MUST PAY UP AT ONCE OR TOWN WILL TURN OFF ELECTRICITY

Council To Take Drastic Action Against Delinquents—Other Matters Discussed

A motion was passed at the regular meeting of the Town Council, held on Monday evening last in the Council Chambers, that the bylaw relating to overdue accounts to electricity, which is on the Statute Books of the town, be put into force at once, and delinquents will be requested to pay on or before the power discontinued. Some nineteen overdue accounts were presented to the Council, the highest amounting to \$100, and the balance of \$80. All the Councilors were of the opinion that the Clerk take stringent measures to collect all the accounts after due notice had been given.

All the Councilors were present at Monday night's meeting, and His Worship Mayor Anderson called the meeting to order at 8.15.

The minutes of last meeting were read and approved, and a number of accounts were read and ordered paid. A bill from the Municipality, amounting to \$3,437.99 for Joint Expenditure, was referred to the Audit Committee, and on motion of Coun. Holdsworth, seconded by Coun. Warrington, the Clerk was instructed to pay the sum of \$1,500 to the Municipality, pending adjustment.

Eber Furuball, M. C. Denton and J. A. Russell were appointed Auditors for the ensuing year, on motion of Coun. Aymar and Raymond.

A. R. Turnbull, J. Milbury and Ross C. Smalley were appointed Reviewers of voters lists for ensuing year. G. I. Letteney appeared before Council re Income Assessment which was reduced, on motion of Coun. Holdsworth and Aymar, from \$1,500 to \$300.

Wm. Oliver addressed Council on the unfair manner in which the Assessors had assessed him \$200 on antiquities. He was not appealing against the tax, but against the manner in which it had been done. Mr. Oliver asked that the amount be increased to \$250. He declared that he was not a collector of antiquities, but in the near future, and one of the first things he would do, if elected, would be to employ a respectable assistant of all property in town.

Health Officer Dr. E. DuVerne presented his report for the past quarter which was, on motion of Coun. Holdsworth and Warrington, accepted.

Supt. of Streets, W. W. Hayden, in his report stated that the water system had been built during the past month, one Queen street, and one on King street. The boat slip had been repaired and lengthened, and at \$1,200 more work was done. Systems had been installed and a number of improvements made to the water system. The report was, on motion of Coun. Merkel and Raymond, the report was accepted.

The question of cutting grass on the streets throughout town was left in the hands of Street Supt. W. W. Hayden. D. Daley appeared before Council re Income tax. His father, Major Daley, who was \$1,400. Coun. Holdsworth moved that a rebate of \$500 be given Mr. Daley after the latter had made an affidavit as to his earnings. Seconded by Coun. Raymond and carried.

Another Biology School-Book

The Tennessee state school board has now discarded the biology textbook from John T. Sears, defendant in the famous evolution case, did his teaching in the Dayton high school, alleged to be contrary to the state law, in its place the school board has adopted a book written by Arthur E. Hunt and James Edward Reddick, considered him harmless as regards the doctrine of evolution.

"But there seems to be a joke on that school board, or somebody. For Mr. Hunt" one of the co-authors, says he is not against evolution, and the only reason there is none of it in that school book, is that the book is intended for children of 13 to 15 years, and "evolution is not an elementary subject." He proceeds, as follows in blunt disregard of the feeling of the Tennessee legislature and the school board:

"Of course both myself and Mr. Reddick are evolutionists, and we speak of the general doctrine of evolution as a 'theory' any more," it is a fact.

"The masses of man's creation, as may still be theory but not the fact that he evolved. I think it is a much finer conception of a much greater God than is the Bible story that God made man from a lump of clay by blowing the breath of life into him. Evolution holds out hope that man may evolve to still better things."

All of which further complicates a case already very complicated, and adding to the entertainment of the fair-minded part of the public which is inclined to shout, "Go it, husband—go it, Warr!"

The Archbishop's Visit

On Friday, the 10th inst., His Grace the Archbishop of Nova Scotia will visit Trinity Parish and will administer the Apostolic Rite of Confirmation at Roseville, in the afternoon, and at Trinity church in the evening. Some candidates from St. Paul's, Marshfield, will be confirmed at the latter place.

On Saturday His Grace will proceed to Bridgewater, where he will spend Sunday, afterwards visiting other parishes of the Annapolis Rural Deanery.

REV. L. E. NUNNS PREACHED FARE- WELL SERMON

On Sunday Last Before Large Congregation—To Spend Short Vacation In This Vicinity

Rev. L. E. Nunn, who has been pastor of United Baptist church for upwards of thirty years, preached his farewell sermon on Sunday morning last before a large congregation. Rev. W. H. Harris, pastor of the Methodist church, assisted Mr. Nunn at the morning service.

Taking as his subject the gospel as preached by Paul, Mr. Nunn said that during his pastorate in Digby he had experienced some similar to Paul. The gospel made very many enemies, and many of the people of the people had been preached by him since coming to Digby was the same gospel that Paul preached. In closing Mr. Nunn stated he had never found a people that had been more kinder and sympathetic than the parishioners of the Digby Baptist church.

The sermon delivered on Sunday morning was listened to with great attention, and many regretted that Mr. Nunn was to leave. After the morning service he was asked to reconsider his decision, and having no place to leave, he was sorry that he could not accede to the request.

Mr. and Mrs. Nunn and family will spend a month at Hillgrove before proceeding to England.

Ordination of the Rev. Gerald Viets

The following extracts from St. Mary's Parish Record, Brooklyn, N. Y., will be of interest to our readers. Mr. Viets was born in Digby and is a lineal descendant of Rev. Roger Viets, the first pastor of the Digby. His future career will be followed with interest by many old friends:

The Reverend Gerald Digby Viets was advanced from the diaconate to the priesthood in Garden City Cathedral on Friday, Sunday, June 7th, 1925, at 11:00 A. M., by the Right Rev. Frank DuMont, D. D., former Bishop coadjutor of Queens, an event is one of profound importance in our parish life. About thirty of our congregation were in attendance, and Mr. Viets, the extreme heat twice that number would have been there. The beautiful cathedral given a most appropriate service for this impressive service.

Mr. Viets has so endeared himself in the respect and affection of this parish that his advancement to the priesthood gives us all a sense of reverent gratitude. He will now be able to meet all the needs of our parish life and to administer to the highest privileges of the Church's ministry. Many are the prayers that have followed him through the years of the profound religious feeling, and the days to come will be enriched by his consecrated life and service.

During the absence of the Rector in Europe, the Rev. Mr. Viets will be in charge of the parish.

The following letter has been addressed by Mr. Viets to the people of Saint Mary's:

Dear fellow-worshippers:—I wish I could properly express my appreciation for all your goodness to me during this season of preparation for the great day in my life. Your kind remembrance, your good wishes, and your much cherished prayers have indeed been a great help to me in making my sense of the mystery of the priesthood.

They have made for me an additional blessing to that spirit of joy which comes to one as he advances into the higher ranks of the ministry.

It is with a sense of happy anticipation that I look forward to beginning my work as a priest in the parish where I have been so cordially received. My past years have formed such pleasant and lasting associations as to the past year.

May the good Lord bless our relations with one another, and our mutual efforts to show forth His Glory and increase His Kingdom.

Faithfully yours,

GERALD D. VIETS

On Sunday evening a very interesting and instructive service was held in the United Church (Methodist) Bear River. Familiar hymns were sung in which the congregation was requested to heartily join. The pastor then gave a brief account of the life of John Bunyan, telling of his religious struggles, his imprisonment for preaching, and of his brilliant career as a writer of his immortal work. Then the first installment of life sized copies of "Pilgrim's Progress" were shown on the screen. These slides described at length by the pastor were much enjoyed by the congregation. A feature of the evening was the singing of beautifully illustrated hymns. Next Sabbath evening the pictures already shown will be quickly reviewed, so that all catch the quick of the story, and the second group of slides will be shown. The service will be completed on the third Sabbath evening. The hymns are familiar, the pictures attractive, the service simple and sincere. A cordial invitation is extended to all Silver collection by exp. expenses.

The pastor then gave a brief account of the life of John Bunyan, telling of his religious struggles, his imprisonment for preaching, and of his brilliant career as a writer of his immortal work. Then the first installment of life sized copies of "Pilgrim's Progress" were shown on the screen. These slides described at length by the pastor were much enjoyed by the congregation. A feature of the evening was the singing of beautifully illustrated hymns. Next Sabbath evening the pictures already shown will be quickly reviewed, so that all catch the quick of the story, and the second group of slides will be shown. The service will be completed on the third Sabbath evening. The hymns are familiar, the pictures attractive, the service simple and sincere. A cordial invitation is extended to all Silver collection by exp. expenses.

Conservatives Sweep Nova Scotia

The Nova Scotia elections last Thursday resulted in a Conservative landslide. After ruling the province for forty-three years the Liberal Party encountered a smashing and disastrous defeat.

The Conservative triumph is so great that Hon. E. N. Rhodes, the premier, under whose banner victory was achieved, will have an embarrassment of riches in the way of supporters. He and his running mate, Mr. Parsons, had an easy win in Hants and in a great many constituencies his candidates had immense majorities, showing the sweeping character of the general verdict.

The Liberal leader, Hon. E. H. Armstrong, was badly beaten in Shelburne, and the old Liberal ticket in Halifax, led by Hon. W. J. O'Hearn, was buried deep by Conservative halloos. Hon. William Chisholm, Minister of Public Works in the Armstrong Government, appears to be the only man with a portfolio who survived the storm, being elected together with his running mate in Antigonish.

In many districts which had long been Liberal strongholds the result showed a tremendous reversal of sentiment, and the proportion of the total vote polled by the Conservative Party evidently will be found quite without parallel in the history of this province.

Because it had been thought a Dominion election was coming this year, and also because of the approaching contest in New Brunswick, the Nova Scotia battle has been awaited with an uncommon degree of interest. After Saskatchewan went strongly Liberal all Canada was asking what Nova Scotia would do. What Nova Scotia has done is to reverse the Saskatchewan result, and just as the western verdict heartened the liberals, so the verdict of Nova Scotia encouraged the Conservatives. That goes without saying. What caused the turn-over in this province? There were several factors, chiefly discontent with prevailing conditions. The trouble in the mining area, long protracted and necessitating the calling out of troops, no doubt weighed against the Government; but there were other causes. Hon. Mr. Armstrong did not have the prestige of Hon. Mr. Fielding or of the astute and popular Hon. J. M. Murray. The province was in the doldrums in a business way, and the city that forty-three years was too long for any party to rule found wide acceptance. The Conservatives came into the fight under new and aggressive leadership, with an effective organization and a fine array of candidates, and the time was ripe.

It is worth noting that this was very much a straight party fight. Labor, with a dozen candidates, elected none and commanded very slight support. The Farmer group contested no seats and has virtually disappeared. Hon. Edgar Nelson Rhodes, who will be called upon to form an administration was Speaker of the House of Commons under the Meighen administration in 1917. He is widely known in business and political circles in Canada. Born in Amherst in 1877, he was educated at Acadia and Dalhousie Universities, entered upon the practice of law, subsequently becoming an outstanding figure in many important industrial corporations. He was first elected to the House of Commons in 1908, and was re-elected in 1911 and 1917. He was made Deputy Speaker in 1916 and became Speaker a year later, serving with distinction. Mr. Rhodes accepted the Conservative leadership in Nova Scotia only a few weeks ago, but he has long been a man of influence in this province. In his campaign manifesto Mr. Rhodes promised his party to an inquiry into the economic disabilities of Nova Scotia and to the working out of means of betterment in the way of education, better markets and the stimulation of agriculture

and industry. With so great a majority he will have a free hand in carrying out his program. Hon. Mr. Armstrong appealed to the province on the record of his administration, but his most noteworthy plank was his demand that Nova Scotia be given freedom to make its own tariff policy with countries other than Canada. That issue must wait another tide.

Smoking Fish

Smoking fish is an art that has been practised for hundreds of years and probably in the same old way. A wooden house is built—small or large depending upon the quantity of fish to be smoked. On the roof is a ventilation by which the smoke escapes. Then, wood, usually in the form of sawdust, is matted over a stove, cemented brick floor. This wood is burnt in the form of a smudge and then rises and spreads throughout the building. Acting upon the fish which are hung on suspension frames throughout the smokehouse the fish flesh is cured by the smoke.

None of the fish manufacturing firms, we believe, are at present satisfied with the smoking process. They desire something quicker and more uniform. The practice followed today is lengthy and lacks uniformity in quality.

The Biological Board of Canada, which is the scientific division of the Fisheries Department at Ottawa was asked last winter to investigate smoking and see whether some improvement could be made in the process. Accordingly, Dr. Huntman, the Director of the new Biological station at Halifax, set to work on the problem. The building which he used for his experiments was an old brick one which the British Admiralty used years ago for storing oil. The chief change made in it was the erection of a ventilator in the roof.

As some of our readers are no doubt aware, the two chief defects in the smoking process today are that the fish nearer the floor of the house get too much smoke and the fish near the roof get too little smoke. To remedy this defect the services of two scientists—one from Dalhousie University and one from the Technical College—were requested. By arranging a number of fans in certain positions the smoke was thoroughly stirred up and circulated about the room, and so uniformly mixed with the air that an even amount of air and smoke reached every fish in the house. The new process took only half the time of the old one and the results were more uniform.

If you ask a fisherman with some experience in smoking, "What is the right kind of wood to use?" he will probably tell you there is only one kind, and that no others can compare with it. For example, some assert that dry drift wood which has been soaked with salt water is the best. Others assert that beech wood and maple are the only ones and so on. But the fact is that no one can possibly say whether there is only one, or half-a-dozen suitable woods. Dr. Huntman has experimented with only one. The fish he used was haddock. He will as soon as possible experiment with different kinds of woods and different kinds of fish. When for the different kinds of fish, the Biological Board will make a report upon his discoveries and spread the knowledge among the fishermen of the Maritime Provinces. Indeed, it is anticipated that it may be possible to send a man to different localities in the Maritimes and exhibit a simple kind of smokehouse and how it should be operated so as to get the best quality of smoked fish. Meantime a good bit of scientific work has been done by the Biological Board in its smoking experiments inasmuch as the time has been shortened by one half.

Welcome the Dollar As Well as the Pound

The ever growing investment of American capital in Canadian industry appears to be viewed with alarm in some circles in Montreal, which metropolis seems to harbor a larger percentage of prophets of gloom than any other financial or industrial or commercial centre of this fair Dominion of ours. Complete of late, as regards certain of our natural resources, mining and p.l. and paper, in particular, Yankee dollars are taking possession of control.

But why view this with alarm? Canada has long had out a standing call for outside capital. We need it, and we should welcome its coming in. Financial support from the Old Land exclusively might be a desideratum considered from the point of strengthening the ties of Empire; but if the mother-land does not deal with her daughter in accordance with the latter's needs, and opportunity for her development is offered by her brothers to the south, the latter means should be utilized and utilized to the full, save and pro-

Just Talks--On Common Themes

On "Certain Kinds of Thinking"

TOO MANY employers look too much as though they were loafing. In other words they put on too many lugs.

Over in Halifax the other day a shrewd journalist told me that the cause of a lot of strikes was the fact that just as soon as the business began to pay a dollar or two, in spite of everything—during the Great War—the erstwhile hard-working proprietors quit working; went to playing golf and rolled up to the factory every morning in a \$4,000 limousine.

The old employer used to hoe in the same row with the employee. Today we have to make the employer at the mahogany desk look as though he were hoeing in the same row, just the same.

To get the employee to visualize the employer at work is one way of getting team-work. A polished mahogany desk with nothing on it, does not look very laborious to a working man.

The workman wants to see him sweating just as he himself sweats. The problem is to make the mahogany desk perspire.

It is very much harder than hoeing in the next row, these days, to make the mahogany desk sweat profits.

There is something very truthful about the expectation of the pay-envelope at the end of the week. The mahogany desk has to seem to be velvet and plush and mirrors and fol de rols. Plain working desks are better.

If the reactionaries and the radicals can get together as extremists they will always find a middle ground. The most extreme radicals, at the bench become the most extreme reactionaries in the counting room. The hardest opponents of liberalism have been employers who once were agitators.

All labor-troubles are because the parties are off on facts about each other. There are several very poor ways of thinking.

One of these is called "flat-thinking" or thinking in terms of only one dimension, leaving out breadth, thickness and the fourth dimension of imagination.

Another is thinking in terms of one's self—not in terms of the other person—this is judicial mindlessness, without the added dimension of depth of thought or the thought that sees possibilities or probabilities.

There is also the habit of evaporated thinking—thoughts that have been thought out so many times that they have lost their juice and are made to apply to each new problem, just because they worked well when they were fresh. This is another way of fooling one's self. Many people think of only one end to be attained—not two or more which are also essential to success. If a general thinks only of saving his army, he may make nothing but mastery retreats.

There is the habit of thinking without any standards at all. One may be too original; hence have no standards. He is not sufficiently machine-minded.

In "me-thinking," what you think is length, what other people think is breadth and what God thinks is thickness. If you can look at a thing in this way you may be right or wrong, but you have done your duty. Some people think only in terms of "what will THEY say." Better ask "what can I say to myself," "what will God say to me. What will the world say," and strike the fair answer which may always be found.

Some people lose the end in the means. This is evaporated thinking, as it were. It is lost-mindedness. We get so concerned in the maze of effort to reach the end, that we lose ourselves and the result is that we compromise in the swamp or in the quicksand.

There are two classes of men who are successful—those who give the people what they want and those who make people want what they have. Nobody ever asked for moving pictures, telephones, flying machines, circuses, chewing gum. Men made them and then convinced people that they wanted and must have them.

There are other people who give people shoes, clothes, food, water, fuel. Incidentally there is the man who makes a necessity and forces it upon the manufacture and makes people want fancy-cut sandals, silk shoes, red umbrellas, military and clothes of fashion.

People might easily sleep under horse-blankets and floor rugs. But we must convince them that they would sleep more sweetly under a Betty Bates. If Canada made goods want Canada desires for Canada made goods, they must convince the people that the People want these goods. And advertising alone will do it.

Machine mindlessness at the mahogany desk is like the old-fashioned loom. It is making the same sort of goods it made when it was built for these goods. Playing it safe for the dividends is dangerous. These are the people who fight back when one disagrees with them and accuse the other person of being recalcitrant.

Have you ever heard of Clo-onse? Appearances may be against it, but it is not a typographical error; neither is it a bird-call or Chinese for chewing-gum. It is, as a matter of fact, a thriving town on Vancouver Island, rapidly becoming famous for its salmon, shooting and scenery, and as one of the most interesting spots on the coast of British Columbia.

This coast is yearly becoming more popular with tourists from the South — California, Seattle, etc., Eastern Canada and practically everywhere else. But that detached portion of the coast, known as Vancouver Island is especially attractive. It possesses beauty of a mountainous, rugged, arboreal type, excelled in magnificence only by the Rocky Mountains and unexcelled anywhere for its hunting and fishing. Incidentally, too, the island is traversed by paved, winding highways, which are a delight to motorists and a credit to the Provincial Highway Department.

Indians (who have become so used to tourists, they no longer scalp them) inhabit most of the villages which are scattered along the Coast. They have not, however, entirely abandoned the practice of scalping, but nowadays they confine their activities in this respect to salmon, herring, whales and similar trifles. They (the Indians not the whales), are a thrifty, sober, industrious people engaged for the most part in catching fish and canning them in the local factories.

The island is reached by means of a ferry-boat "Motor Princess" operated by the Canadian Pacific Railway between Bellingham, on the mainland and Sidney, on the island. This ferry is especially adapted to the transportation of automobiles and enables the tourist to run his car straight off the mainland highway, across the Gulf of Georgia and on to the island highway, which he can follow south to

Part of Coast of British Columbia showing route of auto ferry boats between Vancouver Island and the mainland. Victoria, the capital of the province, and thence north to Nanaimo, Clo-onse, or any of the other attractive parts of the island. It is an extremely pleasant trip, full of interesting out-of-the-ordinary sights and anybody who has toured British Columbia without visiting Vancouver Island — and Clo-onse — ought to tour it again and correct a most unfortunate omission.

Puts Flavour into Home Cooking

Don't think of Mustard merely as a spicy relish to enjoy with cold meat.

Mustard is a seasoning to be used as widely as you use salt and pepper.

Mustard brings out the natural hidden flavours of cooked dishes and, adding its own flavour, gives them a new zest and relish.

Drugs Excite the Kidneys, Drink Water

Take Salts at First Sign of Bladder Irritation or Backache

The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative function slows down, the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead, your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of **Ind Salts**. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then get free.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for years to help flush and stimulate clogged kidneys, to neutralize the acids in the system so they no longer are a source of irritation, thus often relieving bladder disorders. Ind Salts is inexpensive; can not injure, makes a delightful effervescent lithia-water drink and belongs in every home because it can make a mistake by having a good kidney flushing any time. By all means have your physician examine your kidneys at least twice a year.

