Now and then a printing job had a save in parchment paper which required a special kind of printers' ink which smelled very bad some days. I always dreaded it when "Mac" would take you to the largest press in spite of the fact he always opened an outside door to lessen the odors on the constitutent.

One of the jobs I had to do, besides putting and printers devil on the staff, was to... I cleaned one and then... (one day not long after I started to get to the printing plant, I decided to clean the floor that apparently hadn't been cleaned for some considerable time.)

"J.J." came along and said, "how are you making out Vince?" I assured him that I thought I was beginning to see the floor. "J.J." laughed very heartily. He thought the remark pretty good and sensible.

Sometimes the gasoline engine, a piece of machinery would refuse to work, and the "Man" fix it. A man had patiently worked for a certain length of time to get it going again, without results. Man would then stand back and come over dramatically then he would immediately start working. "See," he would say, "all it needed was a bit of coaxing."

On other occasions when some people refused duty for the and, seemed to be brokenhearted, I would say, "use a little oil" and note again, after that I did it too. They often since, have I heard of the value of that remark and the actual need of "oil" in many life situations, applied at the right time, right place and in the right way.

Other things that sort of stick in my memory and come to mind now and then are, like the time I built "Mud" at four teenage boys who in the spring season of 1968 got together just before dark one evening and decided to utilize the newly built outdoor Pines Hotel swimming pool which had just been filled with water. Clothes were taken off near the road just east of the pool, nobody else seemed to be around either the four

Clothes were thrown out behind the pool; nobody else seemed to be around except the four boys, no thought or time for bathing suits, so in the pool they went. They stood on the edge of the pool and looked at the chilly water, one soon jumped in. The rest quickly followed and across the pool the steam "Mac" inflated to the story and hardly said anything, but the next "Digby Courier" had a good story on the episode. The heading of the story went something like, "Four Boy Seeps Officially Open Pines Hotel Swimming Pool." Who were the four? Many years later they are known as: the late Dr. Earl H. Anderson, veteran of two wars, second world war; Kurtz, was awarded the Victoria Cross; Sidney L. Smith, now prominent druggist; for many years in Digby; Clayton D. Snow, Digby wholesale dealer in hardware and myself.

As a young teenager I used to like doing some writing about different events interesting to myself and mostly for myself. One day, "he" said to me how about writing your version of the story told about "The Marooning of Jerome". I said I would and read at least two somewhat different versions about the man who was found marooned on a beach in some place on the French Shore of St. Mary's Bay, Durby County. When I read this man's tongue and toes cut out and his legs quite freshly amputated, were surgically well dressed and bound. He was treacherously left by some vessel before dawn one morning, all for some mysterious reason.

"Jerome" appeared to have been a man of some considerable social standing and considerable wealth. However, the man could not or would not say after being asked for by some family in the French who something that sounded like O'Connell either, you'd not, or, would that, who he was or why he was left there. It was, and is, one of Dugby County and different ideas have been put forward concerning this man. However, "Mia" was, I felt on a high level, different about this man. The man has been very well explored by people, and he was a sort of trouble who wanted where he stood.

From the files of the Chamber of January 22, 1967, the following account has been copied concerning India in 1965:

Adding a number of 60 newspapers which sent it to be friends is a copy of the Saint John Gazette of May, 1881, says the Telegraph and among other advertisements contained in the issue before us is one describing the town and township of Digby, and offering for sale certain lots in the town. In this area we are told the township of Digby "extends from the Gut of Cansimble westward to the extremity of the province of Nova Scotia, and contains about 124,000 acres." The town plot is then described.

The Town Plot is situated at the east of the township just within the entrance to Annapolis Bay, and twenty miles from Annapolis Town, and six miles distant from the head of H. Mary's Bay. This land, and not from the water's edge, partly is level ground, and partly on the declivity of a modern hill, dry and pleasant, and having on an eastern aspect a view of the Annapolis Bay, and its cultivated shores for twenty miles in extent, it terminates with the Fort and River's mouth at that name. It was secured by Leyden's train (New York) in 1645, the point of which went nearly to farther, as, moving to other countries, left the shore

free trade with the U.S.A., especially with the New England States. The question was then debated by some Digby High School students, one of which was J.J.'s daughter, Florence (now Mrs. Morton of Tibet, Prescott, Digby Co.). Some days after the debate a man from some part of Nova Scotia came to the printing shop looking for Florence, one of the successful debaters. I had the impression that this man was interested politically but, maybe I was wrong.

Well, I felt that I had learned considerable from my short experience at "The Wallis Job Print." I was learning to do beginner jobs, receiving some knowledge about things like embossing, stapling, perforating, counting, cutting and trimming paper stock, mixing inks for certain desired colors, and so forth. But, the only experience I had at setting type was just enough to make a "go," the printers name for a confused mess.

There was a taste of trying to do it all outside the plant. Work was a little slack one early fall day and so "Mac" said to me, "how about trying your hand at taking orders for petted personalized Christmas cards?" I tried it, made several calls around town, spent most of the time at one particular street town, spent much time and got an order, but

## CIVIC ELECTION RACE ON IN DIGBY

Digby town is assured of an election for three councillors on October 15. At present it is anybody's guess what three out of the five nominations will gain the day. By Monday of this week four nominations had been filed. The fifth was entered shortly before the five o'clock dead-line on Tuesday.

### PAUL WINCHESTER

Paul Winchester, who has been deputy mayor for a number of years has served on the town council for eight years. Born in Digby, he was the son of the late William Winchester, well known throughout the area as an esteemed manager of a trucking and transfer business. It was in this business that his son, Paul, was engaged after completing school and for 54 years until the present year when he sold the Winchester's Transfer. His entire life has been of service to the town in

one capacity or another.

Mr. Winchester has served on many committees during the years on council such as streets, police etc. His objectives are to finish up the sewer, paving streets and a new town hall. Water is another concern which in Mr. Winchester's estimation should come fourth in priority.

Mrs. Winchester is the former Laura Amero. They have five children; Lowell, a captain in the Canadian Armed Forces (Navy), Ronald, with Smith's Transfer, F.P.C., Freda, Mrs. Royal Woodworth, Granville Ferry, Lorna, Mrs. David Burnham and Loraine, employed at the Children's Home.

### JOSEPH HATTIE

Joseph Hattie, another candidate seeking election on October 15, has served on the Digby Town Council for seven years. He was born at Yar-

mouth where he completed his schooling and became a travelling salesman. He retired as a salesman in December of 1973 and feels that he can now devote his full time to council duties.

Mr. Hattie says he has enjoyed working with council for the past years and his priorities at present are to finish up the sewer, attend to the town water situation and get streets and sidewalks paved.

Married to the former Mable McIsaac of Yarmouth, they have four children; Donald, Digby, Rev. Father Joseph, chaplain at Dalhousie University, Joanne and Judith, Sackville, N.S.

### PHILIP ROBERTSON

Philip Robertson, born in Port Mouton has lived in Digby for twenty-seven years where he was associated with his father,

Bruce Robertson as Canadian Tire Corp. dealers and later managed the business on his own on his father's retirement.

Philip who has offered again to serve the town has had two years on the Digby Town Council. His aim is to upgrade the town generally but admits that there are some things which must get first place, such as paving streets, finish the sewer project and have concern for the town water.

Mrs. Robertson was the former Marilyn Denton. They have two married daughters, Heather, Mrs. Martin Field and Beverley, Mrs. Tony O'Neil, four sons, Philip and Paul, also Peter and Richard at home.

### GUY VANTASSEL

Guy VanTassel, a new comer to civic politics, was born at Mount Pleasant, son of Mrs. Orbin VanTassel and the late

Mr. VanTassel. His schooling was in Digby and where he settled thirty-one years ago.

Mr. VanTassel feels he knows what life is about because he was brought up through hard times and hard work. Mr. VanTassel's first job was with the National Sea Products until 1941 when he became employed by the Canadian Pacific Railway. This occupation was halted in 1942 because Guy joined the armed forces and served for three years. He returned then to the C.P.R., working at the federal wharf in responsible positions until the C.P.R. moved to its present location. Since then Mr. VanTassel has been clerk at the C.P.R. ticket office.

Mr. VanTassel is an honorary member of the Digby Volunteer Fire Department, having served on the Depart-

ment for 27 years. He also served on the Digby Branch Canadian Legion of which he had been president for one and a half as president.

Mr. VanTassel feels that the town needs improving. So many minor things have been neglected, he claims and which could be done without much difficulty. Streets, in particular were named by Mr. VanTassel as being most necessary.

Mr. VanTassel is much interested in labor, having been president of the Brotherhood of Railway Clerks from 1963 to 1971. He continues to be a member.

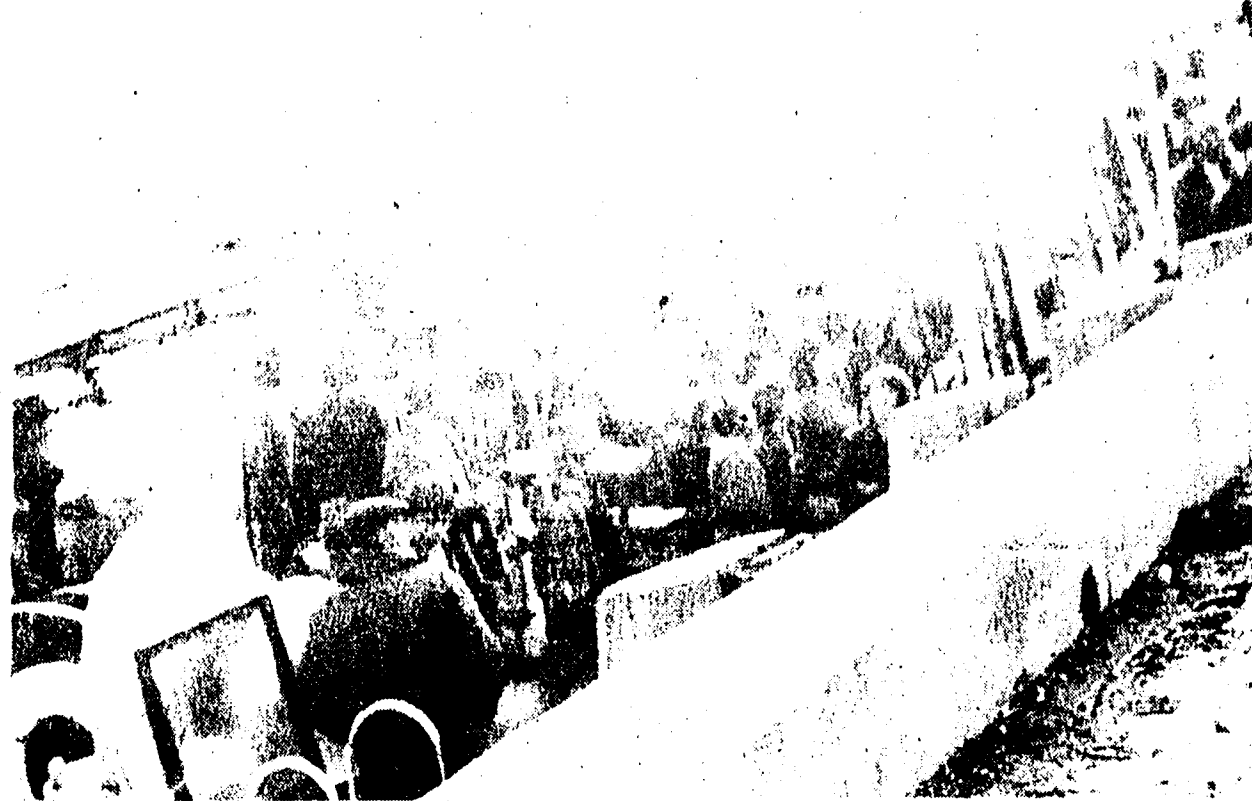

Mrs. VanTassel was the former Florence Handspiker. They have two children, Michael manager with the Metropolitan Store, Summerside, P.E.I. and Ronald, manager of the Digby Metropolitan Store.

### EILEEN CHIPMAN

The nomination of Mrs. Eileen Chipman was presented to Glen Pitman, town clerk, on Tuesday afternoon making the fifth candidate seeking one of the three town council seats to be vacant at the expiration of the terms of Winchester, Hattie and Robertson.

Mrs. Chipman, the former Eileen Baxter of Bear River, moved with her parents to Digby in the thirties where she clerked for sometime in her father's grocery store. Other occupations took her away from the town for some years but soon Mrs. Chipman returned to Digby where her interests were many; the one seemingly surmounting all others being "town affairs."

This is Mrs. Chipman's first time entering the candidacy for any level of government.

## Children Enjoy Bluenose Sail

With a wind at 65 knots an hour the schooner Bluenose II edged her way into the Fundy on Monday loaded with excited and happy Grade VII students. Three trips were made by Captain Skoje to accommodate approximately 190 students and their teachers. Students came from Digby town and areas

served by Digby Regional High School.

The famous Bluenose came to Digby on Sunday afternoon after visiting ports from Lunenburg and around the Western end of the province to Digby. In Digby His Worship Mayor Willard Kinney was on hand on Sunday afternoon to

greet the Bluenose II, its captain and crew and was on board for a trip on Monday when he bid them a safe voyage to the ship's destination.

Also greeting the Bluenose was Joseph Casey M.L.A. for Digby. A reception was held on board the craft on Monday evening.

Paying a return visit to members of the Killarney New Horizons group, a group of some 40 members of the Digby, Nova Scotia New Horizons arrived on Friday evening to begin a round of activity extending over the ensuing five days.

The first public function was a get-together luncheon held in the C.E. Building where visitors met new found friends of last month, when the Killarney group visited Digby. After the luncheon they were left to their own resources or were taken on tours of the town by their hosts. One group took advantage of an opportunity to visit the agricultural museum at Austin. This brought nostalgic memories to some who had been among the number of eastern harvesters to visit western Canada in the 20's when harvest excursions were an annual affair.

Sunday afternoon was one continuous round of activity as they set their own pace for visits to the J.A.V. David museum and a picnic lunch held in the C.E. Building. Originally it had been hoped that a picnic could be held at Erin Park, but the weather was a little too chilly for that purpose.

After the lunch a good number of the visitors took advantage of free aeroplane rides over Killarney, with some seven planes piloted by members of the Killarney Flying Club took visitors over the town and surrounding area. In the words of one of the visitors, who said, "Oh, I have never had such a thrill in my life. It was wonderful!" This

seemed to be the consensus of all who took to the air the early evening flights which continued up to dark.

About 10:30 Monday morning the visitors boarded cars for a visit to the International Peace Garden, which was to include a stop at Bower Lake camp for a feed of Irish Stew. The weatherman was in a co-operative mood as he provided almost ideal weather for the occasion.

Tuesday's program was arranged for the visitors to meet with the Friendly Circle at 2 o'clock and giving them the evening free.

Wednesday's schedule was possibly one of the most varied of their five day stay. The group was scheduled to leave from the Hobby Centre at 10 o'clock for a visit to the Hutterite colony between Ninette and Dunrea to be followed by a tour of the Pelican Lake Training Centre at Ninette arriving at the home of Dr. and Mrs. D. B. Stewart for lunch.

This promised to be something different, with the main course a Ukrainian dish, Borsch. Dessert included fruits akin to the region, Saskatoons, chokecherry syrup or buffalo berry jelly as a garnish for home made ice cream.

The final dinner was held in the Legion Hall at which co-hosts were the town of Killarney.

### SMITH'S COVE TRAVELLERS ENJOY TRIP

The Smith's Cove travellers, members of the Digby New Horizons group, returned home with glowing accounts of their trip to Manitoba, by air to Winnipeg and from there by bus to Killarney. Those from the Cove were: Mrs. Cecil Raymond, Mrs. Alice Landers, Mrs. Gerda Rice, Miss Dorothy Henderson, Mrs. Madge MacMurray, Mr. and Mrs. Oakley Smith, also Mrs. Fred Snow of the Joggins Bridge area.

From all reports, all were delighted with the tours arranged by their host New Horizon group and enjoyed excellent hospitality. On one of the tours they sighted buffalo grazing. The abundance of flowers around the homes was noted, not yet touched by frost, and the "foliage was just beautiful," quoting one of them, "though not as much red as we have here," as she had not visualized such sights would be seen in that area of the country.

One of the tours which they participated in, and which was the highlight for some, was the trip to the International Peace Gardens situated between Manitoba and North Dakota along the border of Canada and U.S.A. Here the architecture beauty of the Chapel was especially noted and appreciated as well as the serenity of the gardens. (See page 7)

## University Graduate Goes To Montreal

Robert McCarlie 21 son of Mr. and Mrs. Vincent McCarlie, received his Bachelor of Science Degree with honors from Acadia University at the Spring Convocation. He majored in computer science and mathematics. Robert is now employed by Minicomputer Business Systems Division in Montreal.

Beach, Victoria Beach is appropriate for the event as it was from there that the Pony Express travelled long years ago and Victoria Beach is where the cairn and plaque were placed to commemorate the mode of trade.

This year's rider will again be Harley Denton of Little River who will get the Pony Express ride on the go Thursday October 3 at nine o'clock a.m. Harley will be welcomed and sent along with good wishes by His Worship Mayor Willard Kinney, Digby, it is understood. Also expected there to see Harley take off is Joe Casey M.L.A., a native of Victoria Beach.

The first lap of the ride takes Harley 13 miles to the Dunrobin Camp Site when Debbie Milne will take off for Granville Centre. Sandra Milne picks up at Granville Centre and goes to Bridgetown Post Office. There will be an overnight stop at Kentville and ride completes on Friday night at the Joseph Howe Monument in Halifax.

The Pony Express ride is part of the second Joseph Howe Festival commemorating the man who was Lieutenant Governor of Nova Scotia and to whom it is felt did much for the freedom of the press and equality for all.

The Joseph Howe Festival begins today and continues until October 13.

## Pays Tribute To Dr. R.O. Jones

Tribute was paid to Dr. R.O. Jones, Professor and head of the Department of Psychiatry at Dalhousie University, by a number of prominent leaders in the field of medicine last week in Halifax at the annual meeting of the Atlantic Provinces Psychiatric Association. The occasion marked the 25th anniversary of Dr. Jones' founding of the residency training program in psychiatry at Dalhousie.

Among those paying tribute to Dr. Jones was Dr. A.H. Leighton, well known in the Digby area. In his tribute Dr. Leighton stated, "Dr. Jones' emphasis has been on quality training of clinical psychiatrists. He has been particularly successful in drawing here eminent people from all over the world to present their work and ideas".

Dr. Leighton, who was a classmate of Dr. Jones at Johns Hopkins University, said that Dalhousie University has one of the best psychiatric training centres in Canada. "It started with nothing and has developed, to turn out a lot of distinguished people".

Douglas B. Grimmer, son of Mr. and Mrs. Doug Grimmer, Digby N.S., who graduated from R.C.M.P. Depot Regina on Sept. 16th. He has been posted to Powerview, Manitoba

## 98 Years Old

On September 20 Mr. William Gower of Westport celebrated his 98th birthday. He is the oldest person on the Island, and resides with his sister Mrs. Melissa Comeau. Mr. Gower is able to get around and is in fair health for his age.

## Farewell to the Robertsons

A week or so ago a Departure Party was held in the Baptist Church Hall by the Digby, Hill Grove and Acaciaville congregations in honor of Donald and Cairine Robertson, The Robertsons have served the Digby area for the past seven years, and just recently Mr. Robertson accepted a call to Grace Memorial Baptist Church in Fredericton, N.B.

The evening program was co-chaired by Jack Brittain and Chester Levy, and included a rousing time of singing and a number of interesting contests that served to promote some good fun while helping those present to become better acquainted. At the end of the program Jack Brittain gave a short speech and presented the Robertsons with a silver tray and silver service on behalf of the congregations. There were several other individual presentations plus remembrances for Iain and Leslie.

On Sunday morning, September 29, the three congregations came together at the Digby Church for the Farewell Service. Flowers were placed by Inez Young and Ella Levy. Jack Brittain directed a time of congregational singing and Churchill Page led the body in prayer. Olive Pearce took the

Missionary Moment and gave a most interesting talk on the missionary, Cathy McGorman. Mark Woolaver was welcomed into the membership of the Digby Church.

The special music for the service included a trio by Karen Robertson, Janet Durkee and Joanne Frankland, "There's A World Out There"; the solo, "Shalom", by Joanne Frankland; the solo, "The Celebration Song", by Karen Robertson; and the choir anthem, "In Heavenly Love Abiding."

Mr. Robertson based his farewell sermon on Paul's farewell to the elders at Ephesus in Acts 20. In that portion Paul looked back over his years of ministry and reviewed what they had meant to him, he spoke briefly of the new task that awaited him in Jerusalem, and he gave words of caution to the church, closing with a final blessing and benediction. Following the same pattern, Mr. Robertson reviewed his seven years of ministry, speaking of his own personal growth and expressing appreciation to the congregations for their ministry of love to him that had enabled him to grow. He then spoke briefly of his call to Fredericton that he had accepted in the faith, that this was God's doing and that God would strengthen and sustain him in this new challenge.

He then issued words of challenge and admonition to the congregations that would be pastorless for several months, mentioning various dangers from within and from without.

Finally, he commended them to God and to the Word of His grace. The historic Gospel of Jesus Christ is the only sure foundation that will give courage and hope and purpose for this life and for the life to come. Let each one hold to a dynamic, joyous, uplifting, empowering, enthusiastic faith in Christ, and let nothing dilute it.

Following the singing of "Till We Meet Again," Donald and Cairine stood at the door to greet each one as they left.

The Baptist Churches have extended a call to Rev. Murray Shaw of Port Williams. Mr. Shaw will assume pastoral duties in December.

## 90th Birthday

BURTON SHORTLIFFE, Central Grove, Digby County, observed his 90th birthday Friday. He was a mariner since the age of 16 on the sailing vessels out of Freeport, before the days of the gasoline engine when the vessels were dependent on sail. Until the death of Mrs. Shortliffe in 1960, the couple operated the post office in the Long Island community. A son, Ivan, lives in Bridgewater; a sister, Mrs. Eunice Frost, East Ferry; and he has five grandchildren and six great-grandchildren

### BREAK, ENTER AND THEFT CHARGES

Charles Lewis Harlow and Maynard George Labrador, both of Bear River pleaded guilty on Wednesday, September 25 to a charge of break and enter and theft under section 306 (1) (b). The charge arose out of the incident on September 13 when the Bear River Aluminum Products was entered and guns were taken. The pair appeared on Wednesday at Annapolis Royal before C.J. LeBrun.

David Andrew Hatfield had the same charge regarding a break and enter in the Weymouth Drug Store which took place September 15. He pleaded guilty before Judge Philip Woolaver in Digby.

## Editorial

### IT IS OCTOBER WILL THE FORUM OPEN?

It is all very complicated but the fact is that the Digby Forum just might not open for this winter season. The Digby Recreation Commission is short of funds to repair the roof and to get an ice-making machine. If they borrow from the Chartered banks they need a backer and there is no provision in the town act whereby the town can give that guarantee. The only alternative would seem to be the issuing of debentures to which the town can guarantee security. We understand about \$12,000 is needed and there seems to be complications on every scene, according to Ricky Olsen, a school teacher, who is much interested in sport for the young people and children. Reginald Hazelton is chairman of the Commission and Mrs. Hazelton is secretary. Any of these people, we take it, would be happy to have your suggestions or help to get the complications ironed out and a start made on the children's program for the winter. May we hear from you?

### A PRACTICAL LESSON

We wonder how many of our Grade VII children had ever been on a "fishing schooner" before or even had the opportunity to see one of the schooners at a distance. Actually, a real fishing schooner has not been in Digby for some years and time moves backward a long way when schooners were built here in Digby and other parts of the municipality.

The trip for students on Monday on Bluenose II which was visiting here was practical education. The Grade VII students could see the style of craft and no doubt were introduced to the "hold", "aft" and "forward" and other fishing schooner vernacular.

Too bad the sails could not be unfurled so that the children could have seen how the Bluenose and other schooners had to operate before engine power became the driving force. A "full sail" schooner can plough through the water as gracefully as a bird flies through the air. However, fisherman had work to do whether or not there was wind for driving by sail, time was at essence and competition been for favorite fishing grounds. Power became the thing for all the fishing schooners.

We are happy to know that the school children were able to get some first hand information as well as to enjoying the sail on the Bluenose II, in port here on Sunday, Monday and Tuesday. A practical lesson on several scores.

### SURE, IT CAN HAPPEN TO YOU

One of the concerns in our modern times is fire protection for high-rise buildings. The world goes on building homes and factories, hospital and offices, all for the welfare and comfort of twentieth century luxurious living. The trend is up, up, up. The high-rise buildings have their merits, true, but ability to handling fires in them is not one of its merits. The high-rise buildings are subject to the same hazards as most other buildings with one added disadvantage; there are limits to how high the fire department aerial equipment can reach.

At that we leave the high-rise fire hazards and turn our attention to buildings in use in our area which practically omits anything of a high-rise nature. So, wherever you are, in your own home or office, make sure you are acquainted with escape and safety plans. Also see that babysitters, domestics or any other employees are also acquainted with these safety plans.

There are a few fire safety rules which every person should read and digest, such as:

If a fire starts don't use a door without testing it first to see that it's cool. Peek through to make sure the passage is safe.

Wrap a wet towel around your head and use only enclosed or outside stairways. Never an elevator.

If caught in dense smoke keep close to the floor. If caught in a room, seal the door with wet towels or blankets; then get to an open window or balcony. Close doors behind you to shut off the fire.

If possible call the fire department, give your name, address, apartment number, floor and location in building. Tell them you're on the balcony or at the window. Get some type of signal out, a coloured sheet etc.

You can help prevent fires too. Here are a few suggestions: Never throw cigarette butts into trash or garbage chutes. Get rid of small ashtrays and remember what the Fire Chief said, "Never, ever smoke in bed." Avoid using flammable paints or cleaners. If gasoline must be stored, keep it only in approved containers. Don't overload electrical outlets, keep extension cords from underneath rugs and use only 15 amp fuses for regular household circuits.

Don't be complacent where fire is concerned. Sure, it can happen to you.

## Hodge Podge

Keep matches away from children. You'd regret to have your carelessness bring death or injury to your child or destruction to your home by fire.

Wonder how many firefighters in the Digby area know that their children entering university can apply for the \$5,000 W.J. Scott Fire Prevention Memorial Bursary.

We might also mention a poster contest sponsored by the James L. Arnott Fire Prevention Foundation. One contest is for ages twelve and under, the other for seniors, age 13 to 19 years. Prizes in the junior section run from \$100 down to \$25 for the eighth prize and the seniors get \$200 down to \$25.00 for the eighth prize. There are other prizes too. Entries must be in by January 1, 1975 and winners will be announced by April 1, 1975. Why don't you try your luck if you think it's too much for your ability.

The hunting season is soon upon us. Surely there is no real need to advise hunters "Be careful, be sure of your target." But we are saying so. It makes us feel better to have done so with the hope that we might avert a barnyard animal disaster or more especially avoid the loss of human life. When it is too late, it is just too late. Caution is the by-word.

—Would be interesting to know if unemployment insurance is better in Manitoba than in Nova Scotia. "The labour shortage is terrible" writes our friend. "All the industries are crying for help and we could use hundreds of skilled or semi-skilled persons." This man's own plant needs about 20 more employees, he advises. Of course, too, they have read about all this unemployment in the Maritimes. Try to get some work done and you wait weeks and weeks here. Don't know whether this place in Manitoba is so much bigger than ours or the unemployment field is greener than ours.

—The Killarney Guide, the Killarney Manitoba, weekly newspaper, gave the Digby New Horizons group, which visited there last a good deal of space in type and pictures. In their "Cindy's Friendship Corner" described the group as a happy group who delighted in meeting new friends. In fact Cindy, in her column hints a bit of romance. We simply might have to keep in touch with Cindy if we want to keep up with the news. Besides we will have to send Cindy a copy of our paper with the song in it that was composed when the Killarney group was here. They didn't give a copy to Cindy.

Ever figure out the amount of money our chartered bus visitors leave in Nova Scotia. On the High Adventure Tours from Syracuse, N.Y. bus, carrying 40 passengers, came to Digby five times this past summer. The last time, just about a week ago, forty passengers landed in a down-town restaurant for a meal. That left a considerable sum of money there. Multiply 40 by five and you have 200 meals. Other meals in other places and other purchases, too, left no small sum of cash around.

See where Minor Hockey in Digby is calling for all kinds of helpers, coaches, referees, linemen, assistant coaches, time keepers, statisticians, fund raising and transportation personnel. Where do you fit best? Pick up the phone and call Frank MacIntosh. He's the Minor Hockey League president.

—There just isn't anything to it. All you have to do is put the "n" the other way up to make a "u" and then you have "Lauds Christmas Cabbie" instead of "Lands Christmas Cabbie." And then, too, you can bail water or you can boil water. Both sound sensible but what was really meant was boil.

—This business of calling meetings and "no quorum" arrives is frustrating indeed. Of course, what's worse is when there's a full quorum gathered and the one who calls the meeting forgets to show up.

—We heard someone say that next year is the 75th anniversary of the Digby Board of Trade.

—That Racquette Bridge area is becoming a traffic hazard area. Speed limits just before the stop sign coming from the ferry wouldn't indicate a stop.

### Potato Nearly Four Pounds

C.E. Lamberton, Barton, brought to The Digby Courier a potato weighing three pounds and nine ounces and measuring sixteen inches in circumference. Mr. Lamberton says he has grown vegetables for forty years or more and he had never seen a potato of that size. The potato, the Hedgewick variety, was grown in the garden of his neighbour, Lawrence Sabean.

### NOTICE TO RESIDENTS OF THE MUNICIPALITY OF THE DISTRICT OF DIGBY

The Municipal Council has requested a survey of need and demand for low-rental housing in the Municipality to ascertain if there is a proven need for low-rental housing in the municipality.

This proposed housing would be for families who are working or living in the municipality and whose present accommodation is inadequate; for example, it may be in bad structural condition, or lacking proper sanitary facilities or too small for the family, or too expensive.

The new housing would probably be two-storey of the duplex or semi-detached type (two units side-by-side). The size of the units would vary according to the needs of the tenants; there would be three and four bedroom units, should the need arise. Rents would be based on the total family income; that is, families with lower incomes would pay less rent. The rent would include stove and refrigerator.

The reason for the survey is to identify families whose present housing is inadequate and who wish to move into low-rental housing units.

## Letters To The Editor

Editor  
The Digby Courier  
Digby, N.S.

Dear Sir:  
At this time the public is being overwhelmed by reassuring statements as to the need, safety and benefits of nuclear power plants.

In the August 24 issue of the Saturday Review-World Jacques Costeau, concerned with the growing pollution of the ocean, which he terms the earth's "life reservoir", points out that most of the information we receive is influenced by the interest groups, and in all countries today the evaluation of the human impact by such activities as nuclear power plants, or by the company, involved in the production. He also states that research is funded, almost entirely, only if it fits the policy of today's government. "This," he says, "is especially true of the environmental field." So people have come to distrust the announcements made by their government agencies.

Most of us do not feel qualified to judge the validity of the propaganda fed us, but many knowledgeable persons are refuting it in print.

I have the permission of Audubon, the magazine of the National Audubon Society, to use some excerpts from an article in its May issue. This article quotes William E. Heronemus, professor of civil engineering at the University of Massachusetts. He is a retired U.S. Naval captain and had postwar service with the Hyman Rickover nuclear wolfpack. A concern for New England's economic future caused him to look into various sources of power and he is now interested in power from windmills. He is convinced that "The nuclear route is a one-way road to ruin," and says, "I'm no atomic energy expert, but I have had enough experience with reactors in submarine design and maintenance to know that there is no way they are ever going to make power reactors, both safe and economical. The supermen required to build the physicists' expectations simply do not exist in the United States—or anywhere else on the planet. These people are going to bankrupt us, and they're coming damned close to it right now."

The article continues. Besides worrying about nuclear power plants breaking our banks, blanching our brains and curdling our chromosomes, Heronemus frets over what is happening to the biosphere from all that heat released from nuclear and fossil-fuelled plants. As to a future supply of uranium, he states, "I've seen one article that suggests we will simply convert the entire White Mountains to piles of rubble to support our light-water reactors. People talk about there being uranium deposits available for a couple of hundred years...Man, they're talking about whole mountain ranges that will have to be

reduced somehow or other to ore from which you can extract that marvellous stuff!"

In the September 7 issue of the Saturday Review-World, A.Z. Roisman of Washington D.C. writes: Atomic Energy Commissioner William Doub claims that presently operating nuclear reactors have a capacity equivalent to 300 million barrels of oil per year. The problem with this statistic is that nuclear power plants are delivering only about sixty per cent of their capacity. Thus every 1000-mw nuclear reactor delivers only 600mw of power. Because each 1000mw nuclear reactor costs \$600 million, this means a net loss of \$240 million per reactor. By 1980, former Federal Energy Office Administrator William Simon predicted 200,000 mw of nuclear reactors would be operating. With their present cost and operating record, we shall have lost \$48 billion on nuclear reactors by 1980. Before we are irrevocably committed to the super-dangerous nuclear technology, we should carefully examine what \$48 billion invested in alternative energy-supply would do by 1980.

Shouldn't Maritimers have a voice in where their tax money is invested?

Yours truly,  
(Mrs.) Evelyn M. Richardson

The Digby Courier  
To the Editor and whom ever else it may concern.

Over the past couple of weeks I have been approached by quite a few people who seem to know a lot more about my personal life than I do.

According to these people I have been caught with two deer in my cellar on a Tuesday, the following Friday I was caught with two more deer in my car, and the following Sunday my house was supposedly raided by one of the Lands & Forests Game Wardens, who happens to have a car similar to that of a neighbour.

These accusations are totally false. I have never been caught hunting out of season, nor have I ever had in my possession deer

meat, obtained illegally.

I do not appreciate rumors which are out right lies being spread around, about me. How or where these filthy rumors started I do not know, but I will invite any game warden in Digby County to inspect my premises at any time, day or night which is more than a lot of people around would dare to do.

And to these people who have started or repeated these rumors I would personally ask of them to attempt proving these stories and get their facts straight before they embark their spare time upon destroying someone else's reputation.

Yours truly,  
Paul Weaver

### RUN-A-THON

Letter To The Editor:  
Mrs. Edith Wallis  
Editor

The Digby Courier  
Dear Mrs. Wallis—

The Grade 11 and 12 classes of Digby Regional High School have taken upon themselves, a project to try to raise enough money to purchase a video-tape. Digby Regional High is one of the few schools that do not have one. Take Annapolis and Weymouth for example, which are much smaller schools, each have one.

Unfortunately the Physical Education budget is not enough to purchase expensive equipment. A video-tape varies from \$2000 to \$3000. This machine would be beneficial to our program because we could have all the clinics out on video-tape as well as using it in class and coaching and being able to show the student's their mistakes on the replay.

Our project is a Run-a-thon from Yarmouth to Digby on November 9, 1974. Students will be going from door to door to collect sponsors for the relay which is 66 miles. The public would sponsor our team for so much a mile, one cent a mile being 66 cents and two cents a mile \$1.32 etc. To make this project successful your co-operation is of vital importance. We hope that you will support us in our goal so that our students can benefit from this important piece of equipment.

Freddie Miller

## The College Sainte-Anne's Artistic Calendar

The College Sainte-Anne is just about to launch its Artistic Season for 1974-75. The first event to appear on the calendar is a concert to be held on Tuesday, October 8, in the college chapel. This concert will feature two local choirs, the new College Sainte-Anne Choir and the "Chorale de la Baie Sainte-Marie", plus two local talented musicians, the folk singer Richard Deveau and the "village fiddler" Johnny Comeau. This concert is part of the concluding program of the French immersion period at the College Sainte-Anne. Curtain time is set at 8 o'clock and admission is free.

On Friday October 18, at Stella Maris Parish Center in Meteghan (the new parish church) the Neptune Theatre will present the musical comedy GODSPELL. This event is sponsored by the college.

The College Sainte-Anne is also reviving this year the JEUNESSES MUSICALES series, a series of four outstanding concerts. The first one featuring the harpist GRACE SUNG-EN WONG, will be held on Wednesday October 23. The second concert of the series will feature two artists, JAMES

CAMPBELL, clarinetist, and JOHN YORK, pianist. This recital will be held on Wednesday November 20. The dates for the two other concerts are set after Christmas, in March. The FRESK STRING QUARTET, from Stockholm will perform on March 5th. The ARCADIE FLUTE QUARTET from Paris will give a recital on March 20th. A campaign for the Jeunesses Musicales Series is just about to be launched, sponsored by the Clare Arts Council and the College Sainte-Anne. More information will be provided next week.

Other than these events, the College Sainte-Anne will sponsor a French comedy "CA BIGOTTE CHEZ BIGOT" presented by the theatre company "L'Hexagone" from the National Arts Center in Ottawa. Arrangements are under way also to organize recitals to be given by folk singers and a symphony concert by the Atlantic Symphony Orchestra.

As a reminder, take note that the first event is scheduled for Tuesday, October 8, a concert to be presented in the college chapel at eight o'clock by local choirs and artists. Admission is free.

## In Memoriams

DALEY - In loving memory of a dear husband and father, Blair Daley, who passed away Oct. 4, 1966.

My thoughts are always with you  
Your place no one can fill  
In life I loved you dearly  
In death I love you still  
I know you walk beside me  
And when my life is through  
I pray that God will take my hand and lead me straight to you  
Always remembered by his wife Bessie and family 8:1ip

GERMAINE - In loving memory of a dear mother, Mary Kathleen, who passed away September 29th, 1971.

In my chest of cherished memories,  
I locked up thoughts of you.  
Your smiling face, your tender love,  
And the things you used to do.  
And now and then when I'm alone

I open up this chest  
And spend awhile just thinking of  
The one I love the best.

You were travelling down life's highway  
The road was getting rough  
God saw you could not make it  
So he said that's far enough.  
Though you have gone before me.

Just linger at the gate  
God too will call me higher  
You won't have long to wait  
I know I have not lost you for that could never be.

You are only on a journey where  
God guards you constantly.  
Sadly missed and always remembered by daughter Lorraine, son-in-law Mike and grandsons, Mike Jr., and Mark. 8:1ip

SMALL - In loving memory of our father, Carl Small, who passed away on September 26, 1972.

The years have gone so quickly dear father  
Since you were called to heaven to be with God  
Your smiling face and memories are still with us  
We will never forget dear.  
Always loved and sadly missed by son, Kingsley, daughter-in-law, Marjorie and grandchildren 7:1ip

HANDSPIKER - In loving memory of mother Dorothy Handspiker, who passed away October first 1967.

Memories drift to scenes long past,  
time rolls on but memories last,  
like falling leaves the years slip by,  
but memories of you will never die.  
Always remembered by daughter Sylvia. 8:1ip

COOK - In loving memory of my husband, Curtis R. Cook, who passed away October 3, 1971.

Treasured memories keep you near.  
As time unfolds another year.  
No need for words except to say:  
Still loved, still missed in every way.  
Always remembered by wife, Meda. 8:1ic

SMALL - In loving memory of my husband Carl, who passed away, September 26, 1972. Always wonderful memories. Often silent tears. Always a secret longing. Wishing you were here. Always remembered by Wife, Hilda. 8:1ip

TIDD - In loving memory of a dear husband and father, Donald Tidd who passed away October 19, 1969.

I have lost my life companion a soul linked with my own  
And day by day I miss him more  
As I walk through life alone.  
But you did not go alone  
For part of me went with you  
The day God called you home.  
Lovingly remembered and sadly missed by wife Myrtle and family. 8:1ip

JORDAN - In loving memory of a dear grandfather, Reginald Joseph Jordan, who passed away September 30, 1971.

Silently the angels took grandfather  
Into the mansion above;  
There shall he rest from earth's toil  
Safe in the arms of God's love.  
Always loved and sadly missed by grandson, Robert Jr. 7:1ip

JORDAN - In loving memory of a dear father and father-in-law, Reginald Joseph Jordan, who passed away September 30, 1971.

Three years since the sad day  
The one I loved was called away;  
God took him home, it was His will,  
But in my heart he liveth still.  
God knew that he was suffering  
That the hills were hard to climb,  
So He closed His weary eyelids  
And whispered "Peace be thine."

Away in the beautiful hills of God,  
By the valley of rest so fair,  
Some day, we know not when,  
We will meet our loved one there.  
Always loved and sadly missed by son Robert, daughter-in-law Diana. 8:1ip

AMERO - In loving memory of Jamie Amero who passed away September 27, 1964.

'Tis well he will suffer no more  
In the loved land of the blest  
Pain fled as he trod heaven's shore  
It left him at peace and rest.  
Sadly missed and always remembered by Clyde and Sandra. 8:1ic

AMERO - In loving memory of Jamie Amero who passed away September 27, 1964.

Just a thought of sweet remembrance  
Just a memory sad and true  
Just the love and sweet devotion  
Of ones who think of you.  
Sadly missed and always remembered by Mom, Dad, Corinna, Lisa and Frank. 8:1ic

AMERO - In loving memory of Jamie Amero who passed away September 27, 1964.

Nothing can ever take away  
The love a heart holds dear  
Fond memories linger every day  
Remembrance keeps him near.  
Sadly missed and always remembered by Uncle Eric, Aunt Carol and Dean. 8:1ic

AMERO - In loving memory of Jamie Amero who passed away September 27, 1964.

We often sit and think of him  
When we are all alone  
For memory is the only thing  
That grief can call its own.  
Sadly missed and always remembered by Grampa and Grandma. (Anson and Jennie) 8:1ic

## Digby Striders Win

### Twenty-Four Hour Endurance Race

A team of ten runners from the South Western area, six of whom are from Digby were successful in running away with top honors in the first 24 hour rally race held in Eastern Canada.

The race was held in Dartmouth on a 400 meter track. Each runner on the team was required to run a mile at a time. This amounted to a total of twenty-six miles per individual runner, and a total of two hundred and sixty one miles for the team without a break.

The team consisted of David Lorramore, Robert Davey, Mike Theriault, Garnet Stacey, Pat Theriault, Ron Fraser, two runners from Yarmouth and two runners from Shelburne. In order to run 261 miles each runner had to average a time of 5:30 seconds per mile over the twenty-four hour period.

A relay of this type is a demanding event since it requires a great deal of endurance and strength. During the period it rained most of the day, making running conditions poor. It became a problem when one wanted something to eat,

since anything heavy would slow one down considerably. Most of the runners lost four or five pounds over the twenty-four hour period. Staying awake throughout the night was extremely hard, and it was very difficult to stay warm with the temperature dropping to 45 degrees.

Any person interested in running with the Digby Club should contact Ron Fraser, King St. or any number of the club. Cross-country is in full swing and more runners would add to the strength of the club. Any persons who enjoy running or who think they might enjoy it may join. Persons interested in recreational running and who would like someone else to run with are invited to participate.

Up coming cross-country meets:

1. Joseph Howe Meet, Halifax, Oct. 5
2. Provincial C.C. Meet, Auburn, Kings Co.
3. Atlantic Provinces C.C. Meet
4. Students will have the opportunity to run in three school cross-country meets.

## Oakdene Home And School

The first meeting of the new season of the Oakdene Home and School, Bear River, was held Monday, September 23rd. It opened with the singing of O Canada. Frank Marshall, president, introduced Donald Purgoyne, regional representative of the Continuing Education programme. Mr. Burgoyne spoke briefly about the Continuing Education system and the courses and opportunities available. Jean Marshall further explained what courses were available at Oakdene. Several people then registered for the available courses.

The main Home and School business meeting opened with everyone reading the Parents Code of Ethics. The president introduced the new Primary teacher, Sylvia Johnson. A parent count was taken and Mr. Boudreau's class won the book for the most parents in attendance. Minutes of the last meeting were read by secretary, Jean Peck and the treasurer's report was given by Anna Cox. Health convener Mrs. Brennan, reported that another successful dental clinic was held during the summer vacation and that the dentist would be returning again at a later date.

The meeting turned to old

business, which included discussions on the emergency lighting and the new sidewalk. A new slate of officers was then brought forward with several people returning to the offices they previously held. A new phone committee, consisting of Arden Cooper, Hazel Bell and Mrs. Jackie Trimmer, was appointed.

Several items of new business came up. Mrs. Marjorie Prime had been contacted by the Institute of the Blind for volunteers to collect for them.

Mr. Roscoe Cress, chairman of the Cub Group Committee, gave notice of his resignation. He stated that two other members of this committee had also resigned. A new chairman is being sought and two new members for the committee were appointed, Keith Wilson and Betty Hopkins. A vote of thanks to Mr. Cress for a job well done, was made by Phyllis Read.

The president explained the School Milk Programme to those present. He also informed that a Defensive Driving course and St. John Ambulance course were possibilities in the near future.

On motion of Kay Harris, the meeting adjourned to a lovely lunch served by the Tea Committee headed by Evelyn Steadman.

## Legion Donates \$950

The Ladies Auxiliary of the Royal Canadian Legion, Bear River, held their regular monthly meeting on Thursday, Sept. 26th, with 16 members present.

The Auxiliary had a busy summer; a tea, coffee and sandwich booth was held on Friday, Sept. 27th, showing a profit of \$102.00. The Auxiliary float won second prize in its category, many thanks to Mrs. Hensly who designed and did most of the work involved on the float.

The usual coffee and donut booth was operated at the Digby County Exhibition in August; the homemade donuts are always very popular and around 200 dozen are sold each year. There was also a raffle for a pair of beautiful pillowcases, and a "Money Doll", which was well patronized.

Following the regular business meeting, the Auxiliary joined with the Legion for a

joint session to discuss mutual aims. At this time, the Aux. President, Mrs. Lila Harris, presented the Legion with a cheque for \$500.00. This makes a total of \$950.00 the Auxiliary has given the Legion this year, to aid them in the renovation of the new hall. Grateful thanks was expressed by the Legion President, Arnold Banks.

The Ladies then retired to their own meeting where a successful "Silent Auction" was conducted by Mrs. Hall.

The next meeting will be Oct. 24th where members will enjoy a Hallowe'en Party, so come prepared for a spooky evening, ladies.

## To Address Mental Health Teach-In

## Dr. Alex Leighton Gets Honorary Degree

V.G. Cardoza and Mrs. Cardoza have left for Ottawa where they are visiting their daughter, Mrs. Owen Taylor and Mr. Taylor and Mr. Cardoza will attend a Mental Health Teach-In. Also attending the Teach-In will be Vernon Wessell and Rev. John Stokoe.

Mr. Cardoza will address the Canada wide group and lead discussions on how to educate and favorably impress governments on all levels with the needs of Mental Health associations.

Mr. Cardoza in June 1974 was given the highest award obtainable from Mental Health, Nova Scotia; the "Award of Distinction". The citation given Mr. Cardoza read as follows:

Victor G. Cardoza of Digby whose involvement in mental health and in the work of the Canadian Mental Health Association over a period of approximately twenty five years makes him eminently qualified to receive the Award of Distinction.

Since 1950 the name of Victor Cardoza has been associated with developments in mental health and human service at the local community level, the provincial level and more recently, at national and international levels. As a member of his local branch and as its President as a provincial board member and president and as a national board member, as a chairman of

many committees he has consistently and forcefully advocated for improved levels of care and treatment for all handicapped people; he has been the strongest advocate for the provision of services at the local level with the fullest possible support of citizens along with the professional worker in providing program direction.

Victor Cardoza's organizational ability has provided him with wide scope not only within the Association but in other organizations including Vice Chairman of the Nova Scotia Hospital Board, Chairman of the Valley Mental Health Planning Council, Chairman of the Regional Health Council Advisory Committee to the Nova Scotia Council of Health. He has initiated many projects which have benefited children, youth and senior citizens groups.

As a member of the Legislative Assembly of Nova Scotia Victor Cardoza used his office to speak out for better services and had the distinction of being the first member of advocate free medication for patients attending mental health centres.

As a professional newspaperman and writer Victor Cardoza's writings and concerns around mental health became widely known and influenced the pace of change for the betterment of the mentally ill and increased the level of awareness in many communities.

A strong advocate of the association as a "catalyst in cooperation with other voluntary and professional associations" Victor Cardoza's efforts have resulted in more cooperative endeavours in local communities and as a consequence better service to the people of his province.

As a pioneer in the field of mental health Victor Cardoza's determination and activities have overcome prejudices and myths surrounding the mentally ill and his leadership brought others to support him in his endeavours.

## Endorses Blood Donor Clinic

"They Give the Gift of Life" is the title of an article appearing in the September issue of "Readers Digest". It's author, not himself a Canadian, gives the Canadian Red Cross Society full credit for building the largest and most efficient volunteer blood donor system in the world. Incident after incident is cited in which life is saved thanks to the speed and accuracy with which while blood or its fractions can be instantly provided through the Canadian Red Cross blood banking system, with its newly computerized nationwide records of all donors and their types of blood. Not only Canadians benefit from this wonderful system, particularly from the Rare Blood Bank in Ottawa, which is part of the World Health Organization and, in emergencies, has supplied rare blood as far afield as Singapore.

"But the answer to the growing demand of blood lies more with the volunteer donors than with the system" sums up the article. "Thus far their response has been impressive", the author concludes. "It seems that giving blood has become part of the Canadian way of life."

Next week residents of the Digby area will have their semi-annual opportunity to play a part in this nationwide service. E.B. Tufts, Red Cross District Chairman, has announced that on Wednesday, October 16, the Fall Blood Donor Clinic will be held at the Lions Club Hall in three sessions: 10-12 in the morning, 2-4 in the afternoon and 7-9 in the evening. Mr. Tufts states that a quota of 225 donors has been set for the Clinic, and that it is urgent that this quota be met because of the recent shortages experienced by the Halifax Blood Bank, which have necessitated at least one emergency clinic. Another fact which makes this Digby Clinic of particular importance is the date, which follows the Thanksgiving weekend, and all too often the holiday accident rate calls for extra blood transfusions in the provincial hospitals.

In recent years the Digby Clinics have established an outstanding record of success. To maintain this record, it requires all our regular donors, plus a goodly number of first-time donors to make up for those who may be

Pauline Butlerwell At 9.00 a.m. on Thursday, October 3, the rain came down incessantly. Fog shrouded the North Mountain and the opposite shore of Digby Gut was only a gray outline.

A young rider, his horse prancing and pawing in impatience waited for the mailbags containing messages destined for the Joseph Howe Festival in Halifax.

Mr. Eric Tizard handed the saddlebags to Harley Denton of Little River, Digby County, and horse and rider were off on the first leg of the journey to Halifax.

The saddlebags contained messages from Mayor George Richardson of Annapolis Royal, Mayor McIsaac of Bridgetown, Mr. Allison Denton, representing the Municipality of Annapolis County; Historic Restoration Enterprises and Mr. Conrad Harroun, manager of the Royal Bank in Annapolis Royal.

There was also a copy of a letter written by Joseph Howe at the time he was Premier of Nova Scotia.

At the next stop, Dunrobin Campground, in Granville Ferry, a message from the Town of Digby was added to the mail by Mr. Joseph Hattie.

At Victoria Beach, members of Historic Restoration Enterprises served hot coffee, doughnuts and fruit to the many spectators, who came in spite of the rain to speed the Pony Express on its way. Historic Restoration Enterprises were hosts for this occasion.

Ladies in charming hoop-skirts of brocade, silks and prints, made glowing spots of colour in an otherwise dreary, wet day.

away or who have reached retirement of age. New donors from age 18 and up are urged to join in this life-giving and life-saving effort which actually requires little effort and only a half hour or so of one's time. The pint of blood which may mean the difference between life and death for someone else, will be replaced for the donor by Mother Nature in a matter of hours. You are urged to think of others and "Give that they may live."

The Digby Blood Donor Clinic is in reality an Area Clinic, and is held in Digby because that is the centre of the district which extends from Bear River to Weymouth, Digby Neck and the Islands. It is under the joint sponsorship of the Red Cross and the Lions Club, and is organized by a District Blood Donor Committee comprising representatives from the entire area: E. B. Tufts, Digby, General Chairman; Stewart MacNaughton, Digby, Vice-Chairman; Mrs. H. M. Warne, Digby, Publicity Chairman;

## Pony Express Rides Again

Gentlemen in costumes of the 19th century looked as if they had stepped out of the pages of history.

Commander Evan Petley-Jones President of Historic Restoration Enterprises, was particularly debonair gentleman, some of the ladies were members of the Joseph Howe Festival executive, Mrs. Marie Nightingale, President of the 1974 Festival, Bernice Sullivan, Carolyn Amiraull and Shirley Ellis were all in costumes of the 19th century, some with matching sunbonnets and snowy aprons.

Mr. Eric Tizard and Collins Baugild represented the Nova Scotia Stamp Club which designed the railway motif used for this year's Festival. Many spectators sported Joseph Howe hats and pins. Copies of the newspaper, The Nova Scotian, 1863, containing articles about the railway dispute and some very amusing advertisements were passed out to the Spectators. A program of planned events was included in the paper. Among those present were members of the Historical Association, including Mr. John Johnson and Mrs. F.C. Gilliat, who has been active with the Association for years, as well as a reporter for the Halifax paper and the Spectator for many, many years and Mrs. Arthur Tilley, New Horizons. Mr. Joseph Casey, M.L.A. for Digby County, representatives of organizations, towns and people who wished to be a part of the opening ceremony for the Joseph Howe Festival.

The first Joseph Howe Festival was held in 1973 and members of the Eastern Stock Horse Association, using their own horses made the long ride

Harold Emerson, Bay View, Red Cross President; Jack Walker, Digby, Lions Club President; Willard Kinney, Mayor of the Town of Digby; Lawrence Henshaw, Bear River; Ralph Cosman, Weymouth and Mrs. Ivan Moore, Freeport.

Further information regarding the Clinic, as to transportation or any additional details, may be obtained by consulting the nearest of the following Area Representatives: Digby—Jack Walker, President of Digby Lions Club; Linda MacIntosh, President of Red Cross Youth Group; Lawrence Henshaw; CFB Cornwallis—W.O. Cecil Shaw; Deep Brook—Robert Ecker; Smith's Cove—Mrs. Frances Berry; Barton—Mrs. Lloyd Grant; Plympton—Mrs. Walter Melanson; Weymouth—Ralph Cosman; Rossway—Mrs. Waters Comeau; Waterford—Mrs. Vincent Raymond; Sandy Cove—Mrs. June Jeffrey; Little River—Mrs. Eldred Frost, and Freeport—Mrs. Ivan Moore.

to Halifax from Digby.

This year the Association again made the Pony Express ride, with fourteen young riders, some of them girls making the 144 mile trip. For festival purposes the ride was reversed. The original Pony Express ran in the opposite direction from Halifax to Victoria Beach where a steamer picked up the mail, carried it to Saint John where it was dispatched to its destination by telegraph.

At Dunrobin Campgrounds the saddlebags were passed to

Special music is being arranged and will feature local and visiting groups.

## Firemen Have Busy Week

Digby Firemen had a full schedule of events for Fire Prevention week, fortunately not of an emergency nature. They began the week on Sunday with a Church Parade, and attended the 11:00 a.m. service at the United Church. Evacuation drills took place in all Digby Schools on Monday. Tuesday included an inspection and tour of Digby General Hospital, to familiarize the firemen with the inside of the building. Wednesday evening a banquet was served to the firemen and guests, followed by a dance. The rest of the week was scheduled for spot inspections of the various business buildings in town. We are sure that the citizens of Digby appreciate the efforts our firemen put forth to protect our lives and preserve our property.

## Digby Scouts Attend Alert

Digby scouts and counsellors were among the 560 scouts and 120 leaders who took part in the two day program of "Alert '74" held at Brown's Lake, Musquodoboit Valley. Attending were Rory Rogers, Vance Hazelton, David Riley and Gary Ellis, scouts and Donald Brown, project consultant; MacLeod Rogers, district council; Robert Ellis, scout leader and Robert Fulton leader.

Allan Smith who was assistant games director was pleased with the project and the high participation.

Officials were expecting 120 four-man teams and when registration was completed there were 145 teams which was beyond all expectations, Mr.

### FIRE SAFETY—CARELESSNESS

"Fire safety is anything but nonsense and yet," said Provincial Fire Marshal Robert Kerr. "it almost seems as though many people regard it as such. In spite of all that has been said, and written, and broadcast over the air-ways, we, in the Fire Marshal's Office, are continually faced with problems involving fires which can directly be traced to human carelessness."

Last year, for instance, according to Mr. Kerr, there were over 1,800 fires in the province. Of these, no fewer than 1,300 were fires in dwellings. Very few of them could be attributed to 'acts of God'. The rest, by and large, could be traced to wanton carelessness on the part of the homeowner, or on the part of some member of his family.

We all seem to have the unfortunate habit of dismissing most fires as unavoidable, as accidents, or as visitations of bad luck. We do not take the time in our daily routine to see what we are doing wrong—or are neglecting to do—that may start a fire.

Right at this season, for instance, Mr. Kerr asks how many have given thought to the household heating equipment? Has the furnace been cleaned and checked? Have the smoke pipes deteriorated to the point where they should be replaced? How close are these pipes to combustible material? And, so on, and, so forth.

Fire safety is everybody's business...including yours.

Make sure you are doing your part.

### SAFETY POEM FOR HOLIDAY DRIVERS

If every one who drives a car,  
Could lie a month in bed,  
With broken bones and stitched-up wounds,  
Or fracture of the head,  
And there endure the agonies  
That many people do,  
They'd never need preach safety  
Any more to me or you.

If every one could stand beside  
The bed of some close friend  
And hear the Doctor say "No hope"  
Before the fatal end,  
And see him there unconscious,  
Never knowing what took place,  
The laws and rules of traffic  
I am sure we'd soon embrace.

If every one could meet  
The wife and children left behind  
And step into the darkened home  
Where once the sunlight shined,  
And look upon "the Vacant Chair"  
Where Daddy used to sit,  
I am sure each reckless driver  
Would be forced to think a bit.

If every one who takes the wheel  
Would say a little prayer,  
And keep in mind those in the car  
Depending on his care,  
And make a vow and pledge himself  
To never take a chance,  
The Great Crusade for Safety  
Would suddenly advance.

Even the rain didn't dampen the smiles of these young people as the mail passed from rider to rider all through the Annapolis Valley and on to North Commons where a (staged) hold-up was foiled by police. Miss Barbara McGray took the last lap of the trip and delivered the mailbag right on time.

Although the Pony Express was only in existence from February to November of 1848, it left its mark, for from this, the Associated Press grew until it spanned the world.

From a town already rich in history we are proud to have been a part of the Pony Express whether that of 1849 or 1974.

### Letter From The Editor

To Julie Wong  
Digby, N.S.

Dear Julie and all the others from Grade III, St. Patrick's School, who sent us those gracious thank-you letters after your visit at the office of The Digby Courier. We chose to write our response to Julie for Julie anticipated a reply in her sentence. "If you want to write a letter back, here's my address, Box 963, Racquette Road."

Besides this was Julie's first letter she has written. It deserves an answer.

We were very happy to have Grade III St. Patrick's to visit us and know you liked the visit for all these people said they would like to come back - Karen O'Flaherty, Lynn Rhyno, Jeanie Brown, Jimmy Gillis, Mark Theriault and yourself. So glad the class learned so much from the staff who showed you around and thanks for expressing your appreciation. We have passed your messages along.

It was a pleasure for the staff to present each of you with your name in metal and that you are saving them as souvenirs. Karen tells us that her parents are going to buy her an ink pad. Others who mentioned the name

plates were Jimmie, Mark, Charlotte Winchester, Joanne Roope and Lynn.

Of course, we were quite flattered to have Jimmy Gillis to congratulate us on our 100th birthday. He writes "I will read every one of your papers."

We hope you can come again for Richard McVeigh is looking for the picture to appear in The Digby Courier and we believe

those are not available.

Charlotte tells us that she didn't realize there was so much hard work and long hours to make a paper for parents to read.

Julie, we won't be able to print all the letters of appreciation we received from your class but we hope this letter to you will let all the class and Sister McQuin know that we just loved having you.

## SMITH-TRIMPER

Clementsvale Baptist Church was the scene of a pretty summer wedding on August 3rd, when Marilyn Trimper, Bear River, became the bride of John Dawson Smith, son of Mr. and Mrs. Roy L. Smith, Springhill. Rev. C. Milbury officiated at the double ring ceremony. Organist was Mrs. Cleveland Dukeshire.

Given in marriage by her father, the bride wore a lovely empire styled gown of polyester satin with a flowing overskirt and long sleeves of Swiss chiffon and trimmed with a panel of Swiss lace appliques and seed pearls. Her cathedral length veil was held in place by a Victorian-style headpiece. She carried a bouquet of yellow roses, white carnations and baby's breath.

Miss Leslie Thompson of Windsor, Ontario, was maid of honor, and bridesmaids were Mrs. Carl Camick of Deer Island, N.B. and Mrs. Harold Murray, sister of the groom, of Halifax. They wore identical empire-styled gowns of white flocked nylon with a yellow underskirt, sheer butterfly sleeves and mandarin collar. They carried bouquets of white and yellow shasta daisies and baby's breath.

The flower girls, Miss Sherri Anderson, cousin of the bride, and Miss Jill Murray, niece of the groom, wore similar gowns of white underskirt and puffed sleeves. They carried baskets of white and yellow shasta daisies and baby's breath.

Hank MacDougall of Windsor, Ontario, was best man and the ushers were Greg Trimper and Alan Trimper, brothers of the bride. Kent Murray, nephew of the groom, was ring-bearer.

The mother of the bride wore an orchid gown with a white lace jacket, white accessories and a corsage of yellow roses. The groom's mother chose a gown and coat ensemble of green and white chiffon, white accessories and a corsage of yellow roses.

Following the ceremony, a reception was held in the Canadian Legion Hall, Clementsport.

For going away, the bride chose a two-piece rose suit, white accessories and an orchid corsage.

The happy couple will reside in Windsor, Ontario.

Out-of-town guests were from Windsor, Langton, and Oshawa, Ontario. Deer Island, N.B.; Halifax, Springhill, Amherst and Truro.

## LEWIS-COSMAN

At 3 p.m. on August 31st, the church of Christ, Weymouth was the scene of a pretty, late summer wedding, when Coleen Faye, second daughter, of Mr. and Mrs. Malcolm Cosman, Weymouth North became the bride of Ralph Patrick Lewis, only son of Mr. and Mrs. Gifford Lewis, Weymouth.

Reverend Merle Zimmerman officiated at the double ring ceremony and Mr. Floyd Gale provided the wedding music.

The bride looked radiant in her long empire-waist styled gown of white sheer nylon over layers of nylon tulle. The bib-styled yoke with high collar, the long narrow sleeves, which puffed to the elbow and the wide ruffle on the skirt were of embroidered nylon sheer and seed pearls. The gown was trimmed with white embroidered daisies which matched the one encircling her long flowing veil of white silk tulle, which was held in place with a white nylon flowered head-piece trimmed with seed pearls.

Her colonial style bouquet was of yellow roses and white mums with yellow ribbons.

Her maid of honor, Miss Deborah Clarke, Halifax and bridesmaids, Miss Marianne Cosman, sister of the bride and

Miss Elizabeth Lewis, sister of the groom were winsome in their identical long sleeved floor length gowns of pale yellow flowered light weight polyester trimmed with yellow nylon ruffles and ties. Their white wide brimmed hats were trimmed with a wide yellow nylon band.

Their colonial style bouquets with white ribbons were of white mums encircling a single yellow rose.

The groom, the best man, Mr. Jon Swim, Barrington and ushers Mr. Earl MacAlphine, Ellershouse, and Mr. Victor McCullough, Danvers were identically dressed in grey

tuxedos with grey velvet trim and yellow ruffled shirts accented with black trim and black bow ties.

The mother of the bride wore a two piece floor length gown of pale green polyester with flowered nylon sheer, long sleeves and a corsage of miniature pink roses.

The mother of the groom wore

a floor length beige polyester gown with long sleeves. Her corsage was of copper tinted carnations with orange ribbon.

Mrs. Earl MacAlphine, sister of the bride acted as hostess at the buffet style reception which was held in the church vestry and was also in charge of the

guest book.

Mr. Kenneth Smith, great uncle of the bride proposed the toast-to-the-bride to which the groom responded. Mrs. Wilfred Cosman, aunt of the bride saw to it that the guests were replenished with tea and punch.

Out of town guests were from Quebec, Cape Breton, Digby, Digby Neck, Halifax, Truro, Barrington, Yarmouth, New Germany and Lawrencetown.

The bride chose a black and white checked dress with white collar and cuffs and a corsage of pink miniature roses, as her

going away outfit.

**OUR JOB IS DEVELOPING BETTER CITIZENS**

For more than 75 years the Navy League of Canada has been helping young people to become better citizens.

The League sponsors Navy League Cadets for boys 11 to 13 years of age, and in co-operation with the Department of National Defence sponsors Sea Cadets for youths 13 to 18 years of age. In addition, training for Navy League Wrenettes (girls 13 to 18 years of age) is carried out in several centres.

The programs emphasize citizenship training combined with practical instruction in seamanship and related naval subjects. Training is normally carried out one night a week during the school year.

Sea Cadets have the opportunity to participate in special two-week general training and six-week trades training courses during the summer, and to compete for national-international exchange visits and university scholarships.

For more information on these programs contact the corps in your area:

## Public Meeting Held At Freeport

By Mrs. Virginia Crocker

A public meeting was held in the Community Hall on last Tuesday evening. This meeting was called by the Town Commissioners re the many forms of lawlessness taking place here in our communities. Many disgruntled citizens were heard voicing their disapproval over the events taking place here and wanting to know "what's to be done?" The meeting was chaired by Commissioner, Mr. Lloyd Prime with Mr. Sidney Hooper, Town Clerk and other Commissioners, Mr. Gordon Kinney, Mr. Hubert Thomas, along with our representative, Mr. Joseph Casey, M.L.A., and Sgt. Abel of the Digby R.C.M.P. Many incidents were discussed concerning breaks and entries, drunken drivers, speeding drivers, the many accidents, etc. It was generally felt that we are not getting the proper R.C.M.P. protection that we are entitled to.

In several incidents the police were called when needed and for some reason they did not

respond and so the persons breaking the law went on unhindered. On incident took place a week ago when a speeding car struck a parked car causing over \$1000.00 damage minor injury to the owner of the car who was inside same, causing two by-standers to run for their lives, hitting a telephone pole and snapping that off and proceeding on into the woods where it hit a tree and overturned. How the driver and companion escaped without injury no one will ever know as that car was wrecked. It is alleged the R.C.M.P. were called but they did not come. An accident report was filed the day after the accident and at time of writing no action taken that is known of. It was decided that we need protection from some source even if we have to supply our own. A further meeting is to be held when Tiverton and Westport are asked to have their representatives meet with us at a general meeting and plan what can be done. Mr. Casey has promised to help in what ever way he can to solve our problems and we hope that a solution will be forth coming very soon as incidents are still occurring.

