Observe 57th Anniversary

On Wednesday afternoon and evening last Mrs. John Harris, Bear River, entertained at a family reunion, the guests of honor being her grandparents, Mr. and Mrs. Clarence Morgan, Bear River, who were celebrating their 57th wedding anniversary.

Other members of the family present were Mrs. William Hudson, Grand Bay, N. B.; Mrs. Dwight Morgan, Lansdowne; Mrs. Ron Killam and daughter, Paula, Yarmouth.

The bride and groom of 57 years were presented with a beautiful trillight and a three-tier wedding cake. In the evening hilarious games of parchesi were enjoyed.

Mrs. Fidelite Sproule, 102 Years, Passes

In the passing of Mrs. Fidelite Sproule on Friday evening, July 1st, Deep Brook and Clementsport lose one of their most highly esteemed residents and Annapolis County its oldest resident. Mrs. Sproule celebrated her 102nd birthday anniversary last December 2nd and would have been 102 years and 7 months on July 2nd. She had been in failing health the past few weeks and her son James and wife, of Bricon, Mass., arrived on Friday.

Mrs. Sproule was born at Inglisville, Anna Co., daughter of the late Amos and May Whitman. In 1873 she married Daniel Sproule, of Deep Brook, who predeceased her several years ago.

She is survived by a daughter, May (Mrs. Ross Bowly), of Daysland, Alberta; 2 sons, James, of Bricon, Mass., and Frank, with whom she made her home; 2 grandchildren, Grant Bowly, of Alberta, and Ethel, at home; also several nieces and nephews.

Two years ago Mrs. Sproule's daughter, son and grandson spent several weeks with their mother and celebrated her 100th birthday anniversary with her, making it a very happy family reunion. At this time and since, Mrs. Sproule received birthday telegrams from Her Majesty Queen Elizabeth and several government officials.

Funeral services were held from the Baptist Church, Clementsport (she was a charter member of Lawrencetown Baptist Church) on Sunday afternoon with Rev. Frank Smith officiating. He read the 23rd Psalm by request of the deceased.

Hymns "Under His Wings" and "Rock of Ages" were beautifully rendered by the choir. Underbearers were Messrs. Herbert Barteaux, Leslie Potter, Sable McInch and Walter Berry. Interment took place in Clementsport cemetery beside her husband. Many beautiful floral tributes gave testimony of sympathetic friends of the family.

Her presence will be missed by her many friends and neighbours who enjoyed calling and visiting with her, and especially by her son, Frank, his wife, and granddaughter Ethel, who all gave such faithful and untiring care to Mrs. Sproule.

ACADIANS CELEBRATE AT CHURCH POINT

A throng of Acadian people, estimated at more than 2,500, solemnly observed the 200th anniversary of their expulsion, focussed their attention on the campus of St. Anne's College Church Point, Sunday afternoon, when Msgr. Nils Theriault, Yarmouth, addressed a massive crowd on the spiritual and cultural heritage of this province's French-speaking people.

The sun stood high in the heavens as the Acadians of the Clare District heard themselves challenged to be worthy of their forefathers and to live as the sons and daughters of a proud race, bearers of noble religious and racial traditions.

The beauty and grandeur of the occasion found eloquent expression in the singing of Acadian hymns by four massed choirs. The big outdoor celebrations ended at about 6 o'clock with the Benediction of the Blessed Sacrament.

Before these culminating ceremonies, the celebrating throngs lined up along the roads connecting Meteghan, St. Bernard and Church Point, and all the way to New Edinburgh, to witness a two-mile long motor procession.

Valley Board To Canvass

At a meeting of the finance committee of the Annapolis Valley Affiliated Boards of Trade, held at the Hotel Champlain here last week, it was decided to make a canvass of industrial and business establishments in the valley area for funds needed by the Board to effectively carry out a proposed stepped-up program of work.

Ralph MacDonald, of Kentville, was chosen chairman of the committee, with Don Machum, of Wolfville, as Secretary. It was decided to zone the valley area for the purpose of the canvass and Ernest B. Tufts, of Digby, was named to head up the work in the Digby district. It was pointed out at the meeting, if the board is to carry on an effective program of work, funds are badly needed. At the present time, under a system of member board assessment, the A.V.A.B.T. has not sufficient to carry on necessary office business.

Among the projects which the A.V.A.B.T. plans to carry out this year is an all-out effort to attract industry to the valley. A strong committee has been appointed on this and will explore every avenue for industrial development.

Another project which will receive concerted attention from the Board this year is the development of the "Valley Route" for tourists visiting Nova Scotia via the Bar Harbour to Yarmouth ferry. An active Tourist Promotion committee has been appointed and work on this project is now well underway.

Mrs. Ralph Johnson and children spent a few days visiting at Victoria Beach.

Holds Annual Roll Call

The Annual Roll Call and Fellowship services of the Hill Grove United Baptist Church were held on Wednesday, with afternoon and evening meetings. The guest speaker at both services was R. J. Murray Armstrong, D.D., General Secretary of the United Baptist Convention, of Saint John, N. B., who gave two timely, helpful and eloquent sermons to record congregations.

The beautiful cut flowers which decorated the altar of the church were placed there in loving memory of Mrs. Frances Bacon, who passed away recently, by friends of the family, and the potted plants by Mr. and Mrs. Curtis Porter, in memory of their son, Gerald Porter, who lost his life when the steamer Novadoc was lost several years ago.

The afternoon service opened with the dedication of the new Hollman Electric Organ, which was recently installed, a gift to the church and congregation, presented by Mrs. Elizabeth Gorrie, of Short Hills, N. J., in memory of her mother, Mrs. Georgie (Bacon) Everett. After the dedication service and the sermon by Dr. Armstrong, the church roll of members was called by the Clerk, Lloyd B. MacNeill, and was responded to by a very large number of members in person, or by letter.

The offering for the day nearly reached \$350.00, the largest ever taken at a roll call, thank offering here.

The committee in charge of the arrangements wish to thank all those who helped in any way to make the occasion so enjoyable and successful, not forgetting the Wallis Print Ltd. for splendid cooperation in getting out the letters so promptly.

Explains How To Answer Survey Questions

Professor Bernard Hebert, one of the Cornell psychologists, explained this week some of the ways in which the current study of the interests, preferences, opinions and skills of community people is being done.

"It is very simple," he said. "We ask questions like, 'Which would you prefer to be, wages or other things being equal, a salesman or a school teacher?' or 'Here is a joke; do you think it is funny or dull?' He just fell on a banana skin — part of his work, he is a slipper salesman you know! Funny? Dull?" or "Listen to this short piece of music. Do you like it, are indifferent, or dislike it? Like? Indifferent? Dislike?" or "Let's make an ink blot with this pen and paper. Now what does that look like to you? What does it resemble?" or "Here are some patterns. Can you see which ones go together?"

"These are just examples and are not exactly the ones that are used in the survey but illustrate what we do. All so far who have done the survey have remarked how much they enjoyed doing it. Following are the names of some of those who have taken part so far. I am sure any of these will be glad to talk to an interested resident of Digby about the survey. We hope that everyone whose name comes up as a selected representative of the community will spare us the time to answer our questions."

Community Survey Participants: Mr. Jack Brittain; Rev. Mr. Brooks; Mrs. Harry Burnham; Mrs. Thomas Cleveland; Mr. Gerald Connelly; Mrs. Gerald Connelly; Miss Louise Daley; Mr. Roscoe Handsaker; Rev. Mr. MacLean; Mrs. Howard Patterson; Mr. Vincent Snow; Dr. E. J. Theriault; Mr. Ernest Tufts; Mrs. J. M. Wallis; Mrs. Ralph Wright; Mr. Victor Cardoza.

NEW INDUSTRY IS STARTED IN COUNTY

A new local industry has been started in Digby County by a man who first had the idea for the industry some ten years ago but put it aside for other ventures and only took it up again after viewing a television show in which the program portrayed the successful development of the industry in another area.

The new industry is chinchilla raising and the man who has pioneered in this county in this new endeavour is L. Gordon Landers at Smith's Cove. Another chinchilla breeder carries on at Deep Brook in the person of Frank Adams of that place, but so far as can be determined the only breeder in Digby County is Mr. Landers.

Starting a short time ago with only a pair of the little animals, Mr. Landers now has fifty-six. He says they are very easy to raise and it requires only an hour and a half each day to take care of the fifty-six he has. Cost of feeding the chinchilla is only three dollars a year for each animal so returns are high, and, because the reproduction rate is high, returns are also quick.

All of the chinchillas owned by Mr. Landers are pedigree stock, registered and properly recorded and as each new baby chinchilla, which is called a "kit" arrives, it too is registered.

Mr. Landers claims the chinchilla are the ideal fur animals for the man who cannot do heavy work or who has limited space in which to operate, to raise. They require only spare time care and can be kept in the home if necessary. In other parts of Canada, he says, chinchillas are being kept very profitably by farmers, housewives, doctors, clerks and in fact people in every walk of life.

While the initial investment for a pair of the little animals may seem somewhat high, Mr. Landers says that in a year and a half this can be not only realized, but doubled. As an example of the value of the pelts he quoted from the recent treaty sale of the 1955 collection of Canadian chinchilla pelts, held on June 3rd at the New York

Auction Company. The full lot of pelts was completely sold, nearly all of them, going to Europe, and the high price of \$135.00 per pelt was attained by one bundle of dark, large, select density skins. About fifteen hundred pelts were in the offering. The price this year showed an increase of nearly fifty per cent over the Canadian top price last year.

Prices received at the sale indicated the tremendous premium paid for clear colour pelts and the large difference in the value of select density and light furred skins. Mr. Landers pointed out it didn't cost any more to produce the pelt which sold for \$135 than those which sold for \$20; both registered a high profit and while many breeders would be satisfied with the margin of the latter, there seems to be little point in raising inferior stock when the profit margin in truly fine pelts is so remarkable. The income from one hundred of the highest quality pelts might net over \$12,000 while the lower quality would run barely into four figures.

One of the real surprises at this year's sale was the fact most of the pelts went to Europe. Breeders had their eyes on the great American market and tended to regard Europe as an unlikely prospect for the luxury fur trade. It is clear, however, that attitude is unjustified and both sides of the Atlantic provide ready markets for the chinchilla furs.

The chinchilla is one of the newest animals in Canada's fur industry and breeders are very much upset when the uniformity of these little animals as rabbits. They point out that about 900 A.D. the hardy chinchilla of the Andes was first discovered by a tribe of Indians called Chinchas. These Indians found the inviting warmth and durability of the fur to be the answer to the rigors of their cold mountain climate. This was no doubt the first appearance of chinchilla coats on record.

Red Cross Holds Business Meeting

The Digby Red Cross Branch closed last week for the summer holiday with a business session at which plans were formulated for holding a summer tea. A committee for this purpose was formed from the Ways and Means and Women's Work members, and also to include two members of the Digby Art Group, in order to co-ordinate the tea with an exhibition of local paintings. Tentative plans were made to hold the Exhibition and Tea the first week in August.

The necessity of raising funds for the Branch was emphasized by the Treasurer's report, presented by Mrs. B. H. Ruggles, showing a very small balance after payment of nearly \$100 for a new gatch bed and a donation of \$50 to the Kiwanis Club toward the swimming instructors' salary for this season. A donation of \$20 was greatly appreciated for the use of a gatch bed which had recently been returned.

Dr. T. W. Hodgson, President of the Branch, reported the recent delivery of a special paraplegic wheelchair, costing \$187 for the use of a local man. This was made possible jointly by the Nova Scotia Division of Red Cross and the Catholic Women's League of St. Patrick's Church, the cost being shared equally. It was also reported that one of the Branch wheelchairs had been returned and had immediately gone out on loan to a case in Bear River. Several inquiries had also been received for gatch beds.

Mrs. H. M. Warne reported for the Women's Work committee that a shipment of over 100 articles of finished work was ready to be forwarded to Halifax headquarters. Sewing and knitting was gratefully acknowledged from the Smith's Cove Women's Institute, which had expressed its willingness to take more material in the fall.

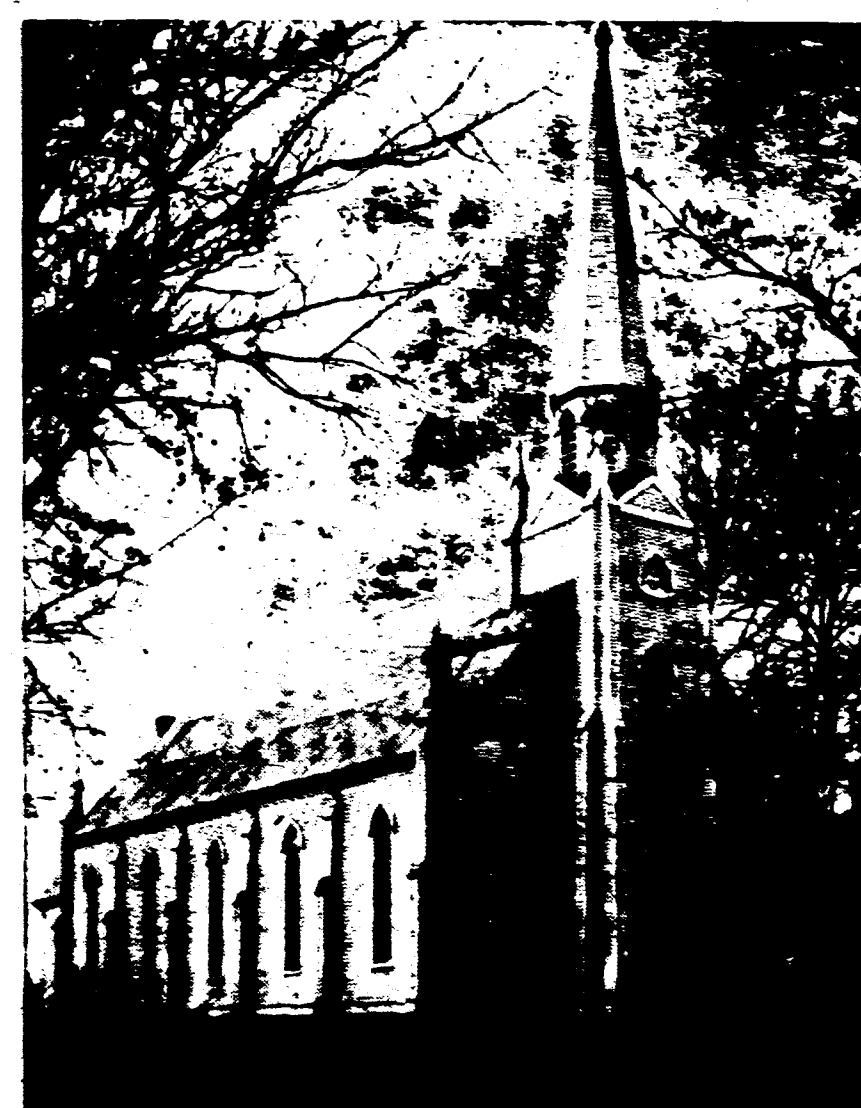

The meeting closed with a discussion of the possibility of extending Red Cross to other communities in the county, in order to spread its various benefits, such as the Sickroom Loan service, over a wider area.

Hear Petition On Dump Removal

The Town Council in regular meeting here Monday night received a petition signed by fifty-nine citizens of the south end of the town asking for removal of the town dump.

After considerable discussion on the matter the Council decided to take action to seek another site for the dump or to develop a plan whereby garbage may be disposed of within the town without creating a situation such as now complained about concerning the present dump site.

Permission was granted at the meeting to the Imperial Oil Ltd. to carry out major renovations at their bulk storage plant here. Permission was also granted R. B. Baxter to construct a garage on his property on King Street.

A resolution from the Amherst Town Council, calling for the province to adopt a standard set of by laws for an incorporated town, was endorsed by the meeting.

The Council also decided to authorize a survey of the unopened portion of Third Avenue between Warwick and St. Mary's Streets and to have this opened.

Town Clerk E. S. Eaton reported that, as of June 30th, 71.4% of the year's taxes had been collected. He also reported that warrants had been issued in several cases for collection of tax arrears and that the necessary documents were being prepared for tax sales in the case of several other properties.

The Hospital Ladies' Aid was given permission to hold a Penny Parade on July 16th. Permission was also given St. Patrick's Parish to hold their annual fair on July 30th and to the Walter Callow Fund to hold a Tag Day on August 20th. The Council also approved an agreement with the South End Sewer Company to take over the facilities and holdings of the company.

Mayor Guy E. Morehouse reported he had contacted the merchants of the town with respect to the proposed "Digby Day" celebration on July 20th. He stated the merchants had agreed to keep their stores open on that day until one o'clock with each of them offering a "Digby Day" special. Each merchant, he reported, would make a cash contribution to the Forum fund for which the day is being sponsored.

About This and That

Research On Human Nature

The most complicated of machines have been broken down into the most intricate parts for analysis, but not so with the human mind. Research has brought to light many facts concerning geographic, physical, chemical, medical and other branches of knowledge, but the ways of man for the most part still remain an unsolved mystery. Some research and study of the human mind, human behaviour and interests has already been done, 'tis true. What has been done has proven to be beneficial both socially and industrially to such an extent that the study of human persons today has become not only a fascinating subject but a necessity in our modern life.

The Cornell group in Digby is undertaking in the near future, under the direction of Professor W. H. D. Vernon, a study of human nature as noted by last week's Courier. It is to be a study of interests, preferences, opinions and skills of the people. Such researches have been made, we understand, among service personnel, university students, in institutions and among people working in particular lines of work, but never before has a research of this type been conducted with a general representation of a community as is planned for Digby this summer. The research, if successful, will possibly be of great benefit to mankind in the future and make Digby famous as the first place where such a research was carried out.

We feel confident that the people of Digby and vicinity will give full cooperation and assistance to Professor Vernon and his assistants, Dr. Marion Grant and Mr. Norman Chance, in their project. As stated by Professor Vernon, "No one is being graded or judged." "We are interested only in human nature in general and not in individuals as such," he said. We know what Professor Vernon says is true for the editor and some members of the Courier staff were among the 40 who have already answered the questions about occupations, government, science, religion, people, etc. We have read the jokes, listened to the music, worked with the pictures, diagrams and cartoons and have tried our skill with the puzzles and quizzes. We hope those who are invited to help with the project will find it an interesting and enjoyable experience. We did. You have nothing to lose by cooperating and the future of humanity, possibly, has much to gain.

pleasure and that of others. It only requires a little thoughtfulness on the part of all.

Surely it is not too much for anyone to leave such places as neat as we can. No one can really enjoy one's self in the midst of old paper, broken bottles, and assorted litter. Trash containers are often supplied and are meant to be used. Rubbish that cannot be burned or buried, can be carried away for disposal. Especially at beaches broken glass is a menace to bathers and it is difficult to understand the mentality of those people who deliberately leave it there. They deserve severe punishment.

Let us one and all make a fresh resolution that we, at least, will not in any way mar the beauty of our lovely province. — Soroptimist Club of Halifax.

HERE IT IS!

The Furnace that removes its own ashes!

Now you can enjoy the financial advantage of heating with coal and be completely free of the chore of shovelling coal and carrying ashes.

Following intensive research by Bituminous Coal

Research, Inc., Dosco engineers have perfected a radically-different type of domestic furnace which makes heating safer, cleaner, cheaper, than ever before. It is unsurpassed for comfort and convenience and actually pays for itself in fuel savings.

Check these features!

NO ASHES TO CARRY—Ashes are automatically carried by vacuum to a canister inside or outside the house.

ABSOLUTELY CLEAN—It is impossible for ash or dust to enter the furnace room.

ECONOMICAL—Cuts at least 20 per cent from the cost of operating a hand-fired furnace, with relatively higher savings over other types of heating systems.

SAFEST YET—Automatic feeding assures a steady heat and only a small amount of coal is in the furnace at any time.

FULLY AUTOMATIC—Feeds itself and rejects the ashes without any demand on you. Thermostatically controlled.

The New Dosco Furnace will be demonstrated in your district soon — be sure to see it

Purchase and installation of Dosco's new furnace can be financed through a Home Improvement Loan available under the National Housing Act. See your Bank.

PAYS FOR ITSELF AS YOU USE IT!

Some farmers in the picturesque, low-lying Suffolk Broads district of England bring in the hay by water. So it was logical for a British boat builder to use light-weight aluminum to produce a 650-pound punt capable of carrying a load of hay more than six times its own weight.

In Canada aluminum is better known among farmers as a non-rusting, heat-reflecting, easily handled material for barns and roofs and silos... though of course it has many other farm uses, from milk cans to windmill blades. No hay-boats, though.

Backache?

You may be doing strenuous work using certain muscles for the first time in many a day and what you need is some common-sense advice.

Tonight get a bottle of MOORE'S EMERALD OIL at the drug store. At bedtime apply a good hot towel for about one minute. Dry thoroughly and apply a little of the Oil rubbing well in. Cover up and go to sleep. In the morning, you'll be surprised and delighted at the blessed relief you get—back on the job—smiling—happy and more comfortable.

Thousands of bottles are sold each year for tired, aching feet and legs. Why continue to suffer when you can get MOORE'S EMERALD OIL at all drug stores.

Canning Gives You Summer Flavor

All thro' the long winter months and when properly done makes every meal tastier and more enjoyable and then there is the saving of food where more is grown than for immediate use. Where meat and fish are concerned there will be a saving if bought in larger quantities and stored away in cans for the future.

OUR IVES-WAY AUTOMATIC SEALER
does a perfect job without any guesswork, simply set the can in the machine and when the right number of turns is made the can comes out as well sealed as from the factory. Only the IVES-WAY will do this. The IVES-WAY also cuts off and refflages.

OUR NO. 2 & 2 1/2 CANS
are made of heavy gauge lined material and seal perfectly without waste that might come from the use of lighter gauge stock.

July 10: Bicentenary program at West Pubnico.

July 17-24: Grand Bicentennial Memorial Festival, Yarmouth. Drama, music, coronation of a queen, parade, banquet, pageant.

Dominion Day Celebrations

An estimated turnout of 5,000 attended the Weymouth Day Celebrations which are held annually on Dominion Day. The day was hot, one of the warmest of the season, but it in no way dampened the enthusiasm of the crowd which lined the main street and by ways of the village when at 10 a.m. the parade of floats led by the Cornwallis Naval Band, and with the Air Force Band from Greenwood in attendance, marched through the town and on to the Athletic Field where the sports events were to take place. Both bands made a smart appearance, adding greatly to the parade. All floats were effectively decorated and judging was difficult. Judges were Mrs. S. D. MacKenzie, Montreal; Miss M. Graydon, Montreal, and New York, and Miss Margaret Ruth, Yorkford, Montreal. Previous to the parade the Greenwood band gave a short concert on the lawn of the Goodwin Hotel.

The following are prize winning floats:

Commercial
1st prize, Weymouth Industries.

2nd prize, Pepsi Cola.

3rd prize, Double Cola.

Non Commercial
1st prize, Davy Crockett (The Steadman Store).

2nd prize, Evangeline Float (Weymouth).

Decorated Bicycles
1st prize, Judy Melanson.

2nd prize, Archie LeBlanc.

Doll Carriages

A band concert by the Cornwallis Band opened the afternoon's proceedings. Dinners were served all day on the field and a Midway was in play. During the afternoon a horse pulling contest resulted as follows:
Double Team
1st prize, Wm. Dugas, Belliveau's Cove. Weight of team, 1510 and 1550, hauled 5950.
2nd prize, Wm. Dondale, Wt. of team, 1340 and 1220, hauled 4100.

Single Team
1st prize, Wm. Dugas, Wt. 1510, hauled 3300.

2nd prize, Adolphe Amaro, Wt. 1500, hauled 3200.

3rd prize, Hugh Amaro, Aca-ciaville, Wt. 1465, hauled 2800.

Daddy Brittain hauled 1750 single horse.

Two ball games between Weymouth and Meteghan resulted in a score of one game in favor of each team. A variety show followed by movies was held in the Scout Hall. A dance with music furnished by the Cornwallis Orchestra was held in the Legion Hall in the evening with an attendance of more than 200 persons. The Weymouth Day Queen and Princesses were guests of the Legion at this dance. A display of fireworks at 10 p.m. brought the days events on the field to a close. This was the largest and best attended of the Dominion Day celebrations yet held.

I come to the garden alone. While the dew is still on the roses. And the voice I hear, falling on my ear, The Son of God discloses.

And He walks with me, and He talks with me, And He tells me I am His own; And the joy we share as we tarry there, None other has ever known.

Calm and peaceful he is sleeping. Sweetest rest that follows pain. We who loved him sadly miss him. But trust in God to meet again. Lovingly remembered by his mother and his sister, Catherine.

CARS ARE MY LINE

by Ken Hankinson

There's many a nippy morning any time of year when it's comfortable to have the heater on in the car. The heater, I imagine, the most comfort-giving accessory they've ever designed for cars. And the improvements over the years have made the front seat as comfortable as the front room. (Remember the old hot water heaters that looked like a radiator big enough to heat a house?).

But sometimes a heater can be dangerous, through no fault of the heater itself.

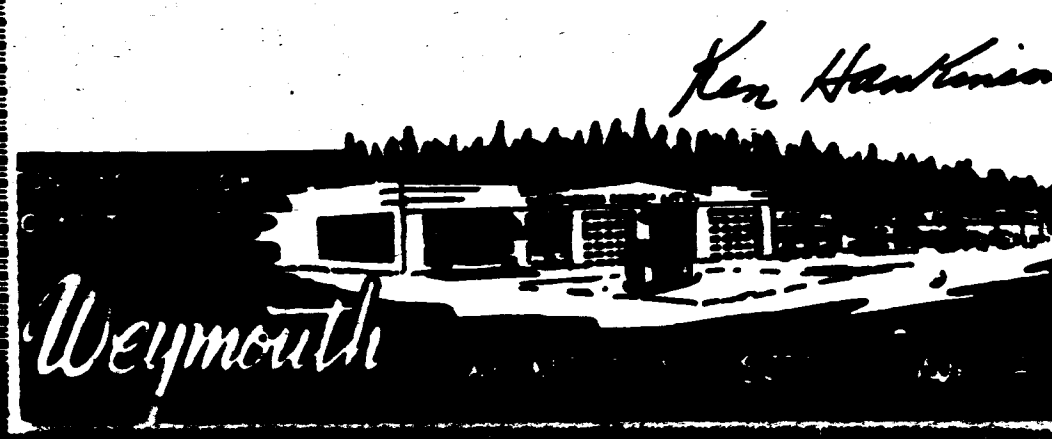

Always turn the heater off when travelling in heavy traffic. While traffic is standing still, carbon monoxide—which is invisible, odorless and mighty lethal—can enter the car through heater and air conditioning intakes from the exhaust of the cars ahead. When a car is idling, fumes can sometimes enter from your own car.

A good rule is to keep one window of the car slightly open. Sometimes you can smell gasoline, which gives a warning, but carbon monoxide itself gives no warning.

People, I've found, learn these rules of safe driving pretty fast. You almost never hear these days of a man starting his car in a closed garage. It used to be a common accident.

Most of the cars on our lot have heaters already installed to give even more pleasure to one of the greatest pleasures of life: owning your own car. It's one of the extras that add to the joy, but not the expense, of buying your car at our place.

Many of our cars have radios, too, which is something we'll talk about next week.

ALDERCLIFF CAMP OPENS FOR SUMMER

Mr. and Mrs. Roy S. Claycomb, of East Orange, N. J., and Mr. and Mrs. Carl A. Hansen, of Westhampton Beach, N. Y., together with a staff of nine counsellors and fifty-seven boys have opened Camp Aldercliff for the months of July and August, as they have for many years now.
Camp Aldercliff is situated on the banks of the Sissiboo River in Weymouth North and has become so popular in Nova Scotia that today out of a list of 62 boys who will attend this year's camp, 14 are from Nova Scotia, 11 from New Brunswick, 2 from Newfoundland and one from Montreal, the others coming from various parts of Massachusetts, New Jersey and New York.
Besides the camp at Weymouth North there is another named Camp Sullivan where the boys spend part of their vacation. Aldercliff has been organized and running for more than 50 years. Camp nurse is Miss Barbara Hansen, R.N.
We are pleased and proud to welcome Mr. Claycomb, his staff and boys to our village for another summer.

Weekend guests of Mrs. William Lent, Weymouth North, were her sister, Mrs. W. L. Anderson, of Bridgewater, Mr. and Mrs. G. M. Anderson, and Mrs. Robert Nason and son, Robert, of Halifax.

This Week's Shows

Thundering with the fury of frontier adventure, it's "Gun Fury" heading the Friday and Saturday attractions. Filmed in Technicolor and starring Rock Hudson, "Gun Fury" brings you everything its title may suggest.
"Dial M For Murder", the movie acclaimed as the best suspense-murder drama of the year plays Monday and Tuesday. Starring Ray Milland and Grace Kelly with color by Warnercolor, it's tops in suspense and hair raising moments.
It's nautical, it's nice and it's you know what... when sailors are set loose in a harem. Beyond that we cannot describe Wednesday's and Thursday's attraction, "You Know What Sailors Are".

succeeded in trapping 11 chinchillas and these were taken alive to California. From such a small beginning, and one that probably saved the animals from total extinction, the modern chinchilla industry had its beginning.
In 1937, an enterprising Canadian brought a few chinchillas to Alberta. The animals were an outstanding success from the start. Within a few years chinchilla ranches spread from coast to coast and a new Canadian fur industry was born. There were soon enough chinchilla ranches in Canada to warrant the forming of an association to serve the needs of this rapidly expanding industry. Consequently, in 1947 the National Chinchilla Breeders of Canada was brought into being under a charter granted by the Department of Agriculture.

A visit to Mr. Lander's farm at Smith's Cove will prove to the most confirmed doubter that the chinchilla is indeed a lovely little animal. Their fur is so soft and thick it is almost too soft for the human hand to feel at first touch. The animals are very friendly and can be handled even by children. They respond quickly to attention and would make real pets.
The fur of the chinchilla, beside being very soft, is also luxuriously thick and of a beautiful colour. Next to the skin of the animal is a band of deep slate blue, followed by a range of tones from blue-grey to snowy white. The fur is extremely light in weight with the pelt of even a large chinchilla seldom exceeding an ounce.
A nocturnal animal, the chinchilla sleeps in the day and plays at night. In their playtime they are very active and run and jump about their cages with real enjoyment. The male and female live together amicably and share equally the responsibilities of the family. Even when frightened the female will not destroy her young, as is sometimes the case with other fur bearing animals.
Mr. Landers says they are most easy to raise and weather poses no problem. They need little room and have no unpleasant habits or give off no unpleasant odours. The young are born with their eyes open, a full set of teeth and a complete coat of fur. Within a few hours after birth they scamper around the pens, looking like miniature replicas of their parents. The babies of "kits" weigh about 1 1/4 ounces at birth and are fully matured at the age of one year. They have been known to produce until more than 12 year old and to live beyond fifteen.

Former Digby Rector Passes

Many friends in the Diocese of Nova Scotia and in New Brunswick will regret the death last Thursday morning at Windsor, of Rev. Frank Barrows Gaskill, following an illness of several weeks.

Mr. Gaskill was born on Grand Manan Island, N. B., Oct. 28th, 1885 and was in his 70th year. He was the son of the late Captain Ebenezer and Sarah (Blake) Gaskill and received his early education at Rotherham Boys' School. He graduated from King's College, Windsor, in 1910, ordained deacon the same year and priested the following year. His first parish was at Petite Riviere, Lunenburg County. He served also at Shelburne before going to the United States where he spent 15 years as rector at Seranton, Penn., and Plainfield, N. J.

Returning to Nova Scotia he spent two years at Granville Ferry, later serving at Digby for 11 years. Because of failing health he went to Conquerall Bank for a short time before ill health forced his retirement and, with his wife he went to the Masonic home in 1951.

He is survived by his wife, the former Roberta Sweeney, Yarmouth. An only son died in infancy. Mr. Gaskill was the last of his family.

The funeral was held from Christ Church, Windsor, at 11 o'clock Saturday morning. In the absence of the rector Rev. W. R. Martell, Wolfville, officiated assisted by brother clergy in the diocese, interment was at Maplewood cemetery.

Noted Historian

Visits Digby

Professor Mason Wade, noted author on Canadian history and former Cultural Attache at the United States Embassy in Ottawa, has been visiting in the Digby area for the past several days.

Professor Wade, who is now Professor of History at the University of Rochester, in Rochester, N. Y., has been conferring with members of the Cornell University Research Program here while in Digby. It is understood he is making plans for the writing of a book on certain phases of the history of the Atlantic Provinces.

Perhaps best known for his work on the life of Frances Parkman, Professor Wade is also the author of an historical work on the "French Canadians."

While in the Digby area Prof. Wade has been a guest at the Hedley House in Smith's Cove. He was also entertained by Dr. A. H. Leighton, head of the Cornell Research Program here.

CRAFTSMEN TO MEET AT CORNWALLIS

The tenth annual "Craftsmen-at-Work" exhibition will be held this year at HMCS Cornwallis, Cornwallis, July 25-29 inclusive. It was announced recently by Hon. W. T. Dauphinee, Minister of Trade and Industry.

By popular request some of the outstanding features of the handicrafts exhibition of last year, held at St. Francis Xavier University, Antigonish, will again be presented this year. Included are the children's Christmas scene which will suggest many items which may be ordered for later gift giving; the Nova Scotia tartan scene, with varied articles displaying the new, authentic and popular Nova Scotia tartan; and the Nova Scotia Mural. The mural, a focal point of attention wherever it has been shown was designed and executed by Nova Scotia craftsmen. It depicts the history of sheep in Nova Scotia and has been shown in various centres of Canada. It was during the designing and making of this large mural that the Nova Scotia Tartan came into being.

Many historic design quilts made by provincial Women's Institute groups will be on display, including an Acadian-themed quilt executed by the Port Williams group. It depicts the hero and heroine of Longfellow's poem "Evangeline," Gabriel and Evangeline, against a background of wedgewood blue. In the corners are apple blossoms, fleur-de-lis and mayflowers.

A Pubnico quilt, with applique designs of both early and modern scenes, and a Kempton quilt featuring a replica of the Church of St. Charles in the Memorial Park, Grand Pre, will also be shown.

New this year are six large embroidered pictures depicting industries of Nova Scotia — coal mining, lumbering, fishing, farming, the apple industry and steel mills.

Home & School Elects Officers

The Smith's Cove Home and School Association, at its last regular meeting for the year, met at the home of Mr. and Mrs. Gerald Young.

The following slate of officers were elected by nomination: Past President, Beth Bailey. President, Mrs. Arthur Berry. Vice-President, Mrs. Ernest Sealey.

Secretary, Mrs. Victor Jeffrey. Treasurer, Mrs. Eric Kinsman.

Program Convener, Mrs. Chesley Robbins. Membership Convener, Mrs. Arthur Berry. Social Convener, Mrs. Ira Davis.

Financial Convener, Mrs. Tom Davis. The Treasurer reported a good financial year for the Association. \$379.00 was taken in through films, pantry sales and a rummage sale. On the bank deposit \$135.70 to begin the painting of the interior of the two classrooms.

Parish Bazaar Meeting

An enthusiastic meeting of the men of St. Joseph's Parish, Weymouth, was held Tuesday evening, presided over by the Parish Priest, Father A. Delbe Comeau, for the purpose of organizing the Parish Bazaar, to be held on Tuesday, Wednesday and Thursday of the last week of July.

Denis V. Theriault, of Theriault's Garage, was named general chairman and "king" of the Bazaar, with Leger Comeau, Harold Amiraault and Camille Comeau the other members of his committee.

The Secretary-Treasurer is J. Dixon Rice. The canteen will be operated by Arthur Jones and his staff and the Bingo game will be looked after by Urbain Doucet and his men.

Ernest Walsh, Fred O'Brien, Leger Comeau, Albert Comeau and H. Pothier will look after the games and other duties. The grounds superintendent is Philip Deveau and Felix LeBlanc will be supervising the details in connection with the supper served by the ladies of the parish.

Attend Digby Day July 20.

Also featured will be an all-work mural of the "Order of Good Cheer", the design taken from a painting by Jeffreys.

Handwrought silver jewellery bearing Nova Scotia designs and hand-turned salad bowls, plates and other items of Nova Scotia woods turned out by skilled craftsmen will be on show.

Many new samples of tweeds, fine dress goods, drapery, upholstery materials, stoles and many other Nova Scotia woven articles will be featured. Nova Scotia prize winners at the recent London, Ont., all-Canada weaving exhibition will have their prize taking articles on exhibit.

A one-room apartment using Nova Scotia fabrics, all hand-woven, will suggest many ways in which Nova Scotia handicrafts may be used in room decorating. Rugs, upholstery, drapes, pillows and other furnishings will be displayed, and can be made to special order for any visitor to the handicrafts show.

In addition to the exhibits there will be demonstrations of pottery throwing and modelling, the making of silver jewellery with a display of Nova Scotia semi-precious stones, vegetable dyeing, weaving, spinning and rug hooking.

Mary E. Black, Director of the Nova Scotia Handicrafts Division of the Department of Trade and Industry and assistants will be in attendance at the show.

The "Craftsmen-at-Work" exhibition will open at 2 p.m. Monday, July 25 and continue daily through July 29 with admission free. Formal opening will be at 8 p.m. on the opening day, Monday, Wednesday night, July 27, through the kindness of the Captain M. G. Was Guest Speaker

Rev. Dr. W. R. Seeley, pastor of the United Church, Bridgetown, was guest preacher on Sunday at the Grace United Church which celebrated its 94th anniversary.

In the evening Dr. Seeley chose for his discourse the words from Paul's epistle to the Corinthians, "And they glorified God in me", in which he said that God's character has never changed but that the people have changed his reputation with passing years by their indifference and selfish ways. He said it is the task of the church and man to restore the reputation of God as one of reconstruction, transformation and restoration of the lives of men.

In the morning Dr. Seeley brought greetings from the Annapolis Presbytery, of which Rev. James Brooks, pastor of Grace United, is chairman. His sermon in the morning dealt with religion as an appeal and development both in a personal and in a public and social nature.

Guest soloist at the morning service was Miss Joan Davies, Bridgetown, now on the Digby Pines staff, who sang very pleasingly "The Lord's Prayer". The choir rendered "Softly Now The Light Of Day", with Mrs. J. M. Wallis and Mrs. Elton Arnold taking solo parts.

In the evening the choir sang "His Footsteps".

"Digby Day" Program Planned

Plans for the Digby Day program, scheduled for next Wednesday, are well underway. It was learned here this week.

