A social hour followed the service in the Church Hall.

Easter In The Churches

The Deep Brook United Baptist Pastorate observed special services on Good Friday and Easter Sunday.

A Communion Service was held on Good Friday evening at the Deep Brook Baptist Church. Deacon L.C. Fred Bigelow, Smith's Cove, offered the Invocation. A hymn sing was led by Deacon R.M. Winchester, Smith's Cove. Deacon Perry Turnbull, Deep Brook, brought the Scripture reading from Luke 24:28-35. Prayer was offered by Deacon Richard Moore of Deep Brook.

Early Easter Sunday morning (6 a.m.) thirty-six men of the Pastorate gathered at the Smith's Cove Baptist Church for breakfast of ham, eggs, muffins and coffee. Deacon R.M. Winchester, and Tom Milner, of Smith's Cove were convenor and chef respectively. The chef was assisted by the Pastor in cooking duties. Several of the men assisted in setting tables and serving.

A time of fellowship followed the meal with Peter Freeman, Smith's Cove, at the piano for the songfest, and Garland Myers, Upper Clements, giving an inspirational message.

The Sunday School Choir also brought the news that "Easter Bells Are Ringing!" Peter Freeman, organist-pianist, and Joanne Frankland, pianist, were the accompanists.

Rev. Wallace H. Jordan, pastor, brought a message on "One Untimely Born" - text: 1 Corinthians 14:1-11 - at all three services.

Soloist was Miss Margo Levy and the Baptist Church Choir sang the selection, "Open the Gates of the Temple."

The minister, Rev. Murray Shaw, preached on the theme Good Grief to a full church.

Rev. Mr. Shaw officiated when Ruth Swiber and Jeffrey Frankland were baptised during the Easter service.

Easter music also featured at the Trinity Anglican Church on Sunday morning when Rev. Isaac Butler spoke to a sizeable congregation on the significance of the Resurrection as it related to Bible times but also to today's world.

At Grace United Church the Rev. Ronald Stevens spoke appropriately on the Resurrection and the senior choir under Mrs. Elton Arnold sang two special Easter anthems. A choir attended.

He pointed out that the mobile homes covered in the act were those located on a permanent site and that the

Assistance Program For N.S. Haddock Fishermen

The Federal Government is initiating a short-term program of assistance to ease economic hardship of haddock fishermen of south-western Nova Scotia. Approximately 700 fishermen employed on 180 fishing craft, mostly inshore longliners, will be eligible under the program announced today by Minister of State for Fisheries Romeo LeBlanc.

Working capital loans will be made available to the vessel owners, and payments equivalent to unemployment insurance benefits will be made available to haddock fishermen during the period May 16-31. Mr. LeBlanc said this program will help to relieve the economic hardship experienced this year by haddock fishermen and vessel operators of that areas. Assistance plans were worked out in consultation with the Atlantic Fishermen's Association and fishermen's representatives.

The Minister, meanwhile, expressed grave concern about incidents of illegal fishing in areas closed to haddock fishing by regulations of the International Commission for Northwest Atlantic Fisheries (ICNAF). Charges have been laid

act would not apply to the "Travel Trailer" type of home. The minister said that anyone purchasing a new mobile home on or after April 1 may be eligible for a grant of up to \$500 based on the purchase price of the unit, excluding the cost of all furnishings.

Mr. Nicholson said that application forms and information regarding the necessary documentation may be obtained by contacting the Provincial Tax Commission in the Johnson Building, Prince Street, Halifax.

Mr. Nicholson said that "This should be of great assistance to young people starting out in life, as well as those many people who for years could not afford the cost of a conventional house."

Rural Beautification Entries Close April 15

April 15 is the deadline for entering competitions in connection with Rural Beautification Week. Community organizations in any rural area or incorporated village in the province may apply.

Tourism Minister Glen M. Bagnell, Minister of Tourism, proclaimed Rural Beautification Week from March 30 to April 5. "It gives me pleasure that the Department of Tourism is an active co-sponsor of this event," added the Minister.

Fifteen counties are taking part in Rural Beautification Week this year.

Noting the sponsors' slogan "Rural Beauty...A Citizen's Duty", Mr. Bagnell commended the Federation of Agriculture and the Women's Institute of Nova Scotia for maintaining high standards of community appearance and improvements. These include such categories as commercial and public buildings, private residences, playgrounds, parks, picnic areas, public lanes and roads, car body removal sites and repair or removal of dilapidated buildings.

There are cash awards to winners within eight categories of applicants.

against 15 fish craft since February 1 for such infractions of the Fisheries Act as fishing in a closed area, exceeding catch quotas and failing to keep log books recording catches.

"The necessity for conservation of our haddock stocks to ensure improvement of the fishery for future seasons is recognized by all concerned," Mr. LeBlanc said. "Illegal fishing, whatever the Please turn to Page 5

Expect The Highways To Bear The Cost Of Moving Hydro Poles

By motion of Councillor Erwin Marshall, seconded by Councillor L.E.R. Winchester, a letter will go forward to the Hon. Leonard Pace, Department of Highways, with copies to both government and opposition members of the Legislature, asking him to clarify for the Council of the Municipality of the District of Digby what was meant in his correspondence by "private property". Following the February meeting of Council, the municipal clerk was instructed to write to the department expressing their unanimous opinions that government should assume costs in removal or re-location of hydro poles when necessary for highway purposes instead of the hydro utility paying the costs. They referred for instance, to the tremendous job connected with the federal wharf construction during the discussion at the March meeting of Council on Monday. They discussed the idea that all taxpayers were paying for this type of expense with the Nova Scotia Power Commission.

Since the N.S.P.C. is exempt from taxation councillors felt that the Digby County Power Board should be exempt from sales tax.

The Council had interpreted the reply to their February letter that the government assumes the cost to remove or re-locate poles when not on the highway right of way but pay on private property. The March letter is to clarify the wording.

Councillor Winchester reported that the Smith's Cove Historical Society was not financially able to make use of the D.A.R. Bear River railway station in Smith's

Cove. It is expected that the C.P.R. will dismantle the station.

The matter of a school maintenance man was brought up and questions arose as to which method of operation was more economical, maintenance man or have janitors for the maintenance work. Councillor Walter McAlpine, Weymouth, advised to call tenders through the media and have replies discussed by councillors.

C.C. MacInnis, superintendent of Digby schools was unable to keep an appointment with the municipal council on Monday morning for discussion on the capital budget of \$43,000 of which \$12,000 is for paving and \$5,000 for a fire alarm system. These they felt should be put out for tender and be reviewed by the municipal councillors. They felt that if the school takes financial matters in their own hands they must take responsibility for excessive expenditures. If they exceed allotments of budget the share of excess would be deducted from capital expenditure.

By regular motion the municipality decided to purchase two electric outlets, Lewis Lumber Co. Weymouth and the National Sea Products. The Digby County Power Board capital budget for 1975 was estimated at \$70,000. Sources of revenue were estimated at \$69,000.

Tabled for the next session were requests for grants, 3,000 to Recreation Commission and \$150 to the Digby County 4-H Leader's Councils. A motion to lower the interest from 14 percent to 12 percent was deferred to September.

Editorial

APRIL IS CANCER MONTH

Canadians have every right to be proud of the cancer research program in this country as well as the available treatment facilities.

One should remember that the battle against cancer is of such a nature that one measures progress in terms of what has happened over a number of years rather than a number of days, weeks or months.

It is thirty-six years since the Canadian Cancer Society was established. At that time a surgeon had no heart-lung machine, no plastic prostheses to use as replacements for great vessels and other parts of the body, no blood banks, no antibiotics. The radiologist used relatively low voltage x-ray and, if lucky, had one or two grams of radium which he called a radium bomb. He knew little about dosage. He had not heard about Cobalt 60, of the Betatron or of the Linear Accelerator. He knew little of the possibilities of high voltage radiation from any source.

The physician had no chemotherapeutic agents. The Pap smear was not yet known. Cancer detection programs of any kind were non-existent. Treatment agencies in Canada were either non-existent or in their infancy.

In this country, less than \$10,000 a year was being spent on laboratory or clinical research in cancer. That figure has grown to more than \$5 million.

Now there are more sophisticated detection methods. Radiation, surgery and chemotherapy have made treatment of the cancer patient safer and more effective. Clinical trials on new techniques, new compounds and new approaches are being conducted. Chemical carcinogenic agents are being tested and eliminated from the environment.

This program costs a great deal of money. It comes from one main source - the Canadian public. When a canvasser of the Canadian Cancer Society calls on you during the April campaign, be generous. Remember how far we have come in the struggle against this disease. Remember how much farther we need to go.

The National Objective-\$10 million, Nova Scotia's objective is \$240,000, and the Weymouth District Unit, which includes, Digby, the Neck and the Islands is \$2800.00.

TRIBUTE TO LAURA SPURR

Friends were grieved to learn last week of the death of Mrs. W. H. (Laura) Spurr, Deep Brook. Mrs. Spurr's activities had been lessened during the last few years because of ill health and her condition had hospitalized her for the past few months. However, her influence will remain and her memory revered into the far future. One of her most remarkable feats was being church organist for 60 years. Besides, you could also find Mrs. Spurr active in other phases of church and community life along with being a fine and dutiful wife and mother.

As a correspondent for The Chronicle Herald along with other activities Mrs. Spurr and this editor frequently met on common interests. We had great admiration for Mrs. Spurr whom we found ever ready with a smile and friendly conversation although years and illness were taking their toll. To Mr. Spurr and her family we extend deepest sympathy.

GRASS FIRES

We have seen grass fires already this Spring in sections of the Annapolis Valley, although we have not seen any in the Digby area. That should make this a good time to send out some warnings on grass fires before they start.

Generally adults start these fires and are able to control them but there's always the chance of the fire getting away from the adult. Nevertheless, our warning particularly goes out to adults and parents to caution the children not set grass fires. They often do, you know. They like the excitement and the feeling of being grown up while the truth is they do not stop to weigh the consequences of grass fires and the danger of property and even life. Our Digby Fire Chief, Vaughn VanTassell, has told us that four and five homes can be damaged or burned to the ground at the same time from grass fires. None should be set at all before five o'clock p.m. he advised.

Adults should instill in the minds of the children and older people if necessary that the Digby firemen and firemen in all our outside villages are volunteer firemen who have to work to make a living. It is not at all fair that these

men should have to leave their work to fight grass fires that could have been avoided. Firemen are here to protect us and it is our responsibility to refrain from using them for needless fires.

Whether Digby County farmers are taking the world shortage of food very seriously and feel their responsibility to help in beating the famine that is prophesied for the world, we do not know. We do know that there is a rejuvenation in farming in Digby County. There are a number of young men who are taking an interest in farming. This is something which had fallen off in the past years. Young village boys wanted to go out into the world and leave the rural areas behind. Of late the younger generation are getting their education and then return to the farm.

As we said above, we do not know if the world food shortage prompted this rejuvenation, whether the farm business now looks better for a better living, whether young people want to avoid the crowded, unhealthy and disturbed cities or what we do not know.

We have a guess about the Digby County rejuvenation. With due respect to previous agricultural representatives for Digby County we must give a lot of credit to our present representative, Bruce Gilliatt. He is a young vigorous, industrious man with a sparkling personality. He is on the level with the young men of the area and has made agriculture appeal to them. Mr. Gilliatt has arranged workshops and seminars to keep the farmers, older or younger, up with the newest methods, newest equipment and newest scientific information. He knows the benefits of publicity to keep people informed on events and procedures. New methods, the reason for new methods and up-to-date information attracts farmers, gives them more incentive to do a good job and a general boost to become a good farmer demanding a good income. Never have we seen workshops, seminars and lectures on the Agricultural program ever before.

Give a big boost to the Digby County Exhibitions in Bear River in August. Better quality entries can be expected and this "show window" for agriculture will engender more interest in the farm life again.

Whatever, the reason, food shortage or other reasons, the farming rejuvenation in Digby County cannot help but work wonders not only to provide food for overseas but to keep the soil productive and continue more crop resources in our own country as the years go by.

We congratulate Bruce Gilliatt, the agricultural, department interests and the Digby County farmers, themselves, on an excellent program creating extra interest in farm affairs. The outlook looks much more promising than it had for some time.

Hodge Podge

Thomas Kines, national director of CARE, appeals to all our readers to save the lives of the people of Asia, Africa and Latin America from starvation by skipping one meal a week, or serving smaller portions or less expensive foods. What a day to start the metric system, April Fools Day!

The Faculty of Commerce of Saint Mary's University, Halifax is conducting a seminar on Flexible Working Hours on Monday, April 14.

The advantages to flexible working hours are that the worker selects time suitable in him and becomes a more satisfied and better worker; deflates rush hour transportation problems; creates a new perspective on overtime; allows for self supervision; enlarges the scope of leisure time and none of these cause the productivity to decrease. Maybe everyone wouldn't agree but there might be a time when it would be advantageous to ease the unemployment situation.

EXPECT HIGHWAYS BEAR COSTS MOVING HYDRO POLES

Continued From Page 1

Councillor Erwin Marshall reported that welfare payments in March were down somewhat from the previous month. In January there were forty-four recipients and in February, forty-five at total costs of \$1114 and \$1577. Home for

Special care costs were \$13,699 and 13,791. Welfare policy is that no able bodied person will get welfare if they leave their job on or while they wait for unemployment insurance.

A letter from Willis Mullen, Village secretary, Weymouth, asked permission to remove the Weymouth cenotaph from its place to the Registry of Deeds property. The Weymouth district municipal councillors are to survey the situation and contact the Legion for their opinion as the cenotaph is in memory of two world war casualties.

A complaint of a Centreville lady regarding a property which is a health and fire hazard was read. Legal ownership of said property will be investigated by Council.

Other matters before Council were looking into possibilities for Low Rental Housing; being designated for Neighbourhood Planning Service and a County wide fire protection. No decisions were made on these matters.

Hodge Podge

Read a story last week in the Chronicle Herald about a man in Ridgefield, Conn., by the name of Godfrey Cambridge. He was dissatisfied about many things in Ridgefield after coming there for peace and quiet to a 14 room home and swimming pool. The story which got into the Chronicle Herald had no connection with Nova Scotia, it was more or less a human interest story and we wondered how the Ridgefield Weekly Press handled it, if they did. Sure enough the story was there and editorial besides. The weekly papers everywhere seem to be right on top with the home town news.

We approve highly of the agricultural workshops and seminars which are being held around here. Looks as if agriculture might come into its own. We just thought you might enjoy, as we did, the farmer who didn't see any point in listening to the agricultural lecture. Why should he? He already was farming only half as 'good' as he knew how.

OPEN LETTER

Dear Friends and Neighbors:

After considerable thought on the complex problems facing me as your Mayor, I believe I should attempt to place before you, the various areas and degrees of concern I have, with my views as to the possible solution. It is my view that solving a problem is to put into effect, the most appropriate formula which relates to the priority of such problem or requirement.

To be truly responsible and representative of your community and welfare, I am concerned in a number of very important developments which should be implemented without undue deferment.

The question of sewage treatment holds first priority with me. Reviewing briefly the situation regarding the installation of a sewage treatment system for Digby, reveals that a plan was conceived, approved and ready for tender call, at an estimated cost of \$850,000.00.

By change of requirements of the Department of Environment, the affluent discharge on the Basin floor at the Joggins, was to be re-routed to deeper waters east of the Nova Scotia Yacht Club in the south end of Town. By reason of this re-assessment, we suffered a time lapse, during which the cost of providing this treatment system, rose to proportions which when tenders were called, resulted in a figure of some one point seven million dollars, and increase of 100 per cent.

This resulted in another stalemate and a staggering deterrent to immediate action by your Council. It became evident that a re-assessment of the sewage treatment plan was in order. During this time, we held an election in Town. A short time later, we faced the resignation of a conscientious Mayor. After the required time and due process, I was elected to serve as your Mayor, a responsibility I pledged my utmost to.

After attempting to analyze the situation, my conclusion was to re-activate the sewage treatment proposal so, I requested a re-evaluation and estimate, which came in at 1,980,000.00.

The resultant of a figure of this magnitude, when sifted down, would mean about 45 cents per one hundred dollars of assessment extra to our ratepayers. Further investigation includes consideration of land purchase, easements, maintenance, etc. Certainly

areas which, I will want to acquaint you with, since it would mean something like a thirty year commitment.

I also wish to point out the requirement of street paving, waterfront protection, general services, equipment and supplies. In my view, the hour of decision is at hand. It is not my intention to do anything of a unilateral nature which denies the right of you, the citizens to authorize such actions. There are areas in Town which in my layman's view, are in need of sewer service. These areas were defined in a report I presented to Council in the fall of 1974. This report embraces sections of the plans accepted as the overall sewage treatment system. My suggestion to install sewer services in the areas mentioned in my report, is based on evidence of notable pollution in open ditches where children may pass while at play. It is my desire to place the cause before the authorities, to leave no doubt as to the excessive tax burden and, to relate the ability of our citizens to carry this burden and yet provide the additional requirements of a growing community. With a population of approximately twenty-three hundred people of moderate income, the need for conscientious planning is paramount.

To speak to you in this manner, necessitates that I comment on an open letter in the Digby Courier by Councillor E. Chipman, under date of March 27th last, dealing in part with various possibilities of the old fire hall is being recognized by by Councillor Chipman. What puzzles me, is the need for giving the impression that this matter is so late in coming to light.

May I quote from my personal diary of January 24th last, "This morning, I went downtown where I met with the Town Clerk, and Deputy Mayor Phil Robertson. We three, went to the old fire hall, to look it over and assess its possibility for a temporary town hall. There is considerable space in this building and it could be remodelled and would make a presentable town hall."

May I say that the suggested rumblings under the table could be in conscience. Councillor Chipman was invited to accompany the Mayor, Deputy Mayor, and Town Clerk in inspecting the old fire hall.

I would also comment on the surprise unveiling of a model of the new town hall, made by Mayor Comeau, for which a bill of \$23.84 for plastic material appeared on November 74 monthly statement. This model is the result of a personal hobby; (I would recommend this type

of activity for anyone with little to do). The model was never intended as town property. In order to have it on display, I stipulated a protective shield must be provided, hence the charge for rigid plastic. No charge was made for constructing the shield. I want to congratulate Deputy Mayor Robertson, for his interest in trying to promote the erection of a structure which would reflect the dignity of Digby's citizens. I have stated before and I repeat, the present building is a disgrace to the dignity of the citizens.

With so much to do in living up to my affirmations as your Mayor, I regret the need for setting the records straight. I would have you know that I offered my services free of charge, in the preparation of plans for the modifications of the Old Fire Hall so that estimates could be solicited.

In conclusion, I think I hear echoes of my many references to programming, organization, priorities, areas of responsibilities, etc. I have learned many things from being exposed to the practical and I have no doubt others will also benefit from exposure. Backstage at Town Hall seems adequate description for lack of detailed plans submitted to Council.

Thank you for the privilege of speaking to you.

J. Patrick Comeau
Mayor of Digby

Bear River, N.S.,
March 31, 1975

Dear Editor:

I would like to respond to the two letters written by Marion B. McCormick and Cecil G. Miller in response to a previous letter written by E. Foster Hall.

First of all, I would like to say that both worthy citizens, though entitled to their own opinions, have, in my own opinion, misinterpreted the tenor of the Rev. Mr. Hall's letter. I do feel, in passing, that he should have identified himself as the Secretary-Treasurer of the Board of Trade, a post no property owner or long-time resident of the village was prepared to undertake, and that he therefore was qualified to speak about the plans for incorporation fostered by the

Bear River Board of Trade. Mr. Hall is too much of a Christian gentleman to imply that "we (residents of Bear River) are a bunch of fools and liars" and that "the intelligent...are for incorporation and the unintelligent are opposed." It seems to me he was only saying that we as citizens have a responsibility to ascertain the FACTS before we state what effect incorporation will or will not have. Surely this is nothing more than the duty of every citizen of a democracy. I did not know the facts so I joined the Board of Trade and began attending the meetings.

Since I have only attended two meetings so far, I do not feel I am in a position to state the benefits and disadvantages of incorporating the village of Bear River. Certainly, I never heard any of the four plans mentioned by the Rev. Foster Hall, discussed at the meetings I attended. I would appeal to the Board of Trade to publicize the advantages and disadvantages of incorporation which led them to pursue this study, preferably through the newspaper's serving the area. Then the citizens of Bear River will have clear access to the facts and be able to make a responsible decision should a plebiscite be called.

In response to the statement that clergymen should stick to their "calling", I would like to point out that Jesus said, "As the Father has sent me, so send I you" (John 20:21).

For what purpose was Jesus sent? "The Spirit of the Lord is upon me, because he hath anointed me to preach the gospel to the poor; he hath sent me to heal the broken-hearted, to preach deliverance to the captives, and recovering of sight to the blind, to set at liberty them that are bruised, to preach the acceptable year of the Lord...This day is this scripture fulfilled in your ears (said Jesus)" (Luke 4:18-21). Our Lord commissioned every one of his followers to be concerned with the earthly needs of people while seeking to prepare ourselves and them for the heavenly kingdom. As a former missionary of the Advent Christian

Film At Church of God

The Church of God, Digby will sponsor a motion picture at their church beginning at seven p.m. on Saturday evening. The sponsored picture, **A THIEF IN THE NIGHT** is a mighty motion picture about Bible prophecy. It shows what can happen when Jesus Christ returns. This exciting story centers around Patty, an average girl caught up in living for the present, with little concern about the future. What happens when this thinking finally catches up with her provides an action packed, unforgettable drama.

The fast moving pace includes a young man confronted by a deadly Asian cobra, a young girl's daring escape from jail and a take-over by "The Imperium" that regards all who are not properly identified as enemies of the system. Filmed on location, in Iowa, this picture portrays with devastating reality the Biblical prediction, "There will be no place to hide". One does not merely view this film, he experiences it. Every thinking person will seriously consider its impact.

Dan D. Apple Winner

"DAN D. APPLE" designed by Mrs. Audrey Goucher of Newport Station, Hants Co., is the life size and light hearted symbol of the Annapolis Valley's apple industry and Apple Blossom Festival.

The winning design by Mrs. Goucher was the unanimous choice of a four-member independent panel of judges who studied the 82 different symbols that were submitted from all parts of the Annapolis Valley. Mrs. Goucher receives the first prize of \$60.00.

The runner-up prize of \$25.00 was awarded to Frances Taylor of Cambridge Station, Kings Co., for her entry of "Apple Dan"; and the third prize of \$15.00 was won by Christine Stevens, P.O. Box 98, Berwick, with her submission of "MacIntosh".

A suave, debonair and light hearted character, DAN D. APPLE has a bright, red apple head with green leaves, a red jacket with black lapels, green cravat, yellow vest, yellow trousers with green stripes, and black walking stick and shoes.

The symbol and name will be registered for use in the Apple Blossom Festival and by the Nova Scotia Fruit Growers Association who provided the prize money of \$100.00.

Mr. Geoff Wright of Kentville, in announcing the winner, said two outfits are being ordered and Dan D. Apple will make his debut in person at the concert in Convocation Hall at Acadia University on Friday evening, May 30. Mr. Wright indicated that Valley residents may catch a brief "passing" glimpse of Dan D. Apple a little earlier in the week.

Mr. Wright said all 82 contest entries will be displayed near the entrance Acadia's Convocation Hall in Wolfville during the concert on May 30.

The winning symbol has been sanctioned by the Board of Management of the Apple Blossom Festival following selection by the panel of judges consisting of C.E. Eaton, Inspector of Schools, for Kings and West Hants; E.W. Peill, past president of N.S.F.G.A.; Mrs. Una Hockey, Camelot Park; and Mrs. Donna Higgins, instructor in dining room services at Kings Regional Vocational School.

Festival president, Lloyd K. Hill said further program plans for the 43rd Apple Blossom Festival, including several innovations in addition to the receptions, parades, concerts and dances, will be outlined at a general meeting in April.

"Valley Heritage" is the theme of the 1975 Valley-wide festival.

tosh, District Secretary, Canadian Bible Society, Halifax, was in this area he visited Mrs. Mullen and on behalf of the Canadian Bible Society, presented Mrs. Mullen with a Life Membership Certificate for her interest and support over the years.

Letter to the Editor
Continued From Page 2

denomination and a present licensed minister, I believe the Reverend Foster Hall is acting within his mandate when he mixes in "local politics". Only as the Church has led the way has social reform come about in days past. As a descendant of the Rice family who were pioneer settlers in Bear River, I commend the efforts of E. Foster Hall and urge all citizens to ascertain the facts before they speak.

Sincerely,
Substitute Teacher
F. Beryl Henderson

Dear Mrs. Wallis,

On January 22nd, this year the Digby Rink Fund Raising Committee met for the first time to discuss ways of raising the \$57,000 required to replace the refrigeration plant and do the necessary repairs in the Forum. We were informed at this meeting that the Provincial Government would give us a matching grant of \$25,000, which left us with \$32,000 to raise. With the generous support of very many individuals, clubs and business interests this small group of 12 persons has managed to raise \$20,000, we still have a long way to go and would like now to have a definite answer from both Digby Town Council and the Digby Municipal Council as to what they are prepared to do to see that the Forum is back in operation for next winter's activities. We are told that the Councils are behind us and fully support us, but, how far behind and how much support? This committee plans to remain active and continue to find ways of raising the needed funds, but we must have some financial assistance from both Councils, a little less talk and a lot more assistance is needed from the people who are elected to represent us. The Digby Forum is the only public recreation building in the area open to all people of any age, no matter where they live.

It was his last paragraph that dismayed me most. Just what is this strange sickness of our human nature that assumes that any serious consideration of change in the status quo is prompted only by ulterior motives or personal self seeking? Are we to believe that only the people who are satisfied with things as they are, hold a monopoly on integrity or true civic concern? I hope that Mr. Miller will be big enough to credit other citizens of Bear River with the insight and honesty which he claims for himself. As for police protection, his comment reminds me of the man who complained about paying his fire tax. His reason? He had paid them for thirty years and never had occasion to have the use of the services of the fire department, and he felt that he had not received his money's worth! There are those in this village who are not so complacent, having lost more financially in our own mini crime wave of the last year than they would be likely to pay in taxes for the next ten.

Yours truly,
Olive Hazelton, Chairman
Digby Rink Fund Raising Committee.

Dear Editor,
With reference to the letters commenting on mine of an earlier date. I do not intend to enter into any mud slinging contest with Mrs. MacCormick, even if I had the inclination, I doubt if I have her ability. Her conception of a minister's "calling" is sadly out of touch with the realities of

life, but this can be excused as she does not list the exercise of this vocation among her many accomplishments. The days when a minister maintained his security by careful non-involvement in the so-called secular affairs of the community went out with the ox carts and the sailing ships. No minister today is barred from being a member of the community in his own right; or forbidden to have an interest in its affairs; or to be excluded from sharing in any activity that relates to the common good.

I appreciated Mr. Miller's comments, but regret the repetition of the same rumour that prompted my first letter. In a sense, this repetition gives emphasis to my concern for the irresponsibility shown, in the ready acceptance, and relaying, of such statements. This, not by a significant group within the community, but a small group who have already prejudged the issue on a personal, not community basis.

Mr. Miller repeats the statement "The taxes will be doubled". Who told him this? Did he ask for any proof? Or is it only a personal opinion related to his own comment, "I would not want to pay taxes for the sanitation system downtown?"

It was his last paragraph that dismayed me most. Just what is this strange sickness of our human nature that assumes that any serious consideration of change in the status quo is prompted only by ulterior motives or personal self seeking? Are we to believe that only the people who are satisfied with things as they are, hold a monopoly on integrity or true civic concern? I hope that Mr. Miller will be big enough to credit other citizens of Bear River with the insight and honesty which he claims for himself.

As for police protection, his comment reminds me of the man who complained about paying his fire tax. His reason? He had paid them for thirty years and never had occasion to have the use of the services of the fire department, and he felt that he had not received his money's worth! There are those in this village who are not so complacent, having lost more financially in our own mini crime wave of the last year than they would be likely to pay in taxes for the next ten.

I would again seek to stress my original point. A group of Bear River citizens are examining the possibility of Village Incorporation. No more, but no less. To do this effectively, they are looking

closely at both the possibilities and the problems. The sharing of this study by open minded and unbiased people is invited. If there is to be any "brainwashing" let the truth do the washing. It will not do any of us any harm, and it will surely be more to our credit than being brainwashed by second hand rumours and deliberate distortions. If discussion of the future of the village cannot be done with reasonableness and intelligent concern, it will have no future, except that of a decaying monument to the past.

Yours sincerely,
E. Foster Hall

HAYNES-FINDLAY
Saturday afternoon, March 22nd, was a joyous occasion for the families of George Haynes and Diane Findlay. The wedding of this couple, well known in the Digby community, took place at the Lighthouse Church of God at 2:00 A reception followed in the Legion Hall.

Mr. George Haynes, son of Boyd and Alice Haynes, was a widower and father of four children. Mrs. Diane Findlay, daughter of Michael and Charlotte Isaacs, was a widow twice and the mother of three children.

The bride and her attendants wore floor length

longliners for fisheries development projects and manpower training courses, will be outlined at a meeting in Halifax March 25. Officials of Environment Canada's Fisheries and Marine Service and of the Atlantic Fisherman's Association and other fishermen's representatives will attend.

Weddings

The couple, with their children, will live in Mt. Pleasant. George is employed at Wilson Hardware and Diane in Digby General Hospital.

Many friends and relatives gathered at the Legion Hall for the reception. A few who could not attend the wedding were able to be there. Serving the cake, was done by Miss Kathleen Haynes, daughter of the groom and Miss Brenda Sivret, daughter of the bride.

The best man was Mr. Fred Smith of Mt. Pleasant and groomsmen were Leonard and Robert Sivret, sons of the bride and Kevin Haynes, son of the groom. The double ring ceremony was performed before a large audience by interim pastor, Francis E. Burnett. Mrs. Doris Brown sang "Each For The Other" in the early part of the wedding service and "The Lord's Prayer" at the close of it. She was accompanied by her daughter, Miss Laura Brown, organist.

CLOUGH SAUNDERS

Mr. and Mrs. Furman DeLancey Saunders of Balboa, Canal Zone, and Sandy Cove, Nova Scotia, announce with pleasure the recent marriage of their daughter, Lancy Saunders, to Mr. Thomas Clough, son of Mr. and Mrs. Stanley Clough of White Plains, New York.

The bride, a graduate of Balboa High School, Parsons School of Design and New York University, wore a de la Renta designed dress in coppersone crepe during the

wedding and reception which followed.

The double ring ceremony was the first for the officiating minister, as well for the bridal couple now living in the city of New York.

BAXTER In loving memory of my dear wife Alecia Gertrude Baxter who passed away April 2, 1964

It's hard to walk the road alone
Instead of side by side
But to all there comes a moment
When the ways of life divide.

You live one year of happiness
Then come the sorrow and tears.
But you leave me beautiful memories
To treasure throughout the years.

Always remembered, by husband, **CHARLES BAXTER.** 34-1ip

The Undersea World Of Jacques Cousteau

Fort Lauderdale is the embarkation point for Jacques Cousteau and his team of underwater adventurers as they head for Yucatan to search out "The Sleeping Sharks of Yucatan", the next adventure in "The Undersea World of Jacques Cousteau" airing Monday, April 7, 7-8 p.m. on the ATV

Television System. Captain Cousteau and Philippe Cousteau take to a PBV, a World War 2 plane, completely appointed with oceanographic navigational equipment, capable of putting down on land or sea. They will rendezvous with The Calypso at sea off Yucatan.

There they are joined by Dr. Karl Kuchnow, a shark expert; Raymon Bravo, author of "Isle Mujeres" and a lobster diver who first discovered that sharks in the area 'rest' in underwater caves. Six girls were then enrolled into the sisterhood of Guiding by Captain, Mrs. Shirley Williams. Welcomed into Violet Patrol were Debbie Simmons and Cathy Gates. Into Daisy Patrol, Norma Acker and Lori Brooks, and into Daffodil Patrol, Laurie Cassidy and Trudy Gillam.

Three senior Guides were awarded their Canada Cords, the highest achievement in Guides. Juli Harris was presented with her Cord by her mother, Mrs. Kay Harris; Mrs. Shirley Williams presented Cords to Teresa Henshaw, and to her daughter Judith Williams. Mrs. Joyce Rice, Chairman of the Local Association, presented all three Guides with the Canada Cord Pin, and Cadet Rachel Wagner, gave each of the girls a single red rose on behalf of the Company. Following congratulations, the Company was dismissed to prepare for the Thinking Day Pageant.

The Brownies had collected their pennies and glued them on a cardboard Owl, and he now stood among the "Friendship Trees" of the Guides. During the past month, these bare trees blossomed with leaves and flowers as each guide wrapped her pennies in crepe paper and fastened them to the bare branches. This money is used to promote Guiding, both at home and abroad.

If you had been passing the Fire Hall in Bear River about 11:45 a.m. last Saturday, you might have wondered at all the activity. An excited group of Guides and Brownies, plus three leaders, were boarding the bus for a trip to Halifax, and the Ice Capades. Promptly at noon they pulled out, and all settled down for the ride. The girls sang a variety of Guide, Brownie, and school songs until they reached the city. They ate an early supper on the bus and then entered the Forum, where programmes and other souvenirs were bought. Finally all were settled in their seats, ready for the opening number. They were all disappointed to hear that

The Guides put on two short displays; in the first, the girls showed the various aspects of Guiding and how all were linked together by the World Association and the Law and Promise. In the second, girls represented some of the many countries in Guiding, and lit candles in remembrance of their sister Guides. Both displays were performed with thought and dignity, and demonstrated to those watching, the world wide significance of the Guiding movement.

Several Brownies had been working on their World Friendship badge, and their scrapbooks, etc., were on display. Much effort had been put into the badge work and five Brownies passed their badge.

The evening closed with a combined Pow-Wow Campfire, during which songs were sung from all around the world.

Refreshments were provided by the L.A. and ably served by the girls. Thank you girls, for a delightful evening!

Karen Magnusson would not be performing as she had been hospitalized the previous evening.

The performance was a great success, and enjoyed by all. A tired but happy group arrived back in Bear River at 11:30 p.m. Thanks were extended to the local Association for supplying financial assistance to help pay for the bus, and to the leaders for giving up their Saturday to chaperone.

An interesting sideline of the trip-many of the girls raised the \$5.00 charged for ticket and transportation themselves, and are using this saving towards earning their Thrift Badge.

Learn
Landclearing Technique

Farmers, bulldozer operators and others of Digby County are invited to a Landclearing meeting at the Royal Canadian Legion Hall, Weymouth, on April 8 at 8 p.m. There they will learn the technique of proper landclearing. John Higgins, Agricultural Engineer for the Agricultural Department, Truro, will be presenting a good set of slides for the occasion.

In making the announcement, Bruce Gilliat,

Digby County representative for agriculture, said the new landclearing technique used in some parts of Nova Scotia was a result of two land schools held in Summerset, Kings County and Stewiacke, Colchester County.

Mr. Bruce said he was particularly interested because of the high cost of present land clearing and he also is interested in preserving as much top soil as possible rather than have it moved to the side where it becomes of no use.

Vacations Can Be So Relaxing... Sometimes

Travellers might take a warning from the experiences of a Newcastle, N.B. man on vacation.

Venance Breaux of 616 Chaplin Island Road.

Mr. Breaux and his wife returned last week from a shortened trip to Florida that included a near-robbery in South Carolina, money-changing difficulties in Maryland, and an actual theft in Montreal.

Shortly after reaching Florida for a vacation, Mr. Breaux received word that his four-year-old son at home was lost in nearby woods, and they headed back home.

He reports that in South Carolina two men tried twice to force open the door of their motel in an apparent robbery attempt.

In Maryland, he says he was unsuccessful in getting a quantity of Canadian money exchanged for American dollars including attempts at six banks.

Finally, in Montreal he registered at a large downtown motel on Monday, March 17 where his car was taken by a bellboy to be parked in an underground garage.

Mr. Breaux says he and his wife left almost all of their luggage, including both summer and winter clothes, in their car.

When they woke up next morning, "everything was gone," he said - their 1974 car and its contents which he valued at about \$1,200.

Mr. Breaux reports a city detective telling him that his was the fifth such car taken from the motel in the past year.

The couple stayed in the motel lobby with no baggage offered by the hotel management he claims, until 6:00 p.m. that night when the Breauxs went to stay at his brother-in-law's place. They arrived home Wednesday night.

To Host Bantams

Digby will play host over the coming weekend to the Bantam C provincial tournament by the kindness of C.F.B. Cornwallis supplying the ice while the Digby Forum is closed because of the loss early in the year of the ice-making equipment.

Bantam teams participating in the tournament will be Glace Bay, Kentville, Halifax, and Digby. There will be six games played at 8 a.m.; 12 noon and 4 p.m. on Saturday and Sunday.

The official opening with His Worship Mayor Patrick

Comeau in attendance will be at C.F.B. Cornwallis on Saturday at 12 noon. Presentations will be made after the four o'clock game on Sunday.

Bantams will be billeted at homes in Digby.

Also scheduled for Saturday and Sunday at Cornwallis is the Midget C provincial tournament. Teams will be from Middleton, River Hebert and Antigonish.

Those attending the tournament can witness six games a day with both the Bantams and Midgets participating.

Easter in Bear River

Members and friends welcomed back the Rev. Earl Waterman and Mrs. Waterman, and Mr. and Mrs. Sterling Cassidy from their recent visit to Massachusetts where the annual Ministers' Conference of the Advent Christian Ministers of the Eastern Region. The Meetings were held at the Alma Mater of the Watermans, Berkshire Christian College.

On Sunday morning special music was provided by the Darres sisters, Jean, Diane and Wanda who sang "Have Faith in God." The pastor brought a fine message entitled "Easter is for You", while the Junior Church saw a filmstrip and heard a story about the events of Easter.

In Sunday School, Easter was the theme of the lessons studied. The children are engaged in their annual Penny Crusade for Missions and an offering of \$47.18 was received, making a total of \$171.44 collected thus far. Each Sunday an interview is held in which a missionary of the Advent Christian denomination is interviewed by Peter and Pat Penny. They interviewed the Rev. Floyd Powers, the Superintendent of the work

in Japan, on Sunday. Those taking part were Melody, Glennie and Brinley Peck.

On Sunday Evening, the Lord's Supper was observed. At this time the quarterly "Children's Communion" was served...a recent innovation to enable the children to more fully realize that they are a part of the family of God and beloved by God and by the Church. Before partaking of the Communion elements, they saw a filmstrip of The Last Supper. Then the pastor brought stirring messages on Goals for the Spiritual Growth of the Church."

The Advent Christian Sunday School Library has recently extended its holdings to include a set of Encyclopaedia Britannica, source books in the Social Sciences and 10 years of Readers' Digest, as well as Nature and Young People's Science Encyclopaedia. The Church basement is open from 7:00 to 9:00 each Tuesday evening for recreational reading, research, study or discussion. Special music may also be practised. An invitation is extended to the community to make use of these facilities.

Many interesting pieces of pottery, bedroom slippers, fancy coat hangers and other hand-made articles were sold.

Friends were amazed at the quantity and quality of the work done by members of the group during winter afternoons while they enjoyed the comfort and companionship of the Centre.

More than \$250 was raised Saturday afternoon. This money will be used for supplies and other expenses during the coming year.

The Bear River New Horizons Group held a successful Open House at the Centre on Saturday afternoon.

A great variety of work done by the members was on display including a quilt, afghans, other knitted and crocheted articles and pottery.

Tickets were sold on a doll with a beautiful hand-made wardrobe. This was won by Miss Debbie Durose of Cornwallis.

Mrs. Max Isles was the fortunate winner of the blue and white patchwork quilt which was sold by hidden auction.

Want \$400

Want \$400? There is a way you can get it by entering a competition "Our Hometown Paper," sponsored by Dominion Textile and the Canadian Community Newspapers Association. The award will not go to the newspaper staff or contributors but to the reader of the CCNA weekly who best describes in his or her own words just what the weekly newspaper means to him or her.

The written expression of frank opinion should be at least 250 words but should not exceed 700.

Objective is to encourage CCNA readers themselves to think about what their weekly means to them, their families, their lives and their communities, and to set these thoughts down in straightforward language. Polished literary expression is not sought. The judges will be interested in simple, clear exposition that indicates an awareness by the reader of the role of the weekly in the community.

Member papers will, of course, have to advise their readers of this award and solicit such entries. Entries will first have to have been published in the member paper.

The submission will have to be made by the individual reader, jointly with the newspaper. There will be only one reader-winner. This individual will receive \$400, and a gold medal. But because the publisher participates in obtaining such entries, and because a winning submission is a reflection of his own position as a factor in the community, an award of \$200, and a gold medal will be made to the publisher of the winning reader-entry.

Judges will not look for excessively high praise for the local weekly! they will study the judgment and understanding by readers of the function of the weekly. This could come from a weekly of any size - large or small.

ALL ENTRIES MUST BE POSTMARKED BY MID-NIGHT, MAY 30th, 1975!!
Send your submission.

Sewage System Proposal

At the Digby Town Council meeting presided over on Monday evening by His Worship Mayor Patrick Comeau, the Town Clerk, Glen Pitman, reported on a meeting held on April 3, in Halifax with the Minister of Environment, representatives of the Departments of Municipal Affairs and of Finance and Joe Casey, M.L.A., Digby on Digby sewage problems. Attending the meeting on behalf of the Digby Town Council were Mayor Comeau; two councillors, Philip Robertson and Guy VanTassell and Mr. Pitman, clerk. Mr. Pitman had high praise for the manner of presentation by the mayor and councillors.

His Worship placed before the government personnel the problem that the Town of Digby cannot afford the complete installation of a

sewer system and treatment plant at a price of two million dollars. He charged that the delay in design was no fault of the Town of Digby and because of the delay the price escalated from the original cost planned by the town to nearly two million dollars. He told the ministers and Mr. Casey that he felt the province should bear the extra costs because of the delay.

The government officials found that proposal unacceptable because it would set a precedence but they realized a town the size of Digby could not afford a two million dollar sewer system.

His first proposal being unacceptable, Mayor Comeau presented the second proposal. This was to have the Department of Environment to approve the construction of a system as a phasing program, the first

phase to eliminate the sewer problems on Sydney St., Church St., Mount St., and sections of First Avenue according to original plans. The government representatives saw the proposal as being beneficial to the town. They did, however, insist that the outfall extend to low water as previously approved but the construction of the treatment plant could be postponed.

The Department representatives at the meeting said they would need time to study the second proposal and consult other departments. They expect to advise Digby of their decision within 30 days.

The mayor and councillors represented remarked that it was a day well spent, they were well received and got a sympathetic ear.

THE MAYOR WANTS TO KNOW

His Worship, Digby Mayor Patrick Comeau, wants to know the thinking of the Digby people on several civic issues. He feels this is the citizen's town and he would like to see more participation and input by the citizens in general. With this in mind Mr. Comeau has suggested that a general public meeting of interested town people would be a great help in making civic decisions which would be of most benefit to the majority and comply with their wishes.

In naming just a few things to discuss and get views upon at such a meeting, His Worship mentioned the Annapolis Valley Apple Blossom Festival as one. Do the citizens of Digby want to participate and, if so, to what extent? Another matter is choosing Digby's Citizen of the Year. What method of choosing the candidate should be used? The Mayor favors the more democratic way of having citizens of the town submit names accompanied by qualifications rather than the choice being that of Town Council. He wants to know how the public feels on the question. Many more items of concern, some more weighty and some of lesser degree, were mentioned by Mayor Comeau. For instance, how do the citizens feel in regard to a town hall which would reflect the dignity of the town and its citizens?

His Worship, Mayor Comeau, in his interview with the Digby Courier, emphasized that he wants to make the best decisions for the town and wants to encourage the citizens, themselves, to help form the proper decisions.

Should Mayor Comeau get enough interest he will call such a meeting within the next two weeks to hear expressions of opinions on subjects of interest to all. Phone His Worship or drop him a letter at once if you approve of such a meeting. The town is yours. Are you interested?

Addresses Association

Mrs. Helen Anthony was hostess for the monthly meeting of the Admiral Digby Horticultural Society at her home on the evening of April 2nd. Mrs. B. Hutchins, president, presided. She welcomed three guests, Mr. and Mrs. Donald White and Mrs. Wm. Troup, Sr.

A short business meeting was conducted with committees reporting on the various activities planned for the coming months.

Clyde Everett had informed the Garden Club he was replacing the concrete planter on the Boulevard, that was damaged last fall. Garden Club members will be in charge of the flowers and care of the planters throughout the summer.

Several other Town projects may be under the supervision of the Garden Club, with the Town assuming the expenses. A committee will meet with the proper authorities to consider what is required.

It was learned six Girl Guides had volunteered to assist at the various areas under the care of the Garden Club. Other volunteers would be welcome.

Committees reporting on the arrangements for the

District Meeting in May, said all was in readiness. Mrs. Hutchins stated she hoped there would be a good attendance. The meeting will open at 7:30 p.m. at the Digby Baptist Church Hall on May 8th.

At the close of the business meeting Miss Tupper introduced Bruce Gilliat of the Department of Agriculture, as guest speaker for the evening.

Mr. Gilliat gave a detailed account, with slides, on the proper methods of producing a good home flower and vegetable garden.

With suitable soil, fertilizers, location and good grade of seeds, a well kept garden as a hobby or recreation, can provide the average family with fresh vegetables during the summer and a surplus for winter storage.

TRAILER BURNS

The trailer owned by Mr. and Mrs. Terry Melanson, Weymouth, was completely destroyed by fire on Thursday. No one was home at the time of the fire, which was first seen by Mrs. Donald Bell. Mr. Bell called the Fire Department.

Turns Down Liquor License Request

Councillor Guy Van Tassell, chairman of the Digby Fire Committee for the town, presented a request at the Digby Town Council on Monday evening asking their support for the Digby Volunteer Fire Department in obtaining a liquor license. The Fire Department had written to the Nova Scotia Liquor License Board for information in obtaining a liquor license and one stipulation was that authority to apply would be necessary from the Town Council. After presentation of the Firemen's request,

Councillor Van Tassell said his committee did not concur with the request.

Two citizens of the town, Vincent Snow and Rev. Ronald Stevens, early in council meeting appeared before Council in opposition to granting the Digby Fire Department a liquor license. Later in discussion five letters were presented from religious bodies in Digby viz. the Pentecostal Church, Seventh Day Adventists, Church of God, Grace United Church, Salvation Army. Mr. Snow's presentation was on behalf of The Federation

on Alcohol and Other Drug Problems.

In his presentation Mr. Snow said he could see no good reason for a fire department having a liquor license. He said there is a growing concern over the increasing number of liquor licenses being granted for different types of liquor outlets in Digby. There is a particular concern about any liquor license that may be granted a Fire Station, or Police Station, or any such place, and, considered opinion is, allowing such a license would be ill-advised to the point of folly.

Quoting from the Federation, Mr. Snow said "The ultimate solution to the misuse of alcohol and drugs requires more than Education about alcohol and drugs. It involves an intensified effort to develop stable and well adjusted citizens and to import the assurance that one can face the stress, strain and tensions of this fast moving age without their use."

Mr. Snow spoke on other phases of town business but closed his Federation presentation by suggesting that, if and when extra policing is needed to control liquor outlets that the extra cost be borne by the business in question.

Council adopted the report of Mr. Van Tassell's committee that they did not concur with the request.

In continuation of his report Councillor VanTassell revealed six fire calls in March, three from town and one each in Marshalltown, Conway and Mount Pleasant. They had also been called to a car accident.

Councillor Eileen Chipman brought up the suggestion that penalties should be placed on setting grass fires.

94th Birthday

Mr. Willis Minard Tibbetts, one of Brighton's oldest and well known citizens celebrated his 94th birthday on Good Friday, March 28th.

Mr. Tibbetts enjoyed his birthday, reading his many cards and eating birthday cake. Mr. Tibbetts' son, Francis of Halifax was present to help him celebrate his special day. Mr. Charles Lambertson 92 of Barton, one of the area's oldest known citizens, dined with Mr. Tibbetts for the special occasion.

Two of Mr. Tibbetts good friends and neighbours, Mrs. Walter Wood and Mrs. Edith Wyman each presented him with a birthday cake.

Ninety four year old, Mr. Tibbetts lives by himself and still does his own cooking and housework, even cutting wood for the stove.

Mr. Tibbetts has for many years been a member of the Salvation Army and he was twice commissioned as young peoples Sergeant Major.

The first occasion on which he was commissioned as young people Sergeant Major was in the United States and after a few years he was called upon to come to Nova Scotia to care for his brother who had a serious accident.

Mr. Tibbetts took his stand in the Digby S.A. Corp and in the following year was asked to take on the responsibility for the young people and was again commissioned to the office as young peoples Sergeant Major, the office from which he had previously retired.

Mr. Tibbetts is a good friend to all and is better known to many children as Santa Claus. On Christmas Eve of 1912, Mr. Willis M. Tibbetts put on his Santa Claus Suit, threw a pack of candy and gifts over this shoulder and set out for the road. During the evening he visited the homes at Barton and Brighton delivering the candy and gifts to the children doing tricks and telling stories.

Mr. Tibbetts enjoys telling how he got the idea of

Want Tax Exemptions

The first of several requests for tax exemptions placed before the Digby Town Council on Monday evening came from Canpol, a herring fishing plant on the property at the former C.P.R. wharf. J.B. Comeau, in the request reminded councillors that this was a new venture and they felt the assessment of \$131,000 was too high. Councillors questioned whether or not the Canpol establishment is in the town but in any case the Council decided it is not in their power to grant tax exemption to Canpol.

A motion to exempt Tideview Terrace from taxes was lost for want of a seconder.

A motion was made by Councillor Guy VanTassell, seconded by Councillor Philip Robertson and passed that the Digby Recreation Commission be exempt for taxes on the Forum. One vote was cast against the exemption.

The Town Clerk, Glen Pitman read a letter from Mrs. Reginald Hazelton, chairman of the Digby Forum fund raising committee requesting a grant from the town to aid in replacing the ice-making equipment which was destroyed by a blast this winter. Mrs. Hazelton's letter said that there had been an estimated figure of \$57,000 needed for the replacement of the parts, the provincial government would pay up to \$25,000 in a matching grant and the committee has raised \$20,000 to date. They now need

\$12,000 to get the project on the way and there has been no reply to their request to the town for assistance. The matter was again tabled to be taken up after a proposed meeting between the Recreation Commission, the Municipal Council and the Town Council is held.

The subject was again introduced about certain funds of the dormant Annapolis Basin Development Commission laying idle in the bank. The Basin Tourist and Recreation Council had requested that their funds be made available to them. It was pointed out that the Commission was an incorporated body and the funds belong to the Commission. It was suggested that someone should find out if the Commission has been active and contact people who have power over the funds.

A motion was passed authorizing the clerk to seek monthly statements from the Digby Housing Commission since it is a public project. It was noted that the town has no jurisdiction over the Senior Citizens Homes. It was further suggested that the mayor of the town should be on the Digby Housing Authority.

Councillor Gordon Ellis, Chairman of the Finance Committee presented bills for the month of March amounting to \$98.77. These were passed for payment. It was also suggested that a special meeting be held to go into the insurance on Town property.

ANNIVERSARY

A number of relatives and neighbours gathered at the home of Mr. and Mrs. George Winchester, Smith's Cove, N.S. to help celebrate their fifty-fifth Wedding Anniversary on Saturday evening, April 5th, 1975.

They were married at the home of her parents, the late Mr. and Mrs. Spurgeon Weir on April 7th, 1920, the officiating clergyman being the late Rev. Abner MacNinch.

Following their wedding they purchased a home overlooking the Digby Basin (near the present Mountain Gap Inn) where they resided until just a few years ago.

Mr. Winchester was employed for many years by the Dominion Atlantic Railway until his retirement.

Since retiring they both take pleasure in their garden and grounds and have their present home looking neat and tidy. Mrs. Winchester's hobby over the years consisted of making patch work quilts and sewing in general, as well as cooking.

Among those present was their only daughter, Wilda (Mrs. Clayton Woodman) as well as grand children and great grand children.

An anniversary cake was presented to the couple and after gifts were presented delicious refreshments were served by Mrs. Clayton Woodman, Mrs. Douglas Woodman, and Misses Julie and Susan Woodman.

Best wishes were extended to the couple by those present and a fitting reply was given by the honoured guests.

Slides on Florida were shown at this get-together and all present reported a pleasant evening.

50 YEARS MARRIED

It first started on February day Nora and Simon forever to stay But alone they stayed not for very long For soon was born Ella, healthy and strong Next came Simon, the family name to keep The boy first born, new heights for him to reach Last came Daniel, his place in line to take His talents added to the family make Three new born but the end was not so near For Ella went and found herself a dear Simon and Danny went and did so too And as time went by, so the family grew Little ones started to take their places Soon the house was full of bright new faces And so the story fills another page A familiar old tune that stays of age And all because one day fifty years past God as witness, two pledged their love to last And here they share together still in hand This story has no end, how could it be Always this world will hold their life to see

FOREST FIRES ALSO THREAT

Last week we tried to bring our readers to the awareness of grass fire time and urged them to caution the children about setting fires which are so dangerous to life and property. Since then our Department of Lands and Forests remind us of the threat to forests when warm weather arrives. As sunny days arrive and people are frequenting the forest areas more the forest fire hazard becomes greater.

In western Nova Scotia, the forest fire season commences about April 1. Under terms in the Lands and Forests Act, no persons in Queens, Shelburne, Yarmouth, Digby and Annapolis Counties may start a fire in a wood or forest area, or within 1,000 feet of such an area, without a permit between April 1 and October 15.

In all other Nova Scotia counties, burning permits are required between April 15 and October 15.

At these times, anyone wanting to burn slash, scrub brush or cuttings in a treed area must previously obtain a burning permit from a Lands and Forests Department office.

In Digby County, permits can be obtained from: Dept. of Lands and Forests, Hillgrove; Donald F. Brown, S.F.R., Digby; Burton E. Greene, T.F.R., Bear River; Arcade Comeau, T.F.R., Church Point; Alain Comeau, T.F.R., Bellevue Cove; Eldon Ford, Sub Ranger, New Tusket; Benedict Robicheau, Sub Ranger, Maxwellton; Daniel Morton, Sub Ranger, Centerville and Boyd Outhouse, Voluntary Ranger, Tiverton.

PAY MORE DRINK LESS

The social costs of drinking are soaring inexorably in Canada as the amount of drinking goes up. The United Church Observer warns in its current issue.

If Canada's drinking laws were further liberalized, to compare with those in a country such as France, it would mean "four times more alcoholics, traffic accidents, crimes, mental and physical illness, broken homes, welfare, medicare and insurance payments," writes managing editor James Taylor. The social and moral costs of alcohol are related to the average consumption, he points out, and not to the number of alcoholics.

Canadians now drink 30 percent more alcohol each than they did 25 years ago, Taylor reports. In addition, the proportion of adults who drink has jumped from 60 percent to 80 percent, placing Canada 12th in the world in consumption, ahead of such traditional hard-drinkers as the Scandinavians and Irish.

In Saskatchewan, a government committee concluded that a third of the admissions to mental hospitals, jails and courts, and 36 percent of the welfare bill was directly attributable to over-use of alcohol. The identifiable direct cost to the province in 1971 was \$17.5 million. That did not include the cost of alcohol-related crimes, accidents in industry, or police costs.

One way of reducing consumption, the article suggests, is to increase the price. It points out that compared to other prices and to incomes, the cost of drink has been steadily dropping. During a recent period when the cost of food went up 16 percent, the cost of alcohol went up two and a half percent. Twenty years ago a dozen beer cost seven percent of the Canadian average weekly income. Today it costs about three percent. Addiction Research Foundation statistics show that when price goes down, consumption always goes up. When price goes up, consumption goes down.

ATLANTIC SYMPHONY ORCHESTRA

An overflowing house greeted the Atlantic Symphony Orchestra when they performed at the Digby Regional High School Multi-purpose room on Tuesday evening. The performance was a treat to those who attended and the town was indeed privileged to have a performance to that degree of culture to visit here. Appreciation should be expressed to the sponsoring body, the Digby Recreation Committee, for their efforts in bringing the orchestra here. It was not only a fund-raising project but a cultural privilege.

Hodge Podge

— We had so many letters to accommodate that we relinquished some editorial space this week for the purpose. We are happy to do that for we approve of several different voices over an individual voice. Nothing like letters to create interest.

— Charles Douglas, Nova Scotia's retiring Deputy Minister of Agriculture was guest at a dinner in his honour. In a short address Mr. Douglas reminded the farmers and other guests that money is not the only ingredient required to advance the agricultural industry. Equally important, he said, is an infusion of new ideas and a co-operative attitude among farmers. He stressed education; formal education, extension education and leadership education and emphasized that the development of programs and policies must be done in co-operation with rural people.

— Quilters, all you famous quilters, there is to be a Nova Scotia open quilt competition at the Hants County Exhibition September 9 to 14. First prize is \$50 plus trophy and \$30 and \$20 for second and third. We also remind you that Digby County has an exhibition in August.

— Social security for the aged in some of the under developed world is not an old age pension cheque. Instead experience has taught them that to have one son live to be able to care for their old age they need to produce six children. This is for them, one point against birth control.

— Looks as if we might have some protection against these high pressure salespeople who frequently visit our doors with magazines, hearing aids and a few other items for sale. The door-to-door salesmen will soon be around. Many of them are university students using the summer for earning some spending money. A perfectly legitimate business. A bill to license and regulate the activities of door-to-door and other director sellers and their sales representatives was proposed in the Nova Scotia legislature. This should relieve the housewife (or whoever attends to such matters) from some of the door-to-door salesmen. The bill proposes licensing and bonding. The bill would apply to all goods sold on a direct sale basis including hearing aids, but excluding those goods which fall under the jurisdiction of other federal or provincial statutes, newspapers, or food or drink sold for human or animal consumption. Its proposed provisions do not extend to goods sold for wholesale or retail purposes or to those sold on behalf of an organization or corporation having objectives of a benevolent or charitable nature. Fines for not observing the law would be from \$100. to \$1000.

— There's no age barrier here. At its last monthly meeting, the Mount Saint Vincent University Board of Governors approved a policy granting tuition - free admission to university courses for persons over sixty years of age, provided that the course instructor indicates approval of the person as a member of the class. The policy will take effect with the beginning of the 1975-76 academic year in September and will be reviewed at the end of that academic year. It's free. How lucky can you get when you are sixty!

Letters

Dear Mrs. Wallis:

Since I was attacked in last week's Courier by both E. Foster Hall and Miss F. Beryl Henderson, I have no choice but to reply. Miss Henderson's letter really surprised me, because in addition to the fact that we are both descended from John Rice, who came to the Province in 1760, I had always considered her my friend. Now, her letter in which she calls Mr. Cecil Miller and myself "worthy citizens" sounds sarcastic, as her later remarks would indicate that she does not consider us to be anything of the sort. She states that she considers that we have misinterpreted Mr. Hall's earlier letter. It might interest her to know that many local residents and former

residents interpreted it exactly the same way. Up to the appearance of the two letters in last week's Courier I had received over 50 phone calls, all favorable, with the only adverse reaction coming from Mr. Hall and Miss Henderson, and since the letters appeared I have received many more, all congratulating me on my stand.

I gladly concede her education, her service as a Missionary, and her license as a minister, all of which makes her letter even more of a puzzle. Nobody who has contacted me has been able to make any connection between her Scripture quotations and the issues involved. Christ did not send out his disciples to take part in the political situation, and even under Roman occupation he never advocated rebellion, but rather said: "Render to Caesar the things that are Caesar's, and unto God the things that are God's" (Mark 12:17, and Luke 20:25). He also answered Pilate "My Kingdom is not of this world; if my Kingdom were of this world, then would my servants fight that I should not be delivered to the Jews" (John 18:36). And, unfortunately, the church is not responsible for all the social reforms, since much as I hate Unions, they were fighting for the rights of man while the church was still preaching submission. But, if they wish to claim credit for all the reforms, how does it happen that there were laws protecting animals many years before there were any protecting children? My authority for this statement is a highly

qualified Social Worker. I will make one more quotation from Scripture, only because someone else threatened to use it if I didn't. "Let your women keep silence in the Churches, for it is not permitted unto them to speak, for they are commanded to be under obedience, as also saith the law. And if they will learn anything, let them ask their husbands at home, for it is a shame for women to speak in the Church." (1 Cor. 14:34). Now, actually I do not believe this, since it makes no provision for the women without husbands, and many other passages commend their good works, some of which certainly involved speaking in church. I also resent her remark that we should ascertain all the facts before we speak. What does she think we have been doing? Questions asked by several people of members of the Board of Trade quickly established the fact that there is no agreement there either, since some of them have indicated that, privately at least, some of their priorities include many of the items which Mr. Hall says were never considered. I agree that probably they were not in any Board of Trade meeting, but they certainly have been by some of the individual members. My own efforts have been in the direction of finding out how Incorporation has worked out in the places where they have it, and the replies have been discouraging, to say the least.

Mr. Hall remarks that I "am not ordained to preach", and it would be extremely odd if I were, since for many years, like Thomas, I have been an honest doubter, and since the latest exchange of views I am now a total unbeliever.

Mr. Hall also accuses me of "mud slinging", which was not my intention. Much of my first letter was a quotation from one of his sermons, which I admit I did not hear, but I had it on good authority and have no reason to doubt it, since he said nearly the same thing in his first letter. He says that my ideas about the ministry are as out of date as ox carts and sailing ships. Well, I have three beloved cousins, one Roman Catholic, one Baptist and one Congregational, all in the ministry, and all three have spent their lives in devoted service to their congregations and efforts to improve their churches. I have known, and still know totally dedicated ministers who believe that their Commission was to follow Christ, who said that He had come to seek and to save that which was lost (Luke 19:10). With such examples before me, I guess I just set my sights too high! I am perfectly aware that Father Andy Hogan is an M.P. and so is Tommy Douglas. Since, after all ministers are only human, there is certainly nothing to prevent them from interpreting their calling in any way they choose, but they will have to live with any possible effects on their ministry.