"Fire prevention week, Oct. 6th to 12th, is set aside from the rest of the year to bring to the attention of the public the extent and underlying causes of preventable loss of life and property by fire," says provincial fire marshal Robert Kerr, in his annual fire prevention week message.

"However, fire prevention is an on-going, around the clock, fifty-two weeks a year necessity and should be regarded as such."

"Fire," contends Mr. Kerr, "is no respecter of persons. Over the past ten years 326 persons lost their lives in Nova Scotia due to fires - with no fewer than 44 lives having been lost in 1973 alone."

"The tragedy of it all is that most of the fires which do occur, 1,804 last year, and which are responsible for such appalling property damages, (13,000,000) are due to rank carelessness of one kind or another."

"Most of these fires," he continued, "could have been prevented had we realized that we cannot regard fire safety as nonsense. Instead, it is an activity which must be carried out the year around, and carried out by all members of the family."

"If a fire should occur in your home, get in touch with your fire department immediately. Delay in so doing may be disastrous."

"The main causes of fires, as determined by post-fire research and analysis are these:

- Smokers' carelessness;  
- Short circuits and faulty wiring;

- Defective and over-heated chimneys and stovepipes;

- Ignition of fat, grease or tar; and,

- Children playing with matches.

"Please help us, and yourself, by taking steps to prevent fires."

"After all, it can happen to you."

## Tiverton

Mr. and Mrs. Allen Prime who have been vacationing at their summer cottage in the area have returned to their home in Mass.

Mr. and Mrs. Alvertus Outhouse accompanied Mr. and Mrs. Lloyd Guier to Pleasant Lake where they enjoyed camping for several days. Enroute home they called on their cousin, Mrs. Sheldon Mailman (nee Eunice Guier of Tiverton) and Mr. Mailman.

Mr. and Mrs. Alvertus Outhouse attended the housewarming party given in honor of their daughter, Janice, Mrs. Leslie Lombard, Mr. Lombard and their son Tracy at Freeport.

In listing the names of the crew members of the Joshua Slocum, Roy Cossaboom's

name was inadvertently omitted. Sorry.

Would like to extend sincere congratulations to the present editor and staff of the Digby Courier whose time and tremendous efforts have been responsible in bringing this worthy newspaper to its 100th anniversary.

Would like to mention also the enjoyment derived from the anniversary issue of the Courier also the story of the "Tiny Tattler" which brought to mind many nostalgic memories of teenagers literally flocking to the Tattler office to observe Mr. Shortliffe and Mr. Cann perform the fascinating task of preparing the type for the next edition. To the most of us it seemed so incredible that those "tiny letters on a piece of metal" could create a newspaper even the size of the Tattler!

Gregory Perry, Frank Ossinger and Wayne Buckman were among those who left Sunday to go "up the country" where they expect to be employed as apple pickers.

**Meet one of the toughest fighters in Nova Scotia**

He's a firefighter. A highly trained professional, with a tough and dangerous job.

Last year, there were 1804 reported fires in Nova Scotia. Most of them in places where people live.

The majority of all those fires were caused by carelessness. Did you know that smoking caused almost 284 fires in Nova Scotia last year? The next major causes were short circuits and faulty wiring, defective and overheated chimneys, stacks and pipes, ignition of fat, grease or tar. Children playing with matches started 64 fires. Last year fires in Nova Scotia claimed the lives of 44 persons including 14 children. Fire injured 88 persons including 35 firefighters. The monetary loss as a result of fire was \$13 million.

How do you prevent fires? Talk to the fire-prevention experts. Visit your local Fire Hall, or contact the Fire Marshal's office. Remember, make your emergency escape plans now. Fire safety is everyone's business. Are you doing your part?

**A REASON TO LIVE, A REASON TO DIE** PG K-Tel International 92 Minutes Rel. Jan. '74

The Italian-made western is not dead, to paraphrase a statement once made by Ken Maynard. Far from it. The new K-Tel International is distributing this Italian-French-

West German-Spanish co-production which has names of James Coburn and Telly ("Kojak") Savalas. Getting equal billing is Italian actor Bud Spencer, who has progressed from vicious brutes to gentle giant in recent years. Some spectacular scenery and a few good twists compensate for the overly familiar tale, a variation on "El Condor" and "The Revengers" to cite recent examples. Director Tonino Valerii collaborated with Ernesto Gastaldi on story and screenplay, although the credits list Howard Sandford for story and Jay Lynn for screenplay. The twists include a religious fanatic who prefers hanging to Coburn's suicide mission, a seemingly gentle farm family which proves to be mass murderers and an impromptu celebration honoring the end of the Civil War. Valerii plays down the violence except for a rousing finale, while some important events take place off-screen. Savalas' part is secondary, his death being the most impressive scene. A Heritage Enterprise picture, produced by Michael Billingsley in widescreen and color. Riz Ortolani did a good score. English dubbing is adequate.

**STARRING: JAMES COBURN, TELLY SAVALAS, BUD SPENCER, RALPH GOODWIN, JOSEPH MITCHELL, ROBERT BURTON.**

**THE STORY: "Reason to Live, a Reason to Die" (K-Tel)**

Told in flashback is the story of how Fort Holman near Joplin, Mo., was recaptured from the Confederacy by a small band of renegades in 1862. Union Col. James Coburn had surrendered the fort of Major Telly Savalas, who it develops had held Coburn's son prisoner and later killed him. Coburn recruits seven condemned men to penetrate the fortress, buying their loyalty with a promise of buried gold. Only Sgt. Bud Spencer is actually on Coburn's side. The group encounters a farm family that has been killing strangers for their belongings. Spencer later saves the day by pretending that the war has been won by the Confederacy, when the men arouse suspicion in a small town. They depart during the resultant celebration, Spencer donning a sergeant's outfit. He masquerades as a Secret Service operative at the fort. Before Savalas can prepare his men, Coburn attacks. **THE LAUGHING POLICEMAN** 20th-Fox (3083) 122 Minutes Rel Dec. '73

Another in the current run of police-oriented action thrillers, this benefits from good detail and a hardworking cast, but it has a storyline that is a welter of red herrings and may confuse audiences far more than necessary. Walter Matthau plays the lead role with his usual quiet though likeable ways, and manages to give it a good deal of style. Bruce Dern makes his part of the traditional sidekick edgy and nervous enough that audiences may well wonder if Dern hasn't got something to hide. Stuart Rosenberg's direction is a bit on

## Centreville

**CENTREVILLE**—Mr. and Mrs. Reginald Shaw and friends of Saskatchewan visited his cousin, Mr. and Mrs. Loran Shaw a few days recently. Mr. Shaw a former native of Centreville has not been home for 30 years.

Several friends enjoyed a going away party for Joy Hersey at the home of Mrs. David Russell on Thursday afternoon. Gifts and money were received and refreshments were served by Rebecca

the arty side-reflections seen through a shiny toaster, lots of exotica on the San Francisco streets- but he does manage to get across some gritty details of San Francisco police work making this one of the more realistic police films to come along so far. The plot, however, is a little far-fetched in some of its main suppositions and leads to a much less explosive and rather more forced conclusion than anticipated. Extensive excursions into the sliemier aspects of San Francisco give the film some color. The action elements are strong and should get it a good audience response across the country. Produced by Stuart Rosenberg. Adapted by Thomas Rickman from the best-selling novel by Maj. Sjoval and Per Wahloo.

**THE STORY: "The Laughing Policeman" (20th-Fox)**

Shortly before midnight in San Francisco a gunman shoots up a local bus killing all the passengers but one. Arriving at the scene, police detectives Walter Matthau and Bruce Dern are shocked to discover that one of the victims is Matthau's partner, Anthony Costello. Matthau and Dern investigate all the other murdered people but don't get very far. A clue in Costello's pocket leads Matthau to believe that Costello was trying to follow up on a murder case Matthau had been unable to solve some years earlier. Though Dern is at first derisive of Matthau's theories and very put off by his taciturn personality, he finally agrees to help Matthau establish a connection between the slaughter on the bus and wealthy businessman Albert Paulsen who was the suspected murderer in Matthau's previous unsolved case. Learning that Paulsen is a secret homosexual, the two surmise that Paulsen would go to any lengths to keep his secret from being revealed. In color Restricted.

## Councillor Visits Ontario

Councillor and Mrs. J. Patrick Comeau have returned home after a two week visit with their son, John, wife Diane and three children of Manor Park, Ontario. Tours of the city, the Gattineau Country and participation in Bible study at St. Paul's University by invitation of Professor Walter Vogels, P.B., Ph. D., provided hours of most rewarding experiences. A tour of the library at St. Paul's University, conducted by Dr. Vogels, was most appreciated by Mr. Comeau. A note worthy of expression, it is felt by Mr. Comeau, is with respect to beautiful Manor Park. Here, lawns extend to meet wide paved streets (no sidewalks) and no curbing, indicative of the respect motorists have for personal property. Well kept hedges, flower arrangements, lawn statuary etc., apparently unmolested, say very much to please one here. Such observations, Mr. Comeau feels, are in keeping with the interests he has for the town of Digby, where he shares the responsibility of helping to bring about a greater appreciation of our town.

## Bridal Shower

Forty-five guests gathered at the Smith's Cove Meeting House to shower Miss Joy Adams with many lovely and useful gifts at a Bridal Shower on Saturday evening, Oct. 5, given by Mrs. Brenda McCleave and Miss Cathy Adams. Miss Adams opened her gifts beside a pastel green and white decorated table, assisted by Miss Darlene Thompson, who read the cards.

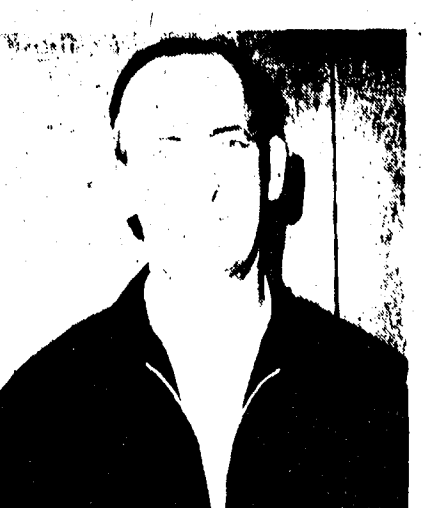

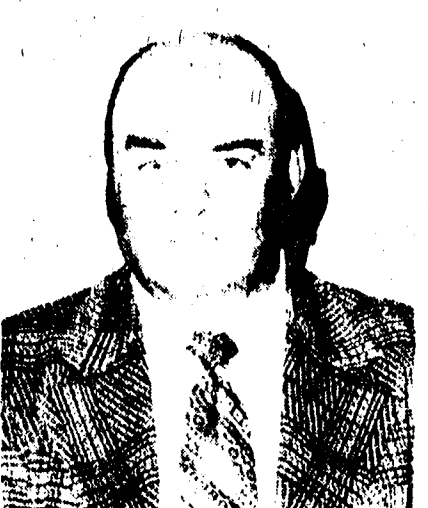

During the evening, a willowisp was passed around for all the guests to autograph for a permanent record of this event.

A beautifully decorated cake, given by Mrs. Jean Robbins and Mrs. Noel Everett, highlighted the lunch served by friends and neighbours of the bride-to-be.

Miss Adams, daughter of Mr. and Mrs. Garnett Adams, is to marry Neil Robbins, son of Mr. and Mrs. Glendon Robbins, on October 19.

## 90 Not "20"

Our apologies to Mr. Fritz Dakin for a typographical error which states he has only reached the twenty year goal. Mr. Dakin is actually 90 years old, but of course, you're only as old as you feel.

With approximately one third of Digby's eligible voters going to the polls on Tuesday, two new councillors were elected, and one re-elected. Leading the race was Eileen Chipman, with a recorded 354 votes, followed by Philip Robertson with 352, and Guy VanTassel with 294. Unsuccessful candidates were, deputy mayor, Paul Winchester, who received 270 votes, and Joseph Hattie with 215. A total of 525 ballots were cast, and of these eleven were spoiled. This is the first time for Mrs. Chipman and Mr. VanTassel to enter the candidacy for any level of government, though both have been active in civic affairs. Mr. Robertson has served the past two years on the Digby Town Council.

## Organist Honored At Sandy Cove

On Saturday September 28th at 2:30 p.m. members of Zion United Church, relatives and friends gathered at the Community Hall to honor Mrs. R.W. Sypher who has been church organist for over sixty years.

Mrs. Sypher is the former Glene Morehouse, third daughter of the late Mr. and Mrs. Ernest D. Morehouse, Sandy Cove. On Friday September 27 she celebrated her eightieth birthday.

Mrs. Sypher was completely surprised when told the party was in her honor. Miss Anna MacKay presented her with a corsage of pink and white carnation. Mrs. Sypher's only daughter Mrs. Clifton Sparks (Avis) Ottawa and Miss MacKay stood with her to receive the congratulations of those gathered for the occasion.

Mrs. Sypher was then escorted to the head table where the guests were her daughters Mrs. Sparks, granddaughter Joanne a student at Acadia University, Wolfville, grandson Gary, student at Carleton University, Ottawa, brother Hugh and Austin Morehouse Sandy Cove, Mrs. C.H. Saunders (aunt Sadie) Sandy Cove, and Mrs. Frank Saunders (Nana Cook) Dartmouth, the latter two being the oldest members of Zion United Church.

Mrs. Reginald Berry, California U.S.A. and a summer resident of Centreville, N.S. and Mrs. William Dixon, Yarmouth and a summer guest at

Sandy Cove for many years rendered vocal solos Mrs. Berry chose "When Song Is Sweet" and accompanied by Mrs. Hugh Morehouse. Mrs. Dixon sang "There Is A Lady Sweet And Kind" and "An Old Fashioned House". She was accompanied by her sister Mrs. Albert Werenfels, Montreal and Sandy Cove. Mrs. Werenfels also played a piano solo "A Shubert Impromptu "Key of F Minor." Letters of congratulations were read from former ministers of Zion United Church for whom Mrs. Sypher was organist. They included Rev. William Forsythe, retired Summerville N.S., Rev. R.H.H. Barker retired, Amherst, N.S., Rev. Ralph Knock, Canfield, Ontario, Rev. Bruce MacMartin, Cagaya, Ontario, Rev. Fred Withers, retired, Musquodobit Harbour, N.S., Rev. Ronald Cameron, Brookfield, N.S. Rev. Eric Fullerton, Cornwall, P.E.I. and Rev. William Armitage, Calgary, Alberta. Greetings were also read from Mrs. Sypher's sister Avis, Mrs. George Mutch, Grimsby, Ontario; her brother Winston Morehouse, Danbury, Conn., and brother Blair Morehouse, Saint John, N.B., who were unable to be present. Rev. Berry proposed a toast to Mrs. Sypher and all joined in singing "Happy Birthday".

Rev. Ronald Stevens, Digby minister of Zion United Church presented Mrs. Sypher with a Westminster Chime Mantle Clock from the church and friends. In his presentation Mr.

Stevens said the clock was not a reward but a token of gratitude and related the characteristics of the clock to Mrs. Sypher. First: the chime reminds one of the music which she rendered, second the two hands reminds one of her two hands so meaningfully translating the hymns of praise to Almighty God, thirdly the regular way in which the clock works reminds us of her regular attendance and faithful service. In closing Mr. Stevens said the clock was to remind her of how very much her faithful service was appreciated and the high esteem in which she is held by her many friends.

Those who assisted Miss Elizabeth McCullough and Mrs. Weldon Trask, a niece of Mrs. Sypher who arranged the party were Mrs. Osborne Morehouse, Mrs. Richard Denton, Mrs. Victor Titus, Mrs. Lorne Titus, Mrs. Lauriston Tidd, Mrs. Fenwick Jeffrey, Rhoda Titus, Jennifer Morehouse, Donna Trask and Mrs. Steven Wilson.

Those attending from out of town were Rev. and Mrs. Berry, Mrs. Harley Dakin, Mrs. Lorne Titus, Mr. Guy Outhouse, Centreville, Mr. and Mrs. Bernard Foster, Mrs. Margaret Saunders, Mr. and Mrs. Steven Wilson, Dartmouth, Dr. and Mrs. Ronald Morehouse, Montreal, Dr. and Mrs. Homer Brayton, Milton, Mass., Mrs. Richard Eastham, Cambridge, Mass., Mrs. Frank Larche, Mrs. Constance Connell Digby, Mrs. Lauriston Tidd, Little River, Mrs. Clifton Sparks, Gary Sparks Ottawa, Joanne Sparks Wolfville, Mr. and Mrs. Wm. Dixon, Yarmouth.

Mrs. Sypher's older grandson Bruce Sparks C.C.G.S. "Hudson" was unable to attend. Her husband the late R.W. Sypher was a well known local business man.

## Eleven Platoon Presentation

The men of Eleven Platoon, "C" Coy have done it again - the Digby Children's Special Training Centre was presented with a very generous contribution Thursday, 3 October 1974. Following their graduation coffee party at the Green and Gold the complete platoon boarded a bus to make the presentation in person.

Seventy men strong, dressed

in their best "spit and polished" finery with an air of pride and happiness in their latest accomplishment accompanied by MCpl E.W. Page, the children greeted their visitors. Many weekend, off-duty hours were spent at the Special Training Centre helping when necessary, playing games and even teaching the children new skills.

Toys and games were always brought along to add to the enjoyment of the children.

This is not the first time for such a presentation from the men of Eleven Platoon and possibly not the last. Congratulations once again for this outstanding show of civic participation by members of the Canadian Forces.

## Editorial

Last Monday a small child stood looking at a table laden with all the "festive goodies" of the season and remarked, "Boy, am I ever thankful for Thanksgiving!" I wondered just how many others, adults as well as children, had the same feeling - thankful for Thanksgiving because it meant an abundance of things we normally might not enjoy.

By the time this reaches our readers, even the "scraps" of the turkey will be gone, but we hope the feeling of thankfulness will remain. We, of all people on this earth, have much to be thankful for. Right now we have the gorgeous fall scenery which so many take for granted. Thus far we have had no catastrophic weather to deprive us of our homes, and our people are not starving to death. We can speak our feelings without fear. And this week we had the opportunity in Digby and some other areas of going to the polls to select our civic leaders. These are but a few of the items on a never-ending list.

It has been noted that the unhappy people are those who refuse to be grateful. If you think you have nothing to be thankful for, look around you and you will be sure to find someone in worse circumstances than yours. And, if you have nothing else to be thankful for, ponder the words of this poem:

### SAY THANKS

Did you ever say "Thanks" to your Maker?  
Did you ever say thanks for your sight?  
There are many who never see flowers  
There are those who know nothing but night  
There are many who never see springtime,  
Or a change of the leaves in the fall  
So, when you see the dawn of the morning,  
To your Maker say "Thanks" for it all.

Did you ever say "Thanks" as you listen?  
There are many who can't hear a song.  
Never hear children's voices in laughter,  
And their silence in ever so long  
Never hear whispering winds in the tree-tops  
Or the sound of the robin's sweet call  
So, when you hear the voice of your loved ones,  
To your Maker say "Thanks" for it all.  
Daniel Thomas

### "O CANADA" TO BECOME OFFICIAL ANTHEM

OTTAWA - A revised version of "O Canada", which will become Canada's national anthem, was introduced in the House of Commons on October 4, by Secretary of State J. Hugh Faulkner.

There are differing accounts of the origin of "O Canada", but all agree that the anthem was written well after Confederation, that the French version of the words preceded the English, and that the music was composed by Calixa Lavallée in 1880.

The new English version of the anthem reduces the repetition of the words "O Canada" and "stand on Guard". Lyrics of the official English version follows:

O Canada! Our home and native land!  
True patriot love in all thy sons command.  
With glowing hearts we see thee rise,  
The True North strong and free!  
From far and wide, O Canada, we stand on guard for thee.  
God keep our land glorious and free!  
O Canada, we stand on guard for thee.  
O Canada, we stand on guard for thee.

### Nova Scotia

### Song Tune -

I'M FOREVER  
BLOWING BUBBLES

We have left dear Nova Scotia  
Lovely Province by the Sea.

We've come so far  
But here we are  
By bus or plane or sun or rail.  
New sights ever viewing,  
We've looked everywhere.  
Yes, we've reached the golden  
Prairie,  
Manitoba, O so fair!

We are all so very happy  
To be here with you to-day.

Our friends so dear  
You bring us good cheer,  
And we will think of you alway  
Manitoba, most delightful  
Land of beauty, rich with grain.  
We are all Canadian subjects,  
May our homeland strong  
remain.

New Horizons ever beckon  
As we walk the sunset trail.

We are often told  
That were not so old  
So we have travelled far and  
bold  
May life take new meaning  
May our spirits lift and then  
As the years go by, so busy  
Let our efforts never end.

We will soon be going  
homeward  
But will leave you with a sigh.

New friends we've gained  
As with you remained  
And so we dread to say good-  
bye.

As the years go onward  
Let us hope to meet again  
For we know life's greatest  
treasures  
Are the smiles of dearest  
friends.

### THANKSGIVING DAY Editorial

This is a day of thanksgiving over the enthusiasm. A day earlier than usual has been selected for which to the powers that be, have seemed sufficient. We thn on the whole it is better to have it in October than in November, providing it is celebrated then by thankful hearts. As individuals as a people, we have cause enough at any time for the deptitude for the many blessings we receive. The only objection seen urged against this earlier date, is that the turkey, especially set apart for the thanksgiving dinner by our Anceusins, is not then in as good condition as he will be later is is a strong reason especially to those who can afford to tkeys and are gastronomically inclined. Thanksgiving day mean more to us than a day for a good dinner. Let all whosomeble with grateful hearts in one of God's churches andp to Him the tribute of praise and gratitude.

The town council was presented with an esd \$1000 for a new fire hall, or \$2500 for a general two bundclnding fire hall and chamber, court room and clerks' office. If these estimates were high, and one person estimatere hall could be built for \$600.

## New Levy's Rexall Officially Opens

The new Levy's Rexall officially opens today giving downtown Digby the convenience of a modern, well equipped drug store. The official opening is being held in conjunction with the annual 1 cent sale, along with other special promotions.

The location, the former Shortliffe's Grocery property was purchased for planned expansion in 1973. Basic planning drafts were done by Patrick Comeau of Digby and the steel plans by Robb Engineering of Amherst. The expansion was started in January of this year with the erection of steel in late March. The building was completed to a state where the store could be moved in August, with the main store being moved first; followed by the dispensary. The new selling and dispensary areas cover over 2000 square feet, as compared to approximately 900 in the old building. The dispensary itself covers 360 square feet, making it one of the largest in the area.

Levy's has a dispensary staff of two full time pharmacists. One full time certified clerk and one part time clerk. In June of this year they initiated a "Sunday Opening" with hours 10 a.m. to 3 p.m. This Sunday routine is now an alternate Sunday basis with the same hours. The old location of Levy's Rexall is now occupied by The Village Wool Shop, which adjoins the new drug store building.

Mr. and Mrs. Ted Morrell entertained about 20 people on Friday night at a Corned Beef and Cabbage Supper, this event taking place at their Camp "Ponderosa". These people were either members of the cast of the play held "Old Home Week" or part of the entertainment for that event and their wives or husbands. The comment from some of the guests was "I ate too much as everything was delicious". So, Melda and Ted, your dinner was a huge success.

Congratulations to the newly weds Olivia Howard and John Small, who were married at Central Grove last Wednesday afternoon. A wedding reception was held in the Legion Hall, Freeport with the Ladies of the Women's Auxiliary doing the catering for the event. About 50 guests were present.

Bunker - Larkin

The Tiddville Pentecostal Church was the scene of a largely attended candle-light wedding on Sept. 20th honoring Pamela Dawn Bunker, daughter of Mr. and Mrs. Clifford Bunker, of Tiddville and Ronald Malcolm Larkin, son of Mr. Malcolm Larkin of Argyle, Yarmouth County. Rev. Eldon Jagoe performed the double ring ceremony.

Mrs. Bailey Gidney of Sandy Cove was organist and her father Mr. Shirley Tidd was soloist who rendered two selections "The Voice that breathed 'Oer Eden'" and "Each for the Other."

The bride was given in marriage by her father and chose a floor length gown of white lace accented with a dash

of pink on the waist band and cuffs. The veil was shoulder length and hung from a crown of flowers and rhinestones. She carried pink miniature sweetheart roses and baby's breath.

Miss Cathy Bunker sister of the bride, wore a floor length flocked organza dress of ice orange complimented by white velvet ribbons. She carried a nosegay of ice orange carnations.

The bridesmaids were Holly Bunker, sister of the bride and Sherry and Cindy Gidding of St. John, N.B., cousins of the bride. They wore identical gowns of nylon in shades of pink, blue and green complimented by white. They wore white velvet ribbons in their hair and each carried

nosegays of matching carnations.

Julie Bunker, three year old sister of the bride was the flower girl. She wore a long yellow nylon gown and carried a basket of mixed flowers. She was led down the aisle on the arm of her cousin, Brent Newell who was the ring-bearer.

The groom was attended by Charles Merritt of Mink Cove as best man. Mark Theriault, a friend of both, Darrell Bunker uncle of the bride and Michael Newell cousin of the bride were ushers.

The bride's mother wore a floor length checked tweed crimp knit gown. Her accessories were white and her corsage was colored to complement her gown.

The groom was received by his grandmother who wore a pale green dress, with white accessories and corsage to match.

Following the wedding the reception was held in the church basement. The toast was given by Hantford Raymond to which the groom responded. Grace was said by Rev. Eldon Jagoe.

The bride's table was attended by Mrs. Carolyn Penny of Yarmouth sister of the groom and Mrs. Walter Gidding of St. John, N.B. aunt of the bride.

Mrs. Ernest Newell and Mrs. Eddie Tidd aunts of the bride poured. Relatives and friends served the guests.

The young couple plan to take up residence in Tiddville.

## Digby Native Aims For Olympic Refereeing Job

Brad Barton, vice-principal of Graham Creighton High School embarked on a journey Saturday that just may land him a position in the 1976 Olympics as an international volleyball referee.

Barton, a 29 year-old father of one has afforded himself the opportunity to become one of only two internationally recognized referees in Canada after only seven years of volleyball officiating.

Barton, native of Digby traveled to Mexico to referee in the 1974 World Volleyball championships and if he passes his practical examination which involves refereeing five international matches under the scrutiny of a panel of judges, the Montreal Olympics will become a reality.

He was selected for the Mexico trip as a result of his outstanding performance at a recently held International Volleyball Officials clinic in Toronto where he placed in the top two of refereeing hopefuls from Canada, Nigeria, Korea and Costa Rica.

Barton's selection to referee in the world championships qualifies him as an official international candidate and barring any unforeseen misfortunes he should join Dr. Gilles Fortin of Montreal as Canada's only other internationally recognized volleyball official.

He has been in the teaching profession for 10 years, six as a physical education teacher, one as an elementary teacher and three as a vice principal. He received his national referee's badge in 1970 and during the past four years has been a referee at national volleyball championships throughout Canada.

In 1973 he attended the North and Central American zone championships in Tijuana, Mexico which incidentally were a pre-requisite to being selected to qualify for the Toronto clinic.

This summer he was once again active in international circles as he refereed a number of games between the Canadian and Chinese national women's volleyball teams in Calgary during the month of June.

Barton who played high school and college volleyball, said that making the Olympics in any capacity would be just as rewarding for him.

"So far the pressure has been tremendous at the clinics I've attended, but I have noticed quite an improvement in my officiating during the past couple of years and if I get over

the plateau in Mexico, I'll be looking forward to 1976 Olympics as one of the highlights of my life."

Barton who is representing Volleyball Nova Scotia and is being sponsored by the Canadian Volleyball Association will resume his teaching duties when he returns but also will conduct a number of refereeing clinics throughout the province.

Volleyball enthusiasts and sporting figures in general will be hoping that Mr. Barton makes good in his quest to attain the highest of sports pinnacles, the Olympics.

## Three Attend Teach-in

A National Teach-In, sponsored by the Canadian Mental Health Association will take place at the Chateau Laurier Hotel in Ottawa, on October 16 to 18, 1974. Entitled, Community Action for Troubled People, its aim is to teach skills of social action to members of the Association as well as community groups so that both can work more effectively to bring about changes on behalf of troubled people in Canada.

Attending from Mental Health-Digby will be Vernon Wessell, president; V.G. Cardoza, past president who will participate in the program and Rev. John Stokoe, Bear River.

Techniques and skills developed during the Teach-In will be applicable to a wide range of community problems, including the need for rehabilitation services, abuses of alcohol and drugs, emotional and mental disorders among children and the pressures of family life. One goal of the Teach-In is to improve a community's ability to cope with such problems.

Participation in the Teach-In is by invitation only and limited to 500 delegates representing both the CMHA and other organizations or groups in the community. Delegates are expected to be both interested and involved in the needs of troubled people before coming to the Teach-In since they will play key roles in implementing a two-year follow-up program of social action in their communities. This is, in fact, a personal commitment asked of each participant.

M. Claude Castonguay, former Minister of Social Affairs in Quebec, will serve as Chairman of the Teach-In and deliver the Keynote Address on the Wednesday evening.

In addition to the lecture sessions, delegates will have the opportunity to choose from about 25 workshop sessions. These will be limited to ap-

## 20th Birthday

On October 9, one of Digby's life-long residents, Mr. Fritz Dakin, celebrated his 90th birthday. Mr. Dakin was, for many years, in the hardware business, initially with his father, Mr. Charles A. Dakin when the Firm was known as Dakin Bros. After his father's death, Mr. Dakin operated the business himself and the name was changed eventually to Fritz Dakin, Ltd.

Mr. Dakin was, for many years, involved in various musical organizations in Digby and his encouragement and help in this area were widely known and appreciated. Another interest was in the local yacht clubs.

He also was a member of the Finance Committee, Victorian Order of Nurses, Digby Branch, for a lengthy time and later was made Honorary President which office he still holds.

A parishoner of Trinity Church since his early years, Mr. Dakin has given many years of service in Parish affairs.

His daughter, Mrs. L.C. Dickson, entertained at a small reception in honor of her father's birthday.

## Mobile Home Burns

A mobile home, used for office quarters at Federalands, Conway, was partly destroyed by fire on Wednesday afternoon. The Digby Fire Department was called at approximately five o'clock in the afternoon. Cause of fire was said to be a faulty furnace. Workers had been working at the office trailer. Damage had not been estimated.

proximately 20 participants per session, and will be led by experts on the subject.

Since each delegate is expected to play a role in implementing a two-year program of social action in his own community, follow-up meetings will be held across the country and a resource kit of information and ideas from the October Teach-In will be distributed.

Aside from the working sessions, there will be an exhibit of artwork by mental and emotional patients to be held at the National Arts Centre in Ottawa during the week of the Teach-In.

This display reflects the growing significance of art and recreation as an approach to helping troubled people.

## Discoverer Of UKHM's Husky Mine

United Keno Hill Mines Exploration Superintendent, Robert "Dutch" Van Tassel, has not only one, but two, Yukon mine discoveries accredited to him - the Husky Mine presently operating at Elsa, and he supervised the Minto area copper property which will open as a mine in the near future.

Dutch was employed in 1963 to conduct surface exploration for the troubled United Keno Mine.

In 1962 when Falconbridge Nickel became the controlling interest in UKHM, a sudden crash exploration program was initiated, and Dutch was hired to lead the program.

When United Keno Hill Mines, Ltd. was making preparations to shut down

## 50th Anniversary

Mr. and Mrs. Milton G. Morgan were pleased to have their golden wedding anniversary observed on September thirtieth by their neighbours and friends.

Mr. and Mrs. Morgan received many cards and good wishes, as well as anniversary cakes, china, and other remembrances from their friends. Gifts of flowers for this occasion were received from the United Church Women, the Canadian Legion, Bear River and the Ladies Auxiliary, Canadian Legion, Bear River.

Mr. and Mrs. Morgan were visited during their anniversary by many of their neighbours and friends and they were entertained in the evening at the home of Mr. and Mrs. William Morine, with other friends calling at this time.

## Finds Strawberry Blossoms

Mrs. Alma Melanson, Rossway, was surprised on Friday to see strawberry blossoms developing on the strawberry patch. Mrs. Melanson also brought a bunch of large peonies.

Mrs. Melanson's garden is frequently admired by passers by and tourists. Recently a lad from River Road, South Berlin, Mass., viewed the garden and described it to her sister. Her sister wrote the following poem:

operations in 1966 after 21 years of mining in the Mayo district. Dutch discovered the first new orebody in over 50 years.

Dutch hails from a tiny community in Nova Scotia called Digby, and by fluke Dutch entered geology at Mt. Allison University after his high school principal had asked "What are you going to do with your life?"

Dutch didn't know. After a two-week session with the principal, he was high tailing off to University as a likely candidate in geology. After one geology course Dutch was hooked; three more geology courses, and he was a fanatic!

**GIANT YELLOWKNIFE**  
During the summer of 1966 Dutch was a work student for Giant Yellowknife Gold Mine, Northwest Territories, and by the end of the season he'd been offered a job and \$75 per month retainer if he'd return after college graduation.

And Dutch found himself between 1958 and February, 1962 in the NWT. He also had found himself engaged to be married immediately after graduation, but went away for 15 months to work—writing back to Nova Scotia telling Carolyn "...the weather's lovely today. Winds calm. The winds never blow in Yellowknife..."

But when he returned to Yellowknife with his new bride and they stepped down from the plane, the temperatures were minus 15 degrees with a 30 mph wind. Actually the wind in Yellowknife never stops blowing!

Then Dutch was shipped out for a five-month exploration program to Hudson's Bay! Five months! And geologists today complain about five days.

With the long field season and a young growing family...Dutch began looking to the mines as a chance for homelife. Half looking for new ventures, partially to appease his family, Dutch hired on with Dennison Uranium Mines at Elliot Lake, Ontario.

At first Dutch had been served with the energetic incentive drive re-doing all the hen-scratched maps after 13 previous geologists had plodded through and over them. But after 15 months, he was bored.

United Keno Hill Mines was his 1963 saving grace as well as vice versa! He arrived just as the exploration program, backed solidly by Falconbridge, was getting underway. Dutch was responsible for the experimental overburden drilling which cost about \$4.09 per foot then, but with his expertise and full consideration of ideas from the experienced drillers, Dutch reduced that cost to about \$1.50 per foot by 1965.

R.E. "DUTCH" VANTASSELL

This was the first time in the long years of mining in the Keno area that any funds had been set aside for surface exploration work by a company. Geologists are always looking back over their shoulders....What did they miss?

Dutch discovered the Husky vein, the first new ore body discovered in the area since the 1920's, mining operations having been working over old veins.

In the fall of 1966 United Keno Hill Mines threatened a shut down because of depleted tonnage and managerial problems, and with reserves quickly depleting the surface exploration program was maintained.

The overburden drilling technique involved collecting overburden samples every five feet, and using geochemistry to locate vein systems. The method paid off...the discovery of a new mine!

With a 30 to 60 ft. overburden cover, the Husky was the first new mine found since the old prospectors couldn't cope with the depth of overburden. But the inferred quartzite horizon with no outcroppings was a good geological bet.

"Length x width x depth x assay values makes a mine," Dutch explained. "Tonnage and grade are the answers desired. Without it you've found nothing."

But exploration work is a slow, expensive process, and six years elapsed before the Husky was in full production—and today, out of the six mines operating at United Keno Hill, over 50 percent of the high-quality ore comes from the Husky.

## WHITEHORSE

Finally, the Van Tassells moved from Calumet-Elsa townships, establishing an exploration department in Whitehorse, Dutch busily getting a map education and organizing the exploration department in the basement of his home until the Whitehorse Medical Building on Main

Street was purchased by UKHM.

By 1970 exploration was in full swing.

In 1970 a reconnaissance-type program was run and Dutch was disenchanted with the method, the program not offering close-enough surveillance of the tree-covered ground.

The following year the search program commenced east of Lake LaBerge on a geological theory.

A two-man party, consisting of Dick Joy and Peter Pangman, thrashed its way toward Minto, and in July, 1971, found the granite with copper staining that indicated these two geologists had found what they were looking for—Dutch's second mine.

"A geologist lives in mortal fear of having worked an area and having missed something. We're always looking back over our shoulders."

Adjacent to United Keno Hill's DEF properties, across Copper Creek, south of DEF camp, is the copper property belonging to Silver Standard-ASARCO.

Interestingly, Silver Standard-ASARCO accomplished exploration work on their property, but they were not encouraged enough to return in the summer of 1973.

Meantime a United Keno Hill drill had been taking out excellent core samples—only to later discover that the angle drilling had gone over onto Silver Standard-ASARCO's property.

Well! Talking about some mad scrambling!

The Silver Standard-ASARCO group was notified, and a joint venture proposed, but the Silver Standard-ASARCO group decided to investigate the potential of their property before coming to any agreement.

**PROSPECTORS**  
Independent prospectors stroll in and out of the UKHM Exploration offices, their x 20 prospecting lenses magnifying a chunk of rock. And not one prospector has ever been turned away, even though sometimes they just meander in for coffee or to talk about rocks and minerals. Sometimes a UKHM geologist will accompany a prospector to the bush to examine a find.

Dutch's explanation of all this: "Who knows, maybe someday they'll have a mine."

Today Dutch Van Tassel cannot claim boredom...he's happily up to his neck in rocks, maps, reports as Falconbridge, Canadian Superior and United Keno Hill Mines hopefully join forces with Silver Standard-ASARCO for the next mine in the Yukon—the Minto Copper Mine.

For longer than any resident of Bear River can remember, a large cannon has been buried, muzzle up, in the pavement of the village street, at the corner adjoining the Bear River Trading Post. No one is quite sure who placed it there; or the source of its origin. The gun is about three feet above ground level, and by the size of the bore, appears to be of the type known as "The Long Tom", or "Royal 8". While it may have drifted into Bear River from the battlements of Annapolis Royal, nobody knows for sure. It now stands along side a utility pole, but there are those who remember vaulting over it on the way to school long before electricity made its appearance in the village. Now local residents feel that it should be exhumed from its partial grave, as Leftis a relic of such local importance, and an offer to build a new gun carriage, after the pattern of the original, has already been made. But the question is, Wh owns it? And how many authorities will have to give permission for the required action, to enable it to be given a more honoured place in the village? Perhaps some of the Courier readers can help-if so the Royal Canadian Legion Branch in Bear River would be happy to hear from them. As one resident has suggested, "We could do with a few cannon around, if only to keep our visiting shopbreakers at a distance."

and explained how the money given is distributed in the various areas of our work. The roll was called to which members responded with verse of scripture. The Minutes were read and approved. The Secretary read letters from our Nova Scotia Provincial

## Our Killarney Trip

Early Friday morning September 20th forty of the Digby New Horizon Group after singing Happy Birthday to one of their group left on an Acadia Line Bus for Halifax where they boarded an Air Canada plane, arriving in Winnipeg, Man., at 4:10 p.m. They were met by Mrs. Arthur McKnight of the Killarney New Horizons, boarding a Killarney bus they were driven around the city before stopping at a restaurant for a Smorgasbord supper. Approximately 6:30 everyone was again on the bus driving to Killarney, 150 miles away. The sun set was most beautiful on the prairies, which could be seen for several hours, as there were no trees or hills to obscure the beauty after the sunset, darkness came quickly. To pass the time away on the bus, music and singing was enjoyed until 9:30 where the group reached Killarney and were driven to the homes of their various hosts. After a good night's sleep everyone was ready the next day to start the activities planned by the Killarney New Horizon Group.

The first get together was at the United Church Education Centre for a delicious luncheon where everyone met new acquaintances or renewed the ones made where the Killarney Group visited Digby earlier in the month. The Digby Group was welcomed by Mr. Dave Gibson, Mayor of Killarney, Mr. Earl McKiller, M.L.A., Rev. Riddall of the United Church, Mr. Vernon Britton, retired Killarney banker and Mr. G.E. Ramsay, President of Killarney New Horizons. These were responded to and thanked by Digby President Rev. Butler.

A blind boy, Brian Morrison, provided his talents both musically and vocally and playing the accordion. One Digby participant was honored by the singing of Happy Birthday. In the afternoon several drove to Austin 100 miles away to the Agricultural Museum where the first machines used in threshing were still in operation. Saturday evening was spent at the home of the hosts. On Sunday morning the weather quite chilly-most went to the church of their choice. A picnic in the afternoon had been planned in beautiful Eric Park but the weather man did not cooperate with warm weather. Several had gone to the J.A.V. David Museum but all met again at the C.E. Centre where a delicious picnic lunch was enjoyed.

A piece of leather craft was given each Digby visitor, compliments of the Killarney Group. Mr. Tom Wilkins of the Killarney Guide was on hand, chatting with everyone and taking pictures, which has already been sent to our own Digby Courier and published. After supper most of the group proceeded to the Killarney air strip where several had rides in the two and four seated planes piloted by members of the Killarney Flying Club. Those not going to the air strip went to Pugsley North Dakota which is

the geographical centre of North America.

Monday morning all went in several cars to the International Peace Garden situated at Boissevaire, Man. and Dunseith, North Dakota. Turtle Mountain is the dividing line between Man. and North Dakota. After touring the Gardens, visiting the gift shops the last stop was at the Chapel of Peace with its sixty quotations, either written or spoken by great men of peace throughout history, which are engraved on the three enclosing walls constructed of flat sawn limestone. In the evening several of the Digby ladies were guests of Killarney Eastern Star and Rebekah Lodges. Later on in the week one Digby man was a guest of Killarney Masonic Lodge.

On Tuesday some went to see Pleasant Valley which was very pretty with the fall colourings, others went to Souris to see and walk over the longest single space swinging bridge in Canada-582 ft. long and still others were guests of the Friendly Circle Group, at the Centre where they enjoyed a programme and games. All those on trips returned to the C.E. Centre where refreshments were served. After supper many went their various ways-one highlight was the Buffalo grouping at the Buffalo Reserve close by the U.S.A. border at Rolla where there is a unique Lutheran Church, the architectural design being in the style of three triangles, depicting the Holy Trinity. The Hobby Shop of the Killarney Group was visited at different times where the Manitoba native wood diamond willow is made in lamp shades-book ends, tables etc. They also do pottery and stone work.

On Wednesday morning everyone left for the Hobby Centre to visit the Hutterite Colony (which numbered about 68) This was a new experience, especially for the Digby Group, in seeing how life is lived by these people and by talking to them and hearing of their ways and convictions. The school was visited where there were approximately thirty children being taught by an older teacher from Killarney. The children speak German until they start school where English is learned, until they leave school after finishing Grade VIII. There they become part of the working colony (unless they leave, which some do). The next stop was at the Ninette Sanatorium Grounds, now used as a Training Centre, then on to the unusual built home of Dr. and Mrs. D. Stewarts for a lunch of Ukrainian Borsch and ice cream with a sauce of native berries. Their eight sided home is practically all windows, void of curtains or drapes, so they do not miss any movement of nature or the beauty of the surrounding area. They are on the edge of a lake with no other house around for miles.

Another Digby participant was honored at the Stewarts' by the singing of Happy Birthday.

In the evening at 6:30 a farewell banquet was held at the Legion Hall co-hosted by the town of Killarney, with the towns' dignitaries present. After a delightful programme of several selections provided by the Ladies Quartette of Killarney, The Folk Song High School Group and again Brian Morrison. Those who had lucky numbers on the backs of their chairs were asked to stand. Incidentally the four lucky winners were from Digby!

The Reeve, Jack Chapman presented a gaily colored ceramic leprechaun, to the Digby Pres. Rev. Butler. It is now at the Digby Centre sitting placidly on the piano. Coke Hartwell of the Chamber of Commerce and Dave Gibson, Killarney Mayor presented each of the Digby Group with a farewell gift of a green felt derby, with Killarney Man. imprinted on the front. Guy Ramsay Pres. of the Killarney Group also gave each one of the Digby Group a small container of the rich black Manitoba earth. He also gave a farewell speech which was responded to by Digby Pres.

Rev. Butler. Before leaving the hall the Digby Group sang their song-composed by Mrs. Boyd Ellis of Digby and sung to the tune of "I'm Forever Blowing Bubbles" expressing the thoughts and sentiments of the Digby Group. Mrs. Ruby Roope of the Digby Group presided at the piano for the singing of the song.

Bright and early (6 a.m.) Thursday morning everyone was on hand, wearing their green hats-and one carrying a diamond willow cane, ready to proceed on their trip back to Digby, Nova Scotia, after spending an unforgettable visit to Killarney Manitoba.

One might add Killarney capitalizes on its name (the majority of Killarney are not Irish) to great advantage. On March 17th they have a gala day.

Everyone wears green including the green hats! Free stew is provided to everyone on front street, all kinds of races and games are indulged in. One never knows what offense he has committed where a policeman takes him off to jail (maybe only for a few minutes-it may be for walking too fast! Their beautiful park is named Eric Park complete with a fountain, turtle leprechaun and blarney stone.

## Church Point

Maximen Thibodeau, son of Mr. and Mrs. Camille Thibodeau, has returned from Digby General Hospital. Maximen cracked his kneecap when he fell with a mini-bike. He arrived home on Tuesday and is now able to get around on crutches.

Edmond Thibodeau, retired undertaker of the village, broke one of his ribs when he fell in his home recently. He is able to be up and around.

Mrs. Leonie (Denis P.) LeBlanc of Church Point has returned from a sojourn in the Halifax Infirmary of seven weeks where she received treatments. She is able to be around in her home here and her recuperation appears to be coming along as well as expected.

Mr. and Mrs. Robert Ouimet who spent the summer months at the old homestead of the late Lucius Belliveau, have returned to Montreal. Mrs. Ouimet is the former Antoinette Comeau daughter of the late Mr. and Mrs. Rene Comeau, of Yarmouth. Mr. Comeau was a railway mail clerk.

Mr. and Mrs. Willie LeBlanc, recently retired and are now living in St. Bernard in the home purchased from Mrs. Lucie Bourdon, visited Mr. and Mrs. Isaac LeBlanc, brother of Willie, in the village on Tuesday. Mrs. Lucie LeBlanc will continue to live with her brother Willie in St. Bernard. The latter accompanied her brother Willie in his visit to his brother Isaac.

We are sorry to learn that Mrs. Jules (Elizabeth) LeBlanc injured her hand when she slipped and fell recently.

The Church Point Figure Skating Club donated trophies

to the worthy members of the club at the Legion hall in Saulnierville last week. The presentations were made in the ladies lounge room with Miss Jocelyn LeBlanc, who is secretary of the club acting as master of ceremonies. A good attendance of parents of the club winners and some donors of trophies made the evening a very interesting one. The long delay in making the presentations was due to a delay in receiving the trophies.

Miss Jeannine Comeau of Belliveau Cove, received the Jones Bottling Co. Ltd. trophy, of Weymouth, in the Ladies Senior "A" class; Alain Blinn, Grosses Coques, trophy donated by Meteghan Home Furnishing, Men's Senior B class and will also receive the Canadian Figure Skating Association badge and the Comeau Sea Foods Ltd. (Saulnierville) trophy for Class "B", men's Senior.

Miss Gisele Robichaud, Meteghan received the Dr. Julius Comeau trophy in the Intermediate girls class; 2nd Kelly Anthony, 3rd Miss Jeanne Robichaud, Mathias Erjavec, Weymouth won the Royal Bank of Canada, Weymouth branch, trophy for winning the Intermediate Boys section.

### Bob Murphy - Chosen To Represent Canada

African bush, both for humans and animals, are constantly in the foreground. The series is being filmed in Kenya, one of the most stable, peaceful and harmonious emergent black countries in all of Africa. Some episodes of "Born Free" will not include Elisa, focusing instead upon other animals and people

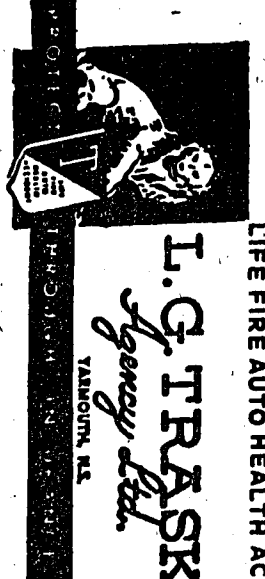

Bob Murphy, formerly a Colchester County native, now residing in Clarence, Annapolis County, has been chosen to represent Canada at the International Country Music Association show in Nashville, Tennessee, October 17th. Artists from England, Canada, New Zealand, Australia, Holland, United States, Japan and Mexico have been invited to perform. Bob's back-up music will be provided by the Billy Walker Orchestra and the Anita Kerr Singers. While in Nashville, Bob has been invited to attend Kraft's 1974 Country Music Awards. Bob Murphy has come a long way since his debut at the little Saturday night dance hall at Hampton Beach, Anna, Co. As his reputation throughout the Annapolis Valley grew, he began playing in the finest night clubs throughout the Maritime Provinces. Bob and his band Big Buffalo, have on countless occasions provided their services to raise funds for un-deprived children on Christmas Day. Bob was recently signed by both Digby and CIBC-Halifax. After an appearance with George Hamilton IV, he was invited to perform on CBC's "Countrytime." Next he was chosen to headline the "Country Jambooree" at the Nova Scotia Provincial Exhibition in Truro on October 17th. It was on the merits of this time which Murphy penned himself, that he was awarded the honour of representing Canada in Nashville this year. The following persons acknowledged of the entertainment field have made these favourable comments after seeing Bob and his band perform.

#### A Reason To Live, A Reason To Die

**THE STORY:**

Told in flashback is the story of how Fort Holman near Joplin, Mo., was recaptured from the Confederacy by a small band of renegades in 1862. Union Col. James Coburn had surrendered the fort to Major Telly Savalas, who it develops had held Coburn's son prisoner and later killed him. Coburn recruits seven condemned men to penetrate the fortress, buying their loyalty with a promise of buried gold. Only Sgt. Bud Spencer is actually on Coburn's side. The group encounters a farm family that has been killing strangers for the Confederacy, when the men arouse suspicion in a small town. They depart during the resultant celebration, Spencer donning a sergeant's outfit. He masquerades as a Secret Service operative at the fort. Before Savalas can prepare his men, Coburn attacks. #### "The Laughing Policeman"

**THE STORY:**

Shortly before midnight in San Francisco a gunman shoots up a local bus killing all the passengers but one. Arriving at the scene, police detectives Walter Matthau and Bruce Dern are shocked to discover that one of the victims is Matthau's partner, Anthony Costello. Matthau and Dern investigate all the other murdered people but don't get very far. A clue in Costello's pocket leads Matthau to believe that Costello was trying to follow up on a murder case Matthau had been unable to solve some years earlier. Though Dern is at first derisive of Matthau's theories and very put off by his taciturn personality, he finally agrees to help Matthau establish a connection between the slaughter on the bus and wealthy businessman Albert Paulsen who was the suspected murderer in Matthau's previous unsolved case. Learning that Paulsen is a secret homosexual, the two surmise that Paulsen would go to any lengths to keep his secret from being revealed. In color Restricted.

### American Graffiti

Now that the '50s have been firmly established in the minds of nostalgia lovers, the early '60s get their due in the Lucasfilm, Ltd. Coppola Co. production of "American Graffiti". The title doesn't quite fit and some of the incidents are contrived, yet the overall film is a joy for any age bracket. Whether or not the viewer grew up in that period is secondary to the wealth of solid comic and dramatic material in the George Lucan-Gloria Katz Willard Huyek screenplay. As an observer mentioned, everything is done in cars. The action takes place during one night in a northern California town as four buddies cope with ex-girls friends, pickups, baby sisters, the police, drag racers and their own futures, meanwhile participating in more dramatic incidents than most kids experience in a week. From beginning to end, the soundtrack rocks with songs of the period-42 in all, beginning with the classic "Rock Around the Clock" by Bill Haley and His Comets to the extent that the film is practically a musical. A good device has most of the music being supplied by an all-night radio disk jockey. Lucas directed and Francis Ford Coppola and Gary Kurtz co-produced. With the right selling, this could be an American classic. Technicolor.

**STARRING:** Richard Dreyfuss, Ronny Howard, Paul Le Mat, Cindy Williams, Charlie Martin Smith, Candy Clark.

for college the next day, although Dreyfuss has his doubts. Charlie Martin Smith is thrilled to have the use of Howard's car, while older, Paul Le Mat-local drag racing champion and ladies' man-just acts cynical. Howard and his girl, Dreyfuss' sister Cindy Williams, break up and reconcile; Dreyfuss, searching for a blonde in a 't-Bird gets mixed up with Bo Hopkins gang. Smith picks up and impresses fast Candy Clark, while Le Mat gets stuck with Mackenzie (Laurie) Phillips, 13. Dreyfuss earns Hopkins' respect by anchoring down the wheels of nasty cop Jim Bohan's patrol car, then asks all-night disc jockey, Wolfman Jack (whom everyone listens to) to request that the blonde call him. Le Mat races Harrison Ford, with whom Williams is riding, and beats him when Ford's car crashes. Williams and Howard reunite. Rated PG.

### A Touch Of Class

One of the year's brighter comedies, "A Touch of Class" looks classy from any point of view-particularly in a commercial sense. George Segal and Oscar winner Glenda Jackson give outstanding comic performances, the scenery in Spain and London looks marvelous in Panavision and Technicolor, the Melvin Frank-Jack Rose screenplay is full of bright lines and the score by George Barrie and Sammy Cahn includes at least one potential standard, the title tune. Reminiscent of sophisticated fare of years past, the film pairs Segal and Jackson in a classic battle of the sexes. Whereas seduction was uppermost in the hero's mind in similar fare of the '30s and '40s, the stars get to bed here with only minor delays. From there, love emerges-literally-at first fight and a romantic interlude becomes a frantic arrangement as Segal juggles wife, family and mistress. Segal is one of

### New System In Operation

The new communications system installed by the Maritime Tel and Tel. Co Ltd at College Ste Anne at Church Point was officially opened at 9 a.m. on Thursday morning. Just prior to the opening of the new system, workmen of the telephone company put the finishing touches to the system to make it operative. Previously the college had its tercommunication system which provided a telephone system for servicing various offices but was not connected to the Maritime Tel and Tel. Co. Ltd., system. The communications system now put in use today will enable connections to be made from the regular telephone companies lines the intercommunication system of the college. This means that if and when a call comes in to the college for such and such a person, the switchboard operator rings the office for whom an outside call has been made and then connects the office phone to the telephone company line of communication. Previously when a call was received for the person of the college, the person was called on the college inter-com. system telling him or she that a call for him awaited him on the regular Mar. Tel. & Tel. Co. Ltd., line. This meant that the person so called had to go the

telephone from where the call was received and where the party was waiting for an answer. In some cases this meant quite a bit of travelling to reach the phone in question. It is understood that calls can be made direct from the office or room with the present college intercom telephone to the local lines of the Maritime Tel. & Tel. Co. Ltd., that is Saulnierville and Meteghan exchanges of the company. Other calls will be made to the company's lines by the switchboard operator. The new system will save a lot of time for those being called as also to the secretaries who formerly took the original calls for other personnel.

### Freeport

We feel that it is a downright shame that the young people of the Community cannot hold a School dance without some incident marring their good times. At Saturday evenings' event a large pane of glass was smashed at the entrance to the school by some person outside and empty liquor bottles found on the premises, some being broken inside and some out on the school grounds. As parents of children who attend these dances we feel it is time that the culprits who spoil these activities should be dealt with in such a manner that they will not

return to spoil these events again.

The Legion members and the members of the Ladies Auxiliary held their meeting on Friday evening, the meeting having been changed from Thursday evening to the 2nd Friday of the month. At the ladies meeting it was decided to hold a Rummage Sale on the 26th of this month. Any donations would be most welcome and the pres. Mrs. Marion Patterson, if notified will have items picked up. Also a Christmas bazaar is to be held in early Dec. with handicrafts, food, white elephant table etc. A joint Social evening is to be held on the 8th of November. It was noted that the Ladies presented the Legion with a check for \$125.00 at the last meeting to pay for a fridge for the Legion room. The catering committee were thanked for their efforts with the catering for the Small - Howard wedding reception a week ago. For all the lack of proper facilities everything went very smoothly and it is hoped that when all the necessary equipment can be purchased that the Women's Auxiliary will be able to cater for different functions. After the meeting a Social evening was held with a number of guests attending.

Miss Wendy Crocker, Halifax, spent the week-end with her parents, Mr. and Mrs. Watson Crocker and Bette.

## OCTOBER SNOW STORM HITS AREA

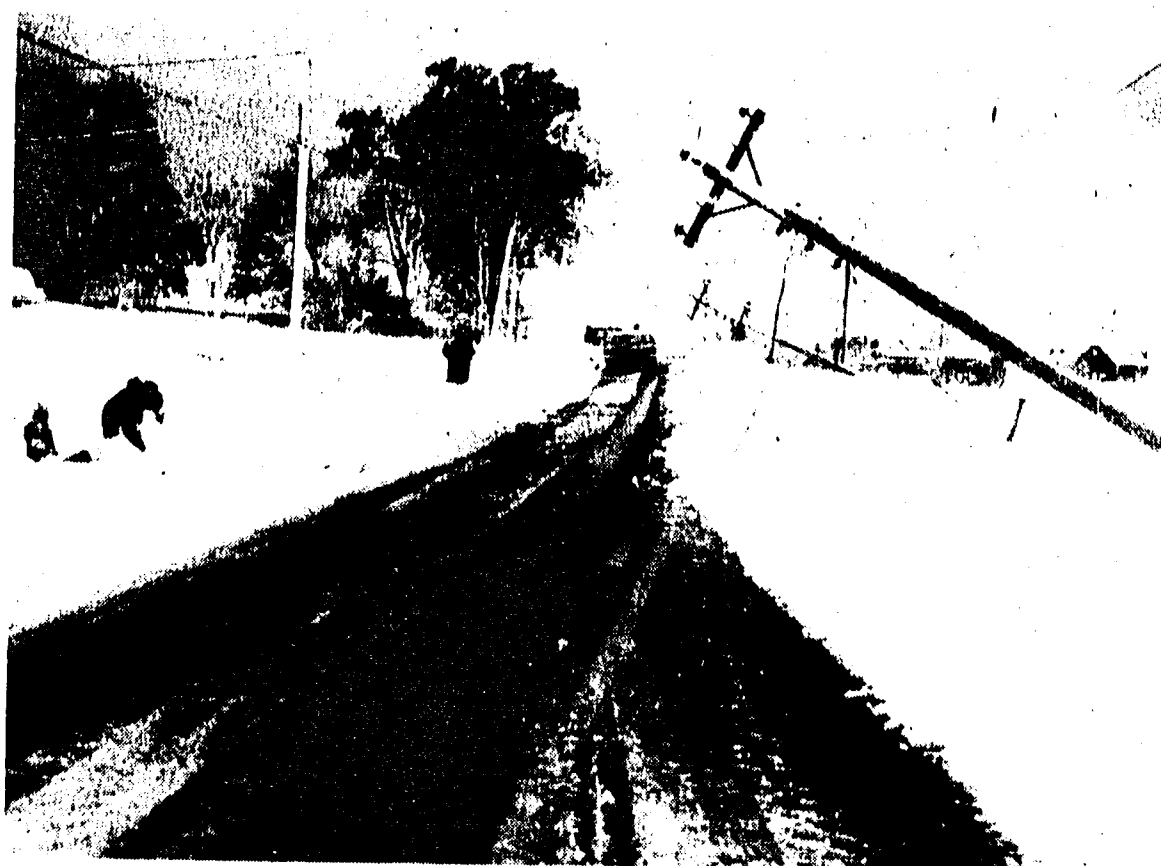

Digby County awoke on Sunday morning as did other areas in Nova Scotia to face an unusually early snow storm which hit the entire province. While not hit to the same extent as Cape Breton, the Valley and other parts of the province, the town and County of Digby was faced with restoring telephone and electric power lines which were damaged by the heavy snow fall and high winds. It was estimated that fifty poles were broken on the Digby Neck road alone. Auxiliary generators provided light to Bear River where power was cut off by extensive damage to lines in the Deep Brook area.

So far as could be determined no boat damage was suffered in the County and lobster fishermen were not effected by the severity of the early October snow storm. Trees in several areas fell victims to the onslaught of the unkindly weather

and traffic was tied up but no serious accidents were reported as a result of the storm which deposited some six inches of snow over the weekend. Without power for considerable time, concern was felt at one stage for the fish in storage at Casey Fisheries in Victoria Beach.

While lines and poles suffered damage on the Islands, it was noted that the Islands had escaped much of the snow accumulation and communication was more easily restored.

disrupted telephone and power lines were being restored within the County and life was returning to more normal conditions. The greatest extent of the storm which covered the entire Nova Scotia province and Atlantic area was felt on the Eastern part of the province where Cape Breton was pronounced to have an emergency situation.

## Good Attendance At Nova Scotia Reading Association Conference

Dr. John Manning, University of Minnesota, delivered two excellent thought-provoking addresses to the two hundred and fifty delegates of the Nova Scotia Reading Association held at Clark Rutherford Memorial School, CFB Cornwallis on Friday, October 4 and Saturday Oct. 5th.

He suggested that the child spend an academic morning at school and the afternoon be spent on visits to the community and recreation.

This would allow teachers time to prepare for class grouping and individual instruction which consumes a great amount of time.

A child's work is very special and should be treated that way, he said. Pupils should not be called upon to fail. Work should be at their level plus permitted time to become familiar with it and asked when all words are known. Much time is lost in trying to get Johnny to unlock a word, he claimed. This makes it boring for the rest of the class and frustrates Johnny. The word should be told and then filed in the teachers notebook under Johnny's name so that he can learn the skill later.

Have the students listed in notebooks in order of highest capability to lowest capability, he advised. This might fluctuate according to improvement. Each student reads aloud in this order - poor - good,

poor, good, etc.

Teachers should show an interest in the pupils outside the classroom e.g. "Jonny, I saw a book in the store which you would like to read", he said and children should be read with to develop a sense of reading and should be started as soon as a child can sit up.

Pupils should be completely involved in the lesson when the teacher is making a point on the blackboard by having a worksheet similar to the teachers. This will hold pupil's attention, he argued.

The greatest problem in oral reading is getting the pupil to follow along and pay attention - usually the poorer student is the problem.

The task of the teacher includes (1) Diagnosis (2) Remedy - practice on skills - workbooks, etc. (3) Improvement of teaching methods. When reading orally in the classroom suit the passage to be read aloud to the capabilities of the student. e.g. easiest passage to be read aloud with the least amount of structure words to the poorest readers and the more difficult to the better student and the most difficult the teacher reads.

Each student will be assigned a number and previous to the oral reading, the teacher should

number the passages in the story to be read aloud, so that she knows exactly who will read what - thus reducing the inattention and increasing learning.

Dr. Manning was thanked by Jack Ritcey, Supervisor of Curriculum, Digby.

Eight workshops were conducted by Dr. Ruth Seaman for reluctant readers: Ann Blackwood on creative work in Language Arts; Lois Gower on reading readiness; Eric Smith, Reading Records; Rosemary Gilbert on ETV Language Arts with ten students from Miss Cleaves room. Reading Games with Jan Maddison; Kathie Swenson on Development of Personality of self and others and Marion Kennedy On Story Time were received with great enthusiasm by the teachers attending.

The square dance demonstration by the House of Roth Dancers and the Tango in black light by John and Gloria Roth added much to the enjoyment of the visitors who came from all over the Maritimes.

## Acadia Graduates

## 500 Guides At Workshop

Uniforms of a different style and colour appeared at CFB Cornwallis on Friday evening, October 18, when the Base became the locale of the annual Fall Workshop of the provincial Girl Guides Association of Canada. About five hundred women in blue uniforms, the leaders of Brownies, Guides, and Rangers, and Cadets who are training to be leaders, as well as District and Division Commissioners, assembled to update their training and to discover more about themselves and the young people for whom they provide leadership.

Visiting Guide personnel were met by members of the hostess Division, Digby-Annapolis West, of which Mrs. R.A. Harris, Bear River, is Commissioner and welcomed visiting Guiders. Assisting Mrs. Harris and liaison with CFB Cornwallis was Mrs. R.H. LeFurgey, also of Bear River and Commissioner of Annapolis-West District. Much of the work of preparation for the weekend workshop hospitality was undertaken by Vicki Kwassnick, Doreen Way, and the personnel of CFB Cornwallis.

The Parade Square was available for parking, and adjacent to the Square, Kitchen 2 of the Junior Ranks Dining Hall was the registration centre and the Assembly for the Workshop. In charge of registration was Nancy Hutchins, a former commissioner, and working with her were Hilma Woods, Gloria Reid, Zena Miller, Ursula Sutherland, all of Digby; Joyce Rice and Pat Lacy of Bear River; Joyce Hamilton and Doreen Way of Cornwallis; and Winna Smith of Annapolis Royal. Gift packages containing useful articles generously contributed by banks, companies, merchants, and provincial departments in the Digby-Annapolis area were presented to each visitor by Luella Marshall of Cornwallis.

The opening session, an assembly of welcome, began with the impressive presentation of flags by a colour party of Girl Guides from 1st Bear River Company. Commissioner Harris welcomed the visiting Guiders and introduced the personnel on the platform with her.

Keynote speaker, Greg Donovan of the Nova Scotia Youth Agency, addressed the gathering on Friday evening, using as his topic Communication with Youth. This led to lively discussion in each of the many groups that were formed following the Donovan lecture.

Saturday's program was an all day session consisting of group training. For Guide

leaders there was training for the Discovery Program, conducted by the several leaders who, during the preceding Guide year, had been involved in a pilot project

For Brownie leaders there was a pot pourri of training: they could learn puppetry taught by Tom Miller, assistant director of Mermaid Theatre; or they could join a session of music and story telling, conducted by Richard Goile, who has set up the very popular programs at the Halifax Library. Mary Jackson met with several groups to teach creative arts for Brownies, and Millie Lawrence of the Atlantic Child Guidance Centre gave a short course in child development.

Mary Lou Courtney of the Maritime School of Social Work was the discussion leader for the Hangar Guiders, who were studying Rangering in the Community. Ms. Courtney also met with and directed the discussion of members of local associations, the adult branch of the Girl Guides Association. "In every level of Girl Guiding," said Dorle Weiland, Commissioner of Training, "we have found excellent resource persons, willing to give their time and talent to our training program. Saturday's training concluded with the traditional Girl Guides camp fire, under direction of music commissioner Joan MacDonnell.

Sunday morning was the final session of the Fall Workshop, a summing up of the weekend training. Sunday morning also brought to CFB Cornwallis, as well as to the whole of the Maritime Provinces, a devastating snowstorm, which made the Training Workshop a weekend to be well remembered in Girl Guiding.

CFB Cornwallis had provided accommodation and meals for the more than 250 women in residence during the weekend training; and Sunday morning made evident that the hospitality would have to continue for the duration of the storm. Girl Guide leaders are housewives, teachers, stenographers, social workers, and others from every corner of Nova Scotia, where their homes or jobs awaited their return; yet there was no area of the province to which they could travel safely on Sunday. A bus load of the Guide from Cape Breton leaders remained in Digby. So the weekend stretched on to Monday morning when all were able to return to their homes, many of which were still without the comfort and convenience of electric power.

