YES, you get this amazing result with the new AQUA-CLEAR system which keeps rust out of your water, and stops all further rusting and corrosion in your boller, taple and pipes.

and pipes. You get clear, RUST-FREE water from every faucet in the house within a short time after you put in AQUA-QLEAR, and you save hundreds of dollars in expensive boiler and pipe

reparements. AQUACLEAR works by forming a pure, transparent micro-scopically thin film on the inside of your plumbing and heating system. This film is watertight. It covers present rusted surfaces completely—so rust earlt get into water and water earlt make new rust.

TO CANADIAN RAILROADERS AND THE CANADIAN PUBLIC

sonant that you understand clearly why the managements of Canada's railways believe a railway strike is absolutely unnecessary.

Our reason for this conviction is that we have mode the employees involved in the present dispute a fair offer of wage increases and improvements in working conditions which, if applied to all employees, will cost us \$37.000.000 c year.

We have further acknowledged a moral obligation to implement the 40-hour week at the operapriate time, and we have explained why initainess to Canadian industry and all other employers of lobour, we connot put it into effect now.

To do otherwise would be to perform a disservice to industry in general and to all employers and employees ofike.

The railways: after making two previous offers which the union leaders rejected have now made

increase them.

a third and final offer which gives the employees the choice of either ...

an increase in wages averaging 812 cents per hour, or

a reduction in the basic work week from 48 to 44 hours, with an increase in wage rates of 9.1% so as to maintain or in some coses improve present "take home" pay.

The labour leaders have made no concessions et all and have refused to budge from their original demands' for a 5-day 40-hour week with maintenance of present "take home" pay, and in addition increases of 7 cents and 10 cents on hour.

The railways are thoroughly conscious of, and sympathetic to, the problems of their employees resulting from higher costs of living.

Drastic, unwarranted reductions in hours of work sinstead of decreasing these problems will inevitably

WITH THESE CONSIDERATIONS IN MIND, THE RAILWAYS HAVE MADE THIS OFFER AS THE ULTIMATE THAT COULD POSSBELY BE EXPECTED OF THEM, AND IT GIVES A SETTLEMENT WHICH WILL LEAVE RAILWAY WORKERS IN AN EXTREMELY FAVOURABLE POSITION COMPARED TO OTHER INDUSTRIAL WORKERS.