The Week In Bear River

Here and There

Record catches of mackerel are reported from Yarmouth, N. S., and nearby fishing villages. One man at Cranberry Head took over 150 barrels of fish from one trap and another fisherman at Burns Point reported over seventy-five barrels from a single trap.

Thirteen ships with a total of 7988 head of Canadian cattle left Montreal during May and three more ships left during the first week of June. Canadian cattle are now stored to be in strong demand in the British market despite Irish and English competition.

The reconstructed Basilica at Ste. Anne de Beaupre which was destroyed by fire in 1923 will be open to the public on the second Sunday in September according to a recent report and it is expected that the huge pilgrimages to the famous shrine will shortly be resumed.

A remarkable wave of interest in Canada is sweeping Great Britain at the present time and all sorts of information is being sought by British firms as to conditions in the Dominion according to F. W. Motley superintendent of the Dominion Express Company of Canada for Europe who arrived here recently for a trip across the country.

Canada's third largest industry, its tourist traffic showed an increase of 60,000 in the National Parks for 1924, according to a report issued by Commissioner J. B. Harkin. Banff and Lake Louise, in the Rocky Mountains, showed a combined advance of 15,000 visitors. At Banff 1,693 camping permits were issued.

Robert E. Barlow, manager of Walter Hagen, announced that the British Open Championship winner will make a golf tour of Western Canada this summer visiting Winnipeg, Regina, Calgary and the famous Rocky Mountain course at Banff. Hagen has won the British Open Championship twice and the United States Open Championship once.

Arrangements have been completed for staging the highest Indian Pow-wow ever held on the North American continent at Macleod, Alberta, early in July. Thousands of Indians from the Bloods, Blackfeet, Peigans, Crows, Crees, Stoney, Sioux and representatives from the Six Nations, in the East will take part in the historic and picturesque pageant.

A Canadian Pacific Railway freight train was recently held up near Lemberg, Sask., by a swarm of tent caterpillars which interfered with the functioning of the drive wheels on the engine and where the insects had gathered in millions. All efforts to plow through or remove the swarm were unsuccessful and no progress could be made until half the cars were discharged.

Preparations are practically complete for the 1925 Calgary Exhibition and Stampede. It is anticipated that the stampede this year will be the biggest ever held. It has been extensively advertised in Canada and the United States, and a large number of inquiries have been received from interested parties, who anticipate being present. Entries have been received from all the best known riders and ropers on the continent, and the large number of valuable prizes offered for competition ensures that the spectator will see the best that can be offered in the way of broncho breaking, roping, wild steer riding, etc.

The financial statement for the year was submitted by the Trustees and on motion was received and adopted.

The action of the Trustees in effecting an increase in the amount of insurance on the building and contents was by motion commended and approved.

The sum of \$4100 was voted for school purposes for the coming year.

H. C. Anthony was elected trustee in the place of A. B. Marshall whose term had expired and H. W. Purdy elected to fill out the unexpired term of Thelbert Rice, removed from the section.

G. E. Langley and C. D. Rice were appointed assessors.

W. W. Clark and W. M. Romans were appointed auditors.

The trustees expressed their appreciation and thanks to all who had shown a real interest in the school for their help and especially the members of the Women's Institute who have devoted much time to the betterment of school activities.

Bear River Celebrates

A celebration by the Conservatives of Digby and Bear River took place Friday evening, in the form of a parade in which many cars took part. After a parade and speeches in Digby, the cars proceeded to Bear River, where they were greeted by whistles, horns, fire crackers, bon fire, etc.

The band stand was lighted and speeches were made from there, the speakers being Mr. Robicheau, Mr. Farnham, Mr. Lynch, Mr. Warne and Mr. Theriault, Mr. Lynch acting as chairman.

Cheers were given after which the National Anthem sung and the crowd dispersed.

At the close of last Sunday evening's service in the United Baptist Church, Bear River, the sacred ordinance of baptism was administered. Five candidates were immersed by the pastor of the church, Rev. E. J. Barras, in the presence of a large congregation.

Obituary

SCOTT CHUTE

On June 24th Scott Chute of the Siaslaw Road, Bear River, entered into rest aged 70. Mr. Chute was for 50 years a member of the Bear River United Baptist Church. He leaves to mourn their loss two daughters, Mrs. Vernon Webb, and Mrs. Ada Chartier, both of the United States. An adopted son, Louis Jack, of New York also survives. The funeral was held June 27th and was largely attended. Services were conducted by Rev. E. J. Barras of Bear River, assisted by Rev. Frank Smith, of Deep Brook, and Rev. J. W. Smith, of Bear River. Numerous season houses covered the casket of the departed.

LOCAL AND PERSONAL NEWS

The Courier asks every reader to help make this page interesting by contributing any local news or personal items they may know about. The editor must depend on the parties interested to make this page interesting. Don't hesitate to send persons concerning yourself or your family. We want them. Don't blame the editor if what you expect to see in the paper here if you have not yourself taken the pains to see that the office was informed of the item. Anything in the matter of advertising appearing in these columns must be paid for at the rate of 5c a line. This applies to Cards of thanks, Announcements, etc. Charged items will be 10 cents a line. No advertisement less than 50 cents.

Mrs. James L. Cain, of Concord, Mass., and Miss L. L. Gosselin, of Boston, are visiting at their home in Digby. Their mother, Mrs. Myra Gosselin, who was formerly operating at the Digby General Hospital for appendicitis, is slowly improving.

The Digby General Hospital wishes to acknowledge with thanks the following contributions: From the Keweenaw Auxiliary, per Mrs. Crumaker, \$65, receipts of Pie Sale, from P. G. Fitch, \$20; from Brighton and Barton, per Mrs. (Dr.) Dickie, receipts of Rummage Sale, \$120.39.

There will be no service in the Baptist Church on Sunday evening next to give an opportunity for those who wish to attend the Methodist church, when Rev. W. H. Watts is preaching his farewell sermon. It is expected Rev. Mr. Stevens will occupy the pulpit at the morning service.

The ladies of Holy Trinity church will hold a Social in the Parish Hall on Monday evening, July 6, at 8 o'clock. There will be a short program, including a special address by Mrs. Gilbert Farnham, Dominion President of the Women's Auxiliary. All friends and members will be cordially welcome.

The Friendship Class of the Digby Baptist church held a picnic on the grounds of Mr. and Mrs. David Wadsworth, on the afternoon of June 26. All those who assisted in the concert given in the Bijou Dream Theatre May 27, were invited. In all about fifty were present, and all reported a very enjoyable time. The committee in charge of the concert, on behalf of Friendship Class wish, through the columns of The Courier, to thank Mr. and Mrs. Welch for their kind invitation, and also all those who placed their cars at the disposal of the class for transporting the people to and from the grounds.

THE PINES HOTEL

The Pines Hotel is now ready for the tourist season, and it is very questionable if there was ever, in its history a season when it was better fitted for the restful, quiet and comfort it affords its many hundreds of patrons. For weeks past Manager Jones and his staff have been exceedingly busy in renovating and cleaning and in it they have been most exacting.

Many of the apartments have been completely reconditioned with paper and paint and there is not a dark or gloomy room to be found in any part of the hotel. The floors of many of the rooms and about the house, and the corridors have been covered with handsome new rugs, which add materially to the comforts and also the homelike appearance of the entire hostelry. All window drapings have been renewed and the Pines to meet the visitors with all that bespeaks of cleanliness. By the excellent condition of the Pines visitors who have never before spent a day in Digby, will surely be impressed with the high standard of the Pines and the excellent service given by its patrons. Manager O. J. Jones is to be highly commended on the excellent condition of the Pines and its surroundings. Which, very justly ascribes it at the leading summer hotel east of Montreal.

Admission dance is to be given tomorrow (Saturday) evening, commencing at six o'clock. Music will be furnished by the Pines orchestra.

The Successful Candidates

The Committee of the Victorian Order will resume the weekly afternoon teas at the Golf House on Saturday, July 4. Mrs. Woodford Council will be the Convenor for the above date. Donations of cake etc. will be gratefully received with out solicitation and the Committee hopes these popular teas will be as well patronized as formerly.

A phasing little ceremony took place at the public school on Friday last when Dr. Read and Miss Lester. O. nurse presented Mothercraft Certificate to the following girls who had successfully passed examinations in the following classes: Mary Thurlow, Marie Fleming, Mary Walker, Marjorie Tupper, Florence Simms, Ethel Peck, Bernice B. P. Milledale, Mildred Syde, Helen Sp. Phyllis Koon, Emma Bove, Marion Rock, Rosalie Hutchinson.

The V. O. Committee together with Miss Lester's many friends regret exceedingly her departure from Digby. During her two years residence her constant helpfulness to staff, unflinching kindness and willing response to all calls for a assistance have endeared her to patients and friends alike. Those interested will join in wishing her success in her new field and best wishes for the future. The V. O. N. Board bespeak a cordial welcome to Miss Blum who succeeds Miss Lester in Digby.

W. H. FARNHAM J. L. P. ROBICHEAU

To the Electors of Digby County:

We wish to take this opportunity of thanking the Electors of Digby County for their generous support given us at the polls on June 25. We appreciate the fact that it was only through the united efforts of those who may have different political views, together with many who never voted before, that we were able to come out victorious. We also wish to express our gratitude to the committees in the different Districts for their wonderful work, and especially to those who, through a down-pour of rain, were the means of getting out such a large number of voters, and which helped so much to pile up such a magnificent majority. At the same time we feel very grateful to the press for its splendid support.

Sincerely yours,

W. H. FARNHAM,
J. L. P. ROBICHEAU

Obituary

NATHAN SEELEY
Early on Sunday morning, June 21st, 1925, the country of British Columbia was painfully shocked when it became known that Nathan Seeley had passed away. Mr. Seeley had been suffering for a long time and his death was not unexpected. The deceased was a good citizen and a true friend to one and all, and would be missed by the residents of every resident of Digby and Annapolis Counties.

The funeral service was conducted at the home of the deceased by the Rev. Mr. Pentz and a large concourse of friends followed the remains to their last resting place in the Union Cemetery, Barton. Deceased leaves a widow, one son and daughter-in-law, William Fairfield Seeley, and Daisy Seeley, two sisters, Mrs. Frank McLaren of Brighton, and Mrs. Charles Seeley of Halifax, who have the heartfelt sympathy of a host of friends throughout Nova Scotia in their bereavement.

RED PEPPER FOR COLDS IN CHEST

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.
Red Pepper Rub is the cold remedy that brings quick relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.
Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.
Rub you feel the tingling heat. In three minutes the congested spot is warmed through and a through. When you are suffering from cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub made from red peppers at any drug store. You will have the quickest relief known.

Drugs Excite the Kidneys, Drink Water

Take Salts at First Sign of Bladder Irritation or Backache

The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out. They weaken from overwork, become sluggish, the eliminative tissue clog and the result is kidney trouble, bladder weakness and a general decline in health.
When your kidneys feel like lumps of lead, your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night, if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of J. B. Salts. Take a teaspoonful in a glass of water before breakfast for a few days and your kidneys may then act.
This famous salt is made from the acid of grapes and lemon juice, combined with lithia. It has been used for years to help flush and stimulate clogged kidneys, to neutralize the acids in the system, to loosen the stones, to cause irrigation, thus often relieving bladder disorders.
J. B. Salts is inexpensive; can not injure; makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time. By all means have your physician examine your kidneys at least twice a year.

Mr. and Mrs. Walter Outhouse of Tiverton spent Sunday with friends here.
Mr. and Mrs. Burleigh Rundlette of Danvers, Mass., arrived Monday morning to spend a few weeks with the latter's parents, Mr. and Mrs. S. Garon.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.
Don't say "gray!" Try it! No one can possibly tell if you darkened your hair, as it does it so naturally and completely. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Here and There

Conditions in the fruit areas of
British Columbia, as reported as
satisfactory. Weather conditions
have been good and the trees are
healthy.

According to recent reports gener-
ally conditions in the Maritime
Provinces are normal. Potato seed-
ing is about complete. Trees in the
Annapolis fruit districts are in good
shape and estimates point to a nor-
mal crop.

A consignment of lumber from
South Westminister, B.C., arrived re-
cently at Dorval, Quebec, on the
Canadian Pacific lines, consisting of
twenty-nine logs of Douglas Fir,
some of which were so long that
three flat-cars were required to
carry them.

Field Marshal Earl Haig and
Countess Haig travelled through
western Canada to the Pacific coast
over the Canadian Pacific Railway
recently, after attending the con-
ference of the British Empire
League at Ottawa.

"Western Canada has never had
better crop prospects than which
exist now," stated Ernest G. Cook,
of E. Cook, Ltd., Crop Insurance
Co., of Moose Jaw, Sask., who re-
cently spent two weeks at Banff,
after touring the West and study-
ing crop conditions.

According to "Agricultural and
Industrial Progress in Canada" the
Department of Trade and Commerce
has issued the following compari-
son statement for 1924 and 1925
trade in the Dominion:—

Total	1924	1925
Trade	\$1,292,130,104	\$1,875,294,130
Imports	\$829,292,677	\$706,922,537
Exports	1,058,703,297	1,081,261,643
Fav. Bal.	165,296,430	284,429,106

According to the Dominion Bu-
reau of Statistics the annual con-
sumption of standing timber for use,
amounts to about 2,600,000,000 cubic
feet. The loss by fire, insects and
fungi about doubles this depletion,
and it is estimated that Canadian
forests are depleted at the rate of
upwards of five and a half billion
cubic feet per annum.

For the first time in the history
of Canada upwards of three thou-
sand redskins from the four western
provinces and Montana journeyed to
McLeod, Alberta, early in July, and
held an all-Indian celebration and
formed a league of plains Indians.
Five thousand white people attended
the ceremony and watched the In-
dians stage their spectacular mount-
ed war-dance.

Deep gratification is felt in Cana-
dian Pacific Railway circles over the
receipt of the following cable-
gram sent to President E. W. Beatty
by His Royal Highness the Prince
of Wales—"Yarmouth, South Africa,
July 2nd.—Have just heard of Mr.
Howard's death. Please convey to
relatives my deepest sympathy.
(Signed) Edward P." The late Mr.
W. B. Howard was twice in charge
of the "Prince of Wales" train when
His Royal Highness travelled over
Canadian Pacific lines.

For the second time in the history
of the newspaper industry,
Canadian output has been ahead of
that of the United States. During
the month of May Canada produced
130,013 tons of newspaper, as com-
pared with 129,020 tons in the United
States. The cumulative production
of Canadian mills for the first five
months of the current year totals
622,235, which favorably compares
with a production of 632,034 in the
United States during the same
period.

WHEN USING WILSON'S FLY PADS
READ DIRECTIONS CAREFULLY AND FOLLOW THEM EXACTLY

There is only one way to kill all the Flies

This is it—Darken the room as much as possible, close the windows, raise one of the blinds where the sun shines in, about eight inches, place as many Wilson's Fly Pads as possible on plates (properly wetted with water, but not flooded) on the window ledge where the light is strong, leave the room closed for two or three hours, then sweep up the flies and burn them. See illustration below.

Put the plates away out of the reach of children until re-
quired in another room.

Heft it Once—Then You Will Want One for Your Own Kitchen

The very feel of it will make you want to own it.
It balances so nicely, seems to be just right. The
handle is rigid and does not tip around like a hinged
handle. That means no slipping, no real handle or
accidents. See how you fill it? You lift the hinged
lid and can fill it right under the tap or by dipper
because the opening is at the side, not the centre.
Most important, this new up-to-date kettle cost no more
than the old fashioned kettle.

CARNIVAL AT BEAR RIVER A BIG SUCCESS

Large Number Of People In Attendance And Excellent Music Furnished By Annapolis Band

In spite of the rain on July 23rd a number of Carnival visitors were on hand at Bear River in the morning and ready for the day's program, but the weather man held out little hope for fine weather and it was decided to postpone the Carnival until the next day.

Although the postponement upset many arrangements yet the beautiful day following brought many compensations and undoubtedly helped to swell the attendance.

The Grand Parade started at 9:30 Friday and its size and magnificence was a revelation to everybody and it was easily the big feature of the day and reminded the old timers of the big parades of long gone days. The chief credit for its success is due to the efforts of Carey Henehaw who enlisted the support of the whole community in this event. With all the beautiful cars and floats before them it was a difficult task for the judges to select the winners.

In the decorated floats the Women's Institute float "For Home and Country" took first prize, and "The Releasers" second, and Charles Wilton, third.

Decorated Cars: Frank Dunn, first, Gordon Benson, second, and Fred Rice, third.

Boys Bicycle Parade: George Milbray, first, Billy MacIntyre, second.

The Parade was followed by foot races, and the water sports were brought on shortly after noon. As soon as the tide was high, Shirley Elmsor took first place in the swimming race and Bruce Reid won the Boys Canoe Race.

The culinary requirements of the day were attended to by the Oddfellows Dining Room and the various refreshment stands and by the Hotel—all of which were largely patronized.

The last sport event was the Baseball game in the afternoon between the High School and Town teams.

In the evening the local Dramatic Club put on "His Uncle's Niece." This is the third performance of this show at Bear River and its merit can be judged by the fact that Oakdale Hall was filled to capacity.

The Annapolis Royal Band was in attendance during the day and contributed much to the enjoyment of the occasion.

We Wonder Why

Mr. Editor, My old man keeps asking, I dunno, do you see why the fishermen on the waterfront in town dump all their rubbish out on the beach and make the water look like the sea? She says, "I dunno, but they got no money to turn it in and keep the beach clean." She says why do they folks along the waterfront tracks in town keep the dirtiest beach and let millions of people on our popular river, that go through town from Montreal, Boston, Florida and other big towns see all the rubbish we can raise? She says why don't we make our town money to clean up the waterfront, I dunno. Do you? She tells that a big mill in the south corner has enough old trash piled up to town to buy a house. She tells that old mattresses and broken furniture and scraps of everything ought to make a bonfire in the evening, and I, a m. and get the vacuum cleaner (I dunno how to spell it) going before we all get pizened.

She keeps asking why somebody don't take the pyvillon and get some boats and canoes, and sell some trash or something and make some money and help them people that come here to spend their money? They know what they want and they get the money and spend it where they want to spend it. She keeps asking how questions. If you print this letter I got a lot more questions to keep asking. Yours with love, Jackey Loo.

Women's Institute Gift Shop

On Carnival Day the Women's Institute at Bear River opened up a Gift Shop in the Troop Building and had on display one of the choicest collection of duty gifts and handiwork that has ever been shown here. Contributions of work were handed in freely by the members of the Institute and other friends, and from the large assortment of beautiful articles it was possible to make a selection suitable to the most fastidious tastes. While the articles were not disposed of, over \$100.00 was added to the funds of the Institute for the sale.

The Women's Institute Memorial Fund was also assisted by the proceeds from "His Uncle's Niece" that was put on in the Oakdale Hall in the evening. The local cast had a crowded house and divided the proceeds equally between the Institute and the Memorial Fund. The total receipts from the play were upwards of \$160.00.

The regular monthly meeting of "Women's Institute" will be held in the Masonic Building on Tuesday, Aug. 31st, Miss Helen MacDonnell, the Provincial Superintendent, will be present and address the meeting. It is hoped that a large number of ladies will attend and a cordial invitation is extended to all interested. The date of the meeting will be announced later.

He Does Exist

Count J. W. Markel is in receipt of the following letter, relating to the poisoning of his valuable dog, Mike:

Dear Sir: As one of last year's exhibitors at the Halifax dog show, and just because I love all dogs, particularly Border and English bulldogs, I am taking the liberty of writing you, just to say I am sorry that your beautiful "Mike" had to be the victim of such a cruel and heinous crime. It was a beautiful dog and it is hard to believe that the cruel exists who could deliberately take the life of such a beautiful innocent animal. It is my sincere hope that whoever the scoundrel is he may be brought to justice and receive the death penalty for the law, for the man or woman who would deliberately poison an innocent dog is not a safe or desirable citizen for any town.

FAREWELL!

Rev. L. E. Nunns Bid Farewell To His Many Friends In Digby

Dear Mr. Editor: I would esteem it a last favor if you would allow me to say a farewell word, through the columns of your paper, to the friends in Digby and district.

It has been our privilege during the last few years we have labored in Nova Scotia, to prove the sterling worth of the people of this province. I would like to thank the many friends who have stood with us in the Ministry and to express our gratefulness for the kindly kindness and Christian affection which has been appreciated by us beyond measure.

