# 1877- 1978

1877-1977

Now and then a printing job had a save in parchment paper which required a special kind of printers' ink which smelled very bad some days. I always dreaded it when "Mac" would take you to the largest press in spite of the fact he always opened an outside door to lessen the odors on the room itself.

One of the jobs I had to do, besides putting and  
graders' devil on the staff, was to... I cleaned one  
and then... One day not long after I started to get to  
the grating plant. I decided to climb the floor that  
apparently hadn't been cleaned for some con-  
siderable time.

"J.J." came along and said, "how are you making out Vince?" I assured him that I thought I was beginning to see the floor. "J.J." laughed very heartily. He thought the remark pretty good and whole.

Sometimes the gasoline engine, a piece of machinery would refuse to work, and the "fix-it" man had patiently worked for a certain length of time to get it going again, without results. Max would then stand back and come over dramatically then he would immediately start working. "See," he would say, "all it needed was a bit of fixing."

On other occasions when money gifts refused duty for the and seemed to be broken, "I" would say, "use a little oil" and use common sense that is why it took. They often since have I heard of the value of that remark and the actual need of oil in many life situations, applied at the right time, right place and in the right way.

place and, in the right way.

Other things that sort of stick in my memory and come to mind now and then are, like the June 1941 "Mac" of four teenage boys who in the spring season of 1941 got together just before dark one evening and decided to mutilate the newly built outdoor Pease Hotel swimming pool which had just been filled with water. Clothes were taken off near the road just out of the pool, nobody else seemed to be around and the four boys, no thought or time for bathing suits, up in the pool they went. They stood on the edge of the pool and looked at the chilly water, one soon jumped in. The rest quickly followed and across the pool they swam. "Mac" listened to the story and hardly said anything, but the next "Digby Courier" had a good story on the episode. The heading of the story was something like, "Four Boy Swims Officially Open Pease Hotel Swimming Pool." Who were the four? Many years later they are known as: the late Dr. Earl H. Anderson, veteran of two wars (second world war and Korea), was awarded the Vietnam Cross; Sidney L. Smith, now prominent draughtsman for many years in Digby; Clayton D. Snow, Digby telephone installer and electrician; and myself.

As a young teenager I used to like doing some writing about different events interesting to myself and mostly for myself. One day, I was asked to contribute about writing your version of the story told about "The Marooning of Jerome". I did it and read at least two times what I had written about the man who was found marooned on a beach in some point on the French Shore of St. Mary's Bay, Duffy County. When I read this man's tongue had been cut out and his legs quite freshly amputated, were surgically well dressed and bound. He was presumably left by some vessel before dawn one morning, all for some mysterious reason.

"Jerome appeared to have been a man of considerable social standing and, possibly, of considerable wealth. However, the only thing I could or would ever say after being asked not to by some family in the Forest was something that sounded like the name of either, yulid nut, or, would not, yulid nut, who he was or why he was left there. It was, and is, one of Digby County, and, different ideas have been put forward about concerning this man. However, "Mie" was, I felt no urge to say anything different about this man. The only thing I have been very well explained to me."

From the files of the Chamber of January 22, 1967, the following account has been copied concerning India in 1967:

Among a number of old newspapers kindly sent to us are two from a copy of the Saint John Telegraph of May, 1887, says the Telegraph and among other advertisements contained in the issue before us is one describing the town and farming of Digby, and offering for sale certain lots in the town. In this area we are told the township of Digby "extends from the Gut of Cansimble westward to the extremity of the province of Nova Scotia, and contains about 124,000 acres." The town plot is then described.

The Town Plot is situated at the east of the township just within the entrance to Annapolis Bay, and twenty miles from Annapolis Town, and six miles distant from the head of H. Mary's Bay. This land, and not from the water's edge, partly is level ground, and partly on the declivity of a modern hill, dry and pleasant, and having with an eastern aspect a view of the Annapolis Bay, and its cultivated shores for twenty miles in extent, it terminates with the Fort and River's mouth at that name. It was secured by Leyden's tract, New York in 1643, the grant of which went nearly to fashion, as, moving to other countries, left the whole

free trade with the U.S.A., especially with the New England States. The question was then debated by some Digby High School students, one of which was "J.J.'s" daughter, Florence (now Mrs. Meritt of Tibert, Prescott, Digby Co.). Some days after the debate a man from some part of Nova Scotia came to the printing shop looking for Florence, one of the successful debaters. I had the impression that this man was interested politically but, maybe I was wrong.

Well, I felt that I had learned considerable from my short experience at "The Wallis Job Print." I was learning to do beginner jobs, receiving some knowledge about things like embossing, stapling, perforating, coaming, cutting and crumpling paper stock, mixing inks for certain desired colors, and so forth, too. The only experience I had at setting type was just enough to make a "go," the printers name for a completed mass.

There was a taste of trying to do it all inside the plant. Work was a little slack one early fall day and so "Mac" said to me, "how about trying your hand at taking orders for printed personalized Christmas cards?" I took it, made several calls, spent most of the time alone particularizing orders, and got an order, but

## CANADA AND THE FLAG.

Some people there are no doubt, who have never stopped to ask themselves how it is that Canada has been blessed with many years of peace, and why the peaceful development of the country has been possible.

It has not been because this country was unknown to the colony-hungry nations of the old world; it was not because Canada did not appeal to the cupid of the great and warlike powers of Europe; not because the United States overlooked the desirability of adding the northern half of this continent to the territory of Uncle Sam—for almost three quarters of a century that has been the great dream of the statesmen of the American Republic—and sometimes they have dreamed aloud!

The reason for the immunity of Canada from war's alarms and dangers, must be looked for elsewhere, and it is to be found in the words "BRITAIN, MISTRESS OF THE SEAS."

There was a time, not so very long ago, when a certain school of thought clung to the belief that the "Monroe Doctrine" of the United States, by which the government of that country is supposed to prevent the acquisition in America of territorial rights by any European power, was the bulwark of Canada. It was held by these good people that the United States would not stand by and see Canada "put upon" by any foreign power.

It would not be a very dignified thing for Canadians to sit safely under the shadow of the American eagle, while the citizens of that country paid the cost of their army and navy, which only would enable them to "talk up" to any European power that desired to possess itself of the Dominion; and if that were Canada's guarantee of safety, it would be good only while the eagle was contented, and would cease immediately he became hungry, and wished to do a little plundering on his own account.

But Sir Wilfrid Laurier, in his speech on the naval bill a couple of weeks ago, brushed from the minds of those of his own party (which at one time leaned rather heavily upon the Monroe Doctrine) any lingering idea as to the wisdom of looking to the United States for the defence of Canada. He said "To any one who would rely upon the Monroe Doctrine, I would say let him examine the records of Cuba after the Spanish-American war. When the Cubans were desirous of removing the yoke of Spain, they appealed to the United States for help, and they got it, but when, with the assistance of the United States they had freed themselves from the yoke of Spain they found that they had a rather high price to pay for the help they had received. THAT PRICE WAS THE ABANDONMENT OF A PORTION OF THEIR INDEPENDENCE."

The United States was no doubt justified by the laws of nations in exacting the terms they did from Cuba; with them it was a strictly business transaction. But it would not suit Canada to be in such a position; nor would it be the part of prudence to allow matters to reach a stage where such a thing would be even a remote possibility.

THE ONE GUARANTEE OF CANADA'S PEACE AND INDEPENDENCE IS THE BRITISH NAVY, and only by maintaining her supremacy as "Mistress of the Seas" can Great Britain give to Canada, and the other portions of the Empire, the absolute assurance that no foreign foe, or over zealous "friend," shall ever cross their borders, or deprive them of the perfect freedom which is now theirs.

If the people of Canada have not heretofore given serious thought to what this peace, freedom, and independence means to them, the other overseas dominions certainly have, and they have been doing their part towards keeping the navy of the Empire in first place.

In so doing they have been AIDING IN THE DEFENCE AND PROTECTION OF CANADA—the most important of all the dominions. Canada, up to date, has done nothing towards this end.

It should be distinctly borne in mind that not a dollar of taxes is paid by any colony or dominion to Great Britain—she gives them protection and asks nothing in return. Only she shows them what she must pay to keep her navy up to the standard of safety, and leaves it to the colonies to do what they think is right towards assisting in the burden of defence.

It is no answer to say that Britain is rich and able to do this alone for the poor as well as the rich pay their share, and there are many poor in Great Britain. In the years that are gone they have paid over FOUR HUNDRED MILLIONS OF DOLLARS for the military and naval defence of Canada, and have never uttered a word of complaint, or demanded a penny in return.

Thus the other overseas dominions have THE NEED of assisting in main-

taining the supremacy of the British navy is evident, from the fact that they have been doing their share towards it since 1892; and that THE NEED EXISTS is shown by the further fact that their help has been gratefully accepted. None of them are so large or wealthy as Canada, but while Canada has given nothing, they have given as follows:

## NEW ZEALAND:

Cash, \$6,000,000  
A dreadnaught and three destroyers now being built (estimated cost) 13,000,000  
Total for New Zealand \$19,000,000

## AUSTRALIA:

Cash, \$10,000,000  
Fleet unit now building (estimated cost) \$20,000,000  
Total for Australia \$30,000,000

## SOUTH AFRICA:

Cash, \$1,250,000

## NEWFOUNDLAND:

Cash, \$200,000

## INDIA:

Maintenance of warships and other naval service—\$8,300,000

## THE FEDERATED MALAY STATES:

Population little over one million (less than 10,000 voters) (two months ago voted to give a dreadnaught war ship to cost \$11,000,000)

## CANADA, to date,

Nothing.

The statements in these seas dominions, evidently place a proper value upon their independence, and recognize the importance of keeping in the front rank the navy which is the guarantee of their safety.

Their people also must see the importance of doing so, AND REALIZE THAT THERE IS A PRESSING NEED, or they would not permit their money to be applied to that purpose.

For the last ten years therefore, the tax payers of the colonies named have, as shown above, been paying their money towards the defence of the Empire, CANADA INCLUDED. Canada has ACCEPTED THEIR HELP and has done nothing in return, up to date.

The next few years will determine whether Great Britain is to remain "Mistress of the Seas," and the overseas dominions, Canada included, are to remain, as they have been, free and independent, developing their resources and progressing along paths of peace, or whether the control of the seas is to pass to another nation, and the Empire is to be rent asunder.

Never were truer or more impressive words spoken by any statesman than those of Rt. Hon. Mr. Borden, when he said "THE DAY OF PERIL WILL BE TOO LATE FOR PREPARATION."

It is this belief which led him to propose that Canada should AT ONCE provide for the navy of the Empire THREE of the largest and most modern battleships, at a cost of thirty-five million dollars.

It was this belief which caused him to conclude his speech in the house of commons, when hanging down the aid in aid of the navy, with these ringing words "Bringing the best assistance that we may IN THE URGENCY OF THE MOMENT, we came thus to her aid, in token of our determination to protect and ensure the safety and integrity of this Empire, and of our resolve to defend upon sea, as well as upon land, our flag, our honour and our heritage."

## Moving Picture News.

The Cripp-Mader Co. have, for the present, owing to bad travelling and other unaccountable difficulties, abandoned their shows on Digby Neck and the Islands and are putting on a series of entertainments through the Annapolis Valley, playing to-morrow night in Bear River.

In the Bijou Dream theatre, Digby, the music show in charge of Miss Annie VanBlarcom, Miss O'Connor having gone to Boston for the winter months.

A voting contest is also advertised in connection with the Digby theatre, particulars of which appear in the advertising columns of today's COURIER.

**Christmas Tree and Presentation.**  
The annual Christmas tree and treat for the scholars of the Digby Methodist Sunday School was held in their hall last night, which proved a very pleasant and successful affair. At the close of the children's portion of the programme, Mr. Ross Smalley, the popular and efficient superintendent of the school, was presented with an umbrella from the officers and teachers. Mr. Smalley was certainly taken by surprise but appreciated the gift very much. The presentation was made by Rev. Mr. Daniel, pastor of the church.

**Special Editions.**  
The Halifax Herald and Chronicle both published special New Year numbers, as usual, giving a full account of the year in Nova Scotia with future prospects for a prosperous 1913. The work on the Herald's case made it difficult to tell what the illustrations were. No matter how well an article is written or how well it is arranged in the composing room, bad press work ruins the whole thing. The Chronicle was well printed and nicely illustrated.

**Local Market Quotations.**  
We notice by the local market report furnished the Courier by the Digby County Farmers' Association that eggs have advanced from 10 to 15cts. per doz. and chickens from 25 to 35cts. per lb. Turkeys have advanced from 40 to 45cts. per lb. and hams from 10 to 15cts. per lb. to the list at 15cts. per lb.

**Calendars.**  
The following have our thanks to calendars received this week, which were handsome and expensive ones: Enid R. Margaret, Havana, Cuba; American Hawaiian Steamship Co.; and the Acadia Ladies' Seminary, Wolfville.

—Rev. T. S. Roy preached a very interesting and appropriate sermon to a large congregation in the Digby Baptist church last Sunday night as a memorial to the four brothers drowned from the scho. Dorothy M. Smart. Mr. Roy also favored the congregation with a beautiful solo, all of the music being especially prepared for this service.

**Death of Wm. L. B. Hunt.**  
AN AGED AND HIGHLY RESPECTED CITIZEN OF ACACIAVILLE.

Mr. Wm. L. B. Hunt, died at his home, Shelburne Road, Acaciaville, last Saturday morning, aged 70 years and 4 months. He was one of the best citizens of Digby county. In his early days he followed the sea, but later became a successful farmer. He was a member of the Hill Grove Baptist church and took a deep interest in Christian work or in anything that was for the good of the community in which he resided. He was liked by everybody and respected by all. His death has caused a vacancy which will be difficult to fill. In politics he was a liberal. He leaves a widow, two sons and three daughters: M. L. Brockton, Mass.; James at home; Mrs. P. H. Egger, of Middleboro, Mass.; Mrs. J. N. Tedford, of Fallon, Nevada; and Miss Alice E. of Western Ontario, all of whom were present at the funeral with the exception of Mrs. Tedford.

Mr. Hunt is also survived by one brother, Mr. Joseph Hunt, of Maplewood, Mass.

The funeral, which was largely attended, was held from his late home yesterday morning with interment at Hill Grove, the services being conducted by Rev. Thos. S. Roy, pastor of the Digby Baptist church. The pall bearers were Geo. Huxman, Gouly Hixman, D. C. Kay and Wm. Bacon.

The Courier extends its deepest sympathy to the large circle of bereaved ones.

## Military Men Rewarded.

Maj. John Daley and Mr. Russell Wright, of Digby, received one hundred dollars each from the government yesterday as a reward for special service during the Foulard raid of 1893.

It was reported that a brigantine was leaving Boston for Digby and the local company here was called out on special duty under Col. Botsford Viets, Capt. G. A. Viets being in command. Maj. Daley was lieutenant at the time and Mr. Russell Wright sergeant. The vessel, however, did not arrive here. All have since passed away, the only two living, who were on duty in Digby at the time, being Maj. Daley and Mr. Wright. Both of these gentlemen received medals a few years ago, followed yesterday by checks as stated above.

## Married in Pleasantville.

A pleasant event took place at the home of Joshua Ernst, Pleasantville, on the afternoon of Christmas Day, 1912, when his daughter, Phoebe Ellen, was united in the holy bonds of wedlock with the Rev. John Thompson, of Pleasantville, Kings County, N. S., recently pastor of the First Digby Neck Baptist church. Rev. J. E. Henkenry, of Pleasantville, officiated. After January 1st, the happy couple will settle in Florence, Cape Breton, where the groom has taken a church.

## Successful Entertainment in Weymouth.

At Weymouth, on Christmas Day, a very successful entertainment was given in the Methodist church by the scholars, assisted by the church choir. At its close the scholars and teachers received presents. The school superintendent, Mrs. Nightingale, was specially remembered, her present was a very fine dish. Miss Foote, the organist, received a jewel case, and Rev. W. Nightingale, for grandeur miter.

## Wedding Bells at Westport.

A very quiet wedding was solemnized at the Baptist parsonage, Westport, N. S., when Mr. Harley Glavin and Miss Lottie McDonald were united in marriage, by the Rev. D. M. Mackenzie. The bride was becomingly attired in a suit of brown whalebone, with large white picture hat. Only near relatives of the bride and groom were present.

### Will Keep Sober Until 8:30 P. M.

AFTER THAT WILL LIGHT UP FOR FAIR.

EDMONTON, ALTA., Dec. 30.—James Sewell, Citizen of the World, from "Anywhere," as he is registered in a down town hotel, where he has an expensive suite, notified Chief of Police Carpenter today that he will join the prisoners at the city jail at the New Year's dinner. Here is part of his note:

"I intend to keep sober until 8:30 o'clock the last night of the year, and then I'll light up for fair. I'll make the Great White Way look like a dark alley on a rainy night. Some police man will arrest me and I'll be with the other banqueters and surroundings that few care to cultivate. Last year the police at Seattle did the honors. It was the fifteenth time I have been arrested in various parts of America on the eve of my great day."

Sewell has been all over the United States and is now on a tour of the Dominion. He appears to have plenty of money and is a liberal spender. So far he has been successful in concealing his identity, if that is his purpose. But, as his business with the banks is conducted in that name, it is reasonable to presume it is not assumed.

He was one of the first to join the Order of Good Fellows, which is cooperating this year with the United Aids of Edmonton, in providing Christmas cheer for several hundred children, his identity being disclosed by his check. He also purchased a supply of dolls and toys for distribution on Christmas eve.

### Tidal Wave Hits Cape Breton

THREE MILES OF COAST NEAR ARICHAT SUFFER GREAT DAMAGE.

HALIFAX, N. S., Dec. 29.—A tidal wave swept up on the shore from Arichat to Petit De Grat at midnight Friday and caused tremendous damage. The section affected is about three miles in length, and all along there are marks of its ravages.

Several families living along the water front had to flee for their lives. At Petit De Grat the store of William Jeans was swept into the sea, and at Arichat Charles Servin's building was wrecked.

A breakwater at Little Ausé was partially destroyed and one at West Arichat was injured.

The water suddenly rose fifteen feet and almost as quickly subsided. A vast amount of fishing gear was destroyed and many boats were driven ashore.

### Aged Couple Perished in Flames

THIRTEEN BUILDINGS DAMAGED AND MUCH PROPERTY LOSS AT NEWPORT R. I.

NEWPORT, R. I., Dec. 29.—Two lives were lost and thirteen buildings damaged here today in a fire which caused a loss of \$200,000. Firemen and policemen searching through burned buildings after the fire, discovered the charred bodies of Mr. and Mrs. Frank S. Heath.

Mr. Heath was 70 years old and an invalid. Appearances indicated that his wife attempted to carry him from their burning home when both were overcome by smoke. The fire started from an unknown cause. Flaming brands were carried long distances by a strong wind and in a short time several structures were aflame.

The entire fire fighting force of Newport was assisted by two hundred bluejackets from the Naval Training School.

### Died in Want With Bag of Gold

MYSTERY SURROUNDS THE DEATH OF PNEUMONIA AT ST. LOUIS OF TWO SISTERS.

ST. LOUIS, Dec. 26.—Examination of the body of Mrs. Sarah Johnson, who, with her sister, Miss Mary Scott, died Christmas eve of pneumonia, apparently in dire want, revealed that a bag around her waist contained \$5,601 in cash and three gold watches. In Miss Scott's effects were found deeds and papers showing bank deposits.

Little is known of the sisters. They arrived two weeks ago at the address where death occurred. Both suffering from colds which developed into pneumonia. They refused to have medical attention because of the cost, and even declined to go to a free hospital. Altho living in the same room, they slept in single beds and used separate tables, dishes and silverware. Bills were evenly divided between them.

### Stabbed to Death

BUFFALO, N. Y., Dec. 28.—Before a crowd of diners in a Niagara Street lunch room, John Valiquette, forty two years old, a deaf mute, tonight stabbed to death Julie Goodie, twenty one years old, a waitress. Valiquette came from Springfield, Erie County, to marry Miss Goodie today. When he called at the restaurant, she refused to go with him. Valiquette drew a knife and stabbed her three times in the breast. He made no effort to escape. The girl died half an hour later.

### A Church With Money.

EDMONTON, ALTA., Dec. 30.—First Presbyterian church of Edmonton will be equipped early in 1913 with the largest and most costly set of tubular chimes in the world. Captain H. B. Watts, organist of the church, has just returned to the city from a tour of three countries, where he tested bells in the largest churches before placing the order in England. The chimes will be set up in the tower of the church as soon as the question of duty has been decided by custom house officials in Quebec. The congregation is one of the wealthiest in the prairie provinces and occupies a model structure in Fifth avenue. Its first church was recently leased to the central departments of the municipality at an annual rental of \$11,000. This is more than was paid for the building site in 1885.

### Sudden Death at Yarmouth

YARMOUTH, December 28.—The community was shocked this morning when the sad news became known of the death of Clarence Rogers, Mr. Rogers, altho he has been ailing for some time, was around and attending to his duties as usual. He left his store last evening, went into his house, had supper and afterwards went into the sitting room, sat down in a chair and went off to sleep, just as he was accustomed to.

His eldest son, who went in the room noticed his father there, but thought he was sleeping. His wife, who, a few minutes afterwards, went into the room noticed him looking pale and went towards him and found that he had passed away.

The late Mr. Rogers was an active member of the Methodist church. He was a Freemason, a member of Hiram Lodge, No. 12, and Union Chapter, No. 7. Besides a wife he leaves four sons.

### Blames Birth-mark

JUDGE POSTPONES SENTENCE ON GERMAN, WHO CARRIES A MOUSE ON HIS LEG.

NEW YORK, Dec. 27.—Fright his mother received from a mouse shortly before his birth is the cause to which E. J. Hucppee attributes his career as a thief. Hucppee is 21 years old the son, he says, of a wealthy manufacturer of Oldenburg, Germany. He pleaded guilty today to forging a cheque for \$200, and the judge was so impressed by his story that he postponed sentence to enable attorneys to investigate his case.

### Strange Bones Discovered

EDMONTON, ALTA., Dec. 31st.—Workmen digging a tunnel for a trunk sewer a half mile north of the Saskatchewan river, which bisects the city of Edmonton, unearthed at a depth of 100 feet several bones of an animal which professors at the University of Alberta are unable to classify. One of the pieces resembles the femur of a buffalo, while others appear to be a larger animal. J. W. Begg, chief engineer of the sewer construction department, will invite scientists of Canada and the U. S. to give their opinions respecting the find. The discovery proves that at one time the surface of the land was at least 100 feet lower than at present. However, it may be, experts say, that the river changed its course centuries before the coming of the white man to this country.

### Interesting Church Event in Kingston

The Kingston, Ont., Standard contains an account of an interesting church service in St. James' church in that city on Sunday morning, 22nd. Rev. T. W. Stacey was inducted Rector of the Parish, his infant son, Reginald Stacey, who had been privately baptized, was received into the church with the ceremony usual on such occasions, and a class of 29 persons confirmed. The new Rector is a native of Digby and succeeded the late deceased, venerable Archdeacon M. Morine, who retired from active work three years ago, leaving the present Rector in charge as Vicar. The meeting at which he was unanimously elected was the largest in the history of the parish.

### Once High Roller Dies a Tramp

RENO, Nev., Dec. 27.—With both hands cut off and his skull fractured, Max Von Bulow, said to be a descendant of Count Von Bulow, the famous German general, was picked up on the railroad track near the state line today and died later in the railroad hospital at Sparks. Von Bulow was a globe trotter and a lover of fortune. Several years ago he married Miss Christine Pannier, a wealthy woman of Pueblo (Col.) and they traveled through Europe in regal style. They were later divorced.

Von Bulow was highly educated and spoke several languages. It is believed he was beating his way west on a passenger train last night and fell beneath the wheels.

### Four Master Driven Ashore

BEAUFORT, N. C., Dec. 27.—Driven ashore by a furious southerly gale, an unidentified large four-masted schooner stranded on the outer end of Beaufort Shoals today. The crew is still aboard the vessel and their position is perilous as mountainous seas are pounding on the shoals. The revenue cutter Seminole has gone to the schooner's assistance from Look-out Point (N. C.).

### Graves Brothers Got a Reprieve

HALIFAX, Dec. 27.—Chief Justice Townsend has signed an order for the reprieve of the Graves brothers, under sentence for murder, pending an appeal to the Supreme Court of Canada. There are three brothers, all awaiting death; and the Supreme Court of Nova Scotia a few days ago divided three and three on their appeal, which is now to be taken to Ottawa.

### Unknown Schooner on Fire

NEWPORT, R. I., Dec. 27.—An unknown schooner after twelve miles southeast of Block Island, with no possibility of assistance from life-saving stations, owing to a heavy gale and high sea, was reported by wireless tonight to the revenue cutter Benbow and Aqueduct. The Benbow set out immediately from New London, and the Aqueduct was expected to go out from Woods Hole.

## Prospects Look Brighter For Peace

THE TURKISH DELEGATES WILL PROBABLY PRESENT MORE MODIFIED TERMS.

LONDON, Dec. 29.—Notwithstanding apparently insurmountable difficulties attending the successful issue of the Peace Conference, the prospects tonight look brighter, more because of the changing atmosphere of the conference than on account of any new fact.

In the first place it is stated on good authority that the Turkish delegates will present tomorrow modified terms better calculated to afford a basis for negotiations, and in the second place, the Allies appear more anxious to come to a real business, if it is at all possible.

ALLIES ARE NERVOUS. They have occupied the week end in exchanging long cipher telegrams with their respective governments, in order to be fully informed on all points and in complete agreement. They seem to be nervously apprehensive that they will be deprived of the fruit of their victories by European intervention. One of the delegates said tonight:

"It is difficult to say whether our struggle will be harder against Muslim oppression or against European intervention which already several times has prevented us from shaking off the Ottoman yoke. Although our armies have victoriously reached Teheran, Europe might wish to return to Adrianople to the Muslim, forgetting or ignoring what that would mean to our Christian population. But we know the value of the so-called European guarantees for Turkish reforms, and this time we will not give in."

Official Europe likes horrors it shall have them. We will fight to the bitter end. An eye for an eye and a tooth for a tooth."

FEAR AUSTRIA. The Balkan delegates fear that Austria's attitude is encouraging the Turks to resist. If reports from Vienna are true, Austria still persists in the enlargement of the frontiers of autonomous Albania to such an extent that it will absorb the territories claimed by Greece, Serbia and Montenegro, and as Montenegro treats the proposition of the exchange of Scutari for Mount Lovchen as a blackmailing proposition, the difficulties raised by Austria's attitude have rather increased than diminished.

ALLIES ARE DETERMINED. The allies are determined to keep what they have bought at the price of bloodshed. Their armies are rested and strengthened; their troops are said to be in perfect condition; as all infectious diseases are now under control, and they await the Turkish attack against their lines at Tchatalja. The allies profess not to understand what Turkey means by proposing that a Prince of a neutral state shall be ruler of the principality of Macedonia and be a Protestant. They contend it could only be a Prince of one of the Scandinavian countries because Belgium and Luxembourg are Catholic, and Switzerland has no Princes.

## Why Beef Is High.

CHICAGO REPORTS A GREAT FALLING OFF IN RECEIPTS OF CATTLE FOR THE YEAR.

CHICAGO, Dec. 27.—Fewer cattle by 241,288 have been received at the Chicago stock yards this year than in 1911, according to figures announced tonight. Despite this fact, more money was paid for beef during 1912 than in 1911 by \$3,282,735. The total paid out this year was \$183,489,000. Three reasons are given for the increased price of beef. The western states did not raise as many cattle as usual owing to droughts, and farmers turned the pastures into wheat fields and the demand for beef increased.

It was explained that the population in the United States in the last twenty years has increased twenty per cent, while the increase in cattle production has been only eight per cent. Beef exports fell off this year, owing to the home demand. In 1911 there were 47,000 cattle exported from the Chicago yards, compared with 23,000 this year.

## Schooner S. P. Williams Ashore.

LOUISBURG, Dec. 29.—The American schooner S. P. Williams, Captain Burton, during the heavy storm yesterday morning ran ashore on Winning Point Beach. Gabarus, below where the schooner John Harvey ran ashore last January. Captain Burton lost his foremast during the night outside Guyon Island, as he anchored in fourteen fathoms of water and cut his spars to try and save the vessel, but she kept dragging until they got into three fathoms of water and then had to slip her chains and drifted over the breakers onto Winning Point Beach. All the crew, after much difficulty, succeeded in landing safely. The vessel now lies completely out of water at low tide. She had a cargo of 1,400 barrels of herring, mostly salted in barrels. Part of the cargo can be saved. The captain says he left Newfoundland in company with three other schooners and feels very uneasy about their safety.

## Heavy Gales in Newfoundland.

St. John's, Nfld., Dec. 29.—Several schooners have been driven ashore and much property along the water front has been damaged as a result of heavy gales which have swept the Newfoundland coast during the past two days. The steamer Invermore, on its last regular trip across Cabot Strait, was delayed 24 hours and passengers and crew had a trying experience. Great seas poured over her decks and flooded the saloons. No one was injured. Several other schooners have been forced to remain in port for forty-eight hours. The fleet of American fishing vessels taking herring cargoes at Bay of Islands suffered considerable damage.

## Steamers Collide.

MONTEVIDEO, Dec. 27.—The Kosmos Line steamer Amara and the Pacific Line steamer Austria Prince came into collision in the harbor here today. The Amara was badly damaged that she sank. She was bound from South American ports for Hamburg. The Austria Prince had just arrived from New York. No lives were lost.

## British Steamer Ashore.

LONDON, Dec. 27.—The British steamer Workman, from Nanaimo, Victoria (B. C.) and San Francisco, via Corral to London and Liverpool, is reported to be ashore fifteen miles south of Rio Janeiro.

#### The Year's Business in Digby.

A COPY OF MAYOR SHORT'S REPORT SENT TO THE HALIFAX HERALD.

In reviewing conditions for the past year in so far as this town is concerned, I am glad to be able to state that 1912 has been an average one in most lines of business, although the fishing industry, which is perhaps the most important one in this vicinity, has not yielded quite as large a return as the previous year, owing to a shorter catch in some lines of fish and the fact that several of our larger vessels were tied up during the summer months on account of their inability to secure sufficient quantities of men.

At the first of the season there was a feeling that prices for dried fish would rule much lower than in previous years and this perhaps had a tendency to dampen the ardor of the fisherymen, but those who secured a catch and held their fish until later in the season as most of them did, realized good prices, for the market for this product was much firmer as the season advanced.

The fresh fish and flumm haddock business, that previously was carried on here only during the fall and winter months, has now become an all the year around industry, and in this line of the fish business a much greater output for the past year is recorded than ever before.

This industry has been a great benefit to the country generally, as it provides a good market for the fisherymen for their haddock in a fresh state the year through at remunerative prices, and the curing of the fish provides employment to large numbers. The Digby flumm haddies have become famous all over the country and the demand for this toothsome fish is rapidly increasing, so much so that during a greater part of the season dealers are unable to keep up to their orders.

Great quantities of our haddies are shipped West, many carloads going through to the coast, where there is a growing demand. We look forward to the time, and that time is not far distant, when hundreds of carloads of our fish will find its way to the North West and British Columbia.

The tourist business, for which our town is noted, was an average one, and had been favored with our usual Nova Scotia weather during the months of July and August, there is no doubt but what it would have been a record one. Still our town and the district resort on the Basin were well filled with tourists, who find no place where they can get a more pleasant vacation than their vacation than they can in this section of Nova Scotia.

This business, which is yet in its infancy, promises to develop in a very large measure year by year.

Crops generally have been up to the average with the exception of the hay crop, which was seriously effected by the wet weather, which was general all over the province.

The lumber business done from this port has perhaps exceeded any for several years.

Several new residences have been erected during the past year and many improvements have taken place throughout the town.

During the coming season it is expected that a large wood working plant will be erected and an up to date mill installed for the manufacture of all kinds of wood working material, including boxes, staves, etc., for which there is a growing demand. This industry will be a great boon to the town, supplying material which at present has to be imported from outside, beside giving employment to a large staff and a market for the surrounding country for the material in a rough state.

Taken as a whole, we can look back upon the year 1912 as a fairly successful one in all branches of business, and we are looking forward with an optimistic view to the coming year, feeling sure that we will share in the general prosperity that is sure to take place all over our province.

[The above is an exact copy of Mayor Short's report, as it appeared in the Herald and notice that half of it was omitted from that journal, probably for want of space.]

#### Christmas at The Alms House.

One of the pleasantest events in the history of the Alms House, occurred Christmas under the supervision of the popular keeper and matron, Mr. and Mrs. Arthur Marshall. Dinner was served the inmates at one o'clock, the following being a copy of the menu:

Roast Goose  
Cranberry sauce  
All kinds of Vegetables  
Mince Pie  
Tea  
Coffee  
Bananas  
Oranges  
Grapes  
Raisins  
Desserts  
Nuts, etc.

In the evening a number of people came in to see the Christmas tree and assist in the entertainment for the special benefit of the inmates of the institution. First part of the programme was devoted to music, vocal and instrumental, the organists being Miss Susan Van Bladen, of Digby, Mrs. A. C. Brooks, of Weymouth, and Mrs. Helen McNeill, of Marshalltown.

The tree was laden with presents for all the inmates, together with bags of candy, tree ornaments, etc. The gifts consisted of tobacco, pipes, candy, oranges, dolls, Xmas boxes for the inmates' friends, and all kinds of toys to brighten and please the little ones. Some of the neighbors brought in baskets of apples and other much appreciated gifts. Fruit was sent from Burton and nuts and confectionery from Brighton. Mr. Arnold Morgan, of Marshalltown, performed the duties of Santa Claus in a very acceptable manner.

Those who were there are loud in the praise of Mr. and Mrs. Marshall, the keeper and matron, who have labored such a long time in the welfare of the property and the care of those under their charge ever since their appointment to this responsible position. We feel safe in saying that no Alms house in the province is kept better, and no keepers could give better satisfaction.

#### Presentations.

At the close of the Thursday prayer service, Dec. 26th, the members of the Christian church of Tiverton, presented their organist, Mrs. Ruel Outhouse, with a sum of money, accompanied by the following address:

Dear Sister George:

The friends and members of the Christian church of Tiverton, who have rendered you so much service, present you with this sum of money, but we sincerely hope that you will not be able to use it for your own private service for the service you have given to the church is all great and noble deeds rendered in a good cause, and we feel that you are a great asset to the church, and we can only add that we wish you to continue to do so, and we are sure that you will not be able to use it for your own private service.

Yours truly,  
[SIGNED] FRIENDS AND MEMBERS OF THE CHRISTIAN CHURCH.

A Tip.

M. E. E. Hewson, of Amherst, who has been watching things in Vancouver on his present visit, sends the following to the Amherst News:—

A tip—encourage the town and property owners to use plenty of electric signs and street lights in the business centres. They are among the most noticeable ear-marks of progress. People like to live where the streets are bright, to some extent we are drawn to it like moths, or as one of the city papers put it, no business ever felt itself too dignified to use an electric sign, recognizing that there is a certain subtle influence about it and a certain dignified connection between light and truth.

This is a tip for Digby as well as Amherst.

Hard Luck.

## “SOME HAV' MEAT, AND CANNA EAT”

So Bobby Burns tersely describes the rich, but still poor, dyspeptics. But their case is not now so desperate as when Burns wrote. For the man who has the food now can eat without suffering for it, if he just follows the meal with a Na-Dru-Co Dyspepsia Tablet.

These remarkable tablets banish the troubles of the chronic dyspeptic—the man who is bilious—the sufferer from heartburn, gas on the stomach or occasional indigestion. You can eat hearty meals of wholesome food—and digest them, too—if you take Na-Dru-Co Dyspepsia Tablets.

Compounded by expert chemists, after probably the best formula known to medical science, they are quick and certain in their action, giving prompt relief from all forms of stomach trouble, toning up and strengthening the digestive organs and bringing about permanent cures.

A man is no stronger than his stomach. Fit yourself for your best work by taking Na-Dru-Co Dyspepsia Tablets. 50c. at your druggist's. National Drug and Chemical Co. of Canada, Limited, Montreal.

WHEN THEY FIRST USED ICE.

It was on one of these occasions when George Blatchford, having disposed of his fish at Bath, in coming down the river, noted a quantity of ice floating down from the “up river” and took in a supply for his next trip, and reaching Gloucester, many of the crew left in the belief that fresh water ice would not keep salt water fish.

The trip proved a success, however, and the elder Nathaniel Webster engaged here in the business of supplying vessels with this commodity.

The advent of ice, or rather the use of ice, in connection with our fisheries, opened a new era for the industry, for with ice it was possible for the vessels to make longer trips, but though the market for cod was generally good, halibut, though in great supply, had a very limited market, the process of smoking being unknown at that time and many trips were thrown away, unavailable at any price.

It would seem as though the Creator in his great wisdom made provision for these difficulties, all in his own good time, for, it was now, or rather then, that Moses Jaffin, Jr. and Harry Merchant began smoking halibut which was destined to open a new market for the disposition of these fish but at first, it being a new product, some years went by before this industry played any important part in the price of halibut, when they always might be disposed of at some price.

## Capt. Sylvanus Smith Tells of the Georges Bank Fishing in Its Very Early Days

[GLOUCESTER DAILY TIMES]

In looking backward into the past, reviewing the history of the early fisheries of Gloucester, that of the “Georges” fishery, occupies a very vivid place in my memory.

While I cannot claim the distinction of being one of the pioneers of this industry, still even, at the time of my going to this ground, in the early years, it was even at this time, quite new as a fishing ground.

In the very early times, Georges bank was known to the fishermen, but the business was not followed of going to these banks, owing largely to the dangerous shoals as well as on account of the strong tides there.

For years our fishermen had sought cod in the waters of the Grand Bank and in waters, nearly if not quite so distant, but it was left for John Fletcher Womson, as near as I can recall, to open the way to what in after years was to prove of immense value to our fisheries.

It is said that in the year 1830, while returning from a southern voyage, while becalmed on Georges, some of the crew threw over their lines, found halibut so plentiful that the following year Capt. Womson fitted a vessel to go to these new grounds.

I do not recall that it was pursued as a business, however, for some years for, at that time halibut were very plentiful all along our shores and the demand for these fish was very limited, in fact I have seen these fish so plentiful on the shore grounds that we were obliged to haul in our lines and change our births, for it was cod above any other fish that was marketable.

When the Georges fishery began to be pursued as a business it was found necessary to establish an insurance company (the rates in the regular insurance companies being practically prohibitive) and Epes Merchant held a meeting at his store (now mine) to form such a company; those present were Epes Merchant, Epes Sayward, Samuel Brown, Joseph Friend and Simeon Burnham.

These men drew up an agreement, or covenant, to insure the vessels of Gloucester harbor. This was in the year 1841.

This company continued in active operation for six years, or until 1847, when, owing to the great increase in the number of vessels a larger company was considered necessary. and the Gloucester Mutual was formed and has continued in active operation ever since.

While the losses in this fishery were great, this form of insurance effected a great saving to the insured.

In the early years of the Georges fishery the vessels did not anchor, but fished, drifting for a few days, and then started for market. Some few of the vessels had well rooms to keep the fish alive, but this was not general. There was no such thing as icing fish in those days, and of necessity vessels made short trips, and often finding no market for their halibut would go to Portland, Bath and other places to dispose of their catch.

WHEN THEY FIRST USED ICE.

It was on one of these occasions when George Blatchford, having disposed of his fish at Bath, in coming down the river, noted a quantity of ice floating down from the “up river” and took in a supply for his next trip, and reaching Gloucester, many of the crew left in the belief that fresh water ice would not keep salt water fish.

early days many cargoes were thrown overboard outside Eastern Point.

The Georges Bank fishery added greatly to the prosperity of the town. Many new and larger vessels were built to take the place of the old-fashioned “Pinky” and the square sterned vessels then in vogue which when sailing “by the wind” would make several bows into before passing a sea.

DIGBY WEEKLY COURIER

Digby, Jan. 10, 1913

CANADA AND THE FLAG.

The strengthening of the imperial navy by the addition of three dreadnaughts proposed by Premier Borden, is the feature of his program which is most generally spoken of.

There is another feature, however, which is of the utmost importance to Canada, and that is the intention of the Premier to prepare for the building of steel ships in Canada, and the arrangement whereby, as soon as this provision is made, the British admiralty will build in this country vessels of different classes for naval purposes.

The cost of steel shipbuilding in Canada would at first exceed by 25 or 35 per cent that in Great Britain which would be a disadvantage; but Mr. Borden believes that, to encourage steel shipbuilding in this country, the government should do everything possible, and proposes to pay the extra cost of building the British ships in Canadian yards.

He also proposes that the Canadian government vessels, heretofore generally built abroad, shall be, as soon as possible, constructed in Canada.

The first step, however, is the building of the shipyards capable of turning out the great modern steel ship, and in this, Nova Scotia is vitally interested.

For many years efforts to secure government encouragement to steel shipbuilding in Nova Scotia have been put forth by boards of trade, town and city councils, and the city of Halifax and towns of Dartmouth and Sydney voted large bonuses to any company which would build the necessary plant. The undertaking, however, was so large and expensive that, without government aid of a substantial character, to ensure the success of the works, the necessary capital could not be secured; and nothing has been done up to the present beyond the purchase of a proposed site on Halifax harbour.

That both political parties are pledged to see steel shipbuilding undertaken in Canada, on a generous scale, is evident from the declaration of the respective leaders.

Sir Wilfrid Laurier, speaking in the House of Commons on the navy bill in December, said in referring to his former naval policy, that if it had been carried out and the contracts for the ships had been awarded "we would at the present time have under construction on the stocks in Montreal four cruisers and six destroyers."

It was not unnatural that with both the Premier and Minister of Marine in the last government, from the province of Quebec, that province should have secured a decided advantage in the matter of location of shipbuilding plants.

But the people of Nova Scotia and New Brunswick are greatly interested in seeing that these provinces get the benefit of this industry. They believe they are especially adapted for the purpose, none more so than Nova Scotia with its open ports the year around—while the St. Lawrence is ice bound at least four months of every year.

Nova Scotia also has the iron and coal necessary for steel shipbuilding, and a class of people from whom the best of skilled labour could in a short time be developed.

After many years of waiting for the steel shipbuilding industry, therefore, and long looking in vain, it seems that the much desired day is likely to be near at hand.

With the assistance of the government program already spoken of, and with the Prime Minister from Nova Scotia and the Minister of Marine from New Brunswick, it is on the order that these provinces will be well looked after when the shipyards are located and built.

This great industry, which would bring many others in its train, would do much to restore these provinces, in the matter of population to the place which they formerly held in Canada, and would add to their wealth and importance.

Presented With A Watch.

CLARENCE JAMESON, M. P., PLEASANTLY SURPRISED TUESDAY EVENING.

A number of members of the Liberal-Conservative Association of Digby county met Mr. Clarence Jameson, M. P., at the Royal Hotel Monday evening and presented him with the following address read by Mayor Short in the absence of J. A. Gieson, Esq., of Weymouth, president of the association.

It affords us a great deal of pleasure at this time to commend to you the Liberal-Conservative Party of the County of Digby, and express our appreciation of you as a representative in the House of Commons, at Ottawa.

Your election to represent this County in the Dominion Parliament is a great victory and we were justly proud of your career in opposition. Your masterly treatment of the fishery question in the latter days of the last Parliament was highly appreciated by us, and the merits of your contribution to the debate on the question were acknowledged in the most memorable and reciprocal campaign. Your conduct was particularly pleasing with the able manner in which you conducted the campaign of September 21st, 1911, and were greatly rejoiced with you at the magnificent victory which you achieved.

No representative has ever served his country with more zeal, or given greater satisfaction to his constituents than you have. We are proud to have you as a member of our County, and we are proud to have you as a member of our party. We are proud to have you as a member of our party, and we are proud to have you as a member of our party.

On behalf of the Liberal-Conservative Party of Digby County.

J. A. Gieson, Pres.  
H. B. Storer, Vice Pres.  
E. W. Nicholas, Secy. Treas.

Mr. J. Jameson made a very appropriate reply followed by a short address on the naval question and other live political topics at the present time.

This watch is certainly a handsome and expensive one, especially imported for the occasion by Messrs James M. Keen & Son. It strikes the hours, quarters and minutes on two gongs.

The inscription is as follows:

Presented to Clarence Jameson M. P.  
By his constituents, in recognition of service to Digby County.

Death of James Gilbert Purdy.

NATIVE OF DEEP BROOK PASSER AWAY IN NEW YORK.

We copy the following from the Yonkers (N. Y.) Statesman, of the 2nd inst: James Gilbert Purdy died of heart disease, at his home, 81 Ludlow street, yesterday, in his 81st year.

Mr. Purdy was born in Nova Scotia, and removed to New York City 27 years ago. He lived in New York, N. Y., a few years; he came to Yonkers 13 years ago.

Mr. Purdy was a yacht builder by trade, and was the oldest foreman, in point of service, with the Seabury yacht-building plant at Morris Heights.

He married Sarah Fair, in Nova Scotia, 57 years ago. He was a Free Mason, and was a member of St. Andrews Memorial Episcopal Church.

He is survived by his wife and nine children—Reginald F. Purdy, of City Island, N. Y.; Captain George D. Purdy, of Brooklyn; James G. Purdy, Jr., and Edward D. Purdy, of Morris Heights; Harry H. Purdy, of Tremont, N. Y.; Mrs. Mary J. Hoyt, of Vancouver, B. C.; Mrs. Robert Roberts, of Nova Scotia; Mrs. B. Gardner, of Rich Island, Conn.; Mrs. Watson Hardwick, of Yonkers; also 41 grandchildren and four great grandchildren.

38 Tons of Paper.

This enormous quantity of paper was used in printing the 1913 Edition of the Na-Du-Co Almanac. Just off the press, as each almanac weighs a little less than two ounces, this means that 700,000 copies were printed—one copy for every 11 individuals, or for every two families, in Canada.

Stronger evidence could scarcely be given of the wonderful popularity which has already been won by the Na-Du-Co Almanac now only in its fourth edition. This is due to the rich fund of useful information which it contains, and to its valuable lines on health and physical comfort.

