1877-1977

However, nails and finger nails were short and I was sent back to work.

Now and then a printing job had a dose of parchment paper which required a special kind of printers' ink which smelled very bad some days. I always dreaded it when "that" would be that job on the largest press, in spite of the fact that we always opened an outside door to lessen the odors on the composition.

One of the jobs I had to do, besides putting and printers devil on the staff, was to... I cleaned one and then... (one day not long after I started to get to the printing plant, I decided to clean the floor that apparently hadn't been cleaned for some considerable time.)

"J.J." came along and said, "how are you making out Vince?" I assured him that I thought I was beginning to see the floor. "J.J." laughed very heartily. He thought the remark pretty good and sensible.

Sometimes the gasoline engine stopped a piece of machinery would refuse to work, and the "Man" if fix-it man had patiently worked for a certain length of time to get it going again, without results, Man would then stand back and come over dramatically then he would immediately start working. "See," he would say, "all it needed was a bit of coaxing."

On other occasions when some papers refused duty for me and seemed to be brokenhearted, I would say, "use a little oil" and note remark after that all it took. They often since have I heard of the value of that remark and the actual need of oil in many life situations, applied at the right time, right place and in the right way.

Other things that sort of stick in the memory and come to mind now and then are. Like the time I told "Mac" of four teenage boys who in the spring season of 1948 got together, just before dark and wearing and decided to intimidate the newly built outdoor Penn Hotel swimming pool which had just been filled with water. Clothes were taken off near the road just out of the pool, nobody else seemed to be around and the four

Clothes were taken off near the road gas pool; nobody else seemed to be around except the four boys, in thought or time for bathing suits, so the pool they went. They stood on the edge of the pool and looked at the chilly water, one soon jumped in. The rest quickly followed and across the pool the swim. "Mac" listened to the story and hardly said anything, but the next "Digby Courier" had a good story on the episode. The heading of the story went something like, "Four Boy Swims Officially Open Pines Hotel Swimming Pool." Who were the four? Many years later they are known as: the late Dr. Earl H. Anderson, veteran of two wars (second world war), Kenneth, was awarded the Victoria Cross, Sidney L. Kutzman, veteran of two wars (second world war), and Smith, now prominent druggist for many years in Digby; Clayton D. Snow, Digby wholesale lobster dealer, and myself.

As a young teenager I used to like doing some writing about different events interesting to myself and mostly for myself. One day "Mac" said to me how about writing your version of the story told about "The Marooning of Jerome". I said OK and read at least two somewhat different versions of the man who was found marooned on a beach at some point on the French Shore of St. Mary's Bay, Duffy County. When I read this man's torso had been cut out and his legs quite freshly amputated, were surgically well dressed and bound. He was presumably left by some vessel before dawn one morning, all for some mysterious reason.

"Jerome" appeared to have been a man of some considerable social standing and, possibly, of some considerable wealth. However, the way in which he could or would or even sat after being asked and asked for by some family in the French state was, something that sounded like Old-timey before about either, you'd not, or, would that, well, the Well, who he was or why he was left there was, the was, and in, one of Dugby County, the the and, different ideas have been seen, the the fruits concerning this man. However, the the "Mia" was, I felt no urge to know, the the different about this man. The the the have been very well explored, the the people, and he was a sort of, the the people who wanted where he stood, the the

Fire Destroys School

A fire of unknown origin destroyed the school building at East Ferry on the extreme end of Digby Neck on Sunday. The fire was noticed at about one o'clock in the afternoon by Mrs. Carleton Harris of the village. Immediately a crew of men arrived to fight the fire but found the smoke very intense particularly overhead where the fire seemed to have originated.

It being no school day there was no fire in the school stove on that day.

Fortunately, practically all the school furniture, books and records were saved.

Harley Theriault, secretary for the school, said on Monday that no arrangements had been made so far for accommodating the pupils. Repairs and alterations had recently been made to the building and further repairs had been contemplated.

Wentzell Given Charge

Lowell M. Wentzell, Digby, on Monday was charged under the new section of the Criminal Code as a result of the fatal accident which took the life of Miss Helen VanTassel. Ross was in Yarmouth early Sunday morning, March 27.

The charge which was laid before Provincial Magistrate C. R. Rand by Chief of Police E. S. Nickerson, under instruction of Crown Prosecutor A. Boyd MacGillivray, was that by criminal negligence the accused did unlawfully cause the death of Miss VanTassel contrary to Section 192 of the Revised Criminal Code. Under this new section everyone who by criminal neglect causes death to another person is guilty of an indictable offense.

Magistrate Rand set April 19 as the date for the hearing of the charge.

Miss VanTassel was a passenger in the car driven by Wentzell and died following a collision with a car driven by Julius d'Entremont at the corner of William and Albert streets.

The regular meeting for Easter Monday was cancelled.

DIGBY LEGION TO OPEN HOSTEL

The Digby Branch Canadian Legion have announced their intention to open a hostel at their rooms to provide a recreation centre for service men visiting the town. A committee consisting of Mr. and Mrs. Ralph Wright, Mrs. Seymour Denton and William Mason was appointed at the last meeting of the Legion to inquire into the possibilities of establishing the centre. The committee has received the cooperation of the town. It has been learned, and Captain Michael Grote Sterling, of H.M.C.S. Cornwallis, has given assurance that protection by the shore patrol will be given.

The committee met with Captain Sterling and Commander Madgwick at Cornwallis on Tuesday afternoon when he expressed himself in full approval of the step taken by the Legion. He complimented the Legion on the interest shown in providing a place where the boys can spend leisure hours in writing letters, playing games and listening to radio and such.

The Legion is expecting to get donations of chairs, tables, magazines, etc., from many of the townspeople and ask that anyone who has contributions of this sort to contact the committee.

Mrs. Vian Andrews, president of the Digby Area Home and School, presided at an executive meeting held at the Digby Regional High School on Saturday afternoon when a nominating committee consisting of Baden Powell, Mrs. Smith Harding, Mrs. Guy Thomas and Mrs. Russell Atkinson was appointed. The nominating committee will bring in a slate of officers to be voted on at a meeting of the Home and School to be held April 27th.

It was decided on Saturday to invite A. A. Giffin, M.D., Kentville, president of the Provincial Home and School organization to be present. A committee consisting of Rev. E. C. Churchill, Baden Powell, Wallace Hodgson and F. C. Purdy was named to draw up a plan to present to Dr. Giffin. The brief is to present the problems encountered by the Digby Area Home and School, arrange a plan for a different set up and get the views of the provincial president as to whether with the new set up the Digby area organization can still remain within the framework of the Provincial organization.

To Hold Blood Donor Clinic

J. J. Brittain, convenor of the Blood Donor committee in Digby, has released the information that a clinic will be held at the Court House on Thursday, April 21.

Mr. Brittain said he appreciated the efforts of the people in the County, particularly those who came from the Islands through much inconvenience and the great many donors from Bear River. He, however, stresses the urgent need for more donors from the County as more blood is used here than is supplied from this district. The need for blood transfusions may befall any of us any time and the need might extend to transfusions far beyond the ability of relatives or friends to give. Especially is this true for those persons having the rarer blood groups. An urgent appeal is sent out by Mr. Brittain for Digby County to do its share in helping to keep the blood bank supplied. No one knows when he or she will be the one on the receiving line because of an accident, operation or other emergency.

Speaks On Soils

Dr. Arthur Kelsall, Annapolis Royal, former superintendent of the Nova Scotia Experimental Farm, Kentville, addressed the Digby Horticultural Society at their regular meeting held at the Town Hall on Friday evening.

Nova Scotia soils, Dr. Kelsall said, are not fertile soils compared with those of Europe, Middle States, etc., and no crop he said is better than the soil on which it is grown. Dr. Kelsall noted the various types of soils in Nova Scotia and particularly through the Valley from Digby to Windsor and showed the derivation of each particular kind.

Soils in Nova Scotia, Dr. Kelsall said, are poor soils and are not particularly high in soil fertility ingredients. Nova Scotia soils, he said, are deficient in phosphorus, a characteristic of all pod soils. Colorful fall leaves indicate a magnesium deficiency, Mr. Kelsall stated. Dr. Kelsall continued his talk by explaining the various kinds of fertilizers most applicable to various types of soils to counteract soil deficiencies.

By question and answer method Dr. Kelsall also advised the members of the Horticultural Society on the value of sawdust coverings, the varieties of peach trees, grafting, yield of high blueberry bushes and methods of destroying slugs.

A vote of thanks was extended to Dr. Kelsall by Mrs. Louise Steven and seconded by Mrs. Alfred Marshall.

John Russell, president of the Society, presided and before the address gave a review of the beautification of Admiral Digby's Well at the Cannon Banks for the benefit of members absent from the previous meeting.

MENTAL HEALTH OFFICERS ELECTED

Approval in principle was given by a meeting of the Digby County Mental Health Association to the election of V. G. Cardoza, Digby, and Hugh Dickie, also of Digby, as president and secretary-treasurer, respectively, for the Digby County Association. By a constitution presented by the nominating committee and approved at the meeting on Thursday evening, March 30, the Association is to include two units, the Municipality of the District of Clare and the Municipality of the District of Digby. Since the Clare unit was not completely organized at the time of the meeting, the president and secretary-treasurer of the whole association were approved in principle only.

Officers for the Municipality of the District of Digby were elected as follows: Chairman, Lawrence Hersey, Weymouth; Secretary-Treasurer, Beth Bailey, Smith's Cove; Publicity and Education chairman, with power to add, Mrs. Ralph Wright, Digby; Clinic-Community Relations committee chairman with power to add, Rev. D. F. L. Trivett, Weymouth; Representative for Digby Neck and Islands, Blanchard Morrell.

Rev. H. Y. MacLean was chairman of the meeting and Mrs. J. M. Wallis was appointed to act as secretary. Professor W. H. D. Vernon, chairman of the nominating committee, presented the slate of officers and by diagram and otherwise explained the set-up and constitution as drafted up by himself in collaboration with other members of his committee.

The aims of the Association which arose from a meeting of several interested citizens of the county and actually formed by a public meeting called on

March 18th were approved as follows on Thursday night:

(a) To advance among the residents and citizens of Digby County knowledge of the nature and causes of mental and emotional illness and of the nature of prevention and treatment of such illnesses. Further to advance the knowledge of those factors which go to produce good mental and emotional health.

(b) To encourage, sponsor and give support to facilities and institutions designed for the prevention and treatment of mental illness and of the promotion of mental health within the County.

(c) To carry forward such other plans as may from time to time be in accord with the above aims.

Any resident of Digby County interested in the aims of the Digby County Mental Health Association on paying the membership fee (\$1.00 per annum) becomes a full member for the association year with all the rights of membership. Provision was also accepted on Thursday night for associate membership.

At the conclusion of the general meeting the chairman of the Municipality of Digby unit thanked the gathering for the honor bestowed upon him and said he would endeavour to do all possible to promote the good of the organization and mental health. Twenty-eight membership dues were paid at the close of the meeting according to information received from Mrs. Bailey, the secretary-treasurer of the Digby unit.

Professor Vernon expressed thanks to the members of the nominating committee and those at the meeting for their cooperation.

Digby Dairy Puts Dobbin Out To Pasture

So far as Digby Dairy Ltd. is concerned, "Old Dobbin" who has rendered faithful service to them over many years in their delivery department, is now going to be rewarded by being pensioned off, and will spend the remainder of his days in lush pastures. The term "Dobbin" is used in the singular, but in actual fact, several faithful horses will be pensioned off by the Dairy in a move to speed up and modernize their delivery system.

The new move is being made possible by the putting into service by the Digby Dairy Ltd. of a new "Divco" Milk Delivery Truck for milk deliveries in the town of Digby and the outskirts of the town.

This new Divco delivery truck will speed up deliveries by the Digby Dairy and will help the company to improve the already excellent service they are rendering their customers in the Digby area.

The move by the Digby Dairy Ltd. to modernize their delivery service is but another step in the efforts being made by the dairy to constantly improve the service rendered to their customers.

One very important step taken by the Digby Dairy Ltd. in this direction was made in 1952 when they instituted the use of the modern 48MM square milk bottle in this area. In this move, too, the Digby Dairy Ltd. were also pioneers in the Maritimes, introducing this convenient milk container to their customers in this area before any other company in the Maritimes had given their customers the advantage of the new, easily handled and stored bottles.

Since the Digby Dairy Ltd. led the way in the use of the square bottle, other companies associated with the Digby Dairy Ltd. have followed suit. These include the Queens County Dairy Ltd., who introduced the bottles about a year later; the Acadia Dairy Ltd., who made the move in 1954, and the latest dairy to adopt them, Yarmouth Ice Cream and Dairy Ltd., in 1955.

The management of the Digby Dairy Ltd. consider their adoption of the square milk bottle and their change-over to the new Divco delivery truck will greatly improve their service to their customers. They intend, according to a spokesman, to continue to keep abreast of all modern developments in the dairy industry and will bring to their customers, as soon as possible, any and all improvements and modernizations as these are proven to be feasible and of real service in advancing the service given to their customers.

Rev. R. F. Humby Addresses W.M.S.

Rev. R. F. Humby, pastor of Bear River United Church, gave a timely and inspiring address before the members of Grace United Church W.M.S. on Tuesday. A special Easter program was arranged and associate members from town and from Bay View were in attendance.

Mr. Humby took as his subject the Christian Mission of the church and some of the problems confronting it today. The influence of the church is only part of the culture and ideas poured on the Eastern world, he said, and one phase so much overlooked by the church is to make use of our people who have entered the Eastern countries and have no missionary or ecclesiastical status. There are areas open to such people which are closed to missionaries, Mr. Humby said, and the church should attend to the matter of having these people witness for Christ in their respective places.

Food and overpopulation, Mr. Humby said, are of great concern to communists and scientists. People must be fed and if they are fed by communistic forces then allegiance will be given to these forces by the people.

It is necessary to have well trained men and women to go out as missionaries, Mr. Humby said, missionaries who know about the political and social situations as well as who have the story of Christ to tell. We must strengthen our own lives so that we can go out to the nations of the world without being spiritually bankrupt.

Since the turn of the century great changes have taken place and our mission is to weave Christianity into the fabric of a changing world, Mr. Humby stated. The Woman's Missionary Society is no small agency toward accomplishing this.

Mr. Humby was thanked by the president, Mrs. James Brooks.

The Easter worship service was conducted by Mrs. Brooks and Mrs. Elton Arnold before a worship centre bearing the Bible, a cross with the inscription "He Is Risen" and a small blossoming plant as a token of spring. To begin the worship the pianist, Mrs. Vincent Snow, played quiet music from Bach's Chorale. A reading "He Is Risen" was given by Mrs. Burton Fleet and Mrs. J. M. Wallis sang "Why Weepst Thou?"

A social hour was spent at the close of the meeting when Mrs. John Russell presided at the daintily laid tea table centered with a potted geranium. Mrs. Elton Arnold and Mrs. Frank Wilson, Bay View, served.

Town Council Meets

At the regular meeting of the Town Council held on Monday night permission was granted the Digby Branch Canadian Legion to open their rooms for the comfort and entertainment of service personnel. The Legion pointed out that besides providing a place for the service personnel to meet the step would be beneficial in that it would bring in extra revenue for the business men of the town because of the increase in the number of personnel which the hostel would attract. Shore patrol protection was assured.

A grant of \$200 was passed for the Digby Board of Trade to assist them in their advertising program. A grant of \$50 was also passed for the Canadian National Institute for the Blind. It was learned that 63 blind persons in Digby County look to the Institute for assistance of various kinds.

A committee consisting of Mayor Guy Morehouse, Dr. J. R. McCleave and Gordon Turnbull was appointed to meet with J. M. Saulnier, chairman of the Digby committee for the Acadian Bicentennial. Mr. Saulnier had approached the town by letter for cooperation and assistance in regard to celebrations for the Bicentennial.

James Hubley was again appointed assessor for the town at a rate of \$800 plus extra charges for attending appeal sessions.

An assessment appeal of D. C. Landers for his property on Warwick St. was scheduled for the County Court.

The license committee was authorized to look into the matter of pin ball machines and get the police committee to find out how many and where these existed in town; the times of operation and the nature of the machines.

Approval of the plans of C. M. Levy to improve his property on Water St. was given and permission granted to Charles Hersey to erect a one story dwelling on a lot between Second Avenue and Quet St., facing Queen.

It was reported that much of the fish stored in the Bellock Packing Company had been removed by a farmer and steps were being taken to recover it. (Please turn to page 10)

F. C. Purdy To Visit Newfoundland

F. C. Purdy, Supervisor of Digby School, leaves on Monday from Halifax by plane for Gander, Nfld. From Gander he will go to Grand Falls where he has been invited to meet with a group of that area to discuss school consolidation. Inquiries about school consolidation have been made to the supervisor of the Digby Regional High from many parts of the Maritime Provinces and Ontario since the erection of the school here some years ago.

Celebrates Birthday

On Friday, April 1st, little Julia Anne Byrne, daughter of Cpl. and Mrs. G. A. (Tony) Byrne, of Sussex, N. B., and Digby, N. S., celebrated her fourth birthday.

A party was given in her honor and was attended by a large number of her friends. Julia received many lovely gifts and birthday cards.

One of the most exciting events of the day was a long distance telephone call to her grandmother, Mrs. Mary J. Saulnier, in Digby.

Port Wade Boy Hurt On School Yard

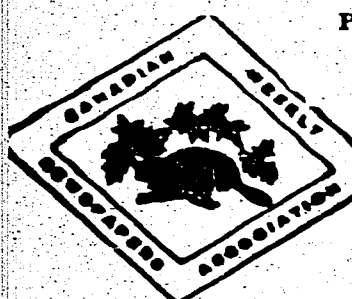

Wayne Foley, 10-year-old son of Mr. and Mrs. Austin Foley, Port Wade, received injuries to his eyes and face last Tuesday when he was accidentally hit by a bat while playing ball on the Port Wade school yard.

Wayne was taken to the Digby General Hospital where treatment by an eye specialist was given. He also had other facial wounds.

Entertains Youthful Friends

Little Donna Hersey entertained 16 of her friends on April 1st at the home of her grandmother, Mrs. Wilneff, at a birthday party.

After enjoying dancing, singing and games, delicious refreshments were served including a prettily decorated birthday cake with twelve lighted candles. During the day Donna received a surprise telephone call from her mother in Montreal.

About This and That

Passion Week And Easter

"And there was darkness over the whole land until the ninth hour."

The above words referred to the time of Christ's crucifixion. The world is now, during the Passion Week, sorrowfully and prayerfully meditating and remembering those agonizing hours and the black darkness which enveloped the earth. Scripture tells of the gloom which prevailed before the dawn of the first Easter morning and Christians humbly think on these things, especially during Passion Week.

It would be difficult, indeed, to enter into the true spirit for the commemoration of Easter without first meditating on the events which preceded it. It should be difficult too, to go through this Passion Week without taking note of the darkness which prevails on the earth in our own time. Only the irresponsible fail to recognize this truth. Men all over the world are beset with fear — fear of the future in an atomic age as today. Nations, instead of living in peace and harmony with one another, live in distrust, hatred and disregard for the rights and privileges of the others.

We need not, however, go so far afield or survey so wide a territory to see the veil of darkness which surrounds us. A look into our own country, indeed, our own community will reveal a spiritual and moral darkness in all age groups. We cannot or should not remain blind to the problem, for instance, of juvenile delinquency in our own community. We must admit it is present and somewhere we have neglected to set the right example, somewhere we have neglected to teach the truths, to arm youth with that which is necessary to withstand temptation or we have failed to provide something healthful and constructive in which to direct their youthful energy. There are those who are becoming alarmed and concerned with this problem and rightly so. None dare shut their eyes to the darkness which exists in our community in this respect. It must be recognized and a solution sought.

"There was darkness until the ninth hour" but light was restored. In a few more days we celebrate the glorious Easter. Its message of life and light of peace and hope will be preached from many churches. It brings a challenge to all — restore that which is dark to light.

April Is Cancer Month

Gordon P. Campbell, Weymouth, president of the Weymouth Unit of the Canadian Cancer Society, has drawn our attention to the fact that April is the month when contributions are received for the support of cancer research work. The Weymouth unit will endeavour to cover Digby County this year, including the town of Digby. Elsewhere in this issue of the Courier is an advertisement to this effect, asking support and directing contributions to Mrs. Andrew Elliott, Jr., treasurer of the Weymouth Unit.

The Canadian Cancer Society and the National Cancer Institute of Canada are the two voluntary organizations fighting cancer. The Society is made up of laymen. It raises money for and carries on an educational programme and a welfare programme to assist cancer patients. The Institute is made up of doctors and scientists. It supports worthy cancer research by giving grants-in-aid, fellowships and scholarships. Over one-half of its money comes from the Canadian Cancer Society.

It is impossible to fight a disease effectively so long as it is surrounded by mystery and taboos and quackery. That is why the Canadian Cancer Society spent \$276,000 last year on an extensive education programme.

The 1955 objective of the Canadian Cancer Campaign is \$1,805,000. More money will be spent on research than ever before.

Contributions to the Canadian Cancer Campaign help control cancer in three ways. They support research into the fundamental cause of cancer, provide the means for a lay education program and supply materials to the Cancer Society volunteers working to relieve the suffering of cancer patients.

New Lower Electricity Rates

Readers of the Digby Courier will be pleased to see announced in this week's issue of the paper that a new and lower rate for electricity in the town of Digby became effective on April 1st, 1955. The Electric Light Commission of the Town of Digby released this information officially to the Courier this week but it was passed by the Board of Commissioners of Public Utilities on March 8th.

It has been increased use of electricity in the homes and businesses of Digby that has made the reductions possible, we are told, until Digby's electric rates are among the lowest in the Maritimes.

Increase in the use of electrical energy took a definite upswing throughout the Dominion after the war and has continued to do so each year. The Digby Power Board informs us that electrical energy sold in Digby in 1954 showed the biggest increase of any year for the past seven years.

In Domestic Lighting Service the energy charge is reduced from three cents per kwh for the first 35 kwh per month to two and a half cents per kwh for the first 40 kwh per month; from two cents per kwh for the next 65 kwh per month to two cents per kwh for the next 40 and from one and a half cents per kwh for all additional to one and a quarter cents.

The energy charge in Domestic Lighting and Cooking Service is reduced from three cents per kwh for the first 50 kwh per month to two and a half cents per kwh for the first 65; from two cents for the next 75 to two cents for the next 65 and from one and one-half cents for all additional to one and one-quarter cents.

In commercial lighting there will be a reduction from three cents per kwh to two and one-half cents in the first block, the rate unaffected in the second, and reduced from one and one-half cents to one and one-quarter cents in additional consumption. Alternating Current Power — General Use there will be a reduction half a cent in the first block and alternating current power — 20 h.p. and over is changed from two cents to one and three-quarters in the first block. In street lighting there will be a reduction from four cents per kwh to three cents.

This lower rate of electrical energy and the knowledge of the fact that Digby is among the lowest in the Maritimes in the cost of this service will be welcome news to the town people for the reason that their own consumption of electric energy is less costly and also that it is an inducement for businesses requiring much electric energy to locate here.

Security In Your Home

Many householders make things easy for the criminal by leaving doors and windows unlocked and advertising their absence by leaving the house in darkness.

There have been cases where thieves have stolen a truckload of furniture, rugs and household effects, as well as silver-

ware and clothing, when the family were temporarily away from home.

IF YOU ARE GOING OUT FOR THE EVENING:

MAKE SURE that all doors and windows are securely locked.

LEAVE TWO OR THREE LIGHTS burning in the house to make it appear that someone is at home.

WHILE YOU ARE ASLEEP:

A NIGHT LIGHT over your garage doors will discourage prowlers and safeguard your car and implements.

IF YOU ARE GOING AWAY ON A VISIT:

BE SURE to stop milk and newspaper deliveries so that a collection of them will not advertise your absence.

NOTIFY THE POLICE so that they can check your home during their patrols.

Correspondent Nearly 50 Years Passes

The Courier learned with deepest regret of the passing on Sunday night of Mrs. Omer Denton, Little River. Mrs. Denton, the Courier's oldest correspondent, would have reached the golden jubilee of her services in this capacity had she lived until September of this year. Until almost the time of her death Mrs. Denton continued to send local news of her village to the Courier. During the last few months her many friends in church and village gave her assistance with gathering items. Mrs. Denton started writing for the Courier when she came to live in Little River as the bride of Omer Denton, who is now left to mourn the loss of a loving companion. The sympathy of the editor and the staff is extended to Mrs. Denton and his daughter, Mrs. Guy Morehouse, Jr., of Digby.

Letter To The Editor

Digby, N. S.,
April 1/55.

Editor,
Digby Courier.

Sir:

It is my earnest desire at this time to make an appeal through the medium of the Courier for the whole church in this area at Easter time. Let us all this Easter make sacrificial offerings to the church which so greatly needs more financial support to do the work it should be doing and wants to do. Let us remember that Jesus Christ tells us through God's Holy Word, Mark, chapter ten, verses 17-25 inclusive that anyone who loves money or wealth more than God cannot have eternal life.

Is it not so that to a true believer of the Gospel there is no other organization near so good or great as the church, which is the only organization that Jesus Christ formed while on earth in the flesh. Jesus appealed to His followers to support the church to a point of self denial and cross-bearing and doing all possible to keep His commandments. Fulfillment of these things would be the only evidence of true belief and in return the Son of God promised that the true believer would receive eternal life or the more abundant life which would start in this life on earth.

Let us now consider that promise for eternal life was made by a human being filled with the spirit of God and no other spirit was in Him and was called Jesus Christ, the Son of God, and who all believers today know as a personal Saviour. This Saviour showed His authority by demonstrating His power over life and death to many witnesses some of whom later were willing to give and

die give their lives because they believed and would not give up their belief until death.

Jesus Christ lived on earth only a comparatively short time ago, the collective life span of twenty-five persons of about 80 years of age which of course is short time compared to time of world existence. Most important to remember is the fact that since Christ was crucified, was dead and rose from the dead, there have been countless thousands who have given their lives to bear witness and give evidence to the truth, wisdom and power contained in the whole Word of God.

However, the fragile truth is, too many of us professing Christians do not know or truly believe the Gospel of Jesus Christ and that the more abundant life is more than food, drink, furniture, comforts of any kind, pleasure, cars and such, also, the body is more than clothes, cosmetics and costume jewellery, etc. Isn't it so that when anyone truly believes the Gospel they honestly try to live it out in every detail and not in just part of it.

One great trouble these days I think is, that the whole community of persons who profess belief in the Biblical word has been so split up for various reasons in the past that many professing Christians have formed all sorts of organizations outside the church in many different names for the purpose of joining forces for the doing of good works. Of course many of these organizations outside the church do many good works but such do not bear as much witness for Christ, and therefore do not count so much for the building of God's Kingdom on earth.

It seems to me if all professing Christians would agree on what time in the week should be held as the Sabbath Day for

rest, worship, fellowship and the doing of good—that in itself would be a big step in the right direction for strength and unity, and it would do away with a lot of offending by one set of believers to another. No wonder our Sunday is being more desecrated all the time through lack of proper Sabbath observance. Surely something should be done about this for the good of all mankind.

It is quite evident that too many of us professing Christians do not appreciate the fact that desecrating of the Sabbath Day is breaking one of God's commandments just as much as desecrating His holy name. I believe all church authorities had better look more deeply into this matter with the genuine purposes of solving a very important question.

I know by some first hand information that some men these days are obliged to work on Sunday for fear of losing their jobs if they do not work, and this is a great distress to them. These men are human and lack sufficient faith to refuse working on the Sabbath and then trust to the providence of God; how many of us can righteous-ly condemn them but, we are all to blame if we do not try to do something about this situation.

I believe it is very important that parents see to it that their children attend the various church schools on the Sabbath Day. If any child attends school for five days a week for secular education surely that child should attend school on the Sabbath for lessons that are beyond price, not for one or two

THE DIGBY COURIER

Sabbaths a month but every Sabbath when possible.

How much do most professing Christians give to their church? They give surprisingly small sums to the organization founded by one they claim as their Saviour who gave His life for the sake of sinful man. Does anyone truly believe the Gospel unless that person gives to a point of real sacrifice for the Son of God who made the greatest sacrifice that man can make. Please let us give this due thought in the way of meditation and prayerful thinking.

Truly the churches of Digby town should receive several thousands of dollars at Easter time as an expression of faith and bearing of witness by Christians, no matter what is given through the year. Let us remember that God expects us to give in His name and certainly should receive at least ten per cent of our incomes before taxes are taken out. The actual performance today according to some large church denominations is something like fifty dollars per contributor per year for all purposes; most of us are certainly falling far short of what we would be doing if we were true believers.

Let us all give real meaning to our Stewardship in the financial area of our lives this Easter and make a truly sacrificial offering to the church of our choice.

St. Matthew, Chapter 28,
Verses 1 - 6.

"In the end of the sabbath, as it began to dawn toward the first day of the week, came Mary Magdalene and the other Mary to see the sepulchre.

"And, behold, there was a great earthquake: for the angel of the Lord descended from heaven, and came and rolled back the stone from the door, and sat upon it.

"His countenance was like lightning and his raiment white as snow;

"And for fear of him the keepers did shake, and became as dead men.

"And the angel answered and said unto the women, Fear not, ye: for I know that ye seek Jesus, which was crucified.

"He is not here: for he is risen, as he said"

An EASTER Prayer

May the radiant glory of Easter shine brightly in every home and in every heart. As we gather with family and friends in Church on Easter Sunday morning, may we see expressed in every flower, the miracle of spiritual rebirth . . . hear voiced in every hymn, the stirring triumph of the Easter message. May we rejoice once more in the supreme blessing of the Resurrection . . . and find in its transcendent wonder a renewal of hope, a fulfillment of faith to fortify our courage and sustain our spirits through all the days ahead. May we humbly bow our heads in prayers of gratitude for the sublime promise of life everlasting, given to all on the first Easter Sunday. Returning to our work-a-day world, may each of us carry in his heart the true meaning of Easter as a deep and abiding source of inspiration. Thus may all of us enrich our lives and exalt our spirits with the age-old, yet ever-new, glory of Easter.

ICED HOT CROSS BUNS

They're "topping" made with new Active Dry Yeast

• They rise so wonderfully—taste so wonderfully good! That's because Fleischmann's new Active Dry Yeast keeps full-strength and active till the very moment you bake! No more spoiled yeast! No more refrigeration—you can keep a whole month's supply of Fleischmann's Active Dry Yeast in your cupboard!

ICED HOT CROSS BUNS
Scald 1 1/2 c. milk, 1/2 c. granulated sugar, 2 tps. salt and 5 tbs. shortening; stir in 1 c. crisp breakfast-bran cereal and cool to lukewarm. Meanwhile, measure into a large bowl 1/2 c. lukewarm water, 2 tps. granulated sugar; stir until sugar is dissolved. Sprinkle with 2 envelopes Fleischmann's Active Dry Yeast. Let stand 10 minutes THEN stir well. Add cooled milk mixture and stir in 2 well-beaten eggs. Sift together twice 4 c. once-sifted bread flour, 3 tps. ground cinnamon, 1 tsp. grated nutmeg. Stir about half of this mixture into yeast mixture; beat until smooth. Mix in 1 c. seedless raisins and 1/2 c. chopped candied peel. Work in remaining flour mixture. Grease top of dough. Cover and set in warm place, free from draught. Let rise until doubled in bulk. Turn out on lightly-floured board and knead until smooth and elastic. Divide into 2 equal portions; cut each portion into 12 equal-size pieces; knead each piece into a smooth round bun. Place well apart, on greased cookie sheets and cross each bun with narrow strips of pastry, if desired. Grease tops. Cover and let rise until doubled in bulk. Bake in a hot oven, 425°, 18-20 mins. Glaze hot buns by brushing them lightly with corn syrup. NOVA SCOTIA COAL - THE THRIFTY FUEL

No. 18 Bankhead, Cape Breton

**USE
NOVA
SCOTIA
COAL**

With a coal-burning furnace of modern design which is fed by an automatic stoker, a very steady heat can be obtained because there is always a fire burning in the furnace. Consequently, the temperature of the water in the heating system may be kept practically constant. A constant temperature may be obtained in the home if the system is provided with adequate controls. This constant temperature which gives a maximum of comfort is not obtainable from other fuels. Where fuels other than coal are used the fire is extinguished entirely when a pre-determined temperature is reached in the home. This results in a temperature variation of as much as six degrees with the attendant discomforts which such a variation causes. You can avoid this temperature variation by using Nova Scotian coals in the proper furnace.

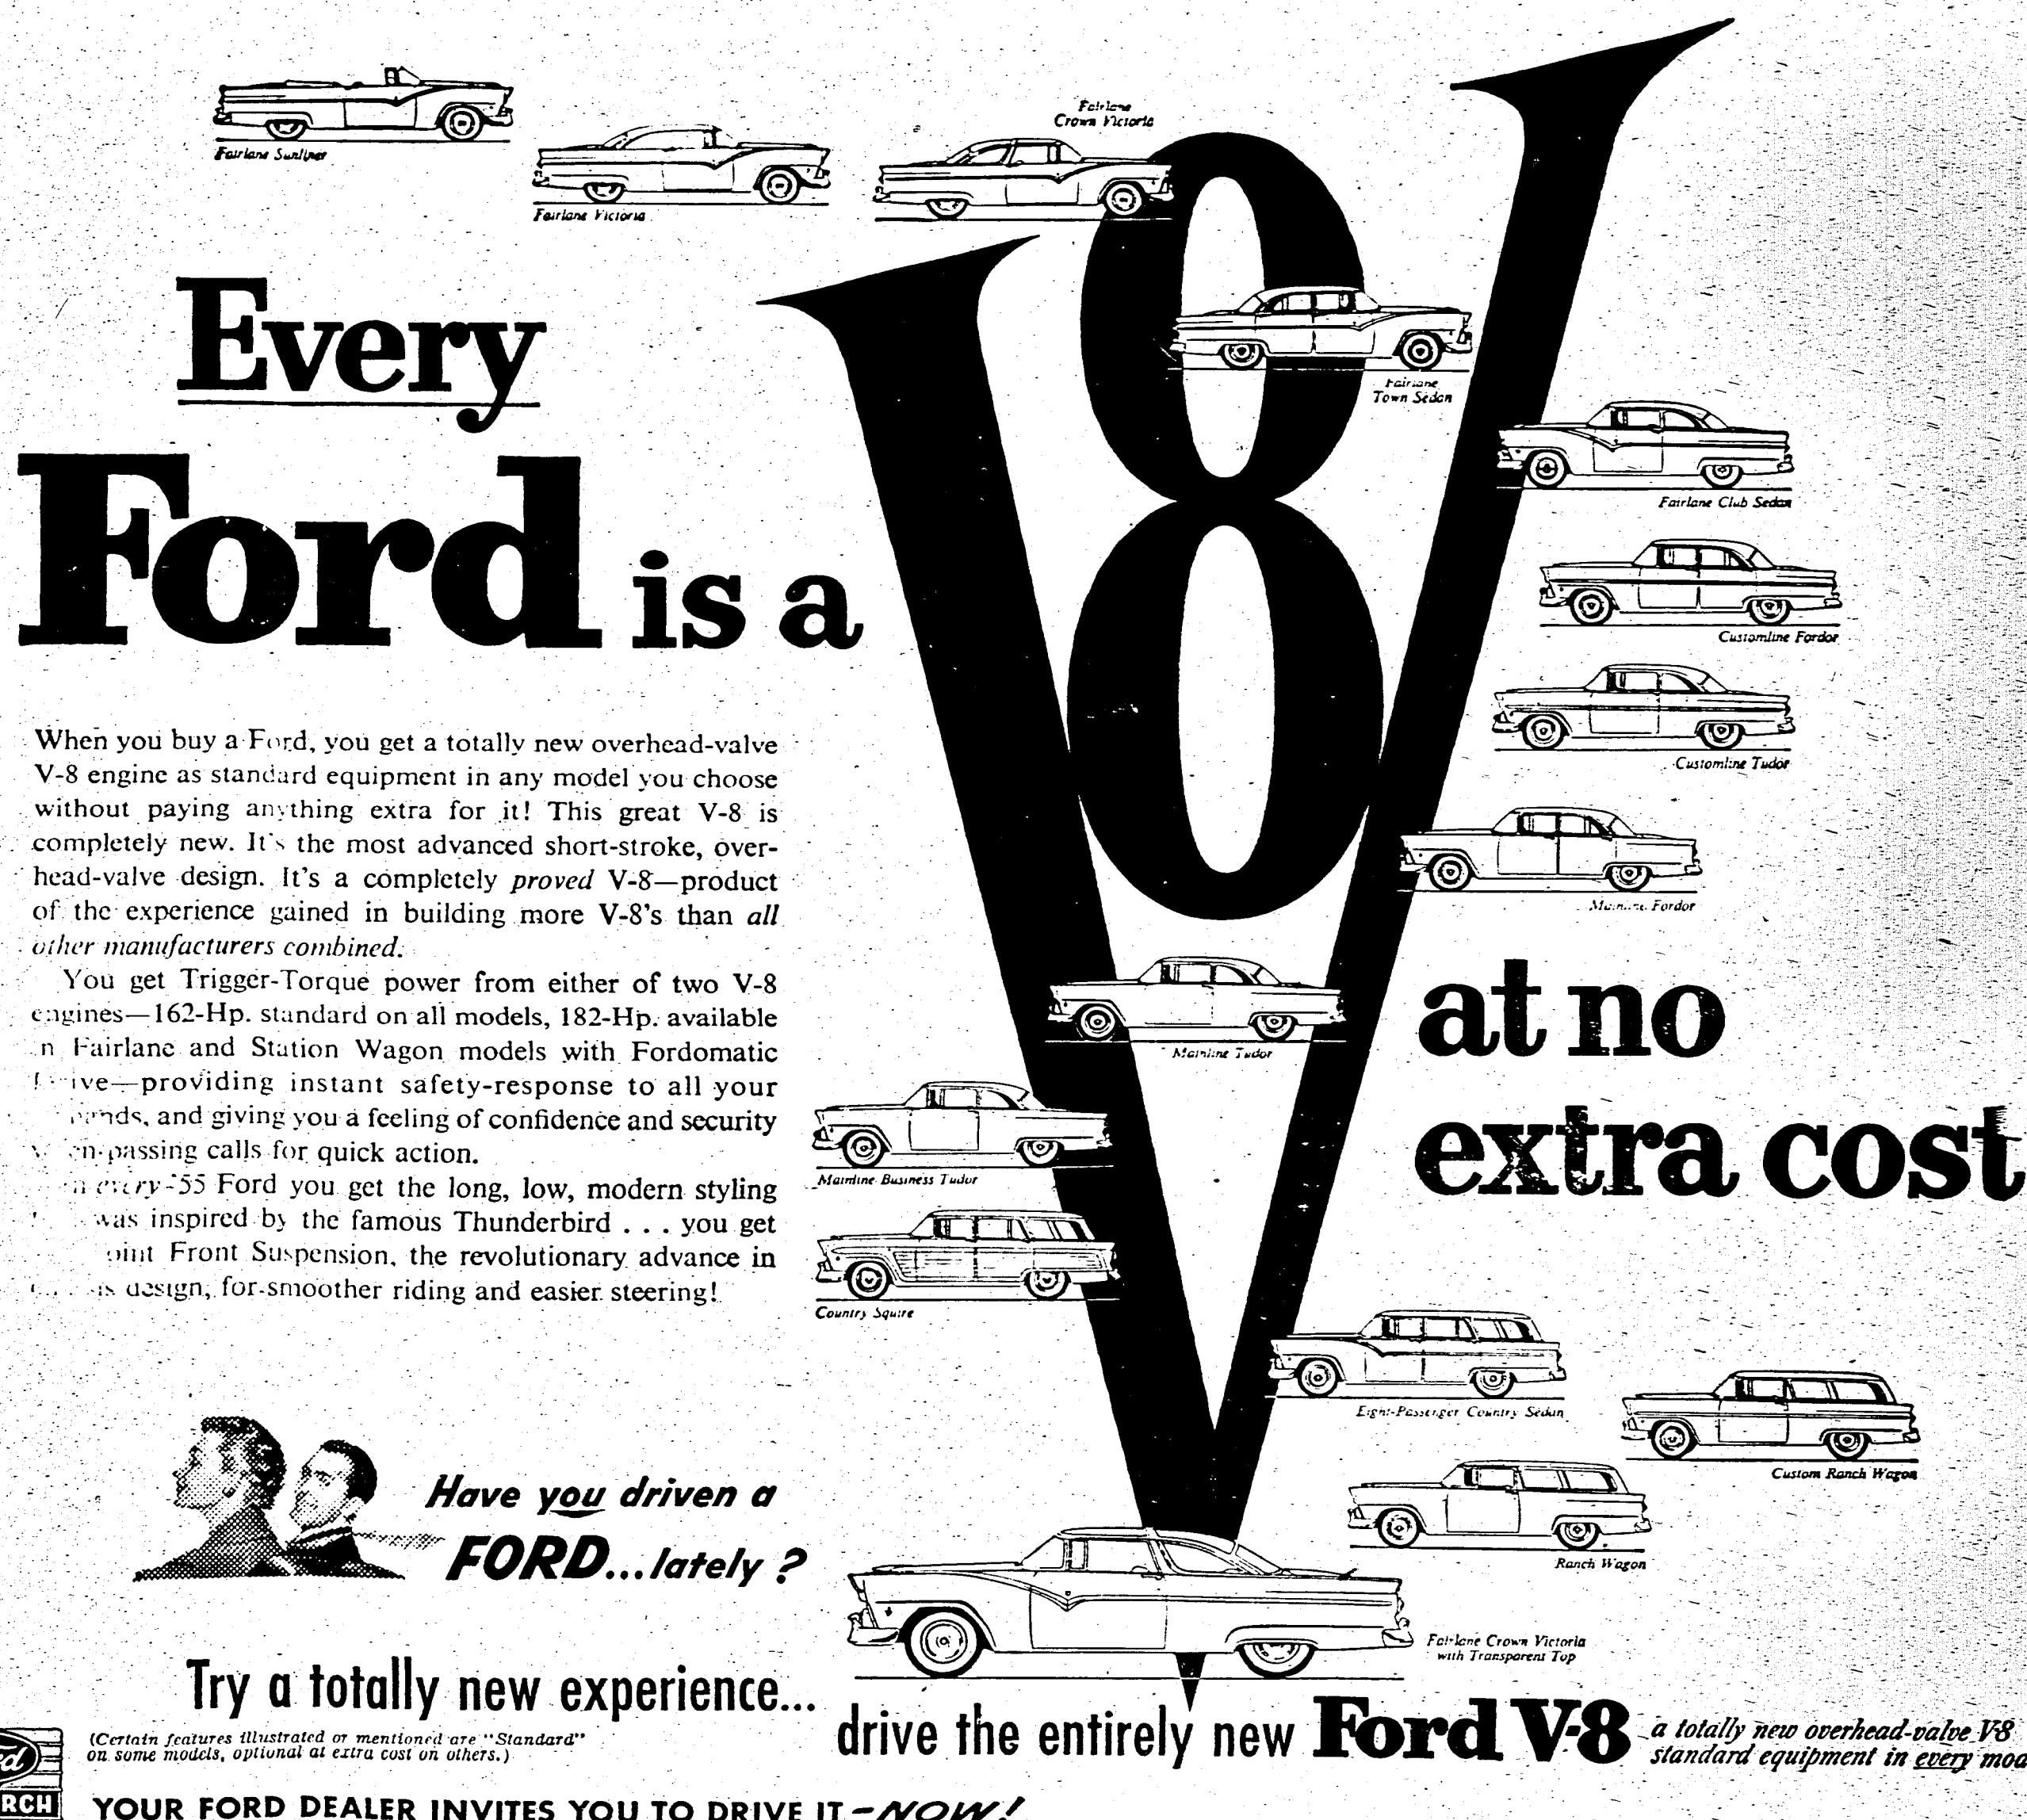

Give your family the comfort of a steady heat in the winter months by using Nova Scotian coals.

MISSION CONCLUDES

The Mission held in St. Peter's and St. Matthew's Anglican Churches last week with capacity congregations each evening, concluded on Friday evening. All who attended at the sincerity and power of the message brought by the Rev. A. L. Gardiner, Missioner, rector of Stone Church, Saint John, N. B., and have received help from these services.

Rev. Gardiner opened the services by pointing out that religion is not always Christianity and each evening made clear God's will for us if we would walk with Him. The question box held many interesting questions which Mr. Gardiner answered the following evening. The call to service was felt during the whole of the week's mission.

An IMPORTANT ANNOUNCEMENT

A NEW BILLING DATE FOR YOU

Commencing with the next telephone bills, billing dates for all telephone subscribers will be changed. Groups of bills will be mailed out at different times during the month, instead of all bills being sent out at the end of each month.

For instance:
One group of subscribers will receive their bills dated the 3rd of each month.
Another group will receive their bills dated the 6th of each month, and so on throughout the month.

The change in the billing date will mean a small adjustment on your first statement to cover the period between the old and the new billing date.

THE ADJUSTMENT WILL NOT MEAN A CHANGE IN THE AMOUNT CHARGED FOR YOUR TELEPHONE SERVICE!

What are the reasons for these changes?

Spreading the billing dates this way levels out work loads in the billing department throughout the month and helps keep down the cost of providing service.

Spreading the billing also spreads the work load at telephone payment offices because every telephone bill isn't due on the same day. Customers who come in to pay their bills can be served more promptly without undue delay.

This is DIGBY . .

MANY travellers catch their first glimpse of Nova Scotia at Digby, overlooking the broad Annapolis Basin and Digby Gut which opens out into the Bay of Fundy — a setting of serene beauty, and rich in historical associations. They come from Saint John on the sleek modern car-ferry, *Princess Helene*, seen at quayside in the background and contrasting sharply with the ancient cannon, a relic of days of struggle for mastery in Acadia. On this peaceful shore summer visitors enjoy bathing, boating and fishing.

Digby was named in honour of Robert Digby, a British Admiral, who commanded the convoy *Atlanta* and brought one thousand five hundred Loyalist refugees from New England in 1783. Among the newcomers to Digby in that fateful year was John Edison from New Jersey. He brought his family with him and remained at Digby until 1810. A grandson, Samuel, was born in the town, and later moved to Ohio, where in 1847 he became the father of Thomas Alva Edison, the famous inventor.

Though a body of New Englanders had settled in the vicinity in 1776, they had been harried by privateers, and the settlement, first known as Conway,

did not prosper until after Admiral Digby's coming. The admiral donated a hundred pounds to the building of a wooden church which was erected in 1790, and gave the bell, still in use within the tower of a more modern structure.

As well as being a popular summer resort, Digby is an important commercial harbour and fishing centre. The town is famous for its smoked herring and haddock, and this Digby-Annapolis section of the Bay of Fundy is one of the principal scallop fishing grounds of Nova Scotia which produces nine-tenths of Canada's total catch of this bivalve, considered one of the real delicacies among sea foods.

Guides, boats and equipment for both sea fishing and angling on the nearby rivers, may be secured in the Digby area, which is also close to the unspoiled woodlands of western Nova Scotia.

1878-1955

by Ken Hankinson

While the war was on I remember hearing about a lady in Chatham, Ont., who had the problem of gasoline rationing completely licked. She drove as much as she wanted, but without the worry of running out of gas. And do you remember how people used to raise their eyebrows during the war if they thought you were using your car more than an "A" sticker on the windshield would allow? She didn't have ANY sticker on the windshield and the looks she got were envy, not suspicion.

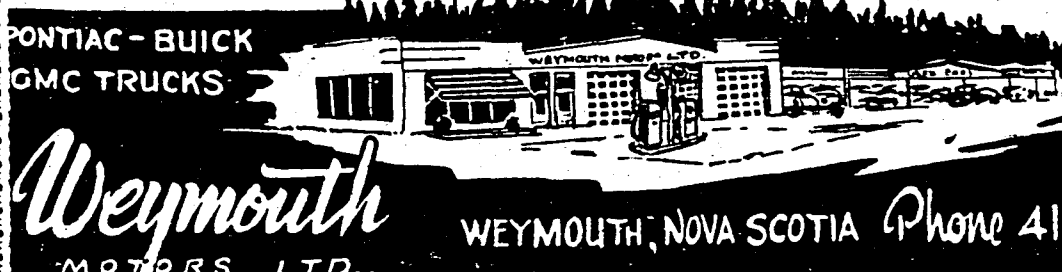

Her name was Mrs. Robert Gray, and she was the widow of a pioneer automobile manufacturer. The car she drove was a pioneer, too, the 1919 Detroit Electric. If you remember the First World War you probably remember the fling electric cars had. Another model about the same time was the Anderson Electric.

Mrs. Gray's Detroit Electric was the last battery-driven car running in Canada. It was powered by 42 batteries, each of two volts, that she recharged once a week at home. She had no radiator, no clutch, no muffler, and could go about 30 miles an hour.

Maybe someday someone will design a new electric car that will give the kind of service we want today. Mrs. Gray, for instance, never went on any long trips and the batteries alone weighed 1400 pounds.

There's just one main reason why the gasoline engine beat out the electric car; one pound of gas will deliver more than 20 times the power one pound of the best storage battery can. As I say, maybe someday we'll get a good, powerful electric car, but actually I doubt it. On our used car lot we've got a "hot-full" of reasons why most everybody wants to own one of today's cars. Good reliable cars that gave somebody else good service before they decided it was time to move up a notch to a newer car. There's electricity in these cars too — in the ignition system that's the "brains" of the car. We've checked it — and everything else in the car — before we even put it on our lot.

Ken Hankinson

Merritt. The program dealt with the injurious effects of crime comics on the younger generation and it was revealed that a great percent, and by far the majority of crime comics, were bought by the parents for the children.

The Sandy Cove Association voted to invite the Digby Council here for the May session.

Another supply of cod liver oil capsules was ordered to be distributed to the school children to carry through the spring months.

A donation of \$5.00 was voted to be sent to the Dora Baker Scholarship Fund.

TOWN COUNCIL
(Continued from page 1)
were to be taken to have the remainder removed.
Respective committees were advised to deal with matters of installing gasoline tanks for town department consumption and the advisability of further paving in the town.
Eight motor vehicle accidents had been investigated by the town police in the last month and three fires controlled.
Chairman of the Fire Committee, Norman Wright, reported the tower of the structure where the fire siren in housed is very shaky and will need repair but that the siren was in good working condition. He reported that his committee had been carrying out tests to determine from what locations fire sirens could be heard best in town. He also, as a matter of information, spoke of the fortunate position the town was in to have two fire trucks since double fires had recently occurred.
Reports on water and milk and cream were received from the Dept. of Public Health. A report on the lower electric rates effective April 1st was received from the Board of Commissioners of Public Utilities.
At Monday night's meeting Section 58-A of the town By-laws was amended to read: "No person shall erect in the Town of Digby any poles, wires or other equipment for the purpose of transmitting, receiving or distributing any radio or other sound program or any television picture or other visible program, in such a manner that should said pole, wire or other equipment fall it might come in contact with, damage or injure any electrical wires of the Town of Digby Electric Light Distribution System. This section shall not apply to any poles, wires or equipment owned by a Public Utility subject to the control of the Board of Commissioners of Public Utilities."

Uncle Ed Says
The March winds blew so many shingles off my roof that I hired a boy to put some new ones on. He wasn't very well suited to the job. At last I said to him: "You told me when I engaged you that you were very handy." "So I am," said the sprout. "I live just opposite."

Well, after I had got rid of the handy boy, I put the shingles on myself. Which is what I should have done in the first place.

And, by the way, when I was up at Hicks's buying the shingles, I found that they had just got in a shipment of B. C. cedar shingles, both 18ins. and 24ins. They sure are beautiful shingles! If I were building a house, I wouldn't think of using anything else.

Delicious refreshments were served at the close of the evening by the hostess, assisted by Mrs. Ernest McLellan.

WESTPORT H. & S. MEETS

The March meeting of the Home & School was held in the intermediate room at Westport school with Mrs. Charles MacDormand, Vice-President, in the chair. Main business consisted of plans for the Music Festival and the report on the pantry sale. A number of members of Freeport Home & School were guests at this meeting. Remarks were made by Mrs. Burpee Campbell, President of the Freeport Home & School, and Mr. Olmstead, Principal of the Freeport school.

The program consisted of a play by the intermediate pupils under the direction of their teacher, Mrs. Lorne Swift, which was enjoyed by all. Games followed. The social convener, Mrs. Holland Titus, assisted by others, served a delicious lunch.

About This and That

Are We Doing Our Best?

To examine the "analysis of blood donations received per 1,000 population in Nova Scotia centres" as issued by the Canadian Red Cross Society, Nova Scotia Division, one could believe that Digby ranks in fairly high standing among the other towns of similar size. Hantsport and Digby each have two clinics a year with Hantsport giving 312.11 donations per 1,000 population and Digby 169.51 per 1,000 population. Compare these with other towns of similar size which have one clinic per year and we have Bridgetown 198.45, Shelburne 141.66, Middleton 130.14, Berwick 94.73 and Wolfville 63.98. Digby, then, stands third in total donations per 1,000 population in its size group for one year's donations.

The above position is nothing to be ashamed of so far as statistics are concerned. But is 169.51 per M. population the best which can be done, particularly when it is considered that the figure given takes in donors from Digby town, Bear River, Weymouth and Digby Neck and Islands and points between? Checking with J. J. Brittain, chairman of the Blood Donor committee for this area, we find approximate figures for the last Blood Donor clinic in Digby to be 69 from Digby town, 54 from Bear River, over twenty from Digby Neck and Islands and over 20 from Weymouth. More than likely other centres draw from their immediate outside areas but considering the town of Digby with a population of more than two thousand, the clinic held within walking distance so that transportation and time involved is of little consideration, the 69 donors from town then seems a small percentage. The chairman spoke highly of the effort from Bear River and we heartily endorse his sentiments. Because of distance and inconvenience in transportation problems the Neck and Islands also deserve credit for their effort in responding to the Blood Donor appeal.

