THE DIGBY

The hundrotth anniversary of the Digby Weekly Coorder has brought to mind some tond memories as cotained in the following historical chapter of the Alter Box first, I wish to congratulate the current into of the Courier, Mrs. J.M. (Edith) Wallis, for a physical done over the years and still being well done, to will done over the years and still being well done, to solve over the years and still being well done, to be control of any record. I have at hand, the high Courier, in one hundred years of publication for 42 years. 1931 to 1973, under the control of Wallis Print Limited, the late J.J. Do You Burn Coal? Do You Burn Wood?

Just about this time of year you will be wondering how you are going to keep warm during the winter, and still not take all the little old bank account. It is quite problem, too.

Coal is good. It has the disad as tage of being costly, makes a lot of with and dirt, and other fuel is ofter preferred.

What about wood? Well it is all right, but often it is reen one does not always get full peasure, and besides, isn't it hard to get? Well, when you think of wood

think of H. T. Warne. The mill uses hundreds, thousands of hard wood logs every year. #### Seventh Annual Meeting of Smith's Cove Public Library

The Seventh annual meeting of Smith's Cove Public Library and Reading Room was held on Tues-boy, Oct. 9th, Mrs. John Smith presided.

The secretary reported a marked ncrease in the circulation of books over a bundred books more were loaned, than previous year. The meeting consider this to be a sign of appreciation and of greater in terest in the library.

Through the generosity of many friends, the library has now theen increased to over eleven hundred volumes.

Several magazines are subscribed for annually and many hundreds of recent magazines, covering a multitude of topics of interest are placed on our tables by gen.rous riends.

The library's funds have been substantially increased by gifts of nany. The library is supported many. The library is supported by voluntary subscriptions and circulation is maintained by unremunrated belpers.

A vote of thanks was tendered Miss Cumming, who has been our very efficient treasurer. Miss Cun ming is reluctantly resigning from the treasurership, but continues a member of the Executive Comnittee.

Mrs. John Smith was reelected to the presidency, supported by Miss Frances Austin as Vice Presi-dent. Mr.Lionel Taylor was reap pointed-Secretary and Miss Louis Laggar has become our Treasurer

#### **Production** and Demand for New Ford Exceeds All **Previous** Records

The manufacturing schedules of the Ford Motor Company of Canada, Limited, have been steadily built up until a new daily record for Canadian sutomobile production has been worked reached

Despite this peak output, orders for the new Ford keep uniformly chead of the rising tide of manufacture. It is therefore necessary to continue a high rate of production. To this end a steady flow of material from more than 385 Canadian sources streams into the Ford plants. And here, with more than 10,000 men on the pay-rolls (almost double the previous employment record) these materials nverted into New Ford cars

Ford Quality of Manufacture Has Been Strictly Maintained

In the effort to build enough New Ford cars to meet requirements, no deviation from the high standard of Ford precision has been permitted. This standard, unbelievably strict, was set before the car was placed upon the market, and it has since en rigidly adhered to.

In the New Ford Car 40 different steel alloys are used. Each is chosen for the specific use for which it is best for the specific use for which it is hest adapted. In the transmission gears alone there are seven different kinds of alloys. Likewise, the forged steel of alloys. Lakewise, the forged steel spring perches, bardly bigger round than a man's thumb, will withstand a strain of 15,000 pounds. This is 30 times greater than the strain put on them in ordinary use.

#### The Bear River War Memorial LAW MAKERS OF EMPIRE HONOR

The Committee on the Beau liver War Memorial met on Oct 12th,, and received reports from its various sub-committees on ty of Memorials and sites for same. Several promising types of memorials have been suggested, either of the building or monumen. either of the building or monumen-tal class, but the discussion always reverted to the problem of a suit-able site. Of the several sites sur-gested, the G W. V. A. Property uppears to be impractical, and the others do not seem to have exhaust ed the possibilities. Another sub-committee consisting of Mr. L. V. Harris, Mr. W. W, Clarke, and Mrs. A. B. Marshall, was appoint? ed to make a thorough investiga-tion of all promising sites, and they