Apparently, Mr. Hall does not read anything too carefully, since he asks "Who told Mr. Miller his taxes would be doubled?" That was answered in Mr. Miller's letter, when he said to "Ask Lawrence town". We know of people there whose taxes under Incorporation were exactly doubled, and now with doubled taxes they have big trouble. Saturday morning at 6 A.M. a tape recorded by one of those in authority was played on the early news regarding the fact that their brand new water supply was contaminated and that it had been necessary to boil drinking water ever since November. Now they are considering the possibility of having to install a Chlorinating Plant, with the extra expense involved. Considering how many people hate the taste of chlorine, I wonder how popular that move will be.

Actually, I am not against change if it will benefit the Community, but my investigations do not lead me to believe that Incorporation at this time will benefit anybody, but will rather be in the nature of an expensive experiment. And even for an experiment, the timing is all wrong. With the present rate of inflation, any improvements at all will be terribly expensive, and I think that it would be much better to wait to make any decision until the situation levels out, because if the present conditions should end up in any sort of a depression, which Heaven forbid, we will have huge debts and nothing with which to pay them. Mr. Hall claims that those opposed to Incorporation are a small minority. In that connection I have a suggestion to make. If anyone reasonably impartial can be found, and that would certainly not be Mr. Hall, Miss Henderson, nor myself, let them start out with two Petitions, one for and the other against Incorporation, and visit every house in the proposed village limits, and without trying to influence anyone in either direction, get them to sign one or the other. Then both Petitions could be turned over to the Board of Trade for their guidance. This would entail some work on someone's part, but at least we would know where we stand, and could stop this foolish argument which is certainly not good for the Village.

Yours truly,
Marion B. McCormick
Bear River, N.S.

Dear Mrs. Wallis:

On April 34 the village of Westport, as well as most other areas of the province, was lashed by a severe spring storm. Winds reached a peak of at least 75 M.P.H. from the East to Southeast, with driving rain, sleet and some snow.

Power lines were downed in some areas of the village, however damage was at a minimum to shore front property and boats that were moored. The value of our fine Government wharf was once again proved beyond all doubt - NOT ONE BOAT COULD BE TIED UP TO IT IN SAFETY!

To my mind it is high time someone did something about this matter before someone is injured.

For many years this problem has been brought to the attention of our members of Government and other responsible persons with the same result - NO ACTION. Last year Miss Campbell, our Federal MP as well as other important VIP's were in the village on a day that was less than nice,

weatherwise, and all agreed that an "ell" should be built at the earliest possible date. Hopes were high that this year 1975 would bring improvements to this poor excuse for a wharf.

The only improvements that we have, if it could be called improvements, was to have six men, two trucks, and a crane dig several holes on the lower side of the wharf, which have filled in by now, and the improvement is the installation of new capsons. The result of this expenditure is the same old wharf: USELESS AS EVER.

It seems a pity that perhaps one of the best, natural harbours in the Digby and Yarmouth County areas is left in such a state. It seems to be more than a pity that other areas where no natural harbour exists at all, can obtain millions of dollars to make one.

During the summer months millions of dollars worth of F. V's use this wharf but have to leave or suffer severe damage if any wind comes up.

For perhaps 15 years this wharf has been left unfinished. I think the people of Westport have waited long enough. In this length of time the Government has spent millions of dollars on a wharf in Saulnierville that as far as can be seen is for the private use of Comeau Sea Foods.

Since that wharf fell apart many millions more have been spent and are still being spent.

Now Meteghan is to have a new harbour complex, mainly for the use of the same fleet that can't lay in Saulnierville.

Why can't we in Westport get a 100 ft. extension and a Hundred foot "ell" added to what we already have? Is this too much to hope for? Do about two hundred votes mean anything to Miss Campbell? Or is she more interested in the Yarmouth area?

It would be very interesting to get some answer from her on these pressing problems IF IT WOULDN'T BE TOO MUCH OF BOTHER TO HER.

Yours truly
Gordon E. Thompson.

Dear Editor,

In view of the high municipal taxes, your reporting of Digby Municipality councillors salary increases appear to me to be quite staggering, especially when seen as a percentage increase. Warden 122 percent increase, Deputy Warden 87.5 percent increase, councillors 66.6 percent increase. The

Federal Members of Parliament want an increase of 50 percent and are meeting very stiff resistance from the people of Canada. I feel in these times of high inflation it is the duty of government leaders whether Federal, Provincial or Municipal to help set an example. I do not mean these officials do not deserve or are not entitled to a salary increase, but rather it should be kept within reasonable limits. I must commend the paper for mentioning the two councillors Byard Marshall and Walter McAlpine, opposing the increase, but it would be even better reporting if you had also mentioned the names of the six councillors who approved the motion.

The other matter that deserves further clarification is the purchase of \$11,000.00 worth of anti-freeze without at least the standard three quotations or tenders. It would be interesting for the taxpayers to know the price paid per gallon and from whom it was purchased. Warden Swift said the anti-freeze was obtained at a good price which "he felt other dealers would not be able to match. If he had sent out tenders he would know the best price and not just feel he had the best price. I do not think any individual or company would buy anything worth \$11,000.00 without shopping around. Would you?

Yours truly,
Edward Holm

Dear Editor:

Let ME live in a house by the side of the road,
Where the race of tax payers go by—
Some men are rich, some men are poor,
As rich and as poor as I.

They want to sit in the scorners seat,
And raise the taxes plan—
Let ME live in my house by the side of the road,
And be a friend to man.

With apologies to SAM WALTER FOSS
As yet we have free thought and free speech in Bear River, THANK THE LORD.

In closing I would like to quote this poem by Eugene Lee Hamilton—

Things by gone are the only things that last:
The present is mere grass, quick-mown away;
The past is stone, and stands forever fast.

EASTER ACTIVITIES

The week preceding Easter and the Easter weekend was one of much activity in the Church of God, Digby. On Monday night, March 24, there was choir practice which was especially used for practicing music to be sung at the Concert. On Tuesday night, several members went to Tideview Nursing Home and spent about 45 minutes in singing hymns dearly loved, special numbers by Aubrey Forrest and Pastor F. E. Burnett and a short message having to do with Jesus' sacrifice.

Pre-Easter services began on Wednesday night and continued through Friday night. Both Wednesday and Thursday were regular worship services. Friday night was given over to a special kind of Communion service. Pastor Burnett used flannelgraph figures and pictures to correlate the Old Testament story of the "sacrificial offerings" and the Tabernacle furniture, which are all types of Jesus Christ, to the story of the crucifixion of Jesus.

Easter day began with a sunrise service at 7:00 a.m. and breakfast following at 8:00 which was prepared and furnished by the Dorcan ladies. Sunday School was at 9:45 and Morning Worship at 11:00. The Easter Concert finished 7 days and nights of joyous activity and fellowship at 7:00 p.m. on Sunday evening. Attendance at all services was good. Respectively on Sunday, it was: 83, 90 and 105. The Lighthouse Church of God welcomes one and all to any of its services.

LETTERS TO THE EDITOR

Dear Mrs. Wallis:

AN UNFAIR DEAL

I feel that it is most unfair that the Municipality pays damages for sheep killed by dogs, but refuses to even consider the same damages caused by bears.

I keep Sheep, and last June a bear killed and ate one of my sheep. Eventually we killed the bear, and the Game Warden came and removed the carcass, and we were not even allowed to keep the hide, which might have been worth something, and were not compensated in any way for the sheep.

Dogs running at large must belong to someone, and the Owners should be responsible for any damage they cause. The Bears, so far as I know, are the property of the Government, and it seems most unfair that they do nothing to prevent them running at large, and take no responsibility for the damage they cause. We do have dog catchers, why not bear catchers? Surely they could be removed from the vicinity of farms one way or another, or if not, some compensation should be available for the damage they do.

All levels of Government seem anxious for the Farmers to produce more and better food - and since sheep are valuable both as food and for their wool, we should not be expected to suffer such losses without compensation.

Yours truly,
Mrs. William Dondale

Dear Editor:

Thank you, Mrs. Wallis for your reply to my letter regarding the Councillors raises. Very interesting to a number of people.

Regarding the airport, you directed me to the report in your newspaper given by the municipal airport committee. This report too proved to be interesting but.....the article mentions the fact that the flying club increases the value of the airport. This I can understand. What I can't understand is: aside from the flying club, what value is it to the taxpayer of the Municipality of Digby??

It is easy to understand the value it is to the 40 members

of the flying club, but if every 40 people asked the support of the taxpayers for their particular interest - where would the taxpayer be???

It would be most interesting to know how much money has been spent and or is owned on the airport by:
A. The town of Digby
B. The Municipality of Digby.

Thank you
Yours truly
Pauline Ruggles

EDITOR'S NOTE - As far as we know the Town of Digby owns no part of the airport. The Municipality of Digby completely owns the property at the buying price plus what the Flying Club has donated in time, labor and L.I.P. grant to raise the standard of the airport. A certain standard has to be attained before the place can be licensed. The Flying Club as we understand is upgrading the airport, not for themselves but to meet Department of Transport regulation and in time to go into more extensive use of the airport. E.M.W.

To the Editor:

It was with a sense of shock and outrage that I read in your paper of the large unwarranted increase in the Municipal Councillor's salary. Considering that they raised their pay by \$500.00 last October, retroactive one year, this action alone is unheard of outside of a settlement of a Union Contract, or perhaps I have been asleep while the Digby Municipal Council joined C.U.P.E. or some such other Union.

I blame Councillor Winchester who as Chairman of the Finance Committee should have been quick to point out that as assessment total of \$28 million dollars does not warrant a \$2500.00 salary for Councillors. Annapolis County which we all know is far more affluent than us, has an assessment of this year \$66 million and their Councillors receive a salary of \$2500 per year. Annapolis can afford it; our Municipality can't, having no comparable industrial base for taxation purposes to pick up the tab. We also have the highest percentage of widows in Digby Co., vis a vis the Province as well as an inordinately large number of old age pensioners. Councillor Winchester was certainly derelict in his duty, but perhaps he does not understand where his duty lies. This is what happens when a new Councillor is made Chairman of as important a committee as Finance. This large a salary is totally unwarranted and is financial irresponsibility at its worst? One must also place it in the context of now,

WANT TAX EXEMPTIONS

Continued From Page 1

A request from Eugene Dexter, St. Mary's Street to make alterations on his home was tabled since the by-laws require a building inspector to give permission in this regard and the town presently does not have a building inspector. The same applied to the Jeffery Potteries Ltd., Queen and St. George St., in their request for permission to make a \$7000 alteration to the roof of their plant.

D.A. French sought information from the town as to the need of more low rental housing in Digby. Council felt they were not in a position to know that and referred him to the Department of Social Services. Councillor Eileen Chipman also wanted to know the name of the company with which they would be dealing.

School authorities asked that culverts be made for a proposed driveway to a parking lot being constructed at the back of the

Digby Regional High School. Permission was granted to the Ladies Auxiliary of the Digby General Hospital to hold tag days on April 25 and 26.

Permission was given to Mayor Patrick Comeau to attend a public meeting of the Annapolis Valley Apple Blossom Festival Committee in Kentville on the 16th of April. If the mayor couldn't go, one from the Council was authorized to attend.

Congratulations to the Digby team for their fine showing. The evening was spent in dancing, music supplied by Cobra from the Greenwood area.

BAPTIST WOMEN HEAR THEIR PRESIDENT

Church. The meeting was presided over by Mrs. George Kenney, president of U.B.W.M.U. in Digby.

Miss Eva May Cromwell, Acaciaville, was guest soloist, rendering two numbers. She was accompanied by Mrs. Daneen Robbins who presided at the organ throughout the service. In introducing Miss Cromwell, Mrs. Kenney brought back reflections of Eva May's sister, Mrs. Amanda (Cromwell) Marshall who used her singing voice to advantage in this area and who continues to serve in the same capacity at Cornwallis St., Halifax. Mrs. Kenney also gave much recognition to the girls' mother, Mrs. Eva Cromwell, a devoted Christian.

The devotional was presented by Mrs. Bruce Robertson, Mrs. Shirley Clayton and Mrs. Shirley VanTassell. Mrs. Robertson

M-Cpl and Mrs. Ed Miller of Wilnot spent the weekend with her parents, Mr. and Mrs. Gerald Young.

also led in congregational singing of two theme songs. Mrs. Clayton and Mrs. W.H.Christie were appointed delegates to attend a meeting of the Association in Middleton on April 26.

Receiving the offering were Mrs. J.J. Brittain; Mrs. Jack Whalley, secretary; Mrs. Elsie Wells and Mrs. Churchill Page.

The speaker was introduced by Mrs. Brittain and thanked by Mrs. Hugh Vincent.

Miss Gate's message dealt with the Baptist mission work in Kenya, Indonesia, Brazil, Bolivia, Angola and other mission stations and she read letters from several of the missionaries in these countries.

Miss Gates compared the program of mission work in the past with the present day mission work. Missionaries, she said, do not tell the native people what to do but instead they work with the native people of the country and under them. Missionaries take a second place.

In many cases the special work of the missionaries is in the public health field, in hospital, teaching, agriculture, and other occupations where there is need in the country they have chosen as well as doing evangelistic work. One of the difficult tasks she noted was that of learning to speak the language of the country where they serve.

Miss Gates said that the people need to appreciate what the missionaries do. She continued by saying the missionaries do not change because they travel across, they are the same people they would be if they remained home.

The speaker produced figures dealing with the missionary overseas budget of \$147,000 from the Baptist Women and the home mission budget of \$51,000 for 1975. Each member she said is important. There are thirty-three million Baptists in the world she said and yet each individual is important to continue in carrying love and concern to the oppressed. Fellowship, she remarked, is a big item in

missionary work. She highly praised the people and missionaries in continuing to keep the churches going even in the face of distress and war.

Miss Gates showed copies of a Friendship Book written by Charles Harvey designed especially to teach others by picture and story. He is also producing a volume on witchcraft which has become a problem in Africa and which is spreading and even touching us here.

The speaker, who had travelled to various meetings, far and near, in the work of the Baptist Church, women said she wished every woman could go to these meetings in order to get a glimpse of the

broader mission work. Much has been done she said, but still not enough. She asked "How are we responding" and urged the members to look forward, step forward and venture forward in the overseas work and in the work which still is needed here. There's a lot of work for a lot of people in following the words. "As my Father sent me so send I you." She reminded the women "the more we give away the more we have."

Following the service the women met Miss Gates at a social hour in the hall where Mrs. Kenney, president and Mrs. Jack Whally, secretary, poured. Assisting were Mrs. Barbara Weir and Mrs. Wilnot Christie.

Report From 4-H Dudes

We are sorry to announce that Susan Ross, president and Patty Ryan, vice-president have left the 4-H Dudes club. Susan said that due to a heavy school and sport schedule she felt she would not be able to do the club justice and felt it best to leave now. We are sorry to see them both leave.

On February 11 a formal meeting was held and Joey Robicheau was elected the new club president. Kevin Amon was elected vice-president. We congratulate them both and feel certain that both will do their best for the good of the club.

We planned on having a bottle drive on February 15 but due to weather conditions the drive had to be cancelled. Peter Balser and Wayne Comeau were going to drive the Dudes. We wish to thank them for their offer.

Another one is planned for the near future. No date has been set yet.

We wish to thank LeRoy Warner for donating two lambs to the club. One is being cared for by Darlene Haight and one by Rodney Wright. Darlene named hers Mutton and Rodney called his Lambchop. Both are very cute and getting quite spoiled with all the attention they've been getting. Again thank you LeRoy, you made two Dudes very happy and all the other Dudes wish to thank you.

Tickets were sold on an Easter Cake that the food project group made. The winning ticket was drawn at 6:30 on March 29. The winner was Barbara Haynes. Those involved in making the cake were, Arlene Drew, Paulette Ryan, Kimberley Robicheau, Michael Wright, Darlene Melanson, John Amon and Rose Anne Cromwell. The

winning ticket was sold by Diana Wagner. The Dudes who sold the most tickets were Douggie Morgan and Michael Wright with a tie of each 17 books. Diana, Douggie and Michael were each presented with a box of chocolates, compliments of the club for their good work. We wish to thank Shirley Melanson for driving some of the Dudes to the radio station.

On April 5th a judging of public speaking and demonstrations was held at the Marshalltown church hall. Barbara Brittain accepted the invitation to judge the Dudes performance. The winners are to represent the 4-H Dudes at the 4-H rally in Clare on April 19th. Parents were welcomed on April 5th and are also welcome to attend the rally on April 19th. All the Dudes did very well and a good time was had by all. Those who will be representing the club in Clare will be Michelle D'Ambrose, (Intermediate) Public Speaking, Rodney Wright (Junior) Demonstration and Darlene Melanson and Kimberley Robicheau (Intermediate) Demonstration. We congratulate the winners and feel certain they will represent the club well.

Barbara Brittain said all did so well she found it quite difficult to choose the winners. We wish to thank Barb for her contribution. To finish, a skit was put on by some of the Dudes. Kevin Amon turned out to be quite the star. He was enjoyed by all members and parents alike. Thank you Kevin you added a lot to the performance. Hope to see many of you at the rally on April 19th, to be held at the Clare District High School.

Problems arising from the last dance held by the Students Council I.C.S. at the School has resulted in the School Trustees banning any further dances this term. It is a shame for those students who attend these functions, behave themselves and have a good, to have to forego more because several other students have to cause trouble. Most are aware that alcohol, drugs and marijuana are being used by a number of the young people and as responsible persons should do all within

our power to combat this and keep others from their use. The Islands Home and School Association are sponsoring these discussions. It is asked that all attend and show interest along with the Home and School members and help to do the best for the children before more are "hooked" on these drugs, etc. Too many incidents have been kept hidden that have been connected to these problems and its time that each and every parent be aware of what their child or children are doing re uses etc. and what their further uses could lead to.

It was decided to ask to have some one come and discuss the Graham Report re Educational matters.

Material has been received from the Canadian Arthritis Society for the Group to hold a campaign to raise funds for this most worthy cause. This was tabled for the next meeting to discuss further and appoint members to conduct the campaign.

The two Progressive 45's Parties held were well received and all who have attended have enjoyed them. More Parties are planned. Digby and Woodstock Band Exchange

by Claude Pothier, Grade XI, D.R.H.S.

Spring has arrived and the time for a third exchange concert between Digby Regional High School and Woodstock High School.

Each year the DRHS Band under the direction of Donald K. Scott, works hard in preparing a concert for the exchange. The students practice at home and during their study periods at school.

Regular practises of the complete band are held three noon hours a week. For the past three weeks rehearsals have been held during noon hours every day in preparation for the concert, on April 19th in Digby.

The students play in the band for their own enjoyment and also to make parents, friends, and the community feel proud of

them. In the past, turn-out to our concerts have been good. The music is appreciated by those who attend, and for our hard work, we hope to see a capacity crowd turn out.

We play tunes of today and of the past, not hard rock music or all classical. Come out and see for yourself. Don't wait until your son or daughter graduates to hear the DRHS Concert Band for the first time.

Tickets are available now from band members so ask your son or daughter or a student to get them at the school for you. The Concert is on April 19th at 8:30 p.m. in the DRHS Multi Purpose Room.

Support is what an organization needs and we ask for your support. So let us have a full audience and see some new faces on Saturday, April 19th.

Above are four quilters at the New Horizons working at one of the two quilts which are in a progressive state and supplying pleasure to the senior citizens. Left to right are Mrs. Florence Merritt, Digby; Mrs. Oakley Smith, Smith's Cove; Mrs. Stella Speights, Digby and the chairman of the quilting committee, Mrs. Helen Paterson, Marshalltown.

Grass Fires Keep Firemen Busy

The Smith's Cove Volunteer Fire Company has been busy since the beginning of the month.

On April 1 they responded to a stovepipe fire at the home of Mrs. Evelyn Haight.

April 3rd they were called out to a grass fire at the home of Mr. and Mrs. Douglas Thomas.

This past weekend they were called out each day to grass fires.

Friday, April 11, they controlled and extinguished a fire, on the former C.A. Robbins property, which at one time endangered the barn on the site.

Saturday - a fire near the Aaron Hawkins home.

Sunday a fire in a field on the old post Road brought the men out around midday.

Looking Into New Fire Truck

The Smith's Cove District 8 Fire Commission Quarterly meeting was held on Monday evening, April 14, at the Smith's Cove Meeting House. President David Irvine presided.

A committee was formed to look into the purchase of a newer truck to replace one of the older ones now in service. Fencing around the fire pond on the Robert S.

Winchester property, Joggin Bridge, is to be improved. It was also decided that meetings of the Commission in 1976 be biannual- Annual meeting in January and a meeting in June. Other meetings may be called if necessary.

There was a disappointing turnout for this meeting - 13 firemen, including the president, Secretary Jan Abbott, Councillor L. E. R. Winchester, and a guest from another community. Over 160 notices had been sent out one to a family - thus with only sixteen people present was indeed a poor response.

Our men, who respond to the calls quickly, keep up a training program in order to be more effective in controlling and extinguishing fires, when called, should be receiving the support of every member of the community- those whose homes they are responsible to protect in District 8. It is hoped that there will be a greater response to the next meeting which is scheduled for September 18.

Safety Patrol

The Islands Home and School Association held their monthly meeting in the Auditorium of the school, Monday evening April 7th with the Vice President in the Chair. It was decided that the group will hold the Campaign for the Canadian Arthritis Society in May as this month the Cancer Drive is on.

Rev. G.N. Gillis has notified the Group that he will be here on April 21st to conduct a meeting for the Public re Drugs and Alcohol Problems and also in the school classrooms during that day. This meeting will be at 8:00 p.m. at the school and is open to everyone.

It was felt that the students from grades 5 and 6 who have been members of the school Highway Patrol have for the most part been very responsible in their duties. A pin is to be given to those who have shown the most outstanding service by the Dept. of Highways. The H. & S. decided that something should be done for the rest of the members. A party in the form of a banquet is planned for early in the evening of next H. & S. meeting to which all the Safety Patrol members will be invited.

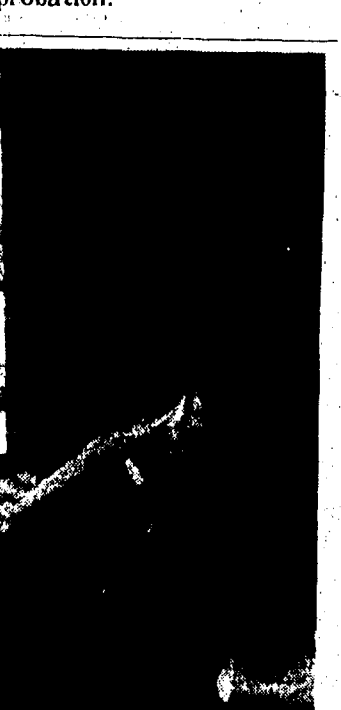

Miss Pauline McNeil Public Health Nurse spoke to the group about her work and the services that she provides for the area. We were most happy to have her attend our meeting and enjoyed her talk very much. Due to her talk a good number attending realized that they should take ad-

As Wilbur had celebrated his birthday on April 2nd, he with Mrs. Sabean, Sgt. and Mrs. Sabean and children motored to Yarmouth Saturday afternoon where they had dinner at the Quick and Tasty to celebrate his birthday. As they drove home, they saw lights and many cars at the Havelock School. Sgt. Sabean stopped to see what the occasion was. The party was a complete surprise for Mr. Sabean and it was some time later before he discovered the gathering was in his honour.

Supports Resolution

The Town of Digby moved to support a resolution issued from the Middleton Town Council at their regular meeting on Monday.

The resolution read "whereas Senior Citizens projects are attracting persons from outside the municipal units, providing the complex and whereas the local housing authorities are obliged to accept these persons as residents in the housing units after they have established their settlement in the municipal unit and whereas this practice is creating extra burdens on the municipal units with respect to payments to Homes of special care for those people who have to be transferred to these institutions and a possible extra burden in the future for welfare payments, be it resolved that the Provincial Government be requested to amend the Settlement Act so that any time spent by a person as a resident in a Senior Citizens complex shall not be used to determine the place of settlement for that person.

Coordinator Bruce Gilliatt, Digby County agriculture representative termed the course an unqualified success. "We had nearly 100 per cent attendance at all four sessions."

"As with just about everything else we've done in this area in recent months, it has gone very well," said Mr. Gilliatt.

Editorial

STICK TO THE SUBJECT

We reiterate, we appreciate Letters To The Editor. We look forward to many of them. They incite people to read and to want the newspaper. That is one angle even though that sounds like a selfish purpose.

There is another purpose, too. Letters To The Editor often shed some light on a difficult problem and there are several points of view put forth from many interested people. The letters need not agree. They can be entirely from opposite poles. That is good and people begin thinking and weighing alternatives. The letters can be on any subject which is of interest to our readers.

Yes, Letters To The Editor can do a lot of good for a town, or village or County, whatever, so long as they stick to the subject at hand. Letters To The Editor lose all their value when they begin to deal with personalities rather than the issue itself. Let's have Letters to the Editor which promote, which stir up the imagination, which initiate and have other qualities which are a benefit to a striving community. Let us stick To The Subject and not to the personalities other than referring to him or her in connection with the subject.

IT'S NOTHING NEW

The idea of Digby's Mayor Patrick Comeau wanting to get closer to the people whom he serves is a sensible idea but not necessarily an original idea. Leaders of other societies, councils and governments on every level try to put this philosophy in practice and find it pays off.

Letters to the Editor serve a similar purpose and portray the thinking to some extent. There is also the direct mailing procedure to all the citizens within a specific boundary requesting answers to specific questions. We noticed Patrick Nowlan M.P. for Kings Co. mailed out over 20,000 letters asking the opinion of his constituents on certain questions. He considered his 4,000 or more replies a good average and enough response to get the consensus of opinion on the issues at hand.

The method which Mayor Comeau hoped to adopt was person to person and would seem more practical and more effective than mail service, at least for a small town like Digby.

Many citizens should welcome an opportunity to converse with the leaders of our governments in an effort to make this lovely Town of Digby to be even a nicer and better place in which to live. What do the citizens see in the future for Digby? What should be the town's priorities? While a get-together of citizens would certainly not be passing motions and making decisions, a nice "fireside chat" can bring out new ideas, new methods and new visions.

BOARD OF TRADE WEEK

While the Digby Board of Trade or Chamber of Commerce president basks in the realm of the sunny South, the Digby Board will likely forget about Chamber of Commerce Week. Our few comments will recognize the week, April 20 to April 27 in simple fashion.

Boards of Trade seem to be prone to rise and fall in the enthusiasm generated. The rise is usually associated with a crisis. Presently the Digby Board of Trade is in a slump and has not been meeting for several months. Other Boards in surrounding areas have been struggling along with Bear River displaying more enthusiasm than the others.

Boards of Trade or Chambers of Commerce can always be kept busy with local problems and with various needs requiring attention. Committees range from education to farming and fishing and others. The committee heads are responsible for the progress and activity in their charge.

Your Board of Trade often acts as a liaison between the municipal level of government and the provincial government on matters of deep concern. Similarly the Trade Boards often have influence in the federal government field.

From the local Chamber of Commerce to the National level, there is plenty work to be done. None, however, is so important as the local level. Each Municipal Board has its own small area to develop and must meet up with limitations and credits.

The Digby Bof Traie Bear River Board, the Fundard o Islands, the Weymouth Boardhe Claard, all have their ups and dobut iversal they do something about illicularing Chamber of Commerce Weeven as arises. Why not exercise the saceredthroughout the entire year and ore a occurs. Yes, observe Chambermmeeek from the twentieth on bute thet of the observance by keepb the for the other fifty-one weeks of ear.

ADVICE BUREAU

PRETTY PRINTS by John Warden for Molyclair are part of a group featured in Canadian Designer Showcase by Borateem-Plus, a fashion show to tour Canada in April.

"Self-Help" Starts With

Full Stomach

A delightfully chastened letter recently arrived at the office of the Unitarian Service Committee, saying in part: "Tonight for supper I had rice, pork chops, carrots, celery, Brussels Sprouts, onions, green broccoli and two glasses of milk. I believe I should give others an equal opportunity to enjoy a full stomach. Regardless of what anyone tells you, you work better on a little food. When a man's mind is off his stomach he is much more able to help himself." Food for Bangladesh is one of the top priorities at USC Headquarters, 56 Sparks Street, Ottawa K1P 5B1.

The usual tea and lunches were served before the evening's end.

Next meeting to be held on May 5th. The entertainment committee is to provide a program for this meeting.

itiated. These new members were Mrs. Cheryl Crocker, Mrs. Heather Titus, Mrs. Brenda Prime, Mrs. Marilyn Peers, Miss Patsy Nickerson, Mrs. Reta Thurber, Mrs. Ina Titus for Fair Isle Lodge and Mrs. Nancy Morehouse from Sunrise Lodge.

The Degree Team under the direction of Degree Mistress Sister Isobel Powell was made up of the following sisters. Noble Grand - V. Crocker, Supporters - G. Thurber, R. Tibert, Vice Chaplain, E. Teed, IN. Guard, E. Thurber, Out. Guard M. Stark, Warden - L. Elliott, Conductor - K. Kinney, Sis. - E. Moore, Sis. - E. Young, Sis. - M. Finigan, Sis. B. Thurber, A. Perry, Sister Bertha Ruggles, Sunrise Lodge, was at the piano.

Congratulations were extended to all who took part in this most impressive Initiation Degree, and the new members were made welcome.

Prior to the Degree, Sister Jean Cann was welcomed back into the Lodge.

After closing of the meeting refreshments were served by Mrs. Linda Elliott and committee and a social hour followed.

PRETTY PRINTS WITH OUTDOOR FRESHNESS

DELICATE flower prints are featured in a group of light summer fashions by John Warden for Molyclair. The group which will be featured in Canadian Designer Showcase by Borateem-Plus, are predominantly in pinks and greens and feature shifts, pyjamas and gowns suitable for every summer occasion.

Canadian Designer Showcase, a fashion show by Borateem-Plus, will also include fashions by other well known Canadian designers: Leo Chevalier for Montroy, Elvia Gobbo for Daisy Fresh, Marilyn Brooks, Pat McDonagh, Claire Haddad and many others. The fashion show will be presented in all major Canadian cities from Vancouver to St. John's in April and May, and will be open to the public for the first time this year.

The prints shown in the photo are a 50/50 blend of cotton and polyester, easy care fabrics with a natural look and feel. They are completely hand washable, and can be machine washed on a gentle cycle. The fabric is permanent press - one of our greatest workavers. Many permanent press garments never need iron-

ing during their normal life time if properly machine washed and dried.

To help prolong the life of permanent press garments, here are a few hints:

Check all garments for spots and stains or heavily soiled areas, and pretreat by rubbing with a paste of a safe bleach substitute such as Borateem-Plus. Close all zippers and clasps, so they cannot damage garments. Don't wash permanent press garments with heavy items such as towels, as they will get wrinkled.

A general rule for all your laundry - and particularly for delicate and permanent press items - is to avoid overloading the washer or drier. Garments need freedom of movement in the washer to get really clean. Equally, to keep out the wrinkles, dry permanent press items alone if possible, and remove them from the dryer as soon as the action stops. Straighten seams and hems and hang garments on a hanger, or fold for storage.

Laundering your permanent press the right way will keep it fresh and crisp and new looking for the life of the garment.

"I find it increasingly difficult to eat with a clear conscience, knowing that so many of us are starving", began a letter from Yellowknife to the USC recently. It continued "Please use the enclosed to

Weymouth And Area Cancer Unit

Has Full Program

The Executive of the Weymouth District Unit of the Canadian Cancer Society met last week at the home of Mrs. E. A. Fergusson.

It was reported that many of the volunteer canvassers were out collecting funds for the annual campaign which is held during the month of April.

Donations received by the Canadian Cancer Society during the month of April help to support the "Services to Patients" program. This includes dressings of various designs and shapes and pain killing drug assistance. Transportation and boarding assistance to low income patients is provided when necessary for patients to attend the Tumor Clinic in Halifax.

Under the direction of the Nova Scotia Division of the Canadian Cancer society, a trained therapist is available at the Halifax-based hospitals, to help patients who have undergone surgery of the intestinal tract.

There are the "ostomy" clubs too, which offer support to the patient in many ways.

Mrs. E.A. Fergusson, chairman of Services to patients for the local unit explained one of the programs of the Provincial Services to Patients Committee is the Mastectomy Recovery Program. This

involves visits to patients who have recently undergone breast surgery by women who had similar surgery and who are willing to talk and help, offer suggestions about clothing and exercise and other personal hints that aid readjustment.

Mrs. Fergusson also explained that the first Wednesday each month Laryngectomees (those who have lost their voice box) enjoy a social gathering during clinic hours. Here they learn to discuss their cases and their problems, over coffee, with a therapist in attendance. It was noted that already this has proved to be very helpful for many of these patients who attend the clinic in Halifax.

The donations received by the Canadian Cancer Society during the month of April support the services to patients program. Public Education program must be available on the community level and the development of these programs need financial support. However, the greater portion of funds raised, of course, are directed to the Cancer Research Programs.

The objective for the Weymouth District Unit which includes the Municipality of Digby is \$2800.00

His words of wit and wisdom will be greatly missed. A hymn was sung in his memory, and a period of silent prayer was observed, after which Rev. Merle Zimmerman led in prayer.

Rev. Willard Clayton was speaker of the evening. He spoke on the work of the Holy Spirit and the need for the agency of the Holy Spirit in the Church today. He cited testimonies of Spirit-filled giants of the past and challenged those present to testify and proclaim this power. Arnold Marshall, Barton, thanked Rev. Clayton and closed the meeting with prayer.

Always so much to do, it leaves so little time. Be not so anxious, tomorrow I'll watch you grow. Be patient with me I have not the time to find

A lifetime together to share, you're still so young. Just give me time to do my thing, I'll still be there. Simply trust me, the end is near, I'll soon be done. We need not be together, you should know I care.

I have the time today to share myself with you. I have the time to be a father to you son. The day has come for you to choose what we can do

The time is here, my goals are reached, my work is done. Time goes, I'm needed not so much, I've grown in age. Younger men are doing the things I've showed them how. No need to fret, it's simply but another stage. Finally I have the time to stop and share, right now. Is this you son, you've grown so fast I did not see. Last time I looked you were a boy, when did you grow. My knees are weak, I'm your father, be good to me. Be not so impatient, I care, do you not know.

Witnesses To Middleton

"Recession and inflation are conditions which continue to haunt governments and people worldwide, and which everyone is striving to combat," said Manfred Steimecke, Presiding Overseer of the Digby Congregation of Jehovah's Witnesses. However, the Witnesses have the answers to both these problems in relation to their public ministry.

"The opposite to recession is advancement and prosperity, which has been accomplished to the extent that in Nova Scotia three conventions have been arranged for this month instead of two as previously, to accommodate a greatly increased attendance."

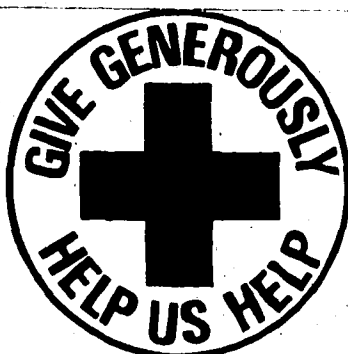

"There have been no signs of inflation within the Watchtower Society. The cost of literature offered to the public is identical to that

25 years ago." Mr. Steimecke added, "and although material food costs more spiritual food is free for the asking."

Saturday and Sunday, April 19th and 20th, eight congregations from five counties will meet at Annapolis Regional Vocational School in Middleton for instruction on how to more effectively carry the Bible into the homes of thousands of people who are without adequate Bible instruction.

Sunday at 2:00 p.m. the public discourse entitled "Stand Still and See the Salvation of Jehovah" will be delivered by Ernest Adamson, District Supervisor for the Maritime Provinces.

"All interested persons are cordially invited to any of the program sessions," Mr. Steimecke concluded.

Some keen dinghy sailors from the Sydney, Nova Scotia yacht club enjoy the protected waters of the city's harbour. Visiting sailors will be welcomed at this port, a short distance from the Bras d'Or Lakes. (N.S. CIC Photo)

Sail Nova Scotia

By Frank Campbell

Cape Breton Island, the northernmost part of Nova Scotia, contains the Bras d'Or Lakes, 450 square miles of inland sea with plenty of charm for the cruising sailor.

"Cradled within high rolling highlands; sheltered from dark Atlantic fog; 600 miles of sparsely populated shorelines indented with bays and coves dotted with islands and divided into areas of distinct personality; fanned by southerly breezes and free of major tidal influences; crowned by an atmospheric clarity which many areas have traded for industrial growth; unpolluted and unspoiled, lie 450 square miles on inland sea; better known as the Bras d'Or Lakes of Cape Breton Island."

So reads the small craft guide to select areas of the Bras d'Or Lakes. It is an apt description. One may well ask how an area this large with such beautiful scenery and open to boat cruising has been left unspoiled. The answer is quite simple. There are not that many sailing craft in and about Cape Breton and the cold Atlantic makes venturing this far down east accepted only by the heartiest seamen.

Entrance into the Bras d'Or Lakes can be made by the north or south of Cape Breton Island. The Great Bras d'Or is from the northward through a ten-mile long fiord which varies in width from 1/2 to one mile and flanked by high rolling hills. The actual entrance between Cary and Noir Points is further restricted by a long bar making the effective channel less than 1,000 feet wide. Unless the wind is excessively high from the northeast there is no problem making this passage.

Conditions in the Little Bras d'Or Channel virtually precludes anything but power craft from making this passage.

St. Peters canal entrance is by far the most popular for visiting yachts. After rounding Canso Ledges and hauling northward we advise a sharp lookout for the 25 miles run into St. Peters Bay. Canadian government chart 4335 should be used for the crossing which clearly delineates the Traffic Separation Scheme for commercial shipping through Chedabucto Bay. It is recommended that passage into the St. Peters Bay be completed during the daylight hours, using Canadian Government chart 4434.

The principal entrance for visiting small craft to the Bras d'Or Lakes is by "locking-through" at St. Peters. The canal is approximately 1/2 mile long and divided into three sections by means of two sets of gates, forming a single lock. The lock restricts the dimensions of vessels to 270 feet long and 55 feet wide. Controlling draft over the sill is 17 feet. There is no fee for locking through the canal but a person capable of mooring the vessel must be aboard at all times.

When proceeding from the canal through St. Peters Inlet, remember that you are leaving a harbor and starboard marks are left to port. Four port hands and two starboard buoys will guide the vessel around Handley's Island toward Beaver Narrows. Once through the Narrows, Beaver Island lies directly ahead.

Beaver Island is taken to port and under no circumstances should it be circumnavigated. A mud and gravel bar with only two feet of water join Beaver Island and Carter Point.

At Crawley's Cove, St. Peters Inlet begins to open into a basin, well indented with coves and dotted with islands. At this point a large white church to the northeast will appear and make an excellent course mark for the next two miles. The church is located on Chapel Island, part of an Indian Reserve.

Cape George Harbour opens to the left after passing Doctor's Island and is one of the most protected anchorages on the Bras d'Or Lakes. The West Bay area contains many fine and secluded anchorages. A new 18 hole golf course is under construction at Ballum Head with nine holes and Clubhouse due for completion in 1975. For trailerable boaters, a chain link launching ramp is located on a sandy beach one mile westward of Dundee and the cove at West Bay would appear to be suitable for launching small craft.

Two large islands called the Crammond Islands, both deserted, afford one of the most interesting anchorages in West Bay. Two miles northwest of the Islands one can find safe anchorage in Ross Pond.

A gigantic scar rising up midway along the north mountain range is visible from any point west if a line drawn from Cape George Harbour to Barra Strait. This scar is the remains of

industrial quarrying operations which began in 1869 and lasted until 1921.

The Clark's Cove area provide excellent "gunkholing" among the "Out Islands" provided small boat excursions are tempered with existing weather conditions. Numerous beaches along the Islands are beautiful for swimming.

The East Bay section of Brad'Or Lakes is a deep funnel stretching for approximately 21 miles from Kelly Shoal at St. Peters Inlet to the head of the Bay. With the exception of a construction in the bay caused by the Indian Islands cruising in this area is unhampered by shoals throughout the entire length. For trailerable craft a new launch ramp and service facility is available at Porphyry Point, known as Big Pond.

One of the most interesting cruises with a number of attending good anchorages may be found in the maze of small islands of the village of Easkasoni or McPhee Islands. Excluding these isolated Islands a large portion of the mainland shore is vested in the Easkasoni Indian Reserve and a visit ashore at the head of the channel at Crane Cove is an interesting and worthwhile experience.

As we leave the Bras d'Or Lakes via Big Bras d'Or we decided on two more ports of call, first Glace Bay and the well known Fortress Louisbourg.

Glace Bay is a sprawling Cape Breton town whose life has long been geared to the whistle of its coal mines, one of which extends miles under the Atlantic Ocean. In 1720 French troops dug coal from the cliffs of the town to supply the new garrison at Louisbourg. Glace Bay Lake is a bird sanctuary. It is also the site of the Miner's Museum opened in 1967 as a Centennial project. The first transoceanic wireless station in America was established at Table Head on the outskirts of Glace Bay in 1921 by the great Italian inventor, Marchese Guglielmo Marconi. The first wireless message was transmitted from this continent to Europe on December 15. Glace Bay has a very large harbour.

Louisbourg has a population of 1,582 and is steeped in Canadian history. Surrounded by the largest National Park in Canada it has long depended on its

excellent harbour and the rich Atlantic Ocean for its livelihood. The lighthouse now standing on the eastern arm of Louisbourg Harbour is near the exposed ruins of the second oldest lighthouse in North America. Built between the years 1730-33 the first lighthouse was damaged by fire in the fall of 1736. It was later repaired only to be damaged again during the 1758 siege of Louisbourg.

In 1760 just 47 years after the first French settlers arrived in Louisbourg Harbour, the fate of the town was decided. British Prime Minister William Pitt ordered the complete demolition of all fortifications at Louisbourg. The buildings within the fortress, those that had survived the 1758 siege, were left standing, all that remained of the "Dunkirk of America." Other than Pinaud Yard at Baddeck small craft repair facilities on Cape Breton Island are presently quite limited and underwater repairs must be affected in commercial yards.

The term, "most snug harbour on the Bras d'Or Lakes" can be well overworked in any small boat guide to the lake system. However, at the risk of detracting from one thousand other "snug coves" this description is apt for Maskells Harbour.

Summer temperatures on the Bras d'Or can only be described as "extremely pleasant" and range from 65 degrees in June, 75 degrees in July and August and September and October declining to 65 and 55 degrees. Average sunshine in July is more 250 hours. The most interesting aspect of the weather patterns on the Bras d'Or Lakes is almost complete absence of fog.

Commercial haulout facilities are located in Port Hawkesbury, North Sydney. Personnel at these yards are pleased to help if at all possible. It is recommended that the yard be called prior to proceeding to the area for repairs. These firms can make repairs: Breton Industrial and Marine, 625-2800; North Sydney Marine Railway Co. Ltd., 794-4791; and Sydney Engineering and Drydock Co. Ltd., 564-4488.

Sailing in the Bras d'Or Lakes and the waters around Cape Breton Island is an experience that any man or woman with a touch of sailor in their heart would dearly love. It cannot all be seen

and experienced in one or even two sailing seasons. But you know there is more to see on a return trip.

Major Contract Organization

Development Minister George Mitchell has said that Royal Assent to an Act which established the Nova Scotia Research Foundation as a corporation "recognizes the changed role of the Foundation, which has seen it grow into a major contract business operation."

Mr. Mitchell pointed out that the new Act clearly restates the object of the NSRF: "to assist in the economic development of Nova Scotia by promoting, stimulating and encouraging the effective utilization of science and technology by industry and government."

"Last year," he said, "scientific and engineering activities undertaken by the Foundation produced revenue amounting to \$729,000, which was more than the provincial grant." Since its inception in 1946, the NSRF research and development programs have each year become increasingly geared to the requirements of modern industry. "Corporation" more accurately describes the relationship of the agency with the companies it serves.

President Ewart Blanchard sees the "transformation of research into useable technology and products to meet the needs of both small and large industry" as a priority responsibility. Dr. Blanchard said that "our on-going research and development programs are designed to meet the needs of industry in Nova Scotia."

He cited as an example work undertaken in co-operation with the Department of Agriculture which included analysis of trace elements in soils, development of techniques for foliar analysis to determine fer-

tilizer requirements for a variety of native crops, pesticide research and other projects carried out in response to current problems and needs of the agricultural industry.

"We become involved with such things as designing apple boxes able to withstand fruit bruising and more efficient hand rakes for blueberry picking," he said.

Dairies, greenhouses operations and feed distributions systems also fall within the scope of NSRF programs.

In the field of oceanographic research, Dr. Blanchard noted development of a slip ring (a sophisticated electrical assembly for underwater power transmission) which the Bedford Institute of Oceanography required as a key component in a fish counter.

"It subsequently turned out," said Dr. Blanchard, "that what our Engineering Physics Division came up with proved to be of vital significance in the life-support system for diving bells, and has had other important applications in ocean industries."

"Of special interest to the NSRF," the president pointed out, "is the fact that we are now optimistic that a Nova Scotia company will soon be formed to manufacture the slip ring and other components designed by the Foundation."

Already orders for the slip ring have been received from several international

companies and interest has been expressed by several more. These have resulted from an active marketing program undertaken by the Foundation.

The Foundation, as a result of equipment and expertise developed to meet the difficult conditions encountered when working in Eastern Canadian waters, was able to obtain the geophysical information needed for the proposed electric power transmission tunnel under the Strait of Belle Isle.

"While we attach great importance to our ocean-oriented programs which are directed towards stimulating industrial activity associated with offshore resource exploitation," Dr. Blanchard said, "it is important not to lose sight of other major undertakings."

He pointed to the heavy water pilot plant which was designed and constructed by the Foundation.

"This means that for the first time, a facility exists which duplicates on a pilot scale actual working temperature and pressure conditions of a heavy water plant; this makes it possible to carry out experimental work which will point the way to increased efficiency in the production of heavy water."

Referring to small industry, the NSRF president said that "the Foundation's link with small industry in the province is through its Technical Services Division, which provides technical information and industrial engineering assistance."

IN MEMORIAM

PULLEY - In loving memory of my mother who passed away April 20, 1974.

We watched you suffer, we heard you sigh,

But all we could do was just stand by;

For when the time came we suffered too,

For you never deserved what you went through.

God took your hand and we had to part;

He eased your pain, but broke our hearts.

So treasure her, Lord, in your garden of rest.

For when on earth she was one of the best.

With all our hearts we wish today

We were all together in the same old way.

We mention your name and think of you often;

God bless you, Mom, You'll never be forgotten.

Sadly missed and lovingly remembered by daughter

Lorena, David, and family. 36:1ic

PULLEY - In loving memory of my dear mother, Hazel M. Pulley, who passed away April 20, 1974.

Through tears we watched you suffer,

We saw you fade away.

Our hearts were almost broken,

You fought so hard to stay.

But now we know you are sleeping
So peaceful, free from pain;
We could not wish you back
To suffer so again.

Our hearts still ache with sadness,

And secret tears still flow.

What it meant to lose you
No one will ever know.

Lovingly remembered and sadly missed by son Weston, Christine, and family. 36:1ic

DORAN - In loving memory of our sweet baby girl, Leah Anne Duran, who passed away April 15, 1974.

One sad and lonely year has passed,

Since our great sorrow fell.

The shock that we received that day,
No one can ever tell.

God gave us strength to meet it.

And courage to bear the blow

But what it meant to lose you
No one will ever know.

It's lonely here without you.

We miss you more each day.

For life is not the same for us.

Since you were called away.

You bade no one a last farewell

Nor even said good bye.

You were gone before we realized it

And only God knows why.

It broke our hearts to lose you

But you did not go alone

For part of us went with you

The day God called you home.

Always remembered and sadly missed by Mommie and Daddy (Stephen and Melba Doran), brothers Owen and Ward. 36:1ic

DORAN - In loving memory of Leah Anne who passed away April 15, 1974.

The depths of sorrow I cannot tell.

Of the loss of one I loved so well,

And while she sleeps a peaceful sleep

Her memory I shall always keep.

Lovingly remembered in every way by a friend.

Vincent Amoro 36:1ic

DORAN - In loving memory of our granddaughter and niece, Leah Anne, who passed away on the 15th of April 1974.

You wished no one a last farewell,

Nor even said good-bye

You were gone before we knew it

And only God knows why.

God saw you getting tired

When a cure was not to be

So he closed his arms around you

And whispered "Come Unto Me"

You didn't deserve what you went through

And so he gave you rest.

God's garden must be beautiful

For he only takes the best.

CANCER CAN BE BEATEN

For anyone who is only 13, nine years ago seems like eons, but to Brent Scisizzi of Milton, Ontario, it was a time in his life which he still recalls with uncanny sharpness. It was a time of alien hospital atmosphere and lonely nights away from his parents, followed by years of tedious visits to hospital.

For Brent's parents, Mr. and Mrs. Enio Scisizzi, 1966 was when their only son was beyond their help, when all they had to think about was their doctor's advice to 'hope for the best but be prepared for the worst'. It was the year their son had cancer.

"We kept up the motions of living because we had another child at home and life must go on," said Mrs. Scisizzi, "but we were living in shock. You just don't think that sort of thing can ever happen to your child."

Early detection of Brent's cancer was the result of his mother's observations. While he was recovering from a bout of chicken pox, she noticed he was unusually

tired which she at first assumed was due to his illness. However, a few days later when bathing him, Mrs. Scisizzi noticed an unusual lump, a hardness over his appendix. With her suspicious aroused, she took him to their family physician for a checkup.

By reporting unusual signs in Brent's health to their doctor, diagnosis and treatment of his illness began early and played an important role in his cure.

His illness was diagnosed as a Wilms' tumour. This is a rare form of cancer that develops in children, usually before they are six years old. Only twenty years ago, the chance of surviving a Wilms' tumour was small. Today, because of research and modern treatment techniques, about 75 percent of the patients can be cured and lead a normal, active life.

While waiting in hospital for surgery, Brent's lump became such a curiosity to young interns that a sign had to be posted above his bed

advising them to 'Look But Do Not Touch.'

It was no wonder that he was a medical curiosity at the age of four, because the size of the tumour the

surgeons finally removed from his tiny abdomen turned out to be larger than a grapefruit. Although his right kidney was totally destroyed by the tumour the doctors were confident that they had gotten "everything."

"That was when we started to live again," Mrs. Scisizzi said, smiling, "we knew there was hope."

The following six months were decisive, if there was no further evidence of cancer it meant that Brent would probably be cured.

Once a month for the next half-year, Mrs. Scisizzi took him regularly to hospital for checkups.

Although the operation left Brent with only one kidney, which meant that he would

never be able to play contact sports, it was a small price to pay for the return of good health.

Just as the six-month waiting period neared its end, their hopes were

"I was grateful for every day," said Mrs. Scisizzi, "I started to think in a positive way about Brent's future, especially when our doctor advised us not to spoil him because, if he makes it he will grow up to be a miserable man."

crushed with the news of Brent's all important checkup. The doctors had discovered a spot on his lung.

For awhile it seemed like everything had been in vain, that they were indeed

going to lose him. But with radiation treatment and chemotherapy the cancer was quickly destroyed. He was healthy again.

Brent still visits the Princess Margaret Hospital in Toronto for checkups but

now it's only once a year. In the meantime he likes to "back" around like other boys his own age, play a tolerable game of tennis and receive scholastic awards for academic excellence at his school as he did last year.

Although far too young at the time to realize the implications of his disease, Brent does know that he has beaten cancer.

"I think that parents should have their child examined by their physician," said Mrs. Scisizzi, "at the first sign of unusual health. From our experience we know that early diagnosis and treatment does help to beat

cancer." This year the Canadian Cancer Society will conduct its April campaign across Canada to raise money to support cancer research as well as carrying out its program of service to patients and public education.

Cured Patient

Brent Scisizzi of Milton, Ontario, a tennis enthusiast like his mother, is living proof that cancer can be beaten.

A childhood tumour left Brent Scisizzi with only one kidney at the age of four. Today the Milton, Ontario teenager is in good health because of early diagnosis and treatment.

First diagnosed as having cancer nine years ago, Brent Scisizzi of Milton, Ontario is an active and healthy teenager.

Mr. and Mrs. Ray Young announce the engagement of their daughter, Eileen Jessie to John Whiteside of Thunder Bay, Ontario. Miss Young is a graduate of the Barbizon School of Modeling in Dallas, Texas and is presently working in Hamilton, Ontario. Mr. Whiteside is working toward a degree in Computer Science in Hamilton, Ontario.

EXAMINING THE SCRIPTURE

Who reads the Bible these days?

More people than you may think.

Various translations have become best sellers. Over 1100 languages of the world carry the Word of God to every nation, and to nearly every tribe.

All other literature is from the mind of man, and this alone comes from the Heart of God.

It is important as the ethical foundation governing the relationships of people with each other. Nations could live in peace if they were to follow relationships of people with each other. Nations could live in peace if they were to follow the rules of understanding and down

here. Here we see how man has fallen, also his salvation, because someone else has become a sacrifice to set man free. Here we find there is a place called hell to be avoided, and a heaven where the redeemed will live with the Lord forever.

It is a book of hope when all else is failing. It is a source of power for the abundant life, when the world limps in an energy shortage.

The Bible is an equalizer for here we discover that God is no respecter of persons. His love is unfailing when all other love turns to ashes.

The scripture tells us how the world began, and how man came to be, and for what purpose.

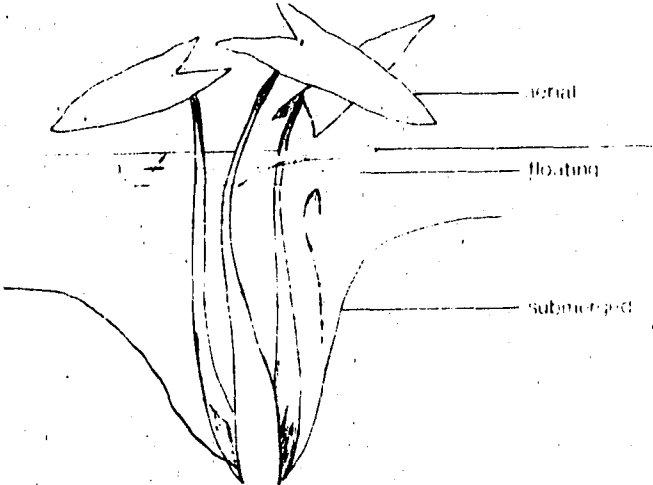

For a new experience try the open Bible.

a Delicacy in Botswana

At the USC-sponsored Nutrition Village in Botswana, Southern Africa, mothers are learning how to cook "wild sausages". This is the local, playful name for caterpillars. They are free and available just for the catching. With grasshoppers and wild greens they provide a sensible, rich source of protein, minerals and

vitamins in a country here one child in eight dies by the age of two, because of malnutrition. After a training session in child care at Nutrition Village mothers and families return to their village and teach others.

USC Headquarters is at 56 Sparks Street, Ottawa K1P 5B1.

Remember When

(I don't know who wrote the following, but thought you might find it amusing)

Remember when "hipple" meant 'big in the hips' And a "trip" involved travel in car, planes and ships?

When "pot" was a vessel for cooking things in And "hooked" was what Grandmother's rug may have been?

When "fix" was a verb that meant 'mend' or 'repair' And "Be-In" meant 'existing' somewhere?

When "neat" meant 'well-organized, tidy and clean' And "grass" was a ground cover, normally green.

When "groovy" meant 'furrowed with channels and hollows', And "birds" were winged creatures, like robins and swallows?

When "fuzz" was a substance, really fluffy, like lint And "bread" came from the bakeries and not from the mint.

When "roll" meant a bun, and "rock" was a stone, And "hang-up" was something you did with the phone.

It's groovy, man, groovy, but English it's not Methinks that our language is going to pot!

Bits And Pieces From Bird Haven

Yes the Robins are back in flocks, they must have had a hard time for a few days but I know lots of people put out apples for them.

The Song sparrows are singing and my Orioles have started their musical chatter, so will be in full song before long.

Had a call the other day from a lady describing two birds at her feeder, bright red with black wings, the other one a soft olive green, a pair of Scarlet tanagers, beautiful birds but here too early, but she was feeding them well.

Heard from the mocking bird that has spent the winter in Clementsport, he is doing well and boss of all the feeding sites.

It is house cleaning time both inside and out, this means bird houses and the grounds around your home, but be careful about burning. Our firemen have too many unnecessary calls from grass fires every year.

How about planting some trees, shrubs and flowers

that will act as shelter and food for our birds? (see note below) Mulberries, birches, mountain ash, hawthorn Oak, Sumac, Elderberries, high bush Cranberries and bush honeysuckle, also blueberries, Crab apples, Multiflora Rose barberry and bayberries.

The flowers you plant can attract the birds as well, humming birds love butterfly bush, trumpet vine larkspur, fuchsia, morning glories, nasturtium, monarda and Scarlet runner beans.

Then there are plants that produce seeds that provide food, bachelor-buttons Calendula, brown-eyed susans, cosmos, marigolds and of course Sunflower.

If these things are supplied in your garden along with a good supply of water, you should have bird visitors the year around.

(All evergreens act as shelters and are free for the digging.)

The Bird Lady

THE CHESS GAME IN OTTAWA

The meeting of the Premiers, last week, was an interesting study in personalities, as well as viewpoints. There can be no consensus as things stand, but a decision must be reached somehow by June next.

It was amusing and ironic to see Finance minister John Turner throw up his hands helplessly, and opt for voluntary price, wage, and rent controls, as an anti-inflation measure. Only a few months ago, the very word 'control' was anathema to the party campaigning for re-election. Politics is a devious game. At least, Mr. Stanfield's old coat will fit Mr. Turner better than it would some other member of the Government, at Ottawa.

I can scarcely wait for Mr. Turner's new budget. Further tax cuts are to be authorized, since the former, being infinitesimal, have had no noticeable effect on the economy. What with the rise in wages, following the endless strikes last year, followed by the increased price of the commodity, and product, one must run just to stay on the same spot. Now after the Minister's reference to voluntary controls, etc., the members are gracefully accepting their 33 and one-third per cent salary increase. We wonder, "Will it be retroactive?" Well, it is human nature. Which of us with the power, would not vote himself a healthy salary increase, or who would volunteer to cast the first stone? But in the background are the 880,000 unemployed in Canada, in the month of March.

HOW TO MAKE A BOMB

I wonder, should the Nuclear Physicist announce on the air, that anyone can make a nuclear device, if they should steal a small quantity of plutonium, supposedly, closely guarded. One knows how innovative humans can be. A lot of the work force are not very busy, just now. Twenty or thirty pounds of oxide material could easily be incorporated into a nuclear device. Typically, they are worrying, 'are the French guarding their plutonium,' since that country did not sign the Non-proliferation Treaty. Which only proves that you can always find something to worry about, if you look far enough.

Fancy the Americans raising the submarine from the bottom of the sea, three miles down. That's 1.8 kilometers. It would have been simpler and \$600,000,000 cheaper to simply ask the Russians for a sample torpedo with a nuclear warhead, through the C.I.A.). One must admire the know-how which enables the experts to do the job. It was a triumph for man and his machines.

Think how much rice one could buy with \$600,000,000. About that male chauvinist Polar Bear and his off-spring in the Assiniboine Zoo—Where is Mamma Bear, or did he do it all by himself?

THE ROYAL COMMISSION ON THE JAMES BAY AFFAIR

I wonder how many viewed Mr. Brian Mulroney on TV, last week, and heard his remarks on the progress of The Royal Commission, under Judge Cliche, which is investigating the destruction of the construction site at James Bay by the workers, last year. Mr. Mulroney is a member of the Commission. Discoveries by the investigation are startling. Members of the F.I.Q. have been positively identified, as holding positions of importance in the construction industry in Quebec. The Trade Unions are tarred by the same brush. Furthermore they are ruthless. Mr. Mulroney stated that the Commission has positive evidence that orders were given to beat up recalcitrant members of the unions; those who objected to policy, or did not desire to 'go along'. He cited an instance where orders went out to administer a warning to a members, to go along, or ELSE. Since the man was not home when 'The fixers' arrived, they beat up his 16-year old daughter, and killed the man's dog. All this in Canada. Furthermore a crime probe is being conducted concurrently with the investigation into the Construction industry. The report of the Cliche Commission on the James Bay incident will be published by May 31st.

Maybe they will shoot Godfather III in Quebec. Some shooting should be done, theoretically, that is

A VISITING POTENTATE, MAYBE?

Great preparations are a foot, in "Toronto the Good" for the projected visit of crooner, Frank Sinatra, in May. He has a singing engagement in Maple Leaf Gardens. Tight security is being planned. Why? Who would want to do Frankie harm? Certainly not the Mafia. Who, then? Well it seems he will need protection from his admirers. So, who will protect him from his enemies, and he has them? It will take 100 regular police; 200 ushers; and 24 off-duty policemen as personal security guards, at \$10.25 an hour to save Frankie from his admirers; think what it would require to protect him from his enemies. He will not be accompanied by his private security force; and that must make Torontonians feel safer. Wonder why Sinatra is afraid? Is all this fuss necessary? Is it worth it to Toronto? Recalling Frank's recent singing engagement in Australia, we hope he will bring his mouth-wash to Toronto, the Good.

the Atlantic Provinces, Blue Cross is obligated to serve the best interests of its subscribing public, realizing, of course, the situation of the pharmacists in view of the continuing problems of inflation. It is felt that the agreements reached represent a fair settlement for all.

Those members enrolled under the various prescription drug programs enjoy a wide choice of benefits. They are eligible to

receive all drugs which, by law, must be prescribed by a physician or dentist, as well as a large number of other drugs which, although not required by law, are usually prescribed. Some of the more common items which can be purchased without a prescription, such as

laxatives, multiple vitamins, analgesics, etc., are not benefits because of their ready availability to the consumer even though they are quite often prescribed by a physician.

Town Reports

Street and Water Superintendent, Frank Robinson, reported to Town Council on Monday evening that the water in the lake is down 14½ inches from the same time last year. Any difficulty in pressure, he said, was not from leaks in the system. He noted that Canpol, the new Senior Citizens Home and the swimming pool would be an increase in the consumption of town water.

Webb Dunn, Meter Reader reported he had collected \$470 from meters. He objected to a decision made by council not to continue his five dollar fee for using his vehicle to deliver notices, etc., and hoped they would reconsider.