Your Druggist has a copy for you. See that you get it.

Calendars.

Mr. G. H. Peters, Digby representative of the London Mutual Fire Insurance Co., has our thanks for a nice office calendar; also Mr. (Glidden Campbell, of the firm of G. D. Campbell and Co., dealers in general merchandise and lumber, Weymouth. The latter contains a half-ton out of their place calendars, showing several automobiles, belonging to members of the firm and others.

GAZETTE ROCK FOG ALARM, THE FAMOUS WARNING TO SEAMEN, DAMAGED.

Saturday's gale in Digby was the worst experienced here for some time, but we are having so much milder weather this winter that we are becoming accustomed to big breezes, heavy rains, etc. During Saturday's gale several lobster traps were washed off the beaches along the St. Mary's Bay side of Digby Neck, and boats and docks were smashed and other damage is reported.

The S. S. Yarmouth, Capt. Macdonald, did not cross the bay Saturday from St. John, postponing the trip until Monday. The ferry boat did not cross from Port Wade. The S. S. Prince Albert, Capt. Holmes, from Parrsboro for Yarmouth, which arrived here Friday night, remained in Digby until Monday morning.

Schrs. Dorothy G. Snow, Capt. William Snow, and Catherine, Capt. Wilkie, were the only vessels anchored off Digby. The former rode the gale out all right, sailing Monday. The latter dragged across the Basin Saturday night to Clementsport but did not get ashore. She has since returned to an anchorage off the wharfe.

This gale was followed by a rain storm Monday night, a moderate east wind Tuesday, increasing Wednesday, accompanied by snow. Thus it goes on from day to day, making navigation and fishing along our coast almost impossible.

At Tiverton a lot of wreckage has been washed ashore. It consists of boards, shingles, painted white. On one piece appeared the words "Gannet Rock."

The S. S. Boston, Capt. Sims, arrived in Yarmouth Saturday morning as usual, but did not leave there again for Boston until Sunday afternoon.

HALIFAX, Jan. 6.—For more than twenty-four hours, commencing late Saturday morning, a terrific gale of hurricane proportions swept over Halifax and the southern half of Nova Scotia, inflicting minor damage everywhere and seriously endangering the safety of ships at sea. Rapidly increasing in velocity, the wind, as reported by the meteorological service at the Citadel, blew at a rate of forty-eight miles an hour from the west at ten o'clock Saturday evening and abated no statement until seven in the morning. All along the coast a fierce tempest raged and great wind-whipped seas crashed over the bulwarks and across the decks of steam and sail craft, tapping to be out of port. Steamships entering the harbor over the week-end, report heavy weather, and many vessels were forced to run in for shelter. Among these was the Gloucester fishing schooner Valerie, which, the riding with reefed sails before the gale, had her masts broken, besides losing several dories and other gear, carried away by the walls of water, which broke over her. The Russian liner Korsch arrived last night to refuel her bunkers, her coal having given out in struggling against the gale en route from Libau to New York.

GREAT DESTRUCTION IN BAY OF FUNDY. ST. JOHN, January 5.—In the gale which began on Friday evening, and continued till Sunday afternoon, three vessels were wrecked in the vicinity of St. John, aids to navigation were demolished and a great deal of damage done. The American schooner Wm. T. Donnell, loaded with lumber for New York, was driven ashore at Point Lepreau. Her crew only escaped with their lives after a perilous trip thru the surf in a small boat. The Nova Scotia schooner Eskimo, owned by Charles T. White, East Apple River, parted her cables, while lying in Musquash harbor and went ashore. Her keel was broken. There is a big hole in her bilge, fibrous and mainmast carried away. It is believed, however, that she can be floated and repaired at St. John. The little fishing schooner Tourist, owned by Dan Campbell, of Musquash, also parted her cable and went ashore in Dipper harbor. One of the men saved from the wreck of the Donnell was Jabez Boudreau of Weymouth. At present the wind attended a velocity of 90 miles an hour and on Sunday morning, recording instruments were blown away. Shipmasters coming to the Bay of Fundy are warned not to trust aids to navigation. The fog whistle on Gannet rock was destroyed by the storm.

Soft Weather in Northwest. LACK OF ICE IN FRASER RIVER LEADS TO SHORTAGE OF PROVISIONS.

EDMONTON, Jan. 3.—Men coming up from far down the Fraser River, say provisions are becoming so scarce that some of the camps have already reduced their forces. The trouble is that the Fraser has not yet frozen this season and consequently there is no freightage down the river on the ice. All the contractors were confidently expecting to do their winter freighting in this manner and in the face of the present situation are bitterly disappointed.

Experienced trappers who have been in this region for years say that the season is so far advanced that the river will not freeze up at all this winter. It is proven true. Grand Trunk contractors will have their winter's work considerably curtailed.

Died in Vancouver.

In Vancouver on Saturday evening, Mrs. J. A. Harvie, a former resident of Avonville, Hants county, N. S., died. Her late husband, John A. Harvie, was a prominent shipbuilder in Avonville in the days of wooden ships. About three years ago Mrs. Harvie met with a severe accident in Montreal, having been run over by a street car. She never altogether recovered. She leaves a son in Parrsboro, N. S., and another in Vancouver. She was a daughter of Stiles Mosher, a prominent Nova Scotia shipbuilder.

Explosion on French Warship.

PETTY OFFICER, ARTIFICER, AND SIX STOKERS KILLED ON THE MESSENA

Toulon, France, Jan. 6.—Eight men were killed today by an explosion in the stockhold of the French battleship Messena. The Messena, accompanied by two cruisers, was proceeding for Bizerta. She was passing the Hyer Islands when the steam collect, or pipe of one of the boilers burst.

The warship was immediately stopped and the engine room staff rushed to the stockhold, where they found a petty officer, six stokers and an artificer lying on the floor dead. The ship put back and landed the bodies at the St. Mangrier Naval Hospital.

The cause of the accident has not yet been ascertained, but it has occasioned great surprise among the naval authorities as the steam piping on the Messena had been completely renewed two years ago, and was thoroughly tested last year.

## MOTHERHOOD SUGGESTIONS

### Advice to Expectant Mothers

The experience of Motherhood is a try-  
ing one to most women and marks dis-  
tinctly an epoch in their lives. Not one  
woman in a hundred is prepared or un-  
derstands how to properly care for her-  
self. Of course nearly every woman  
nowadays has medical treatment at  
such times, but many approach the  
experience with an organism unfitted  
for the trial of strength, and when it  
is over her system has received a shock  
from which it is hard to recover. Fol-  
lowing right upon this comes the  
nervous strain of caring for the child, and  
a distinct change in the mother results.  
There is nothing more charming than  
a happy and healthy mother of children,  
and indeed child-birth under the right  
conditions need be no hazard to health or  
beauty. The unexplainable thing is that,  
with all the evidence of shattered nerves  
and broken health resulting from an un-  
prepared condition, and with ample time  
in which to prepare, women will persist  
in going blindly to the trial.

Every woman at this time should rely  
upon Lydia E. Pinkham's Vegetable Com-  
pound, a most valuable tonic and invigor-  
ator of the female organism.

In many homes  
once children there  
are now children be-  
cause of the fact  
that Lydia E. Pink-  
ham's Vegetable  
Compound makes  
women normal,  
healthy and strong.

If you want special advice write to  
Lydia E. Pinkham Medicine Co. (confi-  
dential) Lynn, Mass. Your letter will  
be opened, read and answered by a  
woman and held in strict confidence.

When a Fellow Gets Bald.  
As age creeps upon us we try to stay young  
And frisk as long as we can,  
And show to the world by both action and  
tongue  
We get a mighty good man.  
We laugh at gray hair as a token of age,  
But look in the mirror appalled  
As we find we are facing that worrying stage  
When a fellow begins to get bald.

We blow in our money for tonics and creams,  
We try all the lotions in sight,  
But every preventive we plaster on seems  
To hasten the hair in its flight.  
We wear out our shoes on the specialist's stair,  
Experts in council are called,  
But every one adds to our burden of care  
When a fellow begins to get bald.

Whenever we meet lady-friends on the street  
We blush when we glimpse our hat,  
And, though they may smile us a greeting most  
sweet,  
We know they have got us down pat.  
We seem to care little when to our reward  
In the realms of the bliss we are called,  
For half of the pleasure of living seems hoarded  
When a fellow begins to get bald.

Macdonald's Aural Death.  
AMHERST Jan. 2.—Macdonald had  
another fatality yesterday when Wil-  
liam Hurley met his death through the  
bursting of a tube in a boiler, which he  
was attending. Five or six men had  
been working all day in a newly opened  
mine, across the river from the  
station, and on leaving for supper, left  
Hurley to bank the boiler. Fires for the  
night. Hurley had evidently fixed the  
tube and set down for a minute when  
the tube burst throwing a stream of  
scalding water over him and causing his  
death. He was found dead early this  
morning.

Bad Blood—  
Is the direct and inevitable result of  
irregular or constipated bowels and  
clogged-up kidneys and skin. The  
undigested food and other waste mat-  
ter which is allowed to accumulate  
poisons the blood and the whole  
system. Dr. Morse's Indian Root Pills  
act directly on the bowels, regulating  
them, giving the kidneys a healthy  
case and strength to properly filter the  
blood—and on the skin, opening up  
the pores. For pure blood and good  
health take

Dr. Morse's  
Indian Root Pills

HERE IS GOOD  
ADVICE TO TAKE  
It will help those who have  
Kidney and Bladder Trouble.  
There are other "old enemies"  
similar to the one mentioned in this  
testimonial. Kidneys and Bladder  
Troubles are always enemies to good  
health. As soon as you start to take  
GIN PILLS these ailments begin to  
disappear. It is the same in cases of  
Lumbago, Sciatica and like complaints.  
This letter illustrates the benefit of  
GIN PILLS.

Winnipeg, Jan. 6th.  
"I have been a sufferer from Lumbago  
for some years past and during Christmas  
week had a very acute attack which  
confined me to the house. About the  
latter part of April I met your Mr. Hill  
and mentioned my complaint to him.  
He advised me to take GIN PILLS. I  
have been taking them at intervals  
during the early part of the present  
winter, and up to date have had no  
return of my old trouble—in fact, I  
feel better than I have for years and  
think that my old enemy has vanished  
for good and all."

## DIGBY WEEKLY COURIER

Digby, Jan. 17, 1913

## CANADA AND THE FLAG

The agreement of the British government to build ships for the imperial navy in Canadian ship yards, as soon as the latter are provided, is one of the most important announcements made since confederation.

As will be remembered the statement was made to the house of commons by Premier Borden, during his speech on the naval bill.

He had secured this undertaking from the British government, with a view to the creation in Canada of a permanent steel shipbuilding industry.

To be permanent, a business must pay; to pay it must, generally speaking, be in active operation year in and year out. This is especially the case with steel shipbuilding, where the necessary plant is very expensive, and cannot afford to be idle.

The risk of establishing great steel shipbuilding yards in the Maritime Provinces, lay in the danger that they could not be kept actively at work throughout the year to make them pay, even at the higher price which it would be necessary to ask for their output, as compared with those of Great Britain.

This difficulty is removed by the promise to give Canada the building of ships for the navy, as soon as we are prepared to do the work.

They will be paid for in the main by the British taxpayer, whose money for the first time in the history of his country will be sent out to an overseas dominion for such a purpose.

As the navy must be kept up, a yearly increasing rather than decreasing number of ships will be required for the purpose, the building of a share of which will annually fall to Canada.

This will mean the permanent operation of the ship yards, necessary to the profitable operation thereof. With this as an assured business, and the building of ships for the growing Canadian commerce, the yards should be kept humming from January to December.

No one can begin to fully estimate what such a business would mean for this province.

Every portion of Nova Scotia would benefit by it.

It would stimulate the coal and iron industries; benefit farmer and mechanic, market gardener and fisherman, skilled artisan and ordinary laborer.

It would, by affording greatly increased employment, result in our young people finding profitable occupation in their own province and bring thousands of others to build up and help bear the burdens of the country.

Much of the work on vessels of the classes mentioned is highly skilled and technical, and the wages paid are in proportion.

The opportunities for the mechanic, would be especially good, and be readily seized by the progressive young Nova Scotian, whose ambition lay in the direction of the development of his own country, and the taking of a useful place in a movement toward that end.

By keeping at home her young men and attracting others to her shores, Nova Scotia may hope to regain the representation which she originally had in the parliament of the country.

The number of members which each province is entitled to send to the Dominion parliament is regulated by the population.

If a province does not keep pace with other portions of the Dominion, (particularly the Province of Quebec, which is the pivotal province) it loses from its number of representatives.

Nova Scotia has lost in this way in the past and the thing now is not only to prevent further loss, but to regain what the province has dropped in past years.

In 1891 Nova Scotia had twenty members in the house of commons to which she was entitled according to the population, as shown by the census return of that year. This was the number which she had assigned at the time of confederation.

In 1901, the census showed that the province had not kept pace with the rest of Canada, and that she would lose two seats; which were taken away when the re-distribution bill was passed, shortly afterwards, reducing her representation to eighteen.

Since then another census has been taken, and by it Nova Scotia loses two more seats, which with those lost in 1901, makes four in all, leaving sixteen as compared with the original twenty.

In other words, within the last few years, one-fifth of the representation of the province in the Dominion parliament has been lost and her importance in the council of the nation suffers accordingly.

Little wonder that the people of this province look to Premier Borden for a policy that will mean the up-building of Nova Scotia and the regaining of its former numerical strength in the federal house.

The development of the port of Halifax is a first step; but far greater is that looking to the establishment of steel shipbuilding plant and the construction of ships for the British admiralty, to be paid for by the taxpayer of Great Britain.

Some years ago a proposition was made to put an end to icebergs, which are a menace to navigation, and to divert the Arctic current by blocking the Straits of

Bellisle. After a good deal of discussion and serious consideration the idea was abandoned. Now it is proposed to obtain the same results but in an entirely different way.

The New York Board of Trade and Transportation has a Bill which Congressman Calder, of Brooklyn, will submit at Washington, calling for a Government commission to study the feasibility of constructing a huge jetty across the Grand Banks of Newfoundland.

The idea, which the members of the Board were at first inclined to jett, but later adopted, was explained by its originator, C. L. Ricker, a Brooklyn engineer. He said he would obstruct the Labrador current by laying a steel cable, ten inches in diameter, across the Grand Banks—where the ocean bed is a level plateau—against which the current would deposit sand and form a ridge extending for two miles to the east of Cape Race.

Mr. Ricker declared that this would be sufficient to shift the current so that the warm Gulf Stream and the cold Labrador current would converge, melting the ice in the latter, eliminating icebergs not only from the region of the Grand Banks, but also from the entire Arctic circle. Greenland, he maintained, would be transformed into a garden, and England would be surrounded by a current as warm as the Caribbean Sea.

Mr. Ricker declared that, however wild this project might seem at first sight, it had received the endorsement of many engineers and even the United States Hydrographic Office had considered it feasible. He estimated the cost at \$20,000,000.

## The Late Capt. G. W. Grant.

HIS REMAINS ARRIVED HERE YESTERDAY AND WERE FORWARDED TO WYOMOUTH.

We reprint the following from an Oakland, California paper: "Captain George W. Grant, a well known master mariner, died Dec. 25th, at the home of his brother, Captain T. A. Grant, 227 Eleventh Avenue, at the age of 62 years. He came to California 15 years ago from Weymouth, Nova Scotia, his birthplace, and since that time had been in command of various vessels along the coast and across the Pacific. He was first in command of the Ivanhoe, which sailed to Australia.

For the last four years Captain Grant had been retired, because of failing health. He leaves a mother, Mrs. Mary E. Grant, of Nova Scotia, and brothers and sisters as follows: Captain T. A. Grant, Oakland; Mrs. G. S. Bishop, Nova Scotia; Mrs. Anna Wiggins, Mrs. H. Downing, Joseph Grant, Miss Cynthia Grant and Captain Charles Grant.

The remains passed through Digby yesterday for Weymouth, coming via St. John. They were accompanied from Oakland by Capt. and Mrs. T. A. Grant and child, who were joined at St. John by Mrs. C. E. Farnham.

The funeral takes place in Weymouth today with interment in the North Weymouth Baptist cemetery beside his late wife. The service will be conducted by Rev. J. W. Bancroft, a former Weymouth pastor. The remains were met at Digby by Undertaker W. F. Nichol, of Weymouth, who has charge of the funeral arrangements.

Capt. T. A. Grant will only spend a few days in Nova Scotia before returning to his ship on the Pacific coast.

## Accident in Weymouth.

We regret to chronicle a sad accident which occurred in the home of Connelley W. F. Nichol, Weymouth, last Monday night. His aged mother, Mrs. George Nichol, of Bear River, who is spending the winter with him, fell in the kitchen while getting a drink of water, striking against a chair and breaking her shoulder. Dr. Hallett was immediately summoned and Mrs. Nichol is giving the unfortunate lady every attention. She is thought to be doing well considering her advanced age. Her many friends in Bear River, Weymouth and elsewhere will regret to learn of this accident for she was extra smart for a lady of 83 years, and a general favorite with all who know her.

## Married at Rosway.

WESTCOTT, BLACKFORD. Mr. Handley C. Westcott, Brighton's well known general dealer, was united in marriage Christmas Day to Miss Jessie V. Blackford, of Freeport. The ceremony, which was performed by Rev. S. Langille, pastor of the Hillview Baptist church in Yarmouth county, took place at the home of Mrs. Gilbert C. Blackford, of Rosway. The happy couple, who have the best wishes of a host of friends, are residing at the home of the groom's father in Brighton.

## Freeport Postmaster Resigns.

A correspondent writes: Mr. A. F. Outhouse, Freeport's postmaster, has resigned his position after a long and efficient service of nearly twenty years. While his many friends regret the necessity he feels of making a change, yet they congratulate Mr. Outhouse on his continued health, and ability to carry on the strenuous work connected with his office. Mr. Outhouse is now seventy-two years of age, and in comparative good health.

## Reward Offered.

Capt. George E. Corbitt, of Annapolis, has offered a reward for the recovery of the bodies of four Digby fishermen, Daley, Haliday, Robinson and McWhinnie, lost from the Dorothy M. Smart, of Yarmouth, two days before Christmas.

## OF A LOCAL NATURE WESTERN N. S.

## YACHT CLUB

Annual Meeting Monday Night Was Largely Attended.

THE CLUB OWNS NO HULLS AND HAS BRIGHT PROSPECTS FOR THE FUTURE—OFFICERS ELECTED AND A GOOD PROGRAMME OF RACING AND CRUISING ANNOUNCED.

The first annual meeting of the Western Nova Scotia Yacht Club held in the club rooms, Water street, last Monday evening was largely attended. Bills to the extent of about \$130.00 were read and ordered to be paid.

The report of the management committee, attached to which was the treasurer's report showed the financial standing of the club to be in a healthy condition, notwithstanding the expensive boat slip built last season, the furnishing of the club rooms and other quite large expenditures.

The officers for 1913 were elected as follows: O. S. Dunham, Commodore; Capt. Howard Anderson, Vice Commodore; J. P. Cripps, Rear Commodore; P. W. Holdsworth, Secretary; Fritz Dakin, Treasurer; J. Outram Dakin, Measurer; C. A. Lindstrom, Assistant Measurer.

Management Committee: J. E. Cripps, C. A. Dakin, T. E. G. Lynch, J. P. Cripps, J. O. Lynch, J. O. Dakin. The Club then appointed a committee for their annual dance which takes

O. S. DUNHAM. Re-elected Commodore of the Western Nova Scotia Yacht Club.

place in the I. O. O. F. hall on Easter Monday.

It was decided to build an extension of 150 feet on the boat slip, the same committee being appointed that had charge of the slip construction in 1912.

Lockers for boat owners will be built in the Club house basement and rented to those who wish them.

A silver cup will be put up for a series of races for the Swampscott sailing dories which belong to the club, and also a shield for a series of power races for club boats only.

The club has been registered with Lloyd's and the burgee, list of officers, dues, etc., will appear in their yearly book of 1913.

An annual cruise on the Annapolis river was arranged as follows: Leave the club anchorage Monday afternoon July 21st, at 3 o'clock and proceed to Annapolis. Dinner at the Queen hotel, Annapolis, at 8 p. m., followed by speeches, music, etc. Sail from Annapolis for Bridgetown the following morning at 9:30. Leave Bridgetown at 2 p. m. for Digby direct.

Two more cruises were arranged as follows: No. 1—Leave Digby Dominion Day, July 1st, at 2 p. m. and proceed to Goat Island. Luncheon served on shore. Returning leave Goat Island for Digby at 6 p. m.

No. 2—Leave Digby Tuesday afternoon, Aug. 26th, at 2 o'clock and sail to Clonfert point. Leave Clonfert point at 1:30 p. m. and proceed to anchorage off Goat Island. Have luncheon on the island and sail for Digby at 8 p. m.

The above are official cruises on which it is proposed to take every member of the club who can get away for a few hours or a day's outing.

There will, as usual, be many cruises enjoyed on the Basin and in the Bay Fundy during the season.

The annual fees for 1913 are now due from those who have not already paid and the secretary is asking for a prompt remittance. The membership is between sixty and seventy and it is thought, with a little effort on the part of the present members, it will reach a hundred before the close of 1913.

## Recent Fires.

Sackatoon had a \$25,000 fire on Monday morning, destroying the building of the Western Foundry and Machine Co. Many valuable patterns were destroyed.

The Moncton Times' business offices and plant were damaged to the extent of \$10,000 by a fire that broke out near the furnace in the basement on Saturday. Four of the employees made their escape from the upper story from the windows. The loss is covered by insurance. The Times will be printed from the Transcript press for a few days.

## Where Glams are Plentiful.

The Yarmouth Telegram says: "One of the sights at Belliveau's C. on Sunday was to see men and boys down on the flats gathering up by the bush the clams washed out of the beds by the big waves that lashed the shores of St. Mary's Bay on Sunday. Glams as a rule, when the flats are bare, lie buried nearly a foot, but in this instance spades and shovels were not necessary to disturb them.

## Adriatic May Soon Capitulate.

### Britania Swept by Storm

HEAVY SNOWFALL AND GALES IN NORTH OF ENGLAND LEVEL TELEGRAPH AND TELEPHONE WIRKS.

LONDON, Jan. 13.—The United Kingdom was swept Saturday and Sunday by heavy gales and snow storms. There have been many wrecks of small craft, and coast shipping has been considerably delayed. Vessels arriving in port today felt the full fury of the storm and some of the vessels are badly scarred.

In the north of England the storm was of terrific severity, lasting thirty-three hours, and there was a continuation of the snowfall in the Newcastle district. Telephone and telegraph wires are down in all directions.

The steamer Mauretania was held alongside the landing stage at Liverpool until 9.20 o'clock tonight, when she sailed direct for New York.

The steamer Celtic, from New York, January 4, which arrived at Queens-town this afternoon, reports having experienced terrific weather. The gale was so violent on Friday and Saturday that the passengers were forbidden on the promenade deck.

The Celtic at 6 a. m. on Saturday spoke the British steamer Wayfarer, at this time latitude 47 degrees three minutes, longitude 23 degrees 25 minutes. She had lost her funnel and her lifeboats, and the steering gear was disabled. The Celtic reported that the Wayfarer was putting back to Liverpool. A wireless message stated that the steering gear had been repaired and that the Corsican and Margaret were extending by.

The British steamer Wilhelmine, Philadelphia, December 27, from Philadelphia, the Abyssinia signalled that she had met with an accident, the nature of which, however, was not disclosed.

### Lives Lost From Dorothy Smart.

[Written by Evelyn Blackford, Digby, N. S.]

The moon lost off the Dorothy Smart. Could not be seen in the dark. So they were left to rest in peace. And wait for the terrible whirlwind to cease.

They were nice men, so pleasant and gay. Always had a pleasant word to say. Their loss was felt throughout the town. In every home all around.

Frank Daley lived on the Racquette Hill. A place all quiet, peaceful and still. He leaves a widow, five children, too. Two little girls now going to school.

Jesse Halliday lived in the town. Never had a scowl or frown. He was always pleasant and as gay. As a blooming rose in the month of May.

The other two, we do not know. But their friends will miss them "tho". They all came to the same fate. In the same month, day and date.

Perchance their bodies will float ashore. When the seas and billows cease to roar. We all pity those left to grieve. The night before Xmas Eve.

The church bells will never ring. For those brave, strong-hearted, working men. For they have gone to a world of peace. Where all their troubles now cease.

### Middleton to Have Black Fox Ranch

LEADING BUSINESS MEN HAVE SUBSCRIBED THE MAJORITY OF THE STOCK.

MIDDLETON, Jan. 10.—There have been rumors that the clay works here would be closed down but it is now definitely announced that the works will be operated next season.

The apple picking question a live one this season, is especially lively just now, as the inspectors are starting prosecutions against several co-operative shipping companies. The cause is the fact that several of the companies have made a new importation of the fruit, and they claim that more spotted apples are permissible in No. 2 grade than have been allowed throughout the earlier part of the season. The inspectors claim that this interpretation is not correct.

There is considerable excitement here over the organization of the Middleton Silver Black Fox Ranch, Ltd. D. A. Wedlock, of Charlottetown, who holds stock in several P. E. Island companies, is the promoter and a number of our leading business men have taken hold of the enterprise. About \$10,000 of the required \$40,000 has been already subscribed. The ranch will be located north of Middleton in a natural fox territory.

### Ocean Limited in Collision

FREIGHT ENGINE TOOK A CHANCE OF BEATING FLIER INTO HALIFAX

HALIFAX, Jan. 5.—The engine of the second section of the Ocean Limited had a rear end collision last night with an engine at Halifax that was proceeding on the main line in the same direction to take a train of cars to a special to Truro.

The freight engine was going backwards when Fireman Ross McDonald saw the Ocean Limited approaching the engine he was on. He jumped and falling on his head was rendered unconscious. The engineer stuck to his post and was unhurt. The engines were badly smashed and three baggage cars were derailed.

The freight engineer should not have been on the main line but he thought he would have time to reach the station ahead of the Limited. The track was blocked all today by the wreckage.

### Famous Arctic Explorer Dead

CAPTAIN JOHANSEN, WHO WAS WITH NANSSEN AND AMUNDSEN COMMITTED SUICIDE.

CHRISTIANIA, Norway, Jan. 4.—Captain Hjalmar Johansen, a famous Arctic explorer, who had achieved much success in polar research, committed suicide here last night. He was a member of Captain Roald Amundsen's recent Antarctic expedition, but was left at the base of supplies when Amundsen and four companions pushed their way to the South Pole. The fact that he was not among the party proved to be his undoing, and he brooded over it until his return to Norway.

Captain Johansen was best known through being Nansen's sole companion during a fourteen months' journey over desert ice on the Greenland coast after leaving the Arctic steamer Fram in 1895. He was the author of "Nansen and I at 80 degrees, 14 minutes."

### Kentucky Floods Drive Hundreds From Their Homes

LOUISVILLE, Ky., Jan. 15.—Between 700 and 1,000 families have been driven from their homes along the waterfront here during the past twenty-four hours by the rising waters of the Ohio. The stage at this point at 7 o'clock tonight, according to the local weather bureau was 35.8 with a rate of rise of 2 feet an hour. A stage of 38 feet is predicted by tomorrow morning, and of forty feet by Tuesday evening. This would put the water over the cut off embankment east of the city on Monday noon, flood an area of several square miles and render approximately 400 families homeless.

Railroad service throughout the state impeded, though not suspended. Despatches from many Kentucky points tell of damage to home and other property. Allen McKinney, a farmer near Hopkinsville, was drowned today when his skiff collided with a submerged bridge pier and capsize in the swollen waters of Pond river.

### Woman Owns New York Tribune.

New York, Jan. 16.—The entire estate of the late Whitelaw Reid, Ambassador to Great Britain, is left unconditionally to his widow, Mrs. Elizabeth Reid with the exception of specific bequests totalling \$110,000, under the terms of the will, made public this afternoon. To Mr. Ogden Mill Reid and Jean Templeton Reid, his son and daughter, there is left outright not a penny, although the late Ambassador indicates unmistakably his wish that they should be well provided for by their mother. The value of the estate has been previously estimated at from \$10,000,000 to \$20,000,000. Mrs. Reid thus becomes the owner of almost the entire issue of stock of the Tribune Association, publishers of the New York Tribune.

### No Broken Parts.

During the progress of the morning bath of a few months old infant, a little neighbor girl came into the room carrying a doll which she had received for a Christmas present and stood watching the operation for some time. The little girl's doll was much the worse for hard usage, being minus an arm and leg. Finally she said to the mother of the child:

"How long have you had your baby?"

The child was informed and looking from her doll to the baby, she said: "My but you have kept it nice."

### Biggest Banana Ship—Belfast Built.

FOR NEW YORK WEST INDIES TRADE—UNIQUE PASSENGER ACCOMMODATION.

(From the Dublin (Ireland) Telegraph.)

At the invitation of the builders, Messrs. Workman, Clark, and Co. Ltd., representatives of the press and of others interested in shipping affairs, were enabled yesterday (Tuesday) to inspect the magnificent new twin-screw steamer Pastores, the latest of the many fine vessels built by the well known Belfast shipbuilding firm for the United Fruit Company. In many respects the vessel, which is to be commanded by the commodore of the line (Captain Henshaw), establishes a record, but more particularly is this in evidence in the matter of her up-to-date, and altogether unique provision—(1) For the accommodation of passengers on a scale of luxury that must seem to the observer incapable of being eclipsed in any future attempts in the same direction and (2) the thoroughness of the arrangements for the carriage of fruit (bananas being the staple), which forms so important a feature of the owning company's trade. Every department of the vessel as visited, and the highest accommodations were passed on all hands at the surpassing excellence of the workmanship on the vessel.

At the invitation of the builders, a party of guests were entertained to luncheon in the saloon of the new steamer.

Mr. Strachan, in proposing the toast of 'The Press,' gave some informative details concerning the new vessel, which he thought it would be admitted was unique in many of its features. It had been the endeavour of the owners and builders to make a tremendous advance on anything that had yet been built for the fruit trade between the West Indies and the States. In the important matter of the passenger accommodation, it was his opinion that they had eclipsed even the finest yet provided on the best of Atlantic steamers. (Applause.)

Mr. J. S. Hamill responded, and congratulated the builders on the magnificent floating palace they had provided. She was certainly a vessel of which her owners and Belfast ought to be proud.

Mr. R. S. Johnson, who proposed 'The Owners,' mentioned the interesting fact that Messrs. Workman, Clark & Co. had built the entire fleet owned by the United Fruit Company, and added that the Pastores, of which they were constructing two sister ships, was the latest thing in shipbuilding from their point of view. When the builders received the orders for the boats they were given carte blanche. The result was that the very best article possible had been produced. Those who had been over the ship must have seen on every hand evidences of what he might call the genius of the president of the United Fruit Company.

Mr. Andrew W. Preston, from whose enterprising brain practically everything that was entirely novel in the ship had emanated. Mr. Preston had aimed not so much at the spending of money for the sake of show as for the spending of money with the intention of providing the best in the way of comfort, convenience, and all that could make life like home on a ship. (Applause.)

The cabin, as they must have observed, were designed to afford the maximum of home comfort and the same idea had been carried out in all the public compartments. It was a tall order to be asked to produce a boat that was absolutely perfect and something better than anything afloat, but they had tried to comply. Mr. Johnson went on to refer to the great strides that had been made in the course of its progressive career by the United Fruit Company, which last year established a record in the carrying of passengers between New York and the West Indies. The first three vessels of the line were built by Messrs. Workman, Clark & Co. in 1904, these being the San Jose, Limon, and Esparta. They only carried 12 passengers. The Cartago series of vessels, which followed, with their sister ships, provided for about 100, while the present trio, of which the Pastores was the first, had accommodation for 150 passengers. (Applause.) That indicated the advances made in the passenger traffic of the line; but it was important to note, in addition, that this vessel was equipped for the carrying of the great cargoes of bananas afloat. The most up-to-date refrigerating plant, specially adapted to fruit carrying, had been provided, and he believed that in every department, including the engineering, nothing had been left undone to secure the most thorough success of the intentions of the owners. (Applause.)

The toast was heartily received. Mr. Llewellyn Williams, who made response, said the company of which he was one of the representatives, although a rather big concern, had been only the growth of some twelve or thirteen years. They had developed rapidly and successfully, and in no department had they made more notable advance than in that of passenger and freight. The speaker gave a brief survey of the firm's associations in the shipbuilding line with Messrs. Workman, Clark, & Co., and said that, with out enlarging upon the beauties and qualifications of the Pastores—regarding which so much had been said—he shared the opinion of his colleagues in full that the vessel was a credit to Ulster. (Applause.) The mere fact that they had built all their tonnage with Messrs. Workman, Clark, & Co., was sufficient proof of the splendid re-

sults they had obtained from all their vessels. They started in 1904 with the first of their own three vessels, and the results were so very fine that in 1907 they placed an order for three more. In 1908 they ordered another three, in 1909 four, and in 1911 the other three of which the Pastores was the first. The builders could not have turned out that boat in a better way if it had been their own property. (Hear, hear.) In conclusion, he mentioned that the ship would carry 85,000 bunches of bananas, which in itself was sufficient food for a good-sized population, and they hoped to dispose of that quantity from the vessel once a week.

"Success to the Pastores" was proposed by Mr. Strachan, and responded to in an effective little speech by the commander of the vessel, Captain Henshaw.

Mr. J. Campbell proposed the health of the Marine Superintendent, Captain Davidson, and the toast of Mr. John Hudson, of the company's engineering department was given by Mr. M. Bell, both sentiments being cordially received.

Commodore Henshaw, master of the above ship is a native of Bear River, and has many friends here who will join the COURIER in wishing him every success in his new ship.

Smelt fishing in the river has begun on a very small scale. The frequent heavy rains and lack of ice on the river have been a hindrance to fisherman.

Very enjoyable New Year's parties have been given by Miss Boutillier, Mr. Fred Dakin and the Misses Robbins, all of which were numerously attended. Two more New Year's gifts to Centerville, Mr. Editor. We congratulate Mr. and Mrs. Albert Titus on the birth of a son, Mr. and Mrs. Vernon Dukshire on the arrival of a son and heir.

On Tuesday, Jan. 14, Messrs. R. and E. Raymond stocked seventy six dollars and sixty two cents as the result of their day's catch. Not very many places besides Centerville where this could be done.

The lobster fishermen are busy pursuing their calling and meeting with fair success. The haddock fishing is very good. The weather is favorable, but the numerous gales of late have hindered it some.

"In the spring a young man's fancy lightly turns to thoughts of love," says Tennyson. I hear that the day has been named in the early spring for one, if not two interesting events at the altar of Hymeneal by Centerville young ladies.

Mr. Reuben Morehouse, who has managed the outdoor department at Messrs. Boutillier's factory for upwards of twenty years, has retired his service to lobster fish. He is succeeded by Mr. Fred Morehouse. We wish both gentlemen success in their new spheres.

There is some talk in Centerville of the establishment of a local brass band. It is a project to be encouraged. What could be more enjoyable than some of our young men attired in smart uniforms discoursing sweet music on the new sharp on a summer evening.

There is getting to be a mighty pile of rocks on the beach ready to balist the new wharf. During the past few weeks teams have been very busy hauling. Our progenitors, who so industriously piled rocks on various parts of their farms, little thought that

one day they would be turned into money and become veritable precious stones.

## New Heating Plants.

NEW FURNACES RECENTLY INSTALLED IN THE I. O. O. F. HALL AND IN THE ACADEMY BUILDING.

A COUNCIL representative recently visited the basements of the I. O. O. F. Hall and school building for the purpose of looking over the heating plants recently installed.

In the I. O. O. F. Hall Dakin Bros. have just installed one of McLary's 650 Sunlight furnaces for soft coal, weight 2162 lbs. This furnace is described as follows: Heat radiator and fireproof dome solid cast iron. Patent gas mixing with fresh air inlet giving the fireproof an extra quantity of air. This air mixing with the gases over the fire, makes perfect combustion and does away with the dense black smoke, turning the same white. Large roomy ash pit, giving the grates plenty of ventilation. Hinged plate in front of feed door allowing the fire to be raked up without opening the feed door. This furnace is installed to heat the whole building. Galvanized cold air connections. The whole heating plant is under electric control. That is the manager of the hall can open and close all doors and drafts from his private office.

In the school building Dakin Bros. have installed a 500 Sunshine for hard or soft coal or wood, but not intended for the steady use of soft coal. This furnace is heating four rooms on the south side of the building. It has galvanized cold air connections to first and second floors.

The school now has two splendid heating plants. The other one, which is a Blazer furnace manufactured by the enterprise Foundry Co., of Amherst, installed last year by Mr. W. L. Holdsworth, and is heating three rooms on the north side. It also has cold air connections with the first and second floors and, like the Sunshine, is doing excellent work.

Superintendent of Bible School remembered.

A number of friends met at the home of Mr. and Mrs. L. H. Outhouse, Tiverton, on Wednesday evening, Jan. 8th, and presented him with a very nice chair as a token of his faithful work as Superintendent of the Bible school.

After the following address was read a very nice treat of ice cream and cake was served by Mrs. Outhouse. The evening was spent in music and games. Following is the address which accompanied the chair:

Dear Brother in Christ and Bible School Superintendent: We are very glad to ask you to accept this chair, as a token of our Christmas love, esteem and respect for you and your untiring efforts and labors of love in the past thirteen years in our Bible school.

We realize in a measure at least, what it means to discharge the duties devolving upon you as Superintendent of this school, especially when you are so old and experienced as you are. This is praiseworthy and the people have not been unmindful of their pastor and his wife. Ever since our coming, there has been expressions of sympathy and kindness in many what people might call small things, yet ministering very much to the encouragement of the pastor and comfort of his home. Ever since our coming, there has been expressions of sympathy and kindness in many what people might call small things, yet ministering very much to the encouragement of the pastor and comfort of his home. Amongst the many things a fine cup, a beautiful fountain, a very fine dog sled, a very fine horse sheds at L. H. George for sheltering the horses while the people are in their comfortable meeting houses for worship, large improvements on the church property (meeting houses) in every part of this field. ## DIGBY WEEKLY COURIER

Digby, Jan. 24, 1913

Victoria Beach Fishermen Saved.  
CAPT. HAYDEN AND CREW OF THE LIFE  
BOAT DARING MADE A BRAVE  
RESCUE IN THE SURF.

Herbert Taylor and Norman Apt, the two fishermen who were missing from Victoria Beach, were rescued from the breakers on the Bay Sunday morning. The rescue was made by the life boat of the Victoria Beach Life Saving Station, just in time to save their lives and their boat which also contained a valuable lot of fish. Capt. J. W. Hayden and his crew risked their lives in the bay three times on Tuesday endeavoring to locate the missing men and when they found them, the rescue was, indeed, a heroic one.

The boat fishermen had a terrible experience in the Bay and were about given up for lost by their relatives and friends. When the other boats returned home Monday night these men remained out to fish the high water slack about 9 miles off shore. They got their fish and were returning home when, about three miles out, their boat began to fill up by the heavy sea. They stopped their motor to bail out the water and the electric apparatus having got wet they were unable to again start their engine. They anchored, but at 2 o'clock Tuesday morning the line parted and from then until Tuesday afternoon they rode out the terrible S. W. gale with a drag made of two steel trawls. At one o'clock when the wind suddenly shifted from the north, they drifted back toward the Gut.

Seven miles N. E. of Point Prim they were spoken by the star, Yarmouth from Digby for St. John, but refused to leave their boat. Capt. Macdonald threw them a small sail which they were unable to get and they continued to drift towards the breakers until picked up by the Daring as stated above.

They had no food or water and were more or less exhausted from their terrible experience.

Mr. Lee Ellis, the popular keeper of Point Prim Light, stopped the Daring at the Yarmouth wharf for a time about 7 miles off shore and Capt. Macdonald promptly wired the COURIER on his arrival in St. John that he had spoken the men, but that they had refused to leave their boat.

Norman Apt had a similar experience 16 years ago when he was blown across the Bay almost to St. John when the wind changed and he again drifted across to Digby Gut, returning home without assistance.

## Married in Port Wade

A very pretty wedding took place at the Baptist church, Port Wade, on Tuesday evening, 21st when Rev. Mr. Cornwall united in marriage Mr. John O. Fleming, of New Germany, to Miss Eva M. Burke, eldest daughter of Mr. and Mrs. Howard Burke. As the bride's parents were unable to attend, the ceremony was performed by Miss Lottie B. Fleming, sister of the groom, the bride entered the church on the arm of her father, Miss Lizzie Burke was bridesmaid and Mr. William Burke acted as groomsmen. The church was prettily decorated for the occasion. The bride carried a bouquet of ferns and chrysanthemums. She was attired in a pretty suit of marquisette over silk. After the ceremony the bride and groom returned to the house where a bountiful repast was served. The groom's present to the bride was a pearl necklace and to the bridesmaid a handsome gold stick pin. A pretty arch of evergreen and ferns was erected in the parlor where the bride and groom received the congratulations of their friends. Many valuable presents to the bride attested to the esteem in which she is held in the community. Miss Dora M. Fleming, of Boston, attended the wedding and she and her sister Lottie B., sisters of the groom, will attend the bride and groom as far as Boston, on their honeymoon trip, which will be to Boston and vicinity and points of interest in New Hampshire. The bride's going away suit was of blue whipcord. The bride's party sailed on the 22nd by special trip of Port Wade ferry via St. John. On their return they will take up their residence at New Germany, Lunenburg Co. Their friends unite in wishing them "bon voyage."

## Death of an Aged Digby Lady.

Mrs. Lydia M. Burton died at 29 Quincy Ave., East Braintree, Mass., on her 93rd birthday. She was the widow of Thomas Burton, of London, England, and is survived by one brother William Roche, of Annapolis, N. S., several nieces and nephews; fourteen grandchildren and a large number of great-grandchildren. She was left a widow when only 33 years of age and has survived all her children, three daughters dying in infancy and three sons, George P. Burton, who died at Digby, Oct. 14th, 1892; Charles B., at Halifax in 1911, and William R., who died just one year ago at Weymouth, Mass.

The funeral service was held at her late residence on Sunday at 3 p. m., being conducted by Rev. Mr. Armstrong, of Quincy Episcopal church, with burial beside her son William at East Weymouth.

Mrs. Burton was well known in Digby, having resided for a number of years at the Burnham House.

## High Honor Paid Rev. Mr. Zwicker.

The Lockport, N. Y., Journal says: A high honor has been paid Rev. Henry F. Zwicker, rector of Grace church parish in this city, who this week was tendered a call to become Dean of the Episcopal Cathedral in Manila, probably the greatest institution of the church in the Orient. It is understood that Rev. Mr. Zwicker is giving consideration to the call and has laid the matter before the vestry of the church.

[Rev. Mr. Zwicker was at one time stationed at Sandy Cove and is well known in Digby and vicinity.]

## Wedding Bells in Yarmouth.

## Bear River Board of Trade.

ANNUAL MEETING HELD TUESDAY EVEN-  
ING—THE PRESIDENT'S REPORT.

The annual meeting of the Bear River Board of Trade was held on Tuesday evening, 21st inst. Officers elected: A. B. Marshall, President; G. T. Tupper Vice President; W. E. Read, Sec.-Treas. The Secretary-Treasurer was elected a delegate to the Maritime Board of Trade and W. W. Clarke, member of council.

The matters brought before the board were of interest and an adjournment was made until the 28th inst. to further consider and take action on unfinished business.

The retiring president, W. K. Tibbitt, presented the annual report as follows: To the Bear River Board of Trade.

GENTLEMEN:—As retiring president, it becomes my duty to submit for your consideration a report of the business activities of the year just closed. Viewed as a whole the business of the year has been one of steady growth. From interviews with the merchants of the town, I find the volume of business done during 1912 was in advance of 1911, and in some instances exceeded that of any previous year. The increase was largely due to the large tourist trade, which surpassed that of any former year, and which is still capable of further development.

Collectors during the year were good. Owing to the winter being steady, the export of lumber, piling and wood was fully up to the average, and in some instances above. The export of staves shows a steady increase.

Agriculture has made a steady advance, and our farmers are beginning to see that the soil of Eastern Canada can still be made to produce, even good crops of wheat; and as a sign that our farmers are looking to an increased effort along this line, we note the project for operating a flour mill in the County of Digby. There were abundant crops of hay, grain and roots; the yield of hay being almost up to the abundant crop of 1910; but the apple crop throughout this section, as well as through the province generally, was far below the average, being not more than 60 per cent of an average yield; while the quality did not exceed 35 per cent. Prices ruled low, especially in the English market; so that the season of 1912 has been hard on the man who depended in any large measure upon his orchard, and has again demonstrated the wisdom of mixed farming.

Our manufacturers show a healthy growth. Mr. Thelbert Rice has installed a compressed air plant and otherwise improved his granite works, and reports a considerable expansion of his business during 1912.

Mr. Clarke Bros. have added to their lumber mill, by installing machinery for making doors, windows, and all house furnishings.

A movement was started at our last annual meeting, looking towards the better lighting of our streets, and although the point aimed at has not been attained, there has been a marked improvement, both in the number of lights and in the quality. The company has installed a new 1000 light machine, extended the system and improved it generally, giving us a light which is second to none in the small towns of the provinces.

In reference to the proposed Bear River and Caledonia Railroad, we have to report that the charter has been renewed and is operative at the present time, and with the general feeling of future industrial activity in Eastern Canada, we look forward to the building of the road in the near future.

We cannot close this report without reference to the general feeling of optimism, that prevails throughout Eastern Canada, that we are entering upon a period of renewed industrial activity. If so, let us be ready to go on with the tide.

