1877-1977

Now and then a printing job had a save in parchment paper which required a special kind of printers' ink which smelled very bad some days. I always dreaded it when "Mac" would take you to the largest press in spite of the fact he always opened an outside door to lessen the odors on the room itself.

One of the jobs I had to do, besides putting and
graders' devil on the staff, was to... I cleaned one
and then... One day not long after I started to get to
the grating plant. I decided to climb the floor that
apparently hadn't been cleaned for some con-
siderable time.

"J.J." came along and said, "how are you making out Vince?" I assured him that I thought I was beginning to see the floor. "J.J." laughed very heartily. He thought the remark pretty good and whole.

Sometimes the gasoline engine, a piece of machinery would refuse to work, and the "Man" fix-it man had patiently worked for a certain length of time to get it going again, without results. Man would then stand back and come out dramatically then he would immediately start working. "See," he would say, "all it needed was a bit of coaxing."

On other occasions when some group refused duty for the dead, seemed to be brokenhearted, I would say, "use a little oil" and sure enough, after that is said, "use a little oil" and sure enough, after that is said, it took. They often since, have I heard of the value of that remark and the actual need of oil in many life situations, applied at the right time, right place and in the right way.

Other things that sort of stick in my memory and come to mind now and then are, like the time I told "Mac", of four teenage boys who in the spring season of 1958 got together just before dark one evening and decided to utilize the newly built outdoor Penn Hotel swimming pool which had just been filled with water. Clothes were taken off near the road just out of the pool, nobody else seemed to be around except the four boys. In thought or time for bathing suits, so to the pool they went. They stood on the edge of the pool and looked at the chilly water, one soon jumped in. The rest quickly followed and across the pool the swim-

Mac" inferred to the story and hardly said anything, but the next "Digby Courier" had a good story on the episode. The heading of the story went something like, "Four Boy Scouts Officially Open Pines Hotel Swimming Pool." Who were the boys? Many years later they are known as: the late Dr. Earl H. Anderson, veteran of two wars (second world war), was awarded the Victoria Cross; Sidney L. Kinnam, now prominent druggist; for many years in Digby; Clayton D. Snow, Digby wholesale importer and dealer; and myself.

As a young treasurer I used to like doing some writing about different events interesting to myself and mostly for myself. One day "Mac" said to me how about writing your version of the story told about "The Marooning of Jerome". I did it and read it aloud to two somewhat different groups of the men who was found marooned on a beach in some point on the French Shore of St. Mary's Bay, Duffy County. When I read this man's tongue had been cut out and his legs quite freshly amputated, were surgically well dressed and bound. He was presumably left by some vessel before dawn one morning, all for some mysterious reason.

"Jerome" appeared to have considerable social standing and considerable wealth. However, he could or would ever say after being something that sounded like the either you'd had, or would tell who he was or why he was told it was. And, to one of Digby County and different ideas have been said, persons exceeding this time.

"She" was, I felt no surprise, different about this man. The

From the files of the Chamber of January 23, 1967, the following account has been copied concerning India in 1965:

Among a number of old newspapers kindly sent to us are two from a copy of the Saint John Telegraph and among other advertisements contained in the issue before us is one describing the town and farming of Digby, and offering for sale certain lots in the town. In this area we are told the township of Digby "extends from the Gulf of Saint-Paul westward to the extremity of the province of Nova Scotia, and contains about 124,000 acres." The town plot is then described.

The Town Plot is situated at the east of the township just within the entrance to Annapolis Bay, and twenty miles from Annapolis Town, and six miles distant from the head of H. Mary's Bay. This land, and not from the water's edge, partly is level ground, and partly on the declivity of a modern hill, dry and pleasant, and having on an eastern aspect a view of the Annapolis Bay, and its cultivated shores for twenty miles in extent, it terminates with the Fort and River's mouth at that name. It was secured by Loyalists from New York in 1782, the point of which went nearly to famine, so, moving to other countries, left the whole

free trade with the U.S.A., especially with the New England States. The question was then debated by some Digby High School students, one of which was J.J.'s daughter, Florence (now Mrs. Morton of Tibet, Prescott, Digby Co.). Some days after the debate a man from some part of Nova Scotia came to the printing shop looking for Florence, one of the successful debaters. I had the impression that this man was interested politically but, maybe I was wrong.

Well, I felt that I had learned considerable from my short experience at "The Wallis Job Print." I was learning to do beginner jobs, receiving some knowledge about things like embossing, stamping, perforating, counting, cutting and stitching paper stock, mixing inks for certain desired colors, and so forth, but, the only experience I had at setting type was just enough to make a "go," the printers name for a confused mess.

There was a taste of trying to sell your wares outside the plant. Work was a little slack one early fall day and so "Mac" said to me, "how about trying your hand at taking orders for printed personalized Christmas cards?" I tried it, made several calls around town, spent most of the time at one particular street town, spent much time and got no order, but

Sudden Death at Freeport

AGUSTUS THERIAULT FOUND DEAD IN HIS BIRTH ON SCR. EDDIE THERIAULT.

Schr. Eddie Theriault arrived at Freeport Dec. 20th, from the West Indies with a load of meat for Hains Bros. On Saturday morning, the cook, Augustus Theriault, complained of not feeling well and laid down in his berth. The captain, who is a nephew of the deceased, got breakfast ready and then went to call the cook, but found him dead.

Dr. Bishop, coroner, was notified who summoned the following jury: R. H. Hains, Loran Perry, W. P. Morrell, George C. Stevens, Nelson Thurner, James Finnigan, William Fournier, Chas. A. Hains, Fred McNeill, Bernie Blackford, Chas. Morrell and Milton Hains.

After Capt. E. Theriault and S. Conneau had been examined as witnesses, the jury returned a verdict of death from heart failure.

The body was removed to his home in Beliveau's Cove via gasoline boat Sunday morning where interment took place Monday. Sympathy is felt for the bereaved relatives and friends.

Prominent Master Mariner Retires

CAPT. CUTLER SNOW LEAVES THE SEA AFTER THIRTY SEVEN YEARS' SUCCESSFUL SERVICE.

Capt. Cutler Snow was in town Tuesday en route for his home in Sandy Cove, his ship, the Albert D. Mills, having been sold to parties in Nassau, New Providence. Capt. Snow left her at New Orleans and spent Christmas with his son, Mr. Percy Snow, in Beverly, Mass. The captain, who has been going to sea for thirty-seven years and has been sailing for Messrs. Pickles, of Annapolis, for the last two years, expects to remain on shore in the future. It will be remembered that Mr. Snow passed away suddenly last fall, almost immediately after the sailing of her husband's ship, and Capt. Snow is now receiving the sympathy of his many friends upon his sad homecoming.

Mrs. Bowman Collins rendered very nicely "The child in the manger" after the offering had been taken. Also a short address was given by our pastor. The church was prettily decorated with spruce boughs, evergreen and banners with appropriate mottoes for this happy season. At the close of the service the Sunday school presented Mr. Wm. Alfred Frost, the superintendent, with a very handsome rayo hanging lamp.

S. S. Boston's Rough Trip

Boston Globe, Dec. 29th: AFTER a hard trip the steamer Boston, of the Dominion Atlantic Line, tied up at Long Wharf yesterday afternoon. She was due at 10 a. m. The steamer struck bad weather off Yarmouth light, a screaming gale driving her down to five knots an hour at times. Capt. Simms kept close to the Maine coast in order to evade the full force of the blow. Off the Massachusetts coast he reports a rate of nearly 70 miles an hour. None of the 151 passengers returned on deck and the constant pitching and rolling of the vessel made it impossible to sleep. The steamer A. W. Perry, of the Plant Line, was nearly 12 hours late from Halifax. She encountered the same weather as the Boston.

Coast Steamship Merger.
BOSTON, Jan. 1.—The consolidation of the Eastern, Metropolitan and Maine steamship companies into one corporation became effective tonight, notwithstanding protests filed by Mayor Fitzgerald and others.

The properties are now owned by the Eastern Steamship Corporation. President Calvin Austin has appointed O. E. Taylor, passenger traffic manager of all the properties, and George W. Sterling freight traffic manager.

The Bijou Dream

The Bijou Dream's program Wednesday evening included "Ten Nights in a Bar-room," the story in pictures of that well known play. It was well put on and in addition several other good pictures were shown. The audience was particularly large and one and all well satisfied, the kind of audience which Manager Cripps usually has.

MOVING PICTURES

Picture shows are repeatedly condemned by ministers as undesirable recreation, but if some of the people who take time to criticize this form of amusement would only investigate the matter a little more they would find that it is not quite as objectionable as they think.—Post, Bridgeport, Conn.

A Good Emulsion

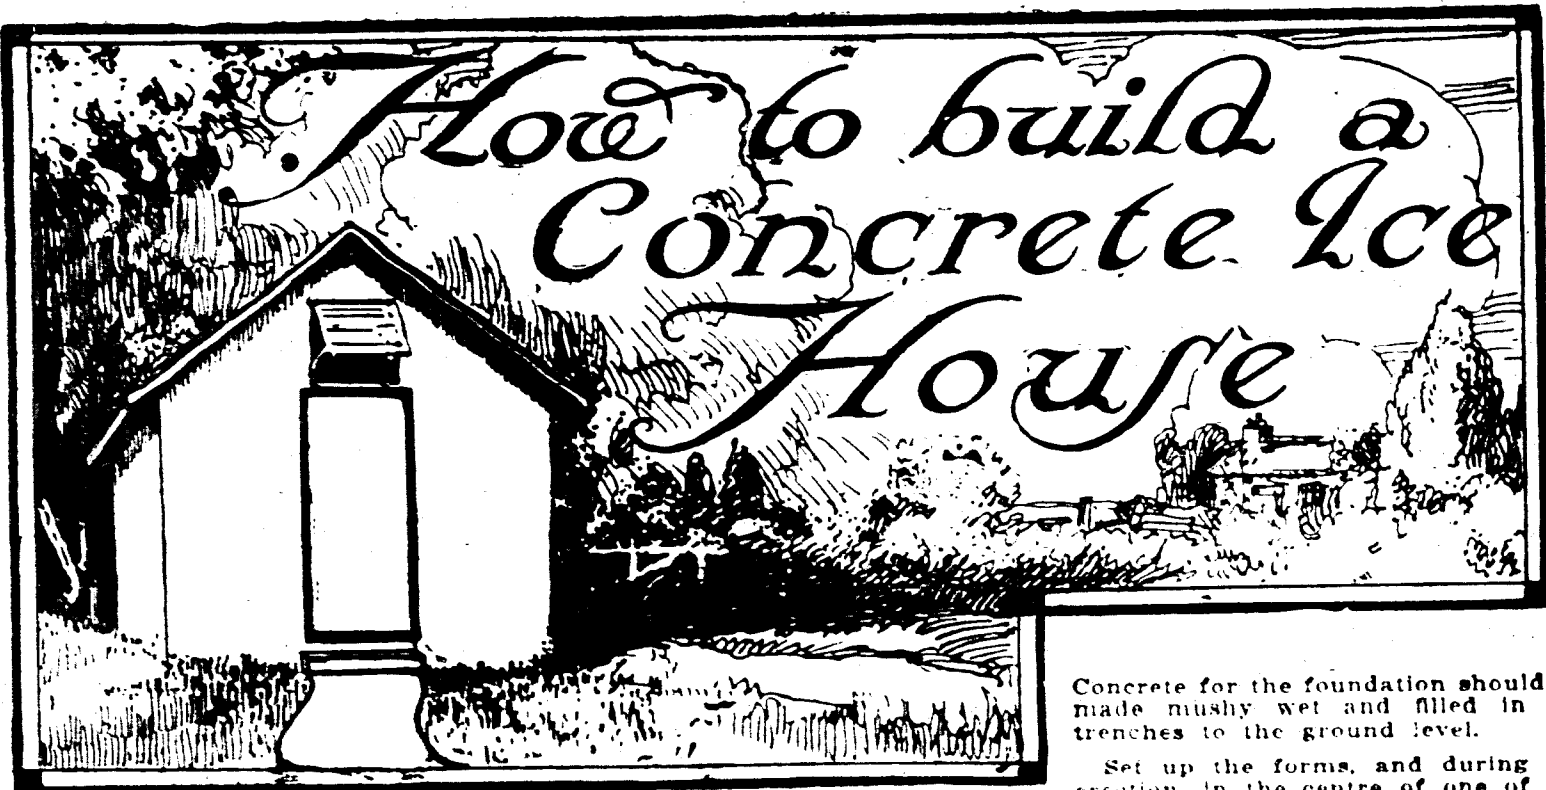

This may seem an exceedingly simple thing to talk about, but its importance at this season of the year when the system is exposed to the incursions made upon it by our uncertain climate should not be underestimated.

The nutritive and reconstructive properties of **Good Liver Oil Emulsion** are too well known to need any explanation here; sufficient is it to say that **Jones' Emulsion** includes all that is latest and best in Emulsion making and contains the full percentage of pure Cod Liver Oil.

THERE are few improvements possible which do more to make farm life pleasant than an ice house. Its stored blocks not only increase its profits by improving the perfect value of his dairy products, but also to enjoy the comforts of a home supply of ice.

It is so easy and inexpensive to have an abundant supply of ice all summer that it is really surprising that every farm is not provided with an ice house. The spread of concrete construction on the farm has been followed by the erection of such buildings in all parts of the United States and Canada, and it is the purpose of this article to give some suggestions which may help those who have not yet built to plan their ice-houses.

Concrete, being indestructible and not easily penetrated by heat or cold, is a splendid material for the walls. It has the added advantage of being comparatively cheap, since sand and stone and gravel and water are usually available on the farm, and the work can be done by the farmer or his assistants, at seasons of the year when spare time is plentiful. Moreover, concrete walls are not affected by the continual dampness and do not rot like wood. The saving in painting and repairing, to say nothing of superior ice-keeping qualities, in a few years amounts to more than the cost of the concrete building.

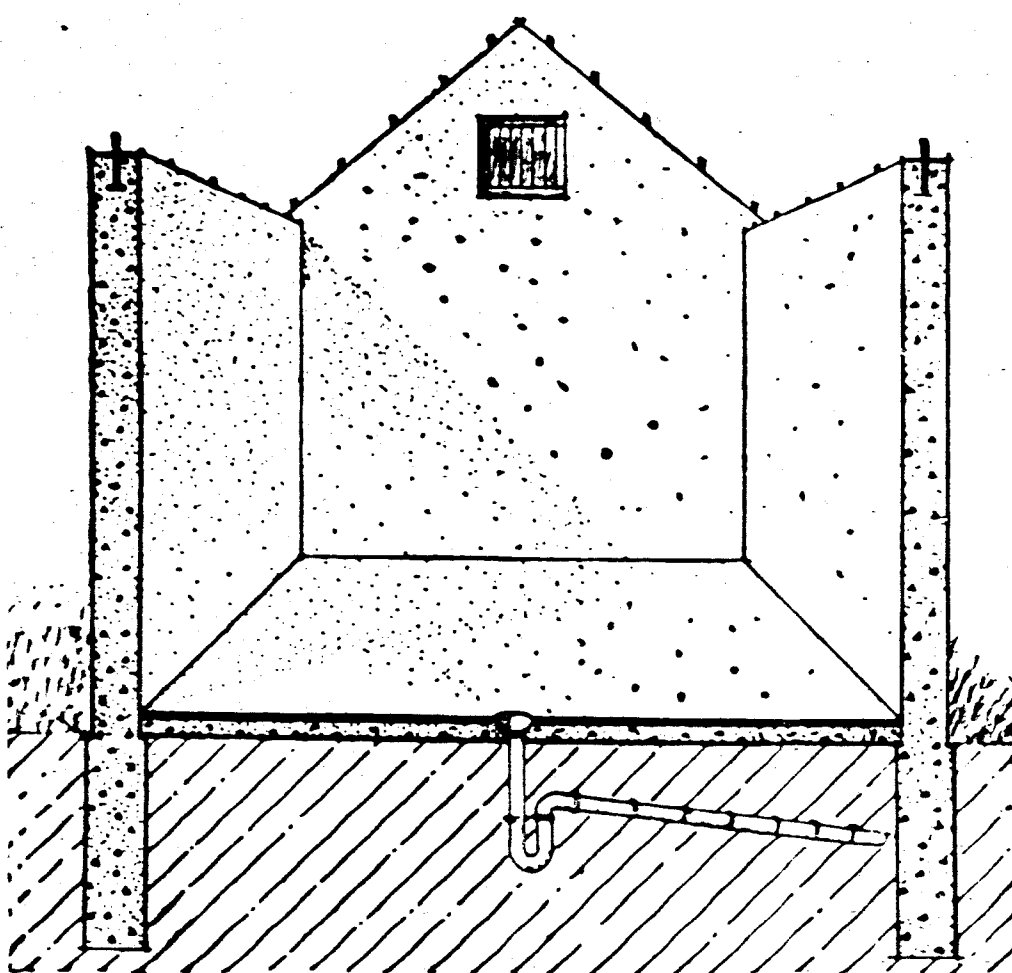

Location. In determining the location of the ice-house, a place should be chosen where the building can be well drained by an underground line of drain tile. If possible, it should be placed where the shade of large trees, or larger structures, will protect it from the heat of the mid-day sun.

The concrete for the walls should be made of Portland cement, clean sand and a hard crushed rock or screened gravel. Instead of the sand and gravel, clean bank-run gravel may be used.

Naturally, the size of the ice-house will depend upon the number of pounds needed daily and the number of days ice will be used. A cubic foot of ice weighs about 57 pounds, and a ton, with 10 per cent allowance for seams between the cakes, occupies 33 cubic feet. It is not necessary to pack the ice between the cakes, but on the floor, around the sides of the building and on the top of the ice there should be placed 12 inches of sawdust, well rammed. An 18-inch thickness of prairie or marsh hay may be used instead of the sawdust, provided it is well weighted down on top of the ice. Making allowance for sawdust packing and 8-inch concrete walls, a house 10 feet square (inside measurement) and 8 feet to the eaves, will hold 10 tons.

The materials may be hauled to the site at odd times, and piled so as to be convenient for working.

The wooden forms for the concrete may be either fixed or movable. Fixed forms are merely two boxes without top or bottom, which fit one within the other with an 8-inch space between for the concrete. Such forms are made of 2 by 4 inch siding spaced two feet and sheathed next to the concrete wall with 1-inch siding. The forms should be held in place at the bottom by timbers called "liners," and should be well braced. To save lifting the concrete, the outside boards may be nailed on as the concrete is placed in the forms. Movable forms require less lumber than the fixed variety. Such forms are built in sections 2 to 4 feet high and in lengths convenient to handle, usually 8 to 10 feet. The 2 by 4 inch uprights are spaced three to four feet. Cross-cleats at the top are provided to keep the forms eight inches apart. Near the bottom, twisted wire lines are used to draw the forms up tightly against the previous day's concrete work. Each

SHOWING CONSTRUCTION OF CONCRETE WALL FOR ICEHOUSE.

After the building is a week old, the forms may be removed and the 4-inch concrete floor built directly on the ground. Begin at the back of the building and slope the floor 1/4-inch to the foot in the direction of the drain tile at the door.

After the last few sawdust piles of the 5-inch drain with well-sealed joints, and include a tie known as a "trap," having a bend which always contains water. The water acts as a seal to keep out the warm air in the drain. Cover the floor end of the drain with a trash canister.

The Roof. The roof may be covered with shingles or any other good material. Close the door opening next to the tie, with removable sections of boards fitting in slots or grooves and provide a door swinging out. Hang the little doors with hinges on the outside, so they may be cracked to provide the necessary ventilation and at the same time keep the ice as previously instructed.

Success in ice-keeping depends largely on an air-tight, heat-proof building. On good drainage, with the drain "trapped" to keep out warm air. On careful and thorough packing of the ice. On well regulated ventilation in the roof space over the ice. A well-built concrete ice-house fulfills these conditions. Every year it is ready for use without repairs. And by means of ice, farm life can not only be made more comfortable and attractive, but fruit, poultry and dairy products can be marketed to better advantage.

For an ice-house 10 by 10 feet, 3 feet to the eaves and 13 feet to the roof peak, with 8-inch walls, 4-inch floor, and a foundation 10 inches by 3 feet, the following materials will be required for the concrete:

Crushed rock, 15 cubic yards.

Sand, 7 1/2 cubic yards.

Portland cement, 21 barrels, and 16 1/2 by 8-inch round head bolts.

Concrete for the foundation should be made mushy wet and filled in the trenches to the ground level.

Set up the forms, and during the erection, in the centre of one of the end walls, place a door frame (2 1/2 by 6 feet clear) within the forms. Brace it well so that the concrete will not bulge it out of shape. Place the concrete in layers 6 to 8 inches thick carried around the entire building. In the concrete walls of each gable end set a frame for ventilating doors (2 1/2 by 2 1/2 feet) in the same way as the large door frame was placed.

As the forms are filled, at intervals of 18 inches, embed bent iron rods or twisted wire in the concrete around the corners of the building. Likewise put two 3-inch rods or an old wagon tire in the concrete 1 1/2 inches above the door opening. When the side and end walls have reached their full height, and while the concrete is yet soft, set 3-inch bolts, 8 inches long, heads down, 5 inches in concrete and 12 inches apart. To these bolts will be fastened the 2 by 4 inch posts for the roof.

After the building is a week old, the forms may be removed and the 4-inch concrete floor built directly on the ground. Begin at the back of the building and slope the floor 1/4-inch to the foot in the direction of the drain tile at the door.

After the last few sawdust piles of the 5-inch drain with well-sealed joints, and include a tie known as a "trap," having a bend which always contains water. The water acts as a seal to keep out the warm air in the drain. Cover the floor end of the drain with a trash canister.

Close the door opening next to the tie, with removable sections of boards fitting in slots or grooves and provide a door swinging out. A New Year is here. It is a time for invoice. Business men take an invoice of their stock. Wouldn't it be business for you to take one of your self. Life, each life, is a business. Let the result of the self invoice be a spur to us in living the coming year.

Xmas has come and gone, so has the old year and with it many regrets that we had not done better, but we cannot call them back, as they are lost stars, still now that we are on the verge of another New Year, let us all make a firm resolution to be better men and women and forgive and forget the things of the past that might soil or mar the clean pages in this new book for the coming year, and pay our debts in full.

Mink Cove

Capt. Theriault, of schr. Alice and Jennie, has hauled his vessel up at Little River and is now home with his family.

Mrs. Ernest Mason was a passenger via S. S. Ida Lee from Weymouth on Wednesday, returning from Moncton where she has been since November 1st.

Altho not mentioned in the Chronicle's list of flourishing towns, Mink Cove is still able to sit up and have its bed made and we are all looking forward to a prosperous 1912.

I think the enlarged COURIER a good idea. While the notes from the villages are much appreciated by the absentees, (and there are very few families in Digby county that has not one member across the border) the 'stay at home' like to read some outside news in their weekly paper.

The Christmas tree for the Mink Cove Sabbath school held in the school house, passed off very pleasantly. The tree was screened from view until the children had all arrived and on the screen being dropped old Santa was discovered packing up and made good his escape through the door before the surprised ones could catch him. But he left a small token for each one which showed that Mink Cove is on his list all right.

Mr. and Mrs. Grenier returned from St. John on Tuesday, where they had been spending the holidays.

Rev. Canon Vroom and Mrs. Vroom, who have been visiting at Beachwood, returned to Windsor on Wednesday.

St. Peter's church is looking pretty in its festive garb of evergreen and spruce. The services on Xmas day were hearty and impressive. The rector was assisted by Rev. Canon Vroom. The choir rendered good music.

Ask for Minari's and take no other.

Steamer Prince Albert, of the D. A. B., completed her year's service on the Wolfville-Parrsboro route on Saturday last, and will go into winter quarters in Yarmouth. She will be fitted with a new and up-to-date boiler and extensive repairs made to her engines by the New Bedford-Johnson Iron Co.

On account of a disarrangement of the electric wires on board steamer Yarmouth, on her Friday morning's trip from St. John to Digby, the work of the John S. Digby, the schooner of the ladies' saloon caught on fire and caused a little excitement. The flames were quickly put out by the officers and crew. The trip was a very rough one, but Capt. Potter brought the Yarmouth across only a little behind schedule time.

Friday's Yarmouth Times: The weather in Yarmouth for the past two days has been very rough and boisterous. A terrific gale of wind has raged since early Thursday morning which has done considerable damage to telephone and electric wires. This morning a large tree between the Murphy and Jenkins property on Cliff street was broken off just above the ground. The day shore from Digby Neck to Chelogue Point is strewn with fragments of thousands of lobster traps which will mean a severe loss to the lobster fishermen, probably amounting to thousands of dollars and will mean in some cases the profits of the whole season's work to ruin.

An ocean race in which much interest centered, and over which bets from \$1 to \$1,000 were staked, took place between the steamer Bermudian, of the Quebec S. S. Co., and the Oceana, of the Bermuda Atlantic S. S. Co., from New York to Bermuda. They sailed from New York on Saturday last, an hour apart, the Oceana leading. The latter was compelled to drop out of the race early the next morning through a slight mishap to her port engine. She was only a few miles away from the Bermudian when the mishap occurred. Several hours were lost before she was able to proceed. The Bermudian overhauled the Oceana a few miles outside Sandy Hook and the vessels steamed side by side all Saturday night. Wagers between the two vessels' passengers were made from vessel to vessel by wireless.

MEANING OF THE CROSS

This cross (in red) has been adopted in Canada and all over America as the emblem under which the Crusade against Consumption is carried on.

Every reader knows of the ravages of this disease; how, too often, the bread-winner of the family falls a victim, or the young man or young woman, with a promise of a happy and useful life, is stricken down.

This modern Crusade, like the one of old, is a winning fight. The death rate from Consumption in this province shows a decrease of over 25 % in the past few years.

Nearly 6000 of these poor sufferers have been cared for in our Consumptive Homes in Muskoka and near Weston. To-day we have 300 patients under treatment—patients who, if they had the money, could not through fear of contagion gain admittance into other hospitals.

In the Muskoka Free Hospital alone we are now caring for 156 patients. 128 of these cannot pay a single cent for the cost of their maintenance, 15 pay 70c. per day, 1 pays 57c. per day, 12 pay 50c. or less per day.

Our Trustees, having faith in the generous-hearted people of Canada, have continued to carry on this work during the past year.

Money to pay doctors, food, nursing and caring of these sick ones, is urgently needed. Will your readers help and have the joy of sharing in a work that has the promise of the Master's reward?

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if it were confined to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as with-out fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

Bridgetown Wedding.

We copy the following from the *Monitor*: The quietness of our community was aroused on Wednesday, the 20th inst., by the sound of wedding bells, pealing forth their message that another couple were to be made happy, the couple forming the alliance being Frederick F. Johnston, formerly of Stewiacke, Col. N. S., and Miss Clara Idella Ramsey, of Central Clarence, daughter of the late Arthur and Emma Ramsey. The wedding took place at Paradise at the residence of the officiating clergyman, Rev. Calvin Goodspeed, D. D., on the afternoon of the above date, the double ring service being used. The happy couple were supported by Mr. and Mrs. Wm. C. Creelman. The bride was very prettily gowned in a brown suit with hat to match. A reception was held at their home in the evening from eight to twelve o'clock. The bride has been one of our most successful teachers for the past fifteen years, having served in her own county and also in Digby County. Mr. and Mrs. Johnston will be at home to their friends on Wednesday afternoon and evening, and Thursday afternoon, Jan. 3rd, and 4th.

John Perrett of Belle Fourche, S. D., a prospector, stepped into a newspaper office in that city last week and paid his subscription in gold dust. Gold dust has not been used as a medium of exchange in that city for more than 25 years. Perrett is a pioneer placer miner of that region and still works a claim.

Are Microbes in Your Scalp?

IT HAS BEEN PROVED THAT MICROBES CAUSE BALDNESS.

Professor Unna of Hamburg, Germany, and Dr. Sabouraud, the leading French dermatologist, discovered that a microbe causes baldness. Their theory has time and again been amply verified through research experiments carried on under the observation of eminent scientists. This microbe lodges in the Sebium, which is the natural hair oil, and when permitted to flourish it destroys the hair follicles and in time the pores entirely close, and the scalp gradually takes on a shiny appearance. When this happens there is no hope of the growth of hair being revived.

We have a remedy which will, we honestly believe, remove dandruff, exterminate the microbe, promote good circulation in the scalp and around the hair roots, tighten and revitalize the hair roots, and overcome baldness, so long as there is any life left in the hair roots.

We back up this statement with our own personal guarantee that this remedy called Rexall 93 Hair Tonic will be supplied free of all cost to the user if it fails to do as we state.

It will frequently help to restore gray and faded hair to its original color, providing loss of color has been caused by disease; yet it is in no sense a dye. Rexall 93 Hair Tonic accomplishes these results by aiding in making every hair root, follicle, and pigment gland strong and active, and by stimulating a natural flow of coloring pigment throughout the hair cells.

We exact no obligations or promises—we simply ask you to give Rexall 93 Hair Tonic a thorough trial and if not satisfied tell us and we will refund the money you paid us for it. Two sizes, prices 50 cents and \$1.00. Remember, you can obtain it in Digby only at our store—The Rexall Store, P. W. Holdsworth, Digby; Ryan & Blackadar, Weymouth.

THE OPTIMISM OF THE CONSUMPTIVE

Perhaps there is no disease, whilst often fatal in its outcome, is yet viewed with so much optimism by the patients themselves. It is well that it is so, for all know to what extent one's own feelings, whether cheery or the opposite, influence both mental and physical conditions. "I was certainly impressed with this thought," remarked a newspaper reporter, "in interviewing a patient of the Mankato Free Hospital for Consumptives. She was a pretty girl of 24, brown hair and dark gray eyes, who had come all the way from Saskatchewan. She said she felt pretty sick when she first arrived at the Hospital, and for two days the nurses had to personally feed her. 'I have been in bed all the time,' she said. 'I have been well cared for while I have been here. I am sure I am going to get well, and feel better now than before I took sick. Everybody seems so happy and bright, and tells me when I get up I am sure to like it. Everything is done to please me and make me happy.' One may well wish that so bright a patient should soon be restored to health.

DIGBY WEEKLY COURIER

Digby, Jan. 12, 1912

Sudden Death in Plympton.

MR. JOSHUA C. POTTER PASSED AWAY MONDAY NOON.

A sudden death which cast a gloom over Plympton and all the villages along St. Mary's Bay occurred last Monday noon when Mr. Joshua C. Potter suddenly expired while eating his dinner at his home in Plympton. The deceased had not been feeling extra well for some time but continued his work in the blacksmith shop and around his property as usual up to the time of his death. He was well known in his native village and had a host of friends. He was a son of the late Amos Potter and leaves besides his wife, Mrs. W. E. Black, of Malden, Mass., three children, a son, Joseph, of Plympton; Miss Lottie, also of Plympton; and Mrs. Fanny Burton, of Yarmouth.

The funeral took place from his late home at 10 o'clock yesterday morning with interment in the Barton cemetery. The services were conducted by Rev. D. W. Dixon, pastor of the Hill Grove and St. Mary's Bay Baptist churches.

The COURIER extends its deepest sympathy to the large circle of bereaved ones. His sudden death was due to heart trouble.

Accident at North Range.

EX WARDEN S. R. WESTCOTT, ESQ. SERIOUSLY INJURED.

As S. R. Westcott, Esq., of Brighton, was leaving the yard of Mr. Leonard McNeill, North Range, on Wednesday night of last week, he struck a wire clothes line which he was driving under, breaking his jaw, knocking out several teeth, badly cutting his face and causing other serious injuries. He was taken to his home at Brighton where Dr. Harris is carefully attending him and we are pleased to state that last reports are very favorable towards his recovery. Mr. Westcott had gone to North Range to call on Mr. Wm. McNeill who was ill. His many friends learned of the accident with much regret for few residents of Digby county are as well known as favorably known as Mr. Westcott, who for many years has been a member of the Barton Baptist church, has always taken a deep interest in the Brighton school and everything else that is for the good of the community in which he resided and for the country at large, and his friends hope that he will soon be able to again take up his regular duties as he is much missed both in private and public affairs.

Death of Mrs. S. D. Munro.

Mrs. Mary Lavenia, wife of Mr. S. D. Munro, passed away at the home of her son, Mr. John Welsh, Montague street, Tuesday evening at 7:30, aged 71 years and six months. She had not enjoyed extra good health for the past few years, but had only been seriously ill for eleven days. The deceased was a member of the Digby Baptist church and highly respected by all who had the pleasure of her acquaintance. She is survived by her husband who has the deepest sympathy from a large circle of friends, but leaves no family. Her other near relatives are one son, Mr. John Welsh, who has resided for several years, and one brother, Mr. Dimmock Goucher, of Melvern Square. The funeral takes place this afternoon at 2:30 with interment in the Digby Baptist cemetery, the services being conducted by Rev. Thos. S. Roy, pastor of the Digby Baptist church.

Provincial Exhibition.

At the annual meeting of the Cape Breton Farmers' Association, held at Sydney on Tuesday, considerable discussion was held in regard to the annual Provincial Exhibition at Halifax, and it appeared to be the consensus of opinion among the Cape Breton farmers that some of the other centres of the Province should be given an opportunity to hold the Provincial Exhibition next year, in view of the fact of the large yearly deficit in the holding of the exhibition in Halifax. R. M. Jackson moved a resolution on the lines suggested. G. M. Andrews moved that the meeting express itself in favor of the Provincial Exhibition being held every alternate year in Yarmouth, Truro, Halifax and Sydney. The resolution passed unanimously.

Rev. Osgood Morse Remembered.

The Maritime Baptist says: Rev. R. Osgood Morse, pastor of Summerside and Bedouque P. E. I., and his family were kindly remembered by the people of his charge at Christmas time. Mr. Morse was the recipient of a beautiful and valuable gift, the gift of the members of the Free-town section of the Bedouque church.

Friends in Summerside, Bedouque and Free-town further remembered the pastor and members of his family with suitable gifts at the Christmas time. A very pleasant remembrance received by Mr. Morse was a beautiful silver cane, silver mounted, the gift of Juanita Lodge, L. O. O. F., of Westport, (N. S.), where he was formerly pastor. The cane is suitably inscribed with the emblem of the order, the three links.

THE BIG STORM.

Government Wharf Destroyed at Trout Cove—A Big Loss to the Fishermen.

WRECKAGE A MENACE TO NAVIGATION.—DIGBY FISHING FLEET SEEK SHELTER IN YARMOUTH WITH THE EXCEPTION OF SHRR. DOROTHY M. SMART—NO BOAT ACROSS THE BAY TUESDAY.

Saturday's northeast gale, accompanied by the highest tide of the season, did considerable damage along the Bay of Fundy shore. At Trout Cove (Centreville) the government wharf was washed away, the drift logs now being very dangerous for the navigation of the motor fishing boats and small craft which ply along the coast at this season of the year. The loss of the breakwater will be keenly felt by the fishermen in that locality. Centreville contains the big wholesale fishing plant of A. Boutillier & Co., and supports one of the largest fleets of fishing boats along the coast.

At Triveton, on the west side of Petite Passage, a portion of Wesley Outhouse's wharf was destroyed, and the high tides damaged the principal street along the water front and strewn debris along the front of the residences on the opposite side of the street.

The same thing occurred at Westport, on the west side of Grand Passage, but no serious damage is reported from that town.

Fortunately there were no vessels anchored off Digby. The high tides floated many of the pleasure yachts hauled into winter quarters and washed them around considerably, but caused no serious damage.

One of the worst southeast gales of the season, accompanied by snow and afterwards rain, commenced here early Tuesday morning and continued until noon, after which the wind went northeast, accompanied by more snow and then northwest and in fact has been blowing a gale ever since.

The steamer Yarmouth, Captain Potter, did not leave St. John for Digby Tuesday, missing the first daily trip across the bay for several years. Owing to the heavy snow drifts on Digby Neck mails arrived or departed Tuesday and the tremendous seas which prevailed on Grand and Petite Passages, cut off communication between Brier and Long Islands and the mainland.

The steamer Westport, Captain J. Coggins, from Yarmouth for Westport, spent Monday night at Sandy Cove, breaking down the ice and sought shelter in the lee of the French shore on the east side of St. Mary's Bay. Here she parted her chains and lost anchors and was obliged to run to Triveton.

At Little River the big smokestack of the lumber mill of the (the) factory. Fortunately nobody was injured. At Mink Cove a lobster fisherman lost \$30 worth of lobsters and elsewhere along the shore hundreds of dollars worth of lobster traps and other property belonging to fishermen were destroyed.

No shipping was anchored off Digby. All the Digby fishing fleet not in their home port are in Yarmouth, with the exception of the Dorothy M. Smart.

Captain H. Ross, which may have sought shelter west of Cape Sable, but nothing has been learned of whereabouts and it is now thought she was blown off shore.

Trees were blown down in various parts of the town and county.

Wednesday the S. S. Yarmouth, under her skiff commander, Capt. Potter, arrived in Digby on time notwithstanding the tremendous sea which prevailed in the Bay, the worst seen for at least fifty years.

S. S. Boston, Capt. Simms, arrived in Yarmouth from Boston at 8:30 Wednesday morning after another rough trip.

Yesterday the S. S. Yarmouth again arrived on time, the trip being a rough one but not as bad as Wednesday's. This has been the worst week of weather on the Nova Scotia coast for many years and a lot of damage has been caused to shipping and property along the coast wherever the sea could get a chance to wash things away. No lives have been reported lost, owing probably to the fact that the extremely low glass gave ample warning to seek shelter wherever it was possible to do so.

The S. S. Calvin Austin, of the Eastern S. S. Co., harbored 17 hours in Portland, Me., from Boston for St. John.

At Annapolis the bark Calburga, Capt. McKenzie, which was anchored in the stream partially loaded with lumber for South America, was driven ashore on the east side of the river and is still aground although apparently not damaged.

Death of Mrs. Susan Donkin.

AMHERST, Jan. 4.—The death of Mrs. Susan M. Donkin, relict of the late Charles G. Donkin, occurred here yesterday afternoon. The deceased, who was in the 82nd year of her age, was one of the oldest residents. She was the daughter of the late Mr. and Mrs. Stephen Fuller, of Horton, Kings County, and came to Amherst 61 years ago, living continuously in the same home during all that period, until advancing age led her to reside with her daughter, at whose home the death occurred. She became a member of the Methodist church over 60 years ago, and her piety and good works were recognized by all. She is survived by three sons, Rev. J. E. Donkin, pastor of the Methodist church at Amherst; W. F. Donkin, formerly of Halifax and now Town Clerk of Amherst; Clinton D. Donkin, and one daughter Miss Mary Donkin, both of Amherst.

The Perry Plays.

On Friday evening last G. Herbert Perry's company, with Dan Malloy and Hazel Corrine in the leading parts, played "The Princess of Patchen" at the Bijou Dream and on Saturday evening the same company put on "Anita the Singing Girl." The entire company is good and Mr. Malloy and Miss Corrine are certainly stars. Mr. Perry has always put on good shows when in Digby but those given this time were even above his average. The audiences both evenings were large, the biggest since H. Price Webber was here with his company.

He expects to open his next season on St. Patrick's Day, March 17. He is accompanied by Mrs. Webber (Edwina Grey), who during the season just closed received flattering press notices for her artistic performances. They have a host of friends in Digby who are always pleased to welcome their return.

Fehr Mercedes Had Rough Trip.

(Special to the Courier.) BOSTON, Jan. 8.—Storm beaten and with her decks and rigging covered with ice, the British schooner Mercedes, Capt. Burrell, reached the harbor today. The vessel came from Clementsport, N. S., and on the passage down she ran into the worst storm her crew had ever experienced. On the night of Dec. 22 a few hours after leaving Clementsport, she was in the grasp of a terrific southerly gale. The seas broke the decks, carried away the bulwarks and did other damage. Toward the craft from further disaster, Capt. Burrell bore up for Machias, where she remained until the gale subsided. Subsequent gales compelled the schooner to make harbor at Deer Isle, Boothbay and Portland.

The schooner's cargo is consigned to a Cambridge concern, but on account of the ice in the Charles River locks she was unable to go to her discharging berth until a channel had opened.

Hick's Prophecy Became True.

Friday's Yarmouth Telephone says: Five of our citizens who were awake at 12:15 this morning were startled by two very perceptible shocks of earthquake, which occurred within a few seconds of each other. Houses trembled and dishes rattled, and a sound resembling a heavy laden team passing over frozen ground accompanied them.

Chicago was visited with two earthquake tremors on Tuesday morning. It extended over Iowa, Wisconsin and Indiana. One shock followed the other three minutes later. Buildings trembled, dishes rattled, and other disorders were reported.

In connection with the quakes it is worthy of notice that I. R. Hicks, the well-known weather prophet, wrote over a year ago: "A seismic period, covering 6 to 7 days is central on the 4th January, 1912."

A Narrow Escape.

Fire broke out of the old fashioned fire place in Mr. Buford Dakin's room in his home, Mountain View Farm, Digby, about 8:30 Wednesday night, and only for the greatest presence of mind and quickness of the old gentleman, who is 87 years of age, the whole property would have been destroyed. He gave the alarm to his son and family who reside in another portion of the house, who immediately came to his assistance.

The mantle and a box of wood were destroyed and more or less of the furnishings in the room badly damaged. There is no insurance. A gale of wind prevailed at the time and the property being saved under the circumstances is almost a miracle.

Death of Mrs. Romans.

The death occurred at her residence, Dartmouth, Wednesday morning, of Mrs. Mary Romans, wife of Henry Romans, aged 72 years. She is survived by her husband and two sons, one of the latter being Mr. W. M. Romans, manager of the Royal Bank of Canada at Bear River.

RICHESON CONFESSES.

Sentenced to Death May 19th.

Ex-Pastor Breaks Down Under Strain and Tells World He Committed Double Murder.

HANDS WRITTEN STATEMENT OF GUILT TO HIS ATTORNEYS—PELLETIER WILL NOT LISTEN TO APPEAL FOR LENIENCY—AGONY OF GUILTY CONSCIENCE FORCED CONFESSION.

BOSTON, JAN. 9.—Invoking the aid of the God whose cloth he had worn and desecrated, Rev. Dr. Clarence Virgil Thompson Richeson, ex-pastor of the Immanuel Baptist church, has confessed that he murdered pretty little Avis Linnell and her unborn babe.

With a mind breaking under the strain of the nightmare that filled his waking time and made horrible his sleeping hours, Richeson confessed yesterday to his lawyers, handing them a written statement admitting his guilt. Through the long hours of the night his lawyers pleaded with the District Attorney Pelletier for leniency for the minister of God who had broken the commandment: "Thou shalt not kill."

Pelletier was obdurate. He held out for the chair—the grim instrument of death in which the murderers of this day atone for such crimes against the state.

Without the slightest hope of the confession saving his life Richeson's lawyers made public today the ex-pastor's story of murder and lust. It reads as follows:

To John Lee, Esq., Wm. A. Morse, Esq. and Philip E. Dunbar, Esq.:

Gentlemen: Deeply penitent for my sin and earnestly desiring, as far as in my power lies, to make amends, I hereby confess that I am guilty of the offense of which I stand accused. I am moved to this course by no influence of self-interest or of any other kind, but by the knowledge that I have done wrong and am now a sinner. I have no excuse to offer, and I am not seeking to excuse myself. I am only seeking to tell the truth as I see it, and to ask for the punishment which I deserve.

Under the influence of remorse I have suffered and am suffering the tortures of the damned. In this I find no solace or comfort. In my mental anguish I have often thought of the mercy of the Master, some remnants of the Divine spark of goodness lingering within me.

I would wish to live only because within some person's well I might in some small measure redeem my sinful past by some other-dearing soul, and at last find favor with my God.

You are instructed to deliver this to the District Attorney or to the judge of the court.

Sincerely yours,

CLARENCE V. T. RICHESON.

ON VERGE OF COLLAPSE.

Since he murdered himself with a piece of jagged tin in the Charles street jail a few days before Christmas, Richeson has been on the verge of a nervous and mental collapse.

Yesterday he sent for Attorney John Lee and Wm. A. Morse, his counselors. They spent several hours in the cell of the wounded minister. To them he told the story of his intimacy with Avis Linnell, of the discovery that she soon was to become a mother, of the fear that he would be obliged to take care of her, of his purchase of a deadly cyanide of potassium, of his meeting with the girl on the Saturday of her death, of giving her the deadly drug under the guise of medicine, of seeing her start away to her room to take what she believed to be "medicine" but which in a few brief moments was to take away her life and that of their unborn child.

Richeson spared himself nothing; he crucified himself upon the cross of his conscience. The lawyers sat and listened, loathing the monster before them, yet realizing that their oaths as lawyers made it imperative that they should try and save his pitiful life.

From the cell of the delirious of the cloth they went hurriedly to the office of District Attorney Pelletier. From noon yesterday until 6 o'clock last night they pleaded with him for leniency for the double murder. Pelletier was as adamant as the granite in the walls around them and insisted on justice being done.

WOMEN IN THE CASE.

Following are some of the women whose names have been foremost in the case:

Avis Linnell, eighteen years old, born and reared in Hyannis. Educated in public schools. Attended Baptist church and was a member of the church choir. Was engaged to the Rev. Clarence V. T. Richeson and was making her wedding trousseau when she read of the clergyman's forthcoming marriage to another woman. Her death was caused from cyanide of potassium poisoning.

Miss Violet Edmonds. Lives at Devon street, Chestnut Hill, Brookline. A graduate of Vassar College. Heiress in her own right. Was to have been

married to the Rev. C. V. T. Richeson on Oct. 31st.

Mrs. M. Grant Edmonds, mother of Violet Edmonds, fiancée of Richeson. Her wealth and that of her husband were to have been poured out in Richeson's defence. It was in the Edmonds home that Richeson was placed under arrest.

Mrs. Edgar Linnell, mother of the victim of the tragic murder. Saw Richeson and Avis Linnell a few days before poisoning. She was to have been an important government witness.

Mrs. Frank H. Carter. Lives at No. 147 Magazine street, Cambridge, where Richeson boarded. She declared Richeson borrowed from her a bowl in which he made a paste, using cyanide of potassium as one of the ingredients.

Mrs. John F. Danahy. Lives at No. 144 Magazine street, Cambridge. She declares that Richeson phoned from her house on Thursday, Oct. 12, h, presumably to Avis Linnell, saying: "Well I'll see you Saturday afternoon. It seems a long time until Saturday."

Miss Lucie H. Ince, friend of Avis Linnell. Lived with her at Y. W. C. A. Notified Pastor Richeson of Linnell girl's death by telephone. She declares that Richeson asked her: "Did she say anything before she died?"

Mrs. William McClellan, sister of Miss Linnell, and in close confidential relations with her. I was her husband that first suspected that a crime had been committed and stirred the police to action.

COUNSEL ASKS FOR CLEMENCY.

BOSTON, Mass., Jan. 8.—The desire of Clarence V. Richeson to have the degree of his punishment for the murder of his sweetheart, Miss Avis Linnell, fixed by the Governor and Council, rather than by a Court and Jury will find its first legal expression late this afternoon, when the young Virginian will ask the Suffolk County Superior Criminal Court to accept his plea of guilty as charged in the indictment.