Why is it so important to have a supply of blood and plasma on hand? Anyone who has seen the life of a relative or friend saved by means of a blood transfusion, can tell us. When the need for a transfusion arises it is almost always a matter of emergency when even minutes may count for life or death. It could be an accident by car, train, plane or at the wheel of industry. An emergency operation, a woman in childbirth or an accident by fire may necessitate a transfusion. Any of these could happen in a matter of minutes and blood may be needed in a matter of moments. Time is an important factor, that is why the blood must be in the blood bank, ready for instant use at any hour day or night.

It is thought that fear is the chief reason why people hesitate to give blood but if we listen to those who have donated we learn there is no grounds for fear. Ask your donor friend and then decide to be present at the clinic on Thursday, April 21.

13 Ways To Ruin Your Town

The following 13 safe ways to ruin your home town appeared in the Carillon News (Steinbach) in a full page advertisement sponsored by the Steinbach Chamber of Commerce. The 13-steps are just as applicable to Digby as they are to Steinbach or for that matter any other town. Read them carefully; then consider them in the light of your own thinking.

1. Don't pay taxes. Let the other fellow pay his. Vote against taxes. Then fuss because the streets are not kept up.
2. Never attend any of the meetings called for the good of the town. If you do, don't have anything to say. Wait until you get outside and then fuss those who made the suggestions. Find fault with everything that was done.
3. Get all the town will give you, and don't give anything in return. Write unsigned letters to the editor demanding more for your tax money.
4. Talk co-operation, but don't do any work for your town unless you get paid for it. And by all means refuse to serve unless they make you chairman.
5. Never accept an office. It's easier to criticize than to do things. Accuse anybody who serves in an elected office of being a publicity seeker.
6. Don't do any more than you have to. When others willingly and unselfishly give their time to make a better town, howl because the town is run by a clique.
7. Don't back your fire department or your police department. Don't thank them for endangering their lives that you might have a safer town in which to live. Demand special treatment, raise Cain if anybody expects you to obey traffic and parking laws.
8. Look at every proposition in a selfish way. If you are not the one that gets the most good out of it, vote against it. Never consider what it will do for the town as a whole.
9. Don't do anything for the youth of your town. Criticize them as potential delinquents. Keep your feet on them. Encourage them to move away when they grow up.
10. If you have good town leaders, don't follow them. Take a jealous attitude, and talk down everything they say.
11. Don't work on any committees. Tell them, "I'm too busy."
12. Don't say anything good about your town. Be the first to point up its shortcomings. Pretend that if trouble comes your way it will be residents of some other town who will visit you while you are ill; bring in the fire department if your home is burning; comfort you if you lose a dear one; stand back of you in time of disaster.
13. And don't support your local retail stores and industries. Claim the prices and service in stores in other towns are better. Claim industry and its payroll hurts the town. But if you need a donation ask your local stores. Expect them to back you, but don't back them.

IF THESE 13 STEPS DON'T RUIN YOUR HOME TOWN IT ISN'T YOUR FAULT.

Security In Your Office

Thousands of personal articles such as handbags, purses, wallets and watches, are stolen from offices annually — often by "amateur" thieves who have no criminal record. The police have little chance of recovering your property in these cases. However, observance of the following elementary rules will help to prevent this type of crime.

- DO NOT leave cash in an unlocked cash box, an unlocked drawer, or an unlocked desk.
- DO NOT leave your wallet in your topcoat or jacket hanging in a cloakroom or hallway.
- DO NOT leave your handbag on your desk. You may often be out of the office for various periods.
- DO NOT leave your watch on your desk where it may be picked up by any passerby.
- DO NOT take off your watch or rings in the washroom where they may be temporarily forgotten.
- NEVER leave your office unlocked when it is unoccupied.

Thieves often walk the halls of office buildings, looking for this situation.

MAKE A SEARCH of your premises at closing time, particularly checking toilets, storerooms, and basements, to make sure that no intruder is waiting for the staff to leave.

BE SURE that all windows, skylights and doors are securely fastened.

DO NOT neglect to check and take stock frequently. Careless handling of money or valuable materials, increases temptation.

KEEP a careful record of office appliances such as typewriters, adding machines, electric fans, cheque protecting machines, etc.

Further Trial Of Polio Vaccine

Geoffrey Stevens, Minister of Public Health, recently announced that it is expected that a limited supply of the new polio vaccine will be available for use in Nova Scotia about April 15 and plans are being formulated for province-wide distribution of the amount available.

Due to various factors, only enough of the trial vaccine will be available for 18,000 children. The most vulnerable age group would appear to be the 5 to 6 year olds, that is, those children in Primary and Grade I for the most part — consequently, this is the group picked to receive the material this year.

Areas in each county will be selected for the trial and the children will be given the required three "shots" starting about the middle of April and finishing before the usual beginning date of the "polio season". The vaccine will be supplied by the Connaught Research Laboratories. It is expected that the amount available will cover about 60 percent of the children in this age group.

Mr. Stevens emphasized that to date no promise could be made as to the preventive value of the vaccine but it had been shown, as a result of its use in hundreds of thousands of children last year, that the material was harmless. The final report of last year's trial is not yet available; however, it was felt that, since the material was available, it should be used this year in the hope that it would prevent cases of poliomyelitis.

Before deciding to offer the vaccine for use in the province, the Department of Public Health carefully reviewed the matter with Federal Health authorities

PRE-EASTER CONCERT HELD AT PORT WADE

A lovely pre-Easter concert was held by the Junior Sunday School children of the Baptist Church on Sunday evening, April 2nd. The children being trained by their teacher, Mrs. Kenneth Hudson, who deserves a great deal of credit for the work and effort she so freely gives. The concert consisted of readings, recitations, singing and the Easter Story was presented by Mrs. K. Hudson and Miss Marion McWhinnie by way of the flannelgraph. A silver collection was taken at the close of the service and the Easter prayer was given by Mrs. R. W. Lindsay.

Be a Blood Donor

and the producing laboratory, the Connaught Research Laboratories of Toronto University. A full discussion was also held with the Provincial Poliomyelitis Advisory Committee made up of members of the Nova Scotia Medical Society, Dalhousie University, the City Department of Health and the Polio Foundation. All information available from last year's trial in the U.S.A. and Canada would indicate that the material to be used is harmless and this is confirmed by the experience in the City of Halifax last year — hundreds of children were given the injections without any harmful effects.

The vaccine will be provided free of charge and it is expected that with the cooperation of the Medical Officers of Health and the medical profession that this trial will be carried out at no cost to the parents — if the trial proves successful, another milestone on the road to disease control will have been passed.

cars ARE MY Line
 by Ken Hankinson

We don't know why people come in the lot and kick the tires of the cars they're looking at. We never have been able to quite figure it out.

The tires on the used cars at our used car lot can tell you a lot about the quality automobiles that pass through our hands. And you don't have to do any kicking.

Tires that are worn in spots, or that are worn only on one side of the tread and not on the other, are signs of front wheels out of alignment. Evenly worn tires are one of those clues, like the lack of a white coat on your tongue, that means general good health inside.

Tires that are free from cuts and bruises give a good indication of the kind of owner that had the car before you. A driver inclined to run into the curb leaves his mark on the tires, of course, and also may damage the steering gear and linkage and knock the wheels out of alignment.

These signs on the tires, or lack of them, will give you an idea, too, of the general care the previous owner gave his car.

Take your time when you look over your used car, ask the questions you want to know and then take it out on the road for a good spin. Take the wheel yourself and see what it will do.

That's the way WE sell cars . . . and the proof of this pudding is in the fact that so many people who have bought cars from us come back to buy another.

Maybe they kick the tires, but they never kick about the cars they've bought.

Metal Lobster Traps Not Yet Satisfactory

The Fisheries Research Board says it has to overcome the problems of cost and rusting and try to determine the reaction of lobsters to the proposed change before recommending metal lobster traps for general use.

The Fisheries Department, in a report published in Ottawa Wednesday, said that experiments with the new type traps and Robert White were business visitors to Port Maitland last Wednesday.

Ernest Tebo has recently joined the Canadian Army and is stationed at Camp Utopia.

Mr. and Mrs. Ralph Moors and sons, Gary and Gregory, Halifax, were weekend guests of Mrs. Moors' parents, Mr. and Mrs. George Adams,

which are expected to withstand damage from storms are being continued this year at Port Maitland and near Lunenburg.

Experimental use of the metal traps to date have shown that, in most cases, fewer lobsters are caught in them than the conventional wooden traps but this might be because the metal traps settled on their sides on the bottom, the department said.

Dr. D. G. Wilder of the Atlantic Fisheries Biological Station who is directing the experiments says that although they have not produced conclusive evidence, the results to date have been "encouraging".

Most of the metal traps tested have been constructed of quarter-inch steel rod welded to three-eighth inch steel frames. In attempts to simplify construction and thus reduce labor costs traps which are iron-framed and bolted and covered

PLAN APPLE BLOSSOM BALL AND FESTIVAL

Several representatives from the Digby Board of Trade attended the meeting in Wolfville last Wednesday at which plans for the forthcoming Apple Blossom Festival were discussed and finalized.

Those attending the meeting from Digby were J. J. Brittain, H. M. Warne, F. C. Ervin, Mayor Guy E. Morehouse and Victor Cardoza, M.L.A.

Eric Balcom of Wolfville was elected Chairman of the Festival Committee to succeed C. W. Fain, who has acted as chairman for a number of years and who told the meeting it was not possible for him to continue in that capacity this year.

Mayor Morehouse, Warden H. E. Chisholm, Victor Cardoza, M.L.A., and J. J. Brittain were elected to the Board of Directors of the Festival, representing Digby Municipality. C. S. Melanson, of Corberrie, will represent Clare Municipality on the Board.

A full discussion of proposed plans for the festival was had at the meeting. Mr. Cardoza stated he felt sufficient effort was not being made to include the towns on the outskirts of the Valley area in the festival program, so that more local interest in these communities could be aroused. He said he was of the opinion these towns should be grouped so that a fuller program than that covered by the present Royal tour could be held.

J. J. Brittain stated he was not in agreement with statements that the festival must be concentrated in one area and suggested that thought be given to developing a plan along the

lines suggested as a means of creating a wider field of interest in the festival.

Dates for the festival were set as May 27, 28, 29 and 30th and an invitation was extended all towns in the Valley area to enter princesses. Minimum age for these entrants is eighteen, it was decided.

PLANS FOR PRINCESS BALL FINALIZED

E. B. Tufts, chairman of the Board of Trade Committee which is sponsoring the annual Apple Blossom Princess Ball at which Digby County's entry in the 23rd annual Apple Blossom Festival will be chosen, stated this week plans for the ball have now been finalized.

It is understood the ball will be held at the Hotel Champlain Friday, April 29th, with music supplied by Furber Marshall's orchestra. The Ladies' Auxiliary of Branch No. 20, Canadian Legion are in charge of refreshments and the Ladies' Curling Club will have charge of the cloak room.

Plans for the ball include a buffet supper for the contest, ants in the Princess Contest, their escorts and honour guests. Announcement of the choice of the Princess and her attendants will be made toward the close of the ball late in the evening it is stated.

According to Mr. Tufts entries for the Princess contest have been received from the Islands, Weymouth, Bear River, Clare, Digby and other points in the county and it is expected a good number will compete this year.

The judges for the contest will be from outside the county.

Capt. Wallis Wins Easily At Polls

Capt. H. Wallis was elected to his fifth three-year term as a commissioner of the Lakeshore Fire Protection District Monday, scoring a 2-1 victory over his opponent, Arnold E. Mathre.

Wallis received 242 votes to 113 for Mathre. Polls were open from 1 to 6 p.m. at the Lakeshore firehouse.

Wallis thanked his supporters and also Mathre and his sponsoring "Taxpayers League" for "arousing the people so they would come and see what their all-volunteer fire department is doing for them."

The above story is from the Clear Lake Observer of Clear Lake, California. Captain Wallis is a brother of J. J. Wallis.

Church Observes Easter

An Easter program, under the auspices of the Sunday School of the United Baptist Church, Sandy Cove, was held on Good Friday, April 8th, before a capacity congregation. The program was under the leadership of Mrs. Eldon-Mitchell, Miss Ruth Eldridge and Miss Helen Jeffrey, organist, and included the school members from Lake Midway and Mink Cove.

The program, comprised of all groups, from Beginners to Intermediate classes and individual numbers and was well presented. There were choruses, songs, duets, recitations, exercises and acrobatics, which were all on the Easter theme.

The evening service, which was held in the United Baptist Church, Sandy Cove, was well attended and the church was beautiful with a profusion of Easter flowers, many of which were in memorial.

The minister, Rev. C. T. Olmstead, gave an inspired message on the Risen Saviour and the choir, under the leadership of Mrs. Floyd Jeffrey, rendered two selections, "Easter Blessed Easter" and "The Glory of the Garden."

Announce Return Of Local Men

Headquarters Eastern Command has announced the return to Canada from the Far East of a group of army personnel. Included among the group are a number from Digby County.

Those from this county whose return has been announced are: Cfn. C. J. Thibideau, Weymouth; Rfn. R. J. Gaudet, Belliveau's Cove; Rfn. H. G. Stanton, Digby; and L. Cpl. N. R. VanTassel, Digby.

Easter In Granville Ferry Churches

At the Granville Ferry United Baptist Church on Sunday morning the Easter service was held. Very lovely flowers decorated the church and Mrs. J. P. Littlewood presided at the organ. The pastor preached a splendid Easter sermon and also rendered a fine solo "The Green Hill Far Away."

At 2:30 in the afternoon the children's Easter service was held under the direction of Mrs. R. H. Bond. The children were beautifully trained and carried out their respective parts with reverence and dignity. The service of worship was led by the superintendent of the Sunday School Mr. J. P. Littlewood. Mrs. Littlewood presided at the organ and a lovely duet was rendered by Meredith Nauss and Vesta Littlewood. Donna Meisner sang very sweetly "In a Lovely Garden."

The portrayal of an Easter legend, "The Redeemer's Robe," was so impressive it touched the hearts of all present and the superb acting of the six members of the junior and intermediate classes in costume received much favourable comment. Those taking part were: Larry Bower as the Roman Soldier; Erma Lou Saunders as Mary Magdalene; John Mills as Paulus the lame son of the soldier; Donna Meisner as Claudia his little friend with great faith; Dianne Cummings as Gracia and Vernon Amberman as Sylvus, also two young friends of Paulus.

To Take Charge Wolfville Clinic

Dr. Eric Cleveland, at present with the Digby Psychiatric Clinic, will be in charge of the Wolfville Mental Health Clinic which is to be opened in August of this year.

The Wolfville clinic will serve the district known as the Fundy Division, and includes the Counties of Annapolis, Kings and Hants. Dr. S. W. Spicer, Kentville, chairman of the nominating committee, reported that Dr. A. A. Giffin, Kentville; Dr. M. V. Marshall, Acadia University; E. D. Haliburton, M.L.A., Avonport, and L. MacMillan, Berwick, had been named as the four members of the Society on the Clinic Board.

Approval of the plan for a Mental Health Clinic at Wolfville, in one of the Acadia University buildings, was given at a general meeting of the Kings County Mental Hygiene Society, held at the Kentville school auditorium.

Dr. S. R. Laycock, special speaker at the meeting, was introduced by Dr. Watson Kirkconnell, president of Acadia University. He outlined the definition of mental health and continued with a survey of the present situation, whereby one-third of the Government budget is required for the care of Canada's mentally ill. Mayor Eric Balcom, Wolfville, president of the Provincial Society, extended thanks to Dr. Laycock.

Grass Fire Dangerous

A grass fire which could have had most serious results had it not been brought under control with speed and despatch by the Digby Fire Department, occurred Monday afternoon on the property of Captain George King, Carleton Street.

The fire, believed to have been started by youngsters, roared out of control across the large field and approached closely to a number of bulk oil storage tanks in the near vicinity before it was finally extinguished by the fire department. It was necessary, in order to get the blaze under control and prevent its spread to within the danger spot of the oil tanks, to make use of heavy hose in order to both wet down the ground and quell the flames.

This week the fire department has been called out for a number of grass fires, all of which occurred in areas where considerable property damage could have resulted had they not been brought under control. Early in the season the department burned off many of the local fields considered fire hazards because of the danger of grass fires. The fires during the past week, however, have started off a new wave of danger from this particular type of hazard.

Rev. and Mrs. Francis D. S. Miller were hosts on the afternoon of Monday, April 18th, to the Annapolis County United Baptist Ministers Institute and their wives. The meeting was chaired by the Rev. Austin MacPherson, of Middleton, while the Rev. R. W. Lindsay, of Port Royal, brought the devotional.

Mr. D. B. Wright, of Middleton, reported to the Institute the progress made by the churches of the District in the past year of the Five Year Program advance. The main speaker of the afternoon was the Rev. Allder Colpitts, of Bridgetown, who pointed out the background of what we might term today our popular philosophy. The religious significance of this thought was brought out in discussion by those present.

Mrs. Miller, assisted by Mrs. A. Colpitts, of Bridgetown, and Mrs. E. Robertson, of Clements, served a very delicious buffet supper, while Mrs. Frank Smith, of Deep Brook, poured.

Trout Fishing Season Opens

The 1955 trout fishing season in the Digby area did not open with any great fanfare of trumpets announcing great catches of fish, according to all reports which can be gathered by the Courier.

So far as can be determined, local fishermen had only mediocre luck in the opening days of the season this year and only a few secured what could be termed as good catches of fish. Chief complaint of local fishermen as the season opened seemed to be the coldness of the weather and the low water condition which seems to prevail in most streams in the area this year.

According to one fisherman who has made a good study of the matter, the water this year is much lower than he has ever seen it at the same time in any previous year. At one spot, by actual measurement, the water level on the same date last year was thirty-four inches. This year the water level at the same spot is only twenty inches.

Fishermen who entered the woods for the opening of the fishing season also claim the woods are abnormally dry for the time of the year with a resultant high fire hazard rate.

BASS FISHING STARTS
Although at press time the name of the successful fisherman could not be obtained, it is reliably reported that one local bass fishing enthusiast has been rewarded with a catch on the Bear River.

Such early success is arousing the interest and enthusiasm of others who partook of the sport last year with such good results and it is expected, if any catches are made, many disappointed trout fishermen will turn early this year to the sport of bass fishing.

Nova Scotia Man Ends Long Seafaring Career

Captain Clare Delap McRae, well-known for his annual visits to the home of his boyhood, Port Royal, has recently retired after 46 years of service with the "Great White Fleet" of the United Fruit Company, sailing out of New York.

Son of the late Captain Geo. B. McRae and Blanche (Dunlap) McRae, Captain Clare, as he is familiarly known, came from a line of seafaring men, his father having been a sailor until retirement, and on his maternal side, the Dunlap family loved the tang of the salt sea in the days of "wooden ships and iron men."

Captain McRae was born in Lower Granville and began his career early, sailing with his father and with the late Capt. W. W. Mundy. On Sept. 1, 1909, he joined the United Fruit Company, and served in various capacities until he became master of the first "Limon" in April 1923. He was captain at one time or another of practically every type of ship owned by the United Fruit Company. His last command was the "Cape Avin."

On many occasions, Mrs. McRae has sailed with her husband. The former Marjorie Lawrence, daughter of the late Capt. W. W. Mundy, and Mrs. Thomas Lawrence, of Maitland, Hants County, she too came of a famous seafaring family, being a niece of the late William D. Lawrence, whose ship bearing his name, the "W. D. Lawrence," was the largest wooden ship ever built in Canada.

Captain McRae holds several service medals, having served during two World Wars. During World War II he captained ships sailing in convoy from Halifax as well as other Atlantic ports to Africa and other war zone ports.

The marine superintendent and fourteen associates tendered Captain McRae a farewell dinner at Ferry's Restaurant, New York City, and presented him with a set of matching leather luggage.

Captain and Mrs. McRae have a summer home at Port Wade, and each year spend several months there.

Mrs. Albert Parker of Port Royal is a sister.

Sentenced On Break

Harold Barton was sentenced to three months in the County Jail on a charge of break and entry when he appeared before Magistrate H. B. Dickey here Wednesday morning. The sentence for Ernest Smith, who appeared on the same charge, was deferred. Both charges arose out of a break into Rice's Service Station at Conway.

David J. Vaillant was fined ten dollars and costs on a charge of illegal possession, at Wednesday morning's court session.

RED CROSS CAMPAIGN GOES "OVER THE TOP"

The April business meeting of the Digby Red Cross Branch was held at the home of Mrs. H. M. Warne, with Dr. T. W. Hodgson presiding.

Mrs. J. J. Brittain, Secretary, read the minutes of the March meeting and also presented the Treasurer's report in the absence of Mrs. B. H. Ruggles.

Mrs. George Winfield, reporting for the Disaster Relief Committee, thanked the Hi-Y Girls of the Digby Regional High School for their interest in Red Cross work, including contributions of used clothing and knitting for local relief. She also paid tribute to the assistance of the Welfare Committee of the Ladies' Legion Auxiliary, under the convenship of Mrs. Ralph Wright, in caring for veterans' families which would otherwise be a Red Cross responsibility.

The Ways and Means report, presented by Mrs. R. B. Lent, showed receipts of \$8.15 from the Quilting Tea at the Baptist Hall, also \$5.30 from regular Ten Cent Teas, during the month. The sum of \$15.00 was passed in to the Branch Treasury and a balance of \$14.18 remained on hand. In connection with the work of the Ways and Means Committee, it was reported that they had been invited by the Digby Art Group to serve Afternoon Tea at the Travelling Art Exhibit, to be held at the Regional High School on Monday, April 25th.

A motion was passed that this opportunity be accepted, and arrangements were made to hold a Twenty-five Cent Tea. Arrangements were also completed for the Blood Donor Clinic which is to be held at the Court House on Thursday, April 21st, under the chairmanship of J. J. Brittain. Mrs. D. G. Black will convene a group of local nurses, who will be assisted in the clinic room by a group of girls from the High School Home Nursing Class, and also

by Boy Scouts. Registration and refreshments will be under the supervision of the Women's Work Committee.

An encouraging report on the progress of the Red Cross financial campaign was presented by Mrs. H. M. Warne, who stated that all districts reported thus far had done well, and Digby Municipality was assured of reaching its objective of \$3100. (Since the time of the meeting further returns have been reported, bringing the present total to \$3190.00, and making Digby the first county in Nova Scotia to go "over the top"). The campaign at H. M. C. S. Cornwallis concluded very successfully last week, when Captain Sterling and Lieut. Booth presented a cheque for \$1166.49 to Dr. T. W. Hodgson, Branch President, and H. M. Warne, Municipal Chairman.

The subject of Red Cross support for the Kiwanis Swimming Pool was discussed, and the fact brought out that the Digby Branch is fortunate in having this part of the Red Cross program carried on by the Kiwanis. A motion was passed that the sum of \$50.00 be contributed by the Branch to the Kiwanis Club towards the expense of providing the swimming instructor.

The President reported on a local case where a special wheelchair, costing approximately \$200.00, is required for a paraplegic patient. The Nova Scotia Red Cross Division has been approached and was willing to pay half of this cost if a local organization could be found to assume responsibility for the other half. The President was pleased to report that he had consulted with Father Gaudet, who had pledged the support of St. Patrick's Church in this respect, thus ensuring the provision of the chair.

Following the adjournment of the meeting tea was served by the hostess.

Plan Public Meeting Jehovah's Witnesses On Youth Work Visit Bridgewater

As a result of a meeting of representatives of various civic and service groups Tuesday evening, it has been decided to call a special public meeting at the Legion Headquarters on April 26th, at 8 p.m., to discuss and deal with the matter of youth activities in the Town of Digby.

An invitation is being extended to all active organizations and groups in the town to send representatives to this meeting. The clergy of the town and all interested citizens have also been invited to attend.

Tank Truck Overturns

An oil tank truck, reportedly driven by Herbert Daley, Digby, overturned and was badly damaged on a curve in the highway near the Mountain Gap Inn at Smith's Cove Monday morning.

The accident occurred shortly after ten thirty in the morning as the tank truck was returning to Digby from Cornwallis after delivering a quantity of fuel at the base.

It is understood the truck was forced off the road by a car, forced off the road by an RCMP car, travelling in an easterly direction and coming around the curve at a fast rate of speed. Another truck some distance behind the oil truck is also reported to have narrowly escaped being hit by the car.

After leaving the road the oil truck rolled down a steep bank, overturning three times and suffering heavy damage. Fortunately no fire developed following the accident. The driver of the truck is reported to have suffered no serious injuries.

To Stage Play

Adolphe Robichaud, known throughout the United States for his brilliant direction and staging of pageant spectacles, arrived at Church Point from Boston by plane to begin rehearsals for "La Legende des Acadiens de Clare." This will be presented at College Sainte-Anne as a contribution to the Acadian Bicentennial celebration in the Clare District.

Mr. Robichaud is an Acadian and spent his childhood in Meteghan at the school of the Sisters of Charity. He knows firsthand the manners and history. The pageantmaster is also a noted classical dancer, having perfected his art in Europe, and has achieved distinction as a writer, artist, historian and scholar in medieval architecture.

To Adjudicate At Music Festival

Dr. Alfred Whitehead, FRGO, shown above, former organist and choirmaster of Christ Church Cathedral, Montreal, will adjudicate the sixth annual Digby County Music Festival, to be held May 3, 4, 5, and 6. It was learned here this week.

Dr. Whitehead, who is a native of Peterborough, England, was trained and educated as an organist at the great cathedral there. He came to Canada in 1912 where he has had notable success both as a composer, choir director, teacher, lecturer and recitalist.

The opening session of the Digby County Music Festival on May 4th will be held this year at Freeport in the Baptist Church there. All the other sessions of the festival will be held at the Digby Regional High School.

It is expected this year's festival will be one of the most successful ever held. The number of entries, both in the solo selections and in chorus and group selections has been well above expectations and the selections chosen for the festival should make for an entertaining and challenging program.

To Conduct Cancer Campaign

Albert E. Jones, of Weymouth North, chairman for Digby County of the current fund campaign of the Canadian Cancer Society, stated this week canvassers would cover the Town of Digby in the interest of the Society on Thursday, April 21st.

On Thursday, April 28th, the canvassers will make a house-to-house appeal for funds in Dear River.

Funds raised by the Cancer Society through their financial campaigns are used to carry on extensive work of the Society in cancer research, provision of dressings and comforts to cancer sufferers and other aids to those who suffer from the dread disease. The Society also carries on a heavy program of educational work as part of their program of work aimed at stamping out the dread scourge.

Former Courier Employee Passes

Frank F. Dakin, 63, of 5 Higgins Street, Allston, husband of Mrs. Alice B. Dakin, of 833 Southern Artery, Quincy, died unexpectedly.

He collapsed at his work at a printing office in Boston, and was rushed by ambulance to Boston City Hospital, where he was pronounced dead on arrival. Born in Reading, he had lived in Allston about six years. He formerly lived in Medford.

In addition to his wife, he leaves three daughters, Mrs. Mabel Fisher of Quincy, Mrs. Frances Monroe of Brookline and Mrs. Pauline Hascall of Allston, and two sons, Eugene of Medford and Dean of Quincy; 5 grandchildren; 2 sisters, Mrs. Marjorie Hamilton of Montreal, Mrs. Mildred Menning, of Pasadena, Cal., and 2 brothers, John of Washington, D. C., and Ted of Digby, Nova Scotia.

Funeral services were held from the Short and Williamson Chapel, 173 Brighton Avenue, Allston.

Mr. Dakin was the son of the late Mr. and Mrs. Outram Dakin of Digby and started his printing career at an early age with the Digby Courier. A printer all his life, he worked at various hotels in the New England States and in Florida. He had only recently returned to Boston from Montreal and Florida shortly before his death. His wife was the former A. Beatrice Coffery, of Clementsport.

SUNKEN VESSEL'S CREW RETURN TO HOMES

Eddie Muise, second engineer, Reginald Robicheau, mate; Camille Robicheau, cook; Ben Robicheau, Andre Deveau and Alphonse Deveau, seamen, all of the District of Clare, were on board the motor vessel Charles A. MacLean which sank on a trip from Turk's Island.

The captain of the ship, Thos. Edmunds, North Sydney; chief engineer Russell Spindler, Lunenburg, and the Digby County men, arrived home on Thursday of the past week. The men had

been rescued by the Patricia Sweeney, in charge of Captain William Crouse, Lunenburg, and were landed after an eight day trip to Westport.

Both vessels which left Turk's Island were loaded with salt. By 4 a.m. the following day, the MacLean, registered at Yarmouth and owned by Minas Transport Company of Hantsport, started leaking badly.

Captain Edmunds discovered that his pumps could not keep

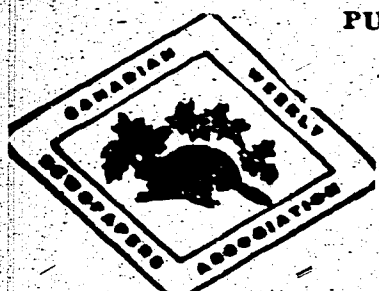

up the rapid intake of water. He radioed Captain William Crouse, skipper of the Sweeney, then about five miles away.

Captain Crouse sped to the assistance of the limping MacLean. Fair weather facilitated a quick transfer of the skipper and crew of the sinking vessel. The skipper later said there had been no difficulty with the boats during the transfer.

The Patricia Sweeney stood by the MacLean until she went

completely under, at about 8:30 a.m. This was just four hours after her leak was discovered and a mere 14 hours out of Turk's Island.

Interviewed at Yarmouth's Fairmont Towers on Thursday, Captain Edmunds told newsmen he and his crew were "deeply grateful to Captain Crouse and his men for their prompt response" and for courtesies extended the MacLean's crew during the eight-day trip home.

About This and That

Welcome News Of Polio Vaccine

About two hundred seventy-five children in the Digby area were among the approximately 18,000 in Nova Scotia to get their first injections this week of the Salk vaccine for the prevention of polio. Digby County has had its experiences with poliomyelitis and the news of the success of the vaccine and that the inoculations would be given to the Primer classes and Grade 1 here was received with rejoicing by an appreciative people.

Perhaps 1,000,000 children in Canada might be inoculated against the dreadful disease before the polio season reaches its peak this summer, federal health authorities have estimated. With the vaccine pronounced "safe, effective and potent" with the possibility of complete triumph over polio, this would mean that possibly 1,000,000 Canadian children will be free from the shadow of the great crippling and killing disease.

The vaccine, according to reports issued from Ann Arbor, Michigan, last week, was found to be eighty to ninety per cent effective in preventing paralytic polio. Dr. Jonas E. Salk of Pittsburgh, who developed the vaccine, immediately declared that he is sure it is potentially 100 per cent effective, and can bring complete triumph over the terror and tragedy of the children's plague.

Dr. Salk will go down in history as one of the great men of his age. He, whose ambition once was to be a lawyer, has given a contribution to the world that is priceless. He will probably never be rich monetarily but he will be rich in the satisfaction of having given his intellect and ability for the benefit of mankind. As Dr. Salk himself has said, "There is more in life than money."

Get Off The Line

"We have nearly twenty phones on this line and so many 'listen-in' that it is almost impossible to conduct a phone call. Can't you do something?" Those were the words of an irate resident of a nearby village one day not so long ago.

Well, there is little we can do but write what we think of people who talk overtime on phones and worse still to "listen-in" on other people's conversations.

The telephone is a public service and all who want to use it have a right and privilege to do so. But, like with many public services there are always those ready to abuse the use of the telephone and curb its usefulness.

One way of abusing the use of a telephone, particularly on a party line, is to use the telephone overtime for idle gossip. People who do this have failed to realize the important functions of the telephone. It is a quick and could be an efficient method of transmitting business operations. It is a quick and convenient method of transmitting information relative to the social world and the business and work-a-day world provided the prompt and efficient service is not hampered by the selfishness of telephone hogs and the nuisance of "nosy listeners-in." Surely, such conversations are entitled to the courtesy of a bit of privacy.

Then there is the emergency call. It could be that medical assistance is urgently needed or some other emergency such as fire might necessitate immediate use of the telephone. Or, if there is not an emergency, one of the conveniences of the telephone has been to summon medical aid when necessary without having to walk miles for the purpose. But people do like to conduct their own private conversations about their ills without the unhappy thought of "who's listening in."

Laws are being passed in some parts of the United States dealing with the nuisances experienced with telephones. Just what can be done here we do not know. At least, we can hope that the abusers will have a change of thought and respect the rights and needs of others in the use of the telephone.

Little League On The March

Enthusiasm ran high for a couple years with the young boys around here in the baseball world. With the inauguration of the Little League baseball the Little Leaguers went all out in expending energy on the sport and reports of their games and behaviour was above reproach. And judging from the high spirited young fry who came to the Courier Office last week, their enthusiasm hasn't waned. According to them they had just come from a meeting of their crowd held in an open field around the Racquette where they discussed all the merits as they saw them, for continuing the Little League baseball.

Irrespective of the views of the Little Leaguers themselves what should be the merits of baseball for the younger set? We would judge a properly operated Little League would play a substantial role in training future citizens. It provides organized recreation for their summer time vacation but it can do more than that. It should develop a sense of good sportsmanship and fair play a right for any one to win. It should instill in the minds of the future men that playing a clean, fair and square game is more important than victory. It should create a sense of team spirit and tend to teach cooperation for the every day walk of life. Little League baseball should be a character builder.

These same merits should apply to hockey, baseball or any other game. When drinking, poor sportsmanship, fighting or cheating enters any game it has lost all its original purpose and might as well be jotted down as time wasted and deserving of little public support. Unless the chief good aims of games are upheld by the senior players and leaders then sport instead of being a character builder for the younger people becomes a detriment to them.

So whether it is baseball in the summer, hockey in the winter, or games of other seasons, let's learn to play and live them right. Only then are they deserving of the public support they demand.

Security On The Street

Hundreds of automobiles are stolen every year and thousands of articles are stolen from parked vehicles.

The stealing of an automobile is not only a crime which may involve your property. Many innocent people have been killed or badly injured by juvenile joy-riders and criminals trying to escape in a stolen car.

WHEN YOU LEAVE YOUR CAR:

MAKE SURE that it is securely locked.

DO NOT leave luggage, parcels, or personal property on the seats where it may be seen and tempt the thief. Lock such articles in the luggage or glove compartment.

DO YOU MAKE REGULAR VISITS TO YOUR BANK?

Every year there are many cases where bank deposits or payrolls are snatched from unsuspecting clerks — often with violence, sometimes even murder. Therefore:—

DO NOT permit female employees to carry cash to and

from your bank in an obvious cash-bag or in their handbags, without escort. Criminals are on the watch for such an easy prey.

If you regularly carry large amounts to or from your bank, vary your route and time of journey — and have someone accompany you.

DO YOU DELIVER MERCHANDISE BY TRUCK?

If your delivery truck must be left unattended can it be property secured? Tail gates should be locked when the vehicle is standing in the street.

DO NOT permit your driver to carry a large amount of cash — if this can possibly be avoided.

Digby Courier,

Digby, N. S.

Dear Sir:

Thomas Edison said "I keep my health by dieting. People gorge themselves with rich foods, waste their time, ruin their digestion, poison themselves. If the doctors would prescribe dieting instead of drugs would disappear. Half of the people are food drunk all the time. That is the secret of my health."

Mussolini, though not a stand, and we would follow other ways, was known for his robust health. He is supposed to have fasted for 24 hours at the first sign of illness. He never drank tea or coffee.

Benjamin Franklin said, "A full belly is the mother of all evil and three meals a day is bad living." (There is a lot of bad living now days if that is the case!)

Our eating habits certainly have lots to do with our health and if we analyse our habits a bit we must admit we do not always do what is best for our bodies. When the flu hits the country it travels so fast from house to house that it is amazing. It proves how weak we really are. Colds, coughs, headaches are so common especially in the cold weather that we are inclined to blame it all on the weather. I wonder how often the Eskimos get colds.

Plenty of natural vitamins and minerals are the main safeguard. One vitamin particularly we need daily as it will not store up in the body. That is Vitamin C and the work of this vitamin is to fight poison and germs. Also, we need more under difficult conditions such as stress, shock, strong emotions, severe cold and heat. Fresh fruits and vegetables contain this vitamin but recent discovery has proved that the humble rose contains many times more than any other source. The rose hip (after the petals have fallen) is the part to save and do this in the fall before frost. Dry them and use in soup or make tea or jam. They taste like a combination of tomatoes and rhubarb. You will note that the deer and birds eat these rose hips in the winter as their instincts tell

them where to get the foods richest in vital elements to keep them healthy.

By MARJORIE MAJOR

The term "permanent resident" is not usually applicable to patients in hospitals. But it does apply to quite a few hospitalized veterans at Camp Hill Military Hospital, veterans of the First World War. Some of them are now without families are unable to provide them with the more or less constant care they require. The simple routine of hospital life is all some of them want to cope with, but there have been others who like "to be doing something," to prove their usefulness and to fill otherwise empty hours.

Most Grateful These are the men who are most grateful for a specialized Red Cross service which answers this need — a handcraft department in the hospital itself.

Its purpose is to provide pleasant and profitable diversionary activity for the men. It differs from occupational therapy (which is a form of treatment) because here the men choose crafts which interest them as a recreation.

There are cases, of course, usually among the younger men, who are veterans of the second world war, which are sent to this Red Cross workshop for certain crafts especially prescribed for them by occupational therapists.

The department is under Miss Mary Romans, who is entering her seventh year in this service. She is a veteran herself, having served as a Nursing Sister in the Royal Canadian Navy. She took her Arts and Crafts course at MacDonald College. Her assistant, Miss Betty Sawyer, is a graduate in the same course from Mount Allison.

In New Quarters New quarters, on the second floor, overlooking Citadel Hill, have just been finished and the department moved in the end of January of this year. The workshop itself, in its sunny location, is painted in sunshine yellow and pale blue. It is equipped with looms for weaving, work table, cabinets for

DR. IVY DEPLORES ALCOHOL HABIT

Speaking before the third annual seminar on alcohol education sponsored by the Church Federation of Greater Chicago in February, Dr. Andrew C. Ivy, a University of Illinois clinical professor, said that total abstinence is the only answer to the nation's alcohol problem.

He said complete withdrawal from liquor is the only "proved, established, correct, scientific, logical, analytical and categorical" answer.

"If parents, teachers and preachers are afraid to teach and preach this truth, our basic civilization has begun to decline," said Dr. Ivy. He added that Americans are spending \$10 billion annually for the poverty, misery, injury, and death of alcohol beverages, while the complete cost of all education, religious work, welfare and research runs less than \$9 billion. "We are spending more money to put the brain to sleep than to awaken it to noble aspirations," said the physician. Only 35 per cent of the estimated 100 million persons of

tools, materials and finished articles, and a sterilizer. All the articles, when completed, are thoroughly cleaned, and toys, such as cuddly animals made of sheering, crib covers and the like, which are intended for children, are sterilized before they are offered to the public. Instruction and use of equipment costs the patients nothing, and they are not required to pay for their materials until the articles they have made have been sold. The entire profit is returned to the individual craftsman. According to Miss Romans over \$1,000 went to the men last year.

For Extra Treats Some of them make just enough to provide little extra treats for themselves. Others have been able to make long cherished dreams come true. One man saved enough to buy a signet ring which he had always wanted to own. Another sent money to his family to help with house repairs, and still another bought something

he had long wanted, a good watch. Over a period of years the quality of work, and type of articles available have become fairly well known, so that many orders are received for specific items. The Camp Hill craftsman have won distinction in exhibitions, such as the C.N.E. in Toronto. Some of their articles are regularly sold by several gift shops in the province. A local store (Mills Brothers) co-operates in an annual pre-Christmas sale. As Miss Romans says, "a good article, well made, is our best advertiser."

Simplicity is the keynote in design for the older men, who take a great pride in good workmanship. The workshop has made an interesting specialty of woven nylon bags which are in demand the year around. This Red Cross workshop is only one small example of Red Cross service, which reaches into people's lives at so many points. Your donation, big or small, will be welcomed.

voting age in the United States refrain from alcohol, he added. Dr. Ivy cited surveys showing that alcohol causes 40 per cent of personal injury accidents and 51 per cent of traffic fatalities.

"THE TYRANNY OF THE TREATING TRADITION"

"My story from eighteen to twenty-eight is of hard work in business, and of what I then regarded as emancipation in other respects. I abandoned the family teetotal tradition, in the false belief that it was good for business, and was only brought back to the water wagon by a wife who, not then herself an abstainer, took the view that, as the prospective head of a family with generations of work for the temperance movement, it was my duty to follow on the same lines. It is possible that some business is lost to the total abstainer, but I am convinced that on balance he gains. The man who is strong enough to decline a drink will, as often as not, bring a sense of relief to the officer, who will be thankful for the chance to escape from the tyranny of the treating tradition." The late Sir Ernest Benn in his book, "Happier Days".

IT IS THE GREATEST SINGLE FACTOR IN MARITIME PROSPERITY

According to Nova Scotia Government figures 20 per cent of the population of the province directly depend on the coal industry. Without a prosperous coal mining industry all Maritime welfare would be seriously jeopardized.

IT IS THE GREATEST SINGLE EMPLOYER OF LABOUR

The coal industry employs more than 15,000 wage earners. The industry annually distributes some \$50,000,000 in wages. Without this \$50,000,000 in circulation all business would be adversely affected.

IT IS MARITIME INDUSTRY'S BEST CUSTOMER

In addition to amounts spent in wages, taxes and royalties, the coal industry annually spends \$15,000,000 in purchases of stores and supplies. This expenditure of \$65,000,000 annually makes it possible for other manufacturing and retail businesses to maintain a high level of employment.

IT IS A GOOD FRIEND TO THE TRANSPORTATION WORKERS

Nova Scotia coal is responsible for the expenditure of \$8,000,000 annually with transportation companies. Without this business the companies and their employees would be adversely affected.

Rev. E. C. Churchill, Digby, pastor of the church, officiated at the double ring ceremony.

The bride, who entered the church on the arm of her father, looked lovely, attired in a floor-length dress of white nylon net over satin. Her gown was trimmed with mother-of-pearl sequins and the bolero, buttoned from the high neck to the waist line, had long sleeves tapered over the hand. Her coronet was trimmed with matching sequins. Her bouquet was of pink roses and white carnations.

Miss Marie Porter, bridesmaid, wore a floor length blue organza and carried a bouquet of roses and mums. Her coronet was of organza adorned with forget-me-nots.

Dean Porter, Oakville, Ont., brother of the bride, was best man. Ushers were Robert Pyne and Ronald Porter.

CARS ARE MY Line
by Ken Hankinson

When you buy a car, even one of the low priced cars on our used car lot, it will probably be your largest investment outside of your home, if you own your own home. If you don't, then you will have more money invested in your car than in anything else.

That's why it pays to know something about cars, more for instance, than the lady who was driving along the highway last summer in one of those European cars with the engine in the back and the luggage compartment where the engine usually is.

She was purring along when suddenly the car stalled and she had to pull over on the shoulder. She got out, raised the hood and shrieked so you could have heard it two concessions away. "My stars, I've lost the engine!"

Fortunately, another woman was on the highway in the same kind of car and when she noticed the stranded lady she pulled up to help a fellow-owner.

"I seem to have lost my engine," explained the stranded one.

"Well, this is lucky," said the Good Samaritan. "I just happened to look in our trunk today and I noticed we have a spare engine in there."

You probably know more about cars than the stranded lady, but if you don't we'll tell you frankly what our cars have and what they haven't in language you won't need a dictionary to translate.

We want you to know exactly what you're buying because you're making your largest, or second largest, investment in comfort, satisfaction and convenience. There is no purchase that can bring more happiness than a good, neat car. But a car that takes you through the wringer by depreciating faster than it should isn't going to improve your temper or our good name. That's why we want you to look under the hood, into the trunk, everywhere you want. Road test the car, too.

well apart, on lightly-floured cookie sheets; grease tops. Cover and let rise until doubled in bulk. Carefully lift a few at a time into shortening that has been heated to 365° — hot enough to brown a cube of day-old bread in 60 seconds. When under-sides are browned, turn and cook second sides. Carefully lift from fat and drain on absorbent paper. Coat with a mixture of fruit sugar and cinnamon or brush hot doughnuts with the following syrup: Heat, stirring until the sugar dissolves, 1 c. granulated sugar, 1/4 c. butter or margarine, then stir in 1 tsp. vanilla; keep hot over boiling water — if syrup becomes too sugary, stir in a little boiling water and heat to boiling point. Yield — 3 dozen doughnuts.

Note: Dough may be cut with an orthodox doughnut cutter; fry the doughnuts and the "holes".

Chevrolet paves the way

Takes the jolt out of riding

New suspension systems, front and rear, are engineered to give the smoothest ride you've ever known.

Takes the lean out of tight corners

The new low centre of gravity, wider spaced springs and tubeless tires give an amazing new grip of the road.

Flattens the hills — hugs the road...

Brilliant new high compression, valve-in-head V8 or 6-cylinder engines combine with a new low weight-to-power ratio that means breathtaking response.

Takes the dip out of stopping

No more dipping and diving. The Chevrolet hood stays up level even during sudden stops — letting you maintain sure control with ease.

... And Looks So Lovely, Too!

It's not just the exciting ride that makes Chevrolet dramatically new. For when Chevrolet decided to combine the agility and safety of a sports car with the room and comfort of a family car, the designers were free to set the pace for things to come in functional, dashing styling. The result is a new kind of family car, as you will discover for yourself when you take a "Pleasure Drive" at your local dealer's. Why not call him today?

Plan Mental Health Week Program

An active program to mark Mental Health Week, which opens May 1st, in the local area has been developed by the newly organized branch of the Mental Health Association here, it was learned this week.

It is understood a public meeting will be held at the theatre in Weymouth Monday evening, May 2nd, at which the guest speaker will be Dr. A. H. Leighton, of the Digby Psychiatric Clinic. The chairman of the meeting will be L. E. Hersey, of Weymouth. Chairman of the Digby Municipality Mental Health group.

Dr. Leighton, it is understood, will speak at the Weymouth meeting on the general subject of mental health and will outline work being done in Nova Scotia, throughout Canada and in the United States to combat mental ill health and to develop programs conducive to mental and emotional well being. A discussion period will follow Dr. Leighton's address.

A public meeting will also be held at Smith's Cove in the Temperance Hall Tuesday evening, May 3rd. At this meeting Prof. W. H. D. Vernon, of the Digby Psychiatric Clinic, will be the guest speaker.

Prof. Vernon will speak at Smith's Cove on the general subject of mental health and a discussion period is also scheduled to follow his address.

The mental health group also plans the distribution of a number of pamphlets on mental health throughout certain sections of the county. These will serve to highlight the purposes of Mental Health Week and it is hoped they will stimulate greater interest in the work and efforts of the local Mental Health Association.

Distinctive Costume Chosen By Acadian Group

Several members of the Acadian Bi-Centennial Committee, Digby Branch, met in Saint Patrick's Church Rectory on Friday, April 22nd, to discuss program topics for activities in and around Digby during the summer.

Mrs. Marie Harney, of Bellevue's Cove, who is the advisor for the whole diocese of Yarmouth with respect to costumes, was the special speaker. Dressed in her simple Basque costume, Mrs. Harney added a touch of Acadian color to the gathering. The ladies met with Mrs. Harney and discussed the choice of a suitable costume for the Digby group. The one chosen is "Val de Loire". This costume consists of a long full-skirted cotton print dress with a matching satin bib-apron. The accessories are a simple organdie cap, white stockings, black flat-heel shoes and old-fashioned jewelry.

Each Branch along the French shore has selected a distinctive costume and it is not uncommon to see young and old, petite or buxom, walking through the villages in their colorful Basque, Bretagne or Ile de France costumes. Many proceed to Yarmouth and other surrounding towns to do their shopping while wearing these costumes. It is felt that this will create a great impression upon the tourist population and definitely arouse interest in the forthcoming festivities.

The Acadian Bi-Centennial is intended as a tribute to the courage and determination of the members of this race; to the survival of their distinctive culture, customs and religion. This is the main reason why the costume chosen by individual groups is an authentic reproduction of those worn by French peasants in the year 1755 and in many instances are still worn in modern France.

Amongst the events planned for the summer are a float depicting Acadian life for the July 1st parade; the possibility of a costume ball and other activities to be announced later.

It is understood that a group of Acadians from Digby Town will be attending the Princess Ball at the Hotel Champlain on Friday, April 29th, and that they will be dressed in the "Val de Loire" costume which was that worn by Joan of Arc, of Orleans, France.

Trinity Guild will meet at the Rectory Tuesday evening at 8 o'clock with Mrs. Wilson, Mrs. Hersey and Mrs. Hall as co-hostesses.

His death came as a sad blow to both friends and relatives who, although they were aware his illness was serious, were hopeful he would make a good recovery.

Dean of the Nova Scotia Weekly Newspaper industry and Past President of the Nova Scotia Weekly Newspaper Association, Mr. Wallis began his career as a printer sixty-seven years ago in the little village of Salem, near Yarmouth. Later he went to work with his father on the old Yarmouth Times and remained there for almost twenty-five years, holding every position from printer's devil to managing editor.

For a time Mr. Wallis served on the editorial staff of the Halifax Herald around the turn of the century. Intensely interested in marine matters, he wrote during his newspaper career many stories on marine matters in the province and also covered many of the famous shipwrecks in the Yarmouth area.

Cove completely renovated and in re-awakening real interest in the work of the Order in that community.

Only last year he gave leadership to Home Division in acting as hosts for the National Division of the Sons of Temperance of North America, the first time in the history of the Order a local division has had this honour.

Earnestly interested in the work of his church, Mr. Wallis served for many years on various boards and committees of Grace United Church here and the United Church in Smith's Cove where he was Treasurer and an Elder. He was also active in the work of the Annapolis Presbytery of the United Church and in the Maritime Conference which he attended regularly and in which he served on a number of important committees.

Treasurer for many years of the local branch of the British and Foreign Bible Society, he took an active part in the organization of the annual campaigns of this society in the local area.

Interested in community and civic affairs, Mr. Wallis served a great many years as a member and officer of the Digby Board of Trade and was chairman for a number of years of the Tourist and Publicity committee of the Board. As head of this committee he developed and carried out a number of tourist publicity campaigns for the Board.

He said the public was being educated on mental health but were slow to accept this illness. An individual deals with three important factors, mainly physical, mental and spiritual. The Nova Scotia Hospital is well run, with up-to-date treatment and good staff. They give treatment second to none on the North American continent, he added. There are 850 cases in one year in Nova Scotia. He pointed out the necessity of a complete yearly check-up to decrease deaths from cancer.

Other guests of the evening were Mrs. MacDonald and Mr. and Mrs. J. Olmstead, Freeport. Delicious refreshments were served.

Church Group Presents "Showboat"

A church group from St. Clement's Parish presented an excellent variety program with excerpts from "Showboat" at the Regional High School here Thursday evening in aid of the Social Club of Trinity Parish.

Master of ceremonies for the program was Red McNeill. Mrs. Seeley and Tom Davis presented "Only Make Believe" as a vocal duet. An amusing vocal number, "Lazy Bones" was presented by Florence McNeill and Eric Williams.

One of the hits of the show was the rendition of "Old Man River" by S. J. Armstrong, who also sang a duet number with Mrs. Valentine Robinson and the pickaninny chorus and dance group.

A real mystifying performance was put on by Jim Rowdick and his sleight of hand tricks which delighted young and old alike.

A song and dance number by Bob Potts and Glen Merritt in blackface also made a great hit as did the vocal rendition by Mrs. Potts of "Bill, Jean Merritt's solo, "Can't Help Love In That Man," also was a hit as was the splendid dancing of petite Julia Smith. Harold Sutt produced gales of laughter with his blackface monologue on troubles.

Chorus numbers and background music were provided by the Cotton Blossom Singers and accompanists were Rev. and Mrs. S. J. Armstrong with Bill McKim on the traps.

Princess Ball Tomorrow Night

The annual Apple Blossom Princess Ball, at which Digby's Princess for the Apple Blossom Festival is chosen, will be held tomorrow evening at the Hotel Champlain.

A great deal of interest in the ball has been aroused this year, it is learned, and a large number of contestants for the coveted role of Digby Princess have signified their intention of entering the competition.

Sponsored by the Digby Board of Trade, the arrangements for the Princess Ball are under the leadership of a committee headed by E. B. Tufts. Assisting with arrangements are members of the Ladies' Auxiliary of the Digby Branch of the Canadian Legion and other local groups and organizations.

A special feature of the ball this year, it is understood, will be the presence of a number of Acadian couples, who will be garbed for the event in the traditional costume of the Acadian settlers of the Land of Evangeline.

Entrants in the Princess contest are also expected from a number of organizations and firms in Digby, from Bear River, Digby Neck and other sections of the County.

The committee in charge of the Ball have expressed the hope there will be a good attendance at the affair so that all contestants and participants will feel they have the support of the public of the area and the ball will be a success.

H. & S. Holds Social Evening

The Bear River East Home and School Association held a social evening in the school house on Wednesday evening, April 20th, with the president, R. A. Pierce, presiding.

The program was in charge of Mrs. Arthur Jefferson, assisted by Mrs. George S. Jefferson and Mrs. Marshall Wheelhouse. Mr. Arthur Jefferson looked after the grab bag, which was well patronized. Mrs. Ralph Jefferson sold home-made fudge which sold very quickly. Lunch was served by the refreshment committee, in charge of Mrs. R. A. Pierce, assisted by Mrs. Fred E. Jefferson and others.