Next Year's Tourist Season

Careful study of the addresse delivered by President Beatty of the Canadiau Pacific Railway during his visit to Nova Scotia will reveal that tourist tlaffic and tourist development is the most important avenue of progress open to the province of Nova Scotia in the opinion of the head of Canada's great transportation. New steam. ers now in operation on the Eastern Steamships system, routes train service, train ferry from Saint John to Digby, the Lord Nelson and the New Pines, a projected new hotel for Kentville, all illustrate the importance which the Can dian Pacific Railway places upon the tourist business of Nova Scotia. Yarmouth Will Have Ball Team as Tourist Entertainment Attraction

Mr. Harry MacKinlay, of Yarmouth, was a visitor in Digby Friday, having returned by way of Saint John from a meeting of the Maritime Provinces Athletic As. ociation in Amherst on Thursday

Mr. MacKinlay's errand to the meeting was to secure reinstate-ment of players who had been sus. pended from amateur sports for some years because of minor infractions of the amateur rules He was successful, so far, and the prospects are that Yarmouth will have a first class ball team in line next Spring and make a bid for the amateur championship of the Pro ince and Maritimes.

Mr. MacKinlay looks upon a ball team as a good means of pro-viding entertainment for summer visitors. In his opiniou Yarmouth will get a full share of visitors next season, in spite of the almost certain shortage of hotel accommoda-tion, and the ball team is to be a start on providing all who stay over in Varmouth something to occupy their time and give them pleasure.

It is a move in the right direc-ion. Far too little is being done to entertain our summer visitors while

they are here, and a ball team even if it is not "National League" opportunity open to Nova Scotia It is worth exploiting and develop stuff, can be made good enough to ing to the uttermost extent of the combined resources of the people. How best to go about it is the problem. Shall each town work hold people, give them pleasure and the excitement needed to help digest their soup and fish. #### Last Services of Evangelistic Series at Grace United Church

Closing meetings of the Evan elistis held for the past two weeks 1 Grace United church, will be this evening and on Sunday, merning and evening. The evangelists, Rev. Dr. Crosslev and his singer Mr Leonard, have been conducting most interesting meetings for the past two weeks, and have been encouraged by the interest and ttendance of church members and nany others. Al of the meetings have been most helpful. Those have attended any of the wbo

meetings will surely make a point of attending all three which are yet to be held and those who have not yet done so have miss ed spirital treat such as is not often available

Dr Crossley's interpretation of the Bible, particularly during his reading of the lestons, is an outstanding feature of the services, and the frature, by Mr. Leonard and the choir, is always appropriate to the subject matter of the dresses. Mr: Leonard and dresses. and the not less than four or five important choir have worked faithfully to centers in the New England and Atlantic States, and one in Chicago make the singing interesting a have succeeded in large measure.

A special committee of the Town Council of Annapolis Royal-has been appointed to act with the Community Club in pressing on C.P.R. officials the advantage of baving the Nove

of the Car Ferry at Annapolis in place of Digby. Many advantages are claimed for the Royal Town. Much may be said in favor of the views expressed by the advo-cates of making Annapolis Royal the terminal, but on the other hand much can be said in favor of Digby

being the terminus. Navigation of the river up to Annapolis, is a draw back, the lack of deep wate: at any stage of the tide, might al: o be a draw back, while at Digby

location of the terminal is only matter of securing an approach for the rails.

There are two or three sites available, of which the Cannon Bank is

now the property of the railway company, and Digby is the logical place for the terminal to be. Its nearness to Saint J hn, its avail ability at all stages of the tide, are paramount reasons why Digby paramount should be the Nova Scotia termina Ice conditions in winter would

act against successful operation of a service up the river, also, and for this reason above all others, it is haidly Ekely that Annapolis will be chosen

But wherever the terminal may be, it will be a great thing for Nova Scotia and for Saint John. Saint John as yet, has not seen the ad-vantage of it, and may be inclined to feel that the car ferry will take from them some of the sailings which they now have of C.P.R. vessels from the Winter Port, We

think this will not be the case, but that the through service which will be available over C.P.R. routings direct to Saint John for tranship-

ment by car ferry to Digby and Halifax will increase the movement general freight through Sain John in preference to the St. Rosa lie gateway, which is now largely

irsed It will be folly for the town which will most hencfit by the inauguration of the car ferry service to start a squabble over where the terminals shall be, and the Courier, in its discussion of the matter has at all times endeavored to view the subject from a provincial, rather than from a local view point.