It has been a joy to mark the spirit of unselfishness and broad-mindedness that has characterized the Pastors and members of the other churches. We are grateful for the friendly help which they have given us in the church, for the publicity you have given our work free of all charge. I have been deeply gratified by your unflinching attitude, your unflinching courage in exposing social evils, and your unflinching devotion to your earnest endeavors to kindle the civic conscience and promote the moral and spiritual welfare of the community.

Yours fraternally, L. E. NUNNS

Regular Meeting Town Council

Very little business was transacted at the regular meeting of the Town Council which was held in the Council Chambers on Monday evening last.

After the reading of minutes of last regular meeting, a number of bills were read and ordered paid:

Supt. of Streets, W. Haydon, presented a monthly report outlining the work which his department had done during the month. The report was adopted.

A report was read regarding the inspection of the water at the power station. The report stated that after careful examination the boiler was found to be in perfect condition; the different parts also being examined and found to be good.

A letter from the Secretary of the Union of Nova Scotia Municipalities was read by Clerk Boden, which stated that the Annual meeting this year was being held at Annapolis on August 19, 20, 21, and 22. The Council will appoint delegates. After some discussion it was decided to leave the matter to the Mayor and Council who will represent the town at some of the meetings.

Town Clerk Boden brought up the matter of Taxi Drivers who have failed to take out the necessary license according to the by-laws of the town. Considerable discussion took place over this question and it was finally decided to refer the matter to the License Committee.

Supt. of Streets, W. W. Haydon, called the Council's attention to the lack of water on Queen street during the filling of the water cart. He made a suggestion that the cart be kept off the street for a few weeks, and this met with the approval of the Council.

V. O. N. DANCE

Victorian Order of Nurses To Hold Dance at Pines Casino, August 7

The Benefit Dance for the Victorian Order will be held on Friday evening, August 7th, at the Casino of "The Pines Hotel." The excellent music by the orchestra should be a good attendance on this occasion. Price of tickets fifty cents. The program will be on sale during the evening.

Mrs. Read will be the Conductor for the Afternoon Tea and Pantry Fair tomorrow afternoon at the Gold Club House. Kindly send in your contributions.

The proceeds of the Benefit Bridge last Thursday evening held at the Pines Casino, will be given to the tea on Saturday afternoon evening \$50. The Committee wish to gratefully thank those who so kindly contributed money, food and work on those occasions.

TWO YOUNG MEN IN LOCAL COOLER FOR ROBBERY

Store Owned By Glidden Campbell At Weymouth North Broken Into And Quantity of Goods Stolen

During the past year the store of Glidden Campbell, Weymouth North, has been broken into, a quantity of goods consisting of boots, groceries, etc., valued at several hundred dollars, have been stolen. Every effort has been made to bring the culprits to justice, but it was not until Sunday morning last that two suspects were caught and later arrested.

Mr. Campbell had been suspicious of two young chaps, who were loitering around his premises, and on Saturday decided to lay a trap. He kept a close watch and catching the parties red-handed. Shortly after closing, he turned on the lights in his store and decided to remain hidden for a few hours. After waiting patiently he heard a noise, and on examination saw a chap helping himself, and the young lad was immediately taken in charge, while his companion escaped, but was later caught.

On Monday, Constable Johns, of Weymouth, brought the two young men to Digby, who gave their names as Ralph Holmes and John Chisholm. They appeared for preliminary hearing before Judge Taylor, and were committed to stand trial. Frank Jones, C. C. acted as prosecutor, while Frank W. Nichols looked after the defence.

Obituary

MRS. NELSON

To the death of Sarah E. Hardy, wife of I. B. Nelson, of So. Manchester, Conn., there passed another former resident of Smith Cove. Mrs. Nelson, who was born in Smith Cove, passed away on Monday, July 13th, following an attack of acute indigestion having been ill only half an hour. She had been a resident of So. Manchester for about eight years, where Mr. Nelson is engaged in vocational work, and had made many friends in the town. Many beautiful floral tributes testified to the esteem in which she was held. The funeral services were held at her late home in Bradford Street, on Wednesday, July 15th, the Rev. Watson Woodruff of the Central Congregational Church being in charge. The remains are resting in the receiving vault at So. Manchester. Mrs. Nelson was the daughter of Deacon Mrs. Mary Ann Hardy, of Smith Cove, both of whom are deceased.

JAMES ALLEN MOORE

The death occurred Monday morning at his home at Westport, of James Allen Moore, a well known and respected citizen of this place, after an illness of thirteen weeks.

Mr. Moore was a valued member of the Christian Church and was a faithful attendant to both Church and Sunday School. He was a "working man" in the Christian Endeavor Society. He will be greatly missed by the whole community.

There are left to mourn besides a son, Arthur, a daughter, Arthur, and two step daughters, Mrs. Gordon Moore, of Centerville, and Mrs. William Garon, of Westport; besides a host of relatives and friends.

The burial took place from the Christian Church Wednesday afternoon, Rev. J. B. Anderson conducting the service. The floral tributes were beautiful.

Our sympathy to the bereaved ones.

MRS. ROBERT DENNISON

The death occurred at Digby, Gen. hospital, on July 25th, of Mrs. Robert Dennison, after a lingering illness of two years duration.

Deceased was born at Bridgetown, 36 years ago and moved to Digby with her parents while very young and has been a resident of this place since moving here. She was the wife of the late Mr. Robert Dennison, a strong husband, two daughters, May, and Bertha, and two sons, Willis and Victor; also two brothers, Charlie, Norris, and James.

The funeral was held on Sunday, July 26th, the four brothers acting as pallbearers, and the Rev. Mr. Tristram, of the Upper Valley, officiating at the Cemetery, Rev. Mr. Driffield officiating.

COULDER BY BAND A SUCCESS

Two Thousand People Listen to Music Furnished by Annapolis Concert Band Wednesday Evening

The open air concert in the Digby Pavilion last Wednesday evening by the Annapolis Royal Concert Band under the directorship of Paul Yates drew an immense crowd estimated at about 2000 people. The streets were lined with autos two abreast and Chief Bent had his hands full in keeping the streets clear of preventing accidents. The program was nicely varied, ranging all the way from a slippery trombone jazz number to a quiet imitation of a church organ, each number receiving great applause while the trombone jazz was called for a second time. With the exception of the two patriotic airs every number was heard for the first time in Digby, as it was understood that the band would play entirely new music for this first concert. The only advance criticism we have heard about this concert was the late starting, and the discords made by hundreds of noisy children who disturbed the players and prevented them from hearing the conductor's talk, besides annoying listeners who wanted to hear some of the softer parts of the music. It is hoped that future concerts will be free from such annoyance, and provision made in advance to give the efficient police some extra help.

The voluntary aid of citizens whose town pride would urge them to hold the two happy youngsters in check. Nobody blames a kid for following the bass drum as we all used to do, but he mustn't be allowed to grow up the music with his own noise.

During the concert Town Clerk Boden gave an explanation of the conditions under which these concerts are given, and the collectors then passed the boxes which were returned with an astonishing amount of pennies, dimes, and five cent pieces, making a total which is expected to encourage the band to return for the two later expected concerts. It is understood that the band required a certain minimum amount to be paid by the Digby Town Council provided for one third of this minimum. Will the band be satisfied if only the minimum is secured? This band is peculiar in the fact that no player receives a cent for his services. He is strictly amateur, but his expense is run high for a year, and these costs must be paid by the public who may enjoy the concerts. A band is useless unless it gives pleasure to the public, and the public is expected to foot the bills. The Annapolis Royal Concert Band seems to have solved all such problems except the money end of it, and the people who want music must do the best. Digby people will give a cordial welcome to the Annapolis Band when they come again.

Bones Of Peter The Hermit

The bones of Peter the Hermit have been found—or if not his bones others that are quite as useful for the purposes.

They have been resting quietly for a thousand years. And now let us ask you—who was Peter the Hermit? You know about Babe Ruth and Arthur Meighen and McKenzie King. What about Peter the Hermit. The encyclopedia will answer you, if you care to be cultured and to know a few things.

However—Peter was a myth and a fact. Actually he was one of a band of penniless monks who took on the name of paupers that took part in the first crusade to the Holy Land in 1100.

What did he do? He changed history. His example became a source of religious inspiration to the world in an age, when most it needed it. Peter became the inspiration as Godfrey was the leader of a mythical spiritual crusade.

He became submergued in tales of the romance and the poetry of the crusades. He, actually changed your lives by his service. You would have had far fewer rights and far less freedom under justice but for Peter the Hermit.

From old mediaeval songs to the songs of Tasso, he was immortalized. His is one of the names that will never die among scholars and students of great world movements. There came an age, that reads newspapers for the news. Peter the Hermit is forgotten except when his bones are found and again he becomes "news."

Put his bones back and let him lie until a frivolous world again seems to know something except why won the golf-match and how many were killed in the latest building crash.

Perhaps there may yet come a generation that will read poetry and history and that will care.

Diet And World Peace

Henry Ford proposes to apply quantity production to the old maxim, "feed the brute." So he has hired dietitians wholesale, to study foods, with the hope of teaching people how to eat, and so, by keeping them good-natured, promoting peace of the world.

Mr. Ford is right as far as he goes.

Surely the world eats worse than swine. Over-eating; Eating starch to excess! Eating meats to excess. Fools! Fools! Gluttons!

FOR JOY OF GOOD HEALTH

Manitoba Woman Thanks Lydia E. Pinkham's Vegetable Compound

"Crandall, Manitoba.—'When I was a young girl at home and working I had terrible pains, almost more than I could bear, and I was not regular. These troubles kept me so tired all the time that I had no strength and no ambition to do anything with my friends and have a good time. I was just tired and miserable all the time and it seemed as if it would never get better. I saw so much in the papers about Lydia E. Pinkham's Vegetable Compound, and then I had a letter from her which told me to take about it, so I got some. Every month after taking it I got stronger and I soon did feel better every month. It stopped the pains and helped me other ways. Then when my babies were coming I was tired and worn out after three months and ached badly. I took the Vegetable Compound right along and most say it made a new woman of me and I was able to do my work, and it helped me through confinement. You see I am a farmer's wife with a big house to look after, and three babies now. I have told ever so many women about your medicine. Just send me a letter from your home and I will send you a letter from my old home in the East. Her baby was born three days before mine and she told me she was not feeling very well, but she was so much, and that she was going to take the same medicine I took. I have told ever so many and hope some will be helped by it.'—Mrs. Joe E. Crandall, Box 60, Crandall, Manitoba."

Half as much food will do you. The cause not merely of war but of most of the ills of life is frazzled nerves.

If you could keep the world good-natured you could keep it peaceful and prosperous, but more things than food frazzle nerves—sleep for instance.

Who that has seen the final decisions made in a political national convention can doubt that they are made by men who are literally not composed of nerves from lack of sleep? If Ford could make the world's rulers sleep more, drink less, eat right and think with their brains, instead of their livers, he could reform the world.

Where Sargent Beat The Business Man

Considerable surprise was expressed when it was learned that Sargent, the greatest portrait painter and one of the great artists of his generation, who could charge what he pleased and always have commissions, left a fortune of only \$125,000.

That was, to be sure, ten times as much as most men get left by a teacher or poet of equal distinction; but it was ten times less than would be left by a manufacturer or merchant far less successful.

There are, for instance, seventy-five men in Canada who returned incomes ten times as much as Sargent's entire fortune. There are probably twenty thousand ten times as rich as he was. And there was only one Sargent, with no peer.

The difference is that Sargent left behind him other things that will live forever. These seventy-five million-a-year plutocrats might spend themselves in vain, now, to own one of his masterpieces apiece. So long as men paint, Sargent's masterful technique will remain the envy of artists.

New War

The latest statement is the production of "sleeping gas."

The enemy will come over, bomb us with sleeping gas. We shall slumber while the enemy takes possession of them.

It is an interesting picture. A defeated army laid out flat and unconscious, with the victors tying them in bundles and loading them in trucks, to haul to the rear. A besieged city peacefully asleep while the invaders take possession and disarm them.

The next day, everybody recovered, and the tied-up signing a treaty dictated by the tiers-up. The day after, "business as usual," under the new government. A few weeks later a bespectacled professor slips a new gas up the ventilating flues, and the counter-revolution is won.

War too gentle and victory too fleeting to be worth winning, and the whole performance too ludicrous to take seriously. So war perishes of its own innocuousness.

Swimming

Practical parents will now teach the child to swim. If he does not know how; or has not the time or place; see to it that he learns at the "Y."

It is as essential that a child should swim—boy or girl—as that he should walk, only in lesser degree. Millions of lives are saved every year through the world by the art of swimming. Many lives have been lost in swimming—so have many lives been lost in walking on the streets. Children should be taught the hygiene of swimming—the danger of going into excessively cold water unless accustomed to it; the dangers of indiscriminate diving from high places; the dangers of baths directly after eating, etc.

Phyicians should be at the swimming-pools to lecture on bathing as a hygienic matter.

But feel that it is your duty that the child learns to swim.

A Little More

There is a lot of talk about putting the Golden Rule into effect in daily business and commercial life.

This is a splendid aim. But can't we go just a little bit farther?

How would it be, if instead of doing to others just what we would like to have them do to us, we did just a little bit more?

Don't stop, in your business or personal relations, at just what you are supposed to do. Do a little bit more than that.

Warren S. Stone, late chief of the Brotherhood of Locomotive Engineers, used to get to his office by 6 in the morning. He wasn't supposed to, but he did it.

Other national leaders are the same. None of them stop at the bare requirements of their jobs.

Success lies in giving that little bit more than you are required to.

Just Talks--On Common Themes

On "Comments On Etiquet"

I CAN'T eat peas with a knife. A fork is no good. I want a large spoon. I can't eat corned beef and cabbage with etiquette—it is not an etiquetteish dish.

Confound etiquette. I was out the other evening and the lady of the house said "my dear," (she calls me "dear") "I did not come to the door to meet you, because I have just been reading my book on etiquette and it says that the hostess should always wait in the parlor to receive the guests and should never go to the door. Will you take off your hat and coat and sit in your shirt-sleeves, please."

You see we know etiquette. I would not say a word against good manners and fine breeding—but peacock manners and real hospitality are as far apart as the poles and etiquette learned from a book is parlor substance of grievous misunderstanding.

A writer in a book called "The Pitchfork" says that he saw a young lady whose innards craved corned beef and cabbage, tackling a dish of it in a restaurant and attempting to eat it with her little fingers properly curled up into an interrogation point and trying to tear off little shreds of it with a silver fork, the way the books of etiquette inform us that it should be done. She was not going to scandalize herself in the presence of others by sawing off a hunk now and then with a knife.

Now that is not what etiquette means. Etiquet is a sort of collection of rules for formal functions principally, so as to make them easy on the hostess. Then it is a set of rules about formal calling. Then it is a set of rules about the other day when a man opposite me buried his knife to the handle every time he fed himself.

Etiquet is founded on consideration for others. It guards people against offending others. No gentleman or lady will do things that are troublesome to others. That is why we are counseled not to swallow our knives at table. It worries the others. I lost my comfort at table in a restaurant the other day when a man opposite me buried his knife to the handle every time he fed himself.

But there are limits. The way to eat corned beef and cabbage is to eat it. Saw it off; feed it properly. In reality a man who is going to eat corned beef and cabbage at home ought to take off his coat; slip off his gaiters and make the corned beef and cabbage look tired. There is really no corned beef and cabbage etiquette. What is etiquette at a dinner of the Lord Mayor of England [I never attended one] is not etiquette in the backwoods lumber camp. In a lumber camp one must conform to the rules. They are just as particular there as they are anywhere. They "don't want no dam rules."

When a number of women visiting Digby attended a clam-bake given by one of the summer hotels they fell down—lots of them did—on this etiquette. Now etiquette got an awful wallop when the boiled lobster was invented and when the steamed clam was fashioned and when spaghetti was ordained of the gods.

These women saw a lobster and it did not look good. One of them said, "What, eat that WORM?" Another saw a steamed clam and confessed that it looked as though it should have its face washed. They are dirty looking babies.

Now there is no etiquette in any blue-book for lobsterers. You have to seize a lobster and bury yourself firmly in it. You have to cast breeding to the winds and Appetite rule. That's why so many people like to eat lobsters. THAT and the flavor. Good breeding shows in knowing when to forget the rules. Fine manners is easy in the selection of opportunities. Ordinary manners is against breeding, snoring, snoring up and down; shouting; singing; whistling; blowing your nose noisily; putting your feet into the food; grabbing things away from other people; hitting the waiter in the nose; throwing bread at ladies to whom you have not been introduced; smearing your face with jam and licking it off; dipping your knife in the common dish and eating therefrom—these rules are to be observed fearlessly. Once all these things were common even among leaders of society. A man came over on a steamer a couple of hundred years ago, especially to teach London society to stop doing these things.

We'll all be all right most of the time if we bear in mind that natural courtesy is at the basis of good breeding. Where you put your hat is not so much matter as that you don't take somebody else's hat. You should know enough not to try to take the salver away from the maid when she passes it to you for your service and you should know enough not to kick the hostess in the heels for a slight offended feeling that may impel you so to do. Know etiquette; but don't know too all fired much of it. Rule your etiquette; don't let it rule you.

—E. S.

Humbug

Now comes the Department of Agriculture with the solemn declaration that the term "busy bee" is misleading.

It seems that the honey bee is a fraudulent lady. She is not busy, say the experts who have just finished an extensive investigation; she merely looks busy.

The honey bee, declare the department's scientists, spends more time in the hive than she does outside. She makes only about 32 trips in her lifetime and gathers less than a gram of nectar.

Thus is exploded another one of our popular delusions. But one has to hand it to the honey bee. Think how long she has been "putting it over" on the public.

CAN'T BEAT "TIZ" WHEN FEET HURT

Just take your shoes off and then you'll be weary, shoe-crushed, aching, burning, constricted, blistered, tortured feet of yours in a "Tiz." Your toes will wriggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "Tiz" bath.

When your feet feel like limbs of lead—all tired out—just try "Tiz." It's grand—it's glorious. Your feet will dance with joy; also you will find all pain gone from corns, callouses and bunions.

There's nothing like "Tiz." It's the only remedy that draws out all the poisonous exudations which puff up your feet and cause foot torture. A few cents buy a box of "Tiz" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel.

What This Country Needs

Here's the way an American contemporary sizes up the need situation: "What this country needs is not a new birth of freedom, but the old fashioned two dollar lower berth. Why this country needs isn't liberty, but less people who take liberties with our liberty."

What this country needs isn't a job for every man but a real man for every job. What this country needs isn't to get more taxes from the people, but for the people to get more from the taxes. What this country needs is not more miles of territory, but more miles to the gallon. What this country needs is more point on the old places and less point on the young faces. What this country needs isn't a lower rate of interest on money but a higher interest in work.

The City Of The Future

The city of the future will undoubtedly present a far different physical appearance from that of today. Instead of having a single street with room as we have at present for pedestrians, for automobile and horse traffic, and for street cars, we undoubtedly on our principal thoroughfares will have triple deck streets—subways below for rapid transit both of passengers and of freight; the street level of today for automotive vehicle, with the horse banished forever; and on the deck above, unobstructed pedestrian traffic. Chicago years ago made a significant start with systems of delivering goods of all kinds through subterranean tunnels. Undoubtedly such a method will be extensively used in the cities of the future.

Obituary

MRS. SYDNEY CHUTE
Mrs. Sydney Chute passed away July 2nd at the home of her daughter Mrs. Frank of Bear River. The deceased, who was 81 years old, was only ill for a short time and her passing came as a surprise to her relatives and to the community. Mrs. Chute will be sadly missed in Bear River as she was known to all by her good deeds. She leaves her surviving husband, two sons, Minard of Bear River, and Charles of Battle Creek, Mich. and one daughter Mrs. Frank of Bear River. The funeral services were conducted July 24th by Rev. E. J. Barras pastor of the Baptist Church. The flowers on her casket and the numerous friends in attendance at the services told of the sympathy of the community with those who are called upon to mourn.

Down Old Bear River Way

I want to go a cherrying down old Bear River way,
Meet the river craft and hail 'em, and fling my hat away
For the sheer delight of living in Nova Scotia's clime
Where the air is ever healthful in the good old summer time.

Take me not in any auto, pullman bus or limousine,
I want to see the river boat a getting up her steam,
And Captain Lewis smiling in his place beside the wheel,
Then I'll know that craft is "safety first" from topmast down to keel.

I long to see the girls and boys and join in that mad race
To see who gets aboard her first, and finds a vantage place.
To hear the Captain's "let her go", as we drift out in the bay,
Oh, Boy! that's going cherrying down old Bear River way.

I long to go a sailing up that river old and quaint,
With its mirrored rocks and bushes such as artist ne'er can paint
With all anxious care behind us and such happy hopes ahead
That we'll find a tree of cherries, hanging full and blushing red.

Then to reach the fruit so tempting, strong hands help the weaker
sex
And a manly voice is saying, "this way lady, you climb next."