## A Good Letter

Mr. Leander Ellis, keeper of Point Prim light and fog alarm recently received the following letter from Mr. C. F. Burns, a former Digby merchant who for the past several years has resided in Moncton:

Mr. Leander Ellis, Point Prim, Digby: Dear Mr. Ellis:—The Digby COURIER brings me the sad news of your death. I feel, as a man who was privileged to know your father from my boyhood, that I cannot allow the occasion to pass without tendering to your mother, yourself and the other members of the family, my sincere sympathy in this, the time of your sad bereavement. I know your father as I have said, intimately for many years and for some eighteen years had close business dealings with him and I can assure you that today in looking back over the past I cannot recall any man whom I found more honorable in all his dealings; than was he. A loyal friend, a faithful officer and a good husband and father who has left behind to you boys and girls a legacy not of riches but of a life well lived and of duty well performed. I also see by the same paper that your mother is ill. I trust this letter will find her improved health. With best regards I am, Yours very sincerely, C. F. Burns.

## Jealous Husband.

ONTARIO MAN TRIES TO KILL HIS WIFE, AND THEN SUCCEEDS IN SLAYING HIMSELF.

CLARENCE CREEK, ONT., January 20.—Creeping up stealthily behind his aged wife, Wm. Gauthier, of Orient, Ont., 65 years of age, armed with a small nail hammer and actuated by jealousy, raised his hand and brought it down with a tremendous force on the aged grey head of his wife. Then he raised it again and a second time struck her just over the eye. She fell from her chair unconscious. Apparently fully cognizant of what he had done, the old man went to his room, penned a farewell letter and killed himself with a razor. First he attempted suicide with the hammer but in this he failed and so took a razor from a case and sitting on the bed deliberately cut his throat, the cuts being fatal. Soon after the wife recovered consciousness and with her bleeding face and bloody hair struggled to the door and out into the street, calling pitifully for help. Help came from the post office on the opposite side of the road and the horrible tragedy was then first revealed. The tragedy took place Friday afternoon Mrs. Gauthier is fifty-four years of age and there are five boys and three girls of the marriage. A sudden attack of insanity is believed to have caused Gauthier to attempt the murder of his wife. Mrs. Gauthier's condition is serious as her skull is fractured in two places.

## Three Perish in Tenement Fire

ELIZABETH, N. J., Jan. 19.—In a fire believed to be of incendiary origin in a frame tenement house here today, a woman and her two children were trapped on the third floor and burned to death. Two men were injured, one probably mortally, by jumping from a third story window.

Mrs. Louis Shiro and her two daughters, two months and four years old respectively, are dead. Rafael Murillo, a boarder, is in a hospital in a critical condition. The charred bodies of mother and children were found in the ruins.

## For Emergencies.

In some of the college settlements there are penny savings banks for the children.

One Saturday a small boy arrived with an important air and withdrew two cents from his account. Monday morning he promptly returned the money.

"So you didn't spend your two cents," observed the worker in charge. "Oh, no," he replied, "but a fellow just likes to have a little cash on hand over Sunday."

## Forty three Lost Their Lives.

Oronto, Jan. 17.—Forty three lives lost is the toll of the Lamport & Holt liner Veronesi wrecked near Leixoes Thursday in a heavy gale. There were 234 persons aboard the vessel—112 passengers and a crew of 92. Of those 191 were saved. Five persons died aboard the steamer from exposure: 38 were swept off by the seas, or perished while being transferred ashore by the life lines.

## SHE FAINTED WITH THE AGONY

"Fruit-a-lives" Cured Her Kidneys

MISS MAGGIE JANNACK

MOUNTAIN, ONT., DEC. 14th, 1910. "I desire to let the world know the great debt I owe 'Fruit-a-lives' which saved my life when I had given up hope of ever being well again.

For six years, I suffered from dreadful Kidney Disease. My legs and lower part of my body were fearfully swollen. The pain in my side and legs would be so bad that I would faint with the agony.

Five different doctors attended me and all said it was Kidney Disease and gave me no hope of getting well. A kind neighbor visited me and mentioned the case of Mrs. Penwick who had been cured of a sickness like mine. I took 'Fruit-a-lives' and in a short time, I began to feel better—the swelling went down—the pains were easier—and soon I was well.

I have gained over 30 pounds since taking 'Fruit-a-lives'—and my friends look upon my recovery as a miracle." (Miss) MAGGIE JANNACK.

'Fruit-a-lives' are sold by all dealers at 50c a box, 6 for \$2.50, trial size, 25c.—or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

## WOMEN TAKE NOTICE!

A man cannot understand the torture and suffering many women endure uncomplainingly. If the majority of men suffered as much pain and endured with patience the weakening sicknesses that most women do, they would ask for immediate sympathy and look for a quick cure.

Many women have been saved from a life of misery and suffering by turning to the right remedy—Dr. Pierce's Favorite Prescription—a remedy which is safe to take because containing no narcotics, alcohol or injurious ingredients. It is an effective extract of roots, made with pure glycerin, and first given to the public by that famous specialist in the diseases of women—Dr. R. V. Pierce, of the Invalids' Hotel and Surgical Institute of Buffalo, N. Y.

Mrs. Lizzie M. Hennessey, of Lincoln, Neb., 629 "C" St., says: "I send a testimonial with much pleasure so that some suffering woman may know the true worth of your remedies. I was a great sufferer from female troubles but after taking one bottle of Dr. Pierce's Favorite Prescription, which a friend advised me to take, I found myself very much improved. After taking three more bottles, and using two boxes of Dr. Pierce's Lotion Tablets, I found myself on the road to recovery. I was in poor health for five years but now I am cured. I hope all women suffering from female weakness will give Dr. Pierce's Favorite Prescription a fair trial."

Doctor Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

## Not What He Ought to Be

He dropped into his hall-kag seat  
One night in Stokos' store:  
His weathered and bowlered face  
A sad expression bore.  
He was a pessimistic soul,  
He thought was aware;  
And really couldn't see no good  
In people anywhere.

Herm Stokos, the grocer, was a man  
Good natured to the core.  
An' allus had a word uv cheer  
For patrons in his store.  
He asked Of Amos 'bout his health,  
An' Amos, he says, says he:  
"Although my health is purty good,  
"Tain't what it orter be."

Herm spoke uv politeries an' sech  
"Ea cheery ex could be."  
Amos made a face, an' sighed, an' said:  
"Tain't what it orter be."  
An' bliss in Of Gungywamp  
He loved was up a tree;  
"Although it's purty fair," he says,  
"Tain't what it orter be."

Herm spoke uv this an' spoke uv that,  
The other an' school an' all;  
Amos' face took on a dismal look  
Just like a sullen wall.  
"They may be good enough, he says,  
His nature, plain to see:  
"But all the same ain't none uv 'em  
Just what they orter be."

Herm Stokos he couldn't stan' no more  
An' brought his fist 'kewaw!  
Down on the counter good an' hard—  
Amos jumped like he was shot.  
"Amos Green," he said, you make me tired,  
It kinder seems to me  
The world is good enough, but you  
Ain't what you orter be!"

## Home Bank Gets Control

MONTREAL, Jan. 22.—The official  
announcement was made this evening  
that the Pellatt syndicate, which had  
accumulated 75,000 shares of the  
International Bank, had sold out to  
the Home Bank of Canada, and that  
G. Bird, formerly general manager of  
the International Bank, has been ap-  
pointed supervisor of branches for the  
Home Bank in the province of Quebec.  
The formal transfer will be made in  
a week or two and the official state-  
ment is also made that the Home will  
have at least two resident directors in  
this city, as that institution has  
been endeavoring to get a foothold in  
the province for some time past.

About the time the announcement  
was made Judge Leet dismissed the  
case in the police court instituted by  
Mr. Decout, of Paris, charging Bird  
with making a false return to the  
government.

This morning John Knight, secre-  
tary of the Bankers' Association, and  
Chief Accountant Muir, of The Mer-  
chants, went before Judge Leet and  
assured the magistrate that there was  
nothing wrong with Mr. Bird's report  
and that any bank manager would  
have done the same thing, hence his  
honor's decision in declining to issue a  
warrant.

## Another Foolish Flag Incident

Details of how several residents of  
Greenwich, Conn., attempted to have  
him arrested for not flying the Ameri-  
can flag aboard his vessel on Christ-  
mas Day were told yesterday to a New  
York Herald reporter by Captain  
Stewart Salter, commanding the  
British schooner Silver Leaf, of Par-  
sboro, N. S., which arrived there  
Christmas Eve.

"Christmas Day" said Captain  
Salter, "I dressed ship, flying the  
British ensign at the mainmast, with the  
Jack at the fore and burgee at the  
main. What was my surprise when  
persons began to gather on the pier  
at which we lay, making all sorts of  
remarks about the absence of the  
American flag.

"As a British ship, the Silver Leaf  
had no right to fly an American en-  
sign anywhere but at her foremast. I  
flew no foreign flags of any sort.

A youngster of my acquaintance  
while warming his hands over the  
kitchen fire the other morning, was  
remonstrated with by his father who  
said: "Go away from the stove the  
weather is not cold."

The little fellow looked up at his  
stern parent and demurely replied: "I  
ain't heating the weather; I'm warm-  
ing my hands."

## A Question of Time

"Hello," exclaimed an anxious guar-  
dian to his niece, as he entered the  
parlor and saw her on the sofa in the  
arms of a swain who had just popped  
the question and sealed with a kiss.  
"What is the time of the day now?"  
"I should say it was about half past  
12, or nearly one" was the cool reply.

## Delaying The Game

"That maid reminds me of you,  
when you first started in to play cards  
dear," said her husband at the table,  
when the girl was a long time bring-  
ing in the birds for dinner. "Why,  
how so?" inquired the wife. "She's de-  
laying the game."

## An Important Query

Elderly Aunt—My dear, I have  
just put you down in my will for \$10,  
000.

Her niece—Oh, auntie, what can I  
say to thank you! How are you feel-  
ing today?

## Plenty of Room Later

Bumble—Why didn't you get on  
the water wagon?  
Bumble—No seats left.  
Bumble—Oh, well, if you persist in  
the notion, you will find a seat later.

## Then the Temperature Fell

Wifey—I think it's wicked to throw  
away money on Christmas gifts.

Hubby—That's what I used to  
think until you stopped buying neck-  
ties for me.

## A concrete milk-house makes milk worth more

PEOPLE are willing to pay more  
for milk that comes from a clean,  
sanitary dairy. In nearly every  
city such dairies charge from 50 per cent. to  
100 per cent. more than others—and even then  
they can't supply the demand for pure, high-  
grade milk. You will get more value out of  
your cows if you properly cool and store the  
milk. Such milk is not only more wholesome  
—and therefore can be sold for a better price  
—it is also slower to sour than milk handled by ordinary methods. Ask for the free book,

## "What The Farmer Can Do With Concrete"

IT will tell you how to build a concrete milk-house, and also describes scores of other uses  
for concrete around the home and on the farm. It is not a catalogue. Its 160 handsomely  
illustrated pages are devoted entirely to the subject—in which every progressive farmer is  
interested.

## ONTARIO WOMAN'S FORTUNE

Freed From That Weak, Languid, Always Tired Feeling, by Lydia E. Pinkham's Compound.

Thessalon, Ont.—“I cannot speak too highly of your medicine. When my appetite is poor and I have that weak, languid, always tired feeling, I get a bottle of Lydia E. Pinkham's Compound, and it builds me up, gives me strength, and restores me to perfect health again. It is truly a blessing to women, and I cannot speak highly enough of it. I take pleasure in recommending it to others.”

Mrs. ANNIE CAMERON, Thessalon, Ont.

Women who are suffering from these distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

There are probably hundreds of thousands, perhaps millions of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over 30 years ago by a woman to relieve woman's suffering. If you are sick and need such a medicine, why don't you try it?

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## DIGBY WEEKLY COURIER

Digby, Jan. 31, 1913

## CIVIC IMPROVEMENTS.

This is a day of civic improvement. The evidence is to be found in almost every town and village in Canada and the United States. It is in keeping with the spirit of the age.

The dwelling and premises of the average citizen of the country are better and more carefully kept than formerly. As a general thing the average property holder tries to improve his immediate surroundings, and so render the whole more attractive. With this comes the advance in value, the greater demand for real estate and the better return upon the amount invested therein.

The municipality, composed of individuals, not unnaturally takes on the spirit of its inhabitants, and the improvement in public buildings, streets and parks follows, the town or village looks better, cleaner, more attractive, and is well spoken of for that reason.

Of late years, the towns in the Maritime Provinces have been doing much to improve their appearance. Citizens and civic bodies have alike taken an interest in doing what could be done to this end with, in many cases, admirable results.

One of the chief forms of improvement has been in the way of betterment of streets and sidewalks. No town can today afford to be behind in this progressive step.

Concrete has largely replaced the old oak or plank sidewalk, and crushed rock is being laid down on the principal roadways of many towns in Nova Scotia.

Those towns which have gone to work in a business like and systematic way, are finding that the work of improvement can be done without excessive cost.

Proper plans are prepared; levels run; drainage provided, and the building of streets and sidewalks undertaken, each year showing an addition to the work.

In the case of concrete sidewalks the cost is borne partly by the town and partly by the property fronting there on. In the case of streets, the expense is borne, as a rule, wholly by the town.

By systematic and regular work much can in this way be done without adding seriously to the rates of those benefiting by the improvement, while properties, the value of which are enhanced by the betterments contribute a share towards the cost.

The towns of Bear River, Digby and Weymouth have to contend with the difficulties which arise from hills when dealing with the problem of street improvement. The steep grades add to the cost of maintenance of streets and sidewalks, and in a sense bring the matter of permanent work to the front for that reason.

Weymouth and Bear River have found it advantageous to use plank sidewalks. Digby has for years used ash and gravel, but with results not altogether satisfactory. The surface is frequently soft, and during wet weather anything but pleasant to travel over.

All three towns are popular summer resorts—Digby especially so; but they can do much more of this class of business if they do those things towards local improvement which other towns throughout the Maritime Provinces are doing.

For the tourist business which Digby has developed the town, as such, has done comparatively little. It has been built up by the efforts of a comparatively few individuals. If it is to be retained and increased the time is drawing near when a forward step in the matter of sidewalks must be taken, and the subject should engage the early and serious attention of the town council and citizens.

## Digby has a Cricket Club.

At a meeting held in the Royal Hotel sample rooms Wednesday night, a cricket club was organized with the following officers: President, A. L. M. Swaby; secretary, F. L. Anderson. It was decided to hold a cricket match on Tuesday evening, March 11th. Cricket is a splendid game and we trust that the new organization will meet with as much success as the old cricket club, which at one time held the championship of Nova Scotia. All our boys require is a little encouragement from our citizens and we believe they will win many laurels for our town.

## An Enterprising Firm

We wish to call particular attention to the advertisement of the James Elliott Company, dealers in gasoline engine supplies and marine hardware, St. John, which appears in today's Courier. The firm has issued a very attractive and useful catalogue which we would advise those interested, to procure at once, mentioning that they saw this notice in the Courier.

## Farmers Meetings

A farmers' meeting will be held in Bear River on Wednesday evening, addressed by Alfred Boden, W. A. Bacon and D. C. McKay.

Another meeting will be held in Acadiaville on Saturday, the 8th inst., addressed by James Trevis, E. J. Warner and W. W. DeLong.

These meetings promise to be very interesting and should be largely attended.

## New Bowling Alley.

Mr. W. J. Oshorn has just completed a new bowling alley at the rear of his barber shop situated in an annex 40x21, built under the superintendence of Mr. George Keen. This was opened to the public Monday night and is proving a busy place. The four highest scores this week are: Edward Webster 124, C. F. McBride 122, Hedley Dakin 118, Ralph Dakin 108.

## OF A LOCAL NATURE

—Rev. T. S. Roy will preach at Roxville on Sunday afternoon at three o'clock.

—Subscribers requiring a change of address must give us their old address, in order to have the matter promptly attended to.

—Owing to the rush of mail business between Digby and Halifax three postal clocks are required as far as Digby and two to Yarmouth. One of the men therefore remains here over night.

—In the Baptist church next Sunday morning the subject will be "A New Creation," in the evening "Weigh in the Scales." There will be a live radio service at the beginning of the evening service.

## The Digby Board of Trade.

ANNUAL MEETING HELD WEDNESDAY NIGHT—OFFICERS ELECTED.

The annual meeting of the Digby Board of Trade was held Wednesday night, Dr. DuVernet, vice president, occupying the chair in the absence of the president, Mr. E. E. Warner, who was confined to his house with a cold.

Considerable business of importance was transacted, committees reported, etc.

The following officers were then elected for the ensuing year: President, T. E. G. Lynch; Vice President, F. W. Holdsworth; Secy-Treas., F. W. Nichol.

Councillors: H. B. Short, J. L. Peters, D. Sproule, O. S. Dunham, H. T. Warner, Dr. W. F. Read, Dr. E. DuVernet and James A. Taylor.

Auditors: C. Fred McBride and Capt. J. Wyman.

The way to obtain better roads was discussed at some length and the secretary was instructed to write the secy. of the Annapolis Board to confer with them in this important matter which is already before the various Boards in Annapolis county.

Matters of great importance will be brought before the meetings of the board during the spring and summer months and we would advise all our citizens to become members and regular attendants at the meetings.

## Wedding at Smith's Cove.

On Wednesday morning, January twenty-second, a very pretty wedding took place at the home of Mrs. Cynthia E. Cossett, Smith's Cove, when her only son, Frank E. Cossett, was united in marriage to Miss Bessie Lee Williams daughter of Mr. and Mrs. William Nichols of Digby. The bridal couple entered the parlor to the strains of Lehigh's wedding march, which was rendered by Mrs. Edward Young of Brighton. The bride, who was unattended, was prettily attired in white silk, with the wedding veil and wreath of orange blossoms. The very impressive ceremony was performed by Rev. J. S. McEwen, of the Smith's Cove Baptist church, in the presence of about fifty invited guests. At the conclusion of the ceremony, a sumptuous luncheon was served. Mr. and Mrs. Cossett were the recipients of many beautiful gifts in silver, cut glass and linen. The groom's gift to the bride was a gold watch. After the happy couple were driven to the station in one of Wm. Cossett's stylish turnouts, where they were met by a number of their young friends. Amid showers of rice and confetti, they left on the east bound train, en route for Halifax, where they will spend a week or more. The bride's going away suit was a very fine broad cloth.

Mr. and Mrs. Cossett will be at home to their friends, on the evenings of February, fifth and sixth, at the residence of the groom's mother.

We regret to chronicle the sad death of John Howe Savary, who passed away on his thirty-first birthday, Tuesday, Jan. 28th, at Regina, the result of a shooting accident, which took place the day before. The deceased, who is the youngest son of Judge Savary, of Annapolis, was born in Digby, and many friends here who will regret to hear of his death. He is survived by his father and two brothers, Rev. Thomas W., rector of St. James church, Kingston, Ont., who is accompanying the remains to Digby, and H. P. O. Savary, barrister in Calgary. His only sister died some years ago. The deceased was a popular member of the Bank of Ottawa staff at Regina and his sudden death has cast a gloom over a large circle of acquaintances in that city. Services conducted by Canon Pratt, of Stoughton, and Rev. Mr. Garth, took place at the residence of F. K. McKee, in Regina, last night. The remains were conveyed to the C.P.R. train and will arrive here via Tuesday's boat from St. John. Interment will take place in Forest Hill Cemetery, Digby, the service being conducted by Rev. William Duffield, rector of Holy Trinity Church.

## Death of Miss Jessie A. McKay.

Miss Jessie McKay died at her home, Queen street, last Friday morning, after suffering more than a year with bronchitis, aged forty-four years. She is survived by an aged mother, Mrs. George McKay, who is seriously ill; three sisters and one brother. The sisters are: Mrs. Belle Morse, and Miss Annie in Digby, and Leslie McKay, of Rosaroy. Miss McKay was a member of the Sydney St. Christian church and was highly respected by all who knew her. ## Report of Principal Hoggs

READ AT THE LAST REGULAR MEETING OF THE SCHOOL BOARD.

To the Board of School Commissioners: GENTLEMEN,—I have much pleasure in submitting to you a report of the various departments of Digby Academy for the past year.

The attendance and standing for the year ending July 1912 were as follows:

Department	Grade	Enrollment	Average Attendance
Primary	I to III	80	42.4
Intermediate	IV to VI	51	35.8
High School	VII to VIII	40	30.0
Academic	IX, X & XI	31	23.1
Totals		314	208.6

This is about our average percentage of attendance, which would be much larger were it not for the fact that many of the primary pupils come from a considerable distance, and find it almost impossible to attend regularly during the winter months.

The following are the grading results of the eight common school grades:

Grade	No. of pupils passed
From I to II	20
II to III	20
III to IV	23
IV to V	22
V to VI	22
VI to VII	13
VII to VIII	11

In the High School grades 10 candidates out of 21 made the required average in the grade opened for the year, X, 4 out of 7; Gr. X, 4 out of 5; Gr. IX, 8 out of 9.

As the educational department has discontinued the publication of the marks, it is not possible to compare standing, but 435 in Gr. XI and 430 in Gr. IX (both on six subjects) are not very far below the best. Six out of the 31 pupils enrolled in the Academic Department were from outside sections.

The usual number of prizes were awarded for excellence in School work. There were also 10 prizes awarded to as many pupils for perfect attendance. The library is fully catalogued, is in constant use, and the number of volumes is constantly increasing. This year an important addition has been a set of encyclopedias. The chemical apparatus has also been kept up to the usual standard.

As a result of the extensive improvements made from time to time, the school building is in good working order, the physical condition than formerly. The new furnace has so far given good satisfaction, while the insertion of cold air pipes from each room assists in removing the impure air and supplying a quantity suitable for breathing purposes. The congestion in the primary department last year has been effectively relieved by establishing and equipping an extra department which is under the control of an efficient teacher who is doing satisfactory work.

A cadet corps has been organized among the older boys, which, apart from its military aspect, will serve a useful purpose for physical and mental development, and for esprit de corps. The proceeds of the recent school concert have provided a fund for uniforms. The present staff of teachers are capable and painstaking and have the welfare of their pupils at heart. On their behalf I wish to thank you for all assistance and encouragement in the past, and to assure you that our ambition is to assist the boys and girls to become intelligent citizens.

Yours respectfully,  
N. W. Hoggs, Principal.

## FATAL ACCIDENT

John Tobo Struck by a C. P. R. Locomotive Friday Night.

WAS RUNNING TOWARD DIGBY ON A RAILROAD VELOCIPED—LIVED BUT A FEW HOURS AFTER THE ACCIDENT—RAILWAY NOT TO BLAME—VERDICT AT CORONER'S INQUEST.

One of the worst accidents that has ever occurred on the D. A. R. in this vicinity took place about 5:30 Friday night. John Tobo, section man, was returning home from his day's work on a hand car. C. P. R. engine No. 315, left a construction train and was running to Digby, tender first, for water, in charge of driver Robert Hubbard, who had with him, Clifford Herbert, fireman, and Taylor, brakeman. The engine struck Tobo's car on a blind curve just west of the Little Joggins bridge, crushing his right leg below the knee, breaking his right arm and severely injuring his head and body. He was tenderly picked up by the engine crew and brought to the Digby station where he was attended by Drs. Read and DuVernet. He was afterwards removed to Joseph Raymond's house where these physicians, assisted by Dr. W. C. Harris, of Barton, amputated his right leg and did everything they could to save his life, but he passed away at midnight.

He was conscious after the accident and said he did not hear the train coming. His foreman, Mr. James Robinson, warned him not to proceed to Digby ahead of this engine which usually came in every night for water, but he replied he would look out for her.

An inquest was held before Coroner John Daley, Saturday afternoon. After the engineer, fireman, brakeman, foreman of the section and others had been examined, the following verdict was returned:

We, the jury, empanelled to inquire into the death of the late John Tobo, section man on the D. A. R., who died at 12 o'clock this morning, from the result of an accident on the Dominion Atlantic Railway which occurred about 5:30 p. m. on Jan. 26th, 1913, have carefully examined the evidence available and find that the said John Tobo, deceased, was struck by the tender of C. P. R. engine No. 315, while running tender-first towards Digby for water, (about 250 yards west of the little Joggins bridge) while the deceased was also running in the same direction on a hand car, and that the said men on the engine were using proper precautions and in our opinion no blame for the accident can be fastened to the railway employees.

Digby, N. S., Jan. 23, 1913.

John Tobo was 44 years of age. His home was at the Neck crossing, near Keon's Bridge. He leaves a wife, six sons and two daughters, one half brother and one sister. He was a native of Gilbert's Cove and a member of Court Barton, Independent Order of Foresters.

The funeral took place from J. E. Rice's undertaking rooms Monday afternoon, the remains being conveyed by train to North Sackville where interment took place. The services were conducted by Rev. Thomas S. Roy, pastor of the Digby Baptist church. Those immediately connected with the burial were returned to Digby by special trolley in charge of section foreman Robinson.

The floral tributes were numerous. Mr. Tobo had been employed on the railway for more than twenty years and his fellow workmen are planning to erect a suitable monument over his grave.

Mrs. Tobo wishes to thank all who have been so kind to her and family, and especially Rev. Mr. Roy.

The railroad officials, the attending physicians, Mr. and Mrs. Joseph Raymond and everyone did all they could to assist the unfortunate man from the time of the accident until his death.

## Death at Deep Brook.

AN AGED AND HIGHLY RESPECTED LADY HASTENED AWAY.

Emma J., wife of Capt. W. V. Spurr, died at her home in Deep Brook early Wednesday morning, aged 76 years, having been ill but six weeks. She is survived by her husband, seven sons and three daughters: Capt. William E. John D. Deep Brook; E. W., New York; Messrs. S. A., of Sydney; Robert and George, of Deep Brook; and Roy, Fort George, B. C.; Mrs. E. W. Rice, Deep Brook; Miss E. Blanchette, Pictou; and Miss Grace, recently returned from Winnipeg.

Mrs. Spurr was a daughter of the late Mr. and Mrs. John Dumas, Deep Brook. She was a member of the Baptist church, was highly respected by a large circle of relatives and friends, and her death will be keenly felt for a long time in the community in which she resided.

The funeral took place this afternoon at 1:30 with interment in Smith's Cove, the services being conducted by Rev. John McEwen.

The Courier extends its deepest sympathy to the bereaved ones.

## Civic Nominations.

Tuesday was nomination day in all incorporated towns throughout the province. The result in Digby was as follows: For Mayor, H. B. Short; for Councillors, C. A. Jordan, T. E. G. Lynch, J. F. Rice and H. T. Warner. Therefore there will be no contest for Mayor, as there will be no election for Councillors, four being nominated for the three vacant places. The election takes place next Tuesday. The three receiving the most votes will be elected and the lowest one on the list defeated. As yet there is very little interest taken in the contest and it is thought that the vote polled will be a small one.

## Yesterday Morning's Fire.

An alarm was rung in at seven o'clock yesterday morning for a slight fire in the interior of the building, known as Churchill's stable, thought to have been accidentally set by a tramp. Prompt service of the fire company saved the building and its contents, which consisted of several automobiles, carriages, etc.

## S. S. Pastores in Boston

NOISY WELCOME FOR COMMONWEALTH HENSHAW AND HIS NEW STEEL STEAMER

(Boston Journal Jan. 15.)

Greeted by the tooting of every steam whistle in Boston harbor, the new steel steamship Pastores of the United Fruit Company's line reached Boston yesterday from Belfast after one of the roughest passages of the season. She is the largest vessel ever constructed for service in the tropics.

A full grown hurricane, in which, Capt. Henshaw avowed, the glass dropped 27.85, the lowest mark he had ever heard of, and the wind blew 100 miles an hour, occupied the attention of all on board last Thursday. The new ship acquitted herself wonderfully, however, and rode the gale with out the least trouble.

When she tied up at her berth the Pastores had the distinction of being the longest vessel that ever docked at Long Wharf. She is 500 feet long and has a gross tonnage of 9000.

When the Pastores, in charge of

ing has a hinged door with self locking appliance and is opened only when shipping or unshipping baggage. By this means trunks can be taken into the rooms without passing through the door, and in less time.

A swimming pool, palm court and garden cafe are also included in the up to date make up of the steamship's interior.

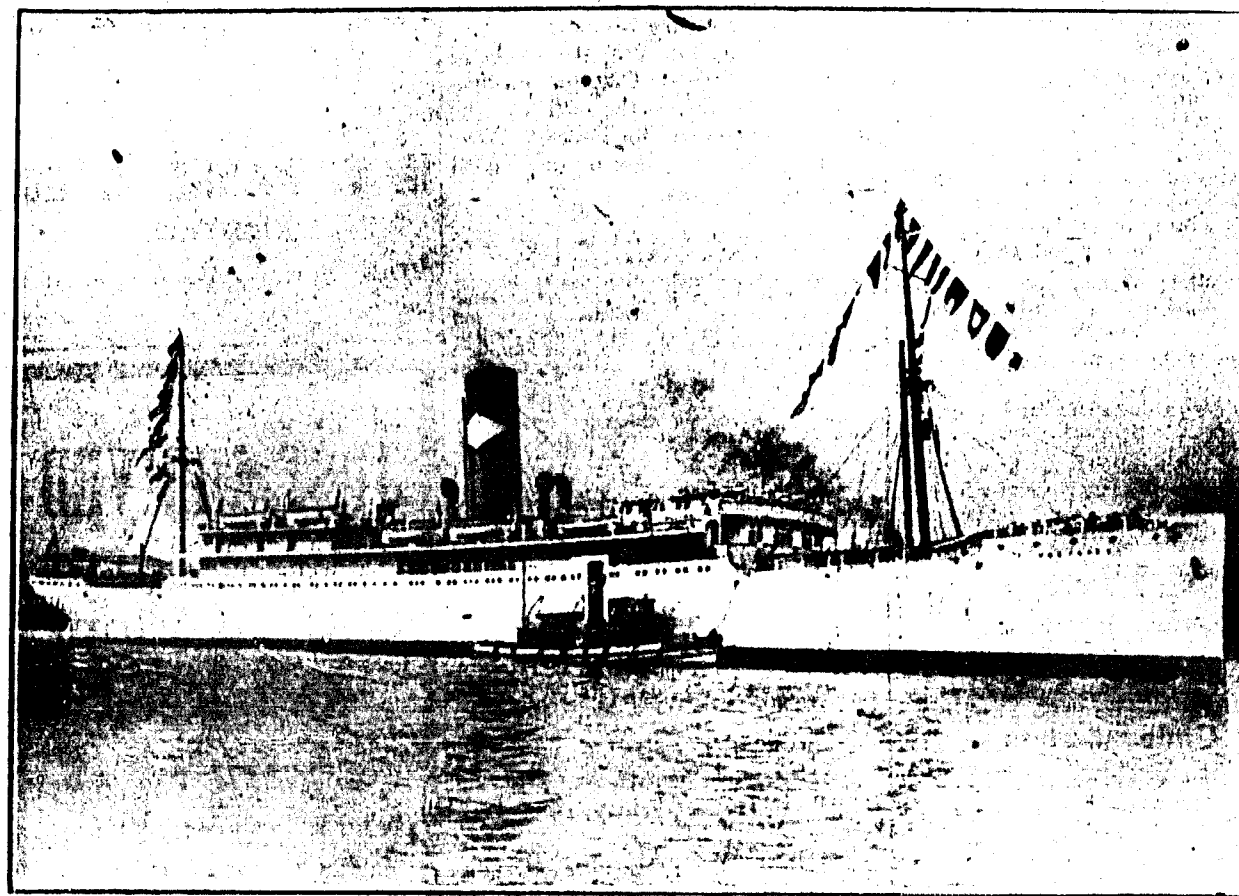

## Centerville

Rev. Mr. Crandle is holding a series of services in the Baptist church which are much appreciated.

Mrs. Scott D'Arny gave a quilting party last Wednesday which was largely attended and all thoroughly enjoyed themselves.

We are pleased to see Mr. Lionel Dakin back again from Halifax after undergoing an operation and sincerely hope that he may make a complete and speedy recovery.

Mr. Morton chartered seven or eight ox teams to Digby during last week. Thus Centerville, by sending her surplus fish to Digby, is helping

THE UNITED FRUIT COMPANY'S NEW STEEL STEAMER, PASTORES.

Capt. H. A. Henshaw, commodore of the fruit company's fleet, and gaily decorated with the flags of the international code, arrived in the harbor, she was at once greeted by every vessel she passed. Her progress through the outer harbor was noisy. In the inner harbor, with the whistles of each tug, ferry, lighter, harbor

that town by providing work for its inhabitants in the preparation of the fish.

The steamer Centerville arrived Friday with a full cargo of general merchandise and returned to St. John on Monday with several hundred cases of fish prepared in different ways.

We regret to announce the death of the infant son of Mr. and Mrs. Vernon Dukeshire. We tender the young parents our sincere sympathy on the death of their firstborn.

There was a pie social at Waterford on Saturday evening last. Unfortunately the weather was very inclement, but the young people not to be outdone, chartered Mr. Robbins' ox team and with a sail cloth overhead made the journey and had a good time.

I was reading the other day the cost of hauling a ton one mile in Europe is seven cents; in America it is twenty-five cents; from Centerville to Digby it works out at thirty-one and a quarter cents. What is the cause of the difference in the cost? The answer is bad roads. The Digby Neck road at the present time is simply vile and in places is positively unsafe to drive over at night. It is high time the people took the matter up and agitated for the construction of a proper road the whole length of the Neck, probably a cement road would be about the best, considering that the greater part of the Neck road is practically on a mountain side and subject to the wash from the mountain. At the present time in England there are two such roads, the Fosse and the Watling roads built by the Romans nearly two thousand years ago and still good roads. These roads, however, were not built by statute, labor but most likely by Saxon slaves who probably had the business end of a Roman soldier's spear in close proximity to the other part of their anatomy to keep them at it.

At a meeting of the Bear River Branch of the League for the Protection of the Feeble-minded, held in the janitor's room of Oakdene school on Monday evening, the following resolution was unanimously passed:—Whereas, feeble-mindedness is now well recognized to be a common affliction, prejudicing the interests of every family in which a case develops, menacing the morality of communities in which unprotected feeble-minded children live, and tending to cause a gradual deterioration of the race and a corresponding increase in the unit and dependent classes; And whereas, it is generally conceded that the interests of the feeble-minded as well as of the community at large demand that the feeble-minded should be segregated and trained and cared for in specially equipped institutions; And where, as, no proper attempt is being made to segregate and protect those who are so afflicted in our Province; Therefore resolved, that the attention of the Government and Legislature of Nova Scotia be directed to the present deplorable state of feeble-minded persons in this Province, with the recommendation that active steps be taken at once to ameliorate their condition. Further resolved, that a copy of this resolution be sent to each member of the Provincial Government. A copy of the resolution as above, signed by the officers of the league, will be forwarded at once to the Provincial Government. It was resolved that copies of this resolution be presented to the Odd Fellows and Masonic Lodges with a request that each organization adopt a similar resolution and forward it to the government.

## Death of Elvin A. McDonald.

A FORMER PLYMPTON MAN PASSES AWAY IN THE WEST

The death of Elvin A. McDonald occurred on Tuesday, January 14, 1913, at 3:45 p.m. at his home 1025 Forty-six Ave., southwest Seattle, Wash., after an illness of only three weeks, which from the diagnosis of four leading and able physicians seemed to be a tumor of growth in the region of the liver, but which later was discovered to be abdominal tuberculosis. Doubt of his recovery was expressed by the physicians from the beginning which was later confirmed by the rapid decline of the patient in the second week of his illness. He was able to work up to Saturday, Dec. 21st, and on Sunday, the 22nd, he attended the West Side Baptist church of which he was a deacon and treasurer. By the first of January it was apparent that he was in the grasp of some malignant disease. Upon being told that he was not to recover he became resigned to the inevitable fate that awaited him and sent farewell messages to brothers and sisters and friends. He had no fear of death whatever. He also made requests about his funeral and burial which were carried out as he desired. He died as he had lived, with the Lord Jesus ever in his mind.

The physicians in attendance desired to hold a post-mortem to determine the exact cause of death. Their request was granted and the result disclosed a very advanced condition of abdominal tuberculosis.

He left a widow, Myrtle A. McDonald, an only daughter, Mrs. Chas. Keith, and six brothers and four sisters in mourning. The deceased was born at Plympton, in July 1880, and was the sixth son of Lewis and Charlotte McDonald. The remaining brothers and sisters living are Chas. R. McDonald, Chicago, Ill.; Mrs. Agnes Potter, Leonard McDonald and Mrs. Eva Everett, Malden, Mass.; Mrs. Levi Ring, Gloucester, Mass.; John McDonald, Weymouth Bridge, N. S.; George and Alexander McDonald and Mrs. Alfred Warner, Plympton, N. S.; and Millard F. McDonald, Seattle, Wash.

## The Bear River Board of Trade.

AN ADJOURNED MEETING HELD LAST TUESDAY EVENING

The adjourned meeting of the Board of Trade was held Tuesday evening to finish business laid over from the meeting a week before. The committee on street lighting reported progress. Considering the fact that we have one of the best lighting plants in the province the Board felt it in the best interests of the town that the intention of the Act should be carried out and instructed the committee to take steps to bring the matter to public notice.

The several matters relative to some changes in railway station accommodation as well as improvements in the public road service were referred to a committee for further information to report to the Board within thirty days.

Steps were taken to place sign boards at certain places in the travelling public to give information to the travelling public. Educational matters received the careful attention of the meeting, the manual training and domestic science being discussed at some length. The information given showing conclusively that it is practically a necessity to the best training of the rising generation as well as the best interests of the community at large to place ourselves in a position to reap this advantage. Further information on this matter will be laid before the Board at next meeting to be held within thirty days.

There was quite a large attendance at Tuesday night's meeting and an optimistic progressive spirit manifested, yet there was a feeling of regret that some of our prominent citizens take so little interest in public affairs that they absent themselves from meetings of the Board of Trade where matters of common interest can be discussed. No town either east or west can be built up or even helped, by its citizens taking such an attitude.

## Double Wedding and Christening at Needham, Mass.

A very pretty wedding took place at the bride's parents' Mr. and Mrs. Isaiah Marshall, formerly of South Range, N. S., when their third daughter, Miss Oressa D., was united in marriage to Mr. Mitchell Morgan, of Barre, Vt. The fourth daughter, Miss Glennie L., was also united in marriage to Mr. Frank W. Littlehale, of Portland, Maine. Mrs. Provenchias acted as bridesmaid, and Mr. Provenchias acted as best man. The groom's parents to the bride were a gold watch and chain.

The ceremonies were performed by Dr. J. H. Galloway, D. D., pastor of the First Methodist Church, New Upper Falls, in the presence of about forty guests. The house was appropriately decorated for the occasion.

The presents were useful and valuable. Refreshments were served. Mr. and Mrs. Morgan left immediately for Cambridge, Mass., where they will reside.

Mr. and Mrs. Littlehale left for Portland and their honeymoon. On their return they will reside in Needham, Mass.

Immediately after the marriage the twins of Mr. and Mrs. Provenchias were christened.

## Wreck of the Schr. Florence May.

The max. schr. Florence May, Capt. John Hamilton, which left Tiverton Saturday noon with 3,100 haddock for Digby, after weathering the heavy sea which prevailed in the Bay of Fundy, while endeavoring to get around a tide rip, which would have swamped the vessel, she struck about 5 p.m. and it was thought would become a total loss. She was completely stripped, her gasoline engine and cargo removed without loss. The vessel on Monday was floated by Capt. Ansel Casey, Victoria, B.C., and docked at the wharf on the east side of the Gut. This is the first time the Florence May has followed the sea. The Florence May was built at Eastport, Maine. She sailed from St. Andrews, N. B., in 11 tons register and owned by the Nova Scotia Fish Co., of Digby. It is thought that the hull is not likely to be repaired. There is no insurance. The company's local manager, Mr. E. M. R. Peterson, who was in Halifax at the time, arrived home Wednesday. The life boat during Capt. J. W. Hayder, rendered prompt assistance to the wrecked vessel and crew.

## Pianoforte Recital at Weymouth.

On Wednesday evening, January 22nd, at 8:15 p.m., there was held at the residence of Dr. E. J. Elderkin a piano recital assisted by vocal selections. As an aid to the Methodist church there was an admission of twenty-five cents and owing to the large number present the sum of \$28.00 was realized. Everything so well arranged proved a very successful entertainment. The recital room and hall were tastefully decorated with branches and evergreens which, with the many lights, blended a scene of considerable attraction. The front drawing room, which opened from the main entrance, communicated through colonnades to a direct view of the performers who accomplished the program in the parlor apart from the audience. Refreshments were served at the close of the recital.

## How The Body Kills Germs.

Germs that get into the body are killed in two ways—by the white corpuscles of the blood, and by a germ-killing substance that is in the blood. Just what this substance is, we do not know. The blood of a healthy person always has some germ-killing substance in it to ward off the attack of disease. The fountain head of life is the stomach. A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished. To put the body in healthy condition, to feed the system on rich, red blood and throw out the poisons from the body, nothing in the past forty years has excelled Dr. Pierce's Golden Medical Discovery, a pure glyceric extract (without alcohol), of bloodroot, golden seal and Oregon grape root, stone root, mandrake and queen's root with black cherrybark.

J. H. MARTIN, ESQ.

"My husband was a sufferer from stomach trouble and impure blood," writes Mrs. JAMES H. MARTIN, of Framfort, Ky. "He had a sore on his face that would form a scab which would dry and drop off in about a month, then another would immediately form. It continued this way for a long time. He tried every remedy that any one would suggest but found no relief. He then tried Dr. Pierce's Golden Medical Discovery which completely cured him. He has stayed cured now for two years, and I recommend this valuable medicine for impurities of the blood."

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

The highest grade of cocoa beans, finest cocoa butter, purest cane sugar, and the best vanilla beans that can be bought, are the ingredients which we blend together to form that rich, smooth coating which is characteristic of

## Commercial War With Argentina

DIFFERENTIAL RATE ON UNITED STATES FLOUR TO BRAZIL CONSIDERED UNFAIR BY BUENOS AIRES GOVERNMENT.

WASHINGTON, January 30—State department here expressed disturbance today over what they fear may result in a disastrous commercial war between Argentina and the United States. They have had reports to the effect that Argentina is likely to retaliate against the United States for what it believes to be an unfair commercial advantage taken of it by this country.

Brazil grants to the United States a special differential on imports of wheat flour, which allows this country to compete successfully with Argentina in that field. The State department has been informed that this is being looked upon as unfriendly and that there is a scarcely suppressed sentiment in the Argentine congress, which, it is said, may break out any time in favor of retaliatory action.

Furthermore, the state department has been informed that Argentina may withdraw from the Pan-American union at the time of the next Pan American conference, unless conditions change. This, it is said, probably would deal the cause of Pan Americans a blow from which it would require many years for it to recover, and which would do away with much of the friendly social and commercial relations that have been growing for the past twenty-four years, when the Pan-American idea was started by James G. Blaine.

### Shipping Trust.

SEVENTY PER CENT. DISCOUNT ON FREIGHTS FROM PORTO RICO.

WASHINGTON, January 30—A giant combination practically controlling American coastwise trade on the Atlantic, and operating under an agreement with the railroads by which pro rating is refused to independent steamship lines except on full cargoes, was described to the house shipping trust committee today by A. H. Bull, president of the A. H. Bull Steamship company of New York.

Describing efforts of the combine to drive his company out of the New York and Porto Rican trade, Mr. Bull submitted circulars bearing the name of the insular line and the New York and Porto Rico Steamship company, offering discounts of seventy per cent. on freight rates during the week when the sailing of a Bull liner from Porto Rico had been announced.

When asked by Representative Humphrey, of Washington, why he had not placed these facts before the department of justice, Mr. Bull said that he had been told that he was "as bad as any of the rest," because he had signed a bond in 1900 not to enter into the Porto Rican trade for ten years. He said he had decided to await the action of the congressional investigating committee.

Chairman Alexander and Representative Humphrey emphatically expressed the opinion that the combine should be prosecuted.

## DANGER PERIOD OF WOMANS' LIFE FROM 45 to 50

Interesting Experience of Two Women—Their Statements Worth Reading.

White Oak, Ont.—“At Change of Life when doctors could do no more and I was given up by my friends, Lydia E. Pinkham's Vegetable Compound came to the front and did wonders for me. I had been having female troubles for years, my head troubled me severely at times, I had bearing down pains and backache and I was very anaemic from excessive flowing. I recommend your Compound highly and do all I can to advertise it as a genuine woman's medicine.”—Mrs. SYLVESTER MANNING, White Oak, Ontario.

The Case of Mrs. Kirlin.  
Circleville, Ohio.—“I can truthfully say that I never had anything do me so much good during Change of Life as Lydia E. Pinkham's Vegetable Compound. “Before I had taken one half a bottle of it I began to feel better, and I have continued taking it. My health is better than it has been for several years. If all women would take it they would escape untold pain and misery at this time of life.”—Mrs. ALICE KIRLIN, 358 W. Mill St., Circleville, Ohio.

The Change of Life is one of the most critical periods of a woman's existence. At such times women may rely upon Lydia E. Pinkham's Vegetable Compound.

## MUNICIPAL COUNCIL

Annual Meeting Held at Digby, January, 1913.

MINUTES OF PROCEEDINGS, REPORTS OF HEALTH OFFICER, CANADA TEMPERANCE ACT INSPECTOR AND OTHER MATTERS OF INTEREST.

(Continued from last week.)

Upon reading reports of F. E. Rice, M. D., sanitary inspector, and John Journey, inspector under Canada Temperance Act, ordered to be received and adopted.

To the Warden and Council for the Municipality of Digby.

GENTLEMEN:—I beg to make the following report as to the Sanitary condition of the Municipality for the past year.

(1) No infectious or contagious diseases have been reported within the municipality excepting diphtheria, cases of which occurred at Weymouth and Little River. At the request of Dr. E. J. Elderton, I saw these people at Weymouth, who live about one mile from the Bridge. Proper disinfection having been carried out there was no further spread of the disease.

I am pleased to say that typhoid fever, which has been very prevalent in the Municipality for some time, has not returned this year, and the few cases reported seem to be of a mild type.

(The adjoining districts so far as information has been received from the Secretary of the Provincial Board of Health, have been free from such diseases.)

(3) In my inspection of the school buildings and premises, in the municipality, I find that in many instances the buildings are inadequate for the requirements, and I have suggested such changes and repairs as I judged the conditions warranted, and the respected sections were able to carry out.

