The hundredth anniversary of the Digby Weekly Cower has brought to mind some fond memories at cytained in the following historical chapter of the other. But first, I wish to congratulate the current shows a finer of the Courier, Mrs. J.M. (Edith) Wallis, for a job wall done over the years and still being well done. According to any record. I have at hand, the Digby Courier, in one hundred years of publication, was controlled under the same family management of Wallis Print Limited. The late J.J. J.L. and "Mac" sometimes worked overtime. I worked only the regular hours being paid a weekly wage which was comporatively good for those times and my lack of experience. I received four or five dollars a week for working after school hours to six o clock and on Saturday all day, and nine dollars a week for full weeks after finishing school. A two or three follar a week raise was offered to me in the fall of 1925 for me to stay on at printing, but, I had made up my mind to enter a branch of the Royal Bank of Canada, starting salary of \$500. The bank salary ingred out about the same per hour as for the printing job. It was settled by Loyalists from New York in 1783, the most of whom went early to farms, or, moving to older countries, left the whole

free trade with the U.S.A., especially with the New England States. The question was then debated by some Digby High School students one of which was a J.J.'s' daughter. Florence (now Mes. Melvin O. Some days after the debate a man from some part of Nova Scotia came to the printing shop looking for Florence, one of the successful debaters; I had the impression that his man was interested politically but, maybe I was wrong.

Well. I felt that I had learned considerable from my short experience at "The Wallis Job Print" I was learning to do beginner jobs, receiving some learning to do beginner jobs, receiving some learning eabout things like embossing, stapling, perforating, counting, cutting and trimming paper slock, mixing inks for certain desired colors, and so forth, but, the only experience I had at setting type was just enough to make a "pi", the printers name for a confused mess.

-for Bread, Biscuits and Pan Cakes-for Pies, Cakes and Fancy Pastry—no flour, milled of a single kind of wheat, compares with a BLENDED FLOUR.

It bakes whiter and lighter—it contains more nutriment—and it yields MORE bread etc.

BLENDED FLOUR combines the splendid food properties of Manitoba wheat—with the lightness and nutty flavor of Ontario wheat.

This is a cut regret, for the location will be read to the King. An auspicious cumstance, which gives a deep sig cance to the occasion, is that this ebration will occur at a time whon wildefness into a land of freedom, blenty and happy homes, has been added, as we dare believe, forever. But it is not too late to have the patronage of royalty reconsidered. The denials have only stated that no duch tiling had been arranged. If a request were properly made, it would doubtlesse receive very favorable consideration.

Girlhood and Scott's Emulsion are

The girl who takes Scott's Emulsion has plenty of rich, red blood; she is plump, active and energetic.

The reason is that at a period when a girl's

digestion is weak, Scott's Emulsion, provides her with powerful nourishment in easily digested form.

It is a food that builds and keeps up a girl's strength.

GREETING: CHRISTMAS AGAIN

Taxi: after year it comes upon us with an almost startling suddness and we can scarcely realize that another twelve months has passed by. This is the time of year above all others when good will and love pervades the very air and ween deeds of kindness and generosity show up as bright lights in the regular routine of the daily world. It has been the custom at this season for many long ages to express good fellowship in a pratical manner by the giving and receiving of gifts. GREETING: CHRISTMAS AGAIN

EAR after year it comes upon us with an almost startling suddness and we can scarcely realize that another twelve months has passed by. This is the time of year above all others when good will and love pervades the very air and when deeds of kindness and generosity show up as bright lights in the regular routine of the daily world. It has been the custom at this season for many long ages to express good fellowship in a pratical manner by the giving and receiving of gifts. But the happiest task and perhaps the hardest task of all the year is the selecting of suitable gifts. We know that, and for this reason we have prepared this advertisement full of suggestions from our own specially bought X mas stock, from which we believe you will be able to make the choicest of selections in your gift-giving, if not in one line, then in another. During the past year I have studied the business situa-tion thoroughly, and have come to the conclusion that it would be better for us all if it was put on a CASH BASIS. I therefore now give notice that our books will be closed on December 31, and in future I shall endeavor to conduct my businely on that basis.

Selling goods for cash means that a dollar will buy more for you at a Cash Store than where they give credit, as goods fan be sold at a less profit there being no bad debts to guard against. If you will call on me and get prices you will find them quite interesting.