While Judge Sanderson has the option of accepting the plea and pronouncing the death sentence at once or holding it in abeyance until satisfied of Richeson's mental condition, it is the Governor's desire that Richeson's counsel will ask that the life of the clergyman be saved. The legal proceedings today began with an order from District Attorney Pelletier to bring Sheriff Kelly for the transfer of Richeson from the Charles St. Jail to a Detention Room in the Court House. Arrangements were made to hold the trial in one of the new court rooms where he will be taken to hear the judgment of the Court on his confession.

SENTENCED TO DEATH.

BOSTON, Jan. 9. With the appearance of a man who had abandoned all hope of life, Rev. Clarence V. T. Richeson stood to-day at the bar of justice, declared his guilt of the premeditated murder of his former sweetheart, Avis Linnell, and heard without a tremor of Judge Sanderson that he was condemned him to death in the electric chair on the week beginning May 19.

To half a dozen questions which Judge Sanderson put to Richeson to-day, as to whether he realized the full nature and effect of his acknowledgment of guilt, whether his confession was voluntary and made after consultation with counsel, whether sentence of death should be pronounced with no word from him against it, the full figure answered without the slightest emotion, always in the affirmative.

Annual Meeting.

THE SMITH'S COVE BAPTIST CHURCH CLOSES A SUCCESSFUL YEAR.

The Baptist church of Smith's Cove held its annual meeting in the vestry on Monday evening, Jan. 8, 1912, with a good attendance. The report of the treasurer was very gratifying, as it showed every bill paid and a small balance in the treasury. This church has been without a pastor since early in the fall when Rev. Henry Carter, after a prostrate of five months, resigned the charge. Notwithstanding this, the most of its services have been regularly kept up, and a good interest shown. The Sunday school has had a record year under the faithful leadership of Sup't. Simon J. Sully. The sewing circle has also done a good work during the year, having cushioned the entire auditorium of the church, and also has a sum of money on hand toward the repainting of the church, which they plan to do during the coming spring. The President of this society is Mrs. A. H. Wain. The Band has also been well sustained during the year, and is planning for aggressive work during the coming year, under the leadership of its new Pres., Mrs. J. Stanley Weir. This church is hoping to elect a pastor early in the coming spring. The officers elected at the annual meeting are: Trustee for three years, Jonas W. Rice. On board of Deacons, for three years, Simon J. Sully and Spurgeon Weir, Church clerk, H. A. Weir; Treasurer, John L. Sully; Auditors, Spurgeon Weir and W. B. Snow; chorists, Edward Wain and Finance Com., H. A. Sully, Fred S. Smith, Mrs. H. H. Sully, W. B. Snow and Truman Weir; Missionary Com., Mrs. J. L. Cornwell, Miss Ida Bryant, Mrs. Leah Sully and Miss Nellie Sully; Sup't. Sunday School, Simon J. Sully; Assist. Sup't. Spurgeon Weir; and Treas., A. H. Weir; Librarian, H. A. Sully.

Sounds Profane

Basano, a little town near Leth bridge, situated by a large irrigation dam, has formally adopted this slogan as its battle cry: "Basano, the Best in the West, by a Dam site." Besides this, "more power than Niagara" fades into insignificance.

"Success" Not a Success.

The Success magazine publisher has gone into liquidation, with assets at \$10,000 and liabilities not stated. The officers of the company saw that the end was approaching and decided to make the December number the last.

Their Appreciation

The parents of the children at Weymouth Falls wish to tender Mr. G. D. Campbell a vote of thanks for his Xmas remembrance which they all enjoyed. They join in wishing him a happy New Year and a prosperous one.

Dominion Experimental Farms.

A FREE DISTRIBUTION OF SEED, GRAIN AND POTATOES.

By instructions of the Hon. Minister of Agriculture a distribution will be made during the coming winter and spring of samples of seed of grain and potatoes to Canadian farmers. The samples for general distribution will consist of spring wheat (5 lbs.), white oats (4 lbs.), barley (5 lbs.), and field peas (3 lbs.). These will be sent out from Ottawa. A distribution of potatoes (in 3 lb. samples) will be carried out from several of the experimental farms, the Central Farm at Ottawa supplying only the provinces of Ontario and Quebec. All samples will be sent free, by mail.

Applicants should give particulars in regard to the soil on their farms, and should also state what varieties they have already tested and in what way these have been found unsatisfactory, so that a promising sort for their conditions may be sent.

Each application must be separate and must be signed by the applicant. Only one sample can be sent of each variety. Applications on any kind of printed or written form cannot be accepted.

As the supply of seed is limited, farmers are advised to apply early to avoid possible disappointment. No applications can be accepted after Feb. 1st.

All applications for grain (and applications for potatoes) should be addressed to the Dominion Cerealists, Central Experimental Farm, Ottawa. Such applications require no postage.

Applications for potatoes, from farmers in any other province should be addressed (postage prepaid) to the Superintendent of the nearest Branch Experimental Farm in that province.

J. H. GRISDALE, Director, Dominion Experimental Farms.

Huge Sea Swept Steamer Boston.

TWO OF THE STARB-ARD LIFEBOATS WERE CARRIED AWAY ON TRIP TO YARMOUTH.

YARMOUTH, N. S., Jan. 8.—The D. A. R. steamer Boston, Captain Simms, from Boston, arrived here at 11.45 this morning nearly five hours late, and with two of her lifeboats gone.

Her officers report the trip the worst of the season, and were forced to run on greatly reduced speed most of the way over. The steamer struck the storm at about ten o'clock last night, the worst period being about midnight. At about quarter past twelve a heavy sea from port swept completely across the ship and carried away two of the starboard bow. The Boston brought about two hundred passengers who were very sick on the passage.

The D. A. R. express train did not wait for the steamer but left shortly after schedule time. A special conveying the passengers and mail from the steamer, left after her arrival. The D. A. R. train was held until the passengers were landed. After taking on two new lifeboats and a large freight, the Boston sailed for Boston this evening at about seven o'clock. The tide was exceptionally high at noon, several of the wharves being all but submerged.

DON'T LET THAT COUGH ROB YOU OF SLEEP

You probably know all too well how it goes. Just as you doze off, the tickling starts in your throat. A gentle cough, still asleep. A harder cough, and then another. First thing you know, you're wide awake, coughing your head off.

A few nights of that and you're so worn out and weakened that the cough takes a tight grip on you.

But why endure it?

Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne will soothe that exasperating tickling, loosen the phlegm and cure the inflammation of the mucous membrane. It not only stops the cough quickly, allowing you to get sound, refreshing sleep, but it goes to the root of the trouble and drives out the cold completely. Children willingly take Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne, because it tastes so good. Your Druggist has it or can quickly get it for you in 25c. and 50c. bottles. The National Drug & Chemical Co. of Canada, Limited.

The Rexall Brace may be worn by either sex and we have them in all sizes suitable for the child of four years or the adult weighing three hundred pounds. Your chest measurement is all that is necessary to properly fit you.

LISTEN TO US

"We are only little ones, but we know Zam-Buk eased our pain and cured our sores. Perhaps it would cure you, too, if you tried it?"

Isn't this sound advice from "babes and sucklings"? Take it! The speakers are the children of Mrs. E. Webster, of Selwyns St., Montreal, and the mother adds weight to their appeal. She says: "My little girl contracted scald disease at school. Bad gatherings formed all over her head, and not only caused the child acute pain but made her very ill. The sores discharged, and occurring on the scalp we feared she would lose all her hair. She was in a pitiable plight when we tried Zam-Buk, but a few days' treatment with this balm gave her ease. Then the sores began to heal, and we continued the Zam-Buk treatment. In a short time she was quite healed."

"My little boy sustained a serious scald on the neck. It set up a bad sore, and quite a few things we tried, failed to heal it or give him ease. Once more we turned to Zam-Buk, and we were not disappointed. It acted like a charm in drawing away the pain, and soon healed the wound."

Zam-Buk is "something different" in the way of balm. It contains powerful healing ingredients, which, as soon as applied to skin diseases, kill off the germs and end the painful smarting. Other ointments contained in Zam-Buk so stimulate the cells that new skin tissue is speedily formed. Eczema, itch, ulcers, cold sores, abscesses, festering sores, blood poisoning, chertic wounds, cold burns, etc., are healed and cured in the way. Use it for all skin diseases and diseases. It is also of great service for piles. All drug stores and stores at 50 cents box, or Zam-Buk Co., Toronto.

Misery of the Millions That Are Always Hungry.

GRIM STRUGGLES FOR FOOD.

Horses, Donkeys, Mules and Camels When No Longer Fit For Work Are Turned Into Butcher's Meat—The Gleaners on the Sugar Wharfs.

Writing of the millions and millions of inland China, whose lives are spent face to face with starvation, Edward Aisworth Ross in the Century says: "No natural resource is too trifling to be turned to account by the teeming population. The sea is raked and strained for edible plunder. Seaweed and kelp have a place in the larder. Great quantities of shellfish no bigger than one's finger nail are opened and made to yield a food that finds its way far inland. The fungus that springs up in the grass after a rain is eaten. Fried sweet potato vines furnish the poor man's sole. The roadside ditches are baited out for the sake of fishes no longer than one's finger. Great quantities of strawberries, half of them still green, are collected in the mountain ravines and offered in the markets. No weed or stalk escapes the bamboo rake of the autumnal fuel gatherer. The grass tufts on the rough slopes are dug up by the roots. The sickle reaps the grain close to the ground, for straw and chaff are needed to burn under the rice kettle. The leaves of the trees are a crop to be carefully gathered. One never sees a rotting stump or a mossy log. Bundles of brush heat the brick kiln and the potter's furnace. After the last trees have been taken the far and forbidding heights are scaled by ladders with ax and mattock to cut down or dig up the seedlings that if left alone would reclothe the devastated ridges."

"The cuisine of China is one of the great toothsome cuisines of the world, but for the common people the stomach and not the palate decides what shall be food. The silkworms are eaten after the cocoon has been unwound from them. After their work is done horses, donkeys, mules and camels become butcher's meat. The cow or pig that has died a natural death is not discarded. In Canton dressed rats and cats are exposed for sale. Scenting a possible opening for a tannery, the governor of Hongkong once set on foot an inquiry as to what became of the skins of the innumerable pigs slaughtered in the colony. He learned that they were all made up as 'marine delicacy' and sold among the Chinese."

"Another time he was on the point of ordering the extermination of the mangy curs that infest the villages in the Kowloon district because they harassed the Sikh policemen in the performance of their duties. He found just in time that such an act would 'interfere with the food of the people,' something a British colonial governor must never do."

"Though the farmer thrifflily combs his harvest field, every foot of the short stubble is gone over again by poor women and children, who are content if in a day's gleanings they can gather a handful of wheat heads to keep them alive on the morrow. On the Hongkong water front the path of the coolies carrying produce between warehouse and junk is lined with tattered women, most of them with a baby on the back. Where bags of beans or rice are in transit a dozen wait with basket and brush to sweep up the grains dropped from the sacks. On a wharf where crude sugar is being repacked squat sixty women scraping the inside of the discarded sacks, while others run by the bearer, if his sack leaks a little, to catch the particles as they fall. When sugar is being unloaded a mob of gleaners swarm upon the lighter the moment the last sack leaves and eagerly scrape from the gangplank and the deck the sugar mixed with dirt that for two hours has been trampled into a muck by the bare feet of two-score coolies trotting back and forth across a dusty road."

"There are a number of miscellaneous facts that hint how close the masses live to the edge of subsistence. The brass cash, the most popular coin in China, is worth the twentieth of a cent; but, as this has been found too valuable to meet all the needs of the people, oblong bits of bamboo circulate in some provinces at the value of half a cash."

"Incredibly small are the portions prepared for sale by the huckster. Two cubic inches of bean curd, four walnuts, five peanuts, fifteen roasted beans, twenty melon seeds, make a portion. The melon vendor's stand is decked out with wedges of insipid melon the size of two fingers. The householder leaves the butcher's stall with a morsel of pork, the pluck of a fowl and a strip of fish as big as a grasshopper. Careful observers say that four-fifths of the conversation among common Chinese relates to food."

"Comfort is scarce as well as food. The city coolie sleeps on a plank in an airless kennel in a filthy lane with a block for a pillow and a quilt for a cover. When in a south China hospital the beds were provided with springs and mattresses, supplied by a philanthropic American, all the patients were found next morning sleeping on the floor. After being used to a board covered with a mat they could not get their proper slumber on a soft bed."

THE WORLD'S WORK DEPENDS ON THE WORLD'S DIGESTION

From the captain of industry to the hotel carrier—from millady in the auto to the woman with the scrubbing brush—the accomplishments of every one of us depend absolutely on the accomplishments of our stomachs. Backed by a good digestion, a man can give the best that is in him. When his stomach fails, he becomes a weakling.

To this loss of power no one need submit. Right habits of eating, drinking, sleeping and exercise, aided by Na-Dru-Co Dyspepsia Tablets, will restore and maintain the full efficiency of the human mind and body.

Na-Dru-Co Dyspepsia Tablets contain the active principles needed for the digestion of every kind of food. They go to the assistance of the weakened stomach, and enable the sufferer, right from the start, to assimilate and get the benefit of the food eaten. With this assistance, the digestive organs regain their tone, and soon the use of the tablets is no longer necessary.

If your stomach is not working properly, try Na-Dru-Co Dyspepsia Tablets. 50c. at your druggist's. National Drug and Chemical Co. of Canada, Limited, Montreal.

Interesting Items Picked up by Village Correspondents in Digby County and Elsewhere

Little River

Mr. Joseph Denton has a young pullet that lays an egg with two yolks. Mrs. L. Denton is visiting her parents, Mr. and Mrs. Wm. Denton, at their home in Digby.

Mr. Fenwick Holmes, of Centerville, visited Mr. Alonzo Morehouse last week.

The schooner Fred & Norman, Capt. Chaney, got in here just before the storm came on.

Mr. Joseph Tidd and Miss Jennie Gacherie went to Weymouth Thursday, returning same day.

This being observed as the week of prayer, Mr. Martell, has held service every evening this week, with the exception of Saturday.

The holidays have passed and school has again reopened with Miss Lizzie Trask, at this place, as teacher who has during the past term given much satisfaction.

Mr. Bradford Hutchinson, of Bridgeport, and his lady friend Miss Annie Phinney, who have been spending a week or so with his sister, Mrs. C. L. Denton, returned home last week.

This has certainly been one of the worst storms along this side of the bay for about 10 years. The big fur on the Thistle Canning Co., factory blew over and did much damage to the roof and other parts of the building. Mr. Samuel Gidney's building on the end of his wharf turned turtle into the river. Misses Fred Frost and Oscar Trask's dory was completely smashed to pieces and Mr. Oscar Denton's boat had her sails smashed in, besides all the fishermen lost the greater part of their traps. This is quite a misfortune as a number of them had fitted all up new this year.

Mr. and Mrs. Wm. Alfred Frost observed the 50th anniversary of their wedding Dec. 24th, 1911, surrounded by their four children, Mrs. Albert Denton, Messrs. Fred C. Frost, George R. Frost and Mrs. Edwin E. Graham, of Sackville, N. B. 13 grand children and 1 great grandchild, besides about 70 invited guests. The house was pretty thoroughly full for the occasion with evergreen and Christmas bells and the evening was spent in singing old songs. Mr. and Mrs. Frost relating to us some of the customs and styles of long ago. Mrs. Bowman Collins and Mrs. Edwin Graham sang two solos, after which Rev. Mr. Martell, in behalf of their children, presented them with a gold watch and chain and handsome gold brooch and collar pins to match, with their initials on them and date of anniversary. Mr. Frost then responded in a very feeling manner and thanked them for their valuable gifts. Then Rev. E. Graham, their son in law, made an impressive speech. Refreshments were served by their little grand daughter Miss Marjorie Frost and Messrs. Fred and George Frost. They received a number of nice pieces of gold and silver ware, also gold coins, besides many other useful presents, among which were some from friends in Vancouver, B.C., and Salem, Mass. Also a shower of post cards and letters were received from friends far and near, all of which certainly shows the high esteem in which Mr. and Mrs. Frost is held, not only in this community but away from home. Their nephew, Mr. Watson R. Lewis, of Lewistown, N. B., was among the out of town guests. Mr. Frost is a grandson of the late Peter Crandell, the first Baptist minister on Digby Neck.

A Donation to the Methodist church was held at the home of Capt. and Mrs. J. W. Snow on Tuesday evening of last week. A general good time and the sum of \$81.00 was realized.

What might be called 'eleventh hour men' in some localities, are being given precedence in the way of filling the important offices in connection with the growing business of this port following the 'up to date' principle of expecting greater things of the young man. Though the rack has been prepared and the pincers heated for some time past, yet there has been no one actually subjected to the tortures of annihilation, but as per above paragraph, 'Coming events cast their shadows before.'

A social event will take place on the 9th inst., the marriage of Miss Madeline Frountain, daughter of Mr. Alex Frountain, to Mr. Denis LeBlanc, of Ellbrook, Yarmouth Co.

A movement is on foot to obtain a post office here in the very near future. The community is large enough to have a post office in their midst, there being more business transacted here than there is at Mavillette, and a daily mail service has been a long standing need.

Another thing very much needed is a whistling buoy or steam whistle near or round about Cape St. Mary's surf. The number of fishing vessels sailing from Cape St. Mary's is very large and the want of such a buoy or whistle has been needed and promised long ago. We hope the proper authorities will take the matter in hand, our two long standing needs, a post office and a fog signal. Then we are going to install the telephone and our community will not be separated from the rest of the world. We would like also to see the proposed improvements to the lighthouse, which were considered by the late government, carried out.

On Christmas Eve, while Mr. Melvina Deveau was decorating a very handsome Christmas tree in her apartment and doing something which on the spur of the moment she took for Santa Claus, a slipped at the foot of the tree, but on coming sight she saw it was not Santa Claus, but an important percentage of the vicinity.

A very pleasant evening was spent at the home of Mrs. N. Deveau, on New Year's eve. Among those present were: Miss Clara Deveau, Miss Melvina Deveau, Miss Rodina Doucette, Mr. Joseph M. Deveau, Mr. J. A. M. Deveau, Mr. Joseph M. Deveau and Mr. Tom Foley. A very pleasant evening was passed in music, songs and games. Miss Melvina Deveau gave several selections on the organ with violin accompaniment by Mr. Joseph M. Deveau. An excellent collection was served by the Misses Neomise and Louise Deveau. Death of Mr. Freeman Comeau of Cape St. Mary's

(Special to the Courier.)

Mr. Freeman Comeau, beloved son of Mr. Luc Comeau, breathed his last Sunday morning, the 7th inst., at the early age of 23 years. Mr. Comeau had only been sick about ten days, of pneumonia. He was a bright intelligent young man and had many friends and acquaintances.

Faithful to the practice of his religious duties, obedient to his parents, and of an agreeable and cheerful disposition, he died fortified by the Holy Eucharist and all the other consolations by which the Roman Catholic Church surrounds her children in that supreme hour of the transition of mortal life to eternity. The funeral took place at Salmon River on the 9th inst. The members of the Artisan Canadian Franchise, of which society he was a member, marched in procession before the hearse with eulogies and full requies.

Mr. Comeau leaves behind to mourn his absence a father and mother, two brothers and six sisters. To the members of the bereaved family we offer our most heartfelt sympathies, and to him who said 'I am the resurrection and the life' we will offer our prayers for the repose of his soul.

Bad Drowning Accident at Cedar Lake, Digby Co.

(Special to the Courier.)

On New Year's afternoon Fred Thibault, the 15 year old son of Mr. Cyril Thibault, accompanied by his 8 year old brother, went out on the lake for the purpose of skating. The ice not being very thick, about half an hour after they had left the house the news was brought that Fred Thibault was in the lake. Accordingly three or four men in the vicinity went out to the lake and soon discovered that a bad accident had occurred. There was a large hole in the ice and a pole was near as if the boy had tried his utmost to get out. Search was made for the body which was immediately found, at about four feet of water. Artificial breathing was resorted to but every effort proved fruitless, as life was extinct.

The funeral took place on Wednesday the 3rd inst., at Salmon River Roman Catholic Church. His little brother could not tell exactly how the sad event had occurred.

An Exciting Scene.

MIDNIGHT-RESCUE WAS ONLY THE BEGINNING.

St. John Standard.

Shouts of "police, police, stop, stop, help, murder," caused considerable commotion in the neighborhood of York Point shortly before one o'clock this morning. (Odds Allen's) and a number of Digby, was standing about the corner of Union and Smythe streets, when he heard the sounds of fighting in the neighborhood of Starr's wharf. Turning down the street to see what was in the wind, he was much surprised to observe an apparition in underclothes and a white cap streaking along as if all the furies were after him.

The other called stop, and the flying apparition, yelling "police," continued his mad career, and the officer made after him, each yelling his own name, and as they flew up, night caps appeared, and excited women cried to the fleeing figure, "the police are after you."

Officer Shortliffe caught up with the fellow who was yelling for the police at the corner of North and Mill streets.

"Are you a policeman?" exclaimed the fellow, as the officer grabbed him.

On being assured that he was in the hands of the police, the man said he had come for help, as a murder was being done aboard the bark Hector, lying at Starr's wharf. The officer accompanied the frightened man, who happened to be the cook of the bark, and found that there had been a lively scrap in the fore-cabin, one chap being down and out.

It appeared that two men, Timothy Burke and Daniel Fritz, who have some local renown as scoundrels, had been drinking with two of the sailors during the evening, and had accompanied them aboard their vessel, where they had drawn another bottle or so. When the sailors turned to their berths the two scoundrels were still in the fore-cabin. Shortly before one o'clock one of the sailors, whose name is Martin, woke up, and he claims, saw the two shore chaps going through the pockets of his sleeping chum. Springing out of his berth he struck one of the fellows a blow that laid him on his beam ends, and ran aft and called the mate, Mr. Thompson. Accompanied by the mate he then returned to the fore-cabin, accused the shore fellows of trying to rob his friend. An altercation followed in the midst of which Martin hit Burke over the head with a belaying pin and knocked him senseless for a time. The cook awakened suddenly and thinking murder was being done rushed away for help without stopping to don his clothes. Officer Shortliffe, who in the meantime had been joined by Officer Sullivan, arrested Burke and Fritz and took them to the police station.

OPERATION HER ONLY CHANCE

Was Cured by Lydia E. Pinkham's Vegetable Compound

Lindsay, Ont.—"I think it is no more than right for me to thank Mrs. Pinkham for what her kind advice and Lydia E. Pinkham's Vegetable Compound has done for me. When I wrote to her some time ago I was a very sick woman, suffering from female troubles. I had inflammation of the female organs, and could not stand or walk any distance. At last I was confined to my bed, and the doctor said I would have to go through an operation, but this I refused to do. A friend advised Lydia E. Pinkham's Vegetable Compound, and now, after using three bottles of it, I feel like a new woman. I most heartily recommend this medicine to all women who suffer with female troubles. I have also taken Lydia E. Pinkham's Liver Pills and think they are fine." Mrs. FRANK ESMLEY, Lindsay, Ontario.

We cannot understand why women will take chances with an operation or drag out a sickly half-hearted existence, missing three-fourths of the joy of living, without first trying Lydia E. Pinkham's Vegetable Compound. For thirty years it has been the standard remedy for female ills, and has cured thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration.

Be Swift.
He swift, dear heart, in loving.
For time is brief.
And thou may'st soon along life's highway
Keep step with grief.

Be swift, dear heart, in saying
The kindly word;
When ears are soiled, thy passionate pleading
Will not be heard.

Be swift, dear heart, in doing
The gracious deed.
Lest soon they whom thou holdest dearest
Be past the need.

Be swift, dear heart, in giving
The rare sweet flower.
Nay wait to heap with blossoms the basket
In some sad hour.

Dear heart, be swift in loving—
Time speedeth on;
And all thy chance of blessed service
Will soon be gone.

GLORY ANN

"If it wasn't for Glory Ann I'd die peaceful like an old man," said Mrs. Salisbury. She took time to consider her golden egg that had turned into so comely a chick. "But nobody knows the awful feeling of responsibility that comes when you've got a girl poet in the family."

"I always kind of liked good poetry," Mr. Salisbury would put in soothingly, swinging one foot back and forth as he smoked in the rocker by the window. "I could sing out 'Casablanca' with any one when I was as old as Glory there."

"Now, father, don't bolster Glory up in her nonsense. She's made up poetry ever since she could climb the big pine and swing up and down on its branches as when the wind blew. And she can't cook, nor sew, nor plan ahead, nor do anything like girls should that expect to marry and settle down some day."

"I'll never settle down," Glory Ann put in mischievously. "Father's going to hand over the pine grove to me and the hill pasture, and I'm going to raise Christmas trees and Angora goats, and write poetry all my life, mother dear."

"Will the good Lord ever bless such a combination?" asked Mrs. Salisbury plaintively.

"If He don't, He'll bless Glory Ann anyhow, so don't fret, Lyddy," the old man laughed.

So Glory Ann was allowed to write her poetry, and ramble over the hills she loved, and grow as tall and sweet and strong as one of the wild flowers themselves. Dreams came to her, but not of fame or wealth. She knew her voice was not one of might, only that its message was true. She never planned to go out into the world on a wild goose chase after fortune's flying heels. It was enough to stay near her pine groves, and be free to sing when the call came to her.

"They don't pay much, seems to me," her mother would say, but the old man would adjust his spectacles with fingers that shook from excitement, and read Glory Ann's little tender verse in the local paper with blurred sight.

"Angels couldn't suit me better," he'd say. "My, my, look at our girl's name right there in real print, ma."

Glory Ann rose softly and slipped out the side door. It was early evening. A young moon was riding high in the clear winter sky. The ground was hard with frost, but there was no snow. Down at the base of the hill, the brook made a zig zag line of black in the moonlight. Down the road she heard the sound of a horse's hoofs, and hesitated until the rider came in sight and drew up beside the bars.

"It's only Dave," Glory Ann called back over her shoulder, to where her mother stood in the doorway.

"Aren't you going to visit a little, Glory?" the boy asked unsteadily. "I came on purpose to see you."

"But I don't want to visit," flung back Glory Ann, teasingly. "I'm going for a walk."

"I'm going, too," he persisted, keeping beside her, after he had fastened the horse to the bar post. "I've got news for you. I've got my appointment."

Glory Ann stopped short, and faced him. There had always been Dave Phillips in her life. They had been playmates, schoolmates, and last of all sweethearts, in a way. She knew she had spoken carelessly when the boy had asked her to be his wife a while back. It had seemed almost pitiful that after years of poetry, Dave should be the only prince to come wooing. Now she remembered the look in his eyes, and his promise. He would not let his life be ruined just because a girl didn't know her own mind. He loved her, and she knew it. He would take his examinations just the same, and try for the appointment on the lakes. And when his boat rounded the straits, he would look out toward the pine crowned hills south of Mack-

inac, and think of Glory Ann, but he would not break his heart over her.

"When are you leaving, Dave?" asked Glory Ann faintly. "I'm awfully glad for you. Will you be gone long?" "All the season. I'll be home in November, and I don't have to leave until March, when we fit out the boats."

"March?" Her eyes questioned his quickly. "It's only December now."

"Are you glad, Glory?" he bent over her with swift eagerness. "I thought maybe we could be married by Christmas, and I'd buy that hill lot and pine grove you like so from your father, and we'd build the nest there. You can see the straits from that hill dear, and we'd manage to send our signals to each other. I'd pass through them every week. And you could keep on writing if you wanted to. But if you say the word, I'll keep away from you. I can take the navy examinations and then I guess I'd never come back."

"And you want me to tell you—"

"Glory Ann, you'll catch cold out there with the frost coming," called Mrs. Salisbury shrilly from the porch. "Come in and sit by the fire."

"In a minute, mother," Glory Ann replied, calmly.

"Oh I know why you can't make up your mind, Glory," went on the boy, crushing his cap in his strong hands. "You know me too well, and I'm just Dave to you. I read the stuff you write, and all through it you keep wondering when the fellow you call your prince is coming along. If you really want to wait for him, I'll quit now, but I mean to know one way or the other for sure. I won't dangle a round for years after any girl on earth while she makes up her mind. You know well enough whether you like me well enough to marry me right now, Glory Ann."

And strangely enough, Glory Ann's glance fell at that, before the fire in the boy's eyes, as he flung out the accusation.

"So I guess I'd better go," he added, after a pause.

Glory Ann stretched both hands out to find his in the darkness.

"Dave," she whispered, "could we build the house facing the straits? Don't all sailors' wives love to watch the ships come home?"

Bald Heads Not Wanted.

BALDNESS IS TOO GENERALLY CONSIDERED A SIGN OF ADVANCED AGE.

A bald headed person does not have an equal chance with one blessed with a healthy head of hair, because baldness is too generally accepted as an indication of age. Many large corporations have established an age limit, and refuse to take men over 35 years of age as new employees.

Probably 65 per cent of bald headed people may regain a good head of healthy hair if they will follow our advice and accept our offer. We have a remedy that we positively guarantee to grow hair on any head, unless the roots of the hair are entirely dead, their follicles closed, and the scalp has become glazed and shiny. We want people to try this remedy at our risk, with the distinct understanding that unless it does exactly what we claim it will, and gives satisfaction in every respect, we shall make no charge for the remedy used during the trial.

We know exactly what we are talking about, and with this offer back of our statements no one should scoff, doubt our word, or hesitate to put our remedy to an actual test.

We want every one in Digby who is suffering from any scalp or hair trouble, dandruff, falling hair, or baldness to try our Rexall 93 Hair Tonic. We want them to use it regularly—say until three bottles have been used—and if it does not eradicate dandruff, cleanse and refresh the scalp, tighten the hair in its roots, and grow new hair, we will return every cent paid us for the remedy for the mere asking. There is no formality expected, and we exact no obligation from the user whatever.

We are established right here in Digby, and make this offer with a full understanding that our business success entirely depends upon the sort of treatment we accord our customers, and we would not dare make the above offer unless we were positively certain that we could substantiate it in every particular. Remember, you can obtain Rexall Remedies in this community only at our stores—The Rexall Stores. P. W. Holdsworth, Digby; Ryan & Blackader, Weymouth.

The Return of Hubby

A husband and wife ran a freak show in a certain provincial town, but unfortunately they quarrelled, and the exhibits were equally divided between them. The wife decided to continue business as an exhibitor at the old address, but the husband went on tour.

After some years' wandering the prodigal returned, and a reconciliation took place, as the result of which they became business partners once more. A few mornings afterwards the people of the neighborhood were sent into fits of laughter on reading the following notice in the papers.

"By the return of my husband my stock of freaks has been permanently increased."

Best Cure for Skin Sores is Zam-Buk

An illustration of the way in which Zam-Buk cures even the most serious and chronic cases of ulcers, eruptions and sores is provided by Mr. R. H. Barker, of Glencairn, Ont. He says: "I would not have believed that any remedy could cure so quickly, and at the same time so effectively, as Zam-Buk cured me."

"My face became covered with a kind of rash, which itched and irritated. This rash then turned to sores, which discharged freely and began to spread. I first tried one thing and then another, but nothing seemed to do me any good, and the eruption got worse and worse, until my face was just covered with running sores."

"Apart from the pain (which was very bad), my face was such a terrible sight that I was not fit to go out. This was my state when some one advised me to try Zam-Buk. I got a supply, and, marvellous as it may sound, within little under a month every sore on my face was healed. I was so amazed that I have told the facts to several persons, and I have no objection to your stating my experience for the benefit of other sufferers."

Zam-Buk is purely herbal in composition, and is the ideal balm for babies and young children, for whose tender skin coarse ointments are so dangerous. Zam-Buk is a sure cure for cold sores, chapped hands, frost bite, blood poisoning, varicose sores, piles, scalp sores, ringworm, inflamed patches, babies' eruptions and chapped places, cuts, burns, bruises and skin injuries generally. All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., Toronto, upon receipt of price. Refuse harmful substitutes.

Open New Mariners' Home.

GLOUCESTER, MASS., Jan. 2.—With seven weather-beaten sailors as inmates, the John Hayes Hammond Home for Aged and Infirm Mariners, was opened here yesterday. Several hundred persons attended, and as the home's first crew walked through the grounds carrying their luggage, they were greeted by cheers.

The home colors were sent aloft at half past two o'clock this afternoon, and an hour later the sailors had everything made fast. The sailors—all of them fishermen—who entered the home today are John Ryan, Harris Atwood, Henry Gormley, James Frost Joseph Alcott, James Hally and Joseph O'Connell.

Hair That Fascinates.

WHO WANTS LUSTROUS HAIR FULL OF LIFE AND BEAUTY?

Start now madam, this is just the month to begin to acquire a glorious head of hair of which you will be justly proud during the social events of winter time.

If you haven't used PARISIAN SAGE you aren't on the high road to hair beauty. PARISIAN SAGE is the most delightful preparation that destroys the dandruff germs and by so doing removes in a short time the cause of dandruff, falling hair, itching scalp, faded and lifeless hair.

Dandruff germs are obstructionists; they prevent the hair from receiving its proper nourishment by ravenously devouring the same nourishment. Use PARISIAN SAGE for one week and note the wonderful improvement. H. E. Jones guarantees it. 50 cents a bottle.

One Way of Taking It

New Minister—Now just one thing more before I accept this charge. Have you got a 'supply'?

Deacon—Well, yes, though we never said anything to the last preacher about it. I'll show you where it is and you get a key, but I tell you you'll have to be just as careful about using it as the rest of us.

Edwin J. Moore's Death.

HIS FATAL ILLNESS DUE TO HIS DEVOTION TO DUTY.

Edwin Jerome Moore, a prominent member of the staff of the New York Herald, recently passed away at his home in Brooklyn. Mr. Moore was a son in law of Mr. Gerald Carlton, of the same city, who is a well known writer, and who has on several occasions visited Digby.

A writer to the Brooklyn Citizen has the following to say regarding the late Mr. Moore:

In the passing of Edwin Jerome Moore, a member of the New York Herald staff, newspapermen of Greater-New York have had removed from among them a loyal comrade, as well as a man of lofty ideals and, indeed, in every respect, a man of most sterling character. The writer may without exaggeration, say that Edwin J. Moore literally died in harness. The injury which resulted so fatally in his case, was received while in the performance of his duty as a member of the New York Herald staff. Mr. Moore had been assigned by his newspaper to investigate the conditions that had led to the bursting of the great dam at Austin, Penn. While pursuing these investigations, he met with the accident which resulted in his fatal illness and subsequent death.

Truly might such men be called 'soldiers of the pen.' For ease, comfort, everything else, is sacrificed to the exacting and stern duties of their profession.

Mr. Moore died as he had lived, uncompromising, and a hero to his latest breath. Up to within four days of the sad event his great mental powers alone had kept him alive. Though suffering the acutest agony from the valvular condition of his heart and other maladies superinduced by the mishap at Austin, his will power and tender solicitude for those near and dear to him, stifled every evidence of pain. Yes, Moore surely died a hero if ever a hero died on a battlefield.

From the time this competent young man (only in his forty third year) graduated from a Jersey City college he had to do with newspaper life. He had been on many prominent dailies in as many great cities, in both reportorial and editorial capacities, and ably filled each. He was a man of work and ideas—a poet as well as a writer of graphic description. Nor did he fall short in humor. In this line he was always at his best, and wherever his duties led him, he always gave a good account of himself, as in the case of the Beattie trial in Virginia, in which his reports, while void of sensationalism, were vividly graphic with gems of concise English.

Many years ago Edwin Jerome Moore was for a short time on the staff of the Citizen, and he always held a warm corner in his heart for that newspaper, as well as for its editor, Mr. Andrew McLean.

Mr. Moore during his illness, was attended by Dr. Shepley, of Brooklyn, the family physician, who, as it happened, was a graduate of the same Jersey City college. No medical adviser could have been more zealous and self-sacrificing. And if the great medical ability and the love of those who know him could have saved his life, Edwin Jerome Moore would still be with us.

Peace to his ashes! He was a manly man, a loving husband and a true friend.

Meteghan

Rev. Father Deveau returned to Wedgeport Monday afternoon.

Schr. C. T. W., Capt. William Trahan, is here from Boston to tie up for the winter.

Capt. Thomas German has completely recovered from his recent severe illness.

Mr. Grant Morrison, son of the late Dr. Morrison, has been renewing old acquaintances here.

Mr. Charles Deveau, manager of A. H. Comeau & Co's lower store, spent Sunday in Yarmouth.

Schr. H. S. M., Capt. H. S. Mallett is on the marine railway here undergoing extensive repairs.

Mr. S. Babinian, of L'Esperance Moncton, has been here for a few days the guest of Mr. and Mrs. Philip Thibodeau.

Capt. Anselm Thibodeau, who has been sailing the schr. Princess out of Port Gilbert during the past season, is at his home here for the winter.

Schr. Mina German, Capt. Blinn, from Turk's Island, landed four thousand bushels of salt at Pubnico and brought two thousand bushels here for A. H. Comeau & Co. She left this week for Weymouth to load lumber.

For a few days the mail service between Meteghan and the D. A. R. trains via Meteghan Centre and Meteghan River was demoralized. On Saturday the snow storm completely blocked the highway and the mail train could not reach the station until Sunday and then it had to go by the Nigger Lake road. On Monday conditions were a little better but on Tuesday the mail team got only as far as the Meteghan Centre office when the trip to the station had to be abandoned until the afternoon. Quite a number of passengers came in on Saturday's trains and they had to foot it out to the shore via the Nigger Lake road. This road is off the regular mail route and to use it would not serve the interest of the people of Meteghan River.

There passed away on Saturday, Jan. 6th, after a short illness, a respected and life-long resident of Meteghan, in the person of Mr. Marc LeDeveau, master ship builder. One of the two sons, the Rev. J. M. Deveau, parish priest at Wedgeport, reached the stricken home a few hours after his father had breathed his last. Deceased was seventy-two years of age and up to a year ago, when he suffered a slight stroke of paralysis, he had enjoyed good health. Besides a widow, daughter of the late Basile Robichaux, of Meteghan, he leaves one other son and one daughter, Armand, of Meteghan, and Mary, at home. The funeral took place on Monday, there being a Mass of Requiem by the parish priest, Rev. A. B. Cote. In the days of wooden ship building along the French shore of Digby county, the name of Marc Deveau figured prominently in the construction of square rigged vessels. The last vessel he built for Yarmouth parties was the ship John Bunyan, launched at Meteghan for the Messrs. Goudrey. After that came the decline in the building of wooden ships, and it was not until about eight years ago that Mr. Deveau again became active in his calling, when he launched at Meteghan a three-masted schooner for L. D. Schaffer, of Bridgetown, and more recently built several three-masted schooners at Bridgetown for Mr. Schaffer.

After the regular session of the lodge closed, refreshments were served and a pleasant time enjoyed by all present.

Bro. A. D. Daley extending the light service until 1 a. m.

Grand Master Craig, who is evidently very popular among the members, was present when St. George Lodge was initiated, when the corner stone of the new hall was laid (in fact, he presented the stone to the lodge) and was also present when the hall was dedicated.

Every lodge in Nova Scotia and New Brunswick has had an official visit since Grand Master Craig was installed last August, and he says he intends to visit every lodge in P. E. I. and Newfoundland in the early spring.

Trinity Parish Meeting.

The Annual Parish meeting of Trinity Parish, Digby, took place on Monday evening, Jan. 15th. A fair number were present, notwithstanding the very inclement weather.

Messrs. E. R. Mowbray and J. F. Rice were elected as church wardens.

The following gentlemen compose the vestry: Messrs. A. D. Daley, H. L. Dennison, K. C. E. DuVernet, M. D. T. Hinzman, C. Jameson, M. P. H. E. Jones, Coun. T. E. G. Lynch, J. Merkel, W. B. Stearns, L. M. Swasey, C. E. Turnbull and J. R. Wright; C. E. Turnbull being Vestry Clerk. Messrs. T. E. G. Lynch and H. L. Dennison, K. C. E. Jones were elected representatives to the Diocesan Synod and Messrs. C. Jameson, M. P. and W. E. Tupper as substitutes.

The statements and accounts of the retiring church wardens, Messrs. T. E. G. Lynch and A. D. Daley, showed a satisfactory balance in hand and spoke volumes for the care and efficiency of their management. The reports of various parochial organizations were read and all showed a satisfactory advance. The parochial contributions to Missionary objects amount to \$263 for the year 1911, while the senior and junior auxiliaries contributed \$157 to Diocesan Missions and additional sums to foreign fields. While further improvements are desirable, the past year has given token of increased liberality to the great cause of missions.

During 1911 two beautiful gifts have been made to Holy Trinity Church, a pair of large brass altar-vases given by Mrs. deBalinhard as a memorial of the late Capt. J. A. Carnegie deBalinhard, and a pair of silver-mounted Communion Cruets given by Mrs. and Miss Tupper.

Votes of thanks were passed to these ladies, to the officers and members of the various societies of the parish, and to those who have organized various entertainments, etc.

A considerable amount of detailed business was transacted including the voting of an increase to the Rector's stipend. The meeting closed at a late hour.

Death of Miss Catherine W. Dakin.

The death took place suddenly at Dorchester, Mass., on Friday of Miss Catherine Wallace Dakin. She left home in her usual good health but on returning, expired before medical aid could be summoned. By her kind and sympathetic nature she had greatly endeared herself to a large circle of friends who will miss her whose life has been spent in thoughtfulness for others. She was the eldest daughter of the late Charles H. Dakin of this town and leaves two sisters, Mrs. T. C. Shreve, of Digby, and Miss Elizabeth Dakin of Dorchester, Mass. The funeral was held in Digby on Tuesday with interment in Forest Hill cemetery, the services being conducted by Rev. Wm. Driffield, rector of Holy Trinity church.

Wedding Bells.

The marriage took place at the home of the bride's parents, Mr. and Mrs. Alex Young, Lighthouse Road, on Wednesday evening, Jan. 17th, of Frederick Augustus Copeland, of Bear River, to Miss Maude Young. The wedding was a pretty but quiet one, only immediate relatives being present, owing to a recent bereavement in the family. After the ceremony a pleasant evening was spent and luncheon served and at a late hour Mr. and Mrs. Copeland left for their future home in Bear River, followed by the best wishes of their many friends.

Body Found.

At Young's Cove, on Sunday morning last, George Milbury discovered while walking on the shore, the body of a man, headless and badly decomposed. It was thought likely to be the body of a man named Sims, who was lost by the overturning of a gasoline dory a few weeks since. His brothers were summoned to identify the body if possible, and though identification was difficult, a certain mark found on one finger convinced them that the body was that of their brother.

THE BOARD OF TRADE

Annual Meeting Held Wednesday Evening in the Council Chamber.

OFFICERS AND COMMITTEES APPOINTED—
ALL NIGHT TELEPHONE AND IMPROVED
ELECTRIC LIGHT SERVICE DISCUSSED—
BOARD OF TRADE ASKS MAYOR SHORT
TO CALL A PUBLIC MEETING OF THE
RATEPAYERS.

A large number attended the annual meeting of the Digby Board of Trade last Wednesday evening.
President H. T. Warner was re-elected. The other officers are: Dr. DuVernet, Vice President; F. W. Nichols, (re-elected) secretary-treasurer; H. B. Short, J. L. Peters, Dr. J. E. Jones, Dr. W. F. Reed, P. W. Holdsworth, A. R. Turnbull, A. D. Daley and E. R. Mowbray.
Collector: F. L. Anderson.
Auditors: W. S. Troup and Capt. J. W. Wyman.

The treasurer reported a good showing on the right side of the ledger and the biggest membership since the Board was instituted.

A letter was read from Mr. C. Jameson, M. P., favoring a resolution re-booming the Eastern provinces.

An electric light matter. Maj. Daley, owner of the plant, stated that he could not meet the committee's requests at the figures they wanted, and presented his offer.

Mr. Daley's offer was not accepted by the Board.

A resolution was then passed asking Mayor Short to call a public meeting of the ratepayers to consider the best ways and means of lighting Digby.

Mr. O. S. Dunham, Dr. E. DuVernet and W. F. Reed, Mayor Short, and President H. T. Warner were appointed a committee to meet on all night or constant telephone service.

The committee on advertising presented a petition signed by about all the largest ratepayers and many others asking for a grant from the Town Council for advertising purposes. Their report was unanimously adopted and ordered to be laid before the town council at their next regular meeting. The latter, like the other subjects considered, is a very important one. A reasonable amount should be granted and properly expended by a carefully appointed committee.

We will refer to this in a future issue.

Schr. Mayflower Reaches Digby.

HAD A TERRIBLE EXPERIENCE IN THE BAY OF FUNDY.

Schr. Mayflower, Capt. Mangus Benjamin, from Boston with a cargo of fertilizer for D. J. Seely & Son, St. John, after being blown about the Bay of Fundy since Thursday last week, reached here early Sunday morning. The schr. left Digby again Sunday, arriving at St. John Sunday night.

The Mayflower carried five men beside her captain, and all had their hands badly frost-bitten.

The experience of Capt. Benjamin and his crew has not often been equaled in the history of sailing craft in the bay, and the sturdy skipper of the little vessel said that their sufferings were almost beyond realization. Again and again as the vessel was driven before the storm under bare poles and her sails in tatters, all hands expected death.

When for a time the breakers were almost under her bows near Digby, but Captain Benjamin was able to get his schooner under control and made Digby.

The story told by Captain Benjamin is thrilling. He said that they left Boston on Sunday, Jan. 15th, and arrived at Portland (Me.) on the following day. Determined to lose no time, the skipper put his vessel out of Portland that evening and at once met bad weather. He was not out long before huge seas boarded his vessel and she leaved up rapidly. It was on Thursday while off Point Lepreau that matters became more serious. With the weather hazy and a gale blowing and the thermometer at zero, the vessel left up so that she became unmanageable.

On Friday the crew got control and worked up off St. John, but again the fury of the storm increased and the Mayflower was driven across the bay.

On Saturday morning, while the storm was at its worst, the jobs were blown away and the mainmast split. As the schooner neared Digby, the roar of the breakers made them aware that they were close to the rocks. "Suddenly," said Captain Benjamin, "I saw an opening and I squared her off and managed to get into Digby. As this was late at night, our danger was great. The Mayflower left Digby again Sunday and while off Negro Point, near St. John, the foremast split into fragments and the ship was blown and fell to the deck with a crash. From Thursday until Sunday Capt. Benjamin and his men had practically nothing to eat, as the cabins were flooded.

Captain Benjamin, whose home is in Parrboro, is part owner of the vessel. She sails from Matland and is of 132 tons.

GHOSTLY BUTTERFLIES.

A Species in British Guiana Whose Wings Are Transparent.

In "Our Search For a Wilderness" Mr. William Beebe of the New York zoological park describes his first sight of the transparent butterfly—*Hoetera piers*—of British Guiana, an insect through whose outstretched wings any substance on which it rests can be clearly seen.

