It is seems to us the happenings of Tuseday afternoon indicate an ingent need for auxiliary services to work along with our freemen. The two services we rede most urgent are a group of Fire Folice and Ture Fire Folice cand cinrured the most hat always. Hocks to a fire and keep them away from the active scene so they would not always from the active scene so they would not learner the febrate of the firmen and endanger their own lives. That tragedy was averted was more a result of good luck than good management. To have a large group of people, particularly good management. To have a large group of people, particularly the property of t

REMEMBRANCE DAY ASSESSION

WE PAY OUR TRIBUTE

TO CANADA'S VALIANT DEAD

On this Remembrance Day the Nation turns once more in solemn remembrance to the quiet places of the earth, where those who gave their lives for Canada lie at rest. There the fallen soldiers of democracy sleep in peace. The honour them in our ceremonies and in our hearts. knowing full well that nothing we can do or say will give complete expression to our gratitude or love. Only as we match their faith and sacrifice in our stribing to preserve the freedom for which they laid down their lives, can we truly honour them. To us, the living, it means work and great devotion. God grant-that it be enough.

" We will not forget those who died for freedom ? "

Ever buy a car from this angle?

URE, a trim new Buick makes a might pretty picture when you see it in your driveway, or watch it wheel by.

But if you could get a mechanic's eye view of this big, broad beauty as it sits on a life, you'd see an impressive picture of rugged brawn that makes Buicks give such a good account of themselves on the road.

You'd see the full-length torque-tabe drive that firms the whole power relay system, and steadies your going like a giant hand beneath you.

You'd see all four wheels cushioned by stout coil springs tou a see an iour wheels cusmoned by stouccoll spring that are completely service-free, practically breakproof and a principal reason for the ever-level Buick ride.

But mainly, you'd see the massive foundation that back-bones every Buick—the deep, wide, X-member frame that's rugged as a rock, and a brute for strength.

So when you look at the beauty of a Buick—the hig mile-age power of its valve-in-head Fireball Hagine—and the money saving ability of its Dynaflow Drive*—don't over-look the tough stamina that goes with it all.

And whether you're looking at a Buick Cusrom, a Buick Surger or a mighty ROADMASTER, don't overlook the fact

that a '51 Buick, with all its best, costs less per pound than any other car of comparable size, structure

This subject of the "slaughter of deer" which has been causing so much concern to other parts of the province should be of more concern to the people of Digby in view of the fact that it was through the efforts of a Digby man that the deer were first brough into the province. The season on deer hunting, we believe, closes tomorrow, and some will say "this is another case of locking the stable after the horse has been stolen." "Lan compare Fleischesten." "I can compare Fleischman's with no other yeast," says Mrs.

Curry. "When I started beking breads, I started with Fleischmann's. I found it so reliable that I have never used anything else. Convenient, too, is the Fleischmann's Fast Dry Yeast, for that extra baking of rolls for a surprise treat." I hat's it exactly!