Feasting o'er, sail home by moonlight, voices tuned to some old lay,
Yes—I want to go a cherrying back down old Bear River way.

Bonding Parents

We happen to run across a reference to having parents required by law to bond themselves for the benefit of their children. The legal aspect of the case does not interest us. But the emphasis on parental responsibility is worth a second thought.

We have an idea that if every young couple starting out in life would give bonds, perhaps in the form of an insurance policy, for the benefit of children who may be added to their family it would be a good thing. Here would be positive assurance, in the household of the plain folks, that the education, health, recreation, comfort and preparation for life needed by the child would be taken care of.

Children have a way of arriving, often uninvited. They are innocent of intent. They at once become a responsibility and a claimant for rights and privileges. They merit protection against lack of opportunity and against unhappiness.

Certainly, among the excellent uses of insurance, is the provision of funds that will take care of mothers and babies, should they ever be left to shift for themselves, and of the latter, in any case, as they grow up to be educated and fitted for life work. We doubt if ever the law will command this; but ordinary common sense should.

The little girl, with childlike frankness was talking family affairs to the neighbor's "Mamma wouldn't pay the telephone bill" she said, "and papa wouldn't pay it, and so now the phone is out of order."

A man can learn to be a good mechanic study until he becomes a great scholar, or engage in business until he is rich, but a good comedian is just born that way and the best comedians are known as natural comedians. Mr. VanArman has secured for his Minstrel Show this season a "natural" comedian and as he gives the show his own personal attention, each one of the several fun-makers appearing in the First Part or Olio was selected on the merits of his own particular brand of humor. Mr. VanArman gives the same careful attention to every detail of his show and maintains the same high standard throughout the entire season which he sets at the beginning. VanArman and his Minstrel Company will be at the Bijou Theatre two days only commencing Aug. 1-3.

Victoria's Unique Amusement Centre Officially Opened

With appropriate pomp and ceremony the Hon. W. G. Nichol, Lieut.-Governor of British Columbia, and D. C. Gilmour, Vice-President of the Canadian Pacific Railway, opened Crystal Gardens, Victoria—the largest and finest salt water swimming pool and amusement centre in Canada—recently.

The building takes the form of a winter garden, sunlit by day and glittering by night with an atmosphere heavy with the scent of flowers and thrumming with music from a string orchestra. Built on a two-acre property, facing the fragrant gardens of the Empress Hotel, Crystal Gardens is of generous proportions, with lower portions in brick and concrete, and superstructure of steel and specially designed glass. The interior is a huge conservatory with vines and palms and plants growing in abundance, and in the centre the largest salt water swimming pool on the continent.

To give a Roman Bath effect, from the peacock alley promenade and dancing floors above, there are concrete steps down to the landing of the pool, which is 150 feet long, 40 feet wide and 9 feet deep at its deepest point. Salt water is pumped

Upper—The swimming pool, from Beacon Hill Beach, a distance of nearly a mile, and maintained at a temperature of 70 degrees, and kept in constant circulation. The water is, of course, sterilized, and bathers, before entering the pool, pass under showers of varying temperatures. Among other attractions there are a gymnasium, hot salt water baths, art gallery, two dancing floors and a tea-room.

Lower—A section of the Promenade. Anticipating that the present season will see the beginning of a large tourist movement toward Vancouver Island the Canadian Pacific Railway has considerably augmented its service between Vancouver, Victoria and Seattle—The Triangular Route—and their two new steamships, the Princesses Kathleen and Marguerite, are the largest ever placed on the Pacific Coast service.

Here and There

According to the official records one hundred and thirty whales have been caught by the Victoria, B.C. whaling fleet so far this season. The sperm whale is the most plentiful this year.

It has been estimated that over one hundred and fifty thousand people attended the Calgary Stampede this year. A historical pageant more than five miles long was the opening feature of the Jubilee.

With an estimated attendance of five thousand each, twenty conventions have been booked to take place in Montreal for August, September and October, according to figures from the Tourist and Convention Bureau of that city.

It is expected that when Hon. Honore Mercier, Minister of Lands and Forests, returns to Canada, a thorough organization of the aviation branch of the Quebec Lands and Forests Department will take place. It is reported that the Province is to purchase several more hydroplanes, to be used for forestry research work, as well as for combating forest fires and other work.

Church dignitaries, statesmen and thousands of laymen congregated in ancient Quebec to be present at the wonderfully impressive ceremonies attendant upon the burial of the late Cardinal Beaudry. The Basilica, which has only recently been reconstructed and opened to the public, presented a scene of colorful beauty and majestic dignity while the profoundly sorrowful services were being recited.

At this year's Cross-country Ride and Pow-wow of the Trail Riders of the Canadian Rockies it is expected that approximately one hundred riders will cover a very long which extends from Marble Canyon on the Banff-Windermere Road to the Wolverine Plateau and past Lake O'Hara to Hector, while between 250 and 300 are expected at the Pow-wow near the Wapta Buffalo Camp. While out west Field Marshal Earl Haig signed on as a member of the Trail Riders.

On the occasion of the departure from England of a party of one hundred school-teachers on board the "Empress of Scotland" to visit Canada a study educational mission, which extends from Marble Canyon on the Banff-Windermere Road to the Wolverine Plateau and past Lake O'Hara to Hector, while between 250 and 300 are expected at the Pow-wow near the Wapta Buffalo Camp. While out west Field Marshal Earl Haig signed on as a member of the Trail Riders.

That 69,000 harvesters would be required to handle this year's crop, of which the East would be expected to supply 60,000, was the estimate arrived at last week at a conference of various governments held in the Canadian Pacific offices at Winnipeg. In the meantime the Canadian Pacific Railway has taken all necessary steps to transport the army of harvesters, their colonies, and special equipment has been overhauled and the company is now fully prepared for its annual rush of harvesters.

George Morris Bosworth, Chairman of the Canadian Pacific Steamships, who died in London, England, on the morning of July 26th, from septic poisoning following an operation for appendicitis, was with the company almost from its inception. He was 68 years old when he died, joined the Canadian Pacific Railway in 1882 and was head of the steamship service for nearly seven years. When informed of Mr. Bosworth's death, E. W. Beatty, K.C., chairman and president of the company, stated that in his opinion Mr. Bosworth had had no equal in the country as a manager of railway traffic and added that "the company deeply regrets the passing of another of the old guard, whose ability and effort so largely contributed to the company's success."

Miss Anne Brooks left on Tuesday for Digby where she has accepted a position at L.P.R. Lodge for the remainder of the summer. Alden Amers left for Boston on Friday.

Two fishermen met once, and referred to the illness of a third. "Poor Michael Hogan Fair, I'm afraid he's going to die," said one. "And why should he die?" asked the other. "Oh, he's got so thin! You're thin enough, and I'm thin—but Michael Hogan is thinner than both of us put together!"

A Game That Takes A Man

I'm one of the old lacrosse boys, a friend of the gutted stick. I tell you the old game's got me, at times, I think I'm sick. Of the days that it takes for training, of the games that are earned and lost. "I'm through," I say, when we get away our sticks with the autumn frost. But when May comes down on the West wind, 'tis then that I feel the yearning. At the thought of the fun I'd be missing, and you find me back with a bang.

I've done my stunts in the scorching heat, a heat that no one knows. Who's notived a summer in "Our Lady of the Snows." I've felt the grass a-fizzle and I've felt my tongue hang on. While the sweat on my neck and forehead streamed down like a waterfall. I've seen the field a-whirling, and never really knew.

How I ached myself for another spring, and missed all the while blew. There are jolts, and you bet you find them, when you get the body fair. Some bumps you take and some bumps you give.

In the end you call it square, maybe you shed a tooth or two; your skin is not always whole. But it's worth it all, when you grab the ball, and bang in the winning goal. You know that on a crowd is with you, you can hear the loudmouthed fan, "Go down on the home, for the love of Mike," or "Give 'em over a man."

And, oh, how your blood goes leaping when the boys in the bleachers cheer. "Burr" on the net, and break the tie—just two more minutes to score. You have pulled out a game by a hair's breadth, or you've cracked beneath the strain. But they still have a thrill in the after years, when you play them over again.

So measure the creases ready, and put the pets in place. The teams are paired and steady, and the ball is there to face. I'll be out to do my best, if I'm only on "Also ran." For this is the sport of Canada, a game that takes a man.

A Financial Success

The Gift Shop conducted on Carnival Day by the members of the Bear River Women's Institute, in the interest of the War Memorial Fund, was a great success. The sale was held in the sample room of the old Troop building, which was well decorated with flags and bunting, and a wide variety of hand work was tastefully displayed for sale. This included all sorts of fancy needlework, printed linens and wood, dolls and home made candy. Quantities of sweet peas and roses were sold also. All articles were donated by Institute members and their friends. The committee in charge wish to thank all who so willingly donated articles for the sale or assisted in various other ways in the enterprise. They most gratefully acknowledged a donation of \$70.00 contributed from the proceeds of the play "His Uncle's Niece," which was presented by local talent in Oskoda Hall on Carnival night.

The following is a financial statement of the War Memorial work on Carnival:

Cash received in Gift Shop	\$107.70
Prize received on Institute float	10.00
In Parade	10.00
Chick donated from proceeds of play	70.00
Total	\$197.70

Salts Fine for Aching Kidneys

When Back Hurts Flush Your Kidneys as You Clean Your Bowels

Most folks forget that the kidneys, like the bowels, sometimes get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean and the moment you feel an ache or pain in the kidney region begin drinking lots of water. Also get about four canes of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a day and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and is intended to flush clogged kidneys and help stimulate them to activity. It also helps neutralize the acids in the urine so you no longer irritate, thus helping to relieve bladder disorders.

Jad Salts is inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to help keep their kidneys clean. A well-known local druggist says he sells lots of Jad Salts to folks who believe in trying to correct kidney trouble while it is only trouble. By all means have a good physical examine your kidneys at least twice a year.

The Town Newspaper

There is, after all, no newspaper in the world that means so much to one as his own town paper. The daily, with its flaring headlines and its sensational news, coming red hot off the wires, that tell us what is happening in the outside world, is a very necessary visitor to our breakfast tables. But there is another world—the world of our own home town—where all the actors on the stage of life are known to us, where the way each acts his part in the drama of life is a matter of personal interest to all, where sickness and death, loss and accidents arouse something deeper than the passing curious interests with which we read of such happenings to unknown persons in the daily newspapers, and where the outstanding success or the winning of distinction by members of this little world becomes matters for pride and gratification to the whole community. And the record and chronicler of these happenings is the town newspaper. It is a community organization in which everyone should have a personal interest, and in which everyone should co-operate in an effort to have it present each week a correct history of the town and district that week, to voice correct the public opinion of the community and to take the right stand on all public questions that arise.

He Stopped His Paper

An acquaintance met Horace Greeley one day, and said: "Mr. Greeley, I've stopped your paper." "Have you?" said the Editor. "Well that's too bad." And he went his way. The next morning Mr. Greeley met his subscriber again and said, "I thought you had stopped the Tribune." "So I did," "Then there must be some mistake," said Mr. Greeley. "I I just came from the office and the presses were running, the clerks were as busy as ever, the compositors were hard at work, and the business was going on just as usual yesterday and the day before." "Oh," ejaculated the subscriber, "I don't mean that I had stopped the paper; I stopped only my copy of it, because I don't like your editorials." "Pshaw!" retorted Mr. Greeley. "It wasn't worth while in taking up my time to tell me such a trifle as that. My dear sir, if you expect to control the intemperance of the Tribune by the purchase of one copy a day, or if you think to find any newspaper or magazine worth reading that will never express convictions at right angles with your own, you are doomed to disappointment."

Culloden

Miss Edna Dearmond, of the United States, spent last week with Mr. and Mrs. William Layley.

Mrs. C. A. Clegg, of Dorchester, Mass., arrived here on Monday to visit her parents, Mr. and Mrs. John Ross, of Ocean View Farm.

Miss Francis Campbell spent a few days last week in Digby with her sister, Miss Dora Campbell.

Mr. and Mrs. Weston C. Ford, who have been spending the past few weeks with their daughter, M. Wilfred Murphy, returned to their home in Middleton on Sunday.

Crawford VanTassel of Mount Pleasant, was the guest of Mr. and Mrs. James H. Middleon on Sunday.

Start the Week With a Smile

"Catch any fish on your last trip?" "No, but one big fellow rose up and gave me an awful dirty look."

Little Willie had gone to bring the new kittens in. His mother, hearing a shrill meowing called out, "Don't hurt the kittens Willie." "Oh no," said Willie, "I'm carrying them very carefully by the steps."

John: "And after the party I asked her if I might see her home." Jerry: "What did she say?" John: "She said she'd send me a picture of it."

The day was hot and the fourth-grade geography class was very interested in the teacher's lecture on the sun. "Tell me," said the teacher, "what is the sun from the sun?" Willie put up his hand. "Well," said the teacher, "Freckles," said Willie.

"Colored socks," "I'd like to have a new one," "Doesn't any?" "Yes," "A new one's worn out?" "Colored socks," "Worn out?" "Also, the bottoms of my shoes are so thin they can step on a dime and tell whether it's heads or tails?"

The lady remarked: "Hobo, did you notice that pile of wood in the yard?" "Yes, I see it." "You should mind your grammar. You mean saw it."

"No'm. You saw me see it, but you ain't see me see it."

"Young man," said the boss, "you told me yesterday afternoon you had an engagement with your dentist."

"Yes, I did."

"Well, I saw you at the football match."

"Yes, sir. The tall man sitting next to me was my dentist."

Teacher: "William, how many bones have you in your body?" Willie: "One hundred."

Teacher: "That's a great deal more than I have."

"Yes, sir. I guess you didn't have fish for breakfast like I did."

A wealthy American girl was attending a social function at a country house in England. Two American girls have met such healthy complexion as we have," said an English duchess to the girl. "I always wonder why our noblemen take a fancy to your white faces."

"It isn't our white faces that attract them," responded the American. "It's our green backs."

Two Irishmen met once, and referred to the illness of a third.

"Poor Michael Hogan! Faith, I'm afraid he's going to die," said one.

"And why should he die?" asked the other.

"Oh, he's got so thin! You're thin enough, and I'm thin—but Michael Hogan is thinner than both of us put together!"

A young English couple were in China. One day they were served with an excellent dinner, the composition of which they knew nothing about. When the Chinese cook came to clear the table, the young wife asked him in fun, "I hope you didn't kill any dogs from the road to make our dinner Chinese!"

"No killing dogs," answered Chang; "I'm already dead when I picked him up."

A truant officer made a call at the home of a pupil whose absence had extended for some time.

"Mikey is now past his thirteenth year," said the boy's mother, "and his father thinks he's an 'ave' schoolin' enough."

"Schooling enough?" repeated the officer. "Why, I did not finish my education until I was twenty-three."

"Be that so," said the woman in amazement. "Then, reassuringly, after a thoughtful pause, 'Well, sir, ye see that boy of ours has his brains.'"

People who make positive statements seldom enjoy being corrected. Lucky they who, like the father of a family in Punch, know how to rebuke the corrector. The father was taking his family through the natural-history museum. They all stopped before a great stuffed outch, and papa said: "This 'ere is the postich n' w'astich."

"But, dear," interrupted his wife, "surely the postich ain't extinct?"

"Well," declared the father tenaciously, "this one is."

A farmer owed a neighbor a debt, but crops had been poor and money was scarce. At length arrangements were made for the debt should be paid in firewood. It was duly delivered.

When winter came the farmer to whom it was owed tried to burn the wood in his fireplace. Each time he placed a stick on a blaze it tended to dull the glow. Something about the wood just only made it re-refracting but it seemed to smother whatever it touched.

"Cosh," exclaimed the man, who felt that he had been sly, "if I had enough of that wood I could heat hell out!"

A breezy and enterprising Western politician applied to the Secretary of State for a consularship at one of the Chinese ports.

"You may not be aware, Mr. Hank," said the secretary, "that I never recommend a consul unless he speaks the language of the country to which he desires to go. Now, I suppose you do not speak Chinese."

The Westerner grinned cheerfully. "If Mr. Secretary," said he, "you will ask me a question in Chinese I shall be happy to answer it." He got the appointment.

A Wonderful Spectacle

Digby people who noticed the remarkable picture of the town of Digby on July 19th will be interested in the following word-picture of spectacle from the pen of one of our well-known annual summer visitors and published in a recent issue of the Boston "Transcript":

Dear Nomad: Quite unknown to its recipients, a picture of the town of Digby, taken on July 19th, is being shown in the following word-picture of spectacle from the pen of one of our well-known annual summer visitors and published in a recent issue of the Boston "Transcript":

Shortly before the sun departed, the people in Digby, N. S., where I was staying at the time, noticed that the canopy of light gray clouds that covered the entire expanse of Annapolis Basin was slowly resolving itself into a series of what appeared to be colossal ceiling rafters. There were forty or more of these, evenly separated, extending east and west over the Basin, and running at geometrically straight as a railroad track.

While everyone was watching this strange spectacle and marveling that nature with its fondness for curves should indulge in these unusual straight lines, the "rafters" gradually changed into round tree-trunks with all of their eastern ends branching out into symmetrical foliated form the color in the meantime having changed to gray-and-crimson. In a moment we knew what it represented—a grove of gigantic California Sequoias, the roots of which were embedded in a mountain-top of crimson, turquoise and molten gold.

It was not a picture of a typical field parish painting on a stupendous scale.

This wonderful spectacle lasted for some minutes and had a profound effect on all of the beholders; but possibly few of these latter were able to interpret its meaning as I did—a celestial welcome to our beloved Nomad on his return from the Far West.

I have since wondered what impression, if any, this marvellous picture registered upon the minds of the staid Maclean Indians in their camp over at Green Point; but in past ages it would have been looked upon as a portentous "omen" for good or evil by others that the Red Man. Congratulations.

T. F. ANDERSON, Boston, Aug. 1.

Burton Stark and Walter Ross went to St. John on Tuesday en route to the West.

Mr. and Mrs. Percy Appleby, of Boston, are visiting the latter's parents, Rev. and Mrs. Jabez Appleby at the United church parsonage.

WHAT OF DIGBY'S FUTURE

Everyone has at some time in his or her life read or heard of the Biblical words, "Watchman, What of the Night?"

These words may be reset in new phraseology and applied to this little town of Digby.

"Citizens of Digby, what of Digby of the future?"

This should be in the minds of every resident of the town, man, woman or child. It should be the burning question: It should be engraved on their hearts, instilled in their souls. Every citizen should stop and ask himself or herself: "What can I do to make Digby a bigger, better, more prosperous town? What can I do to make Digby a place worthwhile for our splendid young manhood and womanhood to flourish in? What can I do for my son or daughter, mother or sister, so that they will be contented to remain in Digby?"

Fellow Citizens: Are you content to see life go along in the same placid, lazy, indifferent manner? Are you satisfied to remain in the rut that you have now fallen into? Do you want to see Digby grow? If so, get out and WORK and BOOST. It is the only way to forge ahead. BE BOOSTERS ALL!

It is a recognized fact that Nova Scotia is being rapidly depopulated of the young manhood and womanhood. Every day, some of them are leaving for the United States—for larger and more fertile fields—where they will have an opportunity to achieve their ambitions—to meet with success. Are we content to see them go? Can we not make this wonderful province of ours worthwhile for them to remain?

Our men and women almost invariably meet with success. Some of the most noted educators, professional and business men in the United States are Nova Scotian born. Why can we not retain these men and women at home? Why should we not have the benefit of their ability? Digby is a vital part of the province of Nova Scotia. Let the citizens do their part.

Let us take stock! Digby is recognized as a tourist centre. During the course of the summer months, many visitors come to our pretty town to spend their vacation. Some of them return, others do not. Why is this? Digby's scenery is unparalleled. It has every natural facility to offer its visitors. What do the citizens of Digby do to make their stay pleasant and more enjoyable? What do the citizens do to bring them back again? Why are not more facilities provided for boating, bathing, etc.?

Digby has a Pavilion. At one time the beautiful Annapolis Basin was crowded with boats [one seldom sees a boat now]. At one time Digby had a Band that any town would be proud of. Why has it not one now?

Many people will say the social features are not an attraction. They would be surprised and indignant if they were told that this town was too QUIET and DEAD to attract. Yet, such is the case. Many people come to rest. These people do not want social pleasures. But, there are others who wish to play while they rest. Has Digby anything to offer them? If not, why not?

Digby should not only be a tourist centre. IT SHOULD BE A HAVEN FOR TOURISTS—to come and rest or to come and play, whatever appeals to them.

Digby and Digby County are rich in natural resources. They are rich in agricultural and fruit growing land. Digby is an ideal spot to spend a vacation in. Why is this town not an ideal place to spend one's life in? Why has not Digby more industries? Why has it not more and steadier employment at good wages?