Digby - Annapolis, whichever port can best be developed for the service, and the result will be a tremendous incentive to agricultur and orcharding in all the western sections of the province.

A Digby-Annapolis Board of Trade Dear Editor ;-

On a recent visit to the Eastern part of the Annapolis Valley I noted the willing n ss with which move ments and the hearty cooperation of the towns of Kings-Hants for the advance of projects of common concern I have also been observing the

absence of cooperation am towns of 'Digby-Annapolis lack of that leadership and cooperation on the part of the professiona and business men, which the farm. ers so much need to assist them in solving the difficulties which con front th

The formation of a board trade for Digby-Annapolis would I believe, provide a convenient organization for use in dealing with the present situation.

The objects of this district of trade would be to stimulate the of trade would be to stimulate the activity of local boards; promote united action in matters of common interest of the constituency, co-operate with other progressive organizations and support every-thing that promises to provide additional employment and help ur people to carn a living at home With a meeting every three months in one of the Digby-Anna polis towns a two year schedule could be drawn up with one or two questions featuring each meeting have several matters in mind which might go on the program a such meetings.

The Annapolis Royal meeting might feature the wealth of historic incidents associated with the Anna polis river and basin and the Anna polis Royal Historical Society which has been doing such fine work in this connection might be nvited to cooperate. The Digby meeting might feature

the tourist business and the pos sibility sibility of having issued eithe alone, or with Kings-Hants a book let comparable with the splendid one gotten out this year for the outli shore counties:

How to make sure of our fish and game might be another theme and the cooperation of the Gam Society and Guides Association might be sought.

One meeting might be given to lucation and cooperation of the Education and cooperation of the organized teachers asked. A schedule of competitions in debate, oratory, baseball and bockey be-tween the high schools might be arranged. As Nova Scotia has to provide the statment and Univer-sity presidents for Canada and the United Streage it might be are all United States it might be as well to begin as early as possible.

Fox raising and cooperation of the organized fox men as poultry raising and the Poultry Association might be features of other meetings. Still another subject might be

possibilities of the blueberry industry. We are told that this has become an important source of revenue in parts of New England. Yarmouth and Shelburne counties have been reaping a harvest from blueherry crops and a considerable quantity of these berries was shipped from Digby and Annapolis coun ties last year. All along the south-ern part of the lust named two counties are blueberry barrens whose yield might probably be multiplied by proper burning and I understand the Department of Natural Resources is ready to assist in this work,

These are a few thoughts that come to me in connection with the suggestion of a Digby-Annapolis Board of Trade. New problems will doubtless arise from the C. P. congregations at Central Grove and Tiverton, and in this work par-ticularly won for himself a number, will doubtless arise from the C. P. of faithful friends, who in the Ry 's latest plans for the "Valley" regret at his departure will have a land other progressive movements. feeling of prid-in his being called to a larger church, as a recognition of his talents and fidelity to his alling.

I would like opinions from professional and business men as

When talk turns to motors-in theatre lobbies, in smoking cars, hotels, clubs-you hear the New Ford compared with all makes. Stories are told of the swiftness and ease with which the New Ford covers difficult highways; of distance-consuming travel hour after hour; of the breathless rush in high gear up the steepest of hills.

Only by driving the New Ford, say owners, can you appreciate the effortless joy of perfect car control. Gears shift with silent precision. The steering wheel responds to the lightest touch. Transverse springs and shock absorbers (smooth, rough roads. A gallon of gasoline takes you 25 to 30 miles. Oil consumption is unusually low. And, when the occasion arises, the fully enclosed six-brake system grips the flying wheels with silent power.

> Low lines, colour harmony, sparkling nickel, sturdy steel spoked wheels and full balloon tires give the New Ford grace and beauty. Owners of the most expensive cars marvel at its thrilling perform ance. Many, in fact,

Significance of Christmas

An interesting paper of Christma Customs and their origin and mean ing, delivered before the Bear Rive Women's Institute by Mrs. L. J Lovett.

