects for the establishment of an air route in Japan for mail and passenger service have brightened with the announcement that the Ministry of Communications have included an appropriation in the budget of the Communications Department, for such a service. It is anticipated that there will be enough passengers willing to pay double the railroad fare for the sake of speed between Osaka and Tokyo, the leading cities of Japan.

The Hibernian emigrants who are leaving their lone shillings and misty islands for a new life in Canada have, curiously enough, hitherto been ignored by the novelist, although the romance of this migration, extending over a hundred years, provides a wonderful field for fiction. The extent of the field has now been realized, however, in the new novel "Eyes of a Gypsy," by the Canadian writer John Murray Epton, who is the well-known author of "Drums Afar," etc., and Dean of Publicity of the Canadian Pacific Railway.

Action should be taken by the authorities in the Province of Quebec to shorten the open season for hunting deer and moose, according to Oskay Ripley, well known writer on animal and wild life and prominent hunter and angler. Mr. Ripley also believes that the deer season is too early as in September the deer are still in their red coats, and their numbers are only conserved through their ability to hide amongst the leaves of the underbrush which have not yet fallen. He believes that a scarcity of this game will result from the lengthy season.

The Earl of Clarendon, Under Secretary of State for Dominion Affairs in the British Government, who has been touring the Dominion investigating the conditions under which the 50-cent duty scheme from Great Britain is working out, declared, in an interview at the Canadian Pacific Windsor Street Station at Montreal recently, that one of the greatest wrongs upon which the success of the scheme depended was the loyalty and cheerfulness of the mothers of families who brought their children to be located on farms. His Lordship paid a special tribute to the type of women brought out under this scheme whom he had met during his personal visits among immigrant families.

Saves \$24 A Year

Careful experts figure that the SMP Enamelled Ware Roaster will save the average Canadian family fully \$24.00 a year in meat bills. The secret is, it roasts the meat with very little shrinkage. Also, it makes cheap cuts taste like the best ones.

You place the roast in the roaster, put on the cover; the roaster does the rest. No heating required. Every roast is perfectly cooked.

The cover fits close, so that cooking odors cannot escape. Dishes can't spatter, which means a sweet clean oven. Prices range from \$10. to \$35.00 each, depending on size and finish—and don't forget the saving of \$24.00 yearly.

Salts Fine for Aching Kidneys

When Back Hurts Flush Your Kidneys as You Clean Your Bowels

Most folks forget that the kidneys, like the bowels, sometimes get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, sciatica, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders. You simply must keep your kidneys active and clean and the moment you feel an ache or pain in the kidney region begin drinking lots of water. Also get about four ounces of Jad Salts from any drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is intended to flush clogged kidneys and help stimulate them to activity. It also helps neutralize the acids in the urine so they no longer irritate, thus helping to relieve bladder disorders. Jad Salts is inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to help keep their kidneys clean. A well-known local druggist says he sells lots of Jad Salts to folks who believe in trying to correct kidney trouble while it is only trouble. By all means have your physician examine your kidneys at least twice a year.

Central Grove

A sad drowning accident occurred at Prospect on Tuesday last, when William Buckman of Central Grove fell overboard and was drowned. He and his partner, Mr. Hersey, had landed their fish and were taking their boat to the moorings, Mr. Hersey being in the engine room at the time, did not see him fall, but some men on the shore saw him and hastened to his rescue but before they could get to him he had gone down for the last time. Dr. Milne was summoned and did all that could be done but it was too late. He was buried Thursday at Freeport. He leaves to mourn one sister, Mrs. Ira Hersey, who has the sympathy of both communities. He was in his 60th year.

Leland Elliott and wife of Boston spent a few days with relatives here last week.

Evelyn Powell returned to St. John last week, she was accompanied by her mother, Mrs. Coleman Powell and sister Delta, of Boston, who spent a few days with her in the city.

Miss Myra Powell has gone to Saint John for a visit with friends for a short time.

HAVE DARK HAIR AND LOOK YOUNG

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By using at any drug store for "Weyth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

Well-known druggists say everybody uses Weyth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful.

Keep Baby's Skin Soft as Velvet

Prevent and Relieve Eczema

Mrs. Albert Bishop, 88 Lapland St., Amherst, N.S., writes:—"In one week my baby was entirely relieved of eczema by the use of two boxes of Dr. Chase's Ointment. He had sores all over his back."

EVERYWHERE Dr. Chase's Ointment is known and appreciated by mothers who have with gratitude witnessed the benefit it has brought to their suffering children.

Chafing and cracking of the skin is often the beginning of eczema. The trouble develops where two surfaces of skin rub together—as in the neck, armpits or between the legs of fleshy infants.

Dr. Chase's Ointment applied after the bath brings relief from this condition and prevents eczema.

Meals to Stop

Stomach Disorders

What Physicians Advise

Thousands of unfortunate people suffer

almost daily from dyspepsia, indigestion,

flatulence, gases or distress after eating. If

they would only form the agreeable habit

of slowly drinking after each meal a

glassful of hot water containing a tea-

spoonful or two tablets of Bismarck

Magnesia they would soon find their

stomach so strengthened and improved

that they could eat the richest and most

satisfying meals without the least

symptom of indigestion.

Nearly all so-called digestive troubles

are caused by an excess of acid and an

irregular blood supply in the stomach.

causing the food to ferment and sour be-

fore digestion can take place. A glass of

hot water will draw the blood to the

stomach and the Bismarck Magnesia will

neutralize the stomach acids and make

the food contents bland and sweet. Easy,

natural digestion without distress of any

kind is the result. Bismarck Magnesia

is not a laxative, is harmless, pleasant

and easy to take. It can be obtained

from any reliable local druggist. Do not

confuse Bismarck Magnesia with other

forms of magnesia, such as citrates, etc.,

but get it in the pure Bismarck form

(powder or tablets) especially prepared

for this purpose.

CREAM FOR CATARRH

OPENS UP NOSTRILS

Tells How To Get Quick Relief

from Head-Colds. It's Splendid!

In one minute your clogged nostrils

will open, clearer passages in your head

will clear and you can breathe freely.

No more hacking, snuffling, blowing,

headache, dizziness. No struggling for

breath at night; your cold or catarrh

will be gone.

Get a small bottle of Ely's Cream

Balm from your druggist now. Apply

a little of this fragrant, antiseptic, heal-

ing cream in your nostrils. It pene-

trates through every air passage of the

head, soothes the inflamed or swollen

mucous membrane and relief comes in-

stantly.

It's just fine. Don't stay stuffed-up

comes so quickly.

ITCHING ECZEMA

DRIED RIGHT UP

BY THIS SULPHUR

Any breaking out of the skin, even

fever, itching eczema, can be quickly

overcome by applying a little Mentho-

Sulphur, says a noted skin specialist.

Because of its germ-destroying prop-

erties, this sulphur preparation instantly

brings ease from skin irritation, soothes

and heals the eczema, right up and

leaves the skin clear and moist.

ing a very special treat.

Death Of William Russell

There passed away at Bear

River one of the old residents of

the place in the person of William

Russell, aged 90 years, a native of

England, but who had made this

village his home for many years,

where he followed the occupation of

sail maker when the flourishing

shipping industry furnished em-

ployment.

Before coming to Bear River the

deceased followed the sea and

many a thrilling tale he could tell

from his own experience, when as

a young man he served on ships

engaged in the slave trade. It

was the practice when such ships

were pursued and likely to be

captured by some unit of the

British navy, that the crew were

thrown overboard to meet a

fate perhaps kinder than the other

which awaited them.

Mr. Russell had been confined to

his bed for fifteen years but pos-

sessed a keenness of mind to the

last.

The burial took place in the

Roman Catholic burial ground on

Indian Hill. His wife and adopted

son survive him.

A. G. MacIntyre went to Halifax on

Thursday last, returning Saturday night.

Lawrence Nicholl returned to his home

in Alliston, Mass., on Saturday.

Miss Helen Coggins, Westport, who

has been visiting her aunt, Mrs. Harry

E. Harris, returned to her home on Sat-

urday.

Advertisers Take Firm Stand

Here and there a newspaper association has set up a definite position as to so-called "miscellaneous" advertising media—programs, catalogues, and whatnots. Some of the press associations have hesitated about this, fearing misunderstanding and many others have simply neglected the subject. The Association of National Advertisers, consisting of the advertising managers of national advertisers is circulating the following resolution which it has adopted:

Whereas, the Association of National Advertisers recognizes and commends the efforts being made by publishers of periodicals and newspapers to develop the publishing business on a basis of audited circulation and proved advertising value, to the end that the expenditures of advertisers may be profitable and contribute to the lowering of costs of distribution, and

Whereas, members of the Association of National Advertisers are constantly solicited to take advertising space in publications issued by trade or other organizations, associations, professional societies, or in special editions, catalogues, programs or other media of uncontrolled circulation, whose primary purpose is to secure revenue to support the association, society, or organization responsible for such publications, and

Whereas, advertising in special editions, catalogues, programs, or other media issued by trade or other organizations, not regularly engaged in the publishing business has proved to be of doubtful advertising value, and constitutes an unwarranted drain upon the resources of national advertisers, without adequate return.

Therefore be it resolved, that the Association of National Advertisers in convention assembled at Cleveland, Ohio, this 28th day of May, hereby places itself on record as firmly opposed to advertising in such publications above mentioned as an economic waste and unjustifiable charge against the cost of distribution.

Nipigon Moose Hunting

Canadian moose and deer hunting seasons are at hand, in Quebec from the first of September to the end of December and in Northern Ontario, north of the French and Mattawa Rivers from October 15th to 30th of November. The lure of this great sport is irresistible to hundreds of men in professional and business walks of life in Canada and the United States, and it has been estimated that the tourist department of the Canadian Pacific Railway in Montreal that the movement of hunters will be greater this year than ever before. Ozark Ripley, well-known writer and experienced hunter has put down briefly, but graphically, a few impressions of one of his hunting trips in the Nipigon country. He writes: "I was unprepared for the scenery which unfolded so gradually before me. For years I had visited the Nipigon country and never once felt that I had neglected any of its

offerings until I saw things from another perspective. I was at Lake Helen by accident, after following the route pursued by a big moose which had for some reason browsed close to the Mission. Paul, my Ojibwa guide, and I had followed the trail towards the south, through the abbreviated poplar and birch grown bottom-lands and over significant altitudes. Paul declared it was a moose of immense size. The trail was gruelling and time and again I lost the faint trail of the moose. We followed the trail, again after a pause, over hills. The moose appeared to be in no hurry. Its steps were uniform and delectable. At no time did Paul slacken his pace and we arrived at the junction of Lake Helen and Lake Polly. We dropped down a hill to the water's edge, Paul in advance of me. After peering for a moment through a thicket, I discovered a dark brown object of immense proportions in what seemed at first a recumbent position.

"I go in bush and get round her," Paul whispered. "If I get round the odder side of bull she scares; she come straight for you." With this he disappeared into the thicket as silently as a wraith of smoke in the wind-charged air. How long I waited I do not know. My teeth began to chatter. It was a fall morning and cold. The bull moved, scenting danger. Perhaps I acted wrongly but held on to his shoulder and snap shot at him. Again I sighed and pulled the trigger sending another 270 into him. The bull fell dead with a splash. "I got him," I exclaimed to Paul in staccato breath when he appeared. "I got him." "Then I beheld rebuke in the red man's eyes because I hadn't waited longer." "Yes," Paul declared in guttural. "It's easy enough to kill moose here, but it take a real hunter to kill here where it's easy to get them out."

Fall Care Of Young Stock

Usually pastures that have been carrying stock during the summer months have become dry and short by the first of September. To enable the young stock to continue making gains, they should be turned on the after grass of the dyke lands, or in the second crop of the clover fields, for the remainder of the grazing season. Care should be taken that they have a good supply of water.

Do not over stock in pasturing new areas. If the feed is plentiful they can be pastured for a longer period, and will not be the worse for the fall feeding.

Provide shade if possible during the early fall, as flies are very troublesome during September.

Concentrates, such as wheat bran and oats, in small amounts can be fed to good advantage to all young stock under twelve months of age, if pastures are not good.

All stock should be stable before the heavy, cold rains and severe frosts. The time for stabling in Nova Scotia will likely be about October 15, or in some localities a little later if abundance of good feed is still available. If cattle can easily obtain the required amounts for a full stomach, they do not mind a little severe weather.

It pays to feed the young stock well as soon as they are stabled; they have a natural craving to "fill up" before severe weather and a little concentrates along with good hay and succulent food, will be fed to better advantage at this time than in late winter and spring. Turnips, refuse cabbage and small potatoes can be fed in the fall to good advantage.

Allowing the young stock to run out during the fine days in the late fall is good practice, and will tend to keep them vigorous and healthy.

Boston Man Dropped Dead At Weymouth Hotel

Stricken by heart failure while at dinner at the Good House, Weymouth, on Friday, J. P. Harris, formerly of Sandy Cove, but late of Boston where he conducted a packing and shipping house, dropped dead. His remains in charge of his brother Layton Harris of Sandy Cove, were forwarded to Boston on Saturday for interment. The funeral was held with Masonic rites.

The late Mr. Harris was 45 years old. For many years he had been in the habit of coming to Digby County to spend his vacation. He arrived in Weymouth on Tuesday of last week and seemed in excellent health. Most of the time after his arrival had been spent in motoring through the County, renewing old acquaintances. On Friday he had been out from early morning and arriving back at the hotel shortly before two o'clock had joked about almost being a wreck because of a blow out. The waitress had just served the soup course when, reaching for a cracker, Mr. Harris collapsed. Death was instantaneous.

There survive his widow and one brother, Layton Harris of Sandy Cove. The late Mr. Harris was a member of the Masonic Order and a Shriner. He had been most successful in business and leaves a large estate.

Horticultural Demonstration

Continued from page one

Each entry were made in the exhibition. Professor Cunningham who did the judging was most complimentary in his congratulatory remarks to the exhibitors. In the Arts and Crafts exhibit the most noted feature was the entry of little Miss Marguerite Cossitt, ten year old mist maker, who had a very handsome rug, all her own work, on display.

The flower booth was a riot of glorious color, tastefully arranged by Miss Rice and contained all the beauties of late summer, drawing forth much praise for its variety and arrangement.

The collection of village grown vegetables, distinct from entries from Institute seed, contained 54 varieties of garden produce.

A departure was made from the usual custom and in the evening a nominal admission fee was charged. It proved a popular innovation, the hall being filled with people to examine the exhibits and to attend the lecture by Prof. Cunningham, who spoke on the educational value of Rural Exhibitions, the Agricultural Movement and the Bovine Tuberculosis problem. His lecture was followed with deep interest.

St. Mark's Memorial Church is Dedicated at Burtonvale

Memorial to Women and Children Victims of the War Opened With Impressive Ceremony by Rector of Weymouth

On Sunday, September 26th, in the midst of a congregation which crowded the church to the doors, Rev. Morris Taylor, Rector of the Parish of Weymouth, conducted opening services in the new church at Burtonvale.

The new church has been dedicated as St. Marks Memorial Church, erected as a memorial to the women and children who were killed in the Great War.

The organ is a memorial to the officers and men of the Royal Munster Fusiliers who were killed in the retreat from Mons in 1914. Gifts toward this memorial were received from Mrs. Laurie, widow of the late Colonel Laurie, who commanded the Royal Munsters in the Retreat, and from General Sir Herbert Blifield, who joined the regiment at the same time as Rev. Morris Taylor, Rector of Weymouth.

Another memorial is a beautiful stained glass window, the gift of Mr. G. D. Campbell, of Weymouth in memory of the late William Wagner, of Wagners Corner, Burtonvale.

The sanctuary, to be finished in white, with a beautiful white Altar, is dedicated to the memory of the women and children who died in the Great War.

The Royal Munster Fusiliers was one of the famous regiments of the Old Contemptibles. In the battle

of Mons they did not receive the order to retreat because the despatch rider bearing the order was killed. Standing their ground, living up to the tradition that has given fame and glory to the colors of the Munsters, the Regiment was almost annihilated.

Funds for the erection of the church were raised by contribution from people far and near. It was intended to be the gift of a people in memory of non-combatant victims of the war and as it stands today is a monument and symbol of devotion, self sacrifice and earnest purpose. The service of dedication was of simple solemnity. In the Sanctuary and Chancel artistic hands had placed wreaths of Autumn leaves, gifts of harvest fruits and flowers, covering the altar and making the whole interior a place of beauty. The Rector, conducting the service, spoke of those whose honorable memory the church had been erected, of the toil and service of those who had worked to bring to reality the desires and plans of those who desired that time should not dull the memory of the sacrifices made, and in simple phrases asked God's blessing upon the building erected as a house for worship.

W. H. Graham of Digby, spent the week end in Middleton the guest of Mr. and Mrs. Reginald Jefferson.

The Coming of Hydro

In Hants county an American Millionaire is spending a million dollars on a model farm. The most modern machinery, the latest in conveniences, model cottages, running water and all that can take drudgery from farm life, have been called into service and this farm will be one of the show places of the Maritimes. The owner makes farming his hobby, but after the manner of millionaires the hobby must pay its way.

Chief of the aids in reducing labor and back breaking toil is electricity. The barns are lighted with it, machines are operated by it, the water is pumped from wells to barns and houses by electrically operated pumps. In fact everything about the farm that can be

done by machinery is done by the turning on of a switch.

On a smaller scale this same opportunity is open to the farms of Digby with the coming of Hydro. No more need the chores be done by the light of smoky lanterns. No more must back-breaking drudgery be the chief lot of those engaged in agriculture on the farms of Digby county.

For years politicians, economists and just plain people, have watched agast at the annual departure of the young men and women of the farming districts of the country. For years the chief concern of politicians and patriots has been to devise means of keeping the young men and women of the country contented to live and work in

Soldier-Citizen of Digby Died at Camp Hill Hospital

Veterans and Citizens Pay Tribute at Funeral of Frederick Lambert, Victim of German Gas Attack

The funeral of Frederick J. Lambert, veteran of the war, who died at Camp Hill Hospital on Thursday last, was held from Trinity, Digby, at a Church Sunday afternoon, Rev. William Driffield, rector of Trinity, read the offices for the dead.

The funeral cortege formed up at Keen's mortuary where the body lay in state since Friday covered by a Union Jack and surrounded by the floral tokens of tribute to the memory of a soldier citizen. With comrades from military and naval service branches in uniform as pall bearers headed by a company of nearly a hundred veterans the remains were borne past the Digby Soldier's Monument, emblem of the town's remembrance, to Trinity Church where an impressive simple funeral service was conducted. The church rites completed the remains were interred in the Methodist cemetery beside those of the late Mrs. Lambert, who died three years ago.

Miss Fanny Cairnes of Digby, they were married eight years ago. Recurrence of the illness which brought about his discharge kept Mr. Lambert from reentering civilian life. He was from time to time a patient at Military Hospitals and for four months before his death, had been at Camp Hill for treatment. His father in law, William Cairnes was called to Halifax on Tuesday of last week to be with him and accompanied the remains to Digby. One son, who lives with his grandfather, survives.

Weddings

MARSHALL-MARSHALL

A very pretty wedding took place at the Baptist Parsonage, Weymouth, on Sept. 22, when Miss Marjorie Louise, daughter of Mr. and Mrs. Walter Marshall of Digby, was united in marriage to Robert W. Marshall, son of Mr. and Mrs. Howard Marshall of North Weymouth.

Rev. M. B. Whitman officiated. The bride is one of Digby's most popular young ladies and for the past two years has been a valued member of the Digby Post Office staff, also a member of the Baptist Choir.

The groom is also very popular with the young set and for the past three years has been employed as clerk in the grocery store of A. A. Shortliffe.

After the ceremony the happy couple returned to Digby to the home of the bride where a reception was held.

The presents were numerous and costly, including silver, china, and linen which shows the high esteem in which the young couple are held.

WENTZELL-BANKS

On Wednesday afternoon, September 29th, a quiet but pretty wedding was solemnized at the Baptist Parsonage, where Rev. E. J. Banks united in marriage Miss Alma Wentzell, daughter of Mr. and Mrs. Nathaniel Wentzell of Wentzell's Lake, Lunenburg County, to Murray Banks, eldest son of Mr. and Mrs. James Banks, Bear River.

The bride looked girlishly charming in a gown of light blue brocade, carrying a bouquet of sweet peas. She was attended by Miss Alice Banks, sister of the groom, who wore garnet satin with picture hat to match. Murray Banks attended as best man.

Immediately after the ceremony, which was witnessed by a large number of friends, the bridal party motored to the home of Mr. and Mrs. James Banks, where a reception was held and wedding supper served. Among the out of town guests were Mrs. John Nichols, Mr. LeLong and his sister, and Miss Henshaw, of Acadiaville.

Mr. and Mrs. Banks will reside in Bear River.

Of all the beverages in use by the fishermen in this country both amateur and professional, there is none, no not one which is quite so delicious as a freshly made cup of MORSE'S SELECTED ORANGE PEKOE TEA. This tea has other splendid qualities. It is a most excellent thirst quencher and in addition is a physical stimulator and invigorator.

Pulp Steamer Makes Last Trip of Season

The pulp steamer, Kyvig, Captain Johnson, sailed Wednesday from Digby on her last outward trip for the season. The steamer was in port on Tuesday last for orders, and proceeded to Parrsboro where a half cargo was taken on. She returned to Digby on Saturday to complete loading.

On Saturday morning a lighter in tow of a tug, was sunk, towed under, in the tide rip at the gut while being towed in to harbor. The tide was at the turn and this with a strong north wind, drove the floating pulp into the Basin. Most of it was salvaged and piled on the wharf but a part was washed up into the Joggins and along the shores where it was gathered by beachcombers.

The steamer has made fifteen trips during the season, taking in all 9000 cords of wood.

OBITUARY

REUBEN MOREHOUSE

The funeral of the late Reuben Morehouse, Centerville, took place at his home August 10th, 1926.

The deceased had been in ill health for some time. He is survived by his widow and son Alton, also two sisters, Mrs. Chas. Morfon of Centerville, Mrs. John Henderson, Seabrook, and one brother, Mr. E. D. Morehouse, Sandy Cove.

The funeral was largely attended and the casket was laden with beautiful wreaths and bouquets. Mrs. Fleming of Roxbury, Mass., sang a very appropriate solo, "God Will Take Care of You."

Much sympathy is extended to the bereaved ones especially to the widow and son who miss a devoted husband and kind father.

ANNIVERSARY

Harry H. Best attended the Exhibition in Yarmouth last week. The many friends of Miss Marion Best will be sorry to know that she is very ill of typhoid fever.

The members of Belleisle Division No. 2 celebrated their 3rd Anniversary on Wednesday evening Sept. 29th. On this occasion they were "At Home" to the members of Old Home Division Smiths Love and Geymour Division, Graville Centre. The hall which had been prettily decorated with Autumn leaves and flowers looked very inviting. A programme consisting of speeches, readings and music had been prepared and was much enjoyed by all. After the closing of Division, supper was served by the sisters of Belleisle Division when about seventy members in all thoroughly enjoyed a social time. Addresses by visiting brothers congratulated Belleisle Division upon their anniversary and wished them many more years of service.

Capt. Mrs. Worthingale and her assistants are making great preparations for the Salvation Army Harvest Festival to be held in the Citadel, Monday night, Oct. 11th. This year the farming districts throughout Digby have been canvassed to contributions and a wonderful variety of dried vegetables are secured. This makes a splendid opportunity for laying in a winter stock of vegetables and also aiding a body, which deserves the support of the area people.

Good Health for All the Family

Mrs. Mary Fourgers, Larry's River, N.S. writes:—
"I was troubled with constipation for years. At last a friend suggested that I try Dr. Chase's Kidney-Liver Pills. I did so and must say that they have given me more relief than all the medicine I have taken during the last ten years."

The newest idea in medicine is to prevent serious disease by looking after the "minor ills."
Since about ninety percent of serious diseases develop from constipation and torpid action of the liver and kidneys

the use of Dr. Chase's Kidney-Liver Pills to arouse the action of these organs is the most effective of preventives.
Backaches, headaches, indigestion, constipation, etc., soon disappear when this great regulating medicine is used.

Sandy Cove

Warren Crowell has gone to Middleton.

Layton Harris left on Saturday's boat for Boston, accompanying the remains of his brother who died suddenly at Weymouth on Friday last.

Mrs. Donald Gidney and brother Bradford, left on Tuesday for Boston where she will join her husband.

The Tory Party of this place gave a party and dance in the Oldway Hall on Friday last. A very nice time was spent by all who were present. Refreshments were served by the ladies. Plenty of good music was rendered by Cunningham's three piece orchestra. The party broke up at 1.30 o'clock with three cheers for H. B. Short.

Marvin Griffiths of East Ferry, has moved in his new home in this place.

The stork arrived at the home of Mr. and Mrs. George last week leaving them a beautiful baby girl.

Death of Mrs. Austin Weir

Sorry to chronicle the death of Mrs. Austin Weir which occurred at the V. G. Hospital Halifax, very recently where she had gone for medical help. Even with all that loving hearts and hands could do, she passed peacefully away at the early age of 34 years. George leaves to mourn their loss, a sorrowing husband, three children, Wilfred, Muriel and Murray, a loving mother and stepfather, one sister and several brothers. George, who had been in failing health for several years and bore it all with patience.

The service was conducted by Hatt Lie, Baptist at the house and grave. The pall bearers were Messrs Harry and Lloyd Longmire brothers of the deceased, and Edward Hudson and Chester Hudson. Interment took place in the cemetery here. The flowers sent by friends were beautiful.

Port Wade

Mrs. Mary McGrath left on Thursday last to spend the winter with her children in Lynn.

Mrs. Claud Olmstead returned on Saturday from her visit to Fredrickton, N. B.

Mrs. James Messick and two grandchildren, who have been spending the summer here returned to Boston last week. They were accompanied by her sister, Mrs. James Morrison.

Ralph Apt of Kentville spent a few days with friends here recently.

Miss Lena Keane returned from her visit to New England on Tuesday and left next morning for Wolfville where she is taking a course at Acadia University.

The W. M. A. S. met at Mrs. Ralph Hayden's on Wednesday afternoon. An Acadia program was given which was full of interesting numbers.

A number of people from this place attended the funeral of the late Harry Anthony on Sunday afternoon from his late residence at Lower Grandville. His passing has caused universal sadness throughout this neighborhood where he was so widely known.

We are pleased to note that three houses in this vicinity which have been closed for sometime, have been recently opened. The new tenants are Arch Morrison in the Ryder house and Messrs Lloyd and Robert Longmire of Hillsburn in the other two houses near by. The Longmire boys have added a new boat to the scallop fishing industry of this place.

House Completely Destroyed by Fire

On Tuesday, Sept. 28th, about 1:30 p. m. the home of Mrs. Florence Robillard was completely destroyed by fire, which apparently, was caused by a defective flue. When discovered the fire was burning briskly in the attic of the house, and soon the flames broke through the roof. In a very short space of time the rest of the village rallied to fight the fire and save what they could and in this were successful in removing practically all the furniture, which was however, somewhat damaged. It was a difficult undertaking to save the home of D. D. Rice as the heat was intense, there being little wind and too much credit cannot be given those who assisted in this work. Considerable damage through smoke and water was suffered in this house. Had the wind been from a different direction the probabilities are that a large number of houses would have been lost, as water supply is low. Mrs. Robillard has moved into the Dunlop house which was recently vacated by M. and Mrs. C. Green.

Mr. and Mrs. George Darres, Victory

had a very narrow escape from serious in-

jury on Sunday morning when their car,

in which they were driving to Bear River,

was struck by another car belonging to

Fort Wade. The collision occurred

while going up a hill at Brighton, the

Port Wade car being driven down the hill.

Mr. Darres' car, a Dodge, was very badly

injured, one wheel being torn off, axle,

springs and fenders demolished and the

car turned completely over. Mrs.

Darres was cut about the head and right

arm, and ten stitches were required to

close the wounds, which, however, are

not serious. The damaged car was towed

to Bear River later in the day.

Coming of Hydro

Continued from page one

their native land. At the foot of
all the campaigns for "Maritime
Rights" has been the need of the
province to keep its youth from
going to other countries to find a
means of livelihood. Deserted
farms, homes in which none re-
main but the very young and the
parents of the family, are examples
of the need.Now comes hydro. By the New
Year the plant and transmission
lines of the Digby County Power
Board will be ready for service
and hydro will answer the demand
for something to take the drudgery
out of life in rural communities.
No more will the morning chores
be done by the light of a smoky
lantern. No more will back break-
ing toil destroy the pleasure that
is in a life on the land. Hydro
will be the servant of the farmer
and fisherman. Country homes
will be as well lighted and con-
venient as the homes of the big-
gest cities and the chief attraction of
the bright lights of Broadway and
Boston will have their competitors
in the villages of Digby County.This is the vision that prompted
the organization of the Digby
County Power Board. To make
rural life attractive is the aim of
all who are believers in the future
of our province. The first step
has been taken. The main trans-
mission lines will soon be carrying
electricity through the villages and
farms on the main highway from
Weymouth to the Bear River
bridge. Contracts for the instal-
lation of the generating plant and
for construction of the transmission
line will be let today or tomorrow
and work started immediately. The
next step is for the village of
Weymouth, Port Gilbert, Plympton
Brighton, M. rs. saltown, Hill Grove
and Smith's Cove to get their local
distribution service installed and
private lines put in. After the
first of the year winter conditions
will prevent, except at enormous
costs, the erection of spur lines.
The time to get local distribution
lines is now. The Village Improve-
ment Act provides the machinery
under which unincorporated vil-
lages can arrange for financing this
installation. Prompt action is ne-
cessary. The main service will be
turned on on New Year's Eve.
Let it be a real start of the New
Year all along the line by making
it possible to turn on the lights in
every house along the route at the
same time.

New Rebekah Lodge

The one hundredth Rebekah
Lodge of the Independent Order of
Oddfellows under the jurisdiction of
the Grand Lodge of the Maritime
Provinces was instituted at Wey-

known as "Olive Branch Lodge." The
lodge was instituted by Miss
Laura Cross of Kentville, President
of the Rebekah Assembly of the
Maritime Provinces and she was
presented by Mrs. Mattatall of Truro,
a past President. The lodge starts
with a membership of sixteen.
The degree was exemplified by the
degree staff of Zelma Lodge of
Digby. This is a large team, ac-
customed to working in a large
hall, but in spite of the handicap
of a hall not exactly suited to it,
the work was wonderfully well
done and evoked much praise from
visiting members of the lodges who
were present. John A. Craig, of
Yarmouth, the Grand Master, pre-
sented the lodge with a hand-
some sum in cash and also gave
them a pan of gavel. The first

The Power Board Accepts Tenders for Hydro Installation

V. O. N.

W. Snook Has Contract for Hydro Line

Contract for the erection of the transmission line from Sissiboo Falls to Bear River. Bridge was let Saturday to Walter L. Snook, of Digby, electric contractor. The bid accepted contained several changes from the original plans and in order to determine the value of these proposed changes signatures to the contract were being obtained from the members of the Board, E. Lorne Allan, of Halifax, checked up on the ground. The changes are expected now, to be more satisfactory than the original specifications and Mr. Snook's bid was accepted and contract entered into with him by the Power Board.

Mr. Snook's tender calls for the erection of thirty one and one half miles of main transmission line from the power site at Upper Falls, Sissiboo, to Weymouth thence to the Bear River bridge, following along the main Yarmouth-Halifax Highway. Thirty foot eastern cedar poles will be used carrying No. 4 aluminum, steel reinforced, cable.

Immediately upon the acceptance of the contract Mr. Snook started assembly of materials necessary for construction. A pole line survey was begun on Monday and connection made with owners having poles of required quality. Car loads of these are now enroute to the base of operation. Work will be started in earnest next week and will be rushed to completion. A construction crew at present engaged running a line from the Chignecto to Springhill will be brought down as soon as they are cleaned up on their present job to work on the new contract.

THE HUNTING SEASON

"A hunter popped a partridge on the hill
It made a great deal of noise in the field
It seems when later on his bag he spied
It was the guide.

One shot a Squirrel in a near-by wood—
A pretty sharp sound from where he stood.
It wore, they said, a shooting hat of brown
And lived in town.

And one dispatched a Rabbit for his haul
That later proved to measure six feet tall.
And, lest you think I'm handing you a myth,
It's name was Smith.

Another Squirrel shed the champion fox,
He clumped him lurking in among the rocks.
One rapid shot! It never spoke nor moved
The instant proved.