Glen Pitman, town clerk, advised that the National Building Code reports was on hand and adopting these in the town by-laws should be considered. He also reported that inquiries were being received regarding Digby's Citizen of the Year.

Mr. Pitman reported on a seminar at Dalhousie University which the Mayor, Councillor Philip Robertson and himself had attended. It was under the Minister of Public Affairs and linked policy with administration, citizen involvement, better goals and set up of town's administrations.

The cost of destroying dogs, according to reports, was between three and five dollars. Councillor Eileen Chipman said the S.P.C.A. frowns on shooting dogs and it would be better to give unclaimed dogs an anesthetic.

Mr. Pitman reported that the grant from the Department of Municipal Affairs in 1975 was \$10,845, over and above what had been budgeted and he asked for guidance in the disposition of the extra. A motion was passed that it go into a reserve fund to be used where necessary. Councillors Hazleton and Chipman voted against the motion.

Permission was granted to Mr. Pitman to attend a seminar dealing with computers to be held on May 9 at Old Orchard Farm, Kings Co.

A report from the Department of Education advised that the foundation grant cost sharing had been revised and the department now pays 48.02 per cent of shareable costs instead of 46.98 per cent.

A decision was made to apply for a \$9000 loan for additional capital hydro expenditures in 1974. The Digby County Power Board is in need of funds, it was stated and the town debt to them is now \$53,722.

Mr. Dunn had placed a request to have a special constable appointed to serve warrants and such. No action was taken.

Extinguish Grass Fires

Eleven men of the Smith's Cove Volunteer Fire Company responded to a grass fire on Thursday morning, April 3, behind the home of the late Mr. and Mrs. Thomas Francis, Sr. The fire was controlled and extinguished in short order.

Douglas Francis, son of the late Mr. and Mrs. Francis, his wife, Inga, and son, Steven, had just arrived on Wednesday from Calgary, Alta., where they formerly lived, and were preparing for the arrival of their furniture when this incident took place. They were appreciative of the quick response of the men for assistance with the fire.

police car was tabled. In her report, Mrs. Chipman requested information on the hazardous trees like the one in front of the Mount house on Birch St., which had been brought up at the last Council meeting.

Sidewalk and Bicycles - Don't Mix

Eileen Chipman

Now that spring is here, pedal power returns once again and eager youngsters test their cycling skills on sidewalks and sidepaths. At best, walking on Digby's neglected sidewalks is a skill-testing effort for all but the very young and very agile, and with the addition of bicycles, some riding two abreast, the safety of elderly pedestrians is further jeopardized.

While bicycles have been around 180 years, the last years have seen a great return of cycling popularity, and unless parents take the time and trouble to acquaint all bike pilots in the family with the vital rules of safe driving, the fun can turn to tragedy.

Safety officials warn that too many people think of bicycles as toys and a very serious characteristic of it all is that the children on their bicycles are cultivating the habits which are apt to make them poor motorists when they are older.

The hazards created by sidewalk cycling seem to have been with us longer than many of us can remember, and are not confined to Digby alone. An old copy of the Bridgetown Monitor, dated 1918, states, "There are two things which should be stopped in Bridgetown at once, bicycle riding on the sidewalks and ball playing on the streets. If these are continued serious accidents are bound to occur, especially to some of our aged residents."

The new "streets-by-law" of Digby reads that "no person shall within the town of Digby ride or drive a wagon, sleigh, or sled or vehicle, or any bicycle, tricycle, motorcycle or automobile on any sidewalk or sidepath within the town."

Mavillette Beach near the Cape View diner in Mavillette is one of the most important beaches in the municipality of Digby County. It is in a cove and the beach is crescent shaped and about a mile long with clean sand. At low tide a large expanse of the St. Mary's bay is exposed and in some areas is large enough to play a game of soft ball on. This is the area that the provincial government has purchased land for the purpose of developing the area for a recreation park. Hundreds of persons take advantage of the sandy beach as well as the sand dunes for bathing and picnics. (Melanson Photo)

Consider Increasing Rates

Thomas Cleveland, vice-chairman of the Digby Water Commission, presided at the regular meeting of the Commission on Wednesday evening in the absence of the chairman, Robert Morgan. The financial statement was reviewed and discussion arose on the possibilities of increasing town water rates. It was decided a special meeting would be called to make a decision on the matter.

Supervisor Frank M.A. Smith gets ready to step into the driver's seat of the new mobile mechanical inspection vehicle which took to the province's highways last week. It is the first of its kind in Nova Scotia. Hon. Leonard L. Pace, Q.C., Minister of Highways turned over the vehicle to the Registry of Motor Vehicles in Halifax. Registry personnel will operate the inspection vehicle, checking out motor vehicles selected from traffic on provincial highways. It carries a complete range of equipment for mechanical analysis of motor vehicles. (N.S. CIC Photo)

Woodland Directors

Meet

Eight directors of the Digby County Woodland Owners Association and Donald Brown, Digby, guest, met on March 31 at the Agricultural office in Weymouth.

Mr. Brown, in his position with the Department of Lands and Forests at the Hill Grove branch, gave an outline of what government assistance is available in the County and tried to answer why the assistance is not being used here to its full potential.

By regular motion it was decided that all expenses should be paid for those people who were attending the Pulpwood Marketing Seminar in Truro on Friday, Saturday and Sunday, April 4, 5, and 6.

The directors planned for a general meeting on Tuesday, April 15 at the Royal Canadian Legion Hall, Weymouth at 8 p.m. The topic will be "Government Assistance" and a special speaker will attend. Mr. Brown offered to arrange for a few slides. Refreshments will be served.

Another feature of the April 15 meeting will be the awarding of door prizes with eligibility being that of

Women Do Much White Cross Work

The Woman's Missionary Society of the Smith's Cove Baptist Church met at the home of Mrs. Wilbur Rice on Wednesday afternoon, April 2. Mrs. Alice Landers, president, presided over the meeting which opened with the Lord's Prayer. Eight members were present.

The members responded to the Roll Call with Scripture on "Believe." Articles for the White Cross work - baby shirts, baby sweaters, bonnets, and booties, plus 700 squares for bandages - were brought in by Mrs. Rice, Miss Sue Winchester and Mrs. Landers.

Plans for attending the Annapolis-Digby Association meeting in Middleton on April 26 were made, as well as the Society's annual Crusade meeting in June. Mrs. Alice Landers will be the hostess for the May 7

meeting and will also present the program. Mrs. Alice Winchester will be the devotional leader. Roll Call Word will be "Obey."

The program, presented by Mrs. Phyllis S. Winchester, was taken from the diary of Bob and Marg MacQuade, "Glimpses from Our African Diary," who were members of a tour of mission work of the Canadian Baptists in Kenya and Zaire. This was the first of several reports of this tour and dealt with the area of Zaire.

A lunch was served by the hostess, assisted by Mrs. Annie Winchester.

House Burned

The two storey home of Arthur McCormack, Centreville, on Digby Neck, was completely destroyed by fire on Saturday night.

The Digby Fire Department was called at 5:55 p.m. and raced to the scene, only to find the house mostly

burned. They confined their efforts to saving the home of the next door neighbour. According to reports the fire began with a grass fire.

Represents Canada

Nova Scotia deputy minister of agriculture, Charles A. Douglas who has frequently visited the Digby

area, is co-representing Canada at the third Committee session of the World Food and Agriculture

Organization in Rome, Italy. Mr. Douglas said he has been requested to present the world food situation "as we see it from a Canadian standpoint."

The Canadian delegation to the conference, also including T.G. Willis, international liaison service, Agriculture Canada, Ottawa; and Dr. M.F. Clarke, of the department of agriculture's research branch, Ottawa; has already forwarded reference papers to Rome.

One aspect dealt with in the papers, said Mr. Douglas, is agriculture extension and training, and how it pertains to the world food situation.

The Canadian delegation will travel to Rome on behalf of the food and agriculture organization of Canada. The conference is sponsored by the World Food and Agriculture Organization, which is composed of governments of most every country on the globe.

The main theme of the conference will be world food problems and roles in which world governments do, and can, play in food production for mankind.

The deputy minister will travel to Rome with his wife. Following the conference, they will tour the United Kingdom and visit a number of dairy, hog and other livestock farms under a tour arranged by the London office of the Nova Scotia department of development.

Mr. Douglas upon his return to Nova Scotia will begin working for the Nova Scotia Provincial Exhibition as secretary-manager.

Maritime Christian College Group Visits Churches of Christ

Fifteen young people from the Maritime Christian College, Charlottetown took part in services at South Range, Southville and Weymouth Churches of Christ last Sunday.

Speaking at South Range, Hank Kevon, a student from Hong Kong spoke on the subject, "What Kind of Faith Do You Have?"

Fred Osborne, speaker at Southville, brought a

challenging message, urging us to examine our commitment to Christ. How great is our love for Him and how would we persevere in the face of persecution for our faith?

The Weymouth service under the direction of pastor Merle Zimmerman, consisted of special numbers brought by the group on a whole, as well as solos, duets and readings. Mr. Norris, president of Maritime Christian College brought greetings to the churches and expressed his personal thanks to them for their continued prayers and financial support.

Hank Kevon again addressed the congregation, speaking of the seven-hundred million people in China in need of the gospel but whose country is controlled by Communists.

Paul Stevenson's message portrayed a man on trial for his life. Despite the truth of the testimony of witnesses in his defense, He was condemned to die. This man was Jesus. What have we done with regard to the testimony of witnesses in the New Testament account?

The students were entertained in homes of the area. Following the evening service they were invited to the home of Hanford and Anne Lewis for fellowship and refreshments.

Task Force Named

Dr. Mairi St. John MacDonald of Mount St. Vincent University, will head the Nova Scotia Task force on the Status of Women.

The announcement was made by the attorney general, Hon. Allan E. Sullivan. The Task Force will report the Government through the Minister.

Dr. MacDonald is assistant Dean at the mount, as well as Director of Continuing Education and the Summer School. Other Members of the task force are: Carrie best, New Glasgow, Journalist and Columnist; Edna Desantis, Sydney, National President of the Business and Professional Women's Clubs of Canada; Judy Giffin, Halifax, Lawyer; Joan McLellan, Noel, Hants County, Municipal Councillor and Past President of the Women's Institutes of Nova Scotia; Dr. Lorette Toews, Wolfville, Home Economics Faculty of Acadia University; and Mary Wall, Halifax, Director of Guidance and Pupil Personnel for Dartmouth City Schools.

The Task force will be charged with a three-fold mandate, Mr. Sullivan said. It will study the report of the Federal Royal Commission on the Status of Women with particular reference to recommendations which fall within Provincial Jurisdiction. It will report to the Government on matters pertaining to the Status of Women in the Province and advise on actions necessary to improve that Status.

Beginning in June, The Task force will travel across the Province holding Public meetings.

"It is fitting that the task force should be appointed now, as The Province is observing international Women's Year," Mr. Sullivan said. "Its appointment reflects the

Government's concern about the current opportunities for women in our society."

"Why should women, who make up over one-third of our Labor Force, fill such a low percentage of those jobs at the managerial level and over?" He asked. "Why aren't they better represented in business, industry, and politics? These are questions we should all be asking, especially during international women's year."

"Discrimination cannot be legislated out of existence," Mr. Sullivan added. "attitudinal changes are the only effective means to combat the prejudices that parents pass on to their children. The task force is one means by which these changes may be affected."

The Energy Waste Watcher

This column will look at painless ways of cutting down your fuel and electricity bills at home. Have any suggestions? Send them along to the Energy Waste Watcher at Information EMR, 588 Booth Street, Ottawa K1A 0E4.

This insidious thing is that you can see wasted food but you can't see wasted energy. Kilowatt hours are frittered away quietly and invisibly leaving behind only a few dollar figures on your electric bill that could be lower.

Take the refrigerator and freezer, for example. Both operate 12 to 14 hours a day, constantly drawing electrical energy. Given proper care and use, however, they can be major energy savers.

First of all, buy carefully and choose the size that suits your needs. A refrigerator

or freezer will operate more economically when filled to capacity but not crammed with food.

When having the refrigerator installed, keep in mind that it will use less energy if located away from heating equipment and direct sunlight. Also, allow enough space for air to circulate around the unit.

It's a good idea to make sure the appliance is not set to run colder than necessary. The manufacturer's manual will recommend the proper setting.

When buying a used refrigerator (or checking the efficiency of the one you have now), test the rubber seal around the fridge and freezer door by closing the door on a sheet of paper. There should be a considerable drag when you yank the paper out. If not, the seal is worn or badly fitting and should be replaced. Check with the manufacturer for a spare. A badly sealed refrigerator can allow air leaks that make the appliance work harder to keep a uniformly

cold temperature. And that means higher operating costs in terms of kilowatt consumption.

Let hot foods cool down before storing in the fridge. Placing the hot pan or pot in cold water will reduce the temperature quickly.

When the frost in your freezer is about one-quarter inch thick, it's time to defrost. Frost wastes watts of cooling power by acting as an insulator.

By the way, frost-free refrigerators are great savers of your energy, but not of electricity. A standard 14-cubic-foot refrigerator-freezer uses about 950 kilowatt hours (kWh) of

electricity a year. A frost-free model of the same size uses about 1,500 kWh. That's about 50 per cent more energy per year for this feature. A frost-free refrigerator does require attention to make sure it's not draining power unnecessarily. A blocked condensate drain, for example, will cause build-up of ice on the coils and cut down on the cooling power. You might check the manufacturer's manual to find out exactly where the drain is located (it varies with various models), and make sure the drain is unclogged. The condenser coils should

also be wiped or vacuumed from time to time. In most models they're found at the back of the unit, although in some newer refrigerators they're found below, protected by a grill. Remove the front grill for cleaning. Taking off on vacation? If your refrigerator is fairly empty you can safely lower the temperature. If you are away for a long period of time, and your freezer and fridge are emptied, unplug the appliance and leave the doors open.

Prepare Landau For Festival Queen

Queen Annapolis XLIII - elect will ride in a beautiful, Victorian landau during the Annapolis Valley Apple Blossom Festival Grand Street Parade to her coronation at Memorial Park in Kentville on Saturday, May 31.

The Festival Board of Management agreed that the new Festival Queen will be announced during the Concert at University Hall in Wolfville on Friday evening, May 30, and the crowning ceremony will take place on the following day in the town that is hosting the 1975 Festival. As the wintry blanket of snow lingers in the Valley, plans are moving ahead rapidly to celebrate the coming of Spring's apple blossoms and greenery at the end of May.

Festival president Lloyd K. Hill advises that Mr. David Johnson of Starr's Point is providing the landau, similar to the one which carried Queen Victoria. The horse to pull the carriage will be provided by Mr. Leon Taylor of Martock, Hants County, and the footguards will be from the Bengal Lancers of Halifax. In the event of inclement weather, the alternate plans are for the crowning to take place at Kentville Centennial Arena.

Geoff Wright of Kentville, program committee chairman, outlined a series of plans for the four-day festival to engage the whole Annapolis Valley from Windsor to Digby and provide activities and entertainment for most age groups.

A Proclamation will be transported from Digby to Windsor on May 29 and 30, and the symbol of the Festival "Dan D. Apple" is expected to debut at that time. The events of May 29 will include plans for a ball game at Kentville in the evening between MLA's and Apple Blossom Festival committee members, followed by a fireworks display. Plans for May 30 include an afternoon tea, the evening concert of Nova Scotia talent and the introduction of Princesses at University Hall with TV host Jim Perry as emcee, and the Princesses' Ball at the Acadia Gymnasium with music by Taxi. Other plans for the day are to include bingo, card parties, dances, and a horse show at Windsor that continues through the weekend.

Saturday, May 31, will be Parade Day with the Children's Parade in the morning and the Grand Parade in the afternoon. Acadia president Dr. J.M.R. Beveridge will crown the new Queen and there will be a Musical Ride by the Bengal Lancers, a program by the Calais, Maine Marching Band, aerobatics and skydiving, beergardens at Kentville and Digby, a golf tournament, and an offer from the bus drivers of the Municipalities to provide their time and buses to escort our senior citizens to the Saturday events. Band of Gold will provide the music for the Queen's Ball on Saturday evening at the

Acadia Gymnasium.

The program committee's plans for Sunday, June 1, include a Car Rally from Windsor to Digby, a Soap Box Derby at Kentville, Bath Tub Races at Windsor, an Apple Blossom Bowling Tournament, and an Ecumenical Service with bands and a chorus at Grand Pre Park.

The Festival Party will conduct the eastern portion of the Valley Tour on Saturday and Sunday, and visit the towns and villages from Berwick to Digby on June 2, with the final Blossom Ball at CFB Greenwood in the evening.

GRAND PARADE ENTRY DEADLINE

The 1975 Parade theme is "Valley Heritage" and

members of the Board of Management agreed that the quality, rather than the quantity, of the floats is very important as the Grand Street Parade is the highlight of the festival. A strict deadline for Grand Parade float entries will be enforced this year to enable the parade chairman to finalize the parade formation work before Saturday. Parade chairman Cecil Bardell of New Minas said approximately twenty applications had been forwarded to band organizations with eight confirmed entries to date. No float applications had been received. Mrs. Ken Hird of Kentville, heading the Children's Parade committee, outlined initial plans and requested a band for the junior parade.

Four Valley towns have submitted their float theme selection, according to Mrs. Verna Eaton of Port Williams. They are Digby - Scallop Industry; Canning - Canning through the years, Shipbuilding to Farming; Hantsport - History of the Railroad, NSR-W and A-CPR; Greenwood - Agricultural heritage.

Ivan Pulsifer of Wolfville outlined the initial plans of the Dance Committee, and Mrs. John Scott of Hantsport, on behalf of the Queen and Coronation Committee, said the princesses have been invited to appear on Halifax TV at 2:30 p.m. on May 29.

Festival president Hill reported that tentative arrangements have been made to accommodate the Princesses at the Old Orchard Inn in Greenwich.

The Board of Management approved a budget of \$20,000, to carry out the 1975 Festival program.

Mr. Hill advised that a general meeting of the Festival Committee, open to the public, will be held at the Town Hall, Kentville, on Wednesday, April 16, at 8 P.M. He said the full report of the committees will be outlined.

Returns From East Africa

Gordon Ritcey of Ottawa, Ont., the son of Mr. and Mrs. Everett Ritcey, accompanied by his wife and son, Douglas, have now returned home after visiting here with his parents.

Mr. Ritcey, a Research Scientist with the Energy Mines and Resources, has recently returned from a trip to East Africa. He is now Head of a Metallurgy Division and had the honor of being requested by the United Nations to go to Bujumbura, the capital of Brundi in East Africa to consider the possibility of and to estimate the cost of mining nickel ore found in that country by the natives who reside there.

Mr. Gordon Ritcey took the folk of this village on an evening's trip to Brundi and Kenya by means of slides and movies which he took during his stay in East Africa.

We are told it takes 18 traveling hours from Ottawa to Brundi. It is interesting to note the ornate bead work worn by the natives of this country and see the small trinkets made of bead work such as a case for letter openers and knives. The children paint pictures, as well as adorn note paper and envelopes with small paintings, in a corner.

In addition to Nickel ore, deposits of silver, gold and iron are found here and many beautiful flowers bloom in this warm country, Mr. Ritcey said.

Banana tree groves are numerous here and trees grow tall compared to the mud huts in which the natives reside. These huts have mud floors and a thatched roof. In some cases

a family of about 15 relatives live in a hut and are made up of brothers, sisters, aunts and uncles as well as grandparents.

Many of the natives we see are over six feet tall and have to crawl into their huts.

We are told that approximately every two years a new dwelling is erected and the old one is burned. The dwellings are located among the banana trees.

In Kenya the dwellings are like the dwellings of Brundi, a mud hut and unlike them because a dwelling in Kenya is all mud, roof included.

The native women carry a small child on their back and work in the soil while men are occupied with other jobs.

We not only saw some of the various birds and animals of this country but heard them.

During the later part of the evening slides and movies were shown of other places including Windsor Castle, England. A commentary on Windsor Castle was given during the showing of these slides.

While Mr. Ritcey showed films and slides he was assisted by his son, Douglas who was in charge of all sound effects heard during the evening.

Mr. Ritcey has been on a two week trip to England since he returned from Bay View and during the next year is booked to travel in other areas. He travels a considerable bit spending much of his time away from home for business purposes. He has been working with Energy Mines and Resources for about 23 years.

spending several months at the home of her mother Mrs. Lizzie Melanson and her brother Mr. and Mrs. Lewis J. Melanson.

Mr. and Mrs. Ted Green of Antigonish visited the same home recently. **FIVE TRAGEDY AVERTED**

A near tragedy was averted at Gilbert Cove when alert neighbours prevented a serious fire at the home of an elderly couple at 1 a.m. on Friday. Fortunately one of the neighbors heard a blast. Other neighbors were alerted and the couple were awakened. The Plympton fire Department arrived and found the fire was then under control. The fire apparently was in or near the gas tank and then caught at the porch of the house.

The damage was not great but what could have taken place would have been a tragedy.

A Thought Starter

A NEW LOOK AT THE WORD

Everyone else is speaking, why not God? He has something to say, and He is saying it. He does this through His Word, the Bible. He speaks through churches and individuals, but only when they are committed to His Word.

There must be one trustworthy Rock of Truth, otherwise confusion would rule. The revealed Scriptures are the authority. If every Church could come up with its own truth, there would be no one voice binding us all together, and giving testimony to one God Who is always the same in every situation.

We live in a day when many Bibles are being sold, yet ignorance of it is appalling, and true surrender to its power is hard to find.

Does it take special talent to understand? We may put ourselves down for lack of education, and skill, thus making excuses for limited Bible knowledge. Time for study of these pages could be hard to find in busy days. Something else often blocks the best intentions of getting into His Word.

The real appreciation of this Book comes when the Spirit of God draws us to it, when He becomes teacher. He interprets, convinces, and illuminates.

The God Who gives us the Bible also must place its truth and power in our lives. Human intellect is not enough.

It is a Book of the Spirit, and must be spiritually discerned.

When this comes to pass, it will become priority reading, and surrender to its reality will brighten all of life.

Why?

Women have been isolated from each other. In our kitchens and even in our outside, jobs, we are often made to feel that our problems are ours and ours alone; that somehow everything stifling and painful about our lives is due to our personal inadequacies; that, if there weren't something wrong with us in the first place, we would be perfectly happy and fulfilled in the female role.

The U.N.N. has designated 1975 as International Women's Year. Do you realize we have allotted our tax-payers' money to give women the opportunity to express their opinions, needs and desires - in order to achieve her role in the family, community and society at large.

What are the feelings of the women of Digby?

Committees Formed For Scallop Day

August 16 or August 23rd were the two dates to be considered tentatively for the proposed Digby Scallop Day sponsored by the Annapolis Basin Tourism and Recreation Council in 1975. The president, David Irvine, who presided at a regular meeting at the Fundy Restaurant on Wednesday evening was named co-ordinator for Scallop Day.

Committees for the proposed Scallop Day were named. Earl Goudy of Mountain Gap Inn and Gary MacKenzie were named on a committee to establish liaison with the fishing and scallop interests. The events committee is under the chairmanship of Mrs. Douglas Myra and Larry

Duschene will look after promotion and publicity. Harold Riley volunteered his services as chairman of the police committee and Douglas French was named along with Mark Blugerman to a committee on scallop preparation. Tommy O'Neil took on the job of supplying scallop shells and will endeavour to persuade the fishermen to especially save the best shells for the event. The committees are scheduled to meet at the Kingfisher Motel at four o'clock p.m. on Thursday, April 24th to draw up further plans. The next regular meeting will be May 14th at the Hedley House, Smith's Cove.

Ed Knowlton, Rossway,

who had previously been requested to draw up a Scallop Day plan, presented his report to the Council. He felt that, if well publicized, people would focus a vacation trip around a Scallop Day which would be unique and exciting for visitors. Mr. Knowlton suggested something modest for the first year and if it is continued to add more features the following years.

Mr. Knowlton suggested planned visits to the scallop boats to see the mechanics, guided tours of fish plants and interests on the wharf and Cannon Bank. He advocated having printed literature to give to visitors on Scallop Day, have special scallop dishes at the

restaurants, give out scallop shells and have lucky shells. He saw the possibility of a cookery.

Plans were made to apply to Lloyd Hill of the Annapolis Valley Affiliated Boards of Trade for a thousand dollar grant from the Department of Recreation and distributed by the A.V.A.B.T. as it was felt the Scallop Day comes under the terms of reference. Members also mentioned that funds were available from A.R.D.A. for capital expenses.

Speaking on municipal grants to the Annapolis Basin Tourism and Recreation Council, Mrs. M. C. Gott mentioned that in Yarmouth their association

gets \$5000 from the town, \$1000 from the municipality and \$750 from Argyle besides provincial grants.

Prior to the Scallop Day discussion regular business was transacted and reports received. By regular motion the membership fees to the Council will remain at five dollars. Plans were made to have membership cards printed.

It was decided that updated literature will be compiled and forwarded to Leo Matthews, the third new member in the Department of Tourism.

President David Irvine reported that in talking with the Department of Highways, he found that to make a suitable entrance to the Old

Bear River bridge abutments would cost \$15,000. Mr. Irvine, who has been advocating the use of these abutments, said that it might be wise to spend the \$15,000 on some other project.

The Minister of Recreation, it was reported in requesting authentic literature from around the Wild Life Park to prepare a history for a special booklet to be printed in 1976 and to tie in with the program adopted by U.S.A.

Unfavorable comments were made on the eight dollar green fees which is being charged to the golfers at the Pines Golf Course. A resolution sent in by C. D. Snow, Digby, also protested

the golf club rates at the Pines. A motion made by Gary McKenzie, seconded by Mrs. Gott protested the Pines Golf Course green fees on the basis of them being detrimental to the tourist trade.

It was suggested that the government be requested to construct a band shell on the Prescesky property in Clements.

Mrs. M. C. Gott gave a few highlights from her recent trip to Halifax to visit the Department of Tourism. She expressed hope that the Council would qualify under the terms of reference to a grant for Scallop Day.

Mrs. Gott, reporting on her trip to Halifax, was perturbed that the Innkeepers

Guild and other associations or individuals seem not to be concerned about the Graham Commission report on Taxation which effects such places as restaurants, motels, campgrounds etc., which will be required to accept a two tier tax, residential and business, with the rate of about \$4. per \$100. This, said Mrs. Gott, does not take the place of municipal taxes.

In continued discussion on the failure to obtain municipal grants, the president suggested that each person interested in tourism withhold a percentage of their taxes each year.

Five Confirmed At Trinity

A reception was held at the Rectory following the confirmation service at Trinity Anglican Church, Digby, N.S., on the evening of April 23rd.

Confirmed at the evening church service by Archbishop W. W. Davis were: Paula Ryan, Ellen Everett, Dale Stewart, Kathleen Igoe and Teen Halliday.

The guests at the reception were welcomed by Rev. Mr. Issac Butler and Mrs. Butler, Archbishop Davis and Mrs. Davis, Mrs. Harold Emerson, Mr. and Mrs. Ernest Ryan and Mr. F.C.

Purdy.

Arrangements were under the direction of Trinity Guild members.

Pouring for the occasion were Miss Louise Daley, Mrs. William Troupe Sr., Miss Mary Marshall and Mrs. Kenneth Woodman.

Replenishing- Miss Marjory Tupper, Mrs. Herbert White, Mrs. Jeffrey White, Mrs. Donald White and Mrs. Robert Hersey.

Serving the guests were three young ladies:- Miss Anne Rogers, Miss Colleen Journeay and Miss Jacqueline Journeay.

The Guild has also planned a buffet supper to be held on June 5th and a summer Bazaar and Tea on July 23rd.

At each weekly Guild meeting articles suitable for gifts are made and an evening group that meets twice a month, have a quilt well under way to be sold at the July Bazaar, when funds will be used to assist with church expenses.

Recently a successful evening auction was held at the home of Mrs. R. MacLeod Rogers.

Dedicate Memorial Piano

A piano was dedicated at the Lighthouse Church of God on Thursday evening to the Glory of God and in loving memory of Rev. Raymond Brown who passed away in November 1974 after serving the Digby Church for seven years. Since his passing the church has been served by the late minister's son, Dennis and now by Pastor Francis E. Burnett. Above is Mrs. Brown passing the plaques to Rev. Mr. Burnett who received them on behalf of the church. The plaques which will be attached to the piano reads "Dedicated to the Glory of God in loving memory of Raymond L. Brown, pastor 1967 to November 1974." and "I have fought a good fight, I

have finished my course; I have kept the faith II Timothy 4:7."

In making the presentation, Mrs. Brown said that she and the family chose a piano as a memorial as they remembered it had been Mr. Brown's desire and dream for several years to have a new piano in the church. Through the generosity of relatives, members of the church, friends from all the churches and the unchurched in Digby, merchants, businessmen and friends from various Church of God groups in Canada and United States, his dream has become a reality, she said.

The dedication took place at the semi annual Sacred Concert at the Church of God when 85 persons were present. Mrs. Brown and her daughter, Laura, both used their musical talent in the concert.

Others who presented numbers were: Mr. Cyril Middleton, Weymouth; Mr. Robert Wilson, Digby; Smith's Cove Baptist Church choir and a ladies quartet from there; Mrs. Boyd (Alice) Haynes, Digby; Mrs. Oakley (Zelma) Turnbull, Digby; Miss Joanne Franklin, Digby; and persons who regularly attend the Lighthouse Church. These were: Sylvia Haynes, daughter of George Haynes; Doris Brown, Rose Bent, Audrey Forrest, Elaine

Handspiker, Gail Brimmer, Laura Brown, Iris and Francis Burnett, Allie Small, Wayne Abbott, Marjorie Ring, Roxanne and Elta States, Wendy Robinson, Robert Purdy, Michael Ross, Kay Ross.

Wins Public Speaking Contest

Lisette LeBlanc of the St. Bernard, Digby County, 4-H club was named best overall public speaker at the annual Clare district 4-H rally in the Clare District High School. Miss LeBlanc was also winner of the junior public speaking event at the rally. Her address was titled "Is it really worth it?"

4-H members from this predominantly French-speaking area were entered in the public speaking. A demonstration competitions. About 100 members and interested persons attended the session.

Winners in all categories will compete in the regional rally at Western Kings District High School, Auburn, Kings County, April 26, and if successful they will represent their area at the provincial level this summer.

formed. Overture from Tommy, Shaft, Summer of '42, Gospel Rock Medley and Sounds of Sousa.

The D.R.H.S. Concert Band then played their portion of the concert with Dorian Overture, Londonderry Air, 7 Latin, a beautiful sax solo played by Colleen Scott, called Solo Silhouette and finally Fiddler on the Roof.

After the intermission both Bands joined together to play the theme song from Hogans Heroes, Music from the Sting, Close to You, and to end the first leg of the exchange, Highlights from Jesus Christ Superstar. After the Concert, members got together on the outskirts of Digby for a social gathering.

On Sunday everyone met at the Multi-Purpose Room to load up and to see the Woodstock Band to the wharf and see them off. By the look of the weather and wind they were going to have a rough journey home.

Gardening For Cubs

The 4th Digby Cub Pack was happy to welcome Bruce Gilliat, Agricultural Representative, to their regular meeting last week. Mr. Gilliat's well prepared

presentation included the identification of weeds and insects, and the proper usage and care of various garden tools. He also explained how to grow plants in a terrarium, and how to start plants indoors in flats.

The boys showed a keen interest in Mr. Gilliat's explanation of the various requirements for their gardener's badge. The leaders hope that Mr. Gilliat's demonstration of proper grading techniques will have sparked enough interest among the Cubs to warrant planting and caring for their own small garden plot.

As another varied and successful year draws to an end, plans are underway for the annual fund raising event - a bottle drive, which hopefully will provide sufficient funds for the Cub's summer camp. This bottle drive is scheduled for Wednesday, April 30th. If you have bottles you would like picked up, please call Bill Amiraunt prior to that date at 245-4641 after 5:00 p.m.

Members also helped the Sisters in finishing six quilts intended for the needy families of the parish.

Miss Gladys Sulis, Digby, was not present at the Nova Scotia Power Corporations Cooking School, in Bear River on Thursday when her ticket won the electric range, the grand prize out of a list of 90 including the range, the items cooked at the school and articles donated by businesses and members of the Cherry Blossom Order of Eastern Star, which organization sponsored the school. Members of the O.E.S. admire the range won by Miss Sulis. Band Exchange Huge Success

In the picture above are seen the Digby Regional High School Concert Band who jointly presented a concert on Saturday evening at the D.R.H.S. multi-purpose room with the school band from Woodstock, N.B. Band direction left of centre is Donald Scott, Digby, and right centre, Gerald Sproul, director of the Woodstock Band. The bands played to a full house and was considered an outstanding performance, actually breaking all previous records in their skillful and enjoyable presentation on Saturday evening.

By Claude Pothier
On Friday, April 18th, the Woodstock, N.B. Band arrived via the Princess of Acadia. They were welcomed by Digby Band members, parents, and friends. The Woodstock Band members and chaperones then gathered their belongings and boarded a school bus. A cavalcade of cars escorted the visiting band through Digby, and then proceeded to the I.O.C.F. Hall. There everyone got together and Woodstock members were branched off with their Digby hosts. After this was completed they parted for respective homes for the weekend. Friday afternoon was free so we could do what ever we pleased. That evening at 8:30 p.m. we all met at the hall for an evening of entertainment. Music was provided by Clar, our school rock band. At 10 p.m. pizzas and chicken were delivered so everyone could have a late night snack along with pop provided by Jones Bottling Co.

On Saturday the BANDS reunited at the Multi Purpose Room of D.R.H.S. for rehearsal which lasted from 8:30 a.m. to 12:30 p.m. Saturday afternoon was spent as free time. Most of the band members spent the afternoon at the Bowling Allies. The main reason for Woodstock's coming finally came about that evening at 8:30 p.m. This was when Digby and Woodstock played a joint BAND Concert. Despite rainy weather and other interruptions a crowd of 350-400 persons were on hand for the concert at the Multi-Purpose Room.

The concert opened with both bands playing O Canada. Mr. Donald Scott then introduced Mr. Gerald Sproul, Director of Woodstock Band and also Woodstock Band itself. The audience welcomed them royally. The D.R.H.S. Concert Band then left the stage leaving the next half hour of playing time in the capable hands of the Woodstock Concert Band. Feeling at home they per-

NATIONAL FOREST WEEK-1975

There are so many "Week observances that there are scarcely enough weeks in a year to accommodate them. They are all important (or most all of them) and are put to useful purpose. They are supposed to stimulate thoughts on certain aspects of life for the entire year.

National Forest Week in 1975 will be observed from May 4-10. This year's theme will be "Trees ... The Green Link." The Week is promoted to help remind Canadians of the importance of their basic renewable natural resource - the forest.

This year's theme was selected to highlight the many ways in which trees are the keystone of the Canadian environment. They provide a basic link converting the energy of the sun to a form useful to man and other life; trees provide an essential food and habitat link for wild life; trees are a primary link in Canada's economy; and to an increasing degree trees represent a fundamental link with the future because of their influence on the atmosphere as well as their perpetual source of raw materials for man's needs.

According to Professor D.V. Love, newly-elected president of the Canadian Forestry Association, trees are so common on the Canadian landscape that we sometimes take them for granted. "Yet," said he "whether Canadians live in the city or in rural areas, trees are a fundamental link for all of us with our future."

CHILD SAFETY WEEK MAY 1 TO 7

Last week our columns carried some timely comments from one of the town councillors dealing with bicycles, their use and safety measures. We can't emphasize that subject too much and our intention was to elaborate more on the subject but with Child Safety Week coming up we'll broaden the base and include other safety measures besides bicycles. To do that there is no clearer way to express our thoughts than in the message from the Honorable Marc Lalonde, Minister of National Health and Welfare, for Child Safety Week.

Mr. Lalonde's message is:

"Every year, in sponsoring Child Safety Week, the Canada Safety Council makes us freshly aware of the need to protect our children and teach them respect for danger. The desire to live - and stay healthy - is a universal objective. To be safe, situations which threaten the safety of children must be eliminated or brought under close supervision and control.

Thousands of children are injured or die needlessly every year in Canada, in bicycle, boating, swimming, traffic and home accidents which never should have happened. Safety is a message which cannot be stressed too much. Parents have a special responsibility to teach their children to act safely and take care - in one word, to think. THINK - before crossing the road, before swimming beyond the marked safe limit, before riding double on a bicycle. THINK to buckle seat belts in automobiles, to stay away from excavations, from bottles of medicine, cans of cleaning substances, from railway tracks, rusty nails and all the other hazards in our homes and environment. THINK - and stay alive!

The efforts of every adult in Canada are needed throughout the year to keep children safe. Let Child Safety Week be a timely reminder.

BAND EXCHANGE HUGE SUCCESS

Continued From Page 1

At this time the D.R.H.S. Concert Band would like to take this opportunity in saying thank you to the citizens of Digby for the warm welcome given to the Woodstock Band and also for the excellent turnout to the concert. Also we would like to thank the I.O.O.F.

members for the use of the Hall and also to the Digby Fire Department for having the Fire Hall readily available in case of any interruptions that might have occurred on April 19th. The D.R.H.S. Concert Band will be completing the

exchange by travelling to Woodstock on April 25th and returning April 27th.

WINS PUBLIC SPEAKING CONTEST

Winner in the intermediate public speaking event was Jeannine Comeau, St. Bernard 4-H club who spoke on "Sport - enjoying it to the fullest."

The pleasure of dying netted Janice Thimont, Meteghan River 4-H club first place in the senior public speaking event.

Gaston Comeau, 4-H Acadians of Meteghan, won the junior demonstration event with "Un projet de sil," while the junior doubles

According to the daily press, Prime Minister Pierre Elliot Trudeau said at a \$100 a plate dinner on Friday evening that Canadians must learn to curb their desires for more money and material things. People, he said, must be ready to show restraint in pay and price demands to curb inflation. Six months ago that might have been taken seriously and reasonable to expect people to follow. We are afraid that the P.M.'s request won't be taken too seriously after the enormous increase, in salary voted for the members of parliament. Show us the way.

—We know how you feel. On April 17 our Red River Valley Echo arrived from Altona, Manitoba. It was the April 9 issue. Eight days wasn't good nor was it so bad. But with it was the issue of March 26. That took a little over three weeks. We are sure Dave Friesen didn't send those two papers out at the same time. The Postperson General was sure right when he or she decided not to raise postage costs until the service is better. To top it all two Echo's were tied together with heavy two-toned blue cord. One Echo was for Richard Harten, Dartmouth. We are sure Dave wasn't guilty of tying that string. We hastily mailed out the Echo to Mr. Harten. It being the March 26 number, we know that Mr. Harten is wondering where on earth is his Red River Valley Echo. We hope Richard Harten enjoyed the March 26 Echo after waiting approximately four weeks to receive it. Anyway we can understand how subscribers feel when they do not receive The Digby Courier regularly. We hope the subscribers understand the publisher's position, too. Wonder if it would be any good in this Woman's Year to insist on a woman "Postmaster". Or would that be discrimination?

—Actually, is there anyone who can deny it? A personal for our newspaper read "John and Jim left for Upper Canada where they will seek unemployment."

He looked so serious when he suggested how to handle the situation, but he had to be fooling. Just this. If grants are not available from our municipal and civic bodies then each person within the organization should withhold a certain percentage of taxes each year. Oh, he had to be kidding.

—So far Digby has had fewer grass fires in 1975 than in 1974. The number in 1974 were fewer than 1973. Be patient, it looks as if some of the education and fire prevention program is sinking in.

—With Child Safety Week coming up, Canada Safety Council has among many other rules for children that they should take their seat quickly on a bus. If you are not sitting down when the bus starts you may be thrown down and injured. This would be a good rule for grown ups too. One fault among so many good practices on our regular buses around here is that they generally get started when they pick up passengers before the passenger has found a seat. You need to have exceptional balance if not to be hurled to and fro.

—According to the big snow storm last week which caused death and injury on the highway, the Department of Highways might have to move their prohibition of studded tires to a later date in the future. We've seen bad weather as late as April 28 some years.

class was taken by Aline LeBlanc and Elizabeth Comeau, St. Bernard Club, who demonstrated "Making pretty pictures."

Conrad Doucet, St. Bernard best overall demonstrator, won the senior singles class, demonstrating making a string geometry.

The winner in the senior poster division was Julien Comeau, Meteghan River 4-H club while Yvette Saulnier of the 4-H club Les Dix Amies in Meteghan River won the junior poster competition.

Judges for the rally were Mrs. William Deveau, Mavillette; Mrs. Elaine Thimont, Saulnierville; Edith Thibodeau, Church Point; Mrs. Anne Belliveau, Belliveau's Cove; Mrs. Laura Comeau, Meteghan River; and Fernane Cyr, Belliveau's Cove.

SUNDAY MORNING FIRE DAMAGES HOUSE

Continued from Page 1

Home housed vehicles in the adjoining garage.

The fire, it is said, began on the second floor and is believed to have started by faulty electrical wires near the deep-freeze. The second floor was gutted and smoke and water ruined the first floor.

On the second floor were Mr. and Mrs. Brian Denton and children, Catherine 6 and Jason 4. The first floor was occupied by Mrs. June Pyne and three children. Both families lost all their belongings in the blaze.

The Digby Volunteer Fire Department was called to the scene.

The fire department was again called out on Sunday for a unique fire at Conway near the home of Mrs. Austin Lutz. Evidently, it has been said, the fire was caused by wires getting crossed and burned the pole which eventually caught the grass.

Miss Cooper Guest Speaker

Miss Lucy Cooper was the guest speaker for the Mission Service held Saturday evening, April 19th, at the Smith's Cove United Baptist Church. This service was sponsored by the Woman's Missionary Societies of Clementsport and Smith's Cove and the Deep Brook United Baptist Pastorate with Rev. Wallace H. Jordan, Pastor. In the picture above left to right are Mrs. Eva Rice, Smith's Cove; Mrs. Johanna Holland and Mrs. Vivian Langille, Clementsport; Miss Cooper and Mrs. Hazel Smith, Smith's Cove.

Mrs. Rice, Smith's Cove, opened the meeting with the reading of Isaiah 52:7 followed by the singing of the hymn, "Macedonia." Devotions were brought by Mrs. Holland, Clementsport, who read portions of Matthew, chapter 9, and prayer offered by Mrs. Langille, Clementsport. The Garlos - Garland Meyers and daughter, Patty, accompanied by Mrs. Meyers, of Upper Clements - presented the special music. Their selections were "I'm Bound for That City," "The King Is Coming!" and "Without Him." Peter Freeman, Smith's Cove, was organist.

Mrs. Rice, after introducing Miss Cooper, called on Mrs. Hazel Smith, Smith's Cove, to make a presentation. Mrs. Smith presented a lovely corsage of white roses entwined with wine ribbon to blend with the beautiful sari worn by Miss Cooper.

The speaker vividly related some of her experiences during the time she was on the foreign field of service and concluded with showing slides of some of the people, hospital and work done while she was in that area.

Miss Cooper, a native of Calgary, Alberta, following general education studied nursing and graduated in May 1930, after which she had experience in private

nursing and as office nurse and secretary.

Having had a desire to be a missionary ever since she was eleven, Miss Cooper realized that she should be prepared in case the time came when she could respond to the call. Accordingly she took a correspondence course on the Bible from the Moody Bible Institute, Chicago.

When the way opened for Miss Cooper to go to India she had barely a month to get ready to leave for her new field of service, but the Calgary Baptist Churches and especially the Mission Circles took great joy in helping her to secure a suitable outfit.

As soon as language study was over, Miss Cooper was placed in charge of the nursing at Vuyuru Hospital for a little over a year. Then she went to Akividu to help Dr. Wolverton in his growing hospital there. Considerable time was also given to evangelistic work among the patients and in the training of Bible women on the Akividu field.

Miss Cooper's last two terms of service have been spent in the Christian Medical Centre at Pithapuram, where she has served as Nursing Director of the Nursing School. Before she left to come home to stay, she trained and handed over her responsibilities into capable Indian hands.

After a year of furlough Miss Cooper will retire from overseas service.

Following the service, a social hour was enjoyed in the Vestry where Miss Cooper met the people of the Pastorate. A lunch was served by Mrs. Violet Banks, Mrs. Angie Francis, Mrs. Frances Freeman, Mrs. Madeline Milner and Miss Marie Morehouse, assisted by members of the Clementsport W.M.S. Mr. Meyers sang "I Saw A Man," and with his daughter, sang "Unworthy."

Letters

Dear Editor and Readers:

Before I was elected to the Digby town council, I made the statement that I would keep you informed on my position relating to the expenditure of your tax dollars.

It was with great concern that I watched the formation of the 1975 budget, which resulted in a rate of \$2.92, an increase of .38 cents over last year. I do not feel that the services offered justified this increase, but I stood alone at the council table in my disapproval.

There is one item in particular on which I would like to make my position very clear - that is, the \$14,000 salary awarded the town office clerk, from \$10,700, an increase of \$3,300.00 (over 30 percent) in one year. There were two afternoon (closed) budget meetings, and two evening meetings which were open. The clerk's salary was dealt with in the afternoon and I reopened the discussion again at the evening session. Unfortunately, the press was not represented although three citizen spectators were in attendance in the evening. The clerk had made a previous suggestion that the salary figure not go to the newspapers, pointing out that if a ratepayer required this information, it was his privilege to come to the town hall and request it from the clerk. I refused to comply with this. Other councillors present remained silent. My position was, is and will continue to be, that this is public business, dealing with public funds, and my first obligation is to the taxpayer, and not to any individual in the town hall.

A "white paper" on the clerk's salary, which was in the hands of two or three other members of council before I was aware of it, (although I am a member of the finance committee) reads: "Last year I received an increase of approximately 11 percent which offset the raise in the cost of living. In 1974 the cost of living increased 12 percent or \$1,300, which would equal a \$12,000 salary. Considering that I have not received an increase in salary representing increased qualifications and experience for over two years I therefore request a salary for 1975 of \$14,000. I feel that this salary is in line with other towns and municipalities in this area of the province after considering the above information." This statement carried no signature or identification, but I must presume it was written by the town office clerk of Digby. By "increased qualifications", I presume the clerk refers to a correspondence course, paid

in full by the taxpayers, and which is taken by the majority of town and county clerks in the province. (The county clerk at the Court House in Digby received an increase this year which brought his salary to \$12,000).

Mine was the only dissenting voice in what I considered to be an unreasonable increase in the salary of a town clerk in Digby, placing it among the highest in the province for towns of comparable size.

The Digby Courier

Dear Madam:

I was glad to see that Mr. Hall found at least one supporter in your paper. He is very lucky. My father once said, and he lived in Bear River most of his life, when the merchants weren't fighting the shipowners, the Grits were blasting the Tories or the Baptists fueding with the Anglicans. The only time they ever got together was when they had a fire. It seems things haven't changed much.

All this business about keeping things just as they are is so stupid when the world is changing all about you. Old days and old ways are all right to talk about, but no good to live by. It's when changing things hit the pocket that all their so-called love for a village goes floating down the river.

Nobody, not even the Board of Trade, will change much there. What they will need first is an influence of new younger families and a few good funerals. They'll have a better chance of doing any good for what was once the best village in the whole Valley. But I wish them all the best of luck.

Yours truly,

Alvin Harris

Weddings

VANTASSELL HUDSON

A lovely Spring Wedding was solemnized at the United Pentecostal Church, Digby, on Saturday, April 12th at 7 p.m. when Audrey Irene Hudson, youngest daughter of Mrs. Ralph B. Ruggles and the late Cecil Hudson was united in marriage to David John, only son of Mrs. Margaret Van Tassel and the late Boyd Van Tassel, all of Digby.

Rev. Ernest R. Tapley officiated at the double ring, candle-light service. The church was decorated with baskets of mixed flowers. Mrs. Douglas Hapeman was the pianist, Mr. and Mrs. Hapeman sang "I Love Thee Truly" during the signing of the register.

The bride, given in marriage by her step-father, Ralph B. Ruggles, looked charming in a floor length gown of white polyester satin with high Vee neckline and long bell sleeves. She wore a chapel length veil gathered into an Borealis crown and carried a cascade of deep red "escort roses" and white statice D'vor.

Her only ornaments were Aurora Borealis ear-rings from her Mother and a red and silver love apple pin, a gift from the groom.

Miss Tanya Phillips, niece of the bride, acted as bridesmaid. She wore a long gown of pink and white gloves. She carried a nosegay of pink tinted Shasta Daisies.

Miss Kimberly LeBlanc, niece of the bride, acted as junior bridesmaid. She wore a long gown of powder blue and white dotted Swiss polyester with fitted bodice and short puffed sleeves and long white gloves. She carried a nose gay of blue tinted Shasta Daisies.

Mr. Marc Phillips, nephew of the bride, acted as best man and ushers were Patrick Taylor and John Stark, friends of the groom.

The mother-of-the bride chose a floor length gown of blue double knit and wore a corsage of red rose buds and statice D'vor. The groom's mother wore a floor length gown of coral polyester and wore a corsage of white rose buds and statice D'vor.

Following the ceremony, a reception and dance was held at the Lions Hall, Digby.

The brides table was centered with a two tier wedding cake, topped by a miniature bride and groom. Miss Joanne and Judy Weir, cousins of the groom, served the bridal party and Miss Cheryl Hudson, niece of the bride was in charge of the guest book. The toast to the

bride was proposed by Mr. Jules Pottier and responded to by the groom. After which the bride and groom cut the cake in the traditional manner.

Mrs. John Baxter was in charge of refreshments and Mrs. Eugene Dexter attended the punch bowl.

For going away, the bride chose a three piece pant suit of turquoise double knit and white accessories and wore a corsage of white Shasta daisies and rose buds.

Out of town guests attending the wedding were Mr. and Mrs. Donald Hudson, Halifax, Misses Cheryl and Tracy Hudson, Halifax; Mark and Shawn Hudson, Halifax; Mrs. Ralph Ruggles, Jr., Dartmouth; Paul B. Ruggles, Dartmouth; Donald Height, Bear River; Miss Warner, Dartmouth; Mrs. Edith Head, Barton; Mr. Cecil Lohnes, Barton; Mrs. Lois Wagner, Plympton.

The bride and groom were the recipients of many lovely gifts, showing the high esteem in which they are held.

The happy couple will reside in Digby.

MARSHALL-ROBICHEAU

At 7:30 pm on April 4th, a lovely wedding took place when Marion, daughter of Mr. and Mrs. Myron Marshall of North Range, became the bride of Edward J. son of Mr. and Mrs. Jesse Robicheau of Gilbert Cove. The double ring ceremony was performed by Father Rene LeBlanc at Holy Cross Church in Plympton. Music was provided by Mrs. Clifford Doucette.

The bride looked radiant in a gown of peau-de-soi featuring a stand-up collar, long sleeves, pearl buttons and lace which decorated her gown that the bride designed and made herself. A three tiered veil with a crown of pearls and flowers was her head piece falling to her shoulders. She carried a bouquet of red roses.

Miss Jennifer Frank, a friend of the bride, was the bridesmaid. Her gown was of peau-de-soi in a gold color decorated with mixed flowers that matched her head piece and bouquet.

Mr. Frank Amaro, friend of the groom, was the best man.

The mother of the groom looked lovely in a street length dress of deep pink Crimpoline. Her corsage was a white carnation tipped with deep pink.

Many Friends and

relatives attended the service to see the happy couple united in marriage and to wish them lots of luck.

Following the ceremony, the couple left for a short trip through the valley and on to Halifax. They were guests at the home of Mr. and Mrs. Norman Melanson in Sackville.

Accident Premiums High

More than 30 persons attending a Woods Safety Meeting in Caledonia recently, were told the cost of Accident Compensation Premiums for Woodlands accidents, were among the highest in industry in the province. R.A. Smith, Bowaters Mersey Woods Safety Officer, told the meeting that although the cost of compensation premiums was increasing, the number of accidents in logging operations maintained a high level.

He said that with the beginning of company safety programs last fall, Bowaters Mersey Paper Company had

made a firm commitment to promote safety for employees working in the woods.

Bowaters Mersey employs approximately 170 cutters and equipment operators in St. Margarets Bay and in the Medway Districts, and also purchases pulpwood from private contractors, employing several hundred men throughout Western Nova Scotia. The Company pays Compensation Premiums for their own employees as well as for contractors employees.

Arthur Moore, Bowaters Mersey District Superintendent in the Medway

Region opened the meeting with a brief talk on safety and on company operations.

Bowaters Mersey now makes available to woods employees various safety devices including, safety boots, pants, gloves, helmets, as well as hearing protection devices, power saw anti-kickback devices and power saw safety chains. The Company is also working closely with The Workmen's Compensation Board of Nova Scotia and with other mills in Nova Scotia to develop an effective province-wide woods safety program.

Aside from the obvious agony of personal injury, accidents for the woods cutter or equipment operator, mean a loss in

earning power and productivity. For some cutters who earn up to \$80.00 a day, time lost from work through injuries means a serious loss in income.

When compared with accidents occurring at The Bowaters Mersey Mill in Liverpool, Woodlands accidents are greater in number and tend to be more months of 1975, 41 lost time accidents were reported by company and contractors employees. In the same time period, only two lost time accidents occurred at the paper mill.

The meeting in Caledonia featured three Safety Films on the use of power saws and heavy equipment in logging operations. Protective equipment including Power

Saw Mitts, Safety Clothing and Safety Helmets were on display.

Named on Natal Day Committee

Joe Tanner, Eugene Dexter and Stan Perry were named to attend the meeting of the Natal Day Committee on Thursday, April 24. The three were elected at a regular meeting of Branch 20 Royal Canadian Legion on April 21.

The meeting was presided over by the president, Jerry Campbell and was held at the Legion Hall on Mount St. Reports were presented which showed much activity in the Legion program.

can we escape its devastating effects?" In conclusion those present were encouraged to "Keep Close in Mind the Day of Jehovah", emphasizing that it is vital to be on God's side. Mr. Steimecke pointed out that "to be on God's side" would involve dedication and baptism, and 12 took this step being ordained as ministers.

New Tusk

(Mrs. J. E. Ford)

The Women's Institute met at the Havelock School on April 19th, with many members and several guests present. Mr. and Mrs. Thurston Mullen of Kemptonville were visitors here on Sunday.

We are sorry to report Mrs. Earl Gaudett a patient at the Digby General Hospital. We wish her a speedy recovery and return home.

experts to warn that 'the human race may be killed off' so commented Manfred Steimecke, presiding overseer of the Digby Congregation of Jehovah's Witnesses.

He added that the answer to such questions and thoughts were handled in the public address entitled "Stand Still and See the Salvation of Jehovah", given by Mr. Levi Wall on Sunday afternoon, during the semi-annual convention at the Vocational School in Middleton.

No doubts were left in the minds of 802 Jehovah's Witnesses from eight congregations, and interested persons as to what the future hold in regard to the end of this system. In the course of the talk Mr. Wall used the scriptures extensively to show that it would be at the hand of Jehovah that those ruining the earth would meet their end, in the War of the Great Day of God the Almighty at Harnaggedon.

In view of this soon to be fulfilled prophecy, Mr. Wall asked and answered the questions "What will you do in that war? Will persons who choose God's side be expected to fight and exterminate the wicked? Since the war will be worldwide, affecting the entire world,

Lower Economy Colchester County Nova Scotia April 15, 1975

Roy V. Mailman, Editor

Mailman Publishing Company, Ltd.

Sir:

I am enclosing material

which I feel is very im-

portant to the people of Nova

Scotia at this time. Many of

the farmers in our county

are reluctant to buy seed and

expensive fertilizer and

plant their spring crops with

such an uncertain future.

Some have offered their

farm land for sale in ad-

vance of possible ex-

propriation. We need these

experienced farmers on the

job.

Yours truly,

John A. Graham

Since our Province has

suddenly thrust upon us a

most radical proposal for

land use which will

ultimately alter the struc-

ture of our society as we

have known it for centuries

and possibly change our

status to that of servants of

the government rather than

those being served by the

government we elected. I

think it is to the advantage of

all citizens to discuss this on

a province wide basis and

compare opinions and

reactions formed by each

district before we submit to

such a radical change.

A short account of our

West Colchester regional

meeting follows: A final

hearing on the new zoning

and land use proposals was

held at Bass River in March.

The hearing was attended by

some of the councillors, the

planning commission and 350

residents from this farm

area.

Much time was spent at

the beginning of the meeting

with slides illustrating

zoning and other municipal

problems concerning the city

of Truro but not related to

the land use problems out-

side the city. Only a short

time was left for a brief

Studded Tires Must Be Off

Metal studded tires are prohibited by law on Nova Scotia highways after Tuesday, April 15, Hon. Leonard L. Pace, Q.C., Minister of Highways has said.

In announcing the prohibition, Mr. Pace added that metal studded tires are a highways safety factor during cold weather driving. With arrival of warmer weather in April, they are no longer a safety factor. Instead, they can cause damage to road surfaces which become softer with arrival of spring temperatures.

They are legally permitted from mid-October to mid-April under provisions of the Motor Vehicle Act.

dows were broken in St. Patrick's School. Douglas Christopher Haynes, charged with the same offence, did not appear at Court on Friday.

A Thought Starter

There is a difference when any person has met the Savior.

Life has strange dimension which cannot be explained. The changes which take place speak louder than words, of what God can do when invited.

If this sounds like a miracle, it is a miracle. Transformed human nature is a supernatural happening.

How can this come about. It is through surrender. What one may say he believes may only be a theory. Who is in charge of his life, is the real question. To believe as a doctrine, but still to be in charge of our own lives means little.

A Different Life

When God by His Holy Spirit is allowed to operate in us, then the old dry bones begin to move.

When we deposit our money in a bank, the bank takes full charge of it to our advantage. When we commit our talents, treasures and time to God He has charge. We are no longer our own property, but His to use as He sees best.

The money committed to the bank is likely to gain interest. The life committed to the Lord will expand also.

Give up to God and get back more in peace, and in satisfaction than ever seemed possible. John 16:20 tells about this new outlook.

Bear River Board Continues Village Incorporation Study

At the April meeting of the Bear River Board of Trade, after dealing with routine business and letters, the Board heard a full report of the Committee established to investigate the possibility of Village incorporation.

In January 1974 the secretary was instructed to obtain information from the Department of Municipal Affairs as to the requirements for incorporation under the Village Services Act.

Several copies of the Act were obtained, and at the February meeting a Committee was formed to study the Act and to summarize the requirements. A number of amendments were made to the Act at that time, and these amendments were not completed until the late summer. A fuller presentation was made to the Board at the December meeting, of the details of the amended Act, and a sub-committee set up consisting of two Board members from each of Digby and Annapolis Counties, with a member of the Board Planning Committee as Chairman. They were instructed to investigate and establish a legal description of the boundaries and prepare a map of the same for the approval of the Board. They were also to make arrangements for speakers for future meetings who would deal with various aspects of the Incorporation procedure which would affect the community.

Assistance was secured from the Annapolis County Planning Committee in the drafting of maps after the boundaries were established. The factors considered in the drafts were 1. Fire protection area as given to Commissioners for Fire Protection 2. Existing and possible future school districts 3. Areas of common community interest 4. Access roads to these various areas, and natural boundaries to enclose this area e.g. brooks, roads, property lines, etc.

At the January 1975 meeting, the Board heard Mr. Jerry Crowell, An-

napolis County Planning Officer, and with his co-operation, more than twenty members of the Board and other members of the community, drafted a number of maps, and the one chosen was placed in the window of B.R. Fraser's store for one month to obtain public reaction to the suggested boundaries.

At the February meeting the displayed map was adopted by the Board of Trade as the proposed boundaries of a village if incorporated, as no protest had been received from any member of the community. At this meeting, Mr. David Armstrong, Clerk Treasurer and Solicitor for the Municipality of Annapolis County was present, and outlined the requirements for incorporation, its legal aspects, the types of by-laws which could be passed by a Board of Commissioners, and the services which could come under their control IF petitioned to do so by the ratepayers. A summary of these appeared in this newspaper February 18. The Committee then proceeded to look into effects on the school. Several other effects are under investigation, and the Committee would welcome suggestions from the community at large on the points under study.

These investigations are expected to continue for some time, and certainly into the fall of 1975. When these investigations are complete, an information booklet is proposed for full distribution to all community members involved, in order to assist them in deciding if incorporation should be proceeded with. Only then will a plebiscite be called at which a majority of the ratepayers will decide whether "for or against" incorporation of Bear River under the Village Services Act.

The Committee made no recommendations for or against incorporation, nor did it voice any opinions, as it did not want to influence the decision making process. They are prepared to listen to any suggestions and

receive any information bearing on the matter and to investigate any area that ratepayers may suggest. All findings are discussed openly at the regular meetings of the Board of Trade held on the second Thursday of each month in the Fire Hall at 7:30 pm.

The Committee felt that they had not produced anything which could give support to the allegations and conjectures that have been the subject of correspondence in the local paper, and that these matters will be clarified with more certainty as the investigation proceeds. It is the Committee's hope that further debate will be in a Forum, or at the regular meetings of the Board of Trade, and directed to them, who after all are the servants of the community.

The report was received by some 50 members and non members present, and the meeting voted without any dissent, to instruct the Committee to carry on with their investigation.

Status Of Women Hearing In Digby

The Task Force on the Status of Women will hold its first public hearing in Truro, May 29, Task Force Chairperson, Dr. Majri St. John MacDonald announced today.

Subsequent hearings will be held June 4, 5 and 6, New Glasgow, Antigonish and Port Hawkesbury; June 11, 12 and 13, Kentville, Digby, and Yarmouth; and June 23 and 24, Sydney.

Additional hearings are being planned for the fall in Shelburne, Bridgewater, Amherst, and Halifax - Dartmouth. Full details of location and time will be made available as plans progress, Dr. MacDonald said.

As the Task Force wishes to hear from Nova Scotians in all walks of life, Dr. MacDonald announced that both day and evening sessions will be held.

Briefs are being requested from all Nova Scotians, she said. Advertisements will be placed in the Provincial Media and letters are being sent to numerous Women's Organizations across the province, asking for the views of groups and individuals. Verbal or written briefs may be presented at the public hearings in each

area, Dr. MacDonald said. Those who would like to present a brief, but may not be able to do so in person, can send it to the Task Force Office in Halifax. All briefs will be considered whether presented in person, or through the mails.