As we crossed a swirling creek on the trunk of a mighty fallen tree something fluttered ahead. We could not see what it was. Closer we came, and still the object remained indistinct. We seemed to see a butterfly, and yet that appeared impossible. At last we marked it down on a fern frond and crept up until our eyes were within two feet of it. Nothing was visible but the graceful lacework of the frond until a slanting beam of sunlight struck it, and there, close before us, was the ghost of a butterfly.

It spread fully three inches, but was wholly transparent, save for three tiny spots of azure near the margin of each hind wing.

As we looked it drifted to a double headed flower of scarlet, and when it alighted the scarlet of the flower and the green of the leaf were as distinct as if seen through thin mica, and the faint gray haze of the insect's wings was marked only by the indistinct venation.

The appearance of this ghostly butterfly amid the silence and awe inspiring stillness of the reeking jungle was most impressive.

BIG BELLS.

Canton Has One Eighteen Feet High and Forty-five Feet in Circumference.

Some of the old world bells are heavy indeed. "Great Paul" of St. Paul's cathedral, in London, weighs nearly seventeen tons and is nearly thirty feet around. The first "Big Ben" of Westminster was cast more than fifty years ago and weighed about fourteen tons and was about twenty-eight feet around. But "Big Ben" had a crack and was made over, losing some weight, and the clapper was made smaller, being now 600 pounds instead of about a ton. "Peter" of York cost \$10,000, weight twelve and one-half tons; twenty-two feet in diameter or thereabouts.

The largest hanging bell in the world is said to be that in the great Buddhist monastery near Canton. It is eighteen feet in height and forty-five feet in circumference, being cast of solid bronze. This is one of eight monster bells that were cast by command of the Emperor Yung Lo about A. D. 1400. It is said to have cost the lives of eight men, who were killed in the process of casting. The whole bell on both sides is covered with an inscription in embossed Chinese characters about half an inch in length, covering even the top piece from which it swings, the total number being 54,000. These characters tell a single story, one of the Chinese classics.

Trees in Oranges.

The Mundus, a weekly published in Rome in five languages, states that one of the methods adopted by the Japanese to produce their curious dwarf trees is as follows: The pulp of an orange is removed through a small hole and the skin filled with a mixture of wood, charcoal and rich earth, with one seed toward the opening in the skin. The orange is put in a glass and watered by the hole, and every now and then a little wood ash is added. The plant shoots through the opening, and the roots pierce the skin. As soon as they do so they are cut off. After two or three years of this treatment the plant will be only a few inches high, but will have the aspect of an old forest tree.

An Old Friend.

A private soldier once rendered some slight service to the first Napoleon.

"Thank you, captain," said the emperor carelessly.

"In what regiment, sire?" was the instant response of the quick witted private.

"In my guards," replied the emperor, pleased with the man's ready retort. This incident, with appropriate variations, also happened to Gen. Khan, Ivan the Terrible, Attila, Gustavus Adolphus, Louis XIV., Charlemagne, Alexander, King Alfred, Xerxes, Richard the Lion Hearted and Henry of Navarre.—Success Magazine.

Wedding Rings.

According to the ancient ritual, the husband began by placing the wedding ring upon the bride's thumb and putting it successively on the next two fingers, pronouncing for each one a person of the trinity, with a final "Amen," as the fourth finger was reached, where the ring remained.—New York American.

What He Took.

"Judge," said a glib man, "I inherit this felonious habit. I can't resist it. My father was a grafter and my mother a photographer. I can't help taking things."

"Then take seven years at hard labor," said the judge kindly.—Cleveland Plain Dealer.

Crowns.

Mr. Wibbles—What fine dark hair you have, Miss Knox! My wife, who is younger than you are, has her hair quite gray. Miss Knox—Yes, and if I'd been your wife no doubt my hair would have been gray too.—Boston Transcript.

Envy always implies conscious inferiority wherever it resides.—Pliny.

Easy Money

"How can I get rid of my creditors?" "Pay 'em something on account and they'll all drop dead."

Weddings at Lake Doucette.

(Special to the Courier.)

Tuesday, the 9th, Mr. Frank E. Burridge, of Lake Doucette, was united in marriage to Mrs. Artinise Deveau, wife of the late Celestin C. Deveau, Esq. The ceremony was performed by the Revd. Fr. Bracq. The bride wore a costume of blue organdie silk and hat to match. She was attended by Miss Madeline Deveau, of Lake Doucette. The groom was attended by his brother, Mr. Edmund Burridge. The other bride maids were the Misses Marie and Maggie Burridge, sisters of the groom, and the groomsmen were Mr. Peter H. Melanson and Mr. Henry F. Doucet. After the ceremony the party returned to the groom's father's, Mr. Patrick Burridge, where a host of invited guests and a bountiful repast awaited them. The dining room was beautifully decorated with evergreens and cut flowers. A splendid silver wedding bell hanging in green festoons over the table. Among some of the guests were Mrs. Rose Burridge, Mrs. Morrell Melanson, Mr. and Mrs. Benj. Burridge, Mr. and Mrs. Joseph Melanson, Mr. and Mrs. Fedelis Deveau, Mr. Frank S. Deveau, agent for Massey Harris, Mr. George LeBlanc, Miss Marie Rose Doucet, teacher at Lake Doucette, Miss Frances Burridge, Miss Clara Deveau, Miss Melvina Deveau, Miss Rodina Doucet, Mr. Joseph M. Deveau and a host of others. In the evening the bridal party returned to the home of Mr. Desire Deveau, the brother of the bride, where another crowd of invited guests were awaiting them. The evening was passed in songs, music and different pastimes. The presents were costly and numerous. Nothing was spared to make the numerous guests feel at home. Thanks are to be rendered to Mr. and Mrs. Patrick Burridge as well as to Mrs. Alex. S. Deveau, mother of the bride and his brother, Mr. Desire Deveau for the generous way in which they treated every one present. This present marriage was one of the social events of the season. The numerous friends of the bride and groom wish them a long and happy life in their new state crowned with all kinds of blessings and prosperity.

The Long Haul.

Second Hoho—Oh, I don't know. I remember how I once yearned to wear long pants. Now I guess I wear them longer than most any man in the country.

Practical Minded

"Am I required to exchange wedding gifts in the department from which they are purchased?" "Not at all," said the floor walker. "Thank you. I would like to exchange a rose just for a frying pan."

Worked All Right

Doctor—Well, and did you take his temperature?

Wife—Oh, yes, sir. I put the barometer on his chest and it goes up to very dry, so I fetches him a quart of beer, and he's gone to work.

A Lucky Fee.

First Doctor—So the operation was just in the nick of time?

Second Doctor—Yes, in another week the patient would have recovered without it.

QUICK RELIEF FROM THAT PERSISTENT, HACKING COUGH

We mean the kind of cough it gives one a cold shiver just to hear—the dry, deep-seated hack—hack—hack—that seems as if it were tearing the very vitals. That's the kind of cough that means business.

Fortunately, though, that is also one of the kinds of cough for which Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne was first prescribed, and which it has been relieving with great promptness and regularity ever since. Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne is absolutely free from harmful drugs of any kind, and is safe even for children. It is pleasant to take, and acts quickly, relieving the irritation, loosening the phlegm, promoting expectoration, and so stopping the cough. Thousands declare it to be the best cough syrup they have ever tried.

Your Druggist will gladly recommend it, and will supply you with either a 25c. or 50c. bottle. The National Drug & Chemical Co. of Canada, Limited, 116

PURIFIED HIS BLOOD

Dr. Morse's Indian Root Pills Healed Mr. Wilson's Sores

When the sewers of the body—bowels, kidneys and skin pores—become clogged up, the blood quickly becomes impure and frequently sores break out over the body. The way to heal them, as Mr. Richard Wilson, who lives near London, Ont., found, is to purify the blood. He writes:

"For some time I had been in a low, depressed condition. My appetite left me and I soon began to suffer from indigestion. Quite a number of small sores and blotches formed all over my skin. I tried medicine for the blood and used many kinds of ointments, but without satisfactory results. What was wanted was a thorough cleansing of the blood and I looked about in vain for some medicine that would accomplish this."

At last Dr. Morse's Indian Root Pills were brought to my notice, and they are one of the most wonderful medicines I have ever known. My blood was purified in a very short time, sores healed up, my indigestion vanished. They always have a place in my home and are looked upon as the family remedy."

Dr. Morse's Indian Root Pills cleanse the system thoroughly. Sold by all dealers at 25c. a box.

PROMINENT RAILROAD MAN

STRONGLY ADVISES HIS FRIENDS TO TAKE GIN PILLS FOR THE KIDNEYS

"I have been a Pullman Conductor on the C. P. R. and Michigan Central during the last three years. About four years ago, I was laid up with intense pains in the groin, a very sore back, and suffered most severely when I tried to urinate. I treated with my family physician for two months for gravel in the bladder but did not receive any benefit. About that time I met another railroad man who had been similarly affected and who had been cured by taking Gin Pills, after

having been given up by a prominent physician who treated him for Diabetes. He is now running on the road and is perfectly cured. He strongly advised me to try Gin Pills which I did, and the result that the pains left me entirely."

Humor and Philosophy

FINE MUSIC.

HEAR the thrilling note of freedom
Round the world!
Tyrants get their whistlers curled
Far and near.
This good year,
It is grand to be alive,
Seeing freedom nicely thrive,
Hearing as we go along
Liberty's engaging song
Sung in every modern tongue.
Banners to the breezes flung
State it boldly, without fear
That the people's day is here.

Every nation, every clime,
Grasping for the newer time,
Smells a throat
With a note.
In a high and noble rage
Of a better, gladder age
Man unshackled stands alone,
Fearing neither king nor throne,
But resolved himself to rule,
Not a plaything or a tool
For an emperor or czar.
Bully, brothers, here we are!

Even China feels the thrill;
Practiced long in standing still,
See it moving,
Grandly proving
That in any sort of nation
To the far end of creation
Freedom's microbes, getting busy,
Can the slowest ones make dizzy
And will work.
See the Turk!
Who more hopeless could be found,
Though one search the world around?

There is something every minute
Breaking loose.
Royalty is almost saying,
What's the use?
Tyranny's dark sun has set.
Liberty's the one best bet.

Nationality.

"What is Brady's new chauffeur?"
"Republican."
"I mean is he a German or a Frenchman?"
"Oh, he seems to be a Russian from what I see of him."

Going Some.
"How is Binks coming on training his bull pup?"
"Fine. The pup took hold of the minister the other day and it only took three of the family and a casual policeman to make him let go."

One Way of Looking at it.
"And how about Wilson?"
"Married for twenty years."
"Twenty years?"
"Yes."
"Anything off the sentence for good behavior?"

One Kind He isn't.
"He is all kinds of a fool."
"Oh, no, he isn't."
"No?"
"No. He isn't an inoffensive fool."

Cause For Cheer.
"There is a fly in the ointment."
"Well, it might be worse."
"In what way?"
"The fly might be in the jam."

More Direct.
Do not ask a friend to take
One large jump into the lake.
Send him to the woods for game.
The result will be the same.

PERT PARAGRAPHS.
The man who doesn't know how to apologize sometimes has to know how to fight.

Life takes it out of the best of us.
Probably the reason Moses was meek is because he lived so long.

And the best we can do isn't good enough for some purposes.

Courage is a good thing to have, but when it is gone the man who has grit take its place is the man who wins.

When her husband burns his fingers pulling chestnuts out of the fire for somebody else how much sympathy ought a woman to have?

The grouch burns his incense before a grim god.

There are reputations that it's best not to try to keep up.

The amount of hot air that the average woman has to dispense with in order to get through the day would make a steam exhaust turn pale with despondency.

The realization that he couldn't turn back is what has made many a man pull himself out of a hole.

The man who understands his wife hasn't any.

Easy street is an exceedingly comfortable place if it isn't respectable in spots.

GENTLEMEN, A few weeks ago I was suffering from a throat irritation and a very bad cough. A friend of mine persuaded me to try your "Oliveine Emulsion." I procured a bottle from my druggist, and before I had taken half of the "Emulsion" my throat irritation was gone. I continued to take the Emulsion and when I had finished the contents of one bottle my cough was completely cured. I have recommended your "Oliveine Emulsion" to a number of my friends for Coughs, Colds and Nervousness, and they speak very highly of your "Oliveine Emulsion."

Try the flour that holds the confidence of thousands of home-cooks

THE present huge demand for PURITY FLOUR shows the confidence in which it is held by thousands of home-cooks.

Those who have used PURITY FLOUR have come to believe in it. They look on PURITY as a friend. They feel they can trust it implicitly, because each and every lot of PURITY FLOUR has always been uniform—always up to the high standard of quality that has made it famous.

Wouldn't you, too, like to use a flour you could always rely on? Wouldn't you like to feel certain that your bread, cakes, and pies were going to turn out exactly right? That's just how you'll feel when you become a user of PURITY FLOUR—the confidence-creating flour.

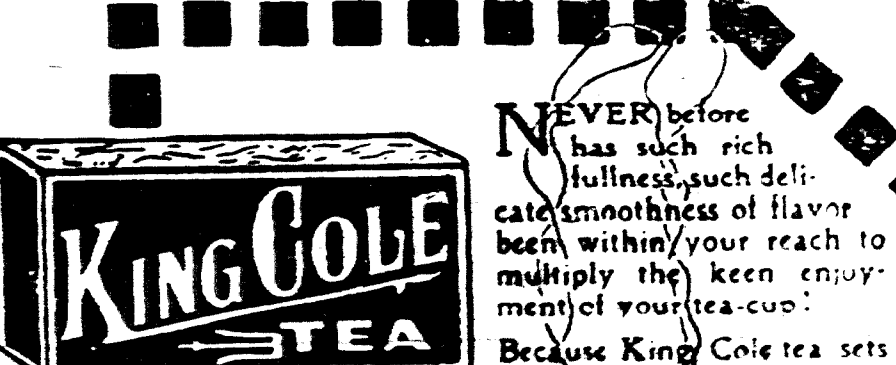

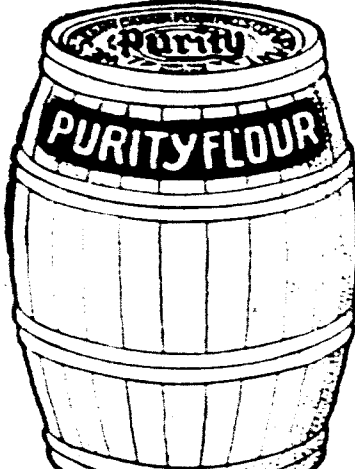

PURITY FLOUR gives high-class results, because it consists exclusively of the high-grade portions of the best Western hard wheat.

On account of the extra strength of PURITY FLOUR please remember, when making pastry, to add more shortening than an ordinary flour requires.

And when making bread add more water, and PURITY FLOUR will expand into more loaves than the same weight of ordinary flour can produce, thus making "more bread and better bread."

Make your next flour order spell P-U-R-I-T-Y F-L-O-U-R. It costs slightly more, but it's worth the difference.

Add PURITY FLOUR to grocery list right now.

NEVER before has such rich fullness of flavor been within your reach to multiply the keen enjoyment of your tea-cup. Because King Cole tea sets a new and higher flavor standard. It is blended to excel even those good teas which you and your neighbors had always held as favorites. The delightful vigor of its flavor, the delicious zest of your very first cup of King Cole tea, will make it your life-long friend. Why not tear this out as a reminder to ask your grocer for an introduction to King Cole? YOU'LL LIKE THE FLAVOR

IF you have been using a 30c. tea and decide to buy a pound of Morse's 40c. as a test, don't regard the extra 10c. as an extravagance. You get a tea of better flavor and one that will make more cups to the pound.

AFTER SUFFERING YEARS

Cured by Lydia E. Pinkham's Vegetable Compound

Fox Creek, N.B.—"I have always had pains in the loins and a weakness there, and often after my meals my food would distress me and cause soreness. Lydia E. I have encouraged many mothers of families to take it, as it is the best remedy in the world. You can publish this in the papers."—Mrs. WILLIAM BOUTIQUE, Fox Creek, N.B., Canada.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

To the Warden and Municipal Council for the Municipality of Digby.

GENTLEMEN:—I beg leave to hand you my report as Health officer for the Municipality for the year 1911.

The year has been healthy with the exception of an occasional case of Diphtheria and Typhoid.

During the month of February a case of Diphtheria broke out in the district of Plympton. I was at once notified and used antitoxine thoroughly, at the same time placing the rest of the family under treatment—result, no other cases developed.

Another case came under my notice near Digby. Dr. DuVernet at once notified me: used proper precautions, treated the rest of the family—result, no other cases developed.

A few cases of Typhoid came under my notice. Nearly all were of mild nature.

During the month of August received notice from Tiverton relative to the throwing of fish gurry on the shore. I caused notices to be placed in these places in the village prohibiting same.

I visited nearly every school in the Municipality, and in most cases found them to be in good condition. Yet in a number of places the out buildings were in a very unsanitary condition. In each place I asked the trustees to have this attended to and sprinkle the part with lime and ashes. I have received word from a number of teachers that this has been done.

W. C. HARRIS, Municipal Health Officer.

Barton, Jan. 9th, 1912.

Ordered, that Frank E. Rice, M. D., be, and he is hereby appointed Health officer for the present year.

Upon reading report of Auditors, ordered to be received, and to lie upon the table.

Upon reading letter from James Ross, M. D., in the matter of protection against the spread of tuberculosis and the appointment of delegates to attend a convention to be held in Halifax on January 25th and 26th, ordered that the same be received, and that Councilors Bowers and Nicholl be, and they are hereby appointed delegates from this Council to the said convention.

Upon reading report of Committee on Tenders and Public Property, ordered to be received and adopted.

To the Warden and Councilors of the Municipality of the District of Digby.

GENTLEMEN:—Your Committee on Tenders and Public Property begs leave to report for the year 1911 as follows:

COURT HOUSE:

We continued the contract with Sheriff Smith for janitor at \$25.00 per month.

We were unable to have the roof painted during the past year, but must have it attended to this year.

The orders passed for Court House maintenance during the year amounted to the sum of \$759.69. The vote last year was \$750.00.

The insurance expires in July and

will require to be renewed. The premium is \$212.00. There is \$20,000.00 insurance on the building and \$1200.00 on the furniture.

Your committee recommends a vote of \$1000.00 for the current year, to include maintenance and painting the roof.

JAIL.

The contract with Sheriff Smith for jailor at \$375.00 a year, he to provide heat, light and water for the jail, was continued during 1911.

Your committee has provided eleven storm windows for the jail at a cost of \$22.00.

We have issued orders for \$153.11 for jail maintenance during the year, to which must be added \$75.00 for jailor's salary, amounting to \$528.11.

The insurance expires this month and the premium of \$66.00 for \$6000.00 insurance will require to be provided for.

Your committee recommends a vote of \$650.00 for the current year.

ALMS HOUSE.

A yoke of oxen was purchased at \$150.00 and a plow for \$14.00. The insurance was renewed for three years, premium \$102.00. The total expenditures on this account for these items was \$266.00. The money borrowed for construction of Alms House has now all been repaid, \$733.25 being paid during the past year. The total spent amounts to \$999.25.

We require no vote on this account for the current year.

POOR OUTSIDE.

Orders for \$524.68 have been issued during the year for the support of the poor outside the Home. Your committee has endeavored to keep this account from growing, but without success. There are cases in almost all parts of the Municipality, where a few dollars assistance must be given from time to time. It would cost the Municipality far more to send these cases to the poor house than to give them a little assistance at home.

POOR INSIDE.

Orders for \$2,847.14 have been issued for the poor and harmless in sane inside the Home. We would recommend a vote of \$5,500.00 for the current year for inside and outside poor.

To Committee on Tenders and Public Property.

GENTLEMEN:—I beg to report that I have inspected the Alms House from time to time during the past year and always found it in a very sanitary condition.

During the year there was one birth and four deaths. The average age of those that died was 74 1/2 years.

One patient suffering from a specific disease was removed to an adjacent farm. There were no cases of an infectious nature.

The inmates looked to be at all times well fed and well cared for.

E. DUVERNET, M. D.

Digby, Jan. 1st, 1912.

Your committee as usual advertised for supplies and medical attendance for Alms House. The committee met on Jan. 2nd, 1912, to open tenders and award contracts. There were two tenders for groceries, etc., one from Turnbull & Co., and one from H. T. Warner & Co., Ltd. The former being much the lower, tender was accepted.

There was but one tender for clothing, etc., from M. Webber, and he was accordingly awarded the contract. Dr. E. DuVernet being the only tenderer for medicine and medical attendance, was awarded the contract.

Mr. and Mrs. G. R. McNeil were in charge of the Home until May 1st, 1911, when we secured the services of Mr. and Mrs. J. A. Marshall for a year.

Your committee is pleased to report that Mr. and Mrs. Marshall have proven themselves most satisfactory officials, and that everything about the Alms House appears to be in a most satisfactory condition.

CLERK'S OLD OFFICE.

We disposed of this building to Major John Daley for the sum of \$340.00, he being the highest tenderer. All of which is respectfully submitted.

Plain Talk About Piles.

Don't you believe that experience is better than hearsay? If you suffer from piles, just try Zam-Buk. You can do so at our expense. So assured are we of the result, that we will send you a free trial box if you send to our Toronto offices full name and address and a one cent stamp to pay return postage.

Scores of people daily acquaint us with the benefit they have derived from the use of Zam-Buk for piles. Mr. F. Astridge, of 3 St. Paul St., St. Catharines, Ont., says: "For five years I have suffered untold agony with protruding piles. The pain was so great at times I would almost scream. I lost weight and had no appetite. I tried everything I ever heard of for piles, as I was willing to take anything to get relief. It was useless, however, and I almost gave up in despair."

"One day a friend gave me a sample of Zam-Buk and told me of a friend of his who had been cured. I decided to try Zam-Buk, and the relief I got was encouraging. I used three boxes, and at the end of that time I was completely cured. I wish I could have got Zam-Buk years ago; it would have saved me a great deal of misery."

Zam-Buk will also find a sure cure for cold sores, chapped hands, frost bite, ulcers, blood poison, varicose sores, scalp sores, ringworm, inflamed patches, babies' eruptions and chapped places, cuts, burns, bruises, and skin injuries generally. All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., Toronto, upon receipt of price. You are warned against harmful imitations and substitutes. See the registered name, 'Zam-Buk', on every package.

No Cause to Doubt.

A STATEMENT OF FACTS BACKED BY A STRONG GUARANTEE.

We guarantee immediate and positive relief to all sufferers from constipation. In every case where our remedy fails to do this we will return the money paid us for it. That's a frank statement of facts, and we want you to substantiate them at our risk.

Reflux Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

Reflux Orderlies are unsurpassable and ideal for the use of children, old folks and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. That's why we back our faith in them with our promise of money back if they do not give entire satisfaction. Three sizes, 12 tablets 10 cents, 36 tablets 25 cents and 80 tablets 50 cents. Remember, you can obtain Reflex Remedies in Digby only at our stores—The Rexall Stores, P. W. Holdsworth, Digby; Ryan & Blackader, Weymouth.

A Young Worthy Patriarch.

At the installation of officers of Wenuchus Division, Sons of Temperance, at Lynn, Mass., on Jan. 1st, the worthy patriarch installed was John K. Smith. Mr. Smith is the youngest son of Mr. W. K. Smith, of Plympton, Digby county, and is only seventeen years of age. In speaking of the installation the Lynn *Item* says: "The newly elected worthy patriarch and the deputy spoke. The installation was a public one, and among those present was William K. Smith, of Plympton, N. S., a former member of the order and father of the new worthy patriarch, who gave a most interesting address. A later copy of the same paper says: At the regular meeting of Wenuchus Division, Sons of Temperance, at Randall's hall, Monday evening, three candidates were initiated. The work was performed for the first time by the newly installed worthy patriarch, John K. Smith."

Easy to Get Rid of Dandruff.

Dandruff means that down near the roots of your hair there is a vast army of little invisible germs of microbes. And this army never sleeps, it wages a war of destruction night and day. It destroys the nourishment that the hair must have in order to grow vigorously and abundantly.

PARISIAN SAGE now sold all over Canada will destroy these germs and at the same time furnish the hair roots with just the proper nourishment to make hair grow lustrous and luxuriant.

PARISIAN SAGE is guaranteed by H. E. Jones to banish dandruff, stop falling hair and itching scalp or money back. It is a delightful hair dressing that wins instant favor with refined women. Sold for only 50 cents a large bottle by H. E. Jones and druggists everywhere. Girl with Auburn hair on every carton and bottle.

Will be Appreciated in Digby.

St. John Times: Sugar and molasses are reported cheaper this week than for some time. They had been on the upward trend for quite a while, and, in fact, had reached what was considered a record in this city as regards price.

A drop of ten cents was made in sugar on Thursday afternoon, while the arrival of 200 puncheons of molasses caused a drop of two or three cents in that commodity. There is not much of the old stock on hand, and the arrival of the new stocks forced the price.

Fashionable Event at Salmon River.

(Special to the Courier.) Thursday, the 11th inst., was celebrated the marriage of Mr. Albert Maillet, son of Joseph P. Maillet, and of Miss Madeline Stark. The happy couple were made one by the Rev. The bridesmaid in attendance was Miss Emilie Deveau, sister of the groom, and the groomsmen, Mr. Austen B. Deveau. After the happy event, was over the bride party retired to the home of the groom's father, where a luncheon was served, and in the afternoon they went over to Mr. John R. Deveau's, brother-in-law of the bride. The evening was passed in the usual manner, music, songs and games. The presents were numerous, testifying to the high esteem in which the bride was held. Among those invited were Miss Marie M. Deveau, Miss Fannie Deveau, Miss Marie Gouneau, Miss Marie May Melanson, Mr. Joseph M. Deveau, Mr. Dolphie LeBlanc, Mr. Jerry Deveau, Mr. Jacques Deveau and others. The newly married couple intended to go up the line on a wedding tour but owing to the inclemency of the weather they had to cut out that part of the program. To Mr. and Mrs. Maillet we extend our most hearty congratulations and best wishes for a long, joyous and prosperous life.

DIGBY WEEKLY COURIER

Digby, Jan. 26, 1912

NIGHT TELEPHONE SERVICE.

The committee from the Digby Board of Trade appointed for the purpose of securing an all night telephone service, are certainly meeting with good headway in the right direction. They held a meeting Saturday night, got in communication with Mr. George Freeman, of Middleton, manager of this division, who met the committee in Digby Tuesday evening, accompanied by Mr. L. O. Stevens, of Halifax, and Mr. A. Murphy, of New Brunswick, of the company's contracting department.

The meeting was a very satisfactory one indeed and an all night week-day service was agreed upon throughout the entire year and an extended Sunday service during the tourist season from June to October, so that the Sunday hours would be from 9 to 11 a. m. and from 1 to 4 p. m., provided all the old fashioned phones would be changed to up-to-date ones at an increase of rental. There are only twenty old ones in the town and that a sufficient number of new subscribers be obtained. Mr. Murphy started in soliciting Wednesday morning with the result that the old ones are being changed, as yet only one or two hesitating to assist in giving Digby the best telephone service along the line. We feel safe in saying, however, that the present users of the telephone are too enterprising to in any way prevent the inauguration of the all night service.

As to new ones the committee gave the telephone people a list of prospective subscribers and we trust that when they are called on by Mr. Murphy, they will remain in town for a few days, and that they will subscribe at once so that the all night service will commence at an early date.

It seems almost unnecessary for us to refer to the great advantage of an all night service. For instance, think of the importance of the phone at the time of a fire, accident, sudden or serious illness or at a thousand and one other times which space alone prevents us from naming.

Now, as to the commercial advantages: A farmer in the country can call up a summer hotel, say five o'clock in the morning, get his orders for garden stuff, and have it here for breakfast.

Buy importers and exporters around town can do their telephone business after their regular day's work has been completed. In fact one of the committee who now has nearly a dozen phones, said, I will take another just to hasten the all night service.

The great advantage this will be to Smith's Cove and other villages connected with the Digby exchange, should start the present instrument holders out on a regular campaign to assist in getting new subscribers in their vicinity as well as in the town. This all night service must come and it is up to all of us to get busy and not only give the telephone solicitors a pleasant reception, but all the assistance commercially or otherwise they require.

We might add that Mayor Short, the present town councillors, and we believe all the candidates for civic honors, are unanimously in favor of this movement and surely it will be a success.

ADVERTISING DIGBY.

The committee from the Board of Trade will ask the Town Council for an appropriation, not exceeding \$8000, to advertise Digby as a summer resort, manufacturing town, etc.

Advertising is a good thing and we trust an amount will be granted. One thing is to advertise, and another thing is to know how to advertise. Fortunes have been made by advertising and also large sums of money have been lost in the same way.

We believe in newspaper and magazine advertising, but urge the necessity of having a very carefully selected committee from the Board of Trade to make the expenditure.

Digby got more advertising last year through the fishermen's regatta than she ever got before, and yet the summer hotel proprietors, with few exceptions, and also at least one prominent firm doing business with tourists, refused to contribute one cent toward this important event.

We realize, however, that they have since seen the error they made and we believe they will be ready to assist this year.

It is also much regretted that no suitable photographs of the schooner race and yacht races were secured for hotel booklets and other advertising matter.

The property and good will of the Little River Fishery Co. at Little River, Digby Neck, has been purchased by the Lank, Libby Fishery Co. of Vinal Haven, Maine. Mr. Darrell Cheney is in charge of the company's Little River plant.

The company plans to erect a large new building and install an up-to-date canning and big fishing plant in the spring, in order to handle all kinds of fresh and salt fish, and will therefore employ a number of men throughout the entire year.

The firm will also ship glue stock to Eastport, St. John, and other ports. Capt. B. A. Cheney, and other vessels, in building a fleet of gasoline boats, will assist in procuring the fish, and the transportation of the exports.

Mr. Pitman is expected home on the steamer to-morrow from Boston. Mrs. Pitman was a member of Olynpi Rebekah Lodge, I. O. O. F. of Avon, Mass., and during her illness was cared for by Opal Lodge, of Yarmouth.

That Rabbit Story.

It appears that for two years a rabbit has made his annual early-in-the-morning visit to Digby just a few days before the nomination for civic candidates, the early risers noting his presence in the snow. Wednesday morning he visited the government pier, some said to look for a former watchman and well known hunter, but others say to meet a friend who was returning from Boston, the rabbit evidently being the only one in town who knew the exact date of his arrival.

Death of Wm. Robinson.

AN OLD BRITISH SOLDIER PASSES PEACEFULLY AWAY.

William Robinson died at the home of his son James Robinson, Joggin Bridge, at 12 o'clock Wednesday night, aged 94 years.

The deceased was born in Ireland and served with honor in the British army, had won distinction in several battles and drew a pension up to the time of his death. When quite a young man he was transferred to Canada and he and his wife resided for a time at Kingston, Ont. Mrs. Robinson afterwards returned to Ireland where she survives him. He leaves in this country two sons, James and Edward, and one daughter, Mrs. Patrick Daley in Providence, R. I. In Ireland besides his wife, he leaves a son and daughter, and an aged sister, he having received a letter from the latter last summer the first he had heard from her for more than 50 years. He also leaves a large number of grandchildren and many great-grandchildren.

Mr. Robinson was for many years the keeper of Bear Island, the summer home of the late W. P. Rice, of Somerville, Mass. In this way he became well and favorably known to all of our summer visitors and to all the visiting yachtsmen, all of whom will regret to learn of his death.

The funeral will be held at 2 o'clock this afternoon with interment in Smith's Cove, the services being conducted by Rev. D. W. Dixon, pastor of the Hill Grove Baptist church, the Baptist being his favorite denomination, and the one he always attended when circumstances permitted, although the latter portion of his life was spent alone on an island until last autumn when his son James persuaded him to come to his home near the Joggin Bridge, where he was kindly cared for.

Smith Cosman Wedding.

The home of Mr. and Mrs. J. W. Cosman, Sussex, was the scene of a pretty wedding on Wednesday, Dec. 27th, when their sister, Miss J. Lulu Cosman was united in marriage to T. R. S. Smith, of Lynn, Mass.

The ceremony was performed by Rev. Mr. Dawson, of Sussex, in the presence of the immediate friends and relatives of the contracting parties. The bride looked charming in a gown of tan and carried a bouquet of roses. She was attended by Miss Gertrude McLean, of St. John, who wore a gown of cream silk and carried carnations. The groom was supported by his brother, Harry Smith, of Providence, R. I. The house was lighted with candles for the occasion, the dining room being prettily trimmed with green, while a miniature Christmas tree, adorned with lights stood in the centre of the table.

Immediately after the ceremony luncheon was served after which the young couple left on the C. P. R. for a trip to Boston and New York. The bride's travelling dress was of navy blue with hat to match. Mr. and Mrs. Smith will reside in Lynn, Mass.

The groom is a native of Barton, Digby county, and holds the position of private secretary to the president of the Boston and Maine Railway.

How the "Courier" is Valued.

One of Digby's residents, who recently returned from a trip to Massachusetts, overheard a conversation in Boston between a Digby county man who is a regular COTIER subscriber and one who is not. The latter was endeavoring to borrow the other's paper, but our genial friend said, "No I am sorry, but I cannot oblige you. We read every line in the COTIER at our house, advertisements and all and then my wife preserves it."

DIGBY, N. S.

CORRESPONDENCE.

To the Editor of the Courier:

DEAR SIR:—I am told the Town Council or Board of Trade propose an expenditure of three hundred dollars to advertise this town in magazines and periodicals published in the United States, having in mind of course, the bringing here of summer tourists in larger numbers.

I am a believer in advertising when it promises to pay and is judiciously done.

But three hundred dollars is quite a large sum to send out of the country when satisfactory results are to say the least somewhat doubtful.

I would propose as an alternative the town be put in such beautiful condition it will advertise itself, for we all know how attractive a neat, well kept town is to the average traveller and there are several such towns not very far away, and it seems to me nature has done more for Digby than for the other towns, but as in many other cases, so in this, nature needs assistance.

Can you name a town as beautifully situated as Digby? But don't you think it needs a new wardrobe, a new dress, a new hat, a new higher dress, and look down on the town, not on the Basin for the beautiful view you have of that will make you forget the quid and neglected look of the town which I would like to impress upon you.

Take a walk all over the town and see how many dilapidated buildings—dead and dying trees that need to be removed, or to have their branches removed and pruned into better shape; how many fences that need repairs (and are not fences in town both unsightly and superfluous). How many roads, both front and back, that need tidying up and then whitewash will do much while it lasts.

The stable keepers should be given a lesson in sanitation for the smells in their neighborhood are ungodly, especially in summer.

And Digby can be made such a pretty town. Don't you think so? And at little cost too.

How would it do to divide the town in districts or wards and appoint a village improvement committee for each ward to take view and property owners in a kindly way, asking them to snug their places up a bit, and perhaps offering suggestions as to how it should be done. And if you simply must spend that \$300 (0 dollars) why not spend it right here on the town?

And Digby can be made such a pretty town. Don't you think so? And at little cost too.

Will not this phase draw more people here than the magazine advertisements? I do not know and it is up to you. Think it over.

Capt. Morehouse's Estate

A NOVA SCOTIA WHO DIED IN A FOREIGN LAND.

Deputy Registrar of Probate Holmes, Halifax, a few days ago received a communication from H. E. Colford, British Consul General at Tien Tsin, China, dated Nov. 2, 1911. The letter asked for information as to the law in Nova Scotia in regard to the distribution of intestate estate with reference to the following circumstances:

George Edmund Morehouse, whose domicile was in Nova Scotia, died at Ekotok, in Siberia, on March 3, 1910, on his return from Tien Tsin, where he was master of a Chinese steamship. He left an estate here now being administered as an intestate under letters of administration granted by this Consular Court to Mr. A. Sheriff, attorney of the widow, who lives at Little River, Digby County, N. S.

There was no child of the marriage, but there are living five brothers and sisters of the deceased, all in Canada or the United States.

The question to be decided is the proper distribution of the estate according to the law of the deceased's domicile, as British subjects cannot acquire a domicile in China.

By the law of England the widow would take one-half and the brothers and sisters one-half, but the widow would be entitled to take £300 out of the estate as a first charge, and the other half of the remainder going to the brothers and sisters.

The schooner is bound from St. Andrews to Annapolis to load for Boston, and came to Dipper Harbor Thursday night in thick weather. As it was difficult to get her bearings at the time she commenced to drag towards the breakers. One of the chains parted and the other failed to hold, and she was within twenty feet of the breakers when the Kenton went to the rescue. After much difficulty a line was gotten aboard and the vessel pulled out of danger and inside the breakwater. The Kenton is attending the dredge at Dipper Harbor.

The bark Calbarge, loaded with 1,200,000 lbs. lumber for Buenos Ayres, shipped by A. D. Mills & Sons, Annapolis, which was reported in our last issue as anchored off Deep Brook, looking lost two more anchors last Friday and was docked at the government pier, Port Wade, by stmr. Granville, where it is said a portion of her cargo will be discharged for further examination to the hull. Mr. Outram Dakin and a crew of men from Digby, who were assisting the Calbarge's officers and men, returned home Friday via passenger boat from Port Wade. The Calbarge was built at Milford, N. S., in 1890, is 210 ft. long, 39 ft. beam, 23 ft. deep and registers 1350 tons. She was at one time owned by Thomas Douglas, of Halifax and commanded by Capt. McKenney, who was also port owner and who recently left her.

WRITE your name and address in the lines above, clip out this ad, and mail it now. We will send, by return mail, a book that tells how to make yours a "Twentieth Century" farm.

You wouldn't be satisfied to use a sythe to cut your grain, when a modern harvester can do it so much better, would you? Nor to use the old soft-iron plough share that your ancestors walked behind, when you can get an up-to-date riding plough? Every Canadian farmer realizes the advantages of Twentieth Century implements.

The next step is

The 20th Century Material—Concrete

Concrete is as far ahead of brick, stone, or wood as the harvester is ahead of the sythe or the riding plough is ahead of the old iron plough-share.

Concrete is easily mixed and easily placed. It resists heat and cold as no other material can. Hence is best for cellars, root cellars, barns, silos and homes. It never needs repair, therefore it makes the best walks, fence posts, chimneys, drain tiles, survey monuments, bridges and culverts. It cannot burn. Stop an old concrete poultry-house by filling it with straw and setting the straw alight. The live, ticks and all germs will be burned, but the house is unharmed.

It is cheap—sand and gravel can be taken from your own farm. Cement, the only material you must buy, forms from one-seventh to one-tenth of the whole volume.

Do you want to know more about Concrete on the Farm? Then write your name and address in the lines above, or on a postcard, mail it to us, and you will receive by return mail a copy of

"What the Farmer Can Do With Concrete"

Not a catalogue, but a 160 page book, profusely illustrated, explaining how you can use concrete on your farm.

DIGBY WEEKLY COURIER

Digby, Feb. 2, 1912

Death of the Rev. Dr. Osborne.

A telegram received here on Saturday last, contained the sad news of the sudden death of the Rev. Dr. Lewis S. Osborne, Rector of Trinity church, Newark, New Jersey.

Lately death has been making sad inroads among the most esteemed of our summer visitors, but in this case the people of Digby have an especial interest and know that they have lost a valued friend.

For the last eighteen years, he has, with one exception, been an annual visitor and we shall sadly miss his familiar face during the coming season. He was a brilliant preacher, and the announcement that Dr. Osborne was to occupy the pulpit, was sufficient to fill Trinity church to its utmost capacity. His clarity was unbounded and bestowed without the slightest appearance of ostentation. He was a genial companion, a sympathetic friend and a kindly gentleman. Whatever was done for the prosperity of the town received his approval and he was especially interested in the well-being of Holy Trinity church and congregation.

Death of Captain Seeley.

The death occurred at his residence, 153 Morris street, Halifax at 2 p. m. Monday of Capt. Charles W. Seeley, in the 64th year of his age. The deceased was a native of Yarmouth and in early life followed the sea, and later commanded several Yarmouth vessels. He sailed for many years as master of Packard & Black's steamers between Halifax, St. John and the West Indies. He retired several years ago and entered the civil service, at the time of his death holding the position of Inspector of Hulls of the Nova Scotia division, to which position he was appointed on the 1st of March, 1908. Capt. Seeley was twice married and is survived by a widow, formerly Miss Anna Seeley, of Brighton, Digby county, and three sons and two daughters. Mrs. A. W. Ekins, of Yarmouth, is a sister of the deceased. The funeral took place at Halifax at 2:30 o'clock Wednesday afternoon, with interment at Fairview cemetery.

No Halifax Herald For a Few Days.

A Halifax despatch says: Owing to the entire destruction of the Halifax Herald building and plant in the recent fire and the excessive cost of producing a small paper, a disappointing to the management as it must also have been to readers and advertisers, the Herald and the Mail will not be issued for a few days, after which these papers will be printed from a battery of new line types and on a sixteen page press, temporarily installed in the Clayton building, Barrington street. Mr. Denton, proprietor of the Herald, declined to make any statement as to the circumstances by which the Chronicle has ceased to assist in printing the Herald, which it undertook to do while the fire was raging.

Trinity Parish, Digby.

The following resolution was passed at a recent meeting of the Parish corporation: "We, the Rector, Wardens and Vestry of Trinity Parish, Digby, N. S., in meeting assembled this 30th day of January, 1912, desire to place on record our sorrow at the sudden death of the Reverend Lewis Shreve Osborne, D.D., Rector of Trinity church, Newark, N. J., by his constant interest in the welfare of this parish and of the whole community, by his willing service as preacher in the parish church, and by his readiness to aid the cause of missions, endeared himself to the people of this parish throughout the many years during which he paid an annual visit to Digby. We desire to express our sympathy with his bereaved family, and trust that the God of all consolation will comfort them."

Married in Boston.

Miss Stella F. Rice, of Milford Corner, Bear River, was united in marriage to Mr. Albert L. Rood, of Belmont, Cumberland county, N. S., at Boston on Jan. 5th, by Rev. J. H. Heath, at his residence. Digby County Temperance Alliance

A Weymouth correspondent writes:—Ald weather favored the County Alliance for their meetings on Tuesday. A few delegates from various churches in the county assembled in the Methodist church in the afternoon, when the appointment of officers for the ensuing year took place. Interest appeared to centre around the evening session, when a goodly number gathered and an interesting programme was carried out.

Re Electric Light.

In view of the difficulty experienced by the management of the electric light about the first of the year, which was most annoying and somewhat unexpected, an assurance may be given now that the difficulty has been successfully overcome by the discarding of the old machine and the placing of a new one, borrowed until our new one, now being constructed, is ready to be installed.

I may say that tests in several parts of the town by a competent person have been made and found most satisfactory. The lights in several places being beyond the voltage called for.

CORRESPONDENCE.

To the Editor of the Courier:

DEAR SIR,—Kindly allow me space for a few remarks in answer to one who

likes Digby. He says nature has done

for Digby than any of the other

towns, yet deploring its kept and

unsanitary conditions. Trees, good

pruning, new wardrobe etc., but he

concludes his letter by confessing his

ignorance. He doesn't know whether

the money would be better spent his

unanimously decided to spend it, which

was backed up by a petition signed by

the largest number and most repre-

sentative rate payers of our town.

Can it be possible we have such a citizen

in Digby who for the sole purpose

of publishing in the public press and

sent broadcast over the country. To

use his own words, "The view of the

beautiful Basin will make you forget

the quail, neglected look of the town

which I would like to impress upon

you." Now, Mr. Editor, and citizens

of Digby, I ask you to be the judges.

are not such false and damaging ex-

pressions an insult and injury to every

citizen and business of our town? They

must certainly come from the mind of

pestinist, and not one who likes

Digby. Supposing the town was in

the quail, unsanitary, and neglected

condition he claims, which is false, and

he knows it, does it show the proper

spirit to send the word broadcast in

the press so that the papers in other

towns near us that are so well kept, to

use "one who likes Digby's" own

words, can and doubtless will make

use of it. Why does he not call the

Mayor and other Councillors' attention

to it, and learn why some of the two

thousand nine hundred dollars surplus

the town had some few years past was

not spent to rectify this horrible con-

dition of things. Why, or for what

are we paying a street commissioner

four hundred and eighty dollars a year

and the appearance of our town made

unightly by dead and dying trees.

Why pay a health officer one hundred

dollars per year and the small of the

lively visible, as one who likes Digby

puts it, are ungodly. What I ask is

being done with the rate payers money

when our town report for 1910 shows

two thousand one hundred and sixty-

nine dollars and fifteen cents and for

1911, two thousand three hundred and

sixteen dollars and fifty-five cents

spent on streets alone.

Why did one who likes Digby not

see it that \$40.00 or \$50.00 of the

amount used to raise the sidewalk on

spent was for the purpose of advertising Digby as a tourist, manufacturing and business centre, and to show that the proper spirit is manifest, a number of business men of the town have provided a fund to pay the additional tax of each and every laboring man and widow of the town caused by ad-

vertising, and by calling at the Bank of Nova Scotia or Royal Bank of Canada will be assured such is the fact.

Thanking you, Mr. Editor, for your valuable time and space,

WHITE MUSLIN Underwear Sale! GRAND OPENING FEBRUARY 1st And Following Days

Again comes the great annual event, upon which we have bestowed our best efforts. Many elements contribute to the importance of the occasion, and nothing is lacking to make it the most successful of any of our MUSLIN UNDERWEAR SALES. Assortments are the largest we've ever provided and embraces none but sanitary made garments. Good materials, ample sizes, correct shapes, pretty and exclusive trimmings and perfect needle craft are features of the garments offered. Before the recent advance in the price of Cottons, Laces and Embroideries, the Kelpie Whitewear Mfg. Co. placed gigantic orders to keep its factories running at their full capacity during the dull season. The garments produced were priced just to cover cost. DON'T LET THAT COUGH ROB YOU OF SLEEP

You probably know all too well how it goes. Just as you doze off, the tickling starts in your throat. A gentle cough, still asleep. A harder cough, and then another. First thing you know, you're wide awake, coughing your head off.

A few nights of that and you're so worn out and weakened that the cough takes a tight grip on you.

But why endure it?
Na-Du-Co Syrup of Linseed, Licorice and Chlorodyne will soothe that exasperating tickling, loosen the phlegm and cure the inflammation of the mucous membrane. It not only stops the cough quickly, allowing you to get sound, refreshing sleep, but it goes to the root of the trouble and drives out the cold completely. Children willingly take Na-Du-Co Syrup of Linseed, Licorice and Chlorodyne, because it tastes so good. Your Druggist has it or can quickly get it for you in 25c. and 50c. bottles. The National Drug & Chemical Co. of Canada, Limited.

Governor General in New York.

New York, Jan. 21.—Business was practically suspended on the stock exchange while the brokers assembled in the library to await the arrival of the governor general of Canada and his party. The party arrived at the stock exchange in two automobiles. The street in front of the building was jammed with people and Detective Fumston, detailed by Commissioner Waldo to follow the royal party wherever they go, was forced to accept the assistance of several policemen in clearing a way.

On the drive to the stock exchange the party passed the ruins of the Equitable building, and were stopped there by the officer guarding the ruins. They appeared much interested in the fire.