According to present plans, the parade which will start the day's activities, will get underway at two o'clock. Following the parade at approximately three thirty the midway will open in the Forum with games and entertainment for all.

At five o'clock until seven supper will be served in the Forum sponsored by the Legion. At six thirty the Digby Ravens will meet the Bear River Blue Sox in a regular valley league scheduled game at the ball park.

The midway will remain in operation until about eleven thirty at night when the Fire Department, which is also in charge of the parade, will present a spectacular program of fireworks at the bandstand to bring the day to a close.

Westcott suffered only relatively minor injuries to face and legs, while Weeks was badly injured about the chest and suffered a possible concussion. The car was completely demolished by the crash.

A native of Freeport, he was well known throughout all the coastal area of this section of Nova Scotia and New Brunswick, having sailed from many of the ports of the area.

Complete School Project

The Grade III pupils of the Digby Neck Study Club Area, and their teachers, met at the Centreville School on Friday, June 24, to complete a project which they have been doing throughout the year. Each school worked on a different portion, so that, when put together, the completed book covered the whole Grade III Social Studies Course. This book will be put on display during the summer. When school opens in September, it will be returned, so that the schools in this area will have the use of it during the coming year.

On arriving at Centreville School, each pupil introduced himself (or herself), telling his name and the name of the school he attends. Each pupil had a share in completing the book.

When play time came, everyone proceeded to the school yard, where several games and relay races were enjoyed.

Bass Fishermen Successful

Legal and visiting sport fishermen report good catches of bass on the Bear River. Recent reports indicate the fighting game fish are fairly plentiful and several catches of good size have been noted.

It is understood fisheries department regulations classify the bass as a sporting or game fish with the result that non-resident anglers are required to have a permit to fish for the striped fighters.

Recent reports from the Weymouth area indicate black bass may be caught in the upper waters of the Weymouth River. So far the Courier has not received definite word of any catch that has been made but a veteran sport fisherman stated last week there are indications the black bass does frequent the waters of this river.

The Courier learned yesterday that Bill Morine, of Bear River, and party, were successful in landing thirty-three striped bass, caught in the Bear River Sunday.

Two Children Injured In Accidents

Two-year-old Donna Fox, who, with her parents and other members of the family reside in the cottage owned by Mr. and Mrs. Odier C. Ellis, Granville Ferry, had the misfortune to fall from the door of her father's car on Saturday evening while the family were driving near Wood's store in the village. The children were riding in the back seat of the car and it is thought the little girl opened the door while the car was in motion and tumbled out in the highway. The little tot was rushed to Annapolis Royal for medical treatment by her badly scared parents, but the doctor found she was only suffering from some nasty scratches and shock.

A similar accident occurred the following day about 2 miles west of Granville Ferry when a little boy opened a car door while travelling at a moderate speed. He suffered more serious injuries and was taken to the Annapolis General Hospital where he was a patient for several days suffering from severe injuries to his head.

Second Barn Burned In Two Years

A fire on Wednesday afternoon, July 6, believed to have been caused by a spark from the exhaust pipe of his truck, completely destroyed the new barn built two years ago on the property of Harold Height, of North Range.

Mr. Height had just unloaded his first load of hay of the season and had returned to the field when his son, Allan, noticed smoke. By the time they reached the barn and before aid could be summoned the whole building was filled with dense smoke making it impossible to save the valuable horse, two calves and several pigs. In minutes the structure burst into flames.

A bucket brigade formed by neighbors and friends from distant communities, assisted by a forestry pumper, fought unyieldingly to save the garage which was in flames but fifteen feet from the barn. A flaming pile of dry wood added to the threat. After a valiant struggle the fire was brought under control. Contents of the house had been removed but fortunately it escaped. There was no insurance.

The first barn and slaughterhouse were destroyed April 25, 1953.

Ravens To Meet Bear River

The Digby Ravens will be out in force to avenge their defeats at the hands of the Bear River Blue Sox when they meet the Bear River squad here in a regular valley league fixture on Friday evening. Game time is scheduled for 6:30.

With only the two games on Friday and Wednesday against Bear River and one against Annapolis left in the regular league schedule, it is expected the playoffs will get underway shortly.

The Ravens, it is understood, will enter a float in the "Digby Day" parade featuring the team in uniform, together with baseball equipment. The team executive urge public support for the Ravens through attendance at games so that the team may be assured they have the interest and backing of the community which they represent.

The slick surface of wet asphalt roadways has sent many a motorist limping to the garage with flattened fenders and shattered headlamps. But now research engineers have come up with something that sharply reduces this accident hazard. When their special aluminum oxide abrasive is applied to the road surface, it cuts down by more than 30% the stopping distance of your car when you apply the brakes at 30 m.p.h.

...So in addition to saving weight and work in a thousand everyday and special applications, aluminum may prove a major factor in saving lives, too.

NOVA SCOTIA COAL — THE THRIFTY FUEL

The Dosco Miner

Use NOVA SCOTIA COAL

In all the years Nova Scotians have been mining coal only 19.6% per cent of the known supply has been used. There is coal available for many years to come. This unlimited supply, plus efficient, modern methods of production are two of the reasons why heating with coal is easier on your pocketbook.

For example, there is the "Dosco Miner". Designed, engineered, and built by our own

staffs, the "Dosco Miner" can extract and deliver to the loading conveyor one and one-half tons of coal in 13 seconds. No explosives are required thus making this form of coal mining safer and more efficient.

The "Dosco Miner" is only one of many new modern methods now being applied to coal mining. The benefits are passed along to you in the form of lower fuel costs and higher fuel efficiency.

by Ken Hankinson

When qu'z shows were the big rage on the radio, one of the best was Information Please. It set the pattern for a lot of the "panel" programs that came along later. I'm not sure whether it's still on the air or not, but when I used to listen to it they had four of the brainiest people in the States on the show every week to answer the most difficult questions people could send in.

I remember there was an automobile accident once that was blamed on Information Please.

It was a minor accident, a man went through a red light and struck another car. When it got to court, he explained it this way:

"Your Honor, I was listening to Information Please on the car radio and after a lot of difficult questions they asked the four experts to suddenly close their eyes and tell what color of necktie they were wearing."

"Franklin P. Adams and John Kiernan and the others closed their eyes and they couldn't remember what tie they had on."

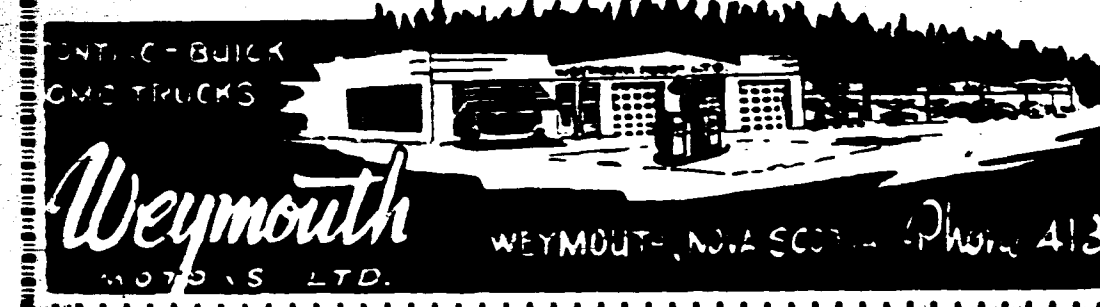

I was playing along with them trying to answer the questions and I closed my eyes just as I got to the corner. And, you know, I didn't know what tie I was wearing, either."

He lost the court case, too.

Radios, I guess, can be a distraction when you're driving, some people refuse to have them on. I like the radio on for long drives, I think it helps keep you alert. I'm not one to close my eyes as I reach an intersection, anyway.

When you're shopping for a used car, the fact that some cars are already equipped with radio can be a big consideration. When you're looking them over at our place, take the car of your choice out for a test drive first, and try the radio, too.

NEW FULLY AUTOMATIC FURNACE Actually pays for itself

The most modern development in domestic heating will be demonstrated in this area soon. You will want to see it.

Perfected by Nova Scotia engineers, this is the furnace which is making news in the heating world. In gleaming white enamel, it is only 40 inches long, 30 inches wide and 48 inches high. It costs little to buy and install and this cost is quickly returned in fuel savings.

Watch for the demonstration of this radically different home furnace.

Purchase and installation of Dosco's new furnace can be financed through a Home Improvement Loan available under the National Housing Act. See your Bank.

Constable G. Donald Humphrey of the R.C.M.P., son of Fire Chief and Mrs. George Humphrey of Digby, who is stationed with the R.C.M.P. in Swift Current, Saskatchewan, recently took part in a display of handicrafts held in that place.

Donald, who learned the art of silver jewelry making here in Digby, has been pursuing his hobby while with the police force and is also acting as instructor for a group in Swift Current in handwrought silver jewelry making.

Among the group who showed pieces in the exhibit were Mrs. C. R. Peters, Mrs. S. Mahbs, Mrs. H. Pederson and Mrs. W. A. Burton, all pupils of Const. Humphrey who also exhibited a number of pieces of beautifully designed and executed sterling silver.

Weymouth Downs Ravens 8-6

The Weymouth Monarchs downed the Digby Ravens 8-6 at Digby on Thursday.

The Monarchs collected five hits off Moulaison, including a homer by Smith and doubles by Comeau and Mullen. Smith also had a single in three times at bat.

Mac Mullen allowed 4 hits and walked nine to get the win. Paul Comeau turned in a sparkling relief performance in the last inning when, after Mullen had passed Hazelton, he came on and struck out Handsaker and McCleave, and got Barnes on a ground ball. Moulaison was the losing pitcher.

Pastor Inducted

An impressive service of induction and institution was held at Sandy Cove July 18, in Zion United Church, when Rev. William Armitage, formerly of England, was inducted as minister of the Weymouth-Digby Neck Pastoral Charge.

Rev. James Brooks, Digby, presided and Rev. R. F. Humby, Bear River, preached the sermon. Mrs. Hugh Morehouse presided at the organ and the choir sang a special number.

Rev. James Brooks escorted the newly inducted minister to the pulpit where he pronounced the benediction.

Mr. Armitage was ordained at the Maritime Conference this June. He was formerly minister at Kennebec, Hants Co.

Following the induction service a reception was held at the home of Mr. and Mrs. Hugh Morehouse where a friendly get-together was enjoyed by all.

Presbytery Meets At Granville

A meeting of the Annapolis Presbytery was held in the United Church of Canada, Granville Ferry, on Thursday afternoon, July 7th, at 3 p.m.

Rev. James Brooks, of Digby, chairman of the Presbytery, was in charge of the meeting and conducted the opening devotions.

Rev. Mr. Brooks tendered a special welcome to Rev. Cyril H. Gough, who on July 1st became the minister of the Annapolis Royal - Granville Pastoral Charge.

The minutes of the last meeting were read by Rev. Prescott Burrill, of Aylesford, who was acting secretary in the absence of Rev. Sturge, of Kingston.

This was followed by the Roll Call, the following ministers being present: Rev. James Brooks, of Digby; Dr. W. R. Seeley, Br'dgetown; Rev. G. A. D. Elliott, of Waterville; Rev. Prescott Burrill, Aylesford; Rev. R. F. Humby, Bear River, and Rev. Cyril H. Gough, Annapolis Royal. There were also a number of laymen present at the meeting.

Plans were made for the visit of the Moderator of the United Church of Canada, Dr. George Dorey, who will visit Annapolis Royal on September 16th.

Plans were also finalized for the induction service of Rev. Armitage, of Sandy Cove.

Standing committees were appointed for conference year and regular reports on evangelism, social service and missionary and maintenance work were discussed at some length.

Following the meeting the visitors were entertained at the supper hour at the home of the Misses Pickup, Granville Ferry, when supper was served by the ladies of the Women's Missionary Society.

Hold Missionary Meeting

The July meeting of the North Range United Baptist W.M.S. was held at the home of Mrs. Lewis Cook recently, with a large attendance. The president, Mrs. J. Vian Andrews, conducted the service.

Following the devotional period, the book written by Rev. Norman Dobbs, "Dawn Over The Bolivian Hills" was outlined by the president and the first chapter read by several members.

Rev. Stone was stoned to death a few years ago while on his way to conduct evangelical services at Malmacaya, Bolivia, and has become known to every missionary minded church group as "The Martyr of Malmacaya". The book promises to be very interesting and inspirational.

Roll Call Services At Granville Ferry

The annual Roll Call services of the five United Baptist Churches of the Lower Granville field were held in the oldest church of the pastorate at Granville Beach, on Sunday afternoon and evening, July 17th.

The churches represented were Victoria Beach, Port Wade, Karsdale, Port Royal and Granville Beach. Large congregations attended both services.

The pastor, Rev. R. W. Lindsay, conducted the services and Mrs. R. W. Lindsay presided at the organ.

The afternoon session featured the calling of the roll by Mrs. Alvin Ellis, of Victoria Beach, each member responding with a verse of Scripture. Mrs. Ellis was assisted by Miss Marion McWhinnie, of Port Wade, who read messages from those who were unable to be present, also from non-residents from various parts of the Maritimes.

The churches' combined choirs provided special music and the Harris Trio from Bear River (a mother and two daughters) rendered several beautiful selections which added much to the impressiveness of the services.

Several memorial gifts and flowers presented by members in memory of loved ones, were read by Rev. Mr. Lindsay.

Rev. Myron Brinton, Principal of the Moncton Bible School, was the guest speaker at both services and his address was most interesting and inspiring.

During the tea hour visitors were hospitably entertained at the various Granville Beach homes.

The evening session opened with a Gospel Hymn sung led by Rev. Lindsay. The Harris Trio again delighted the appreciative congregation with their singing and Rev. Myron Brinton delivered a very fine sermon and at the close of the service he showed very interesting slides illustrating the splendid work being carried among the young people attending the Moncton Bible School.

The offering for the day amounted to \$288.00 to be used for denominational purposes.

Interested In Securing Air Travel

In the interests of business in general throughout the Annapolis Valley the Annual Meeting of The Annapolis Valley Affiliated Boards of Trade was held at Greenwood on April 27. Eighty-seven members attended representing eleven individual Boards of Trade. The "Affiliated" body is comprised of members of twelve Boards established in twelve Valley communities, and its objective is to effect improvement for the Valley as a whole.

Subsequent to the Annual Meeting several committee meetings were held, and one committee is pursuing actively, and not without encouragement, the project of securing Air Travel service for the public from Greenwood.

One of the difficulties hampering the efforts of the organization is the lack of adequate funds to carry on the indispensable advertising etc. to attract tourists and improve business. The Finance Committee is now completing a plan to sell memberships to industrial and business organizations, and it is hoped that all will rally to the aid of so valuable an institution.

G.O.B.C. Lecture

A Ground Observer Corps lecture was given in the Ross-way Hall Wednesday evening at 8 o'clock, by Flying Officer Harry Waugh of the Filter Centre at Truro, and Colonel R. G. Hallett, Regional Supervisor, of Weymouth, LAC Arsenault, of Truro, also participated.

A greater insight was given to those attending as to the function and necessity of having a Ground Observer Corps. After the addresses a film was shown "The Sky is Your Target" which was a good aid to observers in making out aircraft flash reports when on an exercise.

There were nine observers present who were eligible for their wings. These were presented by Flying Officer Waugh to Douglas Andrews, Preston Andrews, Cameron Robbins, Lester Mullen, George McKay, Fred Lewis, Mrs. John McBride, Mrs. Thurston Banks, and Mrs. Harvey Peters.

To be able to receive the wings which are of sterling gilt and engraved with "The Ground Observer Corps," one must have been on duty on at least one exercise and attended at least one lecture. Seven received their wings last year, making now a total of sixteen from this post having received them.

Both Flying Officer Waugh and Colonel Hallett thanked the observers for their sense of duty, help and co-operation in making the G.O.B.C. a greater success as time and exercises go on, thereby being of great use in the defense of our country.

Drowns in Halifax County Lake

A 19-year old Yarmouth Co. lad, drowned in the chill waters of Lovett Lake, Halifax County, recently, in what appeared to be a drowning accident. Herbert Reginald Falls, son of Mrs. Vivian Falls, Pleasant Lake, Yarmouth, was the object of dragging and grappling operations by police and local volunteers for an hour and three quarters. The body was recovered at 8:30 p. m.

Coroner T. S. Skerry, summoned to the scene upon recovery of Falls' body, swore in his jury and officially identified the victim. The inquest was adjourned to be held on Monday evening, July 25th.

Carl Dorrington, 13-year old son of Mr. and Mrs. Earl Dorrington, St. Margarets Bay Road, told reporters he saw the swimmer standing on the rocks at water's edge, wiping his eyes. Then he eased into the water like he had slipped on the rocks. First thing I knew, he said, he started hollering for help, as if he had a cramp or something.

Young Dorrington said he scrambled up the hill to the roadway, above the lakeshore, found Charlie White, 18, and Richard Hamilton, about 40, and led them to the scene. A small crowd of local people had already gathered.

About the same time Ldg. Seaman James Somers, RCN, 25, was changing a tire, he said, on a truck parked on the road above the rocky inlet. "I heard the kids hollering and I ran down to see what the matter was."

Leading Seaman Somers said he arrived in time to see Falls go down what he took to be the third time.

Mr. Hamilton and RCMP officers who had been summoned got the grappling operations under way from two flat bottomed boats. The grappling, poling and dragging operations took nearly two hours from the time Carl Dorrington said he saw Falls go under.

Herbert Falls was well known in Weymouth Falls, having been a teacher in the public school there last year. The sympathy of the people of this community are extended to his mother, in this time of sorrow and bereavement.

The New Look

Harold Hatheway, CBC Talks and Public Affairs producer, found a way to beat the heat and publicize the Maritimes at a recent conference in Toronto. Wearing a civilian Nova Scotian tartan, the former New Brunswick newspaperman and teacher raised a few Upper Canadian eyebrows and started talk about a new trend in men's summer dress. Hatheway got the idea from a CBC Maritime Comment talk, and decided that what was good enough for his Highland ancestors might meet today's needs as well.

With this Scottish influence combined with interest in the Acadian celebrations, tourists can look forward to a colorful display of Maritime finery this summer.

RAVENS DOWN BEAR RIVER 3-1

The scheduled league fixture which was rained out last Friday was played Monday night and turned out to be the best game of the year.

After a sparkling pitcher's duel between Reg Baird and Ab Ettinger the home team emerged on top 3-1.

First tally for the Ravens came when Paul VanTassel singled, stole second, reached third when the throw went through to centrefield and scored on a hit by Barton. Single runs came in the fifth and eighth to clinch the game.

CARS ARE MY LINE
by Ken Hankinson
One of the greatest accomplishments of the American automobile industry has been to bring ownership of a car within sight of everyone.
A lot of things have made it possible to put a car, or two cars, in every home. I have a sneaking hunch that just about the most important of all was the introduction of the self-starter in 1911.
It made the car really a family car for the first time, because a woman could then handle it, and she didn't have to take along a chauffeur. That's probably something you've never thought of before, that a woman couldn't take the kids to school, or go shopping, in the family car before the self-starter came on the scene.
The self-starter saved a lot of broken arms, too, and made the car a friend instead of a stubborn, inhuman beast that had to be constantly battled. It helped change the world's whole attitude to the motor car.
Like a lot of things we now take for granted on every car, the self-starter was introduced by General Motors. That famous milestone followed another first in 1910, when GM started making the first closed bodies in any volume.
That was really something, because even by 1919 nine out of 10 cars made were still open models.
Sometimes in the hurly-burly of living just for today, we forget the valuable lessons from the past. You can see today the value and the leadership that's been packed into Pontiacs, but that becomes a little less surprising when you remember that it's always been that way.

The Furnace that is Spoon Fed
It's a fact! With Dosco's sensational new furnace coal is fed automatically in such minute quantities that it is virtually spoon fed.
In fact 3/4 of a pound of coal will hold fire in the furnace for one hour.
This is the new, compact, gleaming white enamel furnace that disposes of its own ashes and leaves the furnace room immaculate.
CHECK THESE FEATURES
CONVENIENCE
Unsurpassed for comfort and convenience.
ECONOMY
Cuts a minimum of 20 per cent from the cost of operating a hand-fired furnace, with relatively higher savings over other type heating systems. Cost of purchase and installation is less than for any other self-feeding heating system.
CLEANLINESS
It is impossible for dust or ashes to enter the furnace room. There is only a very small amount of ash and this is removed by vacuum as it forms.
FULLY AUTOMATIC
This furnace stokes itself automatically as required by the thermostat and even removes its own ashes.
COMPACT
The new Dosco furnace is the most compact furnace you can own. It measures 40 inches long by 30 inches wide and 46 inches high.
Purchase and installation of Dosco's new furnace can be financed through a Home Improvement Loan available under the National Housing Act. See your Bank.

Hold Exhibition at Cornwallis

The 10th annual "Craftsmen-at-Work" exhibition, held this year at H.M.C.S. Cornwallis, was officially opened Monday evening by Victor G. Cardozo, M.L.A. for Digby Municipality.

Mr. Cardozo was introduced to the large gathering which attended Monday evening's session of the exhibition, by Commander Martin. In his remarks he paid tribute to Miss Mary Black, Director of Handicrafts for the Province of Nova Scotia, and to her staff for the work they had done in arranging and preparing for the exhibition.

He also drew the attention of the visitors at the exhibition to the excellent examples of Nova Scotia handicrafts on display. Included in the displays are beautiful exhibits of Nova Scotia pottery, wrought silver jewelry, rugs, textiles and the now famous Nova Scotia tartan.

Also included in the exhibition are demonstrations of rug making, jewelry making, spinning, weaving and pottery making. Among the textiles on display are tweeds, tartans and fine woolsens.

Features of the exhibition are the famous Nova Scotia mural, the children's Christmas scene and the beautiful display of the Nova Scotia tartan. Another very effective display is the exhibition of textiles, pottery and wooden articles especially planned for a one room apartment which suggests to the viewer ways in which he may use them in his own home.

The "Craftsmen-at-Work" exhibition will continue through the week, closing at nine o'clock Friday evening.

SIX DIE IN DROWNING ACCIDENTS

Sails for United Kingdom

The British freighter, "Carlinge," cleared port here yesterday afternoon at 4.40 for the United Kingdom with a load of some 2,200 cords of pitprops, shipped by Max Nathal, Ltd.

The Carlinge is under command of Captain Alfred M. Lee and is registered at Cardiff. She has a gross tonnage of 2,972 and a net of 1,672.

Also loading here this week is the barge, Ocean Transport No. 30. The Ocean Transport is taking on a cargo of peeled pulpwood for the Lincoln Pulp Co. for shipment to Bangor, Me.

Crops Affected by Dry Spell

Local farmers report that the continued dry weather is having a serious effect on crops in the Digby area.

According to information, the strawberry crop in this district was heavily curtailed due to the dry spell which is also having a serious effect on the raspberry crop.

All ground vegetables are also reported badly hit by the continued dry spell which is stunting growth and otherwise affecting crops. Potatoes, however, seem least hit by the dry weather and farmers report good showings in potatoes.

About the only encouraging aspect of the hot, dry weather which has been a feature of this summer is that it has provided local farmers with excellent hay making opportunities and local hay crops harvested are reported the highest in years.

The continued dry weather is not only seriously affecting crops but several rural dwellers report that wells are rapidly reaching the dangerously low stage and some farmers are now reported to be hauling water from streams near their homes.

So far the town water supply from Lily Lake seems not to be in danger and no restrictions on water usage have been put in effect in town to the present.

Fight Blaze in Lumber Pile

The Fire Department was called out shortly before five o'clock Tuesday afternoon to fight a blaze of undetermined origin in a pile of lumber in the yards of H. T. Warne Ltd.

The fire was first noticed by Mrs. Hugh Vincent who lives nearby and who phoned in the alarm.

The blaze, which had gained considerable headway before being noticed, proved a stubborn one but damage was confined to the lumber pile.

Miss Jackie McMackim, Saint John, is visiting Miss Anne Brittain.

Howard Leicester, F.R.I.B.A., of the Department of Northern Affairs and National Resources, was Consulting Architect.

Five members of a Weymouth family were plunged into a watery grave late Tuesday evening when an outboard motor boat upset 250 yards from the shore of Sunday Lake, ten miles from the town of Yarmouth.

Drowned were Mr. and Mrs. Clarence Gavel, their baby just 1 1/2 years old, Mrs. Gavel's 15 year old sister and Mr. Gavel's uncle, Hallet Gavel.

The tragedy which claimed five lives occurred in the midst of deeply wooded country, remote from any sizable habitation and inaccessible by car.

The only survivor of the tragedy was Frank Fletcher of South Ohio, operator of the motor boat, who dragged the mother and baby ashore in an attempt to save them. But they were already dead.

Details of the accident, news of which reached Yarmouth about 11 o'clock Tuesday evening were still obscure at press time. RCMP are still dragging for three of the bodies. Names of the Gavel baby and Mrs. Gavel's sister were not yet known.

It is understood the accident occurred while Fletcher was ferrying the family across the lake in his motor boat, en route to a lumber camp where Clarence and Hallet Gavel were to work.

As soon as Fletcher reached shore with the bodies of Mrs. Gavel and her baby he made haste to the home of his mother some two miles from the lake from where news of the grim tragedy was telephoned to Yarmouth.

Dog Saves Dog

"Penny" a little Cocker Spaniel owned by Mrs. Donald Lowe of Deep Brook was the direct means of rescuing "Mollie" a rabbit hound owned by the local Postmaster R. J. Vroom from a watery death on Friday. Neighbours heard the barking of "Mollie" during the day but thought her hunting in the wood nearby. Around supper time "Penny" refused to leave the mouth of an old well a short distance from her home, barking constantly and when her owner investigated found "Mollie" in the well barking for help. Morris Lowe rescued the little dog from its close brush with drowning.

Enrols in Navy

Malcolm E. Height, son of Mr. and Mrs. Clarence Height, has enlisted in the Royal Canadian Navy with the rank of Ordinary Seaman Standard.

A graduate of the Digby Regional High School, Malcolm was prominent in student affairs while at school and played basketball, football and softball for the High School.

Before enlistment Malcolm was employed by the McGraw Electric. He began his basic training in the navy at Cornwallis on Monday.

Centre le Youth Drowns

Merrill Titus, eighteen year old son of Mr. and Mrs. Herbert Titus of Centreville, was drowned Monday afternoon while scalloping some three miles off Centreville with Roy Nesbitt, also of Centreville.

It is understood the tragic accident occurred shortly after 2.30 when in some manner Titus' foot became entangled in the scallop drag and he was thrown over the side of the vessel into the water.

Witnesses to the accident are of the opinion young Titus struck his head on the side of the boat as he was dragged over the vessel's edge as he never came to the surface after the drags carried him below the water.

A popular young man, the accident victim was a member of the Centreville hockey team. He is survived by his parents and by several brothers and sisters.

Monarchs Down Meteghan 4-2

The Weymouth Monarchs turned back the Meteghan Shipbuilders, 4-2 at Meteghan on Thursday last.

Letter to the Editor

I am writing to give a few of my impressions on the "Nineteenth Annual Convention Nova Scotia Federation of Home and School Associations," which was held at Acadia University, Wolfville, N. S., July 5-7.

There were approximately 300 delegates present, all workers from communities throughout the entire province. They are not interested only in Home & School problems but in the Christian way of living.

The program was interesting and helpful, the theme: "Education—Our Continuing Concern." This theme was carried out through workshops as follows:

1. Adult Education—Mr. Tom Jones, Mr. Donald MacLean.

2. The Arts—Art (Discussion Starter Play) under the direction of Leader, Mrs. John Baird of Bedford, who gave talks and demonstrations, using the school art exhibits on Creative Art, starting from the kindergarten age and going upward to adults. Lettering—Rev. K. Hamilton, a goodly number entered this class.

Picture Making—Miss Helen Beals.

Music—Miss Elizabeth Murray.

Speech & Drama—Mr. E. Roberts.

3. Health—Child and Mental Health, Dr. C. L. Gass and Dr. E. L. Eagles.

Dental Health—Dr. W. G. Dawson.

Physical Fitness—Miss Dorothy Walker.

4. Parent Education—Mrs. H. Todd and Mrs. J. M. C. Duckworth.

Topic—"Effective Family Living," Theme for 1955-56.

5. Program Planning—Mrs. W. R. Pell.

6. School Education—Mr. Jas. Hendry, Wolfville.

Topic—"How to Get and Keep Teachers."

The workshop classes were very helpful and a great deal was accomplished and the results were shown at the close of the convention.

There were periods of open discussions with thought provoking subjects, one of the most outstanding of which was "What's on Your Mind?"

The friendly spirit prevalent throughout was wonderful. The interesting programs carried on by the Entertaining and Social Committee were very enjoyable and relaxing after long hours of business and debate.

The President, Dr. A. A. Giffin, presided at all sessions and maintained the spirit of courtesy, patience and good leadership throughout. He remained in office for the coming year.

Mr. R. M. Herman, Vice-President, was chairman of Resolution Committee. He emphasized the fact that only matters relating to H. & S. would be dealt with. Immediate Past President, Mr. H. H. Simpson, was also a very active and helpful member of the Executive.

The reports from the delegates of the National H. & S. Convention which was held in Fredericton in 1955, were very interesting. It was also interesting to learn that the founders of the National H. & S. were: Mr. L. A. DeWolfe, Miss Dora Baker and Dr. and Mrs. L. V. Longley. Mr. DeWolfe reported that the National Organization is now entering the state of maturity and has become nation wide.

Inspector Edwards, of Annapolis County reported on National Having given three years service to National, he stressed the work being done for boys and girls all over the nation. National backing adds the utmost strength to H. & S. associations as a whole. As members of the CBC programs and National Advisory Board our organizations are a part. Research, study and special work is being done by our executives all of the time. In closing he quoted the words of Mr. Bruce who offered prayer at the National Convention, "What we say is more important than what we think." "What we do is more important than what we say."

Mr. Edwards closed with the assurance that "Your child may grow in wisdom and stature and in favour with God and man."

Much more could be written about the doings of this convention which closed with the usual banquet. The special speaker was Dr. Frank MacKinnon, principal of Prince of Wales College, Charlottetown.

There were three presentations made at this time, one the "Dora M. Baker" scholarship award, and the other two were life memberships.

Euella H. Andrews, Delegate for Digby Regional Area H. & S. Association.

About This and That

Fatigue Greatest Traffic Hazard

Summertime is vacation time. Already many have taken to the highways and the month of August will find many more out to enjoy what should be a period of rest and relaxation. The mistake made by a large percentage of vacationers is that instead of making the vacation restful and relaxing they turn it into an exhausting and fatiguing experience. Eager to cover as much country as possible and to make every minute count, they indulge in long hours of driving and high speeding which results in exhaustion and the vacationer after returns to duty more tired than when he left.

A worst feature of the weary hours of driving and the high speeding is probably the traffic hazard. Fatigue, it is said, is responsible for many of the 57,000 traffic accidents that occur on Canadian highways during the summer holidays. Those responsible are not always the long period vacationers but also those who tired and exhausted from the day's work start out in the state of fatigue for the lake, shore or picnic ground.

Alfred L. Moseley, a psychologist at the Harvard School of Public Health, recently completed a series of tests on fatigued drivers and proved that every driver who is over-tired is risking his own and other people's lives when he takes the wheel. A co-operative colleague stayed up all night and then using an instrument called a Roadometer, "drove" for several hours while the psychologist measured his reactions. Slowness on the brakes, clutching the wheel and other bad driving habits were noted as fatigue increased. A cup of coffee and a cigarette provided necessary but not lasting pickups.

This was an extreme case, of course, but it demonstrated the importance of avoiding drowsiness when driving and it led to a number of safe driving rules which could help to reduce the toll of summer accidents.

1. Don't start a trip right after work. Get a good night's rest and start fresh in the morning.
2. Plan a coffee break every 100 miles or so. If there are few roadside stands or restaurants, take a thermos of hot coffee with you. Pull off to the side of the road, drink the coffee and get out of the car to stretch your legs.
3. Avoid driving at night whenever possible. The most dangerous period is between 5 and 8 p.m.
4. If you feel drowsy, pull off the road and have a nap.
5. If possible, have another driver along to spell you at the wheel.
6. Observe all traffic rules — but, most important, stop driving when you feel tired.

Mistakes Everyone Sees

It has been said that the best way for a business man to get a reaction in regard to an over-due account is to send out a statement for the wrong amount. The idea is that the person owing the bill, although apparently having no intention of paying it, will rush to the store very irate because he is being overcharged.

It is somewhat the same in publishing a newspaper. Regardless of what the paper carries, either editorially or on the news pages, there is little if any public reaction. One sometimes feels that no one ever reads the paper and one's best ideas and most anguished efforts are just wafted away in the wind. This is of course normally speaking, but there are occasions when suddenly everyone in the area seems to read the paper, and that is when you have made a mistake. Let a typographical error (all errors are of course typographical) slip into an obscure corner of an inside page and everyone in town sees it and tells you about it.

That is the compensation of making mistakes in this business be they ever so embarrassing — and most of them are embarrassing. We are reassured that somebody does read the paper.

THE CARTERS ARE LUCKIER THAN THEY KNOW!

Like all families, the Carters have plans and dreams for the future. But, unlike the families of just a generation ago, they have a better chance of making those dreams come true.

Why? One important reason is because life insurance is much more flexible today. During the past 25 years, many new policies have been created. The modern "family income" policy, for instance, provides maximum coverage while children are young, and reduces in amount as they become self-supporting. Other policies have been developed to cover mortgages, and to provide retirement income to fit in with the government old age security benefits.

This wider choice reflects just one of the ways in which life insurance companies and their representatives have adapted their services to the changing needs of Canadians in all walks of life!

HERE IT IS!
The Furnace that removes its own ashes!

Now you can enjoy the financial advantage of heating with coal and be completely free of the chore of shovelling coal and carrying ashes.

Following intensive research by Bituminous Coal Research, Inc., Dosco engineers have perfected a radically-different type of domestic furnace which makes heating safer, cleaner, cheaper, than ever before. It is unsurpassed for comfort and convenience and actually pays for itself in fuel savings.

Check these features!

- NO ASHES TO CARRY** — Ashes are automatically carried by vacuum to a canister inside or outside the house.
- ABSOLUTELY CLEAN** — It is impossible for ash or dust to enter the furnace room.
- ECONOMICAL** — Cuts at least 20 per cent from the cost of operating a hand-fired furnace, with relatively higher savings over other types of heating systems.
- SAFEST YET** — Automatic feeding assures a steady heat and only a small amount of coal is in the furnace at any time.
- FULLY AUTOMATIC** — Feeds itself and rejects the ashes without any demand on you. Thermostatically controlled.

The New Dosco Furnace will be demonstrated in your district soon — be sure to see it

Purchase and installation of Dosco's new furnace can be financed through a Home Improvement Loan available under the National Housing Act. See your Bank.

MARRIAGE

Carson - Titus
Bedford Baptist Church was the scene of a pretty summer wedding July 9th, at 2.30 p.m. when Rev. F. S. Fitzsimmonds united in marriage Joan Helene Titus, only daughter of Mr. and Mrs. Walter Titus of Westport, to Petty Officer William Keith Carson, R.C.N., son of Mrs. Doris Carson and the late Mr. William Carson of Toronto.

The church was decorated with white 'mums and the guest pews were marked with white ribbons.

The bride was given in marriage by her father and looked lovely in a ballerina length gown of white net over satin with a lace jacket coming to points over the wrists. She wore a shoulder length veil of white nylon, held in place with tiera of seed pearls. She carried a cascade bouquet of red roses and lily of the valley.

Mrs. Tom Ryan, matron of honor, wore a floor-length gown of shrimp net over taffeta with half hat of matching tulle and carried a nosegay of mixed flowers.

Miss Cynthia Olthouse, cousin of the bride, was bridesmaid and wore a floor length gown of pink net over taffeta with half hat of matching tulle and carried a nosegay of mixed flowers.

The groom was attended by Albert Spencer. Ushers were Blair Titus, brother of the bride and P. O. Ernest McMenemy.

Miss Beatrice Chute was the organist.

The bride's mother wore a blue crepe dress with inserts of lace and matching hat and shoes, and she wore a corsage of roses.

The couple left for Niagara Falls on their honeymoon. For traveling the bride wore a light blue two-piece suit with navy accessories and a corsage of red roses.

CARS ARE MY LIFE by Ken Hankinson

As anybody who's been up to our lot knows, we have a range of cars from the practical to the posh. Our place is like an automobile supermarket, you can find just about anything you want in a used car.

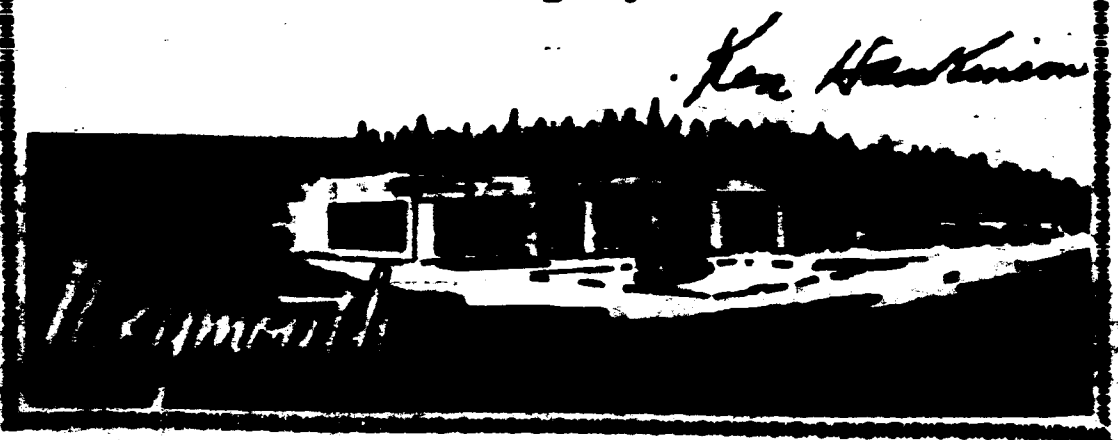

Sometimes, for the fun of it, I like to plan what a used car lot would look like if it offered every make of car that's been on the market. There would be some strange shapes; most of us can remember the Auburn, the Moon, Franklin, Pierce-Arrow and have heard of the Stanley Steamer and the Detroit Electric. We'd also have to make room for some of the noble experiments that flopped, such as the Cord and the Tucker.

But if we really wanted to do a job of it, our historical used car lot would have to have more than 4,000 different makes of cars on it.

