

Welcome to the Digital DIGBY COURIER 1877-1978

100th Birthday

The hundredth anniversary of the Digby Weekly Courier has brought to mind some fond memories as recounted in the following historical chapter of the paper. For first, I want to congratulate the current editor of the Courier, Mrs. J.M. (Edith) Wallis, for a job well done over the years and still being well done, good service rendered with great fortitude.

According to my recollection, I have at hand, the Digby Courier, in one hundred years of publication, was controlled under the same family management for 42 years, 1836 to 1978, under the control of Wallis Print Limited. The late J.J. Wallis became editor of the Courier in the second time, in 1929, and at the latter time of the second time, in 1929, and at which he had been running for some time previously and which became Wallis Print Limited sometime between 1929 and 1931.

I well remember the last year of the twelfth when I worked in the office with the husband and father of the Digby Courier. Sometime in 1929 or early 1930, the late J.M. Wallis (Mac), son of J.J., engaged me to work every day after school hours, Saturdays, and for some months after for the office of work was in the building of the present Digby town hall on First Avenue. J.J. Wallis then worked occasionally at the print shop but mostly across the street at the Courier office which was then located on land in the general area where The Royal Bank of Canada is now.

Wallis Job Print operated in this building of four consisting of J.J. Wallis, J.M. Wallis, Miss Elva Haynes, who later became Mrs. George Kicop, and myself. I was in the staff in early 1929.

Mac's job was to run the staff in the left upstairs. J.J. occasionally printing plant but mostly at the Courier office. "Mac" worked nearly full-time at all the different jobs at the Job Print, and I worked at various duties most of the time being spent at operating printing presses.

We worked ten-hour days, six days a week. J.J. and "Mac" sometimes worked overtime. I worked only the regular hours being paid a weekly wage which was comparatively good for those times, and my lack of experience. I received five or five dollars a week for working after school hours to six o'clock and on Saturday all day, and nine dollars a week for half weeks after finishing school. A two or three dollar a week raise was offered to me in the fall of 1929 for me to stay on at printing, but I had made up my mind to enter a branch of the Royal Bank of Canada, starting salary of \$200. The bank salary started out about the same per hour as for the printing plant those days, and experience however short, were helpful and appreciated to me.

J.J. was very jovial in his occasional trip to the Job Print and did consider the kidding all in good fun. "Mac" was a witty person who noised in a good deal of sarcasm now and then for no reason or another. Elva must always had good answers to all the kidding she was called upon to take, and she usually held her own in a quiet sort of way, always in a setting type. We four all got along very well together. However, I do remember that some days all seem long and weary because of the transitory of some repetitious jobs.

In spite of the great demand for printing those last happy days of the twelfth, business generally being brisk, it looked in his that people had to work long and hard to make any decent profit. There was

however, trials and finger ends were used and I was sent back to work.

Now and then a printing job had to be put on a piece of paper which required a new kind of printers ink which smelled very bad some days. I always dreaded it when "Mac" would say that it was the largest press, it was at the factory as always spread an outside door to lower the air on the construction.

One of the jobs I had to do, with the paper and printers devil on the staff, was to do a printing job and then, one day not long after I started my job at the printing plant, I decided to show the floor that apparently hadn't been cleaned in some considerable time.

"J.J." came along and said, "how are you getting on Vince?" I assured him that I thought I was beginning to see the floor. "J.J." laughed very heartily, he thought the remark pretty good and amusing.

Sometimes the gasoline engine or a piece of machinery would refuse to work, and the "Mac" the fix it man had patiently worked for a certain length of time to get it going again, without results. "Mac" would then stand back and cross one arm across his chest, then he would immediately start working. "Mac" would say, "all it needed was a bit of cleaning."

On other occasions when some piece refused to work for the end, wanted to be broken, "Mac" would say, "use a little oil" and sure enough after that is all it took. How often since, have I heard of the value of that remark and the actual need of oil in many life situations, applied at the right time, right place and, in the right way.

Other things that sort of stick in my memory and come to mind now and then are, like the time I told "Mac" of four teenage boys who in the spring month of 1928 got together just before dark one evening and decided to utilize the newly built outdoor Fern Hotel swimming pool which had just been filled with water. Clothes were taken off near the road just out of the pool, nobody else seemed to be around except the four boys, no thought or time for bathing suits up to the pool they went. They stood on the edge of the pool and looked at the chilly water, one soon jumped in. The rest quickly followed and across the pool they swam. "Mac" listened to the story and hardly said anything, but the next "Digby Courier" had a good story on the episode. The heading of the story went something like, "Four Boy Scouts Officially Open Pines Hotel Swimming Pool." Who were the boys? Many years later they are known as: the late Dr. Carl H. Anderson, veteran of two wars, second world and Korea; now prominent druggist, for many years in Digby; Clayton D. Snow, Digby wholesale haberdashery merchant; and myself.

As a young teenager I used to like doing some writing about different events interesting to myself and mostly for myself. One day "Mac" said to me how about writing your version of the story told about "The Marooning of Jerome". I did it and read at least two somewhat different versions about the man who was found marooned on a beach in northern point on the French Shore of St. Mary's Bay, Digby County. When I read this man's tale, and then read and his legs quite freshly amputated, were surgically well dressed and bound. He was presumably left by some vessel before dawn one morning, all for some mysterious reason.

"Jerome" appeared to have been a man of some considerable social standing and, possibly, of some considerable wealth. However the way the man could or would ever say after being found and cared for by some family in the French shore was, something that sounded like the story of a hero. He either would not, or would not, write anything about who he was or why he was left there. Well, it was, and is, one of Digby County's best kept secrets, and, different ideas have been written over the years concerning this man. However, the version to "Mac" was, I felt no urge to write anything about different about this man. The story seemed to have been very well explained in the story of many people, and he was a sort of a hero and many people who liked ways he was.

Three years later, I was quite sure that I had heard the story of "Jerome" and I remember the name "J.J." was mentioned in the story. I was sure that I had heard the story of "Jerome" and I remember the name "J.J." was mentioned in the story. I was sure that I had heard the story of "Jerome" and I remember the name "J.J." was mentioned in the story.

Digby 172 Years Ago

Compiled by David Lambert

From the files of the Courier of January 22, 1967, the following account has been compiled concerning Digby in 1774.

Among a number of old newspapers kindly sent to me by friends is a copy of the first issue of the Digby Courier of 1836. The first issue of the Digby Courier of 1836, says the following and among other advertisements contained in the issue before us is one describing the town and township of Digby, and offering for sale certain lots in the town. In this area we are told the township of Digby extends from the Gulf of Annapolis westward to the extremity of the province of Nova Scotia, and contains about 124,000 acres. The town plot is thus described:

"The Town Plot is situated at the east of the township just within the entrance to Annapolis Basin, and twenty miles from Annapolis Town, and six miles across. It is from the head of St. Mary's Bay. This land was then the water's edge, partly as land ground, and partly as the locality of a modern hill, dry and pleasant, and having with an eastern aspect, a view of the Annapolis Basin and its cultivated shores for twenty miles in where it terminates with the Fort and River's mouth of that name. It was occupied by Loyalists from New York in 1783, the most of whom went early to farm, or, moving to other countries, left the whole

side to be occupied by about who were ready detached, but meetings with and victory, at some distance. It has common parts of the river previous to 1783, but it is really to be from many circumstances, probability of plots of some adjoining, the West India a sheep and a of residents.

free trade with the U.S.A., especially with the New England States. The question was then debated by some Digby High School students one of which was J.J.'s daughter, Florence (now Mrs. Melvin G. Thibert, Freeport, Digby Co.). Some days after the debate a man from some part of Nova Scotia came to the printing shop looking for Florence, one of the successful debaters. I had the impression that this man was interested politically but, maybe I was wrong.

Well, I felt that I had learned considerable from my short experience at "The Wallis Job Print." I was learning to do beginner jobs, receiving some knowledge about things like embossing, stapling, perforating, counting, cutting and trimming paper stock, making ink for certain desired colors, and so forth, but, the only experience I had at setting type was just enough to make a "ye", the printers name for a confined mass.

There was a taste of trying to sell job printing outside the plant. Work was a little slack one early fall day and so "Mac" said to me, "how about trying your hand at taking orders for printed personalized Christmas cards?" I tried to make several calls around town, spent most of the time at one particular

DIGBY WEEKLY COURIER

Digby, July 7, 1911

Collision in Digby Gut.

ATX. SCHR. CORA GERTIE, and SCHR. EVOLUTION CAME TOGETHER IN DENSE FOG.

One of the worst shipping accidents which has occurred in Digby waters for many years took place at Light House Point, at the entrance of Digby Gut about 7 o'clock Wednesday morning during a dense fog when the light house schooner, Capt. Baird, bound in, struck the little tug, Sch. Cora Gertie, Capt. G. Crocker, bound out under power from Digby for Freeport.

Both captains claim they were properly sounding their fog alarms but it appears that neither heard the other. Capt. Crocker, when interviewed by the COURIER, said he was blowing his air whistle every minute and had a man keeping a close look out forward when suddenly a tug came up from right ahead. He put his wheel hard over and yelled to the other vessel to do the same. The Evolution struck the Cora Gertie and the latter's mainmast, carrying away the latter's mainmast, mainboom, pilot house, breaking stanchions, and in fact cutting the new schooner down to the water's edge. Capt. Crocker's son Earl was thrown overboard, but was fortunately rescued by the Cora Gertie's own boat.

As near as was ascertained in the Evolution, which was anchored in Turner's Eddy, it was slightly damaged.

The Cora Gertie, after Capt. Crocker cleared up including the cutting of the lines which were in the propeller, returned to Digby and docked in the Rackette.

The Evolution which is 175 tons register, built from Parsons, having been built at Spencer's Island in 1880.

The Fishermen's Regatta.

The ship and shield, which are certainly handsome and costly trophies, presented by the Maritime Fish Corporation to be raced for by schooner and motor boats at the Fishermen's Regatta to be held in Digby on August 12th, have arrived and are at present in the windows of Mr. H. B. Short's shoe store where they are attracting a lot of attention. At least two more shields will be ordered in a few days for the pleasure boats from funds subscribed by the citizens.

It is said that a large number of boats have already entered for the St. John Digby race under the auspices of the R. Y. C. C., which also takes place on August 12th. These boats are expected to arrive in Digby about noon.