Digby is a busy little town during the summer months. Many people visit the town and surrounding villages. In the winter Digby quietly goes to sleep. It assumes the aspect of "A Deserted Village."

Why should it not be busy in the winter?

This town should be better advertised. It needs a wide-awake Publicity Committee—one which will boost its possibilities and intercept capitalists. Digby has the natural resources—it should have industries producing a variety of products.

Citizens of Digby! Get out and boost your town. Tell your friends what a delightful place it is—interest them in its opportunities—get them coming and make them want to stay. Build up your industries. Help the town grow—don't simply watch it grow. YOUR HELP IS NEEDED if Digby is to increase in prosperity, size and fame.

Featured on its editorial page, the success of Moirs in making chocolates of such quality that they are being captured by the market in every corner of Canada, overcoming handicaps of watersheds and distance from markets.

Another Extract: "The presumption of a Canadian concern to sell chocolates in a country (England) famous for Chocolate manufacture was viewed with dismay, but in the end the market was captured. Moirs Chocolates today enjoy a good sale in the Old Country."

Local and Personal

Walter H. Hutchinson was a passenger to St. John Monday.

The United Church Garden Party was held on Thursday in the grounds and was largely attended. Ideal weather prevailed and a large number of citizens and visitors attended this annual affair.

Rev. T. S. Roy, of Massachusetts, a former pastor of the United Baptist church, accompanied by Mrs. Roy and a party of friends, were in Digby Wednesday and Thursday for Wolville. Mr. Roy's many friends were pleased to see him again after an absence of ten years.

The Annapolis Band will give two Band Concerts in Digby this month: the first to be held on August 21, a suggestion has been made that the concert be given in the Pavilion so that citizens in all parts of the town may be able to hear the excellent music furnished. The Town Council will not doubt take this matter in hand at once and allow the Annapolis players in their endeavor to provide entertainment for citizens and visiting tourists.

Manager, Walker, of the Bijou Dream, has booked some excellent pictures for next week: will be seen by the adv. on page 2. On August 19 and 27 that well known picture, "Charlie's Aunt" will be shown, and on Sept. 2nd and 3rd, "The Man Who Came Back." This summer Mr. Walker has been successful in getting all the leading pictures issued for his Digby audience, and we have shown their appreciation by patronizing all the shows.

V. O. N.

At the monthly meeting of the Victoria Order on Tuesday afternoon, a hearty vote of thanks was accorded Mrs. Power for her interesting work from Annapolis.

The new "Pines Hotel" for the summer, Mr. Walter Walker has been successful in getting all the leading pictures issued for his Digby audience, and we have shown their appreciation by patronizing all the shows.

RECEIVER APPOINTED

For Bear River Pulp Company, Ltd. Eastern Trust Company Appointed

Great interest was created Wednesday by the news that an interim receiver had been appointed by the Supreme Court for the Bear River Pulp Company, Limited. A telegram was received at Annapolis by Sheriff Edwards from the Eastern Trust Company notifying him that they had been appointed receivers and were entering into possession at once.

It is less than two years ago that this same industry was in the hands of a receiver, and its assets sold under hammer and sheriff's sale. Since then the big million dollar pulp mills at Bear River Bridge have run intermittently on occasion giving employment to a large number of men. This is easily the largest industry in Annapolis Co. and its career has been decidedly chequered.

Founded on the once prosperous lumber business of Clarke Bros., the new enterprise was hardly launched before its financial difficulties with attendant extended litigation began. Nothing definite as to the immediate cause of the present proceedings is known, but interested parties ventured the opinion that a new era of protracted law suits between the creditors and different claims of security holders was about to commence.

New Prosecutor Appointed

Last week Johnston Clerk, B. L. L. B., received word from Attorney General J. C. Douglas, Halifax, stating that he had been appointed Crown Prosecutor for Digby County.

Mr. Clerk's many friends will be pleased to hear of this appointment, and will wish him every success.

Opposition Swaps N. B.

The Conservatives led by Hon. J. B. Baxter, won a sweeping victory in the Provincial elections held throughout New Brunswick Monday, the Liberal Government, headed by Hon. P. J. V. Bennett, secured but 17 of the 88 seats constituting the House. With a following of 36, Mr. Baxter will have a majority of 24 in the next Legislature. The Farmers' Party with three candidates in the field did not prove a factor in the struggle and the two Independents who ran lost their deposits. Every member of the Government with the exception of the Premier, David E. Fox, of Lunenburg, Hon. J. A. Stewart, and Hon. J. E. McLean, Minister without portfolio, suffered personal defeat.

Open Letter

Editor Courier—To my friends and all those interested in the Bazar to be held in Victoria Park in aid of the Digby General Hospital, I am soliciting donations for the delectable table of which I am convinced, assisted by Mrs. David E. Fox, of Lunenburg, and bread, rolls, cakes, jellies, etc., will be gratefully received and appreciated. Please mark all letters up to this table "Delectables" will be received by committee Aug. 15th at the Rink.

MRS. M. MERKEL.

"TIZ" FOR TENDER, SORE, TIRED FEET

Ah! what relief. No more tired feet; no more burning feet, swollen, hot, swelling, weary feet. No more gain in corns, callouses or bunions. No matter what ails your feet or what under the sun you've tried without getting relief, just use "Tiz."

"Tiz" draws out all the poisonous exudations which put up the red, swollen, inflamed, itchy, or burning face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore, swollen or tired.

Get a box at any drug or department store, and get relief for a few cents.

Britain Celebrates Hundred Years of Railroading

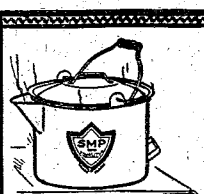

Upper—Stephenson's first engine on the Stockton & Darlington Railway. Inset—The interior of the observation car on the Canadian Pacific Trans-Canada. Lower—The Trans-Canada leaving Montreal.

The land, is a matter of history now. Its board of directors is no more; its inventor has passed to his reward; its rolling stock, or what survives of it, rests in peace in museums—having served its day and been left behind in the march of progress.

But this year—a century since the time when the Stockton and Darlington Railway was regarded as a marvelous engineering achievement and threatened the supremacy of the stage coach as a means of long-distance transportation—the ancient engines have been taken down from their pedestals, the wheels oiled, the rust removed and once again high flatted gentlemen and bonneted maidens have been bumped along from Stockton to Darlington behind the first real locomotive England ever had.

Thus the people of Great Britain celebrated its railway centenary. Processions of defunct rolling stock, and rolling stock that is almost defunct illustrated the evolution of railway transportation and gave to the rising generation an insight into the

The Right Way to Boil Potatoes

Put the potatoes in an SMP Enameled Potato Pot. Cover with water. Add salt to taste. Boil until soft. When finished, drain off all the boiling water through the strainer spoon. No danger of steam scalding the hands because the handle securely locks the cover on. If your family uses potatoes, you require one of these.

WESTPORT - NOVA SCOTIA

Here and There

Since the first of April up to the present time approximately seven million pounds of various fish have been landed at North Sydney, N.S., by local fishermen. The catch made so far this season is far in excess of any previous year's catch in the history of this port.

All tourist and motorists records are being broken at Banff this year. There are three times as many campers as in any other year and 2,400 more bathes than in 1924. The Canadian Pacific hotel here and at Lake Louise reports bookings as being unusually heavy.

More Alberta provincial savings certificates were sold in the first six months of this year than in any full year previously, even including the big record year of 1920. Since the beginning of the current year up to the end of June, the total sales amounted to \$1,401,000. There is now close to \$7,000,000 outstanding in savings certificates.

Radio receiving licenses held in Canada at the end of last month numbered 55,063, according to a statement issued by the Federal Government. Ontario leads all provinces with a total of 28,507. Quebec occupied second place with 7,882 licenses, followed by Saskatchewan with 6,451; Manitoba, 6,443; British Columbia, 3,392; Alberta, 3,004; Nova Scotia, 1,435; New Brunswick, 735; Prince Edward Island, 87; Yukon, 22; and Northwest Territories, 5.

A consignment of 21 fox hounds from the famous Mendip Hunt Pack, in Somerset, England, was brought to Canada early in August by the Dominion Express Company for the Toronto Hunt Club. The English papers published photographs of these splendid animals and expressed gratification that good British hounds were being used on the hunting fields of Ontario. This is the third such consignment brought out by the Dominion Express within recent weeks.

The delegates to the Empire Press Conference at Australia, who came from Britain and passed through Canada recently spent several days in the Canadian Pacific Rockies and enjoyed themselves trail-riding and hiking among the beauty spots that surround Banff and Lake Louise. Lord Burnham and several other distinguished British journalists established new walking records in covering the distance between Wapita and Emerald Lake in two hours, while it took the trail-riders on ponies two hours and a quarter to cover the same ground.

Representing education authorities and the public and secondary schools of Great Britain, about one hundred teachers from the United Kingdom arrived recently at Montreal on the "Empress of Scotland" and are now touring the country. Before their departure they received a congratulatory message from King George and on their arrival were tendered an official reception by representatives of the provincial government, prominent educationists and were entertained to dinner at the Chateau Frontenac by E. W. Beatty.

In a recently published monograph on "The Transportation of Canadian Wheat to the Sea" Miss L. M. Fair, M.A., makes the following comparison of Canadian and United States rates to show to what extent the resources of our railways are organized for the benefit of western producers:

To Port	Miles	Rate per U.S. bushel	Rate per U.S. bushel
Winnipeg	420	.08	.12
Portage la Prairie	475	.09	.13
Carberry	525	.09	.13
Brandon	584	.10	.18
Hogina	776	.12	.21

CAN'T BEAT "TIZ" WHEN FEET HURT

Just take your shoes off and then put those weary, shoe-criddled, aching, burning, corn-pestered, bunions-tortured feet of yours in a "Tiz" bath. Your toes will wriggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "Tiz" bath.

When your feet feel like lumps of lead—all tired out—just try "Tiz". It's grand—it's glorious. Your feet will dance with joy; also you will feel all the good from corns, callouses and bunions.

There's nothing like "Tiz". It's the only remedy that draws out all the poisonous circulation which puff up your feet and cause foot torture. A few cents buy a box of "Tiz" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel.

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica or myalgia from a strain, and you'll get relief the moment you rub your back with soothing, penetrating "St. Jacobs Oil." Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on your back and out comes the pain. It is harmless and doesn't burn the skin.

Limber up! Don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" from any drug store, and after using it just once, you'll forget that you ever had backache, lumbago or sciatica, because your back will never hurt or cause any more misery. It never disappoints and has been recommended for 60 years.

Character Personal, Not Rich or Poor

Lady Astor and a Lady member had an unparliamentary tiff in Parliament over the comparative faults of the wives of the rich and the poor.

The Socialist accused rich women of nursing puppy dogs when they should have been taking care of children.

Whereupon Lady Astor insinuated that the honorable member himself might have taken better care of his 18 children if he had come nearer to exemplifying her prohibition principles.

Mutual apologies ended the incident.

It is a futile question, anyway. There are rich women who lavish on dogs, or worse, the attention which should be given to children.

There are poor women who come home drunk and smother their children. Neither are respectable samples of their class.

And there is noble devotion and heroic sacrifice among both.

Character is personal. The temptations and the opportunities of the rich and the poor differ, and to that extent their failures and triumphs take different forms.

But the good and the bad bud, whatever their station.

MAGNIFICENT CHURCH AT ST. BERNARD'S IS MONUMENT TO SELF-SACRIFICE OF THE FISHER FOLK

Who Toil 15 Years—All Have Interest—History Reveals a Remarkable Story of Triumph and Achievement

(By Clara A. Dennis in Halifax Herald)

The setting sun was mirrored in the beautiful waters of St. Mary's Bay on the Nova Scotia Coast. Its colorful rays transformed all around, and bathed with its glow the fields, the trees and the fishermen's homes. Like a flame of fire an object on a knoll, so like was the appearance to a fire that burned yet was not consumed that we said, "We will turn aside and see what this great thing is."

Like the prophet of old, when we first saw the place, the place where we stood was holy ground, for the object on the knoll was a church—a church in the process of building—and the glow of the grey granite reflected the sun whose declining rays now beamed on it like a benediction.

Enquiry revealed that the church has been fifteen years in the process of building. Churches have been built everywhere throughout this land, but it is doubtful if greater interest surrounds any of them than this church at White Cove is being built by fishermen—built by them in more senses than one, for not only are they paying for the structure but they are actually doing the work of building with their own hands.

Already the church has been fifteen years in the course of construction and many more years will elapse before it is completed, for the work only progresses as it is paid for. To date nearly \$100,000 has been spent on the work. It is not half done. Still it goes, a block at a time, and meanwhile stands as a monument of self sacrifice representing the dream of a people of a visible link between them and their God.

HISTORY REVIEWED

The present church is called St. Bernard. It was 75 years old on January last and is too small to meet the requirements of the parish. The new church when finished will take its place.

There is an interesting old record book in the possession of the parish priest showing the amounts received and expended. The currency is in pounds and s.

After the expulsion, the returning Acadians built a small church at Annapolis. One at Church Point followed and the St. Bernard was built. Its first priest was Father Geary. His parish covered Yarmouth, Digby and Annapolis and he travelled to and fro on horseback.

Father Cigone followed Father Geary and he in turn was succeeded by Father James Quinn, after whom came Father James T. Bresnan, Father William Brown, Father Eugene D'Homme, Father William Mahan, Father B. Parker, Father J. Sullivan, Father Michael Cole at present at St. Agnes Church, Halifax, and Father A. E. LeBlanc, who was followed by Father D. C. Melanson, the present priest.

The new church was started in August, 1910 by Father LeBlanc, then Parish Priest, now Monsignor LeBlanc of St. John N. B. Father LeBlanc worked at the church two years, then the tremendous task was taken up by Father Melanson. In 1914 the corner stone was blessed by his Grace Archbishop McCarthy.

Father Melanson, the present parish priest, is a native of Corberrie, Digby County, Nova Scotia. He was educated at Church Point, then at the Holy Seminary, Halifax. He ministered two years at St. Joseph's, Hants County, and six and a half years at Chezzetcook and has had his present charge thirteen years next December.

This little parish has given six young men to the priesthood during the twelve years in which Father Melanson labored among them. The entire parish consists of less than a thousand people. They are French Acadians, practically all fishermen, though some of them own small farms. French is the language spoken among them.

A GREAT TASK

The church is being built of granite—Nova Scotia granite, quarried in Shelburne, and is of a very fine quality. The entire quarry has been leased until such time as the structure is finished.

The work of erecting the building can proceed only in summer months, even then must stop during the

haying season, but the work of preparing the granite blocks goes on all the year.

The granite of Shelburne has no similarity to the cedars of Lebanon, yet the task confronting these fishermen may be compared in magnitude to them as that of the building of the temple was to Solomon.

The church is of gothic structure and when finished will be a magnificent one, and will not only be one of the most beautiful but one of the most enduring in the province. The architect is R. A. Froehet, Moncton, N. B. The building is 212 feet long by 80 feet wide. The steeple will be 146 feet high and the church will seat 1,012 people with room to provide for further seating accommodation if needed.

The builders are all fishermen from the parish. A block of granite is only added as it is paid for—the lower row of blocks costing \$1,000, but the rows lessening in price as the building rises.

Every man, woman and child in the parish has an interest in the church, and old and young work for it—the ages of the parishioners ranging from ten to ninety-five years.

RAISING THE FUNDS

The chief means of raising money for the building of the church has been by the holding of a four days picnic each year. For this event, the women spent most of the year preparing and there is a great sale of home-made articles—mats, rugs, blankets, etc., as well as home cooking for which the French people are famous. This picnic is the great event of the summer and people from the whole countryside are in attendance. On the last day clam chowder is served. This is a favorite and very popular dish, and no one misses it. Tables are spread in the unfinished vestry of the new church, and it is an altogether amazing sight to see the people in their gay dresses and to hear them talking in the, to many, unfamiliar French language.

Last year the sum of \$4,500 was realized, which is really remarkable, and only goes to show what determination and hard work will accomplish.

The children also do their part. They hold concerts the proceeds of which they contribute to the building of their church.

INTERESTED WATCHERS

The aged too are greatly interested. The church is peculiarly dear to the aged saint, and many whose life's journey is near its end, long to see the church completed.

Such a one as Charles Dugas. Mr. Dugas is 95 years of age and has lived under five sovereigns, George IV, William IV, Victoria, Edward VII and George V. His wife is in her 92nd year.

They have been married 60 years. Both are marvels of longevity. They come of a long lived race. Mr. Dugas' father living to be 97 and his mother nearly 98. Mr. and Mrs. Dugas have spent their entire lives in the locality in which they were born and were on no occasion further away than the near by town of Yarmouth.

"I was born," said Mr. Dugas, "at five o'clock in the morning. I came early," he said with a twinkle, "as I wanted to see what was going on."

My memory goes back to 91 years

ago when I was four years of age, when my uncle, Charlie Gaudet, was married. I went to the wedding and I remember what a grand time I had. There was step dancing and feasting and it was altogether wonderful. It was 91 years ago, and I was there.

I made my first communion to Father Geary, the first parish priest of the western provinces.

"And do you believe," said Mr. Dugas, "that there lives a woman of 82, who has her godfather still living?"

"I am that Godfather," he proudly added. "I am 95 and my Godchild is 82 years of age."

Mr. Dugas' great-grandfather was a French Acadian, who lived at Port Royal, and was among the Acadians who were expelled from their homes. Engraved on his memory are his grandfather's stories of that tragic time.

PATHEtic SCENES

"The scenes were exactly as described by the poet Longfellow," said Mr. Dugas. "The people were just taken from their homes. Husbands were parted from their wives, mothers from their children, brothers from their brothers. Mr. Dugas' own great-grandmother, whom he remembers, was shipped on one boat and her brother on another. They never met again. His great-grandmother came back with the fugitives that returned to the scenes of their erstwhile homes. Her brother did not return. Later he obtained news of his sister's possible whereabouts and wrote her urging her to come to the United States where he was and where, he said, she would make 'lots of money'."

But, alas! the sister's son, Charles Melanson, was stricken temporarily with a skin affliction and as he had handled the letter, it was burnt and the address forever lost.

In 1764 an edict was issued permitting the expelled Acadians to return to Nova Scotia if they would take the oath of allegiance.

Mr. Dugas' great-grandfather and great-grandmother, with a number of others, returned. He had no money and no means of transportation, but their spirit was unquenchable. They walked the entire distance from Massachusetts, U. S., coming by way of New Brunswick and through Windsor to St. Mary's Bay.

The journey was a heart-breaking experience to these grief-stricken people, who had been separated from many loved ones. When crossing a bridge, a party of Indians who were in hiding, leaped out and killed several of their number before the rest could escape.

TRAGIC HAPPENINGS

The horrors of the return of the exiles is tragic in the extreme. They returned to their home land, but not to their homes. The homes were but heaps of ruins. The struggles and privations of the journey from the forest by ocean which had helped to build the building. There were about fifty families in the parish at that time. They brought the wood from the forest, prepared it and made the church by hand. There were no mills then. The wood was hauled from the forest by oxen which in those days were yoked by the neck and not as today by the horns.

THE PARISH PRIEST
Father Geary, the parish priest, had the people not be afraid, and prophesied that no one, while helping with the building of the church, would be harmed in any way.

One day a man was high on a scaffold. The handle of the sled hammer with which he was working came out unexpectedly when he was striking a blow and the man lost his balance and fell. Death seemed imminent but in a moment he was rescued and his fall was not fatal.

"Are you hurt?" cried Father Geary.

"No," replied the man.

"Did you fall far?" asked Father Geary.

"No," was the answer.

"Did I not tell you that no one

was hurt who worked at this church?" said Father Geary.

In the new St. Bernard's church, Mr. Dugas is equally interested, and would like to see it completed before he dies. It will take years to finish, however, and it is doubtful if all those who are building and paying for it will see its completion. Their spirit and zeal are all the more commendable therefore for these people are laboring that others may enter their labors. Their religion is the greatest gift they can give to their children, and on that stately knoll overlooking the waters of the lovely St. Mary's Bay, they are lighting a light that will light succeeding generations.

Mr. Dugas took a great interest in the building of the early church of St. Bernard, which was the third church built after the return of the expelled Acadians to their native land. He helped to build the building. There were about fifty families in the parish at that time. They brought the wood from the forest, prepared it and made the church by hand. There were no mills then. WHAT OF DIGBY'S FUTURE

The Awakening Spirit

IT HAS come to the attention of the writer of this series of articles that they have been the cause of considerable adverse criticism and some feeling. This is a splendid sign. The citizens are beginning to awaken. They will soon be "up and doing." The feeling which is manifesting itself appears to be that this is an inopportune time for such articles; that it would be more advisable to wait until our visitors had gone and finally, that it was not fair to criticize and "knock" the Town.