In years past I've won a few bets on which country the oldest car would be from. The first practical, self-propelled motor car with an internal combustion engine came not from the States, or England, but from France and it snorted and popped its way along the street in 1868.

Since then, more than 1,550 kinds of cars have been made in the United States, 610 in Great Britain and 480 in France. Even Belgium has had 70 different makes of cars.

Of the American makes, only about 20 or so of the best have survived, and of those best, we think only the cream of the bunch come to our lot. Before a car can make the grade to be displayed at our place, we put it through all the tests to find out the things you'll want to know when, later on, you're looking it over. Buying a car should never be a hasty decision, you want sound advice on what kind of car suits you best. Because we know our cars, that's the kind of sound advice we can give you.

Make a well in dry ingredients and add in order given (do not stir mixture), 1/4 c. corn (saled) oil, 2 unbeaten egg yolks, 1/4 c. plus 2 tbs. water, 1 tsp. vanilla, 2 1/2 ozs. unsweetened chocolate, melted and cooled. Stir liquids a bit, then stir in dry ingredients; beat until batter is smooth. Measure into a large bowl 1/2 c. egg whites (at room temperature) and sprinkle with 1/4 tsp. cream of tartar; beat until whites are very stiff—much stiffer than for meringues, etc. Add flour mixture, about a quarter at a time, and fold after each addition until batter and egg whites are well combined. Turn batter into an ungreased 8" angel cake pan; bake in rather slow oven, 325°, about 1 hour. Immediately cake comes from oven, invert pan and suspend cake until cold.

VOLUME LXXXI, No. 48

Celebrate 50th Wedding Anniversary

July 26th was the occasion of a happy surprise for Mr. and Mrs. Mansford Buckler, when relatives and friends gathered at their home in Bear River East in honor of their 50th wedding anniversary.

The four children of Mr. and Mrs. Buckler were present: Clayton and family, of Bridgetown; Alice and family, of Clementsport; Willis and family, of Bear River; and Mrs. Stanley Pöble and daughter, Joan, of Bridgetown. Also present were eleven of the fourteen children and friends from Saint John, N. B., and Bridgetown.

At the close of a very pleasant evening the ladies served a very bountiful lunch which had for its main feature a beautifully decorated bride cake and an anniversary cake.

Bass Fishing Trophies Presented

In a most solemn and impressive ceremony, or so we have been informed, trophies for bass fishing were recently presented to one notably unsuccessful bass fisherman and to another with better luck, at a meeting of a section of the bass fishermen on the banks of the beautiful Bear River last week.

It is understood one of the presentations followed suggestions made by certain members of the group that one of their number who had to that time not caught any bass might better employ his time with a sand pail and shovel.

Because of the suggestion this member was presented in due and proper form, accompanied by a splendid speech fitting to the occasion, with a sand pail and shovel. Later in the evening the unsuccessful fishermen broke the spell that seemed to be over him and landed a sizeable bass.

The other presentation, that of a pair of scissors, was made to another fisherman who showed a keen interest in cutting out paper. With the scissors went a book of cutouts.

This presentation was also accompanied by a speech suitable to the occasion and both presentations were responded to in a most fitting manner.

To Stage Flower Show

Committees were set up and plans finalized on Friday evening for the Flower Show to be staged in Digby in the second week of August. The meeting to further the Flower Show plans was held in the Town Hall and was a joint meeting of the Digby Garden Club and the Admiral Digby Horticultural Society, sponsoring parties, with Arnold Trask presiding.

Tea will be served in the afternoon and the Flower Show will continue through the afternoon and evening.

N. V. Jankov, of the Department of Agriculture, Truro, will be judge.

A wider interest and more entries than before are expected by those in charge of the show. Anyone is invited to participate in the show and entry forms can be obtained from the Digby County Power Board, Wrights of Digby Ltd., Dillon's, South End Grocery, and wherever posters are displayed.

To Hold Memorial Service

A memorial service for Merrill Titus, son of Mr. and Mrs. Herbert Titus, of Centreville, who was tragically drowned while scallop fishing last week, will be held at the Centreville Baptist Church on Sunday, August 14th.

Time for the service is two o'clock in the afternoon, it has been announced.

TOWN COUNCIL HOLDS MEETING

A report from the streets committee regarding the surveying of the unopened section of Third Avenue between Warwick and St. Mary's Streets was received at Monday night's meeting of the Town Council. After some discussion it was decided to proceed with the work of having the road opened.

Decision was also made at the meeting to have St. Mary's Street gravelled and graded.

It was also decided to order a quantity of new hose for the Fire Department in order to replace some of the used hose for use by the Water Department.

Town Clerk E. Scott Eaton was given permission to attend the meeting of the Finance Officers' Association in Halifax on August 16, 17 and 18.

The matter of the holding of a ratepayers' meeting to deal

with the purchase of land for a new town dump site and purchase of land-fill equipment to be used at the proposed new dump was deferred. It was decided to secure more information regarding equipment before calling the meeting.

It was reported by the Clerk sinking funds to cover the bond issue maturing on August 1st had been received.

A resolution from the Town of Dominion requesting the province to place a four cent tax on fuel oil to assist the coal industry was tabled by the meeting.

A vote of thanks to former Deputy Mayor Victor Cardoza was passed regarding his presentation of a portrait of Her Majesty Queen Elizabeth which has been placed in the Council chamber.

Kills Raccoon In Living Room

An adventurous raccoon came to an untimely end at Mount Pleasant one night last week, when he ventured onto the porch and later into the living room of the home of Mrs. Barbara Thomas.

The raccoon was first noticed by Mrs. Loran Thomas and her daughter and son-in-law, Mr. and Mrs. Paul Owens, of Ipswich, Mass., who are visiting Mrs. Thomas. They were awakened by a noise on the porch and, on arising to investigate, they discovered the raccoon all

ready to have a nice fat chicken for lunch.

When the raccoon saw Mrs. Thomas it rushed, not away from the house as expected, but through the kitchen into the living room and sought refuge on the mantle piece. He sat there while Mrs. Thomas aroused her neighbour, Burt O'Neill, who dispatched the animal with a pitchfork.

Mrs. Thomas had quite a mess to clean up after the affair but feels she was somewhat repaid by the \$1.00 bounty she got on the 'coon's tail.

10th. HANDCRAFTS EXHIBITION CLOSES

Over two thousand visited the Craftsman-at-Work Exhibition held last week at HMCS Cornwallis through the courtesy of Captain M. G. Stirling, CD, RCN. "While this attendance did not break any records," Miss Mary Black, Director of Handcrafts for the Province of Nova Scotia, said, "everyone who attended came because of their interest in handcraft she thought."

The exhibition which closed Friday night at Cornwallis was the tenth held in the Province. Each year the exhibition is held in a different part of the province so that all Nova Scotians are afforded an opportunity to attend and visit with the demonstrators in rug hooking, vegetable dyeing, jewelry making, spinning, weaving and pottery making.

Among the fine displays was the Nova Scotia Mural made especially for the Nova Scotia

Sheep Breeders Association. It was shown first at the Exhibition in Truro in 1953 and has since been shown in the principal Canadian cities as far west as Edmonton. It depicts the history of sheep raising in Nova Scotia.

Another interesting exhibit was a pictorial map designed and embroidered by Miss Margaret Chisholm, Halifax, depicting the travels of Miss Chisholm and Mrs. Zwicker on a 16,000 mile trip through Canada and the U. S. A.

A fine quality of workmanship in the hand-woven tweeds, tartans and other textiles and in the rug hooking on display was evident. Other displays of Nova Scotia crafts included jewellery, wood work, pottery, and miscellaneous articles.

The exhibition was open from Monday through to Friday evening.

LIGHTNING STRIKES IN WEYMOUTH AREA

The severe electrical storm which swept this area Tuesday morning caused little damage that has been reported in the Digby area.

In the Weymouth district, however, the storm appeared to be at its worst and did considerable damage.

A large barn owned by William Brooks at Weymouth North was struck by lightning and burned. All of the hay stored in the barn was destroyed by the blaze although the cattle were saved.

At the Weymouth Industries plant the lightning caused considerable damage. Seeming to come down the river from the Weymouth Mills area, the lightning found its way into the building from the river side and started a number of fires in various parts of the plant.

Employees of the factory were able to keep these fires under control with extinguishers until the arrival of the Weymouth fire brigade.

Although no actual reports have been received, it is understood the lightning did considerable damage in the Bellevue's Cove area where a number of places were struck.

Several people in the area have expressed the opinion it is the work of a bear or bears, searching for grubs that are to be found under the sod on the field. Others say it is being done by deer although this is discounted by many.

Whatever the cause may be, the people of the district are most interested in the strange happenings in their midst.

Puzzled By Sod Tearing

Residents of the Bay View area have been puzzled recently by strange sod tearing in a field owned by Joseph Condon of that place.

Some two weeks ago, shortly after Mr. Condon had cut the hay off his field, it was noticed large patches of the sod had been torn off and rolled over.

The tearing of the sod seems to occur in a section of the field quite close to the wooded edge and extends over a considerable area.

In some places large sections are torn off and in others only small patches. Evidence of attempts to tear off the sod can be seen in a large number of places in the field.

Several people in the area have expressed the opinion it is the work of a bear or bears, searching for grubs that are to be found under the sod on the field. Others say it is being done by deer although this is discounted by many.

You don't argue with a locomotive. So a manufacturer of rail equipment has developed a lightweight rail inspection car that carries four people yet can be taken off the track by one man.

Since men who design rail cars, aircraft and other transportation equipment regularly use aluminum to cut down dead weight and increase payload, it is no surprise that aluminum was used to replace heavier materials in many parts of this inspection car. The person who will be surprised is the locomotive engineer who first sees a rail inspector nonchalantly—and single-handedly—hoisting his scooter from the track.

There is every good reason why God himself should conquer the world and rule the earth by his kingdom." Four delegates from Digby heard Nathan H. Knorr, Watchtower president, make this startling statement during a final session of the five-day "Triumphant Kingdom" assembly of Jehovah's witnesses at Yankee Stadium, New York City, July 20-24. The convention, one of a series of 11 in the United States, Canada and Europe, was attended by 55,000 persons from 17 countries.

Purpose of the assembly was for Bible instruction and to emphasize the nearness of the Bible war of Armageddon. This battle, the speaker declared, would wipe out this world's system of things and install God's kingdom over obedient men.

The Digby group witnessed graduation of the 25th class of the Watchtower Bible School of Gilead. A total of 102 students were graduated and assigned as missionaries to 22 countries.

At a Friday session, 1,375 persons were immersed as ministers of Jehovah's witnesses. W. Holmes, presiding minister of the local group, was among over 800 congregation overseers attending a special meeting at Yankee Stadium designed to provide additional ministerial training material for all members of each congregation.

Mr. Holmes also announced that reports and material from the New York convention will be featured on the weekly service meetings held at the Kingdom Hall, Victoria Street, each Thursday at 7:30 p.m. Gordon Mount, Kenville and Digby, Beverley Cossett, Ross, were also among those who attended the assembly.

NEW FULLY AUTOMATIC FURNACE Actually pays for itself

The most modern development in domestic heating will be demonstrated

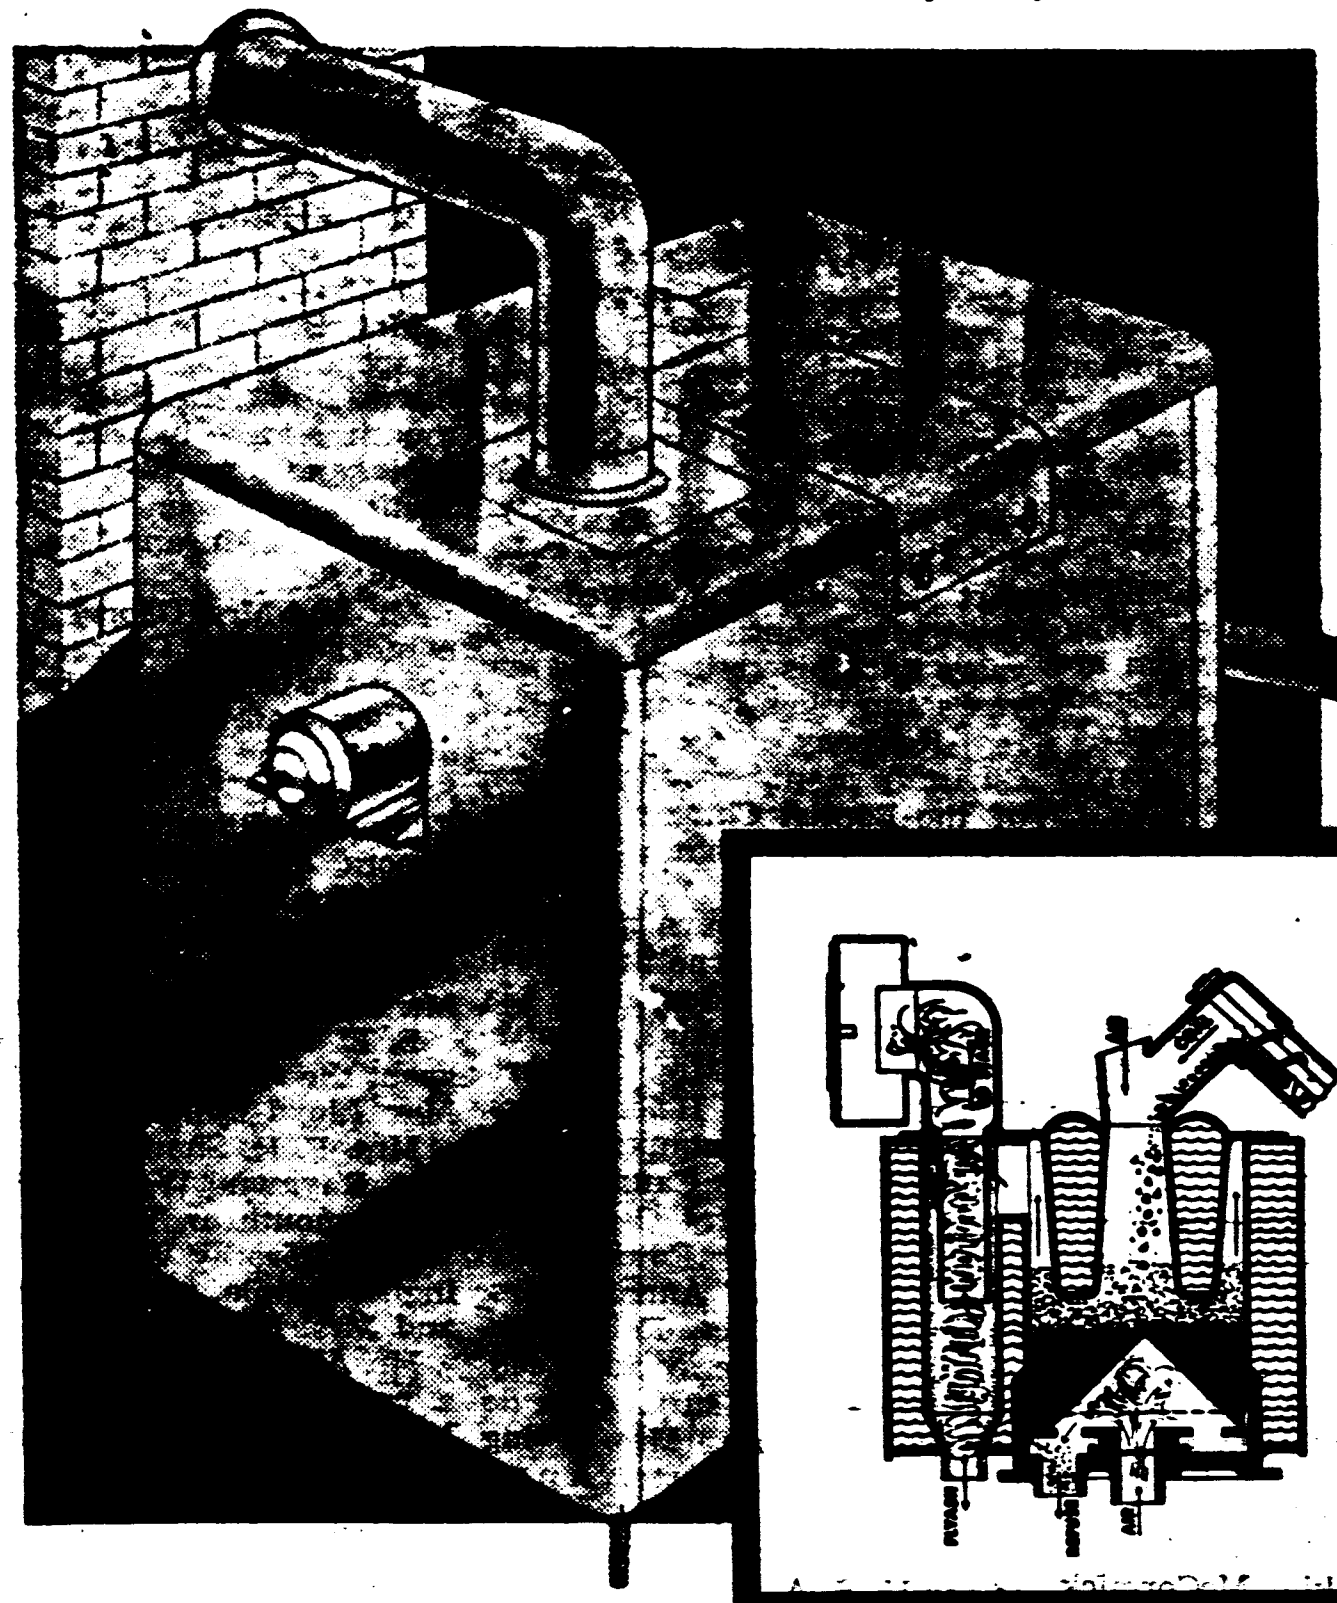

in this area soon. You will want to see it.

Perfected by Nova Scotia engineers, this is the furnace which is making

news in the heating world. In gleaming white enamel, it is only

40 inches long, 30 inches wide and 48 inches high. It costs little to buy and

install and this cost is quickly returned in fuel savings.

COMFORT AND CONVENIENCE

This new principle of heating gives the householder maximum comfort and unsurpassed convenience. No stoking — no ashes to carry. And it is the most economical heating system yet devised.

IT REMOVES ITS OWN ASHES

With modern treatment of coal, most of the ash is eliminated. The small residue is carried by vacuum to a container which can be outside the house.

IT CUTS FUEL BILLS

Coal is the most economical fuel available in Nova Scotia. This new furnace makes a further reduction and cuts costs of fuel at least 20 per cent lower than hand-fired furnaces. Savings over other type heating systems are relatively higher. It holds a fire with as little as ¼ of a pound of coal an hour.

IT IS ABSOLUTELY CLEAN

It is impossible for ash or dust to enter the furnace room. With this furnace, the furnace room floor can be as clean as the living room table.

IT IS FULLY AUTOMATIC

It feeds itself and carries the ashes — A thermostat regulates the heat.

Watch for the demonstration of this radically different home furnace.

Purchase and installation of Desco's new furnace can be financed through a Home Improvement Loan available under the National Housing Act. See your Bank.

PAYS FOR ITSELF AS YOU USE IT!

It's the new kind of hardtop—
The 4-Door Riviera!

THERE seems to be some confusion about what a hardtop really is, and we'd like to set the matter straight.

A hardtop is a car that looks like a Convertible with the top up—but has a solid steel roof overhead—and no contrived posts in the side window areas.

Up until just recently, it could be built in volume only with two doors—not more—because it would take wholly new structural principles to hinge another set of doors without floor-to-roof centre posts.

But Buick came up with those new structural principles and is now build-

ing—in volume—hardtops with four doors.

You see one pictured here. It's the 4-Door Riviera. And it's taking the country by storm...

Because here, at long last, is an automobile with the sleek and sporty styling of a true hardtop—but with separate doors for rear-seat passengers, plus the added room of a full-size Buick Sedan.

On top of that, this Buick is all Buick—with the buoyant ride of Buick's all-coil springing—the whirling might of Buick's record-high V-6 power—the whip-quick getaway and sizzling gas

surges of Buick's spectacular Variable Pitch Dynaflo® automatic transmission.

And it's available in Buick's two lowest priced Series—budget-priced 188 hp Super21, and the high-performance 236 hp COUNTRY, illustrated here.

Come visit us for a first-hand meeting with the 4-Door Riviera—and see how quickly and how easily the last word in automobiles can be yours.

*Dynaflo Drive automatic transmission is standard on Roadmaster, optional on other Buick models.

Victoria Beach
(Continued from page 1)
why she would drive four thousand miles to vacation in Nova Scotia she shows them her pictures which she says prove convincing evidence that the trip is more than worthwhile.
People in Nova Scotia, particularly in this area, Mrs. Berry says, seem to live well rounded lives and at Centreville she has a feeling that she is living in a typical fishing village where the people carry on their pursuits without artificiality. She heartily recommends this area to others who are looking for vacation spots that are unspoiled where the visitor may enter into the life of the district not as a stranger or a "tourist" but as a friend, welcomed and accepted as a member of the community.

School Principals

Go To School
Mr. Maurice Belliveau, Rural Supervisor for Clare and Argyle, and Mr. Stanislaus D'Entremont, supervising principal of the consolidated school area at Church Point, returned last week from a seminar in school administration and supervision held at Acadia University from July 5 to 23.
This seminar is an attempt, supported by the Nova Scotia Department of Education and the Canadian Education Association, to provide training for their work for school administrators similar to the training given to teachers for their work.
Inspector J. A. Comeau, of Clare and Argyle Districts, has been active in furthering such a project. In 1954 Inspector Comeau attended a national workshop of a similar nature held at Edmonton, Alberta, and he is a member of the Nova Scotia Advisory Committee to the C. E. A. Kellogg project at Edmonton. The school board of the municipality of Clare is one of the progressive school boards in Nova Scotia that gives some assistance to its staff to carry on summer study.

Sports Cup Goes To Bear River

The annual Guides Sports came to a close at Kedge Lake on Saturday, August 7th, where Watson Peck, of Bear River, emerged the winner after a week of keen competition. The trophy he received was donated in 1935 by the Department of Lands and Forests, and not until the present has it found a final resting place.

This cup with fourteen names listed had to be won three successive times by the same person in order to keep it permanently. Below are the names as listed:

1935—Eber Peck. (He had won two cups previously — total seven years).

1936—Allan Hunt.

1937—Allan Hunt.

1938—Willard Jack.

1939—Allan Hunt.

1940—Frank Glode (deceased).

1941—Frank Glode.

On the above dates the Guides Sports were all held at Lake William. The war interrupted, and there were no more meets held until 1949 when Earl Rhodenizer was the winner at the meet, held at the Dingle in Halifax. 1950, Eber Peck won again after fifteen years; this time the Guides had moved their meeting place to Molega Lake.

1951—Henry Peters.

1952—A tie between Henry Peters and Earl Rhodenizer at Kedge Lake.

1953—Watson Peck.

1954—Watson Peck.

1955—Watson Peck — winner for keeps.

All cups donated since 1922 have come "home" to Bear River.

Brotherhood Sings At Smith's Cove

The Men's Brotherhood of the Little River Baptist Church was invited to sing on Sunday evening at the Smith's Cove Baptist Church. Rev. Miller had charge of the service and preached an inspiring sermon.

The men, with Deacon Shirley Tidd, choir leader, and Mrs. Lindsay Raymond, organist, led in a sing song of hymns. They sang four specials. Mr. Ainsley Tidd, secretary, then called the roll, each one responding with a testimony or verse of scripture.

After the service all proceeded to the vestry where the ladies of the church served a bountiful and delicious lunch.

Rev. Mr. Miller offered prayer and thanked the men. Deacon Shirley Tidd, on behalf of the Brotherhood, and members, Deacon Harold McCullough and Bernie Morehouse, thanked Rev. Mr. Miller, also ladies of the church, for their kind hospitality. Deacon Sulis responded.

The meeting was closed by all joining hands in a large circle and singing "Blest Be The Tie That Binds".

The Brotherhood consists of twelve to fourteen men, who enjoy singing the good old hymns.

Warn Of Potato Blight

Potato growers are advised that late blight has appeared in one field in the Fundy region of Kings County, Nova Scotia, and in one field on the Northumberland Strait side of Queens County, Prince Edward Island. In these areas, moist sea air keeps the foliage damp and consequently subject to infection. Spraying should be carried out in all regions, and a careful watch should be maintained over the fields in order that new infections may be discovered early.

Aphid populations have been building up rapidly during the past week in many potato fields. These aphids, in addition to causing direct damage by sucking the juice from the plants will also spread virus diseases such as leafroll and mosaic. DDT is not particularly effective in controlling aphids but it is satisfactory for other species of potato insects. If aphids are numerous malathion 25% wettable powder should be added to the spray at the rate of 2 to 2 1/2 lbs. per 100 gallons of spray. Malathion does not give a good control of flea beetles which will begin to appear in about another week.

TRADE BOARD SEEKS ROAD IMPROVEMENTS

The matter of the sharp hills and turns on the main highway just west of the Victoria Bridge was discussed at Tuesday night's meeting of the Digby Board of Trade.

In bringing the matter before the board H. M. Warne stated these hills and turns presented a severe handicap to those firms using the highway for trucking lumber and other produce.

He stated the port of Digby was being affected as a shipping centre because firms in the valley and beyond found the highway situation west of the Victoria Bridge a dangerous one, detrimental to shipping over this road.

With the advent of the Yarmouth to Bear Harbour ferry, he said, this highway will become increasingly important as a shipping artery and action should be taken to improve the situation as expeditiously as possible.

After discussion of the matter and also the matter of the section of highway adjacent to the Joggin Bridge it was decided to appoint a committee, headed by Mr. Warne, to make a study of the whole situation and bring

DEEP BROOK CHURCH HAS LONG HISTORY

By R. W. W. Purdy

This story of the origin and subsequent development of St. Matthew's Church has been made possible by considerable effort in the way of research from the old parish records, by inquiry from other aged parishioners and from my own memory of the different episodes and events in which I participated, and in which I took great interest and remember with pardonable pride and satisfaction. So if in writing this article, I use my own name quite frequently, please do not attribute it to egotism, but merely to the fact that my own part in the development of St. Matthew's is naturally more easily remembered than any other, no matter how vividly they might have impressed me at the time.

So much for the forward.

To begin with — the Parish of Clements, of which Deep Brook forms a part, comprised

the Township, of Clements, Annapolis Co., which extended from Allen Creek near Annapolis Royal to what is known as the "Little Joggin", (near Digby) which was the western end of the Annapolis Co. Later, some time about 1820 the County Line was changed from the Little Joggin River to Bear River, thus leaving a considerable portion of Clements parish in Digby Co. Although the Township line was changed along with the County line, the boundaries of the Parish remained as before. This accounts for a part of Digby Co. being in Clements Parish.

The Rev. William Minns Godfrey, 1841, was the first rector of this Parish. He was sent out from England to take charge of what was known then as a missionary Church, and was paid mostly by the Church of England Missionary Society of England. Some ten or twelve

years later, at least some time previous to 1854 St. Matthew's Church was erected in Clements Parish (as the portion of the Parish west of Bear River was called). The exact location of the Church was at Smith's Cove on a site acquired from the Poole estate. It was a plain square building without tower, and the doors opened directly into the Church. In 1881 the Church was remodelled and tower and steeple were added, and the Altar hangings, which were first presented to the Church in 1854, were remodelled and re-dedicated. Mr. Godfrey died very suddenly that same year in October 1881.

During Mr. Godfrey's ministry he held service at Deep Brook in the School House until the Union Hall was built, where he held service upstairs about once in three weeks.

About that time the lower part of the Hall was being finished for use as a Union Church for Baptist and Church on England. We first worshipped in the "Union Church" when the new rector, Rev. Clarence Watts McCully, commenced his work in the Parish. Mr. McCully was not satisfied with the idea of holding services where there was no Altar or other accessories which we held so dear, and as the Church at Smith's Cove was (at that time) at a very low ebb, (Most of the former congregation having died or moved away) he suggested the idea of moving St. Matthew's to Deep Brook. The Deep Brook people upheld him in his idea, and permission was gotten from the Bishop to move the Church to Deep Brook. Mr. W. A. (Alphie) Chute was contacted and the contract allotted to him for \$350.00.

Wartime Premier Passes

The death of the Honorable Alexander Stirling MacMillan, the grand old man of Nova Scotia's public life, war-time Premier of the Province and Clan Chieftan of the province's MacMillans, occurred at his home in Halifax on Sunday after a lingering illness. He was 84 years of age at his passing.

Mr. MacMillan, who represented the constituency of Digby in the provincial House of Assembly from 1922 to 1933, entered the cabinet of the late Hon. Angus L. Macdonald in 1933 as Minister of Highways. It was at this time that he initiated the program of highway paving in Nova Scotia which he saw to fulfillment. The 1,400 miles of paved highways enjoyed by Nova Scotians are a permanent reminder of his service to the province.

In 1940, when the Hon. A. L. Macdonald was called to Ottawa to become Minister of Defence for Naval Services, the Hon. A. S. MacMillan became Premier of the province which office he held until his retirement at the age of 74 in 1945, after more than 43 years in public life.

Born at Upper South River, Antigonish County, Mr. MacMillan took an early interest in public affairs and served as a county councillor and later as Warden of his native county before entering the provincial field.

Funeral services were conducted at Fort Massey church in Halifax Tuesday afternoon where government officials and people of all walks of life in Nova Scotia paid their tribute to Mr. MacMillan. A committal service was held at the cemetery in Upper South River yesterday afternoon.

DIGBY COUNTY MAN CHURCH GROUP HEAD

With the announcement of election results Sunday evening, the four-day Maritime Provinces convention of The Churches of Christ (Disciples) was concluded in the Coburg Street Christian Church, Saint John.

Elected and installed president was Wilfred Cosman, of Weymouth, N. S. He succeeds Harry Linkletter, Summerside, P.E.I.

Other appointments included: Vice-presidents, first, R. J. Currie, Saint John; second, Victor Ling, Charlottetown, P. E. I.; third, Kenneth MacDougall, West Gore, N. S.; secretary-treasurer, Maxwell Cousins, of Lancaster. In addition 11 executive officers were named.

Addressing both an afternoon youth session and the evening service was Rev. Bruce Stainton of St. Thomas, Ont. Entitled "Greatness," his talk described the various standards of greatness in life which are imagined by most people. Mr. Stainton stated that true greatness lie in God and the church.

The morning service, led by Rev. William G. Quigley, Rothesay, host-pastor to the convention, featured an address by Rev. Morris Pullin, Indianapolis, Ind., who spoke on "The Ancient Message for a Modern World". In his remarks, Mr. Pullin noted that the Bible still contains a message for the world. "Although ancient in origin," he said, "it is applicable to today's world and to human needs."

The afternoon youth session was conducted under the chair-

Port Wade Joins The Celebration

Horace Snow, Herbert Arbour, his son-in-law, and the skipper sailed to Annapolis Royal on Tuesday, the second day of last week's celebration. They wanted their part in the anniversary to be a revival of conditions such as the pioneers in Nova Scotia had to face. Their idea was to imitate the transportation methods of those days; and they chose Tuesday because that was the day of the water sports. Also the sailing yacht Sally was at their disposal; she is a boat built for sailing only; no engine is in her inside and none goes on her outside.

They decided to start early because in sailing you never knew what the wind would be or if there would be any wind at all. The flood tide would ensure their reaching Annapolis and the ebb tide would bring them back to Port Wade.

There was a thick fog at 6:30 a.m. when they met at the fish shed near Port Wade pier. With water and food enough for a week — a fashionable Port Wade custom — they roved the hundred yards to Sally's mooring which was none too easy to find in the fog. Only a skillful sailor with a tender spot on the nape of his neck could distinguish any wind.

Horace Snow is a skillful navigator in these circumstances. Sally had a poor compass and nobody knew its deviation; the sun was invisible and so gave them no help; the land was likewise invisible and gave no help either. The navigator said to the skipper "We'll sail south for 1,000 feet; and then turn E.N.E. That will fetch us along the channel to Black Pt. Go to it."

"The skipper went to it. Sally moved herself south by instinct. Horace's instinct guessed the 1,000 feet and Sally resumed her instinctive role by going E.N.E. when we gave her the hint. In plain English they drifted off into the fog and chanced their arms with their guesses. However, Horace heard various noises which helped him to estimate his whereabouts. He listened to a power saw making a terrific racket and he guessed he was not far from Port Wade pier and nearer the north shore than the south.

He heard a voice, faint but forcible, saying "Why the... don't you get away from here and blow your blasted foghorn." He guessed this probably came from the direction of the Naval Base and the crew recognized that Horace was probably accurate.

They brought out their own foghorn which will make enough noise to scare anyone whenever a really powerful pair of lungs blows hard into it. Horace had the best lungs and with a painful effort he brought forth a pathetic wail from the instrument. He also rattled a

Indian Missionaries To Speak

Two outstanding Baptist Telugu Christian leaders will speak at the Digby Baptist Church here on Tuesday, August 16th, it has been announced by Rev. E. C. Churchill, pastor of the church.

The two missionaries are Rev. D. R. Isaac and his wife, Dr. Aleyamma. These two Christian leaders are making a tour of Canada after attending the Baptist World Alliance in London, England, and before returning to India.

Mr. Isaac received his elementary and high school education in Baptist Mission schools in India. After receiving his B.A. and B.Ed. degrees, he was for a number of years a high school teacher. He was also elected as a member of the Madras Provincial Government for a term. At the request of the Baptist Mission he resigned his teaching position to give his full time to mission work, and for some eight years he has been in charge of the West Akividu field.

Mrs. Isaac was brought up in the historic Syrian church in South India. After completing her medical training at Vellore Medical College she joined the staff of the Baptist Medical Centre at Pithapuram. Since her marriage to Rev. Mr. Isaac she has had charge of the Christian Hospital at Gudlavalleru.

To Visit Nova Scotia

This week, Nova Scotia will be host to a party of Ministers of Agriculture and Deputy Ministers from across Canada who will visit the province following their annual summer conference at Fredericton. The visit will be brief but during the two days the visitors will be in the province. They will be shown a cross-section of provincial agriculture.

The party is scheduled to land at Digby following the arrival of the C.P.S. Princess Helene at noon tomorrow. Following a shore dinner here, at which they will be guests of the Department of Agriculture and Marketing, the party will move on to Champlain's Habitation, at Port Royal, which, in turn, will be followed by a tour through the orchard areas of the Annapolis Valley, and a visit to the United Cold Storage at Coldbrook. That evening, the party will be guests of the Province of Nova Scotia at a chicken barbecue which will be held on the farm of Fred A. Walsh, Rockland.

Saturday morning, the party will visit Evangeline Park, at Grand Pre, the Canning Dykelands, Blomidon, and tour the dairy and beef raising areas of Kings County, before moving off to the South Shore of Nova Scotia, and a visit to Chester, which will be followed by a dip in the ocean at Queensland.

Saturday evening will be spent in Halifax with the party moving off early Sunday morning enroute to Prince Edward Island where the Maritime tour will be completed.

Firemen Down Smith's Cove 16-15

Tonight the Wholesalers and Legion meet Smith's Cove in a regular scheduled game at Digby and tomorrow night the Firemen and South End clash.

cow-bell which hailed from Georgia in the warm south. Nobody replied to these noises; this made them guess that the Naval Base must be far away.

"How fast does sound travel?" asked Horace.

"About 1,000 feet a second," replied the skipper smartly.

"Then one second to hear an echo means we are 500 feet away."

He blew again and an echo came back; but they had all been so intent on listening for the echo that they had forgotten (Please turn to page 5)

First naval vessel to circle North America is HMCS Labrador, which recently made its way through polar seas from Atlantic to Pacific. We're proud that the three specially built landing craft she carried to ferry men and supplies to Arctic shore bases were made of welded aluminum—and that they did the job.

Aluminum is active in the patrol and defence of our coasts, skies and northern wastes. So it is good to know that Canada is the world's second largest aluminum supplier with five producing plants in Quebec and British Columbia.

to count the seconds. They guessed 2 second which made them 1,000 feet away from the shore; if that had caused the echo.

And so they drifted far over two hours. Then the fog began to thin and Horace caught sight of Black Pt. which he knew well as a local landmark. In this case it was a fine landfall as well and the navigator accepted the praise which came as his due.

There were no more navigation troubles, for they could see where they were for the rest of the day. In the meanwhile Herbie fixed a pair of rowing chocks and appointed Horace to be the oarsman because he was the best navigator, the best pilot and the strongest man aboard. He used both hands to row and he steered by pushing on the iron tiller with a part of his spinal column.

While he was enjoying this exercise Herbie and the skipper lit the stove and made a fine pot of tea. They comforted themselves in this manner for ten minutes before the navigator guessed what was happening; and as he was the strongest man aboard the skipper had to change places with him.

But a gentle fair wind sprang up before the skipper could exhaust himself, and as soon as Horace guessed again that something else was happening he insisted on changing places once more.

They reached Annapolis in time to see most of the water sports and also in time to be warned off the course by the loudspeaker on the committee boat. The ebb began about 1:00 p.m. and they returned with it, having a light breeze until that died away when they were 3 miles from home. So the sweeps had to be manned again to pick up the mooring.

Close by was a young man in a small boat who said "Have you any gas? I've got an engine but no gas." "Why then you're worse off than we are," said Horace. "We've got sails but no wind."

And that's what a sailing trip can be like and the 18th century folk often had to put up with it that way. But our Port Wade celebrators enjoyed every moment of it.

CARS ARE MY LINE

by Ken Hankinson

Most of us let the garageman take out the dip stick from the engine block, wipe it off and put it back in again to check the oil level. It's a messy job and an easy way to mark up a clean white shirt.

I usually "leave it to Gus" too, but in looking over a used car, the oil on the dip stick and the dip stick itself can tell you a lot about what the car looks like inside.

Here's one simple test that's effective; wipe the oil off the dip stick (after getting your shirt sleeves out of the way) and notice if the surface of the stick is pock-marked or etched on the part that is normally below the surface of the oil.

If it is, that's a sign of acid. Most fuels contain a trace of acid and if the engine is running cold, or a cylinder is missing, unburned fuel, with this acid, makes its way into the crankcase and will eventually attack polished steel surfaces, such as the crankshaft journals, the cams, the links and pins in the timing chain — and, of course, the dip stick.

And while we're about it, this is the time to point out the importance of changing oil frequently. This acid action against the car's vital insides is the penalty of letting old oil work its worst against your engine.