The evening was greatly enjoyed by all present. Proceeds will be used to buy playground equipment for the school.

A TRIBUTE

This week we at the Courier office, along with all those who knew him, mourn the passing of a true Christian gentleman, a man whose every word and deed spelled kindness.

His was a quiet and simple dignity which required no trappings of title to command respect. So kindly was his manner and so gentle were his ways that all who knew him were moved to regard him with the respect and affection that only true goodness and real greatness can elicit.

To all who knew him, be they great or small, he was simply "J.J." Into those two letters, the initials of his Christian names, went all the love, respect and devotion of his family, his business associates, his employees and his friends.

A man in whom there was so little ill that he could see none at all in others. "J.J." moved through life quietly and serenely, meeting problems and difficulties calmly. His quiet serenity and simple dignity oftentimes served to still the tongue of discord and bring harmony and accord in the many organizations which he served.

Almost every effort for good in this community and many throughout the province benefited from the wise counsel and earnest efforts of this kindly man who, in all his works, personified the life of service to his fellow men of Him whose example he tried so hard to follow.

In his passing this community and this province has lost a leader, an example and a friend who leaves behind him a train of memories of kindly deeds performed, of kindly words spoken, of encouragement given and true goodness personified. Truly, it can be said of him that all his ways were gentleness and all his paths were peace.

About This and That

Fire Prevention In The Kitchen

It is a good idea, occasionally, to check around the house for possible causes of fire, and to correct them as soon as uncovered. Here, for instance, are a few reminders about fire prevention in the kitchen:

Don't use or keep inflammable cleaning fluids in the kitchen — or anywhere in the house.

Always inspect the stove before you leave the house.

Don't let grease accumulate on stove, and keep grease containers away from the stove.

Make sure window curtains and hanging towels can't blow into gas flames or over the hot stove.

Don't throw flour, uncooked cereals or dust from a vacuum cleaner or dustpan into a stove with fire, or into a burning incinerator. Dust is explosive.

Guard against spontaneous ignition by keeping oily rags in closed metal containers. It's better to keep them in a cool open spot on a porch than in a hot, closed closet. — Farm News.

Protect Yourself & Your Property

DO NOT let your carelessness provide the temptation which could start someone on a criminal career.

DO NOT rely entirely on your insurance.

Insurance will make good that which has been lost; that is, the replacement value of the stolen goods and the cost of repairing the damage. But — apart from the material compensation — you have the trouble and expense of taking stock, the inconvenience to yourself and your customers, and the possible loss of trade and good will because your normal working program has been upset.

PREVENTION IS BETTER THAN CURE.

REMEMBER that certain diseases have been virtually wiped out by the precaution of inoculation and other preventive measures.

HELP us to do the same by co-operating with us in the WAR AGAINST CRIME.

The most essential part of crime prevention is CO-OPERATION — the Police and the Public working together. The Police will do as much as they can; that is, as much as you will let them do.

IT IS UP TO YOU

Rehabilitation School

The third rehabilitation school for tuberculosis ex-patients will be held at the Nova Scotia Sanatorium, Kentville, from June 14 to June 25 inclusive. Once again this will be a joint project of the Nova Scotia Tuberculosis Association, the Nova Scotia Department of Public Health and the Nova Scotia Department of Education.

A planning committee has been set up consisting of Dr. J. E. Hiltz, Superintendent of the Sanatorium, Miss Betty Murray, Adult Education Division and Fred G. Barrett, Director of Rehabilitation for the Nova Scotia Tuberculosis Association. Dr. Barrett will act as director and registrar for the school.

D.H.M.O.'s, tuberculosis hospital superintendents, rehabilitation supervisors, public health nurses and local tuberculosis associations are invited to submit the names of ex-patients whom they consider eligible and would recommend as suitable candidates. Free accommodation and board will be provided for the ex-patients at the Sanatorium.

Individual ex-patients may also apply. Such nominations should, where possible, be accompanied by a certificate of physical fitness signed by the family physician or the Divisional Medical Health Officer. If these are not supplied, action will have to await the obtaining of such a certificate.

It is proposed that attendance be limited to twenty-seven, preferably three ex-patients from each health division but, if these quotas are not filled by May 31, the registrar reserves the right to fill the vacancies by other means. Students will be notified by the registrar whether or not they have been accepted.

Did You Know...?

That the Salvation Army, which celebrates 90 years of service in July of this year (1955) is the outgrowth of a small mission set up in 1865 in London's churchless East End?

That William Booth, Salvation Army founder, was originally a Methodist Minister, but gave up his church after his evangelical methods of reaching the poor had been denounced as unorthodox?

That one of the first religious meeting places of The Salvation Army in London was on the site of a notorious public house called The Eagle, which William Booth bought in order to stop what was generally conceded to be a "sink of iniquity." This place was sufficiently notorious to inspire a comic song, famous today, which became popular in the music halls, the jaunty chorus of which was:

Up and down the City Road,
In and out the Eagle,
That's the way the money goes.
Pop goes the weasel.

(Not many people know that "pop" was a colloquialism for "paw," and "weasel" a slang word for watch.)

That originally The Salvation Army lasses, who made doughnuts famous in World War I, planned to serve fudge, but switched to doughnuts when the demand for food increased? The original doughnuts were really "twists." When modern baking facilities and doughnut cutters were obtained, the

doughnut with the hole resulted.

That Salvation Army brass bands were originally used to help drown out the jeers and catcalls from street rowdies? General William Booth liked music and caused the bands to be universally adopted.

That one of the most effective Lost and Found bureaus in the world is operated and has been operated for some years by The Salvation Army? Through its world-wide organization, The Salvation Army will undertake to look for a lost person anywhere in the world. Long-lost heirs and long-lost husbands have been successfully tracked down.

That the Salvation Army in Canada operates a Field Unit in isolated areas which is a mobile church, emergency van, ambulance, dispensary, canteen, all in one? Two girl officers "man" the vehicle which one week is providing film entertainment for loggers in a remote camp, and the next dispensing nursing care at the scene of a disaster.

That the Salvation Army is operating "Harbour Light" stations in the Skid Row areas of U.S.A. and Canada. In Vancouver and Toronto the men who are most "down" need not be out. Every facility for rehabilitation is provided "under one roof" at these centres.

The Salvation Army Red Shield Appeal opens here on May 2nd under the County chairmanship of A. D. Sulis. Lieutenant Earl Birt is campaign director; Gordon Turnbull, chairman. Herb. Morton,

Capitol Attractions

Coming Friday and Saturday, April 29 - 30, at the Capitol, Digby, it's Rod Cameron and Forrest Tucker in "San Antonio." With a setting in the wild west this movie ranks next to "High Noon" in suspense and action.

Monday and Tuesday, May 2 - 3, it's that hilarious pair, Donald O'Connor and Francis (the Talking Mule) in their latest and best fun packed hit, "Francis Joins The Wacs". For an evening of fun and laughter it's tops in movie entertainment.

Wednesday and Thursday brings you a movie that is a "must" for those who appreciate the best in movie entertainment. For two days only it's "The Country Parson", starring John Beal. Filmed deep in the backwoods of Kentucky, this movie brings you the story of a country minister who shared the joys and sorrows of the peace loving people around him.

treasurer, and Mrs. J. M. Wallis, publicity chairman.

The objective for this campaign is \$1700.00.

in one of the greatest stories ever told.

"THE COUNTRY PARSON" OUTSTANDING MOVIE

Special note should be given to the movie "The Country Parson" showing at the Capitol, Digby, next Wednesday and Thursday, May 4 - 5.

Said to be even greater than "One Foot In Heaven", "The Country Parson" brings to the screen the true life story of a young minister who journeyed deep into the Blue Ridge Hills of Kentucky where God was only a name.

Here he lived as one of them, sharing their sorrows, griefs and joys in an unforgettable story and movie that brings everything that could be desired in a movie. "The Country Parson" is the picture that says "God Bless Everybody".

All wisdom is not new wisdom, and the past should be studied if the future is to be successfully encountered. — Sir Winston Churchill.

"Want some help
with your homework, Dad?"

It's a good thing young Ted is only joking.

If his Dad took him up on that offer, Ted would soon find himself floundering in a sea of facts about family income management, succession duties, taxes, wills, trusts, business insurance and other related subjects!

You see, Ted's father is a typical life underwriter — a man who has not only been trained for his job, but keeps up-to-date by constant study. For the uses of life insurance are more extensive today than they used to be. And the men who represent companies in this business now advise you with increased skill.

Doing this calls for more than study. It takes real understanding of people's needs. And since each family's needs are different, the company representative offers valuable guidance in making plans to fit these needs — individually.

All in all, the life insurance man you deal with today is a very good man to know. And his progress is another reflection of the many ways in which the life insurance business has developed with the times to meet your changing needs!

RED CROSS BLOOD CLINIC

The people of Bear River are to be congratulated for the excellent response to the call for blood at the clinic which was held at Digby on Thursday, April 21. Year after year and sometimes twice a year the citizens of Bear River have accepted the challenge for the urgent request of blood and as each year passes more and more donors are most willing to donate their blood to this most worthy cause so that at the last Clinic held at Digby more than 60 people attended.

The Red Cross Branch of Bear River wishes to extend its thanks to those generous donors and also to express its thanks to the car owners who helped to make the campaign a success by transporting the donors to and from the Clinic.

Letter To The Editor

Liverpool, N. S.
April 18, 1955.

The Editor,
Digby Courier,
Digby, N. S.

Dear Sirs:
We appreciate very much the fact that you have sent our Courier to Yarmouth during the winter months. We look forward to receiving it and it keeps us up to date on the affairs at home. From this time until we reach Digby we shall be moving from place to place so it would be as well to address our Courier to Box 94, Digby.

We were very much interested and pleased to read that Digby is to be beautified this summer and in connection with that the following thought occurred to us. Since the Shore Road is the most popular and certainly the most scenic drive near the town, would it not be an opportune time to suggest as was mentioned in the Courier once before, that the roadside is not a dumping ground. For years brush has been cut and left on the shore side of the road and it would seem that it will not be cleared away, pity though it seems, but when garbage too is left to decay it would not present too favorable a picture to our friends from afar. We are so pleased to see that people are now interested in making their homes on the Shore Road and we would do anything possible to make the location more desirable. Last summer the road was kept in excellent condition and now that a school bus is in service for the benefit of

OBITUARY

Mrs. Ralph Ruggles
Funeral service was conducted here Saturday afternoon by the Rev. E. C. Churchill, pastor of the Digby Baptist Church, for Mrs. Ralph Ruggles, aged 88, who passed away on April 20 at the Victoria General Hospital, Halifax, after a lengthy illness. Interment was in the Clementsport cemetery.

Mrs. Ruggles, the former Jessie Louise Purdy, is survived by her mother, Mrs. Minnie Purdy of Digby; her husband; a daughter, Judith, and son, Ralph Jr., all at home.

Two sisters, Mrs. Guy McNinch, Sackville, N. B., and Mrs. Harry Hicks, Toronto, survive as do three brothers, Beverly Purdy, Bridgetown; Charlton and Malcolm Purdy, Lynn, Mass.

To ask wisdom of God, is the beginning of wisdom. — Mary Baker Eddy.

the children, surely something has been added to make the situation more attractive. We know of no place as near the town as is the Shore Road where one may enjoy all the benefits of a summer resort. We believe that much credit for the improved conditions can be credited to our new government representative, Victor G. Cardoza.

Thanking you for any suggestions the Courier might be willing to make concerning the cleaning up of our roadside, we are

Faithfully,
Mary and Boyd Ellis.

Card of Thanks

There are times in our lives when words fail to express our thoughts. This is one of those times for the wife and family of the late James J. Wallis.

During his illness, since January 18, there have been so many kind and thoughtful things done for him, and for us — that it is impossible to thank everyone individually — we do want you all to know as best we can, how much we have all appreciated your efforts.

Here, we feel is a moment for us to emphasize especially, the wonderful treatment and thoughtfulness that "J.J." and the family received at the hospital. For nearly six weeks of treatment and medications, the nurses and staff were ever ready and cheerful to administer to his needs. It is scarcely understandable how the nurses were able to attend so well to all the sick, for during that period there were so many seriously ill people who required much care. It certainly has been an inspiration and consolation for us all to realize what a wonderful hospital and staff we have in Digby.

We would especially like to mention his physician, Dr. D. G. Black, and also those fine people at Smith's Cove, who have given so much of their time in preparing the house for "J.J.'s" return, and for their kindness throughout these past months.

So please accept our feeble efforts of gratitude to you all — the love and esteem in which "J.J." was held has certainly been proven in every way, and throughout his illness he, too, was so very grateful to you all.

Thank you.

WIFE and the FAMILY.

The Royal Bank of Canada can help you

Build a Home

of your own

Naturally you need some money of your own to get started. But it is surprising, as the example shows, what a large part of the cost can be spread over the years. And the monthly cost of paying off the mortgage is often less—perhaps substantially less—than you are now paying in rent.

If course your house may be more or less costly than the example. Maximum loan on a single dwelling is \$12,800. NHA loans may also be obtained from the Royal Bank to build semi-detached, duplex and other types of dwellings.

To the amount of monthly mortgage payments you must add a monthly amount to cover local taxes. If these combined monthly payments are no greater than 23% of your gross monthly income, then it will pay you to see your local Royal Bank manager. He has all particulars and an informative booklet telling you exactly how to work out your financing and then what further steps to take.

Loans to help home owners, too

A HOME IMPROVEMENT LOAN, repayable in instalments, may be just what you need to get started, now, on repairs, extensions, other improvements. Information and a helpful booklet on this type of loan are also available at your local Royal Bank branch.

THE ROYAL BANK OF CANADA

Digby Branch: C. V. SNOW, Manager
Branches also in Weymouth, Bear River, Meteghan River and Church Point.

EXAMPLE

of how a loan under the National Housing Act enables you to handle home-building costs:

Lending value of new home.....	\$10,000
Maximum mortgage permitted.....	8,600*
Mortgage insurance fee (2%).....	172
Total amount of Royal Bank Loan.....	\$ 8,772
You need in cash, at least.....	\$ 1,400
Monthly payments, at \$5.96 per \$1,000., on 25-year mortgage.....	\$52.28 plus local taxes

*The amount you may borrow depends largely on the "lending value" of house and lot, which is set by Central Mortgage and Housing Corporation. This valuation may be higher, equal to or lower than the actual cost of your lot plus the price your contractor quotes for your house. For a single house you may borrow up to 90% of the first \$8,000 of the lending value, and up to 70% of the balance.

Marks 90th Birthday

The Courier joins in extending best wishes to Mrs. M. O. Rice, of Bear River, who celebrated her 90th birthday on Saturday.

She received many lovely cards and gifts and the congratulations and good wishes of a host of friends from far and near.

Neighbourly

News Notes

Sunday, April 24th, the Digby Courier received mention on Jack Brayley's "Neighbourly News" program concerning bass running in the Bear River, and the Golden Wedding anniversary of Mr. and Mrs. Beecher Morehouse.

Observe 61st

Wedding

Anniversary

Tuesday, May 3rd, was a red letter day in the lives of Mr. and Mrs. Ingram Dakin, of Centreville, for on that day they marked the 61st anniversary of their wedding. Married by the Rev. J. W. Presswood in Digby, they have lived all their married life in Centreville.

Both Mr. and Mrs. Dakin are in good health and they spent their anniversary quietly at home where they received warm congratulations and good wishes from a host of friends and other messages of goodwill were also received.

Mr. and Mrs. Dakin have six children: three sons, Hilbert and Harley, of Centreville, and Annel, of Medford, Mass., and three daughters, (Violet) Mrs. Edward Banfill, Morningdale, Mass.; (Nina) Mrs. Bucci, Worcester, Mass.; and (Mae) Mrs. Arthur Walker, of Somerville, Mass.

The happy couple also have thirty-two grandchildren and 29 great grandchildren. A granddaughter, Mrs. Muriel Dokoty, and a great grandchild, Mrs. Dokoty's daughter, Mildred, are at present visiting Mr. and Mrs. Dakin. They are from Somerville, Mass.

To Leave For England

Mrs. G. A. Deadman conducted the worship service at Grace United W.M.S. on Tuesday afternoon taking as the theme "To Live and To Give." In a short talk Mrs. Deadman made adverse comment on the way so many people casually do their giving. She pointed out the necessity of setting aside first the portion which belongs to God.

Mrs. Deadman expressed delight in having been associated with the Grace United W.M.S. and informed them that she would be sailing from Quebec on June 1st to spend some time in Birmingham, England.

The president, Mrs. James Brooks, thanked Mrs. Deadman for her services to the branches of the church during her stay here and expressed regret that her residence in Digby was about to terminate.

Mrs. J. M. Wallis gave a report of the Presbyterial meeting held at Lawrencetown recently.

Mrs. Brooks conducted a story period on The Church in India under the heading "Let's Adjust Our Attitudes" in which she endeavoured to impart a better understanding of the people in India and interpret the missionary of today. She was assisted by Mrs. John Russell and Mrs. Burton Fleet.

Mrs. Brooks also announced that this Sunday would not only be observed in the United Churches of Canada as Christian Family Sunday but would also be recognized as the Diamond Jubilee of the opening of the church's work in Angola, Africa.

Mrs. C. B. Parker, Literature Secretary, presented the book "September Monkey" which was won by the Grace United Auxiliary for being the best read auxiliary in the Presbyterial. The book was written by In-drik Park, of Korea and now living in New York. The author was born in September which in Korean means monkey and is in most part her autobiography.

Mrs. William Johnson, Port Lorne, who has been the guest of Mrs. William Graves and Mr. Graves, has returned home.

Mr. and Mrs. H. Glavin, of Westport, were visitors in Digby on Sunday enroute home from Greenwood, where they had visited Mr. Glavin's brother.

PLAN FULL STUDY OF YOUTH ACTIVITIES

A complete study and survey of all matters relating to youth activities in the Digby area is planned by a Citizens' Committee which has been organized for the purpose, it was revealed following a meeting of the committee.

The committee, representative of all organized groups within the town and the general citizenry, is headed by Dr. Douglas E. Lewis. Dr. G. V. Turnbull is Vice-President and F. C. Purdy is Secretary of the group.

At a meeting of the committee held in the Canadian Legion headquarters, it was decided to set up several sub-committees to enquire into various aspects of youth activities and adult relationships to these activities.

The first named of these sub-committees will "study and report on the extent that adult activities in the community might affect or contribute to juvenile delinquency." This sub-committee is composed of N. D. Wright, Rev. James Brooks and Dr. L. F. Doiron.

A second sub-committee will "investigate sports activities and determine whether these activities should be consolidated, extended or curtailed" and will examine the matter of supervision of sports activities. Members of this group are M. S.

H. & S. Adopts New Organizational Plan

Decision to adopt a new organizational set up for the Digby Area Home and School Association was made at a meeting of the association here following the adoption of a brief on organization prepared by a committee under the chairmanship of F. C. Purdy.

The new plan adopted by the meeting provides that a Board of Directors, composed of the Executive of the Association and one member elected from each of the participating school sections, direct and control the affairs of the association. It also provides for a Program Coordinator who will have charge of all meetings of the association and who will be empowered to name a committee at each meeting to organize the conduct of the next meeting.

Definite limits are placed on the meeting programs by the new plan. These provide for a two and one half hour program consisting of 65 minutes for social and recreational effort, sixty minutes for educational activities, fifteen minutes for refreshments and ten minutes for the Director's report.

The plan adopted by the meeting calls for support by the association of an Adult Education program, providing such a program is self supporting except in the matter of transportation. It also calls for support by the association of community projects such as a Regional Library and a Dramatic Club.

It was pointed out at the meeting that, to carry out the proposed programs and to make the association properly operative, a minimum membership of three hundred must be secured.

Provision is made in the plan adopted for the disbanding of the association should the plan prove unworkable or if sufficient support for the association is not forthcoming from the parents of the area.

The meeting expressed themselves as strongly of the opinion that every effort should be made to continue the association within the framework and constitution of the provincial Federation of Home and School Associations and the County Council of that organization. It was decided to submit the brief and organizational plan adopted by the meeting to the provincial Federation and to the County Council for their consideration. It was also decided that, if should prove not possible to continue under the new plan, the Digby Area Home and School Association continue to operate as an independent group.

Officers elected at the meeting included Baden Powell President; Rev. James Brooks, Vice-President; Mrs. Smith Hartling, Secretary; Mrs. Eva Wendell, Treasurer; Mrs. Keith Potter, Membership Convener; Mrs. William Marshall, Refreshment Convener; Wallace Hodgson, Program Co-ordinator; Mrs. J. M. Wallis, Publicity.

Jean Wheelhouse Chosen Princess

Miss Jean Wheelhouse, eighteen year old student of Oakdene Academy, Bear River, was chosen as Digby's Apple Blossom Princess at the annual Princess Ball, held Friday evening at the Hotel Champlain.

Miss Wheelhouse was chosen from among seventeen contestants, representing nearly all sections of Digby County. Judges for the contest were Capt. and Mrs. M. G. Stirling, of HMCS Cornwallis, and Mr. and Mrs. J. C. McQuaig, Kentville.

The new Princess, who is a daughter of Mr. and Mrs. Marshall Wheelhouse, was crowned by Miss Kaye Watkins, Digby's Apple Blossom Princess of 1954. Master of ceremonies for the evening was J. P. Richards, President of the Digby Board of Trade. Chairman of the Apple Blossom Ball Committee was Ernest B. Tufts. Following the crowning ceremonies the congratulations of the Town of Digby were extended to the newly chosen Princess by Mayor Guy E. Morehouse.

Prior to the dance the Princesses, their escorts, the judges and invited guests attended a buffet supper at the hotel.

Music for the ball was provided by Furber Marshall and his orchestra.

A novel feature of the Princess Ball this year was the attendance of contestants from Clare and a number of Acadian couples from Digby in traditional Acadian costume. These costumes are being worn to mark the Acadian Bi-Centennial.

Prior to the announcement of the selection of the Princess the contestants were introduced to the gathering by Victor Carozza. Contestants were:

Marjorie Jackson, Beverly VanTassel, Marilyn Haight, Betty Mount, Helen Watkins, Ella Harris, Jean Wheelhouse, Viola Farnsworth, Joyce Winchester, Irene MacWhinnie, Dot Perry, Mary Winchester, Fedora Robichaud, Ida Amero, Catherine Comeau, Rosalie Blinn, Helen Dugas.

Personal Mention

Donald Wilson has gone to Halifax where he has accepted a call-out in the rank of Captain in the Army and is stationed at R. A. Park.

Mrs. Oakley Turnbull and daughter, Sandra Jean, were recent visitors of Mrs. Turnbull's mother, Mrs. Mae Frost, Little River, and her brother, Eldred, and Mrs. Frost, of the same place.

Danew Atkinson celebrated her 8th birthday on April 27th. On Saturday a birthday party was held at her home in Bay View. Those attending were Phyllis Burns, Carolyn Clayton, Valerie Adams, Joanne and Gloria Joudrey, Linda and Louise Stark.

The Town Council will seek permission of the Department of Municipal Affairs for the purpose of borrowing a sum of money not to exceed \$100,000 for street paving. It was decided at a meeting of the Town Council here Monday night.

It is understood that tentative plans for paving now include Queen and King Streets and 1st Avenue north of Warwick Street and whatever other streets within the town the \$100,000 limit will pave.

The Council voted the sum of \$100 to the Digby Branch of the Acadian Bi-Centennial Committee and also granted the Digby Branch of the Canadian Legion fifty dollars to assist in the establishment of a service hostel here.

Seventeen applications for taxi licenses were received at the meeting. These were turned over to the license committee for action. A building permit was issued to H. G. Webber to erect a tourist cabin and dining room on his property on Montague Row.

It was decided the Council would again give their support to Clean-up Week and that a proclamation would be issued on the matter.

Gets Nickel

Bearing Fish

Bradford Barton, of Acaciaville, got more than he bargained for when he received a gift of a mess of smelts on Sunday.

After receiving the smelts from his brother-in-law who caught them near Weymouth, Brad decided to clean them. As he cut off the head of one of the fish a shiny nickel, caught back of the gills of the fish, fell out. He was elated at his find and proceeded to clean the rest of the smelt.

As he cut open the second fish he found another nickel embedded in the stomach of that one. Proceeding with his task with new zest, he opened up two more of the fish. In the stomach of one he found another nickel and in the stomach of the fourth he found a dime.

The rest of the fish were cleaned with speed and dispatch but to Brad's disappointment no more money was discovered.

It is expected that as news of the nickel bearing smelt from Weymouth gets around there will be a rush of smelt fishermen to the district all hoping there will be more of the money-laden fish.

ST. PAT'S COMMERCE PUPILS GRADUATE

The annual commencement exercises of St. Patrick's Business College were held in St. Patrick's Church on Sunday at eleven o'clock. Those participating in the ceremony entered the church and proceeded up the main aisle as follows: Cross Bearer, William Amiraault; acolytes, David VanTassel and Thomas Muise; the Business College graduates; and Rev. Father Luc Gaudet, who officiated at the entire service. The girls of the graduating class were clad in white caps and gowns, the young men in a black gown, and they took their places in the sanctuary for the Mass, which followed immediately.

The altar and the church were artistically decorated by the Rev. Father Louis Comeau. The church organist, E. J. Theriault, played a beautiful organ selection for the graduation procession.

The guest speaker for the occasion was Rev. Father W. Leo Murphy, Pastor of St. Stephen Church, Halifax. Father Murphy, in speaking to the graduates, said that it gave him great pleasure to return to this fair countryside after an absence of nine years to attend the graduation and to address the graduates. He stressed the importance of their living a life according to the Christian virtues of Faith, Hope and Charity. He reminded them that they had first acquired Faith in God in their own homes and at their mother's knee. There they were taught to have Faith in themselves and that during the months that had just spent at the Business College that Faith had been nurtured so that today they felt confident that they could face the future and do great things for themselves and for others.

At the time they had entered St. Patrick's they had also brought with them the beautiful virtue of Hope, he said. When they had chosen Commerce, they had hoped that they would succeed in their business training, and thus, be ready to find their places in the field of business. The future is veiled from their eyes and God in His great mercy has willed it so, but with their training they have now every reason to hope for success in the future. Father Murphy told his audience.

Then the last and most important of the Christian virtues is Charity, which is really God, he continued. Father Murphy emphasized the fact that the graduates should strive at all times to see God in their neighbor.

About This and That

A Tribute

In the passing of James John Wallis, publisher of the Digby Courier, the press of Nova Scotia has lost a man of sterling character and wide experience; our association of weekly newspapers a true friend and staunch advocate.

While throughout the greater part of his four-score years he was an active newspaper man, he found time to make a generous contribution to church and community affairs. For many years his greatest interest centred in his advocacy of temperance. Into this work he took with him a sense of tolerance and understanding that enabled him to render a service far above the average.

J. J. Wallis was a friendly man, and one who made many friends. His wise counsel and helping hand will be missed in the affairs of our association. His final "30" has been written. His memory is engraved in the good that he has done.

To the bereaved family we extend our deepest sympathy. — Frank J. Burns, President, Nova Scotia Weekly Newspapers Association.

All For Human Need

The Salvation Army's Red Shield Appeal Committee for Digby and district had everything in hand on Monday to get the drive away to a start which will assure a successful conclusion, according to a spokesman for the committee. County Chairman is A. D. Sulis; campaign director, Lieutenant Earl Birt. Treasurer is H. Morton, of the Bank of Nova Scotia, and town chairman is Gordon Turnbull.

Whatever is subscribed in Digby County, the objective of \$1700 or more, subscribers to the Red Shield Appeal can be confident that every cent will be used "All For Human Need."

The Salvation Army spends money where it will do the most good. In the Army's hostels, havens, homes and hospitals, its trained and devoted workers labor unceasingly to restore to men, women and children who have fallen by the wayside, the opportunity and desire for upright, self-reliant living.

Costs of administration, we are told, are kept to a minimum. Salvation Army workers lead dedicated lives of service. To the broken and despairing they offer, not bread alone, but the message of divine Grace which transforms human lives.

The Salvation Army, with the funds received through the Red Shield Appeal, keeps open the Door to Help and Hope on all fronts of human need. New life and hope are offered to men brought to a dead-end by circumstances or misdeed. The Salvation Army offers sanctuary and care to women in distress. Confidence and security are gained by children branded by circumstances. The Army shelters the aged and spreads its mercy to both prison and hospital. Through generous contributions to the Red Shield Appeal the Army sheds its light to gladden countless hearts in many walks of life.

Mental Health Week

This week of May 1st to 7th is being marked across Canada as "Mental Health Week". During the week a concentrated effort is being made to direct the attention of the people of our nation to the subject of mental health and the problems which face Canada because of the prevalence of mental ill-health.

In recent years the problems of mental health have been receiving more and more attention from organizations and groups of both medical men and laymen. Because of study and research directed to this subject much knowledge has been gained concerning the treatment and care of the mentally ill and the development of programs designed to create conditions that will be conducive to mental and emotional well being both at the community and family level.

Today, because of the dedicated work of these groups, the problems surrounding mental health are becoming better understood and mental illness is being regarded more in the light of other unfortunate illnesses and not treated as something so horrible that it must neither be discussed or even thought about.

Only through such an approach can any real progress be made in handling this problem which has long since reached serious proportions and which today is bringing sorrow and hardship to many families across the length and breadth of this nation.

Here in Digby County there has recently been formed a branch of the Mental Health Association. The purpose and aims of this branch are to acquaint the people of our county with matters concerning mental health, the work being done in Nova Scotia and throughout Canada to combat mental ill-health and the part we in this county can play in this endeavour.

We commend to the people of this county the efforts of the Digby County Branch of the Mental Health Association and urge their active participation in the work being done.

This Is Tourist Service Week

In Nova Scotia this week is being marked as "Tourist Service Week". During the week efforts are being made to direct the thoughts of those in this province who are interested in the tourist industry — and this should include nearly every citizen — to the matter of service as it applies to the tourist visitor to our province.

We here in Digby should take a real and particular interest in this subject since Digby has had for many years an enviable reputation as a tourist centre. This year the Digby Board of Trade is making a concerted effort to build up the tourist industry here and has embarked upon a number of worthwhile endeavours in this connection.

These efforts are indeed commendable and it is to be hoped they will meet with success and that more people will be attracted to Digby as tourists because of the promotional work now being done by the Trade Board.

Along with these efforts to attract the visitors, however, must go thought and action to cope with the problem of providing these visitors to Digby with service of a type and nature that will impress itself upon them and will make them not only want to come back to Digby themselves but also to boost our town to others who have still to visit us.

In doing this, thought must first be given to all the things which service means — courtesy, accommodation, good food and all those other things which go toward making the stay of the visitor in a given place both a delightful and a memorable experience.

The program must be a two-fold one and together with thought must go action. This action must be positive — to remove those things which are detrimental to tourist service and to create and provide the things which will develop and improve this service. If we in Digby are to continue to profit as a tourist town we must begin now to work out such a program. Not to do so will be shortsighted and poor policy.

Mother's Love

One day in Switzerland a small child was snatched away from its crib by a large eagle, and carried to the top of a high mountain. The infant was left resting in a cluster of bushes near the edge of a steep cliff. A soldier saw the child's danger and started up the steep ascent to rescue it. Before he reached the top his courage failed and he returned. Another man tried but at a high altitude he got dizzy and also returned without the child. A woman could be seen gradually making her way up the mountainside. Unlike the others she did not look back but kept her eyes on the baby balancing in the thick- et on the high peak above her. Up, up, she went, folded the child gently in her arms, and brought it down to safety. The woman was the child's mother.

There is a poem in one of the school readers called "Lady Clare". Lord Ronald and Lady Clare are to be wed. A day before the wedding Lady Clare's nurse, who she calls Alice, tells that she is not Lady Clare, but her (Alice's) own daughter. The real Lady Clare died as a very young child, and Alice, the nurse, put her own baby in its stead, and led the parents to believe that it was her child who had died, so that it would be the heiress. Lady Clare accepts her position as the nurse's daughter, dresses in plain clothes, and tells Lord Ronald all that the nurse had told her. The poem ends happily, because after their marriage she becomes the real Lady Clare as Lord Ronald's wife.

These two stories are typical of a mother's love. No sacrifice is too great for a mother if her child is in need. It is not likely that the first mother could have climbed that steep mountain if it had not been for the love she had for her baby who was in danger. The other mother gave up her claim upon her own child so that it could have a better position in life than she could give it. Whatever else may be said about such a motive, it was dominated by a mother's love.

How wonderful is a mother's love for her children at any time, but how tender is that love when they are in danger, or ill, or in any other position of need.

As we look back over the years a thousand memories of mother stir our hearts. It may be the sound of her footsteps on the stairs in the wee hours of the morning with the toothache drops, or the kindly way she cared for us when we were

MENTAL HEALTH ASSOCIATION MEETS

A meeting of the Mental Health Association was held in Weymouth on Monday evening, May 2nd, with Lawrence Hersey as chairman. Mr. Victor Cardoza, M.L.A., introduced the speaker of the evening, Dr. A. H. Leighton, and in the introduction spoke of the fact that this organization is new. It is not a money making organization but one to study Mental Health and to bring people to an awareness of it and to improve the situation if possible.

Dr. Leighton who is head of the Psychiatric Clinic in Digby, is a Professor of Psychology at Cornell University and is director of programme for community study in the Digby County area.

Dr. Leighton's topic on Mental Health asked what were the problems along this line and what could be done about it. Two to four per cent of the population, now in hospital are mental cases, 10% outpatient treatments. He spoke of the causes and warning signals and mentioned that there were not enough hospitals or staff or occupation therapy for patients suffering mental health. This association is trying to make people aware of the situation so it can be detected early. Strive for better provision to handle this work, says Dr. Leighton, as there are better drugs now to help and to re-adjust the home patient.

The United Church people are sorry to hear of the official resignation of the Rev. R. M. Cameron which was given at the Board meeting held in Centreville on Monday evening. Mr. Cameron will be leaving here the last of June.

CARS ARE MY LINE
by Ken Hankinson
Several years ago the automobile horn was outlawed in Memphis, Tenn. A special ordinance made it illegal to sound the slightest beep inside the city limits, because police and safety officials thought horn blowing was more of a nuisance than a necessity. It had some surprising results.
Many taxicabs disconnected their horns. Drivers said the temptation to blow their horn in traffic was always great and it was safer to remove them. An elbow might touch the horn accidentally, which could prove both costly and embarrassing.
Fines for violation of the anti-horn blowing law ranged from \$10.00 upwards. It was effective, and visitors to the city often commented on how quiet Memphis was.
A group of women in the East Memphis Women's Club asked the City to install an automobile horn in the museum or set one up in a park so children would know what one looked and sounded like.
A visiting motorist from Mississippi evaded the ban on horn blowing. He attached an electric doorbell to the side of his car and drove through the heart of Memphis ringing his bell merrily. Police scratched their heads, but allowed him to proceed. Motorists and pedestrians guffawed.
If all the motorists in the world were wide awake and all the pedestrians watched where they were going, there would be no need for automobile horns. But I know many a tight spot a polite "beep-beep" of the horn has got me out of.
All the cars on our used car lot have horns, a wide variety of sounds because we have a wide variety of used cars. All the horns work, because we don't sell any cars in Memphis, Tenn., and everything else in the cars we sell works too.

WILDLIFE PARK POPULAR
The Department of Lands and Forests Wildlife Park at Shubenacadie is quite a popular place of interest in our province, since its opening in 1948. This fact can be verified when we realize that during August of last year, they registered 10,570 visitors. They had between four and five thousand visitors on Sundays and an average of 200 people during the weekdays. A total of 33,911 names are registered in the guest book from July 1st to December 31st.
At the Wildlife Park can be seen Deer, Wildcat, Rabbit, Raccoon, Skunk, Fox, Beaver, Owl, Black Duck, Mallard Duck, Canada Goose, Wood Duck, Chukar Partridge, Pea Fowl, Bobwhite Quail, and seven varieties of Pheasants, plus one Black and one Black and grey Squirrel. Eventually they hope to have Bear, Lynx, Moose, Otter, Fisher, Marten, Porcupine and Groundhog. The Wildcat still "wild" is not inclined to make friends with anyone at present. Five fawn deer were born a year ago at the park. The two-year-old doe and also the three-year-old had twins.
Due to such large numbers of guests, especially on fine Sundays, the parking lot was enlarged to accommodate 200 cars; and now it is felt that the lot will have to be again made larger.
From the number of visitors it would appear that many people are enjoying their visits to the park at Shubenacadie.

You can't go ALL-OUT If you feel ALL-IN

These days most people work under pressure, worry more, sleep less. This strain on body and brain makes physical fitness easier to lose—harder to regain. Today's tense living, lowered resistance, overwork, worry—any of these may affect normal kidney action. When kidneys get out of order, excess acids and wastes remain in the system. Then backache, disturbed rest, "tired-out" heavy-headed feeling often follow. That's the time to take Dodd's Kidney Pills. Dodd's stimulate the kidneys to normal action. Then you feel better—sleep better—work better. Ask for Dodd's Kidney Pills at any drug counter.

Begin Softball Practice Sessions

If members of the Digby Fire Department appear to be walking a little lame, these days, and complain of aches and pains, you may be sure it has nothing to do with the weather but is merely a result of the fact two practice sessions have now been held by the Firemen's softball teams.

Last Thursday evening spectators at the Digby Ball Park were treated to a sight that was really thrilling. Out on the field, filled with grim determination, were members of the Fire Department in position for a life or death struggle. Instead of hoses or fire axes, however, they were equipped with gloves, mitts and softball bats.

Two teams were formed from the company at the Thursday evening session and at the close of play, although there seemed to be some doubt about it, the score was claimed to be 12-11.

Another practice session was held Sunday afternoon and at this session there was a much larger turnout, although play was not any more spectacular. Both sessions featured faultless fielding and perfect pitching — or at least so those who were playing claim.

It is understood another session will be held this evening when play will commence in real earnest. Great rivalry exists for playing positions on the team and a number of prospects from the ranks of the department are being tried out.

The department is in hopes other organizations in the town will organize teams so that a league may be formed here this summer.

Has Digby Chickens In Jericho

Miss Anne Wade, of Bridgetown, who is with the World University Service this year and spent Christmas in the Holy Land, had a most interesting experience while at an Arab refugee camp on the outskirts of Jericho.

While at the camp Miss Wade was guest at a picnic lunch served by a group of Arabs. To her great surprise and delight she was served, along with other delicacies at the lunch, some of the succulent, cured fish which have gained a worldwide reputation under the name of "Digby Chickens".

Below is Miss Wade's letter, telling of the incident:

Two days before this past Christmas I was at an Arab refugee camp on the outskirts of Jericho in the Hashemite Kingdom of Jordan, within sight of the Mountains of Moab, the Dead Sea and the Mount of Temptation, in the Jordan Hills.

I sat down to a picnic lunch in the compound of a school run by the Y.W.C.A. in the camp. It was just a light lunch, eaten under a blazing 80 degree sun, in the company of hordes of flies — but the school staff, another Canadian and myself, ate well of field ripened tomatoes, peppers, onions, cucumbers, dark bread, spiced meat cakes and omelet — the latter a great delicacy. Then a unique and familiar smell reached my nostrils — someone was pressing me to a great treat. I looked and gasped: "From whence do these come?" I asked. "From Canada," I was assured, and I nodded my certainty, for there, under the hot sun of the Jordan, plain, in one of the oldest towns in the world, I was proudly offered, by a group of Arabs, "Digby Chicken".

Child Welfare Director To Speak

It was announced here yesterday that Mr. Fred MacKinnon, of Halifax, Director of Child Welfare for the Province of Nova Scotia, will be the special speaker at a public meeting to be held in the auditorium of the Digby Regional High School here Tuesday evening, May 17.

A special effort is being made, it is understood, to have all parents in the Digby area attend the meeting as Mr. MacKinnon will deal with the whole problem of youth activities.

TRADE BOARD COMMENDS COUNCIL'S ACTION

By regular motion the Digby Board of Trade went on record at their meeting at the Town Hall on Tuesday evening as commending the Town Council on their recent action regarding the paving of town streets.

According to reports given the beautification project at the Cannon Banks was well underway. The grounds had been rolled, fertilized and seeded and steps were being taken to secure tables and benches for use at the park. A vote of thanks was moved to be extended to H. M. Warne for the use of a bulldozer in preparing the ground. Mention was also made of the work done on the grounds by Jack Russell and also the help received from the Digby Boy Scouts in raking away the rocks.

Norman Wright reported on the progress of the tourist promotion material. Already leaflets had been issued noting the attractions in Digby, stickers were distributed to use on letters to advertise the town and a pamphlet was now near completion, he reported.

James Richards, president of the Board, stated that the town which will benefit most by the new Bar Harbour-Yarmouth Ferry will be the one which can offer the most attractions to the tourists and make it most pleasant and convenient for the tourists who arrive.

Headed by V. G. Cardozo, a committee was set up to prepare a mimeographed sheet bearing information regarding boating, fishing, scenic views and other information valuable to the tourist. These are to be distributed to business houses to be passed out by clerks or others who have contact with the visitors.

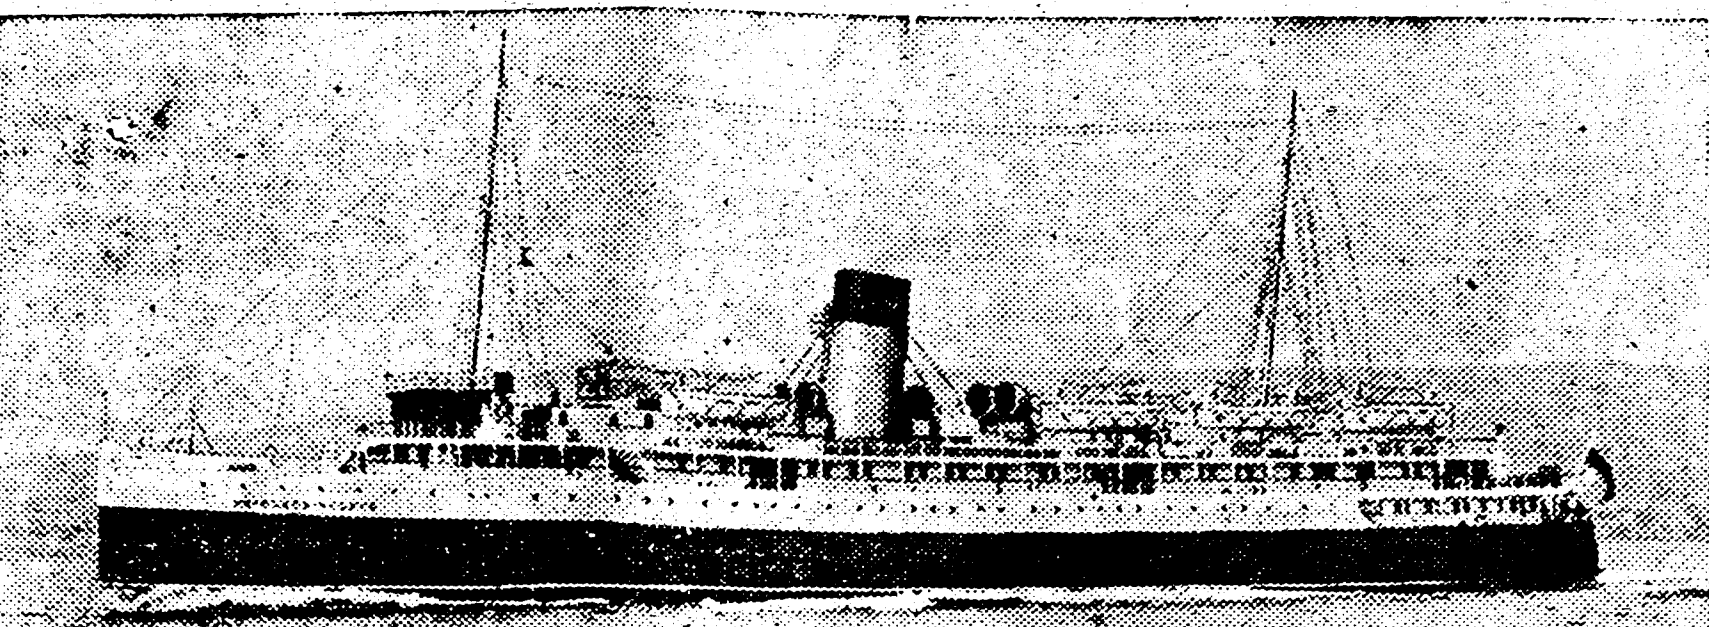

The suggestion was also made on Tuesday evening that a committee be set up to carry on a courtesy campaign throughout the year which would benefit clerks and others in dealing with tourists and shoppers in general. It was proposed that this could be accomplished by films and talks. The committee would also deal with business promotional ideas and problems relative to retail and wholesale merchants alike.

Frank Irvin reported membership to date in the Digby Board of Trade numbered 70. The president welcomed the two ladies, Mrs. Penny Gott and Mrs. J. M. Wallis, who were present on Tuesday night. He regretted that more of the women of the town had not attended and hoped that the ladies would become interested in the work of the Board and also attend the meetings.

On request of Capt. Donald Wilson, plans were made to have a representation from the Digby Board of Trade visit C. Company at their training centre at H.M.C.S. Cornwallis on May 19. The representation consists of James Richards, Norman Wright, Mayor Guy Morehouse, Mrs. Penny Gott and Mrs. J. M. Wallis.

Mr. Richards reported the royal party from the Annapolis Valley Apple Blossom Festival would arrive in Digby on Monday, May 30. Time and place of meeting would be announced after consultation with the heads of the Apple Blossom committees at Kentville. It was reported the Digby float was now in progress under the direction of Ralph Wright.

Princess Helene Resumes Run

Gleaming bright following an extensive three-weeks overhaul, the Canadian Pacific's Bay of Fundy Service vessel Princess Helene, emerged from Saint John Drydock this weekend and resumed operations between the ports of Saint John, N. B., and Digby, N. S. on Monday.

The summer schedule for the trim 4,000 ton vessel, as announced by W. E. Clappitt, district passenger agent for the C.P.R. in Saint John, calls for her to leave Saint John for the 43 mile crossing of the Bay of Fundy to Digby at 8:00 a.m. (Atlantic Standard Time) daily except Sunday, arriving at Digby at 3:15 p.m. (Atlantic Standard Time) and arrive at Saint John at 6:15 p.m. (AST). The ship makes connection with Montreal and Western Canada points eastbound in the morning and westbound on the return trip in the evening.

To accommodate the anticipated heavy flow of traffic through the Maritime Provinces during the summer months, the Princess Helene will resume her Sunday service between Saint John and Digby on June 26, continuing through September 11. On the Sunday schedule, the Princess Helene will leave Saint John at 8:00 a.m. (AST), arriving in Digby three hours later. She will leave Digby at 2:00 p.m. and arrive in Saint John at 5:00 p.m. on the return trip, making connection for Montreal. The special Sunday service will ease the heavy backlog of people who daily use this popular route between New Brunswick and Nova Scotia. Cabin and meal facilities will be available on the Sunday trips.

The Canadian Pacific is also planning to resume its attractive all expense tour on the Sunday trip for persons, in and around the Saint John area. Limited to 90 persons, it includes return passage on the ship, lunch at the renowned Digby Pines Hotel and taxi service between Digby Wharf and the Pines. Price of this full day travel package is \$545.

A second "go and return" same day fare giving return passage on the Princess Helene between Saint John and Digby will be in effect daily from June 25 through September 11. Applying only from Saint John, this special same day fare is \$295.

PRESBYTERY MEETS AT GRACE UNITED

The Annapolis Presbytery of the United Church of Canada met at Grace United Church, Digby, on Thursday of last week. The devotions were led by Rev. James Brooks, Chairman of Presbytery, who presided at the sessions. The Chairman and Rev. R. F. Humby paid tribute to the memory of the late J. J. Wallis. Has Close Brush With Death

David Haight, of Lansdowne, had a close brush with death or serious injury last Thursday when the truck he was driving was struck by, the Halifax-bound, Dominion Atlantic train.

The accident occurred shortly after noon on the crossing at Smith's Cove. Haight's truck was struck by the train and thrown for some distance. Haight received facial cuts and bruises.

Dr. Lewis was called to the scene of the accident and treated the victim who is now reported as resting comfortably, although still suffering from severe shock.

To Carry Out "Operation Clean-up"

Sponsored by the Digby Fire Department, a "Clean-up" campaign will be carried out in Digby and district over the next two weeks.

It is understood the Fire Department will distribute, with the aid of the local Boy Scout Troop, pamphlets to householders outlining the purposes and aims of the clean-up and beautification program. Posters will also be placed in store windows and films shown throughout the area.

An active clean-up campaign is also planned by the Fire Department who hope to enlist the aid of students in cleaning up areas in and around the town where unsightly conditions exist.

The Town Council at their last meeting endorsed the clean-up campaign planned by the Fire Department and by resolution urged the active participation by the citizens of the town in the campaign.

Tendered Stork Shower

Mrs. Murray Baxter was guest of honor on Thursday evening when about twelve of her friends gathered at the home of Mrs. Lloyd Hicks, where she was tendered a stork shower.

The useful and beautiful gifts were arranged in the living room in a decorated carriage under a centre consisting of an umbrella and colored streamers hanging from the ceiling to the floor.

Mrs. Baxter was assisted in opening her gifts and reading the accompanying verses by Mrs. Robert Vey.

The hostess was assisted in serving by Miss Lorna Connell, Mrs. E. J. Connell, Mrs. H. Hewitt and Mrs. Vey.

Sea Cadet Corps Inspected

Members of the Royal Canadian Sea Cadet Corps "Cornwallis" were inspected last week by Captain M. G. Stirling, Commanding Officer of the Cornwallis Naval Base.

Captain Stirling was accompanied on his inspection of the Corps by Lieut.-Cmdr. Wilton, Area Officer of Sea Cadets, and Lieut. Inman, Assistant Area Officer.

Following the inspection drill the salute was taken by Captain Stirling. Included in the inspection were members of the newly organized Wrenettes, under the command of Lieut. Grace Lyons, assisted by P.O. Thompson.

Following the formal inspection members of the Cadet Corps and Wrenettes gave demonstrations of various aspects of their work.

At the close of the evening members of the Sea Cadet Committee and invited guests were tendered a luncheon in the staff room.

Baseball Plans To Be Discussed

A special meeting to plan for the baseball season in Digby this year has been scheduled for the Town Hall here tomorrow night at eight o'clock. It was learned here yesterday.

It is understood a special invitation has been extended to all those interested in the Digby Ravens Baseball Team to attend the meeting tomorrow night.

Music Festival Performers In Concert

A capacity audience at the Digby Regional High School last Friday night heard a most excellent concert presented by participants in the Digby Music Festival, selected from among the performers in the various sessions of the festival by the adjudicator, Dr. Whitehead.

Prior to the opening of the concert a welcome was extended to the audience by Wallace Hodgson, chairman of the Music Festival Committee. Mayor Guy E. Morehouse also spoke briefly.

A recording of an interview between Dr. Whitehead and Rev. E. C. Churchill, in which Dr. Whitehead gave high praise to all participants in the festival and their teachers, was played.

More than thirty numbers were presented in Friday evening's concert. These included piano solos, duets and family trios; vocal solos; choir groups and chorus numbers, and a dance number by the junior pupils of St. Patrick's Academy.

DIGBY CHURCHES MARK CHRISTIAN FAMILY WEEK

Christian Family Week was observed in several of the Digby churches beginning with special services on Sunday. In the Digby Baptist Church Mrs. J. J. Brittain and her daughter, Jean, led in the responsive readings and scripture at the morning worship. The choir sang "Let The Children Come Unto Me" and the pastor, Rev. E. C. Churchill, chose for his text "When He was twelve years old they went up to Jerusalem after the custom of the feast."

Flowers were placed in the church in memory of Mrs. Edward Campbell by her great grandson, Douglas Stark.

At the evening service Douglas Stark, David Leonard, Peter Nichols and Gary Morehouse were given the rite of baptism.

On Wednesday evening the Sigma C boys and the C.G.I.T. of the Baptist Church were hosts to their parents when about 60 sat down to a banquet held at the church hall.

Mrs. Athena Colpitts, Bridgetown, was guest speaker. Mrs. Colpitts is active in C.G.I.T. work, the Maritime Religious Education Council and camp work and had a wealth of knowledge and experience to share with the members of the younger groups and their parents.

Toasts were proposed to the church by Mrs. Alfred Marshall; parents, by Sandra Franklin; and leaders, by Garry Harding. Responses were made by Rev. E. C. Churchill, M. S. Leonard and Helen Kirkconnell respectively.

At Grace United Church the worship service was conducted in the morning by Oakley Turnbull, superintendent of the Sunday School. Scripture was read by his son, Beverley, and a story was pleasingly told by Miss Carolyn Arnold.

In his discourse Rev. James Brooks followed the theme for the day "Parents - First Teachers of Religion." There is no substitute for God fearing parents, he said, and there is need for the recovery of family feeling and family religion. A sense of stewardship about home life and conversation is necessary.

The choir sang "Blest Be The Tie That Binds" featuring a women's trio and a duet by Mrs. Gerald Wilson and Norman Wright.

Offering was received by Reginald Turnbull and son, Gary, and by Reginald Holdsworth and son, George.

Memorial flowers were placed in the church for the late Mrs. Effie Snow by her children, Mrs. Sadie Turnbull by the family, Mrs. William Porter by daughter, Mrs. James McGill.

Reaffiliation of the C.G.I.T. with the Grace United W.M.S. will take place at the church at next Sunday evening's service. Rural Life Sunday will be observed also.

