FOREWORD

I have tried to copy each name as it appeared in the *Courier*. However I know that there are mistakes both on my part and in items that appeared in the paper. I always used the form of spelling that appeared in the paper. I tried to carefully read each issue and hope that I have not missed items.

NOTES

If an item appeared more than once, I indicated this with a [2] or [3].

During this time period, the *Courier* was published on Friday, and there was a weekly shipping and fishing column. During 1914-1918, there was a weekly military notes page.

I tried to include some interesting community news, as well as shipwrecks of the period. This project started with just births, deaths and marriages, but I soon felt I had to show how useful early papers were in telling about family and community events.