In answer to these criticisms, the writer wishes to state that, in his opinion, this is the opportune time. The Tourist season is drawing rapidly to a close. Our visitors are leaving daily for their homes in other parts of Canada and the United States. The number remaining in our town is becoming noticeably less and less. In a week or two, the Summer Hotels will be closing for the season. It is getting late but there is yet time to show our remaining visitors that we appreciate their visit, that we were pleased to have them and that we DO want them to come again. This year has proven to be a most successful Tourist season. It is contended that the number of Tourists would be greatly increased if the people would only realize that they are a decided asset and would shake off the indifference that overcomes them. NOW is the time to prepare for the future. Digby is a most beautiful little town. It has scenic qualities to offer that it is difficult to duplicate. The scenery is natural. There is nothing artificial about it. It is "God's Own Handiwork." The Great Designer created a masterpiece when he created this beautiful stretch of country. There is a combination of beautiful hills and dunes, splendid roads, a wonderful expanse of water, marvellous sunsets, delightfully cool sea-breezes, and beautiful wood-land that cannot be described other than by the touch of a landscape painter's brush or the beautiful poetic vision of a true nature lover. The Creator has presented the residents of Digby with a truly wonderful natural endowment.

Digby appeals to every class of Nature Lover. It is a place of undiscovered delights. There are majestic hills to climb. There are beautiful paths to explore. It is the hiker's paradise. There are scenes of beauty that delight the motorist's eyes. There are beautiful waters to fish in and there is a plenitude of fish to catch. To the hiker who wishes to explore little travelled roads and climb steep hills, there is much to offer. To the motorist who wishes to travel new roads and view new scenery, there are many perfect roads to cover and many beautiful scenes—historic and otherwise—to gaze upon. To the business man, who is seeking a place to spend a few days fishing, there are numerous lakes and streams where he can satiate his desires and "whip the pools" to his heart's content. To the person who prefers deep sea fishing, there is the water and there are the fish that there are few boats. To the city folk, who are anxious to escape the hustle, bustle and heat of city life, there are "pastures green" and fresh sea breezes to offer; and finally, to those who seek peace, quietude and rest, there is everything to offer. This is what the Town and County of Digby have to offer. It is the work of nature. What have the citizens done to make Digby more attractive and more desirable? The writer does not criticize the town. He does question what attractions there are to offer those who require the beauties of nature and what the citizens have done to provide those attractions.

There has been no attempt to criticize our visitors. The only persons affected are those citizens who have permitted themselves to run along in the same rut until they are indifferent to the fact that Digby is no longer growing as she should grow.

In a recent issue of one of our leading newspapers was a cartoon depicting a Nova Scotian citizen sitting upon a rock, gazing disconsolately ahead of him into space. In the sea before him were great Fisheries wealth, beyond him was great mineral wealth and behind him was a vast forest wealth. It can be imagined what his thoughts are. He is wondering why it is so difficult for him to make a livelihood. He does not realize what great wealth lies in front, above and underneath him. He does not realize the great natural resources we have. He does not realize the tremendous possibilities that lay ahead of Nova Scotia. He does not realize that the reason "times are hard and money scarce" is largely due to himself. He has fallen into the rut. He is being caught in "the slough of indifference." He is slowly being engulfed. He is thinking of the debts which he owes and cannot pay. He is becoming discouraged and broken in spirit. Soon he will be swept along as so much flotsam and jetsam. He is drifting with the tide of Humanity. He is indifferent to the future. He does not care what happens. He does not realize that opportunity is knocking at the door. He does not answer the call and opportunity is slipping from his grasp. This is characteristic of Nova Scotia. It is especially characteristic of Digby town and county. Nova Scotia is a land of great resources. It has vast Mineral and Fisheries wealth. It has rich fruit growing land. It has vast and rich timber resources. Ambition on the part of Nova Scotia, development of its natural resources and capital to finance its development are required to make our Province grow. Let us, the citizens of Digby, do our share. We have a town which might well be the most popular Tourist Resort on the North American continent. We have surrounding waters rich in Fisheries wealth, and surrounding country rich in timber land. Our soil is fertile agricultural land. This is a great fruit growing country. Let us develop it. Let us make use of the Creator's wonderful heritage.

The writer is not endeavoring to knock this county, nor is he endeavoring to criticize its citizens. It is his hope that the citizens will realize the possibilities of the county and town and will make use of them.

Mr. Justice Donald MacLean, a native of Cape Breton but now residing in Saskatchewan, writing in the Border Cities Star, has imputed that the residents of Nova Scotia are lazy. This is hardly correct. True, the residents of Nova Scotia have been indifferent. They have been overcome by an extreme lassitude. They have been in the rut. They are beginning to realize this and are throwing off their lethargic state. They must awaken. Our native sons and daughters have, and will continue to leave Nova Scotia as long as present conditions exist. They have helped swell the population of the United States and Western Canada. They have met with success and they will meet with success.

The facts must be faced. The United States is a country of opportunities. The citizens of the United States realize their possibilities and make the best of them. We Nova Scotians do not realize the possibilities of our Province. If we do, we do not show it. Our Province is as good as any other country. We are proud of it. Let us help advance it.

Digby is a vital part of Nova Scotia. Citizen of Digby can do much to put the Province "on the map." One way to do it is to make Digby "A Tourist's Paradise"—make Digby more attractive. Treble the attractions and you will triple the tourist traffic. It is to be hoped that there are men, women and children in Digby ambitious enough and interested enough to want to see Digby grow. A sure sign that something said in friendly criticism is true is when objection is taken and resentment is felt. This is not the true spirit.

The community spirit must be fostered. Petty resentments and prejudices must be set aside. In union there is strength. Let every citizen of Digby unite in a concerted effort to make Digby a place

"Rambler" Replies To "Jakely Look"

Dear Jakes:

Your old woman wants to know a lot of things. She shows signs of life, anyway, and that's a good sign. A fellow by the name of H. G. Wells seems to think that squirreling and trying and showing signs of life had more to do with the survival of the fittest than the last few hundred million years.

Maybe Digby—but about the fellow who was "One of the Swimmers," you don't seem to have got the idea at all.

He and you are really swimming against the same currents. Anyone who starts finding remedies for things as they are has to encounter these same sea-breezes.

Swim along with him, try and get as many more in the tide as you can.

There being no further business, the Council adjourned.

You get enough you've made a tidal wave and that's all we need in Digby. A tidal wave of PUBLIC OPINION. Get them to pull their coats and jump in.

TOWN COUNCIL TO ENFORCE M. VEHICLE ACT

"We have been fortunate in this town during the past summer in not having any serious automobile accidents," declared His Worship Mayor Anderson at Monday night's meeting of the Town Council.

And as we as a Town Council should stand behind the Provincial Highway Board in the enforcement of the Motor Vehicle Act, concluded His Worship, with only one light.

The matter of violating the Motor Vehicle Act was brought to the attention of His Worship and Council when Clerk Bates read a letter from Hon. Percy W. Black, Minister of the Provincial Highway Board, Halifax, asking the Council to enforce the Motor Vehicle Act, and to see that all offenders were punished to the full extent of the law.

It was decided that the speed limit should be 15 miles an hour within the town limits, and all who violated that would be severely dealt with.

Town Clerk Boden was instructed to write the Minister of the Provincial Highway Board, stating that the Town would do its best to see that the law was enforced, and that it was a matter of public safety.

Monday night's meeting of the Council was the shortest in the history of the town, it taking only about twenty minutes to transact the business for the month.

All the Councilors were present with the exception of Coun. Holdsworth.

The minutes of last meeting were read and approved, and a number of bills were ordered to be dealt with.

Supt. of Streets, W. W. Haylen, presented his monthly report, which showed that repairs had been carried out on Church and Prince streets; considerable work done on the principal streets in the town owing to heavy auto traffic; this work had cost \$1,000.00, and new services installed. The report was on motion accepted.

Health Officer Dr. E. DuVernet presented his monthly report which was on motion received.

Chief of Police Bent asked the Council for a week's leave of absence. Coun. Anderson, who was on leave from Yarmouth, that the Chief's request be granted, and he be given one week's holidays without pay.

There being no further business, the Council adjourned.

Mr. Short closed his short address by stating that he would expect all present to take up all the work of the Organization work should be carried on all over the two counties, and everything got in readiness for the fray.

President A. L. Davidson thought that there was no question but that the meeting would comply with the request of Mr. Short. He knew personally that Mr. Short did not want the meeting to be thought that after Mr. Short had considered the matter and realized the public were calling on him to perform a service for his county and Canada, that he would do what was demanded of him.

For a number of years Mr. Short was Mayor of the town of Digby and has been a resident in this town practically all his life. While an active worker to all the causes of the town, he has been a Conservative party, Mr. Short has never appeared on the public platform in the interest of any candidate. He is very popular in the town, and his position at present had brought him in contact with the public, and he has been well acquainted with interest by citizens throughout the entire province.

Receives Unanimous Nomination At Conservative Convention Held In Digby On Wednesday—One Week Necessary Before Giving Final Answer

H. B. Short, manager of the local branch of the Maritime Fish Corporation, Digby, was the unanimous choice to contest the coming Federal Elections, at one of the largest conventions ever held in Digby, which taxed the capacity of the Court House Wednesday afternoon. But Mr. Short asked the convention to give him one week before accepting or rejecting the nomination, and despite the convention to have his answer immediately. He would not recede from his decision.

The meeting was called to order at 2:45, A. L. Davidson, Esq., M. P., Middleton, acting as chairman.

T. E. G. Lynch, one of a committee appointed some time ago to draft up a constitution of the new association to be known as the Liberal Conservative Association of Digby-Annapolis County, presented his report, which embodied a copy of the constitution. After considerable discussion pro and con, this was accepted.

The election of officers resulted as follows: President—A. L. Davidson, Middleton; Vice-President—Chas. John LeBlanc, Metegan.

Digby—T. E. G. Lynch, Digby; Annapolis—G. W. Hawkesworth, Annapolis; Secretary—Treasurer—A. L. M. Swaby, Digby.

President Davidson announced that the delegates would proceed to the room before where a candidate would be nominated. At this meeting four names were suggested: H. B. Short, Annapolis; Col. Bent, Paradise; Harry Crowe, Bridgetown; and H. B. Short, Digby.

Mr. R. Corbett asked that his name be withdrawn and supported the nomination of Mr. Short. Col. Bent left in haste, and in a strong speech supported the nomination of H. B. Short.

Mr. H. B. Short, Digby, the candidate of the Liberal-Conservative party for the coming Federal election. This was seconded by S. P. Fram of Barton. The motion was only one vote before the meeting and was carried unanimously amid thunderous applause.

On proceeding to the Court rooms, G. W. Hawkesworth, who acted as the chairman of the meeting of delegates, made his report saying that it was a pleasure to state that without one dissenting voice, and with such loud speaking enthusiasm, H. B. Short had been the choice of the meeting.

Mr. Short, on going to speak, was given a good ovation, and stated that this was the most embarrassing position he had ever been placed in during his lifetime. He had, during the day, told delegates time and time again that it would be utterly impossible for him to accept a nomination when approached. But when he looked into the faces of such a vast assembly and with such a convention he did not know what to do. He thought he had made it plain enough that he did not want to contest the constituency, but he was bound to do so then the responsibility must rest with the delegates. Before accepting, he had others to interview, and asked the meeting to give him one week to decide, in the matter would receive action.

It was a great compliment to have received the unanimous support of all, and he wished that he were possible to give an immediate answer. But if he could see by way clear he would accept what had been called upon him to perform a service for his county and Canada, that he would do what was demanded of him.

For a number of years Mr. Short was Mayor of the town of Digby and has been a resident in this town practically all his life. While an active worker to all the causes of the town, he has been a Conservative party, Mr. Short has never appeared on the public platform in the interest of any candidate. He is very popular in the town, and his position at present had brought him in contact with the public, and he has been well acquainted with interest by citizens throughout the entire province.

Little Lucy Dalton and Her Big Grand Daughter

At the Old Timers' Day during the Old Home Week Celebrations at North Bay, when that town graduated to full-fledged cityhood, the above model of The Lucy Dalton, the first Canadian Pacific engine which passed through North Bay, took part in the principal procession and finally posed for her photograph by the side of one of her gigantic granddaughters, who nowadays perform the duties once carried out so laboriously by Lucy herself. The model was constructed in the Canadian Pacific shops in North Bay and puffed her way along the streets of

the new city on her own motive power. Thousands of old-time railroad men gathered in the Baby City of Ontario for the Old Timers' celebrations, and many were the hair-raising stories told of the days when, half a century ago, the railroad was first pushing its way through the barren wilderness which was then North Bay.

"Eczema on My Face Completely Relieved"

Miss Winifred Ernest, Box 46, Blockhouse, N. S.

"Ever since I was a little child, I suffered with eczema on my face. At times my face was completely covered with large sores, and I tried nearly every kind of medicine that I heard of with no result. This lasted for over twenty years, until one day I asked the advice of my druggist, who bade me give Dr. Chase's Ointment a trial. After using the Ointment for a few days, the sores began to heal, and soon I was completely relieved of the disease."

The Wonders Of The Age

Middleton Outlook
On Monday, Tuesday and Wednesday at the Armidale Theatre, in addition to our citizens had the pleasure of witnessing one of the best shows ever seen in or about this part of the country. Professor Mem-O-Rea and his Vaudeville Show can not be beat. He is titled right when he calls himself the "World's Greatest Mind Reader." The things that he did would lead you to believe that he is supernatural. He is a wonder. Rita Johnston and L. J. Stevens in their Dance Number is so far ahead of others that call themselves dancers, that there is no comparison. They were dressed with a good humor for three days and left a satisfied audience each night. We hope to have the pleasure of seeing them again in the near future for a return engagement.
This show will appear at B. J. Drom Friday and Saturday of this week.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color of the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Now, by adding at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost. Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes as beautifully dark, glossy and attractive.

Harry. "Is there a hyphen in dumb-bell?"

Sam. "No, I don't think so."

Harry. "What do they grab it by, then?"

The Worrier Half—"I went over our car maintenance accounts today. We really can't afford to keep a car. We'll have to do something."

The Better Half—"Righto, dear, cut out keeping the accounts."

Magistrate—"Do you wish to challenge any member of the jury?"

Ex-Prosecutor—"I ain't feelin' very fit, but I don't mind going a couple of rounds with the fat gentleman in the corner."

A tramp, footsore and hungry

approached a man ploughing a field by the roadside. "Say, boss, it's gettin' dusk, can I stay at your place all night?"

"Dunno," was the cautious reply. "You'll have to ask the old woman."

"Can har, I stay here myself."

"Doctor, I'm afraid there's something terrible the matter with my husband."

"What are his symptoms?"

"Well, I talk to him for half an hour at a time and when I get through he hasn't the slightest idea what I've been saying."

"My dear madam, don't worry any more about your husband. I wish I had his gift."

The bargaining for a cow had been going on leisurely for an hour.

Finally the prospective purchaser came flaked to the point.

"How much milk does she give?" he asked.

"I don't rightly know," answered the farmer who owned her, "but she's a darn good-natured critter and she'll give all she can."

At a small country school the scholars were having a lesson on animals. The teacher had asked a number of questions which were easily answered. At length, she said:

"Why does a dog hang out his tongue when running?"

A lad who had not answered before held up his hand.

"Yes, Tommy, what is it?" she inquired.

"To balance its tail," was the reply.

For hours they had been together on the front porch. The moon cast its tender gleam down on the young and handsome couple who sat so far apart.

He sighed. She sighed. Finally, with a loud sigh, she said: "I'd travel."

Impulsively she slipped her hand in his, then rising swiftly, she sped into the house.

Altogether, he looked at his hand. In the palm lay a nickel.

Two colored men were standing on the corner discussing family trees.

"Yes, sah, man," said Amrose, "I can trace my relations back to a family tree."

"Chase 'em back to a family tree?" said Mose.

The Farmers Should Have Better Lanes

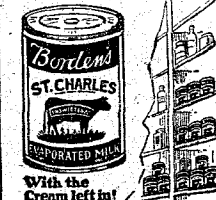

The improvement of roads and highways is only one step in the transportation problem as it affects the farmer. To get the full benefit of the better roads a farmer must necessarily have his lane in such a condition that he can get to and from the highway with a full load. In many cases the highways are open to vehicular traffic practically throughout the winter, yet many cars are tied up in the farm garage or drive shed simply because the lane is drifted full of snow, or for other reasons is impassable to anything except the bobs or farm wagon. The road was impassable, not even Jacksable, a classic saying intended for poetry that might be truthfully applied to some farm lanes as certain seasons of the year. We are, one and all, paying for the improvement of roads and highways; and when for any reason a person is debarred from taking full advantage of the better thoroughfares, full dividends on the investment are not obtained.

And what is still more important, perhaps, is a good approach. The effect on visitors of a neat, well gravelled lane is worth considering; but above all the one piece of road that rural folk travel most in their lives should be such as to engender pride in their surroundings and make a pleasant approach to the farm and home.

Most farm lanes are too narrow and are insufficiently drained. More width of lane would help to prevent drifting, while ample drainage and more gravel would make a vast improvement in the character of the road itself. Gate posts, or even white-washed stones where the lane joins the highway have a good effect. There are a dozen and one other little touches that may be given to the short stretch of thoroughfare that joins the farm home with the outside world. These improvements in some cases may not mean anything, when we judge returns only from the viewpoint of the "coin of the realm," but they brighten up the roadside where we and others pass, and help to round out the life that we are permitted to live only once.

He: "Why do blushes creep over girls' faces?"

She: "Because if they run they would kick up too much dust."

The Days

One day, and one day, and so the years go by;
Flowers paint the meadow, stars light the sky;
Kisses follow laughter, the heart grows high;
One day, and one day, and so the years fly.
One day and one day, and years by the fresh winds blow and the winds cease;
Work brings reward and the good gift of peace;
One day, and one day, and so the years increase;
One day, and one day, and so the years wend;
Snow crowns the hills where the great gray clouds descend;
Colors of the moon in the twilight blend—
One day, and one day, and so the years end.

The fire department was called out on Friday last to extinguish a slight blaze on the roof of Kiley's restaurant.

Mr. and Mrs. E. T. Vye and daughter, Barbara, left on Saturday via St. John for Boston, where they will spend a short vacation visiting relatives and friends.

Miss Louise Meehan returned home last week after spending a few weeks in Cansuville, the guest of her grandparents, Mr. and Mrs. Louis L. Blane.

Miss Mahelle T. Phillips, who has been visiting her mother, Mrs. (Rev.) Phillips, Carleton St., for the past two weeks, returned Thursday via Digby to resume her position as organist.

Miss Ethel Snow left Friday for Lunenburg County to resume her position as teacher in the public schools, after spending her vacation in Digby with her parents, Capt. and Mrs. Wm. Snow.

W. K. Tibert and sons, Lewis and Harold, who have been spending a three week's vacation at Little River, the guests of Mr. Tibert's mother, Mrs. Mrs. John Tibert, were in Digby Monday en route to their home.

Mr. and Mrs. Harold F. Clark, of West Medford, Mass., accompanied by Mrs. Mary A. Williams, mistress of the beauty parlor in Littleton, Mass., motored to Sandy Cove last week and are the guests of Capt. and Mrs. George M. Morrill.

Daniel A. Dillon, of Dartmouth, who has been spending a short vacation in Digby, the guest of his brother, A. J. Dillon, returned to his home on Saturday morning via St. John. This was his first visit to Digby in eight years, and his many friends were pleased to see him.

The Misses Edna and Irene Warner, who have been spending a two weeks' vacation in Digby, guests at the "Cottage," left on Saturday for Halifax to resume their duties in the public schools in that city. They enjoyed their visit to Digby, and while here made many friends.

No effort should be spared to encourage an increase in the number of our visitors, and one of the ways of doing this is to give good service to those who come. The cup of tea for instance which we serve to them should always be MORSE'S SELECTED ORANGE BRAND, as this is the only one that is better than anywhere in the world.

The schools reopened on Monday, after the usual summer holidays. The attendance was above the average. All the teachers have arrived, and all the children have resumed their vacations at their homes in different parts of the Maritime Provinces: Bernard Chisholm is again Principal of Digby schools, with Miss Macdonald Vice-Principal.

The Annapolis Band presented their third and last concert on the Digby Band Stand, Friday evening last. A large number of visitors and citizens were present and greatly enjoyed the music, under the leadership of Mr. Paul Yates. The collection taken to defray the expenses of the band to Digby, only amounted to \$15.

The yacht "Evangeline" from Karsdale was in port on Saturday last. On board were B. H. Bogart and daughter, Dorothy and Jenn; Mrs. May Bogart, and son Eugene; Miss Eugenia Bogart, Mr. and Mrs. E. H. Porter, and son Harold; Miss A. M. Che nut and Miss Elizabeth Covey. After spending a short while in Digby, the party returned to Annapolis.