North Range

Christian Family Week was observed on Mother's Day in the North Range United Baptist Church when the pastor, Rev. R. R. Winchester, brought the message to a large and appreciative congregation. Members of the Sunday School participated in the worship service. Two special numbers were given, a duet by Maxine Andrews and Lois Haight, and a chorus by girls from the Junior and Primary Departments: Maxine Andrews, Joyce Waterman, Diane Haight and Sharon Shortliffe.

The church was appropriately decorated with spring flowers and pussy willows.

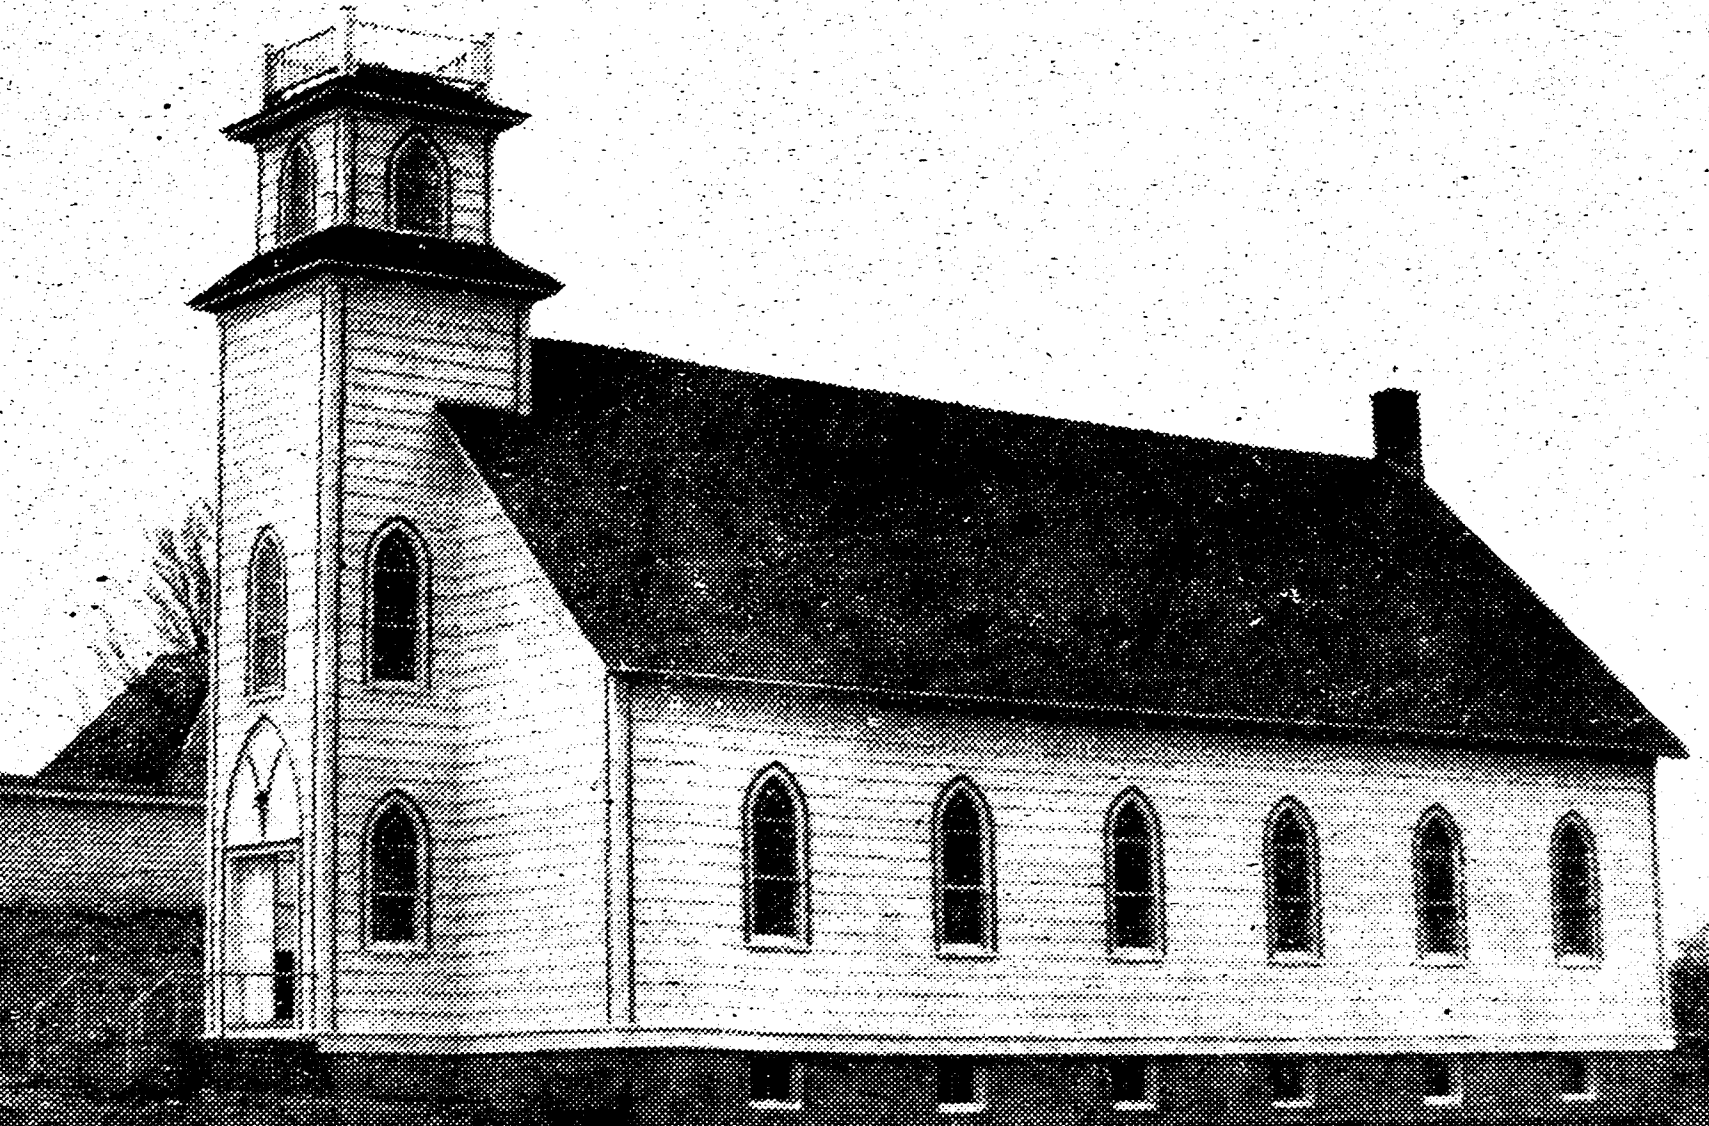

Establish Divinity Scholarship Fund

Approval was given to the setting up of a Divinity Student's Scholarship Fund in the Anglican Deanery of Annapolis at the regular spring meeting of the Greater Chapter of the Deanery, held Tuesday evening at Round Hill.

It was decided, the award awarded as a scholarship would not exceed \$250 in any one year and that a committee representative of the whole deanery would administer the fund. Annual assessments on each of the parishes in the deanery will be made to bolster the finances of the fund and contributions will be received from other sources.

Uncle Tom's Column

Hello! Readers of the Courier: I'm back in the saddle again, after riding "bare back" for the past year trying to enjoy my "hobby" — my column in the Digby Courier.

I will take this opportunity to thank all the readers of the Courier for their cards, letters and telegrams sent me during the week of my birthday — February 22, 1955 — wishing me all the good things of life. These messages came from England, Scotland, the United States and Canada. They helped me to mount the saddle again. The Courier has a wide circulation.

Thanks Captain Stanley Hallett
Post Master at Weymouth, N. S., for his kindness in sending a number of old Digby County newspapers, including the Courier, Weymouth Times, Free Press, The Sissiboo Echo, Gazette, L'Evangeline and L'Acadie, all dating back seventy years. I have clipped from the Digby Courier, dated February 22, 1955, a very interesting column, giving the names and residences of officials within the County. Hope you will enjoy reading it.

Letter To The Editor

Digby, N. S., May 7, 1955.

Editor, Digby Courier.
I should like to pay a tribute to the late Mr. J. J. Wallis. It was during 1928 and 29 that I had the privilege of working for and with this Christian gentleman, Mr. Wallis was then a very active, alert and hard-working man, capable of keeping in touch with many things and not easily upset about anything; he seemed to know about everybody and had a cheerful greeting for all with whom he came in contact. Mr. Wallis worked at both the Courier Office situated where Pyne's Market is now and the Wallis Print that was next to the Town Hall.

In the Wallis Print there were "Mac" (son of J. J.), Miss Eva Haynes, now married, and myself. We worked together in almost perfect harmony and it was very hard for me to leave this place of occupation in October 1929 even though I had my heart and mind set to learn another occupation. Mr. Wallis was cheerful at work and did considerable joking. I especially remember him for his smiling countenance when serving as one who greeted church-goers on Sunday morning in the vestibule of Grace United Church for a considerable number of years.

I remember his judgments regarding certain printing jobs that were set up for his inspection or comment; his judgments came quickly and always seemed reasonable and best. One good bit of advice I shall always remember him giving and on that particular occasion was the first time I truly appreciated the saying "anything worth doing at all is worth doing well."

It was in 1928 and 29 that I

first knew that J. J. Wallis was particularly interested in the cause of temperance and the temperance paper called "The Templer" was then printed in the Wallis Print shop, this paper is now called "Forward" and is still printed by succeeding management and published by The Sons of Temperance organization. Mr. Wallis saw the wisdom of the temperance cause and had the vision to see that one day a sufficient number of people the world over will know the facts about beverage alcohol and will squarely and honestly face the problem relating thereto, with the result that the liquor traffic will be kept to a minimum. Science now has the facts, it is now a matter of education and making use of them.

On different occasions especially during the last ten to fifteen years Mr. Wallis and I had talks in regard to temperance work and I always appreciated his good efforts along temperance lines. Only a short time before he was stricken he pointed out to me that money is not wasted but the misuse of money is certainly a waste and it is definitely misuse when spent for beverage alcohol in a matter of time and results in so many ways. I sincerely believe his good work will bear fruit through many people in many places as time goes on.

In closing it seems to me quite fitting to relate the following: Back in 1928 and 29 people seemed to work most all day almost without ceasing, and I can particularly remember

About This and That

Support The Clean-Up Campaign

The weeks of May 9th to May 21st have been set aside for the holding throughout this province of a "Clean Up Campaign." The Digby this campaign has received the endorsement of the Town Council and a proclamation will be issued urging the support of the campaign by the citizens.

We feel sure that this campaign is one which should receive the wholehearted support of every public spirited citizen in the community. However, when we look around the countryside we are forced to wonder just how necessary it would be to have such a campaign if every citizen would actively demonstrate his public spiritedness by exercising reasonable control in the disposition of rubbish, garbage and other unsightly material.

On almost every country road within a radius of not too many miles from Digby can be seen in the ditches, along the roadside or in the bushes near the edge of the road, heaps of garbage, tin cans, old papers and magazines and other trash that can only have arrived there through the agency of the hand of man.

Surely the people who dump this trash along the roadside must realize they are creating an unsightly mess when they do it. Surely they must realize that they are destroying the beauty of the countryside through their actions. The very fact that in most cases they wait until dark and then go a long way from home to dump their rubbish shows they realize that what they are doing is wrong and that they have at least some feelings of guilt about it.

We urge public support of the present Clean up Campaign and we also urge that action be taken during this campaign, not only to clean up the unsightly messes left by those who have carelessly dumped rubbish along our highways and byways, but also to attempt in every way possible to have this loathsome habit eradicated so that no more such unsightly and unsavory messes will be created.

It seems that Nova Scotia is the most dangerous province in the Dominion to drive your car, which is the sad truth. In only eight months 137 killed and 2065 "wounded" means that Bluecross better stop and think the matter over a bit more seriously than in the past, or even our tourists will be afraid to enter the province.

Nova Scotia's consume \$80,000,000 worth of alcoholic drinks in a year, too. Ah! I think we have the main clue. Could it be blood shot eyes? Alcohol won't build steady nerves either, nor help the brain to work efficiently, especially in emergencies, and since 90% of the accidents were the result of human error, then we must look to man's brain, which of course does the thinking and is responsible for our actions. A man's brain is a marvellous organ and its function of course depends on the blood stream. The blood you know is "The life thereof" and alcohol in the blood sure shows up in a hurry in our thinking. Alcohol has its place in the world but since it cannot be properly harnessed in the system then it would be wise to leave it alone. It is strange that some M.D.s recommend it for a patient who later develops an appetite for the stuff that he is giving up just one of these habits may be a problem for the A.A. and some who have really clean up their act, on the awful craving for it a "disease". Money in the bank

Millions of Canadians know the value of a bank account—the security and comfort it brings, the peace of mind it assures, the enterprise it makes possible.

When you keep your money in a chartered bank you know it is safe. And you are dealing with friendly, experienced people, skilled in the management of money and anxious to share their knowledge with you.

There is a type of account to suit your purpose, some designed to help you accumulate funds, others featuring the convenience of chequing.

Your local branch bank provides these and many other services. It is much more than a handy, safe place to keep money. It is a banking service-centre where you can count on prompt and courteous attention to all your banking needs.

Only a chartered bank offers a full range of banking services, including:

SAVINGS ACCOUNTS

Keep your money safe; pay you steady interest; encourage the habit of thrift.

CURRENT ACCOUNTS

For individuals and companies who pay by cheque; your cancelled cheques serve as receipts.

BANKING BY MAIL

Convenient, and saves time. All your routine banking can be handled in this way.

JOINT ACCOUNTS

Savings or Current; for two or more people, any of whom can make deposits or withdrawals.

OBITUARY

James E. Ellis

After suffering a lengthy illness which he bore with Christian fortitude, he passed away at the Digby General Hospital on May 2nd James E. Ellis. He was born on January 1st, 1872, and was a son of the late William E. and Mary Ellis. He lived at Bay View nearly all his life.

For many years Mr. Ellis served as marine engineer on the Bay View Life Saving Boat and on numerous occasions engineered the life boat when it participated in thrilling rescues of fishing boats and other craft, bringing them to safe harbour.

Besides his wife, the former Eleanor Adams, daughter of Charles and Matilda Adams, of Bay View, he leaves to mourn two daughters, Marjorie (Mrs. Everett Ritey), of Halifax; Dorothy (Mrs. Kirkham), of Montreal; and one son, Gordon, of Digby. Two brothers, John, Bear River, and Richard, Toronto, survive, as do three sisters, Mrs. A. D. Sulis, Smith's Cove; Mrs. Matilda Turnbull, Bay View, and Caroline Bertram, of Florida. Four grandchildren also survive.

Funeral service was held at the United Church, Bay View, conducted by the Rev. Dr. T. W. Hodgson, a close friend of Mr. Ellis. Dr. Hodgson was assisted by the Rev. L. R. Atkinson. A feature of the service was the singing by the quartette of the Digby United Church of "Jesus Saviour Pilot Me" and "That Beautiful Land".

The pall bearers were Mr. Ellis' six nephews, Harold Sulis, Gordon Turnbull, Arthur Robinson, Randolph Ellis, Lawrence Wilson and Arch Ellis. Floral offerings were many and beautiful, testifying to the high esteem in which he was held.

Famous Trichologist Will Demonstrate How To Grow Thicker Hair . . . And Guarantees It!

DEMONSTRATION TO BE HELD HERE

This new method of home treatment for saving and growing thicker hair will be demonstrated in Digby, Nova Scotia, Monday ONLY, May 23.

These private, individual demonstrations will be held at the Champlain Hotel on Monday ONLY, May 23.

Halifax March 19.

In an interview here today William Keele, internationally famous trichologist and director of the Keele Hair Experts, said: "There are 13 different scalp disorders that cause most men and women to lose hair. Using common sense, a person must realize no one tonic or so called cure-all could correct all these disorders," he explained.

Guaranteed

"The Keele firm, recognizing that most people are skeptical of claims that hair can be grown on balding heads, offer a guarantee," Keele said.

Once a person avails himself of the Keele treatment his skepticism immediately disappears. To insure this, we offer this guarantee: "If you are not completely satisfied with your hair progress at the end of 30 days your money will be returned."

Hopless Cases Discouraged

First the trichologist is quick to tell, hopeless cases that they cannot be helped. But the "hopeless" cases are few. Only if a man is completely, shiny bald is he in this last category.

If there is fuzz, no matter how light, thin or colorless, the Keele treatment can perform wonders.

A complete, private examination is given by a trichologist to determine the condition of the scalp, and cause for his hair trouble.

Free Examinations

This examination is very thorough and highly technical. It requires 20 to 30 minutes. The

trichologist makes no charge for this examination and no appointment is necessary. After the examination the person is told the required length of treatment, and how much it will cost.

After starting treatment, the person makes regular reports to the Keele firm in Halifax to check the progress of the home treatment.

To spread the opportunity of normal, healthy hair to the thousands who are desperately looking for help, independent trichologists are visiting various cities throughout Canada to conduct examinations and start home treatment.

No Cure-All

"We have no cure-all for slick, shiny baldness," Keele emphasizes. If there is fuzz, the root is still capable of creating hair and we can perform what seems to be a miracle."

There is one thing Keele wants every man and woman to know. If a recession appears at the temples or a spot begins to show up on the crown of the head, there is something wrong and it should be given immediate attention.

Hair For Lifetime

"If clients follow our directions during treatment, and after they finish the course, there is no reason why they will not have hair all the rest of their lives" Keele said. "Our firm is definitely behind this treatment, it all depends on the individual client's faithful observation of a few simple rules."

PRESENT CONCERT

On Tuesday evening, May 3, a variety concert was held in St. Joseph's Hall, put on by a group from the Parish of St. Croix, Plympton.

Mrs. Harley Amirault announced the numbers for the evening and Mrs. J. D. Rice presided at the piano and provided music between acts.

The concert, which consisted of choruses, skits, folk dancing, tap dancing, a recitation, and a short play, added up to an evening of good entertainment with many laughs. "The Bells of St. Mary's" was used for the opening chorus, the verses being used as a solo part by Mrs. H. Amirault, with the cast singing the chorus. The second chorus was "Vive la Compagnie."

Folk dancing by children under the direction of Adoris Deveau was gracefully carried out as was also the solo tap dance of little Doreen Amirault. Doreen, a brunette, was most attractive in a red ballet costume. Her second dance was done with little Carol Flendel, in which pink ballet dresses were worn, each girl executed hand springs at the close of the dance. These children were most attractive and very good performers.

A fancy step dance was done by Leonard Melanson.

Mr. Gallagher and Mr. Sheen was presented by Mrs. Gus Melanson and Mrs. Walter Melanson and a pantomime "Silver Threads Among the Gold" was done by the same persons.

Skits given were "It's A Small World," "The Last Will and Testament" and a scene in a doctor's office. A reading was given by Mrs. Oliver Comeau. "Polly Put the Kettle On" was the title of the play presented.

Fudge was sold during intermission.

Here's why Chevrolet
out-V8's
all comparable makes!

Learn what
engineering
leadership
brings to V8 power

Modern 12-Volt electrical system
This 12-volt system, with its hotter, faster spark, is exclusive with Chevrolet in the low-priced three. It gives faster, surer starts on cold mornings, and provides a big supply of reserve power.

Better all-round performance
Chevrolet's "Turbo-Fire" V8 makes use of General Motors' long experience in making unbeatable V8's for high-priced cars. That's why Chevrolet's V8 performance is unrivalled by comparable makes.

High compression economy
Chevrolet V8 has a compression ratio that is unsurpassed anywhere in its field. In fact, its compression ratio of 8 to 1 puts the "Turbo-Fire" V8 in the performance class of high priced cars. You can feel the result the instant you put your foot down on the accelerator. And, of course, high compression means high economy.

Controlled full-pressure lubrication
Controlled full-pressure lubrication results in greater oil economy and in finer engine protection. The oil is forced to every working part of the engine.

Highest horsepower per pound
In Chevrolet's "Turbo-Fire" V8, thorough engineering has eliminated all the dead weight and unnecessary bulk — both factors which drain the rated horsepower of engines in comparable makes.

New, shorter piston stroke
Because the piston moves a shorter distance, it actually saves 1 mile of engine wear for every 12 you travel. This also puts lighter loads on the bearings!

In Chevrolet's "Turbo-Fire" V8, the piston moves only three inches — reducing cylinder wall friction, friction heat and making possible greater efficiency.

Saves 1 mile of engine wear in 12

FAST RELIEF FOR COMMON SORE THROAT
MINARD'S "KING OF PAIN" LINIMENT

CARS ARE MY Line
by Ken Hankinson

The most heavily taxed people in the country are those who drive cars and drink liquor. They are, of course, the same people. Almost anyone will agree that liquor is a luxury, but why should cars be taxed as if they were something that was bad for you?

The figures to prove just how much of a luxury cars really are to the Canadian people came to me a little while ago from one of the automobile trade associations.

They showed that 54 out of every 100 families in this country own one or more cars. Ontario is way ahead in car ownership with 65 out of every 100 families owning cars. The Maritimes have the fewest with only 34 in every 100 families.

Since we are in the business of selling economical transportation, this is the figure that really interested me: in 65 percent of the families that own cars, the chief breadwinner earns less than \$60 a week.

Here's another figure that caught my eye: of all the families in Canada supported by someone earning less than \$2,000 a year, nearly half own at least one car.

Farmers own a higher percentage of cars than city residents, this research showed. And another interesting thing: nearly half of all the cars on Canadian roads are 10 years old or more.

These figures meant to me that almost anyone with a job can afford a car to make shopping, going to work, family outings and life in general so much easier.

On our used car lot we have cars to suit every pocket-book, cars that prove what this survey showed, that cars are no longer a "luxury."

NOVA SCOTIA COAL - THE THRIFTY FUEL

No. 18 Bankhead, Cape Breton

Use NOVA SCOTIA COAL

The coal industry is the cause of distributing in Nova Scotia \$55,000,000 annually in salaries and wages and purchases products in Nova Scotia valued at \$6,856,000. In addition, the industry pays as taxes and royalties to various municipalities in Nova Scotia and to the Province a total of \$3,000,000 each year. This total of \$64,856,000 circulates many times throughout the Province and in large measure supports the Province's economy.

Few Nova Scotians do not depend to some extent at least for their livelihood on the coal industry. A flourishing coal industry means a prosperous Nova Scotia. A curtailed coal industry will mean less employment, less money in circulation in the Province and a general slackening of business. This will affect not only the mining communities but the Province as a whole. It is therefore in the interests of all Nova Scotians to have coal outputs kept to a maximum. You can help to do this by using Nova Scotian mined coal in your homes and in your places of business.

Uncle Ed Says

Neighbour of mine has a wife who's not very bright about money matters. I was over there the other day when he was working on his accounts. "I say," he exclaimed, "The bank has returned this cheque." "Splendid, darling!" she replied. "What shall we buy with it this time?"

People who are smart about money know that one of the best things you can do with it is put it into a home — a new home or improvements on the one you have. No other way of spending money can give you such lasting pleasure.

And if you're a home-owner (and known to be somewhat smarter about money matters than my neighbour's wife) you can improve your home — buy flooring, roofing, brick, cement, other building supplies — on Hicks's easy Home Improvement Finance Plan.

Hear Talk On Mental Health

Many parishioners and friends gathered at St. Matthew's Anglican Church, Deep Brook, after service last Sunday evening to hear Dr. Alexander Leighton, director of the Digby Psychiatric Clinic, discuss Mental Health.

Dr. Leighton invited his lay audience to interrupt with their questions as he dealt with his subject. He differentiated between the mentally retarded and those who succumb to the various forms of mental illness.

Preventative measures and techniques used in the modern psychiatric clinics were discussed and the possibilities and limitations of newly discovered drugs came under scrutiny.

Dr. Leighton pointed out that the rehabilitation of the discharged patient is a work in which everyone in the community can lend an understanding hand.

The rector of the parish, Rev. S. J. Armstrong, expressed the appreciation of those present for this informative meeting. He remarked that when people can visit reputable mental specialists with the same ease as

Communion Table Dedicated

A most impressive dedication service was held in the Barton United Baptist Church, Mother's Day, Sunday, May 8th, when a beautiful Communion Table, the gift of the family of the late Mrs. Adolph. Specht, was dedicated.

The service was in charge of the Pastor, Rev. R. R. Winchester, and was largely attended. About 175 people took part in the dedication.

The combined choirs of North Range and Barton, under the leadership of the organist, Mrs. R. R. Winchester, rendered appropriate music. A duet by Mrs. Rice Kinney and Mrs. Florence Bacon was much enjoyed, as was the number "The Church by the Side of the Road", by the full choir.

Flowers were placed in the church in memory of Mrs. Clayton Height; Mr. and Mrs. Watson Height and Mrs. Adolph Specht, by the respective families. A potted plant was placed in memory of Mrs. Specht by the Barton Church.

The speaker for the occasion was Rev. R. E. Whitney, Home Mission Superintendent, a former pastor of the church and one who was well acquainted with the sister in whose memory the service was held. After the regular meeting the Ordinance of the Lord's Supper was observed, at which some 90 people were in attendance.

The presentation of the table by the family was considered by the congregation as a very gracious act and one that is much appreciated by the Barton church. In the words of the pastor, "It is a very suitable memorial to one who had worked so hard and given so much of time and talent to the cause of the Kingdom in her community. Blessed are such for their works do follow them."

Quilts Made

The Digby Branch of the Canadian Red Cross Society held their monthly business meeting at the Court House Wednesday afternoon when it was announced a new patch bed has recently been purchased.

Mrs. H. M. Warne, Women's Work Convener, reported a box packed during the past month, and in her report expressed thanks to Mrs. Oscar VanTassel, the Ladies' Auxiliary of the Canadian Legion, the Rebekah Lodge, and the ladies of the Anglican Church and the Baptist Church for the work they had done for the Red Cross during the past month. In Mrs. Warne's report she stated that the number of quilts shipped out from this branch to date totaled 1,798. A large number has also been given to local relief work.

The returns from the recent Red Cross campaign have not all been received but will go over \$3,500. Thanks was expressed to the Digby Courier for the publicity given during the campaign and also to the St. Patrick's Church for the use of their hall to hold a card party of which Mrs. Enos VanTassel was in charge.

Mrs. Reginald Weir read the Disaster-Relief report in the absence of Mrs. Winfield, convener. This report stated that used clothing had been collected for a needy family, and the V.O.N. had been given a layette for a new baby.

Plant Chestnut Trees

Although the adage, "great oaks from little acorns grow", may not apply here, at least Alden King, of Deep Brook, had the thrill recently of seeing thirty-four chestnut trees planted on the grounds of the Captain's residence at HMCS Cornwallis.

What made this particularly thrilling for Mr. King was the fact these trees were grown by him from chestnuts which he picked up around Deep Brook and Annapolis seven years ago.

Mr. King recently donated the saplings to the naval base and they were planted on the grounds of the Captain's residence where it is hoped they will develop into shapely, ornamental trees.

Legion Auxiliary To Meet

The Ladies' Auxiliary of the Digby Branch of the Canadian Legion will meet tonight at the Legion Headquarters.

Included on tonight's program will be an address by Albert E. Jones, President of the Cancer Society of Weymouth, and Dr. M. McD. Lawley, also of Weymouth.

Films will also be shown and a demonstration on bandage making given at the meeting.

WELFARE DIRECTOR ADDRESSES MEETING

Mr. Fred McKinnon, Director of Child Welfare for the Province of Nova Scotia, was guest speaker at a public rally of the citizens of Digby and area at the Regional High School here Tuesday night.

Dr. D. E. Lewis was chairman of the meeting and explained to the audience the background which led up to the calling of the public meeting. He outlined the organization of the Citizens' Committee and told of the study being made by this committee of juvenile behaviour in Digby. J. M. Saulnier, of the Digby office of the Department of Welfare, introduced Mr. McKinnon to the audience.

In his address Mr. McKinnon stated the problems in connection with juvenile behaviour had increased rapidly throughout Canada during the years of the war but since the war the situation had in many instances improved. He said that it could be said that the matter was now static and in some cases on the decrease.

Mr. McKinnon commended the citizens of Digby for their forthright approach to the matter here and said the setting up of a citizens' committee to make a detailed study of the whole problem was an excellent approach. He said there was great danger in generalizing in the matter of the causes of juvenile delinquency and that no one could, with justification, point out any one particular factor as being the actual and absolute cause of the trouble.

He stated there was a vast difference in the matter of delinquency and said two types of delinquents existed, the confirmed and the situational. In the case of the former, he said, the causes were often deep seated and could be traced back to very early years. This type was most difficult to deal with and so far no real workable answer to the problem had been secured.

In the matter of the situational delinquent, he said the case was much different and an entirely different approach to the problem was needed. He said he was of the opinion great care should be used in dealing with this problem and also care should be exercised in determining the type of delinquent involved.

Speaking of efforts to improve the situation so far as juvenile behaviour is concerned, Mr. McKinnon said it was almost as hard to list these efforts as it was to determine the causes of misbehaviour. He said, however, he would list first the matter of law enforcement. He stated that a lax enforcement of the law breeds disrespect among both juveniles and adults and it was up to the community to insist on proper enforcement of law as a step toward curbing the problem of delinquency.

Mr. McKinnon said there was also, in the struggle to develop good juvenile behaviour in the community, the need for the provision of good, supervised recreation. Children, as well as adults, he said, feel a great need of belonging and everything must be done to let them know they are part of the community, of the church, of the school and of the whole fabric of community life.

The attitude of parents toward the law plays a great part in juvenile attitudes, Mr. McKinnon said. He said that if parents and adults do not themselves show respect and obedience toward the law, it is difficult to convince children that this is a proper behaviour pattern.

The matter of parental responsibility in juvenile behaviour was a grave one, he stated. The parents have a tremendous responsibility to develop by both example and discipline good attitudes and proper behaviour in their children. This cannot be neglected, he said.

Speaking of the matter of the Citizens' Committee, Mr. McKinnon urged the public to give their support to the work of the committee. He cautioned that the committee should not be discouraged at lack of evident results from their efforts and said the fact they were directing public opinion toward a troublesome problem in a sound and intelligent manner was of great importance.

Mr. McKinnon said the committee should support the efforts of existing organizations in youth work and should also consider the possibility of the

Council Drops Paving Plan

In a surprise move here last Wednesday night the Digby Town Council did a complete "about face" on their plans to seek approval from the ratepayers of the town for the borrowing of a sum not to exceed \$100,000 for street paving purposes.

Last Wednesday night's decision to shelve plans for paving was made by the Council following the reading at the meeting of a letter from the Department of Municipal Affairs which pointed out certain facts with regard to the effect the proposed borrowing would have on the tax rate of the town and the present position of the town in respect to its per capita debt position.

The letter from the department pointed out the proposed borrowing would add a possible thirty cents to the town's present tax rate of \$2.78 and would also bring the town's debenture debt close to the \$500,000 mark.

Some doubt as to the Council's estimate of saving which would be effected should the paving be done was contained in the letter which also urged early consideration by the council of the possible effects of the Pottier Report on the town's finances.

Presented With Going Away Gift

The Ladies Aid and W.M.S. of Grace United Church was entertained on Thursday afternoon at the home of Mrs. Flora Lindstrom when Mrs. G. A. Deadman was guest of honor.

Mrs. Gordon Arnold, president of the Ladies Aid, presented Mrs. Deadman with a picture of Digby Gap as a going-away gift. Mrs. Deadman sails from Quebec on June 1st to spend some time in Birmingham, England.

C.G.I.T. Re-Affiliates

The Flamingo C.G.I.T. group of Grace United Church re-affiliated with the W.M.S. at the evening service at the church on Sunday.

Taking part in the service were the leader, Mrs. A. J. Dillon, Miss Joyce Beckwith, Misses Judy and Carolyn McCleave, Evelyn O'Neil, June Hawkins and Margaret Glen-cross. Mrs. John Abramson, 1st vice-president, represented the W.M.S. and Mrs. James Brooks, president of the W.M.S., received a gift of money on behalf of the auxiliary.

The pastor, Rev. James Brooks, in a short talk, spoke highly of the stand of the C.G.I.T. girls in affiliating with the W.M.S. and said the W.M.S. was perhaps one of the most forward looking organizations in the whole society today, as they were working for all the things for which the nations are striving today, including peace and fellowship of other people.

Tennis Club Elects Officers

Plans for the season's activities of the Digby Tennis Club were outlined at a recent meeting in the clubroom at the Champlain Hotel. Maurice Saulnier was re-elected President for the present year, with Jean Robinson as Secretary-Treasurer and Richard Baxter, chairman of the grounds committee.

A few ardent club members have been doing preliminary preparation of the court and it is expected that play may begin shortly after June 1st. The club enjoyed good support last year and it is hoped that new members will be enrolled this year. Plans for tournaments and social activities will be outlined at the next meeting, which will be announced later.

Observe Rural Life Sunday

Rural Life Sunday was fittingly observed at Grace United Church on Sunday morning when the sermon and music were chosen to fit the theme of the day.

The purpose of Rural Life Sunday, it was noted, is to magnify the relation of God and man in food production, and to pray God's blessing upon the human efforts to prepare for a crop.

Again on Sunday evening, the pastor, Rev. James Brooks, delivered a sermon on the Rural Life theme. He said that observance of such a Sunday tends to create in the worshippers a sense of deep humility, brings them to the realization that man can do nothing except what God permits him to do and cautioned his listeners to remember our utter dependence on God.

Hear Talk On India

Speaking on the theme "Open Doors", an arresting address was given by Miss Bertha Myers, retired missionary from India, at the District Women's Missionary Societies, on Friday, May 13, at North Range, where she was guest speaker for the afternoon meeting.

The President, Mrs. J. V. Andrews, opened the meeting with responsive reading "Draw Nigh Unto God" and the hymn "Lead On, O King Eternal".

A cordial welcome to the delegates was given by Mrs. Ralph McNeill, of the entertaining church and the response given by Mrs. Ruth Walker, of Smith's Cove.

The minutes of the last meeting were read and approved, after which the Scripture was read by Mrs. Allen Thomas, with portions from John 5 and Luke 24, and prayer was offered by Mrs. Milton Bragg.

A brief talk on pioneer missionary work was given by the president and a duet, "Have Thy Way", was beautifully rendered. (Please turn to page 4)

BAPTIST DISTRICT MEETINGS HELD

Annapolis Co. District

Rev. A. K. Herman, Nictaux, using the text "They Went And Told Jesus", Matthew 14:12, set the fine spiritual tone which pervaded the Annapolis United Baptist District Meeting which convened at the newly dedicated Church at Hillsburn, May 10th.

Meeting under the theme "Missions in the Home Church", the District was exceptionally fine in many ways, particularly in attendance, with attendance ranging from approximately 100 to 230 during the day.

The Chairman, Rev. Earl Ward, Paradise, conducted the business session, during which it was agreed to recognize the Church at Round Hill as a separate unit on the Annapolis Royal Pastorate subject to the approval of the Association. Mrs. Gordon Shaffner, of Lawrencetown, introduced a report from the Camp Committee, which acknowledging an invitation by the Kings County District to participate more fully in the work at Camp Kingswood, but suggested that as the camping program is not sufficiently developed in our District to warrant any great commitment it would be wise to "leave things as they are, with the Annapolis County Churches perfectly free to send campers; also to help in leadership." The Committee also recommended that a Camp Committee should be appointed each year to study and promote camping. The District accepted these suggestions and re-nominated Mrs. Shaffner and her Committee.

Mr. D. B. Wright, Middleton, District Keyman, presented a brief but instructive report, noting an increase in Denominational giving. He appealed to the Churches to go a "second mile."

The main speaker of the morning, Rev. Freeman Fenerty, President of the Maritime Baptist Convention, gave an inspiring paper upon the subject "How Missions Can Be Brought Into The Overall Program Of The Church". Mr. Fenerty pointed out that the underlying aim of the Convention's five year program is Evangelism, or the salvation of souls, and as such Missions is the outreach of that program.

Following an excellent dinner served by the Hillsburn ladies, the District reconvened in the afternoon for a joint meeting of the District and the W.M.S. with a devotional led by Mrs. Curtis Rafuse, of Young's Cove. Past President of the entertaining society (the Lake Brook Hillsburn Litchfield Society). Following a brief business session, Mrs. T. C. Day, of Middleton, President of the W.M.S. District, called upon Mrs. R. H. Bond, Granville Ferry, to introduce the guest speaker, Miss Muriel Brothers, Missionary on furlough from India.

Miss Brothers' warm personal ally endeared her to her audience, as she spoke with emotion

of the India she knew during the troubles of the transition from the Empire to its present position as a free Republic within the Commonwealth. Miss Brothers stressed the work of her School, the Jubilee Training School in Cocanada. A vote of thanks to Miss Brothers for her talk was extended by Mrs. Whetherby, of Centerlea, and seconded by Mrs. Corbett, Lawrencetown.

The afternoon session concluded with a Roll Call of Societies, with each society giving a report of its year's work. The Secretary, Miss Clara Armstrong, Middleton, announced that the District now had thirty-two registered societies with twenty-two represented at this meeting. The President welcomed the newest society, Milford-Greywood, to the District. The Nominating Committee re-nominated Mrs. Day as President, with Miss Armstrong continuing as Secretary.

The supper hour found over one hundred and sixty persons sharing the fellowship of another delicious meal served in the basement of the Church.

The evening program began at seven thirty with a song service, led by Mr. Ward. Mrs. R. H. Bond presented the report of the Nominating Committee, placing Mr. Jesse Saunders, of Paradise, in the Chair, with Rev. Austin MacPherson, Middleton, as Vice-Chairman. Rev. Francis Miller, Deep Brook continues as Clerk. Mr. Lester Longmire, Hillsburn, and Mrs. Rawley Isnor, Lawrencetown, as members of the executive.

Mrs. Francis Miller presented the report of the Resolutions Committee, the following resolutions being of note:

1. A vote of thanks to the speakers.

2. A vote of appreciation to Rev. Earl Ward and the Executive for their leadership in two outstanding Districts.

3. A vote of thanks to Mr. Young and the people of Hillsburn for their hospitality.

4. A vote of appreciation and admiration to the people of Hillsburn for their courage and resourcefulness which they have shown in building such an outstanding sanctuary for the worship of God.

5. A resolution for the application of the messages of the District to the local Churches.

The evening Devotional was conducted by Mr. Roy McIsaac, Bridgetown. Using Psalm 65 he spoke briefly upon the words "I behold", "I believe", "I befriend", "I behave", "I beware", "I become". Mr. McIsaac was assisted by his daughter, Miss Elizabeth McIsaac, singing "The Lord's My Shepherd" and Mr. John Stevens, who sang the spiritual "Steal Away to Jesus". The Hillsburn Choir, accompanied by Mrs. Harold Halliday, Parker's Cove, sang the beautiful hymn "O Sons and Daughters Let Us Sing". At the conclusion of this Mr. McIsaac introduced the evening speaker,

Mr. Earl Peverill, Bedford.

Mr. Peverill, using the subject "Stewardship in connection with the Five Year Program", appealed for the stewardship of Time, Talent and Treasure.

The evening concluded with a round table discussion, "What the Minister expects of the Layman", a response to the round table, "What the Layman expects of the Minister", of the fall district, under the leadership of Mr. Ward, the panel consisting of Rev. Carol Armstrong, Rev. C. S. Young, Rev. Alder Colpitts, Rev. Austin McPherson, arrived at the conclusion that too often what the Minister expects of the Layman is "too much from too few."

Singing "Bless Be The Tie That Binds", the very large congregation brought to a close a great day of Christian fellowship, and were dismissed by the new Chairman, Mr. J. Saunders.

H. & S. Meets

The Rossway Home & School Association met in the school house last Tuesday evening with ten members present. The meeting opened by singing "O Canada".

There were five delegates appointed to attend the County Council, which meets at Sandy Cove Friday afternoon and evening, May 20th. The delegates are Mrs. Dorothy Porter, Mrs. Darrell Lewis, Mr. Melbourne Prime, Mrs. Thuston Banks and Mrs. John Gidney.

The sum of two dollars was voted to be sent to the Unitarian Fund again this year as in previous years, and five dollars to be sent to the Dora Baker Scholarship Fund.

The completion of the flagpole by the soldiers' monument has been attained. The former one was blown down in the hurricane of last fall. Mr. William Melanson did the repairing.

Mrs. Dorothy Porter was chairman of the health program and provided a very interesting one by having films on Mental Health, Tuberculosis and "How To Catch A Cold". Due to the length of the films Mrs. Thuston Banks, who also had the art program only had a reading on "Fostering Child Art", dealing with self-expression in drawing instead of copying.

Have Close Brush With Death

CPO Alfred E. Ralston of HMCS Stadacona, and his wife had a close brush with death last Saturday afternoon when his car was in collision with the Yarmouth bound Dominion Atlantic Railway train.

The accident occurred at the level crossing near the home of B. F. Webber. Mr. Ralston was waiting in his car for the train to pass the crossing when in some manner his car slipped ahead, striking the rear car of the train.

Neither Mr. Ralston or his wife was injured although the car was badly damaged by the crash.

Large Congregations Attend Meetings

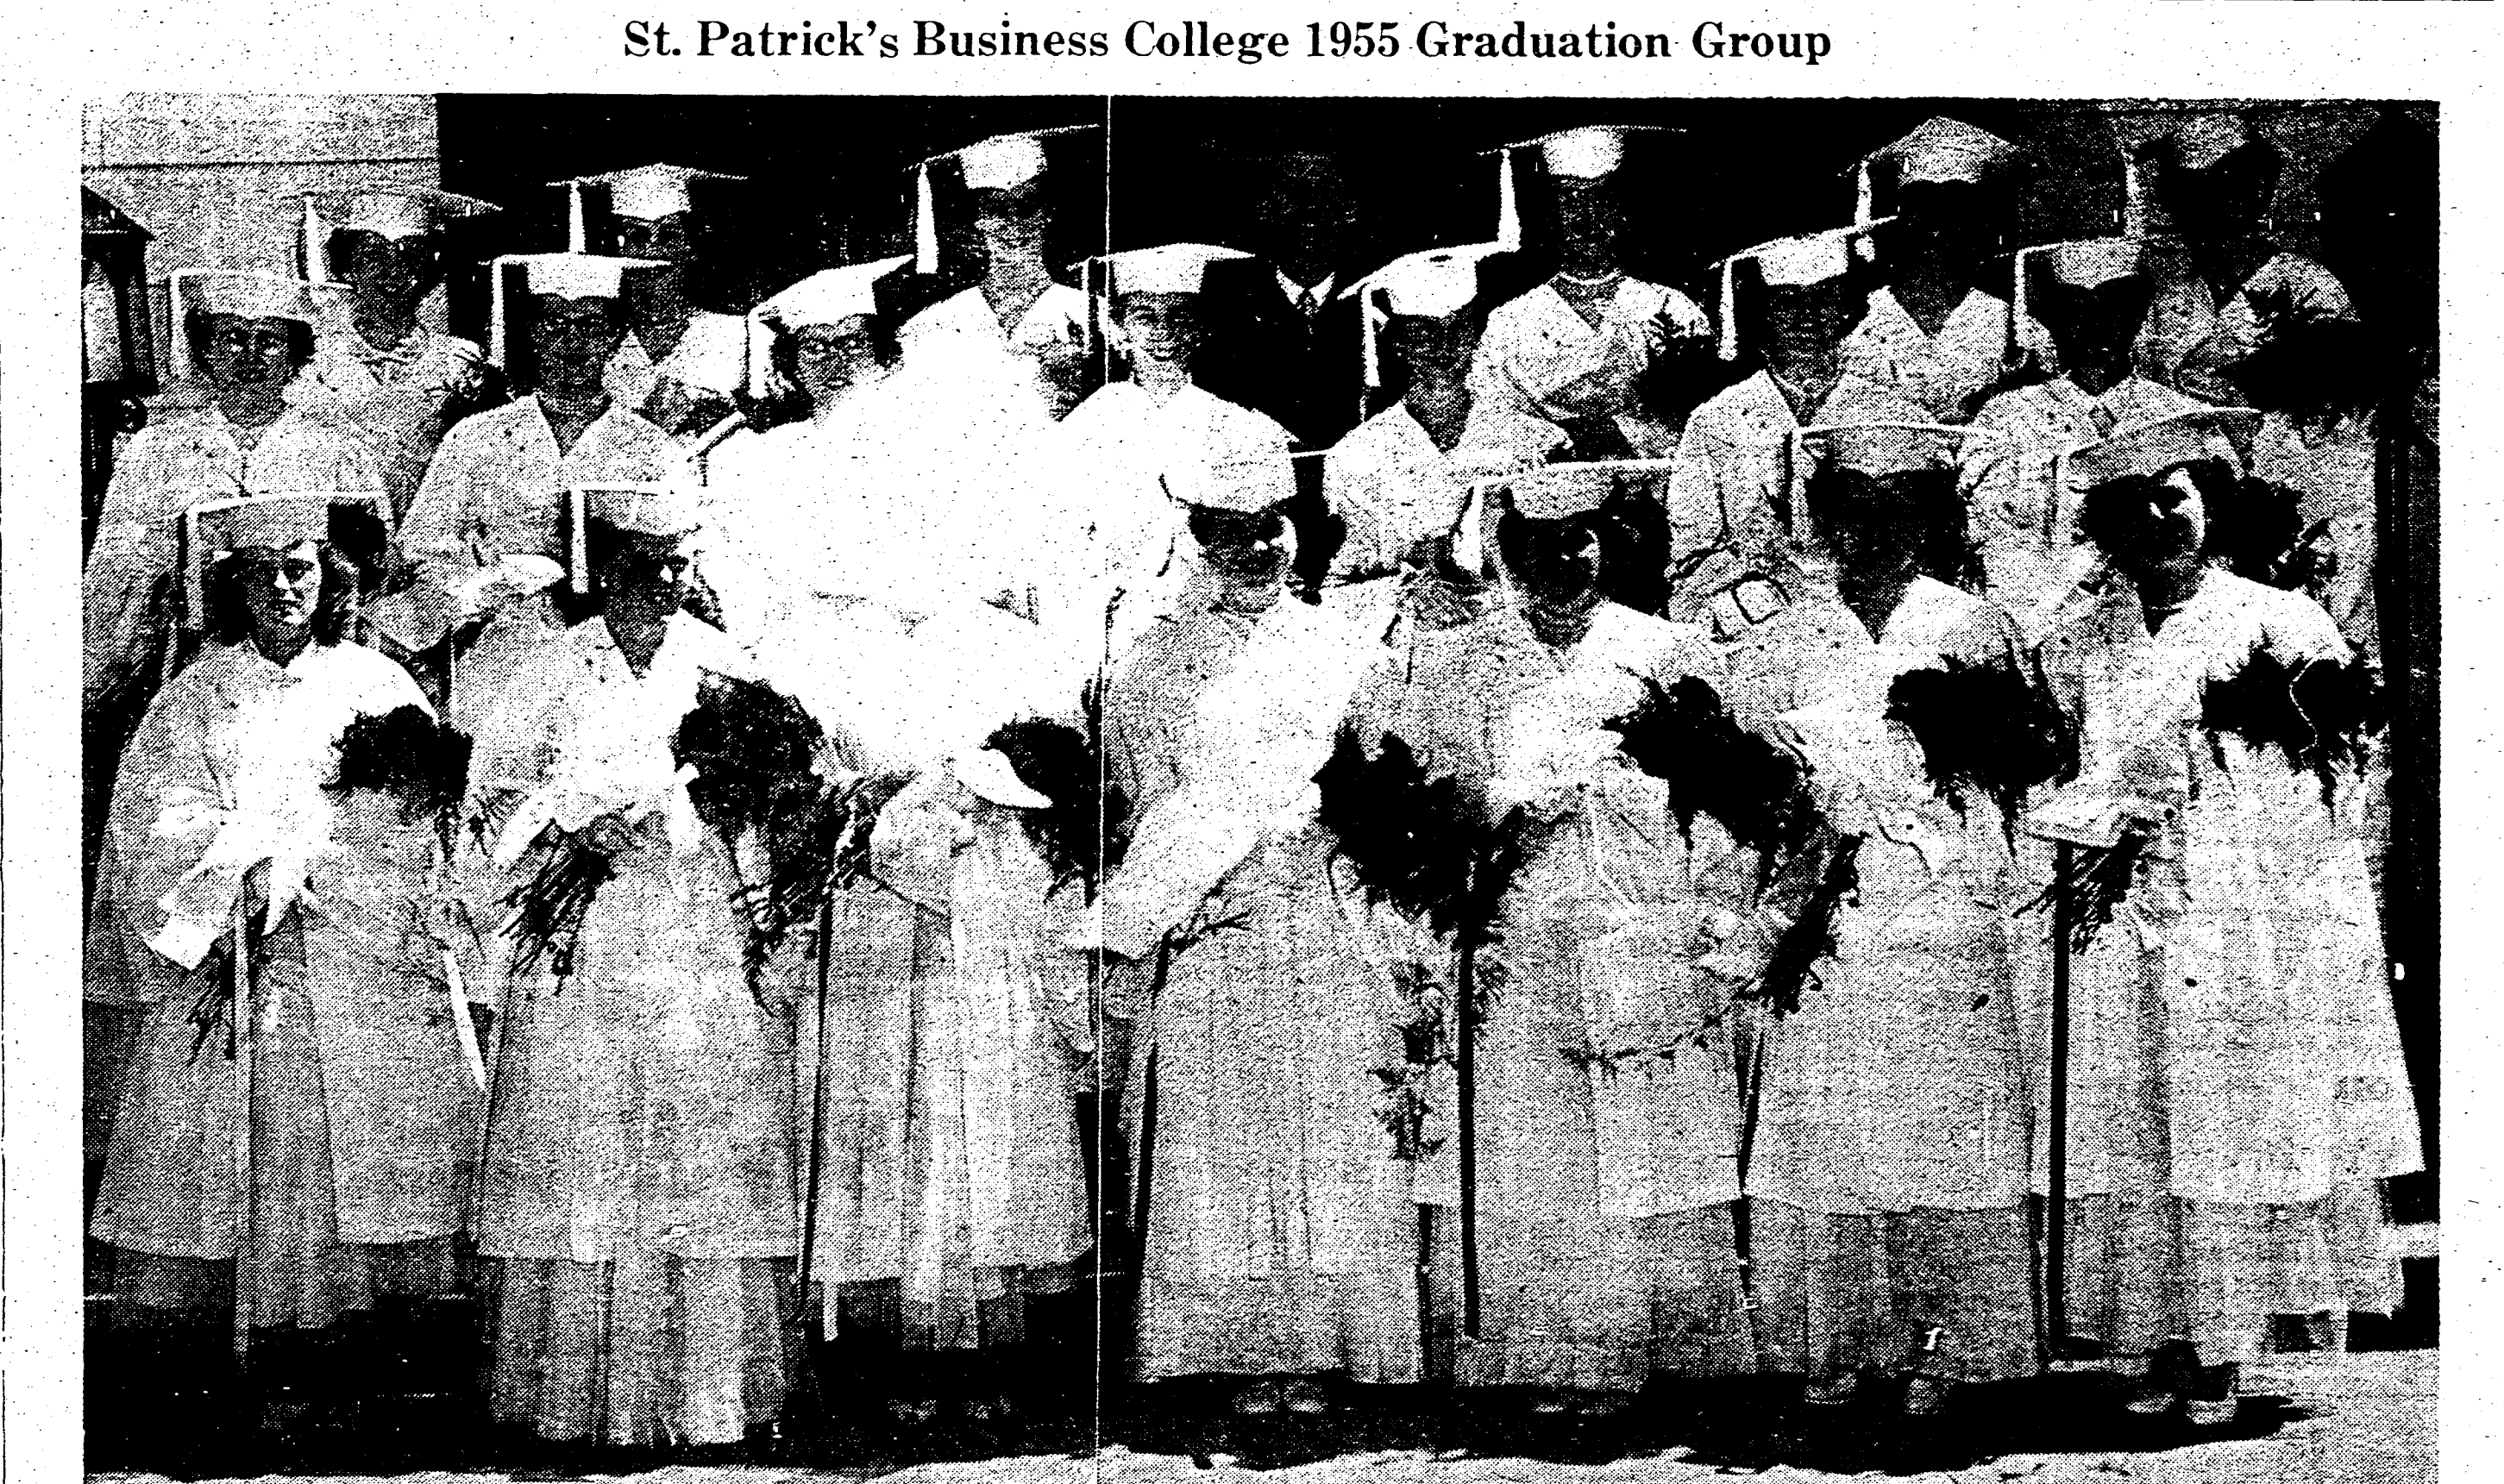

Approximately one hundred were served in the basement of the new Baptist Church at Hillsburn on Tuesday when the Baptist District Meetings for Annapolis County were held there. Congregations at the services more than filled the new building and many worshippers had to be content with hearing the service from the cars.

The music and address for the day were all inspiring and beautiful. The hospitality of the Hillsburn people was enjoyed to the fullness as on every former occasion.

About This and That

A Problem For The Home

In the last few months the problem of juvenile behaviour has occupied the thoughts of civic minded people to a marked degree.

As a result of certain happenings some time ago local citizens have been greatly disturbed about the problem. Meetings have been held and a committee set up to make a study and report on the whole situation.

While we do not presume to tell this committee what it should do nor how the problem should be handled in order to bring about a solution, we do feel that in its deliberations and studies this committee, and the parents of the area generally, should give close study and thought to the part the home should play in tackling the problem of juvenile behaviour.

