CHEMISTRY-CUSTOM BUILT

Human beings are creatures of seemingly endless needs. And wherever these needs exist chemistry is at work to heed them. First in the labotatory, then in the factory, and finally on the farm on the highway or in homes, chemistry finds new ways to Project health, speed industry, or bring new beauty. It is in supplying these needs, at the lowest possible cost, to more and more Canadians, that the men and women of Canadian Industries Eimited take pride in the Company's slogan "Serving Canadians Through Chemistry".

Too often in the past has Digby been on the verge of participate g in some development which would have been most beneficial the economy/6f the drea, only to find out foo late-that, due to well directed foots of representatives of some other district, development has gone there.

We do not for a moment suggest that a terrific hue and cry should be raised about this thing. Such misdirected efforts of uniformed people often do much more harm than good. We dod-say, though, that immediate steps should be taken, at the proper levels to ensure that no stone is left uniturated or no influence left unexeded that would result in the establishment of this base. A great 'deal depends on it!

Sometime from now until Saturday, August 11, the Digby Branch Red Cross will be making a canvass. This will not be a usual canvass. For lancatal assistance but, instead, a canvass far more personal and far more vital for the saving of preclous lives than fromey. Red Cross members will be canvassing for donors of blooff for the third Blood Donor Clinic to be held in Digby at the Court House.

House.

We are wondering — what will be the response? Will Digby compare tavorably with other parts of the province in her donations; will she rally to bear her share of responsibility in keeping the Blood Banks in Nova Scotia in full supply and ready at any hour, day or night, to supply all the blood or plasms that might be required in case of serious illness or sudden accident? Or what in the event of war? Donatid Oland; Blood Donor chaltram for Halldax, says, "United States Goctors state that should one atomic bomb be dropped, two tons of blood would be needed immediately, and 250,000 transfusions required thereafter for four weeks. **

and 250,000 transfusions required thereafter for four weeks. Digby and surrounding area should actually make an effort to replace some of the blood donated by other parts of the province and used right here in Digby in the restoring of health and saving of lives. For approximately one thousand free transfusions have been given from the Blood Bank at the Digby General Hospital more the manuscration of the Red Cross Blood Transfusion Service, clinics held in Digby. Unless every district bears its full responsibility in keeping the blood well in sipply, how can the free service continue?

continue?

Anyone, whether rich or poor, between the ages of 18 and 65, and in normal health may give a blood donation and with absolute by no disconfort to the donor. The family doctor or former donor will reassure citizens that there is no reason to fear disconnort or harm to the donors health. There is only the need to talk on the Blood Donor subject with someone whose health has been re-stored by translusions or to somethen who has had the lift of a dear stored by translusions or to somethen who has had the lift of a dear ready Blood Bank.

JOGGIN BRIDGE South Range East | Annual Garden Party Letter To The Editor.

Who said You can't Afford a Fine Car?

Many's the man who has paid far more for a fine car then the price of this beauty-and got less than this gay and gallant traveller offers.

Sweeping proudly past you, it has a distinction that few cars can equal.

Stepping nimbly away from a stop light, it has the willing surge of power that the very exclusive combination of a Fireball engine and Dynaslow Drive? delivers.

It rides the road with majestic smooth-

ness, and comes to a smooth and gentle halt, in response to the finest brakes that Buick engineers ever developed.

Inside, it has spacious room, from side to side and front to back and seat to roof-plus a softness of cushions and a richness of fabrics which the custom standards to which bespeak it is built. All you want in a fine car is here in abundance.

But don't let that fool you into deciding "it's too rich for me." If you've looked into 1951 car prices generally, you'll discover this:

You can own a Buick for little more than an ordinary car will cost-and for several hundred dollars less than the price tags usually found in "the finecar field."

Why not look into this today?

THE DIGBY COURIER

A THE PRINTING AND THE There are no high prices at Margolian's. That is why it pays to shop here.

Friday and Saturday are opportunity days at Margolian's. Specials for the week end. There are many reasons why so many shop at Margolian's: Wide assortment; timely specials. Goods satisfactory or money refunded.

START THEM RIGHT FOR SCHOOL. Outfit your children from head to foot at Margolian's at prices lower than anywhere else. Reason: We buy big quantities; our buying power is large. We buy for less and sell for less. So be with us and save money.

What's new?

As HE PULLS UP at the end of his day's run, it's just his friendly way of saying "hello". But if there is some important development in town, he expects his friend the bank manager will know about it: ... plans for enlarging the school . . . the chance of a new factory opening up . . .

It's part of the bank man's job to know his community. His customers expect him to know "what's new" in other parts of Canada and elsewhere, too . . . business facts, leads to new markets at home and abroad for farm as well as factory.

You will find your bank manager well posted, and ready to serve you. Chartered banks work that way.