## Consider Shortening The School Day

If approved by the Digby Municipal School Board, a move will be made to shorten the length of the elementary

student's school day in Digby. The proposition was presented on Monday evening by superintendent C.C. MacInnis at the Board of School Commissioners and at the Digby Regional High School Board. The proposal is to have the elementary students start school at a quarter to nine in the morning and dismiss at 2:30 o'clock in the afternoon. This would give the elementary students the opportunity to get home at an early hour rather than reaching home around five o'clock in some cases.

The resulting proposition came from a discussion by representatives of the urban and municipal school boards and if approved by the municipality the plan will go on a trial basis for a month.

Mrs. Ina Dillon, chairman of the School Commissioners; C.C. MacInnis, superintendent and Roger Hankinson, bus supervisor will work out further details.

Mr. McInnis informed the D.R.H.S. Board that William Troupe Jr. had been engaged as Business Education teacher for the present term.

Lister Hannah, principal of D.R.H.S. brought up the subject of upgrading and renovating the Junior High School section of the building. A committee to look into the matter was formed consisting of Mrs. Helen MacNeil, Mrs. Vivian O'Neil, Mayor Willard Kinney and Austin Morehouse, chairman D.R.H.S. Board.

Concern was brought up regarding the fire alarm system at the Junior High School. The Board will have a survey made to see if a new alarm system should be installed.

Tenders are being called for snow removal and fuel.

Mr. MacInnis reported that water for school use is being transported to the school.

By motion of Mrs. MacNeil and Mrs. O'Neil the principal, Lister Hannah was named representative on the town Recreation Committee.

## Editorial

### CONGRATULATIONS

Our sincere congratulations are extended to Mrs. Eileen Chipman, Guy VanTassel and Philip Robertson who were successful at the recent polls in winning town council seats in Digby.

These persons have taken on a great responsibility and a job that requires time and many energy resources. They are, however, equal to the task and we judge they will be fitted into the scheme of things in such a manner that their own talents and specific capabilities will be utilized. Not all councillors are their best in all situations or for all services but each councillor has his own niche where he excels to some degree. Most avenues in the council provide opportunities where these special talents can be used.

For years town council work has been getting heavier and heavier. It is more demanding on time, skill, education and sound thinking today than it has ever been before. How the Graham report will effect the present operation no one is exactly sure. It is aimed at relieving much of the load from the urban and municipal levels. Whether or not the town and municipality will have the input which they might desire for their levels, is another guess.

There will be many penetrating actions for the council to undertake now and if and when the Graham Report is adapted in the Legislature. We can only ask that the wisdom needed for the exacting tasks will be provided to our repeat councillors and those who will come to the council seat as new-comers. New exciting and stimulating forces are at work and best wishes for successful leadership by the mayor and his councillors are extended.

### MORE ON THE BEAR RIVER CANNON

By Foster Hall

A great deal of speculation and comment has arisen in Bear River since the subject of the Cannon has been broached. Much of it far from the truth, but some of the information gathered of great interest. Fears expressed that the interest shown was that of a scrap metal dealer anxious to cash in on the present high price of old iron, or an American curio hunter with a desire to own the biggest gun in his home town have been put to rest. The information received as to how the gun came to Bear River in the first place is very interesting. Pending correction from someone who has all the facts, the following version seems to have general approval in the village.

Many years ago a battery of three guns was placed at the mouth of the Bear River, on the east side in the locality of the site of the old bridge, just recently removed. This defensive operation is supposedly connected with the Fenian raids, (1732?) The battery was never called into action; one gun was returned to Annapolis; the clay bank on which the battery was set collapsed and the second gun was buried, and is probably still there; the third gun hauled into Bear River at a later date by a band of youths led by the late R. Purdy. After lying around for some time it was given a sort of semi burial, muzzle up, at its present location. No one seems to be able to say why, or recall its use, either as a hitching post for horses or a ship mooring post. And there it has remained until this day.

At present it serves a double purpose. It helps to support a Power Commission pole; and it acts as a bench marker for the many lot line of the properties clustered around it. Its removal would only pose a small problem for the Commission; but who would dare to disturb so sacred an institution as a bench mark? Perhaps the enthusiast with a concern for local history will have to turn his attention to cannon number two. A good metal detector and a little luck may well bring this one to light and restored and set upon a new gun carriage it could become a community possession. Who knows, it may even have some of its past honour restored by finding a place in the Bear River Cherry Carnival parade.

### Mrs. Kynock L. A. President

Mrs. Patricia Kynock was on Monday evening elected president of the Digby Local Association of Girl Guides and Brownies. Secretary is Mrs. Patrick Fletcher. Mrs. Kynock and Mrs. Fletcher are also on the Ways and Means Committee.

uniform; Mrs. Enid Black and Mrs. Myrna Burns, telephone and Mrs. William Reid, badge secretary.

Mrs. Frank Macintosh who has served the L.A. for seven years was presented with a gift in appreciation of her services.

The gift was presented by Mrs. Reid who also was the hostess at her home for the evening.

## Hodge Podge

—That was specifically Ottawa in Ontario where Councillor and Mrs. J. Patrick Comeau visited a couple weeks ago.—

—Wilmot Woodworth of North Easton, Mass. renewed his Courier and advises that he used to live in Digby, moving away in 1916. He knew Isiah Wilson and would like to get his History of Digby County. We do not know the price of the history but a recent edition has been printed and can be obtained from the Mika Publishing, 200 Stanley St., Belleville, Ontario, Box 536.—

—Ever visit a flea market? Wondering if Halifax fleas had any resemblance to printers lice we decided to attend in the park at the provincial building, Halifax last week. We found that a "flea market" in Halifax is a "rummage sale" in Digby. Their "flea market" was for raising money during the Joseph Howe week.—

—Nice to be recognized. We appreciate it. Thanks to the Ridgefield Press, Ridgefield, Connecticut for the comments on the 100th anniversary of the Digby Courier. They extended congratulations and repeated our editorial comment of that particular issue. The Ridgefield Press will be 100 years in 1975. We'll be looking forward to their centennial issue. Thanks again Karl and Betty Nash.—

—A correction for the September 26 edition of the Courier must be made regarding the story "To Curb Lawlessness." Mrs. Virginia Crocker informs us that chains and gates were torn out by speeding cars not "cats". Mrs. Crocker is our Freeport correspondent and a fine job she does too. We'll try not to confuse cars and cats another time.—

—Others besides ourselves marvelled over the fact that brilliant leaves were still on the trees throughout the country and kept falling in all their brilliance along with the snow which hindered traffic over the weekend.—

—Had an opportunity while in Bridgewater to attend a concert by the Obernkirchen Children's Choir from Germany. It was sponsored by the Community Concert Association. It was an excellent performance from every angle. Our only wish was that more children could have heard the concert. The room was packed with a thousand people but mostly adults. By the way, we saw Mr. and Mrs. Sheldon Chesley formerly of Bear River.—

## Ladies Auxiliary Meets

The 48th Annual Meeting of the Ladies Auxiliary of the Digby General Hospital was held in the Board Room at 8 P.M. on October 8th, with the President Miss Marjory Tupper presiding.

The minutes of the 47th Annual Meeting were read and approved.

The President reviewed the year's work and commended the members for their support. She noted that the most pressing need is for more members.

A special thank-you was extended to Mrs. Beatrice Height for giving so much of her time in looking after the Hospital's Auxiliary Canteen and to Mr. Fud Sulis who we have depended on so much and are grateful for his supervision of the Pop Machines over the past years. The President also expressed the Auxiliary's appreciation to all the volunteer Canteen Workers, many of whom are not members of the Auxiliary, in donating their time by working in the Canteen an afternoon or evening.

The Secretary's report was read by Mrs. Jack Whalley. In her report she made note of the activities that took place during the year, namely caps and pins were presented to the Candy Strippers at the Florence Nightingale Tea. Christmas Trees were distributed to the Patients Rooms at Christmas and treats were also provided for patients in the hospital during Christmas. We hosted the Zone Meeting of the Nova Scotia Association of Hospital Auxiliaries and had representatives attend the Annual Meeting of the N.S. A.H.A. in Coldbrook. This year as a part of the program for our Meetings we had as guest speakers Mr. Ralph Stacey, Administrator of the Hospital, Mrs. Debbie Miller, Physiotherapist, Miss Heather Steeves, P.H. N. and Victor Cardozo showed the Film "Only Human."

This year for the first time the Auxiliary established a Bursary for \$100 for a girl entering Nursing Training, the recipient was Debbie Brem-

NEW PIPE ORGAN DEDICATED AT BAPTIST CHURCH LAST THURSDAY

Choir of Sixty Voices Rended in Supurb Style Two Wonderful Oratorio Choruses - Large Audience Present.

"A notable event in the musical history of Digby occurred on Thursday night of last week when the new Cassavant pipe organ was formally opened and dedicated at the Baptist Church.... A remarkable feature of the evening was the great choir of sixty good singers from all parts of the surrounding country, who cordially gave their talent and diligent practice to make this a memorable occasion. Their rendition of those wonderful oratorio choruses from Haydn's "Creation" and Handel's "Messiah" directed by Alfred Boden would have done credit to a large city oratorio society...After the concert the director in a neat and complimentary speech, presented the accompanist, Miss Edrie Titus, with a book of organ music which had been especially ordered from a London music house.

## IMPORTANT NOTICE RATEPAYERS TOWN OF DIGBY

On August 8, 1974, tenders closed for Phase III of the Sewer Abatement System for the Town of Digby. Two tenders were received, Carl B. Potter Ltd., in the amount of \$1,707,246, and Beaver Maritime Ltd., for \$2,470,000.

Since that time approaches have been made to the Provincial Government Departments in an effort to receive additional grants which would reduce the overall cost of the project.

Although the Province has contributed some extra grants to assist, the grants offered were not of the size needed to reduce the cost of the system to an amount which the Town Council felt could be paid for by the ratepayers of the Town.

Therefore, the Council of the Town of Digby has agreed to postpone the installation of the sewer collection and treatment system until such time as the total cost can be reduced to an acceptable amount.

## Hold Family Reunion

On Saturday, October 12th a family reunion was held at the home of Mr. Curtis Porter, when for the first time in five years his four sons and three daughters were able to be together. Also present were eleven grandchildren and two great-grandchildren.

Those present included Mr. and Mrs. Earl Porter of Deep Brook, Mr. and Mrs. Roy Porter and sons Kenneth, Allison and Ralph of Conway; Mr. and Mrs. Gordon Porter of Dartmouth; Mr. and Mrs. Dean Porter of Oakville, Ontario; Mrs. Marjorie Tibbetts of Bear River; Mrs. Paul Gidney and son Paul

and daughters Sonia and Laura (Mrs. Vaughn Tidd) and her two children, Pamela and Craig, all of Sandy Cove; Mr. and Mrs. Carleton Conrad and daughter Irene, and son Donald, of Dartmouth.

All enjoyed the evening visiting together, and when lunch was served three birthday cakes were part of the refreshments in honor of son Dean whose birthday was October 9th, of daughter Marjorie whose birthday was October 12th, and of Mr. Porter who will celebrate his 80th birthday on October 25th.

## Celebrates 40th Wedding Anniversary

September 19th was the 40th wedding anniversary of Mr. and Mrs. Reginald Murley, and in observance of the occasion and when all their family were able to be at home, a family dinner was held at the home of Mr. and Mrs. John Roope on Saturday, and later in the evening other relatives joined with them for a social evening at their home.

Present for the occasion were Mr. and Mrs. John Roope and daughters Sheila and Joanne, of Hill Grove; Mr. and Mrs. Shepherd Grant and son Keith

of Glace Bay; Mr. and Mrs. John Murley and son Gregg, and Mr. and Mrs. Bruce Murley, all of Halifax; Mrs. Harris Mossman of Ottawa; Mr. and Mrs. Cecil Murley and Mrs. John W. Murley of Acaciaville, and Mr. and Mrs. Maurice Collins of Millville.

Members of the family presented Mrs. Murley with a Family Pin, and Mr. Murley with a Family Tie Tack, with several other gifts being received as a remembrance of the occasion.

## Digby Blood Donor Clinic Successful

With a registration of 244 donors, Digby's Fall Blood Donor Clinic met and slightly exceeded its quota of 225. This is an achievement in itself, but to have had more than half of the donors come out in last Wednesday evening's heavy rain and gale, many travelling the distance to and from the Islands and Bear River, really shows a dedication to the Blood Donor cause which merits special recognition.

The Clinic, jointly sponsored by the Canadian Red Cross Society and the Digby Lions Club, was under the able chairmanship of E.B. Tufts, who wishes to extend his thanks to all who assisted in any way, with particular appreciation of the record number of donors - 40 or more - who came from the Islands area. Bear River, Clementsvalle and Cornwallis also had an excellent attendance and there were a goodly number of first-time donors who are always especially welcome. The new computerized system greatly speeds and simplifies registration, but provides no lists for a breakdown of donor registration by areas, such as was previously available.

On behalf of the Red Cross Blood Donor Committee, Mr. Tufts wishes to extend thanks to

news media for their publicity of the Clinic, Radio Station C-K D Y, the Digby "Courier" and "The Mirror" all having been most co-operative. Thanks are also extended to the Red Cross Youth Group under the chairmanship of Linda MacIntosh and Mary Saulnier, who assisted the technicians in the Clinic room both afternoon and evening and their services were greatly appreciated. The Committee wishes to express special thanks to Mrs. A.L. Robinson, R.N., who, in the absence of Mrs. C.D. Snow, chairman of the Red Cross Nursing Committee, organized beds, those in attendance being Mrs. Mac D. Lawley, Mrs. N. Birsel, Mrs. Robert Wallace, Mrs. Louise Stephen, Miss Marietta Doucette and Miss Heather Steeves, in addition to Mrs. Robinson.

Registration, ushering and refreshments were under the conensorship of Mrs. Allan Harris, Vice-President of the Digby Red Cross Branch, who was assisted by a large committee of Red Cross workers. Red Cross President, Harold Emerson was in attendance during the Clinic, as was Layton Hinxman and to Christopher Tufts who loaded the Red Cross vehicles under the very stormy conditions prevailing at the close of the Clinic.

## Winter Wonderland In October

By Frances Adams

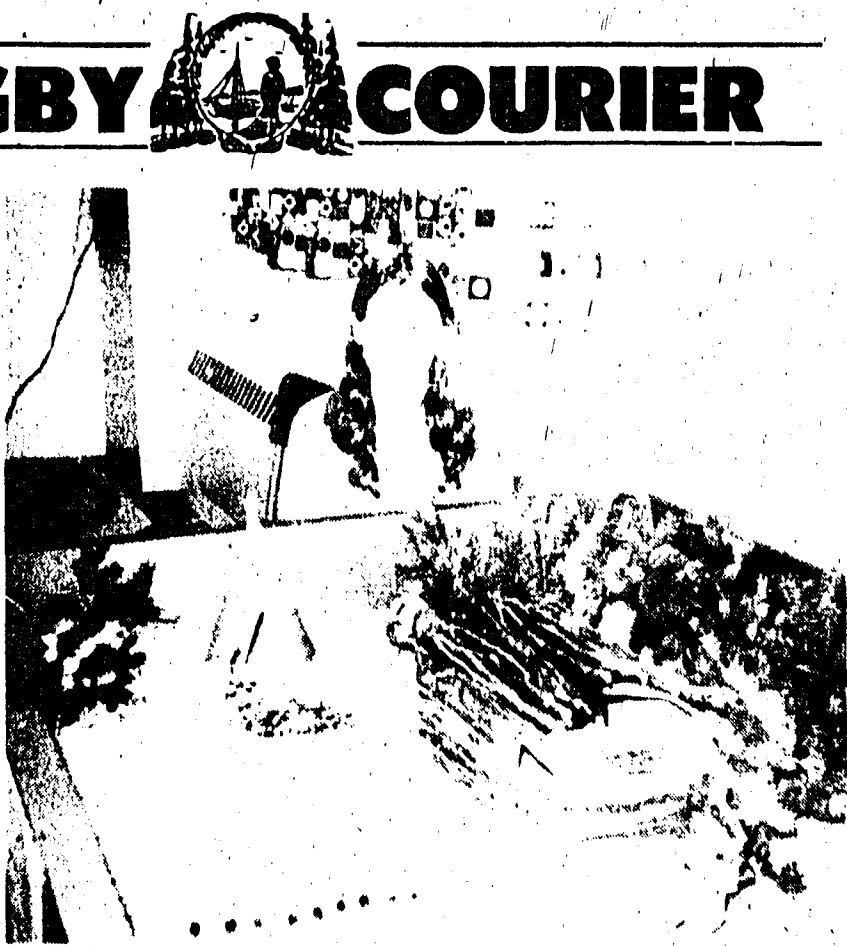

Bay View is a Winter Wonderland in Autumn. I would like to describe this strange and beautiful sight to our American friends who reside in here in the summer months as well as other distant readers who may be interested.

Monday a.m. October 21st as I sit here and gaze out my window I can say in all honesty that Bay View, N.S. is a Winter Wonderland. Looking out across the water the sun is rising on yonder hill making a golden path across the water. Presently a number of fishing boats are passing through that golden path.

The hillside at Victoria Beach is a mass of autumn color and seems to be from here dotted with large areas of snow which arrived on Sunday morning most unexpectedly. It dumped as much as twelve inches of snow in various Maritime locations.

Bay View is like Christmas now as one looks over a winter scene. The evergreen trees are loaded with snow and the apple trees near by are well outlined in white as all their branches are snow laden. The small shrubs are bending low with the weight of their snow packed branches while on the other hand Bay View is unlike Christmas now as one looks over an autumn scene. The maple trees are proudly displaying their bright beautiful dress. The sweet peas are snow covered and the last roses of the season are peeping out from under the snow along with the other autumn flowers. This uncommon combination of seasons is difficult to describe but a sight to behold. Perhaps one could call it a winter wonderland in October.

Digby Co. was in most cases more fortunate than Annapolis County. However we understand Cape Breton was hardest hit. A state of emergency was brought about in some places by this freak snow storm which descended on us this past weekend. Regardless of the serious situation in some places humorous happenings do prove the old saying

Thanksgiving took on an even greater meaning to some of the boys and girls from the Children's Training Centre in Digby. This display, showing the First Thanksgiving, was made by Debbie Chute, with the guidance of the teacher, Mrs. Nancy Lewis, and the help of other children. The children went on nature hikes and a shopping trip to obtain the materials used in making this display. Because of the dedicated service of Mrs. Lewis and others, children such as Debbie are making great progress.

"anything in an emergency." During Sunday's power failure we heard a lady cooked her cereal in a Fondue Pot, a family got their supper by having a weiner roast around a fireplace. I also know a young man who heated water for his tea with a Bunsen burner used for welding purposes. Someone I know repaired a Coleman stove thinking the same might be required for heat. At one home a small wood stove in a cellar supplied enough heat to cook a Sunday dinner.

We have also heard the statement "There is no place like home" and know that an older lady in Annapolis County with no electric power at present believes this because she turned down an invitation to go to Digby until the power in her county was restored.

In regards to our recent freak snowstorm, visitors here from California returning home that Sunday after being here to see the beautiful autumn foliage were heard to say "We saw a color we did not expect to see". But I believe regardless of the situation they did enjoy their trip to N.S.

Snowplows were in popular demand this past weekend. We know snowmobiles have become popular but we are not yet convinced that a snowstorm in October is.

## Entertain Bay View Congregation

During the summer in the small village Church at Bay View, Rev. Ronald Stevens conducted the church services which were well attended this year.

One of the afternoon services near the end of the season was the annual communion service. This was followed by a social hour held at the summer home of Mrs. J. Paul Emerson. The hostess was assisted by her sister, Mrs. Harold Emerson and Mrs. Russell Merrill presided at an attractively decorated tea table.

Some of the children residing in the immediate area were among a large number of adults who were present to enjoy this time of friendship and fellowship which has now become an annual event.

## Celebrates 81st Birthday

An enjoyable evening was held at the home of Mr. and Mrs. Charles White in Plympton on Sept. 28 when relatives, friends gathered to celebrate the 81st birthday of Mrs. Sadie White. Mrs. White was presented with a lovely birthday cake made by her granddaughter Shelia and refreshments were served. She was the recipient of gifts, including money.

Mrs. White lived in Gilbert Cove for many years and had been in ill health but is now enjoying good health. She was known to the children and referred to as Grammy White

by many. On hand to help celebrate were Mr. and Mrs. Joe White of Plympton, Mrs. Edith Stevenson Susan and Stephen and Mrs. Ted Stevenson of Digby, Mr. and Mrs. Clyde Brown of Clementsport, Mr. and Mrs. Roger Harrison and Danny of Digby, Mr. and Mrs. Penson Weaver of Weymouth North, Mr. Joe MacDonald, Digby, Mrs. Frankie Thibideau and Kenneth of Gilbert Cove.

Mrs. White is spending the winter months at the home of her son Mr. and Mrs. Charles White in Plympton-Happy Birthday Grammy.

## Return From Scotland

By Frances Adams

Mr. and Mrs. Owen Young of Brielle N.J. have now returned home after spending some of the summer months at their Bay View home before taking a trip to Scotland.

They left Bay View in early August for Halifax where they flew to Europe and landed on the other edge of Scotland.

Glasgow, Edinburgh, Pitlochry were among the first places they toured. Then on to Pitsligo and Peterhead. Going still further north they stopped at Helmsdale and Wick. From one of the northern places along this east coast they took a boat to the Orkney Island. This trip we are told was about a two hour boat trip in a small type fishing boat. They were met by a bus and taken to the centre part of these Islands where they remained one day before returning to the main land.

They crossed the northern part of Scotland then started down the other coast. Scourie being one of the most northern places they stopped on the west coast. Then down to Ullapool. From Ullapool they took a larger type boat more like the Princess of Acadia for about a 3 1/2 hour trip to the Hebrides. They remained on the Hebrides Islands for two days. Gairloch

and Plockton are two more of the places they visited as they continued to travel in a southern direction along the west coast.

They told of an interesting experience they had when approximately 1000 sheep blocked the road just below them at Braemar.

One of the most enjoyable times they spent during their tour was in Edinburg. They attended a band concert where 125 piece band was present along with 135 pipers. An estimated audience of 8000 gathered to see the Scottish Dances and hear the Scottish music.

The Youngs were gone about 44 days. They travelled the perimeter of Scotland and gave a weather report to the effect that only about four days were completely fine ones. Three of these days being ones they spent on the Orkney and Hebrides Islands. The other 40 days were not real nasty ones but it did shower some each day between the periods of sunshine.

This was not a first trip for the Youngs to Scotland but it was a first trip for them to the northern most parts of Scotland. They described their trip as one of the best ever.

### Mrs. Alvah Titus Heads Home & School

The October meeting of the Islands Home and School Association was held on Oct. 7th with the President, Virginia Crocker, in the chair. After the opening business was cared for the new officers for the following year were installed by the Secretary, Gail Sollows. New Officers are as follows: President, Mr. Alvah Titus; Sec't. Mrs. Virginia Crocker; Treas. Mrs. Norma Outhouse; Program Committee, Reta Tibert, Anna Young, Gail Sollows and Susan Frenette. The Vice-President elect Edward Donevaro was absent and will be installed at the next meeting.

Business resumed with the new President in the chair and at this time it was decided that a Safety Patrol by the older Elementary students would be helpful in assisting the younger pupils crossing the road. It was hoped that Mr. Perry of the Department of Highways could come to the school and assist the setting up of this patrol.

A suggestion was put forth re poster contest to stress cleanliness of the students at the school such as not to litter the floor etc. The Home and School would perhaps donate prizes for these.

It was also decided to contact the N.S. Commission of Drugs and Alcohol to see if they can set up a program for the public and the students on the using of marijuana and drugs. There has been rumors of marijuana among young people again so it was felt H and S should try again to stamp this out.

It was strongly felt that the playground equipment was put on the playgrounds for the elementary students and that older children should not be on the playground at any time using these items. Also what action can be taken to keep them out.

The break-in at the school during the summer was

discussed. At this time a window was pried open in a classroom, the laboratory entered and a bottle broken. The culprits are known but were left off with a warning. Also the window that was kicked out at the last school dance was discussed as to what action might be taken. The one responsible for this is also known.

It was most encouraging to have so many present at this meeting and it is hoped they will continue to come to the meetings and help support the Home and School group. After the meeting adjourned a most pleasant time was spent viewing slides of Peru and Mexico, shown by Keith Manzer, followed by refreshments and a social hour. Next meeting is November 4th.

### Linkletter Trustee Chairman

The annual Trustees meeting was held at the school on Tuesday evening, Oct. 15th with Edward Donovaro acting as chairman, and Mrs. Shirlu Scott as Secretary. Alger Sollows and William Linkletter were the Trustees present.

Reports were read and discussed. A vote was taken at which time Richard Tibert was selected to finish out the next years term in the place of trustee, Duncan Mallison, who is moving from the Island. Mr. Linkletter as Senior Trustee is now the Chairman in the place of Mr. David Outhouse whose term of Office expired. If it is permissible the Trustees would like three stand-by Trustees to assist them if necessary. A number of Westport people attended the meeting as well as Tiverton and Freeport being represented.

Melvin Tibert Jr., of Lunenburg spent the weekend with his parents, Mr. and Mrs. Melvin Tibert.

### Visits P.E.I. Church

Mr. and Mrs. John Outhouse and son Lee motored to P.E.I. recently where they visited Rev. Ivan Rayner and Mrs. Rayner Murray Harbour. While in the area, they attended Chapel service held at the Maritime Christian College at Charlottetown. Charles McNeil held the devotional and Rev. Al Smith presented a timely and informative message on leadership. Organist was Mrs. Kenneth Morris, Lou Outhouse student there, soloist, sang "There Is Something about the Name, Jesus" with Mr. Rayner narrating. Lou played guitar accompaniment with his brother, Lee, who arrived just in time to accompany them on guitar.

The speakers welcomed the Outhouse family to the event and extended an invitation to them to join with them for the social hour following the service. Rev. Mr. Smith took Mr. and Mrs. Outhouse to the Central Christian Church where he pointed out the tremendous alterations that are taking place in the building. It was understood the church will be officially opened in the near future.

Rev. Rayner took the Outhouse family to his church at Murray Harbour which is also undergoing renovations. They were fascinated by the unique "underground" classrooms, which, while descending the winding cement stairs, were seen tucked in corners here and there until the final one, the nursery class was reached. He demonstrated the method of teaching by "Show and Tell" and how it is used to bring the story of Jesus and His way to the various classes and age groups. When asked how many residents attend church Mr. Rayner said about one hundred and eight, though attendance varies a bit.

Lou Outhouse accompanied his parents home for the Thanksgiving weekend. Dixon Mullen, who is also a student at M.C.C. accompanied the family to his home at Havelock, N.S.

### "Shower"

On Saturday evening a surprise party and miscellaneous shower was held at the home of Mr. and Mrs. Larry Goodwin, Hill Grove, in honor of Miss Cathy Prince, Montreal and Cpl. Gordon Miller, C.F.B. Chatham, N.B., whose approaching marriage is to take place in Montreal, Nov. 9.

Many lovely and useful gifts graced a table, which was decorated with white streamers and wedding bells.

Gordon assisted Cathy in opening the gifts and reading the cards, after which he thanked each one for their gift and expression of best wishes.

Delicious refreshments were served by the hostess at the close of the evening.

## Impatient Death

The garden lays unharvested and still  
There was no time to cultivate  
and till  
Death could not wait  
The cows impatiently wait to be  
fed

Time did not permit for them to  
be led  
Death could not wait  
The hay lays in the field  
smelling so sweet

There was no time, there it  
stays in the heat  
Death could not wait  
There were no departing words  
to be told

There was no time for even  
hands to hold  
Death could not wait  
Impatient death when, for me,  
will you come

Will I be ready, will my peace  
be done  
Will yours?

### Grows

The newly opened New Horizons Centre is now attracting increased attention from senior citizens in Bear River, and the membership continues to grow. The Centre is open daily, from 1 pm until 5 pm; and in the evenings for special gatherings. Refreshments, games and good company are available for all who drop in during these hours. A provisional programme of all activities that have been requested, has now been circulated. These include pottery, painting, handicrafts of various kinds, and woodwork. A Chess Club has been the first to claim its own time period, and will be held on a fortnightly basis, Thursdays at 7 pm. Many other groups are being formed and it is planned to have a permanent programme ready by early November which will continue throughout the winter.

The first Centre birthday party (for those members with birthdays in October) was held Thursday October 17. Four members were honoured in this way, the oldest being Mr. Fred Reid, who at 92 years of age is a "very Senior Citizen indeed." A birthday cake, party games, a sing song and a lunch were greatly enjoyed by the good number of members present. Bear River Club is expecting a visit soon from the members of the Digby Club who took part in the recent exchange with the New Horizons group in Killarney, Manitoba. ## Autumn...

### Goddess of the Hills

Goddess of the hills is Autumn, Holding in Her hand the pulse of moving seasons, beating a simple heart-tune of our time. She watches the silent ritual of the soaring birds, Long, graceful wings aloft in the sky,

making their farewell flight over amber tinted hills. She waves her slender wand and trees by sudden magic turn to gold,

While rolling wisps of cloud fade away behind a crimson-tinted grove.

Her long and gentle fingers caress the slopes with sunshine, As a muted hush comes to bless with a blue, and peaceful haze.

She brushes the land with harvest hues and proudly wears her crimson gown sequined with amber gold.

With splashes of sun she paints the gray horizon's rim, pink-etched with frame of quiet blue.

Goddess of the hills is...Autumn.

Dancing into our hearts with laughter,

Leaving memories to treasure as she drifts away.

Chlorinated water dries hair. Individuals who swim in a chlorinated pool may find that using a mild shampoo formulated for dry or damaged hair will help to keep hair in good condition. Shampoo only once. Follow with a cream rinse or conditioner. Wear a bathing cap to protect hair from salt or chlorinated water.

PHISOderm liquid skin cleanser is used by many nurses for handwashing. It protects skin with special emollients and is compatible with the skin's natural chemistry.

## Borax brightens winter fires

ONCE the daily or weekly newspaper has been read, and articles of interest clipped and put in the kitchen drawer, there still remains a large quantity of paper to get rid of. There are three ways of disposing of these accumulations of newspapers.

You can throw them in with your regular garbage, which we are not encouraged to do in most areas.

You can bundle them up for collection — in most places someone comes around regularly to pick up old newspapers.

Or if you have a fireplace you can try your own personal recycling system by making logs for winter evenings. By adding one of several chemicals, you will finish up with an inexpensive log which will burn with brightly coloured flames to enjoy on those dismal winter evenings.

All the chemicals listed below are fairly easy to obtain but need to be used with common sense and caution. Keep them out of the reach of children and pets, and mix them in a disposable plastic container as most of them will corrode metals. Don't use a container you might unthinkingly later use for food, it's better to be safe than sorry.

And remember, in this case red and yellow do not make orange so don't try to combine

chemicals for different colours. Rubber gloves are probably a good idea too.

Add about a half pound of the chemical you choose to a half gallon of water. Soak the newspaper thoroughly in the solution and drain off the excess liquid. Then roll the sheets of newspaper tightly until you have a log of the required size and leave to dry.

A roll 3" in diameter will take about a week to dry.

For a purple flame, use Lithium Chloride; red — Strontium Nitrate; orange — Calcium Chloride; yellow — Potassium Nitrate; apple green — Barium Nitrate; blue — Copper Sulphate. All these chemicals can be obtained in a large drug-store.

Without even leaving the house, you can find chemicals to produce two of the most attractive colours. Common table salt will give you a yellow flame and for a startling green flame use a solution of pure borax such as 20 Mule Team Borax.

A stack of these newspaper logs will add sparkle to your fire. And if you don't want to go to these lengths to get coloured flames in your fireplace this winter, just throw in a handful of pure borax or salt and try to see your dreams in the flames.

Canadian Girls in Training groups of the Halifax-Dartmouth area are already preparing for the television presentation of the Christmas CGIT Vesper Service, "The Light of God's Love". The service involves girls from groups from the metro area for leading in worship, dramatic parts, choir and the Bayers Road United Baptist Hand Bell Choir. The service will be viewed by television watchers all over the Maritimes.

Once the service has been thus presented the group will take it to Senior Citizens' Homes, hospitals and to shut-ins.

The Christmas CGIT Vesper Service is a tradition of the CGIT movement and one of the highlights of the year's activities. Funds received from the offerings are used to help support the National CGIT program. The service this year involves several contemporary Christmas songs as well as the traditional carols and a candlelighting ceremony.

A successful CGIT camp, held this summer at Pugwash was reported as being a valuable experience for both leaders and girls. This was directed by Miss Leanne Oickle of Amherst formerly of Bear River, and Mrs. Sharon Mowse, Summerside with Miss Marion Blackwell, Truro as Business Manager.

Trees Teach

Trees and Branches teach a lesson in the Bible. Severed branches are worthless except to make a bonfire. There is a startling word from Christ in John 15, "I am the vine, ye are the branches". Again, "If a man abide not in Me, He is cast forth as a branch...men gather them and they are burned."

By this illustration it is plain to see how worthless we are without attachment to God by faith. We can struggle in our own energy to do good deeds, and to bear the fruit of achievement, only to face this reality, "without Me ye can do nothing."

Many do feel the worthlessness and bleakness of living. It may be that they are cut off from God and withering like a branch chopped away from the tree.

To spend our years away from vital relationship with the living Saviour is to have a dead existence, and a pointless future.

It doesn't have to be this way. Again this same Word assures the reader, "If Ye abide in Me...Ye shall ask what ye will and it shall be done."

Prayer gets answered when the lifeline of faith is solid between the Lord and ourselves. Practice is better than theory as we, "Abide in the vine and He in us."

## MUNICIPALITY

## REPORT ON POLLUTION CONTROL STUDY

W. H. Horner of the W.H. Horner and Associates Ltd., Consulting Professional Engineer made his report of the second study on pollution control for the Municipality of the District of Digby when the Council met in regular session on Monday. Phase one was a preliminary study to determine where pollution control was needed most and phase two looked into ten areas where pollution was worst as found in visiting the sites. Maps were exhibited with the report showing present buildings and future engineering plans in developing a pollution control system.

In reply to questions posed by councillors, Mr. Horner compared the cost of sewage pumping stations and treatment plants. The decision to have more pumping stations on treatment plants depended on the capacity and the degree of quality of the station. The

lagoon pollution process was laid before Mr. Horner but he said these had not proved to have the best operation.

Mr. Horner reminded the Council of the federal and provincial grants available to municipalities in installing a sewage system and gave a breakdown of estimated costs in various regions of the municipality. Estimated capital cost in Phase I at Weymouth was \$883,000 of which \$308,960 would come in direct grants leaving a balance of \$574,040 to be financed. The annual amortization cost (ten per cent interest for 30 years) \$60,850 with 79 per cent being the effective provincial share of \$48,300 and the 20.6 per cent of \$12,550 the effective municipal share. The estimated annual operating and maintenance costs are \$10,300 making a total annual cost of \$22,850. There would be 259 units served in the Weymouth study making a cost

of \$88.22 per unit.

Similarly Mr. Horner worked out estimates for other villages with resulting figures being Bear River, 90 units at \$87.77 per unit on the Digby County side and 93 units at a cost of \$96.07 per unit on the Annapolis County side; Smith's Cove, 64 units at \$146.64 per unit; Digby North 89 units at \$125.46 per unit (including estimated costs for use of the town pumping and treatment facilities; Digby South, 86 units, cost per unit \$124.83) sharing town facilities; Centreville 35 units, 127.14 per unit; Sandy Cove 60 at \$130.83; Tiverton 70 at 123.42; Freeport 100 units at \$114.50 and Westport, 105 units at \$145.57 cost per unit.

Mr. Horner explained in detail the positions of pumping stations, lifts and treatment plants and locations for fallouts. No action was taken by the municipal council regarding sewage disposal but each

councillor received a detailed copy, including diagrams and maps of the study to peruse at convenience.

Joe Casey, M.L.A. appeared at the Council meeting for the municipality of the District of Digby on Monday and heard the report of councillor Mrs. Helen MacNeil on behalf of the St. Mary's Bay Marshlands owners (account of marshland meeting other columns of this issue. He assured council that the Deputy Minister of Agriculture, Charles Douglas returned to Halifax after the marshland meeting armed with much information to form a decision on the matter. The municipality went on a record on Monday as supporting the St. Mary's Bay Marshlands organization in their brief to the minister of agriculture, John Hawkins, to retain the marshlands for hay and pasture for cattle and not have the lands returned to the sea. The brief had requested the

building of a dyke and make badly needed repairs.

A report on a survey in the municipality on the need of senior citizens homes and public housing was presented. The survey showed 15 from town, 15 from the municipality and 10 outside (total 40) interested in the senior citizen homes and 31 applications were received for public housing. Councillor MacNeil stressed the importance of privately operated nursing homes to cover the gap from hospital to Tideview Terrace care.

The municipal clerk was authorized to send letters to the various fire departments in the municipality requesting a meeting on November 18 to discuss overall coverage for fire protection in the municipality. Weymouth fire department had given notice that they would not be serving outside areas after December 31, 1974.

The council decided to make a

study of expenses regarding school maintenance in order to ascertain the most economical method of handling these costs. A discussion also arose on the need of a new fire alarm system at the Digby Regional High School.

By regular motion the municipal council authorized that a letter of appreciation be sent to the Digby County Power Board in appreciation of the excellent job they did in restoring hydros after the recent heavy storm.

"Bud" Winchester, Arthur Rice and Helen MacNeil were named on the nominating committee to draw up the council's committees for the year.

## Seek to Retain Marshlands

Chipman Chisholm, president, presided at a meeting of St. Mary's Bay Marshland owners and farmers at the Conway Co-Op on Wednesday to deal with the matter of retaining the marshlands for cultivation. Present were the Deputy Minister of Agriculture, Charles Douglas; Joe Casey M.L.A. and Malcolm Woodland of the Nova Scotia Department of Agriculture.

The marshland owners had directed a resolution to the Agricultural Department stating the advantages and useful purposes of the marshlands which had been instituted in 1961 at the head of the Bays. At the time the marshlands with the dyke had been instituted at an initial cost to the N.S. government of \$125,000. Today the dyke is badly in need of repairs on the marshlands, which took six years to clear from salt, will again go back to the salt water.

The resolution included the results of a survey which revealed the marshlands at an acreage of 720 with 457 acres in use. Three hundred and fifteen are in pasture, 87 for hay and 55 in grain.

Department engineers had not been encouraging about repairing the dyke but the farmers felt the amount of hay and pasture land produced should not be neglected in such a time when there is such a demand for food. The retaining of the marshlands they felt would stimulate the whole agricultural industry in the area and be of great value to the farmers of today and future generations. Many livestock producers are fully dependent on the dykeland for pasture and other livestock feed production. The aim of the farmers is to maintain 600 head of cattle on the dykeland. It had been found, the farmers said, that this dykeland has more potential for producing good high quality livestock feed than much of the upland produces.

While Mr. Douglas realized the difficulties repairing the dyke because of rock fill having no solid footing but he did gain much information to give the department on his return to Halifax. The possibility of piling being placed to retain the dyke area was mentioned and the suggestion was made that this should be experimented upon.

Members of the Marshlands development felt that none of the young people would be interested in investing money into the St. Mary's Bay Marshlands unless they can be assured that the government will provide the dyke.

Joe Casey, M.L.A. told the farmers that the initial cost

was not detaining a reply to the brief presented but the government had to be assured that the rock or pilings remained secure if repairs were attempted. Mr. Casey and Mr. Douglas hoped for a favourable reply when they returned to the Minister of Agriculture with the information they had obtained at the meeting.

## Editorial

### WELL DESERVED PRAISE

The Council of the Municipality of the District of Digby rightfully praised the Digby County Power Board maintenance staff, along with the superintendent, Stuart MacNaughton, on Monday for doing such an excellent job on getting power back after the October 20th unseasonal snow storm which played havoc with telephone and electric wires throughout Nova Scotia. While many areas had not received power until way on in the week, Digby was fortunate to get power restored by Monday noon. This was accomplished by the superintendent, himself, along with the crew attending to the breaks. This is in no way meant to underestimate the effort put forth in other areas.

One reason for quick service might be attributed to the fact that the Digby County Power Board poles and lines did not fall to the extent that the Valley poles, for instance, fell. This, it is felt, can be attributed to the quality of materials, maintenance and workmanship in the area served by the Digby County Power Board. While other areas which were harder hit by the storm had a much more difficult time to untangle and restore, we cannot help but appreciate especially the Digby County Power Board's rise to the occasion of the storm and their efficiency and quality of service throughout the seasons which actually prepares for such emergencies.

There is another area in which we feel Digby County deserves praise. That is in clearing the highways of ice and snow and making transportation more safe. We have noted this before and there was no exemption in the case of the recent storm. Sometimes there is a vast difference in the state of the highway from one county to another.

### PARENTS, LEADERS AND HELPERS NEEDED FOR SCOUTS

A few weeks ago we tried to remind our adult readers of the importance of parents taking an active interest in the Girl Guides and Brownies. Leaders and helpers were needed if the groups were to carry on. We hope that our contribution might have been responsible in some measure for the increased interest shown when a good attendance was noted at the Local Association of Girl Guides and Brownies held recently. Their attendance and interest saved the day for the Guides and Brownies for without this upsurge in interest, we were given to understand, there just would not have been Guides and Brownies in Digby.

The same situation now exists for the Scouts and Cubs. It is a genuine situation and not put on. Without parents and leaders for participation in the organizations there just won't be any Scouts or Cubs.

We who are so willing to blame youth for so much vandalism and crime in our day, had just better look to ourselves and see what leadership we are giving to youth. Are we doing our best to fill their hands with challenging and uplifting things to do instead of leaving them to idle their hours and fall into wayward ways and errors. Parents are responsible for the youth in giving direction for their lives.

A Scout meeting is advertised in this issue of The Digby Courier. The meeting will be needing the interest and leadership of adults. Why not get in touch with the Scout and Cub Masters now and offer your services? Don't let the youth down. Without your interest there won't be Scouts and Cubs and what shall we do then to mold the lives of youth? What have we to replace these organizations which are geared to bring out the best in the boys and prepare them to take their place as adult citizens in our communities.

## Hodge Podge

— Digby Municipal Council seemed to be the first to bring up recently the alarming increase of bear population in the municipality. People were encountering the animals on driving on the highways and in cases had made their way to sheep and cattle lands. We now see where Kings County and other counties are also concerned about the increase of the bear population and the problem of the bears roaming about. Maybe a change of law which would not protect this particular animal at this time might be feasible. This is a good time to think on these things and voice opinion. Hunters might like to collect bounty for bears for a while. Farm crops as well as cattle might be spared by this. —

— October 20 brought us plenty of snow to make a snowman. Suppose if we were advertising that commodity we would have to refer to it as snow person or snow man-woman. This Human Rights bit is really catching on though. We sat through a full day

## Mental Health Teach-In A Success

The first national "teach-in," organized and carried out by the Canadian Mental Health Association, held October 16 to 18 in Ottawa, has been deemed a real success. Well over 500 delegates from Mental Health Association branches from the North West Territories to Newfoundland as well as mental health professionals and representatives from other helping organizations attended the teach-in which focused on helping troubled people in the community. Included were close to 40 delegates from Nova Scotia. Attending from Mental Health - Digby were Rev. John Stokoe, Vernon Wessell, branch President, and Mr. and Mrs. Victor Cardoza.

The opening event of the teach-in was an exhibition of art work by troubled people across Canada. Held in the National Art Centre, the exhibition served to highlight another approach to helping troubled people. For many of these people art has led to a rediscovery of the capacity to feel and to give expression to feeling. Very often this has been a healing process.

Miss Coline Campbell, M.P. for South Western Nova Scotia and Parliamentary Secretary to the Minister of Health and Welfare, opened the exhibition. Introduced by Mr. Travis Cushing, President of Mental Health - Canada, Miss Campbell commended the association for developing the exhibition as a part of their program in connection with the national teach-in.

Keynote speaker for the opening session of the teach-in was M. Claude Castonguay of Quebec. In

his address M. Castonguay stressed the need for the creation of greater understanding of the needs of troubled people and the effective ways of meeting these needs. He noted that, while general programs played a part, there is also need for specific projects aimed at meeting specific problems.

The thanks of the more than 500 attending the opening session were expressed to M. Castonguay by Victor Cardoza, former President of Mental Health - Nova Scotia. Mr. Cardoza also presented M. Castonguay with a gift on behalf of the assemblage.

Four main lecture sessions were featured at the two day teach-in. Some 34 subject workshops were also presented as were territorial and provincial workshops. The lecture sessions, workshops and special interest group sessions were repeated so that as many delegates as possible could attend a majority of the study sessions.

The four lecture sessions were focused on working with and through the media; working most effectively with others in the community; how to work with and through federal, provincial and municipal governments; how to make better use of professionals and mental health services. All of the workshops and lecture sessions were aimed at bringing more effective and better organized help to people in trouble in the community.

The lecture session on working with and through federal, provincial and municipal governments, was presided over by Victor Cardoza. In defining

session of a women's group recently when reference was made only to chair person. Not chairman or chair lady, but chair person. —

—Something tells me we've gone about as far as we can go. Our letter from Pennsylvania was addressed "Honourable Edith M. Wallis, Editor". Could be we might have to establish a Department of Editorialism or Department of Journalism in order to accommodate the title. Then there are the deputy ministers, aides and secretaries which absolutely must go with so honourable a position. —

— Anti-freeze for cars, it is understood, had been in tight supply the past two winters. Twenty-five years ago we note that for the first time since the war there was an adequate supply of permanent-type anti-freeze on the Canadian market. —

A Strange Crane Story (From our Meteghan Correspondent)  
One evening lately a young man, after setting a net in the bay, decided to wait awhile to watch till the net became full, as the fish were in immense schools, and becoming lonesome he leaned his head upon his hands and knees and gave himself away to thoughts. Presently he felt something on his shoulders, and then a fluttering of wings. His first thought was, could he have passed over the great river in his dory and an angel ready to bear him aloft.

Then again looking ahead without moving, he knew he was yet in St. Mary's Bay, where angels are not numerous, so an idea which made him shudder, came to him, that perhaps his satanic majesty through one of his demons was on the point of carrying him beneath the waters and so on down till hot coals were reached, for breaking some law, human or divine. But as he had no wish to depart yet awhile, either above or below, he, gaining courage, put his hand around to his back and grasping what seemed to be a warm stick, a great fluttering of wings and feathers flying, soon convinced him it was very queer angel or demon, for on bringing himself to look at what he was struggling with, to his utter amazement it proved to be a crane. Now why a crane should fly onto a man's back seems unanswerable, but as there were some fish in the boat, and being dark, and the young man perfectly still, accounts for it. The crane was simply on a fishing excursion, and he wanted to get some without having to catch them, just as some trout fishermen do. For fear the above may not be believed, we will give the name of the young man, who is Theodore Melancon, the well-known and popular singer of this place.

## Agriculture - Farming Technology

Nova Scotia's Minister of Agriculture and Marketing, Hon. Jack Hawkins, today announced a new course in farming technology, starting at the Nova Scotia Agricultural College this year.

"The course is designed to prepare students for careers as operators of modern farms," Mr. Hawkins said. "It is hoped that it will tie in very very closely with both the young farmer policy and the land leasing and land banking policy in such a way that it will encourage and make possible for many of our well trained young men to become future farmers."

The farming technology course will contain on-farm training as well as a minimum of five semesters of courses and projects on the campus of N.S.A.C. A minimum of eleven months is planned on selected farms for instruction and experience under the farm operator.

The prerequisite for admission to the farming technology course is the successful completion of one year of the following agricultural technician courses:

agricultural business, animal science, or plant science. The on farm training requires that satisfactory levels of proficiency be obtained in a number of farm skills, and in the planning and management aspects of a farm operation.

These skills and learning experiences will be the responsibility of both the student and the farm instructor, and they will be clearly established and documented for

the course of study. There will also be a testing program to evaluate the level of skill acquired.

Each student will be required to complete a major farm project which will relate to the course of study at the college as well as to the on-farm training situation. This project will indicate the student's knowledge and ability to apply that knowledge to the resources of a specific farm.

The student will analyze the farm operation in detail. He will develop new objectives for the farm that will demonstrate his ideas of how the farm should develop, and he will lay out the detailed projections in a paper which will show the step by step changes required in financing, cash flow and labour to meet those objectives.

The on campus courses will be centred on management with the student taking a selection from on-going courses, depending on the farm specialty that he wishes for his future farming operation, thus enabling him to major in livestock, field crops, or horticultural production.

"Nova Scotia has opportunities for young farmers who can purchase into existing farm operations," Mr. Hawkins said. "Fifty per cent of our present farmers will be reaching retirement age by 1980. In the case of full time commercial operations, 25 per cent will be reaching retirement age in the next five years. There are also land and markets for new farm operations."

## Wedding

### FAULKNER—PURCELL

A quiet wedding was solemnized in the Chapel at CFB Stadacona, Halifax on August 31st, 1974 when Marion L. # M.S.I. Pharmacare for Nova Scotians 65 years of age or over

This is a brief description of the benefits and limitations of M.S.I.'s Pharmacare plan — please read it carefully. Pamphlets describing the plan more completely will be prepared shortly and distributed to all pharmacies and M.S.I. offices.

If you have any questions, please contact your nearest M.S.I. office — they will be pleased to help you.

## Benefits

If you qualify for the Government of Nova Scotia's new Prescription drug program you will be entitled to receive insured services when ordered by your doctor or dentist for the following:

- All drugs which by law require a prescription
- Certain other drugs which are normally prescribed and which have been approved as insured drugs by M.S.I. (a list of these drugs has been released to all pharmacies).
- Prescribed ostomy equipment

## How to Claim under M.S.I.

Each eligible person should have received a personalized plastic "Pharmacard". Present this card to the pharmacy of your choice along with your prescription. The card can only be used to obtain drugs prescribed for the person named on the Pharmacard.

## Participating Pharmacy

If the pharmacy has agreed to participate in the plan your card will be accepted and a claim form prepared listing the medication(s) dispensed and the cost. The claim form must be signed by you or the person you designate. The pharmacist will give you a copy of the claim and send one to M.S.I. for payment. The pharmacist will accept M.S.I.'s allowance as payment-in-full. You will not be required to make an extra payment for insured services provided by a Participating Pharmacy.

## Non Participating Pharmacy

If the pharmacy has decided not to participate in the plan, you will be advised immediately upon presentation of your M.S.I. Pharmacard. You will be required to pay for any prescription dispensed. The Non Participating Pharmacy will complete a "Pay Patient" claim form for you, or you will be provided with a form and the pharmacist will give you sufficient information to enable you to complete the claim form. Send the completed form to any M.S.I. office and you will be reimbursed by M.S.I. in an amount equal to what would be paid a Participating Pharmacy for dispensing the same prescription.

## Other Authorized Providers

Provision has been made to insure drugs dispensed by a physician where there is no pharmacy within 15 miles of the physician's office. Drugs dispensed by other physicians will not be insured.

Provision has also been made for Nursing Homes, Extended Care Facilities and similar institutions to be granted "authorized provider" status by M.S.I. for the dispensing of insured prescription services to registered patients.

## Prescription Quantities

A single prescription is limited to a 34 day supply unless your physician and pharmacist agree that a larger quantity can be safely dispensed, in which case a 100 day supply is allowed under the plan. Amounts in excess of 100 days supply will require the prior approval of M.S.I.

## Limitations

The program is not intended to cover the cost of preparations you would normally purchase from a pharmacy without obtaining a prescription from a doctor or dentist. Unless specifically approved by M.S.I., the following medications and supplies are not covered under the plan:

- Patent medicines and so-called household remedies
- Laxatives, antacids, cough and cold remedies, vitamins, analgesics (pain relievers) and other similar products readily obtainable without a prescription.
- Bandages, dressings and similar products
- Trusses, canes, convalescent aids, prescription accessories and other similar non-drug items.
- Any insured service to which the resident is entitled to benefit under D.V.A., W.C.B. or any legislation of Nova Scotia or any other jurisdiction.

## Recruit

## For R.C.M.P.

The first phase of recruiting for the new RCMP auxiliary force will commence this week in the Halifax, Truro and Sydney areas.

The auxiliary police program, a joint undertaking of the RCMP and Nova Scotia Emergency Measures Organization, is intended to provide trained police assistants to the RCMP in natural emergencies or when a national emergency exists.

RCMP detachments in Halifax, Dartmouth, Chester, Truro, Stewiacke, Tatamagouche, Glace Bay and Sydney have been designated as the first units to recruit and train the volunteer policemen. An authorized number of volunteers has been established for each of the eight detachments.

The second phase of the recruiting program involving other detachments in the province will commence in early 1975. Eventually, the auxiliary force is expected to number approximately 200.

To be considered for enrollment, an applicant must be between 19 and 55 years of age, between five feet, six inches and six feet, five inches in height and in good physical condition, single or married, established within the community he will serve and recommended by the NCO in-charge of the detachment.

The volunteer policemen will receive training in criminal law, crowd control, emergency planning, first aid, small arms familiarization and traffic control. They will serve on a part-time basis without pay except during an emergency.

## In Accident

Mrs. Webster Dunn is in the Digby General Hospital following a car accident near the Milford House enroute from Bridgewater. With Mrs. Dunn were her three sisters, Mrs. Janet Munroe, Mount Pleasant, Mrs. Stella Nichols and Mrs. Bertram Miller, Digby. Mrs. Munroe received a cut which required stitches. Mrs. Dunn has a fractured disc.

It is alleged that a car side swiped the car in which the four sisters were travelling, causing it to veer to the side where it cut a pole. The car was a total wreck.

## Remember ... Think ... Participate

On November 11th, Canadians all across the country will stop and remember the 114,000 men and women killed in wars.

That is why November 11th is called Remembrance Day.

But what about those who can't remember Canada's wars?

Well, let's look at our theme: **REMEMBER ... THINK ... PARTICIPATE**

What does it really mean?

There are more Canadians today who cannot remember war than at any time in this century. Since 1945, we have enjoyed a longer period of peace and freedom from a major war than any other period in this century.

But whether or not one can actually remember war, he should think about it particularly at this time of year. The very fact that you cannot remember war is something to think about. It means that you are extremely fortunate.

Imperfect though the peace has been, it is much better than war. So when we think about the poppy, we might be reminded that Canadians who died liberating Europe created a world a little better than the one they knew.

We might also think of where Canadians first found poppies. In the First World War, the soldiers noticed that the red poppies often grew over the graves of their friends. And they remembered this later when peace came.

Today, we normally associate flowers with peace. The poppy is the first peace flower, because it is the flower which won the peace.

Another thing to think about is that by the time thousands of young Canadians went to war, Europe was in slavery. They died liberating millions of people. They also died so that we here today could continue to enjoy the freedom which we have. They died so that your home would be safe; so that you would be given the chance to go to school and to the church of your choice. They also died so that you could make friends with whomever you pleased.

You might think about this for a moment: their desire that you live in peace and freedom was more important to them than life itself.

But the poppy is not all in the past. It has a lot to do with you and the future. The poppy asks you to think of how you can work for peace and a better country.

It invites you to think about your freedom.

Today, some people misuse freedom. They think it is a license to burn buildings or call other people pigs. Freedom without a sense of responsibility is worse than the evil Canadians died trying to destroy.

Therefore, the poppy finally asks you to think about your

sense of responsibility: in your classroom; in your home; in your community.

The poppy - the flower that won the peace - urges you to use the peace to help mankind; to promote a more lasting peace, understanding and above all, the dignity of man everywhere.

The Canadians who died believed in a better future. It is up to you to work for this future.

If you do, you will have remembered. And when you wear a poppy, you participate by showing the world that you also care.

## Red Cross Commissioner Addresses Local Organization

Charles Illsley, Commissioner of Nova Scotia Division Canadian Red Cross was guest speaker and showed a film on Red Cross work at the Digby Branch annual meeting on Wednesday.

Such things as helping, being kind, smiling and being friendly are in no way affected by this era of inflation Mr. Illsley told the local Red Cross Group prior to the film entitled "Help Us Help". Sometimes, he said, these things seem to be unimportant but they can save a life. Honesty, integrity and devotion, he said, are just as necessary today as a thousand years ago. Compassion, hope and understanding are by-words in Red Cross.

Mr. Illsley said the regionalization of Red Cross was implemented in search of a method which might enhance the work of the Red Cross. Today, he said, there are a great many competitive things but in spite of inflation, T.V. and other activity the Red Cross with its Blood Donor service goes on. He mentioned the difficulty of bridging the generation gap in the functioning of Red Cross work. Mr. Illsley reminded the audience of the method of Memorial Cards to add to the funds to "Help Us Help".

Mr. Illsley was introduced by Mrs. R. B. Lent and thanked by Harold Emerson, president, who presided.

Edward Comeau, Regional Vice-President, also brought greetings and spoke of the work of each region. Also speaking was Dr. T. W. Hodgson who for many years had been Red Cross president in Digby. A vote of thanks was extended to the retiring president, Harold Emerson, for his services.

Mrs. J. J. Brittain presented the treasurer's report revealing balance as of November 1, 1973 was \$149.00. Total receipts for the period to October 1, 1974, were \$528.21, disbursements \$387.21, leaving a balance of \$141.00.

Mrs. H. M. Warne reported three Badge of Service awards were presented during the year. The recipients were Mrs. Loran Hayden, Mrs. Blair Daley and

Master Corporal Stan Rice of Bear River was the Radar technician involved in C.F.B. Greenwood's Air Traffic Control assistance in locating a lost aircraft. (Canadian Forces Photo)

## New Horizons Entertain

The first entertainment program of the fall season was presented at St. Mary's Municipal Home at Meteghan Centre for the boarders. A group from Weymouth Mills, Beatrice Rose, Etta Langford, Catherine Langford, Jennie Cromwell, George Langford, with Mrs. Marguerite Saulnier and Mrs. Lizzie LeBlanc of the Weymouth New Horizons Club, as well as Mr. Jerry Saulnier, presented a program of hymns and old time songs.

The program was enjoyed by the boarders. Mrs. Marguerite Saulnier and Mrs. Lizzie LeBlanc presented each boarder with a small gift on behalf of the Weymouth New Horizons Club. The singing group intermingled with the boarders following the program of songs, chatting with them.

The entertainment program is presented by volunteers and it is a worthwhile venture. The program as such has been organized for the last two years. Previously there was no coordinated program and it happened on several occasions when entertainment programs were given two nights in a row in the same week to be followed by long periods of time that no entertainment was presented.

Groups, organizations or individuals are asked to contact Albert P. Melanson, Church Point, N. S., telephone 769-2429 before presenting programs so dates can be arranged and coordinated. A schedule of visits to St. Mary's Home will be drawn up and it is also planned to do the same for other private homes in the Municipality, as in Saulnierville and soon the Senior Citizens Apartments in Church Point.

To date two groups have given their names to present entertaining programs at St. Mary's Home and these are: Les Femmes Chrétiennes of St. Mary's R. C. parish of Church

Point, who will visit the Home on a date to be decided later during the week of November 4th and on November 19th, Neil Boucher and his Gang will present a musical and songs. Both programs are expected to be pleasant and enjoyable for the boarders.

Following the first year of operation on a scheduled plan, it was shown that the programs the boarders appeared to like the best were, Bingos, old time fiddling music and folksinging. The latter item should have a good number of French folk songs but must also include a few English songs because there is one lady who does not understand French.

Clubs and organizations will be asked shortly to contribute towards this program and help make life more cheerful for boarders in privately operated Homes as well as Municipal Homes.

# Sincere Thanks To Our Customers

We wish to express our appreciation for the patience and co-operation of customers who experienced power interruptions as a consequence of the unexpected Sunday storm of October 20. As you are aware snow and rain driven by gale force winds caused extensive damage to power lines and poles on a province-wide basis. Our crews worked under the most difficult conditions making permanent and in some instances temporary repairs during the height of the storm and the days immediately following. The dedicated effort of our line crews were aided by the help of crews from the New Brunswick Power Commission, Canadian Armed Forces and from major transmission line contractors. We are extremely grateful for their

prompt and expert assistance. Work will continue for some weeks to bring our overall distribution system back to normal. During this time, it is possible that our repair operations may cause very brief power interruptions in some localities. If an extended interruption is required advance notice will be given. In the midst of this serious power interruption causing inconvenience and discomfort to many people, we do appreciate the attitudes and actions of our friends and neighbours, especially, those who cheered cold and weary with coffee and sandwiches. Once again, we sincerely thank you, our customers, for your understanding and consideration during this very trying period.

# Hon. A. M. Cameron Disappointed Treaty Not Signed

Hon. A. M. (Sandy) Cameron, Nova Scotia Minister of Fisheries expressed disappointment that a treaty was not signed at the Caracas sea conference last summer for a 200-mile coastal limit. Mr. Cameron was speaking at the annual meeting of the Digby County Liberal Association chaired by Emanuel Adelaar, president, and held in the Digby Lions Hall.

Mr. Cameron felt that if Canada does not obtain jurisdiction and management of the territorial limit off its coast, it would be a most serious matter for Nova Scotia fishermen. Fisheries resources, he said, are only renewable as long as there are fish to reproduce. He particularly mentioned the dwindling herring stocks. He felt that all aspects of Nova Scotia fishing such as packing, operating and marketing would be benefitted by a 200 mile limit.

Referring to the Caracas conference and the delays, Mr. Cameron pointed out that 149 nations were involved and there were six official languages to translate.

Although Mr. Cameron would like to have seen the Law of the Sea Conference come to agreement on the 200 mile limit, he did feel that progress was made at Caracas. Negotiations around the conference table brought out issues which will

facilitate the resolving of problems more quickly. He stressed that fisheries was a provincial concern as well as federal.

Mr. Cameron was introduced by Joe Casey, M.L.A. and thanked by Victor Cardoza.

Other speakers were Coline Campbell, M.P. and Mrs. Casey. Miss Campbell was presented a bouquet of red roses by Keith Finigan on behalf of the party and Ronald Morehouse gave a coffee cup gift to Mr. Casey.

Both Miss Campbell and Mr. Casey referred to the three F's of importance to the area — fishing, forestry and farming.

Miss Campbell told of her work in Ottawa and the establishment of an office in Yarmouth as well as in Ottawa where she also is parliamentary secretary to the Minister of Health and Welfare.

Mr. Casey reviewed some of the accomplishments during the Liberal Government in Nova Scotia such as ditching and paving, completing the Weymouth bridge, purchasing a liquor store in Weymouth, introducing new farm policies.

He spoke of the packing place for herring in Digby and hoped that this would also lead to establish barrel making in the area. He said this is a market for large herring which was not here before and he hoped it would also open to small herring.

Mr. Casey reminded the audience of the ferry service at Tiverton and Westport and the dredging and extending of the wharf.

He cited such accomplishments as free dental care, Department of Recreation, full time Minister of Fisheries and Pharmacare. Minimum wages were raised to 2.00 per hour and it will be 2.25 in January.

Cost of living Mr. Casey is being combatted by taking tax off footwear and clothing and by subsidy to fuel oil and gas reducing oil by 13 cents per gallon. He also noted that the domestic rates of electrical power from the Nova Scotia Power Corporation were not increased.

# Record Digby Red Cross Campaign And Donors

According to the report of Fabien O'Neil, campaign administrator, the 1974 campaign for the Digby Red Cross exceeded its set target by \$130.51. The amount collected was \$2180.51.

Blood donations also chalked up a record.

From the report of E.B. Tufts, District Chairman of the Blood Donor clinics it was learned that a total of 507 registered for the two clinics held in Digby. This was a record for Digby. The clinics are sponsored by the Digby Canadian Red Cross and the Digby Lions Club.

Five scrolls were received. They were for Edgar Wetmore, Beaver River; M.P. Oickle, E.F. Trimmer and A.M. Harris of Bear River and J.H. Thorburn, Granville Ferry.

Mr. Tufts extended thanks to Mrs. A.L. Robinson, Mrs. Joseph Currie and two daughters, Miss Linda Macintosh and the youth group, Layton Hinzman, Mr. Lister Hannah of D.R.H.S., the radio station and the press, Roderick Milne who is a director for Blood Donor Services and his assistant Mr. Joergensen. Mr. Tufts thanked all who had assisted as area chairmen and district committees.

The Women's Work Committee report was given by Mrs. H.M. Warne. The finished articles numbered 1452 which was decidedly down from the 2341 total of the previous year. Mrs. Warne attributed the decrease to the fact that Mrs. Oscar Van Tassell was not able to do as much work as former years because of health reasons. Mrs. Warne itemized the articles to include.

SEWING - 24 Girl's Dresses; 23 Terry Towels; 10 Face Cloths; 170 Blankets; 1114 Diapers. KNITTING - 35 Children's Sweaters; 33 prs. Men's Socks; 18 prs. Infant's Booties; 19 Afghans. BLOOD TRANSFUSION SUPPLIES,

which are in addition to the previous total, included 9873 Gauze Wipes and 225 Swabs. The materials for these articles were provided by Red Cross Headquarters from Campaign funds, and included the following: 775 yds. Terry Towelling, 116 yds. Flannelette 51 yds. Cotton Print, 61 yds. Factory Cotton, 12 lbs. Quilt Batts, 8 doz. Spools Thread, 18 lbs. Knitting Wool and 4 cartons Gauze. All this was valued at \$768.74 but would have cost much more at retail prices.

Mrs. Warne thanked all who helped and donated to the work.

During the year the Women's Work Committee received several donations, which are gratefully acknowledged as follows: 3 afghans from Mrs. Celvantes Dunn, who is now a patient at Tideview Terrace; 3 prs. of socks and 3 prs. of mittens from Miss Daisy MacKinnon; and 2 quilt tops, one from Mrs. Fred May, and the other from Mrs. Wm. Sutcliffe. Not to be classed as a donation, but perhaps termed a "remembrance," are the 6 striped sweaters made by Miss Bertha Boggs, a resident of Victoria Hall, Halifax, who knits for the Nova Scotia Division, but still requests that the Digby Branch be credited with her work. Miss Boggs was one of the most faithful workers

A group of singers from the New Horizons Club, Weymouth, who presented a program of hymns and folksongs at St. Mary's Home at Meleghan Centre recently. Front row, left to right: Beatrice Rose, Etta Langford, Mrs. Marguerite Saulnier, and Mrs. Lizzie LeBlanc.

when she lived many years ago, in Digby.

Mrs. Warne thanked the radio station and the press for their courtesies through the year.

A tea and social time was held before the close of the annual meeting.