I've already mentioned the trick of watching for blue smoke from the exhaust (blue, not black or gray) that is another easy trick for sizing up a car.

These are some of the simple tests anyone can perform when shopping around for a used car. Before a car comes on to our lot, of course, trained people make sure that it's a good buy for the owner to whom we'll pass it on.

But while you're shopping around, we want you to satisfy yourself about the car you're looking at. Look it over, have the kids jump up and down on the seats if you want, then take it out for a test drive.

To Take Up Vocation As Nun

Miss Sarah Comeau, daughter of Mr. and Mrs. Desire Comeau, of Meteghan, entered the convent of the Sisters of St. Anne's at Lachine, Montreal, on Thursday to take up the vocation as a nun. Miss Comeau had been employed in Halifax for the last year.

She was accompanied to Lachine by her parents, her aunt, Catherine Comeau, and Mrs. Vincent Mallet, of Meteghan and St. Alphonse respectively. Mrs. Vincent Mallet visited her daughter, who is with the order of the Sisters of St. Anne's. Rev. Sister Marie Reine de L'Assomption at St. Remi, P.Q. They visited St. Anne de Beaupre, Cap de la Madeleine, visiting the religious shrines at these points. While in Montreal they visited Mr. and Mrs. Alfred Thibault. Mrs. Thibault is the daughter of Mr. Edmond Comeau of E. M. Comeau & Sons, of Meteghan.

The night before entering the convent, Miss Comeau's girl friends, of Meteghan, who are taking nursing courses at the Montreal Hospital de Misericorde, visited her. They were Miss Claire Gaudet, Velma Amirault, Eunice Sullivan, and Yvonne Melanson. They gathered at the home of Mrs. Alfred Thibault where the famous Acadian dish, Roppie Pie, was served.

Meet After 36 Years

Mr. and Mrs. Ernest Peck, of Cambridge, Mass., are visiting Mr. Peck's brother, Watson Peck, and Mrs. Peck, Bear River. While here, Mr. Peck has had the pleasant experience of visiting with his cousin, Edgar McKay, of Orono, Maine. Mr. Peck and Mr. McKay, besides being cousins, were school chums together and also next door neighbors and both left home around the same time.

Although the cousins have made frequent visits to each other, this was the first time in 36 years that they had the opportunity of meeting.

Bible Society Making Collections

The British and Foreign Bible Society has started canvassing in various sections of the County and is meeting with favorable response.

The new German freighter, "Neptun", registered in Bremen, Germany, is in port here this week taking on a cargo of some 2,500 cords of peeled pulpwood destined for Amsterdam, Holland.

The Neptun is under command of Captain A. Toban and has a gross tonnage of 2,798 with a net of 1,476. Three hundred and eighty feet long, she is one of the largest cargo ships to load here. Modern in every respect, she has passenger accommodation for twelve.

Memorial Service At Centreville Church

A Memorial Service was held at the Baptist Church on Sunday afternoon, August 14th, in memory of Merrill Allison Titus, age 20 years.

The service was conducted by Rev. L. R. Atkinson, assisted by Rev. C. Stanton and Rev. C. A. Pierce.

Hymns sung by the choir were, "Does Jesus Care" and "Good Night And Good Morning".

Rev. and Mrs. Atkinson rendered a duet, "Your Roses May Have Thorns".

Paul Berry rendered a solo, "He The Pearly Gates Will Open".

Rev. Atkinson, after expressing a fitting tribute, brought a message of comfort from Matthew 10:39.

Merrill was the youngest son of Mr. and Mrs. Herbert Titus. He was born at Centreville on June 7, 1935.

A popular young man who will be sadly missed by all who knew him, he took a keen interest in sports and was a member of the Centreville Hockey Team.

Surviving besides his parents are five sisters, Dorothy (Mrs. Nelson Handsaker), of Mount Pleasant; Hetty (Mrs. Fraser Handsaker), Mount Pleasant; Sadie (Mrs. Bernard Banks), Rossway; Muriel, of Middleton, and Elaine, of Montreal; also five brothers, Ronald, Gerald, Loran, Murray, Irving, all of Centreville, and a number of nieces and nephews.

The floral tributes were many and beautiful, some of which were left at the church in memory of Merrill, and on the family lot at the cemetery.

Call Ratepayers' Meeting

A meeting of the ratepayers of the Town of Digby has been called to vote on the question of authorizing the borrowing by the town or a sum "not exceeding ten thousand dollars for the purpose of acquiring or purchasing land for a sanitary land fill and machinery deemed requisite or advisable to operate same and for constructing streets, roads, bridges and culverts."

The meeting will be held, according to the notice appearing in this week's Courier, on Friday evening, August 26th, at the Court House.

It is understood the decision to seek approval for a new method of garbage or dump disposal was taken by council following repeated complaints from residents in the general area of the present dump concerning the dump.

The new proposal to be put before the ratepayers, it is understood, is in use in a number of other communities and is considered to be the modern method of garbage disposal.

1 DIES, 3 INJURED WHEN HIT BY CARS

Earl Langford, of Weymouth Falls, was severely injured late Friday evening when he was struck by a truck, reportedly driven by Dick Robinson, of Conway.

The accident occurred shortly before midnight just opposite the New Conway school. It is reported Langford was with a group who had attended a social function at the school.

The injured man was given first aid treatment at the scene of the accident by Dr. Black, of Digby, and was then taken by ambulance to the Digby General Hospital.

Two teen age girls, both employed at the Hedley House in Smith's Cove, are patients in the Digby General Hospital suffering from critical injuries after having been struck by a car late Tuesday evening.

The two girls are Delma Patterson, of Sackville, N. B., and Barbara Moir, of Aulac, N. B., both seventeen.

It is understood the accident occurred about 11:45 Tuesday evening as the two girls were returning to the bus stop at Digby to catch the bus. As they alighted from the bus they were struck by a car reportedly driven by Godfrey W. Griffiths, of Digby.

The Patterson girl received scalp lacerations, concussion and possible internal injuries while the Moir girl suffered a broken hip, severe lacerations and possible internal injury.

Find Death Accidental

A Coroner's Jury, empaneled to enquire into the death of Bertram Rice, of Sandy Cove, who died at the Digby General Hospital last Thursday morning after having been struck by a car on Saturday, brought in a verdict of "accidental death with no blame attached to anyone" at their hearing Friday evening.

Foreman of the jury was A. Reginald Turnbull and among the witnesses heard were Thos. Denton, Mr. and Mrs. Osborne Trask and Dr. D. G. Lewis.

Has Guest Speaker

The August meeting of the Digby Baptist W.M.S. met in the church parlor with Miss Marion Eaton, Provincial Secretary, as guest speaker. At present she is visiting the various missionary societies in Digby County.

She told of her work and the objectives of the W.M.S. At the conclusion of her address life membership certificates were presented to Mrs. Seraph Barnes and Mrs. G. R. Weil.

Refreshments were served at the close of the service.

Those present were Mr. Wallace Nelson and Mr. and Mrs. H. Armstrong, Southborough, Mass.; Mr. and Mrs. Layton Reynolds and son, Ivan, Cogmagu River, N. S.; Mr. and Mrs. Morris Reynolds, Parrsboro, N. S.; Mr. and Mrs. Victor MacDonald, Fairview, N. S.; Mr. and Mrs. Austin Reynolds, Oakland, R. I.; Mr. and Mrs. Joseph Chute, Melvern Square, N. S.

MARK OFFICIAL OPENING OF THE "ROAD TO THE ISLES"

The Rt. Hon. C. D. Howe, Canada's Minister of Trade and Commerce, and Minister of Defence Production on Saturday, August 13, officially opened Nova Scotia's \$23,000,000 Canso Causeway by cutting with a Scottish claymore a tape of Nova Scotia tartan.

Mr. Howe, speaking over a public address system, told an audience too vast to be counted, but estimated in the region of 35,000 persons, that the Canso Causeway was one of the great engineering projects of this country. The need for a link between Cape Breton and the mainland had always been apparent, he declared. The problem had been how the link should be built. High and low level bridges had been considered, as was also a tunnel. A causeway proved to be the final solution.

The minister went on to tell of the great contributions which Cape Breton's heavy industries centred upon Sydney had made to the economy of Canada in peace and war. He pointed out the difficulties these industries had faced by having only ferry transport across the strait. The causeway, he said, would greatly relieve those difficulties. It would be to the benefit of Cape Breton, Nova Scotia, the Atlantic Provinces and the whole of Canada.

Mr. Howe spoke from a platform erected upon the roadway of the causeway. Other distinguished platform guests and speakers included the Hon. Alistair Fraser, Lieutenant-Governor of Nova Scotia, the Rt. Hon. George Marler, Federal Minister of Transport, who introduced the speakers, the Hon. Henry D. Hicks, Prime Minister of Nova Scotia, Mr. Donald Gordon, President of the Canadian National Railways and Mrs. Angus L. Macdonald, widow of the late Premier of Nova Scotia.

Following the invocation by the Ven. A. F. Arnold, Archdeacon of Cape Breton, the Rev. S. J. Macdonald gave greetings to the audience in Gaelic, an event which provided considerable pleasure to the predominantly Scottish gathering.

The Hon. Henry D. Hicks then spoke upon the unity of all Nova Scotians which is symbolized by the causeway and paid tribute to the men who had conceived and carried out the undertaking. "Only a very short time ago," he said, "No man could have stood where we are standing now." He paid warm tribute to the memory of his great predecessor, the Hon. Angus L. Macdonald, whose dream the causeway was and who lived to dump the first truckload of rock fill into the Strait.

Other speakers followed with tributes to the people who had worked to make the causeway a reality. Many spoke with feeling of the part played by the late Angus L. Macdonald and the place which he holds in the hearts of his people.

When Mr. Howe raised the claymore to cut the ribbon, a very light passed the signal to the HMCS Quebec, laying 400 yards off-shore and, as the ribbon was severed, a salvo of guns fired a salute from the cruiser.

Last of the platform speakers was the Most Rev. J. R. MacDonald, Bishop of Antigonish, who delivered a message. The Bishop expressed three hopes—that this physical bond should be an instrument of bringing people closer together, that the material progress the causeway offered should extend to all and that the causeway might prove a symbol of the strength of Nova Scotia's solidarity and the unity of Canadian citizenship.

God Save the Queen was played before the ceremony and O Canada brought it to a close. As the final strains of the latter died away, workmen from Nova Scotia's Department of Highways moved with practised precision to dismantle the platform and, within ten short minutes, the hundred pipers were in position to lead the procession across the causeway.

The procession formed up with the distinguished visitors immediately behind the pipers. Then came the junior girls' pipe bands from the various districts of Nova Scotia, and, following them, the general public. As the column began to march HMCS Quebec again fired a salvo in salute and from the pipes rose the symbolic strains of the Road to the Isles. Thus was fulfilled the desire which the late Angus L. Macdonald expressed when the original plans of the causeway were discussed.

The procession marched the length of the causeway and proceeded with highland games and dancing. The causeway and the games' field were gaily decked with bunting and cheering crowds lined the route and snatched vantage points upon rocks and hillsides to watch and applaud.

Cromags and stoles were presented to special guests and beautifully designed and illuminated souvenir programmes were distributed to other people attending. The atmosphere was strong with emotion, even nostalgia, for Cape Breton had worked for many years for this solid link with the mainland of their Province. This was more than the opening ceremony of a great construction project. It was a symbol of achievement.

To Hold Closing

Aldercliff Boys' Camp, Weymouth North, will hold their closing on Sunday afternoon, August 21st, at 2 p.m. Field events will start off the program, the 1st being the running broad jump and high jump. A game of football follows with basketball and catch-ball, the

last named by the youngest boys. Swimming and diving relays, individual races and other special events follow, all of which is a combination of events by the Reds and Greys. Since the opening of camp the Reds and Greys have worked to see which side would prove the better for this day which is so important to the boys.

The public are not only welcome, they are invited to attend this field day and lend encouragement to the boys and their leaders.

Camp will close on August 25.

Mr. and Mrs. Stanley Warwick and family, of Truro, are visiting this week with Mrs. Philip Kaye.

Letter To The Editor

Editor of the Courier, Digby, N. S.

Dear Editor:

The Town of Digby at the present time is considering the feasibility of installing a modern system of garbage and rubbish disposal. This method is called a sanitary land fill and is being used in many towns and cities in Canada. Its operation is simple—with a caterpillar tractor a trench is dug 6 to 8 feet deep and the garbage and rubbish, after crushing, is buried by replacing the original earth from the trench.

This method of garbage disposal is far superior to the method of open dumping at present being used in this town. (Please turn to page 5)

IN MEMORIAM—In memory of a dear husband and father, Oscar R. VanTassel, who departed this life August 19, 1933. We little knew when we awoke that morn.

The sorrow the day would bring. For the call was sudden, The shock severe, To part with one we loved so dear.

Sometimes it's hard to understand But in His wisdom God has planned beyond our power to see. God gave us strength to fight it And courage to bear the blow, But what it meant to lose you No one will ever know.

Always remembered by his wife and daughter, Edna Stark, sons Eric and Earl. 50:1ip

CELEBRATE 25th WEDDING ANNIVERSARY

Mr. and Mrs. Harry Melanson recently celebrated the 25th anniversary of their marriage when on the evening of July 25th they held "open house" at their home in Weymouth North. They were pleased to have with them their daughter, Lucy, who came from New York, and during the evening some 150 other guests came to extend congratulations.

The home was prettily decorated for the occasion in pink and silver, having a decorated arch under which the couple stood to receive their friends. Many gifts of silver, linen, and money were received by Mr. and Mrs. Melanson during the evening.

Finding the home so crowded that dancing could not be held there, they retired to the Legion Hall where with Smoky and his boys as musicians, modern and old style dancing took place, also step-dancing and singing led by Smoky, made up the evening's entertainment.

An 18 pound anniversary cake featured the delightful luncheon served, the cake being decorated with pink and silver trim and served to each guest by Mrs. Melanson. Their friends wish them many more anniversaries to come.

Human Beavers in Buckskin Bee

Here, in the top photograph, are the four winners of the 1935 Canadian buckskin contest sponsored by the Woodlands Section of the Canadian Pulp and Paper Association. Left to right: Gregoire Aube, m.c.; Emile Ouellette, James McLaren Co., Buckingham, P.Q., 4th with an 8.5 second average for six cuts in 10 inch spruce logs; Fernand Morin, Quebec North Shore Paper Company, Baie Comeau, P.Q., 1st with 7.4 seconds, the new champion who won the Woodlands Section trophy, precision trophy, and \$150 in cash; H. Arthur Sewell, the new Chairman of the Woodlands Section, who presented the prizes; Laurent Basque, New Brunswick International Paper, Dalhousie, N.B., 2nd with 7.6 seconds; Paul Lavoie, KVP Company Limited, Espanola, Ont., 3rd with 8 seconds; and W. A. E. Pepler, manager of the Woodlands Section, C.P.P.A. Pictures were taken at banquet of 37th annual meeting of this body in Montreal last week. Shown in action at left bottom, is the new champion, 230-pound Fernand Morin, of Lac Minquill, P.Q., coming through with a 7.4 second cut, fastest of the meet. Taking time off to call on another woodcutter of note, in picture at right, are champ Morin and Paul Lavoie. Their friend is Joe Beaver, forest fire prevention mountaineer for the animal kingdom, is appearing in a wild life conservation display at the Montreal Sportsman show. The beaver has a long way to go to equal the production of hand-some Paul Lavoie, of St. Gabriel de Kamouraska, Que., 62", 200 pound fourtime champion of the KVP Company. Over a two-month stretch, in the Fall of 1953, Lavoie earned \$1,200, averaging four cords of pulp-wood per day during the period, cutting, felling, branching, skidding, bucking, and cording the trees. Just in case you want to know what four cords of pulp-wood mean, it represents 40,000 copies of an average weekly. In other words, in two months, Lavoie produced enough pulp-wood all by himself to turn out 2 million copies of this paper.

LETTER TO THE EDITOR

(Continued from page 1)

Our town dump is a frightful mess. It is a definite health menace due to the innumerable flies and brown rats which infest it and the surrounding district. These disease carrying vermin are a menace to the citizens in our town. It well could be that flies in your home have been walking over the rotting and decaying garbage at the dump. Rats carry many different types of disease-producing germs. They have bitten at least two children in houses near the dump.

Besides the health problem of the present dump there is the putrid odor formed by the decaying organic material combined with the continuous smoke arising from the burnable trash. When these odors blow toward town houses in the vicinity become filled with the foul smelling odors.

I, as Health Officer for the Town, as strongly in favor of the Council's action of calling a ratepayers' meeting for the purpose of purchasing a machine for this new up-to-date sanitary method of garbage disposal. This disposal system when well controlled and well run would be a definite and long awaited improvement to this town.

Dr. Douglas E. Lewis,
Medical Health Officer.

PYNE'S MARKET

CASH CARRY

On Sunday, August 7th, in company with some two to three thousand other people during two outdoor church services at Berwick, I was privileged to hear a great and good man, Dr. James H. Robinson by name, speak on the Christian Way of Life, something of its problems, challenges and its reward. The sermon in the evening was mostly in regard to unfinished business for the Christian and was especially thought-provoking.

Dr. Robinson pointed out to us the great opportunity and importance for the church of Jesus Christ to win the people of Africa for the Christian cause and told us of one important and practical way we all can help, and that is by donating good literature in book form for both children and adults, such as educational text books and good informative books of all kinds that may be more or less surplus around our homes. Books should be in good condition. Good literature, well illustrated, is badly needed in Africa where many thousands even though taught to read haven't much of anything to read.

It was very pertinently pointed out that other people with different ideology than the Christian Way of Life, are seeking to win undeveloped Africa. Africa is rich unto harvest, firstly for man himself and also in natural resources. Surely all Christians should be very concerned with the business of winning Africa for the Christian cause.

In response to the appeal for literature mentioned above, it is asked that such be mailed to Rev. B. R. Tupper, President Berwick Camp Meeting Assoc., Berwick, N. S. Please be reminded that good literature is very important to any people whereas it goes far in forming their way of thinking, and as the old and true saying goes "as a man thinketh in his heart so he is." If anybody hasn't any books, of course money is always acceptable and needed for all such ventures to meet shipping costs, etc., and can be used to buy books. We were informed that one shipping company will carry books free of charge across the water to Africa whereas the owners of this company are of Christian mind and believe such a project to be of good value.

Dr. Robinson proved himself to be a man of great experience and a speaker capable of holding the interest of many people for long periods of time, resulting in a stirred congregation for good. A man of world wide fame, this man is a negro with an admirable record for any man and a person who can show all those who are open to instruction that we are all God's children, the soul of each just as important as the other, each as deserving as the other for a chance to live the full and best life, and that nothing good should be denied one by the other because of color.

On Tuesday, August 9th, a certain man approached me for conversation on the subject of color discrimination as practised in Digby town. I was sorry to hear about this and, so determined to write this letter regarding the problem. There is a problem because the general public for the most part makes it or allows it to be so. When certain places of business in our town will not serve some people because of unrighteous objections from some other people, then the voice of the professing Christian must be heard or surely it is better for that church member or adherent to denounce his allegiance to any and all churches. Of course any person should be decent and willing to pay the regular price in regard to services asked for, and that I think should be all that is required from a person of any color in order to receive any good service offered the public by any establishment. If the customer is not decent in any way that is required from all customers, then let proper and considerate action be taken for the benefit of all. Surely people of any color should not be persecuted because of some persons that may be undeserving. If ignorance is the cause of indecency, are we not all to blame to some extent, and does it not point to the fact that there is much work and teaching to be done at home, church and school.

The Story Of St. Matthew's Church, Deep Brook, N. S.

(Continued from last week)

The late Cereno Purdy donated the land, and with the aid of his sons and a big plow and scraper, levelled a spot on the side hill to make a suitable location for the Church.

Mr. Chute was three days moving the Church from its former site to the water's edge, and arrangements were made to put it on the scows the next day. That night there came a torrential rain storm, and the freshet washed away the ground under the blockings, and the Church pitched headlong down on the beach. But Mr. Chute got busy early next morning, and had it ready when the scows came just before noon. The scows were grounded, and the Church was moved onto them. The extra weight sank the scows hard down into the sand, but everything went as planned. It was a full hour before high water and the rising tide re-floated the scows and away they sailed up the Basin which was then as calm as a mill pond. And the clear blue sky and bright sunshine seemed to say "All is well. Good luck to your venture."

An hour later the scows were grounded at Deep Brook at a point directly opposite the station. This time the process was reversed. The tide was ebbing and the scows sank deeper into the beach as the water receded, but as the Church was quickly moved from the scows to the blocking already prepared, the scows re-floated and were taken to Annapolis that same afternoon, a pretty piece of engineering successfully accomplished. The scows were loaned by the late David Rippey, grandfather of Mr. James Rippey, Town Clerk of Windsor, and Mr. Max Rippey of Annapolis. The towing was done by S.S. "Eva Johnson" through the kindness of the late George E. Corbitt of Annapolis, owner of the tug.

The sudden change from a terrific storm during the night, to a calm peaceful day, seemed to have been an act of Providence in aid of a good cause, that would bring to mind the words of the little girl in "The

of Mr. and Mrs. George Oickle on Sunday.

Miss Louise Smith, of Saint John, N. B., spent the weekend at the home of her parents, Mr. and Mrs. John Smith.

Miss Irene Smith, who has been spending two weeks in Saint John, N. B., returned to her home on Saturday.

Mrs. L. V. Harris had as luncheon guests on Monday Mrs. B. Hicks and Mrs. Leta Scutmore, of Montreal.

Tempest".... Then spoke the little maiden as she held the Captain's hand, Isn't God upon the ocean just the same as on the land? Or the old hymn, "No tempest shall swallow the ship where lies the Master of Ocean and Earth and Skies".

What an opportunity to have held a service of praise and thanksgiving in the Church while it was sailing up the Basin, a veritable floating Bethel. Three days after the landing, the Church was located on its present site and soon after opened for service. The seating accommodation was very poor. Crude benches of scantling and rough plank, no two alike, served till winter came, when the first settees were installed. These were made in the old shop at the old Purdy homestead, out of lumber stored overhead. The Gothic-shaped ends were all sawn on a jig saw by foot power, and the lumber planed by hand, and the work all done by the late Cereno Purdy and his stalwart sons. Mr. James Purdy, of Bear River, donated a large can of walnut stain, and the Church for the first time had a uniform and fairly decent seating equipment.

These seats though sturdy and fairly comfortable were hardly in keeping with the requirements of modern Church seating, but answered the purpose fairly well, until 1920 when modern pews of solid oak were made and installed by the late C. G. (Corey) Harris. One year later, 1921, a pulpit prayer desk, and lectern were built and put in place by R. W. W. Purdy then residing in Halifax. Two years later the Litaney Desk, (made of wood left over and reserved for that purpose) was done in the same shop now operated by Mr. Arnold Purdy; the Chancel chairs were procured through the efforts of Mrs. J. W. Dittmars, grandmother of Mrs. W. H. Spurr. Mrs. Dittmars arranged the purchase of the chairs from the late John Turnbull, of Bear River, who, (though not an Anglican) offered to supply one chair free of cost if the Church would pay for the other. Mrs. Dittmars gave freely to the required amount and with small contributions from a few friends, the chairs were placed in the Chancel very soon after the moving of the Church.

About the same time, Mr. McCully procured Altar hangings and the two banners from England. The banners still adorn the Sanctuary on each side of the Altar. The first banners for the desks of the Chancel furniture also came from England. Soon after the Church was put on foundation, the chestnut trees on the slope were presented by Herbert A. Dittmars, son of J. W. and Bethlah (Andrews) Dittmars.

An important event in the life of St. Matthew's was the remodelling of the Church in 1890. Rev. John Withycombe was rector at that time, and he,

together with the people, thought it time that a new and larger chancel should be built. The original chancel was very, very small — just room enough for a small communion table in the center with perhaps a two feet each side and three feet in front. The late George E. Dittmars, Charles Dittmars, and R. W. W. Purdy were appointed a building committee. Assisted by the rector they prepared plans and called for tenders. The contract was awarded to Messrs. Purdy Brothers (Albert and Robert) who at that time conducted a carriage and wood-working business in the buildings directly across from the old Purdy homestead. The contract price was \$166.00 and called for inside finish of clear spruce sheathing. When the Chancel was nearing completion the new paneled walls of the Chancel made the rest of the Church look very shabby, so the panel work was extended to the ceiling and side walls of the body of the Church at a total cost of near \$350.00.

Mr. Withycombe resigned soon after, but had the satisfaction of seeing "Little St. Matthew's", the Church which he learned to love during his rectorship of three years, transferred into a little gem among country churches.

When the Church was at Smith's Cove it had a wrought iron finial on the top of the spire about eight or nine feet high, consisting of center bar with dozens of fancy iron scrolls branching out in all directions, a fine specimen of hand forging, but having no significance whatever in church architecture. When the Church took its plunge the night before being loaded on the scows, the impact was so great that the

finial was bent over at quite an angle by its own momentum. After the Church reached its new site we got a rope to the top of the finial and a number of willing helpers succeeded in bending it back to practically an upright position.

Some years later, the big black iron monstrance was removed, and the present white cross erected by the late George E. Dittmars who will always be lovingly remembered as "The Young Squire".

The Altars basin and prayer books for prayer desk and altar were presented in 1893, also the Font which bears the inscription, "Presented to the Chapel of St. Matthew's in memory of the baptism of Sarah A. Dorsey by Mrs. A. T. Shaw, Clarinda, Iowa." Mrs. Shaw, who was formerly Elizabeth Purdy, was the eldest daughter of the late Henry and Letitia Purdy and lived in Deep Brook many years previous to moving to Iowa, and Miss Dorsey was the daughter of Mrs. Shaw's first husband.

The first bell of St. Matthew's was procured through the efforts of the late Henry Fowler Vroom, grandfather of the present Post Master, Major Robert J. Vroom. The bell weighed about 100 pounds and had been used as a working bell in the shipyards near Digby. Mr. Vroom (Uncle Hank) collected \$12.00 from a few friends and the bell was bought and put in the belfry about 1885, where it served to summon the people to divine worship for nearly 15 years.

THE CARTERS ARE LUCKIER THAN THEY KNOW!

Like all families, the Carters have plans and dreams for the future. But, unlike the families of just a generation ago, they have a better chance of making those dreams come true.

Why? One important reason is because life insurance is much more flexible today. During the past 25 years, many new policies have been created. The modern "family income" policy, for instance, provides maximum coverage while children are young, and reduces in amount as they become self-supporting. Other policies have been developed to cover mortgages, and to provide retirement income to fit in with the government old age security benefits.

This wider choice reflects just one of the ways in which life insurance companies and their representatives have adapted their services to the changing needs of Canadians in all walks of life!

Back in the nineties a patent was issued for an irrigating device consisting of a balloon, perforated water pipes... and an active farmer to haul the whole contraption along by its guy ropes.

Today, of course, irrigation is a lot easier proposition. Aluminum irrigation tubing, for instance, can be laid, lifted, stowed about with the greatest ease. With it one man can water more land than an army of balloon operators. Shows how lightweight, low-cost aluminum (Canada is the world's most efficient producer of the metal) makes a simple job out of a tough one.

HERE IT IS!

The Furnace that removes its own ashes!

Now you can enjoy the financial advantage of heating with coal and be completely free of the chore of shovelling coal and carrying ashes.

Following intensive research by Bituminous Coal Research, Inc., Dosco engineers have perfected a radically-different type of domestic furnace which makes heating safer, cleaner, cheaper, than ever before. It is unsurpassed for comfort and convenience and actually pays for itself in fuel savings.

Check these features!

NO ASHES TO CARRY — Ashes are automatically carried by vacuum to a container inside or outside the house.

ABSOLUTELY CLEAN — It is impossible for ash or dust to enter the furnace room.

ECONOMICAL — Cuts at least 20 per cent from the cost of operating a hand-fired furnace, with relatively higher savings over other types of heating systems.

SAFEST YET — Automatic feeding assures a steady heat and only a small amount of coal is in the furnace at any time.

FULLY AUTOMATIC — Feeds itself and rejects the ashes without any demand on you. Thermatically controlled.

The New Dosco Furnace will be demonstrated in your district soon — be sure to see it

Purchase and installation of Dosco's new furnace can be financed through a Home Improvement Loan available under the National Housing Act. See your Bank.

Golden Fish 'n' Batter

Heat shortening (it should be at least two inches deep) to 370° in a deep-frying pan. (If a fat thermometer is not available, test fat temperature with a cube of bread—the bread should brown in 60 seconds). Cut 1 pound fillets of any suitable fish into serving sized pieces and sprinkle lightly with salt. Mix and sift into a bowl 1 c. once-sifted pastry flour (or ¼ cup once-sifted all-purpose flour), 1½ tps. Magic Baking Powder and ¼ tsp. salt; stir in ¼ c. very cold water and beat until batter is very smooth. Dip fish pieces in batter and then fry in heated shortening, turning once, until golden. Drain thoroughly on absorbent paper, sprinkle lightly with salt and keep hot until all fish has been cooked. Yield—4 servings.

Chevrolet!

Dramatic Proof of Chevrolet's Success!

Everywhere in Canada, consistently, more Chevrolet cars are sold than those of any other manufacturer. And now, to a greater extent than ever before, the 1955 Chevrolet is the favorite of Canadians from coast to coast.

This is Important To You!

Because Chevrolet builds so many more cars, each one costs less to make. That's the simple, provable effect of volume production. And this saving is passed on to you in the form of more value, and more features for the money than you can get with any other car on the market. Also, compare Chevrolet's prices and you'll know for sure at least one reason why so many more people buy Chevrolet year after year—especially this year.

Day by day, Chevrolet gains in popularity—value—sales!

DIGBY HOSPITAL FAIR GROSSES OVER \$3000

Despite the fact that, for the first time in its long history, the Digby General Hospital Fair this year struck a wet day for "fair day", the event was as usual a most successful affair.

Although complete returns have not as yet been tabulated, it is expected on the basis of present figures the fair will gross \$3,143.92. (A breakdown of receipts is shown on another page of the Courier).

All of the booths at the fair, including the various games, did well, and were well patronized by the public. Many of the Digby Hospital Fair, these under the sponsorship of the Ladies' Hospital Aid, featured a multiplicity of lovely handmade goods, home made jams, jellies and other goodies and products of the farm and field.

Officials of the fair express themselves as delighted with the results of the fair and have extended their thanks to all those whose work, interest and assistance made the fair a success.

A Dissatisfied Hen

Joseph Jefferson has a hen on his farm at Mount Pleasant that is evidently dissatisfied with its lot as a member of the female sex.

The hen, now a year and a half old, has started to change its sex and is developing all the characteristics of a rooster. It has grown a heavy comb and wattles, developed the lordly strut of the male and has lately started to crow, perhaps about its strange achievement.

FIREMEN LEAD IN SOFTBALL LEAGUE

In a regularly scheduled softball game here Thursday evening, which was fast and exciting, the Digby Fire Department Smokeaters defeated the South End Blockbusters 9-7.

Both teams played good ball and went scoreless until the last half of the fourth when the Firemen pushed across four runs. South End got six runs in the fifth. In their half of the fifth the Firemen scored three more, and South End got one lone tally in the sixth, which tied the score at seven all. In the last of the sixth two more runs came in for the Smokeaters. Both teams went scoreless for the remainder of the game, thus making the final score 9-7 in favor of the Firemen.

The Smokeaters used two pitchers for the win. South End's ace hurler, Donnelly,

went the distance and suffered the loss, his third of the season.

In other games last week, South End defeated Smith's Cove by a score of 27-7. Tuesday evening the Firemen were leading the Legion and Whole-salers 13-2 when the game was called on account of rain in the fourth inning. It is expected the play-offs will begin in a week or so, at which time it is hoped that Mayor Guy E. Morehouse will gun the first pitch to the plate, thus officially opening the first game of the play-offs between the softball teams in this district.

Illustrated—Pontiac "Laurean" 2-Door Sedan
 A GENERAL MOTORS VALUE

Pontiac owners are indeed car-wise. They've found
 that Pontiac's choice of 23 models gives them the
 styling, detailing and overall beauty they prefer.
 That Pontiac's unequalled choice of engines and
 transmissions gives them the power and performance
 that they wish. That Pontiac's unbeatable value
 gives them more car for their money!
 Visit your Pontiac dealer today. One look, one drive,
 and you'll know why, this year, car-wise Canadians
 have chosen Pontiac above all others.

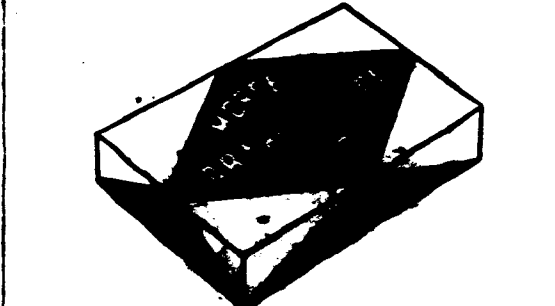

No wonder buyers from both ends of the price scale are switching to

In Memoriam

IN MEMORIAM — In loving memory of our dear son who passed away August 30th, 1951.

Ever remembered by his Mum, Dad and Daddy, Pauline and Ross Boyce.

God knew that he was suffering. That the hills were hard to climb.

Away in the beautiful hills of God.

We will meet our loved one there. 51:1p

The roar of an aircraft engine during ground test can rattle windows and nerves for blocks around. So we're glad to report that aluminum has turned up as a noise-absorbing "honey-comb" in an aircraft company's test-cell. Hundreds of aluminum tubes of differing diameters and lengths, filled with absorbent, sound-baffling material, make up the end walls. And we are told that by the time the giant roar has bounced around in these aluminum mazes it comes out the other end thoroughly "baffled" and weakened to a hum. We expect there are lots of aluminum boosters around that factory!

NEW FULLY-AUTOMATIC FURNACE Actually pays for itself

The most modern development in domestic heating will be demonstrated
in this area soon. You will want to see it.

Perfected by Nova Scotia engineers, this is the furnace which is making
news in the heating world. In gleaming white enamel, it is only
40 inches long, 30 inches wide, and 48 inches high. It costs little to buy and
install and this cost is quickly returned in fuel savings.

COMFORT AND CONVENIENCE

This new principle of heating gives the householder maximum comfort and unsurpassed convenience. No stoking — no ashes to carry. And it is the most economical heating system yet devised.

IT REMOVES ITS OWN ASHES

With modern treatment of coal, most of the ash is eliminated. The small residue is carried by vacuum to a canister which can be outside the house.

IT CUTS FUEL BILLS

Coal is the most economical fuel available in Nova Scotia. This new furnace makes a further reduction and cuts costs of fuel at least 20 per cent lower than hand-fired furnaces. Savings over other type heating systems are relatively higher. It holds a fire with as little as 3/4 of a pound of coal an hour.

IT IS ABSOLUTELY CLEAN

It is impossible for ash or dust to enter the furnace room. With this furnace, the furnace room floor can be as clean as the living room table.

IT IS FULLY AUTOMATIC

It feeds itself and carries the ashes — A thermostat regulates the heat.

Watch for the demonstration
of this radically different
home furnace.

Purchase and installation of Dosco's new furnace can be
financed through a Home Improvement Loan available
under the National Housing Act. See your Bank.

Reds Defeat Grays At Aldercliff

In one of the closest battles in many years, the Reds came from behind to defeat the Grays on Field Day at Camp Aldercliff on Sunday, August 21st. The Reds' strength in the swimming events cut down an early Gray lead to give the former a victory by the narrow margin of 205 to 202.

The Grays, under Carl Hansen Jr., had built up a regular season margin of 123 to 90. The Reds, under John Warren, fought hard to cut down the lead in the track and field events but were unsuccessful. The Grays won the track and field section by a single point 63-61.

The Grays added another four points by winning at Intermediate basketball and holding the Reds to a tie in Senior Touch Football, while the latter gained back two points by winning the Junior Catch Ball game.

As the scene changed to the Aldercliff pool, the Grays held a seemingly safe lead of 26 points. The Reds, admittedly the stronger at water sports, fought furiously to cut down the Gray lead. The Red victory in the water relay for seniors was won by the narrowest of margins as Hilkin Kuck edged out Mike Noble in a great finish. Those five points gave the

Reds their victory, even though the Gray junior relay team was an exciting race in the final event of the day.

One of the largest crowds of parents and friends of Aldercliff campers, an estimated 200 persons, was on hand to watch the spirited action.

High scorer of the day was John Dewey, of the Red Intermediate, with 21 points. Michael Noble led the Senior contestants with 14½ points. Walter Didur, of the Grays, won Junior honors with 15 points. David Rogers was second among the Juniors with 13 and Hugh Smith was third with 9 points. Bobby Schackner was second among the Intermediates with 9 and Andy Tulk was third with 6 points. Among Seniors, Paul Doornbos was second with 13 points and Larry Longworth was third with 9 points.

Monarchs Defeat Ravens 3-0

The Weymouth Monarchs defeated the Digby Ravens with a 3-0 win at Weymouth Thursday night.

"Buddy" Thurber hurled a no-hitter for the Monarchs in the seven inning encounter. He possessed good control as he walked two and hit two.

Thurber also got his team off on the right foot offensively

when he poled a circuit clout to deep left field in the third inning.

The Weymouth defence was good, as only one error was committed, when second baseman "Ballie" Bishop bobbled a grounder. Paul Belliveau was particularly great at third base, making outs from screaming ground smashes across the infield, which looked like sure hits.

The no-hitter for Thurber was the first of the year for the Monarchs. Avar "Whiz" Wagner turned the trick against Bear River last year. Thurber's record now stands at 4 wins and no defeats.

DR. J. R. McCLEAVE WINS IN GOLF MEET

Dr. J. R. McCleave of the Digby Golf Club was the winner in the Class F division of the Maritime Senior Golf tournament held on the beautiful eighteen hole Digby Pines Hotel Golf course.

Dr. McCleave walked off with the gross honors in the Class F field, scoring a 199. He was followed by W. B. Ward of Ken. Wo with a 204. An Aroostook golfer, E. J. Johnston, took the net prize with a 125, followed by O. V. Kennedy of Eden, who registered a net of 136.

In the Class A division, competing for the Maritime championship and the Holman Cup, top award for Maritime Senior Golfers, Percival Streeter of Riverside staged a rally in the second day's play to mark a tie with Francis Mavor of Edmundston, forcing an eighteen hole playoff for top position.

Last year the same situation developed with Streeter and Lalng being tied at the close of regulation play for top honors. In the playoff match last year Lalng edged out Streeter to take the cup.