Miss Christobel Randall, who has been spending the summer in Digby, a guest of Mr. and Mrs. J. W. Merkle, returned to her home in Kentville on Saturday last. On Friday evening Miss Randall appeared at the Bijou Dream Theatre in two dances, "The Butterfly" and "The Egyptian." The large audience was delighted by the able manner in which this eight year old artist performed, and she was greeted with hearty applause after each dance. At the conclusion of the last dance Miss Randall was presented with a beautiful bouquet of flowers.

Mr. and Mrs. Chester J. Melanson and little daughters, Dorothy and Evelyn, of Annapolis, and John Conway, of Brocton, Mass., who have been spending ten days with Mr. Melanson's mother, Mrs. Annie Melanson, at Gilbert's Cove, returned to their home Monday via St. John. They enjoyed a delightful trip down and plan returning by another route which they will cross the state of Maine at two different points. Mr. Conway was born in Weymouth and has his first trip home in twenty years. While here the party accompanied by Mrs. A. H. Melanson and Capt. P. J. Hatney, motored as far as Kentville, and were delighted with the Land of Evangeline.

On August 24th, St. Bartholomew's Day, Barbara Wakeman, infant daughter of Mr. and Mrs. Harold Milbank, of South Orange, N. J., was baptized in St. Anne's Church, Smith's Cove. The Right Reverend the Lord Bishop of Fredericton, officiated. The baby was dressed in the national robe worn by five generations of the Milbank family. Duane McDonald Little, an uncle, and Mrs. Samuel Milbank and Mrs. Edward Milbank, aunts of the baby, acted as godparents. After the ceremony the guests were entertained by the baby's grandparents, Mr. and Mrs. Frederick Seymour Little, at their summer home here.

An increasing volume of business in the Maritime Provinces, and a belief in the future of this important quarter of the Dominion, has led to a strengthening of their Maritime organization by the Western Canada Flour Mills Company, Limited. New Offices have been opened in the Canada Permanent Building, St. John. New Brunswick, and Donald M. Brown, one of the company's executive officers who has occupied many important positions in branch territories in Western Canada, has been placed in charge. The company had made this move with a view to giving a still better service to the customers in the Maritime. The handling of the flour in the East will henceforth be under the control of its own branch organization, instead of outside agents, as has been the case in the Maritime. The new office is in the Maritime Permanent Building, St. John.

Miss Jean McCabe of River Philip, returned to Digby Saturday to resume her position in the teaching staff at the Academy.

Lawrence Syda who has been spending his vacation with his parents, Mr. and Mrs. H. H. Syda, returned to Boston on Monday.

Bevis Turnbull, who has been spending his vacation with his parents, Mr. and Mrs. Eber Turnbull, returned to Montreal on Saturday.

Mrs. William and Clarke Read of Montreal, who have been visiting at the Myrtle House for the past two weeks, returned Saturday.

Mrs. Roy M. Johnston, of Cincinnati, Ohio, who has been visiting her parents, Mr. and Mrs. S. H. Johnston, of Digby, returned home on Thursday.

Harold Sweet, who has been spending a few weeks with his parents, Mr. and Mrs. Frank Sweet, at Green Point, left for the United States, Friday.

Mr. and Mrs. W. A. Sells announce the engagement of their daughter, Myrtle Blanche to William McLean, of Brookline, Mass. Marriage to take place in the near future.

J. G. Eastwood, B. Sc., of Plymouth, Mass., who has been visiting at the home of Mrs. Edward Brenner, returned to Boston on Monday by motor, accompanied by his friend, Miss Eva Chute.

A quiet wedding took place at Digby August 28th, when Margaret, daughter of Mr. and Mrs. H. B. Gordon, daughter of the late Henry B. Gordon and Mrs. Morse, of Parrsboro, was united in marriage to Harris Fletcher Warrington, son of Mr. W. C. Warrington, of Parrsboro. The ceremony was performed by Rev. Jabez Appleby, pastor of the United Church.

On Saturday evening next a special dance will be held at the Pines Casino, and on Monday evening, Labor Day, the last dance of the season will take place. It is hoped that the citizens and visitors will be present and these dances. The orchestra at the Pines this season has been above the average, and all dances have been well patronized.

On Sunday evening last, after the regular service at the United Church, the parishioners held a reception in the Sunday School room for Dr. Kirkus, who has been spending during the past few weeks. Dr. Kirkus was presented with a gift of a book, and in return he gave a gift of a book to the parishioners and replied in a neat speech, stating that he had enjoyed his visit to Digby and was glad to be able to render some help to Trinity Parish.

Mrs. Arthur Waterhouse and son Jack, who were badly injured in an automobile accident, Monday evening at Smith's Cove, when they were run over by Edger Warner, while the former were en route to Kentville on a motor cycle, and brought to the Digby General Hospital, are resting as good as can be expected. The mother had both legs broken, while the son had his leg so badly crushed that the doctors thought at first it was necessary to amputate same.

The members of the Children's Aid Society of Digby, wish to extend publicly their sincere thanks to the children of Higher View, Smith's Cove, for the kind, thoughtful and willing effort which resulted in a donation of \$90.30 to be used in the Children's Aid work, in connection with the children of Digby Co. Assistance of this kind is naturally very welcome from all, but particularly is it appreciated when coming as the outcome of unselfish kindness on the part of happy children, toward those not so fortunately placed. All who took part in the raising of this sum of money for the purpose mentioned please accept the warm thanks of the Children's Aid Society and be assured that it will be used as the giver's requested for the children of Digby County who need it.

The present visit to this country by Mr. Clarence Jamieson, a member of the Civil Service Commission of Canada, is of great bearing on the prospects in life of the younger generation both in Great Britain and Canada. Mr. Jamieson has been in conference with Sir Claude Schuster, Sir Russell Scott, and Sir Stanley Leathes, K.C.B., with a view to getting the British angle on the Civil Service appointments and promotions. This is all the more significant from the fact that a large proportion of the Civil Servants in Canada are of British birth. A three years' residence in the Dominion is required before intending candidates may compete at the Civil Service examinations. The Canadian system is more far-reaching than that of Great Britain, because since 1918 women have shared with men the offices for which they could qualify. All appointments and promotions are competitive. The Canadian Commissioners hold life appointments, which assure their independence. They make appointments to and promotions in the Service, and grant leave of absence, authorize pensions and retiring allowances and fix all salary schedules. The British Civil Service Commission's activities are confined to examinations for appointments to the Service. Mr. Jamieson at the same time is inspecting the Canadian service in Britain—the High Commissioners, Department, Immigration, Trade and Commerce and Archives, etc. He is also going to Paris to see the Canadian offices there. On Tuesday, August 25th, the death occurred of George Melville Ruggles, of Bear River East, at the age of 67, after an illness of many months borne with a remarkable and rare patience.

He was the second son of the late George A. Ruggles and Lydia Ruggles. He was a consistent member of the Bear River Baptist Church and highly esteemed by all who knew him. He leaves a widow, two sons, Ernest of Brighton, Mass., and Gordon of Boston, three daughters, Mrs. Roland Howard of Berwick, Annie and Marie at home, and three grandchildren.

He was also survived by a brother, sister, Harvey Ruggles and Mrs. Myron Ogden, both of Brighton, Mass.

The funeral was conducted by Rev. J. W. Smith assisted by Rev. C. M. Mack, with burial at Mount Hope cemetery.

MRS. ADA DOBEY

The death took place at Camden, South Carolina, a few days ago, of Mrs. Ada Dobey, aged 51 years, after a long illness from cancer, which she bore with Christian fortitude. Mrs. Dobey was born in Bear River, and was the daughter of the late Gilbert Hill. She went to the United States some years ago and married George, settling with her husband in South Carolina. She lived there for about three years and spent the summer here, being associated with Mrs. Constancia, in the Red Raven Laundry. Besides her husband, she leaves to mourn her mother, Mrs. Olivia Hill, Bear River, and two brothers, George, of Bear River, and Owen, of Essex, Mass. The funeral took place from Sutton Branch Church, Camden, and the services were conducted by Rev. E. F. Bradford.

IN MEMORIAM

In loving memory of my dear brother William E. B. Dyer, who died at St. John, N.S., 3rd, 1923. Gone but not forgotten by his sister Mrs. Otis Middleton.

There is a beautiful land where all is bright. No sickness, no anguish, no sorrow, no night. There happiness dwells and joy reigns forever. In that beautiful land just over the river.

Oh Jesus my Savior be with me at last And guide me safe over then all danger is past. My soul shall adore thee for ever and ever When I find my self there just over the river. Inserted by Mrs. Otis Middleton.

Weddings

TURNBULL—LONG

Grace Methodist Church was the scene of a quiet wedding Monday morning at eleven o'clock, when Miss Pearl E. Long was united in marriage to Mr. Bruce Turnbull of Bay View. Rev. J. Appleby officiated and only the immediate relatives of the couple were present.

The bride, who with her mother, Mrs. Mary Long, had arrived from Bangus, Mass., via Yarmouth, was dressed in a sand and green ensemble suit with hat to match, and carried a bouquet of sweet peas.

Mr. and Mrs. Turnbull left the same afternoon by auto for Bear River East, the home of the bride, and after visiting there a short time will return to Bay View where they will reside.

PROVINCIAL HIGHWAY BOARD

Halifax, 31st August, 1925

The Provincial Highway Board has issued instructions to Motor Cycle and other Peace Officers which have been approved by the Governor-in-Council, as follows:

Motor Cycle and other Peace Officers are instructed that when a violation of the Motor Vehicle Act occurs, they, exercising sound discretion, will proceed as follows:

(1) Either forthwith arrest the offender and bring him before a Magistrate to answer the charge, or

(2) They will allow the offender to go free and then lay an information against him before a Magistrate and have him issue a summons or warrant.

(3) They will inform the offender that he has the option of paying then and there ten dollars (\$10.00), which is to be accepted under Section 48, as full satisfaction, release and discharge of all penalties and imprisonments incurred by such offender for such violation.

However, when the violation consists in operating a motor vehicle without the prescribed number plates or permit, Motor Cycle and other Peace Officers are instructed to proceed as follows:

(1) Either seize the motor vehicle and arrest the offender and bring him before a Magistrate, or

(2) Seize the motor vehicle and lay an information before a Magistrate, and have a summons or warrant issued, or

(3) Collect from the offender the fee payable for a permit for the car, give him a receipt therefor and, if the car has never been registered, have him fill in and sign a form of application for the registration of the car and transmit the fee and form of application to this office, in such cases instead of arresting the offender or laying an information, Officers may inform him that he has the option of paying then and there the minimum penalty of twenty-five dollars (\$25.00) prescribed for the offense which amount will be remitted to the Provincial Highway Board for its consideration as to whether or not it will be accepted, under Section 48, as full satisfaction, release and discharge of all penalties and imprisonments incurred by such offender for such violation.

In cases of persons drunk or intoxicated while operating a motor vehicle, the car is to be seized, and the offender arrested and brought before a Magistrate and prosecuted under the Criminal Law.

WHAT OF DIGBY'S FUTURE

Digby—An Industrial Centre!

THE writer of this series of articles has endeavored to point out the possibilities of Digby as a mecca for Tourists. It is not his intention to deal with this subject matter further at the present time.

The Tourist season is practically over. The long, dreary winter will soon be here. How do the poorer class of our citizens plan to exist during those months? Digby has very few industries to give employment and assist in keeping "the hungry wolf" from the door.

The situation has to be faced. It must be faced with level heads and clear foresight. Digby is a beautiful little town. Every citizen is proud of it. There are citizens of Digby residing in the United States and other parts of Canada who would like to return to their homes. There are parents in Digby who would like to have their sons and daughters return to Digby and reside here permanently. BUT there is no employment in Digby to offer them. They cannot make a decent living wage. Those who are not content to struggle along seeking out a bare existence from day to day; those who are ambitious and those who wish to rise above their present circumstances in life go away to larger and better industrial fields. They generally succeed. They make good wages yet they are not satisfied. There is a soft spot in their hearts for the Old Home Town. There is a desire to return but there is also the sad realization that there is nothing at home for them. Can we who remain in our native province not get together and endeavor to interest capitalists in our county to establish industries which will provide steady employment and "bring our boys back home." It is very well for a government to say "They will bring the boys back home." It is another matter to do it. No matter how sincere a government is in its desire to bring our boys back home, it cannot do so unless it has the whole-hearted co-operation of the citizens. Are the citizens of Digby willing to do their share?

Apart from the Fishing Industry and the Lumber Industry, there are practically no industries in Digby. There are a large number of men in this town and in the county who work infrequently at low wages. They consider themselves fortunate if they get three or four days work a week. Twenty dollars is a LARGE weekly wage to them. They have difficulty in supporting and educating their families. They are hopelessly in debt. Unfortunately, this is the much too common case. These men—for the most part—are honest and industrious. They would work if there was work to be had. Too many of our citizens are in this situation. The situation must be remedied. It can only be remedied by strenuous efforts made to interest outsiders in our resources and to make them realize that it is worthwhile to establish an industry or industries which would give employment to all those who wished it.

At present Digby is primarily a Tourist Resort. It is well adapted to be one. It should not be merely a Tourist resort. It should be THE tourist resort. Unfortunately, our tourist season is short. A large number of tourists in our town is undoubtedly a valuable asset. It puts more money in circulation. It benefits the hotels, the merchants, and indirectly the general public. It gives a certain summer employment for a time. The tourist season lasts for three months. The citizens of Digby have to live twelve months in the year. How are they going to do it if there are no industries, no employment and consequently no source of income during the remaining nine months?

Digby has had opportunities to have industries established here. Capitalists who have realized the possibilities of the town have wished to locate here. They have been scared away. They have met with lack of interest. Their plans have been discouraged. The excuse has been offered that they would kill the Tourist business. Digby could have its industries and could still provide sufficient and varied attractions to satisfy the most particular individual. The two could well exist side by side. The Tourist trade could be catered to during the tourist season. The citizens of Digby would be given employment during the entire year. The result would be a bigger, better, more prosperous Digby. More money would be placed in circulation. More attractions could be provided to offer the tourists. The tourist traffic would be increased as a result of greater industrial life.

Digby has no great amount of mineral wealth. BUT, it has vast Fisheries wealth and Timber resources. It is rich in Agricultural and fruit growing land.

Our Fisheries could be run on a much larger scale. At one time, Digby was a very busy port. A large number of schooners and sailing vessels were continually entering and leaving the harbour. At present hardly a sailing vessel enters the port. An occasional lumber, coal or freight boat does arrive. Digby could and should have a fleet of fishing schooners sailing from this port every day and returning with heavy hauls. A market could be readily found. Digby is certainly located for shipping, either by rail or by boat. Why is this industry not greater than it is?

Digby is rich in agricultural products. The soil is fertile and good crops are—as a general rule—raised. The farmers should be interested in bigger and larger production. A means of disposal of their products should be provided.

Digby is not as great a fruit growing county as Annapolis. Yet it is productive of very beautiful fruit. Our fruits are much better than those which are produced in the United States and imported here in large quantities. There is a finer flavor to the Nova Scotian apple than there is to any of those which are imported from the United States.

Digby County has vast and rich Timber resources. Why should our pulpwood be exported in the raw state? Why should we in Nova Scotia not have industries to turn out the finished product? It CAN be done. Nova Scotia has the resources. It should have the industries.

It is understood that an attempt was made last year to carry on the jam-making industry on a large scale and that this fell through. Such an industry would be a decided benefit to our County and Province. Digby produces excellent fruits and berries of every kind. These would make excellent preserves and would find a ready market. It would be bound to prove a success. Such an industry would give employment to a large number of men.

A great deal of trouble lies at our own doors. Our citizens are indifferents. They lack the "go-getter" spirit. They are satisfied to see the other fellow do the work. They are afraid to put forward a little extra effort.

Every citizen can do his or her share. Those individuals who are not as well-to-do as they might be and who are dependent upon the daily earnings can be of vast assistance in Buying At Home and putting forth their best efforts on the work they are engaged at or will be engaged at. Too much money goes forth from this province to mail order houses in Ontario. Give our local merchants a chance. If the citizens would buy at home, our merchants would be in a position to carry a large variety in stock and sell at lower prices. The business men can assist by buying and selling our home products. Those of our citizens who are more influential could use their good offices to interest capitalists in our county and help establish industries on a sound working basis. A general self-sacrifice might be necessary for a time BUT it would certainly be worth the effort.

Digby County and the town of Digby—in common with the rest of

Weddings

WARNE—MORSE

An event of special interest to "Courier" readers took place Wednesday the 9th, at "The Elms," Paradise, when Miss Louise Morse, B. A., only daughter of Mr. and Mrs. J. Eugene Morse, was united in marriage to Hubert Morse Warne, only son of Mr. and Mrs. H. T. Warne of this town.

Autumn sunshine graced the day and enhanced the joyousness of the occasion. Four autos from Digby carried the immediate relatives from this vicinity to the ceremony, which was performed at eleven o'clock by Rev. Mr. Smith, Pastor of the Baptist Church, Paradise.

The impressive but simple double-ring ceremony took place under a flower trimmings laid out on the verandah, which was further attractively decorated with green and gold.

The fair bride, who appeared on the arm of her father as the wedding march was played within a house, was attired in a silk crepe costume of the new gown shade with hat to match and a fair trimmings of white lace and ribbons. Her coming. She wore a carriage bouquet of mauve sweet peas and cream roses. A sweet little cousin of the bride, dressed in a golden costume with real paany trimmings, acted as flower girl.

After the ceremony a buffet luncheon was served by the bride and groom. The bride and groom, Miss Dora Warne, sister of the bride and groom, the house decorations, in colour scheme, matched the costume of the bride.

Mr. and Mrs. Warne left immediately after by auto for a trip through New Brunswick, Maine and Quebec, and a shower of confetti and good wishes and their happiness was unmarred by the pranks of some of the young people present in a golden costume with real paany trimmings.

The bride, who was the Governor-General's Gold Medalist of the Acadia 1924 class, and is already known in this town, resided in the village of Paradise. Her auto costume was a golden brown fur-trimmed coat with hat to match.

A unique feature of the occasion was the reading of a specially written poem by Alfred Boden, Digby's popular Town Clerk.

The bridal couple, on their return will reside at Digby.

CORNWALL—REEVES

The Baptist Church at Weymouth North was the scene of an interesting event on Wednesday afternoon, Sept. the ninth, when the marriage was solemnized between Eilian Frances, youngest daughter of Mr. and Mrs. J. H. Cornwall of that village, and Carleton Alexander, the son of Mr. and Mrs. J. F. Reeves, of this town.

The church which had been previously decorated by friends of the bride was a "power of beauty." Dahlias, asters, asparagus, and other flowers were evergreen made a color scheme of enhancing charm. Shortly after two o'clock to the strains of "The Wedding March," the bride, attended by her bridesmaid, the bride entered the church accompanied by her father, who gave her away.

The ceremony was read by Rev. J. H. Copeland, a former pastor of the church and now residing at O'Leary, P. E. I. While the register was being signed, the bride's party, which included Miss E. L. Little River, a cousin of the bride, sang "O Promise Me." Miss Florence Copeland, sister of the bride, had been a Maid of Honor, while the groom was supported by his brother, Gordon Reeves, Franco.

The bride was exquisitely gowned in white crepe de chene with the conventional veil and orange blossoms and a coronet of pearls, carrying a shower bouquet of brides roses and lily of the valley.

The Maid of Honor wore powder blue crepe de chene trimmed with coral lace and a leg of mutton bouquet of old-fashioned flowers.

Awaiting cars conveyed the bridal party and immediate relatives to the home of the bride's father, where the bride and groom left. The house was tastefully decorated for the occasion. An interesting feature was the display of beautiful presents which the bride had been a recipient. The groom's gift to the bride was a substantial cheque. The bride's gift to the groom was a top pin to the Maid of Honor, a diamond and onyx ring; to the soloist gold cuff links; Mrs. Warren Lent and Mrs. Calver, of the village who acted as bridesmaids, each received a set of cuff links.

Immediately after a buffet luncheon the bridal party, motored to Weymouth where the bride and groom left on the west bound Bluenose for Yarmouth en route to Sherburne, Chester and other points of interest on the South Shore after which they will leave for Mulgrave, where they will make their future home. The bride's travelling suit was a gown of deep blue with deep bands of embroidery and fur and hat to match. The groom wore a suit of blue and hat to match.

GET BUSY!

(It is the intention of the writer to endeavor to deal with some of the difficulties which have to be overcome. The greatest reason given for the failure of the Province to advance its industries is the lack of markets. With this the writer agrees to deal in a subsequent issue.)