# Wedding

YOUNG-RICE

A lovely fall wedding was solemnized on September 14 at the Digby Baptist Church when Thelma Constance, daughter of Mrs. LeRoy Rice and the late LeRoy C. Rice, Conway, became the bride of Barry Glenn, son of Mr. and Mrs. Emdon Young, East Ferry. Rev. Donald Robertson officiated at the double ring ceremony. Mrs. Robertson was organist and Paul Snow, soloist sang "The Wedding Prayer" and "Because".

The bride looked lovely as she entered the church on the arm of her Uncle, Lovitt Trimmer, in a white gown of crimp lace with a floor length train and shoulder veil. Her headpiece was of red and white sweetheart roses and her bouquet was white mums and red sweetheart roses with

red and white streamers.

Maid of honor, Miss Sandra Melanson, friend of the bride wore a floor length gown of yellow crimplene and carried a bouquet of white and yellow mums.

Bridesmaids, Mrs. Joan Young sister-in-law of the groom and Miss Pam Comeau, friend of the bride, wore identical gowns of pink and white and carried bouquets of pink and white mums.

The best man was Freddie Horner, friend of the groom and ushers were Alden Young, brother of the groom and Jerry Titus, friend of the groom.

The bride's mother chose for her daughter's wedding, a long skirt of brown and a blouse of orange, rust and green to match.

## Legislature Sits Nov. 7

The official reopening of the 51st session of the provincial legislature will take place Nov. 7. Speaker Vince MacLean announced after consultations with Premier Regan. The official ceremony will be at 3:30 p.m.

The session, which will be a continuation of the spring sitting adjourned in late June, is expected to be relatively short.

Premier Regan has indicated the government plans to introduce several new pieces of legislation as well as complete the business left over from the spring.

The major item to be dealt with has already been virtually guaranteed passage through the legislature. Legislation granting

teachers the right to strike and including non-teaching personnel in the Nova Scotia Teachers Union bargaining unit will be introduced by the government, and has already gained opposition support.

## Dorcas Society Busy

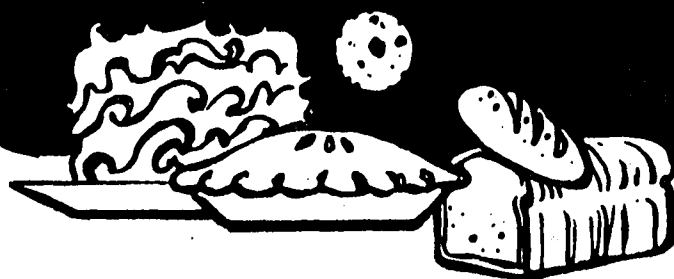

Mrs. Eugene Dexter of the Digby Seventh-Day Adventist Dorcas Society reported to the ladies the amount of work accomplished in the community, especially in giving aid to the poor and needy.

Among the items were six quilts made for several families; clothing and bedding given to 84 families, thirty terry

cloth bibs for the Children's Home; repaired clothing for the Children's Home; supplied groceries for needy families; filled drug prescriptions for children in need and provided clothing and money to a burned out family. Presently the society is planning their program of service in aid of The Christmas Daddies.

## The Snow Goose

Richard Harris stars as active list. Author Paul Gallico painted Philip Rhylander and wrote the story over thirty years ago. Gallico, now an energetic 75 year old, has been in Paul Gallico's film presentation of "The Snow Goose" since 1941. The story tells of the unexpected involvement of a crippled hunchback artist and a fishing village waif, Jennie Autter, who brings him a wounded snow goose. Together they nurse the bird to health and it becomes their constant companion as they become friends.

Then comes Dunkirk. The painter sets off to help rescue soldiers trapped on the beach. The men he rescues tell of his fantastic sailing skill and an apparently charmed life as he plows through the bullets with the great snow goose circling above him like a spirit. First published in 1941, "The Snow Goose" has been reprinted 22 times in the United States and continues on the shelves.

## Gasoline Containers

The snowmobile season, which is just around the corner, marks one time of the year when there is a heavy demand for portable containers in which to carry extra gasoline.

What is important to remember is that none other than an approved metal or plastic container should be used for this purpose. Bottles and

unapproved plastic containers are "out". The hazard of breakage of one and rupture of the other, too often, are major causes of accidental fires.

In fact, as A.P. Doney, Supervisor, Gasoline and Salvage Yards Licensing Division of the Board of Public Utilities, pointed out, it is not only against the law for any person to dispense gasoline into any portable container that fails to comply with regulations under the fire prevention act but, also, an offence to transport gasoline in such containers in any passenger-carrying vehicle.

"That", Mr. Doney says, "is what the regulations made under the gasoline and fuel oil licensing act say. They are regulations which retail gasoline dealers wish to respect and which they endeavour to explain to their customers."

"And yet," he continued, "there are many customers who get pretty nasty and give these same dealers a hard time because they won't put flammable liquid in old vinegar bottles, or in thin, plastic containers which were never meant to carry anything but water."

Another regulation stressed by Mr. Doney is that people who fail to obey the regulations might very well, upon apprehension, find themselves in court and faced with a \$100 fine.

What such people overlook entirely is that there is good, sound reasoning behind such a regulation - an attempt, as Provincial Fire Marshal Robert Kerr pointed out at a fire-fighters seminar recently, to reduce a potential fire hazard which attends the breaking of a bottle of flammable liquid, or the rupture of a plastic container that is below standard.

### Atlantic Hall Of Fame

guished Nova Scotian, Helen J. MacDougall, was among three posthumously honored money at the Atlantic Hall of Fame at the Agricultural College in Truro.

Secretary in his country's Department of Agriculture unveiled three photographs to be placed in the Atlantic Hall of Fame at the Agricultural College in Truro.

Science and the Teachers' College of Columbia University in New York.

She was one of the early teachers of home economics in Nova Scotia prior to moving to Winnipeg where she directed the Women's Work Program of the Manitoba Extension Service in 1918-1919. She resigned when she was invited to accept similar duties in her native province. Miss MacDougall held the Nova Scotian post until her retirement in 1945.

She was Superintendent of Women's Institutes in Nova Scotia for over a quarter of a century.

The late F. Leslie Wood, 1894-1974, a New Brunswick native, also appointed to the Hall of Fame, was a graduate of the Nova Scotia Agricultural College where in 1915 he was awarded the Governor-General's Medal for academic excellence and first prize awards in both livestock and seed judging. Graduation from the Ontario Agricultural College, where he obtained his B.S.A., followed in 1921.

Mr. Wood's career covered a space of well over four decades as Poultry Superintendent and Director of Poultry Services on the staff of the New Brunswick Department of Agriculture.

He is remembered, particularly, by many ex-service personnel of World War II who enrolled for the Canadian Legion Educational Services Correspondence Courses in Poultry which Mr. Wood had

prepared. It was he, too, who marked the 19,124 examination papers submitted for review and correction.

For this effort to assist in the rehabilitation of ex-service personnel, Mr. Wood was made a Member of the Order of the British Empire, and elected a Fellow of the Agricultural Institute of Canada.

The third Atlantic Hall of Fame recognition honored the late Almon Boswall, 1883-1967, whose achievements in the breeding of sheep and swine were recognized not only in his

native Prince Edward Island but throughout Canada.

Mr. Boswall was a familiar figure in the show-rings of Eastern Canada and at the All-Canada Swine Show, held at Brandon, Manitoba in 1957, his entries had the distinction of being awarded no fewer than twelve prize ribbons.

In 1961, Mr. Boswall was made a member of the Canadian Agriculture Hall of Fame, the first Prince Edward Islander to be so honored, and the only living member then of the Hall of Fame Association.

## \$75,000 FOR MARSHLANDS

Nova Scotia's Minister of Agriculture and Marketing, the Honourable Jack Hawkins, announced that rock facing and dyke reinforcement estimated to cost \$75,000 will begin this winter on the St. Mary's Marsh in Digby County.

The improvements will be made to approximately 2500 feet of dyke, protecting 700 acres of marsh. Four hundred acres of this is under good production and on the balance the salt level has declined to a point where production will increase in the next 23 years.

About 125 acres of the marsh is used as community pasture. This pasture had a carrying capacity of about 175 head of cattle in 1974.

There are about 15 major farm operators involved who maintain approximately 500 head of cattle. "Large blocks of good farm land in Digby County is not readily available," said the minister.

Engineering and soil reports indicate that the type of soil on the dyke makes it difficult to get an adequate footing, and while there is concern over this problem, I feel that the interest in the agricultural industry in Digby County is such that we should do everything possible to expand and develop the land base and I am very pleased that we are going ahead with this dyke improvement," said Mr. Hawkins.

"The potential for future agricultural development in Digby County is very encouraging," said the Minister.

"Many Digby County farmers are young and livestock numbers on farms are continuing to increase. Digby

County also has excellent potential for horticultural crops and is the centre of our fur farming industry in Nova Scotia."

"With this kind of potential we feel that all agricultural land possible should be made available to the developing agricultural industry in the country," said the minister.

Mr. Hawkins made the announcement before a group of farmers at the Co-op, Conway on Tuesday afternoon. Present with Mr. Hawkins was D.C. Milligan, superintendent and engineer for Nova Scotia Marshlands. At a previous meeting the Deputy Minister of Agriculture, Charles Douglas, was in attendance and heard first hand the needs of the farmers and their dependence on the St. Mary's Bay Marshlands.

Present at both meetings were Joe Casey, M.L.A. and Bruce Gilliat, agricultural representative for Digby County.

The meeting on Tuesday was presided over by Chipman Chisholm who thanked Mr. Hawkins for coming to Conway and for the decision arrived at. Others who expressed appreciation were Joe Casey M.L.A., Councillor Helen McNeil, Leonard Boudreau and Wayne Comeau who said he had a great deal invested in the marshlands and this will give him an opportunity to go ahead with his plans.

A map showing the areas of pasture and hay lands on the marsh was on display.

Mr. Hawkins who was in-

Joe Casey, M.L.A. and Bruce Gilliat, Digby County agricultural representatives, awaiting the good news from Hon. Jack Hawkins that \$75,000 would be spent in reinforcing the St. Mary's Bay marshland dyke.

roduced by Mr. Gilliat said he was delighted to see young people interested in farming which, he remarked, had great potential if it won't make them the wealthiest in the world.

Agriculture Minister, Jack Hawkins, said this week that as a result of discussion with Digby M.L.A., Joseph Casey, plus the local Federation of Agriculture as well as Agricultural Representative, Bruce Gilliat, that he would ask to have Saint Mary's Bay dyke situation reviewed.

The minister indicated that the original Department study indicated some problem in

connection with soil and maintenance of the dyke.

However, the Minister indicated that he would make an effort to personally visit the area and go over the proposed plan with Department officials in detail as well as viewing the actual area to see if some solution cannot be found.

"Agricultural production in Digby County is not the largest in Nova Scotia. Yet, the Department feels it has fairly substantial potential," said the minister.

"I hope I can get down to visit the Saint Mary's Bay area and visit the dyke within a week or so."

## New Councillors Take Oath Of Office

Digby Town Council on Monday evening at regular session ran into the wee hours of the morning, finishing the business of the session at 2:30 Tuesday morning.

Three councillors took the oath of office and promised to do all in their power for the good of the people of the Town of Digby. The oath was administered by His Worship, Mayor Willard Kinney to Eileen Chipman, new comer; Philip Robertson, re-elected and Guy VanTassell.

Following the ceremony the councillors took their appropriate seats and were welcomed by His Worship and the remaining councillors.

In response the three new councillors reiterated their promise to do to the best of their ability a service for the town and the people who had elected them.

Mrs. Chipman wanted the people who elected her to know that she intends at all times to do everything that one councillor can do to guard the interest and rights of all towns people with equality. Under no conditions, she said, will she be influenced, tempted or swayed in any other direction.

Mrs. Chipman saw a great need for improved communications between the citizens and councillors and she intends to work, she said, for that goal with the hope that the people keep in touch with her and she will keep her mind open to suggestions and opinions and constructive criticism.

Councillor Chipman said she intended to keep taxpayers informed on her position in all matters relating to her duties as one of the six custodians of their tax dollars. Her message said that wrong would not at any time pass by her seat unopposed.

The first item of business to come before the council was honoring a commitment of years ago by giving the deed of a Mount St. property to Mrs. A. Winchester.

Eric VanTassell, Mount Pleasant appeared before Council to request that street lighting be installed at Mount Pleasant. The cost to install would be \$1750 and \$33 per unit for maintenance. A system of payment had not been established.

Council signed an agreement to lease the Canon Bank building to the Kinsmen for

their use and permitted the Club to sponsor a Cystic Fibrosis Tag Day, November 16.

MacDonald Motors were granted permission to construct a warehouse, 40 x 80 on their property on Warwick St. The building would be of steel construction with concrete floor.

A motion to abolish occupancy tax in the town was defeated.

Discussion arose on whether or not parking meters should be covered for two weeks before Christmas as a courtesy to people. It was expressed that business people of the town and the staff take advantage of the free parking and shoppers cannot have the privilege. It was found that the traffic authority has sole authority and power to make regulations under the motor vehicle act.

Councillor Chipman raised the question of how much the town might profit or lose in the appointments of a meter reader or special constable and also the method of engaging a town solicitor. She asked council if they had ever considered to employ a town solicitor as needed rather than on regular basis with a retaining fee.

Reports were heard from

Frank Robinson on sewer and water services and from Webster Dunn on parking meters. In October Mr. Dunn collected \$481.70 from meters, 120 tickets were issued, 52 collected and four cancelled. Seventy-five dollars worth of damages had been done to the meters.

Councillor Patrick Comeau displayed a model of a new town hall for Digby which he had constructed.

Glen Pitman, town clerk, in his report gave the result of the town election when 354 votes were cast for Eileen Chipman; 215 for Joe Hattie; 352 Philip Robertson; 294 Guy VanTassell and 270 Paul Winchester. He said the presiding officers were given \$35 and \$25 instead of \$25 and \$15.

Mr. Pitman will be attending a Department of Municipal Affairs Course in Halifax on November 13, 14 and 15.

His report revealed that an effort is being made to update a town planning survey made in 1965.

He read a notice reminding council that it is expected the Dutch Elm disease is likely to spread to trees in this area and measures should be taken to control this.

Mrs. Eileen Chipman, newly elected councillor for Town of Digby is shown above being sworn into office by His Worship Mayor Willard Kinney.

## Seek New Fire Truck

One of the longest and liveliest discussions which came up at the 8 p.m. to 2:30 a.m. regular Digby Town Council meeting on Monday evening was regarding the purchasing of a new fire truck for Digby. Randy Cummings,

spokesman for the Digby Volunteer Fire Department, was supported in his presentation by several other members of the department. Mr. Cummings had presented the case to the Council at the October meeting and was

requested to bring back some pertinent information.

The estimated total cost of purchasing the required truck and attachments was given by Mr. Cummings as \$30,000. This was calculated on the prospect of obtaining a chassis for \$16,000 to \$17,000 and have it rebuilt to requirements and provide the necessary attachments. There was an urgency to complete such a deal which prompted the firemen to request an immediate decision on Monday evening. If their proposition was accepted there would be delivery of the truck by April or May of 1975. Otherwise it would take more than two years to obtain a suitable fire truck, the firemen advised.

There was a difference of opinion on the percentage shared by the government on such a purchase and the town clerk was asked to find out what might be expected in this respect.

His Worship Mayor Willard Kinney, who presided at the meeting and councillors were cognizant of the need of the fire equipment, knowing that in accordance with the fire underwriters their 20 year old truck should be replaced. Their delay in the decision was to find a way that the purchase could be financed. Mr. Kinney also suggested that other possibilities of purchasing might be looked into and found more reasonable.

It was estimated that the town would have to find \$20,000 at once, to which Councillor Guy VanTassell expressed that he'd sooner see a deficit in the yearly statement rather than wait and lose the purchase opportunity and lose out financially in the long run. A government letter was shown which revealed access to \$15,000 grant towards the purchase.

After further investigation on Tuesday the Council and firemen were to meet for further discussion and come to a decision within a few days.

## Merchants & Business Men Entertained by Publisher

Upwards of sixty down-town merchants, business men and their wives were entertained at the House of Wong on Thursday afternoon at a Coffee Party given by Roy Mailman, publisher of The Digby Courier. The party was held in appreciation of patronage by advertisers and job work customers in the down-town area. In entertaining at the party Mr. Mailman was following a pattern he had established in Annapolis Royal and Bridgetown for the Spectator and Monitor newspapers each year just prior to Christmas. Plaque cards in the dining area read "Welcome To the Down Town Merchants". A similar party is scheduled for the Evangeline Shoppers Mall, it is understood.

Mr. Mailman welcomed his

guests, thanked them for coming and expressed sincere appreciation for their patronage during the past years. He informed the guests about The Digby Courier, the home-town paper and the printing plant which will be paying out approximately \$70,000 in wages for the year. This money, he told the guests, is spent by members of the staff in and around Digby and means much to the economy of the area.

Discussion centered around Christmas advertising, Christmas Shopping Party down town, Christmas store hours and other subjects dealing with the Christmas trade promotion. Several merchants in the down-town stores are finalizing plans to proceed with the 1974 Christmas promotion

## FORM NEW TIDEVIEW AUXILIARY

Mrs. Freda Wilson, Shore Road, was in October elected president of the Friends of Tideview Terrace, a newly formed auxiliary for Tideview. Mrs. M.P. Gott, Smith's Cove, was elected secretary-treasurer. The Friends of Tideview Terrace has been formed to facilitate care at Tideview by supplying necessities and extras for the comfort and happiness of the guests. The inaugural meeting was held at the home of Mrs. Wilson.

On Monday afternoon the newly formed organization met with the supervisor, Mrs. Sherman Rice to ascertain the needs of the Home. Mrs. Rice listed several items such as Christmas table cloths and napkins; screens for between beds, estimated approximately \$42, each; a patient index board for the benefit of visitors; a Coming Events board; a small

table for the examining room, projector; someone to send cards (mail) to the guests; afghans for beds and magazines.

The Friends decided to purchase sufficient Christmas table cloths and napkins for the tables in the holiday season. Mrs. Helen Miller of Newton, Mass., and Brighton, N.S. offered to personally donate a Coming Events board.

Mrs. Gott was requested to send out birthday cards to Tideview guests. Mrs. Rice reported that Cameron's Florist sends a carnation to the Tideview men on their birthdays and a rose to the ladies on their birthday.

Mrs. Gott reported a bank balance of \$40.00 in the treasury and reported \$41. earned by the sale of pocket paper back books.

The group decided to hold a pantry sale on Thursday, November 21, at the lounge in Tideview Terrace.

#### BEWARE, HUNTING SEASON IS HERE

Two of our correspondents this week remarked in their copy or by phone that shots from hunting ammunition had been heard so near to their homes. This gives one a scary feeling but their mention of it prompts us to send out a word of caution, not only to the hunters but to all the residents near hunting areas. Beware of accidents which could happen.

All too frequently the sad story is told of persons being shot in mistake for a deer. All too frequently an accident will happen to a careless hunter in handling or carrying his gun while loaded. And the story has been told of residents going about their daily chores on the farm only to see or hear a bullet whiz by or even cause injury or death.

Hunting can be for some a happy sport but needless accidents take all the enjoyment from the art. Hunters should be stable enough to remain from shooting unless they are doubly sure of the target at which they aim. Farmers should not have to worry about the lives of themselves or their dependents while enjoying a stroll or work on their farm during hunting season. Hunting should have a price tag on it. The hunter should have to prove his skill and responsibility before he is issued a license to hunt.

The hunting season is on us. We should become aware of the fact.

#### HALLOWE'EN SPOIL SPORT

There is no question about it. Hallowe'en in Digby town, so far as we can see was a quiet one with little or no rudeness in celebrating the event. We feel that credit on this score can be given in much measure to the Digby Lions Club which extends "itself each year to entertain and find treats for approximately 600 children. The idea of the party in itself seems to lend a positive atmosphere instead of one of destruction.

However, villages and towns in surrounding areas and through the Valley were not as fortunate and buildings were destroyed by fire in the hands of Hallowe'eners. Dangerous tricks were played and accidents followed in the wake of the Hallowe'en spoil sports.

To spoil Digby's record, we are sorry to admit, came the news that some 35 to 40 windows were damaged the following night at the Queen St. School known as the Digby Academy. It is difficult to understand the warped mind that can deliberately set out on such a destructive mission yet if you pick up any newspaper between here and the Southern States you read of this ruthless destruction of property and food. There seems to be something amiss in the lives of people who resort to such destruction in today's society. We hope it is not past correction and that the country's leaders might take stock of the way life in these parts is shaping up before it is too late. The remedy, of course, might be difficult to find.

We can, to some degree, excuse the Hallowe'en spoil sports who get caught up in a cloud of excitement and gang spirit but what about those deliberate whirled of destruction. They are hard to understand when there could be so much done in a positive way to make life enjoyable.

## Hodge Podge

— The Christmas Daddies committee are anxious to get across to people that anyone wanting a hamper this year will have to complete an application form. Application forms can be obtained at grocery and drug stores in Digby County and in Annapolis County as far as Lawrencetown. If the Christmas Daddies had your name for supplies last year, your name is not necessarily on the list for 1974. An application must be mailed as the application form suggests. Only those families with children up to sixteen years will be eligible. Applications must be received by December 6, 1974. —

What happened to all the village notes this week. The bulk of them did not arrive until Tuesday which makes a short week until printing day on Wednesday.

One thing above all else which stands out with members of the New Horizons is their apparent happiness and cheerful attitude. This in itself makes New Horizons worthwhile for the retired citizens. Digby New Horizons, the Kilarney New Horizons from Manitoba, the Wedgeport New Horizons or any that we have met have the same happy outlook.

## Letter To The Editor

Acacaville,  
Digby, N.S.  
Nov. 1, 1974

Dear Madam:

Allow us some space in your paper to bring to the public's eye, a matter we have had to report to the Human Rights Commission.

On October 19, 1974, we the undersigned, along with Mr. Marvin Johnson, decided to visit the Yacht Club in Digby (Royal Western Nova Scotia Yacht Club) to attend a public dance which had been advertised.

Upon entering, officials of the Yacht Club, flatly told us, "You fellows can't come in because you are coloured." We left humiliated and hurt. A week before Mr. LaMont Miller had to leave the Yacht Club for the same reason.

It is ironic that on the same day we tried to attend the dance, a black man, Mr. Roy Cromwell, was one of the band members at the club. He too was humiliated and hurt, and had to cancel further engagements there.

We are writing this letter with the hope that all citizens of goodwill will find offensive this discrimination by the Digby Yacht Club, and join us in pressing for immediate changes.

## Fall Birds

By Louise Daley

Our winter birds are back. At 7:30 a.m. I have Blue Jays, four White-throats, a pair of Song sparrows, and a Nuthatch having their breakfast. Also a pair of pigeons I can't get rid of.

It has been a funny fall, I have had so few birds through the yard, and I found few Warblers in woods.

The Bird society had a field day at Westport but account of the fog did not them, the first time I missed since they were there. However I did get down week later but found few birds with the exception of Flick and Sparrow Hawks.

Have been checking the at the Pines for several years for trapped birds but very this year, maybe they have changed their route.

I have had two Heron Thrushes brought in, one released after a day in hospital cage the other is

with me, victim of a window crash. He seems to be all right flywise but has no sense of fear. Came right up to his cage to my hand for blueberries, so feel he would be an easy victim for a cat. Seems as though he had some brain damage like "Tiny Tim" so for the present he is with the other eleven in the big cage.

Yesterday I had a real thrill, a pair of Mocking birds in the South end of town, hope they keep on their way south, by February their food gets very scarce as they eat rose haws and berries. Have rescued several over the years and released them in the spring.

No sign of any Orioles so far, there were a lot on Brier Island in late September.

Never have I seen the woods so glorious, the colours so bright and the bracken so many shades of brown, it reminds me of Bliss Carmen's lovely poem, Trees.

In the garden of Eden, planted by God, There were goodly trees in springtime sod-Trees of beauty and height and grace To stand in splendor before His face.

Apple and hickory, ash and pear, Oak and beech and tulip rare. The trembling aspen, the noble pine, The sweeping elm by the river line; Trees for the birds to build in and sing, And the lilac tree for a joy in spring, Trees to turn at the frosty call And carpet the ground for their Lords footfall;

Trees for fruitage and fire and shade, Trees for the cunning builders trade. Wood for the bow, the spear and the flail, The keel and the mast and the daring sail; He made them of every grain and girth For the use of man in the Garden of Earth. Then, the soul should not lift her eyes From the gift to the Giver of Paradise, On the crown of a hill, for all to see, God planted a scarlet maple tree.

So long for this time. The Bird Lady.

# Dangerous Weed Discovered In County

Jimson-Weed, a poisonous plant especially dangerous to humans and livestock, has been found in two areas of Bear River and in Joggin Bridge, its first appearance in Digby County.

Bruce Gilliat, Digby County Agriculture Representative, points out that the weed is extremely dangerous and should be destroyed immediately. The seeds, of which hundreds are located in each pod, are now ripening and he advised that anyone seeing such a plant should burn it before the seeds are spread.

The plants located in Bear River were found near a manure pile and an old hay pile, with the one in Joggin Bridge being found in a vegetable garden, Mr. Gilliat reported.

Jimson Weed (Datura Stramonium, otherwise known as Jamestown Weed or Thornapple) can prove fatal if four to five grams of the plant or seed are ingested by a child. Skin eruptions can result on some individuals by coming into contact with it.

The weed is a tree-like, coarse annual, reproducing by seeds and growing to a height of from two to five feet. It exhales a heavy nauseating narcotic odour and has egg-shaped leaves that are coarsely wavy-toothed.

The flowers, usually pretty and white to pinkish in color, are tubular and two to four inches long.

The plant contains highly poisonous alkaloids such as hyoscyamine, daturine, atropine and hyoscyne. All parts are exceedingly poisonous, especially the seeds.

Symptoms caused by the plant include headache, nausea, vertigo, extreme thirst, dry burning sensation in the skin, dilated pupils, loss of sight and voluntary motion. In extreme cases it can cause mania, convulsions and death.

It was originally introduced from a tropical climate and is found mainly as scattered plants in cultivated land, waste places and about buildings on rich soils.

The plant can be controlled by clean cultivation and weeding of seedlings, and by cutting and burning larger plants. Some herbicides effectively control it in the seedling stage.

# BILLY GRAHAM says about the new motion picture "Time to Run"...

There is no doubt that today we see the family unit being attacked from every side, torn apart and fragmented. *TIME TO RUN* is a motion picture about a family, about listening, about the silence between people, the unspoken moments, and the moments of anger that don't really accomplish anything. *TIME TO RUN* openly offers the real Jesus Christ as an answer to the human dilemma.

I feel that thousands of people will see a part of themselves in this film. Hopefully, families seeing it will be brought closer together in real understanding and communication.

I urge you to take your children... or your parents... to see *TIME TO RUN* when it comes to your community. You may find it more of a mirror than a motion picture!

## GREGORY RETURNS FROM HOSPITAL

Teenage Gregory Elliott of Tiverton, his family and many friends are happier than they have been for several months. It was feared Gregory, who underwent a delicate heart operation at Toronto in February '63, might be faced with a similar operation this week. Arrangements were made for the impending surgery and was scheduled to take place at Halifax hospital on Sunday, November 3.

Gregory left his Tiverton home Wednesday, October 30 for the hospital at Halifax where he underwent tests and examinations on his heart. However, it was learned Sunday A.M. from his aunts, Miss Wendy Cann and Mrs. Roberta Titus that doctors at Halifax seemed to feel that heart surgery for Gregory is not necessary at this time but did suggest that perhaps in two years time an operation might be necessary.

Gregory is happy to be home again with his parents, Mr. and Mrs. Melbourne Elliott and younger sisters, Angela and Marianne. He is ready to resume his grade VIII activities at Islands Consolidated School at Freeport, N.S.

Gregory was five years old when he underwent a complex heart operation at a children's hospital at Toronto in February, '63, following the discovery in 1960 that the lad had a "leaky valve." At that time his heart condition was a province-wide concern. When his problem became known through the medium of Islands Home and School, newspaper correspondents and the Kiwanis Club at Digby, cans and other containers labelled, "Gregory's Heart Fund" were placed in garages, stores and other places of business throughout the province. About \$1,115 was raised to assist the young lad in his battle to win a healthy, normal body that would allow him to join in the fun experienced by playmates his own age.

Gregory came through the operation with flying colors. Since that time he attends Islands Consolidated School at

## CHILDREN MAKING FILMS

The subject of the films being made by the grade 6 class at Smith's Cove School this year is on the native Indians. The film making at school began last year when the grade 6 class made 5 films.

Film making, according to Principal Gerald Wade, interests the students in history and gives them an incentive to research and discover other valuable information. The present film has given the students a remarkable knowledge of the lives, habits, hardships and skills of the Indian people.

Much of the equipment used by the students has been earned

by various school projects and by a Nova Scotia Teacher's Union Program Development Award.

Producing the film were: director, Eddy Chisholm; Cameraman, Karen Burns; Audio, C'ris Hyson, Dana Baily, Eddy Chisholm; Narrators, Chris Hyson; Props, Dana Baily, Writers, Michael Marshall, Eddy Chisholm and Vaughn Sarty; Graphics, Linda Brown.

## Hope To Have Marina Announcement

An interesting meeting of the Annapolis-Digby Tourist and Recreation Council was held at the Hedley House on Wednesday, October 30th, when a report on the proposed development of a marina for Digby was given. Plans have been looked into and it is hopeful that Joseph Casey, M.L.A. for Digby might be able to make a public announcement shortly about the development.

The meeting was presided over by William Troupe Jr., president.

Gordon Price reported on a brief submitted to the Department of Tourism and the development of the property at Upper Clements known as the Prescesky Property. The department had followed many of the directions proposed by the Council in establishing a park and handcraft facilities and in making the property into a major tourist area. It is

hopeful that a wild life park, second to none in Nova Scotia will be established.

It was reported that 19,000 copies of the Council's publication "Basin" had been distributed and it was felt to be a worthwhile project in the development of Tourism.

Mrs. M. C. Gott, Laird Banks and Gary MacKenzie attended a tourism meeting at Coldbrook recently when reports were given from tourist bureaus in the province. It was noted that no report had been given from Digby.

The Council opposed the action of the Pines Golf Club in raising the green fees to eight dollars while in Banff the fees are five dollars. The no reservation or no guarantee of passage on the Princess of Acadia had caused some unpleasantness for tourists and this was commented on at the Council meeting on Wednesday.

## C.W.F. President Guest Speaker

On Wednesday evening, October 30, the ladies of the C.W.F. of the Church of Christ, Westport, were honored by the visit of their Maritime C.W.F. President, Mrs. Wilfred Cosman of Weymouth. Mrs. Charles McDormand, president of the group, introduced Mrs. Cosman. She talked on some of the new materials for study, and of some of the work going on in the Maritimes. The slides she had brought were of the new construction that had been done at Johnston Christian Park in South Range, of the trip she and her daughter, Mrs. Bob Howell, Mrs. Bill Smith, Mrs. Herbert Cossaboom and Mrs. Robert Ruggles had made to a Quaderennial in Lafayette, Indiana in June and lastly, some of the activities that took place at Women's Retreat at South Range in July. They were all interesting and much enjoyed by those present. The meeting was closed with the benediction after which refreshments were served in the vestry.

**Don't Shoot!**

When you shoot at power insulators you can disrupt electric service. You can also disrupt people's lives. In some instances you threaten people's lives indirectly by depriving them of light, heat or essential services - or directly by cutting a high tension wire which may kill an unsuspecting child - or a Nova Scotia Power Corporation lineman. ### Danger In Damaged Power Lines

Results of a survey carried out by the Nova Scotia Power Corporation show that nearly 700 power insulators were destroyed or damaged during the 1973-74 hunting season.

A corporation official said that apparently an irresponsible minority of the public fail to realize the extreme danger inherent in this sort of vandalism.

"Quite aside from the direct financial loss involved, which runs into many thousands of dollars each year," he said "there is much more serious loss in the form of electric service disruption and the very real danger of loss of life which may result when a high tension wire is cut."

Power Corporation linemen are particularly vulnerable when they are carrying out maintenance work on transmission lines.

The NSPC again plans to launch an advertising campaign during the current hunting season, the period when some 80 per cent of this sort of damage occurs, alerting the public, particularly hunters, to the seriousness of the situation. Theme of the ads will be "Don't shoot at power lines" and will stress the gravity of carelessness which could cause loss of innocent lives.

The co-operation of the public is urged in reporting any incidents involving wilful damage to public property, particularly when this property is essential to uninterrupted electric power service.

Tuesday evening.

Mrs. William Shaw spent the weekend with her mother, Mrs. Gertrude Boutilier and family, Dartmouth.

# WEDDING

WILSON-BAXTER

The Digby United Baptist Church was the scene of a lovely candlelight wedding on October 12, 1974 at 7:00 p.m. when Deborah Lee Baxter, daughter of Mr. and Mrs. Barry M. Baxter, Deep Brook became the bride of Michael LeRoy Wilson, son of Mr. and Mrs. Donald R. Wilson, Conway. Rev. Charles Milbury of Saint John, N.B. performed the double ring ceremony. Brian Vroom of Deep Brook was organist and Miss Margo Levy soloist.

The bride looked charming as she entered the church on the arm of her father by whom she was given in marriage. She

wore a floor length gown of white crimplene with long puff sleeves, high neckline and empire waist. The bodice, neckline and hemline were trimmed in lace, her floor length veil fell from a white lace bow headdress. She carried a cascade bouquet of bridal pink roses mingled with stephanotis. Mrs. Elizabeth Penney, sister of the bride, was matron of honor and wore a long gown of green suede satin. She carried plum tinted carnations. Bridesmaids were Miss Heather Baxter, sister of the bride and Miss Donna Wilson, sister of the groom. They wore

identical floor length gowns of floral suede satin and carried pumpkin tinted carnations.

Karl Penney, nephew of the bride, was ringbearer; Karen Penney, niece of the bride, was flower girl. She wore a white crimplene gown, trimmed in green and carried a basket of carnations and roses mingled with green ribbon.

The groom was attended by Bill Nickerson. Ushers were Alston MacAlpine, friend of the groom and Lewis Landers, cousin of the groom.

The bride's mother chose a long gown of winter white and silver with black accessories. She wore a corsage of pink roses. The groom's mother chose a long floral gown and white fur stole with silver accessories. Her corsage was also of pink roses.

Following the ceremony a reception was held at the Knights of Columbus Hall. A table was prepared for the bridal party, decorated with two candlelight floral arrangements. The three tiered cake was adorned with flowers. Rev. Charles Milbury proposed the toast to the bride responded to by the groom. Mrs. Marilyn Dickie, friend of the bride and Miss Debbie Landers, cousin of the groom, served the brides table.

Mrs. Joan Rawding, cousin of the bride, circulated the guest book.

For going away the bride chose a green and yellow polyester knit pantsuit with a corsage of yellow roses.

The bride and groom left on a short motor trip through the Valley and South Shore. They will reside in Conway.

Out of town guests attended from Halifax, Lantz, Kentville, Greenwood, Liverpool and Weymouth.

# M.S.I. Pharmacare for Nova Scotians 65 years of age or over

This is a brief description of the benefits and limitations of M.S.I.'s Pharmacare plan — please read it carefully. Pamphlets describing the plan more completely will be prepared shortly and distributed to all pharmacies and M.S.I. offices.

If you have any questions, please contact your nearest M.S.I. office — they will be pleased to help you.

### Benefits

If you qualify for the Government of Nova Scotia's new Prescription drug program you will be entitled to receive insured services when ordered by your doctor or dentist for the following:

- All drugs which by law require a prescription
- Certain other drugs which are normally prescribed and which have been approved as insured drugs by M.S.I. (a list of these drugs has been released to all pharmacies).
- Prescribed ostomy equipment

### How to Claim under M.S.I.

Each eligible person should have received a personalized plastic "Pharmacard". Present this card to the pharmacy of your choice along with your prescription. The card can only be used to obtain drugs prescribed for the person named on the Pharmacard.

### Participating Pharmacy

If the pharmacy has agreed to participate in the plan your card will be accepted and a claim form prepared listing the medication(s) dispensed and the cost. The claim form must be signed by you or the person you designate. The pharmacist will give you a copy of the claim and send one to M.S.I. for payment. The pharmacist will accept M.S.I.'s allowance as payment-in-full. You will not be required to make an extra payment for insured services provided by a Participating Pharmacy.

### Non Participating Pharmacy

If the pharmacy has decided not to participate in the plan, you will be advised immediately upon presentation of your M.S.I. Pharmacard. You will be required to pay for any prescription dispensed. The Non Participating Pharmacy will complete a "Pay Patient" claim form for you, or you will be provided with a form and the pharmacist will give you sufficient information to enable you to complete the claim form. Send the completed form to any M.S.I. office and you will be reimbursed by M.S.I. in an amount equal to what would be paid a Participating Pharmacy for dispensing the same prescription.

### Other Authorized Providers

Provision has been made to insure drugs dispensed by a physician where there is no pharmacy within 15 miles of the physician's office. Drugs dispensed by other physicians will not be insured.

Provision has also been made for Nursing Homes, Extended Care Facilities and similar institutions to be granted "authorized provider" status by M.S.I. for the dispensing of insured prescription services to registered patients.

### Prescription Quantities

A single prescription is limited to a 34 day supply unless your physician and pharmacist agree that a larger quantity can be safely dispensed, in which case a 100 day supply is allowed under the plan. Amounts in excess of 100 days supply will require the prior approval of M.S.I.

### Limitations

The program is not intended to cover the cost of preparations you would normally purchase from a pharmacy without obtaining a prescription from a doctor or dentist. Unless specifically approved by M.S.I., the following medications and supplies are not covered under the plan:

- Patent medicines and so-called household remedies
- Laxatives, antacids, cough and cold remedies, vitamins, analgesics (pain relievers) and other similar products readily obtainable without a prescription.
- Bandages, dressings and similar products
- Trusses, canes, convalescent aids, prescription accessories and other similar non-drug items.
- Any insured service to which the resident is entitled to benefit under D.V.A., W.C.B. or any legislation of Nova Scotia or any other jurisdiction.

## THUNDERMUG

A top name rock group, Thundermug, has been engaged for the evening which will begin at 8:30.

The following review was written by Larry LeBlanc of Record World.

THUNDERMUG, an unusual focal point of the Canadian pop music scene, is a new powerful four-man group caught up in the vitality and flavor of rock. No hype or flashiness, commercial adverturism, careerism, or exhibitionism are attached to their well-earned reputation. In the last two years they've grown far beyond the perimeters of regional popularity of their hometown, London, Ontario, to have two hit singles, "Africa" and "Orbit".

Despite eddies and crosscurrents in Thundermug streams of taste, they play good rock and roll. The sound is madness to create a music which is valid for our time and culture.

## Bear River New Horizons

The Bear River New Horizons Centre received a visit on Friday by the Regional Director of the New Horizons programme for Nova Scotia, Mr. Paul H. Stehelin. Some 40 members of the Centre were on hand to welcome him as several of the programmed activities are now under way. The Regional Director was happy with the progress of the Centre, remembering his visit when the building had been gutted, previous to reconstruction. The amount of voluntary work done by the members of the local Branch of the Canadian Legion in Bear River in the rebuilding and decoration of the Centre came in for some special praise, and at a later meeting with the Directors of the project, Mr. Stehelin congratulated them on the excellent work done in so short a time.

Speaking of the aims of the New Horizons programme, he stressed the importance of encouraging retired persons to make the Centre an opportunity for a fuller participation in community life, and to make their knowledge and experience, so often unused, to work for the benefit of themselves, and others. Above all, to create a centre of friendship and mutual help in which all could share.

The membership of the Centre continues to grow, and a

## THE DIGBY COURIER

programme of ongoing activities has now been established. The number of activities suggested by the members has been large, and it is evident that there exists a great desire to enlarge the horizons of both learning and sharing by the members. Groups already established include a variety of crafts, ranging from tatting through to quilting, painting, floral arrangement, pottery, wood turning, musical appreciation, music and movement, chess club and just plain old friendly gatherings, with or without any special reason. The provision of a piano to assist in the musical life of the Centre has now been taken up and the plans for a Sale of Work to make a purchase possible, are now in hand.

Winter is not generally anticipated with any enthusiasm, but this year in Bear River a lot of people are looking forward to the winter months with the knowledge that the new Centre will do much to add a new component of personal pleasure to its gray days.

## Digby New Horizons W.R. Comeau

After a lunch at The House of Wong sixty Senior Citizens of the Wedgeport New Horizons proceeded to the Digby New Horizon Centre where they were entertained by the Digby group. Piano music was supplied by the Wedgeport group and accordion by a Digby participant. All very much enjoyed. Before leaving at four o'clock refreshments were served complete with a decorated cake depicting a pumpkin grinner, compliments of a Digby participant.

The Wedgeport group had chartered a MacKenzie Lines Bus for their trip.

## Smith's Cove

SMITH'S COVE— Mrs. Ella MacDonald, who was visiting her son, John, and his family in Troy, suffered serious injuries to her leg in a fall last week. She is now a patient at St. Martha's Hospital, Antigonish, N.S., and would no doubt appreciate hearing from her friends and neighbors of the area.

Mrs. Debbie Milner, wife of Roger Milner, underwent emergency surgery on Sunday, October 27, at Digby General Hospital. She returned home Saturday where she is recuperating.

Hallowe'en proved to be a quiet experience for people of the Cove this year. There seemed to be fewer callers at our doors than in years past. Perhaps this was due to special activities held in other areas that drew the youngsters away. However, some defacement of property was done - windows soaped or splashed with paint, traffic signs defaced which could, in some places, be a serious hazard for motorists.

Relatives and friends continue to write asking about our experience in the recent storm that hit the Valley and Maritimes, which was published in their local papers. This writer did not experience the power failure in this area as she and her husband left early that Sunday morning for Halifax before the storm proved to be of great strength, and returned to their home just after the power was restored. However, the devastation seen on the trip back was one that will not be forgotten.

Miss Catherine Weir entertained Miss Isabel Cossitt on the occasion of her birthday Monday evening, November 4.

**THE STORY**  
In Iraq, elderly Father Max von Sydow discovers a devil figure among ancient relics. Film star Ellen Burstyn is working in Washington, D.C., on a film directed by Jack MacGowran. Divorced, she maintains residence in Georgetown with daughter Linda Blair, 12, and secretary Kitty Winn. A radical personality change in the young girl occurs. MacGowran dies in a fall down the long flight of

### PIPPY

In a small, idyllic little town in Sweden there is a curiously painted house which the children Tommy and Annika, who live next door, pass every day on their way to school. The house belongs to a captain who is always at sea. Thus "The House of Many Hues," as the strange building is popularly called, is empty.

But one day a red-haired, freckled girl with pig-tails rides into the town on a dappled horse, and moves into the house.

Accompanying the girl who calls herself Pippi Longstocking, is a small monkey whom Pippi respectfully addresses as "Mr. Nilsson."

Tommy and Annika soon make friends with Pippi; they admire the girl with freckles, for Pippi is no ordinary child. She owns a suitcase containing many gold coins, and she is generous in her use of them.

stairs next to Burstyn's house. When Burstyn is convinced that Blair has been possessed by the devil, she calls in Father Jason Miller for consultation. Miller, troubled by the death of mother Vasiliki Maltarus and his own faltering faith, believes that only an experienced exorcist, von Sydow, can help. In color. Restricted - 18 yrs.

One of the best—and most terrifying—films of the year is the long-awaited release of the sensational best-seller, based on the actual case of a youth controlled by demoniacal forces (a 14-year-old boy in Maryland in 1949, now happily married and the father of three). William Peter Blatty's screenplay, adapted from his own novel, uses the 12-year-old daughter of a film star as the one possessed. With the combined talents of makeup artist Dick Smith, special effects director Marcel Vercoutere and the athletic young Linda Blair, the result is a film of such horrifying power that audiences are apt to be visibly shaken. The production, which seemed to be possessed of its own demons, suffered many costly delays. Under the direction of the highly versatile William Friedkin (Oscar winner for his last film, "The French Connection"), the Warner's release is close to being a masterpiece.

Pippi can also make magic, and is extraordinarily strong. Furthermore, she can tell wonderfully interesting and exciting and unbelievable stories.

Thus she tells the children that her father is a great captain who is also King of Taka-Taka Land in the South Seas.

The children have a fabulous life in the "House of Many Hues"—but, to their sorrow, it is soon interrupted. Miss Prussellius, the Director of the Children's Bureau, has heard of Pippi's free-and-easy life, and feels that she must make sure that the child is given a "proper" upbringing. She even insists that Pippi should go to school, and to this end the two local policemen Kling and Klang are mobilized. Pippi solves this problem in her own way, although it does give her some trouble.

One day Captain Longstocking, Pippi's father, who really exists after all, comes back from Taka-Taka Land in order to fetch Pippi.

## Hallowe'en Nearly Ends In Tragedy

When some young fellows, apart from the usual Hallowe'en ghosts goblins and witches, set fire to the wooden bridge that spans the pond in the Tiverton area, teenager, Barry Buckman experienced a close brush with death when his clothing caught fire. Some people who were near the scene of the incident threw all types of liquid matter, including beer, over him in an attempt to extinguish the fire. When that failed, friends rushed him the few feet to the pond where he was literally thrown into the chilly salt water. That did the trick. Barry luckily escaped with burned hands, scorched hair and a bad fright.

A heavy door enclosing one of Mr. Leonard Small's fish establishments was removed. Inside the building were several hundred pounds of fish ready for processing. They were not touched. Mr. Small and family were away at the time. No further damage was reported.

**THREE HALLOWE'EN FIRES**  
Three unoccupied houses were burned by fire on Digby Neck at Hallowe'en. The unoccupied home of Maurice Gibbons, Roxville; the house of Clyde Spechts, Waterford and what was termed the old Thomas place at Lake Midway.

Digby Fire Department was called in each of the above fires and on Saturday was called out to a fire at the Cross Road near to the Municipal dump.

**VANDALS AT WORK**  
After our big snow storm on October 21st a stove pipe on a camp at Porcupine Lake was shattered by several shot gun blasts, and on Hallowe'en an aluminum boat, which was by the same lake, had an axe driven through the bottom of it. The door of the camp was split with an axe in several places.

One window, including the sash was smashed and another large glass window was broken, which will cost from \$50 to \$100.00 to repair.

If that is one idea of Hallowe'en fun, it isn't your correspondent's idea.

## Review Marshland Dyke

Agriculture Minister, Jack Hawkins, said today that as a result of discussion with Digby M.L.A., Joseph Casey, plus the local Federation of Agriculture as well as Agricultural Representative, Bruce Gilliat, that he would ask to have Saint Mary's Bay dyke situation reviewed.

The minister indicated that the original Department study indicated some problem in connection with soil and maintenance of the dyke.

However, the Minister indicated that he would make an effort to personally visit the area and go over the proposed plan with Department officials in detail as well as viewing the actual area to see if some

solution cannot be found. "Agricultural production in Digby County is not the largest in Nova Scotia. Yet, the Department feels it has fairly substantial potential," said the minister.

"I hope I can get down to visit the Saint Mary's Bay area and visit the dyke within a week or so."

The decision followed a meeting of St. Mary's Bay marshland owners held at the Conway Co-op and attended by Charles Douglas, deputy minister of agriculture. Also attending the meeting were Mr. Casey, Mr. Gilliat and Malcolm Woodland of Annapolis Royal.

Chapman Chisholm presided at the meeting.

## Flying Club Activities

Since beginning its activities last spring, the Digby Flying Club has chalked up an enviable record of accomplishment. A training plane - a Cessna 150 - has been acquired. The main runway has been widened, lengthened and graded. A small building has been erected to house needed equipment and to serve as a meeting place. A crosswind runway has been laid out and partially accomplished. New entrance and parking areas have been bulldozed out of the land. A great deal of timber has been cut and cleaned up. And, on the Labour Day weekend the first Airport Days were held and were a success.

Much of this has been accomplished through the work of an active, interested and hardworking membership dedicated to the club's objective

## Flower Awards

Summer has come and gone and so has the Admiral Digby Horticultural Flower Show for 1974. Mrs. W.H. Dunphy, Bay View, exhibited a begonia which was chosen the best specimen in the show. She also won a first prize for her arrangement of Queen Ann's lace and daisies in the atmosphere section.

We are proud to say "Bay View did it again" because as we look back to 1973 we see another of our summer residents, Mrs. Herbert E. Doerr, won an award for the best specimen in the show for a large lily measuring 9 inches across. The lily also captured a tri-color ribbon as well as a quality award recognition.

Going still further, back to about 1970, one of the Bay View residents, Mrs. Eugene Burns, captured one of the high awards for a begonia she exhibited.

The people of Bay View fare well for their efforts in the flower show. In 1972 Mrs. J. Paul Emerson received an award of merit on flowers exhibited and in the same year Mrs. Harry Adams received a special creativity award on wild flowers she exhibited.

Each year a large number of 1st, 2nd and 3rd prizes are allotted to the Bay View area as well as some special awards including honorable mentions. Congratulations go to Mrs. William Dunphy who won a top award and has helped to keep the tradition going.

But there is also another group that have given of their money and their support on so wide a basis as to strengthen the belief that the creation of a fine airport for Digby is, indeed, a matter of concern to the entire area. These are the people who have made donations to the effort simply to show their interest and put their support where it counts: into dollars and cents.

The Digby Flying Club - recognizes these supporters and expresses its gratitude, not only for the donations received, but more importantly for the support which these donations indicate. For without such widespread support and interest, the future of the Club would be bleak indeed.

Other callers at the same home were Mr. and Mrs. Willie Dakin of Rossaway.

Dr. and Mrs. William Dunphy of LaGange, Ill., who have been spending the summer months here, have now returned home.

Mr. and Mrs. Charles Taylor of Victoria Beach have been recent visitors in Bay View at the home of the Sr. Mr. Adams better known to his family as Fred.

## After 42 Years

A report which could go into "Believe it or not", is the fact that Dan Hankinson returned a pair of pliers to Caird Nichol last week. Mr. Nichol was working on the home of Fred Hankinson, 42 years ago, installing electric wiring, when he lost the pliers between the walls

of the house. Last week, while Dan Hankinson was reshingling the home, he found the pliers, and remembering and hearing of the incident as a boy, he went to Mr. Nichol with them. The pliers, although somewhat rusty were still in good condition.

## DIGBY AND AREA REMEMBERS WAR DEAD

### DIGBY REMEMBERS WAR DEAD

A solemn ceremony was performed on Monday morning, Remembrance Day, when the people of Digby gathered around the War Memorial on the town's main street to pay homage to the service men who laid down their lives, in the two world wars. Standard bearers for the Digby Branch Canadian Legion were Alvin Lawrence and Joseph Tanner. The service was in charge of Gerry Campbell, president of the Digby Branch Canadian Legion, Number 20.

Veterans of the wars made an impressive scene as they marched to the cenotaph to pay respect to the fallen. In the parade were also members of the Legion Auxiliary and the Sea Cadets. Parade Marshall was Corporal Fenton of C.F.B. Cornwallis.

Wreaths were laid at the monument by Joseph Casey, M.L.A. on behalf of the Province of Nova Scotia; Mayor Willard Kinney for the Town of Digby; Glen Smith for the Department of Fisheries; Ralph Wright for the Canadian Legion and Mrs. Gloria Webb for the Auxiliary. Many wreaths were laid by individuals in memory of loved ones.

The ceremonies began with

the playing of O Canada, sounding the Last Post and Reville.

Rev. Raymond Brown of the Church of God closed the ceremonies by prayer.

### REMEMBRANCE AT SMITH'S COVE

Remembrance Day was observed quietly in the Smith's Cove area, this past weekend, with a service at the Smith's Cove United Baptist Church under the direction of the Pastor, Rev. W. H. J. Jordan, Sunday evening.

On Monday, November 11, Douglas Titus placed a wreath on the Cenotaph with Mrs. Oakley Smith presiding.

### REMEMBRANCE AT LITTLE RIVER

An Armistice Day Service was held, November 11th-1974 at the Little River with a large attendance. Rev. John Kaulback conducted service which opened with "O Canada."

Scriptures Psalm 46 was read and prayer offered by war veteran (First World War) Rupert K. Trask.

The two minutes silence was followed by laying of wreath in honor of Pte. Roscoe Trask who gave his life for King and Country and for all who lost their lives in the wars.

M. Kaulback gave a strong message. He spoke of the ones

that had given their lives, that we might enjoy freedom and which so often are not appreciated. He spoke of the ones

who were disabled for life, and have so few people who cared. Then, he spoke of the Lord Jesus who gave his all that we

might have eternal life.

The service closed with prayer and the national anthem.

## Presents \$2000 To Legion

Mrs. Gloria Webb, president of the Ladies Auxiliary of the Digby Branch Canadian Legion, presented on behalf of the Auxiliary a cheque for \$2000 to the Legion. The presentation was made at the Annual Remembrance Day banquet held on Monday evening under the auspices of the Legion.

The banquet was presided over by Jerry Campbell, Legion president, who introduced G.L.A. Smith of the Department of Fisheries as guest speaker.

Mr. Smith in his discourse asked the question, "Should we assume that only death in war is glorious?" He said that while we honor the memory of the war dead, those who lived and were disabled and later died should also receive honors as well as those who died in battle. There is more in how we live than how we die, he remarked.

There is no glory in war, the speaker said. The 1914 war was supposed to be a war to end war and the second world war was fought for continued peace. The Vietnam disturbance makes us believe that war is both foolish

and evil.

Mr. Smith said the dead had given their lives for justice, freedom, truth and peace and we gather on Remembrance day to observe this, to renew comradeship, recall the past and live again in memory a portion of our youth.

Mr. Smith was thanked by Comrade Jack Nichols.

Others who spoke were Joseph Casey M.L.A. and His Worship Mayor Willard Kinney. A plaque bearing the name of all Legion No. 20 presidents was unveiled.

Remembrance Day observances began in Digby on Sunday morning when Legion and Auxiliary members paraded to the Church of God where the pastor, Rev. Raymond Brown, preached an appropriate sermon. Mr. Brown remarked that every persons wants and looks for peace but there can never be peace in the world until man finds inner peace - peace with himself.

Standard bearers were Alvin Lawrence and Joseph Tanner.

### Minister Passes

Parishioners and friends in Digby were shocked on hearing Wednesday of the sudden death of Rev. Raymond Brown, minister at the Church of God for the past seven years. Mr. Brown was suddenly stricken ill and died shortly after being rushed to the Digby General Hospital on Tuesday evening.

Mr. Brown had preached the Remembrance Day sermon on Sunday when veterans marched to the Church of God to attend the service. On Monday he gave the prayer at the memorial service at the cenotaph and attended the banquet on Monday evening.

He is survived by his wife, Doris and four children, Dennis, in U.S.A., taking a theological course, Laura, Jeanie and Nancy at home.

Funeral service will be at the Church of God on Saturday at 2:00 p.m.

### Fire At Marco Polo

The cellar and cellar way at Marco Polo at the edge of Digby Town and Municipality, Warwick St., was gutted by fire on Thursday evening. The Digby Fire Department was called to the scene at 10:45 p.m.

The building which belongs to Gordon Marshall was unoccupied at the time. The building houses the Marco Polo business belonging to Mrs. Sharon Smith, it is understood, and has been closed for the past few months.

### Opens Constituency Office

Fulfilling a pledge made prior to her election, Celine Campbell, M.P. for South Western Nova, on Saturday morning officially opened her constituency office at 348 Main Street in Yarmouth. In opening the office, she stressed that it is for the use of all the constituents of South Western Nova.

The new office, Miss Campbell said, is a vehicle by which our needs and problems can be relayed to Ottawa. She urged that questions and problems concerned with federal issues and policy matters be directed to the constituency office, which will be open Monday through Friday from 9 a.m. to 5 p.m.

Funds for the establishing of constituency offices are provided by the House of Commons to all federal members of Parliament and they may avail themselves of the opportunity provided for establishing such an office.

In speaking with the large number of people who attended the reception marking the opening of the new constituency office, Miss Campbell commented on the fact airline schedules make it convenient for her to spend Saturday afternoons in her Yarmouth office. She noted also that matters referred through the office are immediately directed to her in

## College Ste Anne Gets \$860,000

A grant of \$860,000 from the federal government under its languages program was announced for College Ste. Anne by Hon. Hugh Faulkner, Secretary of State, at a meeting in Church Point on Saturday. The grant will be put toward the increased operating costs of the college. Additional expenditures will be shared with the provincial government.

The Secretary of State took part in the official opening ceremonies of the new Gymnasium at the Church Point college. In his address at the opening Mr. Faulkner said the new gymnasium would provide immediate benefit for the area's Acadian population through carefully planned programs.

Mr. Faulkner also expressed approval that College Ste. Anne has been "proceeding quietly in the domain of bilingualism by offering courses leading to degree status in French for the past several years."

The new gymnasium was officially opened by Nova Scotia Premier, Hon. Gerald A. Regan. Speaking alternately in French and in English, Mr.

Regan said that College Ste. Anne can be justly proud of its contribution to the culture of the area and to post-secondary education for the past 84 years. He traced the recent developments in the history of the college, which now has a lay board of governors and paid tribute Board and to the work of college President Louis R. Comeau.

Mr. Regan noted that in the late 1960's existence of the college was threatened. In response to these difficulties, he said, the province established an on going aid program for College Ste. Anne. The Premier said that the institution has been the heart of Acadian culture in Nova Scotia. The province, "would not only see it maintained but expanded as well," Mr. Regan said. He said that, like other colleges, expansion is necessary if College Ste. Anne is to meet the needs of students today.

Celine Campbell, M.P. for South Western Nova, who introduced the Hon. Hugh Faulkner to the more than 300 people gathered in the gym-

nasium for the opening, paid tribute, not only to those who have been involved in recent developments in connection with College Ste. Anne but also to those who over many years helped to maintain the existence of the college. To those people along the shore who sent their children to this college great credit is due for it was they who helped to keep the institution alive, she said.

During the ceremonies in connection with the opening of the gymnasium the Hon. Mr. Faulkner and Hon. Peter Nicholson, provincial Minister of Finance and former Education Minister, participated in sod-turning ceremonies for the new swimming pool at the college. Mr. Faulkner announced during this a grant of \$7,700 to the Conseil des Arts et d'artisanat de Clare in Church Point.

This grant, which is administered under the official language minority groups program will be used by the local council to sensitize the

### Begin Dyke Repairs Immediately

Nova Scotia's Minister of Agriculture and Marketing, Hon. Jack Hawkins, announced today that rock facing and dyke reinforcement estimated to cost \$75,000 will begin immediately on the St. Mary's marsh in Digby County. This statement followed his visit to Conway, November 5 and his announcement there of the \$75,000 project this winter.

Improvements will be made to approximately 700 feet of dyke, protecting 650 acres of marsh. Four hundred acres of

this is under good production and in the balance production will increase during the next two to three years as the salt level in the soil diminishes. One hundred and twenty-five acres of the land is community pasture and had a carrying capacity of 150 head of cattle this year.

"With the expansion taking place in the agricultural industry of Digby County everything possible should be done to develop the land base and this dyke improvement is one step in that direction," said Mr. Hawkins.

"The potential for future agricultural development in Digby County is very encouraging. Many of the farmers are young and the livestock numbers on farms are continuing to increase. Digby County also has excellent potential for horticultural crops and is the centre of the fur farming industry in Nova Scotia," he said.

"With this kind of development taking place in the county, we feel that more good farm land should be made available to broaden its agricultural industry," the minister said.

### Born Athlete -

### Lost Sneaker

### No Handicap

Scott Turnbull is to all intents and purposes the born athlete and at the same time a natural cross-country runner. That is the way Dale Clattenburg of Sackville Heights Junior High School described him when interviewed by a reporter of the local newspaper at Sackville, Halifax County.

Scott Turnbull, age 13, is a son of Mr. and Mrs. Beverly Turnbull, Lower Sackville and grandson of Mr. and Mrs. Oakley Turnbull, Lighthouse Road, Digby.

Mr. Clattenburg gave some interesting information to the interviewer. Last year, he said, Scott was always first in the Class 12 and under competition. He received the Most Valuable Award.

A week ago Scott entered in the N.S.S.A.F. regional run offs. Although Scott was due to run against more experienced and older boys, Scott wanted to come in the first four, giving him the chance of going to Amherst for the provincial championships. The race in Amherst was Saturday the 26th. Scott came third for the whole province.

Clattenburg tells an interesting story about Scott at the Amherst run-offs. Just after the start of the run-off Scott's sneaker lace broke and he lost his sneaker.

## Editorial

### AN ANTIDOTE TO VIOLENCE AND CRUELTY

Nature abhors a vacuum. When the mind of a child, for instance, is not filled with love, kindness and beauty, it is subject to opposite qualities of violence, hate, destruction and cruelty. This, no doubt, was part of the philosophy of that remarkable woman in New Brunswick, Aida Flemming, when she organized the Kindness Club more than a decade ago. That philosophy still holds good and is now more necessary to adopt than ever before.

Violence, theft, vandalism, cruelty seem to be rampant in the world today, even to almost on our doorsteps. The world is certainly in need today of a powerful antidote to make this old globe more peaceful and liveable for all mankind.

The weekend with Remembrance Day and the Kindness Club and its philosophy that love and beauty instilled in the receptive minds and hearts of children nurtures habit of awareness and kindness to all living things. Quoting from the Kindness Foundation (now soliciting donations) "People with respect and kindness towards all living things (including their fellow-men) must be our best hope for true conservation and for any real peace."

Yes, an antidote to the evils so prevalent today is needed. One way is to (quote) "instill the principles of love and kindness upon which the happiness, the security and even the continued existence of a civilized society depends." The Kindness Club started in New Brunswick has spread to other areas. Its principles can be adopted by anybody who is concerned for others by scattering joy and peace in the world.

### WEEKLIES ARE EFFECTIVE

It was with great interest to us on Friday when Hon. William MacEachern, Minister of Health, had this to say about weekly newspapers:

"The Nova Scotia Government is very much aware of the importance and impact of the weekly newspaper in Nova Scotia. This awareness is borne out by the results of some special research done in September, 1973. An outside research firm was retained by the Nova Scotia Communications and Information Centre to undertake a readership survey on the local and national levels. The results were particularly revealing in terms of the coverage enjoyed by community and regional weekly newspapers in the province. This study of local media has made those in Government who decide on ad placements very much more alert to the effectiveness of the weeklies in the field of public information. There is also the additional benefit of retention value of up to five days."

## Hodge Podge

—Time, oh, time, turn us back to the day of the pony express. You mail a newspaper in Digby on Thursday. It doesn't arrive in Halifax by Friday. On Saturday of course, there is no mail delivery in the city. The next day is Sunday and Remembrance Day might have been a holiday for mail carriers too. Could be possible that last week's Courier didn't arrive at their Halifax city destinations until Tuesday. Just don't scold us.—

—The pen, like the sword, can injure and kill and leave havoc and anguish in its wake. How true.—

Others taking part in the official opening program included Hon. Benoit Comeau, Minister of Public Works and M.L.A. for Clare; Joseph H. Casey, M.L.A. for Digby; Senator Côtteau and His Excellency Bishop Burke of the Diocese of Yarmouth who pronounced the invocation.

Following the ceremonies a beautifully executed display of gymnastics was presented by the group of talented young people.

This could have been a set back for Scott but, taking everything in his stride Scott threw the sneaker off and finished the race, running practically all of it with one sock and one sneaker.

The newspaper went on to say "This was a tale of courage and great heart and the model of a true athlete. This was Scott Turnbull, a credit to his school and parents. Boy of the Week, Yes, Sir, that is Scott Turnbull."

One of the teachers at the School has taken it upon himself to train Scott through the winter months on a program that will prepare him for track and field meets in the Spring. He told him to make the summer Games-77, as his goal.

### Lloyd Hill Festival President

Lloyd K. Hill, executive manager of the Annapolis Valley Affiliated Boards of Trade, has accepted the nomination for president of the 1975 Apple Blossom Festival the last weekend in May.

Mr. Hill said he would recommend the 1975 theme centre around the 300th anniversary of the first Acadian settlement in Grand Pre and invitations be sent to Governor General Lévesque and the governor of Louisiana to participate in the program.

The festival president also suggested that the coronation of Queen Annapolis take place Saturday at Kentville Memorial Park following the grand street parade.

Several innovations will be explored by the new executive in a move to get away from the "stereotype" format of the annual event.

### Three Year Sentence

David Andrew Hatfield, Halifax was convicted in the courts on Tuesday of a break, enter and theft at the Weymouth Drug Store under section 306 (1) (b) of the criminal code. The offense occurred September 15. He was sentenced before Judge Philip Woolaver to three years in Dorchester Penitentiary.

Tony Mark Handspiker pleaded guilty before Judge Woolaver on Tuesday to the theft of a car belonging to Richard Burke, Conway. The car, a 1969 Volkswagen was taken from the Evangeline Shoppers Mall, Digby and recovered at Kentville. Sentencing for the offense will be November 26.

The case of damage to 35 to 40 windows at the (Digby Academy) Elementary School on Queen St. is still under investigation by Digby detachment R.C.M.P. The damage was done on the Friday night following Hallowe'en. The damage is estimated at \$700 to \$800. Windows had to be boarded up until glass and labor became available.

### Letter To The Editor

Dear Editor:  
"Of all sad tales of mice and men,"

The saddest are these, "It might have been."

These lines filtered through my mind after a lengthy and arduous endeavour to relieve the homeowner and tenants of Digby of a most unnecessary and unrealistic tax.

The Occupancy Tax was introduced in late 1966. It was never mandatory and the maximum amount the towns and counties were allowed to charge was 20 per cent of the assessed value of real property. Digby town imposed the tax in January 1967 and took advantage of the full 20 per cent, while some of the other areas in the province set the rate at 10 per cent. Most of the town and county councils have now abandoned this tax or will do so as of January 1975.

At the regular meeting of Digby town council on November 4th, my motion to abolish the occupancy tax was supported by Councillors Guy VanTassel and Patrick Comeau. Councillors Phillip Robertson and William Reid voted to continue this tax in 1975, and the Mayor cast a vote in their support, resulting in a tie. Ironically, I believe this was the only motion on which the Mayor voted. Had he not done so, the occupancy tax would have been abandoned in Digby in 1975.

(Councillor Gordon Ellis was absent from this meeting.)

It is encouraging to note that the abolition of the Occupancy Tax may, at some future date, become mandatory if the provincial government adopts the recommendations of the Graham Royal Commission to abolish it.

It is lamentable that Digby, which was one of the first towns in the province to impose this tax, may be one of the last to abolish it—unless, or until it is required by law to do so.

Eileen Chipman  
Digby.

Dear Editor:

Once again, the Christmas Season is near at hand. It is especially at this season that the feeling of "brotherhood" emerges more strongly than any other. As a result of our concern for others, the grade eleven and grade twelve classes of the Digby Regional High School will be collecting toys again this year. Anyone having new or old toys that they wish to donate, may phone: Miss Marlene Haight - 245-2639 Miss Kathy Currie - 245-4510 Mr. Victor Doucette - 245-4983

These toys will be collected after school hours on week days and on Saturday. These toys will be given to and distributed by the Christmas Daddies Organization.