In our opinion much of the basic cause for the problem which exists can be traced back to the breakdown of the family as a unit in modern society. Too often in these days when dealing with problems affecting youth we are prone to give precedence to the role played by the school, by service organizations and even the church, in handling these matters.

While all these groups have an important part to play in the matter of youth work, in the final analysis what happens to the youth of our land depends in great measure on the way they are brought up in the home — in the type of family life to which they were exposed in their formative years.

While it is true that sometimes, despite the fact all aspects of family life and upbringing were favourable, the youngster still "goes wrong", it still remains that the example of a good home, the proper discipline of kind but firm parents and the wholesome respect for law and order which comes from parents who themselves obey the law, have resulted in the development of young boys and girls into exemplary citizens — citizens who are a credit to their parents, their homes and their communities.

This type of development can only come, however, if the home becomes again what it once was — the centre of family living and not merely a place in which to eat and sleep — a place frequented as seldom as possible by parents and children alike.

While we acknowledge that community effort plays a big part in the development of youth, we still feel that it must play a secondary role and that parents must acknowledge and act upon the premise that the home is the place where by precept and example the biggest job of combatting the forces that bring about juvenile difficulties is done.

We would suggest, therefore, that the parents of this area examine the role they are playing in bringing up their children. In doing this we would remind that the children about whom we are concerned as a community are the children of individual families and must be dealt with, not so much as a group, but as an aggregation of individuals. In examining their role as parents we would suggest several things be kept in mind — what example is being set, what discipline and respect for law and order is being given and what is being done to make the home the centre of family living.

If an honest and searching appraisal of these things is made and if, where the answers are unsatisfactory, remedial action is taken, we feel much will be accomplished toward solving a problem which seems to have reached considerable proportions.

Letter to the Editor

The Editor,
The Courier.
Sir:

Through the medium of your valuable paper I want to clear up some of the confusion and straighten out some of the facts regarding the recent paving controversy which created such a stir in Digby.

First of all, it seems to me a great deal of effort, time and energy was spent by certain persons in Digby to make sure the question of paving did not come before the ratepayers.

Some of this effort may have been motivated by a sincere regard for the financial position of the town but it would appear that other motives also entered the picture, some of them not nearly so clear cut.

Be that as it may, it seems very strange indeed that those who opposed the paving should be so anxious to prevent the question reaching the ratepayers where a true, honest and clear-cut picture of the situation could be presented to the voters. To do this they resorted to pressure moves involving circulation of copies of a letter giving an adverse opinion and resulting in the defeat of the project even before anyone other than the Council could really have a chance to examine it and determine its merits.

Democratic government has as a vital principle the will of the people but in this particular incident the will of the people

has never been given an opportunity to be exercised. Instead, the work of a small pressure group whose motives, knowledge of the situation and real purpose in defeating the measure could be open to close study, have succeeded in creating such an atmosphere of confusion, that the project was scrapped. This, despite the fact the council was unanimous in its desire to seek approval of the ratepayers hardly more than a month ago.

So much misleading information has been circulated and so many statements made whose only purpose was to defeat the project that I feel that I should outline to ratepayers through the only medium now available to me the facts concerning the proposal which it was intended to place before the voters in the matter of the paving project.

First, the sum to be borrowed was not to exceed \$100,000. The streets to be paved were Victoria, King, Queen, 1st Avenue and Montague Row. The proposal which I as chairman of the streets committee placed before Council provided for a program of savings through the Street Fund and by other means so that the cost of the project would have meant little or no increase in the tax rate.

In fact, this year the Town of Digby estimates to spend \$16,950 on street maintenance. Of this \$3,750 will be for dust layer; \$6,000 labour; \$5,750 supplies and expenses; \$1,500 travelling and \$500 for grading. Contrary

to certain information circulated recently, the Town last year spent just about the same amount for streets maintenance, applied in almost the same proportions as called for in this year's estimates.

My proposal with regard to paving of the streets, mentioned several paragraphs previously, would have eliminated the spending of \$3,000 for calcium; \$3,000 for maintenance of the streets to be paved; \$400 for grading and would have made this money, already budgeted for in 1955 public works estimates, available to be applied to the cost of the paving. Add to this the sum of \$3,100 which is the net annual earnings from the parking meters, and which can only be used for such a project, plus a saving of \$1,900 from another town department which can be made through adoption of a proposal which I would have submitted and you have a total of \$11,400 which could be applied annually to the cost of the paving project without changing the present tax rate at all.

A careful study of the situation and the planned program will show the above figures are not faulty nor is the reasoning behind them. There can be no doubt the savings mentioned can be made with the paving of the streets as proposed. The revenue from parking meters is estimated but past results show it to be accurate. The

other savings mentioned could very easily be made but even without it a sum of \$9,500 would be available annually at present budget figures for the street paving project, without affecting the present tax rate.

It seems unfortunate that the resolution regarding the paving met such an untimely end.

In closing this letter I want again to say I am convinced the paving project would have been good business, that it could have been financed without undue burden and that, had the ratepayers been given their rightful opportunity to hear and deal with the matter it would have met with their approval. I want to thank the Board of Trade for their forthright stand in commending the Council on the proposal to pave and also the many citizens who have expressed to me their approval of the project. For their sake I am sorry the proposition did not have an opportunity to be tested by vote of the ratepayers. I also want to say that, in my efforts to secure the paving work I was working for the best interests of the town as I have always done and as I shall continue to do. I have lived alongside a paved street for some ten years and know its benefits — my efforts were intended to bring those same benefits to those not now enjoying them. Time and the continued unsatisfactory condition of town streets will, I am sure, prove who had the

town's best interests at heart and what has happened recently, when all the facts are known, will be brought out in its true light.

During the past two years that I have served on the Town Council, we can go on record as bringing direct savings to the ratepayers of the town of Digby.

Through the electric light, which lower rates you are now enjoying, your town has one of the lowest electric light rates in the Province of Nova Scotia. (One other town has as low a rate).

Also considerable large savings in the administration of the Town Office. Also considerable street paving and sidewalks which were paid for, out of savings, without an increase to the ratepayer. Also many other savings.

year for paving as the paving equipment was set up in this area. If the town of Digby in the future should decide to pave it would cost approximately \$20,000 more. This would be for moving equipment in, installing and dismantling it.

This letter explains my reasons why I voted for paving.

I am sorry to say we, the town of Digby, must still go on record as spending money year after year for dirt streets and have NOTHING to show for it.

Famous Trichologist Will Demonstrate How To Grow Thicker Hair ... And Guarantees It!

DEMONSTRATION TO BE HELD HERE

This new method of home treatment for saving and growing thicker hair will be demonstrated in Digby, Nova Scotia, Monday ONLY, May 23.

These private, individual demonstrations will be held at the Champlain Hotel on Monday ONLY, May 23.

Halifax March 19.
In an interview here today William Keele, internationally famous trichologist and director of the Keele Hair Experts, said: "There are 13 different scalp disorders that cause most men and women to lose hair. Using common sense, a person must realize no one tonic or so called cure-all could correct all these disorders," he explained.

Guaranteed
"The Keele firm, recognizing that most people are skeptical of claims that hair can be grown on balding heads, offer a guarantee," Keele said.

Once a person avails himself of the Keele treatment his skepticism immediately disappears. To insure this, we offer this guarantee: "If you are not completely satisfied with your hair progress at the end of 30 days your money will be returned."

Hopeless Cases Discouraged
First the trichologist is quick to tell hopeless cases that they cannot be helped. But the "hopeless" cases are few. Only if a man is completely, shiny bald is he in this last category.

If there is fuzz, no matter how light, thin or colorless, the Keele treatment can perform wonders.

A complete, private examination is given by a trichologist to determine the condition of the scalp, and cause for his hair trouble.

Free Examinations
This examination is very thorough and highly technical, it requires 20 to 30 minutes. The

trichologist makes no charge for this examination and no appointment is necessary. After the examination the person is told the required length of treatment, and how much it will cost.

After starting treatment, the person makes regular reports to the Keele firm in Halifax to check the progress of the home treatment.

To spread the opportunity of normal, healthy hair to the thousands who are desperately looking for help, independent trichologists are visiting various cities throughout Canada to conduct examinations and start home treatment.

No Cure-All

"We have no slick, shiny bald emphasis. If the root is still capable of growing hair and we can seem to be a trichologist."

There wants every man and woman to know. If a person appears at the temples, on the top of the head, there is something wrong and it should be given immediate attention.

Hair For Lifetime

"If clients follow our directions during treatment, and after they finish the course, there is no reason why they will not have hair all the rest of their lives" Keele said. "Our firm is definitely behind this treatment, it all depends on the individual client's faithful observation of a few simple rules!"

How's Your Hair?

If it worries you, call Trichologist R. Cunningham at the Champlain Hotel in Digby, Nova Scotia, on Monday ONLY, May 23, 12 noon to 9 p.m. The public is invited. You do not need an appointment. The examinations are private and you will not be embarrassed or obligated in any way.

HEAR TALK ON INDIA

(Continued from page 1)
by Mrs. Andrews and Mrs. McNeill.

The secretary called for reports from the District Societies and these showed the work going forward through the consecrated spirit of the members.

After the hymn "O Zion Haste" Miss Myers was called to the platform and she gave a challenging appeal to her hearers to use their many opportunities for service in time, labour, money and intercession for the work on the fields of India, Bolivia and Africa. She gave a number of interesting anecdotes of her work on the Telugu field in India and pleaded for more laborers to replace those who had borne the burdens for so long.

The president expressed the appreciation of the audience to Miss Myers for her thought-provoking words, and the meeting closed with the hymn "Jesus Shall Reign" and benediction by Rev. F. Miller, of Deep Brook.

Happy Holiday

Don't Start Something You Can't Finish

Play SAFE Victoria week-end.
When you use a match, break it in two before you throw it away. Be sure your discarded cigarette is out, too.
When you make a campfire, build it small and in a safe place near water. When you leave, put the fire DEAD OUT with water... then the forests will be yours to enjoy another day.
Enjoy your Holiday, but Protect your Forests.

IN MEMORIAM — In loving memory of my mother, Lena Maude Robicheau, who passed away May 18, 1950. This day we do remember. A loving thought we give. To one no longer with us. But in our heart still lives. God saw you were getting weary. He did what He thought was best. He put His arms around you And whispered, Come and rest. — Always remembered by her daughter, Alda Stark, and three grandchildren. 37:1c
IN MEMORIAM — In loving memory of a dear son and brother, Keith Cooke Cosman, who passed away May 20, 1949. All souls are Thine, we must not say That those are dead who pass away. BIRTHDAY PARTY HELD AT GRANVILLE FERRY

A jolly joint birthday party was held at the home of Mr. and Mrs. Stewart Saunders, Granville Ferry, on Wednesday evening with Mr. and Mrs. Frank R. Troop as guests of honor. The party had been postponed twice, first Mrs. Troop became ill with flu and then Mr. Troop followed suite, consequently both of their birthdays passed by.

However the delayed birthday party was a huge success and every one reported a grand time.

The first part of the evening was pleasantly spent playing forty-fives, followed by a jolly sing-song with Mrs. K. L. Oliver at the piano.

At the close of the evening Mr. and Mrs. Troop were presented with an electric clock and a very lovely china cup and saucer. The presentation was made by Miss Erma Lou Saunders.

The serving of delicious refreshments including a beautifully decorated cake, ended a very happy evening.

Many friends join in wishing this very fine couple many more happy birthdays.

Dr. P. C. Outhouse and family, Digby, and Mr. and Mrs. M. Rourke, enroute to their home in Freeport from their winter spent in Boston, were guests of Mrs. L. B. Small on Sunday.

In 1752, men and women in Halifax were reading the first Canadian newspaper, *The Halifax Gazette*. Anthony Henry was its publisher from 1761 on.

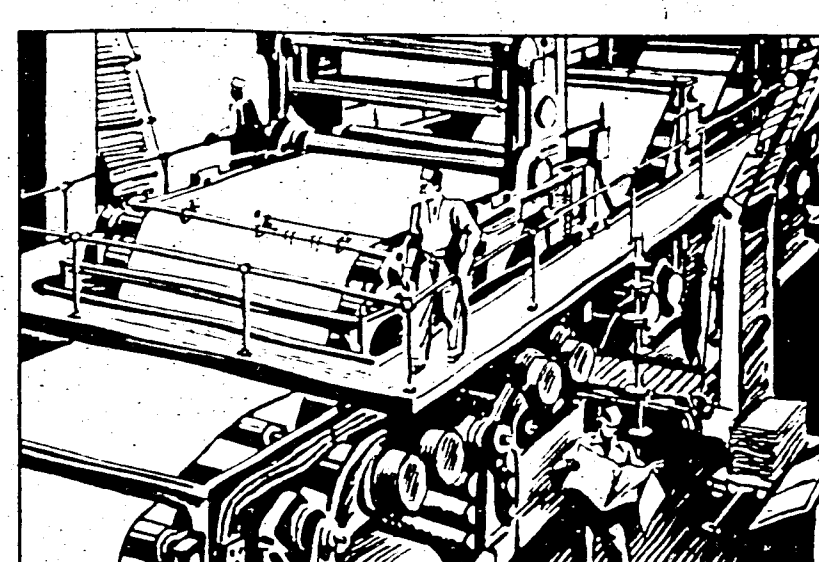

"EVERY PIECE OF HISTORY, POLITICS, AGRICULTURE, POETRY AND THE FINEST NEWS BOTH FOREIGN AND DOMESTIC, THAT CAN BE PROPERLY COMPRISED IN THE CHRONICLE, SHALL FIND A PLACE IN IT."

Meanwhile, other newspapers were rising—meeting the growing public demand for news, opinion, entertainment.

Soon, newspapers were everywhere. Government support was no longer necessary, for newspapers attracted private financial backing.

A modern newspaper is a costly enterprise, but as Henry attempted to prove, it can exist independent of government financing.

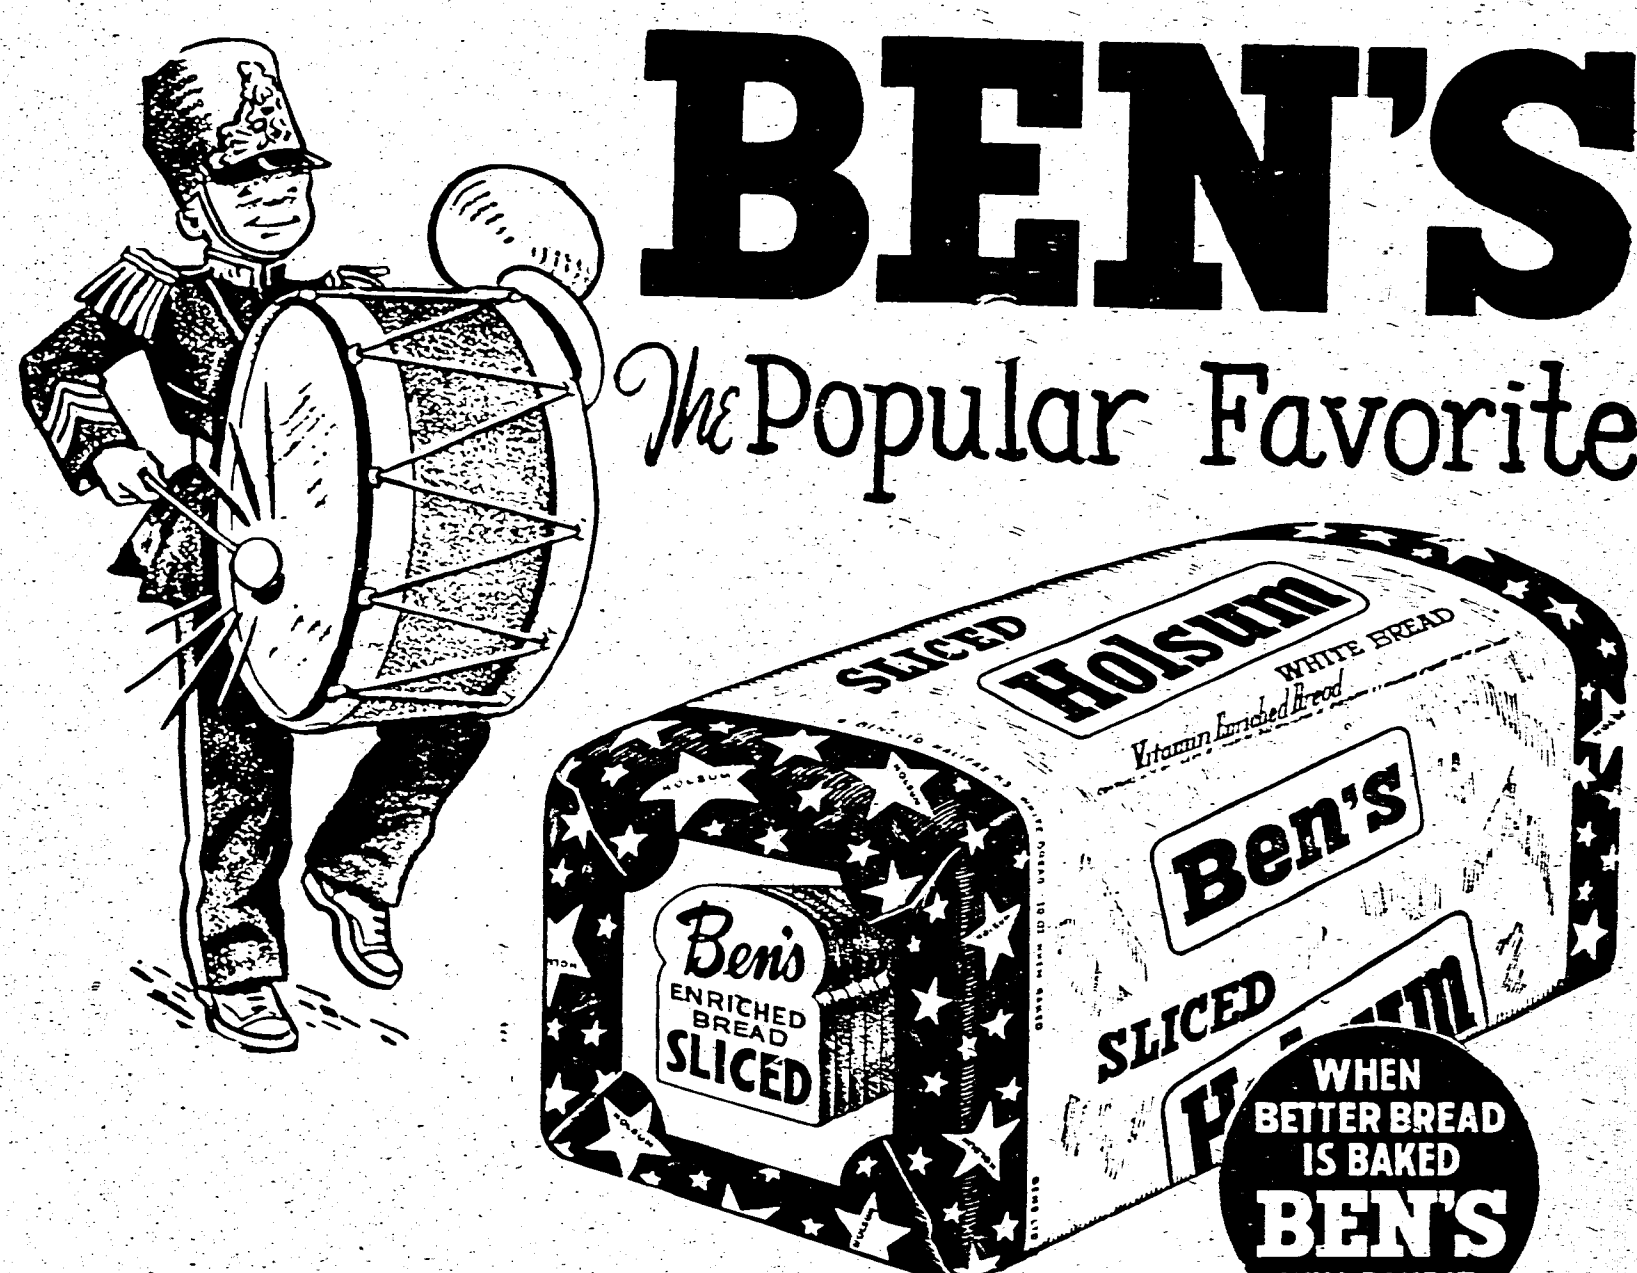

Today there are over 1,000 newspapers in Canada—in English, French, and many other languages! Free, strong, serving Canadians well, they owe much to pioneers like Anthony Henry.

Men like Anthony Henry depended upon their all-important associates—the far-sighted lending institutions and banks of Canada. They are always ready to help men of sound resolve... to help create the achievements that make Canada great. When you deposit your savings or do business with your Bank, you

New Furnace Slashes Home Heating Costs

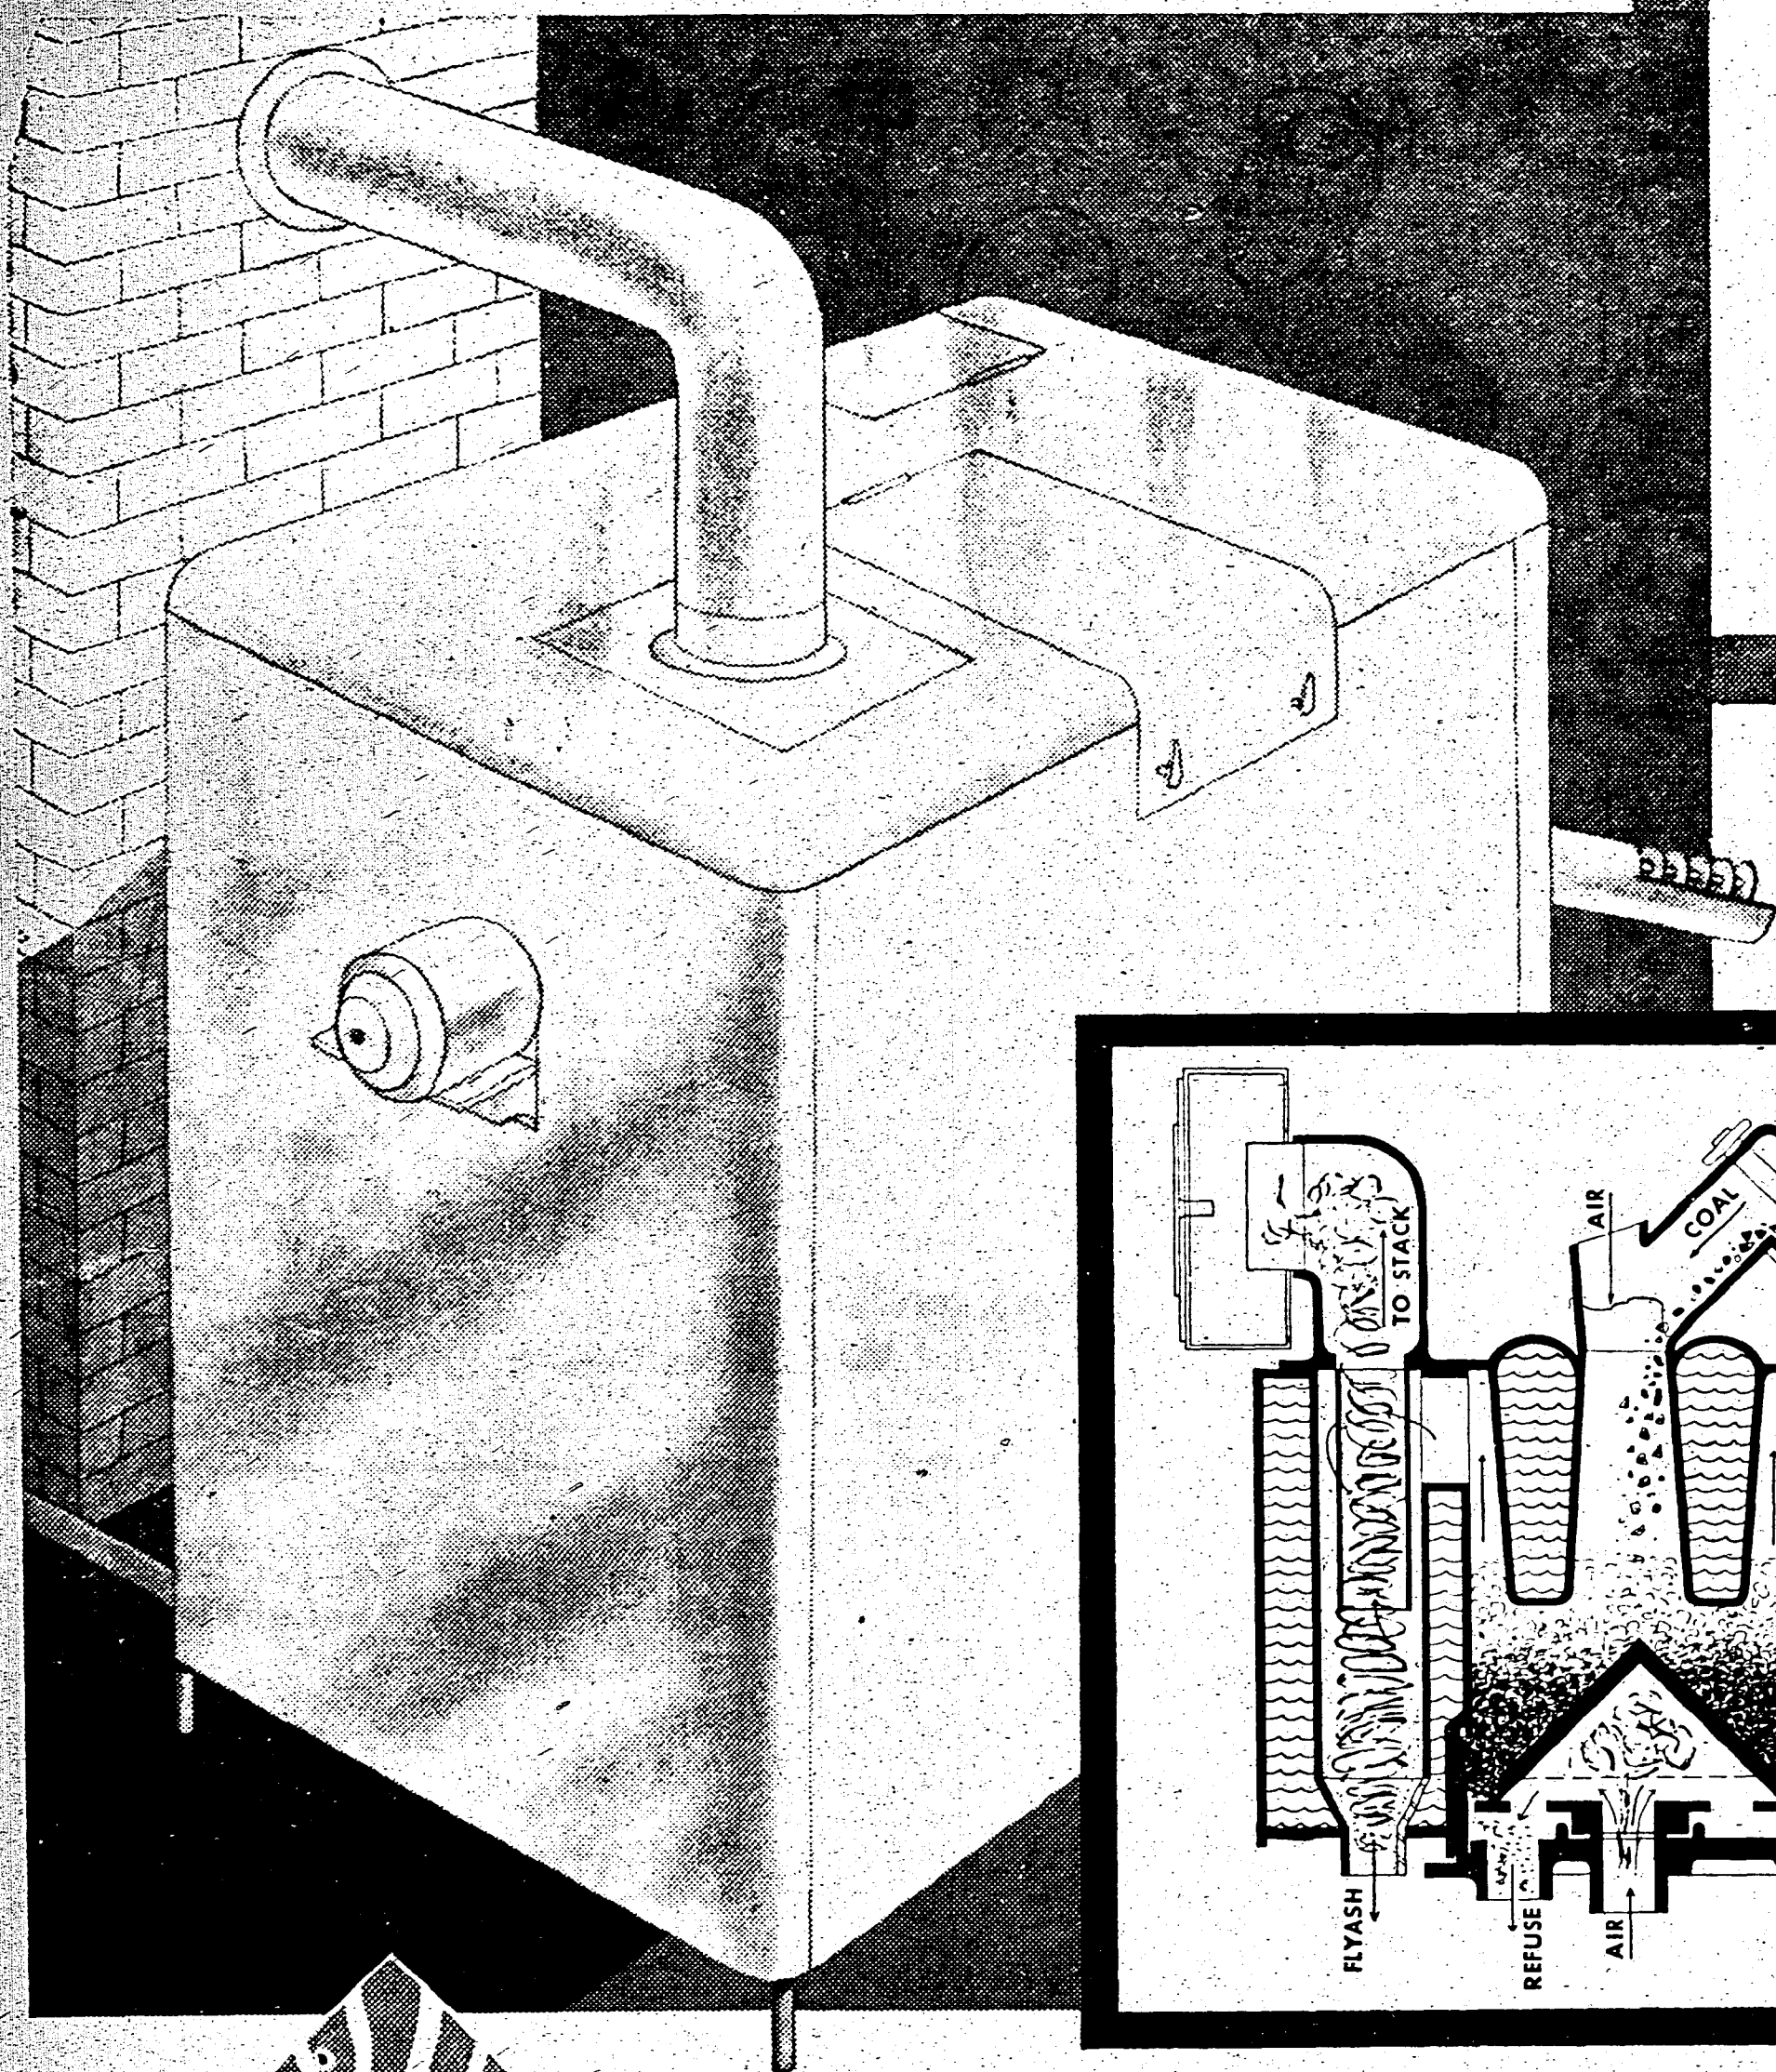

Years of research by engineers of Bituminous Coal Research, Inc. developed an entirely new revolutionary concept in domestic heating. From this Dosco engineers have developed a new furnace so completely automatic that it even removes the small

residue of ash to a canister inside or outside the home.

Because the coal industry is such a vital factor to the well-being of the Maritime provinces, this furnace is being made available to householders at the lowest possible cost. This means that apart from its economy of operation, it will be much cheaper to purchase and install than any other self-feeding furnace. And — it will pay for itself in savings.

A Demonstration will be held in your District soon!

SEE IT - and check these features for yourself!

NO ASHES TO CARRY

Through an entirely new principle the small amount of ash that forms is removed automatically by vacuum to a sealed canister in a corner of the furnace room or outside the house.

FULLY AUTOMATIC

This revolutionary new furnace stokes itself automatically as required by the thermostatic control.

ABSOLUTELY CLEAN

We make this statement without any qualification or reservation. It is impossible for ash or dust to enter the furnace room.

SAFEST YET

FULLY AUTOMATIC

NO ASHES TO CARRY

MAXIMUM COMFORT AND CONVENIENCE

Pays for itself as you use it

CUTS FUEL BILLS

The new Dosco furnace cuts operating costs, giving a good steady heat at a reduction of at least 20 per cent from the costs of hand-fired furnaces. Savings are relatively higher over other type heating systems.

COMPACT UNIT

The new Dosco furnace — finished in gleaming white enamel is the most compact, space-saving furnace you can own. It is 40 inches long, 30" wide and four feet high.

Purchase and installation of Dosco's new furnace can be financed through a home improvement loan available under the National Housing Act. See your Bank!

The Royal Bank Of Canada Makes Announcement

The Royal Bank of Canada has announced that, effective immediately, the rate of interest charged on new mortgage loans made under the National Housing Act by its branches throughout Canada is being reduced from 5 1/2% to 5%.

The new rate applies to all new mortgages arranged through The Royal Bank of Canada for the construction of new housing including private homes, duplexes and apartments, eligible under the Act.

In making the announcement May 19th Mr. James McRae, the bank's Chairman and President stated: "We have decided voluntarily to reduce the rate on National Housing Act mortgages for two very good reasons. The Royal Bank believes a lower rate will encourage even more people to take advantage of the very attractive terms that can be arranged under the National Housing Act and thus encourage the construction of new homes. We are also of the opinion that a rate of 5%, which is the maximum permitted under the terms of the National Housing Act, is on the high side and unrealistic under present conditions."

Special Services At Bear River

Special services marked the re-opening of the Bear River Baptist Church following extensive renovation and redecoration of the auditorium. A large congregation heard Dr. Tom B. McDormand, Toronto, General Secretary of the Baptist Convention of Ontario and Quebec, preach in the morning on "Unfinished Business," based on Acts 1:1, and in the evening on "Baptist Symbols," dealing with the significance for Baptists of the pulpit and communion table.

Dr. McDormand graduated from Acadia University in 1929 (magna cum laude). Later he received the Bachelor of Divinity degree from St. Stephens College, Edmonton; the Doctor of Theology degree from Victoria University, Toronto; and an honorary degree of Doctor of Divinity from McMaster University, Hamilton, Ontario.

Dr. McDormand is a member of the executive of the Baptist World Alliance and of the Canadian Council of Churches. He is chairman or secretary of numerous denominational and inter-denominational bodies and chairman of the Inter-Faith Committee of the Toronto Community Chest, and a member of its Public Relations Committee. He has published two books in the United States and a new manuscript is shortly to be published in Nashville, Tenn.

Dr. McDormand is co-organizer of a party of more than 400 Canadian Baptists who will attend the Baptist World Alliance Golden Jubilee Congress in London, England, in July. Following the Congress he will address a large Women's Convention in Green Lake, Wisconsin, on the program and policies forced out in London by more than 10,000 Baptists from all parts of the world.

Mrs. Tom McDormand and Rev. Don McDormand of Truro, will also be members of this tour. Following a short visit in Bear River with Dr. McDormand's mother and sister, Bernice, Dr. McDormand returned to Toronto on Monday.

Among Bear River former residents now prominent in lay leadership in Toronto and vicinity are Mr. and Mrs. Lawrence Hubley (the former Bertha Dukeshire); Mr. and Mrs. Ralph Burns (formerly Marion McLeod); and Walter Reed and Terence Purdy.

cars ARE MY Line

by Ken Hankinson

You may have read of the drunkometer test they use in some cities for drivers suspected of having a few too many. The driver breathes into a balloon and the police test his breath for alcohol. A certain percentage of alcohol and... you've had it. And no chlorophyll gum can help you.

Most people know about a similar test you can try on a used car (not that our cars look drunk, mind you, but it's a similar idea). Almost everybody watches for smoke from the exhaust, but I find a lot of people really don't know what they're looking for, or why.

When you're browsing around a used car, race the engine a few times and watch the exhaust fumes for blue smoke. It's the blue you want to look for, not gray or black.

What does it all mean? The car that billows blue smoke is burning oil. Eventually, it will require a ring job, as all cars do sooner or later.

It's not a sign of anything fundamentally wrong (the driver in the breath test can be sobered up pretty quickly). If you like the car in other ways it will still be a good buy.

We didn't have any blue-smokers on the lot the last time I looked. When you're shopping around, though, I hope you'll ask to be shown everything you want to see, ask the things you want to know — poke around a little yourself to make sure.

Take a car out on the road and drive it the way you'll be driving your own. You do that much for a new pair of shoes, we want you to get the "feel" of your new-used car, too.

The Weymouth Drama Group motored to Annapolis on Tuesday evening of last week to be present at two plays put on at the Youth Centre there by the Annapolis Group. Among those taking part in these plays were two of our own young people, Thomas Bartlett and Anna Ruth Harris.

A little boy burst into the house the other day and shouted, "Hey, I just sold my dog for \$10,000!" "Oh, I said, 'Where's the money?' 'Oh, I didn't take the money for him,' answered the lad. 'What I did was exchange him for a \$5,000 cat and five \$1,000 kittens.'"

Well, that's pretty high finance, and I don't suppose many people around here deal in such figures; but if you take a load of logs into Hicks's you'll get what they're worth. And if you're in the market for building supplies, they'll take logs, money, or if you're a home-owner, finance you on the easy Home Improvement Finance Plan.

To Take School Census

A census of Nova Scotia school children will be carried out during May, the Department of Education announced today. The census will also include children of pre-school age who normally will begin attending school in the next two or three years.

S. E. MacKenzie, provincial Supervisor of Attendance, said the census would be taken on a sectional basis with the local boards of school trustees looking after arrangements in each school section.

The census will include the names and ages of all children in the province who will be between three and 18 years of age next September 1, together with the names and addresses of their parents or guardians.

Accurate census data will help educational authorities to forecast the educational requirements for purpose of ordering supplies, hiring teachers and planning building programs; to discover handicapped children, to enforce compulsory attendance and child labor laws; to provide information for community agencies, and to reveal the influence of population changes on present and future school enrolments and building needs.

The last school census was taken in 1952. The Nova Scotia Education Act requires the taking of a census of the school population every three years. In addition to names and addresses of children and parents, information required includes each child's date of birth and the Family Allowance number of the family. An accurate school census is the basis of correct child accounting and an efficient school system.

Outlines Work And Growth Of B. & F. Bible Society

"The church could not continue its evangelistic work on its present scale without the support of the British and Foreign Bible Society", Rev. M. C. P. Macintosh, District Secretary, told a meeting at Tiverton, on Monday evening, May 15th.

Every branch of the reformed church draws on the Bible Society for their supply of Scriptures in promoting their missionary work at home and abroad. Thus the Society has become a vital part of the church's life and work. The Bible Society supplies the Anglican churches of the world with Scriptures in 204 different languages for their worldwide missionary work. The Presbyterian churches draw on the Society for Scriptures in 160 different languages. The Baptist churches of the world and Disciples receive the Scriptures in 95 different languages for their missionary work, while the United Church of Canada depends upon the Society for Scriptures in 35 languages for their work in Canada and overseas.

The speaker outlined the origin and growth of the Society, pointing out that it was founded in England 150 years ago when the people of England were engaged in a war with Napoleon. "The laymen of the churches in England believed that they had in their possession a Book which could break the chains of slavery, give children and women their rightful place in society, unmask superstition and ignorance and bring freedom to the world. In the midst of war they launched this movement which has become the greatest missionary movement the world has ever known."

Referring to the work which the Society does in Canada, Mr. Macintosh stated that the Society has distributed nearly twenty million copies of the Scriptures in 110 languages. It has given 1,524,000 diglot versions of the Scriptures to new Canadians who have entered the Dominion since 1914. Over 1,316,000 New Testaments have been distributed to members of the armed forces since the beginning of the first World War.

The speaker showed his audience a copy of a Braille Gospel and said that the British and Foreign Bible Society alone presents the Scripture in Braille to the blind. The cost of producing a Braille Bible is \$90.00. This cost is met by generous gifts from subscribers throughout the Dominion so that the blind, like others, may receive the Scriptures at a price they can afford to pay.

Following the meeting an excellent film entitled "The Bible on the Table" was presented. This film portrayed the value of family worship in the home, thereby strengthening the church and the nation.

The following were elected for the Tiverton Branch and will conduct a campaign for the work of the Society: Mrs. L. B. Small, convener, with power to add.

Digby Leads In Red Cross Campaign

Halifax, May 19. A report issued today by Eric W. Balcom, Wolfville, Campaign Chairman for the Red Cross Annual Drive for Funds, shows a total of \$169,000 collected. Mr. Balcom stated that there were still a few districts to complete their canvass and that he expected the final total would be in the vicinity of \$172,000. This is \$20,000 short of the objective.

E. F. Crease, who has been appointed Campaign Chairman for the 1956 Campaign, stated plans are already under way which it is hoped would insure that the objective would be reached next year.

The report issued by Mr. Balcom showed that leading the province was Digby. Chairman Hubert M. Warne, with 113% of their objective and more to come. Tied for second place were Hants West, Chairman R. G. Hughes, and St. Mary's Municipality, Chairman Grant MacDonald, each with 111.5% of their objective. Also in the honors group was Clare Municipality, Basil Belliveau, Chairman, reporting 100% of their objective.

Mr. Balcom commended these achievements and expressed the appreciation of the Society to the loyal workers who did the collecting and to the many contributors who provided the funds to carry on the work of mercy.

65 PETITION FOR RATEPAYERS' MEETING

Petitioned by sixty-five ratepayers in the town of Digby the Town Council on Tuesday evening at a special session decided to call a ratepayers meeting on June 3 to decide for or against borrowing a sum of money not to exceed \$100,000 for town street paving purposes. The resolution drawn up to be submitted before the ratepayers is as follows — Resolved that this public meeting of the ratepayers of the Town of Digby hereby approves of the proposed borrowing by the said Town of a sum not exceeding One Hundred Thousand Dollars for the purpose of paving with permanent pavements streets in the town.

Before the decision was arrived at considerable discussion arose as to the merits and demerits of entering a paving program at this time. Gordon Turnbull, chairman of the streets committee for the town endeavored to prove to the councillors that \$9,500 could be saved through his department alone by launching on the paving program, which along with another

\$2,500 he felt could be saved by other means could be applied to any bonded indebtedness incurred in paying the town streets. He informed the councillors that the very streets which were being considered for paving were the ones on which the maintenance was heaviest. Councillor J. R. McCleave supported Gordon Turnbull in that a saving could be made but expressed himself as not being prepared with figures to substantiate the claim as to the amount of savings mentioned by Councillor Turnbull.

Sydney Smith, councillor, expressed his agreement in the open discussion in having a ratepayers meeting called but was insistent that all the facts be laid open to the ratepayers so that they would be thoroughly aware of any steps they would take. He was supported in his stand by Councillor Norman Wright.

The meeting was presided over by His Worship Mayor Morehouse and present were Scott Eaton, clerk, E. J. Theriault, solicitor, L. M. Saunders, councillor and several visitors.

1st Vice-Pres., Mrs. Willis Buckler.
2nd Vice-Pres., Mrs. Zelle Doucett.

Sec'y-Treas., Mrs. Gordon Landers.

Fifty-five delegates and guests represented four branches, comprised Bear River, Meteghan, Meteghan River and Lower Saulnierville. Smith's Cove and Joggin Bridge. Mrs. Edith George, of the Smith's Cove and Joggin Bridge Institute, very graciously welcomed the visiting friends, and a fitting response was made by Mrs. Raymond LeBlanc, of Meteghan.

The President, in her address, gave a summary of the work accomplished by the Branches during the year, which included sponsoring Blood Donors, Well Baby and Polio Clinics, Study Clubs in Health and Parent Education, Red Cross and Cancer Drives, Tag Day for Blind Travelling Market Basket, Ukeep of Memorial Parks, Float in the Cherry Carnival, Bear River, and booths at Digby Co. Exhibition and Digby Hospital Fair.

The Branch representatives as announced during roll call were: Bear River — (Sr.) Mrs. Gordon MacIntyre, (Jr.) Mrs. Wm. Morine; Meteghan — (Sr.) Mrs. Raymond LeBlanc, (Jr.) Mrs. Edward Comeau; Meteghan River and Lower Saulnierville — (Sr.) Mrs. Adolph Comeau, (Jr.) Mrs. Robert Comeau; Smith's Cove and Joggin Bridge — (Sr.) Miss Jennie Rice, (Jr.) Miss Sue Winchester.

Mrs. Adolph Comeau, on behalf of Meteghan River and Lower Saulnierville Institute, presented "Neighborhood News" as their contribution to the program.

The Superintendent W. I. N. S., Mrs. Florence H. Hilchey, gave an interesting address, speaking on the theme of the year, which has been "Your Organization and You", pointing out that one of the highlights of the year had been the acquiring of sufficient funds for the Home Economics Scholarship. The fund started in 1946 under Miss Helen J. Macdougall, has been very encouraging. Six Home Economics Scholarships have been offered since 1949. This year a fund is being started for students entering Provincial Normal College. When we consider the W.I.N.S. we can see what it has done, what it is doing and what can be done in the future. All that is needed for a greater and more influential organization is the enthusiastic support of its 4208 members in increasing its membership and in carrying out its policies in the organization.

At noon time the members enjoyed a sociable hour partak-

ing of a basket lunch. The afternoon session opened with a rousing "sing-song", led by Miss Laura d'Entremont, Dist. Music Director, with Mrs. J. J. Wallis at the piano.

Mr. Raymond LeBlanc, Digby County Agricultural Representative, spoke briefly, urging that all Institutes support the Folk School.

Mrs. W. I. Bishop, Vice-Pres. of W.I.N.S., addressed the meeting, stressing the importance of a closer relationship between the District President and the Branches. Mrs. Bishop extended greetings from the President W.I.N.S., Mrs. Keith Rand, and read her address.

The guest speaker, Mr. Victor Cardoza, M.L.A., presented a challenging address, taking as his subject the Institutes motto, "For Home and Country". He stated the Women's Institute could play a great part in the matter of rural life and could also help in restoring the emphasis on the home as the centre of family living.

If our world is to meet the threats of Communism, if we are to successfully combat the forces that bring about a breakdown in society, he said, then we must all work to restore the homes of our land to the place they once occupied in the pattern of our living.

He called upon his hearers to be busy not only with the work of their organization but also as individuals in their own communities to establish and maintain standards which will serve as a bulwark against the insidious inroads of foreign ideologies and the forces of evil.

In our zeal for the good of all society, he said, we must not forget the job we have to do as parents and homemakers on our own account. In making sure that we as individuals do a sound and proper job we are going a long way to ensure the success of the organizations to which we belong, he concluded.

Mr. Cardoza was introduced by Raymond LeBlanc, Agricultural Agent for Digby County, and the thanks of the meeting were expressed by Mrs. Woodgate, President of the Institute. Two humorous playettes were greatly enjoyed, "The Meeting That Started On Time", presented by Bear River Institute, and "Late For The Meeting", by the Meteghan Institute.

French songs rendered by the two French speaking Branches, were a pleasing feature of the day's program.

This year's exhibits of quilts and photograph albums were judged by Mrs. Hilchey, and a quilt (Grand Pre Church) design made by Meteghan River and Lower Saulnierville, also photograph album compiled by Smith's Cove and Joggin Bridge, were chosen to be exhibited at the Convention.

Mrs. MacIntyre, Bear River, on behalf of all the Branches, extended a vote of thanks to the hostess, Smith's Cove and Joggin Bridge Institute.

Rally closed with The Queen. Afternoon tea was then served by the hostess Institute, bringing to a close a very interesting and enjoyable day.

A hearty vote of thanks was extended each retiring officer for their untiring efforts through the successful past.

Friday's sessions were presided over by Mrs. Owen Irving, immediate past president.

Observes 97th Birthday

Congratulations and best wishes are extended Mrs. W. H. Weatherspoon, a native of Granville Ferry, now residing with her daughter, Mrs. Lena Farnsworth, at Banff, Alberta, who recently celebrated her 97th birthday.

Mrs. Weatherspoon, who was the former Susan Mills, is as active as a lady of 97 can be expected to be. She reads, sews, knits, and has a hearty appetite. She has hardly been sick a day in her life and daily surprises her family with her still sharp wit and keen sense of humor.

About This and That

On Ratepayers' Meetings

In this issue of the Courier are found two letters concerning the recent proposal and the outcome of the special meeting of the Town Council in regard to paving the town streets. Each letter expresses the opinion of the writer and each deserves a place in the columns of this newspaper. Although we are not at the present time taking any part in the discussion and point out that the views of the letter writers are not necessarily those of the editor, we do welcome these letters which bring two sides of a question before the public mind. The particular question at hand is one which concerns every ratepayer, it involves the spending of a great deal of money and should be given much consideration from every angle. There are times when it is more economical to spend at once than to wait, there are times when it proves more economical to delay spending or refrain entirely from the step. All these questions must be weighed. In order to study the question thoroughly the public must know the facts, they must have some correct data on the situation so that each item can be placed properly on the balance scale. Again, we welcome these friendly and courteous letters for that reason and if at some time the same question comes before a meeting of the ratepayers of Digby, the public is more prepared to decide on an important business matter.

Which brings us around to our original topic — On Ratepayers' Meetings. If our memory has not failed us we read not too long ago that Liverpool town had a ratepayers' meeting in which 22 out of 1,200 ratepayers (2 percent) voted on a question of spending \$8,000. (If we are not correct, I am sure that our friend, Cecil Day, of the Liverpool Advance, will correct us). Two percent is a low percentage and we are not prepared to say whether any of Digby's ratepayers' meetings were so poorly attended or not but we have seen times when very few interested people attended such meetings. So small a percentage of voters, whether in the matter of Federal, Provincial, Municipal or Civic affairs, does not represent the will of the people on the issue decided, but merely reflects a deep unconcern for matters of grave importance. All too often have the people awakened from their unconcern to find either they had "missed the boat" or they were burdened with an unnecessary load of taxes or other evil.

All too often the people's unconcern has provided an opportunity for enough personal friends to be rounded up for voting to put through some measure or to defeat some measure, according to the wish of some particular party. Such is not democracy. But whose fault is it? Not the fault of democracy itself. Oh no! Just the fault of those who fail to make use of the privileges of democracy and of those who abuse the privileges.

So, in preparation of a ratepayers' meeting for the town of Digby in the near or distant future, whether to decide on a paving issue, school issue or whatever, we hope the citizens will acquaint themselves with facts and get out to vote and vote intelligently — not because somebody else wants you to vote one way or the other. We at the Courier appreciate impersonal letters which will make the citizens better acquainted with any issue at stake.

Sell-ebriation

Pictou merchants have been getting together the last few years to discuss shopping hours and holiday observance. There is no reason why they could not get together occasionally for sales promotion and improvement of merchant-customer relations. Last week the New Glasgow retailers joined in a Sell-ebriation effort which despite unfavorable weather resulted in an increase of sales as high as forty per cent in some stores as compared with the previous week. While the net value of the effort has not yet been estimated, the merchants believe it was worth while and they have gained experience which will make the promotion more profitable another year. Some merchants who had been fearful about the purchasing power in their trading area were amazed at the amount of ready cash available. — Pictou Advocate

We are happy to learn that the Digby Board of Trade has discussed embarking on a similar program as above for business relations and improvement of business in Digby town.

V.O.N. Worthy Cause

During a period of two weeks beginning on the 1st of June the residents of Digby town will be asked to support the Digby Branch Victorian Order of Nurses by contributing to the Membership Drive. We therefore, think it fitting to review here some of the work carried on by the Victorian Order program.

The Victorian Order provides a part time nursing service in which anyone at home requiring nursing service, but who is not in need of a full time nurse, can receive nursing care. The nursing care is always given under instruction from the attending physician.

Pre-natal care and instruction is given to the mother-to-be. Home deliveries are attended and cared for or care given to mother and baby when they arrive from the hospital.

Later mother and baby are welcomed to the free well-baby conferences or clinics which are of valuable service in checking on the health of the child.

The nurse is available at any time to the aged in the home where full time nursing service is unnecessary. Besides ministering to physical comfort, the V.O.N. nurse is also a valuable social contact for the aged and infirm.

In the school regular physical check-ups are made. Detection of tooth decay, eye defects and other defects, followed by contact with the home, in this regard, has proved most beneficial over the years. The V.O.N. in Digby also assists with the immunization programs.

These are but a few reasons why we feel the Victorian Order is worthy of your support.

Letter To The Editor

Digby, N. S., May 20/55.

The Editor, The Courier, Sir:

It was with interest that I read the letter from Mr. Gordon Turnbull which you published on May 19th.

I think it is only fair to the ratepayers to know the full facts concerning the recent proposed paving program, therefore I would appreciate it if you would give this letter the same publicity that was accorded Mr. Turnbull's letter.