(4) I have had all drains and cess pools, that were reported in bad condition, thoroughly cleaned.

(5) In presenting my report I have great pleasure in stating that the sanitary condition of the fishing villages on Digby Neck and Islands, though not perfect, were greatly improved this year. This improvement being in a measure due to the better understanding of the ordinary modes of sanitation and climatic conditions.

Yours respectfully,  
FRANK E. RICE,  
Health officer for Municipality of Digby.

Dated at Sandy Cove, this 13th day of January, A. D. 1913.

To the Warden and Council of the Municipality of Digby:

GENTLEMEN: I, John Journey, of Weymouth, in the Municipality of the District of Digby, beg leave to hereby present my report as Inspector under the Canada Temperance Act in and for the Municipality of the District of Digby for the year 1912.

My report this year from a financial standpoint is the poorest I have made since holding the office of inspector; but from a temperance point of view is an improvement as it indicates a decrease in offences against the Canada Temperance Act in the Municipality.

On the 8th day of January, 1912, I reported for the year 1911, twenty information laid, sixteen convictions made, one committed to jail, twelve fines collected and \$211.08 over and above my salary and all other expenses paid to the Municipal Treasurer.

This year I have to report six information laid, four convictions obtained, two fines collected, two committed to jail, one information dismissed and one who has successfully eluded service of papers to date.

SUMMARY OF PROSECUTIONS.

1.—THE KING vs JOHN H. AMERO.  
On the 17th day of June, 1912, I laid an information before Samuel McCormack, Esq., against John H. Amero for unlawfully selling intoxicating liquor at Plympton on or about the 23rd day of March, 1912. A summons was issued returnable on the 25th day of June, 1912. The accused appeared and stood trial. Witnesses were called and examined and the accused was convicted, and ordered to pay a penalty of \$50.00 and \$5.86 costs. He paid this the same day.

A summons was issued returnable on the 26th day of June, 1912, and was duly served on the accused on June 24th, 1912. The accused did not appear in obedience to the summons. Witnesses were called, the offence proven and the accused duly convicted and ordered to pay a penalty of \$50.00 and \$4.05 costs, and in default of payment to imprisonment in the County jail for three months and a warrant issued for his commitment. The accused left the municipality and has not been heard of since.

3.—KING vs NORMAN B. LEWIS.

information before Samuel McCormack, Esq., against the accused, Norman B. Lewis, for unlawfully selling intoxicating liquor at Rosway on or about the 21st day of May, 1912. A summons was issued returnable on the 10th day of July, 1912. The accused appeared and stood trial. After hearing the evidence of two witnesses, I asked for an adjournment of one week in order to obtain further evidence. On the 17th day of July, 1912, the case was dismissed, the evidence not warranting a conviction.

4.—THE KING vs JOSEPH AMERO.  
On the 7th day of October, 1912, I laid an information before Samuel McCormack, Esq., against Joseph Amero, the accused, for unlawfully selling intoxicating liquor at Plympton Station on or about the 4th day of October, 1912. A summons was issued returnable on the 12th day of October, 1912, and the same was duly served on the 8th day of October, 1912. The accused did not appear at the trial. Witnesses were called for the prosecution and proved the offence and the accused was convicted and fined \$50.00 and \$9.35 costs and in default of payment, ordered to be imprisoned for three months. The warrant of commitment was issued but the defendant up to the present has eluded arrest.

## DIGBY WEEKLY COURIER

Digby, Feb. 7, 1913

## The Funeral of the Late John Howe Savary.

HIS REMAINS ARRIVED IN DIGBY TUESDAY MORNING—INTERMENT IN FOREST HILL CEMETERY.

The remains of the late John Howe Savary, a notice of whose death appeared in our last issue, arrived here Tuesday morning, via St. John, and were conveyed to J. F. Rice's undertaking rooms, First Avenue, and from there to Forest Hill cemetery, the services at the grave being conducted by Rev. Wm. Duffield, rector of Holy Trinity church, Digby. The pall bearers were Mayor H. B. Short, F. W. Nichols, T. E. O. Lynch and O. S. Dunbar.

Accompanying the father, Judge Savary, and brother, Rev. Thomas Savary, (rector at Kingston, Ont.) from Annapolis were Rev. Mr. How, Rev. Mr. Muir, Judge Owen, George E. Corbett, Esq., and other prominent citizens of that town and Granville Ferry.

The floral tributes were beautiful, among which were a splendid floral wreath from the citizens of Verdun, Manitoba, forwarded by Rev. Mr. Robertson; beautiful wreath from the Bank of Ottawa staff at Regina; from Annapolis, Mr. and Mrs. George Corbett, wreath; Mr. Geo. Burton and Mr. Elliot (G. K. Thompson & Co.), cut flowers; Mrs. Savary, roses; Miss Godfrey, roses; his brothers, a wreath; wreath, spray and cut flowers from Mr. and Mrs. F. K. McFar, Regina; from cousin Mrs. McKean, St. John; Misses Eliza and May Earle, St. John, and many others, a complete list of which was difficult to obtain.

Before removing to Saskatchewan, Mr. Savary spent several years at Verdun, Manitoba, where he was a great favorite in the social life of the place. He was a vestryman and auditor of the church, prominent in the Tennis Club and Athletic Club and manager of an amateur dramatic club. When he left that place for a farther west, he and a colleague who left with him, were given a public dinner by the citizens.

In a letter from Regina, in which much is said in regard to his efficiency as a banker, the following paragraph gives an account of his death as far as it is known: "How the poor boy came to his end does not seem altogether clear. He had been at the theatre in the evening with some of the boys from the bank and came home with them, apparently in the best of spirits, went to his room, got partly ready for bed and was apparently sitting on his bed when the pistol was discharged. He had in his room several fire arms, most of them of very antique pattern, which he kept as curios. Everything points to an accident, for his correspondence and business arrangements, even up to the last day, showed him to have well defined plans for the future."

There were no money difficulties or the slightest hint of any trouble with the bank.

The deceased was a bright young man. Not only in the west where he has resided of late, but also in Nova Scotia he was well and favorably known, and the news of his untimely death was heard with regret by a large circle of friends who extend their sympathy to the bereaved father, stepmother, to whom he was deeply attached, and to the other members of the family.

## Death of John V. Gulliver.

At Newcastle, on Friday, Jan. 31st, Mr. John V. Gulliver died very suddenly of neuralgia of the heart. Mr. Gulliver went out to his work as usual that morning and did not complain of feeling unwell. He returned home shortly after and complained of a severe pain over his heart. Mrs. Gulliver hurried for the doctor, being gone but a few minutes, but upon her return found her husband had died during her absence. The funeral was held Sunday afternoon, the interment at Douglas. Mr. Gulliver was a prominent Orangeman, and was buried under the auspices of that order; the Newcastle and Chatham lodges attending the funeral. Besides a mother, several brothers and sisters, Mr. Gulliver left a widow formerly Miss Margaret Roy, of Newcastle, and two small children.

Mrs. Gulliver is a sister of Rev. Thos. S. Roy, pastor of the Baptist church at Digby. Mr. Roy left on Friday for Newcastle to attend the funeral, returning home Tuesday.

## Promise of an Early Spring.

Last Sunday was Candlemas day, when the bear's alarm clock awakens him from his long sleep and he assumes his important role—that of weather prophet for the North American continent.

The first thing the bear does on awakening is to throw that alarm clock into the bushes. He then arranges his fur and pokes his nose very carefully out of his hole into the open air.

Then if he sees his shadow on the ground he tells the assembled multitude to observe that the winter's back bone is broken and within six weeks spring will begin to make its appearance. If he sees no shadow, however, he goes back to bed and lets the coal dealer have his own way.

Although no one has been found that saw him performing this important function on Candlemas day it may be inferred that this prediction was for an early spring. On that day the sun was shining and if the old chap's eyelids were not over heavy with sleep he must have seen his graceful form shadowed on the ground.

FRIENDSHIP LODGE, BEAR RIVER, CELEBRATED ITS FIRST ANNIVERSARY.

One of the pleasant events in the history of Oddfellowship in Bear River took place last night when Friendship Lodge, No. 122, celebrated its first anniversary.

After the initiatory degree had been conferred on several candidates, refreshments were served, followed by a regular toast list.

The speeches were very interesting and brought forth a lot of applause.

Visiting brethren were present from Digby, Port Wade, Granville Ferry, Annapolis, several Massachusetts lodges and elsewhere.

The whole affair passed off very successfully. Friendship Lodge has made an excellent beginning and we wish it continued success.

## OF A LOCAL NATURE

—There will be no service in the Baptist church at Culloden Sunday.

—Mr. Ralph Morrell has been officially appointed the regular ferryman on Grand Passage between Freeport and Westport.

If the weather is favorable, there will be service in the Anna Howe Store day afternoon at 3 o'clock, conducted by the Epworth League.

—Wednesday, Feb. 10th, is Merchants' Day in Annapolis. The Board of Trade in that town is distributing a large quantity of printed matter in Digby county.

—The annual convention of the Nova Scotia Temperance Alliance, will meet in the Y. M. C. A. Hall, Halifax, Feb. 20th, at 10 a. m. Full attendance of all interested is requested.

—Mr. R. C. Benson, boat builder, Bear River, is building a fast tug about 16 ft. long for use on the coast. She is 23 ft. over all with 6 ft. beam and will probably have a 15 h. p. motor.

—Rev. A. F. Newcombe, secretary of the Canadian Bible Society, will speak in the Baptist church next Sunday morning on the work of the society. The pastor will preach in the evening.

—Electric bells are being placed on several of the grade crossings of the D. A. R. in various towns along the line. These would be a good thing for Digby there being a railway crossing on every street in town.

—As gasoline is now becoming almost too expensive for the fishermen to use, they are beginning to install kerosene equipment. If the government would take the duty off kerosene it would be a great thing for the fishermen.

—Mr. Geo. Chisholm, formerly of the COURIER, writes us that notwithstanding the high salaries paid in Winnipeg, that since the city has taken over the electric lighting plant, which is run by steam, that the rates to light an eight room house are \$1.00 per month or \$12.00 per year.

## A Delightful Birthday Party.

Mrs. Lola Hepperd was tendered a delightful birthday party by the guests of Rev. A. A. Hoyt at his home on 80, 5th Avenue North, Wednesday evening, Jan. 22nd. Mrs. A. A. Hoyt presided over the entertainment which was a very interesting and amusing one. Rev. A. A. Hoyt was the orator of the occasion, making a short address of welcome and closing with a poem that he had composed. A great part of the evening was given over to anecdotes and confessions which were propounded by various of the guests. Delightful refreshments, consisting of cake and ice cream, were served beautifully. Mr. and Mrs. Hepperd expressed their appreciation of the honor accorded them in very appropriate words. After which the party broke up with every one feeling that the occasion had been one of the most pleasant they had ever had the pleasure of attending.

The present were: Mr. and Mrs. Hepperd, Mr. A. E. Parker, Mr. Irvin W. Pritchard, Miss Bertha Pritchard, Mrs. Anna Johnson, Mr. and Mrs. G. W. Orville, Mrs. Frank Isham, Mr. Gertrude Johnson, Mrs. Jennie Kerr, Mr. and Mrs. C. V. McEntee, Rev. A. A. Hoyt and wife, and Mr. L. R. Seltzer of St. Petersburg Independent Florida.

Mrs. Hoyt was formerly Miss Burns, of Deep Brook, and has many friends here who will be pleased to learn that she is delighted with her new home in Florida.

## A Pleasant Event at Port Wade.

Anyone passing the home of Mr. Wiswell Covert on Tuesday evening of last week, would have been attracted at once by the brilliancy of the scene and the general air of cheerfulness pervading the surroundings. Could one have got a view beneath the scenes outside would have been more fully assured for the house was most beautifully decorated with garlands and roses and everything was done in pink. The occasion was a Pink Tea given by the ladies of the Methodist Church, which, if one were acquainted in Port Wade, would be sufficient assurance of its success. The dining table was fairly glistening beneath its weight of good things and was so artistically adorned, the sight alone was a feast. Several fair ladies arrayed in their dainty garments with pink adornments, and looking more like fairy princesses than young ladies, dispensed the feast to the large crowd which had assembled, while the smiling matrons in the domestic region kept them well supplied. Music and games had their share in the entertainment and the receipts of the evening, which were for church purposes, far exceeded the highest expectations.

## Sailing Races at Digby.

At a meeting of the sailing committee of the Western Nova Scotia Yacht Club held Wednesday night, it was decided to hold a series of races for a one design class of Swampscott sailing dories, several of which now belong to the club. These boats also belong to the Harbor View Racing Association and Commodore Weatherbee of that organization, who resides in Newton, Mass., and spends his summer at Harbor View, will no doubt render the W. N. S. Y. C. every assistance possible in making a success of this portion of the racing programme. The first of the series is scheduled for Saturday afternoon, July 12th, at 2 P. M., the course to be from a buoy off the club house to one off Jaggar's Point, thence to a buoy off the northwest point of Bear Island and back to the starting point. The trophy is a silver cup to be won three years consecutively in order to become the property of this prize. New boats competing for this prize must be exactly the model and not plan of those already belonging to the club.

## The Town Election.

Last Tuesday's election in Digby was probably the quietest in the history of the town, people taking very little interest, only 223 ballots being cast. The result was as follows: Mayor H. B. Short re-elected by acclamation; For councillors: J. F. Rice 170, H. T. Warner 141, C. A. Jordan 127, T. E. G. Lynch 113. The first three were therefore elected. Mr. Lynch made no canvass whatever.

## Brought Home For Burial.

Friday's Yarmouth Telegram says: Mr. Viets and his sister, Mrs. Oles, brought over from Boston on Wednesday last, the body of their mother, Mrs. Henry Viets, to be buried at Clementsport, her native place.

## Twenty-Five Years Ago.

THE WINTER OF 1888 WAS SOMEWHAT COLDER THAN 1913.

In a recent interview with Mr. P. L. Wright, who 25 years ago was second engineer on the S. S. Evangeline, carrying the mails, freight and passengers between Digby and Annapolis, he called our attention to the mildness of the winter weather compared with just a quarter of a century ago.

Jan. 21st, 1888, the stmr. Evangeline, Capt. Geo. Corbett, sailed from Digby for Annapolis on her regular trip. She became frozen in at Annapolis and was unable to return to Digby until Wednesday, Feb. 22nd.

In the meantime mails and passengers had to be transferred between the two towns by teams. The S. S. Secret, Capt. Flemming, which was running between St. John, Digby and Annapolis, had to land all her mail, passengers and freight at this port.

The travel and freight those days were considerably surlier than at the present time. Just imagine the S. S. Yarmouth's present freight and passengers being conveyed to Annapolis daily by teams.

It was during this freeze-up that Mr. George King, driver for Stalling & Son, made the run from King's bridge to the Annapolis Post Office with a passenger and trunk and 27 bags of mail in one hour and forty-three minutes with the Smith mare, which was the fastest "roadster" in this vicinity at that time.

Now to return to the Annapolis river. Just beyond Goat Island, the big iron steamship Aquila, originating the mail, was completely frozen in, and for weeks all attempts to move her proved a failure. Her cargo of apples from Annapolis for England, were brought to her on horse and ox sleds, and boys enjoyed skating the entire distance from Annapolis to Goat Island.

The Granville ferry boat crew walked across the river to Annapolis, followed later by "Alph" Mills and his white horse and sleigh. After that dozens of teams and hundreds of people on foot made the trip between Annapolis and Granville ferry on the ice, an opportunity which was never afforded them again during all these 25 years.

When the Evangeline returned to Digby she was greeted with a welcome never since extended to a similar vessel at this port and Capt. Corbett entertained his callers in royal style.

When the Aquila got away she met with bad luck crossing the Atlantic, having injured her propeller and shaft while in the ice. She reached England, however, after 23 days, the whole time extended on the round voyage to Annapolis being a record breaker in the way of so much lost time.

It is also said that some forty years ago that several persons walked on the ice all the way from Bear Island to Digby.

## Presentation at Berwick.

The brothers of Berwick Lodge, No. 53, I. O. F., gave a supper in honor of their Brother G. H. O'Neil, V. G., who was leaving for Stellarton, Pictou County. He was presented with a purse containing \$25 in gold, all in \$5 pieces. Brother O'Neil was taken by surprise, but in a few words, made a fitting reply. He has made a great many friends in Berwick who regret his departure. An address was read as follows:

To Bro. G. H. O'Neil, V. G.: We, your brothers of Berwick Lodge, No. 53, I. O. F., have heard with deep regret of your intended departure from our midst to take your abode in another part of our fair province. A feeling of loss is upon us, and we have only begun to appreciate your many sterling qualities. Even before your becoming an Oddfellow, your many acts of kindness towards us as a Lodge will never be forgotten.

One short year ago you united with us and assumed the obligations of a brother. Truth, and as the central light of Oddfellowship is mutual assistance, we feel called upon to say at this time, your dear brother, that we have no part. We are sure that this time in your part, you and your family a happy sojourn in your new home in the thriving town of Stellarton.

We feel assured that our laws will be a guide to that town or any other where you may reside in the future. We cannot let you go, dear brother, without conveying to you some tangible appreciation of our friendship and brotherly love. We hope it will prove an incentive to you in the future to always keep well studied with the code of the realm that we feel assured you will acquire by your foresight and keen attention to business in the prosperous town of Stellarton. Our best wishes as a lodge go with you.

Presented in Friendship, Love and Truth.

Berwick Lodge No. 53, I. O. F.

## Death of Capt. J. H. Winchester.

A FORMER DIGBY MAN PASSES AWAY IN EAST ORANGE, N. J.

Captain James Henry Winchester, eighty-nine years old, died Thursday at his home at East Orange, N. J., of general debility. He was born in Digby, N. S., and moved to Eastport, Me., with his parents when five years old. When still a boy he went to sea, and at the age of twenty-one was in the command of a ship. Captain Winchester owned and commanded a sailing ship, the steamer ship Nechamoon, which was one of the fastest vessels of her day, was built and commanded by him. He was the owner of the brig Mary Celeste at the time she was abandoned off Cadiz, Spain. The abandonment of the vessel always has been a mystery, no trace of her crew ever having been found, although every thing was intact when she was brought into port. For several years after he gave up the sea, Captain Winchester engaged with success in the shipping business in New York. He retired fifteen years ago, but the firm of James H. Winchester & Co. still continues in business. For the past twenty-four years Captain Winchester had been a member of the Board of Pilot Commissioners of the Port of New York. He is survived by his wife and one daughter.

## The Fast Service to St. John.

P. D. Giffins, general manager of the Dominion Atlantic Railway Company, has gone to Montreal. In connection with regard to the proposed fast line, which it is said will be instituted in the spring between St. John and Halifax, Mr. Giffins said that no definite plans had been made, but that the matter was under consideration. This proposed service includes a fast boat between St. John and Digby which it will be met by a train and the passengers rushed to their destination in five and a half hours from the time of leaving St. John. When speaking of the apple crop in the Annapolis Valley, Mr. Giffins pointed out that the crop had not been up to the expectations of the farmers, and that the shipments were not large when compared with those of previous years.

## Another New Residence.

MR. FLOYD SNOW IS NOW OCCUPYING HIS NEW HOUSE, LIGHTHOUSE ROAD.

While several new houses are under construction in Digby, the latest to be occupied is Mr. Floyd Snow's pleasantly situated on the west side of the Lighthouse Road near the corner of the Racquette Road. It commands a splendid view of our beautiful Basin.

This pretty cottage is 28x28, consisting of a basement, two stories and an attic.

The cellar is of concrete with 7 ft. head room and is certainly a good one. The first floor is conveniently planned and consists of a parlor 14x14, dining room 13x13, kitchen 11x13, hall 12x12, with an addition on back containing sink room and pantry.

The second floor is reached by either the front or back stairs. Here we find three good sleeping rooms with the necessary closets, also a modern bathroom, a cozier furnished den, linen closet, etc.

The attic is used at present as a large store room, but could be made into four pleasant bedrooms if desired.

Across the front of the house are two 8 ft. verandas from which a magnificent view can be obtained. The house is fitted throughout with electric lights and all modern conveniences.

The house was designed and built by Mr. Wm. Turnbull, Lighthouse Road, who certainly gave Mr. Snow an excellent job at a moderate price. Mr. Turnbull and his staff also did the painting. The front stairs are finished in oak.

The plastering was in charge of Mr. James Savary, Bay Road; the concrete work was done by John C. Handspiker, of Mr. Pleasant; the plumbing by Mr. W. L. Holdsworth, and the electric wiring by Mr. A. D. Daley, of Digby.

The whole structure is well planned and well built and we wish Mr. and Mrs. Snow and family many happy years in their new home.

## Death of Dr. Robt. Titus.

A PROMISING YOUNG MAN PASSES AWAY IN WESTPORT.

As will be noticed by our Westport correspondence in today's COURIER, Dr. Robt. Titus died at the home of his parents in that town last Monday, aged 29 years. The deceased was a son of Mr. and Mrs. Eliza Titus and was a very promising young man. He was a graduate of the Halifax Medical College, being ambitious enough to do two years' work in one. He then went west, but was obliged to return, owing to ill health. He remained for a time in Kentville, returning to Westport last October. He is survived by his parents and brothers and sisters as follows: Charles, a civil engineer in Cobalt, Ont.; Lawrence, a teacher in Sydney; Mrs. A. E. Pace, Trenton, Pictou county, a former teacher; Leonard in Boston, Miss Elva, teacher in New Glasgow; Alfred in the Bank of N. S., in Digby and Freda at home.

The deceased was a member of the Baptist church and took a deep interest in the welfare of any community in which he resided. Before graduating he had been a successful teacher and had a host of friends everywhere who will regret to learn of his death. He was a member of Chippewa Lodge of Oddfellow, Freeport, having joined while principal of the Freeport schools.

The funeral, which was largely attended, took place yesterday afternoon, the services being conducted by Rev. D. M. MacKenzie, pastor of the Westport Baptist church, and by the I. O. O. F.

The COURIER extends its deepest sympathy to the bereaved ones.

Mr. Leslie J. Dowley passed through Digby on Wednesday of last week, for Smith's Cove, to visit his mother, who is seriously ill at the home of her daughter, Mrs. J. S. Potter.

Mr. Clifford Smith, son of Sheriff Smith, who has been seriously ill in St. John, is, we are pleased to state, somewhat better. The Sheriff is also ill at his home in Digby. Mrs. Smith, who is in St. John, is expected to return home to-day.

Maritime Baptist: Rev. A. H. McLeod, Wolfville, N. S., has been supplying St. Mary's Bay and Hill Grove churches in Digby county a number of weeks. He finds a good number of loyal Christians and large opportunities for Christian service. He hopes some good has been done.

A correspondent writes: Mr. W. H. Willis, of Pleasantville, N. S., was the guest of Mr. and Mrs. Leander Woodworth at St. Mary's, and preached in the schoolhouse to a very attentive audience. Mr. and Mrs. C. W. Grenier, of Weymouth North, also were guests at the same home and remained one week attending cottage meetings in the different homes. These gatherings are very helpful to old and young, and it is a nice way to spend an evening.

Mr. W. H. Doty passed through Digby Saturday from Medicine Hat, Alta., for Yarmouth, via Ottawa, St. John and other Canadian cities. Mr. Doty was a well known manufacturing confectioner in Yarmouth county a few years ago. After his factory was burned he went west and is to-day one of the wealthiest men in Medicine Hat. He is a member of the city council and owns one of the most expensive residences there. Mr. Doty was sent as a delegate from Medicine Hat to interview the Minister of Public Works in Ottawa in reference to the building of a new post office. The one built there but a few years ago is now entirely too small to handle the city's rapidly growing mail service. Mr. Doty, we understand, met with success on his important visit at the capital.

## An Odd Winter.

The winter of 1912-13 will go down in history as the mildest and most open one ever experienced in these latitudes. It will also be noted for its sudden changes of temperature. Tuesday robins and regular and summer birds were noticed by Mr. A. D. Daley in his cherry orchard. Wednesday night was a regular winter's night, more snow fell yesterday and today the sleighing is fairly good—the first of the season.

We have had a lot of windy weather and the marine disasters on both sides of the Atlantic and in mid-ocean have been far above the average, with considerable loss of life.

## Brought Home For Interment.

### To Make Fisheries Worth While.

APPOINTMENT BY THE HONORABLE GOVERNMENT OF THE FISHERIES ADVISORY BOARD SHOULD MARK A NEW ERA IN THIS GREAT INDUSTRY.

An Ottawa despatch says: The minister of marine and fisheries, in compliance with his already expressed intention of appointing a board to consider the question of the development of the fisheries of Canada has selected the following gentlemen as members of the fisheries advisory board:—

AZADE ABERNATHY, Grindstone, Magdalen Islands, to represent Quebec. H. B. SHORT, Digby, representing fish merchants of the Atlantic coast. CHARLES H. B. LONGWORTH, Charlottetown, representing the fisheries of Prince Edward Island.

MAYOR H. B. SHORT, Digby Member of the Fisheries Advisory Board

lottetown, representing the fisheries of Prince Edward Island.

GIDRON HENKON, Little Harbor, representing those engaged in the inshore fisheries of Nova Scotia.

W. C. SMITH, Lunenburg, representing the bank fisheries of Nova Scotia. F. T. B. YOUNG, Caraquet, representing the different fisheries in counties of Gloucester, Restigouche, New Brunswick.

ANDREW B. CARSON, Rexton, representing counties of Westmorland, Kent and Northumberland, New Brunswick.

PETER P. RUSSELL, St. Andrews, representing the weir fisheries on the New Brunswick side of the Bay of Fundy.

D. B. REID, Selkirk, Manitoba, representing the Manitoba fisheries.

JOHN E. SINCLAIR, Prince Albert, Sask., representing the fisheries of Saskatchewan.

R. TROLEN, Edmonton, representing the fisheries of Alberta.

D. MCINTYRE, Victoria, provincial deputy commissioner of fisheries, representing the fisheries of that province along with F. W. CENNINGHAM, New Westminster, Dominion chief inspector of fisheries.

It has been felt that on the whole there has been a serious lack of progress in the fisheries of Canada, especially on the Atlantic coast.

Apart from its fish breeding operations the work of the fisheries branch of the department has in the past, in large measure, been confined to providing and enforcing regulations for the protection of certain fisheries. With efficient organization it is felt that much good has been done.

It will be seen that in the thirteen members of the board, which is a permanent one, to act in conjunction with certain officials of the department, both producers or fishermen and consumers or fish merchants are represented. The province of Nova Scotia has been given three representatives—one to represent the banking vessels, one the inshore fishermen, and one for the merchants and canners. This large number is given to Nova Scotia on account of the diversity of conditions and the greater value of the fisheries.

New Brunswick also gets three representatives and the other provinces represented get one each, except in British Columbia, where conditions are much diversified, with the large salmon fishing industry and the deep sea fisheries, and here there are two members.

Apart from Nova Scotia the representation of the fish merchants has not been emphasized. As far as the maritime provinces are concerned, Halifax is very largely a distributing point for cured fish, and in other provinces those interested in the catching of fish in great measure are engaged in sale of fish as well as the fishermen. The department of marine and fisheries is to be represented by the principal officers engaged in the administration of the fisheries. The deputy minister will be ex officio chairman of the board, and other representatives will be the superintendent of fisheries, assistant to the superintendent expert in curing and handling fish, and the commissioner of fisheries.

For the purpose of dealing with the fisheries in different parts of Canada, the board will be divided into three committees, one for British Columbia, the major portion of the work of the board will necessarily have to be done there, therefore. The board will not meet, therefore, for more than once during any calendar year. Owing to the desirability of officers of the department of marine and fisheries taking part in the meetings of the

different committees, they will not be convened at same time, and will meet semi-annually.

They will meet before the opening of the fishing season and at the close. The Atlantic committee of the board will convene at the department of marine and fisheries, Ottawa, on the first Tuesday in April and October each year. The prairie committee on the second Tuesday and the British Columbia on the third Tuesday in these months.

The members of the board will not receive salary, but those outside of the department will be paid an allowance of ten dollars a day and travelling expenses when attending meetings of the committee.

As the fisheries of Ontario and those of the inland portion of Quebec have been administered by the provinces themselves, these portions of Canada will not be represented on the board.

**A Remarkable Record.** ONLY EIGHT MEN LOST FROM DIGBY'S FISHING FLEET IN THIRTY YEARS.

Considering the large number of men who are employed on board the vessels belonging to Digby's fishing fleet, the record of deaths from drowning is unsurpassed by any similar fleet, probably in any part of the world. During the past thirty years only eight vessel fishermen have been drowned. Of course several boat fishermen have been lost from the various villages, but even the total number of accidents have not been large. In this article we refer to the vessel fishermen only.

Nov. 20th, 1881, while the schr. L. M. Ellis, in charge of Capt. Nelson D'Arcy, was fishing in the Bay Fundy, a squall came on about 2 o'clock in the afternoon (while the dories were out) breaking the vessel's mainmast. This prevented the schooner from working to windward. However, all her dories reached her with the exception of the one manned by Milledge Morehouse and Charles Tins, both of Trout Cove (Centreville). They held on their trawl too long and were soon lost sight of and must have perished as the gale increased. They were last seen about 10 miles Northwest of Digby Gut. They were sons of Wm. Morehouse and Joseph C. Tins.

The next accident occurred Jan. 23rd, 1883, when the schr. Daisy Linden, commanded by Capt. Wm. Snow, was fishing on Brown's Banks, off Yarmouth. The dories were out during a rough sea. Harry Syda, of Digby, and Edw. O. Link, of Wilton's Beach, Campbellville, were washed over board from their dory. Link got hold of the stern becket and was rescued and taken on board, but died from exposure. Syda went down before help reached him.

The next disaster occurred on the morning of Dec. 21st 1912 when Jesse Haldy, of Digby; Frank Daley, of Mt. Pleasant, Loren McWhinnie, of Port Wade, and Stewart Robinson, of Parker's Cove, were washed overboard and drowned from the schr. Dorothy M. Smart, commanded by Capt. Arthur McWhinnie, the third participant of which are still fresh in our readers' memories.

While we regret the loss of these eight well known and faithful fishermen, all of whom were among the best men who fish from this port, we must say that the record is a remarkable one, when we consider that our vessels fish winter and summer during almost all kinds of weather, and the men certainly take great chances while procuring some of the biggest fares ever landed at a fishing port.

We trust however, that the record for the next 30 years will be even better than the past.

Mr. Lloyd Potter, of the Royal Bank, spent Sunday in Annapolis.

Mr. Huston, representing Fredrick Sterns & Co., Windsor, Ont., was in town last Friday.

Mr. Wm. Oickle, of Victory, met with a painful accident last week which resulted in a broken leg.

Mrs. J. E. Koop has sold "Bur Brac," her Barton home, to Mr. Robert Bell, of Hill Grove, who will be a welcome citizen in Barton.

Mr. T. H. Miller, one of our highly respected citizens, passed away on Tuesday morning after a long and painful illness. He is survived by one son, Dr. Vernon Miller, of Tusket, two sisters, Mrs. Kinney, of Yarmouth, and Mrs. Byron Harris, of this place, and one brother, Mr. Ezra Miller, of Bear River. The funeral took place on Thursday afternoon and was largely attended.

#### Centreville

Still another son for Centreville. We congratulate Mr. and Mrs. Nelson Morehouse on the birth of a son.

There is quite a little competition for lobsters for canning purposes in Centreville. There are four or five buyers operating here at present.

We regret to report that Mr. Lionel Dakin has been again compelled to go to Halifax to consult a specialist for a troublesome disease of the nose.

The weather has interfered with lobster fishing, but when he boats have been able to get out, they have given a pretty good account of themselves.

Mr. Kenneth Lewis has built a fine new boat for lobster fishing for Mr. Watson Holmes. We congratulate the builder on his skill and wish the owner the best of good luck with his new boat.

The repairs to the old breakwater after nearly five months of strenuous work on the part of Mr. Smith and his staff, are completed and are proving a very great boon to the fishermen. Had the wharf not been repaired, fishing would have been almost impossible this fall.

#### Kensdale

The remains of Gilbert H. Bogart were brought home from Halifax on Monday and laid to rest on Tuesday in the Episcopal burying grounds. Mr. Harry Bogart, of Boston, came home to attend his father's funeral.

Several of the Methodists from here attended the "Pink Tea" at the home of Mr. and Mrs. Wiswell Covert, of Port Wade, on Tuesday evening, Jan. 28th. The event was altogether out of the ordinary and drew an extra large crowd. The home looked beautiful, decorated in pink, and the provisions served were made to show pink in some way. The cake was frosted in pink, and the whipped cream was also pinked. The waiters were dressed in pink and also were the young ladies of the Methodist church. Mr. and Mrs. Covert have an ideal house for such an event and we hope that ere long we may all meet there again. The evening was ended in music, some of the good old songs being sung.

#### Tiverton

Mat fever is raging here.

Capt. Mendall Crocker, of Freeport, was in town Monday.

Mrs. Israel Outhouse visited relatives at Freeport last week.

Mr. Perry, of Freeport, is visiting his sister, Mrs. Joseph McKay.

Miss Gladys Harris, of East Ferry, is spending a few days with relatives here.

Mrs. Frank Cousins, of Westport, spent last week with her brother, Mr. Simondson Outhouse.

A number of our Masons here attended the Masonic supper at Westport on Tuesday evening, Feb. 4th.

Capt. and Mrs. Cutler Snow, who have been visiting her son, Mr. Delma Outhouse, have returned to their home at Sandy Cove.

Mr. and Mrs. Delma Outhouse and sons, Darrell and Holland, are visiting her parents, Mr. and Mrs. Harris Young, at Freeport.

#### Meteghan River

Mr. Dennis D'Entremont, Justice of the Peace, is quite busy in his

office every day attending to legal matters.

Mrs. A. M. Melanson, after a short sickness, died on February 4th.

Mrs. Maude Deveau, who has been very sick with la grippe, is now recovering very rapidly.

Mr. L. C. LeBlanc is expected this week to commence the construction of a creamery in this place. The farmers of Clare feel very much the need of such an enterprise.

#### Weymouth

Lenten services are being held in the churches on Wednesday and Friday of each week.

Mrs. Joseph Oliver entertained friends on Tuesday evening, the guests forming a surprise party.

The members of St. Peter's Guild gave a social evening on Saturday at the residence of Mrs. D. Kemp.

Mr. Church Gates left for Boston on Saturday afternoon to resume his studies in music at the New England Conservatory. He will be absent some five months.

We notice among the estimates brought down in the house of commons this week the sum of \$27,000 for harbor improvements at Weymouth. Surely this is good news.

It is rather a singular coincidence that both candidates for mayor, at the civic elections in Yarmouth on Tuesday were former Weymouth residents.

The successful one, Mr. S. C. Hood, is a brother of Mrs. W. F. Journeay, of this town, and has many friends here who join in congratulating him upon his success in winning his election.

The local branch of the League for the care and protection of the feeble minded has concluded its labors, at least for the present. Petitions bearing one hundred and forty six signatures, have been forwarded to the Government and to our local members of parliament. This petition requests the Government to provide a home for such people as may be classed as feeble minded.

The Boy Scouts' concert in Odd fellows' hall Tuesday evening was a grand success. Rev. Mr. Taylor acted as chairman for the evening, who by the exercise of his good tact and the interspersal of wit, did much to make the event a success. The program contained twelve numbers, and consisted of selections by the orchestra, choruses, songs and recitations by the Scouts, and five selections by Rev. Mr. Taylor. Miss Owen McCormack also assisted in the program by her singing, which, from the applause she received, left no doubt of the nature of its reception by the appreciative audience. The pantomime, "Three Lucky Lovers," appeared to receive a fair share of appreciation, the youthfulness of the actors lending enhancement to the scene.

#### Port Wade

Mrs. Tabner, an aged lady of 90 years, is quite ill.

Our singing school was closed on Thursday last, Mr. Harrington going to Grand Manan.

Distemper and colds are quite prevalent here, most every family being more or less affected.

Deacon Edward Johns arrived home last week from Boston where he has been employed for some months.

Anniversary Division is again in quite a flourishing condition. Seven candidates for initiation next Saturday. Come and visit us!

The writer received a letter from a sister in Alberta which stated that the weather there was very cold at present, but fine, and only enough snow to cover the ground.

Nine candidates were elected by ballot on Saturday evening at Anniversary Division. These, with the number previous, will double the number which the Division started with about three weeks ago.

A Pink Tea was held at the home of Mr. and Mrs. Wiswell Covert Tuesday evening, 28th, under the auspices of the Methodist church. The commodious cottage was beautifully trimmed in pink for the occasion. Rev. Mr. Davis and wife, of Granville Ferry, were present with some 75 adults and a number of children rendered the evening a very pleasant and profitable one. A very pleasing tea was served by the ladies with the assistance of some gentlemen waiters, which netted the handsome sum of \$18.00.

#### Landdowne

Mrs. J. A. H. Nichols is confined to the house with la Grippe.

Mr. Walter D. Wagner, of Centreville, is visiting his uncle, W. H. Savary.

We are sorry to report Misses Stella

and Gerta Frude on the sick list. Dr. Lovett in attendance.

Mr. and Mrs. J. Atwood Miller are receiving congratulations of a little son, Jan. 31st, 1913, weighing 9 lbs.

Mr. W. H. Swary fell on Sunday evening, Jan. 26th, putting his thumb out of joint and receiving a shaking up in general. Dr. Archibald was called and soon made the patient as comfortable as possible.

#### Westport

Bernard Swift, who has been very ill with peritonitis, is slowly recovering.

Mrs. Lloyd Denton and daughters Evelyn and Mildred are visiting at Little River.

Mrs. Handley Coggins is visiting her daughter, Mrs. W. F. Kempton, at Yarmouth.

Capt. Collins Titus has returned from Boston. Sorry to report Mrs. Titus very ill.

The Masons hold their annual turkey supper in the Odd Fellows' Hall this evening.

Mr. and Mrs. B. McGray, who were the guests of Mrs. B. Sutherland, have returned to Yarmouth.

The remains of Mrs. Leland Elliot, who died in Boston, Jan. 28th, after a lingering illness of cancer, arrived by star, Westport, via Meteghan, on Monday. She was the second daughter of Mr. and Mrs. Roland Welsh, of Westport, and leaves a husband and little daughter Elsie. Mrs. Roland Welsh, son Lawrence and Mrs. Arnold Thompson accompanied the remains. The funeral took place Tuesday at 2.30 p.m. from her father's residence.

The death occurred at his home on Monday, Feb. 3rd, of Dr. R. L. Titus after a lingering illness. Dr. Titus, after graduating from the Halifax Medical college, went west but had not been there very long before his health breaking, forced him to return. Securing an opening in the Prov. San. at Kentville, he remained there more than a year but failed to respond successfully to the treatment. Returning to his home in November his health gradually declined. As the end approached he was fully conscious that he was beyond human aid but he passed away trusting implicitly in the strong arm of the Master. He was an intense sufferer to the end. In the death of Dr. Titus we realize that a bright star has ceased to shine. He was the eldest son of Mr. and Mrs. Elsie Titus and leaves a large circle of relatives, friends and acquaintances to mourn their loss.

#### Deep Brook

Miss E. Blanche Spurr left on Saturday for Providence, R. I.

Col. Shippy Spurr, of Melvern Square, attended the funeral of the late Mrs. W. V. Spurr.

Mr. Shippy Spurr, of Sydney, arrived last Wednesday to attend his mother's funeral and left again this week for Sydney.

The death of Mrs. Mary Purdy, aged 86 years, relict of the late Cereus Purdy, took place after a short illness on Friday the 31st, January 1913.

The deceased was a daughter of the late John and Jane (Vroom) Dineen and leaves six sons, John D., Walter, Augustus and William G., of Deep Brook; Albert E., of Sackville, N. B.; and Robt. W., of Bridgetown, beside other relatives and friends. The funeral took place on Sunday afternoon with interment in the Church of England burying ground at Clementsport. The Rev. John Lockwood officiating. The deceased was well liked by all and always had a kind word for any whom she came in contact and in her death Deep Brook loses another of her aged and respectable citizens. We extend our sympathy to the bereaved.

#### Presentation to H. W. Bowles

MEMBERS OF ST. GEORGE LODGE OF ODDFELLOWS GAVE HIM VETERAN'S JEWEL.

An event of more than ordinary interest occurred in St. George Lodge of Oddfellows in Digby Friday night. After the third degree had been conferred on five candidates the Noble Grand, Maj. M. O. Denton, called on Bro. H. W. Bowles, Digby's former Chief of Police, in front of the chair, and presented him with a veteran's jewel, the only member in St. George Lodge entitled to bear this distinction among his brethren. The Noble Grand

H. W. BOWLES Presented with Veteran's Jewel Friday Night.

made an excellent speech in connection with the presentation. Mr. Bowles replied with words that came from the heart and his remarks will long be remembered by those present, and the attendance was large.

Mr. H. W. Bowles became an Oddfellow in July, 1875, being initiated into Western Star Lodge No. 10 Annapolis. From there he was transferred to Ivanhoe, No. 44, Parrishore, in 1882. He was one of the charter members of Northern Star Lodge, Campbellton, N. B., which was instituted in August 1885, and was their first Noble Grand, thus being a past Grand for more than 27 years. He transferred to St. George Lodge, Digby, over 20 years ago.

Mr. Bowles also has the Grand Lodge degree and attended the annual session, when they last met in Fredericton, N. B., a few years ago.

Although his duties as chief watchman of the Government pier, keeps him away from the evening meetings, Mr. Bowles is a very enthusiastic Oddfellow and a great worker in the first secret order to which he ever belonged. He has been accepted in Yarmouth Locumment for the advanced degrees in the order, but has, as yet, been unable to be present in our sister town at the monthly meeting of this branch of Oddfellows.

Telephone Company Salesmen Meet.

CONFERENCE HELD ON TUESDAY AND WEDNESDAY OF LAST WEEK - OUTLOOK BRIGHT FOR COMING YEAR.

(Halifax Chronicle.)

On Tuesday and Wednesday of last week a Conference was held in the Telephone Building, Halifax, at the instigation of the Contract Department of the Maritime Telephone and Telephone Company, Limited. The Conference was composed of the different outposts of the Company, temporarily withdrawn from their positions in various parts of the Province, and they had with them Mr. Murdoch, representing the Northern Electric and Manufacturing Company; Mr. L. D. Moore, of the New Brunswick Telephone Company, and the heads of the various other Departments of the Telephone Company.

Mr. Gurno, Superintendent of the Contract Department, was in the chair, supported by Mr. Winfield, General Manager of the Company. Mr. Gurno opened the proceedings with a lengthy remark with reference to the high cost of the business, which characterized the year closed, and congratulated the field staff on the efficiency with which they had performed the duties entrusted to them. He pointed out, however, that these results were not to be regarded as the goal of their efforts, but simply as a mark on their way to higher things, and an stimulus to their efforts during the current year to bring in an even more gratifying result than that for 1912.

Mr. Winfield followed Mr. Gurno, pointing out that some of the purposes of the meeting were to enable the men to get acquainted with each other, to learn of each others' difficulties, how these had been surmounted in the past and how they might make plans for the future. He announced that the net gain in stations for 1912 for Nova Scotia was 2163, about three times the growth of any previous year. He informed the men that at present the telephone development in Nova Scotia is 16,000 Telephone stations and that the task laid upon them for this year was to raise the gross total for Nova Scotia to 20,000 stations and, in view of the results for 1912, he did not consider that he made too large a demand upon them.

A number of papers, of a very instructive character, were thereafter submitted by different salesmen present. These papers dealt with the various ways which the Company adopt to serve the public by providing telephone service of the best quality at the lowest possible figure, including Rural Telephone Lines, Private Branch Exchanges, and the ordinary city service with its various classes.

After that part of the Conference work had been completed, the salesmen along with the visitors made inspection of the Local Exchange Office, Revenue Department, Stores Department, Accountant's Office and the recently established Printing Plant. Thereafter, the business of the Conference having been completed, the salesmen departed to resume the duties of their various posts.

An interlude, in the affairs of the Conference the Maritime Telephone Company entertained their salesmen to dinner at the Halifax Hotel on Tuesday evening and gave them an opportunity of witnessing the hockey game between the Crescents and the New Glasgow teams.

#### Government Estimates.

THE GRAND TOTAL FOR THE DOMINION IS \$19,152,183.28.

OTTAWA, Feb. 3. - The main estimates for the financial year of 1913-14 were tabled by Hon. W. T. White in the house of commons this afternoon. They total \$19,152,183.28, an increase of \$9,925,815.80 over the total appropriations of last year. The estimates have been prepared with the utmost care and, while ample provision has been made for the growing needs of the country, a provision made easier than the remarkable increase in the revenues of the Dominion; any appropriation not immediately necessary has been excluded. The supplementary estimates to be brought down later will add little to the total. The revenues this year promise to pass \$170,000,000. So that the estimates tabled today are well within the mark.

For a new dredging plant in the maritime provinces there is a grant of \$110,000.

Mrs. M. M. Mount.

"I can cheerfully recommend your remedies, especially your 'Favorite Prescription,' for all female disorders," writes Mrs. M. M. Mount, of Bluff City, Tenn., Route 2. "During the past seven years I suffered from pains in the back and ovaries. Tried many remedies but found only transient relief until I was persuaded by a friend to try Dr. Pierce's Favorite Prescription. After giving this remedy a fair trial I found that it would do just what it is recommended to do. I used in all seven bottles. I cannot speak too highly of Dr. Pierce's remedies for all female derangements."

## SUBURBAN NEWS

## What is Going on Outside the Town

Picked up by Correspondents in Digby County and Elsewhere.

## Centreville.

Mr. Morton's sloop left 20th inst. for Digby with a cargo of fish.

We congratulate Mr. and Mrs. Orwell Outhouse on the birth of a son.

The steamer Centreville arrived from St. John Thursday, 29th inst., with a full general cargo and has taken in a cargo of preserved fish, ready to sail as soon as the weather permits.

Mr. Fred Bank's little son Gordon, while playing on the ice last Wednesday, 22nd inst., fell and injured his head and has been under the care of Dr. Rice ever since and is still very ill from the effects of the fall.