Tuesday afternoon the tie up situation in the Class A division was somewhat overshadowed by the first hole-in-one to be scored

In thirty-one years of Maritime Senior tournament play, H. F. McNaughton of New Glasgow performed the feat on the 145 yard eighth hole.

In the tie breaking eighteen hole playoff match yesterday morning Francis Mavor of Edmundston took a four stroke win from Percival Streeter to win the Holman Cup, emblematic of the provincial championship in the Maritime Senior Golfers Association.

Streeter became runner up for the second successive year in the playoffs. He tied last year with J. C. Laing of Brightwood who went on in the tie breaker to take a win from Streeter.

Yesterday morning's eighteen hole match saw Mavor take a 39 for the first nine against Streeter's 41. On the way in Mavor clocked a 40 to Streeter's 42, giving Mavor a total for eighteen of 79 against Streeter's 83.

The two top notchers split ten of the holes with Mavor taking one stroke leads on the sixth, seventh, ninth, eleventh, twelfth and sixteenth. Streeter took a one stroke lead in the fourth and eighteenth to cut down Mavor's margin to four points.

WEYMOUTH CHURCH MARKS ANNIVERSARY

On September 4th, 1953, special anniversary services will be held at the Church of Christ (Disciples), Weymouth, this being the fifth anniversary of the congregation and the dedication of the new church building (shown above). The services will be held at 11 a.m. and 7:30 p.m., with the congregations of Southville and South Range joining in these services. A combined mixed choir will render special music at the morning service and at the evening service a full male choir will sing. The church will be opened in the evening. A cordial invitation is extended to all to attend these services.

The minister of the church, the Rev. John A. Carr, will conduct the services. Mr. Carr came to this church in July, 1953, to take up his duties as pastor.

Mr. Carr began his ministry in Toronto, Ont., where he graduated with honors from the college there, and after taking a year of post-graduate work served in Ontario in various fields. Being a native of Prince Edward Island, he soon returned to the Maritimes where he has served successfully in a number of pastorates on Prince Edward Island, New Brunswick and Nova Scotia, coming to his present ministry from Milton, N.S., where, during four years of service seventy members were added to the church. Rev. Carr has always been a keen student of the Scripture and has continued his studies through a very busy ministry, this year, in July, taking a three weeks special course in Emmanuel College, University of Toronto, on "New Testament, Church History, and Doctrine." At present Mr. Carr serves the All-Canada Committee of the Churches of Christ in the capacity of Vice-Chairman, and is a member of the Board of the Maritime Christian Missionary Society which transacts the business of the Churches of Christ in the Maritimes.

Mr. Carr has just returned from attending the 5th World Convention of the Churches of Christ which convened in the Maple Leaf Gardens, Toronto, Ont., with more than 7,000 registered and 10,000 in attendance from more than 30 countries of the world.

Guest speaker for the 5th anniversary and roll call services of the Weymouth Church of Christ (Disciples) this Sunday, September 4th, will be the Rev. Maxwell James Webb, of Kendallville, Indiana, who was minister of the Weymouth church when it was built in 1950.

Minister of the Churches of Christ (Disciples) at South Range, Southville and Weymouth from 1949-1951, Rev. Webb will be returning to this area for the first time since his departure. From here, Rev. and Mrs. Webb went to Franklin, Indiana, where he was minister of the Union Christian Church in that city. In March, 1954, Rev. Webb assumed the pastorate of

He was also honored with election into the Theta Phi fraternity, an international society for ministers of all churches acknowledging scholarship and contribution to the ministry.

Mrs. Webb will accompany her husband during his visit to Weymouth.

Mr. Webb will speak to the Christian Men's Fellowship meeting on Monday night, Sept. 5th, at 8 o'clock in the Weymouth Church of Christ. All men are invited to this meeting.

CLAMS ARE MENACED BY GREEN CRABS

According to a recent bulletin from the Atlantic Biological Station at St. Andrews, N. B., the green crab, which has recently made its way into the coastal waters of eastern Canada, is proving a very serious menace to the clam population of these waters.

In the last ten years the green crab has worked its way up the coast of Maine and in 1951 appeared in Canada. Now the green crab occupies both the Nova Scotia and New Brunswick side of the Bay of Fundy and last year there was evidence from Wedgeport that it is rounding the southwestern tip of Nova Scotia and spreading eastward along the outer coast.

It is increasing rapidly in this area and young molluscan shellfish are its favourite food. Wherever it has appeared it has attacked clam stocks and in some cases practically wiped them out. We know little about its food habits or what would happen if it pushed its way into other clam areas or into oyster areas like the Bras d'Or Lakes and the southern Gulf of St. Lawrence.

While searching for some means of control, the Fisheries Research Board is trying to keep up to date in knowing how far the animal has extended its range. We need all the information we can get about this new menace to our shellfish stocks.

The green crab usually measures two to three inches across the shell and on first sight it is often mistaken for one of the two species of rock crabs com-

monly seen along our shores and taken in lobster traps. The rock crabs ordinarily grow as large as five to six inches across the shell and their greater size alone may often distinguish them from green crabs.

As the name suggests green crabs are greenish in general appearance but many of them, especially older ones, are so mottled with black as to scarcely justify their name. Ordinarily rock crabs are brown or reddish-brown and can thereby be distinguished from green crabs.

The habits of green and rock crabs differ, too. Green crabs live from high-water mark down to a few fathoms below low-water mark on rocky, sandy or muddy shores. They are quick walkers, able swimmers and expert burrowers in sand. When the tide is low they stay on the beaches burying themselves in sand or hiding under weed or stones. If cornered they fight fiercely. By contrast rock crabs tend to spend their time below water and except when small are not common on beaches at low tide. They are clumsy walkers.

Because the invasion of green crabs is such a menace to the molluscan shellfish industry the Fisheries Department is urging everyone, especially those in Western Nova Scotia, to keep a sharp lookout for them and to report any discoveries. They ask that, if any are found, the finder report to his nearest Fisheries Officer and if possible, give him samples. If the finder prefers he may write and send a sample directly to the Director, Atlantic Biological Station, St. Andrews, N. B.

Completes Training

Alveretta Thibault, daughter of Mr. and Mrs. William G. Thibault, of Plympton Station, has now completed her training at the Victoria General. Miss Thibault is a graduate of the Digby Regional High.

Former Courier Bookkeeper Passes

Miss Catherine Warne Farnham, aged 55, passed away at her home on Queen Street here on Friday evening, August 26th, after a short illness.

Born in Weymouth, Miss Farnham was the daughter of Thomas S. Farnham, well known former Digby newspaperman, and the late Mary Davies Farnham. She spent much of her lifetime in the United States but returned to Digby with her father some eight years ago and was employed until her illness as bookkeeper with the firm of Wallis Print Ltd.

She is survived by her father, one brother, Bertram Farnham, of Needham, Mass., and a sister, Norma (Mrs. J. A. Falconer) of Long Meadow, Mass., who cared for her during her illness.

During her years in Digby Miss Farnham was very active in the work of the Order of the Eastern Star here and was a Past Worthy Matron of St. Mary's Chapter, O.E.S. She was also a member of the Rebekah Order.

Funeral service was conducted at Grace United Church by the Rev. James Brooks, Pastor of the church. An Eastern Star service was also conducted by the officers and members of St. Mary's Chapter. Following the funeral services her brother, Bertram, accompanied the body to Boston where she will be interred in the family lot in Forest Hill cemetery.

Traffic Disrupted As Bridge Rammed

A run away barge on the Bear River on Sunday has tied up trains from Annapolis to Digby for an indefinite time. The barge accomplished this by ramming into the upright girders of the Dominion Atlantic Railway bridge which spans the Bear River and over which all rail traffic between Halifax and Yarmouth on the Valley route must pass.

The pulp barge was being towed by the Saint John tug "Ocean Kiwi," when a gust of wind broke the hawser and sent the barge floating down river into the girders of the Bear River Bridge.

To all outward appearance the bridge suffered little damage but it is understood examination by an engineer from Montreal revealed some serious structural damage to the span.

While the bridge is out of commission all trains are being stopped at Annapolis and passengers are being transported to Digby by motor vehicle. Express and mails from Digby, the C.P.S. Princess Helene and from points west of Digby are being transported to Annapolis where they are put on the train.

It is not known locally how long the service will be disrupted but an estimate of ten days has been heard. In the meantime freight shipments across the Bay of Fundy have been curtailed resulting in a temporary cutting of staff at the C.P.R. wharf here.

Plan Good Program For Fisheries Exhibition

More than twenty-four members of the Executive Committee of the Nova Scotia Fisheries Exhibition met recently and presented reports and further suggestions for additional features for the biggest show of its kind in North America.

The procession on Wednesday the 14th of September will, it is expected, well surpass any previous attempts as local and outside organizations have indicated their intentions to enter the parade. Reports from the Chairman in charge of the children's parade and competition promises to outclass anything ever attempted. Mr. Lloyd Crouse said that entries for the "Queen of the Seas" contest were still coming in and more were expected.

A demonstration of search and rescue work as now carried on by the R.C.A.F. will take place during the big show and there will be a display of rescue equipment on display on the Exhibition grounds.

The programme has been finalized and is now in the hands of the printers. Among the many items of entertainment the visitors from Gloucester will be guests at the Lunenburg Yacht Club on Tuesday afternoon (the date of their arrival) and a number of other social functions at which they will be present.

At this meeting the dates set for the 1956 Exhibition were September 11-15th.

SUDDEN DEATH GAME TO DECIDE SERIES

The battle to gain supremacy in the Digby and District Softball League is moving at a fast and furious pace.

Last week South End moved from third place, and came within 1/4 a game of first place, which is strongly held by the Digby Fire Department Smokeeaters. Monday evening the Legion and Wholesalers team was crushed 11-3. Both teams scored in the early frames at three all, and it was only in the late innings of the game that South End found the range, broke the tie, and won the game.

Thursday evening Smith's Cove was easy prey for the South End Blockbusters, who smashed their hopes of finishing anywhere but in last place. Smith's Cove scored early in the game, but due to the heavy hitting of the South End team could not hold their lead, losing the game 21-8.

Friday evening saw the league leaders go into action against the Legion and Wholesalers. This was a game in which the Firemen turned defeat into victory. The Smokeeaters took an early lead and had the game "in the bag" until starting pitcher Fred Marjoram was knocked off the "hill". At this stage the Wholesalers were leading 9-3. Ray Turnbull came on in relief and gave up two more runs for the remainder of the game. In the last of the fifth

the Firemen got three tallies before pitcher Irv. McKenna retired the side. The score was 11-6 for the Legion and Wholesalers when the Firemen came to bat in the last inning. It was then that the powerhouse of the league began to move forward. A brilliant rally, sparked off by Shell, Parsons and "Doc" Stewart, gave the Smokeeaters new life and three more runs before McKenna finally succeeded in getting two out. As most of his team mates will agree "Ted" Sanford was the hero of the game. With two on, two away, and a 3-2 count, Sanford belted a hard hit ground ball through the infield all the way to the left field corner, scoring the tying runs and himself with the winning run, thus making the final score 12-11 in favor of the Fire Department, and giving them a 1 1/2 game margin over their closest rivals, the South End Blockbusters.

In the final league game between the Firemen and South End Tuesday night the South End team edged the Smokeeaters 14-13 to gain a tie for first place in the final league standings. A sudden death game will be played between these two teams tonight at 7:00 to decide the league champions.

Monday night's game between the Legion & Wholesalers and Smith's Cove resulted in a 14-8 win for the L. & W's.

International Scout Jamboree

Boy scouts attending the 8th World Boy Scout Jamboree at Niagara-on-the-Lake had the opportunity to have a close look at a CBC-TV camera. Six cameras, like the one these scouts are inspecting, were used to cover jamboree activities. F. R. Halhed, (right) of CBC's Outside Broadcasts Department in Toronto, co-ordinated radio and television coverage of the inter-

national event. With Halhed on camera are, (left to right) Stan Gertzbein, Philip Deschamps, Don Young and Jim Worts, all of Toronto. More than 70 producers, commentators, cameramen, technicians and other CBC personnel were required to cover the jamboree for radio and television audiences in Canada, the United States and countries throughout the world.

RATEPAYERS DEFEAT NEW DUMP PROPOSAL

By a vote of better than three to one the ratepayers of the Town of Digby turned down a Town Council proposal to institute a sanitary landfill method of garbage disposal for the town.

The meeting at which the new garbage disposal proposal was voted upon was held at the Court House Friday evening. Some ninety ratepayers attended and the vote was 68 against the proposal to 22 for the suggested new method.

The proposal placed before the meeting called for authorization by the ratepayers of the borrowing of a sum of money not to exceed \$10,000 for the purchase of land and equipment

needed for a system of sanitary landfill method of garbage disposal.

Prior to the placing of the proposal before the meeting a film was shown demonstrating various methods of garbage disposal and outlining the advantages of the sanitary landfill method.

Those speaking against the proposal stressed the amount of money involved and questioned the wisdom of the proposed new site for the landfill operation. All seemed agreed the present dump set up should be dealt with but felt the proposal as placed before the meeting was not a proper or workable solution.

Mr. and Mrs. C. D. Snow are visiting in Cape Breton, and attended the opening of the Causeway.

W. G. Graves, of Aviesford, was a recent guest of Mr. and Mrs. Frank Hazelton.

MARRIAGE

Daniels — Willett

Holy Trinity Anglican Church in Granville Ferry was beautifully decorated with multi-colored gladioli, on Wednesday evening, August 24, for the wedding of Miss Doreen Willett, daughter of Mrs. Florence E. Willett, and the late Gilbert F. Willett, of Granville Ferry, who was united in marriage with Cyril Wesley Daniels, son of Mr. and Mrs. Everett Daniels, of Annapolis Royal.

The double ring ceremony was performed by Rev. W. Evans Jefferson. Miss Patricia Kearns, of Annapolis Royal, was organist and played Handel's "Largo" during the signing of the register.

The lovely bride entered the church on the arm of her uncle, Earl D. Kearns, by whom she was given in marriage. For her wedding the bride chose a floor length gown of illusion net over satin with insets of chantilly lace in a bouffant skirt, and a fitted bodice of matching lace with lily point sleeves. A halo of lace trimmed with tiny orange blossoms held a finger tip veil of tulle illusion. Her only jewelry was a single strand of pearls, the gift of the groom. She carried a beautiful bridal bouquet of American Beauty roses.

The bride was attended by her two sisters, Miss Carolyn Willett, of Ottawa, as maid of honor, and Miss Elaine Willett, of Halifax, as bridesmaid. Both were charming, dressed in floor length gowns of Queen's blue net over taffeta with matching headpiece. They carried old-fashioned nosegays of pastel carnations and roses.

Little Miss Faye Louise Beak, a cousin of the groom, was the winsome flower girl and was dressed in a floor length gown of Daffodil yellow with matching headpiece. She carried a nosegay of flowers.

The groom was attended by a brother, Charles Daniels, of Dartmouth.

Ushers were Wayne Daniels, brother of the groom, and Marshall Turner, brother-in-law of the groom.

Immediately following the ceremony a reception was held at the home of the bride's mother, which was attended by about 100 guests. Receiving with the bride party were the bride's mother, Mrs. Willett, who was dressed in a gown of rosewood lace with navy accessories and wore a corsage of white carnations, and the groom's parents, Mr. and Mrs. Daniels. Mrs. Daniels wore a gown of orchid taffeta with matching hat and a corsage of white carnations.

Following the reception the newlyweds left for a honeymoon trip to Central Canada and the United States.

For travelling the bride chose a powder blue linen suit with navy and white accessories and a corsage bouquet of red roses.

On their return the bride couple will take up residence in Annapolis Royal.

Many friends join in wishing the newlyweds many years of wedded happiness.

Churches Of Christ Hold 5th World Convention

The fifth World Convention of the Churches of Christ convened in the Maple Leaf Gardens in Toronto, Ont., August 16 to 21 with delegates from more than thirty countries attending. The registration went well over the 7,000 mark, and the attendance 10,000.

The World Convention meets at five year intervals in different countries, the last meeting being held in Australia, and the next world meeting to be held in Edinburgh, Scotland, in 1960.

The convention President, Mr. Edgar Gordon Burton, Toronto, President of Simpson Ltd., and Subsidiary Companies, President of Simpsons-Sears Ltd. and Director of the Bank of Canada, speaking at the first session on Tuesday evening, July 18th, warned that disunity among Christian bodies is a poor example to the people of the world whom we urge to become Christians. He said, however, that the Protestant bodies have never worked together as now, and that the Churches of Christ are in full support of inter-church agencies like the World Council of Churches, the International Missionary Council, the World Council of Christian Education, the Bible Societies, etc. He flayed lack of interest in church work among all sects. Mr. Burton listed three explosive forces in the world today as extreme Nationalism, Hunger and Racial Prejudice. He said, "My own feeling is that the average person today wants and needs a religion that is simple and understandable, yet one that is inspiring and that will help him or her live a life as full as possible of those Christ-like qualities which we all admire and all wish to obtain."

Mr. Burton read messages from Prime Minister St. Laurent and President Eisenhower. "May you have success in the promotion of those spiritual values which free men the world over are today trying to uphold," wrote Mr. St. Laurent. "It is inspiring to know that this assembly will bring together distinguished guests from so many nations with a

common belief," said President Eisenhower in his message.

On Sunday, August 21st, 98 ministers of the Church of Christ from around the world occupied the pulpits of the churches of the city, being the guests of many denominations.

The Ministers' Breakfast in the Royal York Hotel on Thursday morning saw some ten hundred and fifty ministers in attendance.

The Women's Luncheon (Christian Women's Fellowship) was attended by fourteen hundred and seventy-five women.

Some of the outstanding guests and speakers were Dr. Jesse M. Bader, of New York, General Secretary, World Convention Churches of Christ; Aurelio De Castro, Manila, Philippines; Leslie M. Frost, Premier of Ontario; Sir Philip Messent, Adelaide, South Australia; O. Frederick Nolde, New York, Associate Consultant to the United States delegation at the United Nations; Director, commission of the Churches on International Affairs; Associate General Secretary, World Council of Churches with portfolio on International Affairs; Lester B. Pearson, Ottawa, Canadian Secretary of State for Foreign Affairs and former President of the United Nations; Eusebio Rodriguez, Buenos Aires, Argentina, South America, Teacher and Lawyer; Peter Solomon, India; R. S. Garfield, Todd, Salisbury, Southern Rhodesia, Africa, Prime Minister of Southern Rhodesia, former missionary for the New Zealand Churches of Christ.

The convention closed Sunday, August 21st, with a great Communion Service in which ten thousand participated, with 250 serving.

Rudd Weatherwax built a \$10 investment into a \$100,000 a year income. He is the owner of Lassie, the most famous of all movie show dogs. One of his rules for the training of a dog is "Do not smoke or drink while training your animal. These make smells that dogs do not like."

Davy Crockett At The Bijou

For three days, Monday, Tuesday and Wednesday, the Bijou will be showing Walt Disney's production of "Davy Crockett", the movie that has delighted millions in the past months. Filmed in Technicolor and starring Fess Parker as Davy Crockett, with Buddy Ebsen and Helene Stanley, "Davy Crockett" is an excellent movie for children filmed and told in a story that only Walt Disney could.

CAPITOL ATTRACTIONS
Playing Saturday only it's a super double bill, "Outlaw Stallion", filmed in Technicolor is the story of a mighty stallion and the love of a little boy who tamed him. The second feature brings those hilarious East Side Kids back to the screen in "Docks of New York", a laugh loaded comedy that all will enjoy.

Monday and Tuesday it's "Blackboard Jungle", the shocking but true story of present day problems in some of our high schools and colleges in a movie that is frightening with the realism that it could happen in our own school. Because of the truth and evil in this movie no one under sixteen will be admitted unless accompanied by an adult.

It's Mickey Rooney in "Sound Off", a movie full of music, laughs and comedy headlining the Wednesday and Thursday attractions. "Sound Off" is in Technicolor. On the same program is a comedy and cartoon.

Guests at the home of Mrs. Embree Morehouse were their children, Mrs. Chester Rayon and daughter, Kathleen, of New York; Mr. and Mrs. Oscar Atkinson and family, West Head, N. S.; Mr. and Mrs. Russell Atkinson and family, of Digby; Mr. and Mrs. Vernon Greenough, of Kingston; Dr. and Mrs. Charlie Morehouse and family, of Toronto, Ont.; also Annie Morehouse, of Halifax; called home due to the illness and death of their father.

OBITUARY

Mrs. Arthur M. Powell
There passed away at the Digby General Hospital on August 25, 1955, E. May Powell, wife of Arthur M. Powell of Tiverton, Digby Co., N. S.

The deceased was born at Watford on May 2, 1874, the daughter of the late Wallace C. and Mary A. (Bell) Denton.

At an early age she was baptized by the late Rev. J. C. Morse D.D., and united with the 1st Digby Neck Baptist Church for children filmed and told in a story that only Walt Disney could.

On December 1, 1909 she married Arthur M. Powell, of Tiverton and established a home in that village. She became identified with the Tiverton Baptist Church and was an earnest worker in all departments of the church, taking an active part until her recent illness.

She is survived by her husband and one son, Harley W. Powell, of Weymouth; also a brother, Major M. C. Denton, of Digby. Three sisters predeceased her. Also surviving are two granddaughters and a number of nephews and nieces.

Funeral services were held at Tiverton on Sunday, August 28th. Previous to the church service a short service at home was conducted by her pastor, Rev. Eric Miner, assisted by Rev. Denton J. Nelley, D.D., of Nashua, N. H., a cousin of the deceased.

The service at the church was conducted by her pastor, preaching from text, Luke 19:13 "Occupy till I come," a request of the deceased. The hymns by the choir were "The City Four Square," "God Will Take Care of You," and a solo "Beyond the Sunset," rendered by Melbourne Outhouse with Mrs. D. C. Alt-house as organist. The pall bearers at Tiverton were Roy Small, Eugene Outhouse, Emmerson Outhouse and Charles Howard. The service was largely attended and there were many beautiful floral tributes expressing the high esteem in which she was held.

Interment was at Digby Baptist (Woodlawn) cemetery and the grave side service was conducted by Rev. E. C. Churchill, B.A., B.D., pastor of the Digby Baptist Church. The pall bearers at Digby were six nephews of the deceased and the funeral director was Mr. Charles Ram-

say, a former pupil of Mrs. Powell.

Capt. William Edwin Ryder
Capt. William E. Ryder, of Boston, Mass., passed away at the age of 88 on August 2, 1955, following a brief illness. He was born in Port Wade, the youngest son of Margaret and William Edwin Ryder and was the last survivor of their family. He was married to Dora Sidney and for many years made his home at Port Wade. He and his family lived in the United States the past thirty years.

For many years Capt. Ryder was a well-known sea captain. During World War I he served overseas as a skipper of numerous merchant ships and was also in the Canadian Navy during the latter part of the war.

Capt. Ryder is survived by his widow, three daughters, Stella McGrath and Margaret Allen, of Boston and Eileen Johnson, of California; three sons, Gordon and Lloyd, Boston, Murray, of New Hampshire, and several grandchildren.

After funeral service in Boston, burial took place at Mattapoisett, Massachusetts.

Embrace Bond Morehouse
Embrace Bond Morehouse, aged 94, a life long resident of Centreville passed away suddenly at his home Thursday afternoon after an illness of only sixteen days. A quiet, unassuming, kindly man, he has been a friend to all who passed his way.

Mr. Morehouse was the son of the late David and Bethia Morehouse. He had spent his entire life in fishing and farming and has been very active until his illness.

He is survived by his wife, the former Ada Cogswell, of Lakeside; eight daughters, Mrs. Oscar S. Atkinson (Viola), West Head, Shelburne Co.; Mrs. Geo. F. Moody (Gladys), Swampscott, Mass.; Mrs. Russell E. Atkinson (Ethel), Digby; Mrs. Vernon G. Greenough, Kingston; Mrs. Chester Ryan, New York; Mrs. Myrtle McDougall, Hartford, Conn.; Mrs. John A. Cook, Dresden, Ont.; Mrs. Elwyn D. Morton, Centreville; and five sons, Amasa, Toronto; Ralph, Moncton; Willis, Poughkeepsie, N.Y.; (Dr.) Charles, Noel, Hants Co., and Gerald, Toronto, besides grandchildren and great grandchildren. Also surviving are two sisters, Annie Morehouse, Halifax, and Mrs. Addie Thompson, Newburyport, N. H.

The funeral was held at the United Church in Centreville, in charge of Rev. W. G. Armitage, who spoke words of comfort in stressing the morning of the Christian faith. Hymns sung were "Unto the Hills" and "Abide With Me" by the combined United Church and Baptist Church choirs, with a niece, Mrs. Fred Morehouse, of Lawrencetown, as organist.

The floral tributes were many and beautiful. Interment was at Lakeside cemetery.

CHICKEN CORN PIE LEADS FOOD-FASHION PARADE

A new recipe like a new hat "sets a woman up", especially when it proves hit with the whole family. A dish to rave the point is Chicken Corn Pie.

Now's a good time to use golden ears of corn from the cob, but canned corn is fine year round. Tender chunks of chicken, left from Sunday dinner or poured from a can add zest. And a luscious sauce, smooth as "chicken-wonderful", comes ready-repared in a can of condensed cream chicken soup. Make pastry from our favorite recipe, or speed up the job with a prepared mix. Then the pie slices for an hour while you attend to the tasks.

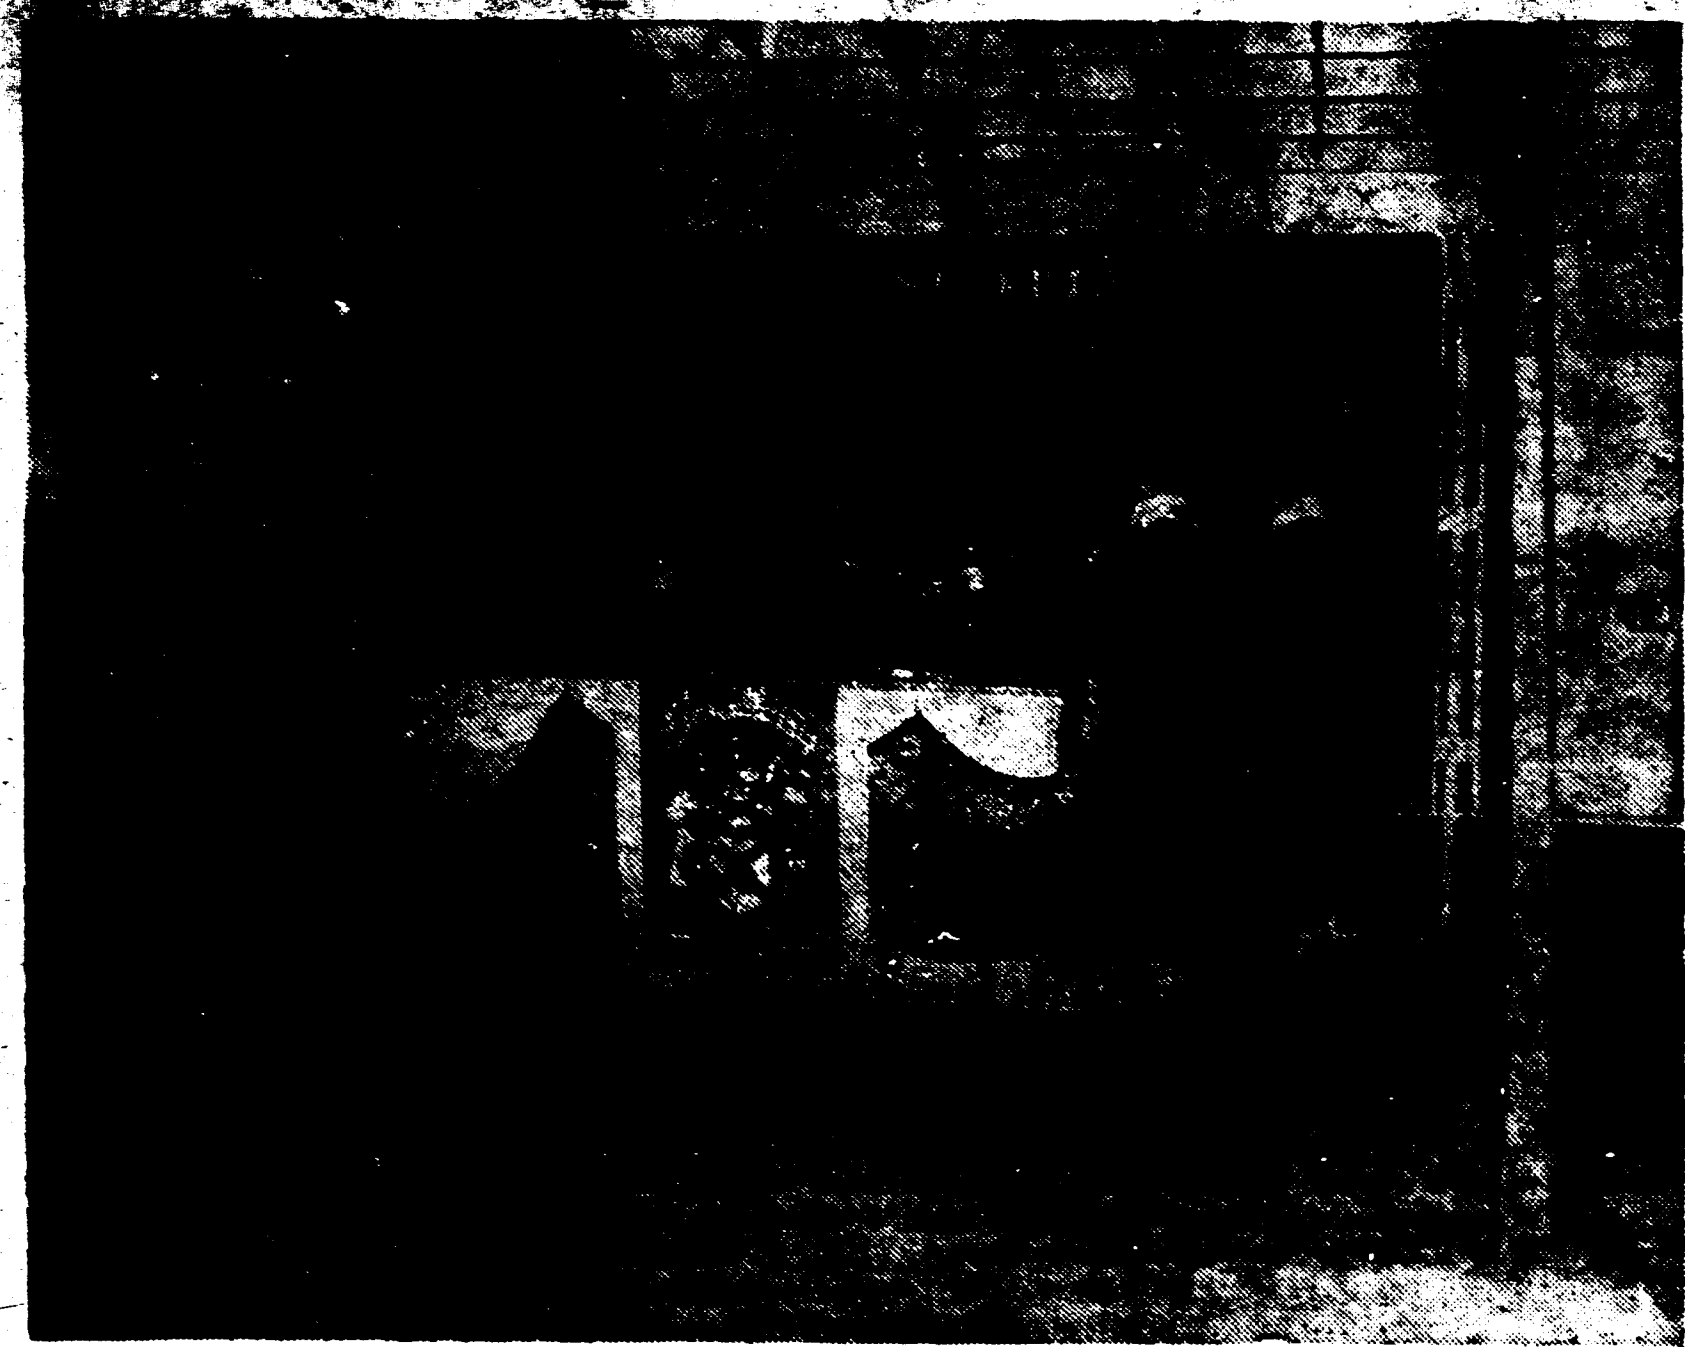

Pass spicy bread and butter pickles and tiny white onions with the chicken pie. A tossed vegetable salad of broccoli, carrot rounds, radish chips, and tomato chunks adds its flair to the meal.

Complete the parade with homemade ice cream. Make it with fresh cherries or peaches, and pass chocolate chip cookies to munch with it. When the family gets a taste of this sumptuous meal, they'll declare it's a style to adopt.

CHICKEN CORN PIE

1 small onion, chopped
2 tablespoons butter or margarine.
1 can (1 1/2 cups) condensed cream chicken soup
1 cup dried cooked chicken
1 cup cooked whole kernel corn
1 package (9-ounces) pie crust mix
1 enough pastry for a 2-crust pie.

Cook onion in butter; blend with soup, chicken and corn. Roll half of pastry dough on floured board and line 9-inch pie pan; pour in chicken filling. Roll remaining pastry into circle; place on top of filling; pinch edges together and make several slits in top to allow steam to escape. Bake in moderate oven (375°F.) about 1 hour; 4 generous servings.

Attending the Scout Jam-boree held at Niagara-on-the-Lake, Ont., Girl Guide Jessie Penny, Scout Urban Holm and Scoutmaster Angus McEachern, all of New Waterford, paid a

visit to the colorful Nova Scotia exhibit at the Canadian National Exhibition, Toronto. They were shown, by Miss Jean Ross, member of the Nova Scotia Department of Trade and Industry, some of the attractive pro-

vincial tourist literature, which together with the Nova Scotia flag, taran and large coloured transparency of Peggy's Cove, attracted thousands attending the exhibition.

Dahlgren — Knickle

A pretty summer wedding took place on Saturday evening, August 20th, in St. Thomas' Church, Weymouth, when Virginia Barbara Carol, only daughter of Mr. and Mrs. James Knickle, of Weymouth North, became the bride of Donald D. Dahlgren, son of Mr. and Mrs. Charles Dahlgren, Weymouth. The double ring ceremony was performed by the Rector, Rev. D. F. L. Trivett.

The church was beautifully trimmed with baskets of flowers, the guest pews being marked with bows of ribbon and flowers. Mrs. Lillian Marshall presided at the organ and Gordon Campbell sang "O Perfect Love" during the signing of the register.

Entering the church on the arm of her father, by whom she was given in marriage, the bride was winsome in a beautifully designed floor length gown of white flower patterned silk lace and nylon net over satin. A brief bolero of lace featuring löff, fitted sleeves and high neckline, topped the double net bouffant skirt which had inserts of lace and nylon net above a deep flounce. The fitted bodice of gathered lace over satin was edged with soft nylon. Her shoulder length veil fell from a tiara of sequins and pearls and she carried a bouquet of Holly-wood roses.

Miss Emily Sabean was maid of honor, her gown being floor length of mauve nylon net over satin. She carried an arm bouquet of gladioli.

The bridesmaids were the Misses Anna Mullen and Edith Dahlgren, who wore gowns of pink nylon net and lace and blue nylon net and lace over satin. They carried nosegays of summer flowers.

Adalade Dahlgren, sister of the groom, was flower girl, her dress being floor length of blue net and lace over satin. She carried a basket of mixed flowers.

Douglas Gidney, son of Mr. and Mrs. Donald Gidney, was ring bearer.

John Jones supported the groom, the ushers being James Knickle Jr., and Herado Dahlgren.

Mrs. Knickle, mother of the bride, was dressed in turquoise blue taffeta with accessories of white and corsage of gladioli and baby mums.

Mrs. Dahlgren, mother of the groom, wore a dress of navy blue silk cord with accessories of white and corsage of gladioli and mums.

Following the ceremony a reception was held at Bayside Farm where a buffet lunch was served to approximately sixty-five guests. Mrs. Frank MacAlpine, aunt of the bride, and Mrs. Donald Gidney poured, with Mrs. F. H. Lent and Mrs. Douglas Raymond serving the wedding cake which had previously been cut in traditional fashion by the bride.

For travelling the bride chose a wool suit of teal blue, her accessories being of a lighter blue with corsage of gladioli and mums. The couple left following the reception for a trip around the South Shore and Halifax, after which they will reside in Weymouth where the groom is employed at Weymouth Industries.

Out of town guests were Mrs. John Clayton, Bridgewater, N. S.; Mr. and Mrs. Aulyn Selig, Lunenburg, N. S.; Mrs. Mae Alcorn, Digby; Mr. and Mrs. Wil-

fred Gidney, Mink Cove; and Mr. and Mrs. Clifton Gidney, Little River, N. S.

Screen Star
keeps "young" look

Time and weather can't mar the perennial good looks of aluminum screen cloth. It gets star billing among builders and home owners both because it lasts so much longer and because it never stains or discolors surrounding woodwork.

It is also the lowest-priced non-rusting insect screen on the market. And that adds point to the happy fact that Canada is the world's most efficient aluminum producer. And that fact, in turn, means that people who make aluminum screen and window frames, roofing and hardware for Canada's active building industry can do so at prices that save a lot of people a lot of money.

CARS ARE MY LIFE

by Ken Hankinson

Perhaps you have already faced up to the summertime antifreeze problem. If you haven't it is, quite frankly, time that you did.

A habit has grown up among many motorists to leave their "permanent type" anti-freeze in the radiator through several winters and summers. Quite recent research on the subject says that you shouldn't.