Those who wish to make a presentation to the Task Force are asked to notify the Task Force Office as soon as possible, Dr. MacDonald said. All avenues are being explored to allow as many people as possible to present briefs or attend the public hearings, Dr. MacDonald said. Chief among them is the intention to provide child care services for those whose attendance would depend on their availability.

The Task Force is housed in an office in Halifax. The address is Room 534, Roy Building, 1657 Barrington Street. Phone 424-8664. Enquiries and briefs should be addressed to the Task Force at P.O. Box 1024. The office will be staffed at all times by a secretary and the Task Force's Legal Adviser.

Bob Brooks Photography In "Exposure"

Bob Brooks, a Yarmouth freelance photographer now working for the Nova Scotia government, has had a color print chosen for "Exposure", a national photographic exhibition sponsored by the Art Gallery of Ontario. Mr. Brooks is well known in the Digby Area.

The photograph shows a Maritime farmer looking over the crops in his fields.

Mr. Brooks was one of 147 photographers whose work was accepted for Exposure by the art gallery's jury. He faced tough competition for acceptance. About 20,000 pieces were submitted by 900 photographers across Canada.

Only 215 pieces were accepted for the exhibit and Mr. Brooks' Maritime farmer was one of only eight color prints chosen.

Mr. Brooks is no stranger to awards and recognition for the quality of his photography. In his career behind the camera he has worked for the National Film Board of Canada and such leading Canadian magazines as Maclean's, Chatelaine,

Toronto Star Weekly and Canadian Magazine.

He has also filled assignments for major United States publications such as Life, Time, Newsweek, Argosy, True, Sports Illustrated and McCall's. Mr. Brooks has also had photographs appear in Paris Match, London Times and other European publications.

A wide variety of photo stories have been handled by Mr. Brooks -- Canadian Forces in Cyprus, Hollywood stars, the Rockefeller family in New York gambling in Las Vegas and mine disasters in Nova Scotia. National U.S. and Canadian magazines have used more than 2,000 stories originated by this photographer.

Five complete books published in Canada have been illustrated by Mr. Brooks' work and he is the only photographer east of Montreal having photographs accepted for

Apple Blossom Festival Festivities Soon To Be Staged

Queen Annapolis-elect will ride in an open landau during the Parade to her coronation at Memorial Park immediately following the parade.

Highlights at the Park include performances by Valley school bands before the parade, a musical ride by the Bengall Lancers, the Calais Band marching display, and a skydivers display into the park.

The meeting voted to dispense with the traditional low-level Argus flypast during the parade due to the noise factor and the problem with horses in recent parades.

The Saturday events include evening visits by the Festival Party to Port Williams, Canning, Berwick and New Minas before the Princess' Ball at the Acadia Gymnasium. Music is by Band of Gold.

A Youth Dance is scheduled for Centennial Arena.

A German-type Beer Garden is expected to make its debut this year at the Glooscap Curling Club on Friday and Saturday evening.

The Festival will focus on a French theme for the Sunday program at Grand Pre Park to commemorate the 300th Anniversary of the founding of Grand Pre by French immigrants. The program will include an

National Film Board books. He has appeared on television several times for interviews on his travels, assignments and photographic awards.

In addition to the acceptance of his picture in Exposure, Mr. Brooks recently won two awards in a Maritime Professional Photographers Association contest. These were the Berkey Award for a color print, "Intersection at Liechtenstein" and the Lorne Reid Award for best black and white commercial shot, "Voyages End", of a Nova Scotian dragger tying up in fog at Lunenburg.

Mr. Brooks now is a member of the photographic staff of the Nova Scotia Communications and Information Centre.

Ecumenical Service, a commemoration address by a federal government minister, performances by Valley school bands, and demonstrations by Acadians of period costumes and implements.

The Festival Party will motor to Hantsport and Windsor in the evening and a Band Concert is being planned for Acadia's Denton Hall in the evening.

Other celebrations for the May-June weekend include an Apple Blossom Horse Show at Windsor, Lynch's Shows at Kentville, a car rally from Windsor to Digby on Sunday, a soap box derby at Kentville, bath tub races at Windsor, a golf tournament at Ken-Wo, a Bowling Tournament at Valley Lanes, New Minas.

Queen Annapolis and her princesses will journey westward on Monday, June 2, for the annual Royal Tour with stops at villages and towns from Berwick to Digby. The Festival Party returns to CFB Greenwood Monday evening for the Blossom Ball to conclude the 43rd Festival.

Princesses are already being selected to represent the various towns and villages as the Valley looks ahead to the five-day celebration.

Bruce Caldwell of Kentville has been appointed chairman of the program committee for the 1975 Annapolis Valley Apple Blossom Festival to be staged from May 29 to June 2.

Mr. Caldwell, a leading Kentville Jaycee, was named to head the program committee following the resignation of Geoff Wright due to a sudden illness.

The program committee and other festival committees outlined detailed plans for the 43rd weekend of celebrations at a recent festival planning session chaired by president Lloyd K. Hill.

The Valley festival will be launched on Thursday, May 29, when high school relay teams will bear a proclamation to each town

"Conseil Des Arts De Clare" Annual Meeting

Monday, April 14, the "Conseil des Arts et d'Artisanat de Clare" (The Clare Arts and Artisanat Council) held its annual meeting at the College Sainte-Anne. More than twenty members were in attendance. The president, Mr. Gerald Boudreau, welcomed everyone. After the reading of the Fall general meeting report and the financial report by Miss Edith Thibodeau, the secretary-treasurer, the president presented his

report of all the council activities held during the past year.

The Clare Arts Council worked on different projects: an art exhibition during the Acadian Festival, the organization of the Jeunes Musicales Concerts series, the organization of courses in pottery and photography. The council also brought some financial help to promote the arts in the area to Mrs. Nadine Boudreau for an art exhibition, to the

"Fanfare Regionale de Clare" for the purchasing of new instruments. The council bought also a record player now used for the courses in ballet and an oven for pottery. The "Conseil des Arts de Clare" provided some financial help to Youth Opportunity projects and the Alpee session held at the college. Finally, the council is working on a project which will establish an artistic coordinator for the French localities throughout the province. Mention should

be made also of financial aid the council is hoping to offer for a recital of young musicians of the area to be held in June and to send some young band members to the Summer music camp in Sackville.

Mr. Boudreau questioned the fact if the "Conseil des Arts de Clare" should define more clearly its goal. According to the by-laws the main goal of the council is to promote art in the area. After some discussion on the matter, it appeared not necessary to modify anything in the by-laws, at least for the time being, but it was suggested that the council should each year work on specific projects connected with arts. It was

clear to each and everyone that such projects would not be difficult to discover, since there is such a thirst for art creativity in the area.

The election of the members for the executive was held and on one motion all the same officers remained in office for a second year: Mr. Gerald Boudreau, president, Mrs. Clarisse Comeau, 1st vice-president, Mrs. Catherine McLanson, 2nd vice-president, Miss Edith Thibodeau, secretary-treasurer, and Mrs. Lucille Comeau, past president and member ex-officio of the executive. On a second motion, Father Maurice LeBlanc, artistic director of

the College Sainte-Anne, was appointed director on the executive.

At the end of the meeting, Father Maurice LeBlanc presented some slides on Russia, mainly on Moscow and Leningrad, explaining the architecture of the principal monuments and buildings of these two Russian cities.

The evening concluded with a lunch served in room "Septante-Trois". At the same time, the members could admire a beautiful exhibition of wood-works made by Mr. Felix Thibodeau, a well known, artist and writer in the area.

Travelling to South Vietnam "W5's" Associate Producer Joan Donaldson, Barrie Dunsmore and cameraman Bob Dutru spent over a week filming what could be the last days of freedom for South Vietnam. Reporting from Da Nang for "W5" Barrie Dunsmore and Bob Dutru were among the last foreigners evacuated from that city before it fell to communist forces.

Returning to Canada carrying filmed reports Joan Donaldson appeared on CTV's "Canada AM" this week and reported what it was like in Saigon, the last major South Vietnamese city still under government control.

"There was almost no communication between Saigon and the besieged cities further up the coast," she said. "When arrangements to have Barrie Dunsmore

W5 Associate Producer Returns From Vietnam

and Bob Dutru evacuated from Da Nang I didn't know whether or not they were receiving my messages. The plane, which had been rerouted from elsewhere, wasn't going to wait for them so there were more than just a few frantic moments."

While in Saigon we could still move freely around the city. This was my first encounter with this war and it is far more real than any film has portrayed to me yet. Although there is still some semblance of normalcy in Saigon I was shocked by the number of people I spoke with who had no idea what it could be like to live without a war going on around them."

"As reports came from other provinces about the new territories being won or given up to the communists, the bureaucracy

and red tape seemed to get worse and worse. At that time there still wasn't a sense of panic in the city despite the fact that no one really knew what was going on outside. Communication is almost impossible."

CTV's Don Cameron, director of news, features, and information programming this week embarked on what could be the last free entry into Vietnam to join "W5's" Barrie Dunsmore who is presently in that country reporting on the close of the war.

"It is important," says Tom Gould, vice-president, news, features and information programming, "that the administration of a news department be headed by someone like Don who knows what events in the

field can be like. Yet Don is still one of the best journalists in the country. That is why he is in Vietnam."

Hue, Da Nang and Qui Nhon have fallen under communist control leaving Saigon the only major South Vietnamese city still in government hands yet upon leaving Mr. Cameron remarked, "I've got to go back and see it end."

Cameron spent almost three years in Vietnam as a producer covering the on-going conflicts. Both he and Tom Gould were on the beaches of Da Nang as the U.S. Marines arrived in the early sixties. As an international award-winning producer and journalist Cameron has spent the last twenty years reporting from war zones around the world.

Smith's Cove

CORRECTION: Spring Fever of little Imps seem to be affecting not only the reporter's typewriter, but also the printer's machine - in mixing names!

Last week, in the Smith's Cove column, it was reported that Douglas THOMAS and his family had arrived - and again in the account reviewing fires in the community it was again Douglas Thomas - and each time it should have been Douglas FRANCIS.

then in item on the Smith's Cove Woman's Missionary Society it appeared that two women were made into one - "Mrs. Alice Winchester would have the devotions" - this should have been printed "Mrs. ANNIE Winchester....." No wonder this reporter was having inquiries at to whom and where they were! Sorry! Also it is "Mrs. WILFRED Rice" not Wilbur.

We'll take our Spring tonic and hope for the best in future items.

The Valley festival princesses will gather at the Old Orchard Inn on the morning of May 30 where they will be under the scrutiny of the judges for the initial competition leading to the selection of Queen Annapolis XI.11. They make their first public appearance as a group during the afternoon at a reception and tea in the Cornwallis Inn. National TV host Jim Perry will be the emcee at a concert in Acadia's University Hall, Wolfville, that evening, featuring the Claire Choir, Halifax Ukelele Band, High School Stage Band, Calais, Maine, and Prince Andrew's Chorus, Dartmouth. The festival Princesses will arrive midway through the concert and Mr. Hill will

announce the new, Apple Blossom Queen-elect. The annual Queen's Ball at the Acadia Gymnasium will complete the Friday activities. Music is by Taxi.

Saturday is the traditional parade day and May 31st will be no exception. The small fry will display their colorful costumes and floats as they are joined by majorettes and bands for the Children's Parade in the morning. Chairperson Mrs. Ken Hird said there will be no pre-registration and the entries will form up at the Baptist Church grounds in categories for original, historical, pets and comical for the parade along Main and Aberdeen Streets to the arena grounds. There will be trophies for each class and a grand award.

Down On The Islands Observes Anniversary

Winds Whip Waves In Wild Frenzy

by Mrs. John Outhouse

Petite Passage, one of the most controversial subjects between Islanders and governmental officials has "acted up" again opening the wound of necessity for a bridge complex which would provide a safe, worry-free passage to either the Island or the mainland at any time, day or night, regardless of weather conditions.

Last Thursday's (April 16) gale force winds created high seas in Petite Passage. Ferryman dexterously maneuvered the "Yellow Submarine" ferry (The Joshua Slooem ferry is undergoing repairs and a check up at Meteghan, N.S.) across the heaving, treacherous tidal waters and somehow managed to reach the loading ramps safely all during the day.

However, while loading the ferry and waiting for crossing time at East Ferry wharf, the winds whipped the waves over the wharf with such force that caused a truck owned by Mr. John Gillespie of Jack's Warehousing and Forwarding Ltd. at Digby, to lose its balance and tilt to such a degree that it struck a mirror on an adjoining and smashed it. The side of the truck which caught the wave was badly damaged. Mr. Gillespie said the damage amounted to about four or five hundred dollars.

A local 1975 car which was also aboard the ferry at the time got its top bashed in by the force of the wave. Incredible but true.

Residents are asking, suppose the incident had happened while the ferry was in the middle of the passage? Their guess is that the truck would have con-

tinued to tilt, and as rough and high as the waves were, the truck, ferry and passengers would have been lost.

During the late afternoon or evening a young fellow wanting to cross to the island to attend school the next day, related, "They had to hold the boat at the end of East Ferry wharf. I had to throw my things down into the ferry and then climb down the ladder. It sure was rough crossing."

An employee of the Trans Canada Credit of Digby said the next day "I was down to East Ferry to cross to the Island but I looked at the Passage and watched the ferry crossing, then I turned my I turned my car around and went back to Digby."

Two Freeport residents who are employed on Digby Neck, came to Tiverton wharf, watched the ferry cross several times then turned their car around and went back to Freeport. Several hours later one of them said, "We were just watching the ferry and I'm still shaking!"

Residents are wondering why government officials of the Department of Highways or Department of Transportation will not install a permanent crossing, a bridge complex that will span the waters of Petite Passage. They feel that if it can be done for Bear River and they had an alternative route why can it not be accomplished here? They feel that such a venture would cut down costs as regards to repair of the wharves and ferry boats.

Tiverton Rainbow Lodge, No. 113 (I.O.O.F.) observed their anniversary by holding an anniversary banquet in the I.O.O.F. Hall, Wednesday, April 16th.

The tables were laden with tempting servings of cold cuts of ham complete with mashed potatoes, peas and other vegetables, also rolls, a variety of sweets including pie for desert with tea or coffee.

The gospel choral group, the "We and Him" provided entertainment for the event.

They sang a number of hymns including "Time", "Family of God", "I Get So Thrilled About Jesus", "How Great Thou Art" and Lee Outhouse sang a base solo, "I've Been Born Again". Lee Outhouse with guitar and Miss Edith Ingersoll delighted the audience with an instrumental number, "Touring That City".

Cooking for the event was done by the ladies of the community and was served by I.O.O.F. members.

"We And Him" Busy Schedule

The Islands gospel singing group, the "We and Him" are anticipating a number of appearances within the near future. Some of the appearances include a double concert at Liverpool, N.S. on the weekend of April 26, a return visit to the Senior Citizens Home at Digby, participation in the special services that are to be held at South Range during May, and they expect to meet with other choral groups at Digby.

The group has added new numbers to their repertoire, new arrangements and in fact have added a new member to the group, Miss Marilyn Denton, a Christian teenager who possesses a rich soprano voice that blends nicely with the voices of Miss Jeanette Denton, cousin of Marilyn; Miss Edith Ingersoll of Westport; Miss Mildred Outhouse and Lee Outhouse of Tiverton.

Miss Denton sang ten-

tatively with the group on several occasions over the past months and became a regular member of the group last week.

Miss Denton, daughter of Mr. and Mrs. Kingsley Denton of Westport, N.S. is a grade eleven student of Islands Consolidated School at Freeport.

Accompaniment for the group is provided by Lee Outhouse, guitarist and Miss Edith Ingersoll, pianist.

Tiverton

Mrs. Gertrude Thurber recently visited her daughter, Mrs. Charles Finigan, Mr. Finigan and family at Bedford.

John Outhouse left Wednesday for P.E.I. where he will pick up his son, Lou Outhouse at Bible School closing at the last of April.

Addresses Westport Women

On Sunday, April 13th, the congregation of the United Baptist Church, Westport, together with a number of visitors were at the morning service privileged to see and hear Miss Lucy Cooper R.N. Superintendent of Nursing at the Christian Medical Centre, Pithampur, India. Miss Cooper related many of her experiences as a Missionary. On April 10, 1970, a graduation was held at the Medical Centre celebrating the completion of 50th years since the first student entered in 1920. The school has few women making extra space necessary and this is made possible on great part

by gifts from Canada. Miss Cooper assisted by Pastor Keith showed colored slides of the work as it is carried on in India. This was informative and certainly brought the missionary minded much closer to the work which is supported by United Baptist Women's Missionary Union in the Atlantic Provinces and by other Missionary Unions in Canada.

Miss Cooper went as a Missionary to India for the first time in 1937. While in Westport Miss Cooper was the guest of Rev. and Mrs. George Sharpe.

Digby Sidewalks First On Agenda

The regular meeting of Digby Town Council on Monday night began with the subject of sidewalks in Digby. The subject was introduced by Miss Marjorie MacCormick, school teacher, who was given permission to address Council.

Miss MacCormick, who said she was representing the senior citizens in town remarked that older people cannot attend Council meetings because of the town sidewalks. Miss MacCormick said that these

people have lived here all their lives and tax dollars should be used to their benefit. The sidewalks she declared should be paved. Another item brought before Council by Miss MacCormick was that council minutes and financial data should be given in full detail to local newspapers.

Her third topic was on police protection. She asked if there was police protection for 24 hrs. per day.

His Worship Mayor Patrick Comeau said he was

basically in agreement with some of the proposals, especially on the sidewalks issue. He said the sense of priority weighs heavily on Council. Paving, he reminded is very costly and the most essential services must be given priority.

Also appearing before Council was Lister Hannah regarding a recreation co-ordinator for the town. Council had approved earlier an amount of \$5,000 for a recreation co-ordinator. He asked permission to ad-

vertize for a co-ordinator and suggested a salary of \$10,000 shared by the province. He also suggested that \$2,500 be put in next year's budget for a co-ordinator for 1976. Should the Council agree Mr. Hannah would like to hire a co-ordinator by July, when school children are out and Natal Day and other activities are features of the month. The question will be brought up again at a special Council meeting on Tuesday, May 13 at 7 p.m. Municipal Councillor, Walter McAlpine

who is chairman of the municipal recreation committee will be asked to attend and also a representative from the Department of Recreation.

Deputy Mayor Philip Robertson gave his report from Tideview Terrace which revealed that Tideview owes the town \$30,000 in taxes. A motion was made and passed that if approved by legislation Tideview should be exempt from taxation. The vote was 3 to 2 with Councillors

Reginald, Hazelton and Gordon Ellis against the motion. It was reported that Tideview through the Department of Social Services has raised costs to \$17.50 per day.

A motion to provide sewage facilities for an extra 100 ft. to Mr. Trimmer's place made at a special meeting on Wednesday was rescinded at Monday night's meeting. Such a provision would set a precedent which could unduly burden the taxpayers of

Digby should others without sewage hook-ups request them, it was felt. The sewer committee will arrange a meeting with the Board of Health to discuss Mr. Trimmer's predicament since he will not have a sewer line and it is reported that the Board of Health found the soil not suitable for a septic tank nor a holding tank.

Mr. Woods also made application to be hooked up to the town sewer but he was advised approval for sewage

program has not been received from the Department of Environment. Should they approve, Mr. Woods place would be connected.

The Department of Education had approved a school capital budget of \$21,088.15 for 1975. The request was for \$21,162.

Approved on Monday evening was a by-law which would fine any person loitering around town and the police by-law was rescinded since it is not valid with R.C.M.P. protection.

Conference In Digby

His Worship Mayor Patrick Comeau on Saturday morning welcomed delegates from over Nova Scotia who were in Digby to attend the Provincial Multicultural Conference at the Digby Regional High School multi-purpose room. Hosts were the Western Nova Multicultural Association and the Nova Scotia Department of Recreation sponsored the Conference. Getting away to a good start the conference delegates listened to the mayor extend a welcome in the English language and also in his native tongue, French. His Worship said that his heart that morning was like a plateau where it meets with the hearts of his brothers and sisters of all nations and resembling the realm of the Eternal Father.

Chairman for the day's activity was Professor Dennis Healy of the International Education Centre, St. Mary's University, Halifax. Plans for the Digby Conference were made by Rev. George Bell, co-ordinator for the Western Nova Multicultural Association and Shinee Nyajeka, president.

Registration began at 9 a.m. followed by official opening remarks by Rev. Mr. Bell and a report of the recent conference held in Sydney, N.S. The chief items of business included planning a constitution for Provincial Multicultural Council and establishing more regional Multicultural

Councils. Also included in the discussions were terms of reference regarding a co-ordinator for the Provincial Multicultural Council. The conference delegates divided into three association groups to consider the terms and then pooled their suggestions before the entire conference.

Final agreement was that advertising for a provincial co-ordinator should begin and that the co-ordinator to be appointed would be based in Halifax.

The three associations represented on Saturday were the Halifax-Dartmouth, Sydney and Western Nova. Present for the conference was Lorne Whyte of the Canadian Consultative Council on Multiculturalism and Sam Bany of the Department of Secretary of State which department does the funding for the Multicultural councils and associations.

About 35 attended the conference meetings, the luncheon at noon and the dinner at the House of Wong given by the proprietors of the restaurant.

The evening session took the form of a multicultural concert at which time the chairman for the day, Professor Healy remarked on the excellent family participation, more than he had ever seen before.

Master of Ceremonies for the concert was Judge V.G. Cardoza and the program consisted of vocal solos by Mrs. Ralph Jarvis, Bal Kapur, Weymouth and Miss

Vivian Cromwell, Acaciaville. Chief Richard MacEwan of Bear River rendered a mandolin solo. Group singing featured Micmac children and Acaciaville choir directed by Sherry Borden. The Bright family from Southville again captivated the audience with their contributions by each of the family from Mom and Dad to the four year old.

The evening program started with orchestra music by the well-known Erjavec family of Weymouth. Another highlight of the entertainment was the square dancing directed by Garnet Banks, formerly of Yarmouth. He commented on the history of various dances through the years as the dancers demonstrated dances of each period in history.

Tracy Simms of the Digby Elementary School was first prize winner in Digby County in the 1975 poster contest sponsored by the Nova Scotia Forestry Association. Second prize went to Kelly Sweeney of St. Patrick's School and third to Arlene Comeau, Comeauville School.

Provincial winners were Ralph Heim, first, from the West Northfield, Lunenburg Co. school; second, Stephen Logan, Nappan and third Annette Gogoo, Shubenacadie. In Annapolis County,

concert presented by Digby's new Digby Community Band under Donald Scott, director. The band started in January of this year, it is understood, with a few former bandmen but the majority having not been able to read a musical note. Their performance denied the fact as the forty members presented their pleasing numbers.

The Fashion Show itself, with Mrs. Vivian O'Neil as commentator, was extremely interesting and beautiful throughout the entire seven scenes. The scenes represented Strolling Through the Park, Tea in the Garden, Festival Reception, Sports, Maypole Dance, Vacation Time, Festival Ball and After the Ball.

Fashions were modelled in keeping with the special scenes. Garments for the show came from Greenburg's, Metropolitan, J. Margolian and Co. Ltd., Fashion Shoppe (Bear River) and Muttart's. Prizes were donated by Digby merchants and Geraldine's Hair Styling.

Garments modelled covered every aspect of apparel suitable for afternoon, evening, on the beach, on the golfing greens and other

recreation. Both men and women's fashions were modelled and as before, the children captivated the audience.

Prizes were drawn for and distributed following each scene of the show and coffee and doughnuts were on the refreshment list. Grand prize of \$25. for purchasing at J. Margolian's store was won by Mrs. Amelia Whalley.

Those who modelled were: Ed Dunn, Stan Locke, Wynn Meldrum, Fabian O'Neil, Gerald Walsh, Pam Locke, Sharon Walsh, Janet Wilson, Joanne Wilson, Susie Wong, Joyce Goucher, Lisa O'Neil, Monique MacKenzie, Allison Meldrum, Tracy MacKenzie, Jeff Locke, Scott Dunn, Trevor MacKenzie, Cheryl Bain, Theresa Thibeau, Wendy Meldrum, Diana Wagner, Judy Comeau, Mary Ann Pitman, Ruth MacKenzie, Lorena Churchill, Mildred Walsh, Connie Casey, Gail Buckler, Joanne Grace, Linda Crouse, Ursula Sutherland, Patti Sutherland, Tracey Burke, Kay Wong, Ina Dillon, Cathy Campbell, Rose Corbeil and Joanne Spidel.

Operating expenditures were \$502,022.00, which is an increase of \$74,087.00 over 1973. An operating loss for the year 1974 was \$4,239.00 and represented a yield on rate base of minus 1.02 per cent, an increase of 1.41 per cent from preceding year. After Continued to Page 2

challenging. At the close of the evening refreshments were served and a good evening of Fellowship was enjoyed by all.

Brother Woodman in presenting the Jewel gave a run-down of Mr. Steadman's life. Bro. Joseph Edward Steadman was initiated into "The Keith Lodge No. 16, Bear River, N. S. on March 7, 1922, passed to Fellowcraft degree on April 18, 1922 and raised to the sublime degree of Master Mason on June 5th 1922.

For short intervals Bro. Steadman was affiliated with Euclid No 92 at New Glasgow and Hiram No 12 of Yarmouth, N.S.

Bro. Steadman was born at Young's Cove, Anna. Co. and left home at an early age to enter the Teaching profession, obtaining a Permissive license. After a brief duration he enrolled at Normal College at Truro and rec'd qualifications to teach in a legal way.

Later he returned as House Master at Acadia University and while at this position received the degrees of B. A. and M. A. Bro. Steadman taught in many areas including Smith's Cove, Bear River, Annapolis Royal, New Glasgow, Shelburne, Yarmouth, West Virginia and private schools in Florida. At a later time in life he was a real estate dealer and had a hitch selling insurance. He has been active in home gardening and a participant in all phases of community life, including churches.

Bro. Steadman's wife is the former Nellie Cossaboom, who is also the daughter of a prominent Mason the late William Cossaboom, founder of Harbour View House at Smith's Cove.

They have three children, Pat of Montreal, Joyce of Sydney and Robert of Toronto.

Bro. Joe and his wife are now residents of Digby and we hope Bro. Joe will get much enjoyment displaying this jewel for many years to come.

Grants for the Council of 4H Clubs in Digby County and the Recreation Committee were tabled to come up at the January Council session.

Council was confused with the replies from the Department of Highways regarding the council's request for sidewalks in the Conway area. It seemed that one letter agreed that the Department pay for the sidewalks while a second letter agreed to bearing just the preparation expenses. A letter of clarification will be requested from the department.

Teachers Sign Contract

Chairman of the Digby Board of School Commissions, Captain Reginald Hazelton, signed new contracts with teachers at the Digby Town Hall on Thursday noon. Signing on behalf of the teachers was Dominique Henry of Halifax, president of the Nova Scotia Teachers' Union. Accompanying Mr. Henry was Murray Fahie, Halifax, executive assistant. His Worship Mayor Patrick Comeau was present and greeted the teachers.

Basically, the one year agreement deals with teacher benefits. The revised contract requests larger grants for professional in both winter and summer, Sabbatical leave, portable sick leave, maternity leave and conference leave. Liability insurance was another feature of the contract.

Negotiations for the contract affecting about 30 of Digby's teachers of elementary grades, began in February this year. The

negotiating committee for the teachers consisted of John Blinn, president of the Digby Local Union; Cathy Ripley, chairman of the committee; Janet Ripley and Barry Jennings.

Both negotiating parties were pleased with the understanding shown and lack of conflict which was evident.

Following the signing of contracts, the negotiating committee, Union officers and friends had dinner at House of Wong.

106 Complaints Filed

One hundred and six complaints by town citizens were laid in April according to the R.C.M.P. report given at the regular meeting of Digby Town Council on Monday evening. This was doubled that of the month of March.

According to the report there were nine motor vehicle violations, one under the criminal motor vehicle violations, one under the criminal code. Seven fires were attended, one place of business was found unlocked, one article found, one bike stolen in April. There were six liquor cases and \$200 was collected in fines.

Investigations were made in fifteen break and enters, three of which were in residences. There were seven shoplifting offences, six charged, one being only eight years old. There were four motor vehicle thefts, two fraud cases, one forgery, one causing disturbance, 16 phone calls of a threatening nature, six offenses under the Liquor Control Act and four property damage incidents. Webster Dunn, meter

attendant gave his report which revealed \$438.07 taken in by meters. There were 99 tickets issued and 66 collected. Mr. Dunn suggested that the streets should be cleaned, parking spaces be painted and drew attention to the railway crossing on Victoria St. Council decided to reinstate Mr. Dunn's car allowance which was cancelled at an earlier meeting and to raise the figure from \$5 to \$10. The report of the fire committee recorded 24 calls in the month; sixteen of which were grass fires and three were false alarms.

CONSIDER FIRE PROTECTION

We note that the Sandy Cove municipal district is having a meeting at the Sandy Cove Community Hall on May 17 to discuss the possibility and feasibility of the district having its own fire fighting equipment. Digby has a fine Volunteer Fire Department and outlying districts of the municipality are fairly well covered. We believe that Sandy Cove, unless the Doucetteville area, might possibly be the only area not covered. Weymouth, Bear River, Smith's Cove, Barton - Brighton, Plympton, Tiverton, Freeport and likely Westport have their own equipment.

Councillor Richard Daley told us that while the Digby Fire Department has at times in the past come to the rescue in the Sandy Cove territory, the Digby Fire Department is under no obligation to go to the Sandy Cove area.

There is no need to go into details here on the merits of Sandy Cove having its own fire fighting equipment. Smith's Cove was the last Fire Department organized in the municipality and on several occasions they were more than happy to have the equipment at hand. The Sandy Cove area spends anxious moments when the village homes are threatened by grass fires or by other means become ignited.

We feel that there is no other phase of community living so important as fire prevention. We hope that all the people of the Sandy Cove district takes the opportunity to attend this important meeting and make their voices heard. Councillor Daley said the meeting would be sort of a question and answer session and it is hopeful that fire chiefs or a representative from each fire department in the municipality will be there to give advice. Other municipal councillors will also be on hand to inform on experiences with other fire departments.

Attend the meeting, find out the costs, how the cost can be covered, what grants are available and what might be the benefits of a newly formed department (should that come about) joining Digby and other village departments in a mutual aid proposal.

Fires are devastating experiences. Life and property are at stake. Fire protection and prevention is everybody's business. At least attend the meeting to talk it over and see what should and can be done.

CHILD SAFETY

Child Safety Week, May 1 to May 7 has gone by. Child Safety, however, remains with us and deserves some comment with the hope that the comment will serve to make people aware of accidents which can happen to children and plan ways to prevent them from happening. As the Hon. Andre Ouellet, Minister of Consumer and Corporate Affairs, said in his Child Safety Week message "Every accident is predictable and thus preventable."

Child Safety Week at once brings to mind highway safety for children. Children are never too young to be impressed with learning highway safety rules. They can learn the rules promptly. However, as every accident is predictable, the child itself is not so predictable. Their little minds wander, they become engrossed in play and so often put themselves in danger unknowingly. That is why the highway safety lesson must be repetitious. Parents and teachers have a grave responsibility to educate children on highway safety through the years.

But, Child Safety demands move from parents then highway safety. How about the home. Is there an accident free environment. Are drugs and poisons put away safely in containers which children cannot open. Have the children been instructed on safety measures with electric appliances. Have they been warned against fires and especially those whose parents are at work and children reach home before mom and dad. How about water safety at pool, lake, river or bay.

Toys for children should be designed with safety in mind and clothing made with safety features. Manufacturers are being requested to have safety in mind when producing toys and clothing for the children as well as the parent who does the purchasing.

From the crib, to the carriage, to the high-chair and playpen, parents have responsibility to protect the child from hazards and to continue that watchful eye even to the teens. As Hon. Mr. Ouellet put it "Accident prevention requires no special skill, no special knowledge, just

forethought and a little ingenuity."

With all the safety instruction we give, our unpredictable children could still encounter dangers unheeded. If so, do those children who are old enough to use a telephone know how to telephone the police, fire department, ambulance, the family doctor or friendly neighbour.

Hodge Podge

While the Digby Community Band deserves better acknowledgment than this we want to extend our appreciation in just a few words while their music is still on our minds. Give the credit where you will, to the Band director, Donald Scott, or to the bands-men and women themselves, the truth is that in three short months the Digby Community Band has done extremely well. They proved their worth at the Kinettes Fashion Show on Monday evening. What was extremely interesting was seeing so many of the busiest people in the town playing in the band. We couldn't help but think of the good which accompanies such a worthwhile relaxation. Bravo! Keep it up. One would never know that three quarters of the members couldn't read a note of music before January 1975.

Maybe more space should be given to such a subject but if we could only get our streets committee or superintendent of streets to take a walk up Birch St., Digby, they might possibly find it to be the worst street in town. There is no paved sidewalk at all on the East side (one side anyway) and the rocks (not gravel) make fairly hard tramping. We on Birch St. love our across the street neighbours but why the discrimination. Now, that strikes an exciting note! Maybe we should see the Human Rights department instead of the streets department. Golly, Shingal (Steve) Nyajeka lives right down that street. How lucky can we get!

The seminar held at the Knights of Columbus Hall on Thursday April 24, was sponsored by the Unemployment Insurance Commission. Canada Manpower did not sponsor the seminar (solely or jointly) but Manpower was represented by Miss Marjorie LeBlanc.

There are cows in Digby town right now. But, quite a few properties supported a cow in Digby fifty or less years ago, we understand. Thievery, at that time wasn't syphoning gas from a car. It was stealing milk from the cow. A lady was telling us that she could remember when her neighbour put his cow out to pasture and when he went to milk her, he found somebody else got ahead of him. Times have changed but human nature seems to remain the same.

Hats off to the Bright family from the Weymouth area. They all performed at the Multicultural Concert in Digby Saturday evening. Mom and dad and all the family right down to the four year old. And you should have heard his solo. In fact, those who missed Saturday's concert missed a treat. There were a lot of good numbers put on by people representing different races.

Mental illness disables more people than all other illnesses combined.

The public is invited to attend the annual meeting of Mental Health, Digby tomorrow at the New Horizons' building.

His Worship Mayor Patrick Comeau, whether he heard them or not, had a number of "bouquets" come his way. Several people attending the Multicultural Conference here on Saturday spoke of his fine welcome in English and French. It set the whole tone of the days' proceedings, they said. Their extreme appreciation made the rest of us proud of our Digby mayor.

Proclamation Town Clerk's Week

WHEREAS, town government, in order to best serve the needs of the citizenry, must be operated with efficiency and in an orderly manner; and WHEREAS, the efficiency and order with which government carries out its public functions is strongly reliant on procedures and records; and WHEREAS, the Town Clerk administers the procedures and keeps the records; and WHEREAS, an organized source of knowledge about a community and its government activities is vital to the smooth governing of that Town; and

WHEREAS, the Town Clerk provides and maintains such a body of knowledge; and WHEREAS, town government must be conscientiously represented in affairs of its community; and WHEREAS, the Town Clerk provides an important part of this representation; and WHEREAS, the strength of local government depends upon the citizens' opinion of it, and such opinion is formed largely by the image set forth by the town government employees; and

WHEREAS, the Town Clerk is the town official most closely in daily contact with the citizenry, and therefore, in a key position to mold sound public opinion.

NOW, THEREFORE, I, J. Patrick Comeau, Mayor of the Town of Digby, do hereby proclaim the week of May 11 through May 17, 1975, as Town Clerk's WEEK in recognition of the vital service he performs and his outstanding dedication to the community he represents.

Home Gardening

An evening of free instruction in the basics of Home Vegetable Gardening will be held at the Clementsvalle Elementary School at 7:30 p.m. on Wednesday, May 14. There will be a colored slide presentation and a question period. Tom Haliburton, Horticulturist with the N.S. Department of Agriculture, will be able to give expert advice on any gardening problems. This is an excellent opportunity for the beginning gardener who is contemplating his first garden to learn the proper procedures in planning and planting for a bountiful harvest this coming summer and fall. With the cost of living on the rise, a small home garden can provide good eating and considerable savings on food costs. It doesn't cost any more to have a good garden than it does to have a poor one; a lot depends on the know-how of the gardener!

Mr. Haliburton will have a good supply of free pamphlets on gardening and anyone attending should also equip himself with a notebook to take notes. There will be door-prizes of vegetable transplants.

If enough interest is shown, more classes may be

NOW THEREFORE I, J. Patrick Comeau, Mayor of the City of Digby, N.S., do hereby proclaim the period of time from May 11th to May 17th, (inclusive) 1975, as National Week for the Mentally Retarded, and urge every member of this community to give thoughtful support and understanding to programs which will strengthen and enrich the lives of mentally retarded persons.

Originally, it was hoped that these classes could be held through a proposed Community School program with financial assistance from the Continuing Education Branch of the Nova Scotia Department of Education. Under this program a Community School Council would be set up and an annual program would be budgeted for and

She was crowned by the 1974 princess Bonnie Harris.

Master of ceremonies was Al Trepanier, recreation director, Cornwallis Community.

Twenty-five students graduated at College Ste Anne of Church Point on Saturday afternoon, May 3rd. Dr. Helmut Schweiger, B.A., M.A., Ph.D., vice-rector of the administration Council of the University of Moncton, was the guest speaker. He told the graduating class that they should take advantage and profit from the fact that they were bilingual. You will start to work in another language and it is easy to forget the other language, which may be your mother tongue, said Dr. Schweiger. You are taking a new route and you will have to start giving, after having receiving so much from College Ste Anne and your parents.

He spoke of the graduating students having received a parchment, for graduating today in Academic studies, is something special for you. At Ste Anne's you have been able to learn another language or improve in languages. The large companies are looking for persons who are bilingual in their businesses. He also spoke on the cultural aspect and urged them to remember your culture.

Miss Jocelyne LeBlanc of Little Brook was the valedictorian. Instruction is a job without end, stated Miss LeBlanc. Everything we do here exacts preparation and like a new day, new exacting problems show up. Education supplies the instruments to think and modern methods of action. It allows the student to

recognize certain principles which are basic. To proclaim "That is so, my studies are finished," is equivalent to saying "I have stopped instructing myself."

Many of the difficulties encountered in this world is due in the most part to ignorance, confusion and the incomprehension of relation the cause of effect.

The last year at College Ste Anne we have profited to us in meeting new friends. Our first year we had to adapt ourselves to college life on campus and today we have to leave Ste Anne's to meet new acquaintances. We have appreciated the professors we have had during our sojourn at the college. We also appreciate them for participating in activities of the students.

Upon entering a new field of activity such as university, business, trade or profession, you may feel somewhat lost. Before setting foot across the door sill, review in your mind these facts. Every person has the right to become everything he or she can be. For us, education attracts us and is valuable and we can obtain this at every age. It's development, a ceaseless illumination of life; eternal improvement.

President Louis R. Comeau congratulated the graduating class and Miss Jocelyne LeBlanc, valedictorian for the graduating class.

He then told the audience which filled the chapel of the college, about what the college has done during the year. We have passed our objectives set for the year. More than 400 students have followed courses for credits in various areas. The number of students enrolled at the college was an increase of 53 per cent this year and enrollment is predicted to increase 35 per cent in the new term starting in September. A large number of groups or associations have used our facilities and personnel for various short courses, reunions, etc, which is not included in the 400 students mentioned above.

I told you two years ago that would take time and money to get things in proper order. Financial assistance to bring improvement to our programs and to make our campus attractive to the student. Both the Federal and Provincial Governments have been generous and patient. They understood that we required time to bring everything up to par and in good order.

We are obliged to build girls residences and it is also necessary to give students proper recreational and cultural programs of interest to them. We have built a new gymnasium which was open for last September and an enclosed swimming pool is presently under construction. Two new residences for students will be constructed.

It is expected that in the term 1975-76 a new library and cultural centre will be constructed. To offer programs, takes professors and equipment and a good library. Students ask for more options, more choice of programs, and this takes money.

We still have a lot of work to encourage the Acadians of the province to come to our college. The majority of students of Argyle and Cape Breton have enrolled in English Universities and we do not blame them but I regret that the college has not successfully enticed them to Ste Anne's. I am convinced that we will change this. We will change this through the education system. We will have teachers in Nova Scotia trained to teach the French language and this college will sponsor to the needs of French teachers by providing courses for them. We will be very active in this field.

I want to tell the public, politicians and educators, that there is not the kind of resentment and bigotry in this province that we often hear about. We have to be more alive in this field. The response as far as I am concerned, is tremendous - the fact that our French Immersion Summer Program has quadrupled in the past three years is an indication. We are committed to bilingualism. Furthermore we are committed to participate more actively in the upgrading of the standard of living in South Western Nova Scotia from the Valley to the South Shore. This is one of the reasons why we are looking at the possibility of opening an office with some classrooms and library space in the Yarmouth area.

Left to right: Desire Boudreau, president of the Directors of Ste. Anne's college at Church Point, president of the college, Louis R. Comeau congratulating Miss Jocelyne LeBlanc of Little Brook for winning the award by the college for the graduating student who distinguished herself by her fine spirit, devotion and participated in activities of student life at Ste. Anne's. Miss LeBlanc was also the valedictorian of the graduating class of 25 students.

Pre-retirement Education Needed

With retired citizens making up an increasing proportion of the population there is an urgent need for a new national and provincial policy with regard to senior citizens. This view was stated by Dr. J. C. Perkin, head of the Department of Religious Education at Acadia University, in an address to the Kings County branch of the Retired Teachers Association, held at Aldershot School.

Senior citizens, he suggested, have made a great contribution to society and deserve a chance for a decent life when they come to retirement. Included in his prescription were free medical, dental and optical care; free telephone; reduced rates for travel; better pensions and more tax exemptions.

Above all, Dr. Perkin felt that the transition from an active to a retired life was such a traumatic experience that it called for pre-retirement education. Persons could, through study and advance discussions, be better prepared for the change in life style that comes to all of us.

Acadia University, he noted, has found its provision of free courses for senior citizens a great success. Almost a hundred such students registered for the current year, and all are fitting well into the program. Robert Swim introduced the speaker, who was thanked by Miss Gertrude Chase.

President Marian Roode outlined plans for the annual meeting of the N.S. Retired Teachers Association in Halifax on May 22nd, and stated that several carloads

would include a varied number of classes that could take place over a period of weeks, days or one evening or afternoon. The classes would be open to all ages and could cover any number of topics; a few of the suggested topics to date have been physical fitness, hair styling, leadership courses, sheep raising, poultry raising, ballroom dancing and consumer problems related to the cost of living increase. To date there has been insufficient interest to warrant the forming of a Community School Council in the Clementsvalle School district, but it is hoped that in the near future more people will come forward with ideas and help in getting the plan underway. DeLory, Minister of Lands and Forests, said in the past, no vehicle entry permits are been busy constructing and maintaining picnic tables, signs, toilet facilities and shelters for provincial parks in the province.

"We are also planning a busy summer season in a number of areas," said Dr. DeLory. "Our Parks Division will be meeting with people along the Eastern Shore to plan for the chain of parks in that region, carrying out planning for a network of hiking trails and working on a series of new roadside and access parks."

Further improvements at Risser's Beach on the South Shore include landscaping and the development of a self-guiding nature trail as part of the interpretive program at the beach. There will be an expansion of camping sites at Porter's Lake, improvements at Blomidon and other improvements at many existing parks.

"The response of Nova Scotians to the work of the Parks Division is ample justification for our efforts in this area," said Dr. DeLory. "Last year, Nova Scotian use of the parks increased by 25 per cent. I'm pleased to see more of the province's people interested in experiencing the natural beauty of the area."

"In addition, of course, the province's parks provide required facilities for tourists from other parts of Canada and from the United States. Visitors have a good chance to see the different regions of the province by following the chain of provincial parks."

Facilities such as play areas, trails and picnic grounds provide vacationers with a good chance for relaxation. Nature trails and displays help make them aware of the value of their natural surroundings.

New regulations under the Provincial Parks Act give Lands and Forests staff more power to ensure safe and quiet enjoyment of the parks under provincial control.

required and there are no fees for day-use parks."

Dr. DeLory explained the increase in overnight fee from the \$2.50 charged last year as helping to meet the growing cost of maintenance and development of the provincial park system. He also noted that the new overnight fee will be comparable to that approved for similar facilities at national parks.

MORTGAGE FUNDS NOW AVAILABLE

"COME MEET OUR CRAFTY PEOPLE"

By Mary Macintosh

If we were to travel westward from Annapolis County around the tip of Nova Scotia and east again on every highway and byroad, and somehow observe the activity within the homes and workshops of the area, we would see a great many craftsmen at work building up a good supply of their products to offer for sale at the Western Nova Scotia Handcraft Demonstration and Sale in Annapolis Royal in July.

For many of these highly skilled artisans who work in a multitude of media, this is their main sales outlet and they look forward to it from year to year. If bad weather should happen to dampen the chosen days as it did last year, it doesn't affect the spirits of the participants who see familiar customers annually and welcome first-timers just as warmly. The camaraderie, which has developed among the craftsmen over the years wherever the show was held is wonderful, so this year a third day has been added. It will allow more time for people to attend, of course, but also a free evening for those taking part to socialize and renew old friendships.

Weavers are at their looms, potters at their wheels, hammers are clanging on anvils and spinning wheels are humming. The quilters have put those dull winter afternoons and evenings to good use. Countless outgrown woollens have been recycled into charming hooked rugs. The pick of last year's agates, amethyst and jasper has been fashioned into beautiful jewelry and the stone polishers are already scouring the shores for choice specimens.

The demonstration and sale committee chaired by John Bryan of Granville Ferry and the Fort Anne Weavers who sponsor the event have already contacted all the crafts people they know about and are busy making arrangements to have a great variety of activities going on at all times throughout the three days. Volunteers will staff a museum room and book display as well. You may watch a scarf or tablecloth, being woven, mugs or bowls being thrown from excellent local clay, sheep's wool spun into sturdy yarn and dyed brilliant colors with the use of bark and onion skins and other vegetable matter. A local church group will be setting up another pieced quilt and their many busy fingers will probably finish the bedcover by the end of the three days. Last year they were tolerant and en-

couraged novices to try a few stitches themselves.

Crafts people will also be setting up many individual booths as well. This was a popular innovation last year.

When visitors buy a piece of unique silver or pewter jewelry or a skillfully joined maple chopping block or a handknotted shopping bag it means much more to them to know that they've purchased it directly from the person who has designed it and made it from start to finish. This personal contact often results in custom orders and commissions.

A study of time and skill involved in the creation of some of these handcrafted items would undoubtedly point out that this is an ideal opportunity for bargain hunters. There is no better buy in Nova Scotia than the work of our artists and artisans. With a larger market, these works would demand much higher prices. If craftsmen were realistic and allowed a fair return for their skills and time as well as cost of materials, the average person would be unable to afford fine handmade pewter or forged iron or quilted or hooked or woven goods. With the pricing system now in effect, everyone of us can be a "Collector", and the things we pick up directly from the craftsman will appreciate in value through the years. At the Western Nova Scotia Handcraft Demonstration and Sale in Annapolis Royal on July 24, 25 and 26 you can have your choice of the best crafts available. Bring the whole family to experience the creative atmosphere and meet the demonstrators and sales people who came because they want visitors to see the skill and love they put into their work.

Camping Season Opens May 16th

The summer camping season in Nova Scotia begins May 16, the eve of the holiday weekend, as provincial parks and campsites open.

The Parks and Recreation Division of the Department of Lands and Forests will be operating 18 overnight campground parks, 50 day-use picnic parks and roadside table sites and 17 beach parks. The campgrounds contain a total of 1,276 overnight sites.

"The camp fee this year is \$3.00 a night," said Hon. M.

ANSWER THE PASTOR

QUE: How can I know I am SAVED from HELLFIRE, have truly repented and FORGIVEN of God?

ANS: It is very simple to KNOW and RECEIVE. Get a mental picture of the Son of God nailed to the CROSS with the BLOOD running down his face, hands, feet and side, two thousand years ago.

You are already saved from HELLFIRE and BRIMSTONE (the home of all unrepentant SINNERS, REV. 21:8) but do not KNOW IT, not by our own works but by the WORKS of the Son of God himself. The whole human race was SAVED from HELLFIRE two thousand years ago, from Adam to the last human yet to be born. He saved the vilest of sinners and the nicest self-righteous sinners, and paid the whole debt sin of the human race to God in his own BLOOD, unto the last cent.

Now God says go and tell the whole world what has been done. Whosoever heareth and believeth shall be SAVED, but whosoever heareth and believeth not shall be DAMNED, MARK 16:16.

Yet no SINNER can receive pardon and forgiveness and have his chains of sin broken until he comes to God in true sorrow and REPENTANCE for SIN and confessing and takes the RECEIPT for his SINS paid from God's hand (God's gift of love to ALL SINNERS) BY FAITH BELIEVING (not proof believing) ROM 3:22

God says we are SAVED, Jesus says we were SAVED by his DEATH and works on Calvary. To know I am SAVED is to take God at his word and Jesus at his word and believe by FAITH (without proof) that I AM SAVED. God counts it unto us for RIGHTEOUSNESS. ABRAHAM believed God (without proof) and it was counted unto him for RIGHTEOUSNESS, GAL. 3:6.

IN MEMORIAM

MERRITT - In loving memory of my father, George E. Merritt, who passed away May 12, 1968. When family ties are broken

And loved ones have to part,
It leaves a wound that never heals,
Also broken hearts.
I often think of bygone days.

When we were all together,
The family ties are broken now
But memories live forever.
Loved and remembered by daughter Marguerite. 39:1ip

COLLINS - In loving memory of a dear mother who passed away May 10, 1970.

Five sad and lonely years have passed,
Since our great sorrow fell
The shock that we received that day
No one can ever tell.

Always remembered by Daughter Elizabeth and Family. 39:1ip

BAIN - In loving memory of a dear Dad, George B. Bain who departed this life May 4, 1954.

My soul, in sad exile was out on life's sea.
So burden'd with sin and distress.
Till I heard a sweet voice saying,
Make me your choice.

And I entered the Haven of Rest.
I've anchored my soul in the "Haven of Rest."

I'll sail the wide seas no more.
The tempest may sweep o'er the wild, stormy deep.
In Jesus I'm safe evermore.

Lovingly remembered by Daughter Sylvia. 39:1ic

HAIGHT - In fond memory of Elwood Beecham Haight who passed away May 8, 1971.

Calm and peaceful he is sleeping,
Sweetest rest that follows pain
We who loved him sadly miss him

But trust in God we meet again.
Remembered by daughter Anna. 39:1ip

Nova Scotians have been urged to make their views known regarding legal aid.

Attorney General Allan E. Sullivan said today the recently appointed three-member Advisory Committee on Legal Aid under the chairmanship of Judge W.A.D. Gunn will assess all aspects of the legal aid program in the province.

"We want the views of all Nova Scotians, individuals and organizations, and suggestions for improving the present program," Mr. Sullivan said.

Judge Gunn said his committee plans to travel extensively throughout the province during June and July as part of its terms of reference. Locations and dates of public meeting will be announced shortly.

Individuals and groups

wishing to present a written or oral brief at a public hearing in their area are asked to contact Judge Gunn care of the Department of the Attorney General, Provincial Administration Building, Halifax.

At present the provincial government provides an annual grant to the N.S.

Barristers Society to administer the legal aid program.

A person in need of legal counsel but who is not in a position to pay for such services may apply for legal aid.

Other members of the advisory committee are Sydney lawyer Art Mollon and John MacKenzie, director of social research

and planning, Department of Social Services.

Judge Gunn was appointed chairman of the N.S. Law Reform Advisory Committee last year. On March 27 Mr. Sullivan announced in the Legislature the establishment of the Advisory Committee on Legal Aid and Judge Gunn's appointment as chairman of the committee.

A native of Sydney, Judge Gunn is a graduate of the Dalhousie Law School and served overseas with the Canadian Army during the Second World War. Following the war he resumed his law practice. In 1960 he was appointed a provincial judge and served in Sydney. In 1971 he transferred to Halifax.

The Energy Waste Watcher

This column will look at painless ways of cutting down your fuel and electricity bills at home. Have any suggestions? Send them along to the Energy Waste Watcher at Information EMR, 588 Booth Street, Ottawa K1A 0E4.

If the snow on and around your house melted like Fred's last winter, now's a good time to consider adding insulation to your attic ceiling and basement walls.

Adequate insulation can save you as much as \$30 out of every \$100 you now pay in heating costs, if heat is escaping because of poor insulation. The job will easily pay for itself in a few fuel-saving years.

Insulation is not difficult or expensive to install. Even if

you don't intend to do the job on your own, it might be worthwhile to learn something about what's needed and what's available.

Insulating material is now measured by its resistance value, labelled "R" value in the trade. The higher the R value, the less heat will escape through the insulating material. One material might be thicker than another, but if both show the same R value, they'll perform equally well. This information is usually stamped on the packaging, and, the salesperson should be able to help if it's not.

There are three types of insulation material that you can install: Batt and blanket, loose fill, and rigid

insulation, each designed to meet specific applications.

Since heat rises and many homes have the minimum amount of insulation in the attic area - usually a two-to-three-inch mineral fibre batt - ceilings are one of the greatest areas of heat loss. To be fully effective against heat loss, a ceiling must be insulated to a depth of at least six inches with batt-type or loose fill insulation. Ceilings also happen to be more easily accessible than walls, making the re-insulation job a fairly simple one.

Outer walls should generally be protected with about four inches of batt, mineral fibre, or another equally resistant loose fill insulation material. In existing brick or brick veneer homes, re-insulation is not always practical, since closed-in walls are pretty hard to get at. If you're

willing to do some renovation it can be accomplished; or you might check with an insulation contractor about blown-in or foamed-in-place insulation.

Unfinished basement walls are easy to tackle, though, and good insulation is essential to a basement-level recreation room. If you're using foamed plastic inside, however, it should be covered with plaster or gypsum board to prevent fire hazard.

If you're buying a new home, insist on at least "R-12" of good insulation in the walls. That means about 3½ inches of batt-type or loose fill. For the small additional construction cost you'll get lower fuel bills for years to come.

A useful free handbook called "100 Ways to Save Energy and Money in the Home" is being offered by the federal energy department. It also covers home insulation in detail for the do-it-yourselfer. For your copy write:

depicting the heritage of women in Nova Scotia hidden away in family

albums. And it's fast disappearing, they say. With the help of grants from the Human Rights Commission and the National Film Board, they want to locate this material and preserve it for future generations.

For their purposes, they're interested in photographs taken before 1940.

The images are photographed and fixed, and a short tape recording is made of discussions relating to them. The women want to set up an exhibition of these images to travel around the province, introducing women to their history. Ultimately, the negatives and recordings will be given to the provincial archives.

The idea for the project came during 1974 when both women were with Reel Life, a women's media collective which toured Nova Scotia and New Brunswick as a regional unit of Women and Film.

"Often," Diane says, "people would bring snapshot albums to share with us. We were really excited with what we saw and the possibilities they represented."

"It was often the women who documented the family's activities," she says, "and in all but the most exceptional cases, nothing is being done to preserve these photographic images. We'd like to save at least some of them before they're lost to the effects of fading and chemical deterioration."

The two women already have a number of negatives on hand. They hope that while travelling around the province looking at photographs people have written or called them about, they will make new contacts.

They want to hear from people all over the province and can be reached at 1671 Granville Street, Halifax. Or phone 423-7827.

Preserving Our Heritage

An attempt to preserve a link with the past has moved two young Halifax women to undertake a unique project in the spirit of International Women's Year.

While some people cringe in embarrassment when the old family photo album comes out, photographers Diane Phillips and Cheryl Lean, are eagerly looking through albums that belong to total strangers. And, thanks to a travel grant from the N.S. Human Rights Commission, the two women will spend the month of May travelling around the province in hot pursuit of more.

Their purpose is to record what our mothers and grandmothers looked like and how they lived. They're not interested in those nice, formal portraits with everyone in their Sunday best, gazing glassy-eyed into the one-eyed monster. They're interested in women doing things; the kind of things that are recorded in informal snapshots, taken at private moments for private purposes, and not posterity.

Both women feel that there is a wealth of material

Thirteen Princesses Indicated

Thirteen Princesses are expected to be participating in the 1975 festival, representing valley towns and villages from Digby to Windsor.

One of the princesses will ride on the grand street parade on a Victorian-era Landau as Queen Annapolis-elect to her coronation at Memorial Park in Kentville on Saturday afternoon.

Driver Leon Taylor of Martock and his coachman have already been rehearsing with the landau for the appearance in the grand parade. The driver and coachman will be dressed in Victorian costume, including long white wig, scarlet coat, white frill cuffs and collar, and black breeches and boots. The landau will be escorted by members of the scarlet tuniced Bengal Lancers of Halifax.

The curtain opens for the 43rd festival weekend with the start of a proclamation from Digby on May 29. The proclamation will be delivered to each participating community from Digby to Windsor, arriving at Wolfville for the Friday evening concert.

TV appearances in Halifax, a ball game at Kentville's Memorial Park with some "surprise" stars, followed by a fireworks display will launch the celebrations.

The events on May 30th include radio interviews with the Princesses, judging activities at Old Orchard Inn, an afternoon tea at the Cornwallis Inn, a formal dinner at Acadia's Wheelock Hall, and the festival concert in University Hall at 7:30 p.m. National TV host Jim Perry will be master of ceremonies.

Eight trumpeters, accompanied by organist Mrs. Peter Booth, will herald the arrival of the festival party. The Queen's Ball at Acadia's War Memorial Gymnasium, will round out the Friday program. Music will be by Taxi and admission of \$10.00.

May 31 will retain the excitement of Parade Day and will have the added pageantry and color of Coronation Day in the 1975 Festival.

The Calais, Maine, marching band will lead the children's parade from the Baptist Church grounds in Kentville, along Main and Aberdeen Streets, to the arena grounds commencing at 10 a.m. The Queen and Princesses will be in attendance and award the prizes.

The Grand Parade, portraying "Valley Heritage" will march at New Minas and wind its way along highway one and Kentville's Main Street to Memorial Park beginning at 1:30 p.m. Bands and foot units will join the parade at "The Flat" in Kentville.

High school bands will entertain the crowds at Memorial Park before the parade's arrival. **SATURDAY AFTERNOON CORONATION**

All attention will be focused on the dais at Memorial Park following the parade for the coronation of Queen Annapolis XLIII by Dr. J.M.R. Beveridge, President of Acadia University.

The program also includes the popular musical ride by the Bengal Lancers, a marching demonstration by the band from Calais, Maine, and a sky diving display by members of the Waterville club.

The festival party journeys to the community centre in Port Williams, the Glooscap and District arena

in Canning, and to New Minas for official visits on Saturday evening, along with several other brief stops, before arriving at the Princess Ball in War Memorial Gymnasium at Wolfville. The Ball commences at 9:30 p.m. with music by Band of Gold. Admission is \$6.00.

Mrs. Prayer Meeting Dies

FROM THE BERWICK REGISTER

March 30, 1967

Mrs. Prayer Meeting died recently at the first neglected church on Worldly Avenue. Born many years ago in the midst of great revivals, she was a strong healthy child fed largely on testimony and spiritual holiness and soon growing into worldwide prominence as one of the most influential members of the famous church family.

For the past several years Sister Prayer Meeting has been in failing health, gradually wasting away until rendered helpless by stiffness of knees and coldness of heart, inactivity and weakness of purpose and will power. At last she was but a shadow of her former happy self. Her last whispered words were inquiries concerning markets of trade and places of worldly amusements. Her older brother, Class Meeting, has been dead for many years.

Experts, including Dr. Work and Dr. Joiner, disagreed as to the cause of her fatal illness, administering large doses of

organization, social contests, drives and religious education, but to no avail. A post mortem showed a deficiency, but spiritual food coupled with lasting faith, heartfelt religion, shameless desertion, non support, as causes for her death. Only a few were present at her last rites, sobbing over memories of her past beauty and power.

Carefully selected pallbearers were urged to bear her remains tenderly away, but failed to appear. There were no flowers. Her favourite hymns, "Amazing Grace" and "Rock of Ages," were not sung. Miss Ima Modern rendered "Beautiful Isle of Somewhere."

But no one had any idea where this fancied isle might be. The body rests in the beautiful cemetery of Bygone Glory, awaiting the summons from above. In honor of her going, the Church doors will be closed Wednesday nights, save on the third Wednesday of each month, when the Ladies Pink Lemon Society serves refreshments to the members of the Men's Handball team.

Christened On Ship

Elizabeth Danielle Wight, daughter of Mr. and Mrs. Roy Wight and granddaughter of Mr. and Mrs. Perley MacAulay, travelled to Halifax, Saturday, April 12th to be christened aboard the ship her father serves on, H.M.C.S. Nipigon in H.M.C. dockyard. Chaplain Michael G. Cole, C.A.F. officiated Elizabeth's chosen godparents are Mr. and Mrs. Stephen McCavour, Lorneville, N.B. and Mrs. Patricia Wade, Allain's River.

As the traditional naval ceremony she was christened from the ship's bell, which will have her name and date of christening

engraved on it. The table that held the bell was draped with the Naval Ensign. Following the ceremony a reception was held for relatives and friends. The centerpiece for the table was a cake in the shape of an open book, decorated in pink and white. The other decorations on the table were a single rose in a crystal bud vase and candles in crystal candlestick holders.

Roy and Beth would like to say thank you for the gifts and cards Elizabeth received and for helping them make it a very pleasant day for her.

Canada Hospital Day - May 12

In recognition of the part played by hospital staff, trustees and volunteers working together to serve communities across Canada, we are pleased to recognize May 12, 1975 as Canada Hospital Day. On this day, we honour not only those whose service is constantly brought to our attention, but many who serve without recognition or payment.

The theme for Canada Hospital Day, 1975 is "Your Good Health - Our Only Concern." The theme focuses on the preventive health care role of the hospital in the community.

Hospitals are increasingly recognizing in these days of fast increasing health costs that many hospital admissions can be eliminated if the people of Canada revised their lifestyles and practiced more healthy way of life. Nine major sources of unnecessary health expenditures have been identified.

1. Smoking related illnesses
2. Lack of exercise
3. Poor nutritional habits leading to malnutrition
4. Obesity
5. Over indulgence in alcohol
6. Over indulgence in drugs
7. Failure to observe safe

driving
8. Failure to observe safe working habits

9. Failure to recognize the danger signs of stress

By following a few simple rules, many of these people-caused illnesses could be considerably reduced or even eradicated, enabling hospitals to spend more time treating illnesses and diseases emanating from less controllable causes and cut the increasing annual rise of health care costs.