Some of the older inhabitants say they never remember a winter with so little snow and so much soft, rainy weather. When the snow does come there will be some hustling by those owning teams to catch up the arrears of work.

Quite a little dissatisfaction is felt by some of the lobster fishermen at the number of lobsters that have been shipped to Boston and reported as dead on arrival by the commission agents there. There is something rather peculiar about this, lobsters caught the same day, stored and packed at the same time, in exactly the same way in the case of some fishermen arriving at Boston without a single dead one while other fishermen get reports of as many as forty dead ones in one barrel. Has the place where they are stowed on the steamer en route anything to do with this?

The industry of curing and drying fish is quite an ancient one. The Assyrians, Phoenicians, Egyptians, Greeks and Romans all carried on a widespread commerce in dried and salted fish. The great maritime cities of Sidon, Tyre, Byzantium and Sinope all grew from humble fishing villages. Centreville is rapidly growing through the same industry, but it is almost certain that Centreville is turning out a much better article than the ancient cities. The art of canning fish is a much more modern one, but since its first introduction has made immense strides, not only in the quantity of fish so packed, but in the improvements made in the way of packing. The fish canned at Centreville are as near perfection as canned fish can be.

## Mount Pleasant.

Mr. Harry Bainspent Sunday with relatives at Coluden.

Miss Lena Jefferson, of Lansdowne, spent a few days in this place last week.

Mr. Walter Barnes, of the schr. Effie Morrissey, is home for a few weeks.

Mrs. William Jefferson, of Lansdowne, is visiting friends in this place this week.

Mrs. A. B. Kendall, of Port Wade, has been visiting her daughter, Mrs. Walter Barnes.

Mr. and Mrs. Grenier, of Weymouth, have been visiting Mr. and Mrs. Leander Woodworth this week.

Mrs. Arthur Longmire, of Hillsburn, has been visiting her parents, Mr. and Mrs. Cary Woodworth, this week.

Mr. William Jefferson, of Lansdowne, has come back to this place to try the woods again. No snow makes poor work for the woodsmen.

## Waterford.

A pie social was held at Waterford at the home of Mr. Haddon Westcott on the evening of Jan. 18th, which despite the unfavorable weather proved to be, financially at least, one of the most successful affairs of the season. The sum of forty-one dollars and fifty-nine cents was realized. By the aid of this sum, which will be used for the benefit of the First Baptist Church of Digby Neck, together with the contributions of two friends, the Waterford branch of the church is cleared from debt. Thus a great burden is raised from the shoulders of the church members of that place. The thanks of all is tendered to Mr. B. C. Robbins, of Centreville, who so greatly added to the success of the affair by providing a conveyance for a large number of young people who would otherwise have been unable to attend.

## Within Siding, Queens County.

Mr. Charles Stehelin, of Weymouth, has charge of the work in the woods, for the Sable Lumber Company, Limited.

Bad weather here for lumbering, although the Sable Lumber Company, Limited, is cutting 200,000 feet of lumber per week.

Messrs. George Comeau, of St. Bernard's, and Willie Houdreau, of Concession, killed and dressed an ox for beef, which girthed 8 feet 6 inches, and weighed 1350 lbs. His heart weighed 35 pounds. Can any Digby County butcher beat this?

**CONCRETE** watering-troughs and feeding-floors help to keep your live-stock healthy.

HORSES and cattle watered from a concrete trough are less likely to contract disease. Concrete is sanitary, easily cleaned—does not rot or leak. Once built, a concrete watering-trough will last forever. You need never waste time "patching it up." Like all concrete improvements, its first cost is its final cost.

MANY diseases of hogs are directly due to feeding from the filthy, unwholesome mud of the barn-yard. This manner of feeding is also wasteful, because the grain is trampled into the ground, in such a condition that not even a hog will eat it. Concrete feeding-floors, with concrete watering-troughs are clean, sanitary. They keep hogs in better health and save feed.

WATERING-TROUGHS and feeding-floors are only two of scores of valuable, every-day improvements that may be made of concrete. All are fully described in our 160-page, illustrated book.

## "Light House Pete"

To women and to children kind:  
A better friend man could not find.  
Caught in the act of stealing sheep,  
So ends the life of "Light House Pete."

I know 'twas wrong to kill the sheep,  
'Twas right his life was given;  
But God forgive worse deeds in man,  
Until seventy times seven.

So may 'twas wrong to dog,  
Who welcomed every stranger;  
Who loved the children of the "Light,"  
And abetted them from danger.

They say that dogs possess no soul  
For them there is no Heavenly goal,  
But I oft fancy that is all,  
When I have answered my last call,  
That "Light House Pete" in the Mystic Land  
Will come to lick my phantom hand.

## Pursued By Hard Luck

SCHIR, ALICE P. TURNER PULL ON  
WATER IN PARSHORE ROADS AND  
OTHERWISE DAMAGED.

HALIFAX, Jan. 31.—The American tugboat Alice P. Turner went ashore on Black Rock, near Parshore (N. S.), last night. She floated off this morning and now lies on the beach near the rock with part of her keel gone, bilges damaged and full of water.

The Turner sailed from Parshore roads yesterday afternoon for Boston with lumber, and as the wind was light the eddy carried her on the rock. The Turner has had an unfortunate experience this winter. She had to put back to this port some time ago full of water. When again ready to sail the captain broke his leg, and another captain was sent from Boston to take command. She is owned by the Boston Brokerage Company and is forty-six years old.

## Regularity

of the bowels is an absolute necessity for good health. Unless the waste matter from the food which collects there is got rid of at least once a day, it causes and poisons the whole body, decaying biliousness, indigestion and sick headaches. Salts and other harsh mineral purgatives irritate the delicate lining of the bowels. Dr. Morse's Indian Root Pills—entirely vegetable—regulate the bowels effectively without weakening, sickening or griping.

## Dr. Morse's Indian Root Pills

It was a vicious Beauty, too, that chased him relentlessly, a frenzied animal with frothy lips parted over long, ugly teeth and wild eyes reddened with rage.

Kitty Nickleson's horse had gone crazy.

What had become of Kitty?

These words whirled around and around in Dan's mind as he made every effort to urge his tired horse over of reach of the approaching mad horse.

Cyclone was loosing his wild now, and Dan heard the hoarse, straining wheeze in his throat as he sprang forward, leap on leap, each time loosing a little ground to Beauty. Dan knew that if Beauty caught them it would mean death to both himself and Cyclone. He also realized that Cyclone was handicapped by his master's 180 pounds of bone and muscle.

Without his rider Cyclone could outdistance the smaller horse. With Dan on his back it meant death.

Over to the left there now appeared the group of rocks that marked the entrance to Cotton canyon. Among the rocks there grew a bunch of ragged cottonwood trees. If he could reach the trees there would be a chance for Cyclone to outdistance his pursuer. At any rate, if worse came to worst Dan had a revolver that would effectually put an end to the combat, only he did not have the heart to kill Kitty Nickleson's pet horse.

He pulled the rein, and Cyclone swerved to the left and Beauty's hoofs pounded menacingly behind Dan slipped his right foot from the stirrup and crouched low on Cyclone's straining neck. He whispered in Cyclone's laid back ear, and just as the horse swept past the group of rocks Dan slipped to the ground and fell staggering sideways just out of reach of Beauty's flying heels as he thudded past.

Dan got up on his feet with a strange ringing in his ears. He climbed the rocks and saw that Cyclone was getting away from Beauty, whose mania was burning out his own strength with each shrill scream of defiance that he sent after Cyclone.

All at once Beauty stopped short, whirled about and came tearing back toward the rocks.

Despairing of reaching Cyclone, he had remembered Dan.

Dan glanced hastily around. The canyon was too far away to gain refuge there before Beauty returned. The rocks on which he stood afforded no protection from a crazed horse. There only remained the cottonwood trees. The largest one sprouted

## IN PURSUIT OF BEAUTY

Dan Forsythe rode moodily along the boundary of Nickleson's ranch. From the rise of ground at the south west corner he could get a glimpse of the roof of the ranch house that sheltered Kitty Nickleson.

Even as Dan rode slowly along the boundary he saw a horseman in the distance and recognized him as Forbes. The latter was approaching the Nickleson ranch at an easy pace and, as Dan thought, with all the confidence of a newly accepted lover who knows that his sweetheart is waiting for him.

Rather than have his secret discovered—and news travels fast in the cattle country, even though the population is composed largely of the masculine sex—Dan swung his horse around and dashed toward the north. He rode fast and furiously, just as though he was out looking for stray cattle or on some other urgent business bent.

When at last he drew rein he was many miles from home in the open country that was known as the "free range."

Then Dan Forsythe was startled by a black object that hurtled toward him out of the distance and then, when near enough to observe him, whirled about and dashed away.

Dan rubbed his eyes.

"That's Kitty Nickleson's horse," he muttered. "It must have broken loose. I'll have to catch it before somebody else puts a brand on the critter."

In a second Dan was flying after Kitty Nickleson's black horse, Beauty, which was famed the countrywide through for its spirit and thorough breeding. Beauty's mother had been a pure Arabian and beauty was fleet footed as the wind.

Dan Forsythe's horse was not ill named Cyclone. If Beauty was as fleet as the wind Cyclone certainly deserved his name, for he tore after the fleeing horse like a black whirlwind.

As Dan drew near to the runaway he saw with tightening throat that a saddle was girted on Beauty's back. That meant one of two things—either Beauty had bolted from the ranch before his mistress had mounted—and that appeared unlikely, for no one seemed to be in pursuit of him—or he had thrown Kitty and left her some where hurt or dying.

Pursuer and pursued had torn over the plain for twenty miles before Dan realized what was happening. Beauty had swerved to the right almost imperceptibly and continued on that course, with Dan in pursuit until all at once the man realized that their positions had changed.

Beauty was the pursuer, and Dan Forsythe was the pursued.

It was a vicious Beauty, too, that chased him relentlessly, a frenzied animal with frothy lips parted over long, ugly teeth and wild eyes reddened with rage.

Kitty Nickleson's horse had gone crazy.

What had become of Kitty?

These words whirled around and around in Dan's mind as he made every effort to urge his tired horse over of reach of the approaching mad horse.

Cyclone was loosing his wild now, and Dan heard the hoarse, straining wheeze in his throat as he sprang forward, leap on leap, each time loosing a little ground to Beauty. Dan knew that if Beauty caught them it would mean death to both himself and Cyclone. He also realized that Cyclone was handicapped by his master's 180 pounds of bone and muscle.

Without his rider Cyclone could outdistance the smaller horse. With Dan on his back it meant death.

Over to the left there now appeared the group of rocks that marked the entrance to Cotton canyon. Among the rocks there grew a bunch of ragged cottonwood trees. If he could reach the trees there would be a chance for Cyclone to outdistance his pursuer. At any rate, if worse came to worst Dan had a revolver that would effectually put an end to the combat, only he did not have the heart to kill Kitty Nickleson's pet horse.

He pulled the rein, and Cyclone swerved to the left and Beauty's hoofs pounded menacingly behind Dan slipped his right foot from the stirrup and crouched low on Cyclone's straining neck. He whispered in Cyclone's laid back ear, and just as the horse swept past the group of rocks Dan slipped to the ground and fell staggering sideways just out of reach of Beauty's flying heels as he thudded past.

Dan got up on his feet with a strange ringing in his ears. He climbed the rocks and saw that Cyclone was getting away from Beauty, whose mania was burning out his own strength with each shrill scream of defiance that he sent after Cyclone.

All at once Beauty stopped short, whirled about and came tearing back toward the rocks.

Despairing of reaching Cyclone, he had remembered Dan.

Dan glanced hastily around. The canyon was too far away to gain refuge there before Beauty returned. The rocks on which he stood afforded no protection from a crazed horse. There only remained the cottonwood trees. The largest one sprouted

among the rocks where he stood. He climbed it.

Just as he reached the lower branches the crazy horse came to a standstill underneath and screamed shrilly up at his escaped quarry. Then he pounded the turf with his feet.

Dan looked down and saw something on the ground that sent the blood back to his heart, leaving his face white as death itself.

A pretty soft gray felt hat with a Spanish leather band about the crown was trampled in the grass. A little gray gauntlet glove lay beside it.

Those had belonged to Kitty Nickleson.

Where was Kitty Nickleson now? Sudden rage filled Dan's heart, and his hand flung around to his hip to draw his gun.

"Don't shoot," said a soft voice above his head.

Dan stared upward.

On the branch over his head sat Kitty Nickleson herself, rather pale.

"Please don't shoot Beauty—yet," she quavered. "Perhaps he'll go away, and after he is out a distance you might fire—where I couldn't see him fall!" A tear splashed down on Dan's upturned face. He shoved the gun back into his pocket.

"If you don't mind telling me, I'd like to hear how it happened," said Dan practically.

So Kitty related her story in disjointed sentences caused by the constant vibration of the tree as Beauty attacked it with dugged persistency.

Beauty had acted queer for several days. They had thought it was the hot weather. Another horse had gone mad on the ranges and had been instantly killed by one of the line riders. But they had not suspected anything serious to be the matter with Beauty, who was petted and always had the best of care.

She had started forth that morning for a solitary ride, and Beauty had acted strangely from the first. He had snapped at her once or twice as she leaned over his neck to pat him, as she was accustomed to do, and then all at once, just before she reached the bunch of cottonwoods Beauty had suddenly reared himself and unseated her.

Kitty had managed to roll herself out of reach of his vicious hoofs, and as she searched for her with his little bloodshot eyes she had scrambled to her feet and made for the cottonwoods. She had climbed up somehow just escaping his first angry lunge as he discovered her retreat.

There she sat, watching him trample her hat and gloves into the ground shuddering because she knew what would be her own fate if she lost her hold on the cottonwood tree.

"I am so glad you came," she ended.

"So am I," said Dan devoutly, and then added rather awkwardly, for he felt fiercely jealous: "I should not be surprised if some one came to rescue us. I happened to see Forbes riding toward your house. He will be looking for you."

"Oh, no he won't," she said confidently. "He was coming to say good by. He's going east for good."

"Why?" was Dan's involuntary question.

"Oh, I guess he's tired of ranching," said Kitty Nickleson.

Just then Beauty made one last effort to dislodge the couple in the cottonwood tree. He was partially successful.

Kitty Nickleson lost her hold and slipped.

"Oh, Dan, catch me!" she screamed as she fell.

Dan lifted his strong arms and caught her easily. There was just room for them to stand there in that crotch of the tree, while his arm supported her slender form. Her smooth cheek was dangerously near to his own. Her long lashes drooped over her eyes, and her curling sunny hair touched his lips. His arm tightened

about her, and she did not seem to object.

It was very wonderful.

"Kitty," he whispered boldly, "do you—do you mind?"

Kitty's cheek—yes, the rosy cheek of haughty Kitty Nickleson—came closer, closer and leaned against his own.

"Oh Dan: you are such a slow conch!" she murmured.

A little later, while her sweet eyes were hidden on Dan's broad shoulder, Dan's revolver spat forth a bullet that buried itself in poor Beauty's heart. And Dan was there to comfort Kitty.

## Halted and Tied.

An Illinois editor was recently married. He has lived through the agonies of a genuine wedding and has even told the truth about it in his paper. He has likewise done the world a favor by expressing his views of traveling double and of looking out at the world through two pairs of eyes.

Here's his story of it, right fresh from his pen:

"This life seems like a fairy dream I've been halted and tied. No more soup and hash. In the language of the immortal, I'm feeling bulky. I expect to feel different when I get to buying coal and other things. She, (that's my wife), says she'll be glad when we get home, I eat too much here, but I asked her if she remembers that old saying, 'We must live to eat.' Must close as want to attend the play, 'Two hearts that beat as One,' to night."

In regard to the next edition: Dump Mrs. Hill, slide the Panama Canal on the dead galley, kill Deacon Jones and put Sally Fickles to press on the last run, Bucklin's Arnie Salve twice and put those two linotype ladies. Wanted a house keeper and Wanted a House to Rent in the hell box. Have the office towel washed. You'll find it standing back of the ink keg. Am sending this as a night message because it's cheaper and things are quieter. Give our regards to all and buy up all the rice in the town and burn it.

Yours,  
SHY AND MRS. SHY.

## An Object of Pity

That part of our nature which we call the emotional is much more highly developed in women than in men. They are more sensitive, more tender, more sympathetic, more pronounced in their likes and dislikes, more susceptible to the extremes of pleasure and pain, and these refined mental qualities, no less than beauty of form and feature, make up the atmosphere of attractiveness and charm which always surrounds true womanliness.

The continued existence of these winning, engaging womanly characteristics depends to a very large extent on the regularity of the womanly functions and the condition of the womanly organs; and when these functions and organs become disordered or diseased the same mental qualities which are the glory of a well woman become the source of suffering and torture almost insupportable. Her cheerfulness is changed to a feeling of despondency, almost of despair, and she is haunted with forebodings of worse evils to come. Instead of being entertaining and companionable, she becomes moody and irritable, being unable to keep her mind from dwelling on her troubles. She becomes morbidly sensitive, imagining that she is being slighted or forsaken by her relatives and friends, and she has a most humiliating sense of her miserable condition and of her loss of her womanly attributes. If she is religiously inclined she is very liable to be oppressed with doubts and fears in regard to her spiritual condition, or to think that she is eternally lost. In addition to this, she has also to endure the most distressing aches and pains.

What makes the case still more pitiable, especially with married women, is the fact that few men understand or appreciate the extent of their suffering, or the seriousness of the troubles causing it. Many doctors even speak of these disorders as subjects for ridicule, and the poor sufferer often gets a reputation for being a crank or a cold when she more nearly approaches being a martyr.

As these disorders are due to a disordered condition of the womanly organs, it is evident that to effect a cure these organs must be restored to normal condition; or, in other words, the circulation, which has become congested and stagnant in these parts, must be improved so that the waste matter will be expelled, and the nourishment so badly needed be brought to these suffering organs. It is the waste matter, or broken down tissue, which is held in the blood vessels in these parts, that causes most of the suffering by oppressing the nerves located in these parts.

The remedy known as ORANGE LILY positively relieves this congestion and restores normal circulation in the disordered organs. It is an applied or local treatment, and acts wholly on these parts. ORANGE LILY is absorbed into the blood vessels in these organs, and as it has powerful antiseptic properties, it immediately acts on the waste matter held there, and causes it to be discharged. As this dead matter is discharged the nerves are relieved, the pains and mental troubles become less, and the nerves and blood vessels become stronger. ORANGE LILY thus proves its merit by actual, visible results. It acts as an anti-toxin in cases of diphtheria, Wm. L. E. A., Windsor, April 28th, 1909.

Dear Mrs. Currah—I am very grateful to ORANGE LILY for the change it has made in my life. When I commenced its use eight months ago I felt I would be supplied inside before the year was ended. The pain I suffered for ten years for death, and besides I would have such fits of depression and nervous twitching that I would have to scream. I had doctored with three different doctors for over two years, and had also used both the Pierce and Plinkham medicines, but none of them seemed to reach my case. I felt some improvement after the first month's use of ORANGE LILY, and have kept gaining ever since. I do not feel that I am entirely cured yet, but I am so much better than I was that I am sure I will soon be entirely well. I sleep well, and feel cheerful and happy, except that I am occasionally somewhat depressed, but these spells are getting fewer and milder. I have also noticeably improved in appearance. Enclosed find \$3 for which please send me two boxes of ORANGE LILY and one of Cerate Massage. I might add that the matter which used to be freely discharged, and which looked like a chicken's gizzard, is becoming very delicate, and I imagine that the circulation is pretty well restored. Am I not right in this? Your sincere friend, MRS. L. E. A.

### Free to all Sufferers

In order to enable every woman suffering from any form of female disorders to test the merits of ORANGE LILY, I will send to everyone who will send me her address, or the address of any suffering friend, enough of the remedy for ten days' treatment, absolutely free. As this is worth \$25, it is only because I know that it must give relief that I make this free trial offer. Further, if any woman wishes expert medical advice, and will write me a full description of her case, I will submit same to the Chief Medical Institute, Detroit, Mich., and they will write her direct without expense to her. ENCLOSE THREE 2-CENT STAMPS and address MRS. FRANCES E. CURRAH, WINDSOR, ONT.

### British Explorer Dead.

REACHED THE SOUTH POLE AND PERISHED WITH FOUR COMPANIONS ON RETURN JOURNEY.

CHRIST CHURCH, New Zealand, Feb. 10.—The Terra Nova arrived at Cape Evans Jan. 18, of this year, and obtained the following information from a shore party that Captain Scott had reached the South Pole on Jan. 18, 1912. He found Amundsen's tent and records. On the return journey the whole southern party perished.

Scott, Wilson and Bowers died from exposure during a blizzard about March 23, 1912. Their last camp was eleven miles south of One Ton depot, or 155 miles from the hut at Cape Evans.

Outfitted from exposure March 17. Seaman Edgar Evans died from congestion of the brain, Feb. 17. The health of the remainder of the expedition is excellent, including Lieut. Campbell's party, who wintered at Terra Nova Bay.

The following is the latter portion of Capt. Scott's record of the trip: "I do not think human beings ever came through such a month as we have known through, and we should have got through in spite of the weather but for the sickening of a second companion, Captain Oates, and a shortage of fuel in our depots, for which I cannot account, and finally but for the storm which has fallen on us within ninety miles of the depot at which we hoped to secure the final supplies, surely misfortune could scarcely have exceeded this last blow."

"We arrived within eleven miles of our old One Ton camp with fuel for one hot meal and food for two days. For four days we have been unable to leave the tent, the gale blowing about us. We are weak, suffering from lack of food, but for my own sake I do not regret this journey, which has shown that Englishmen can endure hardships, help one another, and meet death with as great a fortitude as ever in the past. We took risks. We knew we took them. Things have come out against us, and therefore we have no cause for complaint, but how to the will of Providence, determined still to do our best to the last."

"But if we have been willing to give our lives to this enterprise, which is for the honor of our countrymen, I appeal to our countrymen to see that those who depend on us are properly cared for. If we lived I should have had a tale to tell of the hardships, endurance and courage of my companions, which would have stirred the heart of every Englishman."

"These rough notes and our dead bodies must tell the tale, but surely, surely, a great rich country like ours will see that those who are dependent on us are properly provided for." (Signed) "R. SCOTT."

"March 25th, 1912"—Mrs. Robert Scott, traveling toward New Zealand on the steamer Aorangi to meet her husband, probably knows tonight of his death, although the short range of the Aorangi's wireless, which reaches only 300 miles, protects her grief from the world.

The wireless office here have a stack of messages, received by cable for Mrs. Scott, but all effort to get an answer from the Aorangi, since news of Captain Scott's death has been received, have been unavailing. This does not mean, however, that the vessel's wireless has not picked up some of the messages sent out.

The Aorangi will reach New Zealand via Tahiti and Samoa, on Feb. 27, and bring chance communication with some passing liner, no news may be received from her before that time.

### Serious Political Rioting in Japan.

SIX PERSONS WERE KILLED AND SIXTY FIVE SERIOUSLY INJURED

TOKIO, Feb. 10.—Six persons were killed and sixty-five seriously injured in the political rioting here today. The situation tonight is serious.

The Premier of Japan, Prince Katsura, was stoned by a mob in the streets. His resignation has been demanded by the people. A mob attacked the office of the newspaper, and threatened the dwellings of the ministers. They burned and wrecked police stations, tram cars, and private buildings. Detachments of troops patrolled the streets. Each newspaper office is protected by a guard of fifty soldiers, to whom live cartridges have been served. They have their bayonets fixed for instant use.

A mass meeting was held this afternoon in Ito Park, in the centre of the city. The mob started from there to attack Prince Katsura's dwelling. Police with drawn swords drove them back. In order to accomplish this, the police charged several times, wounding many of the demonstrators. The crowds assembled around the building of the newspaper Kokumin Shimbum with the intention of burning it. The staffs of the newspaper afforded strenuous resistance with live arms, swords and knives. One of the officers was killed by a bullet fired from the building. This only served to infuriate the mob, which then looted the oil shop and attacked the offices of other newspapers.

In a second attack on the Kokumin Shimbum building, bundles of straw soaked with oil were set on fire and thrown within. The fighting became desperate. Two more persons were killed and more than a score wounded. Earlier in the day great crowds collected outside the Diet, where strong forces of police were drawn up to protect the members. The disorders began by the throwing of missiles at the police. Several times throughout the morning serious collisions ensued, and in all three persons were killed and twenty-five wounded in that neighborhood. Many of the police were injured by the stone throwing. Strong pressure is being brought to bear upon the Cabinet for its resignation, and it is expected that it will resign before the Diet re-assembles three days hence. Marquis Saionji, the former Premier, has resigned the presidency of the Constitutional party out of respect for the throne. It has been reported that the Emperor has expressed wish that Premier Katsura not be opposed in his present course. The Constitutional party this morning resolved practically unanimously to fight the Government to a finish.

Many recent Prince Katsura's attempt to break up the opposition to his ministry by the use of Imperial rescript addressed to Manchu Islands. Hence the popular demand for his resignation. At nine o'clock this evening the troops of the Tokyo garrison were called out and soldiers are now guarding the residence of Premier Katsura and the private dwellings of the other members of the Cabinet.

### "Fruit-a-tives Cured Him"

CHRISTIANVILLE, ONT., Jan. 25th 1911  
"For over twenty years, I have been troubled with Kidney Disease, and the doctors told me they could do me no good, and that I would be a sufferer for the rest of my life."

I doctored with different medical men and tried many advertised remedies, but none of them suited my case.

Nearly a year ago, I tried "Fruit-a-tives". I have been using this fruit medicine nearly all the time since, and am glad to say that I am cured.

I give "Fruit-a-tives" the credit of doing what the doctors said was impossible.

I am now seventy-six years old, and in first class health."

GEO. W. BARKLEY.

In all the world, there is no other remedy that has cured so many cases of so-called "incurable" kidney disease, as "Fruit-a-tives". This famous fruit medicine acts directly on the kidneys—beating and strengthening them—and ridding the system of the waste matter that poisons the blood. 50c. a box, 6 for \$2.50, trial size, 25c. ## The Local Legislature Opened in Halifax Yesterday The Members From Digby County

H. H. MARSHALL, L.b. Conservative

J. W. COMEAU, Liberal

### Weymouth

Mr. Mackenzie, of Halifax, is in town on official business for a few weeks.

Mr. Sydney St. Clair Jones arrived on Saturday from a business trip to American cities.

Miss Eliza Melanson and mother left on Saturday's train for Marshalltown for a brief stay.

It is currently reported that Postmaster G. J. Hoyt has tendered his resignation after many years of faithful service.

Steamer Sinbad has been loading pulp, at Campbell's lower wharf, for Portland. She carries upwards of 10,000 bales.

A number of young lady school teachers from surrounding villages left on Saturday morning for Truro, to enter the Normal College.

Mr. Rex MacDonald is spending a vacation with his parents in town. Mr. MacDonald holds a prominent position in a Western branch of the Royal Bank of Canada.

Miss Nellie Journey and Mr. Lyman Bartlett were passengers to Boston on Saturday's steamer from Yarmouth. Miss Journey will visit relatives in Haverhill for a few weeks.

The cold wave which has arrived at last bringing snow in its wake, is more than appreciated by lumbermen, and the men of the surrounding villages are improving the opportunity afforded them to haul logs and wood.

The S. S. Westport was prevented by ice in the river, from making her regular weekly trip to this port on Monday,—the first time this winter. She docked and discharged her cargo at Weymouth North this week.

The youngest child of Mr. and Mrs. Augustus Brooks, while playing with matches Sunday forenoon, set fire to a bed. The fortunate discovery of the fire in its early stage, was the means of confining it to the bedroom in which it originated. The wind was blowing strongly at the time, and had the progress of the flames not been checked the result may have been far different. The contents of the room were destroyed.

### Bear River

Mr. and Mrs. Wm. Romans returned from Halifax on Wednesday.

Dr. V. L. and Mrs. Miller returned to their home in Turket on Thursday.

Mr. Lloyd Potter, acting manager of the Royal Bank, spent Sunday at Annapolis Royal.

Mr. Yeomans, representing the Great West Life Insurance Co., was in town for a few days last week.

Mr. Thomas Alcorn, one of Bear River's oldest citizens, passed away on Wednesday, Feb. 6th. The funeral took place on Friday of last week.

A "Pink Tea" was held on Saturday evening by the Mite Society of the Baptist church in Salvation Army barracks, which was well attended.

The members of Epworth League intend giving a concert in Oakdene Hall on Monday evening, Feb. 24th. The proceeds are for the benefit of the Methodist church.

An Evangeline Rink will be held on a large rink on Monday, Feb. 17th. The Bear River Brass Band will furnish music during the evening. Only those in costume will be allowed on the ice before 9:30 o'clock.

Rev. A. F. Newcomb, District Secretary for the Canadian Bible Society, gave an interesting address on behalf of the Society in the Baptist church on Sunday evening last, a union meeting being held on this occasion. The work which the Bible Society undertakes is of great importance to the world's welfare and deserves the support of all. The total amount given by Bear River contributors during the past three months towards the support of work of this Society is \$37.03.

### Little River

Miss Marion Frank is visiting friends at Sandy Cove.

Miss Marjorie Frost, who has been

visiting her aunt, Mrs. Graham, of Yarmouth, for the last few months, has returned home.

We are glad to hear that Mrs. Sydney Denton is bet or.

On Monday morning, Feb. 10th, at about 11 o'clock, fire broke out in the old homestead of Kelsey C. Denton, Sr., and in less than an hour everything was a complete ruin. They only saved the things from the lower floor and lost all of their clothing and bedding. What makes it more pathetic is that the old gentleman, who is now in the ninety-second year of his age, had lived there sixty-seven years, feels most keenly the loss of being turned out of his home at his advanced age. There was no insurance.

### Deep Brook

Mr. Robt. W. Purdy returned to Bridgetown last Wednesday.

Miss Mary Dittmars is spending the week with friends at Bear River.

Mrs. A. A. Shortliffe, of Digby, is spending a few days with her mother, Mrs. Ruggles.

Mr. George Adams met with a serious loss on Thursday night when his house caught fire and was burned. Mr. Adams, being a light sleeper, heard the fire and got up, but it was in between the partitions and had so much start that it was impossible to put it out. He, with the help of some boarders, who were with him for the winter, saved nearly all the furniture on the ground floor and about 30 barrels of produce from the cellar, but lost all of his and Mrs. Adams' clothing. Mr. Adams had no insurance and his loss will be in the neighborhood of \$2,000.00. Mr. Adams says that he will build again. The fire is supposed to have caught from some defect in the chimney.

(From another correspondent.)

Howard Parker, of Mattapan, Mass., is visiting his friend, Carl Nichols. Mrs. Elburn Nichols, of Bridgetown, is visiting her brother, Mr. Frank Ruggles.

Our primary teacher, Miss Mildred Adams, has been ill for a week unable to attend school.

To the Editor of the Courier.

DEAR SIR:—Will you kindly inform your readers that all farmers who require help during the coming season should write immediately to me for application forms. Employers should act immediately. Last year a large number of applications were received too late in the season for procuring satisfactory help. Applications will be filled in the order received.

## Nature's Way Is The Best.

Buried deep in our American forest we find bloodroot, queen's root, man-drake and stone root, golden seal, Oregon grape root and cherry bark. Of these Dr. R. V. Pierce made a pure glyceric extract which has been favorably known for over forty years. He called it "Golden Medical Discovery."

This "Discovery" purifies the blood and tones up the stomach and the entire system in Nature's own way. It's just the tissue builder and tonic you require when recovering from a hard cold, grip, or pneumonia. No matter how strong the constitution the stomach is apt to be "out of kilter" at times; in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body. The weak, nervous, run-down, debilitated condition which so many people experience at this time of the year is usually the effect of poisons in the blood; it is often indicated by pimples or blotches appearing on the skin, the face becomes thin—you feel "blue."

J. G. KENT, Esq.

"More than a week ago I was suffering with an awful cold in my head, throat, chest, and body," writes Mr. JAMES G. KENT, of 710 L Street, S. E., Washington, D. C. "Some called it La Grippe, some pneumonia. I was advised by a friend to try a bottle of your Golden Medical Discovery. I tried a bottle and it did me so much good that I got into saying it is the greatest and best medicine that I ever took. My health is much better than it was before using your medicine. It does all you claim for it and is satisfactory."

*Ladies!*

WHICH appeals to you more? A truth backed by a bond of good faith, or a mere claim?

Judge this:

REGAL Flour yields the best quality and the utmost quantity of bread per barrel of any flour in the world. Costs a bit more but you save on the quantity it bakes. Lovely loaves, white and light. Fine flaky pastry too.

Essential point:

Try one barrel. If we have not here signed our name to the truth, your dealer will return your money. Then we must pay him. And worse still, we shall lose your good opinion forever. Remember—Regal—the flour that is used exclusively by many of the best bakers in the provinces.

## "COPEY" OF HARVARD.

The Idol of the Students, Whom He Bullies and Charms by Turns.

Assistant Professor of English Charles T. Copeland is known as "Copey" by the university and by hundreds of Harvard graduates, and the nickname shows how much he is loved. But there is no one of the teaching force more feared and respected than he.

If you want further proof go to the Union, the great university clubhouse, some night when Copeland reads aloud.

The dining room is crowded with "sports," "grinds," athletes, dilettanti—two or three hundred of them—the most representative crowd ever gathered at Harvard except for a football game.

They greet him as they would greet one of their classmates suddenly become famous or a newly elected class officer, as some one friendly and particularly of themselves. When he reads they are unconscious of anything else.

Kipling, Bret Harte, Shakespeare, Burns, Conrad, Hardy, the Bible, Boswell—they will take anything he gives them and ask for more.

Yet he has a wonderful gift of knowing what will please the fellows. Sometimes he will read something of his own about great men he has known or studied or a Christmas sermon or sometimes he just talks.

In between he scolds his audience, bullies them, shames them for their ignorance, tells them that they ought to read, grumbles at the light or the stuffiness of the room with such drollness of phrase, such sympathy with youth, that they love it all.—American Magazine.

## WATER POWER.

Its Wonderful Possibilities For the Generation of Electricity.

While the hydroelectric source of power is still in the beginning of its development, such is the number of natural sites available that no calculation can be accurately made as to the extent to which it will be installed throughout the United States for industries, illumination and other purposes.

We have fairly accurate knowledge of the principal water power sites through the investigation of the geological survey and hydrographic experts. It has been estimated by Professor W. C. Unwin that the total available water power in the United States is more than 80,000,000 horsepower and that this can be increased to 150,000,000 horsepower by storage reservoirs. It is estimated that the difference in cost of steam power and water power is \$10 per horsepower per year at the minimum. Thus the manufacturing regions of the southern states alone, which are depending on steam instead of water power, would save \$80,000,000 per year.

The development of the water power at Niagara indicates the possibilities of the manufacture of electricity. The power that Niagara might generate is estimated by Professor Unwin at 7,000,000 horsepower. The same authority estimates that there is fully 2,000,000 horsepower available on the upper Mississippi, while the southern Appalachian region can furnish a minimum of 2,000,000 horsepower.—Canadian Magazine.

## New Views of Mars.

Remarkable photographs of the planet Mars have been taken by M. Tikhonoff, states the Gazette of the Russian observatory at Pulkovo. The superior definition of the new photographs is due to the use of improved plates and colored screens, which have enabled the astronomer to obtain fine contrasts in his pictures. The best photographs of the "canals" of Mars were taken through red and orange screens, and from these, it is claimed, it would appear that the "canals" are filled with water or at any rate something which has a sea green color. Further studies of a similar kind in connection with the polar cap indicate that ice is present there and not snow.

## Fewer Medical Students.

Fewer men are studying medicine, fewer M. D.'s are being graduated, and the number of women in medicine is decreasing. The Journal of the American Medical Association says that the total number of medical students in the United States for the year ending June 30, 1911, was 10,780, a decrease of 1,740 below 1910, a decrease of 2,350 below 1909, a decrease of 2,810 below 1908 and a decrease of 8,050 below 1904, when the highest number of students was enrolled. The number in 1911 was lower than in any year since 1900.

## Modern Fame.

Fame for a singer begins from the moment he sings into a gramophone. The most famous actor today is, of course, Sir Herbert Tree, whose fame began not with being knighted, but when first he acted to the bioscope as Cardinal Wolsey. The highest fame of all is to be in a wax figure in the collection of Mrs. Tussaud.—London Saturday Review.

## DIGBY WEEKLY COURIER

Digby, Feb. 21, 1913

## MONEY GOING OUT OF TOWN.

For years the COURIER has urged the necessity of our people spending their money in Digby and neighboring towns instead of sending their money to departmental stores in the upper provinces, and we think we have accomplished quite a lot along these lines, as at the present time if our own storekeepers do not carry the articles in stock required by the customer they are either asked to obtain them or else a mail order goes to Bear River, Weymouth or Annapolis, in other words the money is spent in this part of the province where we feel its benefit is not directly, indirectly. Now, we wish to call attention to another way of sending money out of town which is of far greater injury to Digby than the mail order business.

Instead of our business men and those who have retired from business encouraging some manufacturing plant in our town they are investing all their spare capital out of town and in many cases out of Nova Scotia to assist enterprises elsewhere that would not only pay just as well in Digby but would at the same time build up the town in which they reside or in which they are now doing business.

A knitting mill, a cannery, a shoe factory and dozens of other enterprises would flourish here if we had the capital.

Digby, we know, contains no wealthy men, but a slick promoter of some enterprise abroad, can drop in on our town and garner up \$20,000 within 24 hours while not a cent is being invested in a similar factory at home.

Digby has good shipping facilities as any town in the maritime provinces. Why is it there is hardly a manufacturing plant in our town?

The town officials have always been ready to encourage manufacturing, what's the matter with the people?

## Death of Mrs. P. L. Wright.

A despatch from Halifax Friday announcing the death of Mrs. Lucy Ann, wife of P. L. Wright, Digby, appeared to cast a gloom over the entire community. As reported in our last issue Mrs. Wright, accompanied by her daughter, Miss Gladys Wright, went to Halifax to have an operation performed at the Victoria General Hospital in that city for cancer. The operation was performed by Dr. Osholm. She came out of the ether, spoke to those around her, but passed away at 2:45 the same afternoon. Her remains were brought to Digby via Saturday's express. The deceased was 45 years of age and had a host of friends who deeply mourn her death. She was of a very affectionate nature, and noted for her kindness to her husband and family and was always ready to assist those who were sick or in any way required aid. In fact was highly spoken of by all who knew her and her death is keenly felt. Besides her grief-stricken husband, she is survived by three daughters and one son: Gladys, Goldie and Helen at home, and Mrs. Edward Hayden, of Bay View.

The funeral took place Monday afternoon with interment in the Methodist cemetery, the services being conducted by Rev. L. Daniel, pastor of the Digby Methodist church. The pall bearers were J. F. Milberry, Arthur R. Turnbull, S. W. Titus and A. D. Daley. The COURIER extends its deepest sympathy to the bereaved ones.

## Digby Will Have a Skating Rink

MR. C. E. WALKER WILL CONSTRUCT A BIG ONE ON HIS PROPERTY AT THE SOUTHWIND.

In an interview with Mr. C. E. Walker, of the Digby, last night, he informed the COURIER that the business on his open rink at the South End this winter has warranted the building of a big rink suitable for skating in winter and rollers during summer.

The building will be one of the largest of its kind in the province and will be fitted with every modern convenience for the public. The tourists have been asking for a roller rink for several seasons and he hopes to have something this year that will exactly meet their requirements.

In the winter Mr. Walker will devote considerable attention to hockey. He hopes to have a good team organized in Digby, and will arrange for a series of matches during the season. He will also pay particular attention to masquerade carnivals which are evidently very popular with Digby people. We wish the new enterprise every success.

## Bijou Dream Voting Contest.

## Married in Troy, New York.

We reprint the following from the Troy N. Y. Record, the bride being a daughter of Capt. and Mrs. A. W. Warner, of Plympton, Digby county. Announcement is made of the marriage of Frank Eaton of this city and Miss Mildred M. Warner of Digby, Nova Scotia, which was solemnized on Tuesday evening, Feb. 19th, at 7:30 o'clock at the home of the groom's mother, Mrs. E. A. Eaton, 155 Fifth Avenue, Rev. John Duffield, pastor of the Hedding Methodist church, performed the ceremony.

BODY FOUND  
ON THE SHORE

Lionel Dakin, of Centerville, Drowned Yesterday Noon.

HIS BROTHER DISCOVERED THE BODY AT SHINGLE COVE ON THE BAY FUNNY SHORE, JUST WEST OF TROUT COVE.

A sad event occurred yesterday noon which has cast a gloom over Centerville, and in fact the whole of Digby Neck.

It appears that Lionel Dakin, who had recently returned from the hospital at Halifax where he had gone for special treatment, left his home yesterday morning and walked towards the Bay Funny shore, as he did not return to his home as usual, at noon, neighbors began to look for him. His tracks were soon discovered in the snow along the Bay Funny shore, leading west towards Shingle Cove. Walking close to the edge of the tide, he evidently slipped and fell into the cold waters of the Bay. He was drowned. His body was discovered by his brother Kenneth. An inquest was not thought necessary.

The deceased, who was about 31 years of age, was one of Centerville's most prosperous boat fishermen and leaves a comfortable home in this village. He is survived by a wife and two children, who have the sympathy of a host of friends in their sad and sudden bereavement.

Mr. Dakin was a son of the late William M. B. Dakin, who was drowned from a boat off Centerville several years ago. He leaves, besides his mother, five brothers and two sisters, Kenneth Dakin at Centerville, Roy, at College in Chicago; Elmer, at King's College, Windsor; Guy, in Winnipeg; Boyd and Mrs. H. H. Haskell in Waltham, Mass., and Mrs. Aubrey Brown in New London, Connecticut. He was a member of the Centerville Methodist church and also the Knights of Maccabees.

The funeral will take place from his late home Sunday, with interment at Centerville, the services being conducted by Rev. Joseph Hale, pastor of the Digby Neck Methodist churches.

## Married in the West.

(Reprinted from a Western paper.)

Mr. Henry L. Sanderson and Miss Dora M. Hubley, of Centerville, Digby Co., Nova Scotia, were united in marriage on Tuesday, January 22nd, at a ceremony performed by the Rev. David Christie, at his residence, Kirkby St., Winnipeg, Canada. The bride wore a travelling suit of brown with hat to match, and was unattended. The happy couple left Winnipeg to visit other western cities, stopping at Regina and Stoughton, and returning to Tase, Sask., the following Tuesday. They were given a reception in their honor by the groom's sister. There were many present from various parts of Canada. The bride wore a reception dress of white silk, draped with shadowy cluny lace. The wedding gifts were numerous and costly, including a cream pitcher and silver bowl of cut glass from Mr. Bradshaw of Tase; table cloth from Daniel Graham; silver stand with cut glass vase from Mrs. Cossaboom; a tea set of hand painted china and silver cake plates, bread trays and a dinner set. A table cover of Batenburg work done by the old men in one of the homes in England was given by James Smith; a china clock and other things too numerous to mention. The bride, who is well known in Boston, Lynn and Waltham, is the second daughter of Mr. and Mrs. Ross Hubley, of Centerville, Digby County, N. S. Among those present at the reception were Mr. and Mrs. Solomon Graham, of Centerville, now living at Tase, Sask.; also Mr. Anny Cossaboom and Daniel Graham, of Lake Side and Centerville, Mr. and Mrs. Sanderson will be at home to their friends after March 1st, at Tase, Sask., Canada.

## Death at Collodan.

At his home at Collodan on Saturday, the 15th February, 1913, there passed away Joseph White, aged 72 years and 6 months. His affliction, which lasted a year or more, he bore with Christian resignation to the Divine will. He was married to a wife, two daughters, Mrs. Chas. Mount, Acadville, and Mrs. Clarence W. Handsaker, at home, with whom he lived; two sons, Mrs. John Theriault and Mrs. Mary Raymond, Mink Cove; three brothers, Benjamin and J. H. of Malden, Mass., and Frank, of Belliveau's Cove, and nine grandchildren. In early life he followed the sea, sailing out of Weymouth in Campbell's ships. On one of these voyages, while in Glasgow, Scotland, he met and married a devoted woman who is now left to mourn a kind husband and father. His military experience began when he enlisted in Co. K, 3d Regt., New Hampshire, Vol. Infantry. He served through the war, was honorably discharged, and at the time of his death, was on the U. S. pension roll at \$15.00 per month. The funeral was on Monday with interment at Collodan, and was largely attended by many mourners who will remember him as a kind friend and a good neighbor.

## Boys a Drug Business.

ANOTHER DIGBY MAN'S SUCCESS IN THE WEST.

Mr. Guy N. Cousins, son of Mr. and Mrs. B. W. Cousins, Digby, has purchased a \$10,000 drug business in Maple Creek, Sask., and is doing an excellent business in that section. Mr. Cousins began the drug business with Mr. H. E. Jones, Digby, and a few years ago went west where, we are pleased to state, he has met with continued success until he is now his own boss with a bright future in a rapidly growing town.

## A Good Entertainment.

Col. Bullard, of London, E. gland, delivered an excellent lecture in the Methodist hall, Digby, last Tuesday evening, under the auspices of the Salvation Army. He gave a very interesting description of life in the far east and his beautiful colored stereoscopic views were far above the average usually displayed at an entertainment of this sort. All who were present speak very highly of the entire programme. The Army is carrying on a good work and are worthy of the public's heartfelt support.

## OF A LOCAL NATURE

—Mass will be celebrated in St. Patrick's R. C. Church Sunday, at 11 o'clock.

—The Digby County Farmers' Association will hold a meeting at Brighton, Feb. 22nd.

—An interesting match was played in Mr. W. J. Oahoon's bowling alley Monday night.

—The first degrees will be conferred on several candidates in St. George's lodge of Oddfellows to-night.

—Rev. A. H. McLeod will conduct services at South Range 10:30 a. m., North Range 8:00 p. m., and Hill Grove 7:30 p. m. on Sunday, Feb. 23rd.

—Mr. E. J. Warner, whose adv. appears in another column, has sold a valuable tabular separator to Mr. Martin Comeau, Joggins Bridge.

