Lose Something, Mister?

> Put yourself in this gentleman's position-you're hundreds of miles from home and you've suddenly discovered that your money is missing! It happens too often-but it should never happen to you!

There is one safe, sure way to insure yourself against loss of eash when travelling. Convert your cash into Travellers Cheques. You can eash them anywhere-and only you can cash them. They are useful, too, as identification.

The BANK of NOVA SCOTIA

"I put away my hard-earned money"

> This young bank depositor recently ' wrote to his bank manager:

"I made a goal of \$1,000 for this year. It is two years since I opened the account with two dollars. I owe thanks to you that I put away my hard-earned money where it will benefit me . . . I do not wish to touch it for the time being."

Building up a bank account means work and sacrifice. But Canadians know the value of having savings handy in time of opportunity or need: they maintain  $7\frac{1}{2}$  million savings accounts in the chartered banks-almost twice as many as ten years ago. At the same time bank staffs have almost doubled. That, and higher wages, have increased bank payrolls almost three times.

More people use the banks, more people work for the banks than ever before.

The development of Hydro Power in Digby County has touched every aspect of life and industry in the county.

<del>◇#◇#◇#◇#◇#◇#◇#◇#◇#◇#◇#◇#◇#</del>◇#

Because of Hydro, living in Digby County today is far easier and more pleasant than it was 25 years ago.

The industrial life of the County today is also much more advanced than it would be had the development of Hydro not been accomplished.

To those whose energy, courage, and foresight have been responsible for this most worthwhile development, we extend our Praise and Good Wishes.

## Canadian Citizenship

In-the-House of Commons two years ago. Prime Minister.
St. Laurent, with the concurrence of all the provincial premiers,
urged that each year, organ, standard exercises the observation to make the concurrence of all the provincial premiers,
urged that each year, organizations, in order that
we may become more alrepty-conscious of our own citizenship and
all that it implies.

all that it implies."
We feel this is a most commendable move, particularly in view of the present world situation and Canada's increasing two versions of the present world situation and Canadass, increasing two versions was more impropriate for all Canadians, individually and corporately, to pause and re-affirm their beliefs in the basic principles within form the foundation of our democratic society. We need also to re-acknowledge and accept our individual and collective responsibilities as Canadian citizens and give a winness of our continuing allegiance to our country.

our continuing allegiance to our country.

It is a good thing to be reminded that Canada is a land of which to be proud; that it is both a responsibility and a privilege to hold Canadian citizenship; and that all of us should treasure and protect that citizenship; are that a for us should treasure and protect that citizenship; are taken for granted and the responsibilities; which accompany these privileges forgotten allogether. Such satuation is a dangerous one and has 100 often lead to disaster where it has been allowed to continue.

About This and That

# A Contemptible Attack

Last week the Town of Digby and its people were made the objects of a contempthie and infamous attack which was carried in the columns of a weekly with a wide eircidiation across a considerable area of this country. The artiet to which we refer not only attacks the town and its people; it also, in our opinion, renders a definite disservice to the recruiting effort in the whole of Canada.

anada.

What official action, if any is contemplated to deal with the ricke, we do not know. We do feel, however, that statements uch as were carried in the article should not be allowed to go unablenged. To allow this would be natariment to admitting that up have allegations and conclusions, which the article contains,

are the truth.

To claim that Dighy is a town where no yice of any sort is a paragon of virtue would be rife. The state of the property of the post of

carefully constructed institution to seem to 'make disciplinary action difficult.

In its attack on Digby, however, this paper has made certain statements which it would seem to us, should be rhallenged. Damage could result, we feel, from the interence, that our hotels, "excluding the Digby Pines," are "flophouses" which practice at, "wholested disregard for regulations, liquor or otherwise." The claim that "Too often, HM.C.S. Cornwallis turns out a potential actobule rake as well as a solino" for which it is strated "Digby must accept the blame", is also a quite hald accusation. The inclusion by name of a well run, cleanly operated restaurant among what are classified as "unscrupulous bootreggers and restaurants" seems also open to challenge.

As we stated in a previous paragraph.to claim Digby mas completely without sin would be ridiculous. So also is to claim that there is a complete disregard for regulations, morats, etc., per complete the second of the results of the control o

people as lawless and criminal. With this is thing should be done to remely the matter.

# saved me days, perhaps weeks, of work"

After returning from his first trip to the West, a business man wrote his bank: "I arrived having no idea where to start in to make the connections I required. The thought occurred to me that perhaps the bank, which has been very helpful

to me on numerous occasions, would give me some guidance. Mr. W. proved to be of tremendous help. He

introduced me to the people I should have met and saved me days, perhaps weeks, of work."

Every chartered bank works this way. Whether you walk into your neighborhood branch or one a thousand miles away, you will find the same full range of banking service—and the same readiness to help.

 $\mathbf{I}^{\mathsf{T}}$  is  $\mathbf{N}^{\mathsf{T}}$  always the big things that cell you how downright good a car really is.

I good a car really is.

You'll none, for example, that this Buick has—not one—but
two sets of figures on its speedometer. There's pane for total
mileige, which almost all cars give you. And there's one
for trip mileage, found no all Busicks, but rare on other cars
carrying comparable price tags.

Then there's the way a Buick starts. No groping for a
starter button on the dash. You just push down your foot on
the accelerator pedal—and one motion does the whole job.

That's something alse found only one Buick-made and one

That's something else found only on a Buick—and we can give you a good guess what the reason is—it's a cosdier device.

And when you step on this combined starter-accelerator-boy, do things start to happen! That great-powered Firehall 8 Engine purts into action—and you're off with the steady swoop of a Diesel streamliner on the rails.

swoop on a Dieses streamliner on the rails.

Now, you discover something else, Buick's Million Dollar

Ride, Sure-footed on curves, level-gaited on the straight
away, steady and true on course—it's worth every dollar in away, steady and true on course—it's worth e cost in tools, engineering and special feature the magic of Dynasiow Drive.\*

What we are trying to tell you is this

water we are trying to ten you is mis;

No matter how you size up a 1952 Buick—by its features, its fabrics, the way it performs, the way it rides—or the cost per mile of operation—you find that nothing is spaced to make it the greatest buy it has been in years.

And that's doubly significant when you remember that Buick delivered prices start down at a figure that any new car buyer can easily reach.

How about checking this for yourself, at your nearest Buick dealer's?

is going to celebrate their 4th Anniversary on Saturday, June 21st, and we would like to have you help us celebrate, as we are going to offer you values you never thought could be possible. 4 years ago we started our store, with Men's and Boys (lothing and Footmegr. We started a Bargain Basement two years ago and we found we needed more room, so we induced our landlord to enlarge our store by 20 feet more upstairs and in the Basement, to allow us to serve our customers better. The buying public know value, and they know when they get good merchandise at flow prices. Margolian's can do it because we buy big quantities, therefore we buy it for less, and, of course, we sell it for less.

#### "The die has now been cast"

An American manufacturer was planning to open a plant in Canada. He considered various locations and found what seemed a likely site. He talked to a local bank manager, got facts about the community and its facilities. Some time later the company wrote to the banker:

"The die has now been cast. It is our intention to locate in S . . . We feel that it is well suited to our particular operation. You have been of great aid to us. Your accurate and rapid presentation of facts necessary to reach a decision was top-notch."

Such letters show how a branch bank serves not only its own depositors and other customers but how, by assisting business development, it benefits the whole community.