Yacht Oakesdale, with her owner, Mr. O. S. Dunham, Capt. Edward Anderson and Mr. A. Lindstrom (who are members of the regatta committee) will probably sail for Tiverton and Westport to anchor morning to arrange for the Tiverton regatta. On their return a meeting of the general committee will be held to complete the programme, decide on the hours of the different events, get out the advertising, etc.

An Interesting Play.

Abram S. Hewitt, after a careful study in the library of Sir Henry Bates, was able to demonstrate that Sir Henry's invention and method of manufacturing steel had increased the material wealth of the civilized nations of the world in thirty years' time by an amount equivalent to the entire money capital of those civilized nations including Great Britain, Sydney, R. Y. C. C., song offering. The play has for its theme the wonderful industry of steel interwoven with a charming love story with a musical setting of the world in steel and iron. One act shows the giant structure so aptly styled "The Sky Line of the Iron King." Such an entertainment, with elaborate scenic effects and delightful music should be of great moment to all who love the romance of an industrial world.

The Iron King will be presented at the Bijou Dream, Digby, Monday, July 10th.

Domination Day in Digby.

No regular celebration had been planned for Domination Day in Digby as all efforts are being combined to make Saturday, Aug. 12th, the date of the Fishermen's Regatta, one of the biggest days in the history of our town. The weather, however, was delightful on the 1st and while many enjoyed automobile driving and other amusements on land, the harbor presented a busy appearance, and about all the yachts were in use during the day.

The Boston direct boat, during the morning with her usual passenger list, followed by the S. S. Rupert from St. John with a large number of excursionists, enjoyed a pleasant trip across the Bay.

About all the stores were closed during the day, but nearly all were open in the evening.

Death of Mrs. Bent.

Mrs. Frances Annie Bent died at her home in Digby Monday morning, aged 69 years, after having been confined to her room for nearly a year. She is survived by four sons and two daughters, John E. Bent, Harry L. Wilbert, Vernon B. Bent, Mrs. Wm. Snow and Miss Ruby Bent. The funeral was held at her late residence in Digby Monday morning during which time she had conducted a restaurant for the present illness. The funeral took place from her late home Wednesday afternoon with interment in the Episcopal cemetery, the service being conducted by Rev. Wm. Driffield, rector of Holy Trinity Church.

Local Boating News.

Mr. George Wightman has purchased a 7 h. p. Mianus motor for his sloop J. W.

Mr. W. B. Stewart has launched his open power launch, carrying out tourists, from Mr. Guy Dunn. He has installed in it a new 6 h. p. Grey motor which has greatly increased her speed, placing her among the fast boats of the pleasure fleet.

Mr. Isaac Ellis has launched Mr. Nickerson's power boat, which was now ready for carrying out tourists. Mr. Guy Dunn, of Spa Springs, is here with his open launch Annie L., which, if he does not sell, he intends using in the tourist business in Digby.

Wedding Bells.

A quiet wedding took place at the rectory Thursday evening, June 29th, when Mr. Joseph Hersey, of Digby was united in marriage to Miss May Murphy, of Yarmouth. The ceremony was performed by Rev. Wm. Driffield. The bride was attended by her sister, Mrs. Geo. Tidd, and the groom by his brother, Mr. Harry Hersey. After the knot had been tied the happy bride party was conveyed to the home of Mr. Harry Hersey where lunch was served and a pleasant evening spent, several guests being present. Mr. and Mrs. Hersey are at present boarding with the bride's sister, Mrs. George Tidd, Queen street.

The Bijou Dream.

The pictures and songs at the "Bijou Dream" continue to grow in popularity. On Tuesday evening Miss Evelyn Ellis, of Digby, sang in her usual pleasing manner, as well as Miss Darnell, the regular singer. Miss Ellis will sing again this evening and the entertainment should be greeted with even a larger audience than usual. The pictures are changed each night and are always good.

Conservative Convention.

As will be seen by our advertising columns a convention of the Liberal Conservative party will be held by the Weymouth branch, Tuesday, the 11th inst., at one o'clock in the afternoon to nominate a candidate to contest the county at the next Dominion election.

The writer visited River View Cottage, Lower Granville, one day last week. The proprietor, Mr. Geo. Anthony, can well be proud of his large and commodious house and its surroundings. It has a spacious dining room, water service second to none, bath room, halls, parlor, large airy chambers, large verandah on 3 sides, and all its appointments are up to date, just the kind of a house we need at Port Wade.

A number of people from this vicinity express themselves as very much dissatisfied at the treatment given at Annapolis on Coronation day. They were barred out of Government grounds unless they paid a quarter and as their advertisement was after the old circus pattern they were expecting something for their money, when on hunting round they only found a greased pole and no greased pig to climb it. The management of the excursion steamer seems to have had the same disease as they advertised to call at Port Wade and after calling and taking a small party up the River, the captain informed them he could not take them back so they were obliged to hire teams or walk 12 miles to get home. This may seem funny, but its not all fun.

of people now waiting to be taken out of Porcupine are not true, as Mr. Clement came out on the last train last night, and there were two empty coaches. In all there have been about 1,000 people taken out of Porcupine.

"So far as supplies are concerned, there are enough in the camp to do several days. What is needed just at present is systematic relief, spread over the next couple of weeks. There is nobody starving, and nobody but can find some kind of shelter.

"What is most needed at the present time are blankets, tents and cooking utensils.

"Three carloads of supplies are going into Porcupine today and another carload of supplies is on the way from Ottawa and Cochrane."

TAKING SUPPLY OF TENTS.
OTTAWA, July 14.—Capt. William Hallick, of the Canadian Ordnance Corps, left today for the fire-stricken districts of the North Ontario mining country, in charge of an outfit of tents, and other necessities of shelter for the homeless. At Toronto, Capt. Hallick will take command of a squad of men who will erect the camps and set them up for temporary occupation by the fire-sufferers. The equipment taken along consists of 500 tents and 4,000 blankets.

HOW TO TELL IF YOUR HAIR IS DISEASED.

Even if you have a luxuriant head of hair, you may want to know whether it is in a healthy condition or not. 95 per cent of the people need a hair tonic.

Pull a hair out of your head, if the bulb at the end of the root is white and shrunken, it proves that the hair is diseased, and requires prompt treatment if its loss could be avoided.

If the bulb is pink and full, the hair is healthy.

We want everyone whose hair requires treatment to try Rexall 93 Hair Tonic. We promise that it shall not cost anything if it does not give satisfactory results. It is designed to overcome dandruff, relieve scalp irritation, to stimulate the hair roots, to grow hair and cure baldness.

It is because of what Rexall 93 Hair Tonic has done and our sincere faith in its goodness that we want you to try it at our risk. Two sizes, 50c and \$1.00. Sold only at our store. The Rexall Stores, P. W. McDowell, Digby, Ryan & Blackie day, Weymouth.

An Exclusive Church.
An old dandy wanted to join a fashionable city church and the minister, knowing it was hardly the thing to do and not wanting to hurt his feelings, told him to go home and pray over it. In a few days the dandy came back.

"Well, what do you think of it by this time?" asked the preacher.

"Ah, prayed an' prayed, an' de good Lawd he says to me, 'Hastus, Ah wouldn't boder mah head las' time to dat church mas' f' de las' twenty years and Ah done had no luck'."

Economy.
It was at a reception and the lady, who had been reading up on health culture, mistook Lawyer Williams for his brother, the doctor.

"Is it better," she asked confidentially, "to lie on the right side or the left?"

"Madame," replied the lawyer, "if one is on the right side it often isn't necessary to lie at all."

The Stomach Needs Help.
The liver, kidneys and bowels must be kept in good condition by DR. CHASE'S KIDNEY-LIVER PILLS.

The liver and kidneys are overworked in their efforts to remove the poisonous waste matter from the system. They fail and the bowels become constipated and stomach derangements follow.

There is one medicine which will overcome this condition more effectively and more quickly than any other, and this is Dr. Chase's Kidney-Liver Pills.

This medicine gets the bowels in motion, cleanses the system, restores the liver and kidneys to their normal condition, and cures the various ailments which result from their overwork.

With the poison system removed, the digestive system resumes its healthful condition, appetite improves, pains and aches disappear as well as irritability and depression.

You cannot imagine a more satisfactory treatment. One pill a dose, 25 cents a box, at all dealers, or Ed. Manson, Bates & Co., Toronto.

GET OUR PRICES AND TERMS

The latest and most up-to-date Engine on the market. Have been sold throughout the Maritime Provinces since 1903. What a user writes after three years' service—
"I have a L. M. TRASK CO. No. 10, 10 H.P. engine, which I got from you in Sept. 1908. It has given perfect satisfaction, always ready to go in all kinds of weather, just as ready to start with the thermometer below zero as it is in the middle of summer. I have done as much work with her now, as any ordinary farmer would do during his lifetime, and still she runs today as well as when I got her, the only expense being one contact spring needing adjustment. I had to buy one to-morrow I would buy a Woodpecker in preference to any other kind that I have seen working."

Missing Man Had \$1,300.

SCHOONER CAPTAIN'S SON SAW A. SAULNIER IN A COACH IN ST. JOHN—NO TRACE OF HIM SINCE.

(St. John Globe)

The mystery surrounding the disappearance of A. Saulnier, of Meteghan, N. S., deepens and thus far has baffled the efforts of three relatives of the man, who have been scouring St. John and vicinity for some days. He was seen here on Tuesday by a son of Captain Sullivan, of the little bay schooner Emily R., but all efforts to follow up the clue have been fruitless. Young Sullivan, who is a neighbor of Mr. Saulnier, and knows him very well, saw him in company with another man in a hack. So sure was Captain Sullivan that Saulnier would come aboard that he did not turn in until late that night.

So far as can be learned the person who was with Saulnier at Yarmouth and registered himself from St. John, cannot be found here and it is believed that he is a stranger and not from this city.

Captain Sullivan said that it was feared in Yarmouth that the companion of the missing man was one of a number of Americans, who have been mixed up in various robberies in and about Digby of late. Saulnier, he said, was a man who carried money loosely in his pocket and thought nothing of displaying it when making payments. It is therefore conjectured that in this manner it was learned that he had considerable money, and some one formed an acquaintance with him to get it.