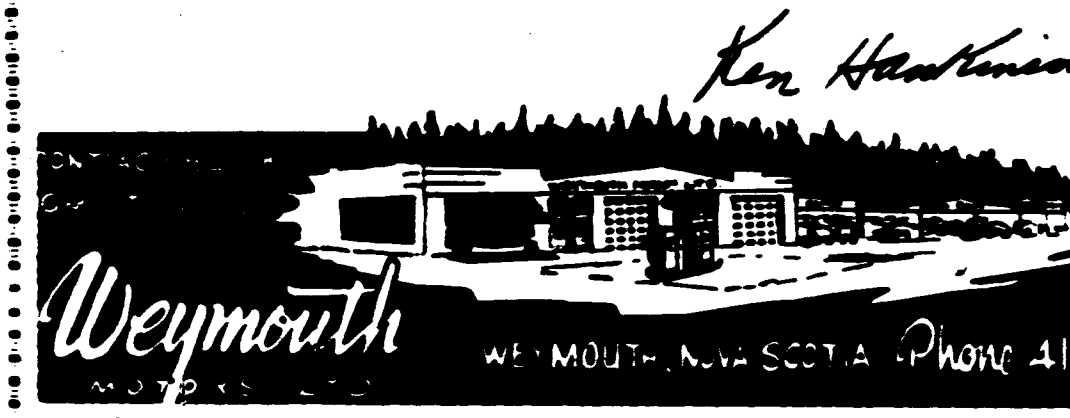

There are two good reasons. First of all, the rust inhibitors have more than likely been consumed through the winter and without the rust inhibitors the anti-freeze becomes a highly-corrosive solution, especially to copper, brass and solder.

An engine running hot is more liable to knock and ping. Even if the temperature gauge doesn't show it, the engine may still be overheating at local trouble spots. This pin-point overheating, if it's bad enough, can result in cracked blocks or cracked cylinder heads.

Secondly, ethylene glycol, which is the "permanent type" anti-freeze, does not carry away heat as well as plain water. This is fine in the winter time, but in the summer it can mean an over-hot engine.

I always hate writing these doom-and-gloom columns, the kind that promise dire consequences unless you do something right away. But it's simple enough to drain the radiator and fill it with plain water and rust inhibitor.

Summer can be the time of driving fun it's meant to be, but it's a time when you want a reliable car, a car that's been checked thoroughly by trained mechanics, not just plumped down on a lot. You want a car that will be fun, not misery, and the place to find it, of course, is over at our used car lot.

"don't give me the gears..."

... That's what drivers are saying! They don't want standard gear shifts, they want GMC Hydra-Matic, the most popular truck automatic transmission in the field. Owners, too, are realizing more and more, that besides being easier on the driver, Hydra-Matic is easier on the truck—it keeps it in the correct gear under any load—eliminates expense and costly break-downs due to incorrect shifting. Get the full story of Hydra-Matic trucking from your GMC dealer today and ask for a demonstration drive.

History of Deep Brook Church

(Continued from August 18)

Just before the turn of the century a movement was started to raise funds for the purchase of a larger and better bell. The St. Matthew's Dramatic Club was organized (not officially but very successfully) and a series of concerts and plays were staged. It was exceedingly hard work, but persistently carried out until the required amount was raised. We had at that time to assist us in the musical portions of the programs the late Mrs. J. D. Fraser (May Vroom) and Miss Jane Lockward, the daughter of the Rector at that time, both expert musicians. Mrs. Ernest Purdy, Mrs. Frank Nichols, both pleasing soloists and several others who have since moved away or passed on to join in the heavenly choir. After a considerable portion of the required amount was raised, a meeting was called and met in the church. Mrs. R. W. W. Purdy, who had already procured catalogues, prices, and terms of payment, and other necessary information from several firms who made church bells, was appointed secretary and purchasing agent. It seemed to be the general opinion that too large a bell might be too great a strain on the tower when the bell was swinging, so the secretary insisted that if a large size was not advisable, then quantity should be replaced with quality. So it was decided to buy a bell from the Meneeley Bell Foundry, Troy, N. Y., whose bells are the finest in the world, being made from specially imported metals, copper from Brazil and tin from India, on a formula of 66-34, which is called "Grade A. pure bell metal. Inquiring about the value of the old bell, the makers informed us that if made of pure bell metal, they would allow 18 cents per pound and send a sample. So the writer climbed the belfry, and with a hack saw cut off a small piece and sent it in. The assay proved that the old bell was O.K. standard bell metal.

A little later the old bell was sent to Troy along with an order for a new bell. The size ordered was the 24-inch diameter, approximate weight 300 pounds. The exact weight of finished bell was 310 pounds, at 30 cents per pound — \$93.00. The pedestal, wheel and rope cost \$12.50, making a total cost of \$105.50, less proceeds from old bell, of which I have no record. Although not instructed to do so, the writer took it upon his own responsibility to order an inscription on the bell as follows: "St. Matthew's Church, Deep Brook, N. S., Easter, 1900." This, the Bell Co. did free of charge. The Bell came through free of duty, but had to go through the Customs. The late John Troop was customs official at that time, and the minor charges for clearance papers was kindly donated by him.

In 1936 the church windows of plain glass were replaced with cathedral stained glass, and present a fine appearance, making the building look more "church" and doing away with the old roller blinds. These new sashes were made by J. H. Hicks and Sons, Bridgetown, and installed by Mr. Augustus Purdy, who also built a cabinet for the vestry and panelled the ends of the Altar. The windows were all memorial and given in memory of departed relatives, whose names are designated by the

brass tablets beneath each window.

About 1940 a furnace was installed through the generosity of the late Miss Clara May Sullivan, who in her will bequeathed \$300.00 towards a furnace fund. With the help of money contributed by the Guild, and much hard work from the parishioners in the excavating and installing (all freely given), the work was accomplished, thus doing away with the old stove with all its dirt and uneven distribution of heat.

In 1949, new front doors were put in, also a new prayer book for the Prayer Desk. In 1950, a new altar front of solid oak with large maltese cross in center, and Alpha and Omega on either side, was presented by Mr. and Mrs. Frank Dittmar in memory of Mr. Dittmar's father and mother, the late Rupert Vanderbilt and Cynthia Jane Dittmar.

If I bring this article to a close without mentioning the organ, I would make a serious mistake. The musical life of a church is a vital factor. "Music hath charms". Music is divine. Music is the only one of the fine arts that we take with us, to practise beyond the "Pearly Gates". Our Saviour was born into this world with the accompaniment of songs from a multitude of Heavenly Hosts.

Only Divine inspiration could produce such compositions as Haydn's "Creation" or Handel's "Messiah". It is conceded that more souls are won by song than by sermons. And so, from the stately Cathedral right down to the little Chapel, it is always the aim to have an organ that is consistent with the prestige of the church, and the aspirations of the people, as well as the amount of available funds. St. Matthew's has had three organs. When the church was moved to Deep Brook, it contained a small melodeon of the spinet type, which was all we had during the restoration of the church. As soon as we fairly settled, a fund was raised and a regular chapel organ was procured. This organ was built specially for our church, was built in a church and partly from materials of a church. This is how it happened. When the new St. James Church was built at Bridgetown, the old church on Queen Street was sold to the Acadia Organ Co., who carried on the manufacture of organs for a number of years. The old church had high box pews, constructed of prime virgin pine. Those old pews were excellent material for bellows and wind chests, and was used for that purpose as long as it lasted. The organ of St. Matthew's was regular Chapel style, Gothic ends, and furnished back and front with 5 octaves and 4 sets of reeds and couplers. It served its purpose for about 50 years until 1937 when the St. Matthew's Guild purchased a new Kann organ of 6 octaves and more extensive reed and stop combinations, with sub-bass section.

I will now bring my story to

The Furnace that is Spoon Fed

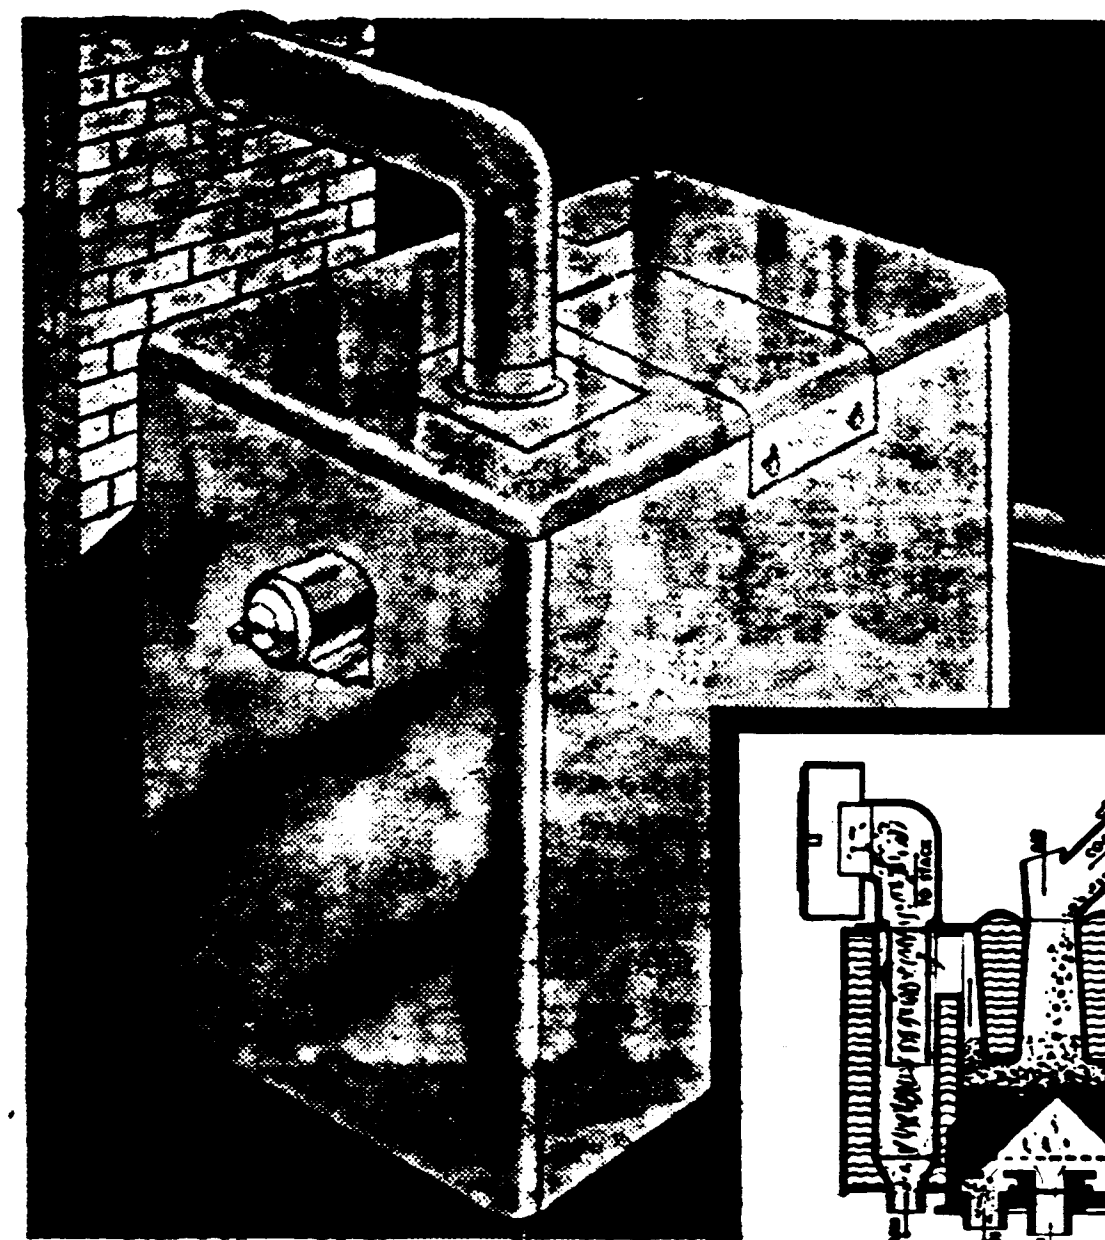

It's a fact! With Dosco's sensational new furnace coal is fed automatically

in such minute quantities that it is virtually spoon fed.

In fact ¾ of a pound of coal will hold fire in the furnace for one hour.

This is the new, compact, gleaming white enamel furnace

that disposes of its own ashes and leaves the furnace room immaculate.

CHECK THESE FEATURES

CONVENIENCE
Unsurpassed for comfort and convenience.

ECONOMY
Cuts a minimum of 20 per cent from the cost of operating a hand-fired furnace, with relatively higher savings over other type heating systems. Cost of purchase and installation is less than for any other self-feeding heating system.

CLEANLINESS
It is impossible for dust or ashes to enter the furnace room. There is only a very small amount of ash and this is removed by vacuum as it forms.

FULLY AUTOMATIC
This furnace stokes itself automatically as required by the thermostat and even removes its own ashes.

COMPACT
The new Dosco furnace is the most compact furnace you can own. It measures 40 inches long by 30 inches wide and 48 inches high.

Purchase and installation of Dosco's new furnace can be financed through a Home Improvement Loan available under the National Housing Act. See your Bank.

ART EXHIBIT

(Continued from page 1)
depicted farm and water scenes in Digby County and a Florida sketch. Eleven entries of different breeds of dogs in various poses painted by Mrs. Ralph Wright made an attractive corner which demanded much attention from the visitors.
Sceneries displayed were mostly of Digby or Digby County with approximately six of the oil paintings of scenes from beyond the county. These depicted the various seasons, life on land and sea, in the various phases of tranquility and storm. Several entries of still life displayed excellent talent in that particular type of art.
After viewing the exhibits visitors enjoyed afternoon tea served by members of the Digby Branch Canadian Red Cross. Presiding at the tea table beautifully decorated with a centre of gladioli were Mrs. Reginald Weir and Mrs. L. C. Carson. Individual tables for guests were also attractively arranged with dainty centres of summer flowers.

Mrs. Rufus Connor Jr. has gone to the U. S. A. for a visit.

LEGION HEAD

(Continued from page 1)
Dean Anderson reminded students that according to the Children of the War Dead (Educational Assistance) Act of 1953, federal assistance for the purposes of higher education will be paid only if the student enrolls in an institution of higher learning within 15 months of graduation from high school.
The plan, initiated by the Canadian Legion, and executed by the Department of Veterans Affairs, provides tuition, other fees and an allowance of \$25 a month while a student attends college, university, normal school or a nursing training school. Generally, an institution of higher learning is one in which high school graduation is necessary for admission.
Students must be in full-time attendance at such centres and must start instruction within 15 months of leaving high school. Assistance normally covers the four academic years or 36 months, whichever is the lesser.

STEELE LEADS BATTING

After 17 games, of which the Monarchs have won 12, Steele leads the Weymouth

batters with 11 hits in 36 at bats for a .305 average. Last year Steele led with .344. Mac Smith, who led in the first of the season, is second with .278. He has 17 for 61. Desiree Belliveau is third with 11 for 44, or .250.
Mac Mullen leads in runs scored with 16. Desiree Belliveau has the most RBIs, 10. Smith leads in hits with 17.

Steele, Smith and Belliveau have the most doubles, 2. Mac Mullen has 2 home runs, Thur-

ber and Smith 1 each. Belliveau and Mullen lead in stolen bases with 9 each.

Read Leviticus, chapter 10, and see if it does not indicate that Nadab and Abihu, who offered the strange fire on the altar of God were under the influence of liquor when they did so. Their punishment was death. Intoxication was no excuse.

RAVENS DOWN MONARCHS

Digby Ravens trounced the Weymouth Monarchs 9-6 at Digby Sunday. Thurber, on the mound for Weymouth, went all the way and took the loss. He pitched well but was the victim of very poor support, with the catcher, Smith, third baseman, Paul Belliveau, and second baseman, Steele, the chief offenders.
It was the first loss for Weymouth since early in July. Their record now stands at 12 wins and 6 losses, including a victory

over Tiverton by the forfeit nine failed to appear at Weymouth score of 9-0 when the Island mouth August 21st.

Miss Blackadar Visits Granville Ferry

Miss Helena Blackadar, a retired Canadian Baptist Missionary, 83 years of age, now a resident of Amherst, has been making her annual visit to Granville Ferry where she has been a guest at the Granville House during the month of August.

During the past week Miss Blackadar has been attending the United Baptist Convention at Wolfville. She enjoys traveling and last year she attended the Convention of the United Baptists which was held in Woodstock, N. B., and her picture, along with other retired missionaries, taken in Indian costume, appeared in the Halifax Chronicle-Herald.

Miss Blackadar was born at Harvie, Albert Co., N. B., daughter of the late Rev. T. A. Blackadar, who was pastor of the Lower Granville Baptist church from 1902-06. She was 17 years of age and living at Macmaquac, 12 miles above Fredericton, when she felt that she was destined to work in the foreign missions. She received her Bachelor of Arts degree from Acadia University, Wolfville, and following her graduation attended the New York Training School. At the age of 24 she was teaching Latin and higher mathematics to negro high school students in Washington, which position she held for four years before going to India.

This was the time when she had a great influence on the life of Dr. W. A. White, one of her most brilliant students in mathematics, who felt such admiration for her that he wanted to attend the college where she had received her training. One of his daughters is the well known singer, Portia White, formerly of Halifax.

Miss Blackadar was a missionary in India for 46 years and her recollections of life in that far-off country are varied and fascinating.

Her original method of transportation between villages she visited regularly in an effort to teach Christianity to the natives and to educate them, was a rickshaw such as used in China; after wearing this out she changed over to an ox-cart and later to a horse and buggy and still later she was the owner of a Ford car, which her native cook learned to drive and repair.

At Vizagapatnam in India she was thrown from her carriage by a balky horse and she lay unconscious for hours before being found.

Miss Blackadar has visited all the cathedrals and other historic spots in London; has seen Naples and walked to the edge of the volcano Vesuvius, which was still burning in sports after many years since its eruption. She has visited Rome and the cathedrals of Milan and Florence and the cities of Calcutta and Madras.

During her years as a missionary Miss Blackadar also acted as doctor and in many instances as undertaker. She speaks the Indian language of "Telugu".

While in India she recruited the help of one young native man of 18 who was very clever, and let him help conduct classes. Her protegee later attended Toronto University on a \$2,000 scholarship given by the Rt. Hon. Vincent Massey, now Governor General of Canada. The young native who is now Dr. V. E. Devadutt, M.A., B.D., Th.D., D.D., a teacher of philosophy at Princeton College, New Jersey, gave the Baccalaureate Sermon at Acadia University in May of last year. Miss Blackadar was present at the exercises. This was only one of the many proteges whom she helped reach Christianity and higher education during the years she spent as a foreign missionary.

Another Freak Corn Mrs. Gladys VanTassel, of Digby, brought the Courier this week a freak ear of corn, different than anyone here has ever seen.

This ear, while covered with the usual foliage and carrying tassels, when opened showed instead of the usual yellow kernels, a mass of white fungus type growth resembling a whole series of mushrooms.

The growth was arranged in rows similar to the kernels on a cob of corn but here the resemblance ended. White on the outside, the fungus growth was brownish inside like a mushroom and was quite soft.

The corn was grown by Clyde

RED CROSS SWIMMING TESTS ARE HELD

The annual Red Cross swimming tests, held locally under the auspices of the Digby Kiwanis Club and taken by pupils who had taken swimming instruction at the Kiwanis Swimming Pool and Park were held last week at the pool of the Digby Pines Hotel.

With forty-four swimmers registered at the pool this summer only twenty-four took the Red Cross tests. It is expected others will take their tests later at the Cornwallis pool. Quite a number of the beginners were among those who did not take the tests which was a disappointment to the instructor, Mr. Fox, and to the Kiwanis committee.

In reporting to the Kiwanis Club on the pool and park activities for the year, Mr. Fox stated 18 beginners, 18 juniors and 8 intermediates were registered. Of these 5 beginners, 12 juniors and 7 intermediates took the tests. In the past list there were included 2 beginners, 11 juniors and 5 intermediates.

Mr. Fox reported the pool, which was open six days a week

FOUR GENERATIONS MEET AT VICTORY

A family reunion was recently held at the home of Arthur Pulley, of Victory. Among those who attended were Mr. and Mrs. Llewellyn Pulley, of Somerville, Mass., son and daughter-in-law of Mr. Pulley, and his sister, Mrs. Edith Leopold and daughter, Myrtle.

A feature of the family reunion was the presence of four generations of Mr. Pulley's

family, shown in the above photograph. From left to right are four year old Glendon Pulley, son of Mr. and Mrs. Harvey Pulley, Lansdowne, and great grandson of Arthur Pulley; Harvey Pulley, grandson; Oran Pulley, son, and Mr. Arthur Pulley, who is eighty-eight years young. The four generations shown in the photograph are the oldest members of their respective families.

Letter To The Editor Digby, N. S. Sept. 6, 1955. Editor, Digby Courier: Dear Madame — I am writing about the danger of children riding their bicycles on the side walk.

Yesterday when Mrs. Connell was knocked down in front of the government information bureau, there was no excuse for the boy on the wheel. The side walk was clear. He came up behind her, knocked her down, and sped away without even saying he was sorry, let alone helping her up. She had a badly sprained ankle.

The boy was wearing a red and white shirt and if he belongs to the Cubs or Scouts he is a disgrace to the order.

Signed, Ratepayer.

Moderator To Visit

The Rt. Rev. Dr. George Dorey, Moderator of the United Church of Canada, will visit the Annapolis Presbytery on Friday, September 16th, it has been announced.

A public service for the whole of the Presbytery will be held in the United Church at Annapolis Royal on Friday evening at 8 o'clock, at which Dr. Dorey will be the special speaker.

Mr. and Mrs. Donald Deming were weekend visitors at the home of Mrs. Deming's sister, Mrs. Fred Cookson, and Mr. Cookson.

Harold Prosser, of H.M.C.S. Shearwater, Dartmouth, was a weekend visitor at the home of Mr. and Mrs. Murray Kaulback.

Mullen, of New Tuskent, and sent in to Mr. VanTassel's store in Digby.

Digby Pines Staff Hold Dance

With the last day of August came the final fling for the Digby Pines staff. The event was the annual Masquerade, held at the Golf clubhouse, and this year it was bigger and better than ever.

The occasion was doubly important because it was the first official meeting between the staff and their new manager, Mr. Harold Walker. From the ovation he received, it was obvious that the boys and girls were already well acquainted with him, even if not officially.

The usually tranquil air of the Golf Club was shattered shortly after 10 p.m. by the arrival of the majority of the staff by bus. Their appearance was like an imagination run wild — an Indian maiden with her brave, a French artist, three Swiss climbers, a gracious Venus, two cuddly kittens, a Birthday present, a Marsman, a clown — even the Party-pooper came!

The fun began at once. Under the balloon-hung ceiling of the lounge which the entertainment committee decorated, there was dancing to the orchestra of Jim MacDonald. There was no lack of spirit, even among the many hotel guests and townspeople who came to see, and stayed to join in the fun.

As midnight approached the crowd rested while the Maitre d'Hotel became the Master of Ceremonies. He introduced Mr. Walker and his charming wife. Then the manager presented the four judges who immediately began the difficult task of choosing the best costumes. The amazing originality of the staff members made this very hard — the judges had to ask for several processions around the room. They finally retired with helpless expressions, to return after a long debate and announce the winners: Dick Wilson, of Point Prim, for his costume and manner of a very glamorous and bewitching film star; Edward Grimm, of Halifax, a duck; Miss Sheila Joan Trotter, also of Halifax, who was a very cute cat; and Miss Joan Forbes, of Truro, who showed the Oriental's version of a ghost. The number of winners was limited only by the number of awards — there were so many costumes deserving of prizes.

The famous "Pines" kitchen provided delicious refreshments which added the crowning touch to an exceptionally enjoyable evening. It was an occasion which will doubtless be happily recalled by all concerned long after the sad day of closing.

The staff of the hotel, from far and near, wish to take this opportunity to thank the kind people of Digby for their friendship and generosity during this past season. It has been a most memorable summer for all of us and our hearts will be very full as we leave — to return soon, we pray.

Mark Tenth Anniversary

This week the South End Grocery, operated by Gordon Turnbull and Bruce Baxter, marks the tenth anniversary of its establishment.

The name South End Grocery, however, goes back in the history of Digby far further than ten years for a grocery store on the same site had been operated for many, many years under succeeding managements.

Earliest owner at the moment recalled was the late Henry Turnbull who, it is believed, had the present store building constructed. Later operators included Kingsley Collins from whom the present owners purchased the business.

Since Turnbull and Baxter took over the South End Grocery they have made many improvements in the building and on the exterior of the structure. A new system of self-service has been installed to make the South End one of the most modern groceries in Digby.

Unidentified Object Picked Up

An object which has so far been unidentified was recently picked up in St. Mary's Bay by Howard Shea of Westport.

The object, which appears to be the property of the United States Coast Survey, is twelve feet long and appears to be a sort of metal boat with a spar. The spar is equipped with two lights.

Mr. Shea towed the object in to Westport where it is now moored.

Firemen, Legion & Wholesalers Lead In Semi-Finals

The Legion & Wholesalers and Digby Fire Department Smokeaters both won their opening games of the semi-final playoffs in the Digby & District Softball League, which opened here Monday evening.

Excellent fielding support, six strikeouts, two doubles and a single, and two runs scored to his credit, Irv. McKenna pitched his team to one of its most important victories this season, as the Legion & Wholesalers downed the South End Blockbusters 15-11. Trailing in the fifth inning with the bases loaded, Luke Dugas hit a four run homer that put his team out in front to stay. This was the beginning of the end for the Blockbusters. Briefly they rallied in the sixth and seventh innings, but to no avail. Donnelly, backed by poor support, went the distance for South End. He had two strikeouts. Frank Oliver committed two errors which permitted four runs to score. Errors committed by the Legion & Wholesalers allowed only one run to score. McKenna walked six and Donnelly none.

For the Smokeaters it was the same story. Reg. Turnbull went the distance and put his team on dry land as the Firemen smashed Smith's Cove 17-9. The Firemen took an early lead and kept adding to it. "Doc" Stewart helped the cause with a 3 run homer in the fourth inning. "Buss" Hand-spiker, in right field, played excellent ball, while Parsons committed two errors at first. Turnbull, with no strikeouts and no free passes, had two singles and scored one run. Good fielding support by the Smokeaters downed a Smith's Cove rally in the sixth inning. Joudrey for Smith's Cove was the loser. He walked one and struck out none. Again it was a case of poor support and their inability to get the ball out of the infield that spelled doom for Smith's Cove.

Both losing teams have their backs to the wall and will have to take both of their remaining games in order to advance to the final playoffs, which start here next week.

Umpires Manning and Dunn did an excellent job behind the plate, as umpires in chief for both games.

The Firemen and Smith's Cove play here this evening. This summary does not include games played after Tuesday evening.

Assist With Program

Members of Bay View United Church Women's groups were guests of Tuesday of Grace United W. M. S. at the Church Hall and assisted with the program conducted by the President, Mrs. James Brooks. The study was on Canadian immigrants and Canadian Indians, with the parts taken by Mrs. John Russell, Mrs. Loran Adams, Mrs. Dickson Sabine, Mrs. Hartford Hayden, Mrs. William Ellis and Mrs. Frank Wilson.

The program revealed that Canada has received 1,118,000 immigrants since the Second World War, the greatest barriers to overcome being language, scarcity of money and critical housing situations.

In the study on Canadian Indians it was learned that Canada has 2,000 Indian Reserves. This year a beginning was made in Brandon, Manitoba, to have the Indians attend public schools rather than to be taught on the Reserve.

Mrs. C. B. Parker introduced the study books, "Coming Our Way" (Immigrants) and "No Vanishing Race" (Indians).

The worship was conducted by Mrs. Brooks, assisted by Mrs. Milton Atkinson, Mrs. Gordon Arnold and Mrs. Burton Fleet.

The President introduced the new book shelf books which were donated to the W. M. S. this year by Rev. James Brooks.

WEYMOUTH CHURCH HOLDS CELEBRATION

The Anniversary and Roll Call services, held in the Church of Christ at Weymouth Sunday were very largely attended.

At the morning service the Communion was the central part, with the minister of the church, Rev. John A. Carr, and two Elders, Harry Lewis and Wilfred Cosman, administering, and four Deacons serving, representing the three churches of the Pastorate, Weymouth, South Range and Southville.

The guest preacher for the day was Rev. Maxwell J. Webb, of Kendallville, Indiana, one-time minister to these churches.

In the morning service Mr. Webb took as his sermon topic "The Burden of the Lord", pointing out that we, the Church, His people, are the burden of the Lord. He would have no burden were it not for His people, and, as His people, we must have the burden of souls and the salvation of the world. A united choir sang two selections at the morning service, "Hear Ye the Call" and "King of Kings".

In the evening the church was filled to overflowing with a fine congregation. The Male Choir rendered the music in the evening, singing two selections for the Roll Call, "Fear Not Little Flock" and "I Know that My Redeemer Lives". Solist in the evening service was Mr. Clyde VanNorden, of Milton, Queens County, who sang two solos, "I'll Walk with God" and "Bless This House", which were appreciated by the congregation. Mr. Webb took as his sermon

for the evening service "The Strangeness of the Church", when he said the strangeness of the church is apparent in that it is not Our Church, it is not the building in which we meet, it is not any one or more denominations meeting together. It is the Body of Christ; therefore it is "Christ's Church". Mr. Webb ended his sermon with a challenge to all to be in the church of Jesus Christ, being assured that "The gates of hell would not prevail against it".

On Monday evening the Christian Men's Fellowship met in their monthly meeting in the Weymouth Church (this group is made up of the men of a number of communities meeting together once each month for Christian Fellowship) with seventy men present. Mr. Harry J. Lewis was in the chair and welcomed the men. After a brief business session Mr. Clyde Cosman led the devotional service. Mr. Thurston Mullen, of New Tuskent, rendered a solo, "What Will You Do With Jesus".

Mr. Cyril Middleton and Mr. Victor Jarvis, of Weymouth Falls, sang a duet, "It Was Alone". At this meeting Rev. Webb again brought the message, his topic being "Dangerous Men". Mr. Webb said we need "desperate" men today. We need "desperate" men who have become "desperate" for the Kingdom of God.

After the service an enjoyable lunch was served by the ladies of the Weymouth church. Rev. J. A. Carr closed the meeting with the benediction.

Former Courier Foreman At Yarmouth Herald

Ivan Shortliffe, who for several years was foreman of the Digby Courier but more recently with the Kentville Advertiser, has accepted the position of general manager of the Yarmouth Herald. Mr. Shortliffe took over his new duties last week and will be in full charge of the printing establishment at Yarmouth.

When about 14 years old Mr. Shortliffe started The Tiny Tattler, a hand-set sheet no bigger than a letter and folded once, a weekly record of village doings at his home in Central Grove, Digby County.

The small hand press on which the paper was printed was a gift to the young school boy from the late James J. Wallis, editor of the Digby Courier, who as a young man was associated with his father in the printing business in Yarmouth.

The paper was the smallest in the world to receive government recognition — it had full postal privileges and eventually was being mailed to subscribers all over the world.

Circulation went up to 5,000 weekly, and as job printing orders were on the increase, the young publisher formed a partnership with his school chum, Rupert E. Cann, of Central Grove.

As a result of its unique size, it received publicity in many American, as well as Canadian papers and magazines.

The school boy printers were also made a subject of a movie short subject which was played all over the continent, the British Empire and shown to King George VI and Queen Elizabeth on their Canadian trip.

It was printed on Mersey paper and the big Liverpool firm often bought as many as 500 copies of one issue to distribute to potential newspaper customers of their mill — "smallest newspaper printed in the

world printed on Mersey paper." Mr. Shortliffe was foreman of the Digby Courier for several years, on page make-up with The Halifax Herald; did all kinds of job printing with the Imperial Publishing Company and Ross Print of Halifax, and did a stint with The Canadian Press, living at the time with A. D. Merkel, Atlantic Superintendent and famed all over the continent as a newspaperman.

In 1945 he took over as manager of the Shelburne Coast Guard with its weekly paper and commercial printing. Under his management the paid circulation of that paper was greatly increased and a new printing plant was installed.

Mr. Shortliffe and his family have, for the present time, taken up residence in the Ford house in Port Maitland. Mrs. Shortliffe is the former Margaret (Peggy) Connell, daughter of Mr. and Mrs. H. O. Connell, who were for several years in Freeport, Digby County, where Mr. Connell was manager of the Bank of Nova Scotia. Mr. and Mrs. Shortliffe have five children.

Premier Henry D. Hicks announced in Halifax last week that work would be started immediately on a \$1,500,000 hydro-electric power generating unit at Bear River.

The new development will be known as the Ridge development and will add 5,300 horsepower to the potential electrical output available to users in western Nova Scotia, Premier Hicks stated.

The development at Bear River will be another link in

The day ended leaving behind many happy memories which will be well cherished in years to come.

W. M. S. Meets

The September meeting of the North Range Baptist W.M.S. was held on Thursday evening at the home of Mrs. Shurman Thurber. The meeting was presided over by the Vice-President, Mrs. M. Bragg.

Mrs. Hubert Shortliffe conducted the devotional period, following the prescribed theme, "Gardens — Living Blossoms". Mrs. Shortliffe read Genesis, chapter 2, verses 7-15, and gave a short talk on the topic, "A Duet, 'In The Garden', by Mrs. Ralph and Mrs. Alfred Shortliffe, was beautifully rendered. This was followed by the circle of prayer, led by Mrs. Allan Thomas.

Articles on the Living Blossoms — Wendy of India; pastor Joseph of India; Rev. Saldaia, of Bolivia, and Dr. and Mrs. Isaacs, of India, were read by several members.

Hymns sung were "O For A Thousand Tongues To Sing" and "Bless Be The Tie That Binds". The meeting closed by repeating the Mizpah Benediction.

During the social hour refreshments were served by the hostess, assisted by Mrs. Lewis Cook and Mrs. Libby Cook.

There were ten members present.

Rescues Tired Fawn

Captain Mark Corkum of the tug "Ocean Kiwi", while en route to Annapolis Royal last week with a barge in tow, took part in the rescue of a tired young fawn, swimming about a mile off the coast of Maine.

The fawn, still with white spotted coat, swam up alongside the barge and, with the help of the crew, clambered aboard and promptly fell asleep.

After a few hours sleep it awoke and playfully gambolled about the barge, making no effort to go overside. It successfully resisted efforts to corral it but was playfully friendly.

On arrival at Annapolis, after necessary contact with officials, the fawn was taken ashore and later released to continue its life as a settler in Nova Scotia.

Sgt. and Mrs. Louis Morin and daughters, Marilyn, Gail and Peggy, motored to their home in Quebec City after holidaying with her parents, Mr. and Mrs. Dutton Sypher, Sandy Cove, Mr. and Mrs. Fraser Sypher, Montreal, also spent their holidays at the same home.

\$1,500,000 POWER PLAN FOR BEAR RIVER

The Marklands system, providing further power to ensure the requirements for some years to come in western Nova Scotia — including the Cosmos Knitting Mills in Yarmouth — and ties in with the Tuskent electric system, Mr. Hicks said.

Engineering work on the new Bear River development will get underway immediately, according to Mr. Hicks' statement. The main dam will be 1,050 feet wide and will be 35 feet high at the highest point.

On each flank will be two wing dams, each of which will be 1,875 feet long with a maximum height at key points of 25 feet. The development will include a pipeline of over 3,200 feet in length.

Additional equipment will include a surge tank, a turbine generating up to 5,300 horsepower and the necessary switching distribution system, the Premier said.

Should a person buy a new car or a used one?

For people who have owned a lot of cars the answer to this question has often become just a matter of habit: they buy a new car every year, or two or three, or else they keep trading in for better used cars every year or so.

But let's look at it a little more closely. A friend of mine has figured out that if you hold on to a car for four years it cost only \$75 a year more to start with a new car than with a year-old car. This was an average figure and the results could easily slide up or down.

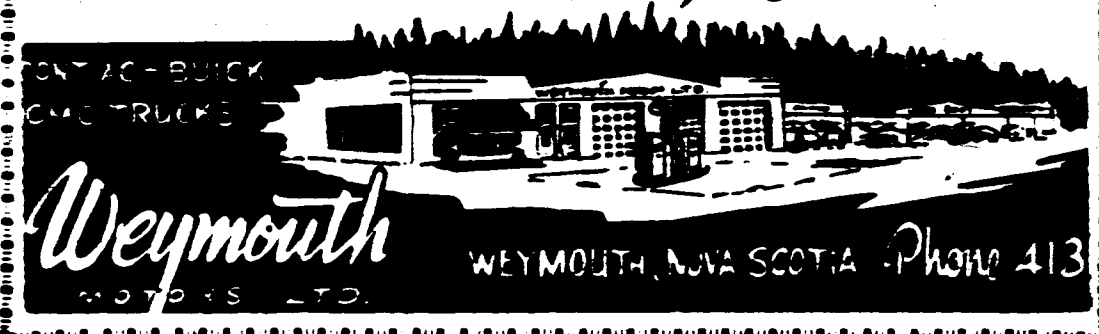

Starting with a two-year old car, the average saving over four years was \$150 a year.

He felt more sure of himself in a new car, though, so he stuck to his old pre-war habit of trading in every second year. This was just a "habit", but it was a good habit because he had figured out exactly why he did it and what it meant to him financially.

The question of "what shall it be, new car or used?" involves a lot more than how much money you happen to have in the bank at the moment. What kind of driving you're going to be doing, what you're going to be carrying, who's going to be driving it — all these count.

Because we're in both the new and the used car business, we help a lot of people to make the right decision. It's really immaterial to us — we have to sell both kinds to stay in business. We can often take the facts YOU know and add them to the facts WE know and come up with a happy solution. If you'd like to talk it over — and I think you should — come in and see me personally and we'll put our heads together.

The bride, radiant and lovely, entered the church on the arm of her father who gave her in marriage. Her floor length gown was of white nylon lace over satin fashioned with neatly fitted bodice and graceful flared skirt. A standing collar extended from the sweetheart neckline. Tiny covered buttons accented the bodice while the full length sleeves were accented by tapering at the wrist. She wore a finger tip veil of nylon net which was caught in a tiara style at the head. Her only ornament was a three-strand string of pearls and she carried a semicascade of pink delight roses.

The bride was attended by Miss Marilyn Marshall, of Hill Grove, who wore shrimp colored net over taffeta with a bandeau of matching colored floral arrangement. Her colonial bouquet was of white top and yellow shasta.

The groom was supported by Ronald Porter, brother of the bride, and the ushers were Keith Ellis and Richard Keen.

Mrs. D'Arcy Roop presided at the organ for the nuptial music and also accompanied Mrs. Harold Marshall who sang "I Love You Truly" and "O Perfect Love."

The bride's mother was attired in red crepe with white accessories and she wore a cascade of white top.

The groom's mother wore a two piece ensemble in grey with pink accessories and her corsage was of yellow shasta.

Fall flowers and pink and white wedding decorations added to the attractiveness of the church hall where a reception for 150 guests was held immediately after the ceremony. Mrs. Curtis Porter, Hill Grove, grandmother of the bride, and Mrs. Earle Anderson, Digby, sister of the groom, poured.