Our efforts last year were highly successful due to the generosity of people like your readers. We ask for their support again this year.

Thank you for your interest and the space in your newspaper.

Yours sincerely,  
Marlene Haight.

### Plans

### Interesting Program

Mrs. Bruce Hutchins, President, presided at the monthly meeting of the Admiral Digby Horticultural Society at the home of Mr. and Mrs. H.M. Warne on the evening of November 6th. Twenty-five members and two guests Mr. and Mrs. Caswell, were present. A leaflet on the Jimson weed was shown which revealed that while this weed has a dainty white or pink blossom, it is very poisonous.

It was reported the District Meeting of Garden Clubs will be held in Digby on May 8th, 1975. A special guest will be Dr. Milton Jackson, President, N.S. Association of Garden Clubs.

Miss Tupper, Program Committee, presented a tentative program for the coming months. It is hoped guest speakers will give talks on the benefit of insects in gardens, methods of preparing small gardens and varieties of vegetables, the most profitable Slides will be shown, a penny sale and plant sale held, a tour of gardens in June, demonstrations on flower arrangements and preparing for the Flower Show and Tea in August.

Mrs. Warne and Mrs. Stephen gave a report on a group of grade 10 boys and girls, who with their teacher, Mrs. Carolyn Brown, had visited at the home of Mrs. Stephen to learn about flower arrangements. Mrs. Stephen reported the group was keenly aware what could be used to do this work and interested in the coming Christmas party of the Garden Club when arrangements in keeping with the holiday season are entered for competition.

The competition and party are open to the general public

## U. C. W. Has Musical Evening

The United Church Women of Grace United Church entertained their husbands and families at their regular Tuesday night meeting.

Short business meeting was held at which time the Christmas supper was discussed and the date set for Nov. 29.

After the business meeting a very entertaining musical evening was enjoyed by all present. Mrs. Beatrice Haight, president, of the U.C.W. announced the programme of which the subject was "Peace".

Mrs. Isabel Harris read the Scripture from Romans after which Rev. Ronald Stevens offered a prayer. Cathy and Doreen Troupe sang a duet entitled, "I'd Like to Teach the World to Sing" which was followed by two duets by Pat

Wilson and Norman Wright entitled "Walk in the Light" and "Wonderful Love". Amazing Grace was played as a flute solo by Karen Teash.

Four poems relating to Peace written by Anne Kaye were read by Mrs. Mary Ellis. A solo entitled "Let There Be Peace on Earth" was sung by Mary Robinson, followed by a song "The Greatest Gift" sung by a trio of Mary, Heather Hoare and Karen Trask.

The musical programme continued with two solos - one by Heather Hoare "Thank you Lord" and "That's Why I Love Him" by Joy Fleet. The trio sang two more selections "He's everything to Me" and "Pass it on." Mrs. Wilson and Mr. Wright closed the musical programme with a pleasing duet "Heaven came Down" and the song "Eventide".

Mrs. Haight thanked the singers and gave a special "Thank You" to Mrs. Maureen Arnold for her assistance in arranging the programme and for playing the piano. A standing ovation was given to Mrs. Arnold by all present.

Rev. Mr. Stevens closed the programme with the benediction. A lunch was served by the ladies of the U.C.W.

## Heads Clare Band Executive

Last Monday at a general meeting the young Clare Regional Band elected its new executive committee. Mr. Pierre-Alphonse Belliveau was elected president, Dr. Borden Erjavec, vice-president, Rev. Pierre Lachance, secretary-treasurer, and Mr. Malcolm Madden and Miss Jocelyne LeBlanc, counsellors.

It was in mid-September in the College Sainte-Anne Music room that the nucleus of a regional band met for the first time. At this first rehearsal, eight musicians got together. Now the band has fifteen active members and at nearly every rehearsal there is a newcomer. It is expected that after Christmas, with the admission of new members who are still in the beginners' group, the membership of the band will reach the thirty mark.

If any one, having some experience in instrumental music is interested to join the band, he or she is most welcome at any time. For further information contact the president, Mr. Pierre-Alphonse Belliveau, in Belliveau's Cove, tel. 837-4356, or the musical director, Rev. Maurice LeBlanc, in Church Point, tel. 679-2114.

The band has already performed in public on October 6 and will perform again in a Christmas concert on December 15 in the St. Mary's church in Church Point.

## Minister Addresses Publisher And Editors

The Honorable William MacEachern, Minister of Health in Nova Scotia was guest speaker on Friday evening at the annual dinner of the Atlantic Community Newspapers Association at the Chateau, Halifax. Though privately owned, he said, newspapers are in the position of being a public trust. They are the watch dogs, the eyes and ears and the conscience of the community.

Editors and publishers, he said, have a moral and a social

obligation to see that their sword (the pen) is "used in truth and fairness."

The media have been accused of everything from empire building to treason to irresponsibility, he said, but it still survives and will continue to survive as long as it holds to the principles of honesty, truth and fairness. "Journalism is like a pebble dropped into a pond; its shock waves reach out to all around it."

"The weekly newspapers of this province, in my view, are the diamonds in the media crown and their longevity is proof of their success, he said.

Individuality, truth and strength are the tempers that must be forged in creating a worthwhile newspaper the minister continued and you fill a need in your own community. Indeed, "I myself have been enlightened more than once on issues that were not to be found elsewhere," he remarked. He said that he regularly receives copies of editorials, letters to the Editor and news articles on subjects involving his department's responsibilities through the Communications and Information Centre, which among many other things, provides a Government-wide press clipping service. These, he said, keep him informed of not only the editor's own views, but

those of their readers. "I am delighted to receive this kind of feedback," Mr. MacEachern. The Digby Courier was represented at the three-day meeting by Roy Mailman, publisher, Mrs. Mailman and Mrs. Edith Wallis, editor.

A short business meeting presided over by Lester Pink, Yarmouth, retiring president, was held on Thursday evening, followed by a reception. The reception was given by the courtesy of Bowater Mersey Paper Company Ltd., and among the hosts and hostesses were Bob Weary, son of Mrs. Victor Thompson, Digby, and Mrs. Weary.

Among interesting highlights on the Friday program was a talk by Bob Myers, publisher of the County Press at LaPier, Michigan, the largest weekly paper in America. Professor Scheibelhut, associate professor of marketing at Dalhousie University conducted a discussion on marketing in the newspaper business.

At the luncheon on Friday, hosted by Larry Hines of Maritime Telegraph and Telephone Company Ltd., Jack Brayley, Neighbourly News commentator was presented with a "bird feeding station" in recognition of his long service to the weekly press in the Atlantic area.

## Crafts Program

The crafts program being undertaken by the Digby New Horizons Club at their activity centre on the grounds of the Digby Community Mental Health Centre is rapidly expanding with new handcraft projects being added as interest grows.

Latest addition to the craft program at the New Horizons centre is an extensive wood-working program. Operated under the direction of Mr. Stanley Perry, the new wood-working program is open to all those interested in learning to make such things as lawn ornaments, doll and children's furniture, birdhouses and even more ambitious items.

Equipped with lathe, band-saw and other necessary woodworking equipment, the wood-working craft shop is located at one end of the New Horizons activity centre. Any of the items being made by those involved in the wood-working project will be offered for sale at the New Horizons

craft sale which is to be held at the centre on December 6th.

In addition to the wood-working project, craft programs are underway in lamp shade restoration, quilting, net making, macrame and other crafts. Already the club has sold many articles that have been handcrafted by the members and many more are being accumulated for the handcraft sale.

One of the courses underway is a course in fly-tying. This course, being conducted by Oakley Smith, will shortly be expanded to accommodate larger number of interested people. At present a group of youngsters are involved with the program.

It is understood handcraft classes being provided by the Digby New Horizons are not limited to any age group or any particular group in the area. An effort will be made to secure instructors and initiate classes in a wide range of handcrafts, providing sufficient numbers show interest in becoming involved in these classes. Those wishing further information about the New Horizons programs may call 245-4779, it is understood.

## Loans To Home Owners

The Nova Scotia Housing Commission is prepared to make loans to home owners where municipal sanitary sewer and water services are not available, Housing Minister, Walter Fitzgerald, said today.

Loans will be made where the housing units are serviced with a well and septic tank and certain conditions are met.

Four conditions must be met, Mr. Fitzgerald said. First, the health authority with jurisdiction must approve both a percolation test, and the proposed well and septic tank installation, and qualified persons must certify that an adequate supply of potable water is available.

In addition the proposed building lot should be located at least one mile beyond the boundaries of the Halifax County planned area and the city of Sydney, provided that where these municipalities or cities by resolution, undertake to provide sanitary sewer services within three years, this condition shall not apply.

The proposed building lot size and location must also meet the requirements of the relevant municipal Board of Health and the Department of Highways for the area where the lot is located, and any provincial regulations or acts which may apply. Evidence that a building permit will be granted must be available (the proposed building lot must have an area of not less than 15,000 square feet and minimum lot frontage of 75 feet).

Finally, the proposed building lot must be located in subdivision housing not more than 40 lots, provided that no further loan applications will be considered in any location when in total the concentration of houses, completed and/or started, exceeds 40.

Many more home owners will benefit from the commission's co-operative program, said the housing minister.

## Math Teachers Discuss Graham Report

A Brief will be sent to the Minister of Education by Senior High Math teachers from the Digby-Annapolis Inspectorate. The Brief will reject provisions in the Graham Commission Report which would end the teaching of Algebra and Geometry to most Senior High students.

The teachers met in Annapolis Royal on October 25 to discuss aspects of the report and matters of concern regarding local math curriculum materials. It was felt that algebra and geometry should be taught formally to all those students desiring to learn these subjects.

The teachers present, representing most local High Schools, were in agreement that the math taught presently in High Schools has immense practical value. The present program is comparable to that offered in other parts of Canada. The program is being

continuously updated, with the introduction of a wide choice of textbooks, possibilities for study about computers, and about calculus.

At a recent conference of Nova Scotia Math Teachers in Halifax, it was pointed out that many of these topics involve practical math which can be used in everyday life, in a technological society. It was felt that all citizens deserve a basic understanding of the mathematical principles underlying modern technology. A wide choice of courses is presently available, especially in the larger high schools.

There was agreement with provisions in the report emphasizing the importance of teaching basic math skills, with a partial return to the use of drill in the elementary grades. The whole matter is to be further discussed at a meeting of math teachers in Halifax.

## Recreation -- Legislature Bills

Amendments to both the Municipal and Town's Acts introduced in the Nova Scotia legislature will permit municipal units to expend tax dollars for all recreation purposes.

The two amendments were requested by the Department of Recreation after a detailed examination of all provincial statutes having a direct or indirect effect on recreation programs and services had identified a lack of clear authority.

A number of municipalities through special legislation or regulations had established spending authority for the supplying of recreation programs, services and facilities.

However, with the creation of the new Provincial Department of Recreation, which has provided stimulus to many new municipal recreation programs, the need for uniform spending authority became evident. The Amendments were introduced on behalf of the Government by Hon. Fraser Mooney, Minister of Municipal Affairs.

The Minister of Recreation, Hon. A. Garnet Brown, said his department had consulted on the subject with the Union of Nova Scotia Municipalities Recreation Committee and various municipal authorities and had received support and endorsement for the Amendments.

He said that the need for the Amendments became very

evident as a result of the success of the Department's New Municipal Assistance package which encourages municipal recreation programs through the supplying of up to fifty per cent of the Salary of a full-time municipal recreation director, plus programming and capital grant assistance.

Mr. Brown noted that in less than one year the number of municipal recreation directors in Nova Scotia had increased from seven to 25.

Mr. Mooney explained that the Amendments to the Municipal Act and town's act would permit the Municipal units to utilize tax dollars for materials, services and equipment for recreational programs without requiring special legislation.

Pending the approval of the Amendments, some municipal units in Nova Scotia were limited in expenditures for recreation to only parks and playgrounds.

The new Bill also establishes a new formula for determining the earnings ceiling of the Plan, called the Year's Maximum Pensionable Earnings (Y.M.P.E.) in the legislation. The new formula provides that the Y.M.P.E. (the amount up to which a person may contribute) will be increased by 12 1/2 per cent each year until it catches up to the average earnings of Canadian workers as represented by the Industrial Composite of weekly wages and salaries published by Statistics Canada. After this transitional

period, the Y.M.P.E. will be kept parallel with the average earnings by equating it with a projection of Industrial Composite data. Mr. Lalonde stated that this change will play a vital role in substantially increasing C.P.P. benefits in the future. As a result of this change, he expects that, over the next decade, maximum C.P.P. retirement pensions will increase by about 250 per cent, that is up to \$350 a month, and disability and survivor pensions will increase by up to 180 per cent.

Under legislation passed last year, the Y.M.P.E. for 1974 was set at \$6600 and for 1975 at \$7400. That legislation also provided for the full escalation of benefits in pay in line with yearly changes in the Consumer Price Index. The new legislation is designed, therefore, to provide for changes in the Year's Maximum Pensionable Earnings in 1976 and subsequent years.

A further change in the Bill will establish the basic exemption (the amount on which contributions do not have to be made) at 10 per cent of the Year's Maximum Pensionable Earnings; under the current legislation this is set at 12 per cent. If passed, the new legislation will set the Year's Basic Exemption for 1975 at \$700. At the same time the Bill will delete a special provision that has applied to self-employed persons, that is, the requirement that they must earn at least one and one-third of the Year's Basic Exemption

to qualify as a contributor. These changes will provide greater opportunity for people at lower income levels to participate in the Canada Pension Plan. In particular, increased numbers of farmers, fishermen and other self-employed persons will be enabled to improve their protection under the Plan.

The bill also contains a provision which would allow individual members of religious sects to exclude themselves from the Canada Pension Plan in the case of sects that have "established tenets and teachings that oppose the acceptance of benefits from any private or public insurance that provides for payments in the event of death, disability, old age, or retirement."

Mr. Lalonde mentioned that these changes have been discussed with and have the support of the provinces. He also noted that Bill C-19 which contained the same features and which was debated by the last Parliament, enjoyed a broad measure of support from all political parties. Accordingly, he was hopeful that the new Bill would secure speedy passage by the new Parliament.

### Federation Annual At Bridgewater

The annual meeting of the Nova Scotia Federation of Alcohol and Other Drug Problems will be held at the Bridgewater United Church Hall on November 21st, starting at three o'clock p.m.

The FEDERATION ON ALCOHOL AND OTHER DRUG PROBLEMS is an organization made up of interested people from various Church Denominations who are endeavoring to do something constructive about the problems caused by beverage alcohol and other mood modifying drugs. It is involved in many aspects of a complex and serious social problem. The modest investment made annually by many who share such a concern make the program possible. Research indicates that teenagers experimenting with alcohol and other drugs, impaired driving, alcoholism in industry and alcohol related professional and family problems are all on the increase. The Federation does not have all the answers, but it is making a constructive and much needed contribution toward better solutions.

Originally the Federation was

supported by interested Churches, Church Groups and Individuals. Businesses were approached for support and many business firms seeing the importance of Preventive Education were pleased to give financial support as did other Community and Fraternal Groups. But this combined support was not adequate to meet the changing demands in this complex field. The Government was next approached for support and for the past number of years the Provincial Government has provided a Basic and a matching Grant. The Federation is deeply grateful for the Grant provided by the Government on the recommendation of the N.S. Commission on Drug Dependency, without which it would not be able to carry on the program in which it is engaged to-day.

The single most critical element of the Federation's program which contributes to the achievement of the above objectives is its emphasis on Preventive Education. The more that is done in prevention, the less will have to be done in the field of Rehabilitation.

Rev. G. W. Gilles  
General Sec'y.

## Canada Pension Plan: Proposed Amendments

OTTAWA--Health and Welfare Minister Marc Lalonde today introduced a Bill in Parliament which would amend the Canada Pension Plan. This Bill has the same key features as Bill C-19 which Mr. Lalonde introduced in April of this year and which was being considered by Parliament just before its dissolution for the recent election.

Mr. Lalonde stated that the main purposes of the new Bill, as indicated in the Speech from the Throne, are to:

1. establish equal treatment for male and female contributors and beneficiaries under the Canada Pension Plan,
2. remove the retirement and earnings tests for retirement pensions,
3. establish a new formula for determining the Plan's earning ceiling and thereby establish the base for rapid growth of future C.P.P. benefits,
4. change the basis of the Plan's exempt earnings provisions and thereby provide a greater opportunity for people at lower income levels to participate in the Plan.
5. allow members of certain religious groups to exclude themselves from the C.P.P., and
6. make a large number of technical changes to improve the Plan, and, generally make it more effective.

The amendments that are designed to provide equal treatment for male and female participants in the Plan will pave the way for pensions to be paid to widowers on the same basis as they are now paid to widows. At the present time, widowers' pensions are only paid when the husband is disabled and has been financially dependent on his wife. On the other hand, widows' full pension are payable to (1) those widows over 45 years old, (2) under that age and at the same time disabled, or (3) have dependent children. Reduced pensions are paid to widows between 35 and 45 years of age who are not disabled or do not have dependent children.

Under the new Bill, the provisions that now apply to widows will apply to both widows and widowers alike. The equality amendments will also make it possible for children's benefits to be paid on the disability or death of female contributors on the same basis as they are now paid with respect to male contributors. At the present time, such benefits can be paid in the case of a female contributor only in situations where the children were substantially dependent on their mother before her disability or death.

Another important feature of the Bill concerns the proposals for removing the retirement and earnings tests that now apply to C.P.P. retirement pensions. Under the Act, at the present time, contributors between 65 and 69 must retire from regular employment before they can qualify for a C.P.P. retirement pension, and recipients of these pensions who are aged 65 to 69 face the prospect of having their pensions reduced or eliminated if their post-retirement earnings exceed amounts stipulated by the legislation. Once the new Bill becomes law, these tests will no longer apply and persons 65 or older may draw their Canada Pension Plan retirement benefits whether or not they continue to work and receive wages.

### Westport

#### In Darkness

Westport was thrown into darkness on Tuesday evening when the power cable between Westport and Freeport was badly damaged. The vessel "South Wind" dragged anchor, and caught the cable about 3:15 p.m.

Auxiliary power was expected to be supplied the following day but if the cable is broken it will take considerable time to obtain a new one for installation, it is understood.

In the summer of 1966 the power was off for 13 weeks because of cable damage. A new one was laid on August 19, 1966 with the "Danny and Penny" laying the cable. At that time auxiliary power was made available at the Post Office.

## 1975 License Plates

### Soon Ready

Nova Scotia's 374,000 motor vehicle drivers can soon purchase 1975 license plate stickers to be affixed to present plates. The black and white, reflectorized stickers go on sale in Registry of Motor Vehicle Offices at Halifax and Sydney on November 1.

Hon. Leonard L. Pace, Q.C., Minister of Highways, advises drivers that the deadline is December 31 and urged they avoid a rush by purchasing stickers early. This December date applies to passenger, trailer, farm tractor and general tractor plates.

Any extensions on getting stickers for commercial vehicles would apply until January 31, 1975. Extensions on obtaining stickers for passenger vehicles, motorcycles and dealer plates would be until March 31, 1975.

Mr. Pace estimates that 1975 revalidation stickers for about 350,000 vehicles will be distributed, representing revenues of \$15 million. This volume is six per cent above that of 1974 distribution and revenues. The stickers are in effect for one year. Instructions for attaching them are enclosed at time of purchase.

To help speed up the process, License and Registration offices in Halifax and Sydney are mailing vehicle reminders to drivers who need only fill out the accompanying form, enclose payment by cheque or money order, and mail contents to the registry in a self-addressed envelope. License plate stickers are sent by return mail the same day the application is received at the two offices of the Registry of Motor Vehicles.

Applicants may also apply in person to the provincial registry offices. In Halifax the address is Head Office, Metro Centre, Kempt Road and Young Street. Drivers can also apply to the Registry of Motor Vehicles, Provincial Building, Prince Street, Sydney.

One category of vehicle has already passed its licensing deadline, said Mr. Pace. Revalidation stickers for snowmobiles were on sale from September 1 to September 30, 1974. About 15,000 were licensed this year.

## 1975 Tax Indexing

The indexing plan for personal income taxes will result in an increase in tax exemptions and tax brackets of 10.1 per cent for the 1975 taxation year, Finance Minister John N. Turner announced today.

This will reduce taxes for all taxpayers from the amounts they would otherwise be required to pay. It is expected that some 225,000 taxpayers will be dropped entirely from the rolls.

The indexing plan, approved by Parliament in 1973 and introduced with the 1974 taxation year, provides for the major personal exemptions and deductions and tax bracket limits to be raised each year to reflect changes in the Consumer Price Index. In this way taxpayers will be prevented from being pushed into higher tax brackets by purely inflationary increases in income.

The adjustment for 1974 was obtained by dividing the average Consumer Price Index for the 12-month period ending September, 1974, by the corresponding average for the 12-month period ending September, 1972. This will result in the major personal income tax exemptions and the tax bracket limits being raised by 10.1 per cent from their current levels or by 17.4 per cent from the levels that prevailed in 1973, the last year prior to indexation.

Basic personal exemption for 1975 will be increased to \$1,878 from the current level of \$1,706; the married exemption will rise to \$1,644 from \$1,492; and the deduction for the aged and disabled will be increased to \$1,174 from \$1,066. In addition, the maximum exemption for dependent children under 16 will rise to \$352 from \$320, while for children over 16 the corresponding increase is to \$646 from \$586.

It is estimated that federal income tax revenues will be reduced by more than \$750

million in 1975 as a result of the increase in the indexing factor from 1.066 to 1.174.

The new rate schedule resulting from indexing is set out in the attached tables which make no provision for any tax change which may be introduced in the forthcoming budget. These tables also indicate the savings for typical taxpayers at various income levels.

Revenue Canada, Taxation, will shortly distribute new withholding tables which reflect these changes. Taxpayers subject to withholding by employers should thus start to benefit in January, 1975, from these increased exemptions and deductions and the wider tax brackets.

### Donated To Afterglow Haven

A handsome table lamp has been placed in the lower lounge at "Afterglow Haven" by Mr. and Mrs. Harry V. Adams. The donation was made in honor of Mr. and Mrs. Boyd S. Ellis residents in the complex. Mrs. Ellis is the mother of Mrs. Adams.

## Church Takes Action

At a recent business meeting, Grace Memorial Baptist Church in Fredericton, was faced with a decision. The \$117,000 mortgage on the church was to come up for renewal at an increased rate which would add \$2,100 to the annual interest, bringing it to \$17,00 per year. The decision was reached to take some positive action to reduce the heavy mortgage. Such was the optimism and enthusiasm that over \$7,000 was raised or pledged at the meeting before it was over.

### Community Hall Yard Improved

Twelve and a half tables of cards were played at the Rossway Community Hall on Tuesday evening. The door prize was won by Mrs. Mary O'Neill of Barton. The cake donated by Mrs. George Thibault was won by Mrs. Roy Tidd, who had it cut and served. The work on the grounds around the hall building is nearly completed. Grounds have been levelled, drains dug, gravel and fill hauled in and rocks removed.

A letter was subsequently sent to the membership, with the following Sunday, November 3, designated as Mortgage Retirement Day. The church treasurer, Mr. Elwood Maxwell, spoke on the matter, stating figures and giving encouragement. The pastor, Rev. Donald Robertson, spoke on the overall matter of Christian Stewardship and challenged the congregation regarding the debt. A special Mortgage Retirement Offering was taken, in addition to the regular offering. At the end of the service the amount of \$18,000 was announced for the special offering.

This brings the total to approximately \$25,000, with yet more to come in cash and pledges.

The church has been greatly encouraged by the response of God's people to this challenge, and gives God praise. The enthusiasm is high that, with a yearly emphasis over the next few years, the debt may be reduced further still, if not liquidated. There seems to be no limit to what God's people can do when they see a need and catch a vision and commit themselves fully to the Lord Jesus Christ.

## Don't Shoot!

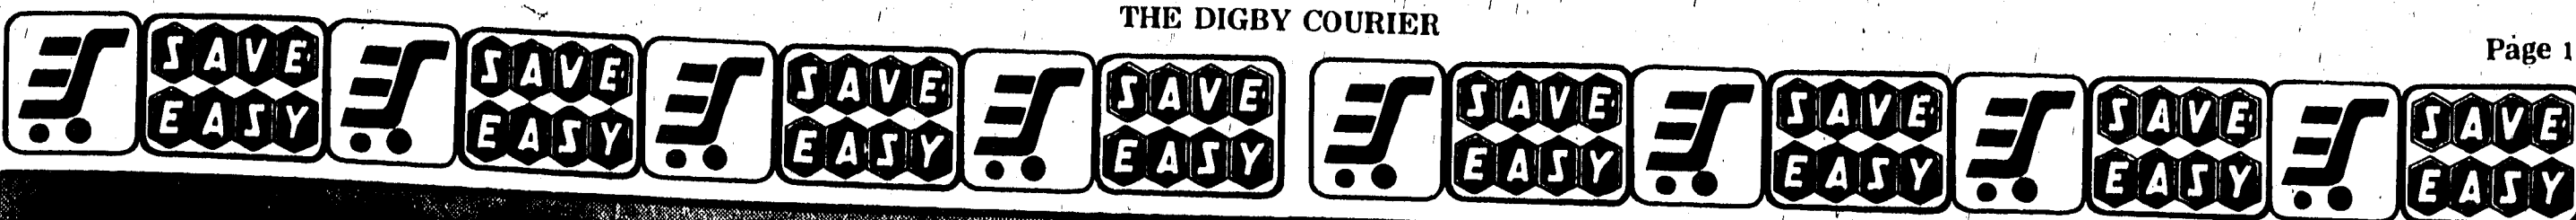

When you shoot at power insulators you can disrupt electric service. You can also disrupt people's lives. In some instances you threaten people's lives indirectly by depriving them of light, heat or essential services - or directly by cutting a high tension wire which may kill an unsuspecting child - or a Nova Scotia Power Corporation lineman. Don't take chances with the lives of others... be safe and careful when you carry a rifle. Don't shoot at power lines.

# WEDDING

ROBBINS-ADAMS

On Saturday, October 19, the marriage of Joy Dianne, only daughter of Mr. and Mrs. Garnett Adams, Smith's Cove, to Neil Otis Robbins, son of Mr. and Mrs. C. Glendon Robbins, Smith's Cove, was solemnized in the Smith's Cove United Baptist Church.

Rev. Wallace H. Jordan officiated at the double ring ceremony. Organist was Mrs. Bernice Adams, Deep Brook, aunt of the bride. Soloist was Mrs. Linda R. Carty, friend of the bride.

The church was beautifully decorated with p-w markers of white bells and lily of the valley, and large baskets of gladioli and mums in pastel shades gracing the altar.

The bride, given in marriage by her father, wore a floor length empire style gown of peau do soie trimmed with daisy braid, long sheer sleeves with ruffled cuff and matching ruffle at the neckline. Her full length veil was of tulle illusion trimmed with daisy braid and the headpiece of a flower pattern with seed pearls. She carried a double heart of red roses and baby's breath.

Mrs. Brenda McCleave, matron of honor, Her A-line dress was of rose dotted swiss over taffeta trimmed in rose and green flower braid. A matching bolero style jacket completed her outfit. She carried a bouquet of mums tinted to match her ensemble.

Miss Darlene Thompson, Smith's Cove and Truro, friend of the bride, and Miss Joanne Robbins, Halifax, sister of the groom, were bridesmaids. Their ensembles were identically styled as the matron of honor's in a sky blue hue and their bouquets tinted to match.

Three year old Heather Anne Ford, daughter of Mr. and Mrs. Howard Ford of Kempt, was flower girl for her cousin and wore a rose colored floor length gown of dotted swiss with high neckline, sheer sleeves trimmed with white lace. She carried a small basket of pink and white mums.

Brent Ford, ring bearer, wore a tan suit jacket with co-ordinated trousers, shirt and tie. He carried a square white satin pillow trimmed with ruffled lace and adorned with a

spring of lily of the valley. For her daughter's wedding, Mrs. Adams chose a long pale blue polyester A-line gown with matching jacket and navy accessories. She wore a corsage of white carnations. The groom's mother chose a polyester empire style gown with navy, red and white bodice and navy skirt with white accessories. Her corsage was of white-red mums.

Best man was Donald Robbins, brother of the groom, and ushers were George Oikle, Marshalltown, friend of the groom, and Steve Adams, Smith's Cove, cousin of the bride.

A reception was held in the Vestry of the church immediately following the ceremony and catered by the Ladies Auxiliary.

Miss Cindy Robbins, sister of the groom, was in charge of the guest book.

Misses Cathy Adams and Marge Adams, cousins of the bride, served the bridal table which was decorated with white bells and streamers. A three-tiered white frosted cake trimmed with pink roses and topped with bride and groom against a heart background graced the center of the table.

Misses Darlene Comeau, and Jane Kinsman, friends of the bride, served the guests, and Steve Adams and George Oikle served the punch. Pourers were Mrs. Arthur Berry, aunt of the bride, and Mrs. Muriel Porter, aunt of the groom.

Rev. George Bell was master of ceremonies and the toast to the bride was given by Donald Robbins.

For their wedding trip, the bride chose a pant suit of tan-beige-blue checked jacket and tan pants with teal blue sweater. The young couple started out for P.E.I., but were forced to return to Deep Brook, where they will reside due to the storm of October 20.

Guests were present from Kempt, Halifax, Bedford, Wolfville, Truro, Digby, Midleton, and Smith's Cove.

## Bicycle Inspection

Owners of motor assisted bicycles soon will be required to have them officially inspected. Hon. Leonard L. Pace, Q.C., Minister of Highways, said today they are to be registered as motor vehicles, and will be known as motor driven cycles.

According to a recently enacted regulation of the Motor Vehicle Act, motor driven cycles must be inspected at an official testing station, on or before January 1, 1975.

In the interests of safety, they are restricted by law to highways having a maximum speed limit of not more than 30 miles per hour.

Identification and proof of registration will be indicated by an attached number sticker issued by Registry of Motor Vehicles. Licensing has been under way since official legislation affecting operation of the small vehicles was approved earlier this year by the Governor in Council.

Drivers of motor driven

cycles on Nova Scotia Highways must carry a license permitting the holder to operate a motorcycle. Mr. Pace added Regulations governing their operation are similar to those in effect for motorcycles.

Mr. Pace noted that there has been a notable trend towards ownership, and operation of motor driven cycles in the last few years. He reminded owners that their operation, equipment and use are subject to regulations of the Nova Scotia Motor Vehicle Act. Information about their registration, operation and inspection stations and at Registry of Motor Vehicles Offices in Halifax and Sydney.

Drivers are also governed by the same requirements as those affecting motorcycles in matters such as insurance, mandatory wearing of helmets, possession of motorcycle drivers' licenses and appropriate financial responsibility laws, concluded Mr. Pace.

#### SCHOOL SITES

The Nova Scotia Housing Commission and the Department of Municipal Affairs have made an agreement regarding the safe of school sites; Housing Minister Walter Fitzgerald and Municipal Affairs Minister J. Fraser Mooney announced today.

Within land assemblies, the Housing Commission will convey school sites to any municipality for the lesser of development costs to the commission or the sum of \$7,500 per acre.

If there is any difference between the price at which the land was conveyed to a municipality and the development costs of land, the Department of Municipal Affairs will pay the amount.

The agreement between the Department and the Commission will cover five years beginning next April.

The annual Remembrance Service of the Churches in Bear River was held in the Baptist Church on Armistice Sunday. The service was conducted by Mr. F. Bigelow and the Rev. E. Waterman, as representing the Baptist and Advent Churches. The Chaplain of No. 22 Branch of the Royal Canadian Legion, the Rev. E.F. Hall, of the United Church, received the flags of the Legion Colour Party and those of the junior organizations, the Cubs and Brownies, and after the reading of the Honour Roll for the two world wars by Mr. Roscoe Cress, conducted the act of Silence and the response "We will remember them".

A special duet was given by two members of the Baptist choir, and the Scripture was read by the Rev. Waterman. The offering was dedicated to the use of the Service Officer of the local Branch, to assist in his work among needy veterans. The sermon was preached by the Rev. Hall, who commented on the growing interest shown by the younger generation in the service, and expressed his personal thanks to them for

their presence. His theme was centred in the nature of the service, which he suggested was essentially one of Remembrance. The primary incentive was that of gratitude. In view of the great sacrifices made by those who did not return; but the nation was also called to remember as an act of penitence. Outlining the failure of nations in the post war period to honour the ideals of justice and consideration for others, a failure in which all had a share, he asked for a continuing response to the claims of God over human life and action, as the only way in which this tragedy could be averted in this present generation. The service must also be an act of Dedication. So much needed to be done in a world that was still divided and shadowed by injustice that the commitment of all men of goodwill to the healing of the nations and the building up of the Kingdom of God, demanded a total response.

The service ended with the singing of the "Queen" and the retreatal of the colours. Legion members and many of the congregation moved to the village War Memorial for the wreath laying ceremony. After prayer by the Chaplain, many floral remembrances were laid at the foot of the Memorial by relatives of the fallen. The Last Post and the Reveille was sounded by a trumpeter from R.C.F. Base, Cornwallis.

## BEARS PLENTIFUL AT CLEMENTSPORT

Among the communities concerned about the bear population is Clementsport. Clementsport residents wrote to the Annapolis County Council stating that bears had killed both sheep and cattle.

It added bears had caused damage to sportmen's canoes while they were on fishing trips, "making them walk miles through woods to get home." Recent complaints said bears had also destroyed bags of fertilizer which were stacked in fields, romped through vegetable gardens, eaten apples and inflicted damage on apple trees.

The most serious complaint said bears had been spotted roaming in fields near playing children.

Lands and Forests Minister

Maurice DeLory will be requested by Annapolis County council to take bears off the protected species list and re-enact a provincial bounty, making it legal for hunters to kill the mammals at random. If the minister complies, council will then pass the bylaw offering a bounty matching the provincial one.

The bounty would encourage hunters to stalk the bears.

The action, passed at council's monthly meeting followed complaints by other county residents who claimed to have evidence bears had killed farm animals and destroyed certain crops.

The Council was presided over by Warden A.C. Denton of Bear River.

The wharf at New Edinburg, Nova Scotia, will be repaired under a contract worth \$76,660 awarded to a Digby firm, Beaver Marine Ltd., it was announced by the Minister of Public Works, the Honourable Charles M. Drury. New Edinburg is fifteen miles south-west of Digby.

Five bids were received in response to public advertisement. The successful bid was low. High bid was \$106,850.

Repairs will necessitate removal of a damaged section of the wharf and casing the existing outer end of the structure with untreated close timber piles. An untreated deck system and ballast stone fill will also be added. The work will be complete in three months.

Plans for the project were prepared for the Department of the Environment by the Halifax regional office,

Department of Public Works. Project manager is A. L. Sallaj of that office.

Two contracts have been awarded to Port Hawkesbury Developers Ltd., Port Hawkesbury, Nova Scotia, for marine work in the Digby, Nova Scotia, area.

At Digby 200 cubic yards of reinforced concrete and 600 cubic yards of gravel fill will be needed for repairs to a spur

wharf and a marginal wharf. Repairs to the deck of the enclosed steel-sheet piling ferry wharf at Tiverton will require 190 cubic yards of reinforced concrete. Electrical outlets and two light standards will also be installed. The work on both projects should be completed in three months.

Plans and specifications for both projects were prepared for the Department of the Environment in the Atlantic Region of the federal Department of Public Works. Project manager is P. J. Dunsworth of the Halifax office.

## REPORTS ON GRAHAM REPORT

Mrs. A.J. Dillon, a member of the Digby Regional High School Boards and chairman of the Board of School Commissioners, reported to the D.R.H.S. Board on Monday evening about the meeting in Yarmouth on Friday dealing with the Graham report.

There were some opposing views by the D.R.H.S. Board members. A specific opposing view was on the proposal that there be one council to represent the Digby, Yarmouth, and Shelburne areas. This would effect representation on the school boards.

A third class of Driver Education had been passed at October board meeting but the report of C.C. MacInnes, superintendent, revealed that this would not be required.

Plans were made to upgrade the fire alarm system at the D.R.H.S.

The tender of the Irving Oil Co. was accepted to supply fuel and the tender of John Oikle was accepted for snow removal.

Donald Scott, band master at D.R.H.S. was given permission to use the musical instrument and band room for Adult Education evening classes.

Mr. Hanscomb also requested the Board to match the amount of \$1500 raised by the students for a sports field at Weymouth. This was tabled with the suggestion that the Digby Municipal Recreation Committee be approached.

Thought had been to a new well at the Westport school when the Department of Health pronounced the water not fit for use but it was understood from authority that chlorinating the well water would be sufficient. Board member, Parker

Thurber, thanked the Islands Home and School for inviting the Board and preparing lunch. Mrs. Helen McNeil complimented the janitor and staff of the Islands school for keeping the premises in good order and the chairman made special mention and complimented the principal at the Westport School, Raymond Tudor.

## Editorial

A FRIEND TO ALL

"He was a friend to everybody". That was the expression heard time and time again when news of the death of Rev. Raymond Brown became known. It was a true statement, testified to on Saturday when people of many denominations and many walks of life went to the Church of God to pay their last respects to a man who spared not himself.

The Brown family came to Digby seven years ago where the Reverend Mr. Brown was minister at the Church of God. Here, too, his wife and entire family gave of their musical talents and assisted in the work of the church.

The Brown family also used their talents in the community life in school, hospital, homes for the aged and ill. Their quiet but friendly and Christian attitude gained for them many friends in church and community.

Mr. Brown was a man of both faith and works. Among his many acts of service was that of transporting young people and older persons from a distance to Divine worship, Sunday School and other church activity which took place under his leadership.

Sympathy is expressed to Mr. Brown's loved ones who have lost a kind husband and father. The town will be the loser because of his death but his influence will continue in the hearts of many of his followers and friends.

### BEAR RIVER BREAK-INS

The village of Bear River suffered two more break-ins on Thursday night, Nov. 21st. The Oakdene School and the New Horizons Centre were entered, the Centre being the major loser, as the Stereo equipment, valued at \$175 was taken.

There seems to be no end to the activities of the group at present operating in the area, and little success in their apprehension. This seems to be due to two factors: the increasing work load on the R.C.M.P. Detachment in the County area, which does not have the manpower to make effective night patrols; and the unwillingness of local citizens to come forward and assist the police with information that they have.

It seems incredible that a gang like this could operate on such a consistent basis without some parents or neighbours not being aware of the nightly activities, and in view of the action taken by citizens in other Valley areas, in the setting up of night patrols, it may well be to Bear River's advantage if similar action was taken here. Many local residents feel, that inspired by their present immunity from arrest, these people may turn to household robbery, when the supply of targets in the form of stores and community centres has been exhausted. If this does happen, community feeling may well express itself in a strong desire to do their own policing. This would be a drastic step, but there seems to be no other alternative in the light of the present situation.

## Hodge Podge

—With all due respect to the efficiency and courteous dealing of the Digby postal staff we have to complain about postal service in other places which effect us. One Ontario subscriber sometimes gets his Digby Courier every week and sometimes he doesn't get one for two weeks. Three issues will arrive at once. That surely is no fault at the newspaper plant but somewhere along the postal lines there certainly must be a slip-up. We heard of a letter mailed in Bear River which arrived in Truro in two weeks. How do you deal with postal problems and accomplish the necessary improvements.

—It takes a plane to catch a plane! Yes, sir, when a man is in Digby at 12:30 (noon) and has a flight booked to Toronto from the International Airport, Halifax, at 2 p.m., there's only one way to make it. Charter a plane to catch a plane. He did, right from the municipality's airport at Hill Grove.

—Extract from a letter: There just aren't words to express the hours of pleasure your paper (The Digby Courier) has given me. I appreciate my brother and sister's gift so much. I read everything and love the paper so much.

pressing their hearty thanks for the successful Blood Donor Clinic held under the chairmanship of E.B. Tufts and the joint auspices of the Red Cross and the Digby Lions Club.

The report of the Sickroom Loan Committee, presented by Mrs. George Winfield, showed that many items of sickroom equipment had been in use, the returns for the month including the following: 1 wheelchair, 1 hospital bed, 1 bedpan, 2 walkers and 1 pair of crutches. Loans for the month included 2 pairs of crutches and sides for a hospital bed. Mrs. Winfield also reported for the Ways and Means Committee, proceeds from the Tea in connection with the Annual Meeting held in October having amounted to \$26.85, weekly Ten Cent Teas having been \$8.49, and a donation of \$3.00 having been received for the use of a pair of crutches.

Mrs. H.M. Warne reported for the Women's Work Committee, listing materials received from Red Cross Headquarters for knitting and sewing, including 24 lbs. wool for afghans and 22 yds. Terry towelling for diapers. A letter from the Division was read, urging the members to step up their efforts in making children's and adult clothing, also afghans, which are all needed for disaster stricken countries. The letter also stated that quilts were urgently needed in case of local disasters, as the stock on hand was totally depleted. The Branch was advised that more materials for sewing would be forwarded at an early date.

New business included a motion by Mr. Emerson that the new signing officers for the Digby Branch be designated as follows: President, Rev. Ronald Stevens and Treasurer, Mrs. Winnifred Brittain. This was regularly seconded and passed. A motion was made by Mrs. Winfield that a few hospital beds be moved from the Court House to her home in order that they may be available for loan when the Court House is not open. This motion was passed with the understanding that trucking costs be paid for Ways and Means funds. In conclusion, it was moved by Mrs. R. B. Lent that the sum of \$25. be contributed by the Ways and Means Committee to the Christmas Daddies Fund, the motion was passed unanimously.

The business meeting adjourned, following an expression of appreciation from Mrs. Allan Harris on behalf of the Branch members to Mr. Stevens for his acceptance of the office of President, and also to Mr. Emerson for the time, effort and interest which he had given to the Red Cross work while serving in that same capacity. The meeting was followed by the serving of tea by the Ways and Means Committee.

### ORDINANCE OF BAPTISM

As a result of the Culmination of the Series of 21 Bible Lectures presented by the Evangelist Elder Don Corkum for the "Voice of Prophecy" Radio Program. The following received the sacred ordinance of Baptism in "The Seventh-Day Adventist Church" Digby. Headley Maxner Granville Ferry, Preston Andrews of Rossway, his wife Olive and daughters, Kellie and Kim. Mr. Gary and Mark Balsar of Paradise, sons of Gerald Balsar, Miss Eleanor Sabean and Stanley Melanson. Mrs. Dorothy Robicheau and Mrs. Thelma Warren. Others who received in Church membership, having previously received the ordinance of Baptism were Delbert Wagner and Mrs. Beatrice Sabean.

Baptism was by Immersion and was administered jointly by both Elder Don Corkum and Elder David Friesen.

Evangelist Corkum is a local N.S. man who hails from Bridgewater and is the son of Mr. and Mrs. Enos Corkum. His two brothers, Glen and Ken are both ministers.

### BAND ACTIVE

The Digby Regional High School Band is off to an active year under the directorship of Donald Scott. Recently they motored to the Arcadia Consolidated School, Yarmouth, where they presented a well received concert. There are approximately 35 students in the band.

They are now preparing to put on concerts for adults.

Society, as well as residents of the Cove, was presentation of the deed to the land, on which the Smith's Cove Cenotaph is located, by Miss Catherine Weir on behalf of her family. The Smith's Cove "Do Your Bit" Club will continue to look after the grounds for as long as they can, after which the Society will take over.

The November meeting was held on Monday evening, Nov. 11, with Victor Cardoza as guest speaker. The meeting was held in the historic Smith's Cove Meeting House with David Irvine, president, presiding over the business portion of the evening.

Harold A. Sulis presented a panel of old postcard photos of the Smith's Cove - Bear River area which was being given to the Society by Mrs. Penny Gott.

In his speech, Mr. Cardoza spoke mainly on the Inns and Hotels that had been in operation in past years in the Cove, and bringing up-to-date those still in existence at this time. He took much of his material from Isaiah Wilson's writings who had, in spite of bad eyes, walked to Weymouth and to Annapolis Royal searching the records for data on this area and surrounding Digby areas. Mr. Wilson had also travelled to Windsor and Halifax over some thirty years, at his own expense, in order to obtain material for his history of the area. Mr. Cardoza also used the writings of Mrs. Hazel Clayton for background of local people and the inns.

One comment made by the speaker was that he was impressed by the fact that many descendants of original settlers still live in the area.

Among the hostilities mentioned was the first "tourist" hotel, known as the Hardwick House, later the Mason House, and finally known as Keltic Lodge which was situated on what is called Jaeggars Point back of the Smith's Cove Trailer

and Tenting Park. Owners of this hotel were Mr. and Mrs. Hardwick, followed by their son, Bob, who was also a stage driver; Mr. and Mrs. Charles Mason; Bishop Jaeggars, who was the last owner and who added to the structure as it was until it was destroyed by fire in 1950. The property was then purchased by Walter Flett.

The Out-of-the Way Inn - Pleasant View House managed by Evan Thomas was situated in the present camp grounds.

The first non-tourist hotel was managed by Ben and Elizabeth (Odell) Hunt and was situated where the home of Mr. and Mrs. Arthur Berry now live. This hotel was a stage coach stop and named the Imperial House. Among the notes Mr. Cardoza had scanned, was the notation that the Temperance group had enjoyed a goose dinner at this inn for the sum of 65 cents per couple. In 1908 Angus Gidney took over the Imperial Hotel and named it Juanita Lodge, last owned by Fred McHugh.

In speaking of a "tourist" hotel, Mr. Cardoza emphasized the fact that the tourists were not as they are now, but summer residents who brought their families and stayed throughout the summer, often becoming identified with the people of the community over the ensuing years.

The Cossaboos opened Harbour View House and Cottages in 1900 with the original dining-room seating 200 people. The original building was burned several years ago and the present building was at that time the Annex. Harbour View was later owned by Walter Flett, and is presently owned by David and Sylvia Irvine.

The meeting closed with a lunch served by Mrs. Kelsey Raymond and Mrs. Irvine which was highlighted by the singing of "Happy Birthday" and presentation of a birthday cake to David Irvine for his natal day.

## WIN ATLANTIC PROVINCES CHAMPIONSHIP

On Saturday, November 2nd, a senior cross-country team consisting of runners from Digby, Yarmouth and Shelburne captured the Atlantic Provinces Cross-country championship in Moncton.

The Digby runners participating on the team were Garnet Stacey, Robert Davey and Ron Fraser. Runners from Yarmouth were Randy Butterwell and Jim Rideout and from Shelburne Glen DeMolter and Ralph Williams. Mike Theriault and Vance Hazleton also participated in this meet but were running in the Midget division.

Team scores are calculated in cross-country running by adding up the positions of the first five out of seven runners on each team. The team with the lowest score wins the race.

Three other Digby runners performed commendably at this Atlantic Provinces meet. Paul Theriault, Pat Theriault and Vernon Simms are running for the Dalhousie University Cross Country Team. They are the three top runners for Dalhousie and will be attending the Canadian University Championships in Ontario this week.

Pat Theriault from Digby and Jim Rideout Yarmouth have been selected to attend the Canadian National Cross-Country Championships in St. Catharines in one week time. This is an honor for both of these boys, and it is hoped that they will perform well in competition against some of the best distance runners in the world.

Digby runners have certainly been doing well in the sports arena during the past few years. For a small community

it has developed more competitive runners than most other communities its size.

If a competitive team can be formed they have been invited to play in the Atlantic Junior "C" League, which comprises teams from Shannon Park, Windsor and Greenwood. For further information call 245-2436.

But she left us treasured memories

Of many happy years  
And they always will be with us

As we journey through the years.

Lovingly remembered and always missed by son Newman daughter-in-law Marg grandchildren, Valerie, Wayne and Paul.

Dear Mum, no one will ever know

How deep inside we miss you so. You were always there to turn to, with reassuring love, and praise. Yet you suffered on in silence. Though you hurt in many ways, then God took you to him and ended all your pain. But still you remain, within our hearts until we meet again. Always loved, and sadly missed by daughter Frances, son-in-law Godfrey and grandchildren, Larry, Myrna and Brian.

## Don't Shoot!

When you shoot at power insulators you can disrupt electric service. You can also disrupt people's lives. In some instances you threaten people's lives indirectly by depriving them of light, heat or essential services - or directly by cutting a high tension wire which may kill an unsuspecting child - or a Nova Scotia Power Corporation lineman. Don't take chances with the lives of others... be safe and careful when you carry a rifle. Don't shoot at power lines.

## TO CRACK DOWN ON NEEDLESS WELFARE

Gerald Walsh, Vernon Wessell and Lewis Comeau of the Digby Social Service department appeared before the regular meeting of Digby Municipal Council on Monday, having been invited by the council to discuss matters of welfare, especially on the topic of welfare abuse. Councillors felt that abuse could be prevented to a great extent if the department consulted the councillor in the district where welfare requests were made. Councillors, they felt, were fairly well acquainted with the

needs of persons in their own districts. Mr. Walsh agreed that the council has a responsibility to report cases of abuse.

A court case of recent date was mentioned which involved a person who accepted social service payments while receiving money from other sources. The outcome of this case, they felt, would be a detriment to any other person who might attempt social service abuse.

Council members, who find welfare costs rising, said they find welfare being deplorably

abused "left, right and centre". Mr. Walsh disagreed and said that it amounted to no more than one or two percent. He said that in the final analysis the decision was the department's responsibility and welfare could not be withheld unless there was a just cause.

With the figures presented to the Municipal Council and the tend of the economy, the municipal councillors felt that they had to carefully watch all spending. Warden Wilfred Swift, who presided, agreed that welfare as such was good

but many ratepayers are kicking about abuses. On the other hand, said Councillor Eric VanTassell, there are a great many families who need assistance of this sort but have too much pride to go on welfare.

An invitation had also been issued to the local R.C.M.P. to visit Council and discuss the subject of vandalism and crime as pertained to Digby County and assure the R.C.M.P. of the Council's co-operation and offer to help. Sergeant "Bud" Abel represented the R.C.M.P. at the meeting on Monday morning.

Being understaffed seemed to be one detriment to law enforcement was the consensus of opinion. Including office clerks, there are 12 on the Digby R.C.M.P. staff. There are three constables for the town, four county men on investigation and two highway patrolmen. "you can't give a man a uniform without training", the sergeant noted. Also, Sergeant Abel said, that where they worked from 16 to 18 hours a day, duties are cut down to five days a week of eight hours each. On the subject of drugs, the

sergeant said it has died out somewhat because the young people can't afford it. There had been cases in Weymouth, and on the Islands and Bear River was a "hot spot".

The subject of the lack of co-operation by the public was discussed and the plight of retaliation if involved.

Bounty on bears came up for discussion and the Council decided to endorse a resolution of Annapolis County to the Department of Lands and Forests that bears be taken off the protective list.

It was reported that bears ate fields of grain at Landsdowne, they had been sighted across the highway on Digby Neck and other people were afraid to leave three and four year old children to play outside where a bear was seen walking between the garden and house in the North Range area.

Councillor MacNeil asked that a letter be sent to the Department of Highways asking when they expect to pave the Jordantown road. She said that tenders had been out and accepted but nothing done.

## TALKS ON LAND USE AND LAND BANK PROGRAM

Guests at the annual meeting of the Digby County Federation of Agriculture held at Weymouth on Tuesday evening were Al Connor, resource development representative of the Nova Scotia Department of Agriculture and Marketing and Martin Vissers, president of the Nova Scotia Federation of Agriculture. The meeting was presided over by Leonard Boudreau, Concession, president.

The president, in giving his yearly report said that two years ago they were told that the farmers in Digby County did not want to farm anymore but there is a new lease on life in farming. He complimented the new agricultural representative, Bruce Gilliat, on his accomplishments which helped to overcome the discouraging facts. He also spoke highly of the Limestone spreading service. He made special mention of the fact that the St. Mary's Bay marshlands were to be retained by dyke repairs and replacements for the land is valuable for hay and pasture for cattle. He expressed hope that the farmers will continue to work together because it is the only way of survival for far-

mers.

LeRoy Warner, president of the Bear River Agricultural Society, gave a report from that organization, the only society of its kind left in Digby County.

Mr. Gilliat spoke of the improvements made at the Digby County Exhibition grounds and buildings such as enlarging the horse ring. He noted there was an increase in livestock both in quantity and quality at the 1974 exhibition. Attention to the condition of the barns was brought up to Hon. Jack Hawkins when he visited the exhibition and it is hopeful that the barns would be repaired in the next three or four years. He was concerned about the future and said he would like to see all Digby County farmers and ranchers to take part in the exhibition.

Lester Mullen gave the St. Mary's Bay Marshland report. He said that they noticed in May that the dyke had been eroding rapidly which distressed the owners who had invested money into it. They appeal to the government through Hon. John Hawkins and a \$75,000 repair job will be undertaken. He said that the owners had taken heart again and are taking a more intensive interest.

John Roope gave the report on the pasture lands. One hundred and forty-five head of cattle were pastured and fifteen calves were born on the pasture lands. One animal was struck by lightning, it was thought.

Mrs. Helen MacNeil, chairman of the Veterinary Board reported the veterinary had made 152 calls and 101 phone consultations. At present, Mrs. MacNeil said, there is no

The Hope Fellowship organization for the retarded held a successful tea and sale at the organization's workshop in Conway on Wednesday. Seated at the craft table are Mrs. LeRoy Hicks and Mrs. Gordon Grace who had charge of the craft sales for the afternoon while members of the executive admired the collection of items made by the students at the workshops. In the picture above left to right are: Gerald Wade; Mrs. Josephine LeBlanc; Mrs. Hicks; Mrs. Grace; Mrs. Glennie Henshaw, Deep Brook and Mrs. Muriel Frankland, Bay View.

## HOPE FELLOWSHIP TEA

A successful Hope Fellowship tea and sale was held on Wednesday at the Hope Fellowship Workshop and Centre in Conway. A Christmas tree and Christmas decorations gave a festive atmosphere.

Mrs. LeRoy Hicks and Mrs. Gordon Grace were in charge of the crafts table which offered for sale articles made by the students who attended the workshop last year and for two days a week in the present year.

Others serving at the tea or helping in the kitchen were Mrs. Muriel Frankland, Mrs. Stephen LeBlanc, Mrs. Mary Barton, Mrs. Glennie Henshaw, Mrs. Leman Sarty, Mrs.

Evangeline Francis and Mrs. Earl Waterman.

The school year of 1973-74 saw an L.I.P. grant helping to finance the workshop for the retarded but the centre is open presently only two days a week, Monday and Wednesday, entirely on a volunteer basis with Mrs. Frankland and Mrs. LeBlanc in charge. Five students attend the workshop. One of the problems facing the workshop is transportation.

A survey of the County to determine how many people there might be who need the services offered at the workshop is now being conducted and hopes are that some

arrangement might be made under Continuing Education to present opportunities to the retarded to make the most of themselves, many of whom can be self supporting or, at least, make life interesting for themselves by developing skills in handicrafts.

Stephen LeBlanc is president of the Hope Fellowship organization for the benefit of the retarded. Mrs. Frankland is secretary and Mrs. LeBlanc, treasurer. Among the directors are V.G. Cardoza, Earl Waterman, Ronald Fraser, James Outhouse, Mrs. Eleanor Elms, David Banks and Mrs. Irene Spechts.

## CONSIDER MORE FUNDS FOR FISHING BOATS

Coline Campbell, member of parliament for south western Nova, stated in Ottawa that the Honourable Harold Huskisson, Mr. Hugh Tinkham, M.L.A., Senators Donald Smith and Ernest Cottleau, along with herself, met today with the Honourable Romeo LeBlanc, Minister of State for Fisheries, and Senior Officials of the Department to discuss the need for more funds to be allocated in the Boat Subsidy Program.

The delegation presented their concern for fishermen who have had their plans drawn up to have their boats built this winter and the fact that unemployment might result in the Ship yards in the area.

The Minister showed concern and assured the delegation that the problem is being examined thoroughly with the hope that a satisfactory solution can be found to alleviate this problem.

## LOCAL CANADA MANPOWER CENTRE EXTENDS SERVICES

In it's constant efforts to place people in satisfying employment; to satisfy employer demands; and to have employers use their Canada Manpower Centre for their manpower needs, the local Digby Canada Manpower Centre has expanded their services in the area from Bridgetown town line to Weymouth. This was the statement made by Mr. Jules Pottier, Digby Branch Canada Manpower Centre Manager, as he further explained the following expanded services:

(1) A mobile van has been allocated to the Digby CMC for a period of 3 months. The Van is equipped with display racks, literature, and a Courier Viewer. A Manpower Counsellor will operate the Van in

## CHARGE SETTLED IN HUMAN RIGHTS

Settlement of a charge of discrimination against the Royal Western Nova Scotia Yacht Club in Digby has been reached. George F. McCurdy, Director of the Nova Scotia Human Rights Commission, announced.

The major terms of the Settlement are contained in a memorandum of understanding signed by the Yacht Club and by Lamont Miller, David Miller, Marvin Johnson and Neville Elms who lodged the complaint with the Commission.

"The Yacht Club has apologized to the Complainant for any embarrassment or humiliation they may have suffered," said Mr. McCurdy, "and has announced unequivocally that it has no official policy of excluding blacks from its affairs.

As a sign of good faith in pledging to uphold the the Principles of equal treatment embodied in the N.S. Human Rights Act, the Club has agreed to display, on its premises, a human rights scroll which calls

The Association of Professional Engineers of Nova Scotia held a fall meeting in Halifax during the past weekend which was attended by members from all parts of the province.

A dinner-dance was held at the Chateau Halifax on Saturday evening with music provided by the Joe Sealy orchestra. Above are Mr. and Mrs. L. F. Small, Tiverton and Mr. and Mrs. S. A. MacNaughton, Digby.

## DIGBY LIBRARY NEEDS FUNDS

The possibility that the Digby Library might have to cease operations unless additional financial support is received was seen at a meeting of the Board of Directors, held at the home of Mrs. H. M. Warne last Wednesday evening.

The meeting was told by the treasurer, F. C. Purdy, that present revenues are insufficient to meet operating costs. Necessary capital expenditures to repair and maintain the library building cannot be met, it was stated, as the Admiral Digby Library and Historical Society, which owns the building, is at present in a deficit position.

It was pointed out at the meeting that a number of repairs are badly needed in order to ensure proper maintenance of the library building which is one of the historic structures in Digby. The building was purchased several years ago by the Admiral Digby Library and Historical Society

and every effort is being made to restore and maintain the building as one of the valuable heritage properties in the community.

Plans to establish a museum on the second floor of the library building have been delayed because of the problems of financing. It is understood all monies presently being secured by the Society through donations and other support are being used for maintenance. These are inadequate to the need and will not permit continued operation unless additional sources of revenue are found, it was stated. The Society has been caught in the squeeze of rising fuel costs and fears are expressed current revenues will fall short of meeting these costs.

It was pointed out at the meeting there are more than 2,000 persons who regularly use the services of the Digby Library. Nearly 50 per cent of

## CASEY URGES CNR TAKE OVER FERRY

Joe Casey (L-Digby), obtained complete consent for his suggestion that the federal government, through Canadian National, take over the operation of the Canadian Pacific ferry service between Digby and Saint John, N.B. in the Legislature on Tuesday.

Mr. Casey charged that successive rate increases and cutbacks in daily sailings of the Princess of Acadia had caused the whole operation "to go sour".

A trip between Digby and Saint John that cost \$10 three years ago now costs \$22, Mr. Casey said. The per passenger rate has increased from \$2.50 to \$5, and the three-times daily sailing has been cut to twice a day in the winter.

"There are now rumors that service will be cut back to once a day. Truck rates have also been increased," said Mr. Casey.

Mr. Casey, who is also deputy House speaker, accused CP of increasing prices and reducing services to a point where traffic had fallen off.

Then they present figures to the Canadian Transport Commission designed to convince the government they should be subsidized on the grounds the service is unprofitable, he said.

Mr. Casey said he had no objection to subsidized ferry services "but what frightens me is CP's pleas for subsidies are but the first step towards further reduction of service."

If CN takes over the ferry service, it should also acquire the Dominion Atlantic Railway, "an orphan in CN territory," said the member from Digby, Canadian Pacific owns the DAR.

"When one considers the past history and concept of the DAR...then a takeover by CN, or, at the very least, an integration of facilities, would produce better services".

Mr. Casey said he has been assured the crew of the Princess of Acadia would be absorbed into the CN service without loss of pay, fringe benefits or seniority.

He said he believed a strong case could be made for selling sea travel to Nova Scotia from Saint John, especially to tourist who include the Annapolis Valley and the South Shore in their travelling plans.

"But...to market any commodity there must be a consistent quality of service and a competitive price factor."

Mr. Casey said if the publicly owned CN was given the sea route between Saint John and Digby, "any loss of revenue would be absorbed by the entire Canadian population".

In the long run, increased revenues resulting from the tourist industry would offset operating deficits incurred by the ferry service.

Mr. Casey said he was convinced that the tourist industry alone was sufficient reason to justify the ferry service.

Mr. Casey was supported in his resolution by members of both sides of the legislature, including Finance Minister Peter Nicholson, Dr. Gerald Sheehy (PC Annapolis East), and Glen Ellis (L-Kings North).

### PREPARE FOR FOOD SHORTAGE

This emphasis on using the good land for agriculture rather than for paved roads and idle summer resorts is not a fad or impulsive irresponsible thinking. With the increase in world population it could very well be difficult to find enough food to feed all the hungry mouths.

Nova Scotia has good land for agriculture and a considerable amount of acreage is not put to agricultural use. Indeed, the number of farms and farm acreage has gone down terrifically according to Al Connor, Resource Development Representative for the Nova Scotia Department of Agriculture and Marketing, who addressed the annual meeting of the Digby County Federation of Agriculture on Tuesday evening.

While some throw up their hands in despair and say it is impossible for Canada to ever feed the world hungry, there is no reason why the agricultural lands should not be used to capacity to save as many as possible of the starving people. Instead of destroying millions of eggs and hundreds of calves some other system of acceptance to farmers should be instituted for making a profitable industry out of farming. To this end the Department of Agriculture and Marketing in Nova Scotia has provided assistance for the production of agricultural products through a Farm Land Leasing and Land Bank Program. Bruce Gilliat, agricultural representative for Digby County outlined the objectives and possibilities of the program at the annual meeting of the Digby County Federation of Agriculture on Monday evening.

The program is designed to provide assistance for the production of Nova Scotia agricultural products by the province acquiring land of high agricultural capability for development, subsequently leasing such lands to selected bona fide Nova Scotia farmers to augment a scarce land resource.

The land shall be purchased by the province at a price based on auction, tender or other negotiations with the seller. Only the real property will be acquired by the Nova Scotia Farm Loan Board.

The farmer who leases the land adjacent or near their existing property for the purpose of developing a more economic farm business will have a five year lease at five percent per year of the farm appraised value plus taxes.

There are other benefits to the Farm Land Leasing and Land Bank Program which can be learned from Mr. Gilliat or from the department. For those who are interested in doing a small share in providing food to feed the hungry or to develop land for greater profits might be wise to contact those in the know and be prepared to meet a food shortage if necessary.

### SAFE DRIVING WEEK BEGINS SUNDAY

Safe Driving Week starts Sunday, December 1. We cannot think of another week of more importance than a week which recognize the value of human life and attempts to save people from injury or death on the highways. Safe Driving Week, however, would be practically fruitless should the other fifty-one weeks of the year ignore safe driving. It is a subject which must be constantly before the public with the hope that the concern will eventually sink in.

Prime Minister Pierre Elliott Trudeau reasons that Safe Driving Week does have some impact and we agree with him. His recent Safe Driving message to Canadians says "There was a time in Canada's recent history when the month of December was the worst in the year for fatal traffic accidents. This is one reason why December 1st - 7th is Safe Driving Week."

Now, more than half the months of the year have records worse than December. This suggests to me that the campaign does have an appreciable effect in saving lives and in helping to prevent injury. It also shows that there is still a long, long way to go.

As responsible Canadians, each driver must accept his duty to drive safely on our roads, so the awareness and practice of that obligation will extend great benefits to all drivers, their families and to Canada.

Safe Driving Week in Canada is sponsored by the Canada Safety Council. The message of B. J. Legge, QC, president of the C. S. C. has this to say: "The only thing one can say about traffic accidents in Canada, is that statistically, we do not have the worst record in the world. Unfortunately this is cold comfort because statistics cannot measure the pain of injury, the depression of economic losses, and the anguish of bereavement."

Mr. Legge exhorts everyone to contribute to the week by driving defensively and by using safety belts. The theme for 1974 is to drive like you'd like everyone else to drive.

Right now the use of safety belts is a much talked about subject. Most are for them but there are those who disagree. The use will no doubt be mandatory as introduced in the Legislature by the highways minister, Hon. Leonard Pace, but in the meantime, it would be a good idea for our readers to voice their opinions for or against in these columns. They are open.

Whether or not seat belts become compulsory we urge everyone to heed the Safe Driving Week theme "Drive like you'd like everyone else to drive."

## LETTER TO THE EDITOR

Mrs. E. Wallis, Editor  
Digby Courier  
Digby, Nova Scotia

Dear Madam:

According to the Chronicle Herald, the Annapolis County Council is approaching the Minister of Lands and Forests to re-enact a bounty on bears. They also indicated that they will double the bounty from local resources if the Minister approves.

This is based on the contention that bears in Annapolis County have killed farm animals and have damaged property. If such a bounty were re-enacted, then without doubt one of our native animals is destined for extinction.

It is highly unlikely that a Nova Scotia bear would kill being a vegetarian. It is more likely that dogs would kill local sheep and curious bears would perhaps leave tracks around the carcass.

Surely we could get the assistance of Provincial Scientists in determining if it is possible to remove troublesome bears to more remote areas. Surely any animal, deer, bear or dog will occasionally tamper with property. We should be glad that we are sharing this land with all mammals.

Note that considerable havoc was made to highway signs in Kings and Annapolis Counties after the Halloween night celebrations, and I am wondering if local councils are proposing placing a bounty on humans.

Let us hope that the Annapolis County Council will take another look at this proposal before they present it to the Minister of Lands and Forests.

Yours very truly,  
R.V.P. Bowditch

contract with a veterinary Dr. Calvin Rice resides in Digby and gives service on Thursdays and Fridays but is engaged in Halifax at other times.

An interesting part of the Tuesday night meeting was when Elmer Jarvis, retired farmer from Weymouth Falls presented the president with a cheque. Forty years ago there was a Weymouth North Agricultural Society and Elmer Jarvis is one of two of the members living today. The cheque presented to Mr. Boudreau represented the balance from that society in a Weymouth Chartered bank.

