The hundredth anniversary of the Digby Weekly Cower has brought to mind some fond memories at cytained in the following historical chapter of the other. But first, I wish to congratulate the current shows a finer of the Courier, Mrs. J.M. (Edith) Wallis, for a job wall done over the years and still being well done. According to any record. I have at hand, the Digby Courier, in one hundred years of publication, was controlled under the same family management of Wallis Print Limited. The late J.J. J.L. and "Mac" sometimes worked overtime. I worked only the regular hours being paid a weekly wage which was comporatively good for those times and my lack of experience. I received four or five dollars a week for working after school hours to six o clock and on Saturday all day, and nine dollars a week for full weeks after finishing school. A two or three follar a week raise was offered to me in the fall of 1925 for me to stay on at printing, but, I had made up my mind to enter a branch of the Royal Bank of Canada, starting salary of \$500. The bank salary ingred out about the same per hour as for the printing job. This laid out from the water's edge, partie on level of that name. It was settled by Loyalists from New York in 1783, the most of whom went early to farms, or, moving to older countries, left the whole

free trade with the U.S.A., especially with the New England States. The question was then debated by some Digby High School students one of which was a J.J.'s' daughter. Florence (now Mes. Melvin O. Tibert, Freeport, Digby Co.) Some days after the debate a man from some part of Nova Scotia came to the printing shop looking for Florence, one of the successful debaters; I had the impression that his man was interested politically but, maybe I was wrong.

Well. I felt that I had learned considerable from my short experience at "The Wallis Job Print" I was learning to do beginner jobs, receiving some learning to do beginner jobs, receiving some learning eabout things like embossing, stapling, perforating, counting, cutting and trimming paper slock, mixing inks for certain desired colors, and so forth, but, the only experience I had at setting type was just enough to make a "pi", the printers name for a confused mess.

The Pandora thermometer reduces cooking to an exact science. You know precisely how much heat you have and what it will do in a given time. It is one of the small things which makes the Pandora so much different and better than common

# WOMAN

"Woman" is the name of a new magazine for women. The first number is just issued. Your newsdealer has it You can get it from him, and it is worth your while getting it. There is nothing startling about this magazine. There should be nothing startling about a decent magazine is women and the home. But this particular magazine is unique among all the so-called publications for women. You might not like it a little bit, and then, again, it might hit your fancy good and hard.

If you like fiction—good, wide-awake, snappy stories—both serials and short stories—you will like "Woman." In fact, fiction is the big feature of the magazine.

All the other magazines for women are cast on the same a little bit of fiction, a few articles, more or less model—a little bit of fiction, a few articles, more or less chit chat, some wise advice, a fashion department and a smattering of general miscellany. "WOMAN" doesn't look any more like this conventional model than a yellow dog looks like a race horse. It is built on new lines for a strictly woman's publication. To know what it is like you will have to get a copy of it. It would cost too much to tell you all about it in this advertisement.

The price of "WOMAN" is TEN CENTS A CCPY, and the magazine is a very big one—192 p.ges.

By the way, two rattling good serial stories begin in this first num ber and it contains a big lot of other good things. You would do well to ask your dealer for it before his supply is exhausted.

When a person is bilious, the liver is not giving up enough bile to move the bowels regularly—and some of the bile is being absorbed by the blood. In other words, the liver, is in a weakened, unhealthy condition.

Now, purpaires don't act on the liver at all. They merely irritate the bowsh, and afford only temporary relief. But FRUIT-A-TIVES are the one true LIVER TONIC. They act directly on the liver—strengthen and invigorate this vital organ—and put it in a normal, healthy condition.

condition:

PRUIT-A-TIVES also stimulate the glands of the skin—and regulate the kulneys and sweeten the stomach. When skin, liver and kidneys are normally healthy, there can be no billsoumers, no constipation, no kidney touble, no impure blood, no headaches.

PRUIT-A-TIVES are fruit juices with tonics added—and are free from sleohol and dangerous drugs. 50c. a box or 6 for \$2.50. Sent. on receipt of price, if your druggist does not handle

 Our plea for help is that the Muskoka Free Hospital for Consumptives cares for patients that all other hospitals refuse. If the needed money is forthcoming, this dread disease might be stamped out.

# "FRUIT-A-TIVES" differ from any other remedy in the world.

They cure, absolutely, Stomach, Liver, Kidney, Bowel and Skin Troubles.

Because none of the usual remedies have given you relief, is no reason why you should not give "Fruit-actives" a good, honest trial.

Fresh fruit acts directly on the three great eliminating organs—Bowels, Kidneys and Skin. But fruit contains only a minute quantity of the medicinal principles and in order to receive any marked benefit from fruit, one would be compelled to eat more than could be assimilated by the system.

"Fruit-a-tives" contain all; the curative virtues of fruit in a wonderfully concentrated form.

In making "Fruit-s-tires," the juices of applies oranges, figs and prunes are combined-and, by a wonderful discovery of a famous physician, a Chemical change takes place in the juices, by which the medicinal action is many times increased. Then tonics are added, and the whole compressed into tableta.

the whole compressed into tablets.

"Fruit-a-tives" contain no Calomel—no Cascara—no Senna—no Morp iolent purgatives—only fruit juices and tohics.

"Fruit-a-tives" ast directly on the flowing Kidneys and Skin—strengthening them—with the Kidneys health, the Rowell noting requirity every day—the Liver active the porce of the skin doing their full there towards ridding the system of wasts—there can oliesse. "Fruit-a-tives" means health for every member of the family.