A "catfish" man epied a gleam of brown
Was it a deer—or a fox, a friend from town?
And while he pondered by the river's brim
Jones potted him.

Grow Canadian Wheat in English Garden

Sample bags of No. 1 "Marquis" wheat were distributed, some time ago through the officials of the Department of Colonization, Agriculture and Natural Resources, Canadian National Railways, and attracted considerable attention not only in the western section of the United States but also in Great Britain and Europe. One of these bags was returned to Canada, filled with gold pieces in part payment for a section of "western land" and now W. J. Black, the Director of the department, has just received from the London office a sample of unusual character.

J. W. Short, of London, received one of the samples, from Canada, and conceived the idea of planting it in his garden. He received a plot in his city garden, and his efforts were rewarded by a "crop" which was harvested. Mr. Short showed his wheat to Canadian officials and they agreed that the English grown Canadian wheat would grade No. 1. As a sample, was sent to Canada and it was also agreed that the sample was an unusually good one of "Marquis" wheat.

THIS MOTHER GLAD DAUGHTER IS WELL

Mrs. Parks Tells How Lydia E. Pichham's Vegetable Compound Restored Her Daughter's Health

Toronto, Ontario.—"My daughter is 10 now and has been an invalid ever since she was six months old and has been compelled to remain out of school the greater part of the time. We have tried a lot of different medicines, but none helped her much. I had then Lydia E. Pichham's Vegetable Compound when I was run-down and it had helped me so much that I thought it might help her at this time. She began to gain weight ever since she began taking it. She attends school every day now and goes skating, and does other out-of-door sports. I recommend this medicine to any one who is run-down and nervous and weak." Mrs. PARKS, 116 Bond Street, Toronto, Ontario.

Lydia E. Pichham's Vegetable Compound is a dependable medicine for young women's troubles. For sale by druggists in every where.

Smith's Cove Library Had Hood Year

The annual Public Meeting of the Library was held at the Library on Oct. 4th 1926. The President presided and the secretary reported an excellent year's work. 587 books were loaned from the senior department and 143 magazines, while 285 books and 116 magazines were loaned from the junior department. An increase of 75 books and 118 magazines was reported over 1925 figures. "It is gratifying to know that the community use their valuable assets and the committee hope that year by year the circulation will increase. The election of officers for the ensuing year resulted in:

Mrs. John Smith President
Miss Francis Austin Vice Pres.
Mrs. Geo. Austin and Miss Cummings Auditors
Mr. Lionel Taylor Secretary
Mrs. Harvey Wier Treasurer

The Library has been in existence for five years, and some of the members of the first Executive Committee still serve in that capacity. They deserve the very best thanks of the community for their untiring efforts to uphold and continue the Library. Since the commencement of the Library there have been many difficulties to overcome and the committee past and present have worked hard to keep this Public Free Library. The Library depends solely upon voluntary workers and donations of books and money. It is pleasing to record that it has never been in debt. From a handful of books a gradual growth has furnished the Library with nearly 1,100 most of which have been contributed.

A junior department was commenced more recently and is very well patronized by the school children. It is the aim of the committee to increase the number of books in the children's library because they very much appreciate

The Kaskivilians met at the home of Mr. and Mrs. Austin on Sept. 27th for their semi annual meeting. The election of officers resulted in:

President Miss Francis J. Austin
Vice President Cyril L. Thomas
Secty-Treasurer Isabel Cogsett
Auditors Messrs Wm. Woodman and L. Taylor.

Several persons were elected members of the organization, and the membership will be about twenty.

The master of ceremonies suggested a rough outline of work up to the New Year, and there is promise of very happy times.

The treasurer reported a very satisfactory credit balance and we set out upon our season's work full of hope.

Owl Turns Chicken Thief Is Caught

On the night of Oct. 6th a carnivorous creature visited the Winchester Poultry Farm. The dastardly slaughter it carried out was found by an assistant. There were seven matured Leghorn Roosters slain, each weighing about five pounds.

A warden was credited with the nocturnal slaughter, for behind each ear about two inches down the neck was found a hole about the size of a fifty cent piece, through which the blood of the rooster had been extracted. In four of the birds other wounds were found; but the flesh had not been eaten.

The night of Oct. 7th exonerated all wessels from blame. On going to close up the poultry houses another assistant was attracted by squawks issuing from the roosters' quarters. Hurrying there with lantern and dog, the nocturnal thief and destroyer was captured in the act of slaughtering its eighth victim. It's desire for deliciously flavored blood was not satisfied, it's pretty neck was dislocated and the owl lost its life. Its death was instantaneous and it's body had been viewed by many interested persons.

Presumably it is a great horned owl its wing spread is 32 inches and with such weapons as it possesses in the form of beak and claws, it would be a strong bird who could defy this formidable creature of destruction.

Transferred to Springhill

Captain and Mrs. Worthylake, officers in charge of Digby Corps Salvation Army, received instructions on Saturday afternoon to report to Springhill for duty. They leave this morning for their new post.

The Worthylakes came to Digby from Parrsboro several months ago. Their post before Parrsboro was Windsor, one of the best corps in the province and their tour of duty in Parrsboro and Digby was replete with interesting and successful experiences. They have fallen away in numbers and activity. Here for only a short time they made many friends who will wish them every success in their new field and congratulate them on their promotion.

DO YOUR CHILDREN GROW FAST ENOUGH?

Are They Sturdy, Healthy and Strong or Pale, Weak and Run Down

Growing children need a great deal of food, and sometimes they will not eat the kind of food they need for strength, then they become thin, pale and run down.

This condition of under nourishment can be corrected by taking Father John's Medicine which does contain just the food elements such children need, and that why so many children gain weight regularly while they are taking this old fashioned family medicine.

Father John's Medicine is an expertly blended preparation of cod liver oil with other ingredients in such a way that its food elements can be easily taken up by those who are weakened and run down. Your friends and neighbours know its value. Thousands of mothers depend upon it to keep their children well and strong.

Ratepayers Will Be Asked for Power to Borrow

A meeting of the ratepayers of the Town of Digby is called to be held in the Court House at eight o'clock on the evening of Thursday next for the purpose of voting on a resolution empowering the Town Council to borrow on the credit of the corporation a sum not exceeding ten thousand dollars, to be used to improve and reconstruct the distribution of the Digby Electric Light Company.

A large majority vote in favor of the resolution is a matter of civic responsibility. The Council and others interested in the development of Digby's industrial and social life by means of cheaper electricity for power, light and heating have spent considerable time and energy in bringing to its present stage a plan to provide hydro generated electricity. At a meeting of ratepayers held in June authority was given the Council to enter into the Digby County Power Board and authorize the Board to make expenditures for the purpose of development of the Sissiboo or other power project. Contracts for erection of the transmission lines and installation of generating plant have been let and it is in order to be ready for the service when the service is turned on that improvement of the town's electric distribution service is necessary.

There will be a Halloween Entertainment at Trinity Parish Hall on Tuesday evening, Nov. 2.

Bishop Hackenly at Trinity Church Preaches on Duties

Right Reverend John Hackenly, coadjutor bishop of the Anglican Diocese of Nova Scotia, paid an Episcopal visitation to the parishes of Digby County this week, being in Digby on Saturday and at other churches in the county on Sunday and following days.

He celebrated Communion at early service at Trinity Church on Sunday morning and preached at Matins and Evensong.

At Matins the service was adapted to the spirit of the occasion. It was Children's Day and the hymns sung were children's hymns. The Bishop took his text from the second book of Chronicles, 1:13, "Then Solomon went up from before the Tabernacle of the congregation and ruled over Israel."

To translate the words of scripture into every language the verse was "Then Solomon went up from church and began his life work." In order to comprehend the lesson implied by the text, it was necessary, said the preacher, to review for a little the life of Solomon. His father, David, the Shepherd King of Israel, was through all his faults a man who realized his duty to his son and to fit that son for the great task of being King of all Israel he had secured for his instructors the wisest men of the nation, men versed in law, men versed in art, men versed in all that should be known one who was to be a ruler of his people. And the secular training of the boy Solomon had not been the whole of his education but he had been taught religion and piety as a faithful son of the Jewry. Then, when at last King David was gathered to his fathers and on Solomon fell the task of kingship he was prepared.

The Chronicles of the Kings told how he began his work. In the words of the text the story was told. Solomon, when he was called to the task, went first to church and there asked for an understanding heart that he might rule his people well.

It was Children's Day and the preacher asked his hearers to consider for a little while the special need of children. "Did fathers and mothers fulfill their duty towards their offspring? Five days in a week children went for hours every day to learn secular things, to be taught of matters to train them in part to become men and women, but too often the one hour on Sunday, when children were to be taught the spiritual things to make their lives complete and fit them in full for the task of life, that one hour was looked upon as an opportunity to get rid of the little ones for a time to give their parents peace, and they were sent to Sunday School with lessons unprepared so that the Sunday School teacher had to waste the time that should be spent in increasing knowledge in making up for the neglect of the parents.

And then, when the boy or girl grew to manhood or womanhood who would be to blame, unfitted to battle with the world the flesh and the devil, they fell beneath temptation? Surely not the child, but the father and the mother. Parenthood should be considered in its true light, as a sacred obligation and fathers should not neglect, or

The extension of the Kingdom of Christ, the salvation of the world, depended upon the men and women of tomorrow, the boys and girls of today and the church and the parents should devote every effort to completely fit the young minds to be ready when they are called upon to take up their life work.

Here and There

Edmonton.—Large mouthed black
bass may soon be available to Al-
berta anglers for a batch of
fingerlings and yearlings from the
Keeney Lake have been placed in
Lac La Poudre by the Northern
Alberta Fish and Game Protective
Association.

McGill University opened her
senior football season in Montreal
at the Percival Molson Memorial
Stadium on October 2nd, with a game
against the Old Boys. One of the
most enthusiastic fans of this game
is E. W. Battley, President of the
Canadian Pacific Railway, who is an
annual ticket holder, and who will
be present at all the big games this
season.

In a recent despatch from the
west, W. L. Smith, former editor of
the Farmer's Sun, estimates that
approximately \$1,000,000,000 will be
added to Canada's income this year
from the products of the farms of
Western Canada. Last year's field
crops were valued at \$1,112,691,000
to the growers, and it put the west
in the prosperity column. Mr. Smith
believes it is a fair assumption that
this year the return will not be less.

An interesting estimate of Cana-
da's per capita wealth has been made
by the League of Nations, with
comparative figures of 22 years ago.
In 1925 the per capita wealth in
this country amounted to \$2,406, as
contrasted with \$1,100 per capita in
1903. Out of the 35 nations listed,
Canada ranks third, the United
States showing \$2,918 and Great
Britain \$2,469 per capita, respec-
tively.

With a view to obtaining financial
assistance of some kind with which
to aid the emigration of Austrian
farmers to Canada, Dr. Heinrich
Montel, an Austrian Government
official, arrived in this country
recently on the Canadian Pacific
liner "Mianedosa." There are 10,000
Austrian farmers who would emi-
grate to Canada, stated Dr. Montel,
all of them practical farmers, but
they do not possess sufficient funds
to pay their passage to this country.

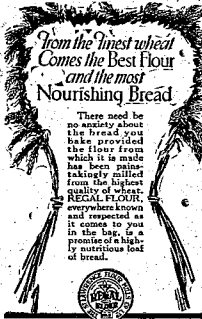

Egypt may include Canada among
those countries in which she will be
without representation, according to
a statement made recently by Emile
Sharteni, acting as unofficial am-
bassador to Canada who arrived in
Canada on the Canadian Pacific
liner "Mianedosa." Mr. Sharteni is
trying to interest Egypt in Canadian
food and timber, and in return ex-
pects the Dominion to reciprocate
by purchasing cotton, dried fruits,
etc., direct from Egypt instead of
through the middlemen in London
or New York.

Walking along on a two-foot wide
platform, 200, 300 and even 500 feet
out the outer surface of huge chim-
neys is all in a day's work to Henry
Field, expert chimney builder and
crafter who was employed recently
by the Canadian Pacific Railway to
overhaul a 200-foot chimney in the
station yards at the Windsor Street
Depot in Montreal. It took eight
days for Field and his assistant,
Richard Boucher, of Three Rivers,
to move the platform, secured by a
heavy cable, up the side of the chim-
ney, in order to begin work at the top.

Lord Clarendon, Under-Secretary
of State for Dominion Affairs in the
British Government, called for
England from Quebec on the Cana-
dian Pacific liner "Empress of
France," September 29th, bringing
to a close an extended tour of the
Dominion investigating the condi-
tions under which the 3,000-family
immigrant scheme is being carried
out. His Lordship, who is chairman
of the Overseas Settlement Board
under whose auspices this scheme
is being conducted, made the state-
ment before his departure that he
was greatly satisfied with the con-
ditions amongst Britishers who
have settled in Canada under
this scheme. He personally visited
over 180 families.

RED ROSE TEA
"is good tea"
Perhaps you use good tea. We think Red Rose extra good.

Weymouth

Dennis and Jerry Melanson, arrived from Youngstown, Ohio, to attend the funeral of their brother, Felix P. Melanson.

Mr. and Mrs. Dennis Doucette who have been visiting the members of their family in Lynn and Andover, Mass., and New York City have returned home.

Mrs. Esther MacAlone and Miss Ellie Adams of Digby spent

a few days recently with their sister, Mrs. Mary E. Beaton returning on Saturday.

Frank Burridge and daughter, Louise, who have been visiting friends in Weymouth have returned to Haverhill, Mass.

Geo. P. Comeau and daughter, Frances, were passengers to East Boston on Tuesday.

Mrs. E. P. Rice has gone to Halifax, where she is a patient at the Victoria General Hospital for treatment. She was accompanied by Mrs. J. D. Rice.

Port Wade

Sch. Valdaire arrived from Beverly, Mass. on Monday and has gone into winter quarters.

James Snow left for Lynn, Mass. on Wednesday on very auspicious business.

Miss Lena Keans of Acadia University spent the week and with her mother, Mrs. Edward Keans.

Miss Delta White of Yarmouth is spending her vacation with her mother, Mrs. Vandora White. Her friend, Miss Rowena Crowell, of Barrington is her guest this week.

Harvest Sunday was observed at the Methodist church here on Sunday afternoon; the Rev. W. J. Dean gave a fine discourse on the blessings of the year and the church was prettily decorated with autumn leaves, vegetables, fruit and flowers.

Several of her friends gathered at the home of Miss Margaret Mussels on Saturday evening giving her a pleasant surprise in the form of a party shower consisting of silver, linen and many useful gifts. During the evening Mr. Leander Oliver of Cranville Ferry rendered some fine violin selections, accompanied by Miss Etta Mussels at the piano. Later came games and a drama "The Gathering of the Nuts", was staged and last but not least a delicious luncheon was served. Dea Johns in his presentation speech spoke of "Coming Events Cast Their Shadows Before". We gather from this that another still more pleasing event is to follow in the near future.

Mr. and Mrs. Aubrey Bowles of Waterville spent a few days at the home of Miss Ada Mussels this week.

Mr. John Beaudro who is working at Hankins' mill, spent the week with his wife and family. Mrs. Hannah Walker and daughter Fanny spent one day last week with Mr. Osborne Smith.

Weddings

COSSABOOM—ROCKWELL

A very pretty wedding was solemnized at the Baptist Church, Smith's Cove, on Wednesday morning, Oct. 6th, at nine o'clock, where Miss Fern Cossboom, daughter of Mrs. Sara and the late Kelsey Cossboom, became the bride of Frederick S. Rockwell, son of Mr. and Mrs. N. T. Rockwell.

The ceremony was performed in a most impressive manner by Rev. Frank Smith, pastor of the church

in the presence of a large number of friends.

The church which had been decorated by the young friends of the bride, with autumn leaves and flowers, was a scene of beauty a fitting setting for the bride, who, in her gown of white georgette crepe, with lace over dress, and wearing the conventional veil and orange blossoms, was a picture of girlish loveliness when, to the strains of the bridal chorus from Lohengrin, she entered the church with her uncle, Wm. Cossboom, and took her place beside the groom, under an arch of sweet peas, from which a floral bell was suspended.

Miss Louise Cossboom, sister of the bride, looking charming in a gown of rose georgette crepe trimmed with black lace and wearing a black picture hat, acted as bridesmaid, while Dwight Rockwell, brother of the groom, performed the duties of best man.

Both bride and bridesmaid carried shiver bouquets.

The Misses Stella Woodman, Helen McGregor, Vera Webb and Isabel Cossitt acted as ushers.

After the ceremony the happy couple repaired to the home of the bride's mother for luncheon, after which, amid showers of rice and confetti they left by auto for Clements Point where they boarded the train for Halifax. For travelling the bride wore a dress of navy blue flat crepe with broadcloth coat of the same shade, grey squirrel fur and grey hat and gloves.

Mr. and Mrs. Rockwell sailed on October 8th, by steamer Chalcedon for Bermuda, where Mr. Rockwell has a responsible position with the Mid-Ocean club at Tuckerstown.

They are followed by sincere good wishes from hosts of friends.

Mrs. Rockwell, who before her marriage was a teacher in the Smith's Cove school, was given a shower by her friends, when she received many beautiful and useful gifts in linen, silver, china etc., as well as substantial gifts in money. Among the out of town guests were Mrs. H. J. Campbell of Barrmouth, sister of the groom, Mr. Campbell and their three children, Miss Kathleen Rockwell and Noel Rockwell of Saint John, also four brothers of the groom, Messrs Leon and Dwight of Amherst, and Ira and Karl of Saint John.

You Want Your Children To Hold Their Own

You want to see them among the leaders at school and at play. You take an honest pride in their success, knowing that leadership in boyhood and girlhood ensures the spark of ambition that leads to greater success in later life. But children can't hold their own if handicapped by ill health. The strain of study and outdoor sports must be balanced by extra nourishment which cannot be obtained from the ordinary food but which is abundantly supplied by Mother John's Medicine.

If you are dissatisfied with the child's progress, put them on Father John's Medicine. This old-fashioned body-builder contains the extra nourishment, extra food elements that so many children need to gain weight, gain color, gain strength, gain health, gain mental alertness. Father John's Medicine, while containing no alcohol, improves no burden on the digestive organs and is pleasant to the taste.

For 70 years, Father John's Medicine has built up pale, frail, undernourished children and given them the strength to do their school work and to overcome the worst of diseases, coughs and colds. Let it supply the body's building materials which your children need in order to hold their own.

Town Will Borrow \$10,000 For Electric Light Plant

Authority to borrow a sum not exceeding ten thousand dollars for the purpose of remodelling and improving the Digby Electric Co. distribution service was authorized at a meeting of the ratepayers held in the Court House last night. J. Loran Allen of Dartmouth, engineer of the Digby Co. Power Board, who had been engaged by the Electric Light Committee of the Town Council to compare recommendations for alteration of the distribution service reported direct to the meeting.

The present distribution equipment of the Electric Light Co. is for part time only, the plant operating only at night, and with 24 hour service from the Digby Power Board project on the Sixty-Six River, complete remodelling of the distribution service is required. The street lighting service will be installed on a separate circuit and the main lines and leads of the lighting and power circuit will be with new insulated wire.

It is proposed to have the work done under the supervision of Mr. A. D. Daley, superintendent of the Electric Light service.

At Grace Church Sunday

Rev. J. D. Harvey of Little River, has been taking services at Grace United Church during the past four weeks during the absence of the regular pastor, Rev. J. Appleby, who has been in the hospital at Lunenburg for treatment. Rev. J. Harvey made many friends while at Digby and friends of Rev. J. Appleby will be glad to know that he is able to leave the hospital. There will be no service at Grace United Church on Sunday morning. At the evening service Miss Mitchell of the W. M. S. of Canada will give an address to which all are cordially invited.

Here From Moncton

J. E. Barry, of Moncton, formerly Maritime Sales Manager for the Eastman Kodak Co., has been the guest of Paul Yates for the past week. Mrs. Yates and Paul Jr. accompanied them on a five-day outing with Wm. Cossabon's Sixth Lake cabin as headquarters. Mr. Barry says he has not seen anything in New Brunswick to compare with the Nova Scotia woods, and was astonished to find such perfect homelike accommodations at Cossabon's cabin and the Osborne Camp of Louie Peters on White Sand Stream where a real chef, Hallie Benson, served a course dinner, from soup to fruit pudding. The party was fortunate in securing two of the most popular guides in the province, Vernon Harris and Louie Peters.

Will Speak On Fish

A Meeting under the auspices of the Digby Board of Trade will be held in the Council Chambers at the Court House at Digby on Friday Evening the 29th, inst., at eight o'clock. The meeting will be addressed by J. J. Harpell of Montreal, Editor of the Canadian Fishman and by J. T. O'Connor of Montreal, Vice-President of the Canadian Fishery Association, on the subject relative to the production, marketing and consumption of more fish in Canada.

On Wedding Tour

The marriage of Miss Lilla Gates Goucher to Walter Scott Meister, of Kingston, took place at Wyvern on Wednesday, Oct. 22. Mr. and Mrs. Meister were visitors in Digby on their wedding trip and on Sunday were guests of W. J. Agate of the Waverly hotel. After a honeymoon trip through the province they will make their home in Kingston where Mr. Meister is manager of an apple warehouse, which he operates in partnership with his brother.

SHE'S DONE SOMETHING MANY AUTHORS CANNOT

Mrs. McCafferty of Annapolis Royal Has Learned the Secret of Making Books Pay Her

(By Madge MacBeth) True in a little town of a thousand inhabitants—Annapolis—Royal, Nova Scotia, there is a firmly established circulation library, not an epochal announcement, perhaps, unless you realize that none in the largest Nova Scotia centre this form of public service is lacking.

Properly speaking, the Annapolis library cannot be classified as public service. It is a private enterprise—a one man organization—a woman-owned circulating library.

It has a story. One night about three years ago, just a week before Christmas, the father of five young boys brought home to their mother the disquieting news that he was out of a job.

Mrs. McCafferty decided that there was no time for indecision. She owned a home, had a good health, and surely, she thought, there was some way in which she could relieve the very desperate situation.

Reviewing her earnings—assets included a moment's discouragement. She could paint—the very instant of self-searching, she was engaged in that usual occupation. But she also wanted their little boys enameled. Of course she could darn; she could darn beautifully, an accomplishment never allowed to rust with twelve masculine feet to keep her in practice. But every one in Annapolis Royal did their own darning, so there was small chance of augmenting an income in that direction. "It just popped into my head," said Mrs. McCafferty, "while I was on my knees by the bath tub, praying, perhaps without knowing it, that the boys could not money for us."

We had always been great readers, and owned literally hundreds of books. Also, we had been generous in donating everything we read with neighbours, and now, I thought, the time had come to make a new start. Let the books earn an honest penny.

A circulating library—that was my idea. I am not a cataloguer of those three hundred volumes at my disposal, cleared out my living room, put in rows of shelves, and then I began to put out a few books. Since the opening Saturday night, there's never been a day (except one when a awful blizzard raged that some books were not taken out), charged ten cents a book at first, and later changed to two cents a day.

"Books," said Mrs. McCafferty, "frequently make a little change for their authors but I've found the secret of making them pay the librarian."

ELECTRICITY, EDUCATION

Electric motors do as much work in the United States every day as had to be done by one hundred and seventy million men, says President of the National Electric Light Association.

As there are forty-five million men and women engaged in gainful occupations, this means that electric motors are already doing more than would require four times the population.

Carry the calculation a little farther. Two-thirds of our power is electrical. If other kinds of power are included you have one hundred and seventy million men as much as our men. Go farther. One-fourth of America's city homes are not wired for electricity. The electric lights of the city without it. The more extension of electric facilities would make it possible to do the work of the present population as much work as is done by hand.

But this is only scratching the surface. Electricity flashes across the continent in an instant. Men travel almost as fast as the electric waves. Radio and the moving picture accompany the electric waves. It is possible to do by slow processes.

Education is being invaded by the radio and the moving picture. Many of the large newspapers that can afford it are getting in on the ground floor. The electric waves respond to the irrevocable current of the times. They realize that news that is communicated by radio and cinema.

This may do not think the text book will ever be displaced by the actual picture of the thing to be learned. Do not believe that the voice of the University lecturer may some day be carried on the electric waves to the classroom. They are mistaken. The day of a new force in education, body needed, has come. We are in its dawn.

The radio and the motion picture will do for education what electricity is now doing for industrial power. Educators will learn how to teach in four or five years the subjects that have taken years to teach. The new method of teaching will be more intimately connected with life.

Even today the motion picture, if used for the purpose, would be far superior to the text book for instruction in geography, history, chemistry, biology. The coming of this inevitable new method of teaching will be more intimately connected with life.

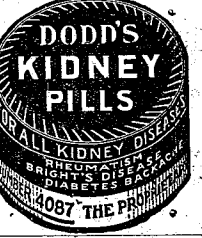

The world is making strides incredible even to those who study its progress almost closely. The public school, adhering to ideals of the middle ages, is literally generations behind. Education and life are two different things today. They should not be. New methods will bring them together. The text book of the type of text book will go. The teacher who studies the mind of the child by modern methods will find that the books will give way to the teacher who knows how to make education part of life itself.

* Mrs. R. N. Brackett, who has been spending the summer at Lake Midway, returned to her home in Somerville, N. B., accompanied by Mrs. H. W. Cossabon.

Prince Opens Canadian Student Hotel in Paris

The Prince of Wales formally opened the "Maison Canadienne" on October 1st, a part of the well known "Cité Universitaire" located on the outskirts of Paris. Canada is the first country, outside of the European continent, to erect a modern hostel for the sole use of Canadian students attending the "Cité Universitaire". When completed, this institution of learning will follow closely the lines of Oxford and Cambridge Universities. Aside from the central buildings, there are to be various student residential halls or hotels. Each will be erected by various nations to house those of her students who are studying at the university. The "Maison Canadienne" is most modern and up to date, and has been built by public subscription, of which the sum of \$250,000 was contributed by the Canadian Pacific Railway.

BABY'S OWN SOAP

NELLIE McLUNG NOT SORRY TO "LEAVE LEGISLATIVE" HALLS

(By A. A. Perry)

How does it feel to be a defeated candidate after having been a member of a provincial legislature for five years?

That question was recently answered by Nellie McLung, a former member of the Alberta legislative assembly. This is what she said in a recent interview.

It isn't all a Roman holiday being a member. It takes time, energy, and much hard work.

I have a collection of "mug" letters which may illustrate my point. They are from people who want to see the world right with one fell swoop by applying their own specific remedy for the ills of mankind.

For instance, one man besought me to make it compulsory for all farmers to build a second home on their land. The man was a farmer, and he wanted to make it compulsory for all farmers to build a second home on their land.

Well, I had dozens of letters from such cranks, and it takes time and patience to answer them, and the fortunate business of a legislator is an arduous enough without all this tomfoolery. So I am truly glad to now have more time for my real job in life, which is being a wife, a mother of a family, the head of a household and a writer of books.

I like these things better than politics and I have come to the conclusion that the best way to get the woman entering public life is to have children. Not because you are a mother, but because people think that you are.

Another lesson I have learned is that while men may and often do work hard for a woman to put her in parliament, she can scarcely ever work with her success. Men are often scared and suspicious of us in public life.

OPEN NOSTRILS! END A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or nose is a nuisance, but it is not a disease. Your rhinogenic nasal cavity will open, your head will clear and you can breathe freely. Have colored and starch yield like magic. Don't stay stuffed-up and miserable. Relief is sure.

"DAD" QUICK CLAIMS 106 YEARS AND STILL LIKES TO WORK AT TRADE

(By Anthony P. Roberts)

Charles "Dad" Quick of Vancouver, who celebrated his 106th birthday on October 22, is probably the only workman in the world who has been at his trade for more than a century.

He is a self-styled "old timer" and for many years has made a specialty of turning out rustic wooden chairs which he ships to all parts of the globe.

Hale and hearty, he still puts in a good day's work in his small shop on Powell street, Vancouver. He is a man of few words, but he is a man of many ideas.

"Dad" does not often loosen up with his philosophy of life. He says, "Well, I don't know if I belong here or not, but I don't intend to do with it." Well, I am quick and there is a great difference between the quick and the dead.

Vancouver's centenarian has a ready answer for them, however. He says, "Well, I don't know if I belong here or not, but I don't intend to do with it." Well, I am quick and there is a great difference between the quick and the dead.

Charles Quick was born in Sonier, England, on October 22, 1819. He came to Canada in 1840 and has since then been a resident of Vancouver.

My mother brought me into the world, and I have been here ever since. I am a man of few words, but I am a man of many ideas.

That's why I am a man of few words. I am a man of few words, but I am a man of many ideas.

That's why I am a man of few words. I am a man of few words, but I am a man of many ideas.

WHY SUFFER FROM RHEUMATISM

"FRUIT-A-LIVES" HAVE HELPED THOUSANDS

Mrs. DAVISON

If you are made miserable by this painful disease, read this encouraging letter from Mrs. Louis Davison of Eau Claire, Ont.

Some years ago, I had a severe attack of Rheumatism. I tried many remedies but received little benefit. A few months ago, I saw an advertisement of "Fruit-a-lives" and decided to try them. After taking four boxes, I am now able to do all my own work besides putting in a large garden. I take great pleasure in recommending "Fruit-a-lives" to anyone suffering from Rheumatism.

"Fruit-a-lives" is a genuine fruit medicine, made from fruit juices identified and combined with tonic. It frees the system of poisons, waste matters and purifies the blood stream.

Try "Fruit-a-lives" yourself and they restore you to health and vigor. 25c and 50c a box — at all dealers.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is much to be desired. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application of two, your hair becomes beautifully dark, glossy and attractive.

BREAK CHEST COLDS WITH RED PEPPER

Ease your tight, aching chest. Rub the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to ease the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into cold, congestion, aching muscles and sore, stiff joints relief comes at once.

At the moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowley Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known. Always say "Rowley."

Clyde and Sissiboo Plant Is Running Half Capacity

Resuming operations after being closed all summer because of low water, the Clyde and Sissiboo Pulp Company's mill at Lower Falls, near Weymouth, on Thursday, commenced manufacture of pulp. The plant is running at half-capacity, with forty men employed, and is turning out fifteen tons per shift. Until fall rains fill the storage dams on Long Lake, the plant will operate on day shift, only, but as soon as a steady head of water will permit continual operations, the crews will go on double shift.

The mill is now working on a contract for delivery to the Tide Water Paper Company, of New York. A part of last season's production, amounting to two steamer cargoes, is being held in the Company warehouses, awaiting opportunity to ship it to England. The complete output for last season was contracted for by an English Company, and that part remaining undelivered has been held up by the coal strike in England, it being impossible to secure steamers to carry it to English ports.

A fishing deputation of more than usual interest with a good aggregation of other sporting articles, seems to feature the November issue of "Red and Gun," which is just published. Two good fiction stories are also included in the aggregation of outdoor reading matter. "McLean of the Hudson's Bay" by William C. Miller and "The Blue Buzzer" by B. G. Robbins.

"An Excellent Shooting Trip" is a good yarn of shooting on the Tidal flats of the St. Lawrence. Bonnycastle Dale writes of "Bait Fishing of the Bay de Chaleur," while J. W. Wilson's article is this month on "Cuckoo Owls and Cuckoos." Among the writers in Fishing Notes this month are F. Merritt, a well known angler, Ozark Ripley and R. H. Moore, whose articles are supplemented by a number of others as well as a good Quizzes and Answers section. C. S. Landis' Gues and Ammunition department has also an interesting collection of special contributions. W. C. Moly in Outdoor Talk this month deals with "The Woodcraft Sign Language."

Roy Ross of the United States is spending a few days with his parents, Mr. and Mrs. Alex. Ross.

Mrs. William Porter of Sea Brook spent Sunday with Mr. and Mrs. Howard Daley.

Miss Bessie Hersey spent Sunday in Mount Pleasant with her aunt, Mrs. Burke O'Neil.

The Port Wade Released

The ferry Port Wade, plying between Port Wade and Digby on regular ferry service, in connection with which she receives a subsidy from the Provincial Government, was released from detention on Monday and permitted to resume her sailing after being detained for a week subject to instruction from the Department of Marine at Ottawa.

Safety precautions, including life boats for each of her passenger allotment and fire extinguishers were required to be placed in the vessel before she was released.

The regulations respecting registration will be interpreted by the department at Ottawa and action in that respect is deferred. Strict application of the regulations would require that all motor or steam boats, of whatever tonnage or type, carrying passengers for hire, must carry certified navigator and engineer and be registered, and subject to annual inspection. It is believed that these regulations will not be put into effect in the cases of small craft.