The report for Nova Scotia Board of Director of the Nova Scotia Federation of Agriculture was given by Martin Vissers, president of the Nova Scotia Federation of Agriculture. Of the major activities of the Board were two which stood out. There was a meeting with the Honourable Otto Lang to discuss the domestic marketing of feed grain. Also there was a meeting with the Atlantic Parliamentary Caucus (M.P.'s of all parties) when papers were presented on feed grains, price stabilization, transportation and taxation. Besides these two meetings the Federation also expressed to Honourable John Hawkins, Minister of Agriculture, their apprehension of the encroaching of Government departments into agricultural fields in which they are not fully familiar such as Land Use Planning, credit, environmental control, labour and the motor vehicle branch as it pertains to farm vehicles. Other activities dealt with the

increase in the cost of limestone which increase was later absorbed by the department, requesting capital grants up to \$15,000 when erecting such buildings as grain storage and drying facilities, requesting tax free fuel to be used in farm registered trucks and requesting that land being used to its full potential not be taxed at a higher rate than potential agricultural land that is kept out of production.

The report stated that a request had been made that the Farm Loan Board be placed under the jurisdiction of the Department of Agriculture; that an act be implemented for the fencing and impounding of stray animals; that the cheap food policy be done away with and an "Agricultural Week" be established. The Federation in their presentation stated that if the agricultural industry is to make a significant contribution to food production, it would require a long term commitment from both levels of government, and unless such a commitment was forthcoming they would continue to lose farmers at an alarming rate.

Mr. Vissers said the Board requested the removal of the twelve percent excise tax that applied to trucks used for farming and made representation to the Minister to have in the long term commitments to agriculture a policy of low interest rates and that the maximum for a Farm Loan be increased to \$200,000.

The educational committee of the Board recommended a course with on-farm training and had offered three scholarships. The Board requested capital grants on farm homes be re-established and that the capital grants on electrical generators be increased from twenty per cent to fifty per cent.

Al Connor, Resource Development Representative of Nova Scotia Department of Agriculture and Marketing, Bridgewater, and Bruce Gilliat, Digby County agricultural representative versed the audience on the Land Use Planning and the Land Bank Program.

The Land Leasing and Land Bank program designed to provide assistance for the production of agricultural products in Nova Scotia is a program in which the province acquires land of high agricultural capability for development, subsequently leasing such lands to selected bona fide Nova Scotia farmers to augment a scarce land resource. Farmers get a five-year lease at five per cent per year of the farm appraised value plus taxes. The lease can be renewed so long as the province finds the land is being properly developed.

The Province of Nova Scotia agrees to install drainage facilities of the type and extent as determined by Department of Agriculture engineers for adequate soil drainage. The cost of such drainage to be borne by the Province of Nova Scotia.

On the first annual anniversary of the lease signing, following the completion of necessary drainage work, the lease fee shall change and shall be based on farm appraised value plus cost of drainage work less assistance eligibility. Five per cent of this total shall constitute the new lease fee.

Mr. Connor and Mr. Gilliat were thanked by Wayne Comeau for the informative talk and the slides shown.

Membership fees to the Digby County Federation of Agriculture remains the same as in 1974 viz \$10 per member and \$2 associate member.

The new directors named were Louis Comeau, Murray Prime, New Tusk and Malcolm Justeson, Bear River for a three year term and Peter Balser, Shelburne Road and Wayne Comeau Marshalltown for two years.

Named on the nominating committee were Wayne Comeau, Bruce Gilliat and Leonard Boudreau.

Representative to the Nova Scotia Federation of Agriculture is Cameron Johnson of Bear River with Leonard Boudreau, Concession as alternate.

The Job Information Centre contains a Job Bank in which local job opportunities and job opportunities from various localities across Canada are displayed; a Career Library; Manpower Programs display racks; Training Courses available; Student Career section where information on many Canadian Colleges are contained.

Two Outreach workers, Mr. David Miller and Mr. Roy Cromwell are actively making contacts with all employable persons in these areas in an effort to acquaint these persons with various CMC Programs and in particular in the use of CMC facilities.

Mr. Pottier further stated that great emphasis is being placed in securing the co-operation of employers who are not using CMC services. Unless employers co-operate by using Manpower's many services available them; by registering their manpower requirements with the CMC as far in advance as possible and not at the last minute; by discussing their problems in hiring or retaining workers; then they, the employers, as taxpayers, are not taking advantage of the many services offered by the Canada Manpower Centre.

### COACHES ASSOCIATION

More than fifty amateur football coaches attended a dinner meeting this week that saw the rebirth of the Nova Scotia Amateur Football Coaches Association. The dinner, held under the auspices of the N.S.A.F.A., featured an address by Ken Bellemare, the Department of Recreation's Co-ordinator of Sport for the province. The Association is expected to play a prominent instructional role in football by providing clinics and establishing a resource information centre for coaches entering the game for the first time.

### NEWS FROM BIRD HAVEN

Now that the weather is growing colder more winter birds are coming to the feeding stations. Five Blue Jays are at a large piece of suet most of the day, two nuthatches come for the sunflower seeds, a pair of Hairy Woodpeckers and one Downy are at the suet, but the prize visitors are three young male Baltimore Orioles.

Two of these birds have been caught and are at home with the other eleven members of the kitchen family, the other one I hope to get before winter sets in. These birds should be well on their way to Mexico or South America.

Since 1936 when I had my first one caught New Years Day, which by the way was dreadfully emaciated and only lived a few days. I have had at least thirty of these birds for winters, banded and released in the Spring, with only the loss of one that tried to take a bath in the goldfish bowl.

The Evening Grosbeaks were here several weeks ago but haven't seen any lately and not a sign of a chick-a-dee.

I had a call from a lady in Marshalltown saying she had a small bird with a white breast

and black back and webbed feet that could not fly, it was a Dovekie.

These little birds have very small wings and are unable to lift their plump little bodies off the ground! She took it to the Shore where it belongs. They are often blown inland in heavy wind. The first one I ever saw came from the Church yard at Marshalltown many years ago

"Joey" the Cedar Waxwing that was brought from Annapolis some weeks ago is much better, the shot wound is completely healed but there is permanent damage to his wing and he will never fly again.

Why not put out a bird feeder, they are lots of entertainment for shut-ins and all the local stores have a good supply of sunflower seed and bags of wild bird seed, you will be well rewarded for the little effort.

A lobster bait bag filled with suet hung on a tree makes a good feeder for Jays and Chickadees.

So long for this time.

## EVERY DAY TO CELEBRATE

The United Church Women met at the home of Mrs. Lawrence Darras, Bear River, on Tuesday evening, November 19. The meeting was opened by the president, Mrs. Foster Hall.

The program for the evening was entitled, "It's Time to Celebrate." Two posters were made. The first one was called "This is Our World" and contained headlines cut from the newspapers telling of wars, murders, inflation and other evils. The other poster was called "This, too, is Our World" and was made up of headlines telling of the many good things that are happening all the time.

The theme stressed was that every day should be a day of celebration.

During the business meeting it was reported that a shipment of good used winter clothing had been sent to the Brunswick Street Mission and bandages for lepers to Angola. Members were asked to send their gifts for the Brunswick Street Christmas box to Mrs. Alban Riley before the first of December.

## GOVERNMENT TAKE OVER FUNDY FERRY SERVICE?

OTTAWA - The Bay of Fundy ferry service between Digby and Saint John may be taken over by the federal government from its present operators, Canadian Pacific Railways.

The government has been conducting negotiations with the company, over possible purchase of the 10,109-ton Princess of Acadia, which went into service in May 1971.

CP indicated last year that it wanted out of the ferry service because it was not a money-maker.

Ottawa has set aside \$10 million in the event that the transfer of operations goes through.

The company last fall announced that it was dropping one of its two daily round trips, as an austerity move.

That evoked a howl of protest from business and industry representatives in western Nova Scotia.

The firm subsequently agreed to continue with a twice-daily round trip service, after the federal government agreed to pick up the tab for any operating losses on the second run.

Since that time, talks have been continuing between the two sides.

The Princess of Acadia was

built at a cost of \$8 million, and went into service on the 43-mile crossing to replace a 20-year-old vessel by the same name.

When construction of the ship began in May 1968, the federal government gave CP an undertaking that if the company subsequently wanted to discontinue the service, Ottawa would buy the ship.

A transport official said yesterday the government has not yet decided whether it will purchase the vessel, although this option is still being discussed.

CP has suffered interest-rated losses estimated at \$1.5 million since the new Princess of Acadia began operating.

## NAMED DELEGATES

At an executive meeting of the Digby County Exhibition Society held on Monday night, Reubin Mervin and Allister Milner were named delegates to attend the annual meeting of the Association of Nova Scotia Exhibitions to be held in Truro in February.

## BEAR RIVER STUDIES INCORPORATION

A special meeting of the Board of Trade was held in Bear River on Thursday November 21st to discuss the matter of the Incorporation of the Village under the Village Services Act. The meeting was under the chairmanship of the Rev. R. Winchester, President, and was largely attended.

Mr. W. Cox gave the Board the information in respect of procedure, and a serious

discussion followed of the difficulties and possibilities such a step would entail.

After a lengthy discussion, in which many of the members took part, it was decided to set up a Committee to ascertain the boundaries of the proposed new Village area, and to continue the deliberations on the matter at the next monthly meeting in December.

## RAISE \$230 AT SALE

The Bear River New Horizons Centre held a successful auction sale on Saturday November 23rd. The auctioneers were Mr. A. Banks, President of the local Branch of the Canadian Legion, and Mr. A. Denton, the County Warden. The aim of the sale was to provide the Centre with a piano, and a total of \$230 was realised in donations and sales of handicrafts, and baking products. Any one able to help the Centre by offering a good piano for sale at a reasonable price, is asked to contact the Secretary, Mrs.

E. Hall. The Centre would appreciate this, as the members seem to have a liking for singing. It is hoped that the Centre will have another sale of Christmas decorations and table arrangements soon, as the

Activity group responsible for the creation of these items is busy preparing a full range of interesting products. The members are planning a shopping trip to Digby, early in December and plan to drop in on the Digby Branch to exchange Christmas greetings.

## BEAR RIVER STUDENTS ENACT ORDER OF GOOD CHEER

There was considerable excitement, noise, and some confusion on Tuesday morning, when the students of grade six at Oakdene School prepared for and presented a dramatization of a meeting of The Order of Good Cheer, as they felt it might have been conducted at the Port Royal Habitation in a winter night in 1606.

Scenes of forest and countryside, as well as indoor properties, had been prepared to set the stage suitably for this occasion. In charge of this part of the preparation was Carol Davey and Shelley Rice.

Directing the dramatization, which was presented in four scenes, was a committee of four students, Dana Milbury, Barbara Marshall, Tim Hopkins and Melody Peck.

The Chief Steward of the day was Eugene Meuse, playing the part of Poutincourt. Eugene had prepared a partridge stew for this meeting and she served it to nine French noblemen, who were seated around a large table. French bread (probably Ben's Holsum) and wine (pink Kool-aid) was enjoyed by the guests. The stew was very popular, with some "seconds" being served! Guest at the table was the MicMac chief, Mem-

berton, played by Shelley Rice, and seated on the floor in traditional Indian style were other Indian men. Sentry on duty during this time was Perry Isles.

Following the serving of food, stories were told with Memberton being the most popular story-teller. Closing the meeting was the smoking of the peace pipe (the gestures were real, though the smoke wasn't!) and the assigning of the Chief Steward for the next meeting. All appeared to enjoy their "Hour of Good Cheer" very much.

Probably the regular November meeting of the contemporary Order of Good Cheer in Annapolis Royal was more sophisticated, but the enthusiasm of these young grade sixers would be hard to match.

All grade six students took part in this presentation from their history course and besides those already mentioned were Norma Acker, Anthony Andrews, James Brennan, Kevin Cassidy, Ronald Cooper, Josephine King, Larry Morgan, Wade Morgan, Debbie and Sherry Morine, Andrew Peck, Tommy Simmons and Beverly Trimmer.

Thursday, were Dean Andrews and Scott Height.

Mr. and Mrs. John Height visited with Mr. and Mrs. Henry Ambrose, Tuesday.

Mr. and Mrs. Henry Ambrose visited with their daughter, Mrs. Floyd Cosman and family on Monday.

# HISTORY OF D.C.P.B. 48 YEARS SERVICE

By Victor Cardoza

Reports that consideration is being given to the possibility of sale of the Digby County Power Board to the Nova Scotia Power Corporation, have sparked interest in the background and history of the nearly 50 year old municipally owned utility.

Incorporation of the Digby County Power Board by an act of the provincial Legislature in 1926 marked the culmination of years of effort in Digby town and county to develop and provide electrical energy for the people of the area. The incorporation of the power board also marked the first step in a successful program to provide a hydro generating

plant and transmission facilities to cover the whole of the Digby County area.

Electrical energy was first generated in the town of Digby for local domestic and commercial use in 1891 when the Digby Electric Light Company was established and set up a steam operated generating plant in the town. The company provided transmission lines to the homes and business establishments in the town, with the customers equipping their premises with the necessary lights and fixtures.

In its earlier years of operation the Digby Electric

Light Co. did not provide meters. Flat rates were established for use of the electric energy based on a yearly rate for incandescent lights of 16 candle power. The rates were set according to use of the rooms in homes. Drawing rooms were \$6.00, when used only as such. Bedrooms not used as sitting rooms were \$3.00. Upper halls were \$5.00 as were lower halls. Parlours, sitting rooms and general living rooms were \$8.00. Kitchen and dining rooms were \$8.00. Additional lights were \$3.00 and bathrooms, attics, etc. were \$2.00.

The operators of the Digby Electric Light Company were very energy conservation conscious and the rates were offered on condition that the subscribers kept all lights not actually required, turned off. In addition, all operators of stores and commercial establishments were required to turn off all lights as soon as they closed their places of business. As a deterrent to leaving lights on unnecessarily, a double rate of 6 cents a night was charged for commercial lights left on after 10 p.m. unless in actual use. The regular commercial rate was 3 cents per night.

A system of street lights was provided by the company and some twelve lights were authorized by a special meeting of the town council on Sept. 14, 1891. Most, if not all of these street lights were on the main street of the town.

By 1905 the service of the Digby Electric Light Company had developed to the point where a new engine was installed that doubled the generating capacity of the plant so that it was capable of providing power for 2,500 lamps of 16 candle power. The plant was owned by Major John Daley with his son, A. Douglass Daley, as superintendent. In later years the plant and its transmissions system was acquired by the town of Digby.

As the years passed, demand for electrical energy in Digby grew as did the demand for 24 hour full service. In the years

immediately preceding the incorporation of the Digby County Power Board a considerable controversy developed in Digby regarding the future of the local power source. Vocal groups supporting the installation of a diesel power plant presented their case to civic authorities and the public, as did equally vocal groups advocating development of a hydro-electric system to serve not only the town but a wider area. Supporters of the hydro-electric development won out and in 1926 the Digby County Power Board was incorporated. Original members were the town and the municipality of Digby and the village of Weymouth. Provision was made for the district of Clare to be included and this took place in 1928.

Original members of the Digby County Power Board when it was established in 1926 were H. H. Marshall, representing Digby Municipality; F. L. Anderson, representing the town of Digby and Louis Stehelin, the village of Weymouth. At their inaugural meeting the late H. H. Marshall was elected chairman and the late F. L. Anderson, secretary.

Authorization was given the board in 1927 to issue debentures to the extent of \$75,000, giving legal sanction to the board's earlier decision to proceed with a hydro electric development. On Oct. 11, 1926 a contract had been awarded for the construction of power lines from the proposed generating plant at Sissiboo Falls. A contract was also awarded in the amount of \$16,000 for generators and turbines.

From its earliest efforts in 1926 the Digby County Power Board continued to expand and extend its generating facilities and distribution system to include all of Digby County, including Digby Neck and Islands as well as the district of Clare. A grant of \$10,000 was provided by the province in 1927 to help with the cost of a submarine cable across Petite Passage to Long Island.

By as early as 1929 the demand for power throughout the area served by the power board had increased to the point it was obvious the original generating facilities at Sissiboo could no longer suffice. A controversy arose as to how the matter should be handled. One group favored a sell-out of the operation to private enterprise while others were in support of

greater financial commitment on the board's behalf to provide for expansion of what was proving, to be a financially sound operation.

After a thorough study of the situation, the board decided to expand its generating facilities. The provincial Legislature in the 1929 session approved the borrowing by the Digby County Power Board of \$100,000. In 1931 a further authorization of \$115,000 was given. The additional financing made possible new generating facilities, water storage and transmission lines. An additional generating plant went into operation in 1930. Earlier that year, however, nature gave the power board a rough time with an exceptionally dry summer. During that year a steam plant at the H. T. Warne mill in Digby was used to help meet the demand. A generator was also secured for the old Digby Electric Light Company plant which was still located in the town. The boiler and engine of this plant operated through the late fall of 1930.

The difficulties of 1930 were very trying for the board as well as posing some inconveniences for the customers. The following year the board received an offer from the Nova Scotia Power Commission to buy all the board's plant and facilities. They turned this down as they did an offer from the Western Nova Scotia Electric Company to link up the two utilities in a joint operation that would permit sale and purchase of power between the two companies.

Despite difficulties, the board continued to expand its operations and in 1937 rebuilt its main dam at 5th Lake. A new 500 h.p. unit was added to the Sissiboo plant in 1938. By 1946, 20 years after its inauguration, the Digby County Power Board had increased its own generating capacity from 250 kva. to a capability of 1220 kva. It also had a standby link with the Nova Scotia Power Commission of 750 additional kva. A substation and storage facility was built in 1946 at the main highway entrance to Digby and

a 12,000 volt line from the NSPC at Acaciaville to Sissiboo Falls.

The power board did suffer some problems during its growth. In 1950 a second break of the underwater cable crossing Petite Passage occurred and a new one was installed with the assistance of an \$8,000 grant from the province. In 1957 towers were erected on either side of the Passage to permit overhead lines. A provincial grant of \$6,500 was provided to help finance this.

The following year it became apparent demands for power were exceeding the board's generating capabilities and, after a series of discussions, public meetings and deliberations, it was decided by resolution on May 27, 1958 to sell out the generating and production assets of the Digby County Power Board to the Nova Scotia Power Commission for \$250,000. The transmission and distribution facilities were retained and an agreement was made to purchase all power requirements from the NSPC.

In 1959 the NSPC began the first phase of a huge new power generating program on the Sissiboo River. This first phase included a 751 foot dam, a power house and 6,000 KW generator with 8,000 HP turbine. In May, 1966 a second generating plant of 9,000 KW capacity was added. Both of the Sissiboo generating plants are remotely controlled from the Gulch Plant in Bear River, put into operation in 1957 by the NSPC.

Transmission and distribution facilities of the Digby County power Board have, over the years, been subjected to the buffeting of nature. The freak snow storm in October of this year created problems in power interruption as did a number of previous severe storms in other years. One of the most disastrous of these was on April 8, 1963, when more than 70 hydro poles in the vicinity of Digby fell prey to the high winds and heavy snows. On Digby Neck some 80 utility poles went down and power and telephone service was interrupted up to close to a week in some areas.

## DRAMA GROUP TO PRODUCE PLAY

The Annapolis District Drama Group will present a comedy in three acts on Wednesday and Thursday, November 27 and 28, at the Legion Social Centre in Annapolis Royal.

Rehearsals have been in progress for several weeks for Come Blow Your Horn by Neil Simon. This play is comedy at its best and a must for every member of the family. Parents and teenagers alike will relate to the characters in Come Blow Your Horn.

It is a family situation comedy with an excellent cast and it is under the direction of Andrew Wetmore and his wife Rebekah. Andrew and Rebekah studied drama at McGill University and went on to New York where Andrew produced, acted and taught drama at Pier II Theatre. Rebekah taught drama at a School For Wayward Boys in New York. Andrew is also a writer of

unproduced plays, he says, and he has a short story in this month's Atlantic Advocate. He is also a fine actor. They are residing in Round Hill.

Their approach to directing is quite new to the cast. There is cast participation in various ways of reacting to situations. By participating and example they show most effectively what is expected and how to put it across. The Annapolis District Drama Group has been active for many years and they have always achieved a high level of performance. Come Blow Your Horn will be another top production.

Next week we will give you the roles and those taking part, with just enough plot to whet your appetite. Watch for Who's Who in Come Blow Your Horn. This comedy is fast moving, hilarious and pure enjoyment for the whole family.

Their love was true; their hearts were kind,  
Better parents none could find.

Still loved, still missed and very dear.  
Remembered by their family. 16:1ic

## CELEBRATES 100TH BIRTHDAY

Mr. Frederick Stewart Adams, centenarian, celebrated his 100th birthday on Wednesday Nov 20th. A telegram and warm wishes were received from Her Royal Highness Queen Elizabeth II, Prime Minister, Pierre Elliott Trudeau, and Mr. John Buchanan, leader of the N.S. Progressive Conservative Party.

Mr. Adams received a number of phone calls the most distant being from New York Phone calls, special messages, birthday cards, and letters totalled nearly 100.

On Wednesday Nov 20th open house was held at Mr. Adams' home to honor the centenarian on this special occasion.

The hostess, Mrs. Harry V Adams, daughter-in-law of the honored guest, was assisted by her mother, Mrs. Boyd Ellis and Mrs. Reginald Bremner, granddaughter of Mr. Adams Sr. During the evening Mrs. Harold Emerson assisted with the serving.

The dining room table which had been especially decorated for the occasion looked lovely with a white crocheted table cloth centered by a three tier birthday cake attractively decorated with gold antique roses and other appropriate trim.

Tall white candles on gold doilies placed one on each side of the beautiful cake added to the attractiveness of the table.

The cake was kindly donated to Mr. Adams especially for the occasion by his good friends Mr. and Mrs. Eugene Burns of the Harbour Bakery. The Centenarian was a recipient of two other beautiful birthday cakes. The second one was donated by another good friend, Mrs. Janet Wilson and a 3rd by his granddaughter, Mrs. Reginald Bremner.

Mrs. Edith Wallis was present to represent the Courier and a Mirror representative was also present to take pictures.

Among the large number of

Above is Fred Adams, Bay View who on Tuesday celebrated his 100th birthday with an "At Home" in the afternoon and evening. Mr. Adams who lives with his son, Harry and Mrs. Adams told The Digby Courier interviewer that he "never thought a hundred year birthday could be such fun".

guests attending a number of older folk came to greet the honored guest. The oldest being Mrs. Charlotte Gilpin 97 and Mr. Willis Tibbetts 93 of Brighton, N.S., was also present.

Capt. Watson Adams nearly 89 years of age from Tidal View Manor in Yarmouth, a cousin of Mr. Adams, was also among the many present. He was one of the older folk who came here to help Mr. Adams celebrate and this meeting brought together cousins who had not seen each other in over 80 years.

The youngest guest was the two month old daughter of Rev. and Mrs. Douglas Hapeman. Speaking of the younger generation Miss Joanne Frankland of Point Prim Light was present during the late afternoon and rendered some solo's for Mr. Adams which ended as duets when he joined in. They were accompanied by the guitar music of Joanne Frankland.

A special guest book which was circulated during the day revealed that approximately 83 folk had come to extend their best wishes and congratulations

to Mr. Adams.

Birthday gifts were numerous and in addition to this the good neighbors of Bay View donated much of the delicious food used for this memorable occasion.

Mr. Adams was born in Bay View, the only son of Mr. and Mrs. Allan Adams. He now resides only two houses from the place of his birth and reminds his friends that he never travelled very far by land but like his ancestors before him Mr. Adams was a seafaring person. He said he boarded a boat at an early age and spent most of his life in one until his retirement at the age of 75.

Prior to World War I and at an early age Mr. Adams went to work for Mr. William Troop of the Manhattan Hotel. For a period of about two years he took many tourist parties from the hotel out fishing. After this Mr. Adams went into a similar business for himself. He said he was in the tourist business for about 1/4 of his life. He said that in those days that fish and tourists or "summer visitors," as they were called, were numerous however, today such is not the case because both

appear to have diminished to a large extent.

Mr. Adams first went to sea as a boy of 15 and when 16 years of age he began fishing with his father. In those days fishing in this area was done by hand-lining from a small boat and the fishing was done from known "grounds." He sailed across the Bay of Fundy to exchange a load of salt fish for winter provisions.

In later years he fished with his only son. He was a lobster fisherman for many years.

Prior to World War I Mr. Adams joined the original crew of the Bay View Lifeboat. He was 2nd in command and went with the crew to Saint John, N.B., to get the first life boat. This was a sturdy little boat which they shipped by rail from Bayonne N.J.

In those days Mr. Adams said the personnel of the boat changed with the government and he was relieved of his post during such a change after serving for 10 years. He is the last surviving members of the original life-boat.

Mr. Adams after leaving the Life Saving Station continued in the tourist business and in the fishing industry for a number of years.

On July 16, 1970 Mr. Adams was visited and interviewed by two men from CBC Radio who made a tape for T.V. During this interview Mr. Adams told of his experiences with the Life Boat.

He also told that once he had many Indian friends and even learned enough Micmac to carry on limited conversations with them. He remembered their hunting in Digby Gut for porpoise and the uses the Indians found for them.

There are four generations in Mr. Adams family.

In recent years Mr. Adams has been living with his son, Capt. Harry Adams and family. He has two grandchildren Mrs. Reginald Bremner of Bay View, and Master John Adams age 11 who is presently attending the Nova Scotia Youth Training Centre at Truro. He also has three great-grandchildren all of Bay View.

During the past century Mr.

A new sign identifies College Sainte-Anne. The triangular sign with each side measuring 11 feet stands almost seven feet high. It is made of cement covered with pea gravel.

## SCOUTS AND CUBS GO ON

After a few misgivings that some Scout and Cubs groups might have to be discontinued for lack of leaders, the meeting called at the Knights of Columbus Hall on November 12 was encouraging and it was decided to continue and if possible to improve the work.

Donald Brown explained how the Scout movement progresses in Canada through the national level down to the local groups.

John Campbell, president of Digby District Boy Scouts Council, expressed satisfaction with the turn-out and interest in the November 12 meeting but stressed the need of active

groups committees and people who are willing to work for the groups.

Mr. Brown stated that two group leaders posts are still waiting to be filled. Mr. Brown has been appointed this year as the Organization and Expansion chairman and is leader of the Venturer movement in Digby.

Adams notes many changes in the village of his birth. He said one time many years ago tourist were numerous here. In these days a big building boom is noted in this village, and the trend is leaning toward more full time residents of this village.

Tradition still seems to survive, Mr. Adams' son Harry Verdun Adams joined the crew of the Bay View Life Saving Station for about one quarter of a century, served as a crew member, over 20 of these being in charge of the boat as coxswain until the closing of Bay View Life Saving Station in the Spring of 1970.

## FELL IN LOVE WITH DIGBY

Mr. and Mrs. Martin Bradshaw of Uxbridge, Ontario, recently visited their daughter, Mrs. A.J. Burke, Conway. According to Mr. Bradshaw, they "fell in love with the place" so they sold their property in Uxbridge and are now living in the Robert Melanson home in Roxville, Digby Co.

Mr. Bradshaw has opened a taxi business but he is also interested in promoting the raising of rabbits here. In

Uxbridge Mr. Bradshaw had 600 rabbits on the farm. He hopes to induce people to use rabbit meat as food and looks forward to eventually establishing a market here. He would also like to establish a western unit of the Nova Scotia Rabbit Breeders Association.

Mr. and Mrs. Bradshaw have four children; Heather (Mrs. Burke), Robin in Uxbridge; Terri, 15, and Tracey, 14, in Roxville.

## RESIDENTIAL PROPERTY TAX ACT

Municipal affairs Minister J. Fraser Mooney introduced a Bill in the legislature to amend a portion of the Residential Property Tax Act.

Clause 1 of the Bill provides additional remedy to a tenant who has not received his entitlement from his landlord. The act presently provides that if the landlord does not pay the entitlement to the tenant, the tenant may withhold future rental payments. However, there are situations where the remedy is ineffective.

Under the amendment proposed by the Minister, the Municipality will make payment of the entitlement to the tenant and in turn the landlord will be indebted to the Municipality in the amount of the entitlement and the property of the landlord will be

subject to a lien in favor of the Municipality.

The amendment also makes provision for those cases where a property has been sold or transferred from one person to another subsequent to July 8, 1974. In such cases, the Municipality will pay the entitlement to the tenant, forwarding an account of the payment to the Department of Municipal Affairs who will reimburse the Municipality and then attempt to collect from the original owner.

The second part of the Bill places a limitation period upon the entitlement of a person under the Act. It states that a claim must be made and action taken to enforce that claim prior to September 30, 1975, or else the entitlement expires.

Every time you shoot at insulators or power lines you could...

- ... Disrupt electric service.
- ... Cause hardship to people by depriving them of light and heat.
- ... Endanger lives by bringing down a "live wire" that could kill an unsuspecting person, or yourself.
- ... Be responsible for unnecessary costs and man-hours in repair work.

Don't take chances with the lives of other people. Be safety-conscious when you carry a rifle.

Don't shoot at insulators.

## HAVELOCK PARENTS - TEACHERS MEET

The first meeting of the Parent-Teacher Association of the Havelock School, held on Tuesday evening, was attended by most of the staff, many parents and interested citizens.

One business of the evening was the purchasing of a second-hand piano for the choral group under the direction of Mr. Vernon Sabean. A very effective demonstration of conversational French with students from Grades V to VI was conducted by Mr. Willard Comeau. Mr. Comeau is a part-time teacher instructing this extra feature in the Elementary curriculum.

Mr. Guy LeBlanc, Regional Representative of Recreation was also present at the meeting. He brought to the attention of those present the possibility of

assistance to improve the School-ground for a better play area if there was interest.

A discussion of adult education classes revealed that an instructor was available for a course in Furniture Refinishing and Upholstery; however, there was no space available in the school due to the large storage area required. The meeting hoped to find a solution to this problem.

An expression of appreciation was made to supporters of new programs undertaken for the benefit of the children of the area. Living in a time of great change, it is gratifying to have among us those who feel that what they had when they were growing up in school is not always enough for children today.

## MYSTERY VESSEL AT WEYMOUTH

A catamaran, a vessel with twin hulls side by side, is tied up at Weymouth North wharf near the highway end. This boat has some mystery attached to it which is not fully known. It is rumored that it was taken from a port in Florida over a year ago and finally was found on the mudflats at New Edinburgh, a village near Weymouth, and across the Sissaboo River from Weymouth North.

How the catamaran got to the flats and left high and dry, is not fully known. The owner of the boat came to this area this spring or early summer and told someone that the catamaran was his. Apparently

some tourist had seen this boat on the shores of St. Mary's Bay and news got to the owner some way or another.

The catamaran caused some excitement in the area due to the fact that no such vessel had ever invaded these shores before.

Sometime during last winter the boat was found high and dry on the flats. It was later hauled into the water near New Edinburgh and hauled across the river to the flats near the main highway in Weymouth North and later moved back to the wharf in Weymouth North.

## P.C. Women Host Successful Seminar

After a brief social hour Pat Nowlan M.P. is off to catch a plane to Ottawa. Saying farewell are Belle Pike, Kentville, president Kings North, Gloria Marshall, Clarence, president Annapolis East, Terrie Crook, Kingston, president Kings West, Dr. Gerry Sheehy, M.L.A., Lillie Reed, Wolfville, provincial treasurer, and Ardina Milbury, Bridgetown. The Annapolis East Progressive Conservative Ladies' Association sponsored the Saturday November 16th get-together which included a luncheon meeting with special guest John Buchanan, M.L.A. (Meader)

A seminar was held Saturday, November 16 at the Mid-Valley Motel, Middleton, for the executive officers of the Women's Progressive Conservative Association of Annapolis Valley. The Women's P.C. Association participated representing Kings County, Annapolis County and Digby County.

Registration and "Get Acquainted" Hour began at 11:00 a.m. in the Rose Room. Mrs. Pauline Steen, Treasurer of the Annapolis East Women's Association, was in charge of registration. Mr. Pat Nowlan, M.P., Dr. Gerry Sheehy, M.L.A. and Mrs. Sheehy, and Mrs. Gloria Marshall, President of Annapolis East Women's Association welcomed the ladies as they arrived. During the social hour, Pat Nowlan, M.P., spoke to the group with his usual enthusiastic manner. He gave glimpses of the federal scene with recent happenings in the House pointing out the indifference or lack of action of the government toward the country's increasing inflationary trends. He stated that Mr. Turner's budget would prove interesting. On the local scene, Mr. Nowlan was looking forward to the provincial annual convention being held in Halifax on November 22 and 23. He emphasized the importance of a strong women's organization and added "that women were a very important part of the Party". His Constituency Office in Wolfville has been very active and Mr. Nowlan urged everyone to use it whenever necessary.

The luncheon began with the Leader of the Opposition, Mr. John Buchanan, J.C., M.L.A., presenting a lovely corsage of white carnations and yellow sweetheart roses to Mrs. Hortense Moir, Bridgetown. Mrs. Moir has been Honorary President of the Women's P.C. Association of Nova Scotia for many years. A dedicated and

untiring supporter, Mrs. Moir graciously accepted the tribute. The first meeting to organize a Women's Association in this area was during the first campaign of the late George Nowlan and was held at her home.

Following a delicious luncheon, the President of the Annapolis East Women's P.C. Association, Mrs. Gloria Marshall, welcomed the ladies to the seminar. After the customary introduction of the head table, Mrs. Marshall asked Mr. Bill Hirtle, President of the P.C. Association of Annapolis East to address the meeting. He strongly endorsed Women's groups in the Conservative party and commended the executive of the Annapolis East Women's Association for their "first seminar" as a step toward stronger organization. He felt that women were a very vital part of any political party especially during election time when they donated time and effort without complaint. Mr. Hirtle urged the women to hold more "workshops" and "seminars".

Dr. Gerry Sheehy, M.L.A. brought spontaneous laughter from the group as he described some lighter moments at the Provincial House. He expressed best wishes for a successful seminar stating that it was a great effort for those participating, adding that he couldn't stress strong enough the need for women in the party. In introducing Mr. John Buchanan, Q.C., M.L.A., the luncheon speaker, Dr. Sheehy reviewed some humorous aspects of being leader of the opposition, which were thoroughly enjoyed by the ladies.

A rousing hand of applause greeted Mr. Buchanan as he congratulated the ladies for their interest. He cited the seminar as a "first" of its kind in a Women's Association in Nova Scotia and added that he

hoped many more would follow. Mr. Buchanan summarized the role of the opposition to keep the public aware of what the government is doing and also to keep the government aware as to needs of the people. He stated that the role of the government is to keep the opposition informed of the government's progress it has made through committees, departments, etc. Mr. Buchanan criticized the Regan government for failing to respond to its obligations as it constantly blocked the opposition by its Ministers refusing to answer questions raised or if a reply was offered it related to a completely different subject; by constant aggravation to the opposition by the government on Question Day in the House as serious legislation is turned into mockery; by a new ruling restricting members to raise questions; by the Speaker of the House allotting more time to the government often making it impossible for the opposition to present his intent. He accused the premier of "indecisiveness" and stated that Nova Scotia is still faced with the same problems it had when the government was elected in May

Mrs. Esther Forrestall, Middleton, graciously thanked Mr. Buchanan with a few well-chosen words.

The afternoon session began with Mrs. Belle Pyke of Kentville, President of Kings County Women's Association, introducing the special speaker, Mrs. Walter MacDonald, President of Women's P.C. Association of Nova Scotia.

Mrs. MacDonald lives at Glace Bay, Cape Breton, and has been the provincial president for two years. A very warm and personable speaker, Mrs. MacDonald responded cordially to the introduction stating that she "was just a housewife, and not a public speaker", rapped the Regan government for its irrational spending in times of economic crises. In reviewing the problems in Cape Breton, the provincial president accused the N.D.P. party's socialist policies as the main cause. In regards to the Women's Association, the president felt more young women should be interested in the party. She suggested "kitchen parties" or "workshops" so women could learn more about the governmental system and the Conservative party. Participants were encouraged to ask Mrs. MacDonald questions and a very interesting discussion period was enjoyed. Mrs. Peg Hankinson, Vice-President of the Women's P.C. Association of Annapolis East, thanked the provincial president stating that it was good to learn of other areas.

Only through seminars such as this, stated Mrs. Hankinson, "can we learn of other women's groups and their problems." In summarizing the seminar, President Gloria Marshall stated "it has been a great success." She hoped that such seminars can be continued as an annual event among the Associations in Annapolis Valley. Mrs. Marshall felt women played an important role in the Party's organization and hoped it would always remain the strong organization as it is today. She thanked Mrs. MacDonald for attending and presented her with a gift of pottery made by a local potter as a souvenir of the Annapolis Valley. In referring to the national image of women in politics, Mrs. Marshall stated that any Party that does not recognize the value of women in politics "is a Party behind the times," and that "it was a challenge to women's groups to change the national image." Wishing everyone a safe journey, President, Mrs. Marshall closed the seminar with the hope of seeing most of the ladies in Halifax for their annual meeting.

Universal  
Western Comedy

In 1899, aging gunfighter Henry Fonda is more concerned with catching a boat for Europe at New Orleans than with the three killers who try to do him in while he's being shaved. Later, trader R.G. Armstrong asks drifter Terence Hill to deliver a basket containing a bomb to Fonda. Since Fonda is his idol, the equally skilled Hill casually tosses the basket back to Armstrong. However, Hill remains an enigma to Fonda and vice versa. Hill would like Fonda to avenge the death of a brother, but Fonda replies that his brother was no good anyway. After recovering money stolen by mine owner Jean Martin, Fonda does achieve Hill's desire for him to become a legend by taking on the entire 150-man Wild Bunch (he shoots the dynamite in their saddle bags). Having been asked to kill Fonda, Hill instead insures the former's retirement by staging a gun battle in New Orleans in which Fonda supposedly dies. Still insisting his name is nobody, Hill becomes somebody as a result.

## DIGBY MAYOR TENDERS RESIGNATION

"Like the sudden burst of a bomb shell" Digby town councillors in regular session on Monday evening heard the town clerk read the letter of resignation from His Worship Mayor Willard Kinney. In the resignation presentation Mr. Kinney said he resigned with regret but he felt that a mayor should be free to devote more time to the important duties required of his office than he was able to do. He continued "I find it impossible to cope with the demands of my office as mayor and my business. It is my conviction that because of this, town affairs do not receive the attention they deserve." Mr. Kinney expressed gratitude to the town clerk and staff, the council, the public works department and committee members for their co-operation during his tenure of office.

After much discussion a motion to accept with regret His Worship's resignation was made by Councillor Gordon Ellis and Councillor Patrick Comeau. The resignation was to take effect at the ad-

journalment of Monday nights meeting, which by motion ended at 11:15 p.m. to resume on Wednesday evening.

Mayor Kinney stated that when a new mayor takes office at the first of the year they will be able to work under their own budget. The mayor's seat is now declared vacant and an election will be called within 21 days.

In his report to council on Monday evening, Glen Pitman, town clerk asked for guidance in priorities in his work, whether to do the regular work as first priority or be required to use the time in looking up and making reports requested by councillors. To do both Mr. Pitman said would demand additional staff. Mr. Pitman said he realizes his position to give information but if reports have to be prepared then the council would have to authorize him to put the regular work aside. Each councillor, he felt should have the same right to request information. Councillor Comeau felt in order to conduct affairs of the town it was

necessary to get to the "bottom of it." Councillor Eileen Chipman said she was elected by the people and would continue to ask questions about financing of the town and the people should know about it.

On motion of Deputy Mayor Philip Robertson, seconded by Councillor Gordon Ellis the clerk was advised to look up the information if readily available but should have permission from council on matters which take time. Councillor Ellis complimented Mr. Pitman on the fine reports he presents at the council meetings.

Mr. Pitman's report showed that \$300 has been collected so far from merchants for the Christmas lighting but there is yet \$600 to come in. On regular motion it was decided to publicly acknowledge those who contributed to the lighting.

In his report Mr. Pitman dealt with seminars on the Graham report and other seminars, which prove educational and of benefit in the executing his duties.

The resignation of Reginald

Turnbull as head officer in Digby of the Emergency Measures Organization was accepted to take effect on December 31, 1974. The town is E.M.O. committee's chairman, Councillor Guy Van Tassell was asked to look into the possibilities of a replacement. A letter was authorized to be sent to Mr. Turnbull acknowledging a "remarkable job" done in his capacity as E.M.O. chief in Digby.

While a number of visitors attended Digby Town Council on Monday evening, two addressed the council. Joseph Hazel inquired about Senior Citizens Housing in Digby with the hope that he and his wife might be accommodated there. He was advised that these units were for the 60 years and over persons as far as they knew. Councillor Chipman made the motion and Councillor Van Tassell seconded it that the Housing Authority be requested to provide copies of their minutes to councillors.

Joe Casey M.L.A., Digby, reported to Council on plans for Victoria St. by the Department of Highways. He said money had been set aside for construction on these streets. The province looks after the ditches, storm sewers and paving of the street but the town would be responsible for the sidewalk amounting to \$50,000. In the municipality there is a 90 per cent and ten percent sharing in costs, it is understood. Mr. Casey said the department wants to upgrade those streets first and later survey the Abramson's pasture route to reach 101. Mr. Casey had been invited to council by an interested councillor. The chairman of the streets committee was authorized to correspond with the highways department regarding paving and sidewalks.

Reports were given by Webster Dunn on meters and by Frank Robinson on streets, water and sewers. Collected through meters for the month was \$608.94. Forty-eight tickets

were issued, 39 collected and two cancelled. On motion of Councillor William Reid, seconded by Philip Robertson, meters after the first of the year will be five cents for a half hour and ten cents for the full hour.

Councillor Patrick Comeau was requested to check out the distance for sewer lines to give access to sewage facilities to the property of Charles Wood, Queen St., Mr. Wood's letter indicated that new homes can get access to sewers but people who have paid their taxes for years cannot. Councillors Chipman and Van Tassell agreed that this is so.

The town clerk gave a report on the electric light utility from January to October. Revenue in 1974 was \$232,028 and \$207,190 in 1973. Expenses in 1974 were \$229,078 and in 1973 they were \$202,368. Net gain in that period in 1974 was 2,950 and in 1974 it was 4,927. Capital expenditures were \$12,974 with \$4,100 over expended. It was felt an increase in rates was necessary.

Mr. Pitman produced a form of agreement sent to the town from Central Mortgage and Housing re 12 family units of public housing. The agreement was handed to the town solicitor for scrutiny. The property concerned would be on First Avenue and George St.

A letter from Lloyd Hill of the Annapolis Valley Affiliated Boards of Trade stating that \$10,000 in grants to the whole valley is available for recreation either for new events or improvements on older events. It was decided to make application for a grant.

Mr. Pitman showed a new copy of model town zoning by-laws.

Notice had come regarding safety awards for good drivers. The town had in the past participated in the award giving with the local police and R.C.M.P. choosing the winner.

At the hour of eleven o'clock a motion passed to continue the meeting until 11:15 p.m. but all business had not been completed at 11:15 so council sat again on Wednesday evening.

The council of the Municipality of the district of Digby, on Thursday evening decided to get in touch with the Department of Highways by letter requesting that sidewalks be installed from Warwick St., Digby, through Conway to route 101 when the highway through that area is upgraded. It is understood that the department can do this when upgrading which will probably be in 1975.

### THE TASK OF BEING MAYOR

Like a "bolt out of the blue", Digby Town Council members and visitors at the town council on Monday evening heard the resignation, read of His Worship Mayor Willard Kinney.

It was a disappointing "bolt from the blue" for Mr. Kinney was performing his duties in a commendable manner and all looked forward to time and experience which would improve the commendable performance even more and ease the anxieties for Mr. Kinney which go with the office of mayor in any town.

On the other hand, those who heard his reasons for resigning were definitely in sympathy with His Worship. From January 1974 to the present time Mr. Kinney attended 154 meetings in connection, directly or indirectly, with his office as mayor. In that time there were 29 meetings from which he was absent.

The task of mayor is an onerous one and demands time and much concentration on many subjects. Mr. Kinney's experience of six years on the council before becoming mayor was definitely an asset to him. He served on many committees through those six years. We are aware that each and every councillor puts in a great deal of free time in performing their duties for the good of the town but the office of mayor generally is still more demanding. He is head of the town and as such is expected to be present at many functions as well as caring about the more mundane features of running a town. As Mr. Kinney has said in his resignation message, in an effort to keep abreast of what is available in grants from the two government levels and to obtain other vital information, it is necessary to attend meetings and seminars to be brought up to date. We all realize that this takes time and money and still there must be left time and money for "living".

It was with regret that Council accepted his resignation. Appreciation for the time of his services as councillor and mayor is evident within the Council and outside council.

### CHRISTMAS DADDIES

Again we compliment the Digby Christmas Daddies committee and CKDY for their splendid effort each year in providing Christmas goodies for so many people who would otherwise not have so happy a Christmas. We hope that all deserving people in the area will have made application for these generous gifts of food and sweets before the program which takes place on Sunday.

Preparing for such an event, lining up entertainment, preparing sound features, soliciting gifts, money, workers all takes time and ingenuity. Filling the hampers, seeing that they get to the proper deserving parents and children, the aged and whomever is in need, entails a lot of work.

Those who give of their talent to keep the entertainment interesting and moving also deserve credit. They can be shown gratitude by just being present to enjoy their contribution and supply the impetus to do their best.

Crowning all will be when the Christmas Daddies fund for Christmas makes all the efforts worth while.

### KEEP DOWN THE SLAUGHTER

The Nova Scotia Highway Safety Council has just issued a partial list of Nova Scotia highway accident facts. The most disturbing fact of all is that with all the stress put on highway safety programs there still continues to be a steady increase in highway accidents. We can only feel that without these programs the statistics would be far worse. While the facts are from the years of 1972 and 1973 we have no reason to believe that 1974 will be any exception.

The number of accidents reported in 1973 in Nova Scotia were 1,5897, just 1,162 more than in 1972.

Strange, too, most of the accidents occurred on clear days. In 1973 there were 10,489 accidents on clear days as against 9,331 in 1972.

One category did show a decrease. That was the snow and sleet group. It decreased from 1,765 in 1972 down to 756 in 1973. Could this be partly because drivers are becoming more conscious of the hazards of winter driving or has the December Safety Week made some impact.

Inattention was blamed for 3,192 accidents in 1972 which rose to 3619 in 1973.

Most accidents happen between four and five p.m. with the hour of five to six coming next.

Another fact given was that there were 9160 accidents in daylight in 1973, in darkness lighted 3,431 and darkness not lighted 2,671.

Most accidents happen, according to the Nova Scotia Accident Facts, occur to those in the 25 to 34 age group and the fewest to 65 years or over. Each classification, however, had an increase from 1972 to 1973.

These facts make dull reading but in the midst of Safe Driving Week they become figures which deserve to be seriously pondered with the hope that we might keep down the slaughter on our highways.

### GREEN LIGHT FOR CHRISTMAS LIGHTING

The time has come again to decorate our towns and villages for Christmas. The lights give a cheerful atmosphere to the preparation for Christmas, instill a Christmas spirit and of course, lure shoppers to a specific town or village.

Remember Christmas 1973, when there seemed to be an energy crisis and towns and villages and individual homes refrained from lighting up extensively so as to conserve electrical energy.

This year Federal Energy Minister, Donald MacDonald, has given the go-ahead for traditional Christmas lighting. Mr. MacDonald was responding to a Canadian Toy Manufacturers Association when he said "there is no reason to single out Christmas lights as a special target for energy conservation efforts during the coming heating season".

Mr. MacDonald said that the program of Christmas lighting on Parliament Hill will be undertaken this year.

The industry brief pointed out that Christmas lighting received unfair public attention last fall as a largely symbolic vehicle for introducing energy conservation awareness and that no other industry was singled out in such a way.

In recognition of the need for responsible use of all energy resources, the industry supports Mr. MacDonald's suggestion that Christmas lights be turned on after 6:00 p.m. and turned off upon retiring.

So go ahead. You have the green light for Christmas lighting, but like everything else, use it with responsibility. The time is here. Light up.

### ON READING

More and more reading is being looked upon as a most important tool in the education of a child. Without the ability to interpret properly what is in print a child is handicapped in his progress in so many phases of his life.

Mrs. Carolyn Brown, English teacher at the Digby Regional High School has passed on to us some ideas on reading set forth by Dr. John Manning of the University of Minnesota who was guest here recently at an International Reading Association conference. While much of Dr. Manning's discourse and group sessions were aimed for the teacher's benefit, the information, in many cases, was also helpful to parents.

Dr. Manning in speaking on HUMANIZING THE READING PROGRAM, suggested that a child, if read with at home, will probably read well in school: he knows what print is all about. The best place for the child to learn to read is on the mother's knee and the father's lap. Libraries would best serve the needs of very small children rather than wait 'til they go to the library. The ideal situation would be for the librarians to go into the homes.

A fluent reader develops over a long period of time and reads all types of reading including sports news, magazines, newspapers, books, comics, etc.

Many children placed on individualized reading programs are children who belong in a group; they need the group-feeling. Many who are verbal, need to learn how to be silent and to work alone. They need to learn the silent interchange with self, and all need the dialogue of a sensitive teacher.

We want well balanced readers, well balanced people and well balanced students. The strength of a country is being able to use the unique talents of those who can serve the democratic process. We should develop the interests which pertain to the individual child, whether it be music, swimming, oceanography, or whatever it might be.

Teachers should encourage the career decisions of children. We should not expect to be good in everything, but be able to develop strengths of each person.

Materials, outside the basal reader, may be of more value to a child who is already failing in one program.

He spoke to the group in a direct way by telling them that schools were "places of people, spiritual goals, as well as places to learn to read, do math and so forth."

He went on to say, "If they can read, let them read whatever they want to read."

The teacher's best diagnostic tool is to write down the miscues the child is having. But, he felt that parents have a right to know exactly what trouble the child is having, therefore the teacher needs to keep records to show to the parent. Tell the parent what is wrong. If the child is having trouble with d, t, l and w; say so.

Children who need to work alone should do so, but for those who need to work together for reinforcement, they should work in a group.

We do not know what happens in silent reading. There is only disability noted when children open their mouths. "We should read to classes," Dr. Manning said, "and encourage the beauty of our language."

Principals and administrators should go into the classroom and listen to children read so they can sympathize with the problems the teacher is having with the children. This is also of tremendous impact for the children who believe when someone, such as these "important" people, will stop "to listen", then reading is worthwhile.

## LETTER TO THE EDITOR

Dear Mrs. Wallis:

As I read the account of the sad financial condition of Digby's library in this week's Courier I wondered if all the people of Digby were familiar with the basic facts of its short but colorful history.

The library was born on a rainy night in January 1966 when eleven persons, of all ages and interests, climbed the stairs to a third floor apartment on Queen Street in response to a small notice which had appeared in your paper that week. The notice was the outcome of a sidewalk conversation between two of the youngest members of the group. It read in part: "All those interested in a library for Digby are invited to meet—"

The meeting was electric with enthusiasm. One thoughtful person had come armed with a copy of the Library Associations and Institutes Acts. This was read and ardently discussed. Ten signatures and one hundred dollars, or assets totalling that amount, were required. There were eleven willing signatures present, and the assets—mostly books—were eagerly promised. A few dollars were donated to cover immediate small expenses.

Naive it may now seem, but no one left that meeting without the firm conviction that Digby at long last had a library.

Since that night our library has come a long way. Frequent and increasingly larger meetings were held; the Association was formed, officers were elected and by-laws laid down. A telephone survey was made of the citizens who wanted a library for Digby. The Town Council was approached and a grant was given. Rent free premises were donated. Books were donated. And, without which all of the previously mentioned would have been useless—hours and hours of time and hard physical labor were given by the actively interested members of the Association.

The library existed on this voluntary basis for nearly four years, all but the last few months in its rent free premises. When those were needed by their owner it was moved to its present home; a land mark of Digby purchased with the money gifts which were the result of an intensive letter campaign for funds.

In 1969 our library became a branch of the Western Counties Regional Library. This meant a great increase in "open hours, a trained librarian in attendance, and an almost unlimited supply of books, as what can't be found on the shelves can be had on request. All of this is free to our 2000 users. It is a library of which we can be very proud.

But the library building is still owned by the Association, and pride does not pay the bills. If even half of the 2000 users were paid up members of the Association—this means \$1.00 a year per member—our library would not be in danger of its life.

We give freely to the funds which further the health of our bodies. Are our minds not equally important?

### MAYOR KINNEY'S MESSAGE

Continued from page 1

Mayor would present no problem to an incumbent who is self-employed, independently wealthy, or retired. In my case, none of the above apply. I must earn a living and at the same time assume the responsibilities of Mayor.

In addition, there are many expenses that are incurred and that cannot be charged to the Town. These out-of-pocket expenses must be borne by the Mayor himself.

In my opinion, if the town of Digby is to take advantage of the grants available to us from the Federal and Provincial Governments, we must have a Mayor and Council who can be readily available to attend the meetings and seminars necessary to accomplish our aims. We must also be able to provide for the unavoidable expenses which result from such representation.

I believe the time has come when the town must have a full-time Mayor. As a salaried

## It Happened Back Then..

(In keeping with Safe Driving Week, we give you the following item from the Digby Courier of November 7, 1924)

### MOTOR RULES FOR THE PERFECT LADY

1. Don't start your car with the brake on; it doesn't like it.
2. Don't park on the left side of street, and don't leave the engine running while you shop; the policeman has to earn his money.
3. A quart of oil in your own car is better than a gallon in someone else's. Look yourself to see that you have oil, water and gas before you start.
4. Look out for the bicyclist and blow your horn till you are sure he hears; he usually is riding with bent head, dreaming about his latest girl.
5. Don't try to show how clever you are by just escaping a passing car; you are liable to lose a hubcap and hear some bad language.
6. Don't keep it in the middle of the road nearing the top of a hill; the other fellow, coming up the other side, may be doing the same thing.
7. If you are going a good clip and a car behind you wants to pass, let it; you are not practicing for a motor race, and the driver behind may be getting the doctor for his mother-in-law.
8. Keep your eyes on the road and your hands on the wheel where they belong; your friends conversation in the back seat may be interesting but you won't enjoy it in the ditch.
9. Keep her down to 35 miles if you want to play it safe; a child or a dog may run out suddenly; if you own a dog yourself you won't want to hurt any dog; and as for a child—
10. If you see a car coming towards you at great speed take it for granted that the driver is intoxicated, either with liquor or speed; give him three-quarters of the road.
11. Don't try to break a record. Enjoy your car; don't show off. Thirty miles an hour is pretty good speed compared with the old horse.
12. Slow down passing country villages. Someone I know killed a child and, though the court did not hold her liable, her feelings would never let her drive her car again.
13. Take pride in the fact that it is generally accepted that women are more careful drivers than men. Live up to your reputation.
14. Never "take a chance."

## Hodge Podge

— "I would be willing to pay the difference from second class rate to first class rate to ensure my receiving the paper." one of our subscribers in British Columbia wrote. But, then she added "I suppose that would be considered defeat" Checking with the local postmaster at her home town proved useless, she informed. He says "second class mail doesn't have any priority in our postal system and you must be patient." Gee, there are so many people who are impatient with the mails right now that we wouldn't be surprised to see pigeon carriers come back in use.

— On Monday that summer-like day of November 25, it was most difficult to realize that snowy day October 20 could have been in the same country.

— Had a train ride on Saturday afternoon; all four of us. Two Sisters went as far as Berwick and a man sat across the aisle. Don't know exactly where he got off. We (I) got on at Digby and got off the train at Bridgetown. Other than for those thirty odd miles we can't judge how profitable a day the D.A.R. had.

— Some people give too much credit to editors or reporters. They shouldn't do it. We recall aren't that good. We're referring of course, to that special faculty of mind-reading for which we have been given credit. For instance "I can go anywhere and my name never gets in the paper." "That mind-reading faculty bogs down sometimes. Newspapers got accused one day last week for not publishing a certain story. Just one little question "Did you let us know about it?" put the accusation in proper perspective.

— It was just by chance we got to the Digby Municipal Council meeting fairly early on Monday morning. The time to convene was set for nine a.m. instead of 10 a.m. Just could have lost track of a good story, maybe, in that hour we didn't know about.

— Can't blame this on the Post Office. Had an envelope the other day from Environment Canada. It had no enclosure. Another came from Halifax, one of those nice big brown craft envelopes. It had no enclosure. Nor had it a return address. Then there were two subscription orders with a letter or other identification but no money enclosed. Just goes to show that we are not the only "absentminded professors."

— We were of the opinion that this Christmas tree export was a relatively new industry in Nova Scotia. We were wrong. See where they shipped Christmas tree to U.S.A. practically a hundred years ago.

— Had a Christmas card from Cecil and Betty Day, Liverpool. That's a sure sign they have or are taking off for their usual winter in Arizona.

— How to combat inflation. Heard of someone who bought their Christmas gift wraps the other day and had nothing left for purchasing gifts. He solved the problem by deciding to give the wrappings this year and the gifts next year.

— Walter Frazee, Massachusetts, informs us he has taken The Digby Courier for 74 years. He spends some time in his native Bear River and thinks that something should be done about the vandalism or it will get worse.

person, he would then be free to carry out his administrative duties and attend the many and time consuming meetings over which he must preside. There are twenty-five committees, and the Mayor is Ex officio a member of every committee. In addition, he is a member of the Regional School Board, the Board of School Commissioners, The Home For The Aged and Infirm, and The Regional Assessment Board. Official functions, whether local, regional, or provincial, also consume a great part of his time.

As many of you are aware, I

have been involved in the Government of this Town for over six years. I was a member of the Water Commission, a Town Councillor, and finally, Mayor. Truthfully, I have very much enjoyed working for Digby, and as I stated in the beginning, it is with great reluctance that I inform you of my resignation.

I extend to the new Mayor, the Town Council, and you my best wishes for your success in the coming years.

# Letter To The Editor

## "THE PROPOSED DIGBY TO SHELburne ROAD"

During the recent years there has been a great deal of talk of a new highway linking Digby direct to Shelburne, on the old road that exists across the Province between these two towns. A number of years back a man is said to have traversed it in an old car. And of recent years a couple of snowmobiles from Shelburne are said to have gone across to Digby by it. Possibly heightening the interest being taken in it.

About three to four years back the way people were discussing it, one was led to believe that the project was almost ready to begin. However nothing has been done about it to the present time, and one wonders why not have it all cleaned out, and the bushes cut back, and make it into a well developed snowmobile run for both towns to enjoy. At least until money can be allotted to a two lane highway, which was what had been proposed.

When one studies the map of the Province, one realizes how beneficial this road would be for both towns, as at present all the big refrigerator trucks bound for the United States with fish, or scallops, have to either drive up to Liverpool, and cross over to Annapolis Royal, and then down the coast on the North Shore to Digby. Or drive down to Yarmouth, and then turn up Digby. Both taking them miles out of their way to reach there.

Also you constantly hear from Americans, when you ask if they came across on the ferry,

"No, it costs so much if one has to drive so far out of ones way to reach the South Shore, we decided we might as well go around by Amherst. All which deprives the ferry of a lot of passengers that they might have, and the town of Digby of a lot of potential money they might have by tourists stopping in the town first before they drove on.

At present so many Canadians take the Yarmouth ferry in preference, as it is the closest one to reach if going to the United States from anywhere on the South Shore. But if there was a paved road across from Shelburne to Digby, the larger part of the traffic would go to Digby - that is if they were going by car. For a lot fly nowadays from the Yarmouth Airport.

One would hope if this proposed road ever does get under way, and the building of it started, that it will not be made into a "Controlled Access Highway", with no building entrances permitted, so settlements may spring up midway, with a service station to refuel the motoring public. At present the Department of Highways is giving the population of the Province "Building Claustrophobia", with the way they decline to permit entrances to be built on the land outside the villages, so

these settlements cannot grow and expand, which they need to do. And has contributed to the high cost of land, for building sites with entrances on to a highway are getting few and far between.

There is only one real objection to building this proposed highway between Digby, and Shelburne, that I can see. And that is one that was voiced by a conservationist recently, and that is the more roads, you have crossing the Province, the more it opens up the centre of the Province to hunters and depletes what reserves of game there is.

Another interesting proposal I heard put forth recently, was that if a highway was built between the two towns across the Province, that a bridge path for saddle horses, and snowmobiles should be built beside it at the same time. That motion I second, for I certainly would like to ride across the Province from Shelburne to Digby. And we all know that if fuel and energy crisis go on continuing we shall all be taking to having horses and carriages again. Personally I'm all for a dog team, and would enjoy being the first to come "Mushing!" into the town with a team of barking Huskies. However, whether by dog team, or horse carriage, one needs an inn or hostel midway, for the

## THE DIGBY COURIER

animals couldn't do the distance in one day.

And as an oil crisis seems more likely to come upon us than the road, it behoves us to push to have it built while motor traffic still exists, so we may sample the pleasure of break-fasting in one town, and lunching in the other, the distance being shortened to permit it. However should cars finally be driven from the road from lack of fuel - we'll need that route across more than ever. For to reach the Digby ferry with a horse drawn carriage via Yarmouth will likely take us five days. Probably the old road across did exist for passenger and mail coaches in olden days. If so it is a wonder it was not kept up as a secondary road at least.

Shelburne has started to develop very rapidly during the last twenty years, and now if it gets its huge deep water harbour utilized at last for a Ferry Service to New York, as is proposed, it will bring an enormous amount of tourists, and business to the town. And not before it is badly needed. For it is a shame to let any town that has such a magnificent harbour as that go to waste.

And if this does come about as it seems likely to in the not too distant future, it would be all the more reason to have a road linking up across the Province of Digby. At present the Government seems bent on spending all the money on Cape Breton, and it would be a big boost to this end of the Province with so many people out of work, to have a highway of this size to be under construction for the next two or three years. Why should Cape Breton have it all? And as construction would begin at both ends, both towns would benefit with the money being spent. And if millions of the taxpayer's money is to be spent for new steel mills for Sydney, and oil refineries for Canso. It is time both towns began to clamor for a new road to link them together, and the money, and employment it would bring to this end of the Province.

Lettice Edwards.

## CHRISTIAN CORNER

### Answer the Pastor

QUE. Must the Christian, BORN AGAIN, child of GOD, keep the OLD COVENANT Sabbath?

ANS. No! with a capital N. The 1st covenant has been laid aside and a NEW (2nd) COVENANT has been substituted for it before God. HEB 10:9 -- he taketh away the 1st (Covenant) that He may establish the 2nd (Covenant). The moment a SINNER repents and is born again the OLD (1st) COVENANT with the 10 Commandments and SABBATH and hundreds of LAWS becomes to us an ANTIQUE to be studied, admired and preached to JEW and GENTILE sinners as a mirror for them to see their putrid running sores of SELF RIGHTEOUSNESS and to convict them of their lost condition before God. The 2nd COVENANT with NEW LAWS and ORDINANCES, to replace the 1st COVENANT with its Book of LAWS (GAL. 3:10) was established between repentant sinners and God, the moment Jesus died on the CROSS and his head fell forward and the VEIL in the TEMPLE was rent from top to bottom, MAT 27:51. (New COVENANT HEB 8:8-13. The new COVENANT has new LAWS, new BLOOD, new PRIESTHOOD, new approach to God, new FAITH (faith of CHRIST), new SPIRIT (Holy Ghost), new teachers and teachings (Epistles) and sins washed away in Jesus BLOOD, ROM. 10:4. For CHRIST is the end of the LAW (one or one hundred) for RIGHTEOUSNESS to every one that believeth.

Why SUBVERT Christians to get them back under the LAW OF SABBOTH, of TITHING, of CIRCUMCISION. The descendants of Abraham were under the 1st COVENANT nearly 2000 years and never produced one drop of God's RIGHTEOUSNESS. The OLD COV. LAW (Moral & Civil) was A SCHOOL-MASTER to wrap their knuckles, stand them in a CORNER and SMACK their bottoms to teach them what sin is in the sight of God and that SIN brings even everlasting punishment in HELL FIRE (schoolmaster GAL. 3:24,25) everlasting punishment (REV. 21:8).

The moment we BELIEVE by FAITH in the works of the CROSS and accept Him, our souls are flooded with the RIGHTEOUSNESS of God, not by any LAW, moral or civil but by FAITH under the 2nd COVENANT (New Testament). WE ARE SAVED BY GRACE, not by the works LAW, for by the works of the LAW shall no man be JUSTIFIED. Some of the Pharisees who believed in the Apostles time started preaching, "Ye must be circumcised, keep the SABBATH, TITHE, observe certain days, etc. but were stopped by the Apostles. Act. 15:10 now therefore why tempt ye God, to put a YOKE on the neck of the disciples, which our fathers, nor we were able to bear.

## COMEAU SEEKS STREETS AND SEWER INFORMATION

Patrick Comeau, Digby's town councillor, chairman of the streets and sewer committee, at a special meeting of Town Council on Thursday evening of last week, requested information dealing with his duties as chairman of the committee.

The first item to come up under streets and sewers was the condition of the snow plow. Councillor Comeau suggested that runners should be put on the snow plow. After much discussion the motion to put runners on the plow was made by Councillor William Reid, seconded by Councillor Guy Van Tassell and passed. It was also recommended that a wing plow attachment should be procured as it would be a valuable addition to the equipment.

Another item introduced at the special meeting by Mr. Comeau was that of a pump. Mr. Comeau said he would not stand to see working under such conditions as water running over the top of their boots. It was pointed out that four pumps belonged to the town but they were incompetent, and would not function so the men could not operate them. Discussion on whose neglect was responsible for the condition of the equipment ensued. By motion of Councillor Mrs. Eileen Chipman, seconded by Coun-

cillor William Reid a new pump as recommended by Councillor Comeau will be purchased.

On his list of things needed to do an efficient job, Councillor Comeau recommended that the town workers have some sort of artificial light to do work needed to be done after dark. On recommendation of Councillor Guy Van Tassell, the firemen will be approached for the use of their lamp for town purposes when needed.

Another item which came up was that of repairs for the town truck and laxity in the approach to maintenance of equipment was scored by several councillors. Councillor Comeau is making a complete assessment of all the town equipment and become familiar with the different machines so that they can be identified and used to a profit.

Councillor William Reid made the motion, seconded by Councillor Guy Van Tassell and passed that Councillor Comeau be given authority to have the truck repaired.

Mr. Comeau also said there is dire need of 500 feet of inch and a half hose for flushing out sewers. The amount of hose now available will be checked. It was established that the town is responsible for sewer lines only to the property line.

## MAKE BANKS SAFER FOR FISHERMAN

The need to establish protection for the many bass fishermen who gather along the steeply sloping rock-fill banks of the Annapolis Causeway during the bass fishing season, was stressed at a meeting of the Annapolis Basin Tourism and Recreation Council, held last Wednesday evening at the Fundy Restaurant.

It was pointed out at the meeting the steepness of the banks along the causeway and the unsure footing combined to create a serious hazard to fishermen. This is particularly true, it was stated, when the fisherman becomes excited at the thrill of possibly landing one of the fighting stripers.