—Mr. William Bacon, of Hill Grove, is becoming quite an artist. His recent sketch of Digby Gut from the hillside near Smith's Cove, is attracting considerable attention.

—Mr. C. E. Walker will hold another masquerade carnival on his rink at the south end next Wednesday evening, Feb. 20th. If the weather is favorable no doubt the attendance will be large.

—C. P. R. engineers are surveying the mouth of the Joggins at Gully's Point. It is said that a railway bridge will be built there, thus cutting out several smaller bridges between Digby and Smith's Cove.

—Rainbow Lodge, No. 1181, O. O. F., Tiverton, conferred the first degree on three candidates on Wednesday evening the 19th. Although this is a new lodge the officers and members are doing excellent work and have one of the nicest and best kept lodge rooms in this part of the province.

## Another Church.

THE WESLEYAN METHODIST CONNECTION IS THE NAME OF THE NEW BODY THAT SEEMS INCORPORATION.

OTTAWA, February 20.—Parliament is to be asked to incorporate a new religious body this session. According to the official notice it is to be called the Wesleyan Methodist Connection, or Church. The application comes from Morrisburg and is signed by Irwin Hilliard on behalf of the applicants. As set out in the notice, the powers asked for are "to authorize such corporation to meet and adopt, frame or repeal constitutions, make regulations for enforcing discipline in said church and to empower said corporation to acquire, receive and take conveyance of such lands, money, mortgages, securities or other property as may be required for the purpose of chapel, or chapel, college or school, or for purposes of printing and publishing house or houses in connection with said church and for power to undertake and carry on such business of printing and publishing, and for authority and power to borrow and support such college, colleges and schools and such printing or publishing houses and a book depository or depositories in connection therewith, and to take and receive the benefit of any gift or devise by will or otherwise in its corporate name or otherwise, and to give said church all necessary powers connected therewith."

## Automatic Feathering Propeller.

Attention is called to the advertisement of the Noyes Machine Co. This Company recently opened a Canadian Factory at St. John, N. B., for the manufacture of the Thompson automatic feathering propeller. The propeller has been on the market for several years in the United States, but on account of the patent law the company were unable to ship them into Canada until they had opened a Canadian factory. This has now been done and the company are prepared to look after the Canadian business. The Thompson Automatic Feathering Propeller is especially designed for the use of auxiliary vessels and motor boats, and the principle of the propeller is that when the engine is not running the blades automatically feather forward and aft, but as soon as the engine started the blades automatically assume their position ahead or astern as the case may be. The propeller requires absolutely no attention from the operator as it performs its work automatically. It is not a complicated device and it is absolutely guaranteed to give satisfaction by the manufacturer.

## Two Months on Trip to Boston.

With samples of mud from almost every harbor between here and Parrsboro (N. S.), clinging to her anchors, the little British schooner Klondyke edged into Boston Tuesday on the skirts of a gale that evidently had been pursuing the coaster to administer a sharp warning to keep in winter quarters till bluebirds and swallows come.

For two months the schooner had been on the passage to this port dodging gales pretty much all the time. Her owners had been tempted to venture a trip with a cargo of lumber because rates are quite high and tonnage scarce. Captain Willoughby believed he could deliver the cargo without getting the vessel into trouble during good weather, so the Klondyke occupied about sixty days in covering the distance.

## Merchants' Day in Annapolis.

Wednesday was merchants' day in Annapolis. The town was well filled with people, all bustling around taking advantage of the excellent bargains and returning home at night loaded with parcels. The merchants, who were the biggest advertisers, did the largest share of the business. Messrs. A. R. King & Son, "the Clothing Kings of Annapolis," certainly had a busy day. They paid the railway fares of the out of town shoppers who spent \$10.00 at their store, and of course, in the clothing business, this amount could be easily reached, notwithstanding the excellent bargains. The hotel men and restaurant keepers also did a rushing business at meal time. The special train which left Annapolis at 7:15 for Digby brought back a well satisfied lot of passengers, the majority of whom were from Upper Clemente, Clemente Point, Deep Brook and Smith's Cove, very few coming through to Digby.

## To Build Dredging Sows.

QUINCE, Feb. 20.—George T. Davis & Sons have been awarded a contract to build at their shipyards, Lewis, six steel sows for the Dominion Department of Public Works.

## Golden Wedding.

MR. AND MRS. E. C. DODGE, FORMERLY OF DIGBY, CELEBRATE IN LYNN THEIR 50TH WEDDING ANNIVERSARY.

(From the Lynn Daily Item.)

Beneath a canopy of golden wisteria, with every room in the house beautifully decorated in gold and white, surrounded by every one of their six children and a host of friends, Mr. and Mrs. Edmund C. Dodge observed the golden anniversary of their marriage at the home of their daughter, Mrs. William A. Kenney, 95 Newhall street, Wednesday evening.

It was an elaborate affair, and a notable event in the lives of the couple, who do not do much for their ages, and are in the very best of health. Entering the home, guests were confronted with decorations that were simple but attractive. The guests were ushered up the staircase, which was entwined with gold and white, where they removed their wraps. Then they descended into the sitting room, all in white, where they awaited presentation to the receiving party. In the parlor, all in gold decorations, under the large canopy of wisteria, studded with electric lights, stood the receiving party, consisting of Mr. and Mrs. Dodge, Mrs. Addie Burton, who was the bridesmaid at the wedding; Mrs. Wilbert Burnham, a daughter, and Marion Burnham, a grand daughter, making three generations in the line. The guests were presented by the following ushers: William A. Sullivan, Charles A. Dupar, Jr., Everett Tarbox and Irwin Burnham, and nearly 100 persons tendered congratulations on the occasion.

During the reception selections were rendered by the orchestra of the Galahad club of St. Stephen's church.

In the dining room, which was in gold, stood a heavy laden table, from which dainty refreshments were served to guests by the daughters and sons.

The gift room was in charge of Miss Sadie Mansur, and here the couple were well remembered with choice gifts of cut glass, gold painted china and bric-a-brac, pictures and \$300 in gold, being the gift of the children, each contributing \$50. The guest book, which will be a cherished memento of the occasion, was in charge of Miss Helen Gatchell of Salem.

Mr. and Mrs. Dodge were married in Digby, N. S., Feb. 12, 1863, by Rev. H. P. Almon. They came to Lynn in 1891 and have since resided here. From the union six children were born, all of whom are living, and all were in attendance. Mr. Dodge was born in Belle Isle, Annapolis county, N. S., and after coming to Lynn, went into the employ of the General Electric Company, where he is still engaged. Mrs. Dodge was born in Digby, N. S., and is 48 years of age, and her life companion has just passed his 76th year. They are both hale and hearty and good for many years to come. The children are: Mrs. William A. Kenney, Mrs. George Bosson, Mrs. Wilbert Burnham, William S. Dodge, Henry H. P. Dodge and Frank E. Dodge, all residents of this city, except Frank E., who is a musician on the U. S. S. Dolphin, now at Washington, and who was home for this occasion.

The evening was a most enjoyable one to all, and great credit is due to Mrs. Kenney, who managed the affair, and to Mrs. W. H. Stimpson, of Winthrop, who did the decorating.

Mr. and Mrs. Dodge are both members of St. Stephen's Episcopal church, and Mrs. Dodge has been the trusted treasurer of the Parish Aid society for the past 10 years.

## THE GOLDEN WEDDING.

Dear wife, I've been thinking of the fast When we stood side by side; My happiness was then complete When you became my bride. We've shared each others joys and cares, We've every burden borne, And now we've reached this glorious day, Our fiftieth wedded morn. The fifty years have passed away, How quickly they have flown. We are as little children yet, Only a little older grown. The hand of time is on our brow, We've faded some I see; But you are just the same, dear wife, You are just as young to me. Then let us celebrate this day Which few do ever see. The fiftieth morn of wedded life Their Golden Jubilee.

Why should we weep or sigh There's only two people in Lynn today That's my good wife and I. The Lord to us six children sent To be his own dear boys, To be his own dear girls, dear wife, To me, he sent the boys. Then let us be young and gay, We are no older grown. We're just as old as we make ourselves, And gather fruit from seed that we have sown. When with the sunset of our lives We leave this earthly sphere May we all meet with those above And be an unbroken circle there. Though we are strangers at this time, My fondest wish to thee, May you both be spared to see Your Diamond Jubilee.

(Dedicated to Mr. and Mrs. Edwin C. Dodge by G. K. Doane, 68 Warren St., Lynn, Mass., 2-10-13.)

## Death of Joseph L. Comeau.

Mr. Joseph L. Comeau died at his home, Marshalltown, on the seventh instant, at the advanced age of eighty-three years. He is survived by one son, Phillip, residing near; and four daughters, Mrs. Theophilus McPherson, Weymouth; Miss Margaret at home; Mrs. Augustus Doucett, Brighton, and Mrs. Edward Robicheau, Ipswich, Mass. and seventeen grandchildren. He also leaves a sister, Mrs. Oliver Deveau of Brighton. Deceased, who was well and favorably known by all his acquaintances, was a consistent member of the Roman Catholic church, bore his sufferings, which were long and painful, with great Christian fortitude, trusting in God that all would be well. The funeral services, which were held from his late residence on the tenth, were conducted by Father Theobald, with interment at Weymouth. Great sympathy is felt for the bereaved relatives, especially the grandsons Walter, who has always lived with him.

He was a member of the Baptist church, a charter, and honorary member of Brilliant Star Division. He joined the Masonic Lodge about 40 years ago. Funeral took place from the Baptist church Sunday afternoon at three o'clock. Services were conducted by Rev. Mr. Eaton at the church after which the Mason's Lodge, of Freeport, took charge. His four Mason brothers, Hauford Outhouse, Lyons Outhouse, Frank Ruggles and Delma Outhouse, were pall bearers. He leaves to mourn their loss, a widow, one daughter, Mrs. Thomas Clifford and a large number of friends. We extend our sympathy to the mourning ones.

## Will Give \$500 To Sick Readers of The Courier

Famous Scientist Who Originated the Now Wonderful "Home Treatment" Offers \$1.00 Package Free to Sick and Ailing.

In order that every reader of the Courier who may not have heard of this wonderful "Home Treatment" may have an opportunity to test this celebrated medicine, the now famous scientist, Dr. James W. Kidd, offers to give absolutely free a full \$2.81.00 package to five hundred readers of this paper, to prove the wonderful claims which have been made for it. In making this offer the scientist said: "I know that there are many people who have been suffering for years with some chronic disease and many of them have spent large sums of money seeking a cure. I know that these people hesitate about investing money in medicine because they have despaired of ever getting well. Thousands have told me that story and many thousands of the same people have told me afterwards that my treatment had cured them after doctors and everything else failed. I want to prove to a limited number—no matter what the disease, no matter how long they may have suffered, no matter how blue and discouraged—that my treatment really and actually does accomplish the wonderful results that have been reported."

People who suffer from Rheumatism, Kidney Trouble, Stomach Trouble, Liver or Bowel Disorders, Catarrh, Bronchitis, Asthma, Chronic Coughs, Weak Lungs, Lumbago, Piles, Urinary Disorders, Female Weaknesses of any kind, the weak, worn out, broken down and despondent will be delighted at the offer of a few doses. This wonderful treatment creates an appetite and helps the digestive organs to carry on their functions as they should. It strengthens the kidneys, too, and drives rheumatism poisons from the blood as if by magic. That is why people who try it become so enthusiastic.

Any reader of the Courier who will try this extraordinary medicine that has created so much excitement by its cures can obtain absolutely free a full \$1.00 treatment by simply filling in the coupon below or writing a letter describing their case in their own words, if they prefer, and mailing it today to James W. Kidd, Toronto, Canada. No money need be sent and no charge of any kind will be made.

As this offer is limited, you should write at once, in order to be sure to receive your free treatment.

To Carry Canadian Flag North.

STEFFANSON'S EXPEDITION WILL BE FINANCED BY THE CANADIAN GOVERNMENT WITHOUT OUTSIDE AID.

OTTAWA, February 14.—Negotiations which Vilhjalmur Stefansson is conducting with the Canadian government for the financing of his northern expedition are progressing and it is now practically certain that the start will be made, probably in May. A final understanding, however, has not yet been reached as to the terms under which the expedition will proceed, but it is understood that Stefansson has practically agreed to the Canadian government assuming the sole direction. The amount of guarantee is about \$75,000.

The original idea was that the government should make up the difference between what was guaranteed by the National Geographic Society of the United States and the American Museum of Natural History. From the present outlook, however, this will be changed, the explorer released from his American connections and the whole trip will be financed by the Canadian government.

Stefansson expects to be absent three winters and four summers if successful. He will go to the territory to the far north of the Canadian mainland to plant the flag and make scientific observations. While the expedition will be under the immediate direction of the geological survey, the interior and marine departments will be interested. A number of Canadian students, temperamentally trained for the work and possessors of scientific knowledge will be taken along. The explorer's idea, as he states it, is "to round off the map."

### Motor Boating.

ENGLISH CUP RACES.

NEW YORK, Feb. 20.—Commodore H. H. Melville of the Motor Boat Club of America has received a letter from the Royal Motor Yacht Club of England which gives most interesting details of the arrangements for the races to be held next summer for the British International Cup. The races will be held in the second week of August. The course will be right-handed, that is, all marks are to be left on the starboard hand.

This decision is important to those motor boatmen of this country who contemplate competing in the trials for this international race, because the trials will be run under the same conditions that govern the international event and in the waters of this country the courses are left-handed, which means that all marks must be left on the port hand. It will be a safe bet for helmsmen to have some practice over a right-handed course before competing in the trial races, or they may be confused.

Sometime ago the British Club asked if the Motor Boat Club thought that a Canadian built hull with engine built in England would be eligible to compete as representing England or Canada in the contest for the big prize. The letter received also refers to this inquiry. It is the opinion of all countries interested that the Canadian hull with British engine would not be eligible.

### Splendid Vessel.

THE S. S. PASTOREK MAKES A RECORD RUN.

(Kingston, Jamaica) Cleaner, Jan. 30.—The magnificent steamship Pastorek, Queen of the United Fruit Co's fleet, and the fastest, fastest and most luxuriously appointed vessel on this route made her first appearance in Kingston harbor at 6:55 p. m. yesterday.

It has been a great maiden voyage for the grand steamer, as she completely smashed the record for the 1,000 knot trip between New York and this island, doing the journey to Port Antonio in three days and 20 hours.

The Pastorek left New York on the 25th inst., under command of Commodore Henshaw and was at Port Antonio at 11:30 a. m. yesterday, making, as said before, a record run between the ports. She landed a number of visitors for the Titchfield Hotel, and in the afternoon steamed for Kingston, reaching her dock at five minutes to seven, at which time she brought 7 passengers from New York for the port.

The Pastorek's arrival was quite unexpected as she was not looked for before to-day—in fact this afternoon—she was thus nearly 24 hours ahead of her regular schedule. The fine vessel, of nearly 8,000 tons, has already been described in the *Gleaner*. She leaves 2 o'clock to-morrow for Colon.

### Cable Messages.

AN INVENTION THAT WILL MAKE POSSIBLE THE USE OF THE MORSE DOT AND DASH.

NEW YORK, February 15.—The MacKay company announced today the completion of an invention that is intended to revolutionize the system of transmission of messages by submarine cables. The device, called a battery reverser, an invention of John Gott, chief electrician of the company, makes possible the use of the Morse dot and dash signals instead of the "Morse" system, which supplanted the "Morse" system.

Under the new system, it was announced, it will be possible to send messages from San Francisco to London by an ordinary land line Morse key and have them read on a Morse sounder. In explanation of the Gott device the Mackay companies said: "Mr. Gott's invention makes the cable service as flexible as the land service. It links up the cables or land lines on both, or alternates cables and land lines and works them from any point or origin to any point of destination between the most distant parts of the world."

\$15,000 Fox Dies in P. E. Island.

CHARLOTTETOWN, Feb. 14.—A black fox, worth more than its weight in gold, died last Wednesday at the owner's ranch, in New Haven. The fox was one of a pair bought recently for \$15,000 and its death is a serious loss to its owner. It is rumored that in this case "death does not end all" and that they are going to be revivified. The animal was supposed to be one of a pair of young ones and its death, so the story goes, is attributed to the infirmities of old age. In proof of the truth of the story, it is understood, the jaws of the deceased fox have been preserved to take the witness stand at the post mortem inquisition which are shortly to be held.

## HOT FLASHES.

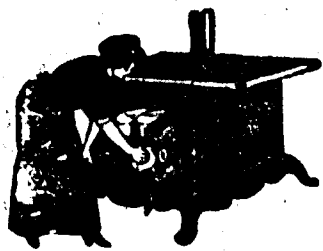

Women in middle age often complain of hot flashes. They are at that stage of life when their delicate organism needs a tonic and helping-hand which only Dr. Pierce's Favorite Prescription can give them. Many women suffer needlessly from girlhood to womanhood and from motherhood to old age—with backache, dizziness or headache. A woman often becomes nervous, "broken-down," irritable and feels tired from morning to night. When pains and aches rack the womanly system at frequent intervals, ask your neighbor about

## Doctor Pierce's Favorite Prescription.

Mrs. J. L. Lator, of 321 S. Benton Street, Baltimore, Md., says: "I wrote you about nine months ago, telling you of my condition. I have a fine baby girl—she weighed nine pounds when born. She is my third child and the strongest of them all. My suffering was only for two hours. I took several bottles of 'Favorite Prescription' and one of Dr. Pierce's Smart-Weed. I never had a well day before I took your medicine. I was surprised how well I felt—could eat—was always hungry, and never had a sick stomach. The nurse who was with me said the medicine was wonderful because I got along so nicely after having had so much trouble before. She intends to recommend it to all her suffering patients. Everybody is astonished at me because I only weighed 100 pounds before and now I weigh 135. I have had several ladies come to me and ask about Dr. Pierce's medicine. I am willing to recommend it to all who suffer and want help. If any want information I will be glad to give it."

## MY FREE TRIAL TREATMENT MAY CURE YOU

Dear Mrs. Curran, I feel so very much better after using the 10 days' treatment of ORANGE LILY you were kind enough to send. I will not require any more. In fact, I feel entirely well, and it is now a month since I stopped using the treatment.

Similar letters to the above are not infrequent, though, of course, such cases are not of long standing. Most women who have suffered for any length of time will require to use ORANGE LILY longer than the 10 days' treatment. In order to effect a complete cure, but in every case they will be perceptibly benefited. Further, the benefit will be permanent whether they continue to use ORANGE LILY or not. It is not taken internally and does not contain any alcohol or other stimulant. It is an applied treatment, and acts directly on the suffering organs. In all cases of women's disorders, these organs are congested to a greater or less extent, and in order to relieve this congestion just as positively and certainly as the action of ammonia or soap on solidified fat. It is a simple chemical problem, and the result is always the same—a step towards better health and complete cure.

In order that every suffering woman may prove its good qualities, I will send enough of ORANGE LILY for 10 days' treatment absolutely free to each lady who will send me her address. MRS. FRANKLIE E. CURRAN, WINDSOR, ONT. 10

## HAS MADE GOOD.

G. T. Somers is Youngest Head of Toronto Board of Trade.

The election of G. T. Somers by nomination, president of the Toronto Board of Trade, is but another instance of the boy born in the country making good in the city.

G. T. Somers, whose first name is Gabriel, is the youngest man to hold this important position. He is yet 45 and has been residing in Toronto only eight years. While a member of the Board for several years, yet it is only during the past three years that he has been vitally active in its deliberations. So dynamic is he, however, that much of its recognized and growing influence has been due to his energetic suggestion.

President Somers is among the big men of that city. He is prominently identified with the Sterling Bank of Canada, the Crown Life Insurance Company, the Canada Grain Company, and the Ontario Securities Co. He is a member of the Toronto Club, the National Club and the Reform Club of Toronto, and of the Manitoba Club, Winnipeg. In religion he is a Methodist. In politics, though a life-long Liberal, he was one of the eighteen signatories of the memorial against reciprocity. He is happily married these sixteen years.

He was born in Barrie, one of a family of eleven, ten of whom were boys, all living but one. His mother and father still live there. On his mother's side he springs from the north of Ireland, where his grandfather held high office among the Orangemen. On his father's side his forebears lived in Somersetshire, England. Both his parents were born in Canada.

As a lad he spent a year in the law office of D'Alton McCarthy in Barrie, and did not escape the inspiration of that great Canadian. When sixteen he was in business as merchant for himself in Beeton and Cookville. For ten years he sat in the County Council of Simcoe as reeve of Beeton village. He pioneered for municipal ownership in Beeton and saw water-works and an electric light plant installed. They tell yet in Beeton of how he obtained the House of Refuge for Beeton when Barrie wanted it. It was a bit of county council statesmanship.

He left merchandizing to set up as a private banker and grain merchant. He also owned and edited the Beeton World, the Ontario Bee Journal, and a dairy paper. His lines broadened out and he was in frequent touch with the larger life of Toronto. His transition from Beeton to Toronto was natural and easy.

Since going to Toronto he has taken a prominent part in the life of the city, identifying himself with the numerous organizations, working for its progressive development. All his business enterprises he has thoroughly organized and being an executive of more than ordinary capacity finds time to devote to public service.

He was among the first to appreciate the great possibilities in the development of New Ontario. He has spoken frequently on this topic and was instrumental in organizing the Associated Boards of Trade of Ontario looking toward the constructive development of New Ontario. He believes a National Board of Trade, composed of delegates from the Associated Boards of Trade of the various provinces, might meet with profit once a year and discuss matters of national moment. Such a board would help to bring the East and the West together and obliterate misinformed one section of Canada has of the other. He believes no true Canadian can know too much of his own country. To Canadians who have leisure to travel he says, "See Canada first."

Mr. Somers comes to his presidency, a man of large vision, schooled in the management of important enterprises. He is a thorough Canadian, an ardent Imperialist and a man of action. He is an excellent speaker, preparing his addresses with care and knowledge and ever pitching his note high and national. He is one of the coming young men of the country.

## Femininity at the Bar.

It must have required some courage to become the first woman student of law in the whole province of Quebec and to break the rule which excluded women from this profession. That is just what has been done, however. Mrs. A. Langstaff, a native of Prescott, who for five years has been gaining an insight into the profession in the office of Jacobs, Hall and Garneau, in Montreal, has now taken her seat among the law students at McGill University.

In Quebec there never has been a woman lawyer. At the Bar of other provinces women have pleaded cases. In Ontario Bar has a rather prominent member in the person of Miss Clara Martin, a lady who has enjoyed political distinction on the Toronto Board of Education.

Feminist this courageous lady is not. She is not studying law for her health. But though not a woman's rights champion, Mrs. Langstaff's legal ambitions may gain her a place upon the scroll of fame; for, after she graduates from McGill, Mrs. Langstaff's first professional problem will be to reverse the ancient legislation in Quebec, which excludes woman from the avenue of law as a road to a livelihood.

## Edmonton Park Commission.

Edmonton has just appointed a Parks Commission. The fur part town has needed one. In private municipalities, where rapid growth shifts real estate value so quickly, the park question is likely to be shelved unless there is somebody responsible for keeping aside part of the city site for parks. Edmonton has got to the stage when parks are just as necessary as they are in the larger centres of Canada. Because Edmonton has hitherto had no one to size up possible parks sites, she has continually run the risk of being overbid prices for park land, which a park commission might have grabbed at the psychological moment. The new commission will fill a gap in Edmonton municipal organization.

## DIGBY WEEKLY COURIER

Digby, Feb. 28, 1913

## Death of Capt. Daniel Smallie.

ANOTHER AGED AND HIGHLY RESPECTED CITIZEN HAS PASSED AWAY.

Capt. Daniel Smallie died at his home in the Racquette at five o'clock Tuesday afternoon, having been ill but three days. The deceased was born in Digby April 3d, 1823, and had therefore nearly reached his sixtieth birthday. He had always had excellent health and his faculties were good up to the last.

Capt. Smallie was an old-time master mariner. Nearly half a century ago he sailed the schooner, Argos, in the Digby-Boston trade, but his principal business was made across the Bay. For many years he carried the mails, passengers, live cattle and all the freight between the two ports in a small sailing vessel. When steamers were first placed on the bay route their power was not sufficient to enter Digby Gut against the tide. They therefore had to land their passengers at Point Prim (those who preferred to walk five miles) and remain outside until the tide slackened or turned. Capt. Smallie retired from the sea about 20 years ago, his last vessel which he commanded being the schooner, Sovereign running freight across the bay for the firm of G. I. Letteney & Co. and others. He lived under five British Sovereigns and distinctly remembered the Crowning of Queen Victoria and the celebration which took place in Digby at the time.

Capt. Smallie married Eliza Jane, daughter of the late Ross Fanning. Mrs. Smallie died in January, fifteen years ago. They had a family of eleven, seven of whom are living: James in New York; Robert in Worcester, Mass.; Calvin in Beverly, Mass.; Bland in Missouri; Edward in Indian Territory; Charles in New London, Conn.; and Ross at home.

The deceased was a regular attendant at Grace Methodist Church, although not a member, took a deep interest in anything that was for the moral improvement of the community, and was highly respected by all who knew him, and his circle of acquaintances was a large one. In politics he was Liberal, and a great reader.

The funeral takes place from his late home in the Racquette at 2 o'clock this afternoon with interment in the Methodist cemetery. The services will be conducted by Rev. L. Daniel, pastor of the Digby Methodist Church.

## Serious Coasting Accident.

Ruth, the little eight-year-old twin daughter of Capt. and Mrs. Smallie, met with a serious accident about 4 o'clock Tuesday afternoon. While coasting down the Racquette Hill on a sled it ran off the road and the little girl struck her head against the end of a bridge. She was picked up by Mr. Beverly Goodell, of A. A. Shortt's grocery, and carried to her home near the foot of the hill. A physician was immediately summoned and Mrs. Smallie and family are giving the little one every possible attention. Capt. Smallie, who is master of the schooner, Loran B. Snow, is probably on the fishing grounds. Their many friends are anxious for the little girl's speedy recovery from what was certainly a narrow escape from instant death.

## Married in the South.

DAKIN - McCAFFERY.

Word has reached here of the marriage of Mr. Frank Dakin, son of Mr. and Mrs. J. Outram Dakin, of Digby, to Miss Beatrice McCaffery, of Clementsport.

The happy event took place in Pineburg, Moore county, North Carolina, last Wednesday evening. The groom, who was formerly a member of the Cochrane staff, is at present in charge of the Pineburg Outlook, a bright and up-to-date magazine devoted to the charms of the Southern States as a winter resort for tourists. The bride is a native of Clementsport, but was formerly employed in Digby. Both have many friends here who will join in extending best wishes for a happy and prosperous future.

## Wedding Bells at Weymouth.

A happy event took place in Weymouth North, Wednesday evening when Mr. Ellsworth Kinney, son of Charles H. Kinney, of Ashmore, was united in marriage to Della, youngest daughter of John W. and Ellen Mullen, the ceremony being performed by Rev. Mr. Nightingale, pastor of the Weymouth Methodist church.

The wedding presents were costly and beautiful, testifying the esteem in which the young couple are held by their many friends. About seventy-five invited guests were present at luncheon after which the party was indulged in music, etc., breaking up at a late hour, all extending best wishes to Mr. and Mrs. Kinney for a happy future.

## A Successful Series of Lectures.

Mr. Michael Kelley, of Digby, who usually lectures in New Brunswick, has just returned from a very successful series of temperance lectures on Digby Neck, his first regular lecture being given at the hall, on Tuesday, at Rosaway, Sandy Cove, Little River, Tiverton, Freeport and Westport. In talking with a COCHRANE representative he said he wished to thank all those who rendered him assistance during the trip. He said that his splendid hospitality was only equalled by their magnificent liberality when the collection plate was passed. He further said that if this trip was a sample of Nova Scotia hospitality it would be hard to beat it in any province of the Dominion.

## Death of Mrs. George McKay.

Boston Herald, Feb. 14. While coasted and listed 20 degrees to port by the tons of ice that thickened stations to the size of telegraph poles and buried decks and gear, the steamer Boston, Capt. Simms, from Yarmouth, N. S., arrived yesterday afternoon, one of a fleet of ice breakers encircled vessels to make port.

News, arrived here, reports: On Jan. 25 in lat. 38.30 lon. 64.10, passed within half a ship's length of what had the appearance of a large piece of wreckage about 50 feet in length and showing two or three feet above the water.

The Gloucester fishing fleet, operating on the Nova Scotia coast are reported to have suffered a serious loss of trawls last week. A fleet of thirty sail were caught in a blinding snow storm off Liverpool and Sandy Point, N. S., a week ago and were forced to run to port for shelter, leaving practically their entire strings out. They were obliged to remain in port for three days and it is expected their entire outfit was lost, entailing a loss of from \$18,000 to \$20,000.

**Oak Island Again.**

Another attempt is to be made this year to secure Capt. Kidd's treasures at Oak Island. The St. John Standard says:

A. Williams, of Wisconsin, has entered into an agreement with J. W. Welling, of St. John, and F. H. Blair, of Annapolis, holders of the lease of the famous Oak Island, by which Mr. Williams agrees to raise \$35,000 and undertake the job of solving the mystery of the money pit on Oak Island where Capt. Kidd, or some other pirate, is supposed to have buried a large amount of treasure.

Various attempts have been made to get to the bottom of the money pit but the influx of water from a subterranean shaft has always balked the efforts of the treasure seekers. Mr. Williams, who is a professor at a college in Wisconsin, has a novel scheme for solving the difficulty and one which he claims has been pronounced practical by engineering experts.

He proposes to bore five inch holes to a depth of 200 feet all around the money pit, and then by an special process to freeze the earth and water in and around the holes, making a solid circle right around the pit. Then he will proceed to excavate in the pit, confident that he will not be troubled by the inflow of water, which has balked the other adventurers. He plans on beginning work this spring and calculates to finish the job in three months. Before starting work he has to satisfy the lessee that he has \$35,000 to devote to the undertaking.

**A Pipe Dream.**

(Yarmouth Herald.)

The St. John Telegraph of Friday published a lengthy article under the heading of "The Career of the L. L. Rogers," which, of course, neither the writer nor the Telegraph intended should be taken seriously by the reader. It is an imaginary sketch of the unfortunate man "Jerome," of Meteghan, who passed away some time ago. The story resembles a pipe dream, and is most ridiculous in many ways. First, at the time Jerome was discovered there were no five-masted ships; he was not found in a "dory"; dories are not carried on five-masted ships; and the whole story is absurd. The "cerule ocean" is a fitting climax to the yarn. "Folly Point," where the five-masted clipper Trieste was wrecked, has yet to be discovered and the fact that one of the Yankee guns "took off both of Capt. O'Connell's legs" adds interest to the story, but when we read that Clayton and Jerome went down with the rest, Jerome in Clayton's arms, hurled up on the shore by the waves, he found that he had a "dead body in his arms," our sympathies at once are aroused over the sad fate that overtook the poor girl, but shed no tears over the event.

**Amherst Man Badly Injured.**

JOSEPH GOODWIN WAS KNOCKED DOWN BY TEAM AND SERIOUSLY HURT.

AMHERST, Feb. 21—Joseph Goodwin, an old and prominent citizen of Amherst, met with a serious accident yesterday evening from the result of which he is now in the Highland View Hospital, and his condition is regarded as critical. Mr. Goodwin was crossing the intersection of Church Street with Victoria Street at Fuller's corner when a horse and sleigh driving at a moderate rate turned the corner, striking Mr. Goodwin and throwing him under the horse's feet. He was rendered unconscious by the accident, and when removed to the hospital it was found that he had sustained a severe fracture at the base of the skull, and had a number of ribs broken, besides sustaining other injuries. Mr. Goodwin has been conducting a blacksmithing shop in Amherst for thirty years.

**Strikes During 1912.**

The loss in working days from strikes in 1912 according to the Department of Labour's record, was only about half the similar loss in 1911, though amounting to over one million days.

This covers the whole of the Dominion. There was a larger number of strikes, but the great majority were short and involved only a small number of men. Altogether 10,500 employees went on strike in 1912. The Industrial Disputes Investigation Act applies only to disputes in industries involving public utilities, and practically all the outside mentioned disturbances were outside its jurisdiction. Altogether about nineteen threatened strikes were referred under the Act in 1912, settlements being thereby effected in all but three cases.

**New Lady Scott.**

LONDON, Feb. 21—The widow of Captain Robert F. Scott, the Antarctic explorer, henceforth will be known as Lady Scott. King George today bestowed on her "the same rank, style and precedence as if her husband had been nominated a Knight Commander of the Bath as he would have been had he survived."

### Slaying of Madero and Snarres.

WASHINGTON, Feb. 24.—Former president Madero and former Vice President Snarres were killed in the city of Mexico City in a battle between their guard and two groups of men, who were seeking to overpower the guard and rescue them, according to an official telegram from Francisco La Barra, minister for foreign relations, received at the Mexican embassy early today. It was not made known which side fired the fatal shots. It was also denied in the attempt to rescue, the report declared.

Both the bodies of Senors Madero and Snarres, "Senor De La Barra says, "will be buried with the honors due to the high positions they held."

The report declared there was "a real desire for peace" throughout the nation and that the government looked forward to the future with optimism.

**Too True.**

The *Yarmouth Daily Post* says: "Do you know that an editor or a reporter of a newspaper can in his routine stop ask a hundred persons 'What's news?' And ninety-nine out of a hundred will reply, 'Nothing special,' yet flit out of that number knowing nothing that if not found in the next or will astonish them greatly and appoint them more, and perhaps even them madder than horses, 'till he is afraid to let the newspaper know it."

Mr. C. Flaherty stated the case for the Company.

Councillor Fraser asked if the rates were left just now as they were, would the Company promise to extend the line south this year.

Mr. Flaherty replied that they would extend to Potter's Bridge if they could get the money and the rest of the way as soon as the bridge there would be strengthened.

## HOW BLOOD IS MADE.

The liquids and the digested foods in the alimentary canal pass through the wall of the canal into the blood. This process is called *absorption* and takes place chiefly from the small intestine. After absorption the blood carries the food through the body, and each cell takes from the blood the food it needs. A pure glyceric extract made from bloodroot, mandrake, stone, queen's root and golden seal root, and sold by druggists for the past forty years under the name of

## Doctor Pierce's Golden Medical Discovery,

gives uniformly excellent results as a tonic to help in the assimilation of the food and in the absorption by the blood of the food it requires. Bradicate the poisons from the blood with this alternative extract which does not shrink the white blood corpuscles, because containing no alcohol or other injurious ingredients. Thus the body can be built up—strong to resist disease. This is a tonic taken from Nature's garden that builds up those weakened by disease. Sold by druggists everywhere. DR. PIERCE, JR.

Mr. CHAS. FARRER, Jr., of 123 Woodlawn Ave., Philadelphia, Pa., writes: "I was troubled with my stomach for almost three years. Tried several doctors and most everything anybody recommended. I never felt better than at times I had no pain. My symptoms were as follows: Always tired, my whole body in a throbbing, belching, gas, pain and soreness in the stomach, vomiting, constipation, could not eat, and I had to remain on the floor until their return. I was in great pain all night and was very sick for a whole week."

Then Mrs. L. came to see me and told me of your wonderful medicine. I got my husband to send for it right away, as I was too sick to write myself. (My doctor could do nothing for me.) I have used 5 boxes of ORANGE LILY, have had three months of good rest, and am now well, never better in my life. I have not had the old pains since. I often ask my husband if it is myself that is going around and doing my work. I can scarcely believe it. It brings tears of joy to my eyes. I could shout it to all the world. I cannot speak enough in its praise. Your friend, MRS. E. H. F.

Receiving, as I do, dozens of the reports of ORANGE LILY, it differs from other so-called remedies in that it is not taken internally. It is a strictly local treatment, and is applied directly to the affected organs. Its curative elements are absorbed into the congested tissues, expelling the stagnant foreign matter which has been irritating the membrane and oppressing the nerves, and a growing feeling of physical and mental relief is noticeable almost from the start. It is a positive, scientific remedy, and even if you use no more than the Free Trial treatment you will be very materially benefited.

For several years I have suffered untold agony. This suffering was continuous, but I would have violent attacks every few weeks, each attack lasting several days. The first Sunday in November, I felt the pain increasing and so did not go to prayers. The rest of the family did go, and soon after the forcing down pains seized me and I had to remain on the floor until their return. I was in great pain all night and was very sick for a whole week."

## A NEW IDEA.

Montreal Man Makes a Curious Holiday Suggestion.

Writing in a Montreal daily paper not long ago, Mr. John H. Roberts makes a curious suggestion about summer holidays which is calculated to start this time of year. His chief contention is that the Canadian idea of a summer home puts too great a strain upon the mother of the family. Mother is worn out with packing, getting in supplies, putting the summer house in order and entertaining. To meet this evil, as he terms it, he makes these suggestions:

"What we really want is an organized holiday movement which would teach us how to enjoy holidays, show us how where to go and how to get there, and enable us to make the most of the all-too-short vacation time. I am not writing for those to whom expense and time are no object. I have in mind those of us who only have a limited amount of time and money to spend. This section has its holiday needs met in the old land by what is known there as the Co-operative Holiday movement. The idea originated in the brain of a clergyman and has spread at a remarkable pace until to-day there are seven or eight different holiday homes, including one in Switzerland."

"The association has bought large houses or mansions in different parts of the country, it places a matron and a staff in charge of each one, and keeps them open for the larger part of each year. Co-operation is the keynote of the movement and with the holiday is combined the educational ideal. For instance, each day has its program of trips and excursions from the home to places of interest in the surrounding country. One day there will be a mountain climb, another a drive to some famous old castle or monastery, perhaps, or a tramp to some point of interest. Arrived at the destination for the day the ladies of the party make ready the most which the men have carried in their knapsacks. Then some geological expert or teacher of history gives a talk on the subject of particular interest in that locality, and it is safe to say, that these holiday-makers return knowing more of their country's wonders or its story than the average vacation tripper would learn in a lifetime."

"Why cannot we do something like this in Canada? We are a young people and our history is in the making. But we could, I believe, develop a movement which would help us to know our country in the most intimate sense and link us together in the bonds of steadfast comradeship. Holidays organized, purposeful, and helpful may be had, but not on the present aimless plan most of us now follow. I shall be most happy to co-operate with any of my fellow-citizens to whom the idea here advanced may appeal."

## His Little Ditty.

Echoes of the Dominion political campaign continue to be heard in the election stories which filter from the ridings where they originated. One of the best comes from West Peterboro, where Hon. J. R. Stratton tried unsuccessfully to retain his seat in the Commons. One of his meetings was held at a small village in Harvey Township, a thinly-settled and rather unproductive section of the northwest portion of the county. When the meeting opened, a local character who lived a hermit-like life announced that he desired to sing a little song which he had composed in Mr. Stratton's honor, and his request was honored by the chairman. The song proved to be a series of doggerel quatrains, in which the first lines were the same throughout, while the last lines were varied. These he proceeded to deliver to a monotonous tune of only two notes, linking the verses together by forcibly interjecting the word "Singing" at the end of each. Three specimens of the stanzas will suffice:

"Then here's to Mr. Stratton,  
A man of high degree,  
We'll send him down to Parliament  
Our member for to be."

"Singing—  
"Here's to Mr. Stratton,  
A man of high degree,  
He gave us all our good roads  
In North and South Harvey."

"Singing—  
"Here's to Mr. Stratton,  
A man of high degree,  
We'll send him down to fight for us  
And reciprocate."

"Singing—  
And so on for fifteen or twenty verses, until the exasperated chairman had to remind the self-constituted bard that the distinguished speakers present were waiting for a hearing."

## Public Ownership at the "800."

The Sault Ste. Marie Board of Trade held a meeting the other night and passed some strong resolutions. The board wants public ownership at the 800. In two years' time, two important municipal franchises expire. They are those held by the Tagama Water & Light Co., which concern, at present, lights the city and supplies the drinking water. The Board of Trade favors the municipality controlling the waterworks and electric light plant. The board also has some opinions on such matters of local interest as the 800 as the improving of the water front, erection of a Government port at the ship canal, appointment of an industrial commissioner, and rebuilding of the Government dock. The board is playing a hand in the municipal elections, and will try to elect a council which will look after the policy it advocates.

## A Medieval Impost.

Montreal's bath tub tax, a relic of the days when bath tubs and bath tubs were among the luxuries of the rich, will probably be abolished. The tax is one dollar per bath tub in all houses having a rental of \$150 per year or over. Last year it netted \$23,000. The Board of Control met the other day and heard protests against the tax. It was pointed out that the tax now fell on poor as well as rich, as rentals had greatly increased in the last few years, and the board recommended its abolition.

## To a Lady at Westport on Her Birthday

Years forty-five are yours to-day  
So full of life, and blithe and gay.  
I hope that each succeeding year  
A happier birthday may appear  
Yet still I see a heart so true  
Oh, for my years of yesterday.

Oh happy days, I seem to see,  
When little children climb thy knee  
And Grandma's name be blessed then.  
No sweeter name of tongue or pen  
In future years their gifts they bring  
How you will prize each little thing.

And now as birthdays slip away  
May they be as the sunshine ray,  
And full of joyousness be filled  
As honey from the flower distilled;  
And when at last you cross the river  
May happiness be yours forever.

## Crisis Confronts the Lobster Trade

OTTAWA, Feb. 21.—A crisis confronts the lobster fishermen of the Maritime provinces, said Senator Dennis, of Halifax, in the Senate in moving for the production of papers relating to the recent increases in prices of lobster cordage.

This crisis, Senator Dennis said, was due to the increased cost of traps and cordage, which were the raw materials of the fishermen, and essential to their operations. If the price of flour suddenly jumped from \$8 to \$12 a barrel it would be a great hardship and appreciated as such. But that hardship would be less than the lobster fishermen of the Maritime Provinces are now suffering through a "startling" increase in the price of cordage by the great merchants which now appear to control the Canadian as well as the United States cordage products.

The motion for the production of papers was adopted.

## A Household Remedy

There came in at the window a distant sound of a man's voice urging on his horses while plowing. It was Joel's. Molly ran downstairs and across the fields toward her lover. Joel saw her coming and at the turn pulled in his horses.

"For heaven's sake, Molly, what's the matter?"  
"The ring! It's gone!"  
He put his arm about her, and she told the story of the mysterious disappearance.

## A Druggist in Winnipeg

"Well, sweetheart," he said, "when she had finished, 'if you don't find it I'll buy you another.'"  
"But she moaned, 'it won't be that ring. Besides, there's the bad luck.'"  
"Of losing it?"  
"I mean it'll bring bad luck."

"Oh, no, it won't. That's idle superstition. Tell me did anything occur while you were gone to the spring house to knock the ring off the window sill?"  
"Not a thing, so far as I know, and mother, who was in the house all the time, says she heard nothing."

"Anybody in the house but your mother?"  
"No."  
"Sure no tramp came by or a tin peddler or anybody like that?"  
"Not a soul."

"Funny, isn't it?"  
There are many ways of saying these last few words. Molly thought she detected a tinge of incredulity in the way Joel spoke then. She drew away and looked indubiously on the ground.

"Well, don't think any more about it," he said. "I'm going to town on Saturday, and if the ring doesn't turn up by that time I'll bring back another—a prettier one."

Molly said nothing by way of reply, but turned to go back to the house, while her lover started up his team.

That evening Joel Armstrong went to the store to buy some rope. There he met John Mudge. Mudge and Armstrong were friends, and Armstrong told Mudge of his engagement, mentioning the mysterious loss of the betrothal ring. Mudge looked thoughtful.

"There's somep'n wrong about the Ashurst farm," he said. "There's been a number of things lost there, and the queer thing about it is that they have all disappeared when there wasn't anybody about but the family."

"Who's wrong?"  
"Oh, I don't accuse anybody, but it don't stand to reason that things should disappear without somebody to take 'em."

"That's just what I've been thinking about," replied Joel, knitting his brows.

And so Joel parted with his friend, his idea that there was something wrong with the loss of the ring confirmed. The next step was to think out a reason for there being something wrong, especially a reason connecting Molly with the wrongness of it. He couldn't conjure up any such reason, but he explained his inability to do so on the ground that the bigger the mystery the bigger the mystery. A sus-

## A LOST RING.

Mary, Farmer Ashurst's daughter, was putting her room to rights of a bright morning in the springtime. The windows were up, and the warm sunshine was pouring into the room. She swept, dusted, made her bed and when all was finished untied the strings of her apron, took off the covering she had used to keep the dust off of her chestnut hair, and it rippled in the sunlight. Then, pouring water into a bowl on the washstand and removing a ring from her finger, she laid the latter carefully on the window sill and proceeded to wash her hands.

"Mary!" called her mother from below.

Mary was drying her hands, but went at once into the hall and, leaning over the banister, asked what was wanted.

"Go out to the spring house and get me some milk."

Hanging the towel on the banister, Mary went downstairs and did her errand.

Meanwhile a jackdaw sailed from a cote raised on a huge post in the yard and lit on the roof of the porch just outside Mary's window. He strutted about, pecking here and there, examining minutely breaks between the shingles as if looking for something, and not finding anything to interest him, he hopped up on the window sill.

The moment he caught sight of Mary's ring its sparkle was reflected in his eyes. He turned it over with his claw, pecked at it with his beak, then threw his head back and laughed. Of all the odds and ends, bits of tin, broken crockery, spoons, hairpins and such other articles he had purloined this was his richest find. He danced about it for awhile, evidently wondering how it was made and why it was so beautiful and how it came to be right there for him on the window sill.

Then, hearing Mary coming up the stairs, he took it up in his beak and, spreading his wings, flew with it to the cote on the top of the high post.

A moment later Mary came back into her room and discovered that it was not where she had left it.

Her engagement ring, given her but a few days before by Joel Armstrong, had disappeared.

There came in at the window a distant sound of a man's voice urging on his horses while plowing. It was Joel's. Molly ran downstairs and across the fields toward her lover. Joel saw her coming and at the turn pulled in his horses.

## Little River.

Wm. Frost arrived home from Yarmouth the 22nd, where he has been on business.