Mr. Saulnier is the proprietor of a canning factory, and is possessed of considerable means. He also owns a large farm, including an apple orchard of 200 or more trees. He was not a man to drink, and his absence from home is therefore confounding. He had, when last seen, about \$1,300, the proceeds of a sale of canned goods in Yarmouth. He said he would return to Meteghan the next day, as he had some business to attend to, but it has been found that he and a companion passed Meteghan and proceeded to Digby, whence they evidently came to St. John. The belief is that he has been kept under the influence of liquor or a drug. One of his relatives has gone to Moncton to search for him there. Mrs. Saulnier is nearly distracted with grief.

Married in Vancouver.

We copy the following from the Vancouver (B. C.) World: A very pretty wedding was celebrated at high noon, July 11, at 1717 Nelson street, Vancouver, B. C., when Ruby May, eldest daughter of the late Mr. Festus Chapin, was united in marriage to Mr. Herman Stuart Young, of Digby county, N. S. The ceremony was performed by Dr. H. Francis Perry and witnessed by a number of intimate friends. To the strains of Lohengrin's wedding march, played by her sister Florence, the bride entered the drawing room, leaning on the arm of her brother and carrying a shower bouquet of bridal roses and lilies of the valley. She was attended by her sister, Lillian Pearl, and little nieces, Marie and Gertrude, as maids of honor, carrying baskets of flowers containing the ring. The groom was ably supported by Mr. Murray Lewis. After the ceremony the bride's mother entertained the bridal party and guests at luncheon. The reception room and tables were tastefully decorated with a profusion of flowers, ferns and white ribbon. The happy couple were the recipients of many beautiful presents, accompanied by the good wishes of their friends.

[The groom is a native of Freeport, Digby county.]

DIGBY WEEKLY COURIER

Digby, Aug. 11, 1911

Death of Charles E. Burnham

AN Aged Resident of Digby Passed Away Yesterday Afternoon.

Mr. Charles E. Burnham died at his home, First Avenue, yesterday afternoon, aged 82 years, after a long illness. The deceased was a native of Digby, having been born at the corner of Montague and Mount streets, being a son of the late William and Nancy Burnham. He for more than 40 years carried on a furniture business in St. John, retiring last eight years ago at the age of 73. Mr. Burnham was a member of the Baptist church and an honorary member of Union Division No. 8, S. of T.

He is survived by one sister, Mrs. James P. Jones, of Malden, Mass., and four sons and their daughters: William Carey Burnham, of Boston; L. L. Tiller Burnham and Arthur C. of Medford, Mass.; Fred E. of Concord, N. H.; Mrs. Henry E. Harty, of St. Stephen, N. B.; Mrs. J. H. Harty, of Calais, Maine, and Miss E. Blanche at home. He also leaves to grand children and four great grand children.

The funeral will take place from his late home at 2 o'clock Saturday afternoon, with interment in the Baptist cemetery. The services will be conducted by Rev. T. S. Roy, pastor of the Digby Baptist church.

A Rare Occurrence

WENT SALT WATER FISHING AND SAW MOOSE.

One of the oddest things which probably ever occurred in this vicinity took place yesterday afternoon when a Bay Fund fishing party, consisting of using a gun than a fishing line. The crew in power boat Frances, owned and commanded by Capt. Gilbert Ellis, with the following guests from the Pines Hotel, Charles Heltman, Octave Heltman, Mrs. O. Heltman and Octave Heltman, Jr. on board, was anchored off Star's Point, about one mile west of Point Prim and some 20 yards from the shore, fishing, when suddenly the skipper sighted a bull and cow moose running down toward the shore. They halted a moment or two and then returned in the woods. The two moose were ashore and measured their tracks which were five and six inches respectively.

This party usually carries a camera, but unfortunately it is in the house during their Wednesday cruise. All on board saw the strange visitors.

Visiting Yachts.

Steam yacht Sheelagh arrived here Monday night from St. John and sailed again Tuesday afternoon. She had on board Jas. Ross, of Montreal, and party, who, having been to England for the coronation, are now enjoying a pleasure cruise. They had visited St. Andrews before going to St. John, and will probably go farther north before returning to Montreal.

The handsome auxiliary ship Emma II, of Tanton, Mass., arrived here from St. John last Friday on her second trip to Digby and sailed Saturday morning for the Port of Montreal. Besides her owner, Mr. H. F. Hatheway, she had on board Mr. J. S. O'Keefe and son James and Mr. Walter H. Fletcher, members of the Port of Montreal. The Emma II, which contains costly furnishings, and is said to be a good sailer, is propelled at a good speed in calm weather by 25 h. p. standard engine.

The Bijou Dream

MR. CRIPPS GAVE TUESDAY NIGHT'S RECEIPTS TO MR. JOHN CONDON.

Last Tuesday night Mr. J. F. Cripps, the popular and genial proprietor of the Bijou Dream, gave his entire receipts \$30.10 to Mr. John Condon, of Bay View, who recently lost all his property by fire. Mr. Cripps deserves great credit for the class of shows which he has given the public of Digby since his arrival here last June and the Bijou Dream should receive the general support of our citizens as well as the tourists. The latter have patronized this show house in preference to any other. It is odd, but nevertheless true, that out of curiosity or from some other cause, many Digby residents will too often pay double the admission to see an entertainment not worth going to.

A Successful Concert at Bear River.

A most pleasing concert was given at Oakdene Hall, Bear River, Wednesday evening by Signor and Mme. Berini, who are guests at the Bear River Hotel. The program consisted of high class selections, well arranged and excellently rendered. It was certainly one of the best entertainments Bear River has ever enjoyed. Signor and Mme. Berini is a native of that town, being a daughter of Mr. E. H. Sparks, who formerly resided there, and both she and her husband have enjoyed this season that they intend to spend future summers in our neighboring town, where they will purchase a residence.

The Late Mrs. Cook

A correspondent writes: The reporter who sent in the article concerning the death of Mrs. Catherine Cook, of North Range, was evidently misinformed. She was the mother of one child, a son, who died at Manchester over three years ago. She was survived by five grandsons and three granddaughters, all of whom reside in United States except the two grandsons mentioned in last issue. She leaves one sister, Mrs. Elizabeth Cook, of North Range, two brothers, Charles Bell, of Digby, and John Bell, of Campbell. During her last illness she was a great sufferer, but her pain was borne patiently and death to her was a welcome relief.

A Pleasant Yachting Cruise.

Four power yachts belonging to the D. Y. C. had a pleasant cruise to Parker's Cove last Sunday, leaving Digby in the morning and returning in the afternoon. The fleet consisted of Mr. W. M. Romans' Banook, Mr. O. S. Dunham's Oakesella, Mr. Fritz Dakin's Phyllis and the schooner, Albert J. Lutz, one of the vessels expected to take part in the races. Both yachts present an attractive appearance and have been viewed daily by hundreds of tourists and others interested.

Another New Automobile.

Mr. James Merkel has purchased a new five passenger McLaughlin-Buick automobile which he is using as a public car and is already doing a big business. Mr. Merkel is a careful driver, very courteous to his patrons and will no doubt be kept busy both by the tourists and permanent residents of the town. We wish him every success.

Train Service Fishermen's Regatta.

Why don't some flours behave? Why don't they keep good?

Because they contain too much of the branny particles, too much of the inferior portions of the wheat—may be little pieces of the oily germ. Which act on one another—that's why some flours "work" in the sack. FIVE ROSES is the purest extract of Manitoba spring wheat berries. Free from branny particles and such like. It will keep sound, and sweet longer than necessary. Keep it in a dry place, and when needed you find it even healthier, sounder, fresher, drier than the day you bought it. Buy lots of FIVE ROSES. It keeps.

DIGBY WEEKLY COURIER

Digby, Aug. 25, 1911.

Another Digby County Mystery.

[Yarmouth Telegram.]
A gruesome discovery was made on the beach at Digby Tuesday morning. A body was found lying on the sand, and when it was taken to the shore, it was found to be a man. The body, which had evidently been in the water for some time, was badly decomposed. The head was missing, also the feet and hands.

It is believed that the man was the victim of foul play, as the physicians who examined the body made a startling discovery. The collar bone was broken, and there was a bullet wound in the back under the shoulder blade, evidently made by a shot from a .38 calibre revolver.

It is thought that the victim was about 35 or 40 years of age. He was about five feet eight inches in height and weighed about 175 pounds. The theory held is that the man met his death in a fight on a vessel, and that after he had been killed the body was thrown into the sea.

The mystery which is difficult one to solve. It is stated that about three weeks ago a man answering the description of the victim, left Yarmouth on a vessel. The vessel was an inquest and returned a verdict that the deceased met his death at the hands of parties unknown. The body has been interred.

Niobe Not so Seriously Damaged
WILL REMAIN IN DOCK FOR TEMPORARY REPAIRS REQUIRING EIGHT OR TEN DAYS.

Wednesday's Halifax Herald says: The dry dock with H. M. S. Niobe, lying on the stocks, was damaged in places, was pumped dry Monday night and examination of ship's bottom made immediately. It was found that the damage to her bottom was not so bad as supposed, though it is, nevertheless, serious. The bottom is damaged at the keel plate forward, aft and under the engine room. A very large piece of her metal rudder is gone and the gun metal shell which held the bottom of the rudder in position is gone also.

It was decided yesterday that the repairs would be by the mechanical staff of the Dockyard, more shipwrights and carpenters being engaged as required. It is expected the temporary repairs begun, will take eight or ten days to complete, and by that time H. M. S. Cornwall will be ready to dock for inspection of an Admiralty construction official coming out from England. So the Niobe will then haul out to await completion of repairs after the Cornwall has left the dock again. Meanwhile H. M. S. Cornwall is going on with training her cadets outside the harbor.

Serious Accident on H. S. W.

There was a bad smash-up of the Halifax and South Western Railway near Hubbard's Monday afternoon, in which the passengers of the train were narrowly escaped. Six box cars, three flat and one baggage car were practically demolished. The train was torn up for about fifteen car lengths. Some of the passengers were injured.

The express from Yarmouth was sent back to Bridgewater with the passenger train. The train, which was carrying only a box car, with the result that all the passengers on the Yarmouth train were crowded into the express car, which was damaged. The baggage car was damaged and the baggage was scattered. The train was sent back to Yarmouth with the passenger train.