As was said in "A New Perspective on the Health of Canadians" published by the

Federal Government last year, "Good health is the bedrock on which social progress is built. A nation of healthy people can do those things that make life worthwhile, and as the level of health increases, so does the potential for happiness."

On Canada Hospital Day 1975, hospitals will show that they care for the total health of all the members of the community and care for the healthy as well as the sick.

Decision On Paving And Sewer

Providing approval is obtained from authorities in Halifax, Digby town councillors decided at a special meeting of Council to embark on a phase of paving and sewer program. A preliminary plan of the areas considered for priority came before council and a motion was made by Councillor Guy VanTassell, seconded by Councillor Philip Robertson that tenders be called after authority came from the appropriate departments in Halifax. Considerable discussion arose on the streets which were chosen for paving and sewers. Some of the streets, it was noted have done without these services for 40 years but what was considered to be the most appropriate and logical way to begin was recommended at the special meeting.

Other business transacted was the matter of calling tenders for a four wheel drive Dodge truck similar to

one the chairman of public works, Guy VanTassell and other had seen in use at Bridgetown. Other machinery in use at Bridgetown was also admired by the chairman as well as their impressive Town Hall.

The benefits of various chemicals to use to allay summertime street dust were discussed and left in the hands of the town clerk to get information on costs. One South Shore town uses an oil truck to pump salt water on the streets which they found to be quite satisfactory. Digby Council by motion decided to take the opportunity to purchase such a truck for the town which they knew could be obtained for little layout in funds.

A motion was passed engaging Carl Niemeyer of Rossway as building inspector for the town and to be paid for the hours he works plus mileage.

D.R.H.S. Band Treated Royally

(Claude Pothier)

On the morning of Friday April 20th the D. R. H. S. Concert Band boarded the Princess of Acadia at 4:30 a.m. to begin the journey to Woodstock N.B. The trip across was quite calm. In Saint John we boarded a school bus provided by Woodstock High School. At 8:00 a.m. we were finally on our way. On the way we stopped at a restaurant for breakfast and later in Fredericton for dinner and to do a little shopping. At 12:45 p.m. we boarded the bus and we were back on the road again.

We arrived in Woodstock at 1:30 p.m. A cavalcade of cars met us a few miles out of town and then later we were given an escort through town by an RCMP and fire truck. We then arrived at the school, unloaded and went to respective homes with our Woodstock counterparts. Friday evening there was a get-together at a hall called the "Y" which lasted until midnight. Then we departed for respective homes for a good night's rest.

Saturday from 8:30 a.m. - 12:30 p.m. was rehearsal time. That afternoon all band members spent a few hours in Houlton, Maine, which is just a few miles from Woodstock. That evening was the concert which proved successful. A crowd of approximately 400 were on hand to hear the bands of Digby Regional High School and Woodstock High School. After the concert had concluded a get-together was held at a home in Woodstock but due to the changing of time that night it la. "ed only a short while.

Sunday morning was spent as free time. You could either sleep or go to a church of your choice. At 1 p.m. on Sunday afternoon we all met back at the school to say final farewells and for pictures to be autographed. Before we loaded the bus, D.R.H.S. Band members and chaperones were given flag pennants of Woodstock High School and pins of New Brunswick Coat of Arms.

Also Mrs. Donald Scott and Mrs. Russell Stonehouse, were presented with gifts to remind them of their visit to Woodstock. Then with a certain amount of sadness we loaded the bus and were on our way home. We arrived home at 8:45 p.m. and were met by parents and friends.

The BRHS Concert Band would like to thank Mr. Donald Scott for his hard work during the exchange. Also thank you to Mrs. Donald Scott and Mr. and

Mrs. Russell Stonehouse for accompanying us on the trip to Woodstock.

"Our Hometown Newspaper"

Even the name makes one feel exuberant! One knows they can catch up on all the local news of their town and the surrounding communities. The village or town news may contain so many things of interest - maybe news of someone you have not heard of for a long time - they may be in hospital or celebrating a wedding anniversary (have that many years gone by, we ask ourselves?) so off one gets a card to let them know they are thought about, giving both parties pleasure in the knowledge that some one cares and remembers.

The seasons bring their own news too, the first birds and other "nature" things, letting us know what the weather is like around our "home town" especially if one lives in far off places.

All local news are always interesting and close to our hearts, letting us know the progress (mostly) of our town. We are always proud in the progress being made and the achievements. Those in positions of governing have great responsibilities and for the most part do their best in determining what is best for their town, therefore should have the support of the public in all good things, so the town can go forward. This is where the hometown paper plays such an important role, advising it's readers of all that takes place.

Local sports, local church news and all the notices are of interest and one must not forget the advertising which benefits both the reader and the advertiser.

There must always be a little bit of longing for home for those who get their home town paper. They are always so eager for the day to come when they receive it, and the first thing read "their own" village news. There is a sense of something being fulfilled, all due to the home town paper.

Then of course many things in it gives one a topic of conversation, until the next one arrives. Oh, yes our lives are made fuller and richer for those home and away by reading "Our Hometown Paper."

Every success to it! Winnifred Comeau

Firemen Get Awards

Nine firemen from the Digby Volunteer Fire Department were on Monday, May 26 presented with certificates following their completion of a special course in fire control and fire fighting. The awards, which have come to be an annual affair, were presented by Fire Chief Vaughn VanTassell and Mason VanTassell who arranged for the

course. In the picture above left to right are Douglas VanTassell, Mason VanTassell, Vaughn VanTassell, David VanTassell and Raye Newman. Back row; Left to Right - Joe Smith, Irving Everett, Ron Hunt, George Thomas and Larry Hyson.

Chief VanTassell expressed pride in the fact that people were interested in

seeing the award presentation and congratulated those who finished the course. He thanked Mason VanTassell for the work done for the class study.

Mr. V. VanTassell spoke of the growth of the fire department and mentioned that there are more homes and more businesses in the town so their preparation must be greater.

Enjoyed Hawaiian Visit

By Frances Adams

Harold Emerson of Bay View has recently returned from a trip to Hawaii where he visited the Islands of Oahu and Maui.

The Island of Oahu is the Island on which Honolulu is located. It is not the largest Island but does contain 90 percent of the population.

The Island of Maui has a less dense population.

The State of Hawaii was the last State to join the Union. The 50th one and it joined only a few years ago. It has been said that the automobile population of this state is so great that in a few years due to circumstances fewer and smaller cars will be required.

The temperature of Hawaii the year around varies from 62-85 degrees F. but Mr. Emerson said during his recent visit the weather was windy with small craft warnings being given. He was told this was not the usual weather for April but more like January weather.

In speaking about Hawaii we are told the soil is not rich but in a sandy beach soil. Over the years the soil has

washed into the Valley and here the soil is more fertile and so most of the farming is done in the Valley.

Waikiki is said to be one of the most beautiful beaches in the world. Here a 12 story Hi-Rise Hotel is being constructed for the use of Military personnel on leave.

More than one kind of palm tree grows in Hawaii but these are not considered the most beautiful trees because some trees are noted for their beautiful leaves. Some exotic trees are noted for their shape. The branches grow down and even form roots.

Many beautiful flowers grow on these Islands.

The birds located here have beautiful colors and have cries and songs unlike the ones we know.

Mr. Emerson over a period of 14 hours he travelled from Plattsburg, N.Y., from Hawaii in a fast jet plane in 12 hours.

He said one of the highlights of his trip occurred at Hickam A.F. Base in

Haliburton To Advise Gardeners

An evening of free instruction in the basics of Home Vegetable Gardening will be held at the Clementsvalle Elementary School at 7:30 p.m. on Wednesday, May 14. There will be a colored slide presentation and a question period. Tom Haliburton, Horticulturist with the N.S. Department of Agriculture, will be able to give expert advice on any gardening

Hawaii. He watched the orphan children which ranged in age down to babe in arms landing there after being flown here from Vietnam. He said only a very small percent of the orphan children were met here by their new parents because many still had to travel to more distant points before reaching their new homes.

Mr. Emerson was absent from Bay View for about 3 weeks. He was a visitor in the home of his sister, Mrs. Russell Meritt and Mr. Merrill, Wellesley, Mass. He also spent some time visiting with his daughter, Anne, also of Mass., while in that area.

problems. This is an excellent opportunity for the beginning gardener who is contemplating his first garden to learn the proper procedures in planning and planting for a bountiful harvest this coming summer and fall. With the cost of living on the rise, a small home garden can provide good eating and considerable savings on food costs. It doesn't cost any more to have a good garden than it does to have a poor one; a lot depends on the know-how of the gardener.

Mr. Haliburton will have a good supply of free pamphlets on gardening and anyone attending should also equip himself with a notebook to take notes. There will be door-prizes of vegetable transplants.

If enough interest is shown more classes may be

planned for flower gardening, harvesting, organic gardening, compost-making, home-canning, freezing, and pickling, the raising of small livestock and any other "country-living" topics that might be of interest.

Originally, it was hoped that these classes could be held through a proposed Community School program with financial assistance from the Continuing Education Branch of the Nova Scotia Department of Education. Under this program a Community School Council would be set up and an annual program would be budgeted for and would include a varied number of classes that could take place over a period of weeks, days or one evening or afternoon. The cases would be open to all ages and could cover any number of

topics; a few of the suggested topics to date have been physical fitness, hair styling, leadership courses, sheep raising, poultry raising, ballroom dancing and consumer problems related to the cost of living increase. To date there has been insufficient interest to warrant the forming of a Community School Council in the Clementsvalle School district, but it is hoped that in the near future more people will come forward with ideas and help in getting the plan underway. be reached as the campaign has started out well and encouraging. House to house soliciting will be carried out, Capt. Muise advised but anyone wishing to make a donation can do so through the treasurer, Fabian McNeil, at the Canadian Bank of Commerce on himself.

The Salvation Army Red Shield Campaign is Canada wide and thousands will be sharing what they have with those who have less. Captain Muise said it is not only one

appeal but many appeals because The Salvation Army undertakes many services across this affluent nation. Broken homes and shattered lives are healed and mended by aid of The Salvation Army, the hungry are fed by them and the naked are clothed by their efforts. The S. A. helps the young and the aged, those ill in body or mind, the poor and depressed, the last and bewildered. Their love for mankind is expressed in their service to mankind.

Help get these people into trouble.

We seek trouble wherever it occurs. Wherever people need us. Down in Skid Row. In the prisons. Amongst the elderly, the destitute and the downtrodden. Wherever we can offer our Christian help. Sometimes, it isn't pleasant. But it must be done. And we need your help to do it. Money. Donations to the Red Shield Appeal. Your gifts get us into trouble. And they help get a lot of people out of trouble.

If you don't need our help we need yours

Written 55 Years Ago

This poem written 55 years ago was brought to us by Loran Shaw of Centreville, having been clipped from The Digby Courier of 1920. The George Shaw referred to is Mr. Shaw's father. The poem was probably written by Mrs. Hattie Beacher, a correspondent at Centreville.

Topping the list of Village Notes for the week was this contribution from Centreville's poetic correspondent of 1920. We certainly have had winter here. Dear Editor, did you know, Takes half the time to poke in wood And shovel out the snow.

But trust her silky hair will curl.

Mrs. Harry Warren arrived From far out west last week. The most of us would like that trip, Tho' some have had a peek.

Mr. George Shaw is home again From the city of Saint John. His folks are glad to have him back, They're lonesome when he's gone.

We've had a call from Bennie Rhine Who plays the violin well. He called at Mr. Brecher's home, But there, you musn't tell.

The Centreville School expects to have Pie Social in the hall, On Valentine's night if weather fine. Boys, do you hear the call?

The school rooms need a few repairs. And the teachers will begin A concert with the boys and girls, And ten cents to get in.

Mental Health Digby Has Productive Year

The Digby Mental Health Association had a productive year said president G. Vernon Wessell at the annual meeting at the New Horizons Centre on Friday evening. Probably the most rewarding accomplishment, he said, was the completion of the New Horizons building under the chairmanship of Ernest Ryan. The project presented many problems and frustrations but rewards come now as one sees so

many senior citizens making good use of the facilities and enjoying themselves.

Another undertaking by Mental Health Digby was the sponsorship of a Multicultural Conference here in 1973 and has continued its interest to date when the provincial association was held here May 3 with Rev. George Bell co-ordinator.

V.G. Cardoza, Rev. John Stokoe and G.V. Wessell represented Mental Health

Digby at a Teach-In in Ottawa and Mr. Wessell and Joe Hattie at a workshop in Tatamagouche. The theme of the Ottawa Teach-In was "Community Action for Troubled People". Each delegate was to go back to the branch and implement the things they learned. Another Teach-In will be held in Vancouver in this year.

Mr. Wessell spoke of the Crisis Intervention Program started in this region set up to help people with suicidal tendencies.

Ben Cullen treasurer reported that the New Horizons building was completed in the past year using \$9,246.51 of the total disbursements of \$9,461.19 going toward this project. Over expenditure for the year was \$2,370.03 which was covered by a general branch surplus of \$1,044.15 and the Multicultural Conference surplus of \$1,422.97. Bank balance for the year end was \$97.09. Some of the revenue sources were campaign pledges, \$979.16; grants town \$500, municipality \$300; New Horizons project \$1791.16 Digby Annapolis Mental Health \$1500; grant Department of Recreation \$2000 and New Horizons prepaid rent \$1800.00

Joseph Hattie presented the report of the Nominating committee which consisted of Mr. Hattie, Vernon Wessell and R. MacLeod Rogers. The resulting Board of Directors includes Mrs. Edith Wallis, Mrs. Mary Robert, Mrs. Donald Buckler, Mrs. Nola Jeffrey, Mrs. Ina Dillon, Mrs. M.P. Gott, Ben Cullen, Rev. Isaac Butler, Ernest Ryan, R. MacLeod Rogers QC, Rev. John Stokoe, Judge V.G. Cardoza, John Englehart, Rev. George Bell, James' Gillis, Vernon Wessell and Joseph Hattie. Officers will be elected at the June regular meeting.

Mrs. Gott introduced the speaker for the evening, Judge V.G. Cardoza (message in another column) and he was thanked by Mrs. Nola Jeffrey, who also presented a gift to the speaker on behalf of the Digby Association and in appreciation of the many years of service he has given to Mental Health.

Dr. Ahmad spoke on the expanding work of the Clinic and the necessity to expand the public relations as far as possible so that the public can see the benefits of the Clinic and supply feed-back.

An Afghan on sale and donated by Mrs. Cardoza was on display.

The New Horizons Club served refreshments.

Make New Citizens Feel Welcome

The need for such organizations as service clubs to reach out to make new citizens feel welcome and truly members of the Canadian family was stressed by Citizenship Court Judge Victor Cardoza in an address to the Digby Kiwanis Club last Thursday evening.

In reviewing the development of the laws governing Canadian Citizenship, Judge Cardoza noted that Canada was the first of the Commonwealth countries to adopt a distinctive and separate Citizenship Act. He said that more than one million immigrants to Canada have secured Canadian citizenship since the Act came into effect on January 1st, 1947. Some 60,000 applicants successfully seek Canadian citizenship each year, the judge stated.

By becoming a Canadian citizen, he said, a person indicates he no longer wishes to be merely a guest in the country where he lives but a member of the Canadian family. He noted that all Canadian citizens, whether native-born or naturalized, share an equality in the rights, privileges and duties of citizenship this is true whether they are first generation citizens or citizens by birth whose family history here goes back over generations.

Canada, Judge Cardoza said, is truly a cultural mosaic and has benefited greatly from the diversity of its population. He urged his listeners to make use of opportunities to learn from Canadians of other cultural and ethnic background some of the heritage being contributed to the fabric of Canadian life by these people.

Judge Cardoza was introduced by Kiwanian R. MacLeod Rogers, Q.C. and the thanks of the gathering were expressed by Kiwanian Charles Haliburton. The dinner meeting was presided over by Kiwanis President, Graham Saunders.

290 Blood Donors At Digby Clinic

With a registration of 290, the Digby Blood Donor Clinic, which was held last week under the joint auspices of the Digby Red Cross Branch and the Digby Lions Club, was one of the largest and most successful ever held in this area. E.B. Tufts, the general chairman of the Clinic - who, incidentally, was celebrating his 15th anniversary in this capacity - extends the thanks of his committee to all those who attended, both as donors and as workers, since a successful clinic requires the co-operation of both groups.

Publicity also plays a large part in bringing the clinic to the attention of the public, thus appreciation is expressed to the "Digby Courier", the "Mirror" and to Radio Station CKDY for their wholehearted support. An item of interest of the Digby Clinic was the presentation of a Red Cross scroll to Sgt. James Thorburn of CFB Cornwallis in

Addresses District Meet

Dr. Milford Jackson, president of the Nova Scotia Association of Garden Clubs, North Sydney was guest speaker on Thursday evening when the Western Nova Scotia District Garden Clubs met at the United Baptist Church Hall in Digby.

Introduced by Jack Harris, Bear River, chairman of the District Association, Dr. Jackson dealt with the functions of the Nova Scotia Association and offered suggestions to assist in local garden club success. His address informed both on flower plantations and vegetable gardens advising on how to plant the seeds, varieties and conditions and times for planting each.

R.S. Morton, Horticulturist with the Nova Scotia Department of Agriculture, demonstrated growing plants under ar-

tificial lighting with genuine plants and lighting exhibit. He numerated and explained the plants which are successful in artificial light, when to plant and how to attend the lighting system. He advised on soil mix and amounts of moisture necessary and stated the biggest problem is encountered when the plants are moved to an outdoor location.

Bruce Gilliat gave a fine visual discourse on the seriousness of the weed problem, stressing the benefit in being able to identify weeds and the method of deleting them from gardens, lawns and fields. He emphasized the importance of a weed inspector, noting poisonous weeds to animals and children and the persistence of weeds to undermine the valuable growths so necessary for mankind. Mr.

Gilliat showed pictures and dealt with information on a large variety of weeds such as Wild Radish, Rooted Pigweed, Lambs Quarters, Kemp Nettle, Spurrey, Green Smart Weed, Common Chickweed, Sheep Sorrel, Shepherd's Purse, Couch Grass, Smooth Crab Grass, Barnyard Grass, Green Foxtail, Ragweed, Yellow Ratchet and the most troublesome Janson. Controlling weeds in the lawns was urged by Mr. Gilliat and preventing their spread.

Jack Harris presided at the meeting and Mrs. Bruce Hutchins, Smith's Cove, president of the Admiral Digby Horticultural Society, extended a sincere welcome to guests and delegates from Annapolis, Bear River, Weymouth, Meteghan and Digby. Each club gave a report of the year's activities

DIGBY'S CITIZEN OF THE YEAR

Coming up is Citizenship Day as seen in our editorial column. The news columns also say that the Digby Natal Day committee is making out its scheduled program for July 28th, with space on it for honoring the Citizen of the Year 1975.

This brings to mind that our citizen of the year 1975 is not yet chosen nor do we know the manner in which he or she will be chosen. We would say that it is time to get started on such a choice, at least, to decide what method will choose the Citizen of the Year for Digby.

Citizen of the Year in Digby has been chosen in various ways. Town Council has chosen them by verbal suggestions of the citizenry. They have also asked the citizens of Digby to choose whom they felt would fit the bill and send along his or her criteries on qualifications with the name to the Mayor, Town Clerk or Council in general. A number of people favor this method, relieving the Town Council of all the work except to judge from the responses who is most entitled to being Citizen of the Year for their town.

Maybe Citizenship Week is a good time to get on with selecting the Citizen of the Year for Digby. The Citizen of the Year need not be a professional type or a wealthy person. There are many blue collar workers who could nicely qualify for the honor. Race, creed or status should not have any bearing on the choice. You want a Citizen of the Year as just that, a Citizen and all it stands for.

So how shall it be done? Want to send the town hall your suggestion for method of choice or to this newspaper if you wish.

—If your letter to the Editor has not appeared in this newspaper there could be two questions you might ask. "Did I sign my name?" and "Did I forget about the issue and go into personalities instead." There are two letters on our desk. One is signed "Digby Citizen." That's all and that is not the necessary signature.

Letters to the Editor

Dear Editor,

On Monday, May 5, I presented the following brief to the Digby town council on behalf of a number of senior residents of the town:

"Your Worship, Madam Councillor and Councillors: I am representing a number of senior citizens in this town who are not able to attend the town meetings due to location.

First of all - SIDEWALKS - They are not too concerned with the number of horses, and cattle running up and down, but they are concerned with the condition of sidewalks, both summer and winter. Yes, they know the "old by-law" that the property owner is responsible for snow removal, etc., but they feel that after 75 years of cow paths, their tax dollars should be used for their benefit.

Is it true that the council, representing the people, can borrow up to \$300,000 (three hundred thousand dollars) without even approaching them? If so, why not sidewalks? Is it true that on May 1, 1975, Town of Digby, bonds came due which yielded the bearer 9 1/2 percent in a five-year period since 1970? Is it not true that many companies are not offering 9 1/2 percent on short term bonds? Therefore Digby does not have to give 9 1/2 percent on a \$300,000.00 loan for five years for sidewalks. Councillors, these citizens want a decent place to walk - a paved sidewalk, with no tree roots

or bicycles.

Secondly - it is all well and good that the minutes are kept in the town hall, that financial statements and so on, may be seen in the town hall, by the ratepayers.

These ratepayers would like a complete report in the local newspapers. Many of these people cannot climb the steps to read what is their business. The people are interested in the town's affairs, but sometimes reports are misinterpreted, and they would like the truth. The third question in the minds of some of your ratepayers is police protection. How much protection - one man, two men? And is it really 24 hours a day, seven days a week, or are we just led to believe this by phonying Halifax?

On behalf of many of our senior citizens, thank you for your time and I hope, your action, on these concerns.

Marjorie L. McCormack

EDITOR'S NOTE:

Sidewalks, as you note above, are of concern to senior citizens but the location of the Town Council Chamber on the second floor prevents the seniors from attending Council meetings or to seek the information they want. Miss McCormack has advised us. Her presentation to Council above.

Dear Editor,
We, the undersigned

residents of the Maiden Lane area, disapprove the unsightly and offensive condition of the Cannon Bank since it has been allowed to become a dumping ground for hundreds of fish barrels and broken and battered debris, allegedly placed there by a herring processing plant occupying the former C.P.R. Wharf.

We would ask that those invested with the responsibility of cleanliness and appearance of our town, move without further delay, to remedy this deplorable condition.

Helen R. Walker, Reginald Turnbull, Mr. and Mrs. O.J. Darras, Mr. and Mrs. J. Boone, D.J. Gernman, D.K. Turnbull, Deborah Windsor, Bernard's Beauty Salon, Bessie Daley, Harold E. Mount, Mabel L. Mount, Mr. and Mrs. Walton Cann, Andy Wilson and Harriett Wilson.

Dear Editor:

During the past few weeks I have received complaints from citizens deploring the deterioration of the north end landscape, in the waterfront area on the cannon bank. As a result, I presented the following comments to town council at the monthly meeting of May 5th.

"Complaints have been received from Maiden Lane residents regarding the unsightly condition of the cannon bank since it was taken over by Campol Fisheries for barrel storage.

Once an area where our local residents, as well as touring visitors, were able to view the beautiful waters of the Annapolis Basin and the Digby Gut, it has become, both by sight and sound, an affront to the Maiden Lane residents, as well as those who endeavour to maintain the Admiral Digby Park and provide picnic facilities and clean surroundings for visitors.

It has been suggested that the town council approach the authorities responsible in an effort to have this eyesore removed from downtown Digby.

As an initial step to investigate and hopefully improve this situation, I made a motion that a letter be sent from the town office to the C.P.R. for information regarding occupancy of the cannon bank property, which is assessed to Marazion. Realty of the C.P.R. The matter failed to receive a second. Members present were Rep. Ellis, Robertson, Hazleton, Chapman and the Mayor. Councillor VanTassel was absent.

Since September 1974, when Campol Fisheries opened a herring processing plant on the wharf, added difficulties have been experienced in the town's water supply, largely due to a leak at the wharf. Campol was advised last October that the leak must be repaired immediately. This was not done. On January 9 of this year, Superintendent Robinson reported to the Water Commission that it has become increasingly difficult to keep the reservoir full of water, with Campol and the Forum running as they have been. "Another fish plant will cause a water shortage on a dry summer," he stated, adding, "we were ten to twelve inches short of the years water for 1974".

On Sunday, January 5, he found the water down 4 to 5 ft

and a bad leak was still noted under the old C.P.R. wharf. The Superintendent then turned the line off and the level was up 2 inches by afternoon.

At the Water Commission meeting in February, 1975 it was moved that Campol be notified that before water service would be resumed to their establishment, a 2 inch meter must be installed on their premises, in a frost-proof box. At the April meeting it was stated that a 4 inch meter had been purchased at a cost to the Water Commission of \$950.00.

At the April meeting of town council a letter was read from Campol Fisheries requesting tax reductions. It was stated that Council does not have the power to grant this request.

Campol is a subsidiary of Comeau Fisheries, Saulnierville.

True or False?

To the Editor:

To Mr. Nowlan and our indifference.

We are blessed to live in an age and in a society where we possess the freedom to inquire, and also where the facts are readily available, if we would search them out. Our personal decision need not be limited by the conditioning elements of tradition, blind prejudice or reaction to negative experiences.

If we would, we can exercise these two precious freedoms in order to seek with all our heart and to find the truth.

recognition of his 35 blood donations. The presentation was made by Stuart MacNaughton, vice-chairman of the Red Cross Blood Donor Committee, during the afternoon session of the Clinic, where Sgt. Thorburn was again a blood donor for the 36th time.

Although the new computerized registration does not provide a list of donors by communities, the large attendance from Digby Neck and the Islands, also CFB Cornwallis and Bear River, was noted and greatly appreciated.

Another gratifying feature was the 100 percent attendance of our three rare blood types (Rh AB Negative) in this area - Mrs. Freda Balser, Mrs. Raymond Robicheau and Christopher Tufts.

Assistance in unloading the Red Cross equipment before the morning session was provided by a group of highschool boys, and thanks are extended not only to them but also to their school principal, Mr. Hannah, who made this possible. Following the evening session of the Clinic, the equipment was loaded by members of the Lions Club, who later entertained the Red Cross team from Halifax with a "lobster feed" at the Lions Hall. This was no doubt greatly enjoyed by the girls after a very busy day.

Another special "Thank you" goes to Linda MacIntosh, leader of the Red Cross Youth Group, who, with Mary Saulnier, another member of the group, worked at all three sessions of the Clinic, assisting the

WOMEN OBSERVE MOTHER'S DAY

The Woman's Missionary Society of the Smith's Cove United Baptist Church met at the home of Mrs. Alice Landers on Wednesday afternoon, May 7. The meeting opened with the unison reading of Proverbs 31 followed by prayer offered by Mrs. Eva Rice.

Mrs. Annie Winchester presented an inspirational devotional message on "Daughters of the King" - a special Mother's Day theme.

Plans were discussed for the annual Crusade meeting to be held on Thursday evening, June 5. Mrs. Edgar Richardson will be the guest speaker.

Mrs. Landers presented the program which was a continuation of the African Diary of Marg and Bob MacQuade of Canada who had made a trip to visit missionaries in that country from Canada.

The MacQuades told of their experiences in visiting Nairobi, Kenya which is considered the crossroads of the world. They spoke of the city being vibrant with new ideas reflecting the zest of a newly developing nation.

The MacQuades were warmly received by the missionaries in Kenya and Zaire and the MacQuades, in

Money is greatly needed to pay for construction and operating costs. Citizens of the Digby area are asked to support the project by participating with a pledge of money on the basis of either a direct donation or contribution per miles completed. The collections will be made by the participants after the walk-a-thon and receipts for tax purposes will be issued to those who may wish to receive them.

The course will begin at the Swimming Pool Site at 10:00 p.m. and proceed to Roxville on the Digby Neck Highway, around to Culloden in the Old Bay Road and back through Mount Pleasant to Digby for a total of 17 miles.

It is hoped that this project will be as enjoyable and successful as last year's walk-a-thon.

technicians in the Clinic Room. While thanking Linda, special mention should also be made of her grandfather, Layton Hinxman, who has been a full-time volunteer of the Digby Blood Donor Clinics for many years. This year he established what may be a family record when two of his daughters and two of his grandchildren were also there assisting.

The Red Cross Nursing Committee, under the sponsorship of Mrs. Clayton Snow, R.N. provided nursing services for the recovery beds during the Clinic. Mrs. Snow was assisted by the following registered nurses who served as volunteers: Mrs. D.G. Black, Mrs. A. MacLewy, Mrs. A.G. Connelly, Mrs. Steve LeBlanc and Miss Virginia Porter.

Mrs. Allan Harris served as convener of another Red Cross committee which provided registration, ushering and refreshments for the donors. Those serving on this committee were as follows: Mrs. Victor Comeau, Mrs. Frank MacIntosh, Mrs. Paul VanTassel, Mrs. Hilda Bremner, Mrs. Norman Kennedy, Mrs. Morse Haynes, Mrs. Bernard O'Neil, Mrs. Andrew Thibodeau, Mrs. A.J. Dillon, Miss Louise Daley, Mrs. H.M. turn, reported on the work of these missionaries who have seen many changes in this area during the past few years... in mission work and in the governments of the new countries. The MacQuades also vividly described their visits to two of the country's most interesting game farms - one of the world's unspoiled areas.

In light of recent news accounts of developments in that area there is much need for prayer for the missionaries serving there.

The meeting closed with the Mizpah benediction. A lunch was served by the hostess assisted by Mrs. Annie Winchester and Mrs. Frances Freeman.

Regrets were expressed that the special speaker, Miss Lesley Barnes, was not able to attend.

The Youth Education committee report given by Miss Maureen Nowlan of the Mental Health Centre requested the people write articles for publication. She suggested a drug user, a doctor or concerned citizen.

It was noted that Owen McGowan is now writing an article for publication in the local press.

Miss Nowlan in continuing her report also suggested an A.A. member speak to groups in schools.

Cpt. Fox, R.C.M.P. Meteghan, she reported, visited College St. Anne with a display of drugs. It was suggested that Cpt. Fox be invited to a public meeting here to display the drugs.

The Treatment on Rehabilitation was presented by Mrs. Barbara Comeau when it was proposed to ask Dr. Abell and Dr. Kareemi to speak at a meeting. Also it was proposed to a public meeting prior to July-August to show films and bring in speakers from outside.

Dr. Ian Anderson reported he had informed the Digby Medical staff about the A.A. advertising in the local papers. Weekly meetings are continuing and referrals by medical doctors are being received.

The resignation of the chairman, Ron Fraser, was regrettably accepted. Mr. Fraser is moving from the vicinity. Expressions of thanks were extended to Mr. Fraser for his services as chairman and formerly as secretary.

Rev. Father Leo Maillet moved the motion to have the chairman and secretary to invite the heads of the other area committees such as Annapolis, Digby, Yarmouth and Shelburne for the purpose of setting up a Regional Board for the Drug Dependency committees.

Dr. Denton, Mr. Fraser and Walter Black were named a nominating committee to bring in a name for chairman at the next meeting on May 21.

MY MOTHER

My mother is very nice
Not made of ice.
My mother isn't blue.
Or made of glue.

My mother is bright
And usually right.
She taught me to walk
And to talk.

My mother taught me to
creep and crawl,
And to walk down the hall.
I love my Mother
And she loves me too.

Pope Paul having declared 1975 as a Holy Year - the members and all the faithful were requested to tabulate all the masses they attended, communions received, rosaries recited, sacrifices made and send them to his holiness Pope Paul in Rome. Father Stokes p.p. at St. Monica's in Middleton sat at the executive table. The members of Holy Cross were happy to see Father Stokes as he had been a former pastor in Holy Cross. A luncheon dinner was served to all in attendance at the Mid Valley Motel.

SAUSAGE SORCERY

* This month's calendar is filled with graduation parties, bridal showers and a bride's own meal planning. All of these occasions call for savory sausage products. Here are some ideas from the home economists for Union Carbide.

* For party menus or snacks, spread sliced bologna with your favourite cheese spread. Stack up and chill until firm. Slice in wedges and insert toothpicks.

* For a spicier snack, spread slices of salami with a mixture of 3 ounces cream cheese, 2 tablespoons milk cheese and 1 tablespoon blue, beaten together. Chill until firm and slice in wedges.

* Sliced wieners, sauteed in butter and added to Spanish rice makes a quick and tasty dinner. Complete the menu with fresh green beans and a tossed salad.

* The working bride should consider a main dish salad for summer supper. Try this Italian-style chef's salad: Toss together torn up lettuce and fresh spinach. On the top, sprinkle sliced salami cut in wedges, sliced fresh mushrooms, cubed Mozzarella cheese and cherry tomatoes. Toss at the table with Italian dressing. Serve with garlic bread.

Activity in Weymouth School

Children in the school had three half holidays last week while a 72-hour pump test was made on the water. To do this, it was necessary to cut into one of the three wells, and the other two wells would not supply enough water for a complete day. A new pump has now been installed, and the water supply now gives 20 gallons a minute.

Graduation will be held on June 19th at Weymouth Consolidated School, and the

Prom will be held on the 20th.

The grade XII class trip will be held in Fundy National Park from May 22nd to May 25th.

Drains are being installed in the property in front of the school, to provide a new play ground for the fall term. Landscaping and levelling has also been done in the elementary area. Both these areas will be grassed over and hopefully, will be useable in the fall.

Community Honors Senior Citizen

A party, sponsored by the Milford and Area Community Association, was held at the new community centre on Friday evening, April 11, in honor of Mrs. Ritson (Maude) Longmire who had celebrated her 85th birthday on April 7.

The hall was tastefully decorated in yellow and white. A beautifully decorated birthday cake, made and donated by Mrs. Curtis Orde, was the centerpiece of the guest table and was flanked by vases of spring flowers. Seated at this table with Mrs. Longmire were her pastor, Rev. H. Hartlen, and Mrs. Hartlen, of Port Wade. Rev. Hartlen was the guest speaker.

After the singing of Happy Birthday, Mr. Hartlen addressed the gathering, stressing the many years that Mrs. Longmire has resided in the community and her work in church and community affairs, also her wider area of work in the Annapolis-Digby Baptist Association, and particularly of her work and interest in the children of the area who are all remembered each Christmas with a gift of Mrs. Longmire's hand-knit mittens and a treat of candy and oranges from a tree always presided over by a jolly Santa.

Mrs. Longmire was presented with a corsage of roses by little Dena Orde. A gift of a lovely gold-colored glass dish from the children of the community was presented by Master Darrin Orde. Mrs. Cyril Sanford, on behalf of the community, presented Mrs. Longmire with a suitably engraved Bulova pendant watch.

Mrs. Longmire responded with a charming "Thank You" speech after which the group sang "She's A Jolly Good Fellow." Then a sing-song was enjoyed by all, pictures were taken, and delicious refreshments were served by the M.A.C.A. committee.

Mrs. Longmire cut and served the birthday cake. About sixty guests ranging in age from 4 years to 87 years attended. Two of Mrs. Longmire's four living children, one grandchild and four great-grandchildren were present.

The evening closed with another singing of Happy Birthday and best wishes for many happy returns.

(Mrs. Longmire has just returned from a visit with her other two children in Florida and Toronto and was a guest of honor at pre-natal parties at the homes of each of these two sons.)

Ceramics Popular Course

One of the most popular groups of Continuing Education in the area, has proved to be the Ceramic group, held at Acadian Ceramics this season.

Jean and Diane Belliveau have a registration of 170 students, between Salmon River and Cornwallis. Besides the classes held in their studio at St. Bernard, they also hold classes in both ceramics and pottery, at St. Ann's College, and ceramics in Digby. These include morning, afternoon and evening classes. Workshops are also held four times a week during the summer months, for those who want to continue their hobby.

Jean and Diane lived for several years in Dayton, Ohio, where Jean taught Electronic computer. He became interested in pottery and Diane became interested in hobby ceramics, they both took evening courses in these subjects, and decided to move back to Nova Scotia, about four years ago to see if a living could be produced from their studies. They have two children. Jean Paul, and Janice. Jean also has a workshop, where hand carvings are produced - mainly nautical subjects. These are distributed throughout the Maritime provinces, and there is an outlet in St. Bernard, "La Bourne" in which local hand crafts are sold throughout the summer months. These handicrafts include pottery, ceramics, paintings, quilts - their own work, as well as that of others in the area. Ceramists and potters who have taken these courses in continuing education, are most enthusiastic, and the work produced under the guidance of the Belliveaus is most satisfying, both to the students and friends.

MariElaine LeBlanc has also started a group of

ceramics in her home this year, as a result of an overflow of students in the "Acadian Ceramics" groups. Mrs. LeBlanc has one class a week and the work being done there too, is certainly worth noting.

THE DIGBY COURIER

It's A Small World

"Getting involved in the community" held the attention of 300 women attending the week end conference at Lunenburg. This was the first of four Regional Conferences scheduled for May by the Maritime Conference United Church Women - a departure from the regular annual meeting so that more women could participate. Lunenburg Central United Church shone with warm hospitality as women from Halifax, Valley and South Shore areas were brought into a greater awareness of their response to the needs of others in the light of Christian faith. Several from the Digby U.C.W. and from surrounding areas were present. Leading them through this sharing process were Rev. Don Bardwell, Rev. Ron Dempsey from Sackville, N.B. and Mrs. Emily Marquis, United Church House, Toronto.

A Cole Harbour group sparked this awareness by a contemporary portrayal of the natural response of Mary and Martha to Christ. The

celebration of the 50th Anniversary of the United Church of Canada climaxed in the cutting of the birthday cake by one of the oldest members of the Lunenburg church, Mrs. Fred Bailly Saturday afternoon. Rev. Robert Mills, Bridgewater, gave an "up-t-date" review of where the churches are in the question of union. The over-all theme of the conference "It's a Small World" was further emphasized by

the presence of guests from the other churches in the town for the afternoon playette and tea.

Airport Gets \$175,000 Grant

Miss Colleen Campbell M.P. announced on Monday that she had been informed by the Hon. John Marchand, Minister of Transport, that a \$175,000 grant would be going to the Digby Municipal Airport at Hill Grove. Miss Campbell said that two million dollars had been

allocated for assistance with municipal airports.

The Digby municipal grant was the result of joint efforts of the Municipality of the District of Digby, the Minister of Transport, Joe Casey M.L.A. and Miss Campbell M.P. The purpose of the grant is to upgrade the

airport, constructing a paved runway or taxi run 3000 ft. long and 75 feet wide as well as a parking area 100 ft by 100 ft.

Miss Campbell felt the airport would be a tremendous boost to tourism, transport, industry and recreation.

To Have Building Code

The committee on a building code and by-laws was empowered on Monday afternoon to go ahead and complete a set of by-laws and building code at the monthly meeting of the councillors of the Municipality of the District of Digby.

The municipal session began on Monday morning with routine business and hearing the chief assessor for the Annapolis-Digby district, Philip Dondale, answer many pertinent questions on assessment. One assessment topic which created interest was that of assessment of woodlot property.

The matter of municipal boundary distribution was tabled for the June session.

Councillor Richard Daley gave a report on his efforts in meeting the people of Sandy Cove regarding a fire department. The fire department and fire commission were organized on Saturday May 24th. By motion a letter of congratulation was authorized to be sent to the District fire department and offer assistance in obtaining grants or in whatever way they can be of assistance.

The recent fuel adjustment charge came up for consideration and adverse comment on Monday afternoon. Fuel adjustment charges in March and April, it was noted amounted to more than \$16,000 within the Digby municipality. The Digby County Power Board electrical service is by water power yet customers are expected to pay the fuel adjustment charge. Council also requested that the seven per cent sales tax being paid should be taken off and a rebate come to them. Letters to this effect will be forwarded to the Department of Finance for the province and Councillor L.E.R. Winchester was given the support of Council in his efforts to bring these requests

before government.

Mr. Winchester's report showed that expenses to the end of December had been paid up to par but the months of January and February report found that capital financing made over expenditure to be \$5882. He also reported having come to an agreement on wages and all of these items have a bearing on the D.C.P.B. finances. The agreement in wage was an increase of seventeen per cent paid in three phases.

Expenses for stock in extension of services was found to be one of the expense problems and he cited such extensions as giving electric service to obscure homes or businesses where lines must be run for a mile or more. The return income on such services is slow in coming in.

Councillor Winchester's report was adopted and a motion made to pay the D.C.P.B. \$5882. Mr. Winchester was given the go-ahead to meet with both town and municipal officials to attempt to resolve the problems in giving service to Mount Pleasant. Conversation on electrical power costs continued and a decision was made to draft up a resolution to be presented to the Union of Nova Scotia Municipalities and to each municipal council soliciting support to the Digby municipality in their requests to the Nova Scotia Power Corporation. Consideration must be given to the fact that the Digby County electrical production is by hydro while others are thermal. Transportation charges on fuels was considered another factor in costs.

Serious consideration was given to the suggestion that the municipality make effort to get the generating plant back. It had been sold to the Nova Scotia power boards some years ago. Some council members felt it would pay off in attracting

industry here. The agreement of sale, it was noted, had the stipulation of upgrading in it and councillors felt this was not being done. They felt there was much room for expansion.

Councillor Helen McNeil suggested that a letter be sent to the Department of Social Services in regard to the situation of hospital beds for the aged. In many cases a home for these patients cannot be found and they have to be kept at the hospital taking up beds needed by more acute and serious ailments.

Parents' Day

Parents Day was held at the Children's Home, Warwick St. Digby on Wednesday when parents of the guest children and community and provincial leaders were welcomed by Mrs. Dorothy Smythe, superintendent and Mrs. Philip Goguen, assistant superintendent. In the picture above left to right seated are His Worship Mayor Patrick Comeau; Mrs. Bradford Barton, Acadiaville, who had worked at the Children's Home for seven years before her recent retirement; Joe Casey M.L.A. and Mrs. Comeau. Standing are Mrs. Goguen and Mrs. Smythe.

Parents and visitors were taken on a tour of the building, visited the school conducted by Mrs. Nancy Lewis, watched the marches and other musical activities carried out to the rhythm set by Miss June Schmidt of Bear River who has been reading and playing music for the children voluntarily for seven years.

Among the guests was Corporal Walley Campbell, Greenwood, who has not missed a special function at the Home for eight years.

Both Mayor Comeau and Mr. Casey spoke to the parents children and staff commending the tremendous work being done by the staff in such a dedicated manner and with apparent devotedness.

An afternoon tea with Mrs. Chester Kaulback, Bear River, who is employed at the Home, pouring was held in the cafeteria.

Project Acadia

Grades 10, 11, and 12 of the Digby Regional High School, under their English teacher, Mrs. Carolyn Brown, carried out an unusual project at the Multi-Purpose Room on Thursday.

At about 4 o'clock p.m., the Acadian Village opened by Joe Casey, M.L.A., in the usual manner of ribbon cutting ceremony and officially declared the event open.

Following the official opening, visitors received articles and saw demonstrations of life in the 1800's. Students were at work sewing clothes of the century, mat hooking, quilting, Please Turn To Page 2

Dedication Service

Rev. Wallace H. Jordan, Pastor, at his desk in the new Pastorate Study, Deep Brook.

A Dedication Service was held on Sunday afternoon, May 25, in the Deep Brook Baptist Church Vestry, for the Pastorate Office and Study of the Deep Brook United Baptist Pastorate. These facilities, consisting of a Study for the Pastor, Rev. Wallace H. Jordan, and a Pastorate Office for clerical work, are situated off the Vestry in the Deep Brook Church and will serve the three Pastorate Churches at Clementsport, Deep Brook and Smith's Cove.

Rev. Jordan opened the service by leading the people in a responsive Call to Worship followed by an Invocation and Lord's prayer and concluding with the singing of the first verse of "To God Be The Glory."

Dick Moore, Chairman of the Pastorate Board of Deacons, in his remarks concerning the Office and Study, told of its conception having been presented at a meeting of the Pastorate Board of Management last Fall and then presented to the Churches at the annual meetings in January. At the February meeting of the Board, plans were formulated and by mid-March work had begun. As he

continued, he mentioned that the idea of such facilities had been thought of even one or two years prior to this time and that the Lord had been behind this venture throughout. The Pastor had already expressed his appreciation of this facility and of how it has helped in his work on the field. Mike Isaacs,

Pastor Jordan called on the Chairman of the Board of Management to make a special presentation at this time. Mr. Isaacs spoke of the many years of service that had been given to the Pastorate by Ray Moore, Jr. former Field Treasurer, and presented him with a desk pen set given in appreciation by the people of the Churches.

In speaking of furnishings for the facilities, Pastor Jordan acknowledged the following memorials: Pastor's desk and chair in memory of Miss Blanche Spurr donated by Miss Grace Spurr; 4 hostess chairs in memory of Eric Adams donated by Neil and Myrtle Adams and family; In memory of Jane Awalt and Robert Mack donated by Aubrey and Jean Feener; In

ENGLISH LANGUAGE NEEDS ANOTHER WORD

The English language needs another word. There just isn't one that will describe some of the vile and rebellious happenings arouse our anger along with our sympathy for both the victim and the malfunctioning of the criminal's make-up, but this latest type of criminal action brought nothing but a flood of tears. There are some sick people in the world. Drastic steps as well as tender care are sometimes necessary to cure physical ailments. What about illness of the mind?

The incident to which we refer and have no desire to relate in any detail happened in Bill Walls' (Miramichi Press) newspaper area. This is Bill's editorial comment "For shame. One of the most ghastly and ghoulish acts ever perpetrated was performed here on the Miramichi with the severance of a human head from a body in a mortuary and the placing of it on a doorstep. Surely there must be some additional law enforcement officers available for an area which has sunk to this all-time low as for someone to do something such as this. It's evident that anyone who would do such a thing has no parents or never did have. The lash is suitable punishment for such a crime. Even if Warren Allmand says not. It's a pretty safe bet that if someone near and dear to Mr. Allmand were to suffer at the hands of a criminal that his views would change. If he's likely to resign if capital punishment is brought in, let him. In the meantime, let's have some means of deterring the sort of people who crawl the streets and roadways of our countryside molesting, now even the dead.

STUDENTS AND TEACHER DESERVE CREDIT

Students of Grades 10, 11, and 12 English Class at the Digby Regional High School and their teacher, Mrs. Carolyn Brown deserve much credit for the way they handled Project: Acadia on Thursday.

We also feel credit should go to the youth and adults who assisted in the performance but we feel two participants deserve special mention. Miss Pamela Graham was an excellent narrator for the Glances of the Life at the time of Father Sigogne. Without having to force in any way, her voice came through as clear as a bell. Her manner of presentation kept audience interest to the very last glimpse.

The other special performer was the leading character, John Rogers playing Father Sigogne. John, actually all the cast, must be complimented on their input in the performance. It was for the most part a serious performance and each took his or her part well in that respect. The playlet was well done and kept audience attention throughout while both students, parents and friends brushed up on a bit of history in such a delightful way. There were humorous bits but no gales of laughter, still we think that those who missed Project Acadia missed something worthwhile; especially in this day and age, it gives one faith in what youth can do and how well they can adapt themselves with a bit of leadership.

There are always the others to be mentioned too, in any performance, the back stage people and all. Without them the performance could not go on. In Project: Acadia as a whole, there must have been an awful lot of hard work and time put into the event. The Acadian Village display itself was worthwhile. Again, we say congratulations.

Hodge Podge

We have decided that there are still some people, even in high places who just do not distinguish between advertising and free publicity by press releases. A press release designed to promote a certain project (a good one too) came to our desk. The release, itself, said that there would be T.V. advertising for the project. Now, did they mean paid advertising? If so, why make fish of one and fowl of the other (Maybe that expression is not relevant to 1975.) Newspapers, too, live by advertising funds.

Our apologies to our good friend Ed. Knowlton for slipping up last week in giving the credit that should have gone to him for his tremendous effort in the plans for Scallop Day. Gee, the editor must be a fantastic worker. It is said that

Letter to the Editor

To the Editor, The Digby Courier and to the residence in Weymouth

I would like to make the fact known that Weymouth Motors Limited has purchased Baseball uniforms for the Bantam Team, now called the Weymouth Astros. Also at recent Nickel Sale to support some 40 or more young ball players in Weymouth, every merchant in town supplied assistance through donations of products from their establishment. It is with sincere appreciation that I thank the merchants of Weymouth.

I would like to thank all the parents that attended, TWO. I'll consent that there is possibility of about 8 having valid excuses for not coming. However, this leaves 30 parents with no concern for their children.

Now, maybe you 30, feel that most towns do this, so why shouldn't Weymouth. Well, in a case such as this, it would be a wonderful thing if Weymouth could be the exception rather than the rule. Your children are nothing without you. If you don't support them in sports, does this mean you don't want them to play? There are a few of us who donate our time, but the rewards

only those who do something make mistakes and if our work is in proportion to our mistakes we could set the world on fire. But, Ed's shoulders are broad and the Scallop Day in Digby gets twice as much publicity because of our omission. We see no reason to worry.

Had a card from Mrs. Glen (Mariorie) Conrad who has moved to Saint John, N.B. We always miss people who move from town but we can't help but feel happy for them when they can adjust favorably to new surroundings. Mrs. Conrad says "I have a dear little place and I love it." She wants the Courier to hurry there as she sure does miss it.

If the profusion of cherry blossoms on near by cherries trees is any indication, we sure should have an ample production of cherries in July. Stay away there, you tent caterpillars.

When does patience run out? Or, maybe we should say "when should patience run out?" A lady had just finished with the ordeal of having her hair curled and set when we walked in the beauty salon. Immediately she began phoning the family car to pick her up. But alas! She lived six miles out of town and their phone was on a party line. One whole hour or more later the lady was still trying to get the line after about 15 tries.

We are not blaming the telephone people but surely there must be some people living and using party lines who have some common respect for their neighbours rights. Also is there no way that the telephone company can spot such an occurrence if the phone unknowingly has been left off a hook for such a length of time. We all do that once in awhile but private lines do not necessarily effect neighbours.

The best laid plans of mice and men. Our Digby princess story last week was filed early with three entries. Monday was a holiday and Tuesday a fourth entry came. We did our best to get this included too and have pictures to accompany all four. Our efforts were in vain. Our apologies to Miss Gower and the Digby Lions. Then, that music teacher in the Bear River picture was not Pauline Lent but was Edna Lent. We won't let out any secrets but that error was not of the editor's nor the printer's. The note to the printer said "Please add to my special town council story". If you were a printer wouldn't you be inclined to think the tourist council story was the one and same as the town council. After all, the Natal Day holiday was important in the town council story so naturally it got headed "Natal Day Declared Holiday". We've come to the conclusion that there was something to be said for getting up before six a.m. on Thursday's to scour the Courier proof sheet before it ever went to bed on the old Goss Web. Even then, we weren't perfect.

OUR HOMETOWN NEWSPAPER

The weekly newspaper is everything from pleasurable reading to informative business matters.

In the way of pleasure it provides us with our local television listings, theatre movies, events at our churches and clubs, classified information and advertising.

People needing professional help, buying and selling or just looking for a good place to eat can simply turn the paper open to the classified and business section to find what they need.

When a citizen has a comment to make whether of praise or fault, the newspaper gives us the means to provide our views to the public.

It gives shut-ins the chance to keep in contact with political and community events.

While our television and

are meaningless when the children have to say "Well my Dad could have come but he mowed the lawn, or "My mother would have come but she had to wash the dishes".

Your children need you, there is no substitute!

radio gives us outside happenings our newspaper keeps us in contact with our own home area.

Also, the newspaper is an inexpensive source of news. With the rising cost of living we can still afford our newspaper. Along with that it is it can easily be obtained. The paper is distributed by mail, stores, newstands and paperboys.

The newspaper keeps a community closer together for without we would have to rely on hearsay.

spinning, weaving, churning butter, using the actual cream and producing a slab of real butter. The rear of the multi-purpose Room was marked by ropes indicating the various rooms of the house, school and community in the 1800s. Outside the school tents were erected to emphasize the life of the Micmac. Some students attended to an outdoor fire while others were busy making brooms and other articles of that period.

At 5:30 p.m., the "Acadian Village" was closed to visitors and the participants relaxed to prepare for the evening performance, when John Rogers played the leading role in Glimpse of Life at the Time of Father Sigogne. Pamela Graham in a clear and pleasing voice was narrator and kept the entire interest of the spectators throughout her narration.

The grades 10, 11, and 12 students had assistance from the junior high school classes and by adults from outside the school. Two young women with the Boston Hats were represented by Anna Ruth Rogers and Regina Tate. Charles Haliburton represented his ancestor, the late Thomas Chandler Haliburton, who had communication with Father Sigogne.

SHELL COMPANY GIVES FINANCIAL ASSISTANCE TO SCALLOP DAY

with Mr. Byron Carson, Area Manager, Shell Canada Ltd., to begin co-operative planning with that company.

Chairmen of the various committees responsible for planning the event got together two days later and drew up a tentative program which will be forwarded to Mr. Carson along with other materials for use in a dye-cut mailer.

Possible Scallop Day events include guided tours through fish plants and possibly a tour through the Canpot herring plant; a bus tour to the herring weir on Shore Road; a band concert; scallop dish features at area restaurants, hotels, and motels; clam and scallop shucking contests; a fish filleting contest; a fish supper; a street dance, sail boat races, a dorey race and a scallop boat sail-past. These events are either presently under consideration or are in the planning stages.

This year's edition of Scallop Day is the first effort in what council members hope will become an annual event, becoming bigger and better each year.

Shell's assistance over and above the \$1,000 grant will be chiefly in the promotional field but it may also help out with prizes and trophies.

Notes From Bird Haven

Well the Orioles were released on May 13th, wearing their silver bracelets, and took off to the highest trees in the yard.

Report of several being seen at Culloden, both south and north ends of town, a pair in the south end having been taking their bath in a lovely pool. No doubt this pair will stay in that vicinity.

This distribution makes me think these lovely birds are becoming more abundant in our province.

Several reports of mocking birds survival through the winter, both in Annapolis and Digby Counties.

A lovely flock of Indigo buntings reported at Bay

View, and anyone seeing these beautiful birds feeding on the ground might think a piece of the sky had fallen.

I have been traveling the lovely woodsy path back of the Pines and the old Shore road about every day and have been well rewarded, all kinds of warblers, thrushes, and other birds. That spot is a real Paradise for birds.

My own yard is not far behind. One morning, I saw Black poll, yellow, myrtle and Audubon Warblers, the latter being very rare. A friend in the south of town saw it as well, this is similar to Myrtle but with yellow throat instead of white, there was no question of identification as it was seen at close range.

Had my annual visit from two cat birds, they stayed for a few days then left. Why, I will never know, real tangles have been left on purpose for them.

The Goldfinches are in full colour and will be seen eating dandelion seeds.

The humming birds are here too. Did you ever find a nest of these mini birds? Their nest is about the size of a golf ball and the eggs no larger than the old fashioned large headed pins.

So long for now, The Bird Lady

Scatter your pink carpets on the ground, Trees, place your loving arms around me, So I may know the essence of your charm. Call me when your blossoms touch the trees, Then, I will be there, as enchantment hold me spellbound in her pale, pink, chiffon gown. Remember...lovely blossoms, Never miss your timing, never miss your cue, Always be there in the Spring, And if I miss your gentle coming In time or years to be, do not weep pink-petal tears.

For memory shall keep you warm and bright forever, in the corners of my heart.

not uncommon in sheep. Rodney has now taken a calf on as a project but hopes to take a lamb on next year. He also plans to accept LeRoy's invitation and visit his farm during the summer vacation.

What 4-H Is Doing

On April 8th a calf meeting was held by the 4-H Dudes at the Comeau home in Brighton. One method of castration was demonstrated and numerous questions were answered. Present were Kevin Amon, Kelly Ryan, and Mark Saunders.

On April 9th, a general meeting was held at the same home. The main subject discussed was the coming 4-H rally on April 19 at the Clare District High School. Those participating in the rally did their speech and demonstrations for the Dudes and in return were told their good points as well as their bad ones. Plans to go to Clare were also discussed.

On April 12, LeRoy Warner worked with Darlene Haight and Rodney Wright, who are caring for the two sheep donated by LeRoy. He showed the proper way to weigh a sheep and gave them interesting information by answering countless questions.

On April 19, thirteen Dudes went to Clare to cheer on the one participating in the competition. The rally got under way at 10:00 a.m. and went until 4:00 p.m. Fun was had by all and the sing songs were especially enjoyed. Some of the Dudes surprised themselves and others around them with

their nice song voices. All participated in the song sessions.

The Dudes are proud to announce that Michelle D'Ambrose came in second with her speech "Part Of My Life". She was presented a 4-H pen and pencil set. She showed poise and gave her speech well. All were proud of her.

Rodney Wright came in third with his demonstration on "How to Mix Lamb Replacer". Rodney was presented a 4-H crest which he proudly wears on his jean jacket.

Darlene Melanson and Kimberley Robicheau

demonstrated how to "Make Frosting Without Icing Sugar" and came in second, each winning a 4-H pen and pencil set. Darlene and Kimberley were present after the rally to give out copies of the receipt to any one wishing one. There was quite an interest in their demonstration.

In the poster competition the Dudes are proud to announce that Michelle D'Ambrose came in second, winning a 4-H Banner and Diana Wagner came in third winning a 4-H crest which she also proudly wears on her jacket.

Needless to say all did well for their first time in such a competition. All the Dudes wish to congratulate them. The Dudes were also happy to see parents at the rally and thanked Valerie D'Ambrose and Thomas Amon for supplying some of the transportation to the rally.

On April 28 a general meeting was held and cook books and stickers were given to all present members. An agenda of various project gatherings was set up. Future summer projects were talked about but

Above are the 4-H DUDES who participated in the 4-H Rally in Clare on April 19. Front, left to right - Rodney Wright, demonstration, 3rd place winning a 4-H Crest, Diana Wagner, poster competition, 3rd place winning a 4-H Crest. Back - Kimberley Robicheau and Darlene Melanson, demonstration, 2nd place, each winning a pen and pencil set, Michelle D'Ambrose, public speaking, 2nd place winning a pen and pencil set and 2nd place in poster demonstration, winning a 4-H banner.

Special services were held in the Freeport Baptist Church, April 29 - May 6, with Rev. Lew D. Farrell, of Newcastle, N.B. as the evangelist. The meetings were well attended and great blessing was experienced by all people who attended night after night and all day Sunday. Over 1,000 people attended the campaign from both Islands and a spirit of revival was much in evidence as people were touched by the power of God's Holy Spirit. There were a number of first time decisions and rededications to the Lord.

The congregation was also blessed through the singing ministry of a group of young people from Chester Basin, N.S. called the 'New Life Singers'. These born again, dedicated young people gave thrilling testimonies of their personal experience of salvation through faith in the Lord Jesus Christ. A school teacher from the Bridgewater area, Charley Richardson, brought messages in song. The combined choirs from Tiverton and Freeport provided special music for

three nights of the campaign.

Preceding these meetings on Saturday and Sunday, April 26th, 27th members were privileged to have with them the 'Deliverance Quartet' from New Minas, NS. On Sunday, as the

Pastor gave the invitation, four people came forward to accept Jesus Christ as their Saviour.

"The Matchmaker"

For the past seven weeks the grade twelve class of D.R.H.S. under the supervision and direction of Hal Theriault, has been working diligently towards the presentation of the farcical dramatic production, "The Matchmaker" by Thornton Wilder.

The play is about a certain old merchant who is very rich; as a matter of fact, so rich that he decides to take a wife. He employs a matchmaker who subsequently becomes involved with two of his clerks, assorted young and lovely ladies, and the headwaiter at an expensive restaurant where this swift force runs headlong into a hilarious climax of complication. After everyone has straightened out romantically, and everyone has his heart's desire, the rich merchant is engaged to his matchmaker. So the shrewd business man has been fooled by his matchmaker and his apprentices in a series of hilarious hide-and-seek scenes. Moviegoers may recognize the plot as that of the musical "Hello Dolly" which was based on "The Matchmaker."

There is also a secondary love story involving a young artist and the merchant's niece. These two, wishing to get married but failing to win the approval of this cratchety, old merchant, decides to elope. However, the matchmaker, being the persuasive type, convinces them not to.

Among the cast of characters which consists of males and females are people such as Horace Vandergelder, to be played by Michael Ross; Mrs. Dolly Levi, by Cathy Banks; Cornelius Hackl, by David Wade; Barnaby Tucker, by Carrol Charlton; and Malachi Slack, by Bobby Wood.

Vandergelder, a very

Manzer acted as com-mentator.

Following the entertainment the regular business meeting for the 'H and S was held. It was decided to again sponsor 4 of the students at Johnson Christian Park this summer.

Elementary teachers are to decide who are to be sent. Twenty five dollars was voted to be sent to the Canadian Arthritis Society from the group.

A committee was named to

strict man of his own world type, finds many surprises in the play. His commanding character is shattered by a series of farcical events. Mrs. Dolly Levi is a woman primarily characterized by her active role of matchmaking. Hackl and Tucker are the two apprentices who, in search of adventure, disobey Vandergelder's orders and in the end break away from Vandergelder's power of command. They are chiefly responsible for much of the farcical adventure. Malachi Slack is Vandergelder's faithful apprentice and servant who sticks with him regardless of the conditions. The other diligent actors in this farcical production are Robert Morgan, playing Ambrose Kemper, Julie MacKintosh as Ermengarde, Michael McCarlie as Joe Scanlon, Marlene McCarlie as Gertrude, Debbie Van-Tassel as Mrs. Molloy, Edna Haynes as Minnie Fay, Stephen Hall as August, Larry Bunker as Rudolph and Richard Amero as the Cabman.

In charge of costume designing are Linda Jane and Cindy Saulnier. Set designer is David Raymond. Stage Manager is Chris Best. Business manager is David Wong. In charge of the make-up crew is Jane Fraser.