"Side Lights on Our History"

Attention is called to a new service of advertisements, the second of which appears in this issue, of "Funeral Services, Reg'd." The series will for some time and each week will contain a paragraph of historical interest of Digby and its surrounding country, and a group of Digby prices itself on being a superior sort of place for summer visitors to come and it will become more and more popular as the residents of the county are able to give accurate information to visitors concerning the local points of interest.

No doubt Mr. Ken. Munger of Funeral Services will be grateful for items that will make his series more interesting and complete.

Baptist Quarterly At Westport

Very successful meetings of the Digby Co. Baptist Quarterly were held at Westport on Tues. and Wed., Oct. 12th and 13th, the sessions opened on Tuesday evening with Public Worship under the presidency of the Moderator, Rev. E. J. Barras of Bear River. A very splendid sermon was delivered by the Rev. A. H. MacLeod, Pastor of the Church at Tiverton.

On Wednesday morning the sessions of the day opened with a devotional period led by the Pastor of the entertaining church, Rev. B. H. Plimney, this was followed by the reading of the minutes by the secretary, Rev. Frank Smith. The business of the quarterly was then gone into. Denominational allocations discussed and gladly accepted, each Pastor voicing his assurance that the Church he represented would make special efforts to raise their full allotment. Many questions were brought forward at this session, and discussed, and all felt that it had been a profitable session. The afternoon meetings were opened with a 45-minute period led by Rev. J. J. Barras and at 3.30 the Women's Missionary Aid took charge under the able leadership of Mrs. E. C. Bowers, the President of the local Aid Society, in the absence of the County Sec. Mrs. F. Lent who was unable to be present owing to the death of her sister. A very splendid meeting was held with some excellent speeches by the Varied Ladies. The closing session opened with a song service at 7.30 led by Rev. H. H. Plimney, with Rev. E. J. Barras in the chair. Rev. Frank Smith preached the closing sermon and brought a successful quarterly to a close.

Ten carloads of flour have been shipped to Sarnia, Greece. The flour is made from Manitoba Number 1 Hard wheat and is of the highest quality. This large order is thought by the milling interests to represent the opening up of a new, valuable trade channel.

Saskatoon.—The colonization boards of the province, incorporated under the C.P.R. Department of Colonization, are doing a splendid work in colonizing the province along right lines, according to Mayor Potter, of Saskatoon, and other speakers, at the second annual meeting of representatives of these boards.

While the figure has been a familiar type in fiction for at least a century, the novelist has usually taken for his characters the wild, untamed types. There is a modern type who has adopted himself to city life. It is this type that John Murray Gibson, Dean of Publicity of the C.P.R., has chosen for the leading character in his new novel, "Eyes of a Gypsy."

Toronto.—The Ontario Government is spending \$10,000,000 during the present fiscal year to make hydro-electric power available to the farmers of the province. This follows the plan begun by the Drury Government, of paying one-half cost of primary line construction, and later extended by the Ferguson Government to secondary line work as well.

One hundred young men from the British Isles will take up their studies of Canadian farming at the Agricultural College near Edmonton, Alberta, soon. Seven of these prospective Canadian farmers arrived in Canada on the Canadian Pacific liner "Montenap" recently, being brought out under the Headley Immigration scheme, which is being carried out in conjunction with the Empire Settlement Board.

Toronto.—Ontario cattle scored signally at the National Dairy Exposition in Detroit last week with a prize winner in each of the first four Holstein breeds. This is a better record than that of any other part of the continent. The prize winners were: Leroy Siddall and J. F. Gibbons, of Denfield, T. O. Dolson, of Brampton, and Halsey and Lee, of Springfield. A number of lesser prizes also went to Canadian breeders.

"Anyone who has other than an unbounded faith in the future of Canada, must be either without eyes or mind," declared Sir George McLaren Brown, European general manager of the Canadian Pacific Railway, who returned to the company's headquarters in Montreal recently after an extended tour of the Western Provinces. Sir George was greatly impressed with the growth of the city of Vancouver, where he visited after an absence of 15 years.

The first annual meeting of the Canadian Boards of Trade was held at Saint John, N.B., October 18th. Over 150 representatives from every Canadian administrative bodies of every civil administrative body gathered at the Windsor-Street Hotel in Montreal, where they entertained and presided over the Canadian Pacific line to Saint John. Matters of vital interest to civic administration were discussed at the three-day convention.

Control of the fish and game industry in the State of Ohio is being sought by a commission composed of five experts on game conservation. This industry is fast becoming the hands of the Department of Agriculture. The proposal will be placed before the government by the game and fish leagues in Ohio, the belief being that the existence of such a commission would be in accordance with the pressing importance of the fish and game industry in that State.

Relieve in a New Way

A Salve which Releases Medicated Vapors when Applied Over Throat and Chest.

Inhaled as a vapor and at the same time absorbed through the skin like a liniment, Vicks VapoRub reaches immediately inflamed, congested air passages. This is the modern direct treatment for all cold troubles that is proving so popular in Canada and the States where over 17 million jars are now used yearly.

Splendid for sore throat, tonsillitis, bronchitis, croup, whooping cough, catarrh, asthma or hay fever. Just rub Vicks over throat and chest and inhale the medicated vapors. It quickly loosens up a cold.

USE SULPHUR TO HEAL YOUR SKIN

Broken Out Skin and Itching Eczema Helped Over Night

For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment. Declare a noted skin specialist. Apply a little Mentho-Sulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Mentho-Sulphur brings.

Even fever, itching eczema is dried right up. Get a small jar of Rawles Mentho-Sulphur from any good druggist and use it like cold cream.

The recently organized egg and poultry pool in Saskatchewan has 17,000 members. Egg production in that province is 33,672,263 dozen yearly. Saskatchewan is now the second largest poultry producing province in Canada, Ontario being first.

St. Catharines.—The North American celery championship has been awarded to James Little of this city by the American Vegetable Growers' Association, convening in Cleveland. The high quality of Canadian celery has long been recognized and this new triumph is expected to further stimulate production.

The Australian Cricket Team, heroes of five test matches against England this summer, arrived in Canada on the Canadian Pacific liner Monrovia, October 8th. After visiting some of the principal cities in Canada and the United States, the team proceeded to Vancouver where they sailed on M.S. Aorangi for their homes in Australia, October 21st.

For the third year in succession the McAdam First Aid Team from New Brunswick carried off the "Grand Challenge Trophy," emblematic of the eastern lines first aid championship of the Canadian Pacific Railway. The competition was held recently at the Place Viger Hotel in Montreal, four other teams from points east of Fort William competing.

The oldest employee of the Canadian Pacific Railway in point of service, Isaac Gauthier, of Oshawa, vice-president in charge of finance, celebrated his 82nd birthday October 10th. He has served the Company for 44 years and his business experience goes back to the Civil War days. Mr. Gauthier was the recipient of felicitations from all parts of the Dominion.

General Booth, head of the Salvation Army, sailed recently from Vancouver on the Canadian Pacific liner Empress of Canada for Japan. The General will tour Japan, China and Korea. True to his maxim of not touching land for two days previous to a sea voyage, the General contented himself with sipping a little hot water while attending to his correspondence and waiting for the liner to sail.

Toronto.—The New York Times is about to invest \$25,000,000 in northern Ontario for the production of all of its newsprint—about 800 tons a day. The announcement of this project was made by the secretary of the president, Adolf Ochs, during the sojourn of both in this city. The site selected for the paper plant is at Kapuskasing where there is already a small sulphite mill in operation. The water power, 75,000 h.p., will be generated from Smoky Falls.

Thirty students from Oxford and Wye Agricultural College, Kent, England, returned home on the Canadian Pacific liner Montevideo recently after having assisted in the harvesting of the Saskatchewan crop. These young men were brought out to the Dominion by the Department of Colonization and Development of the Canadian Pacific Railway, and placed on selected Saskatchewan farms by the Women's British Immigration League. The students are resuming their studies in England this fall.

G. Walter Booth, Prosecuting Attorney for the State of Ohio, in an interview in the Department of the Canadian Pacific Railway at Montreal recently, stated that American hunters were chasing Canadian hunting grounds in place of those in the United States practically without exception. Americans, he said, were taking one hundred per cent interest in Canadian game reserves. Mr. Booth is at present in Canada on his annual duck hunt near Winnipeg, and also a big game trip is north-western Quebec.

Mr. and Mrs. W. M. Romans motored to Bridgetown on Sunday.

Miss Katherine Brown spent the week end in Saint John.

STRATFORD WOMAN

Restored to Health by Lydia E. Pinkham's Vegetable Compound

Stratford, Ontario.—"After my first baby was born I started to work on the tenth day and did a big washing on the twelfth day. Being so young (I was married at 19) I did not know what was the matter, so let it go until I was all run-down, weak and nervous, and had a bad displacement. For forty-two years I could not sleep and I would always complain of having 'hot' or 'cold' but a lymphatic. My mother is taking Lydia E. Pinkham's Vegetable Compound during the Change of Life and she recommended it to me. After taking two bottles I began to get a little sleep and to feel better and I have never left off since then, except for about three months. I can safely say I have taken thirty bottles since my second baby was born. It makes child-birth easier as I had terrible pains with my first three children and very few with my fourth as I was so much stronger. I am now able to do my work alone, but I am still taking the Vegetable Compound as I am nursing a baby."—Mrs. Orla Pratt, 40 Cherry Street, Stratford, Ontario.

If you are suffering from any weakness which causes such symptoms as pains in the side and back and nervous feelings, try Lydia E. Pinkham's Vegetable Compound a trial now.

Board of Trade Meeting Discusses Maritime Needs

Visitors from Montreal Hear New Views on Nova Scotia's Fisheries. The Value of Scallop Fleet Equal to Days of the Sailing Vessels

Fifty people of the several hundred who should have been there attended a public meeting held under the auspices of Digby Board of Trade in the Court House on Friday night to meet Messrs J. J. Harpell, Editor of the Canadian Fisherman and J. F. O'Connor, Vice President of the Canadian Fisheries Association, of Montreal, who arrived from Saint John in the morning on the beginning of a tour of investigation of the fishing and other industry of Nova Scotia. Fish, its production, marketing and consumption, was the basis of the talks given by the visitors, who in their remarks touched upon many matters of interest common to the whole people of Canada. They came, they said, to learn to establish personal contacts with the people of the Maritimes that their business interests might be made personal. Their hope was to become conversant with the production end of the fishing industry and to make themselves free from the possibility of that error, all too common, of discussing Maritime Rights without knowledge of what Maritime Rights meant.

Mr. Harpell was first called upon by the chairman, Mr. McBride, and spoke chiefly upon the opportunities for community service that lay in a live organization of the Board of Trade. The formation of a Dominion Board of Trade. The organization of the general body had been a large step in the direction of fuller cooperation between the different people of the whole of Canada. In each branch of industry, mining, fishing, agriculture and so on, trade organization proven of inestimable value as a vehicle for the interchange of ideas and discussion of problems and the Dominion Board of Trade would prove as valuable in a community sense, as the trade organizations and proven in their special field. The Board of Trade of a small community was the central organization in which community activities should be concentrated, no other body could properly attend to matters relating to community welfare and as examples of what the organization could do he said that he might be excused if for a little he talked of the Board

of Trade of St. Anne de Bellevue, his home town. It was felt there that the greatest problem of a community was the boys and girls in their teens. To take them in hand as they left school and were ready to enter industry and so inculcate in them a desire for self education and a responsible opinion of their place in the community was a matter that engaged the attention of their Board. Creation of opportunity for employment and means for recreation had also been undertaken with good results.

The creation of the Dominion Board of Trade presented an opportunity for the developing of the fishing industry. Just as the St. Anne Board of Trade, backed by the woman's organization, had encouraged one of their merchants to install proper facilities for the handling of fresh fish foods, so could the Boards of Trade interested in the fishing industry press through the Dominion Board the improved facilities for marketing.

Encouragement of the people of the provinces of Quebec and Ontario to spend their vacation in the Maritimes, rather than in the United States, was another opportunity offered by the new organization and in all branches of industry similar opportunities offered. He compared the apple industry of Nova Scotia with that of the Okanagan Valley, B. C. Each was continued on page 3

Home After Fifteen Years Absence

Alexander Caines, eldest son of Mr. and Mrs. William Caines, Water St., arrived home on Friday to spend a five week holiday with his parents, renewing remembrances of his old home town. Mr. Caines has been located in New Jersey, on market garden and Jersey stock farm and this is his first trip home in fifteen years.

A special Thanksgiving Dinner is arranged for at the Webster House, advertisement of which appears in this issue. Doesn't it make you hungry just to read it, and think of getting free of the bother of making ready, when just by telephoning for a reservation you can be sure that you will be pleased to entertain your friends and family party when they visit you.

Hallow'een Entertainment At Trinity Parish Hall

The Junior Missionary Auxiliary gave an interesting and amusing entertainment last Tuesday evening. The evening started with a recitation by Victor Cardoza after which a play was pronounced entitled "Hallow'een Magic". In this were introduced the trolleys of the witches, the nocturnal revels of black cats, the ghosts gliding at midnight and the scarecrows which became animated and roamed the countryside.

The whole concluded with a giant maze or labyrinth in which all the characters went through such mystic evolutions as to produce slight dizziness in the spectators.

Special mention must be made of the orchestra, composed of David Daley, cornet, Lawrence Dixon, ukelele, and Lawrence McPhee, drums etc., who discoursed sweet music during the intervals.

Miss Gertrude Oliver played the incidental music of the play. The following is the list of performers—Girls—Elizabeth Eldridge, Marie Fleming, Kaye McHugh, Laura Morehouse, Phyllis and Bernice Roop, Jean Robinson, Mildred Suis, Marjorie Tupper, Lois and Mary Walker and Theta Winchester.

Boys—Gordon Burnham, Victor Cardoza, Bruce and Donald Dexter, Lawrence Dixon, Sidney Hall, Horace Hayden, Frank and Roy Robinson, Paul Turnbull, Carl Winchester and Paul Winchester. The proceeds for the Junior Auxiliary Missionary fund amounted to \$52.95.

Amusement For Winter Months

Arrangements are being made by Manager Hayden of the Digby Bowling Academy for the winter season. A three or four team candle pin league is being talked up and there is no better exercise and in winter, when out of door sports are so often prohibited by weather conditions, bowling is the only means most business men have of keeping fit.

The Digby Bowling Academy is fitted up in a style that would be creditable to any city in the Maritimes and play is under ideal conditions of lighting and ventilation.

A meeting of bowling fans will be called shortly to organize a league.

Weddings

POWELL—THOMPSON

Miss Delta Powell of Framingham and Harold F. Thompson of Worcester were married Sunday afternoon at 2 o'clock at the Park St. Baptist Parsonage, Rev. S. Paul Leferson officiating. Following the ceremony a reception and dinner took place at the home of Mr. and Mrs. V. Shiro 18 Larned St. where the bride has made her home.

The bride was gowned in cream colored georgette over pink satin. She wore a black picture hat and carried a bouquet of roses. Her travelling gown was of green canton crepe and she wore a coat of grey tweed trimmed with fur and a rose colored hat.

Following the dinner Mr. and Mrs. Thompson left on a wedding trip to Niagara Falls, Philadelphia and New York City. On their return they will live on Gorman Road Shrewsbury.

The bride is the daughter of Mr. and Mrs. Colman Powell of Central Grove, Digby Co., Nova Scotia. With her sister Miss Myra Powell, who has resided in Framingham for nearly ten years and has been a popular employee at the Dennison Mfg. Co. Mr. Thompson is an inspector for the John Bath Co. at Worcester and is a member of the Masonic Lodge at Worcester. He is the son of Mr. and Mrs. George Thompson of Andover, N. H.

Kidneys cause backache? Not! They have no nerves, therefore can not cause pain. Listen! Your backache is caused by lumbago, sciatica or a strain, and the quickest relief is rubbing, penetrating "St. Jacobs Oil" right on your painful back, and instantly the soreness, stiffness and lameness disappears. Don't stay cramped! Get a small bottle of "St. Jacobs Oil" from your druggist and rub it on. A moment after it is applied you'll wonder what became of the backache or lumbago pain.

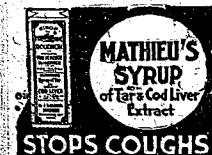

Rub old, honest "St. Jacobs Oil" whenever you have sciatica, neuralgia, rheumatism or sprains, as it is absolutely harmless and doesn't burn the skin.

C. N. R. Inaugurates New Baggage Delivery System

Effective November 1st, a new system covering "Collect and Deliver" system of baggage from railroad stations throughout the Dominion will go into effect on the Canadian National Railway. The purpose of the new system is to facilitate the handling of baggage for passengers on the railway. When the new system goes into effect, baggage must be checked from any point on the Canadian National Railway to any destination in the United States or Canada and will be delivered to the address specified without further action on the part of the traveler. A passenger on purchasing his ticket, Winnipeg, Montreal or any other point on the system, and desiring to have his baggage delivered to his home or business address, will, on checking his baggage, give the desired address and may, thereafter, relinquish of any care and worry regarding the arrival of his baggage at the proper destination. The delivery charge will be collected from the owner when delivery is made, varying in different cities and depending upon the distance handled or hauled.

OBITUARY

EDWARD McWHITE

The death of Mr. Edward M. White, occurred at his home in North Range on Sept. 24th, after a lingering illness caused by that dread disease, cancer. He deceased was seventy-four years of age and had worked on the D. A. K. the greater part of his life. He was a genial disposition and was respected and loved by all who knew him. He joined the Baptist Church and was a member of the same. His sickness with a Christian spirit of patience almost unbelievable, and commended with his God in the dark hours when none but He could help. He had the ready smile and warm hand clasp for all who visited him in his suffering. In his last moments, by his pastor, Mr. G. N. Hamilton, whose kind words and earnest prayers did much to allay his sufferings. "His last rest, secure whatever comes or goes," but there is left the frail widow with the aching heart, the vacant chair.

Three children out of eleven are living Frank in the U. S. A., Eugene and George at home, with their mother. He leaves behind him a large family of nine, his three grandsons, his two granddaughters, his wife, Mrs. M. G. N. Hamilton, whose kind words and earnest prayers did much to allay his sufferings. "His last rest, secure whatever comes or goes," but there is left the frail widow with the aching heart, the vacant chair.

STORING OF CELERY FOR WINTER

If you are so fortunate as to have a furnace in your cellar, the chances are that you will find it a very warm for the successful storing of the celery. Before the frost bites into the ground it will be good idea to dig a trench about twelve to fifteen inches wide, and deep enough so the tops of the plants will be just above the surface of the soil. Take the plants with plenty of soil adhering to them, and be careful not to wet them. Lay them in the trench, with their heads up, and cover them with a layer of straw. Cover the trench with straw, and in an inverted V shape. This will be enough protection until freezing weather, but as soon as the frost settles down, soil or manure should be banked over the trench to prevent the celery from freezing.

Any one with a good root-cellar has the ideal solution for the problem of storage of the home supply of celery, and empty root-cellar can also be used, more or less on the order of the trench. It is particularly desirable for the roots on, and bed them in moist soil in a bottom or in a root-cellar floor. For the best storage, the cellar for storing celery is 32 to 35 degrees, this may not be practical of attainment under ordinary conditions, but even with somewhat higher temperatures, it is possible to keep celery in good condition.

Quite large quantities of celery are actually stored in trenches, such as those suggested above, by commercial celery men. Of course, most celery is stored in cold storage, where the temperature is kept at about 32 degrees. If you have available a handy cold storage plant, it should not cost a great deal to store your celery in a trench for the longest keeping supply. When storing celery in cold storage, it is in the regular way, the dried or decayed celery leaves, as the plants are taken from the fields, and the roots are cut off, and the leaves are left attached. Then when you are ready to market the celery or use it in the kitchen, you can trim up the bunches and wash the celery. In order to prevent all possible danger of the celery rotting, the celery should never be washed, nor the tops wet, before being stored.

EGGLAYING PULLETS

The following query and answer are of interest to our readers, who are in the poultry business:

Q. I have 300 hens, and in the month of April, at present they are fed a day 200 lbs. bran, 100 lbs. middlings and 100 lbs. barley chaff, and a handful of salt added to a pailful of mash. They also get a quart of milk to drink and are fed a quart of oats at night. The pullet laid an egg that was misshapen. Do you think I should cut down the feed of bran and barley chaff, and feed them a deep litter to give them exercise, and not neglect to give them fresh water? Do not feed them sour and fresh milk alternately. Grind greens, and exercise will help to give shells to the eggs.

A. Reply: You will do well to keep feeding your pullets to get them started to lay before the zero weather comes. Add beef scrap and plenty of greens and grit to their rations. Remove all the cockle-balls and other non-nutritive poultry from the pullets' pen. Feed them the best quality of grain and feed it in a deep litter to give them exercise, and not neglect to give them fresh water. Do not feed them sour and fresh milk alternately. Grind greens, and exercise will help to give shells to the eggs.

HE'S PROUD OF WHAT FARM OFFERS

Agriculture is man's job. In these days no man can be a successful farmer without understanding the laws of nature, how to do business with the modern world, and how to be a good manager of his farm. Farming is not a work for a weak man physically or the incompetent man mentally. No matter how you look at it, it is a work worthy of any man. It draws out the best elements of character, builds the willingness to preserve strength in the face of difficulties and disappointments, and to my mind, most of all, it brings a man into very close touch with God, because the farmer works with God every day. If he does not, he cannot succeed. He succeeds almost exactly in proportion as he works with God. So that, taken all in all, farming is the man's job and calls out the best there is in a man. It is worthy a life work, and the devotion of every citizen to his country. —KENNETH L. BUTLER, President Michigan State Agricultural College.

PROBLEMS

equi-distant from the central market and the advantage that our Valley had over Okanagan, an advantage of natural rain fall and favorable climatic conditions, gave us the "edge" in marketing problems.

The inroads of the mail order and chain stores were matters that a Board of Trade could handle. It should be impressed upon the consuming public that as a matter of community welfare their patronage belonged to the local merchant. The experience of the St. Anne Board of Trade was probably common to all communities. When that Board made a drive for funds to advance the public welfare their subscriptions came from local merchants. If they asked the mail order houses for a contribution they were told that there was nothing doing. All going out and nothing coming in was a condition that could not but be detrimental to a community.

That the fishing industry of Canada should attain a consumption of two hundred million dollars of their product annually in Canada is the expression of Mr. O'Connor. From a consumption of thirty-four million in 1920 to forty-eight millions in the last year has been accomplished by improved facilities for marketing and by education of the consumers in the value of fish as a food. He had been glad that the importance of the fishing industry had been impressed on parliament during the last session of the House of Commons and he was particular that his hearers should not take this as a mark of empty complaint. Mr. Short had delivered the best speech on the fishing industry that had ever been presented to the parliament of Canada.

The advertising of the Fisheries Association, assisted by the Federal Government, had been responsible for the large increase in consumption and more of this advertising was contemplated. It was proposed to exploit Canada's proximity to the two great fishing grounds, on the Northwest and Northeast coast of the continent and take first place in the marketing of the product. The fishing industry, Government aid was sought for the industry. It was time that the fishing population should receive as much aid and encouragement in the development of this great natural resource.

The Federal and Provincial Governments to the agricultural population. Grants for agriculture, the establishment and maintenance of agricultural schools accounted for the large increase in production. They were money that were well spent and should not be discontinued. But at the same time it must be recognized by government that agriculture was not greater. The money spent to develop the fishing industry would show ample returns.

Mr. Short, called upon by the chairman, expressed pleasure in renewing a friendship originating in business connection. Much of the lack of knowledge and knowledge of the Maritimes could be laid to the fact that to the people of Upper Canada, Nova Scotia was so much unexplored territory. He welcomed the visitors as advocates of that great movement for co-operation that was crystallized in the formation of a Dominion Board of Trade. Their mission showed an earnest endeavor to learn at first hand the opportunities of the Maritimes.

An endeavor to increase tourist traffic from central and western Canada, should, he felt, be of important value to the industry of Nova Scotia. Having established contacts of friendly relationships by means of hospitality and service to tourists business would be in a position to share in the custom of the consumers of central Canada and in no field was there greater opportunity for expansion than in the fish trade. A cooperative policy of advertising by the fish interests and the federal government had in the years 1923-24 increased the sale of Canadian fish from fifteen per cent to thirty per cent of the annual catch of Nova Scotia fish. This advertising campaign had been backed up by the adoption of improved and modern methods of handling fish at the factories and warehouses and more sanitary and attractive packaging, making fish foods as attractively prepared as any staple of our consumption and the labor of cleaning and boning had been taken out of the house wife's hands.

Adjustment of freight and express rates would materially aid in the development of the market and in Mr. Short's opinion this matter should be pressed continually. The promise made by Mr. Egan while touring the province in the last election campaign, that a separate Deputy Minister of Fisheries would be appointed to

handle the affairs of the fishing industry in the department of Marine and Fisheries would be believed to be a contribution to the parliament and would be the greatest thing that ever happened to the fish industry.

To those who sighed for the "good old days" when Digby was the home port of a large fleet of sailing vessels engaged in the sound fisheries, Mr. Short gave a little information of the condition of the industry today. The fleet of sailing vessels in the fishing trade were gone. Modern marketing demands called for steam and motor vessels, for quick and sure run to and from the grounds, and the scallop fleet, engaged in the industry that was not properly estimated in the public mind, represented as much in capital investment and in employment as did the sailing fleet at its best. In spite of a discrimination in the market of express freight, at the rate of one hundred pounds from Digby, only 85c from Halifax and 90c from Mulgrave, to Yarmouth, there was a market for all the scallop gathered.

Extension of the market was possible. The city of Winnipeg was a large consumer of Nova Scotia cured fish and improved distribution system, improved methods of preparation for market and for presenting the product in an attractive manner, backed up by an advertising campaign, would get the market open and develop it, increasing consumption and materially benefitting all engaged in the industry.

Town Clerk Boden contributed a warning and advice. The reference made by the speakers to the value of boys and girls to the community struck him most forcibly. As secretary of the School Board he found that parents left the matter of education to the children largely in the hands of the school commissioners. "You send your children to school, and you don't even go up to see how they are getting along. More than that, there was a feeling of 'let them do it,' in connection with almost every matter that affected the welfare of Digby, and a stop must be made to it as a new start. A Dominion Board

of Trade was all very well, a local Board of Trade was all very well, but only by putting life into these organizations could anything be accomplished.

If Mr. Warner, Mr. Nichols and others made remarks on the various phases of the discussion and the meeting should be the first of a series of interest during the coming winter.

Father John's Medicine

The Best Protection

The center of all men has to keep himself in good physical condition. On the job from dawn till dark, he must be out in all kinds of weather and is in constant danger of contracting severe colds and influenza. At such times, when which so quickly develop into more serious illness. One of these sturdy old men is Mr. H. H. P. of Coaticook, P. Q., who found the right way to protect himself against exposure to the elements.

"I was engaged in cutting during the bad weather," writes Mr. P. Q., "and contracted a cold which obliged me to quit my work. Five days before this I had seen a bottle of Father John's Medicine at a neighbor's and now realizing that I had a kind of Grippe, I secured a bottle. At the end of two days I felt better; and at the end of five days I was able to return to work. It is undoubtedly this medicine that relieved me and I highly recommend it as a good remedy for colds and also as a good tonic. I also gave some to my family aged four months, and it has done a world of good."

The greater danger of coughs and colds is the weakening effect they have on the system. Father John's Medicine quickly relieves coughs and colds because it is a body building food tonic. It contains cod liver oil in addition to other valuable ingredients so blended and mixed that the rich, wholesome medicine is easily assimilated without putting a burden on the digestive system.

Father John's Medicine is safe for children as well as grown folks.

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation begins at once to soothe irritated skin and heal eruptions such as rashes, pimples and ring worms.

It seldom fails to remove the torment and disfigurement, and you do not have to wait for relief from embarrassment. Improvement quickly shows. Sufferers from skin trouble should obtain a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

Drink Hot Water With Meals to Stop Stomach Disorders

WHAT PHYSICIANS ADVISE

Thousands of unfortunate people suffer almost daily from dyspepsia, indigestion, flatulence, sour acid stomach, heartburn, gas or distress after eating. If they would only take the agreeable habit of slowly drinking after each meal a glass of hot water containing a teaspoonful or two of tablets of Bismarck Magnesia they would soon find their stomachs so strengthened and improved that they could eat the richest and most satisfying meals without the least symptom of indigestion.

Nearly all so-called digestive troubles are caused by an excess of acid and an insufficient blood supply in the stomach, causing the food to ferment and sour before digestion can take place. A glass of hot water will draw the blood to the stomach and the Bismarck Magnesia will neutralize the stomach acids and make the food contents bland and sweet. Easy natural digestion without distress of any kind is the result. Bismarck Magnesia is not a laxative, is harmless, pleasant and easy to take and can be obtained from any reliable local druggist. Do not confuse Bismarck Magnesia with other forms of magnesia—milk, citrat, etc., but get the real Bismarck Magnesia (powder or tablets) especially prepared for this purpose.

On Saturday evening the pupils of Grades 7 and 8 of Oakdale School held a Halloween party at the school house.

Mr. and Mrs. Giffatt chaperoned the party and Miss Willow and Miss Fleming assisted. The evening was very pleasant and after serving refreshments the party dispersed, every one having had a very good time. On the same evening the pupils of grades 5 and 6 had a Halloween party at the school house.

Mrs. W. A. Chubb and daughter, Mrs. Fred Woodworth, accompanied Rev. Mr. Mack to Lawrencetown on Sunday.

Rev. F. Milligan spent several days this week with his family in Bear River.

C. W. Jefferson, Dr. Campbell, Leslie Rice and D. Rice went to the Camp at Indian Pt. during the week, but were not successful in capturing a moose.

The Ladies Aid of the United met at the parlour on Wednesday of this week instead of Tuesday as usual. At the close of the meeting refreshments were served.

"Saving the Surface Pays"

Charles P. Shoffner, associate editor of the "Farm Journal" says: "Paint the ladders--on which lives are risked--paint the salt box for the pasture; the barrels that stand outside for many uses; the windows and porch boxes; the single-trees and double-trees, even the old ones used for ploughing and cultivating; the poultry feed hoppers, the window and door screens--both frame and screening. The old wheelbarrow will creak on for many years longer with an annual coat of paint."

How much would it cost to replace these things--to build new ones? To neglect painting is to balance big loss figures on the ledger. Just because many home made articles may have been made from end boards and scantlings left over from the new chicken-house or cattle shed does not mean that they are not worth a coat of paint. Brand new lumber will be required to replace them--at so much a foot!

Special Meeting of Council Deals With Allan's Report

Old Material to be Salvaged for Use in the New Service. Work Not Likely to be Let to Tender, but to be Done by Town as Economy Measure

Ninety lights, 10 250 Candle Power, 10 100 Candle Power with centre span suspension fixture and 70 100 Candle Power bracket suspension type lights will constitute the street lighting service of the Town of Digby if recommendations of J. Lorne Allan, of Dartmouth, engineer employed by the Town Council to make recommendations for the reconstruction of the town's lighting service and hydro are put into effect. A special meeting of the Council was held Tuesday morning to consider a report prepared by Mr. Allan after a survey of the electrical distribution system of the Digby Electric Light Company with a view to bringing it to a state of efficiency that the best results may be obtained from the linking up with the Hydro development project of the Digby County Power Board.

The new distribution service will be of three phases, three wire cycle type, of 2300 volts with ungrounded neutral. It will be carried on 126 poles of 25, 30, 35 and 40 foot lengths as may be required and will be of No. 6 braided copper weather proofed wire with No. 8 wire of similar quality for service leads to consumers' circuits. The street lighting service will be on separate circuit in series and will be controlled by time clock switch.

At the junction of the town distribution service with that of the Digby County Power Board an outdoor switching house, with 3 phase metering panel with complete equipment for the service required will be installed.

Wherever possible material now in use in the present distribution system is to be utilized, including poles, insulators, transformers and wire, but rigid inspection will be maintained to determine that no weak links are permitted to become incorporated in the service.

At the present power house the new service will be connected, with the steam generating plant as a safety measure in the event of failure of the hydro distribution service.

The report of the engineer includes technical detail covering every possibility of the service required. It was approved by the Council with the proviso that decision as to method of having the work done be deferred. It is likely that the work will not be let to tender but will be done by the town under direction of a competent superintendent, if such a man can be procured. Desire to do this is based on an opinion that the work can be done at less cost than if the work was let to contract on the ground that a contractor would not be diligent in salvaging material from the old service. Absolute decision has not been reached in this respect.