Messrs. W. Cossaboon and Elsworth Sullivan, of Boston, were at Hillcrest Cottage February 21st.

Mr. D. E. Cheney will install a new Ferro engine in his boat which he proposes to use for buying lobsters. Mr. Cheney is engaged in the interests of W. S. Trask.

Mrs. Burton Frost entertained on Monday evening, Feb. 17th, her Sunday school class. All enjoyed themselves by playing games, after which refreshments were served.

The new steam Sissiboo built by Wm. Frost, left for Yarmouth to have engines installed. We expect she will be on the route with in a month. It will certainly be a pleasure to the public to have good accommodations between this port and Weymouth.

Mrs. Edgar Denton gave a pretty birthday party on Friday evening, Feb. 21st., in honor of her daughter, Kathleen, who looked very charming in a beautiful, white gown. The tea table was very attractive with a large cake resembling a pyramid, decorated with eight colored candles representing the age of the little daughter.

Mr. and Mrs. Edgar Denton made charming hostesses at their home, "Hillcrest Cottage," Thursday evening, Feb. 20th, in courtesy to Mr. and Mrs. Martell who will shortly leave for Wolfville. The hostess received her guests wearing a blue silk gown richly trimmed with lace. She was assisted by her daughter, Muriel, who wore a blue and white gown, looked very nice. Mention must also be made of Mrs. Annie Morehouse, sister of the hostess, an accomplished pianist, who acted as accompanist throughout the programme of music and readings. She wore a gown of beautiful white silk. Quite a number of guests were present from Sandy Cove and Mink Cove. The recital was voted a complete success by the large audience present, closing by singing "God be with You."

Rev. C. H. Martell, pastor of the Baptist church for ten years, preached his farewell sermon on Sunday evening, Feb. 23rd. Mr. and Mrs. Martell will leave for Wolfville during the week. Both will be missed in the community as they will leave a large circle of friends. May success and good cheer go with them. On Friday evening, Feb. 14th., the Rev. and Mrs. C. H. Martell entertained Sunday school classes Nos. 1, 2 and 3 at the home of Mrs. Edgar Denton. The programme of music and readings were enjoyed by the large number present. A paper given by Mrs. Martell deserves special mention. Refreshments, consisting of cake and ice cream were served. A very pleasing feature of the evening was a surprise for our good pastor and wife. When just at the time of singing the closing hymn, the members of the young men's class, taught by Mrs. Martell presented her with a sum of money, the presentation being made by George Addington. Also the Bible class, taught by Rev. C. H. Martell, presented him with a sum of money. Though completely taken by surprise they replied very beautifully. After prayer the party left for their respective homes, voting the evening a success.

Turkey Asks Russia to Secure Peace  
LONDON, March 5.—The report of fighting at Bulair yesterday appears to have been inaccurate. An official announcement issued at Constantinople today states that the situation has not changed either at Bulair or Tchatalia, but the bombardment of Adrianople continues.

Turkey has renewed her overtures for peace on the basis of the cession of Adrianople, employing the good offices of Russia for that purpose. The Bulgarian cabinet has taken the proposal under consideration but no decision has yet been reached.

It is reported through Vienna that Serbia is sending 30,000 troops to the siege and field guns by sea from Saloniki to assist the Montenegrin attack on Scutari.

## Gotten All Wrong.

In some parts of the Northwest the villagers still use the obsolete particles 'gotten' and 'putten' and a teacher tells of an exercise in which her pupils had to write on the blackboard. In the midst of the exercise an urchin began to laugh. She asked him why he was laughing, and he answered:

"Joe's put 'putten' where he should have putten 'putt'."

## Campaigning

"Oh, ma!" exclaimed the daughter of the candidate, I just saw papa kissing the cook lady! That's all right, dear. He is acting as my manager, and I want her vote for today's election."

## Mount Allison Campaign

The campaign committee of Mount Allison University at Sackville have secured the services of R. A. Cassidy, of New York, in the forward movement planned for next month. Mr. Cassidy has had wide experience in work of this nature and is said to be an organizer of exceptional ability. The details of the campaign have not yet been fully worked out, but plans are now being prepared by means of which it is hoped to clearly place the needs of the Sackville institutions before every graduate and other friend of the college in Canada.

Mount Allison requires a new science building, and it is felt that fifty thousand dollars set apart for this purpose from the quarter million which the committee hope to raise, will give the institution an equipment science equal to any in the eastern provinces and sufficient for many years to come. This, however, is not a first consideration of the campaign. Mount Allison's most pressing need is a sufficient regular annual income to entirely eliminate all possibility of further deficits and to guarantee that for the future the university will be self supporting in so far as this term may be applied to a denominational institution, and with this end in view the first efforts of the committee will be directed to securing two hundred thousand dollars as an addition to the permanent endowment and only after this has been obtained will the proposed new science building be given consideration. The annual deficit on operation has averaged three thousand dollars for some years, so it will be seen that with eight thousand or ten thousand additional income, the university should be able to get along very comfortably.

What does all this mean? asked Molly. "Didn't I tell you when I made my choice between you and Sam that it was irrevocable—at least if you're not going to cause me to think I've made a mistake. He came to wish me happiness in my engagement, and though it was evident he suffered, he said not one word in complaint at my having declined him for years."

Joel rose. He said nothing till he reached the door, then told Molly that he would think the matter over and let her know. What he was to think over he did not explain. Molly kept her eyes fixed on him till he had withdrawn, but spoke not a word. She had looked upon Joel Armstrong as one with too noble a nature thus to accuse her within a few weeks of their engagement. This was a surprise and a shock to her.

The next morning Joel received a note from Molly breaking their engagement. The shock was now with him, though he was no better satisfied that there was not something underhanded which he could not understand. He made no reply to the note. He did what a man usually does in such cases—he sulked.

The next thing he heard was that Molly had gone away on a visit. He was beginning to find by this time that he had overrated his ability to get on without her, even though she might have deceived him. His farm duties were light, for the planting was finished, and there was little to do but wait for the first reaping. So he sat in the barn when idle and thought about Molly. Sometimes it would suddenly come over him that all this trouble to the loss of the ring was nonsense; that it had been really lost and there had been nothing to cover up. But this view of the case would not last long. Besides, if Molly had really loved him she would have shown more distress at his suspicion of her. It did not occur to him that the more sensitive she was to her honor the more indignant she would be at being falsely accused.

One day while he was in the store he heard two men talking. "That was queer up to Ashurst's yesterday, wasn't it?" said one.

"What was it?"  
"Why, they got a pet daw up there. They've been missin' things for a long while and didn't know where they went to. Mrs. Ashurst saw the daw fly into a window, light on a bureau, pick up a tortoise shell comb and fly away with it to his cote. Ashurst he climbed the post on which the cote sets and pulled out a hull lot of things. Among others was a ring that disappeared some time ago."

Joel waited to hear no more. He staggered out of the store and walked as fast as his legs would carry him to the Ashurst farm. Mrs. Ashurst saw him coming and inferred his errand. She met him in the doorway.

"Where's Mary?" he asked.  
"Away. She hasn't come home yet. When will she come?"  
"I don't know."

"Will you give me her address?"  
She wrote it on a bit of paper and handed it to him. As he took it Mrs. Ashurst noticed his hand trembled.

Joel wrote a penitent letter. Inclined to extremes, he had a little hope of forgiveness as he had had doubt that there was something underhanded going on. He calculated exactly by what mail he would receive a reply and was at the postoffice with a wildly beating heart to receive it. He was doomed to disappointment. No reply came.

It was now reaping time, and he went to work cutting the wheat. Suddenly he saw Molly coming from the house and making straight toward him, just as she had done the day she lost her ring. He got down from his seat and hastened through the grain to meet her. She suffered him to take her in his arms. The episode was over.

How He Knew.  
"How do you know you have been farthest north?"

Turkey Asks Russia to Secure Peace  
LONDON, March 5.—The report of fighting at Bulair yesterday appears to have been inaccurate. An official announcement issued at Constantinople today states that the situation has not changed either at Bulair or Tchatalia, but the bombardment of Adrianople continues.

Turkey has renewed her overtures for peace on the basis of the cession of Adrianople, employing the good offices of Russia for that purpose. The Bulgarian cabinet has taken the proposal under consideration but no decision has yet been reached.

It is reported through Vienna that Serbia is sending

## JUSTICE OF THE PEACE

HAD ULCERS & ECZEMA 43 YEARS  
ZAM-BUK HAS WORKED A CURE

Mr. J. E. Arseneault, a Justice of the Peace, and station master at Wellington, on the Prince Edward Island Railway, says:

"Four years ago I slipped in the station and fell on a freight truck, sustaining a bad cut on the front of my leg. I thought this would heal, but instead of doing so it developed into a bad ulcer, and later into a form of eczema which spread very rapidly and also started on the other leg. Both legs became so swollen and sore that I could only go about my work by having them bandaged. My doctor said I must stop work and lay up."

"After six months of this trouble I consulted another doctor, but with no better result. I tried all the salves, ointments and lotions I heard of, but instead of getting better I got worse."

"This was my condition when I got my first box of Zam-Buk. Greatly to my delight that first box gave me relief. I continued to apply it to the sores, and day by day they got better. I could see that at last I had got hold of something which would cure me, and in the end it did."

"It is now over a year since Zam-Buk worked a cure in my case, and there has been no return of the eczema."

Such is the nature of the great cures which Zam-Buk is daily effecting. Purely herbal in composition, this great balm is a sure cure for all skin diseases, cold sores, chapped hands, frost bite, ulcers, blood-poisoning, varicose sores, piles, scalp sores, ringworm, inflamed patches, cuts, burns and bruises. All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., upon receipt of price.

### Barton and Brighton

Mrs. C. Abbott has been visiting friends in this neighborhood.

As there has been no regular news in our local paper from this village for some time, we thought a few items from here would not be amiss.

The Baptist church is being supplied for the winter months by Rev. A. H. McLeod, of Wolfville. The church hopes to be able to retain his services permanently.

Miss Mac VanPareon, who has been home for a number of weeks, expects to go to St. John this week in the interests of her business and later to Weymouth to resume millinery in that town.

Our teachers, Miss Crowell, of the Principality, and Miss B. VanTasell, of the Primary, have both had their mid-year exams and are each carrying on their respective schools with success.

The snow which came last month is a great help to the farmers and others who are all at work in the woods, and a good amount of wood and piling, logs for shingles, etc. have been hauled out to the mills.

On the 20th, Rev. Mr. Nightingale gave his lecture entitled "Haunted Houses," to a good audience, who appreciated the address and by the way the proceeds were donated to the Union Hall fund. The Rev. Gentleman has our thanks.

A donation party was held at the home of F. Hutchinson on Saturday evening, March 1st, for the Rev. Mr. Nightingale. The evening being so stormy very few people could get there. We are not informed what the proceeds were but no doubt others will donate later.

General Hughes Division has again been resurrected and bids fair to be a flourishing organization. Dr. Harris, our W. P. for the quarter, is very popular and we have a good band of working brothers and sisters and a number of young people who are always there to help out with the music and entertainment. Union Hall is proving a boon to the community.

The good sleighing was enjoyed by all. Monday evening a number of people drove to Hill Grove to spend the evening at the home of James Franklin. Tuesday evening the young people drove to Smith's Cove, spending the evening at the "Out of the Way Inn," returning in the "wee sma' hours" of the morning. There have also been several parties from Digby and elsewhere entertained at the Barton House.

### Port Wade

The wrecked schooner Florence May, of the Nova Scotia Fish Co., has been purchased by Capt. E. Keans and hauled up in the Ryder Creek for repairs.

The Glee Club drove Friday evening last to the home of Mr. Wallace Covert, of Karsdale, where was spent a very pleasant evening coming home in the "wee sma' hours."

A few carloads of timber are being got out here for the iron mines, Torbrook. Our sledding is an unreliable quantity, but we are still hoping for the "six weeks" this month.

On Friday evening, Feb. 28th, Anniversary Division made a visit to New Caledonia, No. 14, Stony Beach, some 30 members participating in a merry sleigh drive, composed of two double and three single teams. The gong of bells and blowing of horns, added much to the exhilaration of the affair. Arriving at the hall we found a well lighted and warm room, and many happy faces, and can assure you the welcome was fraternal and warm.

The general order of business over, then followed a nice programme of entertainment consisting of readings, recitations and music, last but not least a very pleasing collation was served by the sisters which reflects much credit as they only had a few hours' notice. Thus the outer and inner man being well satisfied the return to Port Wade was made in March, New Caledonia promising to return the visit in the near future.

### Saulnierville

Mr. Frank Deveau, who has been on the sick list for some time, is reported no better.

We regret very much to learn of the visit of L. Grippie in Mr. Walter G. Saulnier's family. His three children are all sick in bed.

Miss Adelle M. Saulnier, daughter of Mr. Maximine Saulnier has been confined for a few days to her bed. She is attended by Dr. McDonald.

Miss Celina Doucet, daughter of Alex. Doucet, Esq., arrived home on the 21st inst from Haverhill, Mass., to see her dying brother, Mr. James Doucet.

The Saulnierville school pupils of the advanced department, under the supervision of the teacher, Frank E. Melanson, visited the Saulnierville station school one afternoon last week. A competition is to be held between the pupils of the two schools in Dictations. The first to have a prize.

CITIZENS HOLD BANQUET AND PRESENT ADDRESS TO C. P. TURNBULL

(Cobalt, Ont., Daily Nor'west.)  
ENGLEHART, Feb. 20.—Owing to the departure from town of Union Bank Manager Mr. C. P. Turnbull, manager for the past four years and nine months a farewell banquet was given in his honor last night at the King Edward hotel subscribed by the citizens of the town. The banquet was a great success and great credit is due to the staff of Mr. H. I. Kerr. The tables were excellently arranged and an added splendor and beauty was given by all of beautiful flowers and plants.

Mr. J. Clark acted as chairman for the gathering and the following program was given: A fine address by Chairman, "Our Country," by Mr. S. P. Newcombe, Manager of Bank of Ottawa here responded to by Dr. R. O. Lowrey, who undoubtedly gave the address of the evening, for he covered the ground regarding this country fully and was most interesting to all. "Remembrance," by Mr. Geo. P. Watson; "Our Town," by Mr. A. W. Sklar; and responded to by Mayor H. O. Grady; "National Sports," by Mr. R. Bert Ransier and responded to by Mr. R. Thompson, Jr.; "Learned Professions," by Dr. Jas. Held and responded to by Rev. Mr. Dudgeon; "Ladies," by Mr. W. D. Hogg (Mr. C. P. Turnbull's successor) of St. Albans; responded to by Mr. Fabian Hugh; "Visitors," by Mr. H. H. McLean and responded to by Mr. Thurel of Charlton; "Our Guests," by Mr. D. Kerrigan and responded to by Mr. A. J. Catt. Mr. Catt at the conclusion of his few remarks, read a letter he had received from Rev. Mr. Pinnington, English church, stating his deep regret in not being able to be present but, eulogized the good work Mr. Turnbull had done for the church since his arrival in town. An address was then handed to Mr. Turnbull by Mr. A. J. Catt, which read as follows:

To Mr. C. P. Turnbull, Manager of Union Bank of Canada, Englehart, Ont. Feb. 19, 1913.

We the undersigned on behalf of the citizens of town and district having learned that you intend to leave our town, take great pleasure in presenting you with this memorial and accompanying gift in appreciation for the good work you have done on behalf of the town and district during the past four years and nine months. While with us you have displayed deep interest in local affairs, principally as secretary of the Board of Trade since its organization. You have always been held in the highest esteem and respect by those with whom you have been associated, both in commercial and social life, and we regret deeply your departure from our midst. We therefore, on behalf of the town and district, wish to convey to you and yours our best wishes for continued success and prosperity in your new field of labor.

Mr. O'GRADY, Mayor of Englehart.  
C. H. POWELL, Chairman of School Board.  
JAS. REID, Chairman Board of Trade.  
On behalf of Citizens of the town:  
J. L. LARK,  
D. KENNEDY,  
A. J. CATT.

Mr. C. P. Turnbull thanked all present and regretted his departure from Englehart, as during the time he had been here he had made some good friends, &c., &c. A splendid club bag was the gift. Among those present were the Union Bank staff and the Bank of Ottawa staff.

(The Mr. Turnbull above referred to is a son of Mr. Eber Turnbull of Digby and has many friends here who wish him continued success.)

The following appears in the personal column of the same paper.

The ladies of town will miss greatly, Mrs. C. P. Turnbull who arrived here as a bride some three years ago with which time she made many friends and as an English church worker there was none more true and loyal workers than Mr. and Mrs. Turnbull. We understand that Mr. Turnbull is going to Innisfail, Alta., to take charge of the branch of the Union Bank.

**Pausing of the War Cloud.**

LONDON, March 5.—The news that Austria and Russia have agreed on an early demobilization of troops on the Russo-Galician frontiers is welcomed as showing the promise of an early cessation of hostilities between Turkey and the Balkan Allies.

No one is inclined here to bring about a settlement on Sir Edward Grey, the British Foreign Minister, who is to be congratulated on the success of his efforts. The offices of the Great Powers are again to be sought, and now will come the opportunity of doing great work which will leave its mark indelibly inscribed on the history of our times.

Mr. Bonar Law has not had long to wait for an answer to his policy of taxing manufactured articles, with the exclusion of agriculture.

The National Farmers' Union has passed a resolution condemning a policy which excludes agriculture from its benefits. This means the loss of the Counties, if the policy is persisted in, and the Unionists are not in election with the Counties against them.

**To Treat Poor and Rich Alike.**

DR. FRIEDMANN WILL ADMINISTER FREE HIS TUBERCULOSIS SERUM TO THOSE WHO CANNOT PAY.

NEW YORK, March 1.—The wide-spread attention drawn to the tuberculosis serum of Dr. Frederick Franz Friedmann, German bacteriologist, may be brought to a climax next week. The announcement is made today that on Monday Dr. Friedmann will open offices near his hotel in Fifth Avenue, and for two weeks, conduct a public clinic where the poor as well as the rich, will be treated, the serum to be administered free to those who cannot afford to pay for it.

It is declared that physicians will be invited to attend the clinic, to assist in diagnosing the cases and to watch them afterward and learn Dr. Friedmann's method. He has said that within a week the beneficial effects of the serum will be apparent. The doctor says that more than 3,000 applications for treatment have been received.

**Strike Leader Barred From Canada.**

BLAINE, Wash., March 3.—Joseph Eitor, a leader of the strike of members of Industrial Workers of the World, at Lawrence, Mass., returned to the United States today, having been taken from a train at White Rock, B. C., last Friday and deported, on an order from Ottawa. Eitor was kept under guard between trains by immigration officers, who reported that he refused to answer questions. He declared that he was a citizen of the United States on his way to Victoria to lecture, and that he could not be detained. He refused to permit his baggage to be searched.

The order from Ottawa gave no reason for deportation except that Eitor was regarded as an agitator and as such he was not wished in the country.

MR. ALEX. MCCARTER

WALKERTON, ONT., MAY 9th, 1911.

"I have been in Walkerton in business for a good many years and many of my townsmen know that my health, for long periods was precarious. My trouble was extreme Nervousness, brought on by indigestion and dyspepsia, from which I suffered in the most severe form. It was so bad that I could not sleep before about four in the morning. I noticed one of your published testimonials of how someone had used "Fruit-a-tives" for similar trouble and asked Mr. Hunter, my druggist, his opinion on the matter and he advised their use. I immediately procured several boxes and I am pleased to say that I now enjoy splendid health and could not possibly feel better. I can eat with every degree of satisfaction and sleep without an effort. I strongly advise anyone suffering from like complaints, to commence using "Fruit-a-tives". ALEX. MCCARTER.

## Yarmouth Forms A "Booster" Club.

THEIR MOTTO IS "NO POLITICS, JUST YARMOUTH". THEIR SLOGAN "20,000 IN 1920".

YARMOUTH, N. S., March 1.—That the young men of Yarmouth are awake and alive to the possibilities of their own town was evidenced by the enthusiasm that prevailed last evening when about thirty of them gathered in the rooms of A. J. Watson, to form a "Booster" club. The name decided on was "Yarmouth Young Men's Booster Club," with the motto, "No Politics, Just Yarmouth."

Frank S. Rogers was elected president; C. Curtis McKay, secretary, and A. J. Watson, treasurer. A committee was appointed to frame by-laws, which will be passed on at the next meeting. A committee was appointed to co-operate with a committee of the board of trade in their endeavor to secure an up to date union station here, as well as other railway improvements.

The primary object of this organization is to create a spirit of optimism to offset the pessimism that is and has been for many years so noticeable in Yarmouth. Some of the central ideas that will be boosted will be the "Made in Yarmouth," the "Grown in Yarmouth" and the "Living in Yarmouth" ideas; the watchword is "20,000 in 1920" so just watch Yarmouth grow.

A peanut race gave fun to teams captained by Miss Inez Gray and Maude Hillis, of the former winning by eight points. Refreshments were served by Mrs. John Hazelton and Miss Lottie Harrison.

[We reprint the above from the Brockton, Mass., Daily Enterprise, the Miss Hazelton above referred to, being a daughter of Mr. and Mrs. Hazelton, Victoria Bridge, Deep Brook.]

## President Wilson.

INAUGURATED THURSDAY WITH MUCH POMPA AND BLUNDER.

WASHINGTON, March 4.—Woodrow Wilson, of New Jersey, was inaugurated as president of the United States, and Thomas R. Marshall, of Indiana, its vice-president, this afternoon. It was an intensely human, precedent-breaking inauguration. With members of his chosen cabinet, surrounding him, the justice of the supreme court before him, his wife and daughter actually dancing for joy on the platform below, and William Howard Taft, ex president of the nation, at his side, the new president shouted a summons to all "honest, patriotic, forward-looking men" to aid him, extending the promise that he would not fail them in the guidance of their government.

The military and civic pageant that followed this climax of the historic event was more than five hours passing in review. Leaving Capitol Hill at 2 o'clock in the afternoon the last of the marching thousands had not doffed their colors to the president in the court of honor until long after darkness had fallen.

President Wilson stood for more than an hour under the glare of myriads of brilliant electric lights as he greeted thousands to the long line, among them the host of Princeton's students who, as they passed by him, shouted a hearty greeting that he can never forget. The music of the bands, the glitter of the gilded uniforms and all the enthusiasm in the pageant that had gone before stirred him again and again, but the sight of this cheering student army was to President Wilson an inspiration that brought cherished memories and joyous tears.

Not long after the boys from old Nassau had passed he turned from the human panorama and entered the White House to grasp the wheel of the ship of state. Ceremonies in the senate chamber which marked the dying of the sixty-second and the vitalizing of the new third congress embraced the inauguration of Vice-President Marshall and the swearing in of the senators-elect were never more impressive.

## Why Have "Nerves"?

This is the reason why women have "nerves." When thoughts begin to grow cloudy and uncertain, impulses lag and the warnings of pain and distress are sent like flying messages throughout limbs and frame, straightway, nine times in ten, a woman will lay the cause of the trouble to some defect at the point where she first felt it. Is it a headache, a backache, a sensation of irritability or twitching and uncontrollable nervousness, something must be wrong with the head or back, a woman naturally says, but all the time the real trouble very often centers in the womanly organs. In nine cases out of ten the seat of the difficulty is here, and a woman should take rational treatment for its cure. The local disorder and inflammation of the delicate special organs of the sex should be treated steadily and systematically.

Dr. Pierce, during a long period of practice, found that a prescription made from medicinal extracts of native roots, without the use of alcohol, relieved over 90 per cent. of such cases. After using this remedy for many years in his private practice he put it up in form of Dr. Pierce's Favorite Prescription, that would make it easily procurable, and it can be had at any store where medicines are handled.

Mrs. LILA B. HAWKINS, of Zions, Va., writes: "I had been failing in health for two years—most of the time was not able to attend to my household duties. Female weakness was my trouble and I was getting very bad, but, thanks to Doctor Pierce's medicine, I am well and strong again. I took only three bottles of 'Favorite Prescription,' and used the 'Lotion Tablets.' I have nothing but praise for Doctor Pierce's wonderful medicines."

## To Our Friends and Neighbors

You know us. You know we would not—that we could not afford to—go back on our word. Nor can you afford to ignore this money-back-if-not-satisfied offer on this splendid laxative.

We honestly believe we have the best bowel remedy ever made—the most pleasant-to-take, most permanently beneficial laxative for relief from the miseries and dangers arising from constipation.

We wouldn't say this if we didn't believe it to be true. We wouldn't risk our reputation by making such statements did we not feel sure you would find them true.

Our faith is built both on the knowledge of what Rexall Orderlies are made of and on observation of very many severe cases in which they have proven their merit.

Try them at Our Risk

If they do not abundantly prove their merit with you also—if you are not entirely satisfied with them—we will refund your money—and we will do that on your mere say-so. We don't ask you to risk a penny. Isn't that fair?

Just let the bowels fail in properly doing their work—just let their action be delayed and incomplete and the entire system and every other organ, suffers. Wastes that

should have been dispelled remain to poison the system.

Headaches, biliousness, nervousness and other tormenting, and serious ailments are common when the bowels fail to act daily as nature intended. All this may be avoided, if you will accept our advice.

**Rexall Orderlies**

taste just like candy. They are soothing and easy in action. They do not cause griping, nausea, purging or excessive looseness. They tend to tone and strengthen intestinal nerves and muscles. They promptly relieve constipation, and help to permanently overcome it.

Rexall Orderlies promote better spirits and better health. In all of these things they are vastly superior to old-fashioned, harsh salts and other purgatives, which are not only unpleasant to take but which usually leave the bowels in worse condition than before. We particularly recommend Rexall Orderlies for children, aged and delicate persons.

Rexall Orderlies come in vest-pocket tin boxes. 12 tablets, 10c; 36 tablets, 25c; 50 tablets, 35c.

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all drug stores. You can buy Rexall Orderlies only at the Rexall Stores. You can buy Rexall Orderlies in this community only at our store:

Women's disorders always yield from the very beginning of the treatment to the mild but effective action of Orange Lily. Within two or three days after commencing its use the improvement becomes noticeable, and this improvement continues until the patient is completely cured. Orange Lily is an applied or local treatment, and acts directly on the womanly organs, removing the congestion, cooling and strengthening the nerves, and restoring perfect circulation in the diseased parts. ## CORRESPONDENCE.

### An Old Home Week.

To the Editor of the Courier

DEAR SIR:—No doubt you have had the idea under consideration before, but why not have an "Old Home Week" in Digby, say 1914? I believe that you, through the "Courier," could make a howling success of it. No doubt it would be better to make it a "Digby County" affair, with the celebration at Digby. Just postpone 1914's celebrations and have them in one week. All kinds of details could be worked, boat races, all kinds of sports, auto parades, etc. By circulating the "absents" and general advertising, the town would be filled to overflowing. The boys here, in Edmundston, and throughout the west would be there, but most of the people are comparatively near at home and would certainly make it a point to be home for the week. They should need very little coaxing at all.

Yarmouth had a very successful "Old Home Week" in 1911. Don't you think Digby should now take its turn? It could be made a profitable thing for the town, and something to be remembered for years to come.

Personally, I have often heard the boys here speak of some such occasion and have had letters from Edmundston (where the residents of Digby folks) speaking of the same thing.

This is merely a suggestion, caused by my deep interest in all that goes on in Digby and I hope you won't forget an "Old Home Week" for Digby county in 1914. I hope you'll interest the "boosters" of Digby right away for time flies, and next year will soon be here.

Sincerely yours,

ONE OF THE BOYS.

Fox Farm for Bridgetown.

The organization of the Rayner, Clark and Harlow Black Fox Co., Ltd., was made at a meeting of the shareholders at Bridgetown on Wednesday 4th, with a capital of \$30,000, half of which and 10 per cent. was paid at the first meeting. B. L. Rayner, of P. E. I., was appointed president; D. G. Harlow, secretary-treasurer, with Andrew Clark as resident manager. Directors: B. L. Rayner, ex-Mayor Harlow, Mayor Freeman, John Wilkinson and Andrew Clark. The new company have purchased twenty-six acres of pasture land on the north side of the river, from Major Slocomb and the fox ranch will be fitted up in the most up-to-date style. High wire fence will be placed all around the lot, electric lights, burglar proof doors, house and barn for the managers and a night watchman, with electric alarms all over the ranch. Four pairs of the best Silver Black Foxes will be put in the enclosure next September.

5000 Facts About Canada.

The public will welcome the 1913 Edition of "5000 Facts About Canada," compiled by Frank Yeigh, the acknowledged authority on things Canadian and the author of "Through the Heart of Canada." Ten thousand copies are now sold annually, which find their way all over Canada and the Empire, indeed the world.

The Facts booklet is stuffed as full of information as a sausage is of meat, is the happy and true way an English journal puts it, and the new issue, which includes many new features and improvements, such as a colored map of the Dominion, presents a striking story of the wonderful advance of Canada in a single year. We now talk in billions.

The booklet is issued at 25 cents a copy, by the Canadian Facts Pub. Co., 558 Haron Street, Toronto, and is sold by all the leading newsdealers.

A Lobster Trust.

The Boston Post of Saturday says: "Boston lobster dealers have formed a clearing house," to be known as the Boston Lobster Exchange. Its purposes are similar to those of the New England Fish Exchange.

During the past two years the lobster industry in Boston has been falling off, especially in the Nova Scotia trade. Practically every lobster dealer in Boston has joined the new association.

Instead of bidding against each other as was formerly the case when Nova Scotia lobsters arrived here, the Boston dealers will now work together, and it is believed that everyone concerned, including the public, will benefit. I. C. Harvey, the Commercial wharf dealer, has been elected president of the association. Quarters have been secured at 70 Long wharf, overlooking the harbor.

A Daddy at 95.

Wesley Bent celebrated his 95th birthday at Maynard, Mass., recently. He was born in Annapolis, N. S., on Jan. 20, 1817, and has lived there nearly all his life, with the exception of several winters passed in the States. As Mr. Bent smoked a corn-cob pipe on his birthday, by and by he had smoked all his life and had also taken an occasional drink of liquor without any harmful effect. His parents were both long-lived, his mother dying at the age of 87, and his father at 90. Mr. Bent has been married three times. His third wife, who is living, is an Annapolis, is a relative of Sir Charles Tupper, and is only 35 years old. They have had five children, four of whom are living, the youngest being 4 years old. The father is in the best of health and expects to live another score of years.

A Liberal Reward.

When Arthur Young, 12 years old, of Shamokin, Pa., found a roll of bills amounting to \$1,000 on the bridge between there and Sunbury on Thursday, he returned it to George Haines, the owner. The latter thanked Young and gave him 5 cents as a reward.

—Winslow Wilson, the newly elected President of the United States has caused it to be known among his Democratic friends that he is opposed to becoming a "headman," and will not sanction the removal of office-holders until the expiration of their term of office.

It Was Awkward.

'You made a mistake in your paper,' said an indignant man, entering the editorial sanctum of a daily journal, 'I am one of the competitors at an athletic entertainment last night, and you referred to me as the well-known lightweight champion.'

'Well, are you not' inquired the sporting editor.

'No, I'm nothing of the kind' was the angry response; 'and it's confoundedly awkward, because I'm a coal dealer.'

## DIGBY WEEKLY COURIER

Digby, March 14, 1913

## Change in Steamship Officials.

ANOUS WINGFIELD LEAVES THIS S. YARMOUTH AFTER BEING KLEVEN YEARS IN THE BAY SERVICE.

Mr. Angus Winchester, son of Mr. Charles Winchester, of Digby, has resigned his position as purser of the S. S. Yarmouth. Mr. Winchester has been eleven years in the bay service, having been employed for a long time as baggage-master on the same route. He was very popular with the traveling public and will, for some time, be greatly missed from the route. He and his family reside in St. John. We have not learned his intentions for the future.

Mr. Arnold Potter, formerly baggage-master on the same ship, has been promoted to purser. Mr. Potter is an efficient and popular official and many friends will join in congratulations and best wishes for his continued success.

The new baggage-master, at present, is Mr. W. E. Sargenson, of Kentville, formerly of England. Mr. Sargenson is an old time steamboat man, having been with the Canada line 23 years, White Star and in the Royal War years, serving as purser on transports.

## Observe Wedding Anniversary.

We reprint the following from the *Marblehead Messenger*: Mr. and Mrs. Amos Outhouse of Gardner, have been the guests of Mr. and Mrs. Alston Bartol, of this town, for the last few days. Last Saturday, February 22, being the anniversary of the visitors' wedding, they were invited to the home of Mr. and Mrs. Elias White, Jr., 33 Jersey street, where a very pleasant evening's entertainment, including musical selections, recitations and a general good social program had been arranged. Refreshments were served and all voted it a very pleasant evening. Mr. White states that the "land of Evangeline" was well represented. The party broke up at a late hour, after wishing Mr. and Mrs. Outhouse many happy returns of the day. Among those present were Mr. and Mrs. Elias White, Jr., Mr. and Mrs. Alston Bartol, Miss Helen Bartol, Mr. and Mrs. S. R. Gale, Mr. and Mrs. Andrew Paine.

(Mr. and Mrs. Outhouse formerly resided in Tiverton and have many friends in Digby county who will extend best wishes.

## Rev. T. S. Roy Resigns.

Not only the members of his own churches, but those of the other churches are sorry to learn that Rev. Thomas S. Roy has resigned the pastorate of the Digby Baptist church to take effect June 15. He is an earnest worker and under his care the churches in Digby and vicinity have progressed very satisfactorily and the members regret to part with him. When he became pastor it was understood that after two years he would take up his course in Theology which we understand, he intends to do in Rochester, N. Y., followed by a special course in the Chicago University. Both Mr. and Mrs. Roy have made a host of friends here who will wish them continued success wherever they may be located. No one will miss Mr. Roy more than the editor to whom he has extended many favors during his residence in Digby which we can assure him have been greatly appreciated.

## Coming Entertainment.

WESTERN NOVA SCOTIA YACHT CLUB'S SECOND ANNUAL DANCE WILL BE HELD EASTER MONDAY NIGHT.

The Western Nova Scotia Yacht Club's second annual dance promises to be a big success. The members of the committee who have this matter in charge, held a meeting Tuesday afternoon to complete arrangements. It will take place in the Bijou Dream (100 E. 5th) through the kindness of the genial manager, Rear Commodore Clegg. Easter Monday night. The hall will be especially decorated for the occasion, chaperons will be present and the music will be furnished by Dakin's orchestra.

Tickets are now on sale at Mr. P. W. Holdsworth's drug store. See advertisement in another column.

## Social at Smith's Cove.

The Methodist Social held at the home of Mr. T. Oscar Morgan, Smith's Cove, on Tuesday evening was a splendid success. The program was fine and a larger number of friends gathered from every part of the village. An entirely original and amusing program, consisting of music, readings and practical illustrations of how to solve some every day problem was presented by Mrs. George Austin and greatly enjoyed by all present. Refreshments were then served, which the annual church offering, which amounted to a goodly sum, was taken. Before the gathering dispersed Rev. Mr. Daniel was asked to speak and in a brief address he expressed his appreciation of the program and the kindness of Mr. and Mrs. Morgan and others who had done so much to make the entertainment interesting and enjoyable.

## Can Read His Own Obituary.

An item has been going the rounds of the newspapers this week describing the accidental death of Samuel Tebo, of Doucetteville, which is said to have occurred last Thursday and several have wondered why it did not appear in last Friday's *Courier*. We wish to state that the principal reason why we did not publish it was because Mr. Tebo is still alive and enjoying good health and that the accident did not occur.

## Mr. and Mrs. G. H. Peters 'Surprised'.

A number of friends of Mr. and Mrs. G. H. Peters gave them a "surprise" at the home of Mr. and Mrs. J. L. Peters last Monday night and presented them with a handsome and expensive clock. Refreshments, consisting of ice cream, cake, etc., were served. Mr. and Mrs. Peters were regret to state, will soon leave Digby, to reside in Western Canada.

## Motion Picture Record Broken.

The Boston *Journal* of Thursday last says that more than 3,000 people stood and cheered when President Wilson and ex-President Taft clasped hands last evening in the motion pictures of the inauguration at the National Theatre. All world's records were broken yesterday for the making of motion pictures. Twenty-three hours after the parade was over a complete record of the inauguration exercises in motion pictures was shown in Boston.

## Oddfellows' Reception at Port Wade.

Monday evening will long be remembered by the Oddfellows and their lady friends of Port Wade and Victoria Beach. The turkey supper given by them in the Port Wade Hall was a grand success and surpassed even their fondest plans. The committee in charge did their work well and the happy result reflects greatly to their credit. Never did the hall look as picture-que as it did after being visited by the decorating committee, and the effect was very pleasing to the eye. At 8 o'clock the meeting was called to order by the chairman, Mr. Watson Anthony, after which the following programme was rendered:

Selection from the *Karadale Orchestra*. Song, "There will your dreams come true," by Messrs. Stells Hyder and Winifred Johns.

Reading, "Mary's night ride," by Mrs. Fred Parker. Instrumental music by Miss Ella Schaefer. Violin accompaniment, Capt. Robinson. Dialogue, "John's somewhere," by Miss "Chloe" and Mr. Ralph Hayden.

Solo, "Take me back to your garden of love," by Estella Hyder, accompanied by Miss Fred Koon.

Reading, "Intensely utter," by Mrs. Parker. A farce, by Messrs. A. E. Parker and Ralph Hayden.

Each one of these numbers were well rendered, and the orchestra, which played at intervals throughout the evening, cannot be too highly spoken of. The guests then retired to the background while the "Boys" showed them how speedily and tastefully they could spread tables which would accommodate sixty people at one sitting. The bill of fare was very elaborate, no pains having been spared to make it the feast of the season. The waiting ladies, performed their part cheerfully and promptly till every one had been most graciously served.

Following this were speeches from several of the brothers, not only St. George Lodge, but Guiding Star Lodge and Western Star Lodge were also represented. Before closing a toast was given the ladies, which was promptly responded to, and as the reception closed each brother felt that he had taken a step upward in the principles of Friendship, Love and Truth.

## Died in Massachusetts.

The remains of the late William H. Timpany, who died at Gardiner, Mass., on the 5th inst., after being ill a few days with pneumonia, arrived here Wednesday and were forwarded to Rossway for burial, the service at the grave being conducted by Rev. Wm. Driffield, rector of Holy Trinity Church, Digby.

The deceased was born in Rossway 44 years ago and had been employed in Massachusetts for 25 years, having been with one firm for the past twenty years. He was a faithful member of the Gardiner fire department and had a host of friends in the town in which he resided, all of whom greatly mourn his death. He is survived by his parents, Mr. and Mrs. E. H. Timpany, of Sandy Cove, and two brothers, George in Egypt, Mass., and Mark, of Chatham. The latter accompanied the remains on Wednesday. Sincere sympathy is extended to the parents and large circle of bereaved ones.

## Farmers' Meetings.

Messrs. Wm. Brown, of Hill Grove, James Trevo, of Brighton, and H. C. McNeill, of North Range, returned Wednesday from a very successful trip in the interest of the Digby County Farmers' Association. Among the villages in which the association held meetings for the first time, were Plympton, Plympton Station, Gilbert's Cove, Ashmore and Weymouth North. All three speakers were well received and listened to with much interest. Mr. Brown, the engaged president of the association, says that the French inhabitants in the above localities were particularly interested in the meetings and he believes that much good has been accomplished among the farmers in the villages visited.

## Agricultural Meeting at Weymouth.

Messrs. Bacon, McNeill and Trevo, members of the executive of the Digby County Farmers' Association, held a meeting in the school house at North Weymouth on Friday evening, March 7th. Owing to the inclemency of the weather and the meeting not having been much advertised, the attendance was not as large as it otherwise would have been. The meeting was called to order by the appointment of Mr. N. E. Butler, chairman, who introduced Mr. Trevo, of Brighton, as speaker.

He opened his address by an outline of the rise and progress of Farmers' Associations in Canada, showing some of the advantages that had occurred therefrom. He then discussed the matter of stockraising as a profitable industry for the farmers of Digby County. He showed that success depended chiefly upon two points: breed and feed. The selection of the breed depended upon the end desired, whether it be the raising of working oxen, beef or the dairy. The feeding began with the birth and must be followed to maturity. He urged the importance of farmers raising their own feed, and the buying of imported feed transferred the profits from the farmer's pocket to the dealer's. Mr. Trevo then gave his experience in raising turkeys and potatoes for profit. He emphasized the importance of selecting the best for seed and the necessity of spraying for the destruction of blight and bugs. He contrasted the superior quality of our potatoes as contrasted with those of P. E. Island and other places and claimed he had no fear of the want of a market.

Mr. H. B. McNeill, of North Range, was the next speaker. He said the subject assigned him was sheepraising. This was an industry he had taken a great interest in. He had been connected with it from his early youth. Such a fertilizer is the sheep that it has been called the animal of the golden hoof. Noxious weeds disappear before them and rich grasses spring up behind them. Of first importance is the selection of a breed suited to the locality and requirements of the market. Our market calls for sheep for the butcher. He contrasted present prices with those of years past, proving beyond cavil that there is big money in sheepraising. Those of his hearers who are not prepared to engage in the business, while fully convinced of the truth of his statements could not help longing for good old days in this respect.

The third speaker of the evening was Mr. Bacon, president of the Digby County Farmers' Association. He said that while he was engaged in general farming his specialty was market gardening and his market the town of Digby. He first very minutely described his method of manufacturing and operating hot beds. He then described the raising of garden truck, giving the process from the sowing of the seed to the marketing of the products. He emphasized in common with the previous speakers the importance of obtaining the best seed possible as all know an inexorable law of nature is that, like begets like. Mr. Bacon dealt quite fully with the matter of the food of the gardener, notably, the cut worm, cabbage worm, squash bug and turnip maggot, giving in each case the most successful means for their extermination.

The Chairman being called upon to make some remarks said he did not think it prudent at this late hour to say much. He expressed his appreciation of all that had been said. He had always considered the tilling of the soil the most healthy and honorable occupation of man. Regretted very much that whenever a picture of a farmer was presented in a book or paper he was caricatured in habitations more becoming a scarecrow than a human being and known only as an old "H-yessed." Thus conveying to the young mind the idea that the calling of the farmer was a most ignoble one. He urged the importance of the farmer taking up the political side of the matter. Our agricultural interests should be more largely represented in our legislatures than they are at present.

A vote of thanks being tendered the speakers, the meeting closed.

# Why should any other cereal be called "just as good" as Kellogg's CORN FLAKES

Because Kellogg's is known to be the best and most nutritious cereal on the market—

Because the sale of Kellogg's Corn Flakes is enormous as trade returns will show—

Because another large modern factory, the best and most sanitary in Canada had to be built to take care of our constantly increasing trade—

Because the imitator, knowing these facts and having few selling arguments for his own product thinks to create a market for it by comparing it to Kellogg's:

But---the flavor and the sustaining qualities of Kellogg's Corn Flakes cannot be counterfeited. Sold in big packages at 10c. Look for the signature.

## Will Give \$500 To Sick Readers of The Courier

Famous Scientist Who Originated the Now Wonderful "Home Treatment" Offers \$1.00 Package Free to Sick and Ailing.

In order that every reader of the COURIER who may not have heard of this wonderful "Home Treatment" may have an opportunity to test this celebrated medicine, the now famous scientist, Dr. James W. Kidd, offers to give absolutely free a full size \$1.00 package to five hundred readers of this paper, to prove the wonderful claims which have been made for it. In making this offer the scientist said: "I know that there are many people who have been suffering for years with some chronic disease and many of them have spent large sums of money seeking a cure. I know that these people hesitate about investing money in medicine because they have despaired of ever getting well. Thousands have told me that they and many thousands of the same people have told me afterwards that my treatment had cured them after doctors and everything else failed. I want to prove to a limited number—no matter what the disease, no matter how long they may have suffered, no matter how blue and discouraged—that my treatment really and actually does accomplish the wonderful results that have been reported."

People who suffer from Rheumatism, Kidney Trouble, Stomach Trouble, Liver or Bowel Disorders, Catarrh, Bronchitis, Asthma, Chronic Coughs, Weak Lungs, Lumbago, Piles, Urinary Disorders, Female Weaknesses of any kind, the weak, worn out, broken down and despondent will be delighted at the effect of a few doses. This wonderful treatment creates a fine appetite and helps the digestive organs to carry on their functions as they should. It strengthens the kidneys, too, and drives rheumatism poisons from the blood as if by magic. That is why people who try it become so enthusiastic.

Any reader of the COURIER who will try this extraordinary medicine that has created so much excitement by its cures can obtain absolutely free a full \$1.00 treatment by simply filling in the coupon below or writing a letter describing their case in their own words, if they prefer, and mailing it today to James W. Kidd, Toronto, Canada. No money need be sent and no charge of any kind will be made. As this offer is limited, you should write at once, in order to be sure to receive your free treatment.

## NOVA SCOTIA SHOULD DEVELOP A LARGE TRADE WITH CUBA

(Continued from first page)  
country lovelier than any it had traversed heretofore. This is the prince less center of the Vuelta Abajo district, where lowland tobacco, considered cream de la creme, is produced, according to methods which are an astonishing combination of the archaic and the modern scientific. Here there are sweeping hills and valleys that dip between, diverse with royal palms that never weary in their changing grace, low hills to the northward, cloud crowded and misty, close at hand, Cuban bohios, walled his palm board, and thatched with leaves. In the fields cattle suggest quiet contentment. Over all is the marvelous coloring of Cuba, so fairy like it makes the vista seem unreal.

### A GLIMPSE AT CUBA.

Here is another sketch of Cuba, this time a glimpse from the hotel verandah in Havana: "Steamers entering or leaving the port negotiate the narrow mouth of the harbor with in a stone's throw of the driveway; or again, it is a white sailed schooner beating in under Cabanas, whose moss patched walls glow pink in the evening light. As the southern night falls thick and quickly, whirling carriages and automobiles seen much Miramar become animated silhouettes against a burning background in the west. When the flare of sunset burns low and out, their lamps are lighted until, in the darkness, these seem each a link in a running chain of intermittent glow. Now and then a touring car drawing up at the curb turns the inquisitive eye of its searchlight upon those at table on the verandah. And you sit long into the night."