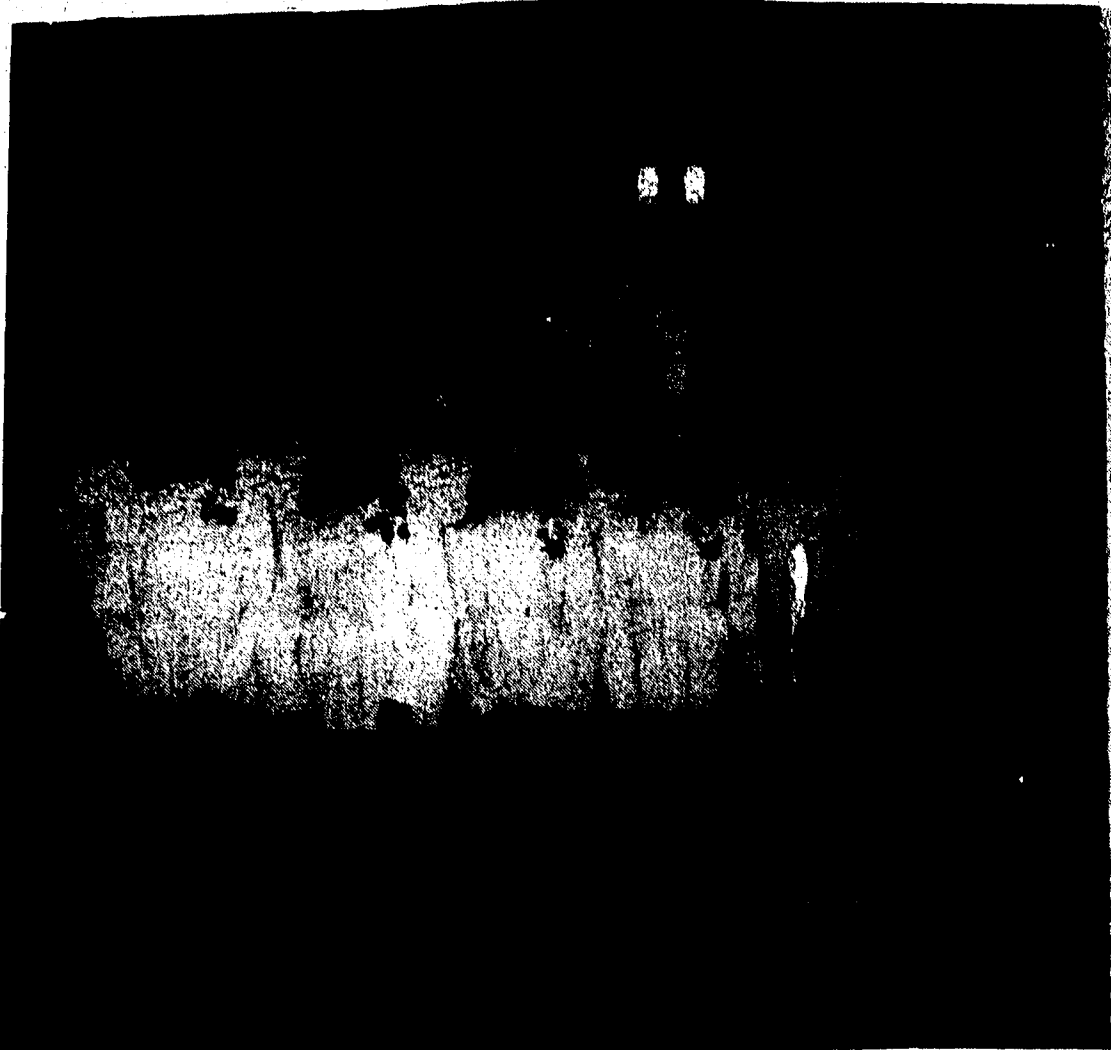

This farce in four acts is planned for production on the 2nd and 3rd of June at 8:00 p.m. and is open to the general public. This is the last week of preparation for this drama group and your support would be greatly appreciated on production nights. Everyone is welcome to attend this play to be staged in the multipurpose room located in the Senior High School.

Sunshine Singers

The Sunshine Singers of the Deep Brook United Baptist Church presented their annual Musical Service on Saturday evening, May 24, in the sanctuary of the Church. Mrs. Paul Ecker, director, was the accompanist on organ and piano. Several selections were accompanied by several of the girls playing ukeleles: Nancy Ecker, Gail Selig, Diana Moore, Lori Moody, Sherri Hall and Shelly Anderson. Lori Moody also used the tamborine in several songs.

This youth choir, composed of teenage girls of the church, attired in powder blue, empire-styled gowns opened their program with the stirring, "I Came to Praise the Lord."

Rev. Wallace H. Jordan, pastor, then led the congregation in singing choruses at this time, and during intervals in the program.

The first group of choral renditions included "Morning Has Broken", "Circuit Rider's Preacher", "He's More Than Just a Swear Word" and "Put Your Hand in the Hand". The inspirational "When You Pray" was sung by Shelly Anderson.

A sextette, including Donna Ditmars, Diana Moore, Marlene Potter, Lori Moody, Nancy Ecker and Gail Selig opened the second portion with the singing of "The Way That He Loves". Choral offerings were "I Believe In a Hill Called

Mount Calvary", "Just a Closer Walk with Thee" and "Lord of the Dance". "I Love Thee Me" was sung by Lori Moody and Gail Selig.

Marlene Potter's solo, "Lonely Voices," commenced the third section of the service followed by the choir singing "Why Me." The sextette sang "I Could Never Outlove the Lord." Concluding choral pieces for this portion were "Do You Know Who Jesus Is?" and "Freely, Freely," followed by an inspirational reading by Donna Ditmars.

Prior to the receiving of an offering, Pastor Jordan expressed the appreciation of all for the music to the girls and to Mrs. Ecker.

The Sunshine Singers brought the service to a close with the singing of the song of hope, "The King Is Coming", as they filed to the rear of the Church where they met the people who had come to share in their ministry of music.

A social hour was enjoyed by all in the Christian Education Hall, sponsored by the Dorcas Society of the Church.

Mayor Resigns - Deputy Walks Out

Taking councillors and visitors by surprise Mayor Patrick Comeau placed his resignation before Council at the regular monthly meeting held at the Town Hall. Regrettably the councillors accepted the resignation.

When the man, who entered the Council Chamber as mayor, proceeded to vacate the chair and take his departure, the deputy mayor, Philip Robertson, moved into the chair. Like a bombshell, the deputy asked council to accept his resignation as of Monday's meeting and he would have his formal written resignation in the hands of the town clerk the following day. The deputy, within the space of minutes followed Comeau through the Chamber and corridors to a world outside the Digby Town Hall doors.

As the town council began on Monday evening Deputy Mayor Philip Robertson took the chair in the absence of Mayor Comeau who had been attending to the duties of his mayorship at CFB Cornwallis where Queen Annapolis and the royal party were being entertained. Several items of

business and reports were read and adopted following the mayor's arrival and taking over leadership of the business of the evening. It was then Town Clerk Glen Pitman advised that a report was there from the dog catcher. Councillor Eileen Chipman wanted the report read for the benefit of

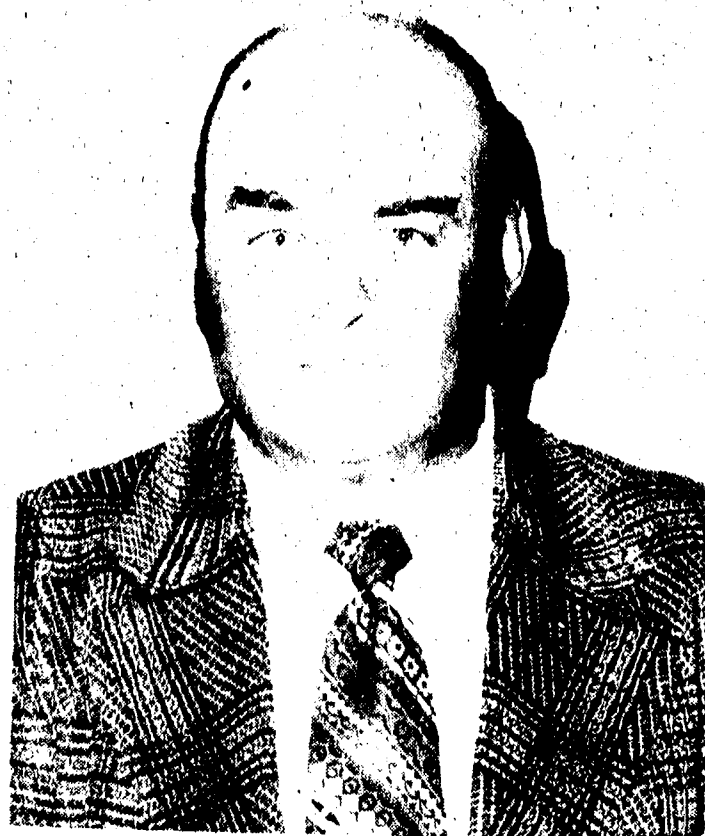

councillors and the press. A motion duly moved and seconded decided that copies of the report should be made and supplied to councillors and the press.

It was at this point that His Worship read a paper that he had prepared to place before Council. The paper advised Council he had come to the

place where he was obliged to take a stand to hold the dignity which his office was supposed to have and to follow a suitable code of ethics. In his brief to Council, Mayor Comeau pointed out that his office is being subjected to insolence, insubordination and degradation and he will not consider lowering his code of ethics. He felt he could not tolerate such behaviour as has been used in council procedure which detains opportunity to accomplish more important matters.

Mr. Comeau retained one paragraph from his brief to use only if he could not get the co-operation he was requesting. He advised that this was his last try at spelling out the terms of support he needed from Council. It was moved by Philip Robertson and seconded by Councillor William Reid and carried that the councillors support the mayor in his efforts.

However, Deputy Mayor Robertson wanted a record of the aye and nay votes. Four voted in favor of the

motion. Councillor Reginald Hazelton said he did not understand the issue so he did not vote. With further explanation he agreed to the motion. Councillor Eileen Chipman, when asked if she voted in

favor or against the motion, replied that she will support anything for the betterment of the town. Councillor Chipman again repeated her statement when questioned on the aye or nay vote. Mayor Comeau said he

finds it an intolerable situation and in view of the situation in which he finds himself with the stress of a divided Council, he concluded the interest of the town could better be served by Council accepting his resignation. On motion of Councillor Gordon Ellis, seconded by Councillor Hazelton the resignation was accepted with regret. Under the circumstances, Deputy Mayor Robertson said he refused to continue and work under such conditions.

The remaining councillors were Gordon Ellis, William Reid, Guy Van Tassel, Eileen Chipman and Reginald Hazelton. Immediately the Town Clerk and the solicitor began looking up rules and by-laws on procedure in cases such as that of the present Town Council.

By regular motion Councillor Reid was elected chairman for the remainder of the evening.

Councillor Gordon Ellis suggested that the meeting adjourn but Councillor Guy

PLENTY TIME AND GOOD HEALTH

The second mayor of Digby has resigned within a year, actually after a few months. It was with regret that Council accepted the resignation of Patrick Comeau who had served Digby as mayor for the last few months following the resignation of Willard Kinney. Mr. Kinney could not find sufficient time to attend the numerous meetings and keep abreast of modern methods and ideas for running a town. He had to earn a living and his employment often took him miles away in wooded areas in survey work. Patrick Comeau, on the other hand, is retired and time is not the chief factor in his decision to resign. Mr. Comeau's health just will not stand the stress and strain which goes today with being a top official in business, in government or other walks of life. Actually, it would seem that a combination of plenty time and good health are two prerequisites for an office such as mayor. Some, maybe, having more stress and strain than others.

Mr. Comeau had the makings of a good mayor for Digby. While he had not had time to familiarize himself with all phases of town operation, he certainly carried out the office of mayor with dignity and sincerity which made Digby town residents proud of him. In completion of one year our mayor would have had his feet solid on the ground and mayorship would have become less strenuous for Mr. Comeau. No one could help but admire his performance when Queen Annapolis visited Digby on Monday.

In any case being a mayor of a town in this age is a far cry from ten to twenty years back. People are demanding more, people want all the comforts of life but are not always willing to meet the tax load to support their demands. Where towns dealt in thousands some years ago, the million figure is more likely to be batted about in decisions for the present and future years of our small towns.

For all the effort put into the running of a town, county or organization, little appreciation ever comes in the life of mayors and councillors. Complaints place high in response to their efforts in many cases. So we might add that besides plenty time and good health, a thick skin has its place for those running a town. The rough and tumble can more readily take it.

Name the subjects one by one which have to be dealt with in the Council officer. You will find they are many and varied. They might be housing, school, sewers, water, police, fire departments, licenses, permits, special days, visitors and hundreds of things which must be coped with by town fathers. To cope with them is to concentrate and meditate on the issues. This can be more favourably done with a mind not beset with disturbances and irritations. Clear thinking is necessary.

Yes, civic business has become big business in the 1970's. It takes time, good health, clear thinking, co-operation and the support of others to successfully do those things so necessary for the good of the people of the town or county.

We regret that Mayor Patrick Comeau found it necessary to vacate the mayor's chair but understanding goes with the regrets. At this point it is anybody's guess as to the future of Digby Town Council.

Senior Choir and also by the church youth group, Explorers.

Following the morning service, which is also expected to be attended by members of the Sandy Cove congregation, a social hour will be spent in the church hall where a birthday cake will be cut and served.

National celebrations for the Canada wide church will include a CBC telecast from the opera hall of the National Arts Centre in Ottawa on the

coming Sunday, June 8. The Postmaster General on May 30 issued a postage stamp featuring the Rev. Dr. Samuel Dwight Chown, General Superintendent of the Methodist Church, who presided at the inaugural service in Toronto June 10, 1925 and pronounced the three churches as one. A banner competition had been held for children and adults in April of this year. Included in the national celebration is an In-

ternational youth Exchange which will see Canadian Young people visit Third World Countries.

At its beginning in 1925, the United Church of Canada had 8000 congregations with 600,000 communicants members and 3800 clergy. The church has grown tremendously in the 50 years of existence. The people are active in all phases of Canadian life and has played an important role in the development of the country. It is concerned with providing ministry for all Canadian people regardless of race, color, condition or class, who are not being ministered to by another church. It carries on work in 30 different languages and each Sunday, services are held in 20 tongues.

The United Church of Canada abroad co-operates with national, free or United Churches. In Japan the church is called the "Kyodan" on the United Church in Japan. In Angola Missionaries serve under the "United Church of Christ." Congregationalists and others make up the United Church of Zambia. In Southern India, the Church of South India includes the Anglicans.

Since 1943 the Anglican and United churches in Canada have been discussing a union of the two denominations. A Committee on Union and Joint Mission has been set up for study, consisting of members from the Anglican church, the United Church of Canada and the Church of Christ's Disciples.

Digby Cobras

Beat Seniors

10-9

Baseball action last week on the Digby Diamond saw Digby's youth team, the Cobras, beat an ageing team of senior All-Stars 10-9. Mitchell Beliveau was the winning pitcher for the young Cobras while Danny Doucette, despite pitching a strong game, took the loss.

Most of the Cobras' runs were of the unearned variety as the Seniors displayed remarkable consistency in batting ground balls and dropping flyballs. Doucette let in only three earned runs.

The game was decided in the final inning with the Cobras at bat. It was the bottom of the seventh and the Seniors were leading 9-7. But a couple of hits by Paul Turnbull and Mitchell Ryan brought Ricky Wilson to the plate with one man out. He singled to right field to score both runners and wrap up the game.

Other pitchers for the Cobras were Paul Doucette and Charles McCarlie. Doucette went the distance for the Seniors. Robbie Morgan lead the Cobras at the plate with three hits while Lance Woolaver went three for four in turning in a superlative batting display.

Robert MacNutt in right field, Dougie VanTassel behind the plate, and Bobbie Vidito at third were the

steadiest of the Senior fielders, while Ricky Wilson and Kelly MacKintosh, in stepping up from the Bantam ranks, showed poise.

The field is much improved from the beginning of the year, but still leaves much to be desired. In comparison with Weymouth's or Yarmouth's it is not much of a playing surface. Still it is good to see hardball being played once again in Digby. It has been a few years since the old Ravens operated in the ballpark behind the Forum. Older citizens will recall the bleachers and stands and the senior games that were once played there between the Ravens and the Weymouth Pontiacs. Perhaps if the Cobras keep an interest in the game and develop their skills the Ravens may be revived in a few years.

MacLeod Rogers was convener of the event.

The rooms of the church hall were converted into kitchen, parlor, bedroom and child's room of the 1800's. Sofas, beds, bureaux, tables and many other pieces of 1800 style furniture were loaned to the sponsors by people of the area.

Besides the furnished rooms tables were set up containing antique utensils and items for gardens, homes and practically from every walk of life. Postcards, pictures and displays revealed the shipping life, the social activities and general life of Digby communities. One of the most popular exhibits was a carriage in which it was said that a former mayor, Willard Kennedy had been the occupant as a child.

Miss Louise Daley and Mrs. Richard Denton presided over a tea table where coffee was served along with cookies of grandma's day. Each room and table had its own member of the Society to explain the items and answer specific questions. The show when concluded was found to have attracted many visitors with Saturday evening supplying scarcely standing room.

Festival Begins

And Ends In Digby

The royal tour in Digby was taken to the Branch 20 Digby Canadian Legion Hall being escorted by His Worship Mayor Comeau who extended a welcome to the Queen and her princesses, to guests and people of the town who came to the ceremonies. He particularly mentioned the charm of youth and the many gifts bestowed on them and referred to the Psalm "The Lord Is My Shepherd. Lloyd Hill, president of the Festival spoke glowingly of the co-operation from Mayor Comeau, the Digby Princess, Miss Gail Buckler.

The Queen and princesses were introduced by their chaperone Mrs. Effie Scott, who arranged the accommodation and functions relating to the princess and advised where necessary. Both the Queen and the Digby Princess in their message spoke of the wonderful experience they had in being chosen the representative from their different towns and extended sincere thanks to all who made it possible.

Mrs. Comeau presented gifts to Queen Annapolis and the princesses and Kathy Denton, daughter of Mr. and Mrs. Brian Denton, Digby, presented the Queen with a bouquet of red roses.

ASSISTANT NURSES AND ORDERLY GRADUATES

of Digby extended congratulations to the aides who graduated. He said that all reports about Tideview are complimentary and no complaints so it must be doing a good job.

Mrs. Eleanor Rice, supervisor of nurses, congratulated the graduating class and remarked on the effort and study and developed skills which went into their work. The Tideview Terrace, Mrs. Rice said, has to take the place of the family for some of the guests and the building to some is the only home they have. The patients look for love and affection which goes to make up a home. She said the work is very rewarding and gives much satisfaction. To the graduates Mrs. Rice said "Do not say only an aide" for aides are important to the happiness and care of the patients and the graduates should be proud of their assistance in that care.

Mrs. Dianne Banks, on behalf of the nursing staff extended best wishes to the graduates and complimented Mrs. Rice on her efficiency.

The presentation of certificates was made by Warden Wilfred Swift and pins were presented by Mrs. Rice.

Mr. Stonehouse introduced the graduates.

Valedictorian was Mrs. Celesta Hall, Mrs. Hall spoke of the excellent opportunity to increase knowledge and become better qualified to give the necessary care care.

Presentations were made to Mrs. Ethel Wade and Rodney Long and Mrs. Elaine Pearce presented Mrs. Rice with a bouquet of red roses.

Following the recession the anniversary cake was cut by Mrs. Viola Vickery when a social hour began. Mrs. Russell Stonehouse and Mrs. Pearce presided at the tea table.

MAYOR RESIGNS DEPUTY WALKS OUT

Van Tassell felt there were several items of business which needed immediate attention. The subject of the ratepayers meeting also came up under the present circumstances.

By regular motion the Digby Fire Chief through Councillor Van Tassell was given authority to send two firemen to a workshop in Halifax, June 19 and 20.

It was also moved and approved that the clerk issue tenders on the sale of a fire truck.

Permission was given in the early part of the meeting to Glen Rhyno to have the house he is building on King St. opposite the A.L. Robinson home to be in front line with other homes on the street rather than the stated 30 ft. The lot is 52 X 120. Similarly, Anthony Saulnier was given permission to erect a commercial building at the corner of King and Warwick St. where the old blacksmith shop used to be.

The RCMP report was presented by Corporal Garner. There were twelve convictions under the motor vehicle Act, four under Criminal Code. Sixty complaints were made and sixty investigated. There were seven fires, two businesses unlocked, eleven liquor cases, two articles reported lost, three returned, 1 bicycle stolen and recovered. Other offences came under thefts, obstruction of the peace, property damage, thirteen property damages, one

assault, one trespass and eleven under age drinking cases. Fines collected for the municipal level \$330 and provincial \$1000.

Carl Niemeyer, Rossway, Digby town building inspector presented an excellent report for which the council expressed great appreciation. Details of report will follow in another column.

Dissent arose in the early part of the meeting when minutes of a previous meeting were read, concerning authority given to the mayor to attend functions in the name of the town as he saw fit. Councillor Chipman said that she had not been in favor of a blanket coverage and requested that this be made known in the minutes. Mrs. Chipman made a motion to that effect which was defeated by lack of a seconder. The deputy mayor was presiding at the time of the dissent as the mayor was representing the town at CFB Cornwallis when they entertained the Blossom Festival party.

The chairmen and councillors decided before adjournment to call a Town Council meeting on Thursday at seven p.m. when a date for an election will be set.

New Horizons Holds Birthday Party

The May Birthday Party at the New Horizon Centre, Digby was well attended (approx. 50) on Thursday afternoon last (birthday party last Thursday of every month).

Games were enjoyed during the afternoon before the refreshments of cake and ice cream were served at 3:30 p.m. There were eight special birthday participants whose birthdays occurred during the month of May. These were seated at a special table with each having an individual miniature birthday cake, complete with lighted candle. A vase of Spring flowers centered the table. After their names were read everyone joined in singing Happy Birthday with Bess Hayden at the piano.

A "white elephant" article was again donated by Mrs. Emily Abbott and won by John Swift.

The New Horizon Club regrets very much the departure from Digby of two of their valued members - Mr. and Mrs. Joe Stedman who have moved to Sydney. Best wishes follow them from their Digby New Horizon friends.

Thoughts On Your Mind

(Maureen Nowlan)

Many people have asked me what mental health is and I must say that in our world, it is usually much easier to say what health is not, rather than what it is. We can see a "sick" person easier than we can see a "healthy" person; we can identify a problem but its not so easy to see where a strength lies.

Mental health is "the potential of a person to solve his problems in a reality based way within the framework of his tradition and culture. For us this means if we can cope with problems associated with day to day living in a way with which ourselves, our

family, friends, employers etc. are satisfied, we are mentally healthy. If everyone is content but we are not, or another group is discontent and it causes us to experience stress or tension, mental health is not present.

I must add, its all a question of numbers of times and importance of them to us. We all have our ups and downs; how much they affect us is up to us and what we are. One doesn't pass from health to illness in one day, nor vice versa!

This article is one in a series, talking about people and mental health.

A Thought Starter

LIFE'S BIGGEST WORD

There is one word which could solve all the ills of the world. It concerns a spine-tling experience which ties people together.

Think of a home, say your home. Whether you have a vast estate or a one room apartment, your home is as barren as a museum unless love is there. A family may have a checking account that never runs dry, a fleet of automobile and a high place in society, but it all adds up to nothing unless love is present.

We cannot love people until we accept them and understand them.

Nations are busy building barriers around themselves, and spending themselves into bankruptcy, in the name of defence. This is because they are afraid, and fear is the absence of love.

These are days of world-wide emergency calling for drastic measures of reconciliation. Instead, the nations have propaganda machines teaching distrust, envy and hate. This is a calamitous sin and may end up in the judgement of God on all of us.

Here are some great words, "God so loved the world". It is when Nations and individuals forget God and cast out His love, and when selfishness takes over that the thunder of war falls.

Sometimes animals lock horns over their problems, but man has a better way. Pray for the world, that love might be dominant.

ONE IDEA ON MUCH TALKED ABOUT FREIGHT RATES

Formation of an Atlantic provinces transport department capable of "fighting for the best deals for this area" was suggested here today by J.W.G. Macdougall, executive vice-president of Canadian National.

Mr. Macdougall, guest speaker at the annual meeting of the Industrial Cape Breton Board of Trade here, said that there is real need for a "better transportation or physical distribution break" for Atlantic Canada, but, he said, the way to improve the situation was to work with carriers and governments to improve the industrial development climate and to develop sound "strategies and schemes" to up-grade the overall transportation system. This was a more sensible approach, he said, than reliance on "negative things" such as freight rate freezes and other restrictive measures that tended to dry up the cash flow of railways, truckers and other carriers and to inhibit investment in modern transportation

facilities.

Mr. Macdougall said that a joint Atlantic provinces transport department could expand and further develop the work of the present Atlantic Provinces Transportation Commission against the background of a new and improved climate of co-operation between Atlantic Canada and Ottawa which was begun by the Council of Maritime Premiers.

Referring to the Maritime Freight Rates Act, he said that the idea of legislation that would help industry in Nova Scotia overcome the problem of high transportation costs, due to long distance from markets, was "basically sound."

However, he said, "the present rules are out of date."

He said that a recent study of the MFRA showed that \$30 million was being paid annually to carriers, including truckers. But about \$15 million was being paid for movements between two maritime points and in these instances "in practically no

case did the cost of transportation exceed two to five per cent of the selling price."

In other words this traffic did not really need a subsidy to reach its market and the money might better have been "used selectively to support industry that really needs it."

Mr. Macdougall added: "We have been trying to manipulate freight rates for 50 years, hoping for a magic elixir to cure our problems, but with little result. So, I suggest we take our eye off trying to get rate adjustments upon which to build our industry and look to the creation of an industrial development strategy based on other ideas than cheap freight rates. We can't hold back the upward movement of transportation charges needed to preserve adequate cash flow so let's focus our inventive minds on new ways to make our industry prosper and learn to use the assistance we have such as MFRA in a more direct and positive way."

UNITED CHURCH 50th ANNIVERSARY TO BE TELEVISED

"Make a joyful noise" is the title of a special one-hour program to be televised live on the CBC network Sunday, June 8th from 4:00 to 5:00 p.m. EDT.

The program is being co-produced by the CBC and The United Church of Canada to mark the church's fiftieth anniversary. (June 10, 1925 was the actual date when the union between Methodists, Presbyterians, Congregationalists and Local Unions from western Canada was consummated at the Mutual Street Arena in Toronto.)

Described as "a concert of music and laughter" the telecast from The Opera, National Arts Centre in Ottawa, will feature an all-Canadian cast hosted by Don Harron, who also wrote the script. Tommy Ambrose and Catherine McKinnon will be the featured soloists supported by the Celebration Choir and Doug Riley and the Band. Theatre Five of Kingston will offer dramatic vignettes.

The program is being directed by Bill Davis who has just won his second Emmy Award as a director of television variety specials. Tim Bentley is producer for the CBC. Rev. Des McCalmont executive producer for the United Church and Sandy Webster producer. Bill Zaharuk was the designer.

The Governor-General and Madame Jules Leger will attend as will the Moderator of The United Church of Canada, the Right Reverend Wilbur L. Howard. In the pre-telecast period, a commemorative stamp album will be presented to the Moderator by the Honourable Bryce S. Mackasey, Postmaster-General. The stamps in the

album are of the Rev. Dwight S. Chown, a chief architect of union in 1925.

The French fact in the United Church is being accented by the use of French hymns in the "warm-up", a French hymn being sung by Catherine McKinnon, and the Moderator being introduced by the Rev. Guy Deschamps, pastor of L'Eglise Saint-Marc of Ottawa.

Rev. Burn Purdon, bilingual song leader is being flown to Ottawa by private plane from a ten-congregation celebration at Owl's Head Mountain Ski Lodge, near Mansonville, Que. The plane is being provided by Albert Korman, a Mansonville business man.

It is expected that United Church members in the Ottawa Valley area and Montreal will take up most of the 2,000 seats in the National Arts Centre but all parts of the country will be represented either by individuals or congregational groups.

Please note the following telecast times: CBC will originate the program live to the full network at 4:00 p.m. EDT. Hence, Newfoundland will see it from 5:30 to 6:30; the Maritimes 5:00-6:00; Quebec and Ontario from 4:00 - 5:00; Manitoba, Saskatchewan, Alberta, B.C., Yukon and N.W.T. also from 4:00 - 5:00 on a videotaped - delayed.

Women Hear Of Conference

The Annie B. Croscup Unit of the Bear River U.C.W. met at the United Church Manse on Thursday afternoon with five members present.

Devotion with Mrs. Hall, Mrs. Lantz and Mrs. Jack,

taking part.

Following the business, roll call, etc. Mrs. Hall gave an interesting talk on the recent Conference meetings at Sackville, N.B.

Refreshments were served by the hostess.

MARIJUANA

(Grass, Pot, Weed)

What is it?

It is the dried leaves and flowers of the cannabis or hemp plant.

How is it used?

These dried leaves may be mixed with food or beverage but usually are smoked in the form of a cigarette or in a pipe.

What drug is in Marijuana?

A drug called tetra hydro canna binol or THC for short, that has effects on the body and mind.

What effects?

Well THC causes a high very similar to mild alcohol intoxication. People who use it report feeling relaxed and better able to cope with social situations. They can meet and talk more freely

and engage in laughter and silly behavior. If that's all it does, why has it been made

an illegal drug?

That's what it will do for some people. Others may become violent and aggressive. It all depends on the person. It depends on his mood and the situation he or she is in at the time. It really boils down to the fact that THC is a poisonous substance that we really don't know what effect it will have until you try it. No one can tell you before hand if

you will feel relaxed and happy or whether you will end up in the emergency ward of a hospital being calmed down by a psychiatrist. Believe it or not, some people are in Psychiatric hospitals today because they took the gamble and lost.

Is Marijuana addictive?

It depends on what you mean by addictive. If you know anyone who can't function without a few puffs or takes you better believe They are Addicted! It's not the same kind of addiction you find in Heroin use - Physical addiction but it's another form called Psychological Addiction.

What is Psychological Addiction?

It's not well understood yet, but it basically means that you just can't get along without it. If you find yourself associating only with people who use THC and your friends are constantly remarking that "you're just not the same - you've lost your motivation", these are some of the signs of ad-

Blossom Time In The Valley

Spring shower's dampened the floats but only served to raise the spirits of the Annapolis Valley and its visitors as the 43rd Apple Blossom Festival provided a full measure of concerts, parades, dances, sports events and celebrations over the five day weekend.

The weatherman produced warm, sunny temperatures for the proclamation and Dan D. Apple visits. The ball game and fireworks, and the reception, concert and ball on Thursday and Friday, then threw a rainy challenge at the Valley for the parades and Ecumenical service on Saturday and Sunday, before accepting defeat and returning to sunny skies in time for Monday's festival tour from Cambridge to Digby.

On Thursday evening the festival softball game was held at Memorial Park in Kentville between the well named CJCH No-Stars and the Valley Apple Blossoms. Included in the No-Stars lineup were such well know personalities as Leo McIsaac, Jim Nunn, Dick Pratt and softball star Denny Clyke. Toiling for the Blossoms were such personalities as Lloyd K. Hill, Glenn Ellis, Dr. Gerry Sheehy, Skinny Minnie Phinney and Jim Perry. The base umpires were Pat Nowlan, John Buchanan and Harry How...

The home plate ump was Eddie Shack who was a superb show stopper. At one stage of the game Shack was given a police escort off the field complete with handcuffs, but he shortly returned.

Before the game began, His Worship Skinny Minnie received the official proclamation from Dan D. Apple. After the game the large crowd estimated at around 2000 witnessed a brilliant fireworks display. The final score, in case anyone's interested was 8-4 for the locals.

Kathy Welch, 19, Princess Kingston was chosen Queen Annapolis 43rd at the Apple Blossom concert held at U Hall in Wolfville on Friday evening. Cindy Giffen, 17, Princess Middleton was chosen Lady-in-waiting. Queen Catherine is the daughter of Mr. and Mrs. Ronald Welch and is a life long resident of Tremont. She has completed her first year of studies at Acadia University and, following graduation plans to teach elementary students.

The judges who chose the Queen and her lady-in-waiting were Sydney Mayor, Earle Turbrett and Mrs. Turbrett and Mrs. Jack Hawkins. About 1000 people attended the festival concert emceed by television personality Jim Perry. The Queen was officially crowned at ceremonies held at Memorial Park, Kentville, following the Grand Street Parade. Officiating in the color and pageantry of the Coronation Ceremony were Dr. J.M.R. Beveridge, President of Acadia University, Dr. K.G. Sullivan of Kentville and the Hon. Mitchell Sharp, President of the Privy Council.

One of the innovations for the 43rd festival was an eight member brass group from the KCA band who sounded a fanfare and played "Land of Hope" during each of the weekend appearances by the Queen and her Princesses. Members of the group were trumpeters Kevin Perkins, Mark Roberts, Bruce Phinney, Alan Pulsifer, and trombonists Jane North, Mark Hines, Glen Bishop and Robert MacDonald.

The rain held off for the Saturday morning Junior Parade and several thousand spectators lined the route as the small fry displayed their floats, mini dune buggies, pets and gay costumes in a large number of entries.

The parade was led by the Calais, Maine High School Band. The Apple Dandy Vendor, a large and colorful entry by the Edward MacMillan children of New Minas, won the

grand prize. The comic section was won by "Two Cats In A Hat" (Karen Burgher and Karen Pottie of Charles Street, near Kentville; while the best pets' entry was "The Country Cousins" (Clarke and Longley children of Berwick, R.R. 1); The top historic entry was "Glooscap - Land of the Rising Sun" (Debbie and Melanie Pulsifer) Kentville; and most original was "The Children from Overlook Road, Kentville, and It's Heritage", (entered by Darlene Cox).

Honourable mention went to "Green Eggs and Ham" (Natalie Mayhew and Debbie Burgher, Charles Street); St. Bernard pulling a gypsy wagon (Wayne Pye, Eric Keddy and Beth Misner, North Alton); "Home Sweet Home" (Leslie Campbell, Kentville); "Dan D's Four Seasons" (Paul Pettigrew, Kentville).

The skies darkened and the showers began as an estimated 25-30,000 people gathered to view a record 110 entries in the Grand Street Parade from New Minas to Memorial Park in Kentville.

Festival President Lloyd K. Hill, casting an apprehensive eye skyward on numerous occasions, called for all available umbrellas, and spread the word "The Parade Must Go On".

The crowds scurried under trees and umbrellas, into cars and dugouts, or just stood in their shirtsleeves in the rain to watch and cheer the spectacle of Princess, community, service clubs and commercial floats, bands, majorettes, horses and foot units.

Host Mayor R.W. Phinney used several rolls of paper towels to keep the chairs reasonably dry for the festival party, as a cheerful emcee Joan Kennedy quipped about the

"running mascara", and smiling Princesses waved at the sea of umbrellas on the grandstand.

The Bengal Lancers escorted Queen Annapolis in Victorian Landau to her coronation on the stage at Memorial Park, as Dan D. Apple handed "Thanks for Participating" buttons to the crowds along the route.

The Sam Slick Princess float from Windsor was judged the most outstanding Princess float in the parade and received the annual trophy and \$150.00. The most artistic Princess float was "The Bee" from Wolfville. Second and third prizes in the artistic group went to "Grand Pre" entered by Kentville and the "Trotting Horse" from Bridgetown. The most original Princess float was "Valley Railway" of Hantsport. Second and third places were awarded to "Cooper Shop" of Port Williams and the C.F.B. Cornwallis Princess Float.

The Kentville Jaycees "Locomotive" won the service club category. Shields were awarded for "OLDEST EVENT" to CFR Cornwallis entry, Kingston's "Habitation" and Annapolis Royal's "Order of Good Cheer"..... "COMMERCIAL" - to Nova Scotia Power Corporation, Maritime Tel and Tel, and Bedford Cement. "COMIC" - to the Shriners Clowns and mini cars, the Miller Dune Buggy, and A & W Root Bear. Special Shields were awarded to the Waterville Hospital entry, Avonport's Masonry Heritage, the Kentville Retail Merchants entry, the Boy Scouts, Heart of the Valley, Kings Regional Vocational School, the Tuna Festival entry, Legion Branch Number 69, and Evangeline and Gabriel's Wishing Well.

The Town of Kentville awarded a prize for the best parade route canteen to the Wolfville Children's Centre theme of "Children are our Heritage". Honourable Mention went to the Flower Cart's "Barrelmaker" and the Port William Boy Scouts.

The Saturday afternoon program came to a close with a demonstration by the Junior Bengal Lancers, the Calais Marching Band and the Waterville Airport Skydivers.

Beginning at 2 pm on Sunday, the annual Ecumenical Service was conducted at Grand Pre Park by Father D'Entremont of Berwick. The Queen and Princesses were in attendance and special music was provided by the Acadian Choir, the Evangeline Choir, the KCA Band and the Windsor Regional High Band.

The Honourable Mitchell Sharp, in his address, paid tribute to the French settlers who founded Grand Pre 300 years ago. Among other topics, he cited their love of the land and their belief in the agricultural potential of the lands around Grand Pre. Mr. Sharp also paid tribute to some of the men sent to Ottawa from the Valley, notably the late Sir Robert Borden, former Prime Minister, the Hon. J.L. Illesley, and the Hon. George Nowlan. Mr. Sharp lauded the diversity of Canada in terms of its multicultural makeup. He said there wasn't a country that he would rather have a part of governing than Canada.

Father Leger Comeau of Ste. Anne's College told the Grand Pre audience that many people tried to use religion to justify intolerance such as anti-black sentiments. Father Comeau called for more tolerance among people.

Festival President Lloyd K. Hill presented a gift to the Hon. Mr. Sharp which was a large volume of Nova Scotia names and places.

A variety of sporting events captured the attention of sports enthusiasts during the weekend.

At the Tri-Breed Horse Show in Windsor, early results saw High Tana, owned and shown by Alan Robinson of Aylesford, win the Yearling Colts Class. The year-old Filly Class was won by Miss High Cloud, owned and shown by Randy Hiltz of Aylesford.

A sudden death bowl off was needed to break the tie in the Mixed Candlepin Bowling Tournament. G and M Farms won the tournament over second place Valley View and third place Evangeline Mobile Home.

Bob Wilson and Dwight Scott of Halifax and Moncton won the Regional Class in the Valley-wide Car Rally with zero penalty points. First place in the Novice Class was won by Truman and Kennedy while the two top Valley crews were Dan O'Rourke and Jack Trevors, and Mike Bishop and Peter Carter.

Eighteen year old Bernie Starchuk of Ashburn captured the Blossom Golf Tourney with a three over par record.

The clouds rolled away and sunny skies greeted Queen Annapolis and the Princess as they toured westward to Digby on Monday to complete a whirlwind of festivities in the 43rd Apple Blossom Festival.

Alcohol And Drugs And What They Do

Dr. Kareemi

The Drugs used by people without medical advice and under medical advice is Drug Interest. It involves four levels: manufacturer, seller, consumers, the drug.

We have an epidemic of such interest. Epidemic would mean rapid spread or development of a pattern of a

Cub's Bottle Drive Successful

Cub Camp will soon become a reality for twenty-three Digby area boys this summer, thanks to the successful bottle drive held recently. The sum of \$20.88 was raised, as a result of the generosity of the people who answered the Cub's call.

It was amazing to see the vitality and the enthusiasm with which the young boys conducted the bottle drive, and if their feet were tired towards the end, their spirits were high, due to the tremendous response.

The 4th Digby Cub Pack extended a sincere thank you to everyone who made the yearly fund-raising event such a success. Special thanks were also extended to Terry O'Neil, Roland Theriault, Barry Reid, Scott and Grace Datsun, and Weymouth Motors for the use of their vehicles.

problem. This tends to be common and prevalent and requires awareness of the pattern to be recognized. This is essentially based on morbidity of the psyche. We can use the analogy of a: reservoir of disease producing bacteria, vector which carries them to the host who ultimately gets sick. The individual who gets involved at all "levels," of the epidemics have pressures within them and without. Whole socio-cultural scene is set for them to walk into it, and they become vulnerable to the process.

There are two types of drugs, the stimulants and the depressants, alcohol and opioids respectively represent the two classes. Under the effect of stimulants the shy, introvert

"individual" feels bold, grandiose, has inflated sense of worth and actively confronts threatening environments. They exhibit promiscuity. They use the drug to ward off feelings of helplessness, and unrealized self-expectations. They are hetero-sexual. On opioids and the drugs like that "individual" is less conspicuous of socio-cultural scene, is overwhelmed by low self-esteem fights for survival of the self, withdraws from society and expresses hostility in a passive manner. They tend to be homo-sexual.

Medical doctors have used good, reliable, time honoured drugs and are qualified experts to prescribe them. Under recent pressures they are under prescribing them,

therefore, leading to abuse by those who decide to experiment with them, Laxity, bad judgement, poor treatment practices and pressures from patients lead them to over subscribe. If a brain damaged person is maladjusted, the psychostimulant can help him integrate with his environment. Withholding use of such substance for that person is almost criminal if it goes on for years. Use of the same substance by self-prescription can lead an individual into psychotic states. Most of the time morbid-psyche gets aggravated by wrong choice of the drug, will it be the up-drug or down-drug. These individuals may need treatment with some drugs and supporting environment. Must Train Canadians

Employers must give more consideration to training Canadians to meet their current and long term needs for skilled labour rather than considering the importing of foreign workers, according to a senior official of the federal Department of Manpower and Immigration.

William C. Stewart, the department's Atlantic Director General said 2500 non-immigrant employment visas were issued in the Atlantic Provinces during the 1974-75 fiscal year to foreign workers who filled a wide variety of skilled and unskilled jobs for which no qualified Canadian workers were available.

He explained "we issue visas, which are valid for a limited period, only after it has been established that there are no qualified Canadian citizens or landed-immigrants available to fill the designated jobs".

"It appears that some employers are relying increasingly on foreign workers as a short term solution to their needs," Mr. Stewart said. "They should give more thought to using training courses for Canadians to find a long term solution."

He described the situation as tragic especially with all the unemployed Canadians who could be trained in these special skills while the foreign worker is fulfilling the temporary need.

"Employers are not giving enough thought to early

manpower planning and thus are faced with last minute actions, such as looking to foreign countries for workers," Mr. Stewart stated.

"Officials of this department are prepared to talk to employers at any time about the complete range of Canada Manpower training continually assesses the factors governing the supply and demand for labour, so that rational training programs can be devised. Working subcommittees meet regularly with representatives from industry, labour and the education profession to determine the needs of the labour market in specific localities and sectors of the economy."

He said that the federal and provincial governments are working closely together to assess the needs of the labour market and to plan training programs that will be of maximum benefit both to employers and workers. In each province, a Joint Federal-Provincial Manpower Needs Committee, made up of senior officials from both governments,

"These training programs are flexible and can be specifically designed to meet the needs of a particular industry or sector of the economy," Mr. Stewart said. "Furthermore, there are more than enough Canadian workers, unemployed or underemployed, who are ready and eager to take training that will upgrade their skills."

ALCOHOL AND DRUGS AND WHAT THEY DO

Management of the epidemic involved recognition of the drug use pattern. There is a bewildering variety of these. One lady was taking 250 tablets of aspirin a day. Another had 35 different sorts of pills to help her do all sorts of routine daily chores. One adolescent inhaled fumes from a car to get high and a young man was injecting "wim" (detergent) intravenously to get his trips. Diazepam and pain killers are as domestic as are nicotine and caffeine. We require a study of these as they are prevalent in our community. We should sort out issues, drugs, persons, occasions, desired and undesired outcomes, and evolve appropriate social attitudes and responses.

The use of illicit drugs is based on ambivalence ranging from cure of disease, enhancement of mental and physical powers; to a fear of harm, poisoning and adverse genetic effects. The self-medication experimentation with "available", recreational drugs as part of food lead to use which may extend over years without being recognized. Caffeine and nicotine have definite symptoms that doctors recognize and those affected do not.

The therapists who wish to involve themselves with control of the epidemic should avoid the defence mechanism of denial of ignorance. A small boy went to Dr. Johnson (English Dictionary Author) and asked him the meaning of a "net", and was told, it is a reticulated fabric decussated at intervals. It took another critic of Dr. Johnson's to recognize the "defence of ignorance". We have to recognise

WOMEN AND CREDIT

Director George F. McCurdy announced today that the N.S. Human Rights Commission has undertaken the study in response to the many queries the commission has received regarding the availability of credit to women.

A study of women and credit will try to determine the extent of the difficulties women have in obtaining loans and establishing credit rating separate from their husbands.

"We have received a number of complaints," he said, "from women applying for credit and being told that credit will be granted only if the husband or father co-signs or guarantees the loan. Married women especially find it extremely difficult to establish a credit history separate from their husbands even if they are working and paying off their debt themselves. Our aim is to find out what role the commission has in these instances."

Dalhousie law student, Betty Glenister, will conduct the study. Assisted by students employed on other commission projects, she expects the study to be completed by September.

Ms. Glenister says the group will investigate the problems specific to women and credit and to make recommendations to the commission on dealing with those complaints that are registered with it. The group will also research Nova Scotia statutes dealing with credit to discover how they relate to women and to credit granting agencies and make recommendations on those findings.

"The really big problem for women," Ms. Glenister says, "is in the area of credit which affects living accommodations and employment opportunities. A woman does not have access to money to buy a home or to finance a business, she is externally disadvantaged and can compete on an equal basis with men."

"Bluefish are wanderers of the world, appearing and disappearing with the same suddenness throughout their habitat, fast-moving, predacious fish that make a great impact on local anglers with each appearance...The things you remember best about them are the numerous sharp teeth and the voracious way they feed, earning the names snapper blue and chopper. They seem to go completely berserk when feeding, slashing the surface water, darting and dashing about on a lustful binge before which no baitfish is safe."

So wrote the late Joe Brooks about a gamefish that most Nova Scotians have never had the opportunity to fish for. The bluefish, or blue as it's called in neighboring Maine, is a salt water fish that in the past migrated no farther north than the Cape Cod area. In one of his books on salt water fishing, Joe Brooks mentions that the occasional blue strayed into Maine. He passes this off as

being accidental and of no consequence.

If Joe were fishing today he probably would rewrite the pages he devotes to the blue in his book *Salt Water Game Fishing*. The reason is that the blue is apparently extending its migratory range in recent years. Where it was once considered a story in Maine waters it now appears in vast schools, much to the delight of anglers who are reaping a great harvest of fish and fun.

While in Maine last week I learned about the expansion of the blues range from several local anglers. I was talking with one fisherman on the bank of the Kennebec River near Augusta when blues were first mentioned. If you have striped bass fishing at all, the angler said, you should soon have blue fishing.

I asked the fisherman to elaborate on what seemed like a strange statement. In effect, he told me that in recent years the blues have been appearing in Maine's striped waters and even

running up some of large tidal rivers in a few places. The appearance of the blue in large numbers was unexplainable. At least the fishermen I talked with couldn't explain their sudden appearance. They weren't asking anyway. The fishing was too good to allow time for question.

One knowledgeable gent I discussed the blue with felt that it was only a matter of time before the fish struck the shores of Nova Scotia. He had nothing to base this assumption on except the recent experiences of Maine fishermen - and that was the sudden and great blue angling.

The fact that the blue is extending its range in recent years could be good news for Nova Scotians. At present the blue is running into waters less than 200 miles from Nova Scotia. And there's no reason why the fish couldn't suddenly decide it likes the water here.

I suspect the blue is already in Scotian waters now in small numbers. And it probably has been here a long time. As fishermen, we're notoriously behind the times in taking advantage of our opportunities. For evidence, look now long it took us to realize what a tremendous game fish the shad is. We still don't class the shad in the sporting

species and we have no shad angling regulations.

As I've intimated, the blue is a terrific sports fish. The Maine anglers I talked with were taking them up to 18 pounds using hardware. Joe Brooks mentions that blues can also be taken with flies (streamers and bucktails) and topwater plugs.

Blues are rough and tumble fighters. They have the reputation for being fast bitters and hard runners. And even more important, their flesh is quite edible.

All in all, they sound like a

fish I'd like to have around.

And if the predictions of the Maine anglers I met recently are any indication, we may get the opportunity to find out about the blues first hand in the future.

On the other hand, the fish may never appear in our waters in sufficient numbers to offer good angling. I hope that's not so. From what I've read and from what I've been told, the fish will be welcomed enthusiastically by anyone capable of using a rod.

RED CROSS WATER SAFETY

A Canadian Red Cross Summer Safety tip: Check your boat thoroughly before launching it, and make any necessary repairs. A poorly built or leaky boat is as dangerous as a car with faulty brakes. Respect the limitations of your boat, and understand the limitations of your own skills. Investigate the water area before setting out. Always obey all safety regulations for the protection of you, your passengers, and other boaters.

CONDITION OF TRAILERS IMPORTANT

Halifax - Drivers of Nova Scotia's estimated 10,000 recreational trailers were reminded that their vehicles must be in proper mechanical condition.

Hon. Leonard L. Pace, Q.C., Minister of Highways, said that the requirement for trailers' mechanical inspection and fitness is covered by provisions of the

Motor Vehicle Act. Boat, tent and travel trailers, as well as motorized campers, are classed as recreational vehicles.

Mr. Pace recommended that trailer operators watch rear view mirrors closely for signs of traffic buildup behind them. In such instances, they are requested to pull over to a safe and

suitable location adjacent to the road, thereby enabling other vehicles to pass.

Operators are responsible for obtaining suitable trailer equipment such as rear view mirrors on both sides of the towing vehicle, proper hitches, and safety chains and cables that are regularly checked.

THE DIGBY COURIER RED CROSS WATER SAFETY

The Canadian Red Cross Summer Safety tip: If it is necessary to change seats in a small boat, always crouch low, hold on to both gunwales and keep your weight in the boats centerline. Do not stand up, and do not change position unless it is absolutely necessary. If there are two or more persons in a boat, only one should move at a time.

A Canadian Red Cross Summer Safety tip: When you take your family to the beach, be sure to keep inflatable toys out of the water. Such toys float away easily and young children may drown if tempted to chase and retrieve them. Supervise your children carefully when they are in on, or near the water.

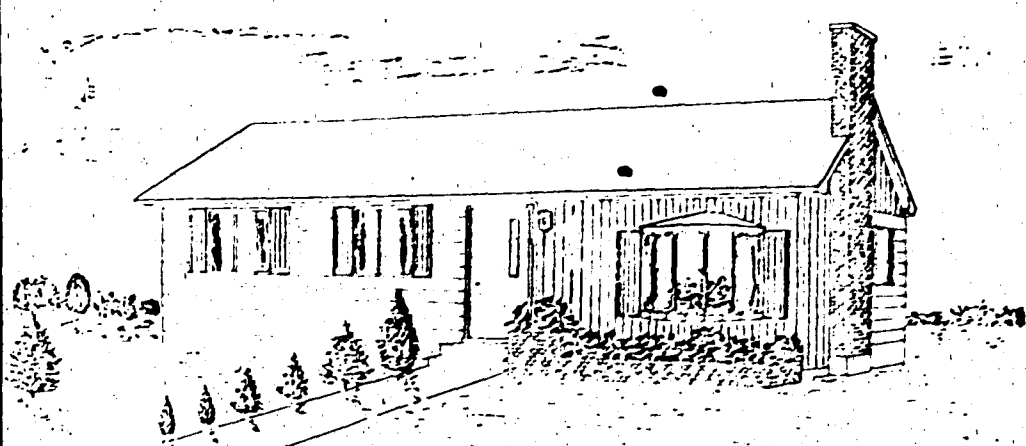

A Canadian Red Cross Summer Safety tip: When boating obey all regulations regarding life-saving equipment, using only equipment which has been approved by the Ministry of Transport. Wear a life-jacket device. Do not operate your boat in areas where people are swimming. Remember that a boat is potentially as dangerous as a car, and requires skillful handling.

A Canadian Red Cross Summer Safety tip: always investigate the water before wading or diving in. You can be badly injured by rocks, or debris as cans or broken glass, and a heavy undergrowth of tangled weeds is hazardous. Always swim in supervised areas. Know your own limitations and don't be tempted to show off and push your luck.

Above can be seen Dan D. Apple who started the 43rd Annapolis Valley Apple Blossom Festival on Thursday when he arrived at Digby to issue the festival proclamation. From left to right are Dave Chisholm, spokesman, His Worship Mayor Patrick Comeau, Dan D. Apple and Bruce Caldwell, program chairman.

Dutch Cheese Shortbread
1 cup (4 ounces) imported Holland Edam or Gouda
1/2 cup butter
1/2 cup all-purpose flour
1/2 cup whole wheat flour
1/2 teaspoon salt
Cream shredded cheese and butter; blend in flour and salt. Work with hands until the mixture forms a smooth ball. If it is too sticky add a little more flour; if too dry add a few drops of water. Lightly butter one 9-inch square cake pan or one 9-inch round layer cake pan. Press the dough firmly and evenly into the bottom of the pan. Cut the shortbread into squares or wedges. Prick with a fork. Bake in 400° oven 20-25 minutes until golden. When cool cut down lines again and remove from baking pan. Makes 12 squares or wedges.

Holland Crisps
1 1/2 cups boiling water
1 cup cornmeal
1/2 teaspoon salt
1/2 teaspoon curry powder
1/2 cup butter
1/2 cup (2-ounces) shredded imported Holland Edam or Gouda
Pour boiling water on cornmeal. Stir to make a light batter. Season with salt; blend in butter and shredded imported Holland Edam or Gouda. Preheat oven to 425°F. Grease baking sheet. Drop the batter by the half teaspoon about 3 inches apart onto prepared baking sheet. Dip metal dessert spoon in water. Press each mound with the back of the wet spoon into a thin wafer. Bake 5-6 minutes in 425°F oven until lightly browned. Makes about 4 dozen crisp wafers.

A good editor

From the Picton Gazette

A good editor is one who has never made a mistake; who never has offended anyone; who is always right; who can ride two horses at the same time he is straddling a fence with both ears to the ground; who always says the right thing at the right time; who always picks the right horse as well as the right politician to win; who never has to apologize; who has no enemies; and who has worlds of prestige with all classes, creeds and races. There has never been a good editor.

Looking At Leather

by Irene Cowdery

Leather can be made from the skin of any animal, from cattle to rabbits, from pigs to alligators. The quality of the finished leather depends partly upon the skin used and partly on the processes through which it goes. The cost of the original skin is usually only a small portion of the value, for many days, even months, of processing are necessary for some kinds of leather, involving much labor.

Man has known how to make leather for thousands of years. The ancient Egyptians made leather so

well that pieces over 3,000 years old have been found perfectly preserved. Until the 1900's most leather was made by hand in small tanneries. Leather was once tanned in Nova Scotia. Driving east from Windsor, one passes a large, old rectangular brick building with the name "Colonial Hides Ltd.", printed on the side. It has long been empty and unused, but probably played an important part in the life of this province in earlier days. Many shoemakers made boots and shoes to order for Nova Scotian residents. One of the

There are two tanning methods: mineral tanning and vegetable tanning. The method used depends on the intended use of the leather.

Mineral tanning, also called chrome tanning, is the process used for leather intended for footwear. First the hides are pickled in a solution of acid and common salt. Then the hides are put in a tanning drum containing a solution of bichromate of soda till saturated. Then sodium thiosulfate is added and the color changes from orange to greenish-blue. Then the leather is tested. If boiling does not damage it, it is ready to be stacked and drained.

Vegetable tanning depends on the use of tannin or tannic acid. Hides contain gelatin which combines with the tannin, converting the hides to leather. Once converted, the leather will no longer rot or decay as untanned hides will do. Tannin is obtained chiefly from the galls on oak tree leaves, and from the oak bark. However, it can also be found in leaves, nuts,

bark and wood of chestnut, hemlock, mangrove, quebracho, sumac and wattle.

The hides are attached to "cradles" or "rockers" that rock them slowly in the vats. The tannin solution is first about 1 per cent, then is made stronger gradually over a period of 15 to 30 days till the hides are "struck through". Then after 15 to 100 days in stronger solutions, they go to tanning drums where there is a concentrated solution. Then they are washed, drained, wrung out, bleached, and "stuffed". Stuffing is adding hot oils and greases in a heated rotating drum. They are checked for thickness and sometimes shaved to make them more uniform. Then it is milled. This means they dip the leather in water and hang it in a compartment filled with moisture for three or four days. It is damp and quite flexible. A liquid mixture of oil and wax is applied to the grain side; it is rolled to

compress the fibres and smooth the grained surface. Then it is hung to dry and the surface is polished.

If leather is to be dyed, it may take from two to seven coloring materials to get a shade that is deep and lasting. Then it is tacked, toggled pasted to stretch the leather and make it firm and flat. Then it is trimmed, and ready for final FINISHING. This involves applying special liquid mixtures to the grain surface. These may include casin, shellac, serum, milk, gum tragacanth, flaxseed, Irish moss, Japan wax, carnauba wax, candillia wax, sulfonated oil and pigments. As many as seven coats of the finishing solution are applied to the finest kinds of finished leather.

Mrs. Yolande Connors and Mrs. Sandy Brunet pour at the Spring Tea in support of Guding and Scouting assisted by a Ranger and five members of the Guides.

THE ENERGY WASTE WATCHER

This column will look at painless ways of cutting down your fuel and electricity bills at home. Have any suggestions? Send them along to the Energy Waste Watcher at Information EMR, 588 Booth Street, Ottawa K1A 0E4.

Lighting accounts for a relatively small part of the electricity used in the home. But saving electricity is sometimes a matter of saving pennies, and those pennies add up.

A good start is choosing the right bulb for your particular need. We often tend to overlight indoors and thus overdraw electricity unnecessarily. Hallways, basements, bedrooms, storage and laundry rooms don't need bright light. In these areas, you might try to replace your 100-watt bulbs with 60s, and 60s with 40s. Desk lamps, table and floor lamps with 60-watt bulbs could be used for close work or reading. And when there's sunlight—use it! It's free, pleasant, and easy on the eyes.

As far as incandescent bulbs go, there are a number of different types being sold, including general service, eye saver, shadow ban, and extended service bulbs. The chart gives the advantages and disadvantages of each. The most energy efficient is the general service bulb, giving the most light (measured in "lumens") for the watts consumed.

Fluorescent lamps? They're an excellent value. A 40-watt fluorescent lamp uses half the power to produce more light than a 100-watt incandescent bulb. They're useful in the kitchen, bathroom, laundry room, playroom and workshop.

By the way, there's a general misconception that leaving lights on saves more electricity than turning them off and then on again. Not true! There is a momentary surge of power when a light is turned on, but it's equal to only a second or two of lighting time.

A few other ways to use lighting to your best advantage:

- Keep bulbs and fixtures clean. Dust accumulations that you can barely see will lower the lighting level.
- When redecorating, consider light paint for walls and ceilings. Light colors reflect more light.
- Do you really need all those outdoor lights? If you do, cut down on after-dawn waste with timers set to turn lights off automatically.

And don't forget to turn out the lights when you leave a room.

The Victorian Order of Nurses

The V.O.N. is a voluntary national visiting organization, giving nursing service to individuals, families, or groups in the community. Nationally, it was established under Royal Charter in 1897, and about the same time in Nova Scotia.

In 1974 in Nova Scotia 12 local branches made 84, 813 visits to 5,273 patients. 73 percent of these visits were made to patients 65 years or over.

In 1974 the Digby Branch which serves Annapolis County made 1,086 visits to 131 patients in Annapolis County. The greater number of our visits we made to the elderly patient.

Each local branch has its own governing board, made up of members from the community it serves. Each local branch also has a member represent them at meetings of the provincial and national organization.

The V.O.N. works closely with the medical profession. Calls for nursing service will be accepted from any source but treatments and further

care is provided only if the patient is under the care of a doctor.

V.O.N. patients are: Medical and surgical - requiring dressing, injections, irrigations; Chronically ill - suffering from multiple sclerosis, heart disease, diabetes, cancer, rheumatism, infirmities of age; Convalescents - rehabilitation nursing after an operation, accident or stroke.

There is a charge for V.O.N. service which is based on the cost per visit of the individual branches. However this fee may be reduced or waived, depending on the patients financial situation and the number of visits required.

When a person is ill, the familiar surrounding of his own home is often a help in convalescence. If you need nursing care in your home, ask your doctor about the Victorian Order of Nurses.

Two nurses, Mrs. Pauline Gates and Mrs. Phyllis Brennan bring home nursing service to Annapolis County.

BRIDGE CLOSED

The department of highways has advised motorists travelling on trunk highway number 1 that the bridge at Clementsport, between Annapolis Royal and Digby, has been closed for repairs during the day between 7 a.m. and 5 p.m. until further notice.

A 23-mile detour is required.

Motorists travelling from Halifax to Digby, for example, would turn off at Lequille onto highway 8, proceed to South Milford, turn right at South Milford and proceed to Clementsvalle and then on to Clementsport.

Chiefie Closes Camp Doors

After forty summers of catering to hundreds of girls at camp, Mrs. Helen Anthony has decided to close the doors at Camp Arcadie, Sandy Cove, Digby County, for camping purposes. It is understood that Chiefie, as she became affectionately known by campers and staff, will prepare the ten or more cabins for renting.

Interesting experiences followed Mrs. Anthony throughout her entire camping career. It was back in 1934 when Mrs. Anthony was teaching at the Netherwood School For Girls in Rothesay, N.B. when summer camping really began for Mrs. Anthony. In 1935-36 she kept camp for six girls at Colonial Arms, Deep Brook.

It was in 1936 that "Chiefie" purchased the property at Sandy Cove from Arlie Crowell. The property had been vacant for 75 years before Mrs. Anthony's purchase. The property accommodated four residences.

When Mrs. Anthony purchased the 60 acres of woodland property, she had others to do the negotiating for her. She was in New York as personnel supervisor at the executive offices of the Boy Scouts of America with 550 employees under her. Soon the wood on the

property was being felled, a location chosen and a cabin built off a design sent home from New York by Mrs. Anthony. Fourteen carpenters were on the job and soon the first cabin as seen above was completed. It was then that Mrs. Anthony appealed to government to reopen the road which had existed there and took steps to procure telephone and light accommodation.

Eight campers arrived the first summer the cabin was built at Sandy Cove. In two years Chiefie had paid for the cabin and began to expand so that ten cabins in all were erected. The cabins afforded running water, open fireplaces and spacious living rooms. The cabins went under such names as Wigwam, Nest, Hut, Roost, Coop, Lair and Den.

Besides the cabins, stables were built for horses, sport fields were developed for basketball, shuffleboard, archery, soccer etc. Three docks and spur were built for rowing, using kyacks, paddle boards and other water sports.