Schr. Falls From Wharf

THE W. E. GLADSTONE BAILED STRAINED KID AND OTHERWISE DAMAGED.

Schr. W. E. Gladstone, Capt. Alex. Shaw, of Yarmouth, which has been in Digby loading lobster bait purchased from the South End wharf, fell overboard Monday afternoon and was seriously damaged. Her decks and hold were full of fish, and the captain and crew were working inside in some way too much weight got on one side and caused her to tip over. Mr. Shaw, who was on the deck, was thrown out violently and narrowly escaped serious injuries. The vessel was much strained, and the damage amounted to \$2,000 or more. She was kept all night at high water, when she was taken to the wharf. The Gladstone will be taken to Meteghan to go on the marine railway for repairs. Capt. Shaw will continue to purchase bait at Digby.

Yacht Bonnie Doon A Total Loss.

AMERICAN COLLEGE STUDENTS SAVED BUT BOAT LOST.

The forty foot American yacht Bonnie Doon, of Portland, Maine, with a party of four Yale students on board, went ashore at two o'clock Tuesday morning on Gull Rock Bar, near Westport, and sank in about five minutes. The students were saved and conveyed to the Central House, Westport. The yacht was joined at Portland by the party and had been cruising along the Massachusetts coast, calling at Bar Harbor and other points, going from there to Grand Manan and crossing to Westport. They had intended going to Yarmouth and then proceed to Halifax.

Narrow Escape From Drowning

The young son of Mr. and Mrs. Joseph Bryant, who spend the summers in Digby at their summer home, had a narrow escape from drowning on Wednesday morning, when he, accidentally tripped and fell from D. & O. Sproule's wharf at the harbor to the water beneath. He could not swim but Mr. O. M. Goldsmith, who was working in that vicinity, heard him struggling in the water and rushed to his assistance. Mr. Goldsmith could not swim but managed to reach the boy, after the latter had twice gone down, and got him out of danger. By this time other men who were working near by had arrived on the spot, and they and his rescuer were assisted ashore.

On Tuesday next, Aug. 29th, when Sir Wilfred Laurier will make his expected visit to Digby, Mr. Cripps, of the "Bijou Dream," will, in addition to his regular evening entertainment, put on a matinee during the afternoon, from 5 o'clock. No doubt many of the large number of people who will be in town that day will avail themselves of a chance to rest and see the motion pictures and hear the songs. They can assure anyone that the time will be pleasantly spent. The excellent service which Mr. Cripps is giving is too well known to need any further recommendation from us.

Death of Senator Comeau -

A PROMINENT BUSINESS AND POLITICAL MAN OF DIGBY COUNTY PASSES AWAY.

The death occurred at a quiet Friday evening of Hon. Senator Ambrose H. Comeau, at the home of his brother, Rev. F. Comeau, at East River, Yarmouth county. Senator Comeau had been ill for some time. He was a prominent business and political man of Digby county, and was a member of the House of Assembly from 1881 to 1890, and as its Warden from 1890 to 1891. He was elected as a member of the House of Assembly in May, 1891, re-elected in 1892, 1893, 1894 and 1895. He served as a member of the Executive Council from 1891 until the date of his appointment to the Senate of Canada in 1897.

He was the senior member of the extensive firm of A. H. Comeau & Co., of Yarmouth, and by his kindness and integrity won the esteem of all who knew him. He was a self-made man, always industrious, progressive and enterprising. He took a deep interest in everything pertaining to the welfare of his native Canada, and especially to the French Acadians, whose interests he was always assiduously promoting.

The late Senator Comeau was born Sept. 27, 1830, and was a son of H. Comeau and Magdalene LeBlanc. He received his education at Yarmouth. He married on the 13th February, 1853, Miss Louise d'Entremont, of West. Public, who survives him, together with five sons and one daughter: Desre, Ezezer, Louis, R. Alphonse, R. Port and Regine.

He was a devoted member of the Roman Catholic church, and a pronounced Liberal in politics. The remains were removed to his home at East River, where the funeral took place Tuesday morning.

The impressive services of the Roman Catholic Church were conducted by the Rev. Father Comeau, of the latter brother of the late Senator, assisted by the Rev. Fathers Cantin, Hamlin, LeBlanc, Chasson, Young and two others from St. Anne's, Yarmouth. It was probably the largest funeral ever held in Digby County, and marked the high esteem in which the late Senator was held by his compatriots and the citizens generally.

CLARKE BROS.

SIR WILFRED'S VISIT.

Thousands of People Present to Greet Canada's Premier.

TOWNS DECORATED FOR OCCASION—YARMOUTH BATHING ATTENDANCE—A LARGE BUT ORDERLY CROWD.

The weather Tuesday morning was not what could have been desired for the day on which Digby was to receive a visit from Canada's premier but this did not prevent people from coming to town for this important event. Crowds poured in on every train and by automobiles, carriages and every possible mode of conveyance.

The S. S. Prince Rupert, on which the Premier arrived from St. John, was late and when the Prime Minister stepped ashore there was a down pour of rain. In spite of this thousands were at the wharf and Sir Wilfred was given a rousing reception.

Mayor Short was present and gave the Premier a cordial welcome to the town.

It was not until nearly twenty minutes after the arrival of the Premier that the Premier was able to make a start for his hotel. Men, women and children were there by hundreds anxious to take him by the hand. Among the crowd were a large number of American summer visitors and they were not one bit less desirous of greeting Canada's Premier.

Leaving the wharf Sir Wilfred's automobile, headed by the Yarmouth Concert Band, proceeded through the town to the Pines Hotel. Here Sir Wilfred was met by Hon. W. S. Fielding, who arrived on the "Buenos Aires" from Yarmouth. Here all along the streets the reception was a warm one. Hundreds who could not get near Sir Wilfred at the wharf went to the hotel, where the Premier held an informal reception. The Premier was accompanied by Hon. W. S. Fielding, Hon. Charles MacNeil, and Mr. H. L. Dennison, K. C. of Digby, who was in St. John to meet the party and accompany them across the Bay.

The dinner at the Pines Hotel was very elaborate, the dining room beautifully decorated and the service most excellent. The following was the menu:

Canape Caviar	Chicken Consomme
Celery, Olives, Bread Sticks, Radishes	Salted Almonds
Bellied Potatoes, Boiled Potatoes, Potatoes, Pommes, Souffle	Boiled Potatoes
Lobster, Newburg, Chicken, Lobster	Queen Pudding, Orange Marmalade
Roast Chicken, Tenderloin of Beef, Lamb, with Macaroni	Spring Chicken, Stuffed
Tomato Mayonnaise, Grape Fruit Salad, Nut Dressing	Vegetables
Mashed Potatoes, Canned Sweet Potatoes	Green Peas
Blackberry Shortcake	Fed. White and Blue Jelly with Cream
French Plum Pudding	Sponge Cake, Nut and Raisins
Oranges, Peaches, Apples, Pears, Crackers, Cafe Noir, Cheese	

THE AFTERNOON MEETING.
Long before the time of the meeting arrived, large crowds began to congregate in the square in front of the hotel, and at two o'clock the field was crowded. It is estimated that over four thousand people were present and they stayed on in spite of the inclement showers that were falling. When Sir Wilfred, accompanied by Hon. W. S. Fielding, Hon. Charles MacNeil, Sir Frederick Borden, J. E. Wall, Liberal candidate for Digby, Hon. J. W. Cowan, M. P. P., W. G. Clarke and a delegation from Digby, Annapolis and Yarmouth counties, arrived, he was greeted with cheers that lasted several minutes.

On the platform were a large number of prominent men of the county. Mr. W. G. Clarke, of Bear River, was chairman of the meeting. When Chairman Clarke introduced Sir Wilfred, the Premier was greeted with cheers and hats and flags were waved. He had suffered from seasickness in crossing the Bay but despite that fact gave most excellent addresses and was greeted with much cheering and applause. He spoke for only an hour, closing his remarks in French. He was followed by Hon. W. S. Fielding, who dealt most fully with the question of reciprocity. He, too, was received with much applause. The last speaker of the day was Hon. Charles MacNeil, and although his time was short, he made a very favorable impression. He spoke in both English and French. At the close of the speeches the public was given a chance to pass upon the platform and receive a handshake and word of greeting from the Premier. As many as could do so availed themselves of this privilege.

Sir Wilfred and party left Digby in their private car attached to a special train at 5 o'clock.

On the way to Halifax short meetings were held at Annapolis, Middleton, Kentville and Yarmouth. Everywhere he addressed large crowds and received enthusiastic receptions.

The committees in charge of the decorations around town Tuesday should be congratulated. Despite the unfavorable weather the town presented a very attractive appearance, bunting, flags and bunting were everywhere, being displayed with every possible care. A large arch erected at the head of the wharf and completely covered with evergreen and flags bore the inscription "Welcome to Canada's greatest chief."

Although there was one of the largest crowds in Digby that was ever seen here, everything passed off in an orderly manner and no trouble arose throughout the day.

Throughout the entire afternoon's meeting the best of order prevailed. It was indeed so marked that the Premier called attention to it in words of warm appreciation.

A special train arrived here from the East shortly after 12 with a large number of passengers, coming all the way along from Kentville to Digby. Another special arrived from Yarmouth shortly after one. The latter left to return at 8 o'clock in the evening.

The Yarmouth band, which was present throughout the day, consisted of twenty-three pieces and is deserving of great praise for the excellent music. The band arrived Monday evening via the freight from Yarmouth and cheerfully favored the citizens of Digby with several selections. During their stay in town they were entertained at the Trefry House and speak warmly of the excellent treatment received at the hands of their hosts.

Boston Fish Receipts Light.

Boston, August 20.—Receipts of fish at Boston today are at a low water mark and confined to only three arrivals. One of which is sct. Nellie Dixon from Seining, with 300 small fresh mackerel and 50 barrels small mackerel. Two other catches from Seining have but small fares of ground fish, but being the close of the week the supply is sufficient for the demand, as the market has not yet opened for the immediate use during the last few days.

In fact, Boston was unable to take all the haddock that was offered, so the balance had to fall back upon the old reliable Gloucester to dispose of their surplus stock.

Next week, however, will doubtless see a larger market for such large trips will be in order, as has been during the week just closed.