Whether the installation be made under contract or by days labor the work will be begun as soon as is possible in order to have the new service in readiness for the turning on of the hydro service.

ROBERT C. MILLS
Managing Editor

FRIDAY, NOVEMBER 12, 1926

The Fisheries department steamer Arlex, Captain Cousins, Com mander, was in port on Friday and sailed on Saturday for Yarmouth. The Arlex has been doing preventive work off the South Shore during the summer and her visit here last week was the first for nearly a year.

Captain Cousins, his officers and crew were warmly welcomed back to Digby and it is hoped that the vessel will be often in port.

The scope of the Arlex's duties was vividly portrayed in press reports of her rescue work during the recent hurricane that swept the Nova Scotia coast.

With the approach of winter weather the need for a fisheries service vessel on duty in the Bay of Fundy becomes great. The hazards of Bay weather are such that protective service is an imperative need for those who engage in the fisheries, and the need is the greater in that there is a long stretch of bad coastline from the entrance of St. Margaret's Bay Easterly to where there is not a life saving station or any protective equipment whatever. The single small patrol, Captain Baker's PT is not of type or size to permit her to stay out in rough weather. For the duties in which she is engaged, keeping a check on illegal fishing, she is perhaps, admirable, but as a protection to the scallop and ground fisheries fleets is altogether inadequate.

It would seem that the fisheries of the Bay of Fundy are of sufficient importance to warrant the Arlex being stationed here permanently, especially in view of the fact that a sister ship, the Arras, is available for service and is on duty along the Atlantic shore.

The matter of obtaining, permanently, a protective vessel for the Bay fisheries is one that might well occupy the joint attention of the Boards of Trade and Fishermen's associations in New Brunswick and Nova Scotia, that the necessity for such a vessel be impressed upon the Federal Department of Fisheries, and upon the municipal governments for such support as they are in a position to give.

At the same time as pressure is being brought to bear on the department in this matter it will be opportune to open up a discussion of means of developing the management of the ground fisheries by means of bounties or subsidies. Fishermen should be encouraged to modernize their equipment, replacing vessels with motor driven ones, and it is in relation to these that the suggestion is made.

Loading Turnips for American Market At the Port of Digby

Thousands of Bushels from Warne Farm Will Go in Hold of Mary B. Brooks

The schooner, Mary B. Brooks, of Weymouth, Captain Brooks, commenced loading Monday a cargo of turnips for the American market, under charter to H. T. Warne, of Digby. The turnips were all raised on Mr. Warne's farm and will amount to a cargo of ten thousand bushels. In addition to this, several carloads of potatoes, also raised on the Warne farm will go into the schooner's hold, and a deck load of Christmas trees will complete her loading.

The vegetables are not intended for immediate disposal, but will be put into storage and disposed of as market prices warrant. Whether the cargo goes to Boston or to Jacksonville, Florida depends upon the condition of the market at time of sailing.

This shipment will be the largest individual shipment of produce ever exported from Digby.

The Mary B. Brooks arrived here from Portland, light, having taken a cargo of pulpwood from Weymouth. On her outward voyage, she was caught in the storm that did so much damage to Nova Scotia shipping and had her deck and cabin washed off. The crew had an exciting experience. The deck load broken from its fastenings by the waves that repeatedly washed over the schooner smashed in the deck windows and doors, and was a menace to life until it was finally cleared from the decks by the seas.

Grace Church Ladies Serve Thanksgiving Tea To A Large Number

The Thanksgiving Tea held on Monday evening by the ladies of Grace Church was deservedly well patronized. A large staff of competent cooks had prepared a "spread" to delight the appetite of the most epicurean feaster and an equally efficient staff of caterers pressed delicacy after delicacy upon the willing guests until both appetite and palate were satisfied to repletion.

A considerable sum was realized or church purposes.

Thanksgiving Dinner At The Winchester

Thanksgiving Day Dinner at the Winchester was patronized by quite a number of townspeople as well as by many from outside, who motored in to enjoy the beauties of the day and a real old fashioned Thanksgiving Day meal at the hotel under its new management. None were disappointed, the food of means of development, the management of the ground fisheries by means of bounties or subsidies. Fishermen should be encouraged to modernize their equipment, replacing vessels with motor driven ones, and it is in relation to these that the suggestion is made.

TRY IT YOURSELF

THOUSANDS OWE THEIR HEALTH TO "FRUIT-A-TIVES"

MR. ALPHONSE COOL

"Every person suffering from Constipation or Indigestion should take 'Fruit-a-tives' and I am positive that they will soon feel in the best of health. As for myself, I have tried nearly every other kind of remedy and have come to the conclusion that 'Fruit-a-tives' is the best. Mr. Alphonse Cool, 2222 Lafontaine Street, Montreal."

Because "Fruit-a-tives" is a gentle fruit medicine made from fruit juices, intensified and combined with tonic, it corrects constipation, stomach, kidney and bladder troubles, in a natural way, and purifies the blood. No other remedy can be the same as "Fruit-a-tives." 25c and 50c, a box — at dealers everywhere.

cases ended in death! So a recent Canadian investigation showed. These were not cases of infectious diseases — of consumption — of typhoid! They were cases where a woman had sustained some slight injury — a cut, a burn, a wire-sprink — and where the wound, being thought not serious enough for careful treatment, had been neglected. Blood-poisoning and death resulted. When you or your children sustain any injury, ensure against infection by applying Zam-Buk. This balm soothes the pain, stops bleeding, and by destroying all germs prevents blood-poisoning, etc. Hence no time need be lost from work or pleasure by those who use Zam-Buk. OBITUARY

MRS. CAROLINE CANN

The death of Mrs. Caroline Cann occurred Monday morning, Oct. 18th, at her home at Westport, at the age of eighty-nine years. Her husband predeceased her eighteen years ago, and although she had been in failing health for the last few months, the end came very sudden.

She united with the Baptist Church during the younger years of her life, and has always been a devoted and loving mother. She leaves to mother, two children, Mrs. Leslie W. Finnigan of Freeport, and St. Clair, of Westport, with whom she resided, also eight grandchildren and nine great-grandchildren. The funeral service, held from her home, was conducted by Rev. Phinney of the Westport Baptist Church. The hymns sung were: "Asleep in Jesus," "Rock of Ages" and "Abide with Me". The floral tributes were numerous and beautiful and the last remains of one who was so beloved by her children, was laid to rest beside her husband in the Westport Cemetery.

In the grave yard softly sleeping,
Where the flowers gently wave,
Lies the one we loved so dearly
In her lonely, silent grave.
She has left the home so lovely
We can never see her again,
But we know that she is happy
In the mansion over there.

STOP CATARRH! OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are closed and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and get instant relief.

Ah! How good it feels! Your nostrils are open, your head is clear, no more heavy, stuffy, blowing, no more headache, dizziness or struggling for breath. Ely's Cream Balm is just what you need for colds and catarrh. It's a delight.

Digby War Veterans Attend Memorial Service with Baptists

Pastor Bishop Urges Continuance of Sacrifices as a Memorial to the Dead

Escorted by a troop of Boy Scouts, with bugle band as guard of honor, ex-service men of the naval and military services, who served in the war on Sunday, attended the Digby Baptist Church to hold an Armistice Day memorial service in memory of comrades who sleep in soldiers' graves on the battlefields. A bank of septs had been reserved in the center of the church, the remainder being filled by a very large congregation.

The references of the pastor, Rev. F. E. Bishop, to the pride of the church had in ministering to representatives of the heroic dead, and to the examples of sacrifice and service set before all by the lives and actions not only of these dead, but of those who were permitted by God's grace to return to their occupations, were touching and sincere. A specially prepared musical programme was rendered by the choir.

Pastor Bishop chose as his text Christ's reproval of the Pharisees who complained of the waste that should break a cruse of oil and a point his head.

"Through the whole world, that which this woman hath done shall be spoken of as a Memorial for her." It was a reproval applied to a particular instance, an appreciation of a particularly action, yet its meaning had a universal application and was most apt in describing the heroism and sacrifice displayed by those who had served in the nation's dire need.

Unless something of the same spirit of sacrifice and service which has been shown by the soldiers overseas, was incorporated into the lives of all Christian people, then part of those sacrifices had been in vain, he said. A spirit of unworthy attitude toward war, he said, seemed to be coming all too general.

"Peace at any price" agitators were too eager to discount the sacrifices made and the service rendered and though it was, and should be, the earnest wish and work of all mankind that war should become outlawed among all nations at the same time it is a necessary duty that the oldest generation should not neglect to imbue the boys who would be the young men of the near future with a spirit of sacrifice, of patriotism and of heroism that they might be ready to obey the call to duty to do battle, whether in peace or in war.

Those who had returned from service in the army should not feel, he said, that they had completed their whole duty, just because they had re-entered civilian life. There was an obligation laid upon them by their fallen comrades, that they who remained should face with courage the tasks of daily life and emulating their own spirit of service and sacrifice in war, serve also in peace to combat social and physical evils.

That sixty thousand Canadians were laid in soldiers' graves was an appalling thought but it was equally appalling that each year the ravages of disease snuffed out as many lives as had all the hostilities from 1914 to 1918. The example of sacrifice and service had been set by the heroic dead, and as a memorial unto them the church, the community and the individual should learn to suffer, to work and to serve, that the lessons of war might be applied to the principles of peace. So only could church, community and individual be worthy of their heroic dead and fulfill, in fitting manner, the spirit of Christianity.

Following the regular service the sacrament of the Lord's Supper was administered to a large number of communicants.

On Honeymoon Tour

R. O'Leary, relieving manager of the Royal Bank of Canada, who has many friends in Digby, having been here on several tours of duty relieving Mr. Leonard and his wife Miss Muriel Poynter, and his mouth, were visitors in Digby on Thanksgiving Day enroute to Saint John and a tour through New Brunswick on their honeymoon. A party of the bride's friends motored up from Yarmouth during the morning to give them a send off.

Local and Personal

Miss Edith Winchester, daughter of Mrs. L. V. Winchester, who is attending Acadia Seminary, spent the Thanksgiving recess with her mother at the Winchester House. She was accompanied by her friends, Misses Rena Esterbrooks and Mary Cann, also students at the Seminary.

Seymour Denton, a member of the engineering class at Acadia University spent the Thanksgiving Holiday with his parents, Major and Mrs. M. C. Denton.

Harold Nichols, son of Mr. and Mrs. Frank Nichols, spent Thanksgiving at his home here, returning the first of the week to Wolfville where he is attending Acadia University.

Harry Kirkpatrick of Boston, arrived home last week to spend a vacation with his parents, Station Master Kirkpatrick and Mrs. Kirkpatrick.

Repairs Made to Disco

The Digby Steamship Co. steamer Disco, Captain R. H. Lewis, engaged in freightage on a route from Digby to St. Mary's Bay and Saint John, laid up on Thanksgiving Day for minor repairs to her bows. She sailed on Tuesday for Saint John with a full cargo of egg crate material going to Prince Edward Island from H. T. Warne mill. Several cargoes of this material will be shipped by the Disco to Saint John to be forwarded by rail to destination. The Disco under Captain Lewis performed an excellent service on her route and is a decided asset to the transportation service along the shore.

Culloden

Mrs. Wilfred Murphy and children spent the week end with her parents, Mr. and Mrs. Weston Crawford, Light House Road.

Mrs. E. C. Vantassel of Mount Pleasant was the guest of Mrs. Jas. Handsaker on Sunday.

Death of Former Digby Lady
at Warren, R. I.

Mrs. Henrietta Julia Gardner, the
oldest member of St. Mark's church,
Warren, R. I., passed away at her home
on Main street Thursday forenoon at
11 following an illness of many years.
Mrs. Gardner was born in Digby, N.S.
Nov. 19, 1833. She was the daughter
of James Crowley and Naomi Stocum.
When a young girl she came to Warren
to attend the Warren Female Seminary.
She also taught for a time in a Female
Seminary in Aberdeen, Mississippi.
In 1861 she became the wife of Alfred B.
Gardner of Warren and came here as a
bride, since which time she has made it
her home.

She taught painting in the seminary,
as well as other subjects and was an ar-
tist of no small ability. She loved this
work and even up to 10 years ago did
much along this line. She also engaged
in fine needlework and did some exquisite
embroideries, she being skilled in this
also.

She was a writer as well and did much in
the historical line, being active in the
historical department of the Rhode Island
Woman's club, of which she was a mem-
ber. She was a member of St. Mark's
church, its oldest member, and in her
younger days took a most active part in
all its doings, teaching in its Sunday
school and buying herself in its social
activities. She possessed a quiet dignity
a charm of her own which won her many
friends and admirers among both young
and old. She was the last of her family
who leaves her only daughter, Mrs. Alice
Merchant, wife of Dr. Marcus Merchant
also three grandchildren, Alice Milford,
Joseph Gardner and Julia Eleanor Mar-
chant, all of whom lived at the family
home on Main St. Mr. Gardner, her
husband, who was prominently identified
with the interests of Warren and active
in banking circles, died in 1911.

The funeral was held Sunday after-
noon from the home with services in St.
Mark's church at 2.

Sudden Death of Dr. V. L. Miller

The death of Dr. Vernon L. Miller, a very well known Halifax physician and surgeon, occurred at his home, 133 Spring Garden Road, at about half-past seven Thursday night. The deceased had been in very good health to within a few hours of his death, and his sudden passing was a great shock to all who knew him well. Dr. Miller was a member of Scotia Lodge, A. F. and A. M., and had attended the First Baptist Church since his arrival in Halifax, twelve years ago. He is survived by his widow, formerly Miss Bessie MacMillan, of Isaac's Harbor, and two sons, Vernon Lorne and Ralph Stanley, both at home.

The funeral service of the late Dr. Vernon L. Miller was held at his residence, 133 Spring Garden Road, Sunday afternoon, a very large number attending. The funeral sermon was preached by Dr. A. L. Huddleston pastor of the First Baptist Church, of which Dr. Miller was a member. Dr. Huddleston accompanied the remains to Bear River and conducted the interment service Monday, being assisted by the Rev. E. J. Barras, of the Baptist Church, Bear River. The service in Bear River was largely attended by relatives and friends, and thirteen

doctors from different parts of Nova Scotia, motored to Bear River to pay their last respects to their late friend and colleague.

Dr. Miller was born in Bear River in 1878. He received his early education in the Bear River High School, from which he received his A. Science and his A. Classical. He was a member of the class of 1900 at Acadia University, graduating in Arts with honors. From there he went to McGill, where he received his M. D. C. M., with honors in all subjects.

His first field of practice was Port Maitland, N. S., where he engaged in general practice for two years, after which he spent eight years in Zuluset, N. S. He then went to Edinburgh University, from which he received the degree of F. R. C. S., in 1915, and on his return to Canada, was honored with the degree of F. A. C. S. Upon his return to Nova Scotia, he went to Halifax, and for two and a half years was the Chief Surgeon at the Military Hospital, Cogswell Street.

During the latter years of his stay in Halifax he held the responsible positions of demonstrator at the Dalhousie Medical School, President of the Medical Board of the Halifax Infirmary.

Roll Call at Deep Brook

Very successful Roll Call service in connection with the Deep Brook Baptist Church were held on Thursday afternoon and evening, Nov. 14th. Rev. H. E. DeWolf, the newly induced pastor of the Baptist Church at Annapolis was the preacher of the afternoon, his message being of special interest to church members on "What is expected of the Church?" Mr. DeWolf in an interesting discourse made a strong plea for more consecration on the part of Christian people, all felt that they had received a new impetus to further and greater work. Following this service, a very delectable supper was served in the church hall under the supervision of Mrs. Bessie McBride and her band of efficient helpers. The evening service was presided over by the pastor, Rev. Frank Smith, in which he introduced the Rev. Frank Bishop, pastor of the Baptist Church at Digby. Mr. Bishop stirred his hearers as he dwelt upon the various phases of the Christian life in which all Christian people may become proficient. Many responses were received from the non-resident members of the church, and a very substantial offering was received for the general work of the church.

To Spend Winter In New York

W. H. Farnham, M. P. P., and Mrs. Farnham, left on Monday, going by way of Yarmouth, for New York, where they will spend the winter with their son, D. M. Farnham. Mr. Farnham will return around the latter part of January to attend the opening of the Provincial Legislature and will return to Digby after the session. Both Mr. and Mrs. Farnham have been in poor health for some time past and their visit to New York is in order to avoid the rigors of winter weather.

Divisional Officers In Digby

Major and Mrs. Ritchie, divisional commanders of Nova Scotia Division of the Salvation Army, will pay a visit of inspection to Digby Corps, today, Friday, addressing a meeting in the Citadel at eight o'clock this evening. Lieutenants Cobham, from Montserrat, and Dale, from St. John, newly appointed officers to Digby Corps, are arranging for a welcome to the Divisional Commanders and invite all townspeople to attend the meeting to be conducted by them.

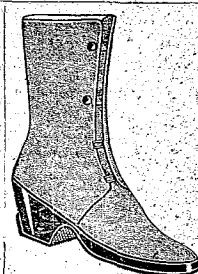

Great Bowling This Year

The winter season of indoor sports has its official opening at the Digby Bowling Academy on Monday evening when four teams of the newly organized eight team league rolled off the first games of their schedule.

The schedule calls for a series of twenty-eight games, twice a week until December 30, and a 50-day winter sport is promised.

Twenty Boats Engaged in

Scalloping Out of Digby

Twenty six motor boats equipped with all gear necessary for the product of their occupation, and each representing an investment of between three and four thousand dollars, make up the Digby scallop fleet, operating on the beds outside Digby Gut. Each boat carries a crew of not less than five men and the earnings of the fleet since the season opened has been in the vicinity of four thousand dollars \$150 per boat for each day that the weather conditions permit dragging.

The Digby boats engaged in the scallop fisheries are: Myrtle J. Legates, Orbin Condon, Harry and Ralph S. E. Jordan, Ronald Eugene, Marjorie E. The Fines, F. E. Davis, Bertha D. J. Mildred, F. E. Davis, Alta, Darle Chaney, Keith and Robertson, E. Raymond.

The ground fisheries have had a very good season, with prices for cod and haddock good, and for hake below the average. A point of quantities landed this season has been the best for some years. A cooperation company was organized this year by the fishermen of Centreville, and the movement is being watched with interest by the fishermen of Tiverton, Westport and Freeport, with a view, should the new company be successful of adopting similar methods.

During the year-five new companies, engaged in the marketing and preparation of fish, fish products have commenced operation in Digby County. The Centreville Shrimp Fish Company is engaged in the handling of fresh and dry fish. Frank E. Davis Fishes Ltd., has opened up a cold storage plant at Freeport with a two car capacity chemical cold storage plant. J. W. Windsor Ltd. has a canned fish factory at Little River and at Tiverton a smoke house for the preparation of smoked fishes and haddies has been operating under the ownership of Alden Elliot.

The branch establishments for

the reduction of medicinal oils from fish products have been opened up at Tiverton and Westport by A. W. Dodd Co. of Canada the head office of which is in Toronto, operates two plants at Tiverton and Westport and operates a similar plant at American Proprietary Medicine manufactory of New York. At these plants oil reduction equipment has been installed and the crude product rendered and shipped to the main factories, for refining.

Several additions to the scallop fleet as well as new boats to engage in the ground fisheries are in prospect and these coupled with modern marketing facilities, give promise of satisfactory development of the fisheries during the coming year. The market of the Digby fisheries extends to Montreal and parts of Ontario as well as to the United States in the fresh fish trade and in the smoked and dry branch of the industry is much wider in scope.

Even Surprised Us

Last Saturday we opened up our Christmas cards and sold nine dozen that first day. Three people stated they never saw a better assortment in a city store. When you remember that we have them printed, if you wish, for 50 cents an order extra, this increases the values still further. Orders by mail will be given personal attention. Just write Connell's Cash Store and tell us what you want.

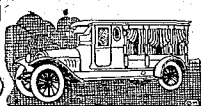

Tuberculosis Work in Digby County

The Divisional Medical Officer, Mr. E. W. Smith, expects to visit Digby County in the near future, according to the schedule given below: Westport, Friday, 10th of November. Westport—Saturday, 20th of Nov. Digby—Monday, 22nd of November. Bear River—Wednesday, 24th of Nov. The Ladies of St. Patrick's Roman Catholic Church are preparing for a Party Sale to be held at Burcks Cottage, Water Street, on Saturday, Nov. 20th. Contributions to the sale may be left with Mrs. Tuckey any time during the day of the sale.

Fees

Our charges are the same for all parts of the county that we serve. The same as we have always charged—ten dollars for attendance with Motor or Horse equipment, anywhere, at any time of the year, regardless of road conditions.

FUNERAL SERVICES, REG'D
S. A. KEEN, Manager

Life-Saving Facilities Much Needed

In this issue is published a letter from M. H. Nickerson, former Inspector of Life Saving Stations, now residing in Boston. Mr. Nickerson advocates the reopening of the Bay View Life Saving Station and general reorganization of life saving apparatus and stations along the shores of the Bay of Fundy. His letter is timely, following as it does, an editorial in last week's issue of the Courier on the need of protection for the boats and men engaged in the scallop and ground fisheries in the Bay of Fundy.

Mr. Nickerson's suggestion does not go far enough. To open the Life Saving Station at Bay View would not fully provide the protection needed by the fishing fleets and the extent of shore line over

which the station could guard is so limited in protection to the need for protection that it would be unsatisfactory. The presence of handling a grave menace within and lead only to a false sense of security. What is needed (and to judge by the comment on the Courier's article dealing with the need for a protective vessel of the kind as the Arley—more badly needed than those whose knowledge of the dangers of the fishing industries limited to reading of the tragedies and heroism of the seamen realize, is a vessel of kind and power, manned by officers and crew steeped in the traditions of the service, to venture out in any weather to assist and safeguard the fleets of scallop and fishing boats which ply their calling in the treacherous waters of the Bay of Fundy.

The Courier presumes to suggest that a public meeting of all interested in the fisheries be called to discuss ways and means of bringing to the attention of the federal department of fisheries, and of the provincial government, the necessity for such a vessel. Too much has the term "Nova Scotia Fisheries" become to mean only the "South Shore Bankers". It is doubtful if any one in Ottawa, in any of the government departments, ever thinks of Nova Scotia's fisheries as meaning any thing connected with the Bay of Fundy.

What action should be taken, whether a memorial be drawn up for presentation to the department or whether a delegation should be sent to discuss matters direct with the heads of the department, can best be decided at a meeting such as is suggested. The backing of the Fishermen's Associations and Boards of Trade of New Brunswick should be sought to strengthen the demand and with their aid something may be accomplished.

A meeting of the members of the Fish, Forest, and Game Protective Association of Western Nova Scotia, will be held in the Court House at Digby, N. S., on Friday, November 26th, at 8 p.m. A meeting of the executive will be held on this date, at 7 p.m.

A Sacred Duty

Probably nothing that was said by Rev. P. E. Bishop, pastor of the Baptist Church, in his Memorial Service Address touched the minds of his hearers more closely than his reference to means of appreciating the sacrifice made by the maid and mother and finally by giving them preference in employment. He said: "All things being equal, preference should be given returned men."

It is impossible that all things be equal, the very reason that preference should be given returned men in employment is that they are handicapped in competition with those who have not undergone the strain and sacrifice of military service. Were the handicap not present there would be no reason why those who are endeavoring to re-establish themselves should be treated differently than others. But the handicap exists, and must be recognized if the nation is to pay its obligations.

In Digby there are a few appointments that are made by the Dominion or Provin. al governments. These few should be held open to returned men exclusively, and it is the duty of all citizens, of whatever political faith and whatever personal prejudices, to see to it that these appointments are given to those who are not able to enter into the competitive market for employment.

A movement is on foot throughout Canada to recognize the various Veterans' associations into

one body. A committee of ex-service men of Digby is at present endeavoring to organize a branch of the new organization in this district, and its necessity is apparent. Only by organized presentation of the claims of those who by reason of injuries received in war service are unable to enter ordinary occupation, for preference in government appointment can justice be secured. Individual application, unsupported by the whole body of returned men is likely to be disregarded, and it is a sacred duty of those who have returned sound in life and limb to see to it that wherever possible their less fortunate comrades shall be secured in positions where they may earn a livelihood reestablish themselves in civilian occupations.

Miss Wanda Buell of Acadia Seminary spent the holiday with her parents, Mr. and Mrs. Avaré Burrell.

Rev. Frank Smith and a number of people from Deep Brook attended the funeral of Mrs. Wm. Cress Sunday afternoon at Waldeck West, a very large number gathered to pay their last tribute of respect to a neighbor and friend.

Rev. G. C. Durkee of Clements vale conducted the service. Miss Mullock spent Thanksgiving at home in Bridgetown.

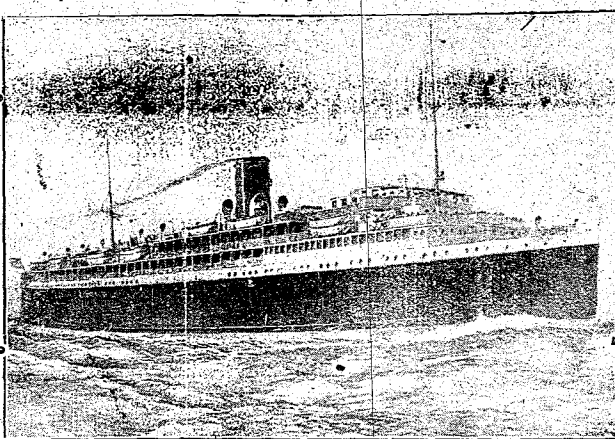

Mrs. Dennis Wright and son, Millard of Annapolis are spending the week at Mrs. J. A. Nicols.

Mr. and Mrs. Leslie McPadden and son, of Clementsport Heights were Sunday guests of Mr. and Mrs. Carl Nichols.

Mrs. Wm. McPadden spent Sunday the guest of her daughter, Mrs. Carl Nichols.

The Annual Roll Call Services of the Deep Brook Baptist Church were held on Thursday afternoon and evening Nov. 4. Rev. H. E. DeWolf of Annapolis preached a very strong sermon in the afternoon. At 6 o'clock about sixty members and friends sat down to a splendid supper provided by the ladies of the church. At 7:40 Rev. Mr. Bishop of Digby gave a most interesting sermon.

Frank the pastor presided at both meetings.

Launched at Philadelphia
New vessel, "Yarmouth" Built for Boston and Yarmouth Service

New Vessel for Yarmouth Service Was Launched

General Manager Graham Attends Launching of the "Yarmouth," New Thousand Passenger Vessel for Tourist Traffic

Attended by a large number of officials of the transportation company of Eastern United States and Canada, including Grant Hall, Vice President of the Canadian Pacific Railway and George E. Graham, General Manager of the Dominion Atlantic Railway, the ship, Yarmouth, was launched at the Cramp Shipyard, Philadelphia, on Saturday, Nov. 6th.

Miss Elizabeth Downs, sister of Jere A. Downs, Vice President of Eastern Steamship lines performed the ceremony of naming the vessel.

The Yarmouth and a sister ship the Evangeline, now being built, will go on the New York to Yarmouth routes next season and will materially add to the attraction of a summer holiday in this playground of the continent.

The vessels are designed especially for tourist traffic with comfort, speed and accommodation as the main principles of their design.

The "Yarmouth" and the "Evangeline" will be placed in service early in the summer of 1927. Each will make the run from Boston every other day and the other will make two round trips a week between New York and Yarmouth. They both will connect at Yarmouth with special trains for Halifax and achieve a through schedule of thirty-three hours from New York and Halifax—a time never attained between these two cities.

These sister ships of 5880 tons displacement will be twin screw, turbine driven and burn oil fuel. Each has a length of 378 feet, a breadth of fifty-five feet and a depth of twenty-nine feet. Each ship will have six decks, the upper three devoted to passenger accommodations. There will be two social halls, a library, writing room, lounge and music room, dancing saloon, smoking room, veranda and glassed in promenade deck.

Accommodations are provided for 750 first-class passengers on each ship and seventy state rooms will have couch berths in addition to the regular lower and upper berths, so that three persons may be accommodated in a stateroom, if desired. Other staterooms have three-quarter width lower berths and a single upper. Moreover there are ten special suites, panelled in mahogany and having private bath and twin beds.

The dining saloon will be just forward of midships and will be finished in mahogany, with trimmings in old ivory. The windows will be reproductions of Elizabethan casements of leaded glass and designs in colors. A special freight deck is provided for motor cars. Therefore, the passenger who travels the routes will be assured of a trip on an ocean ship. The sail from New York will take about twenty-four hours; but from Boston, an afternoon and a night, will seem all too short.

With such ships as these in the service, Nova Scotia is bound to be known to more and more Americans and the establishment of Summer colonies from the States to certain parts of Nova Scotia is bound to follow. In fact, Boston people in groups are already enjoying cabin or camp life year after year in the region above Digby and the formation

of other similar Summer colonies is contemplated.

The new ships are certain to be a strong factor in this development and they will thus be the means of introducing to city dwellers here an attractive and unspoiled country, a country of wide fields and fertile valleys, low and friendly mountains and the great water stretches of the Bay of Fundy and the Basin of Minas, a country which, besides being remarkably picturesque, has an interesting historical background.

From the time the traveller boards one of the new ships, his vacation begins, for there will be not only the sea trip in great comfort but a welcome in a pleasant land when he leaves the ship.

OBITUARY

PIERRE L. DOUCET

The death of Mr. Pierre L. Doucet occurred at his home in Bellevue's Cove on the 5th inst. He was buried at St. Bernard's on the 8th, Father Melanson officiating assisted by Father LeBlanc. A large number of relatives and friends attended the funeral. He leaves to mourn, eight children, Mrs. E. P. Theriault, Mrs. Delisle Doucet, and Miss Delina at home. All were present at his death. Mr. Doucet was well known. He took an active part in shipbuilding during the recent boom.

Mr. Doucet died of Cancer after six weeks' confinement. He was seventy eight years of age.

MR. JOHN A. FARNSWORTH

The death of John Abel Farnsworth occurred at 405 Pleasant St., Melrose, Mass. Monday, Oct. 18th, at 10 a.m. at the age of 71 years and five months. He has been a patient sufferer of heart and bronchial trouble for five years and went to Melrose on year and seven days before his death for the change and betterment of his health.

Previous to four days before he died he appeared as usual when he was suddenly stricken helpless, but rallied and gained continuously and hopes were held out for his recovery until about one hour before he died when a sudden change was noticed and he passed on to his Heavenly Home, being ready and willing to go at the Saviour's call from this world of pain and suffering. He became a member of the Methodist Church at Centreville when about 16 years of age and held that way to the end. All that medical attendance and loving hearts and hands could do was done, but he passed peacefully away in the arms of his wife and youngest daughter, who made his moments comfortable to the last.

Owing to his sudden failing the rest of the family did not get to his side till he had passed away to meet his loved ones gone before. He leaves to mourn the loss of a devoted, kind and loving husband and father, his sorrowing wife, two daughters and three sons, Allister, Burwell and Harriet at home, Mrs. Edward Gregory, Greenwood, Mass. and Judson of Hull, Mass.

One sister and two brothers, Mrs. Celia Hull and George of Lynn, Mass and Darius of Centreville, N. S. Besides several grandchildren and a large circle of relatives and friends. Funeral services were held at the residence of his sons on Wednesday the 20th, at 2 p.m. services being conducted by Rev. Charles W. Jeffras, Pastor of the Methodist church, assisted by Rev. Walter E. Woodbury, Pastor of the First Baptist Church both of Melrose. Hymns sung by the soloist were: "Sometime, Somewhere", "Shall We Meet Beyond the River", favorites of the deceased and "Abide With Me". Passages of scripture were spoken very tenderly, from St. John 14. Floral tributes were beautiful and although the day turned out to be very disagreeable many gathered to pay their last respects to the deceased and one who is greatly missed by all who knew him.

His suffering ended, he was laid to rest in Pine Grove Cemetery, Lynn, Mass. The deepest heartfelt sympathy is extended to the bereaved ones.

When the shades of night are falling
And we sit all alone,
To our hearts there comes a longing,
Oh! if Father would come home.
And for all 'tis so hard to lose thee
We would not call thee back,
From the many mansions far
For we know that you are waiting
And will meet us over there.

STOP CATARRH! OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils - Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and by its penetration through every tiny pore in the nasal membrane, it will loosen and break up the mucus which is the cause of your trouble. Ah! How good it feels. Your nostrils are open, your head is clear, no more hawking, sneezing, blowing; no more headache, dizziness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.