The following is a copy of a letter received by the Town from the Department of Municipal Affairs concerning the proposed paving.

Halifax, May 9, 1955.
Mr. E. Scott Eaton, Town Clerk, Digby, Nova Scotia.
Dear Mr. Eaton:

Re: Proposed Borrowing \$100,000.00 Paving
I refer to your letter of May 3rd and your further letter of May 5th. I understand you have been informed that this work should be done now because there is a paving plant in the vicinity.

At the end of 1954 the total net debt of Digby was \$390,637.00. This is a per capita net debt of approximately \$191.00. If you will refer to our report of Municipal Statistics for 1953, on page 6 you will notice that only two towns had a larger per capita debt than this. In both cases these were towns which had installed new water systems. The addition of \$100,000.00 to your debt will bring the total to almost \$500,000.00, which is a per capita debt of \$244.25.

As nearly as I can compute the debt service charges on the borrowing of \$100,000.00 will add about thirty cents to your tax rate, bringing it to approximately \$3.00. It was my understanding that business conditions in Digby were not as good as they had been. I hope that the Council will give some consideration to the effect which a substantial increase in your debt service charges and consequently in your tax rate, will have on your tax collections.

I do not know what the effect will be upon Digby of the recent changes in education finance following the Pottier Report. It may be that this will not bring any relief financially to your Town but that it will require additional money. You have no doubt made some attempt to compute the effect which implementation of the Pottier Report will have on your finances. Accordingly, you may know whether this will involve the expenditure of more money for education, or less.

While you said in your letter that this paving would save you \$8,000.00 a year on street maintenance, we were not able to find that you had spent more than about \$2,400.00 for this purpose in 1954. It seems to us also that you can only have about \$3,000.00 in your estimates for this purpose this year. Certainly you will require street maintenance even if you complete this paving programme. I am not able to see how you can save \$8,000.00 from an expenditure of \$3,000.00. If our figures happen to be inaccurate we will be very pleased to receive your comments.

The Minister has authorized me to send you the necessary resolutions for a ratepayers' meeting. This is not to be taken however as indicating that he will necessarily approve of the borrowing. This will have to be considered when the results of the vote are known.

Yours very truly,
W. E. Mosely, Deputy Minister.

I would think that the Department of Municipal Affairs had made the picture very clear. It would seem to me that after receiving this letter that any councillor who would not vote against the paving proposition would not have the best interests of the town at heart or that his power of absorption was considerably smaller than average.

Mr. Turnbull states that the Council was unanimous in its desire to seek approval of the ratepayers hardly more than a month ago. He does not state that the record shows two councillors were absent when the vote was taken.

It is further shown on the Town records that the full Council of six members were present when the motion to withdraw the paving program was passed.

Mr. Turnbull further states that the sum to be borrowed was not to exceed \$100,000.00. The Town records show that after the ratepayers voted \$30,000.00 a short time ago for paving purposes the Council spent \$46,198.23.

I do not think it is necessary to go into the matter any further as the facts speak for themselves.

I do not see however that it

Letter To The Editor

Digby, Nova Scotia, May 20/55.

To the Editor of the Digby Weekly-Courier. Dear Sir:

I read, with great interest, Mr. Gordon Turnbull's letter re the paving of streets in the Town and consider it one of the finest and most informative letters I have seen in your paper for a long time. His letter shows that he went to a great deal of trouble to get the facts and figures before the public. I have personally complimented him on this letter and do so here again publicly. Just why the majority of our able men in the Council should be influenced by the opinions of a few I cannot understand. As one of the old timers I have seen this Town grow from almost the cowpath sidewalk stage to its present beauty and know, as should all patriotic citizens should, that to progress you must spend if you want to improve. But in this case, as Mr. Turnbull's figures show, are we not spending wisely. Calcium Chloride is a waste of money in my opinion and I have watched its use for quite a few years. Any person driving a car in the Town should be behind the Paving Scheme for without your auto is undercoated one season of chloride will do more damage than many years of plain dust and mud. Another angle is the damage to homes outside and furnishings inside from the clouds of dust, so bad that it is impossible to open doors and windows when the wind is blowing towards your home. I note that the Department of Municipal Affairs do not look on this borrowing with favor but did they have the true picture or were they influenced otherwise. Anyway, let us have a meeting and the voters decide. If the majority says no, then there is nothing more to be said about paving at the present time, but we can still hope that some time we will be wise enough to try progress instead of standing still or going backward.

Thank you.

FRITZ DAKIN.

would be any great honor to have the highest per capita debt in the province and I believe the councillors who voted against the proposed paving program, at this time, did the proper and only thing which could be done, having regard to the best interests of the town. For this these councillors are to be commended.

Yours truly,
A Ratepayer of the Town of Digby.

\$15,000,000 For Mental Research

An announcement made recently by the trustees of the Ford Foundation states that the Foundation has allocated \$15,000,000 to strengthen and extend research in mental health over the next five to ten years.

H. Rowan Gaither Jr., president of the Foundation says the decision of the trustees was the outgrowth of more than two years' study of mental health problems by the foundation's behavioral sciences staff.

There is a sizeable need, Mr. Gaither said, for trained personnel in the therapeutic aspects of mental illness. He explained however that the foundation had concluded from its studies that it could perform the greatest service at this time by emphasizing research.

Among the goals which have been set for the research supported by the Foundation are determining the causes of mental illness and developing and testing effective methods of treatment and prevention. Studied will be social and community aspects of mental health; children's disorders.

Mr. Gaither stated that research programs to be considered

THE SPRING HARVEST

The drive is on. And the annual pulpwood harvest is again rushing, crashing, and tumbling down the flood-swollen waterways to the nation's pulp and paper mills.

And this is only the beginning. For this woodland wealth

will soon be converted into a host of useful products from pulp and newsprint to building board, and wrapping paper to rayon, explosives, and photo-film.

It is all part of an operation that puts money in the pocket

of every Canadian, for pulp and paper making employs more people and pays more wages than any industry in the land, and it is the leading producer and exporter as well.

But the river drive with its swirling waters, and nimble,

brightly clad backs is the most picturesque and spectacular part of the whole business.

At right, a skilled driver works his peevy to keep logs from snagging on the rocks of swift-flowing Gorman Creek in the Gatineau hills, while at up-

per left workers attempt to clear a jam.

C.G.I.T. Affiliates

With W.M.S.

Some 300 daffodil blooms decorated the United Baptist Church on Wednesday evening, May 4th, when the Merryteens' C.G.I.T. of Deep Brook affiliated with the Womens' Missionary Society. Eight girls were dressed in brightly coloured aris, the native Indian costume, loaned by Mrs. MacGregor Fraser, of Wolfville, a former missionary to India, and garlands for the occasion.

Three girls, Misses Stella Croscup, Jean Harvey and Velma Bacon, conducted the opening devotional period, arranged about the texts, "Come unto me all ye that are weary and heavy laden", "I am the Light of the world", and "I am the Way, and the Truth, and the Life".

Following this, Miss Bacon, as President of the C.G.I.T., Mrs. Merle Peters, President of the W.M.S., and Mrs. Francis Miller, C.G.I.T. Leader participated in the Affiliation Service, with the girls presenting the W.M.S. with a gift of \$10.00 to be used towards the work of the Vellore Christian Medical College in India. Miss Joyce Harvey explained the symbolism of the affiliation badge.

To illustrate the Mission Study, which the girls had enjoyed during the winter, an interesting interview was carried out between Miss Jean Harvey and knowledge of the subject of this study, but when a problem arises and everyone is in despair as to how such many static words are pronounced in Telegu, or just which missionary is which and where do they all serve, someone always clears away the despondency with a happy, "We'll ask Aunt Mabel".

That this simple honour of a "Jalsa" in Mrs. Spurr's honour is richly deserved goes without saying for those who knew her work for the more than 17 years that she was Treasurer of the Society. She gave unstintingly of her time, talent and own resources, in accumulating as large donations as possible to further the ends of the mission cause.

That this activity was regarded with favour by those who assisted in her labour is evident by this item from the minutes of the May 1952 meeting of the Deep Brook W.M.S.

"Through the efforts of Mrs. Mabel Spurr a Memorial Offering of over \$50.00 was presented in honour of the Society's 50th Anniversary. It was decided to express verbally our thanks to Mrs. Spurr at the next meeting to be held at the home of her nephew."

Therefore, because of this one instant and the many other similar in promoting Christ's Kingdom, and for your increasing moral support to all inter-

ested in missions, we the members of the Deep Brook "Merryteens" Canadian Girls in Training, wish to add our tribute to those of your fellow members of the Deep Brook United Baptist Missionary Society, with whom we have become affiliated this evening, in saying "Thank you and God bless you."

At the conclusion of the reception Mrs. Miller and the girls, accompanied by Rev. F. D. Miller, went to the home of Mr. and Mrs. Ray Moore Jr., to present Mrs. Spurr with her "Jalsa" and a garland of daffodils. Mrs. Spurr was able to receive them and added to the experience of the evening by her remarks of her participation in the missionary work of the Deep Brook Church.

The following is the text of the address presented to Mrs. Spurr:

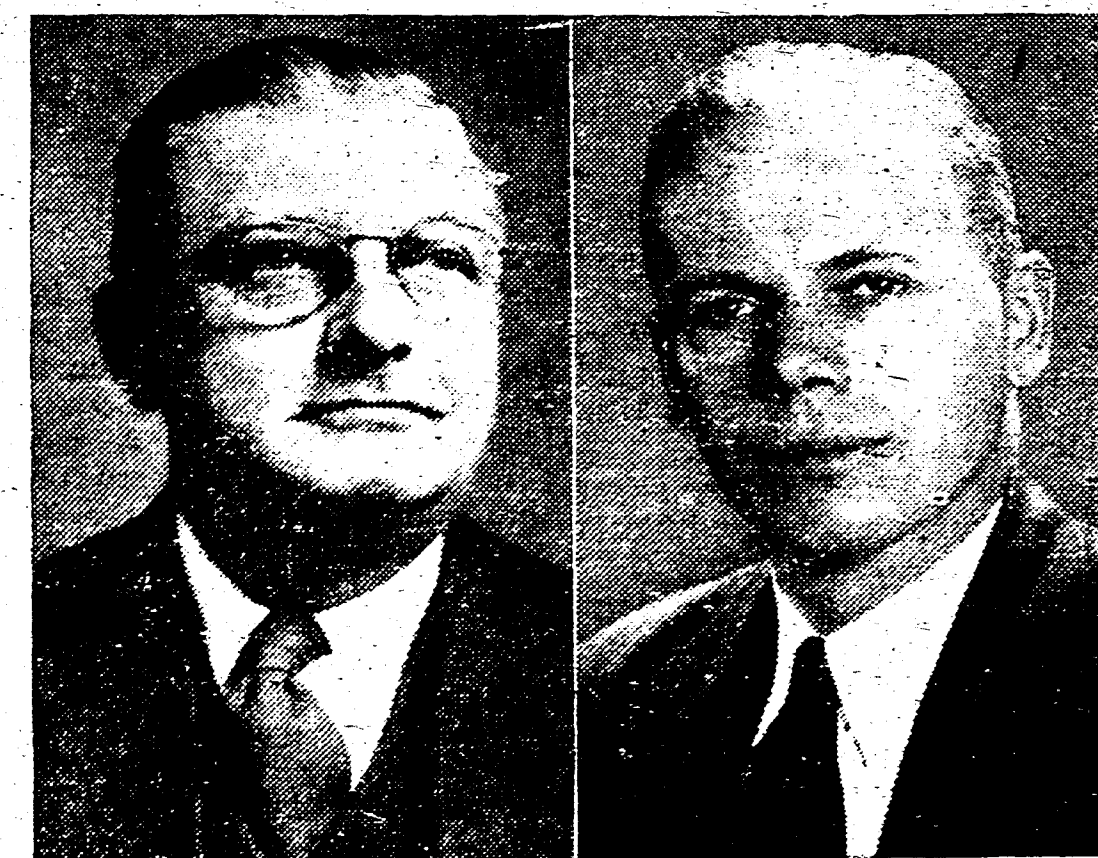

To our beloved and honoured "Aunt Mabel", Mrs. Robert Spurr, in honour to her faithfulness in the cause of missions for so many years. We are very happy tonight to pay tribute to one of our own, who has set such an example to all of us in the cause of missions.

Mrs. Spurr has supported the cause of missions throughout all the years of her adult life. Even before her marriage, as Miss Mabel McClelland, she became a member of the newly organized Deep Brook Baptist years of effort in this regard.

Even now, although prevent-

ing unassuming interest is evident at all gatherings of the Missionary Society, both by her regu-

Properly installed, a Monel shaft can be expected to last the life of your boat. Replacing a bronze shaft with a Monel shaft of the same diameter often means you can increase your engine power, without replacing the shaft log and bearings... saves both time and money.

Cameraman Lassie

Lassie, who stars in her own TV show, made a trip to Canada recently. One of the first things she wanted to do when she came to Toronto was to visit the CBC Television studios so that she could see what the cameraman saw when their cameras were pointed at her during productions of "Lassie" on the

CBC Television Network. Lassie stood for a while in front of the camera, then dashed madly to the other side and looked in the view-finder, but each time she was too late. Out of breath after several attempts, Lassie said philosophically: "I guess I won't try to combine an acting career with that of a cameraman."

KIDNEY ACIDS Rob your Rest..

Many people never seem to get a good night's rest. They turn and toss—blame it on "nerves"—when it may be their kidneys. Healthy kidneys filter poisons and excess acids from the blood. If they fail and impurities stay in the system—disturbed rest often follows. If you don't rest well get and use Dodd's Kidney Pills. Dodd's help the kidneys so that you can rest better—and feel better.

A neighbour of mine named McTavish came over to my place the other day and addressed me as follows: "I hear you're a great believer in free speech." "Yes," I said, "that I am." "Then," said he, "I've no mind if I use your phone."

Well, I didn't mind. He was calling to order screen windows and doors from Hicks's. Late, of course. But better late than never.

Any time I need something in the way of building supplies, I always phone Hicks's myself. Their stock is good, their service prompt. And, being a home owner as well as a phone owner, I can buy on Hicks's easy Home Improvement Finance Plan.

Letter To The Editor

To The Editor:
The Digby Courier.
Dear Sir:

The following was received by the Town Clerk in reply to a requested correction of a former letter, which was incorrect in Streets Expenditures.

Will you please publish:
Halifax, May 27, 1955.

Mr. E. Scott Eaton,
Town Clerk,
Digby, Nova Scotia.

Dear Mr. Eaton:
Mr. Moseley will be out of the City until the latter part of next week. I shall reply to your letter of May 25 addressed to him.

After giving consideration to the information contained in your letter and further study of the auditor's report for the year ended December 31, 1954, it would seem that Mr. Moseley was not sufficiently informed of your street expenditures and was led into error by the only extraordinary item of street expenditure, namely: \$2,365.25, in 1954.

On May 4 I wired you: "Please forward a copy of estimates for the year 1955 also indicate the amount included therein for street maintenance of the unpaved streets which are to be paved in the proposed paving programme". If your reply of May 5 had complied strictly with this request, Mr. Moseley would have been in a better position to write you on the 9th instant and a more careful analysis might have been made of the 1954 audited statement on file.

You will note that Mr. Moseley's letter said, "If our figures happen to be inaccurate, we will be very pleased to receive your comments". None were received from you until after the meeting of your council, when it was too late to make any correction. Your council has estimated that as a result of your paving at least \$8,000.00 per year would be saved on gravelling, street maintenance and dust prevention. You are in a better position to estimate that saving than it

PROVINCIAL WOMEN'S GROUP MEETS HERE

The 49th annual meeting of the Nova Scotia Women's Auxiliary of the Church of England got underway here Tuesday morning with a celebration of the Holy Communion at Trinity Anglican Church.

Celebrant at the morning's service which was attended by some three hundred delegates to the convention from all over Nova Scotia, was Rev. H. Y. MacLean, Rector of Digby. The Epistle was read by the Rev. D. F. L. Trivett, Rector of Weymouth, and the Gospel by the Rev. J. Pyke, Round Hill.

Guest preacher at Tuesday morning's service was Rev. Canon A. G. Bradshaw of Yarmouth. In his sermon Mr. Bradshaw urged the women to remember their association was one which was dedicated not only to missionary work but also to help in the task of carrying on parochial work in the parishes of the Diocese. He commended the members of the Auxiliary throughout Nova Scotia for the wonderful work they are doing and said their contribution to the work of the church was a monumental one.

The absolution and benediction at the close of the service was given by the Rt. Rev. R. H. Waterman, Lord Bishop of Nova Scotia. The Bishop's Chaplain was the Rev. C. R. Elliott, Rector of Bridgetown. Server at the communion service was Gerry Sanford and the Crucifer was Douglas Wright.

At the opening of the business session in the afternoon welcomes were extended to the visiting delegates by Mrs. R. B. Lent, President of the Digby Branch of the Women's Auxiliary, and by Victor Cardoza, M.L.A. for Digby Municipality. A response to the messages of welcome was given by Mrs. J. A. Harrah of Halifax.

Speaker at the afternoon's session was His Lordship Bishop Waterman. In his address Bishop Waterman paid tribute to the work of the Women's Auxiliary both in its missionary effort and in the provision of money for his discretionary fund which enabled him to help in many special cases in the diocese.

Bishop Waterman said it must always be remembered that the work of the W.A. like that of the church, was in great part spiritual and that the church and its organizations existed for the whole of man, body, soul and spirit.

Reports of various committees were heard at the afternoon's meeting and a report was also given by Mrs. C. C. P. MacIntyre, Dominion Vice-President of the W.A. A scenic drive for the visiting delegates, arranged by the Digby Board of Trade, completed the afternoon session.

At Tuesday evening's session a missionary service was held at which the speaker was Mrs. H. L. Puxley, Halifax, who has spent some fourteen years in missionary work in India.

Wednesday morning Holy Communion opened the day's proceedings, conducted by Bishop Waterman. A quiet hour, led by Rev. C. C. Veinotte, assisted by Rev. W. E. Jefferson, followed, and noon day prayers were taken by Ven. Archdeacon A. F. Arnold.

EVENTFUL CAREER ENDED BY DEATH

One of Nova Scotia's few remaining sea captains, of the days of the "Wooden Ships and Iron Men", Captain Harvey Brooks FitzGerald, one of Weymouth's most highly respected citizens, passed away at his home at Weymouth North on May 28th. He would have marked his 84th birthday June 3rd.

Captain FitzGerald started his sea career in 1884 as a cabin boy, sailing on one of the old "Square Riggers", with his uncle, the late Captain Timothy Brooks, of Weymouth. Twelve years later, while still in his early twenties, he became Master of the Skysail yard Barque, the "Mary A. Law", having received his Master's papers in both sail and steam.

During his days at sea, the Captain had many stirring experiences, and reminiscing with him was a very interesting way to while away a few hours. He told of cyclones in the China Sea, pomperos in the South Atlantic, hurricanes in the North Atlantic, and icebergs off Cape Horn. It was his proud boast that in all his long career at sea, he never lost a ship, or a man at sea.

His favourite ship of the old

One of the social events of the season took place last Thursday at the Masonic Hall when the St. Mary's Chapter Order of Eastern Star sponsored a musical tea.

Tables were gaily decorated for the occasion with tulips, narcissus and apple blossoms. Mrs. Guy Morehouse Sr., Mrs. W. H. Whitman, Mrs. Eva Wendell and Mrs. William Whitman presided at the tea table.

Among the musical numbers rendered were two violin solos by Fulton Logan, accompanied by his instructor, Mrs. Elton Arnold. His selections were Puppet Show and Whence, O Shepherd Maid.

Mrs. Joyce Daley was heard in two vocal selections, An Old Violin and Songs My Mother Taught Me. Other vocal numbers were Summertime, Song in My Heart and Smoke Gets in Your Eyes by Mrs. Furbur Marshall. Mrs. Ernest Seeley rendered Now Sleeps the Crimson Petal and Brown Bird Singing and Mrs. J. M. Wallis chose as vocal numbers Wake Up by Montague F. Phillips; Good Morning Brother Sunshine by Liza Lehmann and Dutch Lullaby by R. M. Stults.

Pleasing numbers were given by Miss Mary MacLean as piano solos, Minuet in E Flat, Spinning Song, Fleur Elise, Viennese Melody. Mrs. Frank Hayden played Sunbeam, Melody of Love and Apple Blossom Time. Other enjoyable piano selections were duets by Mrs. Ernest Seeley and daughter, Carolyn Anne. Their numbers included A Little Journey, Waltz by Strauss and A Little Song, waltz by Brahms.

Suffers Hip Injury

A host of friends will learn with regret that Mrs. Jennie Beckwith, popular stewardess of the C.P.S. Princess Helene, is confined to hospital in Saint John after suffering a severe hip injury while on duty some time ago.

It is understood Mrs. Beckwith, who is known to literally thousands of persons who remember gratefully her ministrations while they were passengers crossing the Bay of Fundy, will be a hospital patient for some five or six weeks.

Bicentennial Celebration In Digby

The religious observance of the Acadian Bi-Centennial (Digby Branch) will take place in St. Patrick's Church, on Sunday, June 5th, with a Solemn High Mass at 9 o'clock in the evening.

Cornwallis Band, Acadian ladies in authentic costumes and a group of the children from the Parish in costumes to represent one of the mysteries of the Rosary. A large number of Clergy from the surrounding area will also be present.

A special choir has been organized for the occasion and the Mass by Meulemester will be sung in three parts. The sermon for the occasion will be delivered by Monsignor Nil Theriault, Rector of St. Ambrose Cathedral, Yarmouth.

The public is cordially invited to attend the concert and the religious celebration which will follow.

AID FIRE VICTIMS

The Red Cross Society, Port Wade, met at the Community Hall on Wednesday evening, finishing quilting on the last quilt for the season.

A demand for quilts has been required due to fire victims throughout the Province, who have lost their homes and belongings in the recent bad forest fires.

Delicious refreshments for the evening were served by Mrs. Garland Hudson and Mrs. Alton Hayden.

Ratepayers' Meeting Tomorrow Night

One of the most contentious issues to be decided in Digby lately will be dealt with tomorrow evening at a ratepayers' meeting to be held in the Court House at eight o'clock.

The issue at stake is the proposed borrowing of a sum of money not to exceed \$100,000 for the purpose of paving town streets. The Council some time ago sought authority from the Department of Municipal Affairs for the holding of the meeting but later changed their mind and it is expected the meeting will be a lively one.

The change in decision by the Council came as a result of a letter from the Municipal Department which cast doubts on the wisdom of the proposed project and urged a study of the town's financial position.

Digby Debate Valley Champions

On Friday afternoon, May 25, the final debate for the season of the West Valley Students' Congress was held at Digby Regional High School. "Resolved that the Canadian Senate be abolished" was the resolution for debate. The Digby team of Donna Logan, David Bent and Marilyn Hayden upheld the affirmative, while the Bridgetown team of Glenda Allen, John Hutchins and Maureen Morse defended the negative. After presenting an excellent case for the affirmative, the Digby team was awarded a unanimous decision by the judges for the afternoon. Mr. C. FitzRandolph, Bridgetown, Mr. Philip R. Woolaver, Rev. James Brooks, both of Digby.

The Digby team won its case by establishing that the Canadian Senate was undemocratic, ineffective, costly, exposing Canada to international ridicule, impossible to reform, and already on the road to abolition.

The winning of this debate makes Digby the Valley Champions, having defeated Annapolis and Middleton teams in previous debates. The advisor of the Digby team was Mr. J. Campbell, of the High School Staff, and other debaters for the 1954-55 season were: David Leonard and Louise Atkinson.

A capacity audience filled the auditorium of the Digby Regional High School last Thursday evening for the Dance Recital, sponsored by the Digby Fire Department, and presented by the pupils of Mrs. Frances Peters.

The opening number, "Hoky-Poky Polka", featured the dancing of Lina Baxter, Beverly Kaulbach, Dorothy Hyson, Rosalie Wambach, Susan Morrell, Sally Carson, Pam Wright and Beverly Robertson.

"Ballin' the Jack" which followed, featured Heather Murray, Faye Winchester, Lorraine Patterson, Elizabeth Peters and Valerie Holdsworth.

A delightful number, "Crystal Ball", featured Carol Robbins, Sheila Robbins, Jean Trask and Mei-Ling Chan as Irish, with Julie Peters, Evelyn O'Neill, Linda Ellis, Margie Black and Marguerite Doiron as Egyptian, and Carolyn Peters and Bonnie Wright as Cornwalls.

A sailor dance with nautically attired Anne Gilmour, Dianna Mason, Pam Wright, Gloria Baxter, Patty Turnbull, Susan Morrell, Julie Woolaver, Rosalie Wambach, Dorothy Hyson and Sally Carson, followed, and after it came a beautiful number, "Only In My Dreams", featuring Marilyn Patterson, Lorraine Patterson, Gail Hersey, Patty Swiber and Gloria Baxter.

Julia Peters, Carolyn Peters and Bonnie Wright excelled in "Alabama Bound" and a number which brought down the house followed. This was "Old Pappy Time Is A Picken' My Pocket", and featured Nancy Sanford, Karen Barnes and Linda Ellis.

A thrilling number was "Alexander's Ragtime Band", featuring as Shortnin' Bread, Patty Swiber, Marilyn Patterson, Gail Hersey, Julie Woolaver, Gloria Baxter, Ann Gilmour, Dianna Mason and Patty Turnbull, with Jean Trask, Julianna Turnbull, Mei-Ling Chan, Sheila Robbins and Carol Robbins as military.

The final dance number was

the Can-Can, with Julia Smith, Bonnie Wright, Carolyn Peters, Julie Peters and Patsy Potter.

Art Stone acted as Master of Ceremonies for the performance and a number of vocal solos were presented by Mrs. Jean Marshall, who was accompanied by Mrs. Lillian Nichols at the piano. Mrs. F. K. Hayden also presented a number of piano numbers during the intermission.

A lovely bouquet was presented to Mrs. Peters by three-year-old Beverly Robertson, on behalf of the fire department, and the thanks of the department to Mrs. Peters for her work in presenting the recital were expressed by Fire Department President, A. Reg. Turnbull. Stage settings were the work of Mr. and Mrs. Ralph Wright.

R. A. Mackie, General Manager, C.P.R., was here on Saturday looking over the Pines and other C.P.R. property.

EXTEND WELCOME TO QUEEN ANNAPOLISA

Queen Annapolis XXIII and Her Royal Party were officially welcomed in Digby on Monday afternoon when they visited the town on their tour of valley communities.

The Queen was introduced to the large gathering which assembled to greet her and her party at the Hotel Champlain by Mayor Eric Balcom, of Wolfville, Chairman of the Apple Blossom Festival Committee.

A welcome was extended to the Queen and her attendants and to officials of the Apple Blossom Festival Committee by Mayor Guy E. Morehouse, on behalf of the Town of Digby and by Victor Cardoza, M.L.A., on behalf of Digby Municipality. In his welcome Mayor Morehouse paid tribute to the Queen and to the Digby County Apple Blossom Princess and stated the people of Digby were more than happy to welcome the Queen and her party to the town.

Victor Cardoza, in his remarks, stated he was pleased to have a part in the official ceremonies marking the visit of the Queen and her party to Digby. He paid tribute to the work done by Mayor Morehouse, the Digby Board of Trade and by E. B. Tufts, chairman of the Committee in charge of the Apple Blossom Ball and others who took part in arranging for and carrying through the job of having Digby again this year represented at the Apple Blossom Festival.

In reply to the official welcome Queen Annapolis, Miss Oyer, stated she and her party were most happy to visit Digby. She thanked the people for their

kind welcome and stated all at the Festival were agreed that Digby had been well and ably represented at the Festival by their Princess, Miss Jean Wheelhouse. She also complimented those responsible for the float entered in the Festival parade by Digby, which won second prize for the most original.

Miss Wheelhouse, Digby's Princess, also addressed the gathering, and stated she was most grateful for the support given her by the Digby Board of Trade. She said her experiences at the festival had been most enjoyable and she would long remember them. She thanked the Bear River Fire Department for sponsoring her as their entry in the preliminary contest at Digby and said she had enjoyed herself immensely at all the festivities in connection with the Festival.

Mayor Balcom introduced all the Princesses from the various towns in the valley to the gathering and expressed the appreciation of the committee in charge of the Festival to Digby for the cooperation received here.

Following the official welcoming ceremonies afternoon tea was served by the Digby and Bear River Auxiliaries of the Canadian Legion, B.E.S.L. Prior to the ceremonies, a short band concert was presented by the Central Band of the R.C.A.F. from Ottawa.

At the close of the ceremonies here the Queen and her party, accompanied by representatives of the town and the Board of Trade travelled to H.M.C.S. Cornwallis where a buffet supper was served by Captain Stirling and officers of the naval base.

Stanfield To Be Honoured

The Leader of the Opposition in Nova Scotia, Mr. Robert L. Stanfield, Q.C., M.L.A., is to be honored at a special testimonial dinner in Halifax, June 7th. The announcement has been made by Mr. Frank Welsh, of Wolfville, the President of the Nova Scotia Progressive Conservative Association. Mr. Welsh said that the tribute was being paid to Mr. Stanfield because of his "ability and statesmanship" he has shown in recent meetings of the Nova Scotia Legislature and at all public affairs in which he has participated. Mr. Welsh said that Mr. Stanfield's looked upon with admiration by all Nova Scotians regardless of their political affiliation. "Mr. Stanfield has helped create a new set of standards for men in public life, bringing to his position dignity, integrity and respect."

The tribute to Mr. Stanfield will take the form of a dinner at which all counties in Nova Scotia will be represented. Some 450 people are expected. Party Headquarters in Halifax regretted that seating accommodation limited the number which might otherwise attend but said that consideration would be given to present and past members of the Legislature and officials of county organizations.

The meeting will hear an address by Mr. George Nowlan, Q.C., M.P., of Wolfville, the immediate Past President of the National Progressive Conservative Association, who will speak for the party in Nova Scotia. Mr. Nowlan described Mr. Stanfield as "Not only one of the most admired men in Nova Scotia, but one of the most respected men in the public life of Canada."

Other speakers will include David Fulton, Q.C., M.P., of Kamloops, British Columbia, a Conservative Front Benchers in Ottawa and one of the Opposition's experts on External Affairs.

The ceremonies, approximately one hour in length, will be broadcasted the following night, June 8th, on a group of Maritime private stations.

About This and That

Those Forest Fires

All Nova Scotia and indeed much of Canada was deeply shocked a short time ago to learn of the disastrous forest fires which swept through a wide area of Nova Scotia, destroying thousands of acres of valuable timberland and rendering homeless many unfortunate citizens of this province.

To all those who lost so heavily through the depredations of those terrible fires we express our heartfelt sympathy and the hope that a good measure of financial assistance will be forthcoming to help in the job of rehabilitating the unfortunate home owners.

Since the fires occurred many hundreds of words have been written and many opinions expressed concerning the causes of the fires. Many things have been said and written, too, concerning what it is claimed should have or should not have been done prior to and during the fires to prevent them and the loss which they brought.

It is our opinion little good can be served by the widespread rash of hindsight exhibited through such statements. Nothing can now be done to undo what happened. Undoubtedly, during the rush and excitement of fighting the fires many things were done which, on calm reflection after the fires were over, might have been done differently and with better results. Such things always happen and regrets are not only vain but also cast a reflection on work done by people who at the time were doing what they and those with them thought was best under the circumstances.

We do, however, feel that what now should be done is for the province and its people to take positive steps to see that every measure is taken to prevent the recurrence of such a tragedy as that which cast such gloom over the Victoria Day weekend.

Let us take stock now of our habits so far as they relate to the fire hazard which is always present in the woodland sections of Nova Scotia. There can be no question whatever that most fires, whether they are in the woods or in settled areas, are caused by human carelessness or thoughtlessness. Human carelessness has played a particularly heavy part in the origin of forest fires, according to reliable studies of the causes of these fires.

This being so, then it behooves us to adopt now a standard of conduct in relation to our use of the woodland areas of this province that will render us completely innocent of any thoughtless deed which could, either directly or indirectly, be responsible for fire.

In order to do this we must give careful thought and attention to the matter of fire safety in connection with the woods. It is not only the careless throwing away of cigarette butts, matches or the thoughtless leaving of a burning campfire that can cause fire in the woods. Fires can, and often do, result from the sun's rays through broken bottles, from spontaneous combustion of oily rags and many other results of human carelessness which in themselves may seem to have little direct relation to fire.

Instead then of useless recrimination of past deeds and idle speculation concerning the probable results of different acts in the fighting of past fires we should regard what has happened as a terrible lesson and from its grim story learn to so govern ourselves that such fires may not happen again through human carelessness or as a result of human carelessness and thoughtlessness.

The Ball Field

We notice this week that work is being done in replacing the fence at the ball field and repairing the grandstands and team dugouts.

This is a commendable work but the necessity for such extensive repairs as are being carried out must be a matter of great concern to those whose responsibility it is to look after these things.

Over the past few years many hundreds of dollars have been both donated and raised to provide fencing, grandstands and dugouts at the ball field. No one, we are sure, begrudged the giving or raising of this money.

It must, however, be greatly annoying to find each summer as the ball season is about to open that somehow much of the fence has disappeared since last season; that the grandstands have been badly smashed and the dugouts made to look like the ruins of bomb shelters.

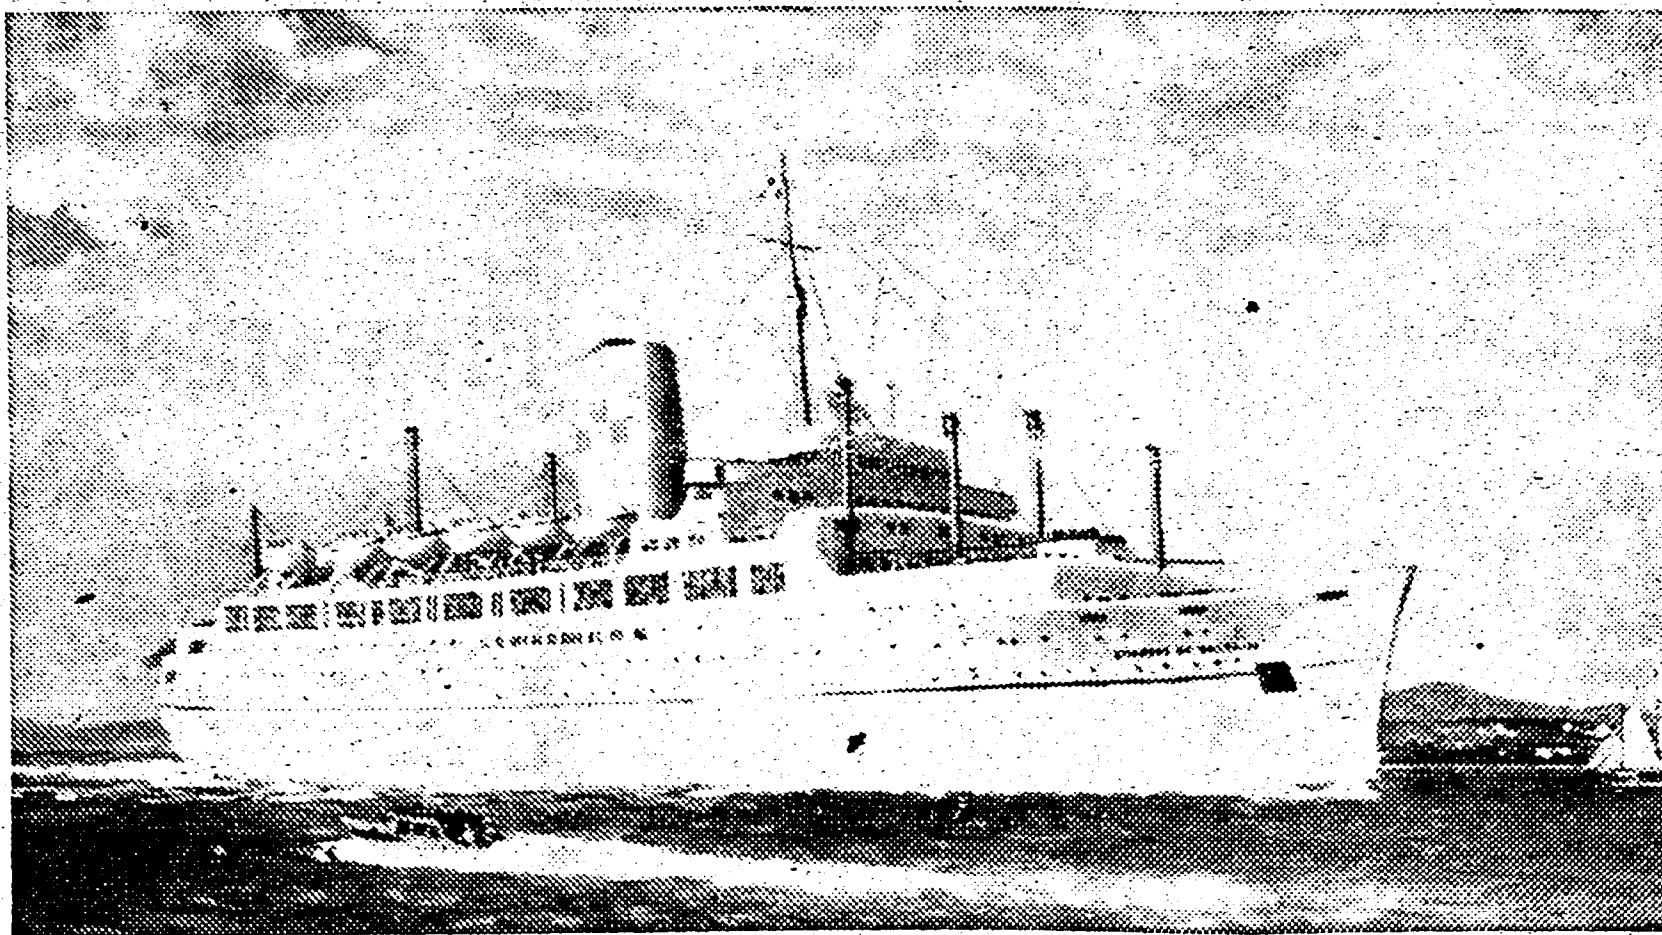

Admittedly, the winter weather has some effect on these things. The effect, however, is both direct and because the cold winds bring on a need for kindling and firewood. Surely, there should be more community pride and honesty in relation to the ballfield that the depredations that occur there each year could be stopped.

Perhaps this year, with the cooperation of the youngsters and the citizens of the town generally, something can be done to obviate the necessity of such a sizeable job of repair and replacement as that which has had to be carried out this year. Let's hope so!

I read the Courier nearly every week at my home and a few weeks ago I read an article regarding people's rights and privacy when using telephone service for which they pay for.
As for people listening in or holding a line open unnecessarily, I am sending a Boston paper clipping on that subject. Please copy and see if it might do some good.
We have been spending our vacation in and around Digby for the past forty years and we are pleased to have a telephone in the house when we need it. We call Boston very often.
Yours Sincerely,
Mr. and Mrs. Alfred M. Burgess,
Brighton, Nova Scotia.
(Editors Note: A copy of the clipping for which we thank Mr. and Mrs. Burgess, follows.)
What Is Telephone Courtesy?
It is an important business and personal asset.
It is a major factor in the training of telephone employees in their contact with customers.
It is conducting yourself as politely and courteously as if you were talking face to face.
It is your personality traveling over the wires.
It is promptly answering your telephone ring.
It is identifying yourself when you place a call or answer the telephone.
It is having consideration for others and apologizing if you have called the wrong party.
It is speaking clearly and distinctly to avoid needless repetition.
It is showing interest in the call by using a friendly, pleasant tone in your voice.
It is an affable "goodbye" at the close of the conversation.
It is an inexpensive service that means so much.
"This is telephone courtesy!"
In what light soever we regard the Bible, whether with reference to revelation, to history, or to morality, it is an invaluable and inexhaustible mine of knowledge and virtue. — John Quincy Adams.
Honesty is spiritual power. — Mary Baker Eddy.

The Newest Of The "Great White Empress" Fleet

When Her Majesty Queen Elizabeth christens the new liner Empress of Britain at launching ceremonies on the River

Clyde on June 22, a new page will be written in the long and proud history of the "Great White Empress" fleet of the

Canadian Pacific Steamships. Above is an artist's conception of the streamlined, 22,500-ton vessel, slated for sea service in the spring of '56.

Prospects For Tourist Season Good

What promises to be one of the most active summer tourist seasons of post-war years for Canadian Pacific hotels in Canada's Maritime Provinces will be off to a running start the last weekend in May when the annual Annapolis Valley Apple Blossom Festival is held at Kentville, N. S. Headquarters for the festival will be May 27 to May 30, festival will again be the state-ly Cornwallis Inn, focal point for the parades, coronation and apple blossom balls which highlight the popular late-spring event. As in the past, princesses from towns in the fertile Annapolis Valley, one of the most famous apple growing regions in the world, will vie for the coveted title of Queen Annapolis.

Hardly will the tumult and the shouting have died down at Kentville when the summer resort towns of Digby, N. S., and St. Andrews-by-the-Sea, N. B., take on their full stature with the opening of the Pines Hotel and the Algonquin Hotel.

Conventions will highlight the opening weeks at both hotels, with almost 200 radio men from eastern Canada expected to attend the meeting of the Atlantic Association of Broadcasters, slated for the Algonquin Hotel June 20 and 21. Across the Bay of Fundy, at the Digby Pines, the Dominion Brewers Association will be in session from June 21 to 25. Largest convention will be that of Gyro International, scheduled for June 27 to July 2 at the Algonquin, when about 350 members of Gyro Clubs across Canada and the United States will converge on St. Andrews to hold their annual meeting.

It is expected that over 2,000 persons will be attending conventions at the two summer resort hotels at the beginning and end of the summer season. Other conventions and their dates are as follows: at the Algonquin: Barristers Society of N. B., June 23-25; Equitable Life Assurance Society of U. S., (Portland, Me.), Aug. 16-19; N.

B. Medical Association, Sept. 1-3; Eastern Canadian Association of Highway Officials, Sept. 5-6. At the Digby Pines: Maritime Wholesale Hardware Association, June 27-29; N. S. Bar-risters Society, June 30-July 2; Canadian Passenger and Ticket Agents Association, Aug. 23-26; Investors Syndicate of Canada, Ltd., Aug. 25-28; Maritime Senior Golfers Association, Aug. 29-31; and Maritime Retail Lumber Dealers' Association, Sept. 1-4.

Two other special events will highlight the summer season in Nova Scotia's Annapolis Valley: Annapolis Royal, situated on the main line of the Dominion Atlantic Railway between Digby and Kentville, will revive the ghosts of its 350-year history with a monster five-day birthday party from July 30 to August 3 that would gladden the heart of its founder, Samuel de Champlain, who also founded The Order of Good Times there during the hard winter of 1606-07. The order was the first social club on the continent. A meeting will be held this summer and anyone who attends will automatically become a member.

Annapolis Royal, where the historic "habitation" of Champlain is preserved, was the first capital of Nova Scotia, from 1605 to 1719, and is the first permanent white settlement in North America north of those of the Spaniards in Florida.

Annapolis Royal saw the first recorded baptism, English common law court and Masonic Lodge in Canada, and here the first lawyer and apothecary practised their professions and the first hydraulic and road construction development in North America took place.

Rounding out the busy summer season will be the commemorative events, celebrating the 200th anniversary of the Expulsion of the Acadians, at Grand Pre, close by Kentville. The Expulsion, which gave rise to the beloved story of Evangeline by Henry Wadsworth Longfellow, is being marked throughout 1955 at Acadian centres from Louisiana to Nova Scotia, and on Assumption Day, August 15, feast day for the Acadian race, they will come to

MARRIAGE

Whitlock — Ellis
A pretty wedding was solemnized in St. Luke's Church, Annapolis Royal, on Friday, May 20, at 8 p.m., when Patricia Diane, daughter of Mr. and Mrs. Odber C. Ellis, Granville Ferry, was united in marriage with Gordon Henry Whitlock Jr., son of Mr. and the late Mrs. Gordon H. Whitlock, of Halifax.

The double ring ceremony was performed by Rev. C. C. Veinotte, rector of St. Luke's. Mrs. Allison Dalton was organist and Mrs. Shirley Clayton, of Digby, was soloist.

To the strains of the nuptial music, the lovely bride entered the church on the arm of her father, by whom she was given in marriage. She was a picture of girlish loveliness in her floor-length wedding gown of white nylon net over satin. Over the brocaded, satin bodice she wore a lace jacket with long tapering sleeves. A row of tiny covered buttons fastened the jacket and collar to waist and the collar was embroidered with sequins to match the sequin embroidery on the full flowing net overskirt. She wore a single strand of pearls, the gift of the groom, and carried a beautiful bouquet of red roses. Her shoulder-length veil fell gracefully from a small white satin hat with sequin and bead trim.

Mrs. Gerald Fleet, sister of the bride, was matron of honor, and Miss Madelyn Ellis, sister of the bride, was bridesmaid. The matron of honor was dressed in a floor-length gown of

The mother of the bride was dressed in Queen's blue broad-corded orlon. She wore a white hat and white accessories and a corsage of red roses.

Immediately following the ceremony a reception was held at the Annapolis Community Centre which was attended by some 125 guests.

Among the interested guests at the wedding were the bride's two grandmothers, Mrs. Alma Ellis, of Litchfield, and Mrs. Lloyd Dixon, of Paradise; the father of the groom, Mr. Gordon H. Every sweeping line of this big new beauty is low and long—motion-designed for The Forward Look. Every dramatic detail, such as the rakish headlight hood, has a youthful flair.

Inside, you'll find high-fashion fabrics and jewel-like colours. What's more, you'll discover luxurious roominess, for a Plymouth is actually more spacious than many cars costing far more!

Yet for all its brighter style, bigger size, and livelier 6 or V-8 power, the new Plymouth is priced with the lowest! No wonder the smartest people recognize it as the "buy" of the year.

Gay new colour
Wider range of new... including springlike soft pastel, handsome solids, smart new two-tone combinations, has just been added to the beautiful selection of Plymouth enamels.

Now—Sportone "hardtop" styling!
You can now get "hardtop" two-toning on Plymouth sedans and other body models! It's the new Sportone styling—the distinctive sweep moulding that carries a contrasting colour along the side and rear fender.

Addresses Sandy Cove Meet
Mrs. Eva Wendell, Director of Vocational Guidance for the Digby County Council of Home and School Associations, was guest speaker at Friday evening's meeting of the Sandy Cove Home & School Association.

In a most interesting and informative address Mrs. Wendell dealt at length with the foundation which the child gets in the home before entering school. This, she said, has great bearing on his attitudes and development in school.

Following Mrs. Wendell's address the meeting divided into three groups to discuss the subject matter of her talk. One of the groups took the matter of the "concept of God in the home." The second group discussed "attitudes to others," and the third group dealt with "foundation of language."

The meeting was chaired by the president, Mrs. Emdon Morehouse, and Mrs. Elmer Lewis acted as secretary pro tem. Mrs. Wendell was introduced to the gathering by the convener of the program committee, Mrs. Owen Irving. At the close of the meeting refreshments were served by the social committee.

Trinity Guild will meet with Mrs. A. E. Dickson on Tuesday evening.

NEW FULLY AUTOMATIC FURNACE Actually pays for itself

The most modern development in domestic heating will be demonstrated in this area soon. You will want to see it.

Perfected by Nova Scotia engineers, this is the furnace which is making news in the heating world. In gleaming white enamel, it is only 40 inches long, 30 inches wide and 48 inches high. It costs little to buy and install and this cost is quickly returned in fuel savings.

COMFORT AND CONVENIENCE

This new principle of heating gives the householder maximum comfort and unsurpassed convenience. No stoking — no ashes to carry. And it is the most economical heating system yet devised.

IT REMOVES ITS OWN ASHES

With modern treatment of coal, most of the ash is eliminated. The small residue is carried by vacuum to a canister which can be outside the house.

IT CUTS FUEL BILLS

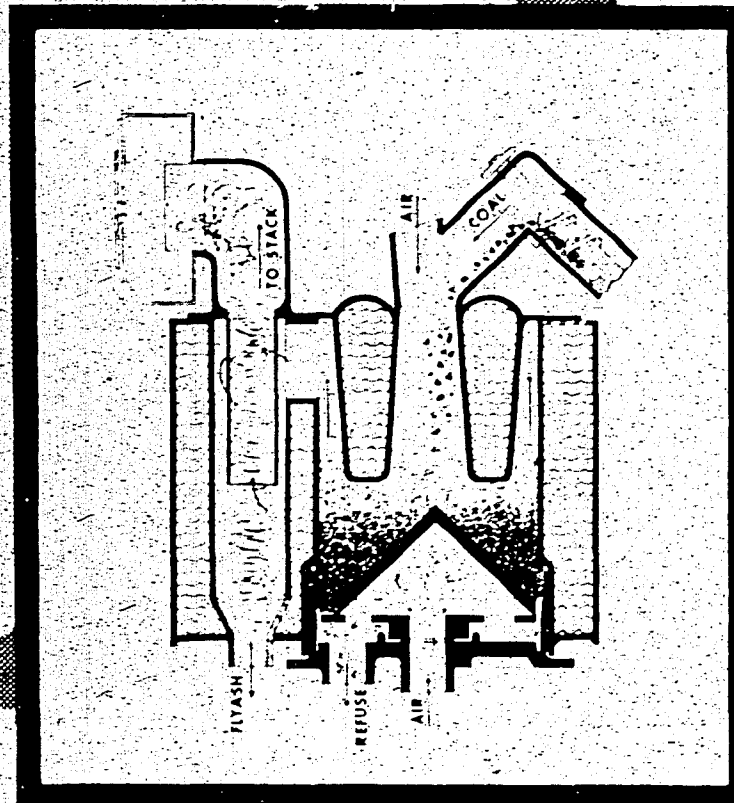

Coal is the most economical fuel available in Nova Scotia. This new furnace makes a further reduction and cuts costs of fuel at least 20 per cent lower than hand-fired furnaces. Savings over other type heating systems are relatively higher. It holds a fire with as little as 3/4 of a pound of coal an hour.

IT IS ABSOLUTELY CLEAN

It is impossible for ash or dust to enter the furnace room. With this furnace, the furnace room floor can be as clean as the living room table.

IT IS FULLY AUTOMATIC

It feeds itself and carries the ashes — A thermostat regulates the heat.

Watch for the demonstration of this radically different home furnace.

Purchase and installation of Dosco's new furnace can be financed through a Home Improvement Loan available under the National Housing Act. See your Bank.

PAYS FOR ITSELF AS YOU USE IT!

Children's Aid Society Holds Annual Meeting

The 40th Annual Meeting of the Children's Aid Society of Annapolis was held Wednesday, May 18, 8 p.m., in the District Community Centre, Annapolis Royal, with the President, S. H. Coward, of Bridgetown, in the chair.

David M. Armstrong, Executive Director, gave his Annual Report, reviewing the beginning of the Society formed in 1915. It was not very active until 1923 when the late Rev. A. J. Prosser became its first Agent, with jurisdiction over Yarmouth, Digby and Annapolis Counties.

He said that during the past years the Society had 120 wards, 12 had reached majority, and 11 were made wards. There was an interesting story behind each child, whether of a broken home, a deserted child, or of unmarried mothers. Mr. Armstrong said it was hard, perhaps, to believe that children in Annapolis County were really truly hungry, but cited a case where he had been called by a grandmother of 45, to a place of inadequate shelter, where two children, 9 and 10 years of age, had had nothing to eat for 2 days except toast.

There were 73 wards of school age. Some are employed, 2 in R.C.A.F., 2 in the Army, 1 in Vocational School, 1 in the R.C.M.P.

Mr. Armstrong rejoiced that more children were being adopted. Parents, churches, schools and all organizations play a great part, but the greatest of these is the "HOME".

He had great praise for the foster parents, but urged them not to forget to answer satisfactorily the children's question "Who Am I?"

President Coward gave an interesting synopsis of the year's work: \$3300.00 campaign fund, 57 communities canvassed by 125 canvassers; 8 directors' meetings held. He thanked Mr. Armstrong and assistant, Miss Hilda King, for their splendid executive work and grand co-operation, and spoke highly of the harmony among and good work of the directors.

Mrs. F. F. Smith, R.N., convener of the nominating committee brought in the following slate of officers, which was adopted:

NOVA SCOTIA COAL — THE THRIFTY FUEL

No. 1 B Bankhead
Cape Breton

A Consumer Speaks

I am interested in seeing the success of such a campaign principally due to the satisfaction that I have received. This satisfaction has not only been gained by heat comfort, but also from the economical standpoint.

Within this town are several resident owners who at one time installed oil, found this system too costly and returned to utilizing coal with an up-to-date stoker system. These are only some ideas that could be used to show Nova Scotians that coal can still serve their best interests in heating their homes satisfactorily and economically.

This letter, wholly unsolicited, is full proof that Nova Scotia coal does give more comfort for less money.

Parish Workshop Held By Youth Leader

Miss Catherine Green, Youth Worker for the Diocese of Nova Scotia, conducted a parish workshop recently in the Parish of Clements. The workshop opened with a meeting of Sunday School Teachers and Youth Leaders at Clementsport Community Hall. By picture and running commentary, Miss Green demonstrated teaching techniques in working with boys and girls. She also acquainted parents, teachers and leaders with the Anglican youth programme throughout the Canadian Church.

Children workshops were conducted Saturday morning at Smith's Cove and in the afternoon at Clementsport during which time she gave a practical demonstration of the techniques and methods discussed the previous evening.

Sunday morning Miss Green spoke at the family service at St. Edward's Church, Clementsport. In the evening she was the speaker at the missionary service held at St. John's Church, Bear River.