The meeting to work in close conjunction with the Annapolis Board of Trade and the Town Council of Annapolis Royal in an effort to have a railed walkway established along the edge of the causeway embankment to ensure greater safety for the fishermen. An effort will also be made to have greater emphasis placed on off-highway

parking at the site of the causeway. It was pointed out a considerable area of off-highway parking is available but fishermen seem to prefer the roadsides. This contributes to a hazardous traffic situation, it was stated.

Words of commendation were voiced at the meeting in connection with the work being done on the former Precesky property at Upper Clements by the provincial government. It was noted a wildlife park is being created on the property and a number of cultural recreational projects will also be accommodated in the buildings on the estate, which is now owned by the Province.

David Irvine of Smith's Cove was unanimously chosen to succeed William V. Troupe as Chairman of the tourism group. Mr. Troupe, who has headed the council since its formation, said he felt he should retire for a number of reasons. One of these, he said, is that he is no longer directly involved in the tourist industry.

## DIGBY COUNCIL NOT REPRESENTED AT SEMINAR

Agriculture Minister Jack Hawkins, announced in the Legislature an increase in capital grants from 20 per cent to 50 per cent for standby Electrical Generators, retroactive to October 1.

Mr. Hawkins said that during the storm of October 20 it was demonstrated that many farmers are totally dependent on a continuous supply of electrical power in their farm operations, and serious losses can occur when the power is shut off for any reason.

"The use of standby generators on many farms prevented serious losses, both for the owners of farm operations, and the operations of neighboring farms," he said. "For this reason, I feel that an increase in the subsidy will be of great assistance to farmers in protecting themselves from future losses of electrical power."

"This program is being made retroactive to October 1 to cover farmers who purchased such equipment as a result of the recent storm."

A special day long seminar to discuss the federal provincial Neighborhood Improvement program agreement and the complementary Residential Rehabilitation Assistance Program was held in Halifax on Monday. The seminar, was sponsored jointly by the Central Mortgage and Housing Corporation in co-operation with the Nova Scotia Housing Commission and Union of Nova Scotia Municipalities.

At a special meeting of Digby Town Council on Thursday the

decision was made to not attend the seminar as the regular meeting of the Digby Town Council meeting would be held that same night and there was a lack of information on the seminar.

Councillor Mrs. Eileen Chipman felt that the seminar would not do anything for the ratepayers which the council represents. Rather than go off to Halifax to impress the federal provincial powers, she would like to do something for the town people, she remarked.

## In Memoriams

**YOUNG, MINNIE**—Passed away Nov. 21, 1968. Sadly missed by son Ralph and daughter-in-law Bonnie.

Wonderful memories of one so dear, Treasured still with a love sincere, In our hearts she is living yet, We loved her too dearly to forget.

**COLLINS**—In memory of my dear mother, Mrs. Charles Collins, who passed away December 5, 1960.

Fourteen years ago I had to part With a mother I loved with all my heart.

The wound is deep, It will not heal; Only those who lost Know how I feel. They say time heals all sorrow, And helps one to forget, But time has only proven How much I miss her yet: How can I explain to others The loss I feel inside. I only know I miss her And the tears I try to hide. Life goes on, I know it's true, But it's not the same since I lost you. Sadly missed by her daughter, Ada, Mrs. Thomas Cowan and family.

**WONG**—In loving memory of a dear husband and father James, who passed away Dec. 5, 1973.

Nothing can be more beautiful, Than the thoughts we have of you,

To us you were very special. God must have thought so too. You suffered much in silence. Your spirit did not bend, You faced your pain with courage, Until the very end, You fought so hard to stay with us, But your fight was all in vain, God took you to his heavenly home And freed you of your pain. Lovingly remembered and very sadly missed by wife Gladys and family.

**BAILEY**—In loving memory of husband and father Lou Bailey who passed away Dec. 9, 1971. A smile for all, a heart of gold One of the best this world could hold. Never selfish, always kind These are the memories he left behind. Always remembered by wife Mary and son Paul.

**COMEAU**—In loving memory of our dear niece M. Kaye (Buckman) Comeau who departed this life Dec. 9th, 1973. Adelia and Russell.

## FORMER DIGBY MAN FOR MAGI POSITION

The federal government has agreed with the provincial government's choice of Scott Macnutt for one of the two top positions in Metropolitan Area Growth Investments (MAGI). Premier Gerald Regan has said.

Premier Regan told the legislature he understands the federal government will nominate a candidate for the other senior position. The two positions are president and executive director.

The premier said the government has submitted four names for appointment to the board of directors to Ottawa, while the federal government will appoint two members. For one reason or another, the appointment of the board of directors and the chief executive officer has been delayed for many months, although the province earlier nominated Mr. MacNutt, former labor and health minister,

as president and director of MAGI.

The premier said Mr. MacNutt, a social worker by training, has intelligence, training, and experience, and is a "first-rate administrator."

The premier said Mr. MacNutt carried out his responsibility in the cabinet in "an outstanding manner."

Mr. MacNutt, as minister, gained considerable experience as an executive dealing with government funding and involvement in industry generally, he said.

## FISHING SEASON AT TIVERTON

by Mrs. John Outhouse

The summer is over and gone. The flowers that dotted the landscape have turned to seed and now lie asleep shrouded in frost and snow. The cheerful chirping and songs of the birds are heard no more, they have long since sought a kinder climate, more agreeable to their frail, small bodies. Wary fish of the Bay of Fundy and St. Mary's Bay off the coast of Tiverton, N.S. need not be so "up tight" and alert to the trawl fishermen, because for them too, the summer season is over and gone. Adjustments to another form of making a living is taking place.

Trawl tubs, ropes, fish hooks, trawl haulers and the trawls themselves have been laid aside. Workmen of the fish plants of Small Brothers have been laid off for a season. Lobster traps (pots) that have been newly constructed, older ones that have been repaired, and the fathoms of lanyard attached to them are now reclining on or near the ocean floor of St. Mary's Bay and the Bay of Fundy. Brightly painted buoys attached to the lanyard are bobbing about on the surface of the water to mark the spot where each trap with its fresh bait is lurking and luring the unsuspecting prey, the lobster. Winter has come. The lobster season has begun.

Most of the approximate 13 trawl fishermen of the summer season also lobster fish. Several employees of Small Brothers fish plants also take advantage of the lobster season as well. The three dragger fishermen of Tiverton carry out their operations the year 'round - depending on wind conditions.

Some of the lobster fishermen, as in past seasons, will fish their traps about three or four weeks to glean the greatest riches to be had during the first of the lobster harvest. Others will continue operations for perhaps two or three months then give up fishing on the grounds that they feel lobsters are not plentiful enough to cover cost of gasoline and other expenses involved. Several fishermen of St. Mary's Bay will join fellow fishermen in the Bay of Fundy by re-setting their traps. They seem to feel the Bay of Fundy will still yield a lucrative supply of lobsters even though many have been taken from the Bay of Fundy grounds by that time. Then there are those fishermen who will stay with lobstering until the season closes in May.

There are two lobster buyers in the Tiverton area, Mr. Arden Greenlaw and Mr. Manford Pyne. They in turn sell to buyers from Digby Neck and other places. They supply a ready and waiting market as handy as Digby and as far remote as various places throughout U.S.A.

With the closing of the lobster season in May, the winter part of Tiverton's life cycle is at an end. Spring and summer activities come in to complete the round of the year's events.

## ISLAND GROUP SING AT HALIFAX

Mrs. John P. Outhouse

The "We and Him", Islands Gospel singing group had a busy weekend.

Despite the throes of high winds, heavy rains mingled with snow, and rough waters at Petite Passage, the group, feeling "the show must go on", left last Friday following school classes to present two concerts in the Halifax area. They also participated in Sunday morning church service at North Street Christian church at Halifax.

The group, Miss Edith Ingersoll, and Miss Jeanette Denton of Westport, Miss Mildred Outhouse and Lee Outhouse of Tiverton, were invited to North Street Christian Church, Halifax, by its pastor, Lic. Robert Johnson who wished the singers to present a concert in observance of the church's 143rd anniversary.

Selections done by the group were, Get All Excited, Where He Leads, Greatest Love, Let Me Live, Never Goin' Back, Better and Better, Reach Out To Jesus, Touring That City, How Great Thou Art, Because He Lives, It's In Your Hands, and the ever popular, Lighthouse. Two bass solos, Amazing Grace and I've Been Born Again were done by Lee Outhouse who is also guitarist for the group. Members of the group presented personal testimonies.

Lic. Robert Johnson, former minister of the Tiverton Christian Church and member of the "We and Him" accompanied the group in the singing and was M.C. for the occasion. The group expressed their pleasure in having their former pastor-singer with them again.

The group's other presentation was at Wendelyhome Christian Church at Dartmouth with pastor, Rev. Byron Howlett.

The teenage singers remarked of the wonderful hospitality extended them during their visit in the area and how very much they enjoyed their stay.

Enroute to Halifax, the group were overnight guests at the home of Miss Ingersoll's brother, Rev. David Ingersoll at Liverpool, N.S.

## MISTAKEN IDENTITY

The picture from the Hope Fellowship Tea in last week's edition of the Digby Courier should have contained the name of Mrs. Irene Specht and not Mrs. Muriel Frankland. It was Mrs. Specht who assisted at the tea and along with Mrs. Stephen LeBlanc volunteers her service two days a week to make life pleasant and useful for the retarded. Mrs. Specht is also secretary of Hope Fellowship.

## RAISE PHARMACY FEE TO \$2.40

The Government of Nova Scotia announced that under its insured prescription drug plan for senior citizens, it is offering a 20 per cent raise in the current maximum dispensing fee of \$2. In order not to jeopardize the position of the Province's residents over 65 and the many pharmacies who wish to participate in the plan, the Government has decided to make this increase to \$2.40 effective Dec. 1, 1974.

It is hoped that by August 1975 both the Health Services and Insurance Commission, which is responsible for the plan, and the Pharmacists will have gained sufficient experience to re-assess the financial effects of it.

# CHURCH POPULAR WITH TOURISTS

by Albert Melanson

St. Mary's R.C. Church at Church Point continues to be one of the most popular tourist attractions along the French shore in Digby County. It is estimated that over 18,000 visitors entered St. Mary's church during the summer months and these persons are those who were passing by and stopped off to view the beautiful interior of the church.

Tourists from practically every province of Canada and most of the states in the United States have registered their name in a special book placed in the entrance hall of the church. Such written comments as follows may be found in the registry: "Most beautiful-warmest in feeling-even. The most sinful must believe something"; "We are glad we stopped, it's beautiful"; "Magnificent-it exhibits the true love and sacrifices of the faithful-God rewards all who built or contributed towards this house of God"; "The silence is most comforting"; "breathtaking"; "fascinating"; "A truly lovely house of worship"; "inspiring"; "vast and beautiful-warmest in feeling-even surpasses many stone cathedrals in structural design and details, an indispensable piece of Canada's past"; "a beautiful house of God, reflection of the wonderful people in the past who built this wooden church by hands and hearts".

The dimension of the church is as follows: the interior is 85 feet wide at its main section, 135 feet wide at its widest point (church is built in the shape of a cross); steeple is anchored with 40 tons of rocks and the belfry contains three huge bronze bells weighing 3,740 pounds. The smallest weighs 844 pounds, the second 1,172 and the third 1,724 pounds. They were cast at the Piccardy foundry in Arras, France.

The ceiling is 65 feet from the floor and contains oil painted religious pictures. The church was designed by Reynault, architect of Rennes, France. Master carpenter was the late Leo Melanson of Little Rock, who built several wooden churches along the french

St. Mary's R.C. Church Point is probably the most important tourist attraction of the French shore in Digby County. "It is an awe inspiration of this beautiful church which is beyond description," stated a visitor to the church. During the summer months the doors of this church are always open. (Melanson Photo)

Miss Jeanine Saulnier of Little Brook in Evangeline costume acted as guide at St. Mary's R.C. Church at Church Point this summer under the Program Opportunity for Youth, which is the second year in succession that she served as guide. Here she is shown explaining some of the paintings on the ceiling to a group of tourists. (Melanson Photo)

shore. The late Steve Gennette, and Italian of Little Brook who married a French girl, was the artist who made the frame for the "Way of the Cross" which are set on the outside walls in the interior of the church. He also made the artistic toppings

for the huge pillars which were built to simulate marble pillars. A large glass chandelier in the middle aisle of the church was one taken from the third church built in the village and which had for its site, the present cemetery where a huge

wooden cross marks the site in the centre part of the cemetery across the highway from College Ste Anne. The paintings on the ceiling were painted by a French Canadian of the province of Quebec, by the name of St Pierre.

## FIRST PUBLIC PERFORMANCE

High school students graduate and go to university or take on a job. That means each year the school personnel changes considerably. This is what happens to the Digby Regional High School Concert Band. The band students of 1974-75 are a different group from those who played in the

1973-74 band and they need time to become efficient with their varied instruments.

On December 12, the present Digby Regional High School Concert Band under the director, will present a concert at 8:30 p.m. in the DRHS multipurpose room, this being their first public appearance.

While the program is not entirely of Christmas music there will be numbers in recognition of the festive season.

Tickets for the concert are available from band members and indications are that there will be a sell-out to those who want to support the students and also to see how skillfully they can handle their instruments in the production of pleasing musical sounds. Mr. Scott said, however, that if there are seats available, tickets will also be sold at the door.

## READY FOR CHRISTMAS DADDIES

Things are near readiness for the fifth annual CKDY Christmas Daddies Show on Sunday, December 8. The marathon nine-hour broadcast over Digby radio station CKDY gets underway at noon at the multi-purpose room of Digby Regional High School. As usual there will be 500 seats available to spectators free of charge. Those attending are requested to enter through the rear entrance, no other door will be open.

CKDY station manager, Leigh Everett, who co-ordinates the show, said over 200 behind-the-scenes volunteers and another 200 entertainers will be available to raise funds for the Digby Christmas Daddies Fund Committee, and other volunteer group comprising both private and public care-giving agencies in Digby and Annapolis counties. Since 1970 the CKDY Christmas Daddies have raised more than thirty-two thousand dollars, assisting about five hundred youngsters each Christmas. The bulk of funds are spent between Middleton and Weymouth, with all money returning to work in the county from which it was pledged.

It is expected that an overall increased cost of living will make it difficult to provide the usual care-gifts, both quantity and quality, unless pledged financial support is as good as or better than in previous years. Last year's total exceeded \$10,200.00. Estimates indicate that the usual cheer-parcels this year will cost about 20 per cent more than last year.

## EXPERIMENT WITH SOYBEANS

Soybean experiments, carried on this year, on two farms in Digby County alone, with others in the Province, have turned out successfully in this area with both fields producing "good quality, excellent yields," Bruce Gilliat, Agricultural Representative, reported last week.

Although the crops are now ripe, harvesting had not yet been started on the two Digby County farms because of wet weather. Gerry Smeltzer, Agronomist, Project Farm Supervisor, and Research Scientist at the Agriculture Canada Research Station in Kentville, has suggested that the farmers involved try to combine the crops themselves with a small pull-type combine.

The farms involved in the project are those operated by John Roope, of Hillgrove, and Green Valley Farm, operated by Stan and Leonard Boudreau, of Concession. This was the first year soybean was tried on such a large scale.

Mr. Gilliat sees bright prospects for soybean production in Digby County. He feels that the success of this year's trials despite the wet weather conditions should mean the crop is readily adaptable to local conditions.

Cattle farmers are expected to draw the immediate benefit from the protein-rich crop, according to Mr. Gilliat, and this could help alleviate the problems associated with the ever-rising prices on feeds.

Soybean also has a great potential in feeding people but

step taken in this direction would require locating of a processing plant in the area. The crop can be fed to hogs but must be roasted before feeding.

Mr. Gilliat is hopeful that more experimentation with the crop will be carried out next year. Prior to the large scale testing, preliminary tests were carried out on a smaller scale at the Research Station in Kentville, which indicated the crop could be adopted to Nova Scotia conditions.

The main aim of the experiment is to increase livestock production in the Province and decrease costs to the farmers.

Mr. Gilliat points out that any

### CAMERONS GIVE

#### THANKSGIVING DINNER

A light snow and harvest moon were present, but no Indians peered in at the windows of "Crowberry", (the Gordon Camerons' house) during a traditional Thanksgiving dinner when guests were treated to old-fashioned fare on Thursday, the 29th of November.

Commemorative plates of the 1775's were heaped with turkey and all manner of home grown vegetables (from near-by friends' farms) ending with pumpkin pie, plum pudding with hard sauce, short bread, and all the other 'fixings'. Candles did their share producing a glow for the occasion, and mellowing the scene.

Guests brought wood from their Winter "stores", and logs burned as merrily as they must have done in the early days of raids by the 'Red Skins'. Reminding of the many changes in living since that era, which have given cause for us all to be thankful!

Present were: Rev. and Mrs. Isaac Butler and their son Geoffrey, Digby; Mrs. Calvin Granville, The Misses Alison Killam, Frances Lent and Mrs. John Lynden, all from Weymouth; Mr. and Mrs. Kenneth Thomas and their daughter Cheryl, Barton, Mr. and Mrs. William L. Troupe, Digby; and Mr. and Mrs. Frank Turner, Plympton.

Robertson and his pregnant wife Dorothy Tristan are disturbed by a series of strange occurrences which he takes as Grey's way of threatening him. After a session with psychiatrists Elizabeth Wilson and Ron Weyand, Grey predicts a young girl's murder. Allport is arrested for the latter killing and Robertson realizes that Grey has hypnotized the youth into committing crimes so that Grey could bring attention to his "powers." ## PANTRY SALE RAISES \$75

A pantry sale sponsored by the C.W.L. of Holy Cross Parish, Plympton, held at the Parish Hall in Plympton on Sunday evening Nov 17th netted the sum of \$75.00 which is being sent to the foreign missions. This is a worthy project and is appreciated by the recipient as on their last donation the C.W.L. received a letter of thanks telling them of how much their donation meant to some of the starving people in other countries. \$75.00 to us Canadians wouldn't buy too much sugar but it means a lot of rice for the people who are not as fortunate as we Canadians.

## HOG BUSINESS TAKES SLUMP

The Digby County Federation of Agriculture revealed on Tuesday at their annual meeting in Weymouth that a reduction had occurred in the number of hogs raised by the Clare Shipping Club in 1974. According to figures submitted the total hogs on commercial farms in 1973 were 8,356 and in 1974 there were 86, 274, more than a 2000 decrease. This also resulted in reduced revenue for the hog raisers. The 1973 revenue in the commercial farms being \$766, 719 in 1973 and reduced to \$512, 121 in 1974, more than \$250,000 less.

A slight increase was found at the non-commercial farms when the hogs increased from 121 in 1973 to 160 in 1974. Value was \$10,885 in 1973 and \$11,264 in 1974. Grand total in 1973 was \$777,605.40 and in 1974 it was \$523, 386.19.

Interesting figures showed an increase per hog of 19.14 in 1972 from 1971; increase of \$28.34 per hog 1973 from 1972 and a decrease of \$7.92 per hog from 1973 to 1974. At the same time feed had increased by 1.10 per cwt.

## RECOMMENDS RESOURCES BOARD

Ownership of land is not the problem in Nova Scotia a select committee on non-resident ownership of land concluded in a report tabled in the House of Assembly.

"The title of the committee is a misnomer," the report states, but "it is the conclusion of the committee that the problems and difficulties are those of use of land and taxation."

Consequently the select committee recommends that a land resources board be established to advise on the proper use of land and to designate what should be agricultural, recreational, historic, scenic and "such other designations as are appropriate under the circumstances."

The all-party select committee, under the chairmanship of Hon. Leonard L. Pace, Q.C., recommends that once the land is designated "it will not be able to be put to another use without the approval of the board."

## CHRISTMAS DADDIES BIG SUCCESS

Nine o'clock came on Sunday night bringing a grand total of \$10945.39 to the Christmas Daddies committee to purchase Christmas dinners and treats for those in Digby and Annapolis Counties whose lives will be made brighter because of the Christmas Daddies program over CKDY on Sunday. This total was about \$700 above the 1973 total. On Monday a generous person called the committee to see how much was needed to make an even \$11,000. The difference was pledged. In the years in which the Christmas Daddies have been active an amount of \$43,000 has been raised.

It was estimated that 7000 persons visited the multi-purpose room at the Digby Regional High School to observe the radio show in action while thousands listened to the program at home. The program has taken some 800 persons to put it through these several weeks, culminating with delivering the hampers before Christmas. There were 250 at work on Sunday, there were 300 entertainers and about two hundred will be busy packing and distributing to 800

families. Co-ordinator of the entire program was Leigh Everett of CKDY.

## SET DATE FOR MAYORALTY ELECTION

Following Monday night's town council meeting when Mayor Willard Kinney's resignation was regrettably accepted, council convened on Wednesday evening and set the election date for January 21st, 1975 from 9 a.m. to 5 p.m. Nomination day will be on January 7th, 1975. It is understood that Councillor Patrick Comeau at that meeting revealed his intention to seek the mayorship. Wednesday night's meeting was presided over by Deputy Mayor Philip Robertson.

The meeting on Wednesday

evening accepted the tender of C.J. Slauenwhite, Lawrencetown, for supplying a fire truck as per ratepayers meeting on the previous Thursday.

Lister Hannah, principal at the Digby Regional High School, was named chairman of a recently formed recreation committee, established by by-law for the Town of Digby. Mr. Hannah extended an invitation to members of

recreational organizations to attend their regular meetings held the third Tuesday of each month at 7 o'clock p.m. at the Town Hall.

Mr. Hannah repeated words from the Minister of Recreation, Hon. A. Garnet Brown "According to news reports involving the Depart-

### IN THE SPIRIT OF CHRISTMAS

The \$11,000 in cash and pledges received at the Christmas Daddies show on Sunday has every indication that the Spirit of Christmas prevails in this vicinity. The joy in giving and sharing has really taken fire.

And to-night is the Down-Town Christmas Party. All in holiday mood, people will be out enjoying friendships and calculating the extent of their purses in obtaining the best gift they can afford to make a family member or a friend really happy. The merchants are there to sell and they want to sell in order to maintain a profitable business but they, too, get caught in the spirit of Christmas and put forth their best foot in suggesting gifts to please both the giver and the receiver. The "party" is held early enough so that customers have the best opportunity and time to consider a satisfying gift in one of the several stores participating in the activity.

Christmas can be a lovely time but there is, nevertheless, a spirit of good-will and peace which transcends grief and sorrow. There is the feeling of being part of something shared by relatives and friends. Christmas is laughter, Christmas is music, it is the odour of hemlock, spruce and pine, it is remembering and giving, all in the spirit of love and recognition of a birth 2000 years ago.

So join in the fun and laughter. Enjoy the shopping party with reservations as to your financial status, to be sure, but with the generous heart revealing the love which prompted the giving not only to the immediate family but to all those in need. The spirit of Christmas is contagious. Be in the excitement and fun and all in the spirit of Christmas.

### GIVING BETTER SERVICE

"What are you doing at The Digby Courier office?" was a question asked us frequently during the past week. We didn't blame our friends for asking as it isn't every day in the month of December that you can sit in an office and have the door wide open or no door on at all.

The answer to the question was, however, that The Digby Courier and Wallis Print Ltd. want to give continually better service. To do this requires new or additional machinery. And that was the confusion over the weekend. A linotype and an automatic Heidelberg press had to be installed in the shop and as usual when new machinery goes in that building some of the front wall near the door and also the door must be taken off to give space to move machinery in there. Besides with two plants at work it was found desirable to have one plant doing offset printing and the other letterpress. An exchange of presses also resulted.

We weren't "breaking up house-keeping". Just offering still better service to our customers by modernizing equipment.

## Hodge Podge

Quote from a letter "Writing for the Courier has been a real pleasure over the past year. Many thanks for allowing me the privilege". We return the compliment for it is a pleasure to us to have your copy. Correspondence for a newspaper has its advantages for the newspaper but the correspondent also does a service to the community. We welcome correspondents. If there isn't one in your village, how about offering your services?

We can't boast of a big population around here like in Saint John or Halifax but after last Sunday you'll have to agree with me that there are a lot of big hearts.

## LETTER TO THE EDITOR

Dear Sir,

Every year, my job in Canada becomes a little bit harder, in spite of - or perhaps because of - our vast technological achievements.

You see, each year, I receive a larger number of heart-breaking letters from young folk who say they could manage without Christmas presents if only I could send Daddy back. My research shows that Daddy was in a fatal traffic accident, and it is very hard for a little one to understand how it is Daddy can go off to work, fishing, shopping etc. right as rain, but never come back.

Through the pages of your paper, may I ask for the help of all the drivers in your coverage area? We have just come through Safe Driving Week in Canada, and everybody has seen a barrage of safety messages. Please remember them, not only through the hustle and bustle of this holiday season, but all through 1975.

Then, I will be better able to concentrate on finding the kind of gifts that make up the more routine requests from our children. Let's have no more sad, desperate faces at Christmas time.

Wishing you and yours a very merry and safe Christmas!

Ho Ho Ho.

## HONORED ON BIRTHDAY

Tideview Terrance makes habit of celebrating birthdays of the guests, at least one party a month. A cake is prepared and each person whose birthday falls in that month is recognized.

On December 4th, a guest who is widely known throughout Digby County celebrated his birthday.

Rev. J. W. Derby, well known on the Islands and throughout the county was 88 years old on that day though everything about him denies the 88 years. His appearance, his conversation and enthusiasm are more likely to be found in younger years.

Mr. Derby was born at White Sands, P. E. I., to James E. and Ann Giddings Derby. After obtaining his high school education and teachers' training, he taught school for seven years on his native Island and two years in Alberta.

During his years of teaching, Mr. Derby also studied and eventually completed his theological courses at Johnson Bible College, Kimberlin Heights Tennessee. He followed in the footsteps of his father who was a main elder at Murray Harbour and served for four years in leading the church in his father's place, coming to the Westport (Digby County) Church of Christ, August 6th, 1914.

Mr. Derby has four living children, Whitney, Westport; Melida (Mrs. Harold Swift) Westport; Lewis M. Derby, Calgary, Alberta and Lloyd G. Derby, a minister in Sharon, Pennsylvania. There are eleven grandchildren and fourteen great grandchildren scattered from Edmonton, Alberta to West Virginia.

Though Reverend Mr. Derby retired in 1958, he has not stood idly by. He has continually supplied pulpits and within the past year as a guest at Tideview he has taken services in South Range, Weymouth, Tiverton and Westport.

Mr. Derby has always been active in community affairs and fraternities. In Hannah, Alberta, he served on the school board after contesting against four others and obtaining the highest poll ever attained. In February 1917 he became an Oddfellow and is still an Oddfellow in good standing. He also joined the Orangemen and the Macabees.

Mr. Derby spends much of his time at Tideview in writing letters to his family and reading. He has already addressed 87 Christmas cards and expects to mail a hundred or more. He had 21 birthday greeting cards on December 4th.

Beings interviewed on his ministry, Mr. Derby thought one incident was unique. He performed a marriage ceremony before a police escort. The groom was about to escape but was brought back by the police.

He told of his routine work and related what he found to do on a particularly heavy Sunday.

The Superintendent of Missions came to visit his

## SANTA CONNIE WOOD

Christmas season, a time of joy

For every girl and every boy  
A time to laugh, a time to live  
And above all a time to give  
In every house you'll find a tree

And underneath the gifts you'll see

But this was like no other year  
For in the barn a tree of cheer  
A tree for animals to share  
A tree adorned with so much care

On every limb was tied a treat  
Something delightful,  
Something sweet

For the horse a donut you'll find

A present for being so kind

For the cow, a carrot or two  
Very good for a taste and chew

The sheep equally had their turn

Potatoes for them, they did earn

A sight indeed this special tree

None were forgotten, all could see

But best of all, think if you could

Santa acted by Connie Wood

Christmas morning giving to all

Gifts in the pens and in the stall

A merry Christmas it has been

The barn has not seen better since

## It Happened Back Then..

(Items from the Courier files which we trust you will find of interest)

December 13th, 1973 ONE YEAR AGO - The Bazaar of Art and Craft was officially opened; Stelmur Manor was also officially opened.

December 10th, 1964 TEN YEARS AGO - Residents of the Islands have once more undergone the frightening experience of being isolated from the mainland. The passenger ferry boat, "Petite Ferry II", the only connecting link with the mainland at East Ferry, was completely demolished during last Tuesday's storm. The scow was undamaged.

A causeway that will provide the islands with a permanent link with the mainland, is not in any way comparable with a child's toy that he wishes for and dreams of owning, it is a dire necessity for the welfare, and business of both islands.

December 15th, 1949 TWENTY FIVE YEARS AGO - The official opening of the Digby Rink will be held Friday evening, it was learned from Rink Manager, David Daley.

Nova Scotia's Motor Vehicle Liability Law becomes effective December 15th.

December 19th, 1924 FIFTY YEARS AGO - A professor of Chemistry in a University is quoted as having said recently, that if the average sized man were divided into elements of which his body is composed, there would be water enough to wash a pair of blankets, iron enough to make a ten-penny nail, lime enough to white wash a good sized chicken coop, phosphorous enough to make 100 matches, and sulphur enough to kill the fleas on a medium sized dog.

December 14th, 1877 SEVENTY FIVE YEARS AGO - A young man, slightly deaf, had a very narrow escape from being run over yesterday morning, on account of a team being driven without bells attached.

December 15th, 1899 NINETY SEVEN YEARS AGO - Candies, Fruits and Nuts - 4 pounds for 25 cents; Ladies Jackets from \$1.50 to \$10.00; Ladies' Fur Ruffs and Collars, ranging from 75 cents up; Handkerchiefs in abundance, 3 cents to 90 cents.

WIN HOCKEY COLLEGE AWARDS

Above, left to right, are Noella Woods, daughter of Mr. and Mrs. Charles Woods and Jennifer Fletcher, daughter of Mr. and Mrs. Patrick Fletcher, Digby, being presented by Mr. Fletcher, manager of Scotia Bank, Digby, with watches they were awarded in the Hockey College contest sponsored by the Bank.

The Scotiabank Hockey College is for every boy and girl in Canada whether they play Hockey or not, said Mr. Fletcher. It was established to keep the boys and girls up to date on Canada's national sport as well as provide them with goals and incentives by teaching them sound banking principals and saving habits.

There is no membership fee to become a member of the Scotiabank Hockey College. Every boy and girl is eligible to join simply by having a Savings Account at any branch of the Bank of Nova Scotia. They simply go to the nearest Scotiabank, open up an account and one of the people at the Bank will fill out an enrollment card for them.

Every month through the year they have drawings for prizes of trips to NHL Hockey games, bicycles, skates and Gruen watches and the only requirement is that they make a deposit into their account each month. As well each month throughout the year a Hockey College news is printed and when they drop into the Bank to make their deposits at the first of each month they can pick up their monthly copy of the Hockey News.

There is one drawing for the trip to the N.H.L. game and 23 other draws for watches, skates and bicycles. It is understood that late in the New Year there might be offered a trip to Disney Land or other exciting venture.

## SOVIETS AGREE TO NEGOTIATE CLAIMS BY

### LOBSTER FISHERMAN

OTTAWA - The way has been cleared for Canadian East Coast lobster fishermen to negotiate gear damage claims with Soviet authorities, Fisheries Minister Romeo LeBlanc announced.

Canadian officials met with officials of the Soviet Union in Ottawa on November 21st through 25th to discuss certain fisheries problems of concern to both countries. The meeting dealt with outstanding claims for past damages caused to lobster gear belonging to Canadian fishermen, and the establishment of preventive measures to avoid further incidents.

The following joint com-

munique was issued following the meeting: "On the question of the outstanding claims it was agreed that the Soviet agency, Sovrybflot, which represents the interests of the owners of the Soviet fishing vessels, will study this evidence which has been submitted on an urgent basis, obtain such clarifications as may be necessary; and in necessary cases will meet and negotiate with the Canadian claimants. The appropriate agencies of the two countries have undertaken to encourage the speedy and equitable settlement of claims.

"On preventive measures to avoid further incidents, agreement was reached on the

implementation of a detailed gear marking scheme and on an improved system of communicating the location of Canadian lobster gear to Soviet fishing vessels."

Mr. LeBlanc stated that although he was hopeful that the claims could be settled satisfactorily through such negotiations, the claimants will still retain their right to prosecute their claims through Canadian courts.

you in the privacy of your own family automobile. It almost seems akin to those laws which once were in effect but have now been repealed everywhere, prohibiting certain intimate acts between people in the privacy of their own bedroom.

The seat-belt law seems to strike one as an improper invasion of an area which the state ought not to invade. It conjures up visions of George Orwell's famous novel 1984, which forecast that by that year a superstate would exist which would scan and supervise the every private act of the individual, indeed, the every private thought. It strikes one as the type of thing which will encourage the police to become super-snoops, spying and surveilling diligently to ensure that each and every belt is fastened and properly tightened too.

Many of us, too, are bound to feel that if it is to be compulsory seat-belts to-day, what will it be tomorrow? Where will it all end? What private area will they next invade? Will there be any boundary, anywhere, which could be stated with any confidence. "Legislation will extend perhaps even up to this point, but never beyond?"

It strikes me that we, the people ought to draw that boundary line now, and draw it where it stood before this seat-belt idea was dreamed up. On grounds of fundamental principle, on grounds of the rights and liberties of individuals which we have always cherished here in Canada and which we fought two World Wars to maintain, we ought now to say to this or any other government which is wont to extend itself beyond its proper boundaries, "Halt! Thus far, and no further."

In a democratic state I and let us hope that free elections are not abolished after all the other basic freedoms have been swept away, the citizens in the final analyses are the arbiters, even yet, of just how far a government can go. If the government goes too far, presumably the voters will remove it and replace it with one more attuned to the popular wishes, which can repeal the bad legislation of its predecessor. Unfortunately, in this instance, that means we may have to wait until 1977 or 1978, by which time we may not only be all fettered with seat-belts but with staggering other encumbrances as well. The present government is increasingly geared to a course of a action which places the rights of the government (and its political party) on top and the rights of the individual at the very bottom.

In the meantime, I should think that every arbitrary act of this present government should be fought tooth and nail. As for highway safety, I am all for those who feel that seat-belts should be worn wearing them, just as I am all for those who feel it appropriate to wear long underwear in the winter to do so. But the day that this government legislates to require, on a compulsory basis, the wearing of long underwear from December to April, with a fine of \$25 for the first time one is caught not wearing it, then I am going to be calling on the people of Nova Scotia to destroy their long underwear the same as I recently called for the removal of seat-belts from the cars of those who do not wish to wear the belt, which, I understand is soon to become the official emblem of the Liberal Party of Nova Scotia.

## Canfarm -

### New Method Of Accounting

Digby County farmers met here for discussions on a system of computerized farm accounting, called CanFarm.

Outlining the mechanics of the CanFarm program in Canada, Peter Dekker, farm management specialist with the Nova Scotia department of agriculture in Kentville, said there are different types of accounts which the farmer may wish to set up.

He said there are various types of reports available for management and income tax purposes.

CanFarm is administered by

the federal department of agriculture with the provincial department responsible for the actual implementation and extension work of the program with regards to the local farmer.

The program requires the services of a recorder-technician and under a cost sharing formula the farmer pays approximately 30 per cent.

The recorder-technician will carry out the recording of farm financial data using the CanFarm system.

Upon enrollment by a farmer the technician will visit the farm each month and complete the entry and coding of said financial data. A year end report will be completed which will provide the necessary information for income tax purposes and farm business analysis.

Monthly statements will be provided by CanFarm to the farmer for management decisions.

An individual system of accounts to provide for enterprise costing, financial management, tax management and labor records will be designed for each farm business.

Digby County agriculture representative, Bruce Gilliat, said Tuesday the plan has gotten off to a slow start in the county.

Only one farmer is presently using it.

He added, however, that a number of farmers have expressed interest in the program and may register in the near future.

Farmers interested in the program should contact their agricultural representative.

## DEPARTMENT TO ISSUE ROAD GUIDE

HALIFAX - The winter road guide report begins today, Hon. Leonard Poirer, Q.C., Minister of Highways, advises motorists.

It is the fourth year that the service has been made available to motorists around the province. It will continue seven days a week until March 31.

Two reports a day, at 9:30 a.m. and 3:30 p.m., will originate with the Department of Highways and be sent instantly to news media throughout Nova Scotia. Road conditions will be made known to media along with anticipated changes in driving conditions, Mr. Poirer said.

In extreme weather conditions, additional reports will be made. Highways personnel in 14 district offices throughout the province will provide up-to-date driver information to an information centre at Halifax.

Motorists who wish to phone for current road information can contact the nearest regional or divisional office of the Department of Highways. In

## W.C.R. LIBRARY BOARD NOT IN FINANCIAL TROUBLES

Miss Barbara Kincaid, secretary-treasurer, Western Counties Regional Library Board has advised the Digby Courier that the W.C.R. Library Board is not in financial difficulties. Miss Kincaid wishes to avoid any confusion which might arise from a news release stating that the Admiral Digby Library and Historical Society finds it difficult to operate without sufficient funds.

Miss Kincaid stated that Western Counties Regional Library Board is responsible for providing the library service to the residents of Digby Town and Digby Municipality through a bookmobile which serves the municipality and a branch library which is located in the Admiral Digby Library Building. The space in this building is rented for the use of Western Counties Regional Library by the Town of Digby. The Western Counties Regional Library Board has no intention to close or curtail library services in this area in anyway whatever.

Miss Kincaid said "We do appreciate the difficulties which the Admiral Digby Library and Historical Society are encountering with rising fuel costs in maintaining and expanding their facilities at the Admiral Digby Building to include the Museum which they desire to establish. We wish them every success in their coming campaign for funds to enable them to do this, but we would like to reassure all our borrowers present and future that Western Counties Regional Library service which is provided in co-operation with the Town of Digby and the Municipality of Digby will continue as a full library service available through its Digby Branch Library and its Bookmobile service in the Municipality of Digby."

Halifax, an automatic telephone answering service will be started daily at 7 a.m. The number is 424-3933.

Data will be updated during the day as Highways District Engineers report conditions.

## OMBUDSMAN

### CAPSULE REVIEW OF 1974 OFFICE OF THE OMBUDSMAN

By Dr. H. D. Smith,

The year 1974 saw the Office of the Ombudsman come of age in the province of Nova Scotia.

Compared to the number of new files opened in the previous two years, the caseload almost trebled in 1974. From the 1973 figure of 335 files, which seemed to be normal, when compared to other Canadian provinces, on a per capita basis, we expect that by the end of 1974, we shall have handled close to one thousand cases in the one big year of staggering growth.

The public may ask what caused such a heavy increase in the flow of correspondence during the third full year of operation. The answers lie, for the most part, in three factors:

1. More and more people are learning of the existence and

the functions of the Ombudsman. A complainant tells his or her neighbour what the office has, or has not, been able to do to rectify a grievance, and the word spreads and knowledge grows.

2. The Ombudsman advertised in all of the newspapers in the province, running the same notice three weeks apart: "Do you have a complaint against the administration of the laws of Nova Scotia (provincial or municipal)?" One can imagine the response to such a free invitation.

3. The appearance on CBC television of the Fall and Winter programme, every second Sunday evening, call CBC Ombudsman. This programme gave rise to more people seeking help from their provincial Ombudsman.

During the year, the effectiveness of operation of the

Ombudsman's Office was again handicapped by a shortage of staff. Despite the 300 per cent increase in the case load, the office had authority to engage only one additional employee, an investigator, bringing the total permanent staff, including clerical, to five. This is smaller than any other province in Canada with the exception of New Brunswick which is now engaged in a reorganization of its Ombudsman's Office.

This staff shortage has resulted in some complainants being required to wait longer periods than they consider reasonable for the investigation of their grievances.

The handling by the Office of the Ombudsman of between 900 and 1000 files in the year 1974 is testimony that it is providing a useful service to the people of Nova Scotia.

One of those bringing greetings and best wishes to the Christmas Daddies show in Digby on Sunday was Warden Wilfred Swift, Westport. Mr. Swift brought greetings from the Municipality of the District of Digby. Seen enjoying the show from a front row seat are the warden and Mrs. Swift. More than 7000 guests came and went during the 12 noon to 9 p.m. program keeping a full house at practically the entire time.

## SEX DISCRIMINATION COMPLAINTS UP

Complaints lodged under the colour or race and sex discrimination provisions of the N.S. Human Rights Act formed the majority of those received by the Human Rights Commission during 1973.

According to the Summary of Activities, the Commission's report of its activities during the year, Blacks lodged 49 formal complaints with the Commission. During 1972, there were 78 such complaints.

Forty-two formal complaints were lodged under the sex discrimination provisions, a four-fold increase over the previous year. Formal complaints are those which the Commission investigates. Total complaints, including informal ones, numbered 1,022.

The majority of complaints were in the area of employment.

In his introduction to the report, Commission director, George F. McCurdy, called 1973 a rewarding and active year for the Commission and said the most significant happening during the year was Premier Regan's proclamation of the period 1973-83 as a Decade for Action to Combat Racism and Racial Discrimination in Nova Scotia. The proclamation was the culmination of a year which saw unprecedented activity, including four major human rights conferences in the

province, the formation of a number of community human rights affirmative action committees, and the opening of new storefront facilities at the Commission offices.

Looking to the future, Mr. McCurdy anticipates innovative and imaginative affirmative action programs in employment, housing and education developed by the community committees in co-operation with the Commission. This, Mr. McCurdy says, will greatly improve inter-group harmony and co-operation in keeping with the spirit of the Proclamation.

## V.O.N. GETS INCREASED GRANT

Health Minister Bill MacEachern presented a cheque for \$19,400 to the Nova Scotia branch of the Victorian Order of Nurses today.

This brings the 1974 grant from the provincial government to \$79,400 which is more than double last year's total.

"The provincial funds will support the valuable Home Nursing Service of V.O.N.," said the Health Minister.

"Their services cover 86 per cent of the population with services primarily used by citizens over 65 years, although care is available to all ages."

Regional director of V.O.N., Mrs. Marlene Grant said that the grant will boost the work of the 12 branches of V.O.N. in this province, which provides home nursing to the ill including those who are discharged from hospital.

Revenue for V.O.N. services are provided by service fees, grants from provincial and municipal governments, voluntary funds, and sources such as bonds and loans. In 1973, 72 per cent of the services were visits to persons over the age of 65 years and 56 per cent of the V.O.N. service was given patients discharged from hospitals.

The service, now 76 years old in Nova Scotia, releases much needed hospital beds.

## DRUG DEPENDENCY

The N.S. Commission on drug dependency's pilot addiction treatment program in Cape Breton should be given continued support and development and should be used as a model for other areas of the Province.

This is the conclusion of two independent evaluations conducted this past summer at the request of the Nova Scotia Treasury Board and the Commission and released by Health Minister Bill MacEachern. "In several respects," one report says, "The Cape Breton Model could point the way to more effective management of addiction in other parts of Canada and elsewhere."

The evaluations were conducted by Dr. Gordon Bell and associates of the Donwood Institute for the treatment of Alcoholism, Toronto, and Dr. John Clayton and Dr. Norman Bell of the Canadian Mental Health Association. Both organizations have had extensive experience in dealing with drug and alcohol addictions.

Both reports recommend the Cape Breton Model be expanded across the Province as rapidly as finances and staff availability permit.

Singled out as important contributing factors to the success of the program were the dedication and enthusiasm of the staff. The Donwood Report especially praised the competence of both professional and non-professional workers, saying they are uniquely qualified to become the nucleus of other community programs in Nova Scotia. It recommended the staff be increasingly concerned with training, consultation and general education in the Community.

Noting that the "most expensive way to cope with alcohol and drug problems is to do nothing," the Reports urge continued emphasis on long-term care and community education, routine evaluation of results and techniques, and maintenance of the Commission's balanced team effort of professionals, non-professionals and recovered patients.

Mr. MacEachern said the Cape Breton Project is unique

in Canada in the comprehensiveness of its services; it offers a five-phase program involving detoxification, short-term in-patient therapy and outpatient services. In addition, there is a half-way house for short-term stays and a long-term sheltered workshop for those unable to satisfactorily adjust to their new lives.

The program has been in operation just over a year, Mr. MacEachern said, and has achieved a high level of rehabilitation for those seeking its services, with a low drop-out rate. It attempts to involve every element of community life and is administered by community volunteers.

The major priorities stemming from the evaluation include the increased integration of existing community services, increased involvement of the medical profession, expansion of the Industrial Program, increased education programs and the implementation of a documentation, evaluation and research program.

Mr. MacEachern said the two reports were a tribute to the competence and dedication of the Commission staff, both at the Cape Breton facilities and at commission headquarters. He also praised the volunteer assistance of the local committees and regional board and said that without their help, the Project would not have been possible.

"Nova Scotia," he said, "has broken new ground in the treatment and rehabilitation of drug and alcohol problems."

"These reports, by people whose credentials in the field are beyond question, confirm what the Commission has always believed, that by using all the Community resources at our disposal, alcohol and drug addictions can be overcome."

"Credit must go to the Commission staff for its perseverance in the belief that these problems are not hopeless. The fact that other jurisdictions are now looking seriously at our program is due entirely to their success."

Among those who have shown interest in the Program are Ontario, Manitoba, Newfoundland and the Northwest Territories, as well as the

## GIRL GUIDES

### COME TO N.S.

Hon. M.E. Delory, M.D., Minister of Lands and Forests, announced today that the International Girl Guide Camp will be held in Nova Scotia in 1977.

It is anticipated that the Camp, which is scheduled to be held from July 28 to August 9, will attract approximately 2,000 guides from some 90 countries around the world.

Following an inspection of the area, and through the cooperation of the Department Lands and Forests, a camp ground will be provided for the visitors on the 470 acres of park reserve land known as the Land Farm, located some 15 miles from Sydney on the Mira River.

This attractive property has a river frontage of over one mile and, in addition, has a large section of cleared farm land. It is anticipated that the Land Property will be developed as a day-use provincial park in the future.

Basic testing and use of an existing well and provision of a water system will be required in any such development.

However, as pointed out by the Minister, part of the cost which will be involved in providing facilities for the Girl Guides would be for the development of a provincial park. There is already a good road access into the area.

Next January, members of the International Camp Steering Committee will be meeting with Dr. Delory and officials of the Department of Lands and Forests for a joint discussion of plans involving the proposed camp program.

Dr. Delory said he was particularly pleased that the International Camp would be held in Nova Scotia in that it would constitute an opportunity for Nova Scotia to become better known in countries around the world.

### United States.

Because of the success in Cape Breton, the treatment program will be introduced in the North Shore area next year, Mr. MacEachern announced. Similar programs will eventually operate throughout Nova Scotia.

## Forest Fire

### Report For

### 1974 Season

OTTAWA — In its final report for the 1974 forest fire season, the Canadian Forestry Service records a total of 7,673 forest fires in Canada during the months of April to October inclusive, affecting a total of 2,070,000 acres.

For the 1973 fire season, the corresponding figures were 7,475 fires and 2,971,000 acres.

During the month of October, 440 fires burned over 116,000 acres of forest land, a dramatic increase over the same month last year, when 189 fires affected only 38,000 acres. Average figures for the month of October for the 10 year period 1964-1973 are 171 fires over 4,000 acres, while the seasonal averages for the same 10-year period are 7,598 fires and 2,311,000 acres.

The statistics are compiled monthly by the Forest Fire Research Institute of the Canadian Forestry Service.

## MORE FUN AND FLAVOUR WITH SPICES

By Marjorie Elwood

There are no mysteries concerning spice cooking. Spices do not change the actual formula of a recipe, only the flavour. So a word of caution - use spices and herbs with imagination but judiciously, for it is impossible to correct over-seasoning.

This is an excerpt taken from the new booklet "More Fun and Flavour with Spices" edited by Marjorie Elwood for the Canadian Spice Association. Inside its colourful spice covers are unusual, exciting recipes featuring spices, herbs and seeds. Also for the beginner and student is the introductory chapter giving the description and origin of all the spices on our shelves. There are also many helpful hints on how to give a dish that "added touch" with an herb, spice or seed, on what dishes may be frozen, on dishes for special occasions and of course on snacks. All in all this booklet has ten chapters of intriguing recipes and useful spice information.

"More Fun and Flavour with Spices" edited by Marjorie Elwood for the Canadian Spice Association, may be obtained free of charge in single or quantity copies by writing to: The Canadian Spice Association, Box 556, Don Mills, Ontario M3C 2T6.

ISLES - WESTCOTT

The United Baptist Church, Bear River, was the scene of the wedding of Debra Anne, only daughter of Mr. and Mrs. Claude Westcott, Gulliver's Cove, to Larry David Isles, son of Mr. and Mrs. Robert Isles, Bear River. Rev. Robert Reid officiated at the double ring ceremony. Urns of yellow and bronze shasta daisies provided a beautiful fall setting for the candlelight ceremony.

The organist was Mrs. Harry Potter. Prior to the approach of the Bridal party, Mrs. Potter sang "O Perfect Love."

The bride, given in marriage by her parents, entered the church on the arm of her father to the strains of Lohengrins Bridal Chorus. She was radiant in a floor length gown of white polyester satin featuring a lowered round neckline, fitted bodice, full length bell sleeves gathered into a buttoned cuff, a high-rise waistline falling into a princess skirt and a shaped back hemline forming a self train. Lace applique formed a circular pattern on the neckline, sleeves and bodice matching the skirt border and train. Her waist length veil was held in place by a tiara of lace and seed pearls. Her bouquet was a cascade of red roses and white shasta daisies.

The maid of honor was Carol Mullen, friend of the bride, Digby. She wore a high-line bodice style gown of blue suede polyester satin with tiny embossed pink roses, short puff sleeves, and low neckline. Her headpiece was a picture hat. She carried a cascade of pink roses. Bridesmaids were Darlene Sullis, friend of the bride, C.F.B. Cornwallis, and Carol Isles, sister of the groom. They wore identical floor length gowns of blue polyester styled the same as the maid of honor's featuring white lace bodice, wore picture hats and carried cascades of white carnations tipped with blue.

The flower girl, four year old

Verna Fralick, Gulliver's Cove was winsome in a floor length gown of blue suede polyester patterned with pink roses identical to that of the maid of honor. Her headpiece was of pink and white velvet rosette bows and she carried a tiny basket of assorted flowers.

The groom was attended by Harold Theriault, friend of the groom, Barton, and ushers were Eric Cox, friend of the groom, Bear River, and Larry Westcott, brother of the bride.

For her daughter's wedding, the bride's mother chose a floor length gown of pink polyester moss crepe and white accessories. Her corsage was pink roses. The mother of the groom chose a floor length gown of rose crepe and her corsage was pink roses.

Following the exchange of vows, the bride and groom, each with a lighted taper, lit the Matrimonial Candle, then extinguished the tapers thus symbolizing the two lives becoming as one. During the signing of the register, Mrs. Harry Potter rendered beautifully Walk Hand in Hand With Me.

Following the ceremony a buffet style reception was held at the Royal Canadian Legion, Digby. The toast to the bride was proposed by Chub Connell, Conway, and responded to by the groom. Miss Ruth Specht, great-aunt of the bride, Barton, and Mrs. Maurice Dunn, Bear River, attended the silver service for the bride's table. Friends of the bride, Miss Lorraine Winchester, Digby and Miss Christine Harnish, Rossway, served the bride's table.

Miss Kathy Adams Smith's Cove, circulated the guest book.

For travelling the bride chose a green polyester pant suit and black accessories. Her corsage was yellow roses. The happy couple will reside in Yarmouth where the groom is attending courses in electronics.

## FOR MANY TIME OF HEARTBREAK

By Louis Cassels

United Press International

Christmas is, the carol says, "The season to be jolly." But for many people, it is just the opposite. It is a time of heartbreak, rather than happiness.

There is something about Christmas, and the forced-draft "merriment" that attends it, which seems to heighten the hurt of every poignant human situation.

Take, for example, those who have lost loved ones during the past year. An empty place at the Christmas table can create a keener sense of bereavement than the funeral itself.

Or consider those for whom loneliness long ago became a chronic condition. They may have learned to accept it, and live with it during the rest of the year, but the spectacle of families gathering for Christmas is a poultice of salt on a never-healed wound.

For every alcoholic who has achieved an arrest of his disease and is fighting gallantly, one day at a time, to maintain the blessing of sobriety, Christmas is sheer hell, the worst time of the whole year. This is the season when he is most severely tempted—by his own desires and by his supposed "friends"—to fall off the wagon.

For the poor — and perhaps even more for middle-income families trying to keep tight budgets in precarious balance — Christmas is at best a strain. At

worst it presents a grim choice, between breaking the children's hearts or go over the brink into financial disaster.

But you don't have to look for extreme situations to find people for whom Christmas is more melancholy than merry.

Parents who have a son in service overseas miss him more acutely at Christmas than any other time. People afflicted with any physical ailment from a bad cold to a terminal disease consider it an extra hardship to be "sick at Christmas."

Newspapermen, nurses, policemen, firemen, telephone operators and others who have to work on Christmas are apt to feel more put upon than those whose names appear on the duty roster for Thanksgiving or New Year's.

Beyond all special cases, it might be argued that Christmas brings to all of us, in some degree, a feeling of wistful disappointment. We expect so much of this season that, even at its very best, it can never quite live up to all we had imagined and hoped.

So, if this Christmas is not entirely jolly for you, take what comfort you can from the knowledge you are sharing a very widespread human condition.

# THE GREAT SEASON IS JUST AHEAD

Everybody gets involved in it some way or another. For some it is real hard work. For others it is lots of fun. For most it is a time of worry and concern, but for children it is a happy time, and most folks like to help make the festive season a merry one for kids.

This letter directs your attention to what CNIB does with, and for, children. The work brings meaning and values to these little people and their

families.

Our Glen is 12, Denina is 5, Gary and Terry are 7. They are handicapped with extremely bad vision. John 4, and Robert 11, are totally blind. Robert has had a severe time and has had to have one of his eyes removed. Little Mary is 3 - she is not only blind but deaf too.

Each of these and other visually handicapped youngsters have been helped in the ways most needed to give them a positive attitude to participate in life, as normally as possible. They are being trained through CNIB programs and the programs of other agencies, to overcome fears and take their place in school and learn the skills to become independent, self-supporting persons.

Could any work for children be finer?

Miss Eileen Scott, a teacher of the Children's Department with Vancouver CNIB, recently broadcast to mothers about handling their blind child. One mother in response wrote to one of our Maritime Children's Counsellors, Mrs. Jean Boyd, saying she had read Miss Scott's material entitled "What A Blind Child Needs More Than Tender Loving Care". At that time she was greatly confused and very unsure of how to deal with a blind baby. "Miss Scott has helped me so much", she said. Furthermore, she wrote saying "Mrs. Boyd's thoughts, dreams, plans and everything else, have made me so grateful. I now know and feel that I am, and can be, a qualified mother to raise my blind child".

Maybe you can help at this Season of Goodwill, by remembering the blind of your community in your will. The work of the CNIB serves little people throughout the years till they grow to maturity, and take a productive part in society. May peace, goodwill, and love

bring you wisdom and strength. THE BEQUEST COMMITTEE E.C. Parsons, Chairman A.M. Jamieson F.W. Chenhall G.M. Slaunwhite Mitchell Morrison J.M.C. Duckworth, Consultant

## MILK FOR STUDENTS STILL FIVE CENTS

"The increase in the cost of milk due to the withdrawal of the Federal Subsidy will not affect the price of milk to elementary students under our school milk program," said Hon. Jack Hawkins, Nova Scotia's Minister of Agriculture and Marketing.

The Minister went on to say, "while the cost of milk has increased we will continue to provide milk to elementary school children at a cost of five cents per serving."

Nova Scotia is the only province in Canada with a school milk program for elementary students. This new program costing close to one million dollars was introduced by the Department of Agriculture in September, 1974, and has been successful, with 468 schools enrolled at the present time, making milk available to approximately 101,258 elementary students. Many counties have 100 per cent enrollment in the Program.

The Halifax County area, including the Cities of Dartmouth and Halifax, have 114 schools enrolled, and they serve 28,634 students. This is followed by Cape Breton County with 60 schools enrolled and 12,474 students and Colchester-

Hants has 36 schools enrolled and 7,728 elementary school students are being served in this area. Kings County, with 14 schools and Northside-Victoria County with 26 schools have approximately the same number of students enrolled - just over 5,000.

This is a voluntary program and schools are free to participate and use whatever method they wish in dispensing the milk.

"By maintaining a five cent per serving cost, we can provide a degree of stability in pricing and consumption for elementary school students in the Province," said the Minister. The School Milk Program has increased milk consumption in the Schools by 300 per cent.

An examination of the volume being handled by this program indicates that for the month of October, the Elementary Schools used 90,000 quarts of milk and 810,000 eight ounce containers, this being equivalent to 252,000 quarts.

If the present rate of consumption continues throughout the school year, it would seem likely that the School Milk Program will account for the consumption of over six and one half million pounds of fluid milk.

## HONORED ON ANNIVERSARY

St. Joseph Parish Hall was the scene of a surprise Anniversary party for Irvine and Ella Boudreau, on Saturday, November 16th, on the occasion of their 32nd anniversary. Guests came from Greenwood, Digby and the

surrounding area. Music was supplied by Ken and Martha Bright and two sons, Kent and David. Mr. and Mrs. Boudreau cut the two-tier cake, and opened their gifts around midnight. A delicious lunch was served.

## Stocking Stuffers

Looking for small gifts for stocking stuffers? Here are some ideas to start your thinking.

For the baby — a rattle, a cloth book, perhaps a pull toy if he's toddling, a pretty shirt that he can wear for "company."

For little sister — barrettes and ribbons for her hair, white gloves for special occasions, frilly socks.

For little brother — coloring books and non-toxic crayons or felt tip pens, new accessories for his

train set, a license plate for his bicycle with his name spelled out.

For big sister — lipstick, nail polish, eye makeup, cosmetics of all kinds, note paper for her secret letters, a token holder for her bus fare.

For big brother — a magnetized change holder for the dashboard of his car, some "way-out" after-shave, or a T-shirt sporting a funny slogan.

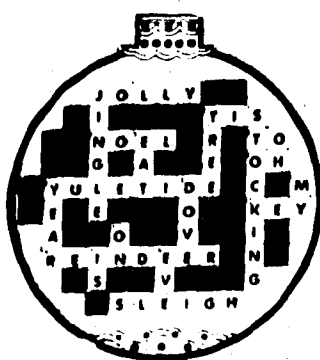

For mother — a pad of memo paper for market lists, ball point pens to keep in strategic places, a pretty handkerchief, gloves.

For father — a key ring with his initial, a pair of driving gloves, a throw-away cigarette lighter, lighter fluid and flints for

## THE DIGBY COURIER

his chair-side lighter, a tie or a scarf.

For the hobbyist — photography buffs can always use rolls or packs of film, flash bulbs, photo album mounts.

## Christmas legends

round

the

world

Our idea of Santa Claus — the jolly fat man in the red, ermine-trimmed suit — comes from the same source as the GOP elephant and the Democrats' donkey: the pen of the famous 19th century American cartoonist, Thomas Nast.

Polish children receive their gifts not from Santa, but from Mother Star, who wears a long white-dress and veil, and her companion, Father Star.

In Italy, children's gifts are supposed to come from La Befana, an old woman of legend. The children hang their clothes in a conspicuous place on Epiphany Eve, and the next morning find their pockets filled with goodies.

In 1644 under Oliver Cromwell's regime, the observance of Christmas was forbidden by an act of Parliament.

The Pennsylvania Dutch name for Santa Claus is — Pelsnickel.

## Neighbors keep Yuletide spirit alive with trees

One of the most beautiful sights at holiday time is the Christmas tree. It's always been a family tradition to select a tree, spend time together trimming it, and gathering 'round it Christmas morning.

This annual custom requires the cutting of thousands of trees each year, but there are ways to compensate for this. Some communities have come up with a solution, but it requires cooperation and contributions from the townspeople.

The idea is to have an area of land set aside for transplanting Christmas trees. At holiday time, people can buy potted, live trees. After the season ends, either collectively, or individually, the live trees are sent back to be transplanted again for next year.

The trees might be sent to the growers who raise the trees specifically for the Christmas season.

Send season mail  
without any delay

Watch the calendar! You can make sure your Christmas cards and packages are delivered on time if you just follow a simple rule — mail early.

Although "it's the thought that counts," a Christmas card or Christmas gift received in the mail late can be disappointing. Not to mention the aggravation it produces among Postal Service employees who are

deluged with billions of cards and packages during the season.

So, to get holiday material delivered on time, and help the postman perform his duty, use zip codes and keep some deadlines in mind:

—By the end of November you should have mailed: surface parcels to Alaska and Hawaii; packages via parcel airtail to the Arctic and Canada;

and airmail parcels and cards to South and Central America, and the Near East or Far East.

—During the second week of December, try to take care of these holiday mailings: international greeting cards and parcels to Africa, Near East and Far East; surface mail for the whole United States (including Alaska and

Hawaii); airmail parcels and cards to Canada, Europe and Mexico.

—And finally, by the end of the third week in December, with only three to five days to spare before the 25th, send all airmail parcels and cards to Alaska and Hawaii as well as all destinations in the continental United States.

Christmas Seals originated in Copenhagen, Denmark, in 1904. It was the idea of a postal clerk named Holboell, who dreamed them up as a benefit for a children's hospital.

"Christmas" got its origin from "X," an abbreviation of Christ deriving from the Greek letter X (ch) beginning His Name.

## Editorial

### NOT A WORLD OF PEACE AND GOODWILL

Ours is not a world of peace and goodwill among men.

In Africa, rival races of blacks and whites struggle -- in the open and in secret, with and without violence -- for dominance.

In the Middle East, great powers escalate each other's armament bids.

Fighting has become so commonplace in some places that newspapers hardly report it any more: Viet Nam, Northern Ireland, Cyprus ... And the repression of an entire continent is ignored - in South America an unofficial alliance of military regimes tightens the screws on a hundred million poor.

And in Bangladesh and India the Sahel and who knows how many more centres of suffering, millions more die the slow agony of starvation.

There seems to be something incongruous about celebrating Christmas in such a world. For Christmas speaks of kindness and love, peace and goodwill.

Yet we should remember that the first Christmas was not a peaceful one. The baby Jesus was born into a world of tyranny, of hate, of vicious dictators and treacherous politicians. In an effort to destroy that child, a pitiless Herod slaughtered all the children of Bethlehem. Nor was the life of Jesus particularly peaceful. He was always under suspicion, always under attack. His life was a conflict with forces of evil, forces which eventually brought him to the Cross.

So in celebrating Christmas, we should see in the one called Christ a challenge, not only to the Herods and Pilates of 2,000 years ago, but to those of every day, of every nation.

That was the hope, of Christmas then. It is still the hope, of Christmas today. But we need to work harder to realize that hope. - Unchurch Editorials.

### SYMBOLIC GIFTS

The true spirit of Christmas is in the hearts of those who love the Christ Child and worship the risen Lord. Christmas gifts to each other are symbolic gifts to the baby Jesus. And if all you have to give is love, then that is the greatest gift of all. This is what Margaret Lokey of the Capital Democrat in Tishomingo, Oklahoma, said in her column. In other words, it is not so much the gift but the giver that matters. The gift need not be expensive to express love. In the same light an expensive gift doesn't detract from its symbolic purpose.

We liked the rest of her column, too, and her Christmas philosophy. Having attended the Advent season services, Mrs. Lokey got into the real spirit of Christmas and found that all the preparations of cooking, cleaning, decorating, and note writing could be done with joy in the heart. She says "My plans are to smile, not only with my mouth, but my eyes and my heart, smile at everyone I meet on the streets. And wish each and all a Merry Christmas. Friend and stranger alike.

It could catch on. They say smiles are infectious like measles. Why don't you try it, too, and Tishomingo will be the merriest and most beautiful place in the world thruout this blessed holiday season!"

Using Mrs. Lokey's philosophy we can substitute the name of Digby to be the merriest and most beautiful place in the world throughout the blessed holiday season.

### SANTA PLUS 100 RECRUITS VISIT HOME

Continued from page 1

sisters, and these children take the place of them and fill a need". Another said the afternoon at the Home was the best fun and most exciting time since they arrived at Cornwallis. The glow on their faces was evidence that the recruits enjoyed the afternoon as well as the children did. They were thrilled, they said, to see the response by the children.

After the gifts were distributed in the assembly Santa wended his way to other rooms and departments on the second floor where there were children who were unable to attend the downstairs gathering. "Nicki" through the afternoon remained Santa's constant companion.

In charge of the company of recruits was Captain F.R. Nichols. With him were Master Warrant Officer Ken Snowden,

Corporal Burrows and MCpl E.W. Page who presented Mrs. Smythe with a wall plaque containing Canadian Forces crest and citation in appreciation of the splendid work being done at the home.

At the reception Mrs. Smythe thanked the Captain and recruits for their kindness and said what the recruits had started by saving pennies to \$16.00 had grown to \$600 in cash, all the gifts and all the expense for the afternoon's refreshments. She elaborated on the motto of the Home, Love, Trust, Hope, Understanding and emphasized the Love is the only medium capable of reaching the children and bringing out the best in them.

Special guest for the afternoon was Joseph Casey, M.L.A. Mr. Casey on behalf of the government thanked the CFB Cornwallis "C" company recruits for the part they played to bring Christmas joy to the children and also commended the excellent staff at the Home.

## LETTER TO THE EDITOR

Dear Editor and Readers:

Since my last letter from "behind the scenes" in Digby, some good things have happened in your town council. Perhaps the most rewarding of these, to the greatest number of taxpayers, has been the removal of the controversial occupancy tax. As I mentioned previously, my motion at the November 4 meeting of council to remove this tax was defeated. Between the meetings of November 4 and December 2 I received 72 phone calls, several letters and other verbal communications supporting the removal of the tax. I did not receive one call supporting its retention. On the basis of this, the issue was pursued further on December 2, and although Mayor Kinney again requested further delay, the motion passed with only one dissenting vote, that of Councillor Gordon Ellis.

Another long-standing request was fulfilled, in the decision at a special meeting of council on December 4, to install eleven street lights in the Mount Pleasant area. When residents appealed to the county council a few years ago for this service they were advised that the distribution system for the area of the request belonged to the town of Digby. Since that time residents have presented petitions and appeals to the town for this needed service, indicating their willingness to bear the cost, which unfortunately has now increased to a figure far beyond the original estimate.

Hopefully, this is the beginning of long overdue improvements in street lighting services, one of the top areas of dissatisfaction expressed by town residents to me since October.