The crowd waited in the narrow streets outside of the stock exchange all the time the ducal party were within. The duke and duchess and Princess Patricia, who arrived today with Mrs. Cornelius Vanderbilt, Mayor Gaynor accepted an invitation to meet the party at luncheon.

To Prohibit Use of Flag in Advertisements.

OTTAWA, Jan. 21.—George H. Brady, M. P., has prepared his bill with regard to the use of the flag for advertising purposes, and it will likely be introduced in the House tomorrow.

The bill is a simple one and is designed to prevent any desecration of the flag. It is a misdemeanor to put any words, figures or designs on a Union Jack. It is also forbidden to use the flag for any sales. The flag can still be used in advertisements, provided there is nothing on the emblem itself. There is nothing also in the act to prevent the use of any trade mark which has as its design or part of it, any representation of such a flag.

The bill calls for a fine of \$100 a day for each offence.

Mr. Bradbury has received numerous letters condemning him for his stand, although many demand for more drastic action, some even asking that the floating of any foreign flag be prohibited.

We have received the following letter from one of our American subscribers:

To the Editor of the Courier:
Dear Sir, It is with all good wishes that I write to extend to you and your staff a very happy and prosperous New Year. I read the paper from Digby with much pleasure and it is not a letter from home which I am interested in, but the paper which I am interested in. I think all good people who are abroad should have the Courier. I wish to thank you for the promptness and regularity with which the paper is mailed every week.

2 IN 1 FAMILY

Here is one of the many cases in which several members of one family have benefited from the household box of Zam-Buk. Col. Sgt. J. O. Elliott, 3rd Co., 46th Battalion, Peterboro, Ont., says: "The lower part of my face, cheek and chin broke out in small red pimples, which later festered and broke, forming nasty sores and dry scabs. The itching set up by these eruptions and sores was terrible, and seemed far worse during the night. All kinds of soaps, washes and ointments were tried in the vain attempt to get relief, even to bathing with carbolic acid and water. Finally I thought of Zam-Buk and straightway procured a box at the drug store. One night's application brought great relief from the intense itching, and as I kept on applying this balm daily, the inflammation was soon drawn out, and in less than a week's time the sores were thoroughly healed and every scab banished."

Mrs. Elliott, 139 Sherbrooke St., Peterboro, telling of Zam-Buk's effect on her younger son Walter, says: "He slipped and caused a wound on his right hip, which developed into a running sore. From this smaller sores spread until his lower limbs were covered with ulcers. These proved very alarming and I feared blood poisoning! I began the Zam-Buk treatment, and it really seemed to aid like magic! In a remarkably short space of time the raw running sores were all healed. I am very grateful indeed for his cure, and I strongly recommend all mothers to keep Zam-Buk always handy."

WHAT ZAM-BUK WILL CURE.
Zam-Buk will be found a cure for cold sores, chapped hands, frost bites, skin eruptions, varicose sores, piles, scabs, ulcers, ringworm, inflamed patches, bedsores, eruptions and chapped chins, cuts, burns, bruises, and skin injuries of every kind. CANON ELLEGOOD.

Aged Clergyman Was Beloved by All Who Knew Him

A well-known and venerable clergyman was lost to Montreal a short time ago, the person of Canon Ellegood. He was eighty-seven years of age, having been born at Dumfries, New Brunswick, of U. E. Loyalist stock, on March 16th, 1825. For sixty-three years he was continuously in the Anglican ministry, and for forty-seven of them was rector of the Church of St. James the Apostle, in Montreal. It was his wish for some years that he should pass away on the Sabbath day—a wish that was granted.

Canon Ellegood was a man of the simplest tastes. Early this year when asked by an interviewer to what he attributed his longevity, he replied: "Now, the secret of a long and happy life is this—Mind what you put in the stomach. Most of our troubles begin there. Live simply. Eat not too much. Eat little. Don't eat animal food. Of course, you'll say I'm a crank about this. All right. This is a free country. Don't envy your neighbor. Be pleased with his prosperity. Be happy in your own way. Think God for His blessings. Remember that God wants us to be happy. Don't worry about the means."

When queried once as to the character of the teaching he had made most prominent in his ministerial life, the Canon replied:

"That is a question difficult to answer, but as it so presents itself to my mind at the moment, I would answer: The living Fatherhood of God, the brotherhood of man, and that all who are dedicated in the three holy names of the blessed Trinity are children of God and are to be treated as such in the nurturing and education of the Lord. Every wayward child they may be, but still His children. Like the son in the parable of the prodigal, although he had wandered far away and spent his substance in riotous living, he was still the son of his father. Nothing would change or alter that relationship. So, no sin, however sinful, can separate us from the love of God. We are always His children, since we are baptized, although at times sinful and disobedient. Further, I desire to emphasize most strongly that Christianity furnishes the way for the whole life. It must permeate our pleasures, our politics, our business, and the teaching of Jesus, the Christ, should rule in everything—our home, school, and factory, home and school. These have been in some respects the prevailing thoughts of my preaching."

Winnipeg's Good Start.

The great complaint against all municipal government is that it is neither comprehensive, continuous nor far-sighted. The municipality works from year to year in a haphazard manner, instead of thinking out in advance its next quarter-century needs. Winnipeg, the enterprising commercial metropolis of the West, has got down to real work in town planning. It has a town planning commission, which is going at the task in a broad-minded way. There are sub-committees on traffic and transport, social survey, housing, aesthetic development, dockage and river frontage, physical plan and legislation.

The traffic and transport committee will undertake the work of studying the traffic problems, both vehicular and railway, and will not only try and get an accurate idea of the present conditions, but will make suggestions to avoid trouble in the future.

The dockage and river frontage committee has in hand not only the question of river traffic and wharfrage, but also the important one of making suggestions for a general scheme for the beautification of the river frontage. The aesthetic committee, which is composed of almost entirely architects and artists, will deal with all matters of art, and will have an eye on the city beautiful.

A Tall Yarn.

A big game hunter and his brother recently spent a year in and about the Rocky Mountains. They had two rifles, one bullet, and one keg of powder. With these they say they killed on an average twenty-seven head of buffaloes a day. The fact that they did all this with one bullet led to the following cross-question: "How did you kill all these buffaloes with only one bullet?" "Well, we shot a buffalo. I stood on one side and my brother on the other. Brother fired, and the ball passed into the barrel of my rifle. We kept up the hunt for twelve months, killing nearly 200 buffaloes a week, and yet brought home the same ball we started with!"

G.T.P. Mountain Hotel.

The first of the G.T.P. mountain hotels will be erected at Tiddie Creek, and the name of that place will be changed to Mietto Hot Springs. These springs are within seven or eight miles distant of the proposed hotel site, and are situated just beyond the Roche Mouton Mountains, to the west of the station.

Let Criminals Beware.

The records, finger prints and photographs of no less than 5,500 murderers, thugs, vag. flimflammers, smugglers, pickpockets and other offenders of the law are now on file at the office of the Dominion criminal identification bureau, according to the statement made by Inspector Foster.

Danvers, Ont. July 17th, 1910.
"I was a dreadful sufferer for many years from Sick Headaches and Biliousness, or Torpid Liver. I tried many remedies and physicians, but nothing seemed to do me any good. I finally used 'Fruit-a-Lives' and after the first box, I was so much better that I continued using these fruit tablets and they have entirely cured me."

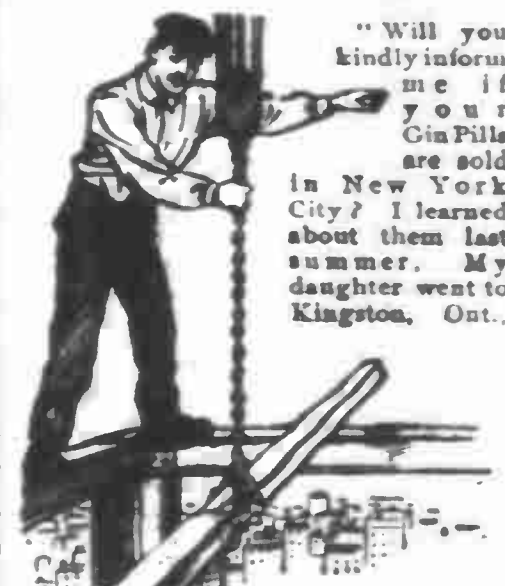

"I certainly can recommend 'Fruit-a-Lives' to anyone who suffers from Headaches, Biliousness or Stomach Trouble." Mrs. ISAAC VANSICKLE. Thousands of people have had the same experience as Mrs. Vansickle. They have tried doctors and taken all sorts of medicine, only to find that 'Fruit-a-Lives' is the one and only remedy that actually cures these troubles.

'Fruit-a-Lives' is the only medicine in the world made of fruit juices, and is the greatest Liver Cure ever discovered. It acts directly on Liver, Kidneys and Skin—sweetens the stomach and purifies the blood. 50c. a box, 6 for \$2.50, or trial size, 25c. At all dealers or from Fruit-a-Lives Limited, Ottawa.

A Good Emulsion

This may seem an exceedingly simple thing to talk about, but its importance at this season of the year when the system is exposed to the incursions made upon it by our uncertain climate should not be underestimated.

The nutritive and reconstructive properties of **Good Liver Oil Emulsion** are too well known to need any explanation here, sufficient be it to say that **Jones' Emulsion** includes all that is latest and best in Emulsion making and contains the full percentage of pure Cod Liver Oil.

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as a sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases. It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.,—take the advice received and be well.

Humor and Philosophy

By DUNCAN M. SMITH

PERT PARAGRAPHS.

ONE good point about believing in signs is you can always find one forbidding you to do the thing you don't want to do.

The church is always cold when a girl has a new set of furs.

The man who has to pay the coal bill isn't fond of the music of the wind in the chimney.

Lots of people will give a cup of cold water in charity, but that is their limit.

We often want to swat the man with the perpetual smile.

Family friendships cover a multitude of impertinences.

If you want to know what skulduggery is going on in your neighborhood ask your own innocent small son.

A girl always thinks a headache is a more dignified excuse for nonappearance than a cold sore.

The boys always play the old man for a sucker, and they win 51 per cent of the time.

There are no pumpkin pies like those that mother used to make, and there is no stomachache like that we used to get from drinking sweet cider and eating green bickory nuts.

Old Fashioned. One thing stands out distinct and clear. The midnight ride of Paul Revere. Although successful in a way. Would very different be today. For, though he did the best he could, and, as the histories say, made good. That all the country might give heed. Because he only had a horse.

There were no autos on the ground. And so he did not stand around. And wish he had a yellow car. That he might spread the news afar. And break the limit set for speed. That all the country might give heed. The car was not his one best bet. It hadn't been invented yet.

Had Paul been fixed on that good date To run an auto up the state. A forty horse car runabout. He could have called the country out. And on his journey back to town. Have run the British army down. And scattered arms and heads and feet. All up and down the bloody street.

Too bad he wasn't thus equipped. That was a point on which we slipped. The war, with all its wear and tear. Might have been ended then and there. Seven bloody years we had to fight. And keep our pickets day and night. And all because the doughty Paul Had not an auto at his call.

To Find Out What's in It. "It must be an awful job for a president to write his messages." "But he doesn't have to write them. He can hire a man to do it." "I was just wondering." "What?" "If he could hire any one to read them."

Simpler Way.

"That doctor says pie and cake are unhealthy." "Then you will quit them?" "Not much." "But you want your health back?" "Of course I do." "What are you going to do, then?" "Change doctors."

Sold. "You can't get something for nothing." "I know I can't." "Why so blue?" "It was the other fellow who got it."

No Ability Required. "He is mentally incompetent." "But he seems to be able to perform the ordinary duties of life." "Oh, he could get married or do anything like that."

Sure. "There's always one thing that will get back at you if you abuse it." "What's that?" "Your health."

Willing to Discover It. "How is the eating at your boarding house?" "When I find some I will let you know."

As Usual. "Hello, Percy." "How are you?" "All right. How's the weather?" "Busy."

Seems a Shame. "Though progress makes for it a bit in no uncertain time. It's taking candy from a kid. To swipe the Chinese throne."

Free to Stock and Poultry Raisers

We will send, absolutely free, for the asking, postpaid, one of our large sixty-four page books on the common diseases of stock and poultry. Tells you how to feed all kinds of heavy and light horses, colts and mares, milch cows, calves and fattening steers, also how to keep and feed poultry so that they will lay as well in winter as in summer. No farmer should be without it.

NOW is the time to use Royal Purple Stock Specific. At a cost of only two-thirds of a cent per day per animal it will increase it 25 per cent in value. It permanently cures Cuts, Colic, Worms, Skin Diseases and Indigestion. Restores run-down animals to plumpness and vigor. It will increase the milk yield three to five lbs. per cow per day and make the milk richer. Royal Purple is not a stock food. There is no filler used in its manufacture, and we import from Europe all the seeds, herbs, barks, etc., and grind them to our own private formula. We do not use cheap filler to make up a large package. We give you the best condition powder ever put on the market in a condensed form. A tablespoon levelled off once a day is sufficient for a full grown animal. It prevents disease, keeps your animals in perfect health, and is absolutely harmless. It makes six weeks old calves and ordinary calves at 10 weeks. You can develop six pigs ready for market in just one month's time and then you can possibly do without it at a cost of only \$1.50, saving you a month's work and a good deal of money. A 50c package will last 10 days. A \$1.50 package will last 30 days. A \$3.00 package will last 60 days. A \$5.00 package will last 90 days. A \$10.00 package will last 180 days. It prevents poultry from losing flesh at moulting time, cures and prevents all the ordinary diseases, makes their plumage bright and keeps them in prime condition.

You will be proud of the bread you'll make with PURITY FLOUR

AFTER seeing a batch of big, golden-crust, snowy white loaves, that you have baked from PURITY FLOUR, you will, indeed, be proud of your cooking-ability and proud of your wisdom in deciding to pay the little extra it costs to procure such high-class flour. You will admit, too, that we are justified in the pride we take in milling this superb flour.

PURITY FLOUR

"More bread and better bread"

PURITY FLOUR is milled exclusively from the best Western hard wheat—the world's finest. More than that, PURITY FLOUR consists entirely of the high-grade portions of the wheat. The low-grade portions are separated and excluded during the PURITY process of milling. Such high-class flour, of course, expands more in the baking. It makes "more bread and better bread."

It makes lighter, flakier pastry, too, if you just take the precaution to add more shortening. On account of its unusual strength PURITY FLOUR, for best results, requires more shortening than ordinary flour.

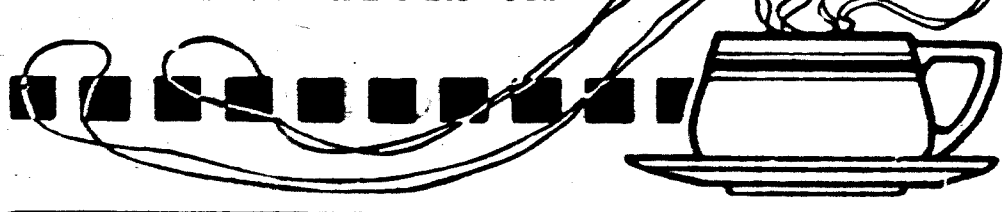

Progressive dealers, everywhere, sell PURITY FLOUR and take pride in recommending it.

Add PURITY FLOUR to your grocery list right now.

Here is a real tea-treat that will surpass your fond recollection of "the nicest cup of tea I ever tasted!" King Cole Tea will truly make an even nicer cup of tea an every day reality. And the cup you enjoy a month hence will be as nice as your very first sip. Its delicious flavor never varies. You will love it more and more.

YOU'LL LIKE THE FLAVOR.

DOCTOR ADVISED OPERATION

Cured by Lydia E. Pinkham's Vegetable Compound

Canifon, Ont.—"I had been a great sufferer for five years. One doctor told me it was ulcers of the uterus, and another told me it was a fibroid tumor. No one knows what I suffered. I would always be worse at certain periods, and never was regular, and the bearing-down pains were terrible. I was very ill in bed, and the doctor told me I would have to have an operation, and that I might die during the operation. I wrote to my sister about it and she advised me to take Lydia E. Pinkham's Vegetable Compound. Through personal experience I have found it the best medicine in the world for female troubles, for it has cured me, and I did not have to have the operation after all. The Compound also helped me while passing through Change of Life."—Mrs. LETITIA BLAIR, Canifon, Ontario.

MRS. H. L. INGERSOLL

A SINGLE HAIR.

My little boy had been playing on the street, as usual, with instructions not to go off the block. Living midway between the two cross streets, I could always see him by going to the front door or a window. When it came time for the noon meal I stepped to the door to call him. I looked both ways without seeing him. Frightened, I ran out and up and down the street looking for him. My worst fears were realized when some children told me that a man had taken the boy with him to buy him some candy.

At the time I was too wild with terror to get any description of the man; but, having waited several hours without my boy's returning, I made up my mind that he had been kidnapped and finding the children who had seen him, learned from them that the man was short and thick set with light hair. I called at the police office to notify them of the abduction and intended to give the sergeant what information I had acquired. But I was so discouraged at the way the police talked about the matter—they didn't seem to know where to begin—that I concluded to handle the case myself. I consulted with my husband, who though in the same trouble as myself, showed admirable self-control, and he agreed that we would wait for a demand for ransom without taking any action.

The demand came through the post-office, written on a scrap of letter paper and enclosed in an envelope. Whoever wrote it was not so illiterate as kidnappers usually are. The handwriting was that of a man, and the spelling indicated a foreigner. My husband took it to a professor of languages in the university, who, judging from a single word spelled as the sounder would pronounce it, concluded that he was a Swede. His light hair tallied with this, since Swedes nearly all are fair.

We wrote a reply stating that we would willingly pay the ransom, that we would have nothing to do with the police, and that all we asked was the return of our boy.

A reply came in due time, and I looked the envelope over carefully before opening it. I saw protruding from the end of a hair. Moreover, I noticed that it was almost white. I opened the envelope very carefully, steaming the gum so that I should not tear the paper. A surprise awaited me. On exposing the whole hair—it was about an inch long—I found that, though the part which had protruded was light, the rest of it was black. It occurred to me that the man, in order to escape identification had dyed it. Evidently the hair in my possession had grown since its dyeing, about a week, the time that had elapsed since the kidnapping.

The letter directed us to go to a certain suburb on a certain night and on the northwest corner of two intersecting roads we would find a hollow log. We were to put the money in the log. It would be useless, the letter said, for us to follow us, for the space for some distance surrounding the log would be picketed.

Having now a clue, we called in the aid of a professional detective. He said at once that, while our information would be very valuable in identifying the kidnapper, there was but one way of finding him, and that was to track from the postoffice whoever called for the mail. This he undertook to do. But to facilitate his work he suggested that we send an indefinite reply to the letter. So we asked for time to raise the ransom and how long he would give us.

A young man about eighteen years old called for this letter, and as the clerk handed it to him, he signalled our detective, who was on the watch. The young man dodged about for an hour, making some very quick turns in order to lose anyone who might be following. But our detective was used to that and refused to be lost. He tracked the man to a vacant building that had been occupied for a blacksmith shop. It was only a place

of rendezvous, and after the delivery of the letter the young man departed, to be followed about ten minutes later by another man. This one the detective followed to a five-story tenement building.

The next day our man kept a watch on those entering and leaving the building and spotted a man whose appearance tallied with the description we had of the kidnapper. He was short and thick set. His hair and beard were a blue black, but his shadow succeeded in getting near enough to him to notice a few days growth of light hair under the black.

We were not willing to take any risk of our boy being killed, so we decided to pay the ransom and make the arrest immediately afterward—that is, if the kidnapper returned to his quarters. So we left the money in the log and the next morning we heard our boy crying outside the door. The relief we experienced is inexpressible.

Our detective, who was on the watch soon after midnight, saw the man he had spotted enter the building he was watching. He dared not make an arrest until we should telephone him that the boy had been returned, but placed a cordon of police about his habitation and a few hours later, arrested him.

So we got our ransom back and our boy, too, and all by the kidnapper's carelessness in regard to a single hair.

Operation for Piles Failed.

ZAM-BUK WAS THEN TRIED AND WORKED A CURE.

Writing from Poplar, B. C., Mrs. C. Hanson, wife of the proprietor of the Commercial Hotel, says: "I suffered for years with bleeding piles. The pain was so bad at times that I could hardly walk, and ordinary remedies seemed utterly unable to give me any ease. Finally I decided to undergo an operation, and went to the Sacred Heart Hospital in Spokane. There they performed an operation and did all they could for me. For a time I was certainly better, but within twelve months the trouble started again, and the piles became as painful as ever. I tried liniments, hot poultices, various 'pile cures,' and indeed everything I could think would be likely to do any good, but still I continued to suffer, the shooting, burning, stinging pains, the dull, aching and wretched, 'worn-out' feeling that the disease causes continued as bad as ever.

"One day I read about Zam-Buk and thought I would try it. The first one or two boxes gave me more ease than anything else I had tried, so I went on with the treatment. In a short time I began to feel altogether different and better, and I saw that Zam-Buk was going to cure me. Well I went on using it, and by the time I had used six boxes I was delighted to find myself entirely cured. That was three years ago, and from then to the present time there has been no return of the trouble."

Zam-Buk is a sure cure for piles, eczema, ulcers, abscesses, cold sores, chapped hands, various sores, burns, scalds, bruises, inflamed patches, and all skin injuries and diseases. Drug-gists and stores everywhere, 50c. box, or Zam-Buk Co., Toronto, for price. Refuse harmful substitutes.

Changes in D. A. R. Staff.

A Kentville despatch says: On February 1st, several important changes will be made in the office staff of the D. A. R. headquarters at Kentville. The offices of Traffic Superintendent and Accountant are abolished by the retirement of William Fraser, and H. A. Pratt. Both of these gentlemen retire on a pension after a life spent in the service of the railroad. Mr. Pratt is the oldest man in connection with the company, having been in its service since the opening of the Windsor and Annapolis road. Both Mr. Fraser and Mr. Pratt are very popular with everyone in railroad circles, and genuine regret is expressed that they feel that the time has come for them to retire.

A. E. H. Chesley, becomes Chief of the Accounting department.

G. A. Parker, traffic auditor.

G. Sterling, paymaster.

J. D. Murphy, Jr., superintendent of transportation.

Very Good Reasons.

"Are you going to marry Mr. Simple?" "No, I think not. Father is not satisfied with his income; mother doesn't like his family; I don't think he's very handsome; and, besides, he hasn't asked me."

CLARKE BROS.

A Day Dream.

I sleep, I wake, my eye behold
The Eastern sky; their light unfold,
And rapturous sound of motor boat
But illy blends with feathered throat.
How sweet the air of morning light,
What rapturous scenes assail my sight,
And only man seems not to bring
The homage due to Christ our King.
I hear the sounds of noise and strife
That ever flow through human life,
Am I my brother's keeper, Lord?
He answers plain in sacred word.

Lake Prophet, Priest and Saint of old,
Who stood on Neb's Mount controlled,
I mind his words, I hear his will
On him who seek his brother's ill.

'Twas ever thus since world began
That man of strife with fellow man
And cares not for his brother's need,
If he can save his selfish greed.

The house of God these men frequent,
I fear by Satan they are sent,
For while they sing of Christ the Lord
Their thought and words but ill accord.

Oh, Christ our Lord, can brother see
His brother plunged in misery
And not stretch forth his helping hand
While deans laugh and understand?

Oh Lord, keep us from politics,
Save us from all such knavish tricks,
But let us listen to thy word
And know the Fatherhood of God.

In love, and truth, and purity,
May we with all thy words agree
And strive in life while yet we can
To prove the fellowship of man.

While brothers all may not agree,
As Christ would have in unity,
We none should seek to harm the other
But show to all, he is our brother.

And now to brothers, friends and all
Who read these lines and on us call,
Be not too harsh or of us judge
For life's too short to hold a grudge.

M.O.U.L.

When election's next come to our land
Be bold as Paul and take your stand,
Your brother's edict do not cover
Ask him of God, think no more of it.
For he who covets neighbors' poll
In God's command, has cursed himself.
His future life we cannot know
But Satan laughs in realms below.

CORRESPONDENCE.

To the Editor of the Courier:

DEAR SIR.—With all that has been done through the press and other sources to try and suppress profane and bad language, we are continually seeing complaints appearing in the papers, from citizens in towns and cities throughout the country, in the way, in which it can still be heard around the streets and public places. This is not only from men, but oaths can be heard from children, which is enough to make your hair stand. I do not think there is any city in Canada where there has been as much space given by the press, to try and clean out profane and bad language as there has been in Halifax. And in defence of this, we see a statement published in our papers from the Rev. Father John Foley, calling attention to the way blasphemous language can be heard around our streets. The reason for this can solely be placed to the laws which exist against it not being carried out by the police, and until they are given to understand that this is part of their duty, I do not think that all the clean month Leagues, such as have been started in Canada and the great parades of the Holy Name Society, which has become so prominent in the United States or anything which can be done through the press will have the desired effect, if they are not backed up by the laws of the land which exist against it.

The proof of how neglectful the police are, as to such evils; some years ago when profanity had become so rampant in H.ifax, the matter was brought up before the police commission, and they gave instructions to all the forces to arrest people who could be heard using profane and bad language around the streets and public places. For a time the orders were obeyed, and there were many arrests made and the offenders heavily fined. And while this continued, the instructions were not faithfully carried out by the police as the arrests gradually grew less, and for the last year or two there was scarcely a charge before the police court for this offence. And to show how neglectful the police are in not enforcing the laws against other evils, there has been many letters appearing in the press in Montreal and other cities from citizens calling attention to the lack of the enforcement of the laws against expectorating on the streets, the smoking of cigarettes by the youth, Sunday stores being open on Sunday supplying them with cigarettes. All these laws are meeting with the same fate in the hands of the police as that of profanity. It is well known that the police have become parties to many of these evils themselves, and as they are so many cases, becoming the biggest offenders themselves. Sometime ago I witnessed a case of this kind, in a town where people had assembled to witness a hockey match, and in the lobby of the hotel, a man was heard using profane and bad language which attracted the attention of all the people, and on enquiring, it was found he was a constable from a neighboring town.

The good behaviour of the people, and the enforcement of the laws are greatly in the hands of the police, therefore, I think it is time for the people to wake up on this point, and see that the police are doing what they are paid for, otherwise, what is the use of paying for police and not getting the service. If the laws were properly enforced by them, these evils that are complained about would not exist.

Yours truly,

GEO. WRIGHT.

I. C. R. Calendars. Tasteful and Artistic.

The Intercolonial Railway calendar for 1912 is a useful, tasteful and artistic. On a background which is a capital representation of walrus hide, there is a finely toned picture of the famous Maritime Express, speeding through a scene that is typical of the summer splendours of the Intercolonial Route. The emblematic moose head appears at the top enclosed in a circle of scarlet. The lettering below is plain and neat, the words "Intercolonial Railway" standing out prominently in snowy whiteness, while the balance of the descriptive wording is tastefully shaded to harmonize with the background of light brown leather. The tab is of a chocolate color, with plain figures in white that can be easily read. Thus the calendar is highly useful as well as distinctly ornamental, and should be eagerly sought for as a souvenir. As usual they will have a very wide distribution all over Canada and the United States. A large quantity has also been sent to England for circulation through the British Isles by means of the various agencies. Indiscreet requests for the calendars come from almost every quarter of the civilized world.

The loss of sailing vessels, principally by foundering, resulted in the death of 107 persons, while with steam vessels 87 lives were lost. The principal disaster during the year was the foundering of the steamer Arkadia, which sailed from New Orleans for Porto Rico with 37 people on board and never was heard from. In the foundering of the Pece Marquette Ferry No. 18 on Lake Michigan 27 persons were lost. In all 159 steam vessels were lost.

Stomach Blood and Liver Troubles

Much sickness starts with weak stomach, and consequent poor, impoverished blood. Nervous and pale people lack good, rich, red blood. Their stomachs need invigorating for, after all, a man can be no stronger than his stomach. A remedy that makes the stomach strong and the liver active, makes rich red blood and overcomes and drives out disease-producing bacteria and cures a whole multitude of diseases.

Get rid of your Stomach Weakness and Liver Laziness by taking a course of Dr. Pierce's Golden Medical Discovery the great Stomach Restorative, Liver Invigorator and Blood Cleanser.

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate Stomach, Liver and Bowels.

Twenty-Five Cent Apples.

FRUIT THAT SELLS IN BIG MARKETS AT \$4.50 TO \$20 A BUSHEL.

There are lots of stories told of how apples sell in the big cities for 10 cents and 15 cents each, and even 25 cents each. But most of us have waited to be shown. These prices sound impossible to the man who gets only 40 cents a bushel for his crop.

There's no doubt about it, though. If you go to any of the big cities, like New York, and go through the downtown streets, you pass a hundred fruit stores where apples are offered for such prices—with plenty of persons buying them, too. When you get real home sick and apple hungry you wouldn't be at all surprised if you, too, would fork over your dime or your quarter for one of the big red fellows.

On investigation it is found that most of these high priced apples come from the Northwest—from California, Colorado, Idaho, Montana, Oregon, and Washington. They're mostly the same old varieties, however, that we grow here in this section. The only difference seems to be that they are larger and cleaner and better colored than the average run of fruit produced around Digby.

Yet the East is the natural apple country. Those fine looking Western apples lack the flavor of the Eastern hillside product. The trick of getting the high prices seems to lie, more than in anything else, in offering perfect fruit. It must be flawless in shape and color, free from blemishes, and must be graded carefully. A great deal of capital is made of the attractive boxes, labels, etc., used in packing these western apples.

Apples grown in the West are coarse dry and pulpy, even though highly colored and big. Eastern big apples are fine, delectable and juicy; and if they are grown right, that is, if the trees are of the right varieties for the situation, are properly pruned, sprayed and fed, and the fruit thinned, the apples will be highly colored, fine and flawless, inside and out. If the people in this section would only wake up to what is possible on their own farms, they could produce apples that will be worth a quarter a piece to the appreciative city folks who want highly colored fruit without a spot or blemish.

We have received a sample of Nero apple from Harrison's Nurseries, of Berlin, Md., that is just as fine outside as any apples that ever came over the Rocky Mountains, while inside it has western apples beat three thousand miles in taste and color and texture. We wish some of those fellows who have farms around here with good soil and good apple locations would eat one like it. It would show them what is required to command the dimes and quarters of the city folks along after Christmas, and we believe it would arouse new ambitions for making the old farm a wonderful money-making machine. While Nero is adapted particularly to sections south of New York, other varieties suitable to our conditions will grow just as fine here. Yellow Transparent, Dutchess, Wealthy, Red Astrachan, Snow, Hubbardston, Wolf River, Baldwin, Stark, Spitzenberg, the two Greenings, King, Spy, Rome Beauty, and Winter Bismarck, are the kinds our most successful Apple Growers now plant. When it is remembered that the average wholesale price received for fine fruit, such as this, is more than \$1.50 a bushel, and that from 100 to 200 bushels will grow on an acre of ten year old trees, we lean toward the conclusion that few other businesses have equal possibilities.

Learn why PURITY FLOUR is unlike any other brand

PURITY FLOUR is unlike any other brand of flour. No two milling companies follow exactly the same process of milling. In fact, no two different brands of flour in the world are exactly alike in quality.

And here is another fact worth knowing: Every wheat berry contains both high-grade and low-grade portions.

The process of milling PURITY flour costs more than to mill ordinary flour. The low-grade portions are separated and excluded. PURITY is an ALL HIGH-GRADE, hard wheat flour. It has greater strength, greater absorption and greater expansion. It is a thirstier, more elastic flour. It drinks more water and expands into more loaves.

Use PURITY FLOUR for your next batch of bread. Count the loaves. You'll find you have made "MORE BREAD AND BETTER BREAD" from PURITY than when you've used an equal weight of weaker and cheaper flour.

PURITY FLOUR

"More bread and better bread"

IMAGINE, if you can, how much whiter, and more toothsome, and more nutritious, the bread made from such a HIGH-GRADE flour must be.

And can you imagine yourself enjoying the flaky pie-crust and the light, delicate cake?—your reward for using PURITY flour.

When making pastry, please remember to add more shortening than required with ordinary flour—for on account of its extra strength, PURITY FLOUR requires more shortening for best pastry results.

Yes, PURITY FLOUR costs slightly more than ordinary flour. But use it once and you'll say it's worth more—much more—than the difference.

Add PURITY FLOUR to your grocery list right now.

A Royal Welcome.

KING AND QUEEN HEARTILY RECEIVED ON THEIR RETURN TO LONDON FROM VISIT TO INDIA

LONDON, February 5.—King George and Queen Mary returned to England today from the most memorable journey ever undertaken together by a king and queen of Great Britain and Ireland. They were welcomed back to London in the most hearty manner.

Their present stay in the British Isles will be only a short one, as they are due to pay a round of state visits to European countries this spring and summer.

After breakfasting on board the Medina with Queen Mother Alexandra, the Prince of Wales and the other royal children, their majesties landed and were welcomed by the guns of the forts around Portsmouth. On the quay were drawn up regiments of foot and dragoon regiments, who presented arms, while a military band struck up the strains of the national anthem.

The king inspected the guard of honor and then boarded a special train, in which he, with the queen and the royal children, travelled through the country covered thickly with snow.

All the stations along the route were decorated with flags. A large assembly of notables was waiting at Victoria station when the train pulled in soon after midday. An archway bearing the words "Welcome home" in gold letters on a blue ground was erected across the platform where their majesties alighted.

Premier Asquith, with other members of the cabinet, were the first to greet the king and the queen. Then came a group of members of the diplomatic corps and prominent officials of the army and navy. The lord mayor and the sheriffs of London and the lord mayors of the principal cities of the British Isles were also present.

When the greetings were over a procession of five royal carriages was formed. The king and queen, with the Prince of Wales and Princess Mary, occupied the first carriage, which was drawn by four horses with its escort of life guards. The procession proceeded to Buckingham Palace, passing through Victoria street to Parliament Square and then along Whitehall and the Mall, through streets crowded with people.

Nedoff Won at Bathurst

George Nedoff, the Syrian wrestler, who gave exhibitions at Digby a short time ago, won a recent match at Bathurst, N. B., and expects to box there again in April. Since leaving Digby Nedoff has had three bouts and two wrestling matches. In Halifax he was defeated by a fellow forty pounds heavier than himself. On the 14th he expects to meet a local boxer at New-castle and says he is in perfect condition and fully thinks he will meet with success. In speaking of the Bathurst match the Moncton Times says: "A six round boxing bout took place here this evening between Geo. Nedoff, the Syrian wrestler, and Joseph Bertin, local boxer. The first rounds were about even, but the last two rounds were in favor of Nedoff. The rounds were only two minutes. Nedoff put up a kick, claiming that they should be three minutes. Nedoff, before three hundred and fifty people, said he would deposit one hundred dollars that he could put Bertin out in ten rounds."

Queker Marder Trials Across the Line

ALBANY, February 5.—A bill designed to lessen delays in arguing murder cases before the court of appeals was introduced tonight by Assemblyman Whitney, of Saratoga. He provides that in cases where the punishment is death, appeals must be taken within a month and argued within two months unless the court extends the time, which shall not exceed four months. If the appeal is not argued within the time required, the court on motion of the district attorney shall affirm the judgment; of conviction of the lower court in the same manner as if the arguments had been heard.

Will Disappoint His Neighbors

A subscriber from a suburban village in Annapolis county called at this office Wednesday to have his COLUMBIAN discontinued for a few weeks. He says that the COLUMBIAN is not desired there every Friday among his neighbors that he does not get a chance to read his own paper. He will discontinue for a few weeks at least, just to see if they will take a hint and send us each a dollar to save further trouble.

Two Liverpool Schooners Overdue.

SCHRS. RHODA AND ANNE HENDRY THE VICTIMS.

LIVERPOOL, February 7.—All hope is now abandoned of the topsail schooner Rhoda having weathered the terrific northwest gales of a month ago. The schooner left Delaware breakwater about December 24th, loaded with hard coal for F. W. Hall of Liverpool. Up to within a couple of weeks, strong hopes were felt that the vessel had been crippled and blown far off her course, but with the lapse of time, and no tidings, this has been abandoned. It is now quite certain that the schooner sighted bottom up by a steamer bound for St. John about December 31 was the ill-fated vessel.

The Rhoda was built about fifteen years ago by J. C. Innes and company for Harlow & Kempson, and has proven a most valuable piece of marine property. Her present owners are Harlow & Kempson. The officers and crew of the ill-fated vessel are: Captain E. Fernandez, of Brooklyn, S. P. F. Morse, of Liverpool, mate; Henry Clarke, of Brooklyn, steward, and two lads of about sixteen years of age—Theodore Dexter, of Brooklyn, son of Captain Edward Dexter, of the Dredge Canada, and William Smith, son of Alexis Smith, Brooklyn. The names of the second mate and the other seamen, all of whom joined her at Philadelphia, cannot be ascertained.

48 DAYS FROM TERS ISLAND.

The tern schooner Anne Hendry, belonging to the firm of Hendry, Limited, of Liverpool, is now out from Turks Island forty-seven days. She is loaded with seal for Lunenburg parties. The Anne Hendry loaded lumber at Bear River for Grand and proceeded thence to Turks Island for salt for Lunenburg parties.

It is feared that on her homeward passage she was sunk in collision with some other craft. This schooner was the newest and finest of the Hendry fleet, being built less than two years ago and was of 219 tons register. She was commanded by Captain L. P. Bommer, of Adelaide, who was accompanied by his wife. The names of the other officers and crew are not known here. The mate and cook joined her at Bear River, coming there from Halifax. The forward hands were San Blas Indians.

No Trace of Niagara a Victims.

WATCHERS STATIONED AT WHIRLPOOL. RAPIDS SAW NOTHING OF THEIR BODIES.

NIAGARA FALLS, Ont., Feb. 5.—Although watchers were stationed at the Whirlpool Rapids today, it was not expected that the ice-churning waters would soon, if ever, release the bodies of the man, woman and boy who were swept down the gorge with flies from the ice bridge. The appearance of the whirlpool were ugly, and the grinding of the ice jam racing within it echoed through the gorge. Great cakes of ice were being blown down stream under the bridges, where still tangled the ends of the ropes which proved useless in the endeavor to rescue the trio as they were being swept down stream.

Nothing developed today to make more certain the identity of the man and woman supposed to be Mr. and Mrs. Eldridge Stanton of Toronto, excepting that those persons had not returned to their hotel. It is known that they started for the ice bridge about an hour before the sudden release of tons of ice below the falls swept it away. The father of Bruce Hecock, of Cleveland, the third victim, arrived today. After a look at the ice-bridged gorge he said he had no hope of ever finding the body of his son, who after being drawn by a rope past way up to the Centerville Bridge, slipped back exhausted into the river.

Saved By Wireless.

CREW OF THIRTY FOUR TAKEN FROM A PLANK SWEEP STEAMER.

NORFOLK, Va., February 5.—The British steamer Consols, rotten laden, from Galveston for Hamburg, flung swept in a long, futile race for port, sunk early yesterday forty miles south of Cape Henry. Her crew of 31 men, refugees on the British steamer Castle Eden, were landed at Newport News.

It was another triumph for inter-communication among ocean craft, for the Castle Eden, headed by Mr. Savannah for Danish ports, picked up the wireless call for help from the imperiled

Confidence

WE BACK UP OUR STATEMENTS WITH OUR PERSONAL REPUTATION AND MONEY

We are so positive that we can relieve constipation, no matter how chronic it may be, that we offer to furnish the medicine free of all cost if we fail.

We think that it is worse than useless to attempt to cure constipation with cathartic drugs. Cathartics may do much harm. They may cause a reaction, irritate and weaken the bowels, and make constipation more chronic.

Constipation is often accompanied and may be caused by weakness of the nerves and muscles of the large intestine or colon. To expect a cure you must therefore tone up and strengthen those parts and restore them to healthier activity.

The discovery of the active principle of our remedy involved the labor of skillful research chemists. This remedy produces results such as are expected from the best of the best known intestinal tonics, and it is particularly prompt in its results.

We want you to try Rexall Remedies on our guarantee. They are exceedingly pleasant to take and are ideal for children. They apparently act directly on the nerves and muscles of the bowels, having, it would seem, a neutral action on other organs or glands. They do not purge or cause inconvenience. If they do not positively cure chronic or habitual constipation and thus relieve the myriads of associate or dependent chronic ailments, your money will be refunded. Try Rexall Remedies at our risk. Three sizes of packages, 10c., 25c., and 50c. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store. P. W. Holdsworth's Drug Store.

A Liberal Offer

WE GUARANTEE TO RELIEVE DYSPEPSIA. IF WE FAIL THE MEDICINE COSTS NOTHING.

To unquestionably prove to the people that indigestion and dyspepsia can be permanently relieved and that Rexall Dyspepsia Tablets will bring about this result, we will furnish the medicine absolutely free if it fails to give satisfaction to any one using it.

The remarkable success of Rexall Dyspepsia Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their manufacture, whereby the well-known properties of Bismuth Subnitrate and Pepsin have been combined with Carminatives and other agents.

Bismuth Subnitrate and Pepsin are constantly employed and recognized by the entire medical profession as invaluable in the treatment of indigestion and dyspepsia.

The Pepsin used in Rexall Dyspepsia Tablets is carefully prepared so as to develop its greatest efficiency. Pepsin supplies to the most important elements of the digestive fluid. Without it the digestion and assimilation of food are impossible.

The Carminatives possess properties which aid in relieving the disturbances and pain caused by undigested food. This combination of these ingredients makes a remedy invaluable for the complete relief of indigestion and dyspepsia.

We are so certain of this that we urge you to try Rexall Dyspepsia Tablets on our own personal guarantee. Three sizes, 25c., 50c., and \$1.00. Remember, you can obtain Rexall Remedies only at our store—The Rexall Store. P. W. Holdsworth's Drug Store.

No More Four Dollar Bills

The Government has decided to cease printing the \$4 bills and will issue \$5 notes instead. The \$4 note performed no necessary monetary function and was, like its twin, the \$1 cent piece, a nuisance. It is presumed the banks will stop their issue of \$4 bills. A new building is to be fitted up by the Government for making Dominion notes and stamps.

QUICK RELIEF FROM THAT PERSISTENT, HACKING COUGH

We mean the kind of cough that gives one a cold shiver just to hear—the dry, deep-seated hack—hack—hack—that seems as if they were tearing the very vitals. That's the kind of cough that means business.

Fortunately, though, that is also one of the kinds of cough for which Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne was first prescribed, and which it has been relieving with great promptness and regularity ever since. Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne is absolutely free from harmful drugs of any kind, and is safe even for children. Its pleasant taste, and acts quickly, relieving the irritation, loosening the phlegm, promoting expectoration, and so stopping the cough. Thousands declare it to be the best cough syrup they have ever tried.

Your Druggist will gladly recommend it, and will supply you with either a 25c. or 50c. bottle. The National Drug & Chemical Co. of Canada, Limited. 116

Duke of Eile Dead

PASSES AWAY WHILE ON VISIT TO EGYPT.

ASSUAN, Upper Egypt, Jan. 29.—The Duke of Eile died here at six o'clock this evening. The Duke of Eile, who has just died of pleurisy and congestion at Assuan, Upper Egypt, was a son-in-law of the late King Edward, whose daughter, the Princess Louise Victoria Alexandra Dismar, he married in 1880. He succeeded his father as sixth Earl of Eile in 1879, and was created Duke on Feb. 10, 1899.

He was born on November 10, 1849 and was educated at Eton. He afterwards took a great interest in business and was a partner in the London banking firm of Sir Samuel Scott and Company, as well as vice president of the British South African Company. He was a colonel of volunteers and deputy lieutenant of the Scottish Counties of Aberdeen and Banff. He was a Liberal member of Parliament from 1874 to 1879. He leaves two daughters.

The tragic end of the Duke of Eile's ill-tempered voyage to attend the consecration of the Cathedral at Khartoum, erected as a memorial to General Gordon, has given a great shock to the British public. Although he showed no effects of his experiences in the wreck of the steamer "Duke" on his arrival in Egypt, the Duke's death is universally attributed to the exposure and shock resulting from that event.

The Duke's death will cause the cancellation or modification of all projected arrangements at Portsmouth and London for the reception of King George and Queen Mary on their return from India. It is probable that all the festivities will be shorn of military display and State ceremonial. The court functions in the early spring also will be modified.

Victoria Beach

Mrs. Ernest McGrath, who has recently been quite ill, is now recovering rapidly.

Owing to the unavoidable absence of the pastor, Rev. Maynard Brown, the regular church service was not held at this place on Sunday last.

A ten-cent tea and apron sale was held at the home of Mrs. Charles Haynes on Friday evening, Jan. 26th. Proceeds to go towards the church fund.

Mr. Charles Baash, son-in-law of Mr. Charles Boudreau, who cut his foot quite badly a few weeks ago, has lately been obliged to go to the hospital at Halifax for surgical treatment.

Weymouth

Rev. Fr. Dion arrived from Montreal on Friday afternoon's train.

A number of our citizens have been suffering from the effects of severe colds. The burial of the late Miss Burton took place on Saturday afternoon at St. Peter's cemetery, the Rev. Mr. Taylor officiating.

The death of Mr. James McCormick occurred at the home of his sister here, on Sunday afternoon. The funeral services were held on Tuesday afternoon, interment taking place at St. Bernard's cemetery.

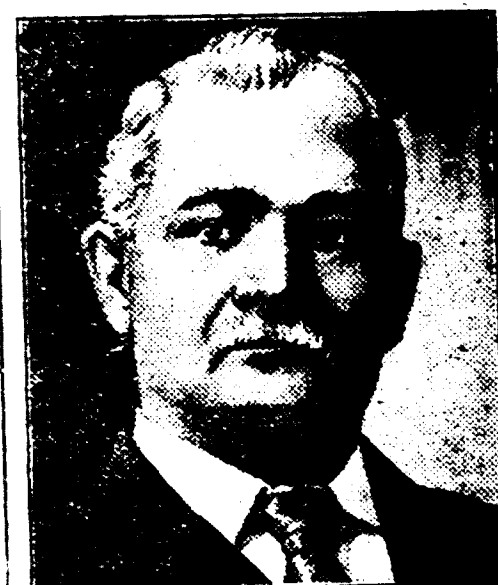

The Women's Auxiliary of the Church of England held an Old Folks concert on Monday evening at the residence of Mr. W. F. Journey. The attendance was good and an enjoyable programme was rendered.

Retail Merchants' Association

At a large gathering of the members of the Retail Merchants of the Province, held in Halifax on Thursday last, Mr. William Lloyd Porter, of Yarmouth, was elected as representative for Yarmouth; Mr. R. M. Bowers, of Shelburne, and Mr. A. R. Turnbull, of Digby. The Association now has over 700 members.

THOUGHT IT WAS CANCER

"Fruit-a-lives" completely restored me. SUNDAY MINES, N.S., Jan. 25th, 1910. "For many years, I suffered tortures from indigestion and dyspepsia. Two years ago, I was so bad that I vomited my food constantly. I also suffered with Constipation. I consulted physicians, as I was afraid the disease was cancer, but medicine gave only temporary relief.

