CIGAT come to the

100th Birthday

The hundredth anniversary of the Digby Weekly Cower has brought to mind some fond memories at cytained in the following historical chapter of the other. But first, I wish to congratulate the current shows a finer of the Courier, Mrs. J.M. (Edith) Wallis, for a job wall done over the years and still being well done. According to any record. I have at hand, the Digby Courier, in one hundred years of publication, was controlled under the same family management of Wallis Print Limited. The late J.J. Wallis became didner of The Courier, the second time, in 1929, and at the same time of Courier the second time, in 1929, and at the same time of Courier the second time, in 1929, and at the same time of Courier the second time, in 1929, and at the same time of Credits spanes. which he had been running in and which became With between 1929 and 1931

J.L. and "Mac" sometimes worked overtime. I worked only the regular hours being paid a weekly wage which was comporatively good for those times and my lack of experience. I received four or five dollars a week for working after school hours to six o clock and on Saturday all day, and nine dollars a week for full weeks after finishing school. A two or three follar a week raise was offered to me in the fall of 1925 for me to stay on at printing, but, I had made up my mind to enter a branch of the Royal Bank of Canada, starting salary of \$500. The bank salary ingred out about the same per hour as for the printing job. It was settled by Loyalists from New York in 1783, the most of whom went early to farms, or, moving to older countries, left the whole

free trade with the U.S.A., especially with the New England States. The question was then debated by some Digby High School students one of which was a J.J.'s' daughter. Florence (now Mes. Melvin O. Tibert, Freeport, Digby Co.) Some days after the debate a man from some part of Nova Scotia came to the printing shop looking for Florence, one of the successful debaters; I had the impression that his man was interested politically but, maybe I was wrong.

Well. I felt that I had learned considerable from my short experience at "The Wallis Job Print" I was learning to do beginner jobs, receiving some learning to do beginner jobs, receiving some learning eabout things like embossing, stapling, perforating, counting, cutting and trimming paper slock, mixing inks for certain desired colors, and so forth, but, the only experience I had at setting type was just enough to make a "pi", the printers name for a confused mess.