Harry's School Marks

Harry's mother talked to him long and earnestly about the poor marks he had been getting in his work at school. She painted in his coloring the career of the little boy who studies his lessons and gains the love and respect of his teachers. She went even farther. She promised him that if he got good marks she would give him a whole dime all for his own. Harry seemed depressed.

That afternoon he returned from school fairly dancing with joy. "O mother!" he shouted, "I got 100." "Harry!" cried the delighted mother. She hugged him and kissed him and petted him—and gave him a dime. "And what did you get 100 in?" she finally asked.

"In two things," replied Harry with out hesitation. "I got 40 in reading and 60 in spelling."

Ways of the More Orderly.

An industrial commission appointed by Congress was conducting certain investigations with reference to the operation of mills and factories in various parts of the country, and the members became especially interested in the working of one mill in a South-western State.

The investigators were in one room when the whistle blew for noon. The operators put up their tools and vanished as if by magic.

"Do all the workmen drop their tools the instant the whistle blows?" asked one of the commissioners.

"No, not all," answered the man who was acting as guide. "The more orderly have their tools all put away before that, sir."

The Real Sufferer.

The "Prodigal Son" was the subject of the Sunday school lesson, and the teacher was dwelling on the character of the elder brother.

"But amidst all the rejoicing, said the teacher, there was one to whom the preparation of the feast brought no joy, to whom the prodigal's return gave no happiness, only bitterness who did not wish to attend it. Now, who can tell me who this was?"

Silence for several moments; then a hand raised, and a small, sympathetic voice.

"Please, ma'am, it was the fatted calf."

An English Chemist Has Discovered How to Grow Hair.

In England the ladies have entirely abandoned wearing hats, which is due entirely to this new discovery. It has been proven that Henna leaves contain the ingredients that will positively grow hair. That they contain this long-looked-for article is proven every day.

The Americans are now placing on the market a preparation containing the extract from Henna leaves, which is having a phenomenal sale.

This preparation is called SALVIA, and is being sold with a guarantee to cure Dandruff and to grow hair in abundance. Being delectably perfumed, SALVIA makes a most pleasant hair dressing. H. E. Jones, your druggist, is the first to import this preparation into Digby and a large generous bottle can be purchased for 50c.

Encouraging.

JOHN SMITH:—The six horsepower engine that I got from you in Sept. 1908 has given perfect satisfaction, always ready to go in all kinds of weather. Just as ready to start with the thermometer 70 below zero as it is in the middle of summer. I have done as much work with her now as any ordinary farmer would do during his lifetime, and still she runs today as well as when I got her, the only expense being contact spring casting. \$10. If I had to buy one to-morrow I would buy a Woodpecker in preference to any other kind that I have been working.

The S. S. Valinda, Capt. Longmire, of Bridgetown, brought down a large picnic party from Bridgetown Monday last. James W. Snow catered to the wants of the inner man, and having finished this important part of the programme the party repaired to the boat and was taken over to Digby, where they had a very pleasant afternoon, leaving about 8 in the evening. The party was accompanied by the Bridgetown Brass Band, which discoursed a few nice selections before and after dinner, making the presence of the party here very enjoyable.

According to the proverb "better late than never" I must give the readers of the COURIER a synopsis of what took place in our village and elsewhere since the last few weeks. As many are aware, on the evening of the 13th ult. at 5 10 o'clock p. m. fire was discovered in the vestry of the church and inside of an hour and a half the church, glebe house, etc., were nothing but a heap of burning ruins. Very few effects could be saved from the church. The foundations were begun in the year 1890 and completed in 1899. The Revd. A. B. Cote, now of Meteghan, was at the time rector of the parish. Seeing the destitution of the Revd. Fr. Bracq, our beloved rector, the members of the Salmon River Dramatic Club decided to go around and give a number of concerts to aid the first needs of our pastor. Accordingly on the evening of the 19th they were at the Oddfellows' Hall, Port Maitland, where they were received and encouraged by the elite of the place. The free use of the hall was granted them, and a large and sympathetic audience greeted them. The members of the club cannot thank as they should the good people of Port Maitland for the generous way they were received and the encouragement bestowed upon them. On the 21st they were at the Hall at Little Brook; on the 22nd at St. Anne's College, Church Point; on the 24th at the C. M. B. A. Hall, Yarmouth; and on the 25th at R. M. B. C. Hall, Wedgeport. At all those different localities they were granted the free use of the halls and received the encouragement of every one concerned. Port Maitland, Little Brook, St. Anne's College, Yarmouth and Wedgeport will never be forgotten by us and the generosity of their people will be enshrined in the annals of our club. Religious services are now taking place in the public hall which has been changed into a temporary church.

Preparations are now being made for the Digby County exhibition which is to be held here on Tuesday and Wednesday, October 30th and 31st. The most special attractions, and the committee will spare no pains to make this equal to any exhibition ever held in Digby County.

About as good a way as any to study human nature is when driving along the public road. If a man is willing to observe the laws and the courtesies of the road, he will duly give his share of it when meeting another and shows he is willing to do the gentlemanly thing about it. But when you meet one who takes every advantage of those he meets, and who, for true, to hold, the whole road for his own selfish self, often to the great discomfort of those he meets, or will not allow them to pass, we are all most sure to think of pork in connection with such drivers of teams.

In Dread of Something

You can scarcely tell what—it may be Hygiene, Nervousness, or Nervous Collapse.

You can only throw off this depression when the nerve cells are restored to healthy, by treatment of the Great Nervous Food. Your digestive system has failed to supply proper nourishment to the nerves and you are compelled to seek aid from other sources.

We will take some patience and persistent treatment, but there is no way by which you can so certainly restore health and vigor as by the use of Dr. Chase's Nerve Food.

The best time to restore the nervous system is long before such a critical condition is reached. Such symptoms as sleeplessness, headaches, nervous indigestion, muscular weakness, loss of energy, failure of memory and power of concentration, irritability and disarrangement of the system, are warnings of the nervous system and warn you of the approach of serious trouble.

BEAR RIVER

The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. The result is that the stomach grows "weak," the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither narcotics, nor stimulants, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."

Ate Unwisely?

Sometimes people do, and suffer, because the stomach balks.

Seeing the World

A new light on the servant question in England is shed by Miss Loane in her book, "The Common Growth." "I asked," she says, "one capable, steady servant of five or six and twenty why she changed places every year and by what curious chance her mistresses all live so far from another. She replied frankly, 'I love to see the world, and it's the only way I can afford to travel.'"

Cleansing the Hair.

Never retire without brushing your hair. The hair is a dust trap, and no dainty woman would retire without removing the day's accumulation of dust. The brush tells its own story of the day's catch of dust if you take the trouble to examine it. After brushing the hair loosen the skin from the scalp by slow, firm massage.

Her Sincere Wishes

As the music master had been ill, very ill in fact, one of the teachers of a primary grade permitted her pupils to write a letter of sympathy. One little girl wrote thus:

"My dear Mr. ————
I am so sorry you are very sick and hope you won't go to heaven."
No Dispute.

Wife—I can't see why because a woman marries a man she should take his name.
Husband—I quite agree with you. I think that the poor chap ought to have something which he can call his own.

For Skin Irritation.

WE GUARANTEE RELIEF. YOUR MONEY BACK IF NOT SATISFIED.

We have an ointment possessing extraordinary power to permanently relieve all forms of eczema, skin eruptions, pimples, blotches, ringworm, acne, tetter, scalp scabs, hives, all forms of itching and irritation caused by insect bites. Its power to soothe ulcers, sores and wounds is very pronounced.

We are so positive that Rexall Eczema Ointment is unexcelled for overcoming these ailments that we sell it with our personal promise that it will not cost the user anything unless it in every way gives satisfaction. We exact no promise and in no way obligate the purchaser. You must admit that we could not afford to make such a broad liberal guarantee, except we are certain we could substantiate our claim.

Rexall Eczema Ointment is a grayish white, pleasant smelling, antiseptic, cooling, healing salve that is strongly germicidal. It destroys the germs that penetrate the skin and cause eczema and other tormenting skin ailments. A remedy must do that to be effective, for in no other way can such diseases be overcome.

Rexall Eczema Ointment is ideal for the treatment of skin irritations peculiar to children, for barber's itch, and for sore itching feet.

It is positively the best remedy we know of, and we urge you to try it at our risk. Two sizes, 50c. and \$1.00.—The Rexall Stores, P. W. Holdsworth, Digby; Ryan & Blackadar, Weymouth.

Nature Steps.

WHEN THE KIDNEYS GIVE OUT.

Do you feel that you simply can't go any farther—that you must have rest for that lame and aching back—relief from that constant dead tired feeling—freedom from those stabbing, darting pains?

It is nature's warning that the kidneys are giving out and you need the help of Booth's Kidney Pills, the guaranteed kidney remedy. In every machine there is one part that works the hardest and gives out first. The kidneys work night and day, and naturally a life of unusual activity doubles the duties of the kidneys and in time the strain tells. The kidneys give out and nature cries "stop." Booth's Kidney Pills are sold by all dealers, 50c. post paid from The R. T. Booth Co., Ltd., Fort Erie, Ont. There is no pill just as good. Send for a free box. The test will prove the truth of our statement.

Makes Hair Grow

H. E. Jones has an invigorator that will grow hair on your money back. The time to take care of your hair is when you have hair to take care of. If you have hair getting thin, gradually falling out, it cannot be long before the spot appears.

The greatest remedy to stop the hair from falling is SALVIA, the Great American Hair Grower, first discovered in England. SALVIA furnishes nourishment to the hair roots and acts so quickly that people are amazed.

And remember, it destroys the dandruff germ, the little pest that saps the life that should go to the hair from the roots.

SALVIA is sold by H. E. Jones under a positive guarantee to cure dandruff, stop falling hair and itching scalp in ten days, or money back. A large bottle costs 50c. The word "SALVIA" (Latin for sage) is on every bottle.

Women Read This.

PARISIAN SAGE PUTS LUSTER INTO DULL, FADED HAIR.

Every woman reader of the COURIER who desires radiant hair that every one admires should go to H. E. Jones today and get a large 50 cent bottle of Parisian Sage.

It is not only a delightful and refreshing hair dressing and beautifier, but it is sold under a rigid guarantee to banish dandruff, stop falling hair and itching scalp, or money back.