Christmas is to us the festival o festivals, a day of spiritual sucsb o the Christian world,

s one writer expressed it, "It is the supreme birtiday, of the world." Great men bave lived and died, their birthdays are forgotten but the birthday of Abristin Beth. em, has never crased to live and, far across the centuries ou thoughts go back.

O little town of Bethlehem w still we see thee lie; 4-ove thy deep and dreemless sleep The silent stars go by:

as to Pagan nations further north, it was not the birth of Christ they celebrated, theirs was merely a frantasic expression cf. joy, and, thankfulness that the Winter-sea, son, with it's cold and hardship would soon be over, and Spring. with it's lovely renewal of natural eauty and vegetation, would replace it.

We can today trace our Christmas festivities, many customs that have grown out of, or have been adapted. from those Pagan revels of the past

The burging of the "Yale log." The burging of the "Yale log." to us an Baglish custom symboliz-ing Christmas cheer and hospitality traces its origin back to the days when the Scandinavians burn reat fires of worship of their gods.

Our Christmas tree, with all its glittering splendor, had its intep-tion in the days the Roman aution, was the ruling power of the world. And, farther back, our holly an 1 our mistletoe were sacred decora-tions of old Druidic shrines. Even our Christmas songs and carols, had their prototypes in odes to Pagan gods.

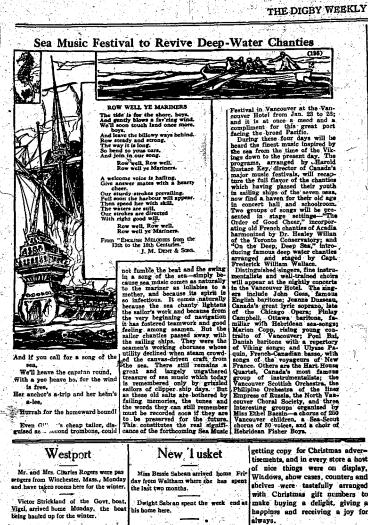

It is to the Roman Catholic Church, in the third century, we owe the transformation from what was merely a gay and festive cele-bration to the present spiritual meaning, which we, as Christian people, attach to it.

Thomas Peacock, 25, Suffered Town Council Meeting After Fractured Skull - At Base of High Post

Montreal. Dec. 16-A man be-lieved to be Thomas Peacock, 25, of Halifax, N S., was found dead with fractured skull here Saturday The body was found at the base of a bigh tension power post. Police expressed the opinion that the man had climbed the standard and re-ceived a shock which caused him to fall from a height of 60 feet: the regular meeting night, being the last. Monday being i month.

Papers found in his pocket de scribed. the man as Thomas Pea-cock. of Halifax, N.S. and indi-cated that he had left Saint John N. B., December 14, last, fo Montreal.

Weather conditions were kind to the ladies of Grace United Church on Tuesday, when the storm of Monday night and the following morning cleared off to permit the annual Christmas Tree and Sale to be held with success during the afternoon. Thrmes Peecock, ege 23, a young Englishman employed as a bricklayer at the New Pines, work-ed in Digby all summer. He rais paid off on Friday, December 7th, remained in Digby for a week. He board.d with Mrs. Edward Campbell at the Racquette. He left here on Friday afternoon. December 14th, for Saint John en-route to Kingston, Ontario.

Digby friends connect the death of Thomas Peacock in Montrea with Thomas Peacock they knew here. It is said that when leaving here he had nearly one thousand dollars in his possession,

He was quiet, industrious and made several warm friends during his stay, in Digby. These friends discount the theory of accidents death and fear their friend was a victim of foul play.

Digby shops have been open using the week and will contin evenin to b Chris open during evening hours until

Another Year of Hydro

Anorner Lear of Hydro At the close of the year 1928 the Digby County Power Board hydro system, covering Weymouth to Victoria Bridge, the district of Clare, and the new extension down Digby Neck, stands ready for another year of service. The report of Superintendent Campbill, to be issued shortly, is not yet completed, but sufficient information is available to warrant the statement that the service has developed beyond expectations. It was hoped to have a story on nydro ready for the New Year number of the Courier. This will have to come later, ben accurate figures of consumption are available.