Digby Audience Receives Treat

On Friday, Saturday and Monday last the citizens of Digby and County had the pleasure of witnessing one of the best shows put on at the Bijou Grand Theatre. The season and they were well repaid for the time spent. Professor Men-o-rea and his vaudeville artists were the main attraction offered and they were well received by the large audience which packed the house at each performance. Professor Men-o-rea is known as the world's greatest mind reader and he certainly lived up to the press reports which have given account of his performances in all parts of Canada and the United States. Some of the stunts that he had would lead one to believe that he was super-natural. His mind reading was the best seen in this town.

Rita Johnston and baby Ellen, in their Dancing Numbers, were far ahead of any other act put on at the local theatre. The dancing of little Ellen was heartily applauded, and this little artist was worth the small admission charged.

On Monday and Tuesday evening, Professor Men-o-rea will perform at Bear River, and a hearty invitation is extended to all friends in Digby to attend these performances.

the Province—has been slowly but steadily going backward. Other provinces are prospering at our expense. This is not as it should be. An awakening is necessary. A sound co-operative organization is required. The future is not very bright. It may well become, as the lethargic state must be thrown off. A common interest in our welfare must be shown. Every shoulder must be put to the wheel and there must be no sparing of efforts.

The writer never considered himself a pessimist. Yet it is his feeling, and he believes it may be many who feel the same, that the death knell will be rung for our fair province before many years unless there is a general awakening. The habit of depending on the other fellow has to be overcome. The desire to sleep must be thrown off. It is necessary to get out and work. It is necessary to show some of the indomitable spirit that was shown by "our boys" overseas. Go out with the avowed purpose to forge ahead. Show some of the spirit that our forefathers showed when they found this glorious Province of ours and there will be no doubt about the outcome. Do not be content to see someone else do all the work.

STORY OF RESCUE AT SEA FAKED

Told Story of Life Saving and Robbery
In Effort to Appear a Hero,
Says W. P. Power, Jr.

A desire to appear a hero made Walter B. Power, Jr., of Montclair, N. J., and who spent the summer in Digby, make up a story that he had jumped off a steamship bound for Boston to save a drowning boy, according to correspondence made public this week by the Eastern Steamship Company. Powers, who is 19 years old, embellished the tale of the rescue by saying that while he was swimming after the drowning boy, someone stole \$200 from his coat which he left on deck.

On August 18 the newspapers printed the story under a Digby date line. The story told how Powers, going to Boston on the steamship City of Boston on Aug. 2, heard a cry of "man overboard" when the vessel was two hours out of New York and that he peeled of his coat and dived after the lad, battling with the waves for more than 20 minutes. According to the account related in Digby, Powers held the boy in his arms while waiting for a lifeboat to pick them up. When they were placed on the deck the story said, Powers retrieved his coat and found that his money was gone. The publication of the story caused officers of the steamship City of Boston to ask the Eastern Steamship Company to investigate.

The inquiry resulted in the company making public a letter from young Powers, which said in part:

"I am writing to apologize to you for the story which was circulated about my saving a boy's life on the S. S. Boston on August 2. This story has no foundation whatsoever. I started it for no reason other than a desire for personal glory and when I realized how far it had gone I had not the moral courage to deny it."

"I just made the story up at Digby," he declared. "I wanted to make myself out a hero and they surely thought I was one. I'm sorry and ashamed that I was so unfair to the people up there for they were awfully good to me. If I was there now I could not admit what I did; I just wouldn't have the face to."

Nova Scotia

Land of the mayflower, and maple entwined,
Where we find more beauty combined
Than in this fair Province, down by the sea,
O'erflow Nova Scotia, in Canada's galaxy.

Land where the cherry and apple trees bloom,
Fanning landscapes of beauty in the moon of June,
Homes where fruits in abundance are stored,
And seen from our harbours in ships that are more than mere cargo.

Land of great mineral wealth, lighted by given,
The coal for our comfort, all blessings from Heaven,
The fish from our seas, which our markets supplied,
For home or for commerce whichever befits.

Land of univalued scenery, mid valley or dale,
Comfortable homes for the making, and crops seldom fail,
Why should we pass by what lies at our doors,
Or stray to new fields, or less beautiful shores?

Come back to your birthland, ye maidens of the coast,
Come make the dreamland, you wished for it then,
The old folks may not greet you with tears in their eyes,
For many have passed to realms on high.

Come back to the homes where so many beauties are entwined,
Beauties you loved, with moments of comfort and joy,
Tis all that is wanted, in birthplace or worth,
Ours Nova Scotia, our birthplace on earth.

As To Mussolini

It has been fashionable of late to attack Benito Mussolini, for enemies of this marvelous man have found courage from certain mistakes of the fascists. But the man remains and it is to this that we must address ourselves for a few minutes.

Mussolini was a child of the people. His father was a village blacksmith, his mother a school-teacher. His father was a powerful man and became a free-thinker and internationalist. They wanted their son, Benito, to be educated so they sent him to school by great sacrifices and he graduated with a diploma for a school-teacher. So he went out at eighteen to his task.

He had been a teacher for but a year when he decided that he must broaden himself, so he set out afoot and alone with a few lire in his pocket. At the barriers of Switzerland he was halted with the news that his father had been arrested. He could do nothing—so he went on. At Geneva he was found sleeping under a bridge and was arrested as a vagabond. He went to work as a bricklayer and at other jobs of manual labor—he wanted to know the people. He became a socialist and almost an anarchist.

He began to speak at meetings; organized trade-unions; was a bazaar agitator; fermented strikes; did all he could to obstruct and destroy industrial relations. Once he was so starving that he begged bread from a family of peasants. They gave it and he went his way. On the road, he put his teeth into the loaf and then became so passionate at the condition that forced him to this shame that he spat out what he had bitten; and threw the loaf of bread in the ditch and went on starving.

In a meeting in Switzerland he had the audacity to face the great scholastic leader Jaure on the platform and declare that his theories were nostrums and would do no good.

Even then Mussolini was a facet of facts not fancies and theories—he was what the Italians call a "realizzatore." And it was this peculiar power of facing facts, not dreams and fancies, that later made him abandon socialism and become a leader of the Fascists.

In Switzerland he became and was forced to flee, crossing into Italy where he got a living teaching French. But even here he was a marked man, always under surveillance, which he so resented that he fled to Marseille, where he got to be very popular by organizing a general strike that made great war fare. **1922**

COULD NOT SLEEP NIGHTS

Pains and Headaches Relieved by Taking Lydia E. Pinkham's Vegetable Compound

Dublin, Ontario.—"I was weak and irregular, with pains and headaches, and could not sleep nights. I learned about Lydia E. Pinkham's Vegetable Compound by reading the letters in the newspapers and tried it because I needed to get better. I have got results from it as I feel a lot stronger and am not troubled with such bad headaches as I used to be and am more regular. I am gaining in weight all the time and I tell my friends what kind of medicine I am taking. You may use my letter as a help to others." Mrs. JAMES RACHO, Box 12, Dublin, Ontario.

Halifax Nurse Recommends
Halifax, N.S.—"I am a maternity nurse and have recommended Lydia E. Pinkham's Vegetable Compound to many women who were childless, also to women who need a good tonic. I am both and my husband in America, and he told me of Lydia E. Pinkham while in England. I would appreciate a copy of two of the little books on women's ailments. I have one which I keep to hand. I will willingly answer letters from any woman asking about the Vegetable Compound." Mrs. S. M. COLEMAN, 24 Unkleside Street, Halifax, Nova Scotia.

It pays to advertise in The Courier.

Just Talks--On Common Themes

On "A Program For Youth"

A DISTINGUISHED man was recently asked to speak to boys of a certain preparatory school. The boys were all from well-to-do families and he had a great deal of doubt as to interesting them. He outlined the talk on these ten subjects and it seemed to make an impression.

The outline seems to be good and when I find a good thing, I want to pass it along. The author of it is William Feather, a writer of exceptionally good stuff for a series of trade journals and house-organs, who are usually very practical men.

The talk was based on the following lines of talk, each of which will stand a lot of amplification and illustration. It will be noticed that while the talk is directed to young boys who have probably plenty of money to spend, it applies equally to all boys for today the average boy has about ten times as much money in hand in a year than boys did forty years ago.

1. Pay your bills. Live within your allowance and when you begin to earn money live within your income. It may be easy for some of you young men to get credit but don't use it. Go without things until you can pay for them. Debts will be a burden on you and lessen your usefulness. They are a rope around your neck.

2. Be courteous. Young people of today often think it is smart to be rude. This is a mistake. All great men are kind and courteous. Profane and rude speech, roistering in public places; noisy behavior on the streets; loud and unseemly laughter; disrespect for aged people, all are poor stock in trade.

3. Be orderly. Disorder is inefficiency. Much time is lost in finding things that you have misplaced. Life is straightened and sweetened by having things where they may easily be found. Orderly habits inculcate orderly methods and orderly and straight thinking.

4. Be prompt. Promptness is one of the best recommendations for any employee or any employer or any social or other obligation in life. The prompt fulfillment of appointments; the doings of things promptly, effects endless worry and saving of time.

5. Concentrate. Learn to give your mind to the task at hand. When you study don't let your mind wander to day dreams of baseball and other sports. When you are playing, play hard. Don't take your class-work to dances or your dances to class-work.

6. Be thrifty. Demand full value for all that you buy. Take good care of your things. Hang up your clothes. They will last longer.

7. Cultivate good manners. There is no greater asset than good manners. When you get to college and out in the world you will find that you are judged largely by your courtesies and the way you act in the presence of others. Awkward, ill-bred manners are a great handicap. Englishmen are more strict in the enforcement of social rules than we are. Many think that they carry it too far; but we underdo it. Many men have gone along to success in business by charm of manner which took the place of many shortcomings; while many able men have been kept back by rude and uncultivated behavior in society and in business.

8. Be thorough. The most difficult task of the business man who employs college is impressing on them the necessity of being thorough in their work.

We live in the age haste. Old fashioned thorough workmanship is not as common as once it was. The thorough scholar; accountant; business man, craft-man, is by no means to be found as easily as once upon a time. For that reason he is more prized. Master your business. Set yourself to know it from top to bottom. Make yourself the best man in the business if possible. Study the history and growth of your business. Understand it and understand the reasons for its traditions.

9. Be alive. The best way to be alive is to be healthy. For health, boys need proper sleep. Without sleep you are half dead. Exert yourself to be really interested in all you understand. Do not affect a bored or listless manner in sports or study. Arouse yourself to the value of each moment and each action. Don't copy a blasé air and the other attitude and like everything that you can and go into it if at all, all over, as it were.

10. Cultivate high ambitions. Have genuine aspirations for better and better things. Never be satisfied with yourself. Don't go along saying that you are doing as well as the average. Do better. Pick out someone who is doing better than you and try to beat his record. Make him, too, go along, if he is going to beat you. If your classwork does not keep you busy enough, take on something else for self improvement. Add another language to your accomplishments. Be a specialist in something that you especially like.

Examples of men who have followed out these lines of behavior are plentiful together with their records of successful and useful lives. There is no doubt that this sort of a policy will make for good. Along with it are many other things that might be said; but on the whole this is pretty good talk.

"Visitor" Compliments Article

Editor of Courier:

Sir—You certainly deserve a great deal of credit from the citizens of your town for the manner in which you have been boosting Digby during the past three weeks. I refer particularly to the articles "What of Digby's Future?" Being a visitor to your town for the first time was greatly impressed with the possibilities of Digby as a Tourist Centre. But when I came in contact with some of your old-time residents, I began to realize what a proposition a young man, with any ambition at all, must be up against in this town. But the work you are carrying on under such difficulties must be interesting and it is a pleasure to hear people criticising you, especially after the appearance of last week's article. Every town is a boost, my dear Sir, and my only word to you is to continue week after week in your vocation and in the end you will have gained that experience which will be of some real benefit when you step out to a larger position of influence, which no doubt will be awaiting you in different parts of Canada, and especially the United States.

May success crown your efforts in the wish of

A VISITOR.

All tourists' records, motels, and train, are being broken at Banff, Alberta, this year. More than 13,000 cars were registered by the first of August with the big rush yet to come. As many as 2,000 were under canvas at one time in the Government auto camp ground.

Maple sugar and maple syrup production in Canada during the season of 1925 amounted to 9,701,350 pounds and 1,672,003 gallons of maple syrup during 1924. Quebec province accounted for over 90 per cent of the production of maple sugar and over half of the output of maple syrup.

Production of the four basic industries of British Columbia during 1924 aggregated in value \$210,629,793, as compared with \$207,934,041 in the previous year, according to a statement issued by the Provincial Government. The 1924 production was made up as follows, with 1923 comparative figures in brackets: Forest products, \$90,702,000 (\$86,674,400); agriculture, \$50,929,200 (\$49,129,735); mines, \$48,704,604 (\$41,304,329); and fisheries, \$21,256,985 (\$20,735,823).

Canada's ordinary revenue for the four months of the present fiscal year ended July 31 last, shows an increase of \$2,932,163 over the same four-month period last year, according to a statement made by the Department of Finance. Ordinary revenue for the four months of 1925 amounted to \$141,739,416. Ordinary expenditures during the four-month period show a decrease from \$96,546,541 in 1924 to \$95,655,692 this year.

George H. Ham, known throughout Canada as the Grand Old Man of the Canadian Pacific, celebrated his seventy-eighth birthday on Sunday, August 23rd, and was the recipient of a deluge of congratulatory messages from all parts of the country. Col. Ham has been with the Canadian Pacific since 1891 and by his social activities and powers as an orator has made for himself and for the company a veritable army of staunch and faithful friends.

Butter exported from Canada during the twelve months ending June, 1925, amounted to 25,086,120 pounds, valued at \$3,934,794, a decided increase over the figures of the previous year when exports amounted to 15,668,379 pounds, valued at \$5,021,634, according to a report issued by the Federal Department of Agriculture. Shipments were made to the United Kingdom, the United States, South America, South Africa, West Indies, Alaska, China, Japan, Germany, Belgium, Cuba, Holland, New Zealand and many other countries.

James Oliver Curwood, the well-known American novelist, who crossed not long ago to Europe on the "Empress of France" and returned a few weeks later to Canada on the "Empress of Scotland," wirelessly the following message from the "Scotland" to the "Canadian Pacific" headquarters in Montreal: "Can never fully express my appreciation of the splendid treatment accorded me by Captain Gillies and Captain Griffiths, and the staffs aboard the 'Empress of France' and the 'Empress of Scotland.'"

CONDITIONS IN ENGLAND NOT VERY BRIGHT

Exports Are Dwindling And Unemploy-
ment Increasing, Says Clarence
Jameson

(Halifax Chronicle)

"There is the same grim deter-
mination on the part of the English
people to solve this tremendous in-
dustrial problem, as that with which
they faced the seemingly crushing
burden of the war, and that in my
mind, indicates they will win out,"
said Clarence Jameson, Vice Chair-
man of the Canadian Civil Service
Commission, who was in Halifax
yesterday returning from Great
Britain, where he has spent several
months. While in Great Britain
Mr. Jameson had opportunity to
meet a number of the leading pub-
lic men, many members of the
Press, and to see for himself ex-
actly what some of the conditions
were in widely separate parts of the
country.

He had gone abroad to inspect
the Canadian Civil Service in
Great Britain, and also to seek in
the features which might be incor-
porated into the Canadian Service
for its improvement. In summing up
the official side of his visit Mr.
Jameson said it was the desire of
the Canadian Government and
Parliament to have the civil service
of this country on a parity with
the best. To this inspection of the
Canadian Civil Service in Great
Britain he had found all the offices
well organized, well equipped in all
their staffs, members of which were
keen on their jobs, with distinctly a
Canadian outlook, and desirous of
assisting as much as possible in
making clearly known the oppor-
tunities of settlement in Canada,
and endeavoring in every way to
avoid prospective settlers having a
false impression regarding condi-
tions they will find in Canada.

TRADE WITH DOMINIONS
The Trade and Commerce
Department representatives abroad
he found, were getting into close
and intimate touch with importers
of Canadian products and manu-
factured goods and studying close-
ly any desired change which might
be requested by the British import-
ers in manner of shipping package
and delivery, and giving to the
Canadian exporter the results of
their investigations. British pub-
lic men were turning more and
more, Mr. Jameson found, toward
trade with the British Dominions,
as the Dominions were now regard-
ed much more stable, financially,
than any of the other countries
which participated in the war, with
the exception, of course, of the
United States.

Asked as to his impressions of
conditions in England, Mr. James-
on said:
"From my conversations with
persons possessing a grasp of public
affairs, the most serious difficulty
in Great Britain today is the coal
mining problem. Upon it hinges
largely the cost of production of
most commodities manufactured in
Great Britain for export, and so
high has become the cost of produc-
tion that her markets are shrinking,
exports dwindling, and unemploy-
ment increasing alarmingly."

In solution of this problem, Mr.
Jameson observed that not only
was national and individual econ-
omy necessary to restore the bal-
ance between income and the cost
of production, but the mine work-
ers, who were surplus to require-
ments, must be cared for. This
would seem to be a problem for the
state, Mr. Jameson said. Obvi-
ously they could not be forsaken
and ignored because unsound con-
ditions of control and operation of
a great basic industry permitted
the development of a situation for
which the mine workers at least
were not responsible.

It was not improbable that the
British Coal Mining Commission,
now investigating the question, will
deal drastically with the situation,
Mr. Jameson said in reply to a
question as to what was expected
would be the outcome in that
regard.

To show how intricate the prob-
lem of unemployment was, Mr.
Jameson said he was in the House
of Commons the day the estimates
for Scotland were brought down,
and from both sides of the House,
from Tory benches as well as from
Labor and Radical benches, came
the same demand for assistance to
relieve the unemployment and des-
titution. The appeal was for the
Government to inaugurate great
public works for relief. There was
a great deal of highway construc-
tion, but here again the attempt to
solve one problem had only led to
the difficulties of another. There
were two classes of men seeking
employment on the roads, one the
unemployed and the other the farm

Back Home Again

Clarence Jameson, Esq.

laborers, who found they could
earn more as road laborers than
agriculturalists. The latter being
preferable as workmen to the un-
trained unemployed, they were
usually taken by the foremen of the
road, thus leaving the farmer with-
out labor and the unemployed still
out of work.

"Traffic in London has become
ghastly," said Mr. Jameson.
Where there were five motor buses
after the war, there are now fifteen
on the streets of London, and the
same proportionate increases of
traffic was to be seen all through
the Kingdom. This indeed, did
not indicate much financial depres-
sion, but the explanation was per-
haps to be found in the theory
that England today is living on her
capital.

Touching on other phases of vis-
iting England at present Mr. James-
on said that the prices asked for
those things a tourist desires to buy
in London and Paris were adjusted
largely with reference to the fact
that "Uddle Sam" was supposed
to carry most of the wealth of the
occidental world and "it is con-
sidered good form to lighten the
burden." The shop keeper made
no discrimination between Canadian
and American. "You speak like
an American," is the reply of the

thrill mercer," said Mr. Jameson,
"and the sophisticated 'Colonial' re-
quisitions one of the British horn
to accompany him on his shopping
tours and thus cloaking his vocal
delinquencies, obtains fair value for
his dollars. But the uninitiated
browsers sadly upon the costly dif-
ference between an Oxford and
Harvard accent, which he had
hitherto mistakenly believed, at
most, a question of tonsils versus
adenoids."

Mr. Jameson leaves today for
Digby, where his mother resides,
and after visiting her will proceed
to Ottawa.

Who Is Going To Sell Rogers' Batteries Radio In Digby?

A Canadian firm has effected the long
awaited development in Radio—the
elimination of batteries and aerial in the
operation of long distance sets. Every-
one who has heard about the new Rogers'
Batterless Radio has admitted that it is
a marvelous proposition—"if it works"—
and IT DOES WORK. In the presence
of the Toronto Star Radio reporter this
new five-tube, tuned, radio-frequency
receiver, operating from an ordinary
light socket and using no aerial or bat-
teries, tuned in twenty-five stations in a
short time.

One of the first factory sets to come
through was used in an apartment in
Toronto which has a high tension power
line at the rear, trolley wires and tele-
phone wires at the front, and electrical
machinery in the basement—about every
handless to good operation. The Rogers'
set was placed beside a set which many
regard as the finest set heretofore on the
market. The Rogers' set was simply
plugged into an ordinary light socket
with no "A" battery, with no "B" bat-
tery, with no Aerial whatever, and every
station picked up on the other set was
tuned in equally as well on the Rogers'
set, and with less disturbance. As the
evening wore on and the disturbance
faded, even when using only four tubes,
on a hot night in August, stations were
tuned in all the way from New Orleans
to Chicago without any aerial.

The Q. R. S. Music Company of
Toronto, who are distributors for this
product, are desirous of having it sold in
Digby by one of our better stores, and
anyone interested in this might com-
municate with them.