Miss Green is the daughter of Canon Allen Green, skipper of one of the boats that operate on the West Coast under the Columbia Coast Mission. After service, she presented a series of slides on her father's work; her intimate knowledge of this part of the Canadian Church's missionary work at home provided a sparkling commentary during the showing of the pictures.

Miss Green met with a group of mid-week youth leaders on the Monday evening, evaluating and discussing the weekend parish workshop, the first of its kind to be carried out in Nova Scotia.

Saturday evening, May 21st, a shower was held at the home of Mr. and Mrs. Edward Blinn in honor of their daughter, Marguerite, and Joseph Comeau, whose marriage will take place in Corberrie on June 21st.

A large crowd attended. The evening was enjoyably spent with music by the Comeau brothers, of Saulnierville Station. Refreshments were served at the close of the evening.

The happy couple received many lovely and useful gifts.

LETTER TO THE EDITOR

(Continued from page 1)
is possible for us to do from a perusal of your financial statement.

I regret very much if the figures relating to street maintenance, quoted in Mr. Moseley's letter have caused a misunderstanding. However the most accurate estimate of the saving in street maintenance can be given by the Council at the ratepayers meeting. It is the Council who can determine which expenditures can or will be unnecessary in future years.

Yours very truly,
U. J. HARRINGTON,
Municipal Commissioner.

As the ratepayers meeting for the Town of Digby for the purpose of paving streets comes

up on Friday, June 3rd, I want to explain my letter of May 19th, in which I said the Paving Programme would cost little or no increase in the tax rate. We all agree it is better to pay a little and improve our town. This makes our properties more valuable and encourages people to build in our town.

I stated approximately \$9,500 applied to the paying of the bond; that is, \$3,000 from chloride, \$3,000 from savings of maintenance of streets, and \$400 from grading, together with approximately \$3,100 from meters.

What I meant by other savings was —

For example, the savings in town office administration for 1955 over 1954 was this, a saving of \$2007.96.

OFFICE EXPENSES 1954

Salary Town Clerk	2034.88	1200.00
Salary Deputy and Stenographer	1615.05	850.00
Assessor	1500.00	1000.00
Solicitor, Revisors, Auditors	440.00	540.00
Stationery and Supplies	324.22	
Postage	212.40	1200.00
Miscellaneous Expenses	671.41	
	\$6797.96	\$4790.00

Furthermore, we are installing our own gas tanks at Town Hall today, which will mean a direct saving of 23c per gallon. This will be a saving of many hundreds of dollars to the town of Digby.

On the total assessment of approximately \$3,300,000 at 10 cents per \$100 assessment, would mean an increase of \$3,300, which if necessary,

Rate of Inc. per \$100.	Assessments	Increase per yr.	Increase per week	No. persons affected
10	\$ 100.	.10		45
10	200.	.20		98

10	18000.	18.00	.34	4
10	20000.	20.00	.38	8

Look up your assessment and find out which bracket you are in. This will give you an approximate estimate of your increase.

Do you think paving will be worth it to you?

Every one of us uses all the streets in Digby, not only just the one we live on. We use the

streets that are to be paved (if approved by the ratepayers) to get to our schools, our churches, places of business and our work.

Respectfully submitted,

Gordon Turnbull,
Chairman of Streets
Committee and Public
Property.

weeks at the Cape, the Wild-Elizabeth and was detained six months of account of the war. The late Mrs. FitzGerald, who accompanied her husband on many of his voyages was with him on this trip. On the return voyage the ship called at St. Helena which at that time was under the Government of the British Navy, the island being used as a prison camp for Boer General Cronje.

Captain FitzGerald retired at an early age and operated a General Store at Weymouth North, but the call of the sea was too great, and he returned many times for a voyage or two. During the First World War, he was sailing for the Australian government in the schooner "Speedway", which was purchased by that government from parties in Weymouth, and had several crew members from Weymouth and vicinity. It is understood that this was one of, possibly the first sailing vessel, to go through the Panama Canal.

For over thirty years the Captain had served the Municipality of Digby as Municipal Councillor for Weymouth North, and for many of those years he had been Chairman of the Committee on Tenders and Public Property, which, despite his advanced years, he carried out in a very commendable manner. He was Pilot of the Port of Weymouth for a number of years, and until quite recently, an active member of the Board of Trade of the village. He had also been a member of the Masonic Lodge for a number of years, belonging first to King Solomon Lodge, of Digby, and later transferring to Tuscan Lodge, of Weymouth.

During his long life, Captain FitzGerald had been blessed with almost perfect health, but for the past few months had been in the semi-invalid class. Despite this he continued to carry on his work for the Municipality, and attended the May meeting of the Municipal Council held in Digby.

To Form Cancer Dressing Group

At the regular monthly meeting of the Ladies' Auxiliary, Canadian Legion, it was decided to form a Cancer Dressing Group which will get underway as soon as the needed materials arrive.

Mrs. Ferguson, of the Weymouth Cancer Society, demonstrated the various dressings and showed the Auxiliary how they were made.

Gordon Campbell, President of the Canadian Cancer Society of Weymouth, showed a very interesting film on cancer and outlined the purposes and aims

of the Canadian Cancer Society. He also stressed the great need for more Cancer Dressing Groups.

Guest speaker for the evening was Dr. M. McD. Lawley, of Weymouth, who gave a very interesting talk on the importance of having a regular check-up in case of cancer. Dr. Lawley stated that 80 percent of cancer can be cured if caught in time. By the use of a diagram he showed the very rapid growth of cancer and how fatal it can be if any of the danger signals are ignored.

A very interesting discussion took place after Dr. Lawley's talk, in which all members showed their interest by the

Honored On 90th Birthday

A beautiful birthday cake, decorated with 90 candles, was presented to Mrs. Hudson by her granddaughter, Mrs. Gerald Livingston (Mary Helen Rice), of Annapolis Royal. Mrs. Hudson also received many cards of congratulation and gifts on her natal day.

Mrs. Hudson has two daughters, Bessie and Bernard Hudson, with whom she makes her home, and (Blanche) C. N. Rice, and one son, Charles Campbell, of Parker's Cove. She also has eleven grandchildren and six great grandchildren.

Twenty-two members of the family were present at the family gathering.

BI-CENTENNIAL OF ACADIANS MARKED

A tremendous crowd of people gathered here Sunday evening for the colorful ceremonies marking the Acadian Bi-centennial in the Digby area.

The ceremonies opened with a band concert on the lawn of St. Patrick's Church by the band of H.M.C.S. Cornwallis.

Toward the end of the concert a religious procession wended its way from St. Patrick's Academy to the church grounds. Before entering the church the procession halted for the playing of God Save the Queen.

The procession was led by a cross bearer and four acolytes. These were followed by flag bearers carrying the Union Jack, the flag of Nova Scotia, the Acadian flag and the Papal colours.

Next in the colorful procession was Chief Peters of the local Mic Mac tribe, dressed in his regalia as tribal chieftain. He was followed by the children of St. Patrick's school, in their first communion dress and carrying banners, depicting different titles of the Virgin Mary.

Also in the procession were scores of Acadian ladies dressed in colourful authentic costumes of the various provinces of France. The remaining part of the procession was made up of the clergy and ministers of the Mass.

After the procession had entered the throng filled church, Rev. Father L. Surrette, Chancellor of the Diocese of Yarmouth, celebrated Solemn High Mass. He was assisted by Rev. Father Miller, O.M.I. of Annapolis Royal as Deacon, and Rev. Father P. Deveau, of Plympton, as Sub Deacon. Master of ceremonies was Rev. Father D. Comeau, of Weymouth.

The sermon was delivered by Rt. Rev. Nil Theriault, Parish Priest, at Yarmouth. In his address Monsignor Theriault congratulated the people of Digby on the wonderful way in which they had marked the Acadian Bi-centennial. He paid tribute to the work done by Rev. Father Gaudet, Rector of St. Patrick's Church and his assistant, and said they must feel most gratified at the splendid way the ceremonies had gone forward.

We, as a people, Monsignor Theriault said, must remain true to our faith, to our country and to our homes. If we are to continue the spirit of Godliness that is abroad in this day, if we are to fight Communism and the other dangers that threaten our world today we must keep strong and active to keep alive our faith in Christ, our devotion to our country and the Christian homes without which there can be little hope for either faith or country.

In the sanctuary with Monsignor Theriault were Rev. Fathers Laporte and Boland, chaplains at H.M.C.S. Cornwallis; Rev. A. Comeau, Capellan; Rev. E. LeBlanc, St. Bernard; Rev. L. Robichaud, Concession; Rev. L. Comeau, Salmon River; Rev. Father Simpson, O.M.I., Annapolis Royal and Rev. G. Young, C.J.M., Church Point.

Special music for the Mass was sung by the choir under direction of Rev. Father Gaudet, with E. J. Theriault as organist.

Prevent Forest Fires

The annual closing exercises of the Home Economics Class of the Digby Regional High School was held in the auditorium of the school last Thursday evening.

As in the past several years, the closing took the form of a fashion show at which dresses, suits and other items of apparel made by the pupils were modelled by them for the benefit of the large audience which gathered for the closing.

The welcome to the audience was given by Miss Kaye Balser, of Grade XI-A. Miss Donna Logan, of Grade X-A did a most commendable job as commentator for the performance and described in detail the costumes as they were modelled by the different pupils. Accompanist for the evening was Miss Helen Kirkconnell, music teacher at the Digby schools.

During the evening's performance two choral numbers, "Tip-toe Through the Tulips" and "When Irish Eyes are Smiling" were presented by the D.R.H.S. choral group.

All of the costumes modelled showed excellence of work done both in design and execution. Cotton dresses were modelled by the pupils of Grade IX-C; Grade X pupils modelled dresses as did also Grade IX-B. Skirts and blouses were modelled by pupils of Grade VIII and two piece ensembles were chosen by the pupils of Grade XI. One of the features of the performance was the modelling by the pupils of Grade VII who are beginners in Home Economics.

At the close of the fashion show a demonstration of work books and other articles done by the Home Economics pupils was given in the classrooms. Following the demonstration a one act play, "Homespun", written and directed by Baden Powell, of the teaching staff of the D.R.H.S., was presented. Cast of the play included Rosamond Sabean, Richard Harris, Ruth Murley, Pat Ryan, Doris Murley, Lowell Winchester and Michael Hayden.

Sunday School Observes 100th Anniversary

The Westport United Baptist Sunday School observed its 100th anniversary in the Church Sunday morning with a combined service of Church and Sunday School.

The Scripture was read by Rev. Alexander Gibson, Wolfville, followed by choir anthem and prayer by Rev. George Sharpe. The Junior Choir rendered a hymn, followed by comments by Rev. Sharpe of the history of the Sunday School. The Church was organized in 1809 by Peter Crandall. Previous to this, island residents went by boat to the mainland for services. During the time Rev. W. Coldwell was minister, the Sunday School was organized in 1855.

Those appointed to a committee to arrange for a Sunday School were Isaac Peters, Jesse Harris and Thomas MacDormand. The building was first situated where the home of Mrs. George Dakin now stands. The vestry, now used for Sunday School, was dedicated in 1836.

The first Superintendent was Mr. Jesse Harris, and those following were Henry Glaven, Johnston Denton, George Cogens, Thomas Pack, William Pugh, Ralph Watkins, Gordon Cower, Donald Glaven, Mrs. Arthur Hicks, Raymond Robichau and at present, Mrs. Earle Webber.

The Frost twins then sang "Jesus Loves Even Me", followed by a presentation to Miss Lulu Repoul by Mrs. Earle Webber for her faithful service of teaching the Primary Department for forty years. Misses Marilyn and Winnifred Shaw sang a duet.

The guest speaker was Rev. A. Gibson, Editor of the Maritime Baptist and a leader in Sunday School work for many years. His thoughts on Child Training and the Sunday School work were most enlightening, taking his text from Deuteronomy.

The Sunday School Choir rendered a number.

The music was under the direction of Mrs. Richard Welch.

The hall now occupied by the Legion at Clementsport is the former Fly Hall and was used for a number of years as a yacht clubhouse. It has been redecorated and renovated by the Legion. The lower floor is used for games and entertainment, with the upper hall used for meetings and social events.

During the evening coloured movies were shown by W. H. Dill, of Middleton. These included pictures of memorial services held by Legion branches at Middleton and Bridgetown. Pictures were also shown of the unveiling of war memorials at Annapolis and Clementsport and the burning of a mortgage by the Lawrenceville branch of the Legion.

Mr. Dill also showed films of Labour Day celebrations in Bridgetown and of Hurricane Edna, and other interesting events.

Following the showing of films a delicious buffet luncheon was served and a dance was held.

The matter of the town dumping a contentious issue at Council sessions, was brought to the attention of the meeting by John Raymond who served notice on the Council of his plans to shut off a road leading to the dump. Mr. Raymond also gave a list of persons whom he said would not pay taxes in that district because of the dump situation.

H. M. Warne appeared before the meeting regarding certain proposals in connection with his firm.

Permission was given by the meeting to Clarence Vidito to erect a home on his property on Victoria Road. Permission was also given for certain alterations and repairs to the exterior of the Digby Baptist Church.

It was decided to have a step sign erected at the corner of Mount and King Streets, near the Digby Regional High School.

The Kiwanis Club was given permission to hold a Tag Day on June 25th to assist their youth activities.

A twenty year old student of Gallaudet College, Washington, D.C., is among four Kappa Gamma Fraternity Scholarship winners at the World's only college for the deaf, Nell Doucette, son of Mr. and Mrs. Phillip Doucette, of New Edinburgh, Digby Co., was honored at Gallaudet's annual awards day ceremonies held recently on the Washington campus.

A one time student of the Halifax school for the deaf, Mr. Doucette, who knew only French when he entered the school at the age of 10, learned English while he struggled to overcome the deafness which followed an attack of meningitis. In 1948, equipped with a knowledge of lip reading and a hearing aid, he returned to a regular high school and completed his matriculation. He entered Gallaudet on a scholarship awarded by the national organization for the aid of the deaf.

Only exception to the attendance requirement until June 28th will be for those high school pupils who will be writing provincial examinations during a portion of that time.

Guest speaker at the graduation exercises, which will commence at eight o'clock, will be Dr. Watson Kirkconnell, President of Acadia University, Wolfville.

The annual graduation ball will be held in the school auditorium on June 16th. It has been announced.

Mr. Purdy stated that this year, due to the fact it is necessary to complete 195 teaching days, it will not be possible to hold the usual closing exercises for the elementary schools.

He stated pupils of all schools in town would be required to attend classes until June 25th. Results of final examinations will be made known on June 27th, he stated.

RATEPAYERS TURN DOWN PAVING PLAN

Shelve Plans For Fair

At a special meeting of the Digby Board of Trade Monday afternoon it was decided it would not be advisable this year to proceed with plans for a fair in Digby on July 1st.

It was pointed out the day falls this year on Friday, the start of a long weekend, and with weather conditions uncertain it was decided to shelve plans for the fair.

A resolution was passed at the meeting urging that the Digby Recreation Commission sponsor a Civic Day, to be held on a date to be later decided. The Board went on record as pledging full support to any efforts in this connection.

Clementsport Legion Entertains

Members of the Ladies' Auxiliary of the Digby Branch of the Canadian Legion, B.E.S.L., and a number of members of the Digby Branch, attended the social evening held by the Clementsport Legion at their hall in Clementsport last Thursday evening.

A welcome to the visitors was given by Mrs. Hilda Hamilton, President of the Ladies' Auxiliary of the Clementsport Branch of the Legion. President James Sanford of the Clementsport Legion Branch, extended a welcome to the members of the Digby Legion.

In his remarks President Sanford paid tribute to the work done by the members of the Ladies' Auxiliary in assisting the Clementsport Branch in securing a new hall of their own.

The hall now occupied by the Legion at Clementsport is the former Fly Hall and was used for a number of years as a yacht clubhouse. It has been redecorated and renovated by the Legion. The lower floor is used for games and entertainment, with the upper hall used for meetings and social events.

During the evening coloured movies were shown by W. H. Dill, of Middleton. These included pictures of memorial services held by Legion branches at Middleton and Bridgetown. Pictures were also shown of the unveiling of war memorials at Annapolis and Clementsport and the burning of a mortgage by the Lawrenceville branch of the Legion.

Mr. Dill also showed films of Labour Day celebrations in Bridgetown and of Hurricane Edna, and other interesting events.

Following the showing of films a delicious buffet luncheon was served and a dance was held.

The matter of the town dumping a contentious issue at Council sessions, was brought to the attention of the meeting by John Raymond who served notice on the Council of his plans to shut off a road leading to the dump. Mr. Raymond also gave a list of persons whom he said would not pay taxes in that district because of the dump situation.

H. M. Warne appeared before the meeting regarding certain proposals in connection with his firm.

Permission was given by the meeting to Clarence Vidito to erect a home on his property on Victoria Road. Permission was also given for certain alterations and repairs to the exterior of the Digby Baptist Church.

It was decided to have a step sign erected at the corner of Mount and King Streets, near the Digby Regional High School.

The Kiwanis Club was given permission to hold a Tag Day on June 25th to assist their youth activities.

In 1948, equipped with a knowledge of lip reading and a hearing aid, he returned to a regular high school and completed his matriculation. He entered Gallaudet on a scholarship awarded by the national organization for the aid of the deaf.

A resolution, authorizing the Town of Digby to borrow a sum of money to exceed \$100,000 for street paving, was defeated at a ratepayers' meeting here last Friday night by a vote of 56 to 67.

The meeting, one of the largest held in Digby for some time, was called by the Town Council following receipt of a petition from a number of ratepayers after the Council had decided to shelve previous plans to seek the borrowing authority for the paving program.

The resolution, which was moved by Councillor Gordon Turnbull, was seconded by Councillor J. R. McCleave. In speaking to the resolution Councillor Turnbull outlined the advantages of paving and told of savings anticipated through the proposed program.

Speaking against the resolution, Mr. D. C. Landers urged consideration by the ratepayers of the present financial position of the town and questioned the estimate of savings which it was claimed could be effected.

Others who spoke at the meeting included Mrs. H. Arthur Vincent Snow, Frank Ervin, J. P. Richards, Harry Raymond, C. D. Snow, H. Marten and Councillor N. D. Wright.

About This and That

On Litterbugs

On several occasions over the years, the Digby Courier has editorialized on the subject of the unfortunate habit indulged in by some people to dispose of their rubbish and other garbage along the country roads in and around our county.

Just last week we had occasion to observe some horrible examples of this type of thing along one of the lovely scenic drives near Smith's Cove.

We refer to that road popularly known as the "Sunset Hill" road. This road, traversing as it does a wooded section of countryside and coming out on a hilltop overlooking a simply magnificent view of the Basin, is one that is often chosen by those who wish to show visitors and others the beauty of our countryside.

To travel along it and find that its edges have been used as dumping spots for all sorts of unsightly garbage is disturbing indeed and is cause for both embarrassment and apology on the part of the person who is so proudly displaying the beauties of a part of this county.

Surely there is no need for such a despicable practice and yet on this road and many others in the county one sees evidences of this habit which must be indulged in by people who have neither pride in their county or thought for their neighbors.

We feel that no words of condemnation on our part can be too strong in writing on this subject. There is absolutely no excuse whatever for anyone anywhere deliberately defacing the beauty of our countryside by dumping their garbage and offal in such places.

It is our thought that law enforcement agencies should take every possible step to punish offenders and, while we realize that to catch these offenders may be difficult, we do suggest a concerted effort be made to do so.

Such an effort will undoubtedly do much to curb the offensive practice, but along with it must go a campaign of education through organizations and societies to bring about a re-awakening of community and civic pride that will curb even the desire to do such things which will bring discredit on us as a county and a people.

Such action as above outlined will help in cutting out the practice and prevent in some measure a recurrence of the offence but something must also be done, we suggest, to rid the countryside of the sad messes which now exist along its roadsides.

To accomplish this we suggest that community groups get busy and through the means of old-fashioned "bees" or other methods seek to clean up areas in which these dumps are now located. Surely this would be a commendable effort and one which will bring great credit, not only to the organizations involved, but also to the whole county in improving the scenic beauty and attractiveness of the land in which we all should have so much pride.

Extra STYLE!

Style hit of the year is the dramatic, contrasting colour panel, now available on sedans and other Dodge models. Long, low Sportone styling emphasizes Dodge motion-design for The Forward Look!

Select the daring new Sportone colour sweep illustrated here, or a two-tone contrast between body and roof, or a beautiful solid tone. You can choose from a rainbow of fashionable shades—including brand-new spring colours.

This Dodge seat is even wider than that of many higher priced cars! It's also comfortably cushioned with foam rubber, and upholstered in smart, two-tone fabrics. There is more legroom and more room back of the steering wheel, too.

You also enjoy greater riding luxury because Dodge has a "big-car" chassis. It's all new this year with longer wheelbase, wider front tread, wider rear springs, and stronger frame.

You can be proud of the long, low lines of your new Dodge—actually bigger and roomier than many cars costing hundreds of dollars more!

This truly big car measures 12 inches longer than one leading competitor... 9 inches longer than another. It's lower, too, for that rakish, modern look.

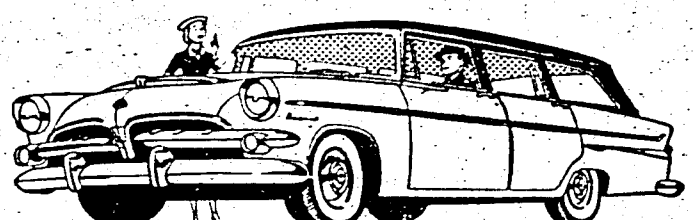

The new Dodge is actually ONE FOOT LONGER than its largest selling competitor!

The Furnace that is Spoon Fed

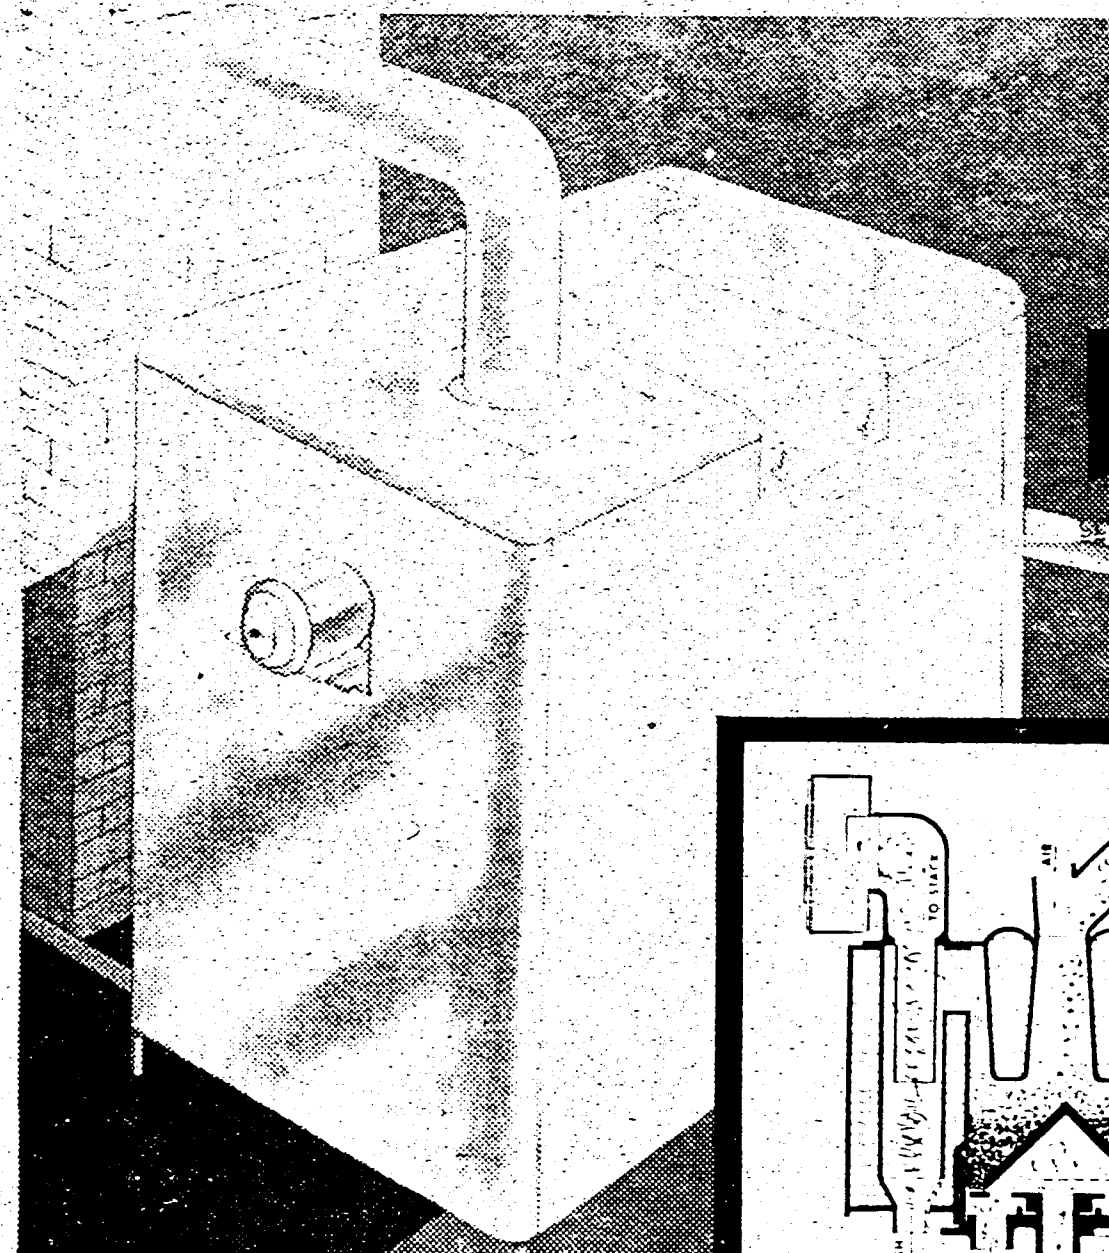

It's a fact! With Dosco's sensational new furnace coal is fed automatically

in such minute quantities that it is virtually spoon fed.

In fact 3/4 of a pound of coal will hold fire in the furnace for one hour.

This is the new, compact, gleaming white enamel furnace

that disposes of its own ashes and leaves the furnace room immaculate.

CHECK THESE FEATURES

CONVENIENCE

Unsurpassed for comfort and convenience.

ECONOMY

Cuts a minimum of 20 per cent from the cost of operating a hand-fired furnace, with relatively higher savings over other type heating systems. Cost of purchase and installation is less than for any other self-feeding heating system.

CLEANLINESS

It is impossible for dust or ashes to enter the furnace room. There is only a very small amount of ash and this is removed by vacuum as it forms.

FULLY AUTOMATIC

This furnace stokes itself automatically as required by the thermostat and even removes its own ashes.

COMPACT

The new Dosco furnace is the most compact furnace you can own. It measures 40 inches long by 30 inches wide and 48 inches high.

Purchase and installation of Dosco's new furnace can be financed through a Home Improvement Loan available under the National Housing Act. See your Bank.

OBITUARY

Capt. Harvey Brooks Fitzgerald
The community of Weymouth North was saddened on Sunday to learn that one of its oldest and most highly respected citizens, Captain Harvey Brooks Fitzgerald, had passed away in his sleep. Although in failing health for several months, the end came suddenly and unexpectedly.

The deceased was the only son of the late Charles and Susan (Brooks) Fitzgerald, of this place, and had lived until Friday, June 3rd, would have reached his 85th birthday.

A life long resident of Weymouth North, he spent his early years sailing to all parts of the world, both in the days of the wooden ships and later in steam. Having had a very interesting and colourful career including marine service for the British during the Boer War and the Australian Government during the first world war. During World War II, while a pilot for the port of Weymouth, he also participated in work for the Canadian Government in connection with trial runs of the smaller naval craft.

For many years he conducted a general store business at Weymouth North and for over 30 years he served as Municipal Councillor for the District, and for a number of these years he served as chairman of the committee on Tenders and Public Property. He was a member of the Board of Trade and took an active interest in all things for the betterment of the community. He was a member of King Solomon Lodge A.F. & A.M., of Digby, later transferring to Tuscan Lodge, A.F. & A.M., Weymouth, when it was reorganized and held the office of Tyler for several terms.

His wife, the late Mary (Tibert) Fitzgerald, predeceased him nineteen years ago May 23. He is survived by two daughters, Mrs. H. Wendle Howse (Geraldine), of Toronto, Ont.; Mrs. I. W. Wilkins (Kathleen), of Windsor, Ont.; one son, Harvey Jr., of Weymouth North, with whom he resided. Also six grandchildren and several cousins, including Mrs. H. M. Mullen, of Weymouth North, H. I. Brooks, of Winthrop, Mass., and Fred G. Brooks, of Philadelphia.

The body rested at Nicholl Funeral Home until Wednesday afternoon when the funeral service, which was largely attended, was conducted at Riverside Baptist Church by the Rev. Sydney Whitehouse, assisted by Dr. Hodgson of Digby, with full Masonic rites by Tuscan Lodge. The pallbearers were all Brothers of the Order: Lee Brooks, Ellsworth Doty, Sherman Prime and George Wagner. Members of the Municipal Council also attended in a body. Interment was at Riverside cemetery. Many beautiful floral tributes were received, attesting to the love and high esteem in which he was held by all who knew him.

Fireside Chat By Doc. Quack

Just how do plants grow? We look all around at this time of year and see the trees coming in bud and blossom and since it's a seasonal phenomena we give it little thought.

First and most important is probably temperature, as we know of few things that grow in freezing weather. The sun warms the air and soil and soon things begin to sprout new life.

Next, moisture seems to be nearly as important as temperature as we well know that dry seeds will stay dormant as long as they stay in the pack, but add some water and things start swelling.

Fertile soil is next in line and though we can grow plants in tanks with chemicals added, they are so tasteless and lacking in minerals and vitamins that one taste is enough. Fertile soil will grow healthy plants which we value so highly for health. The soil of course is the main factor as it contains moisture and when the temperature is right things start normal growth. All food we eat except sea food comes from the soil and, whether directly or otherwise we depend on it for our main staple foods. It takes a great amount of time to prepare soil for a garden but most gardeners feel well rewarded when the time comes to harvest the first tasty radish or lettuce. We fight flies and many other insects for the sake of growing our own and find it helps on the grocery bill as well.

The actual growth of plant life is extremely complex and not exactly fully understood. We do know from common observation that the seed sprouts and this first sprout goes out for moisture and soon another goes up to the surface for air. No doubt oxygen is one of the main elements as it is with human beings. Oxygen in the water and air seems to be very important. Nitrogen is next, no doubt, as all plants that contain protein manufacture it from the nitrogen in the air. Since the air is nearly 80 per cent nitrogen, we find it plentiful. Strange thing though is we breathe it in our lungs and out

HOLD CEREMONIES AT ST. EDWARD'S CONVENT

On Sunday afternoon a procession of parish children from the parish of St. Joseph's was held followed by the crowning of the statue of the Blessed Virgin at St. Edward's Convent. The laying of the crown of spring flowers was made by Margaret Belliveau. She was accompanied by two girls dressed in white veils and carrying large baskets of flowers.

The Rosary was recited by the children, followed by the Benediction of the Most Blessed Sacrament at the entrance of the convent with the choir and congregation on the grounds. The children all carried banners appropriate for the ceremonies.

again without using it and it might be that it is just there for "bulk" in this case. We depend on the plants then for our protein, or in the case of animal foods, it is just second hand. We can see then how we depend on the plants for our food, as they seem to have the ability to put the elements together in a marvellous way, to be utilized by our bodies.

Nova Scotia Summer School Plans

The Nova Scotia Summer School for teachers plans to introduce instruction in three Grade XI subjects during the session of 1955. It was announced recently by S. E. MacKenzie, school registrar.

Subjects to be taught will be Grade XI French, Latin, and Mathematics. General entrance requirements for these courses will be a completed Grade X in the subject, and at least some acquaintance of experience with the Grade XI course.

Purpose of this instruction, said Mr. MacKenzie, is to prepare certain classes of students by actual "crash" instruction so that they may be able to succeed in passing provincial supplementary examinations to be held during the first week of September. Four types of students may be able to take this instruction at Dalhousie University beginning July 6, as follows:

(a) qualified students for provincial examinations at the June sitting who are unable to write some or all of the examinations by reason of illness or causes accepted by the Department of Education.

(b) candidates who will have written the examinations in June and have passed not fewer than three subjects, may have a second chance in the subject in which they have failed.

(c) holders of teachers' licenses who may need these Grade XI subjects for professional purposes.

(d) students who lack one or more subjects necessary to admit them to the Provincial Normal College in the fall.

Applications for these courses should be submitted to the Registrar of the Nova Scotia Summer School after consultation with principals, supervisors, and inspectors of schools.

"This is an experimental programme for the summer of 1955 in three subjects only, French, Latin and Mathematics which may be extended in subsequent years," said the registrar, Mr. MacKenzie.

Everyone remembers the crazy days just after the war when people were standing around with fistfuls of money willing to pay more for a used car than for a new one (since they couldn't buy a new one anyway).

Even then, the old law of supply and demand hadn't been repealed. Cars sold easily, but there were fewer to sell. Now, there are lots of cars, but you work harder to move them.

Sure, there were used car dealers in those days who cleaned up. But then as now the basic rules of the new car dealer remain.

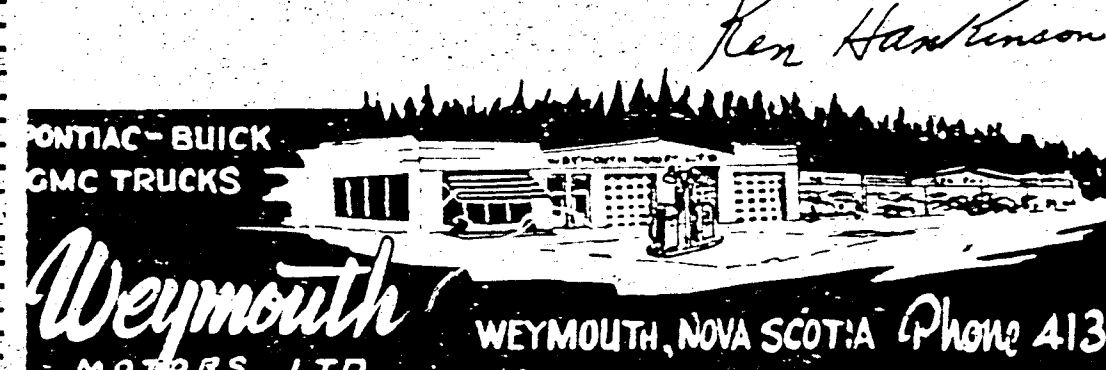

A new car dealer like ourselves is in the used car business only to make it easier to sell new cars, to provide a market and an incentive for people to trade. The rule of thumb is that you make NO money out of the used car side of the business.

But what a funny business! With used cars you're handling a product that's falling in value every day. About a dollar a day according to industry cost accountants who have made a study of it.

Ah! you say, I'll just wait 100 days and save \$100 on the car I liked. No, I'm afraid the rules work for everyone. We won't hang on to a used car for 100 days — why make it more of a losing business. And the car YOU have is dropping a dollar a day too.

And despite all the new cars on the street strange things are happening in the new car business. A national survey showed that in 1950 the average profit in the business was a modest 6.6 per cent. Last year it was down to .6 per cent. Yes, I said POINT six — six-tenths of one percent.

No, we're not weeping, but we do think that if we claim to know something about cars, and I think we do, you should know something about us.

WOMEN'S MISSIONARY SOCIETIES PLAN TO DISCUSS A JULY CELEBRATION

A meeting of the heads of the Digby Board of Trade, Recreation Commission, Curling Club, Digby Yacht Club, Digby Branch Canadian Legion, Kiwanis Club and other organizations to discuss the possibilities of holding a "Digby Day" to replace the July 1st Fair, which will not be held this year, has been called for June 20th, it was learned Tuesday night following a meeting of the Digby Board of Trade.

Considerable discussion about the matter was had at the Board meeting and it was finally decided that it was now altogether too late to plan a July 1st Fair but that some action should be taken to have some other celebration here during July 1 to 10.

It was pointed out at the meeting that there was an urgent need for the holding of a fund raising event here as soon as possible to assist the Recreation Commission to meet the expenses at the Forum and avoid in meeting payments due of \$2,000 note endorsed by a group of public spirited citizens to enable necessary extensions to be made some time ago to the Forum building.

Tuesday night's meeting of the Board accepted an invitation by the Western Nova Scotia Yacht Club to hold their summer meetings at the yacht clubrooms.

The meeting heard an interesting report on the planned activities of the Annapolis Valley Affiliated Boards of Trade to stimulate industrial and tourist development in the Valley area. It was reported a meeting of the A.V.A.B.T. executive

Well Known Local Man Passes

Following a brief illness borne with the fortitude which marked his entire life, there entered into rest William A. Wilson, son of the late Samuel E. and Lucy Wilson, on Tuesday, June 14th, at the age of fifty-five years.

Mr. Wilson commenced his career as a plumber at the early age of fourteen years, in the employ of Mr. Wesley Holdsworth.

A veteran of World War I, the deceased enlisted in the Canadian Army before reaching the age of sixteen years. He served his country for twenty-two months in the front lines.

Rev. E. C. Churchill offered prayers at the home at 1:30 p.m. on Thursday. Afternoon services were held at the church in the absence of the pastor, Rev. James Brooks, in Grace United Church, Digby, to which Mr. Wilson was an adherent.

The hymns "Into the Hills," "Beyond the Sunset" and "Bread of Life" were sung under the leadership of Grace United Church choir.

By request, the comforting words of the 23rd Psalm were read by Mr. Churchill, followed by a message of hope and consolation. Adding also to the comfort of the bereaved was the expression of affection shown in the floral tributes which were numerous and of unusual beauty in their selection and arrangement.

The Canadian Legion, Digby Branch, led by President Ernest Tufts, honored the deceased by their presence and six of their members, Benjamin Ruggles, George Winfield, Innis Munro, Frank Robinson, Maynard Denton and Leigh Peck, bore the flower-casket of their late comrade.

Committal service was conducted by Rev. E. C. Churchill and final burial was enacted by The Canadian Legion.

The deceased is survived by his wife, Freda J. Wilson, four brothers, Ralph of California, Douglas of Boston, Lawrence, Digby, and Harold, Waverley, N. S., also left to mourn their loss are two sisters, Mrs. James Gilmore and Mrs. Stanley McGee of Halifax.

William Wilson was a well known citizen and the largely attended service held in his memory testified to the esteem in which he was held. Faithful in every obligation and ever a source of strength to the members of his family, his memory will long be cherished by his loved ones and by those whose privilege it was to call him friend.

WOMEN'S MISSIONARY SOCIETIES ACTIVE IN COUNTY

A meeting of the heads of the Digby Board of Trade, Recreation Commission, Curling Club, Digby Yacht Club, Digby Branch Canadian Legion, Kiwanis Club and other organizations to discuss the possibilities of holding a "Digby Day" to replace the July 1st Fair, which will not be held this year, has been called for June 20th, it was learned Tuesday night following a meeting of the Digby Board of Trade.

Considerable discussion about the matter was had at the Board meeting and it was finally decided that it was now altogether too late to plan a July 1st Fair but that some action should be taken to have some other celebration here during July 1 to 10.

It was pointed out at the meeting that there was an urgent need for the holding of a fund raising event here as soon as possible to assist the Recreation Commission to meet the expenses at the Forum and avoid in meeting payments due of \$2,000 note endorsed by a group of public spirited citizens to enable necessary extensions to be made some time ago to the Forum building.

Tuesday night's meeting of the Board accepted an invitation by the Western Nova Scotia Yacht Club to hold their summer meetings at the yacht clubrooms.

The meeting heard an interesting report on the planned activities of the Annapolis Valley Affiliated Boards of Trade to stimulate industrial and tourist development in the Valley area. It was reported a meeting of the A.V.A.B.T. executive

Church Point H. & S. Elects Officers

The final meeting of the season of the Church Point Home and School branch was held on June 7th with Mrs. Louis J. Thibodeau being appointed President for a second term; Armand Belliveau, vice-president; Stanislaus d'Entremont, secretary; Mrs. Joseph Comeau of Little Brook, Founders Day and Social Convener, and Albert Melanson as Program Convener.

Albert Melanson gave his report as delegate to the Spring rally held at Saultville early in May and also gave a brief account of what other branches at Clare had accomplished during the season just past. The Church Point branch held several group discussions with the children as its subject which proved very successful. A study of the Berthie Report was made with Inspector of schools, J. A. Comeau of Meteghan River, explaining the most difficult parts which enabled the group to understand what will take place when the report is enforced in this district.

The meeting was in accord that the branch purchase a film slide projector for the high school section of the consolidation. This was one of the aims set at the commencement of the season and it was pointed out that the projector would be made available to all five schools of the consolidation. It would benefit all classes from the primary to the grade twelve of the high school and is a most needed instrument. Last year the branch purchased a duplicating machine to be at the disposal of all schools in the district and during the past year it has been shown that it was a very useful article, saving the teachers much time in preparing examination papers.

The local branch also took advantage of the machine in having copies of songs and folklore made out for sing-song participation by its members.

The President, Mrs. Thibodeau, gave a short farewell speech for Miss Jeanette Comeau, of Comeauville, who will be leaving the teaching staff of the Church Point high school at the end of the term to enter into matrimony. Miss Comeau has been on high school teaching staff for the last five years and prior to that was teaching at Comeauville school.

Rev. Sister Juliana thanked the association for the cooperation they had shown towards the teaching staff and mentioned that this year's program had been one of the most interesting ones and wished equal suc-

Raccoons A Menace

Farmers in Digby County report that raccoons are becoming more and more a menace. Damage done to crops, poultry and garden stuff amounts to thousands of dollars annually, these farmers claim.

One farmer in the Bear River area last year lost practically all his corn crop to the furry marauders. In an effort to scare them away from his corn rows he installed a battery of three one hundred watt lamps in one corner of the corn field.

Instead of driving out the raccoons, he says he went into the field one night and found a number of them seated under the lights, peeling down the corn to look for borers before they ate it.

In one section of the country whole families of raccoons are reported to be roving around farm-dooryards and many farmers have given up trying to have a backyard flock of hens because of the death dealing efforts of the raccoons.

The fact raccoon pelts locally are worthless—the Dave Crockett influence on the price having not yet hit here—makes it not profitable to hunt the coons and those marauders shot by farmers do little to cut down the ever increasing raccoon population.

Youngster Almost Makes Trip

Little River's youngest car operator is four year old Betty Denton, daughter of Mr. and Mrs. Bernard Denton.

One day last week she got herself all prettied up and with purse, on her arm, decided to take her playmate, three year old Jean Denton, daughter of Mr. and Mrs. Ralph Denton, on a shopping trip to town.

The two little girls got into the car and turned on the switch key. As the car started out the driveway Betty's mother noticed it out of the window and, realizing the two little youngsters were the only occupants, rushed out in time to put a halt to the expedition. She called to Betty who had presence of mind to turn off the key, stopping the car.

What happened afterward was not reported by car correspondent in Little River, but we imagine that the two little girls will be a long time before they start out again alone in the car for a shopping trip to town.

To Open Recreation Rooms

Following a meeting of the Recreation Room Committee of the Digby Branch of the Canadian Legion, B.E.S.L., it has been announced that the recreation rooms, to be sponsored by the branch, will be opened on June 25th.

Bass Fishing Attract Fishermen

Bass fishing on the Bear River, a popular sport of anglers to the waters of this lovely river, is again attracting fishermen this season as the bass begin again to frequent its waters.

From reports it is learned that already a number of good sized bass have succumbed to the lures of the fishermen, giving the anglers a real fight before they were able to land the scrappy striped batters.

Local sporting goods stores report a run this year again on rods, lines and other equipment needed to fish for the finny game which put up a real battle before they are landed or lost.

Really expert fishermen claim that squid makes the best bait for the fighting fish although others who claim to be equally as expert say other bait or lures are just as effective. Whatever the fact remains the fighting bass of the Bear River are proving a real attraction for both local and visiting followers of Isaac Walton.

Explains Position

Councillor Gordon Turnbull advised the Courier this week that he would like to clarify his position so far as his refusal to act as Chairman of the Streets and Public Properties Committee is concerned.

In a statement to the Courier Mr. Turnbull stated that he felt the members of his committee had failed to give him cooperation in the matter of the recent proposal concerning paving and that therefore, since there appeared to be a great difference in opinion within the committee he was of the opinion he should resign as the head of the committee.

Mr. Turnbull pointed out his action did not come about because of the failure of the paving project to meet with the approval of the ratepayers but because of the fact he felt he could no longer head a committee which did not agree with his views on streets maintenance.

The text of Mr. Turnbull's letter to the Mayor concerning the matter follows:

"Today the grading of streets got underway to be prepared for dust layer. Two cars of dust layer have been ordered.

"As you know, the last two or three weeks have been filled with discussion concerning paving of streets and there has been a lot of differences, especially in our Council.

"The cooperation concerning such a large project was very poor, therefore I feel that I lack the cooperation of my committee and I feel I should not continue.

"Mr. Mayor, from tonight, June 6, 1955, I resign as chairman of the Streets and Public Properties Committee.

Respectfully yours, (sgd.) Gordon Turnbull."

CELEBRATE NUPTIALS IN COUNTY CENTRES

Amoro — Beaumont

A lovely spring wedding took place on Wednesday morning, June 1st, at 9 o'clock, at Holy Cross Church, Plympton, when Barbara May, youngest daughter of the late Mr. and Mrs. Charles Beaumont, of Three Mile Plains and Plympton, was united in marriage to Vernon James, son of Mr. and Mrs. Donald J. Amoro.

The bride entered the church with her brother-in-law, Murdoch Stevenson, by whom she was given in marriage. She was charming in her full length gown on white satin, with full skirt and fitted bodice. Lace bolero, having a turned back pointed collar, and was buttoned to the waist by tiny lace covered buttons. The overskirt was of fine nylon net. She wore a full length veil caught up with tiny flowers, and carried a nosegay of white carnations and red tea roses. Her only ornament was a three strand necklace of pearls, a gift of the groom.

Mrs. Louis Blinn, sister of the groom, attended as matron of honor. She was becomingly attired in a floor length gown of blue satin and lace, fashioned similar to that of the bride with matching bolero and small flower hat. Her nosegay was of white carnations and pink baby chrysanthemums.

The groom's mother wore a dress of light navy with white trim and contrasting accessories.

Louis Blinn acted as best man. Rev. Father R. Deyveau officiated.

The church was prettily decorated for the occasion.

Following the ceremony a wedding breakfast was held at the home of the groom's parents for the bridal party and immediate relatives. After a short motor trip to the Annapolis Valley they returned for the wedding supper, also held at the home of the groom's parents. A large number of relatives and friends of the bride and groom attended.

The happy couple then left for a few days' honeymoon trip to various points in the province. For travelling the bride wore a flowered dress with blue shortie coat and white accessories.

The groom is stationed at Fort Churchill, Man., for where they will leave shortly.

They were the recipients of many lovely and useful gifts.

Out of town guests attending the wedding were Mr. and Mrs. Muriel Stevenson and daughter, Deborah, Sydney, C.B.; Mr. and Mrs. Harold Lemmon and daughter, Sheila, and Mrs. Luther Lemmon, Musquodoboit; Mrs. Lennis Amoro, Kentville, and Mr. and Mrs. Dennis Belliveau, Digby.

Miller, at 7:30 Monday evening, June 6th, at the Deep Brook United Baptist Church, when Marion Elizabeth, only daughter of Mr. and Mrs. W. F. McClafferty, East Ferry, Digby County, was united in marriage with Leading Seaman David Wesley Clark, only son of Mrs. Joseph Fitzgerald and the late Ralph Wesley Clark, of Woodstock, Ont., in a double-ring ceremony.

Entering the church with her eldest brother, Robert, the bride wore a ballerina-length gown of white nylon tulle. Her tiered veil of silk illusion was caught to a half cap of beaded lace, and she carried a cascade bouquet of red roses.

Her attendants were maid of honor Miss Myra Theriault and bridesmaids Miss Marion Crowell and Miss Inez Theriault.

Ushers were Able Seaman James Quigley and Able Seaman Alexander Slater, brother-in-law of the groom.

The church organist was Mrs. Eric Adams, who played a special interpretation of "The Lord's Prayer" during signing of the register.

A reception followed at the home of the bride's parents at East Ferry, where some 60 guests signed the wedding book. The couple left by motor for a honeymoon trip through the Annapolis Valley, and later will motor to Ottawa, via Niagara Falls, where the groom is stationed with the Royal Canadian Navy.

Parker — Darres

On Monday evening, June 6, the marriage of Elizabeth Pearl Darres, only daughter of Mr. and Mrs. Titus Darres, and David Parker, son of Mr. and Mrs. Wilbur Parker, was solemnized in the Advent Christian Church where the altar was adorned with colorful tulips, lilacs and greenery.

The double ring ceremony was performed by Rev. Kenneth Dalton, of Michigan, U.S.A., brother-in-law of the groom, in the presence of a large congregation.

The bride entered the church on the arm of her uncle, Mr. Murray Beeler, of Annapolis Royal, who gave her in marriage, to the strains of Ludwig's wedding march played by Mrs. Malcolm Parker. She made a charming picture in her bridal gown of white embroidered nylon and lace, trimmed with chrysanthemums and roses, with a bouffant skirt. Her finger-tip veil of white net fell softly from a tiara of rhinestones and pearls, and she carried a shower bouquet of red roses.

Mrs. Richard Morgan, of Hubert's Quebec, attended as the bride's maid of honor, wearing a mauve off-the-shoulder dress of taffeta and carried an old-fashioned nosegay.

The groom was attended by A.C.I. Richard Morgan and ushering the guests were George Beeler, of Annapolis, and Elmer Porter.

During the signing of the register Miss Sheila Harris sang "The Lord's Prayer". The bride's mother looked charming in a navy nylon dress with a corsage of pale pink and white chrysanthemums, and Mrs. Wilbur Parker wore a pale green, painted taffeta dress with a corsage of red carnations.

Little Miriam Parker, dressed in pink tulle, was flower girl and carried a basket of English daisies and forget-me-nots.

Spring flowers decorated the bride's home where a reception was held for 75 guests. The bride's table was centered by the bride's cake, flanked by white tapers in silver holders.

Those assisting in serving were Mrs. Calvin Libby, sister of the groom; Miss Irene Gates and Mrs. Ira Davis, cousin of the bride. Miss Marlene Thompson was in charge of the bride's book.

After the cutting of the cake, the bride and groom left by motor for Cape Breton, the bride travelling in a blue gabardine suit with pink accessories, and wearing a corsage of white mums. On their return they will occupy their new apartment on the River Road. The groom is presently employed by Darres Bros. of Bear River, and Mrs. Parker is a member of the local telephone staff.

About This and That

N. S. Public Can End Forest Disasters

A public message to the provincial branch of the Canadian Forestry Association, Halifax, B. J. Waters, president of the Nova Scotia Paper Company, warns that the forest fire disasters of Nova Scotia can happen to any wooded district. "Had the winds been in slightly different directions large parts of Liverpool and Bridgewater would surely have been destroyed as were Chatham, Quebec, and Mar Harbour, Maine, a few years ago", Mr. Waters pointed out. "While comparatively few forest fires have destroyed our villages and towns, any forest fire has the potential to do so. No one knows where or when such a fire, once started, will be controlled."

Besides the appalling loss of homes and other buildings, thousands of acres of forests were destroyed in the holiday week-end fire. It will be many years before these forest areas produce anything other than weeds.

According to the Department of Lands and Forests, there were 225 forest fires in Nova Scotia in 1953, the last year reported upon. Only one of these was caused by lightning; the others were started by human carelessness or accidents.

The best way to control fires is to make sure they do not start. It is up to each individual to be certain he is not responsible for any such calamity. We must all be constantly on guard. Until they are dead out, every match, cigarette and campfire, every burning brush pile can threaten not only the forests, the source of livelihood to thousands of Nova Scotia families, but also the homes of many people." — Canadian Forestry Association.

Dark, dreary days depress canaries, too. They just don't feel like singing. But now—good news for canary colorists! If they'll arrange to have the bottom of their cages lined with aluminum, they'll sing through the darkest day. The light reflected from the sparkling metal foil gives their souls that springtime lift.

People find endless household uses for aluminum foil. So does industry—for everything from fire-fighting clothing to photo-flash bulbs, to wrapping for candy and food. Canada used 8 million pounds of foil last year.

CELEBRATE NUPTIALS

(Continued from page 1)

The flower girl was Shannon Woodgate, niece of the bride, wearing a blue nylon net over satin dress with matching bonnet and carrying a basket of apple blossoms and pansies.

Donald Trueman, of Halifax, attended the groom. The ushers were Harold Dunn and Cmdr. Gorst, of Bear River.

The mother of the bride wore a navy net dress over nylon with white accessories and the groom's mother wore a powder blue crepe with white accessories.

Mrs. Alden Walker, of Bridgeport, played the wedding march and presented a delightful organ recital during the ceremony.

A reception followed at the home of the bride's parents, where some fifty guests signed the wedding book, after which the happy couple left by motor for a short honeymoon trip to Sandy Bottom Lake. For travelling the bride chose a summer tweed with navy and pink accessories with corsage of pink carnations. They will reside in Halifax. The bride is on the teaching staff at Cornwallis.