Miss Janet Wallis attended to the guest book.

The happy couple left for a motor trip through the province. For going away the bride wore a navy suit with pink accessories and her corsage was of pink Delight.

On their return they will reside in Digby.

Fire Fighters THROW OUT RED

No—not a Communist, but the fire-engine red that goes with clanging bells, screaming sirens and racing fire trucks.

The Kent Fire Brigade, in England, has gone against tradition and now uses vehicles of aluminum—for three good reasons: No more painting. Less gas... we mean petrol. And better roadability and handling because of the lighter-weight aluminum bodies. We'd guess there's a further premium that by in its gleaming new dress. Few materials can match aluminum for its fresh and lasting good look.

Hood, of Fallon, Nevada. The church was decorated with vases of colorful Gladioli and white and pink phlox.

The bride, who entered the church on the arm of her brother, Carmon L. Boliver, by whom she was given in marriage, was lovely in a bouffant tulle and lace gown. The bodice was of chintilly lace featuring ballerina length over white satin. Her chapel length veil was of silk nylon net, held in place with a halo of sequins. She carried a bouquet of Gladioli and Car-

nations.

Mrs. Royce Elderkin was matron of honor and wore a gown of yellow organdy and carried a nosegay of Gladioli and accessories to match.

The twin sisters of the bride, Marjorie and Margaret, were bridesmaids. They wore similar gowns, one of pink and one of blue, of nylon net over taffeta featuring ballerina skirts. Their headresses were small crowns of matching flowers and they carried bouquets to match and wore nylon gloves.

Forrest W. Boliver, brother of the bride, was best man and the ushers were Royce Elderkin and Eldred Frost. Mrs. Harley Ingersoll presided at the organ and Deacon L. E. Collins was soloist.

Mrs. Boliver, mother of the bride, wore a street length dress of navy silk crepe with navy hat and accessories of white. Her corsage was of white carnations. Sandra Tidd, daughter of Mr. and Mrs. Dean Tidd, of Smith's

Cove, was flower girl. She was dressed in blue organdy and carried a bouquet of matching flowers.

Following the ceremony a reception was held in the Community Hall.

The happy couple left for California where they will reside. For travelling the bride wore a suit dress of dusty rose gabardine with white accessories.

Out of town guests were Mrs. Bessie Nowe, Mr. and Mrs. Vincent Baker, Mrs. Simeon Cross, Mrs. Morris Nauss, Miss Arlian Meisner, Mrs. Gerald Baker, Mr. and Mrs. Lester Whynot, Mrs. Rhoda Huey, Mr. Forrest Meisner, Mr. Ian Kaulback, Misses Glenda and Vonnice Huey, of Bridgewater; Mr. and Mrs. Geo. Properly installed, a Monel shaft can be expected to last the life of your boat. Replacing a bronze shaft with a Monel shaft of the same diameter often means you can increase your engine power without replacing the shaft log and bearings... saves both time and money.

Labour Day Message

For over sixty years Labour Day has been celebrated as a statutory holiday in Canada. It is a day when Canadians in all walks of life pay tribute to the workers of the country, and when those in the labour movement look at the past year in retrospect and assess the progress that has been made.

Labour Day, 1953, is a real occasion for celebration by trade unionists. The American Federation of Labour and the Congress of Industrial Organizations in the United States entered into a merger agreement early in the year, and the success of unity talks held between Canada's two greatest national labour bodies, the Trades and Labour Congress and the Canadian Congress of Labour, indicate the birth of a new, autonomous and unified central organization in Canada, combining an increasing emphasis on the craft and industrial concepts of Labour, and inspired by the vision of greater usefulness to the workers of Canada and to its people generally.

One of the principles incorporated in the merger agreement entered into between the American Federation of Labour and the Congress of Industrial Organizations was that the

merged organization will constitutionally guarantee the right of all workers, without regard to race, creed, colour or national origin, to share in the full benefits of trade union organization.

In Nova Scotia, this basic principle of human rights was translated into law at the last session of the Legislature Assembly, and becomes effective on January 1, 1956. The Fair Employment Practices Act is designed to prevent and eliminate practices of discrimination against persons in regard to employment and in regard to membership in a trade union because of race, national origin, colour or religion.

The Act states that no employer shall refuse to employ, or continue to employ, or otherwise discriminate against any person in regard to employment or any term or condition of employment because of his race, national origin, colour or religion. Employers are not to make written or oral inquiries or to use application forms relating to employment which express directly or indirectly any limitation, specification or preference based on race, national origin, colour or religion.

The Act also forbids discriminatory actions by labour unions. No labour union may exclude anyone from full membership, or expel, suspend or otherwise discriminate against any of its members, or discriminate against any one in regard to his employment because of race, colour, national origin or religion.

The Act does not apply to employers of fewer than five employees, and it excludes non-profit educational, fraternal, charitable, religious and social organizations.

The legislation sets out the procedure for the investigation of complaints and the settle-

ment of disputes arising from alleged violations of the Act.

The foregoing, then, are basically the provisions of the Fair Employment Practices Act. However, I should like to emphasize that legislation alone cannot alter the attitudes of mind that lead to acts of discrimination. The legislation deals primarily with the indirect way with the prejudices upon which such acts is based, in that acts declared illegal will become generally unpopular. Therefore, in dealing with this problem of discrimination in employment, the legislation must be supplemented by more direct forms of education. This educational task cannot be accomplished by governments alone, though they may furnish the lead, but the real job must be done by private individuals and groups in all parts of the Province.

In the short time since my appointment as Minister of Labour I have been impressed by the sincere desire on the part of both labour and management to cooperate with government to the fullest extent in all phases of activity in which the

Well Known Newspaperman Passes

Thomas S. Farnham, well-known retired newspaperman, passed away in the Digby General Hospital Wednesday afternoon at the age of 90.

Born in Digby on February 22, 1865, Mr. Farnham was the son of the late James Farnham and Catherine (Warne) Farnham. He joined the staff of the Digby Courier at an early age and also edited a newspaper in Weymouth for several years.

After working on newspapers in Saint John, N. B. for some time he went to the United States where he was connected with the newspaper industry until his retirement some years ago.

Following his retirement he returned to Digby where he has since made his home. Mr. Farnham was over the years active in fraternal organizations and was a member of both the Masonic Order and the I.O.O.F. Interested in music, he was during his years in Digby active in the Digby Civic Band and also organized a band in Weymouth.

Mr. Farnham is survived by one son, Bertram Farnham, of Needham, Mass., and by a daughter, Norma (Mrs. J. A. Falconer), Long Meadow, Mass. Another daughter, Catherine Farnham, passed away August 20th. Funeral arrangements have not yet been completed.

Clarence Nickerson, of Yarmouth, who spent the last two months at the home of Mr. and Mrs. Walter Johnson, has returned to Yarmouth.

D. A. R. ANNOUNCES FASTER RAIL SERVICE

Accelerated schedules for the main line of the Dominion Atlantic Railway will prove a boon to residents of the Annapolis Valley and in adjacent areas in the western section of Nova Scotia. J. C. McCuaig, manager of the D.A.R. said last week in Kentville in announcing that passenger service would be speeded up with the change of times on September 25th.

In addition to providing faster service for western Nova Scotia, Mr. McCuaig pointed out, the new schedule will combine with those of the C.P.R. out of Saint John to cut almost four hours off the present elapsed time for the 670 mile trip via Digby from Halifax to Montreal and will give quick connections in both directions with the train from Saint John to Boston, providing Nova Scotians with much easier access to both Upper Canada and the New England States.

Westbound from Halifax, train 95, the morning train to Yarmouth, will leave at 11:05 a.m., A.S.T., daily except Sundays, and will arrive at Digby at 4:17 p.m.; Weymouth, 5:15, and Yarmouth at 6:35. This cuts close to an hour and a half off the present schedule.

Two hours will be saved on the eastbound journey with train 98 leaving Yarmouth at 11:15 daily except Sundays, arriving at Weymouth at 12:37 p.m.; Digby, 1:15 p.m., and Halifax at 6:40 p.m.

Train 95, which connects with the Princess Helene at Digby, and now leaves Halifax at 7:45 p.m., A.S.T., will leave Halifax at 7:45 p.m., A.S.T., will leave, after Sept. 25, three hours and 20 minutes later at 11:05 a.m., daily except Sunday. The train will leave Kentville at 1:45 p.m., and arrive at Digby at 4:17 p.m., allowing almost an hour for transfer of passengers and baggage to the Princess Helene.

The 4,000-ton ship arrives at Saint John at 8:15 p.m. and the Canadian Pacific's new diesel-powered passenger train equipped with modern, streamlined, stainless steel passenger coaches and sleepers the same as used on the C.P.R.'s famed transcontinental "The Canadian", leaves an hour and 15 minutes later, arriving in Montreal at 9:30 a.m., E.S.T.

Eastbound the departure from Montreal is at 7:00 p.m., E.S.T., with a 9:00 a.m., A.S.T., arrival in Saint John, a 10:15 to 1:15 crossing on the Princess Helene, daily except Sunday departure from Digby at 1:45 p.m., arrival at Kentville at 4:17 p.m. and at Halifax at 6:40 p.m. Elapsed time westbound will be 23 hours and 25 minutes and eastbound, 22 hours and 40 minutes, against the present west and eastbound times of 27 hours and 20 minutes and 26 hours and 30 minutes, respectively.

From Yarmouth, at the western terminal of the D.A.R. line, train 98, which makes the connection with the Princess Helene at Digby before continuing on to Halifax with passengers eastbound off the ship, will leave at 11:15 a.m., A.S.T., instead of the present 9:05 a.m., arriving at Digby at 1:15 p.m. Returning train 95 will leave Digby at 4:40 p.m. and arrive Yarmouth at 6:35 p.m.

Mr. McCuaig also said that after September 25 "The Gulf", the train between Boston and Saint John, will arrive in Saint John in the morning in time to connect with the Princess Helene and will also make connection with the ship; leaving Saint John at night for Boston, providing Nova Scotia with a much more convenient link to the New England area of the United States.

Other schedule revisions on the D.A.R. main line between Halifax and Yarmouth via Kentville and Digby will see the overnight trains leave Halifax at 9:15 p.m., daily except Sunday, and arrive at Yarmouth at 9:15 a.m. On the return service the train will leave Yarmouth at 5:10 p.m., daily except Saturday, and arrive at Halifax at 5:30 a.m.

BLAZE DESTROYS MILL, PITPROPS

A spectacular blaze which began early Sunday afternoon, destroyed the roasting mill and close to twenty thousand cords of peeled pitprops in the marshalling yards of the Max M. Nathal Ltd. lumber firm here.

Before the blaze, which for a time threatened homes in the area, could be brought under control fire engines from Digby, Cornwallis, Middleton, Annapolis, Bridgetown and Lawrence town had been brought into play to quell the flames. These were aided by forestry pumps which did a great job in putting out small fires started by the wind spread sparks.

Damage from the fire, which lit up the whole sky over Digby as darkness came on, was estimated at close to a 1/4 million dollars. Effects of the blaze will extend over the winter in loss of employment in loading ships with the pitprops destroyed by the fire.

Flames still leaped high into the air Monday from the still burning piles of wood and the charred wreckage of the mill and machinery, destroyed by the blaze. At an early hour Sunday evening fears were expressed the high wind blowing at the time would spread the flames beyond the area of the pitprop yard to woods and homes nearby. A lessening and change of the wind, however, aided the firemen in fighting the spread of the flames to these areas and they were able to fight the blaze more effectively and confine it to the general area of the yard.

After early attempts to check the fire had failed, the fire-fighters threw up fire blocks. Bulldozers and a fleet of trucks were used for this purpose and an area of the field was cleared to act as a block to the fire and

give the weary firemen a line at which they could stop the spread of the wind driven flames.

Virtually every able bodied man in the district assisted in the fire-fighting, which was directed by Fire Chief George Humphrey and Fire Marshal A. V. Banks.

During the fire a group of women, working through the local branch of the Red Cross, kept sandwiches and coffee going to the firemen and helpers. Transportation was supplied by a number of car drivers who volunteered their vehicles.

A ship originally scheduled to dock here Monday morning to load pitprops, was diverted to Bridgewater.

The fire got its start near the roasting plant, which was destroyed by the flames before they spread to the piles of pitprops. Aiding the fire in its advance at this stage were the high winds and wood shavings left from hand roasting of the pitwood.

Initial efforts of the fire department to prevent the blaze from spreading over all the thousands of cords of wood piled on the field were hampered by lack of water and the high wind. This objective was eventually achieved.

Fire Chief Humphrey called in aid from HMCS Cornwallis to help the district fire-fighters in battling the blaze, and forestry pumps under the direction of provincial fire marshal A. V. Banks also rushed into action.

The critical point in the struggle was reached around supper-time, when the evacuation of some homes in the immediate area was even considered. This measure did not prove necessary, but was then averted by a diversion of the fire's path rather than any

tactical success of the fire-fighters.

The fire still raged completely out of control and the firemen, already dangerously near exhaustion, were beaten back by flames and heat as the blaze leaped across a main road and started chewing its way into the dense woodland surrounding the wood piles.

About this time, the only injury reported during the entire blaze occurred. A Digby fireman sustained a foot injury and had to be removed for treatment. The extent of the injury was not known immediately but his general condition was not believed to be serious.

At 8 o'clock the fire was still out of control, but the cessation of fire blocks had noticeably lessened the danger of the whole yard and adjacent areas being involved. Attempts to salvage the unburned pitprops met with growing success.

Three fire engines were trapped behind the inner wall of flame, farthest from the principal body of fire-fighters, but they were spared destruction. The only harm done was that their awkward position kept them out of the main fighting, though they did an excellent job in preventing the spread of fire to the woods at the rear of the main fire.

At this point fire-fighting force had reached full strength, and the fire was losing some of its momentum as the wind died down. It continued to spread about another hour before being checked finally and brought under control at an early hour on Monday morning.

During the blaze, which attracted thousands of spectators, a splendid job of directing traffic and keeping sightseers out of the danger area was done by a Naval Shore Patrol and the RCMP.

Trinity W.A. will meet at the Rectory on Tuesday evening at 8 o'clock.

Mrs. Chester Levy and daughter left this week for a short trip through New Brunswick and Maine.

Vandals Break Windows

It was reported this week that vandals have broken windows at the chlorination plant for the town water supply, located at Mount Pleasant.

Town water officials are deeply disturbed about this as they point out serious damage could result if any of the stones thrown through the windows of the plant were to strike the chlorinating machinery.

It is understood police are investigating the matter and steps will be taken to bring a halt to these depredations.

Digby Local N.S.T.U. Officers Elected

The September meeting of the Digby Local N.S.T.U. was held in the Regional High School, Digby, Wednesday, Sept. 7th.

The officers for this term were elected as follows: President, A. J. Deveau. Vice-President, Mrs. Nola Jeffrey. Sec'y. Treas., Mrs. Helen Rioridan.

Future meetings will be held the 2nd Saturday in each month at 3:30 p.m., following sessions of the Study Club.

To France To Study

Lieut. (SB) Fred W. Denton, RCN(R), sailed from Montreal the 14th of September to take up a French Government Scholarship appointment as "Assistant and Etudiant de Cours Complementaire" Rennes, France.

Lieut. Denton, son of Mr. and Mrs. Clayton Denton, Little Ristade, is a Master of Arts graduate of Acadia University. He has served the past two years as staff officer Untd. Mount Allison University, Sackville, N.B. and on the staff of Command Personnel Officer, HMCS "Stadacona", Halifax, N. S.

Deer Chases Dog At Westport

Mrs. Leonard Garron tells a story which is rather different than those usually told about deer. While looking for mushrooms along the shore, near her summer cottage, Mrs. Garron heard a noise behind her and thinking it was her dog "Chubby" turned around and a doe was coming at her heels. She immediately whistled for "Chubby" and when he arrived on the scene the deer started to chase him. Chubby ran to hide behind Mrs. Garron. After a short while the deer walked slowly from the scene.

Maple Leaf Fair Outstanding Success

The annual Community Fair, sponsored by the Maple Leaf Agricultural Society this year, was an outstanding success.

In every department exhibits were superior to those shown in previous years and the value of such competitive fairs was clearly demonstrated by the marked improvement in quality and in numbers of exhibits on display.

Included in the exhibits were really splendid displays of garden vegetables, fruits and flowers. Displays of poultry and livestock were also excellent and elicited a good deal of very favorable comment from the large crowds which attended the fair, despite the threatening weather.

At both noon and the supper hour hearty meals were served by the ladies and hot dogs, ice cream and cold drinks supplemented these meals during the day and evening.

Also included among the displays were fine examples of home cooking and pickle and jam making. Home arts were also well represented as were displays of school work by the youngsters.

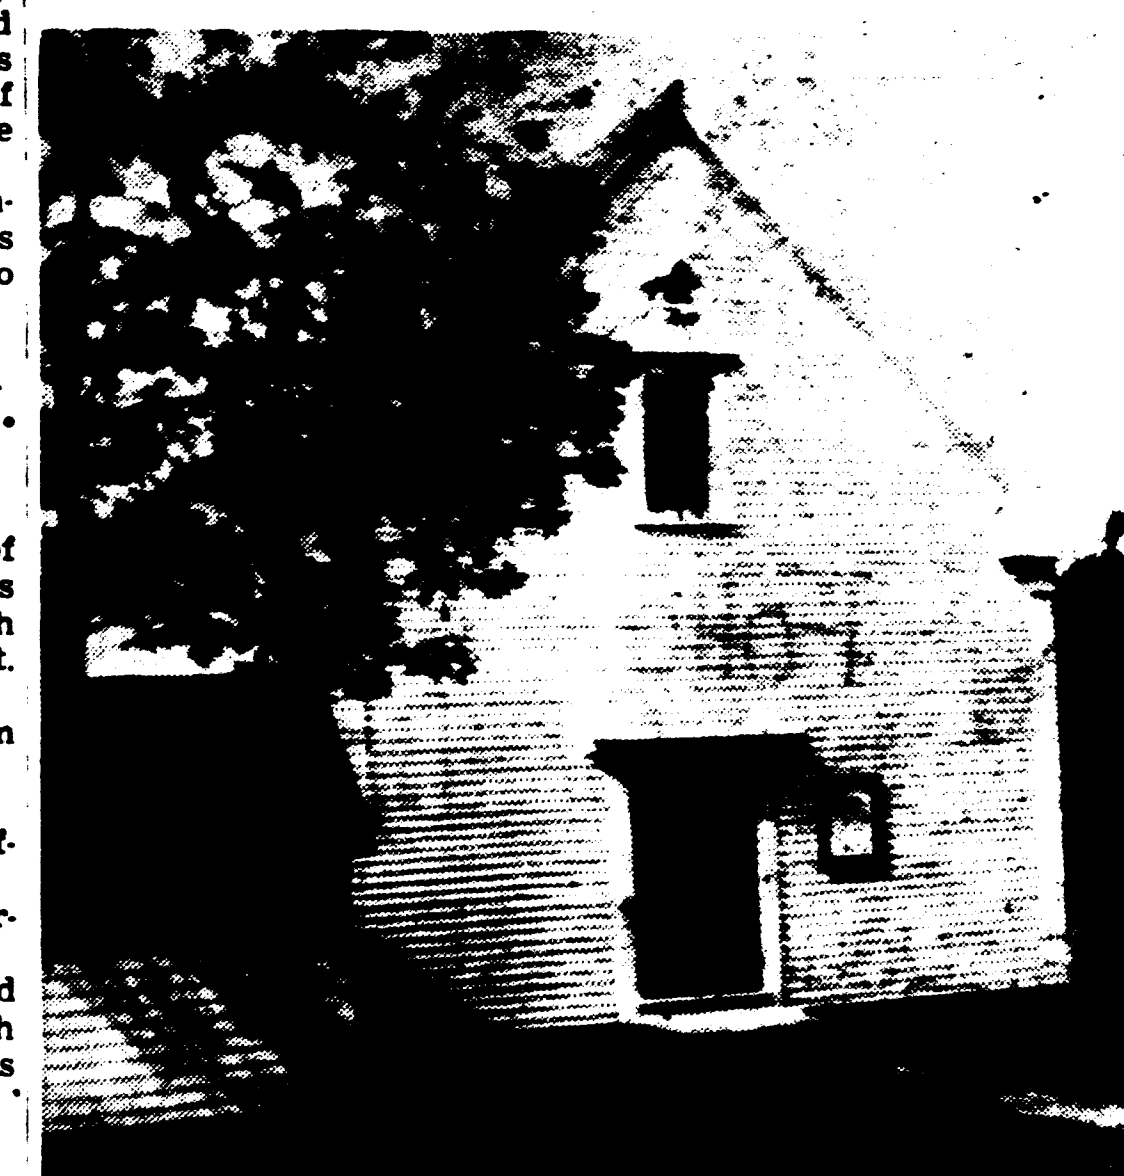

Trade Board Prexy To Remain

James P. Richards, President of the Digby Board of Trade who last month tendered his resignation as head of the board, Wednesday night agreed to carry on until the end of the year.

Frank Ervin, Secretary-Treasurer, also told Wednesday night's meeting he would withdraw his resignation and carry on until the end of the year.

It was decided at Wednesday night's meeting that the October meeting of the board would be held as a supper get-together and that a speaker would be invited from the Canadian Chamber of Commerce. The speaker, at the same time ago by the Digby Board, will be presented at that meeting.

Hold Roll Call At South Range Church

On Sunday, September 18th, the Church of Christ at South Range will have special services with the Annual Roll Call in the evening service.

Each year the members gather in this "Church by the side of the road" and fill the building to overflowing to remember the goodness of God, the accomplishments of the past, and to renew their consecration to Almighty God. This service is always the highlight of the year's activities, non-resident members sending their greetings, gifts and good wishes to be added to the rejoicing of those present. The singing is something to be remembered for its "Joyous Abandon" one feels, in the singing, the joy of those returning home for this occasion, to mingle their hearts and voices and prayers in this service.

Last December the South Range Church of Christ celebrated its 63rd anniversary, when the history of the church revealed the good years and the lean years, but withal, the great faithfulness of those who "carried on", sometimes with the help of a minister, at other times without specially trained help, until today the church is a growing church. During the past year this church has enlarged the missionary vision

and is now supporting the "All-Canada" work, the "Maritime" work, and the world-wide missionary effort, believing that no church will prosper and do the work it is intended to do without having, and being, an active part in "preaching the Gospel to the whole world". The Young People's Group is an active group and growing in activities of a useful and character building nature, during this year giving a substantial gift of money and work to the building and support of the new camp site situated at South Range, also having a number attended the summer camp held there in July.

The Roll Call service will be conducted by the pastor, Rev. John A. Carr, who will also preach the sermon, using as his topic "The Reproach Removed". The Weymouth Falls Choir will occupy the choir loft as the guests of the church and will sing special selections for the service. Mr. Clyde VanNorden, tenor soloist of the Church of Christ at Milton, Queens Co., will sing "The Holy City" and "Bless This House".

At the morning service the South Range Choir will provide the special music, under the capable leadership of the organist and choir director, Miss Muriel Marshall.

HOME & SCHOOL WORKSHOP HELD

A workshop for leaders in the Home & School movement in western Nova Scotia, the first of its kind ever held in this area, was held over the weekend at Sandy Cove, in Digby County.

Sponsored by the Nova Scotia Federation of Home & School Associations, the workshop was operated by the Adult Education and Physical Fitness Divisions of the Nova Scotia Department of Education.

Leader of the weekend program was Thomas Jones, western Nova Scotia Director of Adult Education, and on the staff were Mrs. Jean Pell, of Bridgetown, Provincial Program Chairman of the Home & School Federation; Robert Swim, of Middleton, Regional Vice-President of the Federation, and Maurice Hennegar, of the Physical Fitness Division. Also assisting was School Inspector C. B. LeGrow, of Liverpool, and M. J. Belliveau, Rural School Supervisor, Meteghan River.

Also attending and taking part in the Workshop was Dr. A. A. Giffin, President of the Nova Scotia Federation of Home & School Associations.

Some thirty leaders of Home & School groups from Kings, Annapolis, Digby, Yarmouth, Shelburne and Queens Counties attended the workshop where plans for the coming year's activities in Home & School were thoroughly discussed.

The meetings studied ways and means of making the Home & School movement more effective and dealt with various plans

to extend the influence of the movement to a wider circle of parents and other adults interested in youth work and education.

A feature of the workshop was a display of art work and printing done by the children of Digby County. This was in charge of Miss Helen Delaney, of the Department of Education.

At the close of the meeting all present expressed themselves as convinced the idea of holding such a workshop was a good one and plans were made to make the affair an annual event.

Attending were Mr. Lamont Fraser, Greenwood; Mr. Harry Nelson, Greenwood; Mr. Rod. Fredericks, Kingston; Dr. Ernest Meyers, Middleton; Mrs. Leone Hoyt, Bridgetown; Mrs. Esther Thompson, Bear River; Mrs. Winnifred Comeau, Rossaway; Mr. Alain Doucet, Little Brook; Miss Priscille d'Entremont, Meteghan River; Mr. Albert E. Jones, Weymouth North; Mr. Gordon Nickerson, Yarmouth; Mrs. Lillian Cromwell, Yarmouth; Mrs. Aline d'Entremont, Middle West Pubnico; Miss Phyllis Boudreau, Wedgeport; Mrs. Augusta Nickerson, Clark's Harbour; Mrs. Dorothy Ellis, Shelburne; Miss Nellie Redding, Lockport; Mr. Michael Walsh, Brooklyn, Queens County.

Among those attending as visitors from Sandy Cove were Dr. and Mrs. Morehouse and Mrs. Owen Irving, former President of the Digby Home and School County Council.

Joseph D. Hattie Resigns From Council

The resignation of Joseph D. Hattie from the Digby Town Council was received with regret at the September meeting of the Council.

Mr. Hattie who has been a member of the Council since 1952, stated his health would not permit him to continue his duties. The Clerk was asked to write Mr. Hattie expressing the regret of the Council at his decision and appreciation of the services he had given to the town.

Building permits were granted to W. Raymond Thibault to construct a home on King Street and to David C. Landers for the construction of three houses on Prince William Street.

A delegation headed by John Raymond appeared before the meeting concerning the matter of the town dump. Spokesmen stated they wanted the town dump moved and stressed the health menace involved in maintaining it in its present location.

The group was informed the Council had presented a plan to remove the dump from its present location to a meeting of the ratepayers but this had failed to gain approval.

Mavor Guv E. Morehouse reported on the recent meeting of the Union of Nova Scotia Municipalities which he attended and gave an account on the sessions held to discuss the new Education Act.

Town Clerk E. S. Eaton also reported on the meetings of the Municipal Finance Officers' Association and the refresher course held for town clerks and treasurers.

Hold Christening

Rev. H. Y. MacLean, Rector of Trinity Anglican Church, officiated at the christening on Sunday afternoon of Nigel Hemingway, infant son of Mr. and Mrs. Ernest Hemingway, at Trinity Church here.

God parents of the child were Mr. and Mrs. Laurie Mundy and Mr. Jack Armitage. A feature of the christening was the lovely christening gown worn by the child. This was made by Mr. Hemingway's aunt in England.

Following the christening a tea was held at the home of Mr. and Mrs. Hemingway for friends from Digby and Cornwallis. A beautiful christening cake and other delicacies were among the refreshments served.

Mrs. Bertha Neimeyer, who has been living here for the past year, has moved to Boston, leaving Sunday, accompanied by her friend, Mrs. Agnes Jenkins, of Boston, who has been visiting her for the past few weeks.

JOIN STAFF OF DIGBY PSYCHIATRIC CLINIC

Dr. and Mrs. John Cumming arrived in Digby this week from Saskatchewan and will take up residence here. Dr. Cumming will be on the staff of the Digby Psychiatric Clinic and will replace Dr. William Longaker who has succeeded Dr. Eric Cleveland as head of the clinic. Dr. Cleveland left Digby some time ago to head up the newly established Fundy Psychiatric Clinic at Wolfville.

Dr. Cumming is a native of Saskatchewan of Scottish origin. He received his early education in Saskatchewan and attended the University of Saskatchewan where he received his B.A.

During the second World War Dr. Cumming served with the Royal Canadian Air Force as pilot and held a squadron command at his discharge at the end of hostilities.

Following the war he took up the study of medicine and graduated from the University of Toronto in 1949. He served his internship at the Saskatoon City Hospital and from 1950 to 1952 he did special work with the Saskatchewan Psychiatric Services Branch.

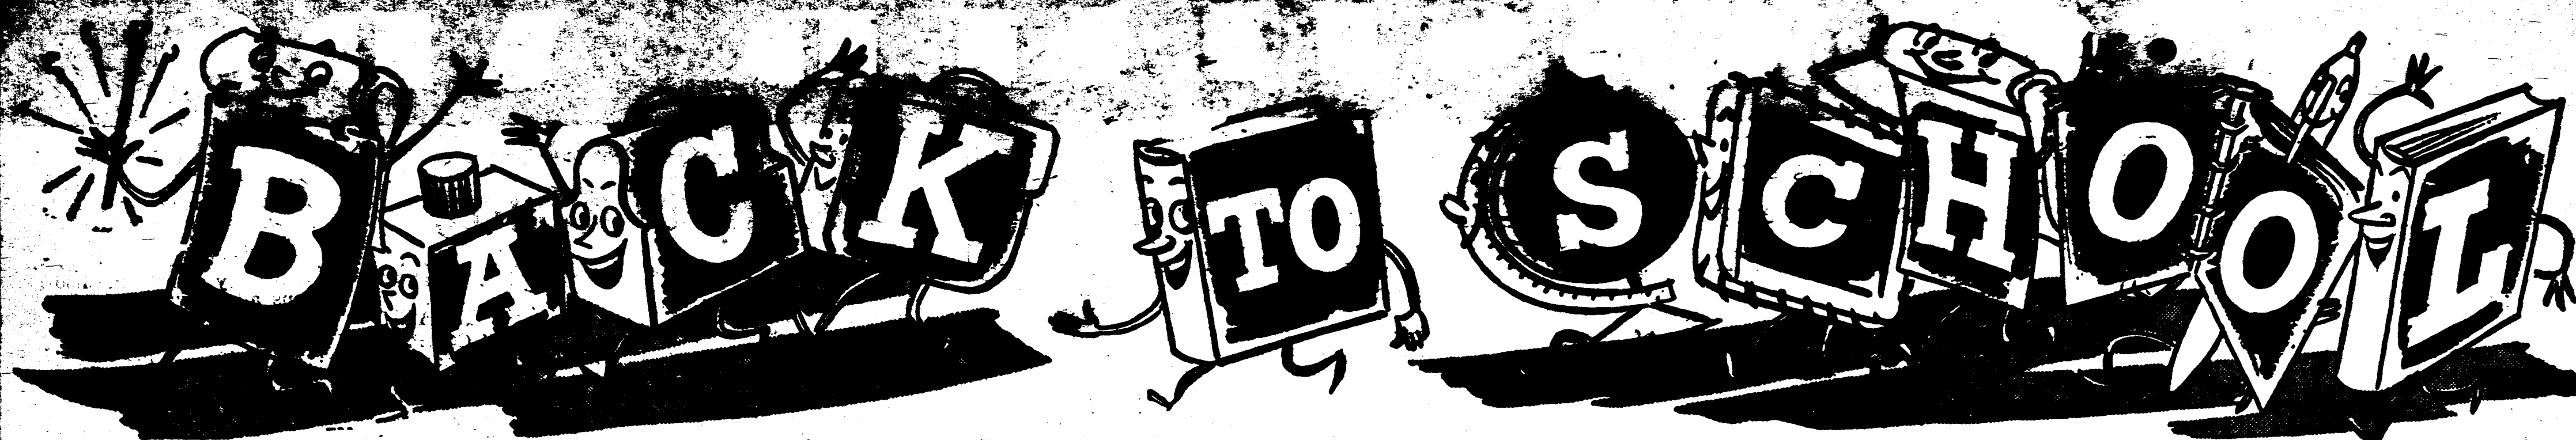

From 1952 to 1954 Dr. Cumming was at Harvard University and also worked at the Boston Veterans' Affairs Hospital under the supervision of Dr. Alfred Stanton. He also studied group therapy with Dr. E. Sennard of the Boston Psychopathic Hospital.

After this Dr. Cumming was Senior Psychiatrist at the Saskatchewan Hospital in Weyburn and during this time received his certificate in psychiatry from the Royal College of Physicians and Surgeons of Canada.

Dr. Cumming, with his wife, Dr. Elaine, also carried out the Blackfoot Project which was an attempt to evaluate attitude changes in a community as a result of a traditional Mental Health Educational Program.

Dr. Cumming's wife, Dr. Elaine Cumming, who will also do work with the clinic here, was born in British Columbia of English parents. She received her early education in Saskatchewan and attended the University of Saskatchewan and the University of Toronto where she received her B.A. with high honors and her M.A. in Biology, specializing in human genetics. For a time Dr. Elaine Cumming did biological research at the University of Saskatchewan and was also a social research worker for the Psychiatric Services Branch of the Province of Saskatchewan. She also was consultant to the department of Social Welfare on adoptions.

From 1952 to 1954 Dr. Cumming was with the department of Social Relations at Harvard and received her Ph.D. in Sociology at Harvard where she was a Phi Beta Kappa. Since that time Dr. Cumming has been a sociologist at the Saskatchewan Hospital in Weyburn and has also been serving as a consultant with the Royal Commission on Agriculture and Rural Life. The Cummings have two children, Ian and David, who have been enrolled in school in Digby.

PROTECT OUR CHILDREN

DRIVE WITH CAUTION

They're Back In School Again!

They're scrubbed and back in school again, and we're all quite proud of them. As future citizens of our community, they carry with them our fondest hopes and blessings.

Who knows how much ability they have or how far they will go in the world? Among them perhaps is a future college professor, an industrial leader, a senator or maybe even a prime minister. We'll never know until they've grown up and found their places in the world.

The best we can do now is protect them, guard them against accidents and help them grow up.

They're little people who haven't learned all the safety rules, nor are they aware of where all the dangers are. So give them every possible break. Let them live to grow up strong and healthy.

Observe These Safety Rules!

1. Drive with special caution on school days. Recess periods, special dismissals, and school closing hours mean that children will be crossing streets and highways.
2. Observe school caution and stop signs. They are posted to give you a warning. Heed those warnings.
3. Drive with special care when you are behind a school bus. Watch for stop signals from the bus driver. They are required to warn you when they are about to let pupils out.
4. Make sure your car has good, effective brakes. Don't wait until they are useless before you have them fixed. You never know when you may have to stop suddenly for a child.
5. Observe all traffic laws. Our children are being taught to observe them too. They expect you to do your part.

Disastrous Fire At Granville Ferry

Five persons were rendered homeless in a disastrous fire which took place at Parker's Cove, Anna, Co., on Saturday evening, when the home of Douglas Graham was completely destroyed.

Mrs. Graham, the former Iris Hayes, of Granville Ferry, accompanied by the two older children were in Annapolis Royal at the time of the fire. Mr. Graham and the baby were left at home keeping house.

The fire, of unknown origin, broke out after Mr. Graham and the baby had gone to the village store for groceries. Flames were noticed coming from the house by a neighbor who located and notified the owner.

The Annapolis Royal Fire Department was called but the fire had become so advanced in the heavy wind that the building had just collapsed on their arrival. However, due to the large amount of water used by the Fire Dept., the two near houses were saved from the danger of flying sparks.

Upon Mr. Graham's return to his home he was unable to make an entry owing to the intense heat and flames. And although he had the sum of \$100. in his bedroom he could not save it or any of the family's personal belongings. Furniture, clothing and all household effects were a total loss.

The house was practically a new one, it having been built 4 years ago and completed during the past year. A small amount of insurance was carried.

Prevent Forest Fire:

Kitimat grows

Already Alcan's big new West Coast smelter goes ahead with TWO major increases to meet the rapid growth in demand for Canadian aluminum

The broken lines on the photograph roughly indicate the additional area to be occupied by new smelters and other buildings. Beyond the present plant (the aluminum structure in the middle ground) can be seen the harbor and docks of Kitimat.

In August, 1954, only 3 1/2 years after ground was broken, the Kitimat smelter commenced production of aluminum with an annual capacity of 91,500 tons. Almost immediately a 60,000-ton extension was started. And in the spring of 1955 the decision was made to proceed with a flexible program to add a further 180,000 tons to ingot capacity.

...A progressive increase to 331,500 tons, more than three times the size of the original installation, and well on the way to our ultimate Kitimat goal of 550,000 tons a year.

"This continuing expansion of Kitimat in successive stages," stated Aluminum Limited president Nathanael V. Davis, "should, we believe, help to keep pace with the growing free world demand for aluminum and particularly the demand in our major export markets, the United Kingdom and the United States."

The new facilities will go into production step by step, with the first unit starting up in the fall of 1956. It is expected that the present building program will be completed in 1959.

CARS ARE MY LINE

by Ken Hankinson

When I'm out along the highway, I often stop to watch a road-building project where the bulldozers and tractors are levelling out wide, smooth, easily-curved super-highways. I've often heard friends wonder if it's all worth it. Well, let's see.

In Los Angeles, a study showed that it costs two cents a mile less to drive a car on a freeway than on an ordinary highway. The total of all savings, in gas and wear and drivers' time, would pay for an expressway in less than 10 years, the survey showed.

But aren't the speed-crazy fools going to race down the expressways at breakneck speeds? Yes, some will, I suppose — but a four-year study in Connecticut showed that a motorist driving on an ordinary highway, no matter how cautious he is, stands twice the chance of having an accident as the motorist on a limited access expressway.

In New York, a traffic engineer estimated that it cost 3.3 cents a mile to drive a car on an expressway (this was when gasoline was a lot cheaper, it would be more than that now, but the comparisons are interesting).

Compared with that 3.3 cents, he said, it cost 4.5 cents a mile to drive on a through street and 5.6 cents to drive on a congested street.

Good highways do save money for the driver, besides making life more bearable. You can only take advantage of those savings, of course, if your car is in top mechanical shape. A car that's in tune, regularly serviced by our factory-trained boys, will respond to better highways by swallowing less gas, chewing up less rubber and scraping down less metal.

Come in this week and just let them have a look-see. If there's nothing to be done, or only a squirt of grease is needed, they'll soon tell you. As you probably know, there's no safety device yet invented that's as good as peace of mind.

"Want some help with your homework, Dad?"

It's a good thing young Ted is only joking.