I read in the 'Maritime Baptist' about 'Fruit-a-lives' and the cures this medicine was making and I decided to try it. After taking three boxes, I found a great change for the better and now I can say 'Fruit-a-lives' has entirely cured me when every other treatment failed, and I reverently say 'Thank God for 'Fruit-a-lives'.

"Fruit-a-lives" sweetens the stomach, increases the actual quantity of gastric juice in the stomach and ensures complete digestion of all sensible food. 'Fruit-a-lives' is the only medicine in the world made of fruit juices.

DANIEL F. FRASER.

"SOME HAD MEAT, AND CANNA EAT"

So Bobby Burns tersely describes the rich, but still poor, dyspeptic. But the case is not now so desperate as when Burns wrote. For the man who has the food now can eat without suffering for it, if he just follows the meal with a Na-Dru-Co Dyspepsia Tablet.

These remarkable tablets banish the troubles of the chronic dyspeptic—the man who is being the sufferer from heartburn, gas on the stomach or occasional indigestion. You can eat hearty meals of wholesome food—and digest them, too—if you take Na-Dru-Co Dyspepsia Tablets.

Compounded by expert chemists, after probably the best formula known to medical science, they are quick and certain in their action, giving prompt relief from all forms of stomach trouble, toning up and strengthening the digestive organs and bringing about permanent cures.

A man is no stronger than his stomach. Fit yourself for your best work by taking Na-Dru-Co Dyspepsia Tablets, 50c. at your druggist's. National Drug and Chemical Co. of Canada, Limited, Montreal.

Don't let repairs eat up your profits

Whether they represent actual cash outlay, or only the time of yourself and your help, repairs are waste just the same. When you make an improvement—no matter how small its cost may be—let it be permanent. Then it is a real investment, something on which you can realize in cash should you decide to sell your property; and something that will pay you constant dividends in convenience, sightliness and comfort as long as the farm remains your own.

Concrete Improvements Are Permanent

They last as long as the very hills themselves. They do not require experts to build them. Their first cost, in most cases, is no more than for inferior materials.

Aren't you interested in the subject of permanent, modern farm improvements?

Then write for the book that describes hundreds of them—

"WHAT THE FARMER CAN DO WITH CONCRETE"

It isn't a Catalogue. Every one of its 100 handsomely illustrated pages is interesting and instructive. They tell how to mix concrete, how to place it, what can be done with it. The book was printed to sell for 50 cents, but we have a copy for you, free.

His Message

What shall I send for a Valentine?
I want a rose or a blooming vine.
I haven't even a little gold heart,
Stuck through and through with a shining
dart.Or a silver Cupid with gossamer wings,
Or any of those most beautiful things.
O dear! O dear! what luck is mine!
I've nothing to send for a Valentine!I might write a verse, but I don't know how!
And all I can draw are a pig and a cow!
A candy heart would be very nice.
Or a lovely cake all sugar and spice;
But then, I haven't a single cent,
And you can't buy things with money you've
spent!I've got some paper, all pinky-white,
And this is what I've decided to write!
"Love—Love—Love—Love!" all over the sheet.
Then mama will think her Valentine sweet!

THEIR VALENTINES.

Tomorrow'll be Valentine's day,
begin Lilly."And we're going to send lots of val-
entines," said Jenny."Lots of valentines," echoed wee Ma-
bel, who had followed them to grand-
ma's room."I wish I could see Miss Maberly's
face when she gets hers," said Lilly,
and I guess May Evans won't feel
like telling tales in a hurry."Grandma looked puzzled. "I thought
valentines were supposed to make
people happier," she said."Not this kind," answered Jenny. "I
guess," she added, "these are looking
glass valentines, 'cause they make you
see yourself just as folks see you.""You see," confidentially, "May Evans
hears us say something about an
other girl, and then she runs to her
and tells just what we have said, and
it makes a lot of trouble.""It naturally would," replied grand-
ma, soberly. "I know nothing could
make more.""You wouldn't like it yourself," said
Jenny."I am sure I shouldn't," answered
grandma. "I think," she added, medi-
tatively, "I think, with such a girl
round, I should say only nice things
about the girls. Perhaps they would
not mind those.""Of course we can't always do that,"
said Jenny, although her cheeks grew
a trifle redder."Yes," interrupted Lilly, "and we're
going to send Miss Maberly the pic-
ture of a cross old lady.""Shall I tell you a story," asked
grandma.

"Oh, do," they cried.

"I will tell you a story of Saint Val-
entine's day. There are a great many
reasons given for the celebration of the
day. It is said there was an old pagan
custom of choosing brides on February
14th, but I like this story best. Long
ago there was a bishop of Rome named
Valentine, who went about doing
good deeds, but because the people did
not believe his preaching, they cast
him into prison, where he finally died.""When he was gone, the poor people
whom he had all his life been trying
to help were very sad. They had no
one to help them now, no one to give
them food and clothes, and to care for
them when they were ill. And be-
cause they felt so badly about the bishop,
they began to help each other,
and if a man gave his poor neighbor a
coat, he would say, 'I do this for Val-
entine's sake.' If he gave him food he
would say, 'I feed you because when I
was hungry Valentine gave bread to me.'""They thought so much about him
and told over so many of his good
deeds that at last they began to think
he was something more than a mortal
man, and must be a saint, and since
February 14th was his birthday, they

CURED OF CONSTIPATION

Mr. Andrews praises Dr.
Morse's Indian Root Pills.Mr. George Andrews of Halifax, N. S.,
writes:
"For many years I have been troubled
with chronic Constipation. This ail-
ment never comes single-handed, and I
have been a victim to the many diseases
that constipation brings in its train.
Medicine after medicine I have taken in
order to find relief, but one and all left
me in the same hopeless condition. I
seemed that nothing would ever free
me from the ailment that caused so much
trouble, yet at last I read about these
Indian Root Pills.That was indeed a lucky day for me
for I was so impressed with the state-
ments made that I determined to
give them a fair trial.They have regulated my stomach and
bowels. I am cured of constipation, and
I claim they have no equal as a medi-
cine."For over half a century Dr. Morse's
Indian Root Pills have been curing con-
stipation and clogged, inactive kidneys,
with all the ailments which result from
them. They cleanse the whole system
and purify the blood. Sold everywhere
at 25c. a box.called that Saint Valentine's day, and
sent presents to their friends to keep
the good bishop in remembrance."The girls drew a long breath. "I
didn't think Valentine's day meant
that," said Jenny, soberly. "I don't be-
lieve May is coming," she added, "and
I'm glad of it, for I shan't send those
valentines!"

"Nor I," echoed Lilly.

"Suppose you spend the evening
with me," said grandma, "and we'll see
if we can't help along the good saint's
work."All the evening, while mother and
grandma looked on approvingly, the
girls worked industriously, cutting
from cardboard little heart-shaped boxes,
which, after being folded, pasted
and covered with crepe paper, were
left upon the table, that grandma—
as she suggested—might add a few
finishing touches.If she and mother worked until far
into the night, they were well repaid
by the rapturous "ohs!" that greeted
the pretty pink and lavender boxes,
gay with clusters of pansies and for-
get-me-nots which had been painted
upon them, while in gold upon each
box were the words:A Valentine for You.
Reveals to the Streets.The "ohs" were louder than ever
when, upon lifting the covers, every
box was found to be full of cream
walnuts, dates and chocolates—a sweet
valentine indeed!The girls declared there were tears
in Miss Maberly's eyes when she found
the surprise box on her desk."It has been such a happy day,"
said Lilly, as she and Jenny sat upon
the sofa in grandma's room that evening.
"The girls were all as nice as could
be, and even Miss Maberly hasn't been
the least little bit cross.""Perhaps Miss Maberly's girls have
done better than usual," said grandma,
smiling.

Given up as Lost

BELIEVED NORWEGIAN VESSEL FOUND
ERED WITH ALL ON BOARD.LOUISBURG, Feb. 12.—The steamer
Kamford, which sailed from this port
with a cargo of coal for St. John's,
Nfld., on the 26th of January, is given
up as lost. The Kamford is owned
in Arendel, Norway, is 358 tons regis-
ter, and was chartered to take a cargo
of fish from St. John's to New York.Captain Paulsen, of the steamer
Malmstad, told your correspondent to-
day that the Kamford belonged to the
same owners as his ship, that he
sailed master of her two years and he
knew personally every member of the
crew, who all belonged to Arendel,
Norway.Captain Salvemsen has a wife and
two children, the steward a wife and
four children. The other thirteen
members of the crew are unmarried.Captain Paulsen wired St. John's
today, and on receipt of the reply of
no tidings of the ship, despaired of
ever hearing from her, or the crew. A
terrible blizzard raged on the North
Atlantic on the second and third days
after the ship sailed from Louisburg.
The steamer probably foundered in the
gale.

What Followed a Cut.

A MAGISTRATE'S WONDERFUL EXPERI-
ENCE WITH ZAM-BUK.Mr. J. E. Arsenault, a Justice of
the Peace, and station master at Well-
ington, on the Prince Edward Island
Ry., has had a wonderful proof of the
healing power of Zam-Buk. He says:"Four years ago, I had an accident.
I slipped in the station and fell on a
freight truck, sustaining a bad cut on
the front of my leg. I thought this
would heal, but instead of doing so it
developed into a bad ulcer and later
into a form of eczema which spread
very rapidly and also started on the
other leg. Both legs became so swollen
and sore that I could only go about my
work by having them bandaged. My
doctor said I must stop work and lay
up.""After six months or this trouble I
consulted another doctor, but with
no better result. I tried all the salves,
ointments, and lotions I heard of, but
instead of getting better, I got worse.""This was my condition when I got
my first box of Zam-Buk. Greatly to
my delight that first box gave me re-
lief. I continued to apply it to the
sores and day by day they got better.
I could see that at last I had got hold
of something which would cure me,
and in the end it did.""It is now over a year since Zam-
Buk worked a cure in my case, and
there has been no return of the eczema
or any trace of it."Such is the nature of the great cures
which Zam-Buk is daily effecting.
Purely herbal in composition, this
great balm is a sure cure for all skin
diseases, cold sores, chapped hands,
frost bite, ulcers, blood-poisoning, var-
icose sores, piles, scalp sores, ring-
worm, inflamed patches, cuts, burns
and bruises. All druggists and stores
sell at 50c. box, or post free from Zam-
Buk Co., Toronto, upon receipt of
price.

Losing His Temper.

The other day an old gentleman
rushed into a railway station and said
to the first porter he saw, "Is this my
train?" "No," replied the porter; "it
belongs to the company." "You block-
head," cried the old gentleman, losing
his temper, "I mean to take this train!"
"You'd better not," said the porter.
"There have been two or three trains
missing lately. I'd advise you to be
very cautious now, my good sir!"

Cause of Thunder.

Thunder is the noise produced by
lightning and is harmless. It has usu-
ally been thought that the noise is
vacuum made by the passage of the
lightning, the air rushing in from all
sides with a clap, but the intensity of
the noise is rather disproportionate,
and it is now supposed that thunder is
due to the intense heating of gases,
especially the gas of water vapor—a
long line of electric discharge, and the
consequent conversion of suspended
moisture into steam at enormous
pressure. In this way the crackle with
which a peal of thunder sometimes
begins might be regarded as the sound
of steam explosion on a small scale
caused by discharges before the main
flash. The rumble would be the over-
lapping steam explosions, and the final
clap, which sounds loudest, would be
the steam explosion nearest to the
auditor. In the case of rumbling
thunder, the lightning is passing from
cloud to cloud. When the flash passes
from the earth to the clouds the clap
is loudest at the beginning.

A Youthful Financier.

We have among our two or three
hundred employees, says T. Kelly Dick-
inson, financial editor of the Montreal
Herald, an exponent of Higher Finan-
ce, who gives promise of out Hood-
eying Hooley, and making some of our
local capitalists look like the smallest
denomination in silver currency. His
name—well that will be a household
word in days to come, so I omit it.
His occupation is that of printer's devil.This young devil bought a chicken,
Goodness knows where he got it, but
he bought it for 65 cents. He raffled
it among other things in the establish-
ment at ten cents per ticket. This
netted him \$3.50. The winning ticket
was drawn by the office boy, whereupon
the aforesaid devil gave the office
boy 50 cents for the chicken, took it
home and sold it to his father for 75
cents. If this boy is left alone he will
become a great company promoter.

World's Largest Animal.

As far as known, the blue or sul-
phur bottom whale is the largest animal
which has ever existed on the
earth. Specimens have been found
that measured nearly 90 feet and must
have weighed almost as many tons.
It has a mouth in which 10 or 12 men
could stand upright, but its throat
measures but nine inches in diameter.
The fin back whale is slenderly shaped
and has great speed in the water. It
is noted for its song. The winning ticket
was drawn by the office boy, whereupon
the aforesaid devil gave the office
boy 50 cents for the chicken, took it
home and sold it to his father for 75
cents. If this boy is left alone he will
become a great company promoter.

Motor Boats Are The Thing.

Fishermen of the Shetland Islands
are wide awake, it seems, to the value
of motor fishing boats as against the
slow moving sail boat, and the fleets
the coming year will be noteworthy
for the diminution in the number of
sailing craft, says a correspondent of
the London Fish Trade's Gazette.With the recommencement of the
haddock line fishing on the west of
Shetland, there has been a consider-
able addition to the number of motor
skiffs at Scalloway and Hamnavoe.
Last year ended with a total of half a
dozen motor boats working there, and
their crews were so well pleased with
them that other fishermen have been
induced to invest in motors. So far
as Scalloway is concerned, the motor
boat has evidently come to stay, and
it is fast superseding the Shetland
four oar and lug sail boat.

Russia and France Notified.

LONDON, Feb. 13.—It is now official-
ly admitted that both the French and
Russian Governments were informed
of Viscount Haldane's trip to Berlin
by the British Government before the
British Secretary of War arrived in
the German capital. It was specific-
ally stated in the notifications to
France and Russia that the visit was
of a private character, but it was sig-
nificantly added that in case political
questions should be discussed, France
and Russia would be kept informed.
This confirms the prevailing impres-
sion that behind the ostensible purpose
of his trip Viscount Haldane is charged
to survey the political ground, and
put out feelers especially in regard to
a possible slackening of armaments.

Tregional.

A schoolmaster had been relating
to his class the story of Lot's wife,
how she looked back and turned into
a pillar of salt.A small boy rose and said:—"Sir, as
I was walking along Craig St. this
morning I saw a woman. She looked
back and turned into a grocery store."

The Wrong Kind.

"Have you any references?" asked
the lady of the house.

"Yes, ma'am. A lot of 'em."

"Then why didn't you bring them
with you?""They're just like my photographs,
ma'am. None of 'em do me justice."

Hair Hints.

WORTHY THE ATTENTION OF PEOPLE
WHO WISH TO PRESERVE THE HAIR.Have your own brush and comb at
home and at hair dressers.Never use a brush or comb in public
places, they are usually covered with
dandruff germs.Wash your hair brush once a week
with soap and warm water, to which
is added a disinfectant.Shampoo the hair once a week with
pure soap and water.Use PARISIAN SAGE every day,
rubbing thoroughly into scalp.PARISIAN SAGE is guaranteed
by H. E. Jones to destroy dandruff
germs and abolish dandruff, or money
back.To stop hair from falling and scalp
from itching, or money back.To put life and beauty into dull
faded hair, or money back. Price
50 cents.

The Parting.

A gentleman owning a cotton es-
tate had a characteristic old "mammy"
who never could be found without her
pipe. One day her employer asked
her if she expected to go to heaven."Ded I does—ded I does," she an-
swered."But, mammy, you know you smoke
a great deal, and the angels surely
will not like that."

"But I won't smoke up dar, sah."

"No? Still they will smell tobacco
on your breath.""Ded dey won't sah. I reckon I
done leave 'em 'breif here."

A Suggestion.

The restaurant manager stood be-
hind the cashier's desk, wearing his
stock-in-trade smile for each customer.An old gentleman came up. "I no-
tice," said he, fumbling with his wallet,
"that you advertised to make your own
pies.""Yes, sir," answered the manager
proudly, "we do.""Will you permit me to offer a sug-
gestion?""Certainly, sir, certainly. We should
be most happy to have you.""Well, then, let some one else make
'em."MINARD'S LIME-TONIC CO., LIMITED.
Some time ago I had a bad attack of Quinsy
which laid me up for two weeks and cost a lot
of money.Finding the lump again forming in my
throat, I bathed freely with MINARD'S
LIME-TONIC, and saturating a cloth with the
balm let it on all night.Next morning the swelling was gone and
I attributed the wondrous off of an attack of
Quinsy to the free use of MINARD'S LIME-

Sympathetic Words.

In tears she was found by her elum,
a boy about her own age. Anxious
inquiry induced her to disclose the
cause of her sorrow."Oh, Charlie, she sobbed, 'I've just
been looking in the mirror, and I—I'm
so homely.'"Charlie was sympathetic, but he
was a puzzle. He looked at her a
minute, and drawing her to him he
kissed her on her tear-stained cheek
and said, soothingly, "Not homely,
Ruth; just a bit funny looking."

Bright Boy.

"What is your name, little boy?"
queried the street car conductor of a
small passenger, who was travelling
alone.

"Willie Jones," was the reply.

"What's your name?"

DIGBY WEEKLY COURIER

Digby, Feb. 16, 1912

SOMETHING DIGBY NEEDS.

One of the most important things required by Digby is a public landing slip for boats. Digby's greatest asset as a summer resort is her beautiful harbor. For years it has been observed by our visitors and known by ourselves that Digby should have a public boat landing, somewhere along our water front.

Several private slips are constructed every year, either by hotel men, people taking out passengers or by private yacht owners, all of which have proved more or less unsatisfactory to the general public, who start in at once to use them and when told they are private, bad feelings are aroused.

Now what we require, if we are to keep abreast the times as a summer resort noted for our splendid boating facilities, is a public slip owned and controlled by the town.

Our street employees can keep it clean and in good repair under the direction of the regular superintendent of that department, and our police officer can collect the wharfage charged commercial boatmen and others, the revenue from which would amount to considerable every season.

It should be permanently built with crib work to stand the winter weather as well as the summer breezes.

The whole cost would not be large and we understand that several prominent citizens, who have the welfare of the town at heart, stand ready to subscribe quite substantial amounts towards its erection, but they desire to have it controlled by the town instead of by private individuals.

This matter was brought up in the Council by Dr. J. E. Jones, when he was Mayor, but the Council at that time did not think it advisable to go ahead with the matter as the season was quite far advanced.

Now is the time to take the matter up. We have an enterprising Mayor and Council, probably one of the best in the history of the town, and we believe that if the people want it, a proper slip will be ready before the tourists arrive, one that will prove a credit to the port and to the town.

We trust that this matter will be taken up by the Council at its next regular meeting.

Funeral of the Late C. H. Gilliland

The funeral of the late C. H. Gilliland, of Danvers, Mass., whose death was reported in our last issue, took place Feb. 8th. The services were conducted by Rev. E. E. Currier, D. D., pastor of the Danvers Methodist church, of which Mr. Gilliland had been a member for more than twenty-five years. Dr. Currier was assisted by Rev. W. M. Ayres, of Danvers, a retired pastor, under whose pastorate Mr. Gilliland united with the church. Rev. H. William Hook, of Lowell, a young minister whose conversion and progress toward the Christian ministry began in the Danvers Methodist church, and Rev. N. B. Fisk, of Stoughton, a former clergyman, also participated in the services. A large chorus choir rendered old hymns, favorites of the deceased, and in compliance with one of his last requests choruses and congregations joined in singing "Nearer My God to Thee." The words of each of the speakers emphasized the faithfulness of Mr. Gilliland in his church work and the happiness of his Christian faith in the fourteen weeks of his last illness, which followed fourteen years of suffering from diabetes. Mr. Gilliland had held many church offices, including that of Sunday School Superintendent, church steward and trustee. At the time of his death he was chairman of the Men's Union and had been for twenty-two years the leader of the Tuesday evening class of the church. An abundance of floral tributes testified to the host of friends he had made during his useful life. The body was interred in Holten Cemetery, Danvers, Mr. Gilliland's four brothers, Edward, of Danvers, Caleb, of Salem, William, of Peabody, and Elijah, of Newwood, acting as pall bearers.

—Twenty Five Years Ago

From the Yarmouth Times, Dec. 1st. Captain J. W. Danham, of the ship *Excalibur*, wrote his owners that he encountered a typhoon in the China Sea, Nov. 18th, in which masts Charles W. Hickman, of Pleasant River, Queen's County, and Thomas Brown, a colored seaman, were drowned.

—The N. S. Temperance Alliance.

A convention of the Nova Scotia Temperance Alliance meets in Halifax on the 28th of this month at 9:30 a. m., in the Young Men's Christian Association Hall. Members of the Digby County Temperance Alliance are eligible to attend and any delegates from divisions in the county.

Government Appointments.

Several changes are being made in the government officials in Digby and vicinity, which it is said will go into effect at an early date.

Mr. S. A. Keen has been appointed caretaker and warden of the clock in the post office building in the place of Mr. C. A. Lindstrom.

Mr. J. Outram Dakin has been appointed wharfinger at the government pier, in the place of Mr. W. W. Hayden.

Mr. G. A. Torrie has been appointed fishery officer in the place of Mr. Heber Bishop.

Dr. J. E. Jones has been appointed Postmaster in the place of Mr. H. B. Churchill.

Frank P. Payson, of Westport, has been appointed receiver of wrecks for the Brier Island and St. Mary's Bay districts, in the place of Mr. E. C. Bowers, retired.

Last Night's Public Meeting.

The Court House was well filled with ratepayers last night to discuss the advisability of Digby owning its own electric light service.

Mayor Short occupied the chair, Mr. A. R. Turnbull being secretary. After considerable discussion it was moved, seconded and passed that the Mayor call a public meeting in the near future to consider if the ratepayers desire municipal ownership of the light and to consider other town matters.

Mayor Short said this would be attended to at the next regular meeting of the town council which takes place on the 26th inst.

Local Boating News.

Mr. J. F. Cripps has purchased from Messrs. C. A. and Fritz Dakin, the pleasure launch *Phyllis* with entire outfit. We understand the *Phyllis'* former owners will have Mr. E. E. Dunn build them a 35 ft. raised deck cruiser in which will be installed quite a powerful four cycle motor.

Capt. John Snow, of Port Wade, has a new boat at Campbell's, built for him by Mr. Fletcher, of that place. She is 32 ft. over all, 7 ft. wide, 38 ins. deep, and will have an eight horse power two cycle motor.

Presentation.

Grace Methodist Church, Digby, has been presented with a solid mahogany pulpit desk, which is certainly a handsome piece of furniture. The presentation was made last Sunday night by the pastor, Rev. L. Daniel. The desk is the gift of a gentleman who formerly lived in Digby, was a regular attendant while here and took a deep interest in the welfare of the church. This handsome and appropriate gift is much appreciated by the pastor and members of the church.

Burnt Potatoes.

It seems a great pity that when the price of potatoes is so high and there are so many that 3000 bushels, valued at \$100,000, should have been destroyed by fire at the Crystal Station, Maine, last week. They were the property of William Martin, of Kingman. The potato house was valued at \$1,500. Farmers, summoned by telephone, had a hard fight to save two potato houses eight feet distant on each side. The lost potatoes were insured for \$1,000.

Town Council.

A special meeting of the Town Council was held at the Council Chamber Feb. 9th at 8 p. m.

His Worship the Mayor stated that the meeting was called to receive the report of the Presiding Officer of the result of the election for Councilors held on the 6th inst. to swear into office the Mayor and new members of the Council, to appoint Standing Committees of the Council and to fix a date for a public meeting of the ratepayers to discuss the advisability of the town installing and operating an electric light system.

The Mayor and Councilors McBride, Shortliffe, Lynch, Warner and Jordan were present.

The report of the Presiding Officer was read and on motion of Councilors Lynch and McBride received and adopted.

Councilors elected Alfred A. Shortliffe, Maynard C. Denton and O. V. Jones and Mayor-elect Harry B. Short took the oaths of allegiance and office and took their seats at the Council table.

Short addresses were then made by His Worship the Mayor and Councilors Denton, Jones and Shortliffe and retiring Councilor McBride.

The following standing committees were then on motion appointed by the Council:

Lunenburg Will Fight Beam Trawler

PUBLIC MEETING MAKES VIGOROUS PROTEST AND WILL CARRY ON CAMPAIGN

LUNENBURG, February 12.—That the fishermen of Lunenburg consider the beam trawler a grave menace to the fishing industry, was evident from resolutions passed by a public meeting held in the court house. The meeting was called by Mayor Kinley in response to a petition, largely signed by fish merchants, captains and fishermen. The principal speakers were Captain E. G. Robinson, of Boston, and Moses H. Nickerson, of Clark's Harbour, formerly editor of the *Acadia* and now Captain of the *Acadia*, of Gloucester, was present but did not speak.

Captain Robinson explained at length the mode of beam trawling and stated that the fishing interests of Gloucester will raise a fund of at least \$100,000 and perhaps \$1,000,000, to pay the beam trawlers out of business. He read a large number of letters and telegrams, showing that beam trawling had wherever pursued, reduced the industry and a lot of the fish caught by the ordinary trawlers. He believed the fishermen of Nova Scotia should take measures to prevent beam trawlers getting into our waters and running our fisheries.

Mr. Nickerson referred to the motion he made in the legislature, when a member of that body, to the effect that beam trawling was a nuisance to the fishing industry, and calling on the local government to take the matter up with the government at Ottawa. He did not know whether this had been done.

The meeting instructed Mayor Kinley to interview Premier Murray with a view to learning what action the local government had taken.

Arthur H. Zwickler, head of Zwickler and company, limited, moved, and W. C. Smith, managing director of W. C. Smith and company, limited, seconded the following resolution, which passed unanimously:

"Whereas, the prosecution of the fishing industry by the means of beam or auto trawling is exceedingly destructive to the fishing grounds, and is especially annoying and against the interest of our fishermen, it is hereby resolved by this meeting, composed of fishermen and the fishing interest of the town and county, that we make an organized effort to prevent this mode of fishing, and representation be made to the federal government recommending that no fish caught by beam trawlers be permitted to be landed in Canada and that steam trawlers be refused supplies and coal at Canadian ports."

On motion of Captains G. A. Smith and Artemus Schmeck, it was resolved: "Whereas, the protection of our industry and the fishing interest of our industry is of vital importance to the town and province, and as funds are needed to successfully carry on the work, it is hereby resolved that Captains Scott Cockum and Daniel Zwickler be appointed a committee to collect funds for the purpose of carrying on the agitation against beam trawling, and the town council be asked to vote and hundred dollars from the town funds for the same purpose, and it is further resolved that a delegation be sent to Ottawa to place the matter before the government."

W. C. Smith moved, and Captain Howard Whyman seconded, the following resolution:

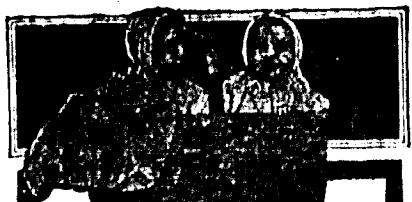

"Resolved, that the meeting appoint a standing committee of seven citizens of the town and vicinity, who are required to carry on the agitation against beam trawling and make all necessary arrangements to bring the matter before the proper authorities."

The meeting appointed the following seven men for the committee: Arthur Zwickler, W. C. Smith, H. W. Adams, William Duff, Richard Silver, Scott Cockum and Howard Whyman.

May 19th and C. W. Lane were afterwards added to this committee. A vote of thanks was tendered Captains Robinson and Heckman and Mr. Nickerson, who was referred to as the war horse of the Nova Scotia fishermen.

Japan's Cotton Industry.

Slowly but surely Japan is increasing the extent of its cotton manufactures and has far in time to become a very serious rival in the Oriental trade of the nations which have long enjoyed a practical monopoly. In 1900 Japan imported 20,000 bales of American cotton, and in the last four months of 1911, it imported 181,770 bales. That is a perfectly tremendous increase, although it does not begin to come up as yet to the record of England which in the same four months imported 2,200,000 bales, or of Germany which imported 1,200,000 bales. And yet the Japanese mills are growing. They are using the best machinery made in this country and in Europe, they are having their overseas trained in this country, and they have a natural supply of low-priced help. The country will be a force to be reckoned with in the cotton industry of the future.

Big Fire in New York

THREE HUNDRED THOUSAND DOLLAR
BLAZE NEAR THE BOWERY.

NEW YORK, Feb. 10.—A fire so serious that practically all the fire apparatus in the city was summoned to combat it, broke out late tonight, in one of the most congested sections of New York, near the Bowery, throwing thousands of tenants, hotel guests, theatre-goers, and dancers into a panic.

In place of the great casualty list which the police feared, the reports from the scene were startling from the fact that not a single serious injury was reported. The wonder of it was great when the police figure out that nearly five thousand persons were driven from crowded buildings at a late night hour, some in panic, in the streets, where they shivered in cold near zero. The total damage was about \$300,000. The route which the fire caused was summed up as follows:

Three hundred tenants of the tenement building near the corner of Christie and Stanton Streets, where the fire started.

A thousand young women and men who were dancing on the upper floor of a seven-story building adjoining the tenement, which took fire rapidly.

Four hundred in the Salvation Army Hotel for women at No. 245 Bowery, which was seriously threatened the dance hall behind it burned down.

ANAPOLIS, February 10.—The death of Frederick Leavitt, occurred at his residence last night after an illness of several weeks. He was 81 years old. His death was not unexpected, as he had been critically ill for some time, and death was anticipated daily. The deceased was well known and had for many years filled important offices. He held the office of stipendiary magistrate and registrar of probate for many years and was up to the time of his death, secretary of the Acadia Steamship company. He was also prominent in masonic circles and for many years held the office of secretary of Eureka chapter of Royal Arch Masons of this place. Fire in Middleton

THE LOSS PARTIALLY COVERED BY INSURANCE.

MIDDLETON, February 11.—This town was again visited by fire yesterday. A blaze started in some unknown way in the cellar of the store of Crow Elliott company. Almost the whole contents of the store, and of the residence of G. W. Crowe, on the second floor, were destroyed. There was a strong wind blowing, but the fire company and citizens saved the warehouse of Crowe, Elliott company, and the combined store and residence of T. R. Jones, across the street in the direction of the wind.

The buildings of N. F. Marshall and son and G. M. Moore close by, were protected by the direction of the wind. G. W. Crowe's household goods were valued at one thousand and had five hundred insurance. The burned building, owned by A. A. Crowe, was worth \$2,200 to \$3,000, and was insured for about one-half. Crowe, Elliott company estimate their loss at about \$12,000, covered by insurance.

\$20,000 Fire in New Glasgow.

FOUR WOODEN BUILDINGS DESTROYED
A NUMBER OF CONCERNS BURNED OUT.

NEW GLASGOW, N. S., Feb. 11.—Fire here this morning destroyed a block of four wooden buildings belonging to Raymond Dand, of Provost Street. They were completely gutted, and a number of firms burned out. Those burned out are the Miss Wright, resturant and residence; the Singer Sewing Machine Co.; McMillen's restaurant and residence, and D. S. Fraser, boots and shoes.

The fire started in Miss Wright's restaurant and in a few moments after the entire wooden structure and the adjoining wooden building were in a blaze. The loss will be about \$20,000. Raymond Dand carried some insurance and Fraser's stock, worth about \$7000, was pretty well insured. One of the buildings burned was sold some months ago to the Royal Bank, where a new building was to be erected.

How He Liked Pittsburg

A man who has just come back from Paris was taken the other day to view Pittsburg for the first time. He kept washing his face, and hands the whole day. The friend who was with him asked him how he liked the town. "Well," he replied, "it suits me all over."

Interested in the Farm

"Does your boy, Josh, take an interest in the farm?"

"He's begun to," replied Mr. Cornsoss. "He's been shovin' me where we could have some dandy golf links an' how easy it would be to turn the barn into a garage."

15 YEARS A DYSPEPTIC

Forced to Live on Stale Bread and Porridge.

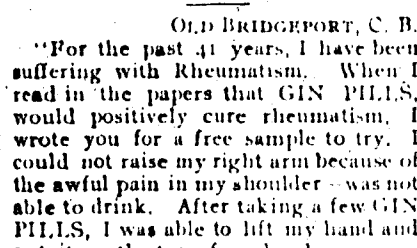

"FRUIT-A-TIVES" CURED HIM

AVONDALE, N. B., October, 15th. "I have been a great sufferer from indigestion for fifteen years. I was forced to deny myself all such hearty foods as beans, meats, potatoes and could not drink tea or coffee. For the past two years, I lived on porridge, stale bread, etc. I had tried many two doctors, and tried nearly every kind of medicine, but got worse. Finally I saw a testimonial of 'Fruit-a-tives' and concluded to give them a trial. I took nearly four boxes of 'Fruit-a-tives' and they have made me feel like a new man. I can eat all kinds of hearty foods without suffering, and am no longer constipated."

LEMUEL A. W. BROWN. Many people look on 'Fruit-a-tives' as a miraculous medicine. It has indeed performed what have seemed like miraculous cures in hundreds of cases of chronic indigestion, dyspepsia, constipation and biliousness. 'Fruit-a-tives' is the only medicine in the world made of fresh fruit juices and valuable tonics. 50c. a box, 6 for \$2.50, or trial size, 25c. At all dealers or from Fruit-a-tives Limited, Ottawa.

COULD NOT RAISE MY RIGHT ARM

OLD BRIDGEPORT, C. B. "For the past 41 years, I have been suffering with Rheumatism. When I read in the papers that GIN PILLS would positively cure rheumatism, I wrote you for a free sample to try. I could not raise my right arm because of the awful pain in my shoulder - was not able to drink. After taking a few GIN PILLS, I was able to lift my hand and put it on the top of my head."

I went to the Islands of St. Pierre and Miquelon and met an old fisherman named La Pape. His limbs were stiff from Rheumatism and I gave him some Gin Pills. I met him again in a few days and he told me he could lift his arms, which he had not been able to do for ten years. ADOLPHE E. MAHE. 50c. a box - 6 for \$2.50 - money back if not satisfied. A Good Emulsion

This may seem an exceedingly simple thing to talk about, but its importance at this season of the year when the system is exposed to the incursions made upon it by our uncertain climate should not be underestimated.

The nutritive and reconstructive properties of **Good Liver Oil Emulsion** are too well known to need any explanation here. Sufficient to say that **Jones' Emulsion** includes all that is latest and best in emulsion making and contains the full percentage of pure Cod Liver Oil.

CORRESPONDENCE.

To the Editor of the Courier:

DEAR SIR: I am today in receipt of your issue of 26th ult., and you may be sure that I looked it over carefully. One item I notice seems a little far fetched, and it is headed "Zero Weather in California." I may say that I arrived in this State about Dec. 15th last, and while I have not been all over the State, and it may be possible that there has been zero weather in the State, there are some lofty mountains in this State and I am told that the weather is very cold at their summit. I shall only speak of that portion which I have visited. I have looked by coast over from here to the bound ary line of Mexico, a distance of some 225 miles and I have failed to find any town or village in my travels that has not roses and geraniums, and I may say all sorts of flowers, in full bloom in their gardens and not even wilted by the frost, and as for zero weather I have not yet seen the thermometer touch the freezing point in Santa Barbara, although at Chula Vista, which is within four miles of the Mexican border, I did see a skin of ice one-sixteenth of inch thick one morning while there. There have been white frosts in some sections of this city this winter but in other it has been frostless. I have located here and have bought a property, that the frost has not visited this winter yet, and is not likely to now. The sun has shown every day since I arrived in this State and I may say all day every day, except three when we had some showers, but in none it was not obscured at any one time for more than an hour. The temperature rises to 60 degrees or above, nearly every day, and it is a rare thing for it to go below 40 degrees at night. This town strikes me as one of the nicest locations, as well as the nicest towns I have struck, and the people are very social and nice. I will be in position to tell you more about it here and how we like it after I have lived here for a while. But I fail to see how it will be possible not to like this beautiful sunshine and genial climate. I can see from my window rose bushes climbing 30 ft. high and filled with blooming roses, one of which I enclose.

Truly Yours,

L. D. MORRIS.

Annual Cruise to Start July 20

ROYAL KENNEDY YACHT CLUB
HAD A FINE YEAR

(St. John Telegraph.)

The annual meeting of the Royal Kennedy Yacht Club was held last night in the club rooms, Masonic Hall, Gormin street, and was one of the most enthusiastic in the history of the club. The following officers were elected for the ensuing year: Commodore, Robert Thompson; vice commodore, Howard E. Holder; rear commodore, A. Ernest Everett; secretary, H. W. Stubbs; treasurer, H. B. Robinson; executive committee, flag officers, secretary and treasurer ex officio, Fred S. Heans, W. O. Rothwell, Horace King, C. E. Allan, F. A. Kinnear. The following committees were chosen: Sailing committee, J. Gordon; Likely, W. C. Rothwell, E. N. Herrington, H. R. Dunn, J. H. Kimball, Dr. A. H. Merrill; sailing measures, E. Percy Howard; Walter Logan; motor boat committee, F. A. Dickson, Fred Fleming, J. H. Barton, Charles I. Green, Walter Fleming; motor boat measures, Roy P. Church, John D. Purdy; reception committee, flag officer, H. A. Allison, G. E. C. Gandy; Fred C. Jones, J. L. Gregory.

It was decided that the annual cruise should start on July 20 and a committee was appointed to arrange the details. A letter was read from Ferguson & Page in which they donated a trophy to be known as the Ferguson & Page shield. For a series of three races to be managed and judged by the motor boat committee of the R. K. Y. C. The races are to take place during June, July and August and are to be open to members of the R. K. Y. C., St. John Power Boat Club, Westfield Outing Association, and the Renforth Outing Association. One race will be from Millidgeville to Renforth and return, one from Millidgeville to Indian town and return, and one from Millidgeville to Westfield and return.

The question of transportation from Main street, Scott's corner, to Millidgeville was discussed and the committee having the matter in hand reported progress.

At the close, Commodore Thompson entertained the members to light refreshments. The various committees reported, the reports being of a most satisfactory nature. The financial statement, which has already been published in this paper, showed the finances of the club to be in excellent condition.

No Clemency for Richeson.

GOVERNOR FOSS SAYS HE WILL NOT INTERFERE WITH DEATH SENTENCE.

Boston, Feb. 14. Governor Foss will make no effort to commute the death sentence of Charles V. Richeson, murderer of Alexis Lemell, who has been sentenced to death in the electric chair in the week of May 10.

The governor, in conversation with William A. Morse, junior counsel for the condemned, said there was not the slightest chance to save the life of Richeson. He will not submit to the legislative council any petition favoring a commutation of the death sentence. He is satisfied from the hundreds of letters that he has received, that the sentiment of the state is for the death of Richeson.

It is strongly intimated that the petition to be brought for the commutation of the death sentence will run counter to Richeson's insane. With this in view, the governor has had several conferences with Sheriff Quinn to learn the real condition of the condemned man, Dudley M. Holman, private secretary of the governor, has also been to the prison to see Richeson.

The information conveyed to the governor is to the effect that Richeson is not at present insane, but that he is verging on a nervous breakdown.

There is reason to believe that he is likely at any time to suffer prostration. Richeson has promised Sheriff Quinn that he will not attempt to kill himself or commit any other act of violence while in Charles Street jail.

James T. Pyle Dies at His Desk.

HEAD OF PEARLINE COMPANY STRUCK BY HEART DISEASE WHEN DICTATING LETTER.

New York Herald, Feb. 9.

Mr. James Tolman Pyle, President of the Pearl Line, and son of the late Captain Pyle, died at his desk in the company's factory in Edgewater, N. J., yesterday morning. He was dictating a letter to his stenographer when an attack of heart trouble caused his sudden death.

When Mr. Pyle did not continue with his dictation the stenographer glanced up, and seeing a young man had fallen forward on his desk, thought he had fainted. She rushed out for medical aid, and a physician who was summoned said Mr. Pyle was dead. Tomorrow would have been Mr. Pyle's fifty-seventh birthday, and it had been the intention of his family to give a party for him at his home, No. 673 Fifth Avenue, Manhattan. According to some of Mr. Pyle's confidential friends he had been ill for some time, but refused to give up his business and went to the plant in New Jersey yesterday morning at his usual hour.

Mr. Pyle was born in New York City and was the son of Mr. James Pyle, the founder of the Pearl Line business. He was educated in the public schools of New York and as a young man entered the employ of his father in the Pearl Line business. After the death of his father Mr. Pyle became the head of the firm, which latter was incorporated.

Mr. Pyle was a member of the Museum of Art, the American Society Service, the New York Zoological Society, the People's Institute and the American Museum of Natural History. He was a member of the Metropolitan Club, Grolier, Riding, Lawyers, Morris, town, Morris County Golf and Nassau clubs.

Besides being president of the Pearl Line company he was head of the New York and Queens Electric Light Company. He is survived by a widow and six children.

By CLAUDINE SIBBON.

That Keswick, after a college course, should return to Vaudon and take, as a novice, a motorman on the Vaudon and Arverne trolley line was a little more than a nine days' wonder in Vaudon, where the Keswicks had lived for half a century.

Great promises had been made on Keswick's behalf when he decided to take a portion of his father's insurance money and complete his college course, and it was confidently predicted that he would make a name for himself in the city beyond when his four years should be up. Instead he had quietly returned to his old home and had applied for and obtained a place as motorman on the new line just completed to Arverne.

Even Horace Custis had been somewhat surprised at Ren's request to be put on a car. "We could use you here in the office, Ren," he suggested as he swung around in his office chair.

"No, thank you," was Ren's quiet rejoinder. "I want to know something about trolleying before I sit in front of a rail top desk, and I guess the front platform of a car is as good a place as any from which to study."

So Custis had let him go, and that evening when Dorothy Custis remonstrated with him for not doing better by the son of his old friend he laid a hand on her shoulder.

"Dot," he said kindly, "for your sake as well as for the sake of poor Tom Keswick I would have been glad to put the boy to work in the office, but a college education has not spoiled him, and I gave him the place for which he asked."

Dorothy, blushing to find that her secret was known to her father, fled to her room, and after that the subject was dropped so far as the Custis household was concerned.

Vaudon was more interested, however, and there were many who freely remarked that if Ren Keswick could not do better than a motorman's job after all that schooling it would have been better had he lost himself in the city.

Meanwhile Ren stuck to the motorman's job, and in a short time he was regarded as the best operator on the road. He knew every curve and grade on the eighteen miles of track, and his car was never late, because, no matter what the delay, he knew how to favor the work and come up to the Vaudon station on time.

Once when there had been a break at the power house which shut off the power from the line for twenty minutes he had raced the accommodation from the brook crossing to the station and had beaten it by three minutes. It was an eight mile run from the crossing to the station by trolley, but the railroad took a curve to avoid crossing Arverne creek twice and had four miles farther to go.

Dorothy was a frequent passenger on the car, and it was natural that she should avail herself of her privilege as daughter of the president of the road to ride on the front seat with the motorman. If he happened to take the car on which Ren was the motorman it certainly had the appearance of an accident, and not even Vaudon talked about it, which was surprising.

Those rides were precious ones to Ren as he stood at the controller and nursed the heavy car over the tracks. Once when he had been late and was hurrying to make up his time, she had looked up with glowing eyes as he helped her down the step.

"I'd just love to be with you some time when you are making a real fast run," she smiled, and he, smiling back into the eager eyes, had replied:

"If I ever have to make a real fast run I'll let you know."

She was talking of his promise as they sped toward the town one evening in August. There had been a dance out at Arverne lake, and Dorothy had left early to meet her father. A celebration was being held some thirty miles up the road, and her father was among the invited guests. They were coming home on a special train, the governor and his staff and half a hundred other. The train was due at Vaudon at about the same time as the special, and Dorothy had left the party early in order to be home to meet her father.

Once or twice Ren had let out the car on level stretches to see her eyes flash with excitement and had crept along the harder parts to keep his schedule even.

They were taking it easy along the stretch by the creek when, as they approached the railroad, they spied a headlight up the track.

There was plenty of time, and rather than take chances Ren stopped on the near side of the crossing and waited on the seat a moment as the light drew nearer.

As it flashed past there was a cry from Dorothy. In the moonlight she saw that there was no one in the cab. "Did you see?" she demanded excitedly as she grasped Ren's arm.

"Runaway," he answered.

"The train!" she gasped. Ren's face grew hard.

There was a construction camp up the road, and he recognized this as the engine of the work train. There had been threats made against the governor by some of the foreign laborers,

and they had probably sent the engine adrift in the hope of obstructing the track and wrecking the train.

If the fire burned down it would come to a halt on the track, and if the engineer of the special did not see it there would be a wreck. If the fire kept up steam there might be an even more dangerous collision while the engine was in motion.

Ren turned to the conductor. There were but the three on the car. "Don't lose the wire!" he shouted as he turned toward the front. He bent over Dorothy. "Hold tight!" he cried. "Here is your fast run!" And he turned on the current.

For a moment there was a whirr as the motor gained speed, and then they were off. Ren knew that he must reach the station before the special left or there would be no hope. In another moment they were running at top speed, and the car swayed and rattled as though it would leave the track. But Ren knew every dangerous spot, and the car sped along, slowing down at the curves just enough to hold to the rails. The going rang almost constantly at the crossings, but there was little traffic, and they had a clear road through. Once or twice a teamster pulled up suddenly and swore as the rush frightened his horses.

Dorothy's eyes blazed with excitement as she clung to the seat. She guessed why the run was being made, and even her fear for her father did not spoil her enjoyment of the speed. She had confidence in Ren.

At last they were in the village and were speeding up the street. He slowed up as much as he dared, but he could hear the pinging of the engine and knew that the special was already in the station. There would not be a long stop, and he gritted his teeth as he threw on the full power again, for in the distance he heard the rattle of the wildcat.

One glance showed him that the engine of the special was below the only siding this side of the station. There was no time to back and throw open a switch. The engine would be upon the train before anything could be done. He satisfied himself of this and made up his mind quickly. He shut off the power and ground down the brakes, stopping in the center of the track. He sprang to Dorothy and, catching her up in his arms, jumped from the car and staggered away from the track.

Another instant and a crash told him that the wildcat had run into the car. He set the girl down and turned to see. The engine had been thrown completely off the track, and the special was safe.

In a daze he received the congratulations showered upon him until he heard the president of the railroad company speaking.

"We are going to put in several trolley lines," he was saying, "and we want just such a quick-witted chap as yourself as general manager."

He looked at Dorothy, and Dorothy's eyes said "Yes." She had known all along that he was seeking practical experience for just such a post as this, and they were to be married when he had won.

The Wind and the Motorcar.