Belliveau — Theriault

A very pretty summer wedding was solemnized in St. Joseph's Church on Saturday morning, June 11, when Teresa Rosemarie Theriault, eldest daughter of Mr. and Mrs. D. V. Theriault, Weymouth, was united in marriage to Bernard John Belliveau, son of Mr. and Mrs. J. A. Belliveau, Belliveau's Cove. Rev. D. Comeau, P.P., officiated at the double ring ceremony and the nuptial mass.

The altar and sanctuary of the church were beautifully trimmed for the occasion with cut flowers consisting of white carnations, narcissus and yellow tulips and large baskets of white lilies. Mass was sung by the Rev. Sisters of St. Edward's Convent with Mr. Vincent Blinn presiding at the organ.

The bride entered the church on the arm of her father by whom she was given in marriage to the strains of Tchaikovsky's wedding march where she proceeded immediately to a small altar of the Blessed Virgin arranged for the occasion.

and read an Act of Consecration of the Children of Mary, of which society she is a sodalist. She was charmingly gowned in a floor length gown of white imported chantilly type lace and a long tulle over satin, having a graceful double tiered handkerchief skirt topped by a figure moulding bodice of lustrous satin and lace, finger-tip sleeve, and high neckline which featured a wing collar. Her headdress was of opalescent sequins and pearls from which fell her elbow-length veil of nylon tulle. Her only ornament was a necklace of very small pearls with matching earrings. She carried a cascade bouquet of white carnations and baby mums and during the service used an ivory covered Prayer Book belonging to her mother.

The matron of honor was Mrs. Bernard LeBlanc, twin sister of the groom. She was becomingly gowned in a waltz length gown of apple green tulle over satin having a strapless bodice of lace and matching jacket, the skirt consisting of layers of tulle ruffles. She wore a headdress of green tulle with trim of yellow primrose, elbow length sheer nylon gloves, and carried a cascade bouquet of maynoe and yellow mums.

Albert Theriault, brother of the bride, acted as groomsmen. Ushers were Edmund Theriault and Ben Belliveau.

Mrs. Theriault, mother of the bride, wore a dress of queen's blue faille crepe and lace with accessories of navy and a corsage of small red roses.

Mrs. Belliveau, mother of the groom, wore a dress of navy nylon with accessories of pink, her corsage being of pink roses.

Following the ceremony a reception was held at the home of the bride for approximately 100 guests. The rooms were prettily trimmed in white streamers and bolls with large vases of white mums and yellow and red tulips. On the piano stood a miniature bride and groom under an arch of white flowers and wedding bells. The bride's table was centered with a three tiered wedding cake raised on a dais and surrounded by white and pale yellow mums and fern. A miniature arch surmounted the cake with wedding bells and dove under the arch. Two silver and crystal candelabra held white tapers at each end of the table. A buffet luncheon was served, the bride making the first cut of the cake in tradition at fashion. The toast to the bride was proposed by Fr. D. Comeau and responded to by the groom. Friends of the bride assisted with the serving of the luncheon, the bride's aunt, Mrs. Edward Babin, completing the cutting of the cake.

For travelling the bride chose a suit of steel-blue woolen gabardine her accessories being of navy and white, her corsage of pale yellow and white mums. The happy couple will motor to Montreal, and the bridegroom after which they will reside in Belliveau's Cove where the groom is a member of the firm of Belliveau Motors.

Among the out of town guests were the bride's sister, Adele, of C.N.D.A., Moncton; her aunt, Mrs. Edward Babin, Moncton; Hon. Henry Hicks, Premier of Nova Scotia; Mr. Stanley Raffuse, Bridgeport; Dr. P. Such a pleasant way to travel the road to success

De Soto Firefly sedan with dramatic two-tone colour sweep . . . mighty 200-h.p. V-8 engine that set a new world's record this Spring in the "Flying Mile" competition, sponsored by the National Association of Stock Car Racing at Daytona Beach, Florida.

Prestige is but one of several reasons why men on the way up are choosing De Soto.

It's a mark of distinction to own this beautifully new automobile. But, more than that, the sleek motion-design of the new De Soto gives it The Forward Look—the fresh, exciting styling that so perfectly fits the tempo of today!

This thrilling performer is also a delight to com-

mand—nimble, easy to handle, and powered by a mighty 185- or 200-h.p. V-8 engine. And although many other cars are higher in price, no other Canadian automobile has a wider or roomier body than this luxurious beauty! It's truly the smartest choice you can make.

Your Dodge-De Soto dealer will be glad to arrange a demonstration drive. You'll see why it's a wise move to move up to De Soto.

CARS ARE MY LINE

by Ken Hankinson

In a New York junkyard of old cars not so long back, a man with a sharp eye for antique autos found a delapidated hulk that appeared to be of European vintage.

He paid the unsuspecting junk dealer \$350 for it — and thereby got the world's rarest and most valuable classic car. It was a Bugatti Royale, made around 1927 by a strange feudal sort of auto maker in French Alsace-Lorraine. Every piece of the intricate, 130 mile-an-hour beauty was hand made and to antique car collectors the \$350 junk was priceless. It is to car collectors what a rare stamp is to stamp collectors.

Originally the car cost \$40,000 — for the engine and chassis, and King Alfonso of Spain, its original owner, paid extra for the coachwork.

This car in the language of car dealers, was a "clunker." Most dealers run across clunkers now and then, although few ever have the thrill, or the misfortune, to acquire a hidden gem like the Bugatti Royale.

But the "as is" car can be a godsend for the man with a little mechanical knack, or the time and interest to patch and mend. An old car, though, is a problem for the car dealer — he knows that the car is basically sound, but the price it would bring even in top shape isn't worth turning skilled mechanics loose on it.

We often have good "as is" models, older cars that need the do-it-yourself touch of someone with a greasy thumb. Or, quite often, we get a car that can be run for a year or a summer without fixing and then tossed on the scrap heap, offering transportation that's almost cheaper than shoe leather.

We can't offer you a Bugatti Royale (I just ran out of stock), but we've some old timers that can be good transportation.

The Furnace that removes its own ashes!

NO ASHES TO CARRY
ABSOLUTELY CLEAN

FULLY AUTOMATIC

Now you can enjoy the financial advantage of heating with coal and be completely free of the chore of shovelling coal and carrying ashes.

Following intensive research by Bituminous Coal Research, Inc., Dosco engineers have perfected a radically-different type of domestic furnace which makes heating safer, cleaner, cheaper, than ever before. It is unsurpassed for comfort and convenience and actually pays for itself in fuel savings.

Check these features!

NO ASHES TO CARRY — Ashes are automatically carried by vacuum to a canister inside or outside the house.

ABSOLUTELY CLEAN — It is impossible for ash or dust to enter the furnace room.

ECONOMICAL — Cuts at least 20 per cent from the cost of operating a hand-fired furnace, with relatively higher savings over other types of heating systems.

SAFEST YET — Automatic feeding assures a steady heat and only a small amount of coal is in the furnace at any time.

FULLY AUTOMATIC — Feeds itself and rejects the ashes without any demand on you. Thermostatically controlled.

The New Dosco Furnace

will be demonstrated in your district soon — be sure to see it

About This and That

Local Teacher Retires

June is the month when everyone looks forward to vacation. It might be for the usual two weeks, for the summer months, or a shorter period of time. Vacation gives an opportunity to relax and enjoy, if you will, the many gifts a generous Providence has bestowed in the form of nature, friendship, family fellowship and rest.

With the class day exercises, school closings and examinations is particularly associated thoughts of coming vacation. For the small fry, vacation means getting away from routine of school, homework, and lastly those final exams. Their joyous spirit when school is over is indication of the freedom they experience.

For the graduate, the month of June means not only vacation outlook but the end of a scholastic life and a looking forward to college or the work-a-day world.

Teachers, too, look forward to the month of June and vacation time when the strenuous life of the school year can be laid aside and the pleasures of a well earned vacation can be enjoyed. To one teacher in Digby this present ushering in of vacation brings a mingling of sober thoughts as well as those which are happy and joyous. We refer to Miss Bessie Bonnell Turnbull who retires at the close of the term after having given 50 years of teaching service. Who we ask can finish 50 years of service in the teaching profession without sensing a feeling of missing the clatter, noise and shuffling of youthful feet through the classroom door? Especially does this seem true, when we consider that 2000 pupils have passed over the threshold of Miss Turnbull's classroom door in that 50 years.

But the happy side of Miss Turnbull's retirement is of more importance and we do not refer particularly to a happy release from duty. We refer to that feeling of complete satisfaction, that legitimate self-pride which must be Miss Turnbull's, and which is experienced by all of us when we have finished a task well done. To Miss Turnbull each daily round connected with her career was not made in any sense of duty but was counted by her as a privilege to serve the youth of her town and country side.

To Miss Turnbull, the child she taught represented more than a unit to which she was entrusted the task of teaching some skill, imparting some knowledge or to whom she had to hand out information on school subjects. Rather, Miss Turnbull saw each child as a living individual in whom it was her privilege to attempt the development of lasting high ideals and attitudes. This Miss Turnbull did excellently. With her teaching and example she did a noble job in inculcating in the minds and hearts of some 2000 students her own splendid and worthy ideals of life. Her influence, we are sure, cannot help but live on for years through the descendants of 2000 former students.

To Miss Turnbull the Courier extends best wishes for a well deserved vacation and rest, a chance to enjoy the great outdoors, an opportunity to enjoy the many friends which are hers, and much happiness through the years ahead.

Scholars Hindsight

It is the usual practice at school closings to present some words of wisdom and inspiration to those who are graduating into another phase of life. They are not the only ones who can use advice. Most of those who sit through the formalities of school closings are those who still have one or more years to go. They also have important decisions to make during the Summer. Will they return in the Fall or not? If they do come back, what will they try for in another year? What subjects will they take?

Answers to questions like these have recently been provided by members of the Grade X class of 1948, through a survey completed in several high schools. Seven years later they had reached views of surprising unanimity and conviction. They say: "get as much education as you possibly can. Some comments: 'Education is no burden to carry.' 'Keep going to school until you really have to give up.'"

They say: "Hold fast to English and Mathematics." "Do not drop any subjects until you are mature enough to know what kind of work you are going to do." "Take every subject offered. Don't limit your later choice of an occupation."

They say: "Study hard and seriously. Pay attention to your teachers." "A motivating company. One of the most important and difficult things in life is to learn to apply oneself to the task at hand. The best place to start is in school."

They say: "Students who are thinking of leaving school should not have covered all the grades. Many are interested in continuing the X class of 1948 now thinks. Seven years ago these people feel the same question. Some of them made the same decisions and some did not." — Kentville Advertiser

It has always interested me that so many of the stories involving the human side of the Royal Family involve automobiles. Prince Philip likes to take the wheel of a racy sports car now and then, and from that we get a picture of the spirited young man he is. In New Zealand one day he drove the Royal Tour car himself, with Elizabeth beside him. After all, every man likes to take his wife for a drive.

A lot of Canadian soldiers in England during the war got lifts from a kindly old lady in a big car, and discovered later they were riding with Queen Mary.

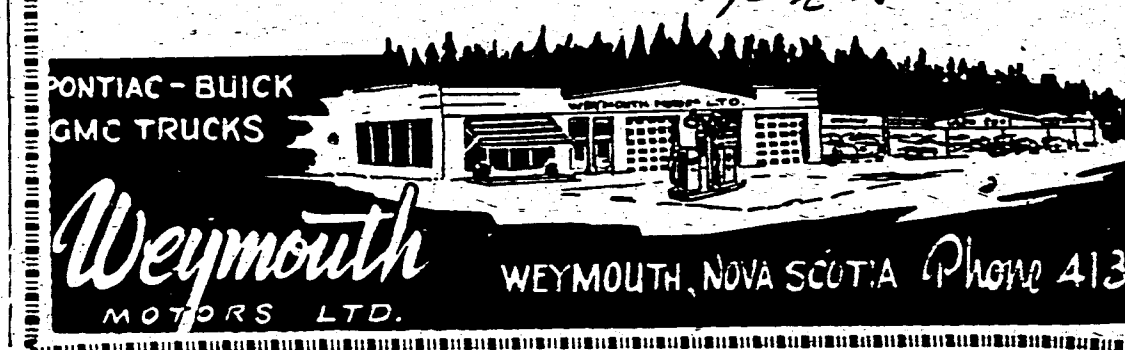

I always remember the two Canadians who were heading up to London from the boat train after the big Vimy reunion in France before the war. Their car broke down (obviously wasn't one from our lot) and they were picked up by a young man in a big Daimler.

They exchanged notes and found they were all heading for London; so the man in the Daimler said "well, come on up and have a drink with me" — and before they knew it the big car was wheeling into Buckingham Palace. Their friend, they found, was the Duke of Gloucester, the third son of George V.

For the Royal Family, automobiles were a way to get out from under the restrictions of palace protocol. Like everybody else, they found that driving opens the way to many new adventures, new places to see and new people to meet along the way. And there's a satisfaction in owning your own car. I've always thought, the satisfaction of controlling exactly where you're going, how far and how fast and when you're going to stop.

If you want to do this in a Daimler, don't see us, we haven't any. But for a wide range of used cars that any size of pocket-book can afford, drop around. Nothing like a car to give you that royal feeling.

M. D. Jarrell, eminent Trichologist, demonstrates causes of baldness and how it can be prevented

How To Have Hair For A Lifetime To Be Demonstrated Here By Famous Trichologist Offers Written Guarantee

An exclusive interview by Ward Allen

NDON, ONTARIO. Special M.D. Jarrell, Director of Jarrell Hair Experts of Canada, exposed the myth of baldness in an exclusive interview.

Baldness is unnecessary, cost and a plague to mankind," Jarrell. "No man need be bald. No man need suffer the stigma of premature old age. It is forced upon him because he is losing his hair. The Jarrell method of hair and scalp treatment can prevent baldness — it turns colorless fuzz into healthy, growing hair — can make you look youthful again."

Demonstration To Be Held in Digby, Nova Scotia

The revolutionary method of Jarrell treatment for the hair and scalp will be demonstrated in Digby, N. S., Tuesday ONLY, July 5th, at the Champlain Hotel. Trichologist H. L. Hendrickson will conduct the private, individual interviews from 12 noon until 9:00 P.M. on Tuesday ONLY. There is no cost or obligation, and you need no appointment.

Reason For Baldness

There is always a reason, for baldness," continued this nationally known authority. "Hair cannot grow through a scalp that is infected with dandruff, excessive oiliness, or extreme dryness. A scalp that has never been exercised cannot be expected to produce healthy hair." Men and yes, women too, walk the streets today, completely devoid of nature's greatest ornament — hair. Simply because they were not taught the basic rules of hair and scalp hygiene when they were growing up. The simple answer," emphasized this expert in that children should be taught the same simple basic rules of hair and scalp hygiene that they are taught for the proper care of their teeth. If this were the case, baldness would be a rarity to all."

Heredity Not Involved

Trichologist Jarrell dodged no issues. He quickly took up the most widely spread theory of baldness — heredity. "Mankind's unrealistic belief that baldness is hereditary stems from a mis-

interpretation of the theory of genetics. Theory does not state that any person must be bald because baldness exists in the family. What it does say, is that in some families, a tendency exists towards an undernourished scalp." The purpose of Jarrell Hair and Scalp Experts is to teach the methods of strengthening the weak scalp and nourishing it to a healthy, vigorous condition. A healthy scalp will grow hair, if it is not already completely bald," assures Jarrell.

Is There Hope For The Completely Bald?

In his travels throughout the United States and Canada, Jarrell has collected hundreds of testimonies of his ability to develop weak fuzz into healthy, mature hair. All of his clients have started with a private examination, hair and scalp analysis, and a diagnosis of the disorder. Jarrell is quick however, to tell a hopeless case that he cannot be helped. "We strongly advise," says Jarrell, "that no person who is completely bald hold any hope whatsoever of regrowing hair. If there is any fuzz at all, we can restore a healthy scalp condition and the hair will grow normally again as nature intended."

Offers a Guarantee

"Jarrell Hair Experts of Canada, offer a guarantee to any client who enrolls for treatment. If he or she is not completely delighted with results at the end of 30 days, the money invested will be graciously refunded," pledged Jarrell. "We must have satisfied clients. We must regrow hair. After all, it is our best advertisement."

Is Your Hair Healthy?

If you have a scalp disorder, or if you are worried about your hair, call Trichologist H. L. Hendrickson at the Champlain Hotel in Digby, Nova Scotia, Tuesday ONLY from 12 noon to 9:00 P.M. The public is invited. The examinations are private and open to men and women. You do not need an appointment, and you will not be embarrassed or obligated in any way.

enue loss of over \$100,000 annually.

Tracing the development of the present program Dr. McCleave stated that because of the present school set up more than 50 persons are directly employed by the schools and seven hundred students are conveyed daily into the town. This fact alone, he said, serves to give some idea of the impact of the present school system on the economy of the area. Other factors also are in operation and are working, he said, to weld this area into a unit which will bring great beneficial effects to the district although tangible evidence of such things was often difficult to assess.

Speaking to the townspeople in the audience, Dr. McCleave pointed out that, although there had been an increase in the educational budget of \$30,800 over the past three years, the town's contribution had decreased by \$9,700 over the same period. This occurred, he said, despite the fact seven new classrooms had been added in this period.

Dr. McCleave stated that costs to the area for education in the present school set up here for 1955 was \$34,540. This, he said, was apportioned at \$15,500 for common school tuition; \$12,540 for the Regional High School and \$6,500 for bus operation. The town's share of educational expenditures for 1955 was \$30,000, making a total for the town and area of \$64,540. The provincial government also pays in 1955 a sum of \$68,000 or more than 50% of the total.

He stated that the provincial government pays 75% of the costs, to the municipality for the operation of the Regional High and 50% of the costs to the town. Ratio of area pupils is 66% and the town 34%. From the figures, Dr. McCleave said, it was a fair conclusion that the partnership arrangement was one which was equitable to both the town and municipality.

In concluding his remarks Dr. McCleave stated present accommodation of 34 classrooms will be sufficient for the needs of 1955-56. In September, 1956, additional classrooms will be required for common school grades, necessitating extension to Regional High School facilities. He stated that the Regional Board is at present considering an over all policy for the Regional High School area.

The results of this policy, Dr. McCleave stated, could possibly lead to an extension of six to eight classrooms to the present building at an estimated cost of \$150,000 to \$200,000. The town's share of this expenditure, he said, would probably range from \$45,000 to \$60,000.

The expansion of facilities would, result, Dr. McCleave said, in an additional 75 to 125 students conveyed daily to the regional school from the area. This, would mean a gain both to the town and area. The area would receive, he said, cheaper per pupil costs and the town would gain through increased expenditures made in the town as a result of the expanded program.

In closing he urged his listeners to give serious thought to the whole matter of education in Digby town and area. He stressed the values obtained through the development of the present program and urged that a full study of the whole matter occupy the ratepayers so they might be able to deal with the subject in a proper and sound manner when the matter of expansion came before them.

Supervisor F. C. Purdy, in his report, dealt with the activities

of the school over the past year. He outlined the program carried out and said this program had been commended by the recently formed Citizens' Committee in a report in which they said, "We are convinced that a very excellent job is being done in our schools but unfortunately we find the public is uninformed as regards school activities."

Mr. Purdy said he was convinced an interested, well informed parental group could do much to dispel much of the misinformation that he said seemed to exist concerning the school and its program and could also supply valuable leadership in developing the finest educational program for the area.

Dealing with co-curricular activities, Mr. Purdy stated this year the Digby Regional High School debaters had won the western valley school debating championship; the golf group took the Provincial Headmasters' Trophy, and the dramatics group was only eliminated in the semi-finals. In the past five years, he said, Regional High School teams have won four provincial titles and proceeded to the finals in three provincial tournaments.

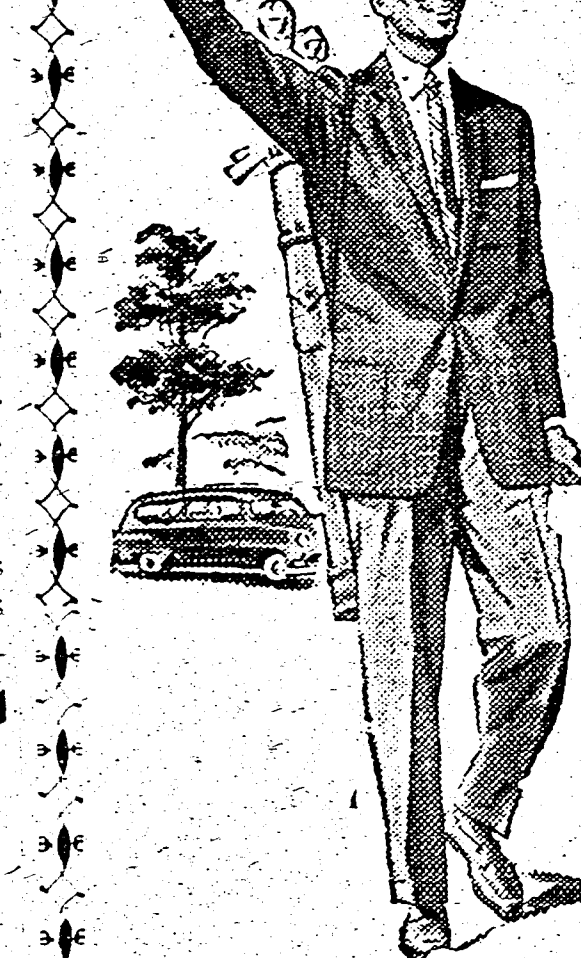

Mr. Purdy stated that while the school and its program is designed primarily to meet the needs of youth, provision has also been made for the adults of the area. Over the past five years, he said, more than 200 adults have received instruction in bookkeeping, stenography and sewing at vocational evening classes.

Student placement service operated through the school has also resulted in some thirty students being directed into university courses over the past six years; over twenty have been encouraged to enter teaching and the commercial department has been unable to keep up with the demand for well trained stenographers and typists.

Speaking of the matter of drop-outs, Mr. Purdy stated that even though students do drop out of courses at the Regional High School, they are those who are over age and would normally drop out at the grade VII level. Under the Regional High School set up they continue to grades IX and X where the drop out is heaviest. The present school year, he said, had recorded an abnormally low drop out with the academic sections showing almost zero in the number dropping out.

Those who do leave, Mr. Purdy said, should not be written off as losses. The majority are enabled, because they continued at high school level to enter the armed services or find employment fitted to their educational attainments. He said too, often there seems to be a sort of intellectual snobbery regarding the white collar worker. This should not be because in society today the group who earn their living with their

hands are finding a place and establishing a standard of living on a most satisfactory plane. The contribution made to the welfare of this group through the Regional High School must not be minimized, he said.

OBITUARIES

Mrs. Bessie A. Vidito

The many friends and relatives heard with deep regret of the passing of Mrs. Bessie A. Vidito, which occurred suddenly, after a brief illness, at the home of her daughter, Mrs. W. J. Franklin, on Wednesday morning, June 15th. She was a daughter of the late Gilbert and Manetta (Denton) Merritt, of Sandy Cove, and was 81 years of age. For the past 47 years she was a resident of Waterford, Digby Co., where she was a faithful member of the Baptist Church and a charter member of the W.M.A.S., her health remaining such that she attended all church activities regularly prior to her illness. She will be remembered for her genial and kindly disposition. Her husband, the late Harry A. Vidito, predeceased her 8 years ago.

Those surviving to mourn their loss are two daughters, Mrs. William Franklin Conway, and Mrs. Frank Johnson, Grimsby, Ont.; one son, Malcolm, at Waterford; one sister, Mrs. Fred Dakin, Centerville; two brothers, George Merritt, of Mink Cove, and Reginald Merritt, of Wilmington, Mass.; ten grandchildren and ten great grandchildren, beside many nephews and nieces.

The largely attended funeral was held from the Hill Grove Baptist Church and conducted by Rev. E. C. Churchill, assisted by Rev. Frank Mollins, of First Digby Neek Church and the choir. Hymns sung were "Abide With Me", "In The Sweet Bye And Bye". A duet, "Beyond The Sunset", was nicely rendered by Mrs. Lloyd MacNeill and Mrs. Mildred Roope.

Interment was in Hill Grove cemetery. Pall bearers were Thomas Franklin, Lloyd MacNeill, William Roope, Arthur MacKay, Sidney Westcott, Gerald Walker. The profusion of beautiful floral offerings paid a final tribute of high esteem to a friend and loved one.

Kenneth Casey

Only one week after receiving notice of his appointment to the Federal Department of Mines and Technical Surveys, Kenneth Allan Casey, of Victoria Beach, Annapolis County, and graduate chemist, died in hospital at Kentville Thursday following a month's illness. He was the son of Roy and Myrtle Ellis Casey, Victoria Beach, and today would have celebrated his 26th birthday.

Mr. Casey was an honors graduate of the class of 1949, Acadia University, where he received his Bachelor of Science degree, and the following year

These days most people work under pressure, worry more, sleep less. This strain on body and brain makes physical fitness easier to lose—harder to regain. Today's tense living, lowered resistance, overwork, worry—any of these may affect normal kidney action. When kidneys get out of order, excess acids and wastes remain in the system. Then backache, disturbed rest, that "tired-out" heavy-headed feeling often follow. That's the time to take Dodd's Kidney Pills. Dodd's stimulate the kidneys to normal action. Then you feel better—sleep better—work better. Ask for Dodd's Kidney Pills at any drug counter.

Sponsor Jamboree Contest

Four Nova Scotia Boy Scouts will receive free trips to the World Scout Jamboree this summer, as awards in an essay contest.

Fifty Canadian Boy Scouts will be provided with an all-expense trip to the 8th World Jamboree to be held in August at Niagara-on-Lake, Ont. All costs of travel and of ten days at the Jamboree will be paid by The Bank of Nova Scotia for 50 winners in an essay contest on "What It Means To Be A Scout."

The essay contest, sponsored by the bank in cooperation with The Boy Scout Association, is open to some 4200 Scouts across Canada; those eligible to attend the Jamboree. Entry forms and rules on the essay contest went forward recently to the ten provincial headquarters and to district headquarters in Ontario of The Boy Scouts.

The Scouts have until midnight June 30 to mail their essay entries to their Provincial Headquarters; in Ontario to district headquarters. Winners in each province will then be picked by three-men committees comprising representatives of the Boy Scout movement and the bank. The 50 winners will include: two from Newfoundland; one from Prince Edward Island; four from Nova Scotia; three from New Brunswick; seven in Quebec; 15 in Ontario; four from Manitoba; three from Saskatchewan; five from Alberta, and six from British Columbia.

"We are conducting this essay contest because we realize how much attendance at this Jamboree can mean to Canadian Boy Scouts and we recognize that transportation and other costs may keep many a worthy Scout from going," said a bank spokesman.

NEW FULLY AUTOMATIC FURNACE

Actually pays for itself

The most modern development in domestic heating will be demonstrated in this area soon. You will want to see it.

Perfect by Nova Scotia engineers, this is the furnace which is making news in the heating world. In gleaming white enamel, it is only 40 inches long, 30 inches wide and 48 inches high. It costs little to buy and install and this cost is quickly returned in fuel savings.

COMFORT AND CONVENIENCE

This new principle of heating gives the householder maximum comfort and unsurpassed convenience. No stoking — no ashes to carry. And it is the most economical heating system yet devised.

IT REMOVES ITS OWN ASHES

With modern treatment of coal, most of the ash is eliminated. The small residue is carried by vacuum to a canister which can be outside the house.

IT CUTS FUEL BILLS

Coal is the most economical fuel available in Nova Scotia. This new furnace makes a further reduction and cuts costs of fuel at least 20 per cent lower than hand-fired furnaces. Savings over other type heating systems are relatively higher. It holds a fire with as little as ¾ of a pound of coal an hour.

IT IS ABSOLUTELY CLEAN

It is impossible for ash or dust to enter the furnace room. With this furnace, the furnace room floor can be as clean as the living room table.

IT IS FULLY AUTOMATIC

It feeds itself and carries the ashes — A thermostat regulates the heat.

Watch for the demonstration of this radically different home furnace.

Purchase and installation of Dosco's new furnace can be financed through a Home Improvement Loan available under the National Housing Act. See your Bank.

EVER WANT TO GO TO A

Jamboree?

You'll find many a Boy Scout who does. He's longing to join thousands of fellow Scouts at the 8th World Jamboree to be held in August at Niagara-on-the-Lake.

But he may be disappointed. Transportation, for instance, may be just too great an expense. It is to help such a Scout that The Bank of Nova Scotia is co-operating with The Boy Scout Association to set up 50 all-expense-paid Jamboree Journeys for deserving Scouts.

Scouts are invited to write a short essay on the theme "What It Means To Be A Scout." On the basis of these essays a total of 50 winners will be selected in co-operation with the Boy Scout Association. The Bank of Nova Scotia will meet the costs of travel and of ten glorious days at the Jamboree for these 50 lads.

The Bank of Nova Scotia's Jamboree Journey Essay Contest is another example of the Bank's policy of working with Young Canada. The Bank is their partner, as it is yours, in the great and many-sided enterprise of helping Canada grow.

Entry forms are available to Scouts, eligible to go to the Jamboree, from the Boy Scouts Association, or your nearest Branch of The Bank of Nova Scotia.

HONORED ON BIRTHDAY

Seventy-five years of life can be worthy of note. It is especially so in the case of Harry S. Morehouse, secretary of the New England Hotel Association for many reasons.

For "Uncle Harry" it meant a shower of well-wishes and a substantial purse honoring him for his 75th birthday during the proceedings of the recent New England Hotel Association convention at Hartford, Conn.

For the many hotel men throughout New England, Harry's birthday served as the "diamond spike" driven into the ever moving rails which purvey the continued growth of the hotel industry in this sector.

Harry has been secretary of the NEHA for 15 years and in that time he has accomplished a tremendous job of building up the membership. When he came on the scene the activity in the association was moving listlessly and progress, if any, was at a low ebb.

Today the association enjoys its greatest figure in hotel membership, tribute enough to Harry's energy to attain such a goal, for he knew then that a strong membership was the first requisite for launching a strong program. — Restaurant News, Boston, Mass.

(Mr. Morehouse is a former Bear River boy; son of Capt. Reid Morehouse who was in command of the Dei Gratia when it picked up the mystery ship "Marie Celeste" many years ago.)

The president, Harry J. Lewis, opened the meeting with a short business period and welcome address.

The devotional period was led by Arnold Marshall, which opened with the singing of "Take Time to be Holy." The evening prayer was given by Douglas Andrews, of Rossway. The responsive reading was entitled "Christian Fellowship."

A duet was rendered by Mrs. Sydney Cromwell and Mr. Cyril Middleton, also several spirituals by the Weymouth Falls folk.

The special speaker of the evening was Rev. Mr. Young, of the Baptist Church, Hillsdale, Annapolis County. His message was based on "The Children of Israel," taken from the Old Testament in the Book of Exodus, making it applicable to the present day. This message was a challenge to each one present that we must work together or fail.

A film on India and its present domestic and business life was shown and enjoyed by all.

Refreshments were enjoyed at the close of the meeting after which the people joined in singing "Blest Be the Tie That Binds," bringing to a close one of the most successful meetings yet to be held.

Vernon are making a study of the interests, preferences, opinions and skills of a cross section of representative community persons in the Digby town community. Assisting will be Dr. Marion Grant of Acadia University, Mr. Norman Chance of Cornell and several others.

In describing the proposed study Professor Vernon said: "The purpose of this study is to try to add a little to our knowledge and understanding of the strange and wonderful complexity of the human person. After many years of research we still know only a little about people. It is true that many persons have been studied, but most of these have not been representative of people in general, of you or of me. There have been studies of army recruits, of men working at particular jobs or occupations, of students at university, of people in hospitals. Now these persons have already been picked out because of special characteristics which distinguish them from other people. We can never be sure that what our studies discover about them is not a result of these special things. In fact, we are sure that very often they are the result of special effects and that what we think is a description of a human being is true nature but is a result of something related to his occupation or age or health or something else.

So we need to know much more than we do about what persons are like, how they in general are alike and how they differ. What is essential to their makeup and what is a matter of chance. We hope, therefore, to be able to study a representative cross section of all kinds of people and not just some special kind of person.

It is not possible of course to study everything about a person at once, people are too complicated for that. We have, therefore, selected for study some of the interests, preferences, and opinions and some of the skills which people have, in the hope of getting some better understanding of how these preferences, likes, dislikes, opinions, etc. fit together in different kinds and sorts of persons.

People of course have interests, preferences, and opinions about all sorts of things, and we have tried to select for study some of the important ones. There are questions about occupations, about government, about science and religion; about kinds of people, including one's self and the way people behave or ought to behave. In all these matters people show different likes and dislikes, special interests, or no concern at all. There are other things too: We have included humour, because people show wide differences in the kinds of jokes they like and laugh at, and also laughter seems related to happiness and wellbeing. We have included music for the same reason, different people like very different types of music and get much enjoyment out of these different kinds.

The skills we have selected are among the common every day ones, that make use of the hand, the eye, the ear, the mind and the combinations of these which make it possible for everybody to deal with things and people in the world around.

We have tried to choose tasks that are in themselves interesting or amusing. We have pictures, puzzles, quizzes, cartoons, jokes and music as well as short questions about persons and things.

Some of these tasks can be done together in a group. Others, to avoid distraction, have to be done singly in the presence of someone who will point out the steps in the task and keep track of what is done. We hope the people of Digby will help us by lending us some of their time and thought.

Each person is a representative of the community. It is because he is representative that we ask for help, not because we are curious about the individual, his opinions, skills, as such, but because they are examples of the opinions and skills and interests of the people like him whom he represents. There are too many persons in a community to study all of them. We have to sample. We have to choose people so that all the different kinds of opinions and interests are fairly represented. Every person whom we ask to study will be selected representatives of his community.

Some people have thought that there is some kind of magic in this work. That we can ask a person a few questions and know all about him. If this were so we would not have to do this study at all. After each person has answered the questions and done the tasks, the work of the scientist is only just begun. It will take years to find out what it all means, just as it took years and years to produce the Salk polio vaccine.

We are medical people in a medical setting. We do not discuss what people tell us outside our offices. All opinions will be held in confidence by us.

This kind of community study has never been done before that we know of. We believe it is im-

portant to do it. Without the help and cooperation of the people of Digby it cannot be done. We can offer no personal reward for time and trouble except our sincere thanks. We depend entirely on your good will.

If together we do a good job others in the future will benefit.

About forty key people in the community have already taken part in the group sessions and a number more have promised to do so. Mr. Vernon said. Many have enjoyed the single sessions too and all will complete them.

He said many more of the citizens of the town would be involved and expressed the hope all those whose names are in the random selection will co-operate and give their help in the project.

Meteghan Edges Weymouth 4-2

The Meteghan Shipbuilders edged out the Weymouth Monarchs 4-2 at Weymouth Thursday night. The Monarchs, however, had great cause to rejoice as Avar "Whiz" Wagner appeared on the mound for the first time this year and struck out eleven men.

Meteghan opened the scoring in the second but Weymouth came right back to tie it up in their half of the inning. Meteghan had a wonderful chance in the third when they loaded the sacks on three successive base hits. They lost it however and after one run scored were retired.

RETIRING SCHOOL TEACHER HONOURED

Photo by Jeanette W. Yates

In an address here Saturday night which he termed as "possibly his last official public act as Minister of Education", Premier Henry D. Hicks paid high tribute to Miss Bessie Bonnell Turnbull who retires this year from the staff of the Digby Public Schools after fifty years of service.

The occasion of the address by Premier Hicks was a testimonial dinner held in honour of Miss Turnbull at the Digby Pines Hotel. In his address Mr. Hicks said the people of Digby were honouring not only Miss Turnbull but also themselves through the holding of the testimonial dinner. Service such as she has given to the youth of this community cannot be rewarded by salary, he said, but deserves a higher recognition than that.

The Premier was introduced to the gathering by C. W. Crowell of Yarmouth, Director of Education for Western Nova Scotia. Thanks of the audience to Mr. Hicks for his address was expressed by Mayor Guy E. Morehouse. Both speakers also paid high tribute to Miss Turnbull's long and faithful career as a school teacher.

At the banquet session, which was presided over by Dr. J. R. McCleave, Chairman of the School Board, the toast to the Queen was proposed by Premier Hicks and the toast to Miss Turnbull by School Supervisor F. C. Purdy.

Following the banquet session Victor Cardoza, M.L.A. for Digby by Municipality and a former pupil of Miss Turnbull's, presented her with a television set on behalf of some twenty-four hundred former pupils. Dr. J. R. McCleave presented her with a beautiful silver tea set, suitably inscribed, on behalf of the Board of School Commissioners. Presentation to Miss Turnbull of a lovely floor lamp was made by Mr. J. A. Deveau, President of the Digby Local of the Nova Scotia Teachers' Union, on behalf of the local. Mr. Deveau also read a telegram from Union President Glasgow which paid tribute to Miss Turnbull and her career in the teaching profession.

Mr. R. B. Powell, on behalf of the teachers of the Digby Regional High School, presented Miss Turnbull with a beautiful pin and earring set and Mrs. E. R. Winchester presented her with a fountain pen on behalf of the teachers of the elementary school.

Miss Sandra Franklin, a former pupil of Miss Turnbull's, now attending the Digby Regional High School, presented her with a gold bound copy of the roll call of all her former students. Presentation of a copy of the Fundy Light, student publication of the Digby Regional High School, which this year was dedicated to Miss Turnbull, was made to her by Frank Marshall of the graduating class of the D.R.H.S.

In replying to the presentation Miss Turnbull expressed her thanks and appreciation to Mr. Purdy, Dr. McCleave, the Board and all others who made the arrangements for the banquet and the gifts she had received. She also thanked Premier Hicks for his attendance and the thoughts he had expressed concerning her career.

ST. PATRICK'S PUPILS PRESENT OPERETTA

On the evenings of June 23 and 24, in St. Patrick's Auditorium, the children presented "Snow White and the Seven Dwarfs", an operetta in three acts, as their closing program for the Academy.

Each scene combined all forces to express the strongest idea of the story at that moment. When the Infant Princess was brought in, all were exalted and happy. At Queen Tiger Lily's dramatic entrance, the spirits of the actors first soared, then sank with terror at the expulsion of Princess Snow-White.

In act two the Dwarfs showed by their careless habits that something was lacking for them. When Snow White appeared on the scene, their lives were happier, and Queen Tiger Lily's attempts to destroy her were highly dramatic. The coming of the Prince and his rescue of Snow-White from her deathlike sleep re-established the happy atmosphere, and a distinct change of feeling was shown by all the Dwarfs.

Act three was a whirl of joy throughout and the spirits of all rose to a high climax in the wedding festivities at the end.

Characters for the operetta were as follows:

Snow-White, the beautiful Princess, Betty Baxter.

Queen Wistaria, Snow-White's gentle Mother, Marguerite Dorian.

King, Snow-White's royal Father, Arthur Surrette.

Queen Tiger Lily, Snow-White's wicked Stepmother, Sharon Foster.

Frosty Fate, cold and unexpected guest, Freddie Speights.

Court Doctor, a fussy budget, Gregory Eldridge.

Nibbles and Nutty, Snow-White's frisky friends, Queen Tiger Lily's heart's wishes, Patsy Surrette.

Woodsmen, Clifford Melanson.

White Wings, King's handy man, Ronald Winchester.

Seven Dwarfs, John Amirault.

Tommy Muise, Brian Ruddick, Michael Surrette, Ronald Shano, David Wood, Frank Gibson.

Ladies-in-Waiting, June McDormand, Mary Sweet, Donna Hershey, Karen Wood.

Guards, Floyd Amero, David VanTassel.

Elves, Wendy Adams, Linda Paxton, Yvonne Comeau.

Flowers, Marina Sweet, Jean Dugas, Cecile Dorian.

Sunbeams, Diane Wentzell, Judy Saulnier, Lois Vroom, Marlene Smith, Louise Comeau, Lorna Winchester.

Townpeople, Judy Hattie, Margaret Crowell, Joan McIntyre, Dianne VanTassel, Sharon Comeau, Betty Saulnier, Jeanette Cormier, Mary Sharon Theriault.

Stage Manager, Ronald Winchester.

All of the young performers took their parts with an ease and grace which gave real evidence of the excellence of the training they had received. The dialogue was carried on in a most pleasing natural manner and the scenery and costumes were splendid examples of both excellent taste and a high degree of artistic ability.

The audiences which attended both performances were loud in their praise of the polished performance given by the young stars and their applause paid tribute also to the many hours of training and direction which had gone into the production.

At the conclusion of the Operetta the following prizes were awarded to the students maintaining the highest standing during the school year 1954-55:

Grade I — 1. Susan Comeau; 2. Judy McIntyre.

Grade II — 1. Wendy Adams; 2. David Wood.

The bride looked charming in a navy blue suit with white accessories. Attendants were Mr. and Mrs. Willard Wagner, of Digby.

Young — Mullen
Canterbury Chapel, on the campus of Eastern Nazarene College, Wollaston, Mass., was the scene of a very happy occasion Tuesday, June 7, when Rev. H. C. Mullen gave his youngest daughter, Ethel Ruth, in marriage to Harold Edwin, only son of Rev. and Mrs. James Young, of Compton, California.

The marriage ceremony was performed by Rev. Wilbur Mullen, brother of the bride, who received his doctor's degree from Boston University only two days before. Another brother, Rev. Laurence Mullen, of Yarmouth, N. S., offered prayer.

The ministerial profession was further represented in the wedding party by the groom, the best man, and one usher.

Gladiolae, palms, and ferns flanked the chapel altar. The bride's floor-length gown of chantilly lace over satin was fashioned with a full skirt gathered onto a long-sleeved bodice. The net yoke was trimmed with lustre sequins. Her shoulder-length tulle illusion veil fell from a sequinned tiara.

The bride carried a cascade bouquet of white roses and blue hyacinths. The bridesmaids, Aldine John and Jeanette Morehead, college classmates of the bride, wore identically styled gowns in pink and blue with matching headdresses and mitts.

Tiered layers of net over taffeta fell from fitted lace bodices. Their bouquets were old-fashioned nosegays of roses and sweet peas. Little Marjorie Mullen, niece of the bride, in a dress of pale yellow dotted swiss and organdie, dropped rose petals from a heribonned basket in the path of the bride as she came down the aisle escorted by her father.

Miss Alice Spangenberg provided fitting organ music for the ceremony. Soloist, Fred MacMillan, sang "O Promise Me" and "I Love You Truly" preceding the ceremony, and "O Master Let Us Walk With Thee" following the prayer.

The bride's mother wore a navy dress and pink accessories and a corsage of pale pink roses.

Following the ceremony a reception was held at the home of Mr. and Mrs. Robert Harding.

The bride is a graduate of Wood Harbour High School, Wood Harbour, Nova Scotia, and of Eastern Nazarene College, Wollaston, Mass. The groom, who attended high school in St. Louis, Missouri, is a graduate of Eastern Nazarene College and Boston University.

Control Poison Ivy With Chemicals
Poison ivy is one of the common nuisance weeds in Canada which each year causes considerable discomfort for those unwary enough to come in contact with it. However, it can be controlled fairly easily by one of the modern chemical weed killers.

Mr. McGibbon of the Summerland Experimental Station, Federal Department of Agriculture, reports that killing of poison ivy resulted from tests in which a mixture of two liquid ounces of 2.4.5-T in a gallon of water was sprayed on the plants. It took from ten to fourteen days before results were noticeable.

After that the leaves turned yellow and dropped off. Results from other areas indicate that there will be no re-growth the following year provided the spraying is thoroughly done.

Mr. McGibbon warns that care must be taken to keep the spray off of any valuable woody plants in the vicinity because they are very susceptible to this particular chemical. For the same reason, the sprayer should not be used for other garden purposes unless it is thoroughly washed out to remove all traces of 2.4.5-T. — Farm News.

NOVA SCOTIA COAL — THE THRIFTY FUEL

Use NOVA SCOTIA COAL

In all the years Nova Scotians have been mining coal only 19.6% per cent of the known supply has been used. There is coal available for many years to come. This unlimited supply, plus efficient, modern methods of production are two of the reasons why heating with coal is easier on your pocketbook.

For example, there is the "Dosco Miner". Designed, engineered, and built by our own

staffs, the "Dosco Miner" can extract and deliver to the loading conveyor one and one-half tons of coal in 13 seconds. No explosives are required thus making this form of coal mining safer and more efficient.

The "Dosco Miner" is only one of many new modern methods now being applied to coal mining. The benefits are passed along to you in the form of lower fuel costs and higher fuel efficiency.

There's no mistaking this beauty!

Out of the medley of modern motor cars, one car stands out. Whether you see it a quarter of a mile down the highway—or watch it flashing past in the line of traffic—there is absolutely no mistaking the beautiful new Pontiac. Coming, passing or going, it's the one car that carries the great stamp of individuality.

And this wonderful difference in favor of Pontiac goes far beyond appearance. There's the same superiority in performance. Put the Strato-Streak V8, the Strato-Flash V8 or the Big "6" through their paces on the getaway just once—and you'll see that you never need do that again! Here's spirit to lift anybody's spirits! Steering is so easy and steady that you

almost drive with your mind. The ride is as level as a level itself. This is a great car. It's from the ground up. And naturally it gives it a big advantage over all other cars from every conceivable standpoint. Why don't you get a Pontiac? Come in today . . . drive a Pontiac away! Once you take the wheel—and get our deal—it's an irresistible combination!

CARS ARE MY LINE

by Ken Hankinson

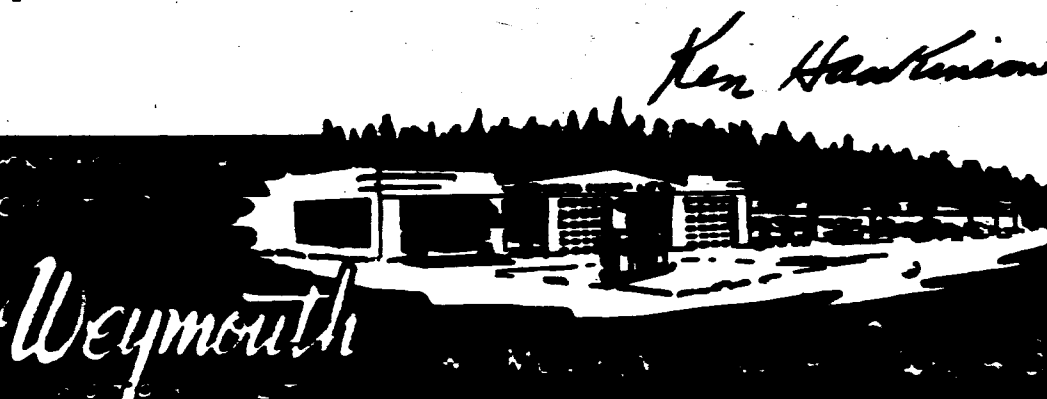

There must be a moral, or a lesson, in this story somewhere, but I'll pass it along as is just because it tickled my fancy.

It happened a few weeks ago in the town of New Milton, in England. A man named Charlie Chandler had an old car, badly in need of an overhaul. He decided to do it himself stripped the engine and the rear axle and did the needed repairs.

Then he and his wife set out for a spin. It was an English model, of course, and he put it in first, then second, third and fourth gears. All was fine... except that the car was going backwards. Then he put it in reverse... and it went forward. Instead of having four speeds ahead and one back, Charlie had four speeds back and one forward.

I think I know what make of car it was, from the mishap but it could only happen to a very old model. He had assembled the differential the wrong way round.

This won't happen, needless to say, with any of our cars. Before they go out on the lot our quality used cars are checked and examined and put through their paces. But, just to make sure your wife won't be able to say the car was in reverse when it shot forward through the garage, take the model of your choice out for a thorough-going test drive before you buy. Put your head under the hood if you want, and check the important little things, like the doors, windows and upholstery. But please... please don't tamper with the differential.

M. D. Jarrell, eminent Trichologist, demonstrates causes of baldness and how it can be prevented

How To Have Hair For A Lifetime To Be Demonstrated Here By Famous Trichologist Offers Written Guarantee

An exclusive interview by Ward Allen

LONDON, ONTARIO (Special) — M.D. Jarrell, Director of Jarrell Hair Experts of Canada exploded the "myth of baldness" today in an exclusive interview.

"Baldness is unnecessary, costly, and a plague to mankind," says Jarrell. "No man need be bald. No man need suffer the stigma of premature old age that is forced upon him because he is losing his hair. The Jarrell method of hair and scalp treatment can prevent baldness — can turn colorless fuzz into healthy, growing hair — can make you look youthful again."

Demonstration To Be Held
in Digby, Nova Scotia

This revolutionary method of home treatment for the hair and scalp will be demonstrated in Digby, N. S., Tuesday ONLY July 5th, at the Champlain Hotel. Trichologist H. L. Hendrickson will conduct the private, individual interviews from 12 noon until 9:00 P. M. on Tuesday ONLY. There is no cost or obligation, and you need no appointment.

Reason For Baldness

"There is always a reason for baldness," continued this nationally known authority. "Hair cannot grow through a scalp that is infected with dandruff, excessive oiliness, or extreme dryness. A scalp that has never been exercised cannot be expected to produce healthy hair." Men, and yes, women too, walk the streets today, completely devoid of nature's greatest ornament — hair. Simply because they were not taught the basic rules of hair and scalp hygiene while they were growing up. "The simple answer," emphasized this expert in that children should be taught the same simple basic rules of hair and scalp hygiene that they are taught for the proper care of their teeth. If this were the case, baldness would be a rarity today.

Heredity Not Involved

Trichologist Jarrell dodged no issues. He quickly took up the most widely spread theory of baldness — heredity. "Mankind's unrealistic belief that baldness is hereditary stems from a mis-

interpretation of the theory of genetics. Theory does not state that any person must be bald because baldness exists in the family. What it does say, is that in some families, a tendency exists towards an undernourished scalp." The purpose of Jarrell Hair and Scalp Experts is to teach the methods of strengthening the weak scalp and nourishing it to a healthy, vigorous condition. A healthy scalp will grow hair, if it is not already completely bald," assures Jarrell.

Is There Hope For The Completely Bald?

In his travels throughout the United States and Canada, Jarrell has collected hundreds of testimonies of his ability to develop weak fuzz into healthy, mature hair. All of his clients have started with a private examination, hair and scalp analysis, and a diagnosis of the disorder. Jarrell is quick however, to tell a hopeless case that he cannot be helped. "We strongly advise," says Jarrell, "that no person who is completely bald hold any hope whatsoever of regrowing hair. If there is any fuzz at all, we can restore a healthy scalp condition and the hair will grow normally again as nature intended."

Offers & Guarantee

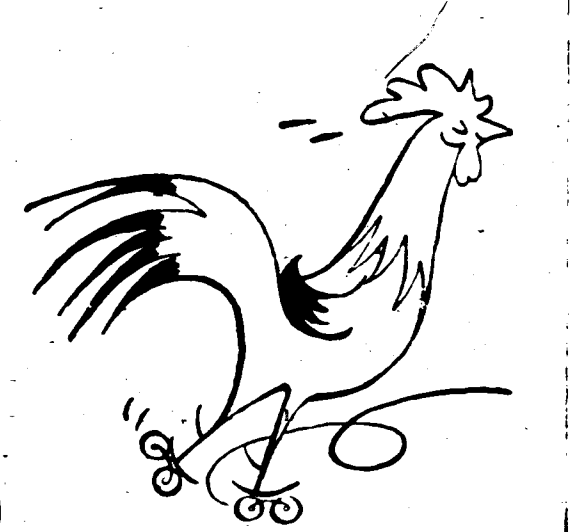

"Jarrell Hair Experts of Canada, offer a guarantee to any client who enrolls for treatment. If he or she is not completely delighted with results at the end of 30 days, the money invested will be graciously refunded," pledged Jarrell. "We must have satisfied clients. We must regrow hair. After all, it is our best advertisement."

Is Your Hair Healthy?

If you have a scalp disorder, or if you are worried about your hair, call Trichologist H. L. Hendrickson at the Champlain Hotel in Digby, Nova Scotia, Tuesday ONLY from 12 noon to 9:00 P. M. The public is invited. The examinations are private and open to men and women. You do not need an appointment, and you will not be embarrassed or obligated in any way.

COCCUS MOBILIS

We offer this as a Latin label for a brand-new type of barnyard fowl — a skating rooster. "Buster" is reported to be a nonchalant performer on a pair of 5-inch roller skates taped to his feet. Need we add that they're of featherweight aluminum.

No less impressive than this fowl's spirit of derring-do is the resourcefulness of the designers and engineers who dream up new uses for aluminum — from gadgets (see above) to furniture to minesweepers. It keeps Alcan's researchers busy, working with customer companies with new ideas on how to use aluminum to create lighter, more lasting products.

OBITUARY

Lawrence Nicholl

The many friends of Mr. and Mrs. Lawrence Otty Nicholl, of Allston, Mass., heard with regret of the passing of Mr. Nicholl on Thursday, June 16, in the Beth Israel Hospital of Boston, after a short illness following an emergency operation.

Mr. Nicholl was born in Bear River, N. S., on July 31, 1877, the son of the late Mr. Watson Nicholl and Mrs. Eliza Welsh Nicholl. For many years he was financial manager of the Deulin Bros. of Boston, a well-known leather firm, and later was financial secretary for Mr. Edward Madden of Newton and Boston, which position he resigned prior to his death.

The funeral services were held on Saturday, June 18, from the Short and Williamson Chapel on Brighton Avenue in Allston, conducted by the Rev. Mr. Irving, pastor of the Brighton Avenue Baptist Church.

Nicholl, of Arlington Heights, Mass., and two small grandchildren, Diane and Scott; two sisters, Miss Ethel B. Nicholl, of Allston, and Mrs. Edwin Jewett, of West Hartford, Conn. Another sister, Mrs. Leila Nicholl, died a number of years ago.