On the darker side of the horizon, it appears that the residents of Victoria Street will continue, for some time at least, to be the victims of a colossal error of judgment made in August 1969, when the Department of Highways bowed to the wishes of a small delegation of Digby business men, headed by (then) Mayor Smith. As a result of this deputation, the approach road through a wooded area, which had been appropriately designed by the department to connect 101 to the Princess of Acadia ferry wharf, was abandoned, and the narrow, thickly settled Victoria Street emerged as the connector route, which incidentally joined the main highway at the site of a (then) proposed shopping centre. Since that time the tragedies of death and destruction which have occurred on this ill-chosen route have made it a monument of shame to its promoters. Added to this, the night-long roar of heavy transport traffic en route to the ferry, and the safety of children and pedestrians by day, have changed the one-time peaceful life-style of Victoria Street residents to one of nightmarish existence.

Only recently have I learned that the Department of Highways wanted to improve Victoria Street in the summer of 1974, and offered to eliminate the treacherous roadside ditches by installing storm sewers, covering and paving the road shoulders. This however, would be done only if the town agreed to construct adjacent sidewalks. When the department requested a decision on this from the town they were informed that sidewalks would not be constructed this present year, due to "budget

## THE DIGBY COURIER

problems." The cost of the sidewalks was estimated at \$50,000, a modest sum compared with the allocation of public funds for servicing development companies in this period - a service frowned upon by the Graham Royal Commission, which states on page 23 of the synopsis of the report, under

**DEVELOPER CHARGES:** "Each county would be empowered to levy a developer charge on those undertaking any major development. This would cover all or part of the additional costs of water supply and distribution facilities, sewage collection and treatment facilities, and streets and

roads that are required as a result of development. Planning permission for such a development should be conditional on an undertaking by the developer to pay the charge. The charge would become a lien on the development."

In closing, I would like thank the citizens from whom I have received such kind letters and notes since October last. Your questions are receiving my attention and I shall continue to attempt to secure answers to them all.

Until next time, "MERRY CHRISTMAS" and God bless you all.

Eileen Chipman

Our hearts still ache with sadness  
Our secret tears still flow  
What it meant to lose you dear  
No one will ever know  
The kindness of your nature  
The sunshine of your smile  
Are the things we still remember  
And will treasure all the while  
Tho' we must travel to the end of life's journey  
It will be a wonderful day  
When we get to God's beautiful garden  
To say "Hello Faye".  
Remembered with Love,  
MOM AND DAD. 19:1ip

**THERIAULT** - In loving memory of a close and dear friend, Faye Marlene Theriault, who died on December 23, 1971.  
Farewell to you and the youth I spent with you.  
It was but yesterday we met in a dream,  
You sang to me of my aloneness and I of your longings, built a tower in the sky.  
But now, our dream is over, and it is no longer dawn,  
The noontide was upon us, and we had to part,  
But when we meet once more, we shall speak again together,  
And when we meet in another dream,  
We shall build another tower.  
Sadly missed, always remembered by Patsy. 19:1p

**NEWELL** - In loving memory of our dear son, Ralph Eugene, who lost his life December 19, 1965.

Though many years have come and gone  
Since you were called away.  
The memories of our precious son

We have learned to live with sorrow,  
And keep it hid from view.  
But never a day or night does pass.  
That we do not think of you.  
Always remembered, loved and sadly missed by MOM, DAD AND BROTHERS ERNEST AND PHILIP. 19:1ip

**THERIAULT** - In loving memory of Faye Theriault who passed away Dec. 23, 1971.

**AMERO** - In loving memory of my mother, Mrs. Esther Amero, Plympton, who passed away December 18, 1964.

We seem to see in the soft dim light  
A face we love the best;  
Recalling her as the sun's last rays  
Go down in the far off west.  
We miss her more as time goes on,  
We can never close our hearts;  
And the lamp of our love still burns,  
Her heart the truest in all the world,  
Her love the best to recall;  
None on earth could take her place,  
She is still the dearest of all.

Than the thoughts we have of you,  
To us you were very special,  
God must have thought so too,  
You suffered much in silence.  
Your spirit did not bend,  
You faced your pain with courage,  
Until the very end,  
You fought so hard to stay with us,  
But your fight was all in vain,  
God took you to his heavenly home,  
And freed you of your pain.

**WAGNER** - In loving memory of my dear husband and father Willie Wagner who passed away December 6, 1958.

Always a smile instead of a frown  
Always a hand when one was down  
Always true, faithful and kind  
Wonderful memories he left behind.  
A golden heart stopped beating  
Two busy hands at rest.  
God broke our hearts to prove to us  
He takes only the best.  
A million times we needed you,  
A million times we cried.  
If love could have saved you  
You never would have died.  
If we could have one lifetime wish  
One dream that could come true.  
We'd pray to God with all our hearts  
For yesterday and you.  
Always remembered and sadly missed by wife LOIS AND SONS AND GRAND-CHILDREN. 19:1icx

Special music of the Program included a solo by Mrs. Roy MacDormand. A duet by Mrs. Albert Bailey and Mrs. MacDormand, a choir selection with Mrs. Bailey and Miss Jeannette Denton singing parts in duet. An instrumental duet with Mr. Bailey at the piano and Mrs. Welch at the organ was much appreciated.

**WESTPORT** - With the members of the Church of Christ disciples as guests - the Annual Thankoffering service of the Women's Missionary Society of the United Baptist Church, Westport, was held on Sunday evening December 1st in the Church sanctuary. The Service was a special occasion as it was in observance of the 100th year since organization by a small band of women 1874.

Mrs. Lawrence Shaw gave informative account of the organization of the Society in 1874 and of the work accomplished during the past year in the Society. Mrs. Charles Hicks was the first president in 1874 - and it is interesting to note that two of her great-grand daughters have served in this office, namely, Mrs. Mary Hicks MacDormand and the incumbent president, Mrs. Shaw.

The Call to Worship and poem entitled "High Adventure" was read by Mrs. Wickerson Lent.

Mrs. Shaw president of the Society led the Service. Mrs. Richard Welch, organist presented the musical part of the program. Scripture was read by Mrs. George Clements and prayer was offered by Mrs. George Sharpe. Mrs. Shaw then gave a welcome to those present.

Mrs. Sharpe gave the devotional, her theme being "Educating Ourselves Spiritually".

Mrs. Earl Webber gave a reading telling of mission work on the Foreign Fields.

Special music of the Program included a solo by Mrs. Roy MacDormand. A duet by Mrs. Albert Bailey and Mrs. MacDormand, a choir selection with Mrs. Bailey and Miss Jeannette Denton singing parts in duet. An instrumental duet with Mr. Bailey at the piano and Mrs. Welch at the organ was much appreciated.

Mrs. Kingsley Denton read a poem entitled "A Missionary Poem".

Following the Service a fellowship hour was held in the Vestry with members of the Society serving refreshments. Pastor David Keith gave thanks.

The 100th anniversary cake was cut by Mrs. Shaw and served.

### C.W.L. ACTIVE AT PLYMPTON

The regular meeting of the C.W.L. at Plympton was held at the Convent following 7:30 P.M. Mass, with Mrs. Lillian Melanson presiding. The Pastor, Father Rene LeBlanc, lead the members in the opening prayer.

After the reading of the Minutes, the Secretary read a letter of thanks sent by a Scarborough Missionary, in which he expressed his appreciation for the generous donation made by the Plympton C.W.L. members.

At their first meeting in September of this year, the members had decided to adopt a Missionary and thus extend their apostolate to the Foreign Missions. Divers activities could occasionally be organized for the purposes of raising funds. At a regular parish Bingo last month, the members had held a Pantry Sale.

Seventy-five dollars was raised and forwarded to Father Robert Hymus in the Dominican Republic to help the underprivileged of his field. Further initiatives of this kind are anticipated for the coming year.

A letter containing five dollars for the poor by an anonymous giver was also read by the Secretary.

Following the Treasurer's Report, it was resolved to send a cheque for \$25.00, to Bishop Austin Burke in favor of the Diocesan Relief Fund. By the same token, the donation will help to bring cheer to the needy of the Diocese of Yarmouth.

The sum of \$5.25 was added to Sister Aube's funds to help buy material for her Sunday School Class.

This year again, the C.W.L. members will be offering treats to the Shut-ins of the Parish. Approximately twenty people will receive fruit, candy and nuts along with a Christmas card bearing wishes from the C.W.L. These treats will be prepared in Holy Cross Church Hall and delivered to the

## THE DIGBY COURIER REMEMBERS CHILDREN'S HOME

For several years the First Nova Scotia Citizens Band Radio Club has made the practice of going to the Children's Home, Digby, to entertain and be entertained by Christmas songs by the children. Christmas season 1974 has been no exception. Members of the Club arrived on Sunday afternoon bearing gifts for many of the children. Gifts were presented by V.G. Cardoza Basil Taylor, and Irvine MacWhinney, Port Wade and were received by Nicki and Debbie. Candy, oranges and chips were also distributed. President of the Club is Jack Whalley.

Accompanying the Club was Miss Joanne Frankland, Bay View, who presided at the piano. Because of the special interest of Debbie in music, Miss Frankland has decided to visit the Home once a week.

Among those who visited with the Club on Sunday were Mrs. Cardoza, Mrs. McWhinnie, Mrs. Taylor and Valerie, Mrs. Alice McGrath, Ann Melanson and Mary Ross of Deep Brook.

respective homes on the Saturday preceding Christmas.

It was determined that every Saturday during Holy Year 1975 the members would pray in a special way for World Peace and starving Nations.

The monthly prize was won by Mrs. Catherine Doucette.

Since the meeting coincided with the Birthday of a faithful member, Mrs. Laura Thibodeau, a luncheon was enjoyed after adjournment. A beautifully decorated birthday cake was served along with other delicacies and an appropriate gift was presented to Mrs. Thibodeau.

Seated at the pledge desk at the Christmas Daddies show at the D.R.H.S. multi-purpose room on Sunday, December 8 are left Mrs. DeMille Raymond and right Mrs. Fabien O'Neil. Standing in the back is Mrs. Wynn Meldrum.

## NEW V.O. NURSE

three month period showed the government allotment of \$6000 ear marked for operation but otherwise a spokesman said "we're hard up."

The order decided to adopt the new minimum salary scale introduced by head quarters. Mrs. Marlene Grantham, regional supervisor attended the meeting. Also the Digby Branch cost per visit will be raised to \$7.00 as of Jan. 1, 1975.

## PROVINCE SEIZES WEYMOUTH TRAWLERS

The provincial government Tuesday took over the ownership of four vessels owned by the LeBlanc Fishery Ltd. Weymouth.

Development Minister George Mitchell said in an interview the ships were seized because the company was "way behind" in its payments to the government.

The government, through the fishery loans board, has made loans to the company.

Mr. Mitchell noted the company has had recent problems in making payments to local fishermen and plant workers.

The lease on the company's

building was recently cancelled but the firm was permitted to operate on "a cash and carry basis" in hopes local fishermen could be repaid.

Mr. Mitchell said the province had no specific plans at present for disposing of the vessels but would "presumably" sell them at a later date.

Fisheries Minister A. M. (Sandy) Cameron said Tuesday some fishermen in the area had not received their full payments from the LeBlanc firm.

Thus, they would have to wait to see what part if any of the company assets would be available for distribution.

## HAZEL FORD AUXILIARY PRESIDENT

The Weymouth Legion Auxiliary Branch No. 67 held their regular meeting on Dec. 12, at the Legion Hall. The election results for the 1975 executive were as follows:

President - Mrs. Hazel Ford; Vice-President - Mrs. Blanche LeBlanc; Secretary - Mrs. Eleanor Cromwell; Treasurer - Mrs. Hilda Comeau; Assist. Sec.-Treas. - Mrs. Audrey Cromwell; Ways and Means Chairman - Mrs. Rosetta LeBlanc; Sick and Visiting committee - Mrs. Hazel Ford and Mrs. Bertha Smith.

A Christmas party was held on Saturday evening, by the auxiliary, when they invited the gentlemen to a pot luck supper. The evening was spent in dancing and playing cards, followed by an exchange of gifts, and bounteous refreshments.

On Saturday Dec. 21st, a Children's Christmas party will be held at the Legion Hall, from 2-4, when all children present, will be given bags of candy by Santa.

## UNFORTUNATE FIRE INCIDENT

Mr. and Mrs. Ronald Winchester, Smith's Cove, were thankful that the fire at their home did not cause more damage. The Winchesters came home from a visit in Yarmouth and found a bed damaged by fire and a smoke-filled house. Window blinds were melted and paint was blistered in the room. The damage was estimated at several thousand dollars.

It is the opinion of those concerned that the Winchester Doberman dog had bitten a box of wooden matches which set the bed on fire. Bud Thompson, Smith's Cove Fire Chief, was amazed that the fire had not ignited the woodwork.

The dog which was somewhat overcome by the smoke when the Winchesters arrived home, has recovered from the ordeal.

Mr. Winchester, son of the Rev. R.R. Winchester and Mrs. Winchester, Bear River, is a teacher at Digby Regional High School.

## CHILDREN HAVE CHRISTMAS PARTY

The Anglican-United Church Sunday School, Weymouth, held their Christmas party at Killam Hall on Saturday afternoon. Door prizes were won by Sidney McCullough and Sandra White. Pamela Williams won the

"teens" door prize. About 40 children were present. Mrs. Frank Simmonds and Miss Crysti Colwell assisted the Superintendent Mrs. Rebecca Williams with the games and refreshments.

## LITTLE GIRL LAND

by Eileen Chipman

Oh, could I return to that little girl land  
In December, when Santa is there;  
Oh could I but wait, with the rapture and awe,  
That grown-ups may ne'er again share.

To watch for his coming, and list for the sound  
Of his sleigh, as it rides on the snow;  
To shout and be merry, as over the hills  
To meet him the children go.

And then in the distance, his laughter to hear,  
As he calls to his reindeer to hurry,  
While little ones shriek with excitement and glee,  
When at last he arrives with a scurry.

And as he looks down upon faces aglow,  
And eyes made of jewels so rare,  
The magical wonder of little girl land  
Is the fact that she knows he is there.

## ASSOCIATION MEETS AT FREEPORT

The fall sessions of the Annapolis-Digby Baptist Association was held in the Freeport Baptist Church on Wednesday, October 9th. The meetings commenced with a devotional given by Rev. Frank Guinta of the Hillsburn pastorate.

The business and presentation of reports were made by the various committees, also a word from the new Pastor-At-Large, Rev. Eugene Thompson.

Following these reports, the delegates and pastors of the churches listened to a challenging and heart-warming

message preached by Dr. Massalamani of India, the guest speaker for the day. The ladies of the Freeport Baptist Church provided a turkey dinner with all the trimmings for about 100 people.

The W.M.S. held their meeting in the afternoon with all societies represented for this time of fellowship. A word of welcome was extended to the wives of new pastors who have recently moved to churches within the Association.

After the business and offering, the president called upon Dr. Massalamani to bring the message. He thrilled the hearts of the people with another of his challenging messages.

The Minister's Institute held their session with a goodly number of pastors and some laymen present. One of the items of business discussed by the men was the support and continuation of the radio program "Valley Baptist Presents" over the Digby station.

The supper hour was the scene of rich fellowship as the delegates and pastors conversed together and partook of the excellent meal provided by the ladies of the church. Lic. David Keith, of Westport, ably conveyed to the ladies the thanks of all present for their wonderful provision of meals and facilities for the sessions of the Association.

The evening service consisted of a hymn sing conducted by Rev. Frank Guinta, with Mrs. Welch of Westport at the

Hammond organ. The Freeport Baptist choir, of sixteen voices, rendered two selections during the service.

After the conclusion of all business and the receiving of an offering, the Moderator, Rev. David Watts, called on Dr. Massalamani to present his final message of the day.

### Freeport

FREEPORT—Mrs. Pearl Campbell was in Halifax several days last week undergoing treatment at the V.G. Hospital. She now is at home again and we hope that she is feeling much better.

Mr. and Mrs. Arthur Belliveau and son Clayton, Woods Harbour, were recent week end guests of Mr. and Mrs. Lloyd Prime and family. While here they joined in Lloyd's birthday celebrations.

## ISLANDS CONSOLIDATED H. & S.

### SPONSORS DEFENSIVE DRIVINGS

The Islands Home and School held their December meeting Dec. 2nd in the School Auditorium, this being the night for their Christmas Party. A large number of members and friends attended, as the members were asked to bring friends to this meeting.

Mrs. Delsay from Westport addressed the meeting telling about the Home Nursing Course she will be holding later in the year.

The members voted \$20.00 to be given to the Children's Home in Digby and this will be presented to them before Christmas. A number of items were discussed during the business meeting, among them Defensive Driving Course.

Melvin Perry, Dept. of Motor Vehicles, Highway Safety and Field Programmes Division will be at the January meeting on Jan. 6th to discuss this and have a program pertaining to Highway Safety evening. Anyone interested in taking a

Defensive Drivers Course is invited to attend this meeting. No reply has been received from a letter sent in October to the N.S. Drug Dependency Commission re a Drug Program for both the school and Public, so it was decided to contact another agency to help with the drug problem.

The teachers and pupils are planning on a Christmas entertainment so the Home and School will not have to sponsor one this year, but are offering their support in any way needed.

After the meeting adjourned a "get-together" and a table decorated with Christmas tree, punch and other goodies was set up for all to serve themselves buffet style.

Many enjoyed themselves at the "penny sale" also held as part of the fun. These sales always bring in a few extra dollars for the Home and School as well as being enjoyable. Next meeting is on Jan. 6th.

bride was proposed by Mr. Lloyd Smith, uncle of the bride, Lower Sackville, and responded to by the groom.

Mr. Carl Melanson, uncle of the bride, Digby, attended the punch bowl and Mr. Victor Cardoza, Digby, acted as master of ceremonies and read several telegrams.

Miss Cathy Adams, cousin of the bride, Smith's Cove, attended the guest book table.

Out-of-town guests included Mr. and Mrs. Wayne Walker, sister and brother-in-law of the groom, Scarborough, Ontario and many friends and relatives came from Halifax and the Annapolis Valley areas.

For travelling, the bride chose an autumn dress and jacket ensemble of burnt orange on black jersey and corsage of orange tipped carnations. The happy couple will reside in Victoria Beach where the groom is employed.

## WEDDING

CASEY ADAMS

The Grace United Church, Digby, was the scene of the wedding of Constance Lee, younger daughter of Mr. and Mrs. Vaughn Adams, Digby, to John Michael Casey, elder son of Mr. and Mrs. Joseph Casey, Victoria Beach. Reverend Ronald Stevens and Reverend Howard Hartlin, uncle of the

groom, officiated at the double ring ceremony.

The organist was Mrs. Maureen Arnold and two beautiful solos were rendered by Mrs. Patricia Wilson.

The bride, given in marriage by her parents, entered the Church on the arm of her father and carried a cascade of white roses. She was radiant in a floor length gown of white jersey featuring a high lace-trim neckline, full length sleeves, and fitted bodice falling into a full skirt and shaped back hemline forming a self train.

Daisy applique formed a circular pattern on neckline, sleeves and bodice. Her floor length veil, edged with daisies, was held in place by a jersey turban.

The matron of honour was Mrs. Coleen Harris, sister of the bride, C.F.B. Greenwood. She wore a floor length gown of dusty rose jersey with 'Gatsby' cape sleeves and V-neckline. She carried a nosegay of pink roses and white carnations. Bridesmaids were Mrs. Janet Ude and Miss Judy Sparks, friends of the bride, Halifax.

They wore identical floor length gowns of dusty green jersey styled the same as the matron of honour's and carried yellow daisies and white carnations.

The groom was attended by Duncan Casey, brother of the groom, Victoria Beach, and ushers were Reid Harris, brother-in-law of the bride, C.F.B. Greenwood, and Larry Amero, friend of the groom, Digby.

For her daughter's wedding, the bride's mother wore a floor length gown of dusty rose jersey and corsage of pink roses. The mother of the groom chose a floor length gown of green polyester print and her corsage was yellow roses.

Following the ceremony, a turkey dinner was served at the reception hall, Royal Canadian Legion, Digby. The toast to the

## BIBLE CLASS CHRISTMAS PARTY

The Interdenominational Bible Class members met at the Basinview apartments on Tuesday evening, Dec. 10th to hold a Christmas party.

There was no regular meeting held but a few brier matters of business were discussed.

The room which had been attractively decorated for the Christmas season added to the atmosphere of the Christmas party which began when the members and the large number of guests present joined in the singing of the old familiar carol "Silent Night."

Mrs. Boyd Ellis gave two Christmas readings; the first was entitled "No Room" and the second "What is Christmas?" This reading told that Christmas is light, joy, peace and benediction.

Mrs. Oakley Turnbull gave a long reading entitled "It is Blessed" and then read a short poem.

Mrs. Harry Adams read a short poem "Making Christmas Cookies". It told something about Christmas in the long long ago while the second poem was called "Life's Lantern." Mrs. Raymond Brown rendered a beautiful solo "Oh Holy Night" and was accompanied by her son, Dennis on the piano. A Christmas greeting poem was read by Mrs. Eunice Pierson. This poem had been

composed by a friend of hers and enjoyed by those present. Mrs. Boyd Haynes gave one of her many beautiful talented readings entitled "Christmas all year through."

The leader of the Bible class, Mrs. Carman Frankland gave a devotion. She talked about the Christ of Christmas and when speaking about patience used Revelations 3:20 as a reference and when talking about love and friendship she also used Scripture references. Dennis Brown closed the devotional period with prayer.

Mrs. Raymond Brown rendered the beautiful solo "Have You Any Room for Jesus", after which the group continued their sing song using many of their favorite hymns.

A medley of two songs was played on the Vibraphone by Mrs. Raymond Brown after which she recited the words of the song "I Heard the Bells on Christmas Day" and then played this on the Vibraphone.

The members of the Bible Class and their guests concluded their period of singing with the hymns, "He Lifted Me" and "Amazing Grace".

Dennis Brown presided at the piano during the evening which closed with the serving of delicious and attractive Christmas refreshments.

On a night clear and still, on a Bethlehem hill, Shepherds could be seen moving 'round. The night air was clean and chill,

## "ON THE FIRST CHRISTMAS"

As the sheep roamed the hill,  
And the silence of that Night  
was profound.

As the sheep gathered in,  
seeking out their next-of-kin,  
While each herd sought rest for  
the night,  
The shepherds stood watch;  
each protecting their flock;  
When behold! a bright Star did  
appear!  
It was brighter by far than any  
known star,  
And the shepherds stood in awe  
and in fear!

Then, in the stillness profound,  
came Angel bands  
Saying: "Fear not! Glad  
tidings we bring!  
For today in Bethlehem town,  
Christ the Saviour is born!  
To bring Peace and Goodwill to  
all men!  
If you follow the Star, to seek  
Him afar,  
You may be led to the place  
where He is!

So the shepherds arose, and  
away they go,  
As they followed the Star to  
their goal;  
The wisemen too, seeking a  
prophecy come true,

Made their journey to  
Bethlehem town,  
To a manger so bright; for God  
was the Light!  
For behold! God's Son, Christ  
Jesus was born!

There in swaddling clothes, the  
Christ child Mary holds  
As she hugs Him in Love to her  
breast;  
Joy fills every heart! God is  
with us, His love to impart;  
And the Angels proclaim the  
glad news!  
Jesus Christ has come to save  
mankind from sin!  
Peace on earth, goodwill toward  
men.

So with Christ in our heart, we  
have nothing to fear,  
Jesus' Love covers all of our  
sin;  
Christ suffered at great cost, to  
Redeem us, the lost;  
All His Divine Blood, He  
willingly shed!  
Christ died on the Cross; but  
God raised Him at last;  
Victorious over Death and the  
Grave!  
Eternal Life Jesus bought! and  
whomsoever have sought  
By belief in God's Son, have  
received!

Santa's delivering our cheery wish to  
all, plus many thanks for your kindness.

## MERRY? CHRISTMAS

Christmas can be a joyous time of year.

It can cause happy wonder to shine in the eyes of a little boy or girl. It can bring great joy into a child's life. It can awaken faith. But unfortunately for some children, Christmas this year may be a disappointment. It may be looking in store windows at toys their parents can't afford to buy — or suffering for lack of adequate clothing — or simply experiencing a feeling of utter aloneness.

This need not be; for The Salvation Army, on your behalf reaches out to such children and makes possible for them the thrill of opening gifts, the treat of enjoying a special holiday dinner, the warm feeling of wearing new clothes.

Yes, The Salvation Army knows many, many troubled people, both young and old. It tries to make Christmas happy and meaningful by providing friendship and material assistance for the less fortunate in communities — all across Canada — fathers who will spend this Christmas behind prison bars — for mothers whose children lie ill and cold in a substandard dwelling — for painridden hospitalized veterans — for needy youngsters who know little of

comfort and joy.

The Salvation Army in Canada has been spreading joy and happiness at Christmas time for well over 90 years and it plans to keep on doing it. Share YOUR blessings this Christmas.

## A THOUGHT STARTER

Rev. Ronald C. MacCormack  
R.R. 4, Fredericton, N.B.

More Than Habit

Christmas is a habit to most people.

It is an excellent time for families to get together; to bolster friendships with gifts; and for stores to make their profit.

But, there is more. It is when God communicated with man long ago at Bethlehem.

What did he say? "Glory to God." We don't glorify anyone until that person becomes important to us. How important is he to you?

"On Earth Peace." Peace among nations is no nearer than ever. But there can be peace of conscience. This happens when

the Christ of the Manger occupies our total being. He gives us peace through forgiveness. Has this happened to you?

"Good will toward men." Life can be very unpleasant where there is ill will. Ill feelings destroy ourselves and others. Good will is necessary in the Home, in business, in organizations and certainly in the Church of Jesus Christ. Looking within ourselves do we see that his good will has found its rightful place?

It is said that Christmas is for children. This is true in the sense that we must all come as little children in humility and trust.

WEYMOUTH - Mr. and Mrs. Cyril Horobin, Hantsport, visited Mr. and Mrs. Hartley Powell on Saturday. Mrs. Horobin (nee Evelyn Oakes Holloway) is the daughter of Violet Oakes and spent her childhood summers in Weymouth North visiting her aunt, Mrs. Mary Adams, at her summer home. Mrs. Horobin is working on a genealogy of the Oakes family and has been travelling around the South Shore and other parts of N.S. seeking relatives. She found

some helpful information from the old Payson Bible. The Oakes Bible with the family tree was burned in one of the fires of Weymouth.

Mrs. Alan Lawley, Digby and daughter Heather, visited Mrs. Hartley Powell one afternoon recently.

Miss Ann Powell student at Acadia University is spending her Christmas vacation at her home.

Some of the Weymouth news of last week, Dec. 19, was mistakenly put in the Bear River East Village notes.

Readers have been asking what happened to the Weymouth news. There is the answer. Who doesn't make a mistake once in awhile.

WEYMOUTH - The Christmas meeting of the Weymouth United Baptist W.M.S. was held in the Bethel Church Hall, Ashmore on Tuesday evening with the president, Mrs. Ronald Kinney in the chair. The music and the theme of the meeting centered around the coming Christmas season with the Scripture being read by Mrs.

Parker Manzer and Mrs. Dan Hankinson leading in prayer. The study period was replaced by a playette entitled "Choosing Christmas Traditions". Following the meeting a social period was enjoyed by the members and their guests.

Officers appointed for the ensuing year are: President - Mrs. Ronald Kinney; 1st Vice President - Mrs. Clare Ruggles; 2nd Vice President - Mrs. Stanley Brooks; Secretary - Mrs. Merle Mullen; Treasurer - Mrs. Willis Mullen; Spiritual Life Convenor - Mrs. Dan Hankinson; Refreshment and Social Convenor - Mrs. Richard Godett; Tidings and Musical Convenor - Mrs. George Wagner; Devotional Convenor - Mrs. Victor Doty.

To you and yours, we send best wishes for a holiday season filled with the warmth and wonder of Christmas.

## "COVERLET, QUILTS AND COUNTERPANES"

At the Yarmouth County Historical Society Museum December 19 - February 2, 1975.

This is an exhibition of bed-coverings from all over Nova Scotia, assembled by the Nova Scotia Museum in Halifax. While it will have special appeal for people who have an interest in old handicrafts (weaving, quilting, knitting, crocheting, crewel work and applique), this display will be just as much delight to the eyes of the uninitiated.

The bedcovering exhibit will be on display at the Yarmouth County Historical Society Museum during the Christmas Season and until February 2. Hours at the museum are from 2 - 5 P.M. daily, except Sunday. (The museum will be closed from Dec. 24th to 29th inclusive and on January 1st.)

### CHRISTMAS SAFETY HINTS

Before erecting your tree, cut an inch or so off the bottom, place it in a sturdy stand containing water, and fasten it securely, advises Nova Scotia Fire Marshal Robert Kerr. Check the water level everyday. Keep your Christmas tree away from heat, such as radiators or the fire-place, warns Fire Marshal Robert Kerr. Make sure the lights are turned off before you leave the house, and don't leave them on for long periods.

On Christmas morning, clean up the old gift wrappings, bundle them up and put them outside, advises Fire Marshall Robert Kerr, to make sure fire doesn't spoil the festivities.

When cooking with grease, oils or fats never leave the pot or pan unattended. Provincial Fire Marshal Robert Kerr suggests grease fires happen fast.

If grease or fats catch fire quickly - turn off the heat and put the lid on tightly - smother the fire, urges Fire Marshal Robert Kerr. If you do not have a lid, throw lots of baking soda directly on the flames - never use water, it will only spread the fire.

Never carry a flaming pan - turn off the stove, smother the fire - keep cool but act fast advises Fire Marshall Robert Kerr.

Christmas decorations bring extra fire hazards into the home, warns Fire Marshal

Robert Kerr. Check those old electric light sets for worn insulation, broken or loose sockets and throw away the old strings that have had their day. Lights can heat up quickly and fire strikes fast.

In addition to Christmas decorations, people also bring extra fire hazards with them, says Provincial Fire Marshal Robert Kerr. When guests leave, check around the furniture, chesterfield cushions, ash trays and waste paper baskets. A smouldering fire can break out fast.

who presented a concert of Christmas songs and hymns for the boarders of La Maison du Coucher du Soleil (Sunset Home for the aged) at Lower Sautinville, Tuesday December 9th starting at 6:30 p.m.

This is but one of the many programs expected to be presented to this Home as well as the Municipal Home in Meteghan Centre during the coming new year. Groups, clubs and individuals will be asked to donate their time for this charitable act.

It has been noted that Bingos (free), musical and singing groups provide the most popular recreational programs for the boarders of the Homes for the Aged.

Anyone wishing to participate in these programs for the aged in the Municipality of Clare, can contact Albert P. Melanson, Church Point, N.S. and dates will be given when you can assist in the recreational program.

This program has been presented for two years now and will be in its third year in 1975. It was noted that several programs were organized privately by small groups or persons and these would be bunched up in one week during the Christmas season and then

### HOLD CHRISTMAS MEET

WESTPORT—The December meeting of the Women's Missionary Society of the United Baptist Church of Westport was held on Tuesday evening Dec. 3rd in the home of Mrs. Wylie Poole. Mrs. Lawrence Shaw presided. Mrs. Arthur Titus led the Christmas devotional entitled "Meditation Moments" after which several members offered prayer, concluding with the Lord's Prayer, in unison.

The Roll was called to which members responded with scriptural verse on "Salvation".

Business concluded which had consisted of re-election of all officers for the year 1975. The Spiritual Life lesson was a recall of the lessons of the year

with a short commentary for growing spiritually during the year.

The Programme consisted of Christmas reading by Mrs. Earl Webber "Prince of Peace." "The Praying Hands" by Mrs. Lawrence Shaw. "The Story of the First Creche" by Mrs. George Sharpe. "The First Christmas" by Mrs. Richard Welch

"An Old Fashioned Christmas" by Mrs. Kingsley Denton and "Distorted Christmas" by Mrs. Albert Bailey.

Mrs. Richard Welch was pianist and concluded the meeting with Hymn "Silent Night."

A social hour following the meeting was enjoyed when all ladies were co-hostesses with beautiful incidental music.

The first meeting of 1975 will be held January 7th in the home of Mrs. George Sharpe.

### Bayview

BAY VIEW—May we take this opportunity to welcome our new friends and neighbors, Mr. and Mrs. L. Griffiths. Mr. and Mrs. Griffiths have recently taken up residence here in Bay View. They come from Montreal and are now residing in their new home located across the road from Mr. and Mrs. Lewis Burns.

Heartfelt sympathy is extended to Mr. and Mrs. Everett Ritcey in the recent passing of his brother, Mr. Franklin Ritcey of Halifax, N.S.

Mrs. Beatrice Condon was on Dec 15 a Sunday guest of Mr. and Mrs. Layton Hinxman of Digby, N.S.

To our part time Bay View neighbors and American friends we extend a Merry Christmas and a Happy New Year. We wish you could be here with us at this festive season.

To all we send Season's Greetings and Good Health in 1975 and since Christmas is so close may I share this little verse with you.

## CHRISTMAS PRAYER

I often like to believe how hard times are  
How often the ships get lost by the north star  
I sit and ponder to myself in the night  
And in the stillness I see how I've lost sight  
One of my brothers across the world, I know  
Is dying of hunger with no where to go  
A man stands watching the pain in his wife's face  
As his child is facing the cold had of grace  
Somewhere a babe cries, alone and full of fear  
He cries but there's no one there, no one to hear  
Too many go to bed each night, hungry still  
There's not enough for his humble cup to full  
The tears in this unjust world make my heart ache  
As I see how, too often, we with greed take  
The world is our doorstep on this Christmas day  
Everyone is satisfied, everything gay  
Santa has come and gone, behind him he's left  
Something for most of us, I'd not fear to bet  
I'll enjoy this new season, I always do  
I'll look underneath the tree for something new  
But unlike the other years I'll stop and think  
Just for a moment as I sip my first drink  
How so very unfair it all seems to be  
And for a flash I'll see others besides me  
For a moment I'll bow and silently plea  
For God to lovingly take and gently lead  
All my needy brothers to a better land  
So that they might, beside me, with honor stand  
I'll pray with passion to the One who can do  
Who can change this suffering world to one of new.

Nora Comeau  
(Brighton)

## 'TIS THE SEASON TO BE JOLLY

Deck the halls with spruce and holly, 'tis the season to be jolly. How ill fitting those words seem to be. Amid death, murder, hunger and want in the world, how can one be jolly? Events of the past few weeks, particularly the murder of two policemen in Moncton, has taken all the "jolly" out of the season. The families of the slain men, of course, feel the tragedy most keenly, but the incident has cast its gloom throughout the Atlantic provinces. The people have deep sympathy for the bereaved families and the question of capital punishment or not seriously occupies the minds of concerned people. The close proximity of the kidnapping and murder makes people shudder. It is just too near to home. Mostly these things happened in far-away places, we had prided our-

selves. With such weights on the hearts and minds of the people in this Atlantic region there seems to be no room, whatever, to be "jolly." But Christmas has more meaning to it than just the season to be jolly. The word joyous would be more approp. Christmas celebrates the birth of Jesus Christ who came into the world to bring peace, love, joy and happiness to the world. To understand the significance of Christmas is to be able to overcome the effects of the cruelties and miseries of the world in which we live. Christmas can still bring that peace, love, joy and a contented sort of happiness to all of us who are willing to share these with mankind everywhere. Jolly might not be the perfect word to name this Christmas Season but these others can abound even under the stresses of life.

We wish you all a very Merry Christmas and a Happy New Year!

## \$3 Million Worth Of N.S. Pelts At Show

Mr. Pace recalled that at a recent conference of highways ministers in Winnipeg, it was noted that "no province has implemented a reduction to 55 miles per hour on its principal highways". The conference formally went on record as favouring reductions of speed limits on selected roads. "This we do now, as circumstances warrant," he said. The ministers agreed that "a reduction of speed limits alone may not automatically result in a drop in traffic deaths."

He cited the need to prevent excessive speed through education and deterrents, such as recently introduced legislation to increase fines substantially. Proposed amendments to the Motor Vehicle Act also provide penalties for failure to wear seat belts, or other restraining equipment, if a vehicle is so furnished.

"Nova Scotia leads all other provinces in making mandatory the use of such safety equipment," said Mr. Pace.

He noted recommendations of a Crash Countermeasures Committee charged with determining causes of highway accidents, and the proposing of measures to reduce their number and severity. A major recommendation has taken shape in the setting up of a Task Force to suggest how a driver education course may become part of high school curricula. The Department of Highways now gives assistance to driver education courses in 85 schools throughout Nova Scotia.

An advertising campaign will soon appear in major media alerting drivers to the perils of drinking and driving.

Two breathalyzer vans will shortly be put at the disposal of the RCMP. Highway safety education officers spoke to 73,000 people last year.

Nova Scotia mink ranchers will have approximately \$3 million worth of pelts at the annual Canadian fall fur show in Montreal, next week.

About 80 per cent of the province's 110,000 pelts have come from Digby County.

The show is critical to the ranchers, Digby County agriculture representative, Bruce Gilliat, said yesterday.

"In the 15-to-20 minutes it takes for buyers to bid on a

rancher's pelts, he could either sink or swim financially."

Don Mullen, Havelock, Digby County, president of the Nova Scotia Mink Ranchers Association, said Tuesday last year's average price per pelt was \$21 with top price reaching \$50 per pelt.

Mr. Mullen estimated the average price this year will be down about 10 per cent because of speculation there will be fewer European buyers at the show.

"This could mean buyers will be extremely cautious in their bidding and not buy as much as last year," he said.

Nova Scotia produces 12 to 13 per cent of all Canadian mink pelts. The province has the third highest mink production rate in Canada.

The three-day show which begins Monday will feature furs from across Canada.

Prior to the sale, buyers from around the world will have a chance to view the pelts and decide which ones they want, said Mr. Gilliat. The pelts are numbered in groups.

The sale is organized by the Hudson Bay Company in Montreal.

## Increase In Family Allowance

Increases in Family Allowances, effective in January, 1975 have been announced today by Health and Welfare Minister Marc Lalonde. The increase is based on the cost of living increase since November 1973, as provided for in the Family Allowances Act.

Federal monthly allowances paid for children under the age of 18 will rise to \$22.08 from \$20 a month per child. Under a provision in the Family Allowances Act a provincial government may ask the federal government to vary the family allowance rates payable in that province according to the age or the number of children in a family, or both, providing the family allowance payments in each province average \$22.08

## LETTERS TO THE EDITOR

The Editor,  
The Digby Courier  
Digby, Nova Scotia

Dear Madam

People who live elsewhere often pity us islanders who have to cross a ferry to begin any journey. It is true that Petite Passage can be dangerously

rough, and that it may sometimes be impossible to land at the East Ferry wharf at certain times of the tide on windy days. However, with a sturdy ferry and reliable ferrymen we know that we will get across whenever it is humanly possible. We would be happy to find the roads as dependable as the ferry.

Perhaps Tuesday's sudden storm and cold spell caught

road workers unprepared. On Wednesday morning the island road was a solid stretch of treacherous ice with occasional "spoonfuls" of sand through Tiverton and on some hills. Why was there no salt in the sand? Why was the sanding so spotty? We understood that Digby Neck had been salted. The hill from the ferry was good as were some others, but not all had been done. Why?

Is salt scarce? Is it too expensive to use on the island? Last winter when sand was used it was often scraped off by the snowplow. Is there not proper equipment available? If not, why not? Could we expect roads to be passable by 8 a.m. unless a storm is still raging? We must note that the above conditions

obtained between 7 and 9 a.m. and that conditions had improved when we returned in the afternoon.

We appreciate that those responsible for road care have to work under unpleasant conditions and that they could never please everyone. However, we felt that someone should be made aware of these conditions early in the season so that perhaps some improved system might be worked out for the remainder of the winter.

Yours truly,  
Island Travellers

## THE DIGBY COURIER

Dear Editor:

I am writing to you in the hope of bringing to light some very disturbing incidents that occurred Friday night, December 13, 1974, during a hockey game between Bridgetown High School and Digby High School. The match, which was played in the Digby Arena, proved to be a very exciting and sportsmanlike contest, with the Digby Club defeating Bridgetown 10-6. However, my concern lies with the conduct of the Digby fans. How a group of people can display such an appalling lack of sportsmanship and consideration for visiting spectators and players

is completely beyond my comprehension. Throughout the entire game, Bridgetown fans and players alike were constantly abused, not only verbally but physically as well. This is not the first time that the

Digby supporters have exhibited this miserable level of intelligence. Two weeks previous to this game Bridgetown met with the same treatment. These actions did not just arise at the beginning of this season, but have stemmed

back to 1968 and probably earlier. But 1968 was the first knowledge I had had pertaining to the conduct of the Digby fans, i.e. a Hockey team from Summerside, P.E.I., after

playing a game in Digby, had to retreat to their motel rooms and remain there for the rest of the weekend due to the fact that some of these Digby fans waited outside the motel and tried to coax the Summerside players outside to fight.

Nevertheless my complaint is with regard to the game of Friday night past.

When visiting athletes cannot leave the ice without being cursed at, punched and kicked (and fans treated in a similar manner) and the R.C.M.P. just stand on the opposite side of the rink without bothering to disperse these people, then something has to be seriously wrong within the town of Digby as far as sports and law and order are concerned.

In my opinion, if the Digby fans continue with this attitude, then hockey and other sports will become a thing of the past. Already, one hockey team in the high school league has refused to play in Digby and I'm sure others will follow.

The value and importance of sports in the valley and in Nova Scotia is too great to allow these few people to destroy it.

In closing I wish to re-state the fact that this letter in no way reflects on the Digby Hockey Team itself who played an excellent game and defeated Bridgetown.

## In Memoriams

**SYMPHER**—In loving memory of my father, Scott Sypher, who passed away Dec. 23, 1958. Your favorite chair is empty. And your things were laid aside. Since the day you went to Heaven.

There with God in peace to abide  
Like falling leaves, the years  
ship-by  
But memories of you will never die  
Of happy days when we were all together  
Are precious memories treasured forever.  
Always remembered and loved by daughter Frances, Carl and Kittie Sue. 20:15c

**MERRITT**—In loving memory of a dear father and grandfather, Kenneth L. Merritt, who passed away on December 25th, 1966.

If only we could see you Dad,  
Your hand we could but touch,  
And hear you say "Hi" to us,  
Things wouldn't hurt so much.

We stood beside you  
To see your life depart  
And when they said that you were gone,  
It nearly broke our hearts.  
Our hearts still ache with sadness  
Our eyes shed many a tear,  
Only God knows how much we loved you,  
And wish that you were here.  
Always remembered by son  
ELLERY, DAUGHTER-IN-LAW, PAT AND FAMILY. 20:15p

**CROMWELL**—In loving memory of a dear daughter, Vona M. Cromwell who passed away December 15th, 1972.

Because in her heart she was saintly,  
Because in her life she was pure,  
Her reward we are sure must be Heaven,  
And our grief we must try to endure,  
Lovingly remembered and sadly missed by Mom (Edna), Sisters and Brothers. 20:15c

**SANDERSON**—In memory of Henry Adolph Sanderson who died December 16, 1949.

We miss you now  
Our hearts are sure  
As time goes by we miss you more.  
Your loving smiles, your gently face,  
No one can ever fill your place

## Christmas Safety

In the hope that Canadians can enjoy the Christmas holiday season without accident or mishap, the Canada Safety Council draws attention to the twelve safety tips for Christmas trees:

1. Buy a fresh tree, with springy branches and tight green needles.
2. Keep it outdoors in water or snow until ready to set up.
3. Saw off at least two inches of the trunk, diagonally.
4. Use a water-reservoir tree holder, and keep it filled.

5. Keep the tree away from drying and heat sources such as radiators, registers, and fireplaces.

6. Use only UL or Canadian Standards Assn. approved lights in good repair.

7. Use only fire-proof decorations if possible.

8. Do not place electrical toys under tree, except wrapped or in boxes.

9. Secure top of tree with wire or fine string if there are very young children or pets in the home, to avoid tipping.

10. Consider using an artificial flame proof tree.

11. Remove the tree to the outdoors as soon as possible.

12. Never burn a Christmas tree in the fireplace.

The idea of making the Christmas tree flame retardant appeals to all of us, and each year various organizations publicize do-it-yourself treatments. Usually, the solution suggested is the borax boric acid compound. According to the National Fire Protection Association, this treatment is

satisfactory when used for the temporary fire retarding of cellulosic fabrics such as cotton and rayon but it is of little value when used on Christmas trees. The needles of a tree do not soak up the chemical as a fabric does, nor can they be readily coated on all sides.

The only sure method of flame retarding natural trees is to completely immerse them in an Underwriters Laboratories listed tree fire-retardant, and no private individual would be expected to go to such trouble and expense.

The Council therefore suggests the above safety tips should be clipped out and used when needed.

## Tips to Make Yule Brighter

The Christmas card made from a photograph of children or family group is highly popular as a means of bringing a sense of togetherness to relatives and friends when geographical separation makes the real thing impossible.

The best time for such pictures, naturally, is when presents are being opened and the family group is together, sharing and showing their joy in Christmas surprises.

A good second opportunity may be found when the family is gathered at the table for Christmas dinner. Other possibilities include "stockings hung by the chimney with care" and children playing, indoors or out, with new gifts.

## The Years Shall Not Fail

C. ELLIOTT

The measurement and division of time goes back to the very beginning of things. Days were easily divided by the passage of the sun and longer seasons were measured by the moon. Even longer periods of time were initially measured by the succession of planting and harvesting seasons. As things became somewhat more sophisticated it was possible to experiment with actual calendars and to number years from some great event. We shall do that when we speak of the year of the deep snow, the year the war began, the year I was born.

Time itself became a topic for philosophers and theologians to ponder. Because of the changes which marked the passage of time, slowing down, growing old, withering, part of the yearning of mankind became fixed on the ideal state in which time would cease, change would halt, and all mankind would be caught in some eternal Now like stopping a movie projector on one particular frame of full-length drama. Eternity, changelessness, heaven, peace, sabbath, rest, all became words fraught with deep meaning and worth. God Himself was symbolized by these same concepts, the great I-Am, the Ever-Existent, the Always-Being.

It is little wonder therefore that the writer of the epistle to the Hebrews should get carried

away in his wonderment of God: "Thou Lord...thou remainest...thou art the same and thy years shall not fail."

Processes of change are majestically and horribly speeded up in these days as Alvin Toffler reminds us. As the years of our own life roll up we feel the speeding-up of time. Each year of childhood was a long time in enriching experiences and in growing expectations but as we grow older we try to put the brakes on and hold time in some kind of suspension. Yet the years roll on in increasing speed and we seem to be celebrating New Year's more often than ever.

There is indeed something terrifying about it. As we once measured time by what we accomplished and by hopes fulfilled we now seem to measure it by the things we failed to get done, by the hopes unfulfilled, like a stack of papers on our life's desk marked "Unfinished Mail". The impatience belonging to youth is turned into the petulant sort of impatience of middle age.

There is a deep sense of assurance and security to be found in all this fast change and fast time in knowing that our bark is securely tethered to the Rock of Ages, the same yesterday, today and forever. His years will not fail. Time is not really something different from Eternity - it is only one of the symptoms of Eternity.

The New Year's coming is a

reminder to us that we have choices to make, we have decisions to come to, we have directions to find and follow. The eternal Now does not discharge us from the responsibility to make the most of this present Now which passes away immediately never to return. Now it is high time to awake out of sleep. Now is the day of salvation. When New Year's is so closely connected to Christmas we can turn to the Christ-Child and find in Him the meaning and direction and fulfilment life needs. Saint Augustine put it very nicely for us when he said: "Y'hou has made us for Thyself, and our heart is restless until it find rest in Thee."

## Wedding

ROSS STARK

The marriage of Sandra Louise Stark, daughter of Mr. and Mrs. Horton Stark of Plympton Station, Digby Co., to Murray John Ross, son of Mr. and Mrs. John R. Ross of Seabrook, N.S. took place at the Rossway United Baptist Church on Dec. 14th, 1974.

Rev. Lester Mullen performed the ceremony. Their only attendants were Mr. and Mrs. Reginald Ross of Seabrook, N.S.

Mr. and Mrs. Ross are residing at Rossway.

## Anticipating Incorporated Village Status

One of the main topics for discussion at a recent meeting of the Bear River Board of Trade was on the possibility of having Bear River come under the status of an incorporated

village. The meeting was presided over by the president, Rev. R.R. Winchester and a special guest was Terry Crowe, Annapolis County District Planning Officer.

A decision was made to have a map drawn up by Mr. Crowe in order to inform the public and measure the reaction as the wishes of the people are important. The map, it is un-

derstood, will entail the school district on the Digby and Annapolis County sides, a fire district area and location of roads leading to the village.

It was felt that information on procedures should be found and also what powers would be bestowed on the Village Commissioners: Boundaries, drainage and assessment propositions were discussed. Warden E.C. Denton offered that an area rate would be

assessed for village services which are not looked after by the County. He stated that the community can get additional services under the present set-up but as a village it would have direct control over them.

Bill Cox said that the Village would have no direct control over education but could make representations concerning the matter.

Some of the effects of incorporation on the community were also brought out. Bruce Davey pointed out that as a village the community could have its own police protection and could enact by-laws to

cover squealing tires, etc. He said it would be eligible for cost-sharing in its services and would only have to pay 20 percent or less of the actual cost.

The next meeting of the Bear River Board of Trade is on Thursday, January 14, 1975. Mr. Winchester requested a good attendance and interest in the Bear River Board of Trade which he termed the voice of the community.

IMPORTANT CHANGES  
EFFECTIVE JANUARY 1st, 1975

# Your Canada Pension Plan

Here's good news...for CPP contributors—their surviving spouses and dependent children

Recent changes to the Canada Pension Plan will result in substantially increased benefits for 1975 and subsequent years. There are other important changes, too. Some affect people over 65 or approaching that age. Others provide equality for the spouses and dependent children of male and female contributors. These changes may require prompt action or getting advice. So we suggest you read this message very carefully.

## 1. Retirement Pensions

Have you contributed to the Plan at any time since January 1, 1966?

Are you between 65 and 69?

Then you have a choice

Apply now and start receiving your monthly CPP retirement pension. No more need to retire to collect benefits. (Once you start receiving your pension, however, you can't make further contributions to the Plan.)

OR

Continue to contribute to the CPP and possibly build up a larger retirement pension to commence at a later date.

Continuing to contribute is also a way to qualify survivors for benefits if you have not already done so. (When approaching age 70, you should consider applying for your retirement pension because after 70 you may no longer contribute to the Canada Pension Plan.)

NOTE: Before making your choice you may wish to seek advice from the nearest CPP office. The staff will be pleased to help you.

Are you approaching age 65?

If you have made your choice and want your CPP retirement pension to commence as early as possible, you should apply two or three months before your 65th birthday.

NOTE: There is no provision for retroactive payment of retirement pensions between the ages of 65 and 69. So if you're in that age group or approaching it, get advice as soon as possible.

Do you now receive a CPP retirement pension?

As of January 1st, 1975, your pension will no longer be affected by any money you earn thereafter.

## 2. Equal Protection for Males and Females

This means that for female contributors, in addition to being eligible for a retirement pension and disability protection for themselves, and a death benefit payable to their estates, as has been the case in the past, their spouses and dependent children are now eligible for benefits as follows:

**Benefits for Surviving Spouses**

A monthly pension payable to the widower who at the time of the death of the contributor is over 35 years of age, or under 35 years of age but is disabled or has dependent children; that is, a benefit similar to that which has always existed for widows.

**Benefits for Orphans**

A monthly benefit payable to unmarried dependent children under 18 and to unmarried dependent children between 18 and 25 attending school or university on a full-time basis.

In order for survivors to qualify, the contributor must have died in January 1968 or later and must have contributed for the minimum contributory period, which is three years for deaths occurring before January 1, 1975.

**Benefits for Children of Disabled Contributors**

A monthly benefit payable to unmarried dependent children under 18 and to unmarried dependent children between 18 and 25 attending school or university on a full-time basis, where the contributor concerned is in receipt of a CPP Disability Pension.

NOTE: In all cases, it is necessary to make application for benefits. If such applications are approved, payments can only be made currently—that is, from January 1, 1975. No payment can be made for any period prior to that date.

### Other Changes:

The earnings ceiling—that is, the maximum amount on which contributions can be paid and on which benefits can be calculated—is being raised to \$7400 in 1975 and to \$8300 in 1976. The initial amount of earnings, on which you are not required to contribute, will be \$700 in 1975.

### MAXIMUM MONTHLY CPP BENEFITS Effective January 1975

Retirement Pension	\$122.50
Disability Pension	\$139.35
Surviving Spouse's Pension—under 65	\$88.31
over 65	\$81.67
Orphan's Benefit	\$37.27
Disabled Contributor's Child's Benefit	\$37.27
Death Benefit (Lump Sum)	\$740.00

## CHANGES HEALTH SERVICES TAX ACT

The Health Services Tax Act Chapter 126 has been amended to incorporate certain changes, and the following information is provided to vendors and consumers.

1) Clause (0) of Section 10 of Chapter 126 Health Services Tax Act is amended by striking out the word "fifteen" in the third line thereof and substituting therefor the words "twenty-five". The effective date is on and not before December 1, 1974.

Explanation: This removes the tax from a transaction where the purchase price is twenty-five cents or less. This does not include cigarettes and cigars. The previous exemption minimum was fifteen cents.

Tax cards presently in use may continue to be used amending 16-21.01c to read 16-25 nil, and amending 22-35.02c to read 26-35.02c. There is no change in the balance of the card with the exception of the footnote on the second page which should now read \$0.25 in lieu of \$0.15.

There is no change in the taxable status of such items as chocolate bars and soft drinks. When purchased for 26¢ and over, singly, or two or more, the tax is applicable.

2) Subsection (2) of Section 14 of said Chapter 126 as enacted by said Chapter 15 is amended by adding immediately after the word "records" in the third line thereof the words "and to make and file such returns".

Explanation: This makes the provision dealing with the certificate of a Commissioner and failure to keep records also applicable to failure to make and file returns.

3) Subsection (1) of Section 30 of said Chapter 126 is amended by striking out the words "six per cent per year" in the fourth line thereof and substituting therefor the words "such interest rate per year as is determined from time to time by the Governor in Council".

Explanation: This will change the interest to be charged upon penalties from 6 per cent a year to the amounts to be determined by the Governor in Council.

4) Subsection (2) of Section 40 of said Chapter 126 is amended by adding immediately after clause (e) thereof the following clause:

(ea) determining the interest rate year for the purpose of subsection (1) of Section 30.

Explanation: This gives the Governor in Council authority to make regulations to determine the interest upon penalties for the purpose of Section 30 of the Act.

5) Clause (b) of subsection (2) of Section 42 of said Chapter 126 as amended by said Chapters 49 and 15 is further amended by adding immediately after subclause (iii) thereof the following subclause:

(iv) to defray the cost of purchasing or acquiring control of a hospital as defined by the Public Hospitals Act;

## Nutrition Aims At Quality

Today, the aim is toward adding quality to life, and not just years.

This sums up discussions at a symposium held in New York City to review and explore information on nutrition and aging.

A nutritionist with the Northumberland Health Unit, Miss Vicki Crooks of Pictou, attended the third annual symposium on nutrition and aging, held at the Commodore Hotel by the Institute of Human Nutrition, College of Physicians and Surgeons, Columbia University. "Aging begins early in life and many defects seem to be programmed in childhood," said Miss Crooks in an interview on the symposium. "You can prevent disease after discovery of defects and it is also debatable whether you can change programming later in life."

"Today's lifestyle, with its lack of exercise, soft foods, high fat intake and smoking, affects the state of health," she said. "Only cancer of the lung exceeds cancer of the colon in the cause of death due to internal cancers," she reported. "The symptoms are connected with our lifestyle. There are some 500,000 deaths a year from cancer of the colon, in the United States."

Nutritionists expressed concern over the lack of fibre in the "soft" diets of today, she said. Several gastrointestinal conditions such as constipation, diabetes mellitus, carcinoma of the colon, hyperthyroidism gallstones, hiatus hernia and many more, were attributed to low fibre content.

## Credit Purchases High

Nobody gets anything for nothing, the Provincial Secretary, Hon. A. Garnet Brown reminds shoppers, not even at Christmas.

Mr. Brown reminds would-be Santa Clauses to be careful how they spend their money, especially if they buy their gifts on credit.

Credit cost money, Mr. Brown says, and like any other consumer product available these days, the cost varies. Therefore, to get the most for your money, you should shop around for credit just as you would for any consumer goods.

If you are borrowing money or buying on credit, find out how much the privilege will cost you before you sign anything. Under the terms of the Nova Scotia Consumer Protection Act, consumers buying on credit must be provided with a true copy of the contract or invoice setting out exactly how much credit will cost them. This amount must be shown in actual dollars and cents, as well as an annual interest rate.

The lender must also show in writing all other charges he intends to make should the borrower default in his payments. The Act applies not only to contracts for goods purchased on credit, but also to overdue monthly accounts and to all loans.

Credit is an important financial tool in this day and age, Mr. Brown says, but improperly used or abused, credit can be

the cause of many problems. Remember, he advises, the gift that seemed so perfect before Christmas, will be a great deal less so if you're still paying for it in March. Think before you buy anything, especially if you're buying on credit.

Buy wisely and pay promptly is a good maxim to shop by, says Mr. Brown at Christmas and throughout the year.

### Is Merle Mullen Wrong?

A recent article or letter appearing in The Digby Courier has again sparked interest in the proposed Digby to Shelburne Road. Boards of Trade and other organizations, councils and individuals have for a number of years brought up this subject in dialogue and by submitting briefs to the proper authorities. According to reports the road is easily followed from the Acaciaville (Digby) end and from the Shelburne end with approximately ten miles between where no road exists.

One person who had his interest aroused by the letter or article was Merle Mullen of Weymouth. He asked "Does anybody know exactly where that road runs?" Mr. Mullen, who is a son of the late Frank Mullen, New Tusket, says that he learned from his father and other people of that generation that the road is under water for some three miles. He felt the road goes through somewhere between Fourth Lake where there is a large dam and Fifth Lake where still can be seen the remnants of an old cellar at Maker's Meadow (Mr. Maker's property).

"I COULD BE ALL WRONG" SAID Mr. Mullen who wished he could see a sketched map of the road and get the opinion of other people. What do you think? Is he wrong?

# Thoughts Of The Sea

From square-rigged sailing ships of last century to armed merchantmen on Atlantic convoys in World War II - that's the span of history and sailing experience of one Nova Scotian skipper.

Capt. Eugene Coates, OBE, spent more than half a century at sea, 35 of those years as master of a variety of vessels. Now, at 84, he is just as erect, keen of eye and steady of hand as when he signed on as ship's crew in 1906, an eager 16-year old from Annapolis.

Although officially retired since 1960, Capt. Coates hasn't finished with the sea. He would be called out, often on short notice, to serve as relieving master on a variety of commands.

His sea-time of 60 years or so is a record not commonly enjoyed by sea-faring men or those of any other vocation. He has served as seaman, cook, boatswain, quartermaster, second mate, mate and master.

Going up that ladder takes a combination of experience afloat and classroom studies. Classes ashore were held in the marine school in Yarmouth where Capt. Coates gained his Mate's Certificate for Passenger Steamers and Square-Rigged and Fore-and-Aft Rigged Sailing Vessels, his Master's Certificate for Sailing Vessel Any Rig and, finally, his Master's Certificate for passenger steamers and any rig or sailing vessel. This last he has held and cherished since 1917.

In the arctic waters of Hudson's Bay and tropical waters of many of the world's ports, Capt. Coates has handled cargo of all kinds and taken command of armed merchantmen in two world wars. "In all my years as Master,"

observed Capt. Coates, "I never lost a ship - and only one man. That was when we were working the Great Lakes and he died of natural causes as we were rushing him to hospital in Toronto."

In this, the captain was a lucky man. Once, on convoy in World War II, three ships in his line were torpedoed and lost. He's had closer calls than that. On January 3, 1913, he was mate on a four-masted American schooner carrying 2,250 tons of rails to Galveston, Texas. The ship hit a heavy gale and was straining badly. With water rising in the hull, the order was given to abandon ship.

"We were only 400 feet away in the life-boats when she tipped bow first and went to the bottom

ina steep dive," Capt. Coates remembers.

Keeping the life-boat afloat was a constant job for four days as bailing was a full-time occupation. The men in the life-boat were picked up by a Greek sponger and landed at Cedar Keys, Florida.

"That was one time when we were mighty glad to get ashore," said Capt. Coates.

Another close call was experienced in Bridgetown, Barbados, when the duty boat was taking Capt. Coates and two other masters out to their ships anchored in deep water off-shore. The duty boat was run down by a small steamer at 11 p.m. and by the time he was picked up, Capt. Coates had lost consciousness. This necessitated a six-day hospital stay.

"After getting back on board my ship, I then sailed for New York," was Capt. Coates way of ending that story. Just the bare facts, no details of coming up under the steamer's stern, nearly being drawn into her whirling propellers, almost being drowned. His most interesting command, and a favorite vessel, was the tern schooner Montclair, a three-masted ship 142 feet in length built by the Yarmouth Shipbuilding Company. "I went on board and took command of her on the first day of November, 1918 while she was still on the stocks," said the captain. "I was on her when she was launched, on November 18 - my

birthday, to be exact.

"Quite a birthday present," he said. "I was in command of her for two and a half years, enjoyed every minute of it - even the hard times, and there were plenty of those."

After sea trials, Capt. Coates and the Montclair took 4,000 barrels of potatoes to Havana, Cuba, a passage of 20 days.

From there, it was a cargo of rum and tobacco to Secondi, Gold Coast Colony in West Africa.

For that trip, the Montclair was 50 days at sea in weather both good and bad, including three days of heavy gales with a dangerous sea.

Several other African ports, as well as Marseilles and Gibraltar in the Mediterranean, before re-crossing the Atlantic to the West Indies then to New York. It was a voyage of 19,000 miles to a variety of ports with a variety of cargoes.

With a lifetime of sailing behind him, Capt. Coates can entertain visitors by the hour with his stories of the seas, discharging cargo at Fort Churchill in Hudson's Bay; loading crude oil in Venezuela's Lake Maracaibo; Canadian grain at the Lakehead; bananas in Nicaragua; oranges in Cuba; lobsters in Nova Scotia. Your name it and Capt. Coates has probably carried it.

His service was not unrewarded. In 1946, he was on the New Year's Honors List when King George VI conferred the Order of the British Empire upon him.

In a letter of recommendation, a former employer wrote, "We never had any cause for complaint. Capt. Coates is strictly sober, honest and attentive to his duties and we can thoroughly recommend him in every way to anyone who can make use of his services."

That's high commendation but justly earned in a life of command at sea. Today, Capt. Coates lives quietly ashore in a bungalow at Dartmouth, Nova Scotia, a stone's throw from Halifax Harbor where he often boards one of his many commands.

## Liquor Consumers Facing Increased Prices

By D. W. Pulsifer

General Manager

After a number of years of relatively stable prices in the alcohol beverage industry producers are facing increases which have not been experienced before, particularly with regard to the cost of raw materials which in some cases have more than tripled.

Strikes within and outside the industry as well as a severe shortage of packaging materials have caused difficulties for the commission in obtaining products from suppliers, especially in the United Kingdom.

Glass is in short supply in the U.K. have had to find new suppliers from as far away as the U.S. and this has added to production costs which have in turn been passed along to the consumer.

Due to an ever increasing interest in table wines by the general public the question of product knowledge has come under review. Customers are requesting information that most of the staff of the commission's store do not have. In this regard the commission will hold product knowledge seminars throughout the province in 1975 to enable staff to answer questions and assist customers in making purchases.

French wine prices have begun to level out after two years of dramatic increases. This is due chiefly to two factors - an over supply of wine in France following two years of record vintages, and a reluctance on the part of customers to buy wines from France at the price asked.

Customers have turned to other countries as sources of wine, and though prices have not dropped drastically there is some movement in this direction. In the past year the commission has listed California wines which are now competitive in price with French wines.

Since 1970, the commission has been working on a program to convert and replace all outlets with self-service stores. During the current fiscal year the commission has converted premises at St. Peters, Arichat and Digby to self-serve. Only one replacement store (at the Halifax Shopping Centre) has been completed. Premises will be opened early in the new year at Bridgetown, Glace Bay and West Pubnico.

A new licensee store, located adjacent to the Ashby liquor store, will be opened in 1975 to service taverns, beverage rooms and other licensed establishments.

The commission specialty store, on Hollis Street in Halifax, is moving early in 1975 to the Halifax Shopping Centre in order to serve a greater number of customers. The purpose of the specialty store is to provide a wider selection of products, particularly table wines, and to test new products which might be suitable for listing in all commission outlets.

## Hope, Trust, Understanding And Love

If hope, trust, understanding and love can bring out the behavior and capabilities it is capable of doing for the handicapped children at the Children's Home in Digby, what should it do for our children who have no handicaps. True, it is practiced to some extent and children thrive on it but we all know of children who have to fend through life without the helpful cushioning of those four ingredients. Some make out fairly well but there are other lives which become shattered because of the lack of hope, trust, understanding and love. We should go about preaching the sermon.

But to get away from sermonizing, let's get back to the real subject of this editorial. A "major miracle" is the way that V.G. Cardoza put it when he spoke a few words on Friday afternoon at the concert put on by a dozen children, guests at the Children's Home in Digby. There were few spectators at that concert who would not agree with that comment. The children, just like those without handicaps, performed in their own way most nobly and with the same pride in their accomplishments that the non-handicapped feel in theirs. They got the same feeling of "being" and being needed for this event that all children have.

Recitation after recitation, songs with one verse after another were sung without aid in most cases. There were vocal solos, organ accompaniment, xylophone solo, rhythm ban music and other members at the half to three-quarters of an hour program involving twelve children. Indeed some of them performed in a half dozen or more different items on the program without prompting.

For this concert credit must go mostly to Mrs. Nancy Lewis, teacher and Mrs. Imogene Barton. Other assisted in various capacities, to be sure, but the skill and patience of Mrs. Barton and Mrs. Lewis must be outstanding.

While we give credit to these persons for their ability and patience we must go a little further and credit the underpinnings of the whole success to the hope, trust, understanding the love generated by the superintendent, Mrs. Dorothy Smythe and her entire staff and to the sympathy, understanding and generosity they inspire to many friends of the Home.

Hope, trust, understanding and love could work wonders in the whole world. Yes, it could, using Mr. Cardoza's expression work a major miracle.

## Digby County Mink Stand Out In Show

At the fall fur show held in Montreal recently Digby County mink made a fine showing as has become habitual for the past years with about 80 per cent of the Nova Scotia animals in the show being from Digby County.

Because of the fear of adverse economic conditions fewer European buyers attended the show which caused the sale of mink pelts to decrease by twenty to twenty-five percent. The price also fell by nearly a

quarter of the 1973 show. Instead of 30 European buyers as in 1973 there were only five, it is understood.

The ranchers from Nova Scotia sold about 75 percent of the dark mink they displayed in Montreal while the pastels went only to fifty percent. Highest price for dark mink was \$36.50 males and \$28 females. Some of the Digby County mink rated the top prices paid and in general Nova Scotia ranchers did better than other provinces.