That the velocity of the wind makes a material difference in the speed of his car is realized by every motorist, but just what this resistance amounts to is not a matter of common knowledge. The increase in resistance is not in direct proportion to the increase in the velocity of the wind, but is double the amount that would ordinarily be expected. For example, a wind of fifty miles an hour exerts a pressure of ten pounds against each square foot of surface directly in its path, while a body moving through the air at a speed of 100 miles an hour meets with a resistance of forty pounds per square foot. To travel at fifty miles an hour, then, against a head wind of equal velocity sets up a resistance to the movement of the car of about 1,000 pounds, or half a ton, and it is small wonder that the occupants gasp for breath. At this speed the total pressure exerted against a man of ordinary size would be equal to a 200 pound weight distributed over the upper half of his body, and it may be imagined that lung action under such conditions is rather difficult—Harper's.

The Trumpeter Bird.

The trumpeter bird is the ringleader of the woods and swamps of Guiana, where he is always at work at his trade, with his stomach for a pack and his bill for a hook. He performs a most useful but most extraordinary service, devouring a perfect multitude of snakes, frogs, scorpions, spiders, lizards and like creatures. But this terrible bird can be made perfectly tame. On the Guiana plantation he may be seen fraternizing with the chickens, ducks and turkeys, accompanying them in their walks, defending them from their enemies, separating quarrelers with strokes of his bill, sustaining the young and the feeble, and wailing the echoes with his trumpet while he brings home his flocks at night. The natives have a saying that he has swallowed a cornet. Whether promouling or war making he fills the air with his trumpet calls, and at the sound of his voice of brass the reptiles take to flight.—New York Herald.

Explaining His Interest.

"Who is that man who comes in every day and asks 'What's the latest from China?'"

"That's Tom Piffleton—Thomas B. Piffleton. He's intensely interested in the overthrow of the Manchurian monarchy."

"Who is he?"

"He's the philanthropist and wants to get the first series of postage stamps issued by the Chinese republic."—Ole and Pika Dealer.

On Which Line Are You Riding

On which line are you riding, the joy line or the grief line?

Are you traveling along with a grin or a frown?

Do you have a kind word just once in a while? Or do you go all the day without even a smile? Is this the idea of the world you got?

That all are against you and more of that sort of out of your system, the fault is with you. The world has no time to cure a temper that's mine.

The good natured man is the man who gets by. And you cannot succeed with a face that is grim.

Set your mouth corners up into a smile. You'll find as you go it will be worth a pile.

Free if It Fails.

YOUR MONEY BACK IF YOU ARE NOT SATISFIED WITH THE MEDICINE WE RECOMMEND.

We are so positive that our remedy will permanently relieve constipation, no matter how chronic it may be, that we offer to furnish the medicine at our expense should it fail to produce satisfactory results.

It is worse than useless to attempt to cure constipation with cathartic drugs. Laxatives or cathartics do much harm. They cause a reaction, irritate, and weaken the bowels and tend to make constipation more chronic. Besides, their use becomes a habit that is dangerous.

Constipation is caused by a weakness of the nerves and muscles of the large intestine or descending colon. To expect permanent relief you must therefore tone up and strengthen these organs and restore them to healthier activity.

We want you to try Rexall Orderlies on our recommendation. They are exceedingly pleasant to take, being eaten like candy, and are ideal for children, delicate persons, and old folks, as well as for the robust. They act directly on the nerves and muscles of the bowels. They apparently have a neutral action on other associated organs or glands. They do not purge, cause excessive looseness, nor create any inconvenience whatever. They may be taken at any time, day or night. They will positively relieve chronic or habitual constipation, if not of surgical variety, and the myriads of associate or dependent chronic ailments, if taken with regularity for a reasonable length of time. 12 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Sold in Digby only at our stores. The Rexall Stores, P. W. Holdsworth's, Digby; and Ryan & Blackader's, Weymouth.

For Dyspepsia.

YOU RISK NO MONEY IF YOU TRY THIS REMEDY.

We want every one troubled with indigestion and dyspepsia to come to our store and obtain a box of Rexall Dyspepsia Tablets. They contain Bismuth Subnitrate and Pepsin carefully combined so as to develop their great rest power to overcome digestive disturbance.

Rexall Dyspepsia Tablets are very pleasant to take. They tend to soothe the irritable, weak stomach, to strengthen and invigorate the digestive organs, to relieve nausea and indigestion, thus promoting and bringing about a feeling of comfort.

If you give Rexall Dyspepsia Tablets a reasonable trial, we will return your money if you are not satisfied with the result. Three sizes, 25 cents, 50 cents, and \$1.00. Remember, you can obtain Rexall Remedies only at our stores. The Rexall Stores, P. W. Holdsworth, Digby, and Ryan & Blackader, Weymouth.

Must Wear High Neck Dresses.

INSTRUCTIONS FOR LADIES ATTENDING RECEPTION OF CARDINAL BOURNE IN LONDON.

LONDON, Feb. 21.—Ladies must wear high neck dresses.

These printed instructions accompany all invitations issued for the reception of the newly appointed Cardinal Bourne to be held next Monday.

There is no restriction regarding color, says the order, but black is the most suitable, as is also a black mantilla as head covering.

"Speaking of mantillas," remarked the Cardinal's secretary, "I hope Catholic women will wear them generally, as big hats interfere with the view of ceremonies at the altar. Large hats in church are entirely out of place, and with huge hat pins they are very dangerous."

MISADVENTURES OF A LADY.

DEAR SIR, We wish to inform you that we consider your MISADVENTURES article, and we use it as a source of relief for sore throat and chest. When I tell you I would not be without it if the price was one dollar a bottle, I mean it.

Yours truly,

CHAS. F. TILTON.

Times are Changing.

"Well," answered Bobby, thoughtfully, "I hope I'll never have to tell my little boy that."

New Industry Opening at Sydney

The *Merchant* had the pleasure of a half hour's talk with Mr. C. R. Walker, of the Cross Fertilizer Works at Sydney during his visit to Halifax this week. Mr. Walker is from the Old Country, but has come to make his home in Canada. He is a director of the firm of Alex. Cross & Sons, Liverpool, London and Glasgow, as well as of the Sydney company. The parent house has been established for 100 years and their entrance to the Canadian field began with a visit of the senior member of the firm, Mr. Alex. Cross, and Mr. Walker to Sydney in 1910. In the following May they commenced to erect their plant and warehouses and today they have everything in running order to produce 1,000 tons of Basic Slag fertilizer per week. Now there are fertilizers and fertilizers. The kind the *Merchant* is best acquainted with is the bone meal kind that one can scent a long distance away. Mr. Walker tells us that this kind is not a competitor of theirs. The usefulness of "Basic Slag" is in bringing back to life and productivity the old run down hay fields and pastures of the country. We were surprised to have him tell us that the process is effected without cultivation. The farmer simply scatters the fertilizer broadcast as he sows, timothy and from six to eight dollars worth will bring an acre into magnificent bearing. In his opinion there should be a market in the Maritime Provinces for all the Sydney works can produce, and he believes that once the farmers have realized its worth they will not permit a pound of Basic Slag to be sold outside these provinces.

The raw material for the Cross Fertilizer Company is obtained from the Dominion Iron and Steel Co., it is a by-product of their plant. Mr. Walker told us that his company had expended nearly a quarter of a million of dollars in their Sydney works and warehouses and as he himself remarked, they must have a very considerable confidence in the future of their industry in this country or they should never have done that, as an evidence of their storage capacity for the finished product he told us that their warehouse is 365 feet long, and 150 feet wide, a very large building, but small enough so he thinks for the business that is in prospect. Mr. Walker is now opening a sales connection with the different agricultural centres of the province, he went from here to see some of the large dealers in the Annapolis Valley and any of our readers who think they could handle a car of his product should drop him a line to Sydney. France's Big Naval Budget Passed Senate.

MINISTER OF MARINE OUTLINES HIS PLANS FOR EXPENDITURE OF NEARLY \$300,000,000.

PARIS, Feb. 16.—The senate tonight voted the naval budget after Minister of Marine Delaisse had outlined the various important reforms in the navy which it was planned, he said, to accomplish in the near future. It would be his aim, M. Delaisse declared, to add to the number of large types of ships and increase the efficiency of the crews of war vessels.

He said he had given special attention to the question of ammunition and that 600 tons of doubtful powder had been taken to sea and sunk and only absolutely reliable brands of explosives were being kept.

The naval programme calls for the expenditure of \$279,000,000. The chamber of deputies adopted the budget last Tuesday.

Premier Poincaré successfully steered two of the most critical articles of the electoral reform bill through the chamber of deputies tonight. The articles voted involve the abolition of the present small constituencies and the substitution in each department of electoral circumscription and the principle of proportional representation.

"5000 Facts about Canada" for 1912

The 1912 Edition of that popular and indispensable booklet, "5000 Facts about Canada," compiled by Frank Yeigh, the widely known writer and lecturer, and author of "Through the Heart of Canada," is now out and is replete with new matter, including an outline map of Canada, a calendar, and the new Census figures. In compact form is found a wealth of facts and figures of the Dominion that will prove a revelation of our natural resources and growth. The mass of information, gathered with infinite pains, should be in the hands of every intelligent Canadian, and the wide sale and popularity of the publication is easily understood. Copies may be had for 25 cents from The Canadian Facts Publishing Co., 667 Spadina Ave., Toronto.

Hard Times at Dad's.

The teacher was trying to explain the uses of the thermometer.

"How can we tell," she asked, "in winter, for instance, how much colder one day is than another day?"

"When it's awful cold," spoke up the harbor's little boy, "nobody goes 't' git his hair cut."

Sore From Elbow to Fingers.

ZAM BUK WORKED A MIRACLE OF HEALING.

REVEREND GENTLEMAN FULLY CURED.

Miss Kate L. Dolliver, of Caledonia, Queens Co., N. S., says: "I must add my testimony to the value of Zam Buk. Ulcers and sores broke out on my arm, and although I tried to heal them by using various preparations, nothing seemed to do me any good. The sores spread until from fingers to elbow was one mass of ulceration."

"I had five different doctors, and faithfully carried out their instructions. I drank pint after pint of blood medicines, tried salve after salve, and lotion after lotion; but it was of no avail."

"My father then took me thirty miles to see a well known doctor. He photographed the arm and hand. This photograph was sent to a New York hospital to the specialist; but they sent word they could do nothing further for me, and I was in despair."

"One day a friend asked me if I had tried Zam Buk. I said I had not, but I got a box right away. That first box did me more good than all the medicine I had tried up to that time, so I continued the treatment. Every box healed the sores more and more until, to make a long story short, Zam Buk healed all the sores completely. Everybody in this place knows of my case and that it is Zam Buk alone which cured me."

Minister corroborates.—The Rev. W. R. M. Parker, of Caledonia, Miss Dolliver's minister writes: "This is to certify that the testimonial of Miss Dolliver is correct as far as my knowledge goes. I have known her for a year and a half, and her cure effected by Zam Buk is remarkable."

Wherever there is ulceration, blood poisoning, sores, cold cracks, abscesses, cuts, burns, bruises, or any skin injury or disease, there Zam Buk should be applied. It is also a sure cure for piles. All druggists and stores sell at 50c per box, or post free from Zam Buk Co., Toronto, for price. Refuse cheap and harmful imitations and substitutes.

Wives May Not Have to Obey Husbands Soon.

MUCH DISCUSSED WORD MAY BE ELIMINATED.

LONDON, Feb. 21.—As a result of the recent Suffragette wedding, at which the bride refused to obey her husband, there is a prospect that the word "obey" will be struck from the Church of England marriage ceremony. The subject was up for discussion at a meeting of the Lower House of Convocation of the Province of Canterbury yesterday and a resolution was adopted recommending that the scriptural form of the last exhortation in the marriage ceremony be revised.

The Dean of Canterbury objected strenuously to altering "an exhortation which contains passages from St. Peter and St. Paul, on the grounds that these Apostles were wrong." The Dean of Winchester, however, insisted on the recommendation, and it was adopted with a slight modification.

The House also agreed to change the collect in the marriage service, asking for children for the couple. For this collect, the committee proposes to substitute the following words: "Bless them, we beseech thee, upon these persons the heritage and gift of children."

Glorious Hair.

FOR EVERY WOMAN WHO WANTS IT.

Any woman who neglects her hair cannot expect to have as lovely hair as the woman who doesn't.

Wash the hair once a week, use PARISIAN SAGE daily—keep your hair brush clean and in a few days you will give to your hair a beautiful lustre that you will be proud of.

PARISIAN SAGE is a most reliable hair tonic, so reliable that H. E. Jones guarantees it to eradicate dandruff, stop falling hair and itching scalp, or money back.

It should be used as a dressing by every member of the family because it keeps the scalp clean, prevents hair from turning gray and baldness. Large bottle 50 cents. You will have no use for ordinary preparations after once giving delightful PARISIAN SAGE a trial.

A Free Trial That Means Something

Most of the "Free Offers" that appear in advertisements do not pan out very well. There is usually some string attached or some conditions to be complied with that amount to a good price for all you get. A notable exception, however, is the offer made by Mrs. E. E. Currah, of Windsor, Ont., as stated on another page in her ad entitled, "Proving by Actual Experiment." She sends, absolutely free, a box of Orange Lily, an expensive, concentrated remedy, put up in pure gelatine capsules which is sufficient for 10 days' treatment, and which is worth 35 cents. Mrs. Currah finds it pays to do this, for the reason that being a strictly scientific preparation, its good effects are noticeable from the start, and almost all who give it a trial continue its use until completely cured.

Signs in the East Herald a Rise in the Price of Tea.

LONDON, Feb. 20.—It does not take a prophet nor the son of a prophet to foretell a rise in the price of tea.

Apart from the signs playing across the commercial horizon, the world is full of omens (that's the right word in the right place), which make the higher cost of tea a sure and certain as the continued existence of the tea trade. Cheerfully and gaily we have sipped our favorite blend of Indian and Ceylon teas and perhaps wondered how the blender had managed to give us all the generous strength of the former with the fine flavor of the latter. But a few cents more per pound for our favorite blend that never crossed our mind. Yet the signs in the East say we must pay more for tea, and it is best to be philosophical, for they cannot be gainsaid.

There are more than a few reasons why tea should go up in price, even suppose we take no cognizance of the universal conditions which are raising the cost of living. The world's tea market is widening rapidly. During the last decade the people of Russia have become a nation of tea drinkers, and the people of Germany and France are beginning to realize that the juice of the tea plant makes a soothing and an invigorating beverage. But while the market is widening rapidly the world's tea area is decreasing perceptibly—for this reason. Tea lands are especially adaptable for the growing of rubber, and rubber planters are finding it hard to meet the ever growing demand for the raw product. The result is obvious. Tea plantations are being converted into rubber plantations, with the consequence that a rise in the

Proving by Actual Experiment

This experiment will always interest the children, and will prove a good deal of thinking. The explanation, of course, is that the lighted piece of paper which is inserted into the inverted glass drives out most of the air, so that when the mouth of the glass is quickly put down into the water there is very little air, and consequently, very little pressure above the water within the glass, the weight of pressure of the air on the water outside the glass drives the water up into the glass to occupy the space from whence the air was driven by the burning paper.

A practical demonstration of this kind is always more convincing than any mere statement. This is particularly true of medical remedies.

The effect of the anti-toxin treatment for diphtheria is noticeable within a few hours, so that everyone must believe in its virtue. In a similar way, the treatment known as ORANGE LILY gives a practical proof of the progress it is making in curing women's disorders, and that, too, within a few days after commencing its use.

All authorities agree that in every case of women's disorders there exists a congested condition of the woman's organs. The circulation in these parts is sluggish or stagnant, and the result is that the broken-down tissue or waste matter which should be carried off by the blood is circulating freely, remains in those parts, causing inflammation, irritation, oppression of the nerves, etc. ORANGE LILY is not taken internally, but is applied direct to the suffering organs. It is placed into the circulation, and its antiseptic properties at once act on the waste matter referred to above. The consequence is that this waste matter, which is causing the inflammation, allures, is removed from the system, and the circulation is restored and good health is restored.

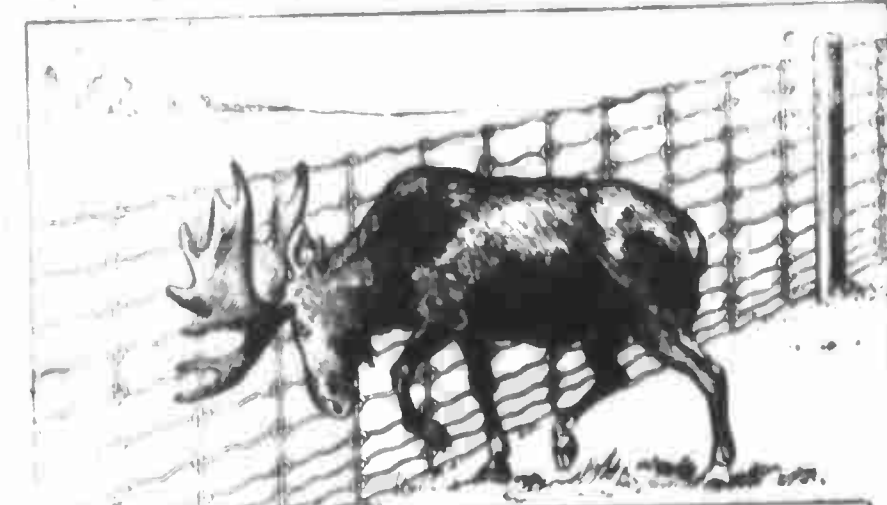

Toronto, Ont. June 2, 1909.
Dear Mrs. Curran: I wish to tell you that Orange Lily is doing me great good. I have been away one or two weeks, and I have less pain and fewer headaches. I feel sure I will be perfectly cured in a little longer time.
MRS. D. S. T.

The best remedy of the wonderful cures performed by ORANGE LILY is very simple. It is a scientific remedy, based on the discovery of Doctor and later on the conditions existing in all female troubles are alike in character, differing in degree and development only, so that a positive remedy, as ORANGE LILY is, is a cure for all. A chemical experiment. In order to convince every sufferer, we have made the following:

"Boys, a word of advice to you. When you speak of your father, don't call him 'the old man.' Of course you are older now than when you were taught to call him father. You are much smarter than you were then, you are much more manly looking, your clothes fit you better, your hat has a modern shape and your hair is combed differently, in short you are 'bigger' than you were then. Your father, perhaps, has a last year's coat, a two-year-old hat and a vest of still older pattern. He can't write such an elegant note as you can, etc. But don't call him 'the old man.' Call him father. For years he has been bustling around and doing things together. He may not have succeeded very well but he has held to the thorny path of upland industry, and the brightest half of his life has gone from him forever. But he loves you though he goes along without saying much about it, there fore don't be ungrateful. Show as much respect for him as you would a stranger at least. That's one part, and a big one too, of a real gentleman."

CURIOSITY Prompted Many Women To Try PURITY FLOUR

THEY were curious to see exactly what results would be produced by flour consisting entirely of the high-grade portions of the best Western hard wheat.

They were curious to know more about a flour that contained none of the low-grade portions, which are found in every wheat berry, but which are separated and excluded from the high-grade in the process of milling PURITY FLOUR.

THEY were curious to know whether an ALL HIGH-GRADE hard wheat flour was really superior to a mixed hard and soft wheat flour.

They were curious to see and taste the kind of bread, buns, biscuits, cakes and pies PURITY FLOUR would make.

Curiosity prompts you to seek the knowledge they discovered. It's urging you to try PURITY FLOUR.

REMEMBER: On account of the extra strength and extra quality of PURITY FLOUR it is necessary, for best pastry-results, to add more shortening than you are accustomed to use with an ordinary flour. Add more water when making bread.

Add PURITY FLOUR to your grocery list right now

Humor and Philosophy

PERT PARAGRAPHS.

NOW is the time for all good men to hustle to the bazaar counter and do their Christmas buying.

Just be gracious and let things take their course. They will annex it anyway.

The coal bin begins to open its mouth and what its appetite.

Backward cakes are a compensation for any things.

A friend in need is pretty apt to be a friend that is reaching for you.

Nobody likes a kisser, but still it is fun to see him operate when one has no interest either way.

It is hard for a lazy man to earn his living. That is why he usually has an industrious wife.

The best work of some people consists of making a nuisance of themselves.

Good form is always in style, but some styles are bad form.

Getting rid of a bad habit takes the rest of a man's life.

Some persons hurry to avoid trouble, and others hurry to meet it.

Minus Attractions.

Go to. Your simple life is not an art to hit the spot. Nor can a vacuum succeed in filling every human need. A wilderness is not the place in which to grow a mighty race. Nor can the soil developed catch the glories of the cabbage patch.

To city weary it may seem a glad and very lovely dream To have a little patch of land On which with feet secure to stand. Not be dependent on the trade For every single egg that's laid. To know your lettuce, unfilled, Since first it was a little child.

But what a useless, tasteless life Removed perhaps from care and strife, Though never getting anywhere, Just eating vegetables there! Meanwhile the world of men and things Its song of inspiration sings; But, all unmindful of its call, They hear the frogs and that is all.

The dead cannot the living hold The maddening crowds their charm unfold.

And in the busy lives of trade Are strong and sure foundations laid. The bright lights beckon still to youth And charm the seeker after truth. The simple life may miss annex; For progress picks the life complex.

"Come, come, my dear; let's must economize."

"Again?"

"All the time."

"Give me the money then."

"Money? What money?"

"To economize. You are always telling me that I can't do a thing without money, so if you want me to economize fork over the means."

Poor Brown.

"Brown lost a lot of money on the election, didn't he?"

"Yes, but he ought to make it up on his coal bills."

"How is that?"

"His wife will make it hot for him all winter."

Picture Post-cards.

"What's the greatest nuisance you know of?"

"The greatest nuisance?"

"Yes. Do you know what it is?"

"Sure, I've been away too."

"How is the baby?"

"Very well. But we don't just understand him yet."

"Don't understand him?"

"No. We find him so hard to please."

Knew It.

"Has he made a success?"

"Yes, as a great detective."

"How did he get to the front?"

"By not taking his own advice."

There Are Others.

"Is he not well?"

"Well, he stings."

"What does he sting?"

"His own praise."

Not Desirable.

"He is the son of the earth."

"Then I don't want to meet him. He might get me in a pickle."

THERE'S no mistaking the expression of a man whose farm is well "improved."

He looks as prosperous as he feels.

It isn't the size of a place that counts most, nor its actual dollars and cents value. It's rather that "well kept," thrifty appearance, the appearance that makes you think of fat stock, and well filled barns, and comfortable, contented living.

Neat, permanent improvements go further in giving a farm this appearance than any other feature.

Concrete Is The Ideal Material

For such improvements. It is neat, harmonizing with its surroundings in the country. Everlasting. It cannot be injured by fire, frost, wind or lightning. Age instead of causing it to decay actually makes it stronger.

Concrete never needs repair. First cost is last cost. New improvements can be added year after year with less expense than would be required to keep wooden structures in repair.

Concrete walks, feeding floors, dairy barns, fire houses, roof cellars, well-curbings, fence posts, sidewalks, which of these does your farm need most? Whatever you want to build, it's best to build it of concrete.

Do you want to know more about this subject of permanent farm improvements? Then write for your copy of

"What The Farmer Can Do With Concrete."

OPERATIONS AVOIDED

By Lydia E. Pinkham's
Vegetable Compound

Belleriver, Que.—"Without Lydia E. Pinkham's Vegetable Compound I would not be alive. For five months I had painful and irregular periods and inflammation of the uterus. I suffered like a martyr and thought often of death. I consulted two doctors who could do nothing for me. I went to a hospital, and the best doctors said I must submit to an operation because I had a tumor. I went back home much discouraged. One of my cousins advised me to take your Compound, as it had cured her. I did so and soon commenced to feel better, and my appetite came back with the first bottle. Now I feel no pain and am cured. Your remedy is deserving of praise."—Mrs. EMMA CHATEL, Valleyfield, Belleriver, Quebec.

Another Operation Avoided.
Poughkeepsie, N.Y.—I run a sewing machine in a large factory and got all run down. I had to give up work for I could not stand the pains in my back. The doctor said I needed an operation for womb trouble but Lydia E. Pinkham's Vegetable Compound did more for me than the doctors did. I have gained five pounds. I hope that every one who is suffering from female trouble, nervousness and backache will take the Compound. I owe my thanks to Mrs. Pinkham. She is the working girl's friend for health, and all women who suffer should write to her and take her advice.—MISS THILLIE PIZZANO, 5 Jay St., Poughkeepsie, N.Y.

Thirty years of unparalleled success confirms the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases.

Twilight Dreams.

1. Sit and muse at close of day.
2. And view the twilight stealing on;
3. Unlink the Sun's declining rays.
4. And note the birds have ceased their song.

"Tis thus with life, I think it o'er,
I view the past declining years—
Shall the recording angel find
My record filled with joy and tears.

The youthful life is full of hope;
In childhood's prime, our soul is strong;
In age, our thought of homeward turn,
For life at best is never long.

And yet our lives though years are full
Are only as the vapor passed,
Then we should strive with all our power
To live this day as if the last.

I sit and think when sunset's gold
Is fading, and the stars and moon
The evening still is closing hours;
They lead me in and close the door.

Shall I lead me in, declining years,
His set like Sun to western sky,
Assurance find that even night
My Saviour near, yes, even nigh.

When, I am through with troubled life
I trust I then shall know no fear;
A light shall brighten all my path
That leads across those waters dear.

And when the gates of pearl unfold
And brightness strikes upon my sight,
I need no sun or candle there
The Sun of God is Heaven's own light.

New Era of Civilization.

IS PROMISED BY ITALY TO THE PEOPLE

OF NEW POSSESSIONS IN TURKEY.

ROME, Feb. 28.—General Paolo Springue, Minister for War and Admiral Pasquale Leonardo Cattolica, Minister for Marine, today thanked the members of the Chamber of Deputies for their manifestations in honor of the army and navy, and their speeches were greeted with a great ovation.

Signor Marcora spoke, saying that the Italians through the valor of their soldiers were simply taking possession again of the ancient Roman provinces which owed their civilization to Rome, and had been thrown back into barbarism again by usurpers. These provinces would now enter into a new era of civilization which they would receive from Rome.

The Chamber of Deputies today appointed a committee consisting of 21 members, representing all the parties except the Socialists, who will meet tomorrow to report on the bill for the annexation of Tripoli, which is expected to pass on the same day.

Secretary Knox off for South America.

KEY WEST, Fla., Feb. 23.—Secretary of State P. C. Knox, sailed from Key West this morning on board the cruiser Washington on a political mission that will take him, according to present arrangements, to the capital of Central America, to Caracas, Venezuela and possibly to Santiago, Colombia, and also to various points in the West Indies.

Mr. Knox is looking this trip at the direction of President Taft and European diplomats look upon it with more than passing interest. The Secretary is going to the Caribbean for the purpose of solving diplomatic problems and acquiring more accurate information as to conditions in Central and Northern South America.

The Washington will go from here to Port Antonio, Jamaica, and the present itinerary will keep Mr. Knox away until sometime in April.

Two American Girls Cannot Leave Mexico.

EL PASO, Texas, Feb. 28.—Miss Nellie Wilson, twenty-year-old daughter of Governor Woodrow Wilson, of New Jersey, and Miss Kitner, a friend, are marooned at Madera, Chihuahua, Mexico, according to advices received here. The young women have been the guests of the family of P. A. Hutchins, manager of a large lumber camp operating at Madera. Governor Wilson has made demands that his daughter and her friend be conducted to the American border. The rebels refuse to permit the railroad company to run a train from Madera to Juarez until the situation improves. Madera has declared in favor of Antonio Rojas, a rebel leader, and in celebrating the event, burned a large part of the Mexican quarters.

Her Idea of Heavens.

Father Edward Vaughan was condemning a somewhat acrimonious religious argument.
"Depose of this kind," he said, "remind me forcibly of a little girl."
"Where are the heavens, Jenny?" her Sunday school teacher asked this little girl.
"The heavens," the child replied, "are people who don't quarrel over religion."

A Great Discovery.

CERTAIN INGREDIENTS THAT REALLY PROMOTE HAIRGROWTH WHEN PROPERLY COMBINED.

Resorcin is one of the most effective germ destroyers ever discovered by science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its natural nourishment, and also creates a clean, healthy condition of the scalp, which prevents the development of new germs.

Phlorizin, although not a coloring matter or dye, is a well known ingredient for restoring the hair to its natural color, when the loss of hair has been caused by a disease of the scalp.

These ingredients in proper combination, with alcohol added as a stimulant and for its well-defined nourishing properties, perfect perhaps the most effective remedy that is known for scalp and hair troubles.

We have a remedy which is chiefly composed of these ingredients, in combination with other extremely valuable medicinal agents. We guarantee it to positively cure dandruff and to grow hair, even though the scalp is spots is bare of hair. If there is any vitality left in the roots, it will positively cure baldness, or we will refund your money. If the scalp has a glazed, shiny appearance, it's an indication that baldness is permanent, but in other instances we believe baldness is curable.

We want every one troubled with scalp disease or loss of hair to try Rexall 93 Hair Tonic. If it does not cure dandruff and grow hair to the satisfaction of the user, we will, without question or quibble return every cent paid for it. We print this guarantee on every bottle. It has effected a positive cure in 95 per cent of cases when put to a practical test. Rexall 93 Hair Tonic is entirely unlike, and we think, in every particular, better than anything else we know of for the purpose for which it is prescribed. We urge you to try this preparation at our entire risk. Certainly we know of no better guarantee to give you. Remember, you can obtain Rexall Remedies in Digby only at our store, The Rexall Store, P. W. Holdsworth, Digby, Ryan & Blackader, Weymouth.

Avoid Harsh Drugs.

MANY CATHARTICS TEND TO CAUSE INJURY TO THE BOWELS.

If you are subject to constipation, you should avoid strong drugs and cathartics. They only give temporary relief and their reaction is harmful and sometimes more annoying than constipation. They in no way effect a cure and their tendency is to weaken the already weak organs with which they come in contact.

We honestly believe that we have the best constipation treatment ever devised. Our faith in it is so strong that we sell it on the positive guarantee that it shall not cost the user a cent if it does not give entire satisfaction and completely remedy constipation. This preparation is called Rexall Ordealies. These are prompt, soothing, and most effective in action. They are made of a recent chemical discovery. Their principal ingredient is odorless, tasteless, and colorless. Combined with other well known ingredients, long established for their usefulness in the treatment of constipation, it forms a tablet which is eaten just like candy. They may be taken at any time, either day or night, without fear of their causing any inconvenience whatever. They do not gripe, purge, nor cause nausea. They act without causing any pain or excessive looseness of the bowels. They are ideal for children, weak, delicate persons, and aged people, as well as for the most hearty person.

They come in three size packages, 12 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Remember, you can obtain them only at our store, The Rexall Store, P. W. Holdsworth, Digby, Ryan & Blackader, Weymouth.

Looked Odd to Him.

A little Boston boy was visiting the home of his grandparents in Brockton, and as they live in the suburbs and were out calling one dark evening they were loomed a lantern with which they might better find their way through the then muddy streets. After some little time spent in studying the new environment the little fellow succeeded in getting the lantern lit with this remark:

"See, grandpa's got the gas in a bottle."

Origin of Drummer.

The custom of calling travelling men "drummers" originated in the fact that in the early days peddlers who sold goods about the country announced their arrival in town by beating a drum.

The Reason.

"John," said his teacher, "how is it that you do not yet know the alpha bet?" "Tom Jones never misses a letter."

"Neither he ought," replied John. "His father is a postman."

Made a Mistake.

"I don't want to kick, but didn't you have your photograph running rather late last night?"

"No, we shut it off at 10 o'clock."

"I thought I heard it about 1.30."

"That was my husband snoring."

Staff Captain Jennings has Returned From England.

Staff Captain Jennings has just returned to Halifax after spending three months in the "Old Land," during which time he travelled extensively through Scotland, England and Ireland, lecturing on Nova Scotia, its resources and opportunities. These lectures were largely attended and created considerable interest in this Province. The Staff Captain succeeded (through the lectures and personal interviews) in interesting a large number of farmers and farm-laborers, who will come to Nova Scotia this spring. Some of these men have a small capital, ranging from 150 to 500 pounds. The men will arrive a few at a time on the various boats, during March and April, and will be given situations on arrival.

A number of applications have already been received, but if there are any others who will need help this spring, they should write at once to Staff Captain A. Jennings, Box 477, Halifax, N.S.

His Theory.

Baby Rosamond, her short hair parted rather boyishly on one side, was on the floor playing with a rattle. In his little room across the room her cousin Roger sat studying her seriously.

"I shouldn't wonder," he remarked sagely, after a long pause, "if it turned out to be a boy."

She—"I just love a good skate."

A Familiar Friend of 100 Years Ago.

Marvelous changes have been wrought in the way of living in the last 100 years. We prepare our food in a different way, we eat differently, dress differently, are taught differently in the schools. If we stop a moment to compare our ways with those of a hundred years ago, we are almost led to believe that everything has changed and everything has been improved.

In the matter of treating our ailments the changes are no less noticeable than in other things. Old ways and old methods are gone. Amid all this change, however, we are almost startled when we think of one household preparation which has come down to us out of the remote past unchanged, and which is today more highly respected than ever before. We refer to that old reliable household remedy, Johnson's Anodyne Liniment, which has been used continuously by the people of this country for 101 years.

One hundred years is a long time. To go back to when it began is to get out of the age of the flying machine, the automobile, the telephone and the telegraph to a time when such things were not even dreamed of. It goes back beyond the steam railroad into the realm of the stage coach. The steamboat was a hundred years ago a new thing. In 1810, when Johnson's Anodyne Liniment was first compounded, James Madison, 14th President of the U. S., had just been inaugurated. Abraham Lincoln was then a one-year-old baby. The country then had less than one-tenth of the population it now has and not one in a hundred thousand of its present 90 million people had then been born.

With the age of this 101 year old friend goes respectability. The respect is due solely to its virtues. It could not have lived over 100 years if it had not been one of the most efficient remedies the world has ever known for the aches and pains, the ills and ailments to which the human family is subject. During its lifetime, thousands of other liniments have come and gone and been forgotten. The 101 year old liniment lives and grows in the affections of the people. Where it has once been used in a family it is a rare thing that anything else has ever been found to take its place. Thus, in innumerable households, it has come down, like a valued heirloom from father to son for generations.

The Anodyne Liniment is manufactured by I. S. Johnson & Co., Boston, Mass., and is sold by dealers generally throughout the country.

Has Fortune Left Him.

NEW YORK, Feb. 28.—After scrubbing floors and peeling potatoes for a living in the City Lodging house here for a fortnight or more, Leopold Hirschberg learned from a relative this week that his father had died and left him real estate in Alabama worth a bout \$100,000. He will leave at once to claim his inheritance.

His Theory.

Baby Rosamond, her short hair parted rather boyishly on one side, was on the floor playing with a rattle. In his little room across the room her cousin Roger sat studying her seriously.

Would Soon Give Out.

An exchange has this good one: "Boys, what do you think Noah did while he was in the Ark?" asked a teacher of a class of little fellows.

"I think he might have fished some," was one answer.

"Yes, he might have fished a good deal," was the comment of the instructor, when another small boy spoke up and said:

"Please, sir, I don't think he fished very long, because he only had two worms."

Wanted to Keep It Quiet.

After an unusually naughty prank, her mother sent her upstairs to confess her sins in prayer.

"Did you tell God about it?" she was asked on coming down again.

Caroline shook her head decidedly. "Why, it would have been all over heaven in no time."

Well Punished.

"Has Tommie been a good boy since I've been out?" said the mother. "No, he hasn't," replied the father.

"Did you punish him?"

"No."

"Oh, yes, you did, pop. Don't you remember you sang to me?" came from the boy.

Digby, March 1, 1912

Death of Mrs. H. H. Morse.

MOTHER OF THE LATE DR. L. H. MORSE
PASSES PEACEFULLY AWAY.

On the morning of Ash Wednesday 21st inst., the death occurred suddenly of Mrs. Margaret E. Morse, of West Paradise, widow of the late H. Harding Morse and mother of Dr. Eugene Morse, with whom she resided on the old home-stead.

Mrs. Morse, who had reached the ripe age of seventy six years, had been in her usual health until within a few days of her death, which occurred from heart failure.

Mrs. Morse was formerly Miss Margaret Morse, of New Brunswick, and survived by two brothers, John H. Morse, of New Brunswick, School Inspector, and Wm. Morse, of Digby, and one sister, Mrs. Wm. Bishop, of Williamstown. In her girlhood she was baptized by the Rev. L. E. Bill into the membership of the Baptist church and her entire life was adorned by her Christian virtues enhancing a native loveliness of character. None knew her but to admire and esteem, and her children may truly "rise up and call her blessed."

Mrs. Morse was predeceased by her husband, who was one of the progressive and intelligent farmers of Annapolis Co., thirty years ago. She is survived by three sons and four daughters, Arthur E. and J. Eugene, of West Paradise; Rev. A. H. C., of Brooklyn, N. Y.; Mrs. L. M. Longley, of Paradise; Mrs. J. D. Spurr, Colonial Arms; Mrs. Hugh Fowler, Wolfville; Mrs. (Dr.) Crawford, New York City. A son, Dr. L. H. Morse, of Digby, died last year, and a daughter, Mrs. Twining Lyons, of Waterville, passed away a few years ago.

The funeral took place on Friday afternoon, at half past two and was conducted by Rev. N. A. McNeill, with interment in the Paradise cemetery.

Western Nova Scotia Yacht Club.

A NEW ORGANIZATION LAUNCHED WEDNESDAY NIGHT WITH MOST FAVORABLE PROSPECTS.

A large number of pleasure boat owners and others interested in aquatic sports met in the offices of the Maritime Fish Corporation Wednesday night and instituted an organization to be known as the Western Nova Scotia Yacht Club.

A full set of by laws were framed and passed, after which the following officers were elected:

O. S. Dunham, Commodore.
W. M. R. Jones, Vice Commodore.
J. F. Cripps, Rear Commodore.
P. W. Holdsworth, Secretary.
Fritz Dakin, Treasurer.
J. O. Dakin, Measurer.
C. A. Lindstrom, Asst. Measurer.
Management Committee: J. F. Cripps, W. A. Chute, C. A. Dakin, Sailing Committee: Capt. Howard Anderson, J. O. Dakin, T. E. G. Lynch.

A committee, consisting of the Commodore, T. E. G. Lynch, and F. L. Anderson, was appointed to solicit additional membership and to make arrangements for leasing suitable quarters for the Club until a property can be purchased.

Rear Commodore Cripps kindly offered the use of the Bijou Dream (Addicks) hall for an Easter ball for the benefit of the club. His kind offer was very much appreciated by the officers and members of the club, and Messrs. P. W. Holdsworth, Dr. V. D. Schaffer and Fritz Dakin were appointed a committee to make all arrangements for the coming event.

The club already has quite a large membership and many others have expressed a desire to join at the next meeting.

The Western Nova Scotia Yacht Club has certainly been organized with very favorable prospects and we wish the new organization every success.

A Prominent Rehearsal

MISS GEORGE BEAMAN REMEMBERED BEFORE LEAVING FOR B. C.

Saturday's Sydney Post says:—Miss George Beaman, of Beaman & Cole's millinery store, was entertained and made the recipient of beautiful presents at Oddfellows Hall Friday evening last, by the daughters of Rehearsal (Sydney and Dominion). Mrs. A. Y. Morrison, on behalf of Victoria Lodge, Dominion, presented Miss Beaman with a silver pearl handled fish set, and J. H. Beaman, on behalf of Martha Lodge, Sydney, a silver pearl handled dinner set. Miss Beaman also received a special gift from Mrs. D. Morrison, of Dominion. After the presentation, refreshments were served by the local lodge. In her remarks in reply, Miss Beaman referred to the great progress and splendid work accomplished by the daughters, both at Sydney and Dominion, and would long remember the friendly spirit that prompted the members to remember her on this occasion. At the close of the entertainment the members joined hands and with Miss Beaman in the centre of the circle, sang "Auld Lang Syne." Miss Beaman leaves tonight for British Columbia.

(Miss Beaman will be joined in Toronto by her brother, Mr. Harry L. Beaman, at present in Digby, and they will proceed to Calgary, where Miss Beaman will participate in a happy event, after which Mr. Beaman will accompany the bride party to Vancouver, where they will in future reside.)

KILLED BY A TRAIN.

Distressing Accident at Digby.

Fletcher, the 11 Year old Son of Leonard Wade, Met a Horrible Death.

CORONER'S INQUEST HELD SATURDAY NIGHT—THE JURY'S VERDICT: ACCIDENT NO BLAME TO THE EMPLOYEES OF THE TRAIN—FURNERAL HELD MONDAY.

A sad gloom was cast over the whole town Saturday morning when it was learned that Fletcher B. Wade, the eleven year old son of Mr. and Mrs. D. L. Wade, had, while coasting down Maiden Lane, been struck by the suburban train and instantly killed, the little fellow's head being almost completely severed from the body.

The body was removed to J. F. Dale's undertaking rooms. Coroner Daley held an inquest Saturday afternoon and evening at which the following witnesses were examined:

A. G. Herbert, conductor of the train; S. Riley, engineer; James MacKenzie, brakeman; Owen Riley, truckman; Oscar Morgan, jeweler, (the two latter witnesses of the terrible accident) and the little twelve year old brother of the deceased who was also on the sled, but who escaped injury.

The jury was addressed by H. L. Dennison, K. C., and F. W. Nichols. They returned the following verdict:

"We, the jury, impelled to inquire into the cause of the death of the deceased Fletcher B. Wade, have carefully considered the evidence placed before us, and have decided that the said Fletcher B. Wade was killed on Maiden Lane, while coasting down a sled which was under a moving train on the Dominion Atlantic Railway line extending from the railway station to the wharf, and that no blame can be attached to the employees of the said train. We would recommend, however, that the town authorities ask the Railway Company to place gates at the Birch street and Maiden Lane crossing to avoid further accidents."

The coroner thanked the jury, and said that he concurred in their verdict. A pathetic incident at the inquest occurred during the examination of truckman Riley, who is more than eighty years of age. The sad fellow brought on an attack of heart trouble and in the midst of his evidence he had to be removed from the court room and taken to his home.

Another sad feature of the accident was that it occurred within a few yards from a house in which the funeral service of the late Janet C. Robbins was being conducted at the time.

THE FUNERAL.

The funeral was held from the home of his parents Monday, the remains being conveyed to the Halifax express accompanied by the little fellow's teacher and school mates.

The interment took place at Parker's Cove. The service at Digby was conducted by Rev. Thos. S. Roy, pastor of the Digby Baptist church, and at Parker's Cove by Rev. Mr. Smith, the same afternoon. Among the floral tributes was a handsome wreath from the Baptist Sunday School of which the deceased was a regular attendant since the family moved to Digby from Springfield, Annapolis county, several months ago. Mr. Wade is in charge of the carpentry department of the Digby branch of the Maritime Fish Corporation.

Fletcher B. Wade, who was a bright little fellow and well liked by all who knew him, is survived by his parents, three sisters and two brothers, all of whom have the deepest sympathy of the entire community in their sudden and sad bereavement.

Rexall CHERRY BARK COUGH SYRUP

The importance of little things is shown in no way more clearly than by far-reaching consequences of a mere cough or cold. A simple cough, if neglected and allowed to gather headway, may result in pneumonia before the danger is realized. It's cure is so simple and easily procured, that a chronic cough is really a reflection upon a man's intelligence.

Rexall Cherry Bark Cough Syrup is a highly efficient remedy for all kinds of coughs, throat irritations and hoarseness, and one, which owing to its purity, is absolutely incapable of giving rise to any digestive derangement. Because of its pleasant flavor, it is an ideal preparation for children, to whom it may be given with perfect safety.

Sold only at our store, at 25c, 50c and \$1.00.

AFTER DOCTORS FAILED

Lydia E. Pinkham's Vegetable Compound Cured Her.

Midgie Station, N. B.—One can hardly believe this as it is not natural, but it was my case. For ten months I suffered from suppression. I had different doctors, tried different medicines, but none helped me. My friends told me I would go into a decline. One day a lady friend told me that your medicine had done for her, so I wrote you for advice and received your reply with pleasure.

I started taking Lydia E. Pinkham's Vegetable Compound, and at the second bottle showed improvement. Now I am regular and never was so well in my life, thanks to Mrs. Pinkham's medicine.

Please publish my letter for the benefit of others.—MRS. JOSIAH W. HICKS, Midgie Station, N. B.

Indian Head, Sask.—Lydia E. Pinkham's Vegetable Compound is indeed a boon to women who suffer from female ills. My health is better now than it has been in my five years of married life and I thank you for the good you have done for me. I had spent hundreds of dollars on doctors without receiving any benefit.—MRS. FRANK COOPER, Box 448, Indian Head, Saskatchewan.

The most successful remedy in this country for the cure of all forms of female complaints is Lydia E. Pinkham's Vegetable Compound.

Make Life Happy.

Make this life beautiful while you may. For we have not sunshine every day. There comes a time when our life is profane. For every life has sorrow and pain. Unto others be as kind and true As you would that they should be to you. Try to make all things work for the best And Love Divine will see to the rest. The Winter's cold and Summer's rain Each will produce a needed gain. So let the blunders care and strife You meet within this busy life Give wisdom love and strength to thee To live for others more tenderly. And make them happier while you may. For we have not sunshine every day. A. P. BIRCH.

Two Desperate Criminals Arrested.

ANARCHISTS COMMITTED SERIES OF DARING AUTOMOBILE CRIMES IN PARIS.

PARIS, March 6.—An extraordinary series of automobile crimes which has been terrorizing France seems to have terminated by the arrest of two anarchists, one of them a Belgian, after a desperate attempt last night to assassinate a lawyer at Pontois in the Department of the Seine Et Oise, about nineteen miles to the North-west of this city, and to rob his residence. The criminals have been using a mysterious automobile in their operations. They recently shot down and robbed a bank messenger by daylight in the streets of Paris, and then drove off.

On Tuesday of this week they killed a policeman in front of the St. Lazare terminus by shooting him through the window of their automobile, and last night they returned to Pontois where they entered the house of a rich lawyer and shot him while he was on his way to his study. He, however, succeeded in beating them off and causing their arrest.

FOUR BOXES CURED HIM

PLEASANTVILLE, QUE.

"I suffered from Kidney Trouble for several years, and tried numerous remedies and doctors' prescriptions without permanent relief, my case being chronic. After seeing about Gin Pills, and as it is a well known fact that Juniper without alcohol is excellent for the kidneys, I decided to try Gin Pills. One single pill gave me great relief. I have now taken almost four boxes of Gin Pills and find myself completely cured. No more bad humor—increased weight—clear eyes—fresh color—more strength and vigor. This is what Gin Pills have done for me!"

Gilbert's Cove

Capt. Henry S. Mallette, who was on the sick list, we are glad to hear is around again.

Capt. John G. Walsh has purchased a fine horse, quite recently and is enjoying the pleasure of the good sleighing.

The annual meeting of the Union Pier Company will be held at the office of John J. Melanson on the 29th, for the past and ensuing year.

Miss Carrie Ethier, of Weymouth, who was the guest of her sister, Mrs. Bernard N. Melanson, for a few weeks, has returned to resume her duties in dress making.