The bride, gowned in ivory satin with veil banded with orange blossoms and carrying a bouquet, looked very winsome as she entered the church escorted by her father, by whom she was given in marriage. She was attended by the groom's cousin, Miss Rita Dakin, who wore a costume of pale blue crepe with silver trimming and carried a bouquet. The groom was supported by Gordon Cann, brother of the bride. The organist was Miss Evelyn Englin, cousin of the bride and the ushers were Miss Irene Pugh and Miss Ina Thompson.

Following the ceremony a reception was held at the home of the bride attended by the immediate relatives.

The bride's travelling costume was of jungle green satin faced crepe, with trimming of sand velvet, jungle green velvet hat and sand coat trimmed with Martin fur. The bride's mother was gowned in wine colored satin with sand trimming. The groom's mother wore a costume of silver crepe with black velvet trimmings.

**Digby Baptist Choir Gives
Concert at County Home**

On Sunday afternoon the full
choir of Digby Baptist church,
accompanied by their pastor, Rev.
F. E. Bishop, motored to the
County Home at Marshalltown and
gave a concert for the inmates
there. Singing of old fami-
ly hymns and a short address by
Mr. Bishop, made up a pleasant
service.

Superintendent Thomas has
asked the Courier to express the
thanks of the home staff and house-
hold to the pastor and his choir for
their practical demonstration of the
church's teachings and particularly
Guy Morehouse for providing
transportation for the singers.

Who Will Win
the Cart?

SOME boy or girl is going to have a fine
cart from this store for Christmas. A large
number of our cards have been distributed.
When a cash purchase is made the amount is
punched on these cards, and the boy or girl
having the largest number of punched cards
wins the cart. Anybody can help. When you
make a purchase of anything in this store bring
somebody's card—your purchase might win the
cart. Boys and girls, hang around! If you see
some one you know coming in the store ask
them to get your card punched.

Notice

Roiled grouse, commonly called partridge, have become so scarce that the law forbids killing them.

Any one with a partridge may be fined from ten to fifty dollars. There are a few of these beautiful birds left in our woods and the boys are asked not to hunt them but to do all they can to protect them.

Children's Aid Society Doing Good Work

In the report of Rev. A. J. Prosser, agent Children's Aid Society for Annapolis, Digby and Yarmouth counties we read, that the society has 146 children under its care and supervision; of these 48 are in their own homes, 50 in boarding homes and of these latter only 13 are in institutions, it being the policy of the society to commit as few of its wards as possible to any institutions. In his report Mr. Prosser stresses the point that even the most incorrigible of those taken over by the society are given one or more opportunities to adjust themselves to family life under new conditions and surroundings and that failures in this regard have been remarkably few and many of the results have been very satisfactory.

For the three societies of Annapolis, Digby and Yarmouth, Rev. Mr. Prosser is agent with office at Bridgetown. Miss E. MacNeil, Mr. Prosser's assistant, being in charge of this office. The Towns and Municipalities in the three counties contribute to the expenses of the society to the amount of \$2500, the balance of the necessary funds have to be raised by contributions. It is proposed to ask all those in the town interested in the good work to become members of the society at a fee of \$100 and a canvass of the town will be made next week. Mr. Prosser reports finding many homes through the county with very little bedding or warm clothes for the children. Any one having quilts or children's clothing to bestow please communicate with Mrs. Dexter, Mount Street, convenor of the supply committee.

Mr. Prosser has done splendid work as agent of the societies and should have the cooperation and support of all interested in child welfare.

During the year there have been discovered among those who already were, or about to become, charges on public funds, 15 children and 2 adults, 11 of whom were citizens of the United States and 6 of English birth. The former were removed to the United States and the latter to England. Three of the children just referred to, though yet in their minority, had for maintenance alone cost the municipality where their settlement was \$5,266.92 and the Provincial Government \$1,053.68, a grand total of \$6,320.60. It is safe to assume that the three children would have been a future charge on public funds of over \$10,000. This added to what they had already cost suggests the financial advantage, at least, to the towns and municipalities concerned as well as the province, in having the care and cost of these children transferred beyond our Provincial bounds.

MRS. SARAH ABBOTT

The death of Mrs. Sarah Abbott occurred on Nov. 12th, at Pasadena, Calif., aged 64 years. She was a native of Digby, N. S., and of late years resided in Calif.

She leaves two sons, Leon of Arizona and Harold of Wakefield, Mass., also one brother, and sisters residing in the United States. Mrs. Osgood, Dakin of Digby is a sister. The funeral took place at St. Andrews Church, Pasadena, Rev. Fr. Sheridan officiating, with interment in Los Angeles Cemetery.

Beat This!

"Of interest to your husband, and incidentally to yours, 'I had a number of things sent me from Amherst. Among other things which came was a piece of my wedding cake, just as moist and nice as when I was married on the 18th of June, 1902. Over 24 years. Can you beat that? I served some of it for supper on Xmas night five years after I was married. Some one in Halifax about a year ago blew about serving some of their wedding cake on their eighth anniversary. I can beat them by a few years.'—Mrs. M. A. Perron.

Leonard Eldridge of Boston arrived here on Friday to spend a few days with his family.

Schr Mary Brooks Takes \$10,000 Cargo of Vegetables

With 9,000 bushels of turnips and 1,000 barrels of potatoes, the three masted schooner, Mary B. Brooks, of Weymouth, in command of Capt. Will Brooks, sailed Saturday, for Boston, under charter to H. T. Warne. Mr. Warne left on Wednesday for Boston, to arrange for warehousing of the cargo. Loading for the schooner was begun on Thursday morning, every form of transport being pressed into service and in turn ox carts double and single horse teams and motor lorries pulled up to the vessel's side direct from the fields to have their freights quickly swung into the schooner's hold, until on Friday her loading was complete, and the vessel was shifted into the stream to await a favorable wind and make room for another schooner to load products from the Warne Mill for St. Stephen.

The cargo of the Mary B. Brooks constitutes the largest single shipment ever exported from Digby. It took sixteen acres of the Warne farm to grow the turnips, which formed the bulk of the cargo, and the potatoes were also raised on the Warne farm. Wholesale prices on the Boston market a week ago, were \$3.25 a hundred for potatoes, and \$1.25 for turnips, making the Mary Brooks, cargo worth just less than \$10,000.

Youthful Burglar Sent Up for Trial

In Magistrate Taylor's Court Tuesday, Archibald Jordan, 17 years of age, was committed on trial and his brother Lovett, Jordan, dismissed from custody, in connection with a burglary committed at the store of Frank Height at North Range a week ago.

Freed by the officials who made the arrest the elder brother admitted being implicated in the break. He kept his younger brother's name clear, denying that the latter had any connection with the robbery. The Magistrate accepted the elder's story that his brother was not connected in any way with the crime and dismissed Lovett from custody, holding the elder for trial, which will probably be under the Speedy Trials Act.

The boys were arrested at Digby on Monday evening, being picked up at the station on the arrival of Western Freight Inspector, Basil Currie of the Atty's General's Dept., Halifax, was detailed in the case, was assisted by Provincials Constable Bent and Chief of Police, Cowan. Mr. Height had been in Digby during the afternoon and on returning home, saw the boys climb on the freight at North Range station and telephoned to the officers at Digby.

It is not considered that either of these youths had any connection with the series of burglaries that have been taking place during the summer.

Arlié Marks Coming

The winter season at the Bijou Dream opens next week with the engagement of the Arlié Marks Company on a two day billings. The company has recently completed a successful five weeks run at Saint John, where play goes on and their presentation excelled. Their opening bill, on Friday December 4th is a three act comedy drama "The Best People", said to be one of the best that the Arlié Marks carries.

Horace B. Dickie Tendered Banquet by Friends on Eve of Departure for New Sphere of Activity

Horace B. Dickie, Barrister, who for 18 months has been practicing his profession in Digby, leaves this week for Kentville to enter into law partnership with J. L. Hsley, M. P.

Mr. Dickie was last evening tendered a complimentary banquet at the Waverly Hotel when fellow townsmen to the number of 35 gathered to wish him all success.

Mr. Dickie during his residence in Digby has taken a prominent part in the activities of the town. His term as secretary of the Children's Aid Society in which organization he was diligent in promoting the welfare of neglected children expired this month. He was president of the Digby Tennis Club, Secretary of the Digby Liberal Association and in all

matters relating to the town's welfare.

When the Dalhousie Campaign was being promoted he was one of the active workers for the development of his Alma Mater and he also took prominent part in the organization of the Digby Board of Trade when that body was revived, as a Tourist promotion organization.

Managing Editor

FRIDAY, NOVEMBER 26, 1926

The St. John Telegraph-Journal, in an editorial on the Bay Fisheries, reprinted in this issue of the Courier, puts the matter of securing a vessel for protective service in the Bay of Fundy, fairly up to those engaged in the fisheries. If a vessel for that purpose is needed, and it seems to be needed, the ones to demand it are those who will most benefit by its service. If the fishermen engaged in the fisheries of the Bay of Fundy desire a protective vessel, and are ready to push their demand for it upon the federal department of fisheries, the Telegraph-Journal is of opinion that such support as can be given by the Board of Trade and provincial governments will be forthcoming.

The matter is one which chiefly concerns the fishermen of this side of the Bay. The fisheries on the

New Brunswick side are not extensive, nor do those engaged in them venture into open waters of the Bay.

The Courier would like to have an expression of opinion from those who engage in the fisheries, as to the need of a vessel and as to what and how things can be done, if it seems advisable, to secure one.

Bay Of Fundy Fisheries

Telegraph-Journal

The Digby Courier has raised the question of a fisheries protective service in the Bay of Fundy during the winter season. It contends that such a service is necessary because there is a long stretch of 600 coast line from the entrance of St. Margaret's Bay easterly, on which there is not a life-saving or any protective equipment. The Courier commends the matter to the joint attention of Boards of Trades and Fishermen's Associations in Nova Scotia and New Brunswick, and suggests that the matter be taken up with the federal Department of Fisheries and the Provincial Government. So far as the New Brunswick side of the bay is concerned, there is less winter fishing, and therefore less need for a protective service than on the other side of the bay. It ought to be assumed, however, that there will be a development of the fishing industry in the bay, and the question of a protective service might well be kept in mind. We all hope for a greater development of this industry. It is hazardous in winter and should receive some measure of protection. Whether there is need for such a vessel as the Arleux, which is named by the Courier, on constant service throughout the season, is a matter regarding which the fishermen themselves are best able to judge. If they can demonstrate the need they will doubtless receive the sympathy of Boards of Trade.

The activity of clothes line thieves operating in the authorities. The Chief of Police has seventeen miles of streets to patrol and only one pair of feet, but at that the residential sections are entitled to some measure of protection.

Post Nuptial Reception at London

At her pretty little home on Sycamore street, London, Ont., Mrs. W. Frank Bailey, formerly Miss Dorothy Lettewey, received for the first time since her marriage yesterday afternoon. The charming bride was wearing her wedding gown of white taffeta and georgette, with a bandeau of pearls in her hair and her flowers were a wrist of bouquet roses and lilies of the valley. Receiving with her were her mother, Mrs. F. M. Lettewey, who was gowned in blue silk crepe and wearing a corsage of sunset roses and husband's mother, Mrs. W. A. Bailey, who was wearing green silk crepe and a corsage of pink roses. The many callers were admitted by little Miss Dorothy Muncie, who was frocked in pink silk. Miss Alice Rawlinheimer, invited to the tea room, where Mrs. Scott and Mrs. Beal poured tea. The tea table was attractive with its cluny cloth and centre of pale pink baby's bumps in silver basket, while silver bud vases of baby's bumps and pink candles were also used. In the living room chrysanthemums of a deeper shade of pink were used and in the hall the blooms were yellow. Assisting were the Misses Mildred Popock, Dorothy Silverwood, Berigee Holzman and Margaret Lettewey.

Mrs. Bailey is a granddaughter of Mr. and Mrs. G. L. Lettewey of Digby.

The groom is a prominent merchant of London being associated with his father in the grocery firm of Bailey & Son.

Their marriage took place in June. The many friends in Digby of Mrs. Bailey will join in wishing them all happiness in their marriage.

Canadians in Boston

The New England Alumni Association of Acadia University held its annual banquet at the Hotel Westminster, Boston, Nov. 22nd. President Rev. W. S. Jacobs on his way from Portland, Maine to reside in Cleveland, Ohio, presided. Addresses were delivered by President Daniel L. Marsh of Boston University, President E. C. Henrick of the Newson Theological Institution, Former President John Masters of the Canadian Club of Boston, President Mrs. R. D. Foster of the Woman's Auxiliary of the Canadian Club and President F. W. Patterson of Acadia. Miss Jean MacDonald, who sang frequently for Alexander Graham Bell in Cape Breton rendered several songs, orchestral music and college songs added to the joyousness of the occasion.

The flags of Canada and the United States decorated the large dining room where more than one hundred and fifty Canadians from all parts of New England were gathered. The officers elected for the ensuing year were as follows: President, Rev. Clyde W. Robbins, pastor of the Roslindale Baptist Church, Boston, Vice-President, T. S. Roy, pastor of the First Baptist Church, Brockton, Mass., Secretary, Stockwell Shum of East Boston, Treasurer, Austin A. Chute, Newton, Mass., Executive Committee, Dr. E. Coburn Supt. Medfield State Hospital, Rev. W. H. Dyas, Somerville, Rev. I. Hardy, Waltham, Dr. Barry, Weymouth, Dr. Ralph Wetmore, Harvard University, Cambridge, Mass., Auditor, John Eaton, Boston, Historian, John Masters, Boston.

The following Sunday evening a "Canadian Night" was held in the Roslindale Baptist Church, Boston, when the president of the Acadia Alumni Association, Rev. Clyde Robbins delivered an address on "The Charm of Canada" and Miss Jean MacDonald again sang. The church was packed to the doors, the great majority of those present were Canadian born, according to their response to a question as to their birthplace. The flags of Canada and the United States decorated the auditorium as well as the Coat of Arms of Canada made especially for the occasion, enriched with a wreath of maple leaves. Religious and patriotic songs of the two nations were sung.

Annual Roll Call

A one hundred and third annual Roll Call of the Bear River United Baptist Church was held in the church and vestry on November 17th where more than 150 members of the church sat down to a supper of unusual sumptuousness. The supper tables were beautifully laid to received the guests. The arrangements were made and carried out in the usual efficient and flawless manner, for which the ladies of this church are justly famous. Mrs. Carl Miller acted as chairman for this occasion. The attendance was so much larger than usual, that the junior members of the church were accommodated in a Sunday school room adjoining the vestry, where they enjoyed special attention.

About 8 o'clock at the conclusion of the supper the annual Roll Call service was held in the main auditorium of the church.

The much beloved pastor of the church, Rev. E. J. Barras, had asked the congregation for a special Roll Call offering of \$300. Last year the offering amounted to the record sum of \$258. In spite of the many difficulties in reaching such a figure, the pastor expressed his confidence in the out come, and further reminded the congregation that during his pastorate every task he had set for a goal, for them had been reached.

There was naturally general satisfaction and delight in his Sunday announcement that the treasurer reported contributions amounting to \$322.

After the reading of letters from absent members, an innovation was introduced this year in not calling individually the long roll of resident members, but a number took advantage of the opportunity offered and responded for themselves or brought messages from others. This part of the program was followed by an unusually able and interesting address, by Rev. Percy Hayden, pastor of the United Baptist Church at Bridgetown. He spoke from the subject of "The Vine and the Branches" and treated this oft discussed theme in many new and striking ways, to the appreciation of his audience. During the service the choir rendered a number of special selections, which were greatly appreciated. Ralph Purdy in the absence of the church organist presided at the organ. The service was concluded after a statement by the pastor that in his opinion we had enjoyed one of the best Roll Call services ever held.

Yearly Report of Plympton Women's Institute

For the year ending Nov. 16 1926 our Institute had held 10 regular and 2 special meetings. We have 14 residents 32 non-resident and 9 honorary members with an average attendance of eight. With the help of some of our non-resident members and some friends in the community we have furnished a room in the Digby General Hospital. During the Xmas holidays we had a tea, refreshments and games for the school children at the library.

Plympton has a public library under the auspices of the W. I. of 475 books, all donated, besides lots of magazines and papers that the children enjoy very much.

We are providing wash basins, soap and sanitary towels for the school children who carry their lunch.

Have paid the taxes of two needy families, made two quilts and called on the sick in our community. I can safely say I have taken thirty bottles since my second baby was born. I think it makes child-birth easier as I had terrible pains with my first three children and very few with my fourth as I was so much stronger. I am now able to do my work alone, but I am still taking the Vegetable Compound as I am nursing baby. — Mrs. Osmie Parn, 49 Cherry Street, Stratford, Ontario.

STRATFORD WOMAN

Restored to Health by Lydia E. Pinkham's Vegetable Compound

Stratford, Ontario. — "After my first baby was born I started to work on the tenth day and did a big washing on the twelfth day. Being so young (I was married at 19) I did not know what was the matter, so let it go until I was all run-down, weak and nervous, and had a bad displacement. For nearly two years I could not sleep and I would always complain of having 'not a headache, but a brain-ache.' My mother is taking Lydia E. Pinkham's Vegetable Compound during the Change of Life and she recommended it to me. After taking two bottles I began to get a little sleep and to feel better and I have never left off since then except for about three months. I can safely say I have taken thirty bottles since my second baby was born. I think it makes child-birth easier as I had terrible pains with my first three children and very few with my fourth as I was so much stronger. I am now able to do my work alone, but I am still taking the Vegetable Compound as I am nursing baby. — Mrs. Osmie Parn, 49 Cherry Street, Stratford, Ontario.

If you are suffering from any weakness which causes such symptoms as pains in the ribs and back and nervous feelings, try Lydia E. Pinkham's Vegetable Compound a trial now.

SIDE LIGHTS IN OUR HISTORY

Undoubtedly the oldest cemetery in the county is at Major's Point, Dalhousie's Cove, where many of the original Acadians were buried. Next in seniority is one known as the old Virginia Cemetery, which formerly existed just North of the Digby Jail—all mounds, stones and other traces having long ago been removed.

We have representatives at Bear River, Barton, Plympton, Contrecoeur, Sandy Cove etc., who have our catalogues; and if asked can explain why our fees are \$25, or \$35, or \$50, or \$100, as the case may be. This is a unique feature of our organization, wherein we strive to best serve and protect our patrons' interests.

The same law which debarred from the United States the Countess of Karolyi and later member of the British Parliament, has now been invoked to prevent Madame Alexandra Kollantay from passing through any portion of the States on her way to Mexico, whether she is being sent as Minister to Mexico from Soviet Russia. Her passport was refused by the American Council-General in Berlin on the ground of her Communist activities.

THE MARCH OF PROGRESS.

Further evidence of the rapidity with which the world changes is shown by the advertising matter appearing in any newspaper or magazine. A Canadian editor found a few spare moments to sit down with a big magazine, a scrap of paper and a pencil. In that one publication he found 215 out of a total of 350 columns of advertising devoted to articles which were not in existence fifty years ago. Motor cars and accessories came easily first with 116 columns, electric appliances, for the latter "were a poor second" with 23 columns, and radio with its accessories, whose infancy can be remembered by children still in the public schools, third with 20 columns.

SWAMP DROPPED INTO MINE

There are 160 orphans in the little hamlet of North Lake, near Ishpeming, Michigan, as the result of a mining disaster of a most unusual kind. The Barnes-Hecker iron mine, which gave employment to practically the entire adult male population of the settlement, had been extended under a swamp. Heavy rains of recent weeks had added such weight to the volume of water in the swamp as to cause it to drop into the shaft carrying death to the 51 miners at work a thousand feet below the surface. A zapping hole, 340 by 200 feet, now marks the former site of the swamp and it will be weeks before the avalanche of quicksand, mud, and water pumped out and the bodies recovered.

PLAN UNUSUAL FLIGHT

Round the World by Way of Poles is Latest Idea

A despatch to the Exchange Telegraph from Copenhagen says a round-the-world flight by way of the North and South Poles is being discussed among members of the Amundsen-Ellsworth Polar expedition, which flew across the North Pole last May in the dirigible Norge.

This statement is credited to Dr. Finn Malmgren, meteorologist and oceanographer of the Polar flight and a close friend of Amundsen. Dr. Malmgren believes the world flight feasible with an aeroplane having eight motors, but says the actual plans have not been formulated.

Bad Weather Spoils Fising at Neck Ports Assessments Creating Dissatisfaction Editor Visits Islands Villages

Two of the most enjoyable days in the experience of the editor of the Courier were those spent this week in a visit down Digby Neck. Accompanying Fisheries Officer Torrie on his monthly trip to Westport. We left Sunday afternoon and went as far as Freeport where Mr. and Mrs. Perry most hospitably entertained us over night and on Monday we continued our journey to Westport.

"The trip was full of pleasant experiences, not the least of which was the pleasure of meeting so many people. Stopping at Sandy Cove with a flat tire a telephone message was sent to Ferryman "B" Blackford to meet us at the first ferry and when we arrived there he was a little late but there with his "Has went." "Bi says he isn't ever going to Sunday school again. Every time he gets ready to go something happens and the time it was the "Has went." She parted her mooring and went ashore but he managed to get the Senior Boys Class to give him a hand and got over for us. What to the editor seemed quite a sea made the trip across a little more than pleasure but it was worth being really sea sick to slide ones feet under Mrs. Bi's hospitable table and create havoc with the fish and other good things. After supper Mr. Woods took us to Freeport to the Ferry home and Monday morning found us ready for the day's work.

It was still blowing when we took the boat for Westport but by then we had found our sea legs and enjoyed it all, especially the inspection of the Davis Fisheries plant at Freeport where the manager, Mr. Thurber showed us around and afterwards took us back to Mrs. Perry's in his car.

Reports of the fleets at Tiverton, Freeport and Westport during the month of November tell of good fishing spoiled by bad weather as a rule but with good catches whenever weather conditions permitted the boats to go out.

At Westport the fisherman have been more successful than at the other ports, getting the advantage of several fine days. Haddock and hake are plentiful and with good weather good catches could be expected. Frank Ruggles and Charles Bailey of Westport got 2000 lbs of haddock in one set on Thursday night of last week and Herb Bailey and Harry Lent 3600 lbs of fish in two sets of their trawls the same night.

Fish buyers record practically no buyings for the month.

The Frank E Davis Fisheries Ltd. at Freeport have practically completed their season and are preparing to remodel their packing plant. The cleaning shed will be remodelled to provide covered access to the smoke house and in the canning department alterations are being made to permit straightening of the fish from the retorts to the packing and labelling tables. The single retort has been removed and foundations are being put in for two new and larger cookers.

Also at Freeport Charles Haines has constructed a new smoke house and is marketing a superior quality of haddies and fillets. Mr. Haines claims to have discovered a new secret in the smoking of this fish which reduces the time in the smoke house getting the product ready for market sooner.

At Westport the Oil Reduction plants under the management of F. B. Lent, have had a most successful season. With branches at Yarmouth, Grand Manan, Shelburne, Canoe and other points where the catch of fish warrants operation, oil is secured by reduction plants and shipped to a United States Proprietary Medicine manufactory under contract covering a period of years. The superior quality of oil reduced from Nova Scotia fish has gained for this product a preference over Norwegian oils and a steady market is assured. The prices paid to fishermen for live fish in consequence and the industry contributes more than twenty thousand dollars among the fishermen each year.

The weather, Hydro and assessments are the chief topics of conversation in all the fishing ports of the New and Islands. With good weather fishing will be good. The hydro development is being watched.

Christmas and New Year in England

Upper Left—Bridleway, London. Upper Right—Bank of Ireland, Dublin. Lower Left—Sir Walter Scott's Monument, Edinburgh. Lower Right—Place de la Bastille, Paris. Center—Canadian Pacific liner Montcalm.

Just about this time of year when the ad's and the weather man begin to talk about the approach of Christmas, which isn't so far away now, sons and daughters of the Mother Country scattered throughout the length and breadth of Canada feel once more the call of home. It is at Christmas time that the ties of family and friends are strongest and Christmas can only be Christmas for one in one place in all the world.

In the Western Provinces of Canada particularly where the last few years have brought many new settlers there are happy plans being formulated this month. The heaviest of the year's work has just been completed, successful crops have been harvested, and many families are able to make the trip to the old country to spend the holiday season with relatives.

In order to meet the heavy traffic, which is indicated by the number of early bookings, the Canadian Pacific Railway will run special trains from western Canada for the Christmas sailings to Great Britain and Europe. The first of these sailings will be by the C.P. liner *Montcalm*, and tourists from all points in the West will be assembled at Edmonton, Calgary, Moose Jaw and Winnipeg where through service cars will be operated to the ship's side. The trip is run sufficiently early to enable travellers to have considerable time in Great Britain before Christmas.

mas, and indications are that it will be heavily patronized.

But the real rush to the Old Country for Christmas will commence with the sailing of the C.P. liner *Montcalm* on December 7 for which a special train will be run to ship side at Saint John. It will be equipped with through tourist cars from Edmonton, Calgary, Moose Jaw and Winnipeg and passengers will travel on the ship to Liverpool via Belfast. This will be followed by the sailings of C.P. liners *Metagama*, December 11 and by *Minnesota* and *Montcalm*, December 15 from Saint John. The first will go to Liverpool via Garmouth; the second to Cherbougue, Southampton and Antwerp; and the third to Liverpool via Belfast. The sailing of the *Metagama* on December 11 will also be augmented by that of the S.S. *Letitia* on the same day. Special C.P.R. trains from western points to both of these ships will carry passengers direct to the dock at Saint John.

Special accommodation for the *Montcalm*, December 7 will provide tourist third cabins for travellers, a concession that has in the past been much appreciated and of which full advantage has been taken.

For those who are unable to make the trip in time to spend Christmas in Great Britain or the Continent, there is scheduled a sailing by C.P. liner *Montcalm*, December 23 from Saint John to Liverpool via Garmouth. This ship will also offer special tourist cabin accommodation and will arrive about in time for the New Year celebrations.

Sportmen Recommend Changes in Regulations

Resolutions for presentation to the provincial government recommending changes in the game laws in regards to close season for game and fish, for the removal of the inland fisheries from the federal government control with a view to obtaining more systematic restocking of the fish streams and for the establishment of a game sanctuary in Western Nova Scotia, were chief items of the business conducted by the Western Nova Scotia Fish and Game Protective Association session at the Court House on Friday night.

There was a large attendance of interested delegates and sportsmen from the whole district and President Hemen, who presided, concluded a meeting that was most interesting in every particular.

Respecting the open season for game it is proposed that the open season for moose and deer shall run concurrently, from October 1st to November 1st in place of, as now, moose October 1st to November 1st and deer Oct. 16 to Nov. 1st. This change is proposed in prospect of preserving the moose and at the same time giving hunters an opportunity of making one trip for both kinds of game.

A change is also proposed in the open season for trout, ending the season on September 1st, after which time all fish caught are nearing the breeding stage and should not be taken.

The Association will present to the provincial government a proposal to have all bounties for bears, horned owls, wildcats and other destroyers of game, instead of as now by the municipalities. Under the present system a wildcat wherever caught may be declared ferocious in the municipality which pays the most and the system is held to be unfair.

The chief discussion at the meeting across over the boundaries of the proposed Game Sanctuary. As first determined the boundaries were not acceptable to the people of Bear River, as it took in the best of their hunting ground.

Changes in the lines to meet the request of the Bear River people have not subtracted greatly from the area which it is proposed shall

be made free territory for game and when the proposal is presented to the Provincial Government for approval no serious opposition is anticipated. The government has been sympathetic in its consideration of the Associations proposals for the laying out of sanctuary boundaries but, in view of the right of landowners and others in the fish and game of private lands was not prepared to enforce any limitations that would be strongly opposed.

The area which it is proposed shall be set apart as a sanctuary for game located in the counties of Annapolis, Digby, Yarmouth, Shelburne and Queens with Boundary Rock as approximately the center and consists of nearly one hundred and fifty acres of good game country, in the center of the best game preserves in Western Nova Scotia.

Ouch! Rub Backache, Stiffness, Lumbago

Rub Pain from back with small trial bottle of old "St. Jacobs Oil."

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica or maybe from a strain, and you'll get relief the moment you rub your back with soothing, penetrating "St. Jacobs Oil." Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on your back and out comes the pain. It is harmless and doesn't burn the skin.

Lumber up! Don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" from any drug store, and after using it just once, you'll forget that you ever had backache, lumbago or sciatica, because your back will never hurt or cause any more misery. It never disappoints and has been recommended for 60 years.

WHOLE FAMILY SAVED FROM COLDS

Mother and Children
Owe Good Health to
Father John's Medicine

The reason Father John's Medicine is so highly regarded by mothers in particular is because it keeps the children well. It is a body-builder and a strength-builder. It supplies the pure food elements which are so needed to enrich the blood, help to form tissue, and thus build up the vitality needed to throw off coughs, colds and bodily weakness.

Mr. G. A. Mangar, R. No. 4, Leavenworth, Ont., is only one of thousands of mothers who hold Father John's Medicine in high esteem. Mrs. Mangar says that Father John's Medicine "has saved me and my family from dangerous colds, and we really owe our good health to it. I would not be without Father John's Medicine in the house."

So mothers have written about the old-fashioned family medicine for over 70 years. It has won their confidence because it gives results; and mothers know that Father John's Medicine is for everyone, young and old, because it is free of alcohol and dangerous drugs.

IN MEMORIAM

In Loving Memory of our dear husband and father, Charles Thibault, who departed this life Jan. 26th, 1925.

The world seems now so lonely, How first seems all the day, Since we received the message, Saying "Daddy has passed away."

"The call was sudden, daddy dear, We cannot understand, O'd that I've had a place for you, I'd better be an angel."

We do not know the pain you bore, We did not see you die, We only know you passed away, And could not say, "Good-bye."

Your death leads us now to the mountains, And God and his angels are there, One is the dark mountain of sorrow, And one, the bright mountain of prayer.

Oh yes there'll be moments of heartache, That to others will never be known, For we shall think of you, dear daddy, Until all the years have flown.

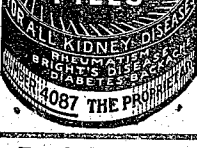

And these hours of pain and sorrow Bring us nearer to that home, Where there is a long tomorrow, And the angels bid us come.

The flowers we placed on your casket, May wither and decay, But the love we bore for you, dad, Will never fade away.

And we know that we can never Meet you in this vale of tears, But it shall not be forever, Parting ends with coming years.

Now dear dad, we will leave you in our Heavenly Father's care, Hoping some day we shall find you, Watching, waiting, for us there.

Inserted by his wife, daughter, and sons.

Here and There

Toronto.—For the first time since silver foxes have been exhibited at the Royal Winter Fair here, Ontario breeders have seriously challenged the supremacy of the Prince Edward Island fox farmers.

Immigration to Canada for the first nine months of the calendar year 1926 shows an increase of 66 per cent over the same period a year ago according to a statement issued recently by the Department of Immigration and Colonization.

Moncton, New Brunswick.—Frozen blueberries are now being shipped in quantity to Cleveland and other centres in the United States. So far eight carloads have left Moncton, and as the fruit will remain frozen, two more carloads are about to go forward.

Victoria, British Columbia.—Famous Players-Lasky are to establish a plant in British Columbia for film production, it was announced in connection with the \$15,000,000 concern known as the Famous Players Canadian Corporation, Limited, of Toronto.

Traffic in grain from Winnipeg along the Canadian Pacific Railway lines this year has been heavier than last year by over 12,000,000 bushels. With 110,298,055 bushels marketed and 68,010 cars loaded the increases over last year's ten month period were 12,188,437 bushels and 3,533 cars.

Antwerp, Belgium.—When the Canadian Pacific steamer Melita arrived recently, she was given an official welcome and a great popular demonstration as the ten thousandth vessel to enter the port of Antwerp this year. An elaborate programme was arranged in her honor.

Saint John.—Moose are reported nearly three times as plentiful this year than last in the Tobique district, according to Burton L. Moore, well-known guide. The rapid increase of these big game animals points to migrations into the territory. Guides and sportsmen have not yet decided the source of the movement.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Weyl's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

Well-known druggists say it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Nujol acts like Nature, said thousands of doctors

RECENTLY we made a country-wide investigation among leading doctors to learn why they advised the Nujol type of treatment for their constipation patients.