The cabins presently are arranged to accommodate 85 campers but often as many as 100 have been accommodated at one time.

Mrs. Anthony has had campers from South America and in 1968 she

entertained girls whose origins were French, English, Mexican, Czechoslovakian, and Malaysian. Some could not speak English.

In 1942 Mrs. Anthony had children of the Royal families at camp. It was wartime and the children had been in school at Edgehill in Windsor, NS. She sent camp folders to Princess Elizabeth, now Her Majesty, the Queen, and to Princess Margaret Rose. Correspondence in appreciation was received

from the Royal household. Mrs. Anthony is retiring but other factors which resulted in the decision to close the doors were high operational expenses and costs of keeping up docks, boats and general camp property.

During the past few years Mrs. Anthony has been fortunate to have been assisted in administration by Miss Marjorie McCormack and her grandson, William Anthony, Halifax and Mrs. Anthony.

Good-morning World,
I just dropped in to greet you,
With a message just for you,
Yes, World you've been my friend
for many years and if you think
that you'll forget me,
think again,
for like all mortals, I shall one
day drift away, but I'll be here
when you see the silent sunrise and as sunset's golden fingers
caress the sleepy slopes, with muted
hush, to bless the quiet land,
Then you'll say she puts the world
to sleep.
When'er you watch the ripples
dancing on the river, or when white
wash the shores, you'll know that when
this tide is turning, I'll be very close
to you.
In Spring I'll walk beneath the trees
in blossom, as they spread pink petals
on the ground, and in Autumn's blue and
peaceful haze, softly brushed with
golden hues...I'll wait for you.
YOU'll hear me laughing with the children,
for forgetting true love and devotion
never was a child's domain.
So...if there's music, chimes to cherish,
you will hear me singing softly in the quiet
of the night.
O...yes world you will not forget me,
for when there are children laughing,
and when there is beauty glowing,
where there are lovely things a-growing,
There am I.

Wefan Studio Opens In Annapolis

Display cabinet with pottery and ovenware

Ms. Daurene Lewis has opened her attractive studio-Wefan (to Weave) in the building formerly occupied by Frank Troop. The studio is bright with flowering plants and plants with very colourful foliage. A very beautiful display cabinet of old silvery barn boards was made by Daurene and Willie Troop, which just proves that women can do almost anything they make up their minds to.

Daurene has lovely displays of her own work, woven placemats in red, blue, green, gold, brown and white, both plain and with a pattern. There are stoles, brilliant patterned shoulder bags, covers and a gorgeous woven ruglet in blue and white with crocheted edge.

The pottery is made by

Thursday overnight guests of Mr. and Mrs. Waters Comeau. On Friday morning they left for Yarmouth to take the "Bluenose" for a three week visit to the U.S.A.

Port Wade Pottery and features stoneware in jugs, vases of all shapes, tea sets, salad bowls, as well as oven ware in greys and earth tones with a rainbow glaze inside.

Hand crafted furniture by Donald Frothinger includes a lovely caned screen and a wall cabinet with wrought iron hinges.

There is jewellery by LeRoy Haynes and Robert Hall in silver with agates and tiger eyes. Angela Hall also has some jewellery on display.

Wall plaques are made by Dot Cummings and Mugwumps by Sherry Haynes. If you enjoy browsing or if you are looking for a different gift for that someone special, drop in to Wefan Studio and look around. You may see Daurene working at her loom. We have many talented people in this area and we are pleased there is a chance for them to display their work for the public. We wish Daurene a prosperous season.

RECREATION - SWIMMING

A unique project to provide swimming pool facilities in small Nova Scotia communities is being piloted this summer by the Provincial Department of Recreation in co-operation with a number of Annapolis Valley communities.

Hon. A Garnet Brown, Minister of Recreation, announced that his Department, through its Valley Regional Office, will conduct an instructional swimming program for children using a portable pool during the next 14 weeks.

Mr. Brown said the pool will be set up for two and three week periods at Canning, Annapolis Royal, Salmon River and Kingston, to allow for swimming instructions in these communities where no supervised swimming facilities exist.

Technical and administrative assistance will be provided by the Water Safety Service of the Nova Scotia Division, Canadian Red Cross and Centre of Leisure Studies at Acadia University.

"This is a pilot project only and will give us an idea of how well the system works in small communities where swimming facilities are not available," Mr. Brown said.

Mr. Brown said the overall objective of the Department is to open opportunities for public participation in aquatic activities in rural areas and to develop efficient operation, administrative and program procedures as well as ascertaining operating and related costs.

"This program will also help determine its acceptance by the public and provide necessary data to compile a report for all municipal units and other interested organizations and agencies."

A training program in the use of the pool itself will be given to the instructors prior to actually beginning the swimming program. The pool is 20 by 40 feet with a depth of approximately 40 inches, and includes filtering, circulating and heating systems, and a shower system to maintain a good standard of hygiene.

Instruction, which will also include water safety demonstrations, will be given in accordance with the Red Cross Water Safety courses to non-swimmers where registration exceeds 200 children.

"The communities selected for this project were most anxious to have the program," Mr. Brown said. The timetable for this summer is as follows: Canning - June 9 to 25; Annapolis Royal - July 2 to July 17; Salmon River - July 24 to August 8; and Kingston - August 13 to 28.

Four qualified instructors will carry out the program.

Deputy Makes Statement - Election Ju / 22

What the news media and visitors expected to be a three or four hour special meeting of Digby Town Council on Thursday evening lasted a half hour.

Deputy Mayor, Philip Robertson occupied the chair, the mayor, Patrick Comeau, having resigned as mayor at the regular meeting on Monday evening.

Deputy Robertson brought the meeting to order and announced the two subjects for which the meeting had been called. Mr. Robertson had reconsidered his verbal notice of resignation of Monday evening. This matter and the choosing of a date for the election of mayor were on the agenda. Mr. Robertson issued a statement as follows.

"At Monday Night's Council, I stated that I would resign in support of the Mayor. After being approached by representation of several of the Town's citizens and my own feelings of responsibility to the Town and citizens who elected me, I have reconsidered my resignation and will not resign at this time. I feel as the Mayor did that there needs to be some drastic changes in order to have a good working council.

One of the problems is from within Council itself, mainly Councillor Chipman's attitude towards the Mayor and the rest of Council.

She is uncooperative in Council and Committee, and almost always in an an-

tagonistic and destructive way. She seems to think that it is her against the Council. She seems to consider her role as one of constant critic, and not as a member of a body that is charged with performing the Town's business.

I am sure everyone should appreciate any man or woman who takes their time to act on any Municipal Body. But anyone acting in this capacity must expect to accept their responsibility of a Council Member, not constantly attacking the integrity of the other Council Members, Mayor and Town Clerk through innuendos and statements.

I called two Committee Meetings to interview applicants for Dog Catcher

which Councillor Chipman would not attend as one of the Committee Members was out of Town at the time. It only requires two of three Members to hold a meeting. She also refused to attend a Committee Meeting to interview applicants for Building Inspector. The Town Property

Committee of which Councillor Chipman is chairman held a meeting to open tenders (of which there was only one) on the police car. The Committee agreed to accept the tender. This was held up two months because she would not present the motion before Council to accept the tender. I would hope these statements will give the citizens some idea of part of the reason why the Mayors have resigned and why this Council cannot function under these conditions.

I feel that good constructive criticism helps any governing body to operate more efficiently. But nit picking has almost brought the business of this Council to a stand still."

Each Councillor was given the opportunity to respond to Deputy Mayor Robertson's statement. Councillor Gordon Ellis felt they had lost two good men in the resignations of Willard Kinney and J. Patrick Comeau and he felt it was time to start over again and get rolling. He referred to

the last three mayors as men dedicated to their work. Other Councillors expressed similar sentiments and showed their pleasure in the fact that Deputy Mayor Robertson decided to reconsider about resigning. Councillor Reginald Hazleton also said that parliamentary order should be strictly followed to avoid any opportunity of nit-picking. Councillor Chipman said that she was one of three

elected by the people and she had promised the people that what goes on in Council will not be withheld from them. She stated that she intended to continue until the people who elected her tell her they are not satisfied.

Council agreed to delaying the election for mayor until July 22.

Thursday night's special meeting was covered by T.V. radio and press.

Recreation Commission Borrowing

Thirty-six out of 805 eligible voters in the town of Digby were on hand Wednesday evening to cast their ballots on a question involving the Digby Recreation Commission. Thirty-one voted in favor and five voted against the resolution whereby the town approves of the proposed guarantee of a sum not exceeding \$16,000 to be borrowed by the issue and sale of debentures of the Digby Recreation Commission for the purpose of repairs to the skating rink and curling rink and the purchase of new equipment.

The meeting was presided over by Deputy Mayor Philip Robertson. The resolution was moved by Councillor Reginald Hazleton and seconded by Guy VanTassel.

Scrutineers were Howard Riley and Bernard Bell.

Mayor Should Be Paid

Deputy Mayor Philip Robertson presided at the special meeting of Digby Town Council on Monday evening when Councillor Reginald Hazleton proposed the paying of mayors for the time they spend for the town. Councillor Hazleton noted the fact that two mayors had been lost to the town recently by resignation and he felt

that Digby is the only town in the province that does not pay the mayor. He felt that the best men may not offer for service because of expense to them. Without pay the mayor cannot give the necessary time which is essential in the operation of a town.

Mr. Hazleton felt that the \$500.00 was no more than nothing and an insult. He cited one factor of discrimination when the municipal representatives on Tideview Terrace, school boards, etc., attend the meetings, they are paid but town representatives are not paid.

Councillor Hazleton moved that the tender of \$32,410.00 from Standard Paving, for paving sections of town streets, be accepted. It was seconded by Councillor Eileen Chipman and carried. The streets committee are to look into other necessities such as curbing. The tender was presented before council by streets committee chairman, Councillor Guy VanTassel.

New Horizons Musical Rally

About 250 participants of Weymouth New Horizons attended a musical Rally at St. Ann's College on Friday. They came from Bear River to Port Maitland, and the Rally was sponsored by MARC (music among retired Canadians) a New Horizon project. Mrs. Hester Miller of MARC who compiled a book of folk songs last fall, for New Horizons Clubs, was present from Halifax and Paul Stehelin, regional director of New Horizons in Nova Scotia was also present.

The Liverpool group presented an hour long programme, with band music, songs and comedy, and the Weymouth singers, George and Etta Langford, Jennie Cromwell, Margaret Saulnier and Lizzie LeBlanc, were lead by Catherine Langford in the singing of "Michael, Row Your Boat" and "Home on the Range."

Mrs. Miller accompanied the group on the piano, and an enthusiastic audience joined in the chorus of Home on the Range.

Driver Education On Regular Course

Policy and procedures for the operation of courses in driver education to be offered for the first time as part of the regular Nova Scotia high school curriculum during the 1975-76 school year have been approved by Hon. William Gillis, Minister of Education. The procedures were developed in consultation with officers of the Registry of Motor Vehicles.

"The courses will be taught by regularly certified teachers in the school system who have successfully completed an approved Driver Education Instructor's course, and will represent a significant effort toward improved highway safety," said Dr. Gillis.

In 1975 up to fifty applicants can be trained during a course for driver education teachers using the facilities of the Interprovincial School for the Deaf in Amherst. The course is administered jointly by

Dr. Corston who had been Professor of New Testament Literature at Pine Hill Divinity and is now Professor of New Testament Literature at the new Atlantic School of Theology will be retiring and will live in Annapolis Royal.

Dr. Corston based his sermon on the anniversary theme "That They All May Be One". He reviewed history of the Digby Church and traced church life back to 1785 and 1860-61 when there was a group known as the Society of Church People. Most of these people were of the black race, some travelling as much as twenty-five miles.

Dr. Corston also spoke on the history of the United Church of Canada and to the leap of faith when the merger of loyalties and traditions took place. The church has grown, he said, but bigness is not the glory, only the communion and witness for Christ.

He sketched the United Church survival and services in the World War, the drought in Saskatchewan and when the congregations mushroomed while there were not enough church buildings, not enough ministers to supply the pulpits.

PLAN FOR VACATION

The next few weeks will be busy with graduations, dinners and other school functions so that vacation time will be upon us before we know it. It becomes the time for families to take their vacations together, not for the sake of the weather only, but it is about the only time that parents and children have "time off" together. We were reminded of this when the latest Canada Travel Feature came to our desk last week.

As the Canada Travel Feature said "Few adults would choose children as their favorite automobile companions. They get restless and fight; they get car sick and throw up and if one doesn't need to stop at the next service station another does. Still, driving yourself does allow for a more flexible vacation than any other form of transportation". Canada Travel Feature had a solution. Shorten the travel time by flying and then rent a car. They were routing, of course, for Winnipeg but the same might apply to Digby one of these days when that Municipality of the District of Digby Airport is well established.

Vacations, especially family vacations are sometimes made or broken in relation to planning for them. For instance, the proper clothing for the type of vacation must be chosen. Will it be at a posh hotel, at an up-to-date resort near the beach or will it be camping sites where the travelling family wants to put up. It might be a combination. However, the Canada Travel Feature says

"No matter what type of accommodation you choose, if you are traveling with children you will want to keep your luggage simple. Pack wash and wear shorts, pants, tops and bathing suits. Include a sweater and a jacket or light coat. Daytime temperatures during the summer are generally comfortably warm but evenings can be cool. If you are camping, be sure to have warm night things and plenty of insect repellent. Take along one "formal" outfit per person, so you can have the occasional meal in a better restaurant or visit to a theatre."

GRATEFUL DEPUTY REMAINED

A state of gloom veiled the town on June 2, when His Worship, Mayor Patrick Comeau, tendered his resignation to the Council of Digby and the Deputy Mayor, Philip Robertson, advised that he would be sending in his resignation the next day. After that announcement, he too retired from Monday night's Council meeting, leaving five councillors and Town Clerk, Glen Pitman, to finish the meeting. Such a state of affairs is not good for any civic council and Digby happened to be worse off than most in that two mayors saw it fit to resign within a seven month period.

However, sometimes a crisis situation tends to clear the air and things start moving again in the right direction. Let's hope that this crisis has that effect on our Town Council and town affairs.

We regret that Mayor Willard Kinney found it necessary to resign in December, 1974, and Mayor Comeau to resign so soon afterwards in the month of June. What has gone past cannot now be helped, but their experiences and their influence can be used to make a strong foundation on which the Council can now proceed and await the election and installation of a new mayor.

While we understood Willard Kinney's and Patrick Comeau's reasons for resigning and would have reluctantly accepted the situation if the deputy mayor had resigned, we must give credit to Deputy Mayor, Philip Robertson, for sticking to the sinking ship. Digby Council will be able to adjust more readily by having his experience to build upon. With the exception of Councillor Gordon Ellis, Mr. Robertson has, we believe, served on the Council longer than any other present councillors.

The taxpayers and residents too have their responsibility in getting the ship under sail again by suggesting and encouraging some of the town's most able people to run for the office of mayor. True, town business is big business, and town councillors and mayor get little recognition or recompense for their services. We feel, however, that there are still people who have pride in their town and are willing to take on the responsibility for the good of the town presently and for the children who some day will have grown to the stature of manhood and womanhood, ably accepting responsibility by having observed those who manned the ship

Hodge Podge

For several years, ever since MacLean's magazine came to do a story on us in the summer of 1968, we have been trying to find out what is meant by "hard news". We had been accused of not handling hard news (not by MacLean's). As far as we knew - we were covering all that happened around Digby but it could be that we do not recognize 'hard news' when we see it. Unless, for instance, the Town Council stories this past week or more come under 'hard news'. At least, we are aware that the news is hard on the town.

Maybe the weather doesn't act it, but we know summer is on its way. Stan Ramer of the Bronx, New York, is here on vacation. Stan, who works at a post office in the New York area has spent his vacation in Digby for 24 summers in twenty-six.

This coming Sunday is Rhododendron Sunday. Visitors will be welcome from 9 a.m. -

— There's no way to reach everyone as well as doing it through The Digby Courier. Mrs. Orvil Tallon, Loon Lake, Saskatchewan renewed her Courier subscription and attached this note "Hello Digby and everyone -

— No women's lib in 1945 according to this item which appeared in the Chronicle Herald of that day:

"It's a man's world" in the taxi business, Mayor Butler told Halifax city council, "and should be confined to men only." The Mayor was speaking during a discussion of the taxi pool service. He was against the granting of licenses to women drivers, a wartime measure brought about by a shortage of men to work as taxi drivers, and said that the cabs committee would no longer grant licenses to women, nor would it renew licenses as they expired.

We are still not sure we have an English language word to fit the circumstance and our second language resource is much limited personally. We editorialized a couple weeks ago on the fact that the English language needs another word. It didn't have one to cover the despicable act in a neighboring province which involved a dead body. A reader from Yarmouth answered the editorial and suggested the word we are looking for is "horrendous". That word in our dictionary means horrific, horrible, horrid, hateful, monstrous and "not to be told". We still ask, do those words fit the crime?

Dredging at Saulnierville will cost the federal government \$123,000 according to the news story in this issue from Coline Campbell, M.P. What amazes us is that two tenders only were received, one for \$123,000, the other for \$123,230. The other contractor was not named but it is sort of remarkable to have only \$230 difference in a sum of \$123,000. On the other hand we have sometimes been amazed that in other cases quotations can be double others for the same job.

Letter To The Editor

DEAR MRS. WALLIS,

I want to congratulate the cast from the play, "The Matchmaker," which was held last Monday and Tuesday evenings. The young people were beautiful, and instead of an amateur performance which I expected, the whole cast gave a professional performance.

And the clothes they wore were really from the good old days of long ago. I want to thank them all, the cast, their teacher, and all the ones who worked back-stage, it was a most enjoyable evening. I wish them success in the future. From a friend of Mr. Vandergelder's.

before them. May the pall of gloom recess to non-existence and the Council and residents press forward to better days ahead.

OUR SYMPATHY

Our sympathy goes out to the loved ones of Mrs. Lillian Henshaw, Deep Brook, whose death occurred over the weekend. Mrs. Henshaw, for many years was a valued correspondent from her village for The Digby Courier. She was a good community worker, not necessarily to cover the news for the Courier but because she had many interests and believed in doing good for the community.

Letters To The Editor

Dear Editor:

As is customary for an accounting to be made when transferring responsibility to another management, so it is with me, having relinquished my duties and, I wish to address myself to you, the citizens of Digby.

I have tried to manage the affairs entrusted to me as your mayor. Offering no apologies for my inexperience in municipal law and the parliamentary system of conducting meetings, I would say that this responsibility falls as well on the Members of Council and therefore, the matter of courteous behaviour and the disposition of the Town's business, could be a progressive and rewarding experience.

On many occasions, I have expressed my desire for unity of Council, when business of the Town was being debated. Unity does not mean simply to have a majority support. Even one Member of Council can, by virtue of deliberate opposition, create an atmosphere of frustration which impedes the approach to logical conclusion of policy. It is also possible for a Member of Council, to assume to have unrestricted privilege to invade areas without observing any code of ethics. Such action can cause personal confrontation, resulting in bitterness and a lack of common approach to problems at hand. There is also, the basic social requirement that Council expend its labour to benefit the entire community. Any one segment of the Town's people cannot be set aside for preferential treatment. To do this, is to set people against each other.

Council's attitude, in my view, should be to provide the basic services, orderly maintenance and efficient administration in all facets of development. Such a requirement does not allow for cultivating individual status, either for Councillor or Mayor. The saying "By Their Fruits, Ye Shall Know Them", is a timely one.

As was my observation when I assumed office, these services are very much in need. I was very concerned with the problem of providing sewer services which were long overdue in certain areas. Frustrated plans for the installation of a treatment system, prompted me to study the possibility of a modified phasing program. On December Fourth last, I submitted this study to Council, where it won approval. About April First, a delegation from Council presented their views on the sewer problem to Ministers of The Legislature. I am pleased to say, the Minister of Environment recently advised me that the basic provisions of the study had been approved and, that implementation could begin on receipt of authority from Federal Authorities. This authority is expected soon. I placed priority of sewer

installation first, because underground services should normally be installed prior to paving of streets.

On the matter of paving, I wish to comment on the upgrading of Victoria Street. This work has been delayed for two seasons now. After assuming the office of Mayor, Council authorized me to re-activate the inquiry into this proposed work. Authorities of the Department of Highways were contacted and estimates sought for implementation of paved street, storm sewers and paved sidewalks. I must say that I was in favour of the complete installation of these services. To entertain the suggestion that installation of storm sewer and sidewalk be for one side only to me, would be discriminatory to the people on the opposite side. I cannot visualize a spirit of harmony and goodwill, when one side is favoured with well planned frontage, while the other is subjected to open ditches and unsightly frontage, not forgetting the perpetual maintenance factor. It is my view as a ratepayer, we shall perhaps never bring this street to the high standard it would be, when fully developed, for the estimated cost of some sixty thousand dollars. The theory that we should not provide progressive features because other areas suffer the lack of the same, is to continue the Do Nothing For Anyone Plan. Where and when is the all important step to be taken? I was in favour of placing this matter before you, the ratepayers, for your judgement.

I would also call to your attention, my efforts to seek permission from the Federal Authority, to place a stone breastwork along our waterfront, from the bandstand north to the building line. This would protect the land from further erosion by stormy seas.

One more concern, was my totally unacceptable accommodation known as The Town Hall. This in my view, is below the dignity of the Citizens of our town. It is inadequate in the areas of physical communication for our elderly and handicapped citizens. There is also much to be desired in the provision of office and suitable record storage space. Maintenance of this structure should not be long entertained, if our image is considered.

I have said much to acquaint you with my views. It is important that you understand my position on such important matters. It is my feeling that having given my analysis of a progressive plan for Digby, you will appreciate the effort and time required. Besides the physical development mentioned, it was my inmost desire to encourage and participate in the exchange of friendship and cultural development with our

friends and neighbours. I regret having had to resign. If I am right, and I believe that I am, perhaps a new sense of direction will evolve and, a desire to work for the good things which are always there when we strive to attain them. The surest way to point out the wrong, if such is suspected, is to work together as a people or as Councillors, to promote the right. It should be remembered that champions in any contest, require the assistance of others in helping them to attain their goals.

J. Patrick Comeau.

THE SOUTH AFRICAN

WAR

It is seventy-five years since the Canadian contingents departed to participate in the Anglo-Boer War in South Africa. This was the occasion of Canada's first major overseas military campaign, and relatively little has been written about it.

I am engaged in researching the role of the Canadian forces in this conflict, and I am anxious to get in touch with surviving veterans or with relatives or friends of veterans.

Volunteers from the Maritime Provinces were especially prominent in the Canadian contingents in South Africa. I will be travelling and researching in the Maritimes during July and I would be most grateful if readers could assist me in this project.

I am especially anxious to gain access to papers in private possession pertaining to the War. Should readers be aware of the existence of letters, diaries, scrapbooks, photographs, paintings or any other pertinent material I would be most appreciative if they would write to me at the address below prior to my departure for the Maritimes at the end of June.

In addition to the troops, there were also Canadian correspondents, doctors, nurses, priests and teachers who went to South Africa. Any information about these participants would also be greatly appreciated.

TASK FORCE ON STATUS OF WOMEN AT CHURCH POINT TONIGHT

Meteghan River will provide the translation service for the Task Force and the audience. She will be assisted by the Task Force's bilingual secretary, Lucille Theriault.

The hearing at Church Point will be held tonight at St Anne's College, from 7:30; to 9:30 p.m.

"We want everyone to be heard from," Dr. Macdonald said, "and don't feel that language should be a barrier. Since we will be meeting in a predominately French-speaking area of the province, the Task Force felt it was only natural to obtain the services of a translator to make things easier for those who wish to speak at the hearing or present a brief. We want to hear from women across the province and are ready to do what we can to make it easier for them to approach us."

A meeting will be held on Thursday, June 12th at the New Horizon Building at 1:30 p.m.

Chris Trim of Fort Lauderdale and Toronto, spent a few days this week in Weymouth with Mr. and Mrs. Roy Thurber. Mr. Trim is the son of the owner of the notorious Catamaran that was in Weymouth North last year. The Catamaran is at present in a Marina in Fort Lauderdale, being overhauled and renovated. He brought photos of the Yacht, as she originally sailed from Toronto, and the contrast between the photos and the shell that was left here, after so much had been dismantled and stolen, is unbelievable. JUDGE CARDOZA PRESIDENT CITIZENSHIP COURT DIGBY

Continued From Page 1

Without citizenship Judge Cardoza said, much of life is meaningless. It is important to be a citizen of a country for it establishes an anchor for life. No country in the world, Mr. Cardoza said is held in higher esteem than is Canada. Canada, the Judge said has not been a nation of single race since Confederation in 1867. Loyalty and sacrifice of the people of other races who have come to Canada are respected and all the diverse cultures are

appreciated.

Long time residents can by attendance at Citizenship Courts have an opportunity to review what it means and involves to be a citizen. To make the best of the freedom in citizenship, the citizen must labor to become intelligent, acquainted and informed in our way of life. The Judge told the new citizens that they are entitled to all that Canada has to bestow and to share in pleasures, duties and responsibilities by the freedom which is built on good government. Democracy, he said, has not magic formula but each citizen must make his own decisions.

MAYOR SHOULD BE PAID

Mr. VanTassell also presented two tenders for a truck for the town. Neither tender was accepted on Monday as councillors felt that they should check on trucks with bigger axles and heavier front ends. They decided to put the town grader up for tender.

Inquiry addressed to the Department of Transport regarding repairs to the town breast work in the harbour was responded to by asking to have a survey of the area forwarded. Because the intention is to extend below high water mark, the Navigable Waters Act is to be considered. It was decided by motion to consider this proposition further and arrange a meeting with a federal member and the

local MLA about financial assistance. It was noted that the repairing of the breast work is something which will have to be dealt with in the near future.

Mr. VanTassell reported that no definite word had been heard from Halifax on the sewer proposal. It was decided to call a special Town Council meeting when there is more information on the sewers and work on Victoria Street.

It was decided to tender for an 18 h.p. machine with attachments for snow removal, mowing and sweeping.

Town Clerk, Glen Pitman, extended his personal apologies to Councillor Eileen Chipman for the error in refusing her permission to vote at the ratepayer's meeting on Wednesday, when the townspeople decided to guarantee a loan of \$16,000.00 for the Digby Recreation Committee to repair the Forum. Council approved the agreement for taking over

the Senior Citizens' housing units on Victoria Street. The shared cost for the construction is seventy-five percent each for the province and the town.

A report from the Digby Housing Authority was read by Glen Pitman, town clerk. There being a few figures not clear in the minds of councillors, it was decided to have Reginald Turnbull of the Digby Housing Authority to explain the statement at another meeting.

A report from the Digby County Power Board showed an operating loss of \$16,000.00 to date in 1975. Councillors hoped that a new rate would help to eliminate this. A survey on lighting for the Culloden district will be made.

The Council decided to accept an invitation to Yarmouth on September 1 to enter a float in their parade. The town will be represented at a Neighbourhood Improvement seminar at Bridgetown June 18, and also at the Annapolis Valley Affiliated Boards of Trade annual meeting on the same day. The town will also be represented on Wednesday at a reception given in Saint John by the C.P.R. when it is expected that some important announcement is made.

Appointments to the Board of School Commissioners, Tideview Terrace were left to be filled at a later date with the Tideview appointment being detained until a mayor is elected.

The Fire Committee report showed 13 calls answered in May. Three of these were in Conway and three in Culloden. Six calls were grass fires.

Mr. Pitman reported that a cheque for \$13,499.00 had been received from Hon. Glen Bagnell, minister in charge of environment, which is a twenty percent grant applied against outstanding sewer accounts.

Monday night's meeting was called to clear up several items of business left from the previous Monday's meeting when the mayor, Patrick Comeau, resigned and the Deputy Mayor, Philip Robertson, left the meeting.

Arrange Bursaries And Prizes

The Islands Home and School Association held their last meeting until Fall on Monday, June 2nd at the school. The annual Bursary from the H and S was discussed and it was decided that besides awarding this \$100.00 that the amount of \$50.00 be taken from the general fund to present to another outstanding student. Besides this \$50.00 was voted to be given as prizes to High School students at the graduation exercises and \$50.00 to be divided amongst the Elementary and Remedial classes of the school for the teachers to spend in whatever way they see fit for their closing exercises.

A committee was named from the H and S. to arrange the reception for the grade XI and XII graduates to be held after the graduation exercises. This will be in the form of a Buffet of sandwiches, sweets and punch.

This year has been a good year for the group. The meetings have mostly been well attended and they have been able to accomplish quite a number of things and also put aside a sum of money. We hope that in the Fall more people will attend the meetings to support its new officers.

Ditching Completed

Ditching on the St. Mary's Bay Marshland for individual landowners, the Department of Highways and the Marshland Maintenance Division of the Nova Scotia Department of Agriculture and marketing, has been completed.

A lot of activity has been taking place on the marsh recently, and Agricultural Representative Bruce Gilliatt feels this is a good indication of the interest generated by the re-ditching and reclaiming of hundreds of acres of land here.

Thousands of dollars have been put into the marshland recently by the provincial government and the local farmers. The farmers are now looking for a good return from the land.

About a year ago marshland owners were told the dyke would not be repaired and the land would be allowed to return to the sea.

Mr. Gilliatt felt those involved should be congratulated on the fine submission made to the provincial government on the necessity for having the dyke repaired.

This, he said, is a "clear example of individuals and organizations working together in a common interest." He also noted that federal Minister of Agriculture, Eugene Whelan, and provincial Agriculture Minister Jack Hawkins were very impressed when they visited the marshland during a tour of Western Nova Scotia recently.

Only Seven Per Cent Answered Letters

About six business men out of eighty-five responded to the letters sent by the Natal Day Committee requesting donations so that the committee can get along with plans for Natal Day activities. The chairman of the committee sending out the soliciting letters, George Churchill, was much discouraged when he gave his report at the committee meeting on Thursday evening. Mr. Churchill had sent the letters practically one week before the meeting and was looking for replies by return mail or phone. His first impression was that the merchants were not planning to support Natal Day in Digby. Others on the committee who had lived in the community much longer encouraged Mr. Churchill

when they advised him that Digby people do not respond that rapidly and often have to be reminded more than once. The committee felt that the merchants, as usual, would respond in time. The result of waiting for donations is that it holds many of their plans which they were anxious to get underway. The committee felt that the celebration of Natal Day could publicize Digby, bring tourists to town and give something for them to enjoy while here. This would be of benefit to all businesses in town.

Plans were made to have a Miss Natal Day chosen. Four candidates had entered the contest by Thursday evening and were to be sponsored by the Fish and Game Association, Kinettes,

Longtime Friends Meet At Music Rally

A musical Rally sponsored by the MARC (Music Among Retired Canadians), a new horizons program was held in the College Ste Anne's gymnasium at Church Point on Friday, June 6th with over 223 members of seven New Horizons clubs participating. Mrs. Hester Miller, Co-ordinator of the MARC project was in charge of the rally.

Clubs from the following towns participated: Bear River, Digby, Weymouth, Clare Senior Citizens New Horizons of Comeauville; Meteghan Salmon River, Port Maitland and Liverpool, all New Horizons. The latter club was special and was invited to furnish a portion of the program of music and singing. This group is known in Liverpool and elsewhere of course, as The Top Generation Merry Makers and they lived up to expectations with an hours program.

Registration commenced at 2 o'clock as nearly all clubs were already in the gymnasium at that time. It was slated to have registration of cubs start at in the afternoon with a recreational concert starting at 3 p.m. Time passed swiftly as the concert proved to be a very interesting one. The Liverpool group was applauded long and loudly following their presentation of music, songs and jokes. Each club presented a number in the second half of the concert which consisted of singing groups and step dancing.

Dinner was served in Ste Anne's College cafeteria and due to the large number of members attending the rally, the group was divided into two groups with one group dining at 5:15 p.m. and

the other group followed later. During the dinner intermission, entertainment continued with Mrs. Celeste Bourneuf of the Clare Senior Citizens Club of Comeauville playing the piano with a variety of popular, modern and reels for over half an hour.

At 7:15 or thereabout, a sing song took place as everybody in the gymnasium took part. They rattled the rattlers as the singing was loud and pleasant to listen to. At 8 p.m. Les Danseurs Acadiens of Clare gave a demonstration of square dancing with Cecile Comeau of St. Alphonse doing the calling. The square dance group was made up of adults and teenagers for the demonstrations.

The members of New Horizons clubs were invited to try their luck at square dancing and three squares were organized. The senior citizens who took part certainly caught on fast and they stepped lively to the music and they did very well also. Among the group in the square dance it was noted that Joe Casey of Victoria Beach, M.L.A. for Digby knew what it was all about as he showed those that were just watching, how square dancing should be danced. We also noted a Bear River New Horizons member, though we will not mention names, sprang along with the other square dancers and doing very well. We won't mention his name, but he has a mustache which is waxed at both ends. He certainly was enjoying the square dance, which ended at 9:30 p.m.

Special guests at the rally were: Joe Casey, M.L.A.; Jean R. Doucet, Regional director of Continuing Education for Southwestern Nova Scotia; Mr. and Mrs. Paul H. Stehelin. Mr. Stehelin is regional manager of New Horizons for the province of Nova Scotia. He spoke briefly to the New Horizons group at the rally. He encouraged them to continue the job for which they received grants from the Federal Government in the New Horizons project. Mr. Stehelin stated that he was very pleased to see such a good turnout at the Music rally.

Mrs. Hester Miller, co-ordinator of the MARC Project, said that she had enjoyed herself immensely during the rally and hoped that all who were present enjoyed themselves as much. She was very pleased with the good number of representatives of the New Horizons club in attendance, and it was very encouraging to see that it was such a success.

Mr. Paul Stehelin is a native of Church Point and was kept quite busy during the intermissions in renewing friendships with many members of the local area New Horizons clubs, who he has known for years. Some of Senior Citizens he encountered from Clare, he had not seen for a number of years, as they had migrated to the United States in the mid 1920's and returned to their native county, Digby

County and Municipality of Clare on their retirement.

If there was any New Horizons member who was not perfectly satisfied with the Music Rally it would be because he or she is hard to please. It was very interesting not only for the entertainment it brought Senior Citizens, it also was a means of meeting members from other clubs. Many new friendships were made at the rally.

My Dad

My Dad! Oh what a man. I wasn't very big I could hardly reach his hand. But when I did reach out, his hand was always there. Because I know and I believe, deep down he really cares.

Dad worked long hard hours for mom, me, and brother too. He never had to have anyone tell him, he knew just what to do.

Dad used to work in a fisherman's market in this small country town. And I guess you could say he knew everyone around.

I can remember mamma rocking me and my brother. We were waiting for dad to come home for it was time for supper.

I can remember staring out into the dark night, watching for daddy's figure. Cause it was time for dad to be home, and I was always eager.

Sometimes he'd walk through those cold winter nights. And it was hard, the cold, the snow, the rain he'd have to fight.

But we all loved him through and through and he's a real dad. I know, he knew.

And we are very lucky to have a dad like him, and yes I bet. I bet you've guessed his name, his name is Jim.

Sister Rita O'Keefe Lion's Citizen Of The Year

Sister Rita O'Keefe, formerly known as Sister Mary Charles, commercial teacher at Digby Regional High School since 1951 was on Saturday evening made Lions Citizen of the Year and presented with a plaque and bouquet of red and white carnations. The plaque was presented by King Lion Jack Walker and the flowers were presented to Sister O'Keefe by Lionette Mrs. Marilyn Beattie, Annapolis Royal.

In her response Sister O'Keefe thanked the Lions of Digby for the dinner and gifts which she said she will always treasure. This was the first time, she said that she had been honored in that way. Sister O'Keefe will be going to the St. Vincent Hospital, Vancouver, in August where she will be doing hospital visiting, help to cheer up patients, write their letters, go on picnics and other functions which can be enjoyed by the patients. Sister O'Keefe said that while she is looking forward to her work in Vancouver she will be leaving a little of her heart in the Digby area. They are the most wonderful people I know, she continued.

Sister O'Keefe who had served in Vancouver before said she will always be

reminded of the Lions in Digby for she will be looking out on four mountains, one of which is Lions Mountain, and she will remember the Digby Lions when she sees the Lions Gate Bridge.

Sister O'Keefe said she had not known about the splendid work of the Lions Club in helping people because the Sisters were not allowed to go out socially at the time she came to Digby and it is just within the last few years that the rule has been dropped and the Pope had advised them to come down from the ivory tower to the rest of the world. She mentioned how lonely she was when she first came to Digby, she had no friends but she was sent to do a job in the community and she did the best she could.

Sister O'Keefe showed a picture of her first ten business graduates in Digby. The next year there were 22 and each year the number grew until there were many who had to be turned away. She said she formed many friendships through the parents of these students from Digby, Annapolis, The Islands and places between.

Lion Arthur Everett, who was chairman for the evening, introduced the guest speaker Governor

Mrs. Marilyn Beattie, Annapolis Royal, presented Sister Rita O'Keefe with a bouquet of carnations at the Digby Lions Club banquet on Saturday evening when Sister O'Keefe was honored by being named the Digby Lions Citizen of the Year.

Arthur Chapman of Amherst. Lion Chapman said that this evening was a time for Lions to rededicate themselves to Lionism. The key to Lionism he said is its practical application to religion. Lionism is business, the speaker said, it is religion, it is a place to meet and eat and have social fellowship but it is more than that. It is service. The motto is service. It is a heritage challenging for tomorrow and could be an outstanding service in every community. It is a way to pay rent for room on earth.

Governor Chapman complemented the Digby Club in that it is one of the top clubs in the district and told them to try to keep this way. He remarked on the terrific response to the requested increase of clubs in Nova Scotia, reaching

more than their objective of fifteen percent increase. He urged as many as could do so to go to Dallas, Texas, for the international convention and remarked on the successful conventions at Amherst and Charlottetown. P.E.I. Lion Chapman was somewhat concerned about the Lions magazine which has to meet rising costs more and more and will have to have more donations or more advertising to survive. Communication, he said, is important.

Governor Chapman was thanked by Lion Patrick Fletcher and King Lion presented the Governor with a gift. Mrs. Chapman was presented with a gift by Mrs. Walker.

The Lions banquet on Saturday evening began with O Canada accompanied by Rev. Sister Gallivan and the

invocation was by Rev. Sister Gallivan. Lion Norman Kennedy proposed the Lions Toast and Lion Claude Westcott led in the Toast to the Queen.

Miss Margo Levy, accompanied by Sister Gallivan on the piano, delighted the audience with three vocal selections.

The guests were welcomed by Chairman Lion Art Everett who also introduced the head table. Councillor Bill Reid extended words of welcome on behalf of the town and remarked on the Lions wise move to honor Sister Rita O'Keefe who is

held in very high esteem in the town.

C.C. McInnis, superintendent of schools in speaking of the high esteem in which the honored guest is held remarked that Sister Rita O'Keefe teaches much more than business education. She teaches life and love. She has been a most valued member on the Digby Regional High School staff for the past seven years.

The meeting and banquet closed with the Queen and guests enjoyed a dance for the remainder of the evening.

Sister O'Keefe said that her work and that of the Lions were similar in that the Digby Lions Club has been helping people, especially children and she for the past 30 years has been trying to teach youth. She told the Lions that Friendship is a little word but it is people like the Lions that make it big.

Sister Rita O'Keefe was born in Saint John, N.B. and went to school at St. Vincent's High and Mount Carmel Commercial College. She furthered her education at the Teachers College, where she obtained a license for business teacher training; University

of Boston; Boston College; Rider College, Trenton, N.J.; University of Toronto; Marygrove College, Detroit, Michigan and at University of Dayton in Ohio.

Sister O'Keefe got her working experience at W. H. Thorne Co.; National Drug and Chemical Co.; General Motors; St. Joseph's Hospital X-Ray department and at Holy Family Hospital.

Her teaching experiences were at Mount Carmel School of Commerce; Holy Rosary Business College, St. Patrick's Business College, Digby and the Digby Regional High School in Business Education.

\$123,000 For Dredging

Dredging will be done at Saulnierville, Digby County, it was announced by Coline Campbell, M.P., on behalf of Public Works Canada. Verrault Navigation Inc., Les Mechins, Quebec, has been awarded a \$123,000 contract for the work.

The successful firm offered the lower of two bids received in answer to public advertisement. The other bid was \$123,230.

Under the contract about \$55,000 cubic yards of soft deposit material will be dredged from the harbour. The work should be completed in four months.

Plans for the work were prepared for Environment Canada in the Atlantic Region office of Public Works Canada in Halifax. Project manager is A.L. Sallaj of Public Works Canada.

50th Anniversary And Birthday

Islands Oldest Resident 92 Years

Mrs. "Jenny" Outhouse, reputed to be the Islands oldest resident observed her ninety-second birthday at the home of her daughter, Arlene, Mrs. Lynott Hersy, at Tiverton on June 10.

Mrs. Outhouse who has led an active life in the Tiverton community where she has resided all her life, was also actively interested in the affairs of the Christian Church (of which she was a member) until several years ago when failing health forced her to discontinue participation in the events.

Born in Tiverton she is the daughter of the late Mr. and Mrs. (Mariah) Milton Outhouse.

Though her family were unable to attend the birthday observance, Mrs. Outhouse received many

congratulatory messages and gifts.

Mrs. Outhouse has four sons, Ellsworth of Windsor, N.S., Edison of Port Maitland, Yarmouth Co., Alvertus and Murray who is lightkeeper at Boars Head, Tiverton, and one daughter, Arlene, Mrs. Lynott Hersy with whom she resides.

She has fourteen grandchildren and eighteen great grandchildren, and one sister, Mrs. Elmer ("Winnie") Wyman of Tiverton who is eighty-seven years old. She also has two nephews, Chester Outhouse, son of her only brother, the late Elbridge Outhouse and Milton Outhouse, son of her sister the late Mrs. Fred Outhouse, both of Tiverton. Congratulations are extended to Mrs. Outhouse.

Mr. and Mrs. Clayton Hewey of Allains River, Annapolis County, celebrated their Golden Wedding anniversary on May 17th. On the same day Mr. Hewey and the eldest daughter, Mrs. Willard Trimmer, Greenland also celebrated their birthdays which fell on the same date as the anniversary. Above can be seen Mrs. Hewey (left), Mrs. Trimmer (centre) and Mr. Hewey.

Mr. and Mrs. Hewey had fourteen children, eleven of which grew up, nine girls and two boys. One birth brought twins to the family. They are the proud grandparents of 40 grandchildren and they have eight great-grandchildren.

light of there being no men on the Task Force, Dr. Best remarked that nobody brought up the fact that there were no women on the Graham Royal Commission.

The chairperson made it clear that the work of the Task Force was not to try putting down the men of the province or to compete with them but its chief aim is to strengthen the position of women to be on an equal basis with men in work areas and civic matters.

Ms Joan McLellan said the Task Force on the Status of Women is in no way militant and is not in any way connected with what is known as Women's Lib. She felt some

Nearly 600 Sign Petition

Five hundred and ninety-five residents of Digby Neck and Islands signed a petition and forwarded it to Honorable Leonard L. Pace concerning the conditions of Highway 217. A copy of the letter signed by Preston Andrews, Rossway was forwarded to Joe Casey M.L.A. for Digby.

The petition drew to the attention of the minister that seven loaded school buses carry 217 children over these roads each day, the accident rates on the road are higher on 217 than most other sections of the province, the

surface of the road has deteriorated and seldom, it is found that snow clearing and salting of the road is attended to.

The petition asked that 217 be resurfaced and shouldered and ditches up graded. Further they requested the minister to have responsible local highway officials instructed on winter and salting conditions so that reasonable safety can be assured the students. The petition suggested that the snow and salting be done on 217 before such attention is given to other highways in the County carrying less commerce and traffic generally. The petition emphasized that the request was made to insure safety, especially the children.

Dr. Carrie Best

Most Vocal At Task Force

The subject having been led by Dr. Carrie Best, a member of the Task Force on the Status of Women which met in Digby on Thursday, the Task Force was most vocal in their support for Councillor Eileen Chipman in overcoming her difficulties with the Digby Town Council of which they had been reading in the past couple weeks. It was most apparent by the conversation that some members of the Task Force had concluded that the difficulty in Council arose from the fact that Councillor Chipman was a female councillor.

The Task Force presided over by the chair-person, Dr. Mairi St. John MacDonald, Halifax, felt that decision-making groups in the province are mostly men. Dr. Lorette Toews noted that

most positions on the legislature and Municipal Councils, school boards etc. are filled by men. Changes in the law they felt would only come when the women of Nova Scotia start talking with one another about the changes needed and give support to each other. One of the best things that women in this area can do, they said, is to attend council sessions and lend their support to Mrs. Chipman. There were about eight local women, only, at the Task Force meeting but Dr. Best felt that if nothing else came out of the Digby meeting, the women of Digby can be told through the media that Mrs. Chipman expects support of the Digby civic-minded women.

Mrs. Chipman, in joining the discussion explained to

Editorial

GIVE RE-PAVED HIGHWAY WHOLE-HEARTED SUPPORT

Frequently we are not quite as definite in our stand on certain issues. We take considerable time to assess the issues. For instance if pressure is put on the upgrading of a certain road and we are aware of little money to go around we are a bit reluctant to go overboard when there are other road needs as well. Not so with the petition signed by nearly 600 residents of Digby Neck and Islands which was sent to the Hon. Leonard Pace under the signature of Preston Andrews. We are behind these people and their petition one hundred per cent. Their petition regarding the condition of highway 217 gets our whole-hearted support and without exception.

The Digby Neck Road was in a poor state in the summer of 1974 but another winter of erosion has left the 217 highway presently in an almost intolerable condition. We say this from experience. A couple weeks ago we started on our way to Lake Midway to enjoy the provincial park so graciously put there by the provincial government for our enjoyment. We made Lake Midway with jolts and bumps caused by the cracked pavement but our confidence for enjoying the drive home to Digby had disappeared. Some other good soul with stronger grip had to manage the wheel. Certainly the excitement for driving to Lake Midway, to Sandy Cove beach or to the magnificent beauty and quiet of the Islands unless necessary, has gone. It becomes somewhat of a burden instead of that usual pleasure simply because of the highway condition. When the pleasure of the trip is diminished for us there can't be any incentive for our tourists to visit the Neck and Islands and the drive for the Islands and Neck people daily must become a chore.

The crossing of ferries, even as they are updated, is not always the most pleasurable means of transportation but to be bounced here and there on the mainland's Digby Neck for about 30 miles must be something like adding insult to injury for the Islands people.

There is another group of people who probably would lend their support to the 595 petitioners. We are thinking of all Digby Town and County merchants. Where do many of the shoppers come from? Why, Digby Neck and Islands, to be sure. It has always been like that but shoppers just might find catalogue shopping less exhausting than driving to Digby to shop.

Our intention was to mention this highway ourselves but we are happy that the people most effected have come out on their own. We give them our whole-hearted support for better conditions on the Digby Neck roads.

A FRESH START

It is still only the middle of June and the Digby Minor Hockey season will be opening sometime in October. That sounds like a long lapse between, but truthfully it is not. Time rolls on with rushing speed and before vacations are put back in the chamber of memories, the Minor Hockey Season is upon us. This is why Mrs. Victor Kynock, president of the Digby Minor Hockey Association and Mrs. Wood, secretary are anxious to get the ball rolling and well on its way before the fall season sets in.

A brand new executive has been elected to the Digby Minor Hockey Association and they are looking for assistance from parents and other helpers to give the boys a real boost and a truly happy and healthy hockey season. They believe in hockey for the boys and they are out to prove its benefits.

There are a few things to be done which will take a lot of time before October. No boy can play hockey without his Social Insurance card. The executive will be asking parents to make application for these. The executive wants to get the constitution of the Digby League up to date. There are coaches to be named, time-keepers to be found, referees, interested people, someone for fund raising, publicity and transportation. Mrs. Kynock and Mrs. Wood are expecting mothers or parents to attend the general meeting at the Digby Fire Hall on June 23 at 7 p.m. They plead with parents to attend the meeting, ask questions and offer suggestions. They simply state, that this is totally for the sake of the boy's hockey and they ask your support and be at unity of purpose with them.

Digby Minor Hockey is making a fresh start. It will continue so long as parents want it to. That is as long as they are interested and will take some responsibility.

WORKING HARD FOR EQUIPMENT

The Fire Commissioners for the newly formed Digby Neck Volunteer Fire Department, we notice by the news is right out there "pitching" to gather funds to buy fire equipment. And well they should be. There would be no point in forming a department and commission and then turn back the calendar to the bucket brigade.

Councillor Richard Daley and his electorate deserve congratulations for taking the forward step and they are now anxious to keep going forward. They see the wisdom benefits which a well organized and sufficiently equipped fire department can produce. Property can be saved and often a life is saved by having available equipment for emergencies. Like many of the departments, the Digby Neck firemen, will, no doubt, enroll in classes for learning the best and most modern practices in fire fighting and meeting various types of emergencies.

Yes, the firemen are willing to give of their time to protect Digby Neck citizens from fire and the Commissioners will endeavour to find ways to raise funds. What they need now is one hundred per cent support from the very people they are endeavouring to protect. Those are you and you and you. Are you prepared to back the essential service provided by your physical mental and monetary contributions to the cause?

Hodge Podge

Someone told us that we could have a whole column of hodge podge this week, such like, "Dr. Helen Creighton has nothing on The Digby Courier for ghost stories" Even though we can't remember them all we can enjoy them and hope that Dr. A.D. Pickett, Deep Brook, wasn't too disturbed when Admiral Digby took over the honor which should have been his in that famous news heading last week.

Let's get together on this. Up there in Barrie, Ont., Prime Minister Pierre Elliott Trudeau in his address to nearly 900 school students tried to justify the 33 and a third per cent increase salaries to members of parliament. He said, according to a daily newspaper, that the members deserve good salaries and the public should be prepared to pay them. He further said that if you don't think democracy is worth sending the best men and women to Ottawa, then it's a hard day for democracy. That seems a reasonable reason to raise the salaries of Members of Parliament until you read in another column in the same newspaper that Premier Gerald Regan said in Picton "This is an age when one's wages are not determined by one's ability, but by the pressure that can be exerted on companies and governments. People in essential services are forcing a wage beyond what the economy can bear by belonging to pressure groups." How did these members of Parliament get to be so almighty when they come from the same stock and breed as do also those hard working "wage earners" Mr. Regan spoke about. We hate strikes, we don't countenance them at all but we'd like to see a little consistency in salary and wage increases. There are some mighty hard workers who are not all in Ottawa despite the fact that there are too many people taking needless advantage of unemployment insurance.

Many subscribers to this newspaper are having the same problem as Kathy Cossaboom, St. Catherine's Ontario. The papers are so irregular in arriving. Some weeks we are told there are issues arriving and the next week there will be two. We've really heard of one of our American subscribers getting three different copies one week. If other publishers of weeklies didn't have the same problems in their set-up we would think this is a fault of our own making. It just isn't, American papers and other Canadian papers have the very same problem. Our subscribers

need news and do not necessarily want history. All we can do is to report to the postman. The papers go out regularly every Thursday. Remember the "good old days" when our mail came by train and by boat? My, haven't we regressed!

We did not know it, did you? We had a letter last week which arrived from Michigan, after the sender started it off for the second time. The letter which the Postal Department returned to him had this comment "Coins, bank notes or paper money are prohibited to all countries unless sent in a registered letter". The sender enclosed the returned envelope, into a new envelope and had it registered.

Dr. Carrie Best was certainly at her best when the Task Force on the Status of Women met in Digby. She was an outspoken, enjoyable and lovable person whom we had looked forward to meeting sometime. We did on Thursday. A few more Carrie Bests in the world not be a bad idea.

That Ed Knowlton down there on Digby Neck stole all of our thunder. He sends us a letter like this "Dear Edith, how in the world did you revive him?" Ed Knowlton. And do you know what, there at the head of the paper were these words clipped from the Digby Courier, "Admiral Digby Speaks at Horticultural Society". Well somebody took advantage and it wasn't Miss Mary Marshall who submitted the copy. Nor was it the editor. Just one of these strange things that happen with type. Ed stole our thunder. We wanted to say it first.

GOLFING FEES LOWERED

Following protest from Digby town and country side golfers at the increased fees for the golfing season 1975 at the Pines Golf Course, the fees were lowered to accommodate the players. Men's dues which were scheduled at \$150.00 for 1975 have been lowered to the 1974 dues of \$125.00 plus \$7.00. Ladies fees are also back to the 1974 schedule of \$75.00 plus \$3.00. First junior in the family golfs on \$40.00 dues and the second junior of the family \$20.00. All who have already joined the club at the increased fee will receive a rebate.

Recently graduated from Acadia University with a Bachelor of Arts degree was Miss Heather H. Morehouse, youngest daughter of Mr. and Mrs. Jack E. Morehouse of Sandy Cove. Miss Morehouse graduated from Digby Regional High School before attending Acadia. She plans to resume her studies in the fall towards a Bachelor of Education degree.

On Friday, May 23, Oregon Bible College, Oregon, Illinois held their Thirty-Second Annual Graduation. Among those graduating were Deirdre (Daley) Kirkpatrick, and her husband, Sydney Kirkpatrick. Deirdre is the daughter of Mr. and Mrs. Herbert Daley of Digby, and the grand-daughter of Mrs. Kate Daley and Mr. and Mrs. Arch Ellis. Deirdre's husband is now serving as pastor of the Church of God, Rockford, Illinois.

The Commencement Program opened and closed with selections by the College Choral, accompanied by Dennis Brown, also of Digby. Those attending the graduation from Digby were Mr. and Mrs. Herbert Daley, Mrs. Kate Daley and Mrs. Doris Brown.

reason for the earlier opening of 1975.

For the past few years the Pines has been the choice of stops for many chartered bus tours which have kept the popular Digby Hotel filled to capacity. This year, according to the manager, Roy Forham, is no exception and with the added booking conventions, the overall increase of accommodations reaches 30 percent. Among the convention bookings are

the Nova Scotia Bar Association which frequently meets here, the Navy League of Canada, the Highway Convention and the Medical Association of Canada.

The Pines as for the past several years made use of the winter months improving facilities and making additions for the comfort of the guests. The most striking of the 1975 improvements is the new recreations building.

women were reluctant to come to the meetings because they think it deals with women's lib. She said the Task Force feels every woman has the right to make a choice on her own and to develop as a full human being.

Mr. Giffin said that women have a great deal to contribute and they miss out by not expressing their viewpoint. She said there are problems in differences but women have much in common in their needs and only if they work together will they be able to make changes in society.

Local women participating in discussions were Mrs. Chipman, Mrs. Alfred Bontillier, Mrs. E. J. Theriault, Mrs. Waters Comeau and Jean Page. Due to a lack of advertising and publicity from the Halifax office few women heard of the Task Force sitting in Digby until too late. Some consideration is being given to a return in the Fall.

Letters To The Editor

Dear Mrs. Wallis:

On page 10 of the Digby Courier of June 12, I noted the following paragraph, included in a report of a town council meeting: "Town clerk Glen Pitman, extended his personal apologies to Councillor Eileen Chipman for the error in refusing her permission to vote at the rate-payers meeting on Wednesday". I would appreciate space in your newspaper to bring to the citizens a few of the details relating to this incident.

Following a meeting of the Digby Town Council on June 2 (Monday), the town clerk, Glen Pitman, called me to his office. He said he wished to speak to me now, in order to avoid trouble at a ratepayers meeting, scheduled for Wednesday, June 4. He was holding a letter which he said he received from the town solicitor. He said there were regulations now governing ratepayers meetings, which would make me ineligible to vote, or to enter the place of voting. When I asked for a copy of the solicitor's letter regarding this, which he was holding, he said, "There is not any ink in the copying machine." I requested to have one the following day. I questioned the clerk and he told me that he had asked the town solicitor for information regarding my status as a voter. He said, that although these "new regulations" prevented me from voting, I would be allowed to finish my term as a town councillor.

On legal advice, I attended the ratepayers meeting on Wednesday, June 4th. Contrary to what the clerk had told me, I was not prevented from entering the room. I went forward and stood in line to vote. The clerk told me that I was not on the list. I asked to be sworn in. The answer was "No." I asked, "Am I assessed?" The answer, "You are not a ratepayer." I asked again, "Am I assessed?" Again the answer, "No, you are not a ratepayer." On asking, "Am I assessed?" for the third time, the clerk answered, "Yes." "But I don't vote," I asked. The answer, "No, you don't," I returned to my seat.

By the following Monday, June 9, I had not received the requested copy of the solicitor's letter and I went to the town office to enquire about it. The clerk advised me that the letter was lost on the morning of June 3 (Following the council meeting of the night before). He said that if he found it he would provide me with a copy. I requested that he obtain a copy from the solicitor. He then passed me a letter, without letterhead or written signature, dated June 2, which read as follows:

Town Clerk, Town Hall,
Digby, Nova Scotia
Re: "Ratepayers" and the
Town Meeting By-Law

Dear Mr. Pitman:
This is to reply to your request that we provide you with a definition of a ratepayer for purposes of voting at town meetings under the Town Meetings By-Law. As you know, "ratepayer" is not defined either in the Town Meeting By-Law or in the Assessment Act, or, for that matter, in any other relevant provincial statute or Town of Digby By-Law. A definition therefore must be found in the general law applicable to municipal corporations. It has been held by the courts that unless otherwise defined by statute "a ratepayer is one who pays taxes whether a resident or not." This means that a person must pay taxes to be a ratepayer, and not merely be assessed on his property for taxation purposes. The rationale for this proposition is explained in Rogers,

"The Law of Municipal Corporations," Volume 1 at Page 30: "On the theory that those contributing by way of taxes to the municipal treasury should be entitled to a voice in the expenditure of

those funds the legislature has conferred the right to vote on municipal ratepayers both in the matter of the election of municipal representatives and of the creation of municipal indebtedness." It has been further held by the courts that utility rates are not taxes, but are the price paid for a commodity supplied to a consumer. Therefore, the mere paying of water or electricity rates will not bring a person within the definition of ratepayer.

In short, TO VOTE AT THE TOWN MEETING SHORTLY TO BE HELD IN THE TOWN OF DIGBY, ONLY THOSE CAN VOTE WHO ARE IN ATTENDANCE, AND WHO HAVE EITHER PAID OR ARE LIABLE TO PAY TAXES TO THE TOWN OF DIGBY DURING 1975. (The Town solicitor's name R. MacLeod Rogers, was typed at the end of this letter.)

The clerk then advised me that an "error" had been made in refusing me voting privileges and that he intended to make an apology at a meeting of council to-night (June 9). I asked him when he became aware of the error, and he replied, "Thursday morning." I asked why this was not dealt with at a meeting of council on Thursday evening, June 5, when the town solicitor was present, as well as television crews from two stations, reporters from three newspapers and a radio station. He said it was not on the agenda.

At the evening meeting of Council, June 9, the clerk apologized, stating that it was brought to his attention the morning after the ratepayers meeting that there was a section that covered the voting at ratepayers meetings under the Town's Act. He said that if it had been brought to his attention before Wednesday night's meeting, I would have been allowed to vote at that time. I asked the clerk where he obtained his information on my "ineligibility". He answered, "The town solicitor." I asked if someone had requested it and he replied, "Yes, I did." When asked why this was not on the agenda of Thursday night's meeting, the clerk said, "It wasn't brought up." "But it could have been," I suggested. He answered, "Had a member of Council wanted to bring it up."

The Town's Act, Section 123(1)(3), with which every town clerk, solicitor, and public official should be familiar, clearly states: "FOR THE PURPOSE OF TAKING A VOTE OF RATEPAYERS UNDER THIS SECTION, ALL NATURAL PERSONS WHOSE NAMES APPEAR

IN THE ASSESSMENT ROLL LAST FILED WITH THE TOWN CLERK, AS ASSESSED IN RESPECT OF REAL PROPERTY OR PERSONAL PROPERTY, OR BOTH, OR ASSESSED ON OCCUPANCY ASSESSMENT, WHETHER OR NOT THEY ARE EXEMPT FROM TAXATION IN RESPECT OF SUCH ASSESSMENT OR OF ANY PART THEREOF, SHALL BE ENTITLED TO VOTE." THE CLERK SHALL PREPARE A LIST OF SUCH PERSONS AND CERTIFY SAME FOR THE USE OF THE PRESIDING OFFICER."

It is my understanding that the ratepayers meeting could have been declared void. In view of the nature of the meeting, which was called to vote on the borrowing of \$16,000 to complete repairs to the forum, I decided it would not be in the best interest of the town's people to proceed with an action.

This is only one of the irregularities which have occurred with relation to town meetings and town elections and which give reason to question the performance of both the town solicitor and the town clerk.

Since my election I have attempted to seek information and become informed on all areas of town management, particularly finance. This seems to have upset a small group of men who appear to be attempting to intimidate me by viciously attacking my credibility as a public official.

I believe there is a need for a complete investigation of the multi-million dollar business known as the Town of Digby, and would sincerely welcome such action.

Eileen Chipman
Councillor,
Town of Digby.

1975 CURB RAMP CAMPAIGN

The Canadian Paraplegic Association, Atlantic Division, has recently renewed the annual Curb Ramp Campaign, which is directed at the elimination of architectural barriers presented by inadequate sidewalks. Our concern for the mobility of certain physically disabled groups has led us to enlist further support from the towns and villages within the Provinces of Nova Scotia and Prince Edward Island.

We feel that the circulation capabilities of your newspaper may be able to offer the extra support needed to make our campaign known throughout the community. It is our hope that you will encourage your readers to write their local Town Council on this important matter.