Our local merchant, John J. Melanson, has taken in considerable soft wood, hard wood and piling. The cove has never been so filled up for a number of years.

Schr. H. S. M., Capt. Robt. Hanks, is at present on the ship at Meteghan under going repairs, which damage she sustained by going ashore on a ledge near Pond Island Harbour, Me.

C. E. Cleveland has fitted up a sail loft at the cove and is prepared to do all kinds of sail work, both making and repairing, also rigging in all its branches. He has done considerable for the Melanson fleet of vessels.

There is at present in winter quarters at Gilbert's Cove: Schr. Florence E. Melanson, Capt. Clifford E. Melanson; Schr. Laura E. Melanson, Capt. Leonard J. Melanson; Schr. Lillie E. Melanson, Capt. John German, Schr. Arizona, Capt. John Thibideau, Schr. Bessie, Capt. Thomas Adams, Schr. Princess of Avon, Capt. John G. Walsh.

Mr. and Mrs. Jos. Oliver and young folks, of Weymouth, enjoyed a sleigh drive to the Riv. Father Thibault's, rector of St. Croix parish, where a very pleasant evening was spent in violin and organ selections, after which a sumptuous lunch was served with ice cream and cake. Also Rev. Father Thibault gave his after boys a sleigh ride to Weymouth and got dinner at the Central House, Jos. Oliver, proprietor.

Weymouth

Sheriff Smith was in town last week.

Capt. Joe Boyd, of Yarmouth, was a visitor in town last Tuesday.

Mr. Charles McDonald, Jr. arrived home from Boston last Wednesday.

We are glad to report that Rev. Fr. Dion, who has been in hospital for some time, is fast regaining his health.

Messrs. Max Ashkins and Almy Adams, who have been conducting sales on Digby Neck, arrived home last Monday.

We congratulate Mr. Chester McDonald, a Weymouth boy, who has been appointed manager of the Royal Bank of Canada at Middleton.

Mr. A. J. Holloway, of the Royal Bank of Canada, who has been spending his vacation at his home in Halifax, returned to Weymouth last Tuesday.

Skating is the "go" of the season. Everybody young and old are seemingly enjoying themselves on Oakes Meadow. The fine moonlight evening, lend colour to the sport.

A very appreciative audience greeted Prof. Taylor at the Odd Fellows' Hall on his first visit to Weymouth. He is certainly second to none as an entertainer and legman. Nor was his magic the best, for as the evening wore on he delighted his audience with feats of ventriloquism, the likes of which has never been heard in Weymouth. He certainly deserves the epithet of "King of ventriloquists." The moving pictures "King's Coronation" and "Bathing under difficulties," which evoked a great deal of laughter from the audience, were very plain and interesting.

Saultville.

A quilting party was held last week on the 22nd, where all the married ladies were invited.

The sea has been very severe of late and some places on the coast dams and oysters are piled up in great heaps.

The school children are enjoying themselves immensely at present on Saultville lake which is only a few steps from the school house.

A surprise birthday party was given to Mrs. Jeanne H. Walsh on the 23rd inst., when all the younger ladies of the place secretly assembled there at her home at 8 p.m., where she was presented with many valuable gifts and best wishes for many more birth days to come.

It has come to my notice this winter that there are two kinds of lobster fishermen, a deep water fisherman and a coast fisherman. The latter has the gain for this winter at any rate as facts tell the tale. During the last week's storm especially, one of the coast lobster fishermen found two and a half barrels of lobsters, cooked and shipped them and obtained fifty dollars. All this gain was obtained without any expense at all, whilst the deep water fishermen lost all their traps and caught nothing. So it appears that during winter a lobster fisherman would do better by keeping his traps home and he himself watch closely the coast in search of drifted lobsters. Tony M. Saultville went to the shore on Sunday morning, the 25th inst., and found three sacks full inside of an hour.

Cause for Alarm.

LOSS OF APPETITE OR DISTRESS AFTER EATING A SYMPTOM THAT SHOULD NOT BE DISREGARDED.

Appetite is just a natural desire for food. Loss of appetite or stomach distress after eating indicate indigestion or dyspepsia. Over-eating is a habit very dangerous to a person's good general health.

It is not what you eat but what you digest and assimilate that does you good. Some of the strongest, heaviest, and healthiest persons are moderate eaters.

There is nothing that will cause more trouble than a disordered stomach, and many people daily contract serious maladies simply through disregard or abuse of the stomach.

We urge all in Digby who suffer from any stomach derangement, indigestion, or dyspepsia, whether acute or chronic, to try Rexall Dyspepsia Tablets, with the distinct understanding that we will refund their money without question or formality, if after reasonable use of this medicine, they are not perfectly satisfied with the results. We recommend them to our customers every day, and have yet to hear of any one who has not been benefited by them. We honestly believe them to be without equal. They give very prompt relief, aiding to neutralize the gastric juices, strengthen the digestive organs, to regulate the bowels, and thus to promote perfect nutrition, and eradicate all unhealthy symptoms.

We urge you to try a 25c. box of Rexall Dyspepsia Tablets, which gives 15 days' treatment. At the end of that time, your money will be returned to you if you are not satisfied. Of course, in chronic cases, length of treatment varies. For such cases, we have two larger sizes, which sell for 50c. and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store. P. W. Holdsworth, Digby, and Ryan & Blackader, Weymouth.

Free if it Fails.

YOUR MONEY BACK IF YOU ARE NOT SATISFIED WITH THE MEDICINE WE RECOMMEND.

We are so positive that our remedy will permanently relieve constipation, no matter how chronic it may be, that we offer to furnish the medicine at our expense should it fail to produce satisfactory results.

It is worse than useless to attempt to cure constipation with cathartic drugs. Laxatives are cathartics do much harm. They cause a reaction, irritate, and weaken the bowels and tend to make constipation more chronic. Besides, their use becomes a habit that is dangerous.

Constipation is caused by a weakness of the nerves and muscles of the large intestine or descending colon. To expect permanent relief you must therefore tone up and strengthen these organs and restore them to healthier activity.

We want you to try Rexall Orderlies on our recommendation. They are eaten like candy, and are ideal for children, delicate persons, and old folks, as well as for the robust. They act directly on the nerves and muscles of the bowels. They apparently have a neutral action on other associate organs or glands. They do not purge, cause excessive looseness, nor create any inconvenience whatever. They may be taken at any time, day or night. They will positively relieve chronic or habitual constipation, if not of surgical variety, and the myriads of a so-called dependent chronic ailments if taken with regularity for a reasonable length of time. 12 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Sold in Digby only at our store The Rexall Store. P. W. Holdsworth, Digby, and Ryan & Blackader, Weymouth.

Big Steamer Burned.

NEW ORLEANS, March 6.—The huge Mississippi river packet steamer J. E. Trudeau, burned to the water's edge and sank at two o'clock Friday morning at Saint Gabriel, 100 miles below New Orleans. Eight negroes, members of the crew are missing, and are believed to have been drowned.

Poem on Care in Streets.

The advertisement of the Boston Elevated Railway Company, announcing a prize competition, open until Jan. 1, for short poems written by high school scholars on the general subject of care in the use of the streets, has not only brought to the company a large number of verses submitted in competition, but a number of other interesting contributions from persons who are not eligible as competitors for any prize, but who have written on account of their interest in the subject.

Among the highly interesting contributions of the latter class is one from Thomas Greenleaf Hiler, a venerable gentleman living at 17 Alveston street, Jamaica Plain, who describes himself as "An English High School Boy of the Class of 1843." His verses are as follows:

LOOK BEFORE YOU CROSS THE STREET.

Hark! you heard that sudden clang! 'Twas the trolley's bell that rang. Look! before you cross the street, lest with sudden death you meet.

Now you hear the auto's horn As with speed it flies along. Look! before you cross the street, lest with sudden death you meet.

That's the street's horrid tone, As the fireman makes it moan. Look! before you cross the street, lest with sudden death you meet.

Look! you children, young and old, For thousand dangers here untold. Look! before you cross the street, lest with sudden death you meet.

Robeson May Escape Justice.

CONDEMNED MAN SAID TO BE A WRECK MENTALLY AND PHYSICALLY.

BOSTON, March 6.—Clarence V. T. Robeson, condemned murderer, is rapidly becoming but a shadow of his former self, according to the officers of the Charles street jail.

Practically all of the guards who come into contact with him, are convinced that he is steadily losing his mind. They describe his condition as the worst form of melancholy. Though every possible precaution is being taken by Sheriff Quinn against physical or mental disability of his charge, the officers are beginning to doubt if Robeson will live to see the electric chair. His longest period of rest in sleep is seldom an hour and he has very few of these. Robeson started in as a big eater, but has now reached the point where the choicest dishes barely tempt him to break his fast.

The constant pacing to and fro in his cell, that characterized the first part of his stay in jail, is giving place to a moving about from chair to bed and bed to chair, never staying in either place for more than a few minutes at a time.

Mary Hendry is Safe.

MISSING SCHOONER ARRIVES AT DESTINATION WITH LOSS OF DECKLOAD.

LIVERPOOL, March 6.—Hendry, Ltd., have received a cable from Genfengoes that the tern schooner Mary Hendry, Capt. Edward Godfrey, has arrived there after a passage of fifty-five days. The Mary Hendry sailed from Bridge-water on Jan. 5th with a cargo of lumber for Genfengoes, and as time passed without her being reported, fears were entertained for the vessel's safety. The Hendry encountered exceedingly bad weather during the voyage, and arrived at her destination with her deck load carried away.

The good fortune of the Mary Hendry, however, did not follow her sister ship, the Annie Hendry, which under the command of Capt. Loomer, sailed from Turks Island on December 16 for Lunenburg. Since leaving Turks Island the Annie Hendry has not been reported, and the schooner has been given up for lost.

Central Grove

Miss Gertrude Brown, of Waterville, is visiting her cousin, Mr. Frank Goddard, Albert Guire and daughter Blanche are spending a few days with friends at Freeport.

Mrs. J. W. and Mrs. Ralph Thibault spent a couple of days last week with relatives at Freeport.

Quite a number of the young people from here went to Freeport Saturday evening to the Division Anniversary.

About twenty-five persons from here attended the "Old Maid's Convention" at Freeport, Feb. 11th. All report a good time.

Miss Kathleen Bashley, of Freeport, who has been spending the past few weeks with friends in Central Grove, returned home Monday.

Miss Grace L. Ridley, who has been teaching in Sask. for the past three years, returned home this winter to spend a few months with relatives and friends. She is the guest of Mrs. F. B. Thibert a few days before returning to the West.

Easy to Be an Editor.

Most any one could be an editor. All the editor has to do is to sit at a desk six days out of the week, and edit such stuff as this:—

"Mrs. Jones of Cactus Creek, let a can opener slip last week and cut her self in the pantry."

"A mischievous lad of Picketown, threw a stone and struck Mr. Pike in the alley last Tuesday."

John Doe climbed on the roof of his house last week looking for a leak and fell striking himself on the back porch."

"While Harold Green was escorting Miss Violet Wise from the Church Social last Saturday night, a savage dog attacked them and bit Mr. Green several times on the public square."

"Isaiah Timmer of Running Creek was playing with a cat Friday, when it scratched him on the veranda."

"Mr. Pond, while harnessing a broncho last Saturday, was kicked just south of the corn patch."

"Yes, it's a wonder they draw salaries for it.—Ex.

Robbed Robbers and Was Robbed.

NEW YORK, March 7.—A robber who robbed the robbers who stole \$25,000 from two bank messengers in the financial district two weeks ago, was afterward, robbed twice himself.

Such is a chapter added to the "taxi-cab hold up story" by the confession of Matteo Arbano Friday.

He gave himself up to the police Friday and told how he walked into a saloon where the five taxicab bandits were dividing the \$25,000 loot, and how by "pure bluff" he was given \$10,000. He was in turn held up by two companions and had to divide with them. With \$3,000 he still kept he fled to Havana, Cuba. In Havana he became acquainted with a woman and after a night of drinking, he said, he found himself short of \$2,500, which he alleged the woman had stolen.

He Had Faith in the Scripture.

A guileless old minister one day told some boys the number of the chapter he was to read at the morning service. The boys finding the place glued to the connection pages, and on the Sabbath the preacher read to his astonished congregation that when Noah was 120 years old he took unto himself a wife who was, (turning the page) 130 cubits long, forty cubits wide, bit of gopher wood, and covered with pitch in side and out. He was naturally puzzled at this. He read it again, verified it, and then said: my friends, this is the first time I ever read this in the Bible, but I accept it as evidence of the assertion that we are fearfully and wonderfully made.

Forgot the Fringe.

His chief characteristics to the casual observer were an assertively pompous manner and an assertively bald head. For about an hour he monopolized the conversation around the club fireplace by recital of the struggle that had raised from poverty one youth to affluence in mature manhood.

"Yes, gentlemen," he continued proudly, "I am a self-made man."

DIGBY WEEKLY COURIER

Digby, March 8, 1912

A High Class Concert.

MISS VIOLET COUSINS OF DIGBY SANG TO AN APPRECIATIVE YARMOUTH AUDIENCE.

Tuesday's Yarmouth Times says: The Milton Baptist church was filled last Friday evening with an appreciative audience to listen to a carefully selected programme of music under the direction of Professor G. Churchill, organist of Milton Baptist church. The programme consisted of vocal and instrumental selections of a high order. Among those taking part were, Messrs. Rev. Mr. Rogers, pastor of Wesley Church, violinist; A. J. Watson, cornetist; Donald Pelton, bass soloist and Mr. Vinal, pianist. Among the soloists the Times must mention Miss Cousins, a noted soprano. The singing of Miss Cousins was no doubt the principal feature of this very interesting concert, her voice showing a splendid range and quality. It is safe to predict a great future for this fine singer. The concert deserves more praise than this limited space permits. The Times wishes to congratulate Professor Churchill and those who took part in making the concert a decided success.

The Yarmouth Daily Post, in referring to Miss Cousins, who is a daughter of Mr. and Mrs. B. W. Cousins, of Digby, contained the following: Special mention should be made of Miss Violet Cousins, who was the feature of the evening. Her beautiful mezzo soprano voice of extra high range and rare quality, coupled with a pleasing appearance, bids fair that she will become a great singer.

The Late Major Rogers

A letter from Judge Savary, of Annapolis Royal, contains the following information concerning the late Major Rogers, who lost his life a few weeks ago in a fire in Montreal: Mr. John A. Rogers was an elderly gentleman who used to travel in the interest of the drug business, and was well known by his many warm friends. He was a man of a most kindly and genial disposition, overflowing with good humor and fond of a good story. As a raconteur of humorous anecdotes he had few superiors. He made a pleasure trip with his wife through Nova Scotia last summer and crossed from Digby to St. John the latter part of August. The building burnt was the manufacture of the Abby Effervescent Salts Co., and the papers reported that Mr. Rogers lost his life in saving the girls employed in it.

New Telephones in Digby

THE MARITIME TELEGRAPH AND TELEPHONE CO., HAVE A HUSTLING CREW.

Messrs. H. W. Rufus, A. A. Cross, George Rice and T. F. Carey, of the Maritime Telegraph and Telephone Co., are in Digby this week installing new telephones and making general preparation for an all night service in the Digby exchange.

They began work in Digby last Monday and up to last night had wired and installed 21 new telephones. This is certainly quick work and shows the great interest that Mr. Rufus and his line foreman and men take in the interest of the public as well as the interest of the company which employs them.

It is probable that Digby's all night service will be in operation in a few weeks.

The Smaller Adult Bible Class.

The teacher and members of the Smaller Adult Bible Class, of the Digby Methodist church, enjoyed a drive and a supper at the Barton House on Thursday night of last week, and report an excellent time, being loud in the praise of Host and Hostess McNeill, of that popular hotel in which many Digby parties have been pleasantly entertained especially during the good sleighing for which the present winter has been noted. Those on the drive above referred to were: R. C. Smalley, H. Warner, H. D. Russell, S. M. Daniel, E. T. Tins, H. Warner, H. K. Kiley, W. Connell, G. Young, E. M. Roberson, Jr., A. McNeill and E. Wilson. They were also entertained well in Barton, with vocal and instrumental music furnished by a number of young folks from that village.

Another New Steamer

Capt. Ernest H. Lewis, of Freeport, passed through Digby Friday en route from St. John for Shelburne where he is inspecting the building of a new steamer for Mr. C. T. White, of Apple River, N. S., of which Capt. Lewis will be the commander. The new boat which is being built by Mr. Joseph M. Gull, Shelburne's well known builder, is 85 ft. over all, 20 ft. beam, 9 ft. deep and is designed for 11 knots with a 120-hp. engine.

The new boat is supposed to be launched by the last of April, after which she will be towed to Yarmouth to have her machinery installed by the New Brunswick Iron Co.

She will be thoroughly equipped for passengers and freight and built of the best material.

The Colonial Stock Co.

The Colonial Stock Co. presented two good plays in Digby last Friday and Saturday nights, entitled "Still Waters Run Deep" and "Under An Apple Tree".

The whole company is a good one, but Frank Oliver as "John Midway" Friday night, and as "Doc Hyc" Saturday night, was a special favorite with both audiences. His specialties were also heartily enjoyed. This is the Colonial Stock Co.'s first visit to Digby and we can assure them that their future visits will also draw large houses.

A Successful Entertainment.

An interesting entertainment known as a "Book Social," was held under the auspices of the Epworth League, in the Methodist hall last Tuesday evening. A large number of books were represented and the one possessing the most titles was Miss Minnie Robertson, who was therefore awarded first prize. The entertainment was in every way a success. The sum of \$10.00 was realized.

International Yachting

The motor boat club of America has received a letter from the secretary of the Royal Motor Club of England formally challenging America for this year's race for the British International trophy.

Well Known in Digby.

A leap year party in honor of Miss Helen D. Anderson, was given by her parents, Mr. and Mrs. Thomas H. Anderson, of Boston, in Whitson Hall, Dorchester, Mass., on Thursday night last. It brought together about 150 of the young hostess' friends from all over Greater Boston. There were also guests from New York, Baltimore and Exeter, N. H.

An added interest was lent the affair by the formal announcement by the parents of Miss Anderson of her engagement to Paul H. Smith, also of Dorchester. The announcement, unexpected by most of those present, was made by card.

CHERRY BARK COUGH SYRUP

The importance of little things is shown in no way more clearly than by far reaching consequences of a mere cough or cold. A simple cough, if neglected and allowed to gather headway, may result in pneumonia before the danger is realized. It's cure is so simple and easily procured, that a chronic cough is really a reflection upon a man's intelligence.

Rexall Cherry Bark Cough Syrup is a highly efficient remedy for all kinds of coughs, throat irritations and hoarseness, and one, which owing to its purity, is absolutely incapable of giving rise to any digestive derangement. Because of its pleasant flavor, it is an ideal preparation for children, to whom it may be given with perfect safety.

Sold only at our store, at 25c, 50c and \$1.00.

CLARKE BROS.

CORRESPONDENCE.

To the Editor of the Courier:

SIR,—Under the heading "Sailors in Nova Scotia," the *Yarmouth Times* of Feb. 27th, has this interesting paragraph: "Staff Captain Jennings has just returned to Halifax after spending three months in the old country, during which time he travelled extensively through Scotland and Ireland, lecturing on Nova Scotia, its resources and opportunities. These lectures were largely attended and created considerable interest in this province. The Staff Captain succeeded, through the lectures and personal interviews, in interesting a large number of farmers and farm laborers who will come to Nova Scotia in this spring."

As we have plenty of farm lands along the shores of St. Mary's Bay, we would be very much pleased to see even a few prosperous farmers among us. But whilst the government is searching all over creation to find a market of its own and is paying large sums of money to induce immigrants to settle in Nova Scotia, thousands of our best men are every year abandoning their homes to seek a living in the United States and elsewhere. We must admit, it is hard for us to understand what advantage there is for Irish farmers to leave their homes and settle among us. Is not the Irish soil as good and much more productive than ours? Have they not the great English market at their door, to sell their produce? It is much to be regretted that the *Yarmouth Times* has not favored us with some extracts of Staff Captain Jennings' lectures, which, if true, Scotland and Ireland. Our farmers also might have learned how to make money by raising potatoes at the expense of 50 to 80c, a bushel and selling them at \$1.00 per barrel, or less than 40c, a bushel, on an average price, as we do here. Will the National Policy so loudly applauded on the 21st September help the farmers of Nova Scotia? Naturally the same cause must produce the same effect. If the land in the United States and Canada has kept Ireland down, a slave and a beggar for hundreds of years, and driven the Irishmen away by hundreds of thousands to the United States and all over the world, so here, as long as we will have trusts and combines, and manufacturers and capitalists to control and regulate our trade, so long as we will see their agents all over the country, gathering every cent we can get—so long as our farmers submit to this, so long our homes will be desolate. FARMER.

Clare, March 2nd 1912

Death at Rosway

A correspondent writes: We regret to announce the death of a well known and highly esteemed fellow citizen, Charles Hight, which sad event occurred at the home of his son, Leslie at Rosway on the 29th of February. Everything was done for him that could be done. He was born at North Range July 21st, 1828. He was in the undertaking business for over fifty years. He was a faithful member of the Baptist Church, a member of the church, his life was guided by high principles from which he drew for peace, or fear of censure, could ever cause to sever.

He was twice married. His first wife was Ruth Combs, from which union there were two sons, Charles Chipman and Henry Darius. His last wife was Lucinda Sabean, from which union there were seven children, Elsie, who was drowned, George, who died of diphtheria, Louisa and Leslie of Rosway, Benjamin of Lynn, Mass.; Mrs. George Thomas, of Salem, Mass.; and Mrs. Benjamin Stanton, of East Ferry. One sister survives him. He had twenty-three grandchildren.

Funeral took place on Sunday, March 4th, with interment in Rosway Baptist cemetery. The services were conducted by R. E. J. Evans and the last hymn was sung by two little girls. "Will the Circle be Unbroken." A large number of relatives and friends attended to see the last of all that was mortal of one whom they had loved in life.

Death at Centerville

Death has again come among us claiming as its victim a young man from our number, Arnold Dakin, the only son of a widowed mother, departed this life Feb. 26th, in the twenty-third year of his age. He was a young man of noble characteristics. One sister is married at Port Wade, two reside in Malden, Mass. There are several half brothers and sisters. His own sisters all came home to attend the funeral which took place March 1st. Service in the Baptist church. A very large circle of friends were present to pay their last tribute of respect to one who was beloved among them.

East Ferry.

Mat fever is the order of the day. Mr. Chas. Harris has gone to Boston on business.

Miss Gladys Harris has gone to Yarmouth to learn the dressmaking trade. We wish her success.

Wm. McCafferty and George Therault were passengers to Weymouth via the S. S. Westport Monday.

Miss Lahli Ruggley who has been visiting her friend, Mrs. Gladys Harris, has returned to her home in Tuxton.

Mrs. Benj. Stanton was suddenly called to Rosway on account of the illness of her father, Mr. Chas. Hight, whose death has since occurred.

The ladies of East Ferry intend holding a box party in the near future for the benefit of our hall. It is not a dance hall. We are building it for a place to have meetings and Division or anything else respectable.

Receipts Increase.

OTAWA, March 7.—Customs receipts at the port of Ottawa for February were \$116,300, which is a gain of \$11,000 over the month of February last year. For the first eleven months of the fiscal year the figures total \$1,310,000, a gain of \$113,000 over the corresponding period of the previous fiscal year.

Export of Munitions of War.

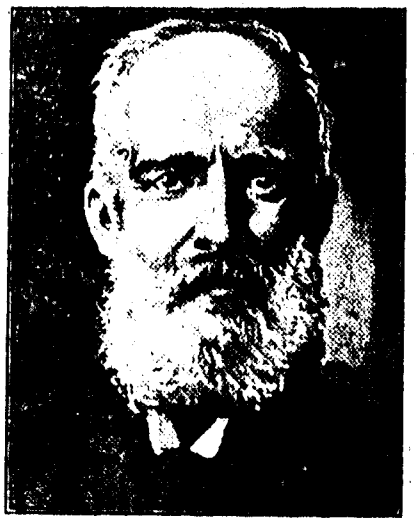

WASHINGTON, March 7.—The United States will not prohibit legitimate exportations, including munitions of war from El Paso, Tex., into the rebel town of Juarez, Mexico. This conclusion was reached at a conference among officials of the Department of State, Justice and Treasury.

TORTURED FOR THIRTY FIVE YEARS

I really could not live without "Fruit-a-tives"

FRANCAVALLO, Ont. Jan. 29th, 1910. "For thirty-five years (and I am now a man over seventy) I have been a terrible sufferer from Constipation. No matter what remedy or physicians I employed, the result was always the same—impossible to get a cure. About two years ago, I read about "Fruit-a-tives" and I decided to try them.

I have used "Fruit-a-tives" ever since. They are the first and only medicine that suited my case. If it were not for "Fruit-a-tives" I am satisfied that I could not live!" JAMES PROUDFOOT.

The greatest remedy in the world for all forms of Indigestion and Dyspepsia, is "Fruit-a-tives". Doctors as well as hundreds of people proclaim it. "Fruit-a-tives" cures all stomach troubles because it makes the liver active, strengthens the kidneys, purifies the blood and keeps the stomach sweet and clean. "Fruit-a-tives" is the only remedy made of fruit juices.

50c a box, 6 for \$2.50, or trial size, 25c. At all dealers, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

COMPLETELY CURED OF DYSPEPSIA

By Na-Dru-Co Dyspepsia Tablets

We are continually hearing from all people who have had experience with the Na-Dru-Co Dyspepsia Tablets. I wish to express my gratitude to the Na-Dru-Co Dyspepsia Tablets.

Having taken other medicines without getting any relief, I decided to try the Na-Dru-Co Dyspepsia Tablets. I have been completely cured of my dyspepsia. I will be only too pleased to recommend any one troubled with dyspepsia to give them a fair trial.

Na-Dru-Co Dyspepsia Tablets not only give the immediate relief from heartburn, flatulence, acidity of the stomach and indigestion, which is much needed, but if taken regularly for a few days or weeks they completely cure the most aggravated cases of stomach trouble. When you see you can get a box from your druggist, why go on suffering? National Drug and Chemical Co. of Canada, Limited, Montreal. 144

Cheap Tea is Dear Tea

SO declared the mother of a small family not long ago

—And proved the statement true by simply relating her tea experience.

"I used a 30c. Tea for years," she said. "One day the Grocer asked me to try a 40c. package of **Red Rose**—he told me it was better Tea. I found it better Tea, and—before I had quite finished the first package I thought it made more Tea. The second pound I used with care—

—And found out that less Tea in the Pot made a richer, finer-flavored Tea, if you know what I mean."

We know exactly what this lady meant—

—40c. **Red Rose Tea** is a richer, stronger Tea, more delicately flavored.

The 30c. variety makes about 150 cups—

Whereas the 40c. **Red Rose Tea** makes about 200 cups.

So You might as well have better tea for the same cost in the long run.

There are several grades of **Red Rose Tea** selling at different prices, but the 40c. grade seems to please best. It is not only fine Quality but goes farther.

A Good Emulsion

It may seem an exceedingly simple thing to talk about, but its importance at this season of the year when the system is exposed to the inclemencies made upon it by our uncertain climate should not be underestimated.

The nutritive and reconstructive properties of **Good Liver Oil Emulsion** are too well known to need any explanation here, sufficient to say that **Jones' Emulsion** includes all that is latest and best in Emulsion making and contains the full percentage of pure Cod Liver Oil.

The death of Mr. Heber J. Outhouse, sr., took place Saturday night, March 3rd, at half past eleven, aged 69 years, the cause of death being consumption. He had been in declining health for some time, but did not become seriously ill until a week ago. Mr. Outhouse is one who will be greatly missed. For the past fifteen years he has held the office of Municipal Councillor, also Magistrate. He lived an honest and peaceable life and was respected by young and old. He leaves to mourn their loss, a sorrowing widow, three daughters, Mrs. Obediah Smith, Tiverton; Mrs. Marvin Morison, Tiverton; Mrs. Layette Young, Newport, Rhode Island; five sons, Herbert, Rupert, Heber and Knut, of Tiverton, and Horatio, in Boston; also one sister Mrs. Alfred Shortliffe, of Central Grove, and three brothers, Stephen, Russell and Israel, as well as a large number of other relatives and friends. The funeral took place Tuesday at 2:30, Rev. F. H. Eaton, pastor of the Baptist church, of which the deceased was a member, conducting the services. Mr. Albert Hayes and wife, of Port George, arrived here Friday by the H. & S. W. and are visiting the parents of Mrs. Hayes and other friends at Victoria Beach.

We are having a beautiful winter as we are getting a beautiful supply of the above adjective, and the lumber and wood piles are getting higher than usual which makes for prosperity. So be cheerful for "the robins will nest again."

Capt. J. W. Snow has secured recently a large American vessel for the further prosecution of his business. This is the Harvester, which, with the Elsie Murray, both carrying crews of 25 men, will take advantage of the American market which the Canadian vessel cannot do.

Capt. John D. Apt, who has been skipper of the Albert J. Lutz for the past two years, will also take an American vessel this season. All three will sail out of American ports. It is too bad to lose these good men, as they will ship crews largely from the American side.

The vessel had 35,000 pounds of fish, the result of one day's fishing. The new White Star liner Titanic is now complete and lying at a Belfast dock, ready for her trial trip. She is 882 feet long and 92 feet beam, and is nearly 100 feet longer than any other ship in the world except her sister, the Olympic and her tonnage—45,000—is 13,000 in excess of that of the biggest of rival liners. Her engines, 50,000 horse power, are both turbine and reciprocating, are expected practically to eliminate vibration. She has accommodations for 5,000 passengers, and cost \$7,500,000. Govt. atmr. Aberdeen arrived Monday from Halifax and will make Digby her headquarters for a time, having been, as stated in our last issue, transferred to the St. John agency. She will anchor in the stream, only coming to the government dock when requiring supplies. The Aberdeen went to sea again Tuesday morning to go down to Petite Passage on buoy service, but returned to port at noon on account of the thick weather, sailing again Wednesday, arriving in St. John the same afternoon.

CORRESPONDENCE.

To the Editor of the Courier: DEAR SIR:—When I wrote my letter of the 23rd ult., I did not do so with the intention of arousing controversial correspondence, nor shall I continue such. However, I do think D. W. D. needs enlightenment on one or two points, which I hope may not be "indefinite" this time or "misleading." I notice the whole of the latter part of my letter was left unanswered. For my part I prefer to remain with the few, a member of the church whose teaching is from our youth up to be temperate in all things, and enjoy the pleasures which are not conducive to evil but the reverse when the participants especially enjoy said pleasures openly and have enough strength of character when Lent comes in to abstain in a quiet manner and give more time to self examination and meditation, and I think say "but minded person" can only look with approval upon people young or old who can do this. I think D. W. D. had better pay attention to that part of the separated flock who are not supposed to play cards at all, who cannot abstain even during March, but prefer playing whist and dancing straight through July into December. If D. W. D. is a reader of the Bible he must know, or should have more knowledge, of the feasts and fasts, for from the beginning of the Bible to the end we get much instruction concerning them and the length thereof. Real worship we are trained from our youth up to abhor, even of one's self. In the idols worshipped are those generally concealed in our own hearts. We don't show them to the public often, for they mean selfish lives, penurious gives to any good cause, but wonderfully lavish when they are themselves concerned, have not much use for missions generally, and are deaf to the gentle voice of Him who said "that would be my disciple let him deny himself and take up his cross and follow me." Thanking you, Mr. Editor, for space. I remain, Sincerely yours, ANGLICAN. Digby, March 7th 1912.

Gas Buoy Found Adrift

To the Editor of the Courier: DEAR SIR: I want to report finding the gas and whistling buoy which broke adrift from the buoy lodge. I found it about one-half mile north of Whale Cove on Bay Fundy side Feb. 23rd. I reported immediately after I found it to Mr. Morrell, of Westport, and I thought he would report it to you. As the ledge is a very dangerous one for vessels and steamers, and as I did not see it reported in the Courier, I thought it was time it was known. I remain, Yours, BURTIN M. FROST, Little River, March 6th, 1912.

John A. Smith and His Remarkable Rheumatism Remedy—Cured Himself First and Now Proposes to Cure the World

Cured Many Cases of 30 and 40 Years Standing

On the theory "that seeing is believing," John A. Smith of Milwaukee, wants everyone to try his remedy for the cure of rheumatism at his expense. For that reason he proposes to send a 50c. box FREE to every one who will enclose this advertisement and send name and address. Mr. Smith has suffered all the

JOHN A. SMITH

agony and torture from rheumatism, tried all the remedies known, and yet utterly failed to find relief. At times he was so hopeless that he had to take morphine and after considerable dosing he gave up in despair. He began studying into the causes of rheumatism, and after much experimenting, finally found a combination of drugs which completely cured him. The result was so beneficial to his entire system that he called his new found remedy "Gloria Tonic." Those of his friends, relatives and neighbors suffering from rheumatism were next cured and Mr. Smith concluded to offer his remedy to the world. But he found the task a difficult one as nearly everybody had tried a hundred or more remedies and they couldn't be made to believe that there was such a thing as a cure for rheumatism. But an old gentleman from Seguin, Texas, U. S. A., wrote him saying if Mr. Smith would send him a sample he would

A case of 13 years' suffering is reported by James McFarlan, of L'Anse-au-Loup, Ont., that "Gloria Tonic" cured it quickly. Even prominent physicians have to admit that "Gloria Tonic" is a positive success, among them Doctor Quintana of the University of Venezuela, to whom it was recommended by the United States Consul. In hundreds of other instances the result has been the same. It cured many cases which defied Hospitals, Drugs and Electricity, among them persons of upwards eighty years of age. Mr. Smith will send a 50c. box FREE also his illustrated book on rheumatism, absolutely free of charge, to any reader of the Courier for he is anxious that everybody should profit by his good fortune. Simply tear out this advertisement and send it together with your name and address, to

"ORANGE LILY SAVED MY LIFE"

These words or expressions having the same meaning are contained in hundreds of the letters I have received during the past year. Many were from women who had suffered agonies from falling of womb, others from women who had escaped dangerous surgical operations, as the tumors and uterus had been removed by the action of Orange Lily and others who had suffered from suppressed menstruation, leucorrhoea, painful periods, etc. For all these and the other troubles known in general as Women's Disorders, Orange Lily furnishes a positive scientific, never-failing cure. It is applied directly to the suffering organ, and its operation is certain and beneficial. As a first actually proves its merit, I hereby offer to send absolutely free a box worth 25c., sufficient for ten days' treatment, to every suffering woman who will write for it. Enclose 3 stamps. The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. He might almost as well cut shavings for all the good he gets out of his food. The result is that the stomach grows "weak," the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

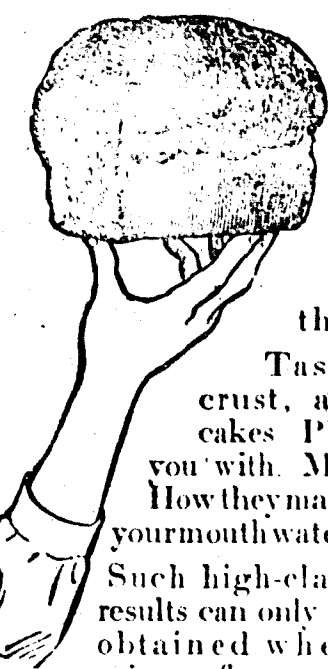

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither narcotics nor poisons, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."

Be Fair. Buy a sack or barrel before judging PURITY FLOUR

SOME people have attempted to judge PURITY FLOUR before knowing the facts about it—before using it. So we ask you to be fair and to buy a sack or barrel of PURITY FLOUR and give it a thorough try-out before attempting to arrive at a judgment.

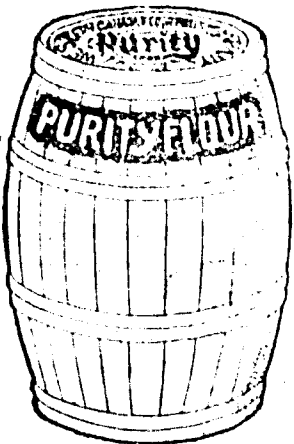

Look at the beauty and loftiness of the golden-crusted, snowy-crumbed loaves, fit for a king. Count them and see how many more of them PURITY yields to the barrel than ordinary flour does.

Taste the creamy, flaky pie crust, and the deliciously light cakes. PURITY FLOUR rewards you with. My!

How they make your mouthwater!

Such high-class results can only be obtained when using a flour consisting exclusively of the high-grade portions of the best Western hard wheat berries.

And remember, that, on account of its extra strength and extra quality, PURITY FLOUR requires more water when making bread and more shortening when making pastry, than you are accustomed to use with ordinary flour.

PURITY FLOUR

"More bread and better bread"

Buy a bag or barrel of PURITY FLOUR. Test it for a week. Then pass judgment. Add PURITY FLOUR to the grocery list right now.

RETRIBUTION AT LAST.

He was a headstrong boy at school. As all his teachers felt, not to curb him was a problem big for every one concerned.

At college it was quite the same. Of discipline was he. When he passed out professors gave him a warm welcome.

Not only this but these as well

DON'T think that concrete can be used only for building bridges, abutments, and walks; because if you do you will probably overlook all the places where you can use it now.

T. L. Irving, of North Georgetown, Quebec, used concrete for 81 different purposes on his farm in 1911.

There are probably at least a dozen profitable uses for concrete on your farm at the present moment. Perhaps you haven't thought of it except for a new barn, or a silo, or some other big improvement for which you aren't quite ready yet. That's why you should read

"What The Farmer Can Do With Concrete"

It will open your eyes to the hundreds of uses that other farmers have found for this material. In plain language, and with the aid of many pictures, it explains just what these uses are, and how they can be applied to your farm.

Concrete can be used for all the purposes to which wood has been applied, but also many others for which wood would never be suitable.

It is not only a building material, it's a "handy" material, something that you'll grow to depend upon more and more as you learn its possibilities.

So write for this book. You'll find it isn't a catalogue, nor an argument for you to buy our cement. Every one of its 100 pages is devoted to telling you what farmers have done and can do with concrete.

IT'S FREE FOR THE ASKING. Your name and address in a letter, will bring the book to you by return mail. Or use the coupon in Atlantic.

Ladies' Ages Told.

How to tell ladies' ages at dinner parties is taught us by a Parisian diner out. If the girl you took in begins dining at desert and gets up in legs, made a large meal solely of ices, chocolate cream, preserved ginger and sugared fruits, with perhaps one cheese straw thrown in, you know for certain she is still under 20. If you are not sure whether she is a girl or a young married woman, you watch whether, on the contrary, she starts dinner at the outset, and having gorged on hors d'oeuvres, shrimps, caviare, pickled salmon, and anchovies, eats nothing afterward. If so, she is undoubtedly between 20 and 30, and married.

Should she dine off a wing of a fowl or a slice of the breast, she has passed the fateful year of 30, but has not reached the worse date of 35. After 35 she will dine off game, venison, etc., and like it rather well. Finally, if the lady you took in to dinner helps herself to cheese, and still more significant, appreciates the well flavored Camembert or the finely matured Stilton, you know exactly where you are. She is a woman "without age," as the French language politely says.—Paris Correspondent London Telegraph.

STRONGLY ADVISES HIS FRIENDS TO TRY GIN PILLS FOR THE KIDNEYS

About four years ago, I was laid up with intense pains in the groin, a very sore back, and suffered most severely when I tried to urinate. I treated with my family physician for two months for gravel in the bladder but did not receive any benefit. About that time, I met another railroad man who had been similarly affected and who had been cured by taking Gin Pills, after

HER IRISH BLOOD.

A Story For St. Patrick's Day.

Kathleen O'Bryan was a little girl who had no country, for she was born on the ocean when her parents were coming over from the Emerald Isle. They had settled near a city, but Kathleen had grown up to be seventeen years old without ever once setting foot in it.

Dennis O'Bryan, Kathleen's father, though he was loyal to the home of his forefathers, had become a staunch American. Kathleen did not seem to be especially patriotic for either Ireland or the United States. "What's the matter with the girl?" Dennis said to his wife. "I tell her stories about Ireland and the fights the Irish had with England, and she takes no interest in them. Then I tell her stories about the colonies struggling for independence, and she cares no more about them than the others."

"Faith, it's because she has a nature of neither. She was born on the water." "I didn't think of that," said the father. "Along comes two young fellows who catch their breath when they look on Kathleen's fair face and rosy cheeks. One of them is George Carpenter, a young man whose forefathers came to America as colonists, the other Mike Donegan, who came over from Ireland with his parents when he was too old to forget his native land. Carpenter worked with his father on a neighborly farm, while Donegan was a painter in the city. Donegan had come out to paint O'Bryan's house, had seen Kathleen and been 'captured' by her beauty. Carpenter had played with her when they were children."

Mr. and Mrs. O'Bryan would have been pleased to see their daughter take up with either of these young men who were both industrious, saving and of excellent habits, but the girl, though she liked them both, seemed to enjoy the company of one as much as the other.

"Which do you think she prefers?" asked O'Bryan of his wife one day, taking his pipe out of his mouth. "Neither."

"Do you mean that she won't have either of 'em?"

"No. She stands between 'em. The one is pure American, the other pure Irish. Don't you remember that she was born midway between Ireland and America?"

O'Bryan put his pipe back into his mouth with a sigh. He wished his daughter had been born on one continent or the other. He didn't like this standing always between the two. Nevertheless the rivals kept on each with his courting. George, living nearby, had the advantage. He would come in often in the evening and sit with Kathleen by the open fireplace in the living room. She seemed to enjoy his visits, but he never got any farther with his suit. Mike would come out from town Sundays and spend the whole day with her, doubtless to catch up with his rival, but it never developed that he was the gainer.

Some of his friends in the city learned about his country love and that he was making no headway beyond his rival and twitted him about it.

"Just you wait, he said 'till I get ready to plunge. I'm an Irishman through and through, and I've got an American to beat. An American is a good even going party standing between the English and the Irish in makeup. The English are the artillery of an army, the Americans the infantry, while the Irish are the cavalry. If I'm going to win the girl at all I'll carry her off before she knows what I'm doing."

It wasn't long after this that St. Patrick's day came along, and Mike invited Kathleen to come to town and see the procession. Kathleen, who was glad of the opportunity, accepted. Mike engaged a window in a house occupied by a plumber friend of his and on St. Patrick's day installed Kathleen there. He was to head the painters, and as soon as he had provided for Kathleen, he went to his room to put on his flannel, a chaparral with feathers and a green sash.

Kathleen did not have long to wait before she heard the stirring strains of martial music. It approached, and when the grand marshal and his aids came marching along, followed by four men carrying a big Hibernian banner, all the Irish blood in Kathleen's fair bosom swelled up with pride for the country of her ancestors. From that moment she was filled with an enthusiasm, which every society, each headed by a band, enhanced. Finally, along came Mike riding at the head of the painters. Kathleen waved to him, and Mike, digging his spurs into his horse's flanks, made him dance for all he was worth. If there is any thing that will move the heart of a simple girl of full Irish blood, it's to see a handsome young man on a prancing horse on St. Patrick's day.

Mike had provided a peculiar spur for his right heel, which he used to such advantage that his horse gave a plunge, and Mike intentionally landed on the pavement. He lay still till he was picked up and carried to the sidewalk. In a few minutes Kathleen

made her way through the crowd and, kneeling by him, cried: "Oh, Mike dear, are you hurt? Speak to me! Don't die!" "I won't, darlin'," said Mike, freely. "I'll live for your sake." That settled it. Kathleen's Irish blood had won. She married Mike.

A Bald-Headed Woman

SHORN OF HER CROWN OF BEAUTY, LIVES IN LOVE AND MARRIAGE.

Hair is certainly most necessary to woman. Who could love and marry a bald-headed woman? What charms could one array to offset such a disfigurement?

A woman's goal is usually love and marriage. Her crowning glory is her hair. The loss of her hair mars her beauty, happiness and success. Yet, right here in Digby, there are thousands of women who are neglecting or injuring their hair to such an extent that it is only a matter of time when it will be utterly ruined.

Many women destroy the beauty of their hair through thoughtlessness or ignorance of certain facts. They use curling irons over heated, or to excess, which destroys the natural oil of the hair, causing it to split, break, and come out. They do not shampoo their hair often enough, or too often. They use soaps or preparations which contain ingredients positively harmful to the scalp and hair.

As a result of such treatment, dandruff is created, the hair loosens, loses color, falls out, and baldness commences, unless proper and prompt precautions are taken in time. Then again, microbes and certain diseases bring about unhealthy scalp and hair disorders.

Almost any woman may rid herself of dandruff and diseased scalp and hair if she will but use the right remedy. We have that remedy, and we will positively guarantee that it will either cure dandruff and baldness or it will not cost the user anything.

That's a pretty broad statement, but we will back it and prove it with our own money. We will return your money if you do not find that Rexall's Hair Tonic is an entirely satisfactory remedy that will promote hair growth and overcome scalp and hair troubles, that it will grow hair even on bald heads, unless all life in the hair roots has been extinguished, the follicles closed, and the scalp is glazed and shiny. It gets its name from the fact that it grew hair in 93 out of 100 cases, where it received a thoroughly hard, impartial, and practical test.

We want you to try Rexall's Hair Tonic at our risk. You surely cannot lose anything by doing so, while you have everything to gain. You had better think this over, and then come in and see us about this offer. You will be well repaid for your visit to our store. Remember, you can get Rexall's Remedies in this community only at our stores. The Rexall Stores, P. W. Holdsworth, Digby, and Ryan & Blackader, Weymouth.

A Fair Offer.

YOUR MONEY BACK IF YOU'RE NOT SATISFIED.

We pay for all the medicine used during the trial, if our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way whatever, if you accept our offer. That's a mighty broad statement, but we mean every word of it. Could anything be more fair for you?

A most scientific, common-sense treatment is Rexall's Orderlies, which are eaten like candy. Their active principle is a recent scientific discovery that is odorless, colorless, and tasteless; very pronounced, yet gentle and pleasant in action, and particularly agreeable in every way. They do not cause diarrhoea, nausea, flatulence, griping, or any inconvenience whatever. Rexall's Orderlies are particularly good for children, aged and delicate persons.

If you suffer from chronic or habitual constipation, or the associate or dependent chronic ailments, we urge you to try Rexall's Orderlies at our risk. Remember, you can get them only at our store. 12 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Sold only at our stores. The Rexall Stores, P. W. Holdsworth, Digby, and Ryan & Blackader, Weymouth.

His Exception.

A religious worker while visiting a western town, gave a "Talk for Men," during the course of which he expressed his conviction that no young man should visit any place to which he would not feel justified in taking his own sister.

"Is there any young man present who thinks one may safely disregard this wise rule?" asked the speaker.

Whereupon a youth in the rear of the hall arose and shouted in a stentorian tone: "Yes, sir, I do!"

"And what, sir," demanded the angry and surprised speaker, "is the place to which you yourself would not take your sister?"

"The barber shop!" replied the youth.