80.7% were prescribing it. A large proportion said it was "The more natural method of treatment." As one doctor put it, "Laxatives are irritating. Their repeated use brings on the laxative habit. Nujol trains the bowels to act naturally but thoroughly."

Doctors Advise Nujol

Nine doctors out of every ten told us they were advising the Nujol type of treatment for their patients in place of laxatives—and for these reasons: 1. Nujol is not habit-forming; 2. A more natural method; 3. A lubricant is better than a laxative; 4. Does not grip; 5. Is not irritating; and 6. Nujol gives lasting relief.

Unlike Laxatives

Laxatives and cathartics act by irritating the intestinal tract. They cause

the bowels to frantically expel the contents of the intestines and thus rid the system of the drugs that pills and potions contain.

Nujol acts entirely differently. It contains no drugs, no medicine. Its action is mechanical. It merely softens the dried waste matter in the intestines and lubricates the passage so that the muscles of the bowels can expel the waste matter regularly and thoroughly.

Nature-given Remedy

Nujol appeals to the medical man because it is a simple, scientific and safe remedy for constipation, no matter how severe the case may be. It is gentle in its action and pleasant to take. Children love it. Get a bottle of Nujol from your druggist today. Doctors advise it for constipation whether chronic or temporary. Avoid substitutes.

Local and Personal

Mrs. Fred Leary has returned home after a short visit in New York.

Mrs. Frances Vroom entertained the Ladies Aid Society of the Methodist Church, on Tuesday afternoon.

Byard Marshall has returned home from the United States.

Frank MacNaught motored to Halifax on Friday, returning with Mrs. MacNaught on Tuesday.

Mrs. Cunningham of the Mar. Tel. and Tel. recently installed telephones in Clarence Wilson's house and the adjoining new residence of Reuben Alcorn.

Mrs. Guy of Halifax was in town last week, the guest of Frank MacNaught.

Satellite Cruise is in town and will remain the winter.

Mrs. John Berry was hostess to the Ladies Circle of the Baptist Church on Tuesday evening.

Chas. Rafuse and Carmen Myar of Lunenburg Co., have secured positions at the Imbert Mill.

Mrs. H. C. Anthony spent several days in Digby last week.

Mr. and Mrs. John Brown have returned for the winter after spending the summer at Kokajo, Maine.

Letters to friends report Mr. and Mrs. Burpee Alexander settled in Florida for the winter. Mr. Burpee having secured a position immediately on his arrival.

The Missionary Society of the United Baptist Church met at the home of Mrs. R. A. Harris on Thursday afternoon.

Clayton Robbins, who has been attending Naval Training school in Halifax, spent a few days in town with his mother Mrs. Harriet Robbins.

George Tupper, Carl Miller, W. G. Clarke, Elmer Morgan and W. M. Bonas attended the meeting of the Game Association in Digby, Friday night.

D. J. Williams, Wellington, P. E. I., G. W. Casson, Truro and C. H. Bush of New Glasgow, spent the week end in town.

The receipts from the Women's Institute Sale and Tea, on Saturday afternoon, were very gratifying to those who had it in charge.

The sale of dry goods at the Bear River Trading Company during the last week, has attracted many out of town customers. It is a matter of great regret to the citizens of Bear River that this old establishment is closing its dry goods department.

The Pastime Club Gymnasium equipped with a full line of Indian clubs and dumbbells, sufficient for full-sized classes and new games have also been added. The membership of this popular club continues to grow week to week and it is evidently giving a long felt want in the community.

The main mill building and boiler house have been completed at the Imbert Mill and two new drying sheds are now being erected. The new plant is far superior to the old one destroyed by fire in June and a complete line of up to date machinery is being installed.

IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR
Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops, and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ-destroying properties, it quickly soothes the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. You can get a little jar of Rowles' Mentho-Sulphur at any drug store.

WOOD'S PHOSPHORINE
The Great English Preparation. Tones and invigorates the whole nervous system, makes new blood, and gives energy. Used for Nervous Debility, Loss of Energy, Irritation of the Throat, Fatigue, Mental and Physical Exhaustion, and all other ailments of the system. Sold by all druggists, or mailed in plain package on receipt of price. New pamphlet mailed free. THE WOOD PHOSPHORINE CO., TORONTO, ONT.

Children's Colds

Are quickly, pleasantly relieved by Dr. Chase's Syrup of Linseed and Turpentine

If children's colds are got rid of promptly there will be less tendency to pneumonia and consumption in later life. It is the neglected, hanging-on cold that weakens the lungs and develops into serious trouble.

No treatment for coughs and colds was ever so popular with the children as Dr. Chase's Syrup of Linseed and Turpentine. It is so pleasant to the taste, so delightfully soothing and healing, and so quick to relieve that children soon turn to it instinctively when choked up with a cold or annoyed by coughing.

It is mother's favorite treatment for croup and bronchitis, for she knows it will bring relief when the midnight coughing spasms set in. It is wise to always have a bottle at hand for prompt use in emergency.

Former Pastor Of Digby Baptist Church

Rev. Clyde W. Robbins has resigned the pastorate of the Royal Baptist Church, Boston, to accept a call to become Assistant Pastor with Dr. J. Stanley Durkee at Plymouth Church, Brooklyn, N.Y. This is the church made famous by the long ministry of Henry Ward Beecher and later by that of Mrs. Lyman Abbott and Newell Dwight Lillie. Dr. Durkee, the fourth pastor in the history of the church, began his ministry last September and already the work has opened up in a prophetic manner. Mr. Robbins will be associated with Dr. Durkee in the ministry of Plymouth Church and in the work of the Plymouth Institute. This is a splendid institutional plant with library, gymnasium, billiard rooms, bowling alleys, club rooms, class rooms and offices. The church with the institute and the Mayflower Mission has a property valued at approximately a million dollars, with a large endowment. It is believed by those familiar with the situation that Plymouth Church with the fame of the pulpit and its great equipment for modern institutional work has a future, full, future. It is situated in the midst of the millions of New York, in a three minute ride of all street cars, Brooklyn Heights is building up with great hotels and apartment houses, hundreds of thousands within a few minutes walk of the church. Mr. Robbins will commence his work at Plymouth Church the first of the new year.

"Empire Girdler" Ends Great Feat

Sir Alan Cobham, "Empire girdler," completed his most elaborate air venture recently when he returned to England after flying to Australia and return, a distance of 28,000 miles. This great achievement, for which Cobham was knighted by His Majesty King George, not only establishes Cobham as one of the greatest aviators of the day, but shows the great possibilities of Empire air routes. Cobham regards his flight not as a "stunt" but as an effort to discover the best methods of running air routes and at the same time to demonstrate the practicability of flying.

No aeroplane voyage since the late Captain Sir John Alcock and Lieut. Brown of the Royal Air Force, flew across the Atlantic in 1919, has aroused public interest equal to that of Cobham's. The route of his flight to Australia, and back, which he went to France, Italy, Greece, Egypt, India and a portion of the Indian Ocean. Cobham's British-made engine made the remarkable journey without ever giving trouble. It is the same engine which he went from London to Cape Town and back. His machine has withstood the freezing cold of northern latitudes,

the burning heat of Africa and the drenching rains of an Indian monsoon. The flight has proved that the aeroplane is best for these long journeys. Cobham received a warm welcome at landing points throughout the long journey. The lower photograph was taken at Saratouche, near Paris, and shows the aviator being greeted by A. V. Clark, managing director of the Canadian Pacific Railway in France.

London gave a tremendous welcome to England's greatest peace-time hero of the more Great crowds lined the banks of the Thames as Cobham's plane sped towards London, circled Big Ben in the tower of the House of Commons, and glided over the water towards the Riverside steps of the Parliament buildings. Here he was welcomed by his wife the air minister Sir Basil Hore, and air marshal Sir Seton Branker. A personal message of congratulation awaited Cobham from His Majesty the King. England did not allow her joy at Cobham's return to obliterate the memory of Elliott, the mechanic who accompanied him on the outward flight and who was killed by a mysterious bullet while the plane was flying over the Arabian desert. Touching tribute to the unfortunate mechanic was made by Cobham during the official welcome.

Cobham's actual flying time to Australia and back was 18 days 8 hours, but over three months were required in making the trip.

Miss Marshall Given Party on Engagement

The engagement of Miss Blanche A. Marshall, former visiting nurse and now in charge of nursing welfare work at the A. C. Lawrence Leathery Co. to Salesman Emmet C. Marshall, ordinance officer in the United States Army, was announced at a Halloween party at the home of Mr. and Mrs. Perley G. Kelley on Home St. There were 25 guests present and the home was tastefully decorated in the Halloween dress with witches set afire with incandescent lights that thrilled the party. There were games and a buffet lunch. The couple plan to wed next June and will make their home at 22 Cottage St.

Miss Marshall is a graduate of the J. B. Thomas hospital and later took up private practise. She was not long at this work before the Nursing Association introduced her to take over the important work and she rendered a fine measure of service, giving day and night to the task of aiding the sick. She was forced to give up this work to regain her health and for some months made her home in West Peabody. Later she took up her present position at the A. C. Lawrence Co. where she is doing an important work.

Miss Marshall was formerly of South Range, N.S., having left for the United States some thirteen years ago. She is the daughter of the late George Marshall and grand daughter of Berry Sabean of South Range, N.S.

From Berkeley, California, Wolsford Morton writes: "Have paid as high as \$1.65 per pound for tea out here but have not found one to take the place of MORSE'S SELECTED ORANGE PEKOE. Send me five pounds."

Has Your Husband Got Indigestion?

Nothing creates domestic discord quicker than an attack of indigestion and nothing gets rid of indigestion quicker than Bisulac Magnesia. Bisulac Magnesia is a constant sick, sour, gas, and upset with after-eating distress. If your husband has stomach trouble, he will not only help him by seeing that he has a supply of Bisulac Magnesia (either powder or tablets) constantly at hand. A teaspoonful of powder or two tablets taken with water after meals will instantly neutralize the acids in his stomach, thus relieving his trouble and he can enjoy his meals with no more fear of indigestion. Bisulac Magnesia is the special form of Magnesia used by thousands to neutralize stomach acidity and quickly overcome indigestion—do not confuse with Milk, Carbonate, Block or Citrate of Magnesia. Bisulac is Bisulac. Its action is safe, prompt and sure and it can be obtained at small cost from any reliable drug store.

Big Hunting Season Closes

With the closing of the hunting season last week the "Bear River" hunting grounds have again justified their long enjoyed reputation of being a real hunters' paradise. Both seasoned and "new" hunters, many of whom are widely travelled, have added further confirmation to the superiority of the hunting and sport in our hinterland.

The entire hunting grounds are well watered and both easily accessible and easily traversed, by many lakes and rivers. No trip involves very long or hard carries, with the result that the sport of hunting big game in this territory is rapidly increasing.

All hunting parties report seeing many heads of big game, some single parties seeing as many as 21 moose and 7 deer. Never have hunters returned with such glowing reports of big game sighted. No previous season has afforded as much sport in the hunting of the scarce big game, such as deer, bear, and wildcat. One single party returned with moose, bear and wildcat. Many parties came with a deer in addition to their moose, others with a bear or wildcat.

The "echo" has been reported especially good this season by all but clerical hunters.

The settlement of Victory reports a very exciting closing day of the season. It seems that two bull moose felt slighter, at being over-looked by so many hunters rifles and one called in the "house" of John Simpson on the last morning of the season and after repeated knocking at the door induced Mr. Simpson to get his rifle and "shoot him."

His neighbor across the road, Joseph Darras, was not such a good shoot, the same morning, a moose knocked at his door, but he was so close he could not see him and the shot went wide. He consoles himself with the fact that there is another season coming and he will practise in the meantime.

The total Bear River hunting season reported for the season is: 13 moose 11 deer, 6 wildcat and 6 bears.

Every cow moose seen has been reported with one or two calves, giving promise of a big season next year.

The honor of securing the widest spread of antlers lies between Wm. Moffine and Max Isles and depends upon their strong telling ability.

Little Rhyer

Mr. and Mrs. Howard Frankland who have been here from Parroth, entertained to a birthday party Friday Nov. 19th in honor of their daughter, Miss Hazel Frankland. The evening was spent in music and games of which the guests were freed, including the cutting of the large birthday cake prettily decorated with lighted candles.

A surprise party was tendered Harry Trask on Nov. 19th when a number of young folks gathered to wish him many happy returns of his birthday. After presenting him with a flash light refreshments were served and which all left for home wishing these occasions would happen more often.

Drugs Excite the Kidneys, Drink Water

Take Salts at First Sign of Bladder Irritation or Backache

The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead, your back hurts, or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night, if you suffer with such headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then see a few.

This famous salt is made from the acid of grapes and lemon juice, combined with bicarbonate of soda, and is used by physicians to help flush and stimulate clogged kidneys, to neutralize the acids in the system, to loosen and eliminate uric acid, thus often relieving bladder disorders.

Jad Salts is inexpensive; can not injure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having it. It is safe to take any time. If all means have your physician examine your kidneys at least twice a year.

Obituary

WESTON CROSBY

The death of Weston Crosby occurred at his home here on Saturday, Nov. 20th, at the age of 84 years and seven months. The deceased was a member of the Baptist church, and those who knew him best testify of a pure religion which was spread over his life and character. In his latter days he carried those he loved best. Much has been taken from this family; sweet ties have been severed but much is left, the Christians hope and fadeless memories are still with them. He leaves to mourn three children, Mrs. Rhoda Gehring, Mrs. Roney Warren and Valentine Crosby, also two brothers, Wm. E. and Burckell, both of Bear River. The funeral took place on Tuesday afternoon. The services being conducted by Rev. Mr. Barstow, pastor of the Baptist Church.

Interment took place in Mount Hope cemetery.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head Colds.

You feel fine in a few moments. Your cold or head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more sneezing, more headaches, no hoarseness, no straining for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, soothing cream in your nostrils, let it penetrate through every passage of the head; soothe and heal the inflamed membrane; loosen, soothe, and relieve comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.

LITTLE ART GALLERY

You cannot go amiss in presenting to fastidious people any of these charming scenes beautifully colored in oils. Your good taste will be appreciated. You will find them in all sizes, and in a variety of frames, or without "any" frames, at moderate prices. Be loyal to Nova Scotia and send these remarkable proofs of its beauty broadcast.

If you are puzzled about suitable gifts—think of photographs. There is no discount on portrait prices because I have already placed them lower than last year.

Remember that I have facilities for finishing your picture in a very few days. If bad weather delays you, don't give it up. I'll try to deliver the very last sitting when you want it, though I prefer early appointments.

Mrs. J. H. Jamieson and her daughter Miss Florence Jamieson left on Tuesday for Ottawa to spend the Christmas holidays with her son, Clarence Jamieson; Mr. Jamieson has recently arrived in town.

The auxiliary schooner, *Derbyshire*, 35 tons register, built at Meteghan as a fisherman in 1919 has been sold by Capt. George Morrill, of Sandy Cove, to United States shipping interests and sailed in ballast yesterday for a southern United States port.

P. W. Holdsworth received word yesterday of the death of his sister, Mrs. Aubrey Fullerton of Edmonton, Alberta. Particulars will follow in next issue. The last issue of the Royal Gazette contains the announcement of the appointment of Frank Jones, Esq., as a Justice of the Peace for Digby County and as additional Deputy Magistrate for the Town of Digby.

Here and There

Lethbridge—Ready made irrigated district has surely broken all wheat records with a yield of 72 bushels of Turkey Red winter wheat to the acre on a 37 acre field. This unusual feat was achieved on the farm of Armour and Brimble.

Honey from Ontario, in competition with exhibits from all parts of the world, was awarded first and second prizes at the British Dairy Show held recently in London, England, according to a cable received by the Ontario Honey Producers' Co-operative Ltd.

Vancouver—A giant merger of timber interests in British Columbia, Washington and Oregon, involving \$400,000,000 of capital, is likely to eventuate from plans now under way, according to "The Daily Province." Several of the British Columbia mills—a quarter or a third of the whole—are said to be favorably inclined to the amalgamation.

Montreal—Despite the lateness of the season new immigration to Canada continues at quite an active rate. Week-end arrivals of the Canadian Pacific Steamships "Montreal," "Montclair" and "Mogador" discharged approximately 75,250 third class passengers to be added to Canada's population. Included in the new arrivals was the first contingent of British youth to come out to Alberta under the extension of the Dominion scheme.

Manitoba's tourist traffic for the 1926 season left over \$7,000,000 in the province, according to the Winnipeg Tourist and Convention Bureau. From the United States a total of 105,710 visitors came into the province of which 75,102 stayed for a day while 30,598 remained for a longer time. The average stay of the latter was 3½ days. The increase of cars entering the province over those of the previous year was approximately 46 per cent.

In order that a more intimate knowledge of the Canadian Pacific Railway shipping terminals in the vicinity of Montreal might be gained, over 150 traffic representatives of the various industrial concerns in the district were the guests of the C.P.R. in a recent tour of the various terminals. West Montreal, Adirondack Junction, Mile End, East End, and other points were visited. The tour was conducted by Mr. J. H. Croskill, Yarmouth, N.S.

The S.S. "Emperor of Port Moller" now undergoing overhauling at the Vickers' Yards in Montreal, will be renamed the "Nooka" and placed in the British Columbia Coastal Service, according to C. D. Neroutos, assistant manager of the Service. The vessel will sail for St. John's, Newfoundland, and thence to Sydney, C.B., where she will load with 2,500 tons of steel and proceed to Vancouver via the Panama Canal. This will be the first trip of the "Nooka" under Canadian Pacific ownership.

An optimistic forecast for the future of Poland was made recently by Gerard Hyna, representative of the Canadian Pacific Railway Company at Lemberg, Poland, who was interviewed in Montreal recently after completing an extensive tour of the Dominion and part of the western United States. Mr. Hyna stated that he was impressed with the evident prosperity of the Polish immigrant settlers he had visited near Edmonton. The acute problem in Poland today was over-population, informed the European representative.

"To take an extreme case of Cubist art and attempt to force it on the public against their will and intelligence, is folly," declared Leonard Richmond, R.B.A., well-known interior painter, in an interview at the headquarters of the Canadian Pacific Railway in Montreal recently. Mr. Richmond is beginning a lecture tour of a number of Michigan and Illinois cities. He stated that he is aiming to show that all art is good, even in its most apparently unattractive forms, is a legitimate development from all that has gone before.

ed with interest and all hope that the plans of the Power Board to extend the service down the neck will materialize next year. Assessments for county rates and taxes are creating much dissatisfaction. On the islands especially there is a feeling that the assessors are not giving sufficient consideration to the handicaps under which residents of the islands are put because of their unfortunate transportation facilities and at Freeport the Davis Fisheries are seriously considering whether they are not making a mistake to enlarge their plant. They have been offered fixed taxation at a low valuation and other inducements to remove their plant to Yarmouth County.

To permit the removal of an establishment that means twenty thousand dollars every year to the fishermen of the islands would be a mistake. It may be that the county needs the money. It no doubt does, but to so increase the assessment of a concern that is endeavoring to increase the market for Nova Scotia fish and consequently increase the prosperity of the county, as to drive it out of business or away from the county would be disastrous.

RED PEPPER HEAT

STOPS BACKACHE

The heat of red peppers takes the "ouch" from a sore lame back. It can't hurt you, and it certainly ends the torture at once. When you are suffering so you can hardly get around, just try Red Pepper Rub, and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Just as soon as you apply Red Pepper Rub you will feel the heat in three minutes it warms the sore spot through and through. Pain and soreness are gone.

Ask any druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

Firemen elect Officer

The monthly meeting and election of officers for the year, of the Digby Fire Brigade was held in the Council Chamber of the Town Hall on Wednesday with a full attendance of members.

Among matters discussed was the installation of a system of fire alarm signals, in preparation of the abandonment of the steam generating plant of the Electric Light Co., after the installation of Hydro. A recommendation was prepared to be presented to the Council advising that an electric automatic alarm signal bell be installed with alarm boxes at convenient intervals—This was decided to be preferable to an electric signal bell operated from the telephone exchange as was also proposed. It being felt that signal boxes would give more speedy service.

The meeting recommended to the Council the purchase of new uniforms for the members.

Officers for the year are as follows:
President Geo. Germain
Vice President Geo. Muise
Captain Harry Hersey
Vice Captain Fred Theriault
1st Lieut. Frank Hayden
2nd Lieut. Jack VanFassel
Secretary-Treasurer Ralph Cummings.

Restricted Area Discussed At Acadiaville

Dr. M. Cumming, Special Adviser in the matter of eradicating bovine tuberculosis, addressed a fairly well attended public meeting at Acadiaville last evening, discussing the need for making Nova Scotia a restricted area in order to stamp out bovine tuberculosis.

OBITUARY

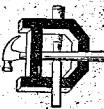

WATSON PARKIN

Watson Parkin, brother of the late Sir George Parkin, died Monday at the home of his niece, Mrs. Chapman and Rev. A. J. Chapman, Oromocto, N.B. in his 95th year. He had resided with Mr. and Mrs. Chapman for the last few years, and for the greater part of his long life he had lived on the farm at the old Parkin home in Acadiaville.

The funeral will take place on Wednesday afternoon at 2 o'clock and the service will be conducted by Rev. R. S. Weeks, pastor of the United Church. Mr. Parkin was one of a family of 13 brothers and sisters of whom only one is surviving, James Parkin of Portland, Me. Mrs. J. J. Wallis of Digby is a niece of the deceased.

M. McKinnon spent the week end in town with his family.

The Nova Scotia Sanatorium Christmas Treat

It is, perhaps, not too early to remind the many friends of the Nova Scotia Sanatorium, that our institution at Kentville has about 50 war veterans among its patients for whom a special effort is made to celebrate the Season of Good will in cheerful and generous fashion. The public has not forgotten these chronic sufferers, and its generosity is keenly appreciated.

If any societies, Woman's Institute, Daughters of the Empire, Local Councils of Woman, Boy Scouts, Girl Guides, etc., Church Societies or individuals, wish to send contributions in the shape of money or gifts or filled stockings, please let the Sanatorium Executive know as early as possible what they may count upon receiving, and when.

Letters and parcels should be addressed to the Business Manager, N. S. Sanatorium, Kentville, N. S. All contributions will be personally acknowledged as they are received.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Compound and Nobody Will Know

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Went's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

Well-known druggists say it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

THE DIGBY WEEKLY COURIER

ROBERT C. MILLS
Managing Editor

FRIDAY, DECEMBER 10, 1926

At Westport, at Freeport, at Tiverton, wherever the fishing fleets go out, the Courier has been congratulating on its effort to arouse general action to secure the services of a protective vessel on duty in the Bay of Fundy to protect the fishing and scallop fleets. A vessel like the Arleux, or better still the Arleux herself, would in the opinion of the fishermen of the Islands be much better than a coast guard station, or even several coast guard stations. To reopen the Coast Guard station at Bay View, the fishermen say, would not be giving protection to the fleets operating below Centreville and if that were done it would be necessary to open a similar station near Tiverton and another down Westport and Freeport way.

At Westport particularly the fishermen are interested in having the Arleux restored to the Bay of Fundy service. They hold the opinion that the Arleux, with her sturdy build and powerful engines is capable of standing any weather that may be met with in the Bay and would be able, in the event of trouble to not only rescue the crews of fishing craft in difficulties but could also salvage the vessels, either towing them into port or lifting them up on her deck.

A protective vessel, lying at Tiverton, or at Digby, or even out on patrol in the Bay, could be got in touch with by wireless from Yarmouth or Halifax and quickly despatched to any point where her services were needed. That is the opinion of prominent fishermen in the Islands and perhaps meets with similar views among all engaged in the fishing industry. What seasons of the year she would be the most needed and where she would be most centrally stationed is a matter that may require working out with the department of Marine and Fisheries, but the feeling is general that the retention of the Arleux on the Atlantic shore is neglecting to protect the fisheries of the Bay of Fundy.

With the opening of Parliament it is opportune to bring this matter before the department concerned and steps should be taken before some disaster and loss of life brings the need for such a protective vessel home with tragic force.

Christmas Shopping with The Weekly Courier

Selections from the Christmas Ads will Decide Your Questions and Solve Your Christmas Shopping Problems

Two weeks until Christmas, ten shopping days in which to secure choice gifts for friends and relatives and to make a really and truly "Merry Christmas."

The Courier representative this week took a little of the advice he is accustomed to giving to other people to "read the Christmas Ads" and this is the result:

The Little Art Gallery suggests Portraits as the most acceptable gifts and says also that you cannot make any mistake in presenting one or more of their colored views of Digby to particular people.

At Roop's the suggestion is for dainty Linen as Christmas gifts or a nice rug for the hearth place or living room.

At Dillons, Footwear is presented as the most practical gift suggestions, slippers, the "Zipper" overboots, and the famous "Lightning Titch" hockey boots for boys and girls and men and women. Mr. Dillon says that the best Christmas gift for a man who wears that style of footwear is a pair of Palmer brand larrigans.

Over at Dakin's, Radio Headquarters, the DeForest & Crosley Radio is featured as a Christmas Gift for all the family. It isn't expensive as a family gift and will give happiness all the year round. For

the winter sport lover there are skates in all styles at a variety of prices. The hockey sticks too, not to say a word about the many other things that the hardware store has for the Christmas Gift buyer.

Dainty handkerchiefs make popular Christmas Gifts and at Wright's an Annual Handkerchief Sale has been offering them in Swiss, Lawn, Silks, Crepes and pure Irish Linen in a large variety of colors and styles of daintiness. And while you are buying them do not neglect to look at the other lines of beautiful gift things, china for the home, scarves and sweaters for men and women and goodness knows what other things.

Christmas would not be Christmas without Turkey and Mince Pies and fixins and at the Digby Market Mr. Westhaver is going to have the best that can be secured. Theirs is a week long sale. Bacon by the slab at 35c a pound.

Up at Connel's Cash Store, Toys and Novelties are displayed in good assortment. Mr. Connel is making a specialty this year of "Vetcraft Toys," made by disabled soldiers at the Veterans Workshops at Halifax and the marvel is that these men, wounded and under many handicaps, are doing them out such sturdy and attractive pleasure things for the children. They must enjoy making them, knowing that at Christmas some boy or girl is going to be made happy by their work.

In the show window at Short-life's is a splendid example of the culinary art. It is a Christmas Cake being disposed of in aid of the Hospital. To look at it, it is to want to eat it all, but only the winner of the lucky ticket may share it with her friends. Just the same another one like it can be made from similar materials and all that is necessary for Christmas cooking can be had at Short-life's.

At Jones' Drug Store there is an assortment of Christmas Gift lines that would give even mother and dad a job to look at. From French Ivory Toilette accessories, manicure sets, Thermos Bottles, Yarmouth's Toilettes, Kodaks and cameras, fountain pens, ladies handbags and all the tags and seals needed to make wrapping them up a pleasant task.

At A. R. Turnbull's fancy prepared fruits, citrons, new dates, currents, mince meat and all that is needed in the kitchen at this time of year is displayed with their prices in their advertisement.

Mr. Walker, manager of the Victoria Rink was just in to order an advertisement for the rink. A season ticket for the rink he says, and all will agree with him, is a gift that will give a winter's pleasure to any boy or girl. Season tickets admit to all regular skating nights and represent a saving. Tie on your Christmas tree and see Junior shout with glee when he finds it.

We pretty near forgot to mention Yexxa's, but just as we were finishing this up Jimmie Hillman brought in his ad. What do you think, isn't candy the biggest part of the Christmas indulgence and especially the favorite barley toys and ribbon candy that come at no other time of the year. And your best girl, even though you give her everything else you can think of, will be disappointed if she does not get a box of Mair's.

It is only fair to say that we intended to visit the stores this week, and view all these things, but we read the ads in the Courier and found that we had not missed a thing.

The more careful a housekeeper is, the more she will insist on her grocery supplies being with MORSE'S TEA; for not only has the right strength and flavor, but it also gives the greatest number of cups to the pound.

Chinamen Pass Through Digby

On Thursday last in charge of Constable Brennan and two extra guards, a party of Chinamen in bond passed through Digby en route to the West Indies. The party numbered twenty-eight men and one woman, the largest number to pass through this town in one group for some years. They arrived in Saint John from Vancouver and came over the Bay on the Empress taking the D. A. R. Express to Halifax Thursday morning.

Profits Of C. N. R. Atlantic Region To Be \$10,000,000

W. U. Appleton, general manager of the Atlantic region, Canadian Railways, speaking at Moncton on Tuesday, gave data on the progress of the system. Mr. Appleton pointed out that by the end of this month the gross revenue for the calendar year will be \$266,900,000 and that net profits will reach approximately \$40,000,000, bringing the total net for the past four years to approximately \$100,000,000.

Mr. Appleton drew attention to the progress of the Canadian National in the Maritime Provinces, making lengthy reference to the freight sheds just being completed at Halifax at a cost of half a million dollars. The fact that 800,000 bushels of wheat were handled by the Halifax elevator this year and two million bushels at Saint John, and also to running rights obtained into Vancorbora, a decided advantage to eastern shippers. As significant of the progress made he stated that the increase in carloadings this year in the Atlantic region had been 10,361.

He Wore The Same Tie

On Wednesday evening Nov. 17th, the relatives of Mr. and Mrs. Herbert Huntington on Woodman, met at their home in Bay View Cottage, Smith's Cove, to celebrate with them the fortieth anniversary of their marriage.

The "bride" received in a gown of taupe tulle silk with a moiré feature of the "grooms" attire was the tie he wore at his wedding.

The children, with one exception were all present. Mrs. Melvie Woodman, of Kentville, being unable to attend, owing to illness in the family.

Out of town guests present were: Mrs. Dr. Timpany, Mrs. Bernard Cosaboon, Mr. Fred Snow, Mr. Fred Snow, Mr. L. Woodman, and Miss Elizabeth Woodman, all of Digby, Mr. and Mrs. Edward Winchester were also present, as they had attended the wedding forty years ago.

The happy couple were the recipients of a large number of gifts, including china, an enamel roaster, hammered brass jardiniere and a handsome labour market clock from the children.

The evening was made enjoyable by singing some of the good old songs, with Mrs. Fred Snow accompanying on the piano and games, with fruit and fudge playing an important part.

Deafly refreshments, consisting of cheese and pineapple sandwiches, cake, including the "Brides Special" and tea, was served and a late hour the guests left for home after wishing Mr. and Mrs. Woodman many happy returns.

A Big Storm

Winter, real old fashioned winter, was ushered in on Monday with a strong Northeast gale accompanied by driving snow. During Monday morning telegraph and telephone lines were put out of commission and traffic on country roads tied up. The Bay steamer Empress, missed her regular run over from St. John for the third time this season, the storm being so bad that the vessel could not venture out of the harbor.

On Digby Neck the storm was at its worst. The Neck Mail was not able to make its trip and the telephone company lines to New Glasgow went out of commission early in the day.

Along the waterfront at Digby extra lines were made fast on shipping lying at the wharves and crews stood by at every change of tide. Some vessels kept their auxiliary engines running at full speed to hold the vessels against the swell.

A motor boat belonging to Arch Amero broke adrift during the morning and washed up on the beach.

Reports from all along the Atlantic coast tell of damage to shipping and winds of terrible velocity, reporting one of the worst storms to sweep the coast in many years.

**3 doctors out of
every 10 advised the
Nujol type of treatment**

DOCTORS from coast to coast
have been recently
advised that the
Nujol type of constipa-
tion treatment is their
first choice. One doctor
said: "Nujol is the only
constipant, uncaluable
constipant. Nujol is done by
the intestines, irritants,
which provide tem-
porary relief only at the cost
of the health. Nujol is the
only constipant that is
natural and safe."

Doctors Advise Nujol
Nine doctors out of every ten
told us they were advising the
Nujol type of treatment for
their patients in place of laxa-
tives—and for these reasons:
1. Nujol is not habit-forming;
2. A more natural method;
3. A lubricant is better than
a laxative; 4. Does not grip;
5. Is not irritating; and 6.
Nujol gives lasting relief.

Unlike Laxatives
Laxatives and cathartics
act by irritating the intes-
tinal tract. They cause

Make Protest On Boundaries Of Sanctuary

A Petition, signed by large numbers of
prominent Digby and Annapolis sports-
men, hunters, guides and business men of
the two counties will in a few days be
presented by O. P. Coulcher, M. P. of
Annapolis County to the Provincial
government in which a vigorous protest
will be made in what is claimed by the
petitioners to be a rank injustice in
reference to the proposed boundaries of
the Game Sanctuary for Nova Scotia.