Parisian Sage is the best hair tonic known. It is the only one that will cure dandruff, cleanse the scalp and make the hair grow long and beautiful.

DEAR SIR:—The six horsepower engine that I got from you in Sept. 1908 has given perfect satisfaction, always ready to go in all kinds of weather. Just as ready to start with the thermometer 10 below zero as it is in the middle of summer. I have done as much work with her now, as an ordinary farmer would do during his lifetime, and still she runs as lively as when I got her, the only expense being one contact spring costing 40c. If I had to buy one to-morrow I would buy a Woodpecker in preference to any other kind that I have seen working.

It has been said that our present difficulty of making ends meet is not so much the high cost of living as the cost of high living. There is something in that, but it is not complete or satisfactory. For the last ten years at least the problem of existence has become more and more difficult. There is enough for all to live in comfort, but somehow the distribution has been unequal and unfair. Somebody has the advantage and the meanness to squeeze us hard, and the most of us are squeezed until we sweat and there ain't much use in kicking either.

Messrs. Emdon Tibert and B. Morehouse in last Wednesday's storm were coming from Tiverton with two motor boats, one being in tow. When they were nearing the reef, the tow line parted and Mr. Tibert's boat was driven ashore. There being a great difficulty in saving himself, the boat was a total loss. In the meantime Mr. Morehouse was drifting along in his boat, at the mercy of the wind and waves as his engine was not in working order, but Mr. Tibert hastened to the village to get assistance and through the kindness of Mr. Fred Therault and others, they arrived just in time to save him from being swamped in the rips.

When You
Feel Cross

And are worried and irritated you can get the liver right by using Dr. Chase's Kidney-Liver Pills.

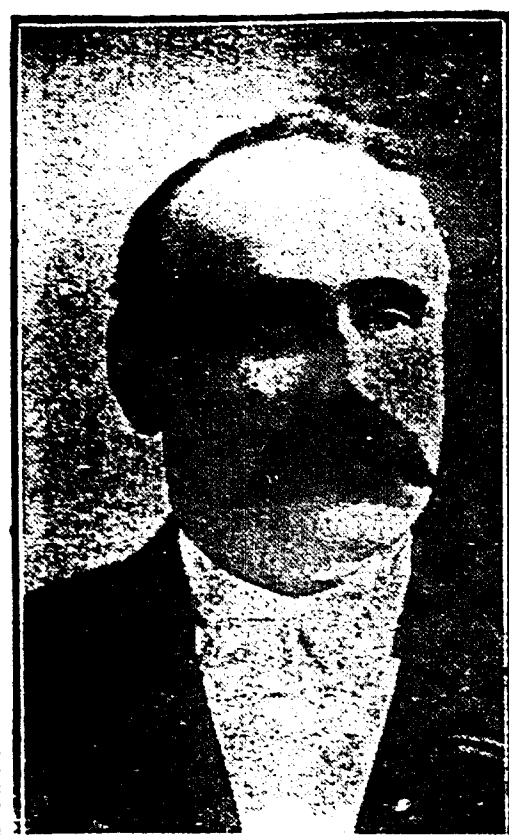

Life is too short to be cross and grouchy. You not only make yourself miserable, but also those about you. Don't blame others. Blame yourself for not keeping in the liver right.

Smith's Cove has had a long and very strenuous tourist season this year, commencing early in May, and all through the months of June, July, Aug. and so far into September. Her hotels and cabins, and many of her private houses have been taxed to their uttermost, to provide accommodation for the crowds of tourists who have flocked to our beautiful seaside resort, where during the most boiling weather of last summer the guests here at the Cove have enjoyed cool nights and much of the time breezy days. We have the privilege of the cool breezes that come to us off the sheet of water called Digby and Annapolis Bays, and which lies for miles around us. We understand that Proprietor Cossaboom, of the Harbor View Hotel, is planning to build another large building, part of it to be used for his own private residence and part to still further accommodate his fast growing tourist business.

Woman's Power

Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for women's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and builds. Most dealers sell it. No honest dealer will sell a substitute in order to make a little larger profit.

MEASUR, FRANK THOMSON & CO.,

DEAR SIR:—I have been a sufferer of lung trouble for many years, and have tried all kinds of doctor's medicine, but found no relief. I heard of your "Oliveine Emulsion" and after taking the first bottle felt much better. I am now taking the third bottle and am much improved. I cannot recommend the "Emulsion" too highly among my friends.

Domestic Limericks.

A woman as proud as old Lucifer
Gave time of her husband's abuser;
So she called the police.
Who compelled him to flee
By crying: "You villain! Let Lucifer!"
Then, no longer prouder than Lucifer,
Forgetting her husband's abuser,
She promptly forgave him,
Swore falsely to love him—
Thus woman lets love make a quaffer.
Still the officers, seeing the ruler,
Refused to take any execution;
But she made things so hot
That they fled from the spot.
As a witness they could make no offer.
Then, once more as proud as old Lucifer,
She thrashed hubby well for abuser,
And the longer he waited,
Why the harder she whaled,
Till at length he abjectly begged truce.

Cigarettes.

Do you care to know how they are
made? I think I can enlighten you.
An Italian boy only eight years old
was brought before a justice in New
York city as a vagrant, or, in other
words a young tramp. But with what
did the officer charge him? Only with
picking up cigar stumps from the
streets and gutters. To prove this he
showed the boy's basket, half full of
stumps, water soaked, and covered
with mud.
"What do you do with these?" asked
his honor.
"I sell them to a man for ten cents
a pound, to be used in making cigar
rettes."

Not a particularly agreeable piece
of information, is it boys?
In large cities there are a great
many cigar butt-grubbers, as they are
called. It certainly is not a pretty
name, though very appropriate; for it
is applied to boys and girls who scout
the streets in search of half burned
cigars and stumps, which are dried
and sold to be used in making cigar
rettes.

But this isn't all, nor even the worst
of it. These cigarettes have been
analyzed, and physicians and chemists
were surprised to find how much opium
is put into them. A tobaccoist him-
self says that "the extent to which
drugs are used in cigarettes is ap-
palling." Havana flavoring for this
same purpose is sold everywhere by
the thousand barrels. This flavoring
is made from the tonka bean, which
contains a deadly poison. The wrap-
pers, warranted to be rice paper, are
sometimes made of common paper.

For Constipation.

A MEDICINE THAT DOES NOT COST ANY-
THING UNLESS IT CURES.

The active medicinal ingredient of
Rexall Orderlies, which is odorless,
tasteless and colorless, is an entirely
new discovery. Combined with other
extremely valuable ingredients, it
forms a perfect bowel regulator, in-
testinal invigorator and strengthener.
Rexall Orderlies are eaten like candy
and are notable for their agreeableness
to the palate and gentleness of action.
They do not cause griping or any dis-
agreeable effect or inconvenience.

Unlike other preparations for a like
purpose, they do not create a habit,
but instead they overcome the cause
of habit acquired through the use of
ordinary laxatives, cathartics and
harsh physic, and permanently remove
the cause of constipation or irregular
bowel action.

We will refund your money with
out argument if they do not do as we
say they will. Two sizes, 25c. and
10c. Sold only at our store—The
Rexall Stores, P. W. Holdsworth,
Digby, Ryan & Blackadar, Weymouth.

A Blow Arrested.

An organist who on the eve of a
festival was taken suddenly ill secured
a deputy to take his place. The
deputy was a gentleman who played
a very full organ, playing full chords
where his principal played only single
notes and consequently used a much
larger quantity of wind.

When about three parts through
with the "Hallelujah Chorus" the
wind suddenly gave out. Going round
to the back of the organ to ascertain
the reason, the deputy found the blow
or in the act of putting on his coat
preparatory to going home.

"What do you mean by such be-
havior?" the deputy angrily expostu-
lated.

"Look 'ere, sir," the blower returned
with warmth; "if you think I don't
know 'ow many puff it takes to blow
the 'Hallelujah Chorus' you make a
big mistake."

AND TERMS

The latest and most up-to-date Engine on the market. Have been sold through-
out the Maritime Provinces since 1903. What a user writes after three years' service:

THE L. M. TRASK CO.,
ST. JOHN, N. B.
Lower Hamilton, P. E. I. March 17, '11
I have just received your six horsepower engine that I got from you in Sept. 1908 has given per-
fect satisfaction, always ready to go in all kinds of weather. Just as ready to start with
the thermometer below zero as it is in the middle of summer. I have done much work
with her now, as any ordinary farmer would do during his lifetime, and still she runs
today as well as when I got her, the only expense being one contact spring costing 40c.
If I had to buy one to-morrow I would buy a Woodpecker in preference to any other kind
that I have seen working.

DIGBY COUNTY NEWS

Supplement to THE DIGBY WEEKLY COURIER

DIGBY, FRIDAY, SEPTEMBER 22, 1911

Hillcote Farm.

A FEW NOTES FROM ONE OF DIGBY COUNTY'S POPULAR SUMMER RESORTS.

(Special to the Courier.)

Of the many beautiful summer resorts, Sandy Cove on Digby Neck, is the most charming. Here, if anywhere, one can find the peaceful rest of combined country and sea shore life.

Situated on the shores of both St. Mary's Bay and the Bay of Fundy, the snug little town of Sandy Cove nestles in a very picturesque way on the hills sloping towards the sea, an ideal spot to spend a long or short vacation, for here if anywhere our dream of "Castles in Spain" come true; peace and contentment you see everywhere; fine, invigorating sea breezes—no matter from what direction the breeze blows it is laden with life giving zone.

Fishing is always good sport. This is the verdict of every one who has visited Hillcote Farm.

It is a fact, many come here from other so-called and celebrated fishing villages and enjoy their first real big fishing at Sandy Cove.

More than fortunate is any one who happens to be the guest of our good host and hostess, Mr. and Mrs. Edridge, of Hillcote Farm, who entertain you in royal style and make you wish to stay on indefinitely.

On Friday morning the following guests were out fishing under the careful guidance of Uncle Amasa (our dear Mr. Edridge), Miss Hitching, Miss Smith, Miss Hogan, Miss Hughson, Mr. and Mrs. Witting.

The sport was great and precious. Such luck! Three and four fish were pulled out the briny at the same moment, and in a very short time 25 good sized beauties were lying at our feet. We were more than successful when you consider how poor fishing has been all over this section—the catch was as follows:

One 25 lb. cod.