If his Dad took him up on that offer, Ted would soon find himself floundering in a sea of facts about family income management, succession duties, taxes, wills, trusts, business insurance and other related subjects!

You see, Ted's father is a typical life underwriter — a man who has not only been trained for his job, but keeps up-to-date by constant study. For the uses of life insurance are more extensive today than they used to be. And the men who represent companies in this business now advise you with increased skill.

Doing this calls for more than study. It takes real understanding of people's needs. And since each family's needs are different, the company representative offers valuable guidance in making plans to fit these needs — individually.

All in all, the life insurance man you deal with today is a very good man to know. And his progress is another reflection of the many ways in which the life insurance business has developed with the times to meet your changing needs!

NEW FULLY AUTOMATIC FURNACE Actually pays for itself

The most modern development in domestic heating will be demonstrated

in this area soon. You will want to see it.

Perfect by Nova Scotia engineers, this is the furnace which is making news in the heating world. In gleaming white enamel, it is only 40 inches long, 30 inches wide and 48 inches high. It costs little to buy and install and this cost is quickly returned in fuel savings.

COMFORT AND CONVENIENCE

This new principle of heating gives the householder maximum comfort and unsurpassed convenience. No stoking — no ashes to carry. And it is the most economical heating system yet devised.

IT REMOVES ITS OWN ASHES

With modern treatment of coal, most of the ash is eliminated. The small residue is carried by vacuum to a container which can be outside the house.

IT CUTS FUEL BILLS

Coal is the most economical fuel available in Nova Scotia. This new furnace makes a further reduction and cuts costs of fuel at least 20 per cent lower than hand-fired furnaces. Savings over other type heating systems are relatively higher. It holds a fire with as little as 3/4 of a pound of coal an hour.

IT IS ABSOLUTELY CLEAN

It is impossible for ash or dust to enter the furnace room. With this furnace, the furnace room floor can be as clean as the living room table.

IT IS FULLY AUTOMATIC

It feeds itself and carries the ashes — A thermostat regulates the heat.

Watch for the demonstration of this radically different home furnace.

Purchase and installation of Dosco's new furnace can be financed through a Home Improvement Loan available under the National Housing Act. See your Bank.

PAYS FOR ITSELF AS YOU USE IT!

MARRIAGE

A very pretty late summer wedding took place at Holy Trinity Anglican Church in Granville Ferry, on Friday evening, August 26th, when Faye Albertine, only daughter of Mr. Albert Bent and the late Mrs. Bent of Young's Cove, was united in marriage with Carl Maxwell Young, youngest son of Mr. and Mrs. Hiram Young, of Belleisle, Annapolis County.

The double ring ceremony was performed by Rev. W. Evans Jefferson, rector of Granville Anglican Parish, in the presence of relatives and friends of the popular young couple.

To the strains of the wedding march played by Mrs. B. Young, the lovely bride entered the church on the arm of her uncle, Mr. Bent, by whom she was given in marriage. For her wedding the bride chose a white strapless waist-length gown of nylon net over satin and wore a lace jacket with long sleeves tapering to points over the hands. Her shoulder length veil of nylon net illusion was held in place by a coronet of seed pearls and she carried a lovely bridal bouquet of red roses.

The bride's attendant was Mrs. Clayton Buckingham, sister of the groom, who was dressed in a gown of mauve net over satin and carried a nosegay of yellow roses.

The groom was attended by his brother, Stewart Young.

Following the ceremony a reception was held for approximately 100 guests at the home of the groom's parents, Mr. and Mrs. Hiram Young, Belleisle.

Receiving with the bride party was the grandmother of the bride, Mrs. John Young, and the mother of the groom, Mrs. H. Young.

The happy couple left later amid showers of confetti for a honeymoon trip to the New England States. For travelling the bride wore a white linen suit with red accessories.

Mr. and Mrs. Young will take up residence at Smith's Cove. The groom is employed with the Atlantic Wholesalers, Digby.

Many friends join in wishing the newly-weds many years of wedded happiness.

Legislators Ask Congress To Outlaw Alcohol Advertising
North and South Dakota lawmakers have asked Congress to put a stop to alcohol advertising "in newspapers, magazines, on radio or television."
In a formal resolution, North Dakota's House of Representatives said:
"The liquor industry is currently procuring a great deal of space in newspapers and magazines and much radio and television time, all devoted to advertising and promoting the consumption of alcoholic beverages."
"Such advertising will certainly increase the consumption of alcoholic beverages and will especially influence the youth of our nation by glamorizing the use of such beverages."
The resolution urged Congress to pass "legislation that will effectively prohibit the advertising of alcoholic beverages in newspapers, magazines, on radio or television."
A similar resolution was adopted by the South Dakota Senate, specifically mentioning

CARS ARE MY LINE

by Ken Hankinson
A lot of things have changed in the used car business in the last few years.

Perhaps you remember in the 1940's and even in the early 1950's how a lucky motorist could buy a new car, drive it around for a year or so, and sell it used for almost what he paid for it.

That was a bit rough on the poor fellow who couldn't buy a new car — but thank goodness the old law of supply and demand has come back and everybody gets a better break. The new car buyer is king these days, he's getting the best deals in decades, and the used car buyer can take advantage of the normal depreciation on cars to get his good deals.

But some of the old bugbears remain. Maybe you've heard, for instance, that station wagons are an outstanding buy as used cars because they depreciate faster than ordinary cars. Well, that used to be true when station wagons had wooden bodies outside and the paint soon cracked and peeled.

But these days a station wagon, now that they've got steel bodies, depreciate in just about the same way as a sedan.

More and more people are turning to station wagons, though, as the ideal family car (and this makes them a good buy either new or used because their popularity makes them no more a risk for future trade-in than any other car.)

They're ideal for the large family, or the family that likes country outings with lots of camping and holiday gear around. They're a godsend for the handyman who may be carting lumber and tools around, or the suburban family that stocks up on a lot of supplies or the gardening family that packs fertilizer, tools and plants around.

Most people these days could find a use for a good station wagon.

For some years Mrs. Norman Rice, Smith's Cove, and her brothers and sisters have corresponded with Sallie and Nadine Woods in Liberty, Texas. The binding link between the families was that Sallie and Nadine were afflicted with muscular dystrophy as were Mrs. Rice and her brothers and sisters. Mrs. Rice, who lives at Lansdowne Road, has been a cripple for 22 years, she informed the Courier. She has a sister, Miss Lizzie Thibault, Weymouth Mills, who has been crippled for 39 years and hasn't walked for the past 12 years. A brother, Ernest Thibault, of Weymouth Mills, has been crippled for 27 years and has not walked for 5 years, and a sister, Mrs. Arnold Handspiker, Mount Pleasant Road, has been a cripple for 15 years and has not walked for 3 years. Mrs. Rice is able to do some housework and get about by the help of her family.

Mrs. Rice called at the office to tell the Courier about the literature she had received on the National Muscular Dystrophy Research Foundation in the U. S. A. The Foundation was founded five years ago in March by Sallie and Nadine, with whom Mrs. Rice has corresponded. Following is an extract from remarks of Hon. Price Daniel, of Texas, in the Senate of the United States last March.

"Two young women in Liberty, Texas, Sallie and Nadine Woods, who were afflicted with muscular dystrophy, resolved that they were going to do something about this mysterious crippling. Their sister, Dell, an invalid since childhood, caused them to know what could happen to them and to others stricken with this disease. On March 20, 1950, they founded the National Muscular Dystrophy Research Foundation. It was the first organized effort against the disease and the first national health organization chartered in the State of Texas."

"During these five years the organization has grown and prospered, but always it has been under the influence and inspiration of its original founders, Sallie and Nadine Woods. Theirs is the story of 2 individuals — not healthy like most of us — but afflicted with a disease whose cause is unknown and for which no cure has been discovered. They are victims of muscular dystrophy, a disease which causes progressive wasting away of muscle tissue resulting in complete invalidism and often death."

"Five years ago doctors knew little about this disease which afflicts some 250,000 Americans. It was passed over in a few paragraphs in the medical books. Doctors were sympathetic but not encouraging. Sallie and Nadine were faced with a future which seemed to give them little hope. I am proud to say that these 2 girls from my home town wouldn't be stopped. Despite the fact that they grew weaker every day, they entered the battle against muscular dystrophy."

"Five years later many research projects have been started to study the nature of this disease and to search for a cure. Sallie and Nadine Woods have accomplished this by faith and sheer willpower. When the foundation began they did part-time secretarial work at home to pay for the postage. They talked to anyone who could be interested in helping and soon raised the funds to give the program a wider scope. "The spirit displayed by Sallie and Nadine Woods . . . is an example to each of us. They have demonstrated how we, too, may help make things better for our fellow men. There is more hope in the world for the sick and afflicted because 5 years ago Sallie and Nadine Woods began their crusade against muscular dystrophy."

Miss Rhoda Shaw was an overnight guest this week with her friend, Miss Eunice Pierce, at Smith's Cove.

The above is from a drawing done by the Canadian artist, C. W. Jefferys, to illustrate a passage from one of the humorous, famous "Sam Slick" books. A collection of these drawings—102 in number—was exhibited at the Halliburton Museum in Windsor, N. S. on September 20. At that time Mr. W. W. Shatford, manager of Imperial Oil Limited's Maritime division, presented the collection symbolically to the government of Nova Scotia on behalf of his firm, which owns the collection. Premier Henry Hicks, Trade Minister W. T. Dauphinee attended the presentation ceremony. Others attending were Mayor D. W.

Horsepower and Horse Collars

An English sports car that has set 100 world records for its class uses aluminum in its body-work and in parts of the chassis. ... And a French company is making lightweight aluminum collars for draught horses.

Just goes to show that in this age of aluminum it isn't just the newest marvels that make use of aluminum but some of man's oldest inventions, too. Which is one of the reasons why we have already started work on expanding the ingot capacity of our new development at Kitimat from its present 91,500 tons a year to 331,500 tons.

Conference Takes Stock Of Accomplishments

A conference was held in Heartz Memorial United Church on Saturday afternoon and evening, September 16th, under direction of the minister, Rev. Wm. Armitage, for the purpose of looking at things available in Christian education in the United Church of Canada, and to know love and serve God as individuals. Members of all churches on the field were invited to attend and delegates from Sandy Cove, Barton-Brighton and Weymouth were present, making a good attendance. Much work had been accomplished in advance of the conference to show by placards the work of the United Churches.

A welcome was extended by Mr. Armitage following a worship with which the conference opened.

At the afternoon session a mirror of the work (in this instance of the Weymouth Sunday School) was held, using a flip chart to ask questions and record answers which would total the work now being accomplished against the work needing attention. This gave a very informative and overall look at the work being done and can be used to chart all organizations of the church. At the close of this session various leaders and teachers for church work volunteered their services.

At 7:30 p.m. the second session was held. This opened with a worship led by Mrs. Armitage, the subject being "Here Am I, O Lord, Send Me." A film was shown entitled "Lovest Thou Me" after which a panel discussion on questions presented and suggested by the film was held. This proved a spirited discussion with three groups taking part. Following this the invitation to serve God by sharing in his work was given.

A service of re-consecration and the Sacrament of Holy Communion was held at 9:30 a.m. on Sunday, bringing to a close a very helpful and informative conference.

Dr. H. J. Melanson and Mrs. Melanson are spending several days this week in Moncton.

Mr. and Mrs. Camille Thibodeau and family, of Ohio, are now residing in the former home of Miss Helen Taylor. Mr. Thibodeau is night watchman at the Weymouth Industries plant.

South End Team District Softball Champions

Sunday afternoon the league president W. C. Letteney, officially proclaimed the South End Blockbusters the Digby and District Softball Champions for 1955-56.

This week the fans, along with the league president and executive committee of the Digby and District Softball League, join in extending congratulations to the South End Blockbusters. Digby and District Softball Champions for 1955-56. South End won the title after they had defeated the Smith's Cove Roughriders in the fourth and final game of the finals by a score of 24-15. The Blockbusters won the series three games to one.

Sunday's game was a see-saw affair with plenty of free hitting by both teams. The scorer's book showed that there were no strike-outs by either pitcher. South End's winning pitcher, Donnelly, walked none. He was taken for 21 base hits, six of these being for extra bases. Joudrey was the loser. He walked one and was taken for 26 base hits, eleven of these for extra bases. Each team had one brilliant defensive play. In the fourth inning Turnbull, of the South End team, in deep right field, moved quickly to his right and gathered in Hawkins' knee-high line drive, which would have been for extra bases had it gone through. In the fifth inning Smith's Cove shortstop, Paul Crowell, left his position and made a running catch of Dexter's fly ball. The catch was made near the left field foul pole.

South End took the third game of the series Thursday night by a score of 21-17. Both teams played good ball. Each pitcher struck out one and gave up 22 base hits. Donnelly walked none. Joudrey, for Smith's Cove, committed two wild pitches, two passed balls and gave up two free passes. A total of 10 home runs were hit in that game. It should be noted that in both of game, after Smith's Cove came from behind in the final frame by a score of 9-7.

It is hoped this Sunday that the Digby All Stars will be heard those wishing to take part in this game please be on the field by 2 p.m. If the Buckingham is away the South End Blockbusters will tangle with the Digby Firemen. In any event game time is scheduled for 2:30, weather permitting.

"Soundless" School Term For Bear River Student

Bells rang in the new term at six-year-old David Wheelhouse's school this year, as they did across the country — but he never heard them.

David's vocal chords have yet to vibrate words, because he has never heard a human voice. David is deaf.

The Bear River, Annapolis County, boy is one of 158 youngsters from the four Maritime provinces enrolled at the School for the Deaf in Halifax.

If he remains there for 10 years, as many do, he will leave with a grade VII or VIII education and a voice which he can use, even though he can't hear it.

And he will be able to read lips, decipher their meaning and voice a reply. But, if he is also adept at sign language it will be because he learned the universal "tongue" of the mute outside the school.

David, like the vast majority of those who roamed the corridors of the School for the Deaf through its 100-year past, doesn't hear the bell when it rings.

A few pupils gain a measure of assistance through hearing aids. Two of David's schoolmates are doubly handicapped — deaf and blind — and require a special teacher of their own.

And like the school's enrolments before them, the 1955 class live through the term in the school's dormitories. Summers and Christmas, only, are spent at home.

Sixteen academic teachers, a supervisor-teacher and the school's principal who sometimes fills in when he is required, guide the youngsters through terms of 16 academic classes — 14 of which are taught orally.

They study the usual school subjects but emphasis, said principal Karl C. Van Allen, is placed on language, lip reading and speech instruction.

Little David Wheelhouse and his friends will have to hurdle the problem of "proper use of English" — which is their biggest stumbling block.

He will have to feel the vibrations of the teacher's throat as she speaks, then learn to imitate her. He will have to fight the battle of words and their meanings, then sentence structure. For three or four years he will strive to build a vocabulary. For seven more he will apply himself to academic learning.

Eighty employees of the Canadian Pacific Railway at Digby were directly affected as the strike action by the Seafarers' International Union (Canadian Division) which had been threatening for several days materializing, halting the operation of the S.S. Princess Helene from Saint John to Digby yesterday morning. A spokesman at the Digby C.P.R. wharf said possibly only a half dozen employees altogether in the office and freight shed would be needed to carry on. At the time he said the termination of the strike was very indefinite although it was understood that meetings were continuing in Saint John then.

Notice of the first deadline for the strike was given for midnight on Sunday. This was postponed until 6 a.m. on Wednesday. Railway instructions which were given for agents to direct freight and passengers were then also lifted until Wednesday.

Events leading up to the strike began last November when a board of conciliation under the Industrial Relations and Disputes Investigation Act investigated the demands of the Seafarers' International Union for increase in wages of \$35 per month across the board, and an increase in standby rates and an increase in overtime rates. The company accepted the majority report of the board, under the chairmanship of His Honor, Judge C. J. Jones, which found that proposals of the Union were not justified. This report was rejected by the Union.

On board the Princess Helene the union represents unlicensed deck, engine room and steward personnel. The strike would affect about 45 men of the Princess crew, all but the officers of a crew of 60.

The strike against the entire CPR Coastal Steamship Service on east and west coasts involves more than 1,000 employees, 11 passenger and freight vessels and three barges on runs between Vancouver, Nanaimo, Victoria and Seattle, in addition to Vancouver-Alaska service and the Saint John-Digby route.

At time of going to press nothing official had been heard by the Digby CPR employees at the wharf as to the outcome of the meetings understood to be convening in Saint John or as to further events which might have occurred.

It was understood that a meeting of the Digby Board of Trade was called to convene at 5:30 to discuss the strike and its affect on the Digby employees.

LATER:

The Courier was informed just before closing that the Princess Helene would be on the run today and that no further delays were expected.

The Navy League Scholarship awarded to Merlyn Bacon, of Deep Brook, amounted to \$250. Instead of \$150, as stated in the Courier on September 22.

Charles S. Cox, of Salem, Mass., life-long summer visitor to Digby, passed away at a Boston hospital on Thursday, September 8. Mr. Cox first came to Digby when a small boy as a summer visitor in 1888 with his parents, Federal Judge Alfred C. Cox, and Mrs. Cox.

Mr. Cox was born in Utica, N. Y. He graduated from Princeton University and was a member of the Ivy Club of that college. He was an executive of the North British Mercantile Insurance Company of Boston. Surviving are his wife, Elizabeth A. (Alson), a daughter, Maryette A. Cox, of Manila; a son, Louis J., of Brunswick, Me.; two sisters, Mrs. Louis S. Weeks, of Lawrence, Long Island, N. Y., and Mrs. John T. Robinson, of Hartford.

Mr. Cox's first wife, who predeceased him, was the former Helen Osborne, daughter of the late Rev. Dr. L. Osborne, and Mrs. Osborne, who were the first to build a summer home in Digby. Their descendants are still coming to the same summer home here each year.

Six weekly newspapers were among a selection of Canadian publications placed in the cornerstone of Imperial Oil's new 19-storey office building in Toronto. Here G. L. Stewart (left), chairman of Imperial's board of directors, and J. R. White, company president, laid the stone September 8, the 75th anniversary of the company's formation. The newspapers were part of a collection of Canadiana intended to inform some future generations about Canadian living habits in 1955. Another item was a "Canadiana scrapbook" of some 100 clippings from various Canadian newspapers. Weekly newspapers chosen to be preserved in the cornerstone were the 1954 winners of Canadian Weekly Newspaper Association awards as best weeklies in their divisions.

Mobile X-Ray Unit Coming

Free chest x-rays will be provided for all students and staff over twelve years of age in the Digby schools on October 3, 4 and 5, states Rev. H. Y. MacLean, President of the Digby Tuberculosis Association.

The Mobile Chest X-ray Unit of the Department of Health and the Nova Scotia Tuberculosis Association will be set up on the school grounds and the x-rays will be taken right in the Unit.

Following the survey of the Digby schools the Unit will move to Annapolis County where an opportunity will be given for everyone over twelve years of age to have a free chest x-ray. This health service is financed in part through the sale of Christmas Seals and in part by the Nova Scotia Department of Public Health.

An x-ray will take only a few moments of each person's time. The Mobile Unit uses 4 x 5 films and because no undressing is required, up to 80 x-rays an hour can be taken.

The purpose of the survey is to find those hidden unsuspected cases of TB and all in the eligible age group are urged to take advantage of this important health service.

Following is the schedule to date:

Digby Schools: Oct. 3rd, 1:30 to 4:00; Oct. 4th, 9:00 to 12:00; 1:30 to 4:00; Oct. 5th, 9:00 to 12:00 — Regional Schoolyard.

Digby Life Long Summer Visitor Passes

Charles S. Cox, of Salem, Mass., life-long summer visitor to Digby, passed away at a Boston hospital on Thursday, September 8. Mr. Cox first came to Digby when a small boy as a summer visitor in 1888 with his parents, Federal Judge Alfred C. Cox, and Mrs. Cox.

Mr. Cox was born in Utica, N. Y. He graduated from Princeton University and was a member of the Ivy Club of that college. He was an executive of the North British Mercantile Insurance Company of Boston. Surviving are his wife, Elizabeth A. (Alson), a daughter, Maryette A. Finds Ripe Strawberries

Randy Comeau, Digby, age 10 years, while visiting Mr. and Mrs. Warren Anthony, at Carleton Place, Queens Co., on September 25th, found ripe wild strawberries, also blossoms in abundance. The strawberries, although the size of cultivated ones, were found in an abandoned orchard.

Later, Mrs. Frank Hazelton, Digby, also brought some fully grown, well ripened strawberries.

Smith's Cove, reached the 92nd milestone when he celebrated the anniversary of his birth on September 16 at the home of his nephew, Clifford Robins.

For sixteen years Mr. Robins was night watchman for a shoe firm in Worcester, Mass., and has many interesting stories to tell of his experiences.

For pastime he reads, does puzzles and interests himself in other hobbies, but his more active occupations are cutting wood and clearing pasture land.

CHANGES IN UNEMPLOYMENT ACT

New Act Revises Contribution System

The weekly system also makes it easier to record contributions and determine periods of unemployment where there is short-time employment or where a holiday falls in the middle of the week.

The higher earnings classes were added to allow higher ranges of benefits to employees. This was necessary in view of the steady increase in cost of living and wage rates since the previous amendment in 1952.

The new scale of contributions is on a more equal basis, as between earnings classes. Under the old Act, contributions as a percentage of average earnings varied from less than one per cent to more than three per cent. Under the new Act, the spread will only be from one per cent to 1.4 per cent, which is about the minimum variation possible using stamps of fixed denomination.

| NEW CONTRIBUTION RATES | | | |
|---------------------------|---|---------------------------|--|
| Range of Earnings (each) | Employer and Employee Contribution (each) | Average Earnings in Range | Contrib. as Percentage of Average Earnings |
| (1) Less than \$9.00 | — .08 | | |
| \$ 9.00 and under \$15.00 | — .16 | \$11.80 | 1.36 |
| \$15.00 and under \$21.00 | — .24 | 17.85 | 1.34 |
| \$21.00 and under \$27.00 | — .30 | 23.70 | 1.27 |
| \$27.00 and under \$33.00 | — .36 | 29.65 | 1.21 |
| \$33.00 and under \$39.00 | — .42 | 35.60 | 1.18 |
| \$39.00 and under \$45.00 | — .48 | 41.60 | 1.15 |
| \$45.00 and under \$51.00 | — .52 | 47.55 | 1.09 |
| \$51.00 and under \$57.00 | — .56 | 53.50 | 1.05 |
| \$57.00 and over | — .60 | 59.70 | 1.01 |

(1) When earnings are less than \$9.00, the contribution (for benefit purposes) is counted as 1/4 week.

Increases Benefits

Under the new Unemployment Insurance Act, which will be effective on October 2, the maximum benefit rate for a single person has been increased to \$23.00 from \$17.10 and that for

a person with a dependent to \$30.00 from \$24.00. This adjustment brings unemployment insurance benefits to about the same percentage of average earnings as under the original legislation.

The new benefit rates, related to earnings, are as follows:

| NEW BENEFIT RATES | | |
|-----------------------|---------|--------------------|
| Weekly Earnings Range | Single | Benefit Dependency |
| Less than \$15.00 | \$ 6.00 | \$ 8.00 |
| \$15.00 to 20.99 | 9.00 | 12.00 |
| 21.00 to 26.99 | 11.00 | 15.00 |
| 27.00 to 32.99 | 13.00 | 18.00 |
| 33.00 to 38.99 | 15.00 | 21.00 |
| 39.00 to 44.99 | 17.00 | 24.00 |
| 45.00 to 50.99 | 19.00 | 26.00 |
| 51.00 to 56.99 | 21.00 | 28.00 |
| 57.00 and over | 23.00 | 30.00 |

It should be noted that the full effect of the new benefit rates will not be felt until claimants have contributed for at least eight weeks at the new rates.

In regard to duration of benefit, records showed that relatively few people were drawing the maximum benefit available to them, while a good many were still employed when their benefit period expired. By reducing the maximum duration and lengthening the minimum duration, protection has been shifted so that, in total, it is more comprehensive.

Minimum duration under the new Act has been raised from six weeks to 15 weeks, while the maximum has been reduced from 51 weeks to 36 weeks.

In order to qualify for benefit under the new Act, the minimum requirement is that the claimant has paid contributions in each of 30 weeks during the two years immediately preceding the claim, at least eight of which must have been in the year immediately preceding the claim. This provides the basic minimum period of benefit, 15 weeks. Each additional two weeks of contributions entitles the claimant to a further week of benefit, up to the maximum of 36 weeks.

Since contributions under the new Act are on a weekly basis, it is not necessary for a claimant to have been employed for the whole of each week in order for it to be counted as a contribution week. Two days, or even one day, of employment in a week can give a weekly contribution.

On the other hand, it enables a claimant to qualify sooner than under the old Act.

The conditions for re-qualification have also been changed. To re-qualify, the claimant has to tell of his experiences.

Find New Bird At Westport

The first Lark Bunting to be recorded in Nova Scotia was found on Brier Island, near Westport, Digby County, on September 13. This feathered wanderer, a little larger than a common English sparrow, had strayed from its home on the western plains. It was discovered on a stony beach by a field party of the Nova Scotia Bird Society.

The party, members of which were W. J. Mills, Harrison F. Lewis and Fred Helleiner, spent several days on Brier Island in order to study autumn bird migration. They observed 95 kinds of birds, including such rarities as the scarlet tanager, black tern, yellow-rumped warbler, and the least flycatcher.

The way to New England and the south. Dense concentrations of birds sometimes occur there and rare and uncommon kinds are found.

The Bird Society is carrying on its study of bird migration in cooperation with similar organizations in New England. It is hoped that comparison of observations made on the same days on both sides of the Bay will throw new light on the subject.

Fish 'N' Vegetable Variation

In sponsoring National Fish Week October 3rd to 8th, the Fisheries Council of Canada has brought to our attention some pertinent facts we sometimes forget. The Fisheries Council represents the gigantic industry engaged in bringing us the best from coastal and inland waters throughout the year. There is a never-ending supply of fresh, frozen, canned and cured fish available across the country, this week, next week and every other week. With a wide range of variety in Canadian fish and shellfish, there's plenty of scope for interesting, low-cost main dishes. Fish-Vegetable Bake is but one example of the different twists you can put in the menu pattern using one type of fish such as fillets. This slightly spicy dish combines a "harvest" of vitamin-rich vegetables with mild-flavored fillets, so plentiful in proteins. With this hearty, healthful dinner feature you're headed for sure eating pleasure.

- Fish-Vegetable Bake**
- 2 pounds fish fillets (cod, haddock or perch)
 - 1 medium onion, sliced
 - 3 tablespoons salad oil
 - 2 tablespoons flour
 - 2 cups tomatoes, fresh or canned
 - 1/4 cup chopped celery
 - 1/4 cup chopped parsley
 - 1/4 green pepper, diced
 - 1 bay leaf
 - 1 teaspoon salt
 - 1 whole clove
 - 1/2 teaspoon sugar
 - Dash pepper
- Sauté onions in oil until tender. Blend in flour. Add vegetables and seasonings and cook, stirring constantly until thickened. Simmer about 15 minutes. Remove bay leaf and clove. Arrange fillets in a shallow buttered baking dish and top with sauce. Bake uncovered in very hot oven preheated to 450 deg. F., allowing 10 minutes per inch thickness of fish. If frozen fillets are used, increase time to 20 minutes per inch thickness of fish. Makes 6 servings.
- Consumer tested recipe released through Fisheries Council of Canada.

MARRIAGE

was united in marriage to Ronald Sydney, son of Mr. and Mrs. Harold McCullough, of Tideville, Digby County.
Rev. Carl C. Jones, pastor of the Church officiated at the ceremony. The church was attractively decorated with baskets of green boughs and gladioli. Mrs. Vernon Trask presided

at the organ during the ceremony with Miss Amy Allen singing "The Wedding Prayer" during the signing of the register.
The bride, who entered the church on the arm of her father, looked very attractive in a floor-length gown of white nylon net over satin. The skirt of the

dress was made of flounces of nylon net with scalloped lace edges. The gown was strapless with a lace bolero and a peter pan collar. The long sleeves came to a point over the wrists. Her finger tip veil of nylon sheer fell from a satin coronet studded with pearls. She carried a bouquet of American Beauty roses.

Mrs. James Scoville, sister-in-law of the bride, was matron of honor, and was very attractive in a floor-length gown of nile green net over satin. The gown was strapless with a lace bolero and a matching headdress.

Miss Ida Fitzgerald, aunt of the bride, was one bridesmaid. She wore a gown of pale blue net over satin with a lace bolero with a peter pan collar and matching headdress.

Miss Freida Sweeney was the second bridesmaid, wearing a gown of yellow net over satin and a lace bolero, with a matching headdress. They carried bouquets of gladioli.

The best man was John Cunningham, friend of the bride and groom. James Scoville, brother of the bride, and Don Rozee, brother-in-law of the bride, were ushers.

The bride's mother wore a dress of navy nylon bengaline with white accessories and a corsage of white carnations. The groom's mother chose a dress of grey with white accessories and a corsage of pink carnations.

Following the ceremony a reception was held at the Golf and Country Club which was attractively decorated with bouquets of summer flowers and gladioli. About 125 guests were present. Following congratulations and best wishes, Rev. Carl C. Jones proposed a toast to the bride, which was responded to by the groom.

The bride's table was decorated by Mrs. James Scoville, sister-in-law of the bride, and Mrs. Don Rozee, sister of the bride, and was very attractive with silver candlebras and tall tapers. It was centered with a beautiful three-tier wedding cake set in a wreath of flowers and topped with a miniature bride and groom.

Mrs. Paul Hatfield, friend of the bride and groom, also Mr. Ed. Boudreau and Mrs. Wallace Pitman, aunts of the bride, were in charge of the refreshments. Mrs. Etta Cain cut the wedding cake. Miss Florence Boudreau

I never pry into other people's business, especially our customers' business.

But it often helps our sales representatives and myself when our customers, who are shopping around for a car, let us know what they're going to use it for.

For instance, a family that's going to be using their car pretty well exclusively for city driving, finds a car with automatic transmission a tremendous advantage.

And anybody finds power steering a great relief, especially a wife who uses the car to come downtown.

With these things in mind, we often find we can outfit a family with a used car featuring these advantages when they feel they couldn't afford a new one with the optional extras.

Or maybe the husband likes a good, firm, heavier car from the middle and upper price brackets. He can find a used car from the higher-priced brackets that will give him the luxury and feel he wants at an economy price.

More and more these days, people are buying used cars as the family's "second" car for the wife and members of the family. In cases like this a four or six cylinder car often fits the bill perfectly.

By all means shop around when you're thinking of trading or buying. And when you come in to see us, it may help if you explain to our sales representative, or myself personally, what you want to use the car for.

Money across the miles

A chartered bank makes it a simple matter for you to send money almost anywhere, inside or outside Canada.

You may want to get money to a certain city as a gift on somebody's birthday; or to settle a business account; or to set up a fund which can be drawn upon by a company salesman, branch office or supplier.

It works the other way, too. If you are far from home and short of cash, you can advise your "home" branch to telegraph your money to a point where you can pick it up. Many situations and needs can arise — and a chartered bank has many ways of taking care of them, including the sale of travellers cheques.

This service is one of the many advantages you enjoy as a customer of a chartered bank. Your local branch is an all-round banking service-centre that can be helpful to you in many ways.

Only a chartered bank offers a full range of banking services, including:

SAVINGS ACCOUNTS

Keep your money safe; pay you greatly interest; encourage the habit of thrift.

COMMERCIAL LOANS

For business or industrial firms, large and small; production, processing, retailing—every type of enterprise.

SAFETY DEPOSIT BOXES

Keep your important papers and other valuables safe, yet readily accessible.

TRAVELLERS CHEQUES

Protect you against theft or loss of cash. They are readily negotiable anywhere.

MARRIAGES

Common — Amoro
A pretty wedding took place at Holy Cross Church, Plympton, on Thursday, September 8, at 8 p.m., when Jean Amoro, daughter of Mr. and Mrs. Herbert Amoro, of Plympton, and Roy Comeau, son of Mr. and Mrs. Eddie Comeau, of Hill Grove, were united in marriage. The ceremony was performed by Father Deveau, and Mrs. H. Amoro played the nuptial music. The bride wore a floor-length gown of nylon net and rayon lace over rayon satin. The bodice had scrolls of sequins and rhinestones and fitted jacket with mandarin collar and long tapered sleeves. Her veil was shirred in cap style with coronet style tiara of satin and pearl design. She carried a bouquet of pink roses and lily of the valley. Margaret Amoro, sister of the bride, was bridesmaid, and wore a floor-length gown of pale green taffeta and a tiara of net and orange blossoms. Ray Comeau, brother of the groom, was best man. Immediately following the ceremony a wedding breakfast was served at the home of the bride's parents where a three-tiered wedding cake, topped with miniature bride and groom, centred the table and was cut in traditional fashion by the bride and groom. Later in the day supper was served at the home of the groom's parents, followed by a reception when a large crowd of relatives and friends gathered for the evening. The bride and groom were the recipients of many useful and lovely gifts. Following the reception the happy couple left by car for a short trip. On their return they will reside in Hill Grove.

McIntosh — Stark
A very pretty autumn wedding took place at the Baptist Church, Digby, on Friday evening, September 16th, when Glenda June, eldest daughter of Mr. and Mrs. Otis Stark, was united in marriage with ABCV Ronald Cowan McIntosh, RCN, youngest son of Mr. and Mrs. Donald McIntosh, Prescott, Ont. The church was beautifully decorated with fall flowers. The guest pews were marked by white satin bows.

The double ring ceremony was performed by Rev. E. C. Churchill in the presence of many friends and relatives of the bride and groom.

To the strains of the wedding march, played by Miss Ena Robinson, the lovely bride entered the church on the arm of her father, by whom she was given in marriage. The bride was wearing a waltz-length, bouffant skirt of ivory taffeta and nylon tulle with fitted bodice encrusted with iridescent sequins and seed pearls and having a large Bertha collar. She wore a headdress of lilies of the valley, held by a finger-tip veil of nylon tulle illusion. She carried a lovely bouquet of American Beauty roses.

The bride's attendant was Miss Elva Bremner, who was dressed in a floor-length gown of blue-satin under nylon lace. Her gown was strapless with a shawl of matching blue net. Her bouquet was of Picardy orchidettes.

The bride's mother, Mrs. Otis Stark, wore a gray suit with pink and navy accessories. Her corsage was American Beauty roses. The groom's mother, Mrs. Donald McIntosh, wore a brown suit with beige accessories. Her corsage was of yellow mums.

The groom was attended by ABMC Adrian McKay, RCN. The ushers were ABCV Ivan Pelletier, RCN, and OSEM George Faithful, RCN, from HMCS Buckingham.

Mrs. Shirley Clayton sang "The Lord's Prayer" and during the signing of the register "Because".

Following the ceremony a reception was held for approximately 60 guests at the vestry. Miss Hilda Campbell, aunt of the bride, poured from the bride's table. Mrs. Lea Westcott, aunt of the bride, was in charge of the guest book.

Mr. and Mrs. McIntosh will reside in Digby where the groom is stationed on HMCS Buckingham.

Kirk — Baxter
The Church of Christ (Disciples) at Weymouth, N. S., was the scene of a pretty wedding on Friday at 7:30 p.m. when Rev. J. A. Carr, pastor of the church, united in marriage Marilyn Elizabeth, youngest daughter of Mr. and Mrs. Arthur R. Baxter, Barton, and Peter Earl Kirk, youngest son of Mrs. Louise MacNeil, MacNeil, Saskatchewan. The double ring ceremony was performed.

Baskets of gladioli and other beautiful fall flowers and potted plants adorned the church. The bride looked radiant and lovely as she entered the church on the arm of her father, who gave her in marriage. Her bal-

laria length gown with its white tulle skirt was of white flannel nylon and trimmed with tiny pearls and she wore elbow length mitts to match. Her finger-tip veil of embroidered rayon net was held in place by a satin tiara covered with pearls, and she carried a cascade bouquet of red roses and fern.

The bride was attended by Miss Joan Grant, who looked lovely in yellow taffeta and net with a lace bolero, and a matching headress and mitts. She carried an arm bouquet of mixed gladioli and fern.

The two small flower girls were Betty Baxter and Bambi Freeman, nieces of the bride, and were dressed respectively in mauve and Nile green organza and net with headresses to match. They carried nosegays of red and white carnations.

The groom was supported by Richard Ellis, of Digby, and the ushers were Lester Baxter, Vernon Gaudet and Allen Shortliffe.

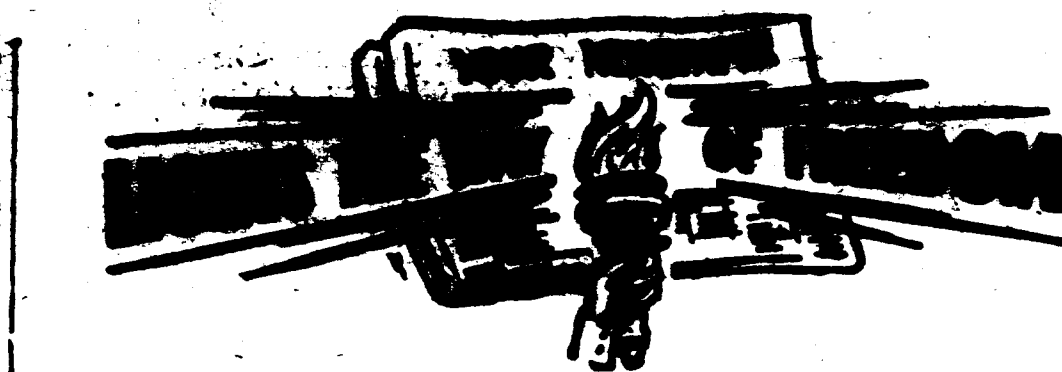

Mrs. Frank Lewis presided at the organ and Mrs. Lloyd Grant sang "O Promise Me" during the signing of the register.

The bride's mother wore a dress of navy nylon lace over taffeta with pink accessories and wore a corsage of pink roses. The groom's mother was unable to attend.

Fall flowers and mauve, green and yellow decorations, with white bells, added to the attractiveness of the church basement where a reception for 165 guests was held immediately following the ceremony.

Mrs. Margaret Lent, Mrs. Florence Bacon, Mrs. Hantford Marshall, Mrs. Harry J. Lewis and Mrs. Harry C. Lewis attended to the refreshments, while Miss Janet Powell, Miss Pauline Haight and Miss Reta Sabean waited on the bridal party.

Mrs. Audrey Freeman attended to the guest book.