With five counties included in the pro-
posed Sanctuary, two thirds of the area
will be in the county of Digby. The
hunters of Annapolis are backing Digby
in the protest.

Practically everyone is in favor of a
Sanctuary provided a suitable location is
determined on and that it can be properly
patrolled.

At the first Annapolis meeting it was
the opinion that an area of about one
hundred square miles would be enough
for a test. The committee on location
decided that in the vicinity of Boundary
Road would be the best.

Then the boundary question came up
and the first day included the North
side coming as far as the White-Sand
Lake region. This line included several
camps, constructed and used by Digby
and Bear River and Deep Brook guides
and sportsmen. Then on May 20, 1926
Annapolis, owing to the protest from the
above named sections it was practically
decided to include the Shelburne divi-
sion, although this was more than was
asked. The question went into com-
mittee again and the Boundary line was
placed on the map as from Poplar
Lake to Moosehead Lake to Dish Lake
to Sporting Lake and thence to Oakland.
This is almost as serious to them as the
first Northern boundary.

Now the area stands at about one
hundred and thirty-five square miles;
and in the meantime Yarmouth county
has crowded its line back until they have
the smallest portion of any of the coun-
ties, while Digby has at least two thirds
of the whole.

At a meeting of Digby, Bear River
and Deep Brook sportsmen held in Bear
River on May 11th, 1925 the agree-
ment was as follows:

Beginning at the North West of Pas-
caw Lake thence in a south westerly di-
rection to Cranberry Lake thence to
Buckshot Lake and thereafter as may be
determined.

Now the petitioners are determined
that this northern boundary shall come
no further north than the line from Pop-
lar Lake to the south end of Moosehead
Lake to the south side of Flagstaff Lake
thence to the north east end of Oakland
Lake.

This is all they feel like giving "up" owing
to the fact that about two hundred
hunters go into the woods by the
Lake Jolly road each year; and to the
fact that from Lake Jolly to Moosehead
or Dish Lake or Sporting Lake only takes
seven hours travel opposed to two hours
at least from Yarmouth to the
nearest sanctuary line.

Then again there are many Foreign
Big Game Licenses bought by sportsmen
entering and hunting just north of this
northern boundary of the sanctuary and
the Lake Jolly line turns a goodly re-
venue each year to the province.

The opinion is held by many that
there is an element of danger if the guides
are forced into other localities with par-
ties, thus crowding the hunting grounds.
The petitioners also take the stand that
they make sale for numerous Foreign Big
Game Licenses and in many ways boost
Nova Scotia as paradise for tourists and
they expect the four other counties con-
cerned in the scheme to bear their full
share of the territorial burden.

BEWARE OF FIRE!

The fire wardens have requested
the Courier to convey a warning to
householders to see that their
chimneys and flues are in good
shape and not liable to cause fire.
The handicap of winter weather
makes the fire hazard great and
only by careful watchfulness can
fires be prevented.

The fire wardens will be along in
a few days to make an inspection
of all flues and where needed will
have repairs made at the expense
of the property owner.

Hockey Team Has First Practice

The first practice of the season
was held on Tuesday night when
the candidates for places on the
line up of the Red Ravens put in
an hours good work at the Victoria
Rink. Manager Walker of the
Rink has been most generous in his
arrangement of practice nights and
division of the receipts from games
and the club looks forward to a
splendid season.

A section of the Nova Scotia
Hockey League, with Bridgetown,
Annapolis, Digby and possibly
Middleton, is being organized and
a schedule will be drawn up next
week.

The candidates for the team in-
clude:

Goal—Eldridge
Defence—Hutchinson, Hyson,
Holdsworth
Forwards—Tupper, Raymond,
Jones, Daley, Walker.

All of these have been playing
hockey in previous years and a fast
and snappy team is looked for.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to
Bring Back Color and
Luster to Hair

That beautiful, even shade of dark
glossy hair can only be had by brew-
ing a mixture of Sage Tea and Sul-
phur. Your hair is your charm. It
makes or mars the face. When it
fades, turns gray or streaked, just an
application or two of Sage and Sul-
phur restores its appearance in a
trifling time.

Don't bother to prepare the mixture;
you can get this famous old recipe im-
proved by the addition of other ingre-
dients at a small cost, all ready for use.
It is called "Mrs. Vicks' Sage and Sulphur
Compound." This can always be de-
pendent upon to bring back the natural
color and lustre of your hair.
Everybody uses "Vicks' Sage and Sulphur
Compound" now because it
darkens so naturally and evenly that
nobody can tell it has been applied.
You simply dampen a sponge or soft
brush with it and draw this through
the hair, taking one small strand at a
time; by morning the gray hair has
disappeared, and after another applica-
tion it becomes beautifully dark and
appears glossy and lustrous.

very cold in Digby yet, but it isn't
too soon to inquire what the Coun-
cil is going to do if a similar situ-
ation crops up. Between our-

to prevent house pipes freezing also
prevents the mains from freezing

Here and There

Calgary.—The Vulcan well in the Turner Valley field has taken its place as one of the deepest oil wells in the world, having passed the 5,000-foot depth. Both oil and gas have been encountered but the drillers are prepared to go 6,000 feet.

A record mangel, weighing 35 pounds, has been grown by Dr. Colvert, of the "White House," Sooke River, B.C. Following other records produced on his farm. He has just sold a ton of them, consisting of 100 mangels, averaging 20 pounds apiece.

Toronto.—The first shipment of foxes from this point to the United Kingdom, valued at \$10,000, has left recently via the Canadian Pacific Express. There were 15 foxes in all including the International D-68 champion and grand champion of the 1925 Royal Agricultural Winter Fair, valued at \$4,500.

Serious consideration to the conservation of big and small game in the United States is being given by members of game and fish protective organizations in various states who are holding the thirteenth National Game Conference at the Hotel Pennsylvania, in New York city, December 6th and 7th.

Quebec.—Estimates of the cutting of timber for the season 1926-27 which runs from the latter part of August to the end of April, as compiled by experts here, are that the cut will be from 15 to 20 per cent. over last year's. In other words this season's cut will run to about 2,000,000,000 feet of timber.

Discharging over 1,500 third class passengers at Quebec, recently, the S.S. "Montreal" and "Quebec" of Scotland brought the immigration season on the St. Lawrence for the Canadian Pacific Steamships to a close. In the 74 summer sailings, vessels of the fleet brought 40,000 immigrants to Canada, compared with 38,841 from 69 sailings in 1925 and 39,478 from 93 sailings in 1924. The average carrying per vessel in 1926 was 549, in 1925, 360, and in 1924, 424.

The big game season now nearing its close in the Lake Windermere region has been an unusually successful one. Parties from the middle western States have been numerous this year and their "luck has been in." The nearness of those splendid hunting grounds, the Rocky Mountain Parks and the Provincial Game Preserve, has been a factor. Beaver trapping is once again an active industry, with recent restrictions removed. Many licenses have been taken out, each licensee being allotted a certain defined area.

Emmanuel B. de la Giroday, a native of Mauritius, who has been resident in Canada since 1908, has the official sanction of the Mauritian Government to make the necessary arrangements with the Government of British Columbia for the establishment of a farm colony in the Pacific coast province, according to report. "There are a few thousand people of English and French descent in Mauritius who would be in a position to emigrate to Canada if a suitable agricultural colony were founded," he says. He is based on a scheme for such a colony in the Fraser Valley where fruit and mixed farming would be engaged in.

As a result of discussions at the Imperial Conference in London the cheap passage scheme under which British immigrants have been proceeding to Canada during the year is expected to be renewed. The most important result of the conference, however, will probably be the extension of the scheme of training prospective British immigrants for Dominion factories and mines. Of 100 men secured by Canada in the manner this year, it is expected that with the broadening of the scheme from 1,200 to 1,500 men will be obtained next year. A new two week course in simple farm training will be introduced and will run concurrently with the four month course already in operation.

A Wonderful Home Treatment

For the healing of varicose ulcers, running sores, eczema, etc. while working. Write for particulars to Nurse Decker, 610 1-2 Portage Ave., Winnipeg, Man.

Mrs. M. Webster, Lakefield, Ontario writes: I suffered from varicose ulcers and the pains were unbearable. I could not rest or sleep. I tried every kind of ointment and was under Dr.'s care, but nothing gave me relief. Then I sent for Nurse Decker's treatment and in the first application it stopped the pains and I could get up and do my work. The ulcers began to heal and have been long better since. I cannot recommend the treatment too highly and I sincerely thank Nurse Decker for her wonderful cure.

RED PEPPER FOR COLDS IN CHEST

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

Red Pepper Rub is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to get the tightness and drive the congestion and soreness right out. Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once. The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested throat is warmed, through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known.

IDEA IS SOUND

Pupils Studied to Determine What They Are Best Fitted For

In the action of an English educational authority, teachers will have an important part to play in the near future along the line of guiding their pupils into right jobs. Some experimental work in that direction has, indeed, already been undertaken in London schools. A certain number of pupils were selected for observation, studied intensively for a year, and their parents then advised regarding the vocation for which they appeared best adapted. This policy, it is contended, will prevent the insertion of square pegs into round holes and thus aid materially towards securing higher standards of skill and greater happiness in labor. Theoretically the idea is excellent, for it is only common sense to recognize that a youth starting out in life is more likely to succeed in a job that appeals to him. Contrariwise, it is never surprising that a worker should fail at an unattractive job in which it is impossible to pump up real interest.

"Was Soon Able To Sleep Well"

The usual experience of nerve-racked people who use Dr. Chase's Nerve Food

When the nerves are starved and depleted you become restless, irritable and suffer from loss of sleep. The regular use of Dr. Chase's Nerve Food soon lifts you out of this condition by supplying the system the elements of Nature from which nerve force is created. Mrs. H. N. Tardell, Harrowsmith, Ontario writes: "My nerves were in a very bad state, and I did not know what it was to have a good night's rest. I could not eat and never felt well. After taking Dr. Chase's Nerve Food for a few days I was able to sleep well at night. My appetite also returned, and I felt stronger and better, and after taking three boxes of Dr. Chase's Nerve Food I was quite well."

TRENTON MAN IS VERY GRATEFUL

SAYS THAT "FRUIT-A-TIVES" STOPPED NERVOUS HEADACHES

MR. R. A. BOVAY.

Mr. Roy A. Bovay of Trenton, Ontario, thinks very highly of "Fruit-a-tives" for removing the cause of nervous headaches. "I wish I could tell every sufferer in the world what 'Fruit-a-tives' have done for me," he writes. "For years I was troubled by bad headaches, nervous dyspepsia and liver troubles. Then I commenced taking 'Fruit-a-tives'. Thanks to these wonderful tablets I am once more entirely well."

Are you, too, afflicted with nervous headaches? Quite probably they are due to lazy bowels, stomach, kidneys or liver. What you need is the gentle, natural help of "Fruit-a-tives," which is made from intensified fresh fruit juices blended with tonics. "Fruit-a-tives" is nature's own way in promoting health and happiness. Enlist its aid for yourself, today. 25c and 50c, everywhere.

KING'S TITLE CHANGES

The report recommends that in future treaties the British ministers shall sign for Great Britain instead of for the emperor, with each minister signing for itself, Canada signing immediately after Great Britain. It recognizes that in foreign relations neither Great Britain nor the dominions could be committed to a common line of action without the assent of all the dominions.

In the changes recommended in the king's title the term "United Kingdom" disappears. The change, it is explained, is necessitated by the Irish Free State becoming a dominion. Subject to His Majesty's approval, the new title will read: "George V, by the Grace of God of Great Britain, Ireland and the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India."

Probably the most important constitutional development the report recommends is the method of communication as between the dominions and Great Britain. It was pointed out that the dominions had been given great improvement in recent years in communication by cable, letter and air mail. At the same time it was felt that more could be done by very rapid discussion. A special Government general became the representative of the Crown, and not of the British Government, the dominions being represented by their own representatives. The probable development of this change will be representation of the dominions as between themselves.

Prince George, the King's youngest son, will cross Canada on his way home from China.

ENVOYS TO DOMINIONS

The report records that all representatives at the Conference were impressed with the desirability of closer personal touch between Great Britain and the dominions. The question of its direct representation at the dominions was left for the consideration of the British Government.

The immediate change in communications which the report brings about is that communications between the British Government and the dominions are no longer passed through the Governor-General but between the Government and Government, in other words if the Secretary of State wishes to communicate with the Canadian Government the communication would not go via the Governor-General, but direct to the Premier or Secretary of State for External Affairs.

RULER ATTACKED BY HORSE

The Maharajah of Ratham, India, while playing polo against the local team at Allahabad, was without warning attacked by a stallion pony of the opposing team. The latter animal seized him by his thigh, lifted him bodily from the saddle, and was about to trample him to death when the other players came to his rescue. The Maharajah's thigh is severely damaged, and he will be unable to play again for some time.

MODERNIZING JERUSALEM

Jerusalem the Golden, the famous city of generations, is being brought very bad state of disrepair. Plans are, however, being drawn up, and it is officially announced that the city is to be remodelled and provided with all the modern conveniences. The historical value of the famous landmarks will not be impaired according to plans Jerusalem is to be divided into five zones, namely, industrial, commercial, residential, cultural, and historical, and one of the main features of the remodeling will be the new system of ring boulevards and parks which will be laid out.

Premier Mackenzie King was an interested spectator at Croydon last week of the casting of one of the great bells of the cathedral to be erected in the "Peace Tower" of the Dominion Parliament Buildings. Into the molten metal the name of the House of Commons, a Canadian cent and an English half-penny.

REPORT ON POWER DEVELOPMENT

The joint engineering board appointed by Canada and the United States nearly two years ago to investigate the feasibility of the St. Lawrence ship canal-power scheme, has made its report. While there are no differences of opinion between the recommendations of the two sections it regard power developments, they differ absolutely on the navigation projects, and the feasibility of the scheme in general.

The Canadian section of the board recommends a two-stage power development, involving the construction of the foot of the Long Sault, and with a 17 foot head dam at Ouden Island, near Morrisburg. This scheme would develop 2,619,000 horse power and the cost, providing the developments were confined to the area of Lake Ontario and Mohawk, would be \$423,600,000, including the navigation development. The cost of developing the power alone would be \$308,972,000, the navigation alone \$172,628,000. If the development is taken right to the head of the lakes and include the entire cost of the Welland Canal, the cost will then be \$829,200,000.

Against this power development and the costs under the single stage development, the American section only, \$394,000,000, including navigation development; navigation development \$197,720,000, and the power development to head of lakes \$554,280,000.

SOVEREIGNTY FOR DOMINIONS

Out of the deliberations of the Premier's Committee of the Imperial Conference, a committee report that is being hailed as a charter for the various self-governing dominions, which they will become completely autonomous states within the commonwealth of Nations, with the King as their head, is the subject of a booklet, "Sovereignty for the Dominion," which has been published by the Dominion Bureau of Information.

The booklet is a very timely one, for it is at a time when the dominions are becoming more and more conscious of their own position, and are beginning to assert their own sovereignty. The booklet is a very timely one, for it is at a time when the dominions are becoming more and more conscious of their own position, and are beginning to assert their own sovereignty.

A committee of experts is to be appointed to study the proposed new Laws, Validity Act which at present provides that where a dominion enters into a treaty with Great Britain, the imperial statute shall govern. This has resulted at times in the dominions being bound by laws which they do not wish to be bound by.

GERMAN SETTLERS COMING

Thirty German families are to be settled on a tract of land half way between Winnipeg and Selkirk, in accordance with a plan completed by Dr. Fritz Schuler, an architect and barrister of Hamburg, Germany. The sum of \$125,000 was paid for the land, and the German settlers will be sent to Germany to arrange for the departure of the first batch of new settlers.

FISH DECORATION IN CHURCH

The 1,000-year-old church, St. Dunstan-in-the-East, London, England, was recently the scene of the most extraordinary service—the annual fish service. For three hundred years the church was decorated with thirty-nine different kinds of fish, including cod, shrimp, prawns, eels, haddock and herring. After the service, which was attended by a large number of worshippers, the fish were distributed among the hospitals.

CHINESE PIRATES ACTIVE

The Chinese pirates, who have been active in the British, French and French vessels recently, have now turned their rage on the Japanese, according to reports from the Japanese government. The Japanese steamer, Shin Kiang Maru, has been seized by the pirates and the captain and crew are being held for ransom.

EAST INDIAN "REDS" DEPORTED

The Communist rebellion at the Isle of Java, against the Dutch East Indies Government, is still raging, and latest reports from Salakina announce that over 2,000 arrests have been made, and several hundred communists deported to New Guinea. Disturbances have been present for some time in these islands.

Congratulations—The Branch wish to extend congratulations to Capt. N. C. Desborough. We welcome his life-partner to our midst and hope we shall see them both at our next parties, etc., we will be holding during the winter months.

A few days ago a man was pulled for beating unmercifully a poor old woman, who was begging for alms. The magistrate he struck out like this: "I've been in this country forty-five years, and this is the first time I ever met a magistrate." "Well, the introduction will cost you just \$10," added his honor.

More and more farming is becoming an exact business so far as keep-keeping is concerned, and the country has a larger number of farmers, stock-keepers and poultry-keepers are keeping up the production. The hen that lays 120 eggs in a year just pays expenses.

If we had no faults we should take less pleasure in remarking of others. We should have our men at their birth and not at their death.

If Kidneys Act Bad Take Salts

Says Backache Often Means You Have Not Been Drinking Enough Water

When you wake up with backache and dull misery in the kidney region it may mean you have been eating foods, which create acids, and a well-known cause of kidney trouble is the use of such foods. An excess of such acids overworks the kidneys in their effort to filter it from the blood, they become clogged and paralyzed and loggy. When your kidneys get sluggish and clogged you must relieve them, like you relieve your stomach, by taking a good, reliable physician, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. There is cloudy, full of sediment, channels of the body get sore, you are obliged to seek relief two or three times during the night. Either consult a good, reliable physician at once or get from your pharmacist four ounces of Jad Salts; take a glass of water with it, and before breakfast for a few days and your kidneys may then set fine. This famous salt is the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys, also to neutralize acids in the system, so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive, can not injure and makes a delicious, effervescent, lithia-water drink. Drink lots of soft water. By all means have your physician examine your kidneys at least twice a year.

A great service to the travellers on the C.P.R. lines will be put into effect with the first sailing of the winter season of the C. P. liner "Molita," when for the sailings of C. P. liners from Saint John to Europe between December 31st and April 15th, through tourist sleeping cars will be operated on C.P.R. trains from Winnipeg direct to the ship's side at the New Brunswick port.

Douglas, of popularizing old French-Canadian folk songs among the English-speaking people of this country, the National Council of Education, on the initiative of Major F. J. Ney, made recent arrangements with Charles Marchand, well-known singer, for a comprehensive tour of the Canadian west. The folk songs which Marchand has been singing in English have been specially translated by J. Murray Gibson, dean of publicity of the Canadian Pacific Railway.

Diversions of six miles of Canadian Pacific Railway tracks has now been completed, raising the total additional miles of tracks in use way in the Galtoun Valley, according to word received at headquarters of the company recently. This diversion has occurred between Mile 8 and Mile 14, and affects the stations of Temagami, Killarney, La Charrie, Bonnet, and Cascades, well-known summer resorts in that district, while the station affected by the raising of the tracks is that of Parn Point. The work has been in progress since April of this year.

ITCHING ECZEMA

DRIED RIGHT UP BY THIS SULPHUR

Any breaking out of the skin, even if itching eczema, can be quickly overcome by applying a little Menthol Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth. It seldom fails to relieve the itching and disfigurement. Sufferers from skin trouble should get a little jar of Rowles' Menthol Sulphur from any good druggist and use it like a salt cream.

A Canadian Pioneer of Transportation

Canada has always been a land of pioneers, especially in transportation. One of the greatest of these was Samuel Cunard, the founder of the Cunard Line, who, few people realize, was born in Halifax. He came of United Empire Loyalist stock, and the 21st of November is the anniversary of his birth 100 years ago in 1794. It was due to Samuel Cunard's imagination and enterprise that the great Canadian shipping line was founded. He was the first to transport mail from Liverpool to Halifax and Boston in 1840. This ship was the first of a line of great ships, her modest length of 27 feet, inaugurated an uninterrupted trans-Atlantic service which has been the pride of the Canadian shipping line ever since. The illustration above shows the founder of the Line, his signature, and the ship Saguenay, which he built and named after himself.

The Courier Christmas Advertising Number

In order to give our readers and advertisers the service that a newspaper should give at this season of the year the issue of the Courier of December 24th will be printed on Wednesday night in place of Thursday and mailed to subscribers on Thursday morning instead of on Friday as usual. This advance in the day of publication is being made in order to convey to Christmas shoppers the last minute suggestions of the merchants with a view to enabling them to make easier the task of securing Christmas Gifts.

Advertisers are requested to make arrangements for space at their earliest convenience and to have copy for ad changes in as soon as possible.

The issue of the Courier of Dec. 24th will be in regular size, it being felt that by omitting the usual Christmas issue the needs of all concerned could best be served.

Woman Dies In Her 100th Year

Mrs. Anna McGrath, whose lifetime lacked only ten months of being a century, passed away on Sunday at Victoria Bch, where the greater part of her long life had been spent.

The deceased was Anna Parr, of Windsor, before her marriage to Samuel McGrath and subsequent removal to Victoria Beach, where Mr. McGrath was engaged in farming. Her husband died twenty-one years ago.

Of their eleven children, seven are living. They are, Mrs. Mary Reed of Lynn, Mrs. Grace Ellis of Boston, Mrs. Alice Ellis of Victoria Beach, Norman McGrath of Montreal, Mrs. Lorena White of Victoria Beach and John and Ernest McGrath of Victoria Beach.

The descendants are 59 grandchildren, 113 great grandchildren and 4 great great grandchildren. She was of the Adventist faith in religion. The funeral will be conducted by Rev. Mr. DeWolf of the Baptist Church, Annapolis. Interment will be made at Victoria Beach.

If Back Hurts Begin on Salts

Flush Your Kidneys Occasionally by Drinking Quarts of Good Water

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known doctor. It is much rich food creates acids which clog the kidney pores so that they sluggishly filter or strain out only a part of the waste and poisons from the blood. Then you get sick. Rheumatism, headaches, liver trouble, nervousness, constipation, indigestion, sleeplessness, bladder disorders often come from sluggish kidneys. The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irritable and painful, or if you are troubled by a sensation of itching, begin to drink soft water in quantities; also so get clear of uric acid. Get a bottle of reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in the system so they no longer cause irritation, thus preventing uric acid deposits. Jod Salts is inexpensive and can not injure; makes a delightful effervescent drinking water, and is sold everywhere. Take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications. By all means have your physician examine your kidneys at least twice a year.

"Pound Party" To Father Graham

At the home of Mr. and Mrs. George Trohon on Monday evening of last week, parishioners of St. Patrick's Church to the number of nearly forty, tendered their Rector, Rev. Fr. Graham, a "Pound Party" and card social.

A large basket of pounds, was presented to Fr. Graham, sufficient to stock his larder with many delicacies and staples for Christmas.

The ladies' prize at fortyfives was won by Mrs. Fred Thibault and the consolation by Mrs. Lockwood. The Rector's prize was a tie between Messrs. Angus McPhee and Clifford Boston. A game of cribbage to decide the winner resulted in a win for Mr. McPhee by three paces.

Lunch was served by the ladies at eleven o'clock at which time the presentation was made to Father Graham, who thanked his friends in most pleasant and appropriate words.

Les Emigres

Louis Stehlin of Weymouth was in Digby on Wednesday en route to Saint John, or as he put it "somewhere where you don't shovel snow."

Walking out on Tuesday to view the damage done by the storm of Monday, Mr. Stehlin ran into the road over and had to turn to and join the snow shovellers.

Mr. Stehlin says he won't be back until someone changes the laws.

Death of Warden Ingram Saunders

Ingram Saunders, of Sandy Cove Warden of the municipality of Digby, died at his home at Sandy Cove early Tuesday morning.

The deceased Warden was born at Sandy Cove in 1858, a son of the late Holmes and Francis Saunders.

Warden Saunders served in the County Council for a number of terms during the past twenty years and was first elected warden in 1917. In 1923 he was again elected to that office and again in 1926. He was twice married his first wife being Miss Eldridge of Digby and his second the widow of the late W. H. Eldridge.

He is survived by his widow, a son, Harry Saunders of Lynn, a daughter, Mrs. Guy Morehouse of Digby, two stepdaughters, Mrs. H. B. Jones, Digby, Mrs. W. Morris, Vancouver, and two stepsons, Carl Eldridge and Leonard Eldridge of Digby also three sisters, Mrs. W. Burns and Mrs. Charles Beyea, of Sandy Cove and Mrs. Cora Coleman, Marblehead, Mass., and by one brother, Frank Saunders of Digby.

Harry Saunders who was at for when his father's illness became serious arrived at Digby on Tuesday morning's train.

The funeral was held yesterday, from his late residence, being conducted by King Solomon Lodge, A. F. and A. M. of which he was a member. Members of the County Council and citizens of all walks of life attended to pay their tribute respect to one who had served his native land well, and to extend their heart felt sympathy to the bereaved family.

Returned to Boston

Mrs. Tenyson Kirkpatrick who has been visiting friends in Nova Scotia, returned to her home in Boston on Tuesday after spending the week end in Digby a guest of Mr. Kirkpatrick's brother, station agent, Lindsay Kirkpatrick, D. A. R. Systems and Mrs. Kirkpatrick at their home, Hawthorn Villa, Queen street.

Mrs. E. Hart Nichols of Halifax arrived in Digby on Tuesday to visit her mother, Mrs. Moody, who suffered severe injuries in a fall at home a week ago. Mrs. Moody is resting comfortably but although no bones were broken, is suffering severe shock, which at her age has given her medical advisor and family much anxiety.

ROBERT C. MULLS Managing Editor

FRIDAY, DECEMBER 17, 1926

As the season of Christmas approaches with its cheer, its joy of giving and its festivities, there is one thing that should not be overlooked and that is the buying of Christmas to those who otherwise would have no happiness.

At the Children's Hospital in Halifax are children from all parts of the province undergoing treatment for infirmities and deformities that prevent them from enjoying the pleasures of childhood. Most of them are children whose parents are unable to provide them with that which will aid them in regaining their strength and the capacity of the hospital is taxed by the return of children discharged partially cured, who because of the lack of surgical braces and limb supports must return for further treatment. The Evening Echo, of Halifax is this year conducting a Christmas Gift campaign in aid of the Children's Hospital. The hospital authorities, approached to inquire in what way the newspaper of the province could best serve the needs of the institution pointed out the need for appliances to hold in place the deformed limbs and backs and the Echo Christmas Fund will this year be devoted largely to securing a number of such appliances.

The Children's Hospital serves the whole province and its appeal is, therefore, province wide. This year arrange your Christmas Budget to permit the sending of something; even a small amount to the Echo's Christmas Fund and so bring happiness to some crippled child who otherwise would be handicapped through life.

Contributions may be sent direct to the Children's Hospital or to the Evening Echo Christmas Fund at Halifax and will be acknowledged by that paper.

If you want to really enjoy your Christmas, reserve the evening of Tuesday, December 21st, for the annual Christmas Tea and Sale to be held by the ladies of Grace United Church.

Where Is The Arleux?

The value of a protective vessel for the Bay of Fundy Fishing Fleets, and the imperative need of it, was dramatically illustrated on Friday when F. H. Snow's Scallop in charge of Captain Hersey was towed into port, disabled, by the Fisheries Patrol No. 1, in command of Captain Baker.

The Scallop struck a submerged log in the Bay during the morning, damaging her propeller. She immediately gave signals of distress and dropped anchor to wait for something to come along and pick her up. By an act of Providence the Fisheries Patrol No. 1, on her way to Digby to go out on commission for the winter, came along and towed the disabled boat into port.

Another instance of the need of a protective vessel for the fleet was illustrated in the basin Friday morning when Captain Casey's boat went ashore coming out of the Basin. With nothing available to pull her off she was held up until the next high tide and lost a day's fishing.

Had the Arleux been available Captain Casey's boat could have been pulled off and proceeded on her way to the fishing grounds, and Captain Hersey's boat would have saved a tedious wait for success.

Let's get busy on the matter of a protective vessel before a tragedy happens to shock the whole community into action.

MAGNESIA BEST FOR YOUR INDIGESTION

Warns Against Doping Stomach With Artificial Digestants

You people who suffer, either occasionally or chronically from gas, sourness and indigestion, have now discontinued disagreeable diets, patent foods and the use of harmful drugs, stomach tonics, medicines and artificial digestants, and instead, following the advice so often given in these columns, take a teaspoonful or two tablets of Bismarck Magnesia in a little water after meals with the result that their stomachs no longer trouble them, they are able to eat as they please and they enjoy much better health. Captain Hersey, who Bismarck Magnesia cured the approach of meal time because they know this word: ul anti acid and food corrective, which can be obtained from any good drug store, will instantly neutralize the stomach acidity, sweeten the stomach, prevent food fermentation, and without the slightest pain or discomfort. Try this plan yourself, but be certain to get pure Bismarck Magnesia especially prepared for stomach use.

Death Of Infant Daughter Of Mr. and Mrs. Sibley

The sympathy of all will go out to Mr. and Mrs. John William Sibley of Warr's Corner, Culloden in the death of their infant daughter, Ada May, aged two months, who died on Saturday night last. The funeral was held from the home on Tuesday with interment in the Digby St. Patrick's Cemetery. Arrangements for interment were conducted by Stanley Keen, of Funeral Services, R. Gd.

Be Ready For Christmas And Memorize This One

At Thanksgiving dinner William M. Evans was asked what part of the turkey he preferred. He answered: "It is quite incidental to my recognized abstemiousness and superstitious stomachic nervousness. I be-tendered an infinitesimal portion of the opaque nutriment of the nether extremities, the superior fraction of a vision, or the snowy cleavage from the cardiac region."

Fine Is Imposed Under Game Act

As a result of the search on the premises of George Trimmer, of Greenland, Digby County, Provincial Game Warden, W. E. Chandler of Amherst and A. M. Foster of Bridgetown, Chief Game Warden for Kings and Annapolis Counties, a green hide, and part of the carcass of a moose was found.

Trimmer appeared before Justice of the Peace, H. L. Vroom, at Clementsport, was found guilty and fined \$100 and costs or 100 days in jail.

These Game Wardens have been very active in their work in Digby and Annapolis Counties during the past two weeks and a number of men are liable to be haled into court as a result of their activities.

Trinity Christmas Tree

The annual Christmas Supper and Sale of Trinity Church, held on Thursday evening of last week, was a most successful function both from the point of revenue according to church funds and the enjoyment of those who attended. Over a hundred and ten dollars were skillfully extracted from patrons and full value given in exchange.

At the tea tables, in charge of Mrs. Lynch, assisted by Mrs. Durnet, Mrs. Lept. Mrs. Walker and other ladies, a large number were served a delicious supper partaking of the season of Christmas and at the daintily decorated candy and fancy work booths, in charge of Mrs. Victor Turnbull and Miss Louise Daley, Mrs. Green and Mrs. Jones, a splendid patronage was accorded.

Will Spend Christmas In Vancouver

Mr. E. B. Short, Member of Parliament for Digby-Annapolis, and Mrs. Short, who left last week for Ottawa will not return to Digby for Christmas, but will spend the Christmas recess in British Columbia, where Mr. Short will investigate the methods of the Pacific Coast fisheries.

Back From New York

Mr. Carl Eldridge, who has been on a short visit to New York returned to Digby on Friday night. On his return trip Mr. Eldridge was held in St. John by the storm and came home by way of Halifax.

Weddings

OGILVIE-MORSE

A quiet wedding took place on Dec. 9th, 1926 at the First Baptist Parsonage, No. 5 Falkland St., when Francis Christy Morse, daughter of Mr. and Mrs. E. P. Morse, 127 Smith's Avenue, Truro N.S. was united in marriage to Albert Irving Ogilvie also of Truro.

The best wishes of their many friends are extended to this happy young couple.

They will reside in Truro. Miss Morse is a little daughter of Mrs. J. Denton, Little River Digby Co. N. S.

Appointed Crown Prosecutor

Frank Jones, K. C., has been appointed Crown Prosecutor for Digby and his first case, representing the Crown was on Wednesday when he appeared for the King on the cause of Jordan vs. Rex's trial for burglary.

Culloden

Mr. and Mrs. William Daley spent Sunday in Culliver's Cove with friends there.

Mrs. Alice West of Boston arrived here on Saturday to see her father, John Bain, who is ill.