### Friedmann Gives Serum to Doctors.

NEW YORK, March 9.—In a thirty minute clinic late today, Dr. F. F. Friedmann's vaccine, which he claims is a cure for tuberculosis, was given to a test in the presence of United States government officials. The seven cases treated are to remain under government inspection and upon their development will depend the official report. It was announced that Dr. Friedmann had furnished the federal representatives with specimens of his bacilli culture and that they would continue to hold clinical observations. Gathered at Mount Sinai Hospital, where the test took place, was a party of thirty or more physicians and surgeons of the city, and the federal officials for whose benefit the patients were treated. The government physicians acting under orders, they stated, declined to discuss the test. Dr. Anderson, it was said, would leave for Washington late tonight or early tomorrow, while Dr. Stimson would remain here to watch the effect of the vaccine upon the patients.

### German Loan is Failure.

BERLIN, March 8.—The failure of the Prussian government to float the \$100,000,000 Prussian short term four per cent. treasury notes, marking the first occasion on which a government loan here has not been fully subscribed, appears to have been greater than anticipated yesterday.

The Tagblatt says that only \$12,500,000 of the notes were taken up, and that these were divided into \$15,000,000 of new subscriptions and \$27,500,000 of old treasury notes presented for prolongation.

The Prussian State Bank hopes that the latter figures may be increased to \$37,000,000, before the maturity of the old notes on April 1.

Banking circles had hoped to interest foreigners, particularly Americans, in the issue of the treasury notes, which are unpopular here, but the foreign subscriptions turned out to be very scanty.

### Blind Singer Averted Panic.

WORCESTER, March 8.—The coolness of Edward I. Boyle, a blind singer, in keeping on with his song while the fire spread rapidly in the balcony of F. W. Lynch's Pleasant Street theatre tonight, prevented a panic among the 500 persons in attendance all of whom fled out to safety. When the last of the audience reached the door, Joseph L. Rogers, the pianist, who had played Boyle's accompaniment throughout the trying time, leaped on the stage and led the blind man out through a rear exit.

The flames spread with such swift-ness that a general alarm was sounded causing most of the Fire Department to converge on the theatre. The fire was confined to the theatre, which was wrecked. The loss is estimated at \$35,000.

### Turks Now Face Mutiny

LONDON, March 10.—A Constantinople dispatch to the Post says that Enver Bey is at San Stefano with 20,000 troops to check any possible advance on Constantinople of the Tebatdja forces, whose loyalty to the government is doubtful. Violent snow storms will hinder military operations. The Greek losses in the capture of Janina, according to a dispatch to the Daily Telegraph, are estimated at 1,800. The Greek army, however, is reported to have lost 15,000 men killed and wounded.

In an interview, Enver Pasha, who commanded the Turkish forces at Janina, said he had resisted until he considered further resistance madness. He had little ammunition left. His losses during the four months of the siege numbered 7,500.

### Sudden Death.

NORTON, N. B., March 8.—A very sudden death took place here last evening when Mrs. Richard Chambers fell dead in her home. Mrs. Chambers was 61 years old and was around the house in her usual good health when she remarked to her husband, who was in the room with her, that she had a pain in her head, and immediately expired. Mrs. Chambers was long beloved by all who knew her, and general sympathy goes out to the bereaved ones. Besides her husband there are four step children, one son at home and two sisters residing in Norton, Mrs. Maggie Brittain and Mrs. Joseph Bell, and two brothers, James and George Green, of Medford.

## RHEUMATISM KEPT HIM IN BED

Suffered Tortures Until "Fruit-a-tives" Cured Him

McMILLAN'S CORNER, ONT.

SEPT. 30th, 1910

"Your remedy, 'Fruit-a-tives' is a perfect panacea for Rheumatism. For years, I suffered distressing pain from Rheumatism or Sciatic Rheumatism, being laid up several times a year for days at a time. I went to different doctors who told me there was no use doing anything—it would pass away. They gave me mustard plasters and other remedies that did no good. Plasters took no effect on me—except to blister me and make raw spots. I took many advertised remedies without benefit, but fortunately, about two years ago, I got 'Fruit-a-tives' and they cured me.

Since then, I take 'Fruit-a-tives' occasionally and keep free of pain. I am satisfied 'Fruit-a-tives' cured me of Rheumatism and they will cure anyone who takes them as directed. If this letter would be of value to you, publish it." JOHN B. McDONALD.

Indeed, this letter is of value to us and to the thousands of sufferers from Rheumatism, Sciatica, Lumbago and Neuralgia. It points the way to a certain cure. 50c a box, 6 for \$2.50 trial size, 25c. At dealers or from Fruit-a-tives Limited, Ottawa.

# Are You Blue and Worried?

Nervous? Some of the time really ill? Catch cold easily and frequently suffer from biliousness or headache? The reason is that your system does not rid itself of the poisons in the blood; just as impossible as it is for the grate of a stove to rid itself of cinders. The waste does to us exactly what the cinders do to the stove; make the fires burn low until enough cinders have accumulated and then prevent its burning at all. Your liver is sluggish; you are dull and heavy—sleep does not rest, nor is food appetizing. In this condition illness develops. Doctor Pierce's Golden Medical Discovery eradicates the poisons from the body—a glyceric alterative, female, purifying, constipating and nervousness at times I could not sleep, then able to sleep again. Was under many different doctors and would get better for a little while, then I would go down with chronic inflammation all through me. For nineteen years I had this poison in my blood. After trying nearly everything I got worse. I read in The People's Common Sense Medical Adviser of Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy. I have taken five bottles of Dr. Sage's Catarrh Remedy. I am now able to do my work and walk with pleasure. I feel like a new woman. I enjoy everything around me and thank God for letting me live long enough to find something that made me well again.

Mrs. Bess Blake, of Port Dover, Ont., Box 24, writes: "I have been a great sufferer for years from throat trouble, catarrh, indigestion, female troubles, biliousness, constipation and nervousness at times I could not sleep, then able to sleep again. Was under many different doctors and would get better for a little while, then I would go down with chronic inflammation all through me. For nineteen years I had this poison in my blood. After trying nearly everything I got worse. I read in The People's Common Sense Medical Adviser of Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy. I have taken five bottles of Dr. Sage's Catarrh Remedy. I am now able to do my work and walk with pleasure. I feel like a new woman. I enjoy everything around me and thank God for letting me live long enough to find something that made me well again."

Dr. Pierce's Pleasant Pellets regulate liver and bowels.

## Proving by Actual Experiment

This experiment will always interest the children, and will prove a good deal of thinking. The explanation, of course, is that the lighted glass drives out most of the air, so that when the mouth of the glass is quickly put down into the water there is very little air, and consequently, very little pressure above the water within the glass. Hence, the weight or pressure of the air on the water outside the glass drives the water up into the glass to occupy the space from whence the air was driven by the burning paper.

A practical demonstration of this kind is always more convincing than any mere statement. This is particularly true of medical remedies. The effect of the anti-toxin treatment for diphtheria is noticeable within a few hours, so that everyone must believe in its virtue. In a similar way, the treatment known as ORANGE LILY gives a practical proof of the progress it is making in curing women's disorders, and that, too, within a few days after commencing its use.

All authorities agree that in every case of women's disorders there exists a congested condition of the woman's organs. The circulation in these parts is sluggish or stagnant, and the result is that the broken-down tissue or waste matter which should be carried off by the blood is circulating freely, remains in these parts, causing inflammation, irritation, oppression, etc. ORANGE LILY is absorbed into the circulation, and its antiseptic properties at once act on the waste matter referred to above. The consequence is that this waste matter is discharged, causing the inflammation, irritation, oppression, etc., begins to be discharged, and it continues to be discharged until all the foreign matter is removed from the circulation. At the same time the blood vessels and nerves are toned and strengthened, the nervous trouble disappears, the circulation is restored and good health follows.

Toronto, Ont., June 2, 1909.  
Dear Mrs. Currah, I wish to tell you that Orange Lily is doing me a great deal of good. Those ulcers came away one or two every week, and I have less pain and fewer headaches. I feel sure I will be perfectly cured in a little longer time.  
MRS. D. S. T.

The explanation of the wonderful cures performed by ORANGE LILY is very simple. It is a scientific remedy, based on the discoveries of Pasteur and Lister. The conditions existing in all female troubles are of a character differing in degree and development only, so that a positive remedy, as ORANGE LILY is, acts with all the certainty of a chemical experiment. In order to convince every suffering woman that ORANGE LILY will cure her, I make the following

## Free Trial Offer.

I will send to every reader of this notice who suffers in any way from any of the troubles peculiar to women, if she will send me her name, address, and the name of the druggist nearest her, enough of the ORANGE LILY treatment to last her ten days. In many cases this trial treatment is all that is necessary to effect a complete cure, and in every instance it will give very noticeable relief. If you are a sufferer you owe it to yourself, to your family, and to your friends to take advantage of this offer, and get cured in the privacy of your home, at no expense, for a little or expense of any kind, for a little or expense of any kind.

## CORRESPONDENCE

I. O. F.  
A LETTER OF APPRECIATION FROM A BROTHER FELLOWSHIP.

To the Editor of the Courier  
DEAR SIR—As I have been six months since my illness began, and as I am so slowly it seems nothing but a long and tiresome road ahead, but as in any affliction that may come upon us we have something to be thankful for.

I am glad that I am not among the number who stand out against such an order as the I. O. F., and who say that it is only an order to pay dues into and that there is no fraternity shown among the brothers. I differ from such savings.

I think while so many try to get into this order and are rejected, that we, who have been so fortunate, ought to be proud that we are ranked among the vast number of brothers who are caring for their own in times of necessity.

Such has been my circumstances to be in need, yet my good brothers have never seen me want.

On the 25th of February I received from the hands of the Chief Ranger a nice sum of money amounting to \$100.00, given to me as a present in behalf of the court. The amount being so large shows the good will of every brother.

This being the second time they have helped me during this illness, I now take this opportunity to publicly thank each brother kindly for their help to him, and may they all feel that I appreciate most gratefully their great assistance.

We have about fifty members in our court. It is my wish this may prove an invitation, that they may help to swell the number of our ranks.

Wishing my Brothers and the Court well. I remain, sincerely theirs, in L. B. G. & C.

WM. MAYNARD DENTON,  
Court Pennsile, No. 1201,

## Great Triumph For French Engineers

LAST RAIL OF LOETSCHBERG RAILROAD JOINING BERNE WITH BRIG, HAS BEEN LAID.

GENÈVE, Switzerland, March 6.—The last rail of the Loetschberg railroad joining Berne with Brig, was laid today. The new road opens an international highway to North and South Europe by way of the Loetschberg and Simplon tunnels across the Central Alps. Express train schedules will be started on the line next week. The successful completion of the work, which was attended by tremendous difficulty, is considered a great triumph for French engineering.

The completion of the Loetschberg railroad which embraces the famous Loetschberg tunnel, forms the last link of a thorough route from London to the principal tourist points in Italy by way of the Alps. The route is 147 miles, or nearly eighty miles less than the old route.

## Ing Captains Form Union

Monday, St. John Standard says:—There was an enthusiastic gathering of captains of the harbor and river craft in the rooms of the International Longshoremen's Association on Water street, yesterday afternoon, when they formed a union for the purpose of bettering their positions. Edward Fitch, the business agent of the longshoremen's association, was present, and delivered an address to those present, after which a vote was taken, and it was unanimously decided to form a union. Capt. Charles Lewis was chosen treasurer and F. L. Corey, secretary. It was shown that all certified captains could be enrolled as members of the new union and in a very few minutes about 50 men were enrolled. A number of those present then delivered addresses stating the benefits which they expected would result from organization, and the meeting adjourned to meet again on Sunday afternoon next.

## Tuberculosis Cure.

TORONTO, March 5.—"We are greatly interested in what we have heard of Dr. Friedmann's tuberculosis cure, but as we have no money for the purpose we feel that the provincial board of health ought to send some one to investigate, and if there is virtue in the cure, Dr. Friedmann could be invited to come over," said Hon. Adam Beck today.

Mr. Beck is president of the Canadian Association for the Prevention of Tuberculosis, the Royal Alexandra Sanatorium, London, and the London Health Association.

## Pilot With Poor Eyesight.

QUINCE, March 6.—At the pilotage commission today, Dr. P. Contrecoeur, in the course of his examination, said in 1901 he was appointed by the minister of marine to test the eyesight of pilots. He had examined the eyes of the Montreal pilots and found from sixty to seventy-five per cent of them defective. If they were subjected to the royal navy or French marine test, sixty-five per cent would be rejected. His report was not favorably received, he being informed that the men bore good records. He asked that outside specialists be appointed to re-examine them, but nothing was done. Some one else put them and they are still serving as pilots.

## Thaw Seeks Release

ALBANY, N. Y., March 3.—Harry K. Thaw, slayer of Stanford White, is still of unsound mind and his release from the Matteawan state hospital for the insane would be dangerous to the public peace and safety, according to a sworn affidavit made today to Attorney General Carmody by Mr. Roy L. Leake, acting superintendent of the hospital. The affidavit will be used as the state's return to the writ of habeas corpus obtained last Saturday.

## China's Loan

PEKING, March 3.—Germany has withdrawn her objections to the appointment of a British adviser to the administration of the Had Tax in China and the six Power loan is now expected to go through without any further hitch. The United States and Japan have waived their claims to the appointment of their representatives among the four foreign advisers under the loan agreement.

## Fortitude During Illness.

Last summer she wrote to The Globe, expressing a desire to contribute a poem to The Christmas Globe, saying sadly that she might not live to see it published. Unfortunately, she was unable to write it. During her illness she had many manifestations of affection, and a fund was recently raised for her in Brantford. It was with difficulty, however, that her proud spirit was prevailed upon to accept aid. A brother of Miss Johnson resides in this city, Mr. Allen W. Johnson, of the Canada Life Assurance Company.

A story illustrating her life at school is told by Mrs. Denison ("Lady Gay"), the well-known society writer. They were classmates, and when some of the girls showed aversion to her associating with an Indian, Miss Sandys, as she then was, protested, and when she pointed out to the superior young people that Miss Johnson was a real Princess, their manner changed, and the poetess and the future journalist were fast friends for life.

HER LITERARY WORK.

Miss Johnson's place in Canadian poetry may perhaps best be described from the following quotation from a review of her collected poems, "Flint and Feather," which appeared in The Globe last November:—

At her first public appearance in Toronto, before the Young Men's Liberal Club, who were giving a poetical evening, she recited "A Cry from an

## The Late Pauline Johnson

A SKETCH OF THE CAREER OF THE WELL KNOWN CANADIAN INDIAN PRINCESS.

The Toronto Globe, referring to the death of Pauline Johnson, says: Of that eminent group of writers who half a generation ago constituted the Augustan age in Canadian poetry, Pauline Johnson stands as the unique and individual singer, the lyricist of nature, the interpreter of the thoughts of the dying Indian race. Herself the daughter of an Indian Chief of the Mohawk tribe, near Brantford, where she was born on March 10, 1863, she inherited the red man's love of the drama, while her literary tendencies may be described to the family of her English mother, Emily Howells, through whom she was related distantly to the present dean of American letters, William Dean Howells. There was real romance in the marriage of the Indian Chief and the white girl. Miss Howells came from Ohio to the Mohawk Reserve with her sister, the wife of a Church of England missionary, and meeting the handsome young Chief, they fell in love, and, despite the degradation it meant for the Chief's tribal ambitions, they were married. The little rough-hewn house in which Pauline Johnson was born still stands, and in the years to come should become a literary shrine for lovers of Canadian poetry.

WAS WELL EDUCATED.

Pauline was carefully educated by private tuition and in the Brantford Model School. Early in life she began to write verse, but the world's knowledge of her dates from an evening in 1892, when at the age of thirty she appeared at a literary evening of the Toronto Young Men's Liberal Club, and along with several other poets, read selections from her own works. Her dramatic power and the singular quality and force of her lines made an instant literary sensation. The favorite poem of the evening was "A Cry from an Indian Wife," which at once gave poignant voice to the red man's point of view on the public memory.

FAME CAME SUDDENLY.

At once Miss Johnson became a public figure and Mr. Frank Yeigh started her on a career as a public entertainer, which continued with much regularity until ill health a few years ago caused her retirement. Arrangements were soon made for the publication of a volume of poems. It was called significantly, "The White Wampum," and its appearance in Britain especially, in 1894, was hailed with much delight by literary critics and readers.

Miss Johnson's presence in England at the time gave piquancy to its reception. A second volume, entitled "The Canadian Born," was published in 1903. In 1911 her "Legends of Vancouver" appeared, a volume of short sketches, giving to the public a treasure of local stories narrated to the sympathetic ears of the writer by the famous Indian Chief, Joe Capilano. These are expressed in graceful language and will be read as the one legacy in prose by the gifted poetess. This volume was published through the mediation of the Women's Canadian Club of Vancouver, and the receipts from the sale came when Miss Johnson lay in Butte Street Hospital, Vancouver, her health shattered and her financial resources at a sad end. She had covered many thousands of miles in public entertainment, latterly with Mr. Owen A. Smiley, and her reward was a broken constitution and what threatened to be a lonely death. She bore her illness with cheerful fortitude, and only a few weeks ago sent to Mr. Yeigh a specially bound volume of her "Legends" as a token of gratitude to a benefactor.

Fortitude During Illness.

Last summer she wrote to The Globe, expressing a desire to contribute a poem to The Christmas Globe, saying sadly that she might not live to see it published. Unfortunately, she was unable to write it. During her illness she had many manifestations of affection, and a fund was recently raised for her in Brantford. It was with difficulty, however, that her proud spirit was prevailed upon to accept aid. A brother of Miss Johnson resides in this city, Mr. Allen W. Johnson, of the Canada Life Assurance Company.

A story illustrating her life at school is told by Mrs. Denison ("Lady Gay"), the well-known society writer. They were classmates, and when some of the girls showed aversion to her associating with an Indian, Miss Sandys, as she then was, protested, and when she pointed out to the superior young people that Miss Johnson was a real Princess, their manner changed, and the poetess and the future journalist were fast friends for life.

HER LITERARY WORK.

Miss Johnson's place in Canadian poetry may perhaps best be described from the following quotation from a review of her collected poems, "Flint and Feather," which appeared in The Globe last November:—

At her first public appearance in Toronto, before the Young Men's Liberal Club, who were giving a poetical evening, she recited "A Cry from an

## Indian Wife," and the spirit of rebellion breathing through those passionate verses, representing the red man's protest, has formed the basis of the public estimate of Miss Johnson's work ever since. She became at once the voice of the hitherto inarticulate wards of the nation, and if she pictured a miserable present for the Indians, she was equally proud of a glorious past, of the silent but desperate courage of Ojibwa, the Mohawk wife, or of the Happy Hunting Grounds when the prairie was the

World of the bison's freedom, home of the Indian's soul.

GROWTH OF HER OUTLOOK.

But Miss Johnson did not spend her days lamenting a glorious past. Her poetry will be remembered quite as gratefully for her epics of Canadian life and scenery in the broad outdoors of the north and west. What could be more graceful than her description of "Shadow River," or what more redolent of pioneer life than the exquisite lyric, "The Song My Paddle Sings!" What incident of country life is more frequent than the gathering of the crows, idealized and made memorable in "The Vagabonds?" Similarly "The Bird's Lullaby," beginning

Sing to us, cedars; the twilight is creeping  
With shadowy garments the wilderness through,

is a perfect picture of the drowsy twilight in the forest. A wider life is reflected in "Penseroso," descriptive of the play of the winds in the mountains and on the ocean shore.

As the years passed one feels in Miss Johnson's verse an increasing consciousness of the results of national development and civilization. "Prairie Greyhounds" describes with beautiful word and imagination the first transcontinental trains to sweep across the plains. With them disappeared the kingly status of the red man, and brought the cattle-men and the Mounted Police who their way, were successors of the old-time Indian.

Beneath the surface Miss Johnson delved, and in "The Legend of Qu' Appelle Valley" and "Golden" of the Selkirk, she embodied tales from early days in "soft, melodious words that breathe the spirit of romance."

LATER YEARS.

Apart from these there was occasional nature study, like "The Humming Bee," "The Sleeping Giant" (Thunder Cape), or "At Crow's Nest Pass." But after that Miss Johnson's thought became more cosmopolitan. We have "Give us Harababab," a protest against the exile of Dreyfus, ballads like "At Half-mast," or a tribute to a great artist in "The Art of Alma Tadema." Outstanding among Miss Johnson's later verse, however, are "The Train Dogs," an epic of the trapper's dog trains from the north, and "A Toast," a bacchanalian tribute to the city of Vancouver.

Miss Johnson's legacy of verse, which, in view of her sad death in Vancouver, can never be increased, is slight in quantity, the collected volume numbering less than one hundred poems. It will be treasured, however, for generations to come for its individuality, its virility, and for its complete expression of love for the red men and their free life, the grandeur of Canadian scenery, and for various noble elements in our early civilization.

### Have Great Faith in Dr. Friedmann

BELIEVE HE HAS FOUND A REMEDY TO BATTLE WHITE PLAGUE.

Toronto, March 16—Local physicians who were with Dr. F. Friedmann during his clinics here, are enthusiastic in their praise of the doctor's personality, his sincerity, and whole hearted devotion to science.

"Dr. Friedmann made a most favorable impression upon all with whom he came in contact," was the comment of Dr. J. J. MacKenzie, of the University of Toronto. "Any doubt of his absolute sincerity was removed within a few hours after his arrival here. Any physician who talked with him realized at once that he is an authority upon the treatment of tuberculosis, and his twenty-three years of research was evident in everything he said, and did. If Dr. Friedmann has not actually discovered a cure for tuberculosis, I don't know who in the world can be expected to do so."

"I was with Dr. Friedmann during his clinics in both Ottawa and Toronto," said Dr. Allen Adams, another authority on tuberculosis, "and I have nothing but praise for him. He has such wonderful faith in himself and his work that every one who meets him is inspired by his enthusiasm to believe that a cure for tuberculosis has at last been given to sufferers of humanity. We all know that such a cure is bound to be discovered and there is no reason to doubt that Dr. Friedmann, through his long years of study and experimenting, has found the precious serum. We will be able to judge of its efficacy in a short time. The Toronto physicians who assisted at yesterday's clinics will watch the patients very carefully and hopefully. We all trust that the doctor's faith in his discovery will be justified."

WILL RETURN TO CANADA SOON.

New York, March 16—Dr. Friedrich Friedmann returned to this city today from Canada and made preparations for administering his tuberculosis vaccine to twelve patients in Bellevue Hospital. Dr. Friedmann visited Bellevue this afternoon and examined the charts and X-ray photographs of his prospective patients. He expressed pleasure at the reception given him in Canada and said he would soon return to observe the effects of his vaccine on the patients he inoculated there.

### What the Farmers' Association Means to the Farmer

The Farmers' Association is designed for the instruction of the farmers, for the spread of agricultural knowledge among the masses; to acquaint them with the best methods of farming, gardening, dairying, stock raising and all the branches of agriculture. One of the chief benefits of the association work is the development of local talent. Our local speakers understand better the conditions existing in the different localities of our county than do outside speakers, although it is beneficial to have one of the latter occasionally. At our district meetings we tell the farmers how to grow crops successfully, how to select their seed and how to fertilize the different crops. We tell them how to spray their potatoes against bugs, also how to control the blight that they may save 98 per cent. of the crop from the rot. We tell them how to grow successful garden crops, get their vegetables early, also how to exterminate the cutworms, root maggot, squash bugs, cabbage worms and all other insect pests that cause such wide spread destruction in field and garden, and involve so much loss to the farmer. Besides the above subjects stock raising, including cattle, sheep, etc., are discussed. Added to these advantages the farmers have the privilege of obtaining their seeds at strictly wholesale prices, thus saving the profit of the middleman.

There are also other facts which we must not lose sight of. When the farmers are united they are in a position to ask the government for aid in the support of agriculture. In some parts of the province co-operation has reached such a stage that the farmers have formed fruit companies whereby they send their own apples into the markets as well as other products of the farm, and obtain better prices than under the old method of selling them to speculators. They also get their fertilizer at wholesale prices. After summing up all the above benefits I fail to realize why every farmer should not be a member of the farmers' association.

### Death of Mrs. Edward Dunn

There passed peacefully away at her home in Lunenburg on the morning of Saturday, March 16, Jeanette, wife of Edward Dunn, aged 71 years. She leaves to mourn her loss, her husband and a daughter, Miss Eva, and a large number of nieces and nephews. The funeral on the following Tuesday, conducted by her pastor, Rev. G. W. Schurman, was very largely attended by friends and neighbors as they lay to pay their last tribute of respect to a life-long friend. Interment took place in Mount Hope cemetery, Bear River.

A number of the children of our neighborhood are laid up with whooping cough. Quite a severe type.

Several of our citizens are veterans of the Fenian Raid. We wish them success in drawing their pensions.

### An Old Industrious Woman

Mrs. Maud H. Bean, 83 years old, at Livermore Falls, Me., is regarded as one of the most industrious women in the state. She picked 14 barrels of apples in eight hours last fall. At home she saws all her own wood, does the housework for two and walks two miles a day.

## FOR WOMEN ONLY.

That is the nature of Dr. Pierce's Favorite Prescription—the one remedy for women which contains no alcohol and no habit-forming drugs. Made from native medicinal forest roots. Dr. Pierce tells its every ingredient on the bottle-wrap. Prominent physicians and some of the best medical authorities endorse these ingredients as being the very best known remedies for ailments and weaknesses peculiar to women.

This is what Mrs. GEORGETTE E. CORREY, of Longstreet, Ky., says: "I feel it my duty to write and tell you what your medicines have done for me. I was a great sufferer for six years from a trouble peculiar to women, but I am thankful to say, after taking four bottles of your 'Favorite Prescription' I am not bothered with that dreadful disease any more. I feel like a new woman. When I first wrote you for advice I only weighed 115 pounds—now I weigh 135. 'I thank you very much for your kindness. You have been as a father to me in advising me what to do, so may God bless you in every effort you put forth for good. 'I hope this testimonial will be the means of some poor suffering woman seeking health.'"

Dr. Pierce's Medical Adviser, newly revised up-to-date edition, answers hosts of delicate questions about which every woman, single or married ought to know.

Thank You Mother!

### Cross Fertilizer Co. Take Action Against an Amateur Man.

In an interview with the *Sydney Record*, Mr. C. R. Walker, of the Cross Fertilizer Co., states that his company have issued a writ against Oliver J. Logan of Amherst, claiming damages for libel. Mr. Logan had made the statement that the Cross Fertilizer Co. guaranteed their fertilizer to contain 13.8 per cent soluble phosphoric acid to the ton, whereas it only contained 7.9 per cent. The company were going to give Mr. Logan a chance to make his statement good in the courts.

Asked as to their fertilizer, Mr. Walker said, "their 'A' quality, registered No. 357, was guaranteed to contain 12.8 per cent. soluble phosphoric acid. On the 20th April the government inspector for Nova Scotia drew a sample from the United Fruit Company of Amherst, N. S., which, on being tested, by the government analyst was found to contain 14.00 per cent available phosphoric acid, and on the 9th of May the government inspector for New Brunswick drew a sample from the Sussex Mercantile Company at Sussex, which on being tested by the government analyst, was found to contain 14.83 per cent available phosphoric acid."

"In simple figures," said Mr. Walker, "the above means that we guaranteed our slag to contain 250 pounds of available phosphoric acid to the ton, whereas we actually give the buyer 290 pounds in the one case and 297 in the other."

Only nerve and obedience on the part of Mabel, aged 6, resulted in her escape from the fate of the others. The remains of three of the victims were found in the cellar, charred to cinders, and the juror at the inquest held by Dr. James H. ## St. John Road and Motor Show

### St. John, March 29th to April 5th, in Queen's Rink

You can't afford to miss this exhibit and it would be worth your while to come to the Show for this alone. A more interesting exhibition of modern road-building methods, was never gathered together.

The booth is in charge of road experts, who will be glad to give you complete information and to explain every detail of road models. These models show the details of construction, from beginning to end of the road-making process.

If you have a "road problem" at home, take it to them—they are there to answer questions and will help you to a correct solution, without the slightest cost or obligation.

If you cannot visit the show, write us for complete information and literature on good roads. It will show you how and why concrete is solving the world's road problems.

### Port Wade.

Charles Wood, of Perotte, spent the week end a guest at the home of John D. Ape.

Thomas Wood and son Frank, of Annapolis Royal, visited friends and relatives here last week.

Mrs. James Litch visited her sisters, Mrs. Gilbert and Mrs. James Ellis, Lighthouse road, over Sunday.

Miss Mable Bent, of Port George East, is spending the Easter holidays with her teacher, Miss Helen Snow.

Mr. William Ramsay, of Perotte, and Miss Rice, of Lake Le Rose, have been visiting friends in this vicinity the past week.

There are some evidences here of the world growing "weaker and wiser." Two parties are running a wood sawing plant by gasoline motor, the first to be seen in these parts.

Some of our fishermen of the Dorothy G. Snow, Capt. W. Snow, spent Sunday at home here. Among others, James Shocumb, steward, Thomas Kinghorn and son George.

The school teachers of this place are home for the Easter holidays, viz.: Miss Lena Keans, Springfield school; Miss Helen Snow, Port George East; Misses Minnie and Delma Snow, from Karsdale and Victoria Beach respectively.

The weather of late has the appearance of May, all the birds seem to be here with the exception of the swallow. A number of the men who had not finished their winter operations in the wood and lumber, have called a halt owing to the frost all coming out and snow on the mountain completely gone.

An average winter's work has been accomplished here.

The Baptist church and Sunday School gave, under the auspices of the Women's Aid Society, an excellent Easter concert on Sunday evening which was highly appreciated by the large audience present. Some very happy remarks were made at the close by Pastor Cornwall, in commendation of the manner and spirit in which the concert was carried through. The church was beautifully decorated with evergreen and potted plants for the occasion.

### Hill Grove.

Mrs. James Hooper, we are sorry to say, is on the sick list.

We are pleased to see Mr. Robt. Bell out again after being ill for some time.

Mr. and Mrs. Morrell entertained a number of their friends at a tea party on Wednesday of last week.

Quite a number of friends gathered at the home of Capt. and Mrs. Morrell on Monday evening and gave them a genuine surprise. A very pleasant evening was spent by all. Their greatest surprise was when they were presented with two very nice rocking chairs, by R. A. Bell. We shall miss the genial captain and his wife as they are going to move to Digby soon.

Mr. John Nichols, one of our oldest and most highly respected citizens, passed away at the home of his son, George Nicholson Thursday night. He had reached the advanced age of eighty-seven years. The deceased had been a member of the Baptist church for a long time, and when failing health compelled him to stay at home, was much missed by his many friends. He is survived by a son and three daughters. The funeral services were conducted by Rev. A. H. McLeod and was largely attended.

### Big Sulphite Mill for Bear River.

GREAT INDUSTRIAL DEVELOPMENT PROPOSED FOR WESTERN PART OF PROVINCE—  
HUNDREDS OF THOUSANDS OF DOLLARS WILL BE EXPENDED.

(Halifax Chronicle.)

Western Nova Scotia is on the eve of important industrial development. Still another hydraulic power project is now under way, and coupled with this latest proposition is the installation of a sulphite pulp mill, the first of the kind in the Province, the plans of the promoters looking to the eventual production of news-print within the Province.

Bear River is to be the scene of this new venture. Here there is a water power capable of generating 4,000 horse power, tributary to which are one hundred thousand acres of the finest pulp-wood lands in the Province.

The geographical location of Bear River makes it an unequalled point for the assembling of all the raw material and the finished product, for the site of the proposed plant is practically on tide water, and there is every prospect that the plant now under contemplation will be completed within a short time.

CAPITALISTS INTERESTED.

Beyond admitting that there was a project for the development of this power under way, Mr. W. G. Clarke, of Bear River, who was at the Halifax yesterday, would not discuss the matter saying that it was yet too premature to make any statement. He would say nothing regarding the report that a powerful group of local and outside capital was interested in the project and had practically decided to embark on it. That there was a proposal to develop this power, however, Mr. Clarke admitted, and added that if nothing further than this came of the present project, the cheap electricity which could be generated from this water power would prove of very considerable value to Bear River and the surrounding districts.

AN EXCELLENT LOCATION.

With an assured power, excellent wood reserves, transportation facilities which permit the necessary limestone, sulphur and other supplies to be landed at the site for the minimum of cost, an excellent labor supply, and a market readily available for all the sulphite pulp which can be manufactured, the Bear River project would seem to have every element of success. There is not at present a single sulphite plant in Nova Scotia. There are a number of mechanical mills, and the supply of groundwood pulp is rapidly increasing.

From other sources The Morning Chronicle understands that it is the intention of the promoters of the present project to put up a large sulphite mill of the latest type and later install some news print machines, purchasing the necessary ground wood from some of the other mills. This project would not utilize as much power, proportionately, as a pulp mill, and a mill was also installed, and consequently a considerable amount of electricity would still be available for outside distribution.

In the sulphite process, the wood is reduced to fibre in big digesting vats under the influence of steam and sulphuric acid this chemical being manufactured in big acid towers by an admixture of sulphur, lime and water. If it is desired to ship the pulp, it is "lapped" on wet machines after treatment in the various decker chests, but if paper manufacture is to be carried on, sulphur and chemical pulp in the respective proportions of about twenty and eighty per cent. are thoroughly mixed in beating engines, and then fed to the paper machines where under a succession of steam heated rolls, the pulp is formed into paper.

The scheme in contemplation is understood to comprise the erection of an electric generating plant which will supply current to operate the necessary pulp machines, pumps, beaters, etc. The paper machines, when installed, will be operated by steam, the exhaust from the engines being discharged into the drying cylinder rolls.

Ordinarily the greater portion of a pulp and paper property's hydraulic power is expended in the operation of the grinding room, but with the present proposal to look to outside companies for mechanical pulp, which in the present low market prices is felt can be easily secured, the company can consider an output of finished paper which would be utterly impossible on their potential water power under the usual circumstances.

The tidewater location greatly simplifies the cost transportation problem and in this phase adds still another merit to the proposal. How much this will mean to Bear River, it is gone through, is, of course, hard to state, but a part of the cost contemplated certainly cannot be constructed short of an expenditure of several hundred thousand dollars.

### Ship Beached and Crew Starving

THERE WAS NO FOOD ON THE RIMAO WHEN THE HARLFUER MOVED IN SIGHT.

NEW YORK, March 24.—Beached in mid Atlantic with all hands starving and with seven other vessels in sight, but unable to give help, was the condition in which the steamer Harlfuer found the Norwegian bark Rimao, according to the Harlfuer's officers who brought the ship to port today.

The Harlfuer left Cette early in March and sighted the beached fleet of sailing vessels on March 17. The Rimao was flying urgent signals of distress. She halted the Harlfuer, said that she was 102 days out from Iquique for Falmouth with a cargo of nitre, and that all hands aboard were starving. A boat load of provisions were sent her from the steamer.

The captain of the Rimao declared that they had been on short rations for more than a month and that the last food had been eaten when the Harlfuer hove in sight. Light winds and calm had delayed the Rimao. After leaving the beached fleet the Harlfuer damaged her propeller by striking a submerged wreck. She put into St. Michael's for repairs.

## QUICKSTEP ASHORE.

Had a Terrible Experience in St. Mary's Bay.

LOST BOTH ANCHORS AND IS NOW ON THE BEACH JUST WEST OF SPEIGHT'S COVE

A special telephone message to the COURIER at three o'clock this morning, announced that the American schr. Quickstep, Capt. Mathews, was ashore in St. Mary's Bay about one quarter of a mile west of Speight's Cove, and that the crew were safe after a terrible night's experience in the Bay.

The Quickstep has between 70,000 and 90,000 lbs. fish on board and there is no insurance on either vessel or cargo.

In an interview over the telephone with Capt. John Simms, who is a member of the crew, the COURIER learned that the Quickstep left Barrington at daylight yesterday morning for Eastport to land her fare. The wind was then about east-south-east. After getting around the Cape the wind blew away their job. The mainsail was reefed and they decided to run for Westport, Brier Island.

The fog became dense. Yarmouth Cape was passed at 2 o'clock, but it became so rough that they decided to run up St. Mary's Bay. Capt. Simms says that the seas were the worst he has ever experienced in that locality in thirty years. After running until dark they anchored and tied up everything, giving the vessel the cable anchor with 75 fathoms and the other one with all the chain she had.

In less than two hours both the cable and chain parted. Sail was again made, soon after which the jumbo sheet parted and the sail became useless. With both anchors and head sails gone the vessel became helpless, but nevertheless she was cleverly handled and the captain and crew endeavored to beach her where they could save their lives and also, if possible, the vessel.

She struck, as stated above, west of Speight's Cove, back of Clements' Point, between one and two o'clock this morning, just before high water. She appears to be very little damaged, if any. The tide has left her and she will not float again before this afternoon.

The wind was about west-south-west when the vessel struck but has since hauled more westerly and will probably go north-west which will be directly on shore.

The vessel's Digby agents are D. & O. Sproule.

Mr. and Mrs. Arthur Jones received the sad news on Wednesday that their youngest son, Fred, was seriously ill in California. Later news brings the pleasing intelligence that the condition of Mr. Jones is not so serious as at first considered. He is in a hospital at Los Angeles recovering from the effects of an operation on his throat. Mr. Jones is a promising young man, occupying a responsible position with a railway company in that city, and his many friends were disheartened to learn of his illness, and join in hoping for his speedy recovery.

## CORRESPONDENCE.

## Disgusting

To the Editor of the Courier

DEAR SIR:—I would like to state through the columns of the COURIER for the benefit of those present at Saturday night's performance at the Bijou Dream, and who may not be acquainted with the true meaning of the word sport that the picture shown of the Emperor of Germany shooting deer should be looked upon by all the sportsmen as cruel butchery. To any man who has spent days and nights in the virgin forest hunting wild game, the spectacle of his Royal Highness (The Emperor) shooting deer driven past his blind from behind a tree with a telescope sighted rifle while the poor beasts were huddled up against a wire fence would be a sickening sight. But the worst sight of all showed a stricken stag shot through the lungs, trying to drag himself to some quiet place to die with the foam flecked blood dripping from his open mouth while the Royal sportsman shot at him again and again, being assisted by a servant in loading the Emperor's rifle he was using. I believe such pictures should be suppressed in Canada and I trust that among the boys who were present and saw the reel of films, not one of them will be deceived in considering such shooting is sport, but may be true Canadianism enough to give every beast or bird they may pursue in a sportmanlike manner in the year to come, the right of fair play.

## NATURE'S ESSENCE...Extracted From Forest Plants.

Nature's laws are perfect, but disease follows if these laws are not obeyed. Go straight to nature for the cure, to the forest; there are mysteries here that we can fathom for you. Take the bark of the wild-cherry tree, the root of mandrake, stone, Oregon grape root, queen's root, bloodroot and golden seal, make a scientific, non-alcoholic extract of them with just the right proportions and you have

## Doctor Pierce's Golden Medical Discovery.

It took Dr. Pierce, with the assistance of two learned chemists, eight years of hard work experimenting to make this pure glyceric extract and alternative of the greatest efficiency and without the use of a particle of alcohol to make rich, red blood, and cure that lassitude and feeling of nerve exhaustion.

E. WILLIAMS, M.D.

Just the sort of remedy you need to make rich, red blood, and cure that lassitude and feeling of nerve exhaustion. Dr. Pierce's Golden Medical Discovery bears the stamp of Public Approval and has sold more largely in the past forty years than any other blood purifier and stomach tonic.

"Some time ago I got out of health—my stomach seemed to be the seat of the trouble," writes Mr. E. J. Williams, of Belleville, Ill. "I commenced to doctor with all the doctors at home as well as with other specialists on stomach and digestive organs. None seemed to do any good—in fact, most of the medicines did me harm. Finally, I wrote to Dr. Pierce, Buffalo, N. Y., who replied, stating that I had liver complaint with indigestion and constipation, and advised Dr. Pierce's Golden Medical Discovery and Pleasant Pellets."

"The 'Discovery' and 'Pellets' have put me on my feet again," he writes. "I am now as well as I could be. I could not have recovered without them."

Dr. Pierce's Pleasant Pellets are for liver ills.

## LOCAL TREATMENT FOR WOMEN'S DISORDERS.

The health we enjoy depends very largely upon how the blood circulates in our bodies. In other words, if we have perfect circulation we will have perfect health. There is a constant flow of blood out of the tissues in every part of the body. The blood flowing through the veins carries off this waste or dead matter, while the blood coming from the heart through the arteries brings the fresh new living tissue, the essence of the food we have digested, to replace what has been carried off. This constant wearing out and expelling of the dead matter and the replacement of it with new matter, atom by atom, goes on day and night, until in about 7 years a complete change has been effected. Thus every man and woman has an entirely different body in every particle of it from what he or she had 7 years before.

It sometimes happens, however, from a variety of causes, that the blood becomes congested in certain portions of the body. This means that the blood vessels in these parts become weakened, and the circulation in that section of the body becomes sluggish and stagnant. The consequence is that the dead matter in that part of the body is only partially carried away, and that but little of the new, vital matter is introduced there to build up and strengthen the tissues and nerves.

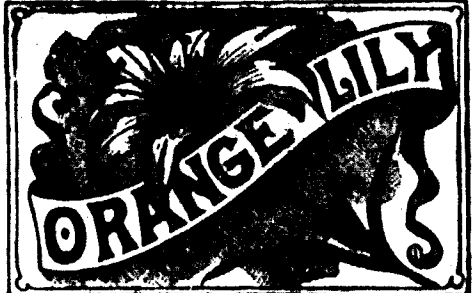

This condition invariably exists in all cases of female disorders. The dead matter retained in the circulation, which should have been expelled, causes irritation and inflammation of the delicate membranes, and oppresses the nerve centres. This condition is the cause of the various physical and mental sufferings which accompany female troubles.

To obtain relief it is evident that the first thing to do is to get rid of the dead matter which is being held in the circulation. If this dead matter is allowed to remain there a species of blood poisoning will result and nature will endeavor to get rid of it by forming ulcers, tumors, etc. The above explanation will also show why ORANGE LILY is so successful in curing this condition. It is a local treatment, and is applied directly to the affected organs. Its curative elements are absorbed into the congested tissue, and from the very start the matter begins to be discharged. A feeling of immense relief, both mental and physical, accompanies it, and the improvement is constant and positive. This feature of the expelling of the dead matter is always present to a greater or less extent, and in some cases it is so marked as to be amazing. The case described in the following letter is not exceptional:

Dr. Cooley—I am thankful to Mrs. F. B. Currah, your Canadian representative, for my health restored by your wonderful remedy. I have suffered for 17 years, but not so bad until 2 years ago. Then I had a doctor, who told me I had a tumor, and could live no more than a year. If I went through an operation I would not live through it. A year later I sent for him again, and he gave me up to die. My husband then sent for another doctor, who performed an operation, and it did me much good. I doctored with him 3 or 4 months, but became so bad again that I thought I could live no longer, and I began to long to die. One day my husband came home and threw a slip of paper to me with Mrs. Currah's address and told me to write him for a treatment that would cure me. I said it was too late, that I would die anyway. I could not lift a teacup without hurting me. Then the first doctor told me I was worse than ever. However, my husband sent for ORANGE LILY, and the third treatment brought away one tumor. Others followed, until 7 tumors had been expelled, 3 large ones and 4 small ones. I know if it had not been for ORANGE LILY I would have died, for I could not live much longer. I would have thought it cheap at one hundred dollars for a month's treatment, instead of one dollar. It is worth its weight in gold.—MRS. GEO. LEWIS, Huntsville, Ont.

The above letter is published with Mrs. Lewis' permission. All letters received are treated as being sacredly confidential, but occasionally some patients feel so grateful for being cured that she is willing to make the matter known for the benefit and encouragement of her suffering sisters.

ORANGE LILY is a positive, safe, and reliable remedy for all disorders of the female functions. As explained above these troubles are of local origin, and require local treatment. It is just as sensible to take medicine internally for female troubles as it would be to take medicine internally for a brain ailment, a boil or an ulcerated tooth. In all these cases some dead matter is being retained, and the cure is effected by employing local methods for expelling the dead matter. ORANGE LILY has antiseptic, soothing and healing properties, and also acts up and invigorates blood vessels and nerves. I am so anxious that every suffering woman may without cost to her, that ORANGE LILY will cure her, that I hereby make the following

## Oh, Fudge

"See, here, Mildred," began the plain, matter of fact father. "This thing must stop. I forbid you marrying that penniless young man. You'll both starve to death."

"Oh, no, we won't," answered Mildred. "Harry can make the loveliest fudge you ever ate."

## His Future Prospects.

"Well, my boy," said the visitor to Bobby, "I suppose some day you expect to step into your father's shoes?" "Oh, I suppose so," said Bobby, gloomily. "I been wearin' out everythin' else he wears since mother learned how to cut 'em down for me."

## Extra Hazardous.

"Papa, how many men have been president of the United States?" "Twenty six, I think, Kitty!" "How many of them are alive now?" "Two."

## Very Cautious.

"Do you approve of your wife's spending the entire afternoon at bridge?" "It depends," replied Mr. Flimmit, "on whether she is winning or losing."

## Much the Same.

Wife—Why, George, whatever in the world are you trying to do? Husband—Putting this cover on my umbrella, of course. Wife—That isn't an umbrella cover. It's my new black silk skirt!

## Didn't Appreciate That Kind.

Big Sister—I hope papa will take me to the concert. I'm so fond of music.

Small Brother—Then why don't you never let me play my drum in the house?

## A Literal Reading.

Yankee Evangelist (hearing of somebody's death)—Yes, we are indeed here today and gone tomorrow. Hotel Keeper—The deuce you are! Then you'll just settle your bill to night.

## No Ornaments Required.

"Mildred," murmured a fashionable young man, sinking on one knee, "for your birthday gift I offer—myself." "Thank you," was the cold reply; "but I only accept useful presents."

## Irresistible Inducement.

Her friend—If you don't like the hotel service, why do you stay there? Himself—My dear, they have such perfectly exquisite stationery.

## Exactly So.