DEET PARISIAN SAGE OVERCAME MISS KRUGER'S HAIR TROUBLES.

PARISIAN SAGE is not guaranteed to grow hair on bald heads but it is guaranteed by the well known druggist, H. E. Jones, to stop falling hair, eradicate dandruff and stop itching scalp, or money back. Sold in every town in Canada by leading druggists for 50 cents a bottle. Read Miss Kruger's letter.

"PARISIAN SAGE is the best hair grower and beautifier and dandruff cure. I lost all my hair through typhoid fever; I was almost baldheaded and my scalp was as sore as could be. I tried everything, but in vain. Finally I tried PARISIAN SAGE, and after using one bottle my hair started to grow, and has grown three or four inches inside of two months. I advise every woman who wants beautiful hair to use PARISIAN SAGE." Miss Meta M. Kruger, Brownstown, Minn.

When They Know Him Well.

Dr. H. was sitting by the side of a rather deaf maiden lady at dinner, when the latter in a simpering manner, remarked: "Ought I to call you Dr. H. or Mr. H.?" The medico, who did not consider her a simpering maiden, replied: "Call me what you like, madam. Some of my friends call me an old fool." The lady, imperfectly hearing, innocently rejoined: "Ah! But they are only people who know you intimately!"

Rexall CHERRY BARK COUGH SYRUP

The importance of little things is shown in no way more clearly than by far-reaching consequences of a mere cough or cold. A simple cough, if neglected and allowed to gather headway, may result in pneumonia before the danger is realized. It's cure is so simple and easily procured, that a chronic cough is really a reflection upon a man's intelligence.

Rexall Cherry Bark Cough Syrup is a highly efficient remedy for all kinds of coughs, throat irritations and hoarseness, and one, which owing to its purity, is absolutely incapable of giving rise to any digestive derangement. Because of its pleasant flavor, it is an ideal preparation for children, to whom it may be given with perfect safety.

Sold only at our store, at 25c, 50c and \$1.00.

HER SKIN SEEMED ON FIRE

Every Other Treatment Failed
But "Fruit-a-lives" Cures

GRAND LIGNER, QUE., Jan. 2nd, 1910.
"My wife was greatly distressed for three years with chronic Eczema on the hands, and the disease was so severe that it almost prevented her from using her hands. The doctor gave her several ointments to use, but none of them did any good. He also advised her to wear rubber gloves and she wore out three pairs without getting any benefit. As a last resort, I persuaded her to try 'Fruit-a-lives', and the effect was marvellous. Not only did 'Fruit-a-lives' entirely cure the Eczema, but the Asthma, which she suffered from, was also completely cured."

We both attribute our present good health to 'Fruit-a-lives'. N. JOUBERT.
"Fruit-a-lives" will always cure Eczema on Salt Rheum because 'Fruit-a-lives' purifies the blood, corrects indigestion and Constipation, and tones up the Nervous System.

"Fruit-a-lives" is the only medicine in the world made of fruit juices and valuable tonics, and is the greatest of all blood-purifying remedies.

Big Snowstorm Blocks the I. C. R.

IMMIGRANT TRAIN STALLED IN DRIFTS OF FOLLEIGH MOUNTAINS.

HALIFAX, March 10. The heaviest snowstorm of the winter swept over this province today.

The Allan steamer Virginia arrived at midnight after a very tempestuous passage, one incident of which was a terrible sea that smashed through the saloon windows and did considerable damage.

Her first class passengers left by special early in the morning, escaping the snow storm, but the immigrants, of whom there were 1,200, left on three trains this afternoon and are having a hard time.

The first train is stuck in No. 3 cutting in the Folly Mountains beyond Truro and a snow plow that was sent out ahead is lost. So far as the train dispatching department can learn, the other two immigrant trains are held at Truro until the first train is freed.

The drifts north of Truro are the worst in many years.

The Virginia will not sail for St. John until tomorrow, the storm today preventing work of unloading her Halifax cargo. She had 3,000 packages of mail and 200 tons of cargo are to land here.

Half of the Virginia's passengers are for the west and British Columbia and the other half between Montreal and North Bay.

A BIG BLOCKADE.
MONTREAL, March 10. The worst storm of the winter is raging here tonight and extends over practically the entire I. C. R. system. The storm appears most severe east of Montreal and a blockade for several hours occurred in the Folleigh Mountain section.

An immigrant special was lost for about five hours between Londonderry and Folleigh, there being no report from it during that time. It was eventually learned that the special was stuck in the snow about three miles east of Folleigh, but at midnight it was expected to raise the blockade soon and get the train through in a few hours.

The immigrant train was hauled by two Pacific type locomotives but snow drifts were encountered as high as the roof windows of the train.

The new settlers had a genuine touch of a real old fashioned Canadian snow storm.

Two other immigrant specials following are expected to get through tonight. The storm has been bad on the northern division but a plow special sent out from Montreal kept the line clear and tonight the storm is abating.

SALISBURY, N. B., March 11. The heavy snow fall in certain belt across New Brunswick played havoc with the Harvey and Salisbury Rail way. No trains were put through today and passengers rode on snow plows from Salisbury to Hillsboro. These with the engine ran off the track several times.

The regular train is stalled below Hillsboro. A relief crew was sent tonight and it is expected she will be released before morning.

Muffers on Motor Bonts

In the Senate on Friday last, in moving the second reading of a Bill to require the use of under-water exhausts or mufflers on certain motor boats, Senator Derbyshire said he had introduced the measure as a means of ending a nuisance in the form of motor boat noises, which trouble every city of Canada which was near water. The provisions of the Bill are:

1. It shall be unlawful to operate a boat propelled wholly or partly by gas, gasoline or naphtha, unless the boat is provided with an under-water exhaust or with a muffler, and such exhaust or muffler is so constructed and used as to muffle in a reasonable manner the noise of the explosion and to prevent such noise being a nuisance.

2. Every one who operates a boat in violation of the provisions of the preceding section is guilty of an offence and liable, on summary conviction, to a fine not exceeding twenty-five dollars.

Senator Ellis said he did not especially object to this Bill, but he did object to Parliament littering up the statutes with small nuisances which could better be regulated in some other way.

Senator Robert asked if the Marine Department had been expected to examine this Bill.

"I think not," said Senator Derbyshire.

"The department, I think, has authority to deal with this question by regulation," said Senator Belmont.

Senator Derbyshire said that all these matters could be condensed in committee. He would a good Bill to put an end to this nuisance.

The Bill was given a second reading and referred to the railroad committee.

8085 000 From Tourists

The Shelburne Gazette says that Digby receives from tourist revenue every year \$200,000, Yarmouth \$150,000, Kings county, \$100,000, Halifax, \$100,000, various points on the Bras d'Or Lakes from \$50,000 to \$75,000. The little village of Hubbards in Halifax county benefits to the extent of \$10,000 each summer.

Forcing Food Down Suffragettes.

MRS. PANKHURST IS NOT EATING ANYTHING, AND MAY SHE WILL TAKE NO FOOD TILL RELEASED FROM PRISON.

LONDON, March 11.—As the result of experiences in Holloway prison, where she has defied the authorities and organized a hunger strike, Mrs. Emmeline Pankhurst, chief of the British militant suffragettes, is in the prison hospital today. Her condition is said to be rather serious. Her illness, her friends allege, is due to her being subjected to solitary confinement in a cell without heat.

The prison officials refused today to make any statement regarding Mrs. Pankhurst's illness or to say whether it was likely to prevent her from being present in court next Thursday to be arraigned on a charge of conspiracy growing out of the suffragette raids on the retail district and the breaking of hundreds of windows. Her friends are anxious, as they say she will probably stick to her determination not to eat until she is released, and that she may also refuse all medicine.

The hunger strike among the followers of Mrs. Pankhurst in prison is still in force. No information regarding it is available, but it is believed that the authorities are resorting to forcible feeding methods.

Votes for Women Bill

MEASURE THAT WAS DEFEATED LAST SESSION TO BE REINTRODUCED.

LONDON, March 9.—Despite the fact that an opportunity is to be given to introduce an amendment to the Government's Franchise Bill to confer the vote on women, the advocates of woman suffrage have decided to reintroduce the Bill which failed of passage last session, and which provides for giving the vote to certain women, or what is known as the Conciliation Bill.

This proposal to confer the parliamentary franchise on women who are inhabitant occupiers of any house or tenement, when separately rated. Women are not to be disqualified by marriage, except that husband and wife cannot both vote in the same constituency. It is not proposed to enfranchise women lodgers nor women possessed of only a free hold qualification. The number enfranchised if the Bill should pass would be about one million, of whom about 80 per cent belong to the working class.

Michael Kelly's Programme.

We copy the following correspondence from Wednesday's St. John Telegraph:

Sir: Permit me through your valuable columns to inform an interested public that in a few days I shall resume my labors in New Brunswick. The three leading planks in my platform are: Christian patriotism, prohibition of the liquor traffic and votes for women. I shall begin work in the noble county of Kings.

I am extremely solicit the hearty cooperation, generous sympathy and united assistance of my Christian temperance and Orange brothers and sisters in carrying forward my noble work.

Thanking you, Mr. Editor, for your valuable space, and a generous public for past favors, I am,
Yours in the good work,
MICHAEL KELLY.

A Strike at T. Eaton's

There is a strike on among the 1,500 employees of the T. Eaton Co.'s clock manufacturing department, Toronto, and on Friday 400 others working in the same factory went out. The journeymen tailors of the city also decided at noon to go on strike yesterday. The journeymen tailors number about 1,000.

There is also talk of a strike in the building trade beginning with the opening up of spring work, but no definite action has yet been taken by the interested unions.

Sebastian was killed instantly, while his brother lived several hours and died in the hospital. Both are natives of Newfoundland.

Guests Had Narrow Escape.

St. John's, March 11. Fraser's Hotel at Plaster Rock, N. B., a well known commercial house, was destroyed by fire this afternoon, and fifteen guests narrowly escaped with their lives. The town has a water system, but the hydrants were all frozen and the firemen were helpless. The loss is \$80,000.

A party of young people of North Range enjoyed a clam chowder at the home of Mr. Gilbert Doty, provided by the young people of this place. Among the guests was Miss Hobbs, teacher at Plympton. There were thirty-five present and all report a good time.

Sanctuaryville.

Mr. Albert F. Comeau, merchant tailor, of this place who had been tailoring here for many years, has moved this week to Weymouth and is open for more business in Joe Ethier's corner store. We regret his departure, but hope he will only do better there than here as the population is larger in Weymouth than in Sanctuaryville.

Mr. Moise Bondeau, while working in the Melanson shop in Boston, fell by accident and fractured his brain and broke his back. He was taken to the hospital, but died and was taken home Monday, accompanied by his brother, Mr. Joe Bondeau. Many went to the Sanctuaryville station to meet the remains. The train was four hours late.

It seems that this month of March is a severe blow to the place as there are already six persons who passed away since its beginning. Namely: Mrs. John Comeau, of Lower Sanctuaryville died Monday noon. She had been sick with consumption for years. She leaves a husband and a large family behind to mourn her. One thing sure is that she was well prepared. Father Cantin, our parish clergyman, was at her bedside when she died. Mr. Cyril U. Comeau died last Saturday and was buried Monday morning.

Port Wade.

Mrs. David Merson went to New Germany Friday for a visit with relatives there.

James Johns, Jr., wife and child went to Brighton, Digby Co. on Saturday to visit Mrs. John's parents.

Sleighting Party to Brighton

A correspondent writes: A sleighing party from Juggo Bridge, consisting of Mr. and Mrs. Frank Woodman, Miss Gladys and Ruby Renshaw, Misses Alta, Emma and Della MacGuire, Mr. Reginald Gilliat and Sister Aylein, Mr. Joseph Renshaw, Mr. William Shepley, also Mr. H. A. Smith, of South's Cove, enjoyed a sleigh drive to Brighton Tuesday evening, of last week and was royally entertained at the home of Mr. and Mrs. Alex. McKay. The roads were beautiful and the evening all that could be wished for save the icy breath of "Jack Frost" which soon evaporated after being seated beside a large range made ready for the occasion by the genial hostess. After a few minutes' conversation by the fireside, coupled with some clean witty jokes the party was invited to the sitting room where a musical program was at once arranged. The organ was presided at by Miss Alta MacGuire in her usual pleasing and qualified manner, fully equipped for the task in all the latest and most popular songs of the day, followed with a few choice sacred selections by Miss Ruby Renshaw in solos and duets, with her sister Miss Gladys. A solo entitled "Casey Jones" was well rendered by Miss Aylein Gilliat, who was encored and again favored the company with another of her favorite songs after which a bountiful repast was served in ice cream, cake and home made candy, at this time the whole party played a very prominent part. This part of the program needs no comment in order to demonstrate the fact of Mrs. McKay's ability to entertain on such occasions only to add that he was ably assisted by her daughter, Mrs. Myrtle, but regretting to note the absence of their son, Mr. Willie McKay, from the festive board who is under treatment for appendicitis at the Halifax Hospital, but much pleased to learn he had passed a successful operation and was on the fair road to an early recovery, hoping to be home in a few days. After the festive program was resumed and the evening further spent in games and in listening to Mr. McKay who favored the party in his usual brilliant tone with a few choice solos proving eloquent in the extreme and appreciated by all, thus a well spent and pleasurable evening was brought to a close by the singing of "God be with you till we meet again." "He's a jolly good fellow" and the National Anthem, the party then dispersed for home well pleased with the evening spent and heartily thanking Mr. and Mrs. McKay for their genial hospitality with bright anticipation for a reunion in the near future.

JUSTICE OF THE PEACE
HAD ULCERS & ECZEMA 4 YEARS
ZAM-BUK HAS WORKED A CURE.

Mr. J. E. Arsenault, a Justice of the Peace, and station master at Wellington, on the Prince Edward Island Railway, says:

"Four years ago I slipped in the station and fell on a freight truck, sustaining a bad cut on the front of my leg. I thought this would heal, but instead of doing so it developed into a bad ulcer, and later into a form of eczema which spread very rapidly and also started on the other leg. Both legs became so swollen and sore that I could only go about my work by having them bandaged. My doctor said I must stop work and lay up."

"After six months of this trouble I consulted another doctor, but with no better result. I tried all the salves, ointments and lotions I heard of, but instead of getting better I got worse."

"This was my condition when I got my first box of Zam-Buk. Greatly to my delight that first box gave me relief. I continued to apply it to the sores, and day by day they got better. I could see that at last I had got hold of something which would cure me, and in the end it did."

"It is now over a year since Zam-Buk worked a cure in my case, and there has been no return of the eczema."

Such is the nature of the great cures which Zam-Buk is daily effecting. Purely herbal in composition, this great balm is a sure cure for all skin diseases, cold sores, chapped hands, frost bite, ulcers, blood-poisoning, varicose sores, piles, scalp sores, ring worm, inflamed patches, cuts, burns and bruises. All druggists and stores sell at 60c. box, or post free from Zam-Buk Co., upon receipt of price.

A Good Emulsion
This may seem an exceedingly simple thing to talk about, but its importance at this season of the year when the system is exposed to the incursions made upon it by our uncertain climate should not be underestimated.

The nutritive and reconstructive properties of **Good Liver Oil Emulsion** are too well known to need any explanation here, sufficient be it to say that **Jones' Emulsion** includes all that is latest and best in Emulsion making and contains the full percentage of pure Cod Liver Oil.

CRITICAL TIME OF WOMAN'S LIFE

From 40 to 50 Years of Age. How It May Be Passed in Safety.

So, Wellington, B.C. "For a year during the Change of Life I was all run down. I was really too weak to walk and was very despondent and thought I was going to die, but after taking Lydia E. Pinkham's Vegetable Compound and blood purifier my health and strength returned. I am very thankful to you and praise your medicine."

I have advised several women who suffered as I did to try your remedies. You may publish this if you wish. Mrs. DAVID R. MORRIS, South Wellington, Vancouver Island, B.C.

No other medicine for woman's ills has received such wide spread and unqualified endorsement. We know of no other medicine which has such a record of success as has Lydia E. Pinkham's Vegetable Compound. For more than 30 years it has been the standard remedy for woman's ills such as inflammation, ulceration, tumors, irregularities, periodic pains and nervous prostration, and we believe it is unequalled for women during the period of change of life.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (Confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

DIGBY WEEKLY COURIER

Digby, March 22, 1912

A Digby Visitor Honored

WALTER B. VINCENT, OF PROVIDENCE, R. I., Elected Justice of the Supreme Court.

It gives us much pleasure to report that Mr. Walter B. Vincent, of Providence, R. I., who owns a summer cottage at Digby and who for a number of years has spent his summers here, has been elected a justice of the supreme court.

The *Evening Tribune* published in Providence on the 15th inst., containing a double column photo of Mr. Vincent and a two column news article referring to his election, has the following editorial which will show the high esteem in which he is held in that city:

While in the nature of the case the elevation of Mr. Walter B. Vincent in his sixty-seventh year to the State Supreme Court must be a posthumous one of that tribunal for the long work of the future which it is generally agreed is needed, his election in itself is no trifling honor and his character and attainments assure to the community acceptable service in that high position.

Mr. Vincent is a lawyer of ability and long experience, with high professional standing, an adequate knowledge of the laws he is now to apply as a judge and a nice sense of propriety and dignity in court procedure. He may be trusted to discharge his duties fully to his judicial duties and to keep the common law clear. If we could get that much from every judge we could as a people be well content.

Promotion to the bench is always a happy ending of a career at the bar; and it is as much a source of pleasure to those who know Mr. Vincent as it can be of pride to himself that his long professional life is now to be rounded off by a term on the highest court of the State of Rhode Island.

Perry's Peerless Players

DIGBY HONORED WITH THE TWO BEST SHOWS OF THE SEASON.

Two of the best entertainments ever given in Digby were presented to the public in the last two days of the week. The Digby Peersless Players, entitled "The Girl from Smoky Mountain" and "The Little Girl in the Woods," were the leading stars in this company, but all the characters were good and to particularize them would mean to name over the entire cast.

Dan Malley, J. B. Hurl and Victoria Perry introduced a splendid line of specialties between the acts and were loudly cheered by the big audience which greeted the players both nights. Mr. G. Herbert Perry, who has a host of friends in Digby, never puts on anything but what is good and therefore always draws a big audience wherever his company makes an engagement. They have played in many towns and another return date will be anxiously awaited by the people of this town and vicinity.

Local Building News

SEVERAL COPIES WILL BE ERECTED IN DIGBY DURING THE COMING SUMMER.

We understand that Mr. Leander Woodworth, of Mr. Pleasant, will build a house for Mr. Watson Fenwick on the latter's property at the North side of the Requette, and that he and Mrs. Fenwick and family will move here from Hampton, N. B.

Mr. Stanley Keen will build a modern residence on the Babin property, Queen street, opposite the new municipal buildings. Mr. Charles Galt will have charge of the work.

Mrs. E. Haden has purchased a building site on Water street from Mrs. C. A. Galt, and will probably build a cottage there during the coming summer.

Westport and Freeport S. S. Service

In considering the House of Commons recently the renewal of the subsidy to the S. S. Anthea, which performs service between Halifax and St. John via Yarmouth weekly, Mr. James M. P. for Digby county, pressed in the minister of the department that it was very desirable to have the subsidy operated in connection with the service on at Westport and Freeport routes to St. John. Mr. James M. P. said there was now a service between Westport and St. John, but it was maintained by a comparatively small boat. The trade of the community at which this boat calls, has increased in late years, and the service is not sufficient to meet their demands.

Local Yachting News

Another well attended meeting of the Yarmouth-Nova Scotia Yacht Club was held Tuesday evening and much interest was shown in the business of this organization by the enterprising business and professional men of the town.

A Big Freight

The S. S. Yarmouth brought eleven thousand pounds of freight from St. John last Monday, besides an unusual large load of hay. It could not be all discharged during her three hours stay at this port and her return express, mail and freight loaded, some portion of it again crossed the bay on the following day. A freight steamer and a passenger steamer will be required in the near future to handle the business between St. John and Digby.

Friday Night's Storm

Last Friday night's big rain storm, accompanied by a south west gale, caused several wash-outs on streets, blew down chimneys, ornamental trees, etc. A small building belonging to Mr. A. J. Lutz was blown over at the head of the wharf. The only vessels anchored off Digby were the term ship, Mr. Lane, Capt. Tower, with coal from New York for W. E. VanBlarcom, and the fishing schooner, Lenan B. Snow, Capt. Ansel Snow, which sailed Friday but returned to port the same afternoon. The term ship, E. H. Sumner, from Annapolis for Cuba, also returned to port and anchored off Port Wade. All three vessels rode out the gale in safety.

There were several marine wrecks, however, along the coast. Stories of two of the most important appear in another column.

Washouts on the D. A. R. near Kentville delayed Saturday's west-bound express which did not reach Digby until about six o'clock. The S. S. Yarmouth did not sail from Digby for St. John until after 10 p. m.

The S. S. Boston, Capt. Smith, arrived in Yarmouth from Boston in time Saturday morning after one of the roughest trips of the season.

Burglary at Deep Brook

An odd burglary occurred at Deep Brook on the night of the 14th inst. Mr. John Purdy's boat shop was broken into and the following goods stolen: One yacht tender with outboard and inboard motor, one folding anchor, one sail and a pair of spoon oars, all of which are missing. A new sawn-off saw which had not yet been painted, was also removed from the shop, but was left on the beach where it was afterwards seen about two hours later in high water, but thought to be anchored. During Friday night's storm it floated across the basin and was picked up at Thomas Cove by Mr. Edgar Johnson. No arrests have yet been made.

Mr. Purdy is building six Swamp scull sailing barges of six to eight ton capacity, for summer tourists at Argyleport and the one set afloat belonged to this fleet. We trust that the guilty parties will receive their full punishment.

The Courier never fails to advocate the patronizing of home men and women of course we are always sorry to learn of a job of printing going out of town.

We are sorry to announce that our Tailor could not call on our Digby friends on the 18th and 19th, inst., as advised, because the charges for an outsider retailing in an Incorporated Town makes it impossible. But we have samples of our stock and special order goods, and could forward a suit from the former by return train, and the latter in about ten days' time direct from the manufacturers.

NINE MEN PERISHED

Sad Marine Disaster on Nova Scotia Coast.

Schr. Patricia a Total Wreck Near Entrance to Jordan Bay.

TEN SURVIVORS REACHED THE SHORE IN EXHAUSTED CONDITION. WORST DISASTER IN HISTORY OF FISHING ON SOUTH SHORE FOR AT LEAST TWENTY FIVE YEARS.

SHELBURNE, N. S., March 16.—Captain William Harding and nine of the crew of the Gloucester fishing schooner Patricia perished last night when their vessel was wrecked on Black Rock, near the entrance to Jordan Bay. All of the dead with the exception of three were natives of Nova Scotia. Ten other members of the crew reached the shore in safety after a thrilling experience.

STRUCK THE LEDGE.—The Patricia which carried a crew of twenty men, left Sandy Point yesterday morning for Brown's Bank. During the day a strong breeze sprang up from the south west, which towards evening increased to a gale, accompanied by a heavy down pour of rain. The vessel was blown several miles out of her course to the north east, and at ten o'clock last night she brought up on Black Rock Ledge, which is near the entrance to Jordan Bay, and there met her doom.

LOST THE OARS.—When the schooner struck she was making about ten knots an hour and the force of the impact caused the fore-sail to drop, making it practically impossible for the men to launch the dories on the leeward side and only after great difficulty were they able to get three from the windward side. In the confusion and darkness the crew were lost and those who were in the dories drifted ashore.

POWERLESS TO HELP THEMSELVES.—The scene that followed the stranding of the vessel was one of the greatest confusion. The crew was killed up by the gale were sweeping over the vessel, and the crew worked hard to get the dories overboard. What was the men were practically helpless and the dories had to drift at the mercy of the wind and sea. One of the dories was capsized, and the occupants thrown into the sea and drowned. It was so dark that the men in the other dories could not see their comrades, though above the roar of the sea they could hear their cries for help. Those in the boats were powerless to render any assistance as they had no oars and their own lives were in danger.

REACHED VILLAGE EXHAUSTED.—The ten men who drifted ashore in the dories reached the village of Jordan Bay late last night in a state of extreme exhaustion. They were well cared for by the people.

The survivors say that the schooner broke in two within a few minutes after striking the rocks. The Patricia registered 120 tons, and was owned by the Gordon & Sons Fisheries Co. of Gloucester. Only the mast of the vessel were visible today. The survivors came to town today with the sad news of the wreck. John J. Cox, acting under instructions from the United States Vice and Deputy Consul at Yarmouth, attended to the wants of the men, who will leave for Gloucester today.

This is the worst disaster in the history of fishing on the south shore of Nova Scotia for at least twenty five years.

THE DROWNED.—CAPTAIN WILLIAM HARDING, Charlottetown, P. E. I.; N. S. MASTER, JOHN GOODWIN, Bear Point, N. S. ALBERT GOODWIN, Bear Point, N. S. HOLMAN HARRIS, Woods Harbour, N. S. Senator Ross Dies Suddenly.

OTTAWA, March 16.—Senator William Ross, of Halifax, died at his home here last night. He apparently had been in his usual health when he retired in the evening, but passed away suddenly during the night.

Though comparatively vigorous, he was a very old man, and had he lived three days longer would have celebrated his eighty eighth birthday. Two weeks ago he made a speech and sang a song at the dinner given to Hon. George P. Graham in honor of his victory in South End.

This makes the fourth senatorial vacancy for Nova Scotia.

Do You Need Farm Help?

All farmers who will require help on their farms during the coming season should send at once for Application Forms to Mr. A. S. Burnstead, the Secretary of Industries and Immigration, Halifax.

Mr. Burnstead informs us that the immigration in Nova Scotia this season will be of desirable quality, and numerous farmers with some capital wish to work for a while on a Nova Scotia farm before purchasing a property for themselves.

Employers should act immediately. Last year many applications were received late in the season for procuring satisfactory help.

DOCTORS HAD GIVEN UP ALL HOPE

"Fruit-a-tives" saved my Life

RIVIERE A. PIERRE, Q., May 9, 1910. "I look upon my recovery as nothing short of a miracle. I was for eleven years, constantly suffering from Chronic Dyspepsia and Indigestion. I was treated by several doctors and they simply did me no good. During the latter part of my illness, I was so thin that I weighed only 90 pounds, and I vomited everything I ate."

"The doctors gave me up to die as the stomach trouble produced heart weakness and I was frequently unconscious. I received the Last Rites of The Church. At this time, a lady strongly urged me to try 'Fruit-a-tives'. When I had taken one box, I was much better and after three, I was practically well again, and had gained 20 pounds. I have taken 11 boxes in all and now weigh 150 pounds and am well."

You will be proud of the bread you'll make with PURITY FLOUR

AFTER seeing a batch of big, golden-crusted, snowy white loaves, that you have baked from PURITY FLOUR, you will, indeed, be proud of your cooking-ability and proud of your wisdom in deciding to pay the little extra it costs to procure such high-class flour. You will admit, too, that we are justified in the pride we take in milling this superb flour.

PURITY FLOUR

"More bread and better bread"

PURITY FLOUR is milled exclusively from the best Western hard wheat the world's finest. More than that, PURITY FLOUR consists entirely of the high-grade portions of the wheat. The low-grade portions are separated and excluded during the PURITY process of milling. Such high-class flour, of course, expands more in the baking. It makes "more bread and better bread."

It makes lighter, flakier pastry, too, if you just take the precaution to add more shortening. On account of its unusual strength PURITY FLOUR, for best results, requires more shortening than ordinary flour.

Progressive dealers, everywhere, sell PURITY FLOUR and take pride in recommending it.

Add PURITY FLOUR to your grocery list right now.

ICHTHYOLOGICAL RARITY.

The Resourceful Waiter Was Equal to the Emergency.

A New York clubman who prides himself on his knowledge of things epicurean was much interested in an item he discovered in the menu laid before him on the occasion of his visit to a town of the middle west. The item was "green bluefish."

"Waiter," demanded the New Yorker, "what sort of bluefish are green bluefish?"

"Fresh, sir," quickly responded the waiter, "right from the water."

"How dare you try to impose upon me?" continued the clubman. "You know well enough that bluefish are not taken at this season."

Whereupon the waiter picked up a menu and gave it a careful scrutiny as if by that action he would solve the mystery. Then with an air of one suddenly enlightened he added:

"Oh, that, sir? That's a hot-house bluefish."—Lippincott's Magazine.

It was at the dentist's, and Pops was the object in the chair, a miserable, dejected, forlorn object.

The operation was ended, and the dentist was ostentatiously cleaning his forceps and smiling at the result of his muscular efforts.

"I must charge you \$0," he said at length to the suffering patient, whom he had treated with more force than skill.

The unlucky victim turned upon his persecutor:

"What? Nine dollars? Why, you promised to charge me only three!"

"Yes," agreed the tooth tugging cheerfully, "that in truth was my contract price for the performance."

"Well?" queried the tormented one.

"But you yelled so loudly that you've scared away three other three dollar patients!"—New York Mail.

Absolutely Safe.

"Have you got a good chauffeur, Bronson?" asked Willoughby.

"No, I haven't," said Willoughby.

"Only an old fool of a gardener who doesn't know the first thing about machinery?"

"But, my dear fellow, aren't you afraid he'll break your neck?" demanded Willoughby.

"Oh, no," said Bronson.

"What guarantee have you that he won't land you and your car in a ditch some day?" said Willoughby.

"Oh, he couldn't possibly do that," smiled Bronson.

"Why not?" asked Willoughby.

"Why, because I haven't got any car," said Bronson.—Harper's Weekly.

Vicious Circle.

"We're kind of irritated in our flat," said the worried looking man.

"What's the trouble?"

"Our children keep the next floor neighbors awake, so they pass the time by playing the piano; that makes the pet dog next door to them bark, and that keeps the children next door awake, and there's so much noise through the building that there's no chance whatever of our children going to sleep."—Washington Star.

Spiked.

Satan's expressive countenance wore a look of stony determination.

"Well, so be it," he decided at last," he exclaimed with evident feeling, saying which he caused to be hung over the entrance of his dominions and beside the words, "All hope abandon ye who enter here," another sign saying: "It's the heat. There's no humidity here."—Puck.

Echoes of the Past.

Solipo had curled the war into Africa.

"This," he said, "is where I qualify as the white man's hope."

Let it not be rashly inferred from this, however, that Hannibal was a big smoke.—Chicago Tribune.

Concrete-mixing is Easily Learned

It is no more difficult than mixing bean mash, once the simple instructions have been read.

The materials—sand, crushed rock or gravel and cement—each play a separate part. The rock provides the bulk of volume at very low cost. The sand fills in all crevices between the pieces of rock or gravel. The cement, mixed with water, forms a "bond," in other words a rocky "glue," that binds the other materials firmly together.

WHAT THE FARMER CAN DO WITH CONCRETE.

DIGBY WEEKLY COURIER

Digby, March 29, 1912

As will be seen by the report of the regular meeting of the Town Council a firm decision of starting a canning factory in Digby has been reached. We are pleased to note that such a resolution was passed unanimously by the council subject to the desire of the ratepayers, to be learned, of course, at a public meeting. This is certainly a move in the right direction. The enterprising residents of Digby have been endeavoring to get new industries for our town, but for some reason have never been very successful along these lines. We trust that the new factory will receive every encouragement and that the business will prove a successful one.

Burglary at Weymouth.

THREE MEN ARRESTED AND LOCKED UP IN DIGBY JAIL.

Three prisoners who gave their names as Smith, Cobb and Neary were brought here from Weymouth and locked up in the Digby jail at two o'clock Sunday morning.

Friday night Robert Journey's grocery was entered and a quantity of goods taken.

At St. Bernard's Father LeBlanc's house was entered and his gun, church wine and other articles taken. The burglar dropped a loaded revolver in the cemetery.

The prisoners were arrested by Constable Thomas Journey, Jesse Dahlgreen and Fred McCully back of Muise's driving park. They put up a stiff fight. The arrest by the Weymouth constables was a clever one.

They were taken before Stipendiary Magistrate and sent to Digby as above reported.

One of the men has his face somewhat battered as if struck by the butt of a gun.

The prisoners are strangers here and it is not known where they are from. They are about 25 years of age and have decided to try the regular meeting of the Supreme Court.

Married in Calgary.

McLeod-Beaman's. The wedding was quietly solemnized at Knox church, Calgary, Alta., Sunday, March 10th, of John McLeod, of Sydney, N. S., and Gertrude E. Beaman, daughter of Capt. and Mrs. John Beaman, of Digby. The ceremony was performed by Rev. Mr. Clarke at 9 o'clock. Among those in attendance was Mr. Harry L. Beaman, brother of the bride. Mr. McLeod has for a short time been a resident of Coleman, Alta., but the happy couple will reside in Vancouver, B. C.

The bride was prettily dressed in cream cashmere, her travelling suit being blue. She has many friends in Digby who will join the CORRIER in extending best wishes for a long, happy and prosperous wedded career.

On March 25th special customs officer H. B. Burnham seized nine barrels of alcohol at Lequille, Annapolis county, and on the following day thirteen casks about two miles from Annapolis. Both lots were taken to Annapolis and stored in the customs building. The seizures were clever ones and reflect much credit on Officer Burnham who is constantly on his job to make sure that no part of Canada is in from Atlantic to Pacific.

Another liquor seizure was also made in Annapolis this week. It was made at the railway station by Scott At. Inspector MacDonald, consigned from Montreal to the order, L. E. Wilson & Co., and taken to the county jail for safekeeping, until otherwise disposed of.

After more than three months of unbroken obstruction to navigation, the ice in the river has disappeared, thus allowing the S. S. Westport and Ida Lee to resume their regular calls to this port, which were begun last Saturday.

The crew of the ill-fated S. S. Bona vista (numbering about twenty) which was wrecked near Black's Cove, Long Island, were passengers here, via S. S. Westport on Monday morning, en route for Halifax. As the Westport did not make connections with the express, they were obliged to stay over until Tuesday morning before proceeding to Halifax.

Weymouth citizens appear to take both a deep and an active interest in wireless telegraphy. At present two youths, Messrs. Carl Elderkin and Stanley Hallett have apparatus fully equipped. Messrs. H. S. Hoyt and Geo. Comeau are at present installing wireless in their respective residences. A former young resident, Mr. Cyril Harris, was one of the first of Weymouthians to take an active interest in this subject, and as a result of his experiments, was able to take a position as assistant operator in a station on the Pacific coast, last autumn. Death has entered our neighborhood and removed one of our number, Mrs. A. M. Schofield, who was stricken with paralysis on Saturday morning, March 16th, and lingered in an unconscious condition until death brought relief on Wednesday, March 20th.

Though only having lived among us for two short years, she had endeared herself to all who had the pleasure of her acquaintance. She was a consistent member of the Methodist church. Of a broad minded, Christian nature, she was ever ready to lend a hand in anything that tended to the furtherance of the cause of good. She leaves to mourn their loss, one son, Fred, and three daughters, Josephine, wife of Warren Letteney, of this place, Katherine and Eleanor, of Boston, who came home to attend the funeral, which took place on Friday and was conducted by Mr. Davis, pastor of the Methodist church. The March Red and Gun.

"An Experience Off the Coast of Newfoundland: Hunting the Hair-Scal, opens the March issue of Red and Gun In Canada, published by W. J. Taylor, Limited, Woodstock, Ont., and the interest of this article is a criterion of the interest of those that follow," which include articles descriptive of outdoor life from the Atlantic to the Pacific. Among these is the first of the series of articles on the Culture of Black and Silver Foxes, which should prove of value to the many seeking practical information on this subject. A new feature this month is the creation of a Game Conservation Department edited by Mr. Frank Hyde, wherein matters pertaining to the subject of game conservation will be freely discussed. As this subject is a live one at the present time and is likely to be for some time to come, or until the improved laws for which good sportsmen are agitating have been enacted, this department should prove of exceptional interest.

"Considerable Busy"

"I dunno as we have so much to do in the Winter as in the Summer," said Adimelech Clover to the commercial traveler with whom he had fallen into conversation at the country store. "An' yet, although the Winter is our restin' spell, we manage to keep considerable busy. You get up at from three thirty to four in the morning," an' scan out to your barn an' milk fourteen to fifteen cows an' strain that there milk into cans an' git to the railroad station three miles away before breakfast, an' then mebbe you cut cord-wood all fo'noon an' put up ice all afternoon an' feed an' water thirty or forty head o' stock, an' turn to at night, an' milk ag'in an' feed an' bed down all the critters by lantern light, an' git ready for a good start in the mornin' an' chore around until bed-time. You do all that, an' it keeps you considerable busy even in the Winter time when there ain't much doin' on a farm. Still, it's in the Summer time that you really have to hustle to make farmin' pay. Then you air busy."

Life-Saving Stations.

THE MEMBER FROM YARMOUTH SEVERED BY THE RAY OF LIGHT, DIGBY, N.S.

In the House of Commons, on Friday, in committee of supply. Rewards saving life, including life-saving stations, \$500,000.

Mr. Emerson— I would like to ask my hon. friend if he has considered the question of establishing a life-saving station at Cape Jourdain in Westmorland county?

Mr. Hazen— That is being considered now by the officials of the department, and reports are being prepared upon it.

Mr. Law— Is it the intention of the department to establish a life-saving station at Mud Island in Yarmouth county?

Mr. Hazen— I do not think so; but a life-saving station is being established on the south shore of Nova Scotia, not far from Digby. This year, I may say, in consequence of representations made to me by the hon. member for Digby, I ordered the Stanley to proceed to Digby and to remain there, as I was told that on several occasions fishermen had got into trouble, and the Stanley had to be sent for from St. John for life-saving service. Therefore, it was thought advisable to have her stationed at Digby for that purpose. We are establishing a life-saving station, with a life-boat, at Bay View, east of Digby.

Mr. Law— I never heard of it. It cannot be south of Brier Island. It must be further up the bay.

Mr. Hazen— Yes, it is further up the bay.

Mr. Law— That would be no use for the southern coast of Nova Scotia, Mud Island is situated at the mouth of the Bay of Fundy, where all the boats going up and down the bay have to pass, and there have been many shipwrecks at that point, and I would like to see a life-saving station there.

Mr. Hazen— There is one at Baker's Cove now. But I will consider what my hon. friend says. The application for the station near Digby was voted in the estimates of the present year, but the money was not sent when I came into office, and I have given instructions to have the work proceeded with at once.

Canadian Pacific Frates in Collision. SEVERAL PERSONS KILLED AND INJURED IN CRASH NEAR NORTH BAY.

NORTH BAY, Ont., March 21.—An other serious wreck occurred on the Canadian Pacific Railway, Lake Superior division, on Saturday morning, following closely the accident to a tourist special on Thursday last. Yesterday's wreck was a head-on collision between a freight train which was south-bound and a passenger train which was north-bound. The freight train, which was carrying a load of lumber, was stopped by a signal. The passenger train, which was carrying a load of tourists, was stopped by a signal. The two trains collided, and the passenger train was derailed. Several persons were killed and many were injured.

The scene of the accident was 100 miles east of the place where Thursday's accident occurred and the two accidents coming so close together seriously disorganized traffic on this section of the Canadian Pacific.

Cheap Telegraph Rates to Yukon. OTTAWA, March 21.—On and after April 1 the government will inaugurate eight lettergrams, or deferred message service, on all government owned lines in the dominion at a minimum charge of twenty-five cents for fifty words, the same as the regular day rate for ten words. There will be a corresponding reduction in longer messages.

The charge has been brought about largely through representations from the Yukon and Comox-Yukon district, which are almost exclusively served by government owned lines. The government has also arranged with all connecting lines to accept messages at these rates to all parts of Canada and the United States.

Letters desiring to communicate with the Yukon or Comox-Yukon territory will be able to avail themselves of these reduced rates.

Two Men Killed in Springfield Mine. BURIED UNDER MESS OF BLACK COAL AND WERE NOT MISSED FOR A DAY.

HAVERLY, N.S., March 21.—A full of coal in the Springfield mine, killed two men, J. J. Graham and Hector Mackenzie. The fatal accident occurred on Friday but the fact that two men were under the coal was not known till yesterday, when they were found after a search. One man who was working only twenty feet away did not know about the accident.

The coal was so thick that it fell with very little sound. Several hours after the men had come out of the mine the absence of Graham and Mackenzie was noticed. A search was made where the pile of fallen coal was discovered, and after twelve hours' digging the bodies were discovered. An inquest is being held which today adjourned till Wednesday.

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription

**It Makes Weak Women Strong,
Sick Women Well.**

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 31 one-cent stamps to cover cost of mailing only; or, in cloth binding for 50 stamps.

Learn why PURITY FLOUR is unlike any other brand

PURITY FLOUR is unlike any other brand of flour. No two milling companies follow exactly the same process of milling. In fact, no two different brands of flour in the world are exactly alike in quality.

And here is another fact worth knowing: Ever, wheat berry contains both high-grade and low-grade portions.

The process of milling **PURITY** flour costs more than to mill ordinary flour. The low-grade portions are separated and excluded. **PURITY** is an ALL-HIGH-GRADE, hard wheat flour. It has greater strength, greater absorption and greater expansion. It is a thirstier, more elastic flour. It drinks more water and expands into more loaves.

Use **PURITY FLOUR** for your next batch of bread. Count the loaves. You'll find you have made "MORE BREAD AND BETTER BREAD" from **PURITY** than when you've used an equal weight of weaker and cheaper flour.

PURITY FLOUR

"More bread and better bread"

IMAGINE, if you can, how much whiter, and more toothsome, and more nutritious, the bread made from such a HIGH-GRADE flour must be.

And can you imagine yourself enjoying the flaky pie-crust and the light, delicate cake?—your reward for using **PURITY** flour

When making pastry, please remember to add more shortening than required with ordinary flour—for on account of its extra strength, **PURITY FLOUR** requires more shortening for best pastry-results.

Yes, **PURITY FLOUR** costs slightly more than ordinary flour. But use it once and you'll say it's worth more—much more—than the difference.

Add **PURITY FLOUR** to your grocery list right now.

In Memoriam.

In memory of our darling mother, **Esther E. Himes**, who died at Barton, Aug. 31st, 1911.

Dear mother, she has passed away

From this dark land of ours,

To live, we know, in brighter day,

In Heaven's smiling bowers.

'Tis hard for us to be parted

Of her we dearly love,

Her angel face we never shall see,

Until we meet above.

For over a year she suffered much

In agonizing pain,

We never shall hear, with pitying ears,

That suffering again.

And when her latest moments came

We watched her dying face,

To catch that bright and heavenly smile

That o'er it we could trace.

Death came and snatched her garments round

Her weak and fluttering heart,

And this was why she yielded so soon

From those she loved, to part.

Her body lies in yon churchyard,

'Tis there we loved so well,

But angels bore her spirit home,

In man-sion bright to dwell.

(scribed by her loving children, Barton, March 10, 1912.)

A Description of Captain Roop's Steamer.

THE FRANKLIN A. LARSEN AND CO. LTD.

DATE: FRANKLIN A. LARSEN AND CO. LTD.

RESPECT.

We reprint the following description

of the steamer **Franklin**, which

appeared in English papers at the time

of her launching, in 1900:

Messrs. Charles Connell and Co.,

Limited, Whiteinch, launched on

Thursday a steel screw steamer for the

Palmer Shipping Company, Limited

(Messrs. Alex. C. Marshall and Co.,

Liverpool). The dimensions of the vessel

are: Length, 100 ft.; breadth, 32 ft.;

draught, 10 ft.; depth, 31 ft. 3 in.;

gross tonnage of about 1,350 tons,

and a deadweight-carrying capacity of

about 8,000 tons. She is built to Lloyd's

highest class, and in excess of their re-

quirements both in hull and outfit.

The arrangements for loading and

discharging are of the most modern

and approved type, double derricks

and winches being placed at the large

main hatches, and these with their

holds are suitable for taking very

large bulk cargo or machinery. The

holds and tween-decks are so arranged

as to give a minimum of obstruction,

being constructed in the greater

part of a deep tank, which is avail-

able for other water ballast or cargo,

is lifted by the engines, and in

addition to the double bottom, the

peaks are also utilized for ballast

purposes. The budge space and poop

are fitted with skylights, and so can

be utilized for cattle or transport of

crops. During construction the vessel

has been under the supervision of the

owners' marine superintendent, Capt.

Gardiner, and the machinery under

that of Messrs. G. S. Goodwin & Co.,

Liverpool. The engines, intended to

develop 2,000 h. p., are of the most

approved triple-expansion type, and

are supplied with steam from three

large boilers fitted with forced draught.

As the vessel left the ways, she was

named **Franklin** by Mrs. Anthony R.

Marshall, wife of one of the managers.

[The **Franklin** is commanded by

Capt. J. E. Roop, of Barton, and sailed

on Wednesday for Sydney, N. S. W.,

on Feb. 21st, with a full list of passen-

gers, mails and freight.]

A New Professor for Mt. Allison.

SACKVILLE, N. B. March 21. Dr. Beckwith, professor of Physics in Mount Allison University, has signified his intention of returning to Sackville next year. A meeting of the Mt. Allison Executive Board, held in the main hall of the university, when the chairman was filled by the appointment of Dr. E. W. Whittell, Ph.D., of the University of Missouri, Columbia, Missouri. He is a native of Sackville, N. B., and received his early training in the public schools of Sackville. He attended Sackville School, then Sackville, N. B., 1897; was principal of Sackville high school for two years, and subsequently attended A. B. C. College, Waterville, Me., 1901; and the University of the Pacific, San Francisco, Cal., 1902, taking the degree of B. A. in 1907, and Ph.D. in 1910. While at Yale Dr. Whittell assisted in laboratory work and the last year had charge of one of the laboratory divisions. He is spoken of as being a very strong teacher, careful and thorough, conscientious and reliable. Personally he is said to be very attractive, large and robust, handsome and with excellent manners. He is quiet, modest and good natured, honest and sincere.

Two Perish in Niagara Fire.

NIAGARA FALLS, Ont. March 16. Miss Charlotte Patterson, 70 years old, and her daughter, Miss Emma Patterson, were found dead in a fire that destroyed the Logan Block here today. Another daughter, Miss Edith Patterson, may die from her injuries. Efforts by the firemen to rescue the three women failed, because their ladders were a few inches too short to reach the third floor windows, where the family had been trapped by the flames. The property loss was \$15,000.

Twenty Five Years Ago.

[From the Yarmouth Times, Dec. 1.] Jacob Digby's schooner, **Lotie W. Fairfield**, was sold in Victoria, B. C. for about \$10,000. [The **Lotie W. Fairfield** was the last vessel launched at Digby's shipyard at Barton and was commanded by the late Capt. C. B. Dunham of that village.]

"Grandma!"
"What is it, dear?"
"You're pretty old, ain't you?"
"Yes, dear. Grandma is very old."
"An' will you die after a while, an' go away, an' won't I never see you any more?"
"I expect I shall, my child—very soon, now!"
"Oh, grandma! When I die, too, can I be buried beside you?"
"The old lady is so affected that she can only pat the curly head and press the child close to her heart."
(The little voice speaks again.)