Vennig Handspiker of Mount Pleasant, was the Sunday guest of Mr. and Mrs. Burton Stark.

Edgar Post of Boston spent a few days with Mr. and Mrs. John Ross.

Mrs. Herbert Daley and Miss Louise Handspiker spent a few days with friends in St. John returning home on Monday.

Mr. and Mrs. Walter Ross spent a few days last week in Sea Brook.

Miss Thelma Stark has returned from her visit in Mount Pleasant.

Only six more shopping days until Christmas. Do your shopping early is good advice. It saves worry and fretting and then the pleasure of being all cleared up on Christmas Eve is a wonderful feeling.

Fire At Bear River

A most disastrous fire took place Mon-
day night at Bear River, when early in the
evening the house on the Kniffin Road,
owned and occupied by Roscoe Buckler
and family was burned to the ground,
even their winter supply of vegetables
being demolished in the flames. Mr.
and Mrs. Buckler and young family, who
are at present staying at the home of
Mr. McCormack, have the sympathy of
the entire community at this dreadful
calamity so near the Christmas season.

good attendance. After the reading of
the minutes, reports of committees and
the usual routine business was transacted.
Rev. E. J. Barras addressed the
meeting on "Patriotism," a very earnest
and inspiring talk which was very much
appreciated by the ladies. Mrs. Warren
sang a delightful patriotic solo.

Chicken Supper

On Thursday evening Dec. 9th the
Ladies of the United Church held their
annual Chicken Supper and Fancy Sale.
A goodly number sat down to the tables
that fairly groaned beneath the weight
of all the things that belong to a first
class chicken supper. The buffet
of fancy and useful articles was well pa-
tronized while the children got lots of fun
out of a fish-pond. The sum of fifty
dollars was realized.

Mission Band Travelogue

The Rope Holders Mission Band of the
United Church, on Saturday afternoon,
gave a unique program in the form of a
Trip to India. The band is studying
this year, mission work in India and at
the introductory lesson all went on an
imaginary trip to that interesting land.
While crossing the Atlantic they had the
pleasure of listening to a fine radio con-
cert, broadcasted from Bear River.
There were a few days of rough weather
and some of the passengers had to be
given first aid by the ships trained nurses.
They were soon around again and ready
for the delicious lunch that was served.
Arriving at Bombay the travellers were
carried inland toward the interior of the
mission field where they will remain for
some time getting first hand information.

Barras Bible Class at Home
The Barras Bible Class were, hosts on
Monday evening at the home of the
Pastor in the ladies of the Phila-
thea Class, Mr. Content Barras, and
members of the Pastime Club. The
program of the evening was received by
the guests and the Pastor, Mr. Barras,
class with enthusiastic applause and
many compliments were heard at the
close of the evening of the quality of
entertainment provided.
The President, Mr. Warren, welcomed
the guests with a few timely and well
chosen words; the guests, Messrs.
Cunningham, Dukeshire, Davis and
Harris rendered a number of popular and breezy
selections which were well received
that the audience insisted on two encores.
A. G. MacIntyre gave a number of readings
followed by a charming solo by
Ed Miller in his usual good form.
He was accompanied by Mrs. A. G. Mac-
Intyre, a solo by Walter Dukeshire was
loudly cheered and followed by a boxing
championship between Oakley Banks and
Cleveland Dukeshire. The referee, F. H.
McNaught, after counting a number of
fouls, counted Oakley Banks out and
awarded the champion ship to Dukeshire
who is prepared to defend his title
against all comers.
The audience was treated to a number
rare and unusual in this locality, club
entertainment by Messrs. McNaught and
Simons who sang the club music, to the
great delight of the audience, who called
for repeated encores.
The final half of the program consisted
of the one act farce, "A Close Shave"
in which the characters were: Mr. J. J.
Crosby, John Flemming, The Barber,
Vernon Peck, McGinnis, (various Ac-
tresses) and the Dukeshire family (a
phony aunt), George Benson. An ex-
quisite, Shirley Blomer. Each of these
gentlemen did their particular part
exceptionally well and were received by
the audience and guests with frequent
laughter and applause during the entire
performance. "A Close Shave" looking for
his daughter, added, very much to the
mystery of the performance.
The entertainment concluded with re-
freshments and God Save the King.

Important appointment

Hon. J. A. Walker, Minister of Natural Resources, has announced the appointment of William A. Middleton, B. S. A. as Provincial Horticulturist and Professor of Horticulture at the Nova Scotia Agricultural College.

The increasing importance of fruit and vegetable growing in Nova Scotia and its great potential value, makes necessary aggressive and efficient leadership in that industry. Prof. Middleton's training, experience and native ability peculiarly fit him to institute a thoroughly modern system of horticultural training at the Agricultural College and to speed up horticultural extension work throughout the province. He was born in Aberdeen, Scotland, 39 years ago, spent the early years of his life on a large fruit farm in the Okanagan Valley, B. C. and was graduated in 1913 from McDonald College, McGill University, where he received the degree of B. S. A. For two years he was assistant in fruit disease investigation at the United States Bureau of Plant Industry. Subsequently, for three years, he was in the Research Department of the Thompson Chemical Company at Baltimore. After serving overseas during the war he assumed charge of the extension work of the Department of Horticulture, University of British Columbia and, a short time ago was appointed manager of the large Midland Apple Orchard at Vernon, B. C.

Prof. Middleton, who is a specialist in costs of production in fruit growing, is the author of several well known monographs on that subject. Among these are "Cost of Producing Apples in Okanagan Valley," "Fields and Prices for leading Varieties of Apples," "Yields, Grades, Prices and Returns for Apple Varieties." He will assume his duties immediately after the New Year with headquarters at Truro.

BREAK CHEST COLDS WITH RED PEPPER

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known. Always say "Rowles."

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur restores its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Weyl's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Weyl's" Sage and Sulphur Compound now because it deters to naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.

Red Ravens' Masquerade

The Hockey season received its official opening on Thursday night last when the Red Ravens Hockey Club held a Masquerade Dance at the Bijou Dream Theatre. Music by the Digby Orchestra made dancing a pleasure and the part-colored costumes of the dancers made the scene one of living color. There was only a fair attendance.

The gentlemen's prize was won by Mr. Frank Wood, and the lady's by Miss Phyllis Dakin who won the tosser tie tying with Miss Carolyn Jones.

MRS. SUSAN A. HAMM

The death occurred on Sunday, Nov. 14th of Mrs. Susan A. Hamm, at the age of 88 years and two months. The deceased was well known in Clements where she had resided for many years.

She was the second daughter of the late John Bileon and Mary Burwell of Clements. In early life she united with the Clements Baptist Church.

She was twice married, her first husband being Capt. James Rawling, who died in South America 52 years ago. Nine children were born by this union. 40 years ago she married Joseph Hamm, who passed away six years ago.

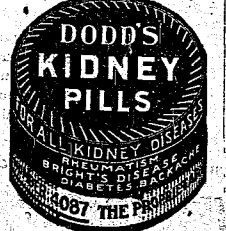

The funeral service was held on Wednesday, Nov. 17th, from the home of her daughter, Mrs. Laura Monroe with whom she had made her home since the death of her husband. The service, which was largely attended, was conducted by Rev. Frank Smith, pastor of the Baptist Church, assisted by Rev. A. Smith of the Anglican Church.

She is survived by three sons and three daughters, who were constant in their ministries during her declining years. Captains Llewellyn Rawling of West Somerville, Robert and Herbert of Clements, Mrs. Adeline Wade of Grandville, Perry, Mrs. Mrs. Laura Monroe of Clements and Mrs. Alice Hingsman of Watertown, Mass.

Interment took place in the family lot at Clements. A very large circle of relatives and friends extended sincere sympathy to the bereaved family.

Capt. Donald B. House has received word from Dr. Curry, of the New Jersey State Hospital, Newark, N. J. of the death at that institution of Mrs. Max Ashkins, a patient there for several months. Her death occurred on November 24th. Deceased was born in Germany fifty three years ago and had been a resident of Weymouth for twenty years.

During her residence here she made many friends who were with her at the time she passed away. She was a woman of splendid qualities of heart and mind and possessed exceptional business acumen. Besides her husband at present in Calicut, N. J. she is survived by two daughters of Minneapolis and Edward Chicago who were present at the funeral services, a brother Max Ross of Saint John, N. B. and only relatives, also survive to mourn her loss. The sympathy of the people of Weymouth goes out to Mr. Ashkins, who is not in the best of health.

Laxatives bring on laxative habit said most physicians

We asked leading doctors everywhere why they recommended the Nujol type of treatment to their patients. They gave us 16 reasons, the chief one being: "Because it is non-habit forming."

One doctor said the big trouble with ordinary laxatives is you have to keep on using them. They are violent in their action, straining vital organs, forcing the intestines to act abnormally. Eventually the bowels refuse to act without them.

Doctors Advise Nujol

Nine doctors out of every ten told us they were advising the Nujol type of treatment for their patients in place of laxatives—and for these reasons:

1. Nujol is not habit-forming;
2. A more natural method;
3. A lubricant is better than a laxative;
4. Does not gripe;
5. Is not irritating;
6. Nujol gives lasting relief.

Unlike Laxatives

Laxatives and cathartics act by irritating the intestinal tract. They cause

the bowels to frantically expel the contents of the intestines and thus rid the system of the drugs that pills and cathartics contain.

Nujol acts entirely differently. It contains no drugs, no medicine. Its action is mechanical. It merely softens the dried waste matter in the intestines and lubricates the passage so that the muscles of the bowels can expel the waste matter regularly, naturally and thoroughly.

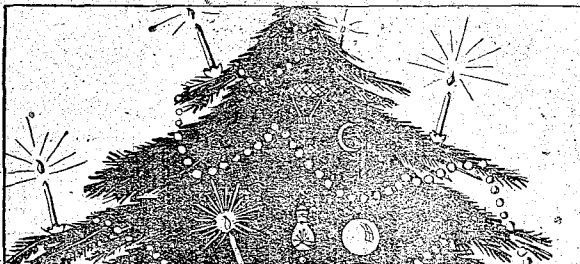

Nature-given Remedy

Nujol appeals to the medical man because it is a simple, scientific and safe remedy for constipation, no matter how severe the case may be. It is gentle in its action and pleasant to take. Children love it.

Get a bottle of Nujol from your druggist today. Doctors advise it for constipation, whether chronic or temporary. Avoid substitutes.

\$15,000 FUR SHIPMENT SEIZED AT DIGBY PIER

A. L. Garber, of Montreal, Arrested at
Annapolis in Connection With
Fur Shipment.

A fur shipment, valued at \$14,679, addressed to a Montreal destination was seized at the Digby pier on Saturday by game Warden A. L. Foster, Annapolis-Kings, W. S. Troop, Digby-Yarmouth and Provincial Constable Edward Chandler. The furs were purchased in various parts of the province by a non-resident fur buyer, who had failed to take out the license required by the Fur and Game regulations and liable to confiscation. The seizure included two shipments one of six fur skins, valued at \$1400 having come from Middleton and the other consisting of 126 fox skins valued at \$11340 \$1000 muskrat skins valued at \$1690 and 41 Raccoons valued at \$240. They were not accompanied by the declarations which are required on all export shipments. The names of the shippers and consignees are withheld by the officials making the seizure.

Officers Foster and Chandler caught up with the preparations for the shipment on Tuesday and on Friday leaving Game Warden Foster to look after the shipping end of the affair, officer Chandler followed the buyer to Digby where he awaited advice of the movement of the furs. On their arrival at Digby they were seized and the seizure of those concerned in the transaction will follow.

A. L. Garber of Montreal, the buyer of the furs, arrived in Digby on the Empress Wednesday morning. Officer Chandler endeavored

to get a warrant for his arrest before the departure of the train east but was only able to get the necessary authority after the train had left. Mr. Garber was arrested at Annapolis by Sheriff Edwards and brought here by Game Warden Foster. He appeared before Magistrate Frank Jones yesterday afternoon and a further hearing will be held this afternoon.

Grace Church Christmas Sale

In spite of activities of Christmas week and the demands upon one's time to prepare for Christmas there was a very good attendance at the Christmas Sale and Supper held on Tuesday evening by the ladies of Grace United Church. The supper patrons were served with a supper that for bountifulness deliciousness and service was hard to beat and at the candy and fancy work booths a steady stream of buyers soon bought up the varied Christmas Gift pieces offered for sale. The ladies went to work to make it a success and in all respects are able to say they succeeded.

The receipts of the evening totalled in excess of \$250.00, truly a wonderful showing.

Seymour Denton who is attending Acadia University arrived home on Friday to spend Christmas with his parents Major and Mrs. Denton.

\$140.00 Made at Baptist Xmas Tree

The most successful Christmas Sale and Tree ever held by the ladies of the Baptist church was that held on Thursday evening last when \$140 was taken to swell the church funds.

Home made candy, Christmas gift novelties and a great many gifts on the Tree were disposed of to a large patronage, while at the supper tables nearly one hundred and fifty were served.

The candy table was conducted by Mrs. Frank Anderson, assisted by her daughter, Miss Jean. At the fancy work table Mrs. Maynard Denton was assisted by Mrs. Frank Nichols, Mrs. Hubert Warne had charge of the Tree.

The tables were served by a large staff of competent waitresses, among them being Mrs. Bernard Mossaboom, Mrs. Herbert Woodman, Mrs. Stewart Raymond, Mrs. A. J. Westhaver and Miss Mullen.

The Duncan Report

Comment upon the findings of the Duncan Commission into claims of the Maritime Provinces for improvement of their status in Confederation by newspapers all over Canada, is most favorable as an indication of the action which will be taken by Parliament when legislation to put its recommendations into effect is brought before the Members for consideration. The report seems to have covered every possible avenue for the improvement of the commercial and manufacturing life of the provinces and is in its nature and distinct endorsement of the action of those public men who have pressed the rights of the Maritime provinces in Parliament and through the Dominion.

Dealing with the Atlantic Fisheries the Commission found that in the year 1925 the capital invested in boats, traps, nets and gear in the Maritime Provinces represented 32 per cent of the total capital invested in the whole Dominion. The capital invested in factories and curing establishments was 30 per cent of the so invested in the Dominion and that 50 per cent of the total number of people employed in the fishing industry in Canada were employed in the Maritime Provinces.

Representing that the fisheries of the Maritime provinces were a primary industry, in equality with agriculture, the commission was presented with proposals for the development of the export trade scope by means of reduction or removal of duties on fish and fish products into the United States market and the development of the domestic trade by means of improved quick transportation facilities and the reduction of rail charges. The report recommends the views presented to the consideration of Parliament.

On the whole the report may be looked upon as substantial corroboration of the views expressed that the Maritime provinces are entitled to fuller consideration when the fiscal and trade policies of the Dominion are being considered and by reason of the importance of our basic industries should receive proper encouragement for their development. It is impossible to republish the full text of the report in the Courier but it is a text book that should be secured and studied by every person interested in the welfare of the Maritime Provinces.

Signs of Spring

Just to remind us that though winter is here, Spring is not far off, little Master Edward Baxter called on the Courier on Thursday afternoon of last week to present us with three caterpillars, found by him while out playing in the fine sunshine of Wednesday. They were the familiar red and black banded caterpillars and had made the mistake of thinking that one warm afternoon made a summer. An attempt was made to keep them to maturity but they got frost bitten on Saturday and died.

Distinguished Educators Tour Canada

The Earl and Countess of Elgin photographed on board the Anchor liner Cameronia, which brought them to New York recently. The Earl is Lord High Commissioner of the Church of Scotland, and Chairman of the Carnegie Trust Fund in Great Britain. This is their first visit to Canada under the auspices of the National Council of Education. Together they are making a tour of the Dominion's beauty spots, and will speak in the interests of education in the larger cities. The Earl is a grandson of Canada's most famous Governor-General, and his father was born in Montreal, afterwards Viceroy of India.

The Late Warden Saunders

His day and race lost a faithful servant of the public in the passing of the late Ingram Saunders, three times Warden of the Municipality of Digby. His ability, his integrity and his abiding patience with his fellow men were most clearly illustrated in the fact that he was on three occasions elected to the highest gift the people of the County had to bestow.

The Courier is obliged to County Councillor, James Hillman for a short appreciation of a great man.

"Wisdom conducted the just man through the right ways and showed him the kingdom of God, made him honorable in his labors and accomplished his works."

These striking words loom up before us and tell us of the years that have gone in the life of one whose passing the whole county mourns. It is easy to find the secret of his success in life. Being a just man, he was led by the spirit of wisdom along the straight path of reason, truth and justice. I, who knew him well, am able to speak of his unfailing courtesy, his kindness and his friendship. Possessing to a remarkable degree that great virtue of which made him honorable, it is only natural that the people of this county for whom he labored so long, will enshrine in their love the memory of his service. In these modern times a century gone by is as but a year. Wonderful changes and remarkable events follow in such rapid succession that even those who hold the center of the world's stage today are behind the scenes tomorrow, when the spotlight of a startling event flashes upon a new arrival. Those who rise to almost unattainable heights in the search for glory, using wealth, force and genius, find that without the love of their fellow men the name that is written in the golden book of the world's history, fades and disappears almost as soon as those who bore them pass away.

But not so with a faithful servant of the people. Our late Warden labored long and faithfully in the service of his people. A true Nova Scotian, he believed in his people and putting the interests of his county always first, he lived to see the day when the seeds he had sown begin to ripen into fullness. The people gave him their greatest gift. They trusted him with their confidence and he repaid them by devoting his time, his talents, his energies and the sacrifice of his health in the cause of the people. He hated force, he loved peace, and was always ready to lead along the path of conciliation.

I honor him because he stood four square for the people. I loved him because he possessed all the attributes of an honorable man and the memory of his wholehearted service will live long in the hearts of his sorrowing countrymen.

Died in Somerville

Mrs. James Farnsworth, a native of Digby, N. S., and for many years a well known and highly esteemed resident of Granville Ferry, N. S., passed away in Somerville, Mass. December 22 in her eighty-second year.

Mrs. Farnsworth was born on the Light House Road, Digby, her parents being William and Maria Condon. She was married to Judson Woodworth of Granville Ferry, who died about six years ago and afterward married James Farnsworth, also of Granville Ferry, who predeceased her about fourteen years ago. During her long residence in Granville Ferry the late Mrs. Farnsworth was universally known as "Aunt Elsie" and was beloved by everyone in that place.

Shortly after the death of her second husband Mrs. Farnsworth removed to Somerville, Mass. and made her home with her sister, Mrs. Ekanah Trask. She is survived by a son by her first husband, William Woodworth of Granville Ferry and by a son by her second husband, Judson Farnsworth, both now residing in Concord, N. H., also by two sisters, Mrs. Ellen Vanillacom of Granville Ferry and Mrs. Ekanah Trask of Somerville, Mass. and by two brothers, Thomas Condon of Granville Ferry and William Condon of Boston.

The services were held at the funeral home of John E. Kauter, Somerville, Sunday, December 25th and included selections by a lady singer who sang several of Mrs. Farnsworth's favorite hymns. There was a profusion of floral tributes.

Interment was in Granville Ferry, the remains being accompanied by her son, Mr. William Woodworth.

GILLLAND-DOTY

At a quiet wedding Saturday evening December 4th, at the home of Rev. Ralph A. Sherwood, of the First Baptist Church, North Salem, Miss. Harriet Doty, daughter of Mr. and Mrs. J. H. Doty of Ocean Terrace, and Cleveland Gilliland, son of Mr. and Mrs. C. H. Gilliland of North street, were united in marriage. The couple were attended by Mr. and Mrs. Maurice L. Hadden of Cambridge, the bridesmaid being a sister of the bride. The double ring service was used.

The bride, an attractive brunette, wore a gown of coral brocade, georgette with hat to match and carried a bouquet of coral sweet peas and bridal wreath. The groom wore a tuxedo and carried a bouquet of white and red roses.

Immediately after the ceremony, the wedding party motored to Boston where a dinner party was enjoyed.

After a brief honeymoon the couple will make their home in North Salem.

PRINCE BECOMES PRIEST

The most famous of the world's volcanoes, Mount Vesuvius in Italy, is again in eruption. This volcano towering over the plains of Campania to the height of over 4,000 feet has many times struck terror into the hearts of the inhabitants of the villages which lie scattered around its base. Its activities date back over 2,000 years, when during the eruption in 79 A. D., it completely wiped out the cities of Pompeii, Herculaneum, and Stabiae.

The heavy rains experienced recently in that part of Italy are said to be responsible for its eruption. Warnings were given of the outbreak when a column of smoke began issuing from the crater. This was followed by flames shooting forth until the crater was belching lava and stones to the accompaniment of terrifying roars. The explosions were felt for miles around, but they have not been so severe up to the present to cause much damage. The last severe eruption was in 1910, when much damage was done, and many villages completely buried under lava.

PRINCE BECOMES PRIEST

The son of Prince Leopold Maximilian, Prince George, of Bavaria, has been honoured by Pope Pius XI, with the appointment of canon of the Vatican. Born 46 years ago, at Munich, Germany the Prince followed in his father's steps and became a cavalry officer, and at an early age married Archduchess Isabella of Austria. However, however, was a very unhappy one and was annulled.

The Prince was often heard to say during the war that if he lived through it he would become a monk. His brother officers ridiculed the idea and were greatly surprised, as were his royal relatives, when five years later he was made a priest.

The Man Christ

The following description of Christ was written by Publius Lentulus, president of the Senate in the reign of Tiberius, in the year 60 A.D. at the time of the Caesar at Rome at the time of the Crucifixion. It was first mentioned in England in the writings of St. Anselm of Canterbury in the eleventh century.

There lives at this time in Judea a man of singular virtue, whose name is Jesus Christ, whom the barbarians esteem as a prophet but his followers love and adore him as the offspring of the immortal God. He calls back the dead from the graves and heals all sorts of diseases with word or touch. He is a tall man, well shaped and of an amiable and reverend aspect; his hair of a color that can hardly be matched, falling into graceful curls, waving about and very agreeably couching upon his shoulders, parted on the crown of his head, running as a stream to the front after the fashion of the Nazarenes; his forehead high, large, and imposing; his cheeks without spot or wrinkle, beautiful with a lovely red; his nose and mouth formed with exquisite symmetry; his beard and of a color suitable to his hair, reaching below his chin and parted in the middle like a fork; his eyes bright, blue, clear and serene, look innocent, dignified, manly and mature. In proportion of body most perfect and proportioning; his arms and hands delectable to behold. He rebukes with majesty, counsels with mildness, his whole address, whether in word or deed, being eloquent and grave. No manner is seen him laugh, yet his manners are exceedingly pleasant, but he has wept freely in the presence of men. He is temperate, modest, and wise. A man, for his extraordinary beauty and divine perfection, surpassing the children of men in every sense.

IS YOUR CHILD UNDER WEIGHT?

Mothers May Secure Important Facts Free

Growing children should be up to a certain standard of weight. Roughly speaking, they should weigh as many pounds as they are inches tall until they are about six years old. After that the weight of the child should increase in a certain proportion to its height.
A detailed table showing the proper weight for children will be sent free of charge to any mother who will write to Father John's Medicine, Leeming, Miles Building, Montreal, requesting this information. This offer is made in order that mothers may realize the value of Father John's Medicine as a tonic flesh-builder for their children.
Thousands of mothers use it regularly in their homes and find that their children gain weight steadily while taking this old-fashioned, family medicine. If your child is under weight, he is in serious danger. Do not take chances. Begin giving Father John's Medicine at once.
Remember it is safe for children because it does not contain alcohol or dangerous drugs. It has a history of more than 70 years of success.

MURDER TRIAL QUICKLY OVER

Little time is wasted on murder trials in England, even when the case provides all the ingredients for a long drawn out newspaper sensation. It took only three days at Maidstone to dispose of the charge against Alphonse F. A. Smith, the young Canadian. He was charged with the murder of his friend, John T. Derham. Smith is a grandson of both Sir Frank Smith and Mr. Hugh Ryan, Canadian financiers of a generation ago, and inherited the bulk of both their fortunes, most of which he squandered. Derham was shot on August 12 last in the Smith home, and in the presence of both Mr. and Mrs. Smith. Prosecution hinged its case upon the theory that Smith shot Derham, in a fit of jealous rage over the latter's attentions to Mrs. Smith. The defence was that Smith was removing a revolver from his pocket to a place of safety when Derham grappled with him, believing Smith was about to shoot, and the weapon was discharged during the scuffle. The jury apparently decided to accept this view of the killing, although the judge was rather caustic in his comment upon Mr. Smith's failure to take the stand and substantiate the story.
Although found not guilty of murder or manslaughter, Smith was sentenced to one year's imprisonment at with the intent to enhance life.

WOULD BAN THE HORSE

London will be choked by its own traffic in a year or so, stated Lord Montagu of Beaulieu, one of the great living authorities on road traffic problems, unless immediate steps are taken to cope with existing conditions. He advocates a new and large type of motor bus than that used at present, which will be fitted with six wheels. This, he contends, would reduce axle weights, and therefore lessen wear on streets. He also advocates a ban on horse traffic, and a minimum speed of 10 miles per hour in the main streets, with escalators for pedestrians to cross and underground parking places for motor cars. He thinks that overhead or underground roads will have to be built eventually.
In 1912 there were 381,252 motor vehicles in use in London; now there are 746,091. In 1925, 9,025 children under 16 years were killed or injured, according to a report issued by the London County Council, or roughly speaking at the rate of one every 20 minutes.

Concert and Christmas Tree

On Friday evening, December 17th, the Sunday School of the United Church held its regular concert and Christmas tree. An appropriate and well prepared programme was much enjoyed by a capacity audience. About the time the last piece was given Santa arrived and received an hilarious welcome. After making a short speech he distributed the presents from a very prettily decorated tree.

Xmas Services

The Christmas services in the United Church give every promise of being of a red letter character. Preparations are well advanced for the decorating of the church on an elaborate scale. The choir has well in hand two splendid programs of Christmas music, while appropriate sermons will be delivered by the pastor.

Presentation

Thursday evening the United Baptist Church Bible Society met at the home of Mrs. I. J. Dunn, to hold their usual social evening, a musical programme, a beautiful down puff was presented to Mrs. Barras, the pastor's wife. Presentation was made by Mrs. Carl Miller, president of the Bible Class. Delicious refreshments were then served by the hostess.

Just Right For Upset Stomach

For after-eating distress, gas, sourness and bloating, the quick and positive neutralizing action of Bisulphate of Magnesia has proved to be just right! Relief, certain and gratifying, almost instantly follows the very first dose—and a few cents' worth obtainable from any good druggist, lasts for a long time. This special Bisulphate form of Magnesia, for Stomach Troubles only, does not act as a laxative. Ask your druggist.

RED POTATOES NOT ACCEPTED
At a meeting of the Board of Management of the United Fruit Companies, Limited, held at the head office of the company, Kentville, recently, the important matter of Seed Potatoes was the cause of a very serious discussion. For a number of years the Company has been trying to educate the members along the line of growing certified seed potatoes or purely white stock, suitable for the Cuban market. The trade generally has at ways objected to any potato—either red or bluish that, when cut was streaked with red, but have been accepting these under protest. During present season a new development has arisen and red stock which in the very part of the season was taken at 50c, per barrel less than white is now debarred altogether and will not be accepted on the Cuban market. The United Fruit Companies at this meeting decided to immediately obtain prices for certified seed and pure white stock for distribution to their membership in order that the producers may have available a sufficient quantity for planting the coming season, as the Cuban market is essential to the Maritime potato industry. SULPHUR CLEARS A PIMPLY SKIN
Apply Sulphur as Told When Your Skin Breaks Out

Any breaking out of the skin on face, neck, arms or body is overcome quickly by applying Menthol-Sulphur. The pimples seem to dry right up and go away, declares a noted skin specialist.

Nothing has ever been found to take the place of sulphur as a pimple remover. It is harmless and inexpensive. Just ask any druggist for a small jar of Bowles Menthol-Sulphur and see it take cold cream.

Here and There

The fourth Eastern International
Dog Derby to be held from Quebec
city February 21, 22 and 23, prom-
ised to be the most keenly contested
ever held. It is expected that over
20 teams will be entered for the
race.

Christmas tree shipments from
Quebec to the United States ran to
450,000 over Canadian Pacific lines
last year, and present expectation is
that this number will be equalled at
least this year. Revenue to farmers
of the province from this source ran
to \$100,000 last year.

Four carloads of silver foxes,
valued at \$750,000, have left Prince
Edward Island in one shipment for
the Western States - Wyoming,
Utah, Colorado, Oregon and Wash-
ington. Viewed as a livestock ship-
ment, it is said to be a record one.
A number of prize winners were
among the pack.

Dog teams will be used this win-
ter by the International Boy-Land
organization to prosecute oil de-
velopment work in the Ribstone field
in North-eastern Alberta. This is
the area where the quest for oil
started following a favorable report
by Dr. G. S. Hume, head of the Do-
minion Geological Survey.

Christmas travel over the Cana-
dian Pacific routes to the Old Coun-
try has been heavier this year than
ever before experienced. Special
trains have been run from Winnipeg
directly to the ship's side at Saint
John, N.B. The westerners credit
this heavy movement to England
for Christmas to the excellent con-
ditions that prevail throughout the
west.

The hundred settler families from
the British Isles who arrived in the
Scottish Immigrant Aid Society to
form the Clan Donald Colony are
doing splendidly, according to a
field supervisor's report just sub-
mitted. When they landed at their
destination they found nice
houses, farms and excellent schools
so that no time was lost in pre-
liminaries.

Turkish tobacco, grown in Al-
berta, is better than that grown in
Turkey or Greece, according to a
Mr. Baker here, who grew 1,000
pounds as an experiment this season.
He plotted out three-quarters of an
acre to ten varieties of tobacco seed.
The crop was harvested ripe before
the coming of frost, and of the ten
varieties Turkish, White Barley and
Orinoco thrived best.

Nearly 1,050 overseas vessels en-
tered the Harbor of Montreal and
over 350 coastal vessels docked there
in the season just closed. This makes
a very favorable showing compared
with the 1,255 overseas and 215
coastal vessels of the previous sea-
son. During the period of open
navigation over 118,850,000 bushels
of grain were shipped from the port
and flour shipments totalled 2,090,
000 barrels.

Canada scored again at the Chi-
cago Exposition when the blue rib-
bon grand championing for the
Clydesdale stallion division went to
Forget Favorite, owned by Haggard
and Black of Belle Plaine, Saskatch-
ewan. Last year the University of
Saskatchewan took the coveted honor
with Green Meadow, Toronto. This
year, it is said, the veteran Cana-
dian stallion was an easy winner
over all others.

"There is better hunting today in
the Canadian Rockies than was the
case when white men first began
systematic exploration of the west.
Nearly fifty years ago," said Tom E.
Wilson, of Banff, one of the out-
standing pioneer mountain guides,
when interviewed at Canadian Pa-
cific headquarters recently. Mr.
Wilson was the first white man to
discover Lake Louise and Yoho Val-
ley. A plaque or statue has been
erected in the Yoho Valley in honor
of him, by the Trail Riders of the
Canadian Rockies.

Remains in Service

The Fisheries patrol vessel, Fl.
Captain Barker, which arrived in
Parrsboro to lay up for the winter
has been ordered to remain in com-
mission and will act as protective
vessel for the scallop fleet operating
off Digby Gut.

This is some help, but the Fl is not
of the type or size of vessel for the
service and cannot take the place
of the vessel which has been urged
should be on duty in the Bay.
There is some prospect that the
Arctus will be detailed for service
here during the months of January
and until Spring.

Death Calls Mrs. Fullerton After Long Illness

From Edmonton Journal

Mrs. Aubrey Fullerton passed
away at her home in Edmonton on
Wednesday after a long illness.
Since coming to Edmonton a
bride twenty years ago, Mrs. Full-
erton has won her way into the
hearts of all with whom she came
in contact. Her personal charm
was great and she was a sincere
friend and a wise counsellor to
those who sought her help. Her
ways were ways of pleasantness and
all her paths were peace.

While her health permitted, Mrs.
Fullerton took an active part in the
work of Westminster Church, now
Central United church and was
particularly interested in Woman's
Missionary society and in the Clean
ers' Mission Band, of which she was
president. The Young Woman's
Christian association also had a
staunch friend in Mrs. Fullerton,
who served on the board for some
years ago. She was also a talented
musician and keenly interested in
the musical development of Ed-
monton.

Many friends will share the
grief of her husband and her only
brother, Percy Holdsworth of Dig-
by, N. S.