One 20 lb. pollock.

Three 15 lb. pollock.

Two 15 lb. pollock.

Five 10 lb. pollock, and the balance 5 to 8 lbs. each.

The above is an average catch. Uncle Amasa always knows where the fish are and the most important thing, he always manages to land them.

Fishing, however, is only one of the many attractions of Hillcote Farm. Shore dinners, picnics to the different points of interest, are weekly occurrences. Fine beach bathing, charming walks over the hills and through the woods, exploring the rocks along the shores of Fundy, looking for and finding many beautiful crystals, noting the ever changing sea, with the marine life, so attractive to the man or woman from the city.

In other words "something doing every minute of the day." Some of the guests at Hillcote Farm have been coming here every year for the last decade and will continue to come as long as they are able to secure accommodations.

On Wednesday, the 13th inst., we contemplated a fishing excursion, but a trip to Mink Cove was suggested by some of the party. We enjoyed the surroundings in and around Mink Cove. The day was ideal. A fine, brisk north-west wind made the walk of 2 1/2 miles exhilarating. We returned to Hillcote Farm, where we partook of a most delicious dinner such as only our hostess can prepare.

On Thursday, a trip to Shuhall's Bluff was suggested. So off we started. We enjoyed the view from there. One would have to travel many miles to see a better one. From this point you can see the blue waters of St. Mary's Bay on the left and the white caps on Fundy, Grand Manan and the highlands of New Brunswick to the right.

On Friday, the 15th inst., we started along the shore on an exploring expedition, as far as Deep Cove. We met with good success and returned with many fine specimens of rock crystals.

In the afternoon a fine fishing trip with Uncle Amasa in command, assisted by five young ladies from the States. Soon we began to land some fine, fat fish. Reciprocity or no reciprocity, we got the fish and lots of fun, in addition to the health giving exercise. Everyone met with good luck. To the great pleasure of the guests of Hillcote Farm, Miss Smith, of Jamaica Plain,

caught the most and consequently became "high line."

On Saturday, the 16th, once again found the same party under the charge of Uncle Amasa, fishing with the usual good luck. On this occasion Mrs. Witting became "high line," sharing honors with Miss Smith.

Among the recent arrivals at Hillcote Farm we find the following registered: Miss Florence Hitchings, Denver, Colo., Miss Marietta Hogan, Lowell, Mass., Miss Margaret Hughson, Mattapan, Mass., Miss C. Smith, Jamaica Plain, Mass., Miss Jessie McIntosh, Marblehead, Mass., Miss Anna Laskey, Marblehead, Mass., Mr. Wilfred Bradbury, Windsor, N. S.; Mr. and Mrs. L. L. Witting, Pittsburg, Pa.

MADE WELL AND STRONG

By Lydia E. Pinkham's Vegetable Compound

Toronto.—I gladly give my testimonial in favor of your wonderful medicine. Last October I wrote to you for advice as I was completely run down, had bearing down sensation in the lower part of bowels, backache, and pain in the side. I also suffered terribly from gas.

After receiving your directions I followed them closely and am now entirely free from pain in back and bowels, and am stronger in every way.

I also took Lydia E. Pinkham's Vegetable Compound before my baby was born, and I recommend it highly to all pregnant women.—MRS. E. WANDBY, 92 Logan Ave., Toronto, Ont.

Another Woman Cured

Maple Creek, Sask.—I have used Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and I am now in perfect health. I was troubled with pains every month. I know other women who suffer as I did and I will gladly recommend your medicine to them. You may publish this if you think it will help others.—MRS. F. E. COOK, Maple Creek, Sask.

If you belong to this countless army of women who suffer from some form of female ills, don't hesitate to try Lydia E. Pinkham's Vegetable Compound, made from roots and herbs.

Neglecting His Duty
A country doctor was recently called upon to visit a patient some distance away. Driving to where the invalid lived, tied his horse to a tree and started to walk across the field. It happened that work was in progress on a new well, of which the doctor knew nothing until he found himself sinking into the earth. He fell just far enough to be unable to get out of the hole unassisted, and lustily yelled for help. When he was finally pulled up, the hired man remarked to him: "I say, doc, you had no business down there."

"No, I don't think I had," replied the doctor.
"Don't you know," continued the hired man, "you ought to leave the well alone and take care of the sick?"

Fifty Killed by Hurricane
NAPLES, Sept. 22.—A hurricane of great violence and accompanied by a deluge of rain raged throughout the day over the Vesuvius region, causing a heavy loss of life and enormous damage to property. It is estimated to have killed fifty persons were killed. Houses were raised by the wind while others were inundated. Numerous boats in the bay of Naples are missing and are believed to have been sunk.

It is impossible as yet to estimate the total damage done by the storm as telegraph and telephone wires are down and roads are blocked. Several towns are in darkness tonight owing to the electric lighting plants being compelled to shut down.

Cartershill, Nfld.
MRS. J. L. LINDSEY, Nfld. 1000
DEAR SIR.—While in the country last summer I was badly bitten by mosquitoes, so badly that I thought I would be disgraced for a couple of weeks. I was obliged to wear my linen and the mosquitoes and the mosquitoes. The effect was more than I expected. A few applications completely cured the irritation, and prevented the skin from becoming itchy. MRS. J. L. LINDSEY is a good article to keep in the mosquito.

Strike is Ended
MADRID, Sept. 22.—Premier Canalejas on leaving the Palace last night said to the assembled newspapermen: "Gentlemen, I have the pleasure to tell you that the strike is over every where."

The only strikers left in Madrid are the cab drivers. They have been given three hours to resume work or have their licenses cancelled.

HER SKIN SEEMED ON FIRE

Every Other Treatment Failed But "Fruit-a-tives" Cures

GRAND LIGNER, QUE., Jan. 2nd, 1910.
"My wife was greatly distressed for three years with chronic eczema on the hands, and the disease was so severe that it almost prevented her from using her hands. The doctor gave her several ointments to use, but none of them did any good. He also advised her to wear rubber gloves and she wore out three pairs without getting any benefit. As a last resort, I persuaded her to try 'Fruit-a-tives', and the effect was marvelous. Not only did 'Fruit-a-tives' entirely cure the eczema, but the asthma, which she suffered from, was also completely cured."

We both attribute our present good health to "Fruit-a-tives". N. JOUBERT.
"Fruit-a-tives" will always cure Eczema or Salt Rheum because "Fruit-a-tives" purifies the blood, corrects the indigestion and constipation, and tones up the Nervous System.

"Fruit-a-tives" is the only medicine in the world made of fruit juices and valuable tones, and is the greatest of all blood-purifying remedies.

Insulting Engineer
Dr. Emmett Wimple took his little daughter, 6 years old, down town with him the other day on a business trip. The doctor's business was with a consulting engineer and the little girl sat so quietly by while they talked over business matters that the consulting engineer took a great fancy to her.

When the doctor left the engineer left with him and the three of them proceeded across the city streets. The engineer bought a couple of dollars for the little girl and sat, satisfied with that, escorted her around to a candy store and purchased her a box of candy.

When she got home this is what she said to her mother:
"O, mamma, I've been down town and I met the most insulting engineer."

8 Boxes Cured Psoriasis
Mrs. Mary Massey, Concord, Ont., writes: "Three doctors attended my psoriasis, but none could cure it. I was advised to use 'Fruit-a-tives' and I used it for eight boxes and I am now perfectly cured. I can hardly praise this Ointment enough."

To Use Ham
Sliced ham is a tender if it is baked than if fried. Cut a slice three quarters of an inch thick, put it into a small enamel pan, turn three quarters of a cupful of milk over it, cover and bake for an hour and a quarter, basting every fifteen minutes with milk.

To Fly Across the Ocean

DANISH AIRMAN HAS AMBITIOUS PLANS FOR THE CONQUEST OF THE ATLANTIC.
NEW YORK, Sept. 27.—The conquest of the Atlantic, the most ambitious exploit yet undertaken by an aviator, is contemplated by a Danish airman, who describes his plans in a letter published to day in the *Nord Lyset*, a Danish newspaper published in Brooklyn. This aviator writes that he has enlisted the necessary financial aid and made arrangements to fly next spring from Copenhagen to New York, resting only at London and Queens-town and upon ships stationed at intervals across the North Sea and the Atlantic Ocean.

At the aviator's request his name is withheld from publication at this time. He says that he has the aid of English and American capital and will use a biplane of American manufacture. One steamship will be stationed in the middle of the North Sea and six others will be strung out across the Atlantic Ocean at intervals of about 490 miles. He expects to fly at the rate of 56 miles an hour. The steamers will be equipped with landing stages and apparatus for generating a wireless current which will supplement gasoline as motor power for his engines, thus enabling him, he hopes, to make continuous flights of unprecedented lengths. By the same means he expects to communicate with his auxiliary ships by wireless telegraphy.

In case of accident the Danish airman believes that he can notify the nearest ship of his plight and then, by means of pontoons with which his biplane will be equipped, keep aloft until rescued.

The precise date for starting the flight has not yet been settled.

Death After a Scratch
Morris Quatzman, an eleven-year-old Windsor boy fell off his bicycle and scratched his wrist. He thought nothing of the injury, but blood poison set in and he died.

Such incidents as these—by no means infrequent—ought to make people realize the danger that may lie even in the smallest flesh wound.

Take a simple illustration. When a knife, a rusty needle, a splinter of dirty wood, a barbed wire fence, or a thorn, scratches the hand, the latter is inoculated with germs, of which the air about us is full.

The way to avoid serious results is to cleanse the wound and apply Zam-Buk. Zam-Buk is a powerful, yet painless germ-killer, and when applied to the broken skin is absorbed into the tissue, instantly destroying the germs that spread disease and stopping the pain and smarting. That is why Zam-Buk is so popular with children.

The flesh thus soothed and purified the wound is made perfectly healthy, and all poison and cause of festering removed. Having done this, Zam-Buk, then proceeds to heal the wound or sore, and new healthy tissue is built up in a quick, painless and perfect manner.

Irish Strike

DUBLIN, Sept. 22.—The first fruits of the declaration last night of a general strike on the railroads of Ireland by the Amalgamated Society of Railway Servants, were not particularly promising from the standpoint of the union. Only about 30 of the local staff of the Great Northern Railway responded to the call and the locomotive men of the Midland Great Western refuse to quit. The trains of the Great Northern system were being operated as usual today. The strike on the Great Southern and Western Railway continues to be the mainstay of the general movement. The fact that the executives of the Amalgamated Society of Railway Servants are Englishmen has not tended to make the strike popular with Irishmen.