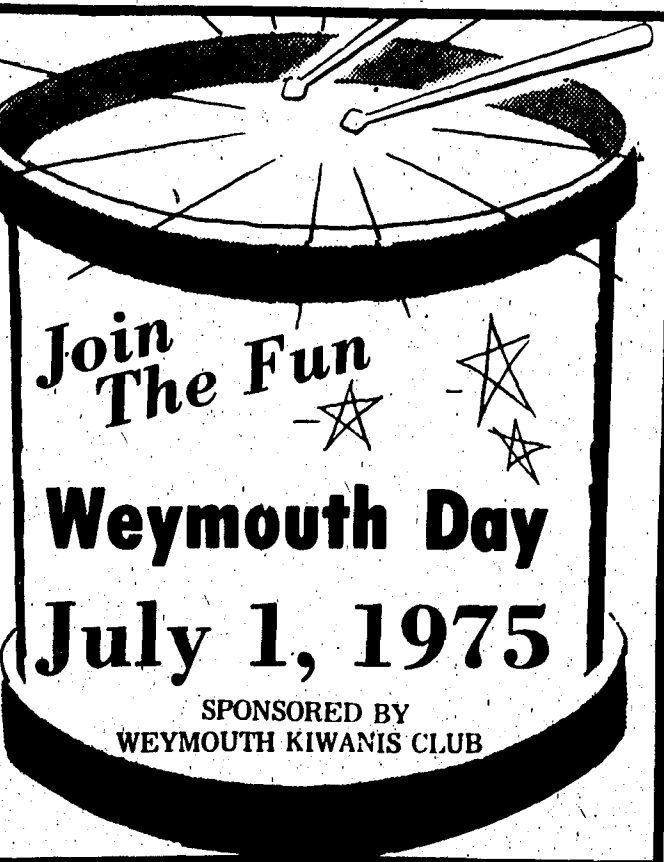

Yours truly,
Harold MacLeod

Hello:

I'm taking a "Canadian Armchair Vacation". It may not sound overly exciting, but I've been ill for the past three years (had to resign from teaching and unable to travel except to clinics and hospitals). Thus, I'm trying to make contacts across Canada for a study of our country. I'd deeply appreciate anything Canadian:

Weymouth Preparing For Big Day

Weymouth Kiwanis Club is preparing for a big day in their village on July 1st. The annual fair is being held at the Cricket Field formerly known as the W.A.A. Grounds where the yearly event is usually held.

One of the encouraging aspects for the committee in charge is that by the generosity of the people of the village and environs the prizes this year will be much more enticing than in previous years.

A spokesman for the Weymouth Day, issued a

welcome to all those who can from any town or village enter a float in the parade. Information can be obtained by phoning 837-5105 or 837-4939.

The special day will be both the grand parade as well as the children's parade. It is hopeful that bands will be available to accompany the parade.

Other attractions will be ox pulls, chance games, midway, Thomas Shows, can- teens, ball games etc.

The officers of Kiwanis have full support from all the various committees who are assisting in arrangements.

The Weymouth Kiwanis Club is headed Nelson Gaudet as president. Other officers are "Chuck" Brownin, vice-president; Fred Ross, treasurer and William LeFort, secretary. The Club announced that the Camp Grounds will be open directly and provide services in the usual fitting and enjoyable manner.

Bridesmaid was Linda Flynn, of Meteghan, N.S. friend of the bride, who looked charming in a floor length gown of floral polyester crepe with round neckline and puffed sleeves. She carried a bouquet of pink carnations and daisy mums.

Larry Hamilton of Hillsburn, N.S. nephew of the groom was best man.

The mother of the bride wore a blue and white street length dress with a blue corsage.

Foster - Brown

On Saturday afternoon, May 24th, a meaningful ceremony was held, uniting in marriage Susan Jane Foster, daughter of Mr. and Mrs. Raymond Foster of Sycamore, Illinois, and Dennis Ray Brown, son of Mrs. Doris Brown and the late Rev. Raymond Brown, of Digby.

The wedding, held at the Church of God, Oregon, Illinois, was conducted by a close friend of the Brown family, Rev. Clarence Lapp. (Rev. Lapp has been in the Digby area several times over the past years, the most recent being last November when he conducted the funeral of the groom's father.) In his remarks to the young couple, Rev. Lapp recalled that he had conducted a dedication service for Dennis as an infant, and now, in the same church he was conducting a ceremony which started him out on a new life, in establishing his own Christian home.

The groom and his mother walked up the aisle together and took their positions in the nuptial arrangement

until the Rev. Mr. Lapp came to the place in the ceremony which read "for this cause shall a man leave his father and mother and cling to his wife" when Mrs. Brown took her place in the pew.

The bride, who was given in marriage by her father, wore a floor length gown of ivory satin. Two of her sisters, Mrs. Delbert Rankin and Miss Sarah Foster, served as Matron of Honor and Bridesmaid. Attendants for the groom were Mr. Richard Williams, a college class mate, and Rev. Delbert Rankin, brother-in-law of the bride.

Following the wedding a reception was held in the church basement. The couple honeymooned in northern Minnesota for a week, then returned to Oregon, Illinois where they will be living until Dennis has finished his schooling.

Attending the wedding from Digby were Mrs. Doris Brown, mother of the groom; Mr. and Mrs. Herbert Daley, and Mrs. Kate Daley.

charge of the guest book. After a brief honeymoon the bride continued her studies as a student nurse, the groom is engaged in fishing.

Out of town guests were from, Dartmouth, Halifax, Tanook Island, Middleton, Bridgetown, Annapolis, Hillsburn, Kentville, Waterville and Meteghan, N.S.

IN MEMORIAM

MAAS - In loving memory of a dear Son and Brother, Kurt, who passed away June 21, 1973. Two sad and lonely years have passed, Since our great sorrow fell. The shock that we received that day, No one can ever tell. God gave us strength to meet it, And courage to bear the blow But what it meant to lose you No one will ever know. It's lonely here without you, We miss you more each day, For life is not the same for us. Since you were called away, You bade no one a last farewell. Nor even said good-bye. You were gone before we realized it. And only God knows why. It broke our hearts to lose you But you did not go alone. For part of us went with you. The day God called you home. Always remembered by his Mother, Brother and Sister. 45:1ip

SMITH - In loving memory of a dear husband and father, Peter Smith, who passed away on June 19, 1974. 'Tis well he will suffer no more, In the loved land of the blest, Pain fled as he trod heaven's shore; It left him at peace and rest. Always remembered by wife Blanch, children: Ernest, Chester, Celeste, Irene, Yvonne and Peter Jr. 45:1ip

JOHNSON - In loving memory of our dear mother, Dorothy L. Johnson, who passed away June 24, 1970. In a graveyard softly sleeping, Close beside a country road, Lies the one we love so dearly. Gone from us to her abode. Sadly missed by Amy, Ina and Robert. 45:1ip

WOOD - In loving memory of Walter F. Wood, who passed on June 20, 1971. They say you will not come again, But we shall always hear your voice in silence. And in song, and feel you ever near. They say that you have passed beyond. Unto the Joy supreme, but we can Always call you back into the land of dream. For death is but a gateway to the great reality, A new Beginning, not an end of human destiny. For love is all, and life goes on in spite Of grief and pain, and deep within our hearts We know that we shall meet again. Sadly missed by wife Connie. 45:1ic

IN MEMORIAM

MAAS - In memory of a beloved brother, Kurt Stephen, who left us so suddenly on June 21, 1973 at the age of 20. Nothing can be more beautiful Than the thoughts we have of you; To us you were so special. God must have thought so too. A million times we needed you. A million times we've cried. If only our love could have saved you. You never would have died. It broke our hearts to lose you. But you did not go alone, For part of us went with you. The day God called you home. To those of you who have a brother, Treat him with loving care. For you'll never know the heartache Until he isn't there. We'll always love and remember you Kurt - Sister Terri and brother-in-law, Ron. 45:1ic

Revised Vessel Subsidy Policy Announced

An interim fishing vessel subsidy policy was announced by Minister of State for Fisheries Romeo LeBlanc.

The policy, which will be put into effect immediately by the Fisheries and Marine Service, will apply only to bona fide fishermen. It will exclude those who have full-time employment outside the primary fishing industry. The program covers fishing vessels over 35 feet in length.

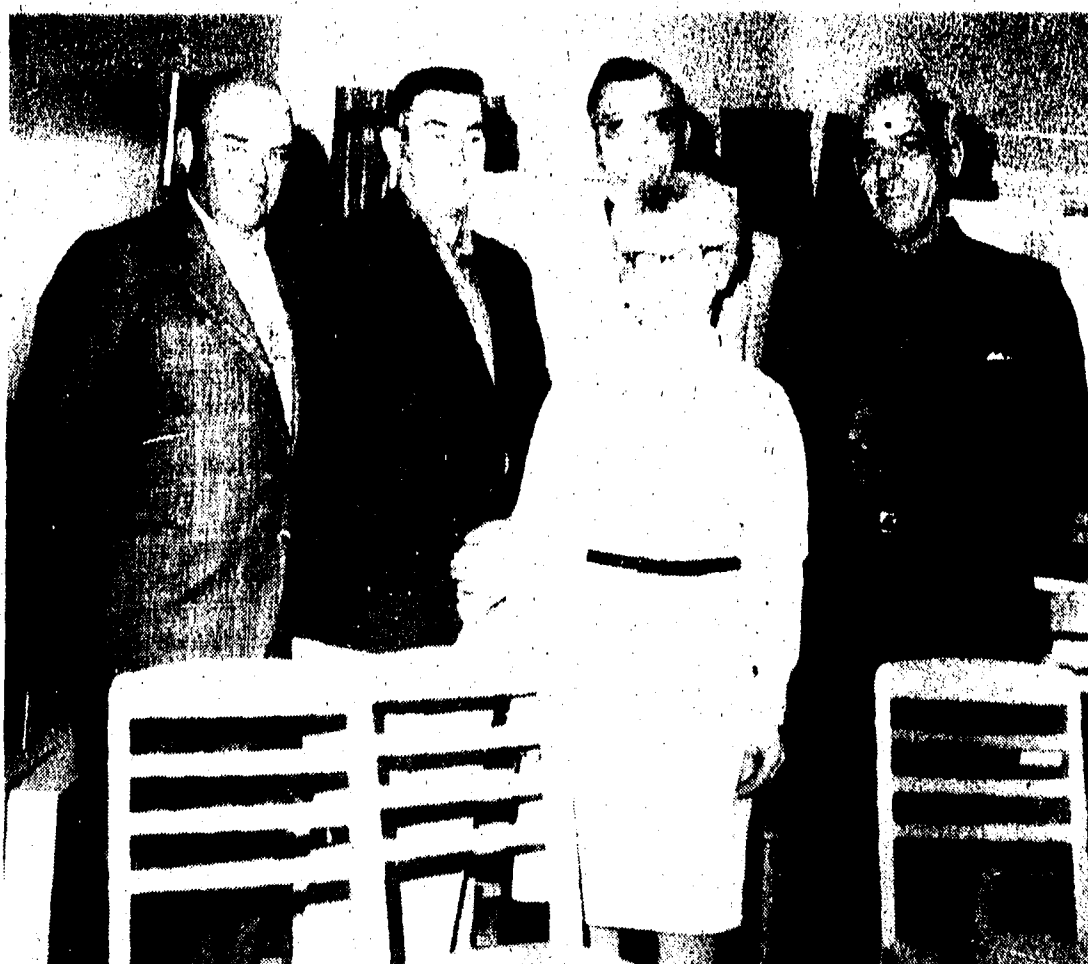

Subsidies for new vessels which constitute additions to the fishing fleet will be available only if they do not participate in limited entry fisheries such as salmon, herring, scallops, snow crab and lobster.

Subsidies for replacement vessels will be available

providing they qualify for licences to engage in both limited entry and non-limited entry fisheries and providing that the vessel to be replaced is at least eight years old.

"The qualification that replacement vessels in the limited entry fisheries have the capability to operate in at least one of the open fisheries will encourage fishermen to diversify and expand their operational capacities", Mr. LeBlanc said.

The short-term policy is an interim measure for the current year. A longer term fleet development plan will be established as part of the overall program for the rehabilitation of Canadian groundfish industry.

Members of the Board of Tideview Terrace were present at the Graduation of Nurse's Assistants on Thursday evening. Seated is Town Councillor Eileen Chipman. Standing are Deputy Mayor Philip Robertson, Digby; Councillor Richard Daley, Warden Wilfred Swift and Councillor Eric Van Tassell, of the Municipality of the District of Digby.

Digby Man Water Safety Supervisor

The Nova Scotia Red Cross has announced the appointment of five Water Safety Supervisors for the Summer. These resource people will assist with the planning of local Water Safety Programmes, with registration procedures,

teaching techniques, distribution of Water Safety materials and test sheets. Local instructors should check with their area supervisor to seek help in setting up their Water Safety Programmes, they should let them know too the dates and

times of the Water Safety examination procedures. Brent Hatcher of 29 Williams St., Digby, Telephone 425-5153 has been appointed regional supervisor for Shelburne, Yarmouth, Digby and Annapolis Counties.

The Supervisor will also provide the programmes with an over-all evaluation of their progress. The Red Cross Water Safety Dept. will assist instructors in updating themselves by presenting on-the-spot clinics to cover evaluation standards and procedures. The Water Safety Service is also adding new programmes this summer including Small Craft Clinics and Cold Water Survival Training.

Access roads are needed in forested areas to harvest wood and to apply silviculture techniques to improve stands of timber. Proper construction and maintenance are needed for speed and safety in transporting the forest products. Fire protection also depends on access roads that can bring equipment and fire crews close to the site of fires. Technical assistance in the production of the film was supplied by Karl Barnhill of the Forest Products Association and staff of the Department.

Film Wins Prize

A recent prize-winning film is now part of the educational library of the Department of Lands and Forests and the Nova Scotia Forest Products Association. The film, Road to Success, won the prize as best Super 8 mm. educational film at the Long Island International Film Festival in New York. A technical film,

it will be available to woodlot owners who want guidance in how to build access roads into forested areas.

Dealing with proper methods of building access roads and the need for them, the film was produced by the Halifax firm Skerrett Communications and photographed in Nova Scotia.

Thoughts On Your Mind

(Maureen Nowlan)

Many people have asked me what the differences are between their local Mental Health Association and their Mental Health Clinic. "The Canadian Mental Health Association is a voluntary organization of citizens dependent for the support of its work upon donations and contributions from the public, either by direct appeal or through participation in local united community funds." In brief, they have a knowledge of principles of mental health and take on a responsibility for public knowledge of these principles. The Association points out the need for and availability of services of all kinds as well as urging those responsible to make these services available.

One service provided through efforts of your local Association is the Mental Health Clinic. Both are in constant contact so the clinic

can be aware of community needs and the Association can follow how well needs are met and receive suggestions for ways to serve the community. The professionals of many disciplines working at the clinic are therefore hired and supported by the Association and receive payment and guidance in their profession through the Health Insurance Commission.

The Mental Health Association and Mental Health Clinic cannot function without each supporting the other. Through active participation by members of the Mental Health Association, the relationship between mental health and daily living will hopefully become a fact of life. Write this newspaper for further information in care of "Thoughts on Your Mind".

Armed Forces Day June 21

Air shows, land and sea demonstrations, open house events and a friendly welcome await the public at many Canadian Forces' bases and stations across the land on Armed Forces Day, Saturday, June 21.

Date of Armed Forces Day this year was selected to

herald the beginning of Canada Week, which follows up to July 1. The event offers the public an opportunity to inspect training and operations and become acquainted with the roles and capabilities of the Canadian Armed Forces.

Prime Minister Trudeau summed up the event in a message to the Forces:

"Due to our very good fortune, Canada has not been directly involved in any armed conflict for more than 20 years, and this may contribute to an attitude on

the part of many Canadians that we no longer have any need for a military capability.

"The men and women of the Canadian Armed Forces are making every effort to combat this attitude by demonstrating to their countrymen, and indeed to people all over the world, that the Canadian Forces do not owe their existence merely to the potential

The patients and guest from Tideview Terrace were taken on a bus ride through the Annapolis Valley to view the blossoms. Their hosts were members of the organization "Friends of Tideview."

During the early part of the evening the guests played games after which the honored guest was presented with a wooden doll cradle, decorated and loaded with useful gifts for the expected baby. The hostess for the evening was assisted by the members of the Ladies Auxiliary in the serving of a variety of refreshments. The Reginald Bremners have three children, the oldest is a girl, Cindy Lynn. She has two brothers, Reginald Tony and Adam Wade.

Twice Showered

Two pink and blue showers were given in honor of Mrs. Reginald Bremner and her sister, Mrs. Larry Bremner on Saturday, May 24th at the home of Mrs. Wayne Bremner, Bay View.

A small gathering of friends and relatives attended. The evening was spent playing games and the winners were awarded prizes.

The honored guest opened her many beautiful and useful gifts and to conclude an enjoyable evening a salad luncheon was served buffet style.

Speaks On Incorporated Villages

A meeting of the Bear River Board of Trade was held on Thursday June 12th with guest speaker Arnold Cameron, Administrative Officer of the Village Services Act, from Halifax.

Mr. Cameron outlined some of the various types of local government existing in Nova Scotia at the present time, ranging from municipalities, cities, towns, and incorporated villages under Commissioners.

Members were interested to learn that there were 25 existing incorporated villages already in operation, the majority of them being in the Valley area. Mr. Cameron covered the method of incorporation, from the study to the planning stage, and the resultant referendum to be held by the citizens of the designated area. He then considered the powers of Commissioners in respect of such facilities as were required for the effective running of an incorporated village. Many of these would continue to be maintained by the municipality, but the village would be free to extend some existing services, or initiate new ones which reflected the needs of the local situation.

He emphasized the fact that the Commissioners had a built-in limitation to their

activities, as they were required to work within the limits of public approval or request for any such changes or additions, but also pointed out that the closeness of the relation between the Commissioners and the taxpayers could result in productive upgrading of facilities which often failed to find priority in municipal planning.

The establishment of local by-laws, was given as an illustration of this fact, such by laws could give a greater control over the environmental and planning areas of the community, with the input from the community at large determining the standards and pattern of community development.

In respect of financing, the normal pattern of budget and assessment would be followed, with special mutual arrangements to be established with the two county municipalities in whose area of the village was set. He stressed again that expenditures were subject to public approval, and all borrowings for any

capital projects must have the same approval.

Arrangements for cost sharing were the same, for the most part, as those available for the larger municipalities, based on set formulas by the Province.

Mr. Cameron then answered several questions relating to the benefits accruing from incorporation, the duties of commissioners, the flexibility possible in planning, and some present concerns as to the possibility of increasing the effectiveness of some services which were felt to be inadequate, especially in the area of police protection.

The Rev. R. Winchester, President of the Board of Trade, thanked Mr. Cameron for his address and the information he had made available.

Friday evening, the Board held their Annual Supper in the Legion Hall. Before a good attendance, two awards were made, Mrs. Shirley Williams, Brownie and Guide leader, and Dr. Donald S. Brennan, who had been nominated for the Citizen of the Year Awards, were presented with the awards by the President. Both recipients replied, speaking of their gratitude for the honor and the personal satisfaction they had found in the service of the community of which they were members.

Dimensions In Pottery

by Bill Percy

Studio pottery, like any other skilled craft, is very personal. Every piece produced reflects in some subtle way the character, experience and aspirations of the person whose hands dream upon the acquiescent clay. The potter signs his work not with a stylus but with his whole personality. Written into the subtleties of shape and texture and colour is the story of his life.

Thus anyone visiting the recently opened Port Wade Pottery, near Victoria Beach, might deduce at once from the work on display that the maker of it has travelled much and led a full and interesting life. Visitors to the Western Nova Scotia Handcraft Demonstration and Sale this year will be able to judge for themselves.

The event will be held July 24 through 26 at the Annapolis Royal Regional Academy. Demonstrating his skill and selling his work at the Academy will be New Zealand born George Jardine, who is at present operating alone what will become a two-man business. He expects to be joined in the near future by his long-time friend and associate Arthur Weinstein whose application to immigrate to Canada from the United States is now being processed. Both men have led adventurous lives and have seen a great deal of the world. They find in the tiny village of Port Wade, an ideal retreat from all that, where they can practise their chosen craft with a minimum of distraction and in congenial surroundings.

Although they have been engaged in pottery for only five years, both have become extremely fine craftsmen. It goes without saying, after the remarks above, that their work is unique; it is

Ceramic Class To Close

Ceramic Class started early in September 1974 at Westport will soon be over for the summer months. The classes have been held at the home of Mr. and Mrs. Henry Porter and there have been three groups each week attending.

On Saturday June 14th some of the students from the classes met at the school and displayed their ceramics. This was open to the public to view. It gave the students who attended the different classes a

chance to see what the others had made. There were lamps, casseroles, bean crocks, many different ornaments and nick-nacks, many of the articles which had been just plain were nicely decorated by drawing designs and then being painted.

All in all it was a rewarding day and it is hoped to continue again in the fall, as it is a fascinating hobby and the articles taken home as a finished product surprises all.

NEW ASSESSMENT

REGULATIONS INTRODUCED

A bill was introduced in the Nova Scotia Legislature amending portions of the Assessment Act.

The bill, presented by the Hon. J. Fraser Mooney, Minister of Municipal Affairs, deals with three main areas of assessment:

- (1) Full Responsibility for assessment would be taken over by the province.
- (2) The Property Tax base would be split between the Municipalities and the province with the province taking over taxation of non-residential property.

around. When they came to Port Wade and saw the old house for sale, they looked at one another and both said: "This is it".

They decided to leave Italy when Arthur became ill, and settled for a time in London England. There they studied further, and first began to work with stoneware. They now work almost exclusively in this medium, although they do intend to later experiment with local clay. They favour a texture known as scraffito. Using glazes sparingly, mostly in subdued colours, they achieve pleasing and unusual effectively skillful interfusion.

Their pottery is well worth a visit. For those who cannot get to Port Wade, examples of the work done there are to be seen at Daureen Lewis's new Studio Wefan, on St. George Street. Seeing and touching this beautiful stoneware will be further inducement to anyone to be sure to get to the Western Nova Scotia Handcraft Demonstrations and see the skilled hands of George Jardine at work.

A THOUGHT STARTER

Rev. R.C. McCormack

CHILDREN ARE SOMETHING

No crops, business, nor any achievements are more important than the cooing babies in the cribs of the nation.

This treasure of children is the natural resource upon which tomorrow hinges. The future government, the future church, even future peace and security will be

determined by those who follow after us.

Right now these little buds of humanity depend on us. They must learn right from wrong, sense from nonsense, sin and righteousness from their elders. With or without certificate or salary every parent is a teacher.

How can any of us bring up children in the way they should go? Do it by going that way yourself. This uncomplicated pattern puts the parent "On the spot". Words may be forgotten, but examples, never. Kind parents beget kind children.

Home loving parents produce home loving children. God-fearing parents usually bring forth God-fearing children. Families growing up in an atmosphere of wrangling, intolerance and division will break home ties early, and have no worthy example for a home of their own.

Most children you and I know, have every so-called advantage, and nearly everything money will buy. Yet, they have missed the biggest start in life, if they have never heard mother and dad pray for them.

Being a parent involves time, sacrifice, and often firm discipline. Christ received little children, and dealt with them tenderly.

He calls us to this same high privilege.

Under the terms of the bill, two assessment rolls would be kept by a Town or Municipality; a Residential Property Assessment Roll and a Non-Residential Assessment Roll. Provision is made for the exemptions of trailers, travel trailers, tent trailers and snow vehicles.

Under the bill, assessment regions are no longer necessary since assessors would be appointed under the Civil Service Act and may perform their duties in any part of the province.

108 Graduates At D.R.H.S.

Develop a faith in God, in man and in yourself. Faith and character constitute the most valuable aspects of your life, said C.E. Edwards, inspector of Digby and Annapolis County schools, in his address to 108 graduates at the Digby Regional High School on Thursday evening. He said everyone is writing a book with their life in which will be reflections of their schooling. He challenged them to "be what you are; do the best you can; do not set

goals beyond your reach which might cause you to become discouraged. Live for others rather than self, he continued. Success in life, the speaker said is a matter of receiving and a matter of giving. The climax of the book, he told the students is up to you.

Mr. Edwards was introduced by Lister Hannah, principal of Digby Regional School and thanked by John Rogers, president of the 1975 graduating class. John

hoped the class members would produce chapters of the book of their lives which would make the speaker and others happy about them.

The graduation exercises began with the processional march, Land of Hope and Gory played by the Digby Regional High School Concert Band. The band also led in O Canada.

Presiding over the evening's program was Austin Morehouse, Sandy Cove, chairman of the D.R.H.S. Board. Valedic-

torian was Miss Linda Jayne. Peter Wong accompanied on the piano for the singing of the Graduation song and the Band rendered a second number. Following the presentation of prizes and awards the Band played the recessional number under the direction of their leader and teacher Donald K. Scott.

Two special gifts were presented. Miss Wilene Henshaw presented a plaque to Mr. Scott in appreciation of his service to the school

through the music department. Miss Francine Pottier presented a gift to Sister Rita O'Keefe on behalf of the secretarial department of the school. Sister O'Keefe leaves Digby in August to reside in Vancouver, B.C.

The highest award presented by the school was the Regional High School Memorial Cup with the presentation being made by C.C. MacInnes, superintendent, to Miss Julie Lynn Macintosh.

Two bursaries of \$150.00 each were awarded by the Digby Council of the Knights of Columbus. One is given to a member of the Protestant faith and the other to a member of the Roman Catholic faith. The recipients for 1975 are: Cynthia Anne Saulnier and Debra Joanne Vantassel.

This year the Royal Canadian Legion Bursary of \$150.00 was awarded to: William Lester Melanson. The Digby Local of the Nova Scotia Teachers' Union awarded \$200.00 bursaries

to John Stephen Nunn and Heather Dale Elms.

The following have been awarded universities scholarships: Satinder Walia - a renewable entrance scholarship of \$200.00 to Saint Mary's University.

Light Plane Sinks

The single engine ultra light plane belonging to Eddie Peck, Bear River, sank in the waters at Kedgie on Monday.

It is understood that Mr. Peck and Walter Farrell of Digby drove to Lake Jolly and took the plane to Kedgie to do fishing. After fishing several hours, it is said, that the men attempted to make use of the plane but noticed one float had taken in water.

It is understood that the plane pitch-poled on the lake and then turned upside down and sunk. Both men managed to escape to a nearby island. Mr. Farrell, not being a swimmer, remained on the island while Mr. Peck swam to shore and travelled fifteen miles to obtain help. With the help of his brother, Eddie, he made a salvage attempt of the plane.

Co-Founder of Comeau's Seafood Passes Away

Mr. Frederic Joseph Comeau, Saulnierville, passed away at the Yarmouth Hospital on Sunday, June 15th following a lengthy illness. He was 88 years of age.

Born in Saulnierville, he was the son of the late Theophile and Monique (Saulnier) Comeau.

Well known by the name of Freddie he started lobster fishing with his father at the young age of 13 and continued for 46 consecutive years. During the summer season he did carpentry work either in the United States or in Canada.

When he was only 17 years of age his father died and he had to assume the responsibility of supporting his mother and a family of 13 children.

For many years he represented Lunenburg Foundry Company in Clare. He also tried different ideas

Frown On Gambling Casino

The council of the Municipality of the District of Digby at their meeting on Monday decided to draft up a resolution to be forwarded to the Minister of Tourism and other authorities making objection to any proposal in legalizing gambling in Nova Scotia. If gambling casinos are allowed in the beautiful province of Nova Scotia, it will never be the same again council agreed. The subject came up after a note was read from Mrs. P. M. Gatt, Smith's Cove, a former councillor. Councillor L. E.R. Winchester made the motion which was seconded by Councillor Byard Marshall and carried. The motion included objections to public, private or any other sort of casinos for gambling.

By motion of Councillor Arthur Rice and Councillor Walter McAlpine, the district of Weymouth will revert to two separate districts with a councillor for each district. For some

years the representation has been two councillors for the entire district with no definite boundaries for either councillor.

The council decided to invite the Department of Lands and Forests to appear the second time at council on the subject of bears destroying sheep and restoration to the amount of loss to the owner. Councillor Byard Marshall, Bear River, introduced the subject by relating the loss of sheep owned by a lady in his district and she received no recompense for her loss.

Bear skins are sold for a lot of money, the councillor argued and the money on the price of the sheep should go to the owner. Councillors felt that the Department of Lands and Forests which protects the bear should be responsible for paying costs. It was felt that if someone wants to raise sheep they should be aided in doing so. Annapolis County has a new by-law regarding payment to owners when sheep are destroyed which Digby sanctioned.

William McMillan, clerk, read a letter announcing a meeting of the Task Force on the Status of Women. The date of the meeting had gone by before Council met.

A letter from the Nova Scotia Finance Minister, Peter Nicholson, Q.C. advised the Council that the Digby County Power Board could not be considered under the present act in the matter of tax exemptions. A motion was carried to Please Turn to Page 2

Deep Brook United Baptist Church

The Deep Brook United Baptist Church held a Dedication Service on Sunday afternoon, June 15, for the newly built Christian Education Center attached to the church building. The Pastor, Rev. Wallace H. Jordan, led the congregation in a responsive Call To Worship followed by the reading of a unison prayer. Scripture readings from the Old Testament, Micah 6:6-8, was read by Miss Nancy Ecker, and from the New Testament, Ephesians 4:11-16, by Gary Selig. Special music was presented by the Church

Choir singing, "God's House." "His Grace Is Sufficient" by Paula Ecker, Donna Moody, Eleanor Moore and Elizabeth Turnbull, and the Youth Group (Nancy Ecker, Bill Hall, Lori Moody, Marlene Potter, Gail Selig, Gary Selig) sang, "Mansion Over the Hilltop" and "Amazing Grace" accompanied by Gary Selig on guitar. Mrs. Bernice Adams, organist; Mrs. Paula Ecker, Pianist.

Robert Ecker, Chair. Bldg. Com., gave a brief resume of the history of the conception of the need for such a facility to aid in the Christian education outreach of the Church, of its realization in the completion of the present building.

Perry Turnbull, Treasurer, told of how the finances had been obtained, mentioning that at one time a large sum was needed immediately and of God's

overtaking and supplying the funds in short order.

A responsive Act of Dedication was participated in by the Pastor and People in dedicating the building to the outreach of Christian Education to the Church and Community.

Guest speaker, Rev. William O'Grady, Atlantic Baptist Convention, Saint John, N.B., brought greetings from the Convention staff and presented an inspirational and challenging message, reminding those present that Jesus called His disciples priests and ministers of the Lord God and closed with the prayer for the Holy Spirit to minister to the people as they in turn minister to the church and community.

A tour of the facilities and a social hour concluded this special service. Lunch was served by the Dorcas Society of the church.

TIME FOR WHITE LINES

The Nova Scotia Department of Highways has decided it is time to renew the white lines marking traffic directions and safety zones on the highways of Nova Scotia. It certainly isn't too soon to be up and doing something of that nature. Naturally, we think of our own town streets which have not to date of writing been started on renewal of the white lines for pedestrian traffic and for other safety measures.

Most of us in the town, of course, are accustomed to the markings on our streets but what about outsiders who come to town a few times a year. Further to that, how do we expect tourists who are totally unacquainted with our town to know where the crossings are. The markings need to be white enough and striking enough that they catch every eye.

We do want tourists here. At least, we cry loud and long for more and more tourist traffic. Surely, if we want the tourists to visit our town to shop around, to enjoy the scenery and social events we should have the responsibility of protecting their safety and the safety of others as far as possible who might be involved. Crosswalk lights hung above are a great help but could be missed by a motorist trying to find his way. The white lines also are needed for the protection of our home people and those who come to visit us.

GOOD TRANSPORTATION VITAL

Transportation Minister Jean Marchand has proclaimed June 8 to June 14 a National Transportation Week in Canada. Nice to know. After all, as the transport minister says, he "thinks it appropriate to have a transportation week every year to communicate with the contribution made by transportation in the development of Canada". Transportation affects the lives of more Canadians than any other single endeavour coming under governmental responsibility, the minister continued. We have to agree with him on that score. Transportation was an important asset to the development of Canada in its earlier days and transportation remains to this day an important part of the development of any of our towns and villages. Digby is one area that continues to have a transportation problem.

Yes, National Transportation Week, with the theme "Keep Canada Moving", has come and gone for this year. The Proclamation gave the dates of observance for June 8 to 14. Maybe we should have done more through the media of this newspaper to focus attention on the vital role of efficient transportation in the economic and social development of the nation but when we received the proclamation and press release from the National Transportation Week the date of June 8 had already passed by. Right here we might give other government departments and civil services the reminder that copy for insertion in newspapers should be in at least a week before, preferably two weeks before. So many departments have this lateness as a fault. Or is it a fault of that unsatisfactory mail service?

Anyway, be that as it is, transportation has been a subject for important discussion in this area for many years. It has been one of the liveliest projects that the Digby Board of Trade has undertaken at any time and each and every person in the area should attend these meetings to support the Board in their attempts.

June 8 to 14 has gone by. Transportation Week is over but that does not say the subject of transportation can be dropped until June 1976. It is ever with us. Good transportation is a vital link in our lives for it is so necessary to the economy of the area.

ARE FINGERPRINTS LEFT ON ROCKS? (CONTRIBUTED)

What is to be done about vandalism? - that senseless destruction of property by immature persons with sick minds. The police cannot be everywhere to catch the criminals in the act, and if they are identified and caught, what is a fitting punishment? Certainly prison is not the answer. At great expense to the public, it does not reform the criminal nor compensate the victim.

A case in point is a house on the highway in Barton, bought about twenty years ago by an office worker from "the States" with savings from salary. The house was an old one without paint or improvements. Each year renovations

were made and now, nicely painted with neat lawn, it is an asset to the community. The owner is now retired, living on fixed limited income, and comes each summer with friends and relatives, to enjoy the beauties of our Province, and incidentally, add to the economy.

This spring rocks were hurled through the windows of this house, not once but many times. The caretaker replaced the panes and they were rebroken. The damage was not only to the glass, but also to the window shades, curtains, and in some cases, furniture. It seems the energy used to throw the stones could be put to better use!

What is the answer? With diligent surveillance by responsible citizens, co-operating with the police, it seems the vandals could be apprehended. Responsibility for justice then lies with the Courts. Maybe our ancestors had the right answer with public whippings, causing shame and embarrassment to the wrongdoer. Justice would be served if the vandals were forced to repair the damage and repay the victim. "Let the punishment fit the crime."

The power of an aroused citizenry has no limits. Let us put a stop to vandalism in our neighborhood - and in Digby County.

Hodge Podge

The municipal clerk at the Municipality of the District of Digby read to councillors at the monthly meeting on Monday a letter announcing the Task Force on the Status of Women would be meeting in Digby. See what we mean? The Task Force has been here and gone. So many notices come out entirely too late to take full advantage of the events. A very flagrant neglect of government communication - or, is it the mail service?

The council of the Municipality of the District of Digby on Monday declared the week July 20 to July 26 as Senior Citizens Week, when they will salute the top generation. They forgot to mention whether or not senior citizens get a holiday thrown in for Senior Citizens Week.

There are some people whom we know must certainly like the home-town newspaper, The Digby Courier. One subscriber, whose paper does not expire until January 1977, sent \$16.50 for three more years which will have paid the subscription to January 1980. The subscriber was aware of the dates and sent the renewal order to 1980.

Don't know how the Digby Regional High School big bosses are going to justify themselves before Human Rights. Their official graduation list for 1974-75 was listed in one column "girls" and the other "boys". You must know that discrimination of that sort is just not tolerated in today's world. "Even the Task Force on the Status of Women might take you to task for such a slip in this International Women's Year. We have no suggestions to offer except to use graduate person like chairperson.

Letter

Letter to the Editor

Dear Mrs. Wallis:

People in our community don't like people. When it takes a big brave man or woman to shoot a dog, you begin to think that maybe it was a German Shepherd vicious on their property. If he's just passing over your property and you don't want him there couldn't you throw a few stones or scare him with a brown to send him on his way. Or if he's destroying a garden or something report him to the owner. Because you know almost every dog has an owner and most of them are little boys and girls who would be awfully heart broken when their dog doesn't come home.

Dogs are as you've always heard "a man's best friend."

Dogs are good company when you are alone. So think what you will, but I'll repeat that it takes a brave man or woman to shoot a bound dog, high and which is scared of his own shadow. When you shoot at a dog, you're shooting at a person.

THE DIGBY COURIER.

A Salt Lake City couple, retired, wrote to their friends "No TV, no business, no worries, no phone, no money, no prospects, when we get the urge to work we rest until it passes by, lots of time for visiting." - Sounds great!

Facing broken windows and other vandalism on arriving her for the summer, one correspondent writes thus, "I understand there has been a great deal of this senseless destruction in and around Digby recently. It is prevalent in the cities, particularly in recent years, but we are disappointed to find it in Nova Scotia. It seems to be a sickness - would that we could find the cause - and cure!"

Way over there in India we find Prime Minister Indira Gandhi in heaps and heaps of difficulties. Could that be because of her being a woman in that position. Shucks, why didn't we ask the Task Force on the Status of Women when they were here in Digby recently. Shouldn't jump at conclusions just because it happens to be International Women's Year. All difficulties do not arise solely because women are women when occupying the seats that looked upon as a man's domain. Takes more than just that.

"CONNIE"

Carolyn Marie Francis, known to her family and friends as "Connie," Smith's Cove, was given special recognition during the graduation exercises held Thursday evening, June 19, at Digby Regional High School.

Mr. L.W. Hannah, principal, called Connie to the platform and then told of perseverance, good attendance and cooperation during her years in grades through 11, this achieved in spite of her handicaps.

Because of this, the staff felt that she deserved some token of recognition and called upon Guidance Counsellor, R.M. Fraser, who presented Connie with an initial "D" pin to represent her school, DRHS. Those present were warm in their applause and congratulations to this determined young lady.

Connie is the daughter of Mr. and Mrs. Thomas (Angie) Francis, Smith's Cove. Mrs. Francis could not say enough for the assistance given to Connie by the Staff and Mr. Fraser which was often beyond the usual routine. She felt that this had been instrumental in Connie being able to carry on throughout her student years.

This interest of teachers and class mates promises to continue in the future as they watch and

encourage Connie's progress.

FROWN ON GAMBLING CASINO

Continued From Page 1 write to the department again and ask them to stop "splitting hairs."

In the matter of a request for a \$6000 grant to the Digby County ambulance which had been laid on the table at the May meeting, it was decided to request John Gray, the owner, to come before the next Council meeting and be prepared to submit an audited statement of his accounts.

A letter was read from the Department of Highways stating that the department has no direct responsibility for sidewalks on Warwick St. as had been requested by the Municipal Council. They agreed to the upgrading of the street, Councillor Helen MacNeil felt the government should make an exception in this case as the traffic in and out of town was heavy in the Warwick St. and Conway area. Council decided it was necessary to insist on a

sidewalk on the South side of Warwick as it creates a serious situation for the safety of a thickly populated area. Joe Casey M.L.A. was to be asked to look further into the matter. Danger at the Victoria St. Warwick St. intersection was also emphasized.

The Municipal Council proclaimed July 20 to 26 as Senior Citizens Week in the municipality of Digby.

The placement of those applying for Social Assistance was decided to be at the place of the applicant when the request was made. This followed correspondence to that effect from Annapolis Municipality.

An invitation from Mayor MacIsaac, Bridgetown was read to attend the meeting of the Nova Scotia Social Service Council at Bridgetown from 7 p.m. to 9 p.m. on Wednesday and Thursday, June 25 and 26.

The Council requests meeting with citizens so that the citizens can state their specific needs. The Digby Municipal Council decided to forward a brief through their Welfare Committee. Much discussion arose on the able bodied people who get social assistance and not willing to work. Quebec, they said is instituting a program which will require every able bodied person to work.

According to media reports Prime Minister Pierre Elliott Trudeau has said that anyone who does not want to work is entitled to have the leisure they want. Digby Municipal Council felt that people should be forced to work if able and also felt that P.S.A. needed investigation in its administration.

The Digby Municipal Council by motion will request the Clare Municipal Council to request the highway department to pave a section of Route 340 from Corberrie to the Yarmouth County line and Digby Municipality would support them. Mention was made of the lack of calcium chloride on unpaved roads causing dust to fill the air. Farmers were experiencing dust on the hay crops as well as the homes in the areas not sufficiently spread with calcium chloride application.

It was moved and approved that a copy of the new taxi by-law be submitted to the Department Municipal Affairs for ratification and the old one deleted. Councillor Helen MacNeil felt that a taxi rate should be set down.

Smith's Cove

(Phyllis S. Winchester)

Mrs. Gerald (Kay) Young, Smith's Cove, enjoyed a three week visit to London, England, and Scotland with Mrs. Arnold Doucette of Conway. While in Britain,

they were guests of Mrs. Doucette's parents, Mr. and Mrs. Robert Farrent of Liss, South Hampton, England.

In relating her visit to London, Mrs. Young told of seeing the churches, Big Ben, enjoying lunch in a park, and observing the Changing of the Guard at

Buckingham Palace. She also told of seeing an immense Yew tree which is over 1,000 years old in Selbourne dating back to the days of William the Conqueror. She was very descriptive of the beautiful gardens each English home has.

They also enjoyed a visit to Scotland where they were guests of Mrs. Doucette's uncle, Mr. Williams, of Larbert. During this portion of her trip, Mrs. Young was delighted at the scenery; walks in the countryside; a visit to Stirling Castle (Regimental Headquarters of the Argyll and Sutherland Highlanders) which is still in use and well-kept; to the Covenanters Inn, Trossachs and its charm; and reminded of her native land, Nova Scotia, and saw why it had been called "New Scotland."

Throughout her trip, Mrs. Young was impressed by the friendliness of the people of England and Scotland and returned home with many happy memories (and photos) of her visit.

CONGRATULATIONS to our graduates! - Jane Kinsman (Mount Saint Vincent, Halifax); Wendy Hill (Institute of Technology, Halifax); Michael Francis and Fred Raymond (An-

napolis Regional Vocational School, Middleton); Peter Freeman, Ralph Raymond, David Raymond, Sherry Robinson and Susan Woodman (DRHS); and to Connie Francis for her achievement in completing 11 years of schooling inspite of handicaps.

Additional congratulations are extended to Sherry Robinson who received a renewal scholarship of \$1,000 to Acadia University, and to Peter Freeman on receiving the Eva Wendell Current Event Cup.

Peter Francis, son of Mr. and Mrs. Thomas Francis, was among the enthusiastic Cubs who spent the last weekend camping at Johnson's Christian Park, North Range.

5000 VAN TASSELL LINES NAMES

Richard Van Tassell, Ottawa, who visited his mother, Mrs. Osbourne VanTassell, brought to the Digby Courier a 535 page hard covered book on the VanTassell family genealogy. The genealogy was compiled by Mary M. (VanTassell) Pazurek of Vancouver and contains 5000 names on the Van Tassell line from 1574-1974. Mr. VanTassell purchased the \$80 document.

The VanTassell family are of Dutch descent who came to the New York State and from there, along with Handspikers migrated with other Loyalists to Nova Scotia.

The Digby VanTassell family had a small part in the book as Mrs. Pazurek had corresponded with all

the families for information. Digby Town Councillor Guy VanTassell had forwarded information to the writer. The Osborne VanTassell family consists of Guy in Digby; Kenneth, Quebec; Russell and Dennis, Vancouver; Ronald in Hamilton; Mrs. June Perrin, Halifax; Mrs. Kaulback and Richard, Ottawa. The mother, Mrs. (Mabel) VanTassell resides in the Senior Citizen's Apartments. There are 20 grandchildren and five great grandchildren.

Mrs. Pazurek had put several years of strenuous effort in the project and had sold an antique collection, it is said, to obtain the money to finance the project. Richard VanTassell and Mrs. Kaulback, who have one of the copies each are proud to be owners of the genealogical production and others in the family are also most interested in the completed 535 page book.

Mrs. Pazurek made use of Court Houses, Historical Society, family Bibles, Church records, deeds, wills, war records, school records and genealogy departments. She had spent 40 years in collecting the data. She traced the ancestry back to when they lived at Isle of Texal off Northern coast of Holland. The name can be found as VanTexal, Van Rassel, Van Geisel and VanTassell.

Thoughts On Your Mind

Many people ask me what good it does to talk about problems. First of all, someone just sitting there really listening to you means your problems are significant and that someone care about you. Secondly, thinking out loud helps - actually putting your

thoughts into words gives them a note of reality. You can figure out how much importance you attach to them, as well as organize them to communicate them. When the person gets you to clarify, it helps your to clarify for yourself. Often too, as you explain you must rethink a lot of things and bring up subjects that influence your thoughts. It can clear your system for working out problems step by step.

Many people are better listeners than others, since its a learned skill. A good listener can try to pick up on what you are really saying, say it back to you, and you can find out - as if he were a "sounding board" how people interpret what you say and do. A good listener can also pick out common threads in what you talk about and present that to you to see what it means to you. He can then "put himself in your shoes" and try to feel as you feel. This is called empathizing and a listener with empathy for you will allow you to feel very comfortable talking with him.

Listening is not enough, of course, and the process goes on, either with you taking action from your now-clear standing point, or with the listener becoming a helper and assisting you in the process of problem-solving. Write "Thoughts on Your Mind" in care of this newspaper for further information, comments, suggestions.

DUDES PREPARE NATAL DAY FLOAT

On May 21 a woodworking class was held at the Comeau-Brighton home. Present were Dougie Morgan and Jerry Cromwell. At this meeting it was decided that they would build a bird house as a project and were shown the importance of having proper graphs. The remainder of the evening was spent in learning the proper procedures of drawing a graph to scale.

On June 12 a formal meeting was held at the same home and it proved to be one of the best ever. Most Dudes were present, also present were the three leaders, Nora Comeau, Wayne Comeau and Leroy Warner. It was decided at this meeting to enter a float in the Natal Day Parade. A date for the clubs achievement day was set for August 18.

Camp Rankin, Cape Breton was further talked

about and a few applications were submitted by members. This camp opens its doors each summer for 4-Hers from all over the province. The councillors are all competent and well trained people and can offer a variety of interesting activities. The age group for this camp is from 10-13. A bus is supplied for picking the interested member. The fee is \$20.00, \$5.00 of which is paid by the club and \$5.00 by the 4-H Council. The balance of \$10.00 is paid by the 4-H member.

A 4-H Short Course on varying subjects is being held at the Nova Scotia Agricultural College from June 30 to July 4 for members 14 years old and over and some time was spent discussing these courses. Some members showed an interest in going and adequate transportation is trying to be found for these interested members. The course is \$10.00, \$5.00 of which will be paid by the club and \$5.00 by the 4-H Council.

On June 17 both a calf and food group met at the Comeau home. Mr. Bard Hood, 4-H Assistant from Lawrencetown was present to discuss various aspects of judging and the proper showing of cattle. He gave a very effective demonstration and answered numerous questions. The calf group later assembled in the living room and were shown cattle posters and later a series of slides. It was a very informative evening for all present, leaders included. The food group made squares. Projects deadlines were talked about and plans for the coming achievement day were discussed. While

The Garlos

THE GARLOS, a family group, presented the Gospel message in testimonies, song and the spoken word at the Drive-In Service on Sunday evening, June 22. The service, sponsored by the Smith's Cove Baptist Church, was held on the grounds of the Smith's Cove Consolidated School. Rev. Wallace H. Jordan, pastor. During the service, Mr. Myers asked the people to

step out of their cars and join them in singing the inspirational and beautiful song, "How Great Thou Art." As the people sang, the music could be heard bouncing off the trees and surrounding hills of God's world in this beautiful countryside.

Next Sunday, Lic. Richard Moore of Deep Brook will bring the message and

special music will be presented by Ken Robinson, Franklin Thompson and the Clementsport Baptist Church Choir under the direction of Mrs. Alice Blacklock.

Lic. Richard Myers gave a thought-provoking message on "YOU" emphasizing the need of making a decision regarding one's life in relationship to God.

Rev. Wallace Jordan Addresses Jet Cadets

Rev. Wallace Jordan, minister of the Deep Brook

Smith's Cove Baptist pastorate was guest speaker when the Jet Cadets held a banquet at the Church of God, Mr. Jordan who represented the Confederation on Drug Problems showed film strips and talked on the problem of smoke and alcohol as they effect health. The third ranking problem today, he said, is alcoholism and he deplored the fact that a large percentage of problems result from teenagers who have learned to drink in their own homes.

Jet Cadets at the Church of God, Digby, include twenty-five children from nine years to 13 years in Digby and area. The leaders and staff made up a total of 45 persons attending the banquet.

The evening banquet opened by a toast to the parents proposed by Jean Brown, vice-president responded to by a toast to the Cadets by Jean's mother, Mrs. Raymond Brown. Rev. Francis Burnett, supply pastor offered prayer.

Awards for good conduct, memory work and service projects were distributed by Miss Elaine Handspiker, who also handed out literature for the Jet Cadets and their parents.

The Digby Jet Cadets will enjoy camping at the Johnstone Christian Park, South Range, in the summer. They wear their identifying uniforms and are part of the national organization.

Students Have Art Exhibit

The Continuing Education Classes for adults in Oil Painting were held in Saint Bernard's School during the past months.

Through the cooperation of the Administrator, Charles Doucet and the Instructress, Mrs. Hildegard Doucet, four "students" from the Weymouth area were included with those from Saint Bernard's, Belliveau Cove and New Edinburgh.

To mark the closing of the classes an Exhibition of paintings done by the "students" was held in the Saint Bernard's School. There were 57 paintings which included, still life, seascapes and scenes from the local surrounding area. Also there were several original paintings.

The eighty people who visited the display voiced many favorable comments to the students and complemented Mrs. Hildegard Doucet on her leadership and instruction.

Mrs. Doucet was presented with a corsage and several other gifts in appreciation of her help.

Refreshments were supplied by the students to guests.

Chimes To Cherish

Anne Kaye

GRADUATION THEME

As I stand upon life's highway that wanders where no one can see,
This I know the way I travel is entirely up to me.
The great, wide world is waiting, and it's time for me to go,
down the paths that are unknown, on the high way or the low.
I would like to walk in sunshine, with no clouds upon my way
but I must expect some hardships, skies sometimes, can be,
quite gray.
Will I have the strength and courage, the will to do the right
to seek out life's true values, as I journey forth tonight?
Let me meet each challenge bravely, each new task that I
may find.
Face the problems that confront me, with a broad and open
mind.
Let my light shine on the highway, brighten up each path
that's mine, help to others who may follow, footsteps on the
sands of time.
May I meet success or failure, with a courage strong and
free,
not to disappoint or sorrow, those who put their trust in me.
So at last may I remember, just to aim my ideals far,
Search for things that really matter,
Tie my dreamings to a ...Star.

Mrs. Edgar Richardson, Lower Granville, guest speaker, presented a most interesting message "What Do You Want?" She spoke of our people having so much and then of Christ's promise of an abundant life. She went on to tell of the beauty of India, where she had served several years as a missionary, and of the contrast of the dire poverty on the other side. Her many reminiscences of her work and experiences in India held the interest of her audience throughout her message.

TUESDAY NIGHT AT THE MOVIES - Sorry no information is available at this time.

Gordon Craig, Head of Television Sports, says the CBC's English television network will provide viewers across Canada with unprecedented coverage of the 1976 Summer Olympics in Montreal, with special emphasis on Canadian athletes.

Craig said the network will telecast approximately 175 hours of Olympic action - about 11 hours a day - during the 16 days of the Games, July 17 to Aug. 1. The majority of the coverage will be live, including the colorful and ever-spectacular Opening and Closing ceremonies, and the running coverage will continually update highlights of each day's activities.

"This once in a lifetime happening will be the largest single sports event ever tackled by our department," said Craig, "and it will bring together for the first time for a single project all of our sportscasters and producers from across the country." "Since the Games are being held in Canada, the largest number of Canadian athletes and teams ever to take part in Olympic competition will be assembled in Montreal, and our coverage will reflect the higher interest that the Games will have for all Canadians," said Craig.

As Host Broadcaster for the Games, the CBC has exclusive live television rights in Canada.

WEEKLY T.V. GUIDE

June 25 - July 2

BARBARA FRUM

Barbara Frum, winner of two consecutive ACTRA awards for her brilliant work on CBC Radio's *As It Happens*, has her own CBC-TV network summer series, called *Barbara Frum, Saturdays*, 9-10 p.m. until July 26.

THURSDAY, JUNE 26, 1975

Above, along with the superintendent Mrs. Eleanor Rice, rear left and the administrator, Russell Stonehouse, rear, are graduates of the nursing aides class at Tideview Terrace.

Bird Haven

THE BIRD BATH

This is one of the best bird stories I have ever heard. It seems mother Starling had three babies out for a Sunday Morning fly. They landed at the side of a nice pool with a little fountain.

She took a bath herself and tried to get the youngsters to follow. They would go to the water's edge, then back away. Finally in desperation she picked one up bodily and dropped it in the pool. I don't know if she did the same thing to the other two or not.

One night last week two gentlemen from Plympton arrived carrying a large box. Snuggled down in a well padded corner were four baby pheasants. The mother had been killed either by a hawk or cat and they wanted to

save them if possible. Two of them were very weak, no doubt from exposure and lack of food. We got a little food down them and covered them up for the night.

In the morning the two weak ones had gone to little bird heaven, but the remaining two started to pick food for themselves.

The next thing to do was find a hen with chickens, this was done at Mt. Phasant. The first hen only had one chicken hatched and refused to have them, another one was tried and she immediately tucked them under her, but her chicks were just hatching and she wouldn't be leaving her nest to feed so they were finally given to a third one, so all is well.

Thanks gentlemen, we have at least saved two from probably a flock of 12 to 20.

These birds were introduced in Nova Scotia in 1935 and have had their ups and downs over the years. Now they are fairly well established in sections of the province and provide good sport for hunters in a limited time in the fall. All for this time.

Hashish (Hash)

What is it?

Like Marijuana it comes from the cannabis or hemp plant. But it is made from the resin or sap of the plant and depending on what part of the world it comes from it may be brown, black, or reddish in color. It will look like a little dried cake of material.

Why is it used?

It's six times as powerful as Marijuana and will affect the body for a longer period of time. It will give some people a relaxed feeling of well being and may even cause mild hallucinations. What kind of hallucinations? They're similar to daydreams in which you become more aware of your surroundings and the people around you. The THC in Hashish may even give you feeling of super human powers that may lead you to do things that are rather dangerous. It all depends on your moods.

Is Hashish dangerous?

Like all other drugs it may be dangerous because people using it may turn to illegal things or may become violent and uncontrollable and need hospitalization to calm them down. No matter how you look at it the use of Hashish is a gamble. I guess

the QUESTION IS, IS IT WORTH IT? Are you willing to risk your life style and may be even your life for it? Can someone become addicted to Hashish?

The answer is YES. Some people become Psychologically addicted to it and cannot function without a few tokes. They usually are the last to realize that much of their life style revolves around Hash.

What can be done for someone like this?

Your Mental Health Centre, your clergy, guidance counselors, public health nurses, R.C.M.P. are willing to lend a hand. I think they would be willing to help someone rather than hospitalize them or arrest them. All you have to do is ask for a Hand!

You should know the facts on Hashish. These people are willing to help you find out that they are.

Wedding

Daw-Crocker

At 3 p.m. on March 29th, 1975, the Freeport Baptist Church was the scene of a pretty Spring wedding at which time Wendy Gail Crocker, the third daughter of Mr. and Mrs. J. Watson Crocker of Freeport was united in marriage to Robert Brian Daw, son of Rev. and Mrs. K. Daw also of Freeport. For this happy occasion the Church was decorated with Candelabras, Easter Lilies and other Spring flowers in keeping with the Easter season. The pews were marked with Lily of the Valley and white ribbons.

The bride entered the Church on the arm of her father radiant in a floor length gown of white Peau-de-Soi with empire waist, stand up collar, long cuffed sleeves and bodice trimmed with buttons and lace. Her fingertip veil held in place by a white satin flower was edged with lace matching that of her gown. She carried a bouquet of red roses and baby's breath placed on an open Bible on which were attached white ribbons and red rose buds.

Rev. K.H. Daw, the groom's father, performed the double ring "Christian Wedding" ceremony in which the bride and groom face the congregation after the bride's father had given her in marriage. The Matron of Honor was Mrs. Loretta Outhouse, sister of the bride. She was dressed in a floor length gown of blue polyester with empire waistline, shirred bodice, sweetheart neckline, short puffed sleeves and trimmed with matching lace. A blue Picture hat completed her outfit. Her posy bouquet was of blue and pink tipped mums and daisies with gold ribbons.

The two bridesmaids, Mrs. Heather Titus, cousin of the bride, and Mrs. Loretta Outhouse, sister of the bride, were dressed in floor length gowns of pink and white flowered material with matching long sleeved jacket. Her corsage was yellow.

The brides mother chose a floor length gown with long sleeves in coral with white accessories and white corsage. A reception was held in the Church Vestry following the marriage ceremony at which time Mr. Theodore Morrell a friend of both families acted as Master of Ceremonies, giving the toast to the bride.

The groom's mother chose a floor length gown of pink and white flowered material with matching long sleeved jacket. Her corsage was yellow.

FIRE COMMISSIONS MAKE SUCCESSFUL START

"A successful start" was the way the Digby Neck Fire Commissioners explained their first bingo party held on June 21st at the Sandy Cove Community Hall.

Approximately 100 people were on hand for the 'early bird' game and all seemed to enjoy the evening. Prizes were won and some were disappointed, but better luck next time.

The dark-horse prize, a carving set donated by Allied Furnishings of Digby, was won by Mrs. Dale Van-Tassell. The door prize, donated by Gordon Theriault, was won by Mrs. Gordon Theriault. Amid much good-natured laughter

Mrs. Theriault informed us that she would donate the prize for the next bingo. Thanks so much.

Much thanks goes to the Digby Lions Club for their assistance. Claude Westcott took care of cards and guided the event along the way and Art Everett was the caller for the evening.

The next bingo will be held at the Sandy Cove Hall on Saturday, June 28 at 8 p.m. Jackpots will increase and other prizes will be available.

The Circus Is Coming To Town

"Caroline, Caroline, wake up, dear. The alarm has rung. Sh-Sh. We mustn't wake Alice."

In the dim light of the dawn Caroline could be seen jumping quickly out of bed, grabbing her clothes, and fairly flying into them. She ran down the thickly carpeted long mahogany stairway to the front door of the grand old homestead. The Fenwick House had been in the family for four generations. It was a huge fourteen room abode with a French Gabled roof. It was located on the water front of the Annapolis Basin in the town of Digby, Nova Scotia. A wide field and a steep bank separated it from the sea.

peted long mahogany stairway to the front door of the grand old homestead. The Fenwick House had been in the family for four generations. It was a huge fourteen room abode with a French Gabled roof. It was located on the water front of the Annapolis Basin in the town of Digby, Nova Scotia. A wide field and a steep bank separated it from the sea.

Across the Basin, twenty miles away was Annapolis Royal, an historic settlement. From Annapolis to Digby were many little towns like Bear River, Smith's Cove and Acaciaville.

"Grandma, here I am," stage whispered Caroline, so excited that she could hardly contain herself. "We'll have breakfast when we come back." Grandma said.

As they tiptoed out the front door they looked across the Basin. The early morning mist steamed from the water as the sun was tinting the sky and clouds before its early summer arrival.

It was across there that they would see the first signs of the Sparks Circus train which was coming to Digby July 29, 1921 at 5:00 a.m. Grandma had promised Caroline that she would take her to see the train come in, to see it unload, and to watch the animals parade up the hill to the Circus Grounds where the circus would open that afternoon and evening.

Caroline's sister Alice was too little to get up that early to go see the circus train come in. This made Caroline feel very grown up and important.

"There it is! There's the train!" exclaimed Grandma who was really as excited as Caroline. "You can see the white smoke as it comes along the coast down the valley. It whistles two long and two short whistles at each crossing."

Caroline looked across the long wharf near by, and over a lumber vessel from Turkey, and Oh yes, Oh yes, she could see the trail of the train's smoke. It was in Bear River now. If they hurried along they would get to where the train was coming in at the same time the train got there.

Caroline slipped her hand into Grandma's hand in

order to help Grandma go faster. As they hurried down Maiden Lane all was quiet. What fun to be out so early in the morning before anyone else was awake!

The railroad track came from the Long Wharf and Grandma stepped from wooden tie to wooden tie while Caroline balanced her tip toes on the iron rail and her feet fairly flew along.

Neither one talked but just hurried as fast as she could. They turned left onto Water Street where all the stores were. Usually Caroline loved to skip in one door and out the other door of the big red brick post office with the town clock on it. This was the landmark of the town. The striking of the clock and the nine o'clock curfew were sounds the townspeople lived by.

But this morning her feet sped quickly by. Also she didn't even turn to look into dear Miss Clinton's immaculate candy store where with a copper Caroline could take a long time choosing between a licorice stick, a peppermint stick, a lemon drop, or one chocolate. How prim Miss Clinton always looked in her long dark gray skirt and pretty floral blouse covered with a white starched apron with a white bow tied neatly behind.

Now they were about half way there and Caroline's heart began to beat fast. They could hear the whistle of the train whooo-who-who-who. That meant it was rounding the bend at the south end and would come on into Digby.

Grandma's hand held Caroline's more tightly. It was hard to say which one was the more excited.

"Let's turn in this short street, and we'll get there when it does" said Grandma

gang plank from the train to the platform and Caroline backed away and stepped over beside Grandma, for out of the huge doorway came an enormous grey elephant with its trunk swaying from side to side. Caroline squealed when she saw another elephant come out holding on to the tail of the first one with its trunk. There were four, five, six more elephants that came off the train. A man with a long hook guided them in a

Immediately people of all kinds began appearing from the train. It was a fancy passenger one and curtains began to be pulled up and an acrobat lady peered out to see where she was. Caroline looked right at her and the lady smiled at Caroline and gave her a little wave.

"Come on down here" said Grandma. "They are taking the animals off already." Caroline skipped quickly to the next section of the train. Several men were putting a

line up the road to the hill leading to the Circus Grounds.

My, the excitement when the lion cages were detached and the pacing lions walked to and fro. They looked so wild and dangerous.

Then came the cages of the tigers - a number of them. They were striped and pretty.

Several men skipped down the steps from the train. "I think they are the clowns" said Grandma. "They will be all dressed up in costumes later."

Well, what a lot to see! Caroline and Grandma watched and waited for the longest time. There would be so much to tell when they got back home.

Finally Grandma said they must be going. "We'll go round by the store and see if the fruit stand is open yet."

It was open and guess what? Grandma bought Caroline and herself each a firm ripe pear. That was a real treat for Caroline knew a "store" pear was a rarity. Taking a delicious bite of hers and talking so excitedly about all they had seen, Caroline looked up into Grandma's face and said "The best part of a circus is seeing the Circus train come to town, and you taking me, Grandma." She cuddled her arm into Grandma's and the two walked happily homeward eating their pears.
