THE DIGBY

The hundrotth anniversary of the Digby Weekly Coviet has brought to mind some tond memories as cotained in the following historical chapter of the Alter Box first, I wish to congratulate the current into of the Courier, Mrs. J.M. (Edith) Wallis, for a physical done over the years and still being well done, to will done over the years and still being well done, to solve over the years and still being well done, to be controlled under the same formity management of 42, years, 1931 to 1973, under the control of Wallis Print Limited, the late J.J. We worked ten-hour days, six days a week. "J.1." and "Mac" sometimes worked overtime I worked only the regular hours being paid a weekly wage which was comporatively good for those times and may lack of experience. I received four or five dollars a week for working after school hours to six o clock and on Saturday all day, and more dollars a week for hall weeks after finishing school. A two or three dollars a week raise was offered to me in the fall of 1025 for me to stay on at printing, but. I had made up my mind to enter a branch of the Royal Bark of Canada, starting salary of \$200. The bank salary mired out about the same per hoar as for the prin-ing job. Nevertheless, the congenial atmosphere of the printing plant those days, and, experience towever short, were belpful and appreciated by me We worked ten hour days, six days a week the printing plant those days, and, experience lowever short, were helpful and appreciated by me

Publicity and the Balance Sheet. When the average man looks at a piece of cloth he vaguely guesses at the quality, and wonders whether the piece is not a little too high. When an expert on cloth looks at it he traces it back to a flock of sheep grazing on a hillside. His mind goers back to the days of primitive looms, and forward again to these times of well nigh sentime machinery. He sees the gradual growth of knowledge about dyes, from the time the first Indian painted his checks with crude cloch to these days when we pilled the hues of the rainbow. He sees the generations of men at work at the looms, each bringing increased skill to the task of making cloth. Red Rose Tea

Red Rose Tesis composed of what are known in the trade as "high-grown," Ceyko gad Indian teas. These teas are grown at high allowings on the mountain slopes, where the tea buildes grow more slowly and are more cardelully cultivated than in the valleys, where the climate is warm and Bundd.

High-grown tea is not only a finer quality, but con-is much more that juice or extract than valley-grown

tea. This can be easily proved by comparing a draw-ing of Red Rose with any other tea. By doing so you will find that a pound of Red Rose Tea will spend as far as  $1\frac{1}{2}$  to  $1\frac{1}{2}$ . By, of other teas. The saving is most apparent in the Blue Label and better grades—bigs a pound and make the teat.

ALUMINUM COOKING UTENSILS

Are The Best.

1. They are light in weight bright as silver, and absolutely pure and wholesome

2. There is no enamel or plating to flake or wear off. The finish is the natural finish of the metal.

3. They will not burn or scorel

4. They retain heat longer than my other utensil.

5. They do not contain nor form any of the polyanous substances found in iron, copper and enameled

5. There are no joints, seams coulder to leak and give trouble.

7. They are finished in the very set possible manner.

will be found to afford prompt relief. The universal world-among the large number cured or relieved by this prepara-tion is "ITHE BEST VET." Remember an unchlocked Cough may mean a winter's sickness and the loss of a sum-mer's work, while the prompt investment of a quarter of a dollar may safe you both.

Every Two Minutes

> Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action be-comes irregular the whole body suffers. Poor health follows poor blood ; Scott's Frunksion makes the blood. Emulsion makes the blood pure. One reason why

### SCOTT'S EMULSION

is such a great aid is because it passes so quickly into the blood. It is partly di-gested before it enters the stomach; a double advanstomach; a double advan-tage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least pos-sible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even be-fore you expect it.

Miss Abbey Hains was a passenger from Meteghan on Monday to visit her mother, Mrs. Fanny Hains, who is on the sick list.

Hattie May, only child of Mr. and Mrs. Ralph Hains, died of meningitis on Sat-urday morning, Feb. 25th. She was about eight months old. Funeral on Sundav.

A number of our young people are taking advantage of the good sleighing. Several couples have driven to Tiverton, a distance of ten miles, taken tea at the hotel, returning in the "wee small hours."

Mrs. Charles W. Pyne, of Bear River, was called here to visit her mother, Mrs. Martha Westcott, who was suddenly stricken with paralysis Friday evening. There are slight hopes for her recovery. This has been the sixth, case of paralysis since last September, though the others were not so severe as this.

Having been snowed up for the past fortnight your correspondent has been unable to obtain much news of interest to the public, so in consequence there have been no items from Freeport. We are experiencing the same old fashioned winter that other places are speaking of, and I can say, all longing for the "good old summer time."

A number of young men understanding that Mrs. Susan Risteen had reached her ninety-fourth birthday Thursday, March 2nd, went to her home and presented her with a number of useful articles purchased at Mr. Austin Westcott's store. This shows that the young men of our town are kind and thoughtful for the aged.

Western Star Division celebrated its forty-fifth anniversary on Saturday evening. No special programme was pre-pared on account of the bad weather and ing. bad condition of the roads, but the evening was profitably spent, listening to speeches from the older members, reci-tations, old, but ever new, from Sister Bessie Nickerson-and Bro.