QUEENSTOWN, Sept. 22.—Two hundred passengers, some of whom came on the White Star steamer Cedric from New York last night and others on the same company's steamer Arabic from Boston today, are stranded here because of the general strike on the Irish railways called by the Amalgamated Society on Railway Servants last night. The city is practically isolated from the land side. The railway of ferals stated that no trains would arrive or leave Queenstown today and that they did not know when they would be able to resume operations. Not even the mails can be despatched.

Trees in Wind
The effect of wind upon trees is powerful. Even the presence or absence of forests may be determined by the character of the prevailing wind or the conditions that modify it. The wind acts as a drying agent, giving a special aspect to many plants. When it is almost always from the same quarter the plants show greater development upon one side. Trees are smaller on the windward edges of forests, and trunks and branches are bent to leeward. The deformations are most marked near the sea or in flat regions. The cherry, plum, walnut, black poplar, ash and certain pines are very sensitive to the wind, but mountain pines are certain to offer great powers of resistance, and these are recommended for reforesting wind swept lands.

U. P. R. Wreck
NORTH BAY, Ont., Sept. 22.—The C. P. R. Wreck at Chapeau yesterday resulted in seven deaths. It was caused by the engine of a work train, running tender first, crashing into the van of an eastbound stock train standing on the main line.

Eight men in charge of the stock train were in the van and only one escaped, saving himself by jumping. The accident occurred at 10:15 in the morning. The dead include C. Lare, master of London, England; Harold, of Windsor, Ont.; Nelson of Winnipeg; Geoffrey of Quebec and three others, names unknown at present.

Grave Joke
Admiral Porter had a very intelligent Chinese servant, named John. One day John asked permission to attend a funeral.

"All right," said the admiral. Then he asked, "I suppose you will put some food in the grave, as the Chinese do?"

"Yes, sir," John replied gravely. "Now, John," continued the admiral, "when do you think the Chinese man will eat the food you put in his grave?"

"At the same time, sir, that your dead friend that you buried a few days ago will smell the flowers that you put on his grave," answered John, urbanely.

SENTENCED TO DEATH.

Harry Wilson Convicted of the Murder of His Brother.

PRISONER, ON THE STAND, SAID HE AND VICTIM WERE DRINKING HEAVILY AT THE TIME OF THE TRAGEDY AND HE REMEMBERED NOTHING ABOUT IT.

The preliminary examination of Harry Wilson, charged with the murder of his brother George, took place in Digby last Friday before the Hon. Magistrate Bernard Haver, which resulted in the prisoner being sent up for trial at the Supreme Court which opened in Clare last Tuesday.

When asked if he had anything to say in his defence, the prisoner made no reply. No new developments were brought out in the evidence to show a motive for the shooting.

It brought tears to the eyes of the crowd of spectators which filled the Digby Court room Friday afternoon when the father described the visit of the prisoner to his bed carrying a child and a loaded gun about half past three Thursday morning, when he told his father that he had shot his brother George and asked him to keep the baby for him.

Mr. Wilson took the child in his arms. The prisoner then sat down on a chest, removed a loaded cartridge from his gun, and put it on the floor beside the bed.

Then after his father had refused him the loan of a revolver with which to commit suicide, he kissed the baby, his father and the members of the family present and bid them all goodbye and said they would never see him again.

But as the father looked over at the prisoner handcuffed and sitting at a table, said, "He is still here, but I had not seen him until today." The prisoner did not seem to show any signs of emotion.

Only four witnesses were examined, Dr. Dwyer, who examined the body; James Buchanan, the only eye witness of the terrible tragedy; the boy's father, and Chief of Police Bowles, who made the arrest.

The Court opened at ten o'clock. The prosecution was conducted by H. L. Dennison, K. C., the prisoner being defended by Messrs. Jones and Nichols.

The foreman of the petit jury was John McLaughlin, and the foreman of the grand jury was Mr. Bowles. The prisoner pleaded not guilty.

The Crown called James Buchanan, who saw the shooting, Dr. Dwyer, who examined the body, and George Wilson, who was the father of the prisoner and the deceased, and Chief of Police Bowles, who made the arrest.

The prisoner's defence was conducted by Messrs. Jones and Nichols. The prisoner pleaded not guilty.

The Crown rested its case at five minutes to one, after which the Court adjourned until 2 p. m. The defence then put the prisoner on the stand.

He testified that he had been drinking heavily at the time of the tragedy, and that he had shot his brother George.

He further testified that he had shot his brother George with a .38 calibre revolver, and that he had killed him.

He then testified that he had shot his brother George with a .38 calibre revolver, and that he had killed him.

He then testified that he had shot his brother George with a .38 calibre revolver, and that he had killed him.

He then testified that he had shot his brother George with a .38 calibre revolver, and that he had killed him.

He then testified that he had shot his brother George with a .38 calibre revolver, and that he had killed him.

Eczema Not a Blood Disease

For this reason internal treatments fail to cure—Success of Dr. Chase's Ointment.

Experience with the use of Dr. Chase's Ointment will soon convince anyone that Eczema is a disease of the skin and not of the blood.

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day.

Dr. Pierce's Favorite Prescription

*It Makes Weak Women Strong,
Sick Women Well.*

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 31 one-cent stamps to cover cost of mailing only; or, in cloth binding for 50 stamps.

Address Dr. R. V. Pierce, Buffalo, N. Y.

Grows Topless Potatoes
OHIO FARMER RAISING A KIND OF
"SPUDS" WHICH BUGS CAN'T
GET AT.

Potatoes without tops are being raised by John Groves of Salem, O., on a small patch of ground, and the fine, large "spuds" are being examined with curiosity and interest by hundreds of citizens and farmers, who have seen a number of them on exhibition.

The patch of potatoes was planted by the owner after many experiments, and the bulbs have grown to the size of large hens eggs, without showing the sign of a sprout, but are clean and white and growing rapidly.

The grower will be sent to the state experimental station at Wooster by the grower, who come from their potato bug slaughter to gaze in wonder at the topless crop tubers.

A Garden in the Air.

The highest garden in the world is said to be the Alpine garden of botany, which was laid out by the late Canon Chanoux, formerly rector of the Hospice of Little St. Bernard. It is situated at an elevation of 2,200 meters, or 7,150 feet. Here are to be found almost all species of mountain flowers, not only those common in the Alps, Pyrenees, Carpathians, the Caucasus and the Balkans, but even from far off Himalayas. The canon conceived the idea in 1888, but it was not until 1902 that his project became effective. In the latter year the commune of Thulie gave him the land.

For Eczema.

A TREATMENT THAT IS GUARANTEED TO GIVE RELIEF.

Eczema is parasitic in nature. It is said to be a contagious disease. Until the parasite or germ hidden in the skin is completely destroyed and removed, eczema cannot be cured. Fully one-third of all skin disease is in the form of eczema. It affects persons of all ages and classes. It is very prevalent among people between the age of 20 and 40.

We unhesitatingly guarantee to return every cent paid up for Rexall Eczema Ointment in every case where it fails to give entire satisfaction. It possesses remarkable cleansing, antiseptic, healing and curative power. Its great value is very pronounced in the treatment of eczema, whether of the dry, scaly sort or of the weeping type, where there is a constant flow of an ill-smelling excretion, or of the other intermediary forms, such as ringworm, acne, pimples, blotches and discolorations.

Rexall Eczema Ointment is very useful in treating ulcers, sores, wounds, insect bites, nettle rash and hives. It is particularly recommended for the treatment of children who are tormented with itching, burning, and disfiguring skin disease. We urge you to try a box at our risk. Your money waits if you are not satisfied with the treatment. Two sizes, 50c. and \$1.00. Remember, you can only obtain Rexall Eczema Ointment in this town at our store—The Rexall Stores, P. W. Holdsworth, Digby; Ryan & Blackadar, Weymouth.

More bread and Better bread

—And the Reason for it

A **STRONG FLOUR** can only be made from strong wheat. Manitoba hard wheat is acknowledged the strongest in the world—and that is the kind used for Purify Flour.

But that's not all. Every grain of this wheat contains both high-grade and low-grade properties. In separating the high-grade parts from the low-grade the Western Canada Flour Mills put the hard wheat through a process so exacting that not a single low-grade part has the remotest chance of getting in with the high-grade.

Of course this special process is more expensive to operate but it means a lot to Purify flour users—that's why we use it.

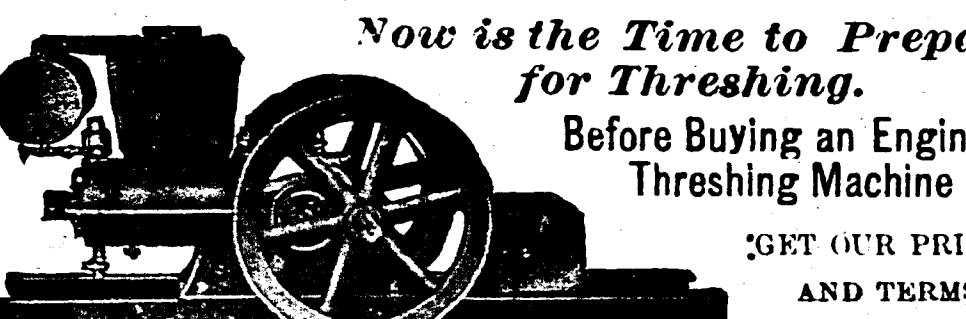

It means that Purify Flour is made entirely of the highest-grade four parts of the strongest wheat in the world.

It means a high-class, strong flour and therefore yields "more bread and better bread."

Purify may cost a little more than some flours, but results prove it the cheapest and most economical after all.

Dear Sirs:—The six horse power engine that I got from you in Sept. 1908 has given perfect satisfaction, always ready to go in all kinds of weather. Just as ready to start with the thermometer to below zero as in the middle of summer. I have done as much work with her now, as any ordinary farmer would do during his lifetime, and still she runs today as well as when I got her, the only expense being one contact spring coating. She has had no loss of time, I would buy a Woodpecker in preference to any other kind that I have seen working.
